11 "GreenRoad has already reduced driving risk  
12 60 per cent for the 70 buses in London where it has been  
13 in use by 110 drivers since 2010."

14 And then jump to the next paragraph:

15 "Using mobile and cloud technology, GreenRoad helps  
16 drivers self-improve. It provides drivers with instant  
17 feedback about their manoeuvres using the traffic light  
18 LEDs on the dashboard as well as detailed analysis and  
19 recommendations for drivers and depot managers."

20 This system was set out in your paper, but at that  
21 time was this -- because I see the article is dated 2012  
22 but wasn't explored, was it, in one of your meetings?

23 MR JAIN: Not exactly this company, but I think the concept  
24 that is mentioned in this article, we are certainly  
25 aligned with these concepts.

26

1 MS MAGGIE WONG: If we go back to your submission, FE-1,  
2 page 40, paragraph 4. It made reference to the  
3 scrapping of the project. And you also stated that:

4 "One of the fundamental changes in management after  
5 2015 was that instructions and decisions were seldom  
6 documented and often reversed arbitrarily without  
7 discussion or consultation with other internal  
8 stakeholders."

9 Internal stakeholders, who do you mean?

10 MR JAIN: I mean people working in various other  
11 departments.

12 MS MAGGIE WONG: Yes. Over the page, page 41. You  
13 mentioned at paragraph 2:

14 "Due to the specific nature of questions ... are  
15 specific to KMB, but a lot of what is happening in the  
16 franchised bus industry in Hong Kong is also a direct  
17 result of systematic problems such as outdated  
18 regulatory framework, lack of open competition, lack of  
19 adoption of technology, lack of transparency, and a ...  
20 [the] relationship between the regulator and the  
21 franchisee."

22 So you have identified five problems here.

23 CHAIRMAN: Before you get involved in the details, you used  
24 the word "systematic ", but in fact do you mean  
25 "systemic"?  
26

1 MR JAIN: Yes, that's correct. Thank you, Chairman.

2 MS MAGGIE WONG: The first one is the outdated regulatory  
3 framework. Can you elaborate on why you consider the  
4 current regulatory framework outdated?

5 MR JAIN: The regulatory framework that is prevalent in Hong  
6 Kong at the moment, I think that was adopted decades  
7 ago. At that time, the technology for monitoring  
8 various things didn't exist. Now, we have obviously  
9 gone to a much different level of data that is available  
10 from operations. We are talking about artificial  
11 intelligence, autonomous buses and all those things.  
12 The current regulatory framework in Hong Kong does not  
13 really allow for anything that is something that fits  
14 into the norm of 20/30 years ago.

15 For example, autonomous vehicles is a classic  
16 example. If any bus company in Hong Kong would like to  
17 introduce autonomous buses, the regulatory framework or  
18 the legal framework does not even exist, whereas other  
19 cities have gone ahead and adopted or they have modified  
20 their systems or regulatory frameworks, to allow for  
21 these innovative new ideas or innovative practices.  
22 Hong Kong still lacks those things.

23 MS MAGGIE WONG: Which cities are we talking about?

24 MR JAIN: We are talking about China, Singapore, Dubai, Abu  
25 Dhabi, a lot of cities around the world have adopted or

26

1 reformed their regulatory systems to adopt open data  
2 framework, they have reformed to allow for autonomous  
3 test trials, e-bus, electric bus, solar buses --

4 CHAIRMAN: Just dealing with autonomous vehicles, is the  
5 point you are making this, that in Hong Kong you are  
6 required to have a person in a vehicle, and it can't be  
7 driven by a computer; is that the point?

8 MR JAIN: That's one. Second is if you want to put any kind  
9 of vehicle on road in Hong Kong it has to go through  
10 a type approval process, and the type approval process  
11 itself does not allow anything beyond, I would say,  
12 post-war specifications.

13 MS MAGGIE WONG: It is more concerned about the nature of  
14 the bus. In terms of regulatory framework, what about  
15 the black box system? Do you know much about how one or  
16 whether one knows anything about what can be installed  
17 in the black box system for buses? I think in Hong Kong  
18 it is completely lacking. What about, in your  
19 experience, in other countries?

20 MR JAIN: I think it is more of a norm these days, rather  
21 than exception. If we go to any of the developed  
22 cities, they are very widely adopting a telematics  
23 system, places like even Turkey, I was there and Turkey  
24 has these things in place. European cities, they all  
25 have telematics devices on board. Again, going back to  
26

1 Singapore, Dubai, Seoul, Tokyo, all these cities which  
2 are very comparable to Hong Kong, high public transport  
3 usage, they are adopting telematics devices and it has  
4 yielded significant benefits in terms of operational  
5 performance and efficiency.

6 MS MAGGIE WONG: Yes, and we have touched on regulatory  
7 framework.

8 The second complaint is about lack of open  
9 competition.

10 Can you elaborate on that?

11 MR JAIN: For example I would look at Singapore, and quote  
12 that example. In Singapore they were running their bus  
13 system almost in an identical manner to the way we do in  
14 Hong Kong until 2012, 2013, when they started looking at  
15 reforming the bus operation in Singapore based on the  
16 changing environment of public transport.

17 And at that time they looked at it and they realised  
18 the bus operation in its present form in Singapore was  
19 unsustainable, and they completely changed the model and  
20 adopted a new regulatory framework, which has now  
21 brought in much better services, much better  
22 performance, a lot of innovation, and they have, I would  
23 say, assumed leadership in bus operation at least in  
24 this region at the moment.

25 That is the kind of thing that has happened because  
26

1           they have opened the market for international players to  
2           come in, and participate in the process, and bring in  
3           best practices from around the world.

4           Once you have no competition in Hong Kong, we have  
5           been working with the same operators all throughout  
6           without any risk of them being -- there is nobody  
7           upsetting the apple cart here, which means that those  
8           incentives to bring innovation, incentives to bring  
9           efficiency, don't exist. And that is what I mean here  
10          with the open competition.

11       CHAIRMAN: By that, do you mean that Singapore invited  
12          tenders to run bus routes, and that produced  
13          competition, and new international players, as it were,  
14          came in to run buses in Singapore?

15       MR JAIN: That's correct. I'll give you one example of  
16          a company called Tower Transit there. Prior to Tower  
17          Transit coming into the market, in Singapore they always  
18          complained about driver shortage -- because of the same  
19          reasons as we quote in Hong Kong.

20          Today, Tower Transit has surplus application of  
21          people who want to drive their buses.

22       CHAIRMAN: How has it achieved that?

23       MR JAIN: Because they have adopted a completely new type of  
24          HR engagement, human resource engagement with the  
25          drivers, and I have visited their depot, and it is  
26

1 a very pleasant experience, where literally everybody  
2 greets everybody, it is a flat management structure, and  
3 drivers consider themselves to be really part of the  
4 whole delivery process.

5 CHAIRMAN: That is Singapore?

6 By contrast how would you describe Hong Kong?

7 MR JAIN: In Hong Kong, I would say that it is a very "us  
8 and them" mentality. The management thinks the drivers  
9 are an entity which is troublemaker, which is always  
10 asking for this, and asking for unreasonable things,  
11 whereas if you ask the drivers -- and I'm a qualified  
12 licensed bus driver, and I can tell you the drivers  
13 think that the management people who sit in this  
14 air-conditioned office know nothing about bus operation,  
15 they are the ones running the whole show.

16 You can see there is a lack of mutual trust there,  
17 and this is what I mean, we need to reform this  
18 industry, make sure this industry is attractive, for  
19 people to come and join as an employee, and of course  
20 also need to understand that this is something which  
21 becomes the fabric of the city. Bus operation is  
22 moving -- KMB moves 3 million people in Hong Kong, total  
23 bus operation is about 4.5 million people.

24 And if we can't address these issues, this is, if  
25 you ask me, we can buy the best buses, but if we can't

26

1           have the proper good drivers to run these buses, the  
2           whole exercise is futile.

3   MS MAGGIE WONG:   Thank you.

4   CHAIRMAN:   Since you have touched on it, what is your  
5           opinion or assessment of the quality of the buses and  
6           the way in which they are maintained, generally, in Hong  
7           Kong?

8   MR JAIN:   I would rate it quite highly.   I think the Hong  
9           Kong buses are very well engineered, they run for 17,  
10          18 years, and even at the end of their life they are in  
11          a very good condition.

12   CHAIRMAN:   Because they have been maintained properly?

13   MR JAIN:   That's correct, yes.

14   MS MAGGIE WONG:   What about training?   The drivers'  
15          training?

16   MR JAIN:   There are two aspects of training.   One is the  
17          classroom training.   The second is the motivational  
18          aspect of training.   And I do feel that, and I have  
19          looked at documents that have been submitted in the  
20          first lot, which were sent to me last Friday, and it is  
21          a fact at that there is a lot of effort people are  
22          putting, ticking a lot of boxes in terms of number of  
23          hours, this and that, there are enough manuals there,  
24          but the motivational aspects of training where people  
25          feel part of the company -- one fundamental aspect of

26

1 service quality is where the employee considers it's not  
2 just his job to deliver a service, but it is his duty to  
3 deliver a service. And I think that is the kind of  
4 level that one needs to transcend in terms of training,  
5 which personally I feel is lacking at the moment.

6 CHAIRMAN: You spoke of the contrast with Singapore with  
7 competitive tendering. What is the position in Hong  
8 Kong?

9 MR JAIN: In terms of?

10 CHAIRMAN: For tendering for the renewal of franchises.  
11 What happens in Hong Kong, compared with Singapore?

12 MR JAIN: In Hong Kong, there is -- first of all, I have not  
13 seen any tendering in last 20 years. And two, whenever  
14 there is a renewal, usually the approach that our  
15 regulator has taken here is to say: this company has  
16 been performing well, hence we should renew their  
17 franchise. Whereas they have not really looked at  
18 benchmarking the companies on what is happening  
19 internationally. Are we up to the speed to the  
20 international level of innovation, international level  
21 of efficiencies, and can we push or nudge the existing  
22 operators into that direction, or bring new players into  
23 the market which will eventually uplift the whole game?

24 MS MAGGIE WONG: And the next complaint you said is lack of  
25 adoption of technology.

26

1           We have heard one example about telematics. Apart  
2           from that, what other comments can you make about this?

3       MR JAIN: In terms of technology, we are now talking  
4           about -- I'm currently involved in a study of artificial  
5           intelligence, use of artificial intelligence in public  
6           transport, I'm doing that on behalf of UITP, and I can  
7           tell you the kind of things people are doing in bus  
8           industry are superb. In Singapore SMRT has developed  
9           a system called Prolearn. What they do is they have  
10          installed cameras in the buses and they collect all the  
11          real data points of individual driver behaviour on the  
12          road and they predict which driver is going to have an  
13          accident.

14          And then they customise that learning process for  
15          that driver, so the driver is retrained and avoids that  
16          accident.

17          So it is an intervention and prevention process in  
18          the safety management that has drastically reduced --  
19          now I have the figures with me. If you want I will be  
20          happy to provide those, but they have significantly  
21          reduced the incidents that the driver would otherwise  
22          have on the road because of this training system.

23          It is just a simple data collection and training  
24          system for the driver.

25       CHAIRMAN: Are these figures compiled by Singapore's Land  
26

1 Transport Authority?

2 MR JAIN: This figure was -- I have -- I came to know of  
3 these figures in Germany when SMRT CEO was making  
4 a presentation.

5 CHAIRMAN: Perhaps you would be kind enough to provide them  
6 to the Secretariat.

7 MR JAIN: Absolutely.

8 MS MAGGIE WONG: When was this study carried out?

9 MR JAIN: The study is ongoing at the moment, as we speak.

10 MS MAGGIE WONG: And can I understand correctly, is it  
11 a system that you have collected all the data, and then  
12 making analysis and prediction that certain drivers are  
13 prone to accidents, and then that driver will be picked  
14 out for retraining?

15 MR JAIN: Yes. Before they have an accident.

16 MS MAGGIE WONG: Yes.

17 MR JAIN: So this is just one example. The second example  
18 is predictive maintenance, automation in the depots, so  
19 a lot of hazardous processes in the depot could be  
20 automated.

21 So a lot of companies are doing a lot of things  
22 around the world to uplift these technological aspects  
23 of operations.

24 MS MAGGIE WONG: Since we are on technology, may I ask you  
25 about a few other equipment or technological devices.

26

1           One is called electronic stability programme. Have you  
2           heard about that?

3       MR JAIN: Yes, I have.

4       MS MAGGIE WONG: How do you find that programme?

5       MR JAIN: I mean, it is something which certainly enhances  
6           the vehicle performance, especially on roads where it  
7           would have a higher tilting and those things, so it is  
8           basically an electronic device which will change the  
9           centre of gravity of the bus, or adjust the centre of  
10          gravity of the bus. So yeah, it certainly enhances the  
11          vehicle performance, no doubt about it.

12       CHAIRMAN: Perhaps a short way of dealing with this would be  
13          to take Mr Jain to the working group paper on this. The  
14          Transport Department have told us that in March of this  
15          year they convened a group made up of franchised bus  
16          operators and bus manufacturers, to consider a range of  
17          technological advances. And this is being done at some  
18          haste because it is apparently going to be able to  
19          report this month. And they set out the various matters  
20          being looked at.

21       MS MAGGIE WONG: That is in TD-1, page 98. That's the  
22          Transport Department paper.

23               Mr Jain, if we look at page 98, it sets out from (a)  
24          to (f) certain technology, or safety devices that the  
25          working group has been exploring.

26

1 CHAIRMAN: If you have the paper version in front of you, if  
2 you go to page 94 and have a look, you will see how this  
3 is explained by the Transport Department. As you can  
4 see, the paper is entitled "Application of New Devices  
5 or Technology on Franchised Buses".

6 Then we get a history of what they have been looking  
7 at.

8 But this working group was set up in the middle  
9 of March, I think it was, of this year, to examine these  
10 matters, and as I have told you already, they are doing  
11 so in some haste.

12 MR JAIN: Chairman, I think it is a good initiative by  
13 Transport Department, but I think what triggered was  
14 something that should not have triggered this. They  
15 should have done this nevertheless. This is what I mean  
16 about being a bit outdated on these aspects, where we  
17 are reacting to things instead of acting in advance and  
18 being proactive about this.

19 CHAIRMAN: Thank you.

20 MS MAGGIE WONG: Thank you.

21 Paragraph 10 refers to a number of on-vehicle safety  
22 devices that have been explored. The first one is the  
23 electronic stability control and roll stability control.

24 At paragraph 12, this particular device is  
25 elaborated on. And we can see how the braking system  
26

1           helps steer the vehicle on its intended track. But in  
2           terms of the use of this device, is it widely used in  
3           the world so far as your experience is concerned, or at  
4           least in Singapore?

5       MR JAIN: I think in the new buses that they are purchasing,  
6           this is certainly there. I'm not very sure whether they  
7           have retrofitted the older fleet of that.

8       MS MAGGIE WONG: If we look at the second suggestion at  
9           page 98, it is "Capping the maximum speed at  
10          [70 kilometres per hour] on downhill by the speed  
11          limiter".

12           It was elaborated on at page 101 that this is also  
13          reactive to the 2003 Tuen Mun accident. And it states  
14          at paragraph 17 that:

15           " ... the speed limiters are in-built systems of  
16          modern buses geared to the electronic engine management  
17          system. The setting or activation of the speed  
18          limitation function is controlled by a software ..."

19           Then in the last line:

20           "In a free rolling situation, the vehicle speed is  
21          not determined by engine revolutions or gearing but  
22          rather by the force of gravity acting against the  
23          rolling assistance of the vehicle."

24           Then:

25           "The three bus manufacturers have initially advised  
26

1           that it is technically feasible to engage retarder to  
2           slow down a bus when the speed limit is over  
3           70 [kilometres per hour] under the downhill situation."

4           So my question is this, Mr Jain. Hong Kong's  
5           geographical condition is quite unique because we do  
6           have a lot of steep downhill roads, and if one is  
7           setting, for example, the telematics to 70, configuring  
8           the speed limit to 75km per hour, it would mean that  
9           when the bus is driving downhill it would be much faster  
10          than 75. And this suggested solution by using speed  
11          limiter, how would you consider this suggestion, or what  
12          is your comment on this?

13 CHAIRMAN: Before you answer that question, isn't the speed  
14          limiter set at 70 kilometres per hour?

15 MR JAIN: It can be set at any speed --

16 CHAIRMAN: In Hong Kong, isn't that what is required?

17 MR JAIN: That is right, yes. 70 is the maximum that is  
18          allowed under the Road Traffic Ordinance.

19 CHAIRMAN: I think the question is this. If you are going  
20          down a steep hill the vehicle can go more than 70.  
21          Because all that is happening under the current system  
22          is your fuel is being starved.

23 MR JAIN: That's correct. If you asked my opinion this is  
24          a device that is of course needed in Hong Kong.  
25          Retarders, if I recall correctly, retarder was almost  
26

1           evented in Hong Kong 20 years ago because of this  
2           downhill issue where a double-decker bus was coming down  
3           the hill and, if I recall, there was an incident on Hong  
4           Kong Island because a bus could not stop in time and it  
5           just went into the junction.

6           Having said that, in these modern times, again,  
7           there are systems which can go beyond this, as in not  
8           just 70 kilometres an hour, they can be dynamic  
9           limiters. Basically you can geofence the areas where  
10          the bus speeds can be regulated to the road speeds.

11          So in a 50-kilometre zone the speed limiter can set  
12          itself to 50, whereas in a 70-kilometre zone it would  
13          limit itself to 70. So you will not have a situation  
14          where a bus can still drive at 70 in a 50-kilometre  
15          zone.

16       MS MAGGIE WONG: I think that's the next proposal suggested  
17          by the Transport Department about speed control by GPS,  
18          or geofencing.

19       MR JAIN: Yes, that's what -- yes.

20       MS MAGGIE WONG: But we know there are certain problems  
21          about geofencing or GPS in high rise buildings.

22       CHAIRMAN: In roads surrounded by high rise buildings.

23       MS MAGGIE WONG: On roads surrounded by high rise buildings.

24          Do you know if there is any recent technology where  
25          this problem can be solved or rectified or ameliorated?

26

1 MR JAIN: Some of these are addressed by having multiple  
2 data sources to capture the same information.

3 GPS is one source. And sometimes in bus operation,  
4 because we are running fixed-route operation, you know  
5 exactly where the bus is going, and you know the number  
6 of turns that the vehicles are making, you can do  
7 a process called dead reckoning.

8 CHAIRMAN: By that you mean the number of revolutions of the  
9 wheel?

10 MR JAIN: Yes, of the wheel. So you know the exact distance  
11 of the wheel, you know the exact route, so even if you  
12 don't have a GPS position, you can literally work out  
13 where the bus is.

14 CHAIRMAN: By dead reckoning?

15 MR JAIN: By dead reckoning. That's one way of doing it.  
16 The second way is -- because all the buses, because of  
17 the telematics device, they already have a 3G device on  
18 board, you can also use the GSM network and using your  
19 telecom towers to locate the bus.

20 So GPS is only one point of reference, the second  
21 point of reference comes from the GSM device.

22 And, as I said, dead reckoning could be your third  
23 points.

24 Once you have three data points you can triangulate  
25 and you can with a high degree of confidence tell where  
26

1 the bus is.

2 MS MAGGIE WONG: You raise a point that with this technology  
3 you can actually adjust the speed in the telematics  
4 programme. If you have a digital map, if the -- we know  
5 that the Transport Department has a digital map of the  
6 speed limits of the whole territory in Hong Kong. Can  
7 you combine the system of the digital map with the  
8 telematics system so that the system itself can  
9 automatically adjust the speed limit without the  
10 operators configuring it, but automatically it would  
11 adjust its speed limit based on the location where the  
12 bus is?

13 MR JAIN: Theoretically the answer is yes. But you will  
14 need to built that infrastructure of communication  
15 between TD and the bus operators, whereby any changes by  
16 the Transport Department on the speed of a particular  
17 road would be automatically transmitted and goes into  
18 the system.

19 I would say the possibility goes even beyond that,  
20 because bus operation is not always directly correlating  
21 to the traffic restrictions imposed, speed restrictions  
22 imposed by the Transport Department. There are sections  
23 in the bus operation, and I can tell you, where the  
24 drivers are trained to slow down because it is a black  
25 spot, because the visibility or sight lines are poor.

26

1 Even in those sections you can limit the speed of the  
2 buses without affecting the rest of the traffic.

3 CHAIRMAN: So you could fit in variable thresholds depending  
4 on where the bus is, depending on, one, the legal speed  
5 limit, but two, the exceptional limit that you, the bus  
6 company wants the bus to have as a maximum going around  
7 a particular bend, or whatever it is?

8 MR JAIN: If it is a sharp, 90-degree turn, you can actually  
9 limit the speed to 20kph or 30kph for those turns.

10 CHAIRMAN: Then you could generate an exceptional report if  
11 there was an infraction of any of those various  
12 thresholds?

13 MR JAIN: That's correct.

14 There are two ways of doing it, one is you can limit  
15 the bus not to even cross it. So even when the driver  
16 tries, it just does in the work.

17 The second is you can allow the driver to drive at a  
18 higher speed but you would generate an exception report  
19 and then take a post-event action.

20 CHAIRMAN: Are you aware of this digital map that sets out  
21 the speed limits that are imposed in Hong Kong?

22 MR JAIN: I do understand that that is available in the  
23 public domain, yes.

24 MS MAGGIE WONG: Even before I asked you, you already knew  
25 about this digital map?

26

1 MR JAIN: Yes, I think it is public knowledge, as far as  
2 I know.

3 MS MAGGIE WONG: Thank you.

4 The next device they suggested is the collision  
5 prevention device, which is at page 103, and Mr Jain,  
6 may I refer you to the comments made by the franchised  
7 bus operators at paragraph 26, which is at page 105.

8 The last line:

9 "In sum, the FB operators do not consider that the  
10 installation of collision prevention and lane-keeping  
11 devices are effective for enhancing the safe operation  
12 of FB services."

13 And the first question I would like to ask is,  
14 Mr Jain, do you know whether it is common to use this  
15 collision prevention device in the world?

16 MR JAIN: The answer is yes, it is common, I think it is  
17 a very relative term. But it is used in many places.  
18 But I would also say that I would disagree with this  
19 statement here.

20 We are tending -- I mean, what I'm hearing right  
21 now, are we are looking at this technology as something  
22 which is very static, which means it is  
23 a one-size-fits-all, whereas I completely agree, you  
24 know, I just had a quick glance at paragraph 26, and  
25 I agree that in certain situations in Hong Kong, because  
26

1 Hong Kong lanes are very narrow, the traffic is very  
2 close to each other, these devices would become  
3 a nuisance in a way. But today, the technology allows  
4 us to customise this device, make them even  
5 self-learning devices. If you know how artificial  
6 intelligence or machine learning systems work, every  
7 road, section by section, you can define parameters and  
8 road conditions and you can set the alert levels  
9 accordingly.

10 So you don't have to apply exactly the same alert  
11 levels on the highway when a vehicle is travelling at  
12 70 kilometres an hour, to a vehicle when it is running  
13 at 30 kilometres an hour in Nathan Road in a stop-and-go  
14 situation. So, you can apply different parameters of  
15 proximity. Or you can even deactivate at 30 kilometres  
16 an hour because you know the type of accidents it  
17 would -- even if it has, it won't be fatal, but at 70,  
18 the fatalities could be very high.

19 There are different things you can set, which could  
20 be completely dynamic based on the section of the road,  
21 the route, the type of the bus, a lot of things you can  
22 do, even the number of passengers on board the bus.

23 CHAIRMAN: We have been referred to a paper produced by  
24 Citybus in 2014 after they had a trial of, I think, they  
25 called it Mobileye.

1 MR JAIN: Yes.

2 CHAIRMAN: Have there been developments since 2014 to date  
3 in this kind of technology?

4 MR JAIN: Chairman, if I can resort to some rhetoric, the  
5 world has changed since 2014.

6 MS MAGGIE WONG: And the last device that was mentioned --

7 CHAIRMAN: Perhaps we could -- have you been referred to  
8 this paper before, the Citybus paper?

9 MR JAIN: In fact, during my KMB period I -- I have not  
10 referred to this paper, but I met Mobileye people at  
11 that time. We have had meetings with them. And I have  
12 seen at that time -- I think they also did a trial with  
13 KMB, but that was prior to when I joined, if I recall  
14 correctly.

15 CHAIRMAN: It might help if you just glance at the report,  
16 because -- we take what you say, that the world has  
17 changed since 2014, but perhaps we can refer you to  
18 where it is.

19 MS MAGGIE WONG: CTB-3, page 601.

20 CHAIRMAN: Perhaps the question really I'm inviting you to  
21 answer is this. Having seen what the concerns are in  
22 that report, are these concerns that are now addressed  
23 by the developments in technology?

24 MR JAIN: I had, again, a quick look at one of the numbers  
25 which I would consider the most relevant here. It is  
26

1 the accuracy of Mobileye. When I look at that table,  
2 even the unions say that the accuracy was 69 per cent.

3 Anything which is 69 per cent accuracy and can save  
4 lives, I would look at adopting that system and  
5 fine-tuning it instead of abandoning the system.

6 CHAIRMAN: So your answer really is, as with other devices,  
7 you can now configure variable thresholds which would  
8 make the technology of use; is that how you would  
9 put it.

10 MR JAIN: Precisely. Because there are two things we look  
11 at in these aspects, one is the severity of the  
12 collision and the frequency of collision. So, severity  
13 at high speed is much higher, the frequency may be  
14 lower. Whereas in urban areas, you can have more  
15 frequency, because the proximity is higher, but the  
16 severity is much less.

17 This is part of the risk management exercise that  
18 a bus company should adopt. So every time you introduce  
19 a new route -- and this is the part of safety culture,  
20 safety management systems, that the bus companies need  
21 to adopt, where they can look at the data which is  
22 coming from various devices, as well as the traffic  
23 conditions. So it is a part of the risk management in  
24 advance.

25 If it is a more stop-and-go, the number of traffic  
26

1 lights are more, the speed is less, the risk profiles  
2 are different from when the bus is running on a highway,  
3 unhindered at 70 kilometres an hour.

4 So in operating terms these are two different buses,  
5 two completely different types of things.

6 MS MAGGIE WONG: And as you said, the technology has moved  
7 on since this report. So now, as far as you understand,  
8 this technology has been moved on so that you can  
9 customise the fittings to configure it to make sure it  
10 is less of an annoyance in busy streets. Is that what  
11 you are telling us in terms of this device?

12 MR JAIN: That's correct. And if you look at the kind of  
13 trials that are happening in the autonomous device  
14 world -- so in fact there is a journey to autonomous  
15 driving, which is called level 1 to level 5. If you  
16 look at levels 3 and 4 of autonomy, these are really not  
17 autonomous vehicles, these are still driver-on-board,  
18 but there are so much assistive technologies to the  
19 driver that the driver is really there to do manual  
20 overdrive. So he only intervenes in exceptions.

21 At level 4 the driver is literally basically  
22 watching out. He is not driving/driving, the bus drives  
23 itself. At level 3, the driver drives, but there is so  
24 much assistive technology he has in terms of proximity  
25 detection, in terms of any hazards, a lot of  
26

1       pedestrians, for example. So all these cameras and  
2       sensors they are actually providing you the information  
3       to adapt to a particular environment.

4       MS MAGGIE WONG: Yes, and the next device is the driver  
5       monitoring device. It appears to be quite a new device  
6       in terms of detecting unsafe behaviour. That is at  
7       page 105, and it states:

8               ".. unsafe behaviour like dozing, drowsiness, bad  
9       posture".

10       Then we see at page 105, that at least two operators  
11       advised that they would install a similar system and do  
12       a trial from early May 2008.

13       Mr Jain, my question is this. We know in Hong Kong  
14       that drivers drive a long period of driving hours. This  
15       device is intended to detect drivers who are fatigued.

16       Is this device commonly used in the world? And how  
17       effective is this device throughout the world?

18       MR JAIN: I have not seen a very widespread use of this  
19       device yet. But I am aware of a number of trials that  
20       are happening.

21       In my opinion, this technology is still at the  
22       evolutionary phase. It will eventually come, certainly,  
23       it is not perfected yet. Because there are a lot of  
24       false positives that it is generating, which makes,  
25       I would say, a situation -- it has the potential to make  
26

1 a situation worse than making it better. Because it  
2 alerts the driver at the wrong time, sometimes, and it  
3 distracts them from focusing on driving, because too  
4 many false positives can distract you.

5 Having said that, there are three technologies that  
6 are working here. One is a camera-based technology,  
7 which is looking at the driver's face and detecting the  
8 micro-expressions on his face. The second is one that  
9 comes into the category of variables. There are  
10 variables which are like glasses, like Google Glass,  
11 which look at their cornea, the dilation, and movement  
12 of the eyes. And the third is you can wear it like  
13 a watch.

14 So there are multiple types of technologies being  
15 tested. I'm pretty sure in a year or two, we would see  
16 some convergence, we will see some success there.  
17 However, at this moment, I have not seen very widespread  
18 operational deployment of this.

19 MS MAGGIE WONG: Apart from these devices mentioned, do you  
20 have any other suggestions --

21 CHAIRMAN: Before you move on. You will be aware, no doubt,  
22 of the tram accident in Croyden in 2016, where the  
23 findings were that the driver had fallen asleep having  
24 started work early in the morning. Are you aware that  
25 Transport for London recommended that one of these  
26

1 anti-drowsiness cameras be deployed. I think Guardian.

2 Are you aware of that?

3 MR JAIN: Yes, I know.

4 CHAIRMAN: So that is one of the deployments of the

5 technology, but there are not very many, is that what

6 you are saying?

7 MR JAIN: I know this was deployed, but I'm not sure of the  
8 success in terms of data that is coming, whether this is  
9 really a success story or not. Because if you are  
10 dealing with 40 or 50 per cent of false positives, that  
11 gives you technology fatigue, so you tend to ignore the  
12 technological interventions, which is what I meant, yes,  
13 the technology is there, but it has not yet come to  
14 a convergence where we can have the confidence of 95,  
15 97 per cent on this.

16 CHAIRMAN: Thank you.

17 MS MAGGIE WONG: In terms of the technological devices  
18 mentioned in this paper, do you have any other  
19 suggestions from your experience that may be useful in  
20 terms of ensuring safety of bus driving in Hong Kong?

21 MR JAIN: There are N number of good examples around the  
22 world which are being deployed at the moment, people are  
23 testing, trying. Artificial intelligence which is, to  
24 me, a progression of good data analytics system. You  
25 take it to the next level, machine learning, and then

26

1           you take it to the next level, where you bring it to an  
2           AI-based system, more predictive.

3           So basically, what it does, let's say hypothetically  
4           in this Tai Po incident, if the bus was tilting -- even  
5           before it starts to tilt, driving behaviour, it would  
6           detect a very minute level of data and it would create  
7           that intervention framework. It would even tell the  
8           supervisor what kind of prescriptions, it would provide  
9           the prescriptive information to the supervisor on what  
10          kind of intervention is necessary.

11          So what we are doing now is we are removing a lot of  
12          human factors from these things. Because many times  
13          what happens is supervisors are making split-second  
14          decisions and sometimes it is affected by their  
15          emotions, personal state, psychological state. Once you  
16          have these AI-based systems -- I wouldn't say they are  
17          very intelligent systems, but they are very rational  
18          systems. So they give you very rational advice and that  
19          allows you to act in a much accurate manner, in a way.

20          This is the new frontier that has opened, and a lot  
21          of companies are working in these areas, they are going  
22          towards operations, customer interface, engineering,  
23          safety, security, all these areas you see very  
24          widespread adoption of these technologies now.

25   CHAIRMAN: So this use of technology would enable  
26

1 a supervisor to pick up, or rather the data would be  
2 presented to him, in exceptional reports, excessive  
3 braking, excessive acceleration, speeding, more  
4 excessive braking, a pattern would be emerging, and the  
5 supervisor could intervene real time.

6 MR JAIN: Yes, I would go a level ahead of this. Because  
7 currently the supervisor in a normal ROM system  
8 I described, he sees whether a bus is an outlier, what  
9 it does, what the AI kind of system does -- I mean, our  
10 human brain can process only a few variables, and  
11 mankind has also evolved in a way that we can learn,  
12 unlearn and relearn, whereas an AI-based system never  
13 forgets anything. We tend to forget, they never do.

14 So what it can do is it can look at the conditions  
15 of the vehicle, the conditions of the road, at that time  
16 what kind of weather conditions, prevailing weather  
17 conditions are, what kind of traffic conditions are in  
18 the surrounding, and what kind of driver characteristics  
19 are, and it can bring all these parameters into one  
20 framework and customise a response for that situation.

21 So we are talking about not just bus speeding, we  
22 are talking about before a bus even speeds it can do  
23 a risk assessment based on all these parameters and  
24 create an intervention framework.

25 MS MAGGIE WONG: Intervention framework in a sense that the  
26

1 system takes over, or it would simply inform the  
2 supervisor?

3 MR JAIN: It can even tell the driver: be careful today, it  
4 rainy, there is a lot of traffic, a water pipe has burst  
5 at this particular section, so don't drive above  
6 30 kilometres an hour. You know.

7 MS MAGGIE WONG: Okay. Got it.

8 So it is informing you in advance how to drive?

9 MR JAIN: Correct.

10 MS MAGGIE WONG: And the next complaint you made is the lack  
11 of transparency, and a hand-in-glove relationship  
12 between the regulator and the franchisee. That's at  
13 FE-1, page 41.

14 The lack of transparency and the relationship  
15 between the regulator and the franchisee, can you  
16 explain a little bit on the transparency?

17 MR JAIN: Lack of transparency, when I wrote that, I meant  
18 a lot of data not being in the public domain. I can  
19 relate to a personal example. I was standing at a bus  
20 stop near my house, it's a reliable bus service, and  
21 I had a bus coming on my app in two minutes' time, and  
22 the bus came and went on my app, and I never saw the  
23 bus.

24 And there is no way I can go back and check and no  
25 way I can verify this kind of information so I can write  
26

1 a complaint -- and I have written quite a few complaints  
2 about bus services in my area, and usually what  
3 I receive, and I classify them as cooky cutter  
4 responses, they are very standard responses "We are  
5 looking into it", "We constantly review it", but nothing  
6 is changing, and that is what I mean, that because there  
7 is a lack of transparency, what is actually happening is  
8 something that as a customer, I am at the receiving end  
9 most of the time.

10 MS MAGGIE WONG: Compared to Singapore, can I ask this:  
11 about all these technological devices that were  
12 suggested to be put into buses, would the government in  
13 Singapore give any subsidy directly or indirectly  
14 towards the improvement in adding this new technology to  
15 buses?

16 MR JAIN: So in Singapore the current model is that  
17 government buys all the buses. So the asset belongs to  
18 the government and it is given to the operator to  
19 operate. The operator is held accountable to very  
20 stringent KPI, key performance indicators, and if they  
21 exceed those indicators there is a mechanism for  
22 incentives. So that perpetuates itself into an  
23 investment in innovation.

24 MS MAGGIE WONG: By keeping the asset of the buses, they  
25 control the technology or the standards of the buses by  
26

1           doing that, or are there any reasons behind the  
2           Singapore government having all these buses purchased?

3       MR JAIN:   So the reason for them to purchase buses is  
4           actually not relevant to technology or anything.  They  
5           wanted to create a different kind of model and their  
6           objective was to at that time run buses more from  
7           a social perspective rather than commercial perspective.

8           I'm not sure whether you want to cover that aspect  
9           of their reform.  But as far as the technology is  
10          concerned, the government defines the baseline  
11          technology, which means these are a requirement as  
12          a part of the franchise, but then they also offer  
13          incentives to the bidders to exceed these parameters,  
14          and that's where the innovation comes.

15          So base line is there.  So on-board devices, giving  
16          data streams directly to their OCC or central control  
17          centre, those things are defined in the contract, those  
18          are requirement.

19       CHAIRMAN:  In the franchise agreement?

20       MR JAIN:  Yes.

21       CHAIRMAN:  Is that the case in Hong Kong?

22       MR JAIN:  In Hong Kong the definitions of these are very  
23          loose, I must say.  We call that a light touch  
24          regulation, but which means that the parameters are so  
25          wide that there could be a high degree of manipulation,

26

1           which is what I mentioned in my letter as well.

2       MS MAGGIE WONG: At page 41, you mentioned about lost trips,  
3           reporting system has gaping holes which allow a very  
4           high degree of manipulation. So my question is: how  
5           would this lost trips reporting system affect the safety  
6           aspect of the operation of buses in Hong Kong?

7       MR JAIN: This is not related to the safety, I must say.

8       MS MAGGIE WONG: Okay.

9           If we go now to your second submission dated  
10          18 June 2018, page 44.

11          You made reference in the first black bullet about  
12          Hong Kong lacking a central traffic command centre --

13       MR JAIN: Correct.

14       MS MAGGIE WONG: -- which can monitor the real-time  
15          operations of all transport operators. So what you are  
16          suggesting is the government itself should have  
17          a central traffic command centre. But in what way could  
18          it monitor the real-time operations of all transport in  
19          Hong Kong given the volume of buses in Hong Kong and the  
20          number of operators? How would you suggest it operate?

21       MR JAIN: Counsel, actually, I would make reference to the  
22          paper you have shown earlier about Seoul and Singapore.  
23          If you refer to that, there are two levels. One is  
24          a bus management system, and then there is a central  
25          traffic management centre, they call it GMS or

26

1 something, I can't remember.

2 CHAIRMAN: Yes, perhaps we could refer Mr Jain to that.

3 MR JAIN: That's exactly what I'm talking about. At the bus  
4 operator level you have a bus management system which is  
5 looking at the bus assets, whereas at the central  
6 traffic control centre you are looking at bus as an  
7 asset, but also its interactions with the rest of the  
8 transport system, rest of the traffic, traffic lights,  
9 the road infrastructure, all kinds of things which is  
10 really in the public domain.

11 MS MAGGIE WONG: If I may refer you to the SEC-2 bundle,  
12 page 825, paragraph 2.8 makes reference to a new bus  
13 management system, but in this case, it is a central  
14 traffic command centre. So what you are suggesting is  
15 apart from the -- there are two levels, the first is the  
16 bus management system, which is managed by whom, if  
17 I may ask?

18 MR JAIN: By the bus operator.

19 MS MAGGIE WONG: By the bus operators.

20 MR JAIN: If you refer to paragraph 2.10 on the same paper,  
21 that is a central traffic command centre.

22 MS MAGGIE WONG: Ah. So it would require the connection  
23 between the bus management system and the transport  
24 operation and information service system in order to get  
25 the data from the bus management system to monitor. Is

26

1           that the case?

2       MR JAIN: That's correct, yes. But it looks at it from  
3           a city perspective, looks at the entire transport assets  
4           on the road, whether it is a moving asset or a fixed  
5           asset.

6       MS MAGGIE WONG: And is that also the system in Singapore?

7       MR JAIN: They have a similar system. I'm not exactly sure  
8           the extent of it that it entails, but they have  
9           a significant number of these functionalities in that  
10          system.

11           As far as I know, one thing that I have recently  
12          gathered as a part of my study on artificial  
13          intelligence, they are even deploying drones on traffic  
14          situations to collect real-time traffic data and then  
15          adjusting traffic lights or creating response systems or  
16          variable messaging systems to direct traffic and balance  
17          the traffic flow on the network.

18           So there is a very wide-scale application and  
19          adoption of these things. Especially -- this is normal  
20          operation but if you look at those one in a million  
21          eventualities where you have an emergency situation,  
22          this is the kind of system which can save a lot of  
23          lives.

24       MS MAGGIE WONG: And I can see in that paragraph, this  
25          system appears to be instead of the bus operator giving  
26

1 information to the public about the real-time  
2 information, it would be this central traffic command  
3 centre releasing the information from the government  
4 source to the public. It appears it works like that.  
5 Do I understand that correctly?

6 MR JAIN: They work hand in hand, they are not discrete  
7 entities, they have a relationship between them. If you  
8 really want to know which bus has how many people in it,  
9 I think it is the BMS which would look at these things,  
10 whereas at the higher level, getting the traffic  
11 information, getting information about junctions,  
12 incidents that have happened, which is beyond the remit  
13 of the bus operator, that information would be available  
14 from this traffic command centre, which would be then  
15 used by the bus companies to verify their information.

16 So there has to be a two-way flow of information to  
17 create a better response in the end.

18 MS MAGGIE WONG: Yes. Understand.

19 At page 45 at the first bullet you make reference to  
20 the:

21 "Current regulatory model in Hong Kong where there  
22 is a cap on profit without a cap on losses is designed  
23 to suit continuity of incumbent operators."

24 Can you explain that as to what it meant?

25 MR JAIN: So in the past this regulatory framework when it  
26

1           was created, the bus companies used to have a guaranteed  
2           profit model, in those times. And it was, I think, in  
3           the '90s sometime, this was changed to a profit cap  
4           model.

5           I put myself in a bus operator shoes, and this is  
6           what happened in KMB up to 2012. Because of the railway  
7           expansion, the KMB ridership started to go down and KMB  
8           started to lose money. The only way to come out of  
9           this, from losing money is either you give up the  
10          franchise when it doesn't work, or you start raising  
11          fares, which is not the right way.

12          Because the government controls the topside,  
13          regulatory framework controls the ceiling of the  
14          pricing, and then it should also give some kind of  
15          a floor for pricing. Otherwise for commercial operators  
16          around the world it would be of no significance.

17          So, for example, imagine a scenario where the bus  
18          operator cannot make profit in Hong Kong, what will they  
19          do? Being a commercial operator, mostly part of listed  
20          companies, they would have to terminate the franchises.  
21          What are we going to do as a city? Because if the bus  
22          operation is not making profit you can't even attract  
23          international players to come into the market. So there  
24          has to be, I would say, a reasonable degree of  
25          commercial framework which covers both the upside and  
26

1 low side.

2 Why I'm saying it only favours the incumbent  
3 operators is because the incumbent operators they have  
4 already incurred a lot of expenses and fixed costs, so  
5 they can make the system work for them, whereas a new  
6 operator cannot enter this market and have the same  
7 level field to operate.

8 But if you have a sustainable commercial model  
9 there, then you can attract international entities  
10 because then they will look at the longer-term play of  
11 the bus operation.

12 MS MAGGIE WONG: And the bullet from the bottom at page 45,  
13 you refer to:

14 "Current reporting and monitoring system is archaic  
15 and was designed in an era when technology to monitor  
16 buses and drivers did not exist."

17 Can you explain a little bit on this statement.

18 MR JAIN: This goes back to the regulatory framework. So,  
19 for example, now it is increasingly around the world,  
20 the bus regulators are managing the bus operation based  
21 on what I mentioned. EWT, schedule adherence, and all  
22 these things. In Hong Kong we are only looking at when  
23 the bus leaves the terminus, and after that we are not  
24 monitoring its performance along the journey, so the  
25 bunching happens a lot in Hong Kong. There are a lot of

26

1 problems because of traffic and stuff and we are not  
2 able to address it. As a customer, if you are standing  
3 in a stop, intermediate stop somewhere, you may have  
4 three buses coming at one time and then for the next  
5 20 minutes or 25 minutes you may have no buses coming.

6 So what others have adopted, they are using  
7 technology to create space between these buses, so if  
8 you go to London, the bus may stop at a particular stop  
9 for a little while, just to create that separation, and  
10 even services to customers. So when you are at a bus  
11 stop you are getting continuous even services. So every  
12 three minutes, it does not mean zero minutes and then  
13 six minutes, it means maybe 3.3, 3.5 minutes. So the  
14 variance of those things is reduced. And this is the  
15 kind of monitoring that regulatory agencies are doing  
16 around the world now.

17 So Singapore, when I mentioned the KPIs, they are  
18 directly related to these kind of parameters, which are  
19 exact data points along the journey on a bus route  
20 rather than you just start from the depot and that's it,  
21 and after that you forget about it.

22 MS MAGGIE WONG: You mentioned here about excess waiting  
23 time, EWT, at stop-by-stop level, and monitor  
24 punctuality of each trip end to end with telematics and  
25 real-time operation management system making this  
26

1 possible.

2 So you have got to have telematics and real-time  
3 operations together in order to achieve this excess  
4 waiting time. Is that the case?

5 MR JAIN: Telematics is already there. Real-time operations  
6 is a software layer over this hardware. So it is not  
7 a very difficult exercise on top of that.

8 I normally would not -- I would marry these two  
9 because most of the people I have seen who have invested  
10 in telematics have also invested in real-time operation.  
11 So it is a natural progression to telematics. As far as  
12 I know, even Openmatics, they supply you a real-time  
13 operation management system as a part of their offering.

14 So most of the system providers they are putting it  
15 as a package. At KMB we decided to do it on our own for  
16 other reasons.

17 This is one package, once you have these kind of  
18 systems, which in Hong Kong we already have, it allows  
19 us to have -- those data points are available, but we  
20 are not monitoring or regulating that. We don't have  
21 the regulatory framework for those data points.

22 MS MAGGIE WONG: Yes, understand. Another thing I would  
23 like to ask you is the five-year forward planning  
24 programme. And you mentioned, if I could go back to  
25 your submission at page 39, FE-1. At the bottom, you

26

1           said that:

2           "As the person responsible for coordinating,  
3           preparing and submitting 5-year forward planning  
4           programme including the route development plan ... to  
5           Commissioner of Transport, one of my roles was to vet  
6           the coherence of our safety-related plans with the rest  
7           of the operational plans."

8           I would like to ask, were you involved in any way  
9           with the forward planning programme for the years 2018  
10          to 2023?

11       MR JAIN: The one that was submitted recently?

12       MS MAGGIE WONG: No. Previously.

13       MR JAIN: So I made the submissions in 2013, 2014, 2015 and  
14          2016.

15       MS MAGGIE WONG: Okay. But not --

16       MR JAIN: So 2016 submission theoretically included plans  
17          for 2018 and 2019 in a way, but they were not firmed up.  
18          They were notional in that sense.

19       MS MAGGIE WONG: Thank you.

20                If I may just show you the forward planning  
21          programme to see if you have seen or whether you have  
22          any input on some of the matters there.

23                If you go to TD-1, page 180 -- the reason I'm asking  
24          is, first is the new KMB licence was discussed in 2016,  
25          in the course of 2016, but in fact the actually granting  
26

1 of the licence was in March 2017. Of course when you  
2 planned this forward planning programme you have to look  
3 into the accident rates and everything two years before.

4 So if I can ask you to take a look at this report,  
5 in particular -- this was the KMB forward planning  
6 programme.

7 CHAIRMAN: For what date? When was it prepared?

8 MS MAGGIE WONG: This report was prepared in June 2017, at  
9 page 1035. In bundle TD-4.

10 And may I first of all ask whether you have made any  
11 input whatsoever to this report?

12 MR JAIN: I have not, counsel.

13 MS MAGGIE WONG: Then I don't need to ask you --

14 CHAIRMAN: But presumably the topics came up year after  
15 year? The same sort of topic?

16 MR JAIN: That's correct, Chairman. So after 2016  
17 submission I was involved, and I left KMB in December  
18 2016 --

19 CHAIRMAN: So you were not involved in June 2017.

20 MR JAIN: That's correct.

21 CHAIRMAN: But perhaps the point can still be made by  
22 reference to a particular topic?

23 MS MAGGIE WONG: If I can take you to page 187, I am  
24 interested particularly on the bus captain training and  
25 the monitoring, planning programme.

26

1           Perhaps I can do my question this way. If you look  
2           at this paragraph, or this particular section, it made  
3           certain references to the:

4           "... KMB dedication to provide safe, reliable and  
5           comfortable services ..."

6           And then they mentioned something about elements of  
7           defensive driving, good driving attitude. And then:

8           "Driving performance monitoring is carried out with  
9           systematic checking by driving instructors and followed  
10          up with disciplinary actions if required. Moreover,  
11          real-time driving indicators ... will also help to  
12          identify those bus captains who have a higher incidence  
13          of 'harsh braking' on a given route than is normal.  
14          This information can be used to ensure that appropriate  
15          proactive feedback is given to a bus captain with aim of  
16          promoting improved driving behaviour that will in turn  
17          serve to prevent/reduce 'loss of balance' cases ... "

18          It made reference here to real-time driving  
19          indicators to help to identify those bus captains that  
20          have bad driving habits in a way. And then they  
21          emphasise the proactive way or proactive feedback. But  
22          without -- when I discussed with you about the lacking  
23          of this real-time indicator, or real-time information  
24          back to the Lai Chi Kok Centre, is it achievable?

25       MR JAIN: It is achievable, but I think what it means here  
26

1 is that they use data generated real time at a later  
2 date using in a proactive manner, but using reactive  
3 data, to then train the driver.

4 So this is something that is happening, as I said,  
5 it is a T plus 1 response.

6 CHAIRMAN: This is historic review of real-time data?

7 MR JAIN: Correct.

8 CHAIRMAN: But it is historic.

9 MR JAIN: It is historic, so it is using data generated real  
10 time, and then somebody analyses it and then tells the  
11 driver, "Last month you have not been driving very  
12 nicely", so it is a proactive feedback, yes, but it is  
13 based on reactive data.

14 However, what I referred to is that you can generate  
15 it on a real-time basis and real-time response.

16 MS MAGGIE WONG: And they also mentioned something in 8.3.2  
17 above the first bullet:

18 "The electronic tachographs are being used to  
19 monitor bus captain performance, especially with regard  
20 to speeding."

21 And then the second bullet:

22 "Real-time driving indicators are installed in all  
23 buses which can help bus captains to utilise the driving  
24 skills learnt in the Eco-safe Driving Training ... "

25 And then:  
26

1 "As denoted above, the benefits of such Eco-safe  
2 driving to the bus captains are:

- 3 1. Reduce the risk of accidents ...  
4 2. Reduce stress levels ...  
5 3. Increase confidence in vehicle control ... "

6 Again, this of course is also reactive to the  
7 historical data, but not --

8 MR JAIN: And this eco-driving is actually exactly analogous  
9 to green driving, or GreenRoad, what you were referring  
10 to. It is just a terminology.

11 CHAIRMAN: Eco-driving means don't accelerate sharply, don't  
12 brake sharply, use the fuel you have already put into  
13 the engine to glide you to a stop.

14 MR JAIN: A lot more coasting, yes, so you burn less fuel.

15 MS MAGGIE WONG: The next section I am interested in is the  
16 8.3 --

17 CHAIRMAN: Before you move on, whilst you were with KMB,  
18 were there any parameters inputted into creating  
19 thresholds for automatic reports of driver misbehaviour,  
20 for example speeding?

21 MR JAIN: Okay. Automatic reports, to --

22 CHAIRMAN: Were there automatic reports?

23 MR JAIN: No, as far as I know, there were no automatic  
24 reports, but their people were analysing driver data  
25 based on their performance. So it was more of  
26

1 a statistical analysis. People were analysing it.

2 CHAIRMAN: But the equipment was capable of generating, if  
3 you put in the input, an automatic report?

4 MR JAIN: It could, yes.

5 CHAIRMAN: But it was not being used to do that?

6 MR JAIN: It was not being done that way.

7 CHAIRMAN: Why not?

8 MR JAIN: I think there are people who are better suited to  
9 answer that question.

10 This "why not" is one question that even I have in  
11 my mind why we abandoned that system, which is something  
12 that would have benefited immensely to the bus operation  
13 in Hong Kong.

14 CHAIRMAN: Thank you.

15 MS MAGGIE WONG: I would like to take you to another  
16 document. Sorry, there is one more question. In  
17 paragraph 8.3.7, where it mentioned:

18 "As a safety enhancement measure, the company has  
19 appointed a professional counseling service provider ...  
20 for staff and ... immediate family ... to raise ...  
21 problems or difficulties they ... encounter in their  
22 daily lives."

23 I have a question about this.

24 Is there a system, in perhaps Singapore, for  
25 example, to detect drivers that have behavioural

26

1 problems or that have psychological problems that are  
2 not suitable for driving? Do you have similar system,  
3 or do you have a system?

4 MR JAIN: Psychological state of a driver is one of the  
5 biggest challenges in bus operation around the world at  
6 the moment. People are trying for different things,  
7 again I will resort to artificial intelligence, where  
8 people are looking at your biological data, which is  
9 micro-expression analysis, your eye dilation, your eye  
10 movement analysis, to generate some kind of intelligence  
11 on what state of mind you are in. This is still a work  
12 in progress, I must say.

13 So this Prolearn system in Singapore tends to go in  
14 exactly that direction. It looks at a driver's response  
15 to real-time traffic situations, and predicts the  
16 propensity of this driver to cause an accident. And  
17 hence it goes into an intervention mode and retrains the  
18 driver.

19 So it is, in a way, a psychological response where  
20 either you became too complacent whilst on the road, or  
21 you are going through a certain situation.

22 But if you had, let's say, an argument with your  
23 spouse and you turn up for work, I doubt if there is any  
24 system at this moment in the market which can detect  
25 your state of mind.

26

1 MS MAGGIE WONG: There is another document that I would like  
2 to refer you to. It is in MISC-1 bundle at page 127-5.

3 It is the letter from the Road Safety Council to this  
4 Committee dated 31 May 2018.

5 MR JAIN: May I know the page number?

6 MS MAGGIE WONG: Yes, page 127-5. That's the first page of  
7 the letter. 127-5. MISC-1.

8 MR JAIN: I'm on that page.

9 MS MAGGIE WONG: If I may refer you to one paragraph. It is  
10 127-6. They mentioned about:

11 "The second system is known as a type of  
12 'telematics' and was installed in vehicles under a pilot  
13 scheme to assess the technological interface."

14 They mentioned RIBAS, which is basically about  
15 speeding, idling, harsh braking and harsh acceleration.  
16 And the parameters are set for various features, which  
17 are considered normal operating limits, and then  
18 whatever occurs outside the parameters is flagged  
19 automatically by the computer to a supervisor. And  
20 then:

21 "Follow-up action depends very much on management  
22 policy but can range from advice, through counseling to  
23 retraining and even discipline measures."

24 So it appears the Road Safety Council is stating  
25 that the police is starting to do the system.

26

1           Is this a system similar to what you have in  
2           Singapore in terms of the use of telematics?

3       MR JAIN: As I said, most of the telematics systems do these  
4           things. There are many suppliers around the world. The  
5           functionalities differ a little bit in each of the  
6           models and each of the supplier, but fundamentally they  
7           are all trying to do the same thing, they are trying to  
8           give you the vehicle health and vehicle performance data  
9           on a regular, real-time basis at the back end. That  
10          allows you to monitor the performance of the vehicle,  
11          the location of the vehicle, and basically, as I say,  
12          asset performance in general terms.

13       CHAIRMAN: Now, LKW Parts and Services Limited is a Hong  
14          Kong company, is it not? Are you familiar with it?

15       MR JAIN: No, never had any dealings with them.

16       CHAIRMAN: We have.

17       MS MAGGIE WONG: Another topic I would like to ask you is  
18          about black box.

19                If I may take you to the bundle TD-1, page 393.

20                This is a letter setting out certain responses to  
21                issues raised by this committee. This letter is dated  
22                13 July 2018.

23                If I may invite you to page 394. The question was  
24                this. Inviting the Transport Department to:

25                "Identify the occasions of such communications in  
26

1       respect of the better management of bus drivers, rather  
2       than bus operations. In such communications, has TD  
3       given any directions to [franchised bus] operators to  
4       explore using any specific new applications? If those  
5       communications were in writing, please provide copies of  
6       the communications to and from the [Transport  
7       Department] and [franchised bus] operators. If the  
8       communications were made orally, please describe when,  
9       by and to whom the communications were made ... [and]  
10      the nature of those communications."

11     CHAIRMAN: I think it would help Mr Jain if you were to take  
12       him to the statement in the Transport Department paper  
13       which gives rise to this question. Then he would  
14       understand the context.

15     MS MAGGIE WONG: I think it is annex 2. The TD paper is in  
16       TD-5 bundle, page 1688.

17       Mr Jain, this is a paper prepared by the Transport  
18       Department, and the heading is "Application of new  
19       technologies in franchised bus operation".

20       And this note set out the:

21       "...actions taken by the Transport Department in  
22       enhancing safety of franchised bus ... operation in  
23       recent years by working with the FB operators in  
24       applying new technologies."

25       And in one of the paragraphs, one of the sections,  
26

1 if you look at page 1689, it makes reference to black  
2 box electronic tachographs. You can see in paragraph 5  
3 it states that:

4 "Since 1 July 2004, electronic tachographs (commonly  
5 known as 'black box ') have been installed on all new  
6 [franchised buses] in compliance with the requirements  
7 imposed by the [Transport Department] in October 2003.  
8 Currently all [franchised buses] are equipped with black  
9 boxes."

10 If you go to paragraph 7 it states:

11 "While there has been no further formal and written  
12 enhanced requirement on the specifications of black  
13 boxes from the TD since 2003, during the TD's ongoing  
14 contacts with the bus manufacturers and the FB  
15 operators, both the TD and the FB operators have been  
16 keeping in view the new technological advancement to  
17 enhance their existing devices on the buses."

18 Then they stated at paragraph 8:

19 "The FB operators have actually started widening the  
20 scope of information kept by the black box as early as  
21 2006 such that apart from the basic functions for  
22 monitoring the driver behaviour, the black box can also  
23 record the operation of braking, opening of doors, the  
24 sounding of bells ... to assist the FB operators in  
25 managing their fleet."

26

1           Then in paragraph 9, it makes reference to:

2           "Over the years, the TD has been communicating with  
3           the FB operators, requesting them to study and  
4           investigate the feasibility of applying new technologies  
5           and the information kept by the black box to better  
6           manage their bus operation and drivers. For example  
7           utilising the global positioning system signal received  
8           by the black box, coupled with the enhanced capacity for  
9           data transfer, the TD has required the FB operators, as  
10          a new franchise commitment, to provide real-time bus  
11          arrival information through mobile platform ... to  
12          better serve the travelling public in the 2015 franchise  
13          negotiation exercises ... and subsequently the 2017  
14          franchise negotiation with the Kowloon Motor Bus ..."

15          It was in context, given their statement about the  
16          ongoing negotiations with the franchised bus operators  
17          that there was this follow-up question --

18       CHAIRMAN: No, it is ongoing communication. That's what was  
19          claimed.

20       MS MAGGIE WONG: Yes, ongoing --

21       CHAIRMAN: The context is this. In 2003 in November the  
22          Transport Department stipulated what had to be in  
23          a tachograph, and that had to be on new buses from  
24          1 July onwards. The question is, well, what have you  
25          done since then in the ensuing 15 years to update the  
26

1 requirements for tachographs or telematic equipment?

2 That is what led to this response.

3 You were working in KMB were you not, responsible  
4 for this equipment generally?

5 MR JAIN: But if I can just add something here. What  
6 happened in 2003 is not what we are referring to what is  
7 happening today.

8 CHAIRMAN: No, we understand that. We are trying to fill in  
9 the dots. 2003 is the last bit we have in writing. So  
10 that was the purpose of the questions from the  
11 Committee: What have you been doing since then?

12 MR JAIN: So the biggest change that happened since 2003 --  
13 so tachograph, having bus generate data about vehicle  
14 performance, that existed in early 2000, because buses  
15 were generating -- using electronic chips to control the  
16 bus systems.

17 So the moment that happened, the data was available.  
18 What was not available in 2003 is a reliable means to  
19 bring this data backwards, real time. So the  
20 communication system was not available.

21 CHAIRMAN: Mr Jain, what we are trying to find out is what  
22 the Transport Department did to mandate the use of this  
23 kind of equipment. That's the purpose of these  
24 questions.

25 MR JAIN: Okay.

26

1 CHAIRMAN: And these are the answers that you are now being  
2 taken to at TD-1 at page 394.

3 MS MAGGIE WONG: I think maybe, Mr Jain, should I put it  
4 this way, the Transport Department only issued one  
5 guideline, it is in 2003. They have not revised the  
6 guideline in any written form between 2003 until to  
7 date.

8 And what they are saying is there are ongoing  
9 communications between the operators and the Transport  
10 Department about adding more functions and technology in  
11 relation to this black box.

12 So we are asking has this happened throughout the  
13 years, or is this by your own initiative that the bus  
14 operators on their own initiative do this upgrading of  
15 the black box?

16 MR JAIN: I can only speak for KMB what we were doing at  
17 that time. A lot of this that was being done at KMB was  
18 on its own initiative and it was primarily driven by the  
19 commercial reasons. Because if you see KMB's profit and  
20 loss accounts in 2012, KMB made a loss, somewhere in the  
21 region of \$120 million, and the ridership was constantly  
22 declining for last 10 or 15 years, since the opening of  
23 West Rail line, really, 2002/2003, all the way up to  
24 2012, the ridership was in a constant decline, the  
25 company's financial performance was in a constant  
26

1 decline.

2 So in 2012, the objective at that time was to either  
3 turn around the business or do something drastic with  
4 it. Any shareholder's commercial response has to be  
5 like that.

6 So basically, at that time, we started looking at  
7 all kinds of parameters, technology, any possible means  
8 that could improve performance of the bus operation,  
9 performance of the systems, and which can reduce the  
10 cost of operation and improve the delivery of  
11 operations.

12 So if you see the data from 2012 to 2015 -- and  
13 I think they are available in Traffic and Transport  
14 Digest, the bus miles of KMB, I think we managed to  
15 reduce something like 22 million miles of bus operation  
16 in these two years and we increased the ridership by  
17 3 per cent, so we cut out a lot of unproductive mileage  
18 and converted that into productive mileage.

19 This is the kind of thing that we were doing,  
20 telematics was a part and parcel of this whole global  
21 initiative we were doing. Because we were not just  
22 looking at the bus device, we were looking at route  
23 planning, we were looking at driver deployment,  
24 scheduling, rostering, all aspects of the bus operation  
25 and trying to optimise the bus operation and generate

26

1 efficiencies, which did yield results if you look at  
2 KMB's performance from 2013, 2014, 2015. From  
3 a loss-making company it slowly changed into  
4 a profit-making company.

5 MS MAGGIE WONG: I would like to ask you a particular answer  
6 made here in the TD's response at page 394.

7 MR JAIN: Yes.

8 MS MAGGIE WONG: If you look at the last line, it makes  
9 reference to the fact that the TD also discussed the  
10 same, meaning to step up regular checks on the data  
11 recorded by the black box to monitor bus driving, bus  
12 captain's driving manner and behaviour with KMB at the  
13 regular meeting held on 27 June 2016.

14 Do you recall there was such a meeting?

15 MR JAIN: I cannot recall to that extent, exact date, but  
16 I can only say by this date KMB's entire fleet was  
17 already equipped by telematics devices.

18 CHAIRMAN: The real question is this. Was the Transport  
19 Department involved in urging you, KMB, to use your  
20 telematic equipment to step up regular checks on data  
21 recorded by the black box to monitor bus captains'  
22 driving manner and behaviour?

23 MR JAIN: They possibly could have, but it was already an  
24 intent within KMB to do so.

25 CHAIRMAN: Right.

26

1 MR JAIN: I mean --

2 CHAIRMAN: I think to help you --

3 MR JAIN: I'm afraid I can't go back and recall every  
4 statement from the meetings.

5 CHAIRMAN: I understand that. But to help you, I think it  
6 would help if you were shown the documents that show  
7 this was in part, perhaps, related to the renewal of the  
8 franchise, because there were papers I think from this  
9 month that are part of that; am I right, Ms Wong?

10 MS MAGGIE WONG: I think there was a paper on this.

11 MR JAIN: There was a whole slew of measures that were being  
12 discussed at that time, and I know this part, fairly  
13 confidently, that for the first time this requirement of  
14 having a real-time reporting device, and estimated time  
15 of arrival, was inserted into franchise documents for  
16 KMB for the first time in 2016.

17 CHAIRMAN: The ETA --

18 MR JAIN: Appeared before that.

19 CHAIRMAN: Yes. That was a requirement, but we are trying  
20 to find some requirement that bus companies should use  
21 the data in the black box to monitor driver behaviour,  
22 and we can't find that.

23 MS MAGGIE WONG: If I may take you to the renewal of licence  
24 document as to this matter.

25 First of all, may I take you to SEC-2 bundle,  
26

1 page 735. This is a LegCo paper dated 11 January 2016.

2 It relates to the background brief on the franchise  
3 for the bus network of Kowloon Motor Bus.

4 And if you go to paragraph 11, "Enhancing standard  
5 of bus service":

6 "... members raised concern over the performance of  
7 franchised bus service at the panel meetings, special  
8 financing committee meetings as well as the council  
9 meetings. They urged the Administration to take the  
10 opportunity of franchise renewal to require service  
11 improvement by bus companies, including provision of  
12 real-time bus service information to passengers,  
13 provision of priority seats and barrier-free facilities,  
14 improvements in bus lost trips as well as bus service  
15 frequencies during peak periods."

16 And then we have the whole section on the provision  
17 of real-time bus service information to passengers.  
18 That's paragraphs 12 and 13. But none of them relates  
19 to the improvements on the black box or any reference to  
20 black box.

21 CHAIRMAN: Well, to the use of black box to monitor drivers.

22 MS MAGGIE WONG: Yes.

23 CHAIRMAN: That's the point.

24 MS MAGGIE WONG: I wouldn't trouble you with the things in  
25 the middle. By the time we got to June 2016, that's in  
26

1 the same bundle, SEC-2 bundle, page 799. That's  
2 in June 2016.

3 It made reference to the public consultation, and  
4 the views it received. And one of the issues they  
5 raised at page 803 is the bus safety, section 4, bus  
6 safety, 4(a):

7 "To monitor bus captains' driving behaviour more  
8 closely ..."

9 So this is the view, if you look at the previous  
10 page, 802, it was the major comments received during  
11 public consultation, and in section 4 it summarised  
12 their views in terms of bus safety. It is to monitor  
13 bus captains' driving behaviour more closely.

14 So that's what we have reached.

15 And by the time of the March 2017 licence,  
16 I wouldn't take you to the terms, but I will take you to  
17 the document that the TD asked the KMB to undertake to  
18 perform. If I may take you to the TD-5.

19 That would be KMB-9 bundle. Pages 3997.

20 MR JAIN: Yes.

21 MS MAGGIE WONG: The only reference here to this franchise  
22 operation is in relation to enhanced safety feature in  
23 subparagraph 3. That is the electronic data processing  
24 device.

25 Not a single word about using it to monitor bus  
26

1 drivers' behaviour more closely.

2 So it is very loose term saying, oh, there is this  
3 enhance safety feature, but how is it going to be used,  
4 it is not specific, or not even spelt out.

5 So by stating that, it appears that the TD's  
6 suggestion that there are ongoing communications about  
7 having this to specifically monitor drivers' behaviour,  
8 doesn't appear to be reflected in all these documents.

9 Do you agree with that statement?

10 MR JAIN: On the face of it, when I look at these documents,  
11 you are absolutely right, and it goes back to my  
12 assertion that the franchise document in Hong Kong is  
13 a very loosely written document in the sense that it is  
14 a very wide range of things that you can do within that,  
15 which makes it subject to manipulation to some extent.

16 But having said that, in all my interactions with  
17 Transport Department, I mean, I can say that the intent  
18 was right. Sometimes the knowledge was not available,  
19 sometimes the drive was not there. So that is different  
20 from intent. I think the intent was not wrong from  
21 Transport Department, in any of the meetings that I have  
22 attended.

23 I have never seen them -- they have asked the right  
24 questions, they want to improve things, but it may not  
25 have been that specific, it may not have been -- or

26

1           that -- I would say prescriptive to bus companies.

2       MS MAGGIE WONG:   Yes.

3       CHAIRMAN:   So not prescriptive and not documented?

4       MR JAIN:   Correct.

5       CHAIRMAN:   Loose?

6       MR JAIN:   Yes.   But this is not just this parameter, I can  
7           go on, in the whole franchise document, there are a lot  
8           of things here which are very loose in that sense.

9       CHAIRMAN:   Just a moment.

10           But overall you characterise it as not prescriptive,  
11           and you acknowledge from what you have been shown, not  
12           documented.

13       MR JAIN:   That's correct, yes.

14       CHAIRMAN:   Thank you.

15       MS MAGGIE WONG:   If one considers bus safety is of paramount  
16           importance, it would be usual and normal to include it  
17           at least in the franchise agreement, would you agree  
18           with that statement?

19       MR JAIN:   I think I'll just go back to your statement, if  
20           one considers, that should not be part of that  
21           conversation.   Bus safety is of paramount importance and  
22           it should be the top priority both from a regulator  
23           perspective as well as operator perspective, because we  
24           are here talking about public safety, people's safety,  
25           are staff safety, and to me that is uncompromisable.

26

1 CHAIRMAN: And the context in Hong Kong is this, that  
2 unfortunately over the years, we have had a series of  
3 catastrophic bus accidents. That's the context in which  
4 the regulator operates.

5 MR JAIN: It is extremely unfortunate, but yes, that is the  
6 reality, and I think the intent of the entire transport  
7 system, we run a very good transport system in Hong  
8 Kong, and this is one area which needs to be addressed  
9 sooner than later.

10 MS MAGGIE WONG: Thank you.

11 That leads me to one specific question I would like  
12 me to ask you, the annual report.

13 I wanted to do certain comparison between two  
14 particular years of annual report as to why certain  
15 things are missing, or appears in 2016 annual report but  
16 missing in 2017. If you look first in KMB-5 bundle,  
17 page 1719.

18 MR JAIN: Counsel, may I know the page you are referring to?

19 MS MAGGIE WONG: 1719.

20 CHAIRMAN: This is the annual report for which year?

21 MS MAGGIE WONG: This is the annual report for 2016.

22 CHAIRMAN: So published in March 2017?

23 MS MAGGIE WONG: Should be the end of 2016.

24 CHAIRMAN: I think you will find that if you find the  
25 chairman's letter --  
26

1 MR JAIN: Published in March, I think.

2 MS MAGGIE WONG: In March, yes, I apologise for that.

3 If we look at this annual report, page 1719, on the  
4 right part, it made reference to two features. One is  
5 the bus on-board monitoring system, and the second is  
6 the operations communication management system:

7 "BOM records the driving performance of bus captains  
8 for analysis by depot and department with the aim of  
9 raising driving standards with a particular focus on  
10 safety and passenger comfort."

11 And second:

12 "The operations communications management system.

13 OCM streamlines the handling of real-time  
14 information on operational incident such as traffic  
15 accidents, road congestion as logged by our radio  
16 control section, thus improving the speed and accuracy  
17 of message dissemination to the depot and departments."

18 On this page, it also made reference to  
19 a personalised Octopus card introduction of  
20 a personalised Octopus card for bus drivers as they  
21 report for duty.

22 That's the terminus management system.

23 My question is this: if you look at 2017, annual  
24 report, at page 1926. If you look at both those pages,  
25 perhaps, 1925 and 1926, we cannot find similar

26

1 information in the 2017 annual report.

2 Maybe if you can comment on, first of all, the 2016  
3 annual report, the BOM system. Is this one of the  
4 systems that your company at that time was considering  
5 implementing as the real-time alerts to drivers, or is  
6 this something else?

7 MR JAIN: In my opinion, this is not referring to any  
8 real-time system. This is something -- it is part of  
9 this bus operation management which was collecting the  
10 data and then using for driver feedback. That is BOM.

11 MS MAGGIE WONG: But we can't find similar reference in the  
12 2017 annual report. Even though they have a more  
13 generalised statement at page 1940, for completeness,  
14 1940.

15 MR JAIN: It does mention on-board monitoring system, BOM,  
16 but of course the level of detail is much less.

17 MS MAGGIE WONG: Yes.

18 CHAIRMAN: This was after you left KMB, was it not?

19 MR JAIN: That's correct.

20 CHAIRMAN: Both of these reports?

21 MR JAIN: Both of the reports were published after I left  
22 KMB. 2017 annual report, as a general observation,  
23 I would say the level of detail with respect to KMB and  
24 Long Win were much less than compared to previous years  
25 in annual report.

26

1           As an external party, I look at annual reports and  
2           try to analyse data and performance for my own  
3           satisfaction. And 2017, I did find that a lot of  
4           information was not available that was available in  
5           previous years. That is a general observation.

6       MS MAGGIE WONG: Thank you.

7           Mr Chairman, I have concluded my questions.

8                       QUESTIONS FROM THE COMMITTEE

9       MEMBER AU YEUNG: Thank you, Chairman.

10           I have one quick question for you, Mr Jain. First  
11           of all, thank you very much for coming to share your  
12           views.

13           We spent a lot of time this afternoon talking about  
14           all the technology and all the advances which can  
15           improve or enhance bus safety. But one topic I would  
16           like to hear your views is on resources.

17           From your experience, with all this technology and  
18           everything we are talking about, from a resource  
19           perspective, whether it is monetary or human resources,  
20           what is your view? Can we get your sort of assessment  
21           on how expensive it is? Do we have the right people in  
22           Hong Kong to implement all those technologies that we  
23           discussed earlier?

24           Thank you.

25       MR JAIN: It is a very interesting question.

26

1           This is something that I always talk about. You  
2           know, the first time I went to KMB, Long Service Award  
3           Dinner, there were roughly 300 people who were getting  
4           an award for serving the company for more than 30 years.  
5           I had never seen anything like that in my life.

6           So there was a significant number of people who gave  
7           their entire lives to this company.

8           I'm sure there was something in the company that  
9           fostered that loyalty in these people.

10          So to me that was a fantastic part of the cultural  
11          learning for me.

12          Why now people don't want to join KMB? Now that is  
13          the question.

14          Has it tarnished its image? Is it not providing the  
15          same level of family welfare that it used to provide?  
16          There could be many factors there which needs to be  
17          addressed.

18          That's the human aspect of it which I think is  
19          addressable, if -- I mean, KMB I'm using because I'm  
20          familiar with KMB, but when I say KMB it goes all across  
21          the bus industry in Hong Kong. And I think there are  
22          means and mechanisms whereby you can generate enough  
23          conduciveness and attractiveness in the driving, bus  
24          driving. I have met a great number of people who are  
25          fans of buses, who are dedicated to the bus industry,  
26

1       they really feel for it from their heart. But they go  
2       out and they are criticising the bus companies, if you  
3       look at the mood and sentiments, these are die-hard fans  
4       and they are still criticising. We need to ask how we  
5       can bring them on board and make them part of the  
6       process.

7             That's the human side.

8             On the technological side we are still stuck with  
9       very old style of technological management where we give  
10      a key to the driver in the morning and he drives the bus  
11      the whole day, literally on the same route up and down,  
12      and kind of does not more than that.

13            There are some bits of interlining and intertimming  
14      is being done, but nothing beyond that at the moment.

15            If you think about it, a driver needs a rest,  
16      a vehicle does not need a rest.

17            If we can optimise in such a way -- if we can  
18      separate three layers of resources. So your human  
19      resource, vehicle resource and infrastructure resource,  
20      and if we can optimise across these three levels, which  
21      we are not doing at the moment, or we are doing very  
22      little in Hong Kong, but if we can optimise at three  
23      levels through modern tools, I personally feel we can do  
24      more with less.

25            My back-of-the-envelope calculation, I think KMB  
26

1 system can be delivered, the whole system, the existing  
2 routes, exactly the same way, can be delivered with  
3 about 2 to 3 per cent less buses and less drivers, which  
4 would completely solve the manpower problem.

5 MEMBER AUYEUNG: Thank you.

6 MEMBER LO: I just have one question. Thank you for sharing  
7 your thoughts on technology especially.

8 I'm just thinking about how come Hong Kong is so  
9 slow in adopting new technology for improving safety.  
10 Perhaps our technology readiness is something that could  
11 sound good on paper but doesn't deliver in practice?  
12 Maybe incentive for companies to invest, they don't see  
13 value? Maybe regulations not requiring them? I just  
14 want to get your thought on what are the major barriers,  
15 and how should we go about making Hong Kong more  
16 receptive to adopting new technology for safety  
17 improvement in our public transport system, as an  
18 insider, you worked for KMB and MTR for a long time.

19 MR JAIN: It is a basket of reasons. I think the biggest  
20 reason is the environment we are operating on. I think  
21 one way innovation is encouraged in most of the world is  
22 where you are allowed to fail. You have to accept  
23 failure, and our tolerance in Hong Kong has become  
24 extremely low for failure. Innovation only thrives when  
25 you allow that kind of environment.

1           So that is a big environmental issue, it could be  
2           a cultural issue, can whatever you want to call it.  
3           That is a major reason.

4           And proven technology that was our mantra until a  
5           decade or so, which we very successfully adopted in our  
6           public transport systems, unfortunately that worked  
7           really well when technology was working slow. Now the  
8           technological innovation and adoption is moving at such  
9           a rapid pace that by the time you wait for proven  
10          technology it is outdated.

11          So you are always waiting for something new because  
12          the proven one has really something that has become  
13          historical reference, in a way.

14          So there is a cost of adoption which then as  
15          a company you would say if there is new coming why don't  
16          I wait for something new. And that also hinders  
17          innovation.

18          If you look at what China has done, they have taken  
19          this leap of faith, they have gone ahead, they have  
20          implemented a lot of stuff, they have allowed their  
21          companies to fail, if you look at electric bus adoption,  
22          every possible configuration of battery and the battery  
23          charging that is possible around the world has been  
24          experimented.

25          Now they know what works and what does not, and they  
26

1 have become global leaders in electric bus manufacturing  
2 and operations. This is the kind of environment we need  
3 in Hong Kong.

4 We have been, I think, if you ask me, I would rate  
5 the technological know-how for Hong Kong engineers, Hong  
6 Kong operators, at really at the top end of the curve.  
7 We have been extremely good. So our operational  
8 performance within those parameters has been exemplary  
9 to the world. But our technological adoption has been  
10 pathetic, for want of a better word. It has just been  
11 so slow. We have been left behind in many aspects, the  
12 data availability that I see is happening in third world  
13 countries, is not happening in Hong Kong.

14 So what can be done? I think we need to create an  
15 environment where we have to allow -- we need to  
16 incentivise people to innovate and apply these  
17 technologies. There are a lot of partnership and  
18 collaborate models. There are a lot of Hong Kong  
19 start-ups who are doing experimentation in China,  
20 Taiwan, in other countries, we should allow these people  
21 to come and do experiment and create that partnership  
22 model with local companies.

23 We do hackathons here and all these, I have been  
24 part of multiple hackathons as a judge, as an observer,  
25 as just an audience, and I see there is no dearth of  
26

1 knowledge in Hong Kong, there is no dearth of zeal, the  
2 entrepreneurship in Hong Kong. What is lacking is an  
3 environment to foster them. And that is where these big  
4 operators need to create an environment, adopt some of  
5 these, create some incubation units, incubation labs,  
6 where they come in and they work in their depots, MTR  
7 depots, KMB depots, and create new kind of systems  
8 altogether. That's where I think we would have  
9 something to offer to the rest of the world.

10 CHAIRMAN: A little while ago you mentioned the need for bus  
11 drivers to rest.

12 Now you worked with KMB for about four years, did  
13 you not?

14 MR JAIN: Yes, I did.

15 CHAIRMAN: Are you in a position to help us understand  
16 better the facilities made available by KMB to allow its  
17 drivers to rest, in particular we have in mind the  
18 drivers who are doing special shifts and working  
19 14 hours, and allowed to have three hours break in the  
20 middle. Are you in a position to help us as to how  
21 adequate or otherwise the rest facilities are?

22 MR JAIN: One is a physical facility for rest, which to me  
23 is very easy, you can do lot of driver surveys and ask  
24 them whether they are adequate, comfortable, whether  
25 they see any improvement areas.

1 But then there is a second area for resting, and  
2 this is one area which I in fact see completely lacking  
3 in Hong Kong.

4 It is that every person is not the same, their  
5 fatigue levels, their response to things, their  
6 psychological level is not exactly the same. So instead  
7 of saying 14 hours is too much, we should reduce it to  
8 10 hours, we need to create statistical framework and  
9 look at the reality indicators where what point the  
10 driver fatigue becomes an issue, we can use a lot of  
11 data points.

12 In fact if you do an accident analysis, look at the  
13 data, look at the drivers, you can create a reasonably  
14 good history for each driver and create a parameter that  
15 this driver is usually very good for three-hour duty,  
16 short routes, not good for long routes, not good for  
17 long duties, not good for night duties, and you can then  
18 customise your duties that you allocate to the driver,  
19 which would then make the duties more palatable to the  
20 driver because they think this is something they will  
21 do.

22 Today what happens, you put them in a morning shift  
23 this month, next month they go to the evening shift,  
24 next month they go to the night shift, and it is an  
25 irregular pattern in the name of creating an equitable  
26

1 framework.

2 But it is completely ignoring an individual's  
3 capability to do something, or their personal  
4 performance levels. If we do enough analysis we can  
5 create this environment. If you look at a management  
6 scenario in a business, we do a performance assessment,  
7 we say this guy has a bright analytical capability,  
8 hence he should be the analyst. This guy is very good  
9 with physical work so maybe he should be doing this.  
10 That is the same thing we need to do within the driving  
11 work force, we need to customise and personalise those  
12 mechanisms.

13 CHAIRMAN: Would you suggest that the data necessary to make  
14 that analysis, for example with a driver, be collated  
15 from the driver's performance as recorded in real-time  
16 automated reports?

17 MR JAIN: That is one point of reference.

18 We could also look at a driver's education level, we  
19 can look at their physical performance, their medical  
20 visits, there are a number of data points.

21 So this is -- to me, what we are collecting as  
22 a part of real-time operation management from this  
23 telematics device is one point of reference, which is  
24 their actual driving performance, but this can be then  
25 correlated to their personal parameters, and you can  
26

1           actually create a reasonably decent model for an  
2           individual.

3           And this is a Singapore model, Prolearn that  
4           I talked about. They are doing exactly that. The  
5           training they give to the driver is not identical to  
6           everybody. They customise to that person, because they  
7           see his individual performance on certain situations and  
8           they customise the training.

9           This is what needs to be done. The cooky cutter  
10          approach is no longer working.

11       CHAIRMAN: Forgive me if I come back to my question. During  
12          the time you were working with KMB can you help us with  
13          how adequate or otherwise the facilities were, given  
14          that there perhaps was not this analysis that you have  
15          described that could happen, how adequate or otherwise  
16          the rest facilities were for drivers, particularly those  
17          doing split shifts.

18          Are you in a position to help us?

19       MR JAIN: Yes, when I joined KMB, I would say these were  
20          deplorable facilities at that time.

21       CHAIRMAN: So 2013?

22       MR JAIN: At 2013. The facilities were very substandard to  
23          any modern work force.

24          Having said that, there was a concerted effort after  
25          that to improve those facilities in many places,

26

1           wherever possible. In fact, I remember we submitted  
2           a lot of suggestions to Transport Department on creating  
3           kiosks, creating facilities for drivers, but Hong Kong  
4           has, again, a very unique framework where land is one of  
5           our most expensive resources. And many of these public  
6           transport interchanges, they are, although available for  
7           operating buses, they are owned by private developers,  
8           private entities, or Link Reit, or whatever, and they  
9           are not willing to provide that space where a driver's  
10          resting facility can be created.

11           I'm sure KMB would probably be in a better position  
12          to give you this, but they receive complaints even for  
13          drivers using toilets in shopping malls. To me that is  
14          a basic human need, how can anybody complain about use  
15          of toilet, a public toilet for that matter?

16   CHAIRMAN: If the facilities were deplorable in 2013, how  
17          would you categorise them in December 2016 when you left  
18          KMB?

19   MR JAIN: There was a significant improvement from that  
20          baseline. I won't say that they were impressive in any  
21          way. But I think there was a significant improvement  
22          that was made. There was a management intent to address  
23          that issue.

24   CHAIRMAN: What is the worst facility as of December 2016?

25   MR JAIN: There are quite a few.

1 I don't know what happened after that, but 2016  
2 there were many places where the drivers were actually  
3 resting inside the buses, they were eating inside the  
4 buses because they didn't have any place to sit outside.

5 I think there was one housing estate near Kowloon  
6 City, where it is in a private development, and they  
7 refused to provide even a kiosk facility.

8 CHAIRMAN: Is that the Lok Wah Estate?

9 MR JAIN: Yes. And there are many examples scattered all  
10 around the city.

11 CHAIRMAN: That's the place where KMB built their own  
12 structure and were required to remove it?

13 MR JAIN: Correct.

14 CHAIRMAN: So problems encountered because of the inability  
15 to require those that had power in places where bus  
16 termini were located to provide facilities; would that  
17 be one way of putting it?

18 MR JAIN: Correct. And it could be part of the development  
19 rights, it could be part of the land leases, I'm not  
20 sure what is the right way to do it.

21 CHAIRMAN: I'm sure there are multiple reasons why it came  
22 about, but for one reason or another the facilities  
23 could not be provided, were not provided.

24 MR JAIN: That's correct. Yes. There are many examples  
25 like that where there are no adequate facilities for the  
26

1 drivers.

2 CHAIRMAN: Thank you very much for your assistance and your  
3 evidence, Mr Jain. We are most grateful to you.

4 We are also grateful to all those who have been  
5 working a long day in transcribing our words, and for  
6 those that have been interpreting them. But our hearing  
7 is concluded now. We thank you for your attendance, we  
8 will have other hearings in due course, and we will give  
9 notice in advance of those hearings.

10 Thank you very much.

11 MR JAIN: Thank you, Chairman, and my thanks to the whole  
12 committee, all the staff, counsel, I think you are up to  
13 a great challenge, and I really hope to see something  
14 nice coming out of it in the end, and something that  
15 transforms our public transport industry.

16 CHAIRMAN: Thank you.

17 MR JAIN: Thank you very much.

18 (5.46 pm)

19 (The hearing adjourned to a date to be fixed)

1 2018 年 7 月 17 日

2 上午 9 時 59 分恢復聆訊

3 出席人士： 鄭子憲先生，道路安全研究小組主席

4

5 主席：（經傳譯員）各位早晨。鄭先生，我係想請黃大律師繼續代表我哋委員會向你  
6 提問嘅。

7 黃女士：（經傳譯員）係，鄭先生，感謝你今日繼續上嚟作證，琴日我哋就係講及一  
8 啲文件，嗰啲文件就係九巴個專營權續約嘅文件嘅，我今日會繼續係探討呢一  
9 方面嘅事宜。想請你睇番雜項文件嘅第 2 個文件夾 770 頁，呢個係你自己嘅陳  
10 述書，你就係回應當時嘅諮詢，2016 年 6 月 16 號，琴日我哋就喺 773 頁嘅，  
11 喺嗰個建議嗰一欄嗰度，第一點，嗰度就話喺嗰個專營權嘅協議裏面應該係有  
12 一個比較全面嘅標準嘅要求同埋係有一啲司機嘅監察系統係使用黑盒嘅，我就  
13 想問下你，點解你就建議係要包括呢一個裝置落去嗰個專營權協議嗰度呢？

14 鄭子憲先生：（經傳譯員）主席先生，當時我認為將專營權續期其實係一個大好機會  
15 讓我哋可以探討一啲新嘅構思，所以我哋當時係盡力希望係提供越多嘅意見越  
16 好，當然我哋都係提一啲係合理嘅建議同埋一啲係合理可行嘅建議嘅，唔該。

17 黃女士：（經傳譯員）係咪話如果落咗嗰個專營權協議嗰度就會有一個機制去睇下係  
18 是否獲得遵從，嗰個邏輯係咪咁呢？

19 鄭子憲先生：（經傳譯員）主席，係呀，我諗係呀，呢個亦都對我嚟講，我覺得會係  
20 一個提升嚟嘅，政府嗰方面係希望令到巴士更加安全，我哋都好感恩嘅，不過  
21 我哋就覺得如果一日都仲係有人受傷，特別係因為意外而嚴重受傷嘅話，都仲  
22 未係理想嘅，所以我哋希望大力推動，希望喺呢方面有更大嘅改進。唔該。

23 黃女士：（經傳譯員）你喺第二段嗰度亦都講及一啲主要嘅監察管控嘅措施，你嘅建  
24 議係應該係由邊個去進行呢啲監察呢？

25 鄭子憲先生：（經傳譯員）類似嘅營運嘅話，我相信應該會係由巴士公司自己係主動  
26 提出，而政府當局就作為一個規管當局。

27 黃女士：（經傳譯員）其實呢度有唔少嘅建議嘅，譬如話喺呢個高風險嘅山路嗰度嘅  
28 車速限制等等，我哋琴日亦都探討過，你亦都有講過話如果係山路高風險嘅  
29 話，你曾經有建議過嗰個時速應該係幾多嘅，你意思係咪話呢一個咁嘅建議應  
30 該加入嗰個專營權協議嗰度，定抑或你純粹係一個建議就係話政府總言之就係  
31 應該係要係規管呢一啲咁嘅道路呢？

32 鄭子憲先生：（經傳譯員）主席先生，我都話具體嘅建議，其實我強調嘅就係嗰個原  
33 則，個原則就係如果我哋搵出有某一啲路段佢係特別高風險嘅，我會話呢啲係

1 關鍵嘅路段，合理嘅做法就係應該係講明應該嗰個車速係定幾多，25 咩，30  
2 咩，40 咩咁，我哋就希望可以喺呢啲關鍵嘅路段施加控制，令到司機安全駕  
3 駛。喺呢度，我有講明係邊一個路段應該係幾多公里嘅，但係我希望有一個咁  
4 嘅概念，希望佢哋唔好淨係單單係睇嗰個法律規定嘅時速限制，因為我哋講緊  
5 一啲關鍵嘅路段。

6 黃女士：（經傳譯員）邊個係去負責搵出邊啲係關鍵嘅路段呢？

7 鄭子憲先生：（經傳譯員）主席先生，我相信應該係政府同巴士公司係一齊去做，當  
8 然亦都係要靠專家去幫手，唔該。

9 主席：（經傳譯員）對唔住，跟住政府又如何去監管呢？如果巴士公司係搵出某一啲  
10 路段，話畀政府聽，政府又同意，之後又如何去監管呢？因為呢樣先至係更重  
11 要㗎嘛。

12 鄭子憲先生：（經傳譯員）主席先生，我諗我哋而家唔會講一啲好複雜嘅監管系統或  
13 者制度，譬如講番個基礎，講番啲基本，首先應該發出一個通知，係通知啲司  
14 機，如果佢係揸某一條路線，而嗰度就係有一啲咁緊要嘅路段嘅話，佢哋要特  
15 別留心同埋要知道自己揸幾多、揸得有幾快；另外佢哋係有巡查嘅人員，有稽  
16 查去查核司機嘅表現，佢哋時不時會咁做。當然我哋亦都希望引入一啲更加先  
17 進嘅監察系統，呢一個應該係以黑盒搜集嘅數據為本，我諗最好就係同呢個全  
18 球定位系統結合，就係如果啲司機過份咁樣係超出嗰個車速嘅話，我哋就可以  
19 係自動同埋實時、即時咁樣樣可以搵出個情況。

20 主席：（經傳譯員）舊時古老嘅方法就係用稽查，你就話與其係咁，就不如要一個自  
21 動化嘅、實時嘅報告系統，係咪呀？

22 鄭子憲先生：（經傳譯員）係呀，主席先生，係呀，我哋會有咁嘅建議嘅，只要嗰個  
23 科技上做得到，我哋係咁嘅建議嘅。

24 主席：（經傳譯員）其實你作呢啲建議嘅時候，心目中就係有咁嘅概念，係咪呀？

25 鄭子憲先生：（經傳譯員）㗎，主席先生。

26 黃女士：（經傳譯員）嗰度嘅第三點，你嘅建議就係話係透過有系統同埋聚焦嘅安全  
27 培訓，應該將啲司機訓練到係明白究竟典型嘅意外情景係點樣樣同埋有邊一啲  
28 具體嘅風險，你諗住係邊個會做呢啲嘢呢？

29 鄭子憲先生：（經傳譯員）主席先生，呢個係一個一般嘅建議，當然係需要政府主動  
30 去做，相信亦都要搵專家去幫手，有一啲團體，譬如我哋呢一類嘅組織亦都樂  
31 意隨時係幫手嘅。講番呢一點，我原本嗰個構思就咁嘅，司機其實未必係真係  
32 好清楚係會出現一啲乜嘢嘅意外，正如我琴日所講，喺呢一個階段，如果話司  
33 機知道埋安全防撞欄嗰個防撞能力係幾多，又或者係以咩嘢嘅車速，一個老人  
34 家過馬路，如果真係畀車撞又唔會引致嚴重傷亡，佢哋係唔知道嘅，但係呢一  
35 啲嘅資訊、呢一啲嘅知識其實可以將佢轉化為一個簡單嘅教材，讓司機更加容

1 易知道--讓佢哋知道點解同埋佢哋可以點樣樣係揸得更好。唔該。

2 黃女士：（經傳譯員）喺 4.4 個段，你就講及車輛嘅表現，你就用咗加拿大公交嘅  
3 手冊，嗰度係有指引同埋有一啲界限嘅，可唔可以話畀我哋聽點解你係引用咗  
4 加拿大嘅公共交通手冊嚟到提及究竟如果係標準嘅巴士或者係一啲掛接式嘅巴  
5 士佢哋應該跟從乜嘢嘅指引？

6 鄭子憲先生：（經傳譯員）主席先生，呢一份手冊，我就係有好多嘅文件，呢一份係  
7 其中一份我覺得我係好感興趣嘅，講到加速同埋減速，加速同減速往往都係乘  
8 客失去平衡，喺車廂裏面失去平衡嘅主因嚟嘅，我哋亦都知道地鐵嘅設計係點  
9 呢？就佢哋有啲係關乎加速同減速嘅參數，好讓乘客唔會係因此而容易失去平  
10 衡嘅，我覺得巴士亦都係應該一樣。

11 我哋見到佢呢度嘅參數都相當之合理嘅，或者係睇一睇就係如果係緊急情況  
12 之下減速，呢度就講咗就係 2.7 米嘅，即係每方秒 2.7 米嘅，其實我琴日就講  
13 過，就係如果係一部私家車佢緊急嘅情況之下去剎車係 2.7 米，即係每方秒，  
14 個問題就係話如果巴士司機喺緊急情況之下要剎車以免撞到一名行人，佢需要  
15 反應好迅速，佢要諗下究竟就係令到車上乘客係失去平衡定抑或係要保障出面  
16 嗰位行人，唔好讓佢就係被車撞到。我諗全世界嚟講，加速率同埋減速率大家  
17 都接納係一個巴士營運嘅一個重要嘅安全參數。

18 主席：（經傳譯員）究竟係地鐵喺加速、減速嗰方面佢哋定咗一啲咩嘢嘅參數呀？

19 鄭子憲先生：（經傳譯員）主席先生，應該係每方秒 1.15 米，不過當然有啲情況之  
20 下有啲出入嘅。

21 主席：（經傳譯員）係，好，唔該。

22 黃女士：（經傳譯員）我亦都想請你睇一睇，因為你剛才講過加速同埋減速，可唔可  
23 以請你睇番 BM-1 嗰個文件夾第 66 頁？

24 主席：（經傳譯員）我哋係睇緊乜嘢呀？

25 黃女士：（經傳譯員）呢個係黑盒製造商 ZF 嘅陳述書，嗰度就係有一個截圖，講及  
26 加速率同埋減速率嘅。我想問一問，鄭先生，你可唔可以就係講一講呢度嗰個  
27 減速率佢就係 2.3，呢度嗰個截圖，你見到係 2.3 嘅，你可唔可以講一講你嘅  
28 睇法呢？因為剛才你亦都提過喺加拿大嗰度就係 2.7 米嘅。

29 鄭子憲先生：（經傳譯員）主席先生，喺呢方面，我有詳細咁研究過，不過你亦都睇  
30 到，呢度 2.3 呢個值就係高於 1.1，呢個就係加拿大嘅公共交通手冊，嗰個就  
31 係一般嘅普通嘅減速嘅。至於應該係定喺邊一度呢，我諗係要決定於、取決於  
32 喺香港嗰個實際嘅操作環境嘅。喺香港，基於某一啲原因，我諗我哋都會接納  
33 一個稍高嘅減速率嘅，我有詳細研究過，不過我要指出嘅就係話一般嚟講喺市  
34 區嘅道路，如果巴士行走嘅速度唔係好高，即係話巴士行走嘅速度係中等嘅  
35 話，就會少啲時候係需要個司機好快速咁樣樣去減低個車速嘅。

1 主席：（經傳譯員）運輸署 2003 年有啲要求--係技術方面嘅要求，嗰個係即係要個  
2 記速嘅--黑盒嘅記錄速，係咪 0.2G 呀？

3 鄭子憲先生：（經傳譯員）0.2G 即係等如 1.96 米每平秒。

4 主席：（經傳譯員）點解佢要求嗰個黑盒係記錄呢方面咁樣嘅減速嘅水平呢？

5 鄭子憲先生：（經傳譯員）主席，你嘅意思係運輸署係有一個要求嗰個巴士上面嗰個  
6 紀錄要係要--準確度要 0.2...

7 主席：（經傳譯員）或者請黃小姐--1993 年就要求有一個速度嘅記錄儀嘅，即係可  
8 以能夠記錄，去到 2004 年 7 月 1 號開始就要生效。

9 黃女士：（經傳譯員）係 1598 頁，1598 頁，3 段(a)，「呢個嘅軟件應該係記錄一  
10 啲--响嗰個意外報告係可以係响一秒之間--三秒期間裏面嘅一秒可以察覺一個  
11 0.2G 嘅減速嘅。」

12 鄭子憲先生：（經傳譯員）如果巴士係响減速係 0.2G，即係話每平秒 1.96 米嘅，  
13 呢個就已經係一個事件，呢個係一個應該要交意外報告嘅事件嚟嘅。

14 主席：（經傳譯員）係咪即係好緊急咁剎車呀？

15 鄭子憲先生：（經傳譯員）我都認為係嘅。

16 主席：（經傳譯員）你頭先 2.3 米，即係每平秒 2.3，就比呢個要求係即係再多過  
17 百分之十㗎嗎？

18 鄭子憲先生：（經傳譯員）主席，從文件睇，係，的確係咁。如果我哋有啲證據，係  
19 基於涉及乘客失去平衡嗰啲事件，得到一啲資料、證據，我哋可以比較一下當  
20 時嘅減速率，跟住同將來可以微調有關嘅數值嘅，就係一個根據證據嚟到進行  
21 調查呢個參數應該係點樣制定或者調整。

22 主席：（經傳譯員）但係我哋都有一個概略嘅睇法，地鐵係 1.15，2.3 就高過  
23 1.15 好多，係咪？

24 鄭子憲先生：（經傳譯員）我諗係嘅，主席，不過我哋又要了解到巴士嘅營運有咁可  
25 預測試嘅，我同意需要制定一個減速率嘅數據係比較接近地鐵嘅，雖然現實上  
26 唔可能响緊急嘅情況之下係應用。

27 黃女士：（經傳譯員）另一件事當然就係巴士安全，响下面 773 去到 774 頁嗰度，  
28 我哋睇一睇，你有一個建議，特別係第一個建議，774 個頁頂嘅，「上層嘅前  
29 排座位，因為你有任何一個配置咗合理嘅嗰個陷塌嘅區域，前排嘅巴士乘客可  
30 能雖然有用到安全帶，都可能比較擠壓嘅，呢個特別係九巴嗰啲使用高速公路  
31 嘅巴士都係咁樣嘅。」你就有一個建議，要求將呢個要求擺番去個專營權嘅  
32 協議，跟住有一個時間表嚟到係進行改善嘅，你覺得邊個應該採取主動將呢個  
33 建議納入嗰個專營權協議呢？

1 鄭子憲先生：（經傳譯員）主席，同樣我哋都係假設响專營權協議裏面政府會係指定  
2 或者係規定，政府亦都係可以進行研究呢個課題，然之後就係要求巴士公司畀  
3 一個時間表嚟到改善，當然呢個亦都係巴士公司有個責任嘅，係進行有關嘅研  
4 究，即係佢哋應該可以同巴士嘅製造商聯合進行嘅，我哋建議就應該係要比較-  
5 -政府同埋巴士公司都應該更加主動進行呢啲研究嘅，我認為佢哋有責任係研究  
6 呢啲課題，積極主動咁樣尋求改善。

7 主席：（經傳譯員）我而家預計你稍後可能會問呢個問題嘅，你就想達到嘅就係運輸  
8 署同埋巴士公司就係好積極咁樣做事嘅，佢哋過去有冇咁做呢？

9 鄭子憲先生：（經傳譯員）主席，要公平起見，佢哋响某一啲課題上面係好積極嘅，  
10 但係我哋覺得好重要某一啲課題，我可以話佢哋並不積極主動嘅，主席，响某  
11 啲情況下，佢哋都係回應式嘅，我哋唔想有啲課題佢哋只係回應，特別係涉及  
12 嚴重傷亡嘅情況。

13 主席：（經傳譯員）佢哋即係回應譬如一個慘劇，之後佢哋就唔會再係主動，佢淨係  
14 回應式嘅，佢哋嘅動作淨係回應式嘅，係咪咁講呀？

15 鄭子憲先生：（經傳譯員）係。我想補充一點，呢個並非不尋常嘅，即係話唔係淨係  
16 香港嘅，我哋要取得進步，好多時候都係有個大嘅意外，先至可以取得嘅。用  
17 我哋嘅角度睇，如果嗰個慘劇或者大嘅意外，事情係冇法子預計嘅，可能咁樣  
18 做都係合理嘅，但係如果係之前已經有好大數量咁樣嘅意外或者係有歷史數據  
19 或者係嗰個理論上嗰個風險程度係高嘅，就應該唔好一個回應事件嚟到做事，  
20 係應該要好積極嘅、主動嘅。

21 黃女士：（經傳譯員）基本呢個報告你就係強調咗呢度有好多好多證據嘅，你做出呢  
22 個建議係基於大量嘅證據嘅，你係咁樣講，係咪呀？

23 鄭子憲先生：（經傳譯員）主席，我假設呢個--頭先我哋提及嗰個事項，我會話係  
24 嘅，我哋的確係咁樣嘅，我哋個小組提出，或者有好多證據係睇得到嘅。但係  
25 證據有唔同嘅層次嘅，有啲係表面證據，有啲係根據我哋嘅知識，或者從嗰個  
26 意外嘅數據，或者係新聞報告所得，有啲就當然更高一層，就係學界、學術  
27 界向一啲係學術期刊進行研究得到嘅結論，我呢度講嘅證據係個層次就係根據  
28 我哋嘅知識，根據我哋從新聞報告同埋一啲係意外嘅數據同埋從一個理論出  
29 發，嗰個證據都係好清楚明確嘅。

30 黃女士：（經傳譯員）我想講講最後一個建議，你提及巴士站嘅安全，你話等候巴士  
31 嘅乘客喺某啲路段係要暴露啲風險之下，即係有啲重型就行得好快嘅車輛嘅，  
32 你就覺得應該响嗰個專營協議要求巴士公司同政府合作減低呢個等候巴士嘅乘  
33 客所面對嘅風險嘅，你點樣建議呢？你建議巴士公司可以點樣同政府合作嚟到  
34 減低呢方面嘅針對等候巴士乘客嘅風險嘅呢？

35 鄭子憲先生：（經傳譯員）巴士站嘅安全係全球問題，即係並非只係限於香港嘅，但  
36 係我哋要承認好多國家，包括先進國家，都有足夠咁樣重視呢個問題嘅，我哋

1 有啲巴士站係喺啲好高速路嘅旁邊嘅，大型嘅路，譬如話呢張相，係龍翔道，  
2 嗰個限速係每小時 70 公里嘅，告士打道亦都有，其他嘅主要道路都有，理論上  
3 如果有一大群等緊巴士嘅乘客，跟住隔離就係好多啲好高速嘅車輛，有一架  
4 車如果係撞咗上路面，佢哋就會畀嗰個巴士站同埋個車中間夾住，就會係受傷  
5 嘅情況好嚴重嘅。只係得幾個國家係重視呢個問題，亦都係採取行動嘅，其中  
6 一個就係星加坡，佢哋引入咗一啲新嘅措施，呢個措施係唔係有效或者係有好  
7 好嘅效能，都仲要進一步證實嘅。

8 不過理論上嚟講，我哋應該要保障等車嘅乘客嘅，巴士公司佢哋係起呢啲巴  
9 士站嘅，佢哋係從嗰個廣告度係得到收入嘅，即係佢哋從呢方面攞到收入去起  
10 呢啲巴士站嘅，而政府係負責個道路嘅，所以好自然我就覺得巴士公司應該同  
11 政府合作，嚟到係審視一下巴士站嘅設計同埋係咪需要啲附屬嘅一啲設備、  
12 設施嚟到更好咁樣保障巴士乘客。我承認呢樣嘢唔容易做嘅，因為同一時間我  
13 哋都要讓巴士乘客上車、落車嘅，但係我哋需要啲措施保障乘客嘅。

14 主席：（經傳譯員）即係嗰面唔可以有一個圍欄咁樣圍住嘅，即係話我哋係咪應該啲  
15 圍欄中間係有空隙嘅，等人可以上車、落車，係咪咁嘅意思呢？

16 鄭子憲先生：（經傳譯員）主席，係，我係咁嘅意思，即係話雖然我哋唔能夠有個安  
17 全圍欄係有空隙嘅，但係有可能係建設一啲有某個角度嘅安全護欄嘅，亦都有  
18 可能安裝即係一個圓柱型啲保護裝置嘅，星加坡就係佢哋有啲咁樣嘅護柱，  
19 就有幾千個巴士站都有嘅。

20 我要指出一般嚟講，係公路嘅設計，我哋都要保障嗰個車--即係揸車揸得  
21 唔妥當個車上嘅人嘅--失控車輛上面嘅人嘅，即係唔可以令到响嗰個失控車輛  
22 上面嘅人受到係嚴重傷害嘅，如果我哋有一個安全嘅圍欄，嗰個尾端可能會對  
23 嗰啲車輛上面嘅人造成危害嘅，呢啲護柱應該係吸收能量嘅，如果淨係一個鋼  
24 柱，一個鋼嘅護柱或者係三合土嘅護柱，當然對等候嘅巴士乘客係好嘅，因為  
25 會停到架車，唔可以向前，但係嗰個失控車輛上面嘅人就可能會係嚴重受傷。

26 呢個總結嚟講，我相信一定係有一啲解決嘅辦法嘅，最終嚟講，我哋都應  
27 該可以搵出一個解決嘅方案，可以係喺兩者之間，喺呢一個矛盾裏面得出一個  
28 平衡。

29 主席：（經傳譯員）大埔公路意外現場嗰度有道路工程，見唔見到係有呢個安全防撞  
30 欄起咗喺巴士站嗰度係保護啲乘客避免佢哋被撞到呀？

31 鄭子憲先生：（經傳譯員）對唔住，主席先生，你意思係咪指嗰度嘅補救工程呀？

32 主席：（經傳譯員）係呀，就想問下，嗰度有冇起一個安全防撞欄嚟到保護啲候車  
33 乘客？

34 鄭子憲先生：（經傳譯員）主席先生，我明白你嘅意思，我哋有一個解決方案，所謂  
35 保護性嘅巴士站，換句話講，個巴士站就會係遠離嗰個馬路嘅，主要嘅道路就

1 係會有一個交通安全島隔開啲啲巴士站嘅，呢個其實喺龍翔道嘅相反方向啲度  
2 係有咁樣嘅設計嘅，另外屯門公路啲個巴士轉乘站啲度都有咁嘅設計，不過咁  
3 係用上好多嘅空間，好多地方嘅，所以最終嚟講，啲個出發點就應該係研究一  
4 下不同巴士站嘅設計，亦都係要睇下唔同類型嘅道路所需要配設嘅唔同嘅車  
5 速，然後就係諗出不同嘅解決方案，可以包括一啲工程方案同埋非工程嘅解決  
6 方案。唔該。

7 黃女士：（經傳譯員）你剛才提及啲啲護柱，你講係星加坡嘅經驗，你知唔知道係邊  
8 個負責做呢啲樹立呢啲護柱呢，就政府定抑或巴士呢？

9 鄭子憲先生：（經傳譯員）喺星加坡，就係陸上交通當局，我研究過佢哋部分嘅設  
10 計，佢哋講過就喺 1998 年佢哋曾經發生嚴重交通意外，係有車輛係剷上行人路  
11 嘅巴士站，之後亦都有類似嘅意外，之後佢哋就開始引入呢一類嘅護柱。其實  
12 我好有興趣，我好想得到進一步嘅資料嘅，希望佢哋可以話畀我哋聽究竟啲個  
13 護柱啲個設計係點樣嘅。

14 另一方面，喺奧大利亞，佢哋有一啲吸收能量嘅護柱，個設計就係要可以  
15 造到行緊時速 60 公里嘅車輛撞埋去都可以停到啲部車，當然就唔係一啲重型車  
16 或者係巴士，係一啲普通嘅客車嘅，我哋就希望車上嘅乘客或者司機亦都唔會  
17 因而係受到嚴重傷害。呢個產品都相當獨特嘅，我係做緊一啲搜查嘅工作嘅，  
18 之前就只係見市場上只係有呢一個產品嘅。

19 我亦都係想指出喺新南威爾斯大學佢哋其中一位教授亦都係有同樣嘅意  
20 見，佢就覺得應該係做多啲研究，去睇下係咪可以喺巴士站啲度用多啲呢啲護  
21 柱，同埋喺市區啲度如果我哋無法係有一個連續不斷嘅防撞欄嘅時候，係咪可  
22 以用下呢啲護柱呢？因為啲人要係行出去個馬路啲度。

23 我就仲未係同呢一位教授討論過，不過我相信佢同我嘅意見係相同嘅，佢  
24 亦都認為應該係朝住呢個方向去做研究。

25 黃女士：（經傳譯員）鄭先生，你呢一份陳述書寫嘅時候就係回應係 2016 年 6 月係  
26 關乎九巴嘅諮詢文件，之後立法會曾經進行過一個討論嘅，我想請你睇番立法  
27 會嘅文件嘅，第一份就係喺 2016 年嘅 6 月 17 號，你可以睇 SEC 啲個文件夾嘅  
28 784 頁，呢個就係關乎九巴巴士網絡專營權嘅一個更新嘅背景資料嘅，或者  
29 我講一講，就呢份文件就有關啲個專營權係提供一啲背景資料嘅，佢啲度亦都  
30 係總結咗立法會議員喺過往討論嘅時候所提出嘅關注。

31 我想請你睇第 12 段，啲個標題就係話提升巴士服務嘅水準，呢度佢哋係  
32 提及係「第五屆嘅立法會嘅會期，啲陣時議員就關注專營巴士服務嘅表現，喺  
33 佢哋嘅委員會嘅會議，特別財委會嘅會議同埋立法會嘅大會嘅會議都有提及  
34 嘅，佢哋促請政府就係借呢一個專營權續期嘅機會去要求巴士公司改善佢哋嘅  
35 服務嘅，包括就係向乘客提供巴士服務資訊，係實時咁提供，亦都就係有一啲  
36 優先座，以及呢個無障礙嘅設施，亦都唔好有咁多脫班，以及係啲個繁忙時間  
37 更頻密嘅巴士服務嘅。」

1 講到嗰個實時巴士服務嘅資訊，我諗係仲未有嘅，不過我想問下，究竟呢  
2 個係乜嘢嘅概念呢？

3 鄭子憲先生：（經傳譯員）主席，我相信係指下一架到站車輛嘅資訊係顯示出嚟，即  
4 係話仲有幾多分鐘下一班車就會嚟到或者再下一班車係幾多分鐘之後嚟到，呢  
5 個亦都係涉及使用知能手機嚟到去獲取呢一個係下一班車到站嘅時間，我諗個  
6 概念就係咁喇。

7 主席：（經傳譯員）有兩個方法嘅，一個就係一個係喺巴士站或者總站嗰度有個顯示  
8 板，另一個就係喺你嗰個智能電話手機嗰度係靠呢個 app 嚟到去攞嗰個資料  
9 嘅，呢個已經幾年前已經陸續咁樣推出，係咪呀？

10 鄭子憲先生：（經傳譯員）我諗係嘅。

11 主席：（經傳譯員）九巴做嘅，係咪呀？

12 鄭子憲先生：（經傳譯員）主席先生，係，不過其他公司都有。

13 黃女士：（經傳譯員）我哋落去第 17 段，嗰度就話「此外，就係喺嗰三個專營權嗰  
14 度有加咗個額外嘅條款，係城巴、大嶼山巴士同埋新巴嘅，就係 2013 年中開始  
15 嘅，就係授權畀運輸署就要求巴士公司去加強佢哋嘅安全設施同埋設計嘅。」  
16 係包括一啲要求嘅，睇唔睇到呢？

17 主席：（經傳譯員）唔該，不如你將個例子讀出嚟。

18 黃女士：（經傳譯員）我諗佢哋講就係下面嗰句所講，買新巴士嘅時候係要有無障礙  
19 嘅設施同埋就係長者友善嘅設計，喺最耐嗰句就係話政府係會係喺其他嗰三家  
20 巴士公司嘅專營權嗰度亦都要求係無障礙設施嘅，鄭先生，縱使喺呢個專營權  
21 嗰度有一個咁嘅條款，都係唔見就係喺嗰個黑盒嘅設計或者黑盒嘅要求嗰方面  
22 有改善嘅，...

23 主席：（經傳譯員）你未落去嗰度之前，講到話冇障礙嘅車門等等其實唔係一個安全  
24 --同安全無關嘅，係咪呢？

25 鄭子憲先生：（經傳譯員）主席先生，呢個無障礙嘅設施，呢個係方便，亦都係安  
26 全，車上任何嘅嘢都可以係一個不安全嘅物件嘅，所以我希望佢哋會清楚咁樣  
27 係講出其他嘅安全設施嘅。

28 主席：（經傳譯員）我想問，你話無障礙嘅上落車門係同安全有咩嘢關係呢？

29 鄭子憲先生：（經傳譯員）我會咁樣睇嘅，譬如有啲人係需要個門口闊啲先上落到  
30 車，如果係無障礙嘅設施，就換句話講，就係喺門口嗰度唔會中間有個扶手  
31 處，就讓佢個門口夠闊係讓輪椅或者係其他人士佢有特別需要，佢就有個闊啲  
32 嘅門口係上車，所以呢度就唔係話好清楚咁講到出嚟嘅，不過我諗假設佢哋一  
33 個就係方便乘客，另一個就係安全起見嘅。我就希望佢哋就係有一個比較專門  
34 針對安全方面嘅要求，不過呢度就有寫到。

1 黃女士：（經傳譯員）我想請你睇另一份文件，嗰度就係講及究竟係要求嘅新嘅專營  
2 權嗰度加啲乜嘢嘅條款，呢個關乎九巴嘅，...

3 主席：（經傳譯員）或者未落去之前，我就想睇番呢份文件嘅第 10 段，嗰度就提及  
4 喺 1 月份，2016 年 1 月 15 號曾經係進行討論，呢個係討論巴士公司巴士網絡  
5 嘅專營權，睇到嘛？廣生，睇到嘛？

6 鄭子憲先生：（經傳譯員）係，睇到嘅，主席先生，我而家睇緊。

7 主席：（經傳譯員）黃大律師，我哋有冇嗰次會議嘅會議紀錄呢？

8 黃女士：（經傳譯員）我哋只係有一封信，就係嚟自係運房局，就講及 1 月 15 號會  
9 議嘅跟進事項，但係我哋冇嗰次會議紀錄。

10 主席：（經傳譯員）我諗 8 月 26 號係有嗰份會議紀錄，就講及 1 月 15 號嘅事宜  
11 嘅。

12 黃女士：（經傳譯員）或者睇番 SEC-2，990 頁，呢份文件係嚟自運房局嘅，2016  
13 年 3 月 9 號，寫畀立法會，就係講及就係 2016 年 1 月 15 號係討論咗咩嘢事  
14 情。

15 主席：（經傳譯員）我而家手頭上有一份會議紀錄嘅，可唔可以係將佢交畀你呢？有  
16 人話畀我聽呢個可以响嗰個螢幕度將嗰個文本顯示出嚟嘅。

17 黃女士：（經傳譯員）應該係 SEC-2 嗰套文件夾 960 頁，SEC-2，967。

18 主席：（經傳譯員）係呀，呢個就係我頭先講緊嗰份。

19 黃女士：（經傳譯員）呢個係 1 月 15 號開會嘅紀錄，佢裏面嘅第 5 頁，大家可以揭  
20 去呢一份會議紀錄嘅第 5 頁。

21 主席：（經傳譯員）如果係第 13 段，你可以睇到呢個嗰個實時嘅巴士資訊系統係咩  
22 嘢用途嘅，呢個係一個服務提供嘅一個設施嚟嘅，即係可以等乘客知道究竟要  
23 等幾耐先至有一架巴士會到，呢個似乎係背後佢哋點解有咁嘅動機要做呢個實  
24 時嘅巴士資訊系統嘅，鄭先生，你可以睇一睇呢度。

25 鄭子憲先生：（經傳譯員）係，主席，我睇咗喇，你係咪想我係畀個意見呢？

26 主席：（經傳譯員）係嘅。

27 鄭子憲先生：（經傳譯員）對我嚟講，呢個下一班車幾時到嘅實時嘅資訊都係可取  
28 嘅，因為會減少乘客嗰個不滿、沮喪，當然亦都係一個提供良好服務嘅一個方  
29 法嚟嘅，乘客可以決定等唔等，同埋佢哋夠唔夠時間、等唔等。呢個都同安全  
30 有關嘅，不過唔係直接有關，我歡迎有咁樣嘅服務嘅，就有再其他嘅特別嘅評  
31 論。

32 主席：（經傳譯員）如果知道幾時下一班會到係咪同安全有關嘅呢？

1 鄭子憲先生：（經傳譯員）如果個乘客知道架巴士會幾時到，我諗佢咁壓力係會低一  
2 啲，如果佢唔知道巴士幾時到，有咁放鬆嘅，可能就有啲感到沮喪嘅感覺，可  
3 能會想儘量企近個行人路嘅邊緣睇睇架巴士會唔會幾時到、望下。整體嚟  
4 講，呢個唔係直接嘅一個促進安全嘅措施，可能有好處，對於安全有好處，當  
5 然我有任何嘅參考資料可以作為證實呢一點嘅。

6 主席：（經傳譯員）其中一個提供呢個資訊嘅一個後果就係話巴士公司會知道架巴士  
7 喺邊度，同埋佢去緊邊度或者幾時到，係咪都有一個成果嘅？

8 鄭子憲先生：（經傳譯員）呢個系統可以同一啲其他嘢一齊用嘅，即係等你可以知道  
9 巴士位置嘅系統或者係監察速度嘅系統一齊用嘅？

10 主席：（經傳譯員）譬如話你知道幾時到，大概幾時到，你又知道佢喺邊度，亦都會  
11 知道巴士嘅速度，係咪？

12 鄭子憲先生：（經傳譯員）係嘅，係嘅。

13 主席：（經傳譯員）呢個係一個附加嘅好處就係佢會知道呢個資料，當然係為另一啲  
14 目的而設喇？

15 鄭子憲先生：（經傳譯員）係嘅。好多時候，我哋應該係儘量善用有關嘅數據嚟到為  
16 唔同嘅目的運用，包括安全同埋服務水平嘅。

17 主席：（經傳譯員）我相信黃小姐一定會同你探討呢個多種用途嘅呢個目的，佢哋有  
18 冇實施或者冇嘗試去實行呢？

19 黃女士：（經傳譯員）呢個關於呢個實時系統，我就想請大家睇睇大家要求嗰個專營  
20 權嘅協議裏面加啲咩嘢落去，政府係點樣跟進，我想請睇一睇 TD-3 文件夾。

21 主席：（經傳譯員）我哋會睇乜嘢呀？

22 黃女士：（經傳譯員）呢個係一個立法會嘅文件嚟嘅，496 頁，不過我想請大家睇嘅  
23 係 542，呢個係立法會嘅資料文件，係關於九巴嘅，係 2017 年 3 月 28 號嘅，  
24 呢度有講嗰個有關嘅條文同埋新嘅嗰個專營權裏面嘅一啲新嘅要求嘅，呢個係  
25 嗰份文件嘅附件 c，呢個係立法會文件，講番有關嘅協議嘅條文，係根據一個最  
26 新嘅專營權加入嘅條文，就係交咗畀立法會。

27 呢度係咁講，「九巴會全面實施有關嘅條文同埋個承諾嘅，响最近兩份嘅  
28 專營權，係 2015 年發出嘅，即係話係城巴同埋大嶼山巴士公司嘅專營權協議，  
29 以下就係個詳細情況，第一就係巴士服務，個強調嘅地方係巴士服務，第一，  
30 話新嘅專營權會授權署長要求九巴提供促進巴士安全嘅設施同埋裝置嘅，亦都  
31 要提供一個無障礙同埋對老人友善嘅環境嘅，下面有啲措施嘅：

32 第(i) 係服務水準--服務質素，呢個係關於服務質素嘅問題，嗰個係無  
33 障礙同埋友善嘅設計，呢個係第一個分段。跟住就有一個係巴士  
34 站嘅一個資訊嘅系統。

第(ii) 個部分就係加強安全嘅，包括設備、設施、裝置，可以減少巴士上面嘅起火嘅危險，呢個係關於防火嘅。

第(iii) 就係容許啲啲可以摺疊嘅單車上車嘅，即係話呢啲單車就唔會造成對其他乘客嘅危害，可以上車。

第(iv) 就係有個座位嘅，即係話巴士站要提供一啲座位嘅。」

下一段，關於提供畀乘客嘅資訊嘅。

「呢個新嘅專營權就會係增加署長所享有嘅規管嘅權力嚟到指定九巴為乘客提供嘅資訊同埋佢個形式，以確保乘客得到適當嘅服務嘅資訊，透過一啲更加好嘅方法得到呢啲資訊。

第(ii) 就係提供一個實時嘅巴士到站資訊嘅，透過網站同埋啲個智能電話嘅應用程式，亦都會喺巴士站係分期裝一啲指示嘅屏幕嘅。呢個服務係關於提供資訊畀乘客。

講緊資訊，署長都係得到加強嘅規管嘅權力，即係話講明、指明乜嘢資訊要提供畀乘客，從啲個協議方面，呢個唔係關於安全嘅，而係啲個提供服務嘅時候，要向乘客提供資訊。」

下一個題目就係加強政府嘅規管：

「第一，係要公布佢哋嘅服務承諾同埋回應投訴嘅合理嘅時間，同埋啲個係要承諾嘅達到嘅成功率。

亦都有加強規管九巴嘅財務同埋會計安排。

第三項，就係要公開投標，即係九巴响採購嘅重要嘅物料嘅時候係要公開投標。

最後一個係個環境表現方面嘅改善、空氣質素、低排放巴士等等。」

喺呢啲新嘅協議嘅條文--冇任何條文係關於加強或者係黑盒嘅能力，呢啲條文都唔涉及呢個巴士黑盒嘅性能嘅，你同唔同意呀？

鄭子憲先生：（經傳譯員）我同意嘅。

主席：（經傳譯員）有提過安全係關於防火嘅？

鄭子憲先生：（經傳譯員）主席，冇錯，即係話會唔會引起火災嘅危害，新嘅協議就係容許署長可以要求九巴提供設施裝置一啲嘢，嚟到改善巴士安全，不過呢個條文就有解釋呢啲咁嘅設施究竟係啲咩設施。

主席：（經傳譯員）佢有提述防火或者火災嘅，係咪要將個引擎隔離、停閉嘅啲個，係咪呀？頭先話城巴嗰度，因為之前引擎起過火嘅，呢個係咪為咗防止啲個引

1 擎起火帶嚟嘅火災呀？

2 鄭子憲先生：（經傳譯員）我有研究過呢個課題，可能係咁樣嘅，我嘅理解，我詮釋  
3 呢度，我哋講緊巴士上面嘅火災亦都要考慮疏散乘客嘅快慢、速度，當然有其  
4 他嘅火災嘅成因嘅，不過又可能比較有咁大嘅可能性，譬如話巴士同另一個載  
5 運易燃物品嘅車輛相撞，咁起火，所以火災嘅危害可以係一個好多--涉及好多  
6 嘢嘅，亦都係另一個專門嘅課題嚟嘅，呢個係一個潛在嘅安全嘅隱患嚟嘅。

7 黃女士：（經傳譯員）鄭先生，我而家可能就唔係咁順序，因為我係請你睇番政府向  
8 九巴建議嘅專營權嘅條文或者要求佢加入嘅條文，我想你睇一睇呢個文件，就  
9 係究竟政府點樣回應公眾嘅關注，同埋係咪响條文裏面反映到佢哋嘅做法，我  
10 想你睇 SEC-2，799 頁，呢個文件係畀立法會嘅，係講緊九巴嘅新專營權，日  
11 期係 2016 年 6 月，799 頁，第一頁嘅第一段就講及文件嘅目的，政府就邀請  
12 公眾人士就九巴巴士網絡新專營權嘅要求提供意見，呢份文件就係向議員報告  
13 係接收咗啲乜嘢意見嘅。

14 第 4 段嗰度就話一共係收到一百三十五份嘅陳述書，呢個就係公眾諮詢期  
15 裏面收到嘅，其中二十七份嚟自區議會不同嘅政團以及係立法會，係 799 頁嘅  
16 第 4 段，對唔住。

17 主席：（經傳譯員）791？

18 黃女士：（經傳譯員）799。

19 主席：（經傳譯員）799？

20 黃女士：（經傳譯員）係，799 頁，第 4 段。

21 主席：（經傳譯員）唔該晒。

22 黃女士：（經傳譯員）一共係係公眾諮詢期收到一百三十五份嘅陳述書，其中二十七  
23 份係嚟自區議會不同嘅政黨、立法會，以及係區議會嘅個別嘅成員，以及係不  
24 同嘅團體，餘下嘅一百零八份嘅陳述書係嚟自公眾嘅人士嘅，下面就分咗五大  
25 類，就係話收到啲咩嘢意見，亦都係係附件嗰度就係羅列咗出嚟。

26 802 頁就係個附件，我就想請你去睇一睇嘅，係跟住嗰版，係第 4 段，嗰  
27 度有一項就係叫做「巴士安全」，嗰度有兩個建議嘅，一個就係話要監察巴士  
28 車長嘅駕駛行為，要更加緊密咁去監察；第二，就係話要提升巴士車長嘅安全  
29 嘅設施，譬如話係呢個係落車門嗰度係有一條橫杆，同埋巴士車身應該更加堅  
30 固。

31 呢度就係睇嚟，係專營權協議嘅文件裏面，呢兩項都有反映到出嚟，我哋剛  
32 剛提過㗎嘛。

33 鄭子憲先生：（經傳譯員）主席先生，呢個 4 段，係呀，我當時都有睇過，我認為呢  
34 兩點係太過空泛，亦都反映唔到我哋嘅關注，我覺得我哋所表達嘅意見，我哋

1 嘅關注就係更為係具體嘅。

2 黃女士：（經傳譯員）我諗我哋睇完九巴，讓我就講番呢個城巴，講番佢哋嘅係專營  
3 權一同埋專營權二，我相信就城巴嗰方面就只係涉及佢哋嘅專營權一你哋表達  
4 咗意見，因為喺你哋所提供嘅文件裏面，我就只係搵到一份嘅意見書，2014 年  
5 嘅 9 月 16 號，係咪呀？喺呢個雜項文件夾嘅 775 頁。

6 鄭子憲先生：（經傳譯員）主席先生，係嘅，呢份文件我哋就係喺 14 年嘅時候所呈  
7 交嘅，嗰次就係首次我哋嘗試就係向政府係提供意見，我哋希望借呢一個專營  
8 權續期嘅機會嚟到提供我哋嘅睇法。

9 主席：（經傳譯員）畀少少時間我搵番嗰份文件出嚟。

10 黃女士：（經傳譯員）775。

11 主席：（經傳譯員）係。

12 黃女士：（經傳譯員）呢個就係回應一份政府所發表嘅公眾諮詢文件嘅，我哋睇番第  
13 二段，「政府嘅諮詢文件就指出『政府喺睇下係批唔批出或者係咪為一個巴士  
14 專營續期嘅一個主要嘅考量就係究竟嗰個專營權公司係咪有能力提供一個適當  
15 而有效率嘅巴士服務。』我哋感到關注嘅就係其他嘅重要嘅因素，特別係道路  
16 安全、服務嘅質素、係咪環保以及企業責任、社會責任，都有提到嘅。」我想  
17 問，係咪你第一次向政府進言呢？第二，你就話喺文件嗰度係道路安全同埋其  
18 他事宜都有清楚咁樣樣係講出嘅，你係咪因此就覺得政府係唔夠重視呢啲因素  
19 呀？

20 鄭子憲先生：（經傳譯員）係，主席先生，㗎，我哋嘅詮釋就係政府文件嘅文本，我  
21 哋就睇番佢所寫嘅文字，嗰度係有提及係安全，所以我哋就要提出嚟，當然政  
22 府自己可以去解釋一下嘅，如果佢哋認為係適當，已經包括咗安全，我諗政府  
23 係可以解釋嘅，我哋亦都係樂意接受嘅，如果佢係咁嘅睇法。

24 黃女士：（經傳譯員）睇番同一頁第五段，你嗰度就講「有一點係可以理解嘅，就係  
25 巴士公司未必有足夠嘅誘因嚟到做咁多重要嘅措施嘅，正如第 17 款嗰度講咗，  
26 呢個可能係由於營運成本高同埋就競爭，不過就係咁樣樣係去容忍嗰啲問題繼  
27 續存在，特別係安全事宜，係不可接受嘅，喺呢一方面，政府係提供更多嘅誘  
28 因，譬如話透過資助或者係夥伴計劃嘅。」我想同你係探討一下呢段文字，你  
29 呢度好具體咁講咗，就係話巴士嘅安全事宜，你就話似乎巴士公司就有嗰個誘  
30 因，你亦都建議或者係透過資助或者係夥伴計劃嚟到提供嗰個誘因，其實你心  
31 目中係有啲乜嘢嘢嘅建議呢？

32 鄭子憲先生：（經傳譯員）主席先生，喺呢度我指出安全係至為重要嘅，不可係因為  
33 財政嘅原因而作出妥協嘅，我見到巴士公司都係商業營運嚟嘅，佢哋係有得到  
34 任何財政上嘅資助，除咗就係長者嘅乘車優惠計劃，呢個係近年推出嘅。正如  
35 我講，政府係唔應該排除呢一個可能性嘅，我未去到講話政府係應該做啲乜嘢

1 嘢或者應該係提供邊一類嘅資助，不過一般嚟講，我都係心目中係諗緊一啲財  
2 政上嘅資助嘅，當然我哋嘅意思就係話要探討嘅，我哋自己就未有再進一步好  
3 詳細咁去研究嘅。

4 主席：（經傳譯員）你心目中係有邊一啲誘因呢？如果講到安全嘅話，係邊啲誘因  
5 呢？

6 鄭子憲先生：（經傳譯員）主席先生，其實可能性好多嘅，譬如話我哋要理解一下有  
7 啲乜嘢係安全措施、一啲乜嘢安全嘅策略係要引入，我哋首先係要有呢一個研  
8 究，亦都係要有啲係量嘅方面嘅——對唔住，質量方面嘅數據嘅，譬如話睇番過  
9 往嘅意外嘅數字、啲人係點樣會受傷，亦都係要同巴士製造商講，就係話我哋  
10 喺香港呢度有啲乜嘢嘅安全嘅問題。巴士製造商佢哋製造巴士嘅時候都係跟一  
11 啲標準去做嘅，譬如話跟番歐洲嘅標準同埋聯合國嘅標準，但係佢哋未必知道  
12 我哋香港本地係遭遇啲咩嘢問題嘅，所以要改巴士嘅設計，我哋首先要有研  
13 究。架巴士可能因而需要成本更高，所以譬如話喺呢方面係咪就可以睇下政府  
14 係咪可以幫手係資助一下呢？我哋未必係講緊就係全面嘅資助嘅，可能政府係  
15 資助部分，或者係政府亦都作為分擔一部分，一個夥伴計劃咁。

16 主席：（經傳譯員）咁邊一啲嘅安全要求呢？

17 鄭子憲先生：（經傳譯員）主席先生，我哋要睇下譬如話巴士車頭，要研究呢，我哋  
18 講過㗎喇，巴士車頭的而且確就係符合到歐洲嘅標準或者聯合國嘅標準，或者  
19 根本係冇標準，但係我講過，其實個係一個問題嘅，因此如果我哋自己希望  
20 推動就話改良車頭個設計，又同巴士製造商攜手嘅話，究竟呢方面嘅成本邊  
21 個去負擔呢？因為巴士因而就會更貴，咁做研究亦都係有成本嘅，呢個就係其  
22 中一個例子。

23 主席：（經傳譯員）香港嘅巴士佢哋全部都係歐洲嘅巴士製造商造嘅，係咪呀？

24 鄭子憲先生：（經傳譯員）係呀，主席先生。

25 主席：（經傳譯員）我講專營巴士。

26 鄭子憲先生：（經傳譯員）係呀，我嘅理解就係大概係有兩大主要嘅巴士製造商，係  
27 歐洲嘅，就係喺英國為本嘅，就係亞歷山大丹尼斯。

28 主席：（經傳譯員）巴士嘅設計都係跟歐盟嘅標準嘅，係咪呀？

29 鄭子憲先生：（經傳譯員）主席先生，我嘅理解係嘅，同埋就係聯合國嘅 UNECE 嘅  
30 標準。

31 主席：（經傳譯員）有冇其他嘅安全誘因你又認為可以係用得到嘅，會唔會係諗下係  
32 都係政府可以資助嘅呢？

33 鄭子憲先生：（經傳譯員）主席先生，譬如話巴士站，巴士站我提過，目前係有資  
34 助，當然巴士公司就係靠廣告收入就可以有呢個資助，另外就係巴士內部，車

1 廂裏面嘅情況都可以改動嘅。暫時未諗到其他，不過最終嚟講，我哋唔想巴士  
2 公司係受到不合理嘅財政壓力，因為我哋都想佢哋係賺到錢、佢哋開心，呢個  
3 就係個概念。除此之外，喺呢一刻，我有其他嘅資料。

4 主席：（經傳譯員）或者有一方面亦都可以請問下你嘅，城巴嗰方面就有個咁嘅建議  
5 嘅，就係話每個座位都係有安全帶好唔好呢，佢哋就話係唔會個個都用嘅，如  
6 果要裝嘅話，就應該政府去資助嘅，你嘅睇法又點呢？

7 鄭子憲先生：（經傳譯員）主席先生，我唔想講及個細節，不過我有睇過城巴嘅回  
8 應，我琴日有講過，就話我哋要好科學化咁樣樣去睇每一項嘅安全嘅措施嘅，  
9 究竟係咪佢哋都係可以係解決我哋所面對嘅安全問題，安全帶的而且確係其中  
10 一項，城巴話乘客未必用--未必啱嘅--唔啱嘅，如果乘客唔用，當然唔令人滿  
11 意，我哋琴日都有討論過其他措施，譬如電子嘅穩定系統同埋其他嘅措施嘅，  
12 但係如果你要响巴士度採納有關呢啲設施或者設備，係有成本嘅。我哋要採納  
13 嘅就係特別要針對啲啲會引起嚴重傷亡意外嘅一啲安全措施，安全帶係一個可  
14 行、可以採納嘅，因為我就唔係好清楚個財務方面嘅影響係幾大，所以我就  
15 畀唔到我嘅睇法、評論，係咪應該將所有資源集中响提供安全帶呢？我會認為  
16 我哋應該要整體咁睇所有有關嘅安全措施嘅，要好小心比較唔同措施嘅好處、  
17 唔好處同埋有冇成效。

18 黃女士：（經傳譯員）喺呢個文件，即係 775 頁，呢度有一個標題就係道路安全至  
19 關重要嘅，你就提過一啲個關於意外率嘅，第 6(c) 條，你有一個咁樣嘅觀察  
20 所得，政府「似乎好快想就話呢個意外率嘅原因，即係成因，就係話『城巴大  
21 部分嘅路線都係响市區裏面嘅繁忙道路度行走嘅，就所以意外容易發生嘅，但  
22 係大部分嘅意外係溫和性質嘅，譬如話响車裏面失去平衡、受傷，或者响個樓  
23 梯度失去平衡，而唔係同其他車輛相撞造成意外嘅。』」

24 你話你哋「唔同意呢個咁樣嘅段落嘅，因為巴士嘅安全至關重要嘅。佢諮詢  
25 文件有講過啲啲巴士壞或者分析個意外嘅成因、趨勢嚟到係支持呢個講法嘅，  
26 我哋覺得一定要首先提供一啲涉及巴士死亡、嚴重意外嘅數目，同埋個個行人  
27 受傷嘅數目，跟住先至可以再討論一下究竟响個新嘅專營權有啲新嘅建議、可  
28 行嘅安全措施改善嘅。」

29 你嘅意思，我哋唔可以淨係睇一個參數，而個諮詢文件應該其實係提供更  
30 加多嘅資訊或者更加多嘅數據，同埋睇下點樣計算個意外率背後有啲咩嘢數  
31 據，係咪你嘅意思呢，呢個？

32 鄭子憲先生：（經傳譯員）係呀，主席，係。因為係諮詢文件，你睇諮詢文件太過簡  
33 單，我嘅工作方式係需要睇番歷史上數據--意外嘅數據，從中汲取教訓，亦都  
34 要睇風險，如果係重大嘅風險，譬如話巴士响懸崖度跌落去，呢啲咁嘅意外唔  
35 會經常發生嘅，不過一旦發生，個後果係會災難性嘅，所以我哋要評估風險，  
36 亦都睇歷史意外嘅數據嘅。諮詢文件就遠遠達唔到我响呢方面嘅預期。

37 黃女士：（經傳譯員）你有一個建議嘅，响 776 頁，關於建議啲一個部分，你有話

「我哋建議過去嘅意外嘅數據同埋巴士營運嘅潛在安全嘅風險係要係得到核實同埋仔細研究嘅，然後就搵啲機會响個新嘅專營權係改善嘅，政府應該係考慮下獎勵巴士公司，如果佢哋達到某啲預定嘅目標嘅，譬如話每年減少某啲種類嘅意外係百分之二十。」我想請你係闡述一下你心目中諗嘅呢個獎勵計劃係點樣㗎？

鄭子憲先生：（經傳譯員）主席，我諗我哋琴日都有討論呢個問題，呢個係好初步、粗略嘅建議，不過個概念就係我哋唔好成日話點樣罰人，亦都係要畀啲動力、鼓勵巴士公司同埋司機合作嚟到達成更高水平嘅安全，譬如話某一啲意外率嘅種類，減少某一個百分率，呢個都同嗰個 ISO30091 嘅呢個背後嘅理念一致嘅，關於道路安全嘅討論似乎社會或者政府好似都好滿意，只要嗰個巴士意外率係平穩，我就覺得唔足夠嘅，我哋要尋求持續嘅改善，呢個要符合嗰個安全系統嘅一個理念，同埋世界嘅趨勢，聯合國、世衛，我哋應該係希望達到係冇意外、冇傷亡嘅，就唔係淨係話一個平穩嘅意外率。

黃女士：（經傳譯員）呢度你或者有一個總結嘅，係 777 同埋 778 頁，你都有一個類似嘅建議嘅，即係同嗰個——講關於九巴嘅意見書都係類似嘅，呢個係關於巴士安全系統，個巴士車輛嘅安全同埋嗰個巴士站，同埋 ISO39001 標準嘅，可唔可以證實呢個係你嘅睇法？

首先 777 頁，响頂嘅，建議，呢個關於 ISO39001 標準，巴士安全，中間亦都有建議，有啲類似即係話全面嘅標準同埋司機嘅監察系統，運用現代嘅科技，包括全球定位系統同埋黑盒，呢啲咁嘅要求都應該係納入作為專營權協議嘅一部分。

另外就 778 頁，嗰個巴士車隊有啲建議，都係類似頭先我哋睇九巴嘅情況，係有啲類似嘅建議。

鄭子憲先生：（經傳譯員）你係咪委員會係想我證實呢幾點呀？主席。

黃女士：（經傳譯員）係嘅。

鄭子憲先生：（經傳譯員）呢啲建議而家都仲係有效嘅，至於話 ISO39001，琴日我講過，係比較新嘅一套標準嚟嘅。對我嚟講，我哋值得探究嘅，我嘅睇法就係話我哋唔可以堅持或者係施加某一種嘅要求，就係堅持一定要咁做，我就會建議有關嘅各方，巴士公司同埋政府探索一下係咪可能採納 ISO 呢個標準，對佢嚟講，睇睇究竟可唔可以接受、可唔可以實施，定係佢哋可唔可以提出一啲有相同嘅標準，類似或者係可以差唔多嘅標準。

我哋建議就係我哋要重視或者係小心睇一睇安全系統，要追求就係持續改善，又要循住一個嚴重意外零死亡率嘅目標進發，亦都可以睇下有冇其他嘅 ISO 標準可以同時研究，當然公司有好多符合唔同嘅認證嘅標準嘅，佢哋要遵守唔同嘅認證嘅標準。我都明白有啲企業會認為要有咁多認證嘅工作，要用好多人手，但係我哋最終都係建議採納呢個標準，因為我哋覺得响道路嘅安全係

1 達到好嘅成果嘅。我哋唔係想建議一啲會增加佢哋嘅工作量或者係冇乜嘢實證  
2 支持嘅一啲標準嘅。

3 總結嚟講，呢啲全部都係我哋嘅建議，但係最終是否可行，我就想請有關  
4 當局同埋有關嘅巴士公司仔細睇一睇逐項嘅建議都仔細研究睇一睇。

5 黃女士：（經傳譯員）我哋見到呢個就住嗰個係公開諮詢嘅回應，我而家就想你再睇  
6 SEC-2...

7 主席：（經傳譯員）喺未開始之前，我想你睇番 776 頁，你嘅建議，就考慮獎勵巴  
8 士公司嘅，如果佢哋係達到一啲事先定落嚟嘅目標，你跟住又講，都可以理解  
9 嘅，亦都需要獎勵嘅，唔係淨係巴士公司，都要包括埋巴士司機嘅，我哋就收  
10 到啲證供，即係話九巴、城巴，今年 3 月 1 號開始佢哋同工會有啲協議嘅，佢  
11 哋嘅獎金係會係包括達到--即係佢哋响安全方面得到嘅獎金就會係納入嗰個基  
12 本薪金嗰度，即係獎金就變咗做底薪，如果係咁樣，即係話巴士再有就住安全  
13 得到獎勵，你喺呢方面有咩嘢意見呀？

14 鄭子憲先生：（經傳譯員）我諗我有辦法評論呢個問題，講到底，呢個係一個好明確  
15 嘅一種--究竟係獎勵㗎，獎金㗎，定係一種懲罰呢？我哋希望車長自願好樂意  
16 咁樣接納佢哋有一個責任係用安全嘅方法駕駛嘅，亦都係符合我哋主張嘅安全  
17 嘅標準，呢個問題就呢個係比較複雜，就係同究竟點樣係畀一啲獎勵佢哋係比  
18 較係更加複雜嘅，我就會話應該要有一啲研究，睇下我哋可唔可以取得我哋想  
19 要成果嘅。

20 主席：（經傳譯員）據我理解，應該係提供一啲誘因畀巴士公司，你都建議應該獎勵  
21 到車長嘅，而家嗰個獎金冇咗，究竟係好事㗎，定係唔好事呢？呢個好簡單嘅  
22 問題啫，係咪呀？

23 鄭子憲先生：（經傳譯員）主席，呢個第一次我知道有件咁嘅事，等我諗一諗。

24 主席：（經傳譯員）我即係建議下或者上晝我哋都小休一陣。返嚟，二十分鐘之後，  
25 得唔得呢？可唔可以話畀我聽究竟係好事定唔好事呢，即係取消咗呢個獎金，  
26 即係安全駕駛嘅獎金？我哋停一停，我哋有二十分鐘。

27  
28 上午 11 時 29 分押聆訊押後

29  
30 上午 11 時 49 分恢復聆訊

31 出席人士如前。

1 主席：（經傳譯員）鄭先生，即係提供獎勵畀巴士司機，咁樣做係咪好定唔好呀？

2 鄭子憲先生：（經傳譯員）主席，我覺得就提供獎勵係好嘅諗法嚟嘅；第二，我就想  
3 指出個獎勵係應該用其他形式嘅，譬如話佢享有嘅地位，應該要令到車長嘅地  
4 位提高，因為佢哋做嘅工作、提供嘅服務係為我哋全社會每年每日咁樣付出  
5 嘅；最後一點，任何嘅獎勵計劃要小心設計，舉例，如果話淨係畀車長話過去  
6 一個月、一年冇意外就獎勵，係咪一個好嘅方法呢？冇意外可能係幸運，可能  
7 只係運氣啫，或者冇意外都唔係一定佢錯嘅，可能係其他人錯。所以獎勵係咪  
8 應該基於大部分時間揸車嘅時候係符合公司嘅安全嘅要求——安全水準達到公司  
9 要求呀，呢個就係一個可能考慮嘅方向。

10 主席：（經傳譯員）黃小姐，我哋可唔可以睇到呢個所謂綠色嘅道路呢個咁樣嘅項目  
11 嘅資料呀？

12 黃女士：（經傳譯員）係，我哋可以响螢幕顯示出嚟嘅。鄭先生，呢個係一個《海峽  
13 時報》嘅一篇文章嚟嘅，我哋就而家抽出嚟畀大家睇，你睇一睇，呢個係追蹤  
14 器，協助巴士車長改善服務，呢個係星加坡嘅一個系統嚟嘅，我哋就下載咗，  
15 呢個係一個車長就係話顯示究竟佢嘅駕駛係點樣可以追蹤，而且係响個智能電  
16 話度係收集嘅系統嘅。如果佢有一個會閃紅色、黃色、綠色嘅一個顯示屏，就  
17 視乎佢嗰個駕駛嘅行為嘅模式係點樣樣，呢個系統就係你可以用一個應用程式，  
18 就知道佢嘅駕駛行為，你可以知道某一個車長嘅駕駛行為，呢個係一個基  
19 於嗰個黑盒得到嘅數據，亦都可以進行數據嘅分析嘅。

20 睇番個呢篇報道本身，英澳嘅一個巴士營運商，叫做 Tower Transit，  
21 佢係話有一啲係會容易有一個問題嘅，譬如話嗰個車站會——同埋個車座位邊會  
22 踎落嚟，就係佢個安全嘅績分就係上年 10 月就 165，就係話多過呢個建議嘅  
23 20 嘅八倍嘅，即係話佢哋可以用智能電話嚟到追蹤呢個駕駛行為嘅。

24 主席：（經傳譯員）呢個係一個好好嘅參考資料嚟嘅。點樣做呢，當然係要進一步睇  
25 一睇，呢個系統就係話應該係想鼓勵車長，等佢哋覺得佢哋係專業人士，係一  
26 個好嘅專業人士，如果佢哋駕駛嘅行為好，佢係會受到尊重，亦都係有一個响  
27 專業上得到回報嘅，我對呢個好正面嘅，我就覺得我哋應該再進一步仔細點樣  
28 探索一下。

29 黃女士：（經傳譯員）為紀錄起見，我哋睇一睇中間呢個 Tower Transit 公司係  
30 有一個綠色道路嘅電子數據系統嘅，就令到佢哋司機揸車比較順暢、更安全  
31 嘅，响舊年 7 月到今年 5 月，佢哋就會可以利用系統嚟到實時透過全球定位系  
32 統同埋個探測器嚟到係追蹤個車輛嘅駕駛嘅情況嘅，就跟住就改善嗰個安全嘅  
33 得分嘅，我就想你睇睇呢度，等你知道，嗰間公司有請咗七百五十個車長嘅，  
34 呢個為我哋保存紀錄起見，我就提一提。

35 我哋係睇番你嗰個關於城巴嘅意見書，雜項 2 嘅文件夾 779 頁，我哋睇過  
36 㗎喇，不過我想你睇一睇呢個之前嘅意見書，就係為提供乘客嘅資訊呢一個段  
37 落，你關於城巴嗰度，你話「如果係好多大部分嘅乘客知道個時間表，佢哋就

1 已經滿意。」但係下一段，「雖然有咁樣嘅進步，响巴士站，唔係經常都提供  
2 資訊畀乘客嘅，應該係佢哋要承諾就發展一個比較現代嘅綜合系統，而家有一  
3 個現代嘅實時嘅資訊系統，特別係主要嘅巴士設施方面嘅資訊系統，係不符香  
4 港作為國際城市大家嘅期望嘅。」你就覺得「政府應該同嗰個有關嘅營運商係  
5 商討一下可唔可以有一啲係試驗計劃，發展一個現代嘅巴士乘客資訊系統。」  
6 呢個就係關於你係倡議有一個實時嘅資訊系統，呢個當時係關於城巴，當時佢  
7 哋有全面實施。

8 自從你交咗呢個陳述書之後，我哋睇一睇政府嘅取態係點樣樣，對於公眾  
9 嘅意見，佢响呢方面有咩嘢取態，我想你睇 SEC-2 呢個文件夾 655 頁，SEC-2  
10 文件夾 655 頁，呢個係一份文件嚟嘅，係公眾諮詢文件嘅，係關於新嘅專營權  
11 協議有咩嘢要求，呢份文件係 2014 年 12 月發出嘅，就係列出公共諮詢嘅結果  
12 嘅，即係呢個關於新嘅營運權嘅協議，係關於城巴第一個專營權嘅。

13 第 3 段，你睇到，嗰個公眾諮詢就係喺 2014 年 6 月 25 號至到 9 月 16 號  
14 期間係進行嘅，運輸署就係邀請十八個區議會以及就係十八個區議會嘅交運會  
15 係提供意見，其中五個區議會就係有喺佢哋會上討論過嘅。

16 去番第 4 段，嗰度就話總共係有四十七份意見書就喺公眾諮詢期間係收  
17 到，十八份係嚟自政黨，其他就係嚟自個別人士，佢哋就係三方面表達意見：  
18 服務質素、票價優惠同埋政府嘅規管。另外喺附件嗰度就係列出嗰個主要嘅意  
19 見嘅。

20 我哋睇番呢個 657 頁第 3 段，嗰度就講及巴士嘅安全，其中一個建議就係  
21 話要引入一啲監察嘅機制嚟到加強就係監察巴士車長嘅駕駛態度，呢一個就係  
22 改善車上嘅安全設施，另外就係話要改善嗰個管理，特別係安全裝置嘅管理，  
23 嗰個就係公眾諮詢嘅結果。

24 又睇番嗰次會議嘅會議紀錄，SEC 嗰個文件夾--對唔住，未去之前，其實  
25 有另一份嘅立法會嘅文件嘅，喺第 700 頁嗰度，呢份文件亦都係一個背景摘  
26 要，總結咗過往嘅睇法同埋關注地方，或者你可以睇番一個 703 頁嘅第 16 同埋  
27 17 段，個標題就係話巴士嘅駕駛安全，呢個就係新大嶼山巴士公司。

28 喺第 15 段嗰度，可以先睇一睇嗰度，就話喺立法會會議一位議員提問，  
29 當時係 2015 年 4 月 29 號，關乎就新大嶼山巴士公司嘅巴士駕駛安全，係因為  
30 2015 年 4 月初曾經發生咗意外，所以就係提問嘅，嗰個就係附註嗰度就係有講  
31 嘅，就係話有一部係新大嶼山巴士公司嘅巴士喺東涌去大澳途中差唔多係跌落  
32 山嘅，當時就落緊斜，就係懷疑就係剎掣系統就係失靈嘅。當時運房局局長就  
33 話所有係新大嶼山嘅新招聘嘅車長都會係接受三至五天嘅培訓，呢個係新大嶼  
34 山巴士公司提供畀佢哋嘅。

35 跟住嗰段就係運房局嘅局長就指出話新大嶼山巴士公司已經係安裝咗一個  
36 電子行車記錄儀，呢個係俗稱叫做「黑盒」，係整個車隊都已經裝置咗，嚟到  
37 去記錄低車輛營運嘅數據，以助係佢哋監察車長嘅行為同埋係調查意外。

1 好，呢份文件亦都有提及呢個黑盒嘅，提及呢個要求，相信你剛才睇到呢  
2 個局長嘅回應，或者我哋睇番個會議紀錄，呢個就係 2015 年嘅 7 月 17 號嘅，  
3 SEC-2 嘅 937 頁，呢個係會議紀錄，就係 7 月 17 號 2015 年開會嘅紀錄嘅，  
4 我哋去番呢個 943 頁，你由第 11 段嗰度開始睇，一路去到第 16 段。

5 個焦點就係在於提供實時巴士到站嘅資訊，個重點喺呢度，就唔係話巴士  
6 安全或者其他事宜嘅，呢度就係講公眾提嘅意見就係頭先所講嘅結果呢方面  
7 嘅，睇到未呢？或者你可以用一啲時間去閱讀一下嘅。

8 鄭子憲先生：Okay。

9 黃女士：（經傳譯員）你可唔可以確認一下呢個都係關乎就係提供一個實時嘅資訊，  
10 就為乘客提供呢啲資訊，就唔係話監察就係巴士車長嘅表現，雖然公眾人士嘅  
11 一個意見就係關乎嗰方面嘅？

12 主席：（經傳譯員）我而家喺螢光幕上面睇緊。

13 黃女士：（經傳譯員）請問你睇完未呢？

14 鄭子憲先生：（經傳譯員）係，睇完，唔該。

15 黃女士：（經傳譯員）可唔可以確認我剛才所講嘅，即係話佢哋呢度講嘅全部都係關  
16 乎就提供實時嘅資訊，就有講及就係巴士安全或者係巴士車長嘅駕駛表現。

17 鄭子憲先生：（經傳譯員）主席先生，係，我剛才所睇嘅呢啲文字大部分都係關乎呢  
18 個實時嘅資訊系統。

19 黃女士：（經傳譯員）係。

20 主席：（經傳譯員）呢個就係同監察司機嘅行為表現就無關嘅？

21 鄭子憲先生：（經傳譯員）冇嘅，我睇唔到。

22 黃女士：（經傳譯員）最後，或者我哋可以睇番呢一份立法會嘅文件，嗰度就係列出  
23 新嘅專營權嘅條款，呢個係城巴嘅，就係 TD-3，570 頁，呢份係立法會嘅摘  
24 要，裏面講及係新嘅專營權條款，係城巴同埋新大嶼山巴士公司嘅，我哋可以  
25 去 572 頁，...

26 主席：（經傳譯員）想問下呢份文件係幾多號嘅呢，邊日嘅呢？

27 黃女士：（經傳譯員）2015 年嘅 9 月 22 號。

28 主席：（經傳譯員）好，唔該。

29 黃女士：（經傳譯員）唔該你。或者我哋去呢個 572 頁，第 5 段，首先呢度就講及  
30 呢個城巴嘅表現，跟住嗰版就講及係新大嶼山巴士公司。

31 喺 574 頁就講及係公眾對巴士服務嘅睇法，下面第 8 段，嗰度就係講嘅新

1 嘅專營權嘅條件同埋係佢嘅承諾，呢個 574 頁嘅第 8 段，首先，呢度就係話將  
2 新近批出嘅專營權嘅專營權條款同埋承諾係加入去，呢度係政府就係得到城巴  
3 同埋大嶼山巴士公司就全部係接納，就係話將最新近批出嘅專營權嘅條款係加  
4 入嘅。

5 喺第 9 段，跟住嗰段，嗰度就講及新嘅專營權條款同埋嗰個承諾嘅，嗰度  
6 總共有三項嘅，首先就係提供實時巴士到站資訊，第二，就係提供票價優惠，  
7 第三，就係提升巴士服務嘅規管。

8 喺第 10 段，就講及係提供實時巴士到站嘅資訊，不過嗰度完全係冇提及  
9 巴士安全嘅，呢個講緊第 10 段，請你花啲時間去睇一睇。

10 鄭子憲先生：（經傳譯員）係，主席先生，係呀，我睇唔到有任何地方係提及巴士安  
11 全嘅。

12 黃女士：（經傳譯員）第三個要求就係要求就係提升巴士服務嘅規管嘅。第 15 段，  
13 577 頁，再次，呢度有任何地方提及巴士嘅安全又或者去監察係駕駛嘅表現。

14 鄭子憲先生：（經傳譯員）係，主席，啱嘅，講得啱嘅呢度。

15 黃女士：（經傳譯員）鄭先生，呢個我要想請你討論嘅最後一個課題，2014 年 12  
16 月 12 號嘅，喺雜項文件 2 嘅 780 頁，780，呢度係一封信，係你寫畀局長嘅，  
17 運輸及房屋局局長，你就提出你嘅睇法，就話關乎呢個係公共交通策略研究嘅  
18 研究範圍，係 780 頁，喺底下嗰度，你就話，首先你就講及嗰個安全嘅表現同  
19 埋公共交通嘅風險，你就話根據係已發表嘅意外統計數字係有咩睇法。

20 跟住你呢度就話呢一個公共交通策略研究應該就係再展示所有嘅機會重新  
21 檢視嚟到去係提升安全同埋服務嘅質素，有啲例子就話黑盒同埋係全球定位系  
22 統、司機監察系統，你就話應該就係有系統咁樣樣去監察一啲駕駛嘅參數，譬  
23 如話就係車速、加速、剎車，嚟到係去減低各類意外嘅風險，呢啲咁樣嘅系統  
24 應該係用一啲新嘅規矩，譬如話限速，高速公路嘅限速、市區裏面街道裏面嘅  
25 限速，同埋應該係溫和咁樣加速、減速嘅一啲數值等等。

26 你就倡議，即係有一系列嘅倡議，你要求改善嗰個係利用黑盒同埋全球定  
27 位系統實施嘅監察系統呀？

28 鄭子憲先生：（經傳譯員）係，呢個同我哋一路建議都係一致嘅，响好多文件、我哋  
29 提交畀政府嘅意見書我哋都係有咁講。

30 黃女士：（經傳譯員）係，多謝你。主席，我已經完成咗我提出嘅詢問，睇一睇我有  
31 冇咩其他嘢可以協助委員會。

32 主席：（經傳譯員）有一個城巴交界我哋嘅信件嘅，我哋要求佢哋確定關於呢個協議  
33 裏面佢哋一啲承諾嘅，你可唔可以响個螢幕係顯示畀我哋睇呀？

34 黃女士：（經傳譯員）我相信係 CTB-3，即係第 3 個文件夾，CTB-3 號，即係城巴

1           3 號。

2   主席：Thank you.

3   黃女士：（經傳譯員）582 到 585 頁。

4   主席：（經傳譯員）係呀，我就心目中就係想睇呢封信。

5   黃女士：（經傳譯員）呢個係一封信嚟嘅，係由運輸署寄畀城巴嘅，呢個就係話係咪  
6       叫佢哋確定係咪承諾提供實時嘅巴士到站系統嘅呢個承諾嘅，583 頁可以見  
7       到。

8   鄭子憲先生：（經傳譯員）係，我睇到。

9   黃女士：（經傳譯員）呢封信亦都完全冇提述話監察車長嘅駕駛態度或者係改善嗰個  
10       黑盒科技或者係利用全球定位系統嚟到係監察車長嘅駕駛嘅表現，即係有任何  
11       嘢關於你八個月之前提出嘅建議嘅。

12   鄭子憲先生：（經傳譯員）主席，譬如話 (b) (1) 呢一段，佢用嘅用字，增進安全嘅  
13       一啲特別嘅設施...

14   主席：（經傳譯員）係邊一段話？

15   鄭子憲先生：（經傳譯員）(b) (1)，你响呢度讀嘅，而家响個螢幕上第一段。

16   主席：（經傳譯員）係第 7 條？

17   鄭子憲先生：（經傳譯員）係，第 7 個條文，新嘅專營權協議第 7 條條文嘅第 (1)  
18       點，嗰度有講過安全--或者係增加安全嘅一個設施嘅，...

19   主席：（經傳譯員）呢個係話佢响附件 2 就列出嚟嘅，有冇附件 2 可以睇到呀？

20   黃女士：（經傳譯員）唔响呢個文件夾嘅，但係我哋可以參照之前一啲文件嘅，係响  
21       TD-3 文件夾裏面第 614 頁，TD-3，614 頁，呢個係第 7 條嘅條文，提供有關  
22       嘅設施嘅。

23   主席：（經傳譯員）我哋有冇附件 3？

24   黃女士：（經傳譯員）唔响呢個文件夾，即係話冇提供到附件 2 同附件 3 畀我哋，淨  
25       係得嗰封信，同埋 586 就係城巴有啲承諾嗰封信，但係我哋可以參照另一份文  
26       件，响嗰個運輸署嘅文件夾裏面，我哋係可以睇到有關嗰個條文嘅，如果你參  
27       照番 TD-3 嘅 614 頁，我哋就可以睇到㗎喇，同埋 652 頁一齊睇。第 7 條係關  
28       於提供設施等。

29           652 頁係第 7 條，佢有一個新嘅分段 (1)，就係授權署長可以要求個營運  
30       商係可以加裝一啲新嘅設施、設備，嚟到係改善安全同服務，包括提供無障礙  
31       設施，即係為老人家同埋傷殘人士提供無障礙設施，呢個就係個 583 頁裏面所

1 提述嘅有關嘅條文。

2 基於我哋所見到，鄭生，呢個係同嗰個監察嗰個駕駛表現、行為無關嘅  
3 呵？

4 鄭子憲先生：（經傳譯員）主席，我想講呢啲咁嘅條文唔夠準確嘅，即係唔係完全咁  
5 樣係回應番--或者係同我哋嘅期望係唔一致嘅，我哋覺得一般嚟講咁樣嘅公眾  
6 嘅諮詢就係好多意見書嘅，我哋只係其中嘅一份。

7 主席：（經傳譯員）有冇另一封類似嘅信件，係九巴發出嘅呢？我哋可以睇一睇佢有  
8 咩嘢承諾，嗰份文件--因為專營權協議就唔係公眾可以睇到嘅文件，呢個係巴  
9 士公司同當局之間嘅一份協議。係，而家响嗰個投影嗰度見到，下面可唔可以  
10 睇一睇「改善安全設施」，羅馬數字第(iii)點，呢度咁講，係咪响九巴第 9  
11 份？

12 黃女士：（經傳譯員）呢個係運輸署寫畀九巴嘅，2017 年 3 月 10 號，關於呢個文  
13 件，我哋見到九巴就係响呢個加強安全設施方面，佢係指明响羅馬數字第(iii)  
14 點，電子數據處理嘅裝置同埋嗰個限速器等等。所以呢個所謂電子數據處理嘅  
15 裝置其實即係黑盒，佢哋係會裝置呢樣嘢，就有講究竟個裝置裏面會係收集啲  
16 乜嘢嘅數據嚟到係監察車長嘅駕駛表現嘅。

17 鄭子憲先生：（經傳譯員）主席，講得啱嘅，呢度文件所講嘅裝置，當然我係想有  
18 嘅，我都覺得好嘅，...

19 主席：（經傳譯員）不過係咩嘢都得嘅，因為佢有講清楚呢啲嘅加強嘅安全嘅設備其  
20 實係咩嘢嚟。

21 鄭子憲先生：（經傳譯員）呢樣樣嘢都係關於安全嘅，不過有啲重要啲，有啲比其  
22 他重要嘅，我恐怕我哋比較重大嘅關注係得唔到回應嘅。

23 主席：（經傳譯員）你要求係實時自動嘅監察車長駕駛表現嘅一個系統，呢度所講佢  
24 係一個加強嘅安全嘅設備，呢個公司所講嘅，巴士公司，就係一個電子數據嘅  
25 處理嘅裝置，就有講任何嘅裏面所講嘅配置或者係標準嘅。

26 鄭子憲先生：（經傳譯員）係嘅，佢就唔係回應話「我哋有一個監察系統，同埋亦都  
27 要發展一啲安全駕駛嘅準則嘅。」佢有講呢樣。

28 黃女士：（經傳譯員）主席，係。

29 主席：（經傳譯員）你已經完成咗你嘅提問？

30 黃女士：（經傳譯員）係，我已經問完。

31 歐陽先生：（經傳譯員）多謝你，主席，多謝你，鄭生，多謝你琴日同今朝嚟到提供  
32 意見畀我哋。我有兩個問題，睇一睇你有咩睇法，第一，香港有唔同類嘅道  
33 路，你可以諗到，响新界揸車同响九龍或者係港島揸車係唔同嘅，所以我問你

1 嘅問題，你支唔支持進一步或者係比較一啲清楚嘅準則去決定使用乜嘢嘅巴  
2 士，响唔同嘅道路嘅狀況應該使用唔同嘅巴士係咪應該有啲明確嘅規定？

3 鄭子憲先生：（經傳譯員）多謝你歐陽先生嘅問題。唔同道路會帶嚟嘅安全嘅問題係  
4 唔同嘅，對於揸巴士，而家都已經有考慮究竟使用邊一個種類巴士嘅準則㗎  
5 喇，譬如話個尺寸大細同埋佢哋嗰個設備有啲唔同嘅，即係唔同嘅道路可能有  
6 啲唔同嘅。

7 新嘅巴士，我試過，我理解响香港島嘅道路行駛嘅新巴士，譬如話有機會  
8 會撞到樹嘅，造成損毀或者係有人受傷，佢哋就有一個好似樹木嘅防護圍欄，  
9 即係一條橫杆，响某一啲路度，高速公路，佢哋會用一啲大一啲嘅巴士，一百  
10 四十八個乘客嗰啲大巴士。你嘅問題就係話呢個係一個方向或者應該係進一步  
11 仔細研究嘅，唔係淨係睇使用邊一種嘅巴士，即係唔係淨係講大細或者係乘客  
12 量或者係長度，我哋都要睇一睇其他啲仔細啲嘅嘢嘅。

13 我亦都有提過，頭尾碰撞都係我哋十分關注嘅，特別喺高速公路上面係頭  
14 尾相撞，因為上層前排嘅乘客就係只係有安全帶，都唔能夠係保障到佢哋嘅，  
15 譬如話巴士同一部貨櫃車相撞，呢啲乘客都係保障唔到嘅。所以睇嚟，我哋應  
16 該要更加慎密咁去考慮，究竟應該喺某一啲路段、某一啲路線派邊啲巴士去行  
17 駛，呢個當然就係要配合番我哋所搵到出嚟嘅潛在風險，無論就係理論上嘅一  
18 啲潛在風險定抑或係過往已經發生咗意外所鑑別出嚟嘅風險。

19 我唔知答唔答到你嘅問題呢？

20 歐陽先生：（經傳譯員）鄭先生，我就係問第二個問題，就係講及，你講過，就係比  
21 較窄嘅山路，你就提議將嗰個駕車速度係降低同埋應該係有更多嘅安全防撞  
22 欄，我想問安裝鏡頭攝影機，你覺得係咪都可以達致同樣嘅果效呢？

23 鄭子憲先生：（經傳譯員）你意思係咪指鏡頭攝影機...

24 歐陽先生：（經傳譯員）去防止司機係超速或者係甚至乎可以有證據捉到邊個人就係  
25 超速嘅。

26 鄭子憲先生：（經傳譯員）理論上，呢個係可以做嘅，我哋其實個目標好簡單，我哋  
27 就係想巴士司機小心駕駛，如果佢哋係駛過一啲比較關鍵嘅路段，佢哋係要特  
28 別小心，因為我哋唔可以容許有巴士係喺山坡碌落去、喺懸崖嗰度跌落去。有  
29 攝影機都係一個恰當嘅裝置，不過目前嗰個科技，我哋其實可以更有效率咁去  
30 做嘅，就我嘅回答就係咁。

31 歐陽先生：（經傳譯員）好，唔該。唔該你，主席先生。

32 羅先生：（經傳譯員）好，唔該晒鄭先生，呢兩日我哋喺你嗰度就係聽咗好多意見，  
33 設計、道路設計、各類嘅安全嘅設施，我哋就值得係繼續去鑽研嘅。我就想  
34 問，你認為有邊一、兩項嘅事情係比較容易做得到，即係好似話係嗰個證據比  
35 較清楚嘅，亦都係適合香港去做，有邊一、兩項係可以好快、儘快去做嘅呢？

1 鄭子憲先生：（經傳譯員）唔該晒你，羅教授。有幾樣嘢嘅，我諗我都喺呢啲文件裏  
2 面好清晰咁表達咗出嚟嘅，我諗我所見到佢即時嘅危機就係嗰啲關鍵、重要嘅  
3 路段，譬如話山頂道有啲路段，呢個係一個例子，我哋有二、三十米高嘅懸  
4 崖，但係今時今日有咁多巴士，有咁多旅遊車、校巴、小巴喺山頂嘅馬路行  
5 駛，我琴日講過，其實的而且確係需要有個安全防撞欄，但係我哋都知道呢啲  
6 馬路都係好耐歷史嘅，而我哋亦都需要係有資金，有足夠嘅投資，我諗首先係  
7 就係要提升司機嘅意識，亦都係要引入剛才所提及嘅嗰啲管控嘅措施。

8 第二點想提嘅，我亦都已經講過，就係將嗰個頭尾碰撞嘅風險減低，特別  
9 係喺高速公路上面，呢個亦都可以即時做到嘅，就係透過就係提升司機嘅意  
10 識，特別係搵出邊一啲司機係有咁嘅習慣，好鍾意係同前車跟車係太貼嘅，特  
11 別係如果佢哋嗰條巴士路線係行駛經過一啲高速公路同埋其他嘅鄉村路嘅。我  
12 諗呢一度亦都可以減低嗰個風險，因為我哋知道往往如果係發生交通意外嘅  
13 話，都會引致多人傷亡嘅。

14 其他嘅措施，其他嘅交通意外嘅類別，或者畀我睇一睇。

15 主席：（經傳譯員）唔需要急。

16 鄭子憲先生：（經傳譯員）係，我會慢慢睇。請大家睇一睇我嘅陳述書，雜項文件夾  
17 2，實質上係我嘅陳述書，嗰一個報告係關於巴士安全嘅，784 頁，因為呢個就  
18 係讓我想起我想提及嘅嗰宗意外，第一，就係乘客失去平衡，呢個就最常見  
19 嘅。提高司機嘅意識，呢個可以好快咁樣做到嘅，我哋唔能夠排除晒所有嘅  
20 風險，但係起碼都可以喺一個合理嘅範圍將佢減低嘅。

21 第二點就係話同行人相撞或者撞到啲行人，我都講過，就係話巴士喺市區  
22 馬路行走嘅時候將佢個車速係降低，特別係有啲司機往往係駛過呢啲地方嘅時  
23 候嗰個車速都係唔適當嘅。

24 最後一點，我諗你哋會特別係關注嘅，就係巴士翻側，我想指出，其實有  
25 好多不同嘅巴士翻側嘅情景嘅。或者大家可以睇番我同一份文件 796 頁，都係  
26 翻側，翻側可能係源自不同嘅原因嘅，譬如話入彎位嘅時候車速過高係其中一  
27 個成因；另外就可能係懸崖碌落懸崖，呢個好清楚；另外亦都有其他嘅情況  
28 嘅，可能衝咗上嗰個安全防撞欄嗰個末端嗰個斜坡，其實亦都喺過往有多次巴  
29 士翻側都係因為咁樣樣而係發生嘅。

30 你睇番呢一個圖表，你可以睇到 2017 年 1 月 14 號，當時就係城巴喺藍田  
31 鯉魚門道就係翻側嘅，係一人死亡、十九人受傷，當時架巴士就係因為去到嗰  
32 個安全防撞欄嗰個斜嘅末端嗰度就係上咗去之後就翻側嘅。另外係 2003 年 10  
33 月 17 號，當時就係西九龍高速公路嘅，亦都因為呢一個安全防撞欄嗰個斜嘅尾  
34 端嗰度就係巴士喺嗰度係翻側嘅。另外就 2015 年嘅 6 月 12 號都係喺嗰個安全  
35 防撞欄嗰個斜嘅尾端嗰度就係巴士就因而翻側，不過嗰度就係冇人受傷嘅，冇乘  
36 客嘅。

1 所以呢啲安全防撞欄個斜嘅末端我哋要係關注，特別係喺高速公路嘅  
2 度，因為有時一架巴士可能佢會係駛得太貼個路邊，咁佢剷咗上去呢個安全  
3 防撞欄嘅尾端呢度就會翻側㗎喇。

4 我諗呢一啲都可以係好快可以做到嘢嘅。唔該。

5 主席：（經傳譯員）鄭生，有冇其他嘅事宜你想講呢？請你而家講，否則嘅話，我哋  
6 就感謝你今日同埋琴日上嚟作證。

7 鄭子憲先生：（經傳譯員）多謝你，主席先生。實質上，呢兩日我想表達嘅都已經一  
8 一講咗，我只不過係想澄清一下我嘅意見，好讓個概念更加清晰嘅。

9 首先，我講嘅高速公路同埋呢個市區道路網絡係咩嘢意思，同埋以中文嚟  
10 講，“highway”就係公路，“urban street network”係市區街道。我  
11 哋講到話係要個時速限制係降低，大部時候我哋係講緊市區嘅街道網絡，因  
12 為我哋講緊話每小時 30 或者 40 公里咁樣嘅時速限制。我想係講清楚，我琴  
13 日並冇咁嘅意思話公路都係一般嚟講要降到咁低嘅車速嘅，呢啲公路都係將不  
14 同嘅市區分區係連結一齊嘅，所以個期望會高啲嘅。

15 另外，我就想講啲車速限制係要合理嘅，係要同佢哋嘅期望同埋同周圍  
16 個環境係要配合嘅，呢個係一個好敏感嘅一個課題，我唔想讓人係有一個咁  
17 樣嘅印象，就話一見到有問題，我哋就立即就係將個時速限制係降低嘅，嚟  
18 到係降到去低到係唔合理嘅。

19 主席：（經傳譯員）或者喺呢方面，你係咪都想講一講個話係第 85 個百分比個  
20 概念呢？

21 鄭子憲先生：（經傳譯員）其實我哋係交通工程嗰度關乎車速有幾個概念嘅，首先，  
22 我哋車輛嘅車速唔係一個單一個值嚟嘅，我哋睇番個車速嘅情況，譬如話我  
23 哋睇咗一百輛車，我哋會睇呢一個第 85 份，呢個其實話佢個車速就係 48，  
24 換句話講，有百分之八十五嘅車輛都係喺呢個數值或者以下嚟到係行駛嘅，另  
25 一方面，有百分之十五佢哋係當時個車速係高於每小時 48 公里嘅。

26 另外，我亦都想講呢個 85 並唔係我哋所睇嘅唯一個值嘅，而根據琴日主  
27 席你所提及嘅嗰份文件，即係話 2013 年制定車輛時速限制英國當局所發出嘅  
28 份文件。喺呢份文件，佢哋提倡一個係清楚嘅速度限制嘅，係平均嘅速度，佢  
29 哋唔係話用第 85 個百分位嚟到決定個速度限制嘅。呢個佢哋覺得要係反映  
30 大部分合理駕駛嘅駕駛者希望有嘅速度，佢哋想用咩嘢速度嚟到係駕駛，個重  
31 要嘅地方就係話如果用 85 百分位呢個數值可能對行人未必有利，如果係用一個  
32 平均值可能更好。香港就有乜樣討論呢個重要嘅事項嘅，呢個會有重大影響  
33 嘅，就係點樣設立一個速度嘅限制。

34 主席：（經傳譯員）可唔可以畀一個參考？邊度地方會係講到話要睇平均速度--平均  
35 值㗎？

1 鄭子憲先生：（經傳譯員）我先攞番個套文件夾出嚟。

2 主席：（經傳譯員）可唔可以講一講你係睇緊邊個文件夾？

3 黃女士：（經傳譯員）我諗 SEC-3，第 3 套文件夾，1003 頁。

4 鄭子憲先生：（經傳譯員）主席，我想請你睇一睇 1014 頁第 34 條嘅條文。

5 主席：（經傳譯員）或者可唔可以請你讀番呢一段？

6 鄭子憲先生：（經傳譯員）佢話中位數嘅速度同埋 85 個百分位嘅速度係一個通常使  
7 用嚟到係量度個交通速度嘅，當局應該繼續係作為常規係收集呢個數據，但  
8 係呢個中位數嘅速度應該係作為一個決定本地或者當地嘅局部個速度限制嘅  
9 基礎。

10 主席：（經傳譯員）可唔可以讀一讀 36 段出嚟？

11 鄭子憲先生：（經傳譯員）係，好嘅，主席。36 段，「大部分嘅路嚟講，就係話個  
12 個中位數同埋第 85 百位數係一個一致嘅關係嘅，但係如果當呢個唔成立嘅時  
13 候，最好就話係佢有個決定究竟係用咩嘢速度嘅，我哋覺得應該係用個道路嘅  
14 設計同埋個限速係要做一個更好嘅配對嘅，有時需要額外嘅措施嚟到係減低  
15 個個差別嘅，即係話中位數同埋 85 個百位數嘅差別嘅，令到個個更加能夠係一  
16 個正常嘅分佈嘅狀況嘅，個限速應該係同個道路嘅環境同埋個路況係相匹  
17 配嘅。」我係咪應該繼續呢？

18 主席：（經傳譯員）係。

19 鄭子憲先生：（經傳譯員）大家見到我哋要考慮好多嘢決定個速度限制嘅，要基於  
20 一個穩健嘅、合理嘅工程嘅考慮，我淨係覺得呢份文件係好好嘅參考，如果我  
21 哋想詳細嚟到係研究呢啲課題。

22 最後，我就係想澄清幾點嘅，第一個就係關於個個路上個減速個個壘，  
23 我用中文就會叫做「減速壘」，有另一個名叫做「減速台」，個意思係減速壘  
24 係一個响個地上凸出嚟嘅一個壘，一個起出嚟。我哋亦都有啲標記嘅，呢個係  
25 一個視覺上嘅一啲標誌嚟嘅，即係話司機如果係揸得太快，唔會話好似經過減  
26 速壘咁樣感覺唔到唔舒服嘅。

27 我見到有時減速壘佢哋譯咗做「減速帶」，呢個係關於我琴日回答委員會  
28 嘅問題，就係話响大埔道應該有啲減速壘嘅，我就比較保守一啲喇琴日，因為  
29 我就意識到你係講緊一啲真係起咗出嚟嘅，响地下嘅，譬如話 12 厘米高嘅一個  
30 壘，你可以叫「減速台」或者係「減速壘」，即係英文叫做“speed hump”，  
31 不過我當然我係開放態度嘅，即係話响主要嘅公路，我哋係唔會有一個減速壘  
32 嘅作為一啲真係喺路度嘅一個實體嘅設施嚟嘅，因為如果真係揸得太快，會引  
33 起交通嘅問題。

34 我哋有時响响大路度有減速壘，當然要符合一啲條件嘅，首先要分開唔同

1 嘅路段，即係主要嘅道路可能有唔同嘅路段，有一部分可能經過一啲村或者係  
2 主要嘅鄉村，我就唔想話咁簡單就話某個建議係唔可行，我其實係願意有開放  
3 態度考慮，不過需要進一步詳細研究。

4 講多兩點。捉紅燈嗰啲攝影機係咪用嚟改善香港交通嘅安全呢？响香港，  
5 市區有好多捉衝紅燈嘅攝影機嘅，佢只可以決定究竟架車係咪衝咗紅燈，不過  
6 你可以想像下如果架車經過嗰個燈號，譬如話彌敦道嘅路口有燈嘅，佢係綠燈  
7 或者係 80 公里嘅速度經過，呢啲攝影機係唔能夠捉到佢或者係要嚟做執法嘅，  
8 因為佢就唔係衝紅燈。

9 响澳洲，佢哋已經係同衝紅燈同埋捉快車係合而為一嘅，嗰個攝影機就會  
10 捉嗰啲衝紅燈或者速度太高嘅車輛都可以影到嘅，如果係同時衝紅燈又再超  
11 速，就會收到兩張告票嘅，佢哋叫做「捉衝紅燈及超速嘅鏡頭」。我知道香港  
12 呢啲攝影機嘅供應商係可以提供或者係一個攝影機可以同時做兩樣執法工作  
13 嘅，呢個如果係做到，係一個好好嘅解決方案嚟嘅，亦都可以配合我哋話減速-  
14 -即係減低嗰個限速嚟到係改善香港市區環境嘅交通安全。

15 最後一點我想澄清嘅係關於雜項 2 呢個文件夾裏面嘅第 808 頁，係講緊呢  
16 幅圖，主席好有興趣研究呢個，因為我哋就討論嘅時候，係咪可能啲車或者係  
17 巴士响嗰個懸崖跌咗落懸崖度，尋日我話我哋已經係提出呢個問題都提咗好  
18 耐，有時係用信件，有時只係喺我哋網頁度就發布，又有通知人，我係有向區  
19 議會提出嘅。

20 我相信呢個政府咁多年佢哋都有留意嘅，咁多年有一啲道路都有相類似嘅  
21 問題，有啲有高啲嘅優次，我想--即係話我係認知到政府係特別係有留意呢一  
22 啲咁樣嘅問題，特別响個關於橋嘅問題，因為自從屯門嗰個意外，...

23 主席：（經傳譯員）你講緊 2003 年，係咪呀？

24 鄭子憲先生：（經傳譯員）係呀，主席。係呀，呢個係一個持續嘅一個問題嚟嘅，自  
25 從嗰個時候，到我哋啲橋其實係另一種潛在會製造災難嘅問題嘅，因為佢哋嗰  
26 個--而家嗰啲路就已經有足夠嘅安全圍欄嚟到係提供保障嘅。我哋知道政府有  
27 一個新嘅顧問報告係關於道路安全嘅危害嘅，我哋知道有呢個咁嘅顧問嘅研究  
28 嘅，我哋亦都明白呢個研究係為咗針對呢個問題嘅。

29 最後一點，就係好多呢啲咁樣嘅問題都係响啲舊、起咗好耐嘅路，我哋需  
30 要改善嘅係需要資金、撥款嘅，就唔係撥款做一啲小型嘅改善工程。

31 我相信我哋係有能力不斷係考慮呢個問題，透過提醒各方面嘅持份者同政  
32 府留意嘅。

33 主席：（經傳譯員）多謝你嘅時間，你已經做咗總結，多謝你提供嘅證供。我而家就  
34 暫時休會，去到兩點半再開始。我哋會有位叫做 Alok Jain 嘅先生提供證供  
35 嘅。多謝你係用咗咁多時間協助委員會嘅工作，提供你嘅證供，多謝晒。

1 鄭子憲先生：（經傳譯員）多謝你，主席，我好樂意咁做，亦都多謝委員會同埋其他  
2 啲啲提供支援同埋委員嘅努力。

3 主席：（經傳譯員）好，兩點半。

4

5 下午 12 時 59 分聆訊押後

6

7 下午 2 時 30 分恢復聆訊

8 出席人士： 程艾樂先生，九龍巴士（一九三三）有限公司前僱員

9

10 主席：（經傳譯員）各位下午好。

11 程艾樂先生： Very good afternoon.

12 主席：（經傳譯員）唔該晒程先生接受我哋邀請出席呢次嘅聽證會，畀口述證供協助  
13 我哋考慮有關事項。我哋要做就係要作出一啲建議，改善巴士安全，咁黃律師  
14 會開始問你問題，唔該晒。

15 程艾樂先生： Thank you, Mr Chairman.

16 黃女士：（經傳譯員）程生，你好，多謝你嚟到，我係代表委員會嘅律師，我會問一  
17 啲問題係關於專營巴士嘅安全設備。首先，我會作一個引言，程生，你係寫咗  
18 兩份意見書，係回應委員會向你提出嘅問題。第一份，日期係 5 月 25 號 2018  
19 年。係前僱員文件夾 1，第 35 頁開始。第二份呢，就係由 44 頁開始，日期就  
20 係 6 月 18 號，都係 2018 年，我會就呢兩份你寫嘅意見書問問題。

21 我先想講你嘅背景，程生，你向我哋提供咗你嘅履歷一份，呢份嘅履歷可以  
22 喺呢一個 46-1，亦都係前僱員 1 號文件。程生，目前你係 Trans-consult 亞  
23 洲公司嘅總監，呢間公司就係一個顧問公司，負責有關於運輸方面，一啲新嘅技  
24 術、數據分析，同埋清潔能源科技。

25 程艾樂先生：（經傳譯員）係。

26 黃女士：（經傳譯員）我相信你曾經為香港九巴工作過，同埋就係呢一個港鐵，總共  
27 就 12 年。

28 程艾樂先生：（經傳譯員）係。

29 主席：（經傳譯員）可唔可以講埋邊段時間呀？

30 程艾樂先生：（經傳譯員）我係 97 年加入，離開嘅時候就係 08 年。

1 黃女士：（經傳譯員）想請你睇番你嘅履歷，係 46-5，上面就講咗嗰段時間同埋你  
2 嘅職位，就係呢一個嘅地鐵，九廣鐵路，咁就係呢一個嘅 06 年至到 08 年，就係呢  
3 一個總經理，係市場推廣部。

4 程艾樂先生：（經傳譯員）係。

5 黃女士：（經傳譯員）跟住揭一頁，一橫 6，你就提及過有關於發展一個實時車務資  
6 訊系統。

7 主席：（經傳譯員）未講呢個之前，可唔可講一講佢嘅學歷呀？

8 黃女士：（經傳譯員）係，程生，想請你講一講就係一橫 8 有關於你學歷方面。

9 程艾樂先生：（經傳譯員）應該喺最耐嗰頁。

10 黃女士：（經傳譯員）一橫 8，咁喺中間嗰度可以見到，學歷同埋專業訓練。程生，  
11 你係一個學士，係工程系，土木工程，咁就喺印度讀番嚟嘅。

12 程艾樂先生：（經傳譯員）係。

13 黃女士：（經傳譯員）喺 94 年嘅時候，你就係相信係一個嘅碩士課程，都係有關於  
14 為運輸方面，運輸工程方面，咁就喺泰國嘅一間 Asian Institute of  
15 Technology。

16 程艾樂先生：（經傳譯員）冇錯。

17 黃女士：（經傳譯員）05 年時候，你就係讀咗一個綜合管理課程，係高級管理人  
18 員，咁就喺呢一個 Richard Ivey School of Business。

19 程艾樂先生：（經傳譯員）係。

20 黃女士：（經傳譯員）呢啲就係你嘅學歷，你亦都係 UITP 嘅會員。

21 程艾樂先生： That's correct.

22 黃女士：（經傳譯員）呢個係一個國際公共運輸組織，你可唔可以解釋一下係咩嘢嚟  
23 㗎？

24 程艾樂先生：（經傳譯員）呢個其實係一個法文，咁就係英文翻譯為  
25 International Association of Public Transport，就係呢一個國際  
26 公共交通國際組織，咁就係包含好多好多國家，係亞洲等等。我知道其實呢一  
27 個港鐵係呢個組織嘅一員，九巴我就唔知係唔係。

28 黃女士：（經傳譯員）咁想請你睇有關於係鐵路嗰個，係實時車務管理系統，咁係呢  
29 一個一橫 6 頁嗰度，有關嘅發展。係喺 2004 至 2006 年上面，嗰度有一段，就  
30 話你係帶領執行一個實時廣播系統，係將佢係概念化，呢個係贏咗一個獎，咁  
31 就係屬於呢一個最佳生活獎，咁呢個係咪地鐵呀？

- 1 程艾樂先生：（經傳譯員）當時係九廣鐵路，呢個我哋叫做 Newsline Express。
- 2 主席：（經傳譯員）咁呢一個系統可以發布咩嘢資料？
- 3 程艾樂先生：（經傳譯員）基本上嚟講係車上一啲廣播系統，係一個顯示器，有新  
4 聞，有啲節目，同埋係乘客資訊。
- 5 主席：（經傳譯員）咁係乜嘢類型嘅乘客資訊呀？
- 6 程艾樂先生：（經傳譯員）一個正常日子嚟講，就話下一站係乜嘢，同埋一啲教育嘅  
7 資料，譬如話係小心空隙，遠離車門。咁喺一啲非正常日子，譬如話有事發  
8 生，咁樣你就係可以呢係指導乘客去一個正確方向行。
- 9 黃女士：（經傳譯員）呢個係 06 年至 08 年嘅，係嗎？
- 10 程艾樂先生：（經傳譯員）係，當時我係呢個市場推廣部主管。
- 11 黃女士：（經傳譯員）請你跟住睇番 46-3 頁。
- 12 主席：（經傳譯員）一橫咩嘢 3？
- 13 黃女士：（經傳譯員）係。
- 14 主席：（經傳譯員）黃律師，我唔知道係你個角度問題定係個咪問題，但係由你講嘅  
15 話呢，就好似朦朦地啲聲，可能需要人去搞一搞，可唔可以擰下佢呢？係咪個  
16 個聲量嘅問題呢？
- 17 黃女士：（經傳譯員）或者我大聲啲，大聲啲得唔得呀？
- 18 主席： Yes.
- 19 黃女士：（經傳譯員）程生，請你睇番 46-3，呢度係有關於九巴，受僱九巴嘅時  
20 候，當時就係策劃同埋發展部，咁就係呢一個 2013 至到 2015 年。
- 21 程艾樂先生： That's correct.
- 22 黃女士：（經傳譯員）跟住升咗職，變成呢一個副車務總監，就係 16 年 1 月至到  
23 16 年 12 月。
- 24 程艾樂先生：（經傳譯員）冇錯。
- 25 黃女士：（經傳譯員）喺你嘅履歷裏面，你亦都講過話帶領研究發展嘅工作，即係就  
26 於使用科技，數碼分析同埋呢一個智能系統，智能流動系統。
- 27 主席：（經傳譯員）喺邊度可以見到呢個資料呀？
- 28 程艾樂先生：（經傳譯員）呢啲其實就係，我係喺某一段時間裏面有做。
- 29 黃女士：（經傳譯員）一陣我再畀資料，咁你亦都曾經一段時間喺香港嘅一間教育學

- 1 院嘅教授。
- 2 程艾樂先生：（經傳譯員）係助理教授。
- 3 主席：（經傳譯員）係教乜嘢？
- 4 程艾樂先生：（經傳譯員）我係香港大學嘅城市規劃學院嗰度呢，就係教㗎。
- 5 主席：（經傳譯員）喺邊段時間呀？
- 6 程艾樂先生：（經傳譯員）開始嘅時候，就係 04 年，我仍然係會做一啲兼職嘅工作
- 7 去教某啲科。
- 8 主席：（經傳譯員）咁你教係邊個範圍，係乜嘢？
- 9 程艾樂先生：（經傳譯員）主要都係有關於公共交通同埋規劃。
- 10 黃女士：（經傳譯員）你就講咗話你呢啲係學術方面嘅參與，咁係呢一個一橫 8 頁，
- 11 咁就話係香港大學嘅城市規劃學院兼職助理教授，係由 07 年 1 月到而家？
- 12 程艾樂先生：（經傳譯員）係，頭先都係咁講。
- 13 黃女士：（經傳譯員）我頭先講過嗰個就係 46-1，第 2 段，最𨳊嗰行，咁就話佢係
- 14 帶領研發有關於使用新技術，數據分析同埋智能流動系統。
- 15 主席：（經傳譯員）係代表乜嘢呀？
- 16 程艾樂先生：（經傳譯員）即係喺關於公共交通上面使用一啲智能系統。
- 17 主席：（經傳譯員）呢個係咪 2013 至到 2016 年呀？
- 18 程艾樂先生：（經傳譯員）冇錯，主要係 2015 年嘅事。
- 19 黃女士：（經傳譯員）可唔可以解釋多一啲係交通運作方面使用技術，包括啲乜嘢
- 20 呢？
- 21 程艾樂先生：（經傳譯員）譬如喺早期嘅時候，就係講一啲遠程資料通訊系統，咁同
- 22 埋有一個合約就有完成。咁就係關於呢一個九巴數據分析，咁當時呢就係我其
- 23 中一間受僱嘅公司係有份參與，咁就係關於係存取數據，分析等等。
- 24 黃女士：（經傳譯員）你目前係一個顧問，係一個陸上交通部，係星加坡一個政府組
- 25 織，係咪？
- 26 程艾樂先生：（經傳譯員）我唔係直接受僱於佢哋，咁但係我係一間顧問公司嗰度工
- 27 作，咁呢間顧問公司係畀意見佢哋。
- 28 黃女士：（經傳譯員）咁有關於你要畀意見個範圍係乜嘢？
- 29 程艾樂先生：（經傳譯員）因為有呢一個保密，所以我唔可以講。

1 黃女士：（經傳譯員）咁但係同公共交通嘅運作有關？

2 程艾樂先生： Yes.

3 黃女士：（經傳譯員）我而家相睇番你嘅意見書，第一份意見書，日期係 5 月 25 號  
4 18 年，就係呢一個前僱員文件裏面第 39 頁。程先生，喺你第一份嘅陳述書第 2  
5 段嗰度，你就咁講，其實你由 39 頁開始解釋，當時你係呢一個策劃及發展部主  
6 管，九巴嘅時候，同埋你嘅工作範圍，就包括科技引用，特別係喺你哋運作同  
7 埋呢個資料管理方面，其實呢個包括係咪實時車務管理系統，同埋遠程通訊系  
8 統？

9 程艾樂先生：（經傳譯員）唔係，遠程通訊系統同埋實時車務管理系統呢有兩個部  
10 分，一個就係硬件部分，其實而家講三個部分，軟件、硬件同埋就處理啲資  
11 料，咁我基本上我就係喺處理資料嗰方面呢我有參與。

12 主席：（經傳譯員）咁啲硬件係指係乜嘢呢？

13 程艾樂先生：（經傳譯員）就係由 Openmatics 呢間公司去提供，呢個係一個遠程  
14 通訊系統，咁就喺巴士上面安裝，咁喺我哋公司嚟講呢，我哋就會開發一啲軟  
15 件，咁就希望能夠裝遠程通訊系統啲啲資料就擺落實時車務管理系統，咁然後  
16 處理資料時候，就係點樣處理啲資料。

17 主席：（經傳譯員）首先，慢慢嚟，我哋首先係硬件，telematics 係大概係牽涉啲  
18 咩嘢設備呢？

19 程艾樂先生：（經傳譯員）我哋通常做黑盒。

20 主席：（經傳譯員）佢個技術個名係叫乜嘢？

21 程艾樂先生：（經傳譯員）呢個係一個系統嚟，就係喺嗰個引擎裏面，亦都係連接喺  
22 引擎同埋其他部分，特別係睇番嗰個巴士嗰個表現係點。

23 主席：（經傳譯員）咁大致上係點邊數據可以搜集嘅呢？

24 程艾樂先生：（經傳譯員）例如關於車速、加速、減速、煞車，或者係使用燃料，傾  
25 側，同埋位置等等。

26 主席：（經傳譯員）咁佢個型號叫做乜嘢名？

27 程艾樂先生：（經傳譯員）我唔記得嘞。

28 主席：（經傳譯員）咁軟件方面，係個軟件係啲乜嘢呢？

29 程艾樂先生：（經傳譯員）喺當時呢，就係喺我哋自己公司開發，咁就係可以提供做  
30 實時車務管理系統，ROM 英文簡稱就係。

31 主席：（經傳譯員）咁點樣去運作㗎？

1 程艾樂先生：（經傳譯員）咁 telematics 呢，就係遠程訊息系統呢，就係可以實  
2 時將呢啲數據就分番送番去營運控制中心嗰度，而嗰個實時車務管理系統呢，  
3 就將呢啲數據係變成一啲可以明白嘅數據，咁然後我哋亦都有個平台，就係可  
4 以處理啲數據，分析啲數據，擺落我哋啲規劃嘅參數之中，令到我哋可以編  
5 更，編時間表，編路線等等。

6 主席：（經傳譯員）咁嗰個營運控制中心喺邊度㗎？

7 程艾樂先生：（經傳譯員）本來就原意就係喺荔枝角車廠嗰度設立。

8 主席：（經傳譯員）咁啲數據係點樣呢，就係由遠程訊息設備系統嗰度傳送去營運  
9 控制心？

10 程艾樂先生：（經傳譯員）係經過一個 GSM 嘅網絡，就用一啲流動通訊 3G，3G 科技  
11 就去做㗎。

12 主席：（經傳譯員）就係基本上係啲流動電話用嘅系統，係咪？

13 程艾樂先生：（經傳譯員）正確。

14 主席：（經傳譯員）呢個係關於軟件嗰方面，咁關於處理或者分析數據係點樣嘅呢？

15 程艾樂先生：（經傳譯員）咁好多數據喺九巴嚟講，都係獨立處理，譬如關於工程  
16 部，就有工程部嘅資料，或者車務部，就有車務部嘅資料。咁佢哋就喺唔同嘅  
17 系統裏面存儲，咁嗰陣時有計劃，就係將所有呢啲擺落同一個數據庫嗰度，亦  
18 都係大家可以一齊共用。

19 主席：（經傳譯員）咁如果呢個數據庫，你啲資料會點樣用嘅呢？

20 程艾樂先生：（經傳譯員）有三個部分，三個階段，第一個呢，就係首先，係睇下實  
21 時發生緊啲乜嘢。第二個階段，就係希望係擺落一個模型嗰度，我哋至少係幫  
22 助我哋可以規劃。第三個目標，就係希望能夠用一啲數據工具，就係做一啲未  
23 來預測。

24 主席：（經傳譯員）咁關於實時嗰方面第一點？

25 程艾樂先生：（經傳譯員）呢個就係會愛嚟管理啲數據，同埋可能去調查，紀錄等  
26 等。

27 主席：（經傳譯員）咁調查啲乜嘢？

28 程艾樂先生：（經傳譯員）譬如話有好多啲乘客投訴某一啲情況，然後我哋就會睇  
29 番啲數據，確認係咪有類似嘅情況。

30 主席：（經傳譯員）如果啲投訴，譬如話就係突然之間煞車，或者係超速，咁擺咗  
31 呢啲數據，係咪真係可以分析到就係講緊呢個特別嘅呢個數據庫？

1 程艾樂先生：（經傳譯員）係，可以。

2 主席：（經傳譯員）如果關於點樣去處理嘅投訴，會唔會主動去用呢啲嘅數據呢？

3 程艾樂先生：（經傳譯員）咁第二個階段呢，就係會係有實時系統，咁我哋就攞咗啲  
4 過往數據，咁我哋就會係可以係實時去分析，咁個諗法就係話可以監管成個啲  
5 啲車務係用實時嘅方法，我哋就可以講叫做一啲例外嘅情況嘅管理，如果譬如  
6 話一啲界限值已經係超越咗嘅時候，我哋就會主動去管理相關嘅情況。

7 主席：（經傳譯員）如果真係成立咗嘅說話，咁你睇到呢個咁樣嘅系統，點樣可以去  
8 幫到啲啲司機去揸車？

9 程艾樂先生：（經傳譯員）譬如話我哋參數，我哋又定咗啲參數，如果係超越咗個參  
10 數，咁就會有警示，咁有啲嘅公司，世界各地嘅公司，佢哋就會用一啲係綠色  
11 同埋紅色嘅警號，如果綠色呢就代表係正常，紅色就已經係超越咗警戒線，咁  
12 如果佢係已經超越咗界限時候，咁我哋就需要積極去干預。

13 主席：（經傳譯員）你有冇預測到就係呢個警示系統，咁如係參數已經係超越咗嘅時  
14 候，會唔會係實時可以去做到警示？

15 程艾樂先生：（經傳譯員）當其時啲個諗法確實係咁。

16 主席：（經傳譯員）咁關於遠程訊息系統話要咁樣用嘅時候，係幾時開始有相關嘅討  
17 論？

18 程艾樂先生：（經傳譯員）呢個討論就係我加入九巴之前，咁我係 2013 年加入，咁  
19 係我初初開始喺嗰度做嘅時候，咁我哋就已經係傾緊，咁所以我唔知道正確嚟  
20 講係幾開始有相關嘅討論。

21 主席：（經傳譯員）咁當其時有邊個參與相關嘅討論？

22 程艾樂先生：（經傳譯員）呢個高級管理層，我個老細，佢係呢一個交通發展主管，  
23 科技部門等等，咁其實成間公司唔同部門都有參與。

24 主席：（經傳譯員）唔該晒，黃大律師。

25 黃女士：（經傳譯員）咁你覺得話有好多人有參與，大概係幾多人呢？

26 程艾樂先生：（經傳譯員）對唔住，我聽唔清楚。

27 黃女士：（經傳譯員）你話有好多人都有參與，你可唔可以話畀我聽，大概係有幾多  
28 人參與？

29 程艾樂先生：（經傳譯員）唔同嘅會可能有唔同人數，其實有一個定嘅數字，咁每一  
30 個部門都有佢哋嘅代表參與，咁呢個就係剛才我講啲啲關鍵嘅部門。咁都幾多  
31 人㗎，咁睇下傾緊啲乜嘢，可能係有 3、4 人，有可能係 20 個人。

1 黃女士：（經傳譯員）你喺呢個陳述書嗰度講呢，就係話嗰個有一個荔枝角嘅營運控  
2 制中心呢，就會將呢啲嘅所有嘅據擺喺嗰度，就係有唔同嘅部門可以用嗰啲資  
3 料嚟就係分析。

4 程艾樂先生：（經傳譯員）咁你其實呢個荔枝角就會係一個營運控制中心，就係實  
5 時車務管理系統。

6 黃女士：（經傳譯員）咁其實呢佢係會係服務成個公司嘅，咁呢度基本上呢都係有一  
7 個去存儲呢啲數據嘅，又或者呢其實嗰個實時嘅監管，都會喺荔枝角中心嗰度  
8 進行嘅。

9 程艾樂先生：（經傳譯員）冇錯，喺荔枝角中心嗰度。嗰啲我哋知道巴士喺邊度實時  
10 嚟講，咁而呢個有唔同嘅伺服器會分析，處理器會分析，咁然後呢就係呢啲數  
11 據就會係提供畀好多公司裏面其他唔同嘅人士。

12 黃女士：（經傳譯員）我哋去睇第 42，就係前僱員文件夾 1，第 2 段。你提到喺第  
13 2 段 A，就關於呢個實時車務管理系統。喺 A 你就話參與好多嘅討論同埋會議，  
14 關於係技術規格，功能，選擇相關科技同埋等等等等，就你嗰啲加入公司嘅時  
15 候就係做呢啲嘢，咁但係你就有參與關於呢一個招標、款項或者係呢個項目管  
16 理嗰度。

17 程艾樂先生：Correct.

18 黃女士：（經傳譯員）係咪就係話你加入公司至到你走嗰段時間，你都係有參與呢個  
19 系統㗎？

20 程艾樂先生：（經傳譯員）喺嗰時期，當我哋大家討論點樣去實施嘅時候呢，其實我  
21 都有參與。

22 黃女士：（經傳譯員）咁我亦都留意到喺羅馬數字(I)，喺 A 段，但係你就話其實主  
23 要嘅原因，點解去實施呢一個項目呢，就係改善安全，通過實時預警同埋反饋  
24 畀一啲車長，咁關於車長方面嘅反饋嗰度，其實呢度會唔會都係實時進行嘅呢  
25 還是係之後先至話番，或者反饋畀嗰啲車長，特別係話呢一個嘅收到投訴之  
26 後？

27 程艾樂先生：（經傳譯員）咁其實有兩樣嘢嘅，咁呢個就係一個兩方面嘅雙向嘅一個  
28 嘅系統，咁個車長呢就係有呢個叫做司機嘅顯示系統，咁就可以有一個雙向方  
29 法，一個就係一個巴士層面，咁我哋就係可以--如果一架巴士就係已經超越咗  
30 某個界限嘅時候，佢就要警告個車長。咁另外一個方法呢，就係話又喺個控制  
31 中心嗰度有人睇到呢架巴士，或者已經係超速，但係仍然都係喺個車速限制之  
32 內，咁呢個如果喺架車上面嘅時候，冇發現有異常嘅情況，但係喺個營運控制  
33 中心嗰度嘅時候，個督導睇到，見到可能係因為個天氣問題，或者其他呢一個  
34 意外或者係路面嘅情況，佢哋應該係揸得慢啲，咁嗰個嘅督導就係可以喺介  
35 入，就係提醒呢一個車長可以揸得慢啲，咁所以呢喺兩個層面嘅一個嘅干預。

1 主席：（經傳譯員）咁如果係第二層面干預嘅話呢，就係透過營運控制中心，咁係點  
2 樣向車長溝通呢個訊息呀？

3 程艾樂先生：（經傳譯員）我哋有好多唔同嘅選項嘅當時傾過，咁譬如話一個顯示系  
4 統，第二就係一個聲音嘅系統。

5 主席：（經傳譯員）咁即係有兩個可能性，一個就係透過顯示系統，或者呢就係透過  
6 聲音？

7 程艾樂先生：（經傳譯員）係，視像已經有喺度㗎喇，當時其實就係有考慮埋呢個聲  
8 音。

9 主席：（經傳譯員）咁係用咩嘢方法，係呢個無線電？

10 程艾樂先生：（經傳譯員）係，主要都有無線電，或者有其他 3G 通訊系統，但係我  
11 哋未傾到嗰度。

12 黃女士：（經傳譯員）你提及過有好多唔同嘅會議，或者係討論關於呢個實時車務管  
13 理系統，可唔可以講下？記唔記得有冇任何文件，有冇會議紀錄係講--傾過啲  
14 乜嘢呢？

15 程艾樂先生：（經傳譯員）有好多唔同嘅講法，有電郵，有傾，有寫低咗究竟係當時  
16 講過啲乜嘢，總結講過啲乜嘢，主要嘅議題，職責等等，咁但係正式嘅會議紀  
17 錄，我就唔記得有冇喇。

18 黃女士： Yes.

19 主席：（經傳譯員）咁呢啲嘅陳述，你就話有好多，係咪書面㗎？

20 程艾樂先生：（經傳譯員）呢啲全部都係投影片。

21 主席：（經傳譯員）係電腦呀？

22 程艾樂先生：（經傳譯員）係，電腦上面。

23 主席：（經傳譯員）唔係書面嘅？

24 程艾樂先生：（經傳譯員）主要都係電腦囉，呢一個係投影片㗎。

25 主席：（經傳譯員）邊個整㗎呢啲資料？

26 程艾樂先生：（經傳譯員）有時係資訊管理部，有時就係車務部。

27 黃女士：（經傳譯員）可唔可以講下喺車務部裏面，邊個負責整呢啲資料，陳述咁  
28 㗎？

29 程艾樂先生：（經傳譯員）車務部入面邊個呀？

1 主席：（經傳譯員）如果你唔記得話唔記得，如果記得就講係邊個？

2 程艾樂先生：（經傳譯員）有一組人專門負責係做呢樣嘢，係務部入面嘅人，不過佢  
3 哋離開咗，我唔記得佢哋啲名，有一個中央嘅組別嚟㗎，係嘞，咁就負責係交  
4 通。

5 黃女士：（經傳譯員）係屬於車務部，係負責呢一個交通，佢係交通部。

6 程艾樂先生： Yes.

7 黃女士：（經傳譯員）你係 B 段嗰度呢就提及過話呢個遠程訊息系統，喺第三行，遠  
8 程訊息系統嘅資料，仍然係有，就算係放棄咗呢一個項目之後，都仍然有，咁  
9 所以仍然喺某程度上有監察，咁但係呢一個實務--呢一個就系統嗰個真正嘅價  
10 值呢，其實係要實時，咁但係呢方面呢就已經犧牲咗。

11 主席：（經傳譯員）我想講話某程度上嘅監察意思係咩嘢，未講呢嘢之前？你就話有  
12 執行到，冇用到，點解係會停止策劃呢？

13 程艾樂先生：（經傳譯員）呢方面嘅討論我有參與，即係話關於話係放棄呢一個系  
14 統，但係我理解呢一個嘅管理系統係公司內部，亦都係遲過訂定嘅時間。

15 主席： Yes.

16 程艾樂先生：（經傳譯員）咁所以引致某程度--我搵一個正確嘅講法，公司裏面即係  
17 覺得即係失望，因為追唔到個時間，唔可以準時做到，咁亦都唔會再繼續進  
18 行。

19 主席：（經傳譯員）呢個技術會唔會係同其他即係喺巴士上面，當時有應用嘅技術  
20 呀？

21 程艾樂先生：（經傳譯員）可能有幾樣，就係巴士上應用嘅，有傾過一啲實時通訊，  
22 溝通，即係發收咗幾多嘅車資，亦都係一啲自動數人，亦都係呢可能係選擇一  
23 啲嘅大學教授同我哋講關於話呢一個無線上網嗰方面資料，咁但係最後其實，  
24 我哋就係會睇下究竟幾多人喺巴士上面，然後呢事先畀個資料畀佢哋，等佢  
25 哋知道我哋幾時應該呢係上車，幾時應該落，即係幾時係可以係有位坐。

26 主席：（經傳譯員）呢個系統，咁喺你加入公司之前，咁係咪已經有發展到一個系  
27 統，就係話畀你聽預計車幾時到？

28 程艾樂先生：（經傳譯員）呢方面嘅功能，其實喺我加入咗嘅之後做，咁其實就喺呢  
29 一個 2014 年最後一季，其實係有試用過，咁但係 2015 年嘅時候，就已經正  
30 式啟用。

31 主席：（經傳譯員）需要用到嘅技術方面，即係發展呢個技術，係同實時車務系統係  
32 咪有關嘅呢？

- 1 程艾樂先生：（經傳譯員）其實都係用番同一樣嘅嘢。
- 2 主席：（經傳譯員）咁即係話收到嘅數據可以有其他用法？
- 3 程艾樂先生：（經傳譯員）係。
- 4 黃女士：（經傳譯員）可唔可以講番呢？記唔記得係邊個宣布或者決定，係唔再進行  
5 呢個項目㗎？
- 6 程艾樂先生：（經傳譯員）冇人真係去公布，不過即係正如我喺信上面講，喺荔枝角  
7 嘅係營運控制中心已經變成寫字樓，咁嘅訊息都好清楚，冇正式宣布。
- 8 黃女士：（經傳譯員）唔該。
- 9 程艾樂先生：（經傳譯員）我唔記得有正式宣布。
- 10 黃女士：（經傳譯員）有關於呢個實時車務管理系統，係咪佢其中一個功能係咪監察  
11 車長嘅行為呢？
- 12 程艾樂先生：（經傳譯員）仲有其他嘢。
- 13 黃女士：（經傳譯員）我咁樣提呢，因為你講過話係綠色道路，同埋一啲嘅記分卡，  
14 咁當你講緊呢個實時車務管理系統嘅時候，其中一個諗法，係咪即係你公司諗  
15 嘅用法呢，就係想做嘢呢樣嘢㗎？
- 16 程艾樂先生：（經傳譯員）係呀，其中一樣囉。咁我係提過過話即係關於呢一個油耗  
17 效率方面，咁其實就係一啲綠色駕駛，咁你可以講係同一樣嘢㗎。其實理想嚟  
18 講，就可以話畀司機聽，叫佢揸得好啲，譬如係整一個系統出嚟，講番畀佢聽  
19 個反應係點，佢哋揸成點，咁佢哋係咪跟番正常嘅模式，定係唔同㗎，咁咪可  
20 以即係提一提佢哋，等佢哋揸得好啲，但係唔係罰佢哋。呢樣最終係可以令到  
21 慳到油，因為其實慳到油就係同呢一個加速、減速有關。
- 22 黃女士：（經傳譯員）你話就唔需要罰佢哋嘅，咁獎勵呢。
- 23 程艾樂先生：（經傳譯員）當時我哋其實就有講詳情嘅，不過呢就係唔係懲罰佢，呢  
24 個好清楚，我哋當時傾嘅就係咁。其實我哋就想睇下點樣去搵呢啲嘅資料，去  
25 點樣去獎勵或者去監察嘅，咁但係其實就有講到詳情。咁其實我哋傾過好多唔  
26 同嘅嘢，好多唔同嘅可能性。
- 27 黃女士： Yes.
- 28 主席：（經傳譯員）咁你有冇傾過一啲參數，係定咗啲咩嘢參數呢？
- 29 程艾樂先生：（經傳譯員）基本上嚟講呢，譬如話講倫敦，當時我哋有睇過呢個作為  
30 參考，咁基本上就係睇一啲嘅事件，即係話如果係喺呢一個嘅門檻，超過咗我  
31 哋訂定個嘅門檻，就會係有啲乜嘢情況出現，譬如話加速、減速、傾側、煞  
32 車等等。咁如果少啲事件發生，咁即係話佢哋駕駛態度咪好啲，佢哋表現亦都

1 好啲。

2 主席：（經傳譯員）咁有冇特登講明，有冇考慮到呢而係講明話，如果超速去到一個  
3 某個程度，加速到咩嘢程度，呢一個過份嘅煞車咩嘢程度呢？

4 程艾樂先生：（經傳譯員）我哋有講明個數字，但係我哋想做嘅就係，做一個統計嘅  
5 分析，當時呢仍然係拗緊話究竟我哋擺咗乜嘢嘅即係門檻呢，有啲咩嘢參數  
6 呢，同埋一個嘅係即係偏離嘅標準，咁我哋有諗過話係咪要一個一般個個規  
7 則，定係話要講明喺某情況發生咗咩嘢事呢，咁其實我哋大部分嚟講都係傾  
8 緊。

9 黃女士：（經傳譯員）頭先你就講過話呢，係針對某一個路線，咁你點揀呀？

10 程艾樂先生：（經傳譯員）每條路線都有唔同嘅特徵，譬如話會唔會係去尖沙咀，去  
11 市區公路，咁所以係巴士司機個嘅行為反應都會唔同，咁所以巴士司機呢，  
12 譬如話即係某一個情況，可能煞車大力啲，譬如話佢係抽番架車出嚟，入番架  
13 車去巴士站嘅時候，咁我哋當時呢就係傾過點樣可以最好，用一個公平個方法  
14 去符合到管理層嘅期望，咁同埋同時間係唔會令到司機覺得難受。

15 黃女士：（經傳譯員）想請你講番 B 段，有關有某程度嘅監察，即係喺放棄咗呢個項  
16 目之後，都有某程度嘅監察，你嘅意思係指乜嘢呀？

17 程艾樂先生：（經傳譯員）以我所理解，遠程訊息系統其實仍然有用，不過使用個  
18 嘅個用法呢，就係 T+1 嘅，即係話發生咗事之後。

19 黃女士：（經傳譯員）即係其實係變咗係反應，唔係預示嘞。

20 程艾樂先生：（經傳譯員）冇錯。

21 黃女士：（經傳譯員）同時你亦都提及過話呢一個系統嘅真實價值，咁其實仍然喺  
22 度，不過呢實時呢一個功能已經就係犧牲咗，其實你講緊就係話係變成係對  
23 事，發生咗事件反應，而唔係預先？

24 程艾樂先生：（經傳譯員）其實即係講緊係實事嘅資訊，咁但係呢有人係實時分析當  
25 時嘅資料，而係係事後先至反應，咁其實可以話係 20 秒就反應到，定係話 20  
26 個鐘頭之後先反應到？

27 黃女士：（經傳譯員）第 3 段，由第 2 行開始，你就提及過話，就算喺當時九巴係策  
28 劃緊呢個計劃嘅時候，其實我哋好大量依賴韓國、星加坡、倫敦同埋慕尼黑嘅  
29 經驗。咁其實講緊你係乜嘢經驗呀？呢啲國家嘅經驗。

30 程艾樂先生：（經傳譯員）喺我加入之前呢，以我所理解九巴高層，其實就係出國考  
31 察過呢啲城市，睇佢哋嘅系統，咁我哋設計嘅時候，就開會係大量討論過話係  
32 韓國做過乜嘢，倫敦做過乜嘢，佢哋個嘅良好做法係乜嘢呢，點可以應用喺  
33 我哋度。

1 黃女士：（經傳譯員）可唔可以畀一個例子？譬如話係喺呢個首爾，或者星加坡。

2 程艾樂先生：（經傳譯員）首爾有一個中央交通管理中心，我哋其實都係想營運控制  
3 中心可以做到呢樣嘢，倫敦嘅運輸局亦都係積極去管理司機行為，使用嘅係遠  
4 程訊息設施，呢個亦都我哋想係用到，所以睇番唔同例子，同埋點樣可以轉化  
5 為我哋用到嘅方式。

6 黃女士：（經傳譯員）當你傾緊呢啲嘢嘅時候，同埋開咁多會喇，你記唔得有冇牽涉  
7 到運輸署？你有冇將你哋計劃做嘅嘢係講畀運輸署聽呀？

8 程艾樂先生：（經傳譯員）我唔記得實際運輸署有冇參與我哋討論，不過我覺得佢哋  
9 知道我哋計劃做啲乜嘢，因為當時我哋係做咗好多公開陳述，就係亦都同商會  
10 呀等等有講，有講話即係九巴將來係點使用技術去改變。

11 黃女士：（經傳譯員）即係你喺公開場合做咗好多陳述？

12 程艾樂先生：（經傳譯員）係呀，我自己，仲有其他公司嘅高層喺公開場合就做咗好  
13 多陳述講呢啲嘢。

14 黃女士：（經傳譯員）呢啲嘢就係呢個實時資訊系統？

15 程艾樂先生：（經傳譯員）呢個係其中一樣嘢，仲有係預計到車時間等等，主要都係  
16 關於遠程訊息嘅設備。

17 黃女士：（經傳譯員）你公開場有講過呢啲嘢喇，即係可能係有啲運輸署嘅人員出席  
18 呀？

19 程艾樂先生：（經傳譯員）我答唔到你，咁但係其實我可以話呢係公眾都知，因為我  
20 哋唔係想畀人知，我哋所以都公開都有講。

21 主席：（經傳譯員）咁你嘅意思係咪就係話，其實訊息係有分發去畀好多唔同嘅人  
22 聽，咁運輸署可能都知。

23 程艾樂先生：（經傳譯員）正確。

24 黃女士：（經傳譯員）咁我再繼續之前呢，你就講到關於呢一個中央交通指揮中心，  
25 咁我可唔可以睇一睇 SEC-2 文件冊嗰度，第 822 頁。

26 主席：（經傳譯員）黃大律師，可唔可以休息一陣先，因為我想搞一搞嗰個系統，因  
27 為黃大律師嗰個聲音就好矇，咁可能或者要轉一轉個咪都未定，咁我哋可唔可  
28 以呢就係休息五分鐘，咁如果程先生你想離開間房，都係可以。

29

30 下午 3 時 15 分聆訊押後

31

1 下午 3 時 22 分恢復聆訊

2 出席人士如前。

3

4 黃女士：（經傳譯員）程艾樂先生，就係呢個係關於呢個係立法會嘅一個文件嚟嘅，  
5 咁呢個係首爾同埋新加坡嘅專營巴士，呢個係 SEC 嘅第 2 號文件，就係第 822  
6 頁開始嘅。

7 第 823 頁，呢個就係首爾嗰個系統嘅，呢個開始。咁喺 825 頁喇，2.8  
8 段...

9 主席：（經傳譯員）可唔可以講呢個文件係幾多--咩嘢日期㗎？

10 黃女士：（經傳譯員）2014-2015 年嘅撰寫嘅，呢度有一個正確嘅日期，呢個係一  
11 個嘅研究部嘅報告嚟嘅，就係由立法會秘書處去編制嘅。呢個可以睇到  
12 IO05/14-15 年咁樣㗎。

13 程艾樂先生：（經傳譯員）呢度最後嗰度寫就係「2015 年 2 月 3 號」㗎，寫咗個日  
14 子。

15 主席： Thank you very much.

16 Yes.

17 黃女士：（經傳譯員）我哋睇 825 頁㗎，呢個其實講關於呢個巴士管理系統嘅成  
18 立，第 2.8 段嘅就係：

19 「去能夠統籌呢個巴士嘅服務，能夠全面嘅方法喇，咁呢一個首爾嘅城市政  
20 府就係設立咗個新嘅巴士管理系統，用一啲最新嘅智慧嘅交通系統喇，咁我哋有  
21 最球定位嘅系統喇，就令到呢一個嘅中央嘅控制中心就係可以完全監察所有巴士  
22 嘅地點喇，佢嘅速度喇，同埋就可以同呢一個巴士司機係溝通喇，同埋即係改變  
23 個巴士嘅數字，同埋就係讓呢一個嘅乘客係可以有一啲實時嘅資訊，知道究竟嗰  
24 個班次係點樣樣。」

25 程艾樂先生：（經傳譯員）係其實類似㗎，咁呢個關於呢個全球定位嘅系統，呢個係  
26 一個以地點為本嘅系統。

27 黃女士： Yes.

28 程艾樂先生：（經傳譯員）所以一定係唔係淨係指係呢個嘅系統為--遠程通訊式系統  
29 都係需要㗎，咁我唔敢肯定佢哋係咪會做遠程訊息系統。

30 主席：（經傳譯員）呢個全球定位話畀你聽嗰個地點？

31 程艾樂先生： Just the location.

1 主席：（經傳譯員）然後你就遠程訊息系統就話畀你聽，究竟加速、減速等等？

2 程艾樂先生：（經傳譯員）咁關於呢個巴士實際個表現，就應該喺個巴士上面有一啲  
3 嘅裝置，咁呢個通常就係遠程訊息系統喇。咁佢可能係好簡單，亦都係可以係好  
4 複雜㗎。

5 Openmatics 嗰個系統就係一個好先進嘅系統㗎㗎，但係你同樣喇，其實呢  
6 啲嘅裝置都係會比較簡單，亦都係可以好--比較平啲，有啲好基本嘅資料，咁呢  
7 啲都係喺個市場上面有㗎。

8 主席：（經傳譯員）咁 Openmatics 嗰個係冇--喺 2015 年嘅時候係莫札特盒，係  
9 咪嗰個，係咪叫莫札特盒呢？

10 程艾樂先生：（經傳譯員）我淨係識到莫札特係同音樂有關嘅啫，我唔係好...

11 主席：（經傳譯員）呢個巴赫㗎？巴赫都係一個嘅音樂家㗎㗎。咁 Openmatics 都  
12 有用呢個型號嘅，咁你有冇--識唔識呢？

13 程艾樂先生：（經傳譯員）咁當其時我哋淨係講 Openmatics 同埋遠程訊息系統  
14 喇。

15 主席：（經傳譯員）咁其實就我哋係 ZF 嘅陳述書㗎，咁你有冇睇過呢？

16 程艾樂先生：（經傳譯員）我有尋晚好夜我先至收到，所以我有乜時間睇。

17 主席：（經傳譯員）咁我哋其實就--佢哋話佢有兩個型號嘅，咁就第一個代就叫做莫  
18 札特，第二代叫做巴赫嘅。咁呢個其實如果喺即係音樂史上面，其實係調番轉  
19 嘅，嗰個歷史就係。

20 程艾樂先生：（經傳譯員）咁但係佢哋嗰啲數據睇落嚟都好似好有音樂感咁嘅。

21 主席： Yes, Ms Wong.

22 黃女士：（經傳譯員）程先生，有關於呢個莫札特同埋呢個巴赫嘅人，我哋去到 BM-  
23 1 文件冊第 64 頁㗎。

24 呢個係一封嘅函件，就係一個律師事務所喇，佢哋代表 ZF 嘅，同埋  
25 Openmatics 嘅。佢哋呢個係提交陳述書畀我哋嘅委員會，咁呢個嘅陳述書...

26 主席：（經傳譯員）唔好意思，等等，等程先生可以就將個文件帶到佢面前嘅。

27 黃女士：（經傳譯員）程先生，請你揭去第 65 頁。呢個係 Openmatics 嘅回應㗎  
28 嘅，就我哋--向我哋嘅委員會嘅回應嘅。嗰個黑色部分就係問題㗎㗎，而呢一  
29 個藍色嘅部分就係 ZF 同埋 Openmatics 嘅回應。

30 如果你睇下第二段，呢度講到：

31 「Openmatics 就係同呢一個九巴就係有個供應嘅合約喇，就係喺 2013 年

4月16號嘅，就係提供呢一個遠程訊息系統，就係畀呢個九巴同埋龍運嘅。」

咁呢個係2013年4月16號，咁呢個係你加入之前嘅。

程艾樂先生：（經傳譯員）我係2013年6月加入嘅。

黃女士：（經傳譯員）咁你——呢度繼續講就話：

「Openmatics 就係開始提供遠程訊息服務㗎，咁就使用第一個嘅黑盒系統，就叫做莫札特盒㗎，之後 Openmatics 就係用一個叫巴赫盒嘅較後——較新嘅型號係代替咗莫札特盒㗎，咁但係係即係好多嘅顧客好似九巴咁，都兩樣亦都冇用嘅。」

程生，我知道你就對於黑盒嘅名稱唔係咁熟悉，但係你有冇喺你哋傾嘅時候，即係講黑盒嘅時候，有冇真係將個黑盒擺畀你哋睇呀？

程艾樂先生：（經傳譯員）我唔記得。

黃女士：（經傳譯員）如果我畀相你睇，會唔會幫到你喇？會唔會令你記得起呢？

程艾樂先生：（經傳譯員）雖然咁講，其實我有見過嗰個儀器㗎，有見過個黑盒㗎，不過就唔係即係呢一個有關於九巴或者 Openmatics，但係其實我係有見過嘅。

黃女士：（經傳譯員）我哋睇番之後嘞，66頁之後嗰頁。呢度提及一個司機嘅反饋系統呀，就有個界限喇，就係由九巴就於嗰架車係訂定㗎，咁就有關於加速率、減速率同埋係傾側角度，同埋有關於車速，一啲其他參數。

咁對於界限方面，即係有關於呢一個遠程訊息系統設定界限呢方面，你有咩嘢嘅認識呢？

程艾樂先生：（經傳譯員）有一樣嘢就係我好記得嘅，就係個傾側角度。

黃女士：（經傳譯員）點解？

程艾樂先生：（經傳譯員）因為——係，因為係其實對我嚟講，就係已經係好危險㗎喇，因為架車已經係傾側緊喇。

主席：（經傳譯員）會跌㗎喇？

程艾樂先生：（經傳譯員）已經成44度，已經係唔可以再控制到㗎喇。

主席：（經傳譯員）所以就其實就唔係話係要畀出一個警號嘅，咁簡單嘅？

程艾樂先生： Possibly.

主席： You set a position that is beyond purpose.

程艾樂先生： That's correct, yes.

1 黃女士：（經傳譯員）咁喺減速率方面呢？

2 程艾樂先生：（經傳譯員）呢個係一個全球嘅參數定係同路線有關呀？

3 主席：（經傳譯員）應該係講緊全球。

4 程艾樂先生：（經傳譯員）2.3 係上落斜的話，其實可以接受㗎，因為有時係--喺  
5 香港係有咁嘅需要。如果平路，就太多嘞。

6 黃女士：（經傳譯員）唔該。想請睇 68 頁呀，第四段對上，有提及過 Openmatics  
7 喺九巴嗰個嘅--設置嘅系統可以搵到啲咩嘢，就話可以係搵到速度嘅紀錄喇，  
8 就係每秒㗎，亦都係連同嗰個全球定位系統嘅資料一齊儲存㗎。

9 程艾樂先生：（經傳譯員）我搵唔到你講邊度呀。

10 黃女士：（經傳譯員）68 頁呀，唔好意思，程生，藍色嗰部分，第三段，藍色嗰部  
11 分，就係關於呢一個係：

12 「Openmatics 嘅遠程訊息系統安裝喺九巴嗰度嘅。」

13 見到嗎？

14 程艾樂先生：（經傳譯員）見到。

15 黃女士：（經傳譯員）就話：

16 「可以認出到一個速度嘅紀錄喇，係每秒㗎；

17 亦都係連同呢個全球定位系統嘅資料一齊儲存喇；

18 突然間剎車嘅不良做法喇；

19 突然加速；

20 同埋呢一樣嘢會連同巴士嘅車牌喇同其他輔助系統。

21 喺九巴嗰個嘅系統就唔可以認到某啲巴士嘅路線㗎，呢一啲其實就係每秒去  
22 認到，亦都係將呢一啲嘅訂定嘅數據喇，每隔三十秒就會透過呢一個無線傳送  
23 或者係透過呢一個網絡傳送喇，咁係傳送去有關嘅伺服器嗰度㗎，即係呢個流動  
24 系統。

25 所以想問，咁就話九巴係可以認到四樣嘅項目㗎，咁你傾嘅時候，係咪有傾  
26 過呢四樣就係關於實時監察司機嘅行為呢？

27 程艾樂先生：（經傳譯員）以我所知，遠程訊息系統嘅設備就唔係話佢超速或者係講  
28 緊車速嘅資料，亦都係有關於佢剎車嘅表現，可以知道究竟係咪大力剎車。

29 但係其實你要係睇下有啲乜嘢嘅--你要界定究竟係一啲乜嘢嘅參數，所以加

1 速--佢哋話畀你聽喇，咁但係乜嘢叫做突然加速，乜嘢唔係突然加速，就要你  
2 自己去界定嘞。

3 呢個係我嘅理解。

4 主席：（經傳譯員）係，我喺之前嗰頁已經睇到佢哋嘅解釋，就話呢啲嘅數據參數係  
5 要輸入去個機嗰度嘅，但係呢個就係關於嗰個數--關於--關埋個傾側角度㗎。

6 黃女士：（經傳譯員）咁即係話可以揀㗎？

7 程艾樂先生：（經傳譯員）係，呢啲係技術方面嘅參數喇，可以係適用於某一個路  
8 線，或者唔係即係路線專用喇，位置專用喇，你都可以係界定嗰個嘅一啲嘅界  
9 限，就係譬如話係一段路段咁樣嘅，就唔係用全球嗰個。

10 黃女士： Yes.

11 主席：（經傳譯員）咁即係話你可以自己去界定嗰個界限喇，即係取決於嗰架車喺邊  
12 度喇？

13 程艾樂先生： Yes.

14 主席：（經傳譯員）譬如話喺咩嘢嘅經緯度喇，你就係喺咩嘢嘅區域裏面喇，譬如話  
15 係咪時速 50 公里喇，或者就係你可以決定--可以自己譬如自己訂定譬如 55 公  
16 里就係一個 70 公里嘅區域裏面，就入 55（原文照錄）公里。

17 程艾樂先生： Absolutely, Chairman.

18 黃女士：（經傳譯員）咁當你哋傾緊喇，係可以--啲啲參數同埋係黑盒可以點用？

19 程艾樂先生：（經傳譯員）當時我哋傾緊嘅就係點可以最佳使用到呢啲嘅訊息喇，去  
20 改善運作喇，改善嗰個表現喇，同埋安全。

21 主席：（經傳譯員）你講喇，就係話如果揸車揸得好，就唔會唔適當咁樣加速，唔會  
22 突然間剎車，唔會突然間停車，咁個油耗就會好好多嘞。

23 程艾樂先生：（經傳譯員）冇錯。

24 黃女士：（經傳譯員）我想問嘅第二樣就係呢個三十秒呢樣嘢。根據呢一方面嘅資  
25 料，係可以收集資料，每秒就收--逐秒收集，但係呢一度就話系統只係每三十  
26 秒收集資料。

27 主席：（經傳譯員）唔係，係話每三十秒發送。

28 程艾樂先生：（經傳譯員）呢個其實都係可以自己去改㗎，你可以不斷咁傳輸喇，或  
29 者每十秒、每三十秒，甚至唔輸出都得㗎，唔發出都得㗎。

30 主席：（經傳譯員）呢個其實就係 Kulis 先生所講嘅，係可以自己選擇去唔去訂定  
31 呀。

1 黃女士：（經傳譯員）係，你之前都講過話係實時功能喇，就係有咁樣嘅好處，但係  
2 呢一個好處，呢一個功能就犧牲咗嘞。

3 想睇番，前僱員文件夾 1，你嘅意見書，第 40 頁。我哋講緊係一啲嘅國  
4 家，即係你公司嘅當時就希望係從中可以得到一啲嘅經驗㗎。

5 你亦都提及過紐西蘭，喺嗰個 GreenRoad.com，綠色道路，呢啲就係關於  
6 巴士公司使用呢個系統得到嘅好處，尤其就係可以將不良嘅駕駛表現減半，同埋  
7 呢一個嘅相撞嘅意外係減半喇，而係巴士司機就係即係架車係撞人咁嘅話，就減  
8 少咗係七成㗎。

9 咁呢個係咪其中有傾過呢？

10 程艾樂先生：（經傳譯員）唔係呀，呢個資料其實係上年我先知道嘅。

11 黃女士： Last year?

12 程艾樂先生：（經傳譯員）咁我亦都有引用㗎。

13 黃女士：（經傳譯員）我想畀一份關於綠色道路 GreenRoad 嘅文件你睇。

14 呢個就係 12 年 7 月 12 號嘅文件㗎，提及到：

15 「綠色道路其實係喺安全管理同埋司機嗰個嘅表現方面喇，係個領先者㗎  
16 㗎。」

17 主席：（經傳譯員）日期係幾時呀？

18 黃女士：（經傳譯員）12 年嘅 7 月 12 號。

19 主席：（經傳譯員）唔該。

20 黃女士：（經傳譯員）第二段㗎，嗰度就話嘞：

21 「綠色道路其實已經係可以喺倫敦將嗰個駕駛嘅風險，就於七十架巴士減低  
22 六成㗎，係由 2010 年係已經有一百一十位嘅司機用過㗎。」

23 跟住嗰段㗎：

24 「利用流動同埋雲端嘅技術喇，綠色道路可以幫助駕駛者自己去改善㗎。因  
25 為會即時係將佢哋駕駛嘅表現，就係透過一個二極管嘅表板上面嘅顯示，同埋一  
26 啲詳細嘅分析，建議去畀--即時去話番畀司機，同埋係車廠嘅經理聽。」

27 當時，因為我睇到呢份文件喇，係 12 年嘅 7 月 12 號，但係喺你哋會議嘅時  
28 候，係冇傾過㗎，係咪呀？

29 程艾樂先生：（經傳譯員）唔係呢間公司喇，咁但係個概念，喺呢份文件裏面所提出  
30 嘅概念，其實係同呢啲概念係一致嘅。

1 黃女士：（經傳譯員）我哋講番你嘅係意見書，就係呢一個 40 頁嘅第四段，提及到  
2 將呢個項目係放棄。咁你亦都提過嘞：

3 「其中一個主要嘅改變，喺 2015 年係管理層嘅改變就係話，呢一啲決定同  
4 埋指示喇，係好少用文件記低㗎，有時就係冇乜特別嘅理由，就會將佢係調轉  
5 㗎，亦都有係同一啲內部嘅持份者傾過或者諮詢過。」

6 「內部持份者」，你指咩嘢呀？

7 程艾樂先生：（經傳譯員）即係唔同部門工作嘅人囉。

8 黃女士：（經傳譯員）咁跟住個頁嘞，第 41 頁。你提及喺第二段就話：

9 「由於問題個嘅特定性質，即係指係關於九巴，同埋喺專營權界別方面，  
10 其實已經發生咗好多事㗎嘞，咁呢個其實都係由於過時嘅監管框架喇，冇公開競  
11 爭喇，冇使用科技喇，低透明度喇，同埋監管者同埋專營者佢哋嘅關係係有一個  
12 直接嘅系統性影響。」

13 主席：（經傳譯員）你講話呢個字係用咗「系統性」，其實你指嘅係一個根本，你用  
14 錯咗字，係應該「systemic，根本」，係咪呀？

15 程艾樂先生：（經傳譯員）係。

16 黃女士：（經傳譯員）第一個就係話過時嘅監管框架，可唔可以進一步解釋，你覺得  
17 而家個嘅監管架構有咩嘢嘅過時地方？

18 程艾樂先生：（經傳譯員）而家我哋嘅規管架構，喺香港，就係好耐之前嘅。當其  
19 時，我哋有相關嘅科技可以監管，監察一啲唔同嘅操作喇。但係而家，我哋有好  
20 多嘅數據可以搜集到，譬如我哋講緊人工智能，或者自動駕駛等等。所以喺香港  
21 目前嘅規管架構，就有--就其實同即係二十、三十年嘅時候已經好唔同嘞，個  
22 情況。

23 例如如果香港嘅巴士嘅公司，如果佢話佢哋係有自動駕駛咁樣，而家我哋個  
24 個規管架構就有一個咁嘅相關嘅規管架構，但係其他嘅城市其實佢哋已經係進步  
25 㗎，佢哋亦都係已經係改革咗佢哋嘅規管架構，致使到有啲創新嘅概念可以得以實  
26 施，但係香港就有。

27 黃女士：（經傳譯員）你講緊係邊個城市？

28 程艾樂先生：（經傳譯員）例如中國大陸、新加坡、杜拜、阿布扎比等等，咁佢哋好  
29 多嘅城市都已經係改革咗佢哋嘅規管架構，譬如有開放數據，框架，咁同埋做咗  
30 好多嘅改革，譬如好似可以有自動駕駛，譬如話電動巴士，呢一個嘅太陽能巴士  
31 等等。

32 主席：（經傳譯員）關於呢一個自動駕駛嘅方面，你係--仍然我哋需要一個人喺架車  
33 度㗎，即使係自動駕駛，就唔係純粹係只可以係電腦操作。

1 程艾樂先生：（經傳譯員）係，冇錯，呢個係第一點。如果譬如你話--有好多時候，  
2 我哋又係需要冇審批同埋批准，而嗰個批准嗰個過程，就係比較困難㗎。

3 黃女士：（經傳譯員）關於嗰個巴士嘅性質，你就比較關注，但係關於嗰個總嘅規管  
4 架構，關於嗰個黑盒，你知唔知其實嗰個黑盒嘅巴士--巴士黑盒佢裏面，其  
5 實有啲咩嘢資料呢咁樣？咁香港就係缺乏呢方面，咁但係其他嘅城市係點？

6 程艾樂先生：（經傳譯員）呢個係一個正常嘅情況，譬如你去到一個發展嘅城市，其  
7 實好多呢個遠程系統已經係採用，譬如甚至乎係土耳其喇，我就前排去過，譬如  
8 其他嘅歐洲嘅城市，全部都係有呢個遠程訊息系統。

9 譬如話首爾、新加坡、土耳其等等，呢啲城市同香港都係差唔多，咁佢哋都  
10 係有好多用交通工具，咁佢哋有遠程訊息系統，令到佢哋成個嘅表現係即係進  
11 步咗好多，改善咗好多。

12 黃女士：（經傳譯員）我哋就已經講過規管架構，第二個嘅問題，就係話缺乏公開競  
13 爭呀。你可唔可以仔細講講？

14 程艾樂先生：（經傳譯員）譬如我睇番新加坡，新加坡係一個例子，嗰新加坡，佢哋  
15 就同香港嗰個巴士嘅 2012、13 年嘅時候，同香港差唔多。

16 咁但係當其實佢哋開始改革嘞，佢哋開始睇番個唔同嘅環境嘅改變，當其時  
17 佢哋睇番個情況，佢知道而家嗰個其實繼續嗰個巴士嘅模式就係唔可以持續，咁  
18 佢就有一個新嘅規管架構，而家佢哋嘅服務已經改善咗，佢哋嘅表現改善咗，好  
19 多嘅創新，亦都佢哋而家已經成為一個嗰呢個區裏面嘅領導者嘞，嗰巴士營運方  
20 面。

21 點解會發生咁嘅事，因為佢哋係已經開放咗個市場，有好多嘅國際嘅人士亦  
22 都入咗佢哋嘅市場度。

23 如果喺香港，就有乜嘅競爭，其實我哋一直都係呢一批嘅營運者，其實基本  
24 上有其他嘅新嘅加入者，其實因此佢哋就缺乏一啲嘅誘因，係創新呀，同埋改善  
25 嗰個營運嘅效率等等。

26 咁呢個就係我所謂嘅缺乏公開競爭嘞。

27 主席：（經傳譯員）你嘅意思就話新加坡其實係邀請一啲有做招標去營運巴士，咁亦  
28 都令到有個競爭，而呢一個國際嘅公司亦都係入到嚟新加坡嗰度，係營運嗰啲巴  
29 士㗎，係咪呢？

30 程艾樂先生：（經傳譯員）係，我--呢個係有個叫易塔通公司喇，嗰新加坡。咁佢  
31 哋入嚟之前，嗰啲人就成日話就係唔夠司機㗎，成日都投訴，咁同香港差唔多情  
32 況。

33 但係今日，呢一個易塔通巴士公司喺新加坡，其實已經有多過佢哋所需要嘅  
34 巴士司機嘞。

1 主席：（經傳譯員）佢哋點樣做到嘅呢？

2 程艾樂先生：（經傳譯員）因為佢哋用咗一個好嶄新嘅人事管理嘅方法。我嗰日就去  
3 探訪過佢哋嘅車廠㗎，非常之舒服，非常之好，呢個係一個好平等嘅一個管理模式，  
4 嗰啲司機就覺得佢哋自己係成個嘅系統嘅服務之中嘅一員，重要一員㗎㗎。

5 主席：（經傳譯員）呢個係新加坡㗎。咁相比香港，你會點樣形容呢？

6 程艾樂先生：（經傳譯員）但係香港，我就會話，就係一個--個管理層就覺得司機成  
7 日都係啲好麻煩嘅人，成日都係要求一啲好唔合理嘅要求㗎。我自己都係一個持  
8 牌嘅司機㗎㗎，咁嗰啲司機就認為，嗰啲管理層坐喺個 office 度㗎，佢哋完全  
9 都唔知道發生緊啲咩嘢事。

10 咁佢哋大家係缺乏互信㗎，所以我就話，我哋係要改革呢一個嘅行業，以確  
11 保呢個嘅行業啲人可以吸引到新血。

12 我哋亦都要明白，呢個巴士服務係我哋嘅城市嘅其中一員，重要嘅成員㗎  
13 㗎，每一日就係九巴載三百萬嘅乘客㗎，如果我哋唔能夠解決呢啲問題，就--  
14 我哋可以買最好嘅巴士，但係如果我哋冇好嘅司機，咁就冇用㗎，成件事係做唔  
15 到㗎。

16 黃女士： Thank you.

17 主席：（經傳譯員）好，咁既然你提到呢樣嘢嘅時候，咁你覺得我哋香港嘅巴士嘅質  
18 素，同埋佢哋嗰個維修嘅情況，你點樣睇？

19 程艾樂先生：（經傳譯員）我會--我對佢哋冇好高嘅評價㗎，香港嘅巴士就係嗰啲工  
20 程方面係好好㗎，佢哋會十七、十八年喺個路上面㗎，即使佢哋就嚟要退休，其  
21 實仍然個狀況都好好。

22 主席：（經傳譯員）因為佢哋嗰個維修做得唔錯？

23 程艾樂先生： That's correct, yes.

24 黃女士：（經傳譯員）咁培訓方面呢，司機培訓方面又點呀？

25 程艾樂先生：（經傳譯員）呢度係有兩方面嘅，一個就係課室嘅培訓㗎，另外就係實  
26 際路上㗎。我哋睇過啲文件，就係委員會送畀委員嘅，咁好多人就用咗好多嘅時  
27 間去做培訓，咁佢哋剔呢個盒呀，有好多嘅守則等等，但係究竟啲人有冇有個動  
28 力去接受培訓，有個問題。

29 一個好基本嘅野就係話，關於呢個服務質素，個僱員就唔係睇下呢個就係一  
30 個份工，而係佢哋睇到呢個係一個責任㗎㗎，呢個就希望我哋喺培訓能夠達到呢  
31 一點。咁目前嚟講，我哋係缺乏呢一點嘅。

32 主席：（經傳譯員）你提到關於香港同埋新加坡嘅分別㗎，咁香港，關於呢個招標嘅

1 方面，香港嘅情況係點㗎？

2 程艾樂先生： In terms of?

3 主席：（經傳譯員）招標，譬如話好似續牌，續呢個專營權續期，咁香港嘅情況同新  
4 加坡係點樣對比呢？

5 程艾樂先生：（經傳譯員）喺香港，其實喺過去二十年都冇任何招標㗎。第二，通常  
6 如果佢續經營權嘅時候，咁個規管就係，就會話呢個嘅公司已經做得唔錯㗎，  
7 咁所以我哋就應該係續佢哋嘅經營權。

8 咁但係其實冇睇番有啲嘅基準嘅研究，即係譬如話國際係點樣樣，其實佢哋  
9 係咪真係達得能夠國際標準，喺譬如創新方面，喺呢個效率方面呀。其實佢哋可  
10 唔可以再叫呢啲目前嘅營運者做得更加好嘅呢？又或者佢哋應該諗下，可以將一  
11 啲新嘅人加--新嘅公司加入㗎，就將成個行業嘅水平可以提升㗎。

12 黃女士：（經傳譯員）你下一個嘅投訴就係話，冇引進一啲技術㗎。你就提過一個例  
13 子，關於遠程訊息系統，咁除咗此之外，你仲--喺呢一點上面，你仲可以講啲  
14 咩嘢嘢呢？

15 程艾樂先生：（經傳譯員）關於科技嗰方面，我而家就做緊個研究，關於人工智能  
16 㗎，就使用人工智能喺公共交通嗰方面，咁我就係代呢個公共交通國際聯會去做  
17 㗎。咁其實而家喺巴士行業裏面都做緊呢啲嘢㗎，譬如新加坡㗎，就係發展咗一  
18 個系統，叫做 SMRD (SMRT?) 㗎。

19 佢哋就係攞呢一個--收集好多嘅資料㗎，譬如話啲司機嘅行為，咁佢哋就  
20 會係預測邊一個司機可能會有出意外，然後佢哋就將佢哋呢個司機嘅培訓就係度  
21 身訂造，咁個司機就會係再接受再培訓，就唔會有意外㗎㗎，所以其實係加入同  
22 埋就係再培訓，咁就係大大咁減低個意外率㗎。

23 而家我有啲數字嘅，佢哋就已經係大大減低個意外率㗎，或者個事故㗎，可  
24 能出現嘅事故，就因為嗰個培訓--接受咗培訓嘅。

25 主席：（經傳譯員）係咪由呢一個嘅新加坡嘅陸路交通管理局去制訂--去收集呢啲資  
26 料嘅呢--呢啲數據？

27 程艾樂先生：（經傳譯員）咁就因為 SMRDC (SMART CEO?) 喺德國有一個嘅陳述  
28 嘅，所以我就攞咗呢啲嘅數據。

29 主席：（經傳譯員）你可能就畀--將啲數據交畀秘書處，好嗎？

30 程艾樂先生：（經傳譯員）可以。

31 黃女士：（經傳譯員）呢個嘅研究係幾時進行㗎？

32 程艾樂先生：（經傳譯員）而家都進行中㗎，進行中㗎。

1 黃女士：（經傳譯員）我可唔可以問，嗰個系統你就收集所有嘅數據，然後分析數  
2 據，同埋去預測就有一啲嘅司機特別有可能出意外㗎，咁然後嗰個司機，你就會  
3 搵佢出嚟，然後就係再培訓嘅？

4 程艾樂先生：（經傳譯員）係呀，佢哋發生--出意外之前。

5 黃女士： Yes.

6 程艾樂先生：（經傳譯員）咁呢個係第一個例子，第二個就係話關於預測性嘅維修，  
7 咁好多車廠裏面嘅程序其實都可以自動化㗎，其實好多世界各地好多嘅營運者做  
8 緊好多嘢去提供--引入科技，去提高嗰個服務質素。

9 黃女士：（經傳譯員）你係講過關於個科技，一個你係講緊就係電子穩定系統㗎，你  
10 有冇聽過呢？

11 程艾樂先生： Yes, I have.

12 黃女士：（經傳譯員）你覺得呢個電子穩定嘅系統點樣樣呢？

13 程艾樂先生：（經傳譯員）呢個係肯定就係令到嗰個車嘅表現更加好嘅，特別係一啲  
14 道路特別傾側嘅說話，呢個係好有幫助嘅。呢個係一個電子嘅裝置，就會令到嗰  
15 個巴士嗰個中心點喇，或者個重心係可以改變嘅。

16 主席：（經傳譯員）或者我哋去睇番嗰個運輸署嗰個陳述書，佢哋話畀我哋聽，3 月  
17 嘅時候話畀我聽，佢哋就係成立咗個特別嘅小組，就係裏面嘅成員包括營運者，  
18 同埋製造廠商喇，咁佢哋就係去睇唔同嘅科技嘅。咁樣又好似好趕忙係去做呢個工  
19 作嘅，咁佢哋就睇緊一啲唔同嘅課題嘅。

20 黃女士：（經傳譯員）係運輸署嘅文件冊嘅第 1 號，就係第 98 頁㗎，呢個係運輸署  
21 嘅陳述書㗎㗎。

22 程生，想請你睇一睇就 98 頁喇，(a) 至到 (f)，就係一啲嘅係安全設備同埋  
23 係使用技術方面嘅，佢哋有探討過。

24 主席：（經傳譯員）咁睇番 94 頁呀，你就會見到運輸署係點樣解釋。你就見到喇，  
25 呢一個文件個頂頭喇就係題目就係叫做喺專營巴士使用技術或者一啲--新技術  
26 或者新設備㗎。

27 咁我哋就講番--睇番--睇到佢哋之前係睇過啲咩嘢，考慮過啲乜嘢喇。

28 但係呢個工作小組係 3 月中成立㗎，今年嘅，係要睇番呢啲嘅事項喇，咁我  
29 就知道，其實佢哋都幾匆忙。

30 程艾樂先生：（經傳譯員）呢個係一個好嘅措施㗎㗎，係運輸署好嘅措施，但係唔應  
31 該係因為有意外先至做，應該無論如何都要做。因為呢幾方面，其實我哋已經係  
32 好落後㗎，係只係反應，而唔係話事前去做預防，去預視。

1 主席： Thank you.

2 黃女士：（經傳譯員）唔該。第十段提及到一系列嘅車上安全設備，係工作小組睇過  
3 㗎。第一個就係電子穩定控制系統，同埋傾側穩定控制系統。

4 第十二段就有呢個特別嘅設備喇，有進一步解釋。可以睇到喇，嗰個剎車系  
5 統點樣可以控制到架車，行番佢嗰個既定嘅路線。使用呢個設備方面，係咪廣泛  
6 使用㗎喇，全球，即係以你嘅經驗所知，定係話至少嚟新加坡有用呢？

7 程艾樂先生：（經傳譯員）佢哋新買嘅巴士其實係有㗎，但係我就唔知道舊車佢哋有  
8 冇加裝番。

9 黃女士：（經傳譯員）睇番第二個建議，98 頁，就係：

10 「將嗰個嘅最高速度限嘅每小時 70 公里㗎，就適用於係呢一個落山嘅時  
11 候，就使用呢一個車速限制器，將佢限制住。」

12 睇番 101 頁，呢個亦都係就係話呢一個 2013 年--2003 年屯門公路嘅意外  
13 之後係考慮㗎。咁就話：

14 「其實呢啲就係嚟--內部已經係有㗎嘞，就利用嗰個波檔，就用軟件去控制  
15 呢一個限速器嘅。」

16 跟住最後嘞，話：

17 「如果佢係架車流動嘅時候，咁車速就唔係因為嗰個引擎轉動或者波檔  
18 係去控--去決定㗎，而係地心吸力，咁所以係車廠，即係製造商咁就建  
19 議話，其實如果話即係安裝呢個嘅減慢--裝呢個減慢器喇，其實係可以  
20 係技術上可行㗎。」

21 但係香港係好獨特嘅情況，因為有好多落山嘅非常斜嘅斜坡㗎，譬如話訂定  
22 咗係車速 75 公里的話喇，其實如果架巴士落緊山，佢嘅速度係快過 75 公里  
23 㗎。

24 咁最好，如果話建議嗰個解決方法係用慢速器嘅話，你有咩嘢意見呀？

25 主席：（經傳譯員）你未講之前嘞，其實你講嗰個減速器--個減速器係咪定嘅呢個  
26 70 公里呀？

27 程艾樂先生： It can be set at any speed--

28 主席：（經傳譯員）嚟香港係咪有咁嘅要求呀？

29 程艾樂先生：（經傳譯員）係，根據呢個道路交通條例，70 係最高㗎嘞。

30 主席：（經傳譯員）但係如果你落緊山嘅話，架車一定就會快過 70 公里㗎喇，因為  
31 其實係根據而家嗰個系統，已經有注油㗎嘞。

1 程艾樂先生：（經傳譯員）其實呢個係有需要用呢個設備，喺香港，因為減速器其實  
2 好似喺香港幾年前--廿年前嘅發明㗎，因為當時就發生咗一件嘅意外㗎，就係  
3 雙層巴士落山發生意外，咁喺香港島㗎，因為巴士唔可以係及時停低，所以就係  
4 撞咗埋去嗰個嘅交通交界嗰度㗎。

5 如果講緊話時速 70 係一個動力嘅--即係講番，即係嗰個係地理圍欄等等，  
6 同埋道路限制，如果譬如話時速限制 50，可以將佢係定咗喺 50，如果喺 70 公  
7 里㗎，咁將佢限為 70，唔會有--嗰個情況就唔會話巴士喺 50 係行緊--50 公里  
8 限速，但係時速係行緊 70。

9 黃女士：（經傳譯員）跟住運輸署下一步--下一個嘅建議就係利用地理圍欄去限制速  
10 度㗎，使用呢一個嘅全球定位系統。

11 程艾樂先生：Yes, that's what -- yes.

12 黃女士：（經傳譯員）但係如果嗰個地方好多高樓大廈，其實用高--用呢一個嘅全球  
13 定位系統係比較困難。

14 主席：（經傳譯員）係呀，嗰路係畀高樓大廈包住。

15 黃女士：（經傳譯員）其實你知唔知㗎，有冇一啲最近嘅技術係可以即係將呢個--解  
16 決到呢個問題，或者減緩呢，至少？

17 程艾樂先生：（經傳譯員）可以從唔同嘅源頭去攞同一樣嘅數據㗎。

18 全球定位系統係其中一種㗎，但係其實如果講緊一啲嘅既定嘅路線嘅話㗎，  
19 咁其實你都知架車會係去邊度㗎㗎，同埋轉緊邊度㗎㗎，所以你可以係計到㗎。

20 主席：（經傳譯員）你話係計番嗰個車轆呀？

21 程艾樂先生：（經傳譯員）係呀，你可以知道嗰個車轆轉動㗎，佢嗰個距離㗎，其實  
22 你可以計到架車去到邊度。

23 主席：（經傳譯員）咁即係話就咁一路係就咁計算？

24 程艾樂先生：（經傳譯員）係呀，因為遠程訊息系統已經有 3G，所以我亦都可以用  
25 呢一個嘅 GSM 同埋呢一個手機嘅發送系統，所以全球定位系統其實只不過係其  
26 中一個知道位置嘅來源㗎㗎。

27 但係如果你一知道佢究竟喺邊--架車喺邊，你就可以幾肯定，可以計到架車  
28 究竟係發生緊咩嘢事。

29 黃女士：（經傳譯員）咁即係話你係可以透過遠程訊息系統去調校㗎，如果你有一個  
30 數碼地圖，我哋知道運輸署係有數碼地圖嘅，咁佢哋會知道成個香港唔同地區有  
31 啲乜嘢嘅車速限制。

32 你可唔可以將數碼地圖同遠程訊息系統，將佢就係結合，等系統可以自動調

1 校車速限制，而唔使人手去輸入，咁即係話架車會就於佢當時嘅位置，而有個限  
2 速？

3 程艾樂先生：（經傳譯員）理論上可以做到㗎，但係你要將運輸署同埋巴士公司有一  
4 個嘅溝通嘅基建，等佢哋可以知道當時嗰個嘅係車速可以自動輸入去系統。

5 但係其實仲可以做多啲，因為巴士營運唔係直接同交通嘅限制，車速限制係  
6 有關㗎，有啲嘅路段喇，我可以話畀你聽，巴士司機係受到訓練，知道當時係要  
7 減速，因為可能譬如話視線受阻，係交通黑點。咁所以，其實可以係唔需要喺影  
8 響其他嘅交通情況底下，去限制車速㗎。

9 主席：（經傳譯員）咁你即係話，其實係可以知道架車喺邊度，當時嘅法定限速，同  
10 埋就係如果係巴士公司係想喺某一個地點有一個特別嘅地方，有一個特別嘅係限  
11 速可以做到，係咪呀？

12 程艾樂先生：（經傳譯員）譬如話可能係即係 90 度嘅彎位喇，咁你亦都可以將佢設  
13 為呢個 20 嘅。

14 主席：（經傳譯員）咁如果喺呢啲嘅界限係有超越嘅話，你亦都可以做一個嘅特殊報  
15 告？

16 程艾樂先生：（經傳譯員）係，到時係可以做到話巴士唔可以過呢一個界限㗎。第二  
17 就係話，容許巴士司機係真係超過呢個嘅界限，不過會即刻會係發出一個特殊報  
18 告。

19 主席：（經傳譯員）咁你知唔知有個咁嘅數碼地圖㗎，係適用於全香港㗎？

20 程艾樂先生：（經傳譯員）我知，我知道係公眾可以攞到嘅。

21 黃女士：（經傳譯員）即係喺我未問你之前，你已經知道有呢個數碼地圖㗎？

22 程艾樂先生：（經傳譯員）係呀，應該公眾都知㗎喇。

23 黃女士：（經傳譯員）唔該晒。跟住嗰個嘅設備就係防撞設施，即係 103 頁。程  
24 生，我想請你睇巴士公司嘅意見呀，咁喺二十六段，你可以睇得到㗎，105 頁第  
25 二十六段。最耐嗰段，話：

26 「總括嚟講，係專營巴士經營者不認為安裝防撞同埋係保持行車線嘅設  
27 備，對於提升佢哋嘅服務安全係有任何嘅提升。」

28 我想問你，程生，你知唔知道，使用防撞設備喺全球上係咪常見嘅呢？

29 程艾樂先生：（經傳譯員）係，常見，「常見」其實都係即係比較嘅詞語㗎喇，有  
30 好多地方都有用嘅，但係我就唔會唔同--我就係--即係我會唔同意你所講嘅呢  
31 啲嘢。

32 其實即係以我所知道，我哋睇緊嘅技術就係非常之固定㗎，靜止嘅，即係話

1 一個就套用晒所有地方㗎㗎。但係睇番香港，香港道路好狹窄喇，車亦都係好-  
2 -行車距離亦都係好近，咁所以其實呢啲嘅設施可能會造成滋擾。但係技術係可  
3 以容許你去調校，令到佢哋可以識得自己學識應該點樣做㗎，就係人工智能喇。

4 每一個路段，你可以講佢嘅參數應該係乜嘢，設定界限，亦都可以訂定個  
5 即係警示嘅水平㗎。咁譬如話公路行緊 70，咁喺彌敦道成日行下停下，行緊 30  
6 都可以有唔同嘅參數，可以定唔同嘅參數。譬如定--咁你亦都可以話㗎，去到  
7 如果架車行到 30，就唔需要有任何嘅--唔需要啟動㗎，因為行得 30 嘅話，出  
8 事嘅機會係好低。

9 所以其實係睇番個路段喇、路線喇、巴士嘅種類喇，同埋你係好多嘢可以  
10 做，甚至連乘客數量都可以係加埋落去。

11 主席：（經傳譯員）咁譬話喺 2014 年，城巴佢哋有用過一個--有一個嘅係試用神  
12 眼。

13 程艾樂先生：Yes.

14 主席：（經傳譯員）咁 2014 到而家，你知唔知道喺呢一方面有冇任何嘅發展呀？

15 程艾樂先生：（經傳譯員）其實個個數字已經改咗㗎㗎，喺呢個 2014 之後，即係世  
16 界已經唔同咗喇嘛。

17 黃女士：And the last device that was mentioned--

18 主席：（經傳譯員）或者可以--有冇人畀你睇過呢個文件㗎，即係關於城巴嘅文件？

19 程艾樂先生：（經傳譯員）喺九巴工作嘅時間，我有睇過呢個文件，但係當時我同神  
20 眼嘅人員係有傾談過㗎，咁同佢哋係開過會喇，當時係知道係可以係即係做一個  
21 嘅測試嘅。

22 主席：（經傳譯員）咁我哋都信你所講喇，世界自從 2014 年已經唔同咗㗎。又或者  
23 我哋可以睇一睇呢個報告。

24 黃女士：（經傳譯員）呢個係 CTB 第 3 號文件冊，係第 601 頁。

25 主席：（經傳譯員）其實個問題就係咁嘅，你睇到個報告嘅關注係點樣，咁而家就  
26 因為科技已經進步咗㗎，咁呢啲嘅關注其實係咪已經係--問題已經係解決咗  
27 呢？

28 程艾樂先生：（經傳譯員）我就好快睇咗一睇，就關於呢個神眼個準確性㗎，個問  
29 題。咁啲啲公會就係講個準確性就係百分之六十九，但係都可以去救人命㗎嘛，  
30 我就話唔會應該係擱置呢個計劃，反而應該係改良佢就真。

31 黃女士：（經傳譯員）唔該晒。

32 主席：（經傳譯員）所以你嘅答案就係話，就正如其他嘅裝置一樣，你就可以--就會

1 係設計一啲唔同嘅界限值，令到呢個科技係可以得以善用嘅，係咪咁呢？

2 程艾樂先生：（經傳譯員）係，正確嘅。我哋睇兩方面喇，就係關於嗰個撞嗰個嚴重  
3 嘅程度同埋嗰個頻密程度嘞。

4 個嚴重程度就係，如果你嗰個好高速嘅時候，就會係比較嚴重，但係如果喺  
5 一啲城市嘅區域裏面，可能嗰個數目係會多嘅，但係嗰個嚴重性係冇咁大㗎。

6 所以每一間巴士公司都要睇呢一方面嘅，佢哋睇番呢一個嘅安全管理系統嘅  
7 時候，佢哋就應該睇呢啲嘅數字，就係唔同裝置畀佢哋嘅收集到嘅數據喇，咁同  
8 埋睇番當時嘅交通嘅情況呀等等。

9 其實如果有好多嘅交通燈嘅時候，就可能成日要停下、揩下，咁嘅情況，從  
10 一啲嘅高速公路係你 70--行緊 70 公里係好唔同嘅。所以其實係講緊兩種唔同  
11 嘅巴士㗎，如果我哋講緊嗰個營運嗰個角度嚟睇。

12 黃女士：（經傳譯員）正如你所講喇，嗰個--呢個報告發表之後，科技又再進一步  
13 嘞。咁就你所知，呢個嘅科技已經係進步到，其實已經可以係度身訂造一啲嘅  
14 個參數，令到其實如果喺即使係好繁忙嘅街道裏面，都唔會造成好大嘅滋擾㗎，  
15 係咪咁呢？

16 程艾樂先生：（經傳譯員）正確㗎。如果你睇番佢哋做試驗計劃，特別係嗰啲自動駕  
17 駛嗰方面喇，其實係一個--我哋曾經經歷咗一個嘅歷程㗎，就係關於自動駕  
18 駛，係呢一個第一至到第五層級喇。

19 如果第一級喇，其實都唔係咁自動嘅，咁仍然有個人喺度，咁嗰個人仍然都  
20 係揸緊架車。但係喺第四級嘅時候，個司機基本上係就係睇緊嗰個嘅機器點樣去  
21 開車，咁其實--所以其實越高嘅級嘅時候，佢就有好多嘅輔助嘅駕駛幫佢㗎。

22 咁仲有好多呢啲嘅感應器呀，啲相機，咁亦都係畀好多嘅資訊你，致使到你  
23 更加清楚周圍嘅環境。

24 黃女士：（經傳譯員）就下一個，就係關於監察司機嘅裝置。呢個似乎係一個幾新嘅  
25 裝置㗎，特別係喺監察司機一啲不安全嘅駕駛。喺第 105 頁㗎，譬如話：

26 「佢恰眼瞓呀，或者係一啲唔好嘅姿勢等等咁樣。」

27 喺第 105 頁，兩個營運者就話畀我哋聽，佢哋會係喺 5 月，2015（原文照  
28 錄）年開始就會係裝置呢啲系統，就係做實驗㗎，做試驗㗎。

29 我哋知道香港嘅司機，佢哋通常就開車開好長時間㗎。咁呢個裝置就係希望  
30 能夠去搵出呢個疲勞、勞損嘅司機。

31 咁呢個咁嘅裝置喺世界各地，係咪都好常用嘅呢？同埋佢係有幾有效呢，喺  
32 世界各地嚟講？

1 程艾樂先生：（經傳譯員）其實我就睇唔到呢度係有好廣泛嘅應用㗎，但係我知道其  
2 實都有啲試驗計劃嘅。

3 我認為呢個科技仍然都係喺度演變緊，最終都係會出現嘅，但係而家暫時嚟  
4 講，都未係好完善，咁可能有好多嘅誤差等等。

5 其實有可能會令到個情況更加糟糕，而唔係改善相關嘅情況，可能有時候喺  
6 個唔適當嘅時間，就係警示個司機咁樣，咁就更加危險㗎，咁可能有啲咁嘅誤  
7 差。

8 而家呢度就係有個攝錄機喇，睇緊個司機個面容，個表情喇。第二個嘅科技  
9 就係--就會睇下佢咗嘅--譬如話睇下佢咗隻眼睛呀，佢咗嘅瞳孔等等。咁亦都  
10 係可以好似隻錶咁樣帶上去手上㗎。

11 我覺得喺一、兩年間，我哋會見到其實兩種科技都會融合埋一齊，但係我喺  
12 呢一刻，我就話其實都未係好廣泛應用㗎。

13 黃女士：（經傳譯員）除咗呢個嘅裝置，你仲有冇其他嘅建議呀？

14 主席：（經傳譯員）喺繼續之前喇，我諗相信你都知道，有個纜車嘅--2016年，有  
15 個電車嘅有個意外，就發現嗰個電車司機就係一早返工，所以佢就係恰眼瞓㗎，  
16 咁喺倫敦㗎，呢啲咁樣嘅防恰眼瞓嘅裝置就有人提議應該係使用㗎。

17 程艾樂先生：Yes, I know.

18 主席：（經傳譯員）咁呢個係講緊科技都係應用--呢個科技應用，但係就唔係好廣泛  
19 使用，係咪呢？

20 程艾樂先生：（經傳譯員）我知道就有呢一個--有擺呢一個裝置，但係我就唔係好知  
21 道其實係咪成功。如果你係百分之四十至五十嘅誤差嘅時候，咁就會令到我哋都  
22 好厭倦啲科技，咁我哋就傾向於就唔理佢㗎。我哋就話呢個科技喺度嘅，但係  
23 我哋仲未係有信心佢係譬如百分之九十五、九十七係準確㗎。

24 主席：Thank you.

25 黃女士：（經傳譯員）關於呢一個嘅科技嘅裝置，喺呢一個嘅文件提到，咁你仲有冇  
26 其他嘅意見呢，就你自己個經驗，可能係幫到去確保呢一個巴士司機開車嘅時候  
27 係安全呢，特別係香港？

28 程艾樂先生：（經傳譯員）咁其實有--其實世界各地都有好多好好嘅成功嘅例子，譬  
29 如話人工智能方面喇，呢個都係進步緊，就有一啲嘅數據分析呀，然後我哋就等  
30 啲嘅機械可以自己自學，同埋有其他嘅人工智能嘅科技呀等等。

31 如果係大埔呢件事件嚟講，其實如果佢未傾側嘅時候，而係我哋知道啲數  
32 據，咁我哋就會有幫手--可以幫助係防止呢個意外，咁個督導亦都係可以知道  
33 有關嘅數據嘅時候，就可以即時去介入㗎。

1 其實我哋好多人為嘅因素，其實都係可以去剔除嘅。其實好多時候，個督導  
2 喺嗰刻，電光火石之間，佢哋就可以做一個嘅決定㗎。好多時候都會有啲人嘅行  
3 為會因為佢哋當時情緒所影響，咁人工智能會係一個方法喇，咁就有一個好--  
4 有一啲好理性嘅一個嘅意見畀到你哋嘅，亦都係好準確㗎。

5 呢個係一個新嘅地帶，我哋可以去探討，咁而好多公司其實都係睇緊，譬如  
6 話工程呀，同呢一個--同顧客之間嗰種嘅聯繫等等，咁其實呢啲都係人工智能  
7 可以做到㗎。

8 主席：（經傳譯員）就我哋希望就係話，個督導就係話其實睇到嗰啲嘅異常情況嘅報  
9 告，然後或者係劇烈嘅剎車、加速、減速等等，然後佢睇到呢啲嘅資料嘅時候，  
10 數據嘅時候，佢就可以喺實時嘅時候即時去介入㗎，係咪咁嘅意思呢？

11 程艾樂先生：（經傳譯員）咁我就會更加--去得更加遠一點。而家嘅督導如果佢實時  
12 車務管理系統嘅時候，佢攞咗啲嘅--睇到一啲嘅數據喇，咁但係人工智能喇--  
13 人嘅腦其實只係可以處理一定嘅數據嘅啫，我哋係可以學習，但係呢個嘅人工智  
14 能永遠都唔會忘記一啲嘢嘅，所以佢可以做嘅就係話，佢睇下嗰個車嘅情況、道  
15 路嘅情況、天氣情況，同埋個道--附近嘅交通情況等等，佢係將所有呢啲嘅參  
16 數擺落同一個框架嗰度，然後就係有一啲度身訂造嘅一個方案，提供畀當時嘅情  
17 況。

18 我唔係淨係講緊超速，就係個車尾開始超速嘅時候，就已經係可以做到個風  
19 險嘅評審，咁亦都係可以有個即時嘅介入嘅框架。

20 黃女士：（經傳譯員）係咪意思係話由個系統接咗嚟做，還是係話畀個督導聽呢？

21 程艾樂先生：（經傳譯員）咁可能就係--就話你就可以就勸喻嗰個司機就話「因為今  
22 日落雨呀。」或者「有好多嘅單車呀，小心啲呀。」等等，佢可以做呢啲嘅勸喻  
23 㗎。

24 黃女士：（經傳譯員）係，明白。就係喺之前係話畀你聽，你應該點樣去開車？

25 程艾樂先生： Correct.

26 黃女士：（經傳譯員）你下一個嘅投訴就係話缺乏透明度，同埋規管者同埋專營權持  
27 有人有啲親密嘅關係嘅，呢個就係第 41 頁，就係 FE-1 嘅文件冊嘞，就缺乏透  
28 明度同埋規管者同埋專營權持有人嘅親密關係。咁你可唔可以講講，關於「欠缺  
29 透明度」係咩嘢意思？

30 程艾樂先生：（經傳譯員）就係好多嘅數據都唔係公開資料㗎㗎，譬如話我自己有個  
31 個人嘅例子喇，其實我就係喺我屋企門口就等架巴士，然後就我個程式話畀我  
32 聽，就話兩分鐘架巴士就會嚟到，但係我就從來就有見到個巴士㗎，雖然喺我個  
33 應用程式嗰度，佢就已經嚟咗，同埋走咗㗎，但係我就唔知道佢點樣去核實呢啲  
34 資料。

1 我當然可以係投訴喇，但係--呢個係即係佢哋通常佢哋就--我寫畀佢哋，咁  
2 佢哋有啲好標準嘅答案畀我，佢話「我哋會檢討呀。」等等，但係冇改變到啲。  
3 所以就呢個就係欠缺透明度嘞。我就係冇足夠嘅資料㗎，我作為一個嘅顧客。

4 黃女士：（經傳譯員）相比新加坡，我可唔可以問呢個，就係話所有呢啲科技嘅裝  
5 置，咁呢啲會擺上個巴士上面喇，咁新加坡政府會唔會資助--直接或者間接資  
6 助呢啲嘅改善嘅措施，去加裝一啲新嘅科技嘅裝置㗎去巴士上面呢？

7 程艾樂先生：（經傳譯員）喺新加坡現有嘅做法就係，政府買晒所有巴士，所以資產  
8 屬於政府，咁係畀經營者去經營㗎。

9 經營者係有一個非常之嚴謹嘅係主要表現指標去規管佢哋㗎，所以其實即係  
10 佢哋唔可以超越咗呢一啲嘅指標，呢個係一個即係方法去鼓勵佢哋咁樣做嘅。

11 黃女士：（經傳譯員）咁即係話，如果係保留住巴士嘅資產呀，控制技術或者標準嘅  
12 話，其實係咪呢啲原因，所以新加坡政府買咗巴士呢？

13 程艾樂先生：（經傳譯員）佢哋買政府其實同技術或者咩嘢係無關㗎，只不過佢哋想  
14 製造另外一個嘅模式，比較--佢哋嘅目標當時就係從一個社會嘅角度，而唔係  
15 一個商業嘅角度去經營巴士。

16 我唔知你想唔想講呢一部分，但係有關於技術㗎講，政府就係定咗基本嘅技  
17 術，即係話呢啲係要求㗎嘅，係專營嘅要求一部分，同時亦都有一啲嘅誘因，令  
18 到巴士經營者可以去做得更好，等佢哋去創新同埋投資，譬如話車上一啲嘅設  
19 施，直接將交通資訊係畀佢哋嘅控制中心，呢啲都係要求，㗎合約上面寫咗㗎。

20 主席：（經傳譯員）喺專營合約上面呀？

21 程艾樂先生：（經傳譯員）係。

22 主席：（經傳譯員）香港係咪咁呀？

23 程艾樂先生：（經傳譯員）香港其實個嘅定義非常之寬鬆㗎，因為個規管係好寬鬆  
24 喇，即係話呢啲參數係非常之廣闊㗎，所以係有好多唔同程度嘅變異㗎，即係一  
25 個好高程度嘅即係人為嘅操作。

26 黃女士：（經傳譯員）咁喺 41 頁裏面喇，你就曾經講過話喇，係一啲唔同嘅系統，  
27 有好大嘅差異呀。喺呢個脫班嘅情況又係，即係所以好大嘅即係關於脫班有好嚴  
28 重嘅情況㗎。咁係呢個同--會唔會影響到香港嘅安全環境呀？

29 程艾樂先生：（經傳譯員）冇關係㗎。

30 黃女士：（經傳譯員）咁而家我想睇番，就係呢一個 18 年 6 月 18 號嗰份嘅意見  
31 書，44 頁。

32 你就提及過嘞，第一個黑點就話香港缺乏一個中央嘅交通控制中心...

1 程艾樂先生： Correct.

2 黃女士：（經傳譯員）...呢個中心就可以監管到所有嘅公共交通經營者嘅實時運  
3 作㗎。你係咪認為政府其實應該要有一個中央交通控制中心？咁但係點樣可以  
4 監察到所有公共交通嘅實時狀況呀？因為睇番喇，香港嘅巴士量係好多㗎，所以  
5 你嘅建議係點做呀？

6 程艾樂先生：（經傳譯員）其實之前你同我講話關於新加坡同埋首爾我有講過，其實  
7 有兩個層面嘅，一就係一個中央嘅控制系統喇，另外一個就係巴士管理系統。

8 主席：（經傳譯員）可以畀程生睇。

9 程艾樂先生：（經傳譯員）呢個就係我所講㗎喇，喺經營者方面，就有個巴士管理系  
10 統喇，就係睇番呢個巴士嘅資產，但係另外一個層面，就係中央嘅交通控制中  
11 心，就睇番就係呢一個嘅整個交通系統喇，交通喇，交通燈喇，道路基建喇，呢  
12 啲就係公開嘅資料㗎。

13 黃女士：（經傳譯員）咁我想請你睇喇，SEC-2 號文件，825 頁，825 頁，第 2.8  
14 段喇，裏面就提及過一個新嘅巴士管理系統，呢度其實就係一個嘅中央控--交  
15 通控制中心，你建議嘅就係除--即係有兩個層面喇，第一就係巴士管理系統，  
16 由邊個負責呀？

17 程艾樂先生： By the bus operator.

18 黃女士：（經傳譯員） 巴士公司。

19 程艾樂先生：（經傳譯員）如果你睇番 2.10 段，同一份嘅文件，一個中央嘅係交通  
20 控制中心。

21 黃女士：（經傳譯員）即係需要連接喺巴士管理系統同埋一個係巴士資訊--車務資訊  
22 系統，等嗰個中央控制中心可以監察到，係唔係？

23 程艾樂先生：（經傳譯員）咁但係從一個城市嘅角度嚟睇，睇晒成個交通運輸嘅資產  
24 㗎，無論係有固定資產又好，一啲移動嘅資產都好。

25 黃女士：（經傳譯員）新加坡係咪有呢個咁樣嘅系統呢？

26 程艾樂先生：（經傳譯員）有一個類似嘅系統，但我就唔係好肯定嗰個嘅範圍係有幾  
27 大，佢咁有大量功能喺系統入面㗎，我最近知道，即係我係研究人工智能方面嘅  
28 時候知道，其實佢係甚至用一啲無人機去收集實時交通資訊，然後就可以做一  
29 個反應系統，去調較交通燈，所以係一個整體嚟睇，係等佢可以達到平衡，所以  
30 佢適用範圍係好大。如果睇番，即係譬如話係百萬分之一機會會發生嘅情況，其  
31 實呢一類型嘅系統可以救到好多人命。

32 黃女士：（經傳譯員）呢一段就話呢一個系統似乎就唔係巴士公司畀實時資訊，而係  
33 呢個中央交通控制中心發放呢啲嘅資料，又即係話由政府係發布畀公眾，操作方

1 法係咁，係嘛？

2 程艾樂先生：（經傳譯員）其實係攜手進行，即係佢哋唔係一啲話秘密機構，其實佢  
3 哋之間都有一個嘅關係。如果你想知道譬如話個架巴士有幾多人，就係巴士管理  
4 系統。如果係一啲高層次啲嘅，譬如話一啲交通資料、交匯處嘅資料、事件，就  
5 係巴士公司以外嘅資料，就會來自中央控制中心，佢就會將呢啲資料交番畀巴士  
6 公司，等佢哋去確認㗎，所以係雙向，等個個係溝通會好啲，唔該。

7 黃女士：Yes, understand。（經傳譯員）45 頁，喺第一點，呢一頁嘅第一個黑  
8 點，你就提及到目前香港嘅監管制度呀。你就話，就係有限呢一個嘅利潤，但係  
9 就即係有限到佢個嘅虧損，你意思係指咩嘢呀？

10 程艾樂先生：（經傳譯員）其實關於巴士方面，喺制訂呢一個嘅規管架構嘅時候，當  
11 時係話有呢一個嘅保證利潤，當時可能係 90 年代嘅時候，但係就有改變嘅。喺  
12 呢一個 2012 年嘅時候，因為鐵路擴展，所以九巴當時就開始蝕錢。一路蝕錢，  
13 一條就唔再做，一條就會加車費，但係呢個唔係一個正確嘅方向。因為政府係控  
14 制到呢一個控制監管，亦都係控制車資嘅。如果唔係嘅話，喺世界各地嘅巴士嘅  
15 經營者--譬如話，如果香港嘅巴士公司係一個嘅商業機構，佢賺到錢，佢要做  
16 咩嘢呢？佢就唔再經營專營。所以就係如果巴士經營係冇錢賺嘅話，其實你係就  
17 唔可以話邀請世界各地嘅經營者嚟你嘅城市個度經營。

18 其實所以如果你講嘅就係現有嘅經營者，其實係有佢呢個嘅好處，因為佢哋  
19 已經投資咗一大量嘅成本。但係新加入嘅經營者，其實就唔係咁公平，因為佢  
20 哋乜嘢都要由頭嚟過。如果有一個可持續經營嘅商業模式嘅話，其實你就可以  
21 吸引到世界各城嘅企業嚟經營，因為佢哋睇係睇得好長遠。

22 黃女士：（經傳譯員）尾個一點，45 頁，你又提及過，而家嘅報告系統同埋監察系  
23 統就係好古舊，而當時就係設計嘅時候係有任何嘅技術去監察巴士同埋司機，你  
24 可唔可以解釋一下？

25 程艾樂先生：（經傳譯員）我想講就係話，而家世界各地，巴士嘅規管者其實都係會  
26 睇番即係用唔同嘅系統去管理。但係其實香港就要睇番話巴士幾時離開總站，同  
27 埋之後就有理到佢哋嘅表現，所以就發生好多問題。

28 作為顧客，如果我企喺度等緊巴士，其實即係你可能走咗架巴士，你可能就  
29 要等二十分鐘、二十五分鐘都未有下一架嚟嘅。我想講嘅就係話，佢哋其他地  
30 方係使用技術去令到巴士之間有間距。譬如話如果你去到倫敦，譬如話你即係  
31 個架可能去到某一個地方停一停，等佢可以同之前個巴士嘅距離遠啲，所以對  
32 於乘客嚟講，個個服務就比較平均。就唔會話譬如話即係一架巴士嚟咗，一分  
33 鐘之後又嚟一架，跟住廿分鐘之後先嚟另外一架。其實呢個方法，就係而家規  
34 管者係做㗎，所以有啲係主要係表現指標。譬如話喺新加坡嚟講，喺巴士路線  
35 上面係一路睇住佢，而唔係話淨係睇佢幾時離開個站，跟住就唔理。

36 黃女士：（經傳譯員）你就呢度提過呢一個過長嘅等候時間，同埋就要監察番即係使

1 用到呢一個實時訊息，同埋遠程訊息，係佢呢個站與站之間都可以睇到，同埋即  
2 係前端、後端都會可以控制到、監察到。其實呢個係咪即係話可以減少到呢個過  
3 長嘅等候時間？

4 程艾樂先生：（經傳譯員）遠程訊息其實已經喺度，實時運作其實即係呢一個硬件上  
5 面嘅一個軟件嚟嘅啫，所以其實唔係好難做。我會將呢兩個結合，因為大部分嘅  
6 人都係講，就話其實投資嚟遠程訊息嘅，都有投資落去實時操作系統。因為係當  
7 啲遠程訊息系統，譬如 Openmatics 嚟講，佢哋係會畀埋呢一個實時管理系統  
8 你嘅。所以其實你係可以將佢結合理一齊變成一樣嘢，就係九巴就決定自己去  
9 做。其實我哋有咁樣嘅技術，不過就有監察，亦都係有監管，但係個監管係唔關  
10 於呢啲數據事。

11 黃女士：（經傳譯員）最後我想同你講就係呢個嘅五年發展計劃，請你就睇呢個嘅  
12 39 頁底部，係呢一個嘅五年遠期計劃，前僱員 1 號文件夾。你就話係負責統  
13 籌、準備同埋呈交呢個嘅五年遠期計劃，包括埋路線發展計劃去畀運輸署長。其  
14 實你其中一個嘅角色，就係要睇番呢一啲同安全有關嘅計劃，同其他嘅車務或者  
15 營運計劃係咪一致。你有冇參與 2018 至 2023 年嘅五年遠期計劃嘅制作？

16 程艾樂先生：（經傳譯員）最近提交嗰個？

17 黃女士：Previously.

18 程艾樂先生：（經傳譯員）我喺 2013、14、15 年呢幾年，我都係有提交嗰個計  
19 劃。2016 年就係有 2017、18 年規劃嘅，但係都係有個框架嘅啫。

20 黃女士：（經傳譯員）唔該晒。我睇睇嗰個嘅遠期計劃，其實你有冇睇過，或者你有  
21 冇參與過畀意見？

22 去到運輸署嘅 1 號文件冊 180 頁。點解我會問呢個問題呢？首先就係九巴  
23 個經營權，就係 2016 年去討論嘅。嗰個經營權，就係 2017 年 3 月批出。當然  
24 你係制作呢個遠期計劃嘅時候，我哋都係要睇下個意外率，同埋之前嗰兩年嘅  
25 意外率係點樣樣。我哋睇一睇呢個嘅規劃，呢個係九巴嘅遠期計劃。

26 主席：（經傳譯員）係邊個日子，幾時去寫嘅呢？

27 黃女士：（經傳譯員）喺 2017 年 6 月嘅時候，1035 頁有寫到，係呢一個運輸署第  
28 4 號文件冊嗰度寫明。

29 首先我想問一問，你有冇提供呢個意見，就住呢個報告？

30 程艾樂先生：（經傳譯員）No，冇。

31 黃女士：（經傳譯員）如果係咁，我就唔需要去問。

32 主席：（經傳譯員）但係其實呢啲嘅課題，其實每一年都會係擺落去個報告度。

1 程艾樂先生：（經傳譯員）2016 年嗰個報告，我就都有畀意見，我就喺 2016 年 9  
2 月離開九巴。

3 主席：（經傳譯員）或者我哋可以就住某個課題去傾一傾。

4 黃女士：（經傳譯員）我哋去睇番 187 頁，我就特別有興趣有關於呢個車長嘅培訓  
5 同埋監察計劃。我或者咁樣提我嘅提問，如果你睇睇呢個嘅呢一段，呢度有提到  
6 就係九巴係好致力係提供安全、可靠同埋舒適嘅服務，呢度係講緊就話咁好嘅駕  
7 駛嘅態度，同埋防衛性嘅駕駛。亦都有啲駕車師傅，亦都會去監察呢啲學院，亦  
8 都有需要嘅時候，有啲嘅罰則咁樣。我哋都會特別睇一睇喺某一個嘅路線，睇下  
9 佢會唔會嗰個司機特別多突然之間煞車。如果係有需要嘅時候，亦都係會將有關  
10 嘅建議提番畀個車長，希望能夠減低事故嘅情況。呢個係有實時嘅駕駛提示器，  
11 就係特別對於一啲車長佢個駕駛態度唔係咁好，就有幫助。你就話，亦都會有一  
12 啲主動去提示咁樣。

13 但係而家係有一啲實時嘅駕駛提示器，或者係——嘅時候，可唔可以係有一  
14 啲實時嘅數據可以提番畀荔枝角嘅車廠？

15 程艾樂先生：（經傳譯員）唔可以實時嘅，但係可能係之後幾日。但係佢哋會好主動  
16 去提示嗰啲司機，但係就用緊一啲已經落後嘅數據。

17 主席：（經傳譯員）即係話，其實係有啲實時嘅數據收集咗，只不過係之後先至睇  
18 番？

19 程艾樂先生：（經傳譯員）冇錯，係，嗰啲數據可以實時去收集，有啲人就可以分  
20 析。然後之後有人講，就話「喂，呢位司機，你上個星期揸得唔係咁好」，我係會  
21 主動提出呢一啲嘅提示，但係就係根據係一啲已經過去嘅數據。我提議就係應該  
22 係有實時嘅數據收集，同埋實時嘅反映先至係最好。

23 黃女士：（經傳譯員）喺 8.3.2 段，第一點嗰度，就係話嗰啲電子嘅行車記錄儀，  
24 就係我哋使用會係去監察車長嘅表現，特別係超速。第二點就係駕駛提示器，就  
25 係喺所有嘅巴士上面有裝置，就幫助車長可以喺佢哋個學習課堂之中嘅技能可以  
26 使用。呢啲嘅好處，就係可以減低意外嘅風險，減低嗰個壓力，同埋係增加車長  
27 對於控制車輛嘅信心嘅。呢個純粹都係睇番之前收集嘅數據，係咪呀？

28 程艾樂先生：（經傳譯員）呢個環保安全駕駛，其實唔等如真係環保嘅駕駛...

29 主席：（經傳譯員）其實呢個嘅意思，即係話唔好話突然之間煞車，唔好突然之間加  
30 速或者減速。

31 程艾樂先生：其實就係話慳油嗰方面嘅嘢，所謂個環保。

32 黃女士：（經傳譯員）第二個部分，我係有興趣...

33 主席：（經傳譯員）當你喺九巴工作嘅時候，有冇喺個參數裏面，包括譬如超速嘅，  
34 有啲自動係會發一啲報告出嚟？

1 程艾樂先生：（經傳譯員）就有一啲嘅報告自動發出嚟，但係有啲人就會去分析呢啲  
2 嘅數據，睇番嗰個司機嘅表現，呢個係一啲數據嘅分析嘅，有人係做。

3 主席：（經傳譯員）但係嗰啲裝置，其實就話如果你擺啲數據落去嘅時候，其實係會  
4 有一啲自動嘅報告可以發出，但係有咁樣做㗎。點解冇咁做？

5 程艾樂先生：（經傳譯員）其實有其他人更加適合去回答呢個問題，其實我自己都有  
6 個疑問，點解我哋擱置咗嗰個計劃？其實對於香港嘅巴士營運嚟講，係會帶嚟莫  
7 大嘅利益，唔該。

8 主席：Thank you.

9 黃女士：（經傳譯員）我哋去睇另外一個文件--仲有一個問題，第 8.3.7 段呢度有  
10 一個嘅安全嘅措施，其實係有一個輔導服務，就係去幫一啲嘅司機同埋佢哋嘅家  
11 庭成員，如果佢哋日常生活有啲咩嘢問題。我想問，呢個喺譬如新加坡嚟講，有  
12 冇一個嘅制度或者系統，就係搵出、去識別一啲司機，其實佢哋有心理嘅問題，  
13 佢哋唔適合揸車？有冇一個咁樣嘅制度或者系統？

14 程艾樂先生：（經傳譯員）呢個司機個心理質素，其實對我哋嚟講，或者係呢個世界  
15 各個嚟講，都係最主要嘅挑戰嚟。有啲人而家都係用緊呢一個人工智能去解決呢  
16 個問題，譬如去睇下你個生物嘅指數，或者你個表情係點樣，就係瞳孔擴大  
17 嘅情況等等。呢啲都會話咗畀我哋聽，究竟嗰個司機個心理狀態係點。而家呢個  
18 科技都係發展中，喺新加坡有呢一個嘅類似嘅系統，其實係喺呢個方向，睇下呢  
19 個司機對於一啲實時發生嘅情況有乜嘢嘅反應，然後就去預測呢一個嘅司機會唔  
20 會有意外，然後就去介入，同埋就係去幫呢個司機。呢個呢，一係其實你就太過  
21 自在，又或者你係太過大壓力，譬如話你啱啱同你嘅配偶拗咗交，然後你就返  
22 工。其實喺而家市場上面，其實都未有一個系統係可以完全偵察到你當其時個心  
23 理狀態。

24 黃女士：（經傳譯員）另外有一個嘅 Miscellaneous 1，就係呢個道路安全議會嘅  
25 一個信件，就係日子係 2018 年 5 月 31 號。

26 程艾樂先生：（經傳譯員）可唔可以話畀我聽係邊一頁？

27 黃女士：（經傳譯員）呢個係呢封信件嘅第一頁，第 127-5 頁，係呢個  
28 Miscellaneous 嘅第 1 號文件冊。

29 程艾樂先生：（經傳譯員）係，我睇到。

30 黃女士：（經傳譯員）我講你睇睇第 127-6 嘅其中一段，佢哋講呢個就係關於一個  
31 遠程訊息系統，就係睇下嗰個介面係點樣樣。佢就話佢會監察以下㗎，R、I、B  
32 同埋 A，呢個就係空轉、急劇嘅煞車，同埋加速，同埋超速等等咁樣。呢度其實  
33 又有一啲唔同嘅參數，就係喺一個正常嘅參數嘅價值。而佢如果唔係呢啲參數嘅  
34 數據以內，就會係自動就會喺個電腦嗰度展示出嚟，然後呢一個督導就會知，然  
35 後就會採取呢一個跟進嘅行動，可能係勸喻，或者輔導，或者甚至係再培訓，呢

個似乎係警方係做緊。呢個會唔會同新加坡個遠程訊息系統差唔多？

程艾樂先生：（經傳譯員）佢哋係有關於--有好多唔同嘅供應商，每一個供應商提出嘅產品都有少少唔同，但係佢哋希望所做嘅嘢都係一樣嘅嘢，希望知道呢一個嘅車輛嘅情況、表現，同埋就係希望提供實時嘅資訊，讓你可以監察呢個嘅車輛嘅表現，同埋佢個地點係點樣。

主席：（經傳譯員）LKW Parts and Services Limited 係咪一間香港公司？你識唔識呢間公司？

程艾樂先生：（經傳譯員）冇，從來冇同過佢哋有過任何嘅來往。

黃女士：（經傳譯員）另外一個題目，就關於黑盒。去到呢一個運輸署文件冊嘅第 1 號，第 393 頁。呢一封信係寫出咗委員會提出嘅事項一啲嘅回應嚟，呢個係 2018 年 7 月 13 號，請你就係睇番呢個第 394 頁。

問題就係問，即係邀請運輸署去搵出一啲時候，就係關於通訊方面，就係話同巴士司機更佳嘅管理，而唔係巴士經營。喺呢一啲嘅信件來往裏面，運輸署有冇畀任何嘅指示畀巴士公司去講話使用一啲新嘅應用程式？如果呢一啲嘅通訊係書面嘅話，請你將呢啲書面就係交出嚟。如果係口頭講嘅話，亦都要講清楚，就係邊個講、個個性質，同埋幾時？

主席：（經傳譯員）或者可以先請佢講呢一個運輸署文件，即係點解會問呢啲問題，你畀咗個背景資料佢先，可能佢就會更加易去理解個內容。

黃女士：（經傳譯員）應該係附件 2，就係運輸署文件夾 5，1688 頁。程生，呢份文件就係運輸署嘅文件。呢度講就係話，喺經營巴士營運上面，使用新嘅技術。呢個就係運輸署嘅文件，就於最近提升專營巴士營運安全方面，呢個就係同專營巴士公司係一齊合作做嘅，關於使用新嘅技術方面。

1689 頁就提及到黑盒，即係一啲嘅電子行車記錄儀。喺你第 5 段可以見到話，由 2004 年 7 月 1 號開始，電子行車記錄儀，通稱「黑盒」，喺所有嘅新專營巴士已經係符合運輸署喺 2003 年 10 月所施加嘅要求，應呢個要求係安裝咗，所以而家所有專營巴士都有黑盒。如果睇番第 7 段，就話雖然係有任何正式同埋書面嘅提升嘅要求，即係關於黑盒嘅規格方面，即係自從 2003 年。但係運輸署就係不時同巴士製造商，同埋專營巴士經營者，就係一路去傾關於一啲新嘅技術去提升巴士上面現有嘅設備。第 8 段就話專營巴士經營商，其實就係喺呢一個早於 2006 年嘅時候，就係已經開始擴大黑盒裏面儲存嘅資訊，所以除咗話一啲基本上嘅功能之外，仲會睇下個巴士司機個表現，同埋記錄低就係有關於佢煞車、開門、鐘聲等等，去幫助佢哋管理嘅。第 9 段話喺呢幾年間，運輸署同巴士經營商有溝通，要求佢哋去研究，同埋去睇下使用新嘅技術個嘅可行性，同埋就係關於黑盒儲存嘅資料去更佳管理佢哋嘅巴士運作，同埋巴士司機。譬如話使用全球定位系統，連同埋一啲嘅數據轉移。運輸署就要求巴士公司就係提供一個嘅巴士實時到站資訊，呢個就透過一個流動嘅平台去提供，

1 係可以更佳服務公眾人士，呢個就係 2015 年佢哋同巴士公司傾新嘅專營權--  
2 續經營權嘅時候，佢哋所講。

3 主席：（經傳譯員）呢個就係個背景，喺 2003 年 11 月嘅時候就講過話，巴士係要  
4 月 1 號開始，全部都要有黑盒，所以講就係話之後同埋之後嘅十五年，有冇提升  
5 黑盒嘅功能，同埋呢一啲嘅訊息功能。你就喺呢段時間，就係喺九巴度工作，負  
6 責呢方面嘅。

7 程艾樂先生：（經傳譯員）我可唔可以講講？喺 2003 年發生嘅事，其實就唔係你所  
8 講今日發生嘅事，冇關個啫。

9 主席：（經傳譯員）不過我哋就想睇番，2003 年係最後一次知道有書面紀錄，所以  
10 我哋就想知道，而喺 03 年之後，究竟做過啲乜嘢？

11 程艾樂先生：（經傳譯員）其實最大喺 2003 年之後嘅改變，就係話行車記錄儀就係  
12 一個巴士發出嘅一啲資料，關於巴士嘅表現，其實就喺呢個 2000 年嘅時候已經  
13 有，主要都係使用一啲電子化嘅晶片去控制巴士系統。2003 年嘅時候有嘅紀  
14 錄，就係話將呢啲資料變成實時，一係話係有一個咁樣嘅溝通系統。

15 主席：（經傳譯員）我哋想知道嘅，就係運輸署做過啲乜嘢，要求係使用呢一個嘅設  
16 備。其實個答案就係畀你睇嘅，喺呢一個嘅 TD-1 號文件，即係運輸署嘅 1 號文  
17 件 394 頁。

18 黃女士：（經傳譯員）或者我咁樣講，程生。運輸署只係發出咗一份嘅指引，就係  
19 03 年，冇修訂過，之後，03 年至到今時今日都有修訂過嘅，得一份嘅啫。其實  
20 佢哋話，其實就不斷有同專營商去傾係加多啲功能，加多啲嘅技術，即係就於黑  
21 盒方面。我哋要問嘅，就係係咪真係喺咁多年間有做到呢，定係你哋自己主動，  
22 即係話巴士公司自己主動去將黑盒升級？

23 程艾樂先生：（經傳譯員）我淨係可以講關於九巴當時做過啲乜嘢。好多呢啲都係自  
24 己主動做，主要係因為商業嘅原因做嘅。因為睇番九巴喺 2012 年嘅損益表，你  
25 可以見到佢哋係虧損大約呢一個嘅 1 億 2 千萬嘅。乘客數量喺過去十至十五  
26 年，不斷下跌，即係自從西鐵開始之後，即係 2002、2003 年至到 2012 年，乘  
27 客量不斷下跌，所以喺 2012 年嘅時候，當時嘅目標就係要將佢轉虧為盈。其實  
28 正常公司股東都要要求做呢樣嘢，所以我哋當時就睇下有啲乜嘢嘅參數技術，有  
29 冇任何嘅可行方法，可以改善巴士運作嘅表現、系統嘅表現，可以降低成本，同  
30 埋提升服務。所以喺 2012 至到 2015 年嘅數據，其實可以喺有關嘅公司文件可  
31 以睇到，應該略略就係有呢一個 2200 萬公里嘅行車旅程，就係即係嗰兩年。當  
32 時乘客數量亦都有加咗大約係百分之三嘅。

33 當時呢個嘅遠程訊息，其實就係我哋整體上面做嘅措施其中一項，即係唔係  
34 淨係睇呢啲巴士嘅設備，睇番係好多唔同嘅嘢，路線、規劃、巴士司機編更等  
35 等，所以係整個嘅營運同埋效率一齊睇。即係 2013、14、15 年嘅時候，我哋  
36 就慢慢轉虧為盈。

1 黃女士：（經傳譯員）我想問你關於運輸署嘅一個特定嘅答案，就係呢個 394 頁。  
2 請你睇番最後一行，提及到運輸署亦都有提過同一樣嘅嘢，即係話黑盒儲存資訊  
3 係要提升，以監察車長個個駕駛表現。喺 2016 年 6 月 27 號嘅例行會議係同九  
4 巴傾過，你記唔記得有個咁樣會議？

5 程艾樂先生：（經傳譯員）我唔記得咁詳細，即係日期等等。我可以講嘅就係話，到  
6 呢一日，九巴整個車隊都已經有呢啲設施。

7 主席：（經傳譯員）其實個問題就係問，運輸署就係促請九巴使用遠程資訊系統定期  
8 監察車長個個行為，你用到黑盒嘅資訊。

9 程艾樂先生：（經傳譯員）可能有，但係其實九巴都有意咁做。我諗唔返當時講過啲  
10 乜嘢。

11 主席：（經傳譯員）係，我明白。不過為咗幫你記，或者可以畀你睇番個文件，呢個  
12 可能係同續專營權有關。因為呢個都係當個月發生嘅事嚟㗎，係咪呀，黃律師，  
13 係咪呀？

14 黃女士：（經傳譯員）呢方面其實真係有一份文件。

15 程艾樂先生：（經傳譯員）當時係有好多一系列嘅措施傾過，我都幾有信心咁講，我  
16 哋第一次即係要求一個實時嘅記錄儀器，同埋擬定到車時間，其實係呢一個嘅  
17 2016 年嘅時候係加入去專營文件。

18 主席：（經傳譯員）我哋其實就係想搵番一啲要求，啲要求就係話，巴士公司係需要  
19 使用黑盒裏面嘅資料去監察司機嘅行為嘅，但係我哋就搵唔到。

20 黃女士：（經傳譯員）我想請你睇番關於續專營權嘅文件，即係關於呢方面嘅。首先  
21 想請你睇下 SEC-2 號文件，735 頁。呢份係立法會文件嚟，日期係 16 年嘅 1  
22 月 15 號。呢個係有關於專營權嘅背景資料簡介，係九巴嘅。如果睇番第 11  
23 段，提升巴士服務水平。議員提及關於專營巴士服務水平，就促請政府利用呢次  
24 機會要求佢哋提升服務水平，包括就係使用一啲實時嘅資料、巴士嘅服務資料畀  
25 乘客，同埋有呢個嘅優先座位，同埋係一啲嘅無障礙設施，改善脫班情況，同埋  
26 改善巴士嘅繁忙時間嘅班次。另外一段就係講關於實時嘅資訊提供畀乘客，呢個  
27 係第 12 同埋第 13 段。呢度就係有講到關於係黑盒嘅改善，或者有提過黑盒。

28 主席：（經傳譯員）或者用黑盒嘅資料去監察司機，呢個係個重點㗎。

29 黃女士：（經傳譯員）中間我就唔再多講，去到 2016 年 6 月，SEC 第 2 號文件嘅第  
30 799 頁。呢個係 2016 年 6 月，呢度就係講到有一個公眾諮詢，同埋收集到啲咩  
31 嘢意見。其中一個佢哋提到嘅問題，就喺 803 頁有見到，就係關於第 4 段係巴  
32 士安全，A。就係更加緊密、密切去監察車長嘅駕駛行為，然後再睇番 802，其  
33 實喺個個公眾諮詢最主要嘅其中一個意見，就喺第 4 段就講到，就係話關於巴士  
34 安全，就話更加密切去監察車長嘅駕駛行為。

1 喺 2017 年 3 月嘅時候，我哋去續專營權嘅時候，運輸署就叫九巴係承諾某  
2 一啲嘅東西。我哋就去到運輸署第 5 號嘅文件冊--應該係九巴第 9 號文件夾，  
3 九巴第 9 號文件夾，第 3997 頁。呢個唯一有提到嘅，關於呢個新嘅經營權，就  
4 喺第 3 段嗰度，關於改善安全功能。呢個就係講到關於電子數據處理裝置，但  
5 係冇提到就係點樣用一啲黑盒嘅資料去監察司機嘅行為，呢度係講得好唔仔  
6 細。似乎運輸署就話佢哋一直都同你哋有溝通，就係話希望黑盒嘅資料可以愛  
7 嚟監察司機嘅行為，其實呢啲就完全冇喺我頭先所講出嘅文件出現。其實你同  
8 唔同意？

9 程艾樂先生：（經傳譯員）係呀，喺開頭我講就係話，喺香港嘅經營權嘅文件，其實  
10 都係寫得好寬鬆，係寫得好闊。你就可能喺呢一個經營權底下，你可以做好多  
11 嘢。因此雖然係咁講，我同運輸署嘅交往之中，我感覺佢哋嘅意圖係好，但係有  
12 時候，佢哋唔夠有足夠嘅知識，亦都有啲個動力。所以同佢哋啲個意圖，其實就  
13 唔同嘅。我有同佢哋開過會，運輸署，佢哋問好多問題，佢哋希望改善，但係可  
14 能唔係好具體，佢哋嘅意見，亦都唔係話好指令地呢個嘅公司界線應該做啲乜、  
15 做啲乜。

16 主席：（經傳譯員）應該有啲嘢記錄，所以好寬鬆，係咪呀？

17 程艾樂先生：（經傳譯員）係。其實我都可以講下關於呢個專營權嘅文件裏面嘅其他  
18 部分，其實好多都寫得太寬鬆。

19 主席：（經傳譯員）唔好意思，等等。但係你可以總的嚟講，其實佢唔係話真係好有  
20 指令式，或者規範性係好強，係咪？

21 程艾樂先生：（經傳譯員）係。

22 主席：（經傳譯員）唔該。

23 黃女士：（經傳譯員）如果我哋覺得巴士嘅安全係非常之重要，其實就好正常就係  
24 話，就會係一個嘅清單喺呢方面，喺啲個專營權嘅文件。你會唔會同意我呢個講  
25 法？

26 程艾樂先生：（經傳譯員）我就會講番，就如果呢個巴士安全，其實當然係十分重  
27 要，係首要嘅考慮。無論係個規管者嘅角度，或者係公司嚟講。我哋講緊係公眾  
28 嘅安全、乘客嘅安全，同埋呢一個員工嘅安全，就我哋一定唔可以係有任何嘅妥  
29 協。

30 主席：（經傳譯員）其實我哋喺過去好多年，我哋都有好多嚴重嘅巴士意外，呢個係  
31 真係好不幸，係咪？

32 程艾樂先生：（經傳譯員）係非常之不幸，我哋喺香港有一個好好嘅公共交通系統，  
33 所以我哋係對於呢啲問題，我哋應該及時去處理。

34 黃女士：（經傳譯員）唔該晒。我跟住就會有一個好具體嘅問題，關於啲個年報，我

1 就係想做一啲比較，係兩年嘅比較。點解某一年某啲嘢就係漏咗，喺 2016 年出  
2 現，但係 2017 年就唔見咗？你如果睇番九巴第 5 號嘅文件冊 1719 頁。

3 程艾樂先生：（經傳譯員）你可唔可以講係邊一頁？

4 黃女士：（經傳譯員）就係九巴第 5 號文件冊，1719 頁。

5 主席：（經傳譯員）呢個係邊一年嘅年報？

6 黃女士：（經傳譯員）呢個係 2016 年嘅年報。

7 主席：（經傳譯員）就係 2017 年嘅 3 月去印製好嘅，係咪？

8 黃女士：（經傳譯員）呢個係去到 2016 年年尾。

9 主席：（經傳譯員）要喺呢個主席來函嗰度講應該係 2017 年 3 月印好。

10 黃女士：（經傳譯員）如果我哋睇下呢個年報，1719 頁，喺右面，呢度就有講到有  
11 兩個嘅功能，一個係巴士車上嘅監察系統，第二個就係車務溝通管理系統，上面  
12 嗰個就係講緊車長記錄佢哋嘅駕駛表現，就係由車廠同埋部門去進行記錄，就希  
13 望能夠可以提高駕駛嘅水準，同埋安全水平，同埋乘客嘅舒服速度。下面嗰個就  
14 係話令到一啲嘅事故，有一啲實時嘅資訊，特別係喺一啲嘅道路車擠塞嘅情況、  
15 天氣唔好嘅情況，然後我哋有相當嘅控制中心，就係可以收集資料，就係能夠改  
16 善有關嘅措施。關於呢個，亦都有一個八達通嘅個人卡，就係呢一個巴士司機如  
17 果佢哋係當值嘅時候，佢哋就會可以用呢個八達通。呢個就係一個總站管理系  
18 統。

19 如果我哋睇番 2017 年嘅年報，係 1926 頁。我哋睇番 1926 同埋 1925  
20 頁，我哋就搵唔到一啲類似嘅資訊，喺呢個 2017 年嘅年報就有。你可唔可以就  
21 講一講 2016 年嘅時候個年報，即係關於個巴士車上嘅管理系統，係咪嗰陣時候  
22 個公司諗住會推出呢個系統，就係實時去警示一啲司機，還是係另外一啲嘅系  
23 統？

24 程艾樂先生：（經傳譯員）呢個都唔係一啲實時系統㗎，呢個係我哋純粹係想搜集資  
25 料，然後係希望反饋畀啲司機。

26 黃女士：（經傳譯員）但係喺 2017 年嘅年報嘅時候，我哋就睇唔到有一啲類似嘅提  
27 述㗎。雖然佢嗰度就有--喺 1940 頁，其實都係有啲類似嘅...

28 程艾樂先生：（經傳譯員）呢度有講到話車上嘅管理系統，但係就有咁多細節喺度寫  
29 㗎。

30 主席：（經傳譯員）其實當其時你已經離開咗九巴，係咪？兩個年報。

31 程艾樂先生：（經傳譯員）冇錯，我係離開咗之後，呢兩個報告先至出嚟。2016 年  
32 個年報，係龍運同埋九巴嘅，就嗰個細節係比較少㗎，2017 年嗰個年報。我睇

1 啲年報，我就會睇下，去做下啲分析，同埋佢哋個表現。2017年，我就發現有  
2 好多嘅資訊都有出現，其實喺之前啲年度就反而有出嚟，有寫出嚟，呢個係我  
3 嘅觀察。

4 黃女士：（經傳譯員）主席，我已經係完成我嘅提問。

5 歐陽先生：（經傳譯員）多謝主席。我就係一個好快--有一個好嘅問題。多謝程先生  
6 你就嚟到我哋呢度。我哋今日下晝用咗好多時間關於呢個科技，就可以幫助我哋  
7 可以改善、提升巴士安全嘅。我想聽一聽關於你對於資源問題嘅睇法。我哋講緊  
8 好多科技，但係從一個資源嘅角度，無論係錢嘅方面，或者係人力資源方面，你  
9 係點睇呢？你有冇點樣去評估其實呢啲嘅科技係幾咁貴？我哋香港有冇一啲足夠  
10 嘅人才係可以推動呢啲嘅科技，你剛才提到嘅科技？唔該晒。

11 程艾樂先生：（經傳譯員）呢個係一個好有趣嘅問題，其實我都成日去傾呢啲嘢。首  
12 先我就去咗呢個九巴嘅長期服務獎嘅晚宴，大概有二百人就係已經服務咗三十年。  
13 其實我呢一生人都未見過咁嘅場面，有好大量嘅人，其實佢哋係讓佢哋一生  
14 貢獻咗畀呢間公司。我相信其實喺公司裏面係有啲嘢令到佢哋咁忠心，所以對我  
15 嚟講，呢個即係文化上，對我嚟講係非常之有意義。而家啲人點解唔想加入九  
16 巴，其實呢個就係一個好重要嘅問題，係咪因為佢哋嘅形象已經受損？係咪佢哋  
17 提供家庭友善嘅政策係已經冇咗？呢啲我哋需要去睇，呢個就係人方面嘅問題，  
18 其實係可以處理到，即係如果係九巴。因為我熟悉九巴，但係我所講話「九  
19 巴」，其實都適用於其他巴士公司嘅。

20 其實係有一啲嘅方法，有一啲嘅機制可以令到駕駛呢方面，係可以令得佢更  
21 加吸引。我有好多朋友，佢哋都係投身去呢個巴士界，佢哋真係好真心，係有  
22 熱誠。其實如果你去睇番，有好多都係一啲嘅巴士迷嚟嘅。其實可以點樣即係  
23 將佢哋包含埋一齊，令佢哋有份參與。

24 另外一方面，技術方面，其實仍然係用一啲好舊嘅問題，我哋只不過將條鎖  
25 匙交界巴士司機，跟住巴士司機全日都係揸個架巴士工作。所以其實呢方面有  
26 做到更多--係有好多可以做，而但係冇做到。其實巴士司機係需要休息，但係  
27 車就唔使休息。如果可以做得更好，譬如話有三層嘅資源，人力資源、巴士資  
28 源，同埋基建資源，如果可以三個層面都可以善用嘅話，就會做得更好。但係  
29 而家就係做唔到，可以就利用一啲科技做得到。其實我覺得可以用更少做得更  
30 多。如果成日話乜嘢都係要減成本，乜都減，其實可以就係即係巴士司機同埋  
31 車少百分之二都可以做到同一樣嘅服務水平出嚟，呢個就可以解決到人力資源  
32 嘅問題。

33 歐陽先生：Thank you.

34 羅先生：（經傳譯員）我有一個問題，唔該晒，你為我哋分享咗咁多關於技術嘅資  
35 料。我諗就話點解香港咁落後呢，喺採納提升安全嘅技術方面，係咪一個嘅意識  
36 嘅問題？可唔可以改善得到？譬如話公司，係咪因為公司有誘因去投資，佢哋睇  
37 唔到有任何嘅價值，或者係根本冇法例要求佢哋咁樣做？呢個係一啲好主要嘅障

1 礙嚟，其實喺呢方面，我哋可以做啲咩嘢更多嘅事，令到整個界別係會更加願意  
2 使用多啲嘅技術去提升安全？因為你都係幫九巴同埋港鐵工作過。

3 程艾樂先生：（經傳譯員）其實係好多唔同嘅原因，我覺得最大嘅就係嗰個環境。其  
4 實如果你係容許你失敗嘅話，你就好願意去創新。但係香港嘅情況，就係唔係好  
5 鼓勵你去嘗試失敗咁樣，呢個係一個環境嘅問題，一個文化嘅問題。其實主要嘅  
6 原因，喺過去嘅十年嘅，其實都有啲嘢證實係用到，但係技術採納方面就用得好  
7 慢。但係其實科技發展一日千里，但係你一路等緊用嘅技術就係已經過咗時，所  
8 以你永遠都係等緊一啲新嘢。其實採用呢啲嘅技術，其實係有成本，但係公司就  
9 覺得「嘩，如果不斷有新嘢，點解我唔等新嘢啫？」

10 喺中國內地，其實佢哋就真係去勇於嘗試去試一啲新嘢，容許公司失敗，譬  
11 如話係用呢一個電動車，你睇番係電池方面，充電方面有好多唔同嘅方法，你  
12 試過先至有啲咩嘢得，咩嘢唔得。而家中國大陸就成為呢一個電動車嘅經營同  
13 埋製造商嘅主要經營者。香港係需要咁樣嘅環境，即係我睇番香港嗰個嘅技術  
14 嘅知識方面，其實香港係非常之行得好前，但係採納技術方面，即係覺得退步  
15 得可憐。其實譬如話數據方面，我見到就算喺第三世界國家發生緊嘅，香港都  
16 未採納。可以做到啲咩嘢呢？要製造一個環境，即係會提供誘因，等佢哋創  
17 新，使用新嘅技術。譬如一啲合作模式，香港好多嘅初創企業都喺台灣，喺世  
18 界各地，喺中國內地不停咁樣去嘗試，所以你要容許人去嘗試，去大家合作。

19 我其實都係擔當過好多唔同嘅角色，觀察者、決定者，同埋係聆聽者。其實  
20 香港係需要有一啲企業家精神，即係香港唔係缺乏企業家，只不過就係缺乏一  
21 個好嘅環境。譬如可能有一啲嘅孵化、實驗室等等，即係喺裏面工作嘅人可能  
22 係九巴嘅人、港鐵嘅人，可以係創造好多嘢出嚟係畀世界各地使用。

23 主席：（經傳譯員）不久之前，你就提過話巴士司機需要休息。你就喺九巴做咗四  
24 年。

25 程艾樂先生：（經傳譯員）係。

26 主席：（經傳譯員）你可唔可以講到令我哋更加容易理解，九巴提供畀巴士司機休息  
27 嘅設施，我哋講緊嘅就係特別更嘅司機做緊係十四個鐘嘅啲嘢，只不過係中間可  
28 以休息三個鐘，你可唔可以講一講即係九巴休息嘅設施係夠唔夠？

29 程艾樂先生：（經傳譯員）即係呢啲係實際嘅硬件，其實好容易，可以做一啲嘅調  
30 查，話佢哋覺得舒唔舒適，有冇地方需要改善，休息足唔足夠。但係你休息，其  
31 實仲有另外一個方面。

32 我見到有一方面香港係嚴重不足，每個人都唔同，佢哋疲勞程度，佢哋嘅心  
33 理反應不盡相同。好，十四個鐘係咪太長，要減到十個鐘？其實我哋需要先做  
34 一個統計，睇下一啲主要嘅參數、主要嘅指標。係到邊一個程度，巴士司機疲  
35 勞係一個問題。如果譬如話你只不過就係睇番個意外分析等等，你睇番即係每  
36 一個司機，佢嗰個過去係點樣，你要有一個參數，譬如話三個鐘好唔好，呢個

1 司機三個鐘就最好，短程就最好，夜晚做唔啱佢咁。你可以將嗰個職責就係度  
2 身訂造，令佢更加適合，更加願意做。如果今個月你要去早更，下個月你要做  
3 夜晚更，跟住嗰個要做下晝更，你咁不穩定嘅話，其實就好難--你個理由就係  
4 話要公平，但係其實係唔適合。如果做足夠嘅分析，其實可以做到呢個環境出  
5 嚟。如果你當係一個企業，其實我哋都會睇下佢嘅表現，譬如佢話即係呢個分  
6 析能力好好，所以佢就要做分析員；呢個人佢就係手工藝好好，佢又可以適合  
7 做呢樣嘢，所以呢樣同揸車都係一樣。

8 主席：（經傳譯員）你所講就係話需要有數據，譬如話一個巴士司機，其實就係同佢  
9 個表現就要記錄低，可以係一個實時記錄，同埋一個自動報告。

10 程艾樂先生：（經傳譯員）呢個其中一個，譬如我哋可以睇番佢嘅教育程度，佢嘅醫  
11 療情況，係好多地方可以攞到唔同嘅資料，所以睇番就係話其實我哋收集嘅資  
12 料，其實只係一方面，譬如話佢嘅駕駛表現，但係其實可能呢個就係同佢哋其他  
13 啲個人參數有關。如果你將所有資料收集晒，其實就可以砌到成個人出嚟。新加  
14 坡嘅模式係一個即係支援學習，就係咁。每一位嘅司機接受嘅訓練都唔同，因為  
15 佢哋睇下個司機係點樣，然後就係訂造一個適合佢哋嘅訓練課程。

16 主席：（經傳譯員）唔好意思，我要再問番。你係喺九巴做嘅時候，你可唔可以講下  
17 佢哋嘅休息設施係夠唔夠？因為對於呢一方面嘅分析，你提過，但係就有做過。  
18 所以譬如話對於車長嘅休息設計，尤其係做一啲特別嘅分開更嘅。

19 程艾樂先生：（經傳譯員）我覺得係非常之差。

20 主席：（經傳譯員）喺 2013 年嘅時候？

21 程艾樂先生：（經傳譯員）係 2013 年嘅時候，啲設施係低於標準，即係完全唔適合  
22 一個現代化嘅車隊。但係佢哋之後就係有合作去改善，即係好多唔同嘅方面，即  
23 係盡力改善。我記得係向運輸署提供過好多嘅建議，譬如話係多啲嘅休息室，但  
24 係香港係一個好特別情況，因為土地非常之珍貴，好多嘅公共交通交匯處，雖然  
25 巴士公司可以用，但係其實屬於私人發展商，譬如話領展等等，佢哋係唔願意提  
26 供地方，即係可以整一個休息設施畀司機，但係我相信九巴回答會更佳。但係有  
27 時可能佢哋就係話，即係司機用商場嘅洗手間都會畀人投訴，但係呢個係一個人  
28 嘅基本需要嚟嘅。

29 主席：（經傳譯員）你就話，2013 年嘅時候，呢啲設施係非常之令人失望。當你走  
30 嘅時候，2016 年嘅時候，12 月，情況係點？

31 程艾樂先生：（經傳譯員）其實如果用番呢一個基準，之後係有大幅改善。但係呢啲  
32 改善都唔係太過令人滿意，不過真係有一個大幅嘅改善，管理層真係有心去改善  
33 呢樣嘢。

34 主席：（經傳譯員）最差嘅設施係咩嘢？即係喺呢一個 2016 年 12 月嘅時候。

35 程艾樂先生：（經傳譯員）都有幾個，即係 2016 年嘅時候，有時就可能巴士車長其

1 實要喺巴士上面休息同埋食嘢，因為根本冇地方畀佢哋外面坐。應該大坑道有個  
2 公共屋邨——唔係，九龍城附近，係一個私人嘅住宅嚟，佢哋係唔願意畀空間去  
3 做一個設施。

4 主席：（經傳譯員）係咪樂華邨？

5 程艾樂先生：（經傳譯員）係。仲有好多其他嘅例子，成個香港都係。

6 主席：（經傳譯員）呢個係九巴自己起咗，跟住就要求佢哋整番走，移除。遇到呢啲  
7 問題係因為唔能夠要求有權嘅人士提供呢啲嘅設施咁樣講，啱唔啱？

8 程艾樂先生：（經傳譯員）係，可能就係嗰個發展權或者地契，佢有好多唔同嘅原因  
9 嘅。

10 主席：（經傳譯員）乜嘢原因都好，呢啲設施係冇提供。

11 程艾樂先生：（經傳譯員）冇錯，好多嘅例子就係唔足夠嘅設施。

12 主席：（經傳譯員）好，多謝你協助我哋，程先生。我哋亦都好多謝嗰啲人，佢哋係  
13 有做膽本嗰啲，同埋嗰啲做傳譯。我哋今日個聽證會到呢一刻為止，多謝大家出  
14 席。我哋會安排另外唔同節數嘅聽證會，我哋就住呢啲嘅聽證會，我哋會有公  
15 告。

16 程艾樂先生：（經傳譯員）多謝主席，多謝委員會，多謝律師，我覺得你有一個好挑  
17 戰性嘅工作，我希望到最後畀你哋會有一啲好嘅有建設性嘅建議，亦都會為我哋  
18 嘅巴士行業帶嚟益處。

19

20 2018年7月17日

21 下午5時46分聆訊押後

22

Monday, 30 July 2018

(10.00 am)

REPRESENTATIVES FROM MOTOR TRANSPORT WORKERS GENERAL UNION.

MR CHAN KWONG NUNG, MR LAI SIU CHUNG, MR LAM TIN FU,

MR CHEUNG TSZ KEI, MR LAU SIN TAT, MR LAM PO KEUNG

(Evidence given in Cantonese; transcription of the  
simultaneous interpretation)

CHAIRMAN: Good morning.

We thank the Motor Transport Workers General Union  
for sending their representatives to assist us with  
their evidence today.

We thank you, Mr Cheung, as the principal  
vice-chairman, and the other representatives.

The method by which we would take your evidence is  
to have questions posed of you by Ms Wong, Senior  
Counsel, who is one of the counsel assisting this  
Committee.

If at any stage you, Mr Cheung, wish one of your  
fellow representatives to deal with the question, please  
defer to him, and we will hear from whoever it is that  
you wish us to hear from.

I'll ask Ms Wong to start asking questions now.

EXAMINATION BY MS WONG

MS MAGGIE WONG: Yes. Good morning, gentlemen.

I would like to introduce a few remarks first, about

1           your organisation.

2           Was Motor Transport Workers General Union  
3           established in 1920?

4       MR CHEUNG TSZ KEI: Yes.

5       MS MAGGIE WONG: And we can see at TU bundle 1C at  
6           page 289-15 showing the membership of your trade union,  
7           and -- it is not translated, but I'll read out the  
8           actual numbers.

9           Your organisation currently has membership of 29,670  
10          people, in which 11,868 people are members coming from  
11          franchised bus trade union, and 10,436 people are  
12          members of bus captains of franchised bus operators.

13          Is that correct?

14       MR CHEUNG TSZ KEI: That's right.

15       MS MAGGIE WONG: And your organisation has five sub-unions.

16          It contains Kowloon Motor Bus, Citybus, New World Bus,  
17          Long Win Bus and New Lantao Bus.

18       MR CHEUNG TSZ KEI: Right.

19       MS MAGGIE WONG: Before I start questions, may I take you to  
20          the terms of reference for this Committee. It is in TU  
21          bundle 1C at page 263 in Chinese; and the English can be  
22          found at TD-1 bundle at page 3.

23          In essence, this committee's task is to look at the  
24          evidence from the point of view of safety in the light  
25          of the fatal accident on 10 February; and it is tasked

26

1 to examine the operation and management of bus  
2 franchises under the current legislative franchise and  
3 other contractual requirements; and to examine the  
4 present regulatory and monitoring system for franchised  
5 buses; and lastly, to make recommendation to the Chief  
6 Executive on safety-related measures with a view to  
7 sustaining a safe and reliable franchised bus service in  
8 Hong Kong.

9 So this committee's task is to look at the safety  
10 aspects of bus operation, franchised bus operations.

11 The why I raise this is, I understand that your  
12 submission raised a lot of issues concerning work, but  
13 this Committee is only tasked to look at safety-related  
14 measures in relation to the operation of franchised bus  
15 operation.

16 So I hope you understand that the questions will be  
17 focused along that area.

18 Your organisation previously made a number of  
19 submissions to the Committee. The first submission is  
20 dated 23 April 2018. The Chinese is at TU-1C page 277  
21 to 289. English at 289-1 to 289-12.

22 This submission, the first submission, is made in  
23 response to the committee's letter to your organisation,  
24 to your union, dated 28 March 2018; is that correct?

25 MR CHEUNG TSZ KEI: Right.

26

1 MS MAGGIE WONG: And your submission raised a number of  
2 issues. May I first take you to the broad areas first.

3 CHAIRMAN: Before you move on, Ms Wong, might I say this,  
4 Mr Cheung, if it helps you.

5 There are available to you hard copies of your  
6 submissions in the files. They are being brought up on  
7 the screen, but if ever you want to have a look at the  
8 hard copy, so perhaps you can look at other parts of the  
9 document, then just ask to be provided with the hard  
10 copy.

11 Do you understand?

12 MR CHEUNG TSZ KEI: I understand.

13 CHAIRMAN: Yes, Ms Wong, what is the reference?

14 MS MAGGIE WONG: The reference first is 289-14-7, and I'm  
15 making reference to the first 10 paragraphs which made  
16 reference to abuse of bus captains.

17 Your submission raised a few experiences, or actual  
18 experiences of many members showing that there were  
19 uncivilised passengers that ignore the laws and assault  
20 the bus captains by physical violence or abusive  
21 behaviour. That's the first topic that your submission  
22 raised.

23 And then in your second point that you made, it is  
24 about improvements to operational safety of franchised  
25 buses, and that's at paragraph 11 at page 289-14-9 in  
26

1 English. The Chinese is at page 285.

2 And the improvements you made are in essence three  
3 essential improvements.

4 First, you asked that the traffic lights be improved  
5 by having count down timers or flashing device. Second,  
6 you asked that there be more yellow squares in bus stops  
7 to allow the buses to park into the bus zone. And  
8 third, the entry and exit of bus stops.

9 The third topic you raised in your submission is the  
10 working condition, and that is at paragraph 15 in the  
11 bundle TU-1C bundle at page 289-14-10, paragraph 15.

12 In Chinese, it's page 287; in English page 289-10.

13 And you raised three particular matters, if I may  
14 broadly summarise. That's the resting time facilities  
15 and training.

16 So those are the three topics that I'm going to  
17 explore with you in this session.

18 The second submission you made to the Committee is  
19 in response to letters from the Committee to you dated 8  
20 and 13 June 2018. And your submission is dated  
21 10 July 2018. The Chinese is at page 289-16 to  
22 page 289-23. That's the second submission.

23 And the English is also in 1C bundle, page 289-23-1  
24 to page 289-23-10.

25 In this submission you expressed in the second  
26

1 paragraph that you have gathered the responsible persons  
2 of the five branches of franchised buses to convene  
3 a taskforce and extensively collected the views of the  
4 managers, office, and members, and workers. You will  
5 see that at page 289-16 in Chinese, and page 289-23-1 in  
6 English. And in this submission you also extensively  
7 made submission on the assault or abuse of bus captain  
8 by passengers. You cited a number of incidents in the  
9 second submission.

10 You also made the third submission, but before I go  
11 to the third submission I would deal with the assault,  
12 abuse of bus captain by passengers first. That is the  
13 first topic which has been extensively covered in both  
14 your first and second submissions.

15 Mr Cheung, I believe in both of your submissions you  
16 mentioned that this complaint about assault has been  
17 raised by trade union and bus companies for a number of  
18 years.

19 You quoted a number of incidents in 2016 and 2017  
20 and 2018. If I may go through this with you. Because  
21 you have identified nine assault incidents between  
22 3 January 2016 to 29 April 2018. That's Chinese at  
23 page 289-16 to page 289-17. And English at 289-23-2.

24 This assault incidents took place at different  
25 places in Tuen Mun town centre, Tai Wai Mei Lam Estate  
26

1 bus terminus, Eastern Hospital, South Horizons, Airport  
2 Ground Transportation Centre bus terminus, Castle Peak  
3 Road cafeteria bus terminus, Yat Tung Estate, Mong Kok  
4 railway station and Lantau toll plaza.

5 And you identify in each case that all the bus  
6 drivers that you mentioned have suffered injuries and  
7 have to take sick leave. Can you confirm those nine  
8 incidents were reported to your union and seek your help  
9 in liaising with the police or the relevant bus  
10 companies?

11 MR LAM TIN FU: Chairman, we quoted these nine cases, and in  
12 our submission we made it clear that these nine members  
13 sought help from our staff and then they sought  
14 financial assistance from the Occupational Safety And  
15 Health Association of the General Trade Union, but we  
16 have made it clear in our submission that some members  
17 were assaulted and they were widely reported in the  
18 media, and they did not seek help from our union.

19 We couldn't confirm whether they were our members  
20 and didn't know where they happened. So none of our  
21 staff provided assistance to them. So for the nine  
22 cases we have here, because they were seriously injured,  
23 and they had to take prolonged sick leave, they had  
24 financial difficulties. These were members who we got  
25 information from the occupational safety and health of  
26

1 the union, and in our latest submissions, we  
2 supplemented cases reported by the media.

3 We wanted to talk about a case at number 9 bus of  
4 Shek O. A captain was assaulted by a passenger for  
5 about three to five minutes, it was widely reported in  
6 the media but he did not come to us for help so we could  
7 not tell his actual situation. That's what I have to  
8 add.

9 MR LAI SIU CHUNG: May I add too.

10 Yes, we do have some statistics, but this is just  
11 the tip of the iceberg, these nine cases. However,  
12 assault against captains have become more serious, on  
13 average there are nine cases a day, and we do have some  
14 information, the number of cases are increasing. So we  
15 have just suggested to bus companies that protective  
16 devices be provided. There should be a membrane, or  
17 a panel to help us.

18 So this has always been happening. It is not  
19 confined to these nine cases, things have got more and  
20 more serious, and the passengers are very uncivilised.  
21 They use mobile phones to provoke and assault captains.  
22 There is a 230A regulation to protect captains but they  
23 have never been enforced.

24 CHAIRMAN: Ms Wong, before you go on, it might assist you if  
25 we were to inform you that we have received on Friday,  
26

1 I think it was, some information from Kowloon Motor Bus  
2 about statistics of complaints that they have received  
3 from their bus captains, from the period 2015 through to  
4 2018, and I think I'm right in remembering that there  
5 are about 40 complaints that have been made so far this  
6 year.

7 Are you aware of that information? It is on our  
8 website.

9 MR LAI SIU CHUNG: Chairman, if I may tell you that in the  
10 past two years, things have been more serious so there  
11 should be more than 40 complaints. And it is only very  
12 recently that a legal division has been set up in the  
13 company to support bus captains.

14 For cases that came to us for help, we provided  
15 assistance, but 40 complaints is not an accurate figure.  
16 We should at least have eight or ten per month. So two  
17 years, there should at least be 200 cases.

18 CHAIRMAN: I think you might have misunderstood me.

19 40 cases in the six months so far this year, seven  
20 months this year -- from one bus company.

21 MR LAI SIU CHUNG: I don't dispute that. But I don't think  
22 the figure is reliable.

23 CHAIRMAN: Well, no doubt you can provide us with reliable  
24 figures, but before you do that, the nine cases you  
25 described here cover the period from beginning of 2016  
26

1           until April 2018; is that correct?

2           MR LAI SIU CHUNG:   Yes.

3           CHAIRMAN:   Can you help us as to the bus companies where  
4           these nine victims worked?

5           MR LAM TIN FU:   We have to check our information, but most  
6           of them were working for KMB.

7                       For most of the cases known, they were from KMB.

8           But for the specifics, we have to check the records.

9                       And some bus captains did not tell us the company  
10          they worked for. Because in our form, we only required  
11          them to tell us the trade union he is from; we don't  
12          require them to tell us which bus company he is working  
13          for.

14          CHAIRMAN:   Thank you. Thank you, Ms Wong.

15          MS MAGGIE WONG:   Yes. The chairman earlier referred to  
16          a list compiled by the KMB showing assaults on bus  
17          captains from January 2015 to 22 July 2018. Can I show  
18          you the list. It is at KMB1 bundle, at page 212.

19          MR CHEUNG TSZ KEI:   I'm sorry, Ms Wong.

20                       Chairman, can I have a copy? Can I have a Chinese  
21          copy of this?

22          CHAIRMAN:   Yes, that can be provided now.

23          MS MAGGIE WONG:   Yes.

24          CHAIRMAN:   It may be that it was only provided in English.

25          MR LAI SIU CHUNG:   Because we cannot see anything in front  
26

1 of us.

2 CHAIRMAN: Of course we will provide it to you.

3 MR LAI SIU CHUNG: (In English) Thank you.

4 CHAIRMAN: It may be easier if you look at the hard copy.

5 Take your time to digest the format. That's  
6 probably what you need. Are we able to show the whole  
7 page? Yes.

8 Would you be kind enough to go forward to 2018?

9 MS MAGGIE WONG: Yes. That would be at page 216.

10 It should be KMB-1 bundle, page 216.

11 CHAIRMAN: Gentlemen, are you ready now for questions to be  
12 asked?

13 MR CHEUNG TSZ KEI: Yes.

14 MS MAGGIE WONG: If you look at the KMB-1 bundle at  
15 page 216, item 148 onwards to 188 are the cases that  
16 were compiled by the KMB from January 2018 to  
17 22 July 2018. That's just for KMB only.

18 MR LAI SIU CHUNG: Well, that was reported to you by KMB,  
19 but information was received from us that some minor  
20 pushing were not reported to KMB. These figures might  
21 be true, but we understand that some cases were not  
22 reported to the bus company, and that's why we say that  
23 these statistics are not very accurate. Some staff did  
24 not report to the company, but they told the trade  
25 unions.

26

1 CHAIRMAN: No doubt you can provide us with the complaints  
2 that you have received, that were not provided to the  
3 bus company.

4 MR LAI SIU CHUNG: Chairman, for example, just last week we  
5 had a station master who was newly employed. He was  
6 punched once by a Pakistani, and he fell to the floor.  
7 He reported the case to me and I reported it to the  
8 company. And then a report was compiled.

9 Now, because this is such a big company, if I have  
10 to tell each and every time, then you will find it  
11 troublesome, Chairman.

12 CHAIRMAN: We are trying to act on evidence, and unless we  
13 are provided with evidence, mere assertions, sweeping  
14 assertions don't assist us.

15 If you can give us complaints that you have received  
16 that were not reported to the bus company, please do.

17 MR LAI SIU CHUNG: Okay, thank you.

18 MS MAGGIE WONG: If you look at the list we can see, on my  
19 count, there were about 41 incidents. But we can see  
20 that very few cases result in any prosecution or  
21 meaningful result. And only two cases -- we can see at  
22 items 162 and 164 -- result in the defendant pleading  
23 guilty and fined for a sum. Out of 41, most of them are  
24 settled, or with verbal warning, or not pursued by the  
25 police.

26

1           If I may take this list and cross-reference to some  
2           of the cases that were mentioned in your nine assault  
3           incidents, I can find five of them.

4           The first case in your submission is case 2. At  
5           page 289-16. It relates to an incident of a Mr Ho on  
6           3 January 2016 the at Tai Wai Mei Lam Estate. And we  
7           can see that would be case number 62 in the list  
8           compiled by KMB at page 214, case number 62.

9       MR LAI SIU CHUNG: Yes.

10       MS MAGGIE WONG: Thank you.

11           Before I move on, there is in fact another incident  
12           which is not recorded in this table, but there was  
13           a notice of an incident on 16 May 2016 about an assault.  
14           And that's at page 289-114, and the English is at  
15           289-23-2.

16           We can see there was another incident on 16 May 2016  
17           that was not reported, or cannot be found in the table,  
18           but which was issued or a notification issued by your  
19           organisation or union, and if I may go back to the list,  
20           this is just quoted as one of the examples that would  
21           not be in KMB list, nor in your list that we can find.

22       MR LAI SIU CHUNG: It is the same one as the one with the  
23           victim's surname Ho.

24       MS MAGGIE WONG: Oh. Same as. Thank you.

25           And the second case is case 5 on your list, at  
26

1 page 289-17, and that's case 5 on your list, in relation  
2 to a Mr Yiu, who was attacked on 8 August 2016. And we  
3 can see this incident was also found in the KMB list at  
4 page 214 as case number 82.

5 We can see BC, bus captain, Mr Yiu, the date on  
6 8 August, Long Win Bus, the location at the airport  
7 terminus, and the injury he suffered.

8 And the third incident in your submission is case 8  
9 at page 289-17, concerning a Mr Lee injured on  
10 9 January 2017, at Mong Kok station, where he was  
11 injured on the eye and the forehead. This case can also  
12 be found in KMB's list at page 215 as case number 113.

13 Do you confirm that?

14 MR LAI SIU CHUNG: Yes.

15 MS MAGGIE WONG: And another example that was found on the  
16 list but not in your list, but in the KMB list, is the  
17 number 122 incident on 4 June 2017 in Tsuen Wan bus  
18 terminus, in which the case was settled. And that's in  
19 the KMB list at page 215.

20 Another case on your submission is case number 9 at  
21 page 289-17, in relation to a Mr Yeung, injured on  
22 29 April 2018 at the Tsing Ma toll. And this incident  
23 was reported, or compiled in the KMB list as case number  
24 170, at page 217.

25 Can you confirm that? 170.

26

1 MR CHEUNG TSZ KEI: Yes. Yes. The injured bus captain  
2 sought assistance from me. At that time he asked  
3 questions. He asked why the security officers at Tsing  
4 Ma toll plaza let the culprit go, because the culprit  
5 forced the door open, alight the bus, walked to take  
6 another transportation to leave. The control officers  
7 at the toll plaza did not do anything.

8 MS MAGGIE WONG: Now we can see these incidents, these 41  
9 incidents in the list were reported to the police, and  
10 on the most right column we can see some of the remarks  
11 stating that the police either requested them to settle,  
12 or not pursued by the police, and that was a point made  
13 in your submission at page 289-17, English at 289-23-3,  
14 at the bottom.

15 MR LAI SIU CHUNG: I would like to say something, Chairman.

16 There are many incidents. It is impossible that  
17 they were all settled voluntarily. You can see that  
18 there were only a handful of cases where the law was  
19 enforced. There are so many cases, it is ridiculous  
20 that so many of them are settled. We have received  
21 a lot of complaints that the police did not enforce the  
22 law. Bus captains will not provoke passengers. There  
23 so many cases. Out of the 40 cases only a handful of  
24 cases resulted in prosecution. That obviously is  
25 a problem. You can see that from the table. There are  
26

1 a number of injuries sustained in a lot of these cases,  
2 and a lot of them resulted in the case being settled,  
3 only a handful of cases resulted in prosecution. Bus  
4 captains have been assaulted, and they are asked to  
5 settle. That is to show that there is a failure on law  
6 enforcement.

7 MS MAGGIE WONG: Thank you, Mr Lai.

8 You raised that this matter has been raised a number  
9 of times. And one of the examples we can see is in one  
10 of the minutes of meeting you had with the Transport  
11 Department. That's dated 22 March 2017. We can see it  
12 in Chinese at page 289-61, paragraph 2 at the bottom; in  
13 English, at page 289-182.

14 In paragraph 2 you mentioned the attacks on bus  
15 drivers, and the verbal abuse and how it affected the  
16 driving, the work of the bus captains, and requested the  
17 Transport Department to execute the laws in accordance  
18 with the regulation.

19 This is just one of the examples.

20 If I may refer back to your submission. You made  
21 clear the point that the information of other attacks  
22 and injuries not reflected to the staff of your union is  
23 not collected in your submission. And you made that  
24 clear at page 289-18 in Chinese, second paragraph; in  
25 English, page 289-23-3.

26

1           In paragraph 2 you mentioned about -- in the  
2           previous occasion some of the members would come out to  
3           assist the bus captains, but because of the incidents  
4           that there may be certain implication about public  
5           fighting, or fighting in public place. So a lot of  
6           people are worried about their own condition, and not  
7           willing to offer assistance to bus captains.

8           And you mentioned an incident on 10 July 2015 about  
9           the typhoon incident leading to a number of violent  
10          behaviour of passengers. Can you explain a little bit  
11          as to how you would assist the bus captains and why you  
12          feel inhibited in assisting the bus captains in those  
13          circumstances?

14       MR LAI SIU CHUNG: I remember this case very clearly. At  
15          about 8.30, because of the typhoon, bus service ceased.  
16          And at that time perhaps passengers were quite anxious,  
17          as a result, they assaulted the bus captain. At the  
18          end, the passenger was arrested.

19       MR LAM TIN FU: Well, this is the view of the union. If  
20          other union members stepped in to help the bus captain,  
21          to stop the perpetrator from assaulting the bus captain,  
22          the police would book all parties involved.

23          That means all these people would be charged with  
24          fighting in a public place.

25          As a result, when union members see that someone is  
26

1           assaulted, they would not go to help, and that becomes  
2           the trend now.

3       MR CHEUNG TSZ KEI: And I would like to supplement. Verbal  
4           abuse, taking videos of bus captains, these all affect  
5           the emotions of the bus captain, which in turn affects  
6           driving safety, and this will have an implication on  
7           public safety. As a result, we do think that these  
8           kinds of assaults should be stopped.

9       CHAIRMAN: Could you just help the committee with the detail  
10          of this particular assault? Where did the assault take  
11          place? Was it in the bus? Or was it in the bus depot?

12      MR LAI SIU CHUNG: It is at the bus stop, before the bus  
13          pulled off. Perhaps because passengers were quite  
14          anxious that typhoon No. 8 would be hoisted. We  
15          received an announcement that at 8.30 bus service would  
16          cease. My understanding was that passengers saw a bus  
17          captain, but the bus captain was about to knock off  
18          work. Passengers assaulted the bus captain. Some  
19          people helped the bus captain. However, all the people,  
20          even those who stepped in to help, were charged.

21      CHAIRMAN: Was the assault on the bus, or outside the bus?

22      MR LAI SIU CHUNG: At a bus terminal, outside a rest kiosk  
23          of the bus regulator. Do you understand, Chairman?

24      CHAIRMAN: I do, now. Thank you.

25      MS MAGGIE WONG: In your further submission dated  
26

1           10 July 2018, Chinese is at page 289-18, English at  
2           page 289-23-3 to 289-23-4, in paragraph 1 you  
3           highlighted the problems that you mentioned earlier, and  
4           that you have collected from the Internet, other  
5           information concerning bus drivers being harassed by  
6           passengers, and being unreasonably treated. And you  
7           also exhibited the relevant articles or website  
8           information on bus captains being abused by passengers.

9           The articles can be found in Chinese at page 289-24  
10          to 289-30, and there is photographic evidence. And in  
11          English, at page 289-141 to 289-146.

12          And you identified the problem at paragraph 2 of  
13          your submission. And you went on to complain at  
14          paragraph 3 that you have not heard of law enforcement  
15          officers bringing charges against a relevant person  
16          under the Public Bus Services Regulations, chapter 230A.  
17          We can see that in English, 289-23-4, and in Chinese at  
18          289-19.

19       MR LAI SIU CHUNG: Can you please respond. Cap 230A is for  
20          protecting bus captains, but in most cases it is used to  
21          protect passengers and our companies have not asked that  
22          protection be given to us. Now, we should enhance the  
23          penalty. Because I have not seen any charging of  
24          perpetrators under cap 230A.

25       MS MAGGIE WONG: For convenience, if I may take you to the  
26

1 regulation to see the penalty. And that's in THB-2,  
2 page 131.

3 Do you have that? I'm sorry that there is only an  
4 English version. But we can see in regulation 13, power  
5 to remove passengers from a bus, where that person whom  
6 he has reasonable cause to believe has contravened these  
7 regulations.

8 And also 13A, at page 13. Regulation 13A states  
9 that:

10 "... no passenger or intending passenger shall:

11 (a) wilfully ... impede or distract the driver of  
12 the bus or any authorised person;

13 (b) wilfully obstruct the driver's view of the road  
14 or traffic;

15 (c) wilfully do or cause to be done with respect to  
16 any part of the bus ... anything which ..."

17 And then subparagraph (ii):

18 "causes injury, discomfort, annoyance or  
19 inconvenience to any other person ..."

20 and at (i):

21 "obstructs or interferes with the workings of the  
22 bus or causes damage."

23 And if we may go to regulation 25(3):

24 "Any person who without reasonable excuse  
25 contravenes any of the provisions of regulation ...  
26

1 13A(1)" [that's the provision we have just looked at]  
2 "commits an offence and is liable to a fine of \$3,000  
3 and to imprisonment for six months."

4 So that's the section you are referring to that was  
5 not prosecuted throughout the years. Is that the case?

6 MR CHEUNG TSZ KEI: Correct.

7 MS MAGGIE WONG: And if I may invite you to look at  
8 paragraph 3 of your submission, further submission. In  
9 English it is at page 289-23-5; Chinese is at page  
10 289-19. Do you see that?

11 Reference was made to civil claims that bus  
12 companies have initiated on the bus captains' behalf,  
13 but they have not published the results of the claim.  
14 So you requested to obtain information on bus captains  
15 in which civil claims were lodged. Is that the  
16 position? That you would like to recommend the  
17 Committee to seek information from the franchised bus  
18 companies in relation to this civil claims?

19 MR LAI SIU CHUNG: A few months ago a female bus captain was  
20 assaulted. There was assistance by the bus company,  
21 there was a compensation of \$5,000 in cash, and also  
22 bail, and he was bound over.

23 Yes, there was assistance, and there was requests  
24 for compensation.

25 MR LAM TIN FU: But as far as we know, bus companies would  
26

1           only provide personal assistance, because these cases  
2           would affect all employees of bus companies and there  
3           was no announcement to all staff, the outcome of the  
4           assistance.

5           Some KMB colleagues told us that in their monthly  
6           newsletter the case was mentioned, but we haven't seen  
7           that. It was in the newsletter for KMB staff.

8   MS MAGGIE WONG: Would you be able to provide us with the  
9           monthly newsletter?

10   MR LAI SIU CHUNG: We have to find it out from our staff  
11           website. Perhaps you can ask KMB on our behalf. In  
12           their monthly newsletters for staff, and all the cases  
13           are reported, it is not that we cannot find it, but we  
14           may not be able to do it very quickly. Perhaps it would  
15           be faster if you ask the management of KMB.

16   MS MAGGIE WONG: We have seen the complaints. Can we look  
17           at how KMB responded to some of these complaints in  
18           their submission.

19           If I may take you to KMB-1, page 61 to 62.

20           It referred to 61 to 62. It referred at page 62 at  
21           the top that:

22           "[Following] the increasing number of assaults ...  
23           we have taken the following measures ..."

24           And they have identified four. First, surveillance  
25           cameras, included forward-looking cameras, and a camera  
26

1 covering the driver seat, have become standard features  
2 on all new buses since 2015. Up to February 2018,  
3 surveillance cameras were installed in 2,319 KMB buses  
4 and 146 LWB buses. The remaining buses will be equipped  
5 with surveillance cameras phase by phase. Surveillance  
6 cameras capture the behaviour (with audio recording) of  
7 difficult passengers. It will protect the interest of  
8 [bus captain] in subsequent investigation by the police  
9 or legal proceedings."

10 That's the first measure.

11 The second is:

12 "We will install a protective shield near the driver  
13 seat [or cockpit] starting from June 2018."

14 Third:

15 " ... more on-board announcements to advise  
16 passengers not to do ... acts that will affect the [bus  
17 captains] and other passengers."

18 And the fourth:

19 " ... offer legal support to [bus captains] after  
20 they have been assaulted."

21 Now I would like to ask about these surveillance  
22 cameras. We have seen some examples in one of the site  
23 visits that these surveillance cameras were installed  
24 above the position or above where the driver was seated.  
25 And it would capture the driver's behaviour as well, and  
26

1           it appears some of the drivers previously raised some  
2           concerns, as a result of these surveillance cameras.

3           What is your comment on this matter?

4       MR CHEUNG TSZ KEI: Yes. Recently, KMB has made these  
5           improvements when it comes to assaults against bus  
6           captains. The company has helped bus companies -- I  
7           mean captains, to provide legal assistance.

8       MR LAI SIU CHUNG: If I may supplement. Our frontline  
9           captains and trade unions have reflected the view that  
10          sometimes surveillance cameras can help bus captains,  
11          but for minor issues, they will only say that the cases  
12          would be handed over to the police. Sometimes  
13          surveillance cameras cannot help bus captains. Now, we  
14          want to have our own cameras but KMB -- bus companies  
15          claim that there would be privacy issues, and when there  
16          are minor hiccups, we asked for the footage but we may  
17          not be able to have the footage covering the whole  
18          incident.

19          So the surveillance camera may capture minor  
20          incidents, but the footage would only be passed to law  
21          enforcement departments, but not to frontline captains  
22          for support. So we are saying that when we need  
23          support, the surveillance cameras may not be able to  
24          support us. And according to the company, they hope to  
25          complete the installation by the second quarter of next  
26

1 year. Two thirds of our buses are not yet installed  
2 with these cameras. There are over 3,700 or 3,800 buses  
3 in KMB's fleet and two thirds of them do not have the  
4 surveillance cameras yet.

5 MR CHEUNG TSZ KEI: Let me supplement, Chairman.

6 CHAIRMAN: Before you go on. The figure that we are given  
7 here is: 2,319 buses as of February 2018 had  
8 surveillance cameras. So if there are 3,700 buses, two  
9 thirds do not, as you say, have surveillance cameras,  
10 that's not right.

11 MR LAI SIU CHUNG: Chairman, because the company has got  
12 buses that will only be used for two more years, and  
13 they will not be installed, they will be phased out very  
14 soon, and the company has indicated that surveillance  
15 cameras will not be installed for them, and the number  
16 is quite considerable. Because these vehicles are old,  
17 and the company has decided not to install cameras, and  
18 some frontline bus captains installed our own cameras,  
19 but the bus company use administrative measures to not  
20 allow us to do that. We want to protect ourselves.

21 CHAIRMAN: Can you provide the Committee with information as  
22 to that latter matter? The prevention of bus captains  
23 using, I take it, their own cameras?

24 MR LAI SIU CHUNG: Yes, we can provide this. For BCs to  
25 install their own cameras they have received written  
26

1 warnings, and there are announcements to tell BCs that  
2 they cannot install their own cameras. We are helpless,  
3 because there are many traffic accidents. When the  
4 police arrive at the scene they will ask you whether  
5 there is any camera. So we accepted these warnings,  
6 reluctantly, but we have always hoped that the  
7 management would accept the proposal from trade unions,  
8 because these cameras can protect BCs. For vehicles  
9 with the prefix H and J, they do not have any cameras,  
10 because they are over 13 years old and the company will  
11 not install cameras for vehicles with the prefix H and  
12 J, they are old models, we are told that they will not  
13 waste resources to install cameras in these vehicles.

14 CHAIRMAN: Will you provide documents that allow the  
15 Committee to understand how this has been dealt with by  
16 the company? You call it "administrative measures".  
17 Can you give us those documents?

18 MR LAI SIU CHUNG: I will try. We have had meetings with  
19 the company. They said that we are not allowed to  
20 install cameras because of previous issues.

21 Well, release of footage will have to be done with  
22 the consent of all the parties captured. We have had  
23 meetings with the company. They said that it involved  
24 privacy issues. Release of footage without the consent  
25 of all parties captured in the footage is a violation of  
26

1 privacy. If you ask for documents or letters, or  
2 warning letters, I can give them to you afterwards.

3 CHAIRMAN: That's what we are asking for.

4 MR LAI SIU CHUNG: Yes, I will submit them to you  
5 afterwards.

6 CHAIRMAN: Thank you.

7 Moving to another issue, do you support the  
8 installation of these surveillance cameras, that capture  
9 on audio and video what happens in and around where the  
10 bus captain's seat is?

11 MR CHEUNG TSZ KEI: If it improves the working condition of  
12 bus captains without affecting their performance, trade  
13 unions will support that.

14 CHAIRMAN: Can you answer that "yes" or "no"? Do you  
15 support it?

16 MR LAM TIN FU: Chairman, the installation of a device that  
17 does audio or video recording may be conducive to  
18 evidence collection. However, some bus captains are of  
19 the view that if there is a surveillance camera they are  
20 being monitored all the time and it will create mental  
21 pressure. I have heard cases that for some bus captains  
22 with the camera sitting right above their heads, it  
23 distracts them and it will not be good for road safety.  
24 So there are concerns.

25 The installation of surveillance camera may be done  
26

1 with good intentions but you have to take into account  
2 the actual conditions of bus captains. If all buses are  
3 fitted with such installations, some bus captains may  
4 find it difficult to adjust.

5 So I just say that it may be considered, but not all  
6 bus captains can adjust to having a surveillance camera  
7 monitoring them all the time.

8 Bus captains drive or work for about eight hours.  
9 If they are under mental pressure it will not be good.

10 There may be times where bus captains just holding  
11 steering wheel with one hand because they want to take  
12 a sip of water, and it will be captured on camera, so  
13 you will have to be very cautious before considering the  
14 installation of a video or audio recording devices.

15 CHAIRMAN: So do we understand it that the union takes the  
16 position that there is no consensus about this? You  
17 don't have a view?

18 MR LAM TIN FU: We think that it should be considered with  
19 caution.

20 Yes, it may help, but trade unions think that you  
21 will have to ask our members.

22 MR LAI SIU CHUNG: I would like to say that seven or eight  
23 years ago, at the start of installation of surveillance  
24 cameras, we have lodged complaints with the Privacy  
25 Commissioner, because we have received a lot of  
26

1 complaints at our complaints divisions saying that it  
2 posed tremendous mental pressure on bus captains.

3 So, to a certain extent, some of our members oppose  
4 any devices that would make audio recording.

5 About six or seven years ago we went to the Privacy  
6 Commissioner to lodge a complaint and to protest. That  
7 was done by the General Union.

8 CHAIRMAN: What is the position now in 2018? Is this  
9 supported or not supported?

10 MR CHEUNG TSZ KEI: Perhaps I will answer.

11 The installation of a camera, I have at one point  
12 discussed it with the senior management of the KMB.  
13 Yes, with a camera, bus captains are protected in  
14 relation to what happens on the road. However, some  
15 administrative officers focus rather on some minor  
16 points, say for example a bus captain holding the  
17 steering wheel with one hand while trying to take a sip  
18 of water. That bus captain would be asked to go to see  
19 the management.

20 With things like that, it would affect the  
21 psychological state of bus captains. We have talked to  
22 the management of the company, we asked the company to  
23 give undertakings that there will not be unreasonable  
24 disciplinary proceedings, say, for example, minor  
25 incidents like holding the steering wheel with one hand  
26

1 while trying to take a sip of water.

2 Of course, on the one hand we would very much like  
3 to have a camera to protect us, but if the management  
4 uses it to penalise bus captains for minor incidents  
5 then we would not like it.

6 CHAIRMAN: So are we to understand that your position is  
7 this: so long as the camera is used for the benefit of  
8 the bus captain you are in favour of it, but if it is  
9 used against him you are not? Is that it?

10 MR CHEUNG TSZ KEI: Right. Right. It is about unreasonable  
11 Draconian measures taken against us, or just  
12 unreasonable requirements.

13 CHAIRMAN: Thank you.

14 Ms Wong.

15 MS MAGGIE WONG: Yes. Mr Cheung, you mentioned about the  
16 management would sometimes look at this camera or  
17 surveillance footage to check on the behaviour of the  
18 bus captains.

19 In what circumstances would they do that?

20 CHAIRMAN: I think Mr Cheung provided us with the answer  
21 several times. The graphic example of the one-handed  
22 steering wheel and the sipping of the water. It is that  
23 kind of interference with minor things, as you would  
24 categorise them, that you are concerned about?

25 MR LAI SIU CHUNG: Sorry, Chairman. I would like to say  
26

1 something about holding the steering wheel with one  
2 hand.

3 Well, that's only done when it is perfectly safe.

4 Say, for example in a very safe situation.

5 MS MAGGIE WONG: So it is just a random checking, or is it  
6 to react to complaints and as a result they look at  
7 surveillance footage?

8 MR CHEUNG TSZ KEI: What we ask for is that the footage  
9 would only be viewed where there are incidents or  
10 traffic accidents. However, a number of years ago, some  
11 officers took the initiative to view the footage and  
12 found some bus captains eating biscuits or drinking  
13 water, and the bus captains were being chastised by  
14 officers. We do think that is unreasonable.

15 It happens quite often. As a result, bus captains  
16 feel that they are offended.

17 CHAIRMAN: Ms Wong, allow for the translation. Perhaps bear  
18 that in mind in future.

19 I think Ms Wong's question really is this.

20 When, as you call them, administrators get involved  
21 in looking at the surveillance camera in these  
22 circumstances, is that because a complaint has been made  
23 by a passenger? The bus driver was eating biscuits or  
24 drinking water? Is it a response a complaint?

25 MR CHEUNG TSZ KEI: Chairman, not necessarily. There is one  
26

1 case, the bus captain has finished his duties driving  
2 the bus back to the depot. There were no passengers on  
3 board, and that bus captain was being penalised by an  
4 administrative officer.

5 CHAIRMAN: So you infer from that that, on this occasion at  
6 least, use was made of the surveillance camera without  
7 there being a complaint -- spying on the bus captain, is  
8 that it?

9 MR CHEUNG TSZ KEI: That's correct.

10 CHAIRMAN: Thank you.

11 MS MAGGIE WONG: How often was this being conducted by the  
12 management? How often, do you know?

13 MR CHEUNG TSZ KEI: In recent times, such incidents has  
14 dropped in number, that's a result of trade unions  
15 complaining to the company a number of times, saying  
16 that such unreasonable measure would dampen morale even  
17 further. As a result, the number of such incidents has  
18 dropped.

19 CHAIRMAN: So has this problem resolved itself, did the bus  
20 company listen to you?

21 MR CHEUNG TSZ KEI: Chairman, well, there can be two  
22 interpretations. First of all, there is a shortage of  
23 manpower. Two, you can say that they have listened to  
24 us, but we don't know what will happen in the future.

25 CHAIRMAN: What was the last occasion when this kind of  
26

1           spying took place without a complaint from a passenger?

2           How long ago?

3       MR LAI SIU CHUNG: I believe that there will be complaints  
4           every day. Where there are cameras, the footage would  
5           be viewed, and there is also a black box on board. Say,  
6           for example, there is -- well, you can view the footage  
7           to see if doors have indeed been opened to let  
8           passengers on and off, or the bus captain has stopped at  
9           the bus stop. There is a black box on board. I believe  
10          that there are complaints every single day.

11       CHAIRMAN: But the question was, can you point to an example  
12           where spying took place without complaints? The most  
13           recent one, or has it solved itself?

14       MR CHEUNG TSZ KEI: I believe it was half a year ago since  
15           I last heard about something like this.

16       CHAIRMAN: Thank you.

17           Yes, Ms Wong.

18       MS MAGGIE WONG: Yes. The second measure mentioned in  
19           page 62 is the installation of a protective shield. Can  
20           you tell us how many protective shields have been  
21           installed since June 2018? That's in KMB-1 submission,  
22           page 62, the second measure, about installing  
23           a protective shield near the driver seat, starting  
24           from June 2018. How many were installed?

25       MR LAI SIU CHUNG: I believe one-third of the fleet has been  
26

1 covered, because there are many demerits. It may look  
2 to be some protection, but the opening of the shield is  
3 very big, it is not easy for you to switch it on and  
4 off, and it is very reflective and then there is  
5 a magnet at the very tip, and while the bus is moving  
6 there may be noise. And that would affect the bus  
7 captain. We have asked the management to improve that,  
8 and some bus captains would like that removed, because  
9 at night it is very reflective. But we are told that  
10 this is a political issue and it could not be removed.

11 Just last week we took this up with the management.

12 The protective shield is very problematic. The  
13 switching on and off of the shield, and it's reflective,  
14 it affects driving safety, and if it is not tightly  
15 fastened, then it would affect our driving.

16 CHAIRMAN: So the short answer, is about one-third of the  
17 KMB fleet have had these not very good shields deployed?

18 MR LAI SIU CHUNG: The protective shield has got a lot of  
19 problems. From bus captains it is not that they don't  
20 support having a protective shield, but they have  
21 reflected the demerits of the protective shield to the  
22 trade unions, we have also reflected them to the  
23 management. But so far there seems to be no  
24 improvement.

25 We are told it was political issue, the protective  
26

1 shield could not be removed. Bus captains are under  
2 great pressure. This morning I checked with a BC and  
3 was told that if the magnet is not tightly attached it  
4 would be noisy and your fingers can get caught, and some  
5 passengers might knock on the protective shield  
6 inadvertently. It is not easy to open the door.

7 And the protective shield may affect the sight line  
8 of bus captains. They cannot see clearly the getting on  
9 and off of passengers. At night the shield is  
10 reflective.

11 So if vehicles on the other lane have lights, then  
12 it may be reflected. We have reflected that to the  
13 management and the answer was it could not be removed.  
14 By April next year all vehicles will be installed with  
15 a protect he have shield.

16 I don't know whether Chairman has seen the  
17 protective shield himself.

18 CHAIRMAN: Yes, I have. I have also seen them deployed over  
19 the years in New York taxis and elsewhere in the world.  
20 There seems to be no simple solution.

21 MS MAGGIE WONG: And since when did you make these  
22 complaints, or since when the bus captains make these  
23 complaints?

24 MR LAI SIU CHUNG: In the past few months, many bus captains  
25 have reflected that to trade unions, the last time I met  
26

1 with Mr Leung of the management I relayed the complaints  
2 to them. They are saying that the protective shield was  
3 too reflective, and the switching on and off device, and  
4 also the shield has distracted bus captains. We have  
5 talked about the material, and then the switching on and  
6 off device is too tight, and some bus captains may not  
7 be strong enough to move it, but they told us that there  
8 is a trick you just push the door and it can be opened.  
9 But we see more problems.

10 CHAIRMAN: Ms Wong, I think we have to try a make progress  
11 in other areas, because we have spent a lot of time on  
12 this area.

13 MS MAGGIE WONG: Yes.

14 If I may move on to the second topic on traffic  
15 signal.

16 You mentioned in your submission at page 289-23-5,  
17 paragraph 12, Chinese at 289-19, you refer to a proposal  
18 about inviting the Transport Department to have flashing  
19 signal by numbers be added when a traffic signal changed  
20 from yellow to green, so that the driver knows what to  
21 anticipate, and to avoid the danger caused by sudden  
22 breaking.

23 And you made that submission a number of times, and  
24 if I just make the reference to you, but there is no  
25 need to go to those documents.

26

1           The first document is a letter submitted to the  
2           Transport Department in 1996, at page 289-31,  
3           paragraph 4.

4           The Transport Department did reply on  
5           6 February 1996, and that's at page 289-38. The  
6           Transport Department responded at second paragraph that  
7           adding a flashing amber may confuse the motorist even  
8           more.

9           And then you made this submission or this proposal  
10          again on 15 March 2005. We can see that in Chinese at  
11          page 289-47; in English at 289-166.

12          If you look at page 289-50 to 51, in Chinese; and  
13          English at page 289-170.

14          So having heard the Transport Department's  
15          suggestion or proposal, or feedback, what is your view  
16          on having, or whether you still insist on having traffic  
17          signal counting by numbers?

18   CHAIRMAN: It is not a question of insisting, it is  
19          a question of requesting, is it not?

20   MS MAGGIE WONG: Requesting. Yes.

21          Do you still request, or are you satisfied with the  
22          reply by the Transport Department, or do you still wish  
23          to request the Transport Department to have this system  
24          of flashing signals added by numbers?

25   MR CHEUNG TSZ KEI: Yes, Chairman. With regard to Transport  
26

1 Department's reply I am not satisfied. Because the  
2 department fails to understand the time required for  
3 a bus to be stopped. From the green to the red phrase,  
4 currently takes about three seconds, but if a bus is  
5 running at 50 kilometres per hour, to stop the bus  
6 stably, steadily within three seconds is very difficult.  
7 Therefore, some buses may rush through a green light,  
8 and this gives people the impression that bus captains  
9 like to do that.

10 In fact, at an awkward situation, if a bus captain  
11 has to stop a bus smoothly, then he may have to stop at  
12 a road junction. If he wants to pass the junction, that  
13 will be rushing through the green light, and if he has  
14 to stop and it would be very abrupt, that may cause  
15 injuries to passengers. These are difficulties  
16 associated with bus driving, but many motorists may not  
17 understand that. For a private vehicle it may be  
18 stopped within three seconds; for heavy duty vehicles it  
19 can be stopped abruptly and the goods inside might be  
20 disturbed. But we are talking about passengers on  
21 buses. So we want a countdown signal. Or at least  
22 there should be three to four flashes before the green  
23 phase turns to the amber phase to give us preparation.  
24 It is just like for passenger signal, there would be  
25 flashes when the green phase is going to turn to the  
26

1           amber phase. This will enhance the quality of service  
2           and safety, it will benefit the public. But the  
3           Transport Department has time and time again ignored our  
4           aspirations.

5   CHAIRMAN: You are describing the flashing green man at  
6           a pedestrian crosses so the pedestrian knows that the  
7           green is going to become red soon; is that what you  
8           mean?

9   MR CHEUNG TSZ KEI: Correct, Chairman. We want an extra  
10           three to four seconds, so that before turning to the red  
11           phase, we can -- amber phase, we can have some  
12           preparation to allow sufficient time for bus captains to  
13           stop their buses smoothly.

14   CHAIRMAN: And are there other places in the world that  
15           deploy this system that you can point to?

16   MR CHEUNG TSZ KEI: I saw it in Singapore. They have  
17           a flashing of a green arrows. And more common in the  
18           mainland. They have countdown figures.

19   CHAIRMAN: That's the numerical countdown for the change of  
20           the phase?

21   MR CHEUNG TSZ KEI: Yes.

22   CHAIRMAN: Thank you.

23   MS MAGGIE WONG: And we have received submissions from the  
24           Transport Department about the statistics of all  
25           accidents involving franchised buses, that are  
26

1 non-collision type. If I may take you to the Transport  
2 Department's submission at TD-9, filed in April 2018.  
3 At TD-1, page 111. Paragraph 6.

4 And we can see the statistics provided in  
5 paragraph 6. And at paragraph 5 and 6. Paragraph 5  
6 states that:

7 "About 59 to 65 per cent of all the accidents  
8 involving FB during 2012 [to] 2017 are non-collision  
9 type accidents. These included accidents which  
10 typically involved passengers losing balance inside the  
11 bus compartment due to various reasons ..."

12 And if we see the forward planning programme of  
13 Kowloon Motor Bus for 2018 to 2022, in the same TD  
14 bundle at page 183, paragraph 8.2.7 stated that:

15 "The majority of the accidents, (51.5 per cent) were  
16 due to passengers losing balance while on the bus. More  
17 than half of these cases were caused by the bus braking  
18 in traffic."

19 Now, I would like to ask you this. It appears from  
20 these statistics, that more than 50 per cent of the  
21 injuries to people on or near bus are caused by losing  
22 balance.

23 So if you work back from losing balance, the most  
24 perhaps obvious reason given here is due to sharp  
25 braking. Would your union be agreeable to installing  
26

1 a deceleration device, first, a deceleration device,  
2 which would retard the car at a certain rate when it  
3 reaches, for example, 50km per hour or 70km per hour.

4 Would your union be agreeable to that kind of device?

5 MR LAI SIU CHUNG: I don't think you are very familiar with  
6 mechanics. Well, I don't think you are very familiar  
7 with the parts -- yes, there are device with  
8 deceleration, well, yes, there is a kind of decelerator,  
9 there has always been this device, but if the vehicle is  
10 travelling at 70kmp, and the vehicle will stop abruptly,  
11 that is impossible. But it can stop steadily, and that  
12 device has always been installed on buses.

13 MR CHEUNG TSZ KEI: Chairman, let me supplement.

14 More often than not passengers suffer injury on  
15 board a bus. It is because, like I said, at a traffic  
16 junction, signal traffic junction, bus captains might  
17 have to come to a sudden stop, and sometimes there are  
18 circumstances on the road forcing the bus captain to  
19 stop abruptly. On top of that, there are many  
20 passengers who are too busy looking at their phones  
21 without holding on to handrails, and some of them might  
22 even be thrown off the seat, because they don't sit  
23 properly.

24 MR LAM PO KEUNG: May I supplement.

25 For Lantau buses, there is this retarder function,  
26

1           it is supplementary to deceleration. When we travel on  
2           hilly roads we use this device to help us go downhill.  
3           There are two segments of braking. The first one is  
4           deceleration. When we feel that the brake disc is  
5           secured and the bus can come to a halt steadily, well,  
6           this function has already been installed on buses.

7   MR LAI SIU CHUNG: Let me supplement, that for Lantau buses  
8           they may be single-deck bus, so the device may be  
9           different. We have a retarder, they have different  
10          device, so it is near the steering wheel, if they turn  
11          on that device, then there will be some air being  
12          released with that function, the speed of the bus will  
13          be reduced.

14   CHAIRMAN: Mr Lam, is there anything more you wish to say?

15   MR LAM PO KEUNG: I think that's it, thank you.

16   CHAIRMAN: Very well. Ms Wong, if that's not inconvenient  
17          we will take a morning break now.

18               How are we with making progress this morning?

19   MS MAGGIE WONG: We are slightly behind. But I'll pick up  
20          the speed after the break.

21   CHAIRMAN: Very well.

22               Gentlemen, we are going to take a break, give you an  
23          opportunity to have a rest, as well as the Committee.

24               Take a break for 20 minutes. Thank you.

25   (11.35 am)

1 (A short break)

2 (11.55 am)

3 CHAIRMAN: Ms Wong.

4 MS MAGGIE WONG: Yes.

5 Gentlemen, I'm going to refer to the next topic,  
6 resting facilities.

7 In your submissions, this issue has been raised.  
8 Based on the documents provided to us, to the Committee,  
9 this issue appears to have been raised as early as 2010.  
10 But if I may refer to you the submission relating to the  
11 public transport strategy study, dated 9 February 2015,  
12 submitted by your union, that's page 289-76 to  
13 page 289-80.

14 CHAIRMAN: Of which bundle?

15 MS MAGGIE WONG: In the TU bundle.

16 The English is at page 289-200. It highlights two  
17 problems, since we are on this page. It highlights two  
18 problems, first is the illegal parking at bus terminus  
19 at paragraph 3. That's page 289-79 in Chinese, and  
20 English at 289-203.

21 And then the second problem you raised in this  
22 paragraph is paragraph 7, insufficient resting  
23 facilities. Chinese is at 289-79; English at 289-203.

24 Do you see that?

25 And if I may also take you to a letter of request

26

1 from the Committee dated 23 July 2018 at pages 289-331  
2 to 335. It is only in Chinese. It sets out the request  
3 for information on insufficient facilities.

4 And if you look at page 289-333, paragraphs 28 to  
5 29, as to the Transport Department's response on the  
6 toilet and resting facilities.

7 And in your reply, I believe you made a general  
8 remark that throughout these years the resting  
9 facilities are not sufficient, and you provided a number  
10 of documents since 2010.

11 The first is the notification dated 21 June 2010,  
12 Chinese at page 289-90. The second to the third  
13 paragraphs.

14 The English is at pages 289-221 to 289-222.

15 That's the second to third paragraphs, about the  
16 union collecting 139 bus stations, and about  
17 56.5 per cent of the bus stops did not have toilet  
18 facilities. And on average, if the bus captain has to  
19 go to the washroom it would take about four minutes.  
20 And bus captain in fact have to take five minutes. And  
21 some even to have take up to 10 minutes or above before  
22 they could attend the washroom.

23 CHAIRMAN: These are observations made in 2010?

24 MS MAGGIE WONG: Yes, these are observations made in 2010.

25 And my question is this. Since you have raised this  
26

1 submission, by providing this documentation to the  
2 committee, is this problem still a serious problem, that  
3 your union considers it has to attend to? Or has the  
4 condition improved?

5 MR CHEUNG TSZ KEI: Chairman, there has been some  
6 improvement, but it is not completely resolved. For  
7 a lot of termini, there are still no toilets or rest  
8 kiosks available, especially for those in public housing  
9 estates. We ask for a rest kiosk and staff toilet.  
10 That is very difficult. We have been talking to the  
11 Transport Department, saying that for existing termini  
12 they have to be retrofitted, and for new ones, it must  
13 come with toilets and rest kiosk.

14 With these facilities, then they are considered to  
15 be a complete set of facilities at a terminus. Without  
16 such facilities, we would not be able to provide the  
17 services we are supposed to.

18 There has been some improvement in that previously  
19 at Lok Wah there was an industrial action, because the  
20 Housing Authority removed a rest kiosk from us. We need  
21 sufficient rest for us to provide good services. As  
22 a result of that incident, we staged an industrial  
23 action. There has been some improvement since.  
24 However, a lot of district councillors opposed the  
25 installation of a septic tank or rest kiosk. They made  
26

1 things difficult for us. So this problem is not  
2 completely resolved.

3 CHAIRMAN: The Lok Wah kiosk, is that a KMB kiosk?

4 MR CHEUNG TSZ KEI: That's right, KMB.

5 MR LAI SIU CHUNG: Chairman, at that time, I was responsible  
6 for dealing with the Lok Wah incident. We have received  
7 complaints from members that the Housing Authority  
8 require the rest kiosk to be removed completely, and  
9 they said that it will not be reprovisioned.

10 So we staged an industrial action by closing down  
11 the terminus for half an hour. We have spoken to  
12 district councillors and the Housing Authority. We have  
13 been subject to opposition from community members.

14 We are not provided with sufficient facilities. As  
15 a result, staff members will have to sit down, rest, eat  
16 wherever they can find a space.

17 We know that some problems can be resolved, however  
18 I know that from Citybus and New World First Bus this  
19 problem is rather serious.

20 Well, when it comes to Chi Fu Fa Yuen, I will defer  
21 to the representative from Citybus.

22 MR LAU SIN TAT: For Citybus and New World First Bus at Chi  
23 Fu Fa Yuen we have been raising this issue for over  
24 a decade. We ask for rest kiosk or toilet facilities.  
25 However, owners of Chi Fu Fa Yuen opposed that.

26

1           As a result, we still don't have toilets or rest  
2           kiosks for our staff.

3           MR CHEUNG TSZ KEI: Chairman, let's hear from Long Win Bus.

4           MR CHAN KWONG NUNG: For E34B, from Yuen Long, in 2013,  
5           there was the bus route rationalisation. Originally,  
6           the route plied between Tin Shui Wai and Yuen Long.  
7           After rationalisation it start from Yuen Long to go to  
8           the airport.

9           After the rationalisation, we found that there were  
10          no rest facilities provided. We were told by the  
11          company that there were opposition from the community.  
12          Over a number of years, our staff members were subject  
13          to appalling conditions, say, for example, they couldn't  
14          find space to eat. In 2016, a female staff member ate  
15          some steamed rice rolls on board a bus. Some people  
16          took a picture of her, posted the pictures on Facebook,  
17          and there was bullying.

18          The female staff member was subject to tremendous  
19          pressure. She was crying her eyes out when relating the  
20          incident to us.

21          Our staff members don't have anywhere to go when  
22          they have their meals, and they had to walk a long  
23          distance to go to the toilets.

24          In the evenings or at night, they would have to walk  
25          past a very dark path, so there are security concerns

26

1 for female staff. And in August 2018, a rest kiosk was  
2 eventually provided. It was after a very long time that  
3 it was provided.

4 We have been asking for provision of rest facilities  
5 when there is a new bus stop or new terminus so that  
6 services can be provided with good quality.

7 CHAIRMAN: When were the rest kiosk provided? When?

8 MR CHAN KWONG NUNG: For E43B Yuen Long to airport, it  
9 was August 2017. In 2013 this route started. So for  
10 about four years, bus captains did not have toilets or  
11 rest facilities to use.

12 CHAIRMAN: Thank you.

13 MS MAGGIE WONG: In your submission relating to New Lantau  
14 Bus, dated 3 January 2018, that's at page 289-140 in  
15 Chinese, and English at page 289-317, paragraph 3 refers  
16 to the facility in the Sun Yuen Long Centre, Tin Shui  
17 Wai Estate. Has the condition still improved or is it  
18 still the same. In paragraph 3(i).

19 MR LAM PO KEUNG: I think several weeks ago a rest kiosk was  
20 provided, but I have not visited that place, so I cannot  
21 confirm.

22 MS MAGGIE WONG: Can you provide the information to us  
23 later?

24 MR LAM PO KEUNG: Yes. I can.

25 CHAIRMAN: Mr Lam, you are the representative of New Lantau  
26

1           Bus company, are you not? Has this been provided?

2           MR LAM PO KEUNG: In what respect are you referring to?

3           MS MAGGIE WONG: The resting facilities.

4           MR LAM PO KEUNG: For the rest kiosk of Tin Tsz Estate,  
5           I will have to go to confirm, because this is Yuen Long  
6           area, not the catchment of Lantau. So I did not have  
7           a chance to go to have a visit to look.

8           CHAIRMAN: Thank you.

9           MS MAGGIE WONG: In your submission you also quoted another  
10           example at page 226-25, TU bundle 1A, internal page 24.  
11           The Chinese is at page 171.

12           The location is at Quarry Bay, Yau Man Street, and  
13           in that paragraph you stated that there were nearly  
14           10 years' effort, but a small resting place is still not  
15           provided.

16           So has the condition improved?

17           MR LAM TIN FU: Sorry, it is not a submission from our trade  
18           union.

19           MS MAGGIE WONG: That's the staff rights of KMB Association  
20           document.

21           MR LAM TIN FU: No, not from branches.

22           MS MAGGIE WONG: Then I won't ask you about this.

23           So apart from the Lok Wah Estate in Kwun Tong, and  
24           the example that you provided, can you give us some  
25           other locations that you consider are places where bus  
26

1 captains are unable to find a suitable resting place?

2 MR LAI SIU CHUNG: For example, for KMB, they have been  
3 putting in some facilities. However, because of space  
4 constraint or management issues at some locations, some  
5 of the facilities have to be improved. Say, for  
6 example, there is a single rest kiosk and there are some  
7 double kiosks. For double kiosks, the space available  
8 may be bigger, but still not enough. I know that the  
9 KMB is striving to improve the facilities. I think  
10 that, well, for about 70 per cent of the termini, there  
11 are toilets with septic tank and rest facilities.  
12 However, there are still 30 per cent of termini that are  
13 awaiting for provision of these facilities, subject to  
14 negotiations of various parties.

15 We have been given undertakings that these  
16 facilities would be provided, but there are oppositions  
17 from the community. Say, for example, for Chuk Yuen  
18 Estate, we have been fighting for over 10 years for  
19 a rest kiosk to be provided.

20 MR CHAN KWONG NUNG: I'm from Long Win Bus, let me  
21 supplement.

22 For E33P in 2016, the route runs around the clock,  
23 there are about 60 trips. The terminus is at Siu Hong  
24 station south. There are no rest facilities nor  
25 toilets.

26

1           Originally, this route was already in operation, in  
2           2016 it became a full day route. Colleagues had to eat  
3           at the bus terminus, and to rest, at special space,  
4           location, we had to rest, but there was no rest kiosk.

5           After repeated efforts, to have one, the result was  
6           the local community and the Transport Department had not  
7           approved it. So it has been close to two years we have  
8           been asking for a kiosk, but still, to no avail.

9           We have not any notification as to when that can be  
10          done.

11       MS MAGGIE WONG: And about this E33P, was this request made  
12          in writing, about the rest kiosk?

13       MR CHAN KWONG NUNG: Yes.

14       MS MAGGIE WONG: When was that?

15       MR CHAN KWONG NUNG: The trade union at our meeting with the  
16          company raised that in 2015. The company has been  
17          telling us that it is making applications with the  
18          relevant authorities, and then in 2016 the district  
19          council approved that the route should be a whole-day  
20          route to serve the residents of Tuen Mun, and we were  
21          saying that without a rest kiosk how can we improve the  
22          quality of service? Our views were relayed to the  
23          district council and the Transport Department. Even  
24          today, we have not heard anything from the parties.

25       MS MAGGIE WONG: Could you provide us with the documentation  
26

1 as to the written request?

2 MR CHAN KWONG NUNG: I can do so later. Today I have not  
3 got the document with me.

4 CHAIRMAN: Thank you, please provide it when you can  
5 obtain it.

6 MS MAGGIE WONG: Is it the case that up until now, the  
7 location is still not provided with any toilet or rest  
8 facilities?

9 CHAIRMAN: I think that is the evidence.

10 MS MAGGIE WONG: Yes.

11 Can you give us some photographic evidence about the  
12 location, if possible?

13 MR CHAN KWONG NUNG: I can do so later.

14 MS MAGGIE WONG: Thank you.

15 May I go to the next topic, illegal parking.

16 CHAIRMAN: Before you do that, Mr Lai, can you help the  
17 Committee in this respect.

18 KMB operates split shifts, do they not?

19 MR LAI SIU CHUNG: Chairman, yes. Split shifting. We have  
20 three shifts. Morning, and also evening, and special  
21 and L shift, and there is also an overnight shift.  
22 Morning, evening, special, L, and overnight, there are  
23 different shifts.

24 CHAIRMAN: Split shifts have been operated by KMB for many  
25 years, have they not?

26

1 MR LAI SIU CHUNG: It has always been the case. Since 1933.

2 KMB has this arrangement. Right from the beginning.

3 Back then there might not be overnight shift or special  
4 vehicles, but then in the past few decades it has always  
5 been the case.

6 CHAIRMAN: The revised guidelines that were promulgated as  
7 to working hours, meal breaks, rests, and so on, on  
8 23 February 2018, made changes to the existing system,  
9 did it not?

10 MR LAI SIU CHUNG: The system in place has always been the  
11 same.

12 Regarding the new arrangements starting from  
13 February of 2018, I don't quite get you. Are you  
14 talking about a change in the system? In the past two  
15 or three or four decades, it is just the same: morning,  
16 evening shift, special shift, and overnight shift.

17 There have been no changes.

18 For L vehicles, yes, it was introduced in the last  
19 five years.

20 So it was introduced in the middle, so that there is  
21 no need for the bus captain to drive the vehicle back to  
22 the depot or to collect it from the depot.

23 MR LAM TIN FU: I think the Transport Department announced  
24 new guidelines, and I don't think there is any change in  
25 the shifting arrangement of KMB since.

26

1 CHAIRMAN: Ms Wong, could you put up the new guidelines?

2 What I have in mind is the provision to be implemented  
3 over a period of time that if a 14-hour duty day was  
4 permitted, three hours of continuous break is required.

5 MS MAGGIE WONG: Yes. That's at CTB-2 bundle, page 2.

6 MR LAI SIU CHUNG: Now I get it, Chairman.

7 The guidelines were published in February 2018.

8 Transport Department allowed time for bus companies to  
9 implement the guidelines, in the second quarter of 2019.

10 Now I got you, Chairman.

11 Let me add. For the special duties and L shift,  
12 they are for captains to take their meals.

13 CHAIRMAN: The provision that I would like your help on is  
14 the requirement that is to be implemented of providing  
15 a rest break of no less than three consecutive hours for  
16 a special shift.

17 MR LAI SIU CHUNG: For no less than three consecutive hours  
18 in a special shift duty has always been in place. This  
19 is most basic, and the company has followed strictly  
20 this guideline from the Transport Department. For  
21 a special shift duty there should be a rest break of no  
22 less than three consecutive hours. This has always been  
23 practised.

24 CHAIRMAN: Is that a KMB policy? Or is it a Transport  
25 Department requirement?

26

1 MR LAI SIU CHUNG: This is a policy unique to KMB, may even  
2 be to Long Win Bus. But not for Citybus and New World  
3 Bus.

4 This has been in place for a number of times to  
5 allow bus captains to take meals and for the morning  
6 peak, so there will be a break together with meal, there  
7 will be a rest of three hours, and then the bus captain  
8 will continue with the second part of the shift.

9 This is arrangement for special shift duty and has  
10 always been in place, the case in the past few years.

11 CHAIRMAN: Ms Wong, may we see guideline 4, I think it is,  
12 at the bottom of the page?

13 MS MAGGIE WONG: Yes.

14 CHAIRMAN: Is there not a definition of what a special shift  
15 is? That it only can provide for morning and afternoon  
16 peaks? That's it. Guideline (1)(b).

17 Do you see guideline (1)(b), Mr Lai?

18 MR LAI SIU CHUNG: Yes.

19 CHAIRMAN: The provision that permits for a 14-hour working  
20 day during which you can drive 10 hours is restricted to  
21 demand created by morning and evening peaks; the morning  
22 rush hour and the afternoon/evening rush hour. Is that  
23 a new provision? A new restriction? Or not?

24 MR LAI SIU CHUNG: Chairman, in the revised edition in  
25 October 2010, guideline (b) said that it should be no  
26

1 more than 14 hours.

2 And in 2018, there was a revision, may exceed  
3 12 hours, but maximum duty hours should not exceed  
4 14 hours, and there should be a rest break of no less  
5 than three consecutive hours, that was a revision.

6 But we have a fleet of over 3,000-odd vehicles, so  
7 there aren't too many vehicles that require more than  
8 12 hours of operation -- maybe 10 per cent of them. But  
9 this duty of 14 hours, for two to three decades this has  
10 been the case, and bus captains have got used to it.  
11 The rest time in between may not necessarily be three.  
12 It can be four, or five hours.

13 So is that what you want to ask, about this 14-hour  
14 shift?

15 CHAIRMAN: No. What I want to ask you is about the places  
16 at which these bus drivers working 14 hours' duties come  
17 off their buses in order to start their not less than  
18 three consecutive hours' break. And I would like you to  
19 tell us about the facilities that are provided for  
20 resting at those places.

21 MR LAI SIU CHUNG: That depends on whether there are  
22 sufficient facilities at the bus terminus or bus stop.  
23 Bus captains may choose routes that are close to homes  
24 so they can rest at home, but some may not be the case.  
25 For instance, when it comes to the Kowloon Bay bus  
26

1 terminus, the bus driver may live in Tuen Mun so he has  
2 to find a rest kiosk or a rest on the bus or go back to  
3 the depot. He will have to choose the location.

4 Whether the facilities are sufficient, well, maybe  
5 around 70 per cent of them. But most bus captains would  
6 choose routes near their homes and they might have been  
7 driving that route for many years, they have got used to  
8 it, they might choose not to be deployed away from these  
9 routes, whether there are sufficient rest facilities,  
10 not always the case, the rest kiosk may be very noisy,  
11 they may go to 7/11, McDonald's to take a rest. We have  
12 received such cases from time to time.

13 Whether there are sufficient rest facilities I will  
14 say half/half. It depends on whether the bus captain  
15 can make arrangements for him to take a rest.

16 But because he has chosen to travel on this route,  
17 that will depend on whether he can find the right  
18 location to ensure he has sufficient time to rest.

19 CHAIRMAN: Can you suggest a place that the Committee could  
20 go to this week to look at facilities that are  
21 inadequate for bus drivers who are taking their not less  
22 than three hours consecutive break?

23 MR LAI SIU CHUNG: For example, Chairman, in the past there  
24 was no rest kiosks in a bus depot, but there may be  
25 a sleeping area, and there may be a rest kiosk at bus  
26

1 stops or bus terminus, or they may rest at home which is  
2 close by. There should be 1,500 such duties.

3 Now, you are talking about special shift duties, so  
4 this is the rough figure I can tell you. For special  
5 shift duties there are two sections, and for L vehicles  
6 there are also a morning and evening L vehicles. L  
7 vehicles serve the same purpose, that is to stand in for  
8 bus captains who have gone for meal breaks.

9 MR CHAN KWONG NUNG: I would like to supplement, for E33P  
10 from Siu Hong station south there are no rest facilities  
11 at that terminus.

12 For this route, there is one bus captain who needs  
13 to take their rest there. If you would like to visit  
14 this terminus, we can make arrangements to go together.

15 CHAIRMAN: Just a moment, Mr Lai, wait for the translation.

16 So you suggest that we might go there to examine the  
17 fact that there are no rest facilities?

18 MR CHAN KWONG NUNG: That's right.

19 CHAIRMAN: Is this a place where drivers taking the not less  
20 than three consecutive hours break in a special shift  
21 come off their buses?

22 MR CHAN KWONG NUNG: That's right.

23 CHAIRMAN: Thank you.

24 Now, Mr Lai, back to you.

25 Can you give us an example? Where should we go?  
26

1 Just try and concentrate on the question. Where should  
2 we go to look at inadequate facilities for bus drivers  
3 driving 14 hours of duty, taking a not less than  
4 three-hour break?

5 MR LAI SIU CHUNG: It is a depot, well, it is in Mei Foo,  
6 some bus captains would take their rests there,  
7 sometimes they would have to sleep inside the bus or  
8 just find any location suitable for them. I would  
9 supplement you with further details later.

10 CHAIRMAN: Yes, just give us three or four places that we  
11 can go and examine. And what we are looking for, if it  
12 exists, is to find that there are 10 bus captains having  
13 this three-hour break, and there are only three seats.  
14 Do you understand what we are looking for?

15 MR CHAN KWONG NUNG: Let me supplement.

16 For Long Win Bus, A43, from Luen Wo Hui, Fan Ling,  
17 there are rest facilities provided there. However, in  
18 that facility only three bus captains will have space to  
19 rest there. During a split shift, constantly, there are  
20 at least six bus captains during their break time to use  
21 the rest facilities. As a result, there is  
22 insufficiency.

23 Chairman --

24 CHAIRMAN: Repeat the place if you would?

25 MR CHAN KWONG NUNG: Long Win Bus, A43, the bus terminus at  
26

1 Luen Wo Hui, Fan Ling.

2 MR LAM TIN FU: Chairman, we are reminded that there are  
3 representatives of bus companies here. So I would like  
4 that, Chairman, you can see the actual situation at the  
5 location we have suggested.

6 MR LAI SIU CHUNG: May I suggest you some other locations?

7 One is the Tsing Yi terminus, one at Tsing Yi  
8 station, one at Kwun Tong pier, where there are no  
9 facilities provided to us, rest facilities. These are  
10 four locations.

11 Our trade union has been talking to the company,  
12 asking for more facilities.

13 CHAIRMAN: Thank you.

14 Ms Wong.

15 MS MAGGIE WONG: About this split shift, you mentioned  
16 earlier about KMB always have this special shift  
17 arrangement. Can you tell since when you have this  
18 special shift?

19 The reason why I'm asking is, I would like to show  
20 you a table in the miscellaneous bundle at pages 897 to  
21 898. Comparison table.

22 If you look at this table, the guidelines have been  
23 revised four times: 2004, 2007, 2010 and the last time  
24 is 2018, February.

25 And this special shift arrangement, if you look over  
26

1 the page, at page 898, was only introduced  
2 in February 2018. If you see the last column, "Special  
3 Shift Duty", and the footnote stated that it was  
4 arranged specifically to cater for service demand in  
5 morning and evening peaks. And this new special shift  
6 duty was only introduced in February 2018.

7 But your earlier answer seems to suggest that this  
8 split shift has been introduced a while back ago. Is  
9 that correct?

10 CHAIRMAN: By that you mean the guideline in relation to it?

11 MS MAGGIE WONG: The guideline in relation to it.

12 MR LAI SIU CHUNG: I would like to correct what you have  
13 said.

14 It is not the case that there are special shift  
15 duties in February, February, 2018. That has been there  
16 for a long time. The measures introduced in  
17 February 2018 are to be implemented in the second  
18 quarter of 2019. It takes time to make preparations and  
19 to make arrangements for the three hours of rest. But  
20 such arrangement has been in place for a very long time.

21 MR CHEUNG TSZ KEI: Chairman, may I supplement.

22 14-hour duty. Under the guidelines of the Transport  
23 Department, well, it is always there. Since the traffic  
24 accident, some people say that the 14-hour duty creates  
25 fatigue, causing the accident. However, there is no  
26

1 distinction between 14-hour duty and special duty.

2 Because for KMB, this has been taken up by special duty,  
3 and there is one-hour meal break and three-hour rest, so  
4 there are altogether four hours.

5 However, the 14-hour duty is not put in one single  
6 shift.

7 So in relation to the latest revision done in 2018,  
8 the 14-hour shift has been redefined as a special shift  
9 instead of one single shift.

10 The special shift has been in place for a very long  
11 time, mainly used for the morning peak and the evening  
12 peak. It usually takes place between 6 am and 6 pm.

13 For the special shift to cover the two peak periods,  
14 then it would be 14 hours, because at 6 o'clock when the  
15 bus captain starts the service, the bus captain will  
16 have to drive the bus back to the depot. So altogether,  
17 it will take about 14 hours to finish all the duties.

18 According to bus captains who are engaged in this  
19 shift, they said that although it is as long as  
20 14 hours, it doesn't cause any fatigue, because it is  
21 easier than other shifts. That's what bus captains of  
22 special shift said.

23 There are two of us here who are engaged in special  
24 shift. One is from Long Win Bus. May we hear from him?

25 CHAIRMAN: We can in a moment, but please answer this  
26

1 question first of all.

2 Following the accident on 22 September of 2017, the  
3 Transport Department initiated a review of the working  
4 guidelines, or the guidelines for working times, did it  
5 not?

6 MR CHEUNG TSZ KEI: That's right.

7 CHAIRMAN: Some trade unions suggested that the working  
8 limit for duty hours be limited to 12 hours; correct?

9 MR CHEUNG TSZ KEI: Duty hours, yes, that is the case.

10 CHAIRMAN: What was your union's representation to the  
11 Transport Department on that issue?

12 MR CHEUNG TSZ KEI: We keep an open mind. We want  
13 improvement on the duty hours of our members, because it  
14 will affect their performance. Safety is very important  
15 to us.

16 MR LAM TIN FU: Chairman, when we met Frank Chan, the  
17 Secretary for Transport And Housing, we made it very  
18 clear that 14 hours is the maximum duty hours. It  
19 doesn't mean that all bus captains should have 14-hour  
20 duties.

21 The second point is that for the 14-hour duty to be  
22 reduced to 12 hours, it will have a huge impact on  
23 income. If there is a reduction by two hours per day,  
24 it will translate to a reduction of salary by \$5,000  
25 a month. If 14 hours is to be reduced to 12 hours that  
26

1 means bus companies will have to give those reduced  
2 hours to some other staff members with shorter duty  
3 hours. Say there are 2,000 staff members with KMB, that  
4 means they will need another 2,000 staff members, and  
5 they will have to employ another 400 people, which  
6 cannot be done within a short time.

7 If they can't employ additional staff, that means  
8 the reduced hours will go to staff members with shorter  
9 duty hours.

10 We think that rest time, rest facilities are more  
11 important. This will provide a better working  
12 environment for bus captains.

13 So we should not just look at a 14-hour shift. This  
14 should not be demonised. We need flexibility. Bus  
15 captains will have to apply to work special shift. They  
16 are not just being assigned these duties.

17 You have to take all factors into account. If you  
18 single out the figure and look at it in vacuum, I think  
19 this will be a departure of the operation of bus  
20 companies.

21 CHAIRMAN: The meeting that you spoke about with the  
22 Secretary for Transport And Housing, was that on  
23 17 October of last year?

24 MR LAM TIN FU: Yes. It is mentioned by the Transport  
25 Department as well.

26

1 CHAIRMAN: Yes, you provided us with what you describe as  
2 a notice issued by the union, in which your position is  
3 stated. Perhaps we could have that on the screen.

4 In English it is at 289-274. Perhaps you could have  
5 the Chinese brought up on the screen.

6 MR LAM TIN FU: It is wrong, it should be in the latest  
7 submission, towards the very end.

8 MS MAGGIE WONG: 289- 337. Is that the submission dated  
9 26 July 2018?

10 And if you go to page 289-336, the second-last  
11 paragraph. In English it's at 289-337-2.

12 CHAIRMAN: What I have asked to be put on the screen is the  
13 notice that is dated 17 October of 2017 issued by the  
14 union in respect of this meeting.

15 Just the notice. That's all I have asked for.

16 MR LAM TIN FU: 289-129 and 289-119.

17 CHAIRMAN: The document, so that we are looking at the same  
18 thing, begins:

19 "On October 17, 2017, the union led five bus  
20 branches to meet with Chan Fan ..."

21 Is that the document?

22 MR LAM TIN FU: Yes.

23 CHAIRMAN: The first bullet point is in these terms, is it  
24 not:

25 "It is not advisable to lower the upper limit of the  
26

1 working hours in the work guidelines within a short  
2 period without considering the specific situations.  
3 Instead, the problem should be addressed by adopting  
4 transitional or interim measures ..."

5 MR LAM TIN FU: Well, you may say so.

6 Because Frank Chan, the Secretary -- right.

7 CHAIRMAN: What I'm trying to find out is this. Was this  
8 the union's position? Is this what you advanced?

9 MR LAM TIN FU: Yes.

10 CHAIRMAN: So whereas there might have been unions saying  
11 12 hours of duty should be the new limit, you were not  
12 supporting that position. You are supporting  
13 a continuation of 14 hours of duty.

14 MR LAM TIN FU: You may say so.

15 CHAIRMAN: But as you say said, that was to be accompanied  
16 by better rest facilities and other measures. Was that  
17 your position?

18 MR LAM TIN FU: Yes, and rest time in between.

19 CHAIRMAN: And the other matter that you articulated is at  
20 the bottom of the English translation, bullet point in  
21 these terms:

22 "If planning to reduce working hours, they should  
23 avoid significantly lowering the income level of  
24 frontline employees ..."

25 MR LAM TIN FU: Yes. As I said, if the duty hours are to be  
26

1 cut from 14 to 12, that may mean around \$5,000 drop in  
2 monthly salary.

3 CHAIRMAN: Was this position that you took in 2017 as to  
4 changes in the guidelines for maximum duty hours the  
5 same position that you had taken in 2015 when the  
6 Transport Department asked trade unions about a possible  
7 change of the guidelines?

8 MR LAM TIN FU: Yes.

9 CHAIRMAN: Were you aware that there was the same, if you  
10 like, division between the trade unions in 2015 on this  
11 issue -- some advocating 12 hours maximum duty, and the  
12 position that you took, 14 hours continuing?

13 MR LAM TIN FU: We were aware of that only in 2017/18.

14 Previously we rarely heard of such views.

15 CHAIRMAN: Just help me at least generally. When you met  
16 with the Transport Department or the Secretary for  
17 Transport And Housing, were there occasions when all of  
18 the various unions met in one session? Or were you  
19 always in different groups when you met with the  
20 Transport Department or the Secretary?

21 MR LAM TIN FU: We met them in batches. We never met with  
22 them together.

23 CHAIRMAN: Do you know of any reason why that was the case?

24 MR LAM TIN FU: Because we have irregular meetings, we have  
25 been having irregular meetings with the Transport  
26

1 Department all along. This is our approach. And to  
2 reflect problems faced by captains of franchised buses,  
3 our general union is the one with trade unions from all  
4 five bus companies. And for some trade unions, they  
5 have been hostile and confrontational with our general  
6 union, so there is no room for cooperation with them.

7 And thirdly or fourthly, when discussing problems  
8 faced by employees of franchised buses, we have  
9 different views and positions. So we meet with  
10 officials separately, and whenever we meet with  
11 officials of Transport Department, we always consult our  
12 office bearers, and we also consult members on what to  
13 talk about.

14 And we have employees working in five different bus  
15 companies, so we believe we can grasp the situation of  
16 employees better.

17 Our general union has never criticised other trade  
18 unions in public, and we don't want this to continue to  
19 happen with the Transport Department.

20 CHAIRMAN: Thank you.

21 Ms Wong.

22 MS MAGGIE WONG: Can I take you to an Apple Daily document,  
23 which shows the date as to when this matter was  
24 canvassed. That is at page 260 of TU-1B. Chinese at  
25 260-257; English at page 260-258-2.

1           If you look at the highlighted part at the bottom,  
2           bold and underlined, it made reference to the Transport  
3           Department's current guidelines. But right before that  
4           bold paragraph it states that:

5           "Since 2013, the [Federation of Bus Industry Trade  
6           Union] has been requesting the Transport Department to  
7           revise the 'guidelines' for reducing the working hours  
8           and improving the meal break. However, the Transport  
9           Department replied that all bus companies had indicated  
10          that revision of the 'guidelines' would affect the  
11          existing roster system, and they would also need to  
12          employ extra more bus captains, leading to an increase  
13          in the long-term operating expenses. A consensus could  
14          not be reached."

15          And at the bottom, the Transport Department  
16          indicated that:

17          "... it was the Motor Transport Workers General  
18          Union ... a sub-union of HKFTU ... claimed the  
19          'possibility of reducing the bus captains income' as the  
20          ground for refusing the reduction of working hours."

21          And:

22          "The Department has quoted and used the reasoning  
23          from MTWGU as an excuse, but has been avoiding the issue  
24          of the low basic salary of bus captains who have to  
25          incessantly work overtime for earning extra income. The  
26

1 Department considers that the bus captains' salary is  
2 a matter for discussion between the bus company and  
3 staff, and to be adjusted by the market."

4 So it appears that the report quoted your union as  
5 the one that lead to the non-reduction of the guidelines  
6 to 12 hours.

7 CHAIRMAN: I'm not sure that is an accurate way of putting  
8 it, because the article says that all the franchised bus  
9 operators were against it as well.

10 MS MAGGIE WONG: Yes.

11 CHAIRMAN: But at all events, this simply confirms what you  
12 have told us, that this was your position, was it not?

13 MS MAGGIE WONG: Can you confirm that's the position  
14 recorded in the Apple Daily, that's your union's  
15 position, that it is accurately reported?

16 MR LAM TIN FU: First, Apple Daily, I think is biased in  
17 reporting. Secondly, our general union submitted  
18 proposals to the TD in a package. You cannot single out  
19 one or two points so. What is reported here is not  
20 fair.

21 And thirdly, in devising the guidelines the TD has  
22 consulted us and met with us and the final position is  
23 to balance different parties. It will not simply listen  
24 to the views of the general union. So it is inaccurate  
25 to say that our proposal has been fully accepted by the  
26

1 department.

2 CHAIRMAN: Thank you.

3 MS MAGGIE WONG: Thank you. For completeness, there is  
4 another article by Oriental Daily --

5 CHAIRMAN: I think we have had the position articulated by  
6 the representatives. We don't need to go to newspapers.

7 MS MAGGIE WONG: Yes, and if I may go to your submission to  
8 the Committee dated 26 July 2018, at page 289-337-2 in  
9 English; and 289-336 in Chinese, of the TU bundle.

10 CHAIRMAN: What topic are we going to now?

11 MS MAGGIE WONG: I'm just confirming one point is that in  
12 your submission, you stated that the Transport  
13 Department had not consulted union in launching the  
14 revised guidelines between the meetings on 6 and  
15 17 October and before the announcement of the revised  
16 guideline on 23 February 2018. So it was --

17 CHAIRMAN: I think the point can be put like this, very  
18 simply. They talked to you, on 6, and 17 October 2017,  
19 but they didn't talk to you again until the result was  
20 announced on 23 February 2018, when the new guidelines  
21 were announced. That's your position, is it not?

22 MR LAM TIN FU: The paper is very clear. On 6 and  
23 17 October we met with them. We expressed our views on  
24 the revised guidelines, and then they were announced on  
25 23 February 2018. There was no communication with us in

26

1           between. And that's set out in the paper.

2           MS MAGGIE WONG: Mr Chairman, I see the time.

3           CHAIRMAN: Gentlemen, I know you were asked to attend this  
4           morning, but obviously we have overrun. Are you able to  
5           come back this afternoon to help us for a little while  
6           before we move on to other trade unions?

7           MR LAI SIU CHUNG: Chairman, there is an event that I have  
8           promised to attend. I would have to find someone else  
9           to replace me in that event. That's my position.  
10          I don't know about the others.

11          MR LAM TIN FU: Yes, I can. Thank you.

12          MR CHEUNG TSZ KEI: Yes.

13          CHAIRMAN: You are able to attend as well.

14                 Are you happy to deal with it in that way, Mr Lai?  
15          perhaps not happy, are you prepared to do it that way?

16          MR LAI SIU CHUNG: Chairman, well, we have a lot of duties  
17          as members of trade union. There is an event. It is a  
18          junk trip with over 50 people attending. I occupy  
19          a leadership position in the union. I can stay a bit  
20          longer, and I will try to answer your questions as far  
21          as possible.

22          CHAIRMAN: We don't want to hold you up from a junk trip.

23                 But what we are going to do then, would you prefer  
24          it if we continue for a little while now, Mr Lai?

25          MR LAI SIU CHUNG: Yes. If there is an actual point that  
26

1           you can get at without beating about the bush, that  
2           would be good. I will be able to get straight to the  
3           point for another 10 or 15 minutes.

4   CHAIRMAN: As long as beating around the bush stops on both  
5           sides then perhaps we will proceed quicker. Yes?

6           Ms Wong, let's proceed.

7   MS MAGGIE WONG: Yes. Can I refer you to a document  
8           submitted by the Transport Department on 20 July 2018.

9   CHAIRMAN: What is the document?

10   MS MAGGIE WONG: It is a document in reply to the  
11           Committee's further question dated --

12   CHAIRMAN: What does it deal with?

13   MS MAGGIE WONG: It deals with the practice note of the  
14           training of bus captains.

15   CHAIRMAN: Thank you.

16   MS MAGGIE WONG: If I may take you to page TD-1 page 427.  
17           That's the first page.

18           And the part concerning training of bus captain is  
19           at page 435. In the second box it states that:

20           "The Transport Department has recently issued  
21           a practice note to FB operators in respect of the  
22           training ..."

23           And it mentions a practice note.

24           So my question is, has your --

25   CHAIRMAN: Since it is in English, perhaps you ought to read  
26

1           it out so there can be a translation at least.

2       MS MAGGIE WONG:   Yes:

3           "The TD has recently issued a practice note to FB  
4           operators in respect of the training for bus captains to  
5           align the training arrangements of different FB  
6           operators and to lay down a common framework of the  
7           training system for their bus captains for phased  
8           implementation from October 2018.  Although no similar  
9           document was issued on monitoring of bus captains'  
10          driving behaviour ..."

11       CHAIRMAN:  I think that's another matter, is it not?

12       MS MAGGIE WONG:  Yes, that's another matter.

13                 And my question is this.

14                 Was this practice note ever issued to your union for  
15          comment?

16       CHAIRMAN:  Never mind for comment.  Have you been given  
17          a copy of the practice note?

18       MR LAI SIU CHUNG:  You mean the training guideline?  I don't  
19          think we have received anything.  At least in relation  
20          to KMB, I have not received anything new guidelines.

21       MR CHEUNG TSZ KEI:  Not for the five branches.

22       CHAIRMAN:  Were you consulted as to changes in the way in  
23          which training would be delivered to bus captains, how  
24          it was going to be monitored, and the other matters that  
25          relate to that?  Were you consulted?

26

1 MR LAI SIU CHUNG: Sorry, I see that it says a 2018 October.

2 But it is now July. Is there a typo? It says that the  
3 implementation time is October.

4 So that means it has not been issued yet?

5 CHAIRMAN: No, I think the practice note has been issued,  
6 past tense; the implementation of the practice note lies  
7 ahead, future tense. October.

8 And the question is: have you been consulted about  
9 a revision of training, what is to be training? The  
10 modules? How it is to be monitored? How it is to be  
11 regulated? Has anyone come and asked you for your  
12 views?

13 MR LAU SIN TAT: For Citybus, yes, there has been  
14 consultation.

15 CHAIRMAN: Perhaps you could give us details of that?

16 MR LAU SIN TAT: They told us about the method of training,  
17 that is bus captains, after training will have to drive  
18 the route once by himself. Without training, without  
19 anything similar, the captain should not drive this  
20 route.

21 MR LAI SIU CHUNG: From KMB I would like to add.

22 Previously, there was a practice where supervisor will  
23 accompany the bus captain. However, there has been some  
24 change. If it is Cross-Harbour, there will be three  
25 people watching the instructor. For other routes, six  
26

1 people will be on board the bus watching.

2 CHAIRMAN: Mr Lau, can I ask you to clarify this. You say

3 that you were consulted. And you said "they told us".

4 Who is "they"? "They told us about the changes".

5 MR LAU SIN TAT: Management of the company.

6 CHAIRMAN: That's from Citybus?

7 MR LAU SIN TAT: Citybus, yes.

8 CHAIRMAN: But were you consulted by the Transport

9 Department?

10 MR LAU SIN TAT: No.

11 CHAIRMAN: Yes, Mr Cheung.

12 MR CHEUNG TSZ KEI: No. So we don't know whether these

13 measures are from the Transport Department. However,

14 after the traffic accident, a few of the bus companies

15 have introduced some revisions. But we don't know

16 whether these revisions actually came from the Transport

17 Department, because we were not clearly told.

18 CHAIRMAN: When you say "the traffic accident", are you

19 referring to the 10 February 2018 Tai Po Road accident?

20 MR CHEUNG TSZ KEI: That's right.

21 CHAIRMAN: Yes, Ms Wong.

22 MS MAGGIE WONG: If I may move on to another topic, relating

23 to the speed display unit.

24 We have heard evidence in this Committee that

25 franchised bus operators are concerned that speed

26

1 display units would create conflicts and arguments  
2 between bus captain and passengers, and impose  
3 additional pressure on bus captain, in turn affecting  
4 safety bus driving.

5 We would like to know whether that view was shared  
6 by your union?

7 MR LAU SIN TAT: Yes, we share this view.

8 MR LAM TIN FU: We have not discussed about this point. We  
9 think, however, that bus captains of franchised bus  
10 operators will take into account the limitations and  
11 restrictions of each route to drive their -- it is  
12 a possibility that there will be disputes and conflicts.

13 MR LAI SIU CHUNG: I would like to add that when it comes to  
14 speed displayed on a minibus, that will just be  
15 conflicts between about a dozen passengers, but if it is  
16 installed on a bus, there will be over 100 passengers.  
17 The bus would not be able to be driven properly as  
18 a result. And I do think that experienced bus captains  
19 will know how to handle the situation.

20 MR CHEUNG TSZ KEI: Let me supplement, that on board of  
21 buses there are some alerts, alerting device, if it  
22 reaches 70kph it would sound, and for some buses the  
23 speed is limited to 70kph. So whether it is a straight  
24 road or just a flat stretch of road we would not drive  
25 above 70kph.

26

1           As to whether installation of a speed display,  
2           whether it will cause incidents, conflicts, when there  
3           is a slight exceedance, we can't tell what will happen.

4   CHAIRMAN: Alerts at 70 kilometres an hour, are not much use  
5           in a 50-kilometre-an-hour speed limit, are they?

6   MR CHEUNG TSZ KEI: Well, for our buses there is a GPS  
7           monitoring whether you are speeding at different  
8           sections. So most bus captains would not speed,  
9           otherwise they would be reprimanded at the office.

10           Is it worthwhile to devote the resources on this  
11           device? We have doubts. Would it be better spent on  
12           other areas? We think so.

13   CHAIRMAN: Thank you for your views.

14           I think we are going to have to take the break now.

15           If you are able to join us, do, Mr Lai, if not,  
16           thank you for your attendance.

17           Gentlemen, may I ask you to come back at 2.30 and we  
18           will resume our hearing then. Thank you.

19   (1.13 pm)

20                   (The luncheon adjournment)

21   (2.31 pm)

22   CHAIRMAN: Good afternoon.

23           Yes, Ms Wong.

24   MS MAGGIE WONG: Good afternoon. The next topic is about  
25           illegal parking.

26

1           We have heard evidence that there has been some  
2           illegal parking at the bus termini, or bus terminus,  
3           which affect the driving of the bus back to the bus  
4           terminus, and as a result it caused problems, or safety  
5           issues arising from illegal parking.

6           In relation to your union, do you find illegal  
7           parking an issue that has to be raised with the police  
8           and the Transport Department?

9       MR CHEUNG TSZ KEI: Yes, we did. For many times we have  
10          reflected to the Transport Department that at the bus  
11          terminus some outside cars are stopping, obstructing the  
12          boarding and alighting of passengers on buses.

13          And safety is a concern.

14          Up to now, the Transport Department has not come up  
15          with any solution to address the problem, and our union  
16          has made a number of suggestions to the Transport  
17          Department.

18          Number 1, within the bus terminus there should be  
19          double yellow markings on the road; number 2, within the  
20          bus terminus, there should be installation of CCTVs, to  
21          capture images of illegal parking; 3, at bus terminus  
22          all the yellow boxes, should be marked, so that buses  
23          can go in and out freely. This is all for the public  
24          interest.

25          And we have made reference to Singapore, which has  
26

1           adopted similar practices. But in Hong Kong the  
2           Transport Department has said that the UK does not have  
3           any such practice, so they will not consider it here in  
4           Hong Kong.

5           Thank you, Chairman.

6       CHAIRMAN: This suggestion in relation to Singapore, is this  
7           related to bus stops that are in the highway, where --

8       MR CHEUNG TSZ KEI: Chairman, yes. Bus stops at highways.  
9           And there is usually a yellow line, and as long as the  
10          buses give the lights, the vehicles behind will stop  
11          immediately so that the buses can go out of the bus  
12          stops immediately, but in Hong Kong there is no such  
13          arrangement. Even if the bus gives the light, the  
14          vehicles behind will only accelerate to get past the  
15          buses. So it is made buses difficult to get out of the  
16          bus stops, and very often accidents occur as a result  
17          causing even further congestion on the roads.

18          There are places where the problem is serious, at  
19          Queen Elizabeth Hospital, Princess Margaret Hospital,  
20          Mayfair Garden, Yen Chow Street, Un Chau Street, Austin  
21          Road, Reclamation Street, Star Ferry, Tin Shing Road  
22          South, Chatham Road South, Mody Road, and Mok Cheong  
23          Street.

24          These are places where there is serious illegal  
25          parking. And also Hennessy Road, King's Road.

1 CHAIRMAN: Are you describing illegal parking in bus stops  
2 or and/or in the approaches to bus stops?

3 MR CHEUNG TSZ KEI: Within the bus stop area. Very often  
4 vehicles are occupying the bus stops and these are also  
5 stopping behind and in front of the bus stop area, and  
6 there is only space left for just one bus to park or go  
7 into that. So with that kind of limited space it is  
8 difficult for the bus captains to go into the bus stop  
9 itself. So there can only be double parking. And  
10 passengers' safety is at stake.

11 CHAIRMAN: How do you suggest this be enforced, that is to  
12 say to prevent people from feeling free to park in bus  
13 stops and in the immediate approach to a bus stop?

14 MR CHEUNG TSZ KEI: Chairman, in accordance with overseas  
15 practices, say, for example, in the US, if you just park  
16 near bus stops the penalty is particularly heavy, the  
17 fine is particularly heavy. But in Hong Kong the fine  
18 is particularly light and the law enforcement has been  
19 particularly lax, and there are no double yellow  
20 markings on the road near the bus stops, and the drivers  
21 feel that they can be allowed to park at the approaches  
22 of the bus stops. I think installation of CCTVs will  
23 serve as a deterrent. This can be of reference to us.

24 Thank you, Chairman.

25 MS MAGGIE WONG: Have you made some footage in relation to  
26

1           some of the illegal parking problem?

2           MR CHEUNG TSZ KEI: Yes. Our footage has been submitted to  
3           the Secretariat. Let's take a look then.

4           MS MAGGIE WONG: Now, we are playing footage at the moment.  
5           Can you tell us, first of all, can we pause a little  
6           bit -- can you tell us first of all where is this, or  
7           where the location is this?

8           MR CHEUNG TSZ KEI: It is northern Lantau near Yung Tung  
9           Estate.

10          MS MAGGIE WONG: So we can now see there are buses in the  
11          opposite lane?

12          MR CHEUNG TSZ KEI: There are double yellow markings, no  
13          police officer to manage the situation at all.

14          CHAIRMAN: When was this video taken?

15          MR LAM PO KEUNG: That was taken afternoon yesterday. To  
16          the left is 37M and 37H, and to the right is another bus  
17          stop and taxi stand. And the buffer area is very  
18          limited. And as a result, the vehicles cannot get into  
19          the Ying Tung Estate car park, and there is another  
20          footage showing clearly how the buses cannot stop  
21          there --

22                 Now, this bus stops here. It cannot get into the  
23          round about. To the right of the bus is a car park.  
24          And you can see the private cars at the right, they are  
25          preparing to go into the car parks but they cannot get  
26

1 in, and they have to get -- the bus coming in the  
2 opposite direction is actually going in the reverse  
3 direction, beyond the refuge island, the safe island  
4 there, so it is actually driving in the opposite lane.  
5 This problem is serious.

6 Now, if the artificial island is going to be  
7 completed in the future, then more congestion will be  
8 caused in the vicinity of this area.

9 MS MAGGIE WONG: Is this the same location as we have seen  
10 earlier, in the earlier footage, or is this a different  
11 location?

12 MR LAM PO KEUNG: The same location. I can also show you  
13 a few photos as well.

14 CHAIRMAN: Please do.

15 MR LAM PO KEUNG: That's from the Google map, the photo  
16 taken from the Google map.

17 MS MAGGIE WONG: And this photo shown on the left side is  
18 the bus stop, is that a bus stop?

19 MR LAM PO KEUNG: Correct.

20 MS MAGGIE WONG: Yes.

21 CHAIRMAN: If we go back to the previous photograph? That  
22 one. Is the grey vehicle on the left-hand side parked  
23 in a bus stop or immediately outside a bus stop? We can  
24 see it is in a bus stop.

25 MR CHEUNG TSZ KEI: Correct. The lorry opposite it, it is  
26

1           also within the bus stop area.

2           MS MAGGIE WONG: And these photographs were taken yesterday  
3           as well?

4           MR LAM PO KEUNG: This is from Google.

5           MS MAGGIE WONG: This came from Google.

6                   Those two footages, did you take them yourself or  
7           who took them?

8           MR LAM PO KEUNG: Yes, myself. I took it yesterday.

9           MS MAGGIE WONG: Inside the bus?

10          MR LAM PO KEUNG: Well, one was taken while I was in  
11          a private car, the other was taken while I was on the  
12          ground.

13          CHAIRMAN: I think we can see that from the movement of the  
14          camera.

15          MR CHEUNG TSZ KEI: Chairman, what I want to say is that in  
16          Hong Kong, well, this situation is rampant, it is seen  
17          everywhere in Hong Kong, and it is because the law  
18          enforcers have not been strictly enforcing the law.

19          MR LAM PO KEUNG: Can I supplement. Because for this  
20          particular location, at Ying Tung Estate, outside of it  
21          there would be reclamation, and before that is done, the  
22          roads have been opened up and built, and the Ying Tung  
23          Estate car park has insufficient car parking spaces. As  
24          a result, the private cars are lining up outside the car  
25          park and causing congestion, and you can see also behind  
26

1           this photo there is a lorry unloading the goods.  
2           Because they can't get into the car park, they are  
3           unloading the goods outside the car park on the roads.

4       MR CHEUNG TSZ KEI: Chairman, may I add here. For any  
5           obstruction of the bus stop for whatever reason is  
6           unreasonable and illegal.

7       CHAIRMAN: Do you have any views about the use of  
8           forward-looking cameras that are deployed on such bus  
9           stops in order to capture illegal parking of this kind?

10      MR CHEUNG TSZ KEI: Feasible. But the question is when that  
11           is being done, will the employer's side hand over the  
12           information to the police?

13           Number 2, and for the law breakers, if they don't  
14           think the information will be given over to the police,  
15           they will continue breaking the law.

16           But then, if there is the, say, a CCTV capturing the  
17           footage installed on the bus, then that would serve as  
18           a deterrent.

19           Thank you, Chairman.

20      CHAIRMAN: Can I ask a supplementary question. If in order  
21           to mark the time of such an event, it was necessary for  
22           a bus captain to press a button, activate something that  
23           marks this event, do you have any view about bus  
24           captains doing that?

25      MR CHEUNG TSZ KEI: It is feasible.

26

1 CHAIRMAN: It is feasible, clearly, but do you have any  
2 objection to it, or would you support it?

3 MR CHEUNG TSZ KEI: Yes, I support it.

4 CHAIRMAN: Thank you.

5 MS MAGGIE WONG: Related to this issue is priority bus lane.

6 Your submission raised the point that the drivers are  
7 getting frustrated and irritated as a result of people  
8 making their job more difficult, and one of them is  
9 illegal parking.

10 And others, like passenger abuse, all add up to  
11 safety issues.

12 There are certain suggestions, in Singapore, to have  
13 priority bus lane; would you support that idea?

14 MR CHEUNG TSZ KEI: Chairman, I support -- I agree with

15 that. But over the past 10 years or so, regarding the  
16 government's attitude towards bus lanes, the government  
17 is trying to cut the bus lanes. Instead of having more  
18 bus lanes, we are given some very difficult paths to  
19 manoeuvre, for example Texaco Road flyover, at 6 in the  
20 morning, that is between midnight to 6 in the morning,  
21 franchised buses are not allowed to use that flyover.

22 On the other hand, heavy vehicles are allowed to use the  
23 flyover, and also non-franchised buses, whereas for  
24 franchised buses they are disallowed from using the  
25 flyover, such that passengers would need to walk under  
26

1 the flyover to cross the road.

2 It shows that the Transport Department is playing  
3 favouritism, and I reckon it could be because of noise  
4 complaints, and too many heavy vehicles are using the  
5 flyover, so they take the right away from franchised  
6 buses so that we need to use the road under the flyover.

7 Thank you.

8 CHAIRMAN: Is this flyover a bus priority lane?

9 MR CHEUNG TSZ KEI: Chairman, this flyover isn't a bus lane:  
10 it used to be the case that any vehicle could use the  
11 flyover, instead of having buses go through the road  
12 under the flyover with traffic lights, but the Transport  
13 Department is adopting this attitude now. Instead of  
14 sticking to the old way, they are asking buses to use  
15 the inconvenient road under the flyover instead. Heavy  
16 vehicles and non-franchised buses are allowed to use the  
17 flyover, so they are putting the cart before the horse.  
18 I don't understand their intention.

19 CHAIRMAN: But concentrating on bus priority lanes, the  
20 existing ones, what is your perception of the Transport  
21 Department or the government attitude to their  
22 development?

23 MR CHEUNG TSZ KEI: Chairman, I absolutely support the idea.  
24 I agree that there should be bus lanes for buses for  
25 public interest so that more people would opt for public  
26

1 transport instead of driving their own cars, because we  
2 have too many private cars causing traffic congestion.

3 If we have smooth lanes for buses, there won't be  
4 traffic congestion and then more passengers would opt  
5 for public transport. So I hope that the Transport  
6 Department would face the issue squarely, and that is  
7 about public interest instead of stifling the room for  
8 operation of franchised bus companies.

9 Thank you.

10 CHAIRMAN: The question is specific. What is your view of  
11 how government approaches bus lanes at the moment? Do  
12 they stifle them? Is that what you are saying?

13 MR CHEUNG TSZ KEI: I don't see new bus lanes being added  
14 for buses, and I'm not just talking about bus lanes --  
15 and perhaps let me digress a bit. At the moment, for  
16 bus termini at housing estates they are poorly designed  
17 so that it is difficult for buses to park, and it is  
18 really difficult for buses to survive.

19 CHAIRMAN: Yes, Ms Wong.

20 MS MAGGIE WONG: The last topic is salary.

21 We have heard evidence from Citybus operators that  
22 they have merged bonus into salary or reclassified it  
23 into basic salaries with effect from 1 March 2018, and  
24 I would like to explore with you on this system.

25 The downside from that recommendation appears to be  
26

1           that there is currently no system of rewards. Can your  
2           union confirm that this is the case, as of to date,  
3           after the reclassification to basic salaries  
4           in March 2018?

5       CHAIRMAN: By a no system of reward, you mean for safe  
6           driving?

7       MS MAGGIE WONG: For safe driving.

8       MR CHEUNG TSZ KEI: Chairman, regarding the pay, since 1999  
9           the management has been cutting our pay and our  
10          benefits, and in 2004 there was a substantial cut.  
11          Between 1999 and 2004, a three-tier system was  
12          introduced, and recently, we requested the management to  
13          restructure the system of salaries and benefits because  
14          otherwise it would deal a great blow on the staff moral.

15               For new recruits, just earlier, they earn merely  
16               12,000 or less than 12,000. Later on, we requested the  
17               company to include the safety award, the service award,  
18               to the basic salary, such that the total pay would be  
19               \$15,360, but the pay is still far lower than the average  
20               median wage in the transportation sector.

21               But regarding the workload of bus captains and their  
22               responsibilities, everything falls on their shoulders.  
23               We have a bus full of passengers and their lives are in  
24               the hands of the bus captains, and such low pay would  
25               directly affect recruitment and work attitude of bus  
26

1           captains.

2           Very often drivers would come in and hone their  
3           skills, get a driving licence for heavy vehicles and  
4           then they will move on to driving other heavy vehicles  
5           in the sector. And this undermines service quality as  
6           a whole, because we have new recruits all the time.

7           And the pay is too low, so that they don't even care  
8           about the job. And this is the attitude they have at  
9           work. Very easily traffic accidents happen.

10          Coming back to the daily wages before 1998, the  
11          majority of bus captains care about the job a lot,  
12          because they knew that they wouldn't get another job  
13          with this pay outside, and they had increments, and with  
14          more years of service they would tend to stay in the  
15          position instead of moving to another company. They had  
16          a sense of belonging.

17          But since 1999, because of the change in the salary  
18          system, their pays were substantially lowered, so the  
19          quality of the bus captains deteriorated, which in turn  
20          affected public interest.

21          Thank you.

22          CHAIRMAN: You say that the union requested a restructuring  
23          of the salary structure. When did you request that in  
24          relation to the fact that it was changed beginning on  
25          1 March 2018?

26

1 MR CHEUNG TSZ KEI: Chairman, we made this request. We have  
2 been making this request for 10 years, but our request  
3 was never acceded to, because of the circumstances. At  
4 the time in Hong Kong we experienced SARS, and the  
5 financial tsunami. The management, therefore, had not  
6 been willing to make any improvement until the recent  
7 two or three years. The management finally agreed to  
8 make progressive improvements, but they came in dribs  
9 and drabs.

10 Many employees, therefore, remain unhappy, and some  
11 industrial actions also took place. We understand that.

12 So we urge the management once again that they  
13 should substantially improve pay and benefits, and it  
14 should be on a par with the level in 1998 for daily paid  
15 workers.

16 This year in the upcoming meeting for pay hikes, the  
17 management already verbally promised us that there would  
18 be a substantial increase in terms of benefits.

19 However, for salary, it is still below the median wage.  
20 New recruits earn \$15,360. At the moment the management  
21 only agreed to increase the pay by \$1,000. That means  
22 \$16,360 -- still far below the earnings of drivers of  
23 heavy vehicles.

24 And yet we are not just driving heavy vehicles. We  
25 are driving buses with passengers. Our pay should not  
26

1           be lower than other drivers, whereas the reality is our  
2           pay is extremely low and it is very unreasonable.

3           That is why we are still striving for it. We doing  
4           our best to strive for more rights for the sector.

5       MR CHAN KWONG NUNG: Let me also supplement. Long Win.

6           In January 2018, Long Win union conducted a survey  
7           regarding the number of recruits leaving and joining in  
8           2017. 100 recruits joined in 2017 whereas for employees  
9           leaving in 2017, there were 120.

10          So according to our survey, among the 120,  
11          60 per cent of employees left because of low pay.

12       CHAIRMAN: Mr Cheung, can I just ask you this.

13          In respect of the merger of the safety bonus and the  
14          other allowance into the basic salary beginning on  
15          1 March 2018, was there any event that you attribute to  
16          that change by the bus operators?

17       MR CHEUNG TSZ KEI: Chairman, I can tell you, categorically,  
18          that it has nothing to do with any event that happened,  
19          or any major accident triggering this pay rise.

20          Well, last year in May we had a round of  
21          negotiations on pay rise. It was in May 2017, and it  
22          was then confirmed that there would be a pay hike this  
23          year, meaning there would be an adjustment, and that the  
24          safety award would be added to the basic salary. The  
25          management, however, did not want to discuss it at that  
26

1 meeting regarding pay hike.

2 They would only confirm with us about this new  
3 arrangement after the pay hike meeting had ended. And  
4 in fact, after that meeting, we did pursue it with the  
5 management, and the management said they would do it as  
6 soon as possible.

7 As I understand, in December the board of directors  
8 already approved an increase of the basic salary and  
9 addition of the safety award, and we have been striving  
10 for that for a long time.

11 That's also part of our plan, and that is we should  
12 increase the salary or the remuneration package. For  
13 the safety bonus and the service bonus, that has to be  
14 included in the basic salary, totalling \$15,366, and  
15 that is the first step. And the second step, we would  
16 strive for double pay calculated based on the basic  
17 salary.

18 So this is what we want to achieve.

19 Well, they have already acceded to our request for  
20 double pay, and that is calculated on the basis of this  
21 amount, 15,366. If we don't add in the safety and  
22 service bonus, we can only get 11,000. So in other  
23 words, we have an additional \$3,000 for the double pay.  
24 So that's our second step.

25 That has nothing to do with any event or any traffic  
26

1 accident.

2 Thank you, Chairman.

3 CHAIRMAN: So to summarise, this was agreed in May 2017, and  
4 as you understand it, the board of directors, as you put  
5 it, approved this change in December 2017?

6 MR CHEUNG TSZ KEI: Correct, Chairman.

7 In December 2017 the approval was granted.

8 However, the company didn't tell us then, it didn't  
9 give us a Christmas present. It was still putting this  
10 on hold yet, and inappropriately they just floated the  
11 idea after the accident, so there was a misunderstanding  
12 in the community that it is just because of this major  
13 traffic accident that this adjustment was made.

14 CHAIRMAN: Which board of directors approved this change?

15 MR CHEUNG TSZ KEI: To my understanding, Chairman, it is the  
16 KMB board of directors, Mr Leung Nai Pang who actually  
17 approved it himself.

18 CHAIRMAN: No other company?

19 MR CHEUNG TSZ KEI: Chairman, I don't know.

20 CHAIRMAN: Mr Lam, New Lantao Bus company didn't effect this  
21 change, did it, of merging safety bonuses into basic  
22 salary?

23 MR LAM PO KEUNG: No.

24 CHAIRMAN: Instead, as we understand from their evidence,  
25 there was a bonus payment, a singular payment; do we  
26

1 understand that correctly?

2 MR LAM PO KEUNG: Yes, correct, there was. Our basic salary  
3 was \$6,400. And every day there was a daily allowance.  
4 \$230. So if you drive for nine hours a day every month  
5 and you also work on the Saturdays and Sundays, so we  
6 will end up with \$16,200.

7 So compared to KMB, New World First Bus and Long Win  
8 we are lower, so our pay at the New Lantao Bus is on the  
9 low side compared to the others.

10 CHAIRMAN: Mr Cheung, can I ask you this, which I think is  
11 what Ms Wong was asking you: what is your view of the  
12 fact that this restructuring has resulted in there being  
13 no incentive payment for bus drivers to drive safely?

14 MR CHEUNG TSZ KEI: Chairman, I don't agree.

15 A reasonable salary will serve as an incentive to  
16 the colleagues, they can have a stronger sense of  
17 belonging, and they will not just use their job as  
18 a springboard to find another better job. If they do  
19 have that kind of mindset then their working attitude  
20 would be very different.

21 CHAIRMAN: Thank you.

22 Yes, Ms Wong.

23 MS MAGGIE WONG: If one were to recommend a system of  
24 monitoring drivers' behaviour, similar to perhaps  
25 Singapore's system, which has a system of red, amber and  
26

1 green, based on the driver's driving pattern, and --

2 CHAIRMAN: I think that's one bus company in Singapore.

3 MS MAGGIE WONG: That's one bus company. May we pull up the  
4 article of Tower Transit. The article is the Straits  
5 Times, 29 June 2017.

6 CHAIRMAN: Do we have a reference for this?

7 MS MAGGIE WONG: We don't have a reference. Because it is  
8 not in our bundle.

9 We can see on page 2 of the article, the fourth  
10 paragraph, it made reference to the driver:

11 "... who previously worked at SBS Transit, improved  
12 his score to 72. By December he managed to hit 20  
13 points, qualifying him for a bonus of \$130 for that  
14 month."

15 And there would be a monitoring system like  
16 a GreenRoad telematics system. And there will be  
17 a reward based on the driving behaviour.

18 And if one were to recommend such a system, would  
19 your union consider that would make sense, or would you  
20 support it, or worth pursuing it?

21 MR LAI SIU CHUNG: Chairman, I would like to add. I am  
22 a representative of the KMB branch. I would like to  
23 tell the chairman, for our company, the company has  
24 never attached importance to the pay and welfare  
25 benefits, and only until after the IRC has been  
26

1 established that the company considered giving us more.

2 I've worked in this company for 18 years. I do not  
3 feel happy working here.

4 There is no employee-friendly policies. They have  
5 not put in the proper remuneration package to boost our  
6 sense of belonging. I've worked in this company for  
7 18 years, I have been signing contract after contract.

8 How come that the trade unions have been striving  
9 for the safety and the service bonus to be incorporated  
10 into the basic salary? I have insisted on this. I've  
11 told the management many times, for the safety and  
12 service bonus.

13 For new drivers, if they don't have enough  
14 experience, their bonus may be deducted. The entire  
15 safety bonus of 1,200 can be deducted altogether, so  
16 there have been many problems with this safety bonus,  
17 but then the company has been telling us that the safety  
18 and service bonus are in huge amounts. So, before the  
19 accident happened, they would like to accede to the  
20 trade union's request, and that safety and service bonus  
21 be merged with the basic salary.

22 But, it doesn't mean that after the merging of the  
23 amounts our safety will still be upheld. Because we are  
24 a professional bus captain. We have to be accountable  
25 for what we do, and the safety bonus and service bonus  
26

1 have been in place for many years, but then the  
2 arrangement has not been fair.

3 And especially to the new drivers, say, in the first  
4 half year to one year, they don't have enough  
5 experience. Their bonus in safety and service will be  
6 cut by the company and their income will not be stable.

7 So the trade union has considered this as a problem  
8 for many years, and we hope that the bonus will not be  
9 deducted. Maybe this month you are lucky, you are not  
10 involved in a traffic accident, but then in some other  
11 months you will be involved in a couple of traffic  
12 accidents and your safety bonus will be deducted.

13 MS MAGGIE WONG: Mr Lai, we are not talking about deduction.

14 It is addition. What I'm suggesting here is not about  
15 deduction. It is on top of your basic salary. If you  
16 drive well you would receive an extra bonus. That's the  
17 system. It's not about deduction.

18 MR LAI SIU CHUNG: Well, KMB doesn't have such a system.

19 MS MAGGIE WONG: Not about whether you have the system. If  
20 one were to recommend such a system, would you support  
21 that?

22 MR LAI SIU CHUNG: Chairman, we support any type of reward  
23 system or incentive system. Right now we are talking to  
24 the KMB on another kind of bonus system: there would be  
25 a 20-point increment system. So in other words, if you  
26

1           achieve certain requirements then you will get an  
2           increment, an extra point. And that is beyond the  
3           annual salary increase. The KMB has verbally promised  
4           that there will be a 20-point system, it's calculated  
5           based on the performance, safety performance,  
6           attendance, discipline. If the bus captain does not  
7           achieve the standards then he will not get an extra  
8           point.

9           So that's a kind of bonus system.

10          Of course, if there are other reward systems we  
11          welcome them.

12   MR LAM PO KEUNG: Can I add?

13          An appropriate monitor of drivers' performance would  
14          not be by way of a penalty, we think. I think if a bus  
15          captain falls short of standard we should train him up  
16          more so he can drive safely, and that is more important.

17          If you have a bonus, and the bus captain will try to  
18          strive for it, and say, if he is involved in an  
19          accident, he would get frustrated. For NLB, there is  
20          a safety bonus. Well, if the safety bonus is deducted,  
21          we are talking about several thousand dollars. And that  
22          affects the livelihood of the family of the bus captain.

23          Thank you, Chairman.

24   MS MAGGIE WONG: Chairman, I have completed my questioning.

25   CHAIRMAN: Thank you.

26

1 MS MAGGIE WONG: Thank you.

2 QUESTIONS FROM THE COMMITTEE

3 MEMBER AU YEUNG: Thank you, Chairman. I just have a quick  
4 question regarding the protective shield that we  
5 discussed this morning.

6 I hear from you gentlemen that you are not very much  
7 supporting this idea.

8 I just want to clarify. The reason why you are not  
9 supporting is because the material is not good enough  
10 because of creating reflection or squeaking sound, or  
11 you are against the concept of having a protective  
12 shield?

13 Thank you.

14 MR LAI SIU CHUNG: I am not saying that it is not good, but  
15 that if you have a protective shield, according to bus  
16 captains, when it is installed, well, bus captains say  
17 that they do have an independent driving compartment, so  
18 to speak, but there is something wrong with the  
19 transparent plate of the protective shield, and the  
20 management hasn't addressed the issue. And it is  
21 distracting for bus captains.

22 And there are other also issues stemming from it  
23 which get more serious. We would like them to improve  
24 the plastic plate as soon as possible. As I mentioned  
25 this morning, there is glaring, and then at the tip,

26

1           there is a magnet which gives off some squeaking sound,  
2           and according to the union, although there is  
3           a protective shield in a convex shape, if one is to  
4           attack the bus captain then one can still do so.

5           We have reflected the problems to the management  
6           many times. They just said that they cannot be taken  
7           down. But many drivers would like to have it taken down  
8           because you have safety problems, and it also produces  
9           glare. And because of the curve there would be  
10          a distortion of vision, and not to mention that the  
11          shield gives off some noise.

12          And these are the problems they have not resolved.

13   MEMBER AUYEUNG: But would you support it if management can  
14          come up with a protective shield that would not create  
15          any driving hazards?

16   MR LAI SIU CHUNG: Yes, I would. Previously we submitted  
17          some drawings to them. For example, in Korea they have  
18          an independent door with two tiny windows that could be  
19          opened and closed. We gave them drawings for reference.

20          But I think that for this kind of protective shield  
21          that they have come up with, there are problems.  
22          Perhaps they didn't think that there would be so many  
23          problems, but then they have to address the issues.

24   MEMBER AUYEUNG: Thank you.

25   CHAIRMAN: Mr Lam, at New Lantao Bus do you operate special  
26

1 shifts, 14-hour shifts?

2 MR LAM PO KEUNG: Yes.

3 CHAIRMAN: And are you afforded, or are drivers afforded  
4 a minimum rest period during such a duty of three hours  
5 or more?

6 MR LAM PO KEUNG: Yes.

7 CHAIRMAN: And on the occasions when a driver comes to that  
8 time of the day where he has that break, what are the  
9 facilities like that are provided at the place where the  
10 driver takes his break?

11 MR LAM PO KEUNG: Nothing so far. They would at most take  
12 a break on the bus. They could rest inside the bus.

13 CHAIRMAN: No facilities?

14 MR LAM PO KEUNG: Not for the time being.

15 CHAIRMAN: And where are these places, bus terminus depot,  
16 where are they? How many are there where people take  
17 these breaks?

18 MR LAM PO KEUNG: Usually in the street, shopping malls,  
19 they would take a rest. If it is close to their home  
20 they would go home.

21 CHAIRMAN: What proportion, if you are able to answer this,  
22 of bus captains are in a position to go home when such  
23 a break occurs?

24 MR LAM PO KEUNG: I don't know. A half, I guess. Half of  
25 those who are on this kind of special shift, around  
26

1 half.

2 CHAIRMAN: Do you do these special shifts yourself?

3 MR LAM PO KEUNG: Previously I did. But I would go home.

4 CHAIRMAN: Thank you. You anticipated my other question.

5 Ms Wong, the material that the Transport Department  
6 provided us in the form of a briefing paper to the LegCo  
7 transport panel. Could you give me the reference for  
8 that and could that be put up on the screen?

9 MS MAGGIE WONG: Yes. That would be page TD-1, page 403.

10 CHAIRMAN: Where is the LegCo briefing paper?

11 MS MAGGIE WONG: The briefing paper should be at page 403,  
12 TD-1, page 403.

13 CHAIRMAN: In English -- the briefing paper is in English,  
14 is it not?

15 MS MAGGIE WONG: Yes, it is in English.

16 CHAIRMAN: Thank you.

17 Mr Cheung, this is a paper that was discussed on  
18 25 July in the LegCo council by the Panel on Transport,  
19 and it deals with three matters, really: one is  
20 training, another is seat belts and another is  
21 technological safety advances.

22 And it is the product of a working group which was  
23 constituted by the Transport Department and comprised  
24 the franchised bus operators and three bus  
25 manufacturers, and they were convened in the middle  
26

1 of March, and this is the product of their work.

2 Were your views sought on any of these three  
3 matters?

4 MR CHEUNG TSZ KEI: No. No, Chairman.

5 CHAIRMAN: Have you had a chance to read the document to see  
6 what it is that they propose to do?

7 MR CHEUNG TSZ KEI: Chairman, I haven't read this paper  
8 before. This is the first time I'm reading it.

9 CHAIRMAN: Mr Cheung, given your answer, it seems to me that  
10 perhaps it would only be fair before I ask you any more  
11 questions if I suggested that you ought to read the  
12 document, and then you can give us your considered  
13 responses to some of the questions that I have.

14 What I would suggest is this: we have other trade  
15 union representatives who have been waiting patiently to  
16 give their evidence. May I suggest that we interpose  
17 them, and then at a later stage when you indicate to us  
18 that you are in a position to answer the questions, we  
19 will bring you back. Is that a proposal that meets with  
20 your agreement?

21 MR CHEUNG TSZ KEI: No problem.

22 CHAIRMAN: Very well, in which case, may I ask you to vacate  
23 your seats. We will take a short break whilst there is  
24 a swap over of personnel, and then we will deal with the  
25 federation.

26

1           We will take a short break.

2           (3.25 pm)

3                               (A short break)

4           (3.35 pm)

5           REPRESENTATIVES OF THE FEDERATION OF BUS INDUSTRY TRADE

6           UNIONS: MR HO YUI CHEONG, MR CHUNG CHUNG FAI, MR LAM KAM

7           PIU, MR LAU KAI HIM, MR HUI HON KIT, MR KWOK WAI KWONG

8                       (Evidence given in Cantonese; transcription of the

9                               simultaneous interpretation)

10          CHAIRMAN: Mr Chung and gentlemen, we thank the Federation

11               of Bus Industry Trade Unions for accepting our

12               invitation to give evidence to the Committee, and I'll

13               ask Ms Wong to ask questions of you.

14               Let me just explain this, that if at any stage you,

15               Mr Chung, wish one of your fellow representatives to

16               answer a question, please defer to him and we will hear

17               from him. So it is a matter for you who it is that puts

18               forward your view.

19               Thank you.

20                               EXAMINATION BY MS WONG

21          MS MAGGIE WONG: Thank you, Mr Chung, and gentlemen, for

22               coming. And we have your written submissions.

23               The Committee's primary concern, as set out in the

24               terms of reference, is to make recommendations which go

25               to the issue of safety of franchised buses.

26

1           So my questions will be focused on safety aspects  
2           rather than the wider aspect of employment issues.

3           My first question is to go through the background  
4           with you about your union.

5           Mr Chung, I understand that Federation of Bus  
6           Industry Trade Unions represents three trade union  
7           members; is that correct?

8   MR LAM KAM PIU:   Correct.

9   MS MAGGIE WONG:   That would be Kowloon Motor Bus, New World  
10           First Bus and Citybus.

11   MR LAM KAM PIU:   Correct.

12   MS MAGGIE WONG:   And your union currently has 1,660 members.

13   MR LAM KAM PIU:   Correct.

14   MS MAGGIE WONG:   Are these members all bus drivers?

15   MR LAM KAM PIU:   No.   Some of them are the regulators and  
16           supervisors, mechanics in the depot.   They are working  
17           as frontline staff.

18   CHAIRMAN:   How many are bus captains?

19   MR LAM KAM PIU:   Over 90 per cent.

20   MS MAGGIE WONG:   Mr Chung, your union has submitted two  
21           submissions.   The first one is dated 24 April 2018.   And  
22           that can be found in TU bundle 1A, pages 147 to 226, in  
23           Chinese.   In English, it is at pages 226-1 to  
24           page 226-80.

25           And you have made a second submission in response to

26

1 the letter from the Committee. The supplemental  
2 submission is at TU bundle 1B pages 260-28 to 260-67.

3 And you can see it on the screen. And the English  
4 is at TU1B bundle at pages 260-68 to 103.

5 And Mr Chung, I will just go through the issues  
6 raised in your submission by topic.

7 The first topic is illegal parking.

8 And we can find that issue was raised in your  
9 submission at pages 260-234 to 236.

10 This is annex 2, and it set out e-mail exchanges  
11 that you had about illegal parking problem, which you  
12 have provided to the Committee. And you have addressed  
13 a problem in particular in relation to Nam Cheong Street  
14 and a number of other streets, in your recent  
15 submission.

16 MR LAM TIN FU: Sorry, Ms Wong, are you asking Mr Chung to  
17 make a reply or Mr Lam to make a reply?

18 MS MAGGIE WONG: I apologise. I'm sorry, maybe Mr Chung,  
19 you would assign the person that is most suitable to  
20 answer the questions raised in this area: illegal  
21 parking.

22 MR LAM KAM PIU: Ms Wong, I am the acting president.

23 Mr Chung is my department. And on behalf of the  
24 federation, I'll ask Mr Lau to take the question.

25 MS MAGGIE WONG: Thank you.

26

1           Mr Lau, you provided the Committee with an annex 2,  
2           which sets out the correspondence that you had with the  
3           Transport Department complaining about the illegal  
4           parking problem, and we can see at page 235 that you  
5           have annexed photographs, your union has annexed  
6           photographs showing the extent of the illegal parking.

7           And at the bottom we can see the e-mail showing the  
8           Transport Department received the photo stating that the  
9           colleagues of regional office will follow up.

10          So my question is: has there been follow-up or has  
11          there been improvement on this Nam Cheong Street in  
12          terms of illegal parking.

13       MR LAU KAI HIM: Starting from May 2015 we started  
14          discussing with the TD on the illegal parking at Nam  
15          Cheong Street, and a couple of months ago we received  
16          the final reply from the TD, saying that the situation  
17          has improved, and one more marking for bus stop has been  
18          added to prevent illegal parking on the bus stop area.

19          But it took us a very long time to communicate with  
20          the police.

21          And also because of the illegal parking issue a bus  
22          captain was attacked at this particular location, and  
23          after that, we wrote immediately to the Permanent  
24          Secretary for Housing Mr Lai, and the letter was  
25          included or appended to our supplementary submission,  
26

1 and at the same time we have been chasing up the TD on  
2 the improvement works at this location. But the TD has  
3 been acting slowly, and they really, don't want to deal  
4 with it, it seems to us.

5 MS MAGGIE WONG: Yes, and maybe if we should first look at  
6 your submission on illegal parking, your first  
7 submission in relation to this issue. It is page 176 in  
8 Chinese, and the English is at page 226(30).

9 On this page we can see your suggestions, or rather  
10 your summary of what you have done for this illegal  
11 parking.

12 And we can see in the English version that:

13 "... the federation wrote to the Transport  
14 Department in May 2017 and required arrangements of more  
15 policemen to strengthen the enforcement and other  
16 feasible measures to prevent the bus stop from being  
17 blocked by vehicles illegally parked there. It is  
18 suggested that a 24-hour restricted area to be set up,  
19 the 'bus stop' road sign should be extended and iron  
20 railings should be added to reduce the number of  
21 vehicles illegally parked there and prevent the bus stop  
22 from being hindered ... after several rounds of  
23 [discussions] or communications, the Transport  
24 Department finally agreed to set up iron railings only  
25 on the grounds of the need for loading and unloading  
26

1 goods ... however, because the Transport Department paid  
2 no immediate attention to this problem, a bus captain  
3 was attacked at this bus stop in August 2017, because he  
4 was passing the private vehicles illegally parked there  
5 and was misunderstood as 'skipping the stop'. This  
6 incident was exactly caused by blocking of bus stop by  
7 illegal parking vehicles."

8 And you stated that:

9 "If the Transport Department had taken the  
10 suggestion of the federation seriously and promptly  
11 arranged to set up road signs, this incident could have  
12 been avoided."

13 In your recent submission at page -- or second  
14 submission at pages 260-89 to 90, that's in English, and  
15 the Chinese is at page 260-53.

16 And your further reply stated at paragraph (d) that:

17 "The main reply of the Transport Department is to  
18 refer the matter to the transport officer of the  
19 relevant district for follow up, and to the police to  
20 take appropriate actions. Meanwhile, for certain  
21 districts, such as Nam Cheung Street as mentioned by the  
22 Federation, no only made oral questions, but also  
23 maintained communication ... In addition, concerning  
24 illegal parking, the Federation also expressed its  
25 concern and demanded enforcement at various black spots  
26

1 in the meeting with Hong Kong police."

2 And it is stated there that:

3 " ... the police has in different meetings made  
4 verbal commitments to enhance its enforcement efforts,  
5 and ... the prosecution figures ... has increased [and]  
6 some illegal parking black spots, such as the  
7 Reclamation Street in Mong Kok, King's Road, Yee Wo  
8 Street and Wang Lung Street Tsuen Wan have not seen much  
9 improvement."

10 And you have also annexed a list of black spots to  
11 the police in one of your annexures, showing that there  
12 were a number of locations that you have asked the  
13 police to follow up -- and I believe that's in  
14 annex 14 -- in your letters dated 6 and 27 March 2017.  
15 That's at page 260-462, in Chinese, and page 260-468-1.

16 If we look at the letter, it was addressed to the  
17 Commissioner of Police at page 260-468-2 in English.

18 You have highlighted a number of black spots at  
19 page 260-468-5, for Hong Kong Island, New Territories  
20 and Kowloon.

21 So my question is: has there been any follow-up  
22 after these two letters?

23 MR LAU KAI HIM: After these two letters, in our regular  
24 meetings with the police and the Transport Department,  
25 on every occasion we reflected the problem of illegal  
26

1 parking with them and regarding what we told the  
2 Transport Department, it can be seen in the minutes of  
3 the meeting.

4 As for follow-up action on illegal parking, it  
5 should not be done as a one-off exercise. It should be  
6 sustainable effort. There should not be follow-up  
7 action, just right after we mentioned one black spot.  
8 We will continue to follow up with the Transport  
9 Department on the black spot list and see if there have  
10 been new additions or improvements, but since March 2017  
11 until now, we have not seen a lot of improvements  
12 regarding these black spots. But we have been taking  
13 follow-up action.

14 CHAIRMAN: What do you suggest is the way forward to deal  
15 with the illegal parking that causes problems for  
16 franchised buses?

17 MR LAU KAI HIM: First of all, the police should take  
18 enforcement action. Very often the problem we encounter  
19 is illegal parking and the bus captain would call the  
20 police for handling and very often the police on many  
21 occasions would say that they are unable to handle the  
22 situation because of lack of manpower, and previously,  
23 we did suggest increasing the number of traffic wardens,  
24 as we understand in busy districts such as Yau Tsim Mong  
25 district the number of traffic wardens tend to be on the  
26

1 low side, but the police could engage more traffic  
2 wardens to take enforcement action against illegal  
3 parking, because it is a traffic offence and the most  
4 effective enforcement is to prosecute the offending  
5 drivers, and there should also be signage at bus stops,  
6 because the signage will have binding effect on  
7 offending drivers.

8 And we also requested that there should be double  
9 yellow line. Apart from Nam Cheong Street the problem  
10 is also very serious in Fo Tan, et cetera, and there is  
11 a need to have yellow lines there. At the moment there  
12 is some room for improvement as far as our laws and  
13 regulations are concerned to take enforcement action.

14 CHAIRMAN: There are double yellow lines all over Central,  
15 and it does not stop illegal parking, does it?

16 MR LAU KAI HIM: That's true. Because according to the  
17 police they do not have sufficient manpower to take  
18 enforcement and it is difficult. We are very passive,  
19 we rely on the government to deploy officers to take  
20 enforcement action. But since 2017, what we have seen  
21 is that although the police figures suggest that they  
22 have stepped up enforcement, we don't see a significant  
23 improvement.

24 CHAIRMAN: What about enforcement by the use of CCTV?

25 MR LAU KAI HIM: We agree. We agree that police manpower is  
26

1           limited, and it is difficult to deploy substantial  
2           manpower to tackle just one issue. We agree that  
3           technology can help, and in recent years we understand  
4           that the police has been deploying technology such as  
5           CCTV to take enforcement.

6           We support it because police manpower is limited,  
7           but police officers do give deterrents. I think  
8           deterrent is more important than punishment. If you  
9           have deterrents it will be more effective in stopping  
10          the problem, because drivers may also know that police  
11          officers would not patrol a certain area regularly to  
12          take prosecution, whereas CCTV and other similar  
13          technology could be deployed for enforcement purpose so  
14          that it can serve as deterrent and it would be much more  
15          effective.

16       CHAIRMAN: What about the use of forward looking CCTV  
17          cameras on buses in order to capture the fact of illegal  
18          parking?

19       MR LAU KAI HIM: As we mentioned in the supplementary paper,  
20          for cameras installed on buses, there are different  
21          kinds. For the latest model there are eight cameras  
22          showing bus compartments, as well as outside of the  
23          buses, and the video clips would be used for the  
24          investigation into accidents.

25          Of course if we are to use the video clips for law  
26

1 enforcement purpose, the police has the power to  
2 retrieve the clips. But we should bear in mind the  
3 legal requirements, because there is privacy concern,  
4 and because the bus compartment cameras would capture  
5 what happens inside, so there is a privacy concern that  
6 we need to deal with carefully.

7 But on the whole, we agree it can be used for  
8 enforcement.

9 CHAIRMAN: I'm not asking you about CCTV inside the bus  
10 looking inside. It is forward looking CCTV that  
11 captures the problem the bus driver has as he approaches  
12 a bus stop and vehicles are parked illegally in it.

13 MR LAU KAI HIM: Agree.

14 CHAIRMAN: What, if any, view do you have about bus drivers  
15 assisting in enforcement by for example noting, perhaps  
16 electronically, the time at which they have captured  
17 a particular infringement, so that when the bus returns  
18 to the bus depot, someone can view that CCTV, because  
19 the time has been noted?

20 MR CHUNG CHUNG FAI: I am Chung, and I would like to  
21 supplement.

22 About using bus cameras for law enforcement, after  
23 the bus returns to the depot, well, the company itself  
24 doesn't know. We need to write up a report, telling  
25 about the data and time of the incident, the relevant  
26

1 time period, before somebody would retrieve the card or  
2 trip, but it would take two or three days, because of  
3 documentation. So it may not be very effective.

4 And when a bus approaches a bus stop, it is in  
5 motion, and even if you capture a vehicle, you have no  
6 idea whether that vehicle is in motion or whether it is  
7 stationary. So I do think it is difficult.

8 CHAIRMAN: Do you not think that in Asia's World City we  
9 could come up with a technological device where the bus  
10 captain simply presses a button which then alerts  
11 somebody who views the CCTV to go to a particular time,  
12 and then, of course, it is up to that person to  
13 determine whether or not the camera captures the  
14 stationary vehicle?

15 MR CHUNG CHUNG FAI: Well, I agree. But -- if it is  
16 technically feasible I agree, but I want to add that our  
17 federation is very concerned about illegal parking at  
18 bus stops. Because we have low floor buses introduced  
19 in the past 10 or eight years to serve the  
20 wheelchair-bound passengers, and if there is illegal  
21 parking at bus stops we can't stop at the bus stop to  
22 help passengers in wheelchairs, so there is a safety  
23 hazard, and that is why we are rather concerned about  
24 illegal parking particularly at bus stops. Because at  
25 any moment we can have passengers coming in wheelchairs

26

1           and if we can't reach bus stop there will be hazard.

2           CHAIRMAN: The question is simply this: that if possible, is  
3           it the union's view that bus drivers, bus captains could  
4           be deployed to assist in enforcement to alleviate those  
5           kinds of problems? Pressing a button to capture the  
6           time of the infringement?

7           MR LAU KAI HIM: If this technology is introduced, of course  
8           we will be happy to accept. Because bus captains are  
9           also affected by illegal parking, so if technology  
10          allows us to take enforcement action we will support it.

11          Bus captains, well, under cap 230A, are sufficiently  
12          empowered, that is Public Bus Services Regulations, but  
13          it may have to do with the regulations, the bus  
14          companies' views as well as the Transport Department's  
15          views.

16          So I think this is something that the Transport  
17          Department and the company can consider.

18          As for bus captains, using technology to assist the  
19          police in enforcement actions, of course we welcome  
20          that, because by pressing a button we will be able to  
21          capture the time but it has to do with technology if it  
22          is feasible, and second, whether the franchised bus  
23          companies would agree, and whether it is technically  
24          feasible.

25          CHAIRMAN: Ms Wong.

26

1 MS MAGGIE WONG: I believe this is a matter that has been  
2 raised by the letter from the Democratic Alliance, using  
3 the Singapore's practice.

4 The letter was dated 30 April 2018 in miscellaneous  
5 bundle 2, page 644, and in English at 644-2.

6 If we see the first suggestion about this Singapore  
7 practice of installing cameras next to the driver's seat  
8 since 2008, and all the bus captain needs to do is press  
9 the button, and hand the footage to the police, and the  
10 police will send a ticket to the owner who breached the  
11 regulation with a fine, or extra fine.

12 So this is one of the suggestions made by the  
13 Democratic Alliance using Singapore's practice. Would  
14 you support this idea of enforcing the law in that way?

15 MR LAM KAM PIU: We support it.

16 MS MAGGIE WONG: The second topic I wish to explore with you  
17 is the special shift, the special shift problem. If  
18 I may take you first, to your submission at page 167, in  
19 Chinese, and in English at page 226-21.

20 And you highlighted the new guidelines requires the  
21 special shift, for special shift bus captains, they need  
22 to have a continuous resting period of three hours, and  
23 you stated at page 167 in Chinese, and page 226-20, at  
24 the bottom, that:

25 "... not all bus captains are resident near the  
26

1 working places. Even if there is a resting period of  
2 three hours, they cannot find suitable resting place,  
3 finally resulting in fatigued driving in the long run  
4 working environment, which may definitely affect the  
5 security [I believe that is safety]."

6 And on the next page at page 226-21, the bottom  
7 paragraph, and that's 167 still, at the bottom, you  
8 stated that:

9 "... Kowloon Bus has set up the 'special shift' at  
10 present and no pay is provided for the rest time of the  
11 'special shift'. The bus company uses the so-called  
12 allowance to substitute remuneration, which is extremely  
13 unfair for bus captains of the 'special shift' ... the  
14 Transport Department has not made any stance or given  
15 any comments in this respect ... the Principal Transport  
16 Officer mentioned in a meeting that the Transport  
17 Department did not have the power to supervise the ...  
18 company to set up the 'special shift'."

19 And based on your submissions, I believe your  
20 submission is against this idea of having long working  
21 hours. Throughout your submissions, I believe you have  
22 been advocating reducing the working hours from 14 to  
23 12. Is that the position?

24 MR LAM KAM PIU: Yes, that's our position.

25 MS MAGGIE WONG: Can you tell us why you would advocate this  
26

1 position?

2 MR LAM KAM PIU: Can I ask Mr Lau to answer?

3 MR LAU KAI HIM: First, we have taken reference from

4 practices of work hours in common law jurisdiction, in

5 EU, US, Singapore, and South Korea, there would not be

6 any special shifts lasting 14 hours. We have given the

7 relevant information for reference, to the IRC, and it

8 is annex 9 in the supplementary paper, and annex 10 also

9 contains the relevant information.

10 Now, 14 hours are very long. And in between the bus

11 captains get only 10 hours for rest, and you can

12 imagine. Now, the bus captain gets off work, has to go,

13 travel back home, and has to take a shower, et cetera,

14 so we wonder whether the bus captain can sleep for six

15 to seven hours. So it is grossly inadequate.

16 Bus captains need to have great concentration, and

17 bus captains have to look after the passengers, road

18 conditions, et cetera. Compared to driving an ordinary

19 car, it is much more demanding.

20 So 10 hours in rest time is not enough.

21 If you look at common law areas, and also

22 neighbouring cities of Hong Kong they don't have

23 14 hours. Compared to EU and Singapore, our work hours

24 are long.

25 I'll see if Mr Chung has anything to add.

26

1 MR CHUNG CHUNG FAI: Yes, I would like to say something  
2 more.

3 Why are we against 14 hours, this special shift?  
4 First, so far, for the guidelines promulgated by the TD,  
5 there has never been any special shift, but this time,  
6 in order to accommodate the bus companies' request they  
7 told us that the ordinary trips will be cut to 12 hours,  
8 but then they have added in this special shift lasting  
9 14 hours.

10 And they also emphasised that -- the guidelines also  
11 say categorically there should be no less than three  
12 hours and three consecutive hours in rest breaks should  
13 be provided in the special shift. But then the TD will  
14 not decide whether this three hours will come with pay  
15 or not.

16 Now the guidelines is that there should be no less  
17 than three consecutive hours in rest break. So in an  
18 extreme break they can give you six consecutive hours as  
19 a rest break. So they are paying you just, say, eight  
20 hours pay and 6 hours come without any pay, but then you  
21 are still spending 14 hours in that special shift. So  
22 that's an extreme scenario.

23 In other words, on this guideline, issued by the  
24 Transport Department, this is something that the bus  
25 companies can do, and they are exploiting the frontline  
26

1 workers here.

2 And as our submission said, there is no proper  
3 facility or rest facility for us to take a proper rest.  
4 And the bus captains have to sort of roam around during  
5 the rest break, so how can they replenish during the  
6 rest break?

7 That's number 1.

8 Number 2. We can make some calculation, 14 hours,  
9 the bus captains, if they live further away, they will  
10 need to spend, say, some time in travelling to and from  
11 work, so maybe one hour, two hours, so they maybe spend  
12 2.5 hours in travelling to and from work.

13 So they get up in the morning, they have to brush  
14 their teeth and so on, that takes half an hour, and then  
15 when they get off work to home, and they have to take  
16 a shower and have meals, so they have only five hours  
17 left. Does it mean that they will fall asleep  
18 immediately after they get in bed? Not necessarily. So  
19 you can imagine whether the drivers get enough rest  
20 time.

21 So we are all against this special shift.

22 CHAIRMAN: Ms Wong, have we not received evidence from  
23 Citybus, who do not, but propose to use split shifts in  
24 the future, that they propose paying bus captains at the  
25 hourly rate, not an allowance, not a reduced amount, but

26

1 at the hourly rate?

2 MS MAGGIE WONG: Yes.

3 CHAIRMAN: And secondly, what is the position that KMB have  
4 taken for the future on this issue?

5 MS MAGGIE WONG: KMB's position at the moment, as  
6 I understand it, is given the number of people that  
7 raise objection, I believe their submission stated that  
8 they will explore that -- I'll find the reference --  
9 that they will explore this special shift.

10 CHAIRMAN: The issue is simply this. Are they going to pay  
11 the hourly rate, or are they going to pay this reduced  
12 allowance that they have paid in the past?

13 MS MAGGIE WONG: I will find the reference before I answer  
14 that question.

15 CHAIRMAN: Thank you.

16 MS MAGGIE WONG: Perhaps Mr Chung, if you could assist, we  
17 have heard evidence from another trade union called  
18 Federation of Bus Industry --

19 CHAIRMAN: No, that's the current representatives.

20 MS MAGGIE WONG: I apologise.

21 We have heard evidence from the Motor Transport  
22 Workers General Union, who also comprise five branches  
23 of trade union and bus captains, that they support the  
24 special shift. That's the first point.

25 The second point they said is there are not many  
26

1 people who are taking special shifts.

2 And third is if there is a reduction in special  
3 shifts, you would need to hire a lot more workers, and  
4 it would lead to a reduction of about 5,000-odd income  
5 for bus drivers.

6 So they have voiced out three reasons opposing -- or  
7 rather supporting this 14-hour special shift.

8 What is your reply to those submissions?

9 MR CHUNG CHUNG FAI: My stance is this: we are now exploring  
10 safety of buses. That's most important.

11 I said going by common sense you would know that the  
12 driver in a special shift would not have sufficient time  
13 to rest, and that leads easily to driver fatigue. So  
14 that's number 1.

15 So if we are focusing on safety there should not be  
16 a 14-hour special shift. That's point 1.

17 Number 2, so if we cancel special shift, the income  
18 will go down, that's very much a cycle. Why a reduction  
19 in pay, why do we have to work extra -- a few hours to  
20 get a higher income, and that's mainly because our pay  
21 is too low? So that's why we have to work several extra  
22 hours.

23 If the pay is sort of linked to the median wage of  
24 the government survey, then bus drivers would not like  
25 to work that long.  
26

1           If I remember correctly, the median is already  
2           \$18,000. But for new drivers they are getting \$15,000  
3           only.

4           That's because of low salaries, our colleagues have  
5           a really heavy burden and they need to work extra hours,  
6           and in the same vein, does it mean that they need to  
7           work 16 hours to earn more? It is impossible to gauge  
8           it by working hours.

9           We can't simply work more hours to earn a bigger  
10          pay. Instead we should raise the pay to prevent  
11          fatigued driving.

12          And about breaks, allowance would be given, but this  
13          is not the problem with the bus companies. It is the  
14          Transport Department. The Transport Department has  
15          issued this guideline for bus captains, and the  
16          Transport Department therefore is responsible for  
17          protecting our pay. The department should not pass the  
18          buck onto both of us, otherwise the TD should not have  
19          issued the guidelines in the first place.

20          So I think the Transport Department is being  
21          irresponsible.

22   MS MAGGIE WONG: May I go back to the question that the  
23          Chairman raised earlier as to whether the Kowloon Motor  
24          Bus are going to pay the hourly rate or are they going  
25          to pay this reduced allowance as they have done or paid

26

1 in the past for special shifts? And if I may take you  
2 to the bundle KMB-1, first is page 111.

3 If we look at the old daily rate, for (H), special  
4 shift duty allowance, we can see the rate, before 1  
5 March 2018, the old daily rate is \$21.90, and if we see  
6 the new daily rate, it is still no change.

7 And if we look at table 2 for the monthly rate, at  
8 page 109, we can see at (E), split shift duty allowance,  
9 the old monthly rate is employed before or after, is the  
10 rate of \$1,951.50, and there is still no change from  
11 1 March 2018.

12 May I ask, perhaps you may address this, is the  
13 split shift duty allowance per hour still the same for  
14 KMB after 1 March 2018?

15 MR CHUNG CHUNG FAI: Let me invite the KMB representative to  
16 take your question.

17 MR KWOK WAI KWONG: To answer you, in short, \$21.90, that's  
18 the rate per hour, but the normal rate should be \$116  
19 per hour.

20 CHAIRMAN: So the hourly rate, if that was what was paid,  
21 would be much greater, five times greater?

22 MR KWOK WAI KWONG: Agree.

23 MS MAGGIE WONG: And that is why in your submission at  
24 page 226-21 in English, and Chinese at page 166, of the  
25 TU bundle, 1A, you stated that this special shift  
26

1 allowance is extremely unfair for bus captains of  
2 special shifts; is that the reason?

3 MR CHUNG CHUNG FAI: Agree.

4 MS MAGGIE WONG: And the next topic is the -- related to  
5 this topic on cost, you mentioned in your submission  
6 that the bus companies are cutting costs by cutting  
7 remuneration and employee welfare benefits. If I may  
8 take you to your submission, page 158 in Chinese and  
9 pages 226-10 to 226-11 in English.

10 It refers to the bus company cutting costs by  
11 cutting the remuneration and employee welfare. Can you  
12 explain how, and in what way?

13 MR LAM KAM PIU: Mr Lau can take this question.

14 MR LAU KAI HIM: First of all, regarding remuneration, we  
15 have the unfair situation regarding special shift, and  
16 bus companies would deploy bus captains to work for long  
17 hours to suppress the manpower need, and different  
18 companies would have different welfare systems, for  
19 example they have employees recruited before a certain  
20 time, and after a certain time receiving different  
21 benefits. Although the bus companies would like to  
22 improve employee welfare as a whole, because of the  
23 differential treatment for different employees they have  
24 different welfare benefits.

25 New recruits receive fewer benefits than old  
26

1 employees.

2 MR LAM KAM PIU: I'll let Mr Lau supplement.

3 MR CHUNG CHUNG FAI: For remuneration and welfare benefits  
4 for new recruits they earn 15,000 plus; for old  
5 employees they earn 18,000, whereas for benefits, for  
6 employees under the old system, we have a year end bonus  
7 equivalent to one month of pay; new recruits also have  
8 a year end bonus, but they are required to meet certain  
9 requirements.

10 Medical benefits, for example, for old employees,  
11 they can visit the clinic 20 times for free, whereas for  
12 employees under the new system only 10 visits free.

13 So you see, there is differential treatment. The  
14 bus companies try to suppress costs by cutting  
15 remuneration and benefits because they always talk about  
16 the meagre profit they are making. I don't understand  
17 how meagre they mean. They earn \$100 million or \$200  
18 million of profit. I don't know when they would say it  
19 is profitable.

20 MS MAGGIE WONG: Thank you.

21 The next topic is about lost trip.

22 Your submissions, both your first and your  
23 supplemental submission made a lot of references about  
24 phantom bus, or lost trips, and if I may refer you to  
25 the English submission at page 226-22 in TU-1A bundle,

26

1 in Chinese, page 168.

2 In the second paragraph, it made reference to:

3 "Lost trip is caused by various reasons, such as  
4 shortage of bus captains, traffic jam, vehicle  
5 malfunction, and so on."

6 And then you mentioned that:

7 "... lost trip mainly involves the three problems of  
8 manpower, bus and road. The former two problems should  
9 be faced squarely and dealt with by bus companies.  
10 However, for these problems [you question whether] the  
11 Transport Department ... perform its role as  
12 a supervisor?"

13 And you refer to:

14 " ... the 'Phantom Bus' is a short-distance bus  
15 created based on the grey area of the definition of the  
16 Transport Department, which travels for several stops to  
17 fill up the trips not duly made due to various reasons,  
18 and to lower the rate of the 'lost trip'."

19 Can I ask you something about this lost trip, first  
20 of all. Are there a lot of lost trips in Kowloon Motor  
21 Bus?

22 MR LAU KAI HIM: KMB at the moment, the target of lost trips  
23 has dropped by 3 per cent. I mean, it is at 3 per cent,  
24 because of manpower problem. So it is a long standing  
25 problem, but it doesn't just happen to KMB. For Citybus

26

1 and New World First Bus, for various reasons they also  
2 have the problem of lost trips.

3 So this is not a problem facing KMB alone. Many bus  
4 companies face the same problem.

5 MS MAGGIE WONG: You make reference here to phantom bus.

6 Can you explain more, what is this phantom bus?

7 MR LAU KAI HIM: For each bus route, the FB operator signed  
8 a schedule of service with the TD, which regulates the  
9 journey distance, the fleet number, and the frequency.  
10 Basically bus should go from terminal A to terminal B to  
11 be regarded as a departure. But sometimes there would  
12 be special departure only apply in a few stops. So this  
13 would be used to make up for lost trips for various  
14 reasons.

15 And back then, after Oriental Daily, the newspaper,  
16 revealed the problem it was termed "phantom buses". In  
17 fact, it is making use of the grey area in the TD's  
18 definition.

19 Let me supplement. In terms of deployment of buses,  
20 manpower, bus routes, et cetera, the TD should have full  
21 knowledge in the schedule of service, and according to  
22 the Public Bus Services Regulations, the companies are  
23 required to provide the schedule of service so the  
24 schedules should be in the hands of the TD, and the TD  
25 should have full knowledge of the operation of these  
26

1 companies.

2 MS MAGGIE WONG: The reason I ask this is, in your  
3 supplemental submission you mentioned how this lost trip  
4 would lead to safety issues at page 260-81 in English.

5 In Chinese, it is at page 260-43 to 44.

6 If I may read this paragraph at page 260-81. You  
7 stated that:

8 "'Lost trips' or scheduled travelling time set by  
9 franchised bus companies being too short to accommodate  
10 variations in road conditions always lead to bus  
11 captains have insufficient rest during duty or driving  
12 hours. Different from 30 minutes break or 60 minutes  
13 meal time, bus companies will not issue special  
14 directions for the 12 minutes rest time. Therefore bus  
15 captains may not be able to fully understand the 12  
16 minutes rest time. Since there are lots of variations  
17 on the roads ... travelling time will increase depending  
18 on the situation on the road. But the duty of setting  
19 travelling time rests on the bus companies."

20 And then:

21 "The union has not prepared statistics in terms of  
22 the bus captains' shifts where there is insufficient  
23 travelling time, but the relevant information can be  
24 found in Annex 8."

25 Can I ask you to elaborate as to why this lost trip  
26

1           problem would lead to insufficient rest during duty or  
2           driving hours?

3       CHAIRMAN: If I understand it, what you are saying is  
4           journey times are set at too short to do the actual  
5           journey, and that leads to the bus captain arriving at  
6           the destination with insufficient time to have a proper  
7           break, is that the point? And lost trips is  
8           a consequential device used to deal with the fact that  
9           not enough trips have been made; is that it? So that  
10          the real issue, for safety, is that journey times are  
11          too short. Do we understand you correctly?

12       MR LAU KAI HIM: That is correct. Let me answer your  
13          question in several parts.

14               First, in the paper, the 12-minute rest time, that  
15               is in condition (a), and that is for every four hours of  
16               driving there should be a rest break of 12 minutes. But  
17               then the bus companies usually do not let the bus  
18               captains know about this. As said in our appendix 8, we  
19               suspect that there will be only three minutes. So there  
20               isn't sufficient time for bus captains to take a rest.  
21               And because of the busy road situation, bus captains  
22               usually arrive at the bus terminus late, and the  
23               passengers are waiting, so they would drive immediately,  
24               and they don't have sufficient time to rest.

25               For the journey time, can I ask Mr Chung to  
26

1           elaborate more.

2           MR CHUNG CHUNG FAI: About the driving time or the journey  
3           time, we have asked bus companies, New World First Bus  
4           and Citybus and also TD how do they come up, or set the  
5           travelling time for buses. They come up with the  
6           schedule of service not based on scientific data. What  
7           they do is they have a bus trying out the new routes,  
8           and see how long will it take for the bus to operate.

9           So that's not a scientific approach.

10           So we suggest to the TD and Citybus and New World  
11           First Bus that in coming up with a travelling time we  
12           must allow sufficient rest time for the bus captains,  
13           and we should make sure that the bus captains would not  
14           speed. Very often, because of insufficient travelling  
15           time the bus captains will tend to speed, and that's  
16           also very natural, as human behaviour.

17           We must come up with a scientific approach in  
18           determining the journey time. Say, for example, say if  
19           a bus travels at 40km per hour, then you come up with  
20           the expected journey time.

21           Now, in the urban areas the speed limit is 50km per  
22           hour, so if you set it as 40km or 30km really you should  
23           come up with figures like those. That I would call  
24           a scientific approach, and then also you have to be  
25           mindful about the number of bus stops, so how many

26

1 seconds you are allowing the bus captains to have  
2 passengers alighting and boarding the bus up.

3 Third, you have to be mindful about the rest time  
4 you would give the bus captains. That's also  
5 accountable.

6 And also in Hong Kong roads the journey time may  
7 differ depending on the period of the day. Say, in peak  
8 hours, it would take longer, non-peak hours, the journey  
9 time would be shorter.

10 I believe that the bus companies will be able to get  
11 information on the situation at peak and non-peak hours  
12 from the black box, and then factoring into the  
13 congestion situation, then come up with a journey time  
14 estimate. I think that's a more specific approach. I  
15 wonder whether TD will heed our views.

16 MR LAM KAM PIU: Mr Lau.

17 MR LAU KAI HIM: In the earlier hearing, Mr Jain Alok has  
18 already said the black box is there to capture the  
19 journey information and journey time. And bus companies  
20 can be in full grasp of the relevant data, but then the  
21 bus companies, because it involves manpower, and the bus  
22 fleet, the bus companies would like to use less manpower  
23 and less number of buses to meet with the TD's  
24 requirements. So as a result, the rest time of the bus  
25 captains is reduced. And because there are many  
26

1 passengers waiting, then very often the bus drivers do  
2 not have any rest at all even.

3 I believe that the bus companies do have sufficient  
4 information to help them come up with a more reasonable  
5 schedule. But that involves resources, buses and  
6 manpower, and in the August 2017 meeting with the TD we  
7 have asked the TD to monitor the journey time of bus  
8 companies. But then the TD said that they would only  
9 just scrutinise and look at the schedule of service, but  
10 I have also outlined the details in the schedule of  
11 service just now. I won't go into them.

12 But then information such as journey time is not  
13 included in the schedule of service. And very often the  
14 TD has not been doing -- its gatekeeping role properly,  
15 And the schedule is always so tight, and the bus  
16 companies -- I mean, the bus captains are under a lot of  
17 pressure so.

18 Can I ask Mr Hui to elaborate.

19 MR HUI HOU KIT: Citybus. For some routes of Citybus, N8X  
20 which has run for over a decade is an overnight route  
21 starting from 12 midnight to 6 am the next morning.

22 For this route, it runs from Siu Sai Wan in Chai  
23 Wan, to the Central ferry pier in Central. So the one  
24 hour is the journey time.

25 Let me give you my background. I used to be an  
26

1           overnight bus captain. I have been working for over  
2           10 years, and I have been driving N8X for over 10 years,  
3           and for the past 10 years the journey time has been set  
4           at one hour, so a return trip means two hours.

5           It is impracticable to finish the journey in one  
6           hour. It would definitely go over time. Why? Because  
7           for N8X, there are altogether 110 bus stops. Well, in  
8           the return trip. So for one way, 50 to 60 stops. So  
9           within one hour, it is to finish its trip, it goes  
10          through Chai Wan Road, Shau Kei Wan Road, King's Road,  
11          Hennessy Road, Admiralty Road, and Des Voeux Road, and  
12          then the Central Ferry Pier or the Macau Ferry Pier, so  
13          it is from Eastern District to Central District. It  
14          goes through all the signallised junctions so it would  
15          be quite impossible to finish the journey in one hour.  
16          Well, if you have to finish it in one hour, you have to  
17          go at great speed. And you even have to speed, in order  
18          to finish the journey in one hour. I have not worked on  
19          that route for quite some time, so I can't finish it in  
20          one hour.

21          And for the N8X bus captains now, because they have  
22          been working on the journey for a long time, and they  
23          know the operation of the traffic lights, so they try to  
24          manoeuvre a bit so that the journey can be completed in  
25          one hour. This is the best example. I'm  
26

1 a representative of the CTB employees union and I've  
2 talked to the management, and I've told them one hour is  
3 definitely not sufficient for N8X. I have taken part in  
4 union activities for over 10 years.

5 This is an extreme example that I'm citing. Thank  
6 you.

7 MS MAGGIE WONG: Thank you --

8 CHAIRMAN: Are you saying that the one-hour journey time was  
9 never practical?

10 MR HUI HOU KIT: Correct.

11 CHAIRMAN: Thank you.

12 MS MAGGIE WONG: And if you cannot finish the journey within  
13 one hour scheduled time, what would be the consequence?

14 MR HUI HOU KIT: The colleague will have to continue  
15 driving, well, for N8X, the headway is half an hour, so  
16 if he arrives at the terminus late, then he still has to  
17 depart from the bus terminus 30 minutes later.

18 Or if there is a traffic accident, causing a delay  
19 of 15 minutes or more, then upon the company's  
20 instructions, he can try to -- I mean, depart later.  
21 But if it is just a delay for five to six minutes he has  
22 to continue with the next journey.

23 And there would not be some sort of interim  
24 journeys, in between.

25 MS MAGGIE WONG: This journey, would there be penalty in  
26

1 terms of the income if you cannot meet the schedule  
2 time?

3 MR HUI HOU KIT: No.

4 CHAIRMAN: Only the rest time would be reduced?

5 MR LAU KAI HIM: (In English) Yes.

6 MR HUI HOU KIT: Yes. Yes. For N8X, well, sometimes there  
7 may even not be any rest break at all.

8 MS MAGGIE WONG: We have heard --

9 CHAIRMAN: Just a moment, Ms Wong.

10 Prof Lo has a question.

11 MEMBER LO: I am just curious, then how does the company  
12 enforce 12 minutes of rest time for the first four  
13 hours, if the bus is over run, over time every trip, so  
14 in four hours there will be no rest time at all, so how  
15 does the company ensure there would be 12 minutes of  
16 rest time as stipulated in the guideline?

17 MR LAU KAI HIM: Let me put it this way. There are several  
18 conditions in the guideline. Half an hour rest for six  
19 driving hours and one meal break, and in the schedule  
20 that is categorically written down, but in the 12  
21 minutes for the first four hours, that is not specified.

22 Because of the tight schedule or the busy traffic,  
23 maybe the 12 minutes would already be cancelled because  
24 of the heavy traffic congestion, but the bus captains  
25 don't know that there is a 12-minute break within the

26

1 first four hours of duty.

2 But for the other requirements, the bus captains are  
3 in the know.

4 But the busy schedule is also very tight, and the  
5 bus captains very often don't know that they have lost  
6 this 12 minutes in rest break.

7 But we have been reflecting our view that there  
8 should at least be five minutes' break when the bus gets  
9 to the terminus, the bus captains can relax a bit and  
10 can go to the washroom. But the bus companies are not  
11 taking a humane approach in dealing with the issue.

12 MEMBER LO: One other question.

13 So on paper, this 12 minutes does not exist, not to  
14 talk about in practice?

15 MR LAU KAI HIM: And they must implement it. Because there  
16 would be random check on the part of the TD, that's what  
17 the TD told us.

18 The TD has been reminding individual bus companies  
19 from time to time, and in appendix 8, submitted to the  
20 Committee, there is no 12 minutes. But this is  
21 a guideline from the TD, but then in the bus captains  
22 handbook, there is no specification to the like.

23 MS MAGGIE WONG: Yes. Related to this topic is the resting  
24 facilities. We can see in your submission at  
25 page 226-25, in English, that you raised the topic about  
26

1           insufficient area of lounge room or resting facilities.

2           In Chinese it's at page 171.

3           You raised a specific problem, at the bottom of page  
4           226-25:

5           "For many years, the Transport Department has not  
6           taken over charge of the lounge room issue, but pushed  
7           the responsibility to the Lands Department and the Home  
8           Affairs Department. In addition, some government  
9           departments have not supported the establishment of  
10          lounge rooms, such as the Housing Authority, so that  
11          this issue cannot be solved successfully."

12          And, of course, based on your example that you have  
13          given earlier, about this one-hour journey time, can  
14          I raise, before I ask, about this one-hour journey time,  
15          is there sufficient facility when you reach point B,  
16          leaving aside the journey time, from A to B, in relation  
17          to the bus route that you mentioned earlier on?

18       MR HUI HOU KIT: Yes. In Siu Sai Wan, Chai Wan, and for  
19          Hong Kong Macau terminal, there are resting facilities,  
20          but on the whole, for Citybus, resting facilities are  
21          insufficient. Let me give you some examples.

22          The rest lounge may be very small, and there may  
23          only be a temporary toilet, and sometimes there isn't  
24          any toilet at all.

25          Our union strived for a toilet, and then they began  
26

1 to have toilets.

2 MR LAU KAI HIM: Well, in the supplementary submission we  
3 have provided a list of resting facilities, where  
4 facilities are sufficient, where sufficient facilities  
5 are not, and you can refer to the list.

6 MS MAGGIE WONG: I'm going to take you to that document.

7 I believe that is in annexure 7 of your submission  
8 at pages 260-342 to 346, in which you produce  
9 documentation showing the follow-up progress report for  
10 individual bus terminus. In English, it is in TU  
11 bundle, page 260-346-1.

12 And you produced a table not only showing the  
13 progress of application by KMB, Citybus, and NWFB, New  
14 World First Bus. You also produced a letter dated  
15 28 June 2017 in which you highlighted the problems in  
16 relation to Chai Wan East bus terminal and Sham Shui Po  
17 So Uk Estate bus terminal.

18 Can I ask about this.

19 I note in particular that some of the applications  
20 have been dated back for a number of years. Perhaps if  
21 I can quote an example, it is 30 May 2016 at Lai Kok at  
22 page 260-346-4. At Lai Kok:

23 "TD received KMB's application at 30 May 2016 and  
24 has conducted site visit with KMB at the said location  
25 on 23 June 2016. As the pavement near the relevant bus  
26

1 stop is relatively narrow, hence TD's engineer has  
2 requested KMB to revise the design of the rest room.  
3 KMB has not submitted the revised design to TD up till  
4 now."

5 Is that the most up-to-date progress, or rather has  
6 no progress been made since June 2016?

7 MR LAU KAI HIM: As we understand, on setting up of rest  
8 lounges, the KMB has been very active in the past two  
9 years. At a lot of terminals they have been installed.  
10 They may not be of sufficient size, but at least there  
11 is a space for bus captains to take a rest.

12 For the example you mentioned, we are not sure about  
13 the progress, but there are some other examples such as  
14 Tsing Yi pier, a rest lounge has been installed, and it  
15 is now in use. So in terms of this, KMB is fairing  
16 better than Citybus or New World First Bus. At least  
17 there is a small rest lounge. The space may not be  
18 sufficient but there is a lounge for bus captains.

19 MS MAGGIE WONG: Yes.

20 Can you give us an example, or, if we have to do  
21 a site visit off some of the locations in which the  
22 resting facilities are grossly inadequate, which  
23 location would you suggest?

24 MR LAM KAM PIU: I suggest Quarry Bay terminus of New World  
25 First Bus. There is no resting facility at all for  
26

1 drivers. And we have been striving for one for over  
2 10 years.

3 All along, the Transport Department has been telling  
4 us that there is opposition from the local community and  
5 there is also dawdling by the Lands Department. So far,  
6 we still haven't got any resting facility. Well, the  
7 company has in fact given us an update -- it has been  
8 10 years. We proposed the location for the resting  
9 lounge, and then we went back and forth, and ultimately  
10 they reverted to the original proposal floated by the  
11 union regarding location. It took us 10 years. And we  
12 have made a little progress so far, and it is said that  
13 the proposal will be discussed by the district council,  
14 and various government departments will also be  
15 consulted.

16 But we have no idea how much longer we should wait.

17 Mr Lau would also like to supplement.

18 MR LAU KAI HIM: The question with rest lounge is that the  
19 bus company will have to apply with the TD, the TD will  
20 need to approve the application, a lot of government  
21 departments will be involved, such as the Lands  
22 Department, the FEHD, Police, and Home Affairs  
23 Department, they will all have to be consulted.

24 So a resting lounge would have to go through years  
25 of application and vetting procedures.

26

1           And there may be divergent comments from different  
2           government departments.

3           For the Quarry Bay example, it has taken us more  
4           than 10 years with little progress because of divergent  
5           views from different government departments. Some  
6           government departments might reject the application.

7           So this is a clear example that we are in such a bad  
8           situation.

9       MS MAGGIE WONG: Did the company do anything about this,  
10           like extending the rest time so that the bus drivers can  
11           go to the washroom, or go to all these resting  
12           facilities, by making certain adjustments on the time,  
13           did the bus company do something like that?

14       MR LAM KAM PIU: On this issue we reflected that to the bus  
15           companies because of the long journey time, there is not  
16           enough time for bus drivers to rest, and the bus  
17           companies said that they would look into the matter, but  
18           so far we haven't heard from them whether actually when  
19           we arrive at the destination there would be sufficient  
20           time for us to rest.

21           Because of the road condition, and traffic, by the  
22           time the driver reaches the destination he would need to  
23           drive again. So the first thing a bus captain does is  
24           to go to toilet, to answer nature's call, even if the  
25           next departure is a bit late. We have reflected this to  
26

1 the company. So far we have not heard that there is any  
2 action.

3 Mr Hui would like to supplement.

4 MR HUI HOU KIT: I want to supplement that for facilities at  
5 the terminus there are two examples regarding Citybus  
6 that I would like to highlight. One is Chi Fu Fa Yuen  
7 in Southern district. Ever since Citybus started its  
8 operation there has never been any rest lounge, because  
9 the Owners' Corporation refuses to allow bus company to  
10 install a rest lounge.

11 We asked the TD to discuss with the Owners'  
12 Corporation. But the OC's position remains.

13 The second example is the bus terminus at Asia World  
14 Expo, near the airport.

15 The airport has been commissioned for so many years.  
16 For Asia World Expo it is temporary. Everything is  
17 temporary, including the toilet, and the facility has  
18 remained temporary for over 10 years.

19 I don't understand what kind of coordination this  
20 government has regarding facilities at a bus terminus.  
21 And there is no coordination to speak of among  
22 government departments.

23 When a bus company runs a route we need facilities.  
24 There is no coordination. A few years ago, we talked to  
25 the Transport Department, if there is a site, if there  
26

1 is development, and if the TD is going to set up a PTI,  
2 public transport interchange, then the TD should inform  
3 us in advance how many routes would use the PTI, so that  
4 we can give them comments on the facilities to be  
5 provided. We mentioned it several years ago, but  
6 according to the Transport Department planning matters  
7 are not under their purview.

8 It is actually under other departments such as the  
9 Planning Department, the Lands Department, or the LCSD.

10 So we can see the total lack of coordination among  
11 government departments to facilitate the setting up of  
12 any facility.

13 CHAIRMAN: Mr Kwok, I have a question for you, because you  
14 are the representative from the branch involving KMB.

15 KMB runs special or split shifts and have done so  
16 for many years, do they not?

17 MR KWOK WAI KWONG: That's true.

18 CHAIRMAN: Ms Wong was asking for examples of termini where  
19 the resting facilities are grossly inadequate. Are  
20 there such facilities that you can identify now, today,  
21 such that this Committee might go and visit the  
22 facilities, where drivers on these special shifts begin  
23 their three or more hours break but the facilities are  
24 inadequate. Can you give us places to visit?

25 MR KWOK WAI KWONG: On the part of KMB, for special shift,  
26

1           they will drive the buses back to the depot for the  
2           first -- after the first half of the shift. And then  
3           they will go out to have a meal, and to go to some other  
4           places to take a rest. So that's how the operation is  
5           like.

6           It is very seldom that the buses stay at the bus  
7           terminus after the first half of the shift. Maybe a few  
8           of the bus drivers will end the first half of their  
9           shift at the bus terminus, and then they will go back to  
10          the bus terminus to begin the second half of their  
11          shift.

12          There are a few people doing that. Well, there  
13          would be even less break time for these bus captains.  
14          They may travel to some of the places to take a rest,  
15          and take a meal, and then they have to travel back to  
16          the bus terminus to take on the second half of the  
17          shift. They lack rest time more than the others.

18   CHAIRMAN: So the facilities that I was asking you about, if  
19           a bus captain comes to the end of the first half of the  
20           shift, and he now has a three-hour break, and he is at  
21           a bus terminus, are there places where there are simply  
22           insufficient facilities to have a rest at that bus  
23           terminus? Has he got to go somewhere else?

24   MR KWOK WAI KWONG: That's correct. Say, for example, in  
25           Tsuen Wan, the Allway Garden. In Tsuen Wan, you can  
26

1 take a look at the facility in that garden.

2 CHAIRMAN: Do you recommend that as a place we could look at  
3 to see to find inadequate facilities for bus drivers who  
4 are finishing the first half of their split shift?

5 MR KWOK WAI KWONG: Correct.

6 CHAIRMAN: Anywhere else?

7 MR KWOK WAI KWONG: No further supplement.

8 CHAIRMAN: Gentlemen, you would have been present when we  
9 asked the Motor Transport Workers General Union to read  
10 a document. I see they are now sitting at the back of  
11 the hall. They have been here all day, so I'm going to  
12 ask if you would permit us to interrupt the proceedings,  
13 where we are asking you questions, so they can finish  
14 their business.

15 So we will take a short break and they will swap  
16 places with you, if that's agreeable to you.

17 Thank you.

18 (5.04 pm)

19 (A short break)

20 (5.12 pm)

21 REPRESENTATIVES FROM MOTOR TRANSPORT WORKERS GENERAL  
22 UNION. MR CHAN KWONG NUNG, MR LAI SIU CHUNG, MR LAM TIN  
23 FU, MR CHEUNG TSZ KEI, MR LAU SIN TAT, MR LAM PO KEUNG  
24 (Evidence given in Cantonese; transcription of the  
25 simultaneous interpretation) (continued)

26

1 CHAIRMAN: Ms Wong, can you remind me of the reference to  
2 the LegCo briefing paper.

3 MS MAGGIE WONG: That's at TD-1 bundle at page 403.

4 The Chinese is at 416.

5 CHAIRMAN: Gentlemen, have you had an opportunity to read  
6 this LegCo briefing document for the transport panel of  
7 LegCo?

8 MR CHEUNG TSZ KEI: Chairman, we have just read through the  
9 paper. We have some initial views here.

10 For paragraph 4(a), the electronic stability system,  
11 we don't suggest that it be installed. It is the  
12 electronic stability control system. We have query on  
13 the system, and we are worried that when there is  
14 a harsh braking there will be the blocking of the  
15 steering wheel and as a result the bus will get out of  
16 control.

17 And for 4(b) --

18 CHAIRMAN: Before we move on. Let's just establish some  
19 basic material.

20 Were your views ever sought by the working group  
21 that dealt with this matter?

22 MR CHEUNG TSZ KEI: Chairman, the transport panel of the  
23 LegCo has not consulted us, and we have asked many times  
24 that our representatives be appointed to the working  
25 group. And then the TD has not consulted us on this.

26

1           We can only speak based on our working experience.

2           Thank you, Chairman.

3       CHAIRMAN: Well, please proceed to address the items you  
4           wish to address in this briefing paper where the  
5           recommendations are made.

6           You query the use of the electronic stability  
7           control. What about the other matters?

8       MR CHEUNG TSZ KEI: Thank you, Chairman.

9           4(b). On paper, as we see it, it is feasible,  
10          because it will limit the speed at 70 kilometres,  
11          whether uphill or downhill, and this will help us in our  
12          work, because for bus captains driving along Tuen Mun  
13          Highway, very often because of the unlevel terrain, they  
14          would exceed the speed limit, and sometimes be subject  
15          to disciplinary sanction.

16          So if there is a speed delimiter, we find this  
17          feasible as it would prevent the bus from travelling at  
18          speed downhill.

19          6(a), bus monitoring and control system.

20          We don't support it, because this is equivalent to  
21          the bus being controlled by the central system. For the  
22          speed limit on the road, if it suddenly changes to, say,  
23          50 kilometres, then the bus will change the speed  
24          likewise, and for the vehicles that follow the bus, they  
25          won't understand why all of a sudden the speed of the  
26

1 bus will change, and accidents would easily occur, and  
2 we do have some concerns that it may be prone to  
3 accidents. So we don't recommend this.

4 CHAIRMAN: Just to interrupt you there. One reason they  
5 might understand why the bus has slowed down is because  
6 the speed limit has changed, and the bus is obeying the  
7 speed limit. Why should that puzzle the driver behind?

8 MR CHEUNG TSZ KEI: Well, I think it is a matter of driving  
9 habit. Say, if we are travelling at 70, and if we reach  
10 a 50 kilometres speed limit zone, we will gradually  
11 decelerate by slowly lifting the gas pedal.

12 But according to the system, it is going to  
13 decelerate quite rapidly so that vehicles coming from  
14 behind may not understand, because of the normal driving  
15 habit of buses, and that the vehicle that follows may  
16 ram into the bus. That's our concern.

17 CHAIRMAN: Where do you discern the fact that the  
18 deceleration is going to happen rapidly, or quite  
19 rapidly? Where do you see that?

20 MR CHEUNG TSZ KEI: Let's say if we are to decelerate, we  
21 would say, step on the brake and there would be a brake  
22 light informing the vehicle that follows. But now, we  
23 make use of this system with GPS, and once a bus reaches  
24 the location, deceleration would take place  
25 automatically. If there is no preceding vehicle, the  
26

1 vehicle that follows may not expect the bus to lower the  
2 speed rapidly from 70 to 50. And we are concerned that  
3 this may bring a safety hazard.

4 CHAIRMAN: Very well.

5 MR CHEUNG TSZ KEI: 6(b), we don't recommend this.

6 Because the collision alert system and lane keeping  
7 device, I mean for drivers who have driven vehicles with  
8 these devices, it is really a nuisance, whenever there  
9 is an obstacle, the device would beep. Hong Kong is  
10 a small place with narrow roads, very often you may have  
11 objects on the road, on the side, that may not really  
12 affect the vehicle but the vehicle will -- the alert  
13 system will still go off causing a great nuisance to bus  
14 captains. So we don't recommend this.

15 CHAIRMAN: All that was being recommended was that there be  
16 a trial.

17 MR CHEUNG TSZ KEI: I think the bus captain of Citybus who  
18 drove the bus before can answer this.

19 MR LAU SIN TAT: I don't remember, two or three years ago,  
20 the Citybus put this system to trial. This so-called  
21 magic eye system, and during the trial it was all right  
22 when the bus was travelling on a highway, but in city  
23 traffic the device kept beeping whenever there were  
24 people or objects around, and it was a great nuisance.

25 CHAIRMAN: We received evidence from Mr Alok Jain, a former  
26

1 employee of KMB, and also from Julian Kwong, to this  
2 effect, that one should be alert to the fact that  
3 technology that doesn't work very well at one time  
4 period may have improved in a few years time, and  
5 perhaps this is all that is being addressed; in other  
6 words, there have been refinements to the technology.

7 MR CHEUNG TSZ KEI: Chairman, well, currently, for drivers  
8 who used this system before, they found it to be not  
9 really appropriate, the system is flawed. So in future,  
10 if there is improvement to the system, we will consider  
11 afresh making recommendations for installing these  
12 devices.

13 We are practitioners, so we can only give you  
14 feedback on practical problems we encountered at work.  
15 Thank you.

16 CHAIRMAN: We are asking you for feedback. You have not  
17 been asked before, have you?

18 MR CHEUNG TSZ KEI: That's true, Chairman.

19 CHAIRMAN: Please carry on with the other devices.

20 MR CHEUNG TSZ KEI: 6(c), driver monitoring device. We  
21 believe it is feasible because this directly detects  
22 whether the bus captain is dozing off. And I can say  
23 quite boldly that dozing off is really the enemy of bus  
24 captains.

25 Sometimes a bus captain may close his eyes for just  
26

1 two or three seconds and he may lose his life. So with  
2 this device the bus captain can stay alert and it would  
3 be good for drivers on the road, for the bus captain  
4 himself as well as passengers. It is a safety measure.  
5 So we find this feasible.

6 However, some colleagues tried this device as well,  
7 and agreed that improvement is needed. Say, if the bus  
8 captain wears a pair of reflective sunglasses, then the  
9 device will not function properly. The device will  
10 believe that the driver is dozing off.

11 CHAIRMAN: Thank you.

12 MR CHEUNG TSZ KEI: Thank you, Chairman.

13 Regarding installation of seat belts on passenger  
14 seats, we don't recommend the installation, because  
15 first of all, we have standing passengers, not all of  
16 them are seated. We are not a coach. For  
17 double-deckers, after installing seat belts, during an  
18 accident, I believe it would be quite chaotic. Let's  
19 say if a fire breaks out, it would be difficult for  
20 passengers to escape. It would be very difficult for  
21 somebody to take off the seat belt during an emergency.

22 We don't find this very feasible. Unless we are  
23 talking about certain front row seats or the middle seat  
24 of the back row, more hazardous seats, where seat belts  
25 should be installed. Otherwise, we don't recommend  
26

1 installing seat belts for all.

2 Training for franchised bus captains. We believe  
3 that training should be enhanced. We should revert to  
4 the 1998 level. It took about a month to train a bus  
5 captain back then. There should be more on-the-road  
6 training, so that the bus captain would feel confident  
7 when he starts to drive on the road, instead of just  
8 having behind-the-wheel road training. We don't really  
9 recommend this, we don't think it is feasible, we think  
10 that there should be an academy for training bus  
11 captains.

12 CHAIRMAN: And who should operate this academy?

13 MR CHEUNG TSZ KEI: Thank you, Chairman.

14 An academy, well, it should be operated by a school,  
15 a bus company, with the assistance of the Transport  
16 Department.

17 Thank you, Chairman.

18 CHAIRMAN: Ms Wong, are there any questions that you wish to  
19 put arising from that evidence?

20 MS MAGGIE WONG: No, Mr Chairman.

21 CHAIRMAN: Well, gentlemen, thank you very much for the long  
22 day that you have spent here assisting us with your  
23 evidence. And we thank you for attending.

24 You are now free to go. We have the other gentlemen  
25 from the other union to return now, so we will take  
26

1 another short break, couple of minutes, and invite you  
2 to withdraw. Thank you very much.

3 (5.28 pm)

4 (A short break)

5 (5.35 pm)

6 REPRESENTATIVES OF THE FEDERATION OF BUS INDUSTRY TRADE  
7 UNIONS: MR HO YUI CHEONG, MR CHUNG CHUNG FAI, MR LAM KAM  
8 PIU, MR LAU KAI HIM, MR HUI HON KIT, MR KWOK WAI KWONG

9 (Evidence given in Cantonese; transcription of the  
10 simultaneous interpretation) (continued)

11 CHAIRMAN: Gentlemen, thank you for your patience.

12 We have been able to deal with your colleagues in  
13 the other union, and we can resume now with some of the  
14 material left to be dealt with by your union.

15 But as I understand it, the Secretariat have spoken  
16 to you about adjourning these proceedings for you to  
17 come back on Wednesday, 1 August, in the afternoon. In  
18 those circumstances, I will ask Ms Wong to deal with  
19 some of the matters in relation to the LegCo briefing  
20 paper, which is what she was dealing with, before we  
21 adjourn, and then the remaining questions we would ask  
22 her to pose to you Wednesday, if that is agreeable to  
23 you?

24 MR LAM KAM PIU: Agree.

25 MS MAGGIE WONG: Thank you, gentlemen.

26

1           Before you is a briefing paper by the LegCo prepared  
2           for the LegCo discussion, and it was a briefing paper  
3           prepared by the Transport Department for the enhancement  
4           of safety of franchised buses recently discussed in the  
5           LegCo on 25 July 2018.

6           The paper starts in English at page 403 and in  
7           Chinese, 416.

8           It provides a number of topics. The first topic is  
9           on retrofitting seat belts. The second topic is on the  
10          training of bus captains, which is at paragraphs 18 to  
11          22. The third topic is on the safety technological  
12          device, the new technology device in relation to the  
13          franchised buses.

14          Was a copy of this paper ever given to your union to  
15          consider and comment on?

16   MR LAM KAM PIU: No.

17   MS MAGGIE WONG: We understand this paper is discussed  
18          amongst three franchised bus companies, and the  
19          Transport Department, and it was to investigate the  
20          training and all the safety equipment that they proposed  
21          in this paper.

22          Have you --

23   CHAIRMAN: Before you go on, I think it more accurate to say  
24          this, that this paper appears to be the end result of  
25          discussions that took place between the Transport  
26

1 Department, the three bus manufacturers, and the  
2 franchised bus operators. And this was a group that was  
3 convened in the middle of March, and reached these  
4 recommendations in this paper in late July.

5 Yes, Ms Wong.

6 MS MAGGIE WONG: Have you had a chance to read and digest  
7 this paper during the break?

8 MR LAM KAM PIU: We have read through the paper. And we  
9 have an initial understanding of the issues discussed in  
10 the paper.

11 MS MAGGIE WONG: Yes. Maybe we deal with the first topic on  
12 the safety devices at paragraph 4(a). It relates to the  
13 electronic stability control system.

14 Would your union support the use of this device?

15 MR LAM KAM PIU: We support.

16 MS MAGGIE WONG: And what about the second one on retarder  
17 for capping the maximum speed of the speed limiters on  
18 downhill?

19 MR LAM KAM PIU: We also support.

20 MS MAGGIE WONG: If we go to 6(a), in relation to the bus  
21 monitoring and control system, giving or maximising the  
22 black box capability to provide real-time fleet  
23 supervision, bus speed recording and GPS location  
24 recording, et cetera.

25 MR LAM KAM PIU: We also support it. It is already being  
26

1           used now.

2           CHAIRMAN: Who is using it? Which company is using it?

3           MR LAM KAM PIU: New World First Bus and Citybus are already  
4           using this system.

5           MR KWOK WAI KWONG: The same for KMB.

6           MS MAGGIE WONG: What about 6(b), collision alert and lane  
7           keeping devices?

8           MR LAM KAM PIU: This issue, we support installation.

9           During the trial the colleagues resented it, because  
10          whenever a minor problem surfaced and there would be the  
11          beeping sound, and bus captains are under certain  
12          pressure emotionally. This device is good, but we hope  
13          that it can be improved.

14          MS MAGGIE WONG: Yes. Is that the test conducted by  
15          Mobileye --

16          CHAIRMAN: I think the test was conducted by Citybus and the  
17          device is Mobileye?

18          MS MAGGIE WONG: A device by Mobileye?

19          MR CHUNG CHUNG FAI: Well, the Citybus and the New World  
20          First Bus conducted the trial, but in fact it was not  
21          that good.

22          To our understanding, the company said it will  
23          improve on the device. So we will see how the  
24          improvement goes, and whether there will be an  
25          improvement in the effect.

26

1 MS MAGGIE WONG: Because I believe the test was conducted  
2 back in 2014, so the technology would have moved on.

3 And what about 6(c), the driver monitoring device to  
4 detect drowsiness?

5 MR CHUNG CHUNG FAI: In principle, we agree to this; but the  
6 question is if the devices are used to monitor the  
7 drivers, whether they are dozing off, and they are  
8 showing fatigue, I think you are putting the cart before  
9 the horse here. Rather we should give more rest time to  
10 the bus captains. That should be the best way.

11 There should not be any driving fatigue -- that  
12 matters most. But then the device can be installed.

13 MR LAM KAM PIU: Mr Lau has something to add.

14 MR LAU KAI HIM: We should avoid driving fatigue, giving  
15 rise to accidents. We should not have devices  
16 monitoring the bus captains to make sure that they do  
17 not doze off. Well, the drivers should work in  
18 a healthy environment, and they should not work for long  
19 hours leading to driving fatigue.

20 We would like to put forward recommendations to  
21 prevent accidents. We should not be making proposals  
22 only after accidents have happened. I think you are  
23 putting the cart before the horse by installing such  
24 a device. You are trying to shy away from the problem  
25 of driving fatigue. Like air pilots, the airline  
26

1 operators would be allowing sufficient rest hours for  
2 the pilots. Well, air flight is different from bus  
3 trip, but I think the consequences of bad driving will  
4 be the same.

5 So I think you are putting the cart before the horse  
6 by having this device to monitor the driver's  
7 performance making sure that they are not dozing off.

8 CHAIRMAN: But you agree in principle that there should be  
9 trials of this device?

10 MR LAM KAM PIU: Agree.

11 MS MAGGIE WONG: What about retrofitting seat belts for all  
12 seats in future on buses?

13 MR LAM KAM PIU: We support the retrofitting of seat belts.

14 I think it is the responsibility of the Transport  
15 Department. It should not be the responsibility of the  
16 bus companies. It should be the full responsibility of  
17 the Transport Department, because the Transport  
18 Department knows best.

19 CHAIRMAN: When you say responsibility, do you mean that  
20 they should pay for it?

21 MR LAM KAM PIU: Well, it is about the law.

22 CHAIRMAN: I see. So it is their responsibility to arrange  
23 with government that the legislation be changed and then  
24 also arrange that it should be enforced? They should be  
25 fitted, people should be required to wear them, and that  
26

1 law should be enforced; is that what you mean by  
2 responsibility?

3 MR LAM KAM PIU: That's right.

4 Mr Lau would like to supplement.

5 MR LAU KAI HIM: About installing seat belts, of course the  
6 purpose is to ensure passenger safety. I think this is  
7 beyond any dispute. But we may have installed seat  
8 belts and the passengers may not wear them.

9 So you need enact legislation to require passengers  
10 to wear a seat belt. This is the most important point.

11 For minibuses we see this example. Years ago seat  
12 belts have been installed and the legislation was  
13 changed to require passengers to wear seat belts, but  
14 then for passengers not wearing seat belts no  
15 prosecution was taken out. So we need to require  
16 passengers to wear seat belts to minimise the injuries  
17 when there is an accident.

18 More importantly, we need to remind passengers to  
19 wear seat belts, otherwise it will be close to no  
20 protection for passengers. Even if seat belts are  
21 installed, very often during bus accidents passengers  
22 got thrown out of the bus compartment because passengers  
23 sitting on the front row didn't wear a seat belt.

24 CHAIRMAN: And that resulted in changes. The metal bar on  
25 the upper deck at the front and seat belts in those  
26

1 exposed seats?

2 MR LAU KAI HIM: That's right.

3 MS MAGGIE WONG: What about training for franchised bus  
4 captains in paragraphs 18 to 22?

5 MR LAM KAM PIU: Mr Hui can take this question.

6 MR HUI HOU KIT: Chairman, regarding training, two days ago  
7 I attended a two-day class and my company, Citybus, has  
8 included the element of emotional management.

9 For other companies, they all along have this  
10 element. But for this part, the company has engaged a  
11 non-professional to teach this course, and to my  
12 knowledge I don't think this is professional, and  
13 I think there is room for improvement.

14 MR LAM KAM PIU: Mr Lau would like to supplement.

15 MR LAU KAI HIM: In our supplementary submission we quoted  
16 the Singapore example. In November 2016, Singapore set  
17 up an academy for training bus captains and they have  
18 really comprehensive courses, including maintenance,  
19 repair service, quality, et cetera. And they also  
20 mandate bus captains to undertake this course before  
21 they get a licence.

22 So in our neighbouring city we have the training  
23 courses for bus captains, and there is a need to have  
24 emotional management and other elements. I think we are  
25 lagging behind, but it is better than nothing.

26

1 CHAIRMAN: Mr Hui, you spoke about the course not being  
2 conducted by a professional. What kind of professional  
3 did you have in mind for an emotional management course?

4 MR HUI HOU KIT: To my knowledge, he should be somebody from  
5 the social worker profession or a psychologist.

6 CHAIRMAN: Thank you.

7 Well, Ms Wong, if that's not inconvenient, that's  
8 probably enough for today.

9 MS MAGGIE WONG: Yes. Thank you.

10 CHAIRMAN: Gentlemen, thank you for attending today, and  
11 thank you for agreeing to return on Wednesday.

12 We look forward to receiving your evidence on  
13 Wednesday afternoon. But the proceedings are now  
14 adjourned. Thank you.

15 (5.52 pm)

16 (The hearing adjourned to 10.00 am  
17 on Tuesday, 31 July 2018)

## I N D E X

1 2018 年 7 月 30 日

2 上午 10 時 01 分恢復聆訊

3 出席人士：張子琦先生，汽車交通運輸業總工會第一副主席（汽車交通運輸業總工  
4 會（包括各分會，即城巴分會、九龍巴士分會、龍運巴士分會、新大嶼  
5 山巴士分會及新世界巴士分會）代表）

6 林天賦先生，汽車交通運輸業總工會第二副主席（汽車交通運輸業總工  
7 會（包括各分會，即城巴分會、九龍巴士分會、龍運巴士分會、新大嶼  
8 山巴士分會及新世界巴士分會）代表）

9 劉善達先生，城巴分會主任（汽車交通運輸業總工會（包括各分會，即  
10 城巴分會、九龍巴士分會、龍運巴士分會、新大嶼山巴士分會及新世界  
11 巴士分會）代表）

12 黎兆聰先生，九龍巴士分會主任（汽車交通運輸業總工會（包括各分  
13 會，即城巴分會、九龍巴士分會、龍運巴士分會、新大嶼山巴士分會及  
14 新世界巴士分會）代表）

15 陳廣能先生，龍運巴士分會主任（汽車交通運輸業總工會（包括各分  
16 會，即城巴分會、九龍巴士分會、龍運巴士分會、新大嶼山巴士分會及  
17 新世界巴士分會）代表）

18 林寶強先生，新大嶼山巴士分會主任（汽車交通運輸業總工會（包括各  
19 分會，即城巴分會、九龍巴士分會、龍運巴士分會、新大嶼山巴士分會  
20 及新世界巴士分會）代表）

21 鍾松輝先生，巴職聯會務顧問，新世界第一巴士公司職工會會長（巴士  
22 業職工會聯盟（包括各會員工會，即九巴員工協會、新世界第一巴士公  
23 司職工會及城巴有限公司職工會）代表）

24 劉啟謙先生，巴職聯會務幹事（巴士業職工會聯盟（包括各會員工會，  
25 即九巴員工協會、新世界第一巴士公司職工會及城巴有限公司職工會）  
26 代表）

27 林錦標先生，巴職聯副主席，新世界第一巴士公司職工會理事長（巴士  
28 業職工會聯盟（包括各會員工會，即九巴員工協會、新世界第一巴士公  
29 司職工會及城巴有限公司職工會）代表）

30 許漢傑先生，巴職聯司庫，城巴有限公司職工會理事長（巴士業職工會  
31 聯盟（包括各會員工會，即九巴員工協會、新世界第一巴士公司職工會  
32 及城巴有限公司職工會）代表）

33 郭偉光先生，巴職聯秘書，九巴員工協會副理事長（巴士業職工會聯盟  
34 （包括各會員工會，即九巴員工協會、新世界第一巴士公司職工會及城

1 巴有限公司職工會）代表）

2 何銳昌先生，巴職聯會員，新世界第一巴士公司職工會司庫（巴士業職  
3 工會聯盟（包括各會員工會，即九巴員工協會、新世界第一巴士公司職  
4 工會及城巴有限公司職工會）代表）

5

6 主席：（經傳譯員）早晨，我哋多謝汽車交通運輸業總工會派出代表嚟到幫助我哋今  
7 日係提供口述證供，咁我又多謝呢一個嘅張先生，佢係第一副主席，同埋各位代  
8 表。我哋就會由黃律師問你哋問題，黃律師係其中一位協助檢討委員會嘅律師。

9 如果張先生或者你其中一位代表想回答問嘅問題，咁可以就係出聲，我哋就  
10 會話畀你聽係可以回答，黃律師就會可以開始問問題㗎喇。

11 黃女士：（經傳譯員）唔該晒各位，我想先做一個嘅介紹，關於係你哋嘅組織，汽車  
12 交通運輸業總工會係喺呢一個嘅 1920 年成立㗎，係咪呀？

13 林天賦先生：㗎嘅。

14 黃女士：（經傳譯員）咁我哋可以見到，喺一個工會文件 1C，289-15 顯示㗎，你  
15 哋工會嘅人數--呢個係有翻譯為英文㗎，不過我就讀出個數目字。

16 你哋嘅會而家人數係有 29,670 人，其中 11,868 人係專營巴士分會會員，  
17 有 10,436 人係任職專營巴士司機嘅，係嗎？

18 張子琦先生：冇錯。

19 黃女士：（經傳譯員）你哋嘅總會有五個分會，九龍巴士分會、新世界巴士分會、城  
20 巴分會、龍運巴士分會同埋新大嶼山巴士分會，係嗎？

21 張子琦先生：正確。

22 黃女士：（經傳譯員）我未開始問問題之前，想先請你睇一睇，你哋嘅職權範圍，咁  
23 就係呢一個嘅係文件夾 263 頁，咁就係專營巴士嘅職權範圍㗎喇，咁係翻譯本  
24 可以喺運輸署文件夾 1 號第 3 頁。其實就話--呢度寫檢討委員會嘅職權範圍：

25 第一，就係要檢視呢一個--咁就係從安全角度而言，鑑於發生喺呢一個 2 月  
26 10 號嘅致命意外，同埋近期嚴重事故，審視巴士專營權喺現行法例專營權同其  
27 他合約規定下嘅運作同埋管理模式，同埋檢視現行對專營巴士嘅監管同埋監察制  
28 度。

29 最後，就係就上述事宜向行政長官提出同安全有關嘅建議，維持香港嘅專營  
30 巴士服務安全可靠。呢個委員會嘅職權範圍，就係要睇安全方面，即係巴士專營  
31 權運作安全角度嘅。

32 我咁樣講，因為我知道，係你嘅意見書裏面講咗好多關於係工作方面㗎，但

1 係呢一個委員會佢要睇嘅就係，睇番巴士專營權運作管理方面，安全角度嘅事  
2 宜，所以希望你明白，我哋問嘅問題都會集中於呢一點嘅。

3 你哋嘅工會之前係畀咗幾份嘅意見書畀檢討委員會，第一份就係 18 年嘅 4  
4 月 23 號，中文就係文件 1C，277 頁至到就係 289 頁，英文版就係 289-1 至到  
5 289-12。呢一份即係第一份嘅意見書，係就於檢討委員會發畀你哋工會嗰封信  
6 㗎，嗰封信日期係 18 年 3 月 28 號，係嗎？

7 張子琦先生：正確。

8 黃女士：（經傳譯員）你哋嘅意見書就提出咗幾個課題㗎，我就想請你先睇一睇啲大  
9 部分。

10 主席：（經傳譯員）未講呢樣嘢之前，張生，如果可以幫助你，其實有一啲係打印  
11 本，咁可以喺螢幕上面睇得到。同時，如果你想，亦都可以揭番呢一個嘅文件版  
12 本，如果你係需要睇其他部分協助自己嘅話，你就可以問我哋攤個打印本，明  
13 白嗎？

14 張子琦先生：係，明白。

15 主席：（經傳譯員）黃律師，係，想講一講個頁碼？

16 黃女士：（經傳譯員）頁碼係 289-14-7。其實我所講嘅就係首十段，就係講關於係  
17 即係對呢一個巴士車長一啲不好嘅——一啲唔好嘅對待。

18 你講過一啲即係話會員裏面親身經歷過好多唔好嘅事㗎，顯示到其實乘客不  
19 文明嘅行為，佢哋唔理法例嘅規管，就會係打車長或者鬧車長，呢個就係你意見  
20 書第一項有講嘅事宜。

21 跟住喺你第二點，就係關於改善運作安全，有關於專營巴士方面，係第十一  
22 段，頁數就係英文 289-14-9，中文就係 285 頁嘅。

23 呢啲嘅改善建議基本上就係分三方面：

24 首先，你就要求交通燈應該要有呢一個嘅倒計器或者閃動裝置；

25 第二，你就要求增劃黃格，同埋就係希望呢一個巴士可以停喺巴士區，  
26 同埋有關於呢一個巴士站方面嘅；

27 第三方面，你嘅建議書就講話工作環境，第十五段，係工會文件 1C 號，  
28 第十五段，289-14-0（原文照錄），中文就係 287 頁，英文就係 289-  
29 10。

30 你個度就其實就講咗係三方面：

31 第一，就係休息時間，設施同埋訓練，呢三樣嘢我會進一步再問你  
32 問題嘅；

1 第二份嘅意見書就係回應委員會寄畀你嘅信，係 18 年 6 月--8 月 8  
2 號同埋 17 號（原文照錄）寄畀你，你回應嘅文件嘅意見書日期係 18 年  
3 7 月 10 號，英文版就係 289-16 至到 23 頁嘅，呢個係第二份嘅意見  
4 書。

5 英文都係喺 1C 號嘅文件，289-23-1 至到 289-23-10，喺呢份意  
6 見書裏面，你喺第二段就話，你搜集咗五間專營巴士分會嘅負責人，成  
7 立專責工作小組，廣泛收集幹事、工作人員同埋會員工友嘅意見，你可  
8 以喺 289-16 見到，另外就英文 289-23-1。喺呢份意見書裏面，你亦  
9 都大量講咗有關於係巴士車長被乘客暴力襲擊嘅問題，列出咗一系列嘅  
10 個案，呢個就係第二份意見書嘅；

11 同時，你亦都做咗第三份嘅意見書，但係未講之前，我就先講咗話巴士車長  
12 被乘客襲擊嘅問題，呢一部分喺你第一同第二份意見書已經有深入講過。

13 張生，我相信喺兩份嘅意見書裏面，你提及過投訴被襲擊係工會、巴士公司  
14 已經係多年投訴嘅問題嘞，你亦都列出咗幾個嘅事項，幾個個案係 2016 年、  
15 2017 年同埋 2018 年發生嘅。

16 我就想同你再講，因為你就列出咗九個襲擊個案，就係呢一個 2016 年 1 月  
17 3 號至到 18 年 4 月 29 號發生㗎，中文就係 289-16 至到係 17 頁，英文版就係  
18 289-26-2（原文照錄）。

19 呢個--呢次嘅襲擊事--呢啲嘅襲擊事件係喺唔同地方發生，屯門市、大圍美  
20 林邨巴士總站、東區醫院、海怡半島、機場地面運作中心、青山公路巴--咖啡灣  
21 巴士站、逸東巴士站、旺角鐵路站同埋呢一個嘅係青馬收費廣場。

22 每一個個案你都講咗話，係每一位巴士車長都係受傷同埋要放病假。你可唔  
23 可以確認呢啲嘅個案係有向你哋工會報告，係要求你哋協助嘅，就係幫你哋同警  
24 方同埋係相關嘅巴士公司嚟到係聯絡㗎？

25 張子琦先生：我哋係--我哋列舉呢九個個案，其實喺個意見書入面都清楚寫咗，呢  
26 九個會員佢哋係透過我哋嘅--向我哋工作人員求助，然後向工聯嘅職安健協  
27 會申請經濟援助，所以我哋掌握佢嘅情況。

28 但係喺意見書入面，我哋講得好清楚，因為有啲會員工友畀人打咗，其實報  
29 紙上面都好多，佢哋就有工會求助，因為事後我哋唔知道究竟呢啲係咪我哋會  
30 員；

31 第二，我哋唔知道係邊度發生，所以我哋冇工作人員向佢哋提出幫手，所以  
32 我哋所掌握嗰九個個案係因為佢哋嚴重受傷，要放比較長嘅病假，而經濟上面又  
33 出現困難嘅人嘅會員，佢哋先至--我先至向工聯嘅職安健協會攞番啲資料先知道嘅  
34 啫。其他其實我哋喺之後嘅文件入面都補充咗好多啲報紙傳媒報道嘅個案，大家  
35 都可以睇到。

1 其實我哋可--想可以講一個個案，就喺石澳九號巴士，有一個司機畀個乘  
2 客打咗好似三分鐘定五分鐘，報紙都賣晒，但係呢個人冇向我哋求助，所以我哋  
3 都唔可能知道佢實際嘅情況。

4 我補充咁多。

5 黎兆聰先生：我想補充下，我哋掌握嘅數字係有嘅，我哋有我哋李講師（？）。不過  
6 呢個係冰山一角九個，但係被打嘅車長係日益嚴重。就係近呢兩年來，我相信平  
7 均一個月起碼有幾單呢啲畀人打嘅車長嘅事件發生，我哋係有掌握嘅，不過只係  
8 暴力係開始日益增多。所以巴士--我哋有建議過巴士公司設立一啲保護嘅裝  
9 置，個個保護嘅膜可以保護到我哋嘅前線車長，但係有待改善，呢個係一路都有  
10 發生，唔係淨係九個，係呢兩年來日益嚴重。

11 同埋我可以同主席講，而家乘客係橫蠻無理，用手機挑釁啲車長，打啲車  
12 長，同埋有一個 230A 嘅運輸署一個條例保護車長嘅，從來冇執行過，亦都有一  
13 個成功個案告一個打車長嘅乘客。我係講到咁多。

14 主席：（經傳譯員）黃律師，你繼續之前，如果話畀你聽，我哋收到一啲嘅資料，就  
15 係呢個九龍巴士工會，就係話佢哋所收到嘅資料，2015 年至到 2018，即係巴  
16 士車長受襲嘅一啲資料，大概係有四十個嘅投訴嘅，你知唔知呢啲資料喺我哋嘅  
17 網頁上係搵到嘅呢？

18 黎兆聰先生：我可以講畀你聽，呢兩年來係日益嚴重，四十單係唔止嘅，每個月都發  
19 生，同埋公司一年來先至開始有個法務部，有啲律師去支援下我哋車長，之前啲  
20 啲向我哋求助啲啲，我哋係有協助，噯，但係四十單，主席，呢個數字唔正確  
21 㗎，每個月起碼閒閒地都十單、八單，咁你同我計兩年來，起碼都二、三百單  
22 喇，主席。

23 主席：（經傳譯員）多謝，可能你誤解咗我嘅意思，四十宗嘅投訴喺今年啲六、七個  
24 月裏面係四十宗，係嚟自一間巴士公司嘅啫。

25 黎兆聰先生：但係我覺得呢個數字唔可靠。

26 主席：（經傳譯員）咁或者你可以畀我一啲可靠嘅數字，但係咁之前，呢度正話所講  
27 過九個個案就係 2016 年年頭開始至 2018 年 4 月，係咪呀？

28 黎兆聰：可以。

29 主席：（經傳譯員）可唔可以幫我哋講下，巴士公司，即係涉及呢九宗嘅受害人，佢  
30 哋係同--服務喺乜嘢巴士公司㗎？

31 林天賦先生：呢個我哋法規可以搵番啲資料，但係大部分所知道係九巴為多，九巴公  
32 司為多。

33 我補充到呢度，大部分嘅我哋所知嘅資料都係九巴公司為多，但係具體嘅情  
34 況，真係要睇番佢哋嘅紀錄，但係有部分嘅司機就喺個紀錄入面就有寫自己巴士

1 公司嘅，因為我哋實際嘅嗰個表格入面，只係填佢嚟自邊間工會為多，冇填到佢  
2 係任職邊間巴士公司。

3 主席：（經傳譯員）唔該，黃女士。

4 黃女士：（經傳譯員）主席之前就講到一張嘅清單，係由呢一個九巴講嘅，就係佢哋  
5 一啲嘅車長，由 2015 年 1 月至到 2018 年係 7 月 22 號嘅一啲個案，喺九巴  
6 一，就係第 212 頁嘅，呢啲資料。

7 張子琦先生：黃律師，主席，可唔可以我要一份你嗰個中文嘅提案？因為我哋有啲提  
8 上嚟嗰啲議題...

9 主席：（經傳譯員）可以嘅，而家可以畀你嘅。

10 黃女士：Yes.

11 主席：（經傳譯員）可能淨係得英文版本。

12 黎兆聰先生：Because we cannot see anything in front of us.

13 主席：（經傳譯員）可以畀你嘅。

14 黎兆聰先生：（經傳譯員）唔該。

15 主席：（經傳譯員）可能你有一個打印出嚟嘅版本會好--容易啲。慢慢喇，你慢慢用  
16 啲時間消化下呢一個嘅表達方式。第幾頁？係嘞，可能將佢咁樣嚟到係投影出嚟  
17 好啲。可唔可以去睇一睇 2018 年？

18 黃女士：（經傳譯員）係 216 頁，就係喺呢個九巴一第 216 頁嗰一份文件。

19 主席：（經傳譯員）你而家準備好未，準備好回答問題未？

20 張子琦先生：Yes.

21 黃女士：（經傳譯員）你睇下 KMB-1 嗰份文件，喺 216 頁，148 開始，第 148 項開  
22 始到到 188，就係九巴嚟到係製備嘅資料，2018 年 1 月開始，去到 2018 年嘅  
23 7 月 22 號，呢個淨係九巴畀--提供嘅數字。

24 黎兆聰先生：我哋收到有啲資料，有啲同事畀人哋推撞，或者打咗，係有報畀公司聽  
25 嘅，呢個數字佢報畀你，可能係如實報畀你，但係我哋收到有啲個案，啲同事怕  
26 事，係有報㗎，係有報畀公司啲--所以我就講話，佢個數字可能唔準確，因為  
27 有時啲同事係怕事，會同工會啲工作人員講，我哋之後會同公司講，咁佢有一個  
28 紀錄係好正常，好嗎？

29 主席：（經傳譯員）係，咁如果你有收到咩嘢投訴，你可以交界我哋，即係如果巴士  
30 公司係有收到，而你收到，可以提供番畀我哋。

31 黎兆聰先生：主席，舉例，早上個星期，我哋有個站長新入職冇幾耐，畀個印巴籍嘅

1 人士打咗一拳，跟住掙咗佢落地下，佢冇報㗎，佢同我講咗嘅，但係我都有--  
2 我都係了解咗，同公司講咗嘅，咁可能都係寫份報告番去，唔知會唔會--如果  
3 我咁大間公司，成日要同主席講，主席你都幾麻煩，係咪呀？

4 主席：（經傳譯員）黎先生，我哋係要有證據先至可以行事，除非你提供證據畀我  
5 哋，如果淨係一啲嘅指稱，就幫唔到我哋嘅，如果你可以畀一啲投訴係有報畀公  
6 司知，你知嘅請你畀我哋。

7 黎兆聰先生： Okay, thank you.

8 黃女士：（經傳譯員）如果你睇下呢張清單，我自己數過，大概有四十一次嘅事件。  
9 但係我哋睇到，好少嘅個案係最終係有檢控嘅，或者啲比較有意思嘅一啲結果、  
10 後果。162、164 呢兩個個案，就係最後就係被告認罪，被罰款。有四十宗嘅  
11 個案，大部分都係和解，或者只係口頭警告，或者警方係唔追究。

12 如果我將呢張嘅清單就對比一下正話所提到嘅一啲嘅個案，即係你講到有九  
13 宗嘅襲擊個案，我就係嗰度搵到五宗：

14 第一宗，係你嘅個案第二，第 289-16 頁，呢個係關乎一位何（譯音）先生  
15 喺 2016 年 3 月 26 號，喺大圍美林邨，呢個就係喺呢一張清單嘅第 62 號嘅個  
16 案，就係九巴所提供嘅，喺第 214 頁，第 62 號嘅個案。

17 張子琦先生：係。

18 黃女士：（經傳譯員）唔該，我未講第二樣之前，其實仲有另外一宗，就喺呢個表上  
19 面冇列出嚟嘅，不過有個通知，話發生咗事故，就係 16 年嘅 5 月 16 號，關於  
20 一次襲擊，喺 289-114 頁，英文版就係 289-23-2。

21 可以見到有另外一次嘅事件嘅，就係呢個 16 年嘅 5 月 16 號，喺呢個表上面  
22 搵唔到，但係就我哋知道你哋嘅工會發出咗一個通告。請睇番嗰個表，呢個就話  
23 係即係其中一個個案，係有喺九巴嘅清單上面，但係喺你自己嗰個嗰度，我哋都  
24 搵唔到㗎。

25 黎兆聰先生：姓何嗰個 case 一樣嘅。

26 黃女士：（經傳譯員）哦，同姓何嗰個一樣，唔該。

27 第二宗，就係第五宗，喺你嘅清單上面嘅，就係 289-17，第五個個案，呢  
28 個係你清單上面嘅第五宗個案，有關於一名姚（譯音）生，係喺 8 月 8 號 2016  
29 年嘅時候被襲。

30 我哋可以見到，呢一宗嘅個案喺九巴清單上面 214 頁就搵得到㗎，呢個係--  
31 呢個個案嘅宗數係 82 號。可以見到，一位姚生佢係車長，係巴士司機嚟㗎，8  
32 月 8 號，龍運公司就喺機場總站，同埋佢受咗咩嘢傷。

33 第三宗，喺你嘅清單上面就係第 8 號，289-17，有關於一位李（譯音）先

1 生喺 2017 年嘅 1 月 9 號被襲，旺角鐵路站，佢就係隻眼受傷，額頭亦都受傷，  
2 呢件嘅個案喺九巴清單上面都可以搵到，215 頁就係第 113 宗，可唔可以確認  
3 一下係咪呀？

4 黎兆聰先生：係。

5 黃女士：（經傳譯員）另外一個例子就喺清單上面，但係就唔係你嘅清單，但係喺九  
6 巴嘅清單上面可以搵到㗎，係 122 宗，日期就係呢一個嘅係 2017 年嘅 6 月 4  
7 號，喺長宏總站，呢宗個案就係和解㗎，喺呢一個九巴清單上面，215 頁可以搵  
8 到。

9 另外一宗，喺你嘅意見書裏面，就係第九宗嘅個案，就係 289-17，一位楊  
10 （譯音）生，就喺 2018 年 4 月 29 號被襲，喺青馬收費廣場，呢件嘅個案可以  
11 喺九巴清單搵到，就係第 170 宗，就 217 頁。可唔可以確認一下係咪呀？二百  
12 一十--係呢個第 170 宗？

13 張子琦先生：係㗎，呢單個案受傷嘅車長係向我求助嘅，亦都當時佢都提出㗎問題，  
14 點解青馬收費嗰啲管理人員放走咗呢個襲擊者，因為當時呢個襲擊者係強行自己  
15 落咗車之後，係自己步去--步入去嗰個轉車站，乘車而去嘅，而嗰啲青馬管理  
16 人員係完全冇幫助過呢個車長，協助過呢個車長。

17 黃女士：（經傳譯員）我哋可以睇番，呢四十一宗就係有向警方報案嘅，呢個由最右  
18 手邊可以見到一啲嘅備註，有時就話警方係即係叫佢哋和解，有啲就話警方冇再  
19 係跟進，你嘅意見者 289-17 頁上面有講過，英文版就係 289-23-3，係喺底  
20 部。

21 黎兆聰先生：主席，可以睇到咁多個個案，冇可能我哋車長自願和解，你畀人打，會  
22 唔會自願和解？你睇下個執法嗰個不力，咁多單都係得幾宗執法，冇有可能一個  
23 車長畀人打，唔執法㗎？和解真係啼笑皆非，好唔好？

24 呢樣嘢我希望--我哋工會收到好多個案，我哋啲前線車長成日就講警方唔執  
25 法，冇可能我哋畀人打咗會和解嘅，我哋啲專業車長亦都唔會挑釁乘客，冇可  
26 能，你睇下我--我一睇到咁多單，都係--可能四十單，可能幾單先至會畀人哋  
27 可以告得入，冇有可能呢個問題衍生到出嚟，希望主席你可以--一睇個表就已經  
28 睇到，咁多單都有受傷，表面傷痕，點會和解呢？係咪？

29 冇去--即係冇去執法，個 230A 冇執法，咁多單都係幾單先至話成功告入，  
30 我哋嘅車長同我哋工會反映過無數次，畀人打咗就要和解，呢個係執法不力，好  
31 唔好？

32 黃女士：（經傳譯員）你話呢啲嘅事項已經係提出過好多次㗎，其中一個例子可以係  
33 同--係喺同運輸署會面嘅時候，其中一次嘅會議紀錄上面可以見到，係 17 年嘅  
34 3 月 22 號，頁數係中文 289-61 頁，就係呢個底部第二段，英文版就係 289-  
35 182。

1 喺第二段裏面，你提及過話襲擊車長同埋呢一個嘅係言語去鬧車長，同埋影  
2 車長--拍攝車長，你就要求署方執法，要跟番有關嘅法例係執法，呢個係其中一  
3 個例子。

4 講番你嘅意見書，你係好清楚指出其他受傷或者襲擊嘅個案係冇向你哋工會  
5 係反映到，喺呢一個嘅意見書上面冇收集到嘅，係，可以喺中文版 289-18 頁第  
6 二段見到，英文就係 289-23-3。

7 喺第二段裏面，你提及喺以前，有啲人見到發生事件，會出嚟幫助車長，但  
8 係有時可能因為會對涉及嘅人士被控公共地方打鬥，所以令到好多人係唔肯向遇  
9 事司機伸出援手。

10 你提及一個 15 年 7 月 10 號發生嘅一件事，就係一個同颱風有關嘅，令到係  
11 即係有啲乘客有暴力行為。你可唔可以講下，你可以點樣幫車長？而點解你會係  
12 覺得即係有啲--某啲原因，令到你唔可以幫車長手？

13 黎兆聰先生：我呢個個案我好有印象，就係因為可能呢個颱風去到八點半冇車，即係  
14 會收車㗎嘞，咁可能乘客焦急，言語之間就對呢個車長暴力襲擊，咁亦都之後都  
15 捉到呢個人嘅。

16 林天賦先生：呢件事，我哋工會嘅睇法係咁樣，警察對於呢啲襲擊者，如果係因為所  
17 有涉及嘅人士，即係如果我哋嘅會員工友幫呢啲同事，即係佢其他車長阻止呢啲  
18 乘客襲擊呢啲車長嘅話，我哋工會--因為我呢度有資料，但係我哋好多嘅會員工  
19 友都話，因為警察將所有涉及呢件個案嘅人都會落案，如果係真係要追究嘅  
20 話，變咗係所有人都變咗係喺公眾地方打鬥，即係幫手啲會員工友都係要去到  
21 警署，都係畀人落案，畀人告嘅。

22 所以好多人慢慢地就變咗佢哋唔知道--即係見到其他嘅同事畀人打，其他車  
23 長畀人打嗰時，佢哋就唔敢出手去幫手。呢個風氣其實呢幾年都比較嚴重。

24 張子琦先生：同埋我想補充一下，嗰個言語、嗰個攝影，對住個車長，係一啲用嘅暴  
25 力嘅言語都係影響到個車長嘅情緒，係會直接影響到嗰個駕駛嘅安全，所以呢個  
26 係對公眾嗰個利益係直接受影響，所以應該係要制止呢啲行為。

27 主席：（經傳譯員）可唔可以講一講，呢一次襲擊事件嘅詳情喺邊度發生，喺巴士上  
28 面定係喺巴士嘅即係總站、車廠嗰度發生㗎？

29 黎兆聰先生：喺個巴士站，未開車嗰度，開始襲擊車長，因為當其時可能大家焦急，  
30 當八號風球正式懸掛，我哋公司有個慣例會通知乘客八點半冇車，當其時以我了  
31 解，應該係乘客睇到車長上車，但係個車長要收工㗎嘞，咁就襲擊佢咁嘅情況，  
32 就喺巴士站嘅外圍襲擊佢。

33 當其時有啲車長唔夠膽幫手，就係因為之前有啲暴力事件，係幫手啲都告  
34 埋公共場所行為不檢，所以呢個問題係喺呢件事衍生出嚟。

1 主席：（經傳譯員）嗰次襲擊係發生喺巴士上面定係巴士嘅外面？

2 黎兆聰：巴士站休--站長室外面。明唔明白呀，主席？

3 主席：（經傳譯員）我而家明白嘞，唔該晒。

4 黃女士：（經傳譯員）你進一步嘅意見書，呢個 18 年嘅 7 月 10 號，中文就係 289-  
5 18，英文就係 289-23-3 至到 289-23-4。

6 喺第一段嗰度，你就強調話之前提及過一個問題，就係話你從網上收集到一  
7 啲資料，就係其他嘅資料，係關於車長被滋擾，即係被乘客滋擾，同埋不合理嘅  
8 對待，你亦都係將有關嘅報道，即係從網上攞嚟嘅資料就係話乘客點樣滋擾巴士  
9 司機，你係提供㗎。

10 呢啲嘅文件喺第 289-24 至到 289-30 呢啲嘅中文嘅文件度搵到，亦都有一  
11 啲照片，喺英文就係 289-141 至到 289-146 呢幾頁。

12 你就係喺第二段你嘅文件第二段就係提出呢個問題，跟住第三段就係話有啲  
13 嘅投訴，就話有聽個執法人員對呢啲相關嘅人士，根據公共巴士服務規例嚟到起  
14 訴佢哋，呢個就係第 230A 章，喺英文就係第 289-23-4 頁，中文就係 289-19  
15 頁，第 289-19 頁。

16 黎兆聰先生：回應下，佢 230A 章係保護我哋嘅前線車長，多數警員都係勸和解，公  
17 司亦都有表明及支援我哋嘅，所以要求加強檢控呢啲施襲者，同埋加強個罰則，  
18 因為 230A 章，我相信有一個個案成立過話告呢啲施襲者。

19 黃女士：（經傳譯員）係嘞，或者我係引述一下嗰啲嘅規例，等你知道個罰則，喺  
20 THB-2 第 131 頁，文件 THB 第 131 頁。

21 搵唔搵到？對唔住，淨係得英文版本。但係我哋睇到，喺規例第 13，就係移  
22 走--將乘客移走巴士，即係如果係有合理嘅理由相信佢違反咗呢啲嘅規例，就可  
23 以將呢個乘客係趕落車。

24 仲有第 38 條就係話，唔可以有一個嘅--第 132 頁，一個嘅乘客或者係準乘  
25 客，就唔可以係有意--故意咁樣嚟到係去遮住呢一個車長嗰個嘅視線，唔可以  
26 有意嚟到係喺巴士上面做任何嘢，第二段嗰度，就係引致呢一個嘅受傷，不適，  
27 或者係引致任何人嘅不便，第一嗰度，就係唔可以嚟到去影響呢一個巴士司機嗰  
28 個嘅工作。

29 第 25--規例 25(3)，任何人士如果有合理嘅辯解，係違反呢啲 32A(1)  
30 （原文照錄）嘅規例，就係我哋正話啱啱睇過嘅，就係即屬犯法，係有可能被判  
31 三千元，同埋係入獄六個月。

32 呢個就係你所指導嘅情況，就係話有--喺咁多年嚟，都係有根據呢啲嘅規例  
33 係有檢控，係咪呀？

1 張子琦先生：正確。

2 黃女士：（經傳譯員）我想請你睇下第三段，你哋文件嘅第三段，即係進一步提交嘅  
3 文件第三段，喺英文就係第 289-23-5 頁，第三段，中文就係第 289-19 頁。  
4 睇唔睇到？

5 呢度講到一啲嘅民事索償，就係巴士公司就係代表車長提出民事索償，但係  
6 嗰啲嘅結果就係冇公布，所以你就要求得到呢方面嘅資訊，就係關於一啲巴士車  
7 長嚟到係提出民事索償嘅資料，咁就係想委員會係向專營巴士公司索取呢方面嘅  
8 資料，係咪呀，民事索償嘅資料？

9 黎兆聰先生：簡單回應，早幾個月，有位女車長畀人施襲，公司係有協助，得到對方  
10 賠償五千釐湯藥費同埋自簽守行為，係最近半年前嘅事嘅，應該，係喺藍田地鐵  
11 站畀個女乘客施襲，有協助過，要對方賠償。

12 林天賦先生：但係據我哋所知，巴士公司可能都係個人個協助，對於呢啲個案嘅影--  
13 因為影響所有嘅巴士員工，佢又有喺個公開場合度向員工講述佢哋嘅對於協助呢  
14 位車長嘅結果。

15 而家我哋都睇到，而家，即係有啲九巴同事就講出，有喺嗰個月刊度有提出  
16 呢件事，因為我哋可能有睇到呢個文件，但係都係近年先有嘅啫，即係喺九巴員  
17 工嗰個月刊入面有提過呢件事。

18 黃女士：（經傳譯員）你可唔可以畀嗰個月刊我哋睇？

19 黎兆聰先生：要喺員工網慢慢啲，不如你同我問一問九巴嘅管理層，佢有呢啲成功爭  
20 取個案，喺嗰每一個月嘅員工嗰個月刊，畀我哋睇點樣幫啲夥記，點樣追討，係  
21 有嘅，如果我哋啲唔係咁唔到，不過可能未必咁快搵到，我諗搵九巴管理層擺可  
22 能會快啲。

23 黃女士：（經傳譯員）我哋睇到呢啲嘅投訴，我哋不如睇下九巴點樣回應，對呢啲嘅  
24 投訴，我請你哋睇 KMB-1 第 61 至到 62 頁，九巴文件。

25 第 61 至到 62 頁，喺 62 頁，喺最頂嗰度，就話因為越嚟越多嘅襲擊，我哋  
26 就係採取咗以下嘅措施，我哋就係睇到有四樣。

27 第一，就係監察嘅呢一個相機，嗰啲係前置，同埋有一個係可以睇到車長座位，  
28 就自從 2015 年，所有嘅新巴士都有呢啲嘅設施，係直至 2018 年 2 月，我  
29 哋已經喺 2,319 個九巴嘅巴士同埋 146 架嘅龍運巴士就係裝咗呢啲監察嘅影相  
30 機嘅，我哋就係有埋一啲嘅加埋聲音嘅錄影，就係一啲比較麻煩嘅乘客，呢個就  
31 係保障到我哋嘅車長，如果警察後來有任何嘅調查，或者係法律程序；

32 另外我哋會喺呢一個車長座位附近，有一個保護罩，就會由 2018 年 6 月開  
33 始安裝；

34 我哋會有多啲係車上嘅廣播，就係提醒乘客唔好去做任何嘢會影響到車長同

1 埋其他乘客嘅；

2 另外我哋第四樣，就係如果巴士車長係受到呢一個襲擊，我哋會有法律支  
3 援。

4 講到呢一個監察嘅攝錄機，我哋喺一次嘅實地考察嘅時候，睇到一啲嘅例  
5 子，就係喺嗰個車長座位上面左近，就裝咗呢啲攝錄機，就會係影到車長嗰個行  
6 為一樣嘅，有一啲嘅車長就係因為裝咗呢啲監察嘅攝錄機，佢哋都係有一啲嘅意  
7 見，你覺得係點？

8 張子琦先生：近年嚟，九巴公司的而且確係改善咗呢啲嘢，對於乘--襲擊車長，佢哋  
9 都有去替個車長去討回公道，都會有律師去跟進。

10 黎兆聰先生：我想補充，我哋前線車長同埋工會有反映過意見，嗰啲攝錄機係有時幫  
11 到車長，但係當有時好輕微嘅嘢，佢只係會話交界警方，咁嗰個攝錄嘅情況就係  
12 我哋啲前線嘅車長有時係幫唔到我哋，有啲問題我哋希望自己裝，但係公司話因  
13 為用個人私隱問題。

14 嗰啲鏡頭係好全面，但係有時我哋啲前線當有啲輕微交通意外，有時要同公  
15 司攞，亦都未必攞到呢啲整個發生意外嘅攝錄過程，所以佢啲鏡頭係可以睇到個  
16 意外發生，但係可能有時有啲輕微，佢只會交界執法部門去處理，但係唔會攞嚟  
17 畀我哋前線可以提供一個支援。

18 所以我哋經常同管理層講，嗰啲攝錄鏡頭，有時我哋需要嗰時，未必支援到  
19 我哋。

20 但係公司話嗰啲攝錄嗰啲鏡頭，希望嚟出年第二季會裝晒，因為始終三分二  
21 嘅車都仲未有呢啲攝錄功能嘅車，同埋唔係全面--全部嘅車都有，因為九巴嘅車  
22 隊相信有超過 3,700 至 3,800 嘅車，相信三分二嘅車都仲未有攝錄功能。

23 張子琦先生：我想補充下，主席，個...

24 主席：（經傳譯員）但係你未補充之前，我哋呢度個數字就係話有 2,319 直至到  
25 2018 年 2 月，就已經係裝咗喇，如果只係三千幾，咁你話有三分二嘅巴士仲未  
26 有呢啲嘅攝錄機，好似唔係幾夾噃，啲數字。

27 黎兆聰先生：公司有啲車，車齡剩番兩年嗰啲，佢唔裝，嗰度有一批數目㗎，即係佢  
28 認為嗰啲就嚟割㗎喇，即係唔愛，淘汰嘅車，佢表明係唔會裝呢啲裝置落去嘅，  
29 所以係有一定嘅數目㗎，嗰度係唔少㗎，為數，即係佢覺得嗰啲車齡佢認為唔想  
30 畀啲設置落去，係表明係唔裝㗎，所以我哋前線嗰啲工友就自己裝個鏡頭保護自  
31 己，但係公司都用好多行政手段，唔准我哋啲車長裝，都係想保護自己嘅㗎。

32 主席：（經傳譯員）你可唔可以為我哋提供一啲嘅資料，就係關於呢一點，就係話唔  
33 畀車長自己裝自己嘅攝影機呢個問題？

34 黎兆聰先生：可以提出，主席，我哋嘅車長，前線車長自己裝 cam，係受到警告㗎，

1 有書面警告，亦都有通告告知過啲車長唔准自行裝呢啲 cam，不過我哋啲車長係  
2 無奈，因為而家好多交通意外，警方第一時間到現場就問你有冇 cam，所以我哋  
3 啲前線車長就無奈接受呢啲警告信，但係我哋向管理層多次--呢咁多年來都希望  
4 佢接納我哋工會嘅方案，因為呢啲 cam 係必切性去可以保護到車長。

5 同埋主席，喺 J 字頭同埋 H 字頭打後嗰啲年歲嘅車嘅英文字母嘅車牌，多數  
6 都有 cam，嗰啲比較係已經係可能係十三、四年嘅車齡，公司係回應我哋係唔裝  
7 呢啲 cam 㗎，喺 H 字頭或者 J 字頭都有，係舊款嘅車係唔會裝 cam 嘅，呢個係  
8 同我哋講咗係唔會咗啲資源去裝。

9 主席：（經傳譯員）咁你會唔會提供文件，等我哋理解公司係點樣處理？你就話一啲  
10 嘅行政手段，可唔可以畀呢啲文件我哋？

11 黎兆聰先生：儘量配合，主席，因為我哋同公司開過會，因為佢話點解唔畀我哋裝呢  
12 啲鏡頭，因為涉及第三者私隱，因為你攝錄佢，你係要經過呢啲人同意，先可以  
13 發放呢啲嘅影像。所以我係同啲工友講過，亦都知道，同私隱公署亦都開過會，  
14 佢都回應過，係呢啲係涉及私隱問題，因為攝錄未經第三者同意，你發放出去，  
15 係可以犯咗呢個私隱條例。咁呢個受--你話要嗰啲警告書，我可以稍後呈交。

16 主席：（經傳譯員）係，我哋就係要呢啲嘞。

17 黎兆聰先生：有呀，主席。

18 主席：（經傳譯員）唔該晒。咁我哋而家講另外一個事項，你支唔支持安裝監察鏡  
19 頭，就係錄音同埋錄影，就裝喺巴士車長坐嘅地方附近，你支唔支持呢個做法？

20 張子琦先生：對於改善車長嘅工作環境，而唔影響到個車長嘅，我哋工會都係支持  
21 嘅。

22 主席：（經傳譯員）咁可唔可以答支持定唔支持呀？

23 林天賦先生：主席，因為裝一個具有錄音、錄像嘅功能嘅攝錄機，冇錯，喺某程度上  
24 面，係對搜集證據係有幫助，但係喺揸巴士嗰陣時，有部分嘅車長覺得長期畀人  
25 一路監視、監察住佢，會造成佢嘅精神壓力，所以唔係個個車長可以接受到呢樣  
26 嘢。

27 我哋都聽過有啲工友因為嗰個攝錄機對正喺佢頭上面，佢覺得對佢揸車會令  
28 到佢分神，所以唔一定話即係會對交通安全會有幫助，所以我覺得呢個可能另外  
29 一個角度睇，係一種隱憂。

30 所以呢個裝攝錄機，可能佢個出發點係好事，但係要顧及每一個車長實際嘅  
31 情況，所以如果一刀切，所有車都裝晒呢啲 cam 嘅話，可能部分車長適應唔到，  
32 所以我覺得委員會提交政府部門建議嗰陣時，應該清楚諗下--諗一諗，唔係所有  
33 人都適應到有個 cam 對住你，當你揸車嗰陣時有個 cam 對住你。因為一日揸車  
34 嘅時間係可能有--工作時間可能八至十個小時，所以不斷對住你嘅話，可能佢哋

1 覺得有心理壓力就比較大，尤其喺某程度下面，但未必係揸緊車，譬如可能飲  
2 水，又單手揸車，呢啲全部可能發生嘅，係咪？但係可以畀公司--畀有其他行政  
3 上面嘅壓力。

4 所以我哋覺得，應該係審慎考慮喺裝呢個--所有車上面裝呢個具有錄音同埋  
5 錄像嘅設施。我補充咁多。

6 主席：（經傳譯員）咁我哋嘅理解咁，咁理解啱唔啱喇，工會嘅立場就係話對於呢方  
7 面有共識嘅？

8 林天賦先生：我哋覺得應該係會審慎去考慮呢件事，唔好淨係覺得可以--喺心理上  
9 覺得係可以幫助到佢，但係我哋工會覺得，係要--真係要問一問啲會員工友接  
10 唔接受，係咪？

11 黎兆聰先生：唔好意思，主席，我補充，我哋喺七、八年前嗰陣時，開始有 cam 嗰  
12 陣時，佢係有 cam 對住我哋，有咪嘅，我哋去過私隱公署投訴嘅，因為我哋受  
13 到廣泛嘅工友反對，當其時我哋係有申訴過嘅，我哋有個立場係收到好多廣泛嘅  
14 會員工友提出反對，令到佢哋心理有--心理壓力好大，所以我哋某程度上，我  
15 哋嘅會員係反對有鏡頭同埋有個收咪嘅功能，咁就呢個係我哋係--應該係早  
16 六、七年前去過私隱公署同埋議員去過抗議嘅，我哋做過嘅，總工會有做過嘅。

17 主席：（經傳譯員）咁而家嘅立場係點，即係 2018 年嘅立場，你哋係支持定唔支  
18 持？

19 張子琦先生：我或者喺度再回應下，主席，呢個裝鏡頭嘅問題，就我曾經同九巴嘅高  
20 層都商討過，有鏡頭的而且確對住出面街外嗰啲路面嘅情況係保障到車長，但係  
21 有啲行政上有啲主任，或者就將一啲好細微嘅嘢，譬如正話第二副主席講過，佢  
22 單手扶軚，飲水，咁就可能要被召見，呢啲咁嘅問題會直接影響到嗰個車長嘅駕  
23 駛情--嗰個情緒。

24 呢方面我哋已經同公司管理層反映過，希望公司要喺呢一方面作出一啲承  
25 諾，唔好對車長一啲無理採取嘅紀律嘅處分，因為個鏡頭見到佢單手飲水、單手  
26 扶住個軚等等呢啲好小節嘅嘢。

27 呢啲係的而且確我哋係有矛盾，第一，我哋係好希望有個鏡頭，保障到自  
28 己，但係如果係一啲管理層擺啲好小節嘅嘢嚟懲罰啲車長，我哋的而且確喺呢度  
29 有啲矛盾。

30 主席：（經傳譯員）我嘅理解啱唔啱？你哋嘅立場就係話，如果鏡頭就係幫助到你哋  
31 嘅，就係支持，但係如果對你哋不利，就唔支持喇，係咪咁呀？

32 張子琦先生：係一啲係無理嘅，對我哋嘅過份落刻個要求就係不合理。

33 主席：（經傳譯員）唔該。黃律師。

34 黃女士：（經傳譯員）張生，你提及過管理層，話有時就會睇番影片去睇車長嘅行為

1 嘅，係咩嘢情況之下會咁做？

2 張子琦先生：我--主席，我哋要求...

3 主席：（經傳譯員）張生已經講咗個答案，講咗幾次㗎嘞，佢即係係詳細咁提話，就  
4 係一係單手揸軚，另外個隻手就飲啖水，呢個就係呢一啲咁小嘅事，佢哋就去干  
5 擾，所以令到工會好關心。

6 黎兆聰先生：回應，佢單手揸軚，單手飲水，係安全情況下，有時個燈位轉紅燈嗰陣  
7 時先會做，唔會話揸緊車嗰陣時去做，好唔好？我回應呢一樣嘢。

8 黃女士：（經傳譯員）係隨意去檢查定係話有人投訴，所以先至就睇番嗰個鏡頭嘅影  
9 片？

10 張子琦先生：我哋要求就係有投訴或者有交通意外先至去睇番鏡嘅，但係好早幾年  
11 前，有啲主任佢哋就主動去睇，發現咗有啲人擺住件餅乾食，就已經係要佢上嚟  
12 見。

13 當然呢啲主任都係畀一啲高層人員都斥責佢嘅，係苛刻咗啲，但係呢啲係好  
14 普遍嘅現象，而令到我哋車長真係有啲困境。

15 主席：（經傳譯員）等等，你要--黃律師，你要等人譯完先可以開始問㗎，要記住呢  
16 樣嘢。

17 黃律師嘅問題其實--呢啲你話係行政手法介入睇影片㗎，喺呢啲情況下，  
18 係咪因為有人投訴--有乘客投訴話車長飲水或者食餅乾，係咪因為有人投訴，  
19 所以先睇番影片？

20 張子琦先生：唔一定，有一個已經係收工，冇載客，只不過係私牌，即係由巴士總站  
21 完咗佢個工作之後，揸番部車返廠途中，而被一個主任去檢控佢嘅。

22 主席：（經傳譯員）即係你從而推斷，喺呢一次，至少呢一次，係有人利用--有人就  
23 係冇--唔係因為有投訴，就睇番嗰個影片，即係好似係去監視嗰個車長咁樣，  
24 係咪呀？

25 張子琦先生：正確。

26 主席：（經傳譯員）唔該。

27 黃女士：（經傳譯員）通常係管理層係會隔幾耐做一次呢樣咁嘅嘢，你知唔知？

28 張子琦先生：近期呢啲個案就少咗，因為經過工會多次向公司嘅投訴，呢啲苛刻嘅處  
29 理方式只會令到車長嗰個工作嘅情緒更加低落，近期係少咗呢啲情況嘅。

30 主席：（經傳譯員）咁呢個問題係咪自行解決咗嘞？即係公司聽你哋嘅講法？

31 張子琦先生：有兩種解讀，一就係佢唔夠人手，二或者係聽到我哋嘅訴求，但係未來  
32 係點，我哋唔清楚。

1 主席：（經傳譯員）對上一次發生呢啲咁嘅監視嘅情況，即係有乘客投訴監視車長，  
2 對上一次發生係幾時嘅事？

3 黎兆聰先生：相信每一日都有人投訴，有投訴有 cam 就睇下係咪事實。同埋車上有  
4 個黑盒嘅，譬如例如講舉例講飛站，佢有黑盒會證明到佢有冇埋站，有顯示個頭  
5 尾閘有冇開過，係咪事實，有 cam 就配合睇 cam，有 cam 就睇黑盒，而家嘅黑  
6 盒基本上佢會喺辦公室都睇到㗎嘞，每一日都發生嘅，所以個數字我相信每一日  
7 都發生。

8 主席：（經傳譯員）個問題其實係問，可唔可以畀個例子，就話乘客有投訴，但係管  
9 理層就走去睇嗰個影片㗎，就監視個車長，即係最近一次係幾時呢？定係話已經  
10 解決㗎嘞，呢個問題？

11 張子琦先生：相信有半年前嘅事㗎嘞，都未曾聽到有呢種情況發生。

12 主席：（經傳譯員）唔該。黃律師。

13 黃女士：（經傳譯員）第二樣嘢嘞，就係呢個第 62 頁，就話安裝一個保護罩，可唔  
14 可以講下，係安裝咗幾多塊呢啲嘅保護罩，即係自從係 2018 年 6 月？因為講緊  
15 係九巴文件夾一號第 62 頁第二個措施就係安裝一啲喺車長座位附近，2018 年 6  
16 月開始安裝保護罩嘅，安裝咗幾多個？

17 黎兆聰先生：相信個車隊，我諗裝咗三分一嘅㗎咋，因為好多弊處，亦都睇落好似好  
18 保護，但係衍生嗰個保護罩開關一個問題，個窿好大，𨋖落去未必搵到個開關  
19 掣；第二，反光太緊要；第三，就係佢最頂層嗰個尖尖嗰個位有個𨋖石，會行車  
20 嗰陣時行--𨋖得唔實會乒乒嘑嘑，個車長亦都好大壓力，因為有雜聲，令到佢  
21 唔可以專心揸車。

22 所以我哋提議過管理層叫佢改善呢個情況，亦都我哋好多前線希望佢拆咗  
23 佢，因為喺夜晚嗰陣時，反光好嚴重㗎，嗰塊保護膜，我哋同管理層提過，但係  
24 佢話呢個係政治事件，唔可以拆呢塊板，咁我哋都好無奈。

25 我哋上個星期都向管理層提出呢個問題，呢塊膠係真係有啲好大嘅問題係衍  
26 生咗出嚟嘅，幾樣嘅問題，第一，就係開關問題；第二，就係反光，令到行車安  
27 全嘅問題；第三，就係佢呢個裝置係有啲𨋖得唔實會發出聲響，呢個問題。

28 主席：（經傳譯員）即係簡單嚟講，就係九巴嘅車隊有三分一就安咗，但係就唔係幾  
29 好嘅，呢啲保護罩，係咪呀？

30 黎兆聰先生：呢個保護罩好多問題衍生咗，我哋啲前線車長唔係唔支持，起碼有個保  
31 護膜，但係個好多弊處係反映咗畀工會同埋我哋啲理幹事聽，個弊處係有幾樣，  
32 個重點係同管理層回應過嘅，不過好似就有乜改善過，就同我哋講就係話政治事  
33 件，所以就呢塊板唔拆得。

34 我哋個前線承受好大壓力，因為我今朝早嚟嗰陣時都坐嗰架車，都問個車

1 長，佢話嗰個員工位上面個位置個稜石稜唔實，會發出聲響，同埋會夾到手指  
2 嘅，咁都比較危險，因為有時個車長會擰左邊，去問啲乘客嘅問題，有時唔察覺  
3 會撞落塊板度，同埋嗰個開關掣都好難去開嗰度門，同埋嗰個弧拱位嘅裝置，如  
4 果車長高同埋低，都會不停咁去阻擋視線，有把刀喺自己嘅前面，阻到睇到個乘  
5 客上落嘅問題，尤其是夜間反光，啲車長話嗰塊膠膜如果有一啲對面行車線開大  
6 燈，直接會映射到嗰塊板，睇落去會反光㗎。

7 咁我哋有反映過，但係管理層就係話唔拆得，同埋話會出年四月或者五月會  
8 裝晒全部嘅呢啲保護裝置，唔知主席有冇睇過呢啲裝置？

9 主席：（經傳譯員）我見過。喺紐約、德薩斯州同埋其他地方咁多年都有裝過呢啲  
10 嘢，但係好似係有一個簡單嘅答案嘅。

11 黃女士：（經傳譯員）你幾時係提出呢啲投訴？或者係車長係幾時提出呢啲投訴㗎？

12 黎兆聰先生：幾個月內都好多車長喺我哋工會反映，我最後接觸管理層都係上個星期  
13 接觸嗰個係我哋嘅車務總監梁生，我同佢反映過呢個問題，因為一路反映，都係  
14 嗰塊膠膜嘅反光程度同埋個開關程度，同埋呢啲裝置反而令到個車長分神，我哋  
15 有反映過，物料上改良嘅設計上，都有反映過，亦都可能佢一個開關一個裝置好  
16 實，如果譬如隻手短得滯啲車長可能唔夠力去搵呢個開關掣，但係佢哋話有竅  
17 妙，就話叫我哋掙度門就可以開關，但係我睇到個問題多過幫到嘅問題。

18 主席：（經傳譯員）黃女士，我諗我哋都要講其他嘅問題，因為呢一點我哋都用咗好  
19 多時間㗎喇。

20 黃女士：（經傳譯員）咁第二個嘅問題，就係嗰啲交通標誌嘅問題，交通信號嘅問  
21 題。

22 你喺 289-23-5 呢一頁第十二段嗰度，有提過呢個問題，中文版就係第  
23 289-19 頁。

24 你就提到有一個嘅建議，就係請運輸署有一啲係閃動次數嘅信號，即係話由  
25 黃燈轉去綠燈嘅時候，就有呢啲閃動次數嘅信號，等司機有所準備，避免因為突  
26 然剎車而造成危險。

27 你亦都係提出呢一個嘅建議幾次，我可以講呢啲嘅頁數，但係唔需要搬去嗰  
28 啲嘅文件，第一份文件就係向運輸署喺 1996 年提交嘅一份嘅信件，喺 289-31  
29 頁第四段。

30 運輸署嘅回應，喺 1996 年 2 月 6 號，喺 289-38 頁，運輸署嘅回應喺第二  
31 段就係話，如果加咗一個會閃亮嘅黃燈，可能就係會令到駕駛人士更加混淆。

32 喺 2005 年 3 月 15 號，你就再次有呢個提出，喺第 289-47 頁，英文就係  
33 289-166 頁。

34 如果你睇 289-50 至 51 頁，係中文版，英文就係 289-170 頁。

1 聽完運輸署嘅回應之後，你嘅睇法係點？你係咪仍然覺得應該係有--關於堅  
2 持...

3 主席：（經傳譯員）其實唔係話堅持，即係要求嗰個問題。

4 黃女士：（經傳譯員）係，你係咪仍然認為你哋嘅建議係合適？抑或你對於運輸署個  
5 回應係滿意？你仍然係想要求運輸署有呢一個係閃動嘅，有埋呢一個即係次數嗰  
6 個嘅信號？

7 張子琦先生：我對運輸署嗰個回應係不滿嘅，因為佢完全唔理解巴士要平穩剎停一架  
8 巴士需要幾多嘅時間。

9 現時由綠燈轉紅燈大約係三秒時間，但係當一架巴士如果行走 50 公里，要  
10 三秒時間穩定咁樣樣停定一架巴士係非常之困難，所以造成好多巴士要衝燈尾，  
11 而令社會人士都覺得巴士司機係喜歡衝燈。

12 但係實質上，我哋巴士司機如果喺嗰個尷尬位要剎停一架巴士嘅話，唔衝燈  
13 尾嘅話，又要平穩剎停嘅話，佢可能就係擺喺十字路口。如果佢要過埋，就變咗  
14 係一個衝燈，如果佢要喺燈位前剎停嘅話，就變咗係急剎，就會造成乘客有機會  
15 會受傷，呢啲就係揸巴士嘅困難，但係好多駕駛人士都未必明白。

16 私家車可以三秒剎停一架車，重型車可以急剎，啲貨物最多都係西歪東倒，  
17 冇問題，但係我哋載緊嘅係乘客。

18 所以我哋一再要求有倒數燈，如果佢唔裝倒數燈嘅話，綠燈轉黃燈前都要眨  
19 三至四下，畀多三秒時間我哋，作出剎車嘅準備，亦等同一啲公仔燈行人過路  
20 嘅，都會眨下，就通知啲行人即將會轉紅燈。

21 呢個係對成個服務嘅質素係有提高，對安全有提高，對公眾人士係有益嘅，  
22 但係運輸署一再漠視本會提出嘅訴求。

23 主席：（經傳譯員）你就講到嗰啲行人過路嗰啲綠公仔喺度眨，提醒嗰啲行人好快綠  
24 燈轉紅燈嘞，係咪呀？

25 張子琦先生：冇錯，主席，我都想需要多三至四秒時間綠燈轉黃燈前眨幾下，咁樣提  
26 示一啲揸巴士嘅司機即將轉燈，咁令到佢有足夠嘅時間穩定咁停定一架巴士。

27 主席：（經傳譯員）喺世界其他嘅地方有冇咁樣嘅做法㗎，可唔可以畀啲例子我哋？

28 張子琦先生：我見新加坡有過，佢都係有啲綠燈箭咀眨。大陸更加多，佢全部都係直  
29 情倒數數字。

30 主席：（經傳譯員）係一啲數字，係咪呀？轉燈嘅時候直頭有數字喺度眨？

31 張子琦先生：冇錯。

32 主席：（經傳譯員）唔該。

1 黃女士：（經傳譯員）我哋收到運輸署嘅文件，係關乎一啲專營巴士意外嘅數字，就  
2 係唔關乎撞車嘅事件，我想你睇下運輸署嘅文件係 TD-9，就係 2018 年 4 月，  
3 喺 TD-1 第 111 頁第六段。

4 我哋睇到運輸署提供嘅數字，喺第六段，第五段、第六段，第五段就話：

5 「大概有百分之五十九至到六十五嘅所有意外，係涉及 2016（原文照  
6 錄）年至到 2017 年關乎專營巴士，都唔係撞車類型嘅意外，佢哋一般  
7 嚟講，就係譬如乘客喺巴士裏面，基於好多原因就失咗平衡。」

8 如果你睇下佢九巴 2018 至到 2022，喺同一份嘅文件，佢哋嘅展望嘅計  
9 劃，遠期計劃，8.2.7 段就係話：

10 「大部分嘅意外，有百分之五十一點五係因為乘客喺巴士上面失平衡，  
11 而呢啲嘅個案超過一半係因為係行車嘅時候，巴士剎掣。」

12 我想問你，從數字睇到，有超過百分之五十嘅乘客喺巴士上面嘅受傷係因為  
13 失咗平衡，所以我哋計番，即係最明顯畀出嘅理由就係突然剎車，引致有意外。  
14 你哋工會同唔同意安裝一個減速器，呢個儀器就會幫助架車就會係以某一個速  
15 度，就係減慢。譬如話去到呢個每小時 50 公里或者每小時 70 公里，你哋工會  
16 會唔會同意呢一類型嘅設備？

17 黎兆聰先生：我估你對車唔熟悉，車一路以來都有減速，有吹疏，我相信你哋唔熟悉  
18 車嘅機件性能，減速係有嘅，一個預期，我哋掂一掂架車，有個吹疏，有個減速  
19 器嘅，一路以來，我哋而家嘅車係好先進，一路以來都有減速。但你話要 70 突  
20 然之間剎停架車係有可能，要預期要輕輕掂架車，吹疏，跟住架車會慢慢減速，  
21 唔係急剎，呢個減速係一路以來架車都有呢個裝置，好唔好呀？

22 張子琦先生：主席，我補充一下。啲乘客喺車上好多時受傷，第一，我正話已經講咗  
23 嗰個過燈位嘅問題，令到個司機可能要急剎；第二，就係而家好多人嘅揸車嗰種  
24 態度都唔係咁好，周時喺啲巴士--cut 咗去啲巴士度，巴士要被逼要急剎；第  
25 三，而家亦好多人成日手上攞住部手提電話，係冇把持好扶手，甚至佢坐喺度都  
26 有機會跌咗落地下，都仲有，咁就所以就受傷嘅機會係大咗嘅，啲問題。

27 林天賦先生：黃律師，我補充少少。我哋大嶼山巴士都會有嗰個叫做遲剎嗰個功能，  
28 或者叫逆剎，嗰個功能係輔助減速，已經係有咗嘅。咁我哋喺個山路裏面，都會  
29 用個叫做遲剎，即係統稱，咁係輔助佢落斜嘅，會係好穩定去停部車。

30 Brake 裏面有兩段，頭段係減速，第二段就係如果我哋踩 brake 嘅感覺係  
31 好實淨，brake 皮同隻碟係夾住咗㗎嘞，咁當刻係可以停車嘅，呢個係已經有  
32 㗎。

33 黎兆聰先生：補充，因為佢哋大嶼山有啲係單層旅遊巴，同巴士可能有啲裝置唔一  
34 樣，佢哋簡稱嗰個係叫排氣剎車，佢嗰個一個裝置同我哋可能雙層巴士嗰個裝置  
35 又唔一樣嘅，我哋有個減速，有個吹疏，佢哋有個排氣嘅裝置，佢可以喺個手嘅

1 軟盤啲度，一撻起啲個裝置，就會排風、減速，啲個係旅遊巴個裝置，好唔好？

2 主席：（經傳譯員）林生，仲有冇其他嘢想補充？

3 林天賦先生：得，唔該晒。

4 主席：（經傳譯員）黃律師，如果可以的話，不如我哋而家即係做小休先喇。今朝進  
5 度如何？

6 黃女士：（經傳譯員）我哋遲咗，不過我會小休之後加快番。

7 主席：（經傳譯員）我哋而家會小休，等你哋啱一啱，委員會都要啱一下嘞，休息二  
8 十分鐘，唔該晒。

9

10 上午 11 時 35 分聆訊押後

11

12 上午 11 時 55 分恢復聆訊

13 出席人士如前。

14

15 主席：（經傳譯員）黃律師。

16 黃女士：（經傳譯員）各位，我想去到下一個嘅題目，就係休息嘅設施。喺你嘅文件  
17 就係提過呢一個點嘅，就係基於我哋委員會所收到嘅文件，就似乎喺早於 2010  
18 年大家已經係提出呢一個問題，但係請睇一睇呢一個交通運輸策略研究，係  
19 2015 年 2 月 9 號貴會界委員會嘅，咁係文件 289-76 至到 289-80 頁。

20 主席：（經傳譯員）邊一沓呀？

21 黃女士：（經傳譯員）係 TU 文件，英文就係第 289-200 頁。喺呢一頁就有兩點係  
22 提出嘅，第一就係非法泊車，喺第 3 段講到喺一啲嘅巴士總站非法泊車，第  
23 289-78 頁，同埋英文就係 289-203 頁，第 3 段。

24 而喺呢一份文件第二點，你要指出嘅就係第 7 段，就係話休息嘅設施係不足  
25 夠嘅，中文係第 289-79 頁，英文係 289-203 頁，睇唔睇到？我亦都係想你睇  
26 一睇委員會嘅一封信，就係 7 月 23 號 2018 年，文件 289-331 頁至到 335  
27 頁，淨係得中文嘅啫，就係提出呢一個嘅要求，要求提供進一步資料，就係話設  
28 施不足嘅問題。

29 如果睇 289-333 頁，28 至到 29 段，睇一睇運輸署嘅回應，講到洗手間同  
30 埋休息設施。喺你嘅回應係你有--咁多年嚟，你都話休息嘅設施係唔足夠嘅，你  
31 亦都提供咗幾份嘅文件。自從 2010 年，首先就係 2010 年 6 月 21 號，咁文件

1 中文就係 289-90 第 3 段，英文嘅文件係 289-221 至到 289-222 頁，呢個就  
2 係第 2、第 3 段所講嘅，就係講到公會收集咗一百三十八個巴士車站嘅情況，有  
3 大概百分之五十六點五嘅車站都有洗手間嘅設施，平均車長往返洗手間嘅時間係  
4 如果需要嘅話，係需要大概四分鐘嘅。巴士車長事實係上要五分鐘嘅時間，部分  
5 車站更加需要十分鐘以上先至可以係夠時間去廁所。

6 主席：（經傳譯員）呢啲係 2010 年做嘅觀察，係嘛？

7 黃女士：（經傳譯員）冇錯。我個問題係問你提出咗呢方面嘅意見，咁就係將呢個文  
8 件交畀委員會嘅，呢個問題係咪仍然一個嚴重嘅問題，即係所以你哋公會覺得係  
9 需要解決，需要處理呀？定係話情況已經改善咗？

10 張子琦先生：主席，係有啲改善，但係未曾完全改善，好多而家有啲總站係仍然都係  
11 未有洗手間同埋一啲休息室嘅。尤其有一啲喺屋邨入面想要求安置一個員工嘅休  
12 息室同埋洗手間係非常之困難嘅，所以我哋一再向運輸署反映，舊嘅就一定要同  
13 我哋儘快爭取番嚟，新嘅--以後逢係新設嘅巴士總站必須要有洗手間同埋員工  
14 休息室，呢個先係一個完整配套嘅巴士總站。如果有嘅話，我哋係拒絕呢一種提  
15 供嘅服務嘅。

16 咁有所改善都係基於早前樂華嗰個--我哋發起一個事件，嗰個工業行動，因  
17 為就係房屋署強行咁樣要我哋吊走個休息室，莫視我哋嗰個休息員工嗰個服務嘅  
18 質素，因為有充足嘅休息時間先至可以有一個良好嘅服務。於是我哋工會係喺嗰  
19 一次嘅事件係發起一次工業行動員嘅。自此之後，有所改善，但係好多去到區議  
20 會度，啲區議員都會反對設立一個化糞池或者係休息室，咁就被諸多刁難，令到  
21 呢啲事情未曾完全去解決嘅。

22 主席：（經傳譯員）樂華嗰次嘅事件係咪九巴嘅休息室嚟㗎？

23 張子琦先生：冇錯，由九巴主任回應一下。

24 黎兆聰先生：主席，當陣時我係負責呢個樂華事件嘅，因為我哋收到啲工友，公司就  
25 攞咗個休息室入去，跟住房屋署要求廿四小時之內搬走呢個休息室。如果唔係，  
26 我哋嗰啲工友反映就話以後都唔准擺，所以我哋第二日即刻就馬上做咗一個行  
27 動，就封咗個站半個鐘頭，亦都同啲房屋署嘅官員同埋一啲當區嘅區議員話反映  
28 過。但係唔係話今日講今日做，係反映咗好多年，係受到地區人士反對一個設  
29 施，係令到我哋啲車長周圍坐，周圍食，周圍瞓。呢啲配套冇畀到我哋，我哋係  
30 有一個充足或者一個真正畀我哋休息嘅配套。所以經過嗰次之後，有啲問題可以  
31 解決，但係我知道新巴、城巴頗為嚴重，佢哋可能啲地方配置可能亦都有。而家  
32 講咗十幾年，可能置富花園，我或者畀城巴嗰個主任講下。

33 劉善達先生：主席，我哋城巴或者新巴，置富花園講咗十幾年，但係因為佢哋嗰邊嘅  
34 屋邨嗰啲主席嗰啲就唔畀--反對我哋擺一個休息室或者廁所嗰啲咁嘅設施响  
35 度，所以到而家十幾年，我哋都仲係未擺過嗰啲設施响度，等我哋啲員工可以响  
36 度休息。

1 張子琦先生：主席，龍運巴士主任都有啲嘢補充。

2 陳廣能先生：係，或者我都講下就係龍運巴士呢一度嘅情況。咁喺我哋 E34B，元朗  
3 山水樓開出嘅呢一個路線就喺 2013 年係進行咗一個路線重組。當其時呢條路線  
4 原本就係由呢個天水圍往機場嘅，咁拆咗線之後，就由元朗直至去機場。喺拆咗  
5 線之後，咁喺元朗山水樓設立呢一個總站，就沒有設立員工休息室同埋呢個洗手  
6 間嘅設備。喺我哋多番爭取之下，就公司係同我哋講番，原來就係話受到地區嘅  
7 人士去反對。

8 咁變咗就係話喺整個過程之中，我哋同事喺嗰幾年就係受盡呢一個委屈，例  
9 如佢哋冇地方食飯，佢哋要喺車上面例如食一啲嘅小食。我亦都記得就係話喺  
10 2016 年，我哋有位女同事喺巴士上面食腸粉而係被地區一啲嘅居民影相，將張  
11 相片 post 上去呢個嘅 Facebook，係進行一個嘅公審，讓我哋--令到我哋嘅女  
12 同事係非常受到呢個情緒嘅困擾，佢曾經係喊住對我哋講出呢一件事。

13 喺整個過程之中，我哋嘅同事平時食飯、休息係冇地方，日曬雨淋，去廁所  
14 亦都要去好遠，或者去一個比較唔係咁理想嘅設備嘅廁所，一個廁所嘅設備就係  
15 要經過一個嘅屋苑先行去入去嘅。當中，例如喺夜晚就會比較漆黑一片，咁變咗  
16 就係話佢哋係會有一個安全，即係女同事會有一個安全性嘅困擾。終於就喺  
17 2017 年嘅 8 月先至能夠設立咗呢個休息室，其實當中呢四年其實呢個過程係非  
18 常之長遠，我哋一路以嚟都希望就話喺一條新嘅巴士線設立嘅時候，係必須要有一  
19 個巴士站車長使用設施嘅配套，而係從而令到我哋服務質素能夠係延續同埋提  
20 升。

21 主席：（經傳譯員）呢個休息室係幾時安裝番畀你哋，係幾時嘅事呀？

22 陳廣能先生：如果講番 E34B，元朗山水樓呢一個休息室，係喺 2017 年嘅 8 月安裝  
23 畀我哋嘅，但係佢喺 2013 年呢條線就已經係開始行，運行緊，當中係--期間係  
24 接近四年時間，我哋車長係沒有休息室，沒有呢個嘅洗手間設備係提供畀我哋使  
25 用。

26 主席：（經傳譯員）唔該。

27 黃女士：（經傳譯員）喺你關於新大嶼巴士 2018 年 1 月 3 號交嚟嘅文件，即係話  
28 289-140 頁第 3 段，呢個係中文，英文就係 289-317 頁，就提及到喺新元朗中  
29 心、天水圍天慈邨嘅休息設施。咁嗰個嘅情況有冇改善呀，定係話仍然一樣呀，  
30 天慈邨？即係講緊呢個第 3 段嘅第(i)分段嗰度。

31 林寶強先生：應該就好似早幾個禮拜話擺咗個休息室落去，但係我未過過去，就未肯  
32 定佢擺咗落去嘅。

33 黃女士：（經傳譯員）可唔可以之後將個資料交番畀我哋呀？

34 林寶強先生：好，好，可以嘅。

1 主席：（經傳譯員）林生，你係代表新大嶼山巴士，咁你可唔可以講下，有冇提供到  
2 呀？

3 林寶強先生：你指邊一方面呀？

4 黃女士：（經傳譯員）係休息室。

5 林寶強先生：休息室呢個天慈邨要--我返去睇睇先，因為我係喺大嶼山，呢個喺元朗  
6 區，唔屬大嶼山區，所以我有時間去睇過呢個位置。

7 主席：（經傳譯員）唔該。

8 黃女士：（經傳譯員）喺你交嚟嘅文件裏面，你亦都提過另外一個例子，就係呢一個  
9 工會文件 226-25 頁，即係呢一個嘅頁數係 24，中文係 171 頁，呢個就係話呢  
10 一個鯪魚涌嘅祐民街，你就話已經係經過十年嘅努力，至今一個細小嘅休息空間  
11 都未有提供，情況有冇改善到呀？

12 林天賦先生：唔好意思，呢個係咪我哋工會嘅文件嚟？

13 黃女士：（經傳譯員）呢個係九巴員工嘅文件嚟嘅。

14 林天賦先生：呢個唔係我哋工會下面嘅分會嘅文件。

15 黃女士：Yes, then I won't ask you about this. （經傳譯員）除咗觀塘樂華  
16 邨，即係呢一個係你哋提供嘅一個例子，除此之外，可唔可以畀其他嘅地點作為  
17 例子，你哋覺得巴士車長喺嗰個地方係搵唔到一個適合嘅休息設施嘅？

18 黎兆聰先生：主席，舉例，九巴其實佢而家已經陸續安裝好多裝置，但係有啲裝置係  
19 受到嗰個面積同埋一個管理嘅規限，所以有待去改善呢啲設施。佢係有嘅，例如  
20 舉例，佢個係單亭，個站長室嘅單亭。雙亭喇，個雙亭即係面積可能大少少，  
21 但係係唔能夠供給個車長休息嘅，呢啲例子係有嘅，但係一路係咁改善中，九巴  
22 就。

23 就如果我--嗰啲站頭，咁多個站頭，我相信已經差唔多陸續已經有改善  
24 呢啲配套，我諗七、三之比，即係七成已經有呢啲休息室同埋呢啲化糞池廁所。  
25 可能有三成仲係要經地區或者經區議員，經工會、公司交涉先至喺度等緊呢啲配  
26 置。我哋曾經同公司溝通過，公司承諾係畀嘅，不過只係我哋明白到係真係受到  
27 地區人士阻撓，係擺唔到落去，即係淨係竹園邨一個位置，為咗一個廁所，作為  
28 籌碼，足足講咗十幾年先可以擺一個休息室，即係我舉例講一個例子畀你哋聽，  
29 好唔好呀？

30 陳廣能先生：就我龍運巴士嘅，咁我都補充少少。我哋龍運巴士嘅 E33P 就係 2016  
31 已經係全日服務，咁每一日來回班次係接近六十個班次。喺呢六十個班次，我哋  
32 嘅總站係呢個屯門兆康鐵路站南，係並沒有休息室，亦都並沒有呢個嘅廁所設  
33 施。呢條路線原本佢早年就已經係行緊車，咁喺 2016 年就係全日。咁我哋嘅同  
34 事，車長同事會喺呢一個嘅總站，呢個巴士總站嗰度係會食飯，會係休息，同埋

1 佢哋係會喺嗰個地方--例如係我哋有啲叫做我哋特別車位嗰度，我哋所謂嘅終  
2 點休息嘅，但係嗰個地方係竟然冇休息室，咁就我哋係多番爭取，得番--得到  
3 嘅結果，回覆嘅結果就係話地區同埋喺嗰個嘅運輸署方面係仲未通過。其實呢一  
4 個嘅爭取已經係到到今日已經係接近兩年㗎喇，但係我哋仍然都仲未係見到有一  
5 啲嘅成果係睇得到，亦都未有一啲預見嘅通知係落實畀到我哋。

6 黃女士：（經傳譯員）關於呢個 E33P 呢一個嘅要求係咪用書面提出㗎，即係要嗰度  
7 有個休息室？

8 陳廣能先生：冇錯。

9 黃女士：（經傳譯員）幾時提出呢？

10 陳廣能先生：工會喺 2015 年其實已經係喺我哋工會同公司嘅會議上面係提出，而公  
11 司就一路都係話佢同有關方面去申請呢一個嘅設施。咁問題就只係喺呢個嘅  
12 2016 年區議會喺落實咗話要呢條路線全日服務屯門區嘅居民，但係我哋就話如  
13 果沒有呢一個嘅休息室，其實我哋嘅服務質素會係能夠可以提升到咩嘢層次呢咁  
14 樣，咁公司亦都係將我哋嘅意見係反映番喺區議會，反映番喺運輸署上面，咁到  
15 今日，我哋都--我都講多次，係仍然未有一啲絲毫嘅消息係畀到我哋。

16 黃女士：（經傳譯員）可唔可以畀啲資料我哋，即係你哋書面提出要呢個休息室嘅文  
17 件，有冇？

18 陳廣能先生：我可以稍後提供，遲啲提供畀你哋，今天我未有帶出嚟。

19 主席：（經傳譯員）好，唔該你，當你有嗰份文件，請向我哋提供。

20 黃女士：（經傳譯員）係咪話直至到而家，嗰個嘅位置仲係冇洗手間同埋休息嘅設  
21 施？

22 主席：（經傳譯員）佢咁樣嘅證供。

23 黃女士：（經傳譯員）係。可唔可以有一啲照片畀我哋睇到嗰個位置呢？如果可能嘅  
24 話。

25 陳廣能先生：我都係稍後提供。

26 黃女士：（經傳譯員）唔該。我想去下一個問題，就係非法泊車。未講之前，黎先  
27 生，你可唔可以幫委員會喺呢一方面，九巴就係有一啲分更嘅安排嘅，係咪呀？

28 黎兆聰先生：分更係有嘅，三更制，早更、夜更、特別更，同埋一個 L 車嘅更份，四  
29 個嘅崗位，同埋一個通宵更。早更、夜更、特別車，一個 L 車，一個通宵車，有  
30 呢幾個崗位。

31 主席：（經傳譯員）分更，九巴已經係實行咗好多年㗎喇，係咪呀？

32 黎兆聰先生：呢個一路以來，九龍公司 1933 以來都係有咁樣呢個安排嘅更份，呢啲

1 設置嘅配套，一開始已經係可能--嗰陣時可能未有通宵，可能未有特別車，但  
2 係而家呢幾十年來都係用呢種管理模式。

3 主席：（經傳譯員）嗰啲經過修訂嘅指引就係關於譬如工作時間、食飯嘅時間等等，  
4 喺 2018 年 2 月 23 號就係通告咗，就係改變而家嘅制度，係咪呀？有冇呀？

5 黎兆聰先生：一路以來嘅制度都有嘅，行之已久嘅。你話 2018 年 2 月開始，我唔明  
6 你指出，係咪改變咗呢個制度？照我所知，呢三十幾、四十年來都嗰個制度冇轉  
7 變，係分早更、夜更、特別車、L 車、通宵車，呢幾個崗位呢幾十年來都係冇轉  
8 變過。轉變係有嘅，L 車可能係呢幾--我諗呢五年內係會有呢個 L 車。呢個 L  
9 車設置就係喺中段插落去個字軌嗰度，佢係喺個站頭接更，喺個站頭收工，係唔  
10 使揸架車返廠入油嘅，呢個...

11 林天賦先生：主席，我聽我哋黎主任咁講，應該就係運輸署公布咗呢個新嘅工作指引  
12 之後，九巴嗰個編更嘅制度應該仲係冇改變嘅。

13 主席：（經傳譯員）黃女士，可唔可以將嗰啲新嘅指引擺出嚟呢？我心目中諗嘅，就  
14 係嗰啲嘅情況係會安排，就係一個十四個鐘嘅當更，中間係會有三小時嘅休息。

15 黃女士：（經傳譯員）係 CTB，即係城巴嘅 2 號文件第 2 頁。

16 黎兆聰先生：我明白主席想講乜嘢，嗰個指引喺 2018 年 2 月推出嚟，運輸署係畀時  
17 間巴士公司喺 2019 年嘅第二季度實行佢呢啲指引嘅，我明白你嘅意思，主席。  
18 我想再補充，嗰啲特別車同埋嗰啲 L 車係愛嚟擘嗰啲車長食飯，呢啲字軌，咁可  
19 能--唔知呢個補充 o 唔 okay？

20 主席：（經傳譯員）我想你幫下手嘅，就係話要求提供一段不少於連續三小時嘅休息  
21 時間，即係有一啲特別更次呢一點。

22 黎兆聰先生：呢一點，特別車三小時休息係一路以來都有實行嘅，呢個係最基本嘅，  
23 就算係之前運輸署嘅指引，公司係有跟足嘅，特別車嘅更分必須要有三小時休  
24 息，呢個係一路以來都有行緊嘅措施嚟嘅。

25 主席：（經傳譯員）呢個係咪九巴嘅政策嚟㗎，抑或係運輸署嘅要求嚟㗎？

26 黎兆聰先生：呢個政策，九巴相信係暫時獨有嘅，龍運都可能一樣，我諗新巴、城巴  
27 冇呢啲嘅。我哋特別車係呢個崗位係行咗一段時間，佢嘅功能就係愛嚟擘我哋  
28 車長食飯，同埋行一個繁忙時間，上面一個--朝頭早一個繁忙時間，跟住畀一  
29 個 break 佢，連埋食飯三小時，或者係一個休息畀佢，跟住下一段佢就再去做  
30 番下一段嘅時間，呢個係特別車嗰個安排，係咁多年來都係咁樣做。

31 主席：（經傳譯員）黃女士，可唔可以睇下指引四？喺下面嗰度。

32 黃女士：Yes.

33 主席：（經傳譯員）呢度係咪有一個特別更嘅一個解釋，呢個就係要喺朝早嘅時候

1 嘅，係咪呀？1(b)，睇唔睇到？1(b)個度，黎先生，你睇唔睇到 1(b)？

2 黎兆聰先生：我睇到。

3 主席：（經傳譯員）即係幾時係准許有十四小時嘅當值呢？就話要係揸十個小時嘅  
4 車，只係限於喺因應上、下午繁忙時間嘅服務需要，即係朝早同埋下晝嘅繁忙時  
5 間，呢個係咪一個新嘅規例呢？一個新嘅規定，定唔係新嘅呢？

6 黎兆聰先生：主席，喺 2010 年嘅 10 月修訂版個度，指引(b)個度有寫話不應超過  
7 十四小時嘅。跟住 18 年，我了解到就話亦都有個修訂，講緊十二小時至十四小  
8 時之間，係不應--即係呢個問題三小時休息個度係有修改嘅。不過我可以反映  
9 㗎，主席，我哋有個車隊涉及三千七百幾部車，其實呢啲十四小時係唔多嘅，真  
10 係唔多嘅，我諗一成都可能差唔多會有呢個問題。但係佢哋呢個崗位十四小時，  
11 佢哋係可能作息係做咗幾十年，可能有二、三十年呢啲車長係適應咗呢個崗位，  
12 佢個生活作息同埋佢中間可能唔只三小時，可能有五小時或者四小時，因應啲  
13 條路線時間去配合嘅，所以你想問呢個十四小時呢個問題係咪想問呢一點嘅，主  
14 席？

15 主席：（經傳譯員）唔係，我想問嘅係關於呢啲嘅車長如果佢哋要揸十四個小時車嘅  
16 話，佢哋落咗車嚟到去休息個個不少於三個小時，我想問佢哋呢啲嘅車長喺休息  
17 嘅時候有啲咩設施呢？喺邊度搵到呢啲休息設施呢？

18 黎兆聰先生：都要睇下個站頭設施足唔足夠，可能佢揀一啲路線會迎合番佢自己所住  
19 嘅區，等自己可以返到屋企。都有啲例外，有啲係唔係住佢自己個區，例如有啲  
20 九龍灣廠，佢住屯門，佢都有呢啲問題出現嘅，佢可能唯有喺休息息搵地方休  
21 息，或者搵個架車休息，或者返廠休息，咁呢個可能佢要自己去選擇一個休息地  
22 方。

23 個設置夠唔夠呢？可能七成夠，可能有三成唔夠，但係大多數啲車長都係  
24 用番佢自己所近嘅路線，近自己屋企。同埋或者佢做咗咁多年啲路線，可能佢  
25 習慣咗，佢唔想周圍走，佢都會揀啲條路線，選擇喺啲條路線，唔會離開啲條路  
26 線。但係你話有休息室配唔配置到，迎唔迎合到佢呢？咁我相信有啲未必迎合到  
27 佢嘅，可能有時啲休息室有人飯飯，會嘈呀，咁可能會選擇一啲連鎖店或者麥當  
28 勞、大快活，搵啲地方去休息，咁呢啲我哋經常會收到呢啲個案嘅，但係你話佢  
29 足唔足夠一個休息嘅設置呢？我可以答你一半一半喇，要睇個車長適唔適合到  
30 佢，佢自己安唔安排到呢個時間自己去休息。但係我相信，佢揀得呢個崗位，佢  
31 會利用呢啲時間分配好佢自己休息，喺搵邊個地方同埋點樣去令到自己有充足嘅  
32 時間休息。

33 主席：（經傳譯員）你可唔可以係建議一個地點畀我哋委員會呢個禮拜去參觀一下，  
34 即係個度係唔夠休息嘅設施畀呢啲車長去休息個個不少於三個小時嘅時間嘅？

35 黎兆聰先生：我補充，主席，例如舊陣時，廠係有休息室嘅，咁佢都整咗啲睡眠區。  
36 第二，就有站車嘅休息室。第三，就係佢鄰近佢自己屋企，返屋企休息。咁特別

1 車崗位應該有一千五百個字軌，涉及可能有千八人嘅喇，呢個特別車，即係你針  
2 對十四小時，呢啲係特別更嘅車長，我約莫講呢個數字畀你聽，主席，好唔好  
3 呀？咁特別車佢分兩段，我都啱啱重複，同埋 L 車佢都有分早 L 同夜 L 嘅，中  
4 間係冇得休息嘅，佢係直落嘅。咁 L 車都係，個功能都係一樣，都係食飯。

5 陳廣能先生：主席，我想補充一下，就係我剛才都講咗，E33P 兆康鐵路站南呢一個  
6 嘅巴士總站係並沒有休息室。喺呢一條路線，佢哋亦都係有一個嘅同事需要係喺  
7 嗰度休息嘅。如果主席係想睇一睇呢個嘅總站，可以安排時間一齊去睇。

8 黎兆聰先生：唔好意思，主席...

9 主席：（經傳譯員）等等，黎生，你要等一等，要翻譯完先。你建議話我哋可以去睇  
10 下，就話嗰度係有休息設施，係咪呀？

11 陳廣能先生：冇錯。

12 主席：（經傳譯員）呢一個地點係咪巴士車長係會因為要返特別更，中間落場嘅時  
13 候，喺嗰度要休息不超過--係呢一個不少於三個連續小時嘅地點㗎？

14 陳廣能先生：冇錯。

15 主席：（經傳譯員）唔該。黎生，好，到你，你可唔可以畀個例子我哋，可以去邊度  
16 去睇呢？集中番個問題，就係話我哋可以去邊度，邊個地點去睇一啲係個設施不  
17 足以讓一個返特別更嘅車長喺嗰度休息不少於三個連續小時嘅地點？

18 黎兆聰先生：一個月輪廠不足休息室嘅設施，月輪廠，嗰度可能有啲車長會泊嗰啲車  
19 喺嗰度中段休息嘅，喺美孚嘅。佢如果真係有呢個休息室，佢可能會喺架車度  
20 瞓，或者搵一啲地方適合到自己喺嗰度瞓，呢個係舉例一個例子。如果我有，我  
21 或者稍後補充，好唔好呀？

22 主席：（經傳譯員）係，畀三、四個呢啲地點，等我哋去睇下。我哋想睇嘅，就係譬  
23 如話有十個車長就係要中間落場休息三個鐘，但係原來嗰度得三個位嘅啫，你知  
24 道我哋想睇啲咩嘢未呀？

25 陳廣能先生：都補充一下，我哋龍運巴士 A43 喺粉嶺嘅聯和墟係有設立到車長休息  
26 室，但係呢個車長休息室只能夠係容納三位嘅車長去休息。我哋喺休息嘅時間，  
27 落場嘅時間，即係俗語講落場嘅時間，我哋經常性地係有六位或以上嘅車長需要  
28 使用呢一個嘅車長休息室，咁就形成咗有不足設施嘅情況出現。

29 林天賦先生：主席，我想...

30 主席：（經傳譯員）你可唔可以再重複一次個地點？

31 陳廣能先生：龍運巴士 A43，粉嶺聯和墟總站。

32 主席：（經傳譯員）唔該。

1 林天賦先生：我哋嘅工作人員提醒我哋，都有巴士公司代表在場，所以我希望主席你  
2 睇個幾個場地係真實嘅情況，唔係巴士公司安排之下嘅情況。

3 黎兆聰先生：我想提供多三個畀你睇睇，好唔好呀？主席。一個青衣廠，一個青衣鐵  
4 路站，一個觀塘碼頭係有啲嘢配置畀到我哋嘅，即係啲嘢休息室。咁你睇睇呢四  
5 個，或者搵我哋公司有代表，你可以問佢，佢都掌握嘅，應該知道嘅。因為我哋  
6 工會一路有同佢溝通嘅，唔係今日講今日做嘅，一路有溝通爭取嘅。

7 主席：Thank you.

8 黎兆聰先生：Welcome.

9 主席：（經傳譯員）唔該。黃律師。

10 黃女士：（經傳譯員）呢個即係兩味更，要落場嘅，你就話即係呢一種嘅特別更，九  
11 巴一直都有咁樣嘅安排，可唔可以講下，係幾時開始你哋會有呢個特別更㗎？我  
12 想問，因為我會畀你睇一個表嘅，就係雜項文件 897 至到 898，係一個比較嘅  
13 表格嚟嘅，比較嘅表。如果睇番呢個表，呢一個嘅指引其實已經嚟四次修訂過  
14 嘅，04 年、07 年、10 年，最後一次就係 2018 年嘅 2 月，咁係有關於特別更  
15 嘅安排。請你睇 898 頁，呢個其實係嚟呢一個 2018 年 2 月先至引入嘅，睇番  
16 最耐個一欄就話係特別更，備註就話係特登為咗朝頭早同埋放工繁忙時間而定  
17 嘅，所以嚟 2018 年嘅 2 月先至引入特別更。但係頭先你所講嘅答案似乎就係話  
18 呢個咁樣特別更，要分開嘅，即係拆開兩個嚟返嘅，就係一早已經有嘅，你所講  
19 嘅係話有關--你提過呢個表係有關於呢一個安排嘅指引？

20 主席：By that you mean the guideline in relation to it?

21 黃女士：The guideline in relation to it.

22 黎兆聰先生：我想更正你個講法，唔係 2018 年先有呢啲特別車嘅崗位，係呢三十  
23 年以上都有呢啲特別車嘅崗位。你講 2018 年 2 月實施呢啲措施，運輸署係有畀  
24 巴士公司於 2019 年第二個季度執行佢呢樣嘢，你要畀時間佢嘅，佢要跟你呢個  
25 制度可能要一啲時間，一啲人手，同埋呢三小時休息係一路以來都有嘅，好唔好  
26 呀？

27 黃女士：Yes.

28 張子琦先生：主席，等我補充一下，十四小時嘅工作嚟運輸署嘅指引底下，就一直都  
29 有沿用嘅。咁就自從發生交通意外之後，好多人都指責十四小時駕駛係導致疲勞  
30 駕駛，但係就有清楚劃分開一更車同埋特別車呢個區別。因為十四小時嚟九巴嚟  
31 講，一向都係畀一啲特別車做嘅，中段佢有三小時休息，再加埋一小時食飯，大  
32 約四個小時休息嘅，但係就一直都唔會將十四小時擺嚟一更車度做。一更車即係  
33 話中段有休息，基本上係直落嘅。所以最新嘅指引嚟 18 年呢個修訂案，就將呢  
34 個十四小時界定為係特別車，就並非一更車。

1 呢個「特別車」歷史悠久，主要係用於兩段嘅繁忙時間，一個係返工，一個  
2 係放工，亦因為呢兩個時間都係大多數出現嘅早上 6 點至晚上嘅 6 點，所以呢個  
3 特別更車如果做晒呢兩個繁忙時間，就係會有跨幅個度要去到十四小時。因為佢  
4 六點鐘上完車，車完嘅客去到總站，佢仲要揸番部車返廠，所以連出廠，連入廠  
5 大約係要有成十三、四個鐘頭嘅工作時間嘅。但係根據做呢啲更份嘅車長反映，  
6 佢哋認為做呢啲更份並不導致疲勞駕駛，雖然係十四小時，但係佢哋畀做一更車  
7 更加舒服，呢啲係特別更啲車長嘅反映嚟嘅。

8 或者我哋度都有兩個做呢個特別更嘅，一個就係龍運嘅主任，你可以補充  
9 下。

10 主席：（經傳譯員）你一陣可以嘅，不過請你先答咗呢個問題先，即係喺呢一個嘅  
11 17 年 9 月 22 號發生意外之後，運輸署就做咗一個檢討，整咗一個係工作休息  
12 用膳時間指引嘅修訂嘅，係嘛？

13 張子琦先生：係，冇錯。

14 主席：（經傳譯員）有啲工會就建議個工作嘅時間係應該限嘅十二小時，係嘛？

15 張子琦先生：噯，係嘅。

16 主席：（經傳譯員）你哋工會向運輸署喺呢一個課題上面，你哋嘅立場係乜嘢呀？

17 張子琦先生：我哋個工會個立場係持開放態度，最主要就係要改善員工個作息係擺  
18 喺首位，從而令到服務質素提高，尤其安全問題係擺喺首位嘅。

19 林天賦先生：主席，我哋喺見運輸及房屋局局長陳帆個陣時都講得比較清楚。第一，  
20 呢個十四小時係工作嘅時間上限，唔代表所有嘅司機都係要做十二小時工作，因  
21 為入面都規定咗揸車時間唔准超過十小時，呢個第一點。

22 第二點，就喺呢個十四小時，因為如果減到十二小時嘅話，對員工個收入會  
23 有比較大嘅影響。因為我哋有啲會員都講，如果十四小時減落嚟嘅話，每日減兩  
24 小時嘅話，佢哋嘅收入每個月會減大約 5,000 蚊，5,000 蚊左右，即係佢佔咗  
25 家庭收入嘅一大部分。

26 第三個，如果要十四小時減到十二小時，即係巴士公司需要將呢啲時間畀咗  
27 其他人，其他本來工時相對短嘅員工去做呢個負擔，負起呢個駕駛任務。因為呢  
28 十四小時如果係簡單--九巴有二千個員工嘅話，佢即係每日要有四千個小時嘅工  
29 作時間，起碼要請四百人以上。要聘請一個，訓練好一個專業嘅車長，時間唔係  
30 短時間可以得到嘅，所以呢個見到就話如果呢啲工作時間喺短期入面有可能達成  
31 嘅話，呢個變咗--工作時間應該係變咗而家啲工時比較短嘅人要變咗兼負咗。

32 呢個所以我哋講嘅，所以整體要巴士安全唔係喺個工時個度著眼點，反而係  
33 休息時間更加重要，休息嘅設施更加重要，比巴士司機，巴士車長有好嘅工作條  
34 件，好嘅工作環境，咁呢個就係唔可以單純去睇，將呢個十四小時將佢醜化佢，

1 因為巴士公司又好，巴士車長又好，佢需要彈性。

2 頭先黎兆聰提到一點嘅，其實巴士嗰個車長要開特別更嘅，佢哋要申請嘅，  
3 唔係話巴士公司安排嘅，即係佢自願，佢考慮自己實際情況去申請嘅，所以呢個  
4 結合理巴士個車長佢實際嘅處境。如果將所有嘢抽離嘅話，單純睇數字，或者單  
5 純睇呢個文件嘅話，可能對巴士行業嘅實際操作，我哋覺係有啲脫離呢個巴士行  
6 業嘅運作。

7 主席：（經傳譯員）你頭先提及過係見局長嘅，嗰次係咪舊年 10 月 17 號嘅會面嚟  
8 㗎？

9 林天賦先生：係，運輸署都有見，都有提到嘅。

10 主席：（經傳譯員）係。你就話係一個通知嚟嘅，通知--係工會發出通告。或者可以  
11 將呢一份文件帶出嚟，英文係 289-274 頁，或者你將呢個中文版本打出螢幕。

12 林天賦先生：錯咗，應該喺最近陳詞，最耐嘅一份最底嘅度。

13 黃女士：（經傳譯員）289-337 就係 2018 年 7 月 26 日，係咪呀？咁去到 336，  
14 289-336 頁，耐二個一段。英文就係 289-337-2。

15 主席：（經傳譯員）而家就係 10 月 17 號 2017 年，總工會關於呢一個會議，我其  
16 實就係想睇下嗰一份會議嘅通告啫。

17 林天賦先生：同埋 289-119。

18 主席：（經傳譯員）文件就係講喺 2017 年 10 月 17 號，就係總會就同五間巴士分  
19 會同局長見面，係咪呢一份文件呀？

20 林天賦先生：係，yes。

21 主席：（經傳譯員）第一點，係咪呀？「不能在短期內一刀切地下調工作指引中嘅工  
22 時上限，而應制度過渡或階段性措施嚟處理呢個問題」，即係應該要係有一啲過  
23 渡或者係階段性嘅措施嚟到去處理嘅，係咪呀？

24 林天賦先生：可以咁樣理解，因為陳帆局長--okay，係，啱呀。

25 主席：（經傳譯員）我而家就係想問，呢個係咪工會嘅立場呢？係咪你哋咁樣嘅建議  
26 呢？

27 林天賦先生：冇錯。

28 主席：（經傳譯員）咁有啲嘅職工就係話十二個鐘頭應該係上限，但係你就話唔係  
29 㗎，你覺得係應該要繼續十四個小時嘅呢一個當值，係咪呀？

30 林天賦先生：可以咁理解。

31 主席：（經傳譯員）但係正如你咁講，呢個要有好啲嘅休息設施同埋其他嘅措施，係

1 咪呀？呢個係咪你哋嘅立場呀？

2 林天賦先生：仲有休息時間。

3 主席：（經傳譯員）另外，喺英文個翻譯最低嗰度就話如果係打算縮減呢個嘅工作時  
4 數，就要確保係前線員工嗰個嘅薪酬唔會係大大咁受影響嘅。

5 林天賦先生：都講咗嗰十四小時減到十二小時，一個員工每一個月大概可能就減少  
6 5,000 釐左右嘅收入。

7 主席：（經傳譯員）你講嘅呢個立場，呢個立場，2017 年係咪咁嘅立場？即係關乎  
8 嗰個最高當值時間嘅指引，你 2015 年當運輸署問工會，話可能係更改或者修訂  
9 呢啲指引，當時你哋係咪同一個立場？

10 林天賦先生：冇錯。

11 主席：（經傳譯員）咁你係知道其實 2015 年，其實工會之間係有一啲嘅分歧，有啲  
12 就話要最多當值時間係十二小時，而你哋就係話連續當值十四時，你知唔知有咁  
13 嘅分歧嘅呢？

14 林天賦先生：2017 年我哋就知，係 2017 年，應該 18 年我哋先知，以前我哋比較少  
15 聽到有人咁樣講。

16 主席：（經傳譯員）起碼幫下我，一般嚟講，當你同運輸署或者係局長見面嘅時候，  
17 有冇呢啲嘅情況，係所有嘅工會喺同一個嘅場合會見，抑或你哋係分批同運輸署  
18 或者係局長見面嘅呢？

19 林天賦先生：我哋係分批見面嘅，我哋有一齊見面。

20 主席：（經傳譯員）咁你知唔知點解係咁嘅安排嘅呢？

21 林天賦先生：因為我哋同運輸署長期都係有一個不定期嘅會面，呢啲係雙方嘅共識。

22 第二，如果真係要反映專營巴士員工所面對嘅問題，只係得我哋一間工會有  
23 五間巴士分會，有齊巴士分會。

24 第三，有部分工會或者好大部分工會一開始對住我哋工會採取咗敵對，甚至  
25 係攻擊嘅態度，呢個令到大家嘅合作空間係冇嘅。

26 第四，喺大家討論關於專營巴士員工面對嘅問題，大家嘅觀點立場都不一  
27 致，所以上到去同官員講，一個一個講。

28 第五，我哋嘅每一次去到見運輸署官員嗰陣時，我哋都徵詢過我哋嘅幹  
29 事，或者係開專題會議去討論究竟係討論乜嘢話題。

30 第六，我哋嘅工會工作人員覆蓋面，即係喺所有嘅五間巴士公司入面，都有  
31 唔同嘅工作人員喺各個唔同嘅區工作，所以我哋覺得我哋掌握嘅情況會準確反映  
32 到大部分員工嘅意見。

1 第七，我哋工會從來冇喺即係大庭廣眾去批評其他工會，所以我哋唔希望呢  
2 啲事情繼續喺運輸署嘅會議入面發生。

3 主席：（經傳譯員）唔該。黃律師。

4 黃女士：（經傳譯員）可唔可以睇下《蘋果》呢一份報紙嘅報道？《蘋果日報》，就  
5 係 260...

6 主席：（經傳譯員）咩嘢，邊一份？

7 黃女士：（經傳譯員）工會文件 1B，中文就喺 260-257、258。至於英文就係  
8 260-258-2。如果你睇下喺最底嗰度間住嘅，用深色字寫嘅文字，嗰度係提到  
9 運輸署現有嘅指引。但係喺呢一段嘅上一段，就係話自從一三年開始，巴職盟向  
10 運輸署要求修改指引，減工時同埋改善用膳時間，但係運輸署答覆話所有巴士公  
11 司都表示修訂指引會影響現有編更，佢哋需要額外增聘車長，長期營運開支將會  
12 增加，於是乎唔能夠係有共識嘅。

13 下面就寫運輸署日前表示，現時嘅指引係經諮詢專營巴士公司及工會後而制  
14 定，就佢哋認為如果而家係去要--運輸署就係用呢個理據，但係一直未正視巴士  
15 車長底薪過低，不斷加班增加外快嘅現象，因為署方認為車長薪金由巴士公司同  
16 員工商討，並同由市場調節嘅。咁就睇嚟呢，呢一度嘅報道係引述你哋嘅總工會  
17 就係其中一個原因引致個指引冇將嗰個嘅當值時間減到十二個鐘。我諗呢個未必  
18 係一個正確嘅表達，因為嗰度講所有嘅專營巴士公司都係反對呢一點嘅，呢個只  
19 不過係--即係你可唔可以同我哋確認呢個係咪你哋嘅立場呢？可唔可以講《蘋果  
20 日報》裏面所表達嘅係你哋總工會嘅立場呢，係咪呢？

21 林天賦先生：《蘋果日報》對於新聞報道，我哋覺得係有啲偏頗嘅。第二，講我哋工  
22 會，我哋係一套方案話畀運輸署聽嘅，唔可以咁樣抽離嚟睇，因為我要考慮巴士  
23 安全，就係淨係講工時，呢個係有欠公允嘅。第三，運輸署其實喺嗰個制訂指引  
24 嗰陣時，同我哋工會開過會嘅，有徵詢我哋意見嘅。咁佢最後嘅講法都係咩嘢  
25 呢？平衡各方，唔係淨係聽晒我哋工會一方面嘅意見，所以淨係講我哋工會提出  
26 嘅意見，運輸署全盤接受，呢個係唔準確嘅。

27 主席：（經傳譯員）唔該。

28 黃女士：（經傳譯員）唔該。為完整，另外，《東方日報》有另外一張嘅報道。

29 主席：（經傳譯員）我諗代表已經將佢哋嘅立場講得好清楚，我哋唔需要再去講報紙  
30 嘅報道。

31 黃女士：（經傳譯員）咁好，去番你哋向委員會係 7 月 26 號 2018 年嗰個嘅文件，  
32 第 289-337-2 咁嘅文件；另外中文就係 289-336，喺工會文件。

33 主席：（經傳譯員）我哋而家係會講咩嘢嘅話題。

34 黃女士：（經傳譯員）我想同佢哋確認一點，就係運輸署--喺你哋嘅文件就話運輸署

1 冇諮詢過總工會，然後就係喺 10 月 6 號同埋 17 號之間係冇諮詢過你哋，然後  
2 就已經係發出 2018 年 2 月嘅指引。咁即係話佢哋喺 10 月 6 號同埋 17 號 2017  
3 年同你哋會面，但係佢哋係等到 2018 年 2 月 23 號公布咗新嘅指引先再同你哋  
4 總工會嚟到會面，係咪呀？呢個係咪你哋嘅立場？

5 林天賦先生：其實文件寫得清楚，2017 年嘅 10 月 6 號見面，然後就關於呢個修  
6 改--修訂工作指引，就我哋表達意見。然後喺 2018 年嘅 2 月 23 號，佢就公  
7 布，中間就有同我哋再次溝通，咁呢個就係運輸署同我哋工會嚟處理呢件事嘅個  
8 個內容。

9 黃女士：（經傳譯員）係，我睇到個時間。

10 主席：（經傳譯員）係。各位，我知道淨係請你哋今朝嚟嘅啫，不過而家我哋係要嘅  
11 時間要多啲，你願唔願意食完飯返嚟再講埋其餘嘅部分，我哋先至再聽其他工  
12 會代表嘅證供？食完飯再返嚟。

13 黎兆聰先生：我有個活動應承咗幾十人一個活動，我甩咗底，我要去返西貢會合番啲  
14 人，我或者搵番個九巴分會嘅代表替番我其餘啲，我唔知得唔得？

15 林天賦先生：可以嘅，多謝主席。

16 主席：（經傳譯員）張生呢？你下晝可唔可以出席呀？

17 張子琦先生：Yes，可以。

18 主席：（經傳譯員）黎生咁樣處理，好唔好呢？你願唔願意咁做呢，或者咁樣講？

19 黎兆聰先生：主席，我哋做工會係有一個好責任性嘅團隊，我今日兼負呢個責任，我  
20 一個船河嘅 party 有五十幾人，我唔參與，佢哋幾乎都要取消。作為工會係負  
21 責任嘅，一個活動，一個領導，呢啲活動就必須要去參與。如果我可以應承你，  
22 或者我逗留多一陣，你所想講嘅嘢，我盡量解答你，好唔好呀？

23 主席：（經傳譯員）但係我哋都唔想話因為即係留住你，等你去唔到呢一個船河嘅活  
24 動，但係我哋會做嘅。如果我哋而家繼續做多一陣，係咪會好啲呢？黎生。

25 黎兆聰先生：唔好兜咁多個圈，重點講啲，我相信可以解答到你。如果可能呢，半  
26 個鐘或者三個字，你所提出嘅重點，我解釋到畀你聽，我願意留低嘅。

27 主席：（經傳譯員）咁即係有時講周邊嘅嘢就係會即係妨礙到我哋，令到我哋唔可以  
28 準時完成，兩邊都係要咁做。黃律師，繼續。

29 黃女士：（經傳譯員）可唔可以請你睇一份文件，係運輸署嘅文件嚟嘅，就係呢個  
30 18 年嘅 7 月 20 號。

31 主席：（經傳譯員）咩嘢文件嚟㗎？

32 黃女士：（經傳譯員）呢份文件係回應番委員會嘅文件。

1 主席：（經傳譯員）處理咩嘢課題㗎？

2 黃女士：（經傳譯員）就係有關於訓練巴士車長嘅一個作業守則㗎嘅，作業備考。或  
3 者請你睇下運輸署文件 1 號 427 頁，就係第一頁㗎嘅，有關於訓練車長嘅部分  
4 就係 435 頁可以搵到。第二格，上面就話運輸署最近向專營巴士公司--435，  
5 係運輸署文件㗎嘅，435 頁。

6 主席：（經傳譯員）繼續。

7 黃女士：（經傳譯員）呢度提及話運輸署最近就發出咗一個作業備考畀專營巴士公司  
8 嘅營運者嘅，有關於係訓練巴士車長，我想問...

9 主席：（經傳譯員）英文㗎㗎嘛，所以你需要讀出嚟，可以翻譯畀佢聽。

10 黃女士：（經傳譯員）運輸署最近發出咗作業備考畀經營者，係有關於訓練巴士車  
11 長，咁就要將唔同專營巴士公司佢哋訓練嘅安排變得一致。同時係就於巴士車長  
12 訓練系統要釐定一個係相同嘅框架，咁分時段就係 2018 年 10 月開始執行嘅。  
13 雖然咁--跟住落去嘅就係講另外一樣嘢，我想問嘅問題就係呢份嘅作業備考有  
14 冇發出畀你哋工會呀？即係等你哋去評論一下，唔會話係咪評論喇，咁有冇將呢  
15 一份嘅作業備考係畀一份你哋呀？

16 黎兆聰先生：你講嗰個訓練指引，我哋唔知係咩嘢㗎，應該有收到，即係我講緊九巴  
17 吓，我有收到呢個新指引。

18 張子琦先生：所有巴士都有，五間巴士都有，主席。

19 主席：（經傳譯員）咁有冇就於呢個嘅改變，即係培訓改變，即係會點樣監察同埋其  
20 他嘅事項，有冇諮詢過你哋呀？

21 黎兆聰先生：唔好意思，主席，我睇到 2018 年 10 月，而家先 7 月，會唔會有啲日  
22 子打錯咗呢？佢寫實施日期㗎，我哋未收到呢個訊息，咁你打 2018 年 10 月，  
23 即係而家現在應該未有呢個通知。

24 主席：（經傳譯員）唔係，嗰份嘅實務說明已經係發出咗，不過係呢一個實施時段就  
25 係將來 10 月，但係已經發出咗實務說明。問題就係問有冇就於培訓嘅修訂，安  
26 排包括乜嘢，點樣監察，點樣去規範，有冇人去諮詢過你哋呀？

27 劉善達先生：城巴方面係有諮詢過嘅。

28 主席：（經傳譯員）可唔可以畀詳情呀？

29 劉善達先生：佢同我哋講過嗰個訓練個方法，即係個車長佢跟完線之後，就要去自己  
30 揸過一轉，有問題先至畀佢行嗰條路線嘅。如果係有訓練過，或者有跟過嘅話，  
31 就唔准許行嗰條路線嘅。

32 黎兆聰先生：九巴呢度有補充。之前有啲路線可以用跟車住嘅，經工會反映咗之後，  
33 意外之後，公司係唔准跟車，要操車，一架車如果普通一個路線就六個人，如果

1 操過海線就三個人。不過係佢單方面修改，係冇通知過工會嘅，即係講九巴呢  
2 度，好唔好呀？

3 張子琦先生：大嶼山...

4 主席：（經傳譯員）唔好意思，等等。劉生，我想再進一步問，你頭先講黎生話有諮  
5 詢過你哋個嗰，佢哋話，佢哋係指乜嘢呀？

6 劉善達先生：管理層。

7 主席：（經傳譯員）係城巴呀？

8 劉善達先生：城巴，係。

9 主席：（經傳譯員）運輸署有冇諮詢過你哋呀？

10 劉善達先生：冇。

11 主席：（經傳譯員）係，張生。

12 張子琦先生：冇嘅，所以呢啲措施到底係咪運輸署嘅指引，我哋係唔清楚，只不過係  
13 自從發生交通意外之後，幾間巴士公司都作出一啲修訂，就唔清楚呢啲修訂、呢  
14 啲指引係咪嚟自運輸署，佢冇同我哋清楚交代呢樣嘢。

15 主席：（經傳譯員）你話交通意外，你係咪指呢一個嘅 18 年 2 月 10 號大埔公路嗰  
16 次嘅意外呀？

17 張子琦先生：冇錯，係。

18 主席：（經傳譯員）黃律師。

19 黃女士：（經傳譯員）我想講另外一個課題，就係有關於嗰個車速顯示器嘅。我哋曾  
20 經聽過一啲嘅證供，就話專營巴士營運商就關注車速顯示器，話會引起車長同埋  
21 乘客之間嘅爭執，因而會令到巴士車長係受到額外嘅壓力，咁就可能引起呢一  
22 個交通安全嘅問題，所以我就想問下，呢個咁嘅觀點，你哋工會係咪同意咁樣嘅  
23 講法㗎？

24 劉善達先生：係。

25 林天賦先生：呢個問題我哋未討論過，但係我哋覺得專營巴士車長佢會因應住每一條  
26 道路實際嘅交通限制，佢會駕駛巴士，但係乘客唔係，所以呢個可能真係會引起  
27 誤會，甚至磨擦。

28 黎兆聰先生：我可以補充，如果你講呢啲車速嗰個顯示器喺小巴，亦都係可能十零個  
29 人嘅磨擦。如果你話裝喺巴士嗰度，如果起哄，百幾人起哄，嗰班車唔使行㗎  
30 嘞。因為我相信我哋一個專業嘅車長，車速調控係適當嘅，係一個資深或者一個  
31 有經驗嘅駕駛者，好唔好呀？

1 張子琦先生：主席，我補充下，其實而家好多巴士，我哋因為係有一個提示器，佢只  
2 要一到七十公里就會響嘅。而且我哋啲巴士完全係鎖死咗七十嘅，喺基本上係  
3 直路、平路都係唔會超過七十嘅，所以裝一啲啲顯示器出嚟，會唔會有時或者  
4 落斜啲十秒、八秒過少少，七十一、七十二，又會有乘客出嚟投訴，會產生一啲  
5 磨擦呢？我哋真係難以推斷會發生咩嘢事。

6 主席：（經傳譯員）你講話一啲顯示就話係即係七十，如果其實嗰段道路係限速五十  
7 公里嘅話，呢個顯示器都有乜用㗎喇，係咪呀？

8 張子琦先生：仲有，我哋啲巴士係而家有 GPS，係睇到嚟每一段路會唔會超速嘅，  
9 所以我哋絕大多數嘅車長都係唔會超速駕駛。如果唔係，佢就要返公司見，所以  
10 呢個資源攞落去係咪值得呢？我哋有個疑問，會唔會擺喺第二啲度仲好啲呢？

11 主席：（經傳譯員）唔該晒你嘅意見，我哋而家真係要停。如果係黎生你食完飯可以  
12 返嚟就即係更好。我想請大家喺兩點半再返嚟繼續提供呢個口述證供，唔該  
13 晒。

14

15 下午 1 時 12 分聆訊押後

16

17 下午 2 時 31 分恢復聆訊

18 出席人士如前。

19

20 主席：（經傳譯員）午安，黃大律師。

21 黃女士：（經傳譯員）第二個我哋想問嘅問題就係關於非法泊車嘅。我哋要聽取你哋  
22 嘅證供，就係話係喺呢個總站嗰度有違例泊車嘅，咁就係令到嗰啲嘅巴士返番  
23 去總站比較難，亦都有問題嘅，咁亦都有安全嘅問題，因為違例泊車嘅原因。  
24 你哋個工會有發現到違例泊車係一個問題，你係需要同運輸署同埋警方係提出  
25 呢一個嘅違例泊車嘅問題？

26 張子琦先生：有嘅，主席，我哋多次向運輸署反映，喺巴士站裏面經常被外來嘅車輛  
27 喺度停泊，阻塞巴士嘅上落客，從而令到係會有機會產生嗰個安全問題。但係  
28 至今，運輸署係仍然冇想過任何方法去解決嘅。本會亦都向運輸署提出過多項  
29 建議，第一，喺巴士站裏面要畫雙黃線；第二，要喺巴士站裏面裝一啲閉路電  
30 視，可以錄低違例嘅車輛；第三，喺巴士站畫黃格，令到巴士出入方便，呢啲  
31 完全都係為咗公眾嘅利益，亦都參考咗星加坡都係咁樣做法，但係我哋本港嘅  
32 運輸署就以佢哋英國有咁嘅例子而不作考慮。多謝，主席。

33 主席：（經傳譯員）關於嗰個提議就係星加坡嗰方面，係關於巴士站喺公路上面嘅巴

1 士站吖...

2 張子琦先生：係喺--主席，係喺公路上面嘅巴士站，我見到佢哋出面係有條黃線，主  
3 要巴士打燈出，後面嘅車輛就主動咁停低，讓巴士出站。咁但係香港就有咁嘅  
4 情況出現喇，你打燈出，後面嘅車只會加油嚟頂住你，令到巴士出站都好有困  
5 難，周時就係為咗咁樣樣而發生咗一啲交通意外，令到道路上更加擠塞。呢啲  
6 情況嚴重嘅地點係有伊利沙伯醫院喇、瑪嘉烈醫院喇、美景花園喇、欽州街、  
7 元州街、柯士甸道、新填地街、漆咸道南、麼地道同埋木廠街，違例--呢啲係  
8 違例泊車好嚴重嘅地點，仲有軒尼詩道、英皇道。

9 主席：（經傳譯員）你係咪講緊喺巴士站嘅違例泊車，又或者喺巴士站附近嗰啲道  
10 路？係巴士站本身，定係附近嘅道路？

11 張子琦先生：係。喺巴士站入面，周時都係被一啲外來車輛佔用或者前後停咗車，中  
12 間留番個約莫有一個巴士位，但係喺呢啲情況，巴士係有可能可以入到呢個巴  
13 士站上落嘅，係只能夠可以--只能夠 double park，咁呢個完全係令到乘客會  
14 有危險嘅。

15 主席：（經傳譯員）咁你會建議--咁點樣可以令到啲人就係阻嚇佢哋，就唔好喺巴士  
16 站附近之前之後嗰啲道路去泊車？有咩嘢建議？

17 張子琦先生：主席，根據外國嘅慣例，譬如美國，如果你係隨意喺巴士站度上落，嗰  
18 何罰款特別重嘅，香港嗰個罰款就特別輕，執法者特別鬆，亦喺巴士站裏面有  
19 畫雙黃線，冇規定佢哋唔畀喺度泊咁樣，佢哋真係以為巴士站可以隨便上落、  
20 隨便停泊，而且如果裝閉路電視錄低佢哋，錄低啲違法嘅車輛係會有阻嚇作  
21 用，呢啲都係可以參考㗎。多謝，主席。

22 黃女士：（經傳譯員）你自己有冇拍到一啲嘅帶？就關於違例泊車，有冇攝錄過？

23 張子琦先生：有片段已經係交咗畀秘書處，而家你可以睇睇。

24 黃女士：（經傳譯員）我哋而家就係播緊條片嘅。我哋而家停一停先，停一停先，你  
25 首先你話畀我聽呢一個地點喺邊度㗎㗎，呢個地點喺邊度㗎㗎？

26 張子琦先生：呢度係北大嶼山迎東邨。

27 黃女士：（經傳譯員）我哋而家睇到就有巴士...

28 張子琦先生：係喇，地下係雙黃線，完全係冇差人去管理。

29 主席：（經傳譯員）呢個係大概幾時拍㗎，呢段片？

30 林寶強先生：我講講，就琴日下晝拍嘅，咁而家我哋左手邊就係 37M 同 37H 嘅，咁  
31 右手邊--呢條片右手邊都係巴士站同的士站㗎㗎，咁嗰個緩衝區係好少嘅，導  
32 致啲車入唔到前面個迎東邨個停車場，我哋仲有一條片睇嘅，係阻礙巴士上  
33 落，會睇得好啲嘅。呢架巴士點解停响度？就入唔到去迴旋處㗎呢架巴士，佢

1 右手邊係一個停車場嚟嘅，咁啲車--喺右手邊見到啲私家車就係準備入停車  
2 場，係入唔到嘅，咁要讓一架嘅巴士出番嚟，喺個安全島逆線行車嘅呢個。

3 張子琦先生：呢架巴士係跨過對面嘅安全島，係逆線行車，現時係。

4 林寶強先生：嗰個情況係比較嚴重嘅，如果日後呢個人工島開咗之後更加多車喺附  
5 近，會導致更加擠塞嘅，呢啲位置都係。

6 黃女士：（經傳譯員）呢個係咪--呢條片嗰個地點同你哋頭先第一條片嗰個地點係咪  
7 一樣㗎，還是係另外一個地點？

8 林寶強先生：同一樣，同一個位置，仲有幾張相睇到嘅。

9 主席：（經傳譯員）好，唔該晒。

10 林寶強先生：呢個喺 Google Map 睇相嘅呢個係，可以喺 Google Map 嗰度睇到  
11 嘅，呢啲。

12 黃女士：（經傳譯員）呢個係左邊嘅圖片喇，就係個巴士站㗎㗎，係咪巴士站㗎㗎？

13 林寶強先生：係，正確。

14 主席：（經傳譯員）我哋可唔可以返番去前一張相？呢一張，係。嗰個灰色嗰架車，  
15 其實佢係咪巴士站裏面停，還是係喺巴士站嘅隔離？哦，原來--我睇到喇，喺  
16 巴士站個範圍裏面㗎。

17 張子琦先生：冇錯，佢對面嗰架貨車都係巴士站㗎。

18 黃女士：（經傳譯員）呢個係咪琴日拍嘅相？琴日影嘅相㗎㗎？

19 林寶強先生：呢個 Google 嗰啲相㗎㗎，呢張係。

20 黃女士：（經傳譯員）係 Google 㗎㗎。呢兩條片係咪你自己拍㗎，還是...

21 林寶強先生：係，琴日拍嘅，琴日下午拍。

22 黃女士：（經傳譯員）你係咪喺巴士裏面望出嚟咁樣拍㗎？

23 林寶強先生：有啲落地拍，有條片係坐住㗎私家車拍嘅，坐喺架工程車拍嘅，有一  
24 條。

25 主席：（經傳譯員）其實我哋睇番嗰個錄像機佢嗰個擺動嗰個角度，我哋就知道其實  
26 你係點樣拍嘅。

27 張子琦先生：主席，我想講嘅係呢啲情況喺香港好多處都係咁樣嘅情形，主要就係  
28 執法者不嚴。

29 林寶強先生：我補充少少㗎，因為嗰個位置，迎東邨嗰邊，出邊將會填海，但係佢未  
30 完善之中就開咗呢條路，擺咗好多巴士，加上個停車場--嗰個迎東邨嘅停車場

1 車位不足，導致佢塞住咗個路口，私家車入唔到去，所以排隊入去嗰個停車  
2 場。另外貨車就後面--見到呢張圖嘅後面落緊貨嘅，因為入唔到停車場，導致  
3 喺外圍落貨。

4 張子琦先生：主席，我喺度想補充，任何理由阻塞巴士站都係唔合理、唔合法嘅。

5 主席：（經傳譯員）咁你就喺巴士上面就可以其實有一個向前睇嘅鏡頭，你就可以睇  
6 番或者係擺低--就攝錄咗啲影像，有啲嘅違例泊車，你覺得呢個建議點樣樣？

7 張子琦先生：可行嘅，主席，但係呢啲拍低咗之後，我哋嘅資方會唔會將呢啲資料會  
8 畀警方呢？第一。第二，違例者如果佢冇想到你係會畀警方，佢繼續違例，但  
9 係如果喺個巴士站度裝一條攝錄鏡頭，佢就會有阻嚇作用。多謝，主席。

10 主席：（經傳譯員）我可唔可以問一個補充嘅問題？如果我哋想清楚呢啲咁嘅情況嘅  
11 時間，咁可能車長就要可能要揸一個掣，咁然後就係--就嗰個影--個相機就  
12 係可以知道正確係咩嘢時間呢啲事情發生，咁你覺得呢個咁嘅安排又點樣樣？

13 張子琦先生：可行嘅。

14 主席：（經傳譯員）係可行㗎，當然，但係咁你反唔反對？你會唔會支持咁做？

15 張子琦先生：支持。

16 主席：（經傳譯員）唔該。

17 黃女士：（經傳譯員）再講番呢一方面嘅議題喇，我哋講番就係話巴士專線，即係巴  
18 士線嘅，咁你嘅書面嘅意見入面就係話即係巴士司機都係因為其他人違泊，咁  
19 令到佢哋工作更難喇，其中一個問題就係違泊嘅問題喇，令到啲司機都會沮喪  
20 嘅，咁所有呢啲問題都帶嚟一啲安全嘅問題，你會唔會支持呢一個講法？都有  
21 啲建議嘅，喺星加坡就譬如話係有巴士專用嘅線，你會唔會支持？

22 張子琦先生：主席，我係支持同埋認同嘅，但係睇番呢十零年，香港政府對巴士專線  
23 cut 得嘅 cut，不但只唔會畀條專線佢行，仲要畀條好難行嘅路佢行，例如德  
24 士古道天橋，佢朝早 6 點，即係話夜晚 12 點至到 6 點，凌晨 6 點，佢係唔畀巴  
25 士--專營巴士行嘅，反而佢係畀一啲重型車行，係畀一啲非專營嘅巴士行，偏  
26 偏就唔畀專營巴士行，令到車上嘅乘客係要行天橋底下過，咁樣反映出運輸署  
27 處事係避重就輕，我估計應該係有人投訴太多重型車經過嗰條天橋，但係佢就  
28 選擇係專營巴士行底下，行天橋底下。多謝，主席。

29 主席：（經傳譯員）呢條天橋係咪巴士線㗎㗎？

30 張子琦先生：主席，呢條天橋唔係巴士線，以前係任何車輛都可以喺上面行，但係就  
31 唔使喺下面經過幾個燈位，但係而家運輸署嘅處事作風就偏偏就唔係咁樣樣處  
32 事嘅--處理嘅，係要啲巴士行一啲唔方便、唔直接嘅路面，要佢哋行橋底過，  
33 反而上面就畀重型車、畀非專利過，本末倒置，唔明白佢哋用意何在。

1 主席：（經傳譯員）但係集中講番--即係而家講緊巴士專用嗰啲路線喇，現有嘅巴士  
2 線喇，你嘅睇法係點？幾於政府或者運輸署佢嘅態度，對於發展巴士專用嘅線  
3 道你點睇？

4 張子琦先生：主席，我絕對認同、贊成係開啲巴士專線畀佢哋行，呢個係為咗公眾嘅  
5 利益，使多啲人選用交通工具，好過揸私家車出嚟，而家因為私家車太多喇，  
6 會堵塞交通，如果你巴士暢順嘅話，唔會塞車嘅話，佢哋會多啲人會選擇公共  
7 嘅交通工具嘅，希望運輸署正視呢個公眾嘅利益，唔好去扼殺巴士嘅經營，令  
8 我哋產生困難。多謝，主席。

9 主席：（經傳譯員）個問題就問得好清楚，問你對於政府個睇法係有咩嘢睇法，即係  
10 係咪你意思話政府而家減晒啲巴士線，令到你哋經營唔到，定點？巴士專用  
11 線。

12 張子琦先生：我見唔到而家有新開嘅專營巴士路線畀巴士行，不但只係巴士路線，我  
13 喺度扯遠少少，就係現今嘅屋邨嘅巴士總站個設計都非常之有問題，令到佢哋  
14 泊位難，根本又好似有難以生存嘅空間，令到啲巴士。

15 黃女士：（經傳譯員）最耐一個問題講薪酬，我哋聽到城巴嘅營運商嘅證供就話佢哋  
16 係有薪金同埋--即係其實佢哋改革咗嚟喇，2018 年 3 月開始有個底薪再加埋獎  
17 金嘅，咁我就想問下呢個制度，呢個建議有個弊處嘅，就似乎係話而家係有一  
18 個獎勵嘅制度，你可唔可以代理工會確認係咁嘅情況？即係係再將個薪--3  
19 月，2018 年，將個發薪嘅度...

20 主席：（經傳譯員）你話之前係咪講話如果安全駕駛有獎？

21 黃女士：（經傳譯員）係喇，安全駕駛有獎賞嘅。

22 張子琦先生：主席，講起呢個薪酬，自從 1999 年開始，資方不斷咁將佢哋嘅薪酬削  
23 減、福利削減，去到 04 年更加又大幅削減，淨係呢個 99 年到 04 年都分開三  
24 級制。喺近期，我哋要求資方要重整呢個薪酬同福利，如果唔係，對個員工個  
25 士氣打擊好大。而家我哋攞緊嘅薪酬，新入職嘅，早前都係\$12,000 都唔夠，  
26 後嚟我哋要求公司將嗰個安全獎、服務獎擺番落去個底薪度，先至係到  
27 \$15,366，呢個薪酬係遠比運輸署界嘅行業嘅中位數為低，但係呢個車長嘅工  
28 作，負嘅責任係非常之重，佢車上嘅全部都係生命，係人。佢咁嘅薪酬偏低，  
29 係令到直接影響到聘請，甚至係佢工作嘅態度。好多人入到嚟，都係考咗個  
30 牌，操熟嗰個重型車，佢就會出去考其他重型車牌，就會出去其他運輸嘅行業  
31 度做。咁係令到成個服務嘅質素就會降低，因為成日都係新人。

32 仲有，佢哋嗰個薪酬太低，變咗佢哋不在乎呢份工作，帶住咁嘅心情去工  
33 作嘅話，就好容易產生交通意外。如果我講番 98 年之前嘅日薪，佢哋每一個車  
34 長絕大多數都係好珍惜呢份工作，因為佢哋知道佢哋出到去搵唔到呢份工，佢  
35 哋每年都有個增薪點，佢哋越做得耐，更加唔會跳槽或者離開呢個崗位，對公  
36 司有歸屬感。無奈 99 年之後，嗰個薪酬嘅制度大幅調低，令到呢啲車長嘅質素

1 顯然係下降，同時影響到公眾嘅利益。

2 多謝，主席。

3 主席：（經傳譯員）你話係工會要求嗰個薪酬方面個架構要調整嘅，你係幾時提出呢  
4 個要求？即係而喺 18 年 3 月嘅時候係的確已經改咗，咁你幾時提出㗎？

5 張子琦先生：主席，我哋呢個要求已經係有十多年㗎喇，但係一直未被認同，因為當  
6 時個環境，香港個環境或者唔係咁好，經歷過 SARS、金融風暴，所以資方唔肯  
7 願意去改善。直至到呢兩、三年，資方先至肯願意逐步逐步去改善，但係係一  
8 啲啲牙膏式嘅，所以令到好多工友都不滿意，甚至產生一啲工業嘅行動。呢啲  
9 我哋係理解嘅，所以再次敦促資方要大幅咁樣樣去改善番嗰個薪酬嘅福利，同  
10 以前嘅 98 年嘅日薪要睇齊，佢哋有嘅嘢，月薪都要有。咁喺而家嚟緊嘅今年度  
11 嘅加薪會議，資方而家口頭上應承我哋係大幅係加番畀我哋嗰個福利，但係嗰  
12 個薪酬仍然係未曾追得上現時嗰個中位數，因為而家我哋新入職嘅係  
13 \$15,366，暫時資方只係應承加 1,000 釐，加咗 1,000 釐都係\$16,366，遠  
14 比揸重型嘅貨車嘅司機為低。但係我哋揸緊嘅唔係重型--唔係貨車，係重型  
15 車，而家載緊乘客，我哋個薪酬唔應該低於任何嘅駕駛者，但係偏偏我哋攞嘅  
16 薪酬係非常之低，呢個係非常之不合理。所以我哋仍然係努力之中，儘量為業  
17 畀爭取更大嘅權益。多謝，主席。龍運巴士有補充。

18 陳廣能先生：係，sorry，或者我補充少少，係。我哋龍運巴士分會喺 2018 年嘅 1  
19 月做咗一個統計，就係統計我哋喺 2017 年呢個年度我哋離職同埋入職嘅人數，  
20 我哋喺--龍運巴士喺 2017 年入職嘅人數係一百人，2017 年呢個年度離職嘅人  
21 數係一百二十人，我哋喺 1 月份嘅統計就當中呢一百二十人係有--即係呢一百  
22 二十人喇，當中係有百分之六十係因為薪酬嘅問題--嘅低薪呢個問題而係離職  
23 嘅。

24 主席：（經傳譯員）鄭生，可唔可以問你呢一樣嘢--陳生。關於安全獎金、其他獎金  
25 喺 2018 年 3 月係加入去個底薪嗰度，係咪有發生過咩嘢事係令到巴士嘅營運商  
26 去有呢個改變？有冇發生咩嘢事？

27 張子琦先生：主席，我可以好明確咁同你講，係唔關任何發生嘅事情或者某一啲特別  
28 嘅大嘅意外先至係會產生呢一個加幅嘅。因為呢個加幅喺上年嘅加薪談判，我  
29 哋上年 5 月，17 年嘅 5 月已經係已經確定咗今年佢會加㗎喇，會調整，將個安  
30 全獎、服務獎擺落去個底薪度，只不過資方話佢唔希望喺加薪會議嘅時間傾呢  
31 樣嘢，等加薪會議完結咗之後，先至同我哋確實呢樣嘢嘅落實。咁加薪會議完  
32 成咗之後，我哋都追過資方「喂，你要找數喇㗎」，資方都話儘快㗎喇，據聞  
33 佢哋 12 月董事局已經批准咗將嗰個底薪調高，將安全獎、服務獎擺落個底薪  
34 度。呢個我哋係爭取好耐，亦係我哋嗰個計劃㗎，成個將嗰個人工調升一個計  
35 劃，點解呢？我首先要將安全獎、服務獎擺咗落個底薪度，令到有\$15,366，  
36 第一步。

37 第二步，我就爭取雙糧，雙糧係以嗰個底薪計，咁我哋先至會爭取更大嘅

1 成績。雙糧佢已經畀咗我哋喇又，係以嗰個\$15,366，未計今年嘅加薪。咁嚟  
2 講，如果我唔將嗰個安全獎、服務獎擺落個底薪度，我只能夠擺一萬一千幾。  
3 即係換句說話，呢個雙糧我係多咗三千幾釐，呢個係我第二步。所以係與發生  
4 任何嘅事情、嘅交通意外係無關嘅。

5 多謝，主席。

6 主席：（經傳譯員）所以 2017 年 5 月你哋已經同意咗喇，咁個董事局已經之前--  
7 就喺 2017 年 12 月嘅時候同意咗呢個做法，係咪咁樣樣？

8 張子琦先生：冇錯嘅，主席，喺 17 年嘅 12 月已經批咗，但係公司有即刻拎出嚟，  
9 亦都有講畀我哋知派個聖誕禮物畀我哋，仍然係擺住唔放出嚟，佢好不恰當咁  
10 樣樣就係喺意外之後先至擺出嚟，所以畀外界誤會咗，以為係因為有宗大交通  
11 意外，先至會畀呢個福利或者調整呢個薪酬畀我哋。

12 主席：（經傳譯員）你講緊係邊一個嘅董事局係核准呢一個嘅改變，邊一個董事局？  
13 邊間公司嘅董事局？

14 張子琦先生：根據我所知，主席，係九巴董事局梁乃鵬主席親自批嘅。

15 主席：（經傳譯員）有冇其他公司嘅董事局？

16 張子琦先生：主席，呢個唔清楚。

17 主席：（經傳譯員）林先生，呢個大嶼山巴士公司有冇作出一個咁嘅改變，就係話將  
18 安全獎金係將佢加埋入底薪嗰度？

19 林寶強先生：冇嘅。

20 主席：（經傳譯員）佢哋畀嘅證供話畀我哋聽，就係有一個額外嘅獎金一次過嘅，咁  
21 係咪咁樣樣？

22 林寶強先生：係，有嘅，呢個有嘅。我哋嘅底薪係 6,400 釐底薪，咁每日有個津  
23 貼，就係 230 釐嘅，一個月開足工，返九個鐘，禮拜六、日要開工，四個禮拜  
24 六、日，加埋\$16,200，比係九巴、新巴、城巴、龍運少咗錢嘅，人工係偏低  
25 嘅，大嶼山係偏低嘅。

26 主席：（經傳譯員）陳先生，剛才黃大律師都問過--問呢個問題，因為咁樣嘅調整，  
27 其實對呢個嘅巴士嘅車長嚟講，佢哋冇任何嘅誘因或者鼓勵佢哋特別注重安全  
28 嘅，你覺得呢個調整係咪有呢個效果？

29 張子琦先生：主席，唔認同嘅。薪酬--合理嘅薪酬係絕對鼓勵到一個同事對公司嘅認  
30 同、歸屬感，而唔係一個過渡式，而唔係一個騎牛搵馬，工作態度就自然不  
31 同。

32 主席：（經傳譯員）唔該晒。黃律師。

1 黃女士：（經傳譯員）如果你係要提出一啲嘅建議點樣去監察車長嘅表現，譬如話好  
2 似星加坡有個系統喇，佢哋係有個紅色、黃色同埋綠色嘅制度㗎，就係話睇番  
3 嗰個司機嘅情況，...

4 主席：（經傳譯員）咁呢個係講緊其中一間公司啫？

5 黃女士：（經傳譯員）或者我哋睇一睇相關嘅星加坡呢間嘅公司喇，佢就係 Strait  
6 Times，海峽兩岸嘅，2017 年呢一個 6 月嘅報導㗎。

7 主席：（經傳譯員）我哋有冇個頁碼，個頁數？

8 黃女士：（經傳譯員）其實就唔喺我哋嘅呢一個嘅文件夾嗰度，呢間公司叫做「易塔  
9 通」，咁呢個喺文章嘅第 2 版我哋睇到喇，第 4 段喇，就係講到嗰啲嘅司機  
10 喇，咁佢哋以前喺--咁佢就將佢個--咁佢喺 12 月就係去到二十點喇，咁所以  
11 佢就特別喺嗰個月就係可以有一個獎金，130 釐嘅星加坡紙嘅。咁其實有可能  
12 有遠程嘅訊息系統去監察嗰啲司機，咁亦都係根據個司機個表現就係有一個獎  
13 金㗎，咁如果我哋建議有一個咁嘅制度，咁你覺得你個工會會唔會去支持或者  
14 值得我哋去參考，或者去研究下有一個咁樣嘅獎勵計劃？

15 黎兆聰先生：我想補充，主席，我係九巴分會嘅代表。我想講畀主席聽，我哋呢間公  
16 司一路以來冇重視我哋呢個崗位嘅薪酬福利，直至到呢個意外，早幾日先至開  
17 始皇恩浩蕩，開始醒覺，先至畀咗十樣嘢畀我哋。我由開始喺呢間公司做咗十  
18 八年，整個過程係好唔愉快嘅，係又有一個友善或者係一個重視呢個員工一個  
19 薪酬方案令佢對呢間公司有歸屬感，第一。

20 我喺呢間公司做咗十八年，頭八年都要簽約嘅，我只係投閒置散，一個好  
21 虛銜嘅工作，而誘因點解工會一路以來要爭取安全獎、服務獎要撥落個底薪？  
22 呢個係我個人堅持，我同管理層講過好多次，因為呢個安全獎、服務獎嘅基--  
23 嗰個獎金係會扣除我哋嘅，因為我哋有啲新入職嘅車長，佢哋如果經驗唔夠，  
24 佢一扣--舉例講，嗰陣時係得 1,200 釐呢個安全獎，係會扣晒我哋嘅。所以呢  
25 個獎金係導致好多問題，工會一路以來都有爭取，不過公司就同我哋講，安全  
26 獎、服務獎呢個基數好大，一講緊係數以千計，所以直至到呢個意外發生之  
27 前，佢可能亦都想--某一啲人亦都想回應工會嘅訴求，安全獎、服務獎先至撥  
28 落個底薪。

29 但係我要強調，希望主席明白，唔好察覺到話有咗安全獎、服務獎，就會  
30 令致到我哋啲車長亂咁㗎，我哋一個專業車長，相信作為一個駕駛者，佢對自  
31 己如果犯錯，係要負上刑責，但係安全獎、服務獎呢個制度恆之以久，佢已經  
32 用咗好多年，亦都好唔平等。因為我工會收納好多新人，尤其是未揸過巴士，  
33 可能頭半年至一年可能佢會唔夠經驗，賠錢畀對方，又會畀公司扣呢啲獎金，  
34 從而有個穩定收入。工會睇到呢個方法咁多年來都存在問題，希望唔好佢令  
35 一個獎金而扣取咗我哋，係影響到我哋一個月嘅收入，哪怕今日呢個月好好彩，  
36 有發生交通意外，可能下個月兩、三單交通意外，扣嘅錢可能扣咗成個月，可  
37 能令到佢嘅收入真係會大減。

1 黃女士：（經傳譯員）呢個唔係講緊扣減嘅，講緊就係加畀你，而家就係話一個獎  
2 勵，就話喺你個底薪之外，如果你係揸車揸得好，你就會係有一個額外嘅獎  
3 金，呢個就係我嘅提議，唔係話...

4 黎兆聰先生：哦，你呢個係講緊 bonus 咁嘛，九巴，有，有呢個制度。

5 黃女士：（經傳譯員）我唔係話你而家有冇，如果我哋話建議有一個類似咁嘅獎金嘅  
6 制度，你會唔會支持？

7 張子琦先生：主席，任何有獎勵嘅制度我哋都會支持，但係而家九巴--我哋同九巴已經  
8 傾緊一個另外一個獎勵嘅制度，就係有二十個 point，每年加一個 point 畀  
9 佢，即係話如果佢達到公司嘅要求，佢就每年都會有錢再加畀佢，就另外嘅，  
10 就唔係一個加薪個幅度，咁以前呢個係冇㗎，月薪係冇，日薪就有。咁佢口  
11 頭上已經應承咗㗎喇，可以有二十個，咁呢個係根據佢嘅表現喇、佢嘅安全駕  
12 駛喇、佢嘅出勤紀錄喇、佢嘅紀律喇，如果佢達唔到，佢個年就冇得升。呢個  
13 已經係一個--形式上差唔多係一個獎勵嘅制度㗎喇。咁希望--當然喇，如果  
14 有其他嘅獎勵，我哋係歡迎㗎。

15 林寶強先生：我想補充少少，咁懲罰性係一個唔係恰當去監察司機嘅嘢，如果個司機  
16 嘅車長有乜嘢做得唔好，用個培訓制度令佢去走番一個好嘅駕駛良好嘅態度、  
17 安全嘅服務，係一個重要性㗎。如果你話畀個獎金落去係幫助佢--點講呢？即  
18 係會扣減之中，令到佢壓力仲更加大，如果你話特定咗有個獎金嘅度，我要爭  
19 取呢個獎金，一有個意外嘅度，令佢都冇心機去繼續去駕駛嘅。好似正如我哋  
20 大嶼山都係，安全獎，佢扣一扣，扣兩期㗎，好多時扣兩期，扣兩期就幾千  
21 釐，已經對於個家庭生活影響嘅，係。唔該，主席。

22 黃女士：（經傳譯員）主席，我已經係完成咗我個提問㗎喇。

23 主席：（經傳譯員）唔該晒。

24 歐陽先生：（經傳譯員）多謝主席，我有一個問題，關於我哋有個保護罩㗎，今朝早  
25 有提到，似乎呢度嘅幾位就唔係都好--唔多支持呢個保護罩嘅呢個睇法嘅，  
26 你唔支持係因為可能個材料唔好，或者有啲聲響，或者有反光，或者你根本  
27 其實係有一個保護罩呢個咁嘅建議你都覺得唔好嘅？唔該晒。

28 黎兆聰先生：唔係話唔好，而係個保護罩出咗㗎，係的而且確車長反映，佢係有個感  
29 覺到獨立咗呢個駕駛呢個工作環境，但係衍生嘅問題，嗰個保護嗰個--嗰塊膠  
30 同埋衍生有啲問題，而家管理層係有解決到，從而令到我哋駕駛分咗心同埋有  
31 衍生到有啲問題會可能嚴重㗎，我哋係希望佢改善呢塊膠板。呢塊膠板係衍生-  
32 -第一，我都講咗，今朝講咗喇，有反光嘅情況同埋佢最尖頭嗰個位個攝石攝得  
33 唔實會發出聲響，同埋開關一個問題，同埋我哋有啲工友質疑，就係話就算呢  
34 塊膠膜雖然係弧拱形嘅膠膜，但係要襲擊，一樣襲擊到嘅。但係車長係反映話  
35 係感覺到就有一個保護罩嘅工作環境，但係對呢塊板就不敢恭維喇。

36 因為反映過好多次，管理層只係話唔拆得呢塊政治板，但係我哋傾向性好

1 多工友都希望拆咗佢，因為呢塊板衍生好多問題。第一，就係安全問題，夜晚  
2 會反光，同埋一個高度--個車長一個高度唔--可能--而視覺上佢彎，佢睇落個  
3 視線會畀個彎度遮咗追車上嚟嘅情況係好嚴重；第二，就係呢個板會發出聲  
4 響，咁亦都係一個問題，到而家都未解決得到。

5 歐陽先生：（經傳譯員）咁你支唔支持如果管理層係用一種保護罩係唔會有任何駕駛  
6 嘅危險嘅，你會唔會支持？

7 黎兆聰先生：支持嘅，我哋之前有畀過啲圖，有譬如韓國，佢都有一啲完全係一個獨  
8 立嘅門，係玻璃窗，兩個可以--好細嘅，可以開關嘅，我哋畀過啲圖佢睇過  
9 嘅，有參考外國嘅圖畀佢嘅，不過我覺得佢自己諗呢個方法，半月彎嘅保護裝  
10 置，可能衍生嘅問題佢真係可能有諗過咁細緻，衍生咁多問題出嚟，而係淨係  
11 答我哋話「呢個係政治板，唔拆得」。

12 主席：（經傳譯員）林生，大嶼山巴士係咪都有十四個鐘個種特別更？

13 林寶強先生：有嘅。

14 主席：（經傳譯員）咁司機喺返呢啲更嘅時候，有冇畀三個鐘以上嘅休息時間佢哋  
15 㗎？

16 林寶強先生：有。

17 主席：（經傳譯員）咁如果司機去到嗰日個鐘數要休息喇，會有咩嘢設施提供畀司  
18 機喺當地--即係嗰處都休息？

19 林寶強先生：暫時都有，最多喺架巴士度--有啲巴士可以畀佢哋咁㗎。

20 主席：（經傳譯員）即係有設施嘅？

21 林寶強先生：暫時未有。

22 主席：（經傳譯員）係即係會喺邊度？係咪喺巴士總站嗰度㗎，喺番個廠嗰度㗎，有  
23 幾多地方大家可以去休息嘅？

24 林寶強先生：佢哋會喺街或者商場去㗎嘅，如果近屋企就會返屋企嘅。

25 主席：（經傳譯員）你答唔答到即係有幾多巴士車長到休息嘅時間，有幾多可以返到  
26 屋企？

27 林寶強先生：冇知道嘅呢個，唔--有一半嘅，應該係，即係要做呢啲更嘅，一半都有  
28 嘅，約莫一半喇。

29 主席：（經傳譯員）你自己有冇返特別更？

30 林寶強先生：之前有，之前有，但係我都係返屋企嘅。

31 主席：（經傳譯員）唔該。你已經估計到我跟住問你咩嘢喇。黃大律師，運輸署提供

1 畀我哋嘅資料就係運輸署之前提交畀立法會嘅交通事務委員會嘅一個資料文件  
2 喇，可唔可以放上去呢一個嘅螢幕嗰度？

3 黃女士：（經傳譯員）就係 TD1-403 頁嘅。

4 主席：（經傳譯員）咁立法會嗰個嘅資料文件？

5 黃女士：（經傳譯員）403 頁，TD1-403 頁。

6 主席：（經傳譯員）英文？呢個資料文件係咪英文嘅？

7 黃女士：（經傳譯員）係。

8 主席：（經傳譯員）陳先生（張先生？），呢份文件就喺 7 月 25 號喺立法會曾經討  
9 論過嘅，就係交通事務委員會討論過，處理兩個問題喇，其中一個--其中三個  
10 問題，一個就培訓喇，同埋安全帶喇，同埋係有啲乜--即係用科技去提高安全  
11 嘅。咁就有一個工作小組，係由運輸署成立嘅，成員就有專營巴士公司同埋有  
12 三間巴士廠，喺 3 月中嘅時候就開過會，咁呢份文件就係講番工作小組嘅成  
13 果。就呢三個問題有冇問過你意見？

14 張子琦先生：冇嘅，主席。

15 主席：（經傳譯員）你有冇機會睇過呢份文件，睇下佢哋提議點樣做，你有冇提過  
16 㗎？

17 張子琦先生：主席，我未睇過呢份文件，今日先係第一次。

18 主席：（經傳譯員）陳先生（張先生？），你頭先咁答喇，咁我就諗喇，喺我再問你  
19 問題之前，應該咁樣公道啲，應該畀你睇咗呢份文份文件先，咁然後你可以考  
20 慮下再回答番我問嘅問題。我而家建議--因為我哋仲有其他嘅工會嘅代表都好  
21 耐心等候嚟畀證供，我就建議而家先中途就請佢哋畀證供，到你表示你可以睇  
22 完喇，回答到問題喇，再請番你過番嚟，好唔好？你會唔會同？

23 張子琦先生：冇問題嘅。

24 主席：（經傳譯員）好，咁而家請你離席，我哋而家就休息一陣，我哋換人，先處理  
25 職工盟嗰個代表，而家休息一陣。

26

27 下午 3 時 25 分聆訊押後

28

29 下午 3 時 35 分恢復聆訊

30 出席人士如前。

1

2 主席：（經傳譯員）鍾先生同埋其他各位，我哋多謝巴士業職工會聯盟就係接受我哋  
3 嘅邀請，今日就係嚟到我哋委員會嗰度作供嘅，我就會請黃大律師就會去提問  
4 嘅。我哋解釋一下，如果--鍾先生，或者想你哋其中一個嘅成員去作答嘅時  
5 候，就可以咁樣指出，你哋可以隨便去提交你意見。

6 黃女士：（經傳譯員）多謝你鍾先生同埋咁多位今日出席嘅。我哋就已經係有你哋嘅  
7 陳述書，委員會就主要嗰個職責就係寫落去職能範圍嗰度就係提意見關於專營  
8 巴士嘅安全方面嘅，所以我嗰個問題就係同安全有關嘅，而唔係同其他嘅譬如  
9 話嗰個受聘、招職等等有關嘅問題嘅。我第一個問題就係睇一睇嗰個背景，關  
10 於你個聯盟嘅背景。鍾先生，我知道巴士業職工會聯盟就係有三個嘅成員嘅，  
11 啱唔啱㗎？

12 林錦標先生：㗎。

13 黃女士：（經傳譯員）首先就係九巴、新世界第一巴士公司同埋成巴有限公司嘅，㗎  
14 唔啱呀？

15 林錦標先生：係，㗎。

16 黃女士：（經傳譯員）你哋個聯盟而家有一千六百六十個會員嘅，㗎唔啱呀？

17 林錦標先生：㗎。

18 黃女士：（經傳譯員）呢啲嘅所有嘅會員係咪全部都係巴士司機㗎㗎？

19 林錦標先生：唔係，有前線車長、站長、車房嘅員工，都係响前線工作嘅伙記㗎㗎。

20 主席：（經傳譯員）係，有幾多個係車長呢？

21 林錦標先生：超過九成。

22 主席：（經傳譯員）唔該晒。

23 黃女士：（經傳譯員）鍾先生，你哋嘅聯盟就係有提交過兩份陳述書嘅，第一份就係  
24 2018 年 4 月 24 號，就係 TU 文件夾就 147 至到 226 頁嘅，中文版本，英文版  
25 226-1 就係至 226-80 嘅。你有第二份陳述書嘅，就係就番委員會嘅一封信  
26 件，呢個補充嘅文件就係 TU-1B 260-28 就去到 260-67 嘅，喺呢個畫面上面  
27 你睇到㗎㗎，英文版本就係 TU-1B 文件夾 260-68 去到 103 嘅。

28 鍾先生，我就想睇一睇你個陳情書裏面提出嗰啲課題，我哋逐個逐個睇，  
29 第一個嘅就係關於違泊方面嘅，違例泊車，喺 234 至 236 頁嗰度就係有關呢一  
30 方面嘅，呢個係附件二，上高係有一啲電郵，就係關於違泊嗰方面嘅，就係一  
31 啲來來回回嘅電郵，你提供畀委員會嘅，你就特別提到就南昌街嘅情況同埋其  
32 他一啲街道嘅情況，喺你哋最近嘅陳述書...

1 林錦標先生：律師，唔好意思，我想問一問，你係叫鍾生答定係林生答呢？因為鍾生  
2 係...

3 黃女士：（經傳譯員）鍾先生，或者你話畀我聽邊一位你哋嘅代表係最適合去答呢一  
4 方面嘅問題，特別係違泊嗰方面，邊位最合適呢？

5 林錦標先生：律師，因為我係代主席嚟嘅，就因為你講鍾生就係我嘅副手嚟嘅，而家  
6 我就代表聯盟就搵劉先生解答你呢個問題。劉生。

7 劉啟謙先生：係。

8 黃女士：（經傳譯員）唔該晒。劉生，就附件二你提交畀委員會，呢度就係裏面係同  
9 運輸署之間嘅一啲電郵來往，係特別係投訴關於違例泊車嘅，喺第 235 頁，你  
10 就附上咗一啲相片嘅，就展示到嗰個違泊嘅問題嘅情況嘅。我哋睇到最後嗰度  
11 下低嗰度就係話運輸署就係收到呢啲電郵，你就話「我哋嘅分區嘅辦事處嘅同  
12 事就會係跟進嘅」，我個問題就係話運輸署有冇跟進到呢？同埋有冇喺南昌街  
13 呢個違泊嘅情況改善到呢？

14 劉啟謙先生：我哋一直由 2017 年嘅 5 月開始同運輸署就南昌街嗰個違例泊車就進行  
15 投訴，直到去到 2018 年大約係上兩個月嘅，我哋先收到運輸署最終嘅回覆，就  
16 話嗰度已經改善咗同埋加多咗一個巴士站嘅 marking 喺上面，就防止啲車輛喺  
17 上面違泊，但係其實成個過程我哋係用咗好長嘅時間同警方溝通，亦都因為呢  
18 個違泊嘅問題，喺上址係發生咗一個車長畀人襲擊嘅事件，我哋喺呢個事件之  
19 後，我哋即時去信畀運房局嘅常務秘書長黎先生，相關去信嘅喺我哋  
20 supplementary paper 嘅附件係有附件呢封信件嘅。同時間其實我哋一直以  
21 嚟都係有追運輸署喺上址進行改善嘅工作，但係其實運輸署都係好緩慢同埋都  
22 係用一個唔想處理嘅態度去進行呢個 case 嘅處理。

23 黃女士：（經傳譯員）係，唔該。所以我哋睇一睇第一個陳述書關於違泊嘅，喺中文  
24 就係 176 頁嘅，喺英文係 226-30，括弧--括號嘅。喺呢一頁，我哋見到你嘅  
25 建議，又或者咁講，你係簡述番就住違泊嘅問題你哋做咗啲乜嘢嘅，我哋見到  
26 喺英文版本就係咁講嘅，就話你哋寫過畀運輸署嘅，「喺 2017 年 5 月嘅時候去  
27 信運輸署要求安排警員加強執法工作之外，可以嘗試透過其他可行措施去防止  
28 巴士站被違例泊車阻礙。當中建議喺上址設立二十四小時禁區、延長巴士站路  
29 面標誌，以及加設鐵欄杆去減少車輛喺上址違泊同埋防止巴士站受到其他車輛  
30 阻礙。經過多次嘅溝通之後，運輸署以附近有上、落貨嘅需要為由，最終只係  
31 安排加設欄杆，但係由於運輸署對於上址嘅問題未有正視，最終喺 2017 年 8 月  
32 喺上址巴士站發生車長被襲嘅事件，被襲嘅原因係車長正係駛過一架違例泊車  
33 嘅私家車，而畀人誤會『飛站』而被襲嘅。呢件事件正係因為巴士站畀違例泊  
34 車阻礙而引起嘅。」你就話「如果運輸署重視本聯盟嘅建議，及早安排相關嘅  
35 道路標誌設置工作，相信呢次事件係可以避免。」

36 你最近嘅第二份嘅書面嘅陳詞，即係第 260-89 至 90 頁，呢一個就係英文  
37 版嚟嘅，中文版就係 260-53 頁，你進一步回應係咁講嘅，就係(d)段，就話

「運輸署主要回覆係轉交所屬地區嘅運輸主任作出跟進，同時轉交警方採取相應行動。同時，就個別地區，如本聯盟所指嘅南昌街等不但作出口頭質詢，同時亦有透過同運輸署保持溝通以跟進嘅。」「就住違泊問題，本聯盟同警方會議亦都有表達關注同埋要求喺各個黑點加強執法。」跟住就話「雖然警方喺唔同嘅會議亦都有口頭承諾表示會加強執法，亦都有指違泊嘅檢控數字有所增加，但係有啲違泊嘅黑點，譬如係旺角嘅新填地街、英皇道、怡和街同埋荃灣橫龍街就未見有太大改善。」

你跟住有一個附件，就係一張黑點嘅清單，係交咗畀警方嘅，就顯示你哋曾經叫過警方去跟進各個黑點，我相信呢個就係叫做附件十四個度嘅，喺你封信，係 2017 年嘅 3 月 26 同埋 27 日，呢個就係喺 260-462 又或者係 260-468-1 頁。如果睇番呢封信，呢封信係寫畀運輸署長嘅，喺 260-468-2 頁，你呢度喺 260-468-5，就關於港島區、新界同埋九龍嘅黑點嘅名單，我個問題係自此，呢兩封信之後有冇跟進過呢？

劉啟謙先生：我哋兩--呢兩封信之後，我哋喺恆常同運輸署同埋警方嘅跨部門會議裏面，每一次都有就違例泊車嘅問題反映嘅，而其實相關我哋同運輸署反映嘅內容其實係可以從我哋提交嘅會議紀錄裏面係見得到嘅，而跟進違例泊車嘅問題，我哋唔係話單一次去做，而係一個叫做可持續性嘅工作嚟嘅，即係我哋唔會可能係話就一個地點講完就唔會有任何跟進行動，而我哋同運輸署一直係跟進住每一個黑點嘅問題，或者呢啲黑點可能係自交呢個黑名單之後可能後面有增加或者有啲地方係改善嘅，但係喺我哋過去由呢個 17 年嘅 3 月直到今日我哋唔見得太多嘅地點係有改善，而呢啲嘅跟進其實都係一直以嚟係有做嘅。

主席：（經傳譯員）你覺得要處理違泊問題，因為引起專營巴士嘅問題，你覺得應該點樣處理？

劉啟謙先生：第一，最重要係警方執法，我哋好多時遇到嘅問題係見到違例泊車係阻礙，我哋嘗試--車長會報警去處理，但係警方其實多次都係有用警區人手不足呢個理由就話佢哋處理唔到。其實喺過往我哋嘅抗議行動裏面，我哋有建議過增加交通督導員個嘅數量嘅，因為其實我哋了解到有啲繁忙嘅區域，好似油尖旺區，交通督導員個比例係異常地少嘅，其實警方有能力去請到交通督導員去進行呢啲交通嘅執法行動，其實我哋最認為係違例泊車係佢真係違例，而最有效嘅方法其實就係檢控呢個違例泊車，同埋運輸署係應承咗我哋會喺某一啲地區係劃番個巴士站個標誌，因為巴士站標誌喺法律上係有啲效力嘅度嘅，私家車係唔可以阻礙我哋埋站。

其次，我哋亦都有就唔同嘅地點係要求佢畫雙黃線，除咗南昌街之外，我哋沙田火炭區亦都留意個情況好嚴重，都有去信去要求佢去畫雙黃線嘅，我哋其實覺得現行嘅法例係有足夠嘅空間去保障我哋巴士車長係唔受違泊嘅阻礙，但係何奈我哋覺得執法係有疏忽同埋粗疏嘅地方。多謝。

主席：（經傳譯員）雙黃線喺中環都周圍有，但係都阻礙唔到違例泊車㗎？

1 劉啟謙先生：係，冇錯，因為警方執法上面同我哋講話人手唔夠，佢哋好困難去執  
2 法，其實我哋嘅角色係非常之被動嘅，其實好倚賴政府去派人去執法，但係其  
3 實咁耐以嚟，由 17 年去到而家，其實我哋見到個執法，雖然警方話個數字  
4 係有上升，但係我哋見唔到有好多改善。

5 主席：（經傳譯員）用視像鏡頭去執法呢？即係閉路電視。

6 劉啟謙先生：我哋同意，我哋相信差人嘅人手始終係有限，有可能派大量嘅警察淨係  
7 專注做違泊呢一項工作，呢一樣嘢亦都係唔合理嘅。我哋相信其實科技係有助  
8 去執法，我哋其實留意到警方其實近年都開始嘗試去用一啲科技，例如 CCTV 呢  
9 啲方式去執法，其實我哋係支持嘅，因為警方未必有足夠人手，但係 CCTV 執法  
10 的確係有啲阻嚇性嘅度，即係 between 呢個懲罰，其實阻嚇性係比懲罰係更  
11 重要，你有罰佢，但係如果你阻嚇咗佢，其實比起懲罰係更加好嘅。

12 其實違例泊車嘅人士其實都知警方都未必會長時間喺某一個地點嗰度巡邏  
13 同埋進行檢控，換句話說，其實佢哋違例泊車個成本其實唔高嘅，但係當然引  
14 入咗閉路電視或者相類似嘅科技去執法嘅時候，佢哋變相就會知道有一個警剔  
15 性同埋阻嚇性嘅度，對比起懲罰係更加有效嘅。

16 主席：（經傳譯員）喺車前，即係巴士前安裝視像鏡頭去拍攝違泊嘅問題，你點睇  
17 呀？

18 劉啟謙先生：正如我哋補充文件嗰度亦都有提過，現時巴士嘅裏面嘅鏡頭其實有分幾  
19 種嘅，以最新型嘅巴士為例係有八個嘅鏡頭，分別係拍到車廂入面嘅位置同埋  
20 車外面嘅位置，而巴士公司亦都指出呢個鏡頭嘅片段係用作事故調查之用嘅。  
21 當然我哋明白改用呢個嘅片段去執法呢係--警方如果要取個個片段去執法，其  
22 實係可以嘅。亦都要留意番個法例上面嘅要求同相關係咪可以咁樣做，因為  
23 有機會係牽涉亦都涉及呢個《私隱條例》，因為部分嘅鏡頭係拍到車廂裏面嘅  
24 情況。當然如果用於執法，係法例係有保障，但係呢個問題，我覺得要小心處  
25 理。但係前設係我哋係同意係用呢個方法去進行呢個執法嘅。

26 主席：（經傳譯員）我唔係問緊你個巴士入面嘅閉路電視，我係講緊影出去，向前  
27 方嘅鏡頭，係可以影到巴士嘅車長佢哋揸埋去巴士站嘅時候，如果有違泊車輛  
28 嘅時候，係可以影到，你點睇？

29 劉啟謙先生：同意。

30 主席：（經傳譯員）如果巴士司機協助執法，你又點睇呢？譬如話--譬如用電子方  
31 式，佢哋可以捕捉到某一個犯法嘅情況，違泊嘅情況，佢捕捉個畫面，返到個  
32 車廠嘅時候，有人可以睇番呢個閉路電視，因為嗰度係記錄咗個時間，就可以  
33 執法，咁樣你點睇呀？

34 鍾松輝先生：唔好意思，我姓鍾，我想補充喺呢個問題。

35 黃女士：Thank you.

1 鍾松輝先生：因為如果你話巴士嗰個鏡頭去執法，因為架車返到廠，公司唔知㗎嘛，  
2 一定要我哋寫報告，寫報告畀公司，時段、日期，佢先去搵人去擺嗰個晶片，  
3 但係問題起碼隔兩、三日㗎喇，因為一來一回嗰啲文件，可能嗰個效果就未必  
4 咁好嘅，即係未必做得到㗎呢一方面。同埋你巴士，因為你係--就算你埋站都  
5 好，因為你係行緊㗎嘛，咁你影--就算你影到架車，嗰架車究竟係行緊定係停  
6 喺度㗎嗰個鏡頭嗰度係反映唔到出嚟嘅，所以我覺得係有困難，㗎呢一方面。

7 主席：（經傳譯員）你覺得我哋作為亞洲嘅先進嘅城市，其實可唔可以安裝嗰架巴士  
8 度有個鏡頭，就咁揸粒掣就可以記錄番嗰個時間，然後就等嗰個人決定--睇番  
9 嗰個人去決定到底嗰架車係咪靜止嘅呢？即係同唔同意咁樣有粒掣去記錄個時  
10 間？

11 鍾松輝先生：我同意嘅，但係如果嗰個技術可行嘅，我哋係同意嘅。我亦都想補充點  
12 解我哋個聯盟咁重視嗰個巴士站違例泊車呢？最主要即係話而家近呢十年、八  
13 年，即係有啲低地台嘅巴士，因為低地台巴士就係要服務嗰啲輪椅嘅乘客，如  
14 果你個巴士站違例泊車，變咗就會導致我哋埋唔到站去服務嗰啲坐輪椅嘅乘  
15 客，亦都導致到嗰個安全問題，所以我哋比較重視--點解我哋重視巴士站違  
16 泊，主要嘅原因就係隨時都有輪椅客嘅，變咗我哋埋唔到站，就會構成危險。

17 主席：（經傳譯員）個問題係咁嘅，巴士嘅車長可唔可以被指派去幫手執法，去減輕  
18 呢個問題呢？即係話揸一粒掣，就可以捕捉到嗰個違泊嗰個情況係幾點鐘發生  
19 嘅，利用巴士車長協助執法。

20 劉啟謙先生：如果有呢個技術係引入到，我哋當然係非常之樂意，因為其實我哋巴士  
21 車長本身都係受違例泊車影響嘅一群，如果係有呢一個科技係可以協助到執法  
22 嘅，我哋當然係支持。其實本身巴士車長喺 230A 呢個《公共服務巴士條例》底  
23 下，其實可以賦予嘅權力係有足夠嘅權力嘅。如果要用呢個方法去執法，其實  
24 裏面又牽涉到可能法例同埋巴士公司以至運輸署嗰個睇法嘅，我覺得呢樣嘢係  
25 可以值得去畀番巴士公司同埋運輸署去考慮同研究嘅，作為車長，當然我哋--  
26 如果係有呢個科技去協助警察執法，我哋當然係支持，有粒掣揸到佢捕捉到佢  
27 嗰個動態，但係我哋相信話牽涉第一就科技嘅問題，第二就係可能其他政府部  
28 門以至巴士公司佢哋同唔同意同埋涉及嘅技術層面，我覺得係可以值得去研究  
29 嘅。

30 主席：（經傳譯員）黃大律師。

31 黃女士：（經傳譯員）呢個係一個課題係就係一個聯盟係提出嘅，就用--參考新加坡  
32 嘅情況，2018 年 4 月 30 號就係 Miscellaneous 第 2 個文件夾 644 中文，  
33 係英文就係 644-2 版嘅，如果睇番建議一，新加坡嘅情況，係安裝鏡頭就係喺  
34 司機位嘅側邊，呢個 2008 年已經開始㗎喇。司機要做嘅嘢就係揸個掣，就將  
35 個影片交界警方，而警方就會係畀個罰款畀嗰個違例者嘅，又要罰款或者特別  
36 嘅罰款等等，呢個係其中一個聯盟提議嘅建議，就係參考新加坡嘅做法。你會  
37 唔會支持呢個建議呢，就係咁樣去執法呢？

1 林錦標先生：支持嘅。

2 黃女士：（經傳譯員）另外一個我想討論嘅問題就係特別更次，特別更次嘅問題，首  
3 先我哋睇番你嘅陳述書第 167 頁，呢個係中文版，喺英文版 226-21，你特別  
4 提到特別更，就新嘅指引就係話有特別更，佢哋需要有三個小時嘅連續嘅休息  
5 時間，你就話--第 167 頁中文版，呢個英文版 226-20，呢度就講，就唔係所  
6 有嘅巴士嘅車長都係佢哋喺屋企附近嘅，佢即使有三個鐘嘅休息時間，就好難  
7 去搵到一個適合嘅休息嘅地點，令到佢工作疲勞嗰樣嘢，亦都會肯定會影響個  
8 駕駛安全嘅，對安全嘅影響不言而喻。

9 喺 226-21 嗰度，英文版，係下底嗰一段，係中文版仍然都係 167 頁嘅，  
10 喺下面，你就話「九巴設有特別更嘅，而特別更嘅休息時間係無薪嘅，巴士公  
11 司以所謂嘅津貼代替薪金，此舉對特別更嘅車長係十分之不公平嘅，而運輸署  
12 對呢一方面就冇任何嘅立場或者意見，首席運輸主任更喺會面上稱運輸署有能  
13 力監察巴士公司設立特別更。」

14 你嘅陳述書，我相信就係話唔同意就係一個好長嘅--有長嘅工作時間，你  
15 嘅陳述書裏面，你一直都喺度講緊就係將呢一個工作時間係由十四個小時減到  
16 十二個小時，呢個係咪你哋立場呀？

17 林錦標先生：呢個係我哋嘅立場嚟嘅。

18 黃女士：（經傳譯員）點解你會建議有一個咁樣嘅立場或者點解會有咁嘅立場呢？

19 林錦標先生：我搵劉生答你呢個問題。

20 黃女士：Thank you.

21 劉啟謙先生：其實第一，我哋參考咗類近普通法地區嘅工時嘅情況，我哋發現英國、  
22 歐盟、南韓同埋呢個新加坡嗰個工時都唔會話有特別更去到十四小時，其實相  
23 關嘅資料我哋已經交咗畀委員會參考，係喺我哋 supplementary paper 嘅附  
24 件九嗰度，同埋呢個附件十都有相關嘅資料交咗上嚟。當然十四個鐘其實嗰個  
25 工時講緊係好長，車長喺兩個更次之間講緊係得十個小時嘅休息，顯然大家可  
26 以試想像一下，車長落咗班，仲要來回返屋企，沖涼作息，其實實際作息嘅時  
27 間究竟有冇六至七個鐘，我哋根本睇到係唔夠。

28 駕駛一架巴士其實需要好大嘅專注能力，其次就係巴士司機兼顧嘅嘢係乘  
29 客、路面情況、種種都要兼顧住，其實比起駕駛一架普通嘅車係傷神嘅，顯然  
30 十四個鐘裏面，一個更次其實個休息時間係唔夠，嗰十個鐘，你睇咗其他普通  
31 法地區同埋香港相類近嘅城市，都係有十四個鐘呢一個情況出現，對比起歐  
32 盟，甚至乎新加坡，嗰個工時其實係長嘅。餘下我哋睇下鍾生有冇補充。

33 鍾松輝先生：好呀，我補充少少，我哋點解會反對十四小時嘅特別更呢？第一，運輸  
34 署咁耐以嚟，嗰個巴士車長指引從來冇特別更嘅，係今次佢為咗遷就巴士公  
35 司，所以佢就同我哋講正常嘅班次就縮減到十二小時，但係佢又加咗一個所謂

1 特別更就十四小時，十四小時，佢仲好強調個指引講到明中段有唔少於三小時  
2 休息，但係呢唔少於三小時休息，但係佢就--即係運輸署佢就唔會負責呢三個  
3 小時究竟有冇薪酬，如果照運輸署呢個指引，唔少於三小時休息，其實一個極  
4 端嘅例子，佢可以畀六小時你休息，係咪呀？咪畀八個鐘頭人工你囉，畀六小  
5 時你休息，冇人工囉，但係你嘅時間就用咗十四小時，呢個係極端例子嚟嘅。  
6 即係意思話巴士公司就住呢個運輸署呢一個所謂車長指引，佢可以做到呢一  
7 點。

8 其實，第一，就係剝削緊我哋啲前線員工；第二，就更加令到嗰個車長疲  
9 勞，正如我哋個建議書有講，我哋冇時間--即係冇地方畀我哋休息。即係好似  
10 過街老鼠咁，你叫啲車長何來會可以喺嗰個所謂休息時間可以補充到體力呢？  
11 所以呢個第一點。

12 第二點，大家可以計一計個時間，十四小時，其實個車長得番十小時，十  
13 小時，如果佢住嘅地點稍為遠啲嘅，佢來回嗰個返工、放工時間，我哋保守估  
14 計，你去--譬如你返新界盛，個零鐘頭閒閒地，我當佢用咗兩個半鐘頭嗰個返  
15 工、放工用嘅時間，好喇，朝頭起身佢洗面刷牙起碼要半個鐘頭，返到屋企  
16 食飯、沖涼，其實佢得五個幾鐘頭嘅咋，五個幾鐘頭，佢係咪一瞓落床即刻瞓  
17 得著呢？其實大家可以計得到究竟個車長夠唔夠時間充分去休息。所以我哋係  
18 非常之反對呢個特別更嘅班次。

19 主席：（經傳譯員）黃大律師，我哋有冇--城巴有冇畀我哋嘅陳述書？就話佢哋話就  
20 係以時鐘去計呢一個嘅巴士車長嘅工資，就唔係話用嗰啲獎金、津貼等等，呢  
21 個係城巴。

22 黃女士：Yes.

23 主席：（經傳譯員）九巴喺呢方面嘅立場又係點樣樣呢？

24 黃女士：（經傳譯員）九巴嘅立場，就我所知，就因為有罷工同埋有好多人反對，佢  
25 哋就會--就諗下關於呢個特別更次嘅情況。

26 主席：（經傳譯員）但係而家個問題就係其實佢哋會唔會用--就係用時鐘去計，即係  
27 用每小時去計還是就係減低佢哋嗰個津貼呢？

28 黃女士：（經傳譯員）我諗我要睇一睇，我要再搵啲資料先得。

29 主席：Thank you.

30 黃女士：（經傳譯員）鍾先生，我哋就有另外一個協會，就巴士業職工會聯盟...

31 主席：（經傳譯員）對唔住，呢個就係佢哋喇。

32 黃女士：（經傳譯員）我哋另外一個工會話畀我哋聽--汽車交通運輸業總工會話畀我  
33 哋聽，佢哋嘅陳述書同埋口頭證供我哋就聽取咗，佢哋都係有五個分會嘅，同  
34 埋有車長嘅成員嘅，佢哋支持特別更次；第二點，其實就唔係好多人係做呢個

1 特別更嘅啫；而第三，如果減低咗特別更次嘅說話，就係需要聘用更多嘅車  
2 長，就會令到佢哋嘅車長嘅工資係減低咗 5,000 釐嘅。所以佢哋就提出咗三個  
3 理由支持呢個十四小時嘅特別更嘅。你對佢哋嘅講法有咩嘢嘅——點樣睇呢？

4 鍾松輝先生：我嘅睇法就係咁嘅，而家我哋係講緊——探討緊巴士嘅安全問題，呢個係  
5 最重要嘅，正話我所提出如果特別更十四小時，即係普通常識，你識計數，都  
6 知道嗰個車長根本就係唔夠時間休息嘅，好容易導致呢個疲勞駕駛，呢個第一  
7 點。所以如果根據呢個安全——以安全著想，就唔應該有十四小時嘅特別更，呢  
8 個係第一點。

9 第二點，你話至於話因為少咗呢個特別更，假如取消個特別更，個收入又  
10 會少咗，呢個就係一個循環嚟嘅，點解會少咗收入，點解要多做幾個鐘頭去爭  
11 取多啲收入呢？主要就係因為我哋薪酬低，薪酬低，我哋先要多做幾個鐘，有  
12 啲同事要多做幾個鐘，如果你薪酬能夠以運輸業即係政府統計嗰個，即係新入  
13 職嗰啲，有個中位數畀佢，就我相信啲同事唔想做咁多嘅，如果佢薪酬係夠的  
14 話。

15 而家中嗰個——據我了解，如果我有記錯，而家個中位數已經係一萬八千幾  
16 嘅，但係而家巴士公司新入職嗰啲同事都係一萬五千幾，其實我哋因為薪酬偏  
17 低，所以啲同事因為負擔重，所以先會做多幾個鐘，如果以呢個邏輯，咪返十  
18 六個鐘咪仲賺多啲囉，係咪？有可能嘅事嚟嘅，唔可以用時間——即係唔可以話  
19 揼多啲時間就去賺取微薄嘅薪酬，係應該提高個薪酬，令到減少嗰個疲勞駕  
20 駛，呢個第一點。

21 第二點，正話講咗特別更嗰個中間——中段嗰個休息時間，即係用呢個所謂  
22 津貼，呢個唔係巴士公司嘅問題，呢個係運輸署嘅問題，運輸署既然提供得——  
23 出得呢一個巴士車長呢個工作指引，佢就有責任去保障我哋嘅薪酬，就唔應該  
24 將個責任就推落去勞資關係嗰度嘅。如果係咁，你運輸署就唔應該出呢個特別  
25 更，即係我覺得運輸署係非常之不負責任。

26 黃女士：（經傳譯員）我想講番之前主席問嘅一個問題，就係九巴係咪會畀一個時  
27 薪，即係斷時計嘅津貼，就譬如喺特別更過往都有畀過津貼嘅，而家請你睇番  
28 有關呢個文件冊，就係九巴嘅 KMB-1 第 111 頁，如果你睇番舊嘅每日嘅計法，  
29 就係(H)嗰項嘅，就係特別更嘅津貼，我哋可以見到喺 2018 年 3 月 1 號之前舊  
30 嘅津貼就係\$21.90，新嘅就寫住話有改變嘅。如果睇番表 2，每月嘅金額，喺  
31 109 頁，我哋可以見到喺(E)嗰一項，就係特別更嘅津貼或者係分更嘅津貼，就  
32 係\$1,951.50 嘅，無論喺 2004 年之前入職或者之後入職。喺 2018 年 3 月 1  
33 號開始計，嗰個金額都係有改變嘅，所以問下你，呢一個分更嘅津貼，斷時計  
34 嘅，對九巴嚟講，係咪維持不變呀，喺 2018 年 3 月 1 號之後？

35 林錦標先生：我搵番九巴嗰個代表答你。

36 黃女士：Thank you.

1 郭偉光先生：好簡單咁答，\$21.90 嗰個係每個鐘頭嘅，但係如果正常嘅工資應該係  
2 116 釐一個鐘嘅，佢嗰個相距嘅工資係好誇張嘅。

3 主席：（經傳譯員）即係時薪計嘅話，應該係五倍以上，如果係當人工計？

4 郭偉光先生：同意。

5 黃女士：（經傳譯員）所以喺你第 226-21 嘅意見書，呢個英文版，中文版就係 166  
6 頁，呢個係 TU 文件冊 1A，你入面就話呢個特別更嘅津貼對於巴士車長嚟講係  
7 十分之唔公道嘅，係咪就係咁嘅原因呀？

8 郭偉光先生：同意。

9 黃女士：（經傳譯員）跟住講番個相關嘅議題，你喺意見書就話巴士公司就要減低成  
10 本，做法就係要減低員工嘅薪酬同埋福利，我而家請你睇番第 158 頁中文版，  
11 你嘅意見書，同埋係 226-10 至 226-11 頁嘅部分，中文版 158。你提到就係  
12 巴士公司削減薪酬、削減員工福利去壓縮成本，可唔可以解釋下點樣--即係咩  
13 嘢意思呢？

14 林錦標先生：劉生代答。

15 劉啟謙先生：第一，嗰個薪酬問題正如頭先所講，特別更嗰個唔公平嘅情況，其實我  
16 哋係留意到巴士公司利用一啲長嘅工時嘅 duty 去壓縮嗰個人手嘅需求嘅；第  
17 二，就係員工福利，其實我哋見到巴士公司利用唔同嘅福利制度，分咗新制同  
18 舊制嘅員工，新制同舊制嘅員工嗰個福利其實本身係有差別嘅。縱使有部分巴  
19 士公司而家希望係改善嗰個福利，但係我哋見到其實新制同舊制嘅兩個制度員  
20 工底下，嗰個福利係有唔同嘅，尤其是新制嘅員工--新入職嘅員工有嗰個員工  
21 福利其實係比舊制員工少嘅，呢度可能請鍾生有冇補充？

22 鍾松輝先生：新制同舊制不論係薪酬，甚至連福利都係新制係比舊制少嘅，如果講話  
23 新制員工，而家新入職嗰啲一萬五千幾，舊制就係萬八釐嘅，至於你話福利，  
24 例如我哋舊制就有一個月嘅年終雙糧，新制佢就都有，但係佢嗰個所謂年終獎  
25 金，佢要符合佢相關嘅條件，先有嘅。同埋不論睇醫生，我哋舊制嘅員工就每  
26 年可以有睇二十次嘅公司醫生，新制得十次嘅啫，即係諸如此類。所以新制同  
27 舊制係有個差距嘅，呢個就係睇到巴士公司喺度壓縮緊佢嘅成本，公司成日同  
28 我哋講營運困難、賺得好微薄，我唔知佢點為之微薄，我哋覺得佢賺一、兩億  
29 佢都話微薄，我唔知佢要賺幾多先為之豐厚咁樣。

30 黃女士：（經傳譯員）唔該。下一個問題講脫班，你第一封嘅意見書同埋補充嘅意見  
31 書都提到「鬼巴士」或者係脫班嘅問題，我而家想請你睇番意見嘅英文頁就係  
32 226-22，就係喺 TU 文件冊，即係中文版嘅 168 頁，第二段，就講到話「脫班  
33 原因有好多嘅，譬如係欠缺車長開車、交通阻塞、車輛故障等。脫班嘅問題主  
34 要涉及人手、車輛同埋道路三個原因，前兩者係巴士公司需要正視及處理嘅，  
35 但係喺呢啲問題上，你就問運輸署有冇做個監管者嘅角色呢？『鬼巴士』實際  
36 係基於運輸署嘅定義上有灰色地帶，安排車輛行走幾個站嘅短途班次以填補因

1 為唔同原因而有正常開出嘅班次，從而令脫班嘅比率下降。」可唔可以問下你  
2 呢一個脫班嘅問題，首先係咪有好多脫班呀，喺九巴嘅情況？

3 劉啟謙先生：九巴現時脫班嘅 target 係低於 3%，其實有主要係脫班係因為人手唔  
4 夠，大致上因為人手嘅問題，所以脫班一定係存在，當然唔係淨止九巴，新巴  
5 同埋城巴都係會因為唔同嘅原因而存在脫班呢個問題，就唔係話單獨九巴係面  
6 對呢個問題，其實每間巴士公司都係有面對緊呢一個問題嘅。

7 黃女士：（經傳譯員）你亦都有提到「鬼巴士」嘅呢度，可唔可以再解釋一下「鬼巴  
8 士」呀？

9 劉啟謙先生：現時巴士公司就每一條巴士路線係同呢個運輸署簽訂一個服務詳情表  
10 嘅，而服務詳情表係規定咗巴士行車個個里數、用車嘅數目同埋個個班次嘅，  
11 所謂嘅「鬼巴士」，其實巴士理論上應該係由總站 A 直接開到總站 B 為之一個  
12 班次，但係可能有部分我哋叫做短途班次，可能去某幾個站，中途開始載，都  
13 叫做一個計算一個班次嘅，所以「鬼巴士」可能係臨近總站前某幾站開始載，  
14 就當一個班次，咁樣出現去填補一啲係因為唔原因嘅失班嘅，畀傳媒發現之後-  
15 -當然係畀《東方日報》發現之後，就冠以呢個「鬼巴士」呢個暱稱，其實實際  
16 上「鬼巴士」係鑽進咗現時運輸署對班次所定義嘅灰色地帶。

17 我補充一樣嘢，其實運輸署對巴士公司用車、人手以至個個班次，其實從  
18 每一條路線嘅服務詳情表裏面係有充分嘅掌握嘅，而呢個服務詳情表都係法例-  
19 -所以巴士條例規定咗要提交嘅。呢啲文件其實喺運輸署手上係存在住嘅，所以  
20 其實運輸署對於每一間巴士公司嘅服務係有充分嘅掌握嘅手嘅。

21 黃女士：（經傳譯員）我問呢個問題就係因為喺你嘅補充意見書入面就提到呢一個脫  
22 班係點樣帶嚟安全問題，就呢個係第 260-81，呢個英文版，中文 260-43 至  
23 44 頁，請畀我讀出，喺 260 橫畫--即係英文版 81 頁呢一段，即係 43 頁，就  
24 係話「因為係巴士車長就喺工作時間或者駕駛時間休息不足嘅，因為巴士脫班  
25 或者專營巴士公司編排行車時間太短，無法應對路面不同車輛狀況，不同於三  
26 十分鐘嘅小休或者六十分鐘用膳，巴士公司唔會對十二分鐘嘅休息時間作出特  
27 別標示，因此車長未必可以完完全全了解十二分鐘嘅休息時間」，要睇下車輛-  
28 -「行車時間往往因為路面唔同嘅情況有所增加。而編更嘅時間責任係喺巴士公  
29 司身上」，「而本聯盟未有就有關行車時間不足嘅巴士車長更分資料作出統  
30 計，但係有關詳情可參考附件八嘅資料。」可唔可以請你解釋一下點解脫班問  
31 題會令到車長喺工作或者駕駛時間休息不足呢？

32 主席：（經傳譯員）據我理解，就係話因為行車時間都係好短，令到巴士車長好快已  
33 經去到總站，亦都有乜足夠時間去休息嘅，而脫班就係--個問題就係--即係意  
34 思就係話因為個班次不足嘅問題，所以安全方面最終個問題就係話嗰個行車時  
35 間本身太短，咁樣理解啱唔啱呀？

36 劉啟謙先生：冇錯。第一，我諗分幾個部分去答，黃律師，第一，睇番文件，其實十  
37 二分鐘休息時間講緊巴士工作指引(a)項嘅度，規定咗巴士車長每四個小時嘅駕

1 駛其實係有十二分鐘嘅休息時間，但係呢個十二分鐘嘅時間往往係巴士公司安  
2 排上面係唔會畀車長知嘅，而由於嗰個行車時間不足，正如我哋提交附件八嘅  
3 更分資料裏面，其中一個更分其實係預計車長係得三分--到站同開車距離得三  
4 分鐘嘅啫，根本就冇足夠嘅時間畀車長去休息。由於香港嘅路面繁忙，車長往  
5 往可能遲咗到站，遲咗到站，又有乘客候車，佢哋自然就要繼續去行車，第  
6 一，嗰個精神就會繃緊，尤其繁忙時間，就有咗時間休息。而行車時間上面，  
7 呢個等鍾生作答。

8 鍾松輝先生：有關行車時間，我哋都問過巴士公司，新巴同城巴，亦都問過運輸署，  
9 究竟巴士嗰個行車時間係如何制定嘅，原來佢哋就有一個科學嗰個數據去制定  
10 呢個行車時間表嘅，純粹只不過係佢哋話搵架車就去試路，即係去行一次嗰啲  
11 新路線，睇下用幾多時間，呢個就係非常之唔科學嘅一個制定呢個行車時間表  
12 嘅情況。

13 我哋就建議畀咗運輸署聽，亦都建議畀新巴同城巴聽，我哋覺得制定行  
14 車時間表，第一，你要有足夠時間畀啲車長休息；第二，你要有足夠時間畀啲  
15 車長啲呢一個道路嗰度唔好超速。往往因為時間唔夠，人就好得意嘅，當你趕  
16 嘅時間，你自自然然就會揸快啲嘅，呢個係好自然嘅。

17 我哋覺得應該有個科學嗰個制定呢個行車時間表，例如，我舉例，你每小  
18 時究竟嗰架車每小時係行 40 公里咁平均，係咪呀？你先有個數據咁嘛，因為你  
19 市區就 50 公里，法律規定，係咪？如果你個平均嗰個時速，每小時究竟係你係  
20 制定 40 公里係咁咁，定係 30 公里咁呢，我覺得呢個第一，就係科學數據；第  
21 二點就係話嗰個巴士站嘅數量，你巴士公司每一條路線嘅巴士站，你畀幾多秒  
22 鐘啲車長去上、落客，呢個亦都需要時間嘅；第三，你畀幾多時間畀車長休  
23 息，亦都可以計算到嘅；第四，就係香港嘅馬路就不同時段都唔同嘅，即係個  
24 行車時間，因為有繁忙時間就塞啲，非繁忙時間就有咁塞，我相信巴士公司係  
25 有能力啲呢個黑盒嗰度係攞到呢啲繁唔繁忙時間嗰個情況嘅，加埋呢個所謂塞  
26 車時間落去，去制定一個行車時間表，我覺得就起碼有個科學數據。但係我唔  
27 知道運輸署會唔會聽我哋意見。

28 林錦標先生：劉生有個補充。

29 劉啟謙先生：其實較早前嘅聽證會，程艾樂先生都有提到，巴士公司已經有黑盒 係  
30 有實時數據去記錄其實巴士行車嘅相關嘅資料嘅，即係其實巴士公司嘅技術上  
31 已經係可以完全同埋充分掌握行車嘅時間，但係往往巴士公司安排嗰個行車時  
32 間緊張，因為牽涉到用車同埋用人嗰個情況，當然巴士公司希望可以用少一架  
33 車、用少一個人，而又可以做到運輸署嘅要求去服務乘客，其實往往變相就巴  
34 士車長啲每程車次之間嘅休息時間就被剝削，甚至乎因為行車時間不足，去到  
35 有大量乘客候車，而緊接下一個車程，呢啲情況其實都常見嘅。其實我哋覺得  
36 有呢啲數據，巴士公司本身手上係有足夠嘅數據去幫助佢制定嗰個時間，亦都  
37 可以防止車長--車次之間係過於繃緊嘅，但係牽涉就係因為資源、車、人手。

1 其次，其實我哋都有問過運輸署嘅，喺 17 年 8 月嘅會議上面，我哋都要求  
2 咗運輸署就住巴士公司安排行車時間呢啲數據上面要作出監管，但係運輸署表  
3 示其實佢哋只係會對嗰個服務詳情表作出審批嘅啫，而服務詳情表嘅內容頭先  
4 我已經開述咗，我呢度唔再多講。

5 但係基於呢啲資料，其實唔可以從嗰個服務詳情表上面係去睇得出嘅，往  
6 往運輸署就做唔好把關嗰個工作，巴士公司就不停咁樣安排呢啲繃緊嘅班次，  
7 車長就會非常之辛苦，而呢啲情況，我請許生可以補充，因為許生都經常面對  
8 呢啲情況。

9 許漢傑先生：各位好。城巴，城巴有啲路線我講一個十幾年--操作咗十幾年嘅路線就  
10 係 N8X，N8X 就係通宵車，通宵行走，係由凌晨 12 點去到第二朝嘅 06，朝頭  
11 早嘅 6 點，呢條路線係由柴灣嘅小西灣去到中環嘅港澳碼頭，佢畀嘅時間就係  
12 一個鐘。

13 我先講講我個背景，我個背景係之前我都係做通宵嘅車長，我做咗十幾  
14 年，而且我對住 N8X 呢條路線對咗十幾年，亦都係一樣嘢，就話呢條路線十幾  
15 年都係維持一個鐘頭一個車程，如果來回計就兩個鐘，但係一個鐘頭嘅車程裏  
16 面，我都有做過呢個 N8X，但係一個鐘頭，如果實際嚟講，係做唔到，係超時  
17 嘅，係點都會超時，點解超時呢？就係 N8X 來回嘅站係百一個站，大概，來回  
18 計，百一個站。

19 如果一個車程五十幾、六十個站，一個鐘頭，市民--佢嘅行嘅道路就係  
20 行，由柴灣行柴灣道、筲箕灣道、英皇道、軒尼軒道、金鐘道、德輔道中去到  
21 港澳碼頭，呢條路線係由東區去到中區，全程係行晒所有繁忙--一啲有交通燈  
22 嘅路段，一個鐘頭，我自己做過，係好趕嘅時間，係咪真係做到，得，架車要  
23 行得快，仲要一樣嘢，係要--咁講，係要超速，先至做到一個鐘頭嘅行車車  
24 程。

25 而家我有做咁耐，我絕對一個鐘頭我做唔到，而家喺 N8X 嘅同事因為佢做  
26 得耐，知道啲交通燈嘅操作，可以喺嗰度偷一啲時間，而令到呢個車程可以縮  
27 短，所以呢個例子係最好嘅例子。而且我作為工會代表，城巴職工會有限公司  
28 嘅代表，我喺交流會同公司講 N8X 呢個行車時間係絕對唔夠，係講咗--我參與  
29 工會十幾年，係講咗十幾年。變咗呢個係一個好極端嘅例子，就係咁，唔該。

30 主席：（經傳譯員）你係咪講緊就係一個小時係永遠都唔可以實現嘅呢？係落實唔到  
31 嘅呢？

32 許漢傑先生：係。

33 黃女士：（經傳譯員）如果喺一個小時裏面唔能夠係完成，有咩嘢後果㗎？

34 許漢傑先生：嗰位同事只有繼續嗰個車程，事關點解呢？N8X 一個班次係半個鐘頭一  
35 班車，所以遲咗，佢遲咗返去總站，都係要開車嘅，遲幾多都要開，除非中間  
36 發生交通意外，佢嘅時間係譬如有十五分鐘以上嘅阻延，就佢經由公司指派，

1 就可以喺半途做番去對站，如果唔係，如果係五、六分鐘，係冇嘅，繼續做，  
2 繼續做嗰個——另一個車程，而有一個我哋叫做所謂中途載嘅做法。

3 黃女士：（經傳譯員）呢個嘅車程，如果你唔能夠係準時到達嘅時候，會唔會係有懲  
4 罰㗎？

5 許漢傑先生：冇嘅

6 黃女士：（經傳譯員）只係話你休息時間係縮短咗咁解啫？

7 許漢傑先生：係，係，點講？N8X 如果過鐘係直情冇，冇休息時間。

8 主席：（經傳譯員）羅教授有個問題嘅。

9 羅先生：（經傳譯員）我就想知道，公司點可以落實咗走四個鐘頭有十二分鐘嘅休息  
10 時間？個公司點樣可以落實呢？就肯定係譬如話頭四個鐘有十二分鐘嘅休息時  
11 間？因為呢個喺嗰個指引裏面有規定㗎㗎。

12 劉啟謙先生：應該咁樣講，指引裏面有幾項嘢，六個鐘有半個鐘休息，同埋一個鐘頭  
13 用膳，呢兩樣嘢係車長嗰個時間表同埋嗰個行程表裏面係明確咁樣寫住嘅，但  
14 係呢四個鐘嘅十二分鐘其實係冇清楚咁表示，有機會係巴士公司安排咗，但係  
15 可能因為車次嘅綑緊同埋交通擠塞嘅原因，嗰四個鐘頭有十二分鐘可能已經係  
16 塞車嗰度已經令到佢冇咗，但係其實巴士車長本身係睇唔到嘅，四個鐘頭十二  
17 分鐘，可能淨係見到可能嗰程車次係特別長，可能多十零分鐘，但係佢哋係唔  
18 知道四個鐘係有十二分鐘休息嘅，但係其實(a)項呢一樣係巴士公司編排嗰個時  
19 間表係知道佢係有呢一樣嘢，但係往往安排嗰個 trip 中間係好緊張，往往冇  
20 咗，其實車長本身都唔知道係冇咗嗰十二分鐘休息。

21 但係其實我哋一直都有反映，係希望可以每程車次中間係有五分鐘嘅到站  
22 嘅時候係有休息嘅，即係起碼去下廁所、停一停、斟一斟，個人都可以放一放  
23 鬆，但係現時暫時我哋見唔到巴士公司係會用一個人性化嘅方向去處理呢個問  
24 題。

25 羅先生：（經傳譯員）好，有一個跟進嘅問題，所以話喺文件上面，根本呢十二分鐘  
26 都有寫到出嚟嘅，唔好講話實際有冇落實，係咪咁呀？

27 劉啟謙先生：落實就一定要落實嘅，因為運輸署同我哋講係有抽查嘅，而過往我哋知  
28 道的而且確係有因為(a)項冇咗嗰個十二分鐘，而運輸署有對個別巴士公司係有  
29 作出提醒嘅，但係實際上其實係我哋交上嚟嘅附件八嘅資料裏面，其實根本睇  
30 唔到有所講嗰十二分鐘嘅。當然其實巴士公司係清楚呢十二分鐘，因為呢十二  
31 分鐘係運輸署個指引嚟嘅，但係你話白紙黑字係巴士車長嗰度見到呢，係冇  
32 嘅，就正如而家個 mon. 打出嚟，我哋見到。

33 黃女士：（經傳譯員）講番一個類似嘅題目，就係休息嘅設施，我哋可以見到喺你嘅  
34 意見書，即係 226-25，呢個係英文版，你就提到就話休息室或者係休息設施不

1 足嘅，中文頁數就係 171 頁，你就提出一個特別嘅問題，我而家睇緊係 226-  
2 25，英文版，你話「多年來喺休息室嘅問題上，運輸署缺乏承擔，將責任推向  
3 地政總署同埋民政事務總署身上，加上，有啲政府部門對設立休息室更加持有  
4 敵對嘅態度，例如房屋署，令到休息室嘅問題難以解決。」據你頭先講嘅例  
5 子，關於呢個一小時嘅行車時間，我喺繼續問問之前，先問你呢樣嘢，一小時  
6 嘅行車時間有冇足夠嘅設施呢？即係當你去到目的地嘅時候，就算唔計嗰個行  
7 車時間，由 A 至 B，好似你頭先提到嗰條巴士線。

8 許漢傑先生：係有嘅，柴灣嘅小西灣同埋中環嘅港澳碼頭係有休息設施嘅，但係總  
9 體，城巴，城巴嘅休息設施係唔足夠嘅，可能係有啲例子就係個休息室唔夠  
10 大，仲有，有啲情況係得個化廁，冇正統嘅洗手間。亦都之前有啲例子就係直  
11 情係冇洗手間，係經過我哋工會去爭取，先至由政府部門去--由運輸署帶頭，  
12 先至有一個化廁，就係咁。由劉生補充。

13 劉啟謙先生：黃律師，其實我哋交番嚟補充文件裏面都有一個表係講咗休息室邊啲係  
14 齊備、邊啲係唔齊備，甚至乎有啲地方係冇休息室嘅，我哋畀咗個表委員會去  
15 參考嘅，你可以望一望。

16 黃女士：（經傳譯員）我而家會同你睇嗰份文件，我諗應該係喺附件七，你嘅意見書  
17 嘅附件七，第 260-342 至到 346，你提到一個跟進嘅進度報告，關於巴士總站  
18 嘅情況，喺 TU 文件冊嘅英文版就係 260-346-1 嘅，呢度有個表，你交畀我哋  
19 唔單只係申請進度，即係九巴嘅申請進度，城巴同埋係新巴，仲有一封信，日  
20 期係 2017 年 4 月 28 號，跟住就 6 月 28 號，你就有講到喺深水埗蘇屋嘅巴士  
21 總站嗰個問題嘅，可唔可以問下呢封信，我就留意到有啲申請已經係幾年前㗎  
22 喇，可以舉個例畀你聽，2016 年 5 月 30 號麗閣，呢個係 260-346-4 頁，  
23 「運輸署就喺 2016 年 5 月 30 號收到九巴嘅申請，並且同九巴喺 2016 年 6 月  
24 23 號到上址進行實地視察，由於有關嘅巴士站附近行人路比較狹窄，因此運輸  
25 署工程師要求九巴修改休息室設計，九巴現時尚未向運輸署遞交修訂嘅設  
26 計。」呢個係最新近嘅進度呢？即係話係咪喺 2016 年之後其實有進度？

27 劉啟謙先生：就我哋了解，其實九巴喺設置休息室嘅問題上面喺呢一、兩年係非常之  
28 積極嘅，其實表列裏面大部分嘅地方都已經加設咗休息室，縱使休息室可能未  
29 必係好大，但係起碼有一個空間可以畀車長係休息嘅。例如麗閣邨嘅進度，我  
30 哋就暫時唔清楚，但係其實表列裏面其他嘅位置，例如青衣碼頭已經係加咗休  
31 息室係使用中嘅。所以你話九巴個情況係比新巴同城巴係好嘅，起碼都儘可能  
32 都係申請可能放到一個細嘅休息室落去，甚至空間可能未必完全足夠，但係起  
33 碼有一個地方係畀車長去休息嘅。

34 黃女士：（經傳譯員）你可唔可以舉個例子，如果我哋係要去某一啲地點實地視察嘅  
35 話，要睇下休息設施嚴重不足嘅，你會提議去邊度睇呢？

36 林錦標先生：我提議喺新巴嘅鰂魚涌站，即係祐民街，呢個成個就係有一個休息室畀  
37 同事去休息嘅，呢度我哋係爭取咗有超過十年㗎喇，一路都係運輸署就話有地

1 區人士反對，亦都有啲地政各樣嘅話拖延，到到今時今日仲未有休息室。最新  
2 嘅消息，即係由我哋公司提供畀我嘅，兜兜轉轉用咗十年時間，嗰個休息室嘅  
3 位置由我哋提出响嗰個位置，卒之係返番嚟，要去番同一嘅位置申請，係足足  
4 用咗十年時間，係返番去我哋建議嘅--工會提出嘅建議嗰箇地方去申請，用咗  
5 十年嘅時間，到而家先話有少少眉目話會擺上去區議會，同各政府部門去諮  
6 詢，但係佢而家都唔知道佢等到幾時先有嘅。劉生就有少少嘢補充，唔該。

7 劉啟謙先生：其實休息室嗰個問題主要就係第一，巴士公司申請，運輸署要審批，其  
8 實個途中係牽涉咗大量嘅政府部門，要每一個政府部門批准，包括地政總署、  
9 食物環境衛生署、地政總署、警方，連埋呢個民政事務總署進行諮詢，往往一  
10 個休息室可能講緊係用上係幾年嘅時間進行呢個申請同埋呢個審批嘅，往往每  
11 個政府部門中間又有唔同嘅意見，好似鯽魚涌咁樣兜兜轉轉，其實超過咗十年  
12 嘅時間都係做唔到一個休息室出嚟。每一個政府部門都互相係有唔同嘅意見，  
13 甚至乎可能有部門覺得唔係咁妥當，就 reject 咗個申請都有。呢啲情況其實  
14 喺鯽魚涌呢個例子就係最清楚可以話到畀各位聽個情況就係咁惡劣嘅。

15 黃女士：（經傳譯員）巴士公司有冇做過啲咩嘢措施呢，譬如話延長休息時間，等巴  
16 士司機可以去洗手間或者去一啲休息嘅設施嗰度呢？即係有冇調整過嗰啲休  
17 息、行車時間，巴士公司有冇咁做？

18 林錦標先生：就呢個問題，我哋有反映過，向巴士公司反映個行車時間令到啲車長唔  
19 夠時間休息，但係公司就話會去研究，但係研究到今時，我都睇唔到佢--我哋  
20 返到站頭有冇足夠時間去廁所，基本上係因為個路面嗰個情況令到我哋啲車長  
21 返到站頭，根本就已經下一轉車就要開出嘅，我哋通常都會--司機就响情況  
22 下，都會去咗廁所先，第一件事去咗洗手間先去開車，遲就要遲，遲都要開，  
23 但係個生理一定需要嘅，所以其實我哋一路都反映嘅，但係公司方面就仲未見  
24 到佢有實質嘅行動。許生有少少嘢補充。

25 許漢傑先生：我想補充一樣嘢，個站頭設施，城巴，城巴有兩個例子係比較突出，第  
26 一，就係南區，個置富花園嗰個總站，由城巴開線到而家都有一個休息室，問  
27 題係乜嘢呢？就係當地嘅業主立案法團係唔畀巴士公司設置休息室，呢個第  
28 一；我哋同運輸署--叫運輸署去同業主立案法團傾過，但係業主立案法團都係  
29 唔畀設置休息室。

30 第二個例子就係機場博覽館嗰個總站，機場都開咗咁多年，呢個博覽館總  
31 站係臨時嘅，臨時，咩嘢都係臨時，連個洗手間都係臨時，臨時咗十幾年，我  
32 唔明運輸署同埋其他政府部門點樣去協調呢啲站頭設施嘅嗰個建設。同埋一樣  
33 嘢就係政府部門之間係完全係有協調去--因為我哋巴士公司要開一條線，要設  
34 置休息室、廁所，完全係有協調。

35 我想講多一樣嘢，就係喺幾年前，我哋有同運輸署講，如果有箇地方要起  
36 樓，而下面運輸署係會準備有一個巴士總站，我哋會同--我哋同運輸署講咗，  
37 就係話如果有總站嘅，要預早通知我哋聯盟，話畀我哋聽呢個總站準備嘅路線

1 有幾多，我哋畀一啲意見畀佢嚟令到嗰個設施更加完善，但係呢個都係幾年前  
2 講緊，但係運輸署嘅回答就係話因為呢個規劃唔係佢哋部門所控制，係由其  
3 他部門去--譬如政府規劃署或者係地政署咁樣，或者係康文署咁，由此可以睇  
4 到運輸署同其他政府部門真係有一個協調嘅做法去做而令到呢啲設施能夠儘快  
5 咁設立。唔該。

6 主席：（經傳譯員）郭先生，我有一條問題問你，因為你係代表呢一個九巴員工協會  
7 嘅。有分更，好多年嚟都係有特別更分更㗎喇，係咪呀？

8 郭偉光先生：係嘅。

9 主席：（經傳譯員）黃大律師頭先問緊你一啲問題，譬如話巴士總站，係有一啲巴士  
10 總站設施嚴重不足嘅話，你而家可唔可以今日講得出有咩嘢設施、喺邊度，等  
11 委員會可以去睇下呢？視察一下喺呢啲行特別更嘅車長佢哋係需要休息超過三  
12 個鐘嘅，但係啲設計就嚴重不足嘅，你可唔可以舉一啲地點畀我哋聽呀？

13 郭偉光先生：九巴方面係咁樣嘅，就因為特別更如果佢哋上面收車--收工嘅時候，  
14 佢哋係會將架車揸番去巴士廠嘅，由個巴士廠再--離開個巴士廠出去用膳或者  
15 係去其他地方休息嘅，大部分都係咁樣運作，而好少話喺站頭嗰度完咗上段而  
16 進行一個中段休息嘅。

17 如果其他有一啲更次就係話有啲特別啲嘅，就係喺個站頭度收上段，而自  
18 己離開，而之後再返番去站頭嗰度接下段嘅亦都有，呢啲咁嘅更次係個員工嘅  
19 休息嘅機會更加少，因為佢搭車去第二啲地方食飯，跟住再搭番車返番去個巴  
20 士站嗰度開下段，中間嗰個一來一回所花費嘅時間更加多嘅，所以佢哋更加缺  
21 乏休息嘅時間。

22 主席：（經傳譯員）我就問緊你關於嗰啲設施，如果站長就係話佢上更完咗，佢就有  
23 三個小時嘅休息時間，佢就--佢係泊咗架車喺總站，就係咪個休息設施唔夠，  
24 而佢需要去其他地方去休息呢？

25 郭偉光先生：冇錯，例如喺荃灣嘅荃威花園，你哋可以去睇下呢個地方嗰個設施。

26 主席：（經傳譯員）你係咪建議就係話呢個地方我哋可以睇下嗰度嘅設施，休息設施  
27 好唔足夠嘅，特別係就話嗰啲分更，佢第一更完咗嘅時候，佢去嗰度休息，嗰  
28 度休息設施係唔足夠，係咪你嘅建議可以去嗰度睇呢？

29 郭偉光先生：冇錯。

30 主席：（經傳譯員）除此之外，仲有冇其他建議？

31 郭偉光先生：暫時冇補充。

32 主席：（經傳譯員）如果我哋汽車交通運輸業總工會，其實佢哋今朝早已經嚟，佢哋  
33 就請--我哋請佢哋就睇一啲嘅文件嘅，我哋就頭先就話佢哋用一啲時間睇一啲  
34 文件，然後我哋就可以向你哋提問。而家就我哋就有一個小休嘅時間先，然後

1 就我哋再繼續。

2

3 下午 5 時 04 分押聆訊押後

4

5 下午 5 時 12 分恢復聆訊

6 出席人士如前。

7

8 主席：（經傳譯員）黃大律師，你可唔可以提一提我就係立法會嘅資料文件？

9 黃女士：（經傳譯員）TD-1 文件夾第 403 頁，中文版 416 頁。

10 主席：（經傳譯員）各位，你哋有冇時間係閱讀呢一個嘅立法會交通事務委員會嘅資  
11 料文件呢？

12 張子琦先生：主席，我哋係剛才啱啱睇過呢份報告嘅，呢份文件嘅咁樣樣。都初步我  
13 哋都畀一啲意見，認為嗰個 4(a)「電子穩定控制系統」係唔建議裝嘅，因為我  
14 哋對呢套系統係有存疑，驚剎車嘅時候會突然間掙死堂軚，仲會令車輛會失  
15 控；第 4 項(b)控制...

16 主席：（經傳譯員）你繼續之前，我哋想問一問你相關嘅工作小組有冇曾經諮詢過你  
17 關於呢方面呀？

18 張子琦先生：主席，呢個立法會交通事務委員會係有諮詢過我哋嘅，我哋都曾經多次  
19 要求派工會入去做一個--喺委員入面，運輸署亦有諮詢過我哋關於呢一樣嘢，  
20 我哋只能夠用我哋嗰個工作嘅經驗嚟睇呢份報告。多謝主席。

21 主席：（經傳譯員）請你繼續講番喺呢份資料文件你想講番邊部分，同埋有咩嘢建  
22 議。你頭先講到話你懷疑呢個電子穩定控制系統嘅成效，咁其他嘅事項呢，你  
23 可以繼續講。

24 張子琦先生：多謝主席。4(b)，我哋喺文字上睇，係認為可行嘅，因為佢係鎖定咗  
25 70 公里，不論落斜都係鎖死 70 公里，呢個對我哋係有幫助嘅，因為我哋好多  
26 車長行屯門公路嘅時候，因為又起又落、又起又落，好多時都會超速--都不知  
27 不覺會超速，而令到受到一啲紀律嘅處分，所以如果有咁嘅系統能夠限定咗  
28 70，落斜嘅時候都唔使驚超速，係對我哋有幫助，所以我哋認為可行嘅。

29 喺第 6 項嘅(a)「巴士監察及控制系統」，呢個我哋係唔認同嘅，因為呢  
30 個等同架巴士係畀一個控制器控制住，一到到嗰個路段係 50 嘅，70 轉 50，佢  
31 突然間會改番去 50，個時間後面嘅車輛會唔會預計你前面突然間有車嘅，都唔  
32 係預計你突然間咁急速剎去到 50，會唔會產生交通意外呢？呢個我哋係睇到係

1 有疑慮嘅，係有啲擔心會發生交通意外，所以係唔認同嘅，唔建議裝呢個嘅。

2 主席：（經傳譯員）先打斷你一下，其中一個原因點解嗰個巴士會減速，係因為嗰個  
3 速度限制減速，即係亦都減咗，然後個巴士於是減速，點解後面個司機會覺得  
4 唔明白呢？

5 張子琦先生：係，係咁樣嘅一個駕駛習慣，如果當我哋行緊 70 嘅時間去到一個 50  
6 嘅區域，我哋會慢慢收油，等佢減速，但係如果你呢個系統係比較急速咁樣  
7 減，就會令到後面啲車輛就會對一向嘅常態，「巴士唔係咁樣揸車㗎㗎」，就  
8 會發生交通意外，佢會突然間會撞埋㗎，呢個係有擔心嘅我哋。

9 主席：（經傳譯員）你點樣分辨減速會唔會係突然間發生？你點樣可以知道系統係咁  
10 呢，你喺邊度睇到呢？

11 張子琦先生：因為我哋如果減速，我哋會掙 brake，會有 brake 燈會通知到後面，  
12 但係你而家呢個就係有一個控制系統，有一個定位，一去到嗰度，佢就自然同  
13 你急速咁減，而又我前面係有車嘅，後面嗰架車就會預計你唔會突然間咁快去  
14 減速減到去由 70 變速到 50，所以我哋係擔心呢樣嘢會引致到安全問題。

15 主席：（經傳譯員）好。

16 張子琦先生：6 嘅(b)，呢個同樣我哋都係唔建議裝嘅，因為呢個碰撞嘅警報裝置及  
17 保持行車線嘅裝置，曾經有揸過呢一類型嘅車就覺得佢好煩擾，佢一遇到一啲  
18 小小嘅障礙物，就會發出響聲，尤其我哋香港都係人多車多、馬路窄，好多時  
19 如果你喺條彌敦道度，周時你附近都會出現一啲障礙物，但係呢啲實質上可能  
20 唔會對架車會受影響，但係架車就仍然都會發出響聲，嗶嗶聲，咁會令到個車  
21 長好大嘅干擾受到，所以唔建議裝。

22 主席：（經傳譯員）佢建議嘅就係話試行，試驗下。

23 張子琦先生：我畀城巴揸過呢架車嘅車長講下。

24 劉善達先生：主席，唔好意思。城巴就响我唔記得三年定兩年前就試過呢個系統，有  
25 個叫做類似叫做神眼系統嘅系統，就係我哋試驗嗰陣時，响高速公路係有問  
26 題，但係一到市區，即係有少人或者車，佢就會不停咁響，就會造成一個滋  
27 擾。

28 主席：（經傳譯員）我哋聽到係前員工，即係九巴前員工程艾樂嘅證供同埋鄭子憲先  
29 生嘅證供，就係話大家要留意科技喺呢段時間可能唔係咁啱用，可能喺過兩年  
30 有改進，就會啱用㗎喇，即係可能個科技本身都係有改進到嘅。

31 張子琦先生：主席，真係我哋而家見到揸過、駕駛過嗰啲嘅系統就係有毛病，覺得唔  
32 係咁適合，所以日後如果真係有啲系統係改善咗嘅，我哋再作考慮建議裝呢啲  
33 系統，因為的而且確我哋係一個從業員，我哋只能夠反映我哋嘅工作直接遇到  
34 嘅問題出嚟畀主席。多謝主席。

1 主席：（經傳譯員）而家問你就係反映，你之前冇人問你畀意見吓嘛？

2 張子琦先生：係呀，主席。

3 主席：（經傳譯員）請繼續講其他啲啲儀器裝置。

4 張子琦先生：呢個 6(c)「監察司機裝置」，呢個我哋認為係可行嘅，因為呢個係直  
5 接監察個司機有冇瞓眼瞓，我可以大膽講句，瞓眼瞓係我哋職業司機嘅天敵，  
6 佢有時真係自己瞓一瞓啲兩、三秒就可能自己條命都有咗，如果有一個咁嘅裝  
7 置提醒個司機「小心啲囉喎，你有啲睡意喎。」不論係對個司機、對乘客、對  
8 路面嘅交通使用者，都係一個--提供一個安全一個措施嚟嘅，所以我哋認為可  
9 行嘅呢個。不過都呢套系統，我哋都有同事揸過，希望都仍然有啲要改進嘅地  
10 方，譬如佢戴一個墨鏡，係有水銀嘅，佢就呢套系統就失效，一路長響，以為  
11 你瞓眼瞓㗎喇。

12 主席：（經傳譯員）唔該。

13 張子琦先生：好，多謝主席。至於呢個係安全帶，喺乘客座位度設置安全帶，我哋係  
14 唔建議安裝嘅。第一，因為我哋都有企位，唔係全部座位，唔係旅遊巴；第  
15 二，如果係雙層巴士上層裝咗之後，一下如果有咩嘢事發生，相信都幾混亂，  
16 譬如如果突然間發生火警，佢哋會逃生更加困難，人喺危急嘅時間佢要除條安  
17 全帶，我相信係非常之困難嘅。所以我哋就認為唔係咁可行，除咗有啲適當嘅  
18 位置，譬如係最前排嘅或者係最後座嘅中間位，一啲比較危險啲啲安裝之外，  
19 其他我哋就唔係咁建議安裝安全帶。

20 去到「專營巴士車長訓練」，我哋覺得係需要加強嘅，要回復番 98 年我哋  
21 培訓一個車長出嚟，要用差唔多一個月嘅時間，仲要多啲喺路面度實質嘅操  
22 作，咁先至令到一個巴士車長佢出到嚟路面有啲信心，唔係而家成日要靠一啲  
23 車長去帶一啲新嘅車長，其實呢個我哋認為唔係可行，亦唔推薦咁做嘅。最好  
24 都係由番學校去培訓一個車長。多謝主席。

25 主席：（經傳譯員）呢個學院應該邊個運作呀？

26 張子琦先生：多謝主席，學院都係由番學校、巴士公司同學校，同埋運輸署應該要協  
27 助嘅。多謝主席。

28 主席：（經傳譯員）黃大律師，由佢哋畀嘅證供，你仲有冇其他跟進問題？

29 黃女士：（經傳譯員）冇喇，主席。

30 主席：（經傳譯員）各位，多謝你哋今日留咗喺度一整日畀證供，我哋感謝你哋出  
31 席，而家你哋可以離開，如果其他嘅--另外一個工會嘅其他代表而家可以過  
32 嚟，我哋而家稍休幾分鐘，你哋幾位可以離開，唔該。

33

1 下午 5 時 28 分押聆訊押後

2

3 下午 5 時 33 分恢復聆訊

4 出席人士：鍾松輝先生，巴職聯會務顧問，新世界第一巴士公司職工會會長（巴士  
5 業職工會聯盟（包括各會員工會，即九巴員工協會、新世界第一巴士公  
6 司職工會及城巴有限公司職工會）代表）

7 劉啟謙先生，巴職聯會務幹事（巴士業職工會聯盟（包括各會員工會，  
8 即九巴員工協會、新世界第一巴士公司職工會及城巴有限公司職工會）  
9 代表）

10 林錦標先生，巴職聯副主席，新世界第一巴士公司職工會理事長（巴士  
11 業職工會聯盟（包括各會員工會，即九巴員工協會、新世界第一巴士公  
12 司職工會及城巴有限公司職工會）代表）

13 許漢傑先生，巴職聯司庫，城巴有限公司職工會理事長（巴士業職工會  
14 聯盟（包括各會員工會，即九巴員工協會、新世界第一巴士公司職工會  
15 及城巴有限公司職工會）代表）

16 郭偉光先生，巴職聯秘書，九巴員工協會副理事長（巴士業職工會聯盟  
17 （包括各會員工會，即九巴員工協會、新世界第一巴士公司職工會及城  
18 巴有限公司職工會）代表）

19 何銳昌先生，巴職聯會員，新世界第一巴士公司職工會司庫（巴士業職  
20 工會聯盟（包括各會員工會，即九巴員工協會、新世界第一巴士公司職  
21 工會及城巴有限公司職工會）代表）

22

23 主席：（經傳譯員）各位，多謝你哋咁有耐性，我哋就啱啱同另外個職工會去傾  
24 完，我哋而家可以繼續我哋未完成嘅一啲討論。但係我明白秘書處已經同你傾  
25 過，就可能休會，就喺 8 月 1 號星期三下晝先至返嚟，所以我就會請黃律師就  
26 去討論關於立法會嘅資料文件，我哋先至休會，然後我哋剩番就 8 月 1 號星期  
27 三下晝先再討論，同唔同意呢？

28 林錦標先生：好嘅。

29 主席：Thank you.

30 林錦標先生：同意嘅。

31 黃女士：（經傳譯員）多謝你咁多位。呢個就係立法會交通事務委員會嘅一個討論文  
32 件嚟嘅，呢個討論文件就係由運輸署所準備嘅，就係為咗加強專營巴士安全  
33 嘅，最近係 7 月 25 號喺立法會討論㗎，就係英文嚟講，就係 403 頁就開始，

1 喺中文版就 416 頁嘅。裏面討論咗幾個課題嘅，第一個課題係關於增加加設安  
2 全帶；第二個話題就係關於巴士車長嘅培訓，就係第 18 第 22 段嘅；第三個問  
3 題就係關於一啲新嘅科技嘅裝置，就係專營巴士上面點樣可以採用一啲新科  
4 技。呢個嘅文件有冇從來交過畀你哋嘅聯盟嘅呢？有冇畀你哋係徵詢你哋嘅意  
5 見呢，呢個嘅文件？

6 林錦標先生：冇嘅。

7 黃女士：（經傳譯員）我哋知道呢一個文件就三個專營巴士公司都有討論，同埋運輸  
8 署都有討論嘅，就係想睇一睇就巴士嘅裝置同埋呢一個嘅巴士培訓方面嘅，...

9 主席：（經傳譯員）你就繼續之前，呢一個嘅文件就係應該話係運輸署同埋三個巴士  
10 製造商同埋巴士專營公司佢哋討論之後所得出嚟嘅成果嘅，佢哋 3 月中就有討  
11 論，然後佢哋將佢哋嘅建議就係提交畀立法會，嗰個提交嘅時間就係呢一個 7  
12 月尾嘅。

13 黃女士：（經傳譯員）你有冇機會係睇過呢個文件同埋係消化呢個文件，特別係我哋  
14 頭先小休時間嘅時候？

15 林錦標先生：我哋有睇過呢個文件，亦都初步了解過，就知道裏面嘅內容係講啲乜  
16 嘢。

17 黃女士：（經傳譯員）係，首先我哋講第一個問題，關於安全裝置，第 4(a)段嘅，  
18 呢個係關於電子穩定控制系統嘅，你哋個聯盟會唔會支持去採用一個咁樣嘅系  
19 統呢？

20 林錦標先生：係支持嘅。

21 黃女士：（經傳譯員）關於呢個控制下坡時最高速度嘅車速限制減速器，你又是否支  
22 持去裝置一個咁樣嘅減速器呢？

23 林錦標先生：支持嘅。

24 黃女士：（經傳譯員）我哋去到第 6(a)段，關於巴士監察同埋控系統，就話希望能  
25 夠盡用黑盒嘅功能，可以有實時嘅可以監察巴士嘅速度同埋有呢一個全位定位  
26 嘅系統等等咁樣。

27 林錦標先生：呢個係支持，而家已經係用緊㗎喇。

28 主席：（經傳譯員）邊間公司用緊呢個系統㗎？

29 林錦標先生：新巴、城巴都已經係用緊呢個系統嘅。

30 郭偉光先生：九巴一樣。

31 黃女士：（經傳譯員）6(b)就關於碰撞警報裝置同埋保持行車線裝置。

32 林錦標先生：响呢個問題上，我哋係支持，但係個實質嘅數據，初初嗰陣時試驗嗰陣

1 時就啲伙記有個反感嘅，因為一有小小問題，佢就會響，係令到個司機個精神  
2 啲啲嘢就有個困擾响度嘅，所以就呢個裝置就係好，但係希望有改良。

3 黃女士：（經傳譯員）係咪呢一個神眼啲個嘅...

4 主席：（經傳譯員）呢個係--啲個裝置叫做神眼，就由城巴去測試嘅，係咪呀？

5 鍾松輝先生：法官閣下，唔好意思，之前公司，新巴、城巴都曾經嘗試過嘅，測試  
6 嘅，但係就效果唔係咁好。唔好意思，據了解，公司就話會再去改良呢一個裝  
7 置，睇下遲啲改良咗之後，睇下個效果好唔好。

8 黃女士：（經傳譯員）我知係 2014 年去試驗嘅，科技已經都發展咗嘅。但係第 6(c)  
9 段呢，「監察司機裝置」，就係去睇下車長會唔會瞓眼瞓咁樣。

10 鍾松輝先生：當然，呢個裝置我哋原則上係同意嘅，但係問題如果你要用呢啲裝置去  
11 監察個司機究竟係咪疲勞或者瞓眼瞓，其實本末倒置嘅我哋覺得，我哋應該係  
12 覺得就係畀多啲時間畀啲車長休息，呢個先係正式嘅做法，唔好有--個制度唔  
13 好有一個疲勞駕駛，呢個先係重要嘅。當然呢一個未嘗不可嘅，我哋覺得都。

14 林錦標先生：劉生有少少補充，唔該。

15 劉啟謙先生：其實啲個問題就係話我哋係要預防車長因為疲勞駕駛而出意外，而唔係  
16 話搵啲嘢去監察住佢，等佢唔會瞓眼瞓，呢樣嘢其實係調番轉，我哋工會嘅角  
17 色就係希望車長喺一個安全同埋一個健康嘅環境下工作，而唔係一個長時間嘅  
18 情況下工作，跟住就疲勞駕駛而發生意外，我哋最終嘅目標係要喺意外之前提  
19 出一啲建議去防止意外發生，而唔係等意外發生咗之後先至去諗如何去改善一  
20 樣嘢。呢一樣嘢本身啲個出發點係好，但係如果話安裝喺呢個情況下，有點兒  
21 係本末倒置，根本就係逃避咗疲勞駕駛呢一個問題，即係正如民航機機師，民  
22 航監管當局都係希望機司係啲個休息時間係更加長，而唔係話不停咁樣去搵  
23 個飛機。雖然民航駕駛同巴士係兩樣唔同嘅嘢，但係其實大家嘅啲個性質都係  
24 接載乘客，出意外啲個後果一樣都要嚴重，咁點解我哋仲要縱容呢個長時間疲  
25 勞駕駛，跟住就搵個嘢去 monitor 住個車長唔好瞓眼瞓，會唔會真係有點兒本  
26 末倒置咗呢？

27 主席：（經傳譯員）但係你係咪同意原則上同意就都可以試驗下嘅，呢個裝置？

28 林錦標先生：同意嘅。

29 黃女士：（經傳譯員）安全帶呢，所有嘅座位都增加安全帶，你哋又覺得點樣樣呢？

30 林錦標先生：安全帶我哋都認同嘅，但係就應該係運輸署嘅責任，就唔係畀巴士公司  
31 嘅責任，但係運輸署完全應該由佢負責需唔需要，因為最清楚就係運輸署。

32 主席：（經傳譯員）你話責任即係話佢哋要畀錢，係佢哋畀費用？

33 林錦標先生：係講法例。

1 主席：（經傳譯員）明白，即係佢哋有責任去安排--即係同政府安排改變個法律，就  
2 然後去執行嘅，係要安裝之後，要乘客去戴，呢個就係要執法，你講個責任係  
3 咪呢樣嘢呀？

4 林錦標先生：係呀，劉生有少少補充。

5 劉啟謙先生：巴士上面裝安全帶係當然係保障乘客個安全，呢個我諗係毋庸去爭拗  
6 嘅，但係重點係乘客如果有安全帶而唔去配帶，其實即係等如裝咗等如有裝，  
7 其實個情況一樣，所以立例去令到乘客去戴個安全帶其實係最重要嘅。而且  
8 我哋留意到小巴本身嘅情況就係喺好多年前已經係裝安全帶，都係立例要乘客  
9 去戴安全帶，而警方都有對有安全帶嘅乘客係有檢控嘅，而個效果係理想嘅，  
10 因為乘客係記得要戴安全帶，係保障咗佢哋意外嘅時候減低佢可能嚴重受傷嘅  
11 機會。如果你話巴士裝安全帶當然係可以保障乘客，但係最重要係立例令到乘  
12 客係記得要戴番個安全帶，即使如果話唔記得戴，因為唔同嘅理由冇戴，裝咗  
13 對佢哋保障即係冇保障。

14 其實係有啲巴士嘅交通意外，好多年前有單喺將軍澳嘅意外，就係因為頭  
15 排--成頭排嘅乘客冇戴個安全帶，而係拋出車外嘅，係有啲咁嘅情況。所以  
16 如果你話戴咗安全帶而唔戴，其實對佢個保障係等如有保障。

17 主席：（經傳譯員）就所以係有啲改變，喺上層係有個金屬欄杆同埋係啲危險嘅位  
18 就裝安全帶，係咪呀？

19 劉啟謙先生：係，冇錯。

20 黃女士：（經傳譯員）培訓，第 18 段至 22 段提到畀巴士車長嘅培訓。

21 林錦標先生：許生作答。

22 許漢傑先生：主席，至於呢個培訓，我前兩日啱啱上完兩日嘅堂，公司城巴，城巴已  
23 經加咗個情緒管理，其他啲就一路以嚟都有啲喇，情緒管理個度就係公司係  
24 用一個非專業嘅人士去處理呢個課堂，喺我嘅見解嚟講，我覺得係唔夠，唔夠  
25 專業，所以就我覺得係有一個改進嘅必要嘅。劉生有嘢補充。

26 劉啟謙先生：其實喺我哋交番嚟補充文件個度，我哋參考過新加坡一個例子，新加坡  
27 喺 16 年 10 月成立咗一個專門嘅巴士培訓學院，個課程係非常之全面，除咗  
28 係駕駛課程之外，亦都有一啲勞法、車隊管理系統，以至服務水準類似嘅訓  
29 練，亦都係安排咗就係車長必須要上呢啲課堂先至可以攞巴士個執照嘅，其  
30 實我哋留意到喺其他地區都係有相類似嘅課程提供畀巴士車長去報讀嘅。我當  
31 然認為有啲關於情緒管理，以至係法例嘅支援係有需要嘅。呢啲課程其實應該  
32 係由專業嘅人士去提供嘅，而家起步其實已經係有點兒遲喇，但係遲好過  
33 冇。

34 主席：（經傳譯員）許先生，你講到就話唔係一個專業人士去教呢一個課程，你認為  
35 應該係情緒管理嘅課程由係乜嘢專業人士教？

1 許漢傑先生：喺我嘅認知嚟講，應該係社工或者係心理學家。

2 主席：（經傳譯員）唔該。

3 許漢傑先生：好，唔該。

4 主席：（經傳譯員）黃大律師，或者今日都差唔多，各位，多謝你哋今日出席，亦都  
5 多謝你哋同意星期三再返嚟，我哋都期待喺星期三下晝繼續，而家就休息。

(10.02 am)

REPRESENTATIVES OF KMB EMPLOYEES UNION: MR KWOK CHI SHING,

MR LEE KIN KEI, IVAN, AND MR WONG KIN WAI

(Evidence given in Cantonese, transcription of the  
simultaneous interpretation)

CHAIRMAN: Good morning, Mr Kwok, and your colleagues.

We thank you and the other representatives of the  
Kowloon Motor Bus Employees Union for accepting our  
invitation, and attending today to give evidence.

In the course of evidence, Ms Wong, Senior Counsel,  
counsel assisting the Committee, will ask you questions,  
and it is a matter for you which one of the three of you  
answers any particular question. But perhaps we could  
ask you, Mr Kwok, to defer to the others if you want the  
others to respond, identifying who it is you wish to  
respond.

But at the outset I understand that you wish to make  
an opening statement, and we are ready to hear that now.

Please begin with your opening statement.

OPENING STATEMENT BY MR KWOK CHI SHING

MR KWOK CHI SHING: Thank you, Committee. Thank you,  
Chairman. I thank the two members.

We are glad that finally after a long time waiting  
we have the opportunity to come here to speak to you

1 about our voices from practitioners as well as bus  
2 captains.

3 I would like to say that I would ask the Committee  
4 to give us ample time to reflect our views.

5 I have been attending all the hearings. Most of the  
6 hearings are devoted on monitoring of bus captains as  
7 well as safety issues. I am aware of the statement.  
8 I don't expect to find the party to be blamed or to be  
9 responsible, and I do know that there will be  
10 discussions about safety, about training, I hope that  
11 you will take my views into account.

12 I wonder if we can ask questions of the Chairman, or  
13 the Committee. Would you allow us to ask questions?

14 CHAIRMAN: Well, you are here to give evidence. We are not  
15 here to give evidence. We are hear to listen, and we  
16 are more than happy to listen to what it is you have to  
17 say.

18 What we are trying to find out are the circumstances  
19 that obtain in the operation of the franchised bus  
20 system, in order that we can make recommendations to the  
21 Chief Executive to enhance safety.

22 So it is your evidence. We are not involved in the  
23 bus industry. We want to hear from you.

24 MR KWOK CHI SHING: Well, yes, we are in the industry.

25 Every day there are 4 million passengers using bus  
26

1 services. This accounts for about 31 per cent of the  
2 total population using transportation. This is very  
3 important to our industry.

4 I understand that the time given for unions to speak  
5 is quite short. We are important stakeholders. We are  
6 important parts in the industry. We play a very vital  
7 role in safety.

8 There are a lot of issues we would like to cover.  
9 I have given one submission, and two supplementary  
10 submissions as per your request, covering a lot of  
11 different topics. However, these topics are only  
12 briefly touched in these submissions and supplementary  
13 statements. If we have ample time to discuss these  
14 issues, it will be conducive to the Committee reaching  
15 a conclusion. And the public would get a better  
16 understanding as well.

17 I found that the hearing yesterday could only cover  
18 a few simple issues without going into details: on  
19 training, and understanding of the mechanics by bus  
20 captains, the teachings or lectures, whether bus  
21 captains are conversant with the functions and mechanics  
22 as well as control of the buses they drive. I think our  
23 views are neglected.

24 You just ask us for a simple answer, whether to  
25 agree certain people's views, and to state our views.

26

1 I don't think that is in depth enough.

2 The Committee will not be able to reach  
3 a comprehensive conclusion. I don't want to repeat what  
4 other people have said. Time is precious. We just want  
5 to talk about what we are concerned with, issues that  
6 are pertinent to public safety.

7 CHAIRMAN: No doubt you have identified those issues in your  
8 written submissions. And that's the purpose of asking  
9 counsel to now ask you questions on the matters that you  
10 have identified.

11 If there are supplements that you wish to make, as  
12 the questioning goes on, then please make them. But the  
13 whole purpose of inviting you to make written  
14 submissions was to give you the opportunity to tell us  
15 what it is you wanted to say. And the purpose of this  
16 oral evidence hearing is so that we can explore the  
17 matters that occur to us as relevant.

18 MR KWOK CHI SHING: We have some questions -- we have  
19 prepared for some topics covering black box as well as  
20 safety operation of buses, but we have not submitted the  
21 information to the Committee yet.

22 We have just finished compiling the information and  
23 we would like to give the same to you.

24 So I ask for your indulgence for us to give you the  
25 information.

26

1 CHAIRMAN: Is there any reason why this was not submitted at  
2 an earlier stage? We have been asking you, have we not,  
3 since 28 March -- am I right, Ms Wong?

4 MS MAGGIE WONG: Yes.

5 CHAIRMAN: 28 March. It is 31 July now.

6 MR KWOK CHI SHING: We have to make preparations, we are not  
7 experts. We realise that the Committee has asked  
8 questions of the black box company. We have reviewed  
9 the information given. We think that based on the  
10 replies you have received we should give you our views,  
11 I mean us as operators of buses. Is it the case that  
12 you give us a black box and we know how to use it?

13 We have to show or teach our members how to handle  
14 a lot of issues, say, for example, when they have been  
15 assaulted, how they are going to deal with this  
16 situation. Also, verbal exchange after an incident has  
17 occurred.

18 CHAIRMAN: Mr Kwok. I think we are going to make more  
19 progress if we begin by allowing Ms Wong to ask you  
20 questions rather than receiving a lengthy oral  
21 dissertation on matters that change, as you have just  
22 done, from black boxes, to assaults.

23 Let's see what Ms Wong can make by way of progress,  
24 and then we will hear from you in due course; do you  
25 understand?

26

1 MR KWOK CHI SHING: Yes, thank you. Chairman.

2 I hope that, well, you will allow me to make  
3 supplementary information afterwards.

4 EXAMINATION BY MS WONG

5 MS MAGGIE WONG: Thank you, Mr Kwok, and gentlemen, for  
6 coming.

7 May I make a brief remark. We have received your  
8 written submissions, all three of them. The Committee's  
9 primary concern is set out in the terms of reference,  
10 and that is to make recommendation which go to the issue  
11 of safety-related matters of franchised buses.

12 So my questions will be focused on safety aspects  
13 rather than other areas, or employment issues.

14 I hope you understand, those questions will be  
15 focused on safety aspects.

16 May I start with your union, the composition of your  
17 union.

18 Mr Kwok, your union was established, if I may invite  
19 you to go to TU bundle, at page 112-9. It is only in  
20 Chinese, but I will explain the composition.

21 Your union was established on 14 July 2015, correct?

22 MR KWOK CHI SHING: Yes.

23 MS MAGGIE WONG: And as of 15 June, 2018, the membership of  
24 your union comprised of 1,400 people.

25 MR KWOK CHI SHING: That's right.

26

1 MS MAGGIE WONG: And they include full-time staff and  
2 retired bus captains who continued to stay on to work as  
3 bus captains.

4 MR KWOK CHI SHING: Yes, that's right.

5 MS MAGGIE WONG: And those 1,300 are all full-time staff?

6 MR KWOK CHI SHING: That's right.

7 MS MAGGIE WONG: And your submissions raised a few areas,  
8 and I will be focusing on different areas at different  
9 times. And the first topic I would like to ask you is  
10 concerning about the facilities or the safety aspect  
11 which you mentioned with a lot of emphasis in your  
12 submission.

13 If I may take you to TU-1A, Chinese at page 84.

14 English at page 90-3.

15 CHAIRMAN: What is the document?

16 MS MAGGIE WONG: This is the first submission --

17 CHAIRMAN: Thank you.

18 MS MAGGIE WONG: -- dated 23 April 2018.

19 Page 93 in English, and page 84 in Chinese.

20 Under 1, you stated that:

21 "In order to save repair cost, KMB has, since 2015,  
22 inappropriately removed all defog heater installation  
23 causing the front window panel to have serious fogging  
24 issues under cold and wet weather ..."

25 And you provided photographs in annex 1, and we can  
26

1           see that at page 91 in Chinese, and page 91-1 in  
2           English.

3           And you stated in your submission that:

4           "It is especially dangerous when a bus is driving at  
5           a fast speed if the bus captain cannot see the road  
6           condition clearly. It affects the safety of driving and  
7           the passengers."

8           Now, my first question is this: did you reflect, or  
9           did your union reflect this to the bus company, KMB?

10          MR KWOK CHI SHING: We did.

11          MS MAGGIE WONG: When?

12          MR KWOK CHI SHING: We talked to the management of the  
13          company.

14          MS MAGGIE WONG: When was this?

15          MR KWOK CHI SHING: I can't recollect the time. Because  
16          there was no record. Verbally.

17          MS MAGGIE WONG: These photographs, can you tell us  
18          approximately when did you take those photographs?

19          MR KWOK CHI SHING: At the middle of last year. WhatsApp  
20          photographs taken by colleagues. And this problem has  
21          persisted for a long time, and last year it was  
22          particularly serious. Our members hoped that our union  
23          would speak out for them, and so they sent us a lot of  
24          photographs.

25          MS MAGGIE WONG: When you say you verbally reflected this to  
26

1 the bus company, did the company reply anything on this  
2 issue?

3 MR KWOK CHI SHING: There was none. They tried to reject  
4 our union as far as possible. If I speak to them in the  
5 capacity of the chairman of the union, they would ask me  
6 to speak to them in my capacity as an employee, the  
7 general manager of the Kowloon Bay depot --

8 MS MAGGIE WONG: And did you reflect or --

9 CHAIRMAN: I'm sorry, had you finished your sentence there?  
10 What about the general manager of the Kowloon Bay depot?

11 MR KWOK CHI SHING: He frequently stressed that I could only  
12 speak in my personal capacity out of political  
13 considerations.

14 CHAIRMAN: And what is the name --

15 MR KWOK CHI SHING: And I -- it is not convenient for me to  
16 speak in my capacity as chairman.

17 CHAIRMAN: What is the name of the gentleman who is the  
18 general manager of the Kowloon Bay depot?

19 MR KWOK CHI SHING: Yeung Kwok Hung, general manager of the  
20 Kowloon Bay depot.

21 CHAIRMAN: Thank you.

22 MS MAGGIE WONG: Did the bus captains reflect this to the  
23 maintenance staff of the company?

24 MR KWOK CHI SHING: They did. The maintenance staff had  
25 a lot of views, but they dare not speak out. Usually  
26

1 I was the one who reflected these views. The  
2 maintenance staff were unhappy too, but they could not  
3 speak out because the company doesn't like that.

4 CHAIRMAN: What is the present position as far as these  
5 defogging devices are concerned?

6 MR KWOK CHI SHING: With the establishment of this  
7 Committee, we submitted a lot of documents and we were  
8 interviewed by the press. The company told the public  
9 and us that for new vehicles they would be installed  
10 with this device. When we reflected this problem, we  
11 were interviewed by independent media, and also  
12 a professor was interviewed, as I mentioned in my  
13 submission. The professor confirmed that defog heater  
14 installation is most effective, and then the reply from  
15 the Transport Department was it was not a necessary  
16 installation. Only 90 per cent of the buses were fitted  
17 with this device, that is KMB is the only exception.

18 KMB did not have this installation for us, hinders  
19 the safety of passengers. It did away with this  
20 installation to save maintenance cost. The bus company  
21 is of the view that there aren't too many days with this  
22 problem, and so bus captains are asked to wipe it  
23 themselves. How can they do it when they are on  
24 a highway? They can only do so when the bus stops in  
25 front of a traffic signal. So the reply is

26

1 unacceptable.

2 CHAIRMAN: Do new vehicles have this device fitted?

3 MR KWOK CHI SHING: As at today, no. All new vehicle, not  
4 fitted with this device. Because it was decided back  
5 then that it would not be installed. And new vehicles  
6 have yet to arrive, and it is promised that the device  
7 would be fitted in new vehicles. But this is very  
8 undesirable. What about the 9,900-odd buses? Some were  
9 commissioned only last year or this year. So do we have  
10 to wait until 17, 18 years?

11 So I think they are just trying to tell the public  
12 that they are going to do it. Even if it is not  
13 immediately, I think every year at the annual vehicle  
14 examination the TD should ask them to retrofit that  
15 device regardless of the cost. They should not wait for  
16 these 17 years to pass.

17 Because originally there was such a device, it was  
18 only removed by the company. It is about public safety,  
19 and --

20 CHAIRMAN: We have your point.

21 Yes, Ms Wong.

22 MS MAGGIE WONG: At page 90-5, in English, and at page 85 in  
23 Chinese --

24 CHAIRMAN: What is the point we are moving to now?

25 MS MAGGIE WONG: It is the Transport Department's reply to  
26

1           this defog device.

2       CHAIRMAN:   Yes.

3       MS MAGGIE WONG:   You stated in your first submission that:

4           "The Transport Department shall not approve KMB to  
5       remove defog heater which affects the safety of driving,  
6       and it is possible to adversely affect other road users.  
7       (The Union) received complaints from many bus captains  
8       and confirmed this is true.  It is strongly recommended  
9       that the Transport Department directs the bus company to  
10      re-install the defog heater."

11           So my question is: was the Transport Department  
12      aware of the removal of the defog heater?

13      CHAIRMAN:   Before you answer that question, you told us  
14      a moment ago that Transport Department said that this  
15      was not a necessary device.  Is that the Transport  
16      Department's position?

17      MR KWOK CHI SHING:   Because independent media was concerned  
18      about this, and it saw interviews of me, and then to be  
19      fair it interviewed a professor.

20      CHAIRMAN:   You told us about that.

21           Did the Transport Department make a decision that it  
22      was not necessary to install this device?  That's what  
23      you told us.  Is that correct?

24      MR KWOK CHI SHING:   Yes.  Yes.

25      CHAIRMAN:   Thank you.

26

1 MS MAGGIE WONG: And did you write to the Transport  
2 Department to complain about this defogging device? Did  
3 your union write to the Transport Department,  
4 complaining about this absence.

5 MR KWOK CHI SHING: We didn't. We didn't.

6 MS MAGGIE WONG: If I may go to the next issue which relates  
7 to the gear button installation.

8 At page 84 of your submission, and English at  
9 page 90-3, also under section 1, you stated that:

10 "... the company altered the gear buttons installing  
11 for safety driving, cancelled the O/D gear button and  
12 manual retarder installations and relies only on  
13 computer-controlled singular automatic D-gear to control  
14 vehicle speed ... Under [emergency] situation it is very  
15 dangerous for there to be no saving devices for the bus  
16 captain to use."

17 You have shown this in your annexure at page 92, and  
18 in Chinese at page 92-1.

19 To complete this point, you further stated at  
20 page 90-5 that the hot weather:

21 "... the temperature within the bus machinery, is  
22 even higher), has affected the computer-controlled  
23 mechanism or system, and therefore immediate commands to  
24 activate the brake system cannot be made (deviated from  
25 the bus captain's judgments). Therefore the bus  
26

1 captains felt that the bus has no brake system to stop  
2 the bus, and told the police that if the bus has no  
3 brake, it should be inspected (it actually cannot be  
4 detected!) because after the bus is cooled down the next  
5 day, the computer system will return to normal."

6 Can I ask you this. From your review, or from your  
7 union members' review, how does the removal of manual  
8 retarder installation affect bus safety?

9 MR KWOK CHI SHING: In that regard, I would like to defer to  
10 Mr Lee who is more familiar with it.

11 CHAIRMAN: Yes, Mr Lee.

12 MR IVAN LEE: Thank you. First, let me introduce myself.

13 Just my brief CV. I have been driving large vehicles  
14 for about 20 years, and tractor/trailer vehicles,  
15 single-decker buses, double-decker buses, automatic  
16 transmission, manual transmission, coaches, modern  
17 vehicles. Currently I am an employee of KMB. I have  
18 been driving double-decker buses for six years.

19 Well, when it comes to training, the instructors  
20 would only train the trainees on requirements of one of  
21 their respective bus companies. And I don't think that  
22 training on safety is sufficient.

23 CHAIRMAN: No. Mr Lee, you have been asked to deal with  
24 a specific question, not to make a speech.

25 The specific question was: how does the removal of  
26

1           the manual retarder affect bus safety? Could you  
2           address that question.

3       MR IVAN LEE: In the system, there is a device that allows  
4           you to select. It includes a manual selection,  
5           automatic selection, and a third one is a combination of  
6           manual and automatic control.

7           First, the retarder. There is this function. There  
8           are four segments and a lever to control this system.  
9           You don't have to use a pedal, you don't have to use the  
10          brake system.

11          Mr Lai explained yesterday, said that when you  
12          stepped on the pedal, it is automatic.

13          And here it says that when it is affected by high  
14          temperature it is about the brake system. Well, when  
15          there is friction it generates heat and the temperature  
16          will rise. If there is a manual control that means the  
17          bus captain can control the retarder from 1 to 4, from  
18          mild control to a heavier control. This will control  
19          the gear box to secure the torque, thereby securing safe  
20          control of the brake system.

21          However, for single or double-decker buses, I don't  
22          see many of them with this function. Very few for  
23          double-decker buses. There are no selection buttons;  
24          only a pedal that is used to activate the retarder.

25          If there is a stick or a lever, as an additional  
26

1 device, well, I'm sure that drivers are very familiar  
2 with it. However, when it comes to public bus training,  
3 instructors don't give trainees this kind of training.  
4 They only teach them to use the brake by applying  
5 different level of forces, what is a mild force, what is  
6 a heavier force.

7 So when bus captains want to stop the bus, they  
8 would just step on the pedal and use the brake pad to  
9 stop the bus.

10 So the system will not be fully utilised to halt the  
11 bus. You step on the pedal to activate the brake system  
12 to stop the bus. I think the force you use is about  
13 a level 3 or 4, but if you use the same level on the  
14 manual system it is rather heavy. If you can use the  
15 manual system you use level 1 or 2 force, then it is  
16 very mild and the bus will come to a steady stop.

17 So if there is a space of half a bus or even  
18 shorter, you can't just step on the pedal to bring the  
19 vehicle to a halt. All you can do is just watch the bus  
20 ram into the car in front of you. I do think there is  
21 inadequacy when it comes to this system on public buses,  
22 and the Transport Department is aware of that.

23 When it comes to vehicle examination and licensing,  
24 it covers coaches. You drive the coach in for the  
25 examination, so they are fully aware of this system.

26

1           You must know that public bus carry a lot of  
2           passengers. However, it seems that --

3       CHAIRMAN: Before you go on. Does it come to this, that the  
4           absence of a manual retarder removes from the bus driver  
5           a choice of how to retard the vehicle, and therefore it  
6           would be better to have it? Is that what it comes to?

7       MR IVAN LEE: You can put it this way.

8           I will defer to Mr Kwok.

9       MR KWOK CHI SHING: Let me answer. Manual retarder is very  
10          important, especially when it comes to going downhill.

11          The Tai Po District Council and Ms Wong said that  
12          she has heard from coach drivers saying that they drive  
13          the coach at 70km/ph to the top of the hill and then go  
14          downhill from there, it is difficult for them to slow  
15          the car down to 50km/ph.

16          I believe the reason is that perhaps the vehicle is  
17          rather old, so they rely only on the exhaust retarder  
18          which is not as effective. If you reach 70km/ph at the  
19          top of the hill, if there is manual retarder and you use  
20          it, three to four seconds later then the speed will be  
21          reduced to 30 to 40 without using the brake.

22          This is very effective to reduce speed when you are  
23          travelling downhill.

24          In the past, the KMB will offer once every two or  
25          three years advanced driving courses. Bus captains will

26

1 have to practise on uphill and downhill sections of  
2 Tai Po Road. It was an old model of buses, and there  
3 was -- those without air conditioning, and it came with  
4 just certain gear, say, gear 1, gear 2, and drive.

5 Without manual retarders we would use this system by  
6 controlling the gear instead of relying solely on the  
7 brake. Because if you use the brake and you want to  
8 reduce speed, then there is serious friction on the  
9 brake pad. There will be heat generated. I think in  
10 the most dangerous situation the braking system will be  
11 reduced in effectiveness by about 20 to 30 per cent.

12 CHAIRMAN: Mr Kwok, forgive me for interrupting. But your  
13 point is very simple. This is a method of reducing the  
14 speed of a vehicle, particularly going downhill, without  
15 having to use the brakes, or having to use the brakes in  
16 a harsh way. That's the point, isn't it?

17 MR KWOK CHI SHING: Yes. You only have to touch slightly on  
18 the brake pedal. So it is safe for everyone.

19 CHAIRMAN: Thank you. We have your point.

20 Ms Wong.

21 MS MAGGIE WONG: And if I may move on to the second  
22 submission that you made.

23 You make reference to --

24 CHAIRMAN: What is the date of that?

25 MS MAGGIE WONG: The second submission is dated  
26

1 15 June 2018.

2 CHAIRMAN: Yes.

3 MS MAGGIE WONG: And the Chinese is at page 112-19, in  
4 English, 112-97. It is the third submission. If I may  
5 go to --

6 CHAIRMAN: So it is not the 15 June one. It is 25 July.

7 MS MAGGIE WONG: 25 July 2018. It is page 112-97 in Chinese  
8 and --

9 CHAIRMAN: Yes.

10 MS MAGGIE WONG: -- 112-99 in English.

11 There are two matters I would like to raise with  
12 you. It is the use of surveillance cameras at  
13 page 112-97 at the top.

14 You made the point that -- under point 3, you made  
15 the point that you support use of surveillance camera to  
16 detect illegal parking.

17 Do I take it from your submission that in terms of  
18 surveillance cameras you supported the idea of  
19 installation of CCTV or surveillance camera within the  
20 driver's seat?

21 CHAIRMAN: To monitor illegal parking or to --

22 MS MAGGIE WONG: To monitor, first of all, to monitor  
23 illegal parking.

24 MR KWOK CHI SHING: Do we answer? Well, to monitor illegal  
25 parking, yes, that is feasible. I hope that it would be  
26

1 installed at the front of the vehicle. That I support.  
2 Because we need to collect evidence, for everything. So  
3 that has to be done.

4 CHAIRMAN: Before you move on. Is this kind of camera not  
5 installed in many KMB buses already?

6 MR KWOK CHI SHING: Still half of the buses don't have it.

7 CHAIRMAN: But half do?

8 MR KWOK CHI SHING: Yes. And sometimes for some reasons the  
9 company said that footage is not captured, so there  
10 needed to be some enhancements. The effectiveness of  
11 the device should be enhanced.

12 CHAIRMAN: As far as the involvement of the bus captains is  
13 concerned with this issue, do you support their  
14 involvement in perhaps pressing a button which would  
15 flag the fact that this point in time is the one to  
16 examine the CCTV to find evidence of the illegal  
17 parking?

18 MR KWOK CHI SHING: Yes, it is a very good idea. I support  
19 that.

20 CHAIRMAN: Thank you.

21 Yes, Ms Wong.

22 MS MAGGIE WONG: At page 112-97, paragraph (4.1), and in  
23 English, page 112-100, you stated there that:

24 "It is necessary to pass the relevant regulations by  
25 legislation. Otherwise, no one will abide by the rules.

26

1 Even in the past, some employee of KMB ... requested in  
2 a report a video clip recorded by a bus camera for the  
3 purpose of complaining another driver's careless  
4 driving, which, however, was rejected by the then  
5 general manager of Kowloon Bay depot ... and if the  
6 employee really wanted to get it, he had to pay  
7 administrative fee of \$5,000 (only \$600 required by New  
8 World Bus and Citybus). It was obvious that the general  
9 manager was deliberately refusing the reasonable  
10 request ..."

11 I wanted to ask you this. What do you mean by it is  
12 necessary to pass a relevant regulation by legislation?  
13 To do what?

14 CHAIRMAN: Sorry, I don't understand why we are getting  
15 involved in this.

16 MS MAGGIE WONG: Yes --

17 CHAIRMAN: Because it is perfectly simple to ask for  
18 a subpoena to require KMB to come to court to produce  
19 the video tape.

20 This is not relevant.

21 MS MAGGIE WONG: Yes. Then why would the employee be  
22 required to pay a fee in order to get the footage.

23 CHAIRMAN: I thought I just indicated what the proper route  
24 is. The laws of Hong Kong permit someone who is  
25 a defendant in a criminal trial to require this kind of  
26

1 evidence to be produced.

2 MS MAGGIE WONG: Then I'll move on.

3 In relation to the black box, you mentioned at the  
4 bottom, second last paragraph, at page 112-97, and at  
5 page 112-101, that the installation of black box has  
6 been installed for many years, but you stated that the  
7 black box functions have not been properly used.

8 Can you elaborate on this?

9 MR KWOK CHI SHING: First, the Committee asked the German  
10 contractor of the black box, there can be a lot of data  
11 inside the black box. It has been many years. The  
12 Transport Department was not insincere in requiring the  
13 installation of black box, because after the accident in  
14 2013 in Tuen Mun, it was under pressure, and the bus  
15 company was required to install the black box. For  
16 whatever reasons, perhaps to protect itself legally, the  
17 company would not want any of the data.

18 At the Committee hearing -- now, the speed limit is  
19 75, and the acceleration and deceleration mean is 2.3  
20 plus a negative 2.3, and the gradient 44, or the tilting  
21 angle 44 degrees.

22 Can I supplement on this point, Chairman?

23 Now, the mean, well, the company has been forcing  
24 bus captains to speed. If the speed limit is  
25 70 kilometres per hour, to prevent the bus captain from  
26

1 speeding, perhaps there should be a reminder or an alert  
2 at 68. Why should it be that?

3 So after February and March, a staff member was  
4 disciplined for driving at 83 kilometres per hour. So  
5 the threshold for asking the bus captain to stop is  
6 a problem.

7 And earlier this year there was a case of a tram  
8 overturning. According to press reports, the tram  
9 company asked their drivers to drive fast, or quickly.  
10 So this threshold of 75 allows a bus to speed.  
11 Actually, it is all for buses to speed and at Tuen Mun  
12 Highway, for instance, it can reach 100 kilometres per  
13 hour. This is irresponsible. And when there is an  
14 incident the bus captain is held accountable. And he  
15 has to shoulder all legal responsibility.

16 Now, a bus captain only earns \$10,000-odd; for the  
17 management, tens of thousands of dollars. So in fact  
18 there should be an earlier warning. And how come the  
19 speed has reached 83/85, and there is no alert? The  
20 threshold required by the company is very low.

21 I have heard many hearings of this Committee, and  
22 some was 1.3 and 2.3, and the tilting angle 44 degrees.  
23 By that the bus can roll over. So it is impossible that  
24 the thresholds be set at those levels.

25 CHAIRMAN: Mr Kwok, it is perfectly obvious, is it not, that  
26

1 in setting the tilt angle at 44 degrees, all that was  
2 being done was it was being disabled? It was not  
3 intended to operate as an alert, was it, because the bus  
4 was falling over?

5 MR KWOK CHI SHING: Well, if it is disabled, then it will  
6 roll over. Take motor cycles as an example, if the  
7 torque is sufficient, then the motor cycle can be  
8 upright again. But it can also roll over when it is  
9 disabled. Because there is no force to upright it  
10 again.

11 So for people who don't know how to drive, may think  
12 that it is correct. But when it is disabled it will  
13 roll over. When there is a torque, then it will be  
14 upright again.

15 MS MAGGIE WONG: Mr Kwok, sorry to interrupt again.

16 So can I summarise, the point that the black box has  
17 not maximised its capability, is: first, speed, second,  
18 the braking system, and the third, stability control; is  
19 that it?

20 Can you first of all answer whether I have  
21 summarised correctly?

22 MR KWOK CHI SHING: Well, the black box should store certain  
23 data, so that when there is an incident, the driving  
24 attitude of the bus captain, should there be any  
25 breaking of rules, we can rectify it as soon as

26

1 possible, and it can be of use in investigation. We  
2 have listed out all the data that should be included in  
3 the black box and the thresholds. For instance, the  
4 voltage of electronic devices and anti-slip device of  
5 the wheels, of the tyres, and also the pressure, and  
6 also the sections of the deceleration.

7 And the fourth is the figures of the gear, that is  
8 the gear being used, and also the revolution, the speed.  
9 And the sixth is electronic hanging system, and that is  
10 the suspension system. In the past, it was the use of  
11 steel plates for shock absorber. Now it is by means of  
12 a suspension system.

13 The pressure of the suspension system and the tilt  
14 angle of the vehicle, whether the pressure was  
15 sufficient, if it isn't, then the vehicle will tilt.  
16 And whether, after tilting, the figure will  
17 automatically make the vehicle upright again, and the  
18 independent gas compressor, the figure of the pump, and  
19 also the figures for, data for acceleration and  
20 deceleration.

21 And nine, the total weight of the vehicle. If the  
22 black box is functioning normally, all this data can be  
23 found, and it is not expensive to require such  
24 functions, it is just that the company doesn't want such  
25 data to be available. Because if such data are  
26

1           available people may be able to tell that maintenance is  
2           not done properly.

3           And because the Transport Department hasn't asked  
4           for it the company will not do so. They don't want to  
5           be caught.

6       MS MAGGIE WONG: Yes, Mr Kwok, about this black box, you  
7           earlier mentioned the driving attitude, it can detect  
8           the driving attitude of bus captains.

9           Does your union support the real-time monitoring of  
10          the driving behaviour of bus captains? Real-time  
11          monitoring.

12       MR KWOK CHI SHING: In principle it is good. We use  
13          technology to assist the bus companies, and to assist  
14          safety, but are the data correct, or accurate? There is  
15          ISO 39001, GPS, and lots of functions, but is the  
16          technology mature enough to be used in Hong Kong? As  
17          far as I know, it is not very accurate. Take satellite  
18          GPS, as an example. When we are in Mong Kok it cannot  
19          be accurate, or detected. Because there are too many  
20          high rises in Hong Kong, satellite signals are not well  
21          received.

22          The Committee or members of the public may say that  
23          a certain kind of technology is good, but is it mature  
24          enough? I am of the view that more experimentation  
25          should be carried out.

26

1 CHAIRMAN: Mr Kwok. You heard the evidence from the Czech  
2 Republic of the electronics engineer about how GPS is  
3 merely one of a number of systems that allows the  
4 position of the bus to be calculated at any one time.

5 MR KWOK CHI SHING: Yes. That's what is said. But I think  
6 it is not possible in Hong Kong. Maybe in the rural  
7 areas, but in the urban areas I don't think it can be  
8 accurate.

9 CHAIRMAN: Mr Kwok, with all due respect, you are not an  
10 electronics engineer, are you? We will hear from you  
11 about buses and driving of buses, but we will listen to  
12 our engineers when it comes to that issue.

13 Ms Wong, yes.

14 MS MAGGIE WONG: If I may go to the TD-1 bundle, at  
15 page 403.

16 It is the briefing paper of the LegCo on transport,  
17 on enhancement of safety of franchised buses  
18 in July 2018.

19 TD-1, page 403, and in Chinese at page 416.

20 May I ask your views about whether your union  
21 supports the use of some of these devices.

22 CHAIRMAN: Before we get to that -- do you understand,

23 Mr Kwok, how this paper came about?

24 MR KWOK CHI SHING: I have not heard of this paper.

25 CHAIRMAN: Let me explain to you the evidence that we have  
26

1 received.

2 The Transport Department in the middle of March  
3 convened a group made up of the franchised bus  
4 operators, three bus manufacturers, and the Transport  
5 Department, and they addressed a number of issues.

6 One was the issue of the training of bus captains,  
7 the other was the deployment or installation of  
8 technological safety devices on bus, and the third was  
9 the issue of seat belts.

10 That committee met a number of times, and at the end  
11 of July, 20 July, it published recommendations which  
12 were encapsulated in this briefing paper to LegCo. Do  
13 you understand?

14 MR KWOK CHI SHING: I understand.

15 CHAIRMAN: Are we to understand this as well, that at no  
16 stage was your union asked to make any representations  
17 to this working group?

18 MR KWOK CHI SHING: (Chinese channel playing to the floor).

19 CHAIRMAN: Yes, Ms Wong.

20 MS MAGGIE WONG: May I ask in that context whether you  
21 support the use of some of this in-vehicle --

22 MR KWOK CHI SHING: Well, Chairman, what you said, the  
23 answer is yes, that's correct.

24 CHAIRMAN: So no representations, never asked to make any  
25 representations? That's correct?

26

1 MR KWOK CHI SHING: They perhaps don't have much confidence  
2 of our union.

3 CHAIRMAN: Whether they had confidence in you or not, they  
4 didn't ask you for your help. Can you confirm that?

5 MR KWOK CHI SHING: That is correct. If we send them  
6 letters they won't reply to us.

7 CHAIRMAN: Ms Wong.

8 MS MAGGIE WONG: Yes, and the first device I'm going to ask  
9 is the electronic stability control in 4(a). Have you  
10 heard about this device before?

11 MR KWOK CHI SHING: Well, we only noticed this device after  
12 the hearing started.

13 MS MAGGIE WONG: Does your union support the use of this  
14 device?

15 MR KWOK CHI SHING: Yes, we do. We can't avoid using  
16 technology. If there are problems in its use we would  
17 reflect our views to ask for improvement, and we will  
18 continue to do that.

19 MS MAGGIE WONG: Can we go to 4(b). The retarder, the speed  
20 limiting regard. It is a retarder to cap the maximum  
21 speed of the speed limiters on downhill, and it is meant  
22 to enhance the speed limiter with a retarder to slow  
23 down a bus when the speed is over 70km per hour under the  
24 downhill situation. Do you support this device? Does  
25 your union support the use of this device?

26

1 MR KWOK CHI SHING: I haven't looked into this device, but  
2 I would like to say that, well, for the speed to be  
3 reduced that means you do not accelerate, and you are  
4 running to neutral, and that is quite dangerous, if you  
5 are travelling on neutral gear. That's why we emphasise  
6 that there needs to be a manual system as an assistance,  
7 because you only stop the injection of fuel, and for  
8 a few seconds you may be running on neutral, and you  
9 will lose momentum, and that is dangerous, because  
10 without further injection of fuel there won't be any  
11 torque, and you can't -- well, by injecting -- allowing  
12 injection of fuel to control the vehicle. So you are  
13 running on neutral gear, you can't effectively slow the  
14 car down. When it comes to manual retarder, it is not  
15 something new.

16 It has always been there for heavy duty vehicles,  
17 say, for example, coaches, they are all installed with  
18 this. It is just because the Transport Department,  
19 tailor made this requirement for bus operators, because  
20 it would dispense with maintenance. They thought --

21 CHAIRMAN: Mr Kwok, you obviously find it difficult to  
22 accept this, but we understand your view about the  
23 manual retarder. We have got that point, and there is  
24 no need to keep repeating it.

25 Yes, Ms Wong.

1 MS MAGGIE WONG: Yes, can we go to 6(a), the bus monitoring  
2 and control system. In brief, it is -- they rely on the  
3 use of the GPS system, or positioning technologies. And  
4 the system will --

5 CHAIRMAN: I think that doesn't represent the position  
6 accurately.

7 MS MAGGIE WONG: Yes --

8 CHAIRMAN: It says "GPS or" -- and perhaps it ought to say  
9 "and other positioning technologies".

10 MS MAGGIE WONG: Yes. And other positioning technologies,  
11 and I'm reading from the document. Under 6(a), and the  
12 system will match the legal speed limit at the actual  
13 bus location. The real-time speed limit information can  
14 then be used to control the enhanced speed limiter, ie  
15 speed limiter with two speed ratings, in other words,  
16 the bus speed could be controlled or limited within the  
17 applicable speed limits depending on the road section.

18 So Mr Kwok, does your union support the use of this  
19 device?

20 MR KWOK CHI SHING: Yes, I do.

21 MS MAGGIE WONG: What about 6(b), collision alert and lane  
22 keeping device?

23 MR KWOK CHI SHING: In this regard, well, I think the  
24 technology is not matured enough. If they are  
25 installed, and when buses pull into bus stops one by  
26

1           one, as you see the design is that they will be very  
2           close together. With this device, that means the alert  
3           will go off all the time. And for the lane keeping  
4           device, well buses are large in size. We travel in  
5           urban areas or when we pull in a bus stop, there may be  
6           some obstructions, say for example a cart, or another  
7           car parked there. So we would be straddling on two  
8           lanes. Sometimes we would be turning, and we would go  
9           into the next lane.

10           Very often, we can't just travel within the space of  
11           the lane, sometimes we would be going slightly over the  
12           other one.

13           For the Mobileye, it is only forward looking.  
14           Unless the technology evolves to the extent that it will  
15           have a 360 degrees view, I don't consider that to be  
16           suitable.

17   MS MAGGIE WONG: 6(c), driver monitoring device to monitor  
18           the driver --

19   CHAIRMAN: I'm sorry, you were talking over the translation,  
20           so could you begin again with your question.

21   MS MAGGIE WONG: Yes.

22           What about the driver monitoring device? 6(c).

23   CHAIRMAN: You are talking about the drowsiness technology?

24   MS MAGGIE WONG: Yes, the drowsiness technology.

25   MR KWOK CHI SHING: Four buses of the KMB have had this  
26

1 installed. Bus captains don't support it. Because the  
2 camera would be pointing to their faces all the time,  
3 and it would put pressure on them.

4 Another thing is that if you install this, you will  
5 have to reduce the working hours of drivers, otherwise  
6 I can tell you that 90 per cent of bus drivers, might  
7 just doze off from time to time, because they work very  
8 long hours.

9 So don't fool yourself by thinking that with this  
10 device installed everything would be well and good. If  
11 the company wants to penalise you --

12 CHAIRMAN: I don't understand this, Mr Kwok. You are saying  
13 that 90 per cent of drivers doze off -- is that what you  
14 are saying? Because of long working hours?

15 MR KWOK CHI SHING: Yes.

16 CHAIRMAN: Wouldn't it be a good idea, then, to have  
17 a camera --

18 MR KWOK CHI SHING: Well, that means they just may be close  
19 their eyes for a bit. I won't try to fool you. Because  
20 that is a fact.

21 We have raised this issue a lot, it is because of  
22 poor management. We have put forward an idea of taking  
23 into account where you live. Say, for example, well,  
24 you live in Tuen Mun and you work in Lai Chi Kok, and  
25 there is only one company car, so you have to wake up  
26

1           really earlier --

2       CHAIRMAN: Mr Kwok, thank you.

3           Yes, Ms Wong.

4       MS MAGGIE WONG: And the next one is the installation of  
5       seat belts on all buses on all seats.

6           Does your union support this?

7       MR KWOK CHI SHING: In order to reduce casualties and  
8       fatalities in accidents, yes. Well, it would be like  
9       coaches, where it is a 2-point safety belt, not 3-point  
10      safety system.

11          Yes, there will be inconvenience, because it will  
12      take longer for passengers to alight because some  
13      passengers might struggle a bit to take the seat belt  
14      off.

15          But so far, well, with so many risk factors, without  
16      proper or perfect measures we support the 2-point safety  
17      belt system.

18      MS MAGGIE WONG: Thank you. The last topic in this paper is  
19      the training for franchised bus captain.

20          If you go to paragraph 18, it states that:

21          "The working group has agreed that the Transport  
22      Department should promulgate a practice note on training  
23      framework for franchised bus captain."

24          Has your union been given a copy --

25      CHAIRMAN: There are two steps to that. That is what is  
26

1       said here. We have received a submission from the  
2       Transport Department where we have been told that the  
3       practice note has been issued.

4             The question for you, Mr Kwok, has your union been  
5       provided with a copy of this practice note?

6       MR KWOK CHI SHING: No, we have not.

7       CHAIRMAN: Were you consulted at all in the review of how  
8       training might be provided, monitored, and regulated?

9       MR KWOK CHI SHING: No. Well, we have a lot of views.

10      MS MAGGIE WONG: And if you look at paragraph 19, it sets  
11      out the structure of the training arrangement for bus  
12      captain under the practice note, irrespective of whether  
13      they are full-time or part-time bus captain.

14             It includes regular training, and special purpose  
15      training. First of all, do you support this?

16      MR KWOK CHI SHING: Yes, we do.

17      MS MAGGIE WONG: And paragraph 20, it provides that the  
18      regular training for the bus captains should also  
19      include the following modules with relative weightings  
20      to be covered -- set out in (a) to (e) -- including safe  
21      driving and road safety, cognition of in-vehicle device,  
22      handling of incident, customer service and knowledge of  
23      company rules, traffic regulations, occupational health  
24      and safety.

25             Do you have any comments on the respective weighting  
26

1 of these modules?

2 MR KWOK CHI SHING: I have some knowledge of the programme,  
3 but you have to bear in mind that if you just tell bus  
4 captains, they may not be able to grasp or understand  
5 the information. In the past, when we were trained,  
6 instructors told us the answers, so we all scored 100.

7 And the information would be passed on to the  
8 Transport Department, or senior management, and I think  
9 the Committee can take a look. Everyone scored 100. So  
10 it is not desirable.

11 In fact, the training programme should provide  
12 quantifying, quantitative figures, for instance our  
13 speed is usually 50, at most 70, and you should tell  
14 them how is it calculated.

15 So one kilometre is 1,000 metres, so 70 kilometres  
16 you multiply it by 1,000, it is 70,000, and you multiply  
17 it by 60, and that is the speed per minute, and then you  
18 divide by 60, and it is 19.5 metres per second. So you  
19 can quantify.

20 And they will understand the speed, because they  
21 have an actual figure of -- by 70km/ph that means you  
22 can travel 19.5 metres per second.

23 If 60km/ph, that is 16.6 metres per second, and 50  
24 is 13 metres per second, 40 metres, 11.1 metres per  
25 second, so on and so forth.

26

1           It will be easier for them to understand if you give  
2           them figures. And you ask them to leave more room, then  
3           in Hong Kong there should be a space of three to four  
4           seconds between two vehicles.

5           But you have to let them understand what is meant by  
6           travelling speed. And in the past we were taught this  
7           way. When you reach the first arrow, you have to remove  
8           all fuel, and by the second arrow, well, if the phase is  
9           not changed you can add a little fuel, and go through  
10          the traffic signal.

11          And even if the front wheel has exceeded the line to  
12          stop, because we are buses, we have some room, we should  
13          go ahead. But nowadays they are not taught this at  
14          training.

15          Passengers and the public do not understand. They  
16          accuse buses of jumping the amber phase. In fact, it  
17          was taught in the past, and you have a flash lights.  
18          Sometimes you have this habit.

19          CHAIRMAN: Mr Kwok, thank you.

20          Yes, Ms Wong.

21          MS MAGGIE WONG: The next topic is working hours.

22          Mr Kwok, in your submission, the first submission,  
23          Chinese at page 88, TU-1A, and English at page 90-7, in  
24          paragraph 5 you stated there that:

25          "... the reasonable maximum working hours per day  
26

1           shall be 12 hours, the maximum driving time shall be  
2           10 hours."

3           May I ask you your view, or your union's view about  
4           split shift, with maximum of working hours, maximum 14  
5           working hours?

6       MR KWOK CHI SHING: You want me to comment on this issue?

7       CHAIRMAN: We want you to give us your opinion, that is the  
8           union's opinion on the split shift guidelines. 14 hours  
9           maximum duty, 10 hours maximum driving, three hours'  
10          continuous break. What is your view?

11      MR KWOK CHI SHING: According to the current guidelines the  
12          maximum driving hours is 11. So the committee has been  
13          talking about three hours of rest, and 10 hours of  
14          driving. It will only happen in the second quarter of  
15          next year. In 2010, the guideline was 14 hours maximum  
16          and maximum working hours 11, and there is no guideline  
17          on the minimum hours of rest in between.

18               And the new guideline will only be implemented in  
19          the second quarter of next year.

20      CHAIRMAN: That's why --

21      MR KWOK CHI SHING: And many of us will only have two hours  
22          or so of rest including meals, and then in the second  
23          quarter of next year there is a window.

24      CHAIRMAN: Mr Kwok, the second quarter of next year is when  
25          these guidelines will be fully implemented. That's the  
26

1 provision, is it not?

2 MR KWOK CHI SHING: It is said so.

3 CHAIRMAN: Let me ask you these questions.

4 Is the guideline, with a requirement of three hours  
5 of a continuous break, implemented at all in KMB now?

6 MR KWOK CHI SHING: There is no hard and fast rule. It  
7 depends on the route. And for some you only have one  
8 hour of meal.

9 So 11 hours, driving hours, is maximised, sometimes  
10 even over that. Because there is no hard and fast rule  
11 according to TD.

12 CHAIRMAN: Please concentrate on the question. Has KMB  
13 begun to implement the reduced, or rather the  
14 requirement for a continuous break of three hours in  
15 special shifts where 14 hours on duty is permitted, but  
16 there is a maximum of 10 hours driving. Has it begun to  
17 implement that at all?

18 MR KWOK CHI SHING: No. No, they don't have enough  
19 manpower. It is 11 hours of driving. 10 hours of  
20 driving is our suggestion.

21 The maximum duty hours are 14 driving hours, and 11.  
22 Then in between, 30 minutes.

23 Next year, in the second quarter, after continuous  
24 driving of six hours, there must be 40 minutes of rest.  
25 Right now it is only 30 minutes.

26

1 KMB has not implemented this rest of three hours in  
2 between. For some, maybe two hours or so. We have  
3 a colleague here, driving special shift duties, and he  
4 has sent e-mail to the Committee. Perhaps he has sent  
5 it to the wrong address. It was not received by the  
6 Committee. He talked to us yesterday.

7 And he is on monthly salary. He is just sitting  
8 next to me, and if the Committee permits, he will spend  
9 some time to tell you his views.

10 CHAIRMAN: Is that Mr Wong?

11 Yes, Mr Wong, did you drive a special shift this  
12 week?

13 MR WONG KIN WAI: I am on sick leave after injury at work.

14 I have been driving there for one year.

15 CHAIRMAN: When did you last drive a special shift?

16 MR WONG KIN WAI: 26 June.

17 CHAIRMAN: And can you recall, if you are able to, what your  
18 day was that day? What time you left home, what time  
19 you started duty, what time you took your break, where  
20 you took your break?

21 MR WONG KIN WAI: I woke up at 6.15. I left home at 6.30,  
22 and I travelled to work at Mei Foo. I took two company  
23 cars. At 7.35 I clocked in.

24 I drove -- I started at 11.40 to Olympic, and there  
25 was one hour for a meal, and then the break in between  
26

1 two hours 47-minutes. I drove again at 15.50.

2 CHAIRMAN: Mr Wong, we are not in a hurry. Take your time  
3 to describe this.

4 Where do you live?

5 MR WONG KIN WAI: Kwai Shing West Estate.

6 CHAIRMAN: And you left Kwai Shing West Estate at 6.30 that  
7 morning?

8 MR WONG KIN WAI: Yes.

9 CHAIRMAN: And you went to Mei Foo?

10 MR WONG KIN WAI: Yes.

11 CHAIRMAN: How did you travel?

12 MR WONG KIN WAI: Bus number 37.

13 CHAIRMAN: As a passenger?

14 MR WONG KIN WAI: Yes.

15 CHAIRMAN: And when you got to Mei Foo what did you do?

16 MR WONG KIN WAI: I boarded an engineering car to arrive at  
17 Stonecutters Island bus depot.

18 CHAIRMAN: So this is a KMB car, is it?

19 MR WONG KIN WAI: Yes.

20 CHAIRMAN: Car, not bus?

21 MR WONG KIN WAI: A coach. A coach of 60 seats.

22 CHAIRMAN: With fellow bus captains?

23 MR WONG KIN WAI: Yes.

24 CHAIRMAN: So from Mei Foo, with your fellow bus captains  
25 you went to Stonecutters Island?

26

1 MR WONG KIN WAI: Yes.

2 CHAIRMAN: What time did you get there?

3 MR WONG KIN WAI: Around 7.20 am.

4 CHAIRMAN: And what facilities are there, at Stonecutters?

5 MR WONG KIN WAI: It is a KMB bus depot.

6 CHAIRMAN: And having arrived there, did you clock in, as  
7 you called it?

8 MR WONG KIN WAI: Yes.

9 CHAIRMAN: How do you clock in?

10 MR WONG KIN WAI: Use an Octopus card on a computer system,  
11 and then I will have a roster for the day. I have a job  
12 sheet for the day.

13 CHAIRMAN: You use your Octopus card, so you are  
14 electronically clocked in at 7.35 in the morning?

15 MR WONG KIN WAI: Yes.

16 CHAIRMAN: What happens next?

17 MR WONG KIN WAI: I had the licence number of the bus I was  
18 supposed to drive, I went to the car park to find it,  
19 and then I drove it to the bus terminus.

20 CHAIRMAN: What time did you leave Stonecutters bus depot.

21 MR WONG KIN WAI: 8.35.

22 CHAIRMAN: Between clocking in at 7.35 and leaving the bus  
23 depot at 8.35, what duties did you perform?

24 MR WONG KIN WAI: I left Stonecutters Island depot at 7.35,  
25 I drove to the bus terminus of Kwai Shing East Estate  
26

1           and then the first departure was at 8 am.

2       CHAIRMAN: So you had to take the bus from the bus depot to  
3           Kwai Shing East, and what is the status of that place,  
4           is that a terminus?

5       MR WONG KIN WAI: Yes, it is a bus terminus at Kwai Shing  
6           West Estate.

7       CHAIRMAN: West?

8       MR WONG KIN WAI: Yes.

9       CHAIRMAN: Thank you. And you began driving a route on that  
10           bus at around 8 o'clock that morning?

11      MR WONG KIN WAI: Yes. 8 am is the first departure.

12      CHAIRMAN: What was the route number?

13      MR WONG KIN WAI: 37.

14      CHAIRMAN: What is the destination, the ultimate destination  
15           that that route goes to?

16      MR WONG KIN WAI: Olympic MTR station.

17      CHAIRMAN: Carry on. Describe your day.

18      MR WONG KIN WAI: Since I work for the special shift on peak  
19           licence, then I would put on the C licence, that is no  
20           passenger to go to Kwai Shing West, until 9.31, all the  
21           way until 11.40, which is the last trip, driving to  
22           Olympic station, then I would finish my morning session,  
23           that would be about 12.45.

24      CHAIRMAN: Where were you when you finished the morning  
25           session?

26

1 MR WONG KIN WAI: The vehicle will have to be put on a stop  
2 service sign, have to drive it to Kwai Shing East Estate  
3 to leave it there.

4 CHAIRMAN: Is that a bus terminus?

5 MR WONG KIN WAI: Well, it is kind of. It is for bus  
6 captains to take their meal break, and before the next  
7 driver comes to take the bus, we can leave the bus  
8 there.

9 CHAIRMAN: So what time did you arrive at Kwai Shing East  
10 Estate?

11 MR WONG KIN WAI: About 12.45.

12 CHAIRMAN: So what time had you finished driving the route  
13 37 route?

14 MR WONG KIN WAI: Normally it will be 12.40, driving for one  
15 hour, which is the journey time, and then I have to add  
16 one hour, which is my meal break. So normally, it will  
17 take me to eight minutes past 2, including the meal  
18 break.

19 CHAIRMAN: Where did you have the meal break that day?

20 MR WONG KIN WAI: Kwai Shing East Estate.

21 CHAIRMAN: And are there rest facilities there? KMB bus  
22 rest facilities?

23 MR WONG KIN WAI: Previously yes. Because of the Housing  
24 Authority problems they are removed. Recently I walked  
25 past, I see another facility installed. I think it was  
26

1           some time last week or so.

2       CHAIRMAN: On 28 June, were there any rest facilities at  
3           Kwai Shing East Estate?

4       MR WONG KIN WAI: I don't really know.

5       CHAIRMAN: Well, where did you have your meal?

6       MR WONG KIN WAI: Shopping mall in Kwai Shing East Estate.

7       CHAIRMAN: What did you do with the rest of the break time?

8       MR WONG KIN WAI: I would take transportation to Kwai Shing  
9           West Estate to the terminus and rest at the rest  
10          facilities there.

11      CHAIRMAN: What transport did you take to do that?

12      MR WONG KIN WAI: Many modes. 47X, 37M, and 37. They are  
13          all buses.

14      CHAIRMAN: So you took a bus?

15      MR WONG KIN WAI: That's right.

16      CHAIRMAN: As a passenger?

17      MR WONG KIN WAI: That's right.

18      CHAIRMAN: A regular bus route, not a special bus driving  
19          bus captains?

20      MR WONG KIN WAI: I was a bus captain working for a special  
21          shift for a regular route.

22      CHAIRMAN: I understand that. This is your meal break. And  
23          you moved from Kwai Shing East to Kwai Shing West. And  
24          you did so as a passenger; is that right?

25      MR WONG KIN WAI: That's right. Because there were no rest  
26

1 facilities at Kwai Shing East, and there are only rest  
2 facilities for staff at Kwai Shing West.

3 CHAIRMAN: And you rested at Kwai Shing West?

4 MR WONG KIN WAI: That's right.

5 CHAIRMAN: What are the rest facilities there? Are there  
6 seats? Are there benches?

7 MR WONG KIN WAI: There are three benches and some tables.

8 CHAIRMAN: Are you able to lie down?

9 MR WONG KIN WAI: There are something like sofa, so I could  
10 lean back. But if you are talking about something like  
11 a bed, no.

12 CHAIRMAN: You are able to recline, is that it?

13 MR WONG KIN WAI: That is right.

14 CHAIRMAN: When did your break come to an end?

15 MR WONG KIN WAI: That would be 15.55.

16 CHAIRMAN: So what was the length of your break that day?  
17 When did you start?

18 MR WONG KIN WAI: Including taking a meal, it is about two  
19 hours 47 minutes.

20 CHAIRMAN: When did it start?

21 MR WONG KIN WAI: I think my roster started, according to  
22 the schedule, is eight minutes past 2, and then until  
23 15.55.

24 CHAIRMAN: Thank you, and then you resumed your bus driving?

25 MR WONG KIN WAI: That is right.

26

1 CHAIRMAN: Were you on route 37 again, or another route?

2 MR WONG KIN WAI: Also 37.

3 CHAIRMAN: And for how long did you ply that route?

4 MR WONG KIN WAI: About one year.

5 CHAIRMAN: No, when did you finish driving that route that  
6 day?

7 MR WONG KIN WAI: 20.43. That's the time when I knocked off  
8 work. Including going to Stonecutters Island to leave  
9 the bus there.

10 CHAIRMAN: So you clocked out, as it were? Is that right?

11 MR WONG KIN WAI: That's right.

12 CHAIRMAN: So you clocked in at 7.35, is that it?

13 MR WONG KIN WAI: Before 7.35. Before 7.35.

14 CHAIRMAN: What time did you clock in?

15 MR WONG KIN WAI: It was about 7.20, when I clocked in after  
16 taking the company bus to go to Stonecutters Island.

17 CHAIRMAN: And that day, having finished and clocked out,  
18 clocked off, did you return home straight away, or did  
19 you do other things?

20 MR WONG KIN WAI: I went home straight away.

21 CHAIRMAN: Can you help us as to what time you arrived at  
22 home?

23 MR WONG KIN WAI: It was around 9.20.

24 CHAIRMAN: The following day, 29 June, were you on duty?

25 MR WONG KIN WAI: My last day was 26 June. Because in my  
26

1 last trip to Kwai Shing West Estate there was a traffic  
2 accident.

3 CHAIRMAN: I beg your pardon, the 26th. Were you involved  
4 in that traffic accident?

5 MR WONG KIN WAI: That is right.

6 CHAIRMAN: What time was the traffic accident?

7 MR WONG KIN WAI: 7.20.

8 CHAIRMAN: What was the nature of the traffic accident?

9 MR WONG KIN WAI: A taxi travelling on a third lane cut  
10 across to the first lane to a smaller road, Beech  
11 Street. I was travelling on the first lane, I could not  
12 stop in time, and rammed into the taxi.

13 CHAIRMAN: Were you injured?

14 MR WONG KIN WAI: Yes.

15 CHAIRMAN: And is that when your sick leave began?

16 MR WONG KIN WAI: That is right.

17 MEMBER AUYEUNG: Thank you, Chairman.

18 I just want to follow up. When you are talking  
19 about the resting places, you had three chairs.  
20 Usually, how many drivers are in that location together?

21 MR WONG KIN WAI: I think about three or four. Because,  
22 well, they would not be there for a prolonged period of  
23 time. There would be five to six minutes of rest time,  
24 they would go in to take a seat.

25 MEMBER AUYEUNG: So is there enough room for all the drivers  
26

1           inside the premise?

2       MR WONG KIN WAI: I think there was sufficient space for  
3           seven to eight people.

4       CHAIRMAN: Mr Kwok, we are going to take a break now. And  
5           we will resume at 12 o'clock by that clock. Thank you.  
6       (11.43 am)

7                               (A short break)

8       (12.03 pm)

9       CHAIRMAN: Mr Wong, you told us that you were driving that  
10           route, or rather the special shift arrangement, for  
11           a year; is that correct?

12      MR KWOK CHI SHING: That is correct.

13      CHAIRMAN: Can you describe, if you remember it, perhaps  
14           going backwards from that week of 26 June, how many days  
15           in a row were you driving that special shift without  
16           having a break?

17      MR KWOK CHI SHING: Basically from Monday to Saturday  
18           I would be working continuously for five to six days.

19      CHAIRMAN: Well, was it five, or was it six, or could you  
20           change the pattern?

21      MR KWOK CHI SHING: We are on a roster on the shift, so  
22           normally we would be on duty for five or six days, and  
23           then there will be one rest day.

24      CHAIRMAN: And were your hours of work broadly the same --  
25           clocking in time, clocking off time?

26

1 MR KWOK CHI SHING: That is correct, it is a fixed time.

2 CHAIRMAN: If it be necessary, do you consent to KMB

3 releasing to us the data they might have obtained about

4 your work on 26 June when you clocked in, when you

5 arrived at a bus terminus, when your break began, when

6 you clocked off, all of the data that day, do you

7 consent to that being provided to the Committee?

8 MR KWOK CHI SHING: Yes.

9 CHAIRMAN: You told us about the rest facilities that were

10 available at Kwai Shing West Estate; were there

11 occasions when you took your rest in this split shift

12 arrangement at other places?

13 MR KWOK CHI SHING: Sometimes, I would, if it were too

14 noisy, too many people going in and out, I would choose

15 to go home.

16 CHAIRMAN: The question really is this. Were there other

17 places where you took this break, other than Kwai Shing

18 West Estate?

19 MR WONG KIN WAI: No. Because there was only rest

20 facilities at Kwai Shing West Estate. When I went to

21 work, there was still no rest facilities at Kwai Shing

22 East Estate.

23 MR KWOK CHI SHING: I would like to add.

24 CHAIRMAN: Just a moment, Mr Kwok, your turn will come.

25 MEMBER AU YEUNG: Thank you, Chairman.

26

1 I just want to clarify what you said earlier,  
2 Mr Wong.

3 You did mention about your break is about two hours  
4 and 47 minutes, right? That's including meal time.  
5 This is the break time, two hours and 47 minutes; is  
6 that correct?

7 MR WONG KIN WAI: That is right.

8 MEMBER AUYEUNG: You also mentioned that if it is a bit too  
9 noisy, you will go home. If you actually have to go  
10 home, can you make a guess on actually during that two  
11 hours and 47 minutes, really, what kind of rest you can  
12 have before you carry on with your work of the day?

13 MR WONG KIN WAI: Well, there wasn't enough time for a rest,  
14 I just closed my eyes, rest my eyes and tried to relax,  
15 to keep my shape up.

16 CHAIRMAN: Mr Kwok, you wanted to say something.

17 MR KWOK CHI SHING: Yes. For Kwai Shing East, it seems that  
18 a rest kiosk has been put in just a few days ago with  
19 the help of a trade union, Mr Chow Wai Hung, within a  
20 short time, the work was completed. I mentioned that  
21 the trade union intervened. We are not affiliated with  
22 any political parties. If we want something done we  
23 would go to the community to lobby. I think the main  
24 objection comes from district councillors. If there are  
25 no objections coming from the community, it would be the  
26

1           problem of the government department.

2       MS MAGGIE WONG: Mr Wong, may I clarify a few matters.

3           You said that you clocked in before 7.35, and then  
4           you take the meal break at 2.08. On my calculation, it  
5           is around six hours 50 minutes before you take the meal  
6           break. So, I was trying to find out, do you have breaks  
7           or rest time during that six hours and 50 minutes?

8       MR WONG KIN WAI: The last driving time of mine during the  
9           morning was 11.40 for a journey time of one hour.

10           I could drive the bus to Kwai Shing East Estate to  
11           leave it there, and it was earlier than expected because  
12           of little traffic. So I arrived there early. My  
13           actual -- well, there was no break time at that time.

14           Perhaps I can give you my timetable or roster for  
15           your reference.

16       MS MAGGIE WONG: Thank you, yes. Because I would like to  
17           know how the rest time was arranged during that shift.

18           I would like to know, during that six hours and 50  
19           minutes, how that rest time was arranged, so it would be  
20           great if we could get your timetable.

21           You referred to the meal break, one hour, included  
22           within the three successive hours of break; is that  
23           correct?

24       CHAIRMAN: I don't think it has been acknowledged that the  
25           three hour continuous break system is being implemented.

26

1 Am I right, Mr Kwok, that it is not being  
2 implemented?

3 MR KWOK CHI SHING: As I said, that it would be implemented  
4 in the second quarter of 2019. Well, now the company  
5 will have full flexibility. If there is 14-hour duty  
6 hours then there won't be more than 11 hours of driving.  
7 So strictly speaking, there is little rest time. It is  
8 just because of the manpower shortage. Everyone will be  
9 used to the fullest. In the past they said that it was  
10 about 6 am or 11 am, and then in the afternoon it would  
11 be 3 pm or 4 pm. That would be the arrangement.

12 Now, because of the manpower shortage, well, 3 pm  
13 would be late. Some of us would be asked to work on  
14 a different route.

15 CHAIRMAN: The question is very simple, Mr Kwok.

16 Thank you, Ms Wong.

17 MS MAGGIE WONG: I think I wanted to ask Mr Wong this  
18 question about the allowance in special shift. Is  
19 Kowloon Motor Bus paying you the reduced allowance?

20 CHAIRMAN: Well, it is a number, \$21.90.

21 Is that what you get paid when you have your break  
22 in a special shift?

23 MR WONG KIN WAI: Could you please wait. I think the  
24 special shift allowance per day is \$69.70.

25 CHAIRMAN: That's the total allowance, not a hourly rate?

26

1 MR WONG KIN WAI: That is the total. That is the total,  
2 \$69.70 is the total.

3 CHAIRMAN: For how many hours of break?

4 MR WONG KIN WAI: Two hours and 47 minutes.

5 CHAIRMAN: Yes, Ms Wong.

6 MS MAGGIE WONG: Can you help me with this, about this shift  
7 allowance. If you go to KMB bundle 1, Mr Wong, this  
8 question is directed at you. If you go to KMB bundle 1,  
9 page 109. There is a table showing the allowance.

10 MR WONG KIN WAI: I would like to add something. The \$21.90  
11 is the calculation of a staff on a daily rate. \$69.70  
12 is the calculation for someone on a monthly salary.

13 MS MAGGIE WONG: Do you have that document in front of you  
14 at page 109?

15 MR WONG KIN WAI: Yes.

16 MS MAGGIE WONG: If I may ask you to look at the left  
17 column. "Employed after 2004", the old monthly rate.  
18 The basic salary. Are they paying you 11,810, or are  
19 they paying you 15,366? Which is applicable in your  
20 case?

21 MR WONG KIN WAI: 15,366.

22 MS MAGGIE WONG: And then you would be paid the split shift  
23 allowance of \$1,951.50; is that for the whole month, the  
24 monthly rate?

25 MR WONG KIN WAI: Well, it depends on the number of days.

26

1           If you cannot complete 15 days, then you cannot get the  
2           full rate of allowance. So it is on a pro rata basis.

3   MS MAGGIE WONG: So can you tell us what allowance you would  
4           receive from (B) to (G).

5   CHAIRMAN: I think we are being bogged down in a minor  
6           detail here. Either way, the figures speak for  
7           themselves.

8   MS MAGGIE WONG: Yes. So maybe I will move on to another  
9           topic.

10           Mr Kwok, I would like to raise another topic with  
11           you. It is about the issue you raised in your  
12           submission about having a priority bus lane.

13           And your submission in English is at page 90-7, and  
14           it should be in Chinese, page 88.

15           It states that:

16           "... where a bus has made a direction signal  
17           preparing to exit a station, other vehicles that see it  
18           must stop or let the bus exit the station. A safety  
19           distance of two seconds is used as the termination  
20           distance by which the bus must be allowed to exit the  
21           station first ... vehicles are prohibited from cutting  
22           in front of buses within 10 metres of their front to  
23           prevent the buses from suddenly having to decelerate."

24           In your submission you provided some examples as to  
25           the problems about cutting lanes -- and that is in the

26

1 TU bundle at pages 104 to 108 -- at the Hung Hom  
2 station.

3 So are you suggesting by this suggestion that you  
4 would like to have the priority bus lane system similar  
5 to what they have in Singapore?

6 MR KWOK CHI SHING: Yes.

7 MS MAGGIE WONG: Regarding your point about the bus that  
8 must be allowed to exit the station first, do you have  
9 any view as to how --

10 CHAIRMAN: By that you mean the bus stop?

11 MS MAGGIE WONG: The bus stop.

12 Do you have any view --

13 MR KWOK CHI SHING: Yes, yes, correct. Bus stop.

14 MS MAGGIE WONG: Do you have any view as to how it can be  
15 enforced?

16 MR KWOK CHI SHING: Well, we use cameras, for new vehicles  
17 they have got cameras, so when the signal is issued for  
18 two seconds, if the vehicles at the back do not stop  
19 then it can be enforced.

20 CHAIRMAN: So that would require a camera at the rear of the  
21 vehicle?

22 MR KWOK CHI SHING: Right now, for new vehicles, the rear  
23 mirrors on the left and the right there are cameras.

24 Why did I say two seconds? Because we understand  
25 that there should be a distance of two seconds, as  
26

1 promoted by the government, so that there would be  
2 a safe distance, so no emergency halting of the vehicle  
3 is required.

4 In Singapore they draw a line, and that may lead to  
5 misunderstanding.

6 If I have just passed that line and reached that  
7 line and you give me a signal, then there may be some  
8 misunderstanding.

9 So two seconds is to quantify the distance.  
10 I propose two seconds, you may suggest three. It is  
11 just to quantify the distance. It doesn't really have  
12 to be two seconds. Because in Hong Kong space is  
13 limited and bus stops are numerous, people would not  
14 know what the line is about.

15 In Hong Kong, to have road markings, you have to  
16 guess at it, and you have to set up a sign, it is  
17 complicated, and the markings may be removed as time  
18 goes on. So it is best to use time as a reference. It  
19 is safer.

20 MS MAGGIE WONG: The next topic is on training safety. You  
21 mentioned in your first submission at page 84 in  
22 Chinese, English at page 90-4 -- you raised the issue  
23 about training safety. You stated there that:

24 "During that time, even when road traffic was  
25 relatively simple, and I was familiar with the roads,  
26

1 I also need to be trained for one month. Within that  
2 one month, majority of the time was spent in bus-driving  
3 training ..."

4 And you commented that the training nowadays of 18  
5 days is insufficient.

6 So did I summarise it correctly, that your union's  
7 view is that the current training to newly recruited bus  
8 drivers is insufficient?

9 MR KWOK CHI SHING: You are correct. You are correct.

10 MS MAGGIE WONG: What is your proposed duration of training  
11 to new recruits?

12 MR KWOK CHI SHING: It is about the operation of the bus  
13 company. One month is about right, unless the new  
14 recruit has a bus licence. Now, for those who have to  
15 take a licence examination, one month is the minimum.  
16 In particular, the recruiting requirements are lower.  
17 And it was said at the hearing that a person with one  
18 year private car licence can then learn to drive, and  
19 after 18 days he can start driving a bus. That is very  
20 dangerous, and I think that consideration is immature.

21 MS MAGGIE WONG: And you commented in your submission, or  
22 reply, on 25 July 2018, as to the Transport Department's  
23 role in training. If I may take you to the submission.

24 CHAIRMAN: Perhaps you can just summarise the point.

25 MS MAGGIE WONG: Yes. The point was that you commented that  
26

1           the Transport Department should take a more active role  
2           on training and supervision of bus captains courses. Is  
3           that the point you are trying to make in your later  
4           submission on 25 July?

5       MR KWOK CHI SHING: Yes. Yes, there should be monitoring by  
6           the Transport Department, because the training course  
7           made by the bus company would only suit its needs  
8           without other considerations. The TD should monitor.

9           And there should be consultation with trade unions,  
10          because we are in service, we know the qualifications  
11          for professional bus captains, they should be more open  
12          in discussing with us. That would be much better.

13       MS MAGGIE WONG: I have completed my questioning. Thank  
14          you.

15       CHAIRMAN: Thank you, Ms Wong.

16               Mr Kwok, those are the questions that we have for  
17          you. You indicated at the start that there was some  
18          other material that you wanted to make available to us.  
19          And if you wish us to receive that material, please  
20          provide it in writing, and we will consider it.

21               Is that what you wish to do?

22       MR KWOK CHI SHING: We will, if we can.

23               Since the Committee still takes time to complete the  
24          whole consultation, and if we can make it we will submit  
25          the material as soon as possible for the Committee's  
26

1 reference.

2 CHAIRMAN: Well, we look forward to receiving whatever it is  
3 that you choose to give us.

4 But for the moment, we thank for coming to give  
5 evidence. Thank you, Mr Wong, for giving us an insight  
6 into a day in a life of a bus captain working a special  
7 shift. That was most helpful to us.

8 But we have others from another union who are going  
9 to give evidence. So what we will do is take a short  
10 break now and invite you to withdraw from the table, and  
11 the other representatives can come forward and occupy  
12 the table.

13 We will take a 2-minute break. Thank you.

14 (12.27 pm)

15 (A short break)

16 (12.30 pm)

17 REPRESENTATIVES FROM STAFF RIGHTS ASSOCIATION OF KMB:

18 MR CHAN WING HO, MR TAN SHIN HING, MR YIU KWONG CHUN, AND

19 MR LI KWOK WAH

20 (Evidence given in Cantonese, transcription of the  
21 simultaneous interpretation).

22 CHAIRMAN: We thank you, Mr Li, and your colleagues,  
23 representatives of the Staff Rights Association of KMB,  
24 for accepting our invitation to come and give evidence  
25 today.

26

1 I'm going to ask Ms Wong in a moment to begin asking  
2 you questions on behalf of the Committee.

3 Mr Li, if you wish one of your colleagues to answer  
4 any particular question, just indicate who it is, and  
5 defer to him, and then we will hear from whoever it is  
6 that you wish us to hear from, answering a particular  
7 question.

8 MR LI KWOK WAH: I understand.

9 CHAIRMAN: Thank you.

10 Ms Wong.

11 EXAMINATION BY MS WONG

12 MS MAGGIE WONG: Thank you, Mr Li. This Committee is tasked  
13 to review the safety aspects of the franchised bus  
14 operations, so my questions will be focusing on that  
15 area.

16 Before I ask a few questions I would like to  
17 ascertain some basic facts about your association.

18 Your association was established in January 2017,  
19 correct?

20 MR LI KWOK WAH: Yes.

21 MS MAGGIE WONG: And there are approximately 200 members in  
22 your association as of 18 June 2018.

23 MR LI KWOK WAH: That's right.

24 MS MAGGIE WONG: And your members, 200 members, are all  
25 full-time and part-time staff of Kowloon Motor Bus?

26

1 MR LI KWOK WAH: That's right.

2 MS MAGGIE WONG: In what percentage?

3 MR LI KWOK WAH: There are about 8,600 bus captains. We  
4 have 200 members?

5 MS MAGGIE WONG: What percentage is full-time staff and what  
6 percentage is part-time staff?

7 MR LI KWOK WAH: There is only one part-time member. The  
8 others are all full-time.

9 CHAIRMAN: And they are all bus captains?

10 MR LI KWOK WAH: There are also some bus regulators, three  
11 bus regulators.

12 CHAIRMAN: And the rest are bus captains?

13 MR LI KWOK WAH: That's right.

14 MS MAGGIE WONG: Mr Li, I would like to go to a specific  
15 topic on scheduled trips and loss of time.

16 If we could go to your submission at page 129-4 in  
17 English. You have only made one submission dated  
18 23 April 2018. In Chinese it starts at page 117.

19 And the passage is at page 120.

20 I think in the bottom paragraph, you stated that:

21 "... with the continued loss of bus captains, and  
22 the need maintain the scheduled trips and avoid  
23 cancelling scheduled trips, causing bus captains'  
24 entitled rest time during work subject to the situation  
25 of lost trips and the road traffic circumstances that  
26

1 day. For many bus captains who would need to drive  
2 various bus routes, in order to have more time for rest  
3 during work, will try to complete the bus routes as soon  
4 as possible depending on road traffic condition and  
5 return to the bus terminals for rest."

6 Can you tell us or elaborate how the need to  
7 maintain scheduled trips would affect bus captains'  
8 entitled rest time?

9 MR LI KWOK WAH: The bus company, say, for example, there is  
10 one hour of journey time, it would be compressed to 55  
11 to 58 minutes. Bus captains have little rest time. If  
12 you compress journey time even by a few minutes, that  
13 means a loss of a few minutes of rest time.

14 MS MAGGIE WONG: So can you confirm that as to whether, when  
15 trying to complete the bus routes with a less scheduled  
16 time, would that increase the likelihood of speeding by  
17 bus captains?

18 MR LI KWOK WAH: That is right. Because you have to catch  
19 up in order to get more rest time. Yes, buses travel at  
20 70km/ph, in some sections where there is a speed limit  
21 of 50, we may be travelling at a higher speed, and there  
22 will be pressure, because we would need to make up for  
23 the time. As a result they will have to speed, say, for  
24 example, travelling at 70km/ph at a section of 50km/ph  
25 speed limit.

1 MS MAGGIE WONG: And we have heard about the system that  
2 there is a monitoring system of drivers, and a certain  
3 threshold was set in the black box that you cannot  
4 exceed a certain speed limit, for example 50km per hour  
5 would be set at 55km per hour. In those circumstances,  
6 if you are speeding --

7 CHAIRMAN: Whose evidence you are quoting there?

8 MS MAGGIE WONG: I'm quoting evidence perhaps from Citybus.

9 CHAIRMAN: Thank you.

10 MS MAGGIE WONG: I'm just enquiring, is there a similar  
11 system in the KMB buses for road sections that have 50km  
12 per hour?

13 MR LI KWOK WAH: Yes, for KMB there is the black box. It is  
14 a tachograph. It records the operations of the bus.  
15 You can retrieve the data. Regularly the company would  
16 check the black box, say, for example, on a certain  
17 date, a particular bus captain sped during a certain  
18 section. There is this system with the KMB.

19 MS MAGGIE WONG: Do you know what threshold has been set for  
20 the 50km per hour road section?

21 CHAIRMAN: By KMB on their tachomatic devices?

22 MS MAGGIE WONG: By KMB on their tachograph devices.

23 MR LI KWOK WAH: I don't understand your question.

24 MS MAGGIE WONG: We have heard evidence -- perhaps I will  
25 explain more. We have heard evidence from another bus  
26

1 operator, Citybus, that for a road section that has  
2 a fixed speed limit of 50km per hour they would set at  
3 55km per hour within that black box. And once the bus  
4 driver exceeded 55km per hour for a continuous period of  
5 time, say, 10 consecutive seconds, it would be  
6 automatically recorded in the form of an automatic  
7 generation exception report, and certain punishment  
8 would be accorded to different bus captains for  
9 exceeding certain speed limit.

10 And we have that particular page there.

11 A speed of over 55km per hour for 10 consecutive  
12 seconds on road sections with speed limit of 50km per  
13 hour, and speed of over 75km per hour for 10 consecutive  
14 seconds on road sections with speed limit of 70km per  
15 hour.

16 So, as far as you know, as bus captain, do you have  
17 a similar system for bus captains in Kowloon Motor Bus?

18 MR LI KWOK WAH: Yes, there is one. Our understanding is  
19 that for KMB black boxes, they would record your speed,  
20 say, for example, if you are travelling at 78km/ph, an  
21 excess of 8 kilometres per hour, if you do not  
22 accelerate within 10 seconds, there won't be any record.  
23 But if it is over 10 seconds there would be a record.  
24 That's the same for 70km/ph, and 50km/ph. It depends on  
25 the duration. 10 seconds. If within that time you do  
26

1 not accelerate it will not be recorded. Otherwise,  
2 there will be a warning letter or reduction of your  
3 bonus.

4 CHAIRMAN: So that I can understand that, are you saying  
5 that the vehicle can carry on at 78 kilometres an hour,  
6 as long as it doesn't accelerate to a greater speed? Or  
7 does it have to come back to 70 within the 10 seconds?

8 MR LI KWOK WAH: Yes, within 10 seconds it will have to be  
9 brought back to 70km/ph.

10 MS MAGGIE WONG: You mentioned there will be deduction of  
11 allowance. In what circumstances --

12 MR LI KWOK WAH: Bonus. Bonus.

13 MS MAGGIE WONG: So that would be bonus? In what  
14 circumstances would the bonus be reduced, and by how  
15 much?

16 MR LI KWOK WAH: KMB has merged the bonus into our basic  
17 salary. Before that there were two types of bonus. One  
18 for service another for safety. Each had the value of  
19 1,178.

20 Now, if it is a serious incident, such as a traffic  
21 accident, then the whole month's bonus will be deducted.  
22 Usually it will be half a month's bonus should there be  
23 an incident. The same applies to good service bonus.  
24 If you receive too many complaints, half or one month of  
25 good service bonus will be deducted.

26

1 CHAIRMAN: But that's all history now, is it not? There is  
2 no bonus, there is no deduction.

3 MR LI KWOK WAH: That's true.

4 MS MAGGIE WONG: So if a bus driver speeds, or if there is  
5 a speed exception report generated, would he receive any  
6 penalty?

7 MR LI KWOK WAH: It depends on the number of violations --  
8 the company will look at that -- and also the gap  
9 between two violations. If it is every month, there  
10 will be deduction. If there is one month or seven  
11 months in between then a warning letter will be issued  
12 to remind the bus captain.

13 MS MAGGIE WONG: So under the current system, there is still  
14 a deduction regime depending on how frequent the  
15 violation is; is that what you are saying?

16 MR LI KWOK WAH: Yes.

17 CHAIRMAN: From what is the deduction made?

18 MR LI KWOK WAH: Now, there can be no bonus to deduct.  
19 Because the bonuses are merged into our monthly salary,  
20 there can be no deduction. So every time you have one  
21 violation you receive a warning letter. Three warning  
22 letters result in dismissal.

23 MS MAGGIE WONG: So it is not a deduction from salary --

24 CHAIRMAN: Just a moment, Ms Wong. Please.

25 Three warning letters result in what, Mr Li?

26

1 MR LI KWOK WAH: Dismissal.

2 MS MAGGIE WONG: So there is not a system of deduction from  
3 the salary, but it is simply dismissal following three  
4 warning letters; is that the case?

5 MR LI KWOK WAH: Yes.

6 MS MAGGIE WONG: The next topic I would like to ask is the  
7 training.

8 If you look at page 129-6 in English, Chinese at  
9 page 122. And you mentioned about the 18 day-training  
10 and the four-week training.

11 Can you tell us what is the difference in terms of  
12 the modules between the four-week training and the  
13 18-day training provided by Kowloon Motor Bus?

14 MR LI KWOK WAH: Right now KMB has this system. Those  
15 without a bus driving licence, 18 days will cover the  
16 training to get a licence, so the module is very similar  
17 to the four-week training, but much compressed.

18 For the 18-day course, we believe the quality of  
19 training will drop, because for new bus captains we  
20 don't know what vehicles they have driven in the past,  
21 or even if any. So they might be goods vehicles  
22 drivers, or taxi drivers in the main.

23 We are heavy duty buses, as a type of mass transport  
24 mode. So if training isn't sufficient, will this  
25 increase the likelihood of traffic accidents? And I'm  
26

1 of the view that the training time is insufficient.

2 I have served for 27 years. When I joined, I received  
3 four-week training. Although I already had a licence,  
4 I had to be trained for four weeks, but for KMB, if  
5 a new recruit has a licence then the training is only  
6 for seven days, to train them on the basics and also  
7 knowledge about the routes, and then he can become  
8 a professional bus captain.

9 There are so many traffic accidents involving buses.  
10 Many of them involve buses.

11 To train a bus captain, there should at least be  
12 four weeks covering the lessons and also practical  
13 training on the road. Our suggestion is for every  
14 driving instructor he can only take two trainees. In  
15 the past it was three. We want that to be changed to  
16 two, two trainees per instructor.

17 MS MAGGIE WONG: Yes. Thank you.

18 May I take you to a document in the TD-1 bundle, at  
19 page 403. The Chinese is at page 416.

20 Mr Li, this is a briefing paper produced by the  
21 Transport Department in consultation with five  
22 franchised bus operators and three major bus  
23 manufacturers. And this is the product of their  
24 recommendation.

25 CHAIRMAN: This was a special working group set up by the  
26

1 Transport Department in the middle of March, and it was  
2 required to report within three months and did so on  
3 20 July, with this, what is now this briefing paper for  
4 the transport panel of the Legislative Council.

5 MS MAGGIE WONG: And this paper covers three aspects: first,  
6 the in-vehicle safety devices; second, seat belts; and  
7 third, training of bus captains.

8 My first question is, have the Transport Department  
9 or Kowloon Motor Bus consulted your views on any of the  
10 topics between March and June 2018?

11 MR LI KWOK WAH: No, this is the first time I have seen this  
12 paper. The company has not consulted my trade union.

13 MS MAGGIE WONG: And we have been informed recently that the  
14 Transport Department has recently issued a practice note  
15 to franchised bus operators in respect of the training  
16 for bus captains to align the training arrangements of  
17 different operators to be implemented from October 2018.

18 Have you been provided or has your union been  
19 provided with a copy of the practice note?

20 MR LI KWOK WAH: No.

21 CHAIRMAN: Ms Wong, before you move on.

22 Last week, did the Committee not ask the Transport  
23 Department to be provided with a copy of the practice  
24 note?

25 MS MAGGIE WONG: Yes.

26

1 CHAIRMAN: Have we been provided with one?

2 MS MAGGIE WONG: We have not.

3 CHAIRMAN: Thank you.

4 MS MAGGIE WONG: And the last topic, Mr Li, I would like to  
5 ask you is this.

6 Amongst your 200 members -- I know some of them are  
7 not actual bus drivers, but most of them are -- how many  
8 of them are on special shifts or split shifts, to your  
9 knowledge?

10 MR LI KWOK WAH: Myself, is a special shift duty driver.

11 I have not done formal statistics, but I know about 20  
12 to 30 members who are special shift bus captains.

13 MS MAGGIE WONG: We have heard evidence that the recent  
14 February 2018 guidelines are not strictly enforced or  
15 implemented in terms of the rest hours, and the three  
16 consecutive hours.

17 CHAIRMAN: I don't think, Ms Wong, with respect, it is  
18 a question of strictly enforced. The agreement was full  
19 implementation would not take place until the second  
20 quarter of 2019, and the issue is whether any  
21 implementation has taken place as of now.

22 MS MAGGIE WONG: Yes.

23 MR LI KWOK WAH: Not in KMB. No such arrangement. Many  
24 many special shift vehicles don't even provide three  
25 hours in between for meals and rest. We have collected  
26

1 information, many special shift do not provide three  
2 hours. According to KMB they have three hours, but  
3 according to our survey, no, less than three hours.

4 CHAIRMAN: When was this survey conducted?

5 MR LI KWOK WAH: About two weeks ago, we have been asking  
6 our members, and many routes had less than three hours.

7 For some routes, like 258P, 5S, 60X, 256B, many  
8 routes do not provide three hours for meals and rest.

9 CHAIRMAN: Do you have copies of the survey, the results of  
10 the survey?

11 MR LI KWOK WAH: We have printed -- now, here are two.

12 Because the information is in my mobile phone, and for  
13 some of the information it is not appropriate for me to  
14 pass it to you because it is a document I have taken  
15 photo of. They are company documents.

16 CHAIRMAN: Well, is there some material that you can provide  
17 us, redacting it as you feel appropriate so that we can  
18 see the extent of your survey and how many bus captains  
19 indicated that they were not being given a three-hour  
20 break.?

21 MR LI KWOK WAH: I have a dozen or so routes, and there are  
22 special duty routes, and some were given to us.

23 Now, there is a roster done by the company, and even  
24 then, there wasn't three hours for meal and break.

25 CHAIRMAN: Is there anything you can provide to us to  
26

1           substantiate what you are saying?

2       MR LI KWOK WAH: We have printed two timetables. Chairman,  
3           if you would like to have a look I can show it to you.

4       CHAIRMAN: Very well. Perhaps what we will do is this. We  
5           have reached the lunch break. If you provide that to us  
6           now, we can have it copied and perhaps translated so  
7           that we can resume by asking you questions at 2.30 this  
8           afternoon on this material.

9           If there are other matters where you have statements  
10          to make to us, we always look for evidence to support  
11          the assertion. So if there are things that support you,  
12          please provide them to us.

13          But we will take the lunch adjournment now, and we  
14          will resume at 2.30 this afternoon. Thank you.

15       (1.03 pm)

16                       (The luncheon adjournment)

17       (2.30 pm)

18       CHAIRMAN: Good afternoon.

19           We have a copy of the document that you wanted to  
20          hand to us, and we have a translation of part of it.

21           I'll ask Ms Wong to deal with the matter.

22           Ms Wong.

23       MS MAGGIE WONG: Yes. Thank you for providing us with the  
24          document. We have extracted an enlarged the part that  
25          concerns special shifts.

26

1           We see an example of the duty hours of a bus captain  
2           currently driving a special shift for route number 258D,  
3           and we can see it starts at 6.50 and it ends at 13.43.  
4           Then restarts again at 4 pm to 8.15 pm. There was only  
5           a rest break of 2 hours and 15 minutes, instead of three  
6           hours in between.

7           Can you tell us when was this -- when was this  
8           happened? Or is this a recent --

9   CHAIRMAN: Do we not see the date on the -- if it is  
10          a roster, in the coloured photograph? Isn't that  
11          28 April?

12   MS MAGGIE WONG: I can't see.

13   MR LI KWOK WAH: Now, this schedule, or roster was amended  
14          on 9 July, 9 July.

15   CHAIRMAN: Of this year?

16   MR LI KWOK WAH: Yes. This year. 9 July this year.

17          Because the company made major changes to the schedule,  
18          so the date of commencement of the schedule is 9 July.

19   CHAIRMAN: Is this a photograph that we see in colour on the  
20          left-hand side, of something that the company posted?

21   MR LI KWOK WAH: No. That's taken from the computer screen.

22          It is on the company's computer screen, and a picture  
23          was taken of that.

24   CHAIRMAN: Yes, and when was that picture taken?

25   MR LI KWOK WAH: I'm not sure. Because it was provided by  
26

1           some staff members.

2       CHAIRMAN: The computer screen picture seems to depict  
3           a date. 28/04/2018. Do you see that?

4           Top of the printout.

5       MR LI KWOK WAH: It is actually provided by staff members,  
6           I didn't actually read the small fonts here, up there.

7           So here it says 23 April 2018.

8           Now recently, the company has revised substantially  
9           the schedules for many routes, since 9 July, but this  
10          photo was WhatsApped to me the day before yesterday.  
11          Just to point out the problems there. So this was the  
12          photo, and that's why I used it as an example.

13       CHAIRMAN: Yes. Ms Wong.

14       MS MAGGIE WONG: Was this duty hours applied across the  
15          board for special shifts, or specific routes?

16       MR LI KWOK WAH: Well, these are individual routes, and  
17          so-called running number trips, or -- for example this  
18          is route 258D, trip number 5 is this schedule, but trip  
19          number 6 for instance would be a different schedule.

20       MS MAGGIE WONG: This schedule was provided by the company,  
21          Kowloon Motor Bus?

22       MR LI KWOK WAH: Yes.

23       MS MAGGIE WONG: Can you find more examples of this?

24       MR LI KWOK WAH: For instance, this one. 52X schedule 7.

25          Or S7, in short. The early shift, 7.57, logged in, and  
26

1           then the early shift finished at 12.07. But then the  
2           next shift started at 14.19, and had to go back to  
3           Po Tin to collect the vehicle. So in between there were  
4           just over two hours. So there are several more such  
5           examples.

6   CHAIRMAN: And the point that you are illustrating is that  
7           for maximum duties of, I think the first one is 13 hours  
8           and 25 minutes, the rest time was less than 3 hours.  
9           Considerably less than 3 hours?

10   MR LI KWOK WAH: Yes, correct.

11   MS MAGGIE WONG: Mr Li, you told us earlier on that you are  
12           a special shift driver as well.

13   MR LI KWOK WAH: Yes.

14   MS MAGGIE WONG: Can you tell us, from your personal  
15           experience, a day's work? From your -- from the time  
16           you start your duty.

17   CHAIRMAN: When did you last drive a special shift?

18   MR LI KWOK WAH: 14 January, because 15 January -- because  
19           of a traffic accident I was injured and I have not  
20           started work again.

21           So before 14 January I was driving special shifts.

22   CHAIRMAN: Are you able to help us with the times that you  
23           worked on that last day?

24   MR LI KWOK WAH: I have to look up the schedule first.

25   CHAIRMAN: Please do.

26

1 MS MAGGIE WONG: How long have you been driving --

2 CHAIRMAN: Well, he is looking up the schedule, Ms Wong.

3 MR LI KWOK WAH: On 14 January, I took a special shift in  
4 the morning. 7.30 I logged in. And for the morning  
5 shift I finished around 11 am. I had one hour for meal  
6 and in the afternoon shift I started at 16.11, and  
7 finished at 20.29 -- 21.29.

8 MS MAGGIE WONG: In your example you have given, do you have  
9 three hours consecutive hours break?

10 MR LI KWOK WAH: More than that. More than three hours.

11 There is four hours 40 plus minutes of break in  
12 between for this particular special shift.

13 MS MAGGIE WONG: Prior to 14 January 2018, how long have you  
14 been working as special shift driver?

15 MR LI KWOK WAH: Around three years.

16 MS MAGGIE WONG: Is it the occasion that on -- it is -- was  
17 14 January 2018 shift where you have been given over  
18 four hours break, frequent occurrence, or can you tell  
19 us how you describe four hours break.

20 MR LI KWOK WAH: I would just like to supplement.

21 For the design of every route, you know, the timing  
22 is different. For this particular route, or the route  
23 I drove on, there were six scheduled trips, or -- and  
24 there is only one day in the week, on Monday. There is  
25 just one scheduled trip with less than three hours of  
26

1 break. But for all the other scheduled trips there  
2 would be at least 3.5 hours of break. But the point I'm  
3 trying to make is that for the design of other routes,  
4 with less than three hours of break, and there are such  
5 cases, and that causes fatigue to the bus captains,  
6 because they do not get enough rest in between.

7 For my route there is sufficient time for a break,  
8 but if all routes are designed like the route I took,  
9 then I would totally accept it.

10 But in other routes they don't have such a break.  
11 And we have quoted a few examples. Examples is that  
12 there are not three hours, but for my route there is  
13 enough three hours of break. So the route is different  
14 for -- given the different circumstances. And we are  
15 just quoting examples of cases where there are not more  
16 than three hours of break.

17 CHAIRMAN: Which route was this?

18 MR LI KWOK WAH: KMB has many routes. I cannot really  
19 provide all the routes, because there are several  
20 hundreds of routes of the KMB, I can't give examples of  
21 all routes.

22 CHAIRMAN: The route you drove on 14 January. Which route  
23 was that?

24 MR LI KWOK WAH: 269D.

25 CHAIRMAN: Thank you.

26

1 MS MAGGIE WONG: Can we look at the screen capture at the  
2 moment. It referred to the route 258, (Chinese spoken)  
3 5. What is meant by (Chinese spoken), first of all?

4 MR LI KWOK WAH: Now we use "S", that's called special  
5 shift. "S" stands for special shift.

6 MS MAGGIE WONG: This 258D, can you tell us where this route  
7 starts and where it ends?

8 MR LI KWOK WAH: 258D from Long Mun Oasis to Yau Tong.

9 MS MAGGIE WONG: Do you mean Po Tin?

10 MR LI KWOK WAH: No, Po Tin in Tuen Mun to Yau Tong.

11 MS MAGGIE WONG: Do you know if there are as if facilities  
12 for this particular route from --

13 MR LI KWOK WAH: I'm not certain. But for the Po Tin staff  
14 room, it is small. We know that we have already brought  
15 this up to the Tuen Mun depot, we have asked for an  
16 expansion of the room, but that case is still under  
17 application.

18 MS MAGGIE WONG: You said that you have brought this up to  
19 the Tuen Mun depot. In what way? Orally or in writing?

20 MR LI KWOK WAH: Verbally. Verbally to the depot manager.

21 CHAIRMAN: Who is the depot manager?

22 MR LI KWOK WAH: Wan Wai Yin in Chinese.

23 CHAIRMAN: Is that Ms Debbie Wong?

24 MR LI KWOK WAH: No, Wan Wai Yin is a male.

25 MS MAGGIE WONG: Mr Lee, you have, if I understand you  
26

1           correctly, worked in the Kowloon Motor Bus as bus  
2           captain for about 27 years?

3       MR LI KWOK WAH:   Correct.

4       MS MAGGIE WONG:   Do you know a person called Raymond Cheng,  
5           or Gary Wong?   Raymond Cheng used to be --

6       MR LI KWOK WAH:   No, I don't know them.

7       MS MAGGIE WONG:   And do you know, given your experience in  
8           Kowloon Motor Bus, do you know there is a safety quality  
9           department in Kowloon Motor Bus, some time in 2010?

10      MR LI KWOK WAH:   Yes.   There was.   Yes, there was we call  
11           this -- I can't remember the full name.   There was  
12           a department dedicated to safety issues.   Safety  
13           training of bus captains.   That's my understanding.

14      MS MAGGIE WONG:   Were there meetings from time to time for  
15           this safety and quality department, with bus captains?

16      MR LI KWOK WAH:   I have never heard they would hold meetings  
17           with bus captains.   I have never heard that.   I have not  
18           been invited to such meetings, if any at all.

19      MS MAGGIE WONG:   Then how do you know the existence of this  
20           safety and quality department?

21      MR LI KWOK WAH:   When we talked to the managers of depots we  
22           heard about that.

23      MS MAGGIE WONG:   Did you know there was a study conducted in  
24           around that time in 2010 in relation to the  
25           identification of 29 sharp bends with certain criteria  
26

1 for consideration, or implementation by bus captains.

2 Do you know about this?

3 MR LI KWOK WAH: No. Never heard of it.

4 CHAIRMAN: I think to make the point clear, a study the  
5 purpose of which was to give advice to bus captains, how  
6 they might negotiate certain bends. But you have never  
7 heard of that?

8 MR LI KWOK WAH: No, no, no.

9 CHAIRMAN: Thank you.

10 MS MAGGIE WONG: You earlier said that you have talked to  
11 the manager of depot and heard about the safety and  
12 quality department. Do you know if there are any  
13 measures suggested by this safety and quality department  
14 around the time in 2010?

15 MR LI KWOK WAH: I have not even heard about this  
16 department. They have not consulted us, and for our  
17 association, we have not been invited. But I don't know  
18 whether others have been invited. I'm clueless about  
19 this matter.

20 MS MAGGIE WONG: So what have you talked about, about this  
21 department, this safety and quality department when you  
22 were talking to the depot managers. What topic were you  
23 discussing, or talking about?

24 MR LI KWOK WAH: I didn't know about this department, so we  
25 didn't talk about matters related to this department,

26

1 the discussions were rather on the daily operations of  
2 the depot. No, we have not talked to the manager about  
3 safety issues.

4 MS MAGGIE WONG: I would like to ask the final topic, which  
5 is on the training. Can I take you to the KMB bundle 1  
6 at page 120. I'll just briefly explain what this is  
7 about. This is a response by the Kowloon Motor Bus to  
8 the Commissioner for Transport's letter dated  
9 12 February 2018 regarding certain issues on recruitment  
10 and training for full-time bus captain.

11 This follows from the tragic incident on  
12 10 February 2018.

13 I would like to ask you about the general training  
14 for full-time bus captain candidates.

15 Mr Li, are you also a full-time bus captain prior to  
16 the sick leave, or 14 January 2018?

17 MR LI KWOK WAH: Right.

18 MS MAGGIE WONG: And if I may ask you, first of all, the  
19 training, before we look at this. Was all full-time bus  
20 captain candidates obliged to undergo an 18-day training  
21 for 9.5 hours a day?

22 MR LI KWOK WAH: Correct.

23 MS MAGGIE WONG: Would there be refresher training once you  
24 became a full-time bus captain?

25 MR LI KWOK WAH: Yes, but in the past decade or so there was  
26

1 no refresher training. Because previously, once every  
2 year -- once every two years there was ancillary driving  
3 training. We had to go to the Sha Tin school to receive  
4 a one-day training to have some refresher training on  
5 training attitude, enhancing our training skills,  
6 et cetera. But now, there is no longer such  
7 arrangement.

8 In the past 10 years, there is not this refresher  
9 training once every two years.

10 Now, if you are a captain, and then you are involved  
11 in some sort of an accident, then you have to go back to  
12 receive training, but if no accident happens then you  
13 don't need to have retraining again.

14 MS MAGGIE WONG: Do you have route-specific training for  
15 full-time bus captain?

16 MR LI KWOK WAH: To my understanding, for some routes there  
17 is dedicated training. For example, cross-harbour  
18 routes, routes plying through Mong Kok, special training  
19 is required. And there is another route, 64K, going  
20 through Tai Po Road, and Fan Ling, Fan Kam Road, and Tai  
21 Lam Chung, and a three-day training is required.

22 MS MAGGIE WONG: So this is apart from the general training,  
23 the 18-day general training. For specific routes you  
24 have to undergo another, or extra three days training?

25 MR LI KWOK WAH: Correct. On the issue of training can  
26

1 I defer to Mr Chan to help?

2 CHAIRMAN: Mr Chan?

3 MR CHAN WING HO: Mr Chairman, at the transport panel of the  
4 LegCo held on 25 July 2018 there was a background brief  
5 paper, and on page 4 point number 15 in the Chinese  
6 version, there was this quote:

7 "The KMB said that whether it is the part-time or  
8 full-time bus captains, if they have not run on a route  
9 for over one month, they need extra training for driving  
10 that particular route."

11 So the KMB made this statement. But that has never  
12 been implemented among the bus captains.

13 CHAIRMAN: Ms Wong, can you help me locate this passage?

14 This is the LegCo briefing paper TD-1, page 403,  
15 paragraph 15.

16 MS MAGGIE WONG: 15.

17 CHAIRMAN: Paragraph 15 is dealing with seat belts.

18 MS MAGGIE WONG: I believe this is a separate document,  
19 Mr Chairman. It is a background paper.

20 CHAIRMAN: Is that prepared by the Secretariat?

21 MS MAGGIE WONG: Yes, the LegCo Secretariat.

22 CHAIRMAN: What is the reference for that paper?

23 MS MAGGIE WONG: We are locating it from online.

24 CHAIRMAN: Is that not in the bundle?

25 I have certainly read the document. We are just  
26

1           trying to find it.

2           Is this in the bundle, does it have a reference,  
3           Ms Wong?

4           May I ask that the document be scrolled up so we can  
5           see the context? This appears to be a report of what  
6           happened earlier. Perhaps if we go to paragraph 13/14.

7           So it appears to be a reference to a meeting held on  
8           15 February, and then if we scroll down to paragraph 15,  
9           yes, we have the context now, Mr Chan.

10          Could you repeat your point?

11       MR CHAN WING HO: Mr Chairman, the point I want to make is  
12           that the KMB said that whether it be full-time or  
13           part-time drivers, if they have not driven a route for  
14           a month or more they would have to practise driving on  
15           this route again. On this particular arrangement, since  
16           I joined the company, it has never been done.

17       CHAIRMAN: When did you join the company?

18       MR CHAN WING HO: March 2015.

19       CHAIRMAN: This is a Secretariat paper gathering together  
20           materials to brief LegCo panel members about what has  
21           happened in the past. And this is a reference to  
22           a meeting on 15 February. Do we have the minutes of  
23           that meeting?

24       MS MAGGIE WONG: I don't think so.

25       CHAIRMAN: The minutes will exist, will they not, of that  
26

1 meeting, so we are in a position to check the accuracy  
2 of what is the assertion by the Secretariat of what KMB  
3 are supposed to have said?

4 But perhaps a matter that can be looked into later.

5 We have your point, Mr Chan. That assertion is one  
6 that you challenge on your personal experience.

7 MR CHAN WING HO: Yes.

8 CHAIRMAN: Yes, Ms Wong.

9 MS MAGGIE WONG: Yes. If I may take you to the KMB

10 submission. Page, volume 1, KMB-1, page 120.

11 CHAIRMAN: What are we being taken to?

12 MS MAGGIE WONG: We are taken to the response from the

13 Kowloon Motor Bus to the Commissioner for Transport's  
14 letter dated 12 February 2018 in response to the request  
15 for investigation report, following the tragic incident  
16 on 10 February 2018.

17 CHAIRMAN: Thank you.

18 MS MAGGIE WONG: Mr Chan, this is KMB's response to

19 the Commissioner's letter setting out the recruitment  
20 and training for both full-time and part-time bus  
21 captains.

22 I would like to ask you a few questions about  
23 full-time bus captain in terms of general training, and  
24 specific training. We can see at page 120 it sets out  
25 the full-time bus captain training and details of the  
26

1 18-day training.

2 Over the page it states:

3 "A full-time bus captain candidate will have a total  
4 of at least 68 hours of on-the-wheel bus driving  
5 training (inclusive of the time for route training)  
6 under the supervision of instructors."

7 Can you confirm if that's the case?

8 CHAIRMAN: If you are unable to do so, please say -- if you  
9 simply don't know.

10 MR CHAN WING HO: Now for this particular response, what is  
11 mentioned there is a bit different from the training  
12 I received.

13 MS MAGGIE WONG: Can you tell us what training did you have  
14 in your days?

15 MR CHAN WING HO: Let's say phase 2, four to five bus types,  
16 training on four to five bus types. Now, my own  
17 training, I was only trained on two to three bus types.

18 MS MAGGIE WONG: What about route training? It is stated  
19 there "route training for 2 routes".

20 MR CHAN WING HO: Yes, I also was trained on two routes.

21 MS MAGGIE WONG: And we have heard some evidence previously  
22 from Mr Li about route-specific training for full-time  
23 bus captain candidates. We see at page 122 (v), it sets  
24 out the:

25 "Route training for 2 routes with on-the-wheel  
26

1 driving under the supervision of instructors ..."

2 And:

3 "[Bus captain] candidate must attend route training  
4 before he/she will be assigned with driving duties."

5 We heard there would be three days training. Do you  
6 know if there has been any change since your days, when  
7 you joined the company?

8 MR CHAN WING HO: Basically there has been no change.

9 MS MAGGIE WONG: If I may take you to page 123, it specified  
10 there is a route-specific training for employed bus  
11 captain both full-time and part-time, and there would be  
12 additional route familiarisation to be provided for  
13 assigning the bus captain after working three to six  
14 months, to drive another route.

15 Has that happened?

16 MR CHAN WING HO: Yes.

17 MS MAGGIE WONG: Would that be additional training?

18 MR CHAN WING HO: From my personal experience, there was  
19 a department, duty dispatch department of the company.

20 Now, this unit would call us up, and then say for  
21 a particular route, for example 111, then at the  
22 terminus of route 111 I should ask the regulation  
23 officer for a schedule, and then I will go on that bus  
24 route for two trips, and then once I have learned that  
25 trip, the route, then I will tell the department again,  
26

1           and then there may be a record, the route record here,  
2           for route 111 for me.

3   MS MAGGIE WONG: On page 127, we can see there are some  
4           remedial training where there are four liable incidents  
5           within one year, new bus captain within two liable  
6           incidents within first three months of work. Careless  
7           driving or failing to ensure passenger safety, and  
8           second careless driving will be termination.

9           It talks about remedial training for duration of one  
10          to 3 days, usually one day, subject to the  
11          recommendation of instructors.

12          Has that happened?

13   CHAIRMAN: Are you asking whether Mr Chan has had remedial  
14          training?

15   MS MAGGIE WONG: Yes. Has there been remedial training in  
16          those situations?

17   CHAIRMAN: "Have you received remedial training?" Is that  
18          the question?

19   MS MAGGIE WONG: Yes.

20   MR CHAN WING HO: No, I have never received remedial  
21          training.

22   MS MAGGIE WONG: In your experience with other bus captains,  
23          do you know if there are remedial training in those  
24          circumstances set out on this page?

25   MR CHAN WING HO: As far as I know, I have never heard  
26

1 of it.

2 MS MAGGIE WONG: Chairman, I believe I have completed my  
3 questioning.

4 CHAIRMAN: Thank you.

5 QUESTIONS FROM THE COMMITTEE

6 MEMBER LO: Just a short question. Based on your experience  
7 with other special shift drivers, do you get to choose  
8 a route close to your home, or would they consider your  
9 home location in assigning a route to you?

10 MR CHAN WING HO: From my experience, if there is a vacancy  
11 in a particular route, then we may try to apply -- we  
12 submit a report to the scheduling division, and then  
13 there will be internal rating for bus captains and then  
14 we will see if we are assigned that route. For example,  
15 myself, I belong to the Sha Tin depot, I work in the  
16 Sha Tin district but I live in Tai Po.

17 MEMBER LO: So that means you don't get to choose a route.  
18 Only if there is a vacancy of that route you can apply  
19 for the same?

20 MR CHAN WING HO: Correct.

21 CHAIRMAN: Mr Li, you testified that you were a bus captain  
22 driving special shifts for three years; is that correct?

23 MR LI KWOK WAH: Yes.

24 CHAIRMAN: And during those three years, did you drive  
25 different routes?

26

1 MR LI KWOK WAH: No. It is the same route, 269D.

2 That means -- because I, you know, have been  
3 assigned to that route, fixed route, sort of, and maybe  
4 because of occasional need for redeployment I will be  
5 taken away from that route, but it doesn't happen often.

6 CHAIRMAN: And when you took your break, the long break in  
7 the middle of that shift, where did you take it?

8 MR LI KWOK WAH: Home. Because where the vehicle is parked  
9 is close to my home, so I could get home.

10 CHAIRMAN: And where is that?

11 MR LI KWOK WAH: Tin Shui Wai. Because in Tin Shui Wai  
12 there is a depot. So buses could be parked there in  
13 between. So we could just leave the bus there, at the  
14 depot, and I can ride a bicycle to get home more  
15 quickly. If I walk it will take me 15 minutes to get  
16 home.

17 CHAIRMAN: This was Tin Shui Wai depot that you would park  
18 at during these shifts?

19 MR LI KWOK WAH: Yes, the company arrange for the bus to be  
20 parked there.

21 CHAIRMAN: Were there facilities at Tin Shui Wai depot for  
22 people to rest if they didn't live nearby?

23 MR LI KWOK WAH: Yes, there are some. But bus captains will  
24 usually take a meal there. But there is no space for  
25 taking a nap. But then you can still take a meal

26

1           there -- well, for some bus captains who live far away  
2           they can't get home and then they would rest on the bus  
3           itself. But for those who can really return home, if we  
4           have a rest break of three to four hours we would go  
5           back home and take a rest and have a meal there as well.

6   CHAIRMAN: So were you aware that there were work colleagues  
7           that would, as you say, take a nap in the bus because  
8           they could not get home?

9   MR LI KWOK WAH: Yes, that's correct. Because they live too  
10           far away. Some of them live in Kam Tin, and, well, it  
11           can take them easily two hours to get back and forth.

12           So the rest break is only three hours and you spend  
13           two hours in travelling. So how can you rest? So they  
14           then might as well take a rest within the bus, and then  
15           within the rest room there is only a space for you to  
16           take a meal, and so normally the bus captains will opt  
17           to take a rest within the bus.

18   CHAIRMAN: Yes. Thank you.

19           Is there any matter that you would like to raise  
20           with us in closing? Because we have finished the  
21           questions we have for you.

22   MR LI KWOK WAH: Yes, we would like to raise some  
23           suggestions.

24           On -- that is on work hours. We say that for the  
25           morning shift, in the special shift, it should not be  
26

1       beyond 2100. The starting hours for the morning shift  
2       should not be before 0330, because it is -- if we start  
3       too early, then when people are having breakfast we are  
4       already having lunch. For the latter shift it should  
5       not start before 1300.

6             For many routes the starting hours for the night  
7       shift is 11. So how can you call that a night shift?  
8       And for newly recruited bus captains, please don't  
9       assign them to special shift, because they are not yet  
10      familiar with the operation of the company.

11   CHAIRMAN: When you say 11 o'clock, do you mean 11 pm?  
12             2300 hours?

13   MR LI KWOK WAH: I'm referring to the 11 am. I mean the  
14      night shift should start -- should not start before  
15      11 am.

16   CHAIRMAN: 11 am. Thank you.

17   MR LI KWOK WAH: Yes.

18   CHAIRMAN: You have used terms about naming these shifts.

19             Can you just help me at least: morning, afternoon,  
20      night. What do you call the shift?

21   MR LI KWOK WAH: Well, there is only morning shift and night  
22      shift for the KMB. There is no middle shift, so to  
23      speak. There is only morning shift and night shift, and  
24      then overnight shift. So this is the system in place in  
25      KMB. The association is raising this. Because if the  
26

1 special shift ends after 2100, then people don't have  
2 enough time to rest. Because the road conditions are  
3 changing all the time, so if the night shift ends at  
4 2100, and maybe because of road congestion, and traffic  
5 accidents, the shift may well go beyond 2100. So it is  
6 difficult for them to come into the morning shift the  
7 next day. So we need at least 10 hours of rest in  
8 between.

9 CHAIRMAN: Please take it step by step.

10 What are the parameters to commence work for the  
11 morning shift? What are the range of times at which you  
12 commence work in the morning shift?

13 MR LI KWOK WAH: What I meant was that when we start the  
14 morning shift, the first departure, usually starts at  
15 5 am. And for some routes -- some bus captains have to  
16 report duty at 3.30 am, and that may be the last trip of  
17 the overnight shift, so that is why it starts so early.

18 Now, the bus captains if they start too early, well,  
19 they may not be ending at 1 or 2, so they are working  
20 for at least 11 hours. So if people get up too early,  
21 then they become tired easily.

22 CHAIRMAN: What range of times does the morning shift  
23 finish?

24 MR LI KWOK WAH: It depends on the routes. The earliest is  
25 around 12 or so, and for some other routes, 3 to 4 pm,

26

1           and then they have to report duty at 5 am. And if you  
2           are talking about long-haul buses, then it may end up at  
3           3 to 4 pm, but for short-haul trips the ending hours may  
4           be different.

5   CHAIRMAN: What is the range of time during which the night  
6           shift begins?

7   MR LI KWOK WAH: Let's look at it this way. Well, the  
8           timing of the different routes varies. So our  
9           suggestion is that the night shift should not start  
10          before 1 pm.

11           So if we are talking about many departures, then the  
12          schedule may be different, some start at, say, 11, some  
13          start at 1 pm. Some start even later, so it is  
14          different for the bus captains.

15           So if you start at 1 pm, the bus captains don't even  
16          have breakfast, they have lunch and then they start  
17          work.

18           And then if the night shift starts too early, then  
19          you may have to take your meals earlier, and some night  
20          shifts end at around 1 to 2 am. So the bus captains  
21          work 12 hours, and they become fatigued easily, tired  
22          easily.

23   CHAIRMAN: What is the range of time when the overnight  
24          shifts begin?

25   MR LI KWOK WAH: Before 7.30 pm.

26

1 CHAIRMAN: And what is the range of time when the overnight  
2 shifts end?

3 MR LI KWOK WAH: 7.30 am in the morning. So in other words  
4 from 7.30 pm to 7.30 am.

5 CHAIRMAN: Thank you. That's your point on work hours and  
6 your recommendation. Is there anything else you wish to  
7 say?

8 MR LI KWOK WAH: I have two issues to raise. They are about  
9 road conditions.

10 Well, there are skips being placed all the time  
11 along bus routes obstructing buses to get into the bus  
12 stops, and other road users as well.

13 So skips, is there a dedicated department to remove  
14 them, because the skips are jeopardising the safety of  
15 the road users. I don't know whether the law specifies  
16 locations where they can be placed, say for example now  
17 in Nathan Road some skips are placed and they are  
18 obstructing the traffic.

19 So my suggestion is that if there is a dedicated  
20 department responsible for this they should remove such  
21 skips, because we are talking about busy roads, and  
22 skips will cause traffic congestion. For bus captains,  
23 if there is traffic congestion then we may be stuck and  
24 passengers are made to wait longer.

25 So can skips be placed somewhere else? Can we  
26

1 complain against them, and then the police will follow  
2 up?

3 CHAIRMAN: I'm sure there is an authority or an approval  
4 that is required before you can drop a skip off the  
5 lorry onto the road. But we will ask the Transport  
6 Department about that, and perhaps the police.

7 MR LI KWOK WAH: Thank you.

8 CHAIRMAN: Do you have any photographs that you wish to  
9 provide the Committee with, to illustrate the difficulty  
10 caused by skips in the road? Particularly if they are  
11 near bus stops, then please provide them to us.

12 MR LI KWOK WAH: Understand.

13 And there is another point on bus stops.

14 Earlier, we had a meeting with the Transport  
15 Department, some vehicles are parked at the bus stops,  
16 making it difficult for buses to get into the bus stops.

17 So our suggestion is that if there is illegally --  
18 illegal parking around bus stops can a point deduction  
19 system be introduced to serve as a deterrent, so that  
20 vehicles other than buses will not be parked within the  
21 bus stop area? Because so many vehicles are parked at  
22 the bus stop, and buses have to double park to let  
23 passengers alight on board.

24 And if we go back to the bus terminus and report it  
25 to the police, the vehicles would already have gone

26

1 away.

2 So, can we have a point deduction system or demerit  
3 point system for vehicles parked illegally within the  
4 bus stop?

5 So that's our suggestion.

6 CHAIRMAN: On your KMB buses you have forward-pointing  
7 cameras, do you not? At least on many of the buses.

8 MR LI KWOK WAH: Yes, yes.

9 CHAIRMAN: Now, those cameras would capture vehicles parked  
10 illegally in that way, would they not?

11 MR LI KWOK WAH: Yes, that can be done. But not the  
12 majority of the buses are retrofitted with these  
13 cameras. Only 1,800 buses are retrofitted with such  
14 forward-looking cameras.

15 Well, instead, why don't we install some cameras on  
16 the bus stops themselves. There may be surveillance  
17 cameras installed at the bus stops to detect illegal  
18 parking. It is better to do that than using the cameras  
19 on the buses.

20 CHAIRMAN: Why not use what we have now? Why not use both?

21 MR LI KWOK WAH: Because some of the buses are not  
22 retrofitted with such cameras, especially some of the  
23 old models of the buses. And most of the old buses have  
24 not been replaced yet, or phased out yet. So 1,000 or  
25 so new models of buses are retrofitted with cameras.

26

1 CHAIRMAN: Well, those that have got cameras, would you  
2 support bus captains operating a button, perhaps, that  
3 flagged on the CCTV the time for someone to look at the  
4 CCTV film to be able to see the illegal parking? Would  
5 you support bus captains doing that?

6 MR LI KWOK WAH: Yes. We support it. Well, if buses can  
7 get into the bus stops then that would make it easier  
8 for the bus captains. Because we are talking about  
9 illegal parking here. And passenger safety can be  
10 enhanced if the buses really can get into the bus stops.

11 And passengers --

12 CHAIRMAN: Mr Li, we understand your point. It is a point  
13 that is well made. All we are trying to do is find  
14 methods to assist you this achieving that aim.

15 MR LI KWOK WAH: I understand.

16 CHAIRMAN: Is there anything else?

17 MR LI KWOK WAH: Mr Chan would like to say something.

18 MR CHAN WING HO: Mr Chairman, on our bus roster schedules,  
19 we would like the Transport Department to make  
20 a guideline. Every day, for every bus captain on the  
21 same shift there should be just one main route plus  
22 a supplementary route. So one plus one. Because for  
23 many routes in the same roster, there is a range of one  
24 plus two. In other words total of three routes we may  
25 have to work on. So we would like the Transport  
26

1 Department to come up with a guideline, so drivers won't  
2 mix up routes and then take the wrong route or make the  
3 wrong stops.

4 CHAIRMAN: So at the moment you might be asked to drive  
5 three routes, and you are suggesting it be limited to  
6 two?

7 MR CHAN WING HO: Yes. Correct.

8 CHAIRMAN: Thank you.

9 Gentlemen, thank you for attending to give your  
10 evidence. We have other representatives of other unions  
11 waiting their turn. So we are going to take a short  
12 adjournment now so there can be a swap around. Thank  
13 you for attending. We will take 2 minutes.

14 (3.32 pm)

15 (A short break)

16 (3.45 pm)

17 REPRESENTATIVES OF MONTHLY-RATED DRIVERS UNION: MR CHENG  
18 HOI YIU, MR SZETO KUEN, MR CHAN HON WA, MS YIP WAI LAM AND  
19 MR CHAN CHI FAI, MR YAN KIN MING

20 (Evidence given in Cantonese, transcription of the  
21 simultaneous interpretation)

22 CHAIRMAN: We would like to thank you, Ms Yip, and your  
23 representatives of the Monthly-rated Drivers Union for  
24 accepting our invitation to give evidence, and let me  
25 explain, if you have not observed already, how matters  
26

1 will proceed. Ms Wong, who is Senior Counsel assisting  
2 the Committee, will pose questions that in part are  
3 based on the submissions that you have made, but also on  
4 other matters that have arisen.

5 For your part, if you wish somebody else, other than  
6 yourself, to answer questions, would you simply defer to  
7 them and tell us who it is who is going to answer the  
8 question on behalf of the union.

9 Is there something you wish to say at the outset?

10 MS YIP WAI LAM: Yes. Thank you.

11 Thank you, Mr Chairman.

12 First, I would like to thank the SAR government for  
13 appointing this Independent Review Committee to look  
14 into franchised bus services. I would particularly like  
15 to thank the Committee members, including Mr Peter  
16 Duncan, Justice Duncan, Justice Michael Lunn, Mr Auyeung  
17 and Professor Lo, and I know you have worked very hard  
18 to look into the issue, and I would like to express my  
19 special thanks to the Committee.

20 We have made a submission. On the first part of our  
21 submission, engineering department, which has everything  
22 to do with safety, and a very experienced colleague in  
23 the engineering department will talk about the  
24 difficulties he faces in his daily work.

25 CHAIRMAN: He won't do that just now, because I'm going to  
26

1           ask Ms Wong to pose questions first of all, and then if  
2           there are areas that Ms Wong has not touched on, and you  
3           wish to amplify, we'll come back to you.

4           So if I can invite you to be patient, we will ask  
5           Ms Wong to start first of all.

6           Ms Wong.

7   MS MAGGIE WONG: Thank you, Ms Yip, and gentlemen.

8   MS YIP WAI LAM: Yes, understand.

9                       EXAMINATION BY MS WONG

10   MS MAGGIE WONG: Ms Yip, this Committee is tasked to make  
11           recommendations in relation to the safety-related  
12           measures for the operation and management of franchised  
13           buses. So my questions will only be focused on this  
14           aspect, rather than the wider aspects of employment  
15           issues.

16           So I hope you understand.

17           For your union, I believe your union was registered  
18           in the Labour Department on 28 March 2018; is that  
19           correct?

20   MS YIP WAI LAM: Yes.

21   MS MAGGIE WONG: And currently, it has 150, 150, full-time  
22           staff as of 18 June 2018?

23   CHAIRMAN: By that you mean members who are full-time  
24           employees?

25   MS MAGGIE WONG: Yes. Members who are full-time employees.

26

1 MS YIP WAI LAM: Correct.

2 MS MAGGIE WONG: And you have set out in your letter in  
3 Chinese, dated 18 June 2018, at TU bundle, page 75-3 the  
4 composition of the members of your union.

5 And in that letter you stated that your union have  
6 earlier done a consultation and about 800 full-time  
7 employees would like to join.

8 MS YIP WAI LAM: Correct.

9 MS MAGGIE WONG: May I first of all ask, about the current  
10 membership of about 150 full-time employees, from which  
11 franchise buses do they come?

12 MS YIP WAI LAM: Most of them are from KMB. They are the  
13 bus captains. Some from New World First Bus, others  
14 from Citybus. But the latter two take up a minor  
15 portion.

16 MS MAGGIE WONG: And can you give us an estimate, out of 150  
17 people, how many came from KMB.

18 MS YIP WAI LAM: And we asked the secretary to deal with the  
19 registration of members. And we all go to work, and we  
20 have to prepare for our submission to the Committee. So  
21 we don't have an exact proportion here. But from other  
22 companies, about five. The remaining are all KMB  
23 workers.

24 MS MAGGIE WONG: Thank you. Your submission raised a number  
25 of issues, or topics. I'll go to the training of bus  
26

1           captains first.

2           Your submission in Chinese at page 68, in English  
3           page 72, paragraph 3, you mentioned about a trainee bus  
4           captain who passed the competency test for being a bus  
5           captain, and he became a bus captain, and later he was  
6           involved in a traffic accident, and sustained serious  
7           injuries, in less than a week after he worked as a bus  
8           captain.

9           Can you first of all tell us, is he a part-time or  
10          full-time bus captain?

11       MS YIP WAI LAM: He or she is from the same class as mine,  
12          same training class, and then we got the licence to  
13          drive the bus. Why did I raise this particular  
14          incident? At the time, well, each instructor will train  
15          one to three trainees on a bus. And based on this  
16          instructor's experience, the instructor believed that  
17          this trainee should not -- is not suited to join the  
18          trade and become a professional driver, and he advised  
19          this trainee to find some other jobs. But then this  
20          trainee came from Malaysia, and he was in dire need to  
21          find a job, so the instructor had done his best, and  
22          asked that the trainee should not be allowed to continue  
23          with the training. But then because of the acute  
24          manpower shortage, and there was heavy traffic  
25          congestion on the road, and the company, the instructor,

26

1           was under great pressure to train enough bus captains.

2           So under great pressure -- yesterday, I met with an  
3           experienced instructor, and he talked to me about this  
4           particular issue. He said that he was unhappy, and they  
5           set aside their own conscience, and just to fend for  
6           their living --

7   CHAIRMAN: Before you go on -- forgive me for interrupting  
8           you. This particular trainee is someone who passed the  
9           Transport Department exam, is that right?

10   MS YIP WAI LAM: Yes, correct.

11   CHAIRMAN: When was this class when you were trained? What  
12           year is your class?

13   MS YIP WAI LAM: 2013. 22 April, I joined the trade.

14   CHAIRMAN: Thank you. The simple point is this, that this  
15           trainee having passed the Transport Department exam was  
16           employed as a bus captain, and he had an accident. We  
17           have that point.

18           Ms Wong.

19   MS MAGGIE WONG: Ms Yip, have you been working for the  
20           Kowloon Motor Bus since your training in 2013, for five  
21           years? Correct? Yes?

22   CHAIRMAN: Can I ask you to use words, because the  
23           stenographer can't write down "head is nodded".

24           Thank you.

25   MS YIP WAI LAM: Thank you. Understood. Yes. I have

26

1           worked for five years.

2       MS MAGGIE WONG: We got the point about the trainee. The  
3           point I wish to ask you is in your submission you  
4           mentioned that the instructor did make certain comments  
5           about the character of the trainee, but the company  
6           neglects relevant comments under the existing system.

7           My first question is, how did the company neglect  
8           those comments, and what comments were they?

9       MS YIP WAI LAM: The instructor had reflected the situation  
10          to the group leader, and the trainee was asked to go up  
11          to the rooftop to try out -- to practise training, to  
12          parking, to do some parking. So once he has done that,  
13          then we will let him continue with the training.

14      MS MAGGIE WONG: Was it your view that the training to bus  
15          captains provided by the Kowloon Motor Bus is  
16          insufficient, even though the trainee has passed the  
17          test?

18      MS YIP WAI LAM: We talked about bus safety all the time.  
19          I think that involves a number of factors, including the  
20          Transport Department having a role to play. And because  
21          when the exam is taken, the Transport Department may  
22          believe there would be further training by the company.  
23          So maybe the exam standard is relatively lenient. But  
24          then if an experienced instructor knows this person is  
25          not suited to driving, and he has tried his best to

26

1 reflect that, and then he is under pressure that he  
2 should train up as many bus captains as possible, and he  
3 is not really giving proper regard to safety here.

4 If I may add, instructors also do assessment.

5 Now, I recall that vividly on the day that we took  
6 the test, the exam, each instructor was rather nervous,  
7 as if he is the one taking the test. Because for the  
8 trainees, they trained, if there is a high pass rate,  
9 then it may be good for the assessment of the  
10 instructors. So that's our guess.

11 That's why the instructors were rather nervous too.  
12 They did mention before that it is also about their  
13 performance, assessment is one of the criteria.

14 CHAIRMAN: Their performance assessment is not one of the  
15 criteria for passing the Transport Department exam, is  
16 it? The Transport Department exam is completely  
17 separate.

18 MS YIP WAI LAM: Yes, yes.

19 CHAIRMAN: They might -- from what you say, do -- make an  
20 assessment for the company. But that's a matter for the  
21 company. Transport Department determines that the  
22 person, the candidate, has passed the exam and was  
23 granted a licence.

24 So Ms Wong, what is the point of this?

25 MS YIP WAI LAM: Yes.

26

1 MS MAGGIE WONG: And if I may move on to your  
2 recommendation. One of your recommendations is that  
3 everyday driving enhancement course to be included in  
4 the training for bus captains, in paragraph 6, and  
5 focusing on accelerator and brake control, turn  
6 negotiation, and smooth driving.

7 Why you see a need to have this extra three days'  
8 driving enhancement course?

9 MS YIP WAI LAM: Yes. Because before we take the bus  
10 driving licence exam, we need to have three years of  
11 private vehicle licence. So why do we need to  
12 strengthen training? Because buses are different from  
13 private vehicles in terms of weight. So when it comes  
14 to controlling the brake or the accelerator, it is  
15 a different kind of skill. So we need to have a better  
16 understanding of that.

17 And for new bus captains, in most cases, where they  
18 have involved in accident it is because of emergency  
19 braking leading to injuries of passengers or leading to  
20 car from behind crashing into the bus. So this is  
21 a more common scenario, where new bus captains are  
22 involved in accidents.

23 So the biggest cause is because they don't brake  
24 properly, and so passengers are injured as a result.  
25 For turning corners, buses of course are different than  
26

1 private vehicle, so it needs different skills in turning  
2 corners, or manoeuvring corners, so if we have three  
3 days of additional training, it is for the instructors  
4 to assess the performance. If it is not good enough,  
5 there could be further training. It is to make sure  
6 that the trainee has completely mastered the driving  
7 skills before the trainee is allowed to drive a bus on  
8 the road and take passengers.

9 CHAIRMAN: Have you made this recommendation to KMB?

10 MS YIP WAI LAM: Never had the chance.

11 CHAIRMAN: In five years of employment, you never had the  
12 chance? Five years?

13 MS YIP WAI LAM: Employees rarely make suggestions. There  
14 is not the platform really for us, me, to share the  
15 information in such detail.

16 MS MAGGIE WONG: And you also stated that there should be  
17 simulated traffic lights to be installed at driving  
18 school with a view to strengthening the bus captain's  
19 skill in applying the brake in response to traffic  
20 lights.

21 And my question is this. I understand that there  
22 would be an 18-day training for 9.5 hours a day for  
23 full-time bus captain candidate. Would that not be  
24 sufficient? Because it is based on the real life road  
25 condition.

1 MS YIP WAI LAM: For someone with driving experience, if  
2 someone has already got a private vehicle licence for  
3 three years, but for many young people they don't even  
4 own a private car. So they don't have road experience,  
5 and we always say road experience is the most important.  
6 Why? Because there are a lot of unforeseen situations  
7 on the road.

8 For an experienced bus captain this is fine. But  
9 for someone without any driving experience, then 18 days  
10 of training alone is not sufficient, definitely.

11 MS MAGGIE WONG: Would you suggest to widen the scope of  
12 training, by including emotional control, or emotional  
13 training on how to handle passengers, behaviour of  
14 passengers?

15 MS YIP WAI LAM: In this respect, when we joined the KMB, if  
16 I recall correctly, there was a questionnaire. There  
17 would be brief mention of your EQ, or they try to check  
18 your EQ. But would there be actual training? Well,  
19 there is also training on how we should handle emotions,  
20 yes, KMB did do that. But then the problems arose  
21 because when you are in an actual duty, and you are  
22 humiliated or shouted at by others, that means there is  
23 need for more promotion so we can do better.

24 The KMB has always been doing, that but all I could  
25 say, yes, in form, they have done everything, but when  
26

1 we actually face the pressure, perhaps there could be  
2 some more training. It would be fine too.

3 Because we are always talking about starting afresh.  
4 So we need to use some special words to respond. But it  
5 is really out of touch with reality.

6 MS MAGGIE WONG: Can we move on to driving while sick?

7 CHAIRMAN: Before you do so -- have you experienced verbal  
8 abuse yourself from passengers?

9 MS YIP WAI LAM: Yes. Verbal abuse. Even assault, physical  
10 assault.

11 CHAIRMAN: Did you report these incidents?

12 MS YIP WAI LAM: Yes. I reported to the police at the time,  
13 but because there was not a camera on board, and then  
14 the passenger hired a lawyer, and then that passenger  
15 was acquitted.

16 CHAIRMAN: So you report -- this is the assault, is it? You  
17 reported an assault --

18 MS YIP WAI LAM: Yes, I did call the police.

19 CHAIRMAN: That led to an arrest, and it led to a charge,  
20 and it led to a trial, and it led to an acquittal; is  
21 that right, what you have just said?

22 MS YIP WAI LAM: Yes, yes.

23 CHAIRMAN: And when was this?

24 MS YIP WAI LAM: It should be two years ago, if I recall  
25 correctly.

26

1 CHAIRMAN: No doubt you remember the date, having been  
2 assaulted on duty? Bus driver? What was the date?

3 MS YIP WAI LAM: I honestly don't remember. Maybe I can  
4 provide the date later.

5 CHAIRMAN: Yes, if you would be kind enough. Which court  
6 was this matter tried in?

7 MS YIP WAI LAM: Kwun Tong.

8 CHAIRMAN: And hopefully that was the only occasion when you  
9 were assaulted; is that right?

10 MS YIP WAI LAM: Yes.

11 CHAIRMAN: What about verbal abuse? On how many occasions  
12 have you been verbally abused by passengers?

13 MS YIP WAI LAM: Before the establishment of the  
14 Monthly-rated Drivers Union, it happened often. After  
15 the establishment of the union there was not a single  
16 occasion.

17 CHAIRMAN: And how often had it occurred before?

18 MS YIP WAI LAM: All the time. Every day. As long as there  
19 is some traffic congestion, or because there were not  
20 enough bus drivers, bus captains on duty, so there were  
21 fewer trips, maybe instead of 20 minutes it became 30  
22 minutes frequency, and then passengers became really  
23 impatient and angry. And very often they would vent  
24 their frustration on us.

25 CHAIRMAN: Did you report these occasions of verbal abuse to  
26

1 KMB?

2 MS YIP WAI LAM: It has actually really become part of our  
3 work, so very rarely would we report that to our  
4 supervisors. You know, other colleagues just take it as  
5 it is.

6 CHAIRMAN: Could you try a direct answer. Did you report it  
7 or not?

8 MS YIP WAI LAM: No.

9 CHAIRMAN: Thank you.

10 Yes, Ms Wong.

11 MS MAGGIE WONG: Can you tell us on which location this  
12 assault took place?

13 MS YIP WAI LAM: The Cheung Sha Wan playground stop.

14 MS MAGGIE WONG: This assault was in the bus or around the  
15 bus station?

16 MS YIP WAI LAM: I was driving at the time. So I was in my  
17 driver seat, and I was assaulted.

18 MS MAGGIE WONG: So the bus was in progress at that time?

19 MS YIP WAI LAM: No, it was stopped. It stopped for alight  
20 at the time.

21 MS MAGGIE WONG: May I assist, if you would look at KMB-1  
22 bundle. It should be case 97.

23 CHAIRMAN: Do we have a page?

24 MS MAGGIE WONG: Page 214.

25 Case 97, it is stated Ms Yip driving 238X, the  
26

1 incident on 29 September 2016, and you injured on your  
2 right arm. Is that the incident?

3 MS YIP WAI LAM: Yes, yes, correct.

4 MS MAGGIE WONG: Thank you.

5 The next topic I wish to ask is driving while sick.

6 And you mentioned in your submission, your union  
7 submission, that a lot of drivers -- I should state  
8 correctly by citing what you have said.

9 You said that because of the number of hours  
10 working, the accumulative effect begins to take its toll  
11 on their body, but they are reluctant to take sick leave  
12 with the appraisal bonus in mind.

13 I just want to ask you this. We know that the  
14 Kowloon Motor Bus has included or merged the good  
15 service bonus and the safety bonus into the monthly  
16 salary. About this appraisal bonus point, I just want  
17 to explore.

18 Would this be a point that is not that relevant,  
19 because the safety bonus and the good service bonus have  
20 already been included in the salary, or merged into the  
21 salary? Is it still a valid point?

22 MS YIP WAI LAM: Well, those are two separate parts. You  
23 mentioned the safety bonus and the other -- the service  
24 bonus being included in the base salary right? But this  
25 assessment bonus is a different one. It is not the same

26

1 thing.

2 And in any case KMB has now resolved the matter.  
3 Soon this assessment will be abolished and then you  
4 won't lose these bonuses because you don't come into  
5 work.

6 And that money has been paid to us. So actually it  
7 is more than what they paid before, so this has been  
8 dealt with.

9 MS MAGGIE WONG: And Ms Yip, you earlier mentioned about  
10 a very experienced colleague in the engineering  
11 department has raised difficulties he faced in daily  
12 work.

13 Are they related to safety issues?

14 MS YIP WAI LAM: Yes. Directly related. Definitely.

15 MS MAGGIE WONG: Can I invite your colleague to express his  
16 views on how it related to safety aspect?

17 CHAIRMAN: First of all, do they find a place in your  
18 written submissions?

19 MS YIP WAI LAM: Are we talking about problems in the  
20 engineering department?

21 MS MAGGIE WONG: The point is your very experienced  
22 colleague in the engineering department, the problems or  
23 difficulties he faced. Are they reflected in your  
24 submissions, or have they been written in your  
25 submission? Have they been included in your submission?

26

1 MS YIP WAI LAM: (Answer not translated).

2 MS MAGGIE WONG: Is that paragraph 2, about not using the  
3 original components of the original bus franchise -- of  
4 the original bus? Is that the point?

5 MR CHAN CHI FAI: Correct.

6 MS MAGGIE WONG: Thank you. Please explain the problem.

7 CHAIRMAN: Is it not explained in writing?

8 MS MAGGIE WONG: Yes. Apart from what is written there, is  
9 there anything you wish to add?

10 MR CHAN CHI FAI: The shortage of components is a major  
11 problem. Well, we used not to have a shortage of  
12 components, but we don't know what happened to the  
13 procurement department. Right now we are running short  
14 of many components and what is required is lacking.

15 Every year there was a period where the braking  
16 component was lacking. And then for each depot they  
17 have a working capital cash flow and then the depot  
18 would try to find a factory in the next industrial  
19 building to buy some components for us. Thank you.

20 CHAIRMAN: Are you describing a shortage of inventory? Is  
21 that the problem, that whereas in the past inventory was  
22 carried, but now it is not; is that it?

23 MR CHAN CHI FAI: In the past, we didn't have a shortage, we  
24 could make available components whenever needed. And  
25 usually we would check on the components, and we found

26

1           that if there is a problem, then we will issue an order,  
2           and then when the order gets to the store, the component  
3           will be given to us.

4           And for the past two years, we asked for a certain  
5           component which could not be provided to us by the  
6           stores.

7           And there was this incident involving the braking  
8           component that I mentioned.

9   CHAIRMAN: When you say "the stores", you mean the stores  
10           department of KMB?

11   MR CHAN CHI FAI: Correct. Yes, within the KMB.

12   CHAIRMAN: Do you know where the problem lies? Does it lie  
13           with KMB not carrying sufficient inventory now, or does  
14           it lie in supplier not being able to supply an order?

15   MR CHAN CHI FAI: We used to have a procurement department.  
16           And they press the button of a computer, and they saw  
17           that there was a lack of the component in the inventory,  
18           then they will order for them. I don't know what  
19           happened to them. And then the components got fewer and  
20           fewer, and we think that there is a problem. And when  
21           we raised the issue it is already too late. And the  
22           component that we are asking are lacking.

23   CHAIRMAN: Thank you.

24   MS MAGGIE WONG: Yes. Ms Yip, we have heard evidence  
25           previously that the Kowloon Motor Bus has, in one of the  
26

1 papers -- it was stated in one of the background brief  
2 papers, issued to the LegCo, in relation to  
3 the February 2018 incident, providing background  
4 information on safety of franchised bus operation for  
5 the panel meeting on 25 July 2018, and if we go to  
6 paragraph 15, it stated there that --

7 CHAIRMAN: Is this in our bundles or not?

8 MS MAGGIE WONG: No, that's the bundle referred to by the  
9 previous --

10 CHAIRMAN: Can we have it added to the bundles?

11 MS MAGGIE WONG: Yes. I think it is now put up on the  
12 screen.

13 The English reads this:

14 "The KMB advised that if bus captains, regardless of  
15 full-time or part-time, had not driven a route for  
16 a month or more, they would have to practise driving on  
17 that route again."

18 Ms Yip, and the gentlemen present perhaps, can you  
19 advise us whether this has happened, where, if a bus  
20 captain had not driven a route for a month or more, they  
21 would have to practise driving on that route again?

22 MS YIP WAI LAM: To be frank, if for two years we have not  
23 driven a route, a particular route, then we will have to  
24 undergo training by the instructor again. So my  
25 understanding, two years, but if you talk about one  
26

1 month, retraining after one month, I have never heard of  
2 that.

3 MR CHENG HOI YIU: Let me supplement.

4 Now, if you have been driving a certain route within  
5 two years, then you can still drive that route, but for  
6 two years, if you don't -- haven't driven that route,  
7 then your record on the computer has -- will be deleted.

8 I have driven 496, and given another route, 47X.  
9 Now, after I have driven -- I have not driven 47X for  
10 one year, maybe all of a sudden you will be asked to  
11 drive that route again, and maybe there will be changes  
12 in the alignment of the route and the bus stop. You  
13 would still be asked to drive that route. So there is  
14 a hazard there. Because we never know what changes have  
15 happened to the route.

16 CHAIRMAN: Are you saying that the computer deletes your  
17 qualification, if you like, to drive a route, if you  
18 have not driven it for two years?

19 MR CHENG HOI YIU: Correct.

20 MS MAGGIE WONG: Ms Yip, you talked about "previously".

21 I think it has not been translated on the screen. You  
22 said this two years, if you have not driven the route  
23 for two years you would be asked to retrain again, but  
24 previously there was not such a requirement. What do  
25 you mean by "previously"?  
26

1 MS YIP WAI LAM: Well, I have never heard that you will have  
2 to be retrained after one month.

3 MS MAGGIE WONG: Since when was this requirement in place?  
4 That required bus captains --

5 MS YIP WAI LAM: That's been the requirement all along.  
6 From the day I joined the company, I learned that, say,  
7 if you have not driven a route for two years, after  
8 being trained on that route, that, your eligibility to  
9 drive that route will be got rid of.

10 MS MAGGIE WONG: Ms Yip, do you drive special shift? Or  
11 normal shift?

12 MS YIP WAI LAM: I am on normal shift.

13 MS MAGGIE WONG: Is anyone present here driving on a special  
14 shift?

15 MR YAN KIN MING: Yes.

16 MS MAGGIE WONG: Thank you, Mr Yan.

17 May I ask your experience in driving special shift  
18 in terms of we have heard evidence that some of the bus  
19 captains who are driving special shifts for Kowloon  
20 Motor Bus were not given three hours consecutive --  
21 three consecutive hours of resting. Is this an  
22 experience that you have as well?

23 MR YAN KIN MING: Yes.

24 MS MAGGIE WONG: May I know which route you are driving?

25 MR YAN KIN MING: I drive around 10 routes. And we will,  
26

1 say, follow the orders, and usually on a day we will  
2 drive three routes.

3 MS MAGGIE WONG: For how long did you take up this special  
4 shift, in KMB?

5 MR YAN KIN MING: Around three years.

6 MS MAGGIE WONG: Can you tell us, did you take the morning  
7 shift or the night shift?

8 MR YAN KIN MING: There is only one shift in special shift,  
9 just the morning shift.

10 MS MAGGIE WONG: Can you tell us since when, perhaps since  
11 when did you start work? For a particular day?

12 MR YAN KIN MING: Around 6 to 7. Am.

13 MS MAGGIE WONG: So 6 am to 7 pm?

14 MR YAN KIN MING: (Answer not interpreted).

15 CHAIRMAN: When did you last drive a special shift?  
16 Yesterday?

17 MR YAN KIN MING: Correct.

18 CHAIRMAN: Where do you live?

19 MR YAN KIN MING: Mong Kok.

20 CHAIRMAN: What time did you get up?

21 MR YAN KIN MING: (In English) 5 o'clock.

22 CHAIRMAN: Where did you go then?

23 MR YAN KIN MING: After I get up, and I will do something,  
24 and then I will go to work.

25 CHAIRMAN: What time did you leave home? The actual fact,  
26

1           yesterday. What time did you leave home?

2       MR YAN KIN MING: 6 am.

3       CHAIRMAN: And where did you go?

4       MR YAN KIN MING: The bus depot.

5       CHAIRMAN: Which is where?

6       MR YAN KIN MING: On Tsing Yi Island, the bus depot there.

7       CHAIRMAN: How did you get there?

8       MR YAN KIN MING: I will take the company bus, the first  
9           departure, and then I get to somewhere in Tsing Yi, and  
10          then change for what we call a works bus or vehicle  
11          which will take us to the bus depot.

12      CHAIRMAN: Which bus depot did you arrive at yesterday?

13      MR YAN KIN MING: Also Tsing Yi.

14      CHAIRMAN: What time did you clock on for work?

15      MR YAN KIN MING: 7.00.

16      CHAIRMAN: And after you clocked on, what did you do?

17      MR YAN KIN MING: Then I will find the bus that I have to  
18          drive on that day.

19      CHAIRMAN: Presumably you have to check the bus?

20      MR YAN KIN MING: (In English) Yes, sir.

21      CHAIRMAN: And then did you drive the bus somewhere?

22      MR YAN KIN MING: And then I drove the bus to the Cheung  
23          Hong bus terminus.

24      CHAIRMAN: What time did you leave Tsing Yi on that journey?

25      MR YAN KIN MING: 7.20.

26

1 CHAIRMAN: What time did you arrive at your destination?

2 MR YAN KIN MING: 7.30.

3 CHAIRMAN: What time did you begin driving the route?

4 MR YAN KIN MING: 7.45.

5 CHAIRMAN: What route were you driving?

6 MR YAN KIN MING: X42C.

7 CHAIRMAN: Where does that route take you?

8 MR YAN KIN MING: To Yau Tong bus terminus.

9 CHAIRMAN: Did you drive to and from Yau Tong in the  
10 morning?

11 MR YAN KIN MING: No.

12 CHAIRMAN: Tell us what you did do.

13 MR YAN KIN MING: I got to the Yau Tong bus terminus, and  
14 then I will use my private -- use the private plate.  
15 That means a bus without passengers, and then I went to  
16 Tsuen Wan, Discovery Park estate, and then I took a 40M.  
17 The bus, I drove that route.

18 CHAIRMAN: So you went from Yau Tong to Tsuen Wan, and then  
19 you drove a route; is that it?

20 MR YAN KIN MING: Yes.

21 CHAIRMAN: What was that route?

22 MR YAN KIN MING: 42M.

23 CHAIRMAN: Where did you go?

24 MR YAN KIN MING: To Cheung Wang bus terminus.

25 CHAIRMAN: And then?

26

1 MR YAN KIN MING: I did two rounds on this route, so back  
2 and forth twice.

3 CHAIRMAN: Between Tsuen Wan and Cheung Wang bus terminus?

4 MR YAN KIN MING: Yes.

5 CHAIRMAN: And then did you have a break?

6 MR YAN KIN MING: Yes.

7 CHAIRMAN: What time was the break?

8 MR YAN KIN MING: Should be 12.30 or so.

9 CHAIRMAN: And how long was the break?

10 MR YAN KIN MING: To 3.20 pm.

11 CHAIRMAN: And where did the break begin?

12 MR YAN KIN MING: Well, it doesn't matter where I took the  
13 break, but rather I would be given a designated parking  
14 space, I left my bus there and then the break started  
15 counting.

16 CHAIRMAN: Where did you leave the bus?

17 MR YAN KIN MING: Tsing Yi airport station.

18 CHAIRMAN: What did you do in that break time? Two hours 50  
19 minutes?

20 MR YAN KIN MING: Lunch and an afternoon nap.

21 CHAIRMAN: Where did you take the nap?

22 MR YAN KIN MING: At the Tsuen Wan bus terminus there is  
23 room for us to take a rest.

24 CHAIRMAN: What facilities are there for you to take a nap?

25 MR YAN KIN MING: There are four sofas, and so I could take  
26

1 a short nap.

2 CHAIRMAN: You had a sofa?

3 MR YAN KIN MING: Yes. Sofa.

4 CHAIRMAN: How many other bus captains were sharing the  
5 facilities at the time?

6 MR YAN KIN MING: Two.

7 CHAIRMAN: Once you resumed driving at 15.20, or 3.20, where  
8 did you travel to and from?

9 MR YAN KIN MING: It was at 3.35 that I started driving,  
10 because at 3.30 I had to get the bus and went to the bus  
11 terminus. So at 3.35 I started driving, route 41A from  
12 Cheung On bus terminus to Tsim Sha Tsui East.

13 CHAIRMAN: And then?

14 MR YAN KIN MING: Then I went back to Cheung On bus  
15 terminus.

16 CHAIRMAN: Yes.

17 MR YAN KIN MING: And then I did the same trip again. One  
18 round.

19 CHAIRMAN: Does that bring you to the end of your driving or  
20 not?

21 MR YAN KIN MING: Yes.

22 CHAIRMAN: What time is that?

23 MR YAN KIN MING: 8.50 pm.

24 CHAIRMAN: Where were you when your driving duties came to  
25 an end?

26

1 MR YAN KIN MING: When I finished my duty, I had to take the  
2 car back to the bus depot to fill up the gas tank and  
3 then I left the car there and finished the day's work.

4 CHAIRMAN: When you say "car", I take it you mean the bus?

5 MR YAN KIN MING: Yes, the bus.

6 CHAIRMAN: What time had you finished doing all of that,  
7 refueling the bus?

8 MR YAN KIN MING: 9 pm.

9 CHAIRMAN: What did you do after that?

10 MR YAN KIN MING: After that I took the works vehicle to go  
11 to the urban area and then I took another bus to go  
12 home.

13 CHAIRMAN: What time did you get home?

14 MR YAN KIN MING: 9.40 or so.

15 CHAIRMAN: So your day had begun at 6 am, when you left  
16 home, and it was complete at 9.40 pm; is that it?

17 MR YAN KIN MING: Yes.

18 CHAIRMAN: That was yesterday?

19 MR YAN KIN MING: Yes.

20 CHAIRMAN: Today is your day off, is it?

21 MR YAN KIN MING: Yes.

22 CHAIRMAN: Thank you.

23 MS MAGGIE WONG: Thank you.

24 Mr Yan, you said you were on split shift duty for  
25 three years, correct? Or special shift yes.

26

1 MR YAN KIN MING: Yes.

2 MS MAGGIE WONG: Have you been driving those three routes  
3 for those three years, or there are different routes?

4 MR YAN KIN MING: Yes, there are other routes as well.

5 MS MAGGIE WONG: Is it a frequent occurrence that you have  
6 to drive three difference routes on the same day?

7 MR YAN KIN MING: Yes.

8 MS MAGGIE WONG: How long have you been working for Kowloon  
9 Motor Bus?

10 MR YAN KIN MING: I have been working for about 3.5 years at  
11 KMB.

12 MS MAGGIE WONG: Throughout this period you have been  
13 driving special shift?

14 MR YAN KIN MING: Yes.

15 MS MAGGIE WONG: Have you been involved in accidents, road  
16 accidents?

17 MR YAN KIN MING: So far, no.

18 CHAIRMAN: Well done.

19 MR YAN KIN MING: (In English) Thank you.

20 MS MAGGIE WONG: Have you come across any assault incidents  
21 or verbal abuse?

22 MR YAN KIN MING: Every day there is verbal abuse.

23 MS MAGGIE WONG: Assault incidents?

24 MR YAN KIN MING: No. No assault.

25 CHAIRMAN: Have you ever reported verbal abuse to the  
26

1 company?

2 MR YAN KIN MING: No.

3 CHAIRMAN: Why not?

4 MR YAN KIN MING: Because the company knows, all along.

5 CHAIRMAN: Have steps been taken to help you deal with  
6 verbal abuse, as bus captains?

7 MR YAN KIN MING: You mean the company, helping?

8 CHAIRMAN: Yes.

9 MR YAN KIN MING: No. No.

10 CHAIRMAN: But on the buses you drive, are there now cameras  
11 that focus on the bus captain's seat area.

12 MR YAN KIN MING: Yes. Sometimes, yes, there is the camera,  
13 sometimes not, because every day I drive a different bus  
14 and a different route. So for the older models there  
15 are no cameras. For the new models there are cameras.

16 CHAIRMAN: These ones with cameras, do they not have an  
17 audio track as well, not just video?

18 MR YAN KIN MING: As far as I know, yes, some have audio  
19 recording, because I see some camera has a microphone.

20 MS YIP WAI LAM: If I may add, the judge asked what could be  
21 done to help us.

22 Well, actually we mentioned in our submission, we  
23 asked that bus captains be allowed to install cameras  
24 themselves. Why? Because some buses have cameras, but  
25 some don't. And if something happens, or if the police

26

1       try to obtain the video recording from the company,  
2       company will say, "No, we don't have it". We don't know  
3       why. But we want to protect our own personal safety,  
4       and actually, if a camera is installed, it sort of  
5       alerts passengers that they can be seen, and usually  
6       they are really smart, when there is a camera they will  
7       be a lot more restrained.

8               So we are not even asking the company to install the  
9       cameras, we are just asking the company to allow bus  
10      captains to install the cameras, so before the company  
11      installs cameras on all buses, we hope they will allow  
12      us to install cameras ourselves. And it is important  
13      that --

14   CHAIRMAN: Just a moment, Ms Yip. You are racing ahead.

15               Slow down. Like your buses.

16   MS YIP WAI LAM: Yes. Got it.

17   CHAIRMAN: What was the response to the company, to your  
18      request that you be allowed to install your own cameras?

19   MS YIP WAI LAM: If bus captains are found to have installed  
20      cameras we would be disciplined.

21   CHAIRMAN: Have you ever made this request in writing, to  
22      the company?

23   MS YIP WAI LAM: No.

24   CHAIRMAN: Why not?

25   MS YIP WAI LAM: Do you think that if we tell them -- we  
26

1 think if we tell them and it is going to lead to  
2 nowhere, then we won't do it. You know, there is no  
3 trust.

4 They won't even let us install the cameras. They  
5 would actually discipline us for installing cameras, so  
6 you would think they won't install the cameras.

7 CHAIRMAN: Well --

8 MS YIP WAI LAM: Now, if you are the senior manager of  
9 course we would be happy. If you were the senior  
10 management, we would be happy because we can reason with  
11 you.

12 CHAIRMAN: Do you know, and if you don't know say so, do you  
13 know why bus captains are disciplined if they install  
14 their own cameras? Has the company ever explained?

15 MS YIP WAI LAM: It is about privacy, they said. It is  
16 about privacy.

17 CHAIRMAN: Is this something they articulated in writing?

18 MR CHENG HOI YIU: I think at the induction training the  
19 instructors would briefly mention that they would ask us  
20 not to install the cameras, and there is a circular too,  
21 through various channels they would ask all frontline  
22 bus captains not to install captains because of privacy  
23 issues.

24 MS YIP WAI LAM: Also, they said, this is illegal  
25 retrofitting, that is if we install camera it would be  
26

1           regarded as illegal retrofitting.

2       MR CHAN WING HO: Because this is not a part in the schedule  
3           of the parts, and so if it is found it is there, then it  
4           is considered illegal.

5       MS MAGGIE WONG: When was this circular issued?

6       CHAIRMAN: Let's not get ahead of ourselves.

7           You said that they issued a circular, Mr Cheng. Can  
8           we have a copy of the circular?

9       MS YIP WAI LAM: Well, usually after we read the circular we  
10          won't keep it.

11      MR CHAN WING HO: And it is not -- it's an internal  
12          document; we can't make it public.

13      CHAIRMAN: We are going to have KMB giving evidence in due  
14          course. We will ask them the same questions. So why  
15          can't you provide a document to us that explains what  
16          this position is?

17      MS YIP WAI LAM: (Answer not interpreted).

18      CHAIRMAN: There may be a very good reason why they don't  
19          allow you to do this, and we are just trying to find out  
20          the facts.

21      MS YIP WAI LAM: Say, for example, for the travelling time  
22          the company considers that confidential information  
23          too --

24      CHAIRMAN: Very well, we don't need to trouble you. We will  
25          ask KMB.

26

1 Yes, Ms Wong.

2 MS MAGGIE WONG: Can you tell us approximately when this  
3 circular was issued?

4 MS YIP WAI LAM: A year ago.

5 MS MAGGIE WONG: And you earlier said that if you install  
6 these cameras, you would be disciplined. Who said that?  
7 Can you tell us, identify the person who said, "If you  
8 install this we will discipline you"?

9 MS YIP WAI LAM: Usually, if a bus captain breached  
10 a certain code, you will be given a piece of paper, a  
11 memo, telling you why you are really summonsed to meet  
12 with the senior management. So previously, the members  
13 have sent us such memo so we know that this is the case.

14 MS MAGGIE WONG: Would you be kind enough to provide us with  
15 those documents? I assume they are not KMB documents.  
16 It is a request from your members to the company.

17 MS YIP WAI LAM: It is a company -- it is a document issued  
18 by the company.

19 MS MAGGIE WONG: It is the KMB issuing the notice to  
20 members -- to bus captains.

21 And did they spell out in the letter that "If you  
22 install cameras, we will discipline you"? Did they  
23 spell in those terms, very specific about those terms?

24 MS YIP WAI LAM: It is stated in the circular.

25 MS MAGGIE WONG: Can I take it that your union would support  
26

1 the use of surveillance cameras to be installed for the  
2 purpose of recording verbally or orally and visually  
3 events happened in the bus?

4 MS YIP WAI LAM: Yes, support.

5 The last topic, Ms Yip, is we have heard evidence,  
6 or the Transport Department provided us with a briefing  
7 paper, and informed us as a result of a working group  
8 study carried out in mid-March 2018 consisting of five  
9 franchised buses, and three bus manufacturers, the  
10 working group made a recommendation report which set out  
11 three areas of concern: the first is the seat belt;  
12 second is the technological device; and the third,  
13 training of bus captain.

14 And the Transport Department informed us that  
15 recently they have issued a practice note in relation to  
16 the training of bus captains.

17 MS MAGGIE WONG: So my question is: has Kowloon Motor Bus  
18 consulted your union's views in relation to the practice  
19 note?

20 MS YIP WAI LAM: No.

21 MS MAGGIE WONG: Have you been given a copy of the practice  
22 note issued by the Transport Department?

23 MS YIP WAI LAM: We have never received it.

24 MS MAGGIE WONG: May I ask your view on some of the  
25 technological devices, your union's view on some of the  
26

1 technological devices.

2 The first, it is at TD-1, page 403. If we look at  
3 4(a), it is the electronic stability control system.

4 Would your union support the use of this system?

5 MS YIP WAI LAM: On the safety devices, (a), (b), and 5 and  
6 6, and also the other systems on the third page, after  
7 our deliberations, we think these are very good devices.

8 MS MAGGIE WONG: Thank you.

9 What about seat belts to be installed on all seats  
10 in buses?

11 MS YIP WAI LAM: Well, it is of course a good thing to have  
12 seat belts, but there is a problem arising from this.

13 If the seat belts are damaged, should buses continue  
14 to operate, or do the bus captains have the  
15 responsibility to ensure that passengers have their seat  
16 belts on? And some elderly persons might need  
17 assistance in wearing their seat belt. So these are the  
18 problems that we envisage and we are worried about that.  
19 But, of course, having an extra safety device is always  
20 good. And there are so many passengers patronising bus  
21 services, we have to make sure the seat belt is not  
22 damaged and once it is damaged then passengers' safety  
23 will be jeopardised.

24 I think the overall direction is good. But in terms  
25 of actual implementation we see some difficulties.

26

1 MS MAGGIE WONG: Have you had a chance to read the section  
2 on training of bus captains, from paragraphs 18 to 22?

3 MS YIP WAI LAM: Yes, we have briefly read through it.

4 The training mentioned here -- I mean, not many  
5 details are given, but of course the more training the  
6 better. But we don't see what bus captains should pay  
7 attention in our daily work, that nothing is mentioned  
8 in that regard is regrettable.

9 MS MAGGIE WONG: I have completed my questioning,  
10 Mr Chairman. Thank you.

11 CHAIRMAN: Mr Auyeung.

12 MEMBER AUYEUNG: I want to follow up on the comment that  
13 Ms Yip and Mr Yan made earlier about the abuse that you  
14 are experiencing on a daily basis, and yet both of you  
15 mentioned that there was no point to report to your  
16 management.

17 Can I hear a bit more about the logic behind that?  
18 You refuse to report it because you don't think  
19 management is going to do anything, or whatever they do  
20 is not going to help? I just want to understand  
21 a little bit more. Thank you.

22 MR CHENG HOI YIU: Well, honestly, we face verbal abuse  
23 every day. It is something so common.

24 Why does this happen? You know, Hong Kong people  
25 are under a lot of pressure, and people are fast-paced,

26

1           and in view of the manpower shortage in the sector,  
2           because of road congestion, which is very common, and  
3           passengers may have to wait longer than they expect. So  
4           they will vent their anger on the frontline staff.

5           The management in all companies in the sector is  
6           well aware of the situation.

7           Well, for every route, for every bus captain, that  
8           happens. And the management will not do too much,  
9           because they can't solve the problem.

10       MR CHAN HON WA: Let me cite an example. Earlier some  
11       members have been physically -- I mean verbally abused  
12       by the passengers, and they have reflected the problem  
13       to the management. And the bus stops in the middle of  
14       the road, the passenger hurling the verbal abuse was  
15       waiting on the bus, waiting for the police's handling,  
16       and the company's handling, and the company tried to  
17       water down the matter, and asked the bus captain to  
18       continue with the trip.

19       CHAIRMAN: Just a moment.

20       MEMBER AUYEUNG: Please.

21       MS YIP WAI LAM: Every day we encounter this, and there is  
22       this performance management group in the company, maybe  
23       there are complaints by the passengers, and we tell the  
24       management our side of story, but the company always  
25       says, well, just be more careful, and they are not of

26

1 much actual help.

2 I was assaulted, and I was injured, and nobody would  
3 be able to help us. And we treat all this as part of  
4 our job.

5 MEMBER AUYEUNG: Thank you.

6 CHAIRMAN: The police helped you, did they not? Because  
7 someone was arrested, someone was charged, someone was  
8 prosecuted.

9 The Department of Justice Helped you, because  
10 someone turned up to prosecute the case?

11 MS YIP WAI LAM: That's correct.

12 But for the legal section of the company, if they  
13 can render some help, that would be better.

14 Well, the police then were very angry too. Because  
15 going by the doctor's report, and other documents, the  
16 case seems to be established. But whenever a case gets  
17 to the court, the witnesses are not willing to come  
18 forth. So a camera will help very much.

19 So that's why we have been advocating for a camera  
20 on board all the time. That can also protect the  
21 passengers as well. If, say, we do anything bad then  
22 the passengers can also monitor us as well.

23 CHAIRMAN: Yes, thank you.

24 MEMBER LO: I just have a follow-up question.

25 In your 18-day training session, have they trained  
26

1           you about how to handle verbal abuse? Would they advise  
2           you to say nothing? Would they advise you to report?  
3           What is the procedure to handle verbal abuse during the  
4           training section?

5       MS YIP WAI LAM: They always say that you should use some  
6           skills, deploy some skills in your language to deal with  
7           the matter.

8           Now, at a time when you don't even have time to go  
9           to the toilet, and then when you get on board the bus  
10          people hurl verbal abuse against you, and they will even  
11          make comment about "Have all the bus captains died? We  
12          were made to wait so long", and so on.

13          So if we were able to have a longer rest time we  
14          would be better able to deal with own emotions.

15          The problems arise from many factors. If we do have  
16          a sufficient rest break we would have a higher EQ, we  
17          would deal with such situations better. We hope that  
18          improvement can be made gradually so that the  
19          relationship between the two parties can be improved.

20          The company has done that, but in actual fact,  
21          I mean, it is not very effective.

22       CHAIRMAN: How are bus drivers particularly selected for  
23           this kind of abuse, or do you see tram drivers, and the  
24           Star Ferry coxswains being abused in the same way? Or  
25           is it bus drivers that are particularly selected?  
26

1 MS YIP WAI LAM: For tram drivers, well, usually there is  
2 not much congestion on the road for them.

3 And for members of the public, when they have  
4 conflicts with us, they get agitated, because the  
5 schedule is not adhered to.

6 So that's a problem besetting the KMB for a long  
7 time, and I don't know why there has not been a solution  
8 so far.

9 We set up this union, we want to safeguard  
10 passengers' safety, but we are seeing so many  
11 confrontations of conflicts with the passengers, and  
12 after discussing with the passengers we know that the  
13 main cause of the problem is lost trips.

14 Well, you can imagine if a passenger waits for half  
15 an hour before he can get on the bus, and he would say  
16 something like, "Have all the bus captains died or  
17 what?" And then maybe the bus captain is stuck in a  
18 traffic jam for an hour and he gets only a few minutes  
19 break, and he has to get back to work after going to the  
20 toilet, and the bus captains will not be in a good mood  
21 either. So we can't blame, put all the blame on the  
22 passengers.

23 As what the Chairman said, why are bus captains  
24 seeing the worst problem? Because for MTR driver there  
25 will not be any lost trips, it happens only two to three  
26

1 times every year.

2 I can give you some preliminary figures, for every  
3 day, in every depot, some several dozen buses are not  
4 being in operation.

5 So the turnover, the wastage of staff is so very  
6 serious, and we are seeing more serious conflicts  
7 between the passengers and bus captains.

8 It has a lot to do with the bus trips, some  
9 passengers are nice, and we are under pressure.

10 Thank you.

11 CHAIRMAN: Thank you. That gives us a flavour of what we  
12 had in mind.

13 We do have one more union to hear evidence from, so  
14 we will thank you for attending. Thank you for your  
15 evidence, and for assisting us. If you would provide  
16 whatever documentation it is that you have undertaken to  
17 give us, we would be grateful.

18 We will take a two-minute adjournment now and see if  
19 we can't resume with the final union, the Part-time  
20 Drivers Union shortly. Thank you.

21 (5.02 pm)

22 (A short break)

23 (5.11 pm)

24

25

26

1 REPRESENTATIVES OF PART-TIME DRIVERS UNION: MR KENNETH MA,  
2 MR LEO CHA, MR GARY CHENG, MR KENNETH CHEUNG, MR JASON NG,  
3 AND MR ALEX LEUNG.

4 (Evidence given in Cantonese and English,  
5 transcription of the simultaneous interpretation and/or  
6 English)

7 CHAIRMAN: Mr Cheng, and representatives of the Part-time  
8 Drivers, we thank you for accepting the Committee's  
9 invitation to give evidence to the Committee to assist  
10 us with gathering information about how buses are  
11 operated so that we are better able to make  
12 recommendations to ensure safety in the future.

13 Ms Wong will ask you questions in a moment, designed  
14 to draw out from the written submissions that you have  
15 made points that need amplification.

16 If you, Mr Cheng, wish one of the other members to  
17 answer a particular question, please defer to that  
18 member, and we will happily hear from that other person.

19 Ms Wong.

20 MR ALEX LEUNG: (In English) Thank you, before the  
21 questioning starts, can we have two minutes to express  
22 a certain view for the part-time bus drivers.

23 CHAIRMAN: Certainly if you wish to make an opening  
24 statement, do so.

25 MR ALEX LEUNG: (In English) We do indeed.

26

1 CHAIRMAN: Bear in mind it is being translated. So if you  
2 speak at a speed that allows the simultaneous translator  
3 a reasonable chance.

4 OPENING STATEMENT BY MR ALEX LEUNG

5 MR ALEX LEUNG: (In English) I'll try to keep it slow.

6 Thank you for everybody's time today. After the --  
7 well, first of all, the Part-time Bus union as we sit  
8 here, we are not a registered union under the union  
9 Ordinance. We are a group of part-time bus drivers who  
10 got together after the tragic incident on 10 February.

11 Shortly after that, KMB have stopped duty allocation  
12 to us, and we were very upset about this. Because the  
13 immediate reaction after the accident was the driver was  
14 a part-time bus driver, and as a result, we as a group  
15 of part-time bus drivers were under immense unjust,  
16 unfounded and untrue attacks from other trade unions,  
17 other members of the public, which has led to  
18 a suspension of duty allocation to us.

19 And that's why we have got together as a group.

20 We think the part-time bus drivers are as  
21 professional and as competent as many full-time bus  
22 drivers, if not more.

23 I personally have experience of 15 years as  
24 a part-time bus driver. I think we all here are very  
25 experienced and professional. We drive with pride, we  
26

1           serve customers also with pride, and so we are quite  
2           upset, even until now still some sort of prejudice  
3           exists against us.

4           When you look at the report by KMB about the  
5           accident to the Transport Department --

6   CHAIRMAN: You are talking about the one that is on our  
7           website?

8   MR ALEX LEUNG: (In English) Yes, which I think was issued  
9           one month after the accident. When the Transport  
10          Department asked Kowloon Motor Bus if they have  
11          identified any kind of deficiency in the recruitment of  
12          drivers, the response of KMB is, "We have stopped  
13          recruitment of part-time bus drivers immediately".

14          This is in fact implying that part-time bus captains  
15          are inferior, and unprofessional. We are strongly  
16          denying that, and we were very, very upset by this kind  
17          of reference.

18          So that concludes our opening remark. And I will  
19          pass the floor to Ms Wong.

20   CHAIRMAN: Thank you.

21          Before we proceed, it would help us if you could  
22          identify which of the various bus companies you work  
23          for? Can I invite you to just tell us? Who is KMB?

24          (Indicating).

25          That's four of you are KMB.

26

1 MR LEO CHA: (In English) I am Long Win Bus.

2 MR KENNETH MA: I was fired by KMB because of this accident.

3 CHAIRMAN: So you are no longer employed.

4 MR KENNETH MA: (In English) Yeah.

5 CHAIRMAN: Because of this accident?

6 MR KENNETH MA: (In English) Yes, because KMB raised some  
7 criteria, for part-time bus driver. I don't accept  
8 their criteria, KMB raised -- issued, sent a letter to  
9 me. I replied them through e-mail. One copy I cc this  
10 IRC Committee.

11 And after that, I heard from my friend who worked in  
12 KMB, I was know that I was fired by KMB because I have  
13 not replied them.

14 But actually I have replied them through e-mail.

15 CHAIRMAN: Right.

16 MR KENNETH MA: And I now work for New World First Bus as a  
17 part-time bus driver.

18 CHAIRMAN: So the upshot, Long Win, one of you, you, New  
19 World First Bus, you, the other four KMB.

20 Thank you, Ms Wong.

21 EXAMINATION BY MS WONG

22 MS MAGGIE WONG: Thank you, Mr Leung and gentlemen for  
23 coming.

24 As you know, the terms of reference for this  
25 Committee is focused on safety aspects or safety related  
26

1 measures for operation and management of franchised  
2 buses. So my question will be focused on those areas.  
3 I hope you can understand.

4 About your union, I believe it is a Facebook group  
5 which comprised of over 600 members. Is that correct?

6 MR LEO CHA: (In English) Yes, correct.

7 MS MAGGIE WONG: And I believe Mr Cheng was authorised by  
8 100 part-time bus drivers as representative in this  
9 union to express views on behalf of them?

10 MR JASON NG: (In English) That is correct as well.

11 MS MAGGIE WONG: Do you know which company, or which  
12 franchised buses these 100 part-time bus drivers work  
13 for?

14 MR JASON NG: (In English) All these drivers are under KMB  
15 but it is affected by the suspension of duty deployment.

16 MS MAGGIE WONG: And may I know how long you have worked as  
17 part-time bus captains for KMB?

18 MR JASON NG: To whom?

19 MS MAGGIE WONG: For all of you.

20 MR ALEX LEUNG: (In English) For KMB, I joined in 2014.

21 CHAIRMAN: But you have 15 years as a part-time bus captain?

22 MR ALEX LEUNG: (In English) I previously worked also for  
23 other bus companies.

24 CHAIRMAN: In Hong Kong?

25 MR ALEX LEUNG: (In English) In Hong Kong, that's right.

26

1 MR JASON NG: (In English) Me as well, I started with KMB  
2 in 2014 as a part time driver. I personally have driven  
3 buses over 10 years, that included driving overseas.

4 MS MAGGIE WONG: Mr Cheng?

5 MR GARY CHENG: (Interpreted) I worked in KMB for three  
6 years, and I worked in some other bus companies before  
7 that.

8 CHAIRMAN: Franchised bus companies in Hong Kong?

9 MR KENNETH CHEUNG: (Interpreted) Franchised and  
10 non-franchised.

11 CHAIRMAN: For how many years?

12 MR KENNETH CHEUNG: (Interpreted) I started driving buses in  
13 2011. I served as a full-timer for three years and  
14 after that I served as a part timer.

15 MR GARY CHENG: (Answer not interpreted).

16 CHAIRMAN: Is there a problem with the transcription?

17 INTERPRETER: Sorry, the interpreter forgot to switch the  
18 button over to English.

19 CHAIRMAN: Could I ask Mr Gary Cheng to repeat what he said.

20 MR GARY CHENG: (Interpreted) My first job was with the New  
21 Lantao Bus Company as a part-time bus captain and then  
22 thereafter I worked for KMB for four years as  
23 a full-timer, and then thereafter Citybus part-time bus  
24 captain, and then I returned to KMB and have worked as  
25 a part-time bus captain for one year, so I have in total  
26

1 14 years experience in driving buses.

2 MR LEO CHA: (In English) I've been working for KMB starting  
3 from 2016 at early 2016, and changed to Long Win Bus  
4 starting from this April.

5 MR KENNETH MA: (In English) I've worked for New World  
6 First Bus as part-time bus driver for about 5.5 years,  
7 and worked for KMB as part-time bus driver for about  
8 three years.

9 CHAIRMAN: Thank you.

10 MS MAGGIE WONG: Thank you.

11 Thank you for your submission, I believe you made  
12 one submission that is dated 22 April 2018, and that  
13 could be found in TU bundle 1C, at page 293 to 294,  
14 translation 294-1 and 294-2.

15 There are two matters I wish to raise arising from  
16 this submission.

17 The first, on page 294-1 at the bottom. You stated  
18 at the bottom that:

19 "Since formation, our union has been emphasising  
20 that part-time (or hourly-paid) and full-time bus  
21 captains should be given the same treatment."

22 The "same treatment", are you referring to the pay  
23 treatment or the training treatment? In what sense are  
24 you referring here?

25 MR JASON NG: (In English) I am a little -- can you repeat  
26

1           your question? I'm a little unsure what you are asking  
2           about.

3       MS MAGGIE WONG: Because at the bottom you mentioned that  
4           your union has been emphasising part-time and full-time  
5           bus captains should be given the same treatment. So  
6           "same treatment" of what?

7       CHAIRMAN: Perhaps you could read out more of what is  
8           asserted.

9       MS MAGGIE WONG: You further stated:

10                "Regardless of training, supplementary training,  
11           remedial training, appointment and requirements for  
12           dismissal, the same standards should be adopted by bus  
13           companies. During recruitment by franchised bus  
14           companies, examiners and driving training instructors  
15           perform their gate-keeping role by selecting suitable  
16           candidates stringently."

17                So by referring to "same treatment", are you  
18           referring to the fact that you should be given the same  
19           treatment in terms of training and appointment and  
20           dismissal requirements?

21       MR ALEX LEUNG: (In English) Ms Wong, I don't want to blame  
22           this as a loss in translation, but I think what we were  
23           trying to say is it is part-timers and full-timers are  
24           already under the same training treatment.

25                And we would recommend, if possible, for all new  
26

1 joiners to go through a psychiatric test, or psychology  
2 test to make sure they are able to handle the stress of  
3 driving and rogue passengers.

4 MR JASON NG: (In English) I would like to add on. Like  
5 what Alex is saying, is, what we are stating is that the  
6 company has been providing the same kind of training  
7 between the full-timers and the part-timers, from our  
8 standpoint we don't see any differences in there, in any  
9 kind of training.

10 Because from what we hear from the public there has  
11 been different opinions and voices and, you know,  
12 justice regarding the part-time drivers, which, like  
13 what we stated, we thought was unjust.

14 So what we are saying is any kind of training,  
15 safety measures, or whatever kind of suggestion, should  
16 have been -- sorry, should have been provided or  
17 requiring both full-timers and part-timers.

18 So what we are talking about here should not be  
19 focusing -- or there should not be any differentiation  
20 between full-timers and part-timers, so to speak.

21 CHAIRMAN: We have your point.

22 MS MAGGIE WONG: Yes, and about this same treatment for bus  
23 captains, I'm going to take you to a document from the  
24 KMB. It appears there is a difference in terms of  
25 training for full-time and part-time bus captain. In  
26

1 short, for full-time bus captain they have to undergo  
2 an 18-day training for 9.5 hours a day.

3 And we can see that in KMB-1 bundle at page 120.

4 MR ALEX LEUNG: (In English) Ms Wong, I believe those are  
5 for drivers who only have class 1 licence before  
6 joining, whereas in our cases, we already have class 10  
7 licence before joining KMB.

8 So inherently they are two different groups of  
9 people.

10 MS MAGGIE WONG: Yes.

11 That's what I'm trying to drive at. Because  
12 technically they do differentiate training between  
13 full-time and part-time bus captains.

14 I understand what you are trying to say, but they do  
15 have a difference in terms of training.

16 And may I just take you to that document, because  
17 I just want to see what you say, if certain suggestions  
18 are made.

19 Page 120. We can see, the three requirements for  
20 full-time bus captain candidate, and the second one also  
21 requires the full-time bus captain to pass a driving  
22 test which is a class 17. And class 17 is a public bus  
23 franchise driving licence.

24 So you have to go through the Transport Department  
25 to get that licence, quite apart from undergoing

26

1 an 18-day training and the driving test administered by  
2 instructors.

3 But for part-time bus captain, if you look at  
4 page 121, all that requires, it appears, is that  
5 a part-time bus captain with class 10 or class 17  
6 driving licence, and then you can undergo a 2.5-day  
7 training for 9 hours a day and pass the driving test.

8 So it appears the prerequisite is to have a class 10  
9 or class 17 driving licence.

10 But once you get that, all you need to do is to  
11 undergo a 2.5-day training for nine hours, and then  
12 a driving test.

13 MR JASON NG: (In English) Ma'am, if you look at it, it says  
14 "pass the driving test administered by instructors".

15 Now, the instructors, that is an internal exam  
16 carried by KMB. So, if you do not pass that, they will  
17 not hire us even though we have a class 17 or class 10  
18 licence.

19 Now, that is very much a -- in fact, it is a higher  
20 standard than hiring a full-time driver.

21 I was sitting here listening to Ms Yip when she was  
22 testifying. She said 18 days was not enough. But when  
23 we pass the driving test by KMB, we are actually taking  
24 the bus on the road. It is a road test, which is even  
25 more extensive than the drive test given by the TD.

26

1           So the prerequisites, you are right, it is  
2           different. In fact, our prerequisite is higher than the  
3           full-time drivers.

4           So you are correct, they are different. But we are  
5           higher.

6   MS MAGGIE WONG: I think your union is the one that  
7           suggested to have psychological assessment to be carried  
8           out by the government or third party as part of the  
9           assessment to be a bus driver, if I understand  
10          correctly. Is that your submission, or proposal?

11   MR ALEX LEUNG: (In English) Yes, that's right.

12   CHAIRMAN: Where do we find that? 294-1.

13   MS MAGGIE WONG: Line 4, from the bottom.

14           Why would you make that suggestion?

15   MR ALEX LEUNG: (In English) I think when we made that  
16           discussion, we were referring to obviously the tragic  
17           accident on 10 February. There were news reports which  
18           said the driver had some complications with the  
19           passengers waiting at the racecourse at the time which  
20           have sort of affected his emotion. And -- well, before  
21           the conviction, I could not speculate. But it was  
22           reported that as a result --

23   CHAIRMAN: I think you perhaps mean before the trial.

24   MR ALEX LEUNG: (In English) Well, yes, thank you.

25           So that's why we make that suggestion, that may be  
26

1           you never know, there is something in your brain that is  
2           just waiting to explode.

3       MR JASON NG:   (In English) May I add on again?   In fact,  
4           I did some study about bus accidents.

5           Now, if you recall in 1997 or 1998 there was a bus  
6           flipped over in Wan Chai, okay?   When you looked at that  
7           case, actually, the determine of the route cause was an  
8           emotional breakdown or some psychological problem of the  
9           bus drivers that was undetectable.

10       CHAIRMAN:   Was this a crash that occurred on an elevated --

11       MR JASON NG:   (In English) Correct, on the flyover, yes.

12       MR LEO CHA:   (In English) Fleming Road incident.   Tonnochy  
13           Road, I'm sorry.

14       MR JASON NG:   (In English) So anyway, that accident.

15           So we looked at some documents and reports, and  
16           that's what the route cause was for that particular  
17           accident, which, similarly, flipped the bus over.

18           So applying that case to here, that could be one of  
19           the cases or one of the reasons or that could -- having  
20           a psychological test or some kind of emotional training  
21           could help detect that.

22           So we don't know.   Like, what Your Majesty just said  
23           or Justice just said, the trial hasn't been carried on.  
24           We don't know what was the cause, but you were asking  
25           for our suggestion, and when we looked at the past data,

26

1           that's what we got.

2       MS MAGGIE WONG:   Yes.

3           And the second proposal, I believe is in your first  
4       paragraph. Your union also supported the use of or  
5       installation of video cameras by bus companies on all  
6       buses to protect safety of bus captain passengers, and  
7       other road users. And so you supported the idea of  
8       having surveillance cameras in the bus?

9       MR JASON NG:   (In English) Yeah, we do, 100 per cent yes.

10      MS MAGGIE WONG:   And may I ask another topic.

11           We have heard evidence from some of the franchised  
12      bus operators stating that for part-time bus captains  
13      they don't require the bus captains or rather the  
14      current regulations or current guidelines don't appear  
15      to require the part-time bus captains to declare the  
16      working hours prior to their work as part-time bus  
17      captain.

18           So in other words, one of their worries or concerns  
19      is that they don't know how many hours part-time bus  
20      captains have been working prior to becoming part-time  
21      bus captain.

22      CHAIRMAN:   I'm not sure that has been expressed as a worry  
23      or a concern of them.

24      MS MAGGIE WONG:   It is not them.

25      CHAIRMAN:   It is a matter that engages our interest.

26

1 MR JASON NG: (In English) It don't matter. I do want to  
2 answer that. Because let me ask you a question? How do  
3 you regulate a full-time driver having enough rest  
4 between shifts? You can't.

5 You see, when I look at it, it is like drunk  
6 driving. We expect all drunk drivers when you sit  
7 behind a wheel to be completely sober. So we expect all  
8 drivers, when they sit behind a wheel, to be completely  
9 rested, alert, when they go on a shift.

10 So I don't understand why we are so hung up on this  
11 topic.

12 CHAIRMAN: We don't require all drivers to be completely  
13 sober. We set a threshold, and it is the same thing --

14 MR JASON NG: (In English) Well, for bus drivers we do.

15 CHAIRMAN: It is the same approach for looking at part-time  
16 captains, or, for that matter, anyone else, to try and  
17 do the best one can to -- practically, to better achieve  
18 safety, and the real question is this: at the moment it  
19 appears prior to this accident in February no  
20 information was gathered as to what part-time bus  
21 captains did in their other job.

22 And that is the issue that engages our interest.

23 MR JASON NG: (In English) Well, I don't know about other  
24 bus companies, but at KMB, when we report to a shift or  
25 duty, we have to sign -- or in the past, we had to sign

26

1 a document or declaration saying we are in good state to  
2 operate a bus.

3 Now, is there something that -- is there something  
4 you are looking for? I don't know. Now, is that  
5 enough, I don't know --

6 CHAIRMAN: That's a bland statement with no possibility of  
7 an audit check.

8 MR ALEX LEUNG: (In English) Maybe I can add on it.

9 Back in 2014, when I first joined KMB as  
10 a part-timer, I was required to declare my full-time  
11 jobs, and, well, external dealings, and I understand  
12 that even for Citybus and New World First Bus they  
13 required a part-time bus driver to declare annually the  
14 full-time jobs, or other jobs, the hours required,  
15 whether they are on shifts for the other --

16 CHAIRMAN: Citybus have introduced that as a new form, not  
17 that they did it in the past.

18 MR ALEX LEUNG: (In English) Well, I think they did it in  
19 the past.

20 CHAIRMAN: They have given us a form that which is very  
21 comprehensive --

22 MR ALEX LEUNG: (In English) There was a new form.

23 I understand that there was an old form in which  
24 part-time drivers were required to declare their  
25 full-time jobs.

26

1           Of course they have extended the list to cover  
2           whether it is shift work, how many hours they work.

3           So we do -- we did have to declare, it is not  
4           something new, but I think we also we are grown up  
5           people, we take responsibility of our act, you know, if  
6           we are not fit for reporting a duty we just call in sick  
7           like the full-time bus drivers do all the time.

8   CHAIRMAN: Let me ask you gentlemen. You don't have to  
9           answer if you don't wish. Let me ask you one by one.

10           Do you have other work, and if so, is it a driving  
11           job?

12   MR ALEX LEUNG: (In English) Well, I do have other work.

13   CHAIRMAN: Is it a driving job?

14   MR ALEX LEUNG: (In English) I work in an office, I have  
15           multiple jobs, put it this way.

16   CHAIRMAN: Is any one of them a driving job?

17   MR ALEX LEUNG: (In English) Yes, there is one.

18   CHAIRMAN: Thank you. Mr. Ng.

19   MR JASON NG: (In English) No.

20   CHAIRMAN: No other job?

21   MR JASON NG: (In English) Yes other job, but not driving  
22           job.

23   CHAIRMAN: Thank you. Mr Cheung.

24   MR KENNETH CHEUNG: (Interpreted) Yes, I have other work,  
25           and there is a chance of me having to drive, even when  
26

1 I go to work myself I drive.

2 CHAIRMAN: Yeah.

3 MR GARY CHENG: (Interpreted) Yes, I have other full-time  
4 work. I also have a chance to drive.

5 MR LEO CHA: (In English) I also have another job, and I'm  
6 a civil servant in Lands Department.

7 CHAIRMAN: You are driven to distraction rather than  
8 driving!

9 MR LEO CHA: (In English) Yes.

10 MR KENNETH MA: (In English) I have other full-time job but  
11 no need to drive.

12 CHAIRMAN: Thank you. That's a useful snapshot for us.  
13 Yes, Ms Wong.

14 MS MAGGIE WONG: One of the changes made by the Citybus in  
15 the new form is to require part-timers to make  
16 a declaration as to the number of hours they have worked  
17 previously, or prior to becoming part-time or taking up  
18 part-time bus captain.

19 Would you support that idea?

20 MR KENNETH MA: (In English) I support that idea. The new  
21 form used by Citybus and New World First Bus is more  
22 comprehensive than in the past.

23 MS MAGGIE WONG: And would that be a view shared by the  
24 entire union or your Facebook members?

25 MR ALEX LEUNG: (In English) I think we would support  
26

1 transparency, let's put it this way.

2 MR JASON NG: (In English) I personally would support it  
3 only if they will require the full-time driver to do the  
4 same. By that I mean if I need to declare what I've  
5 been doing outside of my driving time, wouldn't you  
6 worry about if the full-time driver went party overnight  
7 before they report to work? I would.

8 MS MAGGIE WONG: We have seen a table that has been kindly  
9 pulled up, showing the requirements that are required to  
10 be filled in. If we can scroll it up, because you will  
11 see at the top of the form.

12 CHAIRMAN: Can you give me the reference in the files?

13 MS MAGGIE WONG: That would be in CTB-571.

14 CHAIRMAN: CTB1?

15 MS MAGGIE WONG: CTB-3.

16 CHAIRMAN: Thank you.

17 MS MAGGIE WONG: And the translation can be found at  
18 page 571-1 and 571-2.

19 It requires part-time bus captain to sign  
20 a declaration form setting out the hours of work in  
21 a column, need to work in shift, and with a declaration  
22 showing that the information filled in is correct.  
23 Otherwise there would be disciplinary consequences.

24 So by that I mean it requires part-time captain  
25 nowadays to declare that.

26

1           And similar has been done for, I believe, Kowloon  
2           Motor Bus; is that the case?

3       MR ALEX LEUNG:   (In English) Correct.

4       CHAIRMAN:   Do we have a Kowloon Motor Bus form in the same  
5           terms?

6       MS MAGGIE WONG:   Yes.

7       CHAIRMAN:   Just give me the reference, if you would.   There  
8           is no need to turn it up.

9       MR ALEX LEUNG:   (In English) I want to add that this form is  
10           an annual declaration, but not every time you start  
11           a duty.

12      CHAIRMAN:   Obviously not that.

13           Ms Wong, is there anything on the form that requires  
14           the information to be updated?

15      MS MAGGIE WONG:   No.

16           That would be at page 128 to 129 of KMB-1 bundle.

17           And the translation at 129-1 to 129-2.

18      CHAIRMAN:   Thank you.

19      MS MAGGIE WONG:   The topic I would like to ask is, I believe  
20           Mr Kenneth Ma earlier mentioned that the Kowloon Motor  
21           Bus set up a new requirement for part-time bus captains,  
22           and it required them to -- it set up a few requirements  
23           for part-time bus captain to accept before they can  
24           continue.

25           If I may take you to KMB bundle 1: page 140 to 141.

26

1 And that is a submission submitted by the Kowloon  
2 Motor Bus to the Commissioner for Transport in response  
3 to the incident in February 2018.

4 And at the bottom it states this:

5 "In late March 2018 most of those 209 part-time [bus  
6 captains] have accepted our requirements. We have  
7 assigned driving duty to them after they have met the  
8 following requirements:

9 1. Having made a written declaration that being  
10 a part-time [bus captain] does not breach the employment  
11 contract of his/her full-time job;

12 2. Having made a written declaration of illness;

13 3. Having made a written declaration of criminal  
14 record;

15 4. Having passed traffic conviction record check;  
16 and

17 5. Having attended a full day remedial training if  
18 the [bus captain] involved has not been driving a bus  
19 for one month or more."

20 And it set up the latest status of the 209 part-time  
21 bus captains.

22 My first question may be for Mr Ma first. Are those  
23 the requirements you mentioned first that you refused to  
24 agree to, or are they different?

25 MR KENNETH MA: (Interpreted) I don't accept point number 1.

26

1           (In English) Written declaration that being  
2           a part-time bus captain does not breach the employment  
3           contract of his or her full-time job.

4           (Interpreted) I don't accept that.

5           The KMB had a second meeting with our union that  
6           took place in the Kowloon Bay depot, and they first  
7           raised this. In the first meeting, the KMB had never  
8           mentioned about this point.

9           So for myself I don't accept that.

10          As for second requirement, declaration of illness,  
11          during my service as part-time bus captain, every time  
12          when I try to get a bus from the depot I have to sign  
13          a declaration stating that I am fit to drive on that  
14          day.

15          And also we have an Octopus card which enables --  
16          well, as long as we tap the Octopus card into the  
17          Octopus card reader at the depot, that means we have  
18          made that declaration.

19          Now, for item 3 and 4, these are reasonable  
20          requirements, we don't have a lot of driving points  
21          deducted, then we can drive safely.

22          And that has to do with safety and we think it is  
23          reasonable.

24          And the fifth point about driving a bus for one  
25          month or more, we have never heard that before. We have

26

1 never heard the saying that if we have not driven a bus  
2 for more than one month or more, then we have to attend  
3 this training. No, I have never heard about that  
4 before.

5 MR JASON NG: (In English) I know there was a little  
6 confusion for item 5. So I think there is a little  
7 confusion between route training and driving training.

8 Now, as far as I know, which has been a practice at  
9 KMB for a long time, is that if you have not been  
10 reporting -- or if you have not been sitting behind  
11 a wheel driving the bus for over 30 days, you are  
12 required to attend a driving training and get cleared by  
13 the instructor before you can go back on your driving  
14 duties.

15 Now, I think that's what point 5 is referring to.  
16 But, the wording in point 5 said if you have not been  
17 driving a route, one particular route for 30 days, then  
18 you have to retrain for that route. Now, that's  
19 something we have not heard of.

20 MS MAGGIE WONG: Thank you.

21 That's what I am trying to ask you, because we have  
22 received a background paper from the LegCo. We are  
23 going to pull that up for you.

24 I'm sorry we don't have hard copies.

25 MR ALEX LEUNG: (In English) I think we are aware of the  
26

1 point you are trying to make. We picked up when Ms Yip  
2 was doing her testimony.

3 Well, the current practice is, if you have not, as  
4 Jason has just mentioned, if you have not driven a bus  
5 for one month you have to go back to training, and then  
6 for a particular route, if you have not driven on that  
7 route for two years, then your training record of that  
8 route will be erased. That means you will have to go on  
9 training again before you can drive on that particular  
10 route.

11 Take an example. If I have done route 2 in 2014 and  
12 have not done it since, then I would not be able to  
13 drive on route 2 today.

14 MR JASON NG: (In English) On top of that, in the route  
15 training session, if there is certain deviation that it  
16 made on the route, for example a route extension,  
17 a deviation of route, you will have to be retrained, or  
18 your training record will be erased as well. So you  
19 will not be -- for example, like, if I have been  
20 doing -- if I have gone through training for route 2,  
21 and if they have -- for example, one year went by, and  
22 they have extended the route, and I have not been  
23 retrained again, then I will not be able to drive on  
24 that route again.

25 MS MAGGIE WONG: On this aspect, since we are on this KMB  
26

1 bundle, can I take you to KMB bundle 1, page 104.

2 CHAIRMAN: What are we going to?

3 MS MAGGIE WONG: This is a report of the investigation

4 report filed by the KMB to the Commissioner for

5 Transport following the request by the Commissioner for

6 Transport on 12 February 2018.

7 This report is dated 12 March 2018. If we may go to

8 page 104 setting out the recommendation of Kowloon Motor

9 Bus, and at paragraph 13 with the heading

10 "Discontinuance of Employment of Part Time [bus

11 captains]

12 Paragraph 13 states:

13 "KMB has discontinued the employment of all part

14 time [bus captains] whose working hours fall below

15 18 hours per week. However, in order to meet the demand

16 for bus services during peak hours, KMB has already

17 offered the previous part-time [bus captains] the option

18 to convert to contract hourly rated [bus captains] or to

19 take up alternative duties in the company."

20 So my question is, has this happened?

21 MR ALEX LEUNG: (In English) Yes, it has.

22 MS MAGGIE WONG: And in what aspect?

23 MR ALEX LEUNG: (In English) For instance for the six of us

24 sitting here, Mr Ma has not accepted this offer,

25 I personally have opted for a 10 hours week duty, and

26

1 I think other members have opted for 18 hours -- more  
2 than 18 hours per week arrangement.

3 CHAIRMAN: So what KMB did was discontinue hiring bus  
4 captains who worked less than 18 hours a week, but they  
5 permitted you to sign up to 10 hours a week?

6 MR ALEX LEUNG: (In English) Absolutely.

7 I think let me -- I can understand your feeling  
8 about, because it is counterintuitive. We were working  
9 as casual drivers. They are weekends -- I usually work  
10 on weekends, usually Saturdays.

11 It was a time when if I am engaged, I would just  
12 call in and say I'm not working this particular weekend,  
13 but with this new arrangement, there is some kind of  
14 a pressure for us --

15 CHAIRMAN: You have to 10 hours a week.

16 MR ALEX LEUNG: (In English) To do 10 hours a week, despite  
17 the fact that I really cannot make it most of the time.

18 CHAIRMAN: Yes.

19 MS MAGGIE WONG: So if we go to page 141, we can see the  
20 numbers of part-time bus captains that have agreed to  
21 this arrangement in that table in the first and second  
22 row.

23 "Agreed to work more than 18 hours a week", that  
24 would be 78.

25 And "Agreed to work over 10 hours a week; declare  
26

1           doing part-time [bus captain] at KMB will not breach the  
2           employment contract with their employer ..."

3           Being 123. So, Mr Leung, you would be in the second  
4           category.

5       MR ALEX LEUNG: (In English) Absolutely.

6       MS MAGGIE WONG: About this arrangement, do they require you  
7           to separately sign a declaration form as to how many  
8           hours you have worked, for example on that day, prior to  
9           taking up duties as part-time bus captains?

10      MR ALEX LEUNG: (In English) I'm not aware of that.

11      MS MAGGIE WONG: About this 10 hours a week, can you utilise  
12           it in one go, like you can drive --

13      MR ALEX LEUNG: (In English) I can do five hours a day for  
14           two days, I can do one shift of 10 hours. That's not  
15           a problem. It is quite flexible.

16      MS MAGGIE WONG: As long as you do it within the week.

17      MR ALEX LEUNG: (In English) As long as I do 10 hours.

18      MS MAGGIE WONG: If I may ask you to look at page 124 of the  
19           KMB submission. It sets out the KMB's policy on  
20           part-time bus captains in (i).

21           Can you look at that and confirm, or rather let us  
22           know whether it reflects the KMB's treatment of  
23           part-time bus captains before February 2018?

24      MR JASON NG: (In English) Ms Wong, just glancing through,  
25           as I stated earlier, I think the first two bullets, as  
26

1 I told you, I think our entry requirements are higher  
2 than the full-time bus drivers, because we have to have  
3 undergone a driving test that was carried out by the  
4 instructor at KMB.

5 And --

6 CHAIRMAN: So they are not the same, they are higher?

7 MR JASON NG: (In English) In my opinion they are higher.

8 And I think all six of us can comment on that as well.  
9 As far as the other bullet points below, I would have to  
10 agree to that.

11 MS MAGGIE WONG: Thank you.

12 If one were to suggest that there be a requirement  
13 for KMB to require all part-time bus captains to fill in  
14 a declaration form declaring the number of hours they  
15 have worked before taking up duty as part-time bus  
16 captain, would your union be agreeable to this  
17 arrangement?

18 MR JASON NG: (In English) See, I still don't understand why  
19 we are still asking these questions. I think it is by  
20 law you cannot drive more than 14 hours a day.

21 Now, if you drive over that, I think that's  
22 breaching the law; am I correct?

23 CHAIRMAN: It is not a question of the law. It is  
24 a question of enforcing the law. And you can only  
25 enforce the law if you have knowledge of what the person  
26

1 has done.

2 MR JASON NG: (In English) And like what Kenneth just said,  
3 when we tap card to report to duty we already declare  
4 that.

5 CHAIRMAN: I am sorry, could you repeat that.

6 MR JASON NG: (In English) When we report to duty with our  
7 Octopus card, that is already confirming and affirming  
8 that we are complying all the laws and we are capable  
9 and suitable of driving the bus that day.

10 CHAIRMAN: The issue that is outstanding is this: what if  
11 you have been driving a coach all night, and you turn up  
12 to drive in the morning. How is the bus company to know  
13 that you cannot comply with the guidelines? How is it  
14 to get that information to enforce the law that you  
15 advert to?

16 There may not be an immediate answer to that. But  
17 that's the question.

18 MR JASON NG: (In English) Well --

19 MR ALEX LEUNG: (In English) I would just repeat that we are  
20 fully aware of the consequences, the particular criminal  
21 consequences of fatigued driving. We are all grown up  
22 people. We are not here to -- well, there is a popular  
23 saying amongst bus drivers, you have one foot in the  
24 prison cell, and you have one foot in the mortuary. So  
25 we are fully aware of the consequences.

26

1 CHAIRMAN: Well balanced drivers?

2 MR ALEX LEUNG: (In English) Yes, thank you.

3 MR JASON NG: (In English) Well, let me add on that. I gave  
4 some thoughts to that.

5 So you would rather us to sign a paper saying that  
6 I have not been driving for, say, nine hours, on other  
7 circumstances, on top of tapping the -- when we report  
8 to duty, tapping our card saying "We are going to drive  
9 the bus"?

10 So --

11 CHAIRMAN: Tapping your card provides no information at all  
12 about what you have been doing prior to that.

13 MR JASON NG: (In English) Well, tapping the card means you  
14 are accepting the duty which means you are understanding  
15 the consequences that you are not -- if you are not  
16 complying to the law.

17 That also included -- if you say, for example, like  
18 what I said earlier, if you have consumed alcohol, by  
19 tapping the card I -- my understanding is you are  
20 implying you have not been consuming, and you are in  
21 good state on driving the bus.

22 CHAIRMAN: That's why for enforcing alcohol laws we have  
23 breathalysers.

24 MR JASON NG: (In English) Right, but you don't --

25 CHAIRMAN: You can get in the car, thereby declaring you are  
26

1 fit to drive.

2 MR JASON NG: (In English) Right, but the thing is, you  
3 don't have to do a breathalyser test every time when we  
4 get behind a wheel, or you don't do that on all 3,000  
5 drivers at KMB every day.

6 CHAIRMAN: Ms Wong.

7 MS MAGGIE WONG: Yes. Mr Chairman, I've finished my  
8 questioning. Thank you.

9 CHAIRMAN: Gentlemen, those are the questions we have for  
10 you. If there is any closing statement that you wish to  
11 make, don't feel that you have to, but if there is  
12 anything you wish to say, we will give you the  
13 opportunity.

14 MR ALEX LEUNG: (In English) Thank you, Justice Lunn.

15 I think what we are trying to reiterate is there has  
16 been a very unjust perception formed about the  
17 professionalism of our part-time bus drivers. I hope  
18 today's testimony has changed that perception, and  
19 I cannot care more about the public, but I think the  
20 three gentlemen in front of me would have a much better  
21 understanding of what a typical part-time bus driver  
22 would be.

23 Again, I want to repeat that we take pride in  
24 driving, we enjoy driving, we like serving passengers  
25 from different areas, all walks of life, and we just  
26

1           like doing this. And it will be devastating for us if  
2           we are barred from working as part-time bus drivers.  
3           That will be the most undesirable outcome for us here.  
4           And we will be very unhappy about that.

5   CHAIRMAN: May I ask you this.

6           How typical are you six gentlemen of part-time bus  
7           captains? What I have in mind is, in particular, the  
8           New Lantao Bus Company, where I think one-third of the  
9           bus drivers are part time? Are you typical of them or  
10          are they quite different from you?

11   MR ALEX LEUNG: (In English) I personally have never worked  
12          with New Lantao Bus Company.

13          It may be for Mr Cheng to give elaboration.

14   CHAIRMAN: Thank you.

15   MR GARY CHENG: (Interpreted) Actually, as part-time bus  
16          captains, maybe we all do it differently. But I think  
17          the primary reason is because there is more flexibility  
18          in the working hours. For many part-time drivers, they  
19          want to take two days off in the week. That's why they  
20          choose to become part-time drivers. Of course, at the  
21          expense of certain benefits that full-time drivers  
22          enjoy. But then they want freedom, more flexibility.  
23          So that's why some people choose to become part-time  
24          drivers. That's really the issue.

25          As for the New Lantao Bus Company, how come  
26

1 one-third of the bus captains are on a part time basis?

2 I think it is because it is only on weekends they have  
3 huge patronage because people will go to Lantau Island  
4 on weekends for sightseeing and that's why they need  
5 more bus drivers on weekends. So that's why there is  
6 a bigger demand for part-time drivers, probably.

7 So it is all about flexibility.

8 And, say, when I'm free then I will come and work  
9 part time. For me, anyway, it is because it fits in  
10 with my schedule, that's why I take up the part-time  
11 job.

12 MR LEO CHA: (Interpreted) Perhaps let me supplement in  
13 Cantonese, and I'm free to say what I want to say.

14 Now, before this tragic accident, for Long Win there  
15 is a serious problem of lost trips. I think between  
16 2016 and 2017 because of the expansion of the service  
17 for the A series of routes, so that's why for North  
18 Lantau Island there is a higher lost trip rate.

19 So there are relatively more serious problems with  
20 some of the routes, and that's when the part-time bus  
21 drivers can come in to help remedy the situation.

22 Going back to the question raised by the counsel  
23 earlier, for KMB and Long Win Bus, bundle 1, page 124,  
24 it is whether KMB treats part-time bus captains equally,  
25 (i). The answer is yes. For both full-time and  
26

1 part-time bus drivers they are treated equally. Every  
2 day, before we start work, we have to tap the Octopus  
3 card as a few of my colleagues mentioned already.

4 We have to tap our Octopus card on the reader in the  
5 regulator's office, and that is equivalent to  
6 a declaration of our health status, enough rest, that we  
7 are fit to serve as a part-time driver on the day.

8 That's something that the KMB has been doing all  
9 along. Anyway, since I joined KMB in 2016 and then  
10 I switched to Long Win, all along this has been the  
11 practice.

12 MR GARY CHENG: (Interpreted) Finally, I would like to make  
13 this suggestion to the Committee.

14 All along, we are talking about bus drivers. But  
15 what about passengers? Have we considered any measures  
16 that could target the behaviour of passengers? You  
17 know, Hong Kong people start complaining when they have  
18 to wait a long time, and as long as they are not happy  
19 they will make a formal complaint, they like to do that.  
20 So it is not about monitoring the speed of buses, don't  
21 worry, the bus passengers will call and complain.

22 So there are plenty of channels for passengers to  
23 make complaints but there is no channel for bus drivers  
24 to complain against passengers. Even if the passenger  
25 is in the wrong we can't complain against them because  
26

1           there is no channel for us to do so.

2       CHAIRMAN: We are very much alive to this issue, which is  
3           why we have been asking so many questions about the use  
4           of CCTV with both video and audio function. And why we  
5           are interested in forward-looking CCTV on buses so that  
6           illegal parking could be picked up, not just picked up,  
7           but then enforced, the law enforced. Without being  
8           enforced, the law is meaningless.

9       MR JASON NG: (In English) I completely agree to that.

10           I think our question, or our point is, if that's the  
11           case, we actually already have the ordinance to regulate  
12           the behaviour of passengers. Has that been enforced?  
13           Has that been enforced? If so, can we put a bigger  
14           magnitude on being enforced.

15           Like what Ms Yip was talking about, or her  
16           colleagues, they are all have been verbally insulted.  
17           They said they get verbally insult almost on a daily  
18           basis --

19       CHAIRMAN: As I have said. That is why we are looking at  
20           how the law can be enforced. Because passengers do not  
21           have a God given right to abuse bus captains.

22       MR JASON NG: (In English) Correct, so what we saw is if we  
23           can look at MTR, actually some of the MTR staff are  
24           empowered to enforce and fine the passenger that has  
25           obsessive behaviour --

26

1 CHAIRMAN: I don't want to lengthen the proceedings, but it  
2 has been pointed out to us and is obvious really,  
3 railway stations are much easier places to enforce  
4 things. A bus captain is one man on a bus out in the  
5 open. The train driver can bring his train into  
6 a station which he has alerted there is a problem to.  
7 And people are waiting to help him. That's the big  
8 difference. That's been pointed out to us.

9 MR JASON NG: (In English) Well, it might have been because  
10 manpower issue, like there are supervisors that are on  
11 the road, if we can increase that number, maybe that can  
12 help relieve that, or increasing the patrol on buses?  
13 Would that be something we can consider?

14 CHAIRMAN: Well, gentlemen, thank you very much, for the  
15 evidence that you have given us. It has been most  
16 informative. As you can tell, we have various factors  
17 we have to balance in making these enquiries. What we  
18 are trying to do is seek information, and you have been  
19 most helpful.

20 So these proceedings are adjourned, and I would like  
21 to thank the long suffering stenographers and the  
22 simultaneous interpreters for working such a long day.

23 We will adjourn then until 10 o'clock tomorrow.

24 Thank you.

25 (6.15 pm)

(The hearing adjourned to 10.00 am on  
Wednesday, 1 August 2018)

OPENING STATEMENT BY MR ALEX LEUNG .....	142
EXAMINATION BY MS WONG .....	144

1 2018 年 7 月 31 日

2 上午 10 時 02 分恢復聆訊

3 出席人士： 郭志誠先生，主席（九巴僱員工會代表）

4 李建基先生，幹事（九巴僱員工會代表）

5 黃健威先生，會員（九巴僱員工會代表）

6 李國華先生，發言人（九巴職員權益工會代表）

7 姚廣俊先生，理事長（九巴職員權益工會代表）

8 鄧善慶先生，總幹事（九巴職員權益工會代表）

9 陳詠豪先生，秘書（九巴職員權益工會代表）

10 葉蔚琳女士，主席（月薪車長大聯盟代表）

11 司徒權先生，理事（月薪車長大聯盟代表）

12 甄建明先生，理事（月薪車長大聯盟代表）

13 陳智輝先生，理事（月薪車長大聯盟代表）

14 鄭凱耀先生，理事（月薪車長大聯盟代表）

15 陳漢華先生，司庫（月薪車長大聯盟代表）

16 鄭啟祥先生，召集人（兼職車長苦主大聯盟代表）

17 車啟冬先生，兼職車長（兼職車長苦主大聯盟代表）

18 張沛棋先生，兼職車長（兼職車長苦主大聯盟代表）

19 梁景裕先生，兼職車長（兼職車長苦主大聯盟代表）

20 馬健德先生，兼職車長（兼職車長苦主大聯盟代表）

21 吳振宇先生，兼職車長（兼職車長苦主大聯盟代表）

22

23 主席：（經傳譯員）早晨，郭生，早晨，仲有你嘅同事，我哋感謝你同九巴僱員工會  
24 代表接受我哋嘅邀請，出席今日嘅聆訊，畀證供。咁就係黃律師會代表委員會問  
25 你哋問題，你哋就決定三位之中邊一位去作答。郭生，我就邀請你，如果你想其  
26 他人回答，你就要話係想邊一位回答。開始嘅時候，我知道你係想先作一個嘅—  
27 —即係講幾句說話，而家可以講。

1 郭志誠先生：多謝委員會，多謝主席，多謝兩位委員，我哋好高興，等咗好耐，就今  
2 次有機會上嚟講兩句說話，發表下我哋工會同埋行業車長嘅聲音，就好難得嘅。

3 其實我想希望委員會就畀充分嘅時間我哋反映，我哋咁多堂嗰個聽證會我都  
4 有出席，咁樣嘅意見大多數都係集中喺監管司機嗰個問題嗰度嘅，嗰個安全嘅。

5 我亦都有留意到主席嗰個聲明嘅，我哋唔係話要結論有一個咩嘢嘅結果，邊  
6 個需要負責，我哋只係提供嗰個安全培訓同埋其他應有嘅討論嘅。希望就委員、  
7 主席就聽到我嘅意見，就可以參考。

8 我哋就希望就--唔知我哋可唔可以有問題提問委員會嘅，或者主席嘅？即係  
9 會唔會畀我哋有提問嘅？

10 主席：（經傳譯員）你今日出席就係嚟作證，咁係我哋就唔係回答，不過就係會聽你  
11 哋講嘢。我哋想做就係搵出專營巴士運作嘅情況，等我哋可以向特首作出建議，  
12 提升安全，所以我哋想聽嘅就係你哋嘅意見，因為我哋唔係從業員。

13 郭志誠先生：咁就係因為呢個問題，因為我哋就係在職場從業員，呢個巴士行業就每  
14 日有 400 萬嘅乘客，佔香港每天嗰個乘客比例就 31%嘅，其實都係--我哋行業  
15 都係好重要嘅。

16 我發覺就委員會就比我哋所屬嘅工會團體嗰個發言就比較短嘅，其實就我哋  
17 係重要嘅持份者嚟嘅，亦都係重要嘅一員嘅，亦都係喺個安全問題嗰個主要掌控  
18 者嚟嘅。其實就我哋就好多問題要講嘅，即係我有三份嗰個陳--一份陳述書，兩  
19 份--三份補充資料，委員會要求，我哋好多個項目都喺裏面嘅。喺陳述書裏面都  
20 係好簡短，即係提幾句大概性嘅，如果係得到充分討論，應該就對委員會日後嗰  
21 個結論，或者市民大眾亦都會比較清楚嘅。

22 係喇，咁我哋就呢個問題，因為就我發覺琴日嗰個委員會只係問咗幾條比較  
23 簡單嘅問題，唔得深入。喺個培訓方面，嗰個車長嘅機械認識方面，嗰個教導方  
24 面，即係車長嗰個認識，能唔能夠清楚知道佢揸嗰架車嗰個性能，嗰個操控係點  
25 樣嘅，咁完全就忽略咗，忽略咗我哋呢方面嘅意見嘅。即係簡單啲嘅要求，我哋  
26 畀一個答案委員會，係贊唔贊成、認唔認同某啲人嘅觀點，或者我哋有咩睇  
27 法，我係認為唔夠深入嘅，咁委員會係唔可能得出一個好嘅結論嘅。

28 我哋喺呢方面，希望--我就唔想重複答番人哋嗰個問題，就唔好即係--因為  
29 時間好寶貴，我哋希望盡量想講我哋關注嘅嘢，影響大眾嘅嘢。好多情況之下，  
30 就係市民或者委員會係唔清楚嘅。

31 主席：（經傳譯員）冇錯，你都係指出咗呢啲嘅事項㗎喇，喺你嘅陳述書裏面，所以  
32 我哋而家就會係你講咗嘅一啲事項，就於呢啲，我哋會問你問題，如果你想補  
33 充，你可以補充嘅。但係請你畀陳述書我哋，係畀機會你哋同我哋講一次你想講  
34 啲乜嘢，而口述證供嘅聆訊就係等我哋可以去探討一啲我哋認為有--係有關嘅  
35 事項。

1 郭志誠先生：今日因為我哋準備咗一個黑盒嘅問題嘅，就未--啲啲資料或者汽車嘅操  
2 作嘅安全性問題就未呈交上委員會嘅，我哋係準備到即係臨時啲啲寫好，想啲呢  
3 度講畀大家聽嘅，希望委員會就酌情批准，因為未呈交上嚟嘅。

4 主席：（經傳譯員）有冇咩嘢原因係之前冇交界我哋？因為我哋由呢個係 3 月--4 月  
5 嘅 28 號（原文照錄）嘅，已經開始叫你畀資料我哋囉喎。

6 黃女士：Yes.

7 主席：（經傳譯員）即係呢一個係 3 月 28 號，今日已經係 7 月 31 號囉喎。

8 郭志誠先生：咁係我哋因為要準備，因為我哋唔係專家，我哋要--因為發覺就委員會  
9 裏面，即係問過黑盒公司，我哋睇番佢個資料，我認為需要因應佢哋嘅答覆，  
10 而我哋再提供我哋在職嘅意見，我哋車長認識呢方面嘅機械，即係直接係操作。  
11 其實佢係咪話畀個黑盒我哋，咁我哋車長就識呢？就知呢？

12 咁樣即係我哋成立個會之後，好多嘢要教導啲會員嘅，譬如好似話襲擊車  
13 長，點解會唔能夠檢控，因為車長唔識搜證。同埋就喺事發之前，通常就會大家  
14 你一言我一語，變咗--其實我哋車長就根據...

15 主席：（經傳譯員）郭生，其實如果我哋而家開始，等黃律師問你問題，可能進度會  
16 比較好，即係比起一路聽你喺度講話由黑盒到畀人--即係發生事，畀人打，可  
17 能係黃律師問你問題，個進度會更好，等佢問，跟住我哋先至有機會再聽你講，  
18 好唔好？

19 郭志誠先生：好嘅，多謝主席。希望結論嘅時候可以畀我補充。

20 黃女士：（經傳譯員）唔該晒郭生、各位人士今日出席。我想簡單講幾句，我哋收到  
21 你嘅書面陳述同埋文件，即係三份都收到。委員會主要嘅要做嘅工作，其實喺個  
22 個工作範圍裏面都已經係寫咗㗎嘞，只要係有關於同安全--即係專營巴士營運  
23 安全有關，我嘅問題係會集中於安全呢方面，而唔係其他譬如即係僱員工作方面  
24 嘅問--嘅範圍。所以我希望你都要集中番，係回答關於安全嘅問題。

25 我想--我先開始問一問關於你個會嘅組成。郭生，你個會--我想請你睇番工  
26 會文件 112-9，淨係得中文嘅，不過我會解釋一下，係 112-9 呢一頁。

27 你個會就係喺 2015 年 7 月 14 號成立，係嘛？

28 郭志誠先生：係，對。

29 黃女士：（經傳譯員）去到--直至呢一個嘅係 2018 年 6 月 15 號，你哋會員人數係  
30 有 1,400 人，係嘛？

31 郭志誠先生：正確。

32 黃女士：（經傳譯員）其中包括全職嘅僱員，退休咗嘅車長但係跟住續任嘅人員，佢

1 咁都係繼續做車長嘅，係嘛？

2 郭志誠先生：係，正確。

3 黃女士：（經傳譯員）另外仲--其實有 1,300 位都係全職車長嚟㗎，係嘛？

4 郭志誠先生：正確。

5 黃女士：（經傳譯員）你嘅陳述書就提及過幾方面，我都會係唔同時集中唔同嘅問  
6 題。

7 第一個想問你嘅問題就係關於設施或者係安全方面嘅，就係你提過，其實你  
8 嘅文件都係好強調呢幾點嘅，或者去到工會文件 1A，84 頁，英文就係第 90-3  
9 頁。

10 主席：（經傳譯員）咩嘢文件話？

11 黃女士：（經傳譯員）呢個係工會嘅 4 月 23 號第一份嘅文件，2018 年，90-3，英  
12 文嘅，而中文就係第 84 頁。

13 喺第一啲段，你話為咗嚟到係節省維修嘅開支，自從 2015 年，九巴都係不  
14 合適地咁樣，係擺走晒啲嘅熱風除霞裝置，令巴士喺濕凍天氣嘅情況下，車輛  
15 外溫差太大，你亦提供咗一啲照片喺第--附件一啲度，就係第 91 頁，中文就係  
16 91 頁，英文就係 90-1。你喺個文件度話，當啲個巴士係高速行駛，又睇唔清楚  
17 路面情況，係非常危險，就會影響咗行車安全同埋乘客嘅安全。

18 我第一個問題就係，你嘅工會有冇將呢一點向巴士公司反映，九巴嗰度？

19 郭志誠先生：有嘅。

20 黃女士：（經傳譯員）幾時？

21 郭志誠先生：我哋係透過同公司啲啲管理層講過嘅。

22 黃女士：（經傳譯員）幾時？

23 郭志誠先生：時間就唔記得，因為冇記錄，即係口頭嘅。

24 黃女士：（經傳譯員）呢啲嘅照片，可唔可以話畀我哋聽，大概係幾時拍嘅呢，呢啲  
25 照片？

26 郭志誠先生：係上年年中嘅，透過啲啲同事喺 WhatsApp 嗰度轉發嘅。其實呢個問  
27 題維持咗好耐㗎，因為舊年特別嚴重，咁我哋啲會員車長好期待我哋嘅工會同佢  
28 哋爭取發聲嘅，所以特別踴躍，就掙好多相畀我哋，幾間廠都係。

29 黃女士：（經傳譯員）公司--當你口頭反映畀公司聽嘅時候，公司有冇咩嘢回應，關  
30 於呢一點？

1 郭志誠先生：冇回應嘅，佢哋即係盡量係想排斥我哋，即係排斥我哋工會，咁樣大多  
2 數都係嘞，即係如果我用工會主席身分同佢哋講，佢哋話唔鍾意嘅，一定要我係  
3 以僱員車長嘅身分同佢哋反映嘅，咁係當時嘅九龍灣廠總經理，楊國豪先生。

4 黃女士： And did you reflect or --

5 主席：（經傳譯員）唔好意思，你講完未㗎？嗰個九龍灣車廠嗰個總經理做咩嘢呀，  
6 佢？

7 郭志誠先生：即係佢經常都係強調，即係我只可以用個人身分，因為政治嘅考慮，佢  
8 --係嘞，因為政治嘅考慮，佢就--係嘞...

9 主席： And what is the name --

10 郭志誠先生：...即係唔方便我用嗰個主席身分同佢講。

11 主席：（經傳譯員）佢嘅名係咩嘢，嗰位先生，叫咩嘢名，嗰位總經理？

12 郭志誠先生：楊國豪，楊國豪，九龍灣廠總經理。

13 主席：（經傳譯員）好，唔該。

14 黃女士：（經傳譯員）車長有冇反映畀啲維修嘅員工，公司嘅維修員工？

15 郭志誠先生：有嘅，咁佢哋--係嘞，其實佢哋都--維修員工都好多意見，但係唔夠  
16 膽講嘅，通常都係向我反映下。佢哋其實維修員工都好多不滿，但係就--係  
17 嘞，就有辦法出到聲，因為公司唔鍾意。

18 主席：（經傳譯員）咁而家嘅情況點，關乎呢啲嘅除霞裝置，而家嘅狀況係點？

19 郭志誠先生：就呢個委員會成立咗之後，我哋就掙咗好多文件，亦都係有記者訪問  
20 過。佢而家就公司對外界，或者對外講係，之後嘅新車會裝番，之後嘅新車會裝  
21 番，當時我哋反映嘅時候，佢係--運輸署係唔成--即係獨立媒體訪問過嘅，亦  
22 都訪問過一位教授嘅，即係我都有提，喺文件裏面都有提過嘅。即係得呢個教授  
23 證實係熱風除霞先係最有效嘅。

24 當時獨立媒體訪問，運輸署嘅答覆就係話，呢一樣裝置就唔係必須嘅，現時  
25 香港嘅巴士只係九成係有裝嘅啫，即係反映淨係九巴有喇。即係九巴就唔顧乘客  
26 同埋車長嘅安全，本身係有嘅，佢都取消，即係慳番啲維修費，佢認為咁嘅情況  
27 之下，一年裏面唔會太多日，所以佢要求車長自己抹。咁喺高速公路，點抹呢？  
28 咁喺市區停低燈位嘅時候可以抹咋嘛，咁你高速公路點抹呢？咁佢啲答覆真係好  
29 難令人接受。

30 主席：（經傳譯員）新車有冇呢一個裝置？

31 郭志誠先生：到目前為止，都係未有嘅，所有新車冇嘅，因為佢之前已經決定咗話以  
32 後都唔裝咩嘛，就之後--未嚟㗎，應該啲新車未嚟嘅，就話應承咗話之後會

1 加裝番，但係呢個係好唔理想嘅，咁其實啲三千九百幾部巴士點樣呢？咁咪仲-  
2 -有啲都係舊年或者今年先至投入服務嘅，咁佢哋係咪需要十七年、十八年後，  
3 都仲係咁嘅情況呢？咁係咪代表咁樣敷衍咗大家「欸，我做番嘞。」咁樣？

4 我認為就應該--即使唔係即時，應該運輸署喺每年驗車嗰度，要求佢加裝番  
5 嘅，無論幾多錢都好，就唔能夠話呢個潛在危險，由佢喇，十幾年後先慢慢換咁  
6 樣。本身個設計係有㗎嘛，你係自己取消咗佢咋嘛。呢一個係關乎大眾嘅安全  
7 嘅，亦都係符合委員會嗰個安全嗰個要求。

8 主席：（經傳譯員）好嘞，我哋明嘞。黃女士。

9 黃女士：（經傳譯員）90-5，英文嘅，中文就係 85 頁。

10 主席：（經傳譯員）我哋而家會講邊點？

11 黃女士：（經傳譯員）就係運輸署嘅回應，就係關於呢一個除霞裝置。

12 主席：Yes.

13 黃女士：（經傳譯員）你喺你嘅第一份嘅意見書度話，運輸署就唔會批准呢一個嘅九  
14 巴去取消呢一個除霞裝置，因為會係影響公司嘅安全。咁你係咪--係收到好多  
15 嘅車長嘅反映，就係話強烈要求--運輸署要求九巴係再裝番呢啲嘅除霞裝置。

16 我想問，運輸署係咪知道係呢啲除霞裝置係除咗落嚟？

17 主席：（經傳譯員）你未答呢個問題，你正話話畀佢聽運輸署話呢個唔係一個必須嘅  
18 裝置，呢個係咪運輸署嗰個立場？

19 郭志誠先生：嗰個--佢因為個獨立媒體係關心呢件事，咁喺網上可以睇到，有啲訪問  
20 我嘅，跟住佢即係持平，搵一個教授訪問，同埋要求運輸署...

21 主席：（經傳譯員）你已經講咗嘞，我想問，運輸署有冇話表達呢一個嘅--你話畀我  
22 哋聽，運輸署話呢個裝置唔係一個必須嘅裝置，係咪呢？

23 郭志誠先生：係，係，係，喺報道裏面，佢係咁講。

24 主席：（經傳譯員）好。黃律師。

25 黃女士：（經傳譯員）你有冇寫信畀運輸署，去投訴關於呢個除塵裝置？你個工會有  
26 冇寫信畀運輸署投訴呢件事，關於有咗呢個裝置？

27 郭志誠先生：有嘅。

28 黃女士：（經傳譯員）咁我去下一個嘅問題嘞，關乎嗰個嘅波段裝置，第 84 頁，英  
29 文--中文，而英文版本就係 90-3 頁，都係喺第一段之下，你就話公司係改裝咗  
30 安全行車波段裝置，取消限波掣裝置，及手動減速器裝置，只係以電腦控制單一  
31 自動 D 波控制車速，喺突發危險情況下，車長係有任何挽救裝置可用，係非常危

險。

你就係你嘅附件喺 92 頁，呢個就係中文，跟住 92-1 就係英文，你係畀啲相我睇睇嘅。你亦都係進一步講，喺 90-5 嘅英文版本嗰度話，就話因為喺熱天嘅時候，喺巴士裏面嗰個嘅機器嘅溫度係更高，就係更加會影響呢一個嘅問題，所以就係唔能夠係即時嚟到係改變呢一個嘅狀況，就會影響咗嗰個車長嘅判斷，佢就會覺得好似有辦法刹到掣，就話畀警方聽，就話畀警方聽，呢架巴士係冇腳掣，其實當架巴士係冷卻，第二日嗰個嘅電腦控制又會返番去正常。

從你自己嗰個嘅檢討，到底取消咗呢一個限波掣裝置係點樣影響交通安全或者巴士安全嘅呢？

郭志誠先生：呢方面我想請阿李建基先生，佢比較熟悉啲，我想請李建基先生回答呢個問題。

主席：（經傳譯員）李生，請回答。

李建基先生：多謝主席，其實可能--首先我介紹我自己，介紹我個人嘅簡短嘅履歷。我揸咗約二十年多，嗰個大型車輛，包括馬鐵車輛、中港兩地車輛，包括單雙層嘅巴士，有波嘅及冇波嘅自動波嘅，包括比較係先進少少嘅旅遊巴我都揸過嘅。現階段嚟講，我就係九巴員工，受僱咗六年，揸咗六年巴士，公共雙層巴士揸咗六年。喺呢方面到我入職，或者喺學校嚟講，包括導師都好，佢所介紹嘅只係單一公司要求佢咁樣向學員培訓，整體仲有好多嘅安全嘅裝置，包括駕駛嘅技術係未夠嘅，我係覺得未夠嘅。簡單啲嚟講，睇番而家嘅附件，其實...

主席：（經傳譯員）咪住，咪住，李生，而家問你，其實係講一啲好具體嘅事，唔係叫你畀一個嘅演講嘅。而家就係話，移除咗呢個手動嘅減速器，點樣影響到巴士安全？你只係需要集中答呢方面啫。

李建基先生：喺呢個系統裏面，有一個裝置控制選擇器，包括單一嘅手動、自動，基本係有兩樣，第三樣就係包括手動、自動同一同步去運作。呢個首先我講減速器，減速器都係有呢種情況，有呢個掣喺度。咁我--喺控制呢個減速系統裏面，有四段，亦都有控制桿，係司機可以控制嘅，亦都唔使經過腳踏板呢個剎車器。琴日都有個黎主席都講，話一腳踩落去就有嘅，自動嘅。

而喺個附表度講到話，受到高溫，就係講個剎車系統，剎車系統經常受到 brake 嘅摩擦，就會受到高溫，但係如果有咗呢套手動嘅裝置，係隨司機個手同個段速去畀減速嘅力度，由一至四，輕至重，唔需要加強 brake 嘅負荷，喺呢個位置嚟講，可以帶動到波箱嘅軸心，而可以穩固佢個扭力，咁再落剎車系統，其實係好穩固嘅。但係現階段，我見唔到公共巴士，單雙層都好，唔多嘅，雙層簡直係唔會有嘅，手動控制桿，甚至乎係呢個選擇掣，選擇掣係冇嘅，就只得腳踏板去控制，開啟所謂佢咁而家嘅油壓減速器。

如果喺個呢方面，有個加強個控制桿，現階段，職業嘅旅遊巴士司機喺呢一方

1 面係非常之熟練嘅，但係喺公共巴士裏面嘅車長，係導師都有任何呢方面會介紹  
2 佢哋點樣採用呢套系統，只係教佢用隻腳踩個 brake，咩嘢叫輕少少，咩嘢叫重  
3 少少，喺而家咁多公共--我哋嘅專業車長裏面，係冇嘅，受到任何要收車，就一  
4 腳就到 brake 皮㗎嘞，咁呀摩擦到個 brake 碟㗎嘞，咁喺--其實個剎車系統一  
5 定有損耗，一定亦都唔會有正常可以發揮到停車或者減車嘅效果，就只有帶來每  
6 一腳 brake。而加上電腦可以 set 死㗎嘅力度，可能就係三級至四級，如果手  
7 桿控制，三級、四級嘅力度係好重嘅，但係如果我由一級至四級慢慢發揮，架車  
8 係好穩固，而嗰個掙晃力、割前割後、減少嘅力度係冇嘅，係好穩固。所以而家  
9 好多司機遇到比較係有半架巴士位，或者再短啲，根本唔可以一腳剎停架車，就  
10 只有睇住架車向前撞嘅啫。

11 所以現階段，我覺得公共巴士呢套系統裏面有疏忽，運輸署係應該知道呢一  
12 點嘅，因為喺香港運輸驗車牌照部裏面，包括佢都要做埋旅遊巴，會原架係--原  
13 架巴士駛入，咁呢套嘢裏面一定有嘅，佢哋應該知嘅，有可能一架公共巴士載咁  
14 多人，連呢個最簡單嘅系統裏面，都係隨心所願，有呀得㗎嘞，唔需要...

15 主席：（經傳譯員）未繼續講之前，會唔會係變成咁，即係有一個手動嘅減速器，其  
16 實就係剝奪咗巴士車長選擇，減速嘅選擇，係咪咁嘅意思？即係有咗自動--有  
17 咗個手動系統，就令個巴士車長少咗選擇，喺減速方面，係嘛？

18 李建基先生：可以咁講，交番畀郭生講。

19 郭志誠先生：呢方面我回答，其實就手動減速器係好重要嘅，尤其是落斜路，我記得  
20 就係話就大埔區議會嗰個黃女士就話有--即係喺個斜--佢哋收到嗰啲旅遊巴司  
21 機所講，喺個斜路衝--70 公里嘅時候衝到上頂，再衝落去嘅時候，好難會減到  
22 車速去到 50，因為而家改咗 50 公里㗎。其實係點解就係，我相信佢哋架車就  
23 可能係比較舊啲，只有一個廢氣剎車，廢氣剎車個效果就有咁好，如果你去到上  
24 頂 70 上到頂，咁你有手動減速器，你拍落去，三至四秒之後就好快減到 50 至  
25 40㗎嘞，咁唔使落 brake，咁會減--好有助嗰個落斜嗰個減速個安全性嘅。

26 其實就係我哋--即係我曾經就係--以前九巴就兩至三年就會有個叫高級駕  
27 駛，或者優質駕駛，咁我就係--嗰啲車長指明要操呢段大埔公路，大埔公路上落  
28 斜，我哋嗰陣時仲係熱狗，嗰陣時嗰啲熱狗有個限波掣，限一--限波，二波、三  
29 波，即係好似圖--附件二最左手邊嗰個，有限一波、二波、D 波咁樣。嗰陣時如  
30 果有啲車係冇手動減速器，我哋用個限波掣嘅，即係拖住個波，就即係比較穩  
31 定，唔使靠個 brake。你咁靠個 brake 係咁衝落去，你想佢減速，你係要磨住  
32 個 brake 皮㗎嘞，你磨得多，咁去到佢發熱嘅時候，去到最危急嘅時候，嗰個  
33 效果會減低，可能減低三成嘅，嗰個剎掣系統會減低三成。

34 主席：（經傳譯員）郭生，唔好意思，我要打斷你，你個--其實個要點好簡單，即係  
35 話減速，尤其係落斜嘅時候，係唔使用剎車系統，唔使係即係好大力咁剎㗎，你  
36 其實個意思都係想咁講啫，係咪呀？

37 郭志誠先生：係嘞，少少掂一掂就得㗎嘞，係嘞，咁各方面都會好，乘客都會安全

- 1           嘅，咁樣就話...
- 2   主席：（經傳譯員）噯，我哋知道嘞，我哋聽到嘞。黃律師。
- 3   黃女士：（經傳譯員）想請你睇第二份嘅陳述書，你提及過...
- 4   主席：（經傳譯員）係日期係幾多號？
- 5   黃女士：（經傳譯員）第二份就係 6 月 15 號，2018 年。
- 6   主席： Yes.
- 7   黃女士：（經傳譯員）中文版係 112 頁，112-19，英文係 112-97，其實係第三份  
8       嚟。
- 9   主席：（經傳譯員）即係唔係 15 號嗰份，係呢個 7 月 25 號嗰份，係咪呀？
- 10 黃女士：（經傳譯員）係，18 年嘅 7 月 25 號嗰一份，係 112-97，呢個係中文。
- 11 主席： Yes.
- 12 黃女士：（經傳譯員）英文就係 112-99。有兩方面我想同你哋講一講，就係話首先  
13       使用監察鏡頭，就係呢一個嘅 112-97 頂部嗰度講。你提及一點--頂部，喺第  
14       三底下，你就話，你係支持使用呢一個嘅閉路電視去記錄呢啲違例泊車。從你嘅  
15       陳述書，意思係咪話，有關於呢一個係閉路電視，你係支持安裝閉路電視，即係  
16       係呢一個嘅駕駛座位嗰度？
- 17 主席：（經傳譯員）做咩嘢呀？係監察違例泊車定係？
- 18 黃女士：（經傳譯員）去監察首先就係違例泊車。
- 19 郭志誠先生：係咪？監察違例泊車係可行嘅，我希望係喺車嘅前方裝嘅，我係贊成呢  
20       一點嘅，因為需要舉證，所有嘢都需要舉證，一定要做呢樣嘢。
- 21 黃女士：（經傳譯員）呢樣我明白。
- 22 主席：（經傳譯員）未講第二樣嘢之前，呢啲咁樣嘅鏡頭，唔係已經喺九巴好多嘅車  
23       上面都已經安裝咗嘞咩，呢類型鏡頭？
- 24 郭志誠先生：仲有超過一半係冇嘅。
- 25 主席：（經傳譯員）但係有一半有，係咪呀？
- 26 郭志誠先生：係嘞。同埋佢就有時唔知點解，公司又係影唔到，又話咩嘢，即係要加  
27       強少少，即係比較專門少少，可能係--係嘞，即係嗰個安裝要求設備嗰度個效  
28       率要提高啲。
- 29 主席：（經傳譯員）有關於巴士--牽涉巴士車長方面，如果即係牽涉到巴士車長，你

1 支唔支持譬如話撇個掣，咁就係顯示到係呢一段就係記錄違例泊車，咁可以愛嚟  
2 收集作為證據咁嘅做法？

3 郭志誠先生：非常之好，我贊成。

4 主席：（經傳譯員）唔該。黃律師。

5 黃女士：（經傳譯員）喺 112-97，第 4.1 段，英文版就係 112-100，你就話：

6 「有需要係通過法例，如果唔係有人會遵守規則，即使係過往，九巴有  
7 員工都係要求--有報告要求索取巴士錄影片段作為投訴其他駕駛者不小  
8 心駕駛，但係就畀當時嘅九龍灣廠總經理係拒絕。而如果員工真係好想  
9 要，佢就要畀行政費 5,000 元。而據知，新巴同埋城巴只需要係畀 600  
10 元，好明顯係故意阻撓員工合理要求，所以本會認為必須要立法通過相  
11 關嘅財政規例先至有效。」

12 我想問嘅問題就係，咩嘢叫做「必須要係立法通過相關規定」，到底係想規  
13 定啲咩嘢？

14 主席：（經傳譯員）我唔明點解我哋會問呢一個問題。

15 黃女士：Yes.

16 主席：（經傳譯員）因為我覺得好簡單，我哋只要傳召傳票要九巴提供有關片段就得  
17 喇，我覺得呢點係唔相關嘅。

18 黃女士：（經傳譯員）咁點解員工係需要畀一個嘅費用，先攞到呢啲嘅錄影？

19 主席：（經傳譯員）因為呢一個就係香港嘅法例其係--容許喺一個刑事嘅訴訟裏，辯  
20 分係可以要求提出呢啲嘅證據㗎嘛。

21 黃女士：（經傳譯員）咁我繼續落去問。講到嗰個黑盒，你喺二嗰段，喺 112-97  
22 頁嗰度，二嗰段話，英文就係 112-101 頁，就係話嗰個黑盒已經係裝咗好多  
23 年，已經指定安裝多年，但係你就話，個黑盒功能冇正確使用，你可唔可以再詳  
24 細解釋呢點？

25 郭志誠先生：第一，嗰個委員會都問過德國黑盒承辦商，其實黑盒裏面可以有好多數  
26 據嘅，其實係已經係好多年㗎喇，其實運輸署要求要裝呢個黑盒，就唔係話敷衍  
27 大家，因為有 2003 年嗰個屯門意外之後，咁受壓力而裝。佢係畀咗--要求巴士  
28 公司裝，巴士公司裝咗，咁唔知佢咩嘢原因，可能係保障自己嗰個法律嗰方面問  
29 題保障自己，咁佢乜嘢數據都唔愛嘅，乜嘢數據都唔愛。

30 好簡單咁就係嗰日委員會嗰度，就嗰個車速限制 75，同埋嗰個加減速嗰個值  
31 就係--界限值就係 2.3，同埋傾斜度係 44 度。就呢一點，我都想補充下，可以  
32 嗎，主席？其實嗰個界限值就過往公司成日逼車長係超速，譬如一段路係 70 公  
33 里，咁你如果係想個車長唔超速嘅，係有一個提示嘅，咁你嗰個值係咪應該係

68 或者 69 呢？「喂，超速囉喎，你收囉喎。」咁佢點解要去到 75 呢，係咪呀？之後我哋提供咗畀委員會，2 月、3 月之後，有幾樣——公司紀律員工 83 公里，訓練嗰陣時都去到 80 公里，好明顯就係嗰個界限值嗰個截油嗰度係失效，冇用，完全係冇用。

今年初或者咩嘢，好似有一單就係電車反車，咁睇報道，報紙報道就係話，電車公司係有要求車長要快嘅。所以就畀我睇到，佢呢個 75 嗰個界限值其實係可以容許巴士超速，係好贊成巴士超速。快啲喇咁樣，屯門公路，高速公路，快啲喇，人哋 80、100。咁係嘞，容許佢有限度超速嘅，咁呢個係不負責任嘅。好嘞，有事嘅時候，就叫個司機去死，去負責，負責晒所有法律責任。咁司機就萬幾釐，咁佢哋月薪係幾十萬，乜嘢責任都唔使。嗰個車長，你有——你話咗畀大家聽係 70，就會截油，會警報你㗎嘛，點解去到 70、83，佢都好似收唔到呢個警報？收唔到呢個警報嘅，咁佢嗰個界限值裏面，公司嗰個要求係非常之低。喺委員會，因為我八場、九場都有聽過，有啲去到一點幾咋，好似係，咁佢就去到 2.3，個傾斜度 44 度，44 度已經反喇，警乜鬼嘢告咗？係咪呀？咁你冇可能呢個界限值係設喺呢啲咁嘅地方裏面。

主席：（經傳譯員）郭先生，喺定嗰個嘅傾斜度 44 或者 43 度，就係為咗係令到佢係嗰個巴士係唔能夠再運作㗎嘛，因為佢唔係為咗要去提醒佢，因為嗰架巴士就會反個囉喎？

郭志誠先生：呢一方面，即係唔可以運作，唔可以運作咪反囉。即係好似電單車咁樣，你瞓彎嘅，你嗰個動力夠嘅，扭力夠嘅，就可以企番起身；如果你嗰陣時係收嘅，或者係耷落去就反嘅，一定嘅，咁你有咗個動力㗎嘛，點帶番起架車呢？佢呢啲咁嘅帶波，係普通市民未揸過車，或者係冇——對車嘅唔夠認識嘅時候，「好似係喎，係喎。」你嗰下停，你嗰下停咪反囉，你應該係有個扭力嘅時候，咪帶番起架車囉。

黃女士：（經傳譯員）唔好意思，我又再打岔，你正話就係話，嗰個黑盒係有儘量發揮佢嘅功能，首先就係嗰個嘅速度，嗰個剎掣，同埋嗰個穩定方面嘅控制，係咪呀？我正話嘅總結合唔合適呢？

郭志誠先生：我哋可以提供嘅，其實個黑盒係應該係有咩嘢可以儲存或者記錄，令到有咩嘢事起上嚟，或者係個車長駕駛態度，或者係平時有咩嘢犯規，我哋可以及早糾正佢，或者係喺個調查方面，係有好大幫助嘅。咁我哋都列咗黑盒裏面應該有嘅數值，或者係界限值：

第一樣，就係所有電力輸出嘅電子儀器，嗰個電壓嗰個數值；

第二樣，輪軸嘅獨立防滑裝置，系統個數值，佢嗰個獨立剎車氣壓，嗰個壓力數值；

第三，就係減速器嗰個系統嗰個段數值，即係一段段，你減咗速嗰個，應該黑盒裏面有；

1 第四，就係電子波檔掣嗰個波檔位嗰個數值，即係當時係用緊咩嘢波；

2 第五，就係嗰個轉數錶，即係轉數嗰個扭力，同埋嗰個速度嗰個數值；

3 第六個樣就係，電力懸掛系統嗰個氣壓，氣壓嗰個數值，即係個氣袋而家就  
4 係嗰個氣袋平衡嘅，以前就係鋼片嘅避震嘅，而家係氣袋，氣袋嘅，咁個數  
5 --當時嗰個數值係咩嘢嘞，咁第四個懸掛系統嗰個氣壓令到嗰個車身嗰個傾  
6 斜度，即係當時嗰個氣壓係咪夠，唔夠佢咪傾斜，即係佢嗰個能唔能夠正常  
7 發揮，嗰個回彈，即係佢傾斜咗嘅時候，嗰個數值係會自動撐番起佢嘅；

8 第七，就嗰個獨立壓縮氣缸，嗰個氣缸嗰個數嘞，係壓縮器又嗰個氣泵嗰個  
9 數值；

10 同埋第八，嗰個剎車系統，每次使用，即係所謂嘅加減速嗰個數據；

11 第九，嗰個係應該有個車輛當時嗰個總重量，咁呀計算到當時嗰個情...

12 應該就如果黑盒正常功能，運輸署叫佢裝，應該有齊呢啲咁嘅數值，就原廠  
13 嚟已經--如果加埋落去唔會貴嘅，只係公司可能嗰個責任問題，就唔想有啲咁嘅  
14 數值存在，認為如果有，可能佢話「哦，即係你嗰個維修做得唔好嘞。」即係唔  
15 達佢嗰個數值，我相信係呢方面嘅考慮，「運輸署冇要求，我咪唔做囉，冇理由  
16 畀咁多嘢畀人捉㗎嘛。」係咪呀？

17 黃女士：（經傳譯員）郭先生講到呢個黑盒，你早前提過嗰個嘅--可以係去偵測到嗰  
18 個駕駛態度，你哋工會係咪支持呢個實時監察車長嗰個嘅駕駛態度，實時監察？

19 郭志誠先生：原則上係好嘅，我哋利用科技係幫助到大家，同埋巴士公司會好安全，  
20 但係咁佢嘅數值係咪準呢？

21 大家都提出過，嗰個 ISO 39001，即係衛星定位，佢好多功能，係咪啱--  
22 好成熟，可以係香港嗰度用到呢？據我所知就應該就唔太準嘅。就以現時嗰個衛  
23 星定位，我哋揸車去到旺角，佢好多已經報唔到嘞，停咗或者報錯，即係因為香  
24 港高樓大廈多，可能亦都嗰個衛星信號收到唔好。雖然大家委員會或者市民，  
25 「好呀，加咩嘢科技，加咩嘢科技。」咁但係嗰個科技係咪成熟呢？其實就我係  
26 贊同嘅，但係要多啲實驗嘅。

27 主席：（經傳譯員）郭先生，你係聽到係捷克嗰度，就係佢哋就係容許喺任何時間，  
28 嗰個巴士嘅位置可以計算得到嘅。

29 郭志誠先生：佢係咁講，但係我覺得喺香港應該喺市區係做唔到，郊區可以，郊區可  
30 以嘅，市區可能做唔到嗰個準確嗰個嘅...

31 主席：（經傳譯員）郭先生，你就唔係一個嘅電子工程師，而家係你都係講緊係巴士  
32 嘅駕駛者，我哋都係聽過，我哋會聽一啲電子工程師嘅睇法。黃律師。

33 黃女士：（經傳譯員）運輸署嘅文件 403 頁，呢個係立法會嘅文件，係畀呢一個交

1 通事務委員會嘅，喺 2018 年 7 月，143（原文照錄）頁，中文版係 416 頁。

2 我想問下你，你哋工會同唔同意係使用某啲嘅安全裝置？

3 主席：（經傳譯員）郭先生，你明唔明白點解會有呢份文件？

4 郭志誠先生：我未聽過呢個文件。

5 主席：（經傳譯員）咁我解釋，我哋所收到嘅資料，就係運輸署喺 3 月中嘅時候，就  
6 係召開一個會議，就係包括巴士嘅營運商，有三個嘅巴士製造商，同埋運輸署同  
7 埋處理一啲嘅問題。其中一個就係車長嘅訓練，另一個就係要係使用或者係裝置  
8 一啲安全嘅裝置喺巴士度，第三就係關於安全帶嘅問題。呢個委員會就開咗幾次  
9 會，喺 7 月尾，喺 7 月 20 號就係公布咗一啲嘅建議，就喺呢一份立法會文件  
10 裏面寫咗出嚟嘅。你明白嗎？

11 郭志誠先生：明白，明白。

12 主席： Are we to understand this as well, that at no stage was  
13 your union asked to make any representations to this  
14 working group?

15 郭志誠先生：未有傳譯。

16 主席：（經傳譯員）咁就係喺任何時候，你同你嘅工會都係有收到任何嘅邀請話要向  
17 佢哋去表達意見，係嘛？

18 黃女士： May I ask in that context whether you support the use  
19 of some of this in-vehicle --

20 郭志誠先生：啱嘅，係對嘅，係。

21 講者（不能辨別）：翻譯有啲問題。

22 主席：（經傳譯員）即係有要求過你哋去向工作小組畀任何嘅意見，咁樣講係正確  
23 嘅？

24 郭志誠先生：佢哋唔知係喺邊度聽，即係好--對我哋個會就唔係咁放心，即係我哋好  
25 難...

26 主席：（經傳譯員）咁係咪--放唔放心都好，佢都有即係向你哋要求協助，係咪呀？

27 郭志誠先生：完全有嘅，係呀，寄信都未必會覆你嘅。

28 主席：（經傳譯員）黃律師。

29 黃女士：（經傳譯員）首先我想問嘅就係有關於一個嘅電子穩定系統，喺 (a) 呢一  
30 段，有冇--之前有冇聽過呢一個咁樣嘅系統？

1 郭志誠先生：呢次委員會聽證會我哋先會--先有留意呢樣嘢。

2 黃女士：（經傳譯員）你支唔支持使用呢一個嘅設備，即係你哋個工會支唔支持㗎？

3 郭志誠先生：支持嘅，科技我哋唔能夠逃避，即使用咗有咩嘢問題，我哋咪盡量反  
4 映，改善，我哋呢方面係持久咁會做多啲反映。

5 黃女士：（經傳譯員）我哋請睇 4(b)，即係嗰個減速器，車速限制減速器，4(b) 呢  
6 個就係話，將係--落斜嘅時候，將嗰個時速係限制咗喺某一個速度，目的就係  
7 使用減速品係超過 70 公里落斜嘅時候，就會用減速器去將個車速減慢，咁你支  
8 唔支持使用呢一個嘅設備？

9 郭志誠先生：我就未有好認識呢個設備，但係我想講一樣嘢，即係你減速即係截咗  
10 油，意思，截咗油即係空波，空波其實仲危險嘅，即係有一段時間空波，你截咗  
11 佢油，佢空波係咁衝嘅啫，所以我哋點解會強調一樣嘢，就係要有個手動減速  
12 器，要配合。你嗰個就咁截油，截咗油喺嗰個電腦控制嗰度，佢截咗佢油嗰段時  
13 間，有幾秒時間可能係空波，仲危險嘅，仲失去動力。截咗油又失去動力，即係  
14 架車係冇扭力，即係你帶--即係你唔能夠--有咩嘢情況之下，你唔能夠畀油帶  
15 動番佢，即係個車長控制番架車，你截咗佢油就空波，空波咪由佢衝囉，咁你  
16 brake 㗎到咪㗎，㗎唔到咪由佢囉。

17 所以就其實手動減速器或者咩嘢係唔係而家嘅嘢㗎，係不嬲都係嘢，你而家  
18 所有重型車、旅遊巴，全部都係有嘅，你係運輸署去就住巴士公司個要求，而乜  
19 嘢都唔使，唔使維修咁嘛。點解唔使維修，因為佢哋覺得巴士冇用--車長冇用，  
20 因為佢冇訓練過。

21 主席：（經傳譯員）郭生，你可能你覺得比較難接受，但係我哋明白你關於手動減速  
22 器嘅意見，我哋明白，所以唔需要再重複呢一點。

23 黃律師，請繼續。

24 黃女士：（經傳譯員）我哋而家再睇 6(a)，係巴士監察及控制系統。簡單㗎講，就  
25 係使用一個嘅係全球定位系統...

26 主席：（經傳譯員）但係頭先講咗話呢個係唔會真係確實即係可以講到嗰個汽車喺邊  
27 度，即係譬如話係--應該話係其他嘅定位嘅技術。

28 黃女士：（經傳譯員）係，仲有其他嘅定位技術，我只不過係睇緊文件啫。即係話可  
29 以利用呢啲定位嘅系統科技，然之後就去加埋嗰個車速限--當段嘅車速限制，  
30 然之後就可以提升到嗰個限速器嘅功能，即係話可以限制喺某一個路段，佢嗰個  
31 車速，去制訂應該限到幾時，限到咩嘢嘅速度嘅，你支唔支持使用呢一個儀器？

32 郭志誠先生：支持嘅。

33 黃女士：（經傳譯員）咁 6(b) 就係一個防撞嘅警--碰撞警報裝置，同埋保持行車線  
34 嘅裝置？

1 郭志誠先生：呢方面就係暫時就唔係好成熟。如果你裝落去，因為我哋啲巴士站，一  
2 架竊一架，就埋站嗰陣時大家都睇到，任何地方嘅巴士站，佢嘅設計嘅擺位都係  
3 一架貼一架，因為兩架同時上都係貼到好埋嘅，咁你如果有嗰個裝置嘅，就成日  
4 會響嘅。同埋你話過線，提示過線，我哋巴士好大型嘅，喺市區或者其他路段  
5 行，或者埋站嘅時候，我哋好多時或者有其他阻礙，或者有架車--紙皮車仔，  
6 或者有咩，或者有架車泊喺度，咁我哋都係騎住線嘅，咁咪成日響囉。同埋我哋  
7 一扭，扭出去，好多時都兩、三條線嘅，或者轉彎嘅時候，所以係好多時候係唔  
8 可以喺一個好完整嘅路線，嗰個火位嗰度由頭行到尾嘅，好多時會騎少少位嘅，  
9 咁係咪係咁響、係咁響呢？

10 即係呢方面，所謂神眼，就係佢只係向前嘅，除非就日後嗰個技術係前後左  
11 右佢都兼顧到嘅，咁就會好啲。如果而家咁樣，就係暫時唔係好適合。

12 黃女士：（經傳譯員）跟住 6(c)，監察司機裝置，監察...

13 主席：（經傳譯員）唔好意思，頭--可唔可以再問一次？因為頭先重疊咗聲。

14 黃女士：（經傳譯員）關於呢個監察司機裝置，6(c)。

15 主席：（經傳譯員）即係講緊嗰個係話恰眼瞓嗰個，係咪呀？

16 黃女士：（經傳譯員）呢一個呢。

17 郭志誠先生：呢個而家九巴裝咗四架，喺度實驗緊，有啲車長反應就係唔贊成，佢嘅  
18 原因就係話，因為個鏡頭係對住佢嘅樣嘅，咁廿四小時，佢好大壓力，好大壓  
19 力。同埋有一樣嘢，你裝呢樣嘢嘅時候，你一定係同時係減停車長嘅工作時數，  
20 否則的話，可以話畀大家聽，九成司機都有恰眼瞓嘅情況，好短暫嘅，時間太長  
21 嘞，咁呢個係無可避免嘅。即係我哋唔好自欺欺人，裝咗就提醒你，咁即係你如  
22 果話要裝嘅，如果公司愛嚟懲罰你，即係對工--對車長係...

23 主席：（經傳譯員）唔好意思，我唔明白你嘅意思，你就話九成嘅司機都會恰眼瞓，  
24 你頭先係咪咁講？即係因為工作時數長？

25 郭志誠先生：係嘞，好多時都--即係唔係話瞓著，即係恰一恰囉，即係...

26 主席：（經傳譯員）咁即係唔好喇，係咪呀？

27 郭志誠先生：即係眼簾會垂低囉，呢個係我唔會呃大家嘅，咁你「嘩，你啲司」--即  
28 係我哋啲車長咁樣㗎？咁事實係囉。咁係嘞，即係我哋好多其他後面我哋都有提  
29 出嘅，其實係巴士公司個管理唔好嘅，即係我哋都有提出嗰個叫做居住為本，咁  
30 你而家九巴五、六間廠，佢就屯門廠喺--要你喺九龍灣返，屯門廠出嚟荔枝角  
31 廠得一班工程車嘅啫，個個都兩、三點要起身，係咪呀？咁巴士工作嗰個時數你  
32 又計佢開工嗰刻，咁呢啲時間--係嘞，即係咁。

33 主席：（經傳譯員）郭生，唔該晒。

1 黃律師。

2 黃女士：（經傳譯員）跟住就係關於安裝係安全帶，喺所有座椅都係安裝安全帶，你  
3 哋工會支唔支持呢樣嘢？

4 郭志誠先生：為咗減低意外嗰個傷亡，我哋係贊成。但係就希望就好似其他旅遊巴或  
5 者咩嘢咁，淨係喺打橫嗰度拉埋嚟，就唔係話箍住膊嗰啲，因為嗰啲有好多人唔  
6 識纜，好多乘客或者小朋友唔識纜。其實就係會有啲唔方便嘅，落車嘅時間就會  
7 慢咗，可能有啲人除唔甩，唔識除。但係為咗安全，就係目前嚟講，未有其他，  
8 因為咁多危險因素裏面，未有其他保障乘客方面，我哋係贊成嘅，所有——係  
9 嘞，落安全帶希望係用打橫方式嗰個。

10 黃女士：（經傳譯員）最後就係專營巴士車長訓練方面，請你睇第十八段，呢度話工  
11 作小組同意運輸署應該係發出一份實務守則，係關於訓練專營巴士車長嘅，  
12 你...

13 主席：（經傳譯員）呢度其實有兩部分，呢度就話，即係我哋亦都收到運輸署嘅陳述  
14 書話畀我哋聽，實務守則已經發出。而郭生，我哋想問你嘅就係，你哋工會有冇  
15 收到一份呢啲嘅實務守則？

16 郭志誠先生：係冇。

17 主席：（經傳譯員）咁有冇係問過你哋意見，關於檢視訓練車長安排，點樣去監察，  
18 同埋係點樣去規管訓練方面？

19 郭志誠先生：係冇嘅，其實我哋可以有好多意見。

20 黃女士：（經傳譯員）請睇第 19 段，上面就寫咗訓練安排嗰個嘅架構，喺呢一個實  
21 務守則方面，即係佢哋係無論係全職、兼職都好，都係有一啲嘅定期訓練，同埋  
22 為特別目的而設嘅訓練。首先，你支唔支持呢樣嘢？

23 郭志誠先生：支持嘅。

24 黃女士：（經傳譯員）第 20 段，呢度就話，定期巴士車長嘅訓練應該包括呢啲單  
25 元，仲有係比呢啲嘅——同埋比重，咁係由(a)至到(e)，包括安全駕駛同道路安  
26 全、認識車內裝置設施、處理事故、顧客服務、認識公司規則、交通規例、職業  
27 安全及健康。你對於呢啲嘅係比重——單元嘅比重，有冇任何嘅意見？

28 郭志誠先生：其實佢呢啲課程，我可能都有——會有啲認識嘅。但係你要記住，啲車長  
29 就係，你就咁講，即係你好似讀書咁講畀佢聽，佢好多嘢係掌握唔到嘅，即係唔  
30 係好明嘅。即係過往我哋喺訓練學校裏面，就係導師講埋答案畀你聽，咁個個一  
31 百分嘅。咁交番運輸署，或者 check 番啲資料，畀高層、管理層、董事監或者  
32 係可能委員會去睇下，睇下啲數據，個個都一百分，咁呢方面就唔係好理想嘅。

33 其實就喺個訓練裏面，我哋啲車長就——嗰個課程裏面，其實我哋應該係用嗰  
34 啲數字量化畀佢聽，譬如嗰個距離係點計，譬如我哋車同我哋巴士係 50，最高

去到 70，咁我哋點樣計出嚟嘅，1 公里就 1,000 米，70 公里就係乘番 70，就係等於 70,000 米，再除番 60，咁就等於每分鐘係行咗幾多，再除多 60，等於每秒鐘，咁每秒鐘就係 19.5 米。咁你如果你行緊 70 嘅時候，你要停低架車嘅時候，你就量化到嘞，量化到，佢就認識「我哋去到嗰度，要行幾多。」因為佢有個量，有個數量畀佢知道，70 原來一秒鐘可以行到 19.5 米嘅；60 行到 16.6 米；50 行到 13.8 米；40 公里就每秒鐘行到 11.1 米；30 公里就佢就每秒鐘行到 8.3。因為你量化，咁佢哋容易明啲。你哋成日話兩秒距離，兩秒距離係幾多？你當時行緊幾多？佢成日話遠啲喇，遠啲喇，三秒、四秒，咁嚟香港好多環境嘅時候，點會大家個距離係隔到三至四秒呢？但係你要畀佢認識到，知道車速係乜嘢，車速係乜嘢，個盞燈我哋應唔應該去衝佢。

其實以前係有教嘅，咁以前係點教，就係去到第一個箭咀嘅時候，我哋就收晒油；去到第二個箭咀嘅時候，如果未轉燈，我哋可以畀少少油，加啲動力過埋佢。即使去到個頭轉過咗第一條停車線，因為我哋係巴士，有企位，嗰個情況之下，我哋係應該係去埋嘅。但係而家嘅訓練就有講呢樣嘢，「總之你喺條線停喇。」咁好多時嗰啲乘客或者街外人唔明白，「巴士衝黃燈，衝黃燈。」其實以前就都有同交通部或者係訓練學校有教過嘅，我哋點樣會——即係而家又話咩嘢閃燈啲，其實嗰啲閃燈都好，有時啲人你閃咗幾多秒，有啲人會博衝嘅，但係你如果有一個習慣...

主席：（經傳譯員）郭生，唔該。

黃女士：（經傳譯員）另外一個問題就係工作時數，喺你嘅第一份嘅文件，中文就係第 88 頁，係工會 1A 嘅文件，而英文文件就係第 90-7 頁，中文就 88 頁。第五段，你話「車長安全合理工時應該最高都係每日十二小時，而駕駛時數最高就係十小時。」我想問下你嘅意見或者你工會嘅意見，對於呢一個係兩味更，就係話最高嗰個工作時數去到十四小時？

郭志誠先生：即係你想講呢個問題？

主席：（經傳譯員）我哋想你畀我哋嘅意見，或者你公司——或者你嘅工會對於呢個兩味更嗰個指引，話最高就係工作時數十四小時，最多係揸車十小時，最起碼有三個小時嘅休息，你嘅睇法係點？

郭志誠先生：其實而家嘅指引係最高駕駛時數係十一小時嘅，如果根據呢幾日大家個委員會成日提議就話三小時休息，十四小時，係出年第二季先開始嘅，而家就喺 2010 年嗰個指引，就係十四個鐘，最高工時十一個鐘，就有指定中段休息係要幾多時間，係有指定。咁係出年第二季先開始實行嘅，其實而家係好多係休息...

主席： That's why --

郭志誠先生：...個零、兩個鐘頭，兩個零鐘頭，包埋食飯，咁佢——點解運輸署會就佢，咁佢而家到到出年第二季，有個空窗期嘅，有個空窗期，佢就盡量用盡...

1 主席：（經傳譯員）郭先生，唔該。第二年嘅第二季就係話呢啲嘅指引係會全面實施  
2 嘅，係咪呀？係咪咁呀？

3 郭志誠先生：講就係嘞。

4 主席：（經傳譯員）咁我就問下你，呢啲嘅指引話要起碼連續三小時嘅休息，九巴而  
5 家係有冇實行？

6 郭志誠先生：冇硬性規定，條條路線唔同，咁佢有啲加走直頭有啲，畀番個鐘頭你食  
7 飯，用盡佢十一個駕駛嘅時數，有時超咗少少嘅，即係過鐘咁樣。即你而家就運  
8 輸署冇硬性規定，佢咪走呢啲罅囉。

9 主席：（經傳譯員）你集中呢個問--回答呢個問題，九巴有冇開始實施減低，或者係  
10 實施話要連續休息三小時，喺呢啲兩味更嘅安排，即係話當值時數係十四個小  
11 時，但係最多只可以駕駛十個小時，九巴有冇喺某啲嘅路線開始呢一個嘅安排？

12 郭志誠先生：目前唔會，佢而家唔夠人手，係十一鐘頭駕駛，唔係十個，十個鐘頭係  
13 我哋建議。目前嚟講，係十四--最高十四小時，就駕駛時間係十一小時，中段  
14 而家就係三十分鐘，即係日後，出年嗰個第二季就係，如果一段時間係有連續駕  
15 駛六個鐘頭，有四十分鐘，一定要有四十分鐘休息，目前就係三十分鐘嘅啫。九  
16 巴就係目前嚟講，係有執行呢樣嘢，即係中段休息三個鐘，有啲係有嘅，兩個幾  
17 鐘又去唔到邊度。

18 咁我哋呢度有個同事係特別車，佢其實係有個電郵畀過--發表過意見畀委員  
19 會，但係佢可能電郵錯咗，咁委員會收唔到，咁琴日佢同我哋講嘅。我希望如果  
20 委員會可以--佢係特別車嘅，月薪嘅，佢如果--佢喺我哋隔離，如果委員會可  
21 以畀少少時間佢講下，等佢發揮--發表下自己特別車嘅心聲，希望委員會...

22 主席：（經傳譯員）呢個係咪黃先生？好呀，黃先生，你講下，你係咪揸兩味更？呢  
23 個星期有冇揸兩味更？

24 黃健威先生：而家係工傷嘅，唔好意思。我本人就揸咗特別更一年，其實中段嘅休息  
25 係...

26 主席：（經傳譯員）你最後一次揸兩味更係幾時？

27 黃健威先生：6 月 26 號。

28 主席：（經傳譯員）咁你可唔可以--你記唔記得你嗰日嗰個工作安排係點？幾多點鐘  
29 離開屋企？幾時係當更？幾時休息？喺邊度休息？

30 黃健威先生：6 點 15 分起身，六點半出門口，跟住返工，搭車，去到美孚之後轉兩  
31 程工程車，去到 7 點 35 分拍卡，然後開始開車。直至到上段嘅時間，係開  
32 11:40，開落去奧運站，一個鐘頭嘅食飯，至到中段休息係兩個鐘頭四十七分  
33 鐘，下段嘅開始車時間係 15 點 55 分。

- 1 主席：（經傳譯員）我哋唔趕㗎，黃先生，或者你慢慢形容。你喺邊度住？
- 2 黃健威先生：葵盛西邨。
- 3 主席：（經傳譯員）咁你六點半離開葵盛西邨，嗰朝早，係咪呀？
- 4 黃健威先生：係。
- 5 主席：（經傳譯員）跟住你去美孚，係咪？
- 6 黃健威先生：係。
- 7 主席：（經傳譯員）你搭咩車去？
- 8 黃健威先生：坐 37 號巴士。
- 9 主席：（經傳譯員）係乘客，係咪呀？
- 10 黃健威先生：係。
- 11 主席：（經傳譯員）你去到美孚，你點呀？
- 12 黃健威先生：跟住轉工程車，去昂船洲嘅九巴車廠。
- 13 主席：（經傳譯員）呢個係咪九巴嘅公司車？
- 14 黃健威先生：係。
- 15 主席：（經傳譯員）係車--係巴士定係一架私家車？
- 16 黃健威先生：一架旅遊巴，六十座嘅旅遊巴。
- 17 主席：（經傳譯員）仲有其他嘅車長一齊，係咪呀？
- 18 黃健威先生：係，冇錯。
- 19 主席：（經傳譯員）由美孚，你同其他嘅車長去到昂船洲，係咪？
- 20 黃健威先生：係。
- 21 主席：（經傳譯員）你幾多點去到昂船洲？
- 22 黃健威先生：大概係 7 點 20 分。
- 23 主席：（經傳譯員）嗰度有啲咩嘢設施，昂船洲嗰度？
- 24 黃健威先生：係一間九巴士嘅車廠。
- 25 主席：（經傳譯員）去到嗰度之後，你係咪打卡？
- 26 黃健威先生：係，冇錯。

- 1 主席：（經傳譯員）點樣打卡㗎？
- 2 黃健威先生：用八達通喺電腦嗰度拍卡，之後會有張當日嘅行車單。
- 3 主席：（經傳譯員）你用你嘅八達通就電子咁樣 7 點 35 分朝早打卡，係咪？
- 4 黃健威先生：係。
- 5 主席：（經傳譯員）跟住會點呢？跟住點呀？
- 6 黃健威先生：之後會出咗個當日需要揸嗰部車嗰個車牌出嚟，然後就要上去上面停車
- 7 場嗰度搵嗰部車，然後再開去站頭。
- 8 主席：（經傳譯員）幾多點鐘離開昂船洲？
- 9 黃健威先生：7 點 35。
- 10 主席：（經傳譯員）打卡番去，7 點 35，跟住就 8 點 35 分離開，咁之間做咗啲咩
- 11 嘢？
- 12 黃健威先生：唔係，7 點 35 分係離開昂船洲九巴車廠，由昂船洲嘅九巴車廠揸車去
- 13 葵盛西邨嘅巴士總站，開第一班車 8 點鐘。
- 14 主席：（經傳譯員）咁即係你喺巴士總站嗰度，就要揸架車去到葵盛西。咁嗰個係咩
- 15 嘢嚟，係巴士總站定係咩嘢地方？
- 16 黃健威先生：葵盛西邨係個巴士總站。
- 17 主席：（經傳譯員）係西？
- 18 黃健威先生：係。
- 19 主席：（經傳譯員）咁跟住你就揸嗰條路線，係嗰朝早 8 點開始，係咪？
- 20 黃健威先生：係，8 點係第一個單。
- 21 主席：（經傳譯員）嗰個路線係幾多號？
- 22 黃健威先生：37 號。
- 23 主席：（經傳譯員）個終點站係邊度，嗰條路線？
- 24 黃健威先生：奧運鐵路站。
- 25 主席：（經傳譯員）咁你繼續講畀我哋聽嗰日嘅事情㗎。
- 26 黃健威先生：之後——因為係我係做特別更，繁忙時間，之後就會私牌，即係暫停載
- 27 客，就再私返去葵盛西邨，開 9 點 31 分，咁就一直做到去 11 點 40 分，係最後
- 28 一轉，咁開落去奧運站，就上段係完成咗，咁大概個時間係 12 點 45 分左右。

- 1 跟住...
- 2 主席：（經傳譯員）你完咗早上個更，你係喺邊度㗎？
- 3 黃健威先生：部車要私牌，即係暫停服務，去揸番去葵盛東邨個度，擺低部巴士。
- 4 主席：（經傳譯員）呢個係咪總站㗎？
- 5 黃健威先生：都可以算係總站，係畀巴士食飯，又或者係畀下一個司機去接更，可以
- 6 暫時停泊嘅位置。
- 7 主席：（經傳譯員）你去到葵盛東邨係幾多點？
- 8 黃健威先生：約 12 點 45 分左右。
- 9 主席：（經傳譯員）咁你完咗 37 號路線嘅工作，係幾多點嘅事？
- 10 黃健威先生：正常個工時應該係 12 點 40 分，係一個鐘頭嘅行車時間，但係個時間
- 11 就另外再加多一個鐘係食飯嘅。咁正常個時間係應該係兩點零八分，計埋食飯時
- 12 間。
- 13 主席：（經傳譯員）咁你喺邊度--當日你喺邊度食飯？
- 14 黃健威先生：喺葵盛東邨食飯。
- 15 主席：（經傳譯員）嗰度有冇休息設施㗎？即係九巴嘅巴士嘅休息設施？
- 16 黃健威先生：之前係有，但係因為房署嘅問題拆咗，咁最近就好似我行過嗰陣時，係
- 17 已經裝咗一個休息室，應該係一個禮拜嘅事情嘅啫。
- 18 主席：（經傳譯員）喺 6 月 28 號嘅時候，喺葵盛東邨有冇任何嘅休息設施？
- 19 黃健威先生：呢個我唔清楚。
- 20 主席：（經傳譯員）咁你喺邊度食飯㗎，嗰陣時？
- 21 黃健威先生：喺葵盛東邨嘅商場個度。
- 22 主席：（經傳譯員）咁食完飯，食飯時間仲未完，咁你點樣過剩餘嘅時間？
- 23 黃健威先生：再坐番車去葵盛西邨個站個度，然後喺嗰度嘅休息室個度休息。
- 24 主席：（經傳譯員）咁你係搭咩嘢車去嗰度？
- 25 黃健威先生：有好多架車嘅，嗰度，有 47X、37M 同 37，都係搭巴士嘅。
- 26 主席：（經傳譯員）所以你搭巴士，係咪呀？
- 27 黃健威先生：係，冇錯。

- 1 主席：（經傳譯員）係乘客，以乘客身分？
- 2 黃健威先生：冇錯。
- 3 主席：（經傳譯員）一個係固定嘅路線嚟嘅，唔係話揸特別更嘅車長揸㗎？
- 4 黃健威先生：我係特別更嘅車長，固定嘅路線，因為已經係掛牌嘅車長㗎。
- 5 主席：（經傳譯員）呢樣我明，但係而家但係講緊你食緊飯嘅時間，就搭車由係東邨
- 6 去西邨，你頭先就話，你話你係搭車，以乘客嘅身分，由東邨去西邨嘅，係嘛？
- 7 黃健威先生：係，冇錯，因為東邨嗰度係有休息室可以畀我休息，只有西邨嘅巴士總
- 8 站嗰度先有員工嘅休息室。
- 9 主席：（經傳譯員）你就喺葵盛西邨休息，係嘛？
- 10 黃健威先生：係，冇錯。
- 11 主席：（經傳譯員）嗰度嘅休息設施係點樣㗎？有冇座位，有冇長凳？
- 12 黃健威先生：有三張嘅長凳，同埋有幾張檯。
- 13 主席：（經傳譯員）咁可唔可以瞓低㗎？
- 14 黃健威先生：淨係好似梳化咁樣，可以挨住。如果你話要完全好似張床咁瞓低，係冇
- 15 嘅。
- 16 主席：（經傳譯員）但你可以挨後挨低嘅，係嘛？
- 17 黃健威先生：係，冇錯。
- 18 主席：（經傳譯員）咁幾時係完咗你嘅休息時間？
- 19 黃健威先生：去到 15 點 55 分。
- 20 主席：（經傳譯員）咁你呢一個當日嘅休息時間係幾長？幾時開始呢個休息時間？
- 21 黃健威先生：連埋食飯嘅時間，約係兩個鐘頭四十七分鐘左右。
- 22 主席：（經傳譯員）幾點開始㗎？
- 23 黃健威先生：個行車個時間表就應該係計埋食飯，就應該係兩點零八分開始，至到
- 24 15 點 55 分。
- 25 主席：（經傳譯員）唔該。跟住你就繼續做呢一個駕駛嘅工作㗎，係嘛？
- 26 黃健威先生：係，冇錯。
- 27 主席：（經傳譯員）係咪再揸 37 號車定係另外一條路線？

- 1 黃健威先生：都係 37 號車。
- 2 主席：（經傳譯員）你揸呢條路線係幾耐？
- 3 黃健威先生：一年。
- 4 主席：（經傳譯員）唔係，係嗰日，即係嗰日揸呢條路線係揸到幾多點？
- 5 黃健威先生：哦，揸到係 20 點 43 分，呢個係收工嘅時間，包埋去番昂船洲放低架
- 6 巴士。
- 7 主席：（經傳譯員）所以即係話，即係打--即係嘟卡走嘞，嘟卡離開，係咪呀？
- 8 黃健威先生：冇錯。
- 9 主席：（經傳譯員）你嘟卡入就係朝頭早嘅 7 點 35 分，係嘛？
- 10 黃健威先生：7 點 35 分前。
- 11 主席：（經傳譯員）咁幾點嘟卡即係返工入去㗎？
- 12 黃健威先生：工程車返到昂船洲就係 7 點 20 分左右去拍卡嘅。
- 13 主席：（經傳譯員）當日，即係完咗嘞，嘟卡走，你係咪直接返屋企定係有做其他
- 14 嘢？
- 15 黃健威先生：直接返屋企。
- 16 主席：（經傳譯員）可唔可以講下，返到屋企係幾點？
- 17 黃健威先生：大概係九點四個字左右。
- 18 主席：（經傳譯員）之後嗰日，即係 6 月 29 號，要唔要返工？
- 19 黃健威先生：我最後係工作到 6 月 26 號，因為我當日最後嗰一轉車返去葵盛西邨嘅
- 20 時候，發生咗交通意外。
- 21 主席：（經傳譯員）唔好意思，26 號，你係咪即係都有牽涉喺呢個交通意外裏面
- 22 㗎？
- 23 黃健威先生：冇錯。
- 24 主席：（經傳譯員）交通意外幾多點？
- 25 黃健威先生：7 點 20 分。
- 26 主席：（經傳譯員）嗰次交通意外嘅性質係咩嘢？
- 27 黃健威先生：係有一架的士喺三線嗰度，打橫切入嚟一線，入去小路櫟樹街，而我架
- 28 車因為我係喺一線直行嘅，咁收唔切，咁撞咗落架的士嗰度。

1 主席：（經傳譯員）有冇受傷呀，你？

2 黃健威先生：有。

3 主席：（經傳譯員）係咪由嗰陣時開始就放病假？

4 黃健威先生：係，冇錯。

5 歐陽先生：（經傳譯員）唔該晒，我想跟進一下，你就講話休息嘅地方有三張凳嘅，  
6 通常就係同時間有幾多位嘅巴士司機會喺嗰度？

7 黃健威先生：應該有三至四位。因為每--即係佢哋其實係唔會係長時間，就可能係架  
8 巴士嚟到，有五、六分鐘咁嘅時--即係休息時間，咁入嚟坐下咁樣。

9 歐陽先生：（經傳譯員）咁夠唔夠位畀所有嘅司機，即係喺嗰個地方，夠唔夠畀位所  
10 有嘅司機同時間去休息？

11 黃健威先生：係足--應該係可以足夠容納到七至八個人嘅。

12 歐陽先生：（經傳譯員）唔該，唔該主席。

13 主席：（經傳譯員）郭生，我哋而家就會休息一陣，跟住 12 點係會繼續，即係跟番  
14 呢個鐘，唔該晒。

15

16 上午 11 時 43 分聆訊押後

17

18 上午 11 時 59 分恢復聆訊

19 出席人士如前。

20

21 主席：（經傳譯員）黃生，你同我哋講話你駕駛呢條路線就係即係揸咗呢係一年㗎，  
22 係咪呀？

23 黃健威先生：係，冇錯。

24 主席：（經傳譯員）可唔可以，即係如果你記得的話呢，就係描述一下咁呢係 6 月  
25 26 號倒數之前個禮拜，咁你呢就係即係冇休息，連續駕駛呢一個嘅特別更係  
26 做咗幾多日呀？

27 黃健威先生：基本上我係一至六，咁係有陣時係休星期日嘅，即係連續五日到六日。

28 主席：（經傳譯員）咁係五定係六日呀？定係你其實係可以改變呢個嘅模式㗎？

1 黃健威先生：係輪班輪休，所以正常係五日或者六日係放一日假。

2 主席：（經傳譯員）咁你嘅係工作嗰個嘅時間模式，係咪大致都係一樣呢，即係話幾  
3 點嘢卡返，幾點嘢卡放？

4 黃健威先生：係，冇錯，係固定嘅時間。

5 主席：（經傳譯員）如果有需要，你會唔會同意九巴將佢哋有啲呢一個 6 月 26 號嘢  
6 卡返工去到巴士總站，你呢就係休息，跟住呢就係嘢卡離開，如果九巴有呢一  
7 啲嘅資料，你同唔同意我哋問九巴攞呢個資料呀？

8 黃健威先生：同意。

9 主席：（經傳譯員）你同我哋講過休息設施，即係葵盛西邨嗰度嘅休息設施，有冇試  
10 過你休息嘅時候，即係嗰呢個特別更休息嘅時候呢，要去第二度休息呀？

11 黃健威先生：有陣時會，因為太嘈嘅話係，太多人進出入，咁可能有陣時我會選擇返  
12 屋企嘅。

13 主席：（經傳譯員）個問題其實係問呀，有冇其他地方你係--即係除咗葵盛西邨呀，  
14 有冇其他地方你係真係有去過休息嘅呢？

15 黃健威先生：冇，因為淨係得葵盛西邨嗰度有休息室，咁葵盛東邨係我之前返工係仲  
16 未裝個員工休息室嗰嗰度嘅。

17 郭志誠先生：咁呢度我想補充下呢就好--啲呢一...

18 主席：（經傳譯員）等等，等等，等等。等等，一陣間會到你。歐陽先生。

19 歐陽先生：（經傳譯員）係，唔該晒。我想澄清你頭先黃生講嘅說話，你提過話你嘅  
20 休息就係兩小時四十七分鐘，包埋食飯嘅時間，即係加埋之後就兩小時四十七  
21 分鐘，係嘛？

22 黃健威先生：係，冇錯。

23 歐陽先生：（經傳譯員）你亦都提及，如果太嘈，你就會返屋企，所以如果你要返屋  
24 企的話呢，可唔可以估下嗰兩小時四十七分鐘裏面呢，你可以即係休息到咩  
25 嘢程度先至繼續返工呢？

26 黃健威先生：其實休息個時間係真係唔夠，只係瞓埋隻眼，係養神嘅方式去儘量將自  
27 己個狀態去保持到最好。

28 歐陽先生：（經傳譯員）唔該晒。

29 主席：（經傳譯員）郭生你想講嘢㗎，係咪呀？

30 郭志誠先生：係，就係嘞，咁葵盛東邨度就好似呢幾日已經裝番個休息室嘅，咁呀我  
31 哋工會協助嘅，搵過周偉雄議員協助，咁呀好短時間佢哋就完成咗，即係我哋

1 都有提及過，我哋工會係主動介入嘅，因為我哋工會係有政治背景，所以呢就  
2 想促成啲嘢事情呢，我哋會親身落區遊說當地啲嘢，主要其實反對係區議員，  
3 咁如果地方有反對呢，就係政府部門嘅問題。

4 黃女士：（經傳譯員）可唔可以呢澄清幾樣嘢呀，黃生，你話呢你就係呢一個嘅七點  
5 三十五分之前呢嘅卡返工，跟住呢就兩點零八分就係食飯，咁即係中間有大約  
6 呢個六個鐘頭五十分鐘先至放食飯，咁所以我就想知嘞，你中段時間會唔會有  
7 啲小休，即係喺嗰六個鐘頭五十分鐘裏面，會唔會有啲小休㗎？

8 黃健威先生：因為我最後上段嘅開車係時間係十一點四十分，咁行車時間係一個小  
9 時，咁我一個小時，如果我係揸——因為當時個路面其實係暢通嘅，咁我係可以  
10 揸埋架車返去葵盛東邨嗰度放低架車。即係比原定個時間係早，因為個交通流  
11 量有咁大，所以係完全暢通嘅，咁可能係提早就返去，咁但係我實質個工作係  
12 有 break time 嘅，當時。或者係我可以提供個時間表去畀大家參考下，咁可  
13 能會大家清楚啲。

14 黃女士：（經傳譯員）好呀，我哋想知道你哋嗰個嘅休息時間係點樣安排，即係喺第  
15 一更嘅時候。因為我呢想知喺嗰六個鐘頭五十分鐘裏面，係想知道點樣安排嗰  
16 啲嘅小休時間呀，所以如果你畀到時間表我哋就最好嘞。就於你提及過嘅食飯  
17 時間一個鐘頭，咁係咪包埋咗喺嗰三個鐘頭連續嘅休息時間，係嘛？

18 主席：（經傳譯員）佢有承認話係呢個係有執行呢個連續三小時嘅休息時間，係咪呀  
19 郭生？有執行到呢樣嘢，有推行㗎，係嘛？

20 郭志誠先生：我都講咗係，2019 年第二季先實行嘅，而家係完全畀公司一個彈性，  
21 總之你當日十四個鐘，就唔能夠超過十一個鐘頭係駕駛時間，其他就係任佢，咁  
22 呀其實係嚴格嚟講有七個休息時間，因為佢而家因為唔夠人，佢用盡你，以前呢  
23 就係四點——三點、四點，即係我哋報告嗰度都有寫，最初嗰個時候就係上晝六  
24 點就至到十一點幾，跟住下晝三、四點先出嚟，咁樣嘅，以前嘅安排就係，咁  
25 佢而家就唔夠人嘞，咁變咗佢呢啲已經三點已經係晏㗎嘞，有啲就叫你直頭做  
26 第二條線，提早...

27 主席：（經傳譯員）唔該晒，郭生，問題好簡單。唔該晒，黃律師繼續。

28 黃女士：（經傳譯員）我想問黃生問題關於特別更嘅津貼呀，咁九巴係咪會畀一個減  
29 咗嘅，係咪即係\$21.9呀？

30 主席：（經傳譯員）係咪如果你——即係你做呢個特別更嘅時候呢，就會有呢個每小時  
31 \$21.9？

32 黃健威先生：麻煩你等一等。因為正確佢個特別更津貼，每一日係\$69.7。

33 主席：（經傳譯員）呢個係總數，唔係每小時計？

34 黃健威先生：呢個係總數㗎嘅，\$69.7，係。

1 主席：（經傳譯員）咁係嗰個嘅休息時間有幾個小時呀？

2 黃健威先生：兩個鐘頭四十七分鐘。

3 主席：（經傳譯員）黃律師請繼續。

4 黃女士：（經傳譯員）可唔可以再講一講關於呢一個係更嘅津貼，九巴嘅 1 號文件，  
5 呢個係問黃生嘅，請你揭去九巴文件 1 號，呢一個嘅 109 頁，有一個表，個表  
6 呢就寫咗嗰個津貼嘅。

7 黃健威先生：主席，有少少嘢想補充，\$21.9 係日薪員工嘅計法，而我\$69.7 係月  
8 薪員工嘅計法。

9 黃女士：（經傳譯員）你前面有冇呢份文件呀？109 頁。

10 黃健威先生：有。

11 黃女士：（經傳譯員）想請你睇一睇左手邊嗰直欄，就係呢一個嘅 2004 年之前入職  
12 嘅底薪，係咪即係話佢哋畀你嘅係\$11,810 定係 15,366 釐呀，邊個係適用於  
13 你呢？

14 黃健威先生：\$15,366。

15 黃女士：（經傳譯員）咁跟住你就有一個特別更津貼，就係\$1,951.5，係咪成個月  
16 㗎？即係畀一啲月薪嘅車長？

17 黃健威先生：係要計日數嘅，咁如果係返唔足十五日嘅話，係擺唔夠嘅。簡單啲嚟講  
18 就係按比例。

19 黃女士：（經傳譯員）咁你可唔可以話畀我聽，由(b)一路去到(g)，你會收到幾多  
20 嘅額外津貼？

21 主席：（經傳譯員）我諗我哋太過細節嘞，其實睇呢啲數字，我哋都知㗎喇。

22 黃女士：（經傳譯員）咁或者我去另外一個嘅話題嘞。郭先生，我想同你講另外一個  
23 嘅議題，就係你嗰文件度有提到嘅，就係有一條巴士專線嘅問題。第 90-7 頁就  
24 係英文，中文呢就係第 88 頁。

25 呢度就話，當一個嘅巴士呢係畀咗一個信息係要離站呢，咁其他嘅車輛應該  
26 係停咗佢，就畀咗巴士出咗先，咁呢就要有一個呢兩秒，鄰線嘅車輛就係畀巴  
27 士切入，咁係禁止巴士喺前方不足十米外切入前方巴士，尾巴士係需要突然間  
28 減速而令車輛乘客受傷，喺你嘅文件裏面，你係畀一啲嘅例子嘅，就係講到切  
29 線嘅問題。喺工會文件 104 頁去到 108 頁。喺紅磡站嗰個嘅問題。你係咪建議  
30 呢你希望有一個巴士優先嘅系統，好似類似星加坡嘅咁，係咪呀？

31 郭志誠先生：係，係。

1 黃女士：（經傳譯員）關於話必須要係畀巴士駛出站先...

2 主席：（經傳譯員）你係咪講係巴士站嗰度係...

3 郭志誠先生：係，係呀，係呀，正確，巴士站。

4 黃女士：（經傳譯員）你有冇咩嘢睇法係點可以執行得到呢？

5 郭志誠先生：頭先講咗係用一啲鏡頭，即係而家新車嗰啲側邊都有鏡頭嘅，咁我哋發  
6 出咗信號，或者兩秒，咁後面架車唔停嘅，我哋呢咁就可以執法。

7 主席：（經傳譯員）需要喺車嘅後面裝鏡頭，係咪呀？

8 郭志誠先生：而家係有左右兩邊，新車嗰啲左右兩邊喺個倒後鏡後面有嗰個側鏡鏡頭  
9 嘅，影住後面，咁點解話係兩秒呢，大家都清楚兩秒距離，咁呀政府都宣傳，  
10 點解要兩秒呢，就畀佢有個安全嘅情況，即係唔使佢突然間緊急停車，咁呀如  
11 果好似新加坡嘅做法呢就畫條線呢，咁好可能就大家會有啲誤會嘞，我哋啱過  
12 咗條線，或者啱啱到嗰條線你打燈，咁呀會有個誤差喺度，咁兩秒呢大家有個  
13 量化，量化兩秒，即係我建議兩秒，你可能可以建議三秒，咁呀即係我係量化  
14 畀大家參考，唔係話兩秒就--我話兩秒就兩秒，就有呢個問題。

15 香港地方小，你話同埋巴士站多，你個個巴士站畫條線，人哋都唔知係做  
16 乜，因為你煩係香港嗰啲道路交通標記呢，你要畫一條線或者係乜嘢呢，你要  
17 喺之前要畀牌嘅，同埋要刊憲嘅，每一個咁變咗係好繁複。嗰啲線行行下咁可  
18 能用咗，咁你變咗實行起上嚟就唔係咁好，咁呀用時間嚟做，比較安全。

19 黃女士：（經傳譯員）另外一個嘅問題呢就係關於安全嘅訓練，喺你第一份嘅文件，  
20 中文 84 頁，英文就係 90-4。你係講到安全嘅訓練，你就話當時呢，當以前  
21 呢，嗰個嘅交通都係比較簡單，而我亦都係對於路面熟習喇，我哋都需要訓練  
22 一個月，而喺呢個月嘅訓練期，大部分嘅時間都係訓練駕駛巴士嘅，你係評論  
23 而家嘅訓練呢係十八日係唔夠㗎。我嘅摘要係咪正確呢？你工會嘅意見就係話  
24 而家對於新聘嘅巴士車長嘅訓練係唔夠㗎，係咪呀？

25 郭志誠先生：正確，正確嘅。

26 黃女士：（經傳譯員）咁你建議訓練要幾長呢，對於一啲新入職嘅車長？

27 郭志誠先生：其實就都關乎一個經營問題，咁呀一個月係適中，除非佢本身有巴士  
28 牌，如果要入嚟巴士公司考牌嘅呢，一個月係唔可以少嘅，尤其是佢而家嗰個  
29 聘請個條件愈嚟愈低，咁呀上次聽證會，運輸署就話同巴士公司研究，有一年  
30 私家車牌就可以畀佢入去巴士學習駕駛，跟住十八日咁又話畀佢出嚟營業嘞，  
31 係非常危險嘅。係即係唔成熟嘅考慮嚟嘅。

32 黃女士：（經傳譯員）咁你呢度就係評論喇，喺你嘅回應嗰度嘅評論，係 7 月 25 號  
33 2018 年呢就係講到運輸署嘅訓練嘅角色...

1 主席：（經傳譯員）或者你就咁樣摘要個論點喇。

2 黃女士：（經傳譯員）嗰一個論點就係話，你評論呢運輸署應該係有更積極嘅角色  
3 嘅，喺車長課程嘅訓練同埋監察方面，你喺 7 月 25 號嘅意見書係咪咁嘅意思  
4 呀？

5 郭志誠先生：係，係需要運輸署嘅監管嘅，因為你就咁巴士公司整個訓練課程出嚟，  
6 佢係就晒佢自己吓嘛，就晒佢自己嘅需要，咁就唔會考慮其他人，咁運輸署係  
7 應該係要有監管，咁呀最好同嗰啲工會商討下，因為我哋係在職，知道專業巴  
8 士車長係需要咩嘢條件，咁就應該開放啲大家傾下，咁呀會好好多。

9 黃女士：（經傳譯員）好，我嘅問題問完嘞。

10 主席：（經傳譯員）唔該。郭先生，我哋今朝畀你嘅問題已經係完成嘞，咁你一  
11 嘅時候話你呢仲有其他嘅材料呢係想畀我哋嘅，如果你想我哋收到呢啲材料  
12 呢，就係請書面畀我哋，跟住我哋就會考慮嘅，你係咪打算向我哋提交多啲嘅  
13 材料呢？

14 郭志誠先生：做得到就會嘅，如果即係委員會仲有啲時間先會完善成個諮詢，咁如果  
15 我哋得到，趕到又會儘快提交，咁呀係嘞，等委員會參考下。

16 主席：（經傳譯員）咁我哋希望收到呢你打算畀我哋嘅資料。目前為止呢我哋多謝你  
17 今朝呢嚟到係提供意見，亦都多謝黃先生畀我哋知道呢一個揸特別更嘅車長一  
18 日嘅日程係點樣，係對我哋好有幫助㗎。咁我哋而家仲有另外嘅一啲嘅工會嚟  
19 到係作供，咁我哋而家呢就係會短暫休息，咁請貴工會呢就係離席，咁我哋就  
20 會有其他工會代表係就座，我哋而家會係小休兩分鐘，唔該。

21

22 下午 12 時 27 分聆訊押後

23

24 下午 12 時 31 分恢復聆訊

25 出席人士如前。

26

27 主席：（經傳譯員）李生同埋你嘅同事，歡迎你哋嚟到，多謝你哋就代表九巴職員權  
28 益工會接受我哋嘅邀請，嚟到今日畀口述證供，一陣我會叫黃律師開始問你哋  
29 問題，佢哋係代表檢討委員會嘅。李生，如果你想由其中一位同事答的話呢，  
30 你就向我哋講係邊一位，咁跟住呢就可以由嗰位同事去答㗎。

31 李國華先生：明白。

32 主席：（經傳譯員）唔該。黃律師。

1 黃女士：（經傳譯員）李生，呢個委員會呢工作係要檢--從呢一個安全角度檢討專營  
2 巴士嘅運作，所以我會集中呢方面，喺我未問問題之前呢，我就想先確定咗一  
3 啲基本嘅資料，係有關於你嘅工會先。你嘅工會呢係喺 2017 年嘅 1 月成立㗎，  
4 係嘛？

5 李國華先生：係。

6 黃女士：（經傳譯員）大約有二百位嘅會員，即係截至到 2018 年 6 月 18 號。

7 李國華先生：冇錯。

8 黃女士：（經傳譯員）你哋嘅二百位會員呢，全部都係全職或者兼職嘅員工，受聘於  
9 九巴？

10 李國華先生：冇錯，冇錯。

11 黃女士：（經傳譯員）嗰個比例係幾多呀？即係個百分比？

12 李國華先生：全九巴有八千六百幾個車長，我哋有二百會員。

13 黃女士：（經傳譯員）唔係呀，我想講嘅就係話幾多個百分比係兼職，幾多個百分比  
14 係全職呀，即係你哋嘅會員嚟計？

15 李國華先生：我哋得一個兼職嘅會員，其他全部都係全職。

16 主席：（經傳譯員）全部都係巴士車長，係咪呀？

17 李國華先生：有站長，有三位站長。

18 主席：（經傳譯員）其餘都係巴士車長，係嘛？

19 李國華先生：冇錯，冇錯。

20 主席：（經傳譯員）唔該。

21 黃女士：（經傳譯員）李生，喺你嘅陳述書裏面呢，我就想睇一睇有關於係呢啲嘅喪  
22 失嘅時間同埋一啲訂定咗嘅班次呀，想請你睇呢 129-4 頁，你哋只係呢畀咗一  
23 份嘅陳述書我哋，日期就係 18 年嘅 4 月 23 號，咁中文版就係 117 頁。咁有關  
24 嗰段呢就係 120 頁。

25 喺嗰段呢，你就話車長不斷流失，咁仍然要係維持同埋呢係減少脫班嘅情  
26 況，所以呢車長就係原有嘅休息時間呢，咁呢就會係因為要兼任其他路線喇，  
27 係即係喺呢個期間呢，希望有多啲休息機會呢，會視乎當時路線嘅情況呢，嘗  
28 試儘快完成該路線回到總站，爭取時間休息。可唔可以講一講，或者再解釋，  
29 或者解釋一下，點解要維持呢一個嘅係即係嗰個巴士嘅程--即係個巴士嘅規劃  
30 路線呢會影響到休息嘅時間呀？即係為咗維持班次，影響到休息時間。

31 李國華先生：係，巴士公司係將嗰個嘅時間表，嗰個--打個譬如，本身一條路線有一

1 個鐘頭時間行車嘅，咁佢縮到五十八分鐘，或者五十五分鐘畀你行車，咁嗰啲  
2 車長咪本身嘅休息時間已經少，但係如果你將嗰個班次嗰個時間更加縮短，縮  
3 短幾分鐘，咁佢哋已經係少咗幾分鐘嘅休息時間。

4 黃女士：（經傳譯員）可唔可以確認一下，要完成路線，但係時間就少咗，會唔會呢  
5 引致巴士車長即係更加有機會會超速呀？

6 李國華先生：會嘅，因為要趕住--趕番啲時間去爭取自己嘅休息時間，咁係咪要將嗰  
7 個車速會--雖然架巴士 70 公里啫，但係喺其他路段可能會行 50，佢都可能會  
8 行 70，咁呢啲咪導致嗰個車長嗰個壓力嚟囉。佢要追番啲時間吓嘛，追唔到佢  
9 咪要喺嗰路段嗰度咪要超速行駛，嗰個路段行 50 佢都可以分分鐘要行 70，或  
10 者先追得番啲時間。

11 黃女士：（經傳譯員）我哋聽過一個系統，一個監察嘅系統嚟㗎，係監察車長，就有  
12 啲嘅係界限係定咗喺黑盒裏面，就唔可以超過時速限制嘅，譬如可能呢就係呢  
13 一個車速限制 50 呢，就會將個界限定咗喺呢一個 55 嘅...

14 主席：（經傳譯員）你其實係講緊邊個人嘅證供呀？

15 黃女士：（經傳譯員）我引用嘅證供就係城巴嘅，我就想問嘞，會唔會有一個類似嘅  
16 系統應用喺九巴嗰度，即係一啲路段係時速限制 50，會有咁樣嘅設定呢？

17 李國華先生：有嘅，九巴都有個叫我哋俗稱叫「黑盒」，咁佢哋每一個行車嘅紀錄，  
18 我哋叫行車紀錄儀，記錄晒所有架巴士日常嘅運作，都可以喺個黑盒度搵得番  
19 嘅。咁公司會定期 check 呢個黑盒呢，就係話某些車長，你當時邊年邊月邊  
20 日，嗰日你行嗰個路段，你曾經超速幾多，咁九巴有呢個系統嘅。

21 黃女士：（經傳譯員）你知唔知道係定咗咩嘢界限呀，即係有關於路段如果時速限制  
22 係 50 嘅話...

23 主席：（經傳譯員）係九巴喺黑盒，即係行車紀錄儀裏面定咗嗰個嘅界限。

24 李國華先生：我唔係好明你問乜嘢。

25 黃女士：（經傳譯員）我哋聽過證供，或者我解釋一下，我哋聽過另外一個--即係另  
26 外一間公司城巴嘅證供，就係話如果嗰段路段定咗時速限制係 50 公里的話，佢  
27 哋就會喺黑盒裏面定一個嘅界限，就係 55 公里，如果巴士車長超過 55 公里的  
28 話呢，即係話如果係喺一段時間，譬如話係十秒，連續十秒超過時速 55 公里的  
29 話呢，就會自動記錄呢一個嘅資料，然後會自動發出一個特殊報告，跟住呢  
30 就會相應咁係懲罰呢一個車長，因為佢超過咗呢一個限制。

31 而家螢光幕會見到，咁呢就係話超過咗係時速 55 公里，連續十秒，而嗰段  
32 路段呢時速限制係 50 公里，另外如果佢哋係行車超過 75 公里，為時超過十--  
33 連續十秒，而該段路段個時速限制係 70 公里，咁你知唔知道呢，即係你--即係  
34 作為車長，喺九巴對於九巴嘅車長，有有一個類似嘅系統呀？

1 李國華先生：有嘅，有嘅。因為九巴嗰個，我哋理解呢就話佢嗰個黑盒呢，就係記錄  
2 你當時嘅車速，你平均嘅你--打個譬如，係行 78 公里，即係架車超咗 8 公里，  
3 佢就睇你嗰個時間，如果你喺十秒之內，你收油呢，就係有紀錄嘅，但係你超  
4 過十秒都唔收油呢，就係有紀錄嘅。即係 50 公里嗰度係一樣，70 公里嗰度都  
5 係一樣，係睇你行幾多，超咗幾多公里，你有到嗰個時間先會有，用個時間去  
6 計，十秒就係你收油就係冇事嘅。如果你唔識收油呢，繼續都係咁樣行呢，就  
7 會有警告信，或者會扣獎金呀嗰啲嘢嘞。

8 主席：（經傳譯員）等我理解下，你嘅意思係咪指即係架車係可以一路行 78，只要  
9 係唔再--即係唔再加快行快啲，即係話要返--收番去，落番去呢個--喺十秒之  
10 內落番去 70？

11 李國華先生：係，十秒之內要收油返到去 70 公里。

12 黃女士：（經傳譯員）你提及會扣津貼...

13 李國華先生：獎金，獎金。

14 黃女士：（經傳譯員）係呢個獎金。喺咩嘢嘅情況之下會扣獎金，同埋扣幾多呀？

15 李國華先生：我哋而家九巴將嗰兩份獎金合成咗，叫做我哋嘅底薪，咁以前未合成嘅  
16 時候，分咗兩個獎金制度，一個就係服務獎，一個叫安全獎，咁呀每一個有一  
17 千七百幾蚊一個月嘅，咁呀我哋日薪，一千七百幾蚊一個月呢，咁佢哋呢就嚴  
18 重嘅會扣一個月，即係你有交通意外，嚴重嘅，佢就會扣你一個月，如果通常  
19 都會扣半個月㗎嘞，即係如果有問題發生嘅時候，服務獎都係一樣，你畀人投  
20 訴得多，亦都喺嗰度會畀公司扣錢嘅，都係半個月或者一個月。

21 主席：（經傳譯員）但係嗰啲都係歷史嘞，係咪呀？而家再有獎金呀，唔會再有扣獎  
22 金嘅問題嘞？

23 李國華先生：冇錯。

24 黃女士：（經傳譯員）如果個車長超速，或者呢係有一個嘅報告，就係話佢超速嘞，  
25 咁佢會唔會受罰㗎？

26 李國華先生：睇嗰個佢犯嘅次數喇，公司會睇佢犯嘅次數，同埋嗰個相隔幾久，你個  
27 個月都有嘅，一定會扣你錢，如果咁樣我隔咗一年，或者隔咗七、八個月，你  
28 先再犯呢，就都係會出警告信提你，提番嘅啫。

29 黃女士：（經傳譯員）根據而家嘅制度，仲係會有一個嘅扣嘅機制，就係視乎你違例  
30 呢係有幾頻密，係咪咁嘅意思呀？

31 李國華先生：係，冇錯。

32 主席：（經傳譯員）咁喺邊度扣呀？

1 李國華先生：而家有得扣，而家嗰啲獎金喺個底薪，加埋落底薪度，九巴已經有嗰個  
2 扣獎金嘅制度嘞，只係話每犯一次呢，就會警--就會出封信畀你，如果你收咗  
3 三封信之後呢，你就會被解僱。

4 黃女士： So it is not a deduction from salary --

5 主席：（經傳譯員）黃女士，請等等。三封警告信就係會結果係咩嘢話？

6 李國華先生：被解僱。

7 主席：（經傳譯員）唔該。

8 黃女士：（經傳譯員）所以而家再有話從人工度扣錢呢一個嘅制度，反而呢就係三封  
9 警告之後就會解僱，係咪呀？

10 李國華先生：係，冇錯。

11 黃女士：（經傳譯員）下一個嘅問題呢就係關於訓練嘅。如果睇下第 129-6 英文版  
12 本，中文呢就係第 122 頁。你就係講到十八日嘅訓練課程，中文係--呢一個四  
13 個星期嘅駕駛訓練，你可唔可以話畀我哋聽兩者有咩嘢分別呢，喺四個星期同  
14 埋十八日嗰個課程呢，裏面嗰個內容有咩嘢唔同嘅呢？

15 李國華先生：現時九巴就行緊一個叫做由冇牌嘅，就用十八日連考牌嘅一個課程，咁  
16 課程入面係基本上同四星期嘅係差唔多，但係會濃縮咗好多，咁十八日嗰度就  
17 我哋認為係話嗰個訓練嗰個質素呢會下降嘅，真係佢入嚟做新車長嗰啲呢，我  
18 哋唔知佢係以前做--揸過咩嘢車呀，或者有冇揸過車嗰啲人，因為如果就算有  
19 揸過車，都係揸貨車，或者運貨呀嗰啲，或者揸的士呀嗰啲人多嘅，咁我哋一  
20 個大型巴士，咁呀係會一個叫做集體運輸嘅工具之一，咁佢哋訓練不足嘅時  
21 候，係咪會容易有交通意外呢？

22 同埋佢嗰個訓練嗰個時間，真係我認為係唔夠嘞。如果我哋自己--我本身  
23 入職，我做咗二十七年，入職嗰陣時係四個星期訓練，我本身已經有牌，有巴  
24 士牌嘅，咁都要訓練四星期，但係而家佢哋有牌嗰啲，即係而家九巴請有牌嗰  
25 啲，訓練咗七日咋，即係話係訓練路線呀，同埋嗰個--嗰啲叫做上嗰啲基本嗰  
26 啲課程，就七日已經係可以出嚟做一個叫做巴士車長，專業嘅巴士車長。

27 咁我哋本會呢認為呢就佢而家九巴嗰個訓練嗰個，而家咁多交通意外，牽涉  
28 有巴士嘅亦都好多，我哋即係我哋認為就係話，要訓練一個車長，起碼都要有  
29 四星期嘅時間去訓練，連埋啲課程呀，連埋嗰啲操路線呀，訓練嗰個路面經驗  
30 呀。亦都而家嗰個我哋建議呢就係話，嗰個每一個師傅，駕駛導師只可以帶兩  
31 個學員，以前我哋係帶三個學員，而家我哋希望公司嗰度改到係帶兩個學員，  
32 每一個駕駛導師。

33 黃女士：（經傳譯員）好，明白。去睇一睇下一份嘅文件，運輸署 1，403 頁。中文  
34 版本第 416 頁。李生，呢一份係由運輸署徵詢過五個嘅專營巴士營辦商，同埋

1 三間主要巴士製造商之後呢，就有呢啲嘅建議。

2 主席：（經傳譯員）呢個係一個特別嘅工作小組，由運輸署成立嘅，喺 3 月中，而呢  
3 個工作小組係要三個月內呢，有一個嘅建議出嚟，咁佢哋就喺 7 月 20 號有呢啲  
4 嘅建議，呢份文件係提交畀立法會交通事務委員會嘅。

5 黃女士：（經傳譯員）呢份文件係包括三方面，第一，就係喺車輛裏面安裝嘅安全裝  
6 置，第二呢就係安全帶喇，第三呢就係車長嘅訓練。我第一個嘅問題就係運輸  
7 署或者九巴，有冇提供或者諮詢過你哋就呢啲嘅項目嘅意見喇，喺今年 3 月至  
8 到 6 月之間有冇諮詢過你哋呢？

9 李國華先生：有嘅，我係第一次見呢份文件，係冇--公司有諮詢過工會嘅。

10 黃女士：（經傳譯員）咁我哋獲告知呢，最近就係運輸署係最近係向專營巴士營辦商  
11 發出一啲嘅指引，就係關於車長嘅訓練，等到呢不同嘅巴士營辦商嘅訓練係一  
12 致嘅，就係要由 2018 年 10 月開始實施。你有冇收到，或者你嘅工會有冇收到  
13 一份呢一個指引呢？

14 李國華先生：有嘅。

15 主席：（經傳譯員）黃律師，繼續之前呢，就係話上個星期，我哋唔係問過運輸署有  
16 冇呢一份嘅作業守則畀我哋呢，我哋而家有冇呀？

17 黃女士：（經傳譯員）未有。最後一個問題，李先生我想問你嘅，你有二百幾個會員  
18 喇，我知道有部分係--唔係車長，但係大部分都係車長，佢哋有幾多係揸呢個  
19 特別更嘅呢？你知唔知？

20 李國華先生：我本人就係特別更車長，我本人都係。咁我知道，即係我有認真統計過  
21 喇，但係我識嘅都有二、三十個都係特別更嘅車長，即係喺我哋嘅會員入面，  
22 都有二、三十個都係特別更嘅車長。

23 黃女士：（經傳譯員）唔該。我哋聽到嘅證供就係話，嗰個嘅 2018 年 2 月嘅指引  
24 呢，係冇嚴格咁樣遵守或者實施㗎，係關乎嗰個嘅休息同埋連續三小時...

25 主席：（經傳譯員）你嘅問題係咪嚴格遵守，其實嗰個嘅協議就係話，係要等到  
26 2019 年第二季先至全面實施㗎，所以個問題應該係問，而家有冇呢係開始實行  
27 緊呢一啲嘅安排？

28 李國華先生：九巴嗰度未有，未有呢啲安排，就係而家嗰啲時間表呢，就都好多車，  
29 好多特別更嘅車，連休息連食--即係中段休息食飯都唔夠三個鐘。呢啲我哋有  
30 啲數字喺度嘅，因為我哋收集咗好多資料，關於呢啲特別更唔夠三個鐘頭，即  
31 係佢九巴就話夠三個鐘頭嘅，但係我哋係用佢嘅時間去計呢，就唔夠三個鐘  
32 頭。

33 主席：（經傳譯員）呢一個調查幾時做㗎？

1 李國華先生：兩個禮拜之前，我哋已經係陸陸續續係向嗰啲會員去詢問，咁呀得出嚟  
2 嘅結果有成都好多條線，都係唔夠三個鐘頭，好多路線同埋某一條路線嘅一啲  
3 我哋叫「字軌」，即係字軌嗰度呢，譬如咁講，258D 呀，嗰架 S5 呀，有啲係  
4 60X 呀，有啲係 265B 呀嗰啲路線好多車都--好多字軌都係唔夠三個鐘頭休息  
5 連食飯嘅。

6 主席：（經傳譯員）你有冇嗰啲調查結果嘅文本可以畀我哋睇下？

7 李國華先生：我哋而家係印咗，呢個係得兩個先喇，因為我哋印--因為嗰啲資料喺我  
8 部手機度，有啲資料我又唔方便畀嘅，因為都係公司嗰個受控文件，我哋影番  
9 嚟嘅啫，所以就呢啲我哋唔會傳閱，只有我哋睇到有呢啲咁嘅--部分伙計用呢  
10 啲方式咁樣畀我哋。

11 主席：（經傳譯員）有冇一啲嘅資料你可以畀我哋嘅呢？有需要嘅你可以係油黑某啲  
12 嘅資料，等我哋知道你嘅調查有幾廣泛，譬如話有幾多個車長表示佢哋係有呢  
13 個三個鐘頭嘅休息？

14 李國華先生：而家手頭上都係十幾個嘅路線同埋某一個--即係十幾條路線，中間有啲  
15 特別車嘅時間，咁呀佢哋個別畀我嘅，即係駐明係話邊條路線，邊個我哋字軌  
16 車，即係就係話呢條路線係寫咗出嚟呢，係公司自己做嘅時間表係寫咗出嚟，  
17 係唔足夠三個小時連食飯連休息。

18 主席：（經傳譯員）有冇任何嘅資料可以畀我哋嚟到支持你嘅講法？

19 李國華先生：暫時我哋係呢度呢，我哋--呢度得番兩--我哋係印咗兩個時間嘅。如  
20 果係想睇嘅，我可以呢度可以畀你望一望。

21 主席：（經傳譯員）好呀，我哋而家都係午飯嘅時間嘞，或者你而家提供畀我哋，咁  
22 我哋可以將佢印咗喇，又將佢翻譯喇，我哋下晝兩點半呢就再復會嘅時候，我  
23 哋就問你問題，係關於呢一啲資料嘅。如果仲有其他嘅事情，你係有口供嘅，  
24 或者係我哋希望有證據嚟到係去支持，如果你有嗰啲嘅證據呢，請係向我哋提  
25 供。咁我哋而家就會食飯，下晝兩點半會繼續開始，唔該晒。

26  
27 下午 1 時 01 分聆訊押後

28  
29 下午 2 時 30 分恢復聆訊

30 出席人士如前。

31  
32 主席：（經傳譯員）午安。我哋有一份文件係你想交畀我哋嘅，我哋已經係做咗部分

1 嘅翻譯，或者我請黃女士處理，黃女士，黃律師。

2 黃女士：（經傳譯員）多謝，多議你提供呢份文件畀我哋，我哋摘錄咗同埋加大咗某  
3 一部分就講咗啲特別更嘅，我哋睇到一個例子，就係現時車長揸特別更嘅例子  
4 嚟㗎，呢條路線就係 258D。我哋可以睇到開始就係 6 點 50 分，收 13:43；然  
5 後又再喺下晝 4 點開始到晚上 8 點 15 分收，中間個休息時間只得兩個鐘頭十五  
6 分鐘，而唔係三個鐘頭。咁你可唔可以講畀我哋聽，呢個係幾時發生嘅呢？抑  
7 或係最近嘅例子？

8 主席：（經傳譯員）我哋睇唔睇到個日期，呢度？係咪一個更表嚟㗎，即係顏色嗰部  
9 分睇唔睇到？係咪話 4 月 28 號？嗰個有個日期。

10 黃女士：（經傳譯員）我睇唔到。

11 李國華先生：呢個時間表就係 7 月 9 號更改咗嘅，就係呢個時間表嚟嘅，係 7 月 9  
12 號。

13 主席：（經傳譯員）今年？

14 李國華先生：係，係，今年，今年嘅 7 月 9 號，因為公司嗰度就係大改，就係呢啲我  
15 哋叫做「時間表」就大改，呢個係實行嘅日期係 7 月 9 號嘅。

16 主席：（經傳譯員）呢度係咪一幅相嚟㗎，即係有顏色，左手邊嗰部分係咪一幅相嚟  
17 㗎？係公司貼出嚟㗎？

18 李國華先生：唔係，唔係，呢啲係嗰個電腦--喺電腦嗰度影出嚟嘅，即係我哋公司嗰  
19 個電腦影到嘅。

20 主席：（經傳譯員）好，咁係幾時影呢張相嘅呢？

21 李國華先生：唔清楚，因為係啲員工提供畀我哋。

22 主席：（經傳譯員）呢個電腦屏幕嗰度上面似乎有顯示一個日期，係 4 月--2018 年  
23 4 月 28 日㗎，你睇唔睇到？喺頂嗰度，喺頂部。

24 李國華先生：哦，咁因為呢啲都係員工提供畀我哋嘅呢，我有咁細節睇上面嗰啲細字，  
25 咁呢個就應該係 2018 年 4 月 23 號嘅。咁因為我哋公司最近一次大嘅執嗰個我  
26 哋叫做「更表」，就係 7 月 9 號好多路線都重新執過一次，但係呢幅相就係前  
27 日嘅--有啲員工擺畀--WhatsApp 畀我，話有啲咁嘅問題，咁我就用咗呢個，  
28 因為有一幅相，咁我就做咗嗰個例子。

29 主席：（經傳譯員）係，黃律師。

30 黃女士：（經傳譯員）嗰啲當更時間係咪所有特別更都適用，定係特殊情況？

31 李國華先生：呢啲係個別嘅路線同埋個別嘅每一條路線，嗰個我哋叫「字軌車」嘅適  
32 用，適用呢個--即係話呢架車--打個譬喻，呢個係 258D 嘅蛇五，咁佢呢個時

1 間表就係咁樣，如果蛇六又唔同㗎嘞。

2 黃女士：（經傳譯員）呢個更表係公司提供㗎？即係九巴提供㗎，係咪？你可唔可以  
3 再搵多啲例子畀我哋？

4 李國華先生：例如呢架 52x 嘅蛇七，咁佢哋嘅--喺早更嘅--睇下先，7 點 57 分拍  
5 卡，上段就收 12:07，但係佢下段開工就係 14 點 19 分，再要返去寶田攞車，  
6 咁中段時間得兩個幾鐘頭㗎咋，即係呢啲可以--呢啲例子都仲有幾個㗎。

7 主席：（經傳譯員）咁你想即係解釋啲點就係話，譬如攞番第一個例子喇，一三--兩  
8 個鐘頭，13:25，即係嗰個休息時間少過三個鐘頭，你想講係呢一點，係咪？

9 黃女士：（經傳譯員）李先生，你話--較早時候話畀我哋聽你係特別更司機嚟嘅都  
10 係？

11 李國華先生：係，冇錯，冇錯。

12 黃女士：（經傳譯員）咁從你個人經驗，你可唔可以講畀我哋聽你一日個工作係點嘅  
13 呢？即係由你開始--工作開始計。

14 主席：（經傳譯員）你上一次係幾時開特別更嘅車？

15 李國華先生：1 月 14 號，因為 1 月 15 號我就因為交通意外整嘅到而家都未開過工  
16 㗎，我 1 月 14 號嗰日都--之前都係返緊特別更。

17 主席：（經傳譯員）咁你可唔可以幫到我哋，就係喺你最後嗰日你返工嘅時間係點嘅  
18 呢？

19 李國華先生：嗰日我哋--我要搵番個時間表出嚟先。

20 主席：（經傳譯員）好，請你搵吓。

21 黃女士：（經傳譯員）你揸車揸緊幾耐時間？

22 主席：（經傳譯員）黃律師，佢搵緊個時間表。

23 黃女士：（經傳譯員）唔好意思。

24 李國華先生：我 1 月 14 號嗰陣時返緊嗰架特別車就上晝，即係 7 點 30 分簽到，咁  
25 就上段收工就係 11 點鐘左右就收工㗎喇，咁跟住就有一個鐘頭食飯，咁下段就  
26 開 16:11，跟住收工就係 21:29。

27 黃女士：（經傳譯員）咁喺你嗰嗰畀我哋嘅例子，你有冇三個鐘頭連續嘅休息時間？

28 李國華先生：哦，超過，超過三個--因為呢架車有四個鐘頭四十幾分叫做中段休息  
29 嘅。

30 黃女士：（經傳譯員）喺 2018 年 1 月 14 號之前，你做特別更嘅司機做咗幾耐？

1 李國華先生：三年左右。

2 黃女士：（經傳譯員）2018 年 1 月 14 號嗰更，你有超過四小時休息，呢啲係咪經  
3 常發生嘅呢，抑或--或者你可以話畀我哋聽你會點樣形容呢四個鐘嘅休息？

4 李國華先生：我都想補充一樣嘢，就係話每一條路線嘅設計嘅時間都唔同，咁有好多  
5 --我哋就住呢條--或者我自己本身嗰條路線就有六架蛇車，咁呢六架蛇車之  
6 中，係唯一一日，星期日就有一架蛇車少過三個鐘頭休息嘅啫，其他架架一至  
7 日都有足夠嘅--起碼超過三個半鐘頭嘅。咁我重點就係話有其他路線嘅設計嗰  
8 啲時間就係話少過--低於三個小時嘅休息，即係呢啲係話製造咗嗰個車長嘅疲  
9 勞駕駛嘅，佢因為得唔到足夠嘅時間，喺中段嗰度得唔到足夠嘅時間休息㗎  
10 嘛，咁我點解話唔會話自己條線唔夠，因為佢係夠嘅，係夠時間休息嘅。就如  
11 果你個--條條路線都好似--呢個設計好似我哋自--我自己本身做緊嗰條路線嘅  
12 時間，我係絕對係接受嘅，但係有啲路線係冇㗎嘛。我哋好多--而家舉咗幾個  
13 例子都係唔夠三個鐘頭㗎嘛。但係我哋自己本身返--我自己做緊嗰架就足夠㗎  
14 嘛，㗎嘛？咁公司唔會話就條條路線--因為條條路線嘅設計嗰個環境都唔同，  
15 咁我哋唔--只係提供就話嗰啲唔夠三個鐘頭嗰啲特別車嘅問題嘅啫。

16 主席：（經傳譯員）係邊啲路線？

17 李國華先生：九巴有好多條路線㗎㗎，我好難提供到咁多，因為有幾百條路線，咁我  
18 都有辦法提供晒㗎嘛。

19 主席：（經傳譯員）你喺 1 月 14 號揸嗰條路線係咩嘢路線？

20 李國華先生：269D。

21 主席：（經傳譯員）唔該。

22 黃女士：（經傳譯員）你可唔可以睇番而家呢幅圖，你睇番 258D 蛇五，「蛇」點  
23 解，首先？

24 李國華先生：我哋嘅用個“S”字嗰啲車就係叫做「特別更」，即係代表特別更嘅意  
25 意㗎。

26 黃女士：（經傳譯員）咁呢個 258D，你可唔可以講畀我哋聽呢條路線喺邊度開始，  
27 邊度係終站？

28 李國華先生：258D 係龍門居去油塘，去油塘嘅。

29 黃女士：（經傳譯員）係咪梅田？

30 李國華先生：寶田，寶田，即係屯門嘅寶田去油塘。

31 黃女士：（經傳譯員）咁你知唔知道呢度係咪有足夠嘅設施㗎，呢條路線？

32 李國華先生：我唔係好清楚，但係寶田嗰個休息室就都好細，我哋知道就係已經--我

- 1            咁係喺屯門廠嗰度反映過，叫佢加大嘅，但係而家仲係申請緊，即係加大咗休  
2            息室。
- 3    黃女士：（經傳譯員）你話你有同屯門車廠提出，係用咩嘢方式？係口頭定係書面？
- 4    李國華先生：全部口頭嘅。
- 5    黃女士：（經傳譯員）同邊個講？
- 6    李國華先生：口頭，口頭嘅，屬廠嘅經理。
- 7    主席：（經傳譯員）咁嗰位車廠經理係邊位？
- 8    李國華先生：溫惠賢（譯音）。
- 9    主席：（經傳譯員）係咪 Debbie Wong 女士？
- 10   李國華先生：唔係，呢個溫惠賢先生嚟㗎。
- 11   主席：（經傳譯員）唔該晒。
- 12   黃女士：（經傳譯員）李先生，如果我有理解錯誤，你喺九巴嘅時候就係二十七年做  
13            車長㗎喇？
- 14   李國華先生：係。
- 15   黃女士：（經傳譯員）你識唔識得一個人叫做鄭桂興先生同埋或者 Gary Wong 先  
16            生？鄭桂興先生...
- 17   李國華先生：唔識。
- 18   黃女士： You don't know?
- 19   李國華先生： I don't know.
- 20   黃女士：（經傳譯員）你個--喺九巴嘅工作經驗㗎講，你知唔知道係有冇個安全同埋  
21            品質控制嘅部門呢，喺九巴，喺 2010 年嘅時候？
- 22   李國華先生：有嘅，2010 年應--有嘅，我哋叫做安全--全名我唔係好記得喇，因為  
23            有個部門係叫做專係搞嗰個安全嘅，即係車長嗰啲安全訓練嘅，我就理解就係  
24            咁喇。
- 25   黃女士：（經傳譯員）你知唔知道呢個安全品質部門係會開會㗎？亦都會同車長開會  
26            㗎，有冇㗎？
- 27   李國華先生：我未聽過會搵--即係去同車長開會㗎，我未聽過，亦都有接觸過，或者  
28            冇被邀請過開呢啲會。
- 29   黃女士：（經傳譯員）咁你點樣知道就有呢個安全品質嘅部門？

1 李國華先生：都係我哋平時喺同屬廠嗰啲主任、經理開會聽過。

2 黃女士：（經傳譯員）你知唔知道有一個研究，就係 2010 年咁上下進行嘅，就係關  
3 於二十九個急彎嘅，咁就係基於某一啲嘅準則就係去辨認出呢啲嘅二十九個急  
4 彎，然後就係有一啲嘅措施就係站長係應該係跟隨，你知唔知道有個咁樣嘅研  
5 究？

6 李國華先生：唔知嘅，係未聽過添。

7 主席：（經傳譯員）或者我哋清楚少少講喇，咁呢個研究嘅目的就係希望建議車長係  
8 點樣可以係揸呢啲急彎嘅時候揸得更加好，咁但係你就有聽過，係咪呀？

9 李國華先生：冇，冇。

10 主席：（經傳譯員）唔該晒。

11 黃女士：（經傳譯員）你之前講過，就係話你話你曾經就同嗰啲車長經理傾過，你就  
12 聽過關於呢個安全品質嘅部門，你知唔知道呢個部門有冇建議到一啲嘅措施，  
13 大概係 2010 年喇，就係一啲嘅措施去提議嘅呢，有冇聽過？

14 李國華先生：連有呢個部門我哋都未--即係未聽過呢個部門，會研究呀，研究急彎，  
15 佢哋係同我--諮詢過我哋--我都--即係我哋本會就未被邀請，但係有冇人邀請  
16 其他人，我就唔係好清楚喇，即係完全有--即係呢件事我係完全--應該講係全  
17 不知情。

18 黃女士：（經傳譯員）咁關於呢個部門，其實你哋傾嘅時候個內容係啲咩嘢，講緊乜  
19 嘢㗎？即係當你同個車廠經理去傾嘅時候，咁究竟係關--圍繞呢一個部門嘅時  
20 候，你係講緊啲咩嘢話題？

21 李國華先生：因為我哋好--即係我哋--呢個部門我係唔知，所以我哋冇就呢個部門  
22 去圍繞--即係傾內部嘅嘢，咁我哋同屬廠經理傾嗰啲就係圍繞咗我哋車長日常  
23 運作嗰啲問題嘅啫，咁關於安全嗰啲嘢就我哋同經理呢啲傾，就係冇傾過㗎。

24 黃女士：（經傳譯員）咁最後一個題目我想傾嘅就係關於培訓嘅。我哋可唔可以睇睇  
25 KMB1，即係九巴嘅一號文件，咁就係第 120 頁㗎。我會簡單介紹下係關於乜嘢  
26 嘅，就係九巴嘅一個回應嚟嘅，咁就係運輸署之前寫封信畀佢，就係 2 月 12 號  
27 嘅--2018 年 2 月 12 號嘅一封信件，就係關於招聘同埋培訓呢啲全職車長嘅事  
28 宜嘅，咁呢個就係喺 2018 年 2 月 10 號嗰個巴士慘劇之後發生嘅事。咁我就會  
29 想問一問關於全職嘅車長佢個培訓係點樣嘢。李先生，你係--就係你個病  
30 假之前，你都係一個全職車長嚟嘅，就係--即係 2018 年 1 月 14 號之前，係  
31 咪？

32 李國華先生：係。

33 黃女士：（經傳譯員）咁我就想問你喇，首先就睇呢個之前我就問一問關於培訓方  
34 面，係咪所有全職嘅車長佢哋--即係如果要申請嘅--考試嘅人，咁佢哋係咪都

1 係要係通過一個十八個鐘嘅培訓，咁每--十八日嘅培訓，咁每一日就係 9.5 小  
2 時嘅呢？

3 李國華先生：係。

4 黃女士：（經傳譯員）咁之後會唔會有一啲嘅重溫培訓㗎？如果你係全職車長之後，  
5 咁你入職之後會唔會有一啲重溫培訓？

6 李國華先生：有嘅，不過近呢十幾年就有喇，因為之前我哋係話每兩年就會返公司就  
7 有一個叫做輔助駕駛嘅，咁就每兩年一次嘅，就要返去沙田學校嗰度就係接受  
8 一日嘅訓練嘅，即係溫習下嗰啲即係駕駛嘅態度、提高駕駛嘅技術方面嘅。咁  
9 而家就係有喇，即係近呢十年都有有呢個叫做嗰個每兩年一次嘅返學校嗰啲  
10 喇，即係而家係一個叫做你本身做車長，嗰一年有交通意外，咁就先至要返去  
11 嘅啫，如果你有任何交通意外，係唔需要返去再培訓嘅。

12 黃女士：（經傳譯員）你係有冇針對特別嘅路線係有一啲特別嘅培訓嘅呢，喺全職車  
13 長方面？

14 李國華先生：以我所知就有啲路線係一定要接受訓練嘅，咁例如過海線喇、行旺角，  
15 即係彌敦--旺角一帶嘅路線都要特別去訓練嘅，咁有一條就係--例如 64K 喇，  
16 即係行大埔公路嗰啲--唔係，大埔道嗰啲，同埋粉錦公路、林村一帶喇、大帽  
17 山嗰條 51 喇，嗰啲係要特登要訓練三日嘅。

18 黃女士：（經傳譯員）呢個同十八日嘅一般嘅訓練以外㗎，係咪呀？即係係一啲特別  
19 嘅路線喇，咁你就會係需要另外三日嘅特別嘅培訓，係咪咁？

20 李國華先生：係，冇錯，或者關於訓練呢方面，我搵我哋陳生幫幫我手。

21 主席：（經傳譯員）陳先生。

22 陳詠豪先生：主席先生，我啱啱之前就喺交通事務委員會就 2018 年 7 月 25 號舉行  
23 個會議，有另一份文件嘅，佢就係一個背景資料簡介，裏面嘅中文版本第 4 頁  
24 第 15 點佢有一樣嘢就咁樣引述番嘅，「九巴表示不論全職或兼職，巴士車長若  
25 果未有行駛某路線一個月或更長嘅時間，將需要再次練習行駛該路線」。咁我  
26 想畀主席先生知道，其實呢一個嘅--即係九巴講嘅佢呢番說話，其實就從來都  
27 冇喺我哋車長度實行過嘅。

28 主席：（經傳譯員）黃大律師，可唔可以就幫我手睇下，搵一搵呢一個相關嘅文件？

29 黃女士：（經傳譯員）就係 TD-1 第 403 頁第五...

30 主席：（經傳譯員）第 15 段係講關於安全帶㗎㗎。

31 黃女士：（經傳譯員）我相信係另一份文件㗎㗎。

32 主席：（經傳譯員）呢個係一個背景資料。

- 1 黃女士：（經傳譯員）係咪由--係立法會秘書署準備嘅呢？
- 2 主席：（經傳譯員）咁個編號係幾多？
- 3 黃女士：（經傳譯員）我哋嘗試而家喺網上搵緊喇。
- 4 主席：（經傳譯員）係咪喺嗰個文件夾嗰度冇㗎？好，我哋--我其實我已經睇過，但
- 5 係我哋而家嘗試想睇一睇。
- 6 陳詠豪先生：係，冇錯，係呢度喇。係，就係呢一度喇。
- 7 主席：（經傳譯員）黃大律師，係咪喺我哋嘅文件夾度？可唔可以將嗰個文件碌上
- 8 啲，等我哋睇到嗰個上文下理係到底幾時話報告過呢件事，或者我哋可以去第
- 9 13 段、14 段嗰度。咁呢度似乎有提及喺 2 月 15 號開嘅會議，咁跟住我哋而家
- 10 可以去到第 15 段。係喇，呢度就有嗰個背景喇。可唔可以請你重複你嗰個論
- 11 點，頭先，陳生？
- 12 陳詠豪先生：主席先生，我想提出嘅論點就係話九巴佢話係「無論全職或者兼職巴士
- 13 車長，未有行駛某路線一個月或者更長時間，將需要再次練習行駛該條路
- 14 線」，而呢一樣嘢由我入職到而家，公司都未有做過。
- 15 主席：（經傳譯員）你幾時入職㗎？
- 16 陳詠豪先生：15 年 3 月。
- 17 主席：（經傳譯員）請等一等，唔該。呢份係秘書處嘅文件，就搜集咗各類資料，係
- 18 畀立法會議員嘅背景資料㗎㗎，就係講過去發生咩嘢事，咁呢個係指喺 2 月 15
- 19 號嗰次會議講嘅，嗰次會議有冇個會議紀錄？嗰個會議紀錄--應該嗰次會係有
- 20 個會議紀錄㗎，係咪？存在㗎，係咪？咁等我哋可以係去再查一查，到底秘書
- 21 處呢度所講嘅係咪準確，同佢哋九巴實際講嘅係咪一樣。或者呢件事可以遲啲
- 22 再睇嘅，不過我哋聽到你個點喇，陳生。咁即係話你係質疑--根據你個人嘅經
- 23 驗，係質疑呢個講法？
- 24 陳詠豪先生：係，冇錯。
- 25 主席：（經傳譯員）係，黃女士。
- 26 黃女士：（經傳譯員）或者請你睇九巴嘅意見書第一冊，120 頁。
- 27 主席：（經傳譯員）係帶我哋去邊度？
- 28 黃女士：（經傳譯員）就係去九巴畀運輸署署長，2 月 12 號，2018 年嗰封信嘅回應
- 29 㗎㗎，就話要--即係運輸署要求攞個調查報告，就係因為有 2018 年 2 月 10 號
- 30 嗰宗嘅巴士慘劇。
- 31 主席：（經傳譯員）係。

1 黃女士：（經傳譯員）陳生，呢度就係九巴昇署長嘅回覆嚟㗎，咁就提到招聘同埋培  
2 訓全職同兼職車長嘅情況。我想問你幾個問題，關於全職車長嘅，就我講一般  
3 嗰個培訓同埋特別培訓。我哋可以睇 120 頁嗰度睇到喇，呢度列出全職車長個  
4 培訓，個細字有提到話十八日嘅培訓喇，而喺下一頁就有提到話全職車長申請  
5 人會有最少十八小時喺路面駕駛嘅培訓，就會由導師看管下去做呢個練習嘅，  
6 你可唔可以證實係咪真係有咁嘅情況？最少六十八個鐘頭駕駛訓練。

7 主席：（經傳譯員）如果你唔可以答到就請你講，即係你如果唔知，就請你講喇，照  
8 講。

9 陳詠豪先生：因為呢一封嘅內容同我當年上堂就有啲出入嘅。

10 黃女士：（經傳譯員）你可唔可以指出你接受嘅培訓係點樣？即係當時你接受嘅培  
11 訓。

12 陳詠豪先生：就咁講佢第一--即係個 phase 2 嗰度，佢話四至五款巴士車型訓練，根  
13 據我個人實際嘅訓練，只係得兩至三款嘅巴士啫。

14 黃女士：（經傳譯員）咁路線訓練呢？呢度有提到話路線訓練係訓練兩條路線。

15 陳詠豪先生：係嘅，我都--我當時都係訓練兩條路線嘅。

16 黃女士：（經傳譯員）咁我哋有之前聽過李先生一啲嘅供述，就關於話係復修訓練，  
17 即係全職車長嗰度喇，咁喺另一頁有提到就話有兩條路線，喺導師嘅指導之下  
18 做訓練嘅，咁而巴士車長嘅應聘人，首先一定要做過呢個訓練先至可以考試  
19 嘅，咁我哋又聽過話有三日嘅培訓喇，你知唔知道自從你嗰陣時開始，有冇啲  
20 咩嘢改變過？即係由你入職到而家有冇改變？

21 陳詠豪先生：基本上都係冇改變。

22 黃女士：（經傳譯員）或者請你睇 123 頁。呢度提及話聘任嘅車長無論係全職、兼  
23 職，都會有路線訓練，咁另外仲會有啲路線等佢哋熟悉咗先至會編派佢哋去揸  
24 㗎，可能話過咗三至六個月之後就會揸另一條路線咁樣，有冇發生過？

25 陳詠豪先生：有。

26 黃女士：（經傳譯員）咁係會唔會有額外畀訓練？

27 陳詠豪先生：我當時個人嘅經驗就係我哋公司有個部門叫「派更部」，英文叫  
28 “duty dispatch” 呢個 unit 嘅，咁佢就會打電話畀我哋，就叫我哋自己就  
29 喺站長某一條線，例如叫--即係跟 111 咁計，咁喺 111 嘅站頭裏面就問站長攞  
30 一張叫做「跟車紙」，咁然後就自己坐一啲其他車長揸嘅巴士，揸兩轉--即  
31 係坐兩轉，咁坐咗兩轉，若果識嘅話就交番去派更部，咁就有一個 111 呢條路  
32 線嘅 record。

33 黃女士：（經傳譯員）127 頁，我哋可以睇到就有啲嘅修正嘅訓練，即係一年內有四

1 宗要負責嘅事故，如果係新車長喺頭三個月有幾宗要負責嘅事故，或者係不小  
2 心駕駛或者未能夠確保乘客安全，咁如果再有一次嘅不小心駕駛，就會終止服  
3 務。咁呢度提到話有一至三日嘅修正訓練喇，通常就係一日喇，就要由導師嚟  
4 去建議嘅，有冇發生過？

5 主席：（經傳譯員）你係咪問陳生有冇接受過修正嘅訓練？

6 黃女士：（經傳譯員）係，有冇接受過修正訓練㗎，喺咁嘅情況之下？

7 主席：（經傳譯員）或者應該--你個問題係咪問佢有冇接受過修正訓練㗎？

8 黃女士：（經傳譯員）係。

9 主席：（經傳譯員）係。

10 陳詠豪先生：我從來都有接受過修正訓練。

11 黃女士：（經傳譯員）就你所知，或者其他嘅車長㗎，你知唔知道佢哋有冇接受過修  
12 正訓練？即係喺咁嘅情況之下，好似呢度所講嘅嗰啲情況，呢一版講嘅。

13 陳詠豪先生：以我所知，我就冇聽過。

14 黃女士：（經傳譯員）主席，我相信我已經問晒啲問題喇。

15 主席：（經傳譯員）好，唔該。

16 羅先生：（經傳譯員）一個簡短嘅問題，根據你嘅經驗，即係其他特別更嘅司機，你  
17 可唔可以揀一條路線係近你屋企㗎？或者佢哋會唔會考慮你屋企喺邊度，然後  
18 先至派一條路線畀你？

19 陳詠豪先生：根據我嘅經驗，只可以--若果嗰條路線有一個空缺，有一個吉位，我哋  
20 可以嘗試就入一張我哋叫「簡便報告」就畀一個車務組，然後再交界編更  
21 組，再根據我哋車長內部嘅評分去--即係畀我哋可唔可以分配到呢一啲嘅路  
22 線，而舉例我講我自己就係隸屬於沙田廠，喺沙田區嘅工作，但係我住喺大埔  
23 嘅。

24 羅先生：（經傳譯員）即係你有得揀嘅？唔可以揀嗰啲路線？即係除非係要有空缺，  
25 即係嗰條路線有空缺，跟住你可以去申請？

26 陳詠豪先生：冇錯。

27 主席：（經傳譯員）李生，你提及係你揸特別更嘅車長，三年揸咗，㗎唔㗎？

28 李國華先生：㗎。

29 主席：（經傳譯員）喺呢三年內，你係咪揸唔同嘅路線嘅呢？

30 李國華先生：唔係，都係喺原本嗰條路線，即係 269D，即係我哋俗稱叫做「掛咗

1 牌」，就喺嗰條路線，咁偶然因為調假或者其他問題，咁可能會調走其他路線  
2 囉，就係唔多。

3 主席：（經傳譯員）當你休息嘅時候，即係呢個喺兩更--有分更--中間呢個長休息  
4 時間，你會喺邊度去休息？

5 李國華先生：屋企，因為嗰個擺車嗰度好近我屋企，所以我可以返到屋企嘅。

6 主席：（經傳譯員）咁係喺邊度？

7 李國華先生：天水圍，因為天水圍本身有個車廠，咁可以擺到--中段時間啲巴士我哋  
8 叫做俗稱「榻車」，就「榻」咗喺嗰間廠入面，咁我自己就係出入都係用架單  
9 車，咁樣可以快啲返到屋企，因為就算我行路都係十五分鐘已經返到屋企㗎  
10 喇。

11 主席：（經傳譯員）即係天水圍車廠就喺你兩更之間，你就會泊架車喺嗰度，係咪？

12 李國華先生：公司安排泊喺嗰度嘅。

13 主席：（經傳譯員）咁天水圍車廠有冇一啲休息嘅設施嘅呢？

14 李國華先生：有嘅，但係就通常都係啲車長喺擺車嗰度食飯，就好似啲啲休息或者例  
15 如可以瞓覺啲啲地方就有喇，只可以食飯，咁瞓覺通常都係喺架巴士度或者--  
16 即係佢哋住得遠就返唔到屋企啲啲，同埋時間少啲啲就係架巴士嗰度休息，就  
17 返唔到屋企啲啲。就我哋呢啲返到屋企，如果冇三、四個鐘頭，我哋都係返屋  
18 企休息囉，同埋喺屋企食飯。

19 主席：（經傳譯員）你知唔知道你嘅同事係會唔會--就因為佢哋返唔到屋企，咁所以  
20 佢哋就係喺個巴士上面就即係小休下，瞓一陣咁樣？

21 李國華先生：冇錯嘅，因為佢哋住得太遠喇，有啲住到錦田，啲啲即係就算佢返去，  
22 一來一回都要兩個鐘頭嘅，咁佢返屋企做咩嘢？佢休息都係三--即係公司時間  
23 都係畀三個鐘頭你，但係你一來一回用咗兩個鐘頭囉，咁點樣休息呢？咁就索  
24 性喺架巴士度休息囉，咁你車廠入面有休息室嘅，就只有得個食飯嘅地方，就  
25 有休息嘅地方，咁所以啲車長通常都係選擇喺架巴士度休息囉。

26 主席：（經傳譯員）係，唔該晒。咁你喺最後呢個部分，你有冇啲特別嘅事項你想提  
27 出嘅呢？因為我哋都差唔多要結束㗎喇，呢個環節。

28 李國華先生：我哋都有啲意見想再提交嘅，因為我哋喺--即係就住嗰個工時啲啲問題  
29 嘅。咁我哋提出就係話早更收工，即係特別更就唔可以超過 21 點，早更接更，  
30 即係就係我哋開工嗰陣時候，早更嘅開工時間就唔好少過--即係唔好喺 03：30  
31 嘅之前。因為太早開工，啲啲時間--即係人哋食緊早晨，我哋已經當係食緊午  
32 飯㗎喇。咁夜更我哋就唔可以早過 13 點開工，因為嗰個夜更我唔知佢收幾多  
33 點，但係你喺 13 點之前--已經有好多巴士--即係路線係夜更開工係 11 點已經  
34 開工㗎喇，咁點為之夜更？咁新入職啲啲車長就唔好安排兩味車，因為佢哋都

1 未適應個公司嘅運作。咁仲有兩樣嘢，...

2 主席：（經傳譯員）你話 11 點鐘，你係講下晚上 11 點，定係早上 11 點？

3 李國華先生：早上 11 點，就夜更要開工喇。

4 主席：（經傳譯員）好，早上 11 點，唔該晒。

5 李國華先生：係。

6 主席：（經傳譯員）唔好意思，你呢啲嘅係點樣--呢啲咁嘅更係點樣叫呢？係早更、  
7 午更，定係晚更？

8 李國華先生：九巴得早、夜更㗎咋，有早更同埋夜更，冇話中更啲啲，只有早更、夜  
9 更同埋通宵更，即係九巴而家啲更分。咁我哋會提出呢個問題，就係因為如果  
10 你啲特別更收超過 21 點，第二日就唔夠十個小時休息嘅，因為路面情況千變萬  
11 化，你如果設計一個時間表係收 21 點嘅，咁如果佢返到嚟，因為交通意外、道  
12 路擠塞，超過呢個 21 點，就第二朝就返唔到工㗎喇。即係兩更之間就係話有個  
13 十小時休息個問題㗎嘅。

14 主席：（經傳譯員）好，可唔可以逐點該點講？咁早更㗎講，基本上係幾多點鐘至幾  
15 點鐘開始嘅呢？

16 李國華先生：我嘅意思係話早更開工嘅時間就係頭車通常都係 5 點鐘要簽到㗎喇，因  
17 為有啲路線係簽 3 點--因為有條路線--因為啲啲調--公司要個架早更嘅車長要  
18 兼通宵更收工個時段就要佢簽 3：30 簽到，早更，簽 3：30 要做 N 車，即係  
19 做一轉 N 車，所以提早咗個出廠時間，咁就導致啲車長就因為太早開工，個  
20 個人個個精神--因為佢收工未必係收 1 點，可能係收兩點，咁係有成十一個鐘  
21 頭嘅工時，但係你太早起身，個人嘅精神會比較容易疲勞。

22 主席：（經傳譯員）咁喺早更㗎講，其實係大概幾多點至幾點鐘會完更嘅呢？

23 李國華先生：個別路線嘅時間唔同㗎，有啲--如果最早嘅收十二點幾都有，但係有  
24 啲就會收到 3、4 點都有，同時係拍 5 點，即係拍卡係拍--即係頭車咁計，同時  
25 間拍 5 點鐘，但係佢收工時間--如果長途車嘅，可能兩轉，如果你話比較平均  
26 嘅工時，一個鐘頭一個單啲啲就可能收到 3、4 點。

27 主席：（經傳譯員）咁夜更就大概係幾多點鐘至幾點鐘開始嘅呢？

28 李國華先生：我哋咁樣睇喇，因為個個--條條路線個設計嘅時間都唔同㗎，咁如果我  
29 哋--因為我哋建議公司就話夜更唔好喺 1 點之前開工，就係咁啫，就係話因為  
30 每條路線嘅接更嘅時間都唔同，就即係話車數多嘅，接更嘅時間會拉長㗎，  
31 咁所以夜更 6 點鐘又開工，有啲就 1 點鐘，有啲 11 點鐘就開工，係啲車長都難  
32 適應㗎，因為你 1 點鐘開工，我一訓醒就早餐都未食，就已經食午飯喇，咁  
33 就開工㗎喇。咁開工個個--太早開工個段時間就--即係話你夜更太早開工，咁  
34 你用膳嘅時間又會提早㗎，咁車長一收工就開始--即係有啲車收成點幾兩點

1 幾，咁就成十二個鐘頭工作嘅，咁啲車長容易疲勞，容易咩嘢嘅。

2 主席：（經傳譯員）通宵更通常係幾點鐘開始㗎？

3 李國華先生：七點半之前開工，通宵更。

4 主席：（經傳譯員）咁通宵更通常係幾點鐘至幾點鐘完嘅呢？

5 李國華先生：夜晚七點半，收朝頭早七點半。

6 主席：（經傳譯員）唔該晒。咁呢個就係關於你工時方面嗰個建議㗎，咁你有冇其他  
7 嘢你想提㗎？

8 李國華先生：我仲有兩個問題關於嗰個道路上嘅問題嘅。咁有啲而家喺街擺啲環保  
9 斗，成日擺喺巴士嘅嗰啲路線，即係擺喺條馬路上面，阻礙巴士埋站，阻埋其  
10 他道路使用者嘅，咁其實環保斗係咪有個專門部門去吊走佢嘅呢？因為你咁樣  
11 妨礙咗嗰個路面嗰個道路使用者安全㗎。咁我想提議下就係佢哋有啲--我唔清  
12 楚法例有冇規定佢哋擺邊度㗎，但係而家好多道路，例如彌敦道或者咩嘢--間  
13 中都會擺啲環保斗喺度阻礙嗰個交通嘅。我想建議就係話你專門部門如果見到  
14 呢啲情況，點解唔拖走佢呢，因係你影響好--即係嗰條繁忙道路嚟㗎嘛，你擺  
15 環保斗，製造一個叫做交通擠塞。咁我哋巴士車長嘅，如果交通擠塞嘅，咁時  
16 間，用咗我哋啲時間去塞車，咁啲乘客又等耐㗎，咁佢哋環保斗可唔可以擺去  
17 第二度，去咩嘢呢？係咪我哋可以投訴佢，跟住就可以由警方去處理？

18 主席：（經傳譯員）我相信一定係有一有關嘅部門就係需要批准嘅，喺環保斗，咁我  
19 哋就會同運輸署傾一傾，或者甚至同警方去傾一傾㗎。

20 李國華先生：Thank you。仲有一樣...

21 主席：（經傳譯員）如果你有一啲嘅相片，你就想提供畀我哋嘅，咁可以說明話即係  
22 呢啲環保斗喺街道上造成有啲咩嘢嘅困難、問題，特別係喺巴士站附近㗎，  
23 咁你可以提供呢啲相關照片畀我哋㗎。

24 李國華先生：明白。咁我仲有一樣係關於巴士站嘅，咁而家我哋--即係較早前我哋同  
25 運輸署開會，即係啲巴士站擺咗啲其他車輛喺度，阻礙巴士埋站，咁我哋會建  
26 議話如果--即係話喺巴士站範圍泊車，違例泊車，可唔可以引入一個扣分制度  
27 呢？即係等有啲阻嚇性啲，其他外界車輛唔可以泊入巴士站。因為而家好多外  
28 界車輛泊入巴士站，好似係合法咁泊咗入去嘅，我哋巴士埋站係需要 double  
29 park 嚟落客、上客。咁警方我哋報--返到總站再報警嘅，佢哋都走晒㗎，咁我  
30 哋想話--即係話引入嗰啲叫做你泊喺巴士站入面嘅違例泊車就需要扣分，有個  
31 阻嚇作用，就係咁㗎。

32 主席：（經傳譯員）其實喺九巴嘅--有啲喺--向前方嘅攝錄機嘅，係嘛？有啲巴士  
33 係有呢個裝置嘅，係嘛？

34 李國華先生：有嘅，有嘅。

1 主席：（經傳譯員）咁呢啲嘅攝錄機其實就可以話係影到一啲前面係非法泊車嘅影像  
2 嘅，係咪？

3 李國華先生：係會影到嘅，但係唔係大部分巴士都有嘛，係得一千八百幾架有咋嘛，  
4 即係向車頭前面影啲係得千零架有鏡頭㗎咋。咁我建議就喺巴士--如果你係  
5 要鏡頭嘅，不如喺巴士站裝鏡頭囉。即係巴士站嗰度裝啲監控鏡頭咁樣，有冇  
6 違例泊車咪--即係好過用巴士本身嗰個 cam. 去做囉。

7 主席：（經傳譯員）但係點解唔用我哋而家已經有嘅一啲裝置呢？又或者可以兩樣都  
8 用嘅。

9 李國華先生：因為仲有啲巴士未裝到鏡頭㗎，因為好多舊式嘅巴士冇鏡頭，因為而家  
10 仲存在啲巴士，都仲有--大部分都未淘汰，所以啲未裝--唔會裝鏡頭㗎喇  
11 嘛，係嘛？而家新式嘅只有千零部係有鏡頭㗎咋。

12 主席：（經傳譯員）咁如果有啲嘅攝錄機嘅巴士，咁你會唔會就同意就話如果個車  
13 長見到有一個咁嘅違例泊車喺前面，咁佢揸一個掣，咁就知道有個情況，咁就  
14 將呢一個嘅閉路電視嘅影像就傳送番去相關嘅人士，咁就大家知道可以制止呢  
15 個情況，咁你會唔會支持呢個咁樣嘅做法？

16 李國華先生：支持嘅，支持嘅，咁其實都係巴士埋到站嘅，咁啲巴士車長揸車比較舒  
17 服啲囉，因為你唔使同其他道路使用者--根本你嗰個違例泊車㗎嘛，泊喺巴  
18 士站，係嘛？咁啲客又安全，巴士又安全。如果你泊晒喺巴--啲違例泊車泊  
19 晒喺巴士站嘅，咁我哋要上客，啲客要喺車與車之間去上客...

20 主席：（經傳譯員）李先生，我哋明白你嘅論點㗎喇，咁我哋而家希望所做嘅就係搵  
21 一啲方法去幫你可以解決你嗰個問題嘅。

22 李國華先生：明白。

23 主席：（經傳譯員）仲有冇其他嘅論點你想提出㗎？

24 李國華先生：陳生有問題。

25 陳詠豪先生：主席先生，我想關於一個路線，即係而家工作個更表裏面，因為我哋希  
26 望運輸署可以做一個指引，每一日一個車長同一個更次最多就係一條主線加一  
27 條附加線，即係一加一。因為而家好多路線，即係喺同一個更表裏面需要一加  
28 二，即係 total 係做三條線嘅，我哋希望呢個情況就可以--即係運輸署可以做  
29 一個指引，就避免啲車長就混淆路線，就行錯路、停錯站。

30 主席：（經傳譯員）即係而家你可以係會要你哋揸三條線，你就建議話係減到兩條，  
31 係嘛？

32 陳詠豪先生：係，係。

33 主席：（經傳譯員）好，唔該。好，多謝幾位出席嚟畀你哋嘅證供。我哋仲有其他工

會嘅代表等緊發言嘅，咁所以我哋而家休息少少時間，然後就會繼續嘅，好多謝你哋出席。

下午 3 時 32 分聆訊押後

下午 3 時 45 分恢復聆訊

出席人士如前。

主席：（經傳譯員）請稍等等，請坐低，請就座，請就座。

葉蔚琳女士：（經傳譯員）唔該。

主席：（經傳譯員）首先我哋想多謝你葉女士同埋月薪車長大聯盟嘅代表就接受我哋嘅邀請就嚟做呢個口頭嘅陳述嘅。我就解釋下我哋嘅程序係點樣樣，首先就係黃大律師，佢就係資深大律師，佢係幫助我哋委員會嘅工作，佢哋就會問你哋嘅問題，主要都係環繞你哋個陳述書嘅，但係都會係就其他嘅方面嘅事宜去問你哋問題。喺你哋嗰方面，如果係你自己以外，希望其他嘅同事係幫你一齊答問題嘅時候，你就可以話請邊個、邊個就代表呢個聯盟去回答，咁就得㗎喇。你係咪起初，即係開始嘅時候，你會想有啲發言呢？

葉蔚琳女士：係，唔該法官大人。

主席： Very well.

葉蔚琳女士：首先感謝特區政府委派呢個專營巴士安全嘅獨立委員會，特別感謝倫明高法官先生、歐陽伯權先生、羅康錦先生以及各位隊團。因為我都得知大家喺呢段時間不斷咁樣日以繼夜，即係 7 點鐘都未收工咁去儘快去將我哋巴士嘅呢個行業嘅問題儘快去解決，特此喺度係非常感謝大家嘅。

或者我哋唔好阻大家太多嘅時間，第一個部分，我哋首先--我哋之前提交咗嘅，關於我哋安全把關嘅第一個重要嘅環素，就係話工程部，以下落嚟有一位資深嘅工程部嘅員工，佢表述下佢日常生活中喺工作上有咩嘢嘅困難嘅，我哋請...

主席：（經傳譯員）你就唔需要咁樣做，我首先會請黃大律師係問你哋問題，如果有一啲嘅問題黃大律師問，又有一啲嘢係有涵蓋到你哋想講嘅說話，你之後你就可以補充嘅。請黃大律師。

葉蔚琳女士：知道，明白。

1 黃女士：（經傳譯員）葉女士，我哋呢個嘅委員會就係有個責任係提議--建議有關呢  
2 個安全嘅方面嘅建議，就係特別喺呢一啲嘅專營巴士服務方面嘅安全嘅，我嘅  
3 問題主要都係集中喺安全，而唔係話聘用員工方面嘅問題，我希望你明白呢一  
4 點。

5 葉蔚琳女士：知道。

6 黃女士：（經傳譯員）關於你嘅大聯盟，我相信就你哋喺勞工署登記嘅，2018 年 3  
7 月 28 號登記嘅，係唔係？

8 葉蔚琳女士：係。

9 黃女士：（經傳譯員）目前就係一百五十個--2018 年 6 月嘅一百五十個嘅成員，...

10 主席：（經傳譯員）係全部都係全職員工嚟嘅？

11 黃女士：（經傳譯員）係唔係？

12 葉蔚琳女士：係。

13 黃女士：（經傳譯員）喺你哋有一封信就係中文嘅信，係 75-3 頁嗰度有一封信，係  
14 中文信嚟嘅，就有譯到英文嘅，睇到呵？你喺封中文信係咁講嘅，2018 年 6 月  
15 18 號嘅呢封信，就係喺 TU 文件夾 75-3 嗰個頁，就係你講到你哋嘅成員嘅組  
16 織係點樣樣，喺呢封信裏面，你個大聯盟就曾經進行過諮詢嘅，就有八百名嘅  
17 全職員工係有意加入嘅。

18 葉蔚琳女士：係。

19 黃女士：（經傳譯員）我就想首先問一問關於你而家目前有一百五十位嘅會員，佢哋  
20 全部都係全職員工，佢哋係嚟自邊一個嘅專營巴士公司嘅呢？

21 葉蔚琳女士：大部分都係九巴嘅車長嚟嘅，有一啲係新巴、城巴都有嘅，但係佔嘅部  
22 分比率係好少嘅。

23 黃女士：（經傳譯員）你可唔可以話畀我聽一百五十個之中大概幾多個係九巴嘅呢？

24 葉蔚琳女士：因為我哋喺嗰個審核過程裏面，我哋係交由我哋嘅秘書去處理我哋嘅有  
25 關嘅會員嘅，因為其實大家都要上班同埋之前要準備委員會嘅事同埋其他嘅事  
26 項嘅時候，其實正確嘅資料，即係話幾多嘅比例就有，但係我所知道，其他巴  
27 士公司大約有五位嘅，其餘都係我哋九巴嘅員工嚟嘅。

28 黃女士：（經傳譯員）唔該晒。你嘅陳述書就提到好多嘅題目嘅，首先我就會講一講  
29 關於培訓--車長嘅培訓，第 68 頁，係中文嘅，係英文嘅第 72 頁第 3 段，你提  
30 到關於就有一個嘅車長嘅學員，佢就係已經考核咗，就成為車長，但係後來就  
31 係發生交通意外，嚴重受傷嘅，喺不足一星期，佢上班就係發生咗呢個意外，  
32 你可唔可以話畀我聽佢係一個兼職還是係全職嘅車長呢？

1 葉蔚琳女士：佢係我一個同班嘅一個同學，即係一齊入嚟經過訓練之後考一個巴士牌  
2 嘅。佢因為其實我都想順便講一講點解會帶出呢個問題出嚟呢？因為其實當時  
3 佢嘅導師，因為每一個導師都會帶一至三個學員喺一架車度訓練，其實當呢個  
4 導師見到呢個學員，以佢嘅多年經驗，認為呢個學生其實唔係好適宜去做一個  
5 專業嘅司機，曾經佢勸喻呢個同學唔好再去繼續呢個學業，不如搵過第二份  
6 工，但係當時因為呢個同學喺馬來西亞返嚟嘅，可能佢又急需搵一份工，冇辦  
7 法底下，老師都盡最大嘅努力，同咗組長講，希望用公司個--即係可以令到呢  
8 個學生即係話覺得佢唔適合，就唔好再畀佢再繼續呢個課程咁樣，但係當時因  
9 為都係同而家嘅情況差唔多，因為人手實在太短缺，每日收車實在太嚴重，為  
10 咗要交數，即係話佢哋每一個老師或者每一個上司，佢哋一路咁樣上去嘅時候  
11 都有一個壓力，就係話每日希望儘量培訓多啲學生可以交數出嚟個呢個真正可  
12 以去駕駛呢個巴士咁樣。

13 所以佢哋喺一層一層壓力底下，無奈就係話--我哋會見到一啲問題就係話  
14 其實佢哋有時都會--因為其實我喺琴日裏面都撞到有一個--其中嘅一個駕駛嘅  
15 老師，一個好資深，佢都有同我傾到一個問題，就係話其實佢哋有時內心都係  
16 好痛苦，同埋有時都要埋沒良心，就係我之前所講嘅，其實我哋香港人又好，  
17 每一個行業都好，佢哋為咗自己嘅生活而去埋沒自己嘅良心，明知唔得嘅，但  
18 係為咗唔想公司即係...

19 主席：（經傳譯員）葉女士，你繼續之前，我哋要打斷一下。呢個嘅學員，其實佢係  
20 已經係通過咗考試，係咪呢？

21 葉蔚琳女士：係，係。

22 主席：（經傳譯員）呢個係邊一年佢係上呢個堂㗎？

23 葉蔚琳女士：2013 年呢個 4 月 22 號，我開始入嚟--入職嘅，即係喺之前十八日之  
24 前。

25 主席：（經傳譯員）唔該晒，唔該晒。有一個簡單嘅一點，呢個學員佢就已經係通過  
26 咗運輸署嘅考試，佢就後來就有交通意外。

27 黃女士：（經傳譯員）葉女士，係咪即係你培訓完之後，2013 年你就正式就即刻加  
28 入咗九巴，就已經係做咗五年，係咪？

29 葉蔚琳女士：（沒有可聽到的回答）

30 主席：（經傳譯員）我希望你講出嚟，因為如果你就咁吸頭，我哋就有辦法係做紀錄  
31 嘅，唔該晒。

32 葉蔚琳女士：明白，係，係做咗五年嘅。

33 黃女士：（經傳譯員）我哋講到關於學員嘅問題，喺你嘅陳述書裏面，你就話嗰個導  
34 師就關於呢一個嘅學員嘅性格有一啲嘅睇法，但係公司就喺目前嘅制度底下就

1 冇理會到呢啲嘅評語嘅，我嘅問題就係話個公司點樣去唔理到嗰啲嘅評語，同  
2 埋呢啲嘅評語係啲咩嘢評語㗎嘅呢？

3 葉蔚琳女士：例如呢個導師佢經過同組長反映之後，組長就叫佢去天台嗰度試行泊  
4 車，即係我哋喺個訓練學校裏面，喺上面有泊車嗰個位置，就叫佢試㗎，  
5 「okay 喇，咁就得喇。」咁樣就繼續畀佢即係呢個課程咁樣。

6 黃女士：（經傳譯員）你覺得九巴提供畀車長嘅訓練係唔足夠，雖然嗰個學員佢已經  
7 係通過咗個考試喇？

8 葉蔚琳女士：因為最主要嘅原因，即係其實我哋成日講巴士嘅安全或者個把關，其實  
9 可能喺各方面都要去配合，包括運輸署喺幫我哋九巴考牌嘅時候，可能佢會覺  
10 得我哋仲有一段時間會訓練，可能會比較寬鬆，呢個亦都可以商榷，但係問題  
11 一樣嘢，就係話當一個有經驗嘅導師佢覺得呢個學員其實唔係好適合揸車嘅時  
12 候，佢都盡佢最大嘅能力去表達嘅時候，因為我哋會睇到就係每一層嘅壓力令  
13 到佢哋叫做寧願即係話即係多啲人，即係話有個數字喺度，幾多人入嚟做或者  
14 可以經過訓練，而忽略咗嗰個真正嘅安全嗰個把關。

15 因為我都想補充下，其實佢哋導師都有評核嘅，佢哋評核嗰個標準喺邊度  
16 呢？其實每一--其實因為佢哋喺評核當中，因為我哋--當時我好記得嗰個情  
17 況，就係我哋當日考試嘅時候，每個師傅都好緊張，佢哋好似自己考牌咁，因  
18 為其實點解呢？因為其實呢個佢哋訓練出嚟嗰個學生如果個合格率高嘅話，可  
19 能會令到佢哋嗰個評核會高啲，呢個都係我哋見到現場去估計，因為佢哋都好  
20 緊張話因為都要--有透露過其實都係因為對佢哋嚟講，係一個表現嘅一個標  
21 準，喺駕駛學院，佢能夠--佢帶領學生...

22 主席：（經傳譯員）佢哋嘅表現評核就唔係通過運輸署考試嘅其中一個考慮因素㗎  
23 嘅，係咪？

24 葉蔚琳女士：係，係，係。

25 主席：（經傳譯員）即係運輸署嘅考試係完全分開嘅，係咪？

26 葉蔚琳女士：係，係，係。

27 主席：（經傳譯員）即係從你所講，佢哋可能會係話成為公司評核佢哋嘅情況，但係  
28 呢個係公司嘅事㗎嘅，係咪？運輸署就要決定呢一個嚟考試嘅人係咪通過到個  
29 考試，然後發個牌畀佢，所以黃大律師你想問嘅係咩嘢呢？

30 葉蔚琳女士：係。

31 黃女士：（經傳譯員）或者我可以去到睇你嗰啲建議，你其中嘅建議就係話要有三日  
32 嘅加強訓練嘅課程，就係車長嗰度要做嘅，就係第 6 段有提及，呢三日嘅增強  
33 課程，就係重點教授油門、剎車控制、彎位控制同埋行車穩定性，點解你覺得  
34 需要有呢額外三日嘅駕駛增強課程呢？

1 葉蔚琳女士：因為其實我哋去考巴士牌之前都需要有三年嘅私家車嘅駕駛時間，先可以  
2 以考牌，點解要重點喺呢一個環節裏面要加強呢？因為巴士同一般私家車嗰個  
3 重量唔同，所以導致我哋控制個油門同埋剎車系統嘅時候係需要另外一種技巧，  
4 即係要去磨合，更加去明白呢樣嘢。同埋你會知道應該有一個數字，就係  
5 其實新入職嘅車長，最多嘅交通意外嘅環節裏面，好多都係我哋俗稱「撒骰  
6 仔」，就係話緊急剎掣，令到乘客撞傷，或者令到後車會突然之間撞咗埋嚟我  
7 哋巴士度，呢個係較為多嘅呢一個情況，即係喺一個新人發生交通意外嘅比  
8 率，就係話通常最大嘅意外就係話因為剎車嗰個控制得唔好，而令到乘客受  
9 傷。

10 至於彎位嗰度，就係因為咁大架巴士，同我哋平時嘅私家車係有所唔同嘅  
11 技巧，都希望要加強。同埋我後起都有補充，就係話其實除咗三日之後，再由  
12 老師去評核，如果唔 okay 嘅話，應該再 repeat 多一次一個課程，咁樣能夠確  
13 保到呢個學生真正能夠可以駕馭呢個駕駛技術嘅時候，先可以畀佢可以喺道路  
14 上行走同埋接載乘客。

15 主席：（經傳譯員）呢個建議有冇向九巴提出過呢？

16 葉蔚琳女士：有機會。

17 主席：（經傳譯員）喺五年受僱嘅期間，你從來都有機會，五年裏面？

18 葉蔚琳女士：因為呢個範疇我哋一個職員就好少會去提議一啲問題，所以亦都有咁嘅  
19 即係話一個門檻畀我可以去有機會真係好去細節咁去分析呢啲嘢。

20 主席：（經傳譯員）黃大律師。

21 黃女士：（經傳譯員）你亦都提及話應該喺駕駛學校都有模擬嘅交通燈號，就可以加  
22 強車長應用嗰個剎車嘅時候個技巧，即係因為個交通燈號，所以佢剎車，嗰方  
23 面可以多啲訓練。我嘅理解，其實已經有十八日嘅訓練，每一日係九點五小  
24 時，呢啲係全職車長嘅--即係準車長要做嘅，你覺得係咪足夠呢，呢個訓練？  
25 因為都係因應實際嘅路面情況做嘅訓練嚟嘅？

26 葉蔚琳女士：如果喺一個本身有一個駕駛經驗嘅，譬如--因為你三年牌，可能有啲人  
27 根本--好多年青人根本唔--即係真正自己嘅私家車都未試過擁有嘅話，佢哋根  
28 本有一個路面經驗，我哋成日講嗰個路面經驗係我哋一個最重要嘅環素，因為  
29 點解呢？我哋好多時喺馬路要好多突發、好多問題，就係話如果對一個普通有  
30 經驗嘅車長嚟講，okay 嘅，但係如果佢係冇駕駛經驗，而佢只係單單嗰十八日  
31 嘅話，係一定唔夠嘅。

32 黃女士：（經傳譯員）你會唔會建議要擴大訓嘅範圍，包括埋情緒控制呢？或者係情  
33 緒嘅訓練，譬如話點樣去處理乘客、行為咁呢？

34 葉蔚琳女士：喺呢方面，其實我哋喺九巴我哋去入職嘅時候，我記得曾經--如果我有  
35 記錯嘅話，係一份問卷嘅，嗰度都會略略即係話去睇下你嘅 EQ、各方面係點

1 嘅，但係你話實質上有冇一個實質嘅培訓呢？就都會講下點樣去用咩嘢情緒去  
2 處理呢啲嘅問題，呢個確實係九巴有做到嘅，但係當--即係我哋衍生番後邊嘅  
3 問題，就係話因為當你真係喺嗰個工作環境裏面去畀人哋辱罵嘅時候，呢啲即  
4 係話就靠我哋點樣去推廣，即係喺嗰個部分裏面做得好啲，令到嗰個問題產生  
5 出嚟。呢個九巴一向都有做嘅，但係問題就係只可以咁講，喺一個模式上係做  
6 晒嘢嘅，但係問題當你真係要去面對呢啲咁嘅壓力嘅時候，其實係可以再加一  
7 啲培訓都 okay 嘅。即係成日都講從新出發，係咪？都用--叫我哋要用魔術嘅  
8 語言去應對，但係好多時就係因為--即係其實都有啲離地，有時現實同埋...

9 黃女士：（經傳譯員）葉女士，我哋明白你嘅論點。或者而家講...

10 主席：（經傳譯員）或者你再講之前，你自己個人有冇畀乘客辱罵過呢？

11 葉蔚琳女士：辱罵又試過，打都試過。

12 主席：（經傳譯員）你有冇報告番呢啲事情呀？

13 葉蔚琳女士：都有嘅，因為當時都有報到警嘅，但係就因為架車冇鏡頭，所以後起嗰  
14 個客用咗律--即係請咗律師去打，後起就嗰個客就無罪釋放。

15 主席：（經傳譯員）即係你講係話畀人打嗰個情況，係咪呀？即係你有報告你畀乘客  
16 打？

17 葉蔚琳女士：有報警。

18 主席：（經傳譯員）然後導致有人被拘捕，跟住被檢控，跟住有審訊，跟住佢就係無  
19 罪釋放，係咪呀？你頭先講，係咪咁嘅意思呀？

20 葉蔚琳女士：係，係。

21 主席：（經傳譯員）係幾時呢？

22 葉蔚琳女士：應該係兩年前，如果冇記錯。

23 主席：（經傳譯員）肯定你都會記得個日期，因為畀--喺返工時候，因為巴士司機返  
24 工畀人打，應該都會記得個日期嘅，係咪呀？係幾時呀？

25 葉蔚琳女士：我唔係好記得，我或者後起再補番畀你，好唔好？

26 主席：（經傳譯員）係，好呀，請你事後畀番我哋。係喺邊個法庭嗰度審㗎，呢單  
27 案？

28 葉蔚琳女士：觀塘法庭。

29 主席：（經傳譯員）希望你只係有一次呢個被襲擊嘅情況，係咪？

30 葉蔚琳女士：係。

1 主席：（經傳譯員）畀辱罵，語言辱罵呢，有幾多次畀人係辱罵過呢，只係乘客辱罵  
2 你呢？

3 葉蔚琳女士：喺未呢一次嘅--即係我哋月薪車長成立之前，係經常性，之後可以講，  
4 一次都有。

5 主席：（經傳譯員）之前係幾常發生呀？

6 葉蔚琳女士：時常發生，每日都會發生，只要譬如交通有啲擠塞，或者嗰日因為唔夠  
7 車長而收車，個時間本應二十分鐘一班車，變咗三十分鐘，嗰啲客就會好躁，  
8 就會變到，就會好嬲，佢哋就好多時會將嗰一啲怨氣就發泄喺我哋身上。

9 主席：（經傳譯員）呢啲被辱罵嘅情況，你有冇向九巴報告呀？

10 葉蔚琳女士：其實都成為我哋工作嘅一部分，我哋好少會因為咁樣而去報畀上司聽，  
11 即係我哋其他嘅同事都係自己承受。

12 主席：（經傳譯員）你可唔可以嘗試直接答問題呢？你有冇報告呢？

13 葉蔚琳女士：冇。

14 主席：（經傳譯員）唔該。黃大律師。

15 黃女士：（經傳譯員）你可唔可以講畀我哋聽嗰次襲擊嘅事件喺邊個位置發生？

16 葉蔚琳女士：喺呢個長沙灣遊樂場嗰個站嗰度。

17 黃女士：（經傳譯員）係喺巴士上面打你㗎，定係喺巴士站附近呢？

18 葉蔚琳女士：喺當時我駕駛緊，喺駕駛嗰個巴士位嗰度被--受襲嘅。

19 黃女士：（經傳譯員）即係巴士行緊嘅當時？

20 葉蔚琳女士：停緊燈。

21 黃女士：（經傳譯員）請你可唔可以睇九巴文件冊第 1 冊，應該係 97 號個案。

22 主席：（經傳譯員）有冇頁數呀？

23 黃女士：（經傳譯員）214 頁，214 頁。

24 葉蔚琳女士：係呀，呢度，九...

25 黃女士：（經傳譯員）97 號個案，呢度就有提到葉女士揸緊 238X，就係 2016 年 9  
26 月 29 號嘅事件，你右臂受傷，係咪講緊呢次事故呀？

27 葉蔚琳女士：係，係，冇錯嘅。

28 黃女士：（經傳譯員）下一個題目我想講嘅，就係喺你嘅文件--陳詞裏面，你提到好

多--即係話帶病駕駛嘅問題，就話好多司機--我係複述你講㗎喇，你話因為工作時間好長，所以日積月累，漸漸令到佢哋身體健康都受到影響，但係佢哋就唔敢貿然請病假，因為佢哋要考慮到嗰個評核獎金。我就想問，我哋知道九巴將嗰個良好服務嘅獎金同埋安全獎金就合併咗入去個月薪嗰度嘅，關於話呢個評核獎金呢一點，我就想探討一下，其實呢點可能係咪都唔係咁相關呢？因為而家已經係將個安全嘅獎金同埋表現獎金都加咗入去嗰個--包括咗入去個月薪裏面，所以呢點係咪仲係成立呢？係咪仲係？

葉蔚琳女士：其實呢個係兩個部分㗎嘅，你頭先嗰個安全獎同埋嗰個--另外一個評核--即係嗰個另外嗰個服務獎同埋嗰個安全獎，擺落去底薪嗰度，係咪？之前嗰度，其實呢個係--我哋講嗰個評核係第二個部分㗎嘅，係另外一個獎金㗎嘅，係同呢個唔相關，但係呢個已經--九巴而家已經解決咗，就係話由今--將會嚟緊就係話會將呢個評核取消，就可以唔需要因為你唔返工而有咗呢個獎金，而家喺現階段㗎講，九巴即係講好明確咁樣已經表示會取消，嗰個錢亦都出咗畀我哋，係多過之前嗰個錢添仲，呢個已經處理好咗嘅。

黃女士：（經傳譯員）葉女士，你之前講過因為一個好有經驗嘅同事喺呢個工程部方面就面對咗一啲日常嘅困難嘅，呢啲嘅問題同安全有冇關係？

葉蔚琳女士：一定有直接關係喇，係呀。

黃女士：（經傳譯員）我可唔可以請你嗰個同事係表達呢一啲嘅問題點樣同安全有關嘅？

主席：（經傳譯員）其實喺你個陳述書裏面有冇提到嘅呢，呢一點？

葉蔚琳女士：即係而家意思講話去表達工程部嘅問題，係咪咁嘅意思？

黃女士：（經傳譯員）你個好有經驗嘅工程部嘅同事，你話佢係面對一啲嘅問題，有冇喺你個陳述書裏面有提到嘅呢？

葉蔚琳女士：關於--冇提到，係，呢個佢可以解說一下嗰個問題，好簡短嘅啫。

黃女士：（經傳譯員）呢個係咪第 2 點呢？

陳智輝先生：第 2 部分？

黃女士：（經傳譯員）就係話冇用原廠嘅零件嘅，係咪原廠零件呢個部分就係呢？

陳智輝先生：係，冇錯。

黃女士：（經傳譯員）你可唔可以簡單介紹下呢個問題係乜嘢？

主席：（經傳譯員）係咪喺陳述書有冇講？

黃女士：（經傳譯員）除咗喺呢度寫嘅嘢之外，你有冇補充呀？

1 陳智輝先生：大部分都係--零件缺貨呢個問題最嚴重，就之前採購部就未有問題之  
2 前，啲零件就好少話缺貨嘅，但係唔清楚佢咁個部門發生咗咩嘢問題，到到而  
3 家呢一刻都好多零件都仲係缺貨嘅，我哋想要嗰件零件都係冇嘅，試過曾經有  
4 一段--即係每年都會有一段時間，佢就 brake 喉佢係冇貨嘅，就到冇貨，跟住  
5 每間廠就會有流動資金，個流動資金用完之後，就開始搵管理層搵錢過去隔離  
6 工廠大廈嗰度搵啲啤喉啲啲公司製--即係整--買啲零件返嚟。

7 主席：（經傳譯員）你其實係咪講緊一啲零件係唔夠或者缺乏，以前就係有存貨嘅，  
8 而家就有存貨，係咪咁嘅意思呢？

9 陳智輝先生：唔會有短缺，佢係--即係我哋隨時要用嗰陣時都可以搵到嚟用，我哋係  
10 正常 check 咗件零件，發現有問題，跟住就去開單，張單去到士多嗰度，跟住  
11 就畀零件我哋嘅，就近排就開始應該有一、兩年就要嗰件零件，跟住士多供應  
12 唔到畀我哋，就曾經有 brake 喉呢單嘢出現過。

13 主席：（經傳譯員）你講嗰啲士多係你係講緊係九巴裏面嘅士多？

14 陳智輝先生：係，係，九巴入面嘅士多。

15 主席：（經傳譯員）你知唔知個問題出喺邊？係咪因為九巴就係唔足夠嘅存貨呢？還  
16 是係個供應商佢哋唔能夠去供應呢，即係接到單之後？

17 陳智輝先生：之前我哋有個採購部，佢揸個電腦就開始--見到有嗰件零件開始冇喇，  
18 跟住就會提早落單，可能唔知佢嗰邊發生咗咩嘢問題，跟住零件開始少，跟  
19 住我哋都開始覺得有啲問題，到到提出已經太遲，因為佢一批批車咁樣返嚟，  
20 我哋要嗰件零件就有。

21 主席：（經傳譯員）唔該晒。

22 黃女士：（經傳譯員）葉女士，之前有人講過證供，就係話九巴喺其中一個文件就咁  
23 講嘅，就係一啲背景資料文件，就係向立法會發出嘅，就同呢個 2018 年 2 月嘅  
24 事件，就喺 7 月 25 號交通事務委員會嘅會議嘅背景資料文件，我哋睇番第 15  
25 段，呢度就咁講，...

26 主席：（經傳譯員）呢個係咪喺我哋嘅文件夾度呢？

27 黃女士：No, that's the bundle referred to by the previous...

28 主席：（經傳譯員）我哋可唔可以加入個文件冊嗰度呢？

29 黃女士：（經傳譯員）係。

30 葉蔚琳女士：我有，我有，我有。

31 黃女士：（經傳譯員）睇到。而家喺個螢幕上面見到嘅，個英文就咁講嘅，中文就係  
32 「九巴表示就係無論全職或者兼職嘅，巴士車長如果未有行駛某路線一個月或

者更長時間，就需要再次練習行駛該路線。」葉女士同埋其他幾位，你可唔可以話畀我哋聽有冇咁樣做過呢？有冇呢個安排呢？如果就係話如果巴士車長佢有揸過某個路線一個月或者更長時間，佢就會再次就住呢個路線就要再進行練習行駛嘅？

葉蔚琳女士：坦白講，我所認知嘅嘢就係話基本上如果我哋兩年之內有揸過呢條路線，即係譬如我未揸過，兩年都有嘅話，就需要重新再去--而家嘅制度就係話要重新去師傅訓練，但係以往一路以來--即係我自己個人嘅認知，就係話兩年，你話一個月唔揸就要再去培訓，就應該有聽過。

鄭凱耀先生：或者我補充一下，佢其實個制度就係你 train 咗一條線之後，你兩年內 keep 住一路有運作呢，就佢就一路都會有機會畀你做番呢條線，如果你兩年都有做過呢條線，佢哋就所謂會--嗰個電腦會有咗呢條線嘅 record 咁樣嘅，但係我想 for example，舉一個例子，就係我假設做咗一條 49X 嘅線，做咗一年，我如果手頭我自己個電腦有另外一條 47X 嘅線，我一路都係同一時間 train 嘅，但係我就有做，我做咗一年 49X，之後可能一年後，佢突然有一日就會叫你去咗做呢個 47X 嘅，其實可能你已經係成年有接觸過 47X 呢條線嘅，甚至乎呢條 47X 有--即係中間可能啲站、啲路線有更改，其實你係完全唔知嘅，但係佢可能就會即刻叫你去--第二日就去開工嘅，其實呢個係存在一個隱患嘅問題，根本係完全唔知道條線有甚麼更改嘅。

主席：（經傳譯員）你係咪講就係話就個電腦嘅系統，如果話你兩年有揸到嘅時候，你就喺相關嘅電腦嘅紀錄會係刪除嘅，係咪咁樣呀？

鄭凱耀先生：係嘅。

黃女士：（經傳譯員）葉女士，你就講過就喺屏幕上面就有翻譯到，如果你話有揸一條線係兩年，你就係需要再培訓嘅，但係之前就有一個咁嘅要求，你嘅意思話「之前」係咩嘢意思呢？

葉蔚琳女士：即係我未試過話你頭先所描述嘅，就係話如果你有揸一個月就要再培訓，即係有聽過呢個事。

黃女士：（經傳譯員）講關於兩年，呢個要求係幾時開始㗎？

葉蔚琳女士：一路以嚟都係咁嘅制度嘅，係呀，即係我入嚟到而家都係--即係話如果你兩年都有--即係我哋之前可以「跟薦」㗎嘛，係咪？唔係淨係訓練，都係一樣嘅形式嘅，總言之你去「跟薦」或者你去訓練咗之後，而兩年，你中間有揸過呢條路線嘅話，佢自動就會清洗咗，就等於有嘅。

黃女士：（經傳譯員）葉女士，你有冇開特別更或者普通更㗎？

葉蔚琳女士：我係一更車，普通更。

黃女士：（經傳譯員）有冇呢度出席嘅人士，你係揸特別更嘅呢？

- 1 甄建明先生：有嘅，係。
- 2 黃女士：（經傳譯員）甄先生，唔該。你可唔可以講一講關於呢個特別更嗰個經驗  
3 呢？我哋聽過就係話有一啲嘅車長佢哋喺九巴底下去揸特別更嘅，佢哋就每三  
4 個小時嘅連續嘅休息時間嘅，係冇嘅，你自己嘅經驗係咪咁呢？
- 5 甄建明先生：係。
- 6 黃女士：（經傳譯員）可唔可以話畀我聽你係揸邊條線㗎？
- 7 甄建明先生：其實我係揸大約十條線左右喇，但係佢每一條線都唔係淨係揸嗰條線  
8 嘅，就會俗稱我哋所謂嘅「做 order」，通常都係揸三條線嘅一日。
- 9 黃女士：（經傳譯員）你揸咗呢個特別更幾耐呀，喺九巴？
- 10 甄建明先生：大約應該係三年左右喇。
- 11 黃女士：（經傳譯員）你係返早更定係晚更嘅呢？
- 12 甄建明先生：特別更就只有一個更嘅啫，就係早更。
- 13 黃女士：（經傳譯員）你可唔可以話畀我哋聽你幾時開始--即係幾--如果--每一日  
14 特別更係通常係幾點鐘開工㗎？
- 15 甄建明先生：通常都係六點幾至到七點幾呢個時間嘅。
- 16 黃女士：（經傳譯員）即係 6 點至到 7 點--晚上 7 點？
- 17 甄建明先生：大約係呢個時間，六點...
- 18 主席：（經傳譯員）你上一次係--對上一次揸特別更係幾時呀？係咪琴日呢？
- 19 甄建明先生：係。
- 20 主席：（經傳譯員）你住喺邊㗎？
- 21 甄建明先生：我住喺旺角。
- 22 主席：（經傳譯員）你通常要幾點鐘起身嘅呢？
- 23 甄建明先生：（經傳譯員）5 點鐘。
- 24 主席：（經傳譯員）然後你去邊呀？
- 25 甄建明先生：跟住起身，即係做咗自己應該要做嘅嘢，就出門口返工。
- 26 主席：（經傳譯員）你幾點鐘出門口㗎？咁琴日呢？
- 27 甄建明先生：6 點鐘，6 點鐘出門口。

- 1 主席：（經傳譯員）你會去邊㗎？
- 2 甄建明先生：我會返去巴士廠。
- 3 主席：（經傳譯員）喺邊度㗎？
- 4 甄建明先生：青衣島嘅巴士廠。
- 5 主席：（經傳譯員）你通常點樣去嗰度㗎？
- 6 甄建明先生：我會搭街車，即係我哋公司嗰啲頭班車，然後再去到青衣某一個位，  
7 再轉一架叫做工程車嘅，就會車我哋去巴士廠。
- 8 主席：（經傳譯員）你琴日就去到邊度嘅車廠呀？
- 9 甄建明先生：都係青衣廠。
- 10 主席：（經傳譯員）你係打卡嘅時候係幾點鐘㗎？
- 11 甄建明先生：7 點鐘。
- 12 主席：（經傳譯員）你打完卡之後，你就做乜嘢呀？
- 13 甄建明先生：跟住就搵番自己當日要駕駛嗰架巴士。
- 14 主席：（經傳譯員）你係咪就會檢查下架車嘅呢？
- 15 甄建明先生：Yes, sir.
- 16 主席：（經傳譯員）係嘅，你然後係咪揸架車去邊度呀？
- 17 甄建明先生：然後我揸架車去長亨巴士總站。
- 18 主席：（經傳譯員）幾點鐘離開青衣呀？
- 19 甄建明先生：7 點 20 分。
- 20 主席：（經傳譯員）你幾點去到你嘅目的地呀？
- 21 甄建明先生：7 點 30 分。
- 22 主席：（經傳譯員）幾點鐘開始揸嗰條巴士線呀？
- 23 甄建明先生：7 點 45 分。
- 24 主席：（經傳譯員）你嗰條係咩嘢路線呀？
- 25 甄建明先生：X42 號 C。
- 26 主席：（經傳譯員）嗰條路線會去邊㗎？

- 1 甄建明先生：去到油塘巴士總站。
- 2 主席：（經傳譯員）你係咪就係朝早就係去油塘，然後返嚟去油塘咁呢？
- 3 甄建明先生：唔係。
- 4 主席：（經傳譯員）話畀我聽你做咗啲乜，琴日？
- 5 甄建明先生：去到油塘巴士總站之後，跟住我就應該係用私家牌，就即係一架冇裝客
- 6 嘅車，就再去番荃灣嘅愉景新城就做 42 號 M。
- 7 主席：（經傳譯員）即係由油塘，你就去荃灣，然後就揸另一條路線，係咪？
- 8 甄建明先生：係。
- 9 主席：（經傳譯員）嗰條路線係咩嘢話？
- 10 甄建明先生：42 號 M。
- 11 主席：（經傳譯員）去邊呀？
- 12 甄建明先生：去長宏巴士總站。
- 13 主席：（經傳譯員）之後呢？
- 14 甄建明先生：我做一條線係做兩轉車，即係一來一回兩次嘅。
- 15 主席：（經傳譯員）即係荃灣同埋長宏之間，係咪？
- 16 甄建明先生：係。
- 17 主席：（經傳譯員）然後之後係咪休息呢？
- 18 甄建明先生：係。
- 19 主席：（經傳譯員）幾點呀休息？
- 20 甄建明先生：應該係十二點半嘅。
- 21 主席：（經傳譯員）個休息時間幾長呀？
- 22 甄建明先生：個休息時間去到下午 3 點 20 分。
- 23 主席：（經傳譯員）喺邊度開始休息呀？
- 24 甄建明先生：其實佢就有話邊度開始休息，而係佢會畀一個我指定嘅泊車地點，我就
- 25 擺低部車，就當我開始休息㗎喇。
- 26 主席：（經傳譯員）你將架車擺喺邊度？
- 27 甄建明先生：青衣機鐵站。

- 1 主席：（經傳譯員）休息嗰段時間你做乜嘢呢？即係兩個鐘頭十五分鐘。
- 2 甄建明先生：Lunch 同埋一個午睡。
- 3 主席：（經傳譯員）喺邊度午睡呀？
- 4 甄建明先生：喺長安巴士總站入面有一個休息室。
- 5 主席：（經傳譯員）嗰度有啲咩嘢設施可以畀你午睡呀？
- 6 甄建明先生：嗰度有四張梳化，可以--其實可以瞓到一個短嘅午睡。
- 7 主席：（經傳譯員）有梳化，係咪呀？
- 8 甄建明先生：有。
- 9 主席：（經傳譯員）仲有幾多個車長當時同你一齊共用呢個設施呢？
- 10 甄建明先生：兩位。
- 11 主席：（經傳譯員）一旦你喺 3 點 20 分開始開車，又去邊度呢？揸邊條線呢？
- 12 甄建明先生：我係 3 點 35 分開始開車，因為我 3 點 20 分係要擺番部車落去站頭嗰
- 13 度嘅，我 3 點 35 分開車係做 41 號 A，就係由長安巴士總站就去尖沙咀東部
- 14 嘅。
- 15 主席：（經傳譯員）之後呢？
- 16 甄建明先生：之後再返轉頭，即係再去番長安巴士總站。
- 17 主席：（經傳譯員）係喇。
- 18 甄建明先生：然後做多一轉同樣嘅路程。
- 19 主席：（經傳譯員）係咪跟住就到你收工呢？
- 20 甄建明先生：係喇，Yes。
- 21 主席：（經傳譯員）係幾點呀？
- 22 甄建明先生：8 點 50 分，晚上嘅 8 點 50 分。
- 23 主席：（經傳譯員）你喺完成你嘅工作時候喺邊度㗎，嗰陣時？
- 24 甄建明先生：我哋完成工作之後，要將架巴士揸番去巴士廠入油，然後擺低部車，
- 25 就完成當日嘅工作。
- 26 主席：（經傳譯員）你係指巴士，係咪呀？
- 27 甄建明先生：係。

- 1 主席：（經傳譯員）你做晒呢啲係幾點鐘呀？即係你入埋油咁做晒喇。
- 2 甄建明先生：9 點鐘。
- 3 主席：（經傳譯員）之後你做乜嘢呢？
- 4 甄建明先生：之後跟住就搭工程車返番出去市區，再轉車返屋企。
- 5 主席：（經傳譯員）幾點鐘返到屋企呀？
- 6 甄建明先生：九點八左右。
- 7 主席：（經傳譯員）即係話你嗰日係 6 點鐘開始——朝早 6 點開始，你開始出門口，  
8 然後就去到 9 點 40 分晚上就完成嗰日，啱唔啱呀？
- 9 甄建明先生：係。
- 10 主席：（經傳譯員）係講琴日，係咪？
- 11 甄建明先生：係。
- 12 主席：（經傳譯員）今日你休息，係咪？
- 13 甄建明先生：係。
- 14 主席：（經傳譯員）好，唔該。
- 15 黃女士：（經傳譯員）甄先生，你話你過去三年都係揸特別更，啱唔啱？或者分更喇  
16 叫做。
- 17 甄建明先生：係。
- 18 黃女士：（經傳譯員）嗰三條路線係咪過去三年都係揸呢三條路線，抑或仲有其他唔  
19 同嘅路線呢？
- 20 甄建明先生：有其他唔同嘅路線嘅。
- 21 黃女士：（經傳譯員）係咪經常都需要揸三條唔同嘅路線呢，同一日裏面？
- 22 甄建明先生：係。
- 23 黃女士：（經傳譯員）你喺九巴做咗幾耐呀？
- 24 甄建明先生：我喺九巴做咗三年半左右。
- 25 黃女士：（經傳譯員）即係喺呢段時間，你一路都係揸特別更？
- 26 甄建明先生：係。
- 27 黃女士：（經傳譯員）你有冇試過遇到交通意外呀？

- 1 甄建明先生：暫時冇。
- 2 主席：（經傳譯員）做得好。
- 3 甄建明先生：（經傳譯員）多謝。
- 4 黃女士：（經傳譯員）有冇試過畀人打或者係辱罵呢？
- 5 甄建明先生：日日都有畀人辱罵。
- 6 黃女士：（經傳譯員）畀人打呢？
- 7 甄建明先生：畀人打，冇。
- 8 主席：（經傳譯員）有冇向公司報告過有畀人辱罵？
- 9 甄建明先生：冇。
- 10 主席：（經傳譯員）點解唔報告呢？
- 11 甄建明先生：因為公司根本都知道。
- 12 主席：（經傳譯員）有冇採取啲咩嘢步驟去幫你哋面對呢啲辱罵呢，即係作為車長？
- 13 甄建明先生：你講公司，係咪？
- 14 主席：（經傳譯員）Yes. Yes.
- 15 甄建明先生：冇，冇。
- 16 主席：（經傳譯員）你揸嗰架巴士有冇--即係個攝錄機係影住個巴士司機個位嘅呢？
- 17 甄建明先生：有啲有--有時有，有時冇，因為我日日都係揸唔同嘅巴士，揸唔同嘅路
- 18 線，所以就有啲舊車就有，有啲新車就有。
- 19 主席：（經傳譯員）有攝影機嗰啲係咪亦都唔係淨係影到個影像，仲有埋錄音嘅，係
- 20 咪？
- 21 甄建明先生：以我所知，有啲係有錄音，因為我見到有啲係有個咪收音嘅。
- 22 葉蔚琳女士：我想補充一下，就係法官頭先話可以有咩嘢幫到我哋呢個問題，就係話
- 23 其實我哋喺我哋嗰度已經提到一樣嘢，就係話因為我哋要求就係我哋本身自己
- 24 車長可以自行安裝 car cam.，因為點解有咁嘅元素喺度呢？因為公司其實有
- 25 好多車有啲部分有車 cam.，有啲冇，但係當我哋有事發生嘅時候，好多時或者
- 26 警方向公司擺個錄影嘅時候，「冇呀」咁樣，即係唔知點解冇。
- 27 但係為咗保障我哋自己人身嘅安全，亦都其實安裝鏡頭，其實令到乘客可
- 28 以有一個即係話警覺性，即係話「會可能畀人睇到」，通常佢哋就會好精嘅，
- 29 你有鏡頭，佢哋就會有咁--會收斂好多，我哋所以都強烈要求，其實我哋都唔

1 係話希望公司去幫我哋安，而係希望可以畀我哋車長可以亦都喺未完成實施呢  
2 個全面嘅安裝即係巴士裏面每一架都有嘅嘅情況。

3 同埋嗰個制度完善，即係話你最少有個鏡頭，但係真係錄到出嚟，可以擺  
4 到出嚟舉證...

5 主席：（經傳譯員）請你等一等，葉女士，請你慢啲，慢慢，好似你揸巴士咁慢慢。

6 葉蔚琳女士：知道。

7 主席：（經傳譯員）公司對於你哋嘅要求嘅回應係點呢？即係話容許你哋自己安裝攝  
8 影機呢點--攝錄機？

9 葉蔚琳女士：如果發現我哋車長安裝車 cam. 呢，我哋係要受到呢個即係處分。

10 主席：（經傳譯員）你有冇試過書面寫呢個要求畀公司呀？

11 葉蔚琳女士：冇。

12 主席：（經傳譯員）點解冇呢？

13 葉蔚琳女士：你覺得你喺申訴或者你去講嘅時候，即係冇用，你就唔會去做，即係我  
14 哋有咗一種信任，覺得佢連安都唔畀你安，仲要罰你嘅，你諗下你叫佢畀你安  
15 係咪都幾搞笑？如果你係九巴嘅高層，我哋咪好開心囉，即係可以有道理可以  
16 講。

17 主席：（經傳譯員）你知唔知？或者如果你唔知，就請你咁講，你知唔知點解車長如  
18 果裝咗自己嘅攝錄機會畀公司處分呢？公司有冇解釋過點解呢？

19 葉蔚琳女士：私隱問題，佢話。你可以講。

20 鄭凱耀先生：係，私隱問題囉，最主要係。

21 主席：（經傳譯員）佢哋係咪書面特別咁樣提到講畀你聽嘅呢？

22 鄭凱耀先生：其實佢喺嗰個培訓，我諗入職嗰陣時，佢導師都會略略同你有機會講過  
23 呢樣嘢，就叫你唔好裝啲 cam. 呀，因為公司...

24 葉蔚琳女士：有出通告。

25 鄭凱耀先生：係喇，或者佢各種渠道都會叫所有前線車長唔好裝呢啲，因為私隱問題  
26 牽涉到。

27 葉蔚琳女士：同埋曾經就係話呢個係屬於非法改裝，如果我哋加車 cam.，佢會當我  
28 哋係非法改裝。

29 陳智輝先生：即係架車原本批 approve 嗰度有呢件零件，你再外加落去，佢就當你  
30 非法改裝。

- 1 黃女士： When was this circular issued?
- 2 主席：（經傳譯員）唔好咁快住。你話有發過通告，係咪呀？可唔可以畀嗰份通告畀  
3 我哋呀？
- 4 葉蔚琳女士：因為要--出咗，通常我哋睇完就好少會留底。
- 5 陳智輝先生：唔係，基於係內部文件，我哋係唔可以公布出嚟，公司係有啲受控文  
6 件。
- 7 主席：（經傳譯員）我哋就好快就會九巴畀證供，我哋都會問佢同一個問題嘅，如果  
8 係咁，點解你唔可以提供呢份文件畀我哋呢？等我哋知道嗰個情況，解釋畀我  
9 哋聽？
- 10 葉蔚琳女士：因為一般即係...
- 11 主席：（經傳譯員）可能係有好好嘅理由點解佢哋唔容許你咁做嘅，我哋只不過係想  
12 去搵出個事實啫。
- 13 葉蔚琳女士：因為我哋內部有啲文件，譬如我哋行車嘅時間，公司都視為一個機密  
14 嘅，所以本應我--因為本身我哋今次原本想將我哋行車時間嘅困難或者個時間  
15 唔夠都希望交界法官去...
- 16 主席：（經傳譯員）如果係咁，我哋會直接問九巴。好，黃大律師。
- 17 葉蔚琳女士：多謝。
- 18 黃女士：（經傳譯員）你可唔可以話畀我聽呢個嘅通告大概係幾時發出嘅呢？
- 19 葉蔚琳女士：一年前嘅。
- 20 黃女士：（經傳譯員）你就話如果你自己裝置呢個攝錄機，你就會係被處分嘅，邊個  
21 咁樣講㗎？你可唔可以話畀我哋聽係邊個人去講話「如果我哋裝置呢個攝錄  
22 機，我哋就被處分㗎喇」？
- 23 葉蔚琳女士：因為通常我哋車長，公司會召見我哋或者有啲我哋違咗規嘅事情嘅時  
24 候，佢會畀一張--嗰張叫咩嘢紙？即係畀一張紙仔我哋，一張通告，即係一個  
25 便條咁樣，即係話明畀你聽因為咩嘢事咁樣而去召你上去見高層咁樣，所以喺  
26 個通裏面有時有啲會員即係之前就 send 過一啲咁嘅上嚟，所以我哋就會知道原  
27 來係咁樣嘅。
- 28 黃女士：（經傳譯員）你可唔可以提供你頭先提過嗰啲嘅文件呢？嗰啲就唔係公司嘅  
29 文件，呢個係你哋嘅...
- 30 葉蔚琳女士：公司，公司，公司發出畀我哋嘅一個文件。
- 31 黃女士：（經傳譯員）係呀，係呢一個嘅九巴公司係發畀啲車長嘅。

1 葉蔚琳女士：係。

2 黃女士：（經傳譯員）佢哋喺嗰啲信件之中，有冇講話如果你係裝置啲攝錄機，你就  
3 會受到處分，會唔會好清楚咁講明呢？

4 葉蔚琳女士：通告裏面有寫嘅。

5 黃女士：（經傳譯員）我就可唔可以咁假設呢，就係話你哋嘅工會就會係贊成我哋係  
6 裝置一啲嘅監察攝錄機，可以係有影像，有聲音可以記錄喺巴士上面發生嘅事  
7 情，你哋會唔會支持呀？

8 葉蔚琳女士：好，支持。

9 黃女士：（經傳譯員）最後一個題目，葉女士，運輸署就畀過我哋一個嘅資料文件，  
10 就係話因為工作小組佢哋進行咗——喺 2018 年 3 月中就進行咗研究嘅，嗰啲工  
11 作小組就係有成員係包括呢五個嘅專營巴士公司同埋三個嘅巴士廠，佢哋就係  
12 有一啲建議，就係有三個範疇嘅，首先就係安全帶，第二就係關於一啲科技嘅  
13 裝置，第三就係關於車長嘅培訓。運輸署就最近話畀我哋聽佢哋最近就係有發  
14 出關於係巴士車長嘅一啲嘅指引嘅，九巴有冇諮詢到你哋嘅聯盟呢，有關於呢  
15 個嘅培訓指引呢？

16 葉蔚琳女士：冇。

17 黃女士：（經傳譯員）佢哋有冇畀一份你呀？就係由運輸署發出嘅實務守則，關於培  
18 訓嘅。

19 葉蔚琳女士：從來冇收過。

20 黃女士：（經傳譯員）我想問一問你就你哋聯盟就對於一啲嘅科技嘅裝置有啲咩嘢嘅  
21 意見，首先第一個就係 TD-1 第 1 號文件第 403 頁，我哋係第 4(a) 段，就係關  
22 於電子穩定控制系統嘅，你哋嘅聯盟會唔會支持係使用呢一個咁樣嘅系統呢？

23 葉蔚琳女士：其實喺呢個車內安全裝置呢幾部分裏面，去到 (a)、(b)、5、6 個度，  
24 以及第 3 頁嗰個 (a) 嗰個系統，我哋經過我哋理事嘅研究之後，都覺得呢個係非  
25 常之好嘅。

26 黃女士：（經傳譯員）關於安全帶方面呢？喺所有嘅乘客座位，喺所有巴士上裝安全  
27 帶。

28 葉蔚琳女士：其實有安全帶一定係一件好事嚟嘅，但係衍生有一個問題，就係話會唔  
29 會如果安全帶損毀咗，其實巴士應唔應該繼續行車呢？或者我哋巴士司機有冇  
30 一個責任去確保每一個乘客受到安全嘅保障，去睇住佢哋有冇去處理好？或者  
31 有啲老人家佢哋需要幫助嘅時候，其實呢個衍生嘅問題我哋有少少擔心嘅。你  
32 話總括嚟講，其實安全嘅嘢有就肯定好過冇嘅，但係衍生喺一個現實裏面，每  
33 一日上落客咁多，或者我哋要確保嗰個安全就係話其實你確保每一個位，你一  
34 定要唔好損壞先得，你有一個問題嘅時候，你就會令到人哋會有危險，呢個責

1 任上即係其實都好多嘢慢慢上嘅，但係方向係好嘅，但係個現實可以推行嘅  
2 係比較困難啲咁樣。

3 黃女士：（經傳譯員）你有冇機會睇過文件上面關於車長訓練嘅一部分呢？就係第  
4 18段至到第22段嘅。

5 葉蔚琳女士：呢度我哋都有略略係已經睇過嘅，但係就係話佢呢度係一個比較全面  
6 啲，即係話唔係好細緻知道佢想要啲究竟咩嘢培訓，其實方向都係好嘅，總言  
7 之多就梗係好過少㗎喇，但係即係話佢呢度我有睇到佢有好實質有效地喺我哋  
8 日常生活當中遇到嘅車長嘅問題，要培訓，我哋應該係盡量去留意啲乜嘢，呢  
9 度就有提到，所以就比較遺憾啲咁樣。

10 黃女士：（經傳譯員）多謝葉女士，我已經係完成我嘅提問。

11 歐陽先生：（經傳譯員）我有一個跟進嘅問題，甄先生同埋葉女士，你頭先提過就關  
12 於每一日你哋都係有遇到一啲辱罵嘅情況，你就兩個都講到就話「其實都有用  
13 嘅，即係向呢一個管理層報告。」你可唔可以講清楚少少畀我哋聽有咩嘢邏輯  
14 呢？你唔會報告係因為你覺得管理層係唔會做嘢，還是佢哋做乜嘢嘢都有幫助  
15 嘅，可唔可以解多少少畀我哋聽呢？唔該晒。

16 鄭凱耀先生：不如咁喇，因為其實好老實講，每日遇到呢啲辱罵嘅情形，我會用四字  
17 詞形容「司空見慣」，點解會咁呢？因為--點解會導致呢啲情形呢？就係因為--  
18 --即係大家都知香港地生活壓力大，其實個個人都好焦急嘅，尤其是如果我哋現  
19 行呢一行行業咁缺乏人手，基本上收車或者街道繁忙、塞車啲情形已經係太常  
20 見，變咗好多乘客都有陣時佢嘅預算嘅時間達到唔到嗰陣時，佢就會將頭先即  
21 係之前都一路講緊，會將佢嘅怨氣發泄喺我哋前線嘅人員身上，所以其實根本  
22 上所有呢一行嘅行業嘅公司，我諗所有嘅管理層都好清楚嗰個情形。

23 基本上太多太多，你每一條線、每一個人都有呢啲情形，講真，你個個去  
24 complain，去同管理層反映，基本上佢都唔會理你，因為佢哋都解決唔到。

25 陳漢華先生：有多一個小小嘅事例可以提供番，早前有啲會員就都曾經畀乘客辱罵過  
26 嘅，亦都當場向番我哋公司嘅管理組反映番個問題，部巴士就停喺當時嘅馬路  
27 上面，乘客亦都會喺巴士--即係嗰個辱罵車長嗰位乘客都會喺車上面等候警方  
28 嘅處理同埋公司嘅處理。公司嘅處理手法基本上都係大事化小，小事化無，叫  
29 個車長息事寧人，繼續行車可以喇。

30 葉蔚琳女士：因為點解...

31 主席：（經傳譯員）好，請等一等。

32 葉蔚琳女士：因為點解，你頭先講「你唔試過，點解你會知道有用呢？」因為好多時  
33 我哋每一日經歷嘅嘢，同埋有好多時公司會有一個表現管理組，因為有啲客佢  
34 會投訴你，我哋就去講番事發嘅經過，可能佢企個位唔啱，即係誤會發生，通  
35 常公司都係一句「你小心啲喇，你留神啲喇。」咁樣，其實即係實質嘅幫助係

幫助唔到，你諗下我連畀人打，受傷，到最後都因為種種嘅原因，所以你會睇到就係話其實有人幫到你，同埋我哋都已經係當咗係我哋嘅工作一部分。

主席：（經傳譯員）嗰個警察都有幫你，佢有逮捕一個人，佢哋有起訴佢等等咁樣，亦都有檢控等等，都有人幫你㗎。

葉蔚琳女士：係呀，但係就如果公司法律部門或者各方可能都會支援一下，可能個事情就會好好多，其實當時嗰啲警察都好嬾，即係舉證唔到，因為其實醫生嘅報告、所有嘅嘢，但係就係因為冇嗰個實質嘅證供，因為通常香港人就係一話要去法庭，就閃晒，啲證人就唔肯去舉證。如果有個 cam. 嘅話，其實即係好多嘢都可以解決到，所以點解我哋成日都講希望有 car cam. 可以保障到我哋，或者亦都可以令到乘客都可以有個保障，我哋就算有咩嘢鬧咗佢或者做得唔好嘅，佢都可以就有一個反證，即係咁樣，同反監察我哋，係喇。

主席：（經傳譯員）好，唔該晒。

羅先生：（經傳譯員）仲有一個跟進嘅問題，就關於係嗰十八日嘅培訓，佢哋有冇訓練你點樣去處理一啲辱罵嘅呢？就佢哋會唔會話叫你唔好出聲還是係叫你報告，即係嗰個培訓嘅時候有冇提到呢啲，做呢啲嘅培訓嘅呢？

葉蔚琳女士：通常佢哋好流行一句說話，就係魔術語，即係叫你運用一個語言嘅技巧，但係當你即係話每一日去行車嘅時候，連廁所都冇得去，你喺架車度其實即係講真，心情已經好難受，跟住仲要一上嚟，即係等得車耐，就問候你娘親，不由分說，又會可能會話「你啲車長係咪死晒呀？」咁樣，即係你因為其實好多嘢係配合嘅，如果可能我哋嗰個休息時間多啲，可能我哋嗰個處理嗰個情緒問題會好啲，因為其實係一路好多問題衍生出嚟，唔係話淨係話一點位嘅。即係如果我哋有足夠嘅休息時間，個精神好啲，處理嗰個 EQ 可能又會高啲，所以其實好多嘢我哋希望逐步去改善，令到大家嘅關係好啲咁樣。其實有做到嘅公司，但係實質上喺個現實裏面唔係好有成效。

主席：（經傳譯員）你覺得係咪有啲——就係巴士車長係特別係有人辱罵，還是電車或者係其他嘅交通工具嘅車長，佢哋有冇啲咁嘅情況，還是佢哋特別針對巴士嘅車長呢？

葉蔚琳女士：因為電車就基本上喺佢嗰條路嗰度就基本上好少有塞車嘅情況嘅，即係有失班嘅情況，其實我而家主要即係話市民通常同我哋產生一個磨擦或者佢哋瘙癢都係因為班次不正常，呢個問題已經纏擾咗我哋九巴係好耐，但係唔知點解解決唔到。

因為我哋就係講點解我哋——其實我哋喺嗰個出嚟呢一個——搞呢個工會就係原本就係以生命行先，即係希望能夠保障乘客嘅安全，但係其實你衍生落嚟，你會知道點解會有咁多嘅磨擦我哋同市民，我哋會經過好多大家商討嘅時候會發覺原來好多時大部分都係因為脫班，佢哋等得瘙癢，講真心，你諗下，企喺個巴士站度半個鐘頭都有車，跟住上到去，梗係問你「喂，你啲車而家死

1 晒？」咁樣，咁個司機又可能去到對站，佢塞咗成個幾、兩個鐘頭，佢只係  
2 得幾分鐘休息，去完廁所就要上車，你諗下當時個司機嗰個情緒嗰個處理。

3 其實又唔可以怪晒啲客㗎，其實，我哋成日都講其實唔係話我哋去責怪啲  
4 乘客唔啱，而係話點解會衍生於--好似頭先法官所提問嘅好好，就係話點解淨  
5 係我哋巴士會咁，因為地鐵嘅脫班唔會好似我哋咁會有車，只係可能一年先嘅  
6 兩、三次，我哋係每日--我可以畀一個初步嘅統計，可能之後你可以同九巴嘅  
7 度攞番個資料，係每日每一個廠基本上係有幾十部車係冇人揸，即係其實而家  
8 我哋員工嘅流失已經係去到好嚴重嘅地步，所以點解會嗰個乘客與司機嗰個磨  
9 擦會越嚟越大呢？其實好大嘅因素都係因為脫班。

10 其實講真心，嗰個乘客都唔係傻嘅，唔通無端端鬧你咩？都唔係咁嘅，其  
11 實佢哋都好好，但係問題就係話即係人就係有情緒，每個人都有壓力嘅時候，  
12 但係我覺得有時佢哋...

13 主席：（經傳譯員）多謝葉女士，我大概知道你、明白你嘅意思，我哋仲要聽多一個  
14 工會嘅證供嘅，所以好多謝你今日出席，多謝你提嘅證供同埋你嘅協助。你頭  
15 先承諾咗會提供一啲嘅文件嘅，請你就提供，我哋就而家會小休兩分鐘，然後  
16 我哋就會聽取最後嘅呢一個嘅工會嘅證供，就係兼職車長苦主大聯盟嘅，唔該  
17 晒。

18  
19 下午 5 時 02 分押聆訊押後

20  
21 下午 5 時 12 分恢復聆訊

22 出席人士如前。

23  
24 主席：（經傳譯員）鄭先生同埋兼職車長苦主大聯盟嘅代表，我哋多謝你哋接受我哋  
25 嘅邀請嚟呢度提供證供協助我哋搜集資料，知道巴士個運作係點樣樣，等我哋  
26 可以作出一啲建議，確保日後巴士嘅安全。黃大律師等一陣就會問你哋問題，  
27 目的就係根據你哋嘅陳述書裏面有一啲嘅論點可能佢需要澄清或者請你再進一  
28 步解釋，如果鄭生或者你自己或者你想你其他嘅成員答問題，請你提出話請邊  
29 一位答問題，我哋都好樂意聽佢回應嘅。好，而家請黃大律師開始。

30 梁景裕先生：（經傳譯員）多謝倫明高法官，或者開始之前可唔可以畀兩分鐘我哋表  
31 達一下我哋嘅一啲嘅意見呢？

32 主席：（經傳譯員）係，當然可以，你可以作一個聲明先嘅。

33 梁景裕先生：（經傳譯員）多謝你時間。

1 主席：（經傳譯員）請記住我哋係有即時傳譯員嘅，所以你發言嘅速度請你都要講得  
2 合理啲，畀機構傳譯員可以跟到。

3 梁景裕先生：（經傳譯員）好，多謝各位，多謝大家今日畀時間我哋，首先兼職車長  
4 苦主大聯盟，我哋唔係一個註冊嘅工會，唔係根據工會條例註冊嘅，我哋係一  
5 班嘅兼職車長，係因為 2 月 10 號嗰宗嘅慘劇之後就組織起嚟嘅，冇幾耐之後，  
6 九巴都拒絕再同我哋聯絡，我哋都係覺得唔開心，因為嗰個意外牽涉嘅司機佢  
7 話係兼職車長，而我哋作為一班嘅兼職司機，覺得就受到其他嘅工會不當、冇  
8 基礎、失實嘅攻擊，仲有其他公眾人士都係咁攻擊我哋，就懷疑我哋嗰個工  
9 作，所以點解我哋會組織起嚟。

10 我哋認為兼職司機同好多全職司機一樣咁專業、咁有能力，甚至可能比佢  
11 更好。我個人就有十五年嘅兼職司機嘅經驗。我哋呢度嘅都係好有經驗、好專  
12 業嘅司機，我哋係以我哋嘅職業為傲，我哋亦都係以服務乘客為傲，所以直到  
13 而家，我哋都仲係好唔開心，因為似乎對於我哋都仲係有啲嘅偏見。

14 我哋睇番九巴嘅報告，就係關於話呢宗意外，佢哋向運輸署發...

15 主席：（經傳譯員）你係講係喺我哋網頁上面嗰個報告？

16 梁景裕先生：（經傳譯員）係。呢個報告就係意外發生之後一個月發表嘅。運輸署問  
17 九巴佢哋有冇覺得喺招聘司機方面有啲咩嘢不足嘅地方嘅時候，九巴個回應就  
18 係話「我哋已經停止招聘兼職司機，係立即停止。」即係話似乎佢係暗示兼職  
19 司機係不專業、能力不足，所以對於咁樣嘅講法，我哋係非常之唔高興嘅，呢  
20 個就係我哋開場想講嘅說話。而家就交番畀黃大律師。

21 主席：（經傳譯員）我哋繼續之前，你可唔可以話畀我聽其實你哋係來自邊個嘅巴士  
22 公司，邊個係九巴㗎？就四個，四位係九巴嘅。

23 車啟冬先生： I am Long Win Bus.

24 主席：（經傳譯員）你係龍運嘅？

25 車啟冬先生： Yes.

26 馬景德先生：（經傳譯員）就因為呢個意外，我哋就被辭卻嘅。

27 主席：（經傳譯員）就係因為咁嘅意外？

28 馬景德先生：（經傳譯員）係呀，因為九巴就係就於兼職嘅車長就有一啲嘅準則佢要  
29 佢哋接受嘅，但係我就唔接受佢哋嗰啲嘅標準，九巴就寄咗一封信畀我，我就  
30 用電郵係覆番佢，其中一個--我都有將副本係送交畀呢一個委員會嘅，之後就  
31 我有一個係九巴工作嘅朋友就話畀我聽我就係被九巴辭掉咗，因為佢話畀我聽  
32 冇回覆，但係其實我就已經係通過電郵回覆咗，而家我就係新世界巴士公司嗰  
33 度就做兼職車長嘅。

1 主席：（經傳譯員）龍運喇其中一個，你就係新世界第一巴士，另外四個就係九巴  
2 嘅，係咪？係，唔該晒。黃大律師。

3 黃女士：（經傳譯員）係，唔該晒咁多位，多謝你哋出席。你知道我哋嘅職責，委員  
4 會都係集中係安全方面嘅事宜嘅，特別係專營巴士嘅管理同埋營運嘅安全，所  
5 以我哋問題就會集中呢啲範疇，我希望你哋能夠明白呢一點。關於你哋個聯  
6 盟，呢個係一個面書嘅團體嚟嘅，Facebook 嘅一個團體，有超過六百個嘅成  
7 員，啱唔啱呀？

8 車啟冬先生：（經傳譯員）係，啱。

9 黃女士：（經傳譯員）我相信鄭先生就係獲一百個嘅兼職車長授權就係代表呢個嘅聯  
10 盟發言嘅，係咪？

11 吳振宇先生：（經傳譯員）係呀。

12 黃女士：（經傳譯員）呢一百個嘅兼職車長係邊幾個公司嗰度嘅車長嚟嘅呢？

13 吳振宇先生：（經傳譯員）有幾個公司嘅——全部都係九巴嘅。

14 黃女士：（經傳譯員）你係兼職車長，做咗幾耐呀，喺九巴？四個。

15 梁景裕先生：（經傳譯員）我係 2014 年加入嘅。

16 主席：（經傳譯員）但係你就做咗兼職司機十五年㗎？

17 梁景裕先生：（經傳譯員）我之前係同其他公司做嘅。

18 主席：（經傳譯員）喺香港，係咪？

19 梁景裕先生：（經傳譯員）喺香港。

20 吳振宇先生：（經傳譯員）我都係。我都係 2014 年就係兼職車長嚟嘅，我就自己就  
21 係揸巴士就揸咗超過十年，包括喺海外都有揸過巴士。

22 黃女士：（經傳譯員）鄭先生。

23 張沛棋先生：我响九巴做咗三年，之前都做過其他巴士公司嘅。

24 主席：（經傳譯員）係咪都係香港嘅專營巴士公司呢？

25 張沛棋先生：專營同非專營都有。

26 主席：（經傳譯員）幾多年呀？

27 張沛棋先生：前後我 12 年開始揸巴士，之後做咗三年全職，之後做咗兼職。

28 鄭啟祥先生：我係 04 年响大嶼山巴第一份做兼職車長，之後就响九巴嗰度做咗四年  
29 嘅全職車長，之後再响城巴嗰度做咗兼職車長，最近就一年嘅就返番九巴做兼

1 職車長，而...

2 主席： Is there a problem with the transcription?

3 傳譯員： Sorry, the interpreter forgot to switch the button over  
4 to English.

5 主席：（經傳譯員）鄭先生，請你再重複你剛才所講嘅。

6 鄭啟祥先生：我第一份嘅巴士工作就係响大嶼山巴士做兼職車長，之後就去咗九龍巴  
7 士嗰度做咗四年嘅全職車長，再之後就响城巴嗰度做咗兼職車長，再之後我响  
8 九巴，而家返咗嚟九巴做兼職車長做咗一年，前前後後就十四年嘅駕駛經驗。

9 車啟冬先生：（經傳譯員）九巴呢，2016 年開始，就係 2016 年頭，跟住就係嚟今  
10 年嘅 4 月我就轉咗去龍運巴士嗰度做。

11 馬景德先生：（經傳譯員）就新世界，我喺嗰度做咗五年半，就係兼職嘅，我喺九巴  
12 就係兼職做咗大概三年嘅。

13 主席：（經傳譯員）唔該晒。

14 黃女士：（經傳譯員）多謝你哋嘅陳述書，你就係 2018 年 4 月 22 號所作出嘅陳述  
15 書，呢個係 TU 嘅第 1 號文件，就係第 293、294 頁，翻譯就係嚟 294-1 同埋  
16 2 嗰度嘅。我就想同大家討論兩個範疇嘅，就住陳述書裏面所講嘅，第一，喺  
17 294-1 下面嗰度講，你就話自從你哋成立之後，就兼職車長同埋全職車長應該  
18 係一視同仁嘅。你講「一視同仁」嘅意思係講緊薪酬還是係培訓方面呢，你係  
19 指緊乜嘢呢？

20 吳振宇先生：（經傳譯員）你可唔可以重複你嘅問題？因為我唔係太清楚。

21 黃女士：（經傳譯員）因為喺最底嘅部分，你就係話你哋個聯盟就一直都強調兼職同  
22 埋全職車長應該係一視同仁，你所謂「一視同仁」係指邊啲範疇呢？

23 主席： Perhaps you could read out more of what is asserted.

24 黃女士：（經傳譯員）你亦都講就話「不論喺培訓、補充訓練、提供修正訓練、錄  
25 用、要求革職嘅標準亦都係應該係一樣嘅。喺進行招聘嘅時候，專營巴士，有  
26 關考官同埋駕駛訓練嘅導師亦都係嚴格把關，挑選合適嘅考生嘅。」所以你講  
27 所謂嘅「一視同仁」係咪指喺培訓方面一視同仁，喺錄用同埋要求革職方面  
28 呀？

29 梁景裕先生：（經傳譯員）我就唔想話呢個係同翻譯嘅問題有關，我哋想講嘅就係兼  
30 職同埋全職嘅車長其實已經係有相同嘅培訓，我哋就提議--建議，如果可能嘅  
31 說話，所以一啲新加入嘅車長就應該有一個心理評估嘅測試，要確保佢哋可以  
32 處理一啲壓力，喺駕駛之中嘅壓力。

1 吳振宇先生：（經傳譯員）我亦都想補充，正如剛才我哋同工所講，我哋公司已經一  
2 直係對於兼職同埋全職車長都係提供同樣嘅培訓，對我哋嚟講其實都有分別，  
3 但係公眾人士就係有提出唔同嘅意見、見解，就對於兼職車長嚟講，特別係，  
4 我哋覺得係好唔公平、好唔公道。所以無論係任何嘅培訓或者係一啲安全嘅措  
5 施等等，都係應該適用於所有嘅兼職同埋全職嘅車長，所以佢哋兩者之間係唔  
6 應該有任何嘅不同嘅區別嘅或者冇區別嘅。

7 黃女士：（經傳譯員）關於車長，我就睇一睇九巴嘅一個文件，就係培訓方面，其  
8 實對於兼職或者全職車長係有啲唔同嘅，簡單嚟講，係全職車長嚟講，佢哋係  
9 需要就接受十八日嘅培訓，每日九個半鐘，係 KMB 第 1 號文件第 102 頁嘅。

10 梁景裕先生：（經傳譯員）呢個就係佢哋只係有呢個第 1 級嘅牌照或者 1 號牌照，但  
11 係對我哋嚟講，我哋已經係第 10 類牌照喇已經有，所以我哋講緊係兩群唔同  
12 嘅人。

13 黃女士：（經傳譯員）所以係呀，我係想講呢一點。所以佢哋係兼職同埋全職車長方  
14 面嘅培訓方面真係有區別嘅，係培訓方面係有啲區別嘅，我睇一睇呢個文  
15 件，我就睇下你對於我哋有一啲建議嘅睇法，我哋第 120 頁，呢度係有全職嘅  
16 車長嘅考生嘅一啲嘅要求，佢哋係需要係第 17 類嘅考試嘅測驗嘅，呢個第 17  
17 類就係一個巴士嘅牌照嚟嘅，你係需要係通過運輸署嘅一個咁嘅測試，就同我  
18 哋嚟導師嗰啲測試就唔同。

19 但係如果你係兼職嘅車長，如果我哋睇番 121 頁，需要嘅就係呢個兼職嘅  
20 車長係有第 10 同埋第 17 類嘅駕駛牌照，你就係兩日半嘅訓練，係每日九個  
21 鐘，你就係需要係通過個測試就得喇。

22 吳振宇先生：（經傳譯員）如果你有第 10 同埋第 17 類嘅牌照，你就係兩日半嘅訓  
23 練，同埋就係通過個測試嘅，就係由導師去做嘅測試。係九巴，我哋係有一  
24 個內部嘅測試嘅，如果你通過唔到，佢哋就唔會請你，即使你有第 10 同埋第  
25 17 類嘅牌照。

26 其實呢個要求係對於呢個全職嘅車長嚟講，更加高嘅，黃女士就頭先講，  
27 佢話十八日係唔夠嘅，但係我哋係通過個測試，其實我哋係一個道路上面測試  
28 嘅，呢個相對於運輸署嗰個測試個要求更加高，所以對於我哋嚟講，兼職車長  
29 個要求相對於全職車長嚟講，係更加高。

30 黃女士：（經傳譯員）我諗你哋嘅聯盟就係建議話要做心理測試，由政府或者第三方  
31 去做，呢個就應該係對巴士司機評估嘅一部分，如果我理解正確嘅話，呢個係  
32 你建議書裏面嘅提議嚟嘅？

33 梁景裕先生：（經傳譯員）係。

34 主席：（經傳譯員）係邊度搵到呀？294-1，係咪呀？

35 黃女士：（經傳譯員）係，294-1 底部，由底數上去第四行。點解你會提出呢個建

1 議呢？

2 梁景裕先生：（經傳譯員）我諗當我哋提呢個建議嘅時候，我哋指嘅係好明顯就係因  
3 為 2 月 10 號嗰宗交通意外，有一個新聞報道就話個司機同喺馬場等巴士嘅乘客  
4 有啲問題，因此就影響咗佢嘅情緒，但係喺定罪之前，當然我哋唔能夠揣測係  
5 咪真係好似報道咁嘅...

6 主席：（經傳譯員）你係講應該話喺審訊之前。

7 梁景裕先生：（經傳譯員）係，係，啱嘅。咁所以點解我哋就提出呢個建議，就話係  
8 或者--我哋都唔知嘅，因為可能我哋自己個腦裏面有啲咩嘢隨時會爆發嘅。

9 吳振宇先生：（經傳譯員）我想補充，其實我都有研究過巴士意外，喺 1997 年或者  
10 98 年，你都或者記得有一架巴士喺灣仔嗰度翻側咗嘅，如果睇番嗰個個案，一  
11 個最主要嘅原因就係巴士司機突然間情緒崩潰定係點樣嘅。

12 主席：（經傳譯員）你係指係上天橋嗰度？

13 吳振宇先生：（經傳譯員）係呀，上緊天橋嘅時候反咗車。

14 車啟冬先生：（經傳譯員）喺杜老誌道。

15 吳振宇先生：（經傳譯員）係喇，總之係嗰一宗意外。我哋就睇番一啲文件，一啲報  
16 道，就知道個主因，即係嗰宗意外嚟講，同今次都係個巴士反咗，所以可能--  
17 呢個就可能係其中一個理由，或者譬如做一個心理嘅測試或者做一啲嘅情緒嘅  
18 訓練都會幫到嘅，我哋唔知呀。好似頭先法官大人所講，因為嗰個審訊仲進行  
19 緊，我哋都唔知嗰個成因係乜嘢，但係如果你講話係問我哋擺建議，我哋睇番  
20 過去嘅數據，就因此提出呢個建議。

21 黃女士：（經傳譯員）你第二個建議，我知道就係你個第一段講，就係話大聯盟亦都  
22 支持加裝攝錄機，即係巴士公司喺所有巴士都要裝攝錄機，係可以保障到車  
23 長、乘客同埋其他道路使用者嘅安全嘅。喺巴士裏面裝呢啲嘅監察攝錄機，你  
24 係咪指咁呀？

25 吳振宇先生：（經傳譯員）係。

26 黃女士：（經傳譯員）或者我可以講另一個題目，我哋聽到其他專營巴士公司嘅證供  
27 提到，就話兼職車長，根據目前嘅規例或者指引，似乎係唔需要兼職車長申報  
28 佢哋做兼職巴士嘅職務之前嗰個工作時數係幾多嘅，所以有啲就表示關注，就  
29 話佢哋唔知到底嗰個兼職車長喺離開巴士之前到底做咗幾長時間個工作

30 主席：（經傳譯員）我唔知道當時係佢哋表達一個關注定係擔憂定係點。

31 吳振宇先生：（經傳譯員）不過唔緊要，不過我係想答呢個問題，因為等我問番你轉  
32 頭，一個全職車長，你點可以確保佢喺返更之間都係有足夠休息呢？我諗其實  
33 所有嘅司機，如果佢坐上架巴士，佢都係要確保自己係唔會係飲醉酒，即係全

1 部係頭腦清醒，所以我哋係咪要求所有巴士司機，當佢坐上巴士之後都已經係  
2 休息得足夠，係好警覺好強，然後先開始工作，所以我就唔明點解需要講呢個  
3 問題。

4 主席：（經傳譯員）我哋有話要求所有巴士司機都要頭腦清醒嘅，而係要定一個規  
5 定，定一個門檻，同樣嘅事情，...

6 吳振宇先生： Well, for bus drivers we do.

7 主席：（經傳譯員）...巴士司機又好，邊個都好，同一個做法，就係話任何人喺實  
8 際可行嘅情況之下，都係要儘量確保安全，所以新政嘅問題就係話而家睇嚟，  
9 似乎喺個 2 月嘅意外之前就有搜集到資料，就話個兼職司機喺其他嘅工作係  
10 做啲乜嘢、做咗幾耐，所以呢個都係我哋要研究嘅一點嚟嘅。

11 吳振宇先生：（經傳譯員）我唔知道其他巴士公司係點，但係如果講嚟九巴，當我哋  
12 去返工嘅時候，過去我哋要簽一份文件嘅，或者一份申報，就話我哋狀況良  
13 好，可以操作一架巴士，你想睇嘅係咪就係咁呢，我唔知，夠唔夠我又唔知。

14 主席：（經傳譯員）呢個係一個有力嘅聲明，因為係有辦法去查證。

15 梁景裕先生：（經傳譯員）或者我可以咁補充，喺 2014 年我哋加入九巴做兼職司  
16 機，就要求我要申報我嘅全職工作係乜嘢、係做啲咩嘢嘅職務嘅，我知道城巴  
17 同埋新巴都係要求兼職司機要申報，每一年都要做嘅，佢哋個全職工作係乜嘢  
18 或者仲有啲咩嘢其他工作、佢哋做嘅工時係點同埋佢哋係咪返更嘅。

19 主席：（經傳譯員）城巴以前有咁做嘅，而家係新先有咁做。

20 梁景裕先生：（經傳譯員）唔係，我諗佢哋以前都有做。

21 主席：（經傳譯員）唔係，佢哋而家先提交一份新嘅表格。

22 梁景裕先生：（經傳譯員）係，呢個係一個新嘅表格，我知道，但係之前有一個舊嘅  
23 表格嘅，就話兼職司機就要申報佢哋嘅全職工作。當然而家佢哋再加長啲，就  
24 係問埋佢哋做幾多工時同埋係咪要返更定係點。所以我哋都係嘅，我哋都要申  
25 報嘅，所以唔係話啲咩嘢新事物嚟嘅，因為我哋都係成年人，我哋當然要負責  
26 任，為我哋嘅行為，如果我哋知道我哋嗰日唔適合係揸巴士，我哋就應該好似  
27 全職司機一樣，就係擺病假。

28 主席：（經傳譯員）或者我逐一問你哋，各位，你哋仲有冇其他嘅工作？如果係嘅  
29 話，係咪同揸車有關呢？

30 梁景裕先生：（經傳譯員）係，我有其他工作嘅。

31 主席：（經傳譯員）係咪揸車嘅？

32 梁景裕先生：（經傳譯員）我喺辦公室嗰度工作，其實我有好多份工作嘅。

- 1 主席：（經傳譯員）其中有冇邊一份係揸車㗎？
- 2 梁景裕先生：（經傳譯員）有。
- 3 主席：（經傳譯員）好喇，吳生呢？
- 4 吳振宇先生：（經傳譯員）冇。
- 5 主席：（經傳譯員）冇其他工作？
- 6 吳振宇先生：（經傳譯員）有其他工作，但係唔係揸車嘅工作。
- 7 主席：（經傳譯員）好，張先生？
- 8 張沛棋先生：有其他工作，都有機會要揸車嘅，就算平時我返工，我自己都係揸車返  
9 工。
- 10 主席： Yeah.
- 11 鄭啟祥先生：都有全職工作，都係有機會揸車。
- 12 車啟冬先生：（經傳譯員）我都有其他工作，我係公務員嘅，喺地政署，地政總署。
- 13 主席：（經傳譯員）即係你更加係可能係被分心就多過話揸車。
- 14 車啟冬先生：（經傳譯員） Yes.
- 15 馬景德先生：（經傳譯員）我係都有其他工作嘅，唔需要揸車。
- 16 主席：（經傳譯員）好，黃大律師。
- 17 黃女士：（經傳譯員）好喇，城巴喺佢哋新嘅表格其中一個改動，就話要求兼職司機  
18 要作一個申報，就話佢哋之前係做咗幾多個鐘頭嘅工作或者佢哋嚟返工做兼職  
19 揸車嘅時候之前係做咗幾多個鐘頭工作咁嘅，你會唔會支持咁嘅做法呀？
- 20 馬景德先生：（經傳譯員）我支持嘅。城巴同埋新巴嗰個新嘅表格就比過去就係全面  
21 好多。
- 22 黃女士：（經傳譯員）係咪成個大聯盟都同意呢個意見呢，就係你哋嗰個 Facebook  
23 群組係咪都同意呢？
- 24 梁景裕先生：（經傳譯員）我哋係支持透明度嘅，或者可以咁講。
- 25 吳振宇先生：（經傳譯員）我個人會支持，但係就係佢哋亦都應該要求全職司機咁  
26 做，我講嘅意思就係話如果你要我申報我喺揸車以外嘅時間做啲乜嘢，你又擔  
27 唔擔心全職司機可能成晚喺度開派對，然後先至去返工呢？你擔唔擔心呢？我  
28 就會喇。
- 29 黃女士：（經傳譯員）我哋而家睇到一個表格，就顯示有啲咩嘢要求，要填啲咩嘢資

- 1 料，你可以睇到呢個表格上個頂部。
- 2 主席：（經傳譯員）可唔可以畀個參考編號我呀？
- 3 黃女士：（經傳譯員）就係 CTB 資料冊第 571 頁。
- 4 主席： CTB-1？
- 5 黃女士：（經傳譯員）CTB 第 3 冊。
- 6 主席：（經傳譯員）好，唔該。
- 7 黃女士：（經傳譯員）個翻譯就喺 571-1 同埋 571-2，呢度就係要求兼職車長簽署  
8 一份申報表格，就講出要做幾多工時、係咪需要返更，要申報，同埋要申報佢  
9 咁填寫嘅資料係正確，否則就會有處分行動。即係話意思係而家佢咁要求兼職  
10 車長要做呢啲申報，而我相信九巴都係而家有類似嘅做法，啱唔啱呀？
- 11 梁景裕先生：（經傳譯員）係，正確。
- 12 主席：（經傳譯員）有冇九巴個表格喺呢度呢？
- 13 黃女士： Yes.
- 14 主席：（經傳譯員）如果係，畀個參考編號我哋得喇，唔需要擺上嚟。
- 15 梁景裕先生：（經傳譯員）呢份表格係每一年申報一次嘅表格嚟嘅，唔係話每一次你  
16 開始揸車之前要申報嘅。
- 17 主席：（經傳譯員）係，好明顯喇。黃大律師，有冇話要求啲資料幾時係要更新  
18 嘅？
- 19 黃女士：（經傳譯員）冇嘅。應該就係九巴資料冊第 1 冊 128 至 129 頁，翻譯就喺  
20 129-1 同 129-2 個度。
- 21 主席：（經傳譯員）好，唔該。
- 22 黃女士：（經傳譯員）我想問嘅題目，我相信馬健德先生之前有提到，就話九巴就而  
23 家加咗一個新嘅規定係畀兼職車長嘅，應該話係加咗幾個規定，要兼職車長接  
24 受，先至畀佢咁繼續做。或者請你睇 KMB 資料冊第 1 冊 140 至 141 頁，呢個係  
25 九巴交界運輸署署長嘅文件，係回應 2018 年 2 月 10 號嘅事故嘅，喺底部就有  
26 咁講，就話「喺 2018 年 3 月底，大部分嘅二百零九位嘅兼職車長都接受咗我哋  
27 嘅規定，我哋喺佢咁符合咗以下嘅要求之後，我哋都有指派任何畀佢咁嘅：
- 28 第 1 就話佢咁要聲稱佢咁作為兼職車長，唔會違反佢咁全職工作嘅僱傭  
29 合約；
- 30 第 2 就係已經有書面申報佢咁嘅疾病；

1           第 3     就係有書面申報佢哋嘅刑事紀錄；

2           第 4     係已經通過咗無交通罪行嘅紀錄；同埋

3           第 5     就係參加咗全日嘅矯正培訓，即係話如果係過去亦都有牽涉喺咩嘢  
4           事故裏面。」

5           或者我第一個問題可以問馬生，就係如果呢啲，頭先你係提到話就係呢啲  
6           規定你拒絕接受，抑或係講緊另一啲規定，唔係呢一枱？

7   馬景德先生：就住第一條，我係唔接受嘅，當初，即係話第 1 點，（經傳譯員）就係  
8   話「書面申報咗，就話我作為一個兼職車長，就唔會違反咗我全職嘅另外嘅工  
9   作嘅僱傭合約嘅」，（直接用本地話說）我係不接受九龍巴士提出呢一點嘅，  
10   佢係--九龍巴士公司係喺第二處同我哋兼職車長苦主大聯盟第二次嘅會議係喺  
11   佢哋嘅九龍灣車廠嗰度舉行嘅，當初係佢哋首先提出呢一點嘅。喺第一次會議  
12   嘅時候，九龍巴士公司從冇提出過呢一點嘅，喺以我本人嚟講，我係唔接受呢  
13   一點嘅。

14           至於你話第二點，declaration of illness 嘅，其實我哋--以我本  
15   人，過往喺擔任九巴兼職車長嘅時間，每一次返廠攞車，都要簽一份聲明，聲  
16   明你嗰日係適宜執行駕駛職務，而且我哋係有張八達通開機卡，亦都講到明拍  
17   卡落去嗰一個站頭或者車廠嗰個八達通機嘅 sensor 已經代表你係有同樣嘅  
18   declaration 嘅。

19           就住第 3 點，冇刑事紀錄，好合理。Pass traffic conviction  
20   record check，冇問題，你自己清者自清，冇話扣我好多分嘅，好合理，呢  
21   個係涉及安全問題，我本人覺得。

22           跟住第 5 點，話咩嘢 one month or more，我完全未聽過呢樣嘢，甚至  
23   無喺我哋朋友或者其他咩嘢巴士迷嗰啲，從來冇人流出過講過話有揸某一條線  
24   一個月，我有聽過。

25   吳振宇先生：（經傳譯員）就有少少混亂嘅，特別係第 5 點，呢個講關於個即係究竟  
26   係駕駛嘅訓練㗎，定係路線訓練有啲混淆嘅。就我所知，呢個九巴就一直有呢  
27   個安排嘅，如果你冇揸過呢架車就係三十日或以上，你就係需要就係參加駕駛  
28   訓練，然後由導師話認可，你先至可以再揸車嘅。我覺得呢個係第 5 點所談及  
29   嘅。但係呢個第 5 點講到就係話如果你係喺呢一個嘅同一個路線有揸車超過三  
30   十日以上，你就再需要接受訓練，呢樣嘢我哋就有聽過。

31   黃女士：（經傳譯員）點解我要問呢個點呢？因為我哋曾經--我哋睇過立法會一個嘅  
32   背景資料文件，我哋就會係喺呢度打出嚟嘅。對唔住，我哋有嗰份文件本身。

33   梁景裕先生：（經傳譯員）我哋明白你所講嘅，因為葉女士佢作供嘅時候，我哋都有  
34   聽到關於呢一點。而家個目前嘅做法就係話，Jason 頭先提過，如果係你冇揸  
35   車一個月，你就要再訓練，但係如果一個嘅路線，如果你冇揸過一條路線兩年

1 或者以上，你喺呢一個嘅訓練嘅紀錄就會被刪除，你就會需要再培訓先至可以  
2 揸嗰條路線。譬如例子，如果我哋係已經係 2014 年我哋揸過第 2 號路線，但係  
3 我而家一直都有揸嘅時候，我就唔可以再揸呢個第 2 號路線。

4 吳振宇先生：（經傳譯員）除此之外，關於呢個路線培訓方面，譬如話路線改少少或  
5 者申延咗，或者係改咗少少嗰個嘅走線，你哋係要再培訓嘅。同埋你嗰個嘅培  
6 訓嘅紀錄都會係被刪除嘅。譬如話我已經係接受過第 2 號嘅路線培訓，就過咗  
7 一年，佢哋就將個路線係加長咗，我又冇再接受培訓，我就唔可以就再係揸呢  
8 一條線。

9 黃女士：（經傳譯員）就呢一點，我哋係睇緊九巴呢一個文件冊，就第 1 號文件冊第  
10 104 頁，呢個係一個報告，調查報告，就係由九巴提交畀運輸署署長嘅，之前  
11 就運輸署署長要求嘅呢個報告，就係 2018 年 2 月 12 日。呢一個報告就係  
12 2018 年 3 月 12 號嘅，我哋去到第 104 頁，呢度就係九巴嘅建議嚟嘅。

13 第 13 段，就係講話兼職車長佢哋暫時停職，呢個第 13 段就其實話佢哋係  
14 已經係就停職咗所有嘅兼職嘅車長，如果佢哋每一個星期嘅工作時數係少過十  
15 八個鐘。「但係我哋為咗係滿足個需求，九巴就已經係提供畀呢一個嘅兼職嘅  
16 巴士車長，就係話可以去到一個合約，然後時薪嘅車長，同埋或者係擔當其他  
17 嘅職位嘅。」

18 (In English) So my question is, has this happened?

19 梁景裕先生：Yes, it has.

20 黃女士：And in what aspect?

21 梁景裕先生：（經傳譯員）馬先生就有接受過呢個咁樣嘅方案。我自己就係話就係選  
22 擇咗每一個禮拜十個小時，而其他成員就係選擇咗每個星期工作超過十八個小  
23 時呢個方案嘅。

24 主席：（經傳譯員）九巴就話嗰啲兼職車長佢哋就係每個禮拜工作少於十八個小時就係  
25 停職，但係佢哋就容許你每個禮拜做十個小時？

26 梁景裕先生：（經傳譯員）其實我明白你嗰個說法，其實好似似乎唔係好合理，其實  
27 我哋係一個可以話係散工嘅車長，我通常就係周末或者係星期六就會工作嘅，  
28 如果我係唔得嘅說話，我就會打電話就話「今個周末，我就係唔會嚟返工  
29 嘅。」但係喺新嘅安排底下，我哋就有壓力嘅，...

30 主席：You have to do 10 hours a week.

31 梁景裕先生：（經傳譯員）...因為我每個禮拜都要做十個鐘，如果係--有時候，我  
32 真係做唔到㗎嘛。

33 黃女士：（經傳譯員）我哋去 141 頁，就我哋睇到兼職車長有幾多個人係同意呢個  
34 嘅安排，如果我哋睇番呢個表第一同埋第二行，就同意每一個禮拜多過十八個

1 小時就有七十八人，就係一個禮拜多過十個鐘，同埋就係申報就係做兼職嘅車  
2 長就唔會違反佢哋同僱主寫嘅呢個僱傭合約就有一百二十三人，你就係呢一度  
3 裏面，係咪呀？

4 梁景裕先生： Absolutely.

5 黃女士：（經傳譯員）如果係咁，佢哋係需唔需要係另外簽一個嘅申報，就係話「你  
6 係喺返工之前，其實你係之前做咗幾多小時」呀？

7 梁景裕先生：（經傳譯員）冇，唔需要。

8 黃女士：（經傳譯員）關於呢個每個星期十個小時呢樣嘢呢？你可唔可以一次過就係  
9 做晒十個鐘？

10 梁景裕先生：（經傳譯員）我可以係一日我係做五個鐘，另外一日五個鐘，或者第二  
11 時我哋係一日裏面做晒十個鐘都得。

12 黃女士：（經傳譯員）都總言之一個禮拜做十個鐘就 okay 喇？

13 梁景裕先生：（經傳譯員）係，冇錯。

14 黃女士：（經傳譯員）我哋睇第 124 頁，就都係九巴嘅陳述書，呢度係講呢一個兼  
15 職車長嘅九巴嘅政策，喺呢個羅馬數字第 (i)，你睇一睇，你可唔可以確認，又  
16 或者話畀我哋聽係咪真係九巴真係咁樣去對待--喺 2018 年 2 月之前係咁樣對  
17 待嘅兼職車長嘅呢？

18 吳振宇先生：（經傳譯員）黃大律師，我就咁攞一攞，正如我之前所講，第一同埋第  
19 二點，正如我頭先所講，我哋嘅入職嘅要求其實仲高過全職嘅，因為我哋係需  
20 要通過係九巴導師嘅測試嘅，...

21 主席： So they are not the same, they are higher?

22 吳振宇先生：（經傳譯員）佢哋唔係一樣嘅，我哋係仲高啲添，喺我認為，就真係高  
23 啲喇，我哋呢度六位成員都可以畀意見，對於之下底啲幾點，我都會同意嘅。

24 黃女士：（經傳譯員）唔該晒。如果我哋話建議九巴要求所有兼職車長就係填一個申  
25 報表，申報話其實佢哋兼職車長返工之前佢哋究竟已經係工作咗幾多個小時，  
26 你哋會唔會同意呢？

27 吳振宇先生：（經傳譯員）我都唔係好明點解你仍然都問呢個問題，其實喺法例上你  
28 就每一日唔能夠超過揸車十四個小時，如果你係超越十四個小時，其實就已經  
29 係犯法。

30 主席：（經傳譯員）其實而家唔係關於個法例嘅問題，而係話執法嘅問題，你係要知  
31 道嗰個人做咗啲咩嘢，你先至可以執法㗎。

32 吳振宇先生： And like what Kenneth just said, when we tap card

1 to report to duty we already declare that.

2 主席：（經傳譯員）你可唔可以再重複呢？

3 吳振宇先生：（經傳譯員）我哋開始報到嘅時候，用我哋個八達通卡去拍一拍嘅時  
4 候，其實我哋已經係話畀公司聽我哋係確認我哋係已經係遵守所有嘅法例，同  
5 埋我哋都係適合去揸車嘅。

6 主席：（經傳譯員）個問題係如果你係你成晚就係揸旅遊車，然後早上就去巴士公司  
7 返工，巴士公司點樣知道你係有遵守呢個實務守則，同埋你點樣可以去執法  
8 呢？可能你唔可能即時提供到答案，但係呢個就係我個問題。

9 梁景裕先生：（經傳譯員）我要重複，我哋係完全明白會有啲咩嘢嘅刑事責任，尤其  
10 是我哋係疲勞駕駛嘅情況底下。啲人就咁講嘅，即係嗰啲車長就一隻腳就喺個  
11 監獄度，另一隻腳就喺個殮房嘅。

12 主席： Well balanced drivers?

13 梁景裕先生： Yes, thank you.

14 吳振宇先生：（經傳譯員）你係講緊就話我係要做一個嘅表格，要寫話我之前就係有  
15 做好長時間，我哋會拍嗰個八達通卡，就話我哋係可以揸車。

16 主席：（經傳譯員）但係其實你就咁拍你嘅卡，其實就有資料話畀我哋聽你之前做過  
17 啲乜。

18 吳振宇先生：（經傳譯員）我哋拍個卡就係話我哋接受呢個嘅職務，我哋亦都係接受  
19 話個講法就係如果我哋唔遵守法例，我哋係要承受後果嘅，亦都包括就係話如  
20 果話--就係頭先我講嘅例子，如果我已經飲咗酒，如果你拍咗個卡就表示就係  
21 我就係有飲過酒，我就係可以係有好好嘅狀態去揸車嘅。

22 主席：（經傳譯員）所以點解要執行醉駕嘅法例就係要你用嗰個呼吸器咁嘅。

23 吳振宇先生：（經傳譯員）係呀，但係唔係話每一次我揸車都係要用呢個呼吸器去測  
24 試，亦都唔可以話每一日要求九巴咁多千個司機都要咁做㗎嘛。

25 主席：（經傳譯員）黃大律師。

26 黃女士：（經傳譯員）我已經完成我嘅提問，唔該。

27 主席：（經傳譯員）各位，我哋今日想向你提嘅問題就係咁多，請問你哋需唔需要話  
28 仲有啲咩嘢想總結講一講呢？唔係一定要，但係有嘢想講，都請你可以講。

29 梁景裕先生：（經傳譯員）多謝，我哋想重申嘅，就係有啲好唔公道嘅睇法質疑兼職  
30 司機嘅專業程度，我希望今日嘅證供就可以改變到嗰個睇法。我當然係好關心  
31 公眾，但係幾位成員同埋主席今日應該係更加清楚知道兼職司機嘅工作係點。

1 我想重複，我哋以駕駛為傲，我哋鍾意揸車，我哋鍾意服務乘客、服務各  
2 個階層嘅人士，我哋就係鍾意做呢個工作。如果我哋被禁止做兼職司機，對我  
3 哋打擊真係好大，就會對我哋嚟講，係最唔想見到嘅結果，我哋會覺得好唔開  
4 心。

5 主席：（經傳譯員）或者我可唔可以問你呢？六位先生，作為兼職司機嚟講，你哋算  
6 唔算係好有代表性呢？特別我諗到嘅就係話新大嶼山巴士公司，因為我知道嗰  
7 度三分一嘅司機都係兼職司機，你算唔算係同佢哋屬於係好典型嘅兼職司機抑  
8 或好唔同呢？

9 梁景裕先生：（經傳譯員）我個人就有喺新大嶼山巴士公司做過，或者鄭生可以解釋  
10 一下。

11 鄭啟祥先生：其實做兼職車長就個個人嘅做法都有可能有好大分別，但係最主要嘅原  
12 因就係時間比較彈性，好有多兼職司機就係想一個禮拜放兩日假，就會選擇做  
13 part-time 車長，就放棄佢有一啲福利，即係比全職車長嘅福利就少咗，但係  
14 佢哋換取到佢哋嗰啲時間自由啲，所以就會有--即係會多咗人會選擇去兼職呢  
15 個職位，其實個問題就喺呢度。

16 你話至於大嶼山巴士點解會有三分一車長會係兼職呢？其實佢嗰度都係--  
17 點講呢？旅遊，即係禮拜六、日嗰個人數就會多好多，佢突然之間有好多人放  
18 假，就會入去大嶼山旅遊，佢需要嘅車長就會特別多咗，變咗需要兼職車長嘅  
19 需求就會大咗。同埋都係嗰句，個彈性個問題，即係話我得閒，就我可以過嚟  
20 兼職幫下手，個原因就會係咁樣，以我所了解，就係咁。同埋我做咁耐，都係  
21 因為方便到我時間，我就可以去工作。

22 車啟冬先生：或者我用廣東話補充多少少，傳神啲。喺反車呢單意外之前，其實據我  
23 所知，龍運巴士嗰邊嗰個收車情況都幾嚴峻下嘅，因為自從喺--我諗大約 2016  
24 到 17 年期間，大量 A 線嘅擴充，即係直達機場客運大樓嗰啲路線嘅擴充，變咗  
25 E 車，即係北大嶼山對外路線嘅收車率亦都係比較高，導致到一啲嘅個別嘅更分  
26 收車情況係相對嚴重，喺呢啲情況底下，兼職車長就可以發揮到佢哋補班嘅作  
27 用。

28 至於返番頭先大律師問過嘅問題，喺九巴嚟到講，即係喺番 KMB 同 Long  
29 Win Bus bundle 1 124 頁所講九巴對嗰個 part-time 車長係咪一視同仁，  
30 喺呢個羅馬數字(i)以下嘅要點嗰度，其實係嘅，係一視同仁嘅，全職又好，兼  
31 職又好，一視同仁。係喇，我哋每日開工嗰陣時，將我哋個八達通卡--頭先我  
32 哋幾位同事都講過，將我哋嘅八達通卡拍喺站長室嗰部機嗰度就已經係代表我  
33 哋自行申報咗我哋嘅健康狀況、休息狀況、我哋係適合擔當當天嘅兼職車長工  
34 作。九巴一直都有做過嘅，呢一樣嘢，即係自我 2016 年開始加入九巴，跟住轉  
35 咗去龍運，一直都有。

36 鄭啟祥先生：最後我有少少意見想畀番委員會，就其實就講嚟講去咁耐，都係講司機  
37 嘅問題，但係有冇向乘客嗰方面，你哋有冇研究下有啲咩嘢措施可以去針對番

1 乘客嘅行為呢？因而其實你見到好多--而家香港人等車等得耐又鬧，唔滿意又  
2 投訴，投訴就最方便，其實你做咁多嘢，咩嘢車速監察，唔使嘅，佢哋識得打  
3 電話去投訴嘅，根本就係佢哋要投訴嘅渠道係好多、好多，反而司機冇得去投  
4 訴個乘客，如果係個乘客唔啱，我哋根本冇得講話個乘客唔啱，亦都有證據，  
5 亦都有渠道去投訴佢。我就建議，平時點解--即係好簡單一個例子，...

6 主席：（經傳譯員）我哋係好清楚呢個問題嘅，所以點解我哋先至問咁多問題就關於  
7 話嗰啲閉路電視或者係攝錄機，係咪需要有埋收音嘅功能等等嘅，我哋希望見  
8 到巴士就有閉路電視，就話啲人非法泊車都係會影得到，唔單只係影到，而且  
9 係會執法，因為如果執唔到法，就有法例都係完全冇意義嘅。

10 吳振宇先生：（經傳譯員）完全同意。我諗我哋想講嘅點就係話如果係咁，根本已經  
11 係有咁嘅條例喺度可以處理乘客嘅行為，但係有冇執法呢？如果係有嘅話，係  
12 咪應該更加大力度去執法呢？其實葉女士同佢其他同事都提到話佢哋係幾乎每  
13 一日都係受到言語辱罵嘅。

14 主席：（經傳譯員）所以點解我係話過，個問題就係點樣可以執法，因為巴士乘客都  
15 有權可以去辱罵巴士車長嘅。

16 吳振宇先生：（經傳譯員）啱嘅，譬如如果我哋睇番譬如地鐵，有啲地鐵嘅職員係有  
17 權可以執法，然後--如果話乘客有啲咩嘢不當行為都可以罰款。

18 主席：（經傳譯員）我唔想再話延長呢一個環節太多，我要指出嘅其實就係根本好顯  
19 而易見㗎喇，就係巴士就有一個巴士車長，得佢一個人喺度，而喺地鐵就有--  
20 喺個站度有好多職員可以幫手嘅，佢哋等住喺度幫佢添，所以呢個就係最大嘅  
21 分別，我就係想指出呢點，係有人指出過呢點，話畀我哋聽。

22 吳振宇先生：（經傳譯員）講番話人手問題，喺路上都係有啲嘅管工，即係有啲係站  
23 長或者車站長嗰啲，係咪可以加多啲呢啲人手都幫到我哋呢？

24 主席：（經傳譯員）好，多謝各位，好多謝你哋今日嚟向我哋作供，係提供咗好多資  
25 料畀我哋，但係你都可以睇到，我哋有好多嘅因素都需要平衡嘅。我哋嘗試想  
26 做嘅就係首先係向你哋攞到啲資料先，係今日好有用，所以今日就我要喺呢度  
27 完結，多謝各位，想特別多謝嗰啲我哋嘅謄寫員同埋即時傳譯員，今日工作咗  
28 好長時間，我哋聽日 10 點鐘繼續，唔該。

Wednesday, 1 August 2018

(10.00 am)

EMPLOYEE OF KOWLOON MOTOR BUS COMPANY (1933) LIMITED:

MS DEBBY WONG

(Evidence given in Cantonese and English, transcription of  
the simultaneous interpretation and/or English)

CHAIRMAN: Good morning, Ms Wong.

MS DEBBY WONG: (In English) Good morning.

CHAIRMAN: Thank you for accepting our invitation to give  
evidence to the committee.

You are a current employee of the Kowloon Motor Bus  
Company, are you not?

MS DEBBY WONG: (In English) Yes, I am.

CHAIRMAN: The way in which your evidence will be taken is  
by Ms Wong, Senior Counsel, who is counsel assisting the  
Committee posing questions to you. If there is anything  
you wish to amplify, feel free to do so.

You will be referred to documents, you can look at  
them on the screen, or you can ask for a hard copy, if  
you want to look ahead or behind where the document  
deals with things; do you understand?

MS DEBBY WONG: Yes.

CHAIRMAN: Thank you very much.

Ms Wong.

## EXAMINATION BY MS WONG

MS MAGGIE WONG: Thank you, Ms Wong, for coming.

My questions will be focused on the resting facilities set out in your submission or reply to the letter of IRC dated 28 June 2018, and your letter of reply was sent on 4 July 2018. That can be found at FE bundle, page 199.

Ms Wong, before I start questioning on this topic, may I know how long have you worked for Kowloon Motor Bus?

MS DEBBY WONG: May I speak in Cantonese?

Yes, for 21 years. I have worked with the KMB for 21 years, and I've been involved in operations, and I have had experience in two depots: Lai Chi Kok and Tuen Mun respectively.

MS MAGGIE WONG: Since when did you take up the current post as operator in charge of the Kowloon Motor Bus Tuen Mun depot?

MS DEBBY WONG: (In English) Since 1997 I work at Tuen Mun depot and then I transferred to Lai Chi Kok depot in 2016. And then I went back to Tuen Mun depot in 2018.

MS MAGGIE WONG: Your reply stated that there were 30 bus stations under Tuen Mun depot. I notice in Mr Kelvin Yeung's submission he stated there are 31 bus termini. May I just ascertain which one is correct? 30 or 31?

1 MS DEBBY WONG: Well, for some stations, we may not have  
2 somebody stationed there as a bus regulator, so when  
3 counting the number of bus stations, there may be a  
4 discrepancy. It should be between 30 and 31.

5 MS MAGGIE WONG: Thank you.

6 And how many bus stations did you manage?

7 MS DEBBY WONG: Almost 10, because I'm responsible for Tin  
8 Shui Wai area. Let me, sort of count them.

9 CHAIRMAN: Take your time.

10 MS DEBBY WONG: Well, under me, at Tuen Mun depot I have got  
11 four. As the assistant manager of Tuen Mun depot, four  
12 for Tin Shui Wai area.

13 MS MAGGIE WONG: Yes. I understand that Tuen Mun depot is  
14 responsible for bus operations of three districts, Tuen  
15 Mun, Yuen Long and Tin Shui Wai, and you are responsible  
16 for Tin Shui Wai.

17 MS DEBBY WONG: (In English) Yes.

18 MS MAGGIE WONG: Is that all bus stations in Tin Shui Wai?

19 MS DEBBY WONG: (In English) Yes.

20 MS MAGGIE WONG: So there are four bus stations in Tin Shui  
21 Wai?

22 MS DEBBY WONG: (In English) Yes.

23 MS MAGGIE WONG: What about the rest? Are they all managed  
24 by Kelvin?

25 MS DEBBY WONG: (In English) Kelvin manage only on Tuen Mun  
26

1           zone. Yuen Long is under another AM.

2       MS MAGGIE WONG: Another AM, assistant manager.

3       MS DEBBY WONG: (In English) Assistant manager.

4       MS MAGGIE WONG: And who is that?

5       MS DEBBY WONG: (In English) Amanda Hung.

6       MS MAGGIE WONG: Thank you.

7           Now, Ms Wong, in your submission you stated there  
8       are two types of rest kiosk. The first is type A, and  
9       the second type B.

10           Now, I notice type B is bigger in size. Can you  
11       tell us what is the difference -- apart from size, what  
12       is the difference between the two?

13       MS DEBBY WONG: Other than the size, well, in fact the  
14       internal partitioning is different. For the larger  
15       kiosk we can place more electrical appliances, like  
16       a microwave, as well as the drinks dispenser. For  
17       smaller ones, that's mainly for the bus regulator, it is  
18       more like their working station.

19           So the microwave and the drinking dispenser, so they  
20       are the things that we kept there.

21       MS MAGGIE WONG: Would sort of a bench so that you can sleep  
22       be provided for either type?

23       MS DEBBY WONG: Well, this is the working place. At  
24       a larger bus station we may be able to provide a rest  
25       room, what we call them, for bus captains to take  
26

1 a rest. The size would be similar to the size of the  
2 larger kiosk. The larger kiosk is for both the  
3 regulator as well as the bus captains. The size is the  
4 same, but then the design is such that we have tables  
5 and chairs.

6 And then we have some offices which are concrete,  
7 say, for example, at the PTI, it already provides  
8 a concrete office. Then the space will be larger. As  
9 I've mentioned, at some locations we have more space,  
10 and we are able to provide more chairs. That's because  
11 the office is a concrete one.

12 CHAIRMAN: What is a PTI?

13 MS DEBBY WONG: (In English) Public transport interchange.

14 CHAIRMAN: Are any of the four bus stations that you manage,  
15 places at which there are rest facilities?

16 MS DEBBY WONG: (In English) Like Tin Shui Wai town centre  
17 there is a concrete office and we provide a rest area  
18 for bus captains and another room is for terminus  
19 supervisor.

20 CHAIRMAN: Thank you.

21 MS DEBBY WONG: (In English) Also in -- what I manage is Tin  
22 Yan, Tin Fu and Tin Tsz, they all have two bigger-size  
23 kiosk, one is for terminus supervisor and the other one  
24 is for bus captain.

25 Also what I manage, the four bus stations already  
26

1 provided the rest room.

2 MS MAGGIE WONG: The four bus stations that you managed, are  
3 these stations providing split shifts for bus captains?

4 MS DEBBY WONG: (In English) Yes.

5 MS MAGGIE WONG: How many of them provided split shifts?

6 MS DEBBY WONG: (In English) I don't have the number. But  
7 at each bus station we have certain bus routes, and some  
8 is long-haul routes and some is short-haul routes, and  
9 we have a mix, bus captains, some is split shift that  
10 you mentioned, and some is one duty. That means only am  
11 shift or night shift.

12 MS MAGGIE WONG: So in all these bus stations, there are  
13 split shifts and are they all provided with rest  
14 facilities for all four bus stations?

15 CHAIRMAN: Are you referring to just the four?

16 MS MAGGIE WONG: Yes.

17 CHAIRMAN: Thank you.

18 MS DEBBY WONG: (In English) Yes, we provided the facility  
19 in my managed bus terminus, and also we have a bus depot  
20 in Tin Shui Wai, and bus captains can rest during the  
21 break inside the depot, Tin Shui Wai depot. Or they can  
22 -- if they live close to their home, they can go home,  
23 rest, and then return to work. Because we will give  
24 around three or more hours for them to rest during the  
25 break.

26

1 CHAIRMAN: Is Tin Shui Wai a town centre a depot or bus  
2 station?

3 MS DEBBY WONG: (In English) We have another depot, it is  
4 Tin Shui Wai depot, it is also in Tin Shui Wai zone.

5 CHAIRMAN: Do you see on the screen we have a list of bus  
6 stations, which one is the depot?

7 MS DEBBY WONG: (In English) Tin Shui Wai town centre is the  
8 bus station and we have another location named Tin Shui  
9 Wai depot. That is only bus parking only.

10 CHAIRMAN: So we don't have Tin Shui Wai depot listed here?

11 MS DEBBY WONG: (In English) Yes, that's right.

12 MS MAGGIE WONG: Just to clarify, on that page, page 207,  
13 there are two Tin Shui Wai. One is Tin Shui Wai town  
14 centre, one is Tin Shui Wai railway station. So they  
15 are not the ones that are referred to by you as rest  
16 facilities?

17 MS DEBBY WONG: (In English) Sorry, I missed this one. This  
18 is under my management too. Tin Shui Wai station.

19 MS MAGGIE WONG: So both of them?

20 MS DEBBY WONG: (In English) This is another one. The  
21 station, another bus terminus another bus station under  
22 my manage.

23 CHAIRMAN: You told us earlier that Tin Shui Wai town centre  
24 has a rest area; is that right?

25 MS DEBBY WONG: (In English) We provide rest area there.

26

1 MS MAGGIE WONG: And the rest areas, are they type A or  
2 type B, or the bigger kiosk that you mentioned?

3 MS DEBBY WONG: (In English) Type B.

4 MS MAGGIE WONG: Type B. So in all the four bus stations,  
5 are they type B?

6 MS DEBBY WONG: (In English) Except Tin Shui Wai town  
7 centre, this is a concrete office, so we have concrete  
8 office for bus captain rest room.

9 The other is a kiosk, Tin Yan, Tin Fu, Tin Shui Wai  
10 station, they are all in kiosk B, type B.

11 MS MAGGIE WONG: So there would be benches provided for  
12 them, for bus captains?

13 MS DEBBY WONG: (In English) Yes, there is a chair. Not  
14 really a bench. It is a chair, and table, for them to  
15 take meal and rest.

16 MS MAGGIE WONG: In your submission you mentioned that there  
17 is a long lapse or long lead time to have a placement,  
18 even for chemical toilets, during your management of Lai  
19 Chi Kok depot, and that is at page 198, paragraph 3D of  
20 your submission.

21 And you mentioned an example of Allway Garden. And  
22 can you also refer to a minute, because it appears the  
23 trade union have also reflected this to the Transport  
24 Department. I just want to ascertain if you know about  
25 this.

26

1 And that's at TU-260-192 in English. That's minutes  
2 of the meeting between the Transport Department, and  
3 Legislative Councillor and Mr Cheung Kwok Che, and  
4 representatives of the Federation of Bus Industry Trade  
5 Unions, and representative of franchised bus unions.

6 CHAIRMAN: And the date?

7 MS MAGGIE WONG: The date is 4 March 2015. Page 260-200.

8 It was under the topic of bus stop facilities, and  
9 it is stated there that:

10 "The unions were discontent that ... most of the bus  
11 termini did not have pre-existing fixed restrooms for  
12 employees and toilets, and requested the Transport  
13 Department to review the planning and management of bus  
14 termini. The unions were also dissatisfied with the  
15 present complicated procedure for bus companies to apply  
16 for the installation of employee rest rooms, mobile  
17 toilets and other bus stop facilities and the  
18 consultation was very time-consuming. It was suggested  
19 that the application and consultation procedure should  
20 be simplified and speed up."

21 It mentioned a number of locations. And one of them  
22 is "Allway Garden bus terminus (no toilets)", which is  
23 one of the examples given in your submission.

24 Is that the location, or is Allway Garden bus  
25 terminus the location you mentioned in your submission  
26

1 at page 198?

2 MS DEBBY WONG: (In English) Correct.

3 MS MAGGIE WONG: So what is the status today? Has a toilet  
4 or rest facility been given at Allway Garden?

5 MS DEBBY WONG: (Interpreted) The Allway Garden terminus is  
6 uncovered and it is some way from a public toilet, and  
7 opposite Allway Garden there is a shopping centre, but  
8 the rest rooms there are always locked. We would have  
9 to borrow keys from the management office if our staff  
10 are to use their toilet.

11 The management office indicated that since we are  
12 not tenants they are reluctant to lend us the keys.

13 As I know, for the Lai Chi Kok terminus or depot, we  
14 have made submissions multiple times to the Transport  
15 Department to apply for chemical toilets. In  
16 January 2017, I submitted an application myself. It  
17 was January 2016. Again, we submitted an application to  
18 TD for a chemical toilet, and in the process TD rejected  
19 our application citing rejection from the public  
20 consultation.

21 It is an outdoor depot or terminus, so residents  
22 would be somewhat affected, but we considered the need  
23 for our staff to have a toilet, that's why we again  
24 applied to the Transport Department for other viable  
25 alternative locations, and in July last year we revised  
26

1           our plan, and again made an application. And eventually  
2           TD approved our application last October. The reason  
3           was that our staff had no toilet they can use.

4           And we communicated with district councillors to  
5           convince them of the need for our staff to have  
6           a toilet. So we received an approval letter last  
7           October.

8   MS MAGGIE WONG: This is only one of the examples. And the  
9           examples you gave based on the minutes is from  
10          March 2015, and you only managed to get the application  
11          approved in last October, which took at least two years  
12          to successfully apply for a toilet facility; is that  
13          correct?

14   MS DEBBY WONG: (In English) Actually, more than two years.  
15          Before they have some e-mail with our -- my other  
16          colleague, but under my management from 2017 for the  
17          whole year we have applied again, and again.

18   CHAIRMAN: How long has Allway Garden been a bus station?

19   MS DEBBY WONG: (In English) Over 20 years. I'm not quite  
20          remember the history, but once the bus terminus was  
21          here, the bus -- was there.

22   CHAIRMAN: How does it happen that a bus station is brought  
23          into use and there is not a provision for a toilet?

24   MS DEBBY WONG: (In English) So --

25   CHAIRMAN: How does that happen?

26

1 MS DEBBY WONG: (In English) Our bus captain obtain need to  
2 borrow the commercial centre, their office, with the  
3 key, and they change the key if they know we borrowed,  
4 and they change the key -- change the lock again.

5 CHAIRMAN: No, the question is more fundamental than that.  
6 Why do you provide a bus service to a bus station if  
7 there is not a toilet there? How does it happen that  
8 that comes about?

9 MS DEBBY WONG: (In English) Yeah.

10 CHAIRMAN: Why do you do it?

11 MS DEBBY WONG: (In English) So when I manage, I see the  
12 problem, so I try to communicate with the TD, Transport  
13 Department, and DC -- actually, I know the background is  
14 the DC members very unhappy of the chemical toilet  
15 placed in the public PTI.

16 CHAIRMAN: Then perhaps they have a choice. They either  
17 have a bus service or they have a toilet. But they --  
18 so how is it that you provide a bus service and you  
19 allow them to oppose putting a toilet in?

20 MS DEBBY WONG: (In English) So they asked us to borrow the  
21 commercial centre's toilet. That's what the solution  
22 they think it would be.

23 CHAIRMAN: That's not a solution, is it?

24 MS DEBBY WONG: (In English) Yeah, it is true.

25 MS MAGGIE WONG: And the second example you gave is the Lok  
26

1 Wah issue in August 2017. That's at page 198. And in  
2 your submission you stated that the Lok Wah issue was  
3 only resolved in October 2017, after several lobbying  
4 with the district council.

5 How long have you applied for a rest kiosk in Lok  
6 Wah Estate, since when?

7 MS DEBBY WONG: (In English) I read from the news it is over  
8 five years?. Sorry, this is not under my managed zone,  
9 but I read from the newspaper it is over five years we  
10 have applied. By KMB.

11 CHAIRMAN: Is Lok Wah in Kwun Tong?

12 MS DEBBY WONG: (In English) Yes.

13 CHAIRMAN: Is it a bus station?

14 MS DEBBY WONG: (In English) Yes.

15 MS MAGGIE WONG: And the third example you gave is also at  
16 Tuen Mun depot, is the Yuen Long Park.

17 And you stated that you applied for the resting  
18 facility in 2014, and only approved in 2016.

19 So why did it take so long to provide, or two years  
20 to provide a resting facility?

21 MS DEBBY WONG: (In English) Actually, we don't know the  
22 reason. But our procedure is submit our application to  
23 Transport Department and they will circulate our  
24 application to public, all relevant publics, like  
25 police, or DC member, and the residents, near Yuen Long  
26

1 Park, they will consult them, and I remember they  
2 replied that the rejection party is police.

3 That's very rare from my understanding, it is not  
4 their living area, that's police. So we asked police to  
5 come out and discuss with them how can we solve this  
6 issue. Because providing the kiosk, not only our  
7 working station for terminus supervisor, also that was a  
8 resting area for our bus captains. If there is really  
9 a service providing in Yuen Long Park, we need  
10 a station, we need a rest room for them.

11 So we asked the police to come out to solve the  
12 issue, and try to make every party happy.

13 MS MAGGIE WONG: Do you have written correspondence  
14 exchanged with the police about this matter?

15 MS DEBBY WONG: (In English) Yes. We resubmit the  
16 application to Transport Department, and asked them  
17 to -- for another round consultation in 2015.

18 MS MAGGIE WONG: Would you be able to provide us with the  
19 documentation in relation to this particular incident  
20 concerning Yuen Long Park --

21 MS DEBBY WONG: (In English) Yes.

22 MS MAGGIE WONG: -- with the Transport Department and with  
23 the police?

24 MS DEBBY WONG: (In English) Yes, I can provide that.

25 MS MAGGIE WONG: Thank you.

26

1           And may I take you to the TU bundle, as well as.  
2           This time it is in relation to -- this is a report  
3           compiled by the Federation of Bus Industry Trade Unions.  
4           Annex 7 of their submission dated 16 July.

5           And it listed out --

6   CHAIRMAN:   Page?

7   MS MAGGIE WONG:   Page 260-346-2.   260-346-2.

8   CHAIRMAN:   Thank you.

9   MS MAGGIE WONG:   It is a table setting out the bus terminus  
10           and the location, and the progress of the application.  
11           I would just like to ask you a few examples here to ask  
12           you whether progress has been made, or whether there has  
13           been further progress.

14           On that page, it is under the bus company KMB, and  
15           the location is at Tuen Mun Po Tin Estate, and it was  
16           stated there that it has been consulted for two years  
17           and no reply has yet been received.

18   MS DEBBY WONG:   (In English) I think that is Kelvin Yeung's  
19           submission.   Po Tin.

20   MS MAGGIE WONG:   I believe that's not.   Because that's the  
21           document provided to us by Federation of Bus Industry  
22           Trade Unions, annex 7.   It is not a document by Kelvin  
23           Yeung.

24   MS DEBBY WONG:   (In English) Okay.

25   MS MAGGIE WONG:   But in any event, I just want you to  
26

1 confirm whether that's the position.

2 We see in the right column, it is stated there that:

3 "The relevant application has to be approved by the  
4 Housing Department. [Transport Department] has already  
5 written to the Housing Department requesting KMB's  
6 application to be handled as soon as possible, it has  
7 also made follow-up call to the Housing Department to  
8 further follow up. The Housing Department replied and  
9 said it is still handling the relevant matter."

10 And it was in relation to the Tuen Mun Po Tin  
11 Estate.

12 So is that, first of all, an estate managed by you?

13 MS DEBBY WONG: (In English) No.

14 MS MAGGIE WONG: Or the bus station, is that managed by you?

15 MS DEBBY WONG: (In English) No, it is under Kelvin Yeung.

16 MS MAGGIE WONG: But you don't know about the status of this  
17 application?

18 MS DEBBY WONG: (In English) Not so familiar.

19 MS MAGGIE WONG: And what about the rest of the facilities  
20 from 260-346-2, if you look through to 260-346-6? Can  
21 you look through them and see which one of them may be  
22 applicable to you, or an estate managed by you, a bus  
23 station managed by you?

24 MS DEBBY WONG: (In English) No. All is not under my  
25 management.

26

1 MS MAGGIE WONG: Yes.

2 And Ms Wong, I'm going to ask you another topic.

3 You mentioned that you have been working for Kowloon

4 Motor Bus for over 20 years.

5 MS DEBBY WONG: (In English) Yes.

6 MS MAGGIE WONG: Do you know a person named Raymond Cheng?

7 MS DEBBY WONG: (In English) Raymond Cheng, yes.

8 MS MAGGIE WONG: He used to work for Kowloon Motor Bus

9 between 2010 and 2014 in the safety and service quality

10 department.

11 MS DEBBY WONG: (In English) Mm-hmm.

12 CHAIRMAN: Do you know that?

13 MS DEBBY WONG: (In English) Yes.

14 MS MAGGIE WONG: And in his submission he mentioned that

15 there was a study conducted during his time, following

16 the accident in Tseung Kwan O in 2009, that there was

17 a study about 29 sharp bends in Hong Kong, and to

18 discuss the possible speed limit that could be

19 applicable.

20 CHAIRMAN: Perhaps if we were to show the witness the

21 witness statement?

22 MS MAGGIE WONG: Yes. The witness statement is at page 96.

23 CHAIRMAN: Of which bundle?

24 MS MAGGIE WONG: FE bundle, page 96-4.

25 If you look at the section, buses can overturn

26

1 easily --

2 CHAIRMAN: Give Ms Wong a moment to have a look at the  
3 document.

4 MS MAGGIE WONG: I apologise, yes.

5 Do you mind looking at the document at page 96-4?

6 If you look through to 96-6, so three pages.

7 CHAIRMAN: Take your time. There is no hurry.

8 Yes, Ms Wong.

9 MS MAGGIE WONG: Yes, Ms Wong, we can see from this

10 statement that Mr Raymond Cheng stated that he:

11 "... started the study of safe driving in the sharp  
12 turns back in 2013. The Safety and Quality Service  
13 Department invited the 4 depot managers, the  
14 representatives from Bus Captain Training School and Bus  
15 Maintenance Section of Service Department to form  
16 a study group looking deeply into all the sharp turns  
17 within [KMB] bus route network. The study collected  
18 thousands of daily bus turning data and formulated  
19 hundreds of potentially dangerous turns within the  
20 network. We then narrowed it down to top 29 corner  
21 turns that may cause serious overturning  
22 [incidents] ..."

23 And he named a few in Chinese characters there.

24 May I ask you first, did you know about the study  
25 carried out by Raymond Cheng.

26

1 MS DEBBY WONG: (Interpreted) Yes, I was aware of the 29  
2 sharp bends. But then I was not within the group making  
3 this.

4 CHAIRMAN: Do you know who was in the group?

5 MS DEBBY WONG: (In English) As mentioned by Raymond, maybe  
6 it is the depot manager plus the training school  
7 instructor.

8 CHAIRMAN: Thank you.

9 MS MAGGIE WONG: And this study group, it mentioned that --  
10 if you look over the page at 96-6, it referred to the  
11 study group carrying out tests of these 29 turns in  
12 different road conditions, different speeds, different  
13 passengers, load conditions, and they video-recorded the  
14 whole study for future reference.

15 Did you know about this video-recorded study?

16 MS DEBBY WONG: (Interpreted) No.

17 MS MAGGIE WONG: If you look, if you follow on at the  
18 bottom, it mentioned there was a safety booklet.  
19 I believe subsequently it was clarified as a small  
20 printed card, by Mr Raymond Cheng:

21 " ... for Bus Captains detailing each potentially  
22 dangerous turns' exact location, direction, and road  
23 nature, road condition, past record, related photos or  
24 grimes from Transport Department's document or passenger  
25 complaints ..."

26

1           Then they have made 31 is safety driving suggestions  
2           from a study of over 1,500 studies.

3           Did you know about this?

4   MS DEBBY WONG:   (In English) I know there is a safety  
5           booklet, but I'm not sure of the study.

6   MS MAGGIE WONG:   So there is a safety booklet of these 29  
7           turns; is that correct?

8   MS DEBBY WONG:   (In English) In general. The safety  
9           booklet is in general for bus captains to be careful.

10   MS MAGGIE WONG:   Did you know about the outcome of this  
11           study?

12   MS DEBBY WONG:   (In English) Not sure.

13   CHAIRMAN:   Do you know if it was disseminated, passed out to  
14           bus captains?

15   MS DEBBY WONG:   (In English) Yes, we will pass this safety  
16           handbook to bus captains, and we will have a very brief  
17           instruction to them.

18   MS MAGGIE WONG:   But in relation to this safety handbook to  
19           bus captain, do you know if it contains anything about  
20           these 29 sharp bends?

21   MS DEBBY WONG:   (In English) Sorry, I'm not very quite read  
22           the details from the booklet, so maybe I have no idea on  
23           this subject.

24   MS MAGGIE WONG:   Mmm. During your time in Kowloon Motor  
25           Bus, did you at any time discuss with the management  
26

1           about conducting a study or gathering views from bus  
2           captains as to the dangerous road conditions in Hong  
3           Kong?

4       MS DEBBY WONG:     (In English) We will give -- I remember  
5           during Mr Cheng's -- the period I was not assistant  
6           manager, and I am one of the operations staff and we  
7           will provide some location that may have potential to  
8           have the hazard on the sharp bends. So during that time  
9           we provide some location to SSQ session to have more  
10          review on this.

11       CHAIRMAN:   That's safety and service session, is it?

12       MS DEBBY WONG:     (In English) Yes.

13       MS MAGGIE WONG:   For which period?

14       MS DEBBY WONG:     (In English) During Mr Cheng's -- 2010 to  
15          2014.

16       MS MAGGIE WONG:   What about after 2014?

17       MS DEBBY WONG:     (In English) After --

18       MS MAGGIE WONG:   After 2014, did you continue to provide  
19          information about this?

20       MS DEBBY WONG:     (In English) Yes, continuous.

21       MS MAGGIE WONG:   Would you be able to provide us with some  
22          of the documentation concerning your relaying of the  
23          concerns about locations about the topic you mentioned  
24          about the dangerous road condition that may pose risk?

25       MS DEBBY WONG:     (In English) Maybe I will not have the  
26

1 black and white, but we will have a focus group to  
2 discuss this topic. I remember after the accident in  
3 Tseung Kwan O they have a focus group to discuss this  
4 topic.

5 CHAIRMAN: Were there minutes kept of these meetings? Was  
6 it documented in any way?

7 MS DEBBY WONG: (In English) I'm not sure we have the  
8 document.

9 MS MAGGIE WONG: You mentioned a focus group, is it  
10 different from the study group?

11 MS DEBBY WONG: (In English) Similar. Similar, the study  
12 group to study the sharp bend location.

13 MS MAGGIE WONG: But what about the membership in this focus  
14 group?

15 MS DEBBY WONG: (In English) I think they all left KMB.  
16 The department -- the depot manager did mention they are  
17 all -- some is retired, some is resigned.

18 CHAIRMAN: So the group of people involved in studying sharp  
19 bends either retired or resigned; is that what you are  
20 saying?

21 MS DEBBY WONG: (In English) Mm-hmm.

22 CHAIRMAN: Thank you.

23 MS MAGGIE WONG: So when did they retire or resign?

24 MS DEBBY WONG: (In English) In these few years. I don't  
25 exactly remember the date.

26

1 MS MAGGIE WONG: So after they retired or resigned what  
2 happened to the focus group?

3 MS DEBBY WONG: (In English) We changed to each depot to  
4 keep monitor the safety issue. Not by this section,  
5 safety -- SSQ -- the ownership shifted to each depot,  
6 operations.

7 CHAIRMAN: So rather than being centralised it became  
8 dispersed to each depot?

9 MS DEBBY WONG: (In English) Individual. Mm-hmm.

10 MS MAGGIE WONG: When you mentioned each individual depot,  
11 would you discuss with the bus captains that based on  
12 their experience that certain road or bends are  
13 dangerous, and then to warn the other bus captains that  
14 they have to be careful? Would you do something like  
15 that?

16 MS DEBBY WONG: (In English) We will analyse some, the  
17 accident location, bus captain experience, in the  
18 sharing group, the bus captain experience, and like  
19 this. To analyse the -- any hazard in -- on the road,  
20 and we need to maybe if that is necessary, we will  
21 discuss with training school, the instructor, how to  
22 train some bus captain to pay attention to the road.

23 MS MAGGIE WONG: This sharing group, is this only confined  
24 to individual depot, or would there be discussions  
25 amongst different depots?

26

1 MS DEBBY WONG: (In English) In -- because different  
2 location -- it depends on each depot. They will  
3 individually discuss with training school, or we have  
4 some meeting, maybe with training school we will -- we  
5 will provide to the -- any time actually, not specific,  
6 not specific in any meeting.

7 MS MAGGIE WONG: How often you hold this sharing group?

8 MS DEBBY WONG: (In English) Like what I say. It is -- if  
9 we analyse some traffic accident, so it is not time  
10 limit to them. So another is bus captains sharing  
11 experience, then if we find their location is a hazard,  
12 we will talk to the instructor, or make some notice or  
13 reminder to remind bus captain to pay attention on some  
14 hazard location. So there is no specific meeting or any  
15 time to make a promise in that meeting, or what.

16 MS MAGGIE WONG: You refer to making some notice, or  
17 reminder to remind bus captains to pay attention on some  
18 hazard location. Are they in writing, or orally?

19 MS DEBBY WONG: (In English) Both. Mostly it is in  
20 writing.

21 MS MAGGIE WONG: Within each individual depot?

22 MS DEBBY WONG: (In English) Yes.

23 MS MAGGIE WONG: Can you provide us with some of these  
24 notices or reminders?

25 MS DEBBY WONG: (In English) I can provide to you later.

26

1 I don't it have now.

2 MS MAGGIE WONG: Thank you.

3 So about these individual notices, are they reactive  
4 to accidents? That's the first question. Are they  
5 reactive to accidents? The notice was issued reactive  
6 to accidents?

7 MS DEBBY WONG: (In English) For your first question, yes,  
8 sometimes it is react to the accidents. Like  
9 a reminder, for the bus captain.

10 MS MAGGIE WONG: And the second is, are they reactive to bus  
11 captains' complaints, or if I put it correctly, is it  
12 bus captains' views, initiative to inform you about  
13 certain road condition?

14 MS DEBBY WONG: (In English) Yes, if there is road  
15 condition will create some accident we will also issue  
16 some reminder for bus captain.

17 MS MAGGIE WONG: My question is, sorry, are they reactive --  
18 are they study -- is it a study carried out by your  
19 company's initiative, or due to the bus captains'  
20 voicing out their views about certain road conditions?  
21 Which one is that?

22 MS DEBBY WONG: (In English) If the bus captain voice out  
23 that, we will verify the cause, or something we can  
24 protect, I mean, prevent any accident appear again, so  
25 we will find out the root cause first. If there is

26

1           really can prevent, we can do something. Like, maybe,  
2           remind them some road conditions have some -- like after  
3           the raining, the tree branches always will create some  
4           accident, we will remind them to be patient when they  
5           drive near the roadside, so we will remind something  
6           like "Be careful driving near that road section".

7   MS MAGGIE WONG: So that's reactive to the experience of the  
8           bus captains' views?

9   MS DEBBY WONG:   (In English) Yes.

10   MS MAGGIE WONG: And not something initiated by the bus  
11           company; is that what you are saying?

12   CHAIRMAN: I think what you have told us is that you reacted  
13           to accidents and you also listened to what bus captains  
14           had to say?

15   MS DEBBY WONG:   (In English) Yes.

16   CHAIRMAN: That's how you formulated these cautionary  
17           advices?

18   MS DEBBY WONG:   (In English) Mm-hmm. Right.

19   MS MAGGIE WONG: Thank you.

20           Can you give us a few examples during your time  
21           perhaps in Tuen Mun, as to some of the road that you  
22           have identified as dangerous or posed risk?

23           (Pause)

24   CHAIRMAN: If you can't, just say so.

25   MS DEBBY WONG:   (In English) Okay. No.

26

1 MS MAGGIE WONG: So you can't identify at the moment? Okay.

2 MS DEBBY WONG: (In English) Yes.

3 MS MAGGIE WONG: Concerning the last topic, it is about lost  
4 trip.

5 We have heard some evidence that there are a number  
6 of lost trips due to the fact that -- they are due to  
7 various reasons; sometimes due to road conditions and  
8 sometimes due to the inaccurate estimation of the  
9 journey time.

10 Can you confirm if that's what happened --

11 CHAIRMAN: Before you do that, can you tell us what a lost  
12 trip is?

13 MS DEBBY WONG: (In English) Lost trip will be -- we have  
14 a scheduling service that we have gazette -- like  
15 gazetted trips that we promise to make a certain service  
16 level, in a certain period there is a gazetted schedule.  
17 And there is a -- if we cannot follow the scheduling of  
18 service, that trip missing was named lost trip.

19 CHAIRMAN: So, inability to fulfil your gazetted schedule?

20 MS DEBBY WONG: (In English) Yes.

21 MS MAGGIE WONG: Does this happen in the Tuen Mun depot that  
22 you managed?

23 MS DEBBY WONG: (In English) Yes, lost trip happened there.

24 MS MAGGIE WONG: Can you tell us the reasons why there were  
25 lost trips?

26

1 MS DEBBY WONG: (In English) Basically we will have the  
2 crew, the sufficient of crew. Second will be the  
3 traffic condition will create -- the bus cannot arrive  
4 on time. And the third will be the bus breakdown, we  
5 don't have spare buses to replace shortly.

6 Fourth will be if there is an urgent -- sudden  
7 demand happened in other area, we need to redeploy some  
8 service from gazetted service to others to make the  
9 demand solved.

10 CHAIRMAN: To meet the demand?

11 MS DEBBY WONG: (In English) Yes. So there is these  
12 reasons will create lost trip. Some -- actually, we are  
13 doing some -- actually, we always need to review the --  
14 assess the scheduling of service time and time.  
15 Actually, when we create the schedule of service we need  
16 to review the -- every area, any changes, if there are  
17 changes maybe my during the off peak, the service do not  
18 need so frequent, so we will submit the application to  
19 Transport Department to reduce some schedule of service,  
20 some trips, so make use this time for bus captain for  
21 more rest time or to let them have more time to rest.

22 So we, on and on going, we will apply this to  
23 Transport Department and this can also reduce the trips,  
24 so we can -- may have less lost trip rates.

25 CHAIRMAN: Do Transport Department measure your lost trips?

26

1 Is this something you have to report?

2 MS DEBBY WONG: (In English) Yes.

3 MS MAGGIE WONG: How do you assess the journey time when you  
4 gazette all these scheduled trips?

5 MS DEBBY WONG: (In English) Okay, for the first time we  
6 will use our patrol car. Maybe for the first time the  
7 timetable issued we will use our patrol car to follow  
8 the scheduled trips, scheduled routing to measure the --  
9 estimate the journey time. After the timetable  
10 implement, maybe after certain period the environment is  
11 changed, we will analyse the previous days of regular  
12 service to summarise the journey time to average the  
13 journey time to estimate any changes after the timetable  
14 implement.

15 So that is how to generate the journey time.

16 CHAIRMAN: So if you find that the journey time in fact is  
17 taking longer than the scheduled time, what do you do  
18 about it?

19 MS DEBBY WONG: (In English) We will apply to TD to make  
20 the scheduling service -- to revise the scheduling of  
21 service.

22 CHAIRMAN: Is that something that you do regularly?

23 MS DEBBY WONG: (In English) Yes.

24 CHAIRMAN: When did you last do that?

25 MS DEBBY WONG: (In English) Actually, last month we also  
26

1 submit that -- not last month, in May.

2 CHAIRMAN: Thank you.

3 How long typically does it take to get a response  
4 from the Transport Department?

5 MS DEBBY WONG: (In English) It will take long, because  
6 Transport Department say they will arrange a survey.  
7 Actually, not only we add the journey time, if we will,  
8 that's necessary, we also review the non-peak hour, the  
9 trip may be not that frequent, maybe reduce some trips,  
10 and the Transport Department need to make a survey, and  
11 then it will take a very long time for the process.

12 CHAIRMAN: Are you talking about years? How long are you  
13 talking about?

14 MS DEBBY WONG: (In English) Some certain months, maybe  
15 a year, Mr Chairman, yes.

16 MEMBER LO: Have you used the black box information to  
17 ascertain that the trip time is actually longer?

18 MS DEBBY WONG: (In English) Actually, we don't use black  
19 box for the journey time. We use -- we have a system,  
20 our -- our KMB system, which is the bus captain use  
21 their Octopus to report on the bus terminus, bus  
22 station, when they reach any bus station they will need  
23 to tap the Octopus card so that we can know that they  
24 arrive, and if there is some uncertainty, we will use  
25 its black box to see their arrival time. Actually, if

26

1 the bus arrive, bus captain reach to us report they  
2 arrive. So we will actually use our internal system,  
3 TER system. Instead of black box.

4 MEMBER LO: But TD does not look at that as sufficient  
5 evidence to change a timetable?

6 MS DEBBY WONG: (In English) No. I don't know how they do  
7 the analysis.

8 CHAIRMAN: But isn't the equipment that you have, we call it  
9 a black box, if you like, isn't it capable of doing this  
10 automatically? Or don't you know?

11 MS DEBBY WONG: (In English) You mean the black box data do  
12 it automatically?

13 CHAIRMAN: Yes. Tell you the journey time.

14 MS DEBBY WONG: (In English) Actually, we will keep it in  
15 a database. Once we need to retrieve the data, we will  
16 recall that to see if the bus arrive on time, or  
17 something, or the speed of the bus. So not actually we  
18 rely on this to monitor journey time.

19 CHAIRMAN: The system you use is the fact that the bus  
20 captain uses his Octopus card on arrival at a terminus,  
21 is that it?

22 MS DEBBY WONG: (In English) Yes.

23 MS MAGGIE WONG: And what are the consequences for your  
24 company if you have lost trips?

25 MS DEBBY WONG: (In English) It depends on -- "what are  
26

1           your consequences"? Actually, we try to deploy  
2           sufficient crew, bus captain to make a lost trip --  
3           minimise the lost trip. That's what -- our solution.  
4           And the other solution maybe what I mentioned, try to  
5           reduce the off-peak trips to make less bus captain to  
6           use on the road, and that's another solution.

7   MS MAGGIE WONG: Ms Wong, do you know a person call Alok  
8           Jain?

9   MS DEBBY WONG:   (In English) Yes, our planner, ex DOD.

10   CHAIRMAN: What does that stand for?

11   MS DEBBY WONG:   (In English) Deputy operations director.

12   CHAIRMAN: Thank you.

13   MS MAGGIE WONG: During your time, have you been able to  
14           have a discussion or meetings with Alok Jain in relation  
15           to the safety aspects of franchised buses?

16   MS DEBBY WONG:   (In English) In my understanding, I only --  
17           the planning issue, I will discuss with him. Because he  
18           have another --

19           (Interpreted) He had got another sort of capacity.

20           He was the planner, he was the head of planning.

21   MS MAGGIE WONG: You mentioned planning issues. What is  
22           planning issue?

23   MS DEBBY WONG:   (In English) Because we have a division  
24           named "Planning", we will discuss with Planning  
25           Department on some routes development, or the bus type

26

1 issue with the Planning Department.

2 MS MAGGIE WONG: In relation to the bus type issue, would  
3 you discuss black box?

4 MS DEBBY WONG: (In English) Not with him.

5 MS MAGGIE WONG: But during your time did you have meetings  
6 with this Planning Department concerning black box?

7 MS DEBBY WONG: (In English) No.

8 MS MAGGIE WONG: Mr Chairman, I have finished my  
9 questioning.

10 CHAIRMAN: Thank you.

11 QUESTIONS FROM THE COMMITTEE

12 MEMBER AUYEUNG: I just want to follow up on the comment you  
13 made earlier, that when a particular spot to be defined  
14 as hazardous by yourself or a bus captain, do you also  
15 have a procedure to report it to the head office, or the  
16 training instructor?

17 MS DEBBY WONG: (In English) We will discuss with training  
18 instructor for the -- any hazard. Something like maybe  
19 a -- sharing from experience, maybe we have a terminus,  
20 we see there always have accident when bus captain  
21 turning into the bus bay, like there is a shelter, maybe  
22 a shelter erected there which will create some hazard  
23 there, we will discuss with training school how to make  
24 more training on bus captain, or do some modification on  
25 the shelter issue.

26

1           So this kind of review or something experienced from  
2           bus captain, we will do, as what I said, we will verify  
3           the final, the root cause, and then we will try to find  
4           a way out, how to solve that.

5   MEMBER AUYEUNG: Is this communication in writing, or  
6           verbal?

7   MS DEBBY WONG: (In English) Both. Both will have.  
8           Sometimes e-mail, e-mail to training school.

9   MEMBER AUYEUNG: Thank you.

10           The other question is during your time working in  
11           your particular responsibility, have you ever received  
12           complaints from bus captain that the resting facilities  
13           are not good enough?

14   MS DEBBY WONG: (In English) Mm-hmm, yes. We -- sometimes  
15           we will receive some bus captain request, maybe a bigger  
16           resting area, like the kiosk will be too small, they  
17           want one more, or they want more facility. Like they  
18           want distilled water, they want hot and cold water, so  
19           we will try to use our force to make them happy.

20   MEMBER AUYEUNG: Thank you.

21   MEMBER LO: This is just a very open question. I know you  
22           are a very experienced frontline manager.

23           Are there issues that you think the company can do,  
24           maybe should do, but has not done, other than the  
25           aspects we have already discussed, about safety, that  
26

1           you observe over the years, that we should be aware of?

2       MS DEBBY WONG:     (In English) I think for the safety issue,  
3           not only our company can do everything. Like what  
4           I say, some road conditions, and some -- road condition  
5           is not -- maybe, the design of the road may have some  
6           not -- not good for double-decker bus or something -- so  
7           not the company can do, it is the design of the road, or  
8           Transport Department maybe can do something on some road  
9           design.

10       CHAIRMAN: Thank you, Ms Wong. Thank you for coming to  
11           assist us by giving evidence. But your evidence is now  
12           complete, and you can withdraw from the table. You can  
13           stay and listen to your colleague if you wish, or you  
14           are free to leave.

15           But we will take the evidence now from Mr Yeung.

16       EMPLOYEE OF KOWLOON MOTOR BUS COMPANY (1933) LIMITED:

17                       MR KELVIN YEUNG

18       (Evidence given in Cantonese and English, transcription of  
19           the simultaneous interpretation and/or English)

20       CHAIRMAN: Thank you, Mr Yeung for coming to assist us by  
21           giving evidence for accepting our invitation to do so.  
22           You have heard me explain to Ms Wong and you have seen  
23           how we proceed.

24           So I'll move straight away and ask Ms Wong to ask  
25           you questions.

26

1 MR KELVIN YEUNG: Good morning, Mr Chairman, and good  
2 morning, members. Could I have your permission to make  
3 some opening remarks, thank you.

4 Good morning, ladies and gentlemen. I would like to  
5 thank the Committee for inviting me to today's hearing.  
6 Just now, Ms Debby Wong spoke. Like her, I'm also an  
7 assistant manager. Others would call us zone head, in  
8 Chinese "(Chinese spoken)". I'm also responsible for  
9 the operation of Tuen Mun depot. As has been pointed  
10 out -- perhaps I should speak slower for the sake of the  
11 interpreters.

12 Now, for Tuen Mun depot, we are responsible for Tuen  
13 Mun, Yuen Long and Tin Shui Wai. For zone heads the  
14 main duty is such that he or she will take care of the  
15 operation of the bus service including bus routes and  
16 frontline bus captains, terminus supervisors, as well as  
17 other staff members, as well as facilities at the  
18 terminus like the rest kiosk. They are within our  
19 duties.

20 We have to closely liaise with the frontline  
21 colleagues. Therefore, we have to know what the need,  
22 and at the same time other than dealing with the  
23 frontline colleagues regularly we have to meet with the  
24 management. We have to communicate with them, having  
25 meetings with them, telling them or relaying to them  
26

1        what frontline colleagues have said, and regularly  
2        I have to talk about what happens to the individual  
3        routes, like what difficulties we have encountered.

4            So we have to be aware of the directions of the  
5        management.

6            So I can say that for zone heads, we are sort of  
7        like a bridge, a very important one, between the  
8        frontline colleagues as well as the management.

9            Allow me to say a few words about myself.

10           I have been with the KMB for almost 10 years.  
11        I started at a junior level. 10 years ago I joined the  
12        Sha Tin depot as an inspector, operations inspector. It  
13        is an outdoor sort of a duty.

14           My main duty was to assist the passengers as well as  
15        frontline bus captains.

16           If bus captains encounter any problems then we have  
17        to arrive at the scene to provide assistance. I was  
18        also responsible for the terminus facilities. So there  
19        was a lot for me to take care of.

20           Two years later I was promoted and I became an  
21        officer for operations. So it is an office duty. Not  
22        outdoors, but of course I have to go out to pay such  
23        visits as well.

24           For the first two years, as far as the safety and  
25        service quality department is concerned, I would have a  
26

1 close relationship because I was responsible for safety  
2 matters.

3 Two years later, I was deployed to Tuen Mun, Yuen  
4 Long, Tin Shui Wai responsible for the operations, and  
5 then the company deployed me to take up a ROM project,  
6 so that's the real-time operation management.

7 CHAIRMAN: Very sensibly you admonished yourself that you  
8 would take this slowly, but you are not doing it. Can  
9 I ask you to slow down.

10 MR KELVIN YEUNG: (In English) Slow down? Sure, let me slow  
11 down. Would you like me to repeat it again --

12 CHAIRMAN: No --

13 MR KELVIN YEUNG: (In English) -- or just keep going?

14 CHAIRMAN: -- but do it slowly.

15 MR KELVIN YEUNG: (Interpreted) Two years later I was  
16 responsible for operations at Tuen Mun Tin Shui Wai. At  
17 that time the company deployed me to take up a project  
18 called ROM. I gathered from previous hearing sessions  
19 that's the real-time operation management. So for ROM  
20 and for the SSQ department, I'm experienced.

21 So I am -- I welcome questions from you on those two  
22 topics. This year, unfortunately, there was a very  
23 serious bus accident in February and I found that KMB  
24 has become the focus point of the media, political  
25 parties, trade unions, and even some former colleagues  
26

1 of the KMB have aired different views regarding the  
2 company.

3 It is not just myself, but my colleagues have also  
4 found that quite a lot of the view points or the  
5 allegations were untrue. Together with the other six  
6 zone heads we believe that such untrue allegations  
7 regarding our bus captains' frontline officers, back  
8 office colleagues and the management, such untrue  
9 allegations are most unfair. Therefore, we have  
10 co-signed a letter addressed to our board of directors.  
11 We would like to tell them what we have seen, and what  
12 actually happened.

13 So it was a brief one, but we told the board of  
14 directors what we saw, and then we forwarded the letter  
15 to the Committee for your reference. I know that a few  
16 zone heads have had correspondence with you. Today only  
17 Debby and myself can find time to attend your hearings.  
18 What we want to do is that in the capacity of a zone  
19 head we would like to tell you what actually happens.

20 From my point of view, before the accident, in other  
21 words, before February, if you asked the public or  
22 residents what they feel about KMB service in recent  
23 years, they would say that service has improved, and  
24 they are doing rather well in terms of the bus service,  
25 and facilities, real-time arrival information,  
26

1 et cetera. There have been improvements.

2 Unfortunately, after the accident in February, if  
3 you ask the residents again --

4 CHAIRMAN: Mr Yeung --

5 MR KELVIN YEUNG: (In English) Yes.

6 CHAIRMAN: Thank you for making the opening statement, but  
7 you have occupied quite a lot of time already --

8 MR KELVIN YEUNG: (In English) I am nearly finished.

9 CHAIRMAN: You can make some closing remarks if you like,  
10 but we are going to move now to questions.

11 EXAMINATION BY MS WONG

12 MS MAGGIE WONG: Mr Yeung, thank you for coming. You  
13 mentioned that you joined KMB 10 years ago, that would  
14 be around 2008?

15 MR KELVIN YEUNG: (In English) 2009.

16 MS MAGGIE WONG: Since when you became the operator in  
17 charge of the Tuen Mun depot?

18 MR KELVIN YEUNG: (Interpreted) Around 2013.

19 MS MAGGIE WONG: And we can see that in your statement that  
20 the -- or rather in your opening statement, Tuen Mun  
21 depot is responsible for bus operation of Tuen Mun, Yuen  
22 Long and Tin Shui Wai, and you are only responsible for  
23 Tuen Mun, correct?

24 MR KELVIN YEUNG: (Interpreted) In 2013, I once managed the  
25 stations in Yuen Long and Tin Shui Wai. I was  
26

1 responsible for a little more than half a year, and  
2 after that, I was responsible for Tuen Mun, and I was  
3 the zone head of Tuen Mun. Until July this year --  
4 well, after July I was rotated to Yuen Long and Tin Shui  
5 Wai, so I'm very familiar with Yuen Long, Tuen Mun and  
6 Tin Shui Wai.

7 MS MAGGIE WONG: And you mentioned in your submission there  
8 are 31 bus terminus with full-day bus services under  
9 Tuen Mun depot. So currently, how many bus termini are  
10 you managing?

11 MR KELVIN YEUNG: (Interpreted) For Yuen Long, Tuen Mun and  
12 Tin Shui Wai there are a total of 31. Ms Wong mentioned  
13 30, because one terminus only started operation at the  
14 end of June. So there might be a discrepancy.

15 For bus terminals with full day service --

16 CHAIRMAN: The question was very simple. How many bus  
17 stations do you manage? Don't tell us your mental  
18 process at arriving at the answer. Just give us the  
19 answer.

20 MR KELVIN YEUNG: (Interpreted) But I must tell you how we  
21 ascertain the number of 31.

22 CHAIRMAN: No, that's not necessary, Mr Yeung. Listen to  
23 the question, and please respond directly to the  
24 question.

25 MR KELVIN YEUNG: (Interpreted) There are 31 stations with  
26

1 full-time service.

2 MS MAGGIE WONG: How many terminals do you manage?

3 MR KELVIN YEUNG: (Interpreted) In July I was responsible

4 for stations in Tuen Mun, Yuen Long and Tin Shui Wai.

5 CHAIRMAN: The question was: how many stations do you

6 manage?

7 MR KELVIN YEUNG: (Interpreted) 31 terminals with full-day

8 service.

9 CHAIRMAN: Thank you.

10 MS MAGGIE WONG: So you manage the station together with

11 Debby Wong for Tin Shui Wai as well, co-manage?

12 MR KELVIN YEUNG: (In English) Correct, and Yuen Long as

13 well.

14 MS MAGGIE WONG: But you are of the same rank as Debby Wong,

15 is that correct, or you are of a higher rank?

16 MR KELVIN YEUNG: (Interpreted) I'm mainly responsible for

17 Tuen Mun terminals, but the company wants me to look at

18 Yuen Long and Tin Shui Wai as well. But for Yuen Long

19 and Tin Shui Wai, Debby and Amanda are chiefly

20 responsible.

21 MS MAGGIE WONG: And in your opening statement you stated

22 that you take care of bus routes and front line of bus

23 captains, et cetera. Do you know how many bus stations

24 have special shifts?

25 MR KELVIN YEUNG: (Interpreted) Of the 31 stations, if you

26

1 don't mind, I will count them now.

2 From my recollection, all of them have bus captains  
3 on special shifts.

4 MS MAGGIE WONG: And would resting facilities be provided to  
5 all 31 bus stations or bus termini?

6 MR KELVIN YEUNG: (Interpreted) Yes, there are resting  
7 facilities.

8 MS MAGGIE WONG: All 31?

9 MR KELVIN YEUNG: (Interpreted) If you need, I would like to  
10 elaborate on this. Of the 31 bus stations, there are  
11 special shifts, but the bus captains might not end their  
12 working days at the same station, so at all 31 stations  
13 there would be resting facilities for captains.

14 MS MAGGIE WONG: Mr Yeung, you mentioned there are two types  
15 of rest kiosk. We have heard that, type A and type B,  
16 and you stated that for type A, the kiosk is about the  
17 size of 17 square feet, and for type B, 50 square feet.  
18 And we heard from Debby Wong that there is a bigger  
19 kiosk. Can you tell us how much bigger in comparison  
20 with type A and type B?

21 MR KELVIN YEUNG: (Interpreted) For type A it can  
22 accommodate a maximum of two staff. For type B, the  
23 size is around double of type A. So in other words, if  
24 you put two type A kiosks together, they would look  
25 around the same size as one type B kiosk. However, if

26

1           you place two type A kiosks there would be a wall in  
2           between. So the space would be -- would not be able to  
3           be used some fully.

4   CHAIRMAN: Is this designation A and B a KMB designation?

5   MR KELVIN YEUNG: (Interpreted) Yes. These are our two  
6           standard kiosks: type A and type B.

7   MS MAGGIE WONG: The Transport Department has made no  
8           guidelines on provision of rest facilities; is that  
9           correct? No guidelines whatsoever.

10   MR KELVIN YEUNG: (Interpreted) Correct. As far as I know,  
11           they do not have guidelines in place. So KMB would  
12           decide what kind of facilities to install.

13   MS MAGGIE WONG: There is another type you mentioned. It is  
14           tailor-made kiosk, to cater special need of individual  
15           bus terminus. Can you tell us how many of these  
16           tailor-made kiosks were under your management?

17   MR KELVIN YEUNG: (Interpreted) Let me count.

18           There are two to three. But I would have to verify  
19           the exact number of tailored kiosks.

20   MS MAGGIE WONG: And what is meant by "tailor-made"?

21   MR KELVIN YEUNG: (Interpreted) Sometimes the applications  
22           for certain kiosks were not approved by TD or the  
23           Housing Department. For example, the sizes might be  
24           inappropriate or they might stand in the way of other  
25           facilities such as facilities for the blind. Then we  
26

1           might have to tailor special sizes to fulfil the  
2           department's requirements.

3   MS MAGGIE WONG:   What is the approximate size of this  
4           tailor-made kiosk?

5   MR KELVIN YEUNG:   (Interpreted) The total area should be  
6           similar to a type B kiosk. If the width is too much, we  
7           might narrow it down, but then we might make the kiosk  
8           longer. So that is the situation as I know.

9   MS MAGGIE WONG:   Would sleeping sofa or benches be provided  
10          in all or some of these resting facilities that you  
11          manage?

12   MR KELVIN YEUNG:   (Interpreted) In Yuen Long, there are  
13          three locations with sleeping areas with benches for  
14          captains.

15   MS MAGGIE WONG:   You mentioned three locations with sleeping  
16          areas. Can you tell us where?

17   MR KELVIN YEUNG:   (Interpreted) Tuen Mun depot, Tuen Mun  
18          town centre, and Tuen Mun south depot: at Tuen Mun south  
19          depot there are no sleeping benches, but there is still  
20          space for captains to sleep.

21   MS MAGGIE WONG:   How many sleeping benches were there for  
22          each of these locations?

23   MR KELVIN YEUNG:   (Interpreted) I cannot give the exact  
24          number now. But there are approximately five benches.

25   MS MAGGIE WONG:   For each of them?

26

1 MR KELVIN YEUNG: (Interpreted) Yes, at each location.

2 MS MAGGIE WONG: And that location would be shared by how  
3 many bus captains?

4 MR KELVIN YEUNG: (Interpreted) For all bus captains,  
5 whether or not they are on special shifts, they can use  
6 the facilities. I don't have the exact figure on hand.

7 MS MAGGIE WONG: Can you give us an estimate of the number  
8 of bus captains that would use each of these locations?

9 CHAIRMAN: Are you talking about any one time, or what?

10 MS MAGGIE WONG: Any one time.

11 MR KELVIN YEUNG: (Interpreted) From what I see at the  
12 stations, most of the time the five benches would not be  
13 fully occupied by captains, so at any one time less than  
14 five captains would be using the facilities.

15 MS MAGGIE WONG: At what time did you go down to these  
16 locations?

17 MR KELVIN YEUNG: (Interpreted) Usually in the so-called  
18 middle hours, in other words from 11 am to 3 or 4 pm.  
19 When I visit in those hours, sometimes benches would be  
20 occupied by captains.

21 MS MAGGIE WONG: How frequently did you go down for these  
22 three locations?

23 MR KELVIN YEUNG: (Interpreted) Well, our duty is such that  
24 for every week I have to visit different terminus. So  
25 for the three places on a monthly basis I would go at  
26

1           least one to two times. For Tuen Mun depot I would go  
2           more frequently, because my office is right at Tuen Mun  
3           depot.

4       MS MAGGIE WONG: And may I now go to some of the examples  
5           that you mentioned in your submission that you stated  
6           that there are difficulties in obtaining permission or  
7           in obtaining successful application for resting  
8           facilities.

9           It is at page 181-1 to 181-2.

10       CHAIRMAN: Of which bundle?

11       MS MAGGIE WONG: Of FE bundle.

12           And in your statement at the bottom you mentioned  
13           three locations that require improvement, and the first  
14           one is So Kwut Wat, newly introduced on 25 June 2018,  
15           and you state there had that:

16           "... provision of a type A kiosk and chemical toilet  
17           is needed. (application ... is pending since  
18           13 June 2018)."

19           May I first ask you, how long this So Kwut Wat bus  
20           terminus existed?

21       MR KELVIN YEUNG: (Interpreted) If you talk about full-day  
22           operation, it was introduced on 25 June 2018.

23       MS MAGGIE WONG: So this was a bus stop newly placed,  
24           instead of being there for years?

25       MR KELVIN YEUNG: (Interpreted) Correct.

26

1 MS MAGGIE WONG: When you introduced this new bus terminus,  
2 with the Transport Department, did the Transport  
3 Department require at any stage that your company do  
4 provide resting facilities to bus captains?

5 MR KELVIN YEUNG: (Interpreted) The TD didn't require the  
6 provision of such facilities for bus captains.

7 MS MAGGIE WONG: The Transport Department, when they  
8 approved this bus terminus, were there requirements set  
9 out in writing?

10 MR KELVIN YEUNG: (Interpreted) What do you mean? You mean  
11 when we introduced the route, whether there is any  
12 written correspondence? The answer is yes. We have to  
13 formally submit papers to get a formal application, and  
14 the TD will formally sort of reply to us, saying that it  
15 is approved.

16 MS MAGGIE WONG: When the Transport Department approves a  
17 certain route, would they, in your experience, normally  
18 impose certain conditions?

19 MR KELVIN YEUNG: (Interpreted) What do you mean by  
20 "conditions"?

21 MS MAGGIE WONG: For running that particular route.

22 MR KELVIN YEUNG: (Interpreted) Yes, the TD would ask for  
23 the alignment and the bus stops along the route, and the  
24 journey time, the journey distance, the frequency. All  
25 such will be clearly stated in their approval letter.

26

1 MS MAGGIE WONG: In relation to this So Kwut Wat terminus,  
2 would there be special shifts for this particular bus  
3 terminus?

4 MR KELVIN YEUNG: (Interpreted) Yes.

5 MS MAGGIE WONG: So because you stated there that the  
6 application was only made since 13 June 2018, so at the  
7 moment there will be no resting facility, is that  
8 correct, for that So Kwut Wat bus terminus?

9 MR KELVIN YEUNG: (Interpreted) Correct, for so Kwut Wat bus  
10 terminus we have placed a type A kiosk and a chemical  
11 toilet -- we would like to do so, but so far we have not  
12 got the approval from the TD.

13 MS MAGGIE WONG: How many bus captains are working in that  
14 So Kwut Wat bus terminus?

15 MR KELVIN YEUNG: (Interpreted) If you look at the number of  
16 bus captains involved, if I remember correctly, I would  
17 say three or four of them.

18 MS MAGGIE WONG: How many of them are on special shifts?

19 MR KELVIN YEUNG: (Interpreted) One.

20 MS MAGGIE WONG: Do I take it that the type A kiosk is  
21 installed notwithstanding the fact that approval has not  
22 been given?

23 MR KELVIN YEUNG: (Interpreted) This is a fact. We haven't  
24 got the approval, but we have already installed it  
25 there, because we have commissioned the route. If we  
26

1 don't have it there, it means that the bus captains can  
2 not take a rest there.

3 MS MAGGIE WONG: And the second example you gave is Po Tin  
4 Estate, in which you state there that in order to cater  
5 for more bus captains for resting, there is a need to  
6 convert type A to type B kiosk, and you applied to the  
7 Housing Authority since 24 November 2014.

8 Can you tell us what is the progress so far as  
9 this -- because you are applying on 24 November 2014.  
10 Is the current state still type A kiosk, or did you do  
11 similar thing as in So Kwut Wat Estate, installing  
12 type B nevertheless?

13 MR KELVIN YEUNG: (Interpreted) For Po Tin terminus, we used  
14 to have three type A kiosks. As I have said, well, two  
15 of them were merged together, but then the space was not  
16 put to maximum use, we reviewed the situation, we found  
17 that it wasn't adequate, so we applied to the Housing  
18 Department hoping that the two merged type A kiosks can  
19 be converted into a type B kiosk, and for the third  
20 type A kiosk it should become a type B kiosk. As of  
21 this moment, we have not got any approval from the HD,  
22 but still, we have already replaced the two type A  
23 kiosks by a type B kiosk. So the replacement has taken  
24 place. We are yet to convert one more type A kiosk into  
25 a type B kiosk.

26

1 MS MAGGIE WONG: Why do you see a need to convert type A to  
2 type B for Po Tin Estate?

3 MR KELVIN YEUNG: (Interpreted) We went there, we saw the  
4 bus captains were outside the kiosk eating their meal  
5 box, because there was not sufficient space within the  
6 kiosk. Bus captains have also told us that they didn't  
7 have sufficient space, therefore we believe that two  
8 type A kiosks would not be adequate.

9 MS MAGGIE WONG: Are there special shifts for this Po Tin  
10 Estate?

11 MR KELVIN YEUNG: (Interpreted) Yes.

12 MS MAGGIE WONG: How many bus captains are using the two  
13 type A kiosks?

14 MR KELVIN YEUNG: (Interpreted) I haven't got the detailed  
15 figures as to how many bus captains doing special shifts  
16 are using the facilities. My understanding is that many  
17 of them go home to take a rest.

18 MS MAGGIE WONG: How many routes are running for this Po Tin  
19 Estate?

20 MR KELVIN YEUNG: (Interpreted) For whole-day routes there  
21 are two of them.

22 MS MAGGIE WONG: What about non-full day?

23 MR KELVIN YEUNG: (Interpreted) For non-full day service  
24 another two bus routes. They have morning service only.

25 MS MAGGIE WONG: Mr Chairman, I see the time. May we take  
26

1 a break?

2 CHAIRMAN: Certainly.

3 Mr Yeung, we are going to take a break until

4 12 o'clock by that clock on the wall behind you.

5 MR KELVIN YEUNG: (In English) Thank you.

6 (11.41 am)

7 (A short break)

8 (12.00 pm)

9 MS MAGGIE WONG: Mr Yeung, just to wrap this matter up, do  
10 you mind providing us with some figures about Po Tin  
11 Estate, in terms of how many bus captains are using the  
12 kiosk in the Po Tin Estate, in terms of special shifts.

13 And you have also stated in your submission that it  
14 normally requires a long lead time for about five years  
15 before your application for resting facilities can be  
16 approved, and you cited four examples at page 181-2; is  
17 that correct?

18 MR KELVIN YEUNG: (Interpreted) Correct.

19 MS MAGGIE WONG: I'm going on to another topic, Mr Yeung.

20 In your opening statement you said you are  
21 experienced in real-time monitoring, ROM device, and  
22 also the SSQ, is that correct -- SSQ department, that is  
23 safety and service quality department; is that correct?

24 MR KELVIN YEUNG: (Interpreted) Correct.

25 MS MAGGIE WONG: And you said that two years later, after  
26

1           you were assigned to the Tuen Mun depot you were  
2           assigned to take up the project concerning ROM. Can you  
3           tell us when that was.

4   MR KELVIN YEUNG: (Interpreted) Regarding the ROM project,  
5           I think it was around about 2013 that I started to take  
6           part.

7   MS MAGGIE WONG: Since 2013?

8   MR KELVIN YEUNG: (In English) Yes.

9   CHAIRMAN: I am sorry, what was that question? Because you  
10          talked over the interpretation.

11   MS MAGGIE WONG: I am so sorry, since 2013 Mr Yeung was  
12          assigned --

13   CHAIRMAN: We got that one, then you asked another question  
14          which produced an affirmative answer, but we didn't hear  
15          the question.

16          Never mind. Move on then.

17   MS MAGGIE WONG: I think my question is whether it is since  
18          2013, and then Mr Yeung said "Yes".

19          Do you know a person by the name of Raymond Cheng?

20   MR KELVIN YEUNG: (Interpreted) Yes.

21   MS MAGGIE WONG: Can I take you to his statement that he  
22          mentioned, something about a study that he conducted for  
23          safe driving in the sharp turns back in 2013. That's at  
24          page 96-4 of FE bundle.

25   MR KELVIN YEUNG: (Interpreted) Yes.

26

1 MS MAGGIE WONG: Can you read three pages, 96-4 to 96-6.

2 CHAIRMAN: Yes?

3 MS MAGGIE WONG: There are a few questions I would like to  
4 ask.

5 First, at page 96-4, Mr Cheng mentioned:

6 "The Safety and Quality Service Department invited 4  
7 Depot Managers, the representatives from Bus Captain  
8 Training School and bus maintenance section of Service  
9 Department to form a study group to looking deeply into  
10 all the sharp turns within [KMB] bus route network."

11 Are you part of this study group?

12 MR KELVIN YEUNG: (Interpreted) At that time I wasn't  
13 a manager, so I wasn't on the study group. But then the  
14 then manager did ask for my opinions.

15 CHAIRMAN: Who was that?

16 MR KELVIN YEUNG: (Interpreted) If you talk about depot  
17 managers, at that time it was the general manager for  
18 Tuen Mun depot, Mr Woo Kin Keung, who has already  
19 retired.

20 CHAIRMAN: Thank you.

21 MS MAGGIE WONG: And according to this study they have  
22 narrowed it down to the top 29 corner turns that may  
23 cause serious overturning accidents. Did you know about  
24 these 29 corner turns?

25 MR KELVIN YEUNG: (Interpreted) Yes.

26

1 MS MAGGIE WONG: And did you contribute to the narrowing  
2 down to 29 corner turns?

3 MR KELVIN YEUNG: (Interpreted) As far as I can recall,  
4 I think at that time there were more than that. I think  
5 they identified certain sharp bends locations as  
6 identified by Mr Raymond Cheng. I recall that there  
7 were more than 20 plus.

8 MS MAGGIE WONG: You mentioned that according to Mr Cheng he  
9 has identified more than 29 turns. How did you know  
10 that?

11 MR KELVIN YEUNG: (Interpreted) I think from internal  
12 communication, for our driving instructors, I did have  
13 a discussion with them over such a topic. My  
14 understanding was that from our driving instructors,  
15 they said that for sharp bends, if it is 90-degrees or  
16 almost 90 degrees, they would regard it as a sharp bend.  
17 So I understand there were more than such a number of  
18 locations.

19 MS MAGGIE WONG: If you turn over the page at 96-6, at the  
20 top it mentioned that:

21 "The colleagues from the Safety and Service Quality  
22 Department accompanied all the colleagues from the study  
23 group to test all the 29 turns in different road  
24 conditions, different speeds, different passenger load  
25 conditions and video-recorded the whole study for future  
26

1 reference."

2 Did you know about this video-recorded study?

3 MR KELVIN YEUNG: (Interpreted) At the time I heard that  
4 they invited driving instructors to carry out test runs  
5 at such locations. As to whether it was really done,  
6 and what extent, and how many was covered I don't know.  
7 But I did hear about such a matter, and I was also aware  
8 that they had the idea of making a video recording.

9 MS MAGGIE WONG: You mentioned that you heard from the  
10 driving instructors. Are those driving instructors  
11 still employed by KMB?

12 MR KELVIN YEUNG: (Interpreted) My understanding is they are  
13 still working with the company, I mean the driving  
14 instructors.

15 MS MAGGIE WONG: Can you tell us who?

16 MR KELVIN YEUNG: (Interpreted) Well, I don't know who  
17 actually had meetings on that day. There were dozens of  
18 driving instructors, I can't give you the names of the  
19 driving instructors.

20 MS MAGGIE WONG: And if we read on from that paragraph, it  
21 appears that this video-recorded study was carried out.  
22 Because it is stated there that important data was  
23 collected from these experiments to come up with a set  
24 of safety guidelines.

25 And if we follow on and read from that paragraph, he  
26

1 further stated:

2 "From the study, we were able to produce a safety  
3 booklet ..."

4 He subsequently clarified as small printed cards:

5 " ... for Bus Captains detailing each potentially  
6 dangerous turns' exact location, direction, and road  
7 nature, road condition, past record, related photos  
8 [et cetera]."

9 And he suggested 31 safety driving suggestions from  
10 a study of over 1,500 studies.

11 Did you know about these small printed cards for bus  
12 captains?

13 MR KELVIN YEUNG: (Interpreted) Yes.

14 MS MAGGIE WONG: Have you seen one of them?

15 MR KELVIN YEUNG: (Interpreted) Yes.

16 MS MAGGIE WONG: Are they still in existence?

17 MR KELVIN YEUNG: (Interpreted) No longer in use.

18 MS MAGGIE WONG: Can you retrieve a copy?

19 MR KELVIN YEUNG: (Interpreted) I'm not sure whether we  
20 still get them in our office. Some frontline bus  
21 captains and some driving instructors have different  
22 views for such cards, so they have not formed part of  
23 our training.

24 MS MAGGIE WONG: So why are those cards no longer in use?

25 MR KELVIN YEUNG: (Interpreted) As I have said, some driving  
26

1           instructors and some frontline bus captains think that  
2           it is difficult to define what is a sharp bend. The  
3           definition could be wide. If you are to set a speed for  
4           each and every sharp bend, it may be beyond the  
5           capability of the KMB. Probably the rationale behind  
6           the study is to enable each bus captain know about the  
7           maximum speed to be deployed at each bend. But then for  
8           a bus captain, he will be going through different sharp  
9           bends and then for the TD, the speed limit is 50, so  
10          they believe that it is better to make a judgment on  
11          each and every occasion rather than asking the bus  
12          captain to remember the maximum speed for each and every  
13          bend.

14       CHAIRMAN: How did you come to know about these different  
15          views?

16       MR KELVIN YEUNG: (Interpreted) Well, the cards had been  
17          issued by the bus captains, and they did reflect their  
18          views to me. They said that if they didn't follow the  
19          suggested speed limit, in fact they did not commit any  
20          offence or speeding within the laws of Hong Kong, but  
21          then the company would not say the same.

22                So if an accident didn't happen, is it a risk? We  
23          didn't come to any conclusion.

24                At that time, we raised the point perhaps we should  
25          talk to the TD to sort of install the arrows at the  
26

1 sharp bends or we can put up some warning signs.

2 MS MAGGIE WONG: You referred to "at that time we raised the  
3 point with the Transport Department to install the  
4 arrows at sharp bends". When was that?

5 MR KELVIN YEUNG: (Interpreted) We suggested to the SSQ, but  
6 I do not know whether the SSQ eventually applied to the  
7 Transport Department.

8 MS MAGGIE WONG: When?

9 MR KELVIN YEUNG: (Interpreted) In 2013. I do not know  
10 whether they eventually applied to the TD.

11 CHAIRMAN: When were the cards issued to the bus captains,  
12 as you said?

13 MR KELVIN YEUNG: (Interpreted) I cannot remember the exact  
14 dates, it was around 2013 or 2014.

15 CHAIRMAN: Is that throughout the bus captains in KMB?

16 MR KELVIN YEUNG: (Interpreted) Yes, we attempted to  
17 distribute the cards but having heard the captains'  
18 comments we stopped distributing the cards.

19 MS MAGGIE WONG: Mr Yeung, you also mentioned that you're  
20 experienced in real-time ROM device, and can you tell us  
21 how experienced are you in knowing the functions and  
22 capabilities of black box?

23 MR KELVIN YEUNG: (Interpreted) Are you referring to ROM or  
24 the black box?

25 MS MAGGIE WONG: Both.

26

1 MR KELVIN YEUNG: (Interpreted) For ROM I was one of the  
2 staff representing operations in the design phase of  
3 this system. I was involved throughout the development  
4 of ROM.

5 For black box I'm not too familiar with the  
6 technologies involved. Many of our computer programmes  
7 would be supported by the black box, which would provide  
8 the necessary data.

9 MS MAGGIE WONG: You -- ROM is -- stands for real-time  
10 monitoring. So is your involvement limited to the  
11 provision of real-time data for passengers to know the  
12 schedule time of buses? Or is your involvement wider in  
13 terms of the safety aspect?

14 MR KELVIN YEUNG: (Interpreted) As far as I know, the design  
15 of ROM did not involve any safety considerations. We  
16 relied on black box data in designing the system and we  
17 wanted to make use of the data to determine our  
18 frequencies, so safety was not among the considerations.

19 MS MAGGIE WONG: You mentioned that at that time, I don't  
20 think it has been translated -- you mentioned that at  
21 that time it was not mentioned at any of the meetings  
22 about the issue of safety, in terms of the real-time  
23 monitoring. I think you also mentioned "at the  
24 meetings".

25 MR KELVIN YEUNG: (Interpreted) Correct.

26

1 MS MAGGIE WONG: What meetings?

2 MR KELVIN YEUNG: (Interpreted) ROM was a new project, and  
3 we started from scratch. We made use of existing black  
4 box data, so we would meet regularly and everyone would  
5 provide input on how we should design the system.

6 MS MAGGIE WONG: Since when?

7 MR KELVIN YEUNG: (Interpreted) It should be 2013, I cannot  
8 remember the exact month.

9 MS MAGGIE WONG: Who were present in these meetings?

10 MR KELVIN YEUNG: (Interpreted) We had representatives from  
11 our IT department, representatives from the operations  
12 unit of the four depots, and there was a central  
13 department known as the traffic department. They were  
14 the project managers who would coordinate these  
15 meetings.

16 MS MAGGIE WONG: Was the planning and development  
17 department, or were people from planning and development  
18 department present in these meetings?

19 MR KELVIN YEUNG: (Interpreted) No, they were not involved.

20 MS MAGGIE WONG: Did you know about Alok Jain?

21 MR KELVIN YEUNG: (Interpreted) Yes, I know him.

22 MS MAGGIE WONG: Did you have dealings with him during the  
23 time of 2013 to 2015?

24 MR KELVIN YEUNG: (Interpreted) We did have meetings on  
25 certain planning issues.

26

1 MS MAGGIE WONG: What are the certain planning issues?

2 MR KELVIN YEUNG: (Interpreted) For example, we planned bus  
3 routes for the coming year, they had to be submitted to  
4 TD and the district councils, so he and I took part in  
5 meetings with the TD and district councils on bus route  
6 rationalisation or other changes.

7 MS MAGGIE WONG: We have heard evidence from Mr Alok Jain  
8 that at that time there was an idea, to use Lai Chi Kok  
9 as the real-time operation management centre, or  
10 so-called, the operation control centre, in which the  
11 data analysis would be done company-wide. Have you  
12 heard about that?

13 MR KELVIN YEUNG: (Interpreted) Yes, I heard about it.

14 MS MAGGIE WONG: And we also heard evidence that ultimately  
15 Lai Chi Kok office was not used in that way. It became  
16 an office instead of a real-time operation management  
17 centre; is that correct?

18 MR KELVIN YEUNG: (Interpreted) Incorrect.

19 MS MAGGIE WONG: So up until now is it still being used as  
20 real-time monitoring centre?

21 MR KELVIN YEUNG: (Interpreted) We had a radio control  
22 section. It is still exists today.

23 MS MAGGIE WONG: Can you tell us what is this radio control  
24 section?

25 MR KELVIN YEUNG: (Interpreted) In Chinese we call it the  
26

1 KMB radio. It operates around the clock. When captains  
2 and other staff run into issues on the road they can  
3 call this 24-hour number, and staff would be deployed  
4 for support. The radio would have direct lines with the  
5 police, and they would exchange intelligence with the  
6 ETCC of the Transport Department, and police.

7 CHAIRMAN: What is ETCC?

8 MR KELVIN YEUNG: (Interpreted) I don't know what the full  
9 name is in English. It is something like the Emergency  
10 Transport Coordination Centre.

11 MS MAGGIE WONG: As you said, it sounds like a radio station  
12 for emergency situation instead of real-time monitoring  
13 using black box; is that correct?

14 MR KELVIN YEUNG: (Interpreted) Eventually, ROM transformed  
15 into another kind of system, and this system is still in  
16 use.

17 But the current system is a bit different from the  
18 design of ROM back then.

19 MS MAGGIE WONG: You mentioned "a bit different". How  
20 different?

21 MR KELVIN YEUNG: (Interpreted) Back then the idea of ROM  
22 was to monitor the separation between buses, and if the  
23 system realised that a certain bus is too close to the  
24 bus in front, prompts might be given to the bus captain  
25 so that they would set off later. So if they are going  
26

1 too slow, again prompts might be given, or issued to bus  
2 captains. The idea was to allow more even waiting times  
3 for passengers.

4 So the idea was that ROM could share some work of  
5 terminal regulators, and if the Lai Chi Kok depot was  
6 turned into a control centre, then most regulators would  
7 not be needed anymore. But now we have retained all the  
8 terminal regulators and ROM became a system of  
9 monitoring the locations and speed of buses and, if  
10 necessary, we can use this database to retrieve the past  
11 records of buses.

12 MS MAGGIE WONG: You mentioned that this system was  
13 transformed, or rather a bit different from the original  
14 design, or idea. Why would there be a transformation of  
15 this idea?

16 MR KELVIN YEUNG: (Interpreted) I'm not sure about the  
17 reason for the decision made by the management, but  
18 myself and some staff from the project team felt that if  
19 we are to use the system to replace the functions of  
20 regulators, the idea was not very realistic, that's why  
21 we offered comments to the management that there would  
22 be certain risk if regulators are dismissed, but I do  
23 not know whether this was the reason for the eventual  
24 decision.

25 MS MAGGIE WONG: Can you tell us when this transformation  
26

1           took place?

2       MR KELVIN YEUNG:   (Interpreted) It took place in around 2014  
3           or early 2015.

4       MS MAGGIE WONG:   So after 2015?

5       MR KELVIN YEUNG:   (Interpreted) Yes, in the subsequent  
6           months.

7       MS MAGGIE WONG:   We also heard from Mr Alok Jain that at the  
8           time when this real-time monitoring system was  
9           considered, one of the ideas was to nudge the driver to  
10          drive in a better way on the road by creating some kind  
11          of a system where they could give them feedback about  
12          how they are driving and whether they are outliers or  
13          whether they are falling within the normal pattern or  
14          whether it is good behaviour or bad behaviour.

15               Have you heard about that?

16       MR KELVIN YEUNG:   (Interpreted) Yes.

17       MS MAGGIE WONG:   What happened to this idea?

18       MR KELVIN YEUNG:   (Interpreted) It was implemented. Now on  
19          every bus there is a small device with four lights, and  
20          it would emit a low beep reminding bus captains of any  
21          improper driving behaviour.

22       CHAIRMAN:   Any improper driving behaviour?

23       MR KELVIN YEUNG:   (Interpreted) Right. Say, for example  
24          speeding, or sharp braking, or sudden acceleration, or  
25          if the engine has been idling, we don't want the engine  
26

1 to be on and yet the bus remains stationary. So there  
2 will be a beeping sound and there will be light signals.

3 CHAIRMAN: So four areas?

4 MR KELVIN YEUNG: (Interpreted) Correct.

5 MS MAGGIE WONG: Since when do you have this system of  
6 alerting drivers by using this alert system, or small  
7 device, you call it?

8 MR KELVIN YEUNG: (Interpreted) Sorry? If you ask for an  
9 exact date, I can't recall. But I would say that it  
10 must have been there for a few years. If you wanted  
11 information, I can go back to check it up for you.

12 MS MAGGIE WONG: And can you tell us more about the system  
13 of black box in terms of monitoring drivers' behaviour?

14 CHAIRMAN: Before you move on, what thresholds are set to  
15 cause this device to illuminate a light and to emit  
16 a low sound. What is the threshold for speeding?

17 MR KELVIN YEUNG: (Interpreted) For the details, I don't  
18 think I have got them with me. But there will be  
19 a speed, and also the number of seconds taken to  
20 accelerate or decelerate, or to brake, but I have not  
21 got the figures with me now.

22 CHAIRMAN: None of them?

23 MR KELVIN YEUNG: (Interpreted) No.

24 CHAIRMAN: Does what is on the screen now help you? We have  
25 received evidence that this information comes from the  
26

1 black box that was on the Tai Po bus that had the  
2 accident on 10 February of this year.

3 MS MAGGIE WONG: That is, for the record, BM-66.

4 MR KELVIN YEUNG: (Interpreted) I have come across such  
5 figures. I understand that our management would tune  
6 the figures so as to see whether there was a need to  
7 enhance the warning. As to whether they are the current  
8 set of figures, I'm not sure.

9 MS MAGGIE WONG: You mentioned the management would tune the  
10 figures. Can you tell us who are those members in the  
11 management that would tune the figures?

12 MR KELVIN YEUNG: (Interpreted) I think the management of  
13 our engineering department, if they want to modify the  
14 system, it will be such engineers who would do it. So  
15 in my daily work I have not come across such figures.

16 MS MAGGIE WONG: If we may go to 67, page 67 of BM bundle.  
17 Scroll it down.

18 In the blue section, blue paragraph, the third  
19 paragraph, this is the black box, or telematics company,  
20 in which your company has a contract to provide  
21 telematics system.

22 It states there:

23 "Regarding the real-time operations management  
24 system we are not aware about any plans by KMB to  
25 introduce such a system. Hence, we are neither aware of  
26

1           any plan by KMB to interface the technograph/telematics  
2           system with the ROM system."

3           It appears --

4   CHAIRMAN: I think give Mr Yeung a chance to read this.

5           This is provided by Openmatics and ZF Friedrichschafen.

6   MS MAGGIE WONG: Have you finished, Mr Yeung?

7   MR KELVIN YEUNG: (In English) Finished.

8   MS MAGGIE WONG: Can you confirm that's the position of KMB?

9           Was this accurately recorded there?

10   MR KELVIN YEUNG: (Interpreted) As far as I know, yes, it is  
11       correct.

12   MS MAGGIE WONG: Have KMB considered interfacing the  
13       telematics system with the ROM system in future?

14   MR KELVIN YEUNG: (Interpreted) I don't know.

15   MS MAGGIE WONG: Do you know who would know?

16   MR KELVIN YEUNG: (Interpreted) I think colleagues from the  
17       engineering department.

18   MS MAGGIE WONG: Can we go back to black box. Can you tell  
19       us briefly how KMB would monitor the drivers' driving  
20       behaviour by using black box?

21   MR KELVIN YEUNG: (Interpreted) Well, there are two areas  
22       here. First of all, the most straightforward one is  
23       about speeding. So for us, in the operations, in the  
24       depot, as well as the TQD, they would monitor the  
25       situation by using the program. The data would be fed  
26

1 from the black box, so that's about speeding.

2 And then, we have got alerts from the small device  
3 for driving behaviour, so we would also record the  
4 number of times that the light was emitted, so it is an  
5 area which falls within the responsibility of the TQD.

6 CHAIRMAN: Where do you get the information about the number  
7 of times that the light is lit and the sound is emitted?

8 MR KELVIN YEUNG: (Interpreted) Our IT department will send  
9 a report telling us how many times the light was  
10 activated regarding a driver. For harsh braking, when  
11 the light is activated it doesn't always mean that the  
12 driver is wrong, because if the vehicle in front has  
13 braked, then the driver has to do the same. So the  
14 department would review to see whether a particular bus  
15 captain has more times that the light is activated and  
16 we may get a plain clothes assessor to ride with the bus  
17 captain to check if there is anything wrong with the  
18 driving behaviour.

19 MS MAGGIE WONG: You mentioned your IT department will send  
20 a report telling you how many times the light was  
21 activated regarding a driver. How frequent would that  
22 be done?

23 MR KELVIN YEUNG: (Interpreted) A report for every week or  
24 two.

25 MS MAGGIE WONG: So let's quote an example: if a driver had  
26

1 a habit of harsh braking, and it is recorded in your  
2 data, and that report would only be given to you a week  
3 later; is that the position?

4 MR KELVIN YEUNG: (Interpreted) I would say yes, correct.  
5 I can't recall how many days later we get the report.

6 MS MAGGIE WONG: And would the driver know about his harsh  
7 braking habit instantly?

8 MR KELVIN YEUNG: (Interpreted) If he has harsh braking  
9 while driving, the light will be emitted and then the  
10 beeping would also be activated.

11 MS MAGGIE WONG: What would be the consequence of a driver  
12 who has a habit of constantly having harsh braking  
13 within that week?

14 MR KELVIN YEUNG: (Interpreted) As I've mentioned,  
15 therefore, both departments would work on it.

16 Let me focus on my department. Well, if the light  
17 comes up once, we can't, on that basis, say that there  
18 is a problem. We would identify those who are  
19 repeaters, we would call them by telephone, and give  
20 them a gentle reminder, or as I have said, we will get  
21 our inspectors to check if there is anything wrong, and  
22 then for TQD, as I have mentioned, they would also get  
23 someone who is in plain clothes to act as an assessor to  
24 be with the bus captain to assess whether their bus  
25 captain is jerky, and whether he has resorted to harsh  
26

1           braking all the time so as to follow up on such bad  
2           driving behaviour.

3       MS MAGGIE WONG:   What is the TQD, sorry?

4       MR KELVIN YEUNG:   (Interpreted) Training and quality  
5           assurance department. And their responsibility is to  
6           train our bus captains and to carry out assessment about  
7           their driving skills, and if necessary, to take  
8           follow-up action, say, for example, disciplinary action,  
9           or issuing warnings. Such will be the responsibility of  
10          this department.

11      MS MAGGIE WONG:   You mentioned that you would identify  
12          together with TQD those who are repeaters, and you would  
13          first call them by telephone and give them a gentle  
14          reminder.

15               How many of those repeaters were there? Perhaps  
16          just quote an example for this year.

17      MR KELVIN YEUNG:   (Interpreted) I think there would be one  
18          or two every time. It may not be a repeater. If I see  
19          that in a particular report the number of times is more  
20          than other bus captains, then I will find out from the  
21          list who they are, and I will give a reminder. For  
22          others, who have had this once or two times only, we  
23          will wait for the next time to see whether they have the  
24          same again.

25               Take Tuen Mun as an example. If you ask for the  
26

1           number, it would be a couple of them, less than 10.

2       CHAIRMAN:   Per what?

3       MR KELVIN YEUNG:   (Interpreted) 900 or so for the entirety  
4           of Tuen Mun depot.

5       CHAIRMAN:   So 900 bus captains but less than 10 would fall  
6           into this category; is that what you are saying?

7       MR KELVIN YEUNG:   (Interpreted) Correct.

8       CHAIRMAN:   Thank you.

9       MS MAGGIE WONG:   For those 10, how many times did they have  
10           that harsh braking? How many times have they had this  
11           problem of harsh braking before it triggers or activates  
12           your concerns?

13      MR KELVIN YEUNG:   (Interpreted) Usually it would be a single  
14           digit, say five times, or six times. And if we think  
15           that in this case he has relatively more such occasions,  
16           then we will take the action I referred to.

17      MS MAGGIE WONG:   You mentioned five or six times. Within  
18           a day or within a week?

19      MR KELVIN YEUNG:   (Interpreted) Within a week. As to the  
20           exact figure I need to verify, I'm not sure.

21      MS MAGGIE WONG:   Can you provide us with the information  
22           later?

23      MR KELVIN YEUNG:   (Interpreted) Yes.

24      MS MAGGIE WONG:   Now if the person have this habit -- simply  
25           referring to those 10, what would you do? If you  
26

1 noticed that he had a habit of harsh braking, what would  
2 you do apart from telephoning him? Would you talk to  
3 him and find out the reasons?

4 MR KELVIN YEUNG: (Interpreted) Yes, I would call him or  
5 a face-to-face interview. I may do that as well.

6 MS MAGGIE WONG: Have you done that to those 10?

7 MR KELVIN YEUNG: (Interpreted) Yes, either me or my  
8 colleagues would make that move.

9 MS MAGGIE WONG: Have they improved?

10 MR KELVIN YEUNG: (Interpreted) Some of them did and some of  
11 them would not have a relapse of such behaviour. From  
12 my recollection, most would not repeat such behaviour.  
13 So there has been improvement in most cases.

14 MS MAGGIE WONG: We have heard also from Mr Alok Jain's  
15 evidence that during one of the meetings, they explored  
16 the idea of having a scorecard system for drivers, and  
17 one of the systems that was explored is the  
18 GreenRoad.com system. And what it does is it gives an  
19 analysis of the driver's driving behaviour, and it would  
20 fall into three different categories, like red, amber  
21 and green.

22 CHAIRMAN: Have you heard of such a system?

23 MR KELVIN YEUNG: (Interpreted) Yes.

24 MS MAGGIE WONG: Since when did you hear about this system?

25 MR KELVIN YEUNG: (Interpreted) The year was around 2013 or  
26

1           2014. I cannot remember the exact time. It was quite  
2           a few years ago.

3       MS MAGGIE WONG: Has this system been explored or discussed  
4           in one of your meetings with other depot managers or  
5           other management, or other members of the management?

6       MR KELVIN YEUNG: (Interpreted) This was not covered in ROM  
7           meetings.

8       MS MAGGIE WONG: What about meetings other than ROM?

9       MR KELVIN YEUNG: (Interpreted) Yes, a meeting was convened  
10          on this issue.

11      MS MAGGIE WONG: In 2013 and 2014?

12      MR KELVIN YEUNG: (Interpreted) Yes, around that time.

13      MS MAGGIE WONG: So who were present in the management?

14      MR KELVIN YEUNG: (Interpreted) I would have to check which  
15          members were present, because we have many meetings with  
16          many people in attendance, I was among the attendees.

17          For the others, quite a few have left KMB or retired  
18          already.

19      CHAIRMAN: Were records made of this meeting?

20      MR KELVIN YEUNG: (Interpreted) Yes, I believe there are  
21          records and there might be a brief e-mail, but I'm not  
22          sure whether I still have it in my e-mail account.

23      CHAIRMAN: Can you look to see if you do?

24      MR KELVIN YEUNG: (Interpreted) Yes.

25      CHAIRMAN: Apart of e-mails, were no minutes kept of such  
26

1 meetings?

2 MR KELVIN YEUNG: (Interpreted) For many of our meetings we  
3 would have e-mail recaps and they would serve as  
4 minutes. I cannot really remember whether minutes were  
5 taken for this meeting.

6 MS MAGGIE WONG: And this system was not used. Do you know  
7 why?

8 MR KELVIN YEUNG: (Interpreted) This system should have been  
9 deployed. I'm not very sure about the name mentioned by  
10 Mr Alok, but from what you described, it is very similar  
11 to one of our current systems.

12 CHAIRMAN: What is that system?

13 MR KELVIN YEUNG: (Interpreted) As I said, there would be  
14 beeps and lights emitted, and lights of three colours  
15 would be shown depending on driving behaviour. And  
16 these lights would go on when the bus captain beeped the  
17 Octopus card at the terminal, the time of the next bus  
18 would be shown, and lights of three colours would be  
19 shown to represent the performance of the captain.  
20 Green is the best, yellow, and red means something to be  
21 improved. And this system is still in use.

22 CHAIRMAN: So when the bus captain comes off duty and he  
23 taps his Octopus card, where is this information  
24 displayed for him?

25 MR KELVIN YEUNG: (Interpreted) It would only be displayed  
26

1           the first time a bus captain beeps his Octopus card in  
2           the morning. I'm not sure whether it would show the  
3           records for the previous days, but what I'm sure is that  
4           the records for the same day would not be shown. So no  
5           information is displayed during sign-off.

6   CHAIRMAN: Are you saying the information is displayed at  
7           the time of sign-on?

8   MR KELVIN YEUNG: (Interpreted) Yes, information is  
9           displayed during sign-on.

10   CHAIRMAN: And the information relates to what with time  
11           period?

12   MR KELVIN YEUNG: (Interpreted) I would have to check the  
13           period concerned. But this is not same-day information.  
14           It refers to a past period, but as for the range of that  
15           period, I have no such information on hand.

16   CHAIRMAN: And where is the display? Where does the bus  
17           captain see this?

18   MR KELVIN YEUNG: (Interpreted) At each bus terminal there  
19           would be a computer. When a captain returns to the  
20           terminal he would have to beep his staff card to obtain  
21           such information. The computer would be located outside  
22           the kiosk at each terminal facing the bus captains.

23   CHAIRMAN: And the computer screen depicts what?

24   MR KELVIN YEUNG: (Interpreted) One of three colours would  
25           be displayed to the captain, red, amber and green.

26

1 CHAIRMAN: What do they signify?

2 MR KELVIN YEUNG: (Interpreted) For the detailed  
3 definitions, I would have to look it up. Green means  
4 very good performance, in other words, the captain has  
5 performed very well. Amber means that there is room for  
6 improvement in terms of driving behaviour, and this is  
7 based on the reminding device on board I mentioned. And  
8 red means very poor performance.

9 As I said, the IT department would generate a list  
10 and very likely these captains would get a red light.

11 CHAIRMAN: Is the colour green displayed simply because no  
12 alert was signaled in the previous driving period?

13 MR KELVIN YEUNG: (Interpreted) Yes, as far as I know.

14 CHAIRMAN: What triggers amber?

15 MR KELVIN YEUNG: (Interpreted) I would have to look up the  
16 exact definition on what triggers amber or red. I don't  
17 have the definitions to hand now.

18 CHAIRMAN: Would you do so and would you provide that  
19 information?

20 MR KELVIN YEUNG: (Interpreted) Yes, it is possible.

21 CHAIRMAN: Is the information in hard copy?

22 MR KELVIN YEUNG: (Interpreted) If e-mails or minutes were  
23 available the information would be listed. So if I can  
24 locate that e-mail, I can disclose the information.

25 CHAIRMAN: Please do so.

26

1 MS MAGGIE WONG: Can you also take a photograph of what was  
2 displayed on the screen, the kiosk that you mentioned,  
3 about this signal?

4 MR KELVIN YEUNG: (Interpreted) Yes, it is possible.

5 MS MAGGIE WONG: Now, what would be the consequence if that  
6 driver has a red signal.

7 MR KELVIN YEUNG: (Interpreted) It is actually a reminder.  
8 As I said, if the IT department's list shows repeaters,  
9 action would be taken, for example we would call them or  
10 the TQD would follow up with them. But as for this  
11 computer display, the nature is more of a reminder than  
12 to take certain actions against a bus captain.

13 MS MAGGIE WONG: Have you explored the idea of having that  
14 bus captain who has red signal to undertake a remedial  
15 training? Have you explored that?

16 MR KELVIN YEUNG: (Interpreted) Yes. From my computer,  
17 I cannot see the colour of the signal, because the  
18 coloured lights are reminder to the bus captains  
19 themselves.

20 For the report set out by IT department, if there  
21 are repeaters, with a high frequency of relapse, then  
22 the TQD would provide training.

23 MS MAGGIE WONG: What about those with green signal? Has  
24 your company considered giving a reward for those who  
25 consistently have green signal, good driving behaviour?

26

1 MR KELVIN YEUNG: (Interpreted) We do not reward bus  
2 captains with a green light because we would assume that  
3 good driving is expected. So, as far as I know, we are  
4 not doing any such thing.

5 MS MAGGIE WONG: This system, does it also apply to  
6 part-time bus captains?

7 MR KELVIN YEUNG: (Interpreted) Yes, as far as I know.  
8 Because the same devices would emit light and sound as  
9 reminders if necessary.

10 MS MAGGIE WONG: Mr Yeung, I'm going to the next topic. It  
11 is on the surveillance cameras.

12 We have heard evidence from a few trade unions about  
13 assaults on bus captains, on frequent assaults on bus  
14 captains. And --

15 CHAIRMAN: I think if you are moving to a new topic, given  
16 the time, we will take the adjournment now.

17 Mr Yeung, we are going to adjourn, and we will  
18 resume our hearing at 2.30 this afternoon. Thank you.

19 MR KELVIN YEUNG: (In English) Thank you.

20 (1.00 pm)

21 (The luncheon adjournment)

22 (2.30 pm)

23 CHAIRMAN: Good afternoon.

24 Yes, Ms Wong.

25 MS MAGGIE WONG: Yes. Thank you.

26

1           Mr Yeung, before the lunch break we were on the  
2           black box. May I ask a few more questions about this  
3           black box? I think you said that about the system of  
4           having -- alerting bus captains that they have certain  
5           driving, bad driving habits like harsh braking and  
6           acceleration was in place a few years ago, but you can't  
7           remember the year; is that correct?

8   MR KELVIN YEUNG: (Interpreted) Correct.

9   MS MAGGIE WONG: May I just refer you to a few documents  
10          from your company's submission to see if it may assist  
11          you. KMB-1, page 168.

12          We can see this is a submission from Kowloon Motor  
13          Bus to the Committee dated 18 May 2018. If we look at  
14          this page, it refers to what the black box will capture,  
15          including records of speeding, harsh braking, and abrupt  
16          acceleration.

17          If we go down and see the third bullet, it mentions  
18          that:

19          "Identification of the [bus captain] of a particular  
20          bus is done through our Terminus Management System ..."

21          This terminus management system, are you one of the  
22          personnel involved in this terminus management system?

23   MR KELVIN YEUNG: (Interpreted) Yes, this is a system that  
24          I will use in my work.

25   MS MAGGIE WONG: If we go back to page 148, this is an  
26

1 action plan for implementation of the key  
2 recommendations, as of 10 April 2018. This is in  
3 response to the report on the Tai Po accident, dated  
4 12 March 2018.

5 CHAIRMAN: This is a redacted version of that report?

6 MS MAGGIE WONG: Yes, this is the redacted version of that  
7 report.

8 If we look at page 148, paragraph 10 on the  
9 right-hand side, it provides that the KMB should -- the  
10 topic is, if I read that out:

11 "KMB should monitor [bus captains'] performance by  
12 analysing his driving record from the black box  
13 installed on buses and improve the effectiveness and  
14 timeliness of follow-up disciplinary actions on [bus  
15 captains'] inappropriate driving behaviour and  
16 attitude."

17 And on the right-hand side it appears to suggest  
18 there was a system because BOP 207 function in the black  
19 box system, and:

20 "This checking is done on a daily basis for the  
21 driving record of the preceding 10 days. Any  
22 abnormalities will be dealt with and reported promptly  
23 to TQD, which will then commence disciplinary  
24 procedures."

25 So it appears this report would only be generated  
26

1 after 10 days, if I summarise it correctly; is that the  
2 position?

3 MR KELVIN YEUNG: (Interpreted) To my understanding, for our  
4 IT department, we will try to reduce the number of days,  
5 bring it to lower than 10 days, but I'm not sure by how  
6 many, but if I remember correctly, it would be less than  
7 10 days.

8 MS MAGGIE WONG: If you look further --

9 CHAIRMAN: Before you move on, what is BOP 207?

10 MR KELVIN YEUNG: (Interpreted) BOP 207 is a function within  
11 BOM, and BOM stands for bus on-board management,  
12 something like that. And for this function, it will  
13 capture the speeding records of every bus. And if a bus  
14 speeds, exceeding the speed limit of the roads, we will  
15 use the BOP 207 function to retrieve the speeding  
16 records.

17 CHAIRMAN: What is the threshold set to determine whether  
18 a bus is speeding?

19 MR KELVIN YEUNG: (Interpreted) For every location, we would  
20 identify the statutory speed limit, either it is 50km  
21 per hour or 70km per hour, so that's the two standards  
22 for buses. So if a bus goes through a certain area,  
23 then the system through the GPS location function will  
24 match this bus against the speed limit, and if there is  
25 an exceedance, then that will be shown on the report.

26

1 CHAIRMAN: What is the excess, to determine that there is  
2 speeding?

3 MR KELVIN YEUNG: (Interpreted) To my understanding, there  
4 should be some allowance. Because we are afraid that  
5 the speeding measurement or the GPS may not be accurate  
6 all the time, but as to the range, I don't have the  
7 figures with me. And for me, whenever there is a record  
8 generated we will verify that this is the right  
9 location, then we will hand over the records to the TQD  
10 for follow-up action.

11 CHAIRMAN: And against what do you verify the record?

12 MR KELVIN YEUNG: (Interpreted) Say if a bus is found to be  
13 speeding, then we will check the departure record of the  
14 bus, maybe whether there would be an error in the TER  
15 system, but then if it is a correct record proving that  
16 the bus captain drives the bus, then we would look at  
17 the GPS coordinates, the X/Y coordinates, because  
18 sometimes there might be interference, and the exact  
19 location of the bus cannot be shown.

20 So if we identify that this is the right location,  
21 and we see that, say, the speed limit doesn't match with  
22 the actual speed, ie there is speeding, then we will  
23 confirm that this is the location where speeding takes  
24 place.

25 CHAIRMAN: Apart from reference to GPS coordinates of  
26

1 latitude and longitude, do you have any other method of  
2 determining location?

3 MR KELVIN YEUNG: (Interpreted) No, to my understanding we  
4 just use X/Y coordinates of the GPS, no other method.

5 CHAIRMAN: By that you mean latitude and longitude?

6 MR KELVIN YEUNG: (Interpreted) I -- well, we mainly use X  
7 and Y coordinates to confirm. I'm not aware of the  
8 longitude and latitude. I press the coordinate button  
9 and a map will show up, and the map will show the  
10 current location of the bus and then we will look at the  
11 location to see whether the bus has indeed driven  
12 through that area and the speed it is being driven at.

13 MS MAGGIE WONG: Yes, and if we see in that box, we can see  
14 a milestone as to the IT department. It is stated there  
15 that:

16 "IT [department] is in the process of enhancing the  
17 presentation of the Bus Performance Reports to  
18 facilitate monitoring speeding, harsh braking and abrupt  
19 acceleration. After the enhancement ... Operation  
20 Sections will analyse the data of preceding 8 days twice  
21 a week to provide driving records of [bus captains] with  
22 irregularities. The reports will be passed to TQD twice  
23 a week. Immediate actions will be taken to alert  
24 respective [bus captains] to deter them from committing  
25 the same faults."

26

1           This is the submission filed to the Transport  
2           Department which appears to suggest --

3   CHAIRMAN:   This is an accident report, is it not?

4   MS MAGGIE WONG:   Yes.

5   CHAIRMAN:   Not a submission.

6   MS MAGGIE WONG:   Yes, this is an accident report and this is  
7           an action plan for implementation of key recommendations  
8           as of 10 April 2018.   It starts at page 145.

9           So Mr Yeung, according to this milestone, what is  
10          improved is the generation of the report will be reduced  
11          from 10 total days, correct?

12   MR KELVIN YEUNG:   (Answer not interpreted).

13   CHAIRMAN:   Before you move on, the existing system monitors  
14          speed only; is that right?

15   MR KELVIN YEUNG:   (Interpreted) BOP 207 function only  
16          monitors the speed.

17   CHAIRMAN:   And the change is to monitor not only speed but  
18          also harsh braking and abrupt acceleration.   So that's  
19          one of the changes.

20   MR KELVIN YEUNG:   (Interpreted) For BOP 207 function, that  
21          does not cover harsh braking and a sudden acceleration.  
22          It only focuses on speeding.

23   CHAIRMAN:   So the supposed change is to monitor not only  
24          speeding, but harsh braking and abrupt acceleration.  
25          That's what is stated here, is it not?

26

1 MR KELVIN YEUNG: (Interpreted) Correct. We need to  
2 generate another kind of report which was mentioned  
3 before lunchtime, and that speeding, acceleration and  
4 braking will be reviewed. That was covered previously.

5 CHAIRMAN: So what is meant when it says that there will be  
6 an enhancing of presentation of the bus performance  
7 report -- presumably that's what the acronym "BOP"  
8 stands for -- to facilitate monitoring, speeding, harsh  
9 braking and abrupt acceleration. Are you saying that  
10 already exists?

11 MR KELVIN YEUNG: (Interpreted) I'm not sure whether the  
12 action plan on improvement has been implemented. But as  
13 of today, I'm still using BOP 207 to monitor speeding,  
14 and as I said, the IT report will be monitoring  
15 speeding, harsh braking and abrupt acceleration.

16 I'm not sure what I'm doing now matches with the  
17 action mentioned in this milestone.

18 CHAIRMAN: Thank you.

19 MS MAGGIE WONG: Yes. About this report that you talked  
20 about this morning about receiving reports about harsh  
21 braking. Since when did you start to receive these  
22 reports?

23 MR KELVIN YEUNG: (Interpreted) I started seeing such  
24 a report in 2017. But I don't have the exact date now.  
25 I can find it out for you if needed.

26

1 CHAIRMAN: Yes, please do.

2 MS MAGGIE WONG: Moving on to the next topic about  
3 surveillance cameras, Mr Yeung, we have heard from  
4 a number of unions, and particularly KMB, that there  
5 were increasing assault incidents on bus captains by  
6 passengers, and one of the measures that would help the  
7 police to enforce the law is to use surveillance cameras  
8 to capture both audio and visual images -- audio  
9 recording and visual images of what happened.

10 And we have heard some evidence that -- or at least  
11 from your KMB submission, that currently, there are only  
12 2,319 KMB buses, and 146 Long Win Bus buses that have  
13 these surveillance cameras. Can you tell us, to your  
14 knowledge, what about the remaining buses?

15 MR KELVIN YEUNG: (Interpreted) Well, according to the  
16 figures you mentioned, my knowledge is this. With the  
17 procurement of new buses and replacement of old buses,  
18 at the time of procurement CCTV systems are already  
19 installed on new buses. So the actual figures should be  
20 more than what you just quoted.

21 As for remaining buses, I understand that the  
22 company plans, by the end of this year, to -- well, I'm  
23 not sure about the exact figure, but to retrofit 600 to  
24 700 buses with CCTVs. That's what I know about the  
25 management's plan in 2018.

26

1 MS MAGGIE WONG: And about this management's plan in 2018,  
2 does that cover all buses, all KMB buses, even though  
3 they are old models?

4 MR KELVIN YEUNG: (Interpreted) Judging from the figures,  
5 I don't think they are all covered. I think there will  
6 still be a minority of buses to be replaced, that will  
7 not have the CCTV installed. It doesn't cover all.

8 But I'm not sure whether in 2019 this will still be  
9 their plan. I'm not sure.

10 MS MAGGIE WONG: We have heard some suggestions from some of  
11 the union members, that they wish to install some of  
12 the -- they wish to install their own surveillance  
13 camera, because some of the old model buses did not have  
14 surveillance camera. So they consider it as a measure  
15 to protect their own safety and also the passengers'  
16 behaviour, but that was a measure vetoed by the KMB.

17 And a circular was issued. Does that happen, to  
18 your knowledge?

19 MR KELVIN YEUNG: (Interpreted) To my knowledge, yes. We  
20 don't allow bus captains to install their own  
21 surveillance cameras.

22 MS MAGGIE WONG: Did you issue a circular --

23 CHAIRMAN: Why not?

24 MR KELVIN YEUNG: (Interpreted) Let me answer Chairman's  
25 question.

26

1           As far as I know, it has to do with some limitations  
2           under the PDPO as to how this video --

3   CHAIRMAN:   What is that an acronym for?

4   MR KELVIN YEUNG:   (Interpreted) Sorry, Personal Data Privacy  
5           Ordinance.   Exactly which clause, I'm not sure, but from  
6           what I heard, this is to protect the bus captain,  
7           because previously in some cases, the KMB bus captains  
8           took some video clips and posted them onto the Internet,  
9           and subsequently we received complaints about invasion  
10          of privacy of the other persons.

11          So, to my understanding, the bus captains would be  
12          told that because of the requirements under the Personal  
13          Data Privacy Ordinance bus captains are not allowed to  
14          install their own cameras.   That's my knowledge.

15   CHAIRMAN:   Thank you.

16   MS MAGGIE WONG:   In your opening statement, you said that  
17          you have a very important role in the sense that you are  
18          the very important bridge between the frontline  
19          colleagues as well as the management.

20          Did you express or voice out this bus captains'  
21          concerns or requests to the management?

22   MR KELVIN YEUNG:   (Interpreted) Yes, I did.   Well, there  
23          were some bus captains who reflected that they preferred  
24          not to have cameras installed on board.   And I once told  
25          the management that if you install many cameras on buses

26

1       some captains would like the protection, but some  
2       captains would not prefer it, because they would be put  
3       to great pressure since they would be under constant  
4       surveillance, and I did tell the management that.

5       MS MAGGIE WONG: About these assault incidents, we see from  
6       the KMB submission that they would provide some  
7       psychological support --

8       CHAIRMAN: Before we leave this subject, Ms Wong began to  
9       ask you about the issue of a circular and I interrupted  
10      her. Was a circular issued telling bus captains that  
11      they could not deploy their own CCTV cameras?

12      MR KELVIN YEUNG: (Interpreted) In my recollection --  
13      I mean, I don't have any recollection of ever seeing  
14      such a circular. I don't know whether I have forgotten,  
15      but I myself have not seen this circular.

16      CHAIRMAN: How was the information passed to the bus  
17      captains that they were not permitted to install their  
18      own CCTV cameras?

19      MR KELVIN YEUNG: (Interpreted) Well, in fact, we understand  
20      the bus captains' positions. If they wish to install  
21      their own device we understand their position. Usually  
22      we would very gently tell them that "If you install  
23      cameras, of course you are protecting yourself but you  
24      could be breaching certain laws", and I would recommend  
25      that they take down the CCTV cameras they installed

26

1           themselves, and if they are not willing to cooperate we  
2           would refer the matter to the TQD, but we won't disallow  
3           bus captains to drive simply because they are not  
4           willing to take it down.

5   CHAIRMAN:   So it is a recommendation, and not a prohibition?

6   MR KELVIN YEUNG:   (Interpreted) Well, this is my role.

7           I give recommendations to frontline staff asking them  
8           not to do it. As for the TQD, after the case had been  
9           referred to the TQD, further action may be taken so that  
10          an explanation be given to the bus captains as to the  
11          pros and cons of installing their own cameras.

12   CHAIRMAN:   But again, a recommendation and not  
13          a prohibition?

14   MR KELVIN YEUNG:   (Interpreted) Well, that's the role  
15          I play. In front of frontline staff, that's what I do.  
16          I give recommendations.

17   CHAIRMAN:   And TQD as you call them, do they give  
18          recommendations or do they issue prohibitions?

19   MR KELVIN YEUNG:   (Interpreted) I'm not sure.

20   MS MAGGIE WONG:   Can you find that out from TQD?

21   MR KELVIN YEUNG:   (Interpreted) No problem.

22   MS MAGGIE WONG:   For those frontline staff who wish to have  
23          surveillance cameras installed, but didn't have one, did  
24          you pass on their message to the management that those  
25          who wish to have surveillance camera installed should

26

1           have them? So they don't have -- in that sense, the bus  
2           captains wouldn't have to violate the so-called Privacy  
3           Data Protection Ordinance? Have you voiced that out?

4   MR KELVIN YEUNG: (Interpreted) Yes, I did on various  
5           occasions. I would receive feedback from bus captains  
6           during formal or informal visits, bus captains would  
7           tell me and I would tell the management the wishes of  
8           bus captains.

9   MS MAGGIE WONG: So what is the response from the  
10          management?

11   MR KELVIN YEUNG: (Interpreted) The response I got from the  
12          management is that they would like to do it as soon as  
13          possible. That is, of course, new buses would come with  
14          CCTVs; as for old bus they would also be retrofitted.  
15          At the time I was told that the management also  
16          understood the need of bus captains.

17   MS MAGGIE WONG: We have heard from union members that  
18          because of these increasing assault incidents, they  
19          treat it as part of their daily lives, and your KMB  
20          submission mentions assistance, psychological assistance  
21          or support to be given to these staff.

22                 In your view, did the bus captains make any  
23          discussions as to how this condition can be improved  
24          from the company's perspective?

25                 Can you see from that page, I believe that's

26

1 page 149-113, which set out:

2 "The taskforce will engage a professional consultant  
3 to provide a comprehensive view of the current practice  
4 and make recommendations in areas including ...  
5 recruitment on [bus captains'] emotional intelligence,  
6 and stress tolerance, training, counseling and  
7 performance management."

8 Did you participate in this process?

9 MR KELVIN YEUNG: (Interpreted) KMB engages a third party in  
10 collaboration to set up a hot line for bus captains, and  
11 it is an independently run hot line. As for  
12 paragraph 38, on page 113, I understand this is what the  
13 management is doing now.

14 At one of the meetings I also attended, and a  
15 university in Hong Kong, was also invited to conduct  
16 a review and make recommendations to KMB. One of the  
17 meetings involved meeting the psychologists where  
18 I would tell them the plight faced by bus captains.

19 MS MAGGIE WONG: And moving on to another topic, it is about  
20 lost trips.

21 We have heard evidence from your colleague, Ms Debby  
22 Wong, that lost trips appear to be a frequent  
23 occurrence, and it affects driving behaviour because of  
24 the inaccurate estimation of scheduled journey time.  
25 And also it would, in turn, affect the rest time period.

26

1           What is your view on this matter?

2       MR KELVIN YEUNG: (Interpreted) From my perspective, lost  
3       trip is due to various reasons.

4           First, we may lose a trip because of shortage of bus  
5       captains, there may be traffic jam in Hong Kong, there  
6       may be emergency situations, public events,  
7       demonstrations, rallies, or special traffic  
8       arrangements, inclement weather, and vehicles breaking  
9       down on the road. All these contribute to the problem  
10      of lost trips. But we try our best not to affect the  
11      rest periods of bus captains, because we have a schedule  
12      of journey time, we have provided that to the bus  
13      captains, and about 96 per cent of these, or 90 per cent  
14      of these trips allow bus captains to have sufficient  
15      rest periods.

16           As for 90 per cent, well, it varies. But on the  
17      whole, of 10 trips, bus captains could have sufficient  
18      time for operating the bus for nine trips with  
19      sufficient rest time. As for the remaining one trip, it  
20      may be due to the reasons I mentioned.

21           But we would not deliberately shorten the journey  
22      time to make up for the lost trips.

23      MS MAGGIE WONG: Can you quote an example? And you  
24      mentioned in the morning about the Po Tin Estate having  
25      split shifts; do you recall?

26

1 MR KELVIN YEUNG: (In English) Yes.

2 MS MAGGIE WONG: And in Po Tin Estate, I've checked your KMB  
3 website, there are a number of routes, and one of them  
4 is 258D. It is a route from Po Tin Estate to Lam Tin.  
5 I believe the estimated journey time is about 1.5 hours;  
6 is that correct?

7 MR KELVIN YEUNG: (Interpreted) Roughly. Yes. That's the  
8 journey time. Roughly.

9 MS MAGGIE WONG: And we have heard some evidence about this  
10 particular trip, 258D, that the scheduled trip does not  
11 provide sufficient rest time, three hours rest time, for  
12 bus captain on split shifts.

13 Can we pull up the supplementary information that we  
14 received from the union yesterday.

15 We received information about this 258D (Chinese  
16 spoken) which is split shift 5, and it specified the  
17 start time as 0650 to 1343, and another period is 1600  
18 to 2015. So the rest hours, the one in the middle, only  
19 provides 2 hours and 15 minutes, and not the three hours  
20 rest time.

21 And this appears to be a schedule devised by the  
22 company, KMB.

23 What is your answer to this?

24 MR KELVIN YEUNG: (Interpreted) I don't have the schedule  
25 with me now. I was involved in formulating the  
26

1 timetable here. If my memory serves me right, for the  
2 first section, the end time should be 12.43 and not  
3 13.43. We have a meal break, we give our pay -- the pay  
4 for the meal break for the bus captain. So on a normal  
5 day without congestion, the bus captain should be able  
6 to take a rest, starting 12.43, and then he will ask to  
7 drive again at 4 pm.

8 So it would be longer than the guideline of the TD,  
9 which will take effect in 2019.

10 CHAIRMAN: Are you able to confirm that this is a mistake,  
11 1343, that in fact the break starts at 1243, by  
12 reference to records?

13 MR KELVIN YEUNG: (Interpreted) Yes, I can.

14 CHAIRMAN: Please provide that information.

15 MS MAGGIE WONG: Moving on to another topic.

16 One of the union members expressed that you can  
17 actually calculate the journey time by using black box  
18 data, rather than having someone who drove the route and  
19 without the actual scientific data.

20 And one of the suggestions is to get information on  
21 peak or non-peak hours and then factor in the congestion  
22 situation, then come up with a journey time estimate  
23 which is a more scientific approach.

24 What is your view on this?

25 MR KELVIN YEUNG: (Interpreted) Well, we are already doing  
26

1           that. We have a scheduling section which is responsible  
2           for reviewing all timetables and bus captains' duties.  
3           So this department is responsible for that. My role is  
4           to provide input to them.

5           Now, if I receive any feedback I would tell this  
6           section, say, bus captains would tell us that there is  
7           not enough journey time, and on and off, they will use  
8           a system to review the journey time. Maybe we can use  
9           a bus to do the actual trial of the route. We don't do  
10          that frequently. We will do that when a new route is  
11          being put in operation. We don't have any historical  
12          data, so we will ask a bus to conduct a trial and then  
13          simulate the journey time.

14          And then when sufficient data are gathered for  
15          a route then the scheduling section will use two ways to  
16          review the journey time. One, is the departure and  
17          arrival time of the bus captains, which is recorded in  
18          the TER mentioned before, that whenever a bus captain  
19          arrives at the terminus at the regulator's room he will  
20          tap the staff card and his arrival time will be  
21          recorded, and of course the regulator will also input  
22          the departure time from that bus terminus. So, having  
23          the departure and arrival time, we will know the exact  
24          journey time.

25          The other method is using the GPS location function.

1           These two methods are valid, we believe, because  
2           they can reflect when actually the bus will arrive at  
3           the terminus.

4           So when will we review the journey time? Let me  
5           cite an example. Po Tin is a very good example. We  
6           talked about 258D. The other route is 260X, from Po Tin  
7           to Hung Hom railway station. And it will go through  
8           a very congested area, where the XRL is being built near  
9           Jordan, and because of the construction of the XRL there  
10          is major diversion of traffic there, and when the  
11          construction work started then the journey time for 260X  
12          was very insufficient. So in that kind of scenario, we  
13          will review the journey time and we lengthen the journey  
14          time substantially as a result.

15          And up to now, there is now an underpass built  
16          already, so Jordan is not so congested and we found that  
17          this journey time is excessive now, so much so that  
18          there are not enough parking spaces at the terminus for  
19          buses because they arrive too early. Also then we will  
20          review the journey time based on the actual situation.

21   CHAIRMAN: And you do this by seeking the approval of the  
22           Transport Department to alter the journey time; is that  
23           it? The schedule.

24   MR KELVIN YEUNG: (Interpreted) Well, if we don't -- if we  
25           don't have to alter the frequency, if we revise the  
26

1 timetable, we don't need to apply from the TD.

2 So if the schedule is a frequency of 10 minutes, and  
3 then we have to increase the journey time, maybe we use  
4 different methods, for example redeploying buses to run  
5 this route or maybe we can add in a new bus, and based  
6 on the actual situation we will see whether that can be  
7 done.

8 So if, say, if that can be done, if there is talking  
9 about drastic changes in journey time, and we can't cope  
10 with it with our own existing resources maybe we have to  
11 adjust the frequency then.

12 So if we have to adjust the frequency then we will  
13 have to apply to the TD for doing so, and we need the  
14 TD's approval before we can adjust the frequency.

15 CHAIRMAN: Thank you.

16 MS MAGGIE WONG: Thank you.

17 Going to another topic, we heard this morning from  
18 your colleague Ms Debby Wong about having a focus group  
19 to discuss some of the roads that may pose a dangerous  
20 risk to bus captains or to passengers. So, as far as  
21 Tuen Mun is concerned, do you have similar focus group  
22 where you would discuss with bus captains about certain  
23 road conditions that bus drivers have to pay more  
24 attention or sharp bends, or -- along that line?

25 MR KELVIN YEUNG: (Interpreted) Yes. Yes, we do that.

26

1           We have some examples of that.

2       MS MAGGIE WONG: Can you provide us with some of the  
3       examples?

4       MR KELVIN YEUNG: (Interpreted) Say, we resort to two  
5       channels to solicit information on hazards. First is  
6       from the bus captains themselves, because they have  
7       first hand experience on potentially dangerous areas.  
8       For example in July and August there may be heavy  
9       downpour, and on some road sections maybe pot holes will  
10      appear because of the downpour. Private cars may not  
11      encounter problems, but it will be a bumpy ride for the  
12      buses, and as a result maybe the passengers will lose  
13      balance, and if bus captains tell us so, we will notify  
14      the relevant department in the first instance, and if we  
15      find that the problem is really serious we will tell the  
16      regulator who should then tell all the bus captains who  
17      will drive along that route maybe they should slow down,  
18      or they should try to divert, or what. So this is the  
19      first way that we collect information.

20           Second way, say, in during the rainy season, our  
21      field staff will inspect regularly the road conditions.  
22      In Tuen Mun and Yuen Long there would be a number of  
23      rural routes, and trees, after heavy downpour they may  
24      tilt, and it may be dangerous. So the trees may crash  
25      into the glass windows of the buses, and if the problem

26

1 is identified to be serious we will notify the police  
2 and we will seek the Fire Services people to cut the  
3 trees or we will approach the TD to prune the trees, if  
4 the problem is not serious.

5 MS MAGGIE WONG: You mentioned few staff will inspect  
6 regularly. How regular?

7 MR KELVIN YEUNG: (Interpreted) In Tuen Mun depot we have  
8 a list of black spots where there will be a lot of trees  
9 actually branching out into the carriageway, so the  
10 field staff will do that, especially during the rainy  
11 season.

12 So the field staff will inspect all the black spots  
13 in the area once a month, and if the rain fall is really  
14 heavy, we will ask them to step up the frequency of  
15 inspections. Say, if a period is a sunshine period  
16 there might not be much of a problem with the trees,  
17 then they will really inspect the road condition.

18 Their duty is to continuously observe and raise  
19 safety concerns and report the same to us.

20 MS MAGGIE WONG: And the last topic is, we have been  
21 informed recently by the Transport Department that they  
22 have issued a practice note in relation to the training  
23 of bus captains. Have you seen a copy of this practice  
24 note?

25 MR KELVIN YEUNG: (Interpreted) I don't know which one you  
26

1           are referring to. Can you refer me to exactly which one  
2           you are talking about.

3       MS MAGGIE WONG: Yes, if I may refer you to TD-1 page 403.

4           If we go to paragraph 18 -- paragraphs 18 and 19  
5           make reference to the practice note.

6       CHAIRMAN: If this helps you at all, this was something that  
7           was issued apparently in the last 10 days or so.

8       MR KELVIN YEUNG: (Interpreted) Well, we have enhanced our  
9           training several months ago. I don't know whether the  
10          paper talks about is what I know of.

11      MS MAGGIE WONG: In what way did you enhance some training?

12      MR KELVIN YEUNG: (Interpreted) Well, there are two phases  
13          of training, phase 1 and phase 2. And for phase 1, if  
14          the bus captains have only class 1 and class 2 private  
15          car licences then they will have to go through phase 1  
16          training. They have to pass the TD's bus exam and  
17          that's phase 1. After they pass the TD test --

18      CHAIRMAN: Did you enhance phase 1 in the last several  
19          months? Can you answer that "yes" or "no".

20      MR KELVIN YEUNG: (Interpreted) I don't see an enhancement  
21          for phase 1.

22      CHAIRMAN: Did you enhance phase 2?

23      MR KELVIN YEUNG: (Interpreted) Yes.

24      CHAIRMAN: How did you enhance it?

25      MR KELVIN YEUNG: (Interpreted) If need be -- that's the  
26

1 instruction from the management. If need be, we won't  
2 allow the bus captain to complete the course. Only when  
3 the bus captain himself is confident or the mentor is  
4 confident, then we will allow him to complete the  
5 course. That means originally he may be required to  
6 train a number of days, but if there is no confidence we  
7 would extend the training before we allow the bus  
8 captain to graduate.

9 CHAIRMAN: Thank you.

10 MS MAGGIE WONG: Thank you.

11 Mr Chairman, I have finished my questioning.

12 CHAIRMAN: Thank you.

13 Mr Yeung, thank you for coming here to assist us by  
14 giving your evidence. That is now complete, and you are  
15 free to leave, but equally you are free to stay. We  
16 have other people to give evidence. Thank you.

17 MR KELVIN YEUNG: (In English) Thank you.

18 CHAIRMAN: We will take a short break while Mr Yeung leaves  
19 the desk. Two minutes.

20 (3.16 pm)

21 (A short break)

22 (3.21 pm)

23 FORMER EMPLOYEE OF KOWLOON MOTOR BUS COMPANY (1933) LIMITED:

24 MR RAYMOND CHENG

25 (Evidence given in Cantonese and English, transcription of  
26

1 the simultaneous interpretation and/or English)

2 CHAIRMAN: Mr Cheng.

3 MR RAYMOND CHENG: (In English) Yes.

4 CHAIRMAN: Thank you for responding affirmatively to our  
5 invitation to give evidence, and thank you for waiting  
6 patiently all day whilst the other evidence was adduced,  
7 but now we come to you.

8 You will have seen the method by which we adduce  
9 evidence. I'm going to ask Ms Wong to start asking you  
10 questions.

11 Yes, Ms Wong.

12 MR RAYMOND CHENG: (In English) Yes, Chairman, corporate  
13 members, you are all welcome. It is my pleasure to  
14 attend this hearing. But first of all, before the Q&A,  
15 I want to declare the interest. May I use Chinese?

16 CHAIRMAN: Of course you may.

17 MR RAYMOND CHENG: (Interpreted) In relation to the bus  
18 accident occurred on 10 February, I have no relationship  
19 or affiliation with any persons injured or died in the  
20 bus accident.

21 In relation to the KMB directors, or the management,  
22 I have no affiliation or no relationship with them.

23 Before 2015, I had a working relationship with the  
24 managing director and the board of directors of KMB.

25 EXAMINATION BY MS WONG

26

1 MS MAGGIE WONG: Thank you, Mr Cheng, for coming.

2 And Mr Cheng, you were the senior manager in safety  
3 and quality department --

4 MR RAYMOND CHENG: (In English) Yes.

5 MS MAGGIE WONG: -- for the period of 1 May 2010 and you  
6 retired on 12 September 2014?

7 MR RAYMOND CHENG: (In English) Correct.

8 MS MAGGIE WONG: At that time, Mr Edmond Ho was the KMB  
9 managing director?

10 MR RAYMOND CHENG: (In English) Yes.

11 MS MAGGIE WONG: Mr Gary Wong was your supervisor at that  
12 time.

13 MR RAYMOND CHENG: (In English) Yes.

14 MS MAGGIE WONG: I'm going to focus on a few areas. The  
15 first is the identification of 29 sharp bends for  
16 internal analysis that you have explained and produced  
17 documentation in your submission to the committee.

18 If I may invite to you look at FE bundle, page 96-4  
19 to 96-6.

20 On this page, 96-4, if we go down the section "Buses  
21 can overturn easily", the second paragraph, it referred  
22 to you starting a study of safe driving in the sharp  
23 turns back in 2013. And:

24 "The Safety and Quality Service Department invited  
25 the 4 depot managers, the representatives from Bus  
26

1 Captain Training School and Bus Maintenance Section of  
2 Service Department to form a study group looking deeply  
3 into all the sharp turns within [KMB] bus route network.

4 Can you tell us who the four depot managers were at  
5 the time?

6 MR RAYMOND CHENG: (Interpreted) Those four managers were  
7 respectively from Tuen Mun, Lai Chi Kok, Sha Tin -- and  
8 Lai Chi Kok, Sha Tin, Tuen Mun and Sha Tin depot  
9 managers. For these four depot managers, we formed  
10 a taskforce, and apart from these four depot managers,  
11 there were also representatives from bus captain  
12 training school. And the representative was in the rank  
13 of assistant manager, Richard Lee, and he was the school  
14 principal of the training school, and we also had  
15 representatives from the bus maintenance section, who  
16 was an engineer, and had already left the post, and he  
17 is called Henry So, and this study group looked into all  
18 the sharp turns involved in the bus routes in Kowloon  
19 and New Territories in particular proposed by the depot  
20 managers.

21 As for the study method, the criteria, first of all,  
22 were, a reduction of speed limit from 70 to 50; number  
23 2, the curvature; and number 3, number of passengers for  
24 these bus routes, plying the sharp turns, because if  
25 these buses are usually fully loaded, the weight would  
26

1 increase.

2 And next point, we also took into account the actual  
3 situation at the sharp turns, and then we conducted an  
4 assessment on over 1,000 sharp turns from all the data  
5 collected in Hong Kong, Kowloon, New Territories, and we  
6 narrowed them down to 29 sharp turns.

7 And we also used actual buses to ply these routes  
8 and you can see we also made use of cameras on board to  
9 record the situation of these buses manoeuvring the 29  
10 sharp turns.

11 We conducted tests on all these 29 turns at  
12 different speeds, 20, 30, 40, 45, 50 kilometres, and we  
13 repeated the test a number of times.

14 We also made use of the black box you mentioned. It  
15 is BOM, the acronym. That is bus-on-board monitoring  
16 system to calculate the safe speed that buses should use  
17 in manoeuvring the turns without affecting traffic flow.  
18 We then put forward a recommendation to the senior  
19 manager.

20 I would like to pause here.

21 Any further question from you?

22 MS MAGGIE WONG: Thank you, Mr Cheng.

23 May I ask who initiated this study?

24 MR RAYMOND CHENG: (Interpreted) Back then, the managing  
25 director, Mr Edmond Ho instructed my then supervisor

26

1           Mr Gary Wong, and then Mr Gary Wong talked to me and my  
2           team members.

3           CHAIRMAN: What position did Gary Wong hold?

4           MR RAYMOND CHENG: (Interpreted) Head of SSQ.

5           CHAIRMAN: Thank you.

6           MS MAGGIE WONG: Did you have meetings with the colleagues  
7           you mentioned earlier on from time to time in relation  
8           to this study?

9           MR RAYMOND CHENG: (Interpreted) Yes.

10          MS MAGGIE WONG: When was that?

11          MR RAYMOND CHENG: (Interpreted) Around end of 2013 and  
12          early 2014.

13          MS MAGGIE WONG: Were there minutes of these meetings?

14          MR RAYMOND CHENG: (Interpreted) I believe there were.

15                 There might not be formal minutes, but there may be  
16                 exchanges of e-mail, like what Mr Yeung said. We would  
17                 try to confirm everything through e-mails. Because we  
18                 had to put in a lot of arrangements later on, maybe we  
19                 needed a bus captain to drive the route, we needed to  
20                 arrange for engineers, and the instructors of training  
21                 school to fix the dates to do all these.

22                 My e-mail account was closed so I couldn't retrieve  
23                 any information, but for other colleagues who were  
24                 involved in the work, they might be able to retrieve the  
25                 relevant e-mails.

26

1 MS MAGGIE WONG: Mr Cheng, do you know of any persons who  
2 are currently working in KMB but were involved in this  
3 study that we can ask?

4 MR RAYMOND CHENG: (Interpreted) Well, it has been four  
5 years on. To my understanding, most of the colleagues  
6 left.

7 MS MAGGIE WONG: About this video cam of those 29 sharp  
8 bends you mentioned?

9 MR RAYMOND CHENG: (Interpreted) Before I retired, after  
10 I finished with the project, I handed the footage in  
11 person to the principal of the bus captain training  
12 school, Mr Richard Lee. As to the whereabouts of the  
13 footage, I don't know.

14 MS MAGGIE WONG: Who took the footage of these 29 sharp  
15 bends? Or who drove the car so that the video cam could  
16 record these images?

17 MR RAYMOND CHENG: (Interpreted) The car cam, who hand-held  
18 the camera? It was fixed on the front part, the front,  
19 or the handrail of the front seat in the upper deck, so  
20 it did not need to be hand-held, all we needed to was to  
21 turn it on, or turn it off. So this was done by myself.

22 As to the question of who stored the footage, it was  
23 I who stored the footage. And then I handed the footage  
24 to my then supervisor, Mr Gary Wong. We should first  
25 take a look at the footage to make sure it is done in  
26

1 the correct way.

2 And we took many footages. And the footage was  
3 handed to the principal of the bus captain training  
4 school who edited the video, and then he handed back the  
5 footage to us. Well, some of the footage was useful,  
6 others not. And after the editing we handed the footage  
7 to the training school which stored it.

8 On one or two occasions, Mr Gary Wong showed it to  
9 the then MD, Mr Edmond Ho for viewing. That was just  
10 for viewing. We didn't study in depth as to say whether  
11 a particular speed was right or not. We didn't discuss  
12 this at the occasions I mentioned.

13 MS MAGGIE WONG: Yes. Mr Cheng, in your paper at page 96-6,  
14 you stated that at the bottom that:

15 "From the study, we were able to produce a safety  
16 booklet for ..."

17 I think you later clarified it as small reminding  
18 cards:

19 " ... for Bus Captains detailing each potentially  
20 dangerous turns' exact location, direction, and road  
21 nature, road condition, past record, related photos or  
22 diagrams from Transport Department's document or  
23 passenger complaints. There were 31 safety driving  
24 suggestions from a study of over 1,500 studies."

25 Are those 1,500 studies the test that you have  
26

1           undertaken in short-listing those 29 sharp bends?

2           MR RAYMOND CHENG:   (In English) Yes.

3           MS MAGGIE WONG:   Can you recall what those 29 sharp bends  
4           were? Are you able to still remember?

5           MR RAYMOND CHENG:   (Interpreted) It has been five years on.  
6           I forgot the majority of them.

7           I do remember individually some of them.

8           The four quoted in my paper were the ones  
9           I remember. As I said, for the 29 sharp bends, they are  
10          mostly in the rural areas. In urban areas there are so  
11          many traffic lights and there is congestion, and bus  
12          captains usually do not speed. But in rural areas when  
13          bus captains ply through highways, they may speed, or  
14          they may display incorrect driving behaviour, especially  
15          when we talk about going down from highway to the  
16          downtown area.

17          Well, for the four examples that I cited, it is  
18          about a highway having a speed of 70km, and then  
19          suddenly they have to reduce the speed to 50km in order  
20          to go into the downtown area. So that's where the  
21          danger lies.

22          For the 29 sharp bends, sorry, I don't have records  
23          on hand what these bends are.

24          So I try to recollect what these are so I can  
25          remember only four.

26

1 But I do remember the number is 29 in total. The  
2 sharp bends.

3 MS MAGGIE WONG: Thank you, Mr Cheng.

4 In your paper you stated this study followed on from  
5 the Tseung Kwan O bus accident in 2009. May I refer you  
6 to a LegCo paper that mentions --

7 CHAIRMAN: Before you move on, if we are leaving the four  
8 areas that Mr Cheng remembers, can you describe to us  
9 what these four areas are, the four places that you do  
10 remember?

11 MR RAYMOND CHENG: (Interpreted) Yes, I can. Say, for  
12 example, from Kwun Tong Road near the Choi Hung PTI,  
13 there are two highways with four lanes, and then all of  
14 a sudden there are just two lanes going to To Kwa Wan,  
15 and two lanes going to Sai Kung, and the curvature is  
16 around 230 degrees. And if a bus goes at 70km in Kwun  
17 Tong Road, and it has to go uphill through a ramp, and  
18 the ramp has a curvature of 230 degrees, and it has to  
19 make a certain turn to go to the Choi Hung roundabout,  
20 and then it can choose to go to either San Po Kong or  
21 Sai Kung.

22 But then this bend is only one lane, and there are  
23 no trees, this is an elevated highway. But then  
24 sometimes obstacles were left behind by lorries, and  
25 there were oil stains left over by motorbikes and cars,

26

1 and there is this film of oil which would lead to  
2 skidding. If you drive at 50km and the way ahead is  
3 smooth, if you use 50km you would not be able to  
4 negotiate the 230 degrees bend, because the road surface  
5 may be slippery, and the curvature is so big, and  
6 especially for double-deckers, it comes with a loading,  
7 and if there is acceleration, and then if you go to the  
8 apex of the bend, there will be a G force created.

9 The heavier the bus, the faster the bus, the greater  
10 is the G force, and as a result, the chances of a bus  
11 overturning will also increase.

12 CHAIRMAN: Is this an example of where a road, or a vehicle  
13 on a road is moving from a 70 kilometre an hour limit to  
14 a 50 kilometre an hour limit?

15 MR RAYMOND CHENG: (In English) Yes.

16 CHAIRMAN: Thank you.

17 That's one of them. What are the others?

18 MR RAYMOND CHENG: (Interpreted) To my recollection it is Ma  
19 On Shan, from the Tate's Cairn Tunnel going in the  
20 direction of Ma Liu Shui, and if you pass through Ma On  
21 Shan around the housing estate Kam Ying Court, there is  
22 a left turn bend and the curvature of that bend is above  
23 180 degrees, and again it is from 70km switching to  
24 50km, turning left down to the Ma On Shan town centre.

25 This bend is similar to the one that I mentioned  
26

1 from Kwun Tong Road to Choi Hung Road. From Kwun Tong  
2 Road to Choi Hung Road the bend is turning right, and  
3 then there is a sharp bend of 230 degrees down to the  
4 Choi Hung roundabout, and for Ma On Shan, from the  
5 Tate's Cairn Tunnel Highway to Ma On Shan is a left  
6 turn: the curvature and the carriageway, they were  
7 similar to the previous example.

8 And there is also the noise barrier, and the view of  
9 the bus captain was not that good compared to the  
10 previous example. In other words, the view was worse  
11 here in this latter example.

12 CHAIRMAN: Thank you.

13 MS MAGGIE WONG: That's the second example. Can you provide  
14 the remaining two that you can recall?

15 CHAIRMAN: I think all you need to do is tell us where the  
16 place is and what the curvature was, if that is the  
17 relevant fact.

18 MR RAYMOND CHENG: (Interpreted) For the curvature --

19 CHAIRMAN: What is the place, first of all?

20 MR RAYMOND CHENG: (In English) Okay.

21 (Interpreted) The first one is Tseung Kwan O/Kwong  
22 Ming Road roundabout. The second one is Cha Kwo Ling  
23 Road northbound, left turn to Lei Yue Mun Road  
24 westbound. The third one, as I described, Tate's Cairn  
25 Tunnel Highway northbound down to Shek Mun, and then to  
26

1 Ma On Shan. Number 4, Kwun Tong Road westbound, and  
2 then turning to Clear Water Bay Road. I explained the  
3 last one.

4 Let me first explain the one about Kwong Ming Road  
5 in Tseung Kwan O.

6 In 2009, November, there was a bus accident  
7 involving two fatalities and numerous injuries.

8 The MD then already gave me a mission when I took  
9 office that I should look into this roundabout to see  
10 whether there was room for improvement. So after  
11 I assumed office, I visited the roundabout in Kwong Ming  
12 Road in Tseung Kwan O to inspect the site, and there was  
13 a highway that went to the roundabout with a left turn  
14 to Kwong Ming Road/Kwong Ming Estate, I don't actually  
15 remember the name. But the curvature of the bend, it  
16 is -- I mean, it is a roundabout, so it is 360 degrees.  
17 If you go the wrong way, you can just follow the  
18 roundabout for another round to choose the exit you  
19 want.

20 So for Kwong Ming Road, say if you are travelling at  
21 50 kilometres, or below 50, there is not much problem.  
22 But when it is raining, or at night, when the sight line  
23 is poor, then you shouldn't exit the roundabout at  
24 50 kilometres, which is the speed limit, because it  
25 would be prone to accident.

26

1           The other one is Cha Kwo Ling Road northbound, left  
2           turn to westbound of Lei Yue Mun Road. This is in Kwun  
3           Tong, off the Kwun Tong post office, there is a bend.  
4           Again, there is a highway, one takes a left turn  
5           downhill to Kwun Tong and the speed limit also drops  
6           from 70 to 50 kilometres.

7           This carries the same characteristic. It is single  
8           lane traffic, and as I explained just now, if you travel  
9           at 50, you could be speeding. Although the Transport  
10          Department provides signage reminding drivers that there  
11          is a bend ahead, sometimes drivers may not be very  
12          attentive all the way. But we have professional  
13          drivers, but in the lapse of moment, the driver may  
14          forget, or that he may be pressing the gas pedal in  
15          a way that he can exceed 50 kilometres and then at that  
16          junction it would be dangerous.

17       CHAIRMAN: Thank you.

18       MS MAGGIE WONG: Mr Cheng, I would like to invite you to  
19          look at a document following on the accident. It was  
20          a LegCo paper --

21       CHAIRMAN: Which accident?

22       MS MAGGIE WONG: The accident, the traffic accident on Tuen  
23          Mun Road in 2012.

24          This LegCo paper can be found at page 260-443-20.

25       CHAIRMAN: Of which bundle?

1 MS MAGGIE WONG: Of TU bundle.

2 CHAIRMAN: Which number?

3 MS MAGGIE WONG: TU-1B.

4 CHAIRMAN: Thank you.

5 MS MAGGIE WONG: 260-443-20.

6 It is a LegCo paper for the special meeting on  
7 27 November 2012. It is stated as "Background brief on  
8 safety of franchised bus operation and safety of long  
9 downhill roads".

10 If you go to paragraph 6, it made reference to the  
11 fatal traffic accident on New Hiram's Highway in  
12 May 2008 resulting in a total of 18 fatalities and 44  
13 injuries.

14 And drop a few lines, we see that:

15 " ... [Transport Department] had also conducted  
16 a territory-wide review of long steep downhill roads and  
17 had identified a total of 29 downhill road sections in  
18 the territory."

19 The list can be found in appendix 1, which is also  
20 in this bundle at page 260-443-29.

21 Mr Cheng, would you mind taking a look at these 29  
22 sections or locations and see whether the four locations  
23 you mentioned can be found in this list?

24 MR RAYMOND CHENG: (Interpreted) On the first page, that's  
25 29, these road sections are in Hong Kong Island, and  
26

1           then for 330, number 15, Clear Water Bay Road, Ngau Chi  
2           Wan in Kowloon. That's the one that I personally  
3           checked. But it is not the same as the one I studied.  
4           Because one is upstream, the other is downstream, and  
5           for New Territories, none. I can find none.

6           But I want to supplement. In 2008, I hadn't assumed  
7           office as senior manager of SSQ.

8   MS MAGGIE WONG: I understand, Mr Cheng.

9           So the exercise you conducted is a valuable one?  
10          Because you have undertaken a detailed task of looking  
11          at how many roads -- how many roads have you looked at  
12          in terms of New Territories?

13   MR RAYMOND CHENG: (Interpreted) A lot. But I can't tell  
14          you how many now, because my responsibility relates to  
15          safety and driving, and I would get on board a bus for  
16          inspection at least once a month.

17          I mean, I would be in plain clothes, without any  
18          advance notice, I would board a bus of my company. From  
19          the very beginning, like I said, in rural areas, very  
20          often drivers would neglect safety, so I would say it is  
21          very frequent, at least once or twice a month I would  
22          take these buses from Yuen Long, I would take 968 to Tin  
23          Hau, and then in Tin Hau I would take another bus back  
24          to Tuen Mun. It is a working trip. And I would record  
25          details relating to the dangerous road sections, and  
26

1 I would report back to the then supervisor, Mr Gary  
2 Wong.

3 Therefore, in identifying the 29 sharp turns,  
4 I provided a lot of comments which were accepted.

5 MS MAGGIE WONG: If I may invite you to look at page 96-6 of  
6 the FE bundle, your submission, in that paragraph you  
7 stated you made 31 safety driving instructions,  
8 suggestions from that study.

9 Do you recall what those safety driving suggestions  
10 were, or what it related to?

11 MR RAYMOND CHENG: (Interpreted) Most of these suggestions  
12 related to driving demeanour. Some of them related to  
13 driving speed.

14 CHAIRMAN: What do you mean by "driving demeanour"?

15 MR RAYMOND CHENG: (Interpreted) For driving demeanour  
16 I mean whether the bus captain would be very attentive  
17 in driving, or whether all of a sudden he would  
18 accelerate or brake abruptly, or make a sharp turn  
19 abruptly as mentioned by the previous witnesses.  
20 Because if the driver makes a sharp turn all of  
21 a sudden, it may affect the centre of gravity of the  
22 bus. Let me give you one example.

23 When negotiating a bend of 30 degrees, if the driver  
24 manoeuvres the bend, normally it may take one second or  
25 one to five seconds. However, if the driver drives at  
26

1 speed such that the bend of 30 degrees is manoeuvred  
2 with just 0.1 seconds, then the bus would slide.

3 I don't know what it is called in Chinese, but it is  
4 some kind of drifting of the tail of the bus, such that  
5 passengers seated or even standing passengers would tend  
6 to fall.

7 Do you get my meaning? That is to manoeuvre a bend  
8 with 0.1 seconds, it is very different from manoeuvring  
9 a bend in 1 second. That's about driving demeanour.

10 CHAIRMAN: Thank you.

11 MR RAYMOND CHENG: (In English) Welcome.

12 MS MAGGIE WONG: When you talked about some of them related  
13 to driving speed, when you made that suggestion, did you  
14 recommend to the bus captains for some of the sections  
15 of the road that have 70km per hour, the driver should  
16 drive below the speed limit permitted for that road  
17 section? Did you suggest that in that handbook?

18 MR RAYMOND CHENG: (Interpreted) First of all, buses have  
19 now been equipped with a device limiting the speed at  
20 70. Even if he floors the pedal, when the bus reaches  
21 70 kilometres it won't go faster.

22 However, if the bus is going downhill or perhaps --  
23 well, coming back to driving demeanour, the bus could go  
24 beyond 70 kilometres if he uses the neutral gear. And  
25 my answer is, no, because my answer is about safety  
26

1 driving, and the driver must not exceed the speed limit.

2 So if he drives below 70 or 68 kilometres, I would  
3 appreciate that, but we also need to consider sight line  
4 and driving demeanour. Maybe the driver is in a bad  
5 mood, or he may have something on his mind, and then he  
6 drives at 25 kilometres, then I won't recommend it.

7 MS MAGGIE WONG: And page 96-7, you mentioned small  
8 reminding cards printed and readily available to be  
9 issued to all bus captains -- all concerned routes' bus  
10 captains.

11 Did you participate in drafting the small reminding  
12 cards?

13 MR RAYMOND CHENG: (Interpreted) No, but I can supplement.

14 Mr Yeung said that the cards were printed in  
15 2013/2014. That's not correct. The card's dimension is  
16 2 inches by 3-inches and they give a summary of the  
17 locations of the 29 sharp bends, the direction, the safe  
18 driving speed, and all these are in the card. But  
19 unfortunately, the cards were printed after I retired.

20 And I knew from Mr Gary Wong, my then supervisor --

21 CHAIRMAN: Just tell us what you know yourself, not what  
22 others have told you that happened. Do you understand  
23 the difference?

24 MR RAYMOND CHENG: (Interpreted) I got it.

25 CHAIRMAN: So did you ever see any printed cards?  
26

1 MR KELVIN YEUNG: (Interpreted) No, no.

2 CHAIRMAN: Thank you.

3 MS MAGGIE WONG: And if I may go over to page 96-6.

4 In answer to question 7, you stated there that:

5 "I was very disappointed upon hearing that SSQ  
6 study" --

7 CHAIRMAN: Ms Wong, I only want evidence to be led of what  
8 this witness knows personally.

9 MS MAGGIE WONG: Then I won't pursue this.

10 Mr Cheng, do you know a person by the name of Alok  
11 Jain?

12 MR RAYMOND CHENG: (Interpreted) Yes.

13 MS MAGGIE WONG: In your study, in relation to this 29  
14 covered turns, did you have a chance to work with  
15 Mr Jain?

16 MR KELVIN YEUNG: (Interpreted) No.

17 MS MAGGIE WONG: During the time when you were working with  
18 KMB, did you have a chance to work with Mr Alok Jain in  
19 relation to the safety aspects of franchised buses?

20 MR RAYMOND CHENG: (Interpreted) No.

21 MS MAGGIE WONG: Mr Chairman, I've finished my questioning.

22 CHAIRMAN: Mr Cheng, thank you very much for coming to  
23 assist us, for agreeing to give evidence, and giving us  
24 the evidence you have. We are grateful.

25 Your evidence is concluded, and we have more  
26

1 evidence to receive, so we will take another short  
2 adjournment and then I think we are ready to receive the  
3 representatives of the Federation of Bus Industries.

4 So we will take a short break. Thank you.

5 MR KELVIN YEUNG: (In English) Thank you.

6 (4.05 pm)

7 (A short break)

8 (4.16 pm)

9 REPRESENTATIVES OF THE FEDERATION OF BUS INDUSTRY TRADE  
10 UNIONS: MR LEUNG KAM KEUNG, MR CHUNG CHUNG FAI, MR LAM KAM  
11 PIU, MR LAU KAI HIM, MR HUI HON KIT, MR KWOK WAI KWONG

12 (Evidence given in Cantonese; transcription of the  
13 simultaneous interpretation) (continued)

14 CHAIRMAN: Gentlemen, good afternoon, apologies for the  
15 delay in reaching you. As you will have seen, we have  
16 been taking evidence from others but we are now ready to  
17 resume with your evidence.

18 Ms Wong.

19 EXAMINATION BY MS WONG (continued)

20 MS MAGGIE WONG: Thank you so much, gentlemen, for coming.

21 Yesterday, I have asked some questions about the  
22 resting facilities in relation to your submission dated  
23 16 July, annex 7, in relation to Lai Kok Estate.  
24 I understand that Mr Lau has dug up further information  
25 about the progress of this Lai Kok Estate and would like  
26

1 to supplement on this.

2 CHAIRMAN: Yes.

3 MR LAU KAI HIM: Thank you, Chairman.

4 Regarding the locations in annex 7, take Lai Kok as  
5 an example as mentioned by Madam Wong, the resting  
6 lounge has been installed.

7 I want to supplement that regarding resting  
8 facilities, KMB has been more proactive than other bus  
9 companies. At other locations KMB has striven to  
10 install resting facilities and it is not only Lai Kok,  
11 but Tsing Yi Pier, Kowloon City Pier, and also another  
12 bus terminus in Cheung Wang, so you can see that KMB is  
13 more proactive than Citybus and New World First Bus,  
14 because for the other franchised bus companies, take  
15 Quarry Bay as an example, over the years they have  
16 failed to install the resting lounge.

17 This may be due to various reasons, but I can say,  
18 on the whole, KMB is more proactive.

19 Of course, the facilities, or the size of the lounge  
20 may not be perfect, but at least they are providing  
21 resting facilities for use by staff of KMB.

22 I would also like to supplement that there is one  
23 resting lounge that may be demolished soon, that is TST  
24 terminus. We received a paper from the Harbourfront  
25 Commission suggested that the bus terminus at Tsim Sha  
26

1 Tsui ferry pier would be demolished. But this terminus  
2 involves a lot of bus routes. The Harbourfront  
3 Commission already discussed the topic and we also wrote  
4 to Transport Department requesting the department to  
5 explain a number of things: after demolition where will  
6 the bus routes be accommodated and also, after taking  
7 down the bus terminus, there would be no resting  
8 facility for KMB drivers. And it is also very crowded,  
9 and so far the Transport Department has not been able to  
10 answer our questions.

11 Because for Tsim Sha Tsui ferry pier terminus the  
12 facilities are very good. If the terminus is  
13 demolished, as the proposal goes, it will turn into an  
14 ordinary bus stop without resting facilities for KMB bus  
15 captains.

16 I also have another paper for reference. And this  
17 is from the Hong Kong Institute of Landscape Architects.

18 Thank you, Chairman.

19 CHAIRMAN: Is that a document you wish us to receive?

20 MR LAU KAI HIM: (In English) Yes.

21 CHAIRMAN: Do you have copies of it? We will have it  
22 copied.

23 MR LAU KAI HIM: (In English) Here is my copy. (Handed).

24 CHAIRMAN: Very well, we will have it copied now.

25 MR LAU KAI HIM: No need to photocopy.

26

1 MS MAGGIE WONG: Thank you, Mr Lau.

2 In one of your annexures, annexure 18, can  
3 I summarise one of the points you made in your  
4 submission?

5 CHAIRMAN: What is the reference?

6 MS MAGGIE WONG: The reference, it is annex 18 of the  
7 supplemental document filed by the union on  
8 16 July 2018, and the document itself contains a minute,  
9 a letter dated 28 June 2007. In Chinese it is at  
10 page 260-522; in English page 260-523-22. It is  
11 a letter --

12 CHAIRMAN: Which bundle?

13 MS MAGGIE WONG: In TU bundle, I apologise.

14 CHAIRMAN: Which one.

15 MS MAGGIE WONG: 1C.

16 CHAIRMAN: Thank you.

17 MS MAGGIE WONG: That is a letter dated 24 November 2016  
18 from your union to the Transport Department. I'm only  
19 interested in one topic. It is paragraphs 1.1 to 1.3.  
20 In relation to this topic, your union requested, or  
21 invited the Transport Department to consider having  
22 three-party negotiation or meeting in relation to the  
23 design and facilities of newly built bus terminus.

24 And at 1.3 you stated that you would like the  
25 department to consider to arrange for regular meeting to  
26

1 be attended by the government, bus company, and labour  
2 union. That's at page 260-523-8. Regular meetings to  
3 be attended by bus company and labour union so as to  
4 facilitate discussion on matters including the design of  
5 facilities in old and new bus terminus.

6 And we can see in one of the replies of the  
7 Transport Department, at page 260-523-22, that they  
8 appear to consider that this request should not be  
9 three-party, but instead they invite you to go through  
10 the bus company.

11 It would be at page 206-523-22, second paragraph:

12 "When designing a new bus terminus, in addition to  
13 referring to the usual design standards, our Department  
14 would also take into account the circumstances of the  
15 terminus, including the number of expected routes,  
16 number of passengers, direction of the flow of people,  
17 environmental limitations, operational needs of the  
18 buses, et cetera. We would also consult the relevant  
19 bus companies for their opinion on the design in  
20 concern. Therefore, if staffs have any suggestions on  
21 the design and facilities of the bus terminus, the  
22 staffs may reflect them to their company. Our  
23 department believes that the current mechanism is  
24 effective."

25 So the Transport Department appeared to reject your  
26

1 request to have three-party negotiation. Is that the  
2 position?

3 MR LAU KAI HIM: Correct.

4 MS MAGGIE WONG: May I now go to another topic, on year-end  
5 attendance bonus.

6 May I invite you to your second submission, at  
7 page 260-94 in English, and Chinese at page 260-57.

8 Now, have you got the document, Mr Lau?

9 MR LAU KAI HIM: (In English) Yes.

10 MS MAGGIE WONG: May I ask you this. You mentioned  
11 something here about the year-end bonus. Is that on top  
12 of the safety and good service bonus that the KMB is  
13 currently offering to bus captains?

14 MR LAU KAI HIM: Let me put it this way. For safety award  
15 and attendance bonus, these are incorporated into the  
16 basic salaries of bus captains. For (a), on this page,  
17 it refers to a year-end bonus, and in 2018 KMB already  
18 undertook to scrap the year-end bonus, and that double  
19 pay would be implemented. As for the year-end bonus, an  
20 assessment would be conducted and staff would be graded  
21 from 1 to 5, or not available. And then award would  
22 be -- or bonuses would be given according to the  
23 grading.

24 So these are two different things.

25 CHAIRMAN: When in 2018 did KMB agree to scrap the year-end  
26

1 bonus?

2 MR LAU KAI HIM: Around May or June they undertook to scrap  
3 the year-end bonus system, and a double pay system would  
4 be implemented. And the actual announcement date was  
5 in June.

6 CHAIRMAN: Do you have a copy of the announcement?

7 MR LAU KAI HIM: You mean a notice issued by the company?  
8 We can get a copy from KMB. If the Committee would like  
9 to have a copy I can provide a copy to the Committee.

10 CHAIRMAN: Thank you, please do so.

11 MR LAU KAI HIM: Mr Lam would also like to supplement about  
12 the bonus system for New World First Bus.

13 MR LAM KAM PIU: For New World First Bus and Citybus they  
14 share the management, and for safety bonus, attendance  
15 award, since March this year they have been incorporated  
16 into the basic salaries. But I want to supplement  
17 regarding bonuses.

18 Many years ago we already reflected our view to the  
19 company. For the bonuses, allowances, they should be  
20 part of the salary and they should be incorporated into  
21 the basic salaries as a remuneration package. But for  
22 various reasons the company had all along rejected the  
23 idea.

24 But ever since the tragedy happened, the company  
25 claimed that in light of the market situation they would  
26

1 include the bonuses and allowances in the remuneration.  
2 So it is just a consolation prize. It is just better  
3 than nothing. But over the years we have been striving  
4 for this. We didn't just start after the tragedy  
5 happened. Because we understand that this problem has  
6 affected staff all along, because our staff all along  
7 have been given very low basic salary.

8 So we have been reflecting this to the company.

9 MR LAU KAI HIM: Ms Wong, the New World First Bus staff  
10 union has reflected to the management, and that was in  
11 annex 17, and in 2017 our trade union has asked for the  
12 attendance bonus to be incorporated into the basic  
13 salary. We have been striving for it for a long time  
14 already. But we have lost the older minutes of  
15 meetings. But in appendix 17 it shows that they have  
16 been talking to the management all along about this.

17 Mr Chung would like to supplement.

18 MR CHUNG CHUNG FAI: I would like to supplement.

19 Mr Lam talked about safety bonus, attendance bonus,  
20 et cetera, being incorporated into the basic salary and  
21 that started in November, and there were two bus  
22 tragedies, and the company told us that because of the  
23 pressure from the community and our salary is on the low  
24 side, all these allowances would be incorporated into  
25 the basic salary.

26

1           Mr Lau referred to the year-end bonus, and for us,  
2           there are the new systems and the old systems. In the  
3           old system it is in the form of a double pay without any  
4           conditions attached. So an extra month of pay will be  
5           disbursed. But for those under the new system, they  
6           have to meet with certain conditions stipulated by the  
7           company. Say, for example, if you take sick leave you  
8           will be given less. So the number of sick leave days  
9           you have in a year will be factored in. Maybe if you  
10          are complained against, your year-end bonus will also be  
11          deducted.

12          So for the frontline bus captains, especially the  
13          new recruits, they are not willing to stay long. They  
14          will just work for one year or half a year, and then  
15          they quit.

16          MR LAM KAM PIU: Mr Hui would also like to supplement.

17          MR HUI HOU KIT: Citybus and New World First Bus, our  
18          year-end bonus is different from the New World First  
19          Bus. We have three systems under Citybus. The first  
20          system covers the most experienced staff members, we  
21          call that double pay, and for the second batch, for  
22          myself I'm in that, we call that remuneration in  
23          a sense, and that comprises three parts.

24          The first is the basic salary, the other, the second  
25          is the -- your OT pay for the whole year divided by  
26

1           one-third, and that is your bonus.

2           And the third batch is the contract bus captains.

3           So that means one month's basic salary for them.

4           And there is also a grading system.

5           If in one year you do not have full attendance, then  
6           your bonus will be deducted. So your basic salary will  
7           be divided by 365, say, if you are absent for one day of  
8           work, then you would get your bonus deducted by that  
9           amount, and then if it is sick leave and all that, then  
10          it would be deducted in the same manner.

11          And if you receive warning letters, well, if it is  
12          a final warning letter, then your bonus will also be  
13          deducted. If you receive a final warning letter, then  
14          you will only get 75 per cent of your basic salary as  
15          the bonus.

16          So that's how it works in Citybus.

17          Starting 2005, Citybus has started hiring contract  
18          bus captains. Initially, there was no year-end bonus,  
19          but we have been striving for it all along. And now  
20          that is being given.

21          But for new recruits, and the year-end bonus, there  
22          is one thing we object strongly against. Say, if they  
23          are on leave, and they do not have a full attendance,  
24          then their year-end bonus will be deducted. We don't  
25          think it is reasonable.

1           Maybe the person is taken ill or he suffers injury  
2           at work, maybe he applies for leave because of marriage  
3           or he has to attend a funeral or something like that.  
4           This is something beyond his control.

5           So if the pay for the colleague is being deducted  
6           for those reasons, that would be very unreasonable.

7           That's all I wanted to say as a supplement.

8   CHAIRMAN:   Yes.   Ms Wong.

9   MS MAGGIE WONG:   And we have heard about a system that was  
10           in place in Kowloon Motor Bus.   Maybe Mr Kwok can  
11           assist.

12           We heard about the bus having a small device with  
13           four lights which would inform the driver immediately  
14           when there are four conditions, speeding, harsh braking,  
15           abrupt acceleration -- I think those are the three  
16           conditions.

17   CHAIRMAN:   And engine idling.

18   MS MAGGIE WONG:   Yes.   Engine idling.

19           Mr Kwok, do you remember when these lights were put  
20           in place in buses?

21   CHAIRMAN:   Could we bring a photograph of -- there it is.

22           Thank you.

23   MS MAGGIE WONG:   That's, for record purpose, BM-65.

24   CHAIRMAN:   This is a document provided by Openmatics  
25           describing to us this alert system with the four LED  
26

1 lights.

2 MS MAGGIE WONG: We have been informed by one of the depot  
3 managers, Tuen Mun depot manager, that in fact there was  
4 this LED light system that would signal the driver  
5 immediately when one of these situations happened.

6 So my question is, do you recall when was this LED  
7 light implemented in buses in Kowloon Motor Bus?

8 MR KWOK WAI KWONG: 2013. 2013.

9 MR LAU KAI HIM: We tried that out in 2013, and that was  
10 installed.

11 MR KWOK WAI KWONG: 2013.

12 MS MAGGIE WONG: Thank you.

13 And they also talked about a system where whenever  
14 you go to work you put the Octopus card on the kiosk,  
15 there was an Octopus card where you can put on the  
16 reader, and it will automatically show whether you are  
17 a green driver, amber driver, or red driver.

18 Can you confirm if that was the system in place in  
19 Kowloon Motor Bus?

20 MR KWOK WAI KWONG: Yes.

21 CHAIRMAN: How does this work? You put your Octopus card on  
22 the reader and what display do you see?

23 MR KWOK WAI KWONG: When I go into work, and when I tap the  
24 card, then there will be this display. Usually it is  
25 a green light.

26

1 MR LAU KAI HIM: Chairman, I have something to supplement.

2 There are the red, amber and green lights, so that,  
3 well, based on the information collected from this box,  
4 then that shows the driver's driving behaviour, so if  
5 you have a green light then you are okay. If you have  
6 an amber light you need improvement. Red, of course, is  
7 not good, and there is also an incentive programme  
8 launched.

9 So if the drivers have the green light, then  
10 a reward is given to the driver. But for some time  
11 I don't see any information regarding this bonus or  
12 reward scheme. But this Octopus reader is still in  
13 operation at KMB, and the system pointed out by Ms Wong  
14 still exists.

15 Now, bus drivers will tap the card and then the  
16 relevant lights will come on. This system is connected  
17 to the GPS to monitor the bus driver's performance, and  
18 then information collected can then classify the bus  
19 drivers into amber, red and green drivers.

20 CHAIRMAN: Do you know what period of driving is reflected  
21 by this colour display, red, amber, green? To which  
22 period of driving does it relate?

23 MR KWOK WAI KWONG: Well, it is from the start of work to  
24 the end of your duty.

25 CHAIRMAN: So when you come on duty, you tap your card, and  
26

1           this is displayed, is that right, Mr Kwok?

2           What does the display refer to? Yesterday's  
3           driving, the month's driving, a week's driving?

4       MR LAU KAI HIM: It is a kind of sustainable performance on  
5           your part, and every time when you tap the card you will  
6           be reminded on your performance as indicated by the  
7           colour. Well, we don't have a specific period, say, for  
8           assessing your performance -- well, that's a reminder on  
9           a sustainable basis. Every time when you tap your card,  
10          the relevant colour will show up to tell you your actual  
11          performance.

12          It doesn't cover a specific period. I wonder  
13          whether Mr Kwok has anything to supplement.

14       CHAIRMAN: We have been told that it does. If you don't  
15          know, please say so.

16       MR KWOK WAI KWONG: Well, as far as I can recollect, it is  
17          usually about the performance in the previous week.  
18          Yes, indeed there is a period.

19       CHAIRMAN: Thank you.

20          Now we can see on the screen that there are these  
21          four thresholds that trigger some kind of alert. Do you  
22          know whether triggering one of the alerts, for example  
23          that the engine has been idling too long affects the  
24          colour that you have given for your record? In other  
25          words, if you left the engine idling at the bus station  
26

1 do you get a red signal?

2 MR KWOK WAI KWONG: There will be also a beeping sound, and  
3 the light will also come on.

4 CHAIRMAN: I understand that.

5 Does the fact that you left the engine running too  
6 long, and the light flashed, and you got a beeping sound  
7 as you sat waiting in the bus station, does that result  
8 in a day or two, or a week's time later, you getting  
9 a red indicator when you tap your Octopus card, or not?

10 MR KWOK WAI KWONG: They will take the average statistics.  
11 We would not have that kind of consequence. Only if it  
12 happens one or two times. If that happens frequently  
13 then the reminder will come on.

14 CHAIRMAN: Have you ever been provided with details that  
15 tell you exactly how it works, or not?

16 MR KWOK WAI KWONG: No. Well, no explanation has been  
17 given.

18 CHAIRMAN: Do you know what the threshold values are for  
19 triggering the audio and visual alert in the bus  
20 captain's cockpit? Do you know what the thresholds are?  
21 Speed, acceleration, deceleration?

22 MR KWOK WAI KWONG: I have driven many different buses, and  
23 different buses have different devices that give  
24 different effect. Some are very sensitive. Some would  
25 be triggered very easily, say if you press on the gas

26

1 pedal quite hard, or when you brake hard, or when you  
2 take a turn too sharply, some devices are sensitive,  
3 some are not.

4 So I have the impression that this system is not  
5 very consistent among the buses.

6 CHAIRMAN: For example with speed, do you know what speed  
7 the alert is triggered at?

8 MR KWOK WAI KWONG: It will beep if it goes above 70.

9 CHAIRMAN: So if you are in a 50 kilometre an hour speed  
10 limit and you are doing 60, it doesn't beep?

11 MR KWOK WAI KWONG: If it is 50, well, I haven't heard any  
12 beeping sound so far.

13 CHAIRMAN: In the five years that this system has been  
14 working, no beep in a 50-kilometre zone?

15 MR KWOK WAI KWONG: That's right.

16 CHAIRMAN: Thank you, Mr Kwok.

17 MS MAGGIE WONG: About the Octopus card reader system  
18 showing the green, amber, red colour of the drivers.  
19 When was it implemented?

20 MR KWOK WAI KWONG: Five years ago -- 2013.

21 MS MAGGIE WONG: So the same time when you have this LED  
22 illuminating light system?

23 MR KWOK WAI KWONG: I suppose so.

24 MS MAGGIE WONG: Thank you.

25 And since we are on this topic, may I ask your view  
26

1           on this, Mr Lau earlier mentioned that you used to have  
2           a reward system based on the driving performance, but  
3           now it appears that the system did not exist. Is that  
4           what Mr Lau is saying?

5       MR LAU KAI HIM: That's right, yes.

6       MS MAGGIE WONG: So what is the reward?

7       MR LAU KAI HIM: First of all, because of lapse of time,  
8           I really cannot remember very clearly, but when it was  
9           first implemented, there was a poster. Some sort of  
10          a poster, which I had seen that there was this scheme  
11          reminding drivers to drive in an environmentally  
12          friendly manner in a safe manner, and if you reached the  
13          target you would get a reward.

14                As for the actual details, I no longer remember.  
15          But I do have the recollection that there was some sort  
16          of reward coming from data of the box, but since then  
17          I have not heard anything about the reward or its  
18          details.

19       CHAIRMAN: Mr Kwok, have you ever received a reward?

20       MR KWOK WAI KWONG: Yes.

21       CHAIRMAN: Yes? And what was the reward? Money? Fruit?  
22                Balloons? What was it?

23       MR KWOK WAI KWONG: Do you mean the red, amber, green  
24          performance related one?

25       CHAIRMAN: Yes.

26

1 MR KWOK WAI KWONG: I think it related to a promotion, or  
2 star bus captain.

3 CHAIRMAN: So not monetary, not immediately monetary?

4 MR KWOK WAI KWONG: No, no. Not monetary.

5 CHAIRMAN: Thank you, Mr Kwok.

6 Mr Auyeung, yes.

7 MEMBER AUYEUNG: Mr Kwok, I want to ask a question about --  
8 as a bus captain, do you find this system helping your  
9 work?

10 MR KWOK WAI KWONG: Do you mean this LED surveillance or  
11 monitoring system? Yes.

12 MEMBER AUYEUNG: Thank you.

13 MS MAGGIE WONG: Mr Kwok and Mr Lau, do you remember when  
14 this reward system was first implemented? Would it be  
15 around the time when you have this red, amber, green  
16 system?

17 MR LAU KAI HIM: First of all, regarding the LED system,  
18 I remember very clearly that it was in 2013. When I was  
19 at work I first got in touch with the LED system and  
20 I was told by other bus drivers that they didn't get  
21 used to the LED system because it kept beeping and the  
22 lights kept going on, and it was in 2013. But I do not  
23 remember whether the reward system was also implemented  
24 around the same time.

25 I only have the recollection that I saw a poster  
26

1           about this incentive, if the performance was good, but  
2           I no longer remember details.

3           I can tell you very clearly, however, that this  
4           system was implemented in 2013 and the black box with  
5           four LED lights are still being used at the moment.

6   MS MAGGIE WONG: If this system was re-implemented, that  
7           there would be reward, or bonus --

8   CHAIRMAN: Well, what we have been told is that insofar as  
9           there is a reward, it might have been promotion, but it  
10          was not monetary.

11   MS MAGGIE WONG: Yes.

12          If one were to suggest that there be a reward in the  
13          form of bonus payment, based on the colour of the  
14          system, that is if you consistently have green colour,  
15          being good driving behaviour, you would receive  
16          a bonus --

17   CHAIRMAN: A monetary bonus?

18   MS MAGGIE WONG: A monetary bonus, would you find it  
19          helpful, or useful in enhancing the safety awareness of  
20          driving?

21   MR LAU KAI HIM: First of all, whenever there is an  
22          incentive or reward system, I think psychologically  
23          speaking it would be helpful. It would be positive.

24          But let's say if you are given a bonus if you have  
25          green colour, then it serves as an incentive for bus  
26

1 captains to improve his performance. But I need to make  
2 it clear, that the awareness of safety will not be  
3 enhanced simply by having a bonus. If the driver's  
4 safety awareness isn't high, then even if there is  
5 a bonus I don't know whether certainly this will help  
6 improve the safety aspect of driving.

7 These are two different concepts.

8 Of course, if you have a bonus, it will be helpful,  
9 it will be an incentive, but about enhancing safety  
10 awareness, I don't think the black box with four LED  
11 lights would really substantially improve the safety  
12 awareness of drivers. It only serves as a reminder, and  
13 the bonus would be an incentive for them to improve  
14 their performance, but their awareness will not be  
15 enhanced simply by the black box with four LED lights  
16 and bonuses.

17 MR KWOK WAI KWONG: Let me supplement.

18 As I mentioned just now, different buses have  
19 different devices that give off different responses.  
20 Some are responsive, some are not. So if this is used  
21 to assess the work performance of bus captains, I think  
22 this is substandard. I think we should assess the  
23 performance with other means.

24 MS MAGGIE WONG: In your experience, have you come across  
25 a driver who consistently has red signal, or red colour  
26

1 in terms of this system, this Octopus card system?

2 MR KWOK WAI KWONG: I have not seen one.

3 MS MAGGIE WONG: We have heard evidence from KMB former  
4 employee that there was a small reminding card that  
5 informed bus captains about 29 sharp bends and providing  
6 some safety driving tips.

7 Do you recall receiving a small printed card?

8 MR KWOK WAI KWONG: No.

9 MS MAGGIE WONG: Yes, Mr Lau.

10 MR LAU KAI HIM: Let me supplement.

11 For this small card, I have not received it, I never  
12 saw it, but the company does provide information on the  
13 intranet regarding these road sections, and previously  
14 the company also reminded colleagues to read the notice  
15 about dangerous road sections on the intranet. That  
16 would remind them about the road sections and the  
17 information came with pictures and text.

18 As for the small card, I have not seen it myself.

19 As for safety information about road sections, the  
20 information is on the intranet as I can see on the  
21 screen.

22 CHAIRMAN: When you say "the company", you mean KMB?

23 MR LAU KAI HIM: That's right.

24 MS MAGGIE WONG: Can you tell us when did you start to have  
25 this intranet information about these road sections?

26

1           Since when?

2           MR LAU KAI HIM: The information, when I joined in 2013,  
3           I could already access this information. So all along,  
4           they are on the website, and about two or three years  
5           ago they were still updating and collecting data about  
6           potentially hazardous road sections, and they would  
7           update information on the intranet.

8           MS MAGGIE WONG: You mentioned two or three years ago they  
9           were still updating; what about now?

10          MR LAU KAI HIM: I don't know whether there has been any  
11          update now.

12          MS MAGGIE WONG: May I go to the next topic, on assault of  
13          bus captains.

14                 Your union has made a lot of emphasis on this by  
15          providing us with minutes of meeting, and also in your  
16          submission. If I may take you to your submission only,  
17          that's at page 260-93 in English; Chinese is at  
18          page 260-56.

19                 And it refers to your union:

20                 "...always followed up with incidents where bus  
21          captains were attacked."

22                 And you also stated that your record would not be  
23          complete because only those union members who informed  
24          you would you have support them.

25                 "However, in the past, the Federation has always  
26

1           been communicating with the Police on bus captain  
2           safety."

3           And you produced a Transport Department minutes of  
4           meeting on 30 June 2017 in annexure 15. That's at  
5           page 260-473 in English.

6           Now, is this a recent occurrence about assaults on  
7           bus captains by passengers which led to you having these  
8           meetings with the Transport Department and the police,  
9           and the Department of Justice?

10       MR LAU KAI HIM:   (In English) Correct.

11       MS MAGGIE WONG:   Can I ask about your views on installation  
12           of surveillance cameras? We have heard evidence from  
13           different unions that most of them support the use of  
14           surveillance cameras being installed in the driver's  
15           cockpit in order to protect the bus captain as well as  
16           to record in video form and in audio recording the  
17           incident.

18           Does your union support this, the installation of  
19           surveillance cameras?

20       MR CHUNG CHUNG FAI: We agree to the installation of CCTVs,  
21           not just to protect the bus captains but also the  
22           passengers as well. With CCTV, then the facts can be  
23           known.

24       MR LAU KAI HIM:   I have something to supplement.

25           In our meetings with the police, the police have  
26

1            emphasised the importance of producing evidence. In  
2            assaults on bus captains, evidence is important. If we  
3            have CCTV footage, then we will know how the incident  
4            happened. It can protect bus captains, and passengers  
5            alike. If we have footage serving as evidence of bus  
6            captains being assaulted then that will help in  
7            presenting the case in the court.

8        MS MAGGIE WONG: Yes, thank you.

9            Related to this topic is the installation of  
10           protective --

11        CHAIRMAN: Before you move on -- do any of you gentlemen  
12           have any experience of CCTV being used in this way in  
13           the courts -- taken from a bus showing an assault on  
14           a bus driver?

15        MR CHUNG CHUNG FAI: No.

16        CHAIRMAN: Yes, Mr Hui?

17        MR HUI HOU KIT: Yes, I have a case.

18           But that happened before we had the installation of  
19           the CCTV. At that time there were human witnesses.  
20           I mean, there were people who served as witnesses  
21           telling the court that I was assaulted, I was beaten up,  
22           and there was a fine imposed on the culprit.

23           But then if we had footages, then we don't have to  
24           rely just on the witnesses. Because passengers are  
25           worried, and they sometimes they don't want to be  
26

1 witnesses, so if we have such CCTV then it can help show  
2 that passengers actually beat up the bus captains and  
3 then there is a higher chance of a conviction. And that  
4 will help the bus captains.

5 MR LAU KAI HIM: I would like to supplement.

6 The union has been emphasising to the DoJ and the  
7 police that Hong Kong is a common law jurisdiction and  
8 the burden of proof lies with the prosecution, and if we  
9 have CCTV footages, the prosecution will be more  
10 effective.

11 And we have expressed our worry about bus captains  
12 being assaulted and at the court we must emphasise the  
13 seriousness of such a problem, because it will have an  
14 adverse impact on not just the bus captains, but other  
15 road users and passengers.

16 We don't want to interfere with the ruling of the  
17 court, but we notice that every time the penalty meted  
18 out is not deterrent enough and the message for the  
19 community seems to be that this is a sort of low court  
20 criminal offence, I mean the passengers assaulting the  
21 bus captains. I don't think bus captains should be  
22 assaulted by passengers, and under cap 230A the  
23 passengers should not be assaulting the bus captains.

24 And we haven't seen the DoJ emphasising to the  
25 judiciary the seriousness of the problem and, as  
26

1 a result, people think that this is just something  
2 common place, and how can the law protect the safety of  
3 bus captains, if this is the case?

4 CHAIRMAN: You have made this submission to both the police  
5 and the Department of Justice, have you not?

6 MR LAU KAI HIM: Yes, in the meeting on 30 June 2017, we  
7 reflected our views, and we made two major points.

8 First, in the prosecution process the DoJ must tell  
9 the court the seriousness of the problem of assault on  
10 the bus captains, and the harm it does to this society.  
11 And also because the sentencing is always very light,  
12 and is not deterrent enough. And we have asked the DoJ  
13 that after the prosecution they should also actively  
14 follow up, maybe they should appeal against the  
15 sentencing. So we have mentioned all these.

16 We have been talking to the DoJ, we said that we are  
17 not interfering with the court's ruling, we respect such  
18 a ruling, but we think the rule of law is the foundation  
19 or the cornerstone of Hong Kong success, and this is  
20 something that the DoJ is also proud of.

21 But then what the DoJ does does not really bring out  
22 the seriousness of the problem, so the bus captains are  
23 not adequately protected under the law.

24 If some of the sentencing can be harsher, then it  
25 will be deterrent.  
26

1           We also notice that in dealing with such cases the  
2           police may not know too well about the actual situation,  
3           and in some cases the police will ask the bus captains  
4           to settle the case by conciliation, and we have  
5           emphasised to the police that the power given to us  
6           under cap 203A is very big, but then many frontline  
7           police officers don't know about the content and how  
8           203A operates.

9       MR HUI HOU KIT: At the hospital, my injury was examined,  
10           and the police was not notified yet, but then the  
11           witness has not come forth yet, and the police would  
12           advise me to resort to conciliation. And then, after  
13           I know that there was a witness I said to the police  
14           that I would like to have prosecution.

15           I have served in a trade union for over 10 years,  
16           and I have seen cases of colleagues whereby the police  
17           have advised the bus captains to conciliate, "because  
18           you don't have a witness, and even if there is a  
19           conviction, well, only a fine will be imposed. So why  
20           don't you just resort to conciliation?"

21           We had meeting with the police, and with the DoJ,  
22           and we emphasised that the police's role is to protect  
23           the rights of the underprivileged. The bus captains  
24           have been beaten up, so there is no reason why you  
25           should ask us to resort to conciliation.

1 CHAIRMAN: Mr Hui, when were you attacked? What was the  
2 date?

3 MR HUI HOU KIT: Over 10 years ago. When I was working as  
4 an overnight bus captain.

5 CHAIRMAN: Very well. We have some statistics going back  
6 three years, but -- we have particulars going back three  
7 years, but we don't have anything going back that far.  
8 Yes, Ms Wong.

9 MS MAGGIE WONG: Yes. Mr Chairman, for record purpose, the  
10 minutes of meeting, 30 June 2017 mentioned by Mr Lau and  
11 gentlemen is in TU bundle, at pages 260-474 to 477.

12 CHAIRMAN: Thank you.

13 MS MAGGIE WONG: Related to this topic, gentlemen, is about  
14 the use of protective shield.

15 We have heard one union expressing that there are  
16 problems relating to the use of protective shields. May  
17 I enquire, Mr Kwok, perhaps, in relation to Kowloon  
18 Motor Bus, because I believe that's the step taken by  
19 KMB. Do you have any issues about the use of protective  
20 shield installed near the cockpit, driver's cockpit?

21 MR KWOK WAI KWONG: There is no problem with the  
22 installation of protective shield, but the way it is  
23 installed is undesirable.

24 MS MAGGIE WONG: Can you tell us why?

25 MR KWOK WAI KWONG: Well, the protective shield covers too  
26

1 small an area. And the location is undesirable, and it  
2 blocks the sight line and there is also a sound,  
3 a noise.

4 There is a suggestion, that it should not be half  
5 a panel, but the entire panel. Even if the passengers  
6 want to beat us they can still do so. So it should go  
7 all the way from the bottom to the top.

8 MR LAU KAI HIM: Mr Lam and Mr Chung would like to  
9 supplement.

10 MR LAM KAM PIU: On the bus captains being assaulted, and  
11 the installation of protective devices, we have made  
12 a suggestion to the Transport Department. I went to the  
13 UK myself, and I took some buses in the UK. Well, Hong  
14 Kong bus models are similar to the UK's, but at the  
15 driver's cabin, in the UK buses, well, a full enclosure  
16 is being put in place made of plastic. It is like  
17 a room, so to speak. And the passengers will not be  
18 able to get in touch with the bus captains, whereas the  
19 bus captains would be able to view the roads and the  
20 external situation. I wonder whether this kind of  
21 device is suited to Hong Kong.

22 But we have made the suggestion to the TD for their  
23 consideration.

24 On the KMB's device, it is only a pilot programme,  
25 and there is still room for improvement.

26

1 Well, as users, we can make suggestions on  
2 improvement to the bus company. The engineering staff  
3 of the bus company do not know how it works. Only the  
4 users will know how well it works so we should reflect  
5 our views to the engineering staff of the company. And  
6 improvement or enhancement can then be made.

7 This device can help bus captains, but Citybus and  
8 New World First Bus are against the idea.

9 The management of these two companies said that if  
10 the bus captains do not offend the bus captains then the  
11 passengers won't beat you up.

12 So in other words, we are prepared to be beaten up.

13 So for Citybus, New World First Bus, our colleagues  
14 have seen KMB's device and we have given our feedback to  
15 our company, and they have given us a response.

16 CHAIRMAN: Where were you in the UK when you encountered  
17 this full protective cover? Where were you? Which  
18 place?

19 MR LAM KAM PIU: London. Even Birmingham.

20 CHAIRMAN: Do you know which bus company in London was using  
21 this device?

22 MR LAM KAM PIU: I really don't know which company, but  
23 I saw that a number of bus operators had this system  
24 installed.

25 CHAIRMAN: Thank you.

26

1 MS MAGGIE WONG: Thank you.

2 Your union also expressed concerns about the use of  
3 12.8 metre bus that have rear wheel steering function,  
4 and the Transport Department has replied to your union  
5 that they will review the suitability of each route and  
6 require the bus company to conduct road testing to  
7 ensure safety for driving.

8 And the letter of reply from Transport Department  
9 was dated 11 September 2017.

10 That's TU bundle, page 260-2 to 260-4.

11 Does your union still have concerns about the use of  
12 this particular kind of buses?

13 MR LAM KAM PIU: True. Because for 12.8 buses in light of  
14 the road conditions in Hong Kong, because we have narrow  
15 roads, and heavy pedestrian flow, and there is a hazard  
16 using very long buses.

17 As for 12.8 bus with the rear axle steering  
18 function, when manoeuvring a bend of course it would be  
19 very good for the driver. But for other vehicles they  
20 may not know that the bus comes with this rear wheel  
21 steering function, and the Transport Department would  
22 issue something to let the driver know that it has the  
23 function, but other drivers may not know. So when the  
24 rear axle steers during a bend, when another vehicle  
25 approaches very closely the back of the bus, the wheel  
26

1           would actually go outside its own lane, causing danger  
2           to the vehicle next to it.

3           We may not have the statistics at the moment, but at  
4           certain locations such as bus termini, or different road  
5           sections, we had instances of the rear wheels grazing  
6           vehicles next to it. But, of course, we would be in  
7           a disadvantageous position, because we grazed the other  
8           vehicle, and at the moment, because of the width of the  
9           lanes in Hong Kong, we have a width of 9 feet but for  
10          buses it has a width of 8.5 feet. So the bus itself is  
11          fully occupying the whole width.

12          Imagine if there is another large vehicle making  
13          a turn at the same time, for the 12.8 bus, definitely  
14          the rear would graze the other vehicle, and then once  
15          you turn the vehicle, the tail of the bus would go into  
16          the next lane.

17          KMB used a 12.8 bus for trial, and they set up  
18          cones, to check how the 12.8 bus makes a turn, and in  
19          fact, the tail went 3 feet off its own lane.

20          So we told the Transport Department that when the  
21          12.8 bus is tested, there should be union  
22          representatives attending the test, and, well, traffic  
23          cones should be set up, so that when the bus negotiates  
24          the bend of 90 degrees we could see whether the tail  
25          would touch other vehicles.

1           However, the Transport Department replied by saying  
2           a test had been conducted and union representatives  
3           would not be invited to another test.

4           We requested once again recently, that the union  
5           should be invited to give comments as well, and we  
6           proposed the location, Fleming Road flyover, turning  
7           into Hennessy Road on Hong Kong Island, because at that  
8           road junction vehicles can either turn left or right, so  
9           we can test the 12.8 bus there, because Citybus and New  
10          World First Bus both have 12.8 buses. So if two buses  
11          turn at that junction, definitely there will be an  
12          accident.

13          At the moment other motorists do not understand the  
14          rear axle --

15       CHAIRMAN: Mr Lam, we do have a shortage of time. We have  
16          your point. You still have concerns that these buses  
17          are not safe in Hong Kong. We have that. Thank you.

18       MS MAGGIE WONG: Thank you. If you would not mind, can you  
19          give us the request in writing that you wrote to the  
20          Transport Department requesting for a retest for that  
21          particular section. If you can supply it to the  
22          Committee later.

23          Now --

24       MR LAU KAI HIM: Chairman. I'm sorry to say that the  
25          Federation received a phone call from a top official of  
26

1 Transport Department expressing deep dissatisfaction  
2 that we passed three documents to the Committee which  
3 are minutes of meetings. But we do believe that these  
4 documents would help the work of the Committee.

5 So we are going to provide the minutes of meetings  
6 in the past, but for the August 2017 meetings onwards,  
7 the Transport Department would not provide minutes to  
8 us.

9 CHAIRMAN: Who was it that spoke to you on the telephone  
10 expressing deep dissatisfaction that you had passed  
11 documents to this Committee? Who was it?

12 MR LAM KAM PIU: Well, that day it was I who rang the  
13 Transport Department with a view to asking them to  
14 return documents to us, because we have been asking for  
15 meeting minutes for a long time, and they have been  
16 telling us that other departments have not forwarded  
17 documents to them, et cetera. So I just asked them to  
18 give us as soon as possible.

19 And the other side then told me that, "Well, we  
20 didn't provide document even if the Committee asked us.  
21 That's because we respect the privacy of the union."

22 And then I told -- and then I told them that if the  
23 minutes of the meeting are passed on to others we  
24 definitely would not do that.

25 But if this is for helping the enquiry, we  
26

1 definitely will submit the minutes, and that's our  
2 position. Because the other official is in the  
3 directorate grade, I don't want to disclose his  
4 identity, I don't know whether there would be some  
5 problem. I can just say that he is a directorate grade  
6 officer.

7 MR LAU KAI HIM: We hope --

8 CHAIRMAN: When was this conversation? When?

9 MR LAM KAM PIU: In June, no --

10 CHAIRMAN: Take your time.

11 MR LAM KAM PIU: It was in July, mid July when I asked for  
12 documents, as we knew we were awaiting the Commission's  
13 invitation to attend the hearing.

14 MR LAU KAI HIM: I would like to apologise to you, Chairman,  
15 on behalf of the Federation. We tried to look for  
16 documents, but unfortunately we have not been able to  
17 submit documents to the Committee, and we are sorry, and  
18 we can't think whether there would be further minutes  
19 received by the Federation.

20 CHAIRMAN: Thank you for the documents that you have  
21 supplied us.

22 MS MAGGIE WONG: Thank you.

23 CHAIRMAN: Ms Wong.

24 MS MAGGIE WONG: Thank you, gentlemen. My last topic is  
25 about practice note, a recent practice note issued by  
26

1 the Transport Department.

2 We have recently been informed that the Transport  
3 Department has issued a practice note to franchised bus  
4 operators in respect of the training for bus captains to  
5 align the training arrangements of different operators,  
6 and to lay down a common framework of the training  
7 system for their bus captains. And this is supposed to  
8 be implemented from October 2018.

9 This practice note was issued in the context of  
10 a working group set up as a result of the February 2018  
11 Tai Po accident.

12 This working group comprised five bus operators,  
13 three bus manufacturers, and the Transport Department.  
14 And recently, they have informed us that they have  
15 issued a practice note.

16 So my question is, has your union been supplied with  
17 a copy of the practice note?

18 MR LAM KAM PIU: No.

19 MR LAU KAI HIM: (In English) Excuse me.

20 (Interpreted) We received a reply from the Transport  
21 Department and we read the reply. As to whether the  
22 practice note -- I want to know whether it comes in  
23 the form of a booklet or otherwise? We never received  
24 any booklet. We did receive a letter from the Transport  
25 Department regarding training of bus captains, but not  
26

1 other documents.

2 MS MAGGIE WONG: Thank you, Mr Lau. We have not received it  
3 either.

4 So may I also ask, about this practice note. Have  
5 you ever been consulted about this practice note in  
6 terms of training of bus captains? Has Transport  
7 Department or each of the bus operators consulted your  
8 union about the topic of future training of bus  
9 captains?

10 MR LAU KAI HIM: First of all, we only learned about that  
11 from the Commission, that a working group had been set  
12 up by the Transport Department comprising  
13 representatives from the bus manufacturers and FB  
14 operators.

15 We only learned about this working group through  
16 the Commission, and in May during our meeting with the  
17 Transport Department we requested the Transport  
18 Department to allow a representative of the union to  
19 join the working group because we are related. Of  
20 course, the Transport Department did not agree. And for  
21 the practice note, from its drafting to its issuance, we  
22 had no participation. We only learned from the  
23 Commission that there is this working group. So we have  
24 never been consulted.

25 When we knew about the working group we were  
26

1           concerned. We said that we should be consulted, but we  
2           were never consulted.

3       CHAIRMAN: When you made this request of the Transport  
4           Department, did you do so in writing?

5       MR LAU KAI HIM: In May, we had an inter-departmental  
6           meeting together with the Transport Department. That  
7           was on the next day after the TD came to the hearing  
8           here. And we had a meeting, and we asked to be included  
9           in the working group.

10           The Administration's response is that, well, we have  
11           certain members already, and they have not responded  
12           directly as to whether we would be included. And they  
13           have not mentioned anything about the practice note and  
14           they have not consulted us.

15           And as to the minutes of that meeting, we don't have  
16           the minutes, as I said.

17       CHAIRMAN: So the request was not made in writing, it was  
18           made at a meeting and was made orally; is that the  
19           position?

20       MR LAU KAI HIM: Yes. Correct.

21       CHAIRMAN: Do you not have your own minutes of the meeting?

22       MR LAU KAI HIM: Our colleagues had recorded the discussion,  
23           but every time it is usually the Transport Department  
24           who drafted the minutes. We have jotted down some notes  
25           ourselves, but these are not formal meeting minutes.

26

1 But we have jotted down the salient points, and every  
2 time the TD has special staff who worked on the minutes,  
3 which would then be distributed to us.

4 CHAIRMAN: Perhaps you could provide us with what notes you  
5 have got of the meeting.

6 MR LAU KAI HIM: Mr Chairman, I have to talk to the  
7 colleagues and try to compile something, and then supply  
8 it to the Chairman afterwards. Can that be done?

9 CHAIRMAN: If you would, that would help us. Thank you.

10 MR LAU KAI HIM: (In English) Thank you very much. Thank  
11 you very much.

12 MS MAGGIE WONG: Mr Chairman, that will be all my  
13 questioning.

14 CHAIRMAN: Well, gentlemen, that concludes the questions  
15 that have been asked. Are there any concluding remarks  
16 that you wish to make -- short remarks? You don't have  
17 to, but if you wish to we will listen to them.

18 MR CHUNG CHUNG FAI: Chairman, the union would like to  
19 emphasise this position. On the TD's guidelines on bus  
20 captain working hours, the guidelines are not law, but  
21 then they do sort of regulate or govern the bus  
22 companies' operations. And they will also directly  
23 affect our colleagues, because the stakeholders, our  
24 colleagues are affected.

25 Now, on this special shift, so this special shift is  
26

1 still at 14 hours and driver fatigue is created. And  
2 not only that, on the three consecutive hours of rest,  
3 there is still no further guideline. I think we should  
4 get paid for that as well. And the Transport Department  
5 is being irresponsible by not specifying that. We spend  
6 14 hours in our shift, but we don't get paid for  
7 14 hours.

8 It says that a rest break of not less than three  
9 consecutive hours. That means it can be more than three  
10 hours, according to the guidelines.

11 Well, in accordance with the guidelines they can  
12 give six consecutive hours of rest. So that means we  
13 get paid only for eight hours.

14 Now, as we said, we get \$21.90 per hour. I think  
15 the TD, Transport Department is very irresponsible.

16 (Chinese spoken) --

17 CHAIRMAN: Just a moment, Mr Chung.

18 Ms Wong, have we not been told by Citybus that they  
19 propose paying, when they introduce the special shift,  
20 they propose paying not this allowance rate, but the  
21 normal rate for working hours?

22 MS MAGGIE WONG: Yes, they do, in their submission.

23 CHAIRMAN: It is Kowloon Motor Bus that apparently are  
24 paying a different rate.

25 MR CHUNG CHUNG FAI: I would like to supplement. I am  
26

1 talking about the guidelines of the Transport  
2 Department, and not on individual bus companies' way of  
3 calculating the pay. According to the guidelines, the  
4 bus companies can choose not to pay the bus captain  
5 during the rest breaks.

6 CHAIRMAN: Mr Chung, the Transport Department's approach and  
7 the guidelines don't address the issue of pay at all, do  
8 they? Is that your complaint, that they should address  
9 the issue of pay?

10 MR CHUNG CHUNG FAI: Yes, correct.

11 CHAIRMAN: So the Transport Department say, "Pay is a matter  
12 between the bus companies and the bus drivers, not us."  
13 That's their approach as we understand it.

14 MR CHUNG CHUNG FAI: Yes, correct. The guidelines are  
15 compiled by the Transport Department. They should have  
16 the responsibility. And also franchised bus services  
17 are public services, and public interest is at stake.  
18 If you don't handle the issues properly, all people of  
19 Hong Kong would be affected.

20 Let me cite an example.

21 Back then, the government was launching  
22 anti-corruption measures, so that public interest would  
23 not be undermined. But then TD is being irresponsible,  
24 it is trying to meet with the demands of the bus  
25 companies, and it is disregarding our livelihood. And  
26

1 14 hours, well, we don't have enough rest breaks for  
2 a 14-hour shift.

3 CHAIRMAN: We have your point now.

4 Mr Lau, was there something you wished to say on  
5 that point?

6 MR LAU KAI HIM: Thank you, Chairman.

7 CHAIRMAN: A concluding remark.

8 MR LAU KAI HIM: (In English) Two minutes. Two minutes,  
9 okay?

10 (Interpreted) Well, electricity, water supply, bus  
11 services are all public services and public interest is  
12 involved, I understand the Chief Executive appointed the  
13 three gentlemen to serve in this Committee because  
14 public interest is at stake, but then the TD is not  
15 bearing public interest in mind. It is condoning  
16 fatigued driving, it is allowing excessively low pay.

17 The Transport and Housing Bureau know about the  
18 accounts of the bus companies, and they are actively  
19 involved in the income and laws of the bus companies,  
20 and if they want to have a fair hike the CE in Council's  
21 approval has to be obtained.

22 And the TD is coming up with guidelines only on the  
23 working hours and they are not, they are disregarding  
24 the pay, and we work long hours with low pay, and we  
25 have made suggestions to the TD on pay rise based on  
26

1 very good grounds, and we can only provide good service  
2 if we have enough manpower, so everything is related.

3 If you just focus on working hours and you don't say  
4 anything about pay, low pay, then that's no good.  
5 Because it is all related to safety.

6 We can only provide good service if we have enough  
7 bus captains, and if we get paid reasonably, then we  
8 would not have driver fatigue and we can drive safely.

9 We regard it as a responsibility. This is not  
10 a job, so to speak. But the bus companies regard it as  
11 a kind of job, and don't see it as a trade coming with  
12 great responsibility.

13 That's all I want to say. Thank you, Chairman.

14 CHAIRMAN: Thank you for your closing remarks, and thank you  
15 for abiding by your promise that it would take two  
16 minutes.

17 These proceedings are now adjourned, and we will  
18 resume again -- I think it is on Tuesday, when we have  
19 other evidence to receive.

20 Thank you, gentlemen, for attending, and we  
21 apologise for the inconvenience and having to ask you to  
22 come back. Thank you for being patient and waiting  
23 until we could reach you. But we are now adjourned.

24 (5.40 pm)

25 (The hearing adjourned to Tuesday, 7 August 2018)

28 主席：（經傳譯員）黃大律師，早晨。

29 黃女士：（經傳譯員）早晨。

30 主席：（經傳譯員）黃小姐，係，早晨。感謝你今日就係接納我哋嘅邀請上嚟作證，  
31 你而家現時係九巴嘅現有職員，係嘛？

32 黃綺玲女士：（經傳譯員）係。

1 主席：（經傳譯員）我哋就會請黃大律師，佢就係協助我哋獨立檢討委員會嘅大律  
2 師，佢會問問題。咁就係向你提問，就用咁嘅方式向你取證，咁你可以作補  
3 充，你亦都可以就係睇番我哋嗰個投影器上面打出嚟嘅文件，又或者如果想嘅  
4 話亦都可以擺番嗰個印冊本，明白嘛？

5 黃綺玲女士： Yes.

6 主席：（經傳譯員）好，唔該，黃律師。

7 黃女士：（經傳譯員）黃小姐，感謝你今日出席，我今日就想係先睇係嗰個休息嘅設  
8 施。咁你曾經係回應咗我哋獨立檢討委員會嘅函件，咁嗰個日期就 2018 年 6 月  
9 28 號嘅信，咁至於話你嗰個回應就係 2018 年 7 月 4 號就係畀我哋，大家可以  
10 睇番呢個 FE 嗰個文件夾，199 頁。

11 黃小姐，我未向你問問題之前--未就呢個題目係問問題之前，先問下係你  
12 喺九巴度係工作咗幾耐呢？

13 黃綺玲女士：可以，我有廿一年喺九巴工作，亦都係喺車務嗰方面嘅 operations  
14 嗰方面，亦都係喺兩間唔同嘅車廠工作過，一間係荔枝角廠，另一間係屯門  
15 廠。

16 黃女士：（經傳譯員）你係幾時係開始係擔任現時嘅職位呢？就話係九巴屯門車廠嘅  
17 車務主管，係幾時開始呀？

18 黃綺玲女士：（經傳譯員）你問題係幾時呀？係幾時？自從 97 年我就喺屯門車廠嗰  
19 度做，咁然後就轉咗去荔枝角廠，咁就係喺 2016 年嘅事，然後我又返番去屯門  
20 車廠，2018 年嘅事。

21 黃女士：（經傳譯員）你喺你個回覆嗰度就講及就係有三十個車站，呢個就屯門嘅車  
22 廠底下，有三十個係總站。我留意到就係喺楊晉瑋先生嘅陳述書嗰度，佢就提  
23 及有三十一個總站，想問下邊個先啱呢？係三十定三十一呢？

24 黃綺玲女士：總站我哋未必係有站長，即係有人 station 嘅，咁可能喺嗰個  
25 counting 方面，可能 Kelvin Yeung 同我可能有少少出入，應該係都  
26 between 30、31。

27 黃女士：（經傳譯員）好，唔該。我想問下，你係負責打理幾多個車站？

28 黃綺玲女士：有十個如果 under，因為我係負責天水圍區，咁差唔多有--我要數下  
29 先。

30 主席：（經傳譯員）係，慢慢。

31 黃綺玲女士：如果而家 under 我屯門廠，而家喺呢個 as on assistant  
32 manager，我係有四個總站係 under 天水圍區。

- 1 黃女士：（經傳譯員）係。我明白喺屯門車廠嚟講呢，佢就負責三個區嘅車，屯門、  
2 元朗同埋天水圍，你就係負責天水圍？
- 3 黃綺玲女士：（經傳譯員）係。
- 4 黃女士：（經傳譯員）係咪天水圍所有嘅總站？
- 5 黃綺玲女士：（經傳譯員）係。
- 6 黃女士：（經傳譯員）總共有四個總站，係咪呀？
- 7 黃綺玲女士：（經傳譯員）係。
- 8 黃女士：（經傳譯員）咁其他呢？係咪都係由楊生負責？
- 9 黃綺玲女士：（經傳譯員）楊生就只係負責屯門區，元朗就係喺另一位係助理經理管  
10 理嘅。
- 11 黃女士：（經傳譯員）係，助理經理邊位？
- 12 黃綺玲女士：（經傳譯員）佢係 Amanda Hung。
- 13 黃女士：（經傳譯員）黃小姐，喺你嘅陳述書嗰度，你講過你係有兩種嘅休息室，首  
14 先第一種叫做係 A 類，第二種就叫 B 類或者 B 型。B 型我知道個大細嚟講就大  
15 嘅，你可唔可以講出就除咗嗰個大細之外，兩者仲有咩嘢分別呀？
- 16 黃綺玲女士：除咗個 size 之外，其實裏面嘅間隔都有少少唔同，如果係大啲 size  
17 嘅 kiosk，我哋係可以放多啲 electrical，譬如微波爐、雪櫃、飲水機都可  
18 以放埋喺個房裏面，如果係細啲嘅主要就係 for 我哋站長，佢哋 working  
19 station 嚟嘅，咁另外一啲嘅 kiosk 就係 for 頭先所講嘅微波爐、雪櫃，淨  
20 係 for 啲死物。
- 21 黃女士：（經傳譯員）會唔會係有個地方佢哋可以係瞓喺度呢？即係兩者...
- 22 黃綺玲女士：呢啲係工作地方，另外仲有啲--如果有啲地方個總站 bus station  
23 比較大，我哋可以提供一個我哋叫 rest room，就 for 車長一啲嘅休息，咁佢  
24 個 size 等於我哋講嘅另外一個大啲 kiosks，其實嗰隻大啲嘅 kiosks 有 for  
25 站長，或者係 for 車長休息，咁個 size 係一樣，但係裏面嘅設計係會有啲  
26 枱，有啲凳嘅設備。咁另外我哋仲有一啲 concrete 嘅 office，可能係個  
27 PTI 本身係 provide 嘅 concrete 嘅 office，咁就會嗰啲地方會大啲。正如  
28 我 mention 過，亦都有啲地方點解係可以有多啲空間，或者可以多啲凳，嗰啲  
29 就係 concrete 嘅 office。
- 30 主席：（經傳譯員）你話 PTI 係咩嘢意思呢？
- 31 黃綺玲女士：（經傳譯員）公共運輸設備。

1 主席：（經傳譯員）你所打理嘅，有冇呢啲咁樣嘅地方就可以休息嘅設施呢？

2 黃綺玲女士：（經傳譯員）好似係天水圍市中心就有一個呢係石屎嘅地方，咁我哋就  
3 可以提供到係車長休息嘅地方，咁另外一個房呢就係畀個係站長。

4 主席：（經傳譯員）唔該。

5 黃綺玲女士：（經傳譯員）對唔住，請你講。喺天恩、天富同埋天慈，佢哋都有兩個  
6 大啲嘅房，一個就係畀站長，一個就係畀車長，同埋我所管理嘅嗰四個站，都  
7 已經係有嗰個嘅休息。

8 黃女士：（經傳譯員）你所管理嘅四個站，我想問下呢四個站係咪有一個係安排，就  
9 係車長係要係分開嗰更嚟到做？

10 黃綺玲女士：Yes.

11 黃女士：（經傳譯員）有幾多個係咁㗎？

12 黃綺玲女士：（經傳譯員）我有嗰個數字，但每一個站頭我哋都有唔同嘅路線，有啲  
13 係長程車，有啲係短程。咁我哋即係會混合，咁我哋就會即係混合，咁有一啲  
14 更就係混合更，有啲就係一氣呵成，即係話只係早更或者係夜更。

15 黃女士：（經傳譯員）好嘞，咁若果喺對方，就係車長要分開兩次嚟到做嘅話呢，但  
16 哋係咪都係有休息嘅設施？

17 主席：（經傳譯員）你係咪就係講嗰四個呀？

18 黃女士：（經傳譯員）係。

19 主席：Thank you.

20 黃綺玲女士：（經傳譯員）係，我哋有提供，我哋有提供啲設施，喺我管理嘅車站  
21 嗰度係有㗎。咁同埋喺天水圍嘅車廠，車長呢都可以喺休息嘅時間，就係喺天  
22 水圍車廠裏面休息。如果佢哋住得近自己屋企嘅話呢，亦都可以返屋企休息，  
23 然後呢係再返嚟做嘢。因為我哋係畀兩、三個鐘頭畀佢係中間休息。

24 主席：（經傳譯員）想問下天水圍市中心係一個車廠定抑或係車站呢？

25 黃綺玲女士：（經傳譯員）我哋另外有一個車廠叫天水圍車廠，都係喺天水圍嗰個  
26 區。

27 主席：（經傳譯員）你睇番呢個螢光幕，嗰度有好多站，咁邊個喺天水圍？

28 黃綺玲女士：（經傳譯員）天水圍市中心就係一個係站，咁另外我哋應該仲有一個叫  
29 天水圍車廠，咁嗰個只係畀巴士停泊。

30 主席：（經傳譯員）即係話呢度冇列出天水圍車廠。

- 1 黃綺玲女士：（經傳譯員）咁，你講得啱。
- 2 黃女士：（經傳譯員）207 個度，你就係講到一個天水圍市中心，一個係天水圍鐵路  
3 站。呢啲都唔係你所講嘅休息設施？
- 4 黃綺玲女士：（經傳譯員）對唔住，我漏咗，係呀，天水圍鐵路站都係。
- 5 黃女士：（經傳譯員）兩者都係？
- 6 黃綺玲女士：（經傳譯員）呢個係另一個站，天水圍鐵路站，另一個呢都係屬於我管  
7 嘅係總站㗎。
- 8 主席：（經傳譯員）你較早時候講過，天水圍市中心個站都有休息嘅設施？
- 9 黃綺玲女士：（經傳譯員）係呀，個度呢係提供個休息設施。
- 10 黃女士：（經傳譯員）呢啲休息嘅地方，係屬於 A 類，定係 B 類，係咪個啲大啲嘅  
11 呢？
- 12 黃綺玲女士：（經傳譯員）係 B，B 型，大啲個。
- 13 黃女士：（經傳譯員）咁喺個四個車站嚟講，係咪都係 B 型呢？
- 14 黃綺玲女士：（經傳譯員）除咗天水圍係市中個個呢係石屎做，咁所以有一個係石屎  
15 嘅地方。咁就係畀個啲車長休息。另一個就係天富，天水圍鐵路站，佢哋都係 B  
16 型嘅。
- 17 黃女士：（經傳譯員）咁即係話亦都會有啲長凳畀佢哋，係咪呀？係畀車長？
- 18 黃綺玲女士：（經傳譯員）係呀。唔係真係長凳，係椅同埋檯，讓佢哋食飯同埋休  
19 息。
- 20 黃女士：（經傳譯員）咁喺你嘅陳述度，你就提到即係如果要安裝一啲即係用化學劑  
21 嘅廁所呢，即係個需時係比較長嘅，即係當時你係管理緊荔枝角嘅巴士車廠，  
22 咁呢個就係喺第 198 頁所講嘅，喺你嘅陳述，咁你就提到荃威花園。我想你睇  
23 番呢一個會議紀錄，因為工會亦都係有向運輸署反映呢一點，咁我就係想確認  
24 你係咪知道，咁呢個就係喺 TU 嘅文件夾，或者係 192 段，咁呢一個就係張國柱  
25 當時立法會議員，同埋呢一個巴士業職工會聯盟，同埋其他工會發出嘅。
- 26 主席： And the date?
- 27 黃女士：（經傳譯員）日期係 2015 年 3 月 4 號。呢個就係第 260 頁，192 嘅編  
28 號，咁呢就係喺上面呢一個部分，咁呢個即係講緊巴士站嘅設施。咁而上面就  
29 話，工會係不滿，因為大部分嘅巴士總站都係有一啲固定洗手間去畀員工去  
30 用，同埋佢哋係要求運輸署係去檢討巴士總站嘅安排。
- 31 咁而現有嘅程序係非常之複雜，即係如果巴士公司係想安裝呢啲員工嘅廁

1 所，同埋其他嘅巴士站設施，咁諮詢過程呢亦都係非常之費時，咁而建議就係  
2 申請同埋諮詢嘅過程呢，係應該簡化同埋加快，而工會亦都係要求以下嘅巴士  
3 總站係應該加快去安裝設施，咁呢就係呢度提呢一個荃威花園嘅巴士總站，呢  
4 個就係你喺 198 頁提到嘅荃威花園站，係咪呀？

5 黃綺玲女士：（經傳譯員）係。

6 黃女士：（經傳譯員）咁而家個情況係點呢？荃威花園嘅巴士站係咪有廁所呢？

7 黃綺玲女士：（經傳譯員）係。

8 黃女士：我用番中文，Allway Garden 嗰度其實係一個露天總站喇，咁嗰度其實個  
9 廁所呢係要行得好遠先至有一個政府嘅公廁，咁另外喺呢個總站嘅對面呢有個  
10 商場，係個商場有個廁所，但係鎖住嘅，咁所以長期我哋係要向嗰個管理處呢  
11 係借鎖匙先可以去到嚟我哋嘅員工。咁嗰個管理處呢亦都曾經講過，因為我哋  
12 唔係租客，所以就唔想借畀我哋，所以基於呢個原因，以我所知，荔廠喺舊年  
13 亦都知道--我哋曾經申請過好幾次，已經都 submission 過畀 Transport  
14 Department 去申請啲 chemical toilet，咁亦都喺舊年，我係喺--等我睇  
15 下，2017 年 1 月嘅時候，我亦都係入過一個 application，等我睇番先。

16 係 2016 年 1 月嘅時候呢，我哋亦都再次向 TD submit 嗰個 chemical  
17 toilet，咁亦都喺中間嘅過程呢，TD 亦都係 reject 咗我哋嘅  
18 application，基於話 public 嘅 consultation 嘅 rejection，咁跟住我  
19 哋亦都再探討個位置，因為其實一個露天嘅總站，其實附近一定會有少少係影  
20 響居民，但係我哋都以一個角度，係員工都需要洗手間嘅角度去同運輸署，甚  
21 至係當區嘅議員再去申請一啲比較可以接受嘅位置，咁喺再中間嘅過程再探  
22 討，咁亦都終於喺舊年嘅 7 月我哋再次 revised 我哋嘅圖再去 submit，亦都  
23 最後運輸署係喺 10 月嘅時候批，係基於因為我哋嘅員工真係冇得用，同埋中間  
24 有個過程我哋係亦都係同嗰啲當區嘅議員，都係再同佢好多次嘅溝通，令到佢  
25 理解我哋呢個員工嘅生理需要，係要擺一個 chemical toilet，所以終--終  
26 於喺舊年嘅 10 月有一個 approval letter 返咗。

27 黃女士：（經傳譯員）呢個只係其中一個例子，咁根據會議紀錄，你畀嘅例子只係  
28 15 年 3 月。咁你係等到去年嘅 10 月先至收到呢一個申請嘅批准，咁即係話係  
29 用咗起碼兩年先可以成功申請到安裝呢個廁所，係咪呀？

30 黃綺玲女士：（經傳譯員）其實係超過兩年，咁因為再之前呢我係同其他嘅同事有其  
31 他嘅電郵來往，咁但係喺我負責嘅期間，都係整整係用咗兩年。

32 主席：（經傳譯員）荃威花園嘅巴士站係有幾耐歷史？

33 黃綺玲女士：（經傳譯員）超過二十年，我唔係好記得嗰個歷史係點。

34 主席：（經傳譯員）咁即係一有呢個總站都係已經開始有巴士路線係行駛㗎喇？咁點  
35 解係係即係當時係有呢個總站而係冇廁所呢？

1 黃綺玲女士： So --

2 主席： How does that happen?

3 黃綺玲女士：（經傳譯員）我哋嘅車長呢係需要係從商場嘅管理處借廁所鎖匙。因為  
4 佢知道我哋會借呢啲鎖匙，所以佢哋就換咗啲鎖。

5 主席：（經傳譯員）咁如果係冇安裝廁所呢，點解當年係可以興建呢一個總站嘅呢？  
6 點解會咁樣做嘅呢？

7 黃綺玲女士：（經傳譯員）即係喺我負責嘅期間，我就見到呢個問題，所以我就嘗試  
8 同運輸署同埋區議會去傾嘅，咁區議員呢據我所知，佢哋係唔想喺呢一個公共  
9 交通交匯處係安裝一啲用化劑嘅廁所。

10 主席：（經傳譯員）咁佢哋有得揀嘅，即係究竟如果有一個廁所，點解釋會決定去興  
11 建呢個巴士站呢？

12 黃綺玲女士：（經傳譯員）佢哋就即係要求我哋係去借用商場廁所，呢個就係個解決  
13 嘅方法。

14 主席：（經傳譯員）呢個就唔算係一個方法㗎㗎，係咪？

15 黃綺玲女士： Yeah, it is true.

16 黃女士：（經傳譯員）你畀嘅第二個例子，就係樂華，咁就係 17 年 8 月就喺 198  
17 頁，咁喺你嘅陳述度呢，你講到呢一個樂華嘅問題，係到咗 17 年 8 月先至係解  
18 決嘅，即係你經過同區議會周旋之後。你喺樂華邨嗰度幾時已經係申請去興建  
19 一個休息室呢？

20 黃綺玲女士：（經傳譯員）咁我睇番報導呢，係超過五年，咁但係呢個就唔係我負責  
21 嘅範圍，咁但係我根據新聞報導，就係超過五年前呢九巴已經係作出申請。

22 主席：（經傳譯員）樂華邨係咪喺觀塘？

23 黃綺玲女士：（經傳譯員）係。

24 主席：（經傳譯員）係咪一個巴士站㗎？

25 黃綺玲女士：（經傳譯員）係。

26 黃女士：（經傳譯員）咁你畀嘅第三個例子呢，都係喺屯門嘅車廠，就係元朗公園。  
27 咁你就指出你係 14 年係申請引入呢個休息設施，但係 16 年先去批准，咁點解  
28 要足足兩年先可以引入呢個休息嘅設施呢？

29 黃綺玲女士：（經傳譯員）其實我哋唔知道係咩嘢原因，咁但係個程序呢就係我哋向  
30 運輸署申處，然後佢哋就會向公眾呢係去分享一啲--同埋佢會同相關嘅人士，  
31 包括係警方，區議員，元朗公園附近嘅居民等等，佢哋全部都有諮詢。我記得

1 佢哋答覆入面講，就係警方係否決呢個申請，咁但係我就覺得好奇怪，因為唔  
2 係居反對，而係警方，咁我哋係要求警方--即係我哋希望呢同警方去傾下點樣  
3 可以解決呢個問題。因為休息室唔單止係畀呢啲站長用嘅，亦都係可以畀我哋  
4 嘅車長用，即係如果要喺元朗公園提供服務呢，我哋係要有間休息室嘅，所以  
5 我哋係要求警方去解決呢個問題，同埋希望各方都係滿意。

6 黃女士：（經傳譯員）你同警方有冇書信來往呢，就住呢個問題？

7 黃綺玲女士：（經傳譯員）有。我哋係呈交咗資料畀運輸署，要求佢哋進行另一輪諮  
8 詢，就係喺 2015 年。

9 黃女士：（經傳譯員）你可唔可以即係向我哋分享呢個事件嘅相關嘅書信來往呢，即  
10 係喺元朗公園。

11 黃綺玲女士：（經傳譯員）係。

12 黃女士：（經傳譯員）就係你哋同運輸署同警方之間嘅書信？

13 黃綺玲女士：（經傳譯員）可以，可以提供。

14 黃女士：（經傳譯員）咁我就想你睇番 TU 文件冊，咁呢一份就係一份報告，就係巴  
15 職聯呈交嘅，就係 17 年 7 月 16 號。

16 主席： Page?

17 黃女士：（經傳譯員）就係第 260 頁橫格 346-2。

18 主席： Thank you.

19 黃女士：（經傳譯員）呢個表呢就列出咗巴總站嘅位置，同埋申請嘅進度，咁我就想  
20 同你講講幾個例子，同埋我想知道呢個佢哋相關嘅進度係點嘅。咁喺呢一頁呢  
21 就係巴士公司係九巴，總站嘅位置呢就係屯門寶田邨。咁呢就話已經係諮詢咗  
22 呢條邨兩年，但係就有收到回應。

23 黃綺玲女士：（經傳譯員）呢個應該係楊晉瑋先生呈交嘅資料嚟嘅。

24 黃女士：（經傳譯員）我相信唔係咁樣嘅，因為呢個係巴職聯向我哋呈交嘅文件嚟  
25 嘅，喺附錄七，就並唔係楊晉瑋先生呈交嘅文件嚟。

26 黃綺玲女士： Okay.

27 黃女士：（經傳譯員）咁無論如何呢，我就想同你確認一下情況係咪咁樣，咁喺右面  
28 嗰一欄，就話相關嘅申請呢係必須要得到房屋署嘅批准，運輸署呢係已經去信  
29 畀房屋署係要求呢儘快處理九巴嘅申請。佢呢亦都係即係有打電話畀房屋署去  
30 跟進，而房屋署呢就回應表示呢佢哋仍然係處理緊相關嘅事項嘅。咁呢個就係  
31 即係關於屯門嘅寶田邨，首先呢個屋邨嘅範圍係咪你管轄㗎？

- 1 黃綺玲女士：（經傳譯員）唔係。
- 2 黃女士：（經傳譯員）即係嗰度嘅巴士站係咪你管轄㗎？
- 3 黃綺玲女士：（經傳譯員）係楊晉瑋先生負責。
- 4 黃女士：（經傳譯員）咁你係咪唔知道呢項申請嘅進度呀？
- 5 黃綺玲女士：（經傳譯員）係，我唔知道。
- 6 黃女士：（經傳譯員）咁其餘嘅設施呢？即係 260-346-2，咁如果你去番 260-  
7 346-6 呢，你可唔可以睇一睇究竟邊一個項目係同你有關呀？或者係即係嗰度  
8 嘅屋邨嘅巴士站係由你管理？
- 9 黃綺玲女士：（經傳譯員）冇，全部都唔係我管理嘅。
- 10 黃女士：（經傳譯員）黃小姐，我就想問你另一個課題，你提過呢就話你係為九巴工  
11 作咗超過二十年嘅。
- 12 黃綺玲女士：（經傳譯員）係。
- 13 黃女士：（經傳譯員）我想問嘞，你認唔認識一位人士叫做 Raymond Cheng？
- 14 黃綺玲女士：（經傳譯員）係，我識。
- 15 黃女士：（經傳譯員）佢呢就係以前都係九巴嘅工。2010 至 2014 年期間呢就係九  
16 巴度工作，就係呢一個安全及服務質量部，你知唔知呀？
- 17 黃綺玲女士：Yes.
- 18 黃女士：（經傳譯員）喺佢鄭桂興先生嗰個陳述書嗰度呢，佢就提過呢就係曾經呢研  
19 究過，即係喺佢就職期間，就係喺將軍澳係巴士意外 09 年出咗意外之後，佢哋  
20 進行過一個研究，咁呢就係研究過二十九個係香港嘅一啲急彎，咁呢亦都係係  
21 有討論過，究竟應該呢個係時速限制應該係定係邊一度。
- 22 主席：（經傳譯員）或者我哋係畀證人睇一睇相關嘅陳述書。
- 23 黃女士：（經傳譯員）係，相關嘅陳述書係 96 頁。
- 24 主席：（經傳譯員）喺邊一個文件夾呀？
- 25 黃女士：（經傳譯員）係 FE 嗰個文件夾嘅 96-4。如果你睇番嗰段就係嗰個標題就  
26 話巴士容易係翻側。
- 27 主席：（經傳譯員）或者係畀少少時間佢睇睇。
- 28 黃女士：（經傳譯員）係，你介唔介意而家呢先係睇一睇呀？即係 96-4 嗰一頁嘅文  
29 字。或者係請你一路睇到去 96-6，即係總共 3 版。

1 主席：（經傳譯員）你慢慢，唔需要急。

2 黃女士：（經傳譯員）係，黃女士，喺呢份陳述書嗰度呢，可以見到就係鄭桂興先生  
3 呢佢呢就係話佢喺 2013 年嘅時候呢，就開始研究呢一啲係彎位嘅，咁佢就係搵  
4 咗係四個車廠經理，同埋係車長、訓練學校，同埋係維修部門嘅代表呢就成立  
5 一個研究小組，係深入咁去睇下佢哋巴士網絡嗰度所有嘅急彎，咁就有收集咗  
6 係數以千計嘅係轉彎嘅數據，咁同埋呢就係睇番係數以百計嘅可能有危險風險  
7 嘅係呢一個彎位，然後將佢係最後就係收集到頭嘅二十九個，咁就容易產生嚴  
8 重因為係翻側車輛嘅意外，咁呢有一啲中文嘅例子喺度，咁你知唔知呢？

9 黃綺玲女士：Sharp bend，但係我唔係一個喺個 group 裏面嘅 for make 呢樣嘢  
10 囉。

11 主席：（經傳譯員）你知唔知邊個係嗰個成員呀？

12 黃綺玲女士：（經傳譯員）正如鄭先生所講，係呢個車廠嘅經理可能，咁同埋呢就係  
13 訓練學校嘅導師。

14 主席：（經傳譯員）好，唔該。

15 黃女士：（經傳譯員）呢一個研究小組，呢度提過嘅研究小組，或者你搵去跟住嗰  
16 版，或者跟住嘅第 3 版，即係 96-6 嗰度，嗰個呢就提及呢就係一個係研究小  
17 組，就進行咗測試，測試晒所有二十九個係彎位，喺不同嘅道路情況，係不同  
18 嘅車速，不同嘅係載客量嘅情況底下嘅情況，亦都將佢哋拍攝咗錄影帶嚟到作  
19 日後參考，你知唔知道係有咁樣樣係要拍咗錄影帶去研究呢？

20 黃綺玲女士：No.

21 黃女士：（經傳譯員）或者繼續就睇落去，去到下面嗰度，呢度提及呢就係話有一份  
22 呢係安全小冊子，我諗後嚟呢就係澄清咗，就唔係小冊子，咁係鄭桂興先生就  
23 講咗，就話係一啲細細張嘅卡仔，咁就詳細咁話咗每一個係危險彎位嘅正確嘅  
24 位置、方向、道路嘅情況、道路性質、過往嘅紀錄，以及係運輸署嘅文件或者  
25 係乘客投訴所得嘅最新嘅相片或者係圖，咁呢就總共有三十一個就係安全駕  
26 駛嘅貼士，咁就總共做咗一千五百個研究，你知唔知㗎？

27 黃綺玲女士：（經傳譯員）我知道有一個安全小冊子，咁但係對於嗰個研究我就唔係  
28 太肯定。

29 黃女士：（經傳譯員）換句話講，就係就呢二十九個彎位，就有一本安全小冊子，係  
30 咪呀？

31 黃綺玲女士：（經傳譯員）係，大體上係咁，咁就促請司機或者係車長係要小心。

32 黃女士：（經傳譯員）關於呢個研究結果，你知唔知悉呀？

33 黃綺玲女士：（經傳譯員）唔太肯定。

1 主席：（經傳譯員）你知唔知就即係將佢集中起嚟，咁同埋呢就係印發咗畀啲車長  
2 呀？

3 黃綺玲女士：（經傳譯員）係呀，呢啲安全小冊子呢係會畀啲車長，我哋亦都係簡  
4 單咁樣畀咗啲指示佢哋。

5 黃女士：（經傳譯員）關乎一個安全小冊子係畀車司，咁你知唔知裏面係有冇講及呢  
6 二十九個急彎呢？

7 黃綺玲女士：（經傳譯員）對唔住，我有冇睇過嗰個手冊嘅細節，咁所以對於呢個課  
8 題，我唔係太清楚。

9 黃女士：（經傳譯員）你喺九巴嘅時候，我想任何時候有冇同係管方呢就係討論過要  
10 進行一項研究，又或者呢係收集車長嘅意見，就睇下佢哋對於呢一啲係香港係  
11 危險嘅道路情況嘅睇法呀？

12 黃綺玲女士：（經傳譯員）我記得我當時就唔係嗰個助理經理，我當時就負責車務，  
13 咁我都有提供係話邊一啲地方可能係有潛在嘅危險，即係講到嗰啲係急彎，喺  
14 當時嚟講，我哋提供咗一啲地點，咁呢就係畀安全及服務質素部門，讓佢哋就  
15 係進一步跟進。

16 主席：（經傳譯員）係嗰個安全及服務呀，係唔係？

17 黃綺玲女士：（經傳譯員）係。

18 黃女士：（經傳譯員）係邊段時間呀？

19 黃綺玲女士：（經傳譯員）係鄭先生嘅時間，係 2010 至到 2014 年。

20 黃女士：（經傳譯員）咁 2014 年之後又點呀？

21 黃綺玲女士： After --

22 黃女士：（經傳譯員）14 年之後又點呢？你有冇繼續呢就係提供呢一方面嘅資料？

23 黃綺玲女士：（經傳譯員）係，繼續。

24 黃女士：（經傳譯員）可唔可以畀番一啲文件我哋呢？你話你呢就係提供咗一啲地點  
25 嘅，即係你係顧慮嘅地點，就話有啲地方呢可能嗰個路面情況就係有潛在嘅風  
26 險嘅。

27 黃綺玲女士：（經傳譯員）我未必須呢係有白紙黑字寫低咗，咁但係呢我記得就係將  
28 軍澳意外發生之後呢，咁呢係有一個焦點小組嚟到係研究呢一個課題。

29 主席：（經傳譯員）有冇係開會嘅時候係做咗呢個會議紀錄或者其他嘅文件？

30 黃綺玲女士：（經傳譯員）我唔太肯定有冇咁嘅文件。

- 1 黃女士：（經傳譯員）你講嘅一個係焦點小組，係咪同嗰個係研究小組唔同㗎？
- 2 黃綺玲女士：（經傳譯員）類似，類似一個小組嚟到去睇下嗰啲急彎嘅地點。
- 3 黃女士：（經傳譯員）咁呢一個焦點小組嘅成員又係邊個呀？
- 4 黃綺玲女士：（經傳譯員）我諗佢哋全部都離開咗九巴，有關嘅車廠經理，有啲呢就  
5 係退咗休，有啲就已經辭咗職。
- 6 主席：（經傳譯員）有關嗰個小組，即係睇嗰啲急彎小組嘅成員呢，一係呢就已經係  
7 離職，一係呢就已經退休，你係咪咁嘅意思呀？
- 8 黃綺玲女士：（經傳譯員）係。
- 9 主席：（經傳譯員）好，唔該。
- 10 黃女士：（經傳譯員）佢哋係幾時退休或者係幾時離職嘅呢？
- 11 黃綺玲女士：（經傳譯員）最近呢幾年，但我記唔清楚嗰個日期。
- 12 黃女士：（經傳譯員）佢退休或者辭職之後，咁嗰個焦點小組又點呀？
- 13 黃綺玲女士：（經傳譯員）我哋就改變咗，就每一間車廠呢就會就係關注嗰個安全問  
14 題，但係呢就唔係呢一個安全及服務部門。
- 15 主席：（經傳譯員）個焦點就反為就係轉向每一個車廠個別去睇，就唔係中央，就係  
16 分散咗係畀番個別車廠？
- 17 黃綺玲女士：（經傳譯員）係。
- 18 黃女士：（經傳譯員）你提過係個別車廠，你有冇同車長係傾下，就問下根據佢哋嘅  
19 經驗，有冇邊啲路段或者邊啲彎位呢係危險，好讓你哋可以提醒其他車長，請  
20 佢哋係要小心，有冇係做過咁嘅嘢呢？
- 21 黃綺玲女士：（經傳譯員）我哋會分析一啲嘅意外發生嘅位置，我哋會有一啲分享小  
22 組去分享巴士車長嘅經驗等等，咁我哋係會分析道路嘅潛在危險，咁如果有需  
23 要呢我哋係會同訓練學校嘅教師去傾，點樣可以提醒車長係去小心呢啲道路情  
24 況嘅。
- 25 黃女士：（經傳譯員）咁呢個分享小組呢，係咪即係只係喺某啲嘅車廠度去做，定係  
26 唔同車廠之間亦都係會討論呢？
- 27 黃綺玲女士：（經傳譯員）咁呢個係視乎個別嘅車廠而定嘅，佢哋可能係個別會同訓  
28 練學校去傾。咁我哋有時係會同訓練學校去會面，其實我哋任何時候都可能會  
29 同佢哋傾，就未必須一定係要等開會先傾。
- 30 黃女士：（經傳譯員）呢個分享小組嘅舉行頻率係幾多呢？

- 1 黃綺玲女士：（經傳譯員）即係正如我所講，如果我哋係要分析一啲交通意外呢，其  
2 實係有一個特定嘅頻率嘅，咁如果係巴士車長之間分享經驗呢，如果佢哋覺得  
3 某個位置係有危險，佢哋係會同呢個教師去講，同埋亦都係會發出一啲通告去  
4 提醒車長去小心，咁就未必有一個特定嘅會議或者係時間。
- 5 黃女士：（經傳譯員）咁你提到係發出一啲通告去提醒車長去小心某一啲位置，呢啲  
6 係咪書面發出嘅通知，定係口頭？
- 7 黃綺玲女士：（經傳譯員）兩種都有嘅，咁但係多數呢都係書面通知。
- 8 黃女士：（經傳譯員）係咪每個車廠都有？
- 9 黃綺玲女士：（經傳譯員）係。
- 10 黃女士：（經傳譯員）可唔可以畀一啲例子我，我哋睇下即係呢一啲通告係點樣？
- 11 黃綺玲女士：（經傳譯員）我而家有帶，可以遲啲提供。
- 12 黃女士：（經傳譯員）好，唔該晒。至於呢啲個別嘅通知信，其實係咪就住個別嘅意  
13 外而發出嘅呢？係咪有發生咗意外先至會係發出呢啲通告呢？
- 14 黃綺玲女士：（經傳譯員）你第一個問題，答案係，係嘅。有時如果出現意外，我哋  
15 係會提醒車長某啲嘅事項。
- 16 黃女士：（經傳譯員）第二個問題呢，就係會唔會就住車長嘅投訴而發出通告呢？或  
17 者應該咁講，係咪即係必須係要有車長去即係提出某啲道路嘅情況呢？
- 18 黃綺玲女士：（經傳譯員）如果某啲道路情況係會產生危險，我哋係會向車長發出提  
19 醒或者通告。
- 20 黃女士：（經傳譯員）我嘅問題係，係咪你哋公司自發去進行一啲研究呢，定係因為  
21 某啲嘅車長提出一啲意見，先至會去做嘢呢，係究竟邊一個描述係啱啲？
- 22 黃綺玲女士：（經傳譯員）如果車長係表達意見，我哋係會即係搵出呢個原因去避免  
23 意外再次發生，咁所以我哋係先會搵出呢一個原因，咁去睇下我哋可唔可以做  
24 一啲預防嘅措施，例如提醒佢哋道路嘅情況，譬如話落雨之後一啲樹枝呢，或  
25 者樹木可能係會引起危險，咁我就會提醒佢哋係要有耐性地駕駛，即係我哋就  
26 會提醒佢哋喺嗰個路段係要小心啲駕駛。
- 27 黃女士：（經傳譯員）咁換句話講，即係你會因應車長嘅意見係去作出反應嘅。
- 28 黃綺玲女士： Yes.
- 29 黃女士：（經傳譯員）而唔係由巴士公司去主動進行嘅，你入咪咁嘅意思？
- 30 主席：（經傳譯員）我諗佢所講呢就係佢係就住意外作出反應，而佢哋亦都係會聽車  
31 長嘅意見。

- 1 黃綺玲女士： Yes.
- 2 黃女士：（經傳譯員）咁而佢就住呢啲情況呢，就會係發出一啲嘅通知嘅。
- 3 黃綺玲女士： Mm-hmm. Right.
- 4 黃女士：（經傳譯員）你可唔可以畀啲例子我哋，即係喺你負責屯門車廠嘅時候，即  
5 係當時你係認為有邊啲嘅道路係可能引起危險嘅呢？
- 6 主席：（經傳譯員）如果你係畀唔到例子呢，你可以講嘅。
- 7 黃綺玲女士：（經傳譯員）冇嘅，我講唔到。
- 8 主席：（經傳譯員）黃大律師。
- 9 黃女士：（經傳譯員）即係你而家係講唔出例子，係唔係？
- 10 黃綺玲女士： Yes.
- 11 黃女士：（經傳譯員）咁呢就另一個問題，就係脫班嘅問題。咁我哋係聽取咗一啲證  
12 供，就係出現咗一啲脫班嘅情況，就係有各種原因，包括係道路嘅情況，咁有  
13 時係因為行車時間預測係唔準確，你可唔可以確認係咪即係發生咗呢啲情況？
- 14 主席：（經傳譯員）首先你可唔可以解下咩嘢為之脫班呀？
- 15 黃綺玲女士：（經傳譯員）咁我哋有一個行車嘅時間表，係一啲即係刊憲咗嘅班次，  
16 係我哋承諾嘅服務嚟嘅，咁喺某啲嘅時間係有一啲刊憲嘅時間表，咁如果我哋  
17 唔能夠係去履行呢個時間表呢，咁就係會視為脫班。
- 18 主席：（經傳譯員）咁即係話係為咗係即係履行呢個刊憲時間表，係唔係？
- 19 黃綺玲女士：（經傳譯員）冇錯。
- 20 黃女士：（經傳譯員）咁呢個情況喺你管理嘅屯門車廠有冇出現呢？
- 21 黃綺玲女士：（經傳譯員）係有嘅。
- 22 黃女士：（經傳譯員）可唔可以同我哋講講點解係出現咗脫班呢？
- 23 黃綺玲女士：（經傳譯員）基本上係我哋係有足夠員工，或者唔足夠員工；第二呢就  
24 係交通情況可能會令到巴士唔能夠如常係到站；咁第三個原因呢就係可能係巴  
25 士故障，而我哋係唔可以喺短時間內係搵一啲其他巴士去替代。另外就係如果  
26 喺其他地區突然間有一個需求，我哋可能要重新去調配我哋嘅服務。
- 27 主席：（經傳譯員）即係去解決或者去滿足其他嘅需求？
- 28 黃綺玲女士：（經傳譯員）咁呢啲原因都係會引致脫班。其實我哋係要一直去久不久  
29 係檢討我哋嘅時間表，咁當我哋訂立呢一個服務時間表嘅時候，我哋係要檢討

1 每個地區睇下有冇出現變化，咁例如譬話喺非繁忙時間，即係服務需求唔高  
2 呢，我哋係會向運輸署去申請，可能去即係減少呢個班次。咁呢個時間呢就可  
3 以畀車長呢係休息下，即係畀佢哋有多啲嘅休息時間。咁所以我哋耐唔耐都會  
4 向運輸署申請。咁呢個亦都可以係減少班次，咁可能就會令到脫班率係下降。

5 主席：（經傳譯員）運輸署有冇係去即係去檢視你有幾多脫班嘅班次，你係咪要匯報  
6 㗎？

7 黃綺玲女士：（經傳譯員）要。

8 黃女士：（經傳譯員）你點樣去評估行車時間呢？即係當你將呢一個服務時間表刊憲  
9 嘅時候？

10 黃綺玲女士：（經傳譯員）咁第一次呢我哋係會用一啲巡邏車，咁我哋第一次呢就會  
11 用一啲巡邏車去行一次呢一個行車路線，去估計呢個行車時間。咁當我哋訂立  
12 咗時間表之後，過咗一段時間，即係如果環境嘅情況有變，我哋係會分析一啲  
13 即係之前行車嘅日子，然後就歸納出呢一個行時間，或者計算一個平均嘅行車  
14 時間，咁我哋亦都係會預計喺訂立咗時間表之後，嗰個時間有冇嘅改變，咁  
15 呢個就係我哋嘅計算行車時間嘅方法。

16 主席：（經傳譯員）咁如果你發現行車時間比你預計嘅時間長呢，你會點做呢？

17 黃綺玲女士：（經傳譯員）我哋係會向運輸署申請去更新我哋嘅行車時間表。

18 主席：（經傳譯員）你係咪定期都會咁樣做？

19 黃綺玲女士：（經傳譯員）係。

20 主席：（經傳譯員）你上一次做係幾時呢？

21 黃綺玲女士：（經傳譯員）上個月呢我哋係有遞到申請嘅，都唔係上個月，係 5 月。

22 主席：（經傳譯員）通常運輸署會幾耐覆？

23 黃綺玲女士：（經傳譯員）好耐嘅。運輸署就會話佢哋係要做一個調查，我哋唔單只  
24 係檢討呢個行車時間，我哋亦都係會檢討喺非繁忙時間班次可能唔需要咁頻  
25 繁，我哋可能會減少班次，咁而運輸署就會係進行一個調查，咁就需要好長時  
26 間。

27 主席：（經傳譯員）你講緊係咪以年計嘅呢，要幾耐呀？

28 黃綺玲女士：（經傳譯員）可能幾個月到上年計都有可能。

29 羅先生：（經傳譯員）你有冇用到黑盒嘅資料，去睇下究竟行車時間係咪有出入呢？

30 黃綺玲女士：（經傳譯員）我哋冇用黑盒，我哋有一個系統，就係九巴嘅系統，車長  
31 就係會用八達卡去向總站匯報，即係當佢哋到咗一個巴士站嘅時候，佢哋係要

1 即係啲張八達通卡，咁我哋先知道佢係到咗。即係我哋可以用黑盒係去睇呢個  
2 抵站時間，咁當長到嘅時候，我哋係要求佢哋匯報佢哋已經到站，咁我哋會用  
3 我哋內部嘅系統，叫做 TER，就唔係用黑盒嘅。

4 羅先生：（經傳譯員）咁佢係運輸署會唔會認為呢一個係足夠嘅理據，即係畀你去更  
5 改呢個時間表呢？

6 黃綺玲女士：（經傳譯員）我唔知道佢哋係即係點樣分析。

7 主席：（經傳譯員）即係如果呢個所謂嘅黑盒唔係會自動去進行呢個工作嘅咩，你知  
8 唔知道呀？

9 黃綺玲女士：（經傳譯員）你意思話黑盒嘅數據可以自動做到呢樣嘢？

10 主席：（經傳譯員）係呀，就話到畀你聽個車程係幾長。

11 黃綺玲女士：（經傳譯員）係，我哋都會將佢放喺個數據嗰度，如果我哋需要呢係搵  
12 番啲資料出嚟，我哋就會將佢擺出嚟，咁去睇下巴士有冇準時到達，亦都可以  
13 睇埋呢係個車速，所以呢我哋就唔係用呢個嚟到去監察個係行車時間。

14 主席：（經傳譯員）所以你呢就係靠車長就係去到譬如總站呢，就啲個八達卡，係  
15 咪呀？

16 黃綺玲女士：（經傳譯員）係。

17 主席：（經傳譯員）唔該。

18 黃女士：（經傳譯員）我想問，如果你哋有脫班，咁對你哋公司嚟講有咩嘢後果嘅  
19 呢？

20 黃綺玲女士：（經傳譯員）有咩嘢後果，我哋嘗試呢就係調派足夠嘅車長嚟到去盡量  
21 減少個係脫班情況，呢個就係我哋個解決方案，其他嘅解決方案呢就正如我  
22 所講，譬如話非繁忙時間嘅班次係減少，咁呢就係少啲車長喺路上駕駛，呢個  
23 都係解決方法之一。

24 黃女士：（經傳譯員）係，黃女士，你認唔認識一位叫做 Alok Jain 嘅人士呢？

25 黃綺玲女士：（經傳譯員）係，我哋嘅係以前嘅 DOD 嚟嘅。

26 主席：（經傳譯員）DOD 你即係咩嘢意思呀？

27 黃綺玲女士：（經傳譯員）係呢個車務總監。

28 主席： Thank you.

29 黃女士：（經傳譯員）喺你嘅時候呢，你有冇機會係同 Alok Jain 係同傾過一啲安  
30 全方面嘅事宜呢？關於專營巴士嘅安全事宜，有冇同佢係傾過呀？

1 黃綺玲女士：（經傳譯員）我嘅理解就係，我只係就規劃嘅事宜係同佢傾，因為--係  
2 planner 嘅 head，係囉，planning。

3 黃女士：（經傳譯員）你講及一啲規劃嘅事宜，呢啲係咩嘢嘅事情呢？

4 黃綺玲女士：（經傳譯員）我哋有一個部門，就係負責做計劃，我哋就係會同規劃部  
5 門呢係傾，係講及呢個路線嘅發展，亦都會講及呢就係巴士嘅係車種，亦都會  
6 同呢個規劃部門傾。

7 黃女士：（經傳譯員）講到係巴士嘅型號，你會唔係傾到係黑盒嘅事情呢？

8 黃綺玲女士：（經傳譯員）唔係同佢講。

9 黃女士：（經傳譯員）咁喺你工作期間，你有冇係同呢個規劃部門就開會有講及黑盒  
10 嘅呢？

11 黃綺玲女士：（經傳譯員）冇。

12 黃女士：（經傳譯員）主席先生，我要問嘅係咁多。

13 主席：（經傳譯員）好，唔該，唔該晒。歐陽先生。

14 歐陽先生：（經傳譯員）唔該主席。黃女士，感謝你今日出席。我就係想跟進一下較  
15 早時候你所講嘅，你就話如果有某一個地點，你要係將佢界定為係一個潛在風  
16 險，或者係車長界定佢係有潛在風險，有冇一個程序就話要同總部係匯報番，  
17 又或者係同一個係訓練嘅導師係匯報㗎？

18 黃綺玲女士：（經傳譯員）我哋係會同訓練導師就係討論，即係如果冇潛在風險嘅  
19 話。譬如話講番我個經驗，譬如話當車長係入去總站，埋去條線嗰度嘅時候，  
20 可能嗰度呢就係起咗個巴士站上蓋，嗰度呢可能有潛在風險，我哋就會同係訓  
21 練學校導師係傾，就點樣可以減少嗰個風險，又或者係就嗰個巴士站上蓋就作  
22 一個修訂，將佢係改動。呢啲嘅事情呢，我哋都會係會檢討，我哋亦都會睇車  
23 長嘅經驗，正如我所講過，我哋會搵出嗰個問題嘅根由，然後就嘗試搵一個解  
24 決嘅方案。

25 歐陽先生：（經傳譯員）你哋咁樣嘅溝通，就係書面定抑或口頭嘅呢？

26 黃綺玲女士：（經傳譯員）兩者都有，有時係用電郵，有時電郵畀呢個訓練學校。

27 歐陽先生：（經傳譯員）好，唔該。仲有一個問題，你喺工作期間，以你嘅職責嚟  
28 講，我想問車長係有冇投訴過話佢哋嘅休息設施就唔夠好呀？

29 黃綺玲女士：（經傳譯員）係，有時我哋都會收到係車長有一啲要求，譬如話想要一  
30 個大啲嘅休息地方，譬如話係 B 型太細嘅話，佢哋想要多個，佢哋想有多啲嘅  
31 設施，譬如話蒸餾水，佢哋想有熱水、凍水，咁所以我哋就會盡量就係以我哋  
32 所能夠做嘅事情呢，係讓佢哋係滿意。

1 歐陽先生： Thank you.

2 羅先生：（經傳譯員）仲有一個係問題，我知道你係一個好有經驗嘅前線嘅經理，我  
3 想問下你，公司有啲咩嘢可以做或者係應該做，但係又有做到呢？即係除咗我  
4 哋剛才已經係講過，呢個係指多年嚟係你留意到關乎巴士安全方面有啲咩嘢係  
5 應該做又未做？

6 黃綺玲女士：（經傳譯員）講到安全嘅問題，我諗唔單單係我哋公司，我哋公司自己  
7 做唔得晒所有嘅嘢，譬如話道路嘅情況。有啲道路嘅情況，譬如話道路設計，  
8 可能係不利於係雙層巴士行駛，呢啲亦都唔係巴士公司可以做，或者運輸署可  
9 以就道路嘅設計係做一啲嘢。

10 主席：（經傳譯員）好，黃女士，多謝你，感謝你呢今日係上嚟作證，協助我哋，我  
11 哋而家就完成嘞，你可以呢係坐番落去下面個度聽你嘅同事作證，又或者你可  
12 以選擇離開㗎。我哋而家想請楊晉瑋先生上嚟係作證。楊晉瑋先生，感謝你今  
13 日接納我哋邀請，係今日上嚟作證，剛才你已經係聽到係黃女士作證，相信你  
14 係理解我哋個程序，咁而家直接就係問問題。

15 楊晉瑋先生：係，早晨，主席同埋兩位委員，或者可以畀我做一個開場白，可唔可以  
16 呀？係，好，咁早晨喇咁多位。咁首先我好多謝委員會邀請我出席今日呢個嘅  
17 聽證會，咁其實我就同剛才 Debby Wong 一樣呢，都係我嘅 assistant  
18 manager，咁其實其他同事會叫我哋做 zone head，或者我哋中文叫做車務主  
19 管。咁我同 Debby 都係負責屯門廠嘅一啲車務運作嘅，咁屯門廠頭先剛才講  
20 過，我應該要講慢少少，係咪呀？佢個翻譯可能趕唔切，係。咁屯門廠主要負  
21 責係屯門、元朗、天水圍三區嘅車務運作，咁而 zone head 呢佢主要個工作範  
22 圍就係去管理巴士嘅營運，包括巴士路線，前線車長，站長或者其他同事，同  
23 埋一啲站頭嘅設施，例如車長嘅休息設施等等，都係由我哋 zone head 去負  
24 責。

25 咁我哋嘅工作呢其實就需要同前線嘅同事非常之緊密聯繫，咁所以呢我哋  
26 一定要好需要知道所有前線同事佢哋嘅實際需要。咁同時間我哋除咗前線同事  
27 之外呢，我哋亦都要定期同管理層去溝通，同佢哋開會話番畀佢哋聽，我哋見  
28 到或者前線同事話畀我哋聽佢哋有啲問題，我哋都要話番畀管理層知，咁當然  
29 亦都要定期話番畀佢哋聽我哋每條路線個營運情況有啲困難。咁所以無論係佢哋  
30 管理層嘅處事方針，或者佢哋方向其實我哋都要好清楚。咁所以我可以咁講，  
31 我哋 zone head 係前線同事同埋管理層中間嘅一個好重要嘅一個橋樑。

32 咁或者我簡單介紹一下自己，咁我喺九巴都大概做咗將近 10 年，咁我就由  
33 低做起嘅。咁我 10 年前我就先加入沙田廠，就負責做呢個車務督察，咁車務督  
34 察其實係一個外勤嘅工作，咁主要佢係去協助乘客，提供服務，或者協助前線  
35 嘅車長，當車長遇到任何問題嘅時候呢，我哋即時第一個反應就要去到現場幫  
36 佢手，咁同時間車務督察都要去管理呢啲班次，站頭啲設施等等一系列大大小  
37 小嘅事，都係車務督察去負責管理。

1 咁兩年之後，咁我就升咗去車務主任，咁呢個係一個 office 嘅工作嚟  
2 嘅，就唔係外勤嘅工作，咁當然都要好多時間要出去出面 site 嗰度去工作。咁  
3 我頭啲兩年，我就同安全及服務質量部就有一個好緊密嘅聯繫，因為我係負責  
4 safety 呢樣嘢。咁兩年，即係再兩年之後，咁我就調派咗去元朗、屯門、天水  
5 圍呢三箇地方去做一個車務運作嘅管理。

6 咁其後公司都委派我去負責做一個 ROM 嘅 project，咁 ROM 就應該係叫  
7 做 real-time operation management，咁我留意到...

8 主席：（經傳譯員）楊先生，其實你頭先講咗話要講慢啲，不過你就有講慢到，想請  
9 你講慢啲。

10 楊晉瑋先生：（經傳譯員）好，我會講慢啲。你想唔想我再繼續，再重複定...

11 主席：（經傳譯員）唔需要重複，不過慢啲。

12 楊晉瑋先生：咁我再講番喺個兩年之後，咁我就喺屯門、元朗、天水圍負責車務運  
13 作，咁當時公司就委派咗我去做一個 ROM 呢個 project，做一個研發。咁其實  
14 之前聽證會我都有留意過，應該有講過，real time operation  
15 management 呢個 project。咁所以就住呢個 ROM 同埋安全服務質量部，咁我  
16 都有經驗，所以我都好歡迎委員會如果需要問我任何關於呢兩箇地方嘅問題，  
17 我都好樂意去提供畀你哋。

18 咁就住今年即係好不幸，喺今年 2 月發一個嚴重一個交通意外，咁我發覺  
19 到即係九巴都成為咗各大傳媒嘅一啲焦點。咁無論係唔同嘅政黨，唔同嘅工  
20 會，甚至乎一啲我哋嘅舊同事，佢都會對我哋公司有好多唔同嘅意見，咁我發  
21 覺其實都唔只我嘞，我其他同事都發覺。

22 咁其實當中係有好多失實嘅報導，咁我就同埋另外六位 zone heads，咁  
23 我哋都覺得其實呢啲失實嘅報導，對於我哋而家嘅所有同事，無論車長又好，  
24 我哋前線管理人員又好，或者我哋後勤嘅管理人員，甚麼乎我哋嘅管理層都  
25 好，呢啲失實報導都係非常之唔公平，咁所以我哋最後就聯署一封信就寫畀我  
26 哋個董事局，我哋希望將我哋見到，我哋實際做緊嘅嘢，就將呢啲嘢一五一十  
27 就話番畀個——當然好簡短，就話畀董事局聽。咁最後我哋都將呢封信，就  
28 forward 畀委員會呢邊去做一個參考。

29 咁我知道之前都有同幾位 zone head 有啲來往，咁今日可能淨係得我同  
30 阿 Debby 可以抽時間嚟到呢度，咁我都希望我哋可以即係用我哋 zone head  
31 嘅身分去話番畀大家究竟實際嘅情況係點嘅。

32 咁其實喺我自己個角度睇，係意外發生之前，即係 2 月之前，咁當你問好  
33 多廣大市民，或者一啲街坊呢問佢關於九巴，你覺得近呢幾年佢服務如何呀？  
34 以我所知佢哋都應該都會答話「佢嘅服務都唔錯，進步咗好多。」例如喺巴士  
35 車型、設施，或者我哋啲預報到站時間等等一系列進步，我哋都有。

1 咁不過好可惜，就發生咗 2 月呢單意外之外，咁可能你問番啲街坊，佢都  
2 會覺得九巴個服務好差...

3 主席： Mr Yeung --

4 楊晉瑋先生： Yes.

5 主席：（經傳譯員）楊先生，好多謝你即係進行一個陳述，但係你已經用咗好長時  
6 間。

7 楊晉瑋先生：（經傳譯員）我差唔多講完。

8 主席：（經傳譯員）你最後可以有一個最後嘅陳詞，咁但係而家我哋要進入一個問答  
9 嘅環節。黃大律師。

10 黃女士：（經傳譯員）楊先生，多謝你出席。你提到你 10 年前係加入九巴，咁即係  
11 大概係 2008 年。

12 楊晉瑋先生：2009 年，冇錯。

13 黃女士：（經傳譯員）你幾時係開始出任元朗車廠嘅車務主管？

14 楊晉瑋先生： Around 2013.

15 黃女士：根據你嘅陳述，或者你啱啱所講，屯門車廠係負責屯門、元朗、天水圍嘅車  
16 站，咁而你淨係負責屯門，係咪呀？

17 楊晉瑋先生：喺 2013 年嘅時候，我就曾經管理過元朗同埋天水圍，應該大概管理咗  
18 大半年，咁之後我就負責屯門區嘅車務主管，咁其實直至到 2018 年 7 月，即係  
19 其實係上個月嘅時候，咁我哋會有啲 rotation 嘅，咁我就 rotate 番去元朗  
20 同埋天水圍，咁所以我係對屯門、元朗、天水圍三區，我都可以講話非常之熟  
21 悉嘅。

22 黃女士：（經傳譯員）喺你陳述度你講到係有三十一個巴士總站，就係即係喺屯門車  
23 廠轄下，咁你現時係管理緊幾多個屯門巴士總站？

24 楊晉瑋先生：如果成個屯門、元朗、天水圍呢，就總共有三十一個，咁可能頭先我聽  
25 到阿黃小姐，可能佢三十個，因為有一個新嘅巴士站，係喺 6 月尾先啟用，咁  
26 所以最後就有咗一個數字嘅出入，咁我點樣去釐定呢啲巴士站呢？我哋就會用  
27 一個--如果佢有一個 full day service 嘅路線，咁我先會叫呢個做一個真  
28 正嘅巴士總站。

29 主席：（經傳譯員）楊先生，個問題好簡單，你管理幾多個巴士站呀？即係你唔需要  
30 同我哋講話即係你中間個過程，點樣諗。

31 楊晉瑋先生：但係我需要話畀你知三十一個總站，我哋點樣去 consider 31，如果  
32 你講所有譬如淨係朝早淨係開一班...

- 1 主席：（經傳譯員）係唔需要嘅楊先生。
- 2 楊晉緯先生：Okay.
- 3 主席：（經傳譯員）你回答個問題就可以㗎喇，你直接回答問題就可以。
- 4 楊晉瑋先生：三十一個 full day service 嘅總站。
- 5 黃女士：（經傳譯員）即係你管理三十一個？
- 6 楊晉瑋先生：係，我喺 7 月嘅時候，屯門、元朗、天水圍我都有負責。
- 7 主席：（經傳譯員）問題係你管理幾多個車站？
- 8 楊晉瑋先生：三十一個 full-day service 嘅總站。
- 9 主席：（經傳譯員）唔該晒。
- 10 黃女士：（經傳譯員）你係咪同黃綺玲女士一齊管理天水圍嘅車站，係唔係？
- 11 楊晉瑋先生：（經傳譯員）冇錯，同埋元朗嘅車站嘅仲有。
- 12 黃女士：（經傳譯員）你同黃綺玲女士嘅職級係一樣，係咪？定係你係高級啲？
- 13 楊晉瑋先生：我主要係屯門，但係公司想我睇埋元朗同埋天水圍，所以三區我都會睇
- 14 晒，但係個主力係 Debby 同埋 Amanda 就係元朗同天水圍。
- 15 黃女士：（經傳譯員）你喺開場發言嘅時候，你講到你係負責啲巴士嘅路線同埋車
- 16 長，你知唔知道有幾多個巴士站係有特別更？
- 17 楊晉瑋先生：喺三十一個裏面，介唔介意我數一數呀？
- 18 黃女士： Please do.
- 19 楊晉緯先生：以我嘅印象，exactly 我個 number 應該係全部都會有一啲特別更嘅
- 20 車長。
- 21 黃女士：（經傳譯員）係咪全部嘅三十一個巴士站都有休息設施？
- 22 楊晉瑋先生：係會有休息設施。
- 23 黃女士：（經傳譯員）係咪全部三十一個站都有呀？
- 24 楊晉瑋先生：如果需要，我可以再解釋多少，咁三十一個總站可能有一啲佢係有特別
- 25 更嘅個站度，但係佢未必係喺個度收工，可能佢會去第二度收工。咁我哋三
- 26 十一個站裏面都會有，即係無論佢喺唔喺個度收工，都會有車長嘅休息設施喺
- 27 個度。
- 28 黃女士：（經傳譯員）楊先生，你提到係兩種嘅休息，即係有 A 類同埋 B 類，咁你表

1 示 A 類休息室就大概係 17 平方呎，咁而 B 類就係 50 平方呎，咁我哋聽到黃綺  
2 玲女士就話有一種大啲嘅休息室嘅，咁究竟呢啲即係大啲嘅休息室，同 A 類同 B  
3 類比係大幾多呢？

4 楊晉瑋先生：係，type A 大概可以坐最多坐到兩個同事，同一時間，咁 type B 其  
5 實佢個 size 係大概兩倍 of 呢個 type A 嘅，即係如果你將兩個 type A 放埋  
6 一齊呢，你喺出面個外觀望落去呢就大概等於一個 type B，咁但係當然佢因為  
7 中間有墻牆如果你擺兩個 type A，咁佢會有咁實用，咁呢個一個最大嘅分別。

8 主席：（經傳譯員）咁呢個 A 同 B 類嘅呢個分類係咪由九巴去分類？

9 楊晉瑋先生：係，呢個我哋本身係有兩隻 standard 嘅 size，type A 或者 type  
10 B。

11 黃女士：（經傳譯員）運輸署呢係有制定任何嘅指引，即係就住呢一個休息嘅設施，  
12 係咪呀？

13 楊晉瑋先生：係，以我所知係有 guideline 嘅，係 KMB 自己決定擺邊隻 size。

14 黃女士：（經傳譯員）你提到呢有另外一種度身定做嘅休息室，係去符合某啲嘅巴士  
15 站嘅特別需要嘅，你可唔可以同我哋講，喺你管理嘅巴士站底下，有幾多個呢  
16 一啲特別製造嘅休息室呀？

17 楊晉瑋先生：應該大概有兩至三個，個 exact number 我要返去 verify，究竟個  
18 係咪 tailor made。

19 黃女士：（經傳譯員）度身定做係咩嘢意思呢？

20 楊晉瑋先生：可能我哋同運輸署或者其他譬如房署申請嘅一啲 kiosks 佢哋唔批准，  
21 可能佢哋個 feedback 返番嚟係個 size 唔啱，或者會阻住其他行人，行人路  
22 或者其他啲啲盲人設施，咁我哋就要將個 size 稍為改一改嚟到 fulfil 番有關  
23 部門嘅 request 嘅。

24 黃女士：（經傳譯員）呢種即係度身定做嘅休息室，大概係幾大呢？

25 楊晉瑋先生：應該唔會同一個 type B 睇得太遠，即係如果可能係太闊嘅，即係有關  
26 部門覺得太闊，可能我哋將佢窄少少，但係我哋就會喺個長度嗰度加番啲，咁  
27 呢個係我認知嘅 tailor made 嘅動作。

28 黃女士：（經傳譯員）喺全部或者某啲嘅休息室入面，會唔會提供一啲可以馴覺嘅長  
29 凳或者係梳發？

30 楊晉瑋先生：有三箇地方係會有一啲我哋所謂嘅叫做馴覺嘅凳，一個 sleeping  
31 area 畀車長去休息用嘅。

32 黃女士：（經傳譯員）你提到有三個位置係有一個馴覺嘅區，你可唔可同我哋講下喺

1 邊度呀？

2 楊晉瑋先生：屯門車廠，屯門市中心，同埋屯門南車廠，咁屯門南車廠就嗰啲凳就相  
3 對有另外嗰兩笪咁--即係咁馴覺凳，但係一個大啲嘅 area 都係喺個車廠度。

4 黃女士：（經傳譯員）每個位置有幾多張可以馴覺嘅凳？

5 楊晉瑋先生：Exact number 我呢一刻畀唔到，大概有五張咁上下。

6 黃女士：（經傳譯員）係咪每個位置都有。

7 楊晉瑋先生：每一個 location，係。

8 黃女士：（經傳譯員）咁每個位置大概有幾多位車長使用呀？

9 楊晉瑋先生：其實所有車長，無論佢係特別更或者唔係特別更，佢都可以使用，咁實  
10 際嘅數字我而家有掌握到。

11 黃女士：（經傳譯員）你可唔可以即係同我哋講，大概即係喺每個位置有幾多位車長  
12 使用呀？

13 主席：（經傳譯員）你係咪講緊同時間呀？

14 黃女士：（經傳譯員）冇錯，喺同一時間。

15 楊晉瑋先生：喺我落去呢啲站嘅時候，見到大部分時間佢哋係呢--即係頭先我講大概  
16 五張呢，都會有空位喺度，車長有咁多個車長用，即係應該係少過五個車長 at  
17 any one time 喺我落去嘅時候見到。

18 黃女士：（經傳譯員）你幾時係去呢啲嘅位置？

19 楊晉瑋先生：最主要係一啲中段嘅時間先會有車長用，即係 around 朝早 11 點至到  
20 下晝 3 點、4 點，咁如果我呢啲時候落去，就會見到有車長用。

21 黃女士：（經傳譯員）你落得去有幾密呀，即係呢三個地點你落得去有幾密呢？

22 楊晉瑋先生：我哋嘅職責係每個禮拜都要去唔同嘅總站，咁如果三笪地方呢，我哋  
23 at least 每個月我都會去 1 至 2 次。如果屯門車廠就會更加多，因為我個  
24 office 就係喺屯門車廠，係。

25 黃女士：（經傳譯員）係，我而家係想講及一啲例子，你喺你個陳述書嗰度有提過。  
26 你有講過就係話喺取得批准嗰方面呢，就係有困難 181-1 同埋 181-2 嗰度。

27 主席：（經傳譯員）邊度呀？

28 黃女士：（經傳譯員）對唔住，係 FE 嗰個文件夾嘅 181-1，181-2。喺你嘅陳述  
29 書，你睇番嗰版嘅下面嗰度，你提及三個地點就話需要就係改善。第一個地方  
30 就係掃管笏。你就話係喺 2018 年 6 月 25 號新生係加入，你提到就係話係需要

1 就係提供一個 A 型嘅休息設施，同埋一個係化學廁所，咁你就話自從 2018 年 6  
2 月 13 號就已經申請，咁但係仲未批。首先想問你，掃管笏嘅巴士總站係有咗幾  
3 耐呢？

4 楊晉瑋先生：如果有全日嘅巴士服務就係 6 月 25 號開始正式投入服務。

5 黃女士：（經傳譯員）換句話講，呢個係新建議嘅巴士站，就唔係話已經存在咗多年  
6 呀？

7 楊晉瑋先生：冇錯，正確。

8 黃女士：（經傳譯員）你引入呢個新嘅巴士總站，我想問運輸署任何時候有冇要求過  
9 你公司係要提供一啲休息嘅設施畀車長用呢？

10 楊晉瑋先生：運輸署冇要求我哋要擺呢個 facilities 畀車長。

11 黃女士：（經傳譯員）運輸署佢哋批准一個巴士總站嘅時候，會唔會書面係列出一啲  
12 要求？

13 楊晉瑋先生：你嘅意思係呢條線開辦嘅時候，有冇一啲書面嘅來往？有，我哋要正式  
14 入文件向運輸署申請呢條線，咁運輸署亦都會正式覆番畀我哋，confirm 佢哋  
15 approve 我哋呢條線。

16 黃女士：（經傳譯員）當運輸署係批准某一條路線嘅時候，根據你嘅經驗，佢哋會唔  
17 會一般都係列出一啲要求？

18 楊晉瑋先生：你嘅意思係乜嘢 conditions？

19 黃女士：（經傳譯員）譬如話你要提供某一條路線嘅時候。

20 楊晉瑋先生：有，佢會定我哋嘅路線嘅走線，即係沿途嘅車站，同埋譬如 journey  
21 time, journey distance, 個 frequency 都會列明喺佢個 approval  
22 letter 度。

23 黃女士：（經傳譯員）關乎呢個掃管笏嘅巴士總站，會唔會喺呢一度呢係有啲特別更  
24 嘅呢？

25 楊晉瑋先生：有。

26 黃女士：（經傳譯員）因為你有講過，嗰個申請就只係 18 年 6 月 13 號係遞入去，  
27 所以目前係咪有休息設施喺嗰度，咁講啱唔啱呀？即係以掃管笏嘅巴士站嗰度  
28 就有？

29 楊晉瑋先生：係 for 呢個掃管笏，我哋係有擺咗一個 type A 嘅 kiosk，同埋一個  
30 chemical toilet，咁但係喺呢個 moment 我哋未收到運輸署嘅 approval，  
31 係嘞。

- 1 黃女士：（經傳譯員）喺掃管笏總站嗰度係有幾多車長喺嗰度工作？
- 2 楊晉瑋先生：如果用每一日嘅車長嘅人次，如果我有記錯大概係三至四位車長。
- 3 黃女士：（經傳譯員）有幾多就係做特別更嘅呢？
- 4 楊晉瑋先生：一位。
- 5 黃女士：（經傳譯員）我咁講㗎唔㗎呢？呢個 A 型嘅係休息設施，係已經躉咗喺嗰度
- 6 嘞，縱使你哋未攞到批准？
- 7 楊晉瑋先生：呢個係事實，我哋係未收到 approval，就放咗落去，因為我哋即係條
- 8 線就開咗，我哋如果唔放落去，車長就有得休息。
- 9 黃女士：（經傳譯員）你畀咗第二個例子，就係寶田邨，嗰度你就話為咗係讓更多車
- 10 長可以喺嗰度休息，係有需要就係將嗰個休息設施由 A 型轉做 B 型，咁你哋就
- 11 係向房屋委員會就係申請，咁就 2014 年 11 月 24 號就申請，咁可唔可以話畀
- 12 我哋聽，就呢一個設施嚟講，而家嗰個情況係點樣樣呀？因為你 14 年 11 月 24
- 13 號就已經申請，我想問而家係咪仲係一個 A 型嘅設施，定抑或係你好似喺掃管
- 14 笏嗰度係躉咗嗰個 B 型嘅設施喺嗰度，縱使係未有批准？
- 15 楊晉瑋先生：寶田總站，咁佢原本就係有三個 type A kiosks 喺度，咁正如我剛
- 16 才講過，有其中兩個 type A 佢係竊埋一齊，咁即係佢個間格係唔夠實用，咁
- 17 我哋都 review 過覺得佢唔足夠嘅，咁所以我哋就同房署去申請，將兩個竊埋
- 18 嘅 type A 將佢變做一個 type B，另外將第三個嘅 type A 亦都將佢變做
- 19 type B 嘅，咁係喺呢一刻都未收到房署嘅 approval，咁但係我哋都將兩個
- 20 type A replace with 一個 type B，係已經 replace 咗，即係而家
- 21 outstanding 係畀一個 type A 我哋未 convert 去做 type B。
- 22 黃女士：（經傳譯員）點解你認為係有需要將 A 型係轉做 B 型嘅休息設施呢？即係以
- 23 寶田邨呢個例子嚟講？
- 24 楊晉瑋先生：因為無論係我哋落去見到啲車長，佢哋係揸住個飯盒要喺出面嗰個
- 25 kiosk 出面食飯，因為入面唔夠坐，又或者其實車長本身都會同我哋去反映番
- 26 佢哋唔夠坐，咁所以我哋都覺得兩個 type A 係唔足夠。
- 27 黃女士：（經傳譯員）寶田邨呢度又有冇人做特別更？
- 28 楊晉瑋先生：有。
- 29 黃女士：（經傳譯員）有幾多位車長係用呢兩個係 A 型嘅休息設施呢？
- 30 楊晉瑋先生：我有詳細數字喺手係幾多個特別更嘅車長會用，因為以我所知佢哋好多
- 31 都會返屋企去休息嘅。
- 32 黃女士：（經傳譯員）寶田邨有幾多條巴士線呀？

1 楊晉瑋先生：如果全日線呢，就有兩條。

2 黃女士：（經傳譯員）非全日線呢？

3 楊晉瑋先生：Not full day 就有另外兩條，係淨係朝早有特別班次。

4 黃女士：（經傳譯員）主席先生，我睇到個時間，你會唔會想而家係有一個小休呢？

5 主席：（經傳譯員）當然。楊先生，我哋小休至到 12 點鐘，即係話背後嗰個鐘到 12  
6 點鐘再恢復。

7 楊晉瑋先生：Thank you.

8 主席：（經傳譯員）唔該。

9

10 下午 11 時 41 分聆訊押後

11

12 上午 11 時 59 分恢復聆訊

13 出席人士如前。

14

15 主席：（經傳譯員）黃律師。

16 黃女士：（經傳譯員）係，主席，或者係講埋呢一個課題，想問下，你可唔可以係畀  
17 啲數字我哋，關乎呢個寶田邨呢個站嘅，有幾多巴士車長就係用寶田邨呢個車站  
18 嘅設施？即係我專注就係呢個做特別更啲嘅。

19 另外你喺陳述書亦都有提過，就話一般嚟講都需要一個好長嘅籌備時間，即  
20 係差唔多五年嘅時間，你嗰個係關於呢個休息設施嘅申請先至係批到，亦都係提  
21 過一啲例子嘅，就 181-2 嗰度嘅，有啲例子嘅，係咪呀？

22 楊晉瑋先生：正確。

23 黃女士：（經傳譯員）我而家轉去另一個課題，楊先生。你喺開場白嗰度就講過，你  
24 對於呢個實時嘅監察係非常之有經驗，即係呢個係 ROM 好有經驗嘅，另外呢個  
25 SSQ 都係即係話安全及服務質量部，你都係好有經驗，係咪呀？啱唔啱？

26 楊晉瑋先生：正確。

27 黃女士：（經傳譯員）你都有講過，兩年之後，即係話你係兩年之後，就係去--即係  
28 做咗屯門車廠之後兩年，你就係做一個特別嘅項目嘅，可唔可以講係幾時？

29 楊晉瑋先生：ROM 呢個 project，應該大概喺 2013 年左右開始，我有份參與嘅。

- 1 黃女士：（經傳譯員）2013 年開始，係咪呀？
- 2 楊晉瑋先生：（經傳譯員）係。
- 3 主席：（經傳譯員）你剛才嘅問題係問咩嘢？
- 4 黃女士：（經傳譯員）自從 2013 年開始，楊先生...
- 5 主席：（經傳譯員）係，我嗰個聽到，因為你問佢嘅時候，咁佢就話係，但係就聽唔  
6 到個問題。唔緊要，繼續。
- 7 黃女士：（經傳譯員）我諗我問題就係話，係咪自 2013 年開始，然後楊先生就話  
8 係。你認識一位人士，佢個名叫做係鄭桂興先生？
- 9 楊晉瑋先生：認識。
- 10 黃女士：（經傳譯員）我想請你睇番佢嗰份嘅陳述書，佢就係有提過，就係話佢進行  
11 過一個研究，呢個研究就係講及喺急彎嗰度係安全駕駛，2013 年，咁就係想請  
12 你睇番呢個 FE 文件夾嘅 96-4，嗰度有三頁紙，96-4 一路去到 96-6，有三頁  
13 㗎，請你睇睇。
- 14 主席：（經傳譯員）係。
- 15 黃女士：（經傳譯員）係，我諗你睇完嘞，係咪呀？呢度有幾條問題想問下你，首先  
16 就係 96-4，嗰度鄭先生有提過，呢個安全及服務質量部，呢個部門就係邀請係  
17 工廠--車廠嘅經理，以及就係巴士訓練學校嘅代表，以及係服務部嘅係巴士維  
18 修部門嘅代表就係成立呢一個研究小組，咁仔細去睇嗰啲巴士網絡裏面嘅急彎嘅  
19 位置。你有冇加入呢個小組？
- 20 楊晉瑋先生：當時我未係 Manager，所以我唔喺呢個 study group 入面，但係我  
21 當年嘅 Manager 有問我嘅意見。
- 22 主席：（經傳譯員）嗰位係邊位？
- 23 楊晉瑋先生：如果佢 refer Depot Manager 嘅，就應該當年我屯門廠嘅總經理，  
24 胡堅強先生，而家已經退咗休。
- 25 主席：（經傳譯員）唔該。
- 26 黃女士：（經傳譯員）根據呢度嘅研究，佢哋就係將佢收窄做係廿九個彎位，就話嗰  
27 啲地點可能引致嚴重嘅車輛翻側嘅意外，你知唔知道有呢廿九個彎位？
- 28 楊晉瑋先生：知道。
- 29 黃女士：（經傳譯員）你有冇份係幫手係將嗰個彎位嘅數目，將佢收窄到係廿九個？  
30 有冇？
- 31 楊晉瑋先生：以我嘅記憶，當時應該係唔止呢啲數目嘅，可能佢係 identify 咗有

1 一啲 Raymond Cheng 先生覺得係一啲 sharp bends 嘅 location，都有  
2 identify 到嘅，以我嘅印象，應該唔止呢二十幾個。

3 黃女士：（經傳譯員）你係咪話根據鄭先生，佢就係搵出係多過廿幾個嘅彎位，你點  
4 知？

5 楊晉瑋先生：呢個係我哋一啲 internal 嘅 communication，可能，因為我都有  
6 同當其時嘅訓練導師，即係我哋嘅教車嘅導師去討論過呢啲問題，咁當時，我—  
7 —以我所知，個導師就話，其實 sharp bends 就—即係其實你逢嚟 90 度角，  
8 或者將近 90 度角，都可以 sharp bends 嘅，所以我就知道應該唔只呢啲  
9 location 嘅。

10 黃女士：（經傳譯員）請你揭去後面嗰版，96-6，頭頂嗰度，嗰度就話：

11 「安全及服務質量部嘅同事就係陪同係研究小組嘅同事就去測試嗰廿九  
12 個彎位，就係以不同嘅道路情況，不同嘅車速，不同嘅載客量嘅情況去  
13 測試，咁亦都係將佢拍咗錄影帶，列做作日後參考之用。」

14 你當時知唔知道係有咁樣樣係拍做錄影帶，去進行研究？

15 楊晉瑋先生：我當年係有聽過佢哋會邀請訓練導師去做一啲 test run，去試呢啲  
16 location，但係最後有冇做到，或者佢做咗幾多個，我唔清楚，但係我都有聽  
17 佢哋講過有呢回事，同埋會有拍片嘅呢個想法嘅，當年。

18 黃女士：（經傳譯員）你提過話你聽聞，喺訓練導師嗰度係聽聞呢啲事，我想問，有  
19 關嘅導師而家係咪仲受聘於九巴？

20 楊晉瑋先生：以我所知，仲有喺公司做嘅，嗰啲 driving instructor 係。

21 黃女士：（經傳譯員）可唔可以講係邊一位？

22 楊晉瑋先生：我唔清楚當日如果話同佢哋開會係邊一個，因為佢 driving  
23 instructor 都有好幾十個，我唔—exactly 邊個，或者個名，我呢一刻畀唔  
24 到你。

25 黃女士：（經傳譯員）如果喺呢段跟住睇落去，睇嚟就係呢一個錄影嘅研究係的而且  
26 確有做㗎，因為跟住嗰度就講咗，係收集咗一啲好重要嘅數據，而佢哋亦都因而  
27 制訂咗一啲安全嘅指引。或者大家係—你繼續睇埋呢一段文字，嗰度繼續講就  
28 係話，從呢個研究嗰度，我哋就係得以編制咗一部係安全小冊子，後嚟佢就澄  
29 清，就話呢啲係卡仔，咁呢啲小冊子就係讓車長係知道—詳細咁知道邊度嘅彎  
30 位係會有—係存在風險，佢嘅具體嘅位置、方向、路嘅情況、性質等等。咁佢  
31 話做咗一千五百個嘅研究，咁就有三十一個就係安全駕駛嘅建議嘅，你知唔知悉  
32 係為車長係製備咗呢啲小卡？

33 楊晉瑋先生：知道。

- 1 黃女士：（經傳譯員）有冇係見過？
- 2 楊晉瑋先生：有。
- 3 黃女士：（經傳譯員）而家係咪仲有？
- 4 楊晉瑋先生：已經冇用嘞。
- 5 黃女士：（經傳譯員）可唔可以搵番一份畀我哋睇？
- 6 楊晉瑋先生：我唔肯定 office 仲會唔會有，因為即係無論駕駛導師或者前線嘅車長  
7 都有啲意見，對於呢張卡，咁所以我哋都有再成為我哋 training 嘅其中一  
8 part 嚟嘅，呢個。
- 9 黃女士：（經傳譯員）點解呢啲卡仔唔再用？
- 10 楊晉瑋先生：因為頭先我講過，有導師或者有一啲前線嘅車長，佢哋覺得即係  
11 sharp bends 呢個定義係好廣泛，如果每一箇地方，即係每一個 sharp  
12 bends，你要定一個車速畀佢，咁其實未必係九巴我哋可以自己做到。咁我明白  
13 可能佢背後嘅 study 可能係想畀一個 reference 畀車長們，佢哋知道每一個  
14 sharp bends，佢哋最高速係行幾多，但係你好難叫佢哋記住每一--即係佢  
15 揸，譬如每一次巴士行過咁多 sharp bends，每一個位都唔同，而運輸署個  
16 speed limit 係 50，所以大家都覺得應該係按番個實際情況去評估番個彎  
17 佢個速度係要幾多，rather than 你叫個車長記住每個彎背後應該 maximum  
18 係幾多。
- 19 主席：（經傳譯員）你點知佢哋有唔同嘅意見？
- 20 楊晉瑋先生：當時，因為呢張卡都有曾經出過畀啲車長嘅，咁啲車長都有同我反映  
21 過，話即係如果佢真係唔跟足呢一個 suggested 個 speed 去做，咁嚟香港法  
22 例係有超速嘅，但係佢--可能公司覺得佢唔應該揸咁快，咁係咪一個危險嘅情  
23 況呢，如果佢有任何意外發生？咁呢個係我哋有一個 conclusion 嘅，即係反  
24 而我哋嗰陣時都有 raise 番，會唔會係同運輸署講番即係喺一啲路譬如設立番  
25 一啲急彎啲啲黑白啲啲箭咀，或者其他嘅警告字眼。
- 26 黃女士：（經傳譯員）當時你向運輸署表示係想即係喺呢一啲嘅急彎入面就加呢啲箭  
27 咀嘅標誌嘅？
- 28 楊晉瑋先生：應該呢個係我哋提議番畀 SSQ，咁最後 SSQ 有冇去同運輸署申請，我  
29 就唔清楚嘞。
- 30 黃女士：（經傳譯員）係幾時？
- 31 楊晉瑋先生：應該都係 2013 嘅時候，我係唔清楚有冇--最後有冇向運輸署申請嘅。
- 32 主席：（經傳譯員）呢啲卡係幾時係發畀啲車長？

1 楊晉瑋先生：個 exact 日期我已經冇乜印象，應該 around 13、14 咁上下。

2 主席：（經傳譯員）係咪所有嘅九巴車長都有收到呢張卡㗎？

3 楊晉瑋先生：係，冇錯，我哋係有嘗試將佢派，但係好快大家個 comment，所以我  
4 哋就--即係收到大家嘅意見，就有再去派呢張卡。

5 黃女士：（經傳譯員）楊先生，你提到你喺呢一個實時營運管理嘅裝置都係有經驗  
6 嘅，你對黑盒嘅運作同埋功能有幾熟悉？

7 楊晉瑋先生：如果你嘅意思係針對 ROM 呢樣嘢定係唔關 ROM 事，淨係講黑盒？

8 黃女士：（經傳譯員）兩樣都係嘅。

9 楊晉瑋先生：如果 ROM，我當其時係其中一位代表 operation 嘅同事去畀 input，  
10 去設計呢個新系統嘅，應該由 day one 至到--去到最後期，我都有份參與 ROM  
11 呢個研發。

12 至於黑盒，就你話本身個黑盒個技術，我就唔會十分清楚，但係我哋公司背  
13 後好多程式，或者好多電腦嘅 program，背後佢都會由黑盒 support 去畀呢啲  
14 data，畀啲 data 畀啲程式嘅。

15 黃女士：（經傳譯員）ROM 係代表實時營運管理，咁你嘅角色係咪為乘客提供一啲實  
16 時嘅資訊，令到佢哋知道巴士到站嘅時間？定係話你係負責一個比較廣闊嘅安全  
17 嘅範疇？

18 楊晉瑋先生：以我嘅認知，當其時 ROM 呢個設計係有任何安全嘅因素擺咗落去嘅，  
19 咁我哋當時就係 based on 我哋嘅黑盒有嘅 data，點樣去將呢啲 data 去設計  
20 一個程式，嚟運用呢啲 data 去有效咁樣管理我哋嘅班次，同埋點樣去調配我哋  
21 呢啲巴士嘅，當年係有任何嘅 safety 嘅因素喺我哋個會嗰度 discuss 過。

22 黃女士：（經傳譯員）你提到當時係有喺任何嘅會議度提到安全呢一個議題，即係喺  
23 呢一個實時管理方面，你亦都係有會議度提及，係咪？

24 楊晉瑋先生：正確。

25 黃女士：（經傳譯員）係喺咩會議？

26 楊晉瑋先生：我哋定期--因為其實呢個 ROM 係一個新嘅 project，係由零開始嘅，  
27 即係我哋係 based on 我哋有嘅 black box 嘅 data 去做，咁所以我哋定期會  
28 有會議去--大家去畀 input 點樣去設計呢個新系統。

29 黃女士：（經傳譯員）幾時開始？

30 楊晉瑋先生：都係應該喺 2013 年，月份我唔記得㗎。

31 黃女士：（經傳譯員）嗰啲會議度有邊個出席？

- 1 楊晉瑋先生：有 IT，我哋電腦部嘅代表，有我哋四個唔同車廠嘅車務組嘅代表，咁  
2 亦都有當年嘅一個中央嘅部門，我哋叫做交通部，traffic department，咁  
3 佢哋會有--即係佢哋就個角色就係一個 Project Manager 去統籌呢個會嘅。
- 4 黃女士：（經傳譯員）規劃與發展署嘅同事有冇出席呢啲會議？
- 5 楊晉瑋先生：有參與過，planning 嘅 department 嘅同事。
- 6 黃女士：（經傳譯員）你識唔識程艾樂？
- 7 楊晉瑋先生：認識。
- 8 黃女士：（經傳譯員）你喺 2013 至 15 年期間，有冇同佢合作？
- 9 楊晉瑋先生：有喺一啲我哋 planning 嘅 issue 上面同佢有開過會嘅。
- 10 黃女士：（經傳譯員）你所謂嘅某啲嘅規劃嘅議題係包括啲咩嘢？
- 11 楊晉瑋先生：譬如我哋去計劃來年嘅巴士路線計劃，要提交畀運輸署或者區議會，咁  
12 佢係同運輸署同我都開過啲會嘅，係去策劃番個巴士路線嘅改善，或者提升，或  
13 者其他改動。
- 14 黃女士：（經傳譯員）咁我哋係聽取咗程艾樂先生嘅作證，當時係有一個諗法，係想  
15 用荔枝角車廠做一個實時營運嘅管理中心嘅，或者一個所謂嘅控制中心，就會係  
16 全公司都係會分析數據，你有冇聽過？
- 17 楊晉瑋先生：有聽過。
- 18 黃女士：（經傳譯員）根據程生嘅證供，最後荔枝角嘅辦公室就有咁樣做到，佢就有  
19 成為一個實時營運嘅管理中心，係咪呀？
- 20 楊晉瑋先生：唔正確。
- 21 黃女士：（經傳譯員）咁到而家，佢係咪都仍然係作為一間實時營運中心？
- 22 楊晉瑋先生：我哋有一個叫做 radio control section，而家係喺當年我哋呢個  
23 位置嗰度，而家仲存在嘅。
- 24 黃女士：（經傳譯員）你可唔可以同我哋講下，呢一個電台控制中心係咩嘢？
- 25 楊晉瑋先生：我哋中文簡稱叫呢個做電台（九巴電台），咁佢係二十四小時運作，佢  
26 係無論車長或者其他同事，喺路上面遇到有啲咩嘢問題，佢都會即時打畀呢個電  
27 話，廿四小時有人接聽，咁佢哋會分析件事，再派同事去幫手嘅。咁同時間，呢  
28 個電台，佢會同運輸署或者警察有一個聯繫，佢哋有個直線電話，同番運輸署嘅  
29 ETCC，即係緊急協調中心，就如果有啲咩嘢事，佢哋互相會交換番一啲資料。
- 30 主席：（經傳譯員）咩嘢係 ETCC？

1 楊晉瑋先生：英文嘅全寫，唔好意思，我有資料喺手，應該係緊急協調中心，類似咁  
2 樣嘅。

3 黃女士：（經傳譯員）根據你所講，似乎呢個電台係應付一啲緊急嘅情況，而唔係一  
4 個實時管理，即係用黑盒進行實時管理，啱唔啱？

5 楊晉瑋先生：其實最後個 ROM 呢樣嘢，係演變咗去另外一個系統，咁佢哋而家都有  
6 用呢個系統，但係同當年嘅 ROM 呢樣嘢係有少少出入嘅。

7 黃女士：（經傳譯員）你話係有少少唔同，究竟有幾唔同？

8 楊晉瑋先生：其實 ROM 當年係想類似參考一啲譬如鐵路，咁佢會 monitor 呢啲列  
9 車，或者即係我哋 monitor 啲巴士，佢哋嘅同--譬如同前面架車，或者同後面  
10 架車，嗰個差距有幾多，咁可能佢會--個系統如果 identify 到可能某班車行  
11 得太--即係竊得太--前面嗰架車太前--太密嘞，咁佢可能會 prompt 一啲  
12 message 去提個車長，你個--可能喺下一個站就要停一停先，唔好開住；或者  
13 調番轉，可能佢係開得太慢，咁可能會 prompt 個 message 去畀啲資訊畀個車  
14 長，「你距離前面嗰架巴士幾遠」，咁希望喺巴士站等車嘅乘客，佢哋嗰個  
15 waiting time 係會平均啲嘅，咁呢個係當初成個 ROM 背後嗰個原意。

16 其中一個範疇就係話，佢哋可以代替咗站長呢個角色，即係如果成立咗 ROM  
17 呢個 program 之後，咁喺荔枝角車廠就做咗呢個中央控制中心，咁其實大部分  
18 站長個角色都可以唔需要嘞，因為中央處理。去到現在，我哋係有--我哋係會  
19 keep 番所有站長，但係只係用呢個 ROM 呢個系統，而家我哋將佢演變咗係淨係  
20 監察架車嘅 GPS 嘅 location，監察佢嘅 speed，或者如果有需要嘅話，我哋  
21 可以用呢個 data base 去 retrieve 番佢個 past record 嘅。

22 黃女士：（經傳譯員）你提到呢個系統係同原有嘅設計係有啲唔同嘅，點解係即係呢  
23 個系統嘅功能係有呢個演變？

24 楊晉瑋先生：最後個原因我唔肯定 management 個決定係點解，但係我自己同埋好  
25 幾位嘅當時嘅 project team，我哋都覺得，即係如果你要用呢樣嘢嚟取締晒  
26 個巴士總站嘅站長，其實係有啲--我哋覺得有啲唔 realistic 嘅，所以我哋都  
27 曾經畀過 comment 畀 management，話畀佢聽「可能會有啲風險，如果你唔用  
28 站長。」但係最後係咪因為呢個原因，有一啲改變，咁我就唔肯定。

29 黃女士：（經傳譯員）你可唔可以同我哋講講，呢個系統幾時出現呢個演變？

30 楊晉瑋先生：大概 2014 或者 15 年初咁樣囉。

31 黃女士：（經傳譯員）即係話喺 2015 年打後，係咪？

32 楊晉瑋先生：係嘞，around 嗰啲月份。

33 黃女士：（經傳譯員）程艾樂先生表示，當考慮使用呢個實時管理系統嘅時候，其中  
34 一個目標係令到司機係駕駛得好啲，因為呢一個系統係可以畀車長--即係就可

1 以反映下車長係點樣去駕駛，究竟即係佢地嘅駕駛行為好唔好，係咪符合標準等  
2 等，你有冇聽過呢個講法？

3 楊晉瑋先生：有。

4 黃女士：（經傳譯員）呢個說法最後係發生咩嘢事？

5 楊晉瑋先生：其實係有做到呢樣嘢嘅，應該我哋而家每一架巴士上面，都會有個  
6 device，好細個，咁佢係有四盞燈，同埋會發出好細聲嘅一個「呔」一聲，去  
7 提示番個車長，如果佢有一啲唔好嘅駕駛行為。

8 主席：（經傳譯員）不當嘅駕駛行為？

9 楊晉瑋先生：冇錯，係譬如超速，或者佢突然間急速剎車，或者突然間  
10 acceleration，突然間加速，同埋如果佢個引擎開咗架車，個空轉，即係我哋  
11 唔想佢開咗架車，但係架車又唔郁，擺咗喺個站度，咁都會發出「呔」一聲，同  
12 埋有燈去顯示嘅。

13 主席：（經傳譯員）有四方面，係咪呀？

14 楊晉瑋先生：係，正確。

15 黃女士：（經傳譯員）由幾時開始，你哋有呢一個咁嘅係系統，就係用呢啲方法去警  
16 示嗰啲車長，即係提醒佢哋，你話呢個細嘅裝置？

17 楊晉瑋先生：唔好意思，如果 exact 嘅日期我已經唔記得咗喇，但係應該都有好幾  
18 年嘅時間，呢個如果需要，可以之後我去搵番資料。

19 黃女士：（經傳譯員）關於呢個黑盒，你可唔可以講多啲畀我哋聽？點樣用佢嚟到去  
20 監察車長嘅表現？

21 主席：（經傳譯員）你未落去之前，我想問，你哋嗰個係限值係定喺邊度，係定個限  
22 值喺邊度，然後嗰啲燈先會係發光，同埋幾時先會作一個細聲嘅「呔呔」響？譬  
23 如話超速，咁個限值喺邊度？

24 楊晉瑋先生：詳細嘅數據我有喺手，咁佢係會有個速度，同埋佢喺幾多秒鐘剎車或者  
25 加速，都會有呢樣嘢，有嗰啲 standard 喺度，但係我哋--我呢一刻冇嗰個數  
26 據掌握。

27 主席：（經傳譯員）一啲都有？任何一項都有？

28 楊晉瑋先生：有。

29 主席：（經傳譯員）而家呢度打出嚟嗰個資料會唔會幫到你手？呢個就係黑盒，就係  
30 大埔巴士，即係話今年2月10號嗰部巴士嘅資料嚟嘅。

31 黃女士：（經傳譯員）係喺 BM-66 嗰頁。

1 楊晉瑋先生：我有見過呢啲數字，但係最後係--因為我知道，我哋 management 佢  
2 會 tune 呢啲數字，去睇下會唔會需要加強嗰個 warning 嘅，咁喺呢一刻，係  
3 咪用緊呢一 set 嘅數字，我唔肯定。

4 黃女士：（經傳譯員）你又提過係管理階層就係會調整啲啲數字嘅，咁意思係指管理  
5 階層嘅邊一啲人士係會去作出呢個調整？

6 楊晉瑋先生：應該我哋工程部嘅 management，佢哋要去呢個系統，如果要 modify  
7 呢個系統，一定要係佢哋去做呢樣嘢，所以喺我嘅日常工作，就有接觸到呢啲數  
8 字嘅。

9 黃女士：（經傳譯員）或者我哋可以落去第 67 頁，喺 BM-67。或者係落去下面嗰  
10 度，喺藍色嗰個部分，藍色嘅第三段，呢一個就係 Openmatics 呢間公司，而  
11 你哋公司就係同呢個 Openmatics 就係有合約，就由佢哋提供呢個遠程測量，  
12 咁呢度就講到話，關乎呢個實時營運管理系統，我哋係唔知道九巴係有計劃係引  
13 入一個咁嘅系統，所以我哋係唔知道九巴有任何嘅計劃，去同嗰個係黑盒，或者  
14 係遠距離嘅系統就係將佢係有一個連繫嘅。

15 主席：（經傳譯員）或者你讓楊生一個機會去睇一睇先，呢個係 Openmatics ZF  
16 就提供畀我哋嘅。

17 黃女士：（經傳譯員）鄭生，睇咗未？

18 楊晉瑋先生：（經傳譯員）睇咗嘞。

19 黃女士：（經傳譯員）你可唔可以就確認一下個情況係咁，九巴係？呢度所講嘅係咪  
20 屬實？

21 楊晉瑋先生：以我所知，應該正確。

22 黃女士：（經傳譯員）九巴有冇諗過係將呢一個遠距離通訊嘅系統，係同呢個實時營  
23 運管理系統，喺日後將兩者係連接起嚟？

24 楊晉瑋先生：呢個我唔清楚。

25 黃女士：（經傳譯員）你會唔會知邊個人會知道呢件事？

26 楊晉瑋先生：應該都係 engineer 嗰面嘅同事。

27 黃女士：（經傳譯員）而家我哋又想講番黑盒，可唔可以簡單咁同我哋講一講，九巴  
28 係點樣樣去監察車長嘅駕駛行為，點樣用黑盒去監察車長嘅駕駛行為？

29 楊晉瑋先生：其實有兩個範疇，第一個就係最 straightforward 嘅 speeding，  
30 無論我哋車務組，即係我哋而家 depot，或者係我哋嘅 TQD 嗰個  
31 department，佢哋都會去 monitor，用我哋個 program，咁嗰個 program  
32 背後就係喺個 black box 嗰度畀 data 佢嘅，呢個係 speeding。

1 另外就係頭先我講嘅嗰個駕駛提示器嗰個盒仔，咁其實背後都會 record 咗  
2 嗰個佢著燈響嗰個次數，呢個範疇就會由 TQD 去負責。

3 主席：（經傳譯員）你話嗰啲燈著燈嘅次數，係你邊度得到嗰啲資料？有響聲又點  
4 呢？

5 楊晉瑋先生：我哋嘅 IT 嘅部門，佢會 send 一個 report 出嚟，就去話番畀我哋  
6 聽，個車長嗰盞燈佢著過幾多次。咁當然譬如你話 harsh braking 咁計就，  
7 佢著燈又唔一定代表係佢唔啱，即係譬如如果前面有架車突然間停車，咁佢一定  
8 要剎車㗎喇，咁呢盞燈著咗，亦都未必代表個車長唔啱，所以 TQD 個部門可能  
9 佢會 review 番，會唔會係某一個車長特別多燈著，咁樣佢--或者佢會搵一啲  
10 便裝嘅一啲 assessor，去跟個車長，睇下佢個 driving behavior 有冇問題  
11 嘅。

12 黃女士：（經傳譯員）你提及你哋嘅資訊科技部門就會出一個報告，話畀你哋聽就係  
13 盞燈著過幾多次，即係會以某一個車長嚟計。咁我想問，會幾頻密一次？

14 楊晉瑋先生：大概一星期會有一個 report 出嚟，一至兩星期會有個 report 出嚟。

15 黃女士：（經傳譯員）不如舉個例子，如果個車長佢有咁嘅係習慣，就成日係大力剎  
16 車，咁亦都係喺呢個數據嗰度記錄低，咁呢個報告就只會係一個星期之後先畀到  
17 你嘅，係咪咁？

18 楊晉瑋先生：應該正確，冇錯。佢 past 幾多日我有印象，即係佢個 report 出嚟係  
19 幾多日之前，我有印象。

20 黃女士：（經傳譯員）車長會唔會知道佢自己有咁樣嘅係話急劇剎車嘅習慣，會唔  
21 會即時知？

22 楊晉瑋先生：佢個--佢如果揸車嘅時候，佢 harsh brake 嘅話，嗰盞燈係會著同  
23 埋會響嘅。

24 黃女士：（經傳譯員）咁個後果係點，如果個車長佢有咁嘅習慣，就係時常都會急劇  
25 剎車，即係一個禮拜之內成日咁做，有咩嘢後果？

26 楊晉瑋先生：所以我頭先 mention 過，我哋兩個部門都會一齊做，咁我講番我自己  
27 個部門先喇，咁我哋見到，因為你好難就住話佢響咗一次燈，就代表佢有問題  
28 嘅。咁我哋會搵一啲 repeater，即係經常會有燈著嗰啲，我哋會去--打電話去  
29 同佢做個溫馨提示，或者我哋會搵番我哋嘅一啲外勤，即係頭先我講嘅車務督  
30 察，會睇下--跟下佢車，睇下呢個車長有冇問題。咁同另一邊箱，TQD 嗰面，  
31 佢哋亦都--頭先我 mention 過，佢哋會搵一啲可能便裝嘅 assessor 去跟佢，  
32 睇下佢，去評估番佢個駕駛係咪經常好割，成日急剎，跟車太貼之類呢啲咁嘅唔  
33 好嘅 behavior。

34 黃女士：（經傳譯員）你所講嘅 TQD 係咩嘢？

1 楊晉瑋先生：TQD 其實係我哋一個 training 同埋--training and quality  
2 assurance department，咁佢個職責係去培訓我哋車長，同埋去評估佢哋嘅  
3 駕駛技巧，或者如果需要嘅話，進一步行動，譬如去有啲紀律行動，或者一啲  
4 warning，都會由呢個 department 去負責嘅。

5 黃女士：（經傳譯員）你講過，你就同呢個部門 TQD 係一齊睇下有邊啲人就係經常  
6 咁做，咁就首先會打電話，就畀個溫馨提示。我想問，就有幾多人係咁樣經常  
7 咁做？或者你畀個例子，譬如今年嚟計，有幾多人係咁樣重複咁去做？

8 楊晉瑋先生：大概可能每一次係會有一個、兩個，其實我未必係 repeater 嘅，可  
9 能係我見佢個 report，佢個次數係高於其他嘅車長，咁我就會搵一啲比較嘅  
10 個 list 裏面好高啲車長，就會去 remind 佢。咁其他可能一啲可能係一次、  
11 兩次啲，可能我哋就會再睇下佢下一次會唔會再出現咁樣。咁你話個數目，以  
12 我屯門嚟計，其實就幾個咁樣，係 less than ten 咁樣。

13 主席：（經傳譯員）「少過十個」係咩嘢意思？

14 楊晉瑋先生：成間屯門廠大概九百幾個車長。

15 主席：（經傳譯員）有九百個車長，但係少於十個就屬於呢個類別，係咪咁嘅意思？

16 楊晉瑋先生：係，冇錯。

17 主席：（經傳譯員）唔該晒。

18 黃女士：（經傳譯員）呢十個，佢哋係急劇剎車係有幾多次？佢哋係會急劇剎車幾多  
19 次，然後先至係引發你係關注？

20 楊晉瑋先生：通常個數字都係個位數嘅，即係可能係五次、六次咁樣，咁我哋就會  
21 覺得佢係比較多，我哋就會去做我哋頭先個行動。

22 黃女士：（經傳譯員）你講「五、六次」，係一日五、六次定抑或一個星期五、六  
23 次？

24 楊晉瑋先生：應該一個禮拜嘅，但係個 exact 數字我要 verify，我唔可以 sure，  
25 呢度。

26 黃女士：（經傳譯員）可唔可以提供啲資料畀我哋，日後？

27 楊晉瑋先生：可以。

28 黃女士：（經傳譯員）如果有個人有咁嘅習慣，即係講番個十個，你又會採取咩嘢行  
29 動，如果你留意到有個人成日都有呢個急劇剎車嘅習慣？除咗係打個電話畀佢，  
30 你仲會做啲咩嘢？會唔會同佢傾下，就問下佢咩嘢原因？

31 楊晉瑋先生：會打電話，或者面對面嘅 interview 都會有機會做嘅。

- 1 黃女士：（經傳譯員）你有冇對呢十個人咁樣做？
- 2 楊晉瑋先生：有，一係我或者我其他嘅同事都會去做呢個動作。
- 3 黃女士：（經傳譯員）佢哋有冇改善？
- 4 楊晉瑋先生：有一啲會嘅，你下一次會見唔到佢出現，咁可能個別啲，佢哋--我印  
5 象唔多會--下一次會見到佢，大部分都會有改善嘅，以我印象裏面。
- 6 黃女士：（經傳譯員）程艾樂先生嘅作供嘅時候亦都表示，喺其中一次會議之中，佢  
7 哋傾到用一個評分卡嘅制度，即係針對車長嘅，咁考慮其中一個系統，就係一個  
8 GreenRoad.com 嘅制度，就係針對駕駛嘅行為嘅。咁有三大類，包括係紅、黃  
9 同綠嘅。
- 10 主席：（經傳譯員）你有冇聽過呢套系統？
- 11 楊晉瑋先生：有。
- 12 黃女士：（經傳譯員）你幾時開始聽過呢一套系統？
- 13 楊晉瑋先生：年份大概應該都係 13 或者 14 咁上下，exact 我都係唔記得嘞，都好  
14 幾年前。
- 15 黃女士：（經傳譯員）喺你哋其中一個會議上面，有冇探究或者討論過呢個系統，即  
16 係同其他嘅車廠嘅代表或者管理層？
- 17 楊晉瑋先生：你嘅意思係，ROM 啲 meeting 就有 cover 呢樣嘢嘅。
- 18 黃女士：What about meetings other than ROM?
- 19 楊晉瑋先生：有，如果專係針對呢樣嘢，有曾經有個 meeting 開過。
- 20 黃女士：（經傳譯員）係咪喺 2013 至 14 年？
- 21 楊晉瑋先生：係嘞，應該 around 啲時間，真係幾年前嘅時間。
- 22 黃女士：（經傳譯員）有邊個出席，即係喺管理層方面？
- 23 楊晉瑋先生：如果你話當時嘅 member，我真係要 check 番有邊個喺度，因為我哋  
24 有好多唔同嘅會，有唔同人參與。咁我當時我有份嘅，我有份開嘅，呢個會。咁  
25 其他人我--應該有好幾位都已經離開咗九巴，或者退咗休。
- 26 主席：（經傳譯員）呢個會議有冇紀錄㗎？
- 27 楊晉瑋先生：應該有 record，但係 e-mail 可能會有個 brief 即係 send 番出  
28 嚟，但係我要--我唔肯定我 e-mail 仲有冇 keep 到呢啲 record。
- 29 主席：（經傳譯員）你可唔可以去檢查一下有冇呢個紀錄？

1 楊晉瑋先生：可以。

2 主席：（經傳譯員）除咗電郵之外，呢啲會議有冇會議紀錄？

3 楊晉瑋先生：我哋可能好多會都會用 e-mail 做一個 recap 嘅，咁個已經 serve  
4 as 個 minute，我唔肯定--我唔記得嘞，呢個會有冇 minute take 過，我唔  
5 肯定。

6 黃女士：（經傳譯員）呢套系統係冇被採用嘅，你知唔知點解？

7 楊晉瑋先生：呢個 system 應該有用到啲，我唔肯定係咪 Mr Alok 講嗰個名，但係  
8 頭先你嘅 description，同我哋而家有個 system 係非常之相似。

9 主席：（經傳譯員）嗰個系統係咩嘢？

10 楊晉瑋先生：佢會 based on 個車長嗰個--其實背後都係頭先我講嗰個盒，嗰個  
11 燈，同埋個發出嘅聲，嚟 based on 佢嘅駕駛表現，嚟出三種顏色嘅燈話畀佢  
12 知嘅。呢個燈係幾時會出，就係佢喺返工嘅時候，佢要喺個總站拍佢個個人八達  
13 通，個 staff card，佢個電腦就會顯示畀佢聽，畀佢睇，下一班車佢要開幾多  
14 點。咁喺嗰個螢幕度，佢會有三種顏色出嚟，去話番畀個車長聽，佢個駕駛表現  
15 係屬於綠色最好，黃色係中間，定係紅色係需要改善嘅。咁呢個 system 到到呢  
16 一刻，我都仲見到會冇用緊。

17 主席：（經傳譯員）當車長係落班嘅時候，佢喺咁張八達通，呢個資訊會喺邊度顯  
18 示出嚟？

19 楊晉瑋先生：佢應該只會喺佢每日返工第一轉車，即係第一次 tap 卡嘅時候，佢會  
20 話番畀佢聽，佢個--exact 嗰個 period 我唔知，佢係話番畀佢聽，係上個禮  
21 拜定係幾日前嘅 record，我唔肯定，但係唔係同日嘅 record 嚟嘅，所以主席  
22 你問嘅，佢 sign off 嘅時候，係冇 display 到畀佢。

23 主席：（經傳譯員）你嘅意思係咪話，即係喺簽到嘅時候，會顯示資訊，係咪呀？

24 楊晉瑋先生：係，冇錯，佢 sign on 嘅時候。

25 主席：（經傳譯員）所顯示嘅資料係針對邊段時間？

26 楊晉瑋先生：呢個我要 check 番佢個 period 係 refer to 幾時，但係唔係 real  
27 time，即係唔係講緊即日話番畀佢知嘅，係對上一個 period，但係呢個  
28 period 係幾多，就我呢一刻有個資料喺手。

29 主席：（經傳譯員）資訊喺邊度顯示出嚟？即係車長會喺邊度見到呢個資訊？

30 楊晉瑋先生：喺每一個巴士總站都會有一部電腦，就個車長佢每一次返到個總站報到  
31 嘅時候，佢都要用自己嘅 staff card 去拍卡，去攞 information，咁個  
32 電腦就會喺個巴士總站嗰個 kiosk 出面對住個車長嘅。

1 主席：（經傳譯員）電腦嘅螢幕係會顯示啲咩嘢？

2 楊晉瑋先生：佢會用三種顏色嚟話畀個車長聽，正如我剛才講嘅紅色、黃色同埋綠  
3 色。

4 主席：（經傳譯員）佢哋分別代表啲咩嘢？

5 楊晉瑋先生：詳細嘅 definition，我要 check 番背後嗰個 definition，但係綠  
6 色就係佢個表現係非常之好，係個車長做得好好，佢個 performance；黃色  
7 嘅，就應該係可能佢有一啲地方可能個 behavior，driving behavior 需要  
8 更改，其實都係 based on 頭先我講嗰個提示器，喺架巴士度；咁當然紅色  
9 嘅，就會係好差嘅，咁應該紅色嘅差，就係我哋--頭先我講 IT 會 send 畀我個  
10 report，我 gen 到出嚟嘅人，most likely 都係應該呢啲人會收到紅色嘅。

11 主席：（經傳譯員）如果顯示綠色燈，係咪代表喺即係之前嗰段嘅行車期間，就有出  
12 現一啲即係警告嘅信號，係咪？

13 楊晉瑋先生：以我所知，係。

14 主席：（經傳譯員）咩嘢情況先至出現黃色燈？

15 楊晉瑋先生：佢個 definition 我真係要 check 一 check，即係究竟點樣先會出到  
16 amber 或者 red 嗰個 signal 出嚟，背後個 definition 我呢一刻冇喺手。

17 主席：（經傳譯員）你可唔可以提供呢個資料？

18 楊晉瑋先生：可以。

19 主席：（經傳譯員）呢個資訊係咪有一個列印嘅版本？

20 楊晉瑋先生：其實就係頭先主席你問我嘅，如果有 e-mail 或者 minute，就會喺嗰  
21 度 list 咗出嚟嘅，所以如果我搵得番嗰個 e-mail，我就可以 disclose 畀  
22 你。

23 主席：（經傳譯員）好，麻煩你。

24 黃女士：（經傳譯員）就住螢幕上面顯示嘅資訊，你可唔可以影一啲相，即係喺呢一  
25 個休息室外面嘅顯示屏？

26 楊晉瑋先生：可以。

27 黃女士：（經傳譯員）如果有個車長係得到紅色燈，咁會有咩嘢後果？

28 楊晉瑋先生：其實佢係一個提示嘅性質，如果--我哋做嘅 action 其實就係頭先我  
29 講，如果 IT department 收到嗰個 file，我見到佢哋係 repeater，或者佢  
30 係特別高過其他車長，我哋就會 take 我頭先嗰個 action，打電話畀佢，或者  
31 TQD 個部門會搵人跟佢。但係喺最前面嗰個 screen，即係頭先主席想問我擺嗰

1 個螢幕，其實係做一個提示嘅動作，rather than 係有一啲 action 要去  
2 against 個車長嘅。

3 黃女士：（經傳譯員）你有冇探討過，係要求一啲得到紅燈嘅車長係去即係接受一啲  
4 補救性嘅培訓？

5 楊晉瑋先生：我印象我有試過，如果--因為我部電腦，我係唔會睇到個車長係咩嘢顏  
6 色，綠色、黃色、紅色，因為嗰個係畀車長佢自己一個 remind, reminder 畀  
7 佢，反而我係 based on 我頭先講過嗰個 IT send 嗰個 report，如果真係有  
8 一啲 repeater 係出現嘅話，而個次數係高，咁 TQD 嗰邊係要畀 training 佢  
9 嘅。

10 黃女士：（經傳譯員）咁得到綠色燈嘅車長，又會係點？你哋公司有冇考慮過係即係  
11 畀一啲獎勵，即係畀一啲係長期都得到綠色燈，而駕駛行為良好嘅車長？

12 楊晉瑋先生：我諗綠色，我哋冇刻意去做一啲動作去讚賞佢哋，因為我哋 assume 應  
13 該佢揸車好係正常嘅一個表現嚟嘅，以我所知，我公司應該有做呢樣嘢。

14 黃女士：（經傳譯員）呢套系統係咪同時都適用於兼職嘅車長？

15 楊晉瑋先生：以我所知，有，因為佢哋喺架巴士，嗰個盒仔都會提佢哋，都會響，都  
16 會著燈。

17 黃女士：（經傳譯員）楊先生，我就會去講另一個議--話題，就係呢啲閉路電視嘅。  
18 我哋聽取咗一啲證供，係嚟自一啲嘅工會，佢哋講到一啲襲擊車長嘅--即係經  
19 常--即係車長經常受到襲擊嘅。

20 主席：（經傳譯員）我諗你係即係講一個新嘅議題，因為時間有限，我哋而家會暫  
21 停，咁個聽證會就會喺兩點半繼續嘅，唔該晒，楊先生。

22 楊晉瑋先生： Thank you.

23

24 下午 12 時 58 分聆訊押後

25

26 下午 2 時 30 分恢復聆訊

27 出席人士如前。

28

29 主席：（經傳譯員）午安。黃大律師。

30 黃女士：（經傳譯員）係，唔該晒。楊先生，喺午餐之前，我哋就係講緊關於黑盒  
31 嘅，我可唔可以再問一問關於黑盒嘅事呢？你話就關於就有一個警示車長嘅制

1 度，譬如如果佢哋係有突然之間剎車等等，幾年前其實就呢個系統已經係有安  
2 裝，但係就唔記得咗係邊一年？

3 楊晉瑋先生：正確。

4 黃女士：（經傳譯員）我哋而家睇幾份文件，就係你公司嘅陳述書嚟嘅，睇下會唔會  
5 幫到你，就 KMB 九巴第 1 號文件，第 168 頁，呢個係九巴嘅陳述書，2018 年  
6 5 月 18 號嘅，如果我哋睇番呢一頁，呢一度就係講到就係關於黑盒，佢可以記  
7 錄啲乜嘢，關於係超速或者急劇嘅剎車或者係突然加速。

8 第三點，就係話一個呢個車長，我哋點樣去識辨佢，就係透過我哋個總站  
9 管理系統嘅，呢個總站管理系統，你係咪其中一位係有參與呢個系統嘅一個人  
10 呢？

11 楊晉瑋先生：就呢個係一個日常我哋會用--我係會用嘅一個系統嚟。

12 黃女士：（經傳譯員）我哋返番去第 148 頁，呢個係一個行動計劃嚟嘅，就係話點  
13 樣去落實一啲 2018 年 4 月 10 號提出嘅，就係一啲主要嘅建議，呢個就係關於  
14 係 2018 年 3 月 12 號關於呢個嘅大埔嘅意外嘅一個報告，...

15 主席：This is a redacted version of that report?

16 黃女士：（經傳譯員）...呢個就已經係刪減咗啲某部分嘅。我哋睇番第 148 頁第  
17 10 段，右邊嗰欄，呢度就講就話--個題目就係，呢個九巴就應該係監察車長嘅  
18 表現，就特別係分析咗黑盒裏面嘅佢哋嘅紀錄，同埋就睇下如果佢哋車長有一  
19 啲不恰當嘅行為，就應該係有紀律處分嘅。

20 喺右面，我哋就有一個叫做“BOP 207”嘅功能就喺黑盒裏面嘅，但係呢  
21 個咁嘅，就係每一日就睇番嗰個駕駛嘅紀錄，其實係睇番之前十日嘅，如果有  
22 發現有一啲異常嘅情況，就會係由呢一個嘅培訓同埋管理質素部門就會係去處  
23 理嘅，然後佢哋就會係作出處分嘅程序，基本上係咪睇番之前十日嗰個嘅紀錄  
24 呢？

25 楊晉瑋先生：以我嘅認知，應該我哋 IT Department 係嘗試去將十日呢個日數係  
26 減低嘅，但係我手頭上，我唔係好肯定佢減低到幾多日，應該如果我有記錯，  
27 應該佢係少過十日嘅。

28 黃女士：If you look further...

29 主席：（經傳譯員）你繼續之前，“BOP 207”係咩嘢意思呢？

30 楊晉瑋先生：“BOP 207”其實係我哋一個叫做“BOM”，B-O-M，嘅一個  
31 programme 裏面嘅其中一個 function，B-O-M 應該係 stand for bus  
32 on-board management，something like that，佢呢個 function 佢係  
33 會幫我 capture 每部巴士佢嘅超速紀錄嘅，每逢有巴士會超速，即係個路面嗰  
34 個車速限制，我哋會用呢個 BOP 207 可以 retrieve 到呢啲 speeding 嘅

1 record。

2 主席：（經傳譯員）我哋嗰個界限值係乜嘢係為之超速呢？

3 楊晉瑋先生：每一個 location 我哋都會 identify 咗佢係個法例嗰個限制車速，  
4 一係 50 公里每小時或者係 70 公里每小時，巴士一係 50，一係 70 嘅，當個巴  
5 士行經嗰一笪地方嘅時候，呢個 system 就會透過個 GPS 個 location 去  
6 match 番呢架巴士究竟有冇同個限制有出入，如果有嘅話，佢就會喺呢個  
7 report 度出番嚟嘅。

8 主席：（經傳譯員）通常係--你通常係超咗幾多先至話有超速呢？

9 楊晉瑋先生：應該以我所知，係會有一個 allowance 喺嗰度，因為驚嗰個 GPS 或者  
10 個 speeding 會唔準嘅，但係嗰個差距係幾多，我哋呢一刻冇嗰個數字喺度。  
11 我哋會做嘅，即係喺我嘅角色，總之逢嚟佢有呢個 record 出咗嚟，我哋  
12 verify 番嗰個 location 係正確呢，我哋就會交畀我哋嘅 TQD 嘅  
13 department 去做 follow-up action。

14 主席：（經傳譯員）你會係點樣去核證嗰啲嘅紀錄呢？

15 楊晉瑋先生：首先佢個--如果有架巴士出現咗佢話佢超速，我哋就會對番佢個  
16 departure record，究竟呢架巴士會唔會有人入錯車牌，喺頭先嗰個叫做  
17 TER 嗰個 system 嗰度，如果啱咗嘅話，證實咗係呢個車長負責駕駛呢架巴士  
18 嘅，我哋就再睇一睇佢個 GPS coordinators，個 X、Y 嗰個 coordinate 係  
19 咪正確，因為有時可能會受到干擾，會架車可能唔能夠正確顯示佢嘅位置嘅，  
20 當我哋正確見到個位置係啱，而見到嗰個車速限制係唔 match with 嗰個實際  
21 車速，即係如果佢超咗速嘅話，我哋就會確認呢個位置超速。

22 主席：（經傳譯員）除咗呢一個衛星定位系統嗰個嘅 X、Y 嗰度，你有冇其他嘅方法  
23 就去確定個地點？

24 楊晉瑋先生：以我所知，係冇嘅，我哋係用 X、Y coordinate 個 GPS。

25 主席：（經傳譯員）你係咪意思係經瑋度呀？

26 楊晉瑋先生：我唔知道有用其他呢兩樣嘢，我會最主要係用 X 同埋 Y 去做呢個確定  
27 嘅。即係我揸咗落去個 coordinate，佢就會彈咗一個地圖出嚟，個地圖就會  
28 顯示當時架巴士嘅位置，我哋就用呢個地圖個位置嚟確實睇下架巴士係咪真係  
29 行過嗰度、個車速係幾多。

30 主席：（經傳譯員）係，唔該晒。

31 黃女士：（經傳譯員）我哋睇番呢個表格，我哋睇到一個「里程碑」嘅，呢度寫住，  
32 呢一個資訊科技部就話佢哋而家做緊就係能夠改良緊巴士表現嘅報告，希望能  
33 夠更加好監察嗰個超速同埋緊劇剎車同埋突然加速嘅，但係跟住就係改善之  
34 後，嗰個車務部就會係分析有關嘅數據，就係一個禮拜兩次，就係之前八日嘅

1 數據，就係話畀啲車長聽有咩嘢異常嘅情況，嗰啲報告就會係一個禮拜兩次就  
2 係畀呢一個培訓部，然後就會即時採取一個行動，希望佢哋唔會再重蹈覆轍  
3 嘅。呢個就係畀運輸署嘅一個陳述書。

4 主席：（經傳譯員）呢個係咪一個意外報告？呢個唔係陳述書㗎㗎。

5 黃女士：（經傳譯員）係，冇錯。呢個係意外報告㗎嘅，呢個係一個嘅行動計劃，點  
6 樣去落實一啲相關嘅主要嘅建議，就係 2018 年 4 月 10 號，由 145 頁開始嘅，  
7 楊先生，根據呢個嘅「里程碑」呢一度，就其實個改善就係話由十日去到八日  
8 即係去做嗰個報告？

9 楊晉瑋先生：正確。

10 黃女士：（經傳譯員）你...

11 主席：（經傳譯員）而家個系統係咪淨係監察個速度呢？

12 楊晉瑋先生：如果 BOP 207，呢個 function 係淨係對車速做一個監察嘅。

13 主席：（經傳譯員）個改變就話唔係純粹就係監察嗰個速度同埋嗰個急劇剎車同埋急  
14 劇加速嘅。

15 楊晉瑋先生：如果你針對住 BOP 207 呢個 function，佢係冇包括頭先你講嘅  
16 harsh braking 或者係 sudden acceleration 呢兩樣嘢，係淨係 focus  
17 on speeding。

18 主席：（經傳譯員）所以話佢哋個建議就係話我哋監察，就唔純粹係超速，就係同埋  
19 急劇剎車同埋突然加速，呢度係咁講嘅，係咪呀？

20 楊晉瑋先生：係，冇錯，即係就係要用另外一種 report，就係頭先即係 lunch 之  
21 前講嗰個 report，係會 review 埋 speeding、acceleration 同埋  
22 braking 嗰兩樣嘢，呢個就係頭先喺之前 cover 㗎嘅。

23 主席：（經傳譯員）呢度講就話呢度要改善嗰個嘅巴士表現報告嗰個，就希望能夠更  
24 加好監察超速、急劇剎車同埋急劇加速嘅，你係咪已經有嘅呢？

25 楊晉瑋先生：我唔肯定佢而家呢個“Milestone”呢度 mention 嘅 improvement  
26 個 action plan 而家 implement 㗎未，但係 as of 今日，我係繼續用緊  
27 BOP 207 去 monitor 個 speeding 同埋頭先剛才講嗰個 IT 會 send 畀我嘅  
28 report 就係 monitor speeding、harsh braking 同埋個 acceleration  
29 嘅，我唔肯定我而家做緊嘅嘢係咪等於“Milestone”講佢嘅 action 嘅。

30 主席：（經傳譯員）唔該。

31 黃女士：（經傳譯員）關於呢個報告，今朝早你提到嘅報告，就關於急劇剎車等等，  
32 你幾時開始係有收到呢啲報告嘅呢？

1 楊晉瑋先生：呢個 report 應該我喺 2017 年嘅時候已經有見過呢個 report 嘅，已  
2 經我哋已經開始要做㗎喇，exactly 我要--如果你需要，要再搵畀你。

3 主席：（經傳譯員）好，唔該搵喇。

4 黃女士：（經傳譯員）好，我哋講下一個題目，就係監察攝錄機。楊先生，有好多嘅  
5 工會話畀我哋聽，特別係九巴嘅工會就越嚟越多一啲辱罵車長嘅事情，係乘客  
6 去辱罵車長嘅，其中一個可以幫警方去執法嘅方法就係用一啲監察嘅攝錄機去  
7 影低無論係聲帶或者係影像，就係知道發生緊咩嘢事，我哋又睇一啲證供話畀  
8 我哋聽起碼就係--即係最少就係九巴，而家係有二千三百一十九嘅九巴巴士、  
9 一百四十六個龍運巴士就係有呢啲嘅監察攝錄機嘅。咁可唔可以講下據你所知  
10 其餘啲巴士呢？

11 楊晉瑋先生：Okay，剛才你講嘅數字，以我嘅認知，應該--因為隨住我哋啲新車不  
12 斷買入，啲舊車退役，所有新車買嘅時候就已經 installed with 呢個 CCTV  
13 嘅呢個 device，所以應該而家實際嘅數字係比剛才你 mention 嘅為多嘅，至  
14 於餘下落嚟嘅車，以我所知，公司會有計劃喺今年嘅年底之前，再為應該大概-  
15 -exact 個 figure 我唔肯定，但係應該大概六百零、七百架車再去幫佢拉線，  
16 再裝個 CCTV 上去嘅，呢個係我知道 Management 2018 年會做嘅一樣嘢。

17 黃女士：（經傳譯員）2018 年管理層啲個計劃有冇包括所有九巴呢？雖然有啲係舊  
18 車。

19 楊晉瑋先生：如果我就咁睇個數字，就未 cover 得晒，應該剩番好少數將會就嚟退  
20 役嘅車有包含，即係如果我計番我哋個 bus fit 出嚟嘅話，就應該未 cover  
21 晒。我唔肯定佢會 2019 年係咪會繼續有 plan 呢個，呢個我唔清楚。

22 黃女士：（經傳譯員）我哋聽到有啲投訴，或者唔好講「投訴」，係有啲建議，就係  
23 工會嘅成員佢哋建議就安裝自己嘅一啲攝錄鏡頭，因為有啲舊嘅巴士型號就係  
24 冇攝錄鏡頭嘅，佢哋覺得裝咗都可以有個措施可以保障到佢哋安全同埋係即係  
25 睇番乘客嘅行為嘅，但係九巴係否決咗呢個建議嘅，亦都出咗一個通函，係咪  
26 咁呀？據你所知。

27 楊晉瑋先生：以我所知，係，我哋係唔容許車長去裝自己嘅攝錄系統嘅。

28 黃女士：（經傳譯員）你係咪發咗個通函...

29 主席：Why not?

30 楊晉瑋先生：我答主席嘅問題，我知道嘅，就應該關於一啲個人私隱條例裏面可能有  
31 一啲限制公營巴士嘅點樣去應用啲個片嘅。

32 主席：What is that an acronym for?

33 楊晉瑋先生：個人私隱條例，exact 佢係邊個 clause 講，我唔肯定嘅，但係我知  
34 道，我聽番嚟嘅，就係因為其實係保障番個車長，因為之前試過有一啲 case 係

1 我哋車長--即係 KMB 嘅車長佢可能影咗一啲片，跟住放咗上網，之後我哋係收  
2 到一啲投訴係關於個人私隱，係侵犯咗對方嘅。所以我哋--即係我嘅認知，就  
3 我哋都會同車長講「因為係保障番車長嘅利益，有個人私隱條例規定咗某一啲  
4 嘢，令到就唔可以畀你哋自己裝嘅。」呢個係我嘅認知。

5 主席：（經傳譯員）唔該。

6 黃女士：（經傳譯員）喺你嘅開場發言，你就提到過話你嘅角色就好重要嘅，意思就  
7 係話你係作為一個好重要嘅橋樑嘅，係管理層同埋前線員工之間嘅橋樑，你有  
8 冇提出過巴士車長嘅關注呢，或者佢哋有咁嘅要求，有冇向管理層講呢？

9 楊晉瑋先生：有嘅，其實另一方面我都有收過有一啲車長佢哋嘅反應，佢哋係唔鍾意  
10 我哋裝個鏡頭喺架車上面嘅，所以呢一方面我都曾經同管理層講過話「你裝咁  
11 多喺架車上面，其實有一啲車長係覺得保障佢哋，但係有一啲車長都唔係好鐘  
12 意，好似有樣嘢去 monitor 住佢，好似好大壓力咁。」呢個我都 express 畀  
13 管理層知嘅。

14 黃女士：（經傳譯員）關於襲擊車長嘅事件，我哋就見到九巴嘅書面...

15 主席：（經傳譯員）我哋講第二個範圍之前，黃大律師頭先問你通函，然後我頭先打  
16 斷咗佢嘅，個通函係咪有發出過，係同巴士車長講話佢哋唔可以自己裝自己嘅  
17 監察鏡頭，有冇咁樣通函？

18 楊晉瑋先生：喺我印象裏面係--我有印象見過呢一個通告嘅，唔知係咪我忘記咗，但  
19 係我有印象見過呢個通告。

20 主席：（經傳譯員）呢個資訊點樣畀巴士車長知道，等佢哋知道佢哋唔可自己裝閉路  
21 電視或者監察鏡頭呀？

22 楊晉瑋先生：即係其實我哋明白車長有--如果佢自己選擇裝上去嘅車長，我哋係明白  
23 佢個立場嘅，所以通常我哋都會用一個比較柔軟嘅方式去同佢哋講話「其實你  
24 咁樣裝，有機會--當然你保障咗自己，但係你有機會都違反咗某一啲條例  
25 嘅。」我哋就建議佢去拆番呢個 CCTV 落嚟，即係拆番佢自己裝嘅 CCTV 落嚟，  
26 如果勸咗佢唔聽嘅話，我哋都會交番畀 GQD 嗰面去跟進嘅，但係我哋係唔會話  
27 即刻要佢拆咗佢，如果唔係，就唔畀佢開車，我哋有做呢樣嘢嘅，即係會比較  
28 柔軟啲嘅。

29 主席：（經傳譯員）即係建議啫，唔係話完全禁止？

30 楊晉瑋先生：喺我哋嘅角色，我哋喺前線同事，我畀佢哋嘅 instruction 都係  
31 recommendation 畀佢哋唔好咁做，至於 TQD，我哋--即係如果個車長佢唔  
32 拆，我哋 pass 畀 TQD，可能佢哋會再進一步嘅行動去解釋番畀個車長聽，其實  
33 有啲咩嘢弊處係存在住咁樣。

34 主席：（經傳譯員）但係都係建議，但係唔係話禁止嘅？

1 楊晉瑋先生：喺我個角度--喺我嘅角色，喺我前線嘅團隊嘅角色，我係做一個  
2 recommendation 嘅動作。

3 主席：（經傳譯員）你叫 TQD，培訓及質數保證部，佢哋係咪又係建議咩，定係直頭  
4 禁止咩？

5 楊晉瑋先生：呢個我唔清楚。

6 黃女士：（經傳譯員）你而家可唔可以同 TQD 問下？

7 楊晉瑋先生：冇問題。

8 黃女士：前線員工如果想裝監察鏡頭，但係自己有嘅話，你有冇將佢哋嘅訊息去上--  
9 即係講畀管理層聽就有巴士車長係想裝監察鏡頭嘅時候應該幫佢裝，等佢哋--  
10 即係話車長自己本身唔需要違反呢個嘅私隱條例呢，你有冇同管理層講？

11 楊晉瑋先生：有，喺唔同嘅場合，都會收到車長嘅一啲意見，即係一啲 formal 嘅  
12 visit 或者一啲 informal，我落去同啲車長傾偈，佢哋都有同我反映，我都  
13 會同番管理層講番車長嘅意願嘅。

14 黃女士：（經傳譯員）管理層個反應係點？

15 楊晉瑋先生：我收到管理層嘅回覆，就係佢哋已經儘快希望將我哋啲巴士就裝--即係  
16 新車固然之會有，舊車都會儘快裝呢個系統嘅，佢哋--當時佢應該同我講係佢  
17 哋知道、明白車長嗰個需要。

18 黃女士：（經傳譯員）我哋聽到有工會成員就話因為有越嚟越多襲擊車長嘅事件，佢  
19 哋就當係平常事，喺你嘅意見書入面就提過就會畀一啲心理輔導或者係支援畀  
20 有關員工嘅，你嘅意見，巴士車長有冇咩嘢提議，即係點樣可以改善，喺呢一  
21 部分，喺公司應該點樣改善。呢一頁我哋都見到，就應該係 149 頁--對唔住，  
22 113 頁，就提到專責小組就搵咗個顧問去全面檢討現行嘅做法，然後就提出一  
23 啲建議，包括要評估巴士車長佢嘅情緒智商同埋係處理壓力咁樣，你有冇...

24 楊晉瑋先生：本身 KMB 係有同一間第三者嘅機構去合作，提供一條熱線去提供畀啲  
25 車長，嗰條叫做「傾心線」，係一個獨立運作嘅一個 hotline 嚟嘅。至於我見  
26 到而家 paper 3 第 38 段講嘅呢樣嘢，我都知道管理層係做緊呢樣嘢，佢哋當  
27 中其中一個 meeting 我都有出席過嘅，佢哋係委派咗或者邀請咗一間--應該香  
28 港一間大學輔導系或者心理系，個名我唔肯定，去幫佢做一個 review 或者睇  
29 下有啲咩嘢 recommendation 可以畀到九巴嘅，其中一個 meeting 就係同呢  
30 啲心理學家去--我會話番畀啲心理學家聽究竟而家我哋啲車長有啲咩嘢面對緊  
31 嘅。

32 黃女士：（經傳譯員）繼續講另外一個問題，講巴士脫班，我哋聽到你嘅同事，即係  
33 黃綺玲女士佢畀嘅證供就話脫班係常見嘅情況，亦都會影響駕駛嘅態度，因為  
34 預定嗰個嘅行車時間唔準確，亦都會影響車長休息嘅時間，你對呢件事有咩嘢

睇法？

楊晉瑋先生：其實喺我嘅角度，lost shift 其實有好多嘅因素會導致嘅，首先就係我哋車長唔夠人，我哋會有咗一個班次，我哋香港嘅交通可能塞車或者有啲特別事故，引致到架車開唔到，就有咗一個班次，另外有啲可能一啲公眾活動、遊行或者一啲特別改路措施都會令到架車有咗一個班次，當然仲有天氣或者一啲壞車嘅影響都會令 lost shift 嘅出現嘅，但係我哋喺 lost shift 嗰度，儘量我哋都唔會影響到車長嗰個 journey time 嗰個休息時間。因為其實個 journey time 我哋提供咗畀個車長，我哋嘅 schedule, journey time 係大概 90% of 佢個 trips 係可以有足夠嘅時間行車，90%呢個係一個 index，可能會高啲，可能會低啲。

咩嘢叫做 90%呢？就即係佢十個 trip 裏面可能會有九個 trip，佢都會有足夠嘅 journey time 去 operate 嗰架車，之後返嚟仲會有休息時間嘅，剩番個 10%，即係剩番個一個 trip，可能就係因為頭先我講嘅其他問題，令到可能大塞車，佢返唔到去。而喺 lost shift 嗰度，我哋係唔會刻意去減咗個車長個 journey time 係令到佢追番我哋唔見咗嘅 shift 數嘅。

黃女士：（經傳譯員）我哋可唔可以舉個例子，你朝頭早提過寶田邨嗰個站，就有特別更次，你都記得嘅。喺寶田邨，我就睇過你嘅九巴網站，就有幾條巴士線嘅，其中一條就係 258D，係由寶田邨去藍田，我相信估計嘅行車時間係個半鐘，啱唔啱？

楊晉瑋先生：大概應該係呢個 journey time，係。

黃女士：（經傳譯員）亦都有證供話畀我哋聽，就關於呢個特別嘅呢個 258D 呢個路線，嗰啲我哋嘅行車時間就係--嗰啲車長如果做呢個特別更次嘅時候，佢哋就有足夠嘅休息時間，我哋可唔可以將琴日工會嗰個陳述書嘅部分我哋可以喺個畫面嗰度睇一睇？呢個係 258D 嘅路線，「蛇」5，呢個就係分更第 5 號，呢度講就係話開車時間係 06:50，然後就 13:43，跟住就係 16:00，至到 20:15 嘅，所以嗰個休息時間就係中間嗰段，就係只係有兩個鐘十五分鐘，就而唔係三小時嘅休息時間，呢個係公司定出嚟嘅行車時間表嚟嘅，你對呢個嘅回應係點樣呢？

楊晉瑋先生：我而家就有 schedule 喺手，但係呢條線我都有份去做個 time table，以我嘅 memory 記得，呢一個 duties 佢第一段，即係 first session 嗰個 end time 應該係 12 點 43，唔係 13 點 43 嘅，因為其實有一個鐘頭，我哋係畀個食飯--我哋畀一個 meal break 嗰個錢畀個車長，即係其實佢 12 點 43 分，如果 on normal day，有塞車，應該喺 12 點 43 分之前，佢都已經係可以休息，下一次開車就係 4 點嘅，應該係多過三個鐘頭嗰個運輸署新嗰個 guideline，應該係 2019 年生效嗰個。

主席：（經傳譯員）你可唔可以確定下呢個係其實真係一個寫錯咗呢？其實就係 12:43，你可唔可以畀番啲紀錄我哋睇番呢？

1 楊晉瑋先生：可以，可以。

2 主席：（經傳譯員）如果係咁，就請你提供番相關嘅資料。

3 黃女士：（經傳譯員）其中一個工會成員，就係用呢一個黑盒就可以知道個行車時  
4 間，計出嚟，就而唔係話有個人佢揸車，佢就話畀你聽，而唔係用一啲科學嘅  
5 數據，其中一個建議就係繁忙同埋非繁忙時間嘅時候攞咗一啲資料，然後就加  
6 入一個因素，就係話可能塞車，然後先至係計出個行車時間，呢個係比較科  
7 學嘅講法嘅--做法嘅，你點樣睇？

8 楊晉瑋先生：其實我哋係有做嘅，我哋本身有一個 scheduling section，佢哋專  
9 係負責去 review 所有 time table，所有車長嘅 duties 都係由呢個  
10 department 去 review 嘅，我嘅角色就會協助畀啲 input 佢，譬如我收到啲  
11 意見，會話番畀呢個 section 聽啲車長邊度可能唔夠 journey time 或者佢  
12 哋有啲咩嘢要求。佢哋會 on and off 佢哋會用一個 system 去 review 個車  
13 長嘅 journey time 嘅。其實剛才你所講嘅，我哋用一架車或者用一架巴士去  
14 實地去試，其實呢個我哋唔係成日用，幾時會用到呢，就係可能開一條新線，  
15 因為我哋本身有一啲 historical data 我哋可以 review 嘅，所以我哋可能  
16 真係搵一架車，用番一個巴士嘅速度去模仿一次佢嘅 journey time 出嚟。

17 但係當一條線係已經有一定數量嘅 data 嘅時候，我哋係會用兩種方法，  
18 應該話嗰個 schedule section 佢哋會用兩種方法去 review 個 journey  
19 time，一，就係個車長嗰個到站同埋開車時間，就係記錄咗嗰個 TER，頭先  
20 mention 過嘅，每逢個車長到站嘅時候，佢就會嗰個站長室嗰度就拍自己個  
21 staff card，我哋就會記錄咗佢嘅到站時間，當然個站長就會嗰個度 input  
22 佢個下一次嘅開車時間，從而我哋將兩邊個--一個 departure time 再加一  
23 個 arrival time，兩個減起嚟，就知道佢實際用咗幾多嘅 journey time。

24 另外一個所講嘅，就係用番嗰個 GPS 嗰個 location 去定，其實呢兩個，  
25 無論邊個 method 都好，其實都係--我哋都覺得係 valid 嘅，因為真係反映到  
26 架車幾時到咗站，佢會不時佢去 review 呢個 journey time，就如果我--可  
27 以畀我舉一個例子，其實寶田係一個好好嘅例子嚟嘅。頭先講過 258D，另外一  
28 條線係 260X，佢係由寶田去紅磡火車站--紅磡鐵路站嘅，佢中間係途經過一笪  
29 非常之塞車嘅地方，就係而家起緊高鐵，近住佐敦嗰個附近。因為佢起高鐵嘅  
30 關係，佢嗰度有一個大型嘅改路，令到佢開頭一開始呢個工程嘅時候，我哋  
31 260X 係非常之唔夠行車時間，因為佢係未起高鐵突然間要改路，我哋就  
32 review 個 journey time，跟住然後就將嗰個 journey time 係加咗好多畀  
33 呢條線嘅車長嘅。去到而家呢一刻，其實而家最新嗰度有條地下隧道--行車隊  
34 道開咗，佐敦嗰度都已經比較冇咁塞車，我哋發覺呢條線佢嘅 journey time  
35 而家係多得滯，係多到架車返到總站係唔夠位泊車，因為啲車長佢太早返到  
36 站，所以我哋都會 review 個 journey time，可能 adjust 番，according  
37 to 佢個事實。

1 主席：（經傳譯員）你係咪需要係向運輸署去攞個批核嘅呢？

2 楊晉瑋先生：如果我哋自己可以 revise 到個 time table，係唔需要改任何嘅  
3 frequency 嘅話，我哋係唔需要同運輸署申請嘅，即係假設佢個 schedule  
4 of service 係規定我哋十分鐘一班嘅，260x，如果因為行車時間唔夠，我哋  
5 要加一個行車時間，可能我哋會用好多種方法，譬如係 deploy from 其他巴  
6 士線去行呢條線，又或者甚至乎加一架新車，加一架新線落去，呢啲我哋會按  
7 實際情況，睇下可唔可以做到，但係唔係喇，做唔到喇，因為一個好大幅嘅一  
8 個行車時間調整，我哋冇辦法可以憑我哋現有嘅 resources 去做呢，我哋惟有  
9 就睇下可唔可以將嗰個 frequency 稍為調整，當我要調整個 frequency 嘅時  
10 候，我哋一定要向運輸署去申請嘅，要等運輸署 approve 咗，我哋先可以去調  
11 整。

12 主席：（經傳譯員）唔該晒。

13 黃女士：（經傳譯員）我哋而家去傾第二個題目，今朝早黃綺玲女士就今朝早講，就  
14 係話有一個聚焦小組--焦點小組，就係去傾下究竟有啲邊啲路段就對於車長或  
15 者係乘客嚟講，都係比較危險嘅，如果喺屯門嚟講，你有冇啲類似嘅聚焦小組  
16 㗎？你就會同啲車長或者去傾去呢個嘅--邊一啲路段係都要特別小心或者一啲  
17 好急嘅彎等等咁樣？

18 楊晉瑋先生：有嘅，有呢啲例子可以提供。

19 黃女士：（經傳譯員）你可唔可以提供啲例子呢？

20 楊晉瑋先生：係，譬如我哋會--我哋有--通常用兩種途徑去收集呢啲 hazard 嘅，  
21 第一嘅，就係車長佢直接同我哋反映，因為佢哋係第一身，佢哋知道邊箇地方  
22 係有潛在嘅風險嘅，例如--譬如可能呢排 7 月、8 月佢落雨落得好緊要，有好多  
23 地可能嗰啲馬路會因為大雨嘅關係，會出現咗一個個嘅窿嘅。架巴士--如果  
24 私家車行，可能未必有問題，但係架巴士行，佢就會好掙，有機會乘客因為咁  
25 樣而 lost balance 嘅，車長如果話咗畀我哋知，我哋第一時間當然要通知番  
26 有關嘅政府部門；第二，就係如果我哋發覺係好嚴重，我哋會即時同站長，通  
27 知站長去話畀所有會途經嗰個路段嘅車長聽，話畀佢聽去到嘅時候可能佢要慢  
28 速，甚至乎可能佢係咪要出一條線去避開咗嗰個窿呢，呢個就係第一個我哋可  
29 以攞到嘅意見。

30 第二，就係我哋其他同事，我哋有一啲外勤嘅同事，佢哋其實--尤其是喺  
31 雨季，佢哋要定期去巡查個路面嘅，佢哋主要就係針對去巡--尤其是我因為屯  
32 門、元朗嗰面就比較多一啲郊區嘅線，好多啲樹嚟嘅，佢一落完雨，佢會因為  
33 可能水嘅關係，會髒咗落嚟，甚至乎有少少傾斜嘅危險嘅，嗰啲情況都係我哋  
34 主動發現到，因為佢有機會撞爛個巴士嘅玻璃，所以我哋都會即時--如果真係  
35 好嚴重，我哋會報畀警察聽，可能佢哋會搵消防員去 cut 咗個樹佢，但係如果  
36 可能好輕微掂到架車嘅，我哋就會話畀運輸署聽，等佢哋安排去做一啲修剪嘅  
37 工程。

1 黃女士：（經傳譯員）你就話你哋啲啲外勤人士就會係定期去巡查，幾定期呢？

2 楊晉瑋先生：我哋本身--我哋自己屯門廠就有一個叫做類似黑點嘅地方，即係我哋會  
3 話到邊啲地方其實有比較多嘅樹木係會伸出嚟嘅，我哋--佢係要 keep 住去做  
4 呢樣嘢嘅，尤其是喺呢個雨季嘅時候，佢大概一個月時間嘅，佢就會成個區--  
5 我哋成個區嘅所有 black spot 會巡一次嘅，我哋其實會視乎實際情況，譬如  
6 如果真係落雨大啲，我哋可能再要求佢會加密少少，但係如果嗰一排可能係冇  
7 乜雨，係陽光普照咁樣，可能樹個問題又唔係咁大嘅，但係其實平時佢哋巡  
8 路面--即係佢哋日常，譬如佢由呢個站去呢個站，佢哋嘅職責都要去不斷去  
9 observe，睇下有冇啲 safety 嘅 concern 係佢哋見到，佢哋會報囉。

10 黃女士：（經傳譯員）最後一個題目，運輸署最近話畀我哋聽佢哋就係發出咗一個實  
11 務守則，就係關於車長嘅培訓方面嘅，你自己有冇睇過呢個實務守則呢？

12 楊晉瑋先生：唔好意思，我唔清楚係 refer 緊邊個，有冇得可以畀我參考？

13 黃女士：（經傳譯員）TD-1 第 403 頁，我哋睇第 18 段，第 19 段，呢度就咁講，  
14 就係講關於--第 18 同埋第 19 段就講到呢個實務守則嘅。

15 主席：（經傳譯員）呢個喺其實過去十日之內先至發出嘅啫，呢個實務守則。

16 楊晉瑋先生：應該我哋嘅 practice 唔係呢排發生嘅，即係而家佢 refer 緊我哋嘅  
17 training，我哋 enhance 咗好幾個月㗎喇，以我所知，但係我唔知呢個  
18 paper 佢 refer 緊個樣嘢係咪我講緊個樣嘢。

19 黃女士：（經傳譯員）你係點樣改善你哋個培訓嘅呢？

20 楊晉瑋先生：我哋 training 裏面其實佢分開兩個 phase 嘅，一個叫做 phase 1，  
21 一個叫做 phase 2，phase 1 就係如果佢係有任何--即係佢淨係得 1 或者 2  
22 牌私家車咁樣，佢入嚟想做我哋嘅車長，佢就要透過 phase 1 呢個  
23 training，就去向運輸署去考取呢個巴士嘅駕駛執照嘅，呢個就係 phase  
24 1。當佢 pass 咗運輸署呢個駕駛考試之後，佢攞到個真係個巴士駕駛執照...

25 主席：（經傳譯員）你有冇喺過去幾個月可唔可以改善第 1 期呢？

26 楊晉瑋先生：Phase 1 我見唔到有 enhance 嘅動作。

27 主席：（經傳譯員）第 2 期呢？

28 楊晉瑋先生：Phase 2，有。

29 主席：（經傳譯員）點樣加強？

30 楊晉瑋先生：如果有需要嘅話，即係呢個係 management 畀我哋嘅  
31 instruction，如果有需要嘅話，我哋係唔會畀個車長去完成呢個課程嘅，一  
32 定係等佢自己有信心或者導師對佢有信心，我哋先會畀佢完成嘅，即係換句話說

1 話，原本可能佢係要 train 咁多日嘅，但係有信心，我哋寧願都係希望佢再畀  
2 多啲 training 佢，先可以畀佢畢業出嚟嘅。

3 主席：（經傳譯員）唔該。

4 黃女士：（經傳譯員）主席，我問晒喇。

5 主席：（經傳譯員）唔該。楊先生，多謝你嚟呢度作供協助我哋，你而家係作供完  
6 畢，你而家可以離席，但係你可以留嚟度，我哋會請下一位作供，唔該。

7 楊晉瑋先生： Thank you.

8 主席：（經傳譯員）而家稍為休息，楊生可以離席，休息兩分鐘。

9

10 下午 3 時 16 分押聆訊押後

11

12 下午 3 時 21 分恢復聆訊

13 出席人士如前。

14

15 主席：（經傳譯員）鄭先生，多謝你接受我哋邀請上嚟作供，亦都多謝你耐心全日咁  
16 樣等候，因為我哋之前係聽緊第二啲證供，而家輪到你，你應該有睇到我哋個  
17 程序，我哋而家會請黃大律師開始問你問題。可以開始。

18 鄭桂興先生：（經傳譯員）主席、委員，我好榮幸能夠出席呢一個聆訊，首先嚟開始  
19 問答之前，我要申報利益。可唔可以用中文？

20 主席：（經傳譯員）當然可以喇。

21 鄭桂興先生：本人同 2 月 10 號巴士災難十九位死難者及六十六位傷者完全沒有朋友  
22 或者親屬嘅關係，亦都同現時九巴董事總經理及管理階層沒有朋友或者親屬關  
23 係，只係同 2015 年前嘅董事總經理及管理階層有工作夥伴關係，okay。We  
24 can start。

25 黃女士：（經傳譯員）唔該晒鄭生。唔該鄭先生今日出席。鄭先生，你係安全及服務  
26 質素部嘅經理，係咪？鄭先生，你係安全及服務質素部嘅經理，係咪呀？即係  
27 高級經理？

28 鄭桂興先生：（經傳譯員）係。

29 黃女士：（經傳譯員）講緊係 2010 年嘅 5 月 1 號開始，你其實就係 2014 年 9 月退  
30 休嘅，係咪呀？

1 鄭桂興先生：（經傳譯員）冇錯。

2 黃女士：（經傳譯員）當時何達文就係九巴嗰個嘅總裁，係咪呀？

3 鄭桂興先生：（經傳譯員）冇錯。

4 黃女士：（經傳譯員）Gary Wong 當時係你上司，係咪？

5 鄭桂興先生：（經傳譯員）係。

6 黃女士：（經傳譯員）我哋而家集中講幾個部分，第一，就係點樣係找出二十九個嘅  
7 急彎，係一啲內部分析嘅用途嘅，你其實喺提交畀委員會嗰個書面嘅文件入面  
8 亦都提到過，而家首先請你睇番 FE 文件冊嘅 96-4 至 96-6 頁，响呢一頁，即  
9 係 96-4 頁，如果我哋睇下嗰一段，就係話巴士好容易會翻側，即係第二段，入  
10 面提到係關於安全駕駛，你就喺 2013 年開始做一個研究嘅，喺急彎方面，而安  
11 全及服務質量部就邀請四個站頭嘅經理，同埋係培訓嗰度嘅代表，同埋係維修  
12 部就做一個嘅研究小組去深入研究喺巴士路線網絡入面嘅急彎，可唔可以講下  
13 嗰四個經理係咩嘢人呀當時？

14 鄭桂興先生：嗰四份係分別屯門廠、荔枝角廠、沙田同埋呢個荔枝角廠--荔枝角、沙  
15 田、屯門及沙田廠嘅 depot manager，咁樣呢四位 manager，我哋組織咗一  
16 個 taskforce，除咗以上四位嘅 depot manager，連同巴士訓練學校嗰個校  
17 長，佢個 grade 係 assistant manager，名就叫做 Richard Lee，咁樣再  
18 連同呢個 Service Department，即係維修部，佢哋嘅工程師，咁因為工程師  
19 就係而家亦都離咗任嘅，就係呢個 Henry So，咁樣我呢個小組就搜羅晒所有  
20 由四個 depot 提供畀我哋全香港、九龍、新界，或者集中啲講，就係九龍同埋  
21 新界各線巴士日常所經過嗰啲急彎。

22 點樣去 define 急彎呢？就係我哋嘅 criteria 就係，一，就係嗰個時速  
23 限制，由 70 轉 50；二，就係個急彎個弧度；三，亦都係嗰啲經常日常經過嘅  
24 巴士線嘅載客量，因為如果佢日常都係好滿嘅，即係換句話講，個車重會加重  
25 咗；第三，就係我哋亦都係考慮到嗰個急彎嗰個實際嘅情況去作出個評估，由  
26 九龍、新界，甚至乎香港所搜集返嚟大約千幾個嗰啲急彎，我哋篩選到為二十  
27 九個，而呢二十九個，我哋制定咗嘅方針，我哋係用巴士實地去行駛。

28 喺嗰個 test 嗰個途中，我哋亦都利用嗰啲 video，car cam.喇所謂，  
29 去錄影當時嗰架巴士行經嗰二十九個嘅急彎，呢二十九個我哋全數有做過嘅，  
30 係用唔同嘅速度嘅，包括由 20 km、30 km、40 km、45 km、50 km 去反覆  
31 來回去測試嘅。咁樣亦都利用咗頭先你哋所講嗰個 black box 嘅，即係我哋嘅  
32 簡術語就 BOM，BOM 就 bus on-board monitoring system 去計算番我哋  
33 行駛邊個速度係可以安全，亦都唔會影響到個交通流量嗰個速度，就做一個建  
34 議畀我哋嘅 senior management。

35 我想喺呢度停一停，你有啲咩嘢問題想再問？

1 黃女士：（經傳譯員）唔該你，鄭生。我想問邊個係帶頭發起話要做個咁嘅研究嘅  
2 呢？

3 鄭桂興先生：當時就係我哋個 MD，Mr Edmond Ho，就轉述咗--指示我時任嘅  
4 supervisor Mr Gary Wong，咁樣 Mr Gary Wong 就同我、同我哋個 team  
5 member 一齊去傾嘅。

6 主席：（經傳譯員）Gary Wong 佢係咩嘢職位呀？

7 鄭桂興先生：佢係 Head of SSQ。

8 主席：（經傳譯員）唔該晒。

9 黃女士：（經傳譯員）你頭先提到有一啲嘅同事，你會唔會同佢哋不時都開會係講關  
10 於呢個研究嘅呢？

11 鄭桂興先生：有。

12 黃女士：（經傳譯員）幾時㗎？

13 鄭桂興先生：大約係 2013 年尾、2014 年初。

14 黃女士：（經傳譯員）呢啲會議有冇會議紀錄？

15 鄭桂興先生：我相信係有嘅，就我哋唔會話一個 formal 嘅 minute，而係用  
16 exchange of e-mail，好似頭先楊生咁樣講，係有通過電郵去作實嘅，因為  
17 其後我哋要好多安排，包括安排車長，即係一個特別職務嘅車長去駕駛架巴  
18 士，要安排工程師，要安排呢個駕駛學院--駕駛訓練學校嘅導師去定出個日期  
19 去做嘅，我相信呢啲 minute 㗎九巴--我個 e-mail account 就 close  
20 咗，就完全我係搵唔番，咁樣或者其他有參與呢個工作嘅同事可能會搵得番相  
21 關嘅 e-mail。

22 黃女士：（經傳譯員）鄭先生，你知唔知道佢哋而家仲㗎九巴就職嘅，佢哋亦都係有  
23 參與呢個研究，我哋可以向佢哋問嘅呢？

24 鄭桂興先生：因為已經事隔咗四年，以我嘅認知，大部分啲啲同事已經離咗職。

25 黃女士：（經傳譯員）關於呢個車上嘅攝錄機，就關於呢二十九個急彎你提到嘅呢...

26 鄭桂興先生：啲啲影片係我當時退休前，我做完呢個 project，係親身交界當時嘅  
27 巴士訓練學校嘅校長 Mr Richard Lee 嘅，而家嘅去向㗎邊度呢，我答唔到  
28 你。

29 黃女士：（經傳譯員）邊個去--二十九個急彎，邊個去拍攝啲啲嘅短片嘅呢？同埋邊  
30 個去揸啲啲車嘅呢，致使到啲啲攝錄機可以去拍低啲啲片呢？

31 鄭桂興先生：首先講啲啲攝錄機啲啲--邊個 hand held 呢個攝錄機呢，係 fix 㗎

1 喺個巴士第二層嘅頭位嗰個 barrier 嗰個 handrail 度嘅，係唔需要揸嘅，只  
2 係開關、開關，呢個工序係由我本人去做嘅。咁樣另外，你嗰個問題，黃小  
3 姐，你所講嘅問題，係呢個邊個去儲存呢？喺拍攝完，係我本人儲存，我係交  
4 番畀我時任嘅 supervisor Mr Gary Wong，因為我哋要先睇下我哋所錄影返  
5 嚟嘅片段係唔係 correct。

6 另外我哋將所有二十九個試過嘅急彎，其實唔止一個片嘅，係好多個片  
7 嘅，係交番畀去巴士駕駛訓練學校嘅校長，由佢做一個剪輯，然後剪輯完就交  
8 番畀我哋，因為大家都知喇，好多 footage，嗰啲 footage 有啲係有用，有  
9 啲係冇用，咁樣我哋 edit 咗，就再交畀駕駛訓練學校，駕駛訓練學校去儲存，  
10 當中我哋有一、兩個 occasion，由 Mr Gary Wong 或者我，我唔係好清楚，  
11 係交番畀時任嘅 MD Mr Edmond Ho 睇嘅，咁樣我哋都係 just for  
12 viewing 啫，冇深入再去研究下「呢個速度係唔正確㗎㗎」，呢樣嘢就有啲  
13 啲 occasion 去討論。

14 黃女士：（經傳譯員）鄭先生，第 96-6，喺下面個部分，你講就喺呢個嘅研究之  
15 中，我哋就能夠係印製一個叫做「安全小冊子」，你後來就係話呢個唔係小冊  
16 子，呢個係一啲提示卡咁樣。你喺呢度就講每一個嘅危險嘅彎佢哋嘅地點、佢  
17 個方向、佢個路面同埋相關嘅相片，就係你有一千五百個嘅路段有研究過嘅提  
18 議，你就係提出咗三十一個嘅建議。呢個一千五百個所謂嘅研究，係咪就係喺  
19 你呢一千五百個研究裏面，你就搵出呢個二十九個最有問題嘅彎位呢？

20 鄭桂興先生：Yes。

21 黃女士：（經傳譯員）你可唔可以話畀我哋聽嗰二十九個彎位係邊二十九個？你記唔  
22 記得呢？

23 鄭桂興先生：已經事隔咗成年，咁樣大部分都係忘記咗，只有個別，例如我喺個  
24 paper 寫嗰四個，我就好清楚，可以 list out 出嚟，而我頭先較早之前，就  
25 我作供就有解釋過，我哋大部分嗰啲彎位，呢二十九個彎位都係集中喺郊區，  
26 因為市區日常都好塞車、好多紅綠燈，咁樣嗰啲車長就有機會去超速，但係喺  
27 市區之外，即係郊區，佢哋通常行嗰啲 highway，就有機會會發生呢個超速或  
28 者駕駛態度不正確嘅行為出現，尤其是由嗰個 highway 落番個市鎮，好似我上  
29 提供嗰四個地點都係一個 highway 行緊 70 或者 80，突然間要減速去番  
30 50，落番嗰個市中心呢，就多數個危險就會出現。

31 呢二十九個，對唔住，我因為冇晒紀錄，我一啲紀錄都有喺個手度，我只  
32 係憑記憶記到四個，以及二十九個呢個急彎嘅數字，我就好清晰可以回答到你  
33 個問題。

34 黃女士：（經傳譯員）唔該晒你，鄭先生。你嘅陳述書就係講話呢個研究就係同呢個  
35 2009 年將軍澳嘅巴士意外有關嘅，我就想睇一睇一個立法會嘅文件，...

36 主席：（經傳譯員）你繼續之前。就鄭先生，你可唔可以描繪一下呢四個地方，你記

1 得個四個地方，個個有急彎嘅地方，你可唔可以描繪一下？

2 鄭桂興先生：我可以舉例，就由觀塘道近住彩虹交匯處，佢有兩條天橋係四線行車，  
3 突然間佢會 cut 做兩線，出番土瓜灣，兩線就上番西貢個道路，佢個弧度係  
4 大約 230 度嘅，大約 230 度嘅，如果架巴士喺觀塘行緊 70 公里嘅，佢要上條  
5 ramp，即係 uphill 上個 ramp，個個 ramp 係一個弧度 230 嘅，佢要急轉  
6 彎，落番去呢個彩虹交匯處，然後先至可以選擇去新蒲崗或者選擇去西貢，呢  
7 個彎係單線行車嘅，咁樣個度係冇樹木嘅，因為佢係高架橋嚟嘅，但係個路面  
8 就經常性就有啲雜物，即係啲貨車遺留咗啲雜物喺個路面度，亦都包括有  
9 啲油跡。

10 咩嘢為之油跡呢？就係啲電單車或者私家車佢燒唔完嘅油會遺留咗喺個  
11 路面度，就溝成一個薄膜，呢個薄膜就會令到啲車行駛時間好容易蹣咗，如  
12 果用安全嘅速度 50 去行，如果前面係好暢通無阻，你會有機會用 50 呢個限速  
13 係過唔到呢個 230 度嘅彎，因為一，佢係地面可能會有蹣，二，佢亦都個弧度  
14 咁大，尤其是雙層巴士你有個重量嘅，亦都喺個行駛個--加速個陣時行駛，有  
15 個 acceleration，有 acceleration 呢，去到個彎個心個度，我哋叫  
16 “apex”，個個 apex 個個彎嘅中心，佢會產生一種離心力嘅，我哋叫做 “G  
17 force”，個個 G force，你架車越重，你架車行得越快，個 G force 就越  
18 大，就令到你架巴士反側嘅機會亦都會大。

19 主席：（經傳譯員）呢個係咪講緊一個嘅例子，就話架車如果由 70 轉到去 50 嘅公  
20 里行車，就會有出現呢個情況，係咪一個咁嘅例子呢？

21 鄭桂興先生：Yes.

22 主席：（經傳譯員）呢個就係其中一個例子，另外個啲呢？

23 鄭桂興先生：另外一個，以我記憶，就係喺呢個馬鞍山，就由呢個大老山隧道一路向  
24 住馬料水方向，佢去到呢個馬鞍山呢個錦英苑咁上下嘅屋邨，佢有一個左轉嘅  
25 彎嘅，佢個左轉嘅彎嘅弧度係超過 180 度，咁樣亦都係由 80 公里或者 70 公  
26 里，70 公里轉番 50 公里，佢左轉嘅彎落番去呢個馬鞍山市區，個個彎其實同  
27 我頭先講，喺呢個觀塘道上呢個彩虹嘅彎位，佢係大同小異，只係一個彩虹道  
28 去呢個--觀塘道去彩虹道個個彎就係向右急轉 230 度落番去呢個彩虹交匯處，  
29 而馬鞍山，即係大老山公路去呢個馬鞍山，佢就係左轉，咁樣佢個個弧度、個  
30 行車嘅路同呢個頭先以上表述係差唔多，唯一佢亦都有個隔音屏，呢個落馬鞍  
31 山個度佢有個隔音屏，個視線就有機會就有好似喺觀塘道落去彩虹交匯處個  
32 視野度係咁好，換句話講，係差啲。

33 黃女士：（經傳譯員）唔該。呢個係第二個例子，其餘個兩個可唔可以都解釋埋呀？  
34 你記得嘅。

35 主席：（經傳譯員）我諗你要講嘅其實就係話啲地點喺邊，個個彎度係幾多就得㗎  
36 喇，呢啲先係有關嘅即係我哋想知嘅嘢。

1 鄭桂興先生：嗰個彎度嘅弧度，我哋唔係用 GPS...

2 主席：（經傳譯員）首先你講個地點先。

3 鄭桂興先生：Okay, okay, 第一個地點就係將軍澳廣明道（原文照錄）迴旋處，第  
4 二個就係茶果嶺道北行左轉鯉魚門道西行，第三個就係我頭先描述過，就係大  
5 老山公路北行落石門就上馬鞍山方向，及第四個，觀塘道西行轉上清水灣道急  
6 彎。咁樣頭先尾嗰兩個我講咗，咁樣我首先先講一講呢個將軍澳廣明道（原文  
7 照錄）嗰個，就因為 2009 年 11 月發生一個兩死幾傷嘅車禍，時任嘅 MD，就  
8 當我上任，已經畀咗一個 mission 我，就係話要研究下呢個迴旋處有啲乜嘢改  
9 善嘅空間。

10 咁樣我上咗任之後，我自己親身都去過呢個將軍澳廣明道（原文照錄）嗰  
11 個迴旋處去實地考察，佢嗰個情況亦都係一個 highway，即係高速公路，經過  
12 一個迴旋處，就左轉入番呢個廣明道（原文照錄）嗰個屋邨，我忘記咗個名，  
13 而呢個彎道係一個 360 度嘅，佢係一個迴旋處嚟嘅，你如果行錯咗方向，你可  
14 以沿住嗰個迴旋處再行多 360 度再選擇你所入嗰個駛入道嘅。咁樣嗰個廣明道  
15 （原文照錄）嗰個就其實如果你喺 50 公里或者低過 50 公里去入去，係個問題  
16 唔大嘅，但係如果你喺個雨天或者夜晚黑嘅視野冇咁好，你就唔能夠用番 50 公  
17 里呢個限速去進入，因為會好容易產生危險。

18 咁樣另外一個就係茶果嶺道北行左轉鯉魚門道西行，呢個就係觀塘嘅，觀  
19 塘郵政署對埋去嗰個彎位嘅，亦都係一個 highway，左彎落番去呢個入觀塘嘅  
20 通道嘅，佢亦都係由 70 公里轉為 50 公里，咁樣佢亦都嘅特性又係呢一個單線  
21 嘅，即係單線嘅行車，好似我以上咁樣表達，如果你利用到 50 公里，係有機會  
22 係會超速嘅，雖然運輸署講到有晒路牌、有晒啲箭咀話前面彎路，但係有時我  
23 哋嗰啲司機未必真係全程咁專心，我哋嗰啲司機係好專業嘅，但係突然之間有  
24 一刻佢忘記咗或者踩嘅油門嘅協調嗰度唔係咁好，就有機會超過 50 公里，會駛  
25 入一個路口就會產生危險。

26 黃女士：（經傳譯員）唔該。

27 主席：（經傳譯員）唔該。

28 黃女士：（經傳譯員）鄭生，而家請你睇番一份文件，係意外之後，就立法會有一份  
29 文件。

30 主席：（經傳譯員）邊一個意外呀？

31 黃女士：（經傳譯員）屯門公路意外，2012 年，呢份立法會文件就係 260-443，係  
32 而家 TU 文件冊嘅。

33 主席：（經傳譯員）再講多次個號碼。

34 黃女士：（經傳譯員）係 1B 文件冊，260-443-20。呢份係一個 2012 年 11 月 27

號交通事務委員會嘅特別會議嘅文件，呢個就係講緊話專營巴士營運嘅安全同埋係好長嘅落斜嘅路上面嘅安全嘅背景資料，如果大家睇下第 6 段嘅話，就有提到喺西沙公路 2008 年 5 月 1 號嘅致命交通意外導致十八名嘅乘客死亡、四十四人受傷。再睇落幾段，就係話運輸署亦都做咗一個全港性嘅檢討，就係睇下有乜嘢好長叫做「長命斜」呢啲落斜嘅路，總共就發現喺全港係有二十九個咁樣嘅落斜嘅路段嘅，然後喺附件 I，就見到呢一度呢啲路段嘅一個表，喺 260-443-29 頁就見到喇。鄭生，請你睇下呢二十九個地點嘅路段，睇下你提到嗰四個路段可唔可以喺呢個表度搵到？

鄭桂興先生：喺嗰個 260-443-29 嗰度，第 1 頁全部都係集中香港嘅，喺呢個 260-443-30，其中有一個就係 15，Clear Water Bay Road 牛池灣，呢個係我本人有睇過，就係同我頭先睇嗰個--我研究嗰個係唔同，大家一個係 upstream，一個係 downstream 嘅。咁樣再睇落呢個新界嗰度，係有嘅，係有嘅。另外我想--我補充，2008 年我仲未職呢個 Senior Manager SSQ。

黃女士：（經傳譯員）我明白嘅。鄭生，即係你做嘅研究都係好寶貴，因為你就做咗一個好仔細嘅研究，呢個工作就睇下喺新界其實你係睇咗幾多道路呀？

鄭桂興先生：係好多，但係個數目係答你唔到，因為我嘅職責係喺關於安全--駕駛安全嗰度嘅，咁樣我嘅 frequency 去跟車係每個月起碼一次，我嘅跟車嘅方式就係用便裝，不預先通知嘅情況下去乘搭我哋公司嘅車輛，尤其是我 from the very beginning 我都講，喺郊區嗰個安全係好容易被我哋嘅車長忽視，所以我個 frequency 係好頻密，我每個月起碼一次、兩次去搭嗰啲車，包括由元朗搭呢個 968 去到天后，喺天后再搭車搭番去屯門，咁樣其實我呢個屬於係 working trip，我會記低有關嗰啲危險嘅路段，咁樣亦都回報番畀我時任嘅 supervisor Mr Gary Wong，所以喺篩選嗰二十九個急彎，我係提供咗好多意見，亦都被接納嘅。

黃女士：（經傳譯員）唔該。而家請你睇下 96-6，呢一頁係你嘅意見書，你呢段你就話有三十一個安全駕駛建議嘅，就係嚟自呢個研究，你記唔記得呢啲安全駕駛建議即係乜嘢？又或者係關於咩嘢，大概？

鄭桂興先生：大部分都係牽涉到呢一個駕駛態度嘅問題，亦都有部分就牽涉到行車嘅速度問題。

主席：（經傳譯員）駕駛態度咩嘢意思呀？

鄭桂興先生：駕駛態度就係嗰個車長會唔會好專心去揸車，會唔會突然之間好似以上嘅作供者所提及嘅突然加速、突然間剎車、突然之間擺軚，因為佢突然之間擺軚，有機會會影響架雙層巴士嘅 centre of gravity，如果--我舉一個例子講，一個彎，一個大約 30 度嘅彎，如果佢用一秒或者一秒以上去順住嗰個彎位去擺軚，佢所需可能一秒、一點五秒或者兩秒，但係如果嗰個車長駕駛嗰陣時佢用零點一秒過同一個 30 度嘅彎，就會令到架車就會好 sliding，我唔知中文叫咩嘢，係「西」，會甩尾，會「西」，會 sliding 咁樣出去嘅，咁樣令到

1 坐喺車嘅乘客或者甚至乎企喺度嘅乘客佢會失去重心。你 get 唔 get 到個意  
2 思？零點一秒轉一個彎同一秒去轉一個彎係唔同嘅，呢個係一個駕駛態度嘅問  
3 題。

4 主席：（經傳譯員）唔該。

5 黃女士：（經傳譯員）你講到話有一啲係同駕駛速度有關，你咁樣畀建議嘅時候，有  
6 冇建議某啲路段係時速 70 公里嘅啲巴士車長係應該駕駛嘅速度係低過法定許  
7 可個駕駛速度呢，你有冇咁樣建議呀？

8 鄭桂興先生：首先，我哋而家巴士就已經 equip 咗一個 devices，就係 70 公里嘅  
9 限速，佢行到 70，佢再踩油，佢都唔會超越 70，但係如果佢個架車係落緊斜，  
10 或者甚至乎個駕駛態度，回歸番駕駛態度，佢 off 波咁樣行，個架車速就有機  
11 會超越咗 70 公里，咁樣如果你問我係咪建議啲車長行到 70 呢，我個答案係  
12 no，因為我哋係要小心安全駕駛，一定唔能夠超過個法定限速，如果佢低過  
13 70 或者 68，我係好 appreciate 嘅，但係你唔好因為個駕駛態度或者其他嘅  
14 事，行 70 公里呢，佢可能心情唔好或者有啲嘢煩擾住佢，咁樣佢行到 25，我  
15 就唔 recommend。

16 黃女士：（經傳譯員）第 96-7，你就話有一啲嘅提示卡，就已經印製咗，就可以分  
17 發畀所有相關路線嘅車長，你有冇參與係製作呢啲嘅細小嘅提示卡嘅呢？

18 鄭桂興先生：冇，但係我可以補充，頭先楊生佢提供就話印製啲小卡係 2013 或者  
19 2014，個答案係唔啱嘅，印製呢個小卡，個小卡嘅 size 就係兩吋闊、3 吋  
20 高，一張卡仔嚟嘅，係 summarise 咗啲二十九個急彎嘅道路位置、個個方  
21 向、個行車個安全時速，就喺張卡個度，但係好不幸，呢張卡係我退咗休、  
22 離咗職先至去預備、去印，我亦都同我時任嘅上司 Mr Gary Wong 口中聽到，  
23 係已經準備晒，印好...

24 主席：（經傳譯員）好，你就不如話你自己知道啲乜嘢嘢，而唔好話人哋話畀你聽啲  
25 乜嘢嘢，你明唔明白個分別呀？即係你...

26 鄭桂興先生：明白，明白，understand。

27 主席：（經傳譯員）你自己有冇見過呢啲嘅小卡呢？

28 鄭桂興先生：冇。

29 黃女士：（經傳譯員）96-8，第 7 條問題，你就係話--你話「我好失望，因為我聽  
30 到安全」...

31 主席：（經傳譯員）就我希望就係話佢呢個證人佢自己知啲乜嘢就好喇，就唔好再問  
32 其他。

33 黃女士：（經傳譯員）鄭先生，你識唔識一個程艾樂先生？

1 鄭桂興先生：識。

2 黃女士：（經傳譯員）喺你嘅研究裏面，就關於呢二十九個急彎嘅研究之中，你有冇  
3 同程艾樂先生一齊合作過呢？

4 鄭桂興先生：冇。

5 黃女士：（經傳譯員）當你喺九巴在職嘅時候，你有冇機會同程艾樂先生一齊工作  
6 呢？就住專營巴士安全嘅事宜？

7 鄭桂興先生：冇。

8 黃女士：（經傳譯員）主席，我已經完成我嘅提問。

9 主席：（經傳譯員）唔該晒。鄭先生，好多謝你今日就嚟協助我哋，同埋提供個證  
10 供，我哋非常之多謝你，而呢個部分已經係完成，我哋會有另外一個嘢證供  
11 人，然後我哋而家暫時係小休嘅，唔該晒。

12 鄭桂興先生：唔該。

13

14 下午 4 時 05 分押聆訊押後

15

16 下午 4 時 15 分恢復聆訊

17 出席人士如前。

18

19 主席：（經傳譯員）各位，午安，唔好意思，我哋晏咗先開始做你呢部分，不過你都  
20 應該見到我哋頭先係聽取其他證人嘅證供，而家我哋係恢復聽你個方面嘅證  
21 供，黃大律師。

22 黃女士：（經傳譯員）唔該晒各位今日嚟嘅。尋日我就問咗一啲問題，關於休息設施  
23 嘅，喺你嘅意見書有提過，就係 7 月 16 號交嚟嘅，係附件七，就講麗閣邨個  
24 休息設施，我知道劉先生就擺到啲新嘅資料，關於麗閣呢一個嘅休息設施，而  
25 家可以補充嘅。

26 劉啟謙先生：多謝主席，我哋根據番我哋附件七嘅地點，都有做過一啲 review 嘅，  
27 其實發現即係以黃律師個例子麗閣邨，係已經裝咗呢個休息室㗎喇。我想喺  
28 呢度指出一點，就係九龍巴士公司喺處理休息室呢個議題上面係較新巴、城巴  
29 積極嘅，大部分嘅地方其實都有盡過佢哋嘅努力去安裝呢個休息室。不下於所  
30 講嘅麗閣邨，喺個表列裏面嘅青衣碼頭、九龍城碼頭同埋呢個長宏總站等等嘅  
31 地方，都係有裝咗休息室嘅。

1 我哋見到其實嗰個積極性係較新巴、城巴係好嘅，其實新巴、城巴，我哋  
2 見到多年嚟，好似鰂魚涌呢啲個案係長久以嚟都仲未裝到休息室，涉及當然好  
3 多唔同嘅因素嘅問題，但係我哋如果對比起兩間公司嚟講，九巴嗰個情況係較  
4 新巴、城巴係積極嘅。當然嗰個休息室嘅面積或者嗰個可能設備未去到最完  
5 善，但係基本，微波爐、雪櫃、飲水機呢啲基本嘅休息設施其實係有提供到畀  
6 巴士嘅員工去使用嘅。

7 另外我想補充多一點，就係休息室嗰個問題上，我哋有一個位置面臨緊一  
8 個清拆嘅危機，就係尖沙咀碼頭巴士總站，我哋收到海濱事務委員會園境師學  
9 會有一份文件，就話就提議就話將尖沙咀巴士碼頭嗰個總站就清拆，而嗰個總  
10 站本身牽涉嘅路線係十分之多嘅，而呢一個建議已經畀海濱事務委員會討論  
11 咗，而我哋亦都已經去信畀運輸署，要求運輸署解釋幾樣嘢嘅，嗰個總站拆咗  
12 之後邊度擺嗰個巴士；第二，就係個總站拆咗之後，員工係有休息嘅地方嘅，  
13 而嗰個總站本身人流以至到車流量係十分之多嘅。

14 呢啲問題運輸署到而家係未解答到我哋，而我哋都十分之擔心，就係尖沙  
15 咀碼頭巴士總站嗰個設施其實係十分之完善嘅，如果佢被清拆的話，第一，嗰  
16 度大量路線佢哋個 propose 就係話變做普通嘅巴士站，就肯定有足夠嘅休息地  
17 方畀員工㗎喇。我哋好擔心就係話遲啲會唔會再有其他嘅例子會係咁樣。而我  
18 手上有一份係園境師學會嘅文件可以呈畀委員會參考嘅。多謝主席。

19 主席：（經傳譯員）係咪一份你想我哋睇嘅文件呀？

20 劉啟謙先生：（經傳譯員）係。

21 主席：（經傳譯員）你有冇副本？

22 劉啟謙先生：（經傳譯員）呢個就個副本。

23 主席：（經傳譯員）而家我哋去影印。

24 許漢傑先生：唔使影印㗎喇。

25 劉啟謙先生：我畀咗你。

26 黃女士：（經傳譯員）唔該晒劉先生。喺你其中一份附件，附件十八，我可唔可以簡  
27 述一下你提過啲乜嘢呢？喺你嘅意見書係咁講嘅。

28 主席：（經傳譯員）首先講頁數。

29 黃女士：（經傳譯員）係附件十八，係補充文件冊，由工會提交嘅，2018 年 7 月 16  
30 號提交嘅，入面就有一封信，就係 2007 年 6 月 28 號嘅，中文版本就係 522，  
31 應該係 260-522，英文就係 260-523-22。

32 主席：（經傳譯員）邊個文件冊？

1 黃女士：（經傳譯員）係 TU 文件冊。

2 主席：（經傳譯員）嘅邊個？

3 黃女士：（經傳譯員）1 (C)。呢封信日期就係 2016 年嘅 11 月嘅 24 號，由你嘅會  
4 寫畀運輸署嘅，我淨係有一個問題我有興趣嘅，就係第 1.1 至 1.3 段，你就邀  
5 請運輸署考慮有一個三方嘅磋商會議去傾下新建巴士總站嘅設計同埋配套問  
6 題；喺 1.3 段，你就話希望署方就有啲常設會議，有巴士公司同埋係工會代  
7 表，呢個就係 260-513-8 頁嘅，即係話有常設會議係有署方、巴士公司同埋工  
8 會嘅參與，有恆常會議去溝通、協商巴士業相關嘅事項，其中包括新、舊站頭  
9 設施嘅設計。

10 喺其中一個運輸署嘅回覆，260-523-22，就見到似乎佢哋考慮呢一個建  
11 議就唔應該係三方嘅，而係建議你透過巴士公司提出嘅，呢個 260-523-22 嘅  
12 第二段，「喺考慮新嘅巴士總站設計，喺用新嘅意見之外，運輸署亦都會考慮  
13 到嗰個情況，譬如係話有幾多條路線、人流方向、有幾多乘客同埋係巴士嘅運  
14 作需要咁樣，亦都會係諮詢有關巴士公司嘅意見，睇下佢哋對於個設計有咩嘢  
15 關注，如果職方有任何意見嘅，對於巴士總站設計同埋設施嘅話，職方係可以  
16 向公司反映，而署方認為現行機制係有效。」

17 似乎運輸署係拒絕你嘅要求有三方嘅協商嘅會議，係咪咁呀？

18 劉啟謙先生：冇錯。

19 黃女士：（經傳譯員）而家講下另一個題目，係年終嘅勤工獎金，我想請你睇番你嘅  
20 意見書，第二份，260-94 頁，呢個英文版，中文 260-57 頁，你睇到個文件未  
21 呀？

22 劉啟謙先生：（經傳譯員）睇到。

23 黃女士：（經傳譯員）而家問你呢個問題，你提到年終勤工獎，係唔係除咗安全同埋  
24 良好表現獎之外，九巴係而家提供勤工獎畀車長㗎？

25 劉啟謙先生：應該咁樣講，安全同埋呢一個叫安全獎金、一個勤工獎金呢啲其實已經  
26 係納入咗巴士車長嗰個底薪入面，而文件上面 (a) 嗰度講緊嗰個係年尾有一份獎  
27 金嘅，而呢份獎金九巴已經喺 18 年承諾咗取消咗呢個年終獎金嘅制度，就改以  
28 一個雙糧嘅形式向員工發放。而呢個之前所謂嘅年終獎金係要需要經過一個評  
29 核，去評定員工分呢個一、二、三、四同埋無法評級去釐訂嗰個獲取嗰個金  
30 額，其實本身係兩樣唔同嘅嘢㗎。

31 主席：（經傳譯員）2018 年九巴係幾時同意取消年終獎金嘅呢？

32 劉啟謙先生：大約係 5 月至 6 月期間係承諾咗取消呢個年終獎金嘅制度，改以一個雙  
33 糧嘅制度，而實際通告發出畀員工嘅日期係 6 月份嘅。

34 主席：（經傳譯員）你有冇嗰個通知嘅副本呀？即係通知員工。

1 劉啟謙先生：副本係公司出嘅通告嚟嘅，係喇，可以問到九龍巴士公司擺到，如果委  
2 員會係想要一份嘅，我可以提供到畀委員會。

3 主席：（經傳譯員）唔該。

4 劉啟謙先生：另外林生佢想補充埋新巴嗰個獎金嘅情況。

5 林錦標先生：係，新巴同城巴因為同一個管理層，所以就個獎金，安全獎、勤工獎、  
6 服務獎就响今年嘅3月就已經將佢歸納咗落個底薪裏面，但係响--我再要補充  
7 一下，呢個獎金嘅嘢，我哋已經响多年前已經向公司反映嘅，就話呢啲獎金、  
8 津貼就係薪酬嘅一部分，係應該係要放落去底薪嗰度去一併去計呢個薪酬嘅，  
9 但係奈何新巴、城巴係好--一路都用種種嘅理由就拒絕咗嘅。自從發生咗一件  
10 慘劇之後，公司就係話因應個市場先去將呢啲津貼先肯擺落去，我哋對呢個遲  
11 來嘅安慰--我當佢安慰獎，即係好過冇喇，因為我哋係多年已經係去爭取㗎  
12 喇，唔係話發生事先去爭取，因為我哋係睇到呢個問題係困擾咗啲同事，因為  
13 同事個底薪一路都係咁低嘅，所以我哋係希望不斷咁向公司去反映，呢個係我  
14 哋嘅補充。其他有冇補充？

15 劉啟謙先生：黃律師，相關新巴職工會同資方談判提過相關資料，其實附件十七已經  
16 有一份會議紀錄詳列咗出嚟，新巴職工會其實喺17年已經有同資方提出話將勤  
17 工同埋安全獎金納入底薪嗰度，其實已經唔係話一段短時間去爭取，而係長時  
18 間去爭取，但係較舊嘅會議紀錄，新巴職工會已經遺失咗，暫時未提供到，但  
19 係暫時附件十七嗰份係證明咗佢哋一直以嚟係有同資方係有講呢一樣嘢嘅。

20 林錦標先生：鍾生有少少補充。

21 鍾松輝先生：主席，唔好意思，我都想喺呢個問題嗰度補充少少。今朝林生所講嘅，  
22 就每個月嗰啲甚麼勤工獎、安全獎嗰啲撥晒落去而家嘅底薪，由3月份開始，  
23 主要嘅原因就係基於因為大家都知，發生咗兩宗嘅巴士慘劇，公司同我哋講，  
24 就係因應嗰個社會個輿論個壓力非常之大，因為我哋底薪係偏低嘅，所以佢就  
25 將呢個所有津貼就撥落呢個底薪嗰度。

26 除咗呢一樣嘢，正話劉生就講緊話年尾獎金，我哋嘅年尾獎金就係有--應  
27 該新制同舊制嘅，舊制嘅就係雙糧嚟嘅，就有任何條件，就雙糧，就係發放一  
28 個月呢個年尾雙糧。如果新制嘅同事，佢就要符合公司嘅條件，例如如果你請  
29 病假就會畀少啲嘅，根據你全年請咗幾多日病假，係因應你嘅病假、請假或者  
30 你有其他被投訴嘅，佢都會扣減你嗰個年尾獎金，所以呢樣嘢就形成對嗰啲前  
31 線嘅車長，好多新嘅車長所以就留唔得耐，有啲做咗一年半載就走㗎喇。

32 林錦標先生：許生仲有一個補充，唔該。城巴嘅。

33 許漢傑先生：城巴同新巴有個年尾獎金有啲唔同嘅，城巴有三個制度，第一個制度就  
34 係最耐嘅員工，做得最耐嘅員工，嗰啲叫做雙糧；第二批就好似我呢批就係叫  
35 做酬金，酬金嘅包含裏面就係有三樣嘢，第一樣嘢係底薪，第二樣嘢就係個

1 OT，全年嘅 OT 嘅除番 12 嘅三分一，呢個係酬金，呢個係第二批。

2 第三批就係新，我哋叫做合約車長呢批，就係相當於而家改咗制之後，就  
3 變咗一個月嘅底薪。呢個佢哋有評級嘅，其中一個評級就係因為如果佢一年裏  
4 面個出勤個度會扣，會扣咗譬如係缺勤一日就扣一日，佢個底薪除三百六十五  
5 日，就扣一日嘅人工，如是者推論，就係病假好、工傷假好、事假好，佢都係  
6 咁樣扣㗎喇。仲有一個扣，就係佢如果喺日常工作有簽--有 warning，有警告  
7 信，唯一一個警告信會扣嘅就係最後警告，就會扣。點樣扣法呢？就係如果有一  
8 個最後警告佢只係收個年終特別獎金嘅七五折，係底薪嘅七五折，就大致  
9 上城巴就係咁樣。

10 至於呢個年終特別獎金，合約方面，事關城巴由 05 年開始請合約員工，初  
11 初係冇年終獎金嘅，但係一路我哋爭取以嚟，到而家都有一個規模，但係喺呢  
12 個年終--即係新人個個合約個年終特別獎金呢度，我哋有一樣嘢係好反對，就  
13 係如果佢因為缺勤而導致要減呢個年終特別獎金嘅人工，我覺得喺我哋城巴職  
14 工會嚟講，係覺得唔合理。

15 點解唔合理呢？就係因為佢有事、佢病或者工傷或者係婚假或者係白事  
16 假，佢先至請假，呢個問--有啲呢啲假唔係佢可以控制到。我覺得如果咁樣扣  
17 合約同事呢啲人工，我覺得--喺我哋工會立場，更加係唔合理。大致補充完  
18 畢。

19 主席：（經傳譯員）黃大律師。

20 黃女士：（經傳譯員）我哋有聽過一個制度，係九巴嘅制度㗎嘅，或者郭先生可以幫  
21 幫手，就有一個嘅裝置係有四眼燈嘅，就會話畀個司機聽，有四種嘅，譬如  
22 話你係超速，就係突然之間剎車、突然之間加速，即係有三個呢啲咁嘅情況出  
23 現，...

24 主席：（經傳譯員）同埋空轉嘅。

25 黃女士：（經傳譯員）...引擎空轉。郭先生，你記唔記得呢個咁嘅裝置喺巴士上面  
26 幾時裝置呀？

27 主席：（經傳譯員）可唔可以我哋去睇一睇個相關嘅照片？

28 黃女士：（經傳譯員）係 BM 文件冊第 65 頁。

29 主席：（經傳譯員）呢個係一個 Openmatics 呢間公司提供嘅文件㗎嘅，佢話畀我  
30 哋聽呢個就預警系統係點樣樣，係有四眼嘅紅色燈嘅。

31 黃女士：（經傳譯員）一個屯門車廠嘅經理話畀我哋聽呢個就係個 LED 嘅燈嘅系統  
32 㗎嘅，就會話畀個司機聽如果呢啲其中一種嘅情況出現，佢哋個司機就會通知  
33 佢㗎喇。你記唔記得呢個 LED 系統嘅燈光系統喺九巴幾時安置喺個巴士上面嘅  
34 呢？

1 劉啟謙先生：2013年，2013年安裝，開始試驗。

2 郭偉光先生：2013年。

3 黃女士：（經傳譯員）唔該晒。佢哋都講到另外一個嘅系統，就如果你就去返工嘅時  
4 候、開工嘅時候，你就喺休息室嗰度就拍你個八達通卡，就喺八達通卡嘅讀卡  
5 器嗰度就拍一下，佢就會自動就話畀你聽你係一個綠色、黃色或者係紅色嘅司  
6 機，你可唔可以確認其實喺九巴就係用緊呢一種系統呢？

7 郭偉光先生：係嘅。

8 主席：（經傳譯員）點樣運作嘅呢？你拍卡，其實你通常就會見到啲乜嘢嘢㗎，喺個  
9 讀卡器嗰度？

10 郭偉光先生：通常我開工，去到站頭拍第一下卡，就會有呢個顯示嘅，通常都綠色  
11 嘅。

12 劉啟謙先生：主席，我有補充，其實紅色--有紅色、黃色同綠色，就係根據呢個  
13 box 所收集嘅數據去評估個車長個駕駛嘅安全情況，而綠色就會同佢哋講話佢  
14 哋個駕駛係安全、環保都達標嘅，需要改善就當然係黃色，而唔理想就當然  
15 係紅色。

16 但係我所觀察，之前係出過一個獎勵計劃嘅，就就住呢個盒子出咗一個獎  
17 勵計劃，就係統計番車長如果做得駕駛係環保、係達標嘅話，其實係有獎勵  
18 嘅，但係呢一個獎勵我已經一段時間都見唔到有呢個獎勵嘅資料出嚟。但係呢  
19 個盒子而家係仍然喺九巴嘅巴士係有運作，而頭先黃大律師所講嗰個系統仍然  
20 係亦都係存在。

21 車長其實每一次用佢哋嘅八達通卡去總站報到嘅時候，個電腦螢幕都會顯  
22 示個顏色，去提示番個車長個駕駛個表現係咪理想。而我所知，呢個黑色嘅四  
23 個燈嘅盒子，其實本身係駁住一個全球衛星定位系統嘅，藉以去監察車長嗰個  
24 駕駛嘅表現，從而就得出嗰個黃色、紅色同綠色嗰個數據出嚟。

25 主席：（經傳譯員）你知唔知道呢個咁樣嘅紅、綠、黃就係指譬如你喺駕駛嘅邊一段  
26 時間嘅資料嚟嘅呢？意思即係你係駕駛嗰個日期或者係邊一段嘅期間嘅資料就  
27 係...

28 郭偉光先生：係由開工至到收工嘅工作表現。

29 主席：（經傳譯員）但係首先你開工嘅時候，你就拍卡，你就會係有呢啲咁嘅燈出現  
30 㗎嘛，係咪？

31 郭偉光先生：係，係。

32 主席：（經傳譯員）呢個咁嘅展示其實係咪講緊你琴日㗎，係過一個星期或者過去一  
33 個月嘅表現呢？

1 劉啟謙先生：其實呢個表現係一個--我認為係一個可持續性嘅表現，因為你每一次其  
2 實拍嗰個八達通卡都係會有顯示提醒番你嗰個駕駛係屬於咩嘢顏色嘅，而呢個  
3 咩嘢顏色就有話一個好籠統咁指定一個日子去評核嘅--即係評估，我認為係一  
4 個可持續性嘅提示嚟嘅，即係每一次你拍八達通卡嗰個度報到嘅時候，其實都  
5 會顯示嗰個顏色畀你聽你係乜嘢嘅表現。咁樣呢個表現其實都唔會話特定一  
6 個日子或者時間畀你睇到嘅。郭生，有冇補充？

7 主席：（經傳譯員）有人話畀我哋聽其實係有，係有一段特定嘅日子，如果你唔知道  
8 嘅時候，你就話畀我哋聽唔知喇。

9 郭偉光先生：係，自己個人嘅記憶之中，就係應該係大概一個禮拜，佢提示一個禮拜  
10 之前嘅表現嘅日期嘅，有嘅。

11 主席：（經傳譯員）唔該晒。我哋喺個螢幕上睇到，呢個有四個嘅條件，可能就會係  
12 有一啲嘅預警嘅情況，你知唔知道譬如話其實如果個引擎空轉得太耐，就會可  
13 能影響到你嗰個顏色嘅，譬如話你喺呢一個巴士站或者嗰個有空轉嘅情況，會  
14 唔會有一個紅色燈畀你呢，你知唔知道大致上嘅情況係點呢？

15 郭偉光先生：係有個聲響提示嘅，同埋有個著燈嘅。

16 主席：（經傳譯員）我明白嘅，我明白嘅。譬如話你引擎空轉太耐，有燈光，然後同  
17 埋有個聲響，會唔會--因為咁嘅時候，你一個星期之後，當你去拍嗰個卡嘅時  
18 候，你就會睇到一個紅色嘅燈，係會唔會咁樣發生呢？

19 郭偉光先生：佢係攞一個平均嘅數據嘅咋，唔會話因為一次半次而會有呢個後果嘅，  
20 即係你經常性咁樣發生，佢先至會有一個提示。

21 主席：（經傳譯員）有冇人話畀你聽其實實際成個系統係點樣去運作嘅呢，啲啲細節  
22 有冇人講過畀你聽？

23 郭偉光先生：唔知。劉生有冇補充？細節。唔知道，有呢個解釋嘅。

24 主席：（經傳譯員）你知唔知道啲啲數值係幾多，個限值，即係去到幾多就會令到佢  
25 有聲響或者會著燈，喺巴士車長嗰個駕駛室嗰度，你知唔知道譬如話係加速或  
26 者減速個限值去到幾多就會著呢？

27 郭偉光先生：我揸過好多唔同嘅巴士，唔同嘅車佢嗰部機嘅反應同埋出嚟嘅效果都唔  
28 同嘅，有啲係好敏感嘅，啲啲都會響嘅，例如大腳啲油，例如重少少 brake 或  
29 者掂到 brake 嘅時間嘅問題，或者係扭軚過急，佢--有啲車係特別敏感，但係  
30 有啲車就有乜反應，呢個系統嘅效果係反應不一嘅，我嘅感覺係。

31 主席：（經傳譯員）舉個例，車速，你知唔知道行到咩嘢車速，嗰度個警示就會響？

32 郭偉光先生：超過 70 係會響嘅，70 公里係會響。

33 主席：（經傳譯員）即係話你喺一個 50 公里嘅路段，你行緊 60，佢就唔會響，係咪

- 1           咁呀？
- 2   郭偉光先生：行緊 50，佢唔會--我未見過佢響囉。
- 3   主席：（經傳譯員）呢個系統裝咗五年，即係喺個 50 公里嘅限速嘅路段，佢係冇響
- 4           嘅？
- 5   郭偉光先生：係嘅。
- 6   主席：（經傳譯員）唔該晒郭生。
- 7   黃女士：（經傳譯員）講番八達通卡個讀卡嘅系統，顯示番紅、黃、綠色，即係司機
- 8           嗰個顏色係幾時實施㗎？
- 9   郭偉光先生：五年前，2013。
- 10  黃女士：（經傳譯員）即係當你有呢一個嘅 LED 嘅燈光系統嗰陣時，一齊裝嘅？
- 11  郭偉光先生：應該係。
- 12  黃女士：（經傳譯員）唔該。講番呢個題目，我有一個問題問你，劉先生頭先就提到
- 13           你以前有一個獎金嘅計劃，就係根據駕駛表現嘅，而家就似乎就有呢個制度，
- 14           係咪劉先生係咁嘅意思呀？
- 15  劉啟謙先生：係，冇錯，yes。
- 16  黃女士：（經傳譯員）即係個獎勵係點樣㗎？
- 17  劉啟謙先生：第一，由於個時間都隔咗好遠，個實際嗰個內容，我個印象已經唔清
- 18           晰，但係初期推行嘅時候係有個海報--類似海報嘅東西我係見過，就話呢個係
- 19           一個計劃係提示嘅車長去駕駛係環保嘅--個出發點係環保嘅，同埋安全，如果
- 20           達標嘅話，係會有獎勵嘅，但係就有--實際嗰個操作同埋嗰個相關 details 嘅
- 21           內容，我已經忘記咗，但係我係有印象同埋記憶係有提過係話有獎勵呢一個東
- 22           西喺嗰個盒子入面嘅，但係之後我已經唔再聽見話有獎勵同埋相關嘅內容㗎
- 23           喇。
- 24  主席：（經傳譯員）郭先生，你有冇收過呢個獎？
- 25  郭偉光先生：有嘅。
- 26  主席：（經傳譯員）個獎係乜嘢呀？係畀錢定係生果，定係咩嘢，畀汽球你？
- 27  郭偉光先生：你係講緊係咪個紅、綠、黃燈個表現嗰個？
- 28  主席：（經傳譯員）係。
- 29  郭偉光先生：應該係一個--同一個即係升級車長嗰個有啲關係。

- 1 主席：（經傳譯員）即係唔係金錢，唔係即刻話畀錢你嗰種獎金？
- 2 郭偉光先生：唔係畀錢嘅，唔係畀錢。
- 3 主席：（經傳譯員）唔該晒郭生。歐陽先生。
- 4 歐陽先生：（經傳譯員）郭生，我想問一條問題，你作為車長，你覺得呢個制度對於  
5 工作有冇幫助？
- 6 郭偉光先生：即係你講而家監察嗰個燈嗰個制度？
- 7 歐陽先生：（經傳譯員）係呀。
- 8 郭偉光先生：都有。
- 9 歐陽先生：（經傳譯員）唔該。
- 10 黃女士：（經傳譯員）郭先生、劉先生，你記唔記得呢個嘅獎勵制度係幾時實施㗎？  
11 會唔會係你開始有呢個紅、黃、綠嘅制度嘅時候？
- 12 劉啟謙先生：第一，嗰個燈號裝嗰個年份，我可以好肯定係 2013 年嘅，因為喺  
13 2013 年我工作期間係初初接觸過呢個燈號，我收到車長有反映過畀我聽話初初  
14 佢哋唔習慣呢個盒子，個聲響好嘈同埋不停咁樣著燈，所以佢哋就係話有唔  
15 慣，所以我就好肯定當時裝呢個盒係 2013 年嘅。但係係咪隨住--伴隨住嗰個  
16 獎勵制度一齊呢，呢個我已經有咗嗰個記憶，但係我係有印象係見過係有海報  
17 係話有一個獎勵嘅制度，如果佢做得好，係會有獎勵嘅，但係實際嗰個內容同  
18 埋獎勵啲乜嘢，我已經有咗印象。
- 19 但係有一點我可以好清楚話到畀主席聽，呢個盒子係 2013 年開始係同我  
20 哋講話開始使用，去到而家都仍然係繼續係有用呢個黑色四盞燈嘅盒子。
- 21 黃女士：（經傳譯員）如果呢個系統係再實施嘅，就係話有...
- 22 主席：（經傳譯員）我哋頭先聽到係咁嘅，講緊有個獎勵可能係升級個問題，但係唔  
23 係金錢嘅獎勵。
- 24 黃女士：（經傳譯員）如果話有人建議就話係當獎金咁樣發放，係根據司機車長嗰個  
25 顏色，如果你持續擺到綠色嘅，即係話你駕駛良好嘅話，就會有獎金，...
- 26 主席：（經傳譯員）而家講緊係獎金。
- 27 黃女士：（經傳譯員）...錢，如果咁樣建議嘅話，你覺得有冇幫助，有冇用，對於  
28 加強車長嘅安全意識，有冇用，有冇幫助？
- 29 劉啟謙先生：第一，逢係有獎勵計劃--即係有獎勵嘅嘢，其實喺心理學嚟講，都係一  
30 個正面--對車長係有正面幫助。你話會唔會--分兩樣嘢嚟講，首先，如果你話  
31 有呢個盒子，個達標綠色而有獎金嘅，車長當然嗰個表現有機會可能係因為有

1 獎金呢個誘因而令到佢個表現係會提升。

2 但係有一點我諗要講清楚，就係安全意識係唔會隨住呢個獎金而增加嘅，  
3 即使有獎金嘅誘因喺度，如果假設個車長個安全意識係唔足夠嘅，呢個獎金亦  
4 都未必有一定嘅肯定同埋幫助改善佢哋駕駛個安全性嘅，但係因為係兩樣唔  
5 同嘅概念㗎嘅，一個獎勵當然我覺得一定係有正面嘅鼓勵同埋一個幫助，但係  
6 你話會唔會提升佢哋個安全意識呢，其實個人認為單靠呢四盞燈係唔可能完  
7 全改變一個人駕駛個安全意識嘅。呢個燈號純粹只係一個提醒同埋一個警剔  
8 畀佢哋，而呢個獎勵計劃係有助佢哋可能係會做好少少，但係個意識絕對係唔  
9 會因為呢四盞燈同埋有獎勵而提升，不外乎錢或者係其他嘅獎勵。

10 郭偉光先生：想補充少少，因為我頭先都講過，因為唔同嘅車個設備，係會有唔同  
11 嘅反應嘅，有啲車好敏感，有啲車係冇乜反應嘅，如果用呢個嚟鑑定個車長  
12 佢個工作表現係有啲粗疏嘅，我覺得應該從其他方面去評核，比較滿意㗎。

13 黃女士：（經傳譯員）郭先生，喺你嘅經驗，有冇遇過有一個車長一路都係紅色嘅  
14 呢？即係喺個制度底下，拍八達通卡，一路都係顯示紅色呢？

15 郭偉光先生：我有見過。

16 黃女士：（經傳譯員）我哋聽到九巴一個前僱員嘅證供，就係話有一張好細嘅卡仔係  
17 提醒通知啲巴士車長係有二十九個急彎，然後就提供一啲安全駕駛嘅貼士，你  
18 記唔記得有冇收過呢張卡仔呀？

19 郭偉光先生：係有嘅。

20 黃女士：（經傳譯員）劉生。

21 劉啟謙先生：我有補充，卡仔就的確係有，亦都唔見過有呢啲卡仔，但係其實公司係  
22 有相關路段嘅安全提醒係放咗喺公司個內聯網上面嘅，而早期公司對員工係有  
23 要求佢哋係睇個安全駕駛提示，係要去番內聯網嗰度睇番，提醒佢哋有啲特  
24 定嘅路段可能有危險，要提番佢哋要小心嘅，而啲啲資料其實包含咗有圖片同  
25 埋文字嘅解釋嘅。

26 如果你話卡仔--話急彎卡仔，我都有見過，但係路線嘅安全嘅資料其實放  
27 咗喺內聯網嘅，係，而家 screen 放出嚟嘅資料就係放咗內聯網裏面，車長係  
28 可以查得到、睇得到。

29 主席：（經傳譯員）你話公司係講緊九巴，係咪呀？

30 劉啟謙先生：係，冇錯。

31 黃女士：（經傳譯員）你講唔講到你幾時開始係接觸到呢啲路段嘅內聯網嘅資料，  
32 係幾時有㗎？

33 劉啟謙先生：呢啲資料喺我入職大約 13 年嘅時候開始我已經有接觸到呢啲資料，已

1 經係有，有，一直係有上載，同埋其實大約係兩、三年前嘅，其實都仍然係有  
2 更新去搜集番一啲有安全問題或者隱患嘅路段，去擺番喺個內聯網上面進行  
3 更新嘅。

4 黃女士：（經傳譯員）你提到兩、三年前佢哋都仲係更新緊啲資料，而家呢？

5 劉啟謙先生：而家有冇更新，我唔清楚。

6 黃女士：（經傳譯員）而家講另外一個問題，襲擊車長，你工會就都好重視呢一個問  
7 題，就提供咗好多嘅會議紀錄，喺你嘅意見書亦都有強調嘅，而家請你先就睇  
8 番你嘅意見書，就係 260-93 頁，呢個係英文版，中文版就係 260-56 頁，就  
9 提到話你哋嘅聯盟一路都有跟進車長被襲擊事件，你就話你嘅紀錄可能唔係齊  
10 全嘅，因為只係你嘅聯盟嘅成員通知你，先至會去支援嘅，但係過去聯盟對於  
11 巴士車長安全問題，一直同警方進行溝通，然後你就提供咗一個同運輸署嘅會  
12 議紀錄，2017 年嘅 6 月嘅，呢個就係附件十五個度。

13 就係英文版係 260-73 頁，呢個就係關於乘客襲擊車長嘅，因此你就同運  
14 輸署開會同埋警方開會，同埋律政司個面開會？

15 劉啟謙先生：（經傳譯員）係，對。

16 黃女士：（經傳譯員）我想問一問，你對於譬如話啲監察嘅鏡頭有啲咩嘅意見呢？  
17 有啲唔同嘅工會話畀我哋聽，大部分都係同意係就喺司機位個度裝置啲嘅監  
18 察鏡頭，就可以保護車長同埋可以錄音同埋錄影就係相關嘅事件，你哋嘅工會  
19 就會唔會支持，就係話裝置呢啲嘅監察嘅鏡頭？

20 鍾松輝先生：我哋係同意嘅，同意就裝啲閉路電視嘅，其實就係唔單只保障車長，  
21 甚至乎保障埋乘客添，因為有呢個 CCTV，咁可以證明到個事實個真相。

22 劉啟謙先生：我有少少補充，其實喺警方嘅會議裏面，其實警方都好強調舉證個重  
23 要性，好多時車長襲擊呢啲事情都好依靠個舉證，當然有閉路電視嘅片段，  
24 當然就可以將個經過可以還原得一清二楚，其一就可以保障到車長，亦都係保  
25 障乘客嘅，如果有呢啲閉路電視嘅片段去佐證車長被襲嘅話，我哋相信無論係  
26 檢控，以至去法庭表達個嚴重性上面，係會更加清晰同埋全面嘅。

27 黃女士：（經傳譯員）唔該。相關嘅...

28 主席：（經傳譯員）你繼續之前，咁多位，你哋有冇以前試過就喺法庭上面其實就有  
29 一啲閉路電視嘅片段就係展示到車長被襲嘅情況，有冇一啲個案你自己親身有  
30 經驗㗎？

31 鍾松輝先生：冇。

32 劉啟謙先生：冇，no.

33 主席：Yes, Mr Hui?

1 許漢傑先生：我有個案嘅，不過就係未有閉路電視嗰陣，不過就係有人證，嗰陣時係  
2 有人證證明嗰個乘客打我，就個結果就係佢罰款、留案底咁樣，但係喺我嘅經  
3 驗嚟講，如果有鏡頭嘅話，我哋可以唔使依靠去搵證人，事關其他乘客係比較  
4 怕事，就唔想去做證人，如果有呢個鏡頭，係會幫到我哋去有佐證，能夠證明  
5 嗰個乘客打車長，佢檢控嘅機會我覺得係高，同埋又係對我哋車長嚟講，一個  
6 好大嘅幫助。

7 劉啟謙先生：我有少少補充。我哋其實聯盟一直都同律政司同埋警方強調，我哋相信  
8 香港係一個行普通法、有法治嘅地區，舉證嘅責任喺控方嗰度，如果有 CCTV 作  
9 為襲擊車長做檢控的話，當然嗰個效果會更加好。我哋亦都多次同警方同埋律  
10 政司表達咗我哋對車長被襲嗰個擔憂，亦都要求咗律政司喺檢控嘅過程必須要  
11 同法庭強調車長被襲嗰個嚴重性不下於車長自己本身，乘客，以至其他道路使  
12 用者身上。

13 我哋一直都強調就我哋有話要干預法庭嘅判刑，但係我哋留意到好多時車  
14 長畀人襲擊之後，往往施襲者嗰個判刑係有阻嚇性，變相帶出一個好壞嘅訊息  
15 畀社會知道其實襲擊車長係一個低成本嘅犯法嘅刑事罪行。但係我哋覺得我哋  
16 巴士車長係有理由，亦都經常係不合理地被襲擊嘅，呢樣嘢我覺得係唔應該。

17 而且法例亦都--230A，《公共巴士服務條例》亦都賦予咗車長有啲職權係  
18 法例上容許，亦都係我哋擁有嘅權力嚟嘅，但係調番轉我哋經常都係被施襲嗰  
19 一個，而我哋見唔到律政司有同司法機構有強調到打車長呢件事嘅嚴重性，亦  
20 都畀社會帶出一個好錯誤嘅訊息，就係其實打車長係一個好平常嘅事，亦都唔  
21 需要負刑責，調番轉，法例又如何可以保障到我哋車長嘅安全呢？

22 主席：（經傳譯員）你係咪同司法機關同埋--對唔住，係律政司同埋警方方面係有反  
23 映過你哋嘅意見㗎？

24 劉啟謙先生：冇錯，喺 2017 年 6 月 30 號嘅會議上面有反映過，我哋反映左兩個重  
25 點，第一，就係律政司喺檢控嘅過程裏面必須要同法庭同埋司法機構講得到襲  
26 擊車長嗰個嘅嚴重性，同埋對社會嗰個危害嘅問題；第二，就係我亦都同律政  
27 司指出，由於呢啲判刑都係輕，同埋車長都擺唔--嗰個帶唔到嗰個阻嚇性出  
28 嚟，我哋亦都要求過律政司係話檢控完成之後，應該要積極嘅跟進工作，包括  
29 就係同法庭講要上訴覆核刑期，呢啲都係喺我哋個會議紀錄裏面有提過嘅，我  
30 哋聯盟其實一直有同律政司重申我哋唔係話要干預呢個法庭嘅判決，我亦都每  
31 一次好尊重法庭嘅判決，但係我哋相信法治係香港最成功嘅基石，亦都係一個  
32 行普通法地區，呢樣嘢係我哋引以自豪，但係最大嘅問題係律政司嗰個工作上  
33 面，我哋見到佢帶唔到嗰個罪行嘅嚴重性出嚟，變相其實車長根本嗰個喺法律  
34 上嘅保障其實唔足夠，變相。如果你話係有啲例子，係可以係帶出嗰個嚴重  
35 性，判刑係話嚴重嘅，我哋相信係有一個好大嘅阻嚇性。

36 同埋仲有一點，我哋留意到警察喺處理呢啲被襲嘅案件嘅時候，其實好多  
37 時都唔清楚嗰個情況，有好多時車長可能又有啲手嘅，被誤以為呢個打鬥；亦

1 都有啲情況下，嗰個警方會主動勸車長「不如息事寧人，和解喇。」我哋亦都  
2 有同警方強調過，230A 賦予我哋嘅權力其實係好大，滋擾車長其實係可以將嗰  
3 個乘客係移離個車廂度，呢啲係法例賦予咗畀我哋，但係警方好多前線嘅警務  
4 人員係唔清楚 230A 個實際嗰個操作嘅情況同埋個內容。

5 許漢傑先生：我有嘢補充。頭先就住我親身經驗，劉生講咗個情況，就係我喺醫院驗  
6 傷嗰陣，當未有人通知警察嗰陣，有證人嗰陣，佢就同我講，警察同我講「你  
7 不如和解，唔好搞咁多嘢，和解喇。」當我知道有證人嗰陣，我就同個警察講  
8 我要告。

9 好多時我作為工會理事長，做咗十幾年工會，我見到好多同事遇到呢啲咁  
10 嘅情況，警察係真係有叫佢哋「你不如和解，你又有證人，好難舉證，好難告  
11 得佢入，就算告得入，都係罰款了事，對佢有太大嘅阻嚇性，你不如和解算  
12 喇。」但係我覺得呢個情況喺我哋同律政司開會，同警察嘅代表、刑事部門嘅  
13 代表開會嗰陣，我哋有強調呢樣嘢，就係話警察本身係要維護一個弱勢社群，  
14 一個社群嘅——好似我哋車長畀人打完，你冇可能叫我哋和解。

15 同埋一樣嘢，就係去到上法庭，律政署嗰邊...

16 主席：（經傳譯員）許先生，你被襲嗰日係邊一日呀？日期係幾時呀？

17 許漢傑先生：好多年——十零年前，當我仲做緊通宵車長嗰陣。

18 主席：（經傳譯員）喺三年前嘅數據，我哋就有——或者有啲相關嘅資料係三年前，但  
19 係如果你話咁耐之前就冇喇。黃大律師。

20 黃女士：（經傳譯員）主席，就為咗紀錄嘅原因，2017 年 6 月 30 號嗰個會議紀  
21 錄，佢哋提到嘅，劉生提到，就係 TU，就係 TU 260-474 至到之後嗰幾頁嘅。  
22 呢個就係跟住就係講關於呢個保護罩嗰方面。有一個工會話畀我哋聽就用保護  
23 罩其實係有啲問題嘅，我就想問一問郭先生，就特別係九巴方面，我相信呢個  
24 係九巴嘅措施嚟嘅。你喺使用保護罩方面，你覺得有冇問題呢？就係司機位附  
25 近裝置呢個保護罩有冇問題呢，你覺得？

26 郭偉光先生：裝置保護罩係冇問題，但係佢而家所裝置嘅情況係唔理想嘅。

27 黃女士：（經傳譯員）可唔可以話畀我哋聽點解呢？

28 郭偉光先生：因為嗰個保護罩涵括嘅範圍太過少，同埋佢太過——嗰個位置唔理想，同  
29 埋會有個阻礙視線嘅情況，另外一樣嘢就係個聲音，都有個聲音嚟度，有個嘈  
30 吵嘅聲音嚟度。另外一樣嘢就係有個建議，就應該係成幅過，唔好係得一半，  
31 得一半其實保護唔到我哋嘅，佢要打我哋，一樣打到，真係嘅，應該係由上至  
32 下會比較理想啲。

33 劉啟謙先生：呢一個問題林生同鍾生都有補充。

34 林錦標先生：其實我哋都有關於呢個車長被襲同埋裝呢個防被打嘅裝置，其實我哋响

運輸署都提咗一個意見嘅，因為我本人就曾經就去過英國，睇到英國嘅巴士，就因為我哋香港嘅巴士亦都係個型號亦都係英國嘅，但係英國巴士就係司機位嗰度全部裝晒呢啲——一啲膠片嘅形式嘅，係全部封密晒嘅，即係個司機好似一間房咁嘅，就完全啲乘客係接觸唔到個車長，但係個車長亦都可以睇到出面嘅環境，同埋睇到路面嘅。但係我唔知道呢個系統——即係呢個裝置適唔適合香港，但係我哋响會議提出過建議畀運輸署同巴士公司去考慮。

就九巴呢個裝置，其實佢都係一個試驗性質，其實應該係仲有改良嘅方向嘅，視乎於我哋係用家，提出嘅意見畀番巴士公司去改善佢呢個裝置，因為你巴士公司裏面嘅工程人員係唔知道你哋嗰個情況嘅，只有個用家先知道係嗰個裝置係點樣，將個意見反映畀佢嘅工程人員或者係反映畀公司聽，然後去作出改良，可以做到一個良好嘅效果。

其實呢個裝置係幫到司機嘅，不過新、城巴就已經反對咗話做呢一個裝置，因為以新、城巴嘅管理層講就話「你哋司機唔好得罪啲乘客，啲乘客就唔會打你哋㗎喇。」我哋惟有——冇辦法喇，我哋準備畀人打㗎喇已經。即係我哋新、城巴同事見到九巴有咁嘅嘢，我哋都希望，亦都同公司反映，已經公司係答咗㗎喇。我呢度嘅補充就係咁多。

主席：（經傳譯員）喺英國，你話見到咁樣全面嘅一個保護罩，係喺英國喺邊度見到呀？

林錦標先生：响倫敦，甚至係伯明翰。

主席：（經傳譯員）你知唔知道邊間巴士公司呀？倫敦邊間巴士公司用呢一個裝置呢？

林錦標先生：因為我真係唔清楚佢邊間公司，但係我見過佢嗰度就有好多——幾間巴士公司全部都係裝到呢個系統嘅。

主席：（經傳譯員）唔該。

黃女士：（經傳譯員）你嘅工會亦都有表達關注，就係用 12.8 米長嘅巴士，佢個後軸有呢一個嘅轉向嘅功能，而運輸署都有回覆嘅，就話會考慮下每個路線係咪適合，同埋要求巴士公司去做路試去確保駕駛係安全嘅，呢封信就係由運輸署回覆嘅，日期係 2017 年 9 月 11 號，即係 TU 文件冊第 260-2、橫劃 4 至橫劃 6 嘅。你嘅工會係咪對於呢一種嘅巴士嘅使用係咪都係仲有關注呢？

林錦標先生：係嘅，因為 12.8 米其實响香港現行個道路方面，因為香港就路窄人多，而用到咁長嘅巴士其實佢個隱憂一定响度嘅。仲有一樣嘢，因為呢個 12.8 米尾輪轉向，當佢轉向嗰陣時，轉彎無疑司機係揸得好舒服，但係因為佢有咁長，其他車輛唔知道你架車會尾輪轉向嘅，只有司機先知有個——運輸署要巴士公司要黏一張紙話畀司機聽呢個係尾輪轉向，但係其他嘅道路使用者係唔知道呢架巴士係尾輪轉向，當佢轉向之下，同一時間有其他嘅車輛貼近咗個巴士，

1 一轉彎，巴士個尾嗰部分就會過咗對方嘅行車線而產生危險。

2 响情況下，因為正式話交通意外數字暫時可能影響--即係有咁多數字，但  
3 係响一响位置嗰度，例如一個巴士總站，有响路面係曾經試過尾輪轉向係掃到  
4 其他車嘅，但係--梗係冇辦法喇，一定係輪就輪在我哋，因為我哋過咗對方個  
5 火位線。

6 仲有，而家個道路個路面嗰個闊度根本而家嘅巴士响嗰條行車線裏面，即  
7 係每側得半吋位嘅啫，佢因為個--而家係畫咗係 9 呎嘅，而巴士已經係 8 呎半  
8 吋，你可想而知我哋架車已經係佔用晒嗰條行車線㗎喇，如果有隔離有一架大  
9 車一齊轉彎的話，一個轉左，一個轉右，同一時間一轉，我哋嗰架 12.8 米就一  
10 定掃過隔離，冇得講嘅，因為嗰條線係咁多，嗰條行車線咁多，一轉之後，個  
11 尾就會拂到過去。

12 因為九巴亦都擺咗一架 12.8 米响一個安全情況下去試，戙咗雪糕筒，去  
13 試呢响 12.8 米轉彎嘅情況，足足响嗰條行車線嗰度係過咗 3 呎位嘅，所以响情  
14 況下，我哋同運輸署講，响 12.8 米要試路嗰陣時係希望邀請埋我哋工會，我哋  
15 一齊去試，而且用戙咗一响--即係我哋唔好用其他車輛去試，用一响雪糕筒擺  
16 响度，等佢轉嗰個 90 度彎之下，佢會唔會係撞到其他車輛各樣，但係奈何運輸  
17 署就話「因為巴士公司去試咗，唔會叫你哋工會去再試嘅。」

18 我哋亦都响近期都要求再多一次，關於試路嘅問題，如果去到咁長嘅車，  
19 希望同埋工會去畀意見，我哋提出咗一個地點，我哋提咗一個地點嘅，就係响  
20 香港灣仔嘅菲林明道天橋轉呢個軒尼詩道，因為嗰個路口一個係左轉，一個係  
21 右轉，响嗰度就嚟試呢個 12.8 米，因為同一時間係城巴同新巴都有 12.8 米，  
22 如果同一時間有兩架 12.8 米一齊去嗰個彎位，一定出事嘅，因為大家都唔知道  
23 --即係响現時嚟講，其他道路使用者係唔知道我哋嗰個 12.8 米個尾輪轉向，  
24 所以我哋一路都要求運輸署...

25 主席：（經傳譯員）林生，我哋就唔係好夠時間，我哋明白你想講咩嘢㗎喇，即係你  
26 哋仍然都係關注呢一種長巴士喺香港使用係唔安全，我哋其實明白㗎喇，唔該  
27 晒。

28 黃女士：（經傳譯員）你唔介意嘅話，可唔可以你頭先講話你書面再要求運輸署去做  
29 一個重新測試嘅嗰份文件，如果你可以提供畀我哋，就唔該你遲啲提供畀委員  
30 會喇。

31 劉啟謙先生：主席閣下，非常之唔好意思，我哋聯盟就收到運輸署首長級嘅官員來  
32 電，就話對於我哋畀咗--一開始畀咗三份會議紀錄委員會非常之唔高興，亦都  
33 覺得非常不滿我哋將响會議紀錄畀會議紀錄，但係我哋覺得畀會議紀錄委員會  
34 係有助委員會嘅工作，我哋一樣將過往嘅會議紀錄提交畀委員會，但係 2017 年  
35 8 月之後嘅會議紀錄，運輸署就話佢哋唔會再畀我哋㗎喇。

36 主席：（經傳譯員）係邊個同你喺電話咁講呀？即係話好不滿你畀咗响文件畀呢一個

1 委員會呢？係邊個咁講呀？

2 林錦標先生：當日係我打電話去運輸署，希望佢哋交番啲文件畀我哋嘅，因為我哋仲  
3 有--已經係追咗好耐呢啲會議嘅文件，佢一路都話仲有啲部門未交，仲有一啲  
4 其他嘢，仲未可以畀到我哋，我話「你儘快畀我哋喇。」佢就--對方其實都講  
5 咗，佢話「你哋--委員會叫我哋交，我哋都有交到，呢啲係我哋尊重你哋工會  
6 嗰個私隱，就唔會交界委員會。」我亦都同佢講，因為如果係畀其他人嘅，我  
7 哋係唔會畀會議紀錄，但係如果係畀--係有助調查嘅問題，我哋一定會交，呢  
8 個係我哋個立場嚟嘅。

9 因為我都想講，因為對方係首長級，我亦都唔想公開佢係邊個，因為我唔  
10 知會唔會係對佢個前途有問題，所以我真係唔夠膽講，因為我知道對方嗰個真  
11 係首長級。

12 劉啟謙先生：我哋其實好希望委員會係諒解我哋...

13 主席：（經傳譯員）呢段對話係幾時講㗎？

14 林錦標先生：响 6 月嗰陣時--唔係，...

15 主席：（經傳譯員）你慢慢諗吓。

16 林錦標先生：响 7 月，今個月嘅--係响 7 月中嗰陣時我去追嘅，因為我哋亦都知道  
17 要係等緊委員會叫我哋上嚟嘅。

18 劉啟謙先生：我代表我哋聯盟再一次向主席你講抱歉，我哋好盡力去搵主席所要求嘅  
19 文件，但係何奈我哋真係得唔到，交唔到畀委員會參閱，我哋真係非常之抱歉  
20 同唔好意思。而之後我哋仲會有會議紀錄收到--我哋都唔敢想會唔會再有會議  
21 紀錄收到。

22 主席：（經傳譯員）唔該晒，你已經提供過畀我哋嘅會議紀錄。黃大律師。

23 黃女士：（經傳譯員）唔該晒。各位，最後我要問嘅就係呢一個嘅實務守則，即係最  
24 近運輸署發出嘅實務守則，我哋最近就知道運輸署係發出過一份實務守則，就  
25 畀專營巴士公司，係畀巴士車長培訓，就係唔同嘅公司統一嘅培訓方式嘅，同  
26 埋就有一個框架係點樣培訓巴士車長嘅，就話擬定喺 2018 年 10 月會實施，就  
27 有個工作小組，係因為喺 2018 年 2 月大埔巴士意外之後成立而提出，所以有個  
28 咁嘅框架嘅。呢一個工作小組就有五個嘅巴士公司代表、巴士廠代表同埋係運  
29 輸署嘅官員嘅，而最近佢哋就通知咗我哋已經係發出咗實務守則。

30 我個問題係咁嘅，有冇畀過一份呢個實務守則畀你個會呀？

31 林錦標先生：冇。

32 劉啟謙先生：Excuse me，我哋收過委員會其中運輸署嘅回覆--運輸署答回去嘅信  
33 件我哋係有睇過，但係如果你話有冇嗰個實務守則，可以--係一本吓，定係--

1 如果係一本的話，我哋就有收過，我哋只係收過委員會畀我哋運輸署有關車長  
2 培訓嘅回覆嘅信件啫，其他資料我哋冇收過。

3 黃女士：（經傳譯員）唔該劉生，我哋都有收過。我再問下呢一個實務守則，之前有  
4 冇諮詢過你哋所有呢個實務守則嘅內容呢，關於係培訓巴士車長嘅，譬如話運  
5 輸署或者巴士公司有冇諮詢過聯盟將來培訓巴士車長有咩嘢題目咁，有冇諮詢  
6 過？

7 劉啟謙先生：第一，我哋都係從委員會得知運輸署原來係成立咗一個工作小組係有巴  
8 士製造商同埋巴士公司嘅持份者，我哋都係從委員會嘅作供先得知有呢一個嘅  
9 工作小組，而我哋其實喺 5 月份有同運輸署一次會議裏面，要求過運輸署將我  
10 哋工會係加入嗰個工作小組入面，因為其實講嘅內容都同我哋工會係有關係  
11 嘅，但係運輸署當然就有答應我哋話將我哋加入去喇。而呢份所謂實務守則其  
12 實由制定以致個內容，我哋一直都有參與過，而所謂嘅工作小組都係從委員會  
13 嘅作供先至得知有呢一個工作小組嘅存在，其實所有佢哋嘅工作都係有諮詢過  
14 我哋。

15 我哋得知之後，其實已經好緊張話「你哋唔可以話唔諮詢巴士工會㗎  
16 㗎。」但係何奈佢一個諮詢、一個問題都有同我哋講過，冇問過我哋任何意  
17 見。

18 主席：（經傳譯員）你向運輸署提出呢一個要求嘅時候，你係咪用書面提出㗎？

19 劉啟謙先生：我哋喺 5 月份有同運輸署進行一次跨部門會議嘅，就係運輸署嚟完聽  
20 證會嘅翌日，我哋係有同佢係開過一次會，就就住嗰個工作小組，其實我哋即  
21 時有同佢哋講話「可唔可以加埋我哋入嗰個工作小組入面呀？」其實署方嘅回  
22 應都係話「工作小組都係工作都係嗰啲成員」，就有正面回應過會唔會加我哋  
23 入去，而實務守則其實喺會議上亦都冇任何提過話有呢一樣嘢，亦都有諮詢過  
24 我哋，我哋係喺嗰個會議，而嗰個會議嘅會議紀錄正如頭先所講，我哋係有  
25 嘅。

26 主席：（經傳譯員）所以你唔係用書面提出嘅，你就係一個會議嗰度提出，就係用口  
27 頭提出嘅，係咪咁呢？

28 劉啟謙先生：係，冇錯。

29 主席：（經傳譯員）你自己有冇寫低啲會議紀錄㗎？

30 劉啟謙先生：我哋有--同事係有記錄低個內容，其實呢啲會議每一次都係由運輸署負  
31 責畀番個會議紀錄我哋，而我哋自己其實有一個手--即係 write down jot  
32 notes 嘅紀錄㗎度，但係唔係一個 formal 嘅會議紀錄㗎嘅，但係有 jot 低啲  
33 重點嘅內容，而每一次其實都係運輸署會派員去記錄同埋做個會議紀錄畀番我  
34 哋。

35 主席：（經傳譯員）你呢個會你寫低咗啲咩嘢重點，或者你都可以提供畀我哋，得唔

1 得呢？

2 劉啟謙先生：主席，我要返去同同事整理一下，可唔可以事後補番畀主席閣下睇番  
3 呢？

4 主席：（經傳譯員）如果你咁做，就會對我哋有幫助嘅。

5 劉啟謙先生：Thank you very much. Thank you.

6 黃女士：（經傳譯員）唔該晒，主席，我嘅提問就到此為止。

7 主席：（經傳譯員）各位，就我哋就係完結㗎喇，提問嘅部分，你有冇啲最後嘅一啲  
8 結語？如果你有乜特別嘢講，都可以唔需要嘅。

9 鍾松輝先生：我哋聯盟想強調一個立場嘅，就住運輸署制定嗰啲巴士工作指引，嗰個  
10 工作指引，呢個指引當然唔係一個法例，但係就對巴士公司係有一個規範嘅，  
11 而呢一個指引亦都係對我哋啲員工亦都有直接嘅影響，因為佢嘅指引就都牽涉  
12 到我哋啲持份者、啲員工嘅，如果運輸署就住今次嗰個指引，就住嗰個特別更  
13 呢個指引，而呢個指引佢仍然係維持十四小時，繼續令到我哋啲車長疲勞駕駛  
14 不特只，佢仲係將中間嗰三個小時休息，而冇作出任何嘅指引落去，即係意思  
15 就係話應該係薪酬直落計，但係運輸署就不負責任，就唔提供呢一個指引，變  
16 相我哋時間就用咗十四小時，但係我哋就收唔到十四小時嗰個薪酬，佢個指引  
17 所講話唔少於三小時，即係意思可以多過三小時，根據指引。

18 如果個巴士公司--其實根據指引，佢可以畀夠六個小時你休息嘅，多過三  
19 小時咁嘛，咁就變咗我哋啲前線車長就得番八小時嘅薪酬，其他嗰啲就正如前  
20 日咁講，\$21.90 一個鐘，呢個我哋覺得運輸署就非常之不負責任。

21 其實我最想強調，因為呢個專營巴士公司係牽涉到一個公共服務嚟...

22 主席：（經傳譯員）唔好意思，鍾生。就黃大律師，城巴係咪講過就話有特別更，佢  
23 哋建議就唔係話純粹係一個津貼嘅呢一個嘅工資，而係話真係一個正式嘅時薪  
24 嘅？

25 黃女士：（經傳譯員）係，佢哋係真係咁講。

26 主席：（經傳譯員）好明顯九巴就係嗰個工資就係唔同喇。

27 鍾松輝先生：我想補充少少嘅，而家我所講就係運輸署嗰個指引嗰個內容，就唔係個  
28 別巴士公司去提供嗰個薪酬計算方法，而因為根據嗰個指引，巴士公司係完全  
29 可以唔畀薪酬㗎，嗰個休息時間，就算新巴、城巴今日應承咗我...

30 主席：（經傳譯員）呢個運輸署嘅指引其實就唔係話針對關於個工資個問題，係咪你  
31 建議就話呢啲指引應該都係涵蓋工資嘅呢個範疇呢？

32 鍾松輝先生：冇錯，我想...

1 主席：（經傳譯員）運輸署就話「工資嗰方面其實就係巴士公司同埋呢一個司機之間  
2 嘅問題，就唔係我哋嘅責任嚟嘅。」佢哋就係咁講嘅。

3 鍾松輝先生：係，冇錯，我覺得指引係佢哋制定嘅，佢哋係有責任嘅。我仲想強調一  
4 樣嘢，因為專營巴士服務係屬於一個公共服務嚟嘅，係牽涉到——係影響到呢個  
5 公眾利益，因為如果你處理得唔好，係全香港嘅市民都受到影響嘅。我舉個  
6 例，當年香港政府就住公務員貪污，佢都高薪養廉，佢都有個政策令到唔可以  
7 有影響到呢個公眾利益，你運輸署制定嘅指引，但係佢就不負責任咁淨係符合  
8 巴士公司嗰個所謂要求，就唔理到我哋嗰個生計，我哋對呢個非常不滿。同埋  
9 十四小時絕對係唔夠時間休息嘅。

10 主席：（經傳譯員）我哋明白㗎喇。劉先生，你係咪都係就呢一點想講多少少呢？

11 劉啟謙先生：其實我哋...

12 主席：（經傳譯員）係總結嘅。

13 劉啟謙先生：兩分鐘。其實好簡單，巴士、電同水呢啲都係公營事業，牽涉到公眾利  
14 益，當然我哋明白特首委任三位做委員會，就係因為牽涉到重大公眾利益，但  
15 係運輸署仍然都唔將呢個公眾利益放喺首位，仲縱容呢個疲勞駕駛，仲縱容唔  
16 理嗰個工資低嘅問題，其實巴士公司嘅生意嘅數目，其實政府運房局係有監察  
17 同監控，政府係全權咁介入緊專營巴士嗰個收入、支出，加價都要政府批准，  
18 都要經過交諮會、行政會議，政府早已經係完全咁樣插入咗巴士公司嘅管理入  
19 面。我哋睇唔到理由畀運輸署推搪，淨係整個指引，但係就唔理薪酬，容許我  
20 哋仍然係長工時、人工低呢個慘況。

21 而我哋同事亦都提過工資指引畀運輸署參考，用一個科學同埋一個實際嘅  
22 數據去釐訂個薪酬，保障巴士嘅員工。巴士業要有足夠嘅人手，先至可以提供  
23 到適切嘅服務，每一樣都係唇齒相依嘅，如果遺漏，淨係講工時，唔講個個人  
24 工低，其實冇用嘅，同安全呢樣嘢係完全談唔上，係掛鈎嘅呢樣嘢。有足夠嘅  
25 車長工作，先至提供到服務，車長先至會有足夠嘅薪金，就唔會長時間駕駛，  
26 唔會疲勞，唔疲勞，其實安全嘅問題就減低。

27 我最後想補充一樣嘢，就係我哋看待呢一個係一個責任，唔係一個工作，  
28 而家就調番轉，我覺得巴士司機就係一個工作，接載乘客啫，但係背後個責任  
29 其實好大，所以我希望主席會明白。

30 多謝主席。

31 主席：（經傳譯員）多謝你嘅總結嘅，就多謝你，你兌現咗你嘅承諾，就係用兩分鐘  
32 就夠喇。好，我哋就暫時停止，我哋會休會，應該係下個星期二會繼續嘅，我  
33 哋就會聽取其他嘅證供，多謝咁多位今日出席，唔好意思，就你哋要再一次返  
34 嚟，多謝你哋嘅耐性，我哋而家就係休會嘅。

(10.00 am)

EVIDENCE FROM KOWLOON MOTOR BUS CO (1933) LTD AND LONG WING  
BUS CO LTD: DR NORMAN LEUNG, DR JOHN CHAN, MR ROGER LEE, MR  
GODWIN SO, MR LEUNG KIN WANG, MR PATRICK PANG, MR JAMES WONG  
(evidence given in Cantonese; transcription of simultaneous  
interpretation unless otherwise indicated)

CHAIRMAN: Dr Leung, gentlemen, thank you for helping the  
invitation of the committee to give evidence to assist  
us in our duties. I understand, Dr Leung, that there is  
an initial statement that you wish to make, so we will  
hear from you then, after which I will ask Mr Duncan,  
who is one of the counsel assisting the committee, to  
pose questions to you.

It may be that one or other of your colleagues is  
better equipped to answer questions, and I leave it to  
you to indicate if that's the case and to give way to  
that colleague. If you can nominate who it is, that  
would assist us. But perhaps I could invite you first  
of all to make your opening statement.

Opening statement by DR NORMAN LEUNG

DR NORMAN LEUNG: (In English) Thank you.

Good morning, Mr Chairman and members of the  
committee. May I say from the outset that we were and  
still are very sorry about the tragic incident that

1 occurred on Tai Po Road on 10 February 2018.

2 On 11 February 2018, I took chairman's action to  
3 form a special committee of the board of directors  
4 comprising Dr John Chan and Mr Andy Tsang as members and  
5 I as the chairman, to conduct an investigation into the  
6 incident and to come up with recommendations on bus  
7 safety.

8 The special committee has held a number of meetings  
9 with KMB/Long Win management, representatives of two  
10 trade unions two bus manufacturers, ADL and Volvo.

11 The special committee produced a report on 12 March  
12 2018, setting forth therein a number of recommendations  
13 to enhance bus safety. This report was submitted to the  
14 Commissioner for Transport on the same date and the same  
15 has also been submitted to this committee.

16 On 10 April 2018, we reduced into writing our action  
17 plan to implement the recommendations set out in the  
18 report dated 12 March 2018, and yesterday we submitted  
19 to this committee an update on the action plan, stating  
20 therein actions taken by our management to execute the  
21 recommendations up to the end of July 2018.

22 Mr Chairman and members of the committee, my  
23 colleagues and I have come before you this morning with  
24 a humble heart and with proactive attitude. We know  
25 that we are duty-bound to offer safe bus services to our  
26

1 passengers and we welcome any recommendations that would  
2 enhance bus safety. Subject to technological and  
3 financial feasibility, we would be glad to implement  
4 your recommendations.

5 Thank you, Mr Chairman.

6 CHAIRMAN: Thank you, Dr Leung.

7 Yes, Mr Duncan.

8 Examination by MR DUNCAN

9 MR DUNCAN: Thank you, Mr Chairman.

10 Good morning, Dr Leung, and gentlemen.

11 I would firstly like to echo the chairman's remarks  
12 by thanking you for your attendance today, and also for  
13 providing a very significant amount of written material  
14 to the committee for its consideration.

15 There are some areas where clarification or further  
16 assistance would be appreciated, and it is in that  
17 respect that I have a number of questions for you.

18 I appreciate that you are representing both the  
19 Kowloon Motor Bus (1933) Ltd and also Long Win Bus  
20 Company, but if it is in order and just to ease matters,  
21 I will refer generally to both entities as "the  
22 company"; it will make things easier.

23 If, however, at any point you wish to distinguish  
24 between the two entities, please feel free to do so.

25 If I could firstly raise one point, just from your  
26

1 opening remarks, Dr Leung.

2 DR NORMAN LEUNG: (In English) Yes.

3 MR DUNCAN: I am looking at the fifth paragraph of those  
4 remarks, where you referred to the production by the  
5 special committee of 12 March this year, following the  
6 tragic accident at Tai Po. It is said in your remarks  
7 that that report was submitted to the Commissioner for  
8 Transport on the same date, and that the same has also  
9 been submitted to the committee.

10 Are you aware that certain portions of that report  
11 were withheld from the committee?

12 DR NORMAN LEUNG: (In English) Yes, the redacted portion,  
13 relating to the traffic accident, yes.

14 MR DUNCAN: Thank you. Could you perhaps turn to the copy  
15 of the report that is in the bundles. We will find this  
16 in file KMB-1 at page 98.

17 You will see at that page the front --

18 DR NORMAN LEUNG: (In English) What page are we on, Mr  
19 Duncan?

20 MR DUNCAN: I'm just taking you to the report itself.

21 CHAIRMAN: Page 98.

22 DR NORMAN LEUNG: (In English) Yes.

23 MR DUNCAN: You will see the cover of the report, and then  
24 if you turn the page through to page 99, you will see  
25 a table of contents. You will see the table of contents  
26

1 at page 99.

2 DR NORMAN LEUNG: (In English) Table of contents, page 99,  
3 yes.

4 MR DUNCAN: The portions which are of interest to the  
5 committee, which are being withheld, are part 2,  
6 accident regulation report, and part 3, issues relating  
7 to bus captains.

8 Issues relating to bus captains is obviously  
9 a matter of central importance to the operation of this  
10 inquiry, and I'm simply going to make a request of you  
11 as to whether you would consider releasing to the  
12 committee both parts 2 and 3 for the committee to  
13 consider, of course within the confines of its terms of  
14 reference.

15 You may wish to discuss that with your colleagues,  
16 but I'm simply making that request of you and ask you to  
17 consider that, please, perhaps after the hearing today.

18 DR NORMAN LEUNG: (In English) Specifically you are  
19 referring to part 2, accident investigation report?

20 MR DUNCAN: Correct.

21 DR NORMAN LEUNG: (In English) As well as part 3, issues  
22 relating to bus captains?

23 MR DUNCAN: Correct. If you look at pages 102 and 103 of  
24 the bundle, you will see that that information is being  
25 withheld.

26

1 DR NORMAN LEUNG: (In English) Yes.

2 MR DUNCAN: And no doubt a position was taken on that.

3 DR NORMAN LEUNG: (In English) Yes.

4 MR DUNCAN: But I am asking you to reconsider that with your  
5 colleagues, not right now but during the course of these  
6 proceedings.

7 DR NORMAN LEUNG: (In English) In that connection, may  
8 I please ask whether this information would be submitted  
9 for the consideration of this committee or would it  
10 become public information? I have to know that.

11 CHAIRMAN: All information that this committee receives is  
12 on the basis that it becomes public, if the committee  
13 deem it appropriate.

14 DR NORMAN LEUNG: (In English) Thank you, Mr Chairman, for  
15 that clarification.

16 I will consider your request.

17 MR DUNCAN: Thank you, Dr Leung.

18 Sticking with this file, KMB-1, could I ask you to  
19 go, please, to page 31.

20 DR NORMAN LEUNG: (In English) Page 31. Yes.

21 MR DUNCAN: Just to put this page in context, this is  
22 an extract from the initial submission made by Kowloon  
23 Motor Bus, by the company, in response to the  
24 committee's request for information.

25 DR NORMAN LEUNG: (In English) Yes.

26

1 MR DUNCAN: If you just want to put it in context, if you go  
2 back to page 1 of the bundle.

3 DR NORMAN LEUNG: (In English) Page 1?

4 MR DUNCAN: Yes.

5 DR NORMAN LEUNG: (In English) Yes.

6 MR DUNCAN: You will see a letter from the secretariat of  
7 the committee dated 28 March 2018.

8 DR NORMAN LEUNG: (In English) Yes.

9 MR DUNCAN: If you go through the following pages, you will  
10 see that the committee has asked for information  
11 relating to a number of specified matters.

12 DR NORMAN LEUNG: (In English) Yes.

13 MR DUNCAN: Then if I take you to page 31, you will see at  
14 the top of the page one of the questions which was posed  
15 by the committee:

16 "Please identify and supply copies of:

17 (iv) any codes of corporate and social  
18 responsibility published by your company."

19 DR NORMAN LEUNG: (In English) Yes.

20 MR DUNCAN: I am interested in the first of the three  
21 components, which appears in paragraph 2 of the answer.  
22 Do you see the component described as a key component,  
23 "Safety"? Perhaps I can just read that out for the  
24 record. You have said:

25 "The three key components of our [corporate social  
26

1 responsibility] have been listed on the corporate  
2 website:

3 KMB and LWB are committed to providing customers  
4 with a safe, reliable and comfortable bus service, which  
5 gives value for money. KMB and LWB continue to invest  
6 heavily in improving the safety of its bus operations by  
7 providing intensive training to its staff, strengthening  
8 performance monitoring procedures, implementing reward  
9 schemes, improving bus design and promoting passenger  
10 safety both internally and to the public."

11 What I want to do, Dr Leung, is, concentrating on  
12 the implementing of reward schemes --

13 DR NORMAN LEUNG: (In English) Maintenance?

14 MR DUNCAN: Reward schemes. Do you see the reference to  
15 "reward schemes"?

16 DR NORMAN LEUNG: (In English) Yes.

17 MR DUNCAN: I want to ask you a few questions, please, with  
18 regard to what schemes currently exist relating to the  
19 safety performance of bus drivers. Do you understand  
20 that?

21 DR NORMAN LEUNG: (In English) Reward schemes, improving bus  
22 design -- okay.

23 Godwin, would you please answer the question.

24 MR DUNCAN: I haven't really asked the questions yet. I'm  
25 just indicating the matters I'm going to pursue. That's  
26

1 the topic I am going to pursue with you and your  
2 colleagues.

3 CHAIRMAN: And Mr So will be dealing with the questions?

4 DR NORMAN LEUNG: (In English) Yes.

5 CHAIRMAN: Thank you.

6 MR DUNCAN: In that respect, can I ask you to turn to  
7 page 108 of the bundle.

8 DR NORMAN LEUNG: (In English) 108?

9 MR DUNCAN: Yes.

10 DR NORMAN LEUNG: (In English) Yes.

11 MR DUNCAN: We see at paragraph 29 on that page that on  
12 21 February 2018, KMB and LWB announced that safety  
13 bonus and good service bonus would be incorporated into  
14 basic salary, effective from 1 March 2018. There is  
15 reference then to table 2, table 3 and table 4, which  
16 set out the pay structures before and after the salary  
17 optimisation.

18 DR NORMAN LEUNG: (In English) Yes.

19 MR DUNCAN: And you will see the tables by turning the page,  
20 finding those at 109 and 110.

21 I notice that this change was announced on  
22 21 February, which was just 11 days after the accident  
23 in Tai Po. My question is: was the occurrence of the  
24 accident a factor in the announcement of this change?

25 DR NORMAN LEUNG: (In English) Thank you, Mr Duncan. Thank  
26

1           you for your question. I'm glad I have an opportunity  
2           to make a clarification on this point. In fact, last  
3           November, when there was unfortunately a traffic  
4           accident happened in Sham Shui Po, involving casualties  
5           and injury to a number of passengers, I noticed from the  
6           newspaper report that our monthly rated bus captains at  
7           the time were earning a salary of less than \$12,000  
8           a month. It was just under \$12,000. Then -- in fact,  
9           this is my initiative -- I said to myself that something  
10          had to be done about it.

11                 So I examined the pay structure of the monthly rated  
12          bus captains, and I noticed each month that apart from  
13          the basic salary and safety bonus of \$18,000, as well  
14          as --

15   CHAIRMAN: 1,800?

16   DR NORMAN LEUNG: (In English) 1,800, I beg your pardon,  
17           1,800 -- thank you for your correction -- as well as  
18           a safety performance bonus of another 1,800, were paid.

19                 Then I decided that we can perhaps enhance the  
20          remuneration structure. So at the board meeting in  
21          December, the board approved that the safety bonus as  
22          well as the performance bonus totalling \$3,600 be  
23          incorporated into the basic salary. That's the first  
24          thing.

25                 And the second thing, because the overtime payment  
26

1           was formerly based -- was made by reference to the basic  
2           salary at the then rate of less than \$12,000 per month,  
3           so, as a result of incorporating this bonus amount into  
4           the basic salary, the overtime payment would likewise be  
5           increased by reference to the new basic salary rate.  
6           That was another reason.

7           So, to cut a long story short, after this  
8           enhancement, the monthly rated bus captain will receive  
9           a basic salary of about \$15,400 a month, and likewise  
10          the overtime payment will be increased accordingly.  
11          Thirdly, the annual bonus which was previously set at  
12          \$12,000 per year would likewise be increased to the new  
13          level of over \$15,000.

14          So that really enhanced the pay of our bus captains.

15          The decision was made in December with a view to  
16          implementing such new rate of pay in March, on 1 March,  
17          but unfortunately this tragic incident happened in  
18          February, so it was misinterpreted by some people that  
19          we adjusted the pay because of the traffic accident. It  
20          had nothing to do with it. It was actually decided at  
21          my own initiative at the board meeting in December,  
22          Mr Duncan.

23       MR DUNCAN: Thank you, Dr Leung.

24       CHAIRMAN: Dr Leung, you referred to the Sham Shui Po

25          accident as having occurred in November. Do you have in  
26

1 mind the accident that occurred on 22 September 2017?

2 Mr So.

3 MR GODWIN SO: That accident that happened on 22 September  
4 was in Cheung Sha Wan.

5 DR NORMAN LEUNG: (In English) I stand corrected.

6 CHAIRMAN: Well, perhaps you are not corrected. Was it the  
7 November accident and, in which case, what was the date?

8 MR GODWIN SO: There was no accident in November. Our  
9 action was in response to the accident that took place  
10 in September in Cheung Sha Wan.

11 MR ROGER LEE: Sham Shui Po.

12 CHAIRMAN: 22 September?

13 MR GODWIN SO: (In English) Yes.

14 CHAIRMAN: Thank you.

15 MR ROGER LEE: I would like to add, talking about bonuses,  
16 at that time we felt that bonuses were actually  
17 a pressure on bus captains. We did not think that  
18 bonuses was a kind of incentive. Bus captains would be  
19 under a lot of pressure if they were given bonuses and  
20 it might not be appropriate. That is why the board  
21 decided that the bonuses be incorporated into basic  
22 salary.

23 As the chairman said just now, there will be  
24 a points system for paying salaries. I think that has  
25 been covered, and I think Mr So will tell you more about  
26

1 the present situation.

2 MR GODWIN SO: Our company does have rewards to encourage  
3 bus captains to pay attention to bus safety. We used to  
4 have safety bonuses, and in 2016 we changed it to a kind  
5 of star bus captain reward. Within a certain period of  
6 time, if there is no accident record and if there is any  
7 compliment from passengers, then the bus captain will  
8 receive different rewards. If they are within 15 years,  
9 it would be one star. If it is 15 to 29 years, if there  
10 is another good record, they will be given another star,  
11 and then in the end they will be given a grand star.

12 Also, in December each year, we have an annual  
13 gathering in order to give recognition to bus captains  
14 with good safety records. This is the star bus captain  
15 scheme.

16 CHAIRMAN: Does this scheme still operate?

17 MR GODWIN SO: Yes, it is still operating. It is going on.

18 CHAIRMAN: Thank you.

19 MR DUNCAN: Thank you, Mr So. I'm going to ask you a few  
20 more questions about that reward scheme in a few  
21 moments. It's something which has been included in the  
22 information you provided us.

23 Just keeping with the removal of the safety bonus  
24 for a moment, Dr Leung, you told us that the  
25 announcement -- the new scheme was resolved at a board  
26

1 meeting in December. Is there any reason why it wasn't  
2 announced until 12 February?

3 DR NORMAN LEUNG: (In English) Well, it was approved by the  
4 board in December, I think 22 December, and then the  
5 management would take time to implement the new pay  
6 structure. In fact, I understand from the managing  
7 director the proposed day of implementation would be  
8 1 March of this year.

9 MR DUNCAN: Prior to this change, during the time when the  
10 safety bonus existed, how was the awarding of the safety  
11 bonus determined in any particular individual case?

12 MR GODWIN SO: In the old safety bonus scheme, we looked at  
13 a few indicators. First, whether there was any accident  
14 that was committed by the bus captain, whether it was  
15 liable, and whether there was unsafe driving. Then  
16 there would be the safety bonus of \$1,700. Then, if he  
17 performs well within half a year, the bonus which was  
18 withheld because of a poor record will then be disbursed  
19 and this is controlled by the operations department.

20 MR DUNCAN: Do I understand from that that it was restricted  
21 to whether or not the person had been responsible for  
22 an accident?

23 MR GODWIN SO: The company also has plain clothes inspection  
24 and we also rely on complaints from passengers. From  
25 these channels, we will know whether the bus captain has  
26

1 engaged in unsafe driving, and then the safety bonus  
2 will be used as a kind of disciplinary action, to  
3 discipline bus captains who commit unsafe driving.

4 MR DUNCAN: Prior to this change, when the bonus system was  
5 in place, what proportion of your drivers received the  
6 full bonus?

7 MR GODWIN SO: When we had the safety bonus, 90 per cent of  
8 our colleagues would get a full bonus. Those who would  
9 have the bonus deducted or delayed, they would account  
10 for less than 10 per cent.

11 MR DUNCAN: During the course of the committee's  
12 deliberations, and no doubt taking up some of your  
13 management time, we have learned that technology can  
14 detect such things as speeding, excessive braking,  
15 excessive acceleration, those sorts of factors. Were  
16 any of those factors taken into account when the old  
17 safety bonus was in existence?

18 MR LEUNG KIN WANG: At that time, the safety bonus only  
19 focused on the disbursement of the bonus after  
20 an accident. The daily performance is covered by other  
21 bonuses, like the good service bonus.

22 MR DUNCAN: Thank you. Can I refer you now, please, to  
23 page 77, where these reward schemes to which you have  
24 already referred are set out. The question that the  
25 committee posed, at the top of page 77, is this,

26

1 "Remuneration packages":

2 "Is there any reward system for bus captains with  
3 good performance (and/or with low accident records)?"

4 The first of these is described as the "Safe Driving  
5 Award". Can I ask: how long has this been in place?

6 MR LEUNG KIN WANG: The safe driving award has been there  
7 for many years. It was like one or two years ago we  
8 replaced it with the star bus captain scheme.

9 MR DUNCAN: Does it no longer exist?

10 MR LEUNG KIN WANG: We have replaced it with the star bus  
11 captain scheme so it no longer exists.

12 MR ROGER LEE: Let me explain clearly. This scheme still  
13 exists but it was like a sheet of paper, it is a kind of  
14 certificate, but now we call it the star bus captain and  
15 we use gold and silver, real gold and silver to reward  
16 the bus captains, so they feel it more strongly because  
17 this can be tagged to their lapel.

18 MR DUNCAN: Is the safety aspect of this award restricted  
19 solely to responsibility for accidents or otherwise?

20 DR NORMAN LEUNG: (In English) The criteria for the award?

21 MR DUNCAN: The criteria, yes. Is anything taking into  
22 account apart from the fact that the driver is  
23 accident-free, so to speak?

24 MR GODWIN SO: In the past, yes, you are right. The award  
25 was about zero liability. In other words, the bus  
26

1 captain does not have to bear any responsibility in  
2 accidents. In other words, for five consecutive years,  
3 if the bus captain did not get himself involved in any  
4 liable accidents, he would be sort of commended in the  
5 form of a certificate.

6 MR DUNCAN: And there is no financial reward involved in  
7 this award; is that correct?

8 MR GODWIN SO: You are correct, no bonus.

9 MR DUNCAN: Could I then turn to the outstanding service  
10 award. Does any component of the outstanding service  
11 award depend on safety performance?

12 MR GODWIN SO: Perhaps. You may want to turn to annex 9c.

13 So, other than the bus captains, all other staff members  
14 are covered by this outstanding service award.

15 MR DUNCAN: You are saying it's not restricted to bus  
16 drivers? Thank you. My question, though, is in the  
17 context of a bus driver, is whether he drove safely or  
18 not a matter which is taken into account in deciding  
19 whether he should be awarded an outstanding service  
20 award?

21 MR GODWIN SO: Well, in the case of an outstanding service,  
22 say for example he has helped a passenger, then he will  
23 be given this award. But prior to giving him this  
24 award, we will also check whether he has a safe driving  
25 record. If he has, and if he served passengers well,  
26

1           then he will get this outstanding service award.

2           MR ROGER LEE: In other words, this is mainly about the  
3           service, say what he has done, say how he has helped  
4           a passenger, his attitude towards passengers.  
5           Of course, it may also be related to his safety  
6           performance, but it is mainly about service, because bus  
7           captains, in the course of driving, they are very good  
8           in terms of their attitude towards the passengers. So  
9           this is about outstanding service and it covers not just  
10          bus captains but also terminus supervisors, regulators,  
11          as well as the bus stop assistants.

12          MR DUNCAN: So keeping with the bus driver and reflecting  
13          the fact that he might have been helpful to a passenger,  
14          that aspect of bus safety, would the fact that he had  
15          driven without any accident for which he was responsible  
16          also be taken into account?

17          MR GODWIN SO: Well, let me say this. For his driving  
18          behaviour, he will be given the safe driving award, so  
19          it is a matter of zero accident and depending on the  
20          duration involved. Then, for the outstanding service  
21          award, for BCs and non-BCs, if they put up a good  
22          service, they will be awarded. But prior to giving the  
23          award for bus drivers, there is a prerequisite, that is  
24          he must have a good driving record, because, after all,  
25          it is an award.

26

1 I gave an example of helping the passengers. I was  
2 sort of citing an example. I just wonder if you can go  
3 to the document annexed as annex 9c. I think it would  
4 be illustrative.

5 MR DUNCAN: Certainly. If we go to 9c-2. You find that at  
6 KMB-9 at page 3853. Is that what you are referring to?

7 DR NORMAN LEUNG: (In English) Outstanding service award.  
8 Okay.

9 MR GODWIN SO: As I think you can see from the screen, this  
10 is to recognise staff members' contribution and  
11 outstanding performance. Nomination is by directors and  
12 department heads. So this is for everyone.

13 MR DUNCAN: A few moments ago, you mentioned that it would  
14 depend on a good driving record. Do you mean by "good  
15 driving record" accident-free?

16 MR GODWIN SO: Let me clarify. For the first one, that's  
17 the safe award, we have to check the accident record.  
18 For this one, this is about the outstanding service.  
19 When it comes to outstanding service, we will also check  
20 whether he has got a good driving record before he would  
21 be nominated to be given this award which is outstanding  
22 service award.

23 MR DUNCAN: Thank you. My question is does "good driving  
24 record" mean no accident for which he was responsible?

25 MR GODWIN SO: Not all.  
26

1 MR DUNCAN: What else?

2 MR GODWIN SO: Other than accidents, there may be complaints  
3 by passengers, and then of course internally we have got  
4 plain-clothed inspectors checking on the drivers to see  
5 if they have a good driving record.

6 MR DUNCAN: Thank you. Does this outstanding service award  
7 carry with it any financial reward?

8 MR GODWIN SO: No, no financial reward.

9 MR DUNCAN: This is simply again a certificate, is it?

10 MR GODWIN SO: Correct, a certificate, sort of  
11 a commendation.

12 MR DUNCAN: Thank you.

13 Now let's turn to the next one on page 77, star bus  
14 captain, about which you have already given very clearly  
15 some information this morning.

16 What criteria are taken into account in the award of  
17 a star to a bus captain?

18 MR GODWIN SO: Maybe the secretary can go to annex 9c-3.

19 MR DUNCAN: KMB-9/3858. Thank you.

20 MR GODWIN SO: Please go to another page.

21 Yes, this is the right one; please stop here.

22 Under this scheme, first of all, a good service  
23 record and a good accident record.

24 DR NORMAN LEUNG: (In English) Page 3864.

25 CHAIRMAN: In which page of the bundle is this to be found,  
26

1 Mr Duncan?

2 MR DUNCAN: The original, which is in Chinese, is at 3864.

3 DR NORMAN LEUNG: (In English) Page 3864.

4 MR DUNCAN: The translation?

5 DR NORMAN LEUNG: (In English) In Chinese.

6 CHAIRMAN: 3865-1?

7 MR DUNCAN: 3865-7, I think.

8 CHAIRMAN: Thank you.

9 DR NORMAN LEUNG: (In English) There's an English version on  
10 page 3865-7.

11 MR DUNCAN: Thank you.

12 We have that. Is there anything you want to bring  
13 to our attention there?

14 MR JOHN CHAN: (In English) If I may supplement, this is  
15 a scheme which was devised to recognise in particular  
16 good bus captains, and the number of awards every year  
17 was very limited; it was only two or three every year.

18 This was a very specially designed scheme for  
19 recognition and incentivising of good bus captain  
20 performance.

21 MR DUNCAN: Thank you. Did this contain any financial  
22 reward?

23 MR JOHN CHAN: (In English) No.

24 MR DUNCAN: Let's go to the next matter on page 77 and back  
25 to KMB-1, "Career path for [bus captains] with  
26

1 outstanding performance".

2 If I could just ask this question. The promotion  
3 from bus captain to bus captain II, would that involve  
4 an increase in a bus captain's salary?

5 MR GODWIN SO: Yes.

6 MR DUNCAN: Likewise, from bus captain II to bus captain I,  
7 would that also result in an increase in the salary of  
8 the bus driver?

9 MR GODWIN SO: Yes.

10 MR DUNCAN: I think the details of that we can see on the  
11 earlier pages to which you referred us when looking at  
12 the bonus. I won't take you back there.

13 I think we can see from the bottom of page 77 the  
14 criteria which are invoked for that particular career  
15 path, so no accident or disciplinary warnings and good  
16 attendance in the past two years.

17 Is that correct?

18 MR GODWIN SO: Correct.

19 MR DUNCAN: Thank you.

20 Let's go then to the last of these matters, on  
21 page 78, the annual performance bonus. It is said on  
22 this page that the bonus is paid twice a year and it is  
23 linked with BC's performance. Just now is it linked  
24 with the bus captain's performance?

25 MR GODWIN SO: It covers a number of points. First of all,  
26

1 the driving record and whether he has been disciplined,  
2 and then his attendance record. By "attendance", I mean  
3 he hasn't had any record of absent without permission,  
4 because that would affect the service stability.

5 So there are three main elements.

6 MR ROGER LEE: If I may also supplement. Just a few months  
7 ago, we made a change. We have got a 13th month salary.  
8 In the past, there was an assessment once every six  
9 months; there was an annual performance bonus. Now we  
10 have got the 13th month bonus. In other words, we  
11 haven't got this assessment.

12 MR DUNCAN: Are you saying the annual performance bonus does  
13 no longer exist?

14 MR ROGER LEE: (In English) Correct.

15 DR NORMAN LEUNG: (In English) Correct. Mr Duncan,  
16 I mentioned earlier in the hearing that not only did  
17 I incorporate the safety bonus and performance into the  
18 basic salary; at the same time, at the end of the year,  
19 this annual performance bonus will become the 13th month  
20 pay to the bus captains.

21 In other words, formerly they were getting at most  
22 an annual bonus of \$12,000 per year, payable in two  
23 instalments. Now, at the end of the year, they will be  
24 getting annual pay --

25 MR ROGER LEE: (In English) Just like double pay.

26

1 DR NORMAN LEUNG: (In English) A 13th month pay, a double  
2 pay. They will be getting double pay by reference to  
3 the new rate of basic pay, which is now \$15,400.

4 MR DUNCAN: Do I understand correctly that the extra month's  
5 pay is not performance-based?

6 DR NORMAN LEUNG: (In English) No, no. Mr Duncan, you are  
7 correct.

8 MR DUNCAN: So before the change which was approved by the  
9 board last year, a person could receive first of all  
10 a safety bonus, and that applied to 90 per cent of your  
11 captains, if I understood correctly before, and would  
12 also qualify for an annual performance bonus?

13 DR NORMAN LEUNG: (In English) Yes.

14 MR DUNCAN: What proportion of your bus captains would have  
15 received a grade 1 performance bonus each year?

16 MR GODWIN SO: About 90 per cent, almost 90 per cent.

17 MR DUNCAN: Do I understand that the annual performance  
18 bonus was done away with then by virtue of the decisions  
19 made at the December board meeting so that from 1 March  
20 this year you have the new pay structure?

21 DR NORMAN LEUNG: (In English) Since 1 March, yes. Yes,  
22 Mr Duncan.

23 MR DUNCAN: So is the situation at present then that there  
24 is no specific financial reward for a bus driver  
25 depending on his safety performance?  
26

1 DR NORMAN LEUNG: (In English) Well, there are other  
2 safeguards to ensure that our bus captains will drive  
3 properly and safely.

4 Perhaps I should mention at this stage that apart  
5 from the remuneration enhancement which became effective  
6 on 1 March, I am also proposing, with the blessing of  
7 the board, other enhancements.

8 For example, just now, you referred to bus captains,  
9 there are three grades of bus captain, bus captain, bus  
10 captain II and bus captain I, and I have the support of  
11 the board of directors that these three grades will soon  
12 be expanded into five grades. And also the annual  
13 increment point, it will be expanded from the current  
14 eight increments to 20 increments. So this will be, you  
15 know ...

16 This, for example, promotion to the next grade, as  
17 well as the award of the annual increment, will not be  
18 automatic. This will be subject to performance of the  
19 bus captains. But more importantly, I think, and  
20 I believe I'm correct in saying, that the bus captains  
21 will not be less responsible in their behaviour, because  
22 the safety bonus was done with. I think they are  
23 professional drivers and they have their own safety to  
24 safeguard, apart from the safety of the passengers.

25 So my principal objective is to enhance the  
26

1 remuneration of the bus captains as a whole and hope  
2 that not only would I be able to recruit new bus  
3 captains but to retain the serving bus captains as well.

4 That's my intention, Mr Duncan.

5 MR DUNCAN: Thank you, Dr Leung.

6 With regard to those matters for which you have the  
7 support of the board, if you are changing the pay  
8 structure at all, is that something which as a matter of  
9 practice you would discuss with the unions before they  
10 were implemented, or would you implement it and then  
11 tell the unions?

12 DR NORMAN LEUNG: (In English) Yes, I did. In fact, as you  
13 know, I met with representatives of the trade union  
14 personally a few months ago.

15 And apart from the remuneration incentive that was  
16 executed on 1 March, I indicated to the trade union  
17 further enhancements would be coming, and they know  
18 that. For example, they know that instead of three bus  
19 captain grades there will be five grades; instead of  
20 eight annual increments, there will be 20 increments.  
21 And there are other incentives too.

22 But I am always willing to listen to the views of  
23 the bus captains. Really, how should I say, I find that  
24 because, personally, my governance philosophy is people  
25 first. People always come first. Of course passengers  
26

1           come first, they are very important to us, and our staff  
2           are equally important to us, and of course at the same  
3           time I have to be accountable to my shareholders as  
4           well. So I am doing my level best to enhance the  
5           remuneration of all staff, not just bus captains, other  
6           frontline staff, in the hope that we can recruit and  
7           retain quality staff members for our services.

8       MR ROGER LEE: I would like to add one point here.

9           Actually, we have communicated with many other members  
10          of staff.

11       MR GODWIN SO: I can also say something here. We have heard  
12          these aspirations in the past. They also thought that  
13          if money is pegged to safety, they would experience  
14          pressure when they drove, and also the annual  
15          performance bonus, they also had the aspiration about  
16          this. When I met with bus captains and also when  
17          I talked to depot staff, they wanted this to be changed.  
18          So we heard them, and as the chairman said, he met  
19          unions' representatives, and so there is this change.

20       MR DUNCAN: Thank you.

21                I want to refer you, Dr Leung, to the evidence of  
22          one of the persons from whom the committee has heard.  
23          This was Mr Lai Siu Chung who came from the Motor  
24          Transport Workers General Union. Do you know Mr Lai?

25       DR NORMAN LEUNG: (In English) Mr Chung, yes, I met him as  
26

1 a representative of one of the trade unions, I met with  
2 him, yes.

3 MR DUNCAN: I'm going to ask to be turned up the transcript  
4 at Day 9 at page 98.

5 CHAIRMAN: What is the reference in the bundles?

6 MR DUNCAN: It's the page on the screen now, and in the hard  
7 copy of the transcript, it will be Day 9, page 98,  
8 line 13.

9 CHAIRMAN: Which of the four transcript bundles is it to be  
10 found in?

11 MR DUNCAN: Number 4.

12 CHAIRMAN: Thank you.

13 MR DUNCAN: If I could just explain the commencement of this  
14 dialogue, Dr Leung, at line 13, there is an entry  
15 attributed to Ms Maggie Wong, my colleague, one of the  
16 counsel for the commission, and she asked this question  
17 of Mr Lai:

18 "Mr Lai, we are not talking about deduction. It is  
19 addition. What I'm suggesting here is not about  
20 deduction. It is on top of your basic salary. If you  
21 drive well you would receive an extra bonus. That's the  
22 system. It's not about deduction."

23 And Mr Lai replies:

24 "Well, KMB doesn't have such a system."

25 And Ms Maggie Wong says:

26

1 "Not about whether you have the system. If one were  
2 to recommend such a system, would you support that?"

3 And what I am interested to bring to your attention  
4 is the reply of Mr Lai, which follows:

5 "Chairman, we support any type of reward system or  
6 incentive system. Right now we are talking to the KMB  
7 on another kind of bonus system: there would be  
8 a 20-point increment system. So in other words, if you  
9 achieve certain requirements then you will get an  
10 increment, an extra point. And that is beyond the  
11 annual salary increase. The KMB has verbally promised  
12 that there will be a 20-point system, it's calculated  
13 based on the performance, safety performance,  
14 attendance, discipline. If the bus captain does not  
15 achieve the standards then he will not get an extra  
16 point.

17 So that's a kind of bonus system."

18 Now, the 20-point system to which Mr Lai referred  
19 I think is something that you referred to in your  
20 evidence; correct?

21 DR NORMAN LEUNG: (In English) Yes.

22 MR DUNCAN: The system that you have in mind, will it depend  
23 at all on safety performance?

24 DR NORMAN LEUNG: (In English) Yes. As I said earlier on  
25 too, the award of this increment, as well as promotion  
26

1 to the next grade, will not be automatic, but the safety  
2 performance as well as other performance will be taken  
3 into account. Yes.

4 MR DUNCAN: Have you yet decided how you would assess safety  
5 performance in that context?

6 DR NORMAN LEUNG: (In English) Yes. We do have a quality  
7 assurance department, Mr Duncan, and they are  
8 responsible for monitoring the performance of all bus  
9 captains.

10 At this point in time, perhaps I can ask the head of  
11 our quality assurance department --

12 MR ROGER LEE: Perhaps I would like to add something here.

13 DR NORMAN LEUNG: (In English) Wait, wait -- and he can tell  
14 you how we monitor the performance of the bus captains,  
15 and after that, Roger, you can supplement.

16 MR JAMES WONG: Good morning. I am James Wong; I am the  
17 head of training and quality assurance department of  
18 KMB. I am responsible for training bus captains.  
19 I also monitor their behaviour and integrity. Within my  
20 area of responsibility, we regularly monitor the  
21 behaviour of bus captains. Whether there is speeding or  
22 whether there is any unsafe driving, this is monitored  
23 by the black box.

24 On the other hand, if we receive complaints from  
25 passengers or even prosecution by the police, we will  
26

1 know that there is undesirable behaviour on the part of  
2 the bus captain or that he has broken traffic rules. In  
3 this regard we also have plain-clothed inspection. If  
4 we get a complaint from any passenger, we will arrange  
5 for our plain-clothed driving inspector to go on board  
6 to look at the driving behaviour of the bus captain  
7 personally in order to decide whether his attitude or  
8 techniques are correct.

9 Just now you asked how we monitored whether there is  
10 any irregularity on the part of bus captains. We have  
11 done a lot in this regard. Our objective is to achieve  
12 safe driving. In our Bus Captain Training School, we  
13 have different kinds of driving training. Let me talk  
14 about with about basic training. There are two phases.  
15 Phase 1 is to allow the bus captain to achieve the  
16 standard to get a driving licence of the right class  
17 from the TD, Transport Department, and in phase 2 we  
18 will allow the bus captain to achieve the standards of  
19 training with KMB so he can serve passengers.

20 In the case of poor behaviour, we will rely on other  
21 ways to monitor.

22 MR ROGER LEE: As has been pointed out, there are many  
23 channels. We will have more communication with the bus  
24 captains. As to whether bus captains would regard it as  
25 a way of further monitoring before he gets a promotion,  
26

1           certainly we will heed your advice. This is our initial  
2           suggestions. That's the way for the future. We are  
3           going to have more communication with the bus captains.

4       MR DUNCAN: Thank you. The monitoring of the bus drivers is  
5           a matter I will ask further questions about later on  
6           when we come to the black box situation, but  
7           I appreciate your remarks. Thank you.

8           Leaving the question of awards and so forth, I want  
9           to move to a different matter, still connected with  
10          safety, by taking you to another bundle. This time,  
11          KMB-6, at 2110.

12          You should be looking at a copy of the Kowloon Motor  
13          Bus management structure supplied to the committee by  
14          the company.

15       DR NORMAN LEUNG: (In English) Yes.

16       MR DUNCAN: We will see at the top of the management  
17          structure Mr Roger Lee, who is here today. We then have  
18          a line which includes the operations director, Mr Kin  
19          Wang Leung, who is also here today. On that same line  
20          we have the general manager, corporate planning and  
21          business development, Mr So, who is also here today.

22          Underneath the operations director, we have the  
23          deputy operations director, Mr Patrick Pang, who is with  
24          us as well, and under the human resources director we  
25          have Mr James Wong, who has just answered one of the  
26

1 questions, in the box of training and quality assurance.

2 I want to go from that management structure to  
3 another entry in the bundles which have been provided by  
4 you. That's at KMB-3 at page 708.

5 This is an extract from the annual report of the  
6 holding company, Transport International Holdings Ltd,  
7 and it's the annual report for 2011.

8 I want to pick up on page 708 one of the paragraphs.  
9 It's under the general heading, if we go back to a few  
10 pages, to 705, "Operational review", "Care for  
11 customers".

12 Then we have, on pages 706 and 707, a number of  
13 headings, and we come to 708 and an entry which is  
14 headed, "Safety Management System". If I could read the  
15 first of the paragraphs under that section:

16 "As stated in its corporate safety policy, KMB is  
17 firmly committed to striving for continual improvement  
18 in safety performance. Robust safety governance is the  
19 backbone of our safety management system. A rigorous  
20 safety governance framework ensures that the highest  
21 levels of safety performance and sustainable operations  
22 are achieved. Established in 2010, the safety and  
23 service quality department focuses on enhancing our  
24 safety performance and delivering high quality  
25 services."

26

1           Then there's a reference in the following paragraph,  
2           you will see, to the development and implementation of  
3           the Occupational Health and Safety Assessment Series  
4           18001, and it continues.

5           So did there, in 2011, exist a safety and service  
6           quality department? Is that the position?

7       DR NORMAN LEUNG: (In English) It has been replaced by the  
8           quality and assurance department.

9       MR DUNCAN: Right. We will come to its replacement, but  
10           I just want to first establish that back in 2011 it was  
11           called the safety and service quality department; is  
12           that correct?

13       DR NORMAN LEUNG: (In English) Yes.

14       MR DUNCAN: Thank you.

15           Can you then go, please, to page 774 of the same  
16           bundle. We are still with the 2011 report. You will  
17           see on that page "Key Corporate Executives"; do you see  
18           that?

19       DR NORMAN LEUNG: (In English) Yes.

20       MR DUNCAN: Then if you go down the list, one of the key  
21           corporate executives is a Mr Gary Wong, head of safety  
22           and service quality department. Do you see that?

23       DR NORMAN LEUNG: (In English) Yes.

24       MR DUNCAN: If we go to the annual report for the following  
25           year, 2012 -- we can find that, I believe, at page 995  
26

1 of the same bundle, and on that page, we will see again,  
2 under the heading of "Key Corporate Executives", the  
3 name of Mr Wong included as the head of safety and  
4 service quality department. Is that correct?

5 DR NORMAN LEUNG: (In English) Yes.

6 MR DUNCAN: Let's move from bundle 3 to bundle 4 of KMB, and  
7 go firstly to page 1202. If you would take it from  
8 me -- at page 1202, do you see the reference again to  
9 Mr Wong as the head of the safety and service quality  
10 department?

11 DR NORMAN LEUNG: (In English) Yes.

12 CHAIRMAN: Which year is this annual report?

13 MR DUNCAN: This is, if you could take it from me, the 2013  
14 annual report.

15 At this point, I would like to go back to  
16 a reference that we have already seen this morning,  
17 KMB-9/3855. This is the reference of the outstanding  
18 service award.

19 DR NORMAN LEUNG: (In English) Outstanding service award.

20 MR DUNCAN: Do you see that?

21 DR NORMAN LEUNG: (In English) I see it on the screen, yes.

22 MR DUNCAN: The distribution includes a distribution to the  
23 head of the safety and service quality department. You  
24 will see that on the right-hand side of the distribution  
25 list --

26

1 DR NORMAN LEUNG: (In English) Yes.

2 MR DUNCAN: -- about six down from the top.

3 DR NORMAN LEUNG: (In English) Yes.

4 MR DUNCAN: Thank you.

5 Then back to bundle 4, this time, please, at  
6 page 1410, you will see at page 1410 the key corporate  
7 executives as they are listed in the 2014 annual report.

8 On this occasion, there is no reference, is there,  
9 to any head of the safety and service quality  
10 department; is that correct?

11 DR NORMAN LEUNG: (In English) Yes.

12 MR DUNCAN: In fact, I think you have said earlier in your  
13 evidence that this department was replaced at some  
14 point; is that correct?

15 DR NORMAN LEUNG: (In English) Yes.

16 MR DUNCAN: The committee has received evidence -- I'm not  
17 sure whether you've seen this or not -- to the effect  
18 that the employment of Mr Gary Wong was terminated  
19 during the year of 2015. Is that correct?

20 MR LEUNG KIN WANG: Correct.

21 MR DUNCAN: Did that coincide with the safety and service  
22 quality department no longer existing?

23 MR LEUNG KIN WANG: No.

24 MR DUNCAN: Please continue.

25 MR LEUNG KIN WANG: Regarding the work of this particular  
26

1 department, at that time, Mr Owen, head of the  
2 operations, didn't know much about the past and the  
3 communication with the bus captains was poor. So there  
4 was a decision to enhance the work, so as to let it be  
5 taken up by the two deputy heads of operations, one of  
6 them being me, myself.

7 In terms of the hardware, I am very familiar with  
8 it. I've been with KMB for a long time, most of the  
9 time with the engineering department. So regarding bus  
10 hardware and engineering and safety, I can do more.

11 Earlier on, the department's knowledge about those  
12 parts, it wasn't adequate, and for this department, as  
13 to its earlier communication with bus captains, it was  
14 poor, and in fact bus captains were not satisfied and in  
15 fact it could have been done better. Say, for example,  
16 at a specific bend there were certain suggestions and  
17 many bus captains found them unrealistic or impractical.  
18 Say, for example, they would like to specify certain  
19 speeds for entering a bend and the speed would be  
20 recorded on a card and ask the bus captains to remember  
21 the speed. For professional bus captains, it is just  
22 not practicable and in fact it would cause confusion.  
23 This is one of the examples.

24 When the function was incorporated with the  
25 operations director, the function would be strengthened  
26

1           within the compartment of the bus, and in terms of  
2           hardware, we have done a lot, like on-board facilities.  
3           At that time many bus captains had a lot of views about  
4           demisters, they were not happy with the demisters. We  
5           did a series of matters in order to provide a long-term  
6           solution. And there were new black box monitoring  
7           reports which were generated, and on-board stickers were  
8           also placed in a more proper manner.

9           With regard to CCTV, we also strengthened it.  
10          Of course, we faced a lot of difficulties with regard to  
11          the installation of CCTV. We had to communicate with  
12          the bus captains and we had to do it step by step.

13          In terms of hardware, there is a lot more, including  
14          how we could have facilities to help bus captains, and  
15          in the past half-year or so we had a lot of discussion  
16          with the sector and the manufacturers. We talked to bus  
17          manufacturers to see how our buses could become more  
18          safe. All in all, in terms of hardware, we enhanced it.  
19          We placed emphasis on the hardware. Anything that could  
20          be enhanced in terms of hardware would be attended to by  
21          an open mind on our part. And in terms of hardware, and  
22          especially with regard to safety, there has been a lot  
23          of enhancement in the past few years. We will continue  
24          to go in that direction.

25          As for operations, we have another deputy operations  
26

1 director who is looking over our operations and  
2 including road safety. Bus captains face their work  
3 environment every day and safety is important, including  
4 facilities, road facilities, terminus facilities, road  
5 congestion. All these are related to safety, and rest  
6 time is also an important element.

7 We hope we will adopt a human approach in  
8 communicating with bus captains with regard to  
9 operations, so we can enhance bus safety.

10 As for monitoring, safety training and also  
11 discipline, in September 2017 we set up a new  
12 department. That is the quality assurance department.  
13 It is responsible for training bus captains, training of  
14 new bus captains, safety training, remedial training,  
15 monitoring, discipline, et cetera. Hopefully we can  
16 enhance hardware and software in the area of safety, so  
17 we can perform better. We can also see that when the  
18 department is enhanced to the level of deputy operations  
19 director, the injury rate resulting from traffic  
20 accident has been improved. We hope we can continue to  
21 work hard in this regard.

22 Thank you.

23 MR ROGER LEE: All in all, basically, we are talking about  
24 the same staff. It is just that the head is not there,  
25 and we are talking about an interdepartmental approach  
26

1 to tackle safety and quality control. I think that is  
2 what Mr Leung has been doing in the past few years.

3 MR DUNCAN: Thank you for that.

4 So the safety and service quality department was, if  
5 I understand it correctly, established in 2010, and  
6 ceased to exist, at least in its former form, in 2015;  
7 would that be correct?

8 MR LEUNG KIN WANG: That's correct.

9 MR DUNCAN: We have seen from the 2011 annual report that  
10 that was a department which focused on enhancing the  
11 company's safety performance and, as it said in the  
12 report, delivering high-quality services.

13 Apart from Mr Gary Wong, how many other staff were  
14 in that safety and service quality department between  
15 2010 and 2015?

16 MR LEUNG KIN WANG: Fewer than 10.

17 MR DUNCAN: Is there any person in the management structure  
18 now who carries the responsibility for the matter of  
19 safety across the company?

20 MR GODWIN SO: At present, the company structure is such  
21 that every department has some responsibility for  
22 safety. In September last year, we set up a department  
23 which is under the human resources department. It is  
24 called the training and quality assurance department.  
25 My colleague sitting next to me is the head of that

26

1 department. He is responsible for different matters,  
2 but he trains bus captains. And as for hardware, this  
3 is left to the engineering department, because safety  
4 has to do with the stability and the facilities of the  
5 vehicle, and then on the human side it is the driving  
6 technique.

7 In the training and quality assurance department, we  
8 have done a lot of enhancement with software in terms of  
9 training and staff performance. I think I can hand over  
10 to Mr Wong to introduce that to you.

11 MR JAMES WONG: Actually, safety should not be the  
12 responsibility of just one person in the company.  
13 Rather, everyone in the company should ensure safety,  
14 whether it is occupational safety or driving safety. In  
15 my department, I am mainly responsible for driving  
16 safety of bus captains. From the training stage, we  
17 would require them to place emphasis on safety. In  
18 terms of bus captains, first of all they must have safe  
19 driving techniques. Secondly, they must have a safe  
20 driving attitude. Then, they must have good knowledge  
21 about the company and Hong Kong's roads so that he can  
22 be safe.

23 First of all, I place emphasis on driving  
24 techniques, because if he doesn't have driving  
25 techniques he just cannot manoeuvre such a big bus.

26

1 From joining KMB, we have increased driving instructors  
2 from 65 to 81. The 81 driving instructors have to have  
3 certain qualification. They must have ten years of  
4 experience in driving a bus and they must have not  
5 committed any serious or liable traffic accident, and  
6 of course they must perform well because they would be  
7 responsible for teaching new bus captains.

8 Now that we have 81 driving instructors, we place  
9 emphasis on achieving standards for bus captains. In  
10 phase 1 of training, we make sure that they would have  
11 the qualification to get a driving licence for driving  
12 a franchised bus, that would be issued by the Transport  
13 Department, which would confirm that our school has  
14 achieved that standard. After the bus captain has got  
15 a driver's licence, he will continue with training to  
16 achieve KMB standards, meaning that he will have to  
17 understand the routes and he will have to know the  
18 roads, the road situations in Hong Kong.

19 Then I also mentioned driving attitude, which is  
20 also important. Very often, this will be affected by  
21 the stress that they experience and it also depends on  
22 their mental state. In order to do something about  
23 this, in May we signed an agreement with the psychology  
24 department of the Chinese University of Hong Kong in  
25 order to do a consultancy to help us to understand the  
26

1 stress suffered by bus captains when they drive, so that  
2 we can enhance the psychological state of bus captains,  
3 for them to achieve a safe driving attitude. This is  
4 going on, and the psychologists of the Chinese  
5 University of Hong Kong have talked to our frontline  
6 staff and bus captains to understand their work  
7 difficulties. We hope that in the future our driving  
8 instructors will be able to train our bus captains in  
9 such a way that the psychological state of our bus  
10 captains will be enhanced.

11 As for knowledge, we require bus captains to know  
12 the operations of KMB so that they can drive safely.

13 MR ROGER LEE: I would like to add something. As I said,  
14 safety is an interdepartmental matter. Our training  
15 school has to do more with bus captains, but then we  
16 also look at the hardware. Hardware installation is  
17 an important part. In the past year, together with  
18 Mr Leung, we went to bus fairs overseas, to understand  
19 better safety installations for buses. In autumn last  
20 year, we had an exchange with Queen's University in  
21 Belfast and another organisation. We sent our staff to  
22 learn there, to understand how we can enhance driving  
23 safety. There were professors and research personnel  
24 who also came to Hong Kong, to KMB, and there will be  
25 more cooperation between us later on, in order to  
26

1 research into hardware of buses, to see whether it can  
2 be done so that we can help bus captains to have more  
3 support when they drive.

4 This is already starting, and I believe that in  
5 future the driving school and the hardware aspects will  
6 be enhanced so that there will be better driving safety.

7 CHAIRMAN: Are there any specific devices that you have  
8 considered with Queen's University?

9 MR ROGER LEE: There are many aspects but there are mainly  
10 two aspects. First, in terms of bus operation, how we  
11 can allow it to be steered in a more smooth way. This  
12 is one aspect. Another aspect is when we purchase  
13 hardware in the market, we are procuring them from  
14 a third party, and when it is applied on board there  
15 will be some difficulty, because especially with  
16 double-deckers, we only have two to three companies  
17 supplying the devices and there is a lack of  
18 competition. We must look for technological institutes.  
19 I think Belfast has almost the only university which  
20 does research into the mechanics of double-deckers.

21 At this stage, maybe I can ask Mr Leung, our  
22 operations director, to explain things to you.

23 MR LEUNG KIN WANG: Let me show you a paper, that's  
24 paper 190.

25 CHAIRMAN: Yes.

26

1 MR LEUNG KIN WANG: This is what Mr Lee has been referring  
2 to. That is that KMB together with the Queen's  
3 University in Belfast, have come to a cooperation.  
4 W-Tech is a sort of institute under the university. We  
5 have got a project. We have got an engineer, Mr Lo,  
6 just the end of last month, went to visit this  
7 university. We have a cooperation. So he is acting  
8 like a visiting researcher so as to take part in the  
9 project.

10 We have researchers from this university in Northern  
11 Ireland. For the guiding professors, there were two of  
12 them who came to visit KMB last month. We talked to  
13 them. They were aware of the bus operations in  
14 Hong Kong. We told them about our safety issues and we  
15 talked about ways to improve the hardware, so when we  
16 talk about the content of the cooperation, it is  
17 a holistic way to take a look to see what can be done in  
18 terms of hardware, say for example in reminding the bus  
19 captains, say for example, whether the bus captains are  
20 attentive, and we talk about the traffic conditions, the  
21 driving attitude. We want to alert the bus captains.

22 Then, further on, we would like to see the  
23 following. We want to know whether we can rectify  
24 certain improper behaviour of the drivers. So this  
25 would be part of the project. A lot will be covered.

26

1 Please refer to the paper itself. A lot will be covered  
2 in terms of the hardware and software. As to why we are  
3 cooperating with this university and how it is to be  
4 done, as Mr Lee has said, we are going to cover all the  
5 facilities on board the bus, so it would be  
6 comprehensive.

7 So in terms of bus design, I think a lot of things  
8 can be applied in the situation of Hong Kong, and then  
9 we may come up with certain standards. I think I can  
10 say that currently we haven't got any standards, quite  
11 unlike the case of private cars.

12 For private cars, we have got many safety  
13 facilities, but then for double decked buses we  
14 encounter a difficulty here. We do want certain  
15 facilities. We do want new technologies. We want to  
16 have them on our double-deckers. But then usually it is  
17 not easy to achieve.

18 I joined in 2015. Almost on a yearly basis, I went  
19 to Europe, so as to talk to the two bus manufacturers.  
20 I shared views of Mr Leung. Unlike private cars --  
21 well, in the case of private cars, there are many  
22 facilities that cannot be available on double-deckers.  
23 It is difficult to persuade the bus manufacturers to do  
24 so. Maybe this is due to the lack of cooperation.  
25 I won't elaborate. But indeed it is difficult.

26

1 I went to Northern Ireland. I firmly believe that  
2 for the researchers in Queen's University as well as the  
3 company called Wright, I think they are really  
4 passionate about buses. I believe that KMB's  
5 cooperation with them will produce a product in which  
6 I will be confident. I think this will help KMB. It  
7 will also help the trade as a whole so we can achieve  
8 improvements. It is going to be a very meaningful  
9 initiative. I believe that KMB has a lot of expectation  
10 about this project. We have got some young engineers  
11 within KMB.

12 When we talk about safety, in the past we have a lot  
13 of research, say for example a solar facility based on  
14 the roof of the bus. In fact, this has helped many bus  
15 captains. During hot weather, when they return to the  
16 bus -- of course, when you park a bus during hot  
17 weather, the temperature of the bus is high, it is  
18 acting like a greenhouse; it will be up to 50 degrees  
19 under the sun. He has to switch on the engine, he has  
20 to cool down the temperature before he can start  
21 driving. It takes time; it is very hard on them. So  
22 having installed the solar panels, and in fact we have  
23 entered phase 2. We believe that after parking a bus  
24 the solar panels can reduce the temperature of the bus  
25 substantially. After his rest break or after a meal  
26

1 break, it will be easier for him to switch on the engine  
2 and start again. It may be something small but we hope  
3 this will become a standard feature.

4 In other words, for our new buses, we hope we can  
5 ask our bus manufacturers to fit the solar panels on the  
6 roof. Hong Kong is really too hot. In the coming year,  
7 2019, the new buses will get the solar panels on the  
8 roof. This can reduce the air temperature. We have  
9 succeeded in bringing down the temperature.

10 CHAIRMAN: I think we have got your point. You have made it  
11 a few times.

12 May I ask this, and then we are going to take  
13 a 20-minute break: may I ask that you provide to the  
14 committee a legible version of the document that we have  
15 at page 190 in the bundle, W-Tech. I think perhaps the  
16 problem is that it's coloured ink and it hasn't come  
17 through properly. If you could provide a copy we can  
18 read, then we can follow your suggestion and read the  
19 paper.

20 But we will take a 20-minute break now.

21 (11.37 am)

22 (A short adjournment)

23 (12.00 pm)

24 CHAIRMAN: Yes, Mr Duncan.

25 MR DUNCAN: Thank you, Mr Chairman.

26

1           Dr Leung, could I have you and your colleagues,  
2           please, at KMB-1 at page 188. You should be looking at  
3           a copy of a letter from KMB to the committee dated  
4           23 May 2018. Do you see that?

5       DR NORMAN LEUNG: (In English) Yes.

6       CHAIRMAN: Does that refer to the matter about which  
7           evidence was given just before the break, the  
8           collaboration with a company called W-Tech?

9       MR LEUNG KIN WANG: Correct.

10      MR DUNCAN: If I could bring your attention page 188 and the  
11      letter two-thirds of the way down:

12           "The purpose of the ... meeting was to discuss  
13           implementing a series of advanced driver assist systems  
14           ... in the fleets of KMB and LWB."

15           And it goes on to say:

16           "The objectives of the said collaboration with as  
17           follows", and we can see them outlined: 1, 2 and 3:

18           "1. To complete a technology viability assessment  
19           of pre-commercial/commercial ADAS technologies  
20           applicable to the Wrightbus Streetdeck configuration;

21           2. To recommend ADAS appropriate for implementation  
22           within the KMB and LWB fleets of Wrightbus vehicles on  
23           the basis of this assessment; and.

24           3. To deliver a roadmap for ADAS implementation to  
25           KMB and LWB."

26

1           Now could I ask this question: does the KMB fleet at  
2           the moment include a number of Wrightbus vehicles?

3       MR LEUNG KIN WANG: Currently, there is one undergoing  
4           prototyping. For the bodywork for Wrightbus, we have  
5           got many bus bodies on Volvo chassis, hundreds of them.

6       MR DUNCAN: Apart from the Wrightbus, who are the other  
7           manufacturers of the buses in the Kowloon Motor Bus  
8           fleet?

9       MR LEUNG KIN WANG: Sorry, please repeat your question.

10      MR DUNCAN: Who are the vehicles in the KMB bus fleet  
11           manufactured by -- I think there's a series, a number of  
12           different manufacturers; is that correct?

13      MR LEUNG KIN WANG: Other bus -- Volvo, MAN, mainly ADL and  
14           Volvo.

15      MR DUNCAN: So Volvo, MAN, ADL, that's Alexander Dennis; is  
16           that correct?

17      MR LEUNG KIN WANG: (In English) Correct.

18      MR DUNCAN: So basically three types within the bus fleet?

19      MR LEUNG KIN WANG: (In English) Correct.

20      MR DUNCAN: Now, the bus that was involved in the Tai Po  
21           accident, was that a Wrightbus?

22      MR LEUNG KIN WANG: With Volvo chassis, with Wrightbus bus  
23           body. It's a double-decker.

24      MR DUNCAN: So how many of your buses have this  
25           configuration, a Volvo or a MAN or an ADL base with  
26

1 a Wrightbus configuration?

2 MR LEUNG KIN WANG: I don't have the exact figure, but  
3 I would say roughly 800 to 900 of them.

4 MR DUNCAN: What is the total number of your fleet?

5 MR LEUNG KIN WANG: Together with LWB, almost 4,300, for  
6 both KMB and LWB.

7 MR DUNCAN: Can you explain again what the Wrightbus  
8 prototype is, please?

9 MR LEUNG KIN WANG: The chassis and bodywork have been  
10 manufactured by Wrightbus. It's a two-axle  
11 double-decker.

12 MR DUNCAN: And the collaboration agreement that you have  
13 reached with W-Tech, does that anticipate that the  
14 company will be purchasing a number of Wrightbus  
15 vehicles of that nature?

16 MR LEUNG KIN WANG: No.

17 MR DUNCAN: What does it anticipate? On what buses would  
18 the possible ADAS system be installed?

19 MR LEUNG KIN WANG: This is a research to see what will be  
20 of assistance in relation to enhancing bus safety. We  
21 want to find out what can be available and achievable on  
22 Wrightbus, and then we will take into account bus  
23 operations in Hong Kong. We also hope that the outcome,  
24 if feasible, will be applied and benefit the buses in  
25 Hong Kong, but after all this is a research. This is

26

1 too early to talk about implementation. So it is  
2 an academic research. We have deployed a colleague to  
3 Queen's University in Belfast to carry out a one-year  
4 project, which is a research, to see what would be  
5 possible, so that in future they can be applied to  
6 double-decker buses, in this particular case Wrightbus,  
7 but we are not ruling out any possibilities, and we also  
8 hope that in future such safety features will become  
9 standard safety features. We hope that all other bus  
10 manufacturers will also take part or will use such  
11 measures to enhance bus safety.

12 MR DUNCAN: Could you just kindly explain for the committee  
13 what is the use of, say, the Volvo chassis with the  
14 Wright-tech [sic] body, as I understand you? Could you  
15 explain that, please?

16 MR LEUNG KIN WANG: For the chassis, we have to  
17 (unclear word) three of them, and the engine, and the  
18 transmission system and the driver's cab. For the bus  
19 body, that's on top of the chassis, including the  
20 bodywork, the flooring, the seats, the air-conditioning.  
21 So they will be regarded as the body.

22 For the bus body, it is by Wrightbus. For the  
23 chassis, that's by Volvo.

24 CHAIRMAN: Where are the two joined together, the chassis  
25 and the bus body?

26

1 MR LEUNG KIN WANG: It can take different ways at different  
2 points. As to the one I mentioned, I suppose it should  
3 be in the UK, at Wrightbus, manufactured by Wrightbus.

4 (In English) Just to clarify, a chassis can have  
5 different kinds of bus bodies.

6 CHAIRMAN: Yes, I understand that. My question is simple:  
7 where are they put together?

8 DR NORMAN LEUNG: (In English) They can be put together  
9 either in the original manufacturer's facilities or they  
10 can assembled elsewhere. In the past, KMB did our own  
11 bus assembly. We also had buses assembled in China and  
12 there are buses assembled in different places.

13 CHAIRMAN: Thank you.

14 MR DUNCAN: When you say it could be done by the original  
15 manufacturer, in this case would that be Volvo or would  
16 it be Wright Group?

17 MR ROGER LEE: Well, for the chassis, if it is by Volvo, and  
18 if the body is Wright, then there are two functions.  
19 First of all, the chassis can be transferred to Belfast  
20 and then the body, the bus body, would be fitted onto  
21 the chassis. It is complicated because both would  
22 undergo a lot of research. We talk about the torque,  
23 et cetera. Then in Malaysia, Wright has got a plant in  
24 Malaysia, to carry out bus assembly work. So for the  
25 Volvo chassis, and in fact we have got it for Gemilang,

26

1 Wright is for body, Volvo is for the chassis, and Wright  
2 has also researched and developed its own chassis but we  
3 have only got one, that is the one being tested. Now, a  
4 bus has got the chassis as well as the body. You need  
5 both. Before you can research into the ADAS, you must  
6 have a bus physically to do it. After we have got the  
7 ADAS, it means it can be used in any bus.

8 MR DUNCAN: What's the advantage of having the Wrightbus  
9 body, over just having the complete Volvo bus?

10 MR ROGER LEE: For Wrightbus, let me supplement. Today,  
11 their chassis cannot have three axles, because in the UK  
12 they have got many Wrightbus bodies and Wrightbus axles  
13 but they can only accommodate two, but in Hong Kong we  
14 are mainly having three axles, because this has a larger  
15 capacity and we carry a larger air-conditioner at the  
16 back, and for Hong Kong for each axle, we have this  
17 standard; the loading cannot exceed a particular limit.

18 So, in the case of Hong Kong and for us, KMB as  
19 well, we usually use the three axles. For Wrightbus, it  
20 has got a chassis as well as body, it's similar to ADL.  
21 ADL has both chassis as well as the body, but before  
22 Wrightbus has got three-axle buses, the only one we have  
23 got from Wrightbus is only two-axle, for Volvo, three;  
24 that is why we have got their bodywork fitted on to  
25 Volvo chassis.

26

1 MEMBER AUYEUNG: Thank you very much. Mr Duncan asked my  
2 question already. Thank you.

3 MR DUNCAN: Just going back to the management structure --  
4 we don't need to go to the document -- Mr Wong, when you  
5 were giving your answer before, you mentioned a lot  
6 about responsibility for training, and that's clearly in  
7 the training and quality assurance department.

8 Who in the company carries the responsibility of  
9 monitoring not the training of the drivers but the  
10 actual performance of the drivers, in particular their  
11 safety performance? Where does the responsibility for  
12 that sit?

13 MR PATRICK PANG: Mr Duncan, let me answer this question.

14 As far as the monitoring of the safety of bus captains  
15 is concerned, it is done at different levels by  
16 different colleagues. For each bus, we have got the  
17 so-called black box, we have got this tool. On a weekly  
18 basis, we have monitoring reports. We get the data.

19 Three main sets of data would be available. First  
20 of all, speeding; second, abrupt acceleration, sudden  
21 acceleration; third, harsh braking.

22 For our depots, for our management at the depots, on  
23 a weekly basis we take a look. Currently, what we can  
24 achieve is that we can look at the data collected by the  
25 black box for the preceding four days.

26

1 In fact, every day we start with the following.

2 That is we will analyse the data, in particular speeding  
3 beyond the limits covering beyond the 50km per hour and  
4 beyond the 70km per hour limits. For sudden  
5 acceleration and abrupt braking, we have got data to  
6 tell us the case of individual bus captains. This is  
7 because we do generate exception reports, and we can  
8 find out whether the driving behaviour of certain bus  
9 captains should warrant our attention.

10 If we see that for a particular bus captain over  
11 a particular period of time, his driving attitude is  
12 such that it warrants our attention, then we will first  
13 of all advise the bus captain and will get our frontline  
14 staff to talk to the bus captain to find out whether  
15 there is a special reason for that. And then regarding  
16 the over-speeding, we will refer the cases of speeding  
17 to our training and quality assurance department  
18 immediately, to take follow-up action. And then for  
19 speeding, maybe Mr Wong can also supplement.

20 What I would like to say is that the black box data  
21 will be kept, will be reviewed and will be followed up.

22 MR DUNCAN: The question really was who has the  
23 responsibility. So you have talked about the depots  
24 carrying out work. What staff are at a depot?

25 MR PATRICK PANG: Mr Duncan, who should be responsible,  
26

1 I can answer you --

2 CHAIRMAN: "Who is", not "should be"; "who is". And please  
3 can I ask you to speak more slowly.

4 MR PATRICK PANG: (In English) Okay.

5 (Via interpreter) The management at depot starts  
6 with our operations officers. The operations officer,  
7 in every depot or zone -- overall speaking, at KMB, we  
8 have four main depots, including the one at Lai Chi Kok,  
9 the one in Kowloon Bay, another one in Sha Tin, and the  
10 one in Tuen Mun, and of course we have Long Win Bus. At  
11 every depot, there are boundaries delineated for them.  
12 They are responsible for different zones. There is  
13 an assistant manager or manager responsible for every  
14 zone. We call them managers or assistant managers.  
15 Every manager or assistant manager has different numbers  
16 of operation officers under them. On a daily basis,  
17 when operations officers come to work, the first thing  
18 they do is to look at the black box information for the  
19 preceding four days, including speeding, sudden  
20 acceleration, and harsh braking.

21 Assistant managers and operations officers do this  
22 every day.

23 MR DUNCAN: So how many operations officers would there be  
24 at each of the four depots?

25 MR PATRICK PANG: Altogether, at every depot, depending on  
26

1           the size of the depot, some may have six to seven  
2           operations officers, some may have three to four  
3           operations officers, and altogether there are about 37  
4           colleagues dealing with the data analysis.

5   CHAIRMAN: Do you have a graphic or a map that shows the  
6           zones that are applicable in each of the four depots?

7   MR PATRICK PANG: Chairman, can I be allowed to supply --  
8           absolutely, yes, definitely.

9   CHAIRMAN: Can you answer "yes" or "no" -- thank you. Try  
10          answering "yes" or "no" to this as well.

11   MR PATRICK PANG: (In English) Okay.

12   CHAIRMAN: Can you provide a copy of such a map or plan to  
13          us, "yes" or "no"?

14   MR PATRICK PANG: (In English) Yes.

15   CHAIRMAN: Will you do so, "yes" or "no"?

16   MR PATRICK PANG: (In English) Yes.

17   CHAIRMAN: Thank you.

18          Yes, Mr Duncan.

19   MR DUNCAN: Now, the operations officers presumably report  
20          to the depot manager; would that be correct?

21   MR PATRICK PANG: Correct.

22   MR DUNCAN: And who do the depot managers report to?

23   MR PATRICK PANG: At every depot, there will be  
24          an experienced general manager or manager who will  
25          coordinate the operation of the four depots and Long Win  
26

1           Bus. These five experienced general managers or  
2           managers directly report to me.

3       MR DUNCAN: I'm going to come back to the black box in a few  
4           moments, but there are just two other matters I want to  
5           explore with you before I do that.

6           Can I ask you to have in front of you, please,  
7           bundle FE-1, and could you go, please, to page 96-1 of  
8           that bundle. At that page, you should be looking at  
9           a copy of a document sent by email by the committee to  
10          a Mr Raymond Cheng. Are you looking at that? Do you  
11          see that?

12          Do you recognise Mr Raymond Cheng as being a former  
13          employee of the company? Is he known to you as a former  
14          employee?

15       MR ROGER LEE: He left when I joined the company. He left  
16          in 2014.

17       MR DUNCAN: Right. You will see that one of the matters  
18          that the committee has enquired into is under the  
19          heading "Employment by KMB"; do you see that?

20          Can you just read to yourself, please, paragraphs 1,  
21          2 and 3 of that email letter from the committee to  
22          Mr Cheng.

23          Have you been able to read that? Thank you.

24          Could you then please turn to page 96-4. Have you  
25          seen this response previously, Mr Lee?

1 MR ROGER LEE: No.

2 MR DUNCAN: Could you take the time, please, just to read to  
3 yourself what appears at page 96-4, 96-5, and there's  
4 also an extract on page 96-6. Just read that to  
5 yourself, please, to familiarise yourself with it.

6 Thank you. Then at page 96-7, you will see  
7 a further response from Mr Cheng, where he addresses  
8 again question 1 and question 2. I wonder if you would  
9 be good enough, please, just to read those entries to  
10 yourself, at page 96-7.

11 Thank you. Now, on page 96-7, just under the  
12 heading "Answer to Q2", Mr Cheng refers to the matter of  
13 29 sharp bends, and it talks about information being in  
14 an Excel format. Do you see that?

15 MR ROGER LEE: (In English) Yes.

16 MR DUNCAN: Does that information still exist within the  
17 company?

18 MR ROGER LEE: I joined the company in 2015. I have not  
19 seen such information. In the past few months, however,  
20 I sought an understanding with people who have worked in  
21 the company for a long time and how these 29 sharp bends  
22 came about. I can supply the record to the committee.  
23 According to the information, at that time,  
24 Mr Edmond Ho, the managing director, said that the  
25 operations director of that time should approve it  
26

1 before it would be implemented. According to the  
2 records, in 2014, the proposal of the 29 sharp bends was  
3 not implemented, and in the record papers it was seen  
4 that many bus captains and frontline staff had a lot to  
5 say about the implementability, and in 2015, when I took  
6 over in early 2015, I knew nothing about that  
7 recommendation, but the present operations director,  
8 Mr Leung, or the head of the training school, can  
9 supplement.

10 MR DUNCAN: I don't want to labour this point. All I'm  
11 asking is whether the information in the Excel format is  
12 available, and I think you've said that you could make  
13 the record available. Are you saying that it is  
14 available?

15 MR LEUNG KIN WANG: I cannot answer the question now. I can  
16 find out.

17 MR DUNCAN: Thank you.

18 CHAIRMAN: And if you are able to locate it, would you  
19 provide it to the committee?

20 MR LEUNG KIN WANG: Yes.

21 CHAIRMAN: The other records that I think Mr Lee was making  
22 reference to was the explanation for why the scheme was  
23 not implemented.

24 MR ROGER LEE: (In English) That's right.

25 CHAIRMAN: Could you make those records available?  
26

1 MR ROGER LEE: (In English) Yes.

2 CHAIRMAN: So there are two records. One is the Excel  
3 format with the 29 bends and whatever else went with it,  
4 and then the records that go to why it was not  
5 implemented.

6 MR ROGER LEE: (In English) Yes.

7 MR DUNCAN: Just to supplement that, if you look down at the  
8 bottom of the page, 96-7, there is reference to small  
9 reminding cards with exact locations of sharp bends and  
10 safe speeds having been printed. Could you also enquire  
11 into the company's records as to whether a sample of the  
12 printed card is available?

13 MR LEUNG KIN WANG: I haven't seen that.

14 MR JAMES WONG: In fact, in relation to this matter, I have  
15 looked it up. According to the information, I think at  
16 that time there was a proposal for the KMB to identify  
17 the sharp bends so that the bus captains would slow down  
18 the speed. I've got the minutes for that meeting, and  
19 as our MD has already said, at that time it would  
20 require the approval of the MD before it could be  
21 implemented.

22 According to the agenda of that meeting --

23 CHAIRMAN: Mr Wong, do these cards exist or not? Could you  
24 just answer that question directly?

25 MR JAMES WONG: (In English) Because I want to add some more  
26

1 information.

2 CHAIRMAN: By all means add more, but tell us directly: do  
3 they exist or not?

4 MR JAMES WONG: (In English) I don't have.

5 CHAIRMAN: They don't exist, as far as you are concerned?

6 MR JAMES WONG: (In English) No.

7 CHAIRMAN: I don't want to cut you off so tell us what it is  
8 you want to tell us.

9 MR JAMES WONG: According to the documents, it said that it  
10 would require the approval of the OD to implement it.  
11 According to the record, at that time it was obstructed  
12 by many staff members so it was not implemented and  
13 therefore I think that this didn't go into the staff  
14 members telling them about the sharp bends.

15 For the sharp bends, KMB came up with safety  
16 guidelines, but it is not about those 29 sharp bends.  
17 In fact, for our website for staff members, we have  
18 provided road sections, including sharp bends and  
19 others, carrying with them the driving tips. They are  
20 available from the website for staff members. So, for  
21 an employee who has to drive a particular route, he  
22 types in the route and then, covering the starting point  
23 and the ending point, there will be things that would  
24 warrant the attention of the bus captains, including the  
25 bends. So, when he drives, he will follow the

26

1 guidelines and drive carefully.

2 That's all I want to supplement.

3 CHAIRMAN: Yes, Mr Duncan.

4 MR DUNCAN: Thank you, Chairman.

5 Could you go back now, please, to KMB-1 at page 30.

6 We are back on the initial submissions to the committee,  
7 and in this particular respect you have been asked, you  
8 can see at the top of the page, to "identify and supply  
9 copies of any codes of practice established by your  
10 company"; do you see that?

11 Under the codes of practice, there are two standards  
12 referred to, together with the Occupational Health and  
13 Safety Assessment Series. Do you see those references?

14 The first of those is the International Organization  
15 for Standardization. Do you see that?

16 MR ROGER LEE: Yes.

17 MR DUNCAN: Would it be fair to say that there is nothing  
18 within that standard which applies directly to the  
19 matter of safety, applicable to bus captains?

20 MR ROGER LEE: (In English) Yes.

21 MR GODWIN SO: (In English) Yes.

22 MR DUNCAN: Likewise, if we go to the second of the  
23 standards, the International Organization for  
24 Standardization -- ISO 14001 -- again, would there be  
25 nothing within that standard which is applicable to the  
26

1 safety procedures which should be undertaken by a bus  
2 captain?

3 MR GODWIN SO: For ISO 14001, nothing, but ISO 9001, that's  
4 all about quality management. It does involve safety.

5 MR DUNCAN: Yes, but the question I'm asking is does it  
6 concern safety with regard to the manner in which a bus  
7 captain drives?

8 MR GODWIN SO: For this question, I would like to ask you to  
9 look at the second bullet above, "Staff Handbook". The  
10 fifth item, there is this safe driving manual for bus  
11 captains, and that involved the safety measures.  
12 Perhaps Mr Duncan would like to talk about this one.

13 MR LEUNG KIN WANG: Let me supplement. Back to ISO. For  
14 OHSAS 18001, that is the Occupational Health and Safety  
15 Assessment Series, we do mention safety, one of them  
16 being that for each depot, we have to set up a depot  
17 safety committee with two elements. First, maintenance,  
18 that is maintenance carried out within the depot. Then  
19 another committee is for operations.

20 For each depot, it has to set up a structure, and it  
21 is an occupational safety committee. The majority of  
22 the members are from the operations section, including  
23 Mr Pang. For the depot safety committee, for the part  
24 concerning operations -- now, for bus captains, at the  
25 bus termini, and for bus captains driving on the road,

26

1 for bus captains moving around in the depot, we talk  
2 about their working environment. For the depot safety  
3 committee, it also examines the traffic accidents of the  
4 depot. So it is under ISO 18001. We do have a "plan,  
5 do, check, act", and that takes care of driving safety  
6 matters. We do have it.

7 MR DUNCAN: What I'm asking you is whether 18001 dictates  
8 how a driver should drive. It doesn't descend to that  
9 detail, does it?

10 MR LEUNG KIN WANG: I would like to say that this is not the  
11 only thing to govern the driving of bus captains. As  
12 Mr So has said, for ISO 9001, there are measures  
13 relating to the safe driving of bus captains.

14 What I want to say is that there are different  
15 systems, and each will have its own functions, and in  
16 different ways it can contribute to the training, with  
17 monitoring, enforcement of our bus captains. For 18001,  
18 we talked about the depot safety committee. That takes  
19 care of matters at the depot level. But then for the  
20 Bus Captain Training School and then for the human  
21 resources department, we have to look at it from the  
22 corporate perspective.

23 So it isn't a matter of just having a single  
24 element. We have to take a holistic view.

25 MR DUNCAN: Yes, I understand that. My simple question is:  
26

1           there is nothing in the corporate safety manual,  
2           OHSAS 18001 which dictates how a driver is to drive  
3           safely? That's my simple question.

4       MR GODWIN SO: If you want to know how a bus captain should  
5           drive safely, then you should refer to what I have  
6           talked about. That is the one found at annex 1837, that  
7           is the safe driving manual for bus captains. That's  
8           from the corporate.

9       MR DUNCAN: Yes, the bus captain safety handbook; we are  
10          aware of that.

11               What I want to refer you to is miscellaneous file 2  
12           at page 769. You should be looking at a copy of the  
13           letter apparently to the chairman of the LegCo's Panel  
14           on Transport, dated 16 June 2016. Do you have that in  
15           front of you?

16       MR GODWIN SO: (In English) Yes.

17       MR DUNCAN: And it appears to be from an organisation called  
18           the Community for Road Safety; do you see that?

19       MR GODWIN SO: (In English) Yes.

20       CHAIRMAN: Is the heading of the letter, "Administration's  
21           paper on new franchise for bus network of the Kowloon  
22           Motor Bus Company Ltd -- report on the public  
23           consultation on the new franchise"; is that the heading?

24       MR GODWIN SO: (In English) Yes.

25       MR DUNCAN: Now, if you read the letter itself, you will see  
26

1           it refers to the submission of a document on 18 April  
2           2016 to the government, which you can see on the  
3           following page, 770. Is the company aware of this  
4           organisation called the Community for Road Safety?

5   MR GODWIN SO: I became aware of this organisation as  
6           a result of this submission. Prior to that, I didn't.

7   MR DUNCAN: Have you read this document then, the document  
8           which commences at page 770, "New Franchise for Bus  
9           Network of the Kowloon Motor Bus Co Ltd"? Have you  
10          already read it?

11   MR GODWIN SO: (In English) Briefly.

12   MR DUNCAN: Thank you. Can I take you, please, to page 772.  
13          Do you see a heading on that page, "Bus Safety -- Road  
14          Safety Management System"?

15   MR GODWIN SO: (In English) Yes.

16   MR DUNCAN: Could you read the contents of that section,  
17          please, to yourself.

18   MR GODWIN SO: (In English) Okay.

19   MR DUNCAN: Are you aware of that standard, ISO 39001?

20   MR GODWIN SO: Yes, from this submission.

21   MR DUNCAN: Were you not aware of this prior to reading this  
22          submission?

23   MR GODWIN SO: No, not before that.

24   MR DUNCAN: Have you read the standard since reading this  
25          submission?

26

1 MR GODWIN SO: (In English) Briefly.

2 MR DUNCAN: And do you think there is some merit in the  
3 standard as far as your company is concerned?

4 MR GODWIN SO: Well, let me say this. First of all, for  
5 this report or for this submission, I don't think they  
6 have carried out any site visit at our company, nor did  
7 they consult us. Then, for this standard, this is not  
8 the only safety standard. For the author writing this  
9 report, I think he also said that the bus operator  
10 should come up with a safety system so as to achieve  
11 this particular ISO standard, namely 39001.

12 In our company, there is a safety system. We built  
13 it on the premise of ISO 9001, and ISO 39001 is actually  
14 evolving from ISO 9001. It has covered four main  
15 pillars: plan, do, check, act. And we have also got  
16 renewed accreditation under ISO 9001. And recently we  
17 engaged a transport expert from the UK to the company to  
18 look at our operation, our maintenance, in order to  
19 conduct a health check on us, so as to enhance our  
20 internal safety standards. That is our own safety  
21 standard. It might not have to be pegged to ISO 39001.  
22 Nevertheless, it is a very high quality standard.

23 MR DUNCAN: When you say "recently", when was that?

24 MR ROGER LEE: I would like to add, I think it was in  
25 March/April this year, our board of directors hoped to  
26

1 engage a overseas expert to look at our operations.

2 Whether it is about maintenance of our fleet or duty  
3 despatch for bus captains and even training, we would  
4 like to see how we can enhance our service in this  
5 regard.

6 Actually, there is more than one expert. Actually,  
7 yesterday they started to work.

8 MR LEUNG KIN WANG: Well, yesterday they came to Hong Kong.  
9 They came to our depots to start working.

10 CHAIRMAN: And who are they?

11 MR ROGER LEE: I don't have the name of the company. Can  
12 I supplement it afterwards?

13 CHAIRMAN: Yes, please do so. Do none of your colleagues  
14 know the name of this consultant?

15 MR ROGER LEE: Actually, it was in spring this year that  
16 I went to London. I met a few consultants. Some worked  
17 at London Transport. Some worked at large bus operators  
18 in the UK. Most of them are experienced operators in  
19 the UK. The company's name is Direx Solutions Ltd. It  
20 is a consultant company. Most of the consultants have  
21 been experienced in large bus operation in the UK.

22 CHAIRMAN: Thank you.

23 MR DUNCAN: So do I understand there is an investigation  
24 underway; there is no report available as yet?

25 CHAIRMAN: I think you said they began yesterday.

26

1 MR ROGER LEE: (In English) Yes.

2 (Via interpreter) Actually, a lot of information was  
3 submitted beforehand but the actual work just started.  
4 The consultant will certainly submit reports to our  
5 board after he has reviewed our operations.

6 MR DUNCAN: When do you expect that that report would be  
7 available?

8 MR ROGER LEE: Within the year.

9 MR DUNCAN: You mean within 2018 or within 12 months?

10 MR ROGER LEE: It will be in stages. The first stage is for  
11 them to do a body check, to see where we can improve.  
12 This is difficult because, first of all, he has to get  
13 to know our colleagues, so this will be done in stages.  
14 I believe there should be an initial report by the end  
15 of the year.

16 MR DUNCAN: Right. I'm now going to turn to the topic of  
17 the black box, which has been referred to on a number of  
18 occasions already this morning.

19 Can we start by picking up KMB-1 at page 50. Again,  
20 this page is part of the initial submission made by the  
21 company to the committee back in April of this year.

22 At page 50, the question that was asked, question  
23 number 2:

24 "Are electronic recording device eg  
25 tachographs/blackboxes and speed Limiters installed on  
26

1 all buses? What information from these devices  
2 pertaining to monitoring the driving performance of bus  
3 captains is captured, and how is the collected  
4 information used to enhance driving safety? Are the  
5 buses equipped with forward-looking cameras that record  
6 and retain the progress of the vehicle?"

7 I'm particularly interested in the second sentence,  
8 "What information from these devices pertaining to  
9 monitoring the driving performance of bus captains is  
10 captured, and how is the collected information used to  
11 enhance driving safety?"

12 You will see the answer which has been provided to  
13 the committee, the first bullet:

14 "All KMB and LWB buses are equipped with black boxes  
15 and speed limiters."

16 Secondly:

17 "The black boxes capture the information of vehicle  
18 speed and vehicle location.

19 Operations sections of KMB and LWB monitor bus speed  
20 daily for the driving record of the preceding 10 days to  
21 monitor BCs' driving performance. Information will be  
22 passed to performance managers to commence disciplinary  
23 action within 14 working days from the time of the  
24 contravention."

25 Do you see that answer?  
26

1 MR ROGER LEE: (Nodded head).

2 MR DUNCAN: Now, there are a number of matters I want to  
3 explore with you with regard to these black boxes. Let  
4 me make it clear at the outset what I'm interested in  
5 finding out on behalf of the committee. In particular,  
6 I'm interested in finding out what data these black  
7 boxes in your buses are capable of capturing, firstly;  
8 and secondly, what do they in fact capture, as opposed  
9 to what they are capable of capturing. And there's  
10 a third aspect, the use to which that data is actually  
11 put.

12 I just make that all clear to you so you can  
13 understand why I'm asking these questions.

14 I'm going to cover those matters in four areas, to  
15 try and make it simple for everybody concerned.

16 First of all, I'm going to ask you what  
17 requirements, if any, the Transport Department has laid  
18 down for the installation and use of black boxes. So  
19 what obligations do you have by virtue of the Transport  
20 Department requirements? That's number one.

21 Number two, I'm going to explore with you the data  
22 which is actually collected by the black boxes in the  
23 company's buses.

24 Thirdly, I'm going to cover what use is actually  
25 made of that data to provide real-time alerts to the bus  
26

1 drivers as they are driving the bus.

2 Then, finally, I'm going to ask questions to find  
3 out what use is made of recorded black box data in order  
4 to facilitate the assessment of driving behaviour and  
5 also the monitoring of the driver as he is driving the  
6 bus.

7 So those are the areas, I think, that the committee  
8 will be interested in, and we will go through those one  
9 by one; okay?

10 MR PATRICK PANG: (In English) Yes.

11 MR DUNCAN: So the first of those topics is what  
12 requirements, if any, what obligations you have under  
13 the franchise agreement, or otherwise, to the Transport  
14 Department in respect of the installation and use of  
15 these black boxes.

16 So can I take you in that context first of all to  
17 TD-5, and ask you to turn up, please, page 1597.

18 Are you looking at a note from the Transport  
19 Department?

20 MR ROGER LEE: (In English) Yes.

21 MR DUNCAN: And is it addressed to a number of bus  
22 companies, including your own? And does it carry the  
23 heading, "Installation of Electronic Data Recording  
24 Devices on New Buses"? Is that the heading?

25 MR ROGER LEE: (In English) Yes.

26

1 MR DUNCAN: And is that a reference to a black box,  
2 an electronic data recording device?

3 MR LEUNG KIN WANG: Yes.

4 MR DUNCAN: Thank you.

5 MR LEUNG KIN WANG: In reality, in November 2003, we started  
6 the installation. That was in November 2003. And  
7 before --

8 MR DUNCAN: Right.

9 MR LEUNG KIN WANG: (In English) Sorry.

10 CHAIRMAN: Mr Leung, be patient. Mr Duncan will ask you  
11 questions. If there's something you wish to add because  
12 his questions aren't good enough, feel free to do so.

13 MR DUNCAN: And does that contain the requirement, namely  
14 that buses first registered after 1 July 2004 should be  
15 installed with a black box complying with the stated  
16 technical specification? Is that the requirement?

17 MR LEUNG KIN WANG: Correct.

18 MR DUNCAN: Thank you. If you turn the page, are the  
19 requirements set out there in items number 2 and 3?

20 MR LEUNG KIN WANG: (In English) Correct.

21 MR DUNCAN: And the first of those, item 2, does that demand  
22 that, "The device should sample the following data at 1  
23 second intervals, and store data every 30 seconds for  
24 a period of 2 weeks"?

25 MR LEUNG KIN WANG: (In English) Correct.

26

1 MR DUNCAN: And does it refer to two aspects, first of all  
2 the operation times?

3 MR LEUNG KIN WANG: (In English) Correct.

4 MR DUNCAN: And, secondly, vehicle speed?

5 MR LEUNG KIN WANG: (In English) Correct.

6 MR DUNCAN: In item 3, there is further reference to the  
7 software for analysing on-board or downloaded data  
8 should be capable of reporting two matters; is that  
9 right?

10 MR LEUNG KIN WANG: Correct.

11 MR DUNCAN: First of all, with regard to an accident report,  
12 the vehicle speed profile, at a time interval which is  
13 then set out.

14 MR LEUNG KIN WANG: Correct.

15 MR DUNCAN: Then, secondly, the over-speeding report: the  
16 frequency, maximum speed attained and over-speeding  
17 duration for speeds over 70 kilometres per hour?

18 MR LEUNG KIN WANG: (In English) Correct.

19 MR DUNCAN: So was that the first requirement issued by the  
20 Transport Department with regard to the installation of  
21 black boxes and what they should be able to provide?

22 MR LEUNG KIN WANG: Correct.

23 MR DUNCAN: We can perhaps come back to that further after  
24 the lunch break.

25 CHAIRMAN: Yes. Gentlemen, we will take our lunch break now  
26

1 and resume the hearing at 2.30 this afternoon.

2 2.30. Thank you.

3 (1.02 pm)

4 (The luncheon adjournment)

5 (2.30 pm)

6 CHAIRMAN: Good afternoon, gentlemen.

7 Mr Duncan.

8 MR DUNCAN: Thank you, Mr Chairman.

9 Gentlemen, we had seen before lunch the requirements  
10 from the Transport Department with regard to the use of  
11 black boxes in October 2003.

12 The next document I'd like to take you to, to be  
13 found in KMB-1, and perhaps we can go to page 159  
14 firstly.

15 This is the second submission that the company made  
16 to the committee dated 18 May. If I could take you,  
17 please, through to page 175. You will see at the top of  
18 the page a question (5), in which the matter of the  
19 franchise requirements is mentioned.

20 You will then see question (6), a question posed by  
21 the committee:

22 "Please identify those franchise requirements. Are  
23 the requirements imposed by the Transport Department?  
24 Are they expressed in writing? If so, please provide  
25 copies of those documents."

26

1           And in the company's response, there is reference to  
2           clause 7(1) of the franchise, and then an explanation  
3           which reads as follows:

4           "During the discussions of the new franchise, the  
5           government has requested KMB to commit to adopt a list  
6           of enhanced safety features including but not limited to  
7           on-bus electronic data processing device (also known as  
8           black box), speed limiter and surveillance cameras, as  
9           the standard provisions when acquiring new buses (please  
10          refer to extracts of the letter from [the department]  
11          dated 10 March 2017 ...). KMB has given its undertaking  
12          to TD to implement these commitments under the new  
13          franchise."

14          The letter from TD is referred to in an annex, which  
15          I'll ask you to turn up. That would be at KMB-9 at  
16          page 3997. It's the second-last page of the bundle.

17          If you look at that page, it's headed, "Provision of  
18          on-bus facilities", and it is introduced by saying,  
19          "Pursuant to clause 7 of the new franchise, KMB has  
20          committed", and there are set out under that sentence  
21          item (a), and then an item (b) on the second page.

22          The one which is relevant for our purposes is under  
23          (a) and under the heading, "Enhanced safety features",  
24          as referred to in the previous document.

25          If you just go down the list of safety features, you  
26

1 will see, I think, eight of them, numbered (i) through  
2 to (viii). The third one of those refers to the  
3 electronic data processing device, ie the black box.

4 Is it correct that the department has not stipulated  
5 any requirement with regard to any particular use of the  
6 black box? It has simply said that that is a safety  
7 feature which the company should have? Is that correct?

8 MR LEUNG KIN WANG: (In English) That's correct.

9 MR DUNCAN: So to the extent that the explanation suggested  
10 that that was an enhanced use of the black box, that  
11 would be not the correct way to read this document at  
12 page 3997; is that correct?

13 MR LEUNG KIN WANG: It's a bit complicated.

14 CHAIRMAN: It's complicated?

15 MR LEUNG KIN WANG: (In English) Yes.

16 CHAIRMAN: What's complicated?

17 MR LEUNG KIN WANG: (In English) I try to explain.

18 CHAIRMAN: Yes.

19 MR LEUNG KIN WANG: (Chinese words not interpreted) ...

20 there's a commitment that we are going to do, but is it  
21 an enhanced feature? It's difficult to comment. But we  
22 have undertaken to do that.

23 MR DUNCAN: As I read it, you have undertaken to utilise the  
24 device?

25 MR LEUNG KIN WANG: That's correct.

26

1 MR DUNCAN: And that's all?

2 MR LEUNG KIN WANG: Of course, that device would be used, as  
3 said, but we will make it as helpful as possible to the  
4 company. But is it an enhanced safety feature? We are  
5 of the view that it would be helpful for safety purpose.

6 CHAIRMAN: Mr Duncan's question was: there is no stipulation  
7 by the Transport Department of any enhanced use of the  
8 device, is there?

9 MR LEUNG KIN WANG: (In English) No.

10 CHAIRMAN: Nor is there any stipulation as to any  
11 enhancement of the capabilities of the device.

12 MR LEUNG KIN WANG: (In English) No.

13 CHAIRMAN: Thank you.

14 MR DUNCAN: I am grateful, Mr Chairman.

15 Apart from these two documents which we have seen,  
16 the one in 2003 and this one in 2017, has the Transport  
17 Department at any time required the company to make any  
18 particular type of use of the black box?

19 MR LEUNG KIN WANG: (In English) No.

20 MR DUNCAN: Just before I leave the document at page 175 of  
21 bundle 1, it is said in the last sentence that KMB has  
22 given its undertaking to the Transport Department to  
23 implement these conditions under the new franchise.

24 In what form was that undertaking given?

25 MR GODWIN SO: Maybe I should answer this question, because  
26

1 I played an important role in the franchise renewal.

2 It's an undertaking, according to page 3997, it was the  
3 content of a letter, it was signed by the company,  
4 representing the commitment to implement these, so that  
5 the matter, the franchise, can be granted by referring  
6 the matter to ExCo. That's a commitment on our part.

7 MR DUNCAN: Would you be able to provide a copy of the  
8 letter to the committee?

9 MR GODWIN SO: (In English) Yes.

10 MR DUNCAN: Thank you.

11 CHAIRMAN: This is a standard letter that is issued very  
12 close to the time when the franchise is renewed? We've  
13 seen these before.

14 But you're undertaking to do nothing, because there  
15 was no enhanced safety capability of the black box that  
16 had been stipulated and there was no enhancement of the  
17 use that was to be made of it. This was a puff, was it  
18 not?

19 MR LEUNG KIN WANG: That's the requirement from the  
20 Transport Department, enhanced safety feature. It's the  
21 term used in the paper. We would see how we can make  
22 the best use of these features. It's not just about the  
23 wording. For example, electronic data processing device  
24 is mentioned, and they have certain specifications, and  
25 we would take the opportunity to enhance safety.

26

1 CHAIRMAN: The only specifications were dated November 2003.

2 Nothing had changed since then.

3 MR LEUNG KIN WANG: Apart from this undertaking, we would do

4 more. That's the minimum.

5 CHAIRMAN: Mr Leung, it's not a criticism of you. If the

6 Transport Department, for their own reasons, invite you

7 to undertake to commit to do nothing, you had agreed to

8 it, hadn't you?

9 MR LEUNG KIN WANG: (Chinese words not interpreted).

10 CHAIRMAN: Mr Duncan.

11 MR DUNCAN: Thank you, Mr Chairman.

12 I want to move on to the second of the areas

13 I indicated I would cover with regards to the black box,

14 and that is asking questions with regard to what data

15 the black boxes in the KMB boxes are capable of

16 collecting and what data they do actually collect. Do

17 you understand that?

18 MR LEUNG KIN WANG: (In English) Yes.

19 MR DUNCAN: Thank you. I think you are aware that the

20 committee have heard evidence from a Mr Kulis who is

21 a representative of Openmatics, the company that

22 supplied the black boxes to the company.

23 MR LEUNG KIN WANG: (In English) Yes.

24 MR DUNCAN: You are aware of that?

25 MR LEUNG KIN WANG: (In English) Yes.

26

1 MR DUNCAN: Have you had the opportunity of reading his  
2 evidence?

3 MR LEUNG KIN WANG: (In English) Briefly, yes.

4 MR DUNCAN: What about the written documentation that he  
5 provided to the committee? Have you had the opportunity  
6 of reading that?

7 MR LEUNG KIN WANG: (In English) Yes.

8 CHAIRMAN: I think you are referring to the documentation  
9 provided by Openmatics' solicitors?

10 MR DUNCAN: Indeed, it came through the solicitors. Thank  
11 you, Mr Chairman.

12 In that respect, can I take you to one of the other  
13 bundles, BM-1. If you would be good enough, please, to  
14 turn up page 64 of that volume, you will see there that  
15 the law firm that the chairman obviously had in mind  
16 writing with regard to the services provided by the  
17 company referred to in that letter. Do you see that  
18 letter from the law firm?

19 MR LEUNG KIN WANG: (In English) Okay.

20 MR DUNCAN: Then if you turn to page 65, you will see the  
21 information with which the committee has been provided  
22 from page 65 right through to page 72.

23 The questions are in black and the answers have been  
24 provided in blue. I think that's the correct way of  
25 reading that letter.

26

1           The first matters I wish to bring to your attention  
2           are on page 65. You will see in item 1:

3           "In written submissions provided to the committee,  
4           dated 24 April 2018 ... KMB stated that ...

5           'Since 2015, KMB has taken the initiative to equip  
6           its buses with speed limiters, black boxes and  
7           surveillance cameras to monitor the driving performance  
8           of the bus captains as well as to assist in accident  
9           investigation."

10          If I could bring your attention, please, to the  
11          response in the next three paragraphs:

12          "Please note that the Openmatics portfolio does not  
13          consist of the aforementioned speed limiters and  
14          surveillance cameras. However, the black box is part of  
15          the Openmatics telematics system as explained below.

16          Openmatics entered into a supply contract to deliver  
17          telematics systems, dated 16th of April 2013 with  
18          Kowloon Bus Company ... and Long Win Bus Company ...

19          Openmatics started offering telematics services by  
20          using the first black box system called the 'Mozart  
21          box'. Later on, Openmatics replaced the Mozart Box by  
22          a successor platform black box called the 'Bach Box'.  
23          However, clients can use both systems in parallel as  
24          [Kowloon Motor Bus] does."

25          First of all, I will ask you to confirm that what is  
26

1           said in those three paragraphs is correct.

2       MR LEUNG KIN WANG:   (In English) It is correct.

3       MR DUNCAN:   Thank you.

4           I now want you, please, to turn to page 68 of the  
5       letter.  If I could bring your attention to the second  
6       paragraph on that page which is coloured blue, and which  
7       reads this:

8           "What does the term 'BC' stands for?"

9           Then the following paragraph:

10          "The Openmatics telematics system installed at KMB  
11       can identify", and then four bullets:

12          "records of speeding; recorded every second and  
13       stored together with the related GPS data;

14          'malpractice' of harsh braking;

15          Abrupt acceleration;

16          The corresponding bus registration numbers with the  
17       assistance of other systems".

18          Are you able to confirm that that sets out what data  
19       the systems on the KMB bus are capable of identifying?

20       MR LEUNG KIN WANG:   (In English) Yes.

21       MR DUNCAN:   Thank you.  Before I go to the next page, there  
22       is one matter I would like to take up with you.  If you  
23       would look down to the next entry:

24          "The Openmatics telematic system installed at KMB  
25       cannot identify:

26

1 Route numbers of certain buses".

2 But then the next paragraph is the one I am now  
3 interested in:

4 "The data are collected as defined by the system.  
5 Every second, the system collects the defined data and  
6 sends that data every 30 seconds -- if connected to WiFi  
7 or other cellular network or via USB -- to the defined  
8 FDP server. The information is also stored locally on  
9 the telemetry unit (black box) for 30 days. But data  
10 from the telemetry unit can be lost if it is not  
11 downloaded correctly."

12 If you look at the bottom of the page, the very last  
13 paragraph, there is a repetition of that entry, and it  
14 refers to the data being sent to the server every 30  
15 seconds.

16 Could I then take you, please, to KMB-1 again, at  
17 page 72. This again, if I could remind you, is the  
18 response of 24 April this year of the company to the  
19 committee, the first response.

20 Could I bring your attention, please, to the last  
21 paragraph on that page:

22 "Black boxes are installed in all buses to capture  
23 the real-time information, such as speed, route, door  
24 open or close status and Global Positioning System (ie  
25 GPS), but there is a delay of about 10 seconds for  
26

1 transmitting the information to bus headquarters. The  
2 data will be kept in the computer under the bus on-board  
3 monitoring system ..."

4 Now, there would appear, at least on the face of  
5 those two documents, to be a difference in that,  
6 according to the letter from the law firm, the data is  
7 sent every 30 seconds, whereas according to the return  
8 from the company it seems that the delay or the time at  
9 which the data is sent is every 10 seconds. Would you  
10 be able to comment on what appears to be a difference?

11 MR LEUNG KIN WANG: (In English) Yes.

12 (Via interpreter) Currently, the delay is 30  
13 seconds. We hope to achieve a delay of 10 seconds, and  
14 we hope to achieve this by enhancing our servers, and  
15 technically we want to enable data to be committed to be  
16 transmitted more frequently. So currently the delay is  
17 30 seconds.

18 MR DUNCAN: So what steps are you taking to achieve  
19 a 10-second delay?

20 MR LEUNG KIN WANG: We will look to enhance server  
21 technologies in order to achieve our target of 10  
22 seconds.

23 MR DUNCAN: When do you expect that to happen?

24 MR LEUNG KIN WANG: We have no concrete timeline now but we  
25 are moving towards that direction.

26

1 CHAIRMAN: Can you help me at least by explaining what you  
2 mean by "enhance server technology"?

3 MR LEUNG KIN WANG: The current delay is 30 seconds mainly  
4 due to server capacity, and the flow of data would  
5 increase. So this is an issue we have to solve.

6 CHAIRMAN: What server? Whose server?

7 MR GODWIN SO: I would like to add to what I just said about  
8 the difference between 10 seconds and 30 seconds and how  
9 we can reconcile the difference.

10 10 seconds referred to a delay when an incident is  
11 triggered, data would be sent after 10 seconds, and if  
12 the delay is 30 seconds, data would be transmitted to  
13 our headquarters every 30 seconds. So 10 seconds refers  
14 to a data delay, whereas for 30 seconds data would be  
15 sent to the headquarters every 30 seconds. So the two  
16 are referring to different procedures or processes.

17 CHAIRMAN: I'm asking for an explanation as to what this  
18 server is. Whose server is it? Where is it? What  
19 function does it perform?

20 MR GODWIN SO: The server is located in the data centre of  
21 our Kowloon Bay depot and the function is to store the  
22 data for analysis, to explain certain exceptions.

23 CHAIRMAN: So its capacity is not sufficient at the moment  
24 to produce a 10-second transmission; is that it?

25 MR GODWIN SO: (In English) Correct.

26

1 CHAIRMAN: Thank you.

2 MR DUNCAN: Are you aware of the fact that whether it's  
3 a 30-second gap or a 10-second gap or even a 5-second  
4 gap is a matter of choice for the user of the black box?

5 MR GODWIN SO: For the transmission gap of 30 seconds, that  
6 would not affect our analysis of data from the black  
7 box. As suggested in another paper, no bus route data  
8 is provided, so we would have to store this data and we  
9 would have to identify from other systems what the  
10 routes are and who the relevant bus captains are, before  
11 we can take warning or disciplinary action.

12 These reports are generated daily, so whether or not  
13 the transmission delay is 10 seconds or 30 seconds has  
14 no bearing on the task of analysis.

15 CHAIRMAN: Because there is no real-time analysis; is that  
16 it?

17 MR GODWIN SO: For real-time, yes, correct, we do not  
18 perform real-time analysis.

19 MR DUNCAN: Just if I could have an answer to my question,  
20 please.

21 CHAIRMAN: Mr Duncan, perhaps Prof Lo could ask a question.

22 MEMBER LO: I just want to clarify. There's this 10-second  
23 delay, and then you send the data 30 seconds later, so  
24 the total delay is 40 seconds, right? Is that correct?

25 MR LEUNG KIN WANG: (In English) Let me correct it. At the  
26

1 moment, every 30 seconds the data, for that 30 seconds,  
2 are transmitted through the internet to our server. The  
3 10 delays are equivalent to 30, I mean in terms of  
4 meaning. So existing is 30. Our intention is to  
5 shorten it to 10. That's the situation.

6 CHAIRMAN: Thank you.

7 Mr Duncan, your question.

8 MR DUNCAN: Yes. The question I'm asking is this. Do you  
9 realise that it's a matter of choice for the user of the  
10 black box as to what the time delay should be: 30  
11 seconds, 20 seconds, 10 seconds or 5 seconds? It is  
12 just a matter pertaining to the parameters; are you  
13 aware of that?

14 MR LEUNG KIN WANG: This is a decision. It depends on  
15 technical consideration, resources, and whether we feel  
16 that this is conducive to our work on how data can be  
17 transmitted to the system sooner.

18 MR DUNCAN: Technically, it's feasible?

19 MR LEUNG KIN WANG: It should be.

20 CHAIRMAN: What are the financial implications for  
21 increasing the capacity of the server to permit  
22 transmission in 10 seconds rather than 30 seconds, in  
23 broad terms?

24 MR LEUNG KIN WANG: We haven't looked into that but it would  
25 not be a small sum. We hope with the technological  
26

1 advances we can achieve that goal sooner. It has to do  
2 with data volume and data traffic and data storage.

3 MEMBER AUYEUNG: Could it be just a matter of having a much  
4 more powerful server? Could that be the solution?

5 MR LEUNG KIN WANG: Not necessarily. We are looking into  
6 ways to improve or increase the speed of traffic.

7 MEMBER AUYEUNG: Thank you.

8 MR DUNCAN: Could you look, please, at page 69 of BM-1,  
9 again the same enclosure to the law firm's letter. If  
10 you look at the second portion in blue on that page, and  
11 the second paragraph:

12 "The telematics system installed at KMB is capable  
13 of recording deceleration and acceleration of the buses.  
14 However, the deceleration and acceleration of the buses  
15 as feature recording this on an ongoing basis is not  
16 enabled."

17 If I could just supplement what is said there by  
18 taking you to the oral evidence of Mr Kulis, who was  
19 a representative of Openmatics. You will find this in  
20 the transcript for Day 6, transcript volume 3, Day 6,  
21 page 146.

22 Can I bring your attention to line 21, please. Line  
23 21 starts with the words "Mr Derek Chan" who is the  
24 gentleman sitting beside me, one of the counsel for the  
25 committee, and he asks this question:

26

1            "In the middle of the page, again, in blue, that is  
2            the answers from your company, it is stated that ..."

3            And he has referred to the same passage I just  
4            referred you to, where it is said that the deceleration  
5            and acceleration is not enabled, and the question he  
6            asks is this:

7            "Are you able to elaborate or explain to us what is  
8            meant by this paragraph, especially the part about  
9            recording acceleration and deceleration on an ongoing  
10           basis?"

11           Mr Kulis responds as follows:

12           "Yes, I'm also not sure if I will get the point of  
13           this sentence correctly, but I think the sentence is  
14           referring to the situation that these values,  
15           acceleration and deceleration, for the KMB we are using  
16           to raise realtime warnings, not for recording them to  
17           the data. This is my understanding of this declaration.  
18           So we have the system, the driver feedback device, which  
19           is warning the drivers in the realtime if they [are]  
20           accelerating too much or decelerating too much. For  
21           this propose we are using the values of acceleration and  
22           deceleration, we are not storing these values for the  
23           historical data. That's my understanding of this  
24           sentence declaration.

25           MR DEREK CHAN: I see. Okay.

1           So your understanding is that the acceleration and  
2           deceleration are not recorded in the black box data  
3           systems?

4           Is that correct, Mr Kulis?

5           MR KULIS: Yes, that's my understanding. Because  
6           another function of the -- our box is the record, the  
7           several data, as the black box feature. There are maybe  
8           20 different values, but not the acceleration and  
9           deceleration."

10          So we will pause there. So what Mr Kulis seems to  
11          be saying is that although the KMB black box is capable  
12          of storing the data pertaining to acceleration and  
13          deceleration, that facility has not been enabled for  
14          KMB. Now, I would ask whether the company would wish to  
15          comment on that, in the light of the evidence given this  
16          morning by one of you that the deceleration and  
17          acceleration data is in fact stored and is in fact  
18          accessed in the context of monitoring driver behaviour.

19          MR LEUNG KIN WANG: It's correct to say that it is not  
20          stored, data are not stored, on the black box, but the  
21          information on acceleration and deceleration will be  
22          transmitted back to our server, so it's there.

23          MR DUNCAN: So are you saying it's stored in the server?

24          MR LEUNG KIN WANG: Correct.

25          MR DUNCAN: Once it is stored in the server, how would the  
26

1 persons in the company get access to that data, in  
2 a practical sense?

3 MR LEUNG KIN WANG: The information in the server would tell  
4 us the information on acceleration and deceleration, and  
5 then we can see whether there is any exceedance of  
6 standards or norms, extreme acceleration and extreme  
7 deceleration, leading to improper driving behaviour, as  
8 an example. We will use the information to identify the  
9 relevant bus captains so that we can review the driving  
10 behaviour by some other department in my company.  
11 That's how we use the information stored.

12 CHAIRMAN: Mr Duncan's question was: how does the person  
13 access that information? What happens; what steps are  
14 taken? That was the question.

15 MR LEUNG KIN WANG: The information is in the computer. We  
16 have some computer software to deal with such  
17 information, which would mean that some reports would be  
18 generated through such software. The information is  
19 only about information of that black box in question,  
20 acceleration/deceleration, et cetera. But there is no  
21 information on the bus routes or the bus captains  
22 concerned. So we have to process the information before  
23 the reports can be generated and some other departments  
24 in my company can then take follow-up action.

25 CHAIRMAN: So the person requests the computer to give  
26

1 information about a particular black box? Is that what  
2 you are saying?

3 MR LEUNG KIN WANG: It's not that.

4 CHAIRMAN: Then I missed it. Try again.

5 MR ROGER LEE: Let me supplement. The information in  
6 relation to a black box, that is the information on  
7 acceleration and deceleration, will be transmitted to  
8 the server from the black box, and in that server we can  
9 tell the entire journey from the start to the end. We  
10 can check information on the entire journey, and also  
11 the position of the relevant stops --

12 CHAIRMAN: Forgive me for interrupting. Is this done by  
13 going to a particular black box, "We want information  
14 from this black box"? Presumably, you can tie up the  
15 black box with a bus number; is that how it's done?

16 MR ROGER LEE: That's correct.

17 MR LEUNG KIN WANG: (In English) At the back end we can --

18 (Via interpreter) Yes, we can match the two. The  
19 number of black box, it is connected to the number of  
20 the bus. We know which bus has got this particular  
21 black box. You know the number of the black box and you  
22 know the number of the bus.

23 CHAIRMAN: So the operator who is searching the server is  
24 asking for data in respect of a particular black box and  
25 therefore bus; is that it?

26

1 MR LEUNG KIN WANG: (In English) Yes. Yes.

2 CHAIRMAN: Before I ask Mr Duncan to resume, let me ask you  
3 this. Why, if the black box is capable of storing the  
4 data of deceleration and acceleration, is it not stored  
5 there as well as being transmitted to the server?

6 MR LEUNG KIN WANG: Let me explain. The black box records  
7 on a second-to-second basis the location, the speed of  
8 the time, the coordinates, and we compare the speed of  
9 this second with that of the last second. If the  
10 acceleration is over a pre-set value, it's 4km at  
11 present, if it exceeds the value of 4km, then there  
12 would be an alert for the bus captain, by a light and  
13 also by a sound alarm.

14 If, for this second, the alarm has been triggered,  
15 then the data of the fact that the alarm has been  
16 triggered would also be recorded. If, for a particular  
17 second, the speed compared with that of the last second  
18 is lower than a set value 7km -- it used to be 8km --  
19 that is to say it is a very abrupt deceleration,  
20 likewise, the warning device would be lit and a beep  
21 will come off and the warning for abrupt braking would  
22 also be recorded at that moment.

23 So all these warnings during that second or moment  
24 would be transmitted back to our server, so we can check  
25 whether warnings were issued in that second. So the  
26

1           number of reminders or warnings are stored in our  
2           server, so we know when warnings were issued to bus  
3           captains and for what reason. All this information is  
4           available in our servers.

5   CHAIRMAN: So does it come to this, that whereas speed is  
6           recorded on a black box every second, as is required by  
7           the Transport Department, deceleration is only recorded  
8           if it crosses the thresholds you have just identified,  
9           namely an increase in speed of 4 kilometres per second  
10          and a decrease of 7 kilometres? Is that it?

11   MR LEUNG KIN WANG: I would like to supplement. I forgot to  
12          mention speeding. Likewise, if the speed exceeds  
13          a pre-set value, that second, right now our threshold is  
14          70kph, if the speed exceeds 70kph, the device would go  
15          off, and in that second the warning given by the device  
16          would be recorded if the speed of the vehicle exceeds  
17          70 kilometres per hour. So in case of harsh braking or  
18          sudden deceleration, if it exceeds the pre-set value, it  
19          would be recorded, and the second-by-second record would  
20          be transmitted to our servers.

21   CHAIRMAN: When was the speed excess set at 70 kilometres  
22          per hour?

23   MR LEUNG KIN WANG: On 23 February, we adjusted the speed  
24          threshold to 70. It used to be 75.

25   CHAIRMAN: That's 2018?

1 MR LEUNG KIN WANG: Yes.

2 CHAIRMAN: Yes.

3 Mr Duncan.

4 MR DUNCAN: Thank you, Mr Chairman.

5 Just so I understand this completely -- I want to  
6 take you back to the information that you provided the  
7 committee in your first submission and then what was  
8 provided in the second submission.

9 Could I take you to your first submission at  
10 page 50. I've taken you to this page and indicated that  
11 I was interested in the second sentence of the question:

12 "What information from these devices pertaining to  
13 monitoring the driving performance of bus captains is  
14 captured, and how is the collected information used to  
15 enhance driving safety?"

16 In your answer, with regard to the capturing of  
17 information, the only matter which is mentioned is  
18 vehicle speed and vehicle location. There is no mention  
19 there of acceleration or deceleration. Is there any  
20 reason for that?

21 MR LEUNG KIN WANG: Vehicle speed is available  
22 second-by-second, and I explained the difference between  
23 speed at this moment and the next equates to  
24 acceleration or deceleration. That's why we do not have  
25 another device to record deceleration or acceleration,

26

1           because we can calculate this based on the difference in  
2           speed.

3       CHAIRMAN: This answer is not a complete answer to the fact,  
4           is it, as Mr Duncan is suggesting to you? The question  
5           is why.

6           This is 12 words, that was the answer, to what was  
7           an open-ended question, seeking assistance from your  
8           company.

9       MR LEUNG KIN WANG: I can only say that the black boxes  
10          capture vehicle speed.

11       CHAIRMAN: Amongst other things.

12       MR LEUNG KIN WANG: (In English) Among other things, yes.

13       CHAIRMAN: The question is why didn't you mention the other  
14          things. I'm asking you the question because you are the  
15          person answering. I don't know who made this submission  
16          but somebody wrote this and I'm asking why it's less  
17          than complete.

18       MR LEUNG KIN WANG: There are more than 20 parameters  
19          including time, date, vehicle speed, engine, the number  
20          of revolutions per minute.

21       CHAIRMAN: So why are they not mentioned here?

22       MR LEUNG KIN WANG: These are the two main data to monitor  
23          bus captains.

24       CHAIRMAN: Mr Duncan.

25       MR DUNCAN: I'm going to move now to the third area which  
26

1 I indicated I was interested in and -- we've touched on  
2 this already but -- sorry, we haven't touched on this  
3 yet. The third area is what use is made of the data  
4 being collected to provide real-time assistance to the  
5 bus captain? That's the area I'm now interested in.

6 I'm going to ask you, with respect, to go to page 65  
7 of BM-1 again, the letter from the law firm. Halfway  
8 down the page, in blue, it is stated:

9 "The telematics system consists of the three main  
10 parts".

11 The first part he has referred to is the driver  
12 feedback device. There's an introduction:

13 "This device provides visual and acoustic feedback  
14 to the driver about four basic threshold values (engine  
15 revving, speeding, idling, and acceleration). It is  
16 placed in the driver's cabin and connected to the  
17 Openmatics on-board unit.

18 Driver feedback overview means the driver will be  
19 informed about the information by beeping and  
20 illuminating four LED lights if the - calibrated -  
21 thresholds will be reached."

22 Then you have further details of the engine, the  
23 speed, the idling and the acceleration set out on that  
24 page.

25 Does this accurately reflect the real-time driver  
26

1 alert system which is installed in the KMB buses?

2 MR LEUNG KIN WANG: Correct.

3 MR DUNCAN: If you would then be good enough, please, to  
4 turn the page, so I can ask questions about thresholds.  
5 At the top of page 68, the writer of this document says  
6 this:

7 "To our knowledge, the driver feedback system was  
8 installed in the accident vehicle."

9 Referring to the Tai Po accident.

10 "The driver feedback thresholds for the accident bus  
11 were initially defined by KMB and then calibrated by  
12 Openmatics to fit KMB's defined parameters."

13 Do you confirm that to be correct?

14 MR LEUNG KIN WANG: Yes, it's correct.

15 MR DUNCAN: "According to the history, the four thresholds  
16 on the accident vehicle were defined by KMB and then  
17 calibrated by Openmatics latest at [24 July] 2017."

18 Is that correct?

19 MR LEUNG KIN WANG: I would like to add one point. Yes, for  
20 acceleration and deceleration, for tilting angle, it  
21 says 44 here, 44 degrees. We never had any defined  
22 threshold. We did not provide any value because we  
23 could not identify any reference values and it wasn't  
24 provided to ZF.

25 CHAIRMAN: Sorry, by KMB? By KMB? It wasn't provided by  
26

1 the company?

2 MR LEUNG KIN WANG: (In English) By KMB.

3 CHAIRMAN: Yes. Were you aware that this threshold had been  
4 inputted into the Tai Po bus, 44 degrees?

5 MR LEUNG KIN WANG: Yes, we are aware of that.

6 MR DUNCAN: Are you aware that Mr Kulis explained that that  
7 is really a default provision, which means there is no  
8 provision for a tilting parameter at all?

9 MR LEUNG KIN WANG: Yes, I understand.

10 CHAIRMAN: In effect, it disabled this function? Would that  
11 be fair?

12 MR LEUNG KIN WANG: Correct.

13 MR DUNCAN: The document continues to say:

14 "According to our best knowledge at the time of the  
15 accident, the thresholds were", and they are there set  
16 out; we can read them for ourselves.

17 CHAIRMAN: Perhaps, for the record, you would read them out  
18 for us, Mr Duncan.

19 If I can help, acceleration is set in metres per  
20 second, is it not, 1.15?

21 MR LEUNG KIN WANG: (In English) 1.15 metres per second  
22 squared.

23 CHAIRMAN: Squared, yes.

24 Deceleration set at 2.3 metres per second squared.

25 Speed, set at kilometres per hour, 75; is that

26

1 correct?

2 MR LEUNG KIN WANG: (In English) Yes.

3 CHAIRMAN: And there is a second threshold configuration,  
4 speed in areas.

5 MR LEUNG KIN WANG: (In English) Yes.

6 CHAIRMAN: As opposed to speed, and that is also set at 75?

7 MR LEUNG KIN WANG: (In English) That we are not aware of.

8 CHAIRMAN: I should say 75 kilometres per hour. But you are  
9 not aware of the second one?

10 MR LEUNG KIN WANG: (In English) No.

11 (Via interpreter) Correct.

12 CHAIRMAN: Thank you.

13 Mr Duncan.

14 MR DUNCAN: Then there's a configuration of idling values  
15 and engine values; do you see that?

16 CHAIRMAN: 3,000 revs per minute, isn't it?

17 MR LEUNG KIN WANG: (In English) Yes.

18 (Via interpreter) Yes.

19 MR DUNCAN: Were these the thresholds that existed not just  
20 in the bus which was involved in the Tai Po accident but  
21 on all Kowloon Motor Bus buses at that time?

22 MR LEUNG KIN WANG: (In English) Yes.

23 CHAIRMAN: And they will be defined by KMB and calibrated  
24 by Openmatics; is that correct?

25 MR LEUNG KIN WANG: (In English) Yes.

26

1 MR DUNCAN: Just dealing with the two matters pertaining to  
2 speed, if I understand things correctly, if any of the  
3 particular buses exceeded a speed of 75 kilometres per  
4 hour, the driver would experience a beeping sound and  
5 also a blinking light in the cabin; is that correct?

6 MR LEUNG KIN WANG: (In English) Correct.

7 MR DUNCAN: What about the situation if the bus was  
8 travelling at, say, 60 kilometres per hour in  
9 a 50 kilometre per hour speed limit zone? Would there  
10 be any sort of alert to the captain?

11 MR LEUNG KIN WANG: (In English) Not at the moment.

12 MR DUNCAN: Would it be desirable that such a system  
13 existed?

14 MR LEUNG KIN WANG: Yes, yes, absolutely.

15 MR DUNCAN: Could I in this respect take you to the evidence  
16 of Mr Kulis, at Day 6, volume 3, at page 150.

17 If I could bring your attention to line 7 on  
18 page 150, where Mr Chan has introduced the subject by  
19 saying:

20 "The next parameter under tilting angle is the  
21 configuration of excessive speed values.

22 In this screenshot we can see two parameters under  
23 that. One is speed and one is speed in areas, and [in]  
24 this case, both are set at 75 kilometres per hour.

25 Now, firstly, a more basic question. Just to see if  
26

1 my understanding is correct. So if the bus in this case  
2 exceeds 75 kilometres per hour, the threshold would be  
3 considered crossed; is that correct?"

4 Then at line 17, Mr Chan asked this question:

5 "What is the difference between these two  
6 parameters, speed and speed in areas?"

7 Perhaps you would be good enough to read to yourself  
8 what follows, from line 19 right through to page 155 at  
9 line 9. Just take your time to read that through,  
10 please.

11 Have you been able to read that through?

12 MR LEUNG KIN WANG: (In English) Yes.

13 MR DUNCAN: If I understand that evidence correctly,

14 Mr Kulis is suggesting two different ways whereby there  
15 may be the two different speed limits set up. Is that  
16 your own understanding?

17 MR LEUNG KIN WANG: (In English) Yes.

18 MR DUNCAN: Thank you. The first is what we can see on  
19 page 151. This is at line 2:

20 "... you need also to configure the areas in some  
21 other window, or enter some geo-fencing into the  
22 system."

23 And at line 7, Mr Chan's question:

24 "Obviously the bus, if you wish to take advantage of  
25 the speed in areas parameter, the system would have to  
26

1 know where the bus is to trigger that parameter."

2 Then it concludes at line 23, in that part:

3 "Of course they need to configure or in cooperation  
4 with us, we need together to configure the areas, we  
5 need to define results, the rules, then the system is  
6 capable."

7 So the commission has heard -- I'm not sure whether  
8 you are aware of this -- that Citybus engaged that  
9 system, where they have defined, I think, 25 areas and  
10 there is provision for feedback for those 25 areas. Are  
11 you aware of that?

12 MR LEUNG KIN WANG: (In English) Yes.

13 MR DUNCAN: So that's one.

14 The second one, in which I'm a little bit more  
15 interested, is the utilisation of the digital mapping.  
16 You can see, I think, mainly from page 154, from line 8,  
17 where Mr Chan poses this question to Mr Kulis:

18 "If I have a digital map that is able to show  
19 different speed limits on different roads, would I be  
20 able to use that combining with the system currently  
21 available here, to configure to set different speed  
22 thresholds depending on where the bus is on the digital  
23 map? Or is that not possible under the system?"

24 Mr Kulis responds:

25 "Definitely it is possible."  
26

1 And he then proceeds to give an explanation.

2 Now, as I understand it, there is available in

3 Hong Kong digital mapping of our roads; is that correct?

4 MR LEUNG KIN WANG: (In English) Yes.

5 MR DUNCAN: So given what you said a few moments ago, that

6 it would be desirable to have a system whereby speeds in

7 excess of 50 in a 50 zone would be detected, what is

8 your reaction to the possible implementation of either

9 of these two possible routes suggested by Mr Kulis?

10 MR LEUNG KIN WANG: We are glad to learn about this, and,

11 well, because of the IRC, we will be able to have access

12 to official digital maps.

13 The speed limit is an important matter, in respect

14 of different road sections. If the information is

15 incorrect, it would have grave consequences. So we have

16 been talking to different parties on how we may know the

17 speed limits in different locations, different areas, so

18 that when the vehicle reaches a certain location, we

19 will know that it is 70kmh or 50kmh as the limit,

20 because right now we can't tell one from the other, so

21 we set it at 70kmh.

22 If we know that in that particular location the

23 speed limit is 50kmh, then the alarm will be triggered.

24 We have conducted a test drive, by incorporating the

25 road speed limits into the black box, so that the road

26

1 speed limit is known by the system, and the test drive  
2 tells us that it's a possible solution.

3 We will explore on how this may be taken forward,  
4 and if it is tested to be feasible it will be  
5 incorporated into our fleet, so that when the speed  
6 limit, whether it's 50kmh or 70kmh, is exceeded,  
7 an alarm will be triggered. That would represent  
8 a great improvement over the current situation.

9 MR ROGER LEE: The map is important, because the speed limit  
10 can change from time to time. For example, if there is  
11 an accident or if there is a road excavation, the limit  
12 may be changed very quickly. So we need to have  
13 a so-called live map. We have just received the digital  
14 map and the Openmatics have helped us to incorporate  
15 that into the system. We have a vehicle fitted with  
16 this new system and we have conducted a test drive. So  
17 there will be real-time information provided to the bus  
18 captain that the limit has been exceeded.

19 But geo-fencing, it will take a lot more time,  
20 because that would have to do with the control over  
21 acceleration. We have one vehicle fitted out for that  
22 trial so far.

23 MR DUNCAN: Why did you say that "because of the IRC we  
24 would be able to have access to the digital maps"?

25 MR LEUNG KIN WANG: That's just my gut feeling. Maybe it's  
26

1 just a coincidence.

2 CHAIRMAN: Where did you get the digital map from?

3 MR LEUNG KIN WANG: (In English) From government.

4 CHAIRMAN: From which department of government?

5 MR LEUNG KIN WANG: (In English) Transport Department.

6 CHAIRMAN: Have you asked them before?

7 MR LEUNG KIN WANG: (In English) Not really.

8 CHAIRMAN: When did you ask them?

9 MR LEUNG KIN WANG: (In English) I didn't ask.

10 CHAIRMAN: How did you come by it, then?

11 MR LEUNG KIN WANG: (In English) I don't know. I just  
12 received a letter from them.

13 CHAIRMAN: So the Transport Department informed you that it  
14 was available?

15 MR LEUNG KIN WANG: (In English) That's correct.

16 CHAIRMAN: When was that?

17 MR LEUNG KIN WANG: (In English) In June, the letter dated  
18 June 7.

19 CHAIRMAN: June 7?

20 MR DUNCAN: So no information from the Transport Department  
21 prior to June of this year that digital mapping was  
22 available?

23 MR LEUNG KIN WANG: (In English) No.

24 CHAIRMAN: Would you be prepared to provide us with a copy  
25 of this letter?  
26

1 MR LEUNG KIN WANG: (In English) Yes.

2 CHAIRMAN: Thank you, in which case, let's have it copied  
3 now. Somebody can come and take the letter and  
4 physically copy it. It's not marked in any way, is it?  
5 We'll just photocopy it and we can return it to you.  
6 Yes, Mr Duncan.

7 MR DUNCAN: Thank you, Mr Chairman.

8 It would be fair to say, wouldn't it, that Kowloon  
9 Motor Bus vehicles put up far greater mileage on  
10 50 kilometre per hour roads than 70 kilometre per hour  
11 roads?

12 MR LEUNG KIN WANG: I can't answer this question because  
13 I need more data.

14 CHAIRMAN: You can take solace from the fact that Citybus  
15 were unable to answer that question as well, but we have  
16 maps with the speed limits of the roads of Hong Kong,  
17 and we've got them coloured, so we can tell at a glance  
18 that there are many more roads that are 50 kilometre per  
19 hour roads than 70 kilometre per hour roads.

20 MR LEUNG KIN WANG: (In English) I think it's about the  
21 roads that our buses run on.

22 CHAIRMAN: No, we understand that as well. We have that as  
23 well. We can put your bus routes on top. But broadly  
24 speaking, I'm sure you can answer the question: there  
25 are many more 50 kilometre per hour roads than the buses  
26

1 drive down than 70 kilometre per hour roads, are there  
2 not? If you still can't answer, please feel free to say  
3 so.

4 MR DUNCAN: Can I help you out: do Kowloon Motor Bus  
5 vehicles regularly travel on roads which have a speed  
6 limit of 50 kilometre per hour?

7 MR LEUNG KIN WANG: (In English) Yes, but you know, the  
8 number of trips that you go on that journey, on that  
9 road, may be different. You may have buses very  
10 frequently running on ... So, you know, I'm an engineer.  
11 I have to get the facts before I can tell you.

12 CHAIRMAN: I think perhaps you ought to be a politician.

13 MR DUNCAN: Can I just ask this before I leave the topic:  
14 what steps prior to the formation of the committee had  
15 KMB taken to explore whether it could have an alert  
16 system on buses which exceeded the 50 kilometre per hour  
17 speed limit?

18 MR LEUNG KIN WANG: When the speedometer reaches  
19 50 kilometres per hour, we once prompted the captain, we  
20 would not know which route the captain was on, we once  
21 reminded the captain that he reached 50 kilometres per  
22 hour. But since we could not identify the locations of  
23 the buses, we still wanted to prompt captains that they  
24 have exceeded 50 kilometres per hour when they are in  
25 urban areas, but in some cases, some bus captains might  
26

1 find these alerts unnecessary. So after pilot testing  
2 this approach for a short time, we discontinued the  
3 practice because we could not determine whether the bus  
4 was on a 50 kilometre zone or 70 kilometre zone.

5 CHAIRMAN: So, as I understand what you are saying, you  
6 tried a pilot test where you had an alert go off  
7 whenever you went over 50 kilometres per hour but that  
8 annoyed the bus drivers because presumably they were  
9 driving quite a lot of the time in 70 kilometre per hour  
10 areas and you gave up?

11 MR LEUNG KIN WANG: (In English) Yes, Correct.

12 CHAIRMAN: When was that?

13 MR LEUNG KIN WANG: (In English) Some years back. I can't  
14 remember.

15 (Via interpreter) So this was not from the  
16 telematics system or the black box.

17 CHAIRMAN: This was from the speedometer?

18 MR LEUNG KIN WANG: (In English) That's right, yes.

19 CHAIRMAN: We are going to take a short break at some stage  
20 in the afternoon because it's a long time for everybody,  
21 to stretch your legs and have a drink. If this is  
22 convenient, please say so. If you want to finish  
23 a topic, say so.

24 MR DUNCAN: Just one question, Chairman, if I may.

25 The system was purchased from Openmatics in 2013,  
26

1 I think.

2 MR LEUNG KIN WANG: (In English) Correct.

3 MR DUNCAN: And it would have been at that time that the  
4 parameter of 75 kilometres per hour would have been  
5 installed into the system.

6 MR LEUNG KIN WANG: KMB established this value and they  
7 informed Openmatics.

8 MR DUNCAN: So, between 2013 and the time the committee was  
9 formed, did you look into the possibility of this system  
10 capturing speeds in excess of the 50 kilometre speed  
11 limit, with the help of the GPS system? Did you  
12 investigate that at all during that period?

13 MR LEUNG KIN WANG: I am not sure, but I believe that we  
14 once discussed this issue with the manufacturer.

15 MR DUNCAN: Can you give us any idea as to when that was?

16 MR LEUNG KIN WANG: (In English) Not that I can recall.

17 CHAIRMAN: Can you recall who was involved from the company  
18 side of things?

19 MR LEUNG KIN WANG: (In English) I can't recall.

20 CHAIRMAN: Mr Duncan, we will take a break now. We will  
21 take 15 minutes. Thank you.

22 (3.53 pm)

23 (A short adjournment)

24 (4.08 pm)

25 CHAIRMAN: Yes, Mr Duncan.

26

1 MR DUNCAN: Thank you, Mr Chairman.

2 Gentlemen, would you please have in front of you the  
3 transcripts bundle for Day 11, that will be  
4 bundle number 4, and I'd like you to turn up, please,  
5 page 73 of that transcript.

6 If I could pick it up, please, at line 14, where  
7 Ms Maggie Wong, counsel for the committee, is asking  
8 questions of Mr Kelvin Yeung. I think, gentlemen, you  
9 will recognise Mr Kelvin Yeung as being a current  
10 employee of the company. Is that correct?

11 MR ROGER LEE: (In English) Yes.

12 MR DUNCAN: So at line 14, Ms Wong poses this question:

13 "We have heard also from Mr Alok Jain's evidence  
14 that during one of the meetings, they explored the idea  
15 of having a score card system for drivers, and one of  
16 the systems that was explored is the GreenRoad.com  
17 system. And what it does is it gives an analysis of the  
18 driver's driving behaviour, and it would fall into three  
19 different categories, like red, amber and green."

20 Then if we could jump, please, to page 75, at  
21 line 8, where we have Mr Kelvin Yeung saying:

22 "This system should have been deployed. I'm not  
23 very sure about the name mentioned by Mr Alok, but from  
24 what you described, it is very similar to one of our  
25 current systems."

26

1 The chairman then asks:

2 "What is that system?"

3 Mr Kelvin Yeung then gives this answer:

4 "As I said, there would be beeps and lights emitted,  
5 and lights of three colours would be shown depending on  
6 driving behaviour. And these lights would go on when  
7 the bus captain beeped the Octopus card at the terminal,  
8 the time of the next bus would be shown, and lights of  
9 three colours would be shown to represent the  
10 performance of the captain. Green is the best, yellow,  
11 and red means something to be improved. And this system  
12 is still in use."

13 The chairman asked the question:

14 "So when the bus captain comes off duty and he taps  
15 his Octopus card, where is this information displayed  
16 for him?"

17 Mr Kelvin Yeung replies:

18 "It would only be displayed the first time a bus  
19 captain beeps his Octopus card in the morning. I'm not  
20 sure whether it would show the records for the previous  
21 days, but what I'm sure is that the records for the same  
22 day would not be shown. So no information is displayed  
23 during sign-off.

24 Chairman: Are you saying the information is  
25 displayed at the time of sign-on?

26

1           Mr Kelvin Yeung: Yes, information is displayed  
2           during sign-on.

3           Chairman: And the information relates to what time  
4           period?

5           Mr Kelvin Yeung: I would have to check the period  
6           concerned. But this is not same-day information. It  
7           refers to a past period, but as for the range of that  
8           period, I have no such information on hand.

9           Chairman: And where is the display? Where does the  
10          bus captain see this?

11          Mr Kelvin Yeung: At each bus terminal there would  
12          be a computer. When a captain returns to the terminal  
13          he would have to beep his staff card to obtain such  
14          information. The computer would be located outside the  
15          kiosk at each terminal facing the bus captains?

16          Chairman: And the computer screen depicts what?

17          Mr Kelvin Yeung: One of the three colours would be  
18          displayed to the captain, red, amber and green."

19          So having taken you through that, my question is: do  
20          you confirm that this green/Yellow/red system currently  
21          exists?

22          MR LEUNG KIN WANG: (In English) Yes.

23          MR DUNCAN: Could you describe, please, what the basis of  
24          this scheme is, how it works?

25          MR LEUNG KIN WANG: It's an appraisal system of the bus  
26

1 captain's performance. It gives you -- it's based on  
2 some scores. Four things are assessed under this  
3 system. First, excessive idling, that is prolonged  
4 idling; second, harsh braking; thirdly, sudden  
5 acceleration; finally, speeding.

6 For these four conditions, each bus captain has to  
7 engage in multiple trips per day, so these four criteria  
8 would be assessed over the week, to assess the captain's  
9 performance. For the criteria I mentioned, we have  
10 certain standards. If a captain performs well, the bus  
11 would operate more smoothly and passengers would be more  
12 comfortable and the fuel consumption of that bus would  
13 be more satisfactory and the bus would be greener. In  
14 other words, the driving experience would be equal to  
15 safe.

16 According to the assessed scores, the best captains  
17 would be given green, and there would also be an amber  
18 class and red class. So there are three classes. So  
19 scores would be given on a weekly basis. When bus  
20 captains report duty at termini, when they sign in,  
21 their scores for the seven days preceding the period ten  
22 days ago would be displayed. Red and amber performance  
23 classes would not be shown, but there would be reminders  
24 displayed to the captain.

25 For the screens at the termini, they might be  
26

1           visible to other people sometimes. In other words,  
2           certain information is displayed to the captains. When  
3           a bus captain accesses our staff site, he can check his  
4           scores for the past eight weeks. So, when they report  
5           duty at the bus terminus, the screen would show their  
6           score, and as for details, the bus captain can check the  
7           information on the staff website. This way, the bus  
8           captains can know more about their driving performance  
9           and they can seek to make improvements as appropriate.

10           So this is the purpose of our design. It was  
11           launched in November 2015.

12       MR DUNCAN: So it's there for the benefit of the bus  
13           captain, primarily?

14       MR LEUNG KIN WANG: (In English) Yes, and for the benefit of  
15           the company and the passengers as well.

16       MR DUNCAN: On what data is the classification of red, amber  
17           or green based?

18       MR LEUNG KIN WANG: I have no data on hand on how the colour  
19           is classified, but most of the time it's green; there is  
20           a formula.

21       MR ROGER LEE: (Chinese words not interpreted).

22       MR LEUNG KIN WANG: (In English) Sorry, I misunderstood.

23           I repeat --

24           (Via interpreter) There are four categories  
25           including excessive idling.

1 CHAIRMAN: There is no need to repeat the categories; you  
2 were very clear about that. Perhaps Mr Duncan's  
3 question is this. What is the threshold that is set for  
4 these four categories?

5 MR LEUNG KIN WANG: There are two thresholds, one for  
6 excessive idling, no more than 15 minutes. No more than  
7 15 minutes. For harsh braking, the threshold is based  
8 on the black box setting. For sudden acceleration, it  
9 follows the black box setting. For speeding, again it  
10 follows the black box setting. In other words, for  
11 speeding, the threshold is 70; for sudden acceleration,  
12 4 kilometres per hour per second.

13 MR DUNCAN: It seems that the information is communicated to  
14 the driver when he signs on for the day; is that  
15 correct?

16 MR LEUNG KIN WANG: For each journey or trip, at the start  
17 and end of the journey, the captain would tap his card  
18 at the terminus. So every day the information is  
19 displayed twice to the captain. If the information is  
20 displayed all the time, the captain might feel annoyed,  
21 so twice a day the score of the captain would be  
22 displayed.

23 MR DUNCAN: Is he tapping on the screen with his card, is  
24 that how it works, or does he insert a card or  
25 something?

26

1 MR LEUNG KIN WANG: When the card is tapped, the information  
2 is shown on the screen.

3 MR DUNCAN: Does the classification of red, amber or green  
4 have any impact with regard to the sorts of awards we  
5 were discussing this morning?

6 MR LEUNG KIN WANG: (In English) No.

7 (Via interpreter) No. It was only true at the  
8 beginning phase, for a short period of time. So,  
9 basically, the system serves to inform the captains of  
10 their performance so they can improve their driving  
11 techniques.

12 CHAIRMAN: Can I ask you to help me further about the  
13 criteria that apply. You've told us about the four  
14 categories. You have given us the thresholds. What if  
15 one was to have one speeding in excess: does that stop  
16 you having a green score? Or what if it was one  
17 excessive acceleration? How does this work?

18 MR LEUNG KIN WANG: (In English) There's a formula for that.

19 CHAIRMAN: Are you prepared to tell us what the formula is?  
20 Do you know what the formula is?

21 MR LEUNG KIN WANG: (In English) There's a formula for that.

22 (Via interpreter) Can we share that with you later?

23 CHAIRMAN: Certainly. No doubt the formula is rendered into  
24 writing. Is it something that is on the staff website  
25 so that the bus captains also know what the formula is?

26

1 MR LEUNG KIN WANG: On the website, bus captains can see  
2 their own performances, so only green, amber or red  
3 would be displayed, and there are four categories being  
4 displayed. So the captain would see the colour for the  
5 respective category. The actual scores would not be  
6 displayed but only the colours.

7 But if the bus captain is in the red, we would  
8 remind them to be gentle when they accelerate or brake,  
9 they should also minimise idling time, et cetera. So we  
10 would remind them of the respective improvements needed.

11 CHAIRMAN: Please provide this formula. Thank you.

12 Mr Duncan.

13 MR DUNCAN: Is there a circular or a document of some sort  
14 which explains to the drivers what the purpose of this  
15 scheme is and how it works?

16 MR LEUNG KIN WANG: Yes. We issued notices and posters.

17 MR DUNCAN: Would you be able to provide some samples of  
18 those as well, please?

19 MR LEUNG KIN WANG: (In English) Okay. Yes.

20 MR DUNCAN: Have you received any feedback from the drivers  
21 or from the unions as to how they regard this particular  
22 score card system?

23 MR LEUNG KIN WANG: No formal feedbacks were given, but from  
24 communication with captains we were aware of their  
25 feedbacks. They also knew that this is not an award  
26

1           scheme. This is an exercise to inform captains of their  
2           driving performances.

3       MR DUNCAN: What proportion of captains would consistently  
4           get a green rating?

5       MR LEUNG KIN WANG: According to preliminary figures, most  
6           captains would receive a green rating. The  
7           percentage -- about 1 per cent of the captains would get  
8           a yellow and few captains would get a red.

9       MR DUNCAN: Hardly any would get a red if only 1 per cent  
10          get yellow; would that follow?

11      MR LEUNG KIN WANG: For example, for the week of 15 to  
12          22 July, there were nearly 90,000 records of green, or  
13          rather 69,000, 69,824 cases of green, 800-plus cases of  
14          amber, and eight cases of red. For the week before  
15          that, from 8 July to 14 July 2018, 61,010 cases of  
16          green; for amber, 768 cases; for red, two cases.

17      MR DUNCAN: If I could take, perhaps, a relatively extreme  
18          example: what about a driver who had been constantly  
19          speeding in a 50 kilometre speed zone but travelling  
20          less than 70 kilometres per hour, and driving into  
21          roundabouts with the bus tilted? Under this scheme, he  
22          would still command a green rating, would he not?

23      MR LEUNG KIN WANG: We do not know what the location is or  
24          whether the bus captain is in a 50 kilometre zone, so it  
25          cannot be determined. So only speed is displayed.

26

1 MR DUNCAN: So he'd end up a green?

2 MR LEUNG KIN WANG: (In English Yes.

3 MR DUNCAN: Do you have any feedback as to whether the  
4 drivers really take any notice of this scheme?

5 MR LEUNG KIN WANG: This is only one of the ways to tell how  
6 captains drive. There are four other criteria,  
7 including excessive idling, harsh braking, sudden  
8 acceleration and speeding. We can see other reports.  
9 This is just a colour classification of red, amber and  
10 green, to inform captains, but we have other reports in  
11 place to assess drivers.

12 So for certain captains on red, we would know about  
13 the details, and if they speed in a 50 kilometre zone we  
14 can deal with it through other reports. So the  
15 management would look at the situation.

16 There are officers responsible for monitoring their  
17 performance. This green/amber/red system is  
18 a straightforward system to inform the captains of their  
19 performance, just one of them.

20 CHAIRMAN: Mr Duncan's question was not what notice you take  
21 about how drivers drive; it was whether they take any  
22 notice of this green/amber/red system.

23 MR LEUNG KIN WANG: Every day, when they tap their card,  
24 they have two opportunities to be informed of their  
25 performance, and they can also see their own performance  
26

1 through the website. So the captain is aware of the  
2 grade that they have got.

3 MR ROGER LEE: It's just provided as a reminder, a gentle  
4 reminder, but it is very individual. Bus captains have  
5 individualistic driving behaviour. We are just telling  
6 them the basic information so that they at least know  
7 how they are assessed, how their performance is  
8 assessed. Of course, we can provide more information,  
9 as the next step. We can provide more detailed  
10 information in the future. We also have plain-clothed  
11 inspectors and also complaint investigation. This is  
12 something designed to give space for self-improvement by  
13 captains.

14 CHAIRMAN: Mr Duncan.

15 MR DUNCAN: Does it function effectively, efficiently?

16 I mean, does it work in a technical sense? Are there  
17 any problems with it?

18 MR LEUNG KIN WANG: It can be better. If the data are more  
19 real-time in nature and if it can more accurately  
20 reflect the driving behaviour. As this example given  
21 suggests, if he is speeding in a 50kmh road section, the  
22 system won't be able to tell. And if there's a digital  
23 map to indicate that the driver is speeding in a road  
24 section with 50kmh as the speed limit, the scores will  
25 be very different.

26

1           At present, that's the best we can do with the  
2           current system, but if there's a better way to reflect  
3           the actual situation, we will certainly strive to make  
4           improvement along that line.

5       MR DUNCAN: My question was more related to accepting the  
6           current system. Does it work efficiently, in the sense  
7           the drivers know the system works and they utilise the  
8           system and if they tap their card it actually works? So  
9           in a practical sense does it work efficiently?

10       MR LEUNG KIN WANG: (In English) Yes.

11       MR DUNCAN: I ask that because of what appears in  
12           a miscellaneous bundle, number 3, at page 899. Could  
13           you turn that up, please.

14       CHAIRMAN: I think it's to be found in miscellaneous  
15           bundle 2, still. At least it is in my version.

16       MR DUNCAN: Page 899.

17           You probably have not seen this document, gentlemen,  
18           so I will take you through the relevant parts in  
19           a moment, but I think Mr Lee at least will be aware that  
20           the chairman and members of the secretariat of the  
21           committee visited a number of the termini and depots  
22           last Friday, 3 August, and if I can explain, these are  
23           the notes that were drawn up after the meeting and after  
24           the visit.

25           The first one which is documented on page 899 is  
26

1 a visit to the Sha Tin New Town Plaza terminus, and I'm  
2 interested in the last entry on that page. Perhaps  
3 I should start off with the reference under "Photos are  
4 at annex A". There's a reference during the visit the  
5 committee also talked to three bus captains and learned  
6 certain things. So there was a discussion between the  
7 committee and three of the bus captains.

8 Then resuming at the last dash on the page:

9 "The same bus captain subsequently demonstrated [to  
10 the committee] the use of the October/staff card  
11 terminal at the bus regulator's office."

12 Then there's a reference to what Mr Kelvin Yeung had  
13 said at the hearing; we have just been through. If  
14 I could pick it up in the second-last line of the page:

15 "The bus captain having tapped his Octopus staff  
16 card ... the computer screen displayed a white screen  
17 with a message in blue-coloured letters, reminding the  
18 captain to drive carefully within the rainy conditions  
19 of the day. The screen then showed the details of the  
20 next bus trip that the bus captain was assigned to  
21 drive. No colour-coded messages, boxes or screens were  
22 noted. When asked about whether [the captain saw]  
23 colour-coded messages displayed on the screen when he  
24 first reported for duty that day, the captain gave  
25 a negative response".  
26

1           So we have that report. Then if I could take you to  
2           page 902, which refers to the visit to the Luen Wo Hui  
3           bus terminus, and the last entry, the captain was also  
4           asked about the colour-coded boxes or screens, and the  
5           answer was also negative. The committee observed "that  
6           when a bus captain tapped his Octopus/staff card at the  
7           bus regulator's office, the same white screen with  
8           a reminder message in blue-coloured letters, followed by  
9           details of the driving duties of the bus captain was  
10          displayed."

11          Then item (E), the Tuen Mun depot, page 903, the  
12          reference halfway down there, during the visit the  
13          committee also talked to a bus captain resting in the  
14          sleeping room and learned from the KMB staff present at  
15          the depot that, and it's the second bullet, that the bus  
16          captain was aware of the colour-coded messages, boxes or  
17          screens and he described it as a monitoring mechanism on  
18          whether the bus captain had practised eco-driving. He  
19          was aware that green colour generally signalled  
20          everything was fine, amber meant that a captain would  
21          need to improve, while red generally depicted problems  
22          with the bus captain.

23          Then finally, the Shan King bus terminus, page 904.  
24          We have reference to the committee talking to three bus  
25          captains at the terminus and learning from the bus  
26

1 regulator and the bus captain that, and the third bullet  
2 down, the other two bus captains were invited to show  
3 the effect of tapping their Octopus/staff card at the  
4 bus regulator's office when reporting for duty. The  
5 same white screen with a reminder message in  
6 blue-coloured letters, followed by details of the  
7 driving duties of the bus captain was noted. No  
8 colour-coded messages, boxes or screens were noted.  
9 When one of the bus captains was asked whether there was  
10 a screen which refers to their Octopus/staff card on the  
11 day of the visit, the bus captain replied that she could  
12 not remember as she did not really care about the  
13 screen.

14 I appreciate of course that you weren't present and  
15 it's not fair to ask you to comment on that, but are you  
16 able to offer anything with regard to the screens  
17 apparently being tapped but then simply reminding the  
18 captain to drive carefully and showing details of the  
19 next trip, but apparently not showing the green, amber  
20 or red? Are you able to comment on that at all?

21 MR LEUNG KIN WANG: Well, there may be a reminder of the  
22 rainy conditions on that day. Yes, that's a reminder.

23 The amber message is not displayed every time. We  
24 don't want to give too many reminders, especially when  
25 they have to make frequent trips and they will have just  
26

1           spent a little bit of time at the terminus, and then the  
2           message is not shown on that occasion. But I cannot  
3           rule out technical problems of individual terminus. We  
4           have to look into whether there is any technical hiccup,  
5           and also whether, in terms of publicity, some bus  
6           captains are not really fully aware of this three-colour  
7           message system. We may have to do more. But we still  
8           think that this is a good way to tell bus captains how  
9           they have performed.

10           As for how we calculate the scores and whether the  
11           scores should be fine-tuned to more accurately reflect  
12           the performance, I think we should have to work harder  
13           on that.

14       MR DUNCAN: Are you able to tell us when the bus drivers  
15           were last informed about the significance and purpose of  
16           the system?

17       MR LEUNG KIN WANG: I can't tell.

18       MR DUNCAN: I think you have indicated to the committee that  
19           you will make some documents available with regard to  
20           the formula and also the description of the scheme for  
21           the staff.

22       MR LEUNG KIN WANG: (In English) Yes.

23       MR DUNCAN: Thank you.

24           I move now to the last of the aspects of the black  
25           box that I wanted to ask questions about. That is the  
26

1 use that's made of the data captured by the black box in  
2 order to facilitate the monitoring and the assessment of  
3 the driving behaviour.

4 We have seen already that one of the functions of  
5 the black box is to capture the speed of the bus. I'm  
6 going to ask you, please, to look at the second  
7 submission to the committee, again, of the company, this  
8 time at page 167.

9 There are two reasonably long questions asked at the  
10 top of page 167. I don't believe I need to go through  
11 those, but what I would simply do is bring your  
12 attention to the second paragraph of the response. It  
13 is stated as follows:

14 "There is a dedicated computer programme in  
15 generating suspected speeding cases for the officers to  
16 check and verify. After examination, confirmed speeding  
17 cases will then be forwarded to performance managers of  
18 bus captain performance management section for taking  
19 further action."

20 If I could then ask you to turn to page 170, please.  
21 The committee has there asked, at the top of the page,  
22 the company to "provide some copy samples of the data  
23 obtained illustrating driving at inappropriate speeds  
24 and/or speeds in excess of the speed limit at particular  
25 locations", and amongst the answers, the first bullet,  
26

1 the response is that:

2 "A sample of the data retrieved from black boxes (in  
3 the form of a report known as BOP 207) is annexed ...,  
4 which shows speeding cases (personal data withheld). It  
5 shows the date, time, bus registration number, route  
6 number, and concerned [bus captain's] information."

7 We will find that annex at KMB-9 at page 3993.

8 There is a translation at page 3995-1. I have a couple  
9 of questions with regard to this report, please. If you  
10 look at the very first row, there's an entry towards the  
11 right-hand side of the document which has the duration,  
12 it says in seconds, and a maximum speed of 67.9, which  
13 I assume is kilometres per hour. Would that be correct?

14 MR JAMES WONG: Yes, I can read.

15 MR DUNCAN: Thank you. So is a correct reading of that that  
16 a bus was found to be travelling over 67.9 over the  
17 whole 32 seconds; under 67.9, about 67.9? What exactly  
18 is it that that chart tells you?

19 MR JAMES WONG: According to the table, for this bus TW5352,  
20 on 1 May 2018, 0000 hours, 00:00, and the time 20:07, at  
21 this time, for the duration of 32 seconds, the maximum  
22 speed was 67.9 kilometres per hour.

23 MR DUNCAN: Throughout that period it was 67.9?

24 MR JAMES WONG: In the duration of 32 seconds, that was the  
25 speed.

26

1 MR DUNCAN: Throughout the 32 seconds?

2 MR ROGER LEE: (Chinese words not interpreted).

3 MR JAMES WONG: In the 32 seconds, the maximum speed  
4 occurred was 67.9.

5 CHAIRMAN: But why choose 32 seconds? Why not choose 90  
6 seconds or 10 seconds?

7 MR JAMES WONG: The black box display would be updated every  
8 second. Once a vehicle reaches a particular speed, the  
9 black box would show the maximum speed of the bus within  
10 a certain duration.

11 CHAIRMAN: What I'm trying to understand is why 32.

12 MR LEUNG KIN WANG: This is an exception report and there  
13 are certain settings. When a certain setting is  
14 exceeded, information would be displayed. In other  
15 words, for a duration of 32 seconds, the setting was  
16 exceeded, but the maximum speed was 67.9. So over this  
17 period of 32 seconds, our pre-set setting was exceeded.  
18 So apparently this is a 50 kilometre per hour zone.

19 If this is a 70 kilometre zone, this entry should  
20 not exist. So for a duration of 32 seconds the bus  
21 exceeded the limit for this speed zone and the maximum  
22 speed was 67.9.

23 CHAIRMAN: Thank you.

24 MR DUNCAN: So is the duration pre-set?

25 MR LEUNG KIN WANG: No. It would depend on the duration in  
26

1           which the bus exceeded the threshold. It depends on the  
2           duration within the bus trip. It is an accumulative  
3           value. It is not a continuous duration. It refers to  
4           the total duration of all the trips that day, and this  
5           shows the number of seconds in which the bus had  
6           exceeded our threshold.

7       MR ROGER LEE: For this example, the area is a 50 kilometre  
8           per hour zone, so for a duration of 32 seconds the bus  
9           exceeded the speed limit of 50 and within the 32 seconds  
10          the bus once reached 67.9. So, in other words, during  
11          the 32 seconds, the speed of the bus exceeded 50 but the  
12          maximum speed was 67.9.

13       CHAIRMAN: Am I correct in understanding that an exception  
14           report would not be generated unless you exceeded the  
15           speed limit for more than 10 seconds?

16           We can all do the exercise of doing down to find if  
17           there are any single digits, but this is a matter of  
18           principle. Is that a correct understanding, that  
19           an exception requires a continuous excess of speed limit  
20           of 10 seconds or more?

21       MR JAMES WONG: I will answer this question. In a computer  
22           programme, we will set certain thresholds, and when  
23           a bus reaches certain speed it will be displayed.

24           I would like to share some figures.

25       CHAIRMAN: Can you try answering the question? Is that  
26

1 a wrong understanding? If so, just say, yes, it's  
2 wrong.

3 MR JAMES WONG: It's not 10 seconds.

4 CHAIRMAN: What is it?

5 MR JAMES WONG: That's why I would like to tell you about  
6 the situation for different durations --

7 CHAIRMAN: Why not try answering the question directly first  
8 and then give an explanation. What is the threshold?

9 MR JAMES WONG: Between 56 and 65 kilometres per hour an  
10 entry will show up if the duration is more than 30  
11 seconds. This is on roads with a speed limit of 50.

12 And between 66 to 70 kilometres per hour, in  
13 a 50 kilometre zone, if the duration is more than 15  
14 seconds, it will show up on the computer screen.

15 CHAIRMAN: Why is this information not in the thousands of  
16 pages that you have provided us in these reports? Why  
17 do we have to ask these questions in an oral hearing?  
18 It's perfectly clear what the committee were seeking  
19 when we asked these open-ended questions.

20 Carry on with your explanation, if you would be kind  
21 enough.

22 MR JAMES WONG: In 50 kilometre roads, for speeds from 76 to  
23 79 kilometres per hour, information would be displayed  
24 if the duration lasts more than two seconds. This is  
25 for areas with a 50 kilometre speed limit.

26

1 CHAIRMAN: That's most helpful. Is there a similar pattern  
2 with speed limits of 70 kilometres per hour?

3 MR JAMES WONG: At 70 kilometre speed zones, if the speed is  
4 between 76 to 79kph and the duration is more than 30  
5 seconds, the occurrence would show up on the screen.

6 MR LEUNG KIN WANG: If it's over 80, two seconds would be  
7 the threshold.

8 CHAIRMAN: Thank you.

9 Yes, Mr Duncan.

10 MR DUNCAN: Let us go back, please, to KMB-1 at 168.

11 In the first bullet answer that you've given the  
12 committee -- this is the second submission of the  
13 company -- you have stated that:

14 "By means of a computer programme, black boxes will  
15 ... capture records of speeding ... malpractice of harsh  
16 braking, and/or ... abrupt acceleration for analysis.  
17 Further information ... corresponding bus registration  
18 numbers and route numbers, can be retrieved with the  
19 assistance of other systems", which are then described.  
20 "It takes about 10 days to retrieve such data for  
21 analysis, where necessary, further disciplinary actions  
22 will be taken."

23 Why does it take as long as 10 days to retrieve what  
24 might be quite significant data?

25 MR LEUNG KIN WANG: It's four days now. Four days is still  
26

1 too long. We would like to make it faster. The data in  
2 the server will be the black box number, the bus number,  
3 the data, from second to second the location, where  
4 there is speeding, harsh braking, abrupt acceleration.  
5 These are the data, but we have to relay the data to  
6 individual bus captains. For that, we will rely on  
7 a lot of information, including TER, terminus management  
8 system.

9 For this TER, terminus management system, it  
10 requires the sign-on or sign-in of bus captains, when  
11 the bus captain starts the journey, the bus number, the  
12 route number, and at the end of the trip the bus captain  
13 will sign off. So the system knows when the journey  
14 starts, when it ends, and the system would capture the  
15 information of the bus captain, the information of the  
16 bus and of the journey.

17 For this system, TER, it captures such data on  
18 a daily basis with more than 200 termini, and all of the  
19 information would then be transmitted to the server, to  
20 our servers. There are also data on the bus on-board  
21 system. We need to provide the interface between the  
22 systems so that we can tell the bus driven by  
23 a particular bus captain, the relevant locations and the  
24 performance.

25 Then we need to do more processing, to know which  
26

1           zones are 50kmh road sections. So we need to have the  
2           FMI, the fleet management information system, which can  
3           tell the journey, the locations, and which road sections  
4           are 50kmh and which are 70kmh. So we need to know the  
5           route, the bus captain, the data of the journey, and so  
6           on. That's why it's complicated.

7           So if we have a digital map and everything is stored  
8           in the black box, we can do it much more quickly, and we  
9           will be able to produce the same report in one day.

10          CHAIRMAN: This technology has been available for a long  
11          time, has it not?

12          MR LEUNG KIN WANG: (In English) Yes, I know.

13          CHAIRMAN: You can answer "yes" or "no" and then you can  
14          explain.

15          MR LEUNG KIN WANG: (In English) Yes. Yes, I know.

16          CHAIRMAN: If you want to explain, the obvious next question  
17          is: why haven't you done it before?

18          MR LEUNG KIN WANG: I have tried to look into the same  
19          issue. I have asked the same questions. I would say we  
20          will do whatever we can as an operator, and the  
21          resources available to us, the influence that we can  
22          exert, and we hope this will present an opportunity,  
23          this time, so that we can make things move more quickly.

24          CHAIRMAN: Thank you.

25          MR DUNCAN: At the committee's request, you have provided  
26

1 the data which we see in the form of the table in  
2 respect of excessive speed. Are you able to provide  
3 a report which has reflected instances of harsh braking  
4 or excessive acceleration?

5 MR LEUNG KIN WANG: We have a weekly report on these  
6 conditions. This weekly report will look back at the  
7 past week in respect of a bus captain and how many  
8 seconds of exceedance in those three areas: harsh  
9 braking, sudden acceleration and speeding. We have  
10 a weekly report to reflect these matters.

11 When these weekly reports are generated, relevant  
12 departments in my company would take follow-up action.  
13 Sometimes, harsh braking and sudden acceleration are  
14 unavoidable because of road conditions, and it may not  
15 reflect a problem on the part of the bus captain because  
16 the road conditions can change suddenly, you have  
17 pedestrians crossing, suddenly there are other vehicles,  
18 and we understand the tremendous pressure faced by bus  
19 captains and sometimes they may make some undesirable or  
20 unsatisfactory moves, but we need to tell them what they  
21 have done. Sometimes, our colleagues would arrange  
22 an interview or would talk to the bus captain over the  
23 phone, and if necessary we would have to send some  
24 plain-clothed officers to do some on-spot inspection.

25 Otherwise, we cannot really tell whether it's  
26

1 a problem of bad or poor performance.

2 MR JAMES WONG: Maybe I can supplement. This morning, when  
3 we talk about the black box, we said there are four  
4 lights to provide the feedback to the bus captain --  
5 I won't repeat the details -- which will provide  
6 an instantaneous reminder to the bus captain so the  
7 performance can be rectified, and also there is the  
8 three-colour system, when the bus captain taps his  
9 Octopus card, when he signs on, all these messages are  
10 meant to remind the bus captain of the need to improve,  
11 if appropriate. And on top, there's the weekly report  
12 which would record the speeding, acceleration and  
13 deceleration data.

14 And the data in the past kept are not as detailed  
15 here. We only got accumulative data. There's  
16 a performance management group under my department, and  
17 they would inform the operation, the depot, not to issue  
18 warning but to remind bus captains that certain speeding  
19 episodes have been recorded, so that they would improve.

20 As for the harsh braking or sudden acceleration, we  
21 would send plain-clothed driving instructors to check on  
22 the bus. They will observe how the bus captain drives,  
23 so whether it's unsafe driving, as reflected by the  
24 data, and then the inspector or the instructor would  
25 report back to us so that we can take appropriate

26

1 action.

2 CHAIRMAN: Mr Leung, can I bring you back to the question

3 Mr Duncan asked some minutes ago now: are you able to

4 provide the committee with a report that evidences harsh

5 braking or harsh acceleration? We've got one on the

6 screen which enables us to understand, now it's been

7 explained to us, how you look at speeding. Are you able

8 to give us a similar document that deals with harsh

9 braking and acceleration?

10 MR LEUNG KIN WANG: (In English) Yes.

11 CHAIRMAN: Would you please provide us with that?

12 MR LEUNG KIN WANG: (Nodded head).

13 CHAIRMAN: Thank you very much.

14 MR DUNCAN: I'm now going to ask you to look again at the

15 transcript, please. Day 6.

16 CHAIRMAN: Whose evidence is this, Mr Duncan?

17 MR DUNCAN: This is the evidence of Mr Kulis, Mr Chairman.

18 CHAIRMAN: Thank you.

19 MR DUNCAN: At page 161.

20 CHAIRMAN: Of which bundle?

21 MR DUNCAN: This would be bundle number 3, Mr Chairman.

22 CHAIRMAN: Thank you.

23 MR DUNCAN: I mentioned earlier on the concept of a score

24 card for the drivers' driving behaviour, the bus

25 captains' driving behaviour, and I just want to ask

26

1 a few questions of you in relation to this part of  
2 Mr Kulis' evidence.

3 If I could pick it up, please, on page 160, at line  
4 22. Mr Chan says:

5 "The next item that I'm interested in, or I am going  
6 to ask questions on, is the ability or the capability of  
7 using software analysis to provide a report on  
8 acceptable or unacceptable, safe or unsafe driving  
9 behaviour."

10 And he asks this question:

11 "Does your company provide the software that is  
12 capable of assessing, based on the data collected by the  
13 black box, capable of assessing or coming up with  
14 a report of what is acceptable or unacceptable driving  
15 behaviour? Is that possible?"

16 And he says, "Yes, it is possible."

17 Mr Chan asks:

18 "How is that possible ... If I'm a bus operator and  
19 I come to you and say I want something that allows me to  
20 generate a report of a particular driver? How would you  
21 tell me that can be done, how can that be done?"

22 Mr Kulis: In that case, I will introduce you to our  
23 application driver feedback, together with the portal  
24 parts, together with the software solution which we are  
25 providing, so then you can regard the parameters as we  
26

1        were talking about, then, and you can get also the  
2        statistics, so then at the end of the day, or some  
3        period, you can make your own analysis, for example,  
4        which driver have most warnings, thresholds, speeding  
5        events, and so on.

6                This is one option.

7                And then we can also design the solution for you, if  
8        you are not satisfied with the driver feedback only, if  
9        you want to have more sophisticated calculations, we can  
10       log the driving data, the parameters, into the database  
11       and make the analysis relevant for you. If you are more  
12       focused on different inputs, maybe some other parameter  
13       is concerning you, we can make analysis and score it on  
14       that.

15               It depends how you feel the logic. If you want to  
16       calculate the bonus points and evaluate the best driver,  
17       or if you want to introduce, let's say, the negative  
18       restriction, it is just check they are better drivers,  
19       or better behaviour, and so on. There are multiple ways  
20       to achieve it.

21               Also depends what the drivers are open for, or the  
22       unions, it can have more solutions.

23               Mr Derek Chan: So it is just the software  
24       capabilities. Because the hardware itself is just the  
25       data collected by the black boxes. Is my understanding  
26

1 correct? I don't need to buy new equipment? In order  
2 to come up with such a score card of a driver's  
3 behaviour?

4 Mr Kulis: No, you don't need new equipment. If,  
5 for example, now you are the customer, and you already  
6 have our boxes we can just talk about new possibilities  
7 and we can give you the new software and you will use  
8 the same hardware for that.

9 Mr Derek Chan: In your experience, how common is it  
10 around the world in commercial fleet management for the  
11 operator to use software to come up with a score card of  
12 the driver's driving behaviour? How common is it around  
13 the world?

14 Mr Kulis: It is -- based on my experience it is  
15 relatively common in the West European countries. On  
16 the other hand, in some other regions, they want to keep  
17 the system simple, like is the driver feedback negative.  
18 Only a simple warning, and that's it. Because still we  
19 need to consider that drivers need to understand what  
20 they are scored for. So if you introduce more complex  
21 calculation, to evaluate the score cards, we need to  
22 provide the training of the drivers, need to understand  
23 it. So it differs by the countries and regions."

24 Mr Chan at line 18:

25 "Moving on then from this driver score card --"  
26

1           Mr Chairman interposes:

2           "Before you move on. If it is quite common in  
3           Western European countries, what thresholds do they use  
4           to monitor driver behaviour if they are scoring the  
5           driver 'good' or 'bad', or 'average'. Whatever the  
6           score card might be?

7           Mr Kulis: To give you the example, for example the  
8           truck companies in Germany, they are using the  
9           parameters as we have here, the basic parameters, so the  
10          speeding events, acceleration, deceleration, but on top  
11          of that they are, for example, evaluating if the driver  
12          is using the [something] for the driving, so he is  
13          saving the brakes, or they even have the analysis of the  
14          speed value shape in time, and the brake application.  
15          So if they are not using the aggressive driving style or  
16          if they are not -- how to say, if they are driving more  
17          effectively. There are multiple analyses for this.

18          Chairman: So the basic model would be to start with  
19          analysing speeding, acceleration and deceleration,  
20          that's the basic model?

21          Mr Kulis: Yes. Also the idling, if you keep the  
22          engine running, if you are standing, then you are  
23          wasting money obviously. That's the basic model. And  
24          then on top of that, maybe saving of the brakes and so  
25          on."

26

1           Now, you can see the approach that Mr Kulis is  
2           suggesting in that part of his evidence. Given that the  
3           software is clearly available, does that sort of  
4           approach have any appeal to you, rather than approaching  
5           it from, "Well, you have exceeded the speed and that's  
6           bad", so it's going to be negative, converting it to  
7           some sort of positive, from the way in which the driver  
8           is generally approaching his duties?

9       MR LEUNG KIN WANG: Their approach is the same as ours. We  
10       are doing the same thing. We would look at it from  
11       a safety perspective. We would look at the items that  
12       need to be considered. Of course, the black box would  
13       capture many data, including fuel consumption, braking  
14       patterns and other scenarios. I believe that there is  
15       an application. They are talking about -- the document  
16       mentions a transportation committee, for commercial  
17       drivers, they might be driving the same vehicle all the  
18       same, so from a commercial perspective, it can find out  
19       whether a vehicle is idling for too long and whether  
20       there would be breakdowns and they can tell whether or  
21       not the air-conditioning is switched off. So this is  
22       commercially useful.

23       But for bus captains, they might not drive the same  
24       bus every day, they might not be driving the whole day,  
25       and a bus would be driven by different captains, and  
26

1 a captain can drive different buses on different days.

2 So the assessment considerations might be different  
3 from consideration from just a safety perspective. So  
4 we would assess safety aspects. So we are mainly  
5 thinking about safety.

6 If you include other factors, we might not be able  
7 to conduct the analysis within four days. We might need  
8 five, six or seven days or even more.

9 MR DUNCAN: I'm going to ask to be put up on the screen  
10 a short article which the committee has seen which  
11 appeared in the Straits Times on 16 July this year.

12 Have you seen this particular article before?

13 MR LEUNG KIN WANG: (In English) No.

14 MR DUNCAN: I just ask the secretariat to scroll down and  
15 I invite you to read the contents of it.

16 CHAIRMAN: I think the date of the article is July last  
17 year.

18 MR DUNCAN: Oh. I beg your pardon, yes. It was published  
19 June 29, 2017. Thank you, Mr Chairman.

20 Have you been able to finish reading that?

21 MR LEUNG KIN WANG: (In English) Yes.

22 MR DUNCAN: Thank you. You can see that it refers to  
23 something called a GreenRoad vehicle tracking system,  
24 and you may recall earlier this afternoon we saw  
25 GreenRoad.com, I think, referred to in the transcript.

26

1 Do you recall that?

2 MR LEUNG KIN WANG: (Nodded head).

3 MR DUNCAN: So are you familiar with this GreenRoad vehicle  
4 tracking system?

5 MR LEUNG KIN WANG: (In English) No.

6 MR DUNCAN: Do you have any sort of immediate reaction to  
7 what is contained in this article? Assuming its content  
8 to be true, do you think this would be of any value for  
9 the company to consider?

10 CHAIRMAN: By that, are you referring to a bonus system of  
11 rewarding good driving?

12 MR DUNCAN: Yes.

13 MR LEUNG KIN WANG: This is something that can be  
14 considered.

15 MR DUNCAN: Has it been considered to date?

16 MR LEUNG KIN WANG: (In English) Not to date.

17 MR DUNCAN: So your reaction is that this is worthy of  
18 consideration by the company?

19 MR LEUNG KIN WANG: (In English) Can you repeat the  
20 question?

21 MR DUNCAN: Is your reaction that this is something worthy  
22 of consideration by the company?

23 DR NORMAN LEUNG: (In English) I think I can confirm that,  
24 yes, we will consider -- we will study and consider the  
25 recommendations mentioned in this article. Thank you.

26

1 MR DUNCAN: Thank you, Dr Leung.

2 DR NORMAN LEUNG: (In English) May I have a copy of this?

3 CHAIRMAN: Of course we can provide you with a copy.

4 DR NORMAN LEUNG: (In English) Thank you.

5 MR DUNCAN: Chairman, that would be a convenient moment, if  
6 it suits the committee.

7 CHAIRMAN: Yes.

8 Gentlemen, we have reached the end of our working  
9 day. The consequence is that we will adjourn shortly  
10 and I would ask you, or those of you who are available,  
11 to return to carry on giving evidence on Friday, that's  
12 Friday, 10 August, at the same venue.

13 Mr Leung, before we do adjourn, there is one matter  
14 I would seek your help with. You spoke of having  
15 conducted a test drive with a vehicle that had been  
16 fitted with a system to enable you to, as I understand  
17 it, differentiate between being in a 50 kilometre speed  
18 limit and a 70 kilometre speed limit, and you say that  
19 Openmatics had assisted you in incorporating devices in  
20 order to do that. That is something that the committee  
21 would like to hear more about. Is this documented in  
22 any form that you can provide to us?

23 MR LEUNG KIN WANG: (In English) You mean the test itself?

24 CHAIRMAN: The various steps that you have taken, how the  
25 vehicle has been fitted up, so we can understand what it  
26

1 is that you are examining.

2 MR LEUNG KIN WANG: (In English) We will prepare that for  
3 you.

4 CHAIRMAN: Thank you, and obviously somebody who can speak  
5 to it orally at the hearing. But it would help us if we  
6 could have something in advance so we can try and digest  
7 what steps you have been taking. That would help us.

8 MR LEUNG KIN WANG: (In English) Yes.

9 MR ROGER LEE: (In English) Do you mean provide those  
10 information before Friday?

11 CHAIRMAN: Yes, if you can, whatever you have available, and  
12 then someone who can speak to it and answer our  
13 questions on Friday, because this is obviously a most  
14 interesting development.

15 MR ROGER LEE: (In English) Yes.

16 CHAIRMAN: Mr Auyeung has a question.

17 MEMBER AUYEUNG: Thank you, Chairman.

18 I just want to follow up on two questions, both of  
19 them addressed to Mr Lee.

20 In the morning, Mr Lee, you did mention about, on  
21 the compensation side, that the leadership team decided  
22 to merge the driving bonus into the base salary, and you  
23 did mention that it puts pressure on the bus drivers,  
24 because of that bonus. Then later on, I think you  
25 mentioned that you have introduced this 20-point system  
26

1 which would also generate some sort of monetary reward.

2 My question is, this 20-point sort of measurement,  
3 also would that generate any kind of pressure to the bus  
4 drivers? If not, why?

5 MR ROGER LEE: (In English) I think the actual bonus, as far  
6 as the bus captain is concerned, the bonus I think is  
7 deserved. They think it's part of their pay. Let's  
8 imagine if because there is an accident, whether they  
9 are liable or not, somehow that so-called bonus would be  
10 deferred, it creates some unnecessary pressure.

11 If you can imagine, the bonus should be part of  
12 their salary, and every year there are increments,  
13 judging on their performance, so it doesn't feel like  
14 you take something away, so that is some kind of, if you  
15 like, assessment or benchmarking and you say, okay, you  
16 performed well this year, you deserve an increment, or  
17 something further, you are actually talking about they  
18 move to another grade. So it's not like it's completely  
19 different.

20 MEMBER AUYEUNG: Thank you. Then I will move on to the  
21 second issue which is on safety. I also heard comments  
22 this morning that from your leadership team's  
23 perspective, safety is the responsibility of all  
24 departments, henceforth there is no single department  
25 responsible for risk or safety.

1           In the past year or two, have the team run into  
2           situations in which the departments have  
3           misunderstanding, thinking that the other department are  
4           handling certain safety issue and it ended up with  
5           nobody addressing the issue at all?

6       MR ROGER LEE:   (In English) Every Monday morning, we  
7           actually, myself and my operation directors and all the  
8           other directors, have a couple of hours, we sit down,  
9           and we talk through, no matter it's a bus hardware  
10          issue, and the bus captains, their performance, and also  
11          the facilities at the terminus and depot, we actually  
12          basically work as a team to ensure safety will not just  
13          simply apply for just the bus captain.

14          Presumably, Mr Leung, you ...

15       MR LEUNG KIN WANG: For example, there is a case where the  
16          bus captain had a conflict with a passenger, so we  
17          install the protective shield to protect the bus  
18          captain. So it's the job of not just the operations  
19          department but also the procurement, the engineering  
20          department, so everyone will have to look into this.  
21          Whether it would be possible resource-wise, it cannot be  
22          determined by one single department.

23          Another example is the retrofitting of CCTV. No  
24          single department can make a decision on when this can  
25          be done and how quickly this can be done is also  
26

1 a matter for all the departments and whether the  
2 procurement can speed up the process. It's all  
3 teamwork.

4 MR ROGER LEE: You have to be responsive whatever you do,  
5 and you have to make sure that it's comprehensive. And  
6 you cannot really do anything which is not amenable to  
7 the hardware, the bus. And of course the operations  
8 department have their needs. So it must be  
9 interdepartmental in the nature of these works.

10 MEMBER AU YEUNG: Thank you, Mr Chairman.

11 CHAIRMAN: Thank you. In which case, gentlemen, we will  
12 adjourn now until 10 o'clock on Friday. Thank you.

13 (5.36 pm)

14 (The hearing adjourned until 10.00 am  
15 on Friday, 10 August 2018)

16

17

interpretation unless otherwise

indicated)

Opening statement by DR NORMAN LEUNG .....1

Examination by MR DUNCAN .....3

*[Blank Page]*

1 2018 年 8 月 7 日

2 上午 10 時正恢復聆訊

3 出席人士： Hon Mr Justice Michael Lunn（倫明高），  
4 香港專營巴士服務獨立檢討委員會主席

5 歐陽伯權先生，香港專營巴士服務獨立檢討委員會委員

6 羅康錦教授，香港專營巴士服務獨立檢討委員會委員

7 Peter N. Duncan（鄧樂勤）資深大律師、黃佩琪大律師及陳政龍大  
8 律師由高露雲律師行委聘，代表香港專營巴士服務獨立檢討委員會

9 梁乃鵬博士，主席（九龍巴士（一九三三）有限公司及龍運巴士有限公  
10 司代表）

11 陳祖澤博士，副主席（九龍巴士（一九三三）有限公司及龍運巴士有限  
12 公司代表）

13 李澤昌先生，董事總經理（九龍巴士（一九三三）有限公司及龍運巴士  
14 有限公司代表）

15 蘇偉基先生，總經理（企業策劃及業務發展）（九龍巴士（一九三三）  
16 有限公司及龍運巴士有限公司代表）

17 梁健宏先生，車務總監（九龍巴士（一九三三）有限公司及龍運巴士有  
18 限公司代表）

19 彭樹雄先生，副車務總監（九龍巴士（一九三三）有限公司及龍運巴士  
20 有限公司代表）

21 黃祥明先生，培訓及服務質素管理部主管（九龍巴士（一九三三）有限  
22 公司及龍運巴士有限公司代表）

23

24 主席：（經傳譯員）梁博士，各位先生，感謝你哋今日接納咗我哋嘅邀請，上嚟作  
25 證，協助我哋履行職責。我明白梁博士係會作一個開場白，so 梁博士，等陣間  
26 你講喇，之後我會想請係鄧樂勤大律師，佢係其中一位我哋嘅代表大律師，佢會  
27 向你提問。可能你哋其中一位同事或者係會係覺得係由佢哋答問題係會比較好  
28 啲，冇問題㗎，或者你可以先話畀我哋聽你係請邊一個同事係答某一條問題嘅，  
29 你都可以作一個開場白。

30 梁乃鵬先生：（經傳譯員）好，唔該你，主席。主席，委員會嘅委員，早晨，讓我開  
31 宗明義講出我哋當時同埋而家都依然係深感遺憾，呢個係指喺 2018 年 2 月 10  
32 號，喺大埔公路所發生嘅交通事件。

1 喺 2018 年 2 月 11 號，作為主席，我作咗一個決定，去成立一個董事局嘅  
2 特別委員會，成員係有陳祖澤博士，同埋曾偉雄先生，我係擔任主席，去就事件  
3 進行調查，並且就巴士安全提出建議。呢一個特別嘅調查委員會係開咗數次嘅會  
4 議，會見咗九巴同埋龍運巴士嘅管理階層，亦都會見咗兩個工會嘅代表，以及係  
5 兩家巴士製造商，分別係亞歷山大丹尼士同埋富豪。調查委員會喺 2018 年嘅 3  
6 月 12 號提交咗份報告，裏面羅列咗多項嘅建議，以提升巴士安全。呢份報告喺  
7 同日亦都提交咗畀運輸署署長，同一份報告亦都交咗畀你哋獨立檢討委員會。喺  
8 2018 年 4 月 10 號，我哋以書面嘅形式寫低咗我哋一個行動計劃嚟到去落實  
9 2018 年 3 月 12 號嗰份報告所列出嘅建議。而琴日，我哋向獨立檢討委員會更  
10 新咗我哋嘅行動計劃，裏面係列出直至 2018 年 7 月尾，管理階層所採取嘅行  
11 動，去落實呢一個建議。

12 主席先生同埋委員，我同我嘅同事今日嚟到席前，我哋係懷住謙卑之心同  
13 埋一個積極主動嘅態度，我哋知道我哋責無旁貸，係向乘客提供安全嘅巴士服  
14 務。任何可以提升巴士安全嘅建議，我哋都係歡迎，視乎技術上同埋財政上是否  
15 可行，我哋係會樂意去落實你哋嘅建議嘅，唔該主席先生。

16 主席：（經傳譯員）唔該晒，梁博士。係，鄧樂勤大律師。

17 MR DUNCAN：（經傳譯員）唔該晒。早晨，梁博士同埋各位先生，首先，我亦都係  
18 想係重複係主席所講，今日多謝你哋係出席，亦都感謝你哋係提交咗相當大量嘅  
19 書面嘅材料畀委員會，等我哋去研究同埋考慮。一啲部分我哋係需要係同你哋係  
20 澄清，又或者係希望你哋係進一步協助我哋，所以就此，我就有啲問題向你提  
21 問。我知道你係代表九龍巴士（1933）有限公司，同埋龍運巴士有限公司，或者  
22 為求係簡便起見，我會就係講「公司」，雖然就係我意思係包括咗九巴同埋龍  
23 運，咁樣就比較簡單。喺任何時候，如果你想係特別指名係兩間公司嘅其中一間  
24 嘅話，請你隨便係話清楚畀我哋聽就得嘞。或者首先，我先係就你嘅開場白嗰度  
25 係提問一句。

26 梁乃鵬先生：Yes.

27 MR DUNCAN：（經傳譯員）我睇番第五段，你嘅開場白嘅第五段，你當就提及係你  
28 哋呢一個特別調查委員會，喺 2018 年 3 月 12 號有一個報告，呢一個就係喺 2  
29 月大埔係交通意外之後所成立。你就話就喺同日，3 月 12 號同日提供咗嗰份報  
30 告畀運輸署署長，亦都係將同一份報告交咗畀呢一個係獨立檢討委員會。我就想  
31 問，你知唔知道嗰一個部分係有--嗰個報告嘅有某啲部分就係冇交畀係檢討委  
32 員會？

33 梁乃鵬先生：（經傳譯員）係，關於係嗰個報告，關於嗰個事件，係有部分就係塗黑  
34 咗嘅。

35 MR DUNCAN：（經傳譯員）我哋喺文件夾嗰度，喺 KMB-1 呢個文件夾嗰度，第 98  
36 頁，我哋可以睇番你哋嘅報告。

- 1 梁乃鵬先生：（經傳譯員）對唔住，鄧大律師，係邊一頁？
- 2 MR DUNCAN：（經傳譯員）我想請你睇番嗰份報告，第 98 頁。
- 3 主席：（經傳譯員）第 98 頁。
- 4 梁乃鵬先生：Yes.
- 5 MR DUNCAN：（經傳譯員）你會見到係報告嘅係封面，跟住請你揭去第 99 頁，嗰  
6 度有一個係目錄表嘅，第 99 頁，係目錄表。
- 7 梁乃鵬先生：（經傳譯員）係，係，目錄表 99 頁。
- 8 MR DUNCAN：（經傳譯員）我哋呢個委員會係想知道嘅地方，但係嗰度就係冇提  
9 交，譬如話係第二部就係嗰個意外調查報告，第三部就係關乎車長嘅事宜。關乎  
10 車長嘅事宜，當然呢個對於我哋進行嘅調查係相當之重要，所以我想向你提出個  
11 請求喇，咁就睇下你願唔願意就係將呢兩個部分，即係第二部同埋第三部都係交  
12 畀我哋係檢討委員會去考慮，當然要符合我哋嘅職責範圍，或者你係想同你嘅同  
13 事商量一下，不過我想而家提出呢一個要求，就想請你就係今日--譬如話今日  
14 聆訊之後去考慮一下。
- 15 梁乃鵬先生：（經傳譯員）講到係特別係第二部分，呢一個意外調查報告，以及...
- 16 MR DUNCAN：（經傳譯員）啱。
- 17 梁乃鵬先生：（經傳譯員）...係第三部係關乎係車長嘅事？
- 18 MR DUNCAN：（經傳譯員）啱，你講得啱。或者你睇番第 102 頁同埋 103 頁呢個文  
19 件夾度。
- 20 梁乃鵬先生：（經傳譯員）103，係。
- 21 MR DUNCAN：（經傳譯員）嗰度寫住就係資料冇係提交㗎。
- 22 梁乃鵬先生：（經傳譯員）係呀。
- 23 MR DUNCAN：（經傳譯員）我就而家係想請你重新考慮，我唔係想你即時作一個決  
24 定，我係想請你就係喺我哋進行呢個研訊期間，都同同事係研究一下。
- 25 梁乃鵬先生：（經傳譯員）關乎呢一點，我想問下，呢啲資料係咪會畀呢一個係檢討  
26 委員會定抑或會成為公開資料？
- 27 主席：（經傳譯員）我哋呢個檢討委員會所收嘅資料，我哋嘅基礎都係話，係都會就  
28 係會交界公眾㗎，如果認為係適當嘅話。
- 29 梁乃鵬先生：（經傳譯員）我會--唔該晒，我會考慮你嘅要求嘅。
- 30 MR DUNCAN：（經傳譯員）好，唔該你，梁博士。我哋仲係睇緊呢一個 KMB-1 呢個

1 文件夾，我就想請你係揭去第 31 頁。

2 梁乃鵬先生：（經傳譯員）第 31。

3 MR DUNCAN：（經傳譯員）31。

4 梁乃鵬先生：（經傳譯員）31，係。

5 MR DUNCAN：（經傳譯員）或者我講番個上文下理，呢一個就係九巴，即係你哋  
6 公司回應係委員會向你哋索取資料嘅一個部分嚟嘅。

7 梁乃鵬先生： Yes.

8 MR DUNCAN：（經傳譯員）咁或者想請你睇番呢個文件夾嘅第 1 頁。

9 梁乃鵬先生：（經傳譯員）邊頁呀？

10 MR DUNCAN：（經傳譯員）第 1 頁。

11 梁乃鵬先生：（經傳譯員）係。

12 MR DUNCAN：（經傳譯員）你呢度見到就係秘書處就係--委員會嘅秘書處 2018 年  
13 3 月 28 號寫嘅信。

14 梁乃鵬先生：（經傳譯員）係。

15 MR DUNCAN：（經傳譯員）或者你一路揭去後面幾頁，你見到就係委員會就係--  
16 就多項係特定嘅課題係要求索取啲資料嘅。

17 梁乃鵬先生： Yes.

18 MR DUNCAN：（經傳譯員）我想請你睇第 31 頁。

19 梁乃鵬先生：（經傳譯員）31。

20 MR DUNCAN：（經傳譯員）喺個頁嘅頂頭個度，個度就係睇到我哋委員會所問嘅問  
21 題，呢度就係話，請你係找出同埋就係提供以下文件嘅副本，就係你哋公司嘅係  
22 管治同埋社會責任嘅守則。

23 梁乃鵬先生： Yes.

24 MR DUNCAN：（經傳譯員）喺你哋答案嘅第二段個度，有三個係元素㗎，你就話呢  
25 啲係三個關鍵嘅元素，分別係安全。或者我將佢讀出，作為一個紀錄。你呢度就  
26 咁講，你話三個關鍵嘅元素，即係話我哋嘅係企業社會責任有三個關鍵嘅元素，  
27 喺我哋個企業個網站個度有寫，安全。九巴同埋龍運都係話，係要向乘客提  
28 供一個安全、可靠同埋舒適嘅巴士服務，應該係物有所值嘅服務。九巴同埋龍運  
29 就係會繼續係大量投資，去改善佢嘅巴士服務嘅安全，咁方法就透過係向職員提  
30 供密集嘅訓練，係加強呢一個表現嘅監察程序，以及有一個獎勵計劃，以及係改

1 善個巴士嘅設計，以及係提倡係推廣係巴士乘客嘅安全，呢一個係內部去做，  
2 同埋向公眾去咁樣做。

3 我而家想做嘅就係，梁博士，我想首先就係講個獎勵計劃。

4 梁乃鵬先生： Maintenance?

5 MR DUNCAN：（經傳譯員）獎勵計劃，你呢度就係有見到個度寫到就係「獎勵計  
6 劃」，係咪呀？

7 梁乃鵬先生：（經傳譯員）係。

8 MR DUNCAN：（經傳譯員）我就想問你幾個問題，究竟目前你哋有啲咩嘢嘅計劃，  
9 係關乎係巴士司機嘅安全，你哋有啲咩嘢獎勵計劃，明唔明白我嘅問題？

10 梁乃鵬先生：（經傳譯員）我同事就係會係答呢個問題，係蘇生會問。

11 MR DUNCAN：（經傳譯員）我仲未問問題嘅。

12 主席：（經傳譯員）蘇偉基先生會負責呢條問題，係咪呀？

13 梁乃鵬先生： Yes.

14 主席：（經傳譯員）好，唔該。

15 MR DUNCAN：（經傳譯員）喺呢方面，我就想請你揭去 108 頁。

16 梁乃鵬先生：（經傳譯員）108，108。係。

17 MR DUNCAN：（經傳譯員）喺第廿九段，個頁嘅第廿九段，個度就話 2018 年嘅 2  
18 月 21 號，九巴同埋龍運就宣布安全獎金同埋良好表現獎金就會將佢併入去個  
19 底薪個度，咁而生效日期就 2018 年嘅 3 月 1 號。呢一度就係講到第三個表同  
20 埋第四個表，就係講出咗個個——喺呢一個薪酬嘅優化之後，個個薪酬嘅結構。

21 梁乃鵬先生： Yes.

22 MR DUNCAN：（經傳譯員）咁你去到第 109 頁同埋 110 頁就睇到個詳情㗎嘞。我  
23 就留意到，呢一個宣布係喺 2018 年 2 月 21 號係作出，當時就係意外發生之後  
24 第十一日。我嘅問題就係，呢一個意外嘅發生同呢一個改變嘅宣布，個個係咪一  
25 個因素㗎嘅呢？

26 梁乃鵬先生：（經傳譯員）多謝你嘅問題，我好高興有一個機會係喺呢一方面作出澄  
27 清。實際上，喺去年嘅 11 月，當時喺深水埗亦都發生咗一個好不幸嘅巴士意  
28 外，有多位乘客係傷亡。我喺報章嘅報道係留意到，我哋月薪嘅巴士車長當時係  
29 賺取緊少於每月 12,000 元，即係啱啱係少過 12,000 元。其實係由我提出，  
30 我就當時同自己講，要做啲嘢，要對呢件事做啲嘢，因此我就係檢視咗月薪巴士  
31 車長嘅薪酬結構，我就留意到，每一個月除咗佢哋嘅底薪之外，同埋一萬...

1 主席：（經傳譯員）1,800 釐？

2 梁乃鵬先生：（經傳譯員）係，對唔住，1,800 釐嘅安全獎金，係，多謝你糾正  
3 我，對唔住。另外，仲有另外一個獎金，都係 1,800 釐。咁我就決定，我哋或  
4 者可以係提升佢哋嘅薪酬結構。喺 12 月嘅董事會會議，董事會就係批准嗰個安  
5 全同埋表現嘅獎金總共係 3,600 元，就將佢哋係納入底薪裏面，呢個係第一  
6 點；

7 第二點，因為呢一個逾時工作嘅薪金之前嗰個基礎就係要參考底薪，當時  
8 嗰個每一個月係少過 12,000 元，但係我哋將呢一啲獎金加入咗底薪之後，呢  
9 一個逾時工作嘅薪金亦都係會增加㗎嘞，因為係以新嘅底薪去計算。呢一個就係  
10 另外一個理由，咁長話短說，咁我哋做咗呢一個提升之後，月薪巴士車長底薪大  
11 概每一個月係 15,400 元，同時佢哋逾時工作嘅補償亦都係會相應增加。

12 第三，每一年嗰個花紅，之前就係每年 12,000 元，而家亦都會增加㗎  
13 嘞，增加到多過 15,000 元嘅。咁樣係會增加咗巴士車長嘅收入，呢一個決定  
14 係 12 月作出，我哋係打算呢一個新嘅薪酬制度會係 3 月 1 號係實施。不過好不  
15 幸，就發生咗 2 月嘅不幸嘅事件，因此有啲人就係錯誤咁樣詮釋咗，就話係因  
16 為有交通意外，我哋先至去調整嗰個薪酬，但係其實兩者係冇關係，當時係喺  
17 12 月，喺董事會嘅會議，由我提出去決定。

18 MR DUNCAN: Thank you, Dr Leung.

19 主席：（經傳譯員）梁博士，你係講到深水埗嗰個意外，就係 11 月發生，咁你記唔  
20 記得喺 2017 年 9 月 22 號亦都係發生過一個意外？

21 蘇偉基先生：即係個意外其實係 9 月 22 號長沙灣嘅意外。

22 梁乃鵬先生：（經傳譯員）係，對唔住，對唔住，我等你糾正我，我以為係 11 月。

23 主席：（經傳譯員）其實唔係㗎，你係咪講緊...

24 蘇偉基先生：係冇 11 月嘅意外嘅，當時個舉措係回應 9 月 22 號新巴喺長沙灣嘅意  
25 外。

26 梁乃鵬先生：深水埗。

27 主席：（經傳譯員）9 月 22 號？

28 蘇偉基先生：（經傳譯員）係嘅。

29 主席：（經傳譯員）唔該。

30 李澤昌先生：回應多少少就係，頭先講到嗰個獎金嗰樣嘢，其實我哋當其時我哋覺得  
31 獎金其實係會畀到啲車長好多嘅壓力，所以係我哋唔覺得係用獎金好似係一種即  
32 係好似利誘咁嘅感覺，所以其實車長佢本身嘅壓力應該好大，如果用一個

1 bonus 咁樣嘅去畀佢，我覺得係未必一個恰當，所以當其時董事會就決議將嘅  
2 嘅獎金就撥咗落去個薪金嗰度。其實喺--啱啱主席都講咗，我哋未來而家嗰嘅  
3 薪酬有嗰嘅級數，同埋升嗰嘅 point 嗰嘅已經講咗。咁我諗仲有一樣嘢，就係  
4 其實我哋--我諗蘇生會講多少少而家嗰個情況。

5 蘇偉基先生：我哋公司亦都係有設立一啲獎項，去鼓勵車長嗰個行車嘅安全，以往我  
6 哋有啲安全獎。咁喺 2016 期間，公司就將呢個獎項就改咗，叫做一個星級車  
7 長。喺呢個計劃入面，如果車長佢喺某段時間達致一個行車安全，冇意外紀錄，  
8 或受乘客讚許，佢就可以頒授唔同嘅獎項。佢分好多嘅年期，十五年之內會係一  
9 個星，如果十五至二十九年又多一個良好紀錄，又會有另外一個星，去到最高亦  
10 都有個大星。我哋每年喺 12 月亦都有個週年嘅聚會，係表揚同埋獎勵安全良好  
11 嘅車長，咁呢個就係一個叫做星級車長嘅計劃。

12 主席：（經傳譯員）呢一個計劃而家係咪仲運作緊？

13 蘇偉基先生：係，生效緊，亦都每年係恆常做緊。

14 主席：（經傳譯員）好，唔該。

15 MR DUNCAN：（經傳譯員）多謝你，蘇生。我想請問你多幾個問題，係關於--一陣  
16 間再問你呢啲獎勵嘅計劃，因為喺你畀我哋嘅資料裏面都有講到。不如我哋而家  
17 講番呢一個安全獎金嘅問題。梁博士，你就話畀我哋聽，新嘅計劃就係喺 12 月  
18 嘅時候，董事會嘅會議係當時決定嘅，點解要係喺 2 月 21 號先至宣布？

19 梁乃鵬先生：（經傳譯員）係呀，咁係董事局就係 12 月決定咗，我諗好似係 12 月  
20 22 號，然後管理層係需要時間去實施新嘅薪酬架構，實際上，董事總經理係向  
21 我告知，係建議實施嘅日期係 3 月 1 號，係今年 3 月 1 號。

22 MR DUNCAN：（經傳譯員）咁喺呢一個改變之前，當我哋仲有安全獎金嘅時候，咁  
23 呢一個安全獎金係點樣發放？喺任何一個個別嘅個案，係點樣去決定？

24 蘇偉基先生：喺呢個舊有嘅安全獎嘅計劃，我哋係會睇幾個指標，首先就係個車長會  
25 唔會喺有意外嘅發生，喺意外發生，究竟佢係咪需要負責，佢有冇不良嘅駕駛，  
26 咁我哋罰，有機會係半個月或者係一個月嘅安全服務獎，嗰個數係講緊一千七百  
27 幾釐。但係如果佢喺半年行為表現良好之後，相關嘅獎金係會發放畀嗰位車長  
28 嘅。而呢個咁嘅管理，就係由車務組去負責。

29 MR DUNCAN：（經傳譯員）咁個意思係咪即係話，係要限制於嗰個人係咪要負責嗰  
30 個意外？

31 蘇偉基先生：亦都公司自己本身有一啲便衣嘅巡查，或者乘客嘅投訴，我哋喺呢方面  
32 都知道車長佢有冇不良駕駛嘅行為，從而就利用呢個以前嘅安全獎係去紀律處分  
33 我哋不良駕駛嘅車長。

34 MR DUNCAN：（經傳譯員）喺呢個改變實施之前，即係仲有呢個獎金嘅時候，你哋

1 嘅巴士車長當中，有幾多嘅比例係可以得到全面嘅獎金？

2 蘇偉基先生：喺以往呢個安全獎，其實我哋有九成嘅同事係會擺足一個全額嘅，咁被  
3 扣或者褪遲咗出呢個安全獎，係少過一成嘅。

4 MR DUNCAN：（經傳譯員）喺委員會嘅商議嘅時候，當然亦都係向你嘅管理人員係  
5 聽過一啲意見。我哋知道有一啲嘅科技可以係記錄譬如話係有超速，或者係大力  
6 剎車，或者係過度加速，呢一類咁樣嘅因素，咁呢啲嘅因素會唔會都考慮埋㗎，  
7 即係喺有呢一個舊嘅安全獎金嘅時候？

8 梁健宏先生：當其時嗰個安全獎金淨針對意外後嘅發放，針對意外後嘅考慮，至於佢  
9 平常嗰啲表現，就喺其他嘅獎金嗰度，就係嗰個總服務安全獎金嗰度係去處理  
10 嘅。

11 MR DUNCAN：（經傳譯員）好，唔該，請你而家去睇第 77 頁，係，77 頁。呢一啲  
12 嘅係你剛才講到嘅獎勵計劃。委員會當時提嘅問題就係咁講，係關於薪酬嘅制  
13 度。咁如果巴士車長係表現良好，同埋甚至係有任何嘅意外紀錄，或者係好少嘅  
14 意外紀錄，會唔會有任何嘅獎勵？咁首先，有一個就係所謂安全駕駛獎嘅，我想  
15 請問，已經係實施咗幾耐？

16 梁健宏先生：呢個安全獎嘅設立都好多年㗎㗎，咁就去到大約係一、兩年前，就我哋  
17 用另外一個星級計劃去取締。

18 MR DUNCAN：（經傳譯員）咁即係而家唔存在㗎？

19 梁健宏先生：我哋用個星級計劃去取締㗎，而家就唔存在。

20 梁乃鵬先生：存在，係咪呀？

21 李澤昌先生：存在，我諗解釋清楚，呢一個計劃仍然都係存在嘅，不過以前係用一張  
22 好簡單嘅一張紙之類嘅嘢，係一個獎狀，但係而家叫做星級計劃，其實係用一啲  
23 即係金，即係係黃金嘅金，同埋一啲銀，係真係 silver 嘅銀，咁樣去獎勵個  
24 車長，咁就令到佢個感覺會更加強烈，可以擺咗佢自己個心口裏面嗰啲嘅。

25 MR DUNCAN：（經傳譯員）咁呢個獎嘅安全嘅方面，係咪限制於對於意外有冇責任  
26 呢一樣嘢？

27 梁健宏先生：（經傳譯員）即係個準則？

28 MR DUNCAN：（經傳譯員）係呀，準則。呢啲會考慮啲咩嘢嘅事情？除咗話司機就  
29 係冇涉及意外，即係可以咁講。

30 蘇偉基先生：以往呢個獎項--講得啱，其實佢係淨係計 zero liability，即係話  
31 車長係唔需要負責嘅意外。咁即係變句說話，如果個車長喺連續五年，佢冇發生  
32 佢自己需要負責嘅意外，我哋就會有個嘉許，個嘉許係一張證書㗎嘅。

1 MR DUNCAN：（經傳譯員）冇呢個金錢嘅獎勵㗎，係咪呀？

2 蘇偉基先生：正確，呢個係有一個獎金。

3 MR DUNCAN：（經傳譯員）咁我而家又想講下，嗰個係良好服務獎勵，我就想問  
4 下，會唔會係有邊一部分就係好視乎佢嗰個係安全表現嘅呢？

5 蘇偉基先生：呢個可以大家睇睇佢有個 annex 9c-2 嗰度，咁就呢個除咗車長，其  
6 實所有員工都會係畀呢個表現獎蓋範。

7 MR DUNCAN：（經傳譯員）你就話唔係單係限於係車長，係咪呀？

8 蘇偉基先生：Correct.

9 MR DUNCAN：（經傳譯員）好，唔該，咁不過我問題就問，講到車長嗰方面，巴士  
10 司機方面，佢安唔安全駕駛，係咪你哋都會考慮埋呢一點，然後先至睇下佢擺唔  
11 擺到呢個傑出服務獎㗎？

12 蘇偉基先生：佢係咁樣講，如果佢係一個 outstanding service，舉例如佢係幫  
13 助咗乘客，咁佢係會獲呢個獎，但係喺獲呢個獎之前，我哋都會睇睇佢嘅駕駛紀  
14 錄係咪良好，如果佢駕駛紀錄良好，而因為佢一個幫助乘客而獲獎，我哋就會頒  
15 呢個表現良好獎畀佢。

16 李澤昌先生：即係其實換言之係，佢主要係喺嗰個服務方面，佢做咗啲咩嘢嘢，譬如  
17 係點樣幫助啲乘客，點樣係對啲乘客嘅態度，當然有可能會係因為佢個安全係其  
18 中一分，但係主要都係講佢嗰個服務嗰方面，因為有啲車長喺嗰個整個嗰個揸車  
19 嘅過程裏面，佢係真係對啲乘客個態度係非常之好，咁呢個係一個即係  
20 outstanding 嘅 service award，其實呢個係包含除咗車長之外，有啲即係  
21 站長，有啲站務助理，有啲即係我哋嘅稽查，其實都會喺呢度裏面嘅，所以係比  
22 較係即係概括嗰個面係闊好多。

23 MR DUNCAN：（經傳譯員）講番巴士司機，你講就話可能佢對啲乘客係服務得好  
24 好，好幫到手，我就想問，會唔會都要係佢揸車安全，就有係涉及呢一個係需要  
25 負責嘅係意外，呢一啲會唔會都考慮埋㗎？

26 蘇偉基先生：或者可以咁樣講，如果佢個駕駛行為，我哋係用頭先第一個講緊嗰個良  
27 好駕駛獎去獎勵，嗰個係冇意外，咁我哋就睇番個年份去獎勵。咁第二個表現  
28 獎就係無論係車長或者非車長好，如果佢表現良好就會獲呢個獎。咁呢個--但  
29 係獲呢個獎之前，如果係車長都有個前設，就係佢嗰個駕駛都係有一個良好嘅紀  
30 錄，因為係一個獎項，而呢啲獎項良好表現，頭先我舉一個例子，譬如話幫助乘  
31 客，可以係一個例子。咁我想秘書可唔可以去一去 annex 9c-2 嗰份文件，我  
32 相信會係有個好清楚嘅講到。

33 MR DUNCAN：（經傳譯員）可以，我哋可以去 9C-2，九巴 3853 頁。我想問你剛才  
34 係咪提及嘅就係呢一份？

- 1 梁乃鵬先生： Outstanding service award. Okay.
- 2 蘇偉基先生：咁大家都睇到，螢光幕嗰度，佢就係話去表現員工，如果佢係有貢獻，  
3 或者個表現良好，咁就會由佢嘅主管去提名，然後我哋就會頒發呢個良好表現  
4 獎，咁呢個係 for 所有嘅同事嘅。
- 5 MR DUNCAN：（經傳譯員）冇幾耐之前，你話都會視乎佢有冇良好嘅駕駛行為，你  
6 剛才係咪講呢個安全駕駛獎，即係話係冇意外嗰個？
- 7 蘇偉基先生：我要即係澄清，第一個，嗰個係安全獎，嗰個係會睇佢嗰個意外紀錄，  
8 呢一個就係睇佢嗰個表現良好，但係喺表現良好嗰度，我哋都會睇睇佢係咪一個  
9 冇良好駕駛紀錄先至可以提名佢獲取呢個表現良好獎。
- 10 MR DUNCAN：（經傳譯員）好，唔該晒。我就想問，良好駕駛紀錄係咪就係唔需--  
11 即係佢冇一啲需要負責嘅係交通意外嘅紀錄？
- 12 蘇偉基先生：並非所有，因為除咗意外...
- 13 MR DUNCAN：（經傳譯員）邊啲呀？
- 14 蘇偉基先生：顧客嘅投訴，或者我哋自己內部亦都有一啲嘅便衣巡查，都會去睇到一  
15 個車長，其實佢嗰個駕駛紀錄係咪良好嘅。
- 16 MR DUNCAN：（經傳譯員）唔該晒。呢一個傑出服務獎有冇係金錢嘅獎勵㗎？
- 17 蘇偉基先生：係冇嘅，冇一個獎金包含嘅。
- 18 MR DUNCAN：（經傳譯員）係咪都係一張證書咁，都好似頭先講嗰樣？
- 19 蘇偉基先生：一張證書，冇錯，一張表揚。
- 20 MR DUNCAN：（經傳譯員）唔該。好，跟住落去嚟，就係呢個星級車長計劃，我諗  
21 你剛才都係畀咗少少資料我哋㗎。我而家想問，喺頒呢個獎嘅時候，係畀粒星  
22 佢嘅時候，係用啲咩嘢準則？
- 23 蘇偉基先生：呢個秘書可唔可以幫我去一去呢個 annex 9c-3 嗰度？
- 24 MR DUNCAN：（經傳譯員）KMB-9，3858 頁，唔該晒。
- 25 蘇偉基先生：去一去後一頁，有一個介紹嗰個--係嚟，呢個，停喺呢頁。喺呢個計  
26 劃入面，首先就係具備良好嘅意外同埋服務紀錄。
- 27 梁乃鵬先生：（經傳譯員）3864 頁，第 3864 頁。
- 28 主席：（經傳譯員）係呢度嘅第幾頁呢？
- 29 MR DUNCAN：（經傳譯員）佢原文就中文㗎嘅。

- 1 梁乃鵬先生：（經傳譯員）第 3864 頁。
- 2 MR DUNCAN：（經傳譯員）我而家睇緊啲個——想搵埋啲個翻譯本。
- 3 梁乃鵬先生：（經傳譯員）呢個係中文。
- 4 主席：（經傳譯員）3865/1？
- 5 MR DUNCAN：（經傳譯員）唔係，3865/7。
- 6 主席：（經傳譯員）好，唔該。
- 7 梁乃鵬先生：（經傳譯員）3865-7 啲頁有一個英文嘅翻譯本。
- 8 MR DUNCAN：（經傳譯員）係，而家打咗上嚟嘞，咁樣有咩嘢特別嘅嘢係想同我哋
- 9 講下？
- 10 陳祖澤先生：（經傳譯員）或者讓我補充一下，呢個計劃啲個目的就係表揚啲啲係良
- 11 好嘅車長。其實我哋每年頒出嘅獎就係唔多嘅，係兩、三個嘅，咁就係一個特別
- 12 嘅計劃，嚟到去表揚佢哋，亦都希望係鼓勵佢哋就係有個良好嘅表現嘅。
- 13 MR DUNCAN：（經傳譯員）唔該，呢度裏面有冇呢一個係金錢嘅獎勵㗎？
- 14 陳祖澤先生：（經傳譯員）冇㗎。
- 15 MR DUNCAN：（經傳譯員）好，去番第 77 頁嘞，就係 KMB-1 啲度，講到話係如果
- 16 啲啲車長就表現良好嘅話，佢哋啲個係職業嘅晉升嘅階梯係點樣樣嘅。我想問一
- 17 個問題，由車長升去車長二，我想問，會唔會係增加佢嘅薪酬？
- 18 蘇偉基先生：有㗎。
- 19 MR DUNCAN：（經傳譯員）同樣，車長二升去車長一有冇？亦都係咪會係讓佢就係
- 20 有加入人工？
- 21 蘇偉基先生：係有嘅。
- 22 MR DUNCAN：（經傳譯員）講番啲細節嘞，我諗可以睇番係之前，你係話畀我哋聽
- 23 嘅，係關於獎金啲頁啲度嘞，我諗而家唔需要去啲度睇嘞。呢度喺 77 頁底下啲
- 24 度，你見到係有咩嘢準則嘅，係睇咩嘢準則，然後先至可以係一級級上去嘅，即
- 25 係話係冇意外，冇呢個紀律警告，同埋過往兩年都係出勤嘅紀錄係好嘅，啱唔
- 26 啱？
- 27 蘇偉基先生： 正確。
- 28 MR DUNCAN：（經傳譯員）唔該。好嘞，就呢個課題係最後一項，第 78 頁，啲個
- 29 就係週年嘅表現獎金。喺呢版啲度佢就話，呢個就一年係出兩次嘅，咁亦都係同
- 30 啲個車長嘅表現掛鉤。我就想問，點樣同係車長嘅表現掛鉤？

1 蘇偉基先生：呢個包含幾方面，第一，就係嗰個駕駛紀錄有冇曾經被紀律處分，佢嘅  
2 出勤嘅紀錄，「出勤」嘅意思係講緊係不假不到，即係 absent without  
3 permission，因為你呢個影響嗰個服務嗰個穩定性嘅，咁最主要係綜合呢三大  
4 嘅指標。

5 李澤昌先生：呢度亦都可以有少少補充，喺嗰嗰我哋前幾個月，呢個已經係轉咗係  
6 一個十三個月嘅雙糧，即係換言之即係話，過去每六個月係評核，然後畀呢個所  
7 謂叫做 annual performance bonus，亦都轉咗係十三個月糧，即係換言  
8 之，呢個評核嘅基制已經係有咗嘞。

9 MR DUNCAN：（經傳譯員）你意思係，年度表現獎金已經唔再存在？

10 李澤昌先生：（經傳譯員）正確㗎。

11 梁乃鵬先生：（經傳譯員）我想補充，我剛才喺研訊都提過，我唔單只將安全獎金同  
12 埋係服務獎金納入底薪，同時喺年尾嘅時候，呢一個年度表現獎金就會變成第十  
13 三個月嘅糧係畀車長嘅。換句話說，之前佢哋最多都會係每年係攞到獎金就係  
14 12,000 元嘅，就係分兩次畀。但係而家，到咗年尾嘅時候，佢哋就會攞到...

15 李澤昌先生：（經傳譯員）即係好似雙糧咁樣，攞多一個月嘅糧。

16 梁乃鵬先生：（經傳譯員）咁就係跟番新嗰個底薪去發放嘅，而家就係 15,400  
17 元。

18 MR DUNCAN：（經傳譯員）我咁樣嘅了解啱唔啱，就係話呢一個第十三個月糧就同  
19 服務係無關嘅？

20 梁乃鵬先生：（經傳譯員）你係正確嘅，係無關嘅。

21 MR DUNCAN：（經傳譯員）咁係舊年 12 月，董事局批准呢一個改變之前，一個人  
22 首先就會係得到一個安全嘅獎金，就係你九成嘅車長都攞到㗎喇，即係如果我之  
23 前嘅理解係正確嘅。咁佢哋亦都仍然可以係有一個年度表現獎金？

24 梁乃鵬先生：Yes.

25 MR DUNCAN：（經傳譯員）咁有幾多嘅巴士車長係會得到首先呢一個每年嘅年度表  
26 現獎金？

27 蘇偉基先生：約莫九成，接近 90%，以往。

28 MR DUNCAN：（經傳譯員）我嘅理解啱唔啱，就係呢一個年度表現獎金而家取消咗  
29 嘞，就係因為舊年 12 月董事局嘅一個決定，就係話由今年 3 月 1 號起，你係開  
30 始新嘅薪酬架構？

31 梁乃鵬先生：（經傳譯員）係啱嘅。

32 MR DUNCAN：（經傳譯員）咁而家嘅情況係咪咁樣，就係已經有咗具體嘅一啲金錢

1 上嘅獎勵，即係呢一個巴士車長就算有安全嘅駕駛紀錄，都唔會有一啲金錢上嘅  
2 獎勵？

3 梁乃鵬先生：（經傳譯員）我哋有其他嘅保障，去確保我哋嘅巴士車長係會好正確同  
4 埋好安全咁樣駕駛。或者我都應該喺呢一個階段提及，除咗提升佢哋嘅薪酬之  
5 外，即係而家已經實施咗，係 3 月 1 號，我亦都係建議緊，希望董事局係同意  
6 係有其他方面嘅改善。譬如剛才我哋講到，巴士車長嗰度係有三個級別，就係車  
7 長、車長二、車長一。我係得到董事局嘅支持，就係呢三個級別，就將會係擴展  
8 到五個級別，同埋每年嘅增薪點亦都係會擴大，由而家八次嘅增薪點，係會增加  
9 到二十個增薪點。譬如話要晉升去下一個級別，同埋要得到--每一年嗰個增薪  
10 點其實係唔會係自動，係要視乎佢哋巴士車長嘅表現。但係更加重要嘅，我相信，  
11 我相信我咁樣講都係正確嘅，就係巴士車長喺佢哋嘅態度上，並唔會變成更  
12 加不負責任，即係話唔會因為有咗安全駕駛獎，就會有咁負責任，因為佢哋係專  
13 業司機嚟㗎，佢哋自己都要保障自己嘅安全，除咗乘客安全，都有自己嘅安全要  
14 保障，因此我最主要嘅目標就係要去增加、提升巴士車長總體嘅收入。我希望我  
15 唔單只可以招募新嘅巴士車長，我仲可以係挽留現職嘅巴士車長，呢一個係我嘅  
16 意向嚟㗎。鄧律師。

17 MR DUNCAN：（經傳譯員）多謝你，梁博士。講到你剛才話得到董事局支持嘅事  
18 情，如果你而家係改變嗰個薪酬架構，你會唔會係好似慣常咁樣，都會同呢啲員  
19 工嘅工會去傾，抑或係就咁實施咗，先話畀佢哋聽？

20 梁乃鵬先生：（經傳譯員）我哋會㗎，其實我自己係親自同工會嘅代表喺幾個月見過  
21 面。除咗係關於薪酬方面嘅新嘅架構喺 3 月 1 號實施咗之後，我亦都係向工會  
22 進一步係表示就話，將會有進一步嘅改善，佢哋係知道。譬如話佢哋知道與其有  
23 三個級別嘅車長，將會係有五個級別；與其有八個增薪點，將來會有二十個增薪  
24 點，同埋仲有其他嘅薪由。不過我係時時都好願意聽巴士車長嘅意見。我應該點  
25 講呢？我發現我自己個人嚟講，我嘅管治哲學就係話以人為先，首先要注意啲  
26 人，當然，乘客對我哋好重要，佢哋係首要，但係我哋嘅員工同我哋--對我哋  
27 嚟講同樣重要。同埋我都要向我嘅股東負責，所以我係盡我嘅所能去提升我所有  
28 嘅員工，唔係淨巴士車長，即係包括埋前線嘅車--其他嘅人員佢哋嘅收入，等  
29 我哋可以招募同埋挽留優質嘅員工。

30 李澤昌先生：呢度有點補充嘅，其實我哋都有同好多其他嘅員工即係都有溝通到，喺  
31 呢方面。

32 蘇偉基先生：呢度我亦都可以講一講，其實呢啲訴求喺以往公司都有聽到嘅，佢哋亦  
33 都覺得將金錢同個安全綑綁，佢哋行車嗰陣時會有個壓力，咁就年尾嗰個  
34 annual performance bonus 係要評核，亦都係有訴求，我自己同車長接  
35 觸，或者經廠務嘅同事亦都有反映，佢哋係對呢樣嘢係希望有個改變，所以我哋  
36 係聽到員工嘅聲音，再頭先主席係接見咗工會嘅代表，係作出一個改動。

37 MR DUNCAN：（經傳譯員）唔該。梁博士，我而家想請你去睇番我哋見過嘅一位證

1 人嘅證供，佢係黎兆聰，佢係代表一個工會。

2 梁乃鵬先生：（經傳譯員）佢係我哋工會嘅一個代表嚟嘅，我都有見過佢。

3 MR DUNCAN：（經傳譯員）或者我哋可以睇番第九日研訊，喺第 98 頁嗰度個謄  
4 本。

5 主席：（經傳譯員）請問喺我哋嘅文件夾裏面個個編號係幾多？

6 MR DUNCAN：（經傳譯員）而家喺螢幕上面，大家係可以睇到一頁嘅紙，咁大家可  
7 以睇番第九日嘅研訊，睇第九行（原文照錄）。

8 主席： Which of the four transcript bundles is it to be found  
9 in?

10 MR DUNCAN：（經傳譯員）係，第四個。

11 主席： Thank you.

12 MR DUNCAN：（經傳譯員）或者我解釋一下當時呢一個對話，喺第十三行，就係由  
13 黃律師，即係我嘅同事，係委員會嘅其中一位律師，佢就問一個問題問黎生，佢  
14 就話「我哋唔係講緊一個減扣㗎，呢一個係增加㗎，我而家意思就係話，唔係增  
15 加咗你嘅底薪，如果你駕駛良好，你會係得到另外一個獎金，呢個唔係關於減咗  
16 你嘅人工。」咁黎生就話「九巴就有一個咁嘅制度。」咁黃律師就話「唔係話關  
17 於你有冇呢個咁嘅制度，如果有人想建議一個咁嘅制度，你會唔會支持？」

18 我想你留意嘅就係黎生呢一度嘅答案，佢就咁講「主席，我哋係支持任何  
19 獎勵或者激勵嘅制度，而家我哋係同九巴講緊係有另外一種獎金制度，就會係有  
20 一個二十個增薪點嘅制度。」

21 梁乃鵬先生：（經傳譯員）呢個就係我剛才提及㗎嘞。

22 MR DUNCAN：（經傳譯員）係呀，呢個就係你提及㗎，唔該。咁意思就係，如果你  
23 係達到某啲嘅表現，你就會係得到另外一個增薪點，呢個係唔單只每一年嘅增  
24 薪，咁九巴就已經係口頭答應㗎，會有一個二十個增薪點嘅，就會係講到表現、  
25 安全表現、出勤同埋係紀律。咁如果巴士車長係達唔到呢啲標準，就唔會得到呢  
26 一個額外嘅增薪點。

27 梁乃鵬先生：（經傳譯員）係，頭先我係講到增薪點㗎。

28 MR DUNCAN：（經傳譯員）你而家心目中個制度，會唔會都係要視乎安全表現  
29 㗎？

30 梁乃鵬先生：（經傳譯員）會㗎，好似我剛才都有講過，呢一個增薪點同埋係晉升去  
31 下一個級別唔會自動，要係考慮安全表現，同埋其他方面嘅表現，係會㗎。

32 MR DUNCAN：（經傳譯員）咁你決定咗你會點樣去評估安全表現未，即係喺呢一個

1 制度之下？

2 梁乃鵬先生：（經傳譯員）有㗎，我哋係有一個服務質素管理部，佢哋就係負責去監  
3 察所有巴士車長嘅表現嘅。咁喺呢一個時候，或者我可以請我哋有關嘅主管。

4 李澤昌先生：或者呢度可以補充少少先。

5 梁乃鵬先生：（經傳譯員）咁佢呢一個主管就可以話畀你聽，我哋點樣去監察巴士車  
6 長嘅表現嘅，咁之後就李生可以補充。

7 黃祥明先生：早晨，大家好，我係 James Wong，係呢個九巴嘅培訓及訓練部質素  
8 嘅主管，咁我係負責係訓練巴士車長嘅訓練，兼且係要監管佢哋個行為同埋操  
9 守。咁喺我嘅管理範圍裏面，我哋係會有不時係恒常嘅監測車長嘅行為，包括佢  
10 係喺行車上面有超速，或者係駕駛唔穩妥，呢方面我哋有黑盒嘅監管。

11 另外一方面，我哋係會有接到啲乘客嘅投訴，甚至無係個警察嘅控訴，從  
12 而知道呢個車長係有啲唔好嘅行為，或者係不遵守呢個交通規則嘅事件。喺呢方  
13 面，我哋係有呢個便衣嘅巡查，當我哋接到有乘客嘅投訴嘅時候，我哋係會安排  
14 我哋嘅便衣導師係上車，係親身去睇下呢個司機嘅駕駛行為，從而決定佢個駕  
15 駛態度，或者個技巧是否正確。咁喺頭先問我哋點樣去監管呢個車長嘅違規，咁  
16 我哋喺呢方面都係盡咗好多嘅努力，喺度做，我哋目標都係希望能夠達到安全駕  
17 駛。

18 其實我哋嘅駕駛訓練學校係有好唔同嘅，好多嘅方向嘅駕駛訓練。咁喺呢  
19 個基本訓練裏面先，我哋基本訓練就係會有分兩個階段嘅訓練，第一個階段就係  
20 令佢可以達得到呢個運輸署嘅駕駛執照；而第二個駕駛訓練，第二個階段，我哋  
21 係令佢--訓練到佢可以達到我哋九巴嘅訓練目標，可以出嚟服務呢個乘客。至  
22 於佢哋有啲唔好嘅行為嘅時候，我哋係會用唔同嘅方法去監察。

23 李澤昌先生：正如頭先講，其實我哋有好多渠道，到其時會同個車長多啲溝通，頭先  
24 你所講嘅，究竟係咪車長覺得呢一樣嘢係咪另外一種嘅監察佢個駕駛技術，從  
25 而有冇呢個所謂升職。咁我諗係--呢啲係我哋一定會聽取嘅意見，呢個都係我  
26 哋即係初步嘅提議，係向呢個方向行。咁日後，我哋應該同啲車長喺呢方面多啲  
27 溝通喇，呢啲意見最後都係一個綜合嘅意見。

28 MR DUNCAN：（經傳譯員）唔該晒，你講到嗰個監察巴士車長，我之後會繼續多問  
29 一啲問題，或者當我哋去到係呢個黑盒嘅時候，我哋會再問多啲呢方面嘅問題，  
30 感謝你剛才所作嘅回應。剛才就講呢個安全獎金，安全獎，嗰個就講完喇，我而  
31 家係想落去係另一樣嘢，但係都係同安全有關嘅，我就想請你係睇另一個文件  
32 夾，今次就係想睇呢個 KMB-6，2110 頁。你而家睇緊嘅應該係九巴嘅係管理架  
33 構，係你哋公司交界委員會嘅。

34 梁乃鵬先生：（經傳譯員）係。

35 MR DUNCAN：（經傳譯員）喺頂頭嗰度見到就係管理架構，上面嗰度就係李澤昌先

1 生，佢今日都係在席㗎；跟住就係見到就係呢個車務總監，就係梁健宏先生，佢  
2 今日亦都在席嘅；喺同一行，我哋就係有總經理，就係企業策劃同埋業務發展嘅  
3 蘇偉基先生，佢今日亦都在席嘅；喺車務總監下面，就有副車務總監，就係彭樹  
4 雄先生，今日亦都在席嘅；喺人力資源總監下面嗰度，係有黃祥明先生，佢剛才  
5 亦都答咗其中一條問題嘅，咁嗰度就係寫，嗰個部門就係培訓及服務質素管理  
6 部。

7 我就係想睇文件夾嘅另一頁，亦都係你哋提交嘅，呢個就係 KMB-3，708  
8 頁。呢個係嚟自週年報告，呢個就係載通國際，你哋嘅控股公司嘅週年報告嗰度  
9 係摘出嚟嘅，呢個係 2011 年嘅週年報告。708 頁裏面嘅其中一段，或者去番  
10 705 頁嗰度，就會見到佢嗰個標題，嗰度就講及就係嗰個車務嘅檢討，呢度就  
11 講係話照顧乘客，或者照顧你哋嘅係顧客。706、707 嗰度都有多個標題，去到  
12 708 嗰頁，嗰度有一個安全管理系統呢一個咁嘅標題。或者先睇一睇呢度嘅第  
13 一段，嗰度就話係九巴嘅企業安全政策嗰度講咗嘞，就九巴就係好希望係咗安全  
14 表現嗰度係持續係精益求精，而呢一個係安全嘅企業文化，就係你哋嘅係重點，  
15 你哋有一個非常之嚴謹嘅安全管治框架嚟到確保，係可以達致最高嘅安全表現水  
16 平，喺 2010 年成立，安全及服務質素部就係集中就係睇如何去提升呢個安全表  
17 現，同埋提供一個高質素嘅服務。跟住就係有提及如何去有呢一個職業健康  
18 同埋安全管理系統，就係呢一個 18001。

19 我想問，喺 2011 年嘅時候，係咪當時有一個安全及服務質量部？當時嘅  
20 情況係咪咁？

21 梁乃鵬先生：（經傳譯員）佢已經取代咗嚟嘞，係由培訓及服務質素管理部取代咗  
22 㗎。

23 MR DUNCAN：（經傳譯員）係，不過我哋而家想講番 2011 年，當時就係叫做係安  
24 全及服務質量部，㗎唔㗎？

25 梁乃鵬先生：（經傳譯員）係。

26 MR DUNCAN：（經傳譯員）請你去到同一個文件夾嘅第 775 頁，對唔住，774。我  
27 哋而家仲係睇緊呢個 2011 年嘅係報告㗎，你喺呢度你會見到就係主要嘅企業，  
28 係行政人員。

29 梁乃鵬先生：（經傳譯員）係。

30 MR DUNCAN：（經傳譯員）你睇番呢個名單，其中一位係關鍵係企業係行政人員，  
31 你會見到係一位 Gary Wong 先生，佢就係負責呢一個係安全及服務質量部。

32 梁乃鵬先生：（經傳譯員）係。

33 MR DUNCAN：（經傳譯員）好，我哋又睇番跟住嗰年，2012 年嘅週年報告，我相信  
34 就可以喺同一個文件夾嘅第 995 頁嗰度係見到，喺嗰一頁亦都可以見到就係話  
35 關鍵嘅係企業，行政人員，黃先生就係有個名係寫咗嚟㗎，佢就係安全及服務

1 質量部嘅主管，係咪呀？

2 梁乃鵬先生：（經傳譯員）係。

3 MR DUNCAN：（經傳譯員）我而家去九巴嘅第四個文件夾嗰度，首先去 1202 頁。  
4 1202 頁。1202 頁，喺呢度可以再見到就係黃先生個名，咁佢都係安全及服務  
5 質量部嘅主管？

6 梁乃鵬先生： Yes.

7 主席：（經傳譯員）我就想問，呢個係邊一年嘅週年報告？

8 MR DUNCAN：（經傳譯員）2013 年，即係我話畀你聽係 2013 年嘅報告。我想睇番  
9 我哋今朝已經睇過嘅一頁嘅，係 KMB 文件夾 9 嘅 3855 頁。呢個就係講傑出服  
10 務表現獎。

11 梁乃鵬先生： Outstanding service award.

12 MR DUNCAN：（經傳譯員）係，睇到嗎？

13 梁乃鵬先生：（經傳譯員）係，我喺螢光幕上面睇到嘞。

14 MR DUNCAN：（經傳譯員）呢度就係分發嗰個名單，就包括係安全及服務質量部嘅  
15 主管，你可以見到就係嗰個係分發畀邊一個嗰個名單嗰度，係右手邊個欄。

16 梁乃鵬先生： Yes.

17 MR DUNCAN：（經傳譯員）大概係數落嚟第六行嘅喇。

18 梁乃鵬先生：（經傳譯員）係。

19 MR DUNCAN：（經傳譯員）好，而家就去文件夾嘅四，今次麻煩你去睇 1410 頁，  
20 1410 頁，呢度都係關鍵嘅企業行政人員，呢個係 2014 年嘅週年報告嘅資料嚟  
21 嘅。今次就睇唔到係有提及安全及服務質量部主管，啱唔啱？

22 梁乃鵬先生：（經傳譯員）係。

23 MR DUNCAN：（經傳譯員）我諗你較早時候，作證嘅時候講過嘞，就係呢一個部門  
24 就係喺某一個時候就係有其他係取代咗，係咪呀？

25 梁乃鵬先生：（經傳譯員）係。

26 MR DUNCAN：（經傳譯員）委員會就係聽取咗啲係證供嘅，唔知你知唔知，就關乎  
27 Gary Wong 先生，黃嘉峰（譯音）先生，佢喺 2015 年嘅時候，佢係解僱咗，  
28 啱唔啱？

29 梁健宏先生：冇錯。

MR DUNCAN：（經傳譯員）呢個係咪亦都同呢個安全服務質量部唔再存在，個時間上係一樣？

梁乃鵬先生：講喇，繼續講。

梁健宏先生：呢個部門嗰啲工作就當其時嘅車務總監，Mr Owen Eckford 就因為當其時呢個部門嘅做，對於個巴士機件係唔識嘅，對於個車長嘅溝通係做得唔好。咁有個決定，就將呢個部門嘅工作就提升畀兩位車務副總監去處理嘅，其中一位就係我本人。喺硬件嗰方面，就我好熟悉，我喺九巴做咗好多年，都係喺工程部，喺巴士嗰度，所以變咗巴士硬件，巴士嘅安全嗰方面，我可以做多啲嘢嘅。咁之前嗰個部門對於巴士嗰個認知係冇嘅，係唔足夠嘅，至於呢個部門之前同車長嘅溝通係不好嘅，亦都收到好多車長嘅不滿嘅聲音嘅，應該可以再做得好啲。例如有啲個別嘅彎位，佢提議有啲咁嘅建議，好多車長亦都覺得係不切實際嘅，呢個就其中一個例子，佢提議有啲彎位就指名一啲咁嘅轉彎嘅速度，咁個速度就記住喺張卡嗰度，咁令啲車長就記住嗰個速度，咁呢樣嘢對於一個我哋嘅專業車長，係不切實際，比較混亂㗎，呢個其中一個例子。咁取消㗎，或者將呢個功能併入咗車務總監之後，就會強化咗個功能。

喺車箱嗰方面，喺硬件嗰方面，我哋做咗好多嘢，車箱設備，當其時好多車長對於除霧設施或者防霞氣，英文就 demister，就好多嘅意見嘅，就不滿嘅，咁當其時亦都做咗一系列嘅東西，去令致到點樣長遠咁解決呢個問題。亦都有啲新嘅黑盒嘅監察報告，亦都可以做到出嚟，車箱入面嘅貼紙亦都更加條理，整理好。CCTV 嗰度，我哋亦都會加強去裝，當然係安裝呢個 CCTV 亦都面對好多嘅困難，亦都要同車長溝通，咁我哋呢度慢慢、慢慢咁樣做。當然個車嗰個硬件嗰度仲有好多嘢嘅，包括有啲點樣用可以幫助到車長嘅設施，我哋亦都喺呢一年、半年亦都同業界，同製造商好多嘅商討，我哋亦都同一啲學校，一啲巴士製造商，點樣樣令致到我哋巴士安全更加可以做好啲。總總而言，硬件嗰方面，就提升咗好多，我哋注重硬件嗰方面。喺硬件嗰方面，任何可以提升嘅，我哋都會保持一個開放嘅態度去考慮。喺呢一方面，硬件嗰方面，呢幾年就住安全嗰部分係提升咗好多，我哋亦都會繼續朝住呢個方向係做嘅。

至於喺營運嗰方面，亦都有副車務總監，另外一位副車務總監係去睇住營運嘅，咁就住營運嗰方面，道路嘅安全都好重要。車長每日面對嘅工作環境，喺點樣安全，多多方方面面都緊要嘅，包括設施，路面嘅設施，站頭嘅設施，路面嘅擠塞情況，呢啲都對安全係有好大嘅關連嘅。休息時間亦都係一個好重要嘅元素，我哋亦都希望人性化處理，就住營運嗰方面，同車長嘅溝通，去喺呢方面提升駕駛安全。

至於監察同埋安全培訓紀律嗰方面，我哋喺 2017 年 9 月就成立咗個新嘅部門，當其時有新嘅部門，就係質量及服務質素管理部，咁佢就負責車長嘅訓練，新車長嘅訓練，安全嘅培訓，remedial training，監察，紀律等等嘅工作，希望全面提升包括硬件、軟件，喺安全嘅範疇嗰方面嘅表現。咁亦都睇到，喺呢個部門提升到喺副車務總監層面嘅處理之後，喺交通意外受傷率都有改

1 善嘅，咁我哋都希望呢個工作，我哋可以繼續努力咁再做好啲，再做落去，多  
2 謝。

3 李澤昌先生：即係總括而言，其實就係基本上嗰啲員工都係同一班人嚟嘅，只不過可  
4 能嗰個 head 係唔喺度嘅啫，咁仲有都係主要都係講緊一個跨部門嘅方式，係處  
5 理呢個 safety 同埋 service，呢個 quality 方面，咁其實過去呢幾年，我  
6 諗阿梁生就主要講咗呢樣嘢。

7 MR DUNCAN：（經傳譯員）好多謝你，咁即係話，如果我理解正確，安全及服務質  
8 量部係 2010 年成立㗎，佢以呢一個方式存在，係直至 2015 年，咁樣正唔正  
9 確？

10 李澤昌先生：冇錯。

11 MR DUNCAN：（經傳譯員）我哋睇到 2011 年嘅週年報告，呢一個部門就係集中去  
12 提升公司嘅安全表現，就好似喺個報告裏面講，就希望係提供有質素、高質素嘅  
13 服務。除咗黃嘉峰先生之外，呢一個安全及服務質量部多時有幾多人手？係  
14 2010 年至到 2015 年嘅時候？

15 李澤昌先生：少過十個人。

16 MR DUNCAN：（經傳譯員）有冇任何一位，即係喺你而家呢個管理架構裏面，就係  
17 要負責安全呢件事？即係公司嘅安全，係邊一位，喺你而家管理架構負責？

18 蘇偉基先生：而家公司個架構其實基本上每一個部門當然都有佢嗰個安全個意識，亦  
19 都有佢安全個責任。咁我哋亦都喺舊年 9 月成立咗個部門，其實佢喺人事部嗰  
20 度係分拆出嚟，嗰個部門就叫做培訓及質量保證部，咁隔離位同事就係我哋當時  
21 個——而家個主管，咁佢係負責多方面嘅，但係佢都係講緊培訓車長，硬件嗰方  
22 面，正如頭先梁生講，都係留番畀工程部去睇住嘅，因為安全係有分硬件就係架  
23 車嘅設施、穩定性；人嗰方面，就係佢駕駛嘅技術咁樣嘅。咁喺嗰個培訓及品質  
24 保證部亦都係提升咗好多喺軟件、培訓、員工表現嗰方面嘅，咁呢度我就交界阿  
25 黃生去介紹番。

26 黃祥明先生：咁其實安全就並非一個公司、一個人去負責，而係我哋公司每個人都要  
27 確保自己個工作安全，包括係個職業安全，或者佢嗰個車長嘅駕駛安全。咁喺我  
28 個部門，我主要就係管理啲車長佢嘅駕駛安全，咁由佢哋受訓開始，我哋已經係  
29 開始係要佢著重呢個駕駛安全。咁我睇呢個訓練係有三——車長嘅方面，佢首先  
30 一定要駕駛技巧安全；第二，就係駕駛嘅態度安全；再而，就係佢嘅駕駛嘅認  
31 知，即係話佢對公司，或者香港嘅道路要熟悉，呢個安全。咁我首先著重就係個  
32 駕駛嘅技巧，因為如果佢有呢個技巧，根本上佢唔能夠操控一部咁大嘅巴士。

33 咁由我加入呢個九巴到而家，九巴已經由六十五位導師，增加到而家有嘅  
34 八十一位嘅導師。咁呢八十一位嘅導師就佢哋要做導師嘅資格並非簡單，佢要喺  
35 十年就係有呢個駕駛巴士嘅經驗，就並無干犯一啲嚴重，需負責任嘅違規嘅駕駛

1 嘅意外。同時當然佢要表現良好，因為佢負責日後要教導一啲新嘅學員。咁我而  
2 家增進咗有八十一位導師之後，我哋個駕駛係著重喺個學員嗰個達標嘅訓練，咁  
3 喺佢頭嗰段嘅訓練嘅時候，我哋要確保佢係能夠有個資格，係獲得運輸署嘅發畀  
4 佢嘅一個專利巴士嘅駕駛執照，所以呢個係由運輸署嗰邊係確認我哋學校能夠做  
5 到呢個目標。喺佢獲得呢個駕駛執照之後，佢係會繼續進行我哋嗰個九巴嘅訓  
6 練，目的就係佢要認知我哋喺九巴個行駛路線，同埋點樣配合番香港嘅道路嘅運  
7 作。

8 頭先我講過，佢哋嘅駕駛態度亦都係一個重要嘅範疇之一，咁喺呢個駕駛  
9 嘅態度，好多時都係來自車長本身嘅壓力，或者佢哋嘅心理質素。咁由於我哋要  
10 提升佢嘅心理質素，其實喺 5 月嘅時候，我哋已經係同呢個中大嘅心理專家，  
11 已經係達成咗一個合約，有合作性，就係我哋就搵佢哋協助我哋去了解車長嘅工  
12 作上面嘅壓力，從而減省佢哋--減低嗰個受壓嘅心理質素，然後提升佢嘅心理  
13 質素，令佢能夠有個安全嘅駕駛態度。呢個計劃我哋係繼續進行緊，咁呢段期  
14 間，中大嘅心理專家已經係向我哋車長或者前線嘅同事，係探討咗佢哋工作上嘅  
15 困難，我哋希望喺呢度日後會有個好啲嘅結果，可以令到我哋嘅導師可以根據佢  
16 哋嘅方向，去訓練我哋嘅車長，而提升佢個心理質素。

17 至於個認知方面，我亦都係需要佢係認識我哋九巴嗰個運作，了解我哋有  
18 啲乜嘢可以幫到佢，從而提升喺駕駛方面嘅安全。

19 李澤昌先生：咁有啲要補充嘅，就係頭先講到係喺安全嗰個方面係跨部門，咁除咗係  
20 即係車長嗰方面，我哋嗰個駕駛學院要做多啲工作之外，仲有係一個車嘅硬件方  
21 面，喺個車個硬件嘅配置，其實都確確實實係一個即係好重要嘅一環嚟嘅。

22 過去嗰一年，即係我同梁生本人嗰兩年都去咗即係喺嗰個車嘅--喺外國嗰  
23 啲巴士嘅車展，都認識多啲關於巴士嘅安全嘅配置。喺上年嘅秋天，我哋亦都同  
24 咗一啲即係喺呢個 Belfast 嘅 Queen's University 同埋一間 Wright 嘅一  
25 間 manufacturing，就作為一個--有一個交流性嘅一啲嘅行動，就我哋就派  
26 咗我哋自己嘅員工去嗰邊學習，係點樣可以做多啲，研究多啲，點樣可以幫--  
27 喺架車裏面，喺架巴士裏面，幫到駕駛嘅時候嘅安全，咁佢哋都有佢哋嘅  
28 professor，同埋佢哋嘅 research 嘅人亦都過咗嚟九巴，亦都會--將來都會  
29 係多啲同我哋一齊喺呢方面嘅合作，就研究一下，喺個車個硬件方面，可唔可以  
30 做多啲，更加多啲嘅工作，喺呢個未來，可以幫到個車長行駛嘅時候有更加多嘅  
31 支援。呢個東西其實已經係展開緊嚟嘅，咁我相信喺未來，喺硬件方面，同埋配  
32 合埋頭先我哋嗰個駕駛學院，係可以會喺呢方面會做多啲安全嘅嗰方面嘅工作。

33 主席：（經傳譯員）有冇一啲特別嘅裝置，你係同皇后大學係講過嘅？

34 李澤昌先生：有好多方面嘅，主要係兩方面，第一方面就係基本上就係喺個車個運作  
35 裏面嘅時候，有啲咩嘢方式可以令到架車更加係行得順暢一啲，呢個係一方面；  
36 另外一方面就係，點樣諗一啲方法，譬如而家好多喺坊間我哋買嗰啲硬件都係喺  
37 個即係第三者嗰度買番嚟，好多時候係唔係喺個巴士裏面，係應用嘅時候有一個

1 難度。因為巴士本身佢係--特別係雙層巴士，係只有得兩至三間嘅公司係做，  
2 所以佢嘅競爭能力即係係非常之唔大嘅，所以我哋一定要搵一啲--即係係一啲  
3 有技術性嘅 institutes，其實 Belfast 係差唔多係唯一一間大學，係做呢個  
4 雙層巴士嘅研究，喺個機械工程裏面。佢有幾個工作做嘅，或者我呢個時候畀梁  
5 生，我哋個營運總監，車務總監解釋一下。

6 梁健宏先生：或者希望大家睇睇有個 paper，就 190 嘅。

7 主席：（經傳譯員）係。

8 梁健宏先生：咁呢度就講到頭先李生所講嘅，我哋九巴同呢間 Queen's  
9 University，喺 Belfast 嘅，咁同呢間 Queen's University 嘅有個合  
10 作。W-Tech 就係呢間 university 同個 Wrightbus 轄下有個 technology  
11 個 foundation 去做嘅。咁佢有個 project，咁我位同事，我哋個工程師，我  
12 哋有位盧（譯音）生，佢上個月月尾就去咗呢間 university，同佢哋合  
13 作，佢就 as 一個 visiting researcher 去參與呢個 project 嘅，咁呢個  
14 project 亦都有佢北愛爾蘭呢間 university 嘅 researcher 一齊去做嘅。  
15 咁 guiding 嗰啲 professor 亦都喺上個月，有兩位嘅，亦都嚟過九巴，亦都  
16 同佢傾談過，佢亦都知道香港嘅巴士運作，佢亦都知道--我哋都介紹畀佢知我  
17 哋面對嘅情況，喺安全問題，點樣樣可以喺硬件嗰方面可以做好啲。

18 所以講番呢個合作嘅內容，基本上就係一個 holistic，一個整體嘅去睇  
19 一睇有咩嘢嘢，喺硬件嗰方面，無論喺提點車長，包括個車長係咪--佢嘅注意  
20 力，或者其他方面，交通狀況，當其時個駕駛態度，會唔會可以令到個車長知  
21 悉，呢樣就係一個比較 alert 佢嘅。咁亦都有啲就係更加再進一步，有啲嘢嘢  
22 嘢可以架車嗰方面，雖然佢個車長，有啲嘢嘢可以令到--糾正番佢個可能有  
23 啲唔係幾好嘅行為，咁呢樣嘢咁就同嗰個 project 喺度再做。嗰度包括好多樣  
24 嘢嘅，有啲又睇番文件本身，就好多樣嘢，硬件、軟件都有。

25 但係點解同呢間公司合作，或者點樣樣參與呢個 project，正如頭先李生  
26 所描述，呢樣嘢就真係成架車內容包含嘅設備，咁佢就一個整體嘅設備，咁好多  
27 設施都可以喺設計嗰方面，可以應用到喺我哋香港嘅。當然做完咗之後，呢樣咁  
28 嘅設施，或者呢個咁嘅規格，或者定咗咁嘅標準，所謂，因為其實而家就有標準  
29 嘅，唔係好似私家車咁，好多啲安全設施，好多私家車而家其實好多都有嚟嘞，  
30 但係唯獨是雙層巴士，我哋面對一個困難，亦都有時都希望有啲嘢設備，有啲新  
31 嘅技術，睇下我哋雙層巴士可唔可以有，但係好多時都唔係咁容易可以做到。

32 李澤昌先生：或者咁，我即係喺 2015 年入行，我基本上每一年都會去歐洲同嗰兩間  
33 巴士公司係有傾偈，我個人感受就係，其實即係好似梁生講，佢同私家車係好唔  
34 同，好多私家車嘅設施，其實喺雙層巴士係好難說服嗰啲巴士嘅製造商去做呢樣  
35 嘢，可能因為佢個競爭性嘅問題，佢或者唔需要做定係點樣喇，我唔會詳談呢  
36 度，但係係真係有個好大嘅難度。我去過呢個北愛爾蘭，我亦都好深信  
37 Queen's University 呢班即係研究嘅學院，同埋 Wright 呢間公司係好有呢

1 個做巴士嗰種心，好有 passion，我相信即係九巴同佢喺呢個合作，我好希望  
2 呢一個嘢做咗出嚟之後，我一定會係有信心㗎嘞，希望呢件嘢可以除咗幫助九  
3 巴，亦都可以幫助我哋呢個業界未來喺呢方面做得好啲，呢個係非常之有意義嘅  
4 一個舉措㗎，我哋九巴真係喺呢方面係即係呢個 project 係寄予厚望。

5 但係與此同時，其實九巴自己本身都有一班即係年青嘅工程師，喺嗰嗰講  
6 到嘅 safety 方面，其實過去我哋都研究咗好多嘢嘢，例如呢個太陽能嘅東  
7 西，放喺個巴士嗰個頂嘅上邊，咁呢個其實係真係幫助到好多車長，佢喺天時熱  
8 嘅時間，係返到架車嗰度，係因為佢要--你講緊天時熱泊低架巴士嘅時間，其  
9 實架巴士嘅溫度係相當之熱，因為好似一個即係 greenhouse 咁樣，即係曬到  
10 成 50 度。咁巴士司機好多時係要著嗰個引擎，然後佢要等到架車凍到某一個溫  
11 度，佢先至可以行得，咁個時間係長，亦都係非常辛苦，亦都我哋覺得佢哋要諗  
12 多少少嘢。咁嗰個太陽能嗰個板擺咗去之後，而家已經去到一個即係第二個階  
13 段，咁我哋相信，因為泊低架車嘅時候，用個太陽板係令到嗰架車個溫度係減低  
14 咗好多，當佢去休息，或者食完飯返嚟嘅時間，佢著番架車個時間就會短咗好  
15 多，即係佢冇咁疲累。雖然呢啲少少嘅研究，其實已經我哋下一次，呢個已經係  
16 未來九巴嘅標準安置，即係話我哋新嘅巴士已經係同我哋啲生產商，希望佢擺個  
17 個太陽能板喺上邊，因為香港嘅天氣實在太熱，我覺得如果呢樣嘢係--呢樣嘢  
18 會嚟緊 2019 年所有嘅雙層巴士都會有個太陽能板喺上邊，係減低咗呢個溫度，  
19 會係--呢個係成功咗，係減低咗好多，我覺得呢啲咁嘅...

20 主席：（經傳譯員）李生，我諗我哋明白你嘅，我諗我哋明白你嗰個論點，或者我係  
21 等間會小休二十分鐘。而家我首先想係請你就係畀番一份係可以睇得到嘅文件，  
22 即係呢個 190 頁，嗰個係 W-Tech，可能係原本係用顏色嚟到打印，所以就睇得  
23 唔係幾好，或者就可唔可以畀一份容易啲睇嘅文件我哋睇睇？

24 而家首先係休息二十分鐘，唔該。

25  
26 上午 11 時 37 分聆訊押後

27  
28 中午 12 時正恢復聆訊

29 出席人士如前。

30  
31 主席：（經傳譯員）鄧樂勤大律師。

32 MR DUNCAN：（經傳譯員）好，唔該你主席先生。梁博士同埋你嘅同事，想請你睇  
33 番 KMB-1，188 頁。應該睇緊就係九巴寫畀委員會嘅一封信，日期係 2018 年 5  
34 月 23 號，睇到嘛？

1 梁乃鵬先生：（經傳譯員）係。

2 主席：（經傳譯員）呢個係咪就係剛剛我哋小休之前所提及嘅證供，就係你哋話同公  
3 司從呢個 W-Tech 嘅合作？

4 梁健宏先生： Correct.

5 MR DUNCAN：（經傳譯員）或者我想請你睇一睇第 188 頁嗰封下面三分二嘅，你呢  
6 度就話該次會議嗰個目的，就係希望係討論係咪可以喺九巴同埋龍運嘅車隊嗰  
7 度就係有一啲係高級嘅協助司機嘅系統，跟住你就有講到呢個合作有啲咩嘢嘅  
8 係目標，有三點。

9 第一，就係話係完一個技術可行性評估，就評估一下佢嗰個係商業應用或  
10 者商業應該之前一啲係協助司機嘅技術，而係可以跟番呢個 Wrightbus  
11 Streetdeck 框架。咁另外就係話建議一個適用高級協助駕駛，或者係車長制  
12 度嚟到喺九巴同埋龍運嗰度係去，咁係跟番呢個評估。第三，就係有一個係路  
13 線圖嚟到去落實呢一點。我想問目前九巴嘅車隊有冇呢一啲係 Wrightbus 車輛  
14 呢？

15 梁健宏先生：現時有一部正進行 prototype，至於車身嗰方面 Wrightbus 喺我哋  
16 嗰度有好多 bus body on Volvo chassis，就有幾百個。

17 MR DUNCAN：（經傳譯員）除咗係 Wrightbus 之外，我想問喺九巴嘅車隊仲有啲乜  
18 嘢係巴士製造商嘅巴士呀？

19 梁健宏先生： Sorry, please repeat your question.

20 MR DUNCAN：（經傳譯員）我想問係有啲係乜嘢嘅巴士車廠製造巴畀你哋係組成你  
21 哋嘅車隊呀？係邊啲巴士製造商？

22 梁健宏先生：有其他製造商，包括 ADL、Volvo 同埋 MAN，至於最主要都係 ADL 同  
23 Volvo。

24 MR DUNCAN：（經傳譯員）富豪、猛獅同埋 ADL，ADL 就亞歷山大丹尼斯，啱唔  
25 啱？

26 梁健宏先生：（經傳譯員）啱。

27 MR DUNCAN：（經傳譯員）基本上係有三類，係咪嘞？車隊裏面基本上係呢三間  
28 廠，係咪呀？

29 梁健宏先生：（經傳譯員）啱。

30 MR DUNCAN：（經傳譯員）喺大埔意外所涉及嘅巴士，係咪 Wrightbus 嘅車嚟㗎？

31 梁健宏先生：嗰啲係一個 Volvo 底盤配 Wrightbus bus body 嘅 double-  
32 decker。

1 MR DUNCAN：（經傳譯員）你哋嗰度有幾多部巴士就有咁樣嘅配置呀？富豪或者  
2 猛獅丹尼斯嘅底盤，咁而車身呢就係 Wrightbus 嘅車身呢？

3 梁健宏先生：確實數字我有喺手，不過大約有接近八百、九百架。

4 MR DUNCAN：（經傳譯員）你車隊總數係幾多呀？

5 梁健宏先生：我哋總共連埋龍運、九龍巴，總共接近四千三百個。

6 MR DUNCAN：（經傳譯員）可唔可以再解釋一下 Wrightbus 嘅原形 prototype 係  
7 乜嘢嘢？

8 梁健宏先生：嗰架一架係底盤同埋車身都係 Wrightbus 嘅製造嘅，係一架 two-  
9 axle 兩車軸嘅雙層巴士。

10 MR DUNCAN：（經傳譯員）你哋呢個合作嘅協議，即係你哋同 W-Tech 係達成一個  
11 合作嘅協議，我想問係咪你哋打算公司就係會買咁樣形式嘅 Wrightbus 嘅巴  
12 士呢？

13 梁健宏先生：No.

14 MR DUNCAN：（經傳譯員）咁唔係嘅話，係打算係有啲乜嘢嘅成果呢？又或者你哋  
15 係會有啲係乜嘢巴士呢係會安裝一啲高級嘅係咩嘢司機協議制度呢？

16 梁健宏先生：呢個係一個睇睇有咩嘢設施，將來有啲咩嘢嘢，對於幫助到巴士安全係  
17 有咩嘢嘢可以喺佢哋嘅 Wrightbus 嗰度可以做到，而呢樣嘢係因應番，考慮番  
18 香港嘅巴士運作，亦都希望將來呢個成果如果係做得到嘅話，將來香港嘅巴士  
19 都可以受惠，但係呢個只不過係一個研究，正式落實嘅呢都言之尚早。

20 呢個係一個係同學術嘅研究，我哋派咗位工程師同 Queen's  
21 University 喺 Belfast，就做一個 research，一年嘅 project，去睇睇有  
22 啲咩嘢嘢係可能將來係適用到喺雙層巴士，in this particular case 就係  
23 Wrightbus，但係亦都唔排除呢樣嘢我哋亦都好希望，將來呢樣咁嘅安全設備  
24 變成一個標準嘅安全設備，希望所有其他嘅巴士製造商都會參與或者利用呢個  
25 咁嘅提升巴士安全。

26 MR DUNCAN：（經傳譯員）你可唔可以幫我哋手解釋一下，你就話用呢個談富豪嘅  
27 底盤，咁而嗰個係 Wright-tech (Wrightbus?) 嘅車身，可唔可以解釋一  
28 下呢？

29 梁健宏先生：底盤就係真係即係有車軸，三個車軸，咁就引擎，有全動系統，咁就有  
30 個 driver's cab。咁至於個 bus body，就係 on top of 個 chassis，包  
31 括車身、flooring、seats、air-conditioning，呢啲就係個 bus  
32 body。嗰個 bus body 就係 by Wrightbus，而個底盤 chassis，個底盤就  
33 係 by Volvo。

1 主席：（經傳譯員）咁兩者喺邊一度結合呢？嗰個底盤同個車身。

2 梁健宏先生：可以喺唔同方法，喺唔同地方，咁呢架如果頭先所提及到嗰架，就應該  
3 係喺英國，喺 Wrightbus 嗰度，喺 Wrightbus 製造嘅。

4 陳祖澤先生：（經傳譯員）主席，如果容許嘅話，我想係澄清一下，嗰個底盤可以呢  
5 係有不同嘅車身。

6 主席：（經傳譯員）係，我明，我個問題係喺邊度呢係結合埋一齊呢？竊埋一齊呢？

7 陳祖澤先生：（經傳譯員）可以喺原本個車廠嗰度，巴七製造商嗰度，又或者可以喺  
8 第二度組裝，喺過往我哋九巴有我哋自己嘅巴士組合嘅工作，我哋亦都有喺中  
9 國嗰度係組裝嘅巴士，亦都有喺唔同嘅地方組裝過嘅巴士。

10 主席：（經傳譯員）好，唔該晒。

11 MR DUNCAN：（經傳譯員）你話可以由原廠去做，咁今次嚟講就屬於係富豪定抑或  
12 係 Wrightbus 去做呢？

13 李澤昌先生：其實佢個底盤，如果係譬如一個 Volvo 嘅底盤，如果嗰個 body 係  
14 Wright 嘅呢，佢有兩個可能性，一，佢就會將呢個底盤 ship 咗去北愛蘭  
15 Belfast，佢就會將佢個殼就嵌咗，bus body 就嵌咗喺嗰個底盤度。咁其實呢  
16 個係一個好複雜嘅工作，因為佢個底盤同埋佢個 bus body 係要做好多嘅研  
17 究，因為佢個扭力同埋等等嘅嘢。

18 亦都有啲情況，佢就喺馬來西亞，Wright 有個 plant 喺馬來西亞，就做  
19 呢個 bus assembly 嘅工作。咁即係其實 Volvo 嘅底盤亦都嵌咗喺  
20 Gemilang 都有嘅，有幾隻牌子都有嘅。咁好嘞底盤 Volvo 係主要做底盤，咁  
21 Wright 係一個 body 嚟，咁佢係 Wright 佢本身有自己研發嘅底盤，Wright  
22 都有自己研發嘅底盤，但係暫時我哋就只有一架，就係而家做緊測試呢架。

23 咁因為有一架巴士有底盤，同埋有一個 body，你先至可以研究到呢個  
24 ADAS 呢個 system。因為你有實際架車你先可以咁做，但係呢個如果研究咗呢  
25 個 ADS system 之後，其實呢個 system 可以喺任何一架巴士都會係一個東西  
26 係用到。

27 MR DUNCAN：（經傳譯員）個好處係咩嘢呢？Wrightbus 嘅車身用佢而唔係用晒成  
28 部富豪有咩嘢好處？

29 李澤昌先生：我或者再補充少少，其實 Wrightbus 今日，佢個底盤係做唔到三  
30 軸，因為佢喺英國好多都係 Wrightbus 嘅 body，亦都有 Wrightbus 嘅底，  
31 但係佢只能夠做到兩軸，而香港嘅巴士係三個軸為主，因為三個軸因為佢載個  
32 量比較大，同埋佢後面有一個好龐大嘅冷氣，佢就壓嘅重量好犀利。即係香港  
33 個道路有個標準，就係每一個 axle 佢盛載嘅重量係唔可以超過咁多，所以香港  
34 嘅巴士大部分我哋九巴都用一個三軸。

1 咁 Wrightbus 佢有 body 亦都有佢嘅底盤，呢個有啲似 ADL，ADL 就  
2 complete 係一個 body 同底盤都係佢自己嘅嘢嚟嘅，咁唯獨是 Wrightbus 未  
3 研發到有三軸嘅時候呢，我哋而家香港唯一有咁架試緊 Wrightbus 有個底盤個  
4 個係兩軸嘅，咁但係 Volvo 有就三軸，所以 Wrightbus 個 body 就嵌咗喺  
5 Volvo 個個底盤上面。

6 歐陽先生：（經傳譯員）我諗佢問咗我嘅問題，唔該你主席先生，鄧生已經問咗我嘅  
7 問題嘞。

8 MR DUNCAN：（經傳譯員）講番呢個係企業架構，我哋唔需要睇番個文件，黃先  
9 生你剛才係提過好多係關於訓練培訓嘅責任。當然呢一個係屬於培訓及服務質  
10 量管理部，我想問公司裏面邊一個係負責係監察，唔單單係車長嘅培訓，係睇  
11 埋車長嘅表現，特別係車長嘅安全表現呢，邊個嘅責任嚟嘅呢？

12 彭樹雄先生：係，Mr Duncan，或者我回答呢個問題，其實喺監察啲車長個個安  
13 全，其實我哋係分咗唔同嘅 level，或者唔同嘅同事係去處理嘅。咁其實我哋  
14 每一輛嘅巴士裏面呢，我哋都有一個俗稱所謂黑盒嘅一個工具。咁我哋係每一  
15 個禮拜我哋都係會有一個我哋所謂嘅 monitoring report，一啲嘅數據出咗  
16 嚟，咁佢主要就包括咗有三樣嘅主要數據。

17 第一，就係超速；第二，就係一啲突然嘅加速，sudden  
18 acceleration，同埋最後就係一啲突然嘅減速，我哋叫做 harsh  
19 braking。咁我哋車廠嘅管理人員，佢哋係會每個星期就睇番，其實而家我哋  
20 做到就係話，我哋可以睇番黑盒前四日嘅數據，咁呢一樣嘢呢，其實我哋嘅同  
21 事呢係每一日第一樣嘢做嘅呢，就係會去分析，特別係 speeding 我哋個超  
22 速，咁呢個超速呢我哋係包括超速 50 公里，同埋 70 公里。

23 另外喺個個突然加速或者突然煞車個度，其實我哋亦都有個數據，就係可  
24 以睇得到個別車長，因為我哋會出一啲叫做 exception reports，咁我哋亦  
25 都睇到有冇啲個別車長，個個駕駛個個嘅行為係值得我哋關注，咁我哋車廠管  
26 理如果睇到有某個車長，喺某個時段個個駕駛態度可能覺得值得我哋關注，我  
27 哋第一時間我哋就係會勸喻呢個車長，我哋搵一啲前線嘅督導人員，亦都係會  
28 同啲車長傾偈，睇下有冇啲咩嘢特別嘅嘢。

29 另外就住個個超速，咁我哋亦都係會將一啲超速嘅案件，我哋係會即時交  
30 畀我哋個 training and quality assurance department，佢哋亦都  
31 係會作出個個跟進，或者稍後喺超速個度，或者黃生可以有多啲嘅補充。咁我  
32 想講就係呢啲黑盒嘅數據，係我哋會保存，我哋會檢視，同埋我哋亦都係會跟  
33 進。

34 彭樹雄先生：其實個問題呢，就係邊個有責任？你就講咗啲車廠就做咗啲乜嘢，咁  
35 有啲咩嘢人員喺個度？

36 主席：（經傳譯員）個問題就係邊個係，唔係邊個應該。同埋唔該你可唔可以講慢

1   啲。

2   彭樹雄先生：Okay，我哋車廠個管理層，就由邊度開始呢？就係由我哋嗰個車務主  
3   任嗰個嘅層面開始。我哋車務主任呢，我哋叫做 operations officer，咁就  
4   係每一個屬廠，同埋每一個屬區，我哋叫做 zone。整體嚟講，我哋 KMB 我哋有  
5   四個主要大嘅車廠，咁包括荔枝廠、包括九龍灣廠、包括沙田廠，同埋屯門  
6   廠。

7   當然仲有龍運巴士，咁呢啲每一個廠，我哋其實都係有啲 boundary，即  
8   係一啲界限嘅劃分，佢哋負責唔同嘅區域，咁每一個區域，我哋係會有一個助  
9   理經理，或者經理級嘅同事係去負責，咁我哋叫呢啲做 manger 或者係  
10 assistant managers，咁佢每一個經理或者助理經理嘅下面，佢亦都有唔同  
11 數量嘅車務主任，operations officer。

12   咁我哋亦都係呢啲 operations officer 佢哋每一日返工做第一樣呢，  
13   佢就係會睇番之前諗四日嗰個黑盒嗰個嘅資料。咁剛才我講咗嘞，就包括超  
14   速，突然加速，或者係突然咁煞車。咁呢個責任亦都係我哋個車務主任，同埋  
15   啲助理經理每日都會做嘅。

16 MR DUNCAN：（經傳譯員）咁有幾多位呢啲車務主任呢？喺每一個車廠嗰度有幾多  
17   位呢？

18   彭樹雄先生：我哋總體嚟講，我哋每一個嘅廠，視乎嗰個廠嗰個嘅大細，可能有啲有  
19   六至七個嘅車務主任，亦都可能有三至四個嘅車務主任。整體嚟講，去處理呢  
20   啲數據，其實約莫有大約三十七個同事呢，係會處理呢啲嘅數據嘅分析等等。

21   主席：（經傳譯員）你有冇一個圖表或者一個地圖，可以畀我哋睇到每一個車廠負責  
22   嘅區分呢？

23   彭樹雄先生：主席，容誰我可唔可以喺會後或者喺個今日...

24   主席：（經傳譯員）你可唔可以答得定唔得？

25   彭樹雄先生：可以，絕對可以。

26   主席：（經傳譯員）好，唔該晒。請你儘量回答得或者唔得。

27   彭樹雄先生：好，主席。

28   主席：（經傳譯員）你可唔可以畀一個咁樣嘅圖或者圖表，或者地圖嘅副本畀我哋，  
29   你會唔會咁做？

30   彭樹雄先生：（經傳譯員）我會。

31   主席：（經傳譯員）好，大律師。

32 MR DUNCAN： Now, the operations officers presumably report to

1 the depot manager; would that be correct?

2 彭樹雄先生：係，冇錯。

3 MR DUNCAN：（經傳譯員）咁呢啲車廠經理又向邊個報告呢？

4 彭樹雄先生：我哋其實每一個 depot，都會有一個資深嘅總經理，又或者經理佢係  
5 去負責統籌呢四個車廠，同埋龍運巴士嗰個嘅運作。咁而呢五個資深嘅總經  
6 理，又或者經理呢係直接向我負責。

7 MR DUNCAN：（經傳譯員）之後我會再講番黑盒嘅問題，但係而家有兩樣嘢我都想  
8 同你探索一下，然後先講黑盒。我想請你睇一睇 FE-1 號。請你去第 96-1 個一  
9 頁。你而家應該係睇到一份用電郵傳送嘅文件嘅一個副本，就係畀鄭桂興先生  
10 嘅，你睇唔睇到呀？請問睇唔睇到呀？你會唔會睇到鄭桂興先生其實係九巴嘅  
11 前僱員呀？

12 李澤昌先生：我嚟嘅時候佢已經走咗，佢應該係 2014 年走嘅。

13 MR DUNCAN：（經傳譯員）好，你就到本委員會曾經研訊或者調查過嘅事件，就係  
14 九巴嘅僱用嘅情況，或者你自己睇一睇第一同埋第二段，請你自己睇一睇，同  
15 埋都睇埋第三段。睇一睇就係本委員會寫畀鄭先生嘅一封電郵。

16 請問你睇咗未？好，唔該。咁而家想請你睇睇第 96-4 個一頁。你之前有  
17 冇睇過呢一回應呀？李生。

18 李澤昌先生：未睇過。

19 MR DUNCAN：（經傳譯員）或者你而家用少少時間自己睇一睇。係第 96-4 個一  
20 頁，同埋 96-5 同埋 96-6 呢幾頁，請你而家慢慢睇一睇，等你熟習一下。

21 李澤昌先生： Okay.

22 MR DUNCAN：（經傳譯員）好，唔該晒，喺 96-7 個一頁，你會見到進一步嘅回  
23 應，係鄭先生，佢再一次係回答第一同埋第二條問題，或者都請你都自己睇一  
24 睇呢一啲，就係 96-7 個一頁。

25 好，唔該，喺 96-7，即係話回答第二條問題嗰度下面呢，鄭先生就係講到  
26 廿九個急彎。佢就講到就係 Excel 呢一個形式儲存嘅一啲資料，你睇唔睇到  
27 呢？

28 李澤昌先生： Yes.

29 MR DUNCAN：（經傳譯員）呢一啲資料，仲喺唔喺九巴內部係存在呢？

30 彭樹雄先生：我 2015 年 join 呢間公司嘅時候，其實我係真係未見過呢啲資料嘅，  
31 但係喺呢幾個月，我亦都同啲喺度做咗好多年嘅同事，亦都了解過呢啲研究同  
32 埋呢二十九個 sharp bends 係點樣走出嚟。咁啲記錄亦都可以畀番你哋去睇

1 睇，據個資料顯示呢，就係當其時佢哋嘅 managing director 嗰陣時  
2 Edmond Ho 先生，就話需要當其時嗰個 operation director 要 approve  
3 咗佢先至會執行呢樣嘢。

4 咁睇番啲記錄喺 2014 年嘅時候，呢一個二十九個 bend 呢個建議，係並冇  
5 執行過，亦都喺嗰個佢哋記錄嘅文件，亦都睇到有好多車長同埋佢前線嘅員  
6 工，都有好多聲音係關於嗰個執行性方面，係咪可以做到？

7 我喺 2015 年初接任嘅時候，係完全係唔知道有呢一個咁嘅建議，咁或者  
8 而家嗰個 operation director 梁生或者係我哋個 head of 嗰個 training  
9 school 可以喺呢度補充。

10 MR DUNCAN：（經傳譯員）或者我都唔會想講好耐嘅呢一點，我只係想問一問有關  
11 嘅 Excel 認識儲存嘅資料，係咪仲喺度，我相信你話你係會畀個記錄我哋係  
12 咪，即係有，係咪呀？

13 梁健宏先生：我而家答唔到你，我可以去 find out。

14 MR DUNCAN：（經傳譯員）好，唔該。

15 主席：（經傳譯員）如果你真係搵到，你會唔會可以交畀委員會？

16 梁健宏先生：Yes。

17 主席：（經傳譯員）另外頭先李生所講記錄，就係講到話點解呢一個計劃係冇實施，  
18 有關呢一啲嘅記錄，可唔可以都畀我哋呢？咁即係話有兩種嘅記錄，一個就係  
19 關於廿九個急彎嗰啲嘅記錄，另外就係點解呢一個建議係冇實施嘅？好，唔該  
20 晒。

21 我都想補充，如果你睇一睇 96-7 呢一頁嘅底部，有一個就係講到一啲細  
22 嘅提示卡，講到就係話嗰啲急彎吧具體嘅地點，同埋係有啲乜嘢安全嘅車速，  
23 呢啲都印咗喺度，麻煩你翻查公司個記錄，睇下仲有冇呢啲卡嘅樣本？

24 梁健宏先生：我未見過。

25 黃祥明先生：其實我喺呢方面都有做過啲參考，咁睇番以前嗰個文獻，我知道係當時  
26 有提議過我哋九巴去搵一啲嘅急彎，等我哋啲車長去知道之後呢，喺嗰個地區  
27 就個車速去減慢，咁喺嗰個--我手頭上有一個當時嘅開會會議記錄，咁正如我  
28 哋個 MD 所講，係當時係需要一個 MD 去同意咗呢個執行先至可以做到，咁但係  
29 我睇番當時嗰個會議嘅議程呢，就並冇得到呢個...

30 主席：（經傳譯員）黃先生，我想問呢啲卡，有冇定有？不如你直接回答呢個問題？

31 黃祥明先生：（經傳譯員）因為我係想補充。

32 主席：（經傳譯員）你可以係提供多啲資料，不過直接，究竟仲存在嗎？

1 黃祥明先生：（經傳譯員）冇。

2 主席：（經傳譯員）即係照你所知，就不再存在？

3 黃祥明先生： No.

4 主席：（經傳譯員）我唔係想截停你講嘢，咁你而家可以繼續補充你想補充嘅事情。

5 黃祥明先生：咁嗰個文獻裏面就係話係需要 OD 去同意執行呢樣嘢嘅，咁但係當時喺  
6 個記錄上面，係受到好多同事嘅意見阻擾，咁變咗係冇執行到，咁所以我相信  
7 呢份文件係當時係冇流出去畀前線嘅同事去做參考，邊啲係啲急彎嚟。

8 咁其實喺講急彎呢樣嘢，我哋而家九巴係做嗰個安全嘅所謂指引畀啲同事  
9 亦都有繼續做緊，就唔係當時所講呢二十九個急彎，而係我哋喺我哋嘅員工  
10 網站上面，就有提供我哋所有路線，如果有急彎或者有危險情況嘅時候發生，  
11 我哋一個叫駕駛貼士，咁呢個駕駛貼士係員工網站裏面可以睇得到。

12 咁員工係當佢要駕駛一條路線嘅時候，佢主要係上個網嗰度呢，就打入佢  
13 嗰個要行駛嘅網，嗰條路線，嗰條路線就會有個起點至到終點，就會顯示出沿  
14 路有咩嘢危險或者咩嘢要留意，甚至係急彎嘅情況。咁當呢個員工要駕駛條路  
15 線嘅時候呢，咁佢就可以依照呢個咁嘅指引呢去小心行駛有關嘅路段，咁呢個  
16 就係我嘅補充。

17 主席：（經傳譯員）係，鄧律師。

18 MR DUNCAN：（經傳譯員）係，唔該主席先生。你而家不如幫我哋睇下呢個 KMB-1  
19 第 30 頁。而家就講番你嘅第一次提交嘅文件，或者你睇番頂頭嗰度，就係請你  
20 睇一睇，究竟你公司係有乜嘢嘅守則，同埋就提供啲係副本，睇到嗎？

21 喺嗰個實務守則嗰度，呢度提及兩行嘅標準。呢個就係有職業健康及安全  
22 之外，就仲有兩項嘅標準嘅，睇到嘛？首先，就係國際標準組織，睇到嗎？

23 李澤昌先生：（經傳譯員）係。

24 MR DUNCAN：（經傳譯員）我咁講啱唔啱呢？喺嗰行標準嗰度，係冇一樣嘢係專門  
25 係同巴士車長安全有關。

26 李澤昌先生：（經傳譯員）係。

27 蘇偉基先生： Yes.

28 MR DUNCAN：（經傳譯員）一樣嘞，如果你睇番下面嗰行嘅標準，國際標準組織  
29 ISO 14001，一樣嘞，我咁講啱唔啱呢？就係嗰行標準底下，係冇一樣嘢係  
30 具體關乎巴士車長嘅安全要求。

31 蘇偉基先生：喺 ISO 14000 係冇嘅，但係喺 ISO 9000 嗰度佢係成個品質一個嘅管  
32 理，個系統呢係有牽涉到 safety。

1 MR DUNCAN：（經傳譯員）係，但係我要講嘅呢，就係話即係我頭先問，就係話係  
2 咪同車長駕駛表現嘅安全有關？

3 蘇偉基先生：呢個問題我哋可以睇睇上面第二個 bullet Staff Handbook 第五位  
4 個度呢，有個叫做車長安全駕駛手冊，咁呢個就釐定咗我哋車長需顧及嘅安全  
5 嘅措施，呢個係我想 Mr Duncan 你想指係兩樣。

6 梁健宏先生：我想補充一樣，就係講番我哋個 ISO，喺呢個 OHSAS 18001，即係  
7 Occupational Health and Safety Assessment Series 個度呢，我哋  
8 有提及到 safety 嘅，咁其中有一樣嘢就係每間廠都要成立一個 depot  
9 safety committee，咁有兩個組成份嘅每間廠。

10 有一個成份呢就係維修，即係喺廠內做維修保養工夫，咁亦都有另外一個  
11 committee 就係 for 車務嘅，每間廠佢都有一個成立個結構呢，就係  
12 operations safety committee，呢個 safety committee 嘅組成，就  
13 絕大部分都係車務營運同事嘅團隊嘅，包括彭生在內。

14 咁佢哋呢個 depot safety committee，如果我哋講車務個部分呢，亦  
15 都牽涉到呢譬如話嗰啲車長喺 bus termini，嗰車長喺路面，嗰車長喺廠內個  
16 個工作環境，而呢個 operations safety committee 亦都檢視番佢個間廠  
17 佢哋嗰啲交通意外嘅，咁係喺 under 呢個 ISO 18001 呢，係有一套系列係  
18 plan、do、check、act 呢，去睇番就住駕駛安全嘅事宜嘅，我哋係有。

19 MR DUNCAN：（經傳譯員）其實我問嘅就係 18001，有冇指明一個巴士車長係點樣  
20 去駕駛呢？佢有去到咁嘅細節，係咪呢？

21 梁健宏先生：我想講呢套唔係淨係一樣嘢去管理車長個個行車個個方面，正如頭先我  
22 哋位同事蘇生描述，ISO 9001 亦都係有啲規範，係可以涉及到巴士車長個個  
23 駕駛安全嘅守則。其實我想講呢就係唔同制度，唔同嘅 system，都會有佢自己  
24 本身嘅用處，亦都喺唔同嘅方面，亦都可以 contribute，可以貢獻到點樣樣  
25 可以令我哋巴士車長喺培訓，喺監控，喺檢討，點有一個整體性去做。

26 因為呢度頭先所講，18001 頭先所講 depot safety committee，喺  
27 depot 嘅層面，但係喺其他 department 譬如喺車長培訓學校，譬如喺 human  
28 resources 嘅層面，亦都要一個成間 corporate 去睇成件事嘅，唔係話單  
29 單一個睇一樣嘢，係整體嚟睇。

30 MR DUNCAN：（經傳譯員）我明白，但我問個問題好簡單，其實就係喺嗰個 OHSAS  
31 18001 個度呢，有一樣嘢係講明話個巴士車長係如何安全駕駛，呢一個係最主  
32 簡單嘅問題。

33 蘇偉基先生：如果想睇一個車長如何駕駛安全，係應該參考頭先我講嗰個車長安全  
34 駕駛手冊，喺 annex 1A-37 個個，呢個係公司對車長嘅駕駛安全，駕駛手  
35 冊。

1 MR DUNCAN：（經傳譯員）係，呢一個係車長安全駕駛手冊，我哋知。我而家想請  
2 你睇就係雜項嘅文件夾 2，769 頁。睇緊嘅呢應該係一封信，佢就係寫畀立法會  
3 交通事務委員會嘅主席，2016 年 6 月 16 號嘅一封函件，睇到嗎？

4 蘇偉基先生：Yes.

5 MR DUNCAN：（經傳譯員）睇嚟嚟自己一個組織，咁就係道路安全研究小組，係咪  
6 呀？

7 蘇偉基先生：（經傳譯員）係。

8 MR DUNCAN：（經傳譯員）嗰封信嘅標題，就講及係政府當局嘅文件，呢份文件就  
9 係關於九龍巴士一九三三有限公司嘅巴士網絡新專營權嘅公眾諮詢嘅報告，嗰  
10 個標題係咁咪，係咪呀？

11 蘇偉基先生：（經傳譯員）係。

12 MR DUNCAN：（經傳譯員）你不如自己睇一睇呢封信，你就會見到佢提及係有一份  
13 文件，2016 年 4 月 18 號嘅文件，咁你跟住嗰版你就會睇到。咁係 770 頁，就  
14 係佢哋係提交畀政府嘅一份文件。我想問，公司知唔知道有一個咁嘅組織，叫  
15 做道路安全研究小組？

16 蘇偉基先生：喺佢交畀呢個委員會嘅文件嗰度，我得悉有呢個機構，之前我不得悉。

17 MR DUNCAN：（經傳譯員）咁你有冇睇過呢份文件呢？即係 770 頁開始嘅呢份文  
18 件，講及呢就係九龍巴士公司巴士網絡嘅新專營權？

19 蘇偉基先生：（經傳譯員）簡單咁睇過。

20 MR DUNCAN：（經傳譯員）係，唔該。咁而家就想請你睇呢個 772 頁。喺嗰度見唔  
21 見到就係講及巴士安全管理系統。

22 蘇偉基先生：（經傳譯員）係。

23 MR DUNCAN：（經傳譯員）可唔可以睇番嗰個內容呢？睇番呢一段個內容，請你自  
24 己睇一睇。

25 蘇偉基先生：可以。

26 MR DUNCAN：（經傳譯員）呢個 ISO 39001 嘅標準，你知道嘛？

27 蘇偉基先生：從佢呢個 submission，我得悉。

28 MR DUNCAN：（經傳譯員）未睇呢份陳述書之前唔知？

29 蘇偉基先生：之前我唔知。

30 MR DUNCAN：（經傳譯員）自此之後，即係睇咗佢呢份陳述之後，有冇睇過呀？

1 蘇偉基先生：（經傳譯員）簡單咁睇過。

2 MR DUNCAN：（經傳譯員）你認唔認為呢個標準裏面有啲嘢係有用嘅呢？對於你公  
3 司嚟講係有用嘅呢？

4 蘇偉基先生：呢個我要咁樣講，首先呢份報告，我所睇到佢係有啲公司做一個實地嘅  
5 考察，或者係對我哋有個諮詢，咁另外呢個 standard 亦都唔係安全一個唯一  
6 嘅 standard，咁呢位編配呢份報告嘅作者，亦都話希望巴士嘅承辦商係有一個  
7 安全系統達至呢個 ISO 39001 嘅。

8 咁公司今日自己本身其實亦都係有一個安全嘅體系，我哋亦都建基於一個  
9 ISO 9000 嘅體系，咁呢個 ISO 39001 其實都係係 ISO 9000 嘅基石之下演  
10 變出嚟，覆蓋住四個大嘅 pillars，就係 plan、do、check、act，咁我哋係  
11 ISO 9000 嗰度，亦都最近呢係獲得相關機構係有個 review 嗰個嘅  
12 accreditation。

13 咁我哋覺得呢方面我哋自己點做呢？我哋最近亦都係英國聘請咗一位交通  
14 嘅專家嚟我哋公司嗰度，係睇睇我哋嘅營運，我哋嘅車務，維修，做個 health  
15 check，從而提升番我哋自己內部嘅一個 safety standard，呢個  
16 standard 係我哋自己，係未必需要同 ISO 39000 去掛鉤，但係都係一個高水  
17 準嘅 standard。

18 MR DUNCAN：（經傳譯員）你話最近，係幾時呀？

19 李澤昌先生：我想補充，我呢度補充少少，大概我諗咗今年嘅 3、4 月嘅時候，我哋  
20 個董事會就好希望我哋搵一啲即係外國嘅專家，想睇睇我哋嗰個 operation  
21 嘅營運方面，無論車佢嗰個維修，同埋嗰個車長佢嗰個點樣派更營過，甚至  
22 乎嗰個 training 嗰邊，想去睇下即係外國有啲乜嘢嘢我哋可以將我哋呢方  
23 面嘅服務係提升，咁其實都多過一位專家，咁其實就應該係呢一、兩個禮拜已  
24 經開，尋日其實已經彩取緊工作。

25 梁健宏先生：琴日已經嚟香港，嚟咗嚟嚟，我哋係我哋嘅廠嗰度呢開始工作。

26 主席：（經傳譯員）佢哋係邊位呀？

27 李澤昌先生：我因為我有佢間公司嗰個名嘅度，我後補番呢個資料。

28 主席：（經傳譯員）好吖，唔該你。你各位同事係咪都唔知道呢個顧問嘅名？

29 李澤昌先生：其實我係係今年嘅大概係春天嘅時候，就過咗去倫敦，咁就見過好幾個  
30 consultant，係同佢見過面，咁有啲係以前係嗰個 London Transport 做過  
31 又有，有啲係係英國係嗰個嘅大概 bus operator 做過都有。

32 咁呢啲大部分都係係即係英國經驗嘅 operator，諗佢間公司名就叫  
33 Direx Solution Limited，係個 consultant 嚟，但係嗰啲 consultant  
34 呢大部分都係係英國裏面，係嗰啲 bus operator 係好有經驗。

1 主席：（經傳譯員）好，唔該晒。

2 MR DUNCAN：（經傳譯員）咁係咪即係話，而家係進行緊個調查，暫時未有報告？

3 主席：（經傳譯員）我諗佢哋話琴日先開始做。

4 李澤昌先生：佢其實係之前都有攞咗好多資料，咁但係佢真正工作，係而家先至開始  
5 工作，佢一定會即係呈交一啲報告畀我哋嘅董事會，係睇睇而家個運作係點  
6 樣？

7 MR DUNCAN：（經傳譯員）你認為個報告幾時會有呢？

8 李澤昌先生：喺今年之內。

9 MR DUNCAN：（經傳譯員）係咪即係 2018 年之內抑或係一年之內。

10 李澤昌先生：係分階段，首先係第一個階段係佢哋做一個--我哋叫做一個即係檢視一  
11 下，有邊啲地方我哋可能要有啲地方要做番好啲，咁就困難嘅，因為佢先要認  
12 識我哋啲同事等等，咁我哋係分階段去做，咁今年嘅年尾應該有一個初步嘅檢  
13 討 report。

14 MR DUNCAN：（經傳譯員）好，我而家呢就想講下黑盒嘅問題。今朝都提過好幾  
15 次。我哋開始嘅時候呢睇睇 KMB-1 嘅檔案，第 50 頁。咁呢一頁亦都係最初提  
16 交文件之內嘅，係由九巴向委員提交嘅初步嘅文件嚟嘅，就喺今年四月嘅時候  
17 提交嘅。

18 咁第 50 頁呢一度，我哋問嘅係第二條問題嚟嘅，就係話有冇一啲電子記錄  
19 嘅裝置嘅呢？譬如話車速記錄儀，黑盒或者係車速限制器係裝置喺所有巴士上  
20 面呢？呢一啲置裏面有啲咩嘢嘅資料係關於巴士車長嘅駕駛表現嘅監察，係會  
21 可以收錄到嘅呢？咁同埋收集到嘅資料點樣用嚟係提升駕駛嘅安全呢？巴士有  
22 冇一啲前置鏡頭嘅攝錄機，係可以睇到呢一架車輛嘅行駛嘅呢？

23 我自己最有興趣呢就係第二句嘅，究竟喺呢一啲裝置裏面收集到嘅資料，  
24 即係話係關於車長駕駛嘅表現，係收集到啲咩嘢資料呢，而有關嘅資料點樣用  
25 嚟去加強或者提升駕駛嘅安全呢？咁我哋大家可以睇番交界委員會嘅答案。

26 第一點，所有九巴同龍運巴士，都係裝置咗黑盒同埋車速限制器嘅。第二  
27 點，黑盒就係會收集到車速同埋車輛位置呢一啲資料。九巴同龍運巴士嘅車務  
28 組，就會係每日監察車速，係睇番之前十日個駕駛嘅記錄，咁樣就可以監察  
29 到巴士車長嘅駕駛表現㗎，有關嘅資料呢就係會交界車長表現經理，咁如果係  
30 有任何違反規則嘅事情，就會喺十四日內開始呢個紀律嘅行嘅。你睇到呢個問  
31 題嘛？

32 李澤昌先生：(Nodded head)。

33 MR DUNCAN：（經傳譯員）咁呢一方面呢我有好幾條問題想問下，即係關於黑盒嘅

1 問題，咁一開頭我想講清楚呢，就係我有興趣嘅呢即係代表委員會去調查嘅  
2 呢，就係究竟有啲咩嘢資訊係你嗰啲巴士上面嘅黑盒呢係可以收集到嘅，呢個  
3 係第一條問題。

4 第二就係，實際上就收集到咩嘢資料呢？即係嗰啲黑盒係有能力收集到啲  
5 資料，但係實際上又實上又收集到啲咩嘢資。第三呢就係有關嘅資訊係點樣利  
6 用呢？咁我而家就好清楚話咗畀你聽，我係想調查呢幾樣嘢，因此你就會明白  
7 點解我會問以下嘅問題。

8 咁我就會就四個範疇去發問，咁大家都會比較容易啲。第一，我就會問  
9 你，有啲乜嘢嘅係運輸署已經寫出咗嘅要求，就係話黑盒嘅裝置同埋使用，運  
10 輸署有啲咩嘢嘅要求，即係話你有啲咩嘢嘅責任係去符合運輸署嘅要求？呢個  
11 係第一點。

12 第二，就係我會同你探索一下，實際上呢啲黑盒收集到嘅數據，即係喺你  
13 嗰啲公司嘅巴士上面，實際上呢啲黑盒係收集到啲咩嘢數據呢？咁然後我就會  
14 睇下究竟呢啲數據實際上係點樣利用呢？去提供實時嘅警示畀車長，即係當佢  
15 哋駕駛緊嘅時候，點樣去提供實時嘅警示畀佢哋呢？

16 到最後呢我就會問一啲問題去找出究竟呢一啲記錄咗嘅黑盒數據，係點利  
17 用嚟去便利你去評估佢哋嘅駕駛行為，同埋點樣可以呢係監察到車長實時嘅駕  
18 駛行為。咁我呢就會一條一條咁樣問呢啲問題嘅。

19 彭樹雄先生： Yes.

20 MR DUNCAN：（經傳譯員）好嘞，首先第一個範疇，有啲乜嘢係喺呢一個專營嘅協  
21 議裏面，你有啲咩嘢嘅責任係關於使用呢啲黑盒係要向運輸署負責呢，即係運  
22 輸署有啲咩嘢要求，咁喺呢一方面，我想你睇運輸署文件夾第 5 個。我想請你  
23 去睇 1597 頁。係 1597 頁，請問你係咪睇緊由運輸署發出嘅一封短嘅信呢？

24 李澤昌先生： Yes.

25 MR DUNCAN：（經傳譯員）佢係寫畀好幾間巴士公司，包括你哋嗰間。咁佢個題目  
26 係話喺新巴士上面呢係裝置電子數據記錄裝置。

27 李澤昌先生： Yes.

28 MR DUNCAN：（經傳譯員）咁呢度亦都係講到黑盒同埋喺巴士上嘅電子數據記錄系  
29 統。

30 梁健宏先生：現實上我哋呢樣呢，我哋 2003 年 11 月已經開始裝嘅，2003 年 11 月  
31 開始裝呢個 electronic data recording device。

32 MR DUNCAN： Right.

33 梁健宏先生：再之前...

1 主席：（經傳譯員）梁生，等一等，大律師會問你問題嘅，咁如果你有啲嘢想加，因  
2 為佢問得唔夠好，咁一陣間可以再講。

3 MR DUNCAN：（經傳譯員）咁呢度有冇一項要求，就係話 2004 年 7 月 1 號之後註  
4 冊嘅巴士都應該係有一個符合有關技術規格嘅黑盒呢？

5 梁健宏先生：正確。

6 MR DUNCAN：（經傳譯員）請你揭下一頁，呢一啲其他嘅要求呢寫出咗，喺第二點  
7 同埋第三點嗰一啲嘅要求。

8 梁健宏先生：（經傳譯員）係正確。

9 MR DUNCAN：（經傳譯員）喺第二段嗰度，係咪就係話要求呢一個裝置，應該係每  
10 一秒呢就係收集數據，然後呢喺兩個禮拜之內每三十秒呢就係儲存有關嘅數  
11 據？

12 梁健宏先生：（經傳譯員）正確嘅。

13 MR DUNCAN：（經傳譯員）佢係咪講到兩方面呢，第一即係嗰個操作嘅時間？

14 梁健宏先生：（經傳譯員）正確。

15 MR DUNCAN：（經傳譯員）第二，車速。

16 梁健宏先生：（經傳譯員）正確。

17 MR DUNCAN：（經傳譯員）第三段，嗰度呢進一步講及就係要有一啲軟件嚟到分析  
18 呢係車上，或者係下載咗嘅數據，咁呢個亦都應該係有以下嘅功能嘅，㗎唔㗎  
19 呀？

20 梁健宏先生：正確。

21 MR DUNCAN：（經傳譯員）首先，就講及係意外報告，要睇番嗰個車輛嘅車速，咁  
22 嗰度嗰個係頻密嘅程度亦列出嘅。

23 梁健宏先生：正確。

24 MR DUNCAN：（經傳譯員）第二點，就係講超速嘅報告，有幾頻密，係去到最高嘅  
25 車速，以及就係如果係過咗係 70 公里嘅話，究竟佢係持續咗幾耐？

26 梁健宏先生：（經傳譯員）㗎。

27 MR DUNCAN：（經傳譯員）我想問運輸署當時係咪首次去發出咁樣嘅要求，就係話  
28 要係安裝一個黑盒同埋黑盒裏面應該有啲乜嘢嘅功能？

29 梁健宏先生：正確。

1 MR DUNCAN：（經傳譯員）或者我哋呢係可以係午飯之後再繼續，係咪呀？

2 主席：（經傳譯員）係，各位先生，我哋而家呢就會係休息，係午飯，我哋會喺今日  
3 下晝兩點半再繼續，兩點半，唔該晒。

4

5 下午 1 時 02 分聆訊押後

6

7 下午 2 時 31 分恢復聆訊

8 出席人士如前。

9

10 主席：（經傳譯員）下午好，Duncan 先生。

11 MR DUNCAN：（經傳譯員）响食午飯之前我哋就睇到咗運輸署嘅呢一啲要求，即係  
12 使用黑盒嘅要求，時間就係 2003 年嘅 10 月，而家我哋想睇另一份文件嘅，就  
13 係 KMB-1 159 頁，呢個係該公司係 2018 年 5 月交嘅第二份陳述書，我想大家  
14 睇 175 頁。响個頁頂大家可以見到係寫住係第--有提過話嗰個係專營權嘅一啲  
15 要求嘅，第五條問題。跟住有第六條問題，委員會提出嘅問題，「請指出專營  
16 權有啲咩嘢要求，呢啲要求係唔係運輸署施加嘅呢，係咪用書面表達嘅呢，如  
17 果係，請提供有關文件嘅副本。」

18 公司嘅回應，佢就提過話條文第 7 條，7(1)，即係話專營權合約嘅第 7(1)  
19 條，跟住有一個解釋，响討論新嘅專營權嘅期間，政府要求九巴要係承諾採取一  
20 啲係加強嘅安全措施，包括但不限於响巴士上安裝啲電子嘅數據嘅處理嘅裝置，  
21 有啲人就叫做「黑盒」喇，同埋限速器同埋個監察嘅鏡頭，作為一啲標準嘅設  
22 備，當買新嘅巴士嘅時候，就將呢啲納入為標準設備，請睇 2017 年 3 月 10 號  
23 由運輸署發出嘅文件嘅一個係摘錄，九巴就係承諾係--向運輸署承諾，就會係  
24 响根據新嘅專營權實施有關嘅要求嘅。

25 咁呢個運輸署嗰個信件係一個附件嚟嘅，請大家睇一睇 KMB-9 呢度嘅一份  
26 附件，3997 頁。呢個係嗰個文件夾裏面嘅倒數第二份文件。睇番呢頁，呢度係  
27 關於係巴士上嘅設施嗰個標題，呢個話根據新專營權合約嘅第 7 條，九巴應承  
28 就做某啲嘢，由(a)，跟住就(b)，第 2 頁就有(b)一系列，對我哋嚟講，有關  
29 就係(a)，下面寫住「加強安全嘅設備」，呢個就係之前我提及嘅文件所引述嘅  
30 有關設施，咁就睇番呢個安全嘅設施總共有八樣，第一項就係羅馬數字(i)，一  
31 路去到羅馬數字(viii)，八項。第三項就係話電子數據處理設備，即係嗰個黑  
32 盒，係咪咁講啱呢，運輸署係有講清楚係點樣使用呢個黑盒㗎，佢只係話呢個係  
33 一個安全嘅設備嚟嘅，公司應該有呢個設備，咁樣講啱唔啱？

34 梁健宏先生：（經傳譯員）係啱嘅。

1 MR DUNCAN: (經傳譯員) 咁所以根據你個解釋, 呢個係一個加強嘅用途, 即係  
2 如果當呢個係一個加強安全, 3997 頁咁樣講, 就唔當一個--唔係一個加強安全  
3 嘅設備嚟嘅, 係嘛?

4 梁健宏先生: 有少少複雜嘅, 呢個問題, 因為...

5 主席: (經傳譯員) 有咩嘢複雜?

6 梁健宏先生: (經傳譯員) 我解釋下。(證人直接用本地話說) Okay, 因為一個咁  
7 嘅 requirement 佢就 carry forward 嘅, 佢將之前個 franchise 有啲  
8 其他啲嘢佢都加埋落去, 即係變咗呢個係咪 enhance 呢, 就可能同對上一次係  
9 咪有分別? 呢個係一個 commitment 嚟嘅, 喺一個 feature 我哋會做嘅, 但  
10 係係咪 interpreted as enhance 呢, 就我都比較難去 comment, 但係我哋  
11 係會做呢樣事情嘅。

12 MR DUNCAN: (經傳譯員) 根據我嘅理解, 你哋應承咗係用呢個咁樣嘅設備...

13 梁健宏先生: 正確。

14 MR DUNCAN: (經傳譯員) 咪就係咁多呢?

15 梁健宏先生: 當然我哋會呢個 device 嘅, 咁當然我哋會盡量令到佢係幫到我哋喇,  
16 咁我哋係會用嘅, 但係答你個問題係咪一個 enhanced safety feature  
17 呢, 我哋係覺得係幫到 safety 嘅。

18 主席: (經傳譯員) 咁 Duncan 先生嘅問題就係話運輸署冇要求--冇講清楚究竟係  
19 點樣嚟到呢個設備嚟到係即係所謂加強嘅用途, 亦都係冇講明係要將呢個設備  
20 嘅用途係要加強嘅。

21 梁健宏先生: No.

22 主席: Nor is there any stipulation as to any enhancement of  
23 the capabilities of the device.

24 梁健宏先生: No.

25 主席: Thank you.

26 MR DUNCAN: (經傳譯員) 好多謝你, 主席, 幫手。除咗呢兩份文件呢, 我頭先都--  
27 我哋睇咗喇, 2003 年嘅一份同埋呢一份 2017 年嘅, 咁除咗呢兩份, 運輸署  
28 有冇响任何時間要求公司係就住呢個黑盒運用有冇話指定用--要嚟做某一種用  
29 途? 特定用途嘅呢?

30 梁健宏先生: (經傳譯員) 冇嘅。

31 MR DUNCAN: (經傳譯員) 我未--我哋睇第二份之前, 我想睇番 175 頁, 即係文件  
32 夾第一份, 175 頁, 嗰度最後一句話九巴承諾--向運輸署承諾嚟到係實施呢個-

1 -即係根據新嘅協議實施呢啲咁樣嘅要求嘅，咁乜嘢形式嘅呢，請問係用咩嘢形  
2 式嘅呢，呢個承諾係？

3 蘇偉基先生：呢個問題或者可以等我答喇，因為我喺嗰個 franchise 個 renewal  
4 嗰度我有個扮演個重要嘅角色，咁個 undertaking 意思即係話公司佢係--頭  
5 先大家睇到第 3997 頁，其實係一封信嘅一個 content 嚟嘅，咁呢封信要係公  
6 司簽署，簽署即係代表 commit 去 implement 呢啲嘢，咁然後佢就可以提請  
7 去行政會議去 grant 一個 franchise 畀我哋，咁所以呢個係 commitment 嚟  
8 嘅。

9 MR DUNCAN：（經傳譯員）你可唔可以畀呢封信嘅副本畀委員會？

10 蘇偉基先生：（經傳譯員）可以嘅。

11 主席：（經傳譯員）呢個係標準信件？係咪當你嗰個要--嗰個專營權要更新--差唔  
12 多限期就係要寫咁嘅標準信，係嘛？咁但係你有話任何嘅所謂加強嘅用途嚟  
13 嘅，你有應承要有呢個黑盒嚟到係做所謂加強一啲用途嘅，所以只係一個虛張  
14 聲勢㗎咋，係咪呀？得個「講」㗎咋？得個「講」字嘅？

15 梁健宏先生：（經傳譯員）呢個就係運輸署即係要求我哋做，“enhanced safety  
16 feature”呢個 term 係喺個 paper 度係咁寫嘅，咁我哋 read 佢，當然我哋  
17 亦都會睇番呢啲 item，我哋點樣樣可以盡量咁利用到佢，幫助嗰啲 safety  
18 嘅，我哋唔係睇字面嘅，我哋唔係睇個 wording 點寫，譬如講頭先嗰度  
19 “electronic data processing device”，咁佢或者之前個  
20 specification 就係嗰樣嘢，但係其實我哋都希望如果係有啲嘢係可以更加  
21 enhance 到，我哋都會轉用其他啲幫到我哋增加嗰個安全嘅，我哋係會唔會淨  
22 係睇字面嗰度做，我哋會自己（聲音重疊）...（聽不清）

23 主席：（經傳譯員）唯一嗰個 2003 年嘅 11 月所講嗰啲係要求㗎，有嘢--跟住之後  
24 有變㗎喇嗎？

25 梁健宏先生：我哋除咗 undertaking 呢樣嘢之外，我哋仲會再做多一啲囉，this  
26 is the--呢個係最 minimum。

27 主席：（經傳譯員）我唔係批評你，梁先生，如果運輸署要求你應承--乜都唔做，咁  
28 你都同意㗎喇，係嘛？乜都唔使點做嘅，你係同意㗎，係嘛？

29 梁健宏：...（聽不清）

30 主席：（經傳譯員）鄧樂勤先生。

31 MR DUNCAN：（經傳譯員）我想去第二個範圍，我就想係涵蓋嘅，呢個就關於黑盒  
32 嘅另一個範圍。即係話呢個關於個數據，呢個黑盒，即係九巴裝咗嘅黑盒究竟  
33 可以收集啲咩嘢數據呢？咁同埋實際上又收集咗咩嘢證據呢？即係可以收集同  
34 埋實際收集咗啲咩嘢數據呢？

1 梁健宏先生：Yes。

2 MR DUNCAN：（經傳譯員）我諗你都知道喇，委員會有聽過一啲證供，呢個叫做  
3 Kulis 先生，佢哋係一間叫做 Openmatics 嘅公司嘅代表，即係佢係嗰個黑盒  
4 嘅供應商嘅，你知道有件咁嘅事喇？

5 梁健宏先生：（經傳譯員）係。

6 MR DUNCAN：（經傳譯員）你有冇機會睇番佢嗰個證供？

7 梁健宏先生：好簡要咁睇過喇。

8 MR DUNCAN：（經傳譯員）咁至於佢嗰個書面嘅文件呢，佢向委員會提供嘅書面文  
9 件，有冇機會睇過？

10 梁健宏先生：（經傳譯員）係嘅。

11 主席：（經傳譯員）我諗你係指稱嗰個代--其實係嗰個律師代表佢交嘅文件？

12 MR DUNCAN：（經傳譯員）係，冇錯。好喇，我想你睇另一個文件夾，BM-1，請你  
13 睇番--或者係而家請顯示番第 64 頁，係喇，呢份文件裏面嘅 64 頁。你會見到  
14 呢間律師行就係即係主席所提及--即係呢個係嗰封律師行嘅信，咁封信就係關  
15 於相關公司所提供嘅服務嘅，你見唔見到？呢個就係律師行嘅信件，你見唔見  
16 到？然後就請你揭去 65 頁，你就會見到提供咗畀委員會嘅資料嘅，咁就係由  
17 65 頁去到 72 頁嘅。咁問題就係用黑色字，而答案就係用藍色字顯示嘅。

18 首先我想你睇嘅就係第 65 頁，咁喺第一個問題，就係有個書面陳述，就係  
19 喺 2018 年 4 月 24 號呈交咗畀委員會，咁就由 2015 年起，九巴就係喺佢哋嘅  
20 巴士度安裝一啲限速器喇、黑盒喇同埋一啲監察鏡頭去監察車長嘅駕駛表現，同  
21 埋協助調查意外嘅，咁我希望--我想你睇一睇之後嗰三段答案嘅部分。咁  
22 Openmatics 嘅服務就並不包括上述嘅限速器同埋監察鏡頭，但係黑盒就係  
23 Openmatics 嘅遠程監察系統嘅一部分嚟嘅，Openmatics 就係喺 13 年嘅 4  
24 月 16 號同九巴同堆龍運巴士有限公司係簽署咗一個供應嘅合約，去提供一個遠  
25 程系統嘅，咁 Openmatics 就開始去提供一啲遠程服務，咁而亦都係使用咗第  
26 一個叫做「莫札特盒」嘅黑盒系統。其後，Openmatics 就係即係用一個--另  
27 一個叫做「巴哈盒」嘅黑盒代替咗呢個莫札特盒，咁但係客戶係仍然可以同時使  
28 用嗰兩套系統，咁而九巴都係有咁做嘅。咁而呢一個遠程系統就係有三個部分，  
29 以上所講係咪準確？係咪正確？

30 梁健宏先生：係嘅。

31 MR DUNCAN：（經傳譯員）我就想你睇第 68 頁，都係信件嘅一部分嚟嘅，請你睇下  
32 呢一頁嘅第 2 段，就係藍色字嘅部分。究竟呢個英文字母“BC”係代表啲咩  
33 嘢？咁而之後嗰一段就講 Openmatics 嘅遠程系統即係係安裝咗喺九巴嘅系統  
34 係可以顯示以下四項嘅，第一就係超速嘅紀錄喇，紀錄每一秒嘅數據同埋同相

1 關嘅呢一個全球定位系統嘅資料係一齊儲存嘅；咁第二就係急停去剎車嘅一個  
2 不當嘅行為；第三就係突然加速；第四，相關嘅巴士登記編號，咁就係喺即係  
3 使用其他系統配合嘅情況下都可以得出呢個資料嘅。你可唔可以確認以上就係  
4 包括咗九巴巴士嘅系統係可以即係得出嘅資料？

5 梁健宏先生：係嘅，可以。

6 MR DUNCAN：（經傳譯員）或者能夠收集嘅資料。咁我哋去下一頁之前，我就想同  
7 你去了解一個問題，咁如果你睇番下一段，喺九巴安裝嘅 Openmatics 遠程系  
8 統，係唔能夠得出某啲巴士嘅路線嘅號碼嘅，咁而之後嗰一段就話系統係會收  
9 集資料嘅，咁而每一秒政府--呢個系統係會收集一啲呢啲指明嘅資訊喇，咁而  
10 係每三十秒就係會傳遞呢啲資料嘅，如果係即係已經接連咗去呢一個 WiFi 網絡  
11 或者其他嘅資料網絡，或者係透過 USB 去傳遞去指定嘅 FTP 嘅伺服器嘅，咁而  
12 相關嘅資料亦都係有喺呢一個遠程系統度--一個本地遠程系統儲存嘅。咁而下一  
13 段亦都係有即係重複到呢一段嘅資料。咁佢就話呢個數據就係會每三十秒係  
14 傳遞去伺服器度嘅。咁我想你睇番 KMB 文件冊一嘅，第 72 頁。呢個就係今年 4  
15 月 24 號由九巴公司交畀委員會嘅第一次回應嘅，咁我想你睇下呢一頁嘅最後嗰  
16 一段。咁佢就話所有巴士都係有安裝黑盒去收集一啲實時嘅資料，包括速度、  
17 路線、車門係咪係開定係關喇同埋一個全球定位系統，咁但係即係要將呢啲資  
18 料傳遞番去巴士嘅總公司，係會有大概十秒嘅延誤嘅，咁而呢個資料就會係喺  
19 呢一個巴士嘅監察系統，即係透過呢個系統係儲存喺電話度嘅。咁根據律師行  
20 嘅信件，就係唔一致嘅，咁而根據律師行就係每三十秒傳遞系統，但係根據九  
21 巴公司，係每十秒就會傳遞呢個資訊嘅，你可唔可以評論一下即係呢個--即係  
22 似乎--呢個差別？

23 梁健宏先生：Yes, thank you。現時就係三十秒，我哋亦都希望係做到十秒嘅，快  
24 啲嘅，我哋而家係做緊嘅，咁最主要點做呢？係加大個 server，加大個  
25 server，技術上點樣樣可以令到啲數據可以早啲傳送，呢樣嘢我哋係朝住嗰個  
26 方向做，係做緊嘅，係諗住係十秒。再 repeat, existing 而家係三十秒。

27 MR DUNCAN：（經傳譯員）咁你係採取一啲咩嘢步驟係去達至一個十秒嘅延誤？

28 梁健宏先生：我哋就會研究睇下點樣樣可以加大啲 server，一啲技術問題，我哋可  
29 以做到三十秒。

30 MR DUNCAN：（經傳譯員）你預期幾時係會實行？

31 梁健宏先生：暫時未有一個確實嘅時間表，不過我哋亦朝住嗰個方向做，希望盡快可  
32 以收集到啲數據。

33 MR DUNCAN：（經傳譯員）你可唔可以解釋一下咩嘢為之「改善一個伺服器嘅技  
34 術」？

35 梁健宏先生：喺三十秒嗰度，覺得最主要係個 server 嘅容量，咁變咗--同埋嗰個

1 flow 會快咗，會密咗喇喇，咁呢樣點樣技術問題去解決，要處理嘅。

2 主席：（經傳譯員）乜嘢嘅伺服器？邊個嘅伺服器？

3 蘇偉基先生：呢度我想補充番究竟頭先講十秒、三十秒，how reconcile the  
4 difference。十秒係講緊嗰個 delay，即係話發生之後，佢喺第十秒呢個  
5 data 就 ready to send，三十秒就係 every 30 seconds interval 佢就  
6 將呢啲 data 傳送去我哋 headquarters 個 server 嗰度。10 seconds the  
7 data delay ready to send and then every 30 seconds interval  
8 就會 send 去個 headquarters 嗰度，咁所以呢度解釋番十秒同三十秒係講緊  
9 唔同嘅嘢喇嘅先。（經傳譯員）我需唔需要重複？

10 主席：（經傳譯員）我係問緊呢個係乜嘢伺服器，係屬於邊個嘅呢，佢嘅功能係乜嘢  
11 呢？

12 蘇偉基先生：嗰個 server 而家喺我哋九龍灣車廠個 data centre 嘅入面嘅，佢個  
13 function 就係 store 呢啲 data，然後去做分析，去 identify 一啲  
14 exception。

15 主席：（經傳譯員）咁係咪即係話現時嘅容量係唔足夠，咁所以就係有一個十秒嘅傳  
16 達嘅延誤，係咪？

17 蘇偉基先生：（經傳譯員）係，正確嘅。

18 MR DUNCAN：（經傳譯員）即係你認為究竟延誤嘅時間係十秒、五秒或者三十秒就  
19 係呢一個使用黑盒上面嘅一個選擇嚟嘅呢？

20 蘇偉基先生：講緊頭先嗰三十秒嗰個傳遞，其實對我哋去分析嗰個黑盒嘅數據係冇影  
21 響嘅，因為點解呢？我哋收咗個 raw data，正如頭先另外一份 paper 都咁寫  
22 喇，但未有嗰個車嘅路線嘅，咁我哋係要措起佢呢啲數據，喺其他嘅 system  
23 嗰度係要搵番究竟邊條路線、邊個車長，我哋先至可以去做一啲勸喻或者紀律  
24 嘅行動嘅，咁呢啲咁嘅報告其實都係每日去 generate 一次，咁所以你話個數  
25 據究竟係十秒 send 上嚟定係三十秒 send 上嚟，對嗰個做 exception  
26 report 個 process 其實係冇影響嘅。

27 主席：（經傳譯員）即係有實時嘅分析，係咪呀？

28 蘇偉基先生：Real-time 我哋係用另外一個 alert，我哋係--正確，有 real-  
29 time analysis。

30 羅先生：（經傳譯員）鄧律師，我想澄清一下嘅，即係首先就有個十秒嘅延誤，跟住  
31 要用多三十秒去傳遞呢個資料去總部，啱唔啱？即係總共要四十秒，係咪呀？

32 梁健宏先生：（經傳譯員）我想去澄清一下嘅，現時每三十秒，資料就會係傳遞去我  
33 哋嘅伺服器嘅，經過互聯網，咁而十秒嘅延誤就個意思其實同三十秒一樣，咁  
34 現時嘅延誤就係三十秒，我哋嘅目標就係將佢縮短到十秒，而家個情況就係咁

1 嘅。

2 主席：（經傳譯員）唔該晒，鄧律師。

3 MR DUNCAN：（經傳譯員）我問嘅問題就係你認唔認為即係黑盒嘅使用者係可以決  
4 定個個延誤究竟係幾長呢，係五秒、十秒、廿秒、三十秒喇，即係你知唔知道  
5 呢個情況？

6 梁健宏先生：呢個係一個決定，亦都視乎技術上同埋資源上同埋係咪幫到件事情，我  
7 哋覺得係有機會幫到件事情嘅，就點樣樣可以令啲數據更加可以快啲去到個  
8 個系統嗰度。

9 MR DUNCAN：（經傳譯員）策略上係可行嘅，係咪？

10 梁健宏先生：應該係。

11 主席：（經傳譯員）咁如果係將個個伺服器嘅容量增大，等你可以十秒鐘就傳送啲  
12 資料，就唔係三十秒喇，咁個個開支方面有咩嘢影響？

13 梁健宏先生：未估量過，不過應該都--數字都唔細嘅，不過我期望科技發達，呢啲嘢  
14 就比較可以快啲達到喇，因為牽涉到個個 data traffic、data volume、  
15 data storage。

16 歐陽先生：（經傳譯員）會唔會其實係有個比較更加強--即係能力更加強嘅伺服器就  
17 得㗎喇？

18 梁健宏先生：都未必㗎，所以一路係我哋都係研究緊點樣樣可以加快呢個--個個流  
19 程。

20 歐陽先生：Okay, thank you.

21 MR DUNCAN：（經傳譯員）可唔可以請你睇第 69 頁，BM-1 69 頁，都係個律師  
22 樓發出信件嘅呢個附件，你睇到第二部分，藍色嘅嗰第 2 段，同一頁，咁第 2  
23 段，第 2 個段落，「呢個遠程嘅資料系統係响九巴安裝嘅呢個系統係可以記錄  
24 速度、減速、巴士嘅減速同埋加速，不過巴士嘅加速，即係話持續咁樣㗎到係  
25 記錄巴士加速、減速嘅呢個咁樣嘅功能係冇啟動嘅。」

26 可唔可以就係補充一下就係關於呢個--我嘅意思就係想請你睇下 Kulis 先  
27 生嘅口頭嘅證供，佢係代表 Openmatics 公司作供嘅，請大家睇第六日嘅謄  
28 本。謄本嘅第三冊，第六日嘅聆訊，146 頁。「好喇，我想請你睇睇第二十一  
29 行，呢度第廿一行，係一位叫做 Derek Chan 先生，佢係委員會嘅大律師，坐  
30 喺我隔離，佢話中間嗰度--佢話嗰個文件中間個--頁個中間係你哋間公司提供  
31 嘅答案喇，佢話呢個咁樣嘅講法，頭先我已經講㗎喇，加速、減速，就係呢個功  
32 能係冇啟用到嘅。我想問嘅問題，你可唔可以解釋下或者係講一講，究竟呢一段  
33 嘅意思係咩嘢意思？特別係話記錄嘅加速、減速，即係持續咁樣嘅記錄加速、減  
34 速資料呢個講法。」

1 Kulis 嘅回應係咁樣樣嘅「係呀，我都唔知道，我明白嗰個--佢句子講咩  
2 嘢嘅，不過我諗佢係講緊一個情況，呢啲咁嘅數據、數值，加速、減速嘅數值係  
3 畀九巴嚟講就係要嚟即係實時提出警告嘅，就唔係喺度記錄，做數據紀錄嘅，呢  
4 個係根據我嘅理解喇，即係佢咁嘅一個聲明所講嘅呢件事嘅，我嘅理解喇，所以  
5 話我--即係話有咁樣嘅系統裝咗喇，即係嗰個司機嘅回饋嘅設備就會警告嗰個  
6 司機喇，實時警告，究竟係咪加速太快、減速太快咁樣。咁所以我哋就係用緊啲  
7 加速、減速嘅數值，但係就唔儲存有關嘅數據嘅，即係呢啲係叫做歷史數據喇，  
8 呢個就係我嘅理解呢個陳述書所講嘅係咁嘅意思。」「咁陳生，我明白你嘅意思  
9 喇。咁所以你嘅理解就係話响嗰個黑盒嘅數據嘅紀錄系統就唔會係記錄加速、減  
10 速嘅數據嘅，啱唔啱？」

11 咁 Kulis 先生話「係㗎，我都係咁樣理解嘅，因為嗰個我哋嘅黑盒有另一  
12 個功能嘅，就係記錄功能嘅，因為呢個有唔同嘅數據嘅，可能有二十個唔同嘅數  
13 據、數值可以記錄嘅，不過就唔包括加速、減速嘅」，咁呢度就我哋等一等，停  
14 一停，睇一睇，Kulis 先生嘅意思好似係咁講㗎，雖然九巴使用嘅黑盒係有能  
15 力係可以儲存加速、減速嘅數據嘅，但係你有啟用到呢個功能嘅，即係九巴就有  
16 啟用到呢個黑盒呢啲功能嘅，我想請公司可唔可以提供下你哋嘅意見呢？即係鑑  
17 於你哋之中其中一個人今朝都作證都話加速、減速嘅數據係其實係有儲存到嘅，  
18 亦都會係--佢話係用嚟監察司機嘅行為嘅。

19 梁健宏先生：係嘅，我哋有儲存喺個黑盒度，但係呢啲所有嘅資料，加速、減速嘅資  
20 料亦都會喺我哋嘅伺服器嗰度嘅，所以啲資料都會傳送番去我哋個伺服器嗰  
21 度，係有嘅。

22 MR DUNCAN：（經傳譯員）你嘅意思你話係個伺服器度儲存咗個數據？

23 梁健宏先生：對。

24 MR DUNCAN：（經傳譯員）咁嗰個响伺服器就措咗呢個數據之後，咁公司嗰啲人點  
25 樣佢係接觸到呢啲嘅數據嘅呢，實際上係點樣做嘅呢？

26 梁健宏先生：我哋喺個 server 度呢啲紀錄我哋會睇番呢啲加速、減速嘅資料，從而  
27 制定一啲--睇睇有冇啲係超過一啲標準，譬如話佢加速得太快或者減速得太  
28 快，從而衍生啲比較唔係好 proper 嘅駕駛行為，咁喺呢一度我哋可以利用呢  
29 啲咁嘅資料係搵出一啲有關嘅車長去再檢討下佢哋嗰啲行為，就交畀我哋其他  
30 部門去處理，呢啲就係用呢啲資料嘅情況。

31 主席：（經傳譯員）鄧先生問，啲人點樣可以接觸到呢，要有啲咩嘢步驟先可以睇得  
32 到呢個資料呢，呢個就係佢頭先問嘅問題。

33 梁健宏先生：呢啲資料就係喺電腦嗰度嘅，咁就我哋會有啲電腦程式去處理呢啲咁嘅  
34 資料，就出咗一啲 report 出嚟，一啲報告出嚟，咁嗰度亦都因為黑盒度啲資  
35 料只係紀錄低嗰個盒嘅資料、時間、速度、加速、減速嘅情況，咁亦都有啲條  
36 路線嘅資料，亦都有啲個車長嘅資料，所以變咗我哋喺背後，喺個伺服器，喺

1 呢啲咁嘅數據，我哋經過一輪嘅處理，先至可以出到一啲報告出嚟，令到我哋  
2 其他部門嘅同事可以去跟進。

3 主席：（經傳譯員）所以嗰個人要求電腦就攤到嘅資訊就係某一個黑盒嘅資訊嘅啫？

4 梁健宏先生：嗰度係冇嘅。

5 主席：（經傳譯員）或者可唔可以再講一講？我聽唔到。

6 李澤昌先生：或者我補充少少，嗰個黑盒嗰啲資料嗰個速度，佢嗰個加速同埋減速呢  
7 啲資料就會傳送去嗰個 server 個攝錄器嗰度，而呢個 server 嘅攝錄器裏  
8 面，佢會好清楚知道架車由起點去到終點，佢成個車嘅車程，佢亦都可以查到  
9 呢架車程裏面佢行嘅位置，咁所以嗰個攝錄器就會有一個好精準知道佢喺邊一  
10 個位置係...

11 主席：（經傳譯員）唔好意思，李生，我要講一講，你係咪去某一個黑盒，先至攤到  
12 嗰個資料？即係譬如話你可以將嗰個黑盒同嗰個巴士嘅編號係聯繫起來㗎，係  
13 咪呀？

14 梁健宏先生：Yes, At the back end we can--係呀，有配對㗎，嗰個盒嘅杯巴  
15 同我哋架巴士杯巴係有個 connection 嘅，所以知道呢個盒嘅杯巴對番邊架巴  
16 士杯巴，係有個 index 嘅，你知道個盒杯巴就知道邊個巴士杯巴。

17 主席：（經傳譯員）嗰個要求呢啲資料嘅人就係話佢係講緊某一個黑盒或者即係某一  
18 架巴士嘅資訊喇，佢要求見到嘅就，㗎唔㗎？

19 梁健宏先生：（經傳譯員）㗎嘅。

20 主席：（經傳譯員）我想--我叫鄧先生繼續之前，我想問一個問題，點解個黑盒係有  
21 能力係記錄個加減速嘅數據，點解唔响嗰度措起佢，然後另外亦都係傳送番去  
22 個伺服器呢？

23 梁健宏先生：等我解釋㗎，個黑盒就記錄低每一秒鐘地點，即係經緯度喇，嗰一秒鐘  
24 架車嘅速度。咁如果呢一秒鐘嘅速度去比較番上一秒鐘嘅速度，佢加速超過一  
25 個 pre-set value，而家就係 4 公里，4 公里，如果超過而家我哋定咗 4 公  
26 里，佢就會車速嘅提示器就會著燈，亦都會響嘅。如果佢呢一秒鐘響過嘅話，  
27 呢一秒鐘佢亦都記錄低咗呢個提示器佢響過嘅，亦都有紀錄嘅。如果佢呢一秒  
28 鐘佢嘅速度相對佢一秒鐘係細過，而家就係 7 嘅，之前就係 8 嘅，7 公里每小  
29 時，即係話佢剎車比較快喇，係急剎喇。

30 咁同樣地，個提示器亦都會著燈同埋「㗎」聲提醒個車長嘅。而呢個急剎  
31 嘅提示亦都喺嗰一秒鐘記錄低嘅，記錄低嘅。咁嗰一秒鐘佢所有冇提示或者冇提  
32 示，呢啲咁嘅紀錄，就一秒鐘嘅紀錄都會傳送番我哋嘅伺服器嘅，所以佢嗰秒鐘  
33 冇冇提示過佢，喺我哋資料就知道晒㗎喇，所以儲存喺嗰個盒嗰啲數據需唔需要  
34 幾次，我哋嘅伺服器都有㗎喇。我哋嘅伺服器掌握晒呢個車長被提示過多少

1 次、因為咩嘢原因提示佢，我哋個資料喺個伺服器嗰度係有㗎。

2 主席：（經傳譯員）咁換句話講，黑盒就會每秒係記錄速度喇，呢個就係運輸署要求  
3 嘅，咁佢係減速率就只係會喺超越咗你嗰個即係上限嘅時候，即係每秒 4 公里  
4 或者係下降咗 7 公里先至會記錄喇？

5 梁健宏先生：我再補充多一點，我漏咗一樣，就係 speeding，同樣地，如果佢個速  
6 度係超過某一個我哋 pre-set 嘅 value，嗰秒鐘，而家我哋定咗就係 70，如  
7 果佢嗰秒鐘佢超過 70，個提示器就會響㗎喇，而嗰秒鐘亦都會記錄低個提示器  
8 響過佢嘅，如果係超過 70。即係換句說話講，speeding，即係 speeding  
9 sudden deceleration、harsh braking、超過嗰啲 pre-set value，都  
10 會提示個車長，亦都喺嗰秒鐘如果係有呢啲提示，會記錄低，而所有呢啲咁嘅  
11 紀錄，每秒鐘嗰啲紀錄係會傳送去我哋個電腦伺服器嗰度。

12 主席：（經傳譯員）幾時係定下呢一個每小時 70 公里呢一個嘅數值㗎？

13 梁健宏先生：我哋今年 2 月 23 號就將嗰個提示嘅 value 就改做 70 嘅，之前係  
14 75。

15 主席：（經傳譯員）你講緊 2018 年，係咪呀？

16 梁健宏先生：對。

17 主席：（經傳譯員）鄧律師。

18 MR DUNCAN：（經傳譯員）多謝，主席。咁我想你睇番你向委員會提供嘅資料嘅，  
19 咁喺你第一份嘅即係陳述入面，我想你睇番第 50 頁，你第一份嘅陳述嘅。咁之  
20 前我提過，即係我對問題嘅第二部分係有興趣嘅，即係話呢啲嘅裝置即係會收  
21 集啲乜嘢資料去監察司機嘅表現，而呢啲收集到嘅資料點樣可以改善駕駛安  
22 全，咁根據你嘅答案，你只係提到車速同埋車輛嘅位置，你有提到加速或者減  
23 速嘅，咁點解呢？

24 梁健宏先生：因為我哋每一秒鐘都有個速度嘅，正如頭先解釋喇，呢一秒鐘同下一秒  
25 鐘個速度嘅分別就等如加速或者減速嘅，所以變咗我哋就唔需要另外一個計時  
26 器計佢加速或者減速，我哋就係用每一秒嘅速度去計番佢個加速係點樣樣。

27 主席：（經傳譯員）咁佢係似乎即係呢個唔係一個完整嘅答案，即係唔係完整咁樣回  
28 應咗鄧律師嘅問題㗎，個問題係「點解」。呢個即係只係得十二個字嘅啫，呢  
29 一句嘅答案，即係你係只係用咗呢十二個字去回應呢一個問題。

30 梁健宏先生：我只係可以講，個黑盒 capture 咗嗰個車嘅速度。

31 主席：（經傳譯員）亦都有其他嘅嘢，係咪？

32 梁健宏先生：Among other things，對。

1 主席：（經傳譯員）個問題係點解你有提到其他嘅資料呢？咁我點解問呢個問題，因  
2 為係你負責係回答呢個問題嘅，我唔知邊個係呈交呢份嘅陳述，咁我只係問點  
3 解係唔完整呢。

4 梁健宏先生：我哋有二十幾項數據嘅，有時間、有日期、有 vehicle speed、有引  
5 擎嘅轉數。

6 主席：（經傳譯員）咁點解冇喺呢度提到呢？

7 梁健宏先生：可能就係呢兩樣最主要嘅數據就係 for monitoring of bus  
8 captain。

9 主席：（經傳譯員）鄧律師。

10 MR DUNCAN：（經傳譯員）我而家想講第三個範疇嘅，我之前亦都係表示我係有興  
11 趣呢個範疇，咁我哋之前都有提過--唔好意思，我哋係未經過呢個問題嘅，咁  
12 第三個範疇就係呢啲收集到嘅資料係會點樣使用，嚟以一個實時嘅方式可以協  
13 助車長呢，呢個就係我有興趣嘅範疇喇。係請你睇第 65 頁，就係 BM-1 嘅文件  
14 冊嘅，呢個就係律師行發出嘅信件。咁喺呢一項中間藍色嘅部分，佢就話遠程  
15 嘅通訊系統係有三個主要部分嘅，咁而第一個部分就係司機回饋裝置，咁喺個  
16 介紹度就話呢個裝置係提供一個視覺同埋聲音嘅回饋畀司機嘅，就係就著四個  
17 基本嘅門檻嘅數值，包括係引擎嘅轉數、超速、加速同埋即係閒置嘅狀態嘅，  
18 咁佢係喺呢一個司機箱嗰度同埋係接駁到去呢個 Openmatics 嘅系統，咁而車  
19 長嘅回饋系統就係表示如果即係相關嘅數值達到去門檻嘅話，咁車長就會係得  
20 到一個資訊，包括係透過呢一個「咁咁」聲同埋會有盞燈亮起嘅，咁呢個就係  
21 包括係引擎、速度、閒置嘅狀態同埋加速嘅，咁呢一頁度就顯示咗呢啲資料  
22 㗎。咁呢個情況係咪即係已經充分咁樣去即係描述咗九巴上面嘅車長嘅警告系  
23 統？

24 梁健宏先生：正確。

25 MR DUNCAN：（經傳譯員）咁而家就請你--我想問一啲問題嘅，就係關於呢一啲嘅  
26 界限數值嘅。咁 68 頁嘅頁頂，咁就話「根據我哋所知，司機回饋系統就係有喺  
27 意外中相關嘅車輛度安裝嘅」，係講緊大埔嘅意外，咁而司機回饋嘅限值，即  
28 係喺相關嘅意外入面嘅巴士係最初係由九巴去訂立，然後就由 Openmatics 去  
29 調校，去即係切合九巴嘅指定嘅數值嘅，你可唔可以確認？

30 梁健宏先生：正確。

31 MR DUNCAN：（經傳譯員）根據相關嘅歷史，咁而意外中車輛嘅四個限值就係由九  
32 巴去訂立，而後來係由 Openmatics 就喺 17 年 7 月 24 日係調整嘅，係咪正  
33 確？

34 梁健宏先生：想補充一點，acceleration 同 deceleration，係嘅。Tilting  
35 angle 嗰度，嗰度 44，我哋從未有任何嘅設定嘅，亦都搵唔到一個

- 1 reference 嘅設定，所以係冇提供畀 ZF 嘅。
- 2 主席：（經傳譯員）即係九巴冇提供，係嘛，你嘅意思係？
- 3 梁健宏先生：By KMB，冇提供嘅，我哋...
- 4 主席：（經傳譯員）咁據我哋所知，呢啲限值係有即係入咗落個意外嘅巴士，係
- 5 嘛？即係 44 度。
- 6 梁健宏先生：我哋知道嘅。
- 7 MR DUNCAN：（經傳譯員）你知唔知道 Kulis 先生係解釋呢個就係預設嘅安排？
- 8 梁健宏先生：明白，係。
- 9 主席：（經傳譯員）咁即係--冇取消...
- 10 梁健宏先生：正確。
- 11 MR DUNCAN：（經傳譯員）咁呢個文件就講到根據咗意外嘅期間，我哋嘅所知，當
- 12 時嘅限值就係咁樣嘅，咁大家可以睇到。
- 13 主席：（經傳譯員）咁或者可唔可以讀出嚟，鄧律師？即係方便我哋記錄。
- 14 梁健宏先生：（經傳譯員）即係加速率就係以每秒幾多米嘅，就係 1.15，每秒
- 15 1.15 米。
- 16 主席：（經傳譯員）呢個係每平方--秒 1.15 米嘅，咁而減速就係 2.3，速度就係
- 17 75 公里嘅，每小時，啱唔啱？
- 18 梁健宏先生：Yes.
- 19 主席：（經傳譯員）咁就係咗某啲嘅區域嘅速度，咁同樣係每小時 75 公里嘅？
- 20 梁健宏先生：（經傳譯員）我哋係唔知道呢一個數值。
- 21 主席：（經傳譯員）即係你係唔知道第二項數值，係嘛？
- 22 梁健宏先生：No.
- 23 主席：（經傳譯員）多謝鄧律師。
- 24 MR DUNCAN：（經傳譯員）咁然後就係一個閒置嘅數值同埋引擎嘅數值嘅，睇唔睇
- 25 到嗰個數值？
- 26 主席：（經傳譯員）3,000 轉。
- 27 梁健宏先生：Yes, yes.
- 28 MR DUNCAN：（經傳譯員）呢啲就係嗰啲有關嘅限值，唔係淨係個大埔意外個巴

1 士，而係所有九巴嘅巴士上都有啲咁嘅數值嘅，當時係有啲咁嘅數值嘅？

2 梁健宏先生：（經傳譯員）係嘅。

3 主席：（經傳譯員）咁啲數值係由九巴制定嘅，同埋 Openmatics 就調校嘅？

4 梁健宏先生：（經傳譯員）係嘅。

5 MR DUNCAN：（經傳譯員）再睇番兩件有關速度嘅事喇，如果我有理解錯嘅，如果  
6 我理解係正確嘅話，如果任何一架巴士超過咗每小時 75 公里嘅速度，嗰個車長  
7 就會聽到啲「必必」聲嘅，同埋個燈會閃下嘅，即係响架車駕駛艙會發現兩樣  
8 嘢嘅？

9 梁健宏先生：（經傳譯員）㗎嘅。

10 MR DUNCAN：（經傳譯員）咁如果個巴士譬如話每小時 60 公里，而當時嗰個道路嘅  
11 限速係 50 公里，有冇任何嘅提示嘅呢？即係車長會收到提示呢？

12 梁健宏先生：而家係冇嘅。

13 MR DUNCAN：（經傳譯員）會唔會有好啲呢，如果係咁樣嘅提頁系統？

14 梁健宏先生：係，absolutely。

15 MR DUNCAN：（經傳譯員）咁响呢方面我想請你睇睇 Kulis 先生嘅證供。請翻到第  
16 六日聽證會第六日，我哋嘅第三冊，頁數係 180--唔好意思，係 150。請你特  
17 別留意第七行，第 150 頁第七行。咁陳先生就係話「嗰個校好嗰個角度或者校  
18 好個數值就係超速，呢度有兩個數值嘅，一個就係速度，另一個就某啲區域嘅  
19 速度，兩個都係定咗每小時 75 公里。咁首先有個基本嘅問題，睇下我理解有冇  
20 正確，如果係超過每小時 75 公里，咁就即係已經過咗界喇，㗎唔㗎？」咁就話  
21 第 17 段佢話「㗎嘅」，17 段話。咁佢呢兩個數值有乜分別呢？速度相對於某  
22 區嘅速度，可唔可以請你--你自己睇番第十九行，一路去到第 155 頁第九行。  
23 請你用啲時間去睇一睇呢幾行。係咪可以睇晒呢？

24 梁健宏先生：Yes.

25 MR DUNCAN：（經傳譯員）如果我有理解錯呢個證供，Kulis 先生嘅講法有唔同嘅  
26 地方嘅，有唔同嘅--制定兩個唔同嘅限速嘅數值嘅，你嘅理解係咪一樣？

27 梁健宏先生：Yes.

28 MR DUNCAN：（經傳譯員）第一個我哋見到嘅 151 頁嘅呢個第二行，你要制定究竟  
29 係咩嘢區域，即係話譬如嗰個地理嘅界限或者係其他嘅資料，如果你係想某啲  
30 區域有唔同嘅速度嘅限制嘅一啲數值，咁嗰個系統要知道佢响幾時先至會觸動  
31 到呢個咁樣嘅限數值嘅，咁即係話要係制定有關嘅數字，我哋需要調校嘅，要  
32 制定究竟有啲乜嘢嘅地區、有咩嘢數值。委員會聽到喇，我唔知道你知唔知

1 喇，我哋所聽到嘅就係城巴係有咁樣嘅系統嘅，佢哋有制定㗎，廿五個唔同嘅  
2 區域嘅。咁喺呢廿五個區域就會提供一啲回饋畀車長嘅，你知唔知道有咁嘅  
3 事？

4 梁健宏先生： Yes.

5 MR DUNCAN：（經傳譯員）咁第二樣我就更加有興趣嘅，就係使用呢個咁樣嘅電子  
6 嘅系統嘅——電子地圖嘅，154 頁第八行開始，咁陳先生，陳正隆（譯音）先生  
7 就向 Kulis 先生提出呢個問題「如果我有一個數碼嘅地圖可以顯示唔同嘅路  
8 段，有唔同速度嘅限制嘅，咁我可唔可以將呢個系統同而家呢個系統就合併，  
9 嚟到係制定唔同嘅所謂嘅速度嘅限值嘅，就視乎嗰架巴士响嗰個電子地圖顯示  
10 嘅咩嘢地方，定係話根據呢個系統咁樣合併做唔到嘅？」Kulis 嘅回覆就係話  
11 「肯定係可行，係可以做到嘅」，咁我哋需要做一啲嘢，想需要一啲軟件嘅。  
12 香港都已經係有電子地圖㗎喇，係嘛？你知唔知？

13 梁健宏先生： Yes.

14 MR DUNCAN：（經傳譯員）頭先你講過喇，最好係有咁樣嘅系統，即係話如果你話  
15 嗰度係限度 50 公里，如果你超出 50 公里，最好就有個警示畀個車長喇，咁你  
16 對於呢個可行性，呢度有兩個可能嘅改進嘅方法，Kulis 建議有兩個方法，你  
17 有咩嘢睇法？

18 梁健宏先生：我哋係好高興知道可以咁樣做，亦都因為呢個 IRC，咁我哋可以得到一  
19 啲 map，政府嘅 digital map，因為呢度講緊係一個官方嘅紀錄嚟嘅。一個  
20 road speed limit 係一個好嚴重嘅事情嚟嘅，如果嗰啲數據係唔正確，係會  
21 好危險，所以我哋而家點做呢？我哋其實喺不——同 Openmatics 商討呢件事  
22 情，點樣可以做到唔同嘅區可以知道佢嗰個速度嘅 limit，架車去到嗰度，佢  
23 知道呢個 limit 係 70 抑或係 50，而家因為我哋唔知道邊度係 70、邊度係  
24 50，所以我哋就定咗係 70。咁利用呢個方法，架車嗰個位置，知道嗰個位置係  
25 50 嘅話，佢超過 50 就會響佢㗎喇，呢樣嘢我哋就同 Openmatics 亦都 test  
26 drive，7 月 31 號。

27 我哋會有架車將個 digital map 嗰啲 road limit 嘅 condition 就畫  
28 咗嗰個架車嗰個黑盒入面，從而令致到嗰架車去到邊個位置佢就知道嗰個地點嘅  
29 road limit 係幾多，速度係幾多。咁我哋 7 月 31 號試過，就覺得係  
30 positive 嘅。再進一步我哋就睇到點樣樣可以再 further implement，如  
31 果係 possible 嘅，我哋就會所有嘅車隊都會有呢樣嘢嘅措施，從而架車去到  
32 50 嘅地方，超過 50 佢就會提示個車長，去到 70 嘅地方，超過 70，就會提示  
33 個車長。相對而家就會大大咁改善。

34 李澤昌先生：即係有點補充嘅，因為嗰個地圖嘅重要呢，因為其實香港每一日個道路  
35 個速度都可以改變嘅，例如有啲掘咗路、例如有交通意外，其實個即時嗰個道  
36 路嗰個速度係可以直接影響到我哋嘅車速，所以個地圖係其實一定要係一個  
37 live 嘅地圖嚟嘅，所以咁——即係我哋係有一個突破，就係喺過去一段好短嘅時

1 間，嗰個地圖終於係我哋收到喇，咁 Openmatics 亦都即係擺咗喺個黑盒裏  
2 面。咁我哋其實喺第一階段就係頭先講 70、50 都好喇，而家我哋有架車係已經  
3 嘗試緊啲喇，咁如果我哋係試到係得嘅話，就會有個即時嘅 alert，個  
4 system 睇番嗰個車嗰個 desk board 嗰度 real-time 咁話畀個車長聽「你  
5 係超咗速度」，咁但係 geo-fencing 嗰個係需要更加長嘅時間，因為 geo-  
6 fencing 嗰個係因為係會--嗰個 black box 收到呢個訊息之後就會即係控制  
7 番嗰架車嗰個即係加油、踩 brake 嗰啲，嗰個可能要時間長啲，但係起碼第一  
8 階段嗰個 70 同 50 嗰個喇，有咗個 map，嗰度就會行得會快啲，但係而家都係  
9 一個--即係我哋試咗大概都係--一架車，試咗都係嗰幾個星期嘅啫。

10 MR DUNCAN：（經傳譯員）點解因為呢個委員會你就擺到嗰個電子地圖呢？

11 梁健宏先生：呢個係我自己嘅 gut feeling 啫，不過即係事情可能咁巧合喇。

12 主席：（經傳譯員）你喺邊度擺到呢個地圖？

13 梁健宏先生：（經傳譯員）政府。

14 主席：（經傳譯員）邊個部門？

15 梁健宏先生：（經傳譯員）運輸署。

16 主席：（經傳譯員）之前有冇問過？

17 梁健宏先生：（經傳譯員）冇嘅。

18 主席：（經傳譯員）幾時問？

19 梁健宏先生：（經傳譯員）我之前冇問。

20 主席：（經傳譯員）咁點解會擺到？

21 梁健宏先生：我就收到封信。

22 主席：（經傳譯員）即係運輸署就話畀你聽係可以擺到咁嘅地圖？

23 梁健宏先生：係咁，啱。

24 主席：（經傳譯員）幾時發生嘅事？

25 梁健宏先生：6 月嘅，6 月 7 號。

26 主席：（經傳譯員）個信件係寫住「6 月 7 號」？

27 MR DUNCAN：（經傳譯員）即係 6 月之前係運輸署就有表示係有呢啲數碼地圖嘅？

28 梁健宏先生：（經傳譯員）冇錯。

29 主席：（經傳譯員）你可唔可以畀一份即係呢封信嘅副本我哋？

1 梁健宏先生： Yes.

2 主席：（經傳譯員）咁麻煩而家就去影印呢封信，可唔可以有人去幫手影印呢封信？  
3 即係上面有寫到字，係嘛？咁只係影印就可以喇，跟住我哋會還番畀你嘅。鄧  
4 律師。

5 MR DUNCAN：（經傳譯員）多謝，主席。可唔可以咁講，九巴公司嗰即係一啲限速  
6 50 嘅路段，即係嘅行駛嘅里數係比起限速 70 嘅地段嘅里數係多好多嘅？

7 梁健宏先生：答唔到你，can't answer you，我要去攞多啲數據。

8 主席：（經傳譯員）咁可能--其實城巴都答唔到呢個問題，可能你係可能會感到安慰  
9 喇，如果你聽到咁樣。咁香港嘅路段嘅速度限制就係有用顏色去分嘅，即係大  
10 部分嘅路都係限速 50 嘅，咁我哋就可以顯示埋你嗰啲巴士路線嘅，咁但係即係  
11 一般地講都可以答呢個問題嘅。咁喺限速 50 嘅路段嘅巴士行駛係多過制速 70  
12 嘅巴士好多嘅，如果你仍然係答唔到，你可以話我知。

13 MR DUNCAN：（經傳譯員）或者我幫一幫你㗎。九巴嘅巴士係咪經常去行駛一啲路  
14 段限速 50 嘅地帶？

15 梁健宏先生：（經傳譯員）係嘅，但係即係嗰個有幾多程車--即係車程嘅數量可能係  
16 唔同嘅。即係我係工程師嚟嘅，所以我係想知道啲事實先去回答你。

17 主席：（經傳譯員）或者你都可以去從政。

18 MR DUNCAN：（經傳譯員）我就想問多一個問題嘅，就住呢一個範疇，咁喺成立獨  
19 立檢討委員會之前係有採取到啲咩嘢步驟，即係就住一啲超過咗時速 50 公里限  
20 制嘅巴士，究竟係做咗啲乜嘢？

21 梁健宏先生：我哋曾經試過呢，我哋曾經試過個咪錶去到 50 嗰陣時就 prompt 個車  
22 長，個咪錶去到 50，當其時架車係唔知道佢行緊咩嘢路段嘅，我哋曾經試過佢  
23 超過 50 就提一提佢「喂，你超過 50 喇」，但係啲車長--因為我分別唔到架車  
24 喺邊個位置，但係我哋都想提嗰啲車長，如果佢行緊市區嘅道路，就話畀佢知  
25 「喂，你超過 50 喇」，但係有啲情況就係嗰啲車未必真係--行開又 50，又 70  
26 嘅話，變咗有啲車長就覺得就有啲 unnecessary 嘅 alert 喇。所以變咗試咗  
27 一段好短嘅時間，我哋都唔可以再做，因為其實我哋判斷唔到架車實情係喺 50  
28 路段㗎，抑或 70 路段。

29 主席：（經傳譯員）即係根據我嘅理解，你係想去試驗一下，即係當車速一超過 50  
30 公里就去有一個嘅訊號，但係啲車長就覺得好煩，因為即係好多時佢哋都喺一  
31 啲限速 50 嘅區域嘅？

32 梁健宏先生： Correct.

33 主席：（經傳譯員）究竟係咩嘢時候？

1 梁健宏先生：（經傳譯員）都好一段日子之前喇，我唔記得實際嘅時間。（證人直接  
2 用本地話說）but 呢個就唔係 telematics 出嚟嘅，唔係個黑盒嗰度嘅。

3 主席：（經傳譯員）呢個就係車速器，係咪呀？

4 梁健宏先生：（經傳譯員）冇錯。

5 主席：（經傳譯員）我哋稍後就會去休息一下，因為即係已經進行咗一段好長嘅時  
6 間，咁大家可以去放鬆一下。即係你係可以嘅話，即係可以去小休嘅話，你可  
7 以話畀我知嘅。

8 MR DUNCAN：（經傳譯員）或者可以完埋呢一個議題。呢套系統就係 13 年係向  
9 Openmatics 去購買嘅，係咪？

10 梁健宏先生：（經傳譯員）係。

11 MR DUNCAN：（經傳譯員）咁當時，即係限速 75--即係 75 車速呢一個數值有冇係  
12 輸入咗去系統度？

13 梁健宏先生：嗰個設定係 KMB 話畀 Openmatics 知嘅，係 KMB 定嘅。

14 MR DUNCAN：（經傳譯員）咁喺 2013 年直至到委員會成立呢段期間，你有冇檢討  
15 過即係呢個系統有冇去即係透過呢個全球定位系統去記錄一個超速超過 50 嘅情  
16 況，你有冇即係探討過呢個情況？

17 梁健宏先生：（證人直接用本地話說）我唔可以肯定，但係我相信我哋曾經都會同製  
18 造商討論過呢個話題。（經傳譯員）我唔肯定嘅。

19 MR DUNCAN：（經傳譯員）可唔可以話畀我哋知係幾時？

20 梁健宏先生：（經傳譯員）我唔記得嘅。

21 主席：（經傳譯員）你記唔記得即係喺公司入面係咩嘢人士係參與？

22 梁健宏先生：（經傳譯員）我唔記得。

23 主席：（經傳譯員）鄧律師，我哋而家係會小休十五分鐘，唔該。

24

25 下午 3 時 53 分聆訊押後

26

27 下午 4 時 08 分恢復聆訊

28 出席人士如前。

29

1 主席：（經傳譯員）鄧生，請繼續。

2 MR DUNCAN：（經傳譯員）多謝你，主席。各位先生，請睇番個個膳本嘅文件冊，  
3 係第 11 日嘅聽證會嘅膳本，請睇番 73 頁，請睇番第 14 行，佢係委員會嘅黃  
4 律師問呢個 Kelvin Yeung 楊先生，大家都知道楊先生係公司嘅現在嘅僱員，  
5 啱唔啱？

6 李澤昌先生：（經傳譯員）係。

7 MR DUNCAN：（經傳譯員）第 14 行呢度，即係黃小姐，黃佩琪大律師，「我哋同  
8 Alok Jain 收到--其中一次見面嘅時候收到嘅證供，就佢哋考慮過有個積分表  
9 嘅一個系統嚟嘅，即係計積分嘅系統嚟嘅，其中一個考慮過嘅系統就係呢個叫  
10 做 GreenRoad.com 嘅系統嘅，佢呢個作用就係會知道嗰個司機嘅駕駛嘅行  
11 為，呢個車長，有三個類別嘅，紅色、黃色、綠色。」

12 跟住我哋跳一跳，去 75 頁，睇番 75 頁，第 8 行，楊先生講「我唔係好清  
13 楚 Alok 先生所講嗰個名，不過應該係採用呢個制度嘅，呢個其實好似我哋現有  
14 嘅制度。」

15 主席問「嗰個制度係乜嘢制度呀？」楊晉璋先生 Kelvin Yeung 就話「正  
16 如我所講，會有聲，會有燈著咗，有三隻顏色嘅燈嘅，視乎個車長嘅駕駛行  
17 為，就會著三盞燈嘅一種燈。呢啲燈就佢响嗰個車長總站，拍咗個八達通卡，  
18 就會著㗎喇，跟住個燈就會視乎嗰個係車長嘅表現嚟到著個燈，綠色最好，黃  
19 色同埋紅色即係話有啲嘢需要改善，呢個系統現在仍然响度使用嘅。」

20 主席就問一個問題「當嗰個車長係落班嘅時候，佢就再點一點佢嗰個八達  
21 通卡，呢個响咩嘢地方會顯示呢個資料畀佢睇呢？」楊生就話「只係話佢第一  
22 次拍個八達通卡嘅時候，朝頭早嘅時候先至會顯示呢個資料嘅，我唔知道佢會  
23 唔會顯示番前一日嗰個資料嘅燈號，但係我知道同一日嚟講，就唔會畀番個車  
24 長睇嘅，即係話佢落班嘅時候冇資料嘅。」

25 「你嘅意思即係上班嘅時候就係有資料嘅？」「係嘅，上班嘅時候就顯示  
26 資料嘅。」

27 「呢個資料係關於咩嘢時段㗎？」「我要睇番嗰個有關嘅期限嘅，不過就  
28 唔係講緊同一日嘅資料嚟嘅，係關於過去一段時間嘅，至於話呢個期限係個範  
29 圍，我就而家有資料。」

30 「咁樣嗰個顯示响邊度顯示呀？嗰個巴士車長喺邊度見到㗎？」「每個巴  
31 士總站都有一個電腦嘅，個車長返到去總站，佢就要將佢嘅職員卡嚟到係拍一  
32 拍，咁先攞到呢個資料嘅，個電腦就响嗰個亭外面嘅，即係巴士總站對住巴士  
33 車長個亭外面嘅。」

34 「即係你意思話...」「有三種顏色，就會其中一種就會向個車長顯示出  
35 嚟，就係紅色、黃色、綠色。」

1 好喇，我睇番頭先個證供，我有個問題，你可唔可以證實呢個三色系統，  
2 綠色、黃色、紅色係現在都仍然响度使用㗎？

3 梁健宏先生：（經傳譯員）係嘅。

4 MR DUNCAN：（經傳譯員）你可唔可以形容一下呢個系統個基礎係點樣㗎？

5 梁健宏先生：呢個係一個車長駕駛嘅評估㗎，一個 score 㗎嘅，一個分數，就有四  
6 樣嘢去評估佢嘅，第一樣就係 excessive idling，即係怠速太長；第二樣嘢  
7 就係 harsh braking，即係急剎；第三樣就係 sudden acceleration，加  
8 速得太快；最後一樣就係 speeding，超速。如果就住呢四個項佢嘅表現，喺  
9 每一位車長佢一個 trip，佢每日咁多個 trip，一個禮拜嘅表現，我哋就攞呢  
10 四樣嘢去作為一個準則去評估下佢個駕駛嘅表現。

11 當然我哋有啲準則就係頭先所講啲幾個內容，啲幾個類別，佢做得好嘅  
12 話，架車就會比較柔順一啲，乘客坐喺架車度會安全啲，架車個 fuel  
13 consumption 亦都會環保啲，個 fuel consumption 會好啲嘅話，就即係等  
14 如環保啲，所以變咗呢樣嘢就係一個 eco-safe driving，eco-safe。

15 評估咗有個 score，就會分為最好啲就綠色，另外就有 amber 同埋 red  
16 嘅，即係分三個級別，呢個就係每一個禮拜嘅 score 㗎嘅，呢個 score，佢去  
17 到 termini 嗰度去 report duty，佢 sign in for duty 嗰陣時，佢就會  
18 話畀佢知佢十日前個七個 week 嘅--七個日，十日前之前嘅七天個 week 個  
19 score，show 到佢係綠色，黃色、紅色就有 show 出嚟嘅，不過就會 show 一  
20 啲 wording 提醒佢要注重啲乜、注重啲乜。

21 意思就係點解呢？其中一樣嘢因為車長喺站頭去拍個卡，個 screen 唔  
22 多唔少有時有其他人會睇到，即係變咗呢樣嘢就令到個車長就知道佢係咩嘢  
23 score，但係個內容就係咁樣樣顯示。同一時間，佢如果上番去我哋嘅員工  
24 網，個車長上個員工網，佢亦都可以睇番佢過往個八星期佢個分數嘅。呢啲咁  
25 嘅提點亦都畀佢喺站頭、bus terminus report duty 嗰陣時，個個畫面亦  
26 都會話畀佢知佢嘅分數之餘，詳情佢亦都係可以上番個員工網，知道佢嘅駕駛  
27 表現，呢個係一個比較佢自己知道佢自己嘅駕駛行為，呢啲就自己去改進喇。

28 呢個設計個目的就係咁樣樣。我哋就係應該係 2015 年 11 月 launch 嘅。

29 MR DUNCAN：（經傳譯員）換句話講，個系統係可以幫助到車長，係咪呀？

30 梁健宏先生：（經傳譯員）係嘅，亦都係可以幫助到乘客同埋巴士公司。

31 MR DUNCAN：（經傳譯員）究竟紅、黃、綠嘅呢個分類係基於乜嘢嘅資料或者數據  
32 去訂定嘅呢？

33 梁健宏先生：我暫時就有呢個分類個數據，不過絕大部分都係 green，個  
34 score 係有個 formula，有個程式嘅。

- 1 李澤昌先生：佢問黑盒有啲咩數據。
- 2 梁健宏先生：（經傳譯員）唔好意思，我誤解咗個問題，我重複一次。（直接用本地  
3 話說）有四個 item 嘅，有四個類別嘅，excessive idling...
- 4 主席：（經傳譯員）唔需要重申呢一啲嘅類別㗎喇，你講得好清楚。鄧律師嘅問題就  
5 係究竟定立嘅限值係幾多，即係就住呢四個類別？
- 6 梁健宏先生：（經傳譯員）唔係咁簡單嘅，（直接用本地話說）佢有兩個  
7 threshold 嘅，第一個就係 excessive idling 就係唔好超過十五分鐘，唔  
8 好超過十五分鐘；Harsh braking 就係跟番我哋黑盒嘅 setting；Sudden  
9 acceleration 跟番黑盒嘅 setting；Speeding 亦都係跟番黑盒嘅  
10 setting。即係換句話講，speeding 就係 70，sudden acceleration  
11 就係 4 km per hour per second。
- 12 主席：（經傳譯員）似乎呢個資料係有傳遞，即係當車長每日去簽到嘅時候就會見到  
13 呢個資料，係咪呀？
- 14 梁健宏先生：佢每一日拍卡，佢每一個 journey、佢每一個 trip，start or end  
15 the journey 佢會 tap his -- tap 佢個卡喺嗰個 terminus 嗰度嘅，每日  
16 就有兩次會話畀佢知嘅，因為你次次都話畀佢知，佢就覺得好煩擾嘅，所以變  
17 咗每日佢拍卡就會話畀佢兩次知，就話畀佢知，show 到佢個 score 係幾多  
18 嘅。
- 19 MR DUNCAN：（經傳譯員）係咪即係要拍張卡定係要插張卡入部機度？
- 20 梁健宏先生：係，佢拍佢個卡，個 screen 就會 show 出嚟。
- 21 MR DUNCAN：（經傳譯員）呢個紅、黃或者綠嘅分類會唔會影響一啲某一啲獎項  
22 呢？正如我哋今朝所講。
- 23 梁健宏先生：No，淨係喺開始 launch 有個 promoting scheme 嗰時先至有短暫  
24 試過呢樣嘢啫，otherwise 就有，純粹一個等個車長知道佢自己嗰個  
25 performance，知道佢自己嘅表現，等佢從而佢自己去改進佢嗰個駕駛技巧。
- 26 主席：（經傳譯員）關於嗰四個類別，你就同我哋講過啲限值係幾多，如果譬如話喺  
27 個速度嗰度係超過咗限值，車長係咪唔會得到呢個綠色嘅分類呢，或者如果係  
28 加速率太高，又會係點呢？
- 29 梁健宏先生：（經傳譯員）係有一個嘅方程式嘅。
- 30 主席：（經傳譯員）你可唔可以同我哋講下方程式係乜嘢？或者你知唔知道究竟條方  
31 程式係點樣？
- 32 梁健宏先生：（經傳譯員）係有一條方程式嘅，（直接用本地話說）之後再交界你，  
33 可以嘛？

1 主席：（經傳譯員）可以嘅，即係希望係用一個書面嘅形式係分享呢個方程式嘅，會  
2 唔會係喺網站度都有呢條方程式，令到車長知道呢？

3 梁健宏先生：The formula，佢個度有--喺個 website 個度，佢自己先睇到佢自  
4 己個個 performance 嘅，淨係即係 show 到綠色、黃色同埋紅色嘅啫，佢自己  
5 睇到嘅，亦都分番個四類別嘅，佢自己知道個四類別個 score 係咩嘢色嘅  
6 啫，actual score 就有嘅，係 by colour。但係我哋有啲提示，如果佢係紅  
7 色嘅話，就提示佢要踩油門就柔順啲，踩 brake 就緩慢啲，空轉個陣時就少  
8 啲，會提點番佢邊一類別需要改進。

9 主席：（經傳譯員）請你提供呢條方程式，唔該晒。鄧律師。

10 MR DUNCAN：（經傳譯員）有冇任何嘅通告或者係文件係去解釋畀車長知道究竟呢  
11 個計劃嘅目的係點呢，同埋點樣運作嘅呢？

12 梁健宏先生：有嘅，我哋有呢啲通知嘅，我哋有 poster 嘅，有...

13 MR DUNCAN：（經傳譯員）你可唔可以提供一啲嘅例子呢，呢啲嘅資料？

14 梁健宏先生：（經傳譯員）可以嘅。

15 MR DUNCAN：（經傳譯員）你有冇從車長或者工會收到任何嘅意見，即係佢哋點樣  
16 去睇呢一個嘅評分制度呢？

17 梁健宏先生：唔係一個好 formal 嘅 feedback，亦都--但係亦都有啲同事同啲車  
18 長去溝通，都知道呢樣事情嘅，佢哋亦都知道呢個唔係一個獎賞嘅計劃嚟嘅，  
19 呢個係一個希望啲車長知道佢駕駛表現嘅方法。

20 MR DUNCAN：（經傳譯員）有幾多百分比嘅車長會長期都有一個綠色嘅評級呢？

21 梁健宏先生：初步數據有啲顯示絕大部分都係得到 green 嘅 rating 嘅，佔咗有大  
22 約 1 個 per cent 嘅就會黃色嘅，紅色就比較少。

23 MR DUNCAN：（經傳譯員）如果只有百分之一係得到黃色，係咪即係好少--即係少  
24 於百分之一係紅色呀？

25 梁健宏先生：For example，譬如講番最近 7 月 15 號至 7 月 22 號呢個禮拜，有接  
26 近九萬個 record 係 green 嘅--六萬九千-- 69,824 係 green 嘅，有 844  
27 係 amber，red 就係 8 個 record。至於再之前個禮拜，2018 年 7 月 8 號至  
28 到 2018 年 7 月 14 號有 61,010 個紀錄係 green 嘅，amber 有 768，red 係  
29 有兩個。

30 MR DUNCAN：（經傳譯員）或者講一個比較極端啲嘅例子，如果有一個司機係經常  
31 都係喺一個 50 限速區度係經常超速，但係車速係低過 70，而喺一啲迴旋處就  
32 翻側咗架巴士嘅，根據呢個嘅制度，佢仍然都會得到綠色嘅評級，係咪呀？

1 梁健宏先生：因為呢個佢唔知道佢喺咩嘢位置嘅，所以佢就唔知道你喺 50 路段，呢  
2 個就分辨唔到嘅，呢個分辨唔到，佢淨係個速度。

3 MR DUNCAN：（經傳譯員）所以就會畀一個綠色評級佢？

4 梁健宏先生：淨係速度，係，yes。

5 MR DUNCAN：（經傳譯員）你有冇收到一啲意見究竟啲車長係有冇為意有呢一個制  
6 度呢？

7 梁健宏先生：睇番有啲情--呢個就係只不過其中一個即係想知道佢點樣揸車嘅，亦  
8 都有其他呢啲佢頭先所講個四樣嘢，包括 excess idling、harsh braking、  
9 sudden acceleration 同埋 speeding，我哋都有其他啲 report 可以睇到  
10 嘅，呢個只不過頭先所講個綠色、黃色、紅色，個車長自己知道，但係其他  
11 我哋有啲報告亦都可以睇番佢呢幾樣嘢嘅表現，我亦都知道有啲紅色嘅同事，  
12 我哋知道佢個駕駛內容，我亦都知道佢哋係 50 會超速，我哋亦都會有其他啲  
13 啲 report 可以知道，去處理呢個情況，個係管理層會睇嘅，正如頭先彭生  
14 所講，佢有啲車務主任就會睇其他啲 report 去睇呢啲同事嘅表現。

15 而家呢個綠色、黃色、紅色只不過一個好簡單，但係亦都有啲啟發性，等  
16 啲車長知道佢個表現。

17 主席：（經傳譯員）鄧生問就唔係話你點樣知道佢哋嘅駕駛表現嘅，就係佢哋有冇留  
18 意到有呢個制度？佢哋為唔為意呢？

19 梁健宏先生：每一日佢有兩個機會佢會睇番佢哋個 screen，佢自己嘅  
20 performance 嘅，亦都佢可以上員工網個度睇到，呢樣嘢就個車長會知道嘅，  
21 車長係知道嘅。

22 李澤昌先生：其實呢一樣嘢係一啲幾溫馨提示嘅嘢，當然要尊重番大部分嘅車長佢自  
23 己都有佢自己嘅駕駛個態度同精神，呢個唔係一個 discipline 或者係咩嘢  
24 嘅態度嚟，所以其實呢一個係亦都要尊重個車長佢本身應該係有個正確駕駛態  
25 度，呢個係最基本等佢有一個知道自己係揸成點，亦都係希望佢哋自己可以喺  
26 個度係得到啲改善。當然下幾步可以係話多啲資料係咪可以令到我哋可以深入  
27 咁知道佢係咪轉彎等等嘅嘢，呢個係有其他嘅方案去做，例如係有啲便衣巡  
28 查、有人投訴，呢個會再做。但係呢一樣嘢係真係希望佢哋尊重啲車長，佢  
29 自己畀番啲空間畀佢哋自己咁解嘅啫。

30 主席： Mr Duncan.

31 MR DUNCAN：（經傳譯員）究竟有冇有效呢？或者效率好唔好呢？呢個制度有冇咩嘢  
32 問題呢？

33 梁健宏先生：我覺得係可以再好啲嘅，如果啲數據係更加可以實時反映到個車長個  
34 個駕駛態度、方法，正如頭先所描述，佢行緊個 50 路段，講 speeding，如果

1 佢行緊 60，佢都唔會喺個分數度反映到出嚟，但係如果--正如上一次講話如果  
2 我有個 digital map，可以 indicate 到佢喺 50 路段超速嘅話，咁樣個  
3 分數就可能又好唔同，呢度亦都會反映到出嚟嘅，所以而家個 score 係我哋現  
4 時個情況下可以做到嘅，但係如果係有啲更加好嘅反映到實際嘅情況，我哋就  
5 會跟進，會希望再做好啲。

6 MR DUNCAN：（經傳譯員）我個問題就係關於--係咪究竟呢個系統有效率呢？即係  
7 巴士司機知道有個咁嘅系統，佢哋有利用到，同埋拍完卡就知道，究竟呢個系  
8 統係咪有效，係咪有效率咁樣運作緊嘅呢？

9 梁健宏先生：（經傳譯員）係嘅。

10 MR DUNCAN：（經傳譯員）我問呢個問題，因為從嗰個關於雜項事件嘅文件冊第 3  
11 冊 899 頁嘅，可唔可以請大家揭去嗰一頁呀？

12 主席：（經傳譯員）呢個雜項文件冊第 2 冊，即係我呢個版本就應該係第 2 冊。

13 MR DUNCAN：（經傳譯員）你可能未睇過呢份文件嘅，各位先生，我就想向你逐部  
14 分係簡介，我諗李先生會知道委員會主席同埋秘書處嘅人員就曾經去探訪一啲  
15 車廠、總站，係 8 月 3 號，即係上個禮拜五，我解釋下，呢個就係探訪完之後  
16 做嘅一啲紀錄嘅，即係開完會，探訪完之後做嘅紀錄。

17 第一個係關於 899，係去沙田新城市廣場嗰個總站嘅紀錄嚟嘅，我有興趣  
18 就係最後一個記項，呢一頁嘅最後一項，個附件 A 有啲相片嘅，委員會都同三  
19 個車長傾過偈嘅，都係了解一啲事項，就即係委員會同嗰三個巴士車長傾完之  
20 後，跟住你睇最後一點，同一個巴士車長之後就示範點樣嚟使用八達通卡或者  
21 係員工卡响嗰個係稽查嗰個辦事處嗰度點用。

22 呢度有個備註嘅，8 月 1 號聽證會嘅時候 Kelvin Yeung，係一個九巴嘅  
23 僱員就作咗證嘅，去到跟住下面嗰行，佢就係拍咗卡，跟住嗰個電腦就有個白  
24 色嘅畫面，跟住有個藍色字體嘅訊息，就叫佢小心駕駛，因為今日就個天氣就  
25 落雨，跟住就話畀佢聽下一個巴士嘅個路程係乜嘢，冇見到任何有啲分顏色嘅  
26 訊息或者係有啲--或者一啲訊息嘅窗口、盒，我問佢究竟有冇見過嗰個分顏色  
27 嗰個訊息，佢話冇，因為佢今日第一日係報到上班嘅。

28 跟住 902 頁，呢個去聯和墟巴士總站嗰度嘅探訪嚟嘅紀錄嘅，最後一項，  
29 呢度呢一頁嘅最後一項，亦都係問番嗰啲巴士車長究竟有冇喺個螢幕度有啲係  
30 顏色嘅訊息呢，個回答都係冇嘅，委員會就觀察到當佢拍卡嘅時候係有個白色  
31 嘅訊息，綠色嘅字就講清楚今日佢呢個負責嘅路線嘅一啲訊息。

32 跟住就去到屯門嗰個總站--車廠嗰度，屯門車廠，903 頁。一半嗰頁嘅中  
33 間嗰度，探訪期間，委員會都同一個車長傾偈嘅，佢响嗰個休息室度嘅。

34 第二點，個巴士司機就知道係有呢個分顏色嘅訊息顯示响個螢幕嘅，當佢  
35 擺嗰個係八達通卡就會見到，佢就話呢個係一個--係咪一個綠色嘅駕駛行為嘅

1 一個監察系統嚟嘅，佢知道如果係綠色，即係話一切都可以嘅；如果係黃色，  
2 係需要改善嘅；如果係紅色，一般嚟講，即係話個巴士司機嘅駕駛係有啲問題  
3 嘅。

4 最後，山景嘅巴士總站，904 頁，呢度就引述委員會同三個巴士車長嘅傾  
5 偈，就知道嗰個係稽查，呢個有啲咩睇法，第三點呢度，其他兩個巴士車長  
6 就即係顯示佢哋上班嘅時候就拍卡，都係見到一個白色嘅同埋有一啲係藍色嘅  
7 字嘅訊息，就講明佢個巴士司機今日嘅駕駛嘅分派嘅職務，見唔到有啲有顏  
8 色嘅訊息嘅。其中一個巴士司機就話佢第一日--即係嗰嗰上班嘅時候就係會見  
9 到個訊息嘅，有啲就話--有另外一個就話佢唔知道，冇留意，佢就有留意嗰個  
10 螢幕有啲咩嘅訊息嘅。

11 我就想你畀啲意見，你可唔可以講下呢個拍完卡之後，嗰個訊息就話叫佢  
12 小心駕駛同埋下一個路程係點樣樣，就有話咩嘅紅或者綠、黃、紅，可唔可以  
13 講一講你嘅睇法呢？

14 梁健宏先生：佢個提示嗰日，譬如天氣係不穩定，係濕呢，就會提示嘅。Amber  
15 嗰個，佢就唔係每次都提示嘅。點解咁呢？亦都唔想令到個車長覺得太多，尤  
16 其是有啲 trip 係好 frequent 嘅，佢個埋站時間比較短，就設計到就唔會  
17 show 嘅，亦都唔排除主席當日嗰個別站頭會唔會有啲技術問題，我哋要去睇一  
18 睇，睇到咩嘅原因 show 唔到出嚟。

19 第二樣嘢，宣傳嗰方面，係咪啲車長唔係咁充足去了解呢個咁嘅紅、黃、  
20 綠呢樣嘢呢？我覺得我哋都要做番好少少，但係我想覺得呢個都係一個好嘅方  
21 法，等個車長知道佢自己嘅駕駛，等佢自己知道。

22 至於嗰個 score 係點計法、可唔可以計好啲、精準啲、準確啲反映到佢個  
23 個駕駛狀況或者宣傳好啲，我諗我哋真係要加倍努力。

24 MR DUNCAN：（經傳譯員）可唔可以話畀我哋聽幾時你最後一次話畀巴士車長呢個  
25 咁嘅系統有啲咩嘅重要性？

26 梁健宏先生：我唔知道。

27 MR DUNCAN：（經傳譯員）你同委員會講，你又話有啲文件你可以畀我哋嘅，係咪  
28 呀？即係關於嗰個方程式同埋點樣計，同埋你向員工點樣係通知佢哋呢個計劃  
29 嘅？

30 梁健宏先生：（經傳譯員）係嘅。

31 MR DUNCAN：（經傳譯員）我而家就係想去講黑盒上嘅另一個範圍，我就想問一啲  
32 問題嘅，即係話呢啲黑盒嘅數據去點樣使用先至可以去協助監察車長同埋佢哋  
33 嘅駕駛表現嘅，我知道黑盒嘅其中一個用途就係收集巴士嘅車速，我係想請你  
34 睇下你呈交畀檢討委員會嘅第二份陳述，呢個就係 167 頁嘅。

1 呢度有兩題比較長嘅問題，就係喺呢一頁嘅上方嘅，就係 167 頁，我諗我  
2 都唔需要係逐一講，但係我希望你係想睇一睇回覆嘅第二段，就話呢個就係有  
3 一個特有嘅電腦程式去匯報一啲疑似嘅超速個案，係畀一啲主任去檢查同埋確  
4 認嘅。喺確認之後，一啲已經確認嘅超速個案就會交界呢個巴士車長表現管理  
5 組嘅表現經理係去進一步採取行動嘅。

6 我而家想請你睇睇第 170 頁，委員會即係喺上方就話公司係被要求去提供  
7 一啲資料同埋樣本去說明喺咩嘢位置係會有司機係以一個不適合嘅速度去駕  
8 駛，而喺回應方面，第一段就話由黑盒收集嘅數據嘅樣本就係以一個 BOP 207  
9 號報告嘅形式係去程交嘅，就係喺附件度夾附，就顯示咗一啲超速嘅個案，而  
10 係遮掩咗一啲個人資料，佢係顯示咗日期、時間、巴士登記編號、路線號碼同  
11 埋相關車長嘅資料。

12 我哋就會睇番呢一份嘅附錄，就係 KMB-9 文件夾嘅第 3995 頁，係第  
13 3995-1 個度都係有一個翻譯本。我就有一啲問題就係關於呢份報告嘅，如果你  
14 睇番第一行，喺右面就有一項資料，嗰個長度就係以秒去代表，有個最高速度  
15 就係 67.9 嘅，我假設呢個係每小時幾多公里，係咪？啱唔啱呀？

16 黃祥明先生：（經傳譯員）係，我見到嘅。

17 MR DUNCAN：（經傳譯員）個正確嘅理解係咪代表當時架巴士嘅速度係喺嗰三十二  
18 秒嘅期間速度都係超過 67.9，究竟係多過 67.9 㗎，大概 67.9 㗎，定係低過  
19 67.9 呢？即係究竟應該點樣解讀？

20 黃祥明先生：呢個圖表顯示呢架巴士 TW5352，喺呢個時間 2018 年 5 月 1 號嘅 0 時  
21 00、十九-- 20:07 嘅呢個時間有三十二秒嘅時間係最高車速係 67.9 時速公  
22 里。

23 MR DUNCAN：（經傳譯員）係咪即係喺整段嘅期間都係速度 67.9 呀？

24 黃祥明先生：喺呢個顯示嘅時間嘅三十二秒都係呢個時速嘅速度。

25 MR DUNCAN：（經傳譯員）即係係咪整段期間都係呢個速度呀？

26 黃祥明先生：喺呢三十二秒裏面，佢係有延續性嘅呢三十二秒裏面係出現過最高嘅車  
27 速係 67.9。

28 主席：（經傳譯員）點解你係要揀呢一個三十二秒嘅期間，而唔係六十秒或者九十秒  
29 呢？

30 黃祥明先生：因為嗰個黑盒嗰個顯示係每秒出現嘅，當佢係一個達到一個我哋指定咗  
31 嗰個嘅車速限制嘅時候，佢就顯示出嚟，就會顯示到呢架車喺當時行咗幾耐嘅  
32 時間裏面係行幾高--最高嘅車速係幾多。

33 主席：（經傳譯員）即係我想了解，就係點解三十二秒？

1 梁健宏先生：呢個係一個 exception report 嚟嘅，呢個係一個 exception  
2 report 嚟嘅，佢有啲 setting 嘅，佢有啲 setting 嘅，佢 exceed 某一個  
3 setting 呢，就會 show 出嚟，換句話講，三十二秒鐘佢都 exceed 咗個  
4 setting，不過最高速就係 67.9，呢三十二秒佢都係超過我哋定個速度。似  
5 乎呢個路段應該就係 50 路段，因為如果 70 路段，佢就唔應該出嚟嘅。呢個 50  
6 路段，佢有三十二秒鐘係超過呢個路段嘅 setting，而超過呢個 setting，其  
7 中最高佢係去到 67.9。

8 主席：（經傳譯員）唔該晒。

9 MR DUNCAN：（經傳譯員）究竟呢一個時間呢個長度係咪預先定嘅？

10 梁健宏先生：Duration 就唔係 pre-set 嘅，係睇到有幾多秒鐘佢係超過個速  
11 度，佢個 journey 其中有幾多秒鐘，佢措埋，accumulated，唔係  
12 continuous 嘅，喺佢成個當日個--佢當日個 journey time，佢總共有  
13 幾多秒係超過--個速度係超過我哋特定嘅...

14 李澤昌先生：假設為例，take 呢一個冧巴，即係話嗰條路段係 50 公里嘅時速，  
15 即係話佢三十二秒係超出咗個 50，而呢三十二秒裏面，佢有一個車速係去到  
16 67.9，即係其實呢三十二秒都係超過個 50，但係佢最高係去到 67.9。

17 主席：（經傳譯員）我咁理解唔啱呢，喺呢啲特殊情況嘅報告，如果巴士唔係超速  
18 超過十秒嘅話，就唔會產生呢一項嘅紀錄，唔啱呀？即係當然我哋大家可以  
19 搵下究竟係咪有一啲嘅時間嘅長短係少過十秒，但係呢個係原則嘅問題，究竟  
20 即係係咪要起碼係連續十秒超速先會有紀錄呢？

21 黃祥明先生：呢個問題可以等我回答，其實我哋喺個電腦度係 set 定咗一啲嘅指  
22 標，等架車去到某個時段，某個車速嘅時候，會顯示出嚟嘅，或者我簡單啲，  
23 將個數字話一話畀大家聽，我哋定咗係 56 至到 65 嘅...

24 主席：（經傳譯員）你可唔可以答咗我問題先？我理解唔啱--係咪錯誤呀？

25 黃祥明先生：唔係十秒鐘。

26 主席：（經傳譯員）係幾多呢？

27 黃祥明先生：所以我而家就將個情況講出嚟，因為唔同車速嘅時段，我哋 set 嘅時  
28 間係唔同。

29 主席：（經傳譯員）點解你唔直接答個問題，跟住先解釋呢？

30 黃祥明先生：Okay，對唔住。

31 主席：（經傳譯員）究竟個限速係幾多呢？

32 黃祥明先生：喺 56 至到 65，我哋係超過三十秒嘅時間呢，我哋就會將--喺個電腦

1 就會彈出嚟，而家講緊限速 50 嘅道路。第二個我哋訂定嘅就係 66 至到 75 呢  
2 個速度，如果喺一個限速 50 公里嘅道路，超過十五秒，我哋都會喺個電腦度彈  
3 出嚟。

4 主席：（經傳譯員）點解呢個資料就有喺呢幾千頁嘅資料度出現呢？點解我哋要喺一  
5 個聆訊度問先至會得出呢啲資料呢？當我哋問呢啲問題嘅時候，即係委員會想  
6 知道嘅事情係好清楚嘅。好，請你繼續解釋。

7 黃祥明先生：另外喺--如果喺個道路限制 50 公里嘅道路，佢係由 76 去到 79 呢，  
8 我哋訂定咗兩秒鐘就會顯示出嚟，呢個係 50 公里嘅限速嘅情況。

9 主席：（經傳譯員）咁係非常有用嘅啲資料。喺限速 70 嘅地段情況係咪都類似呢？

10 黃祥明先生：喺 70 公里嘅道路，如果佢係喺 76 至 79 公里嘅範圍裏面超過三十秒，  
11 就會亦都係出現出嚟。

12 梁健宏先生：如果係超過八十公里嘅話，兩秒鐘就會出嚟。

13 主席：（經傳譯員）唔該晒。鄧生。

14 MR DUNCAN：（經傳譯員）我哋睇番 KMB-1 168 頁，第一點嗰度，即係嗰個圓點嘅  
15 第一項嘅答覆，呢個係你哋嘅第二份--公司嘅第二份陳述書，你就講清楚，呢  
16 度就話利用一個電腦嘅程式，黑盒就會係記錄速度同埋啲急剎車、過快咁加速  
17 同埋有其他嘅資料係需要嘅，就會响嗰個其他嘅管理嘅系統會係記錄嘅，就大  
18 概要十日，先至可以攞到呢啲咁樣嘅數據嚟分析，跟住可能有紀律行動嘅。點  
19 解啲咁重要嘅數據要十日先至可以處理到呢？

20 梁健宏先生：而家就四天，四天都長嘅，我哋亦都想希望再快啲。個資料純粹係--喺  
21 嗰個伺服器嗰啲資料純粹就係個盒、個杯巴，不過就即係跟個巴士杯巴，每一  
22 秒鐘嘅數據、速度、經緯度呢啲咁嘅數據，有冇超速、有冇大油、有冇急剎，  
23 呢啲數據，咁多一架車嘅數據，但係我哋點樣去 relate 番去到個別車長、  
24 個別路線呢，呢啲亦都係要成個好多唔同嘅系統嘅 interface 嘅，包括 TER、  
25 站務管理系統。

26 站務管理系統係咩嘢呢？就係每一位車長佢去站頭 sign in，即係等如主  
27 席去睇到佢拍卡，佢 sign in，就話畀佢知呢個車長 start 呢個 journey、  
28 咩嘢車牌、咩嘢路線，去到 the other end of the route，佢就會 sign  
29 off，即係變咗佢就知道佢幾時開始呢個 journey、幾時 end 呢個 journey，  
30 喺呢個系統就 capture 咗嗰個車長嗰個資料、個巴士嘅資料、路線嘅資料。

31 呢個 TER 呢個 system，TER，每日措埋咁多嘅資料，每一個站，我哋有  
32 二百幾個站，而呢啲咁嘅資料全部就去晒我哋個 server 嗰度，呢啲咁多嘅資  
33 料，呢啲咁嘅資料亦都同 bus on-board monitoring system，就係頭先  
34 我所講架巴士每秒鐘嗰啲資料，點樣樣可以 interface 去搵番出嚟某啲車長當  
35 日揸過咩嘢車、佢當日個駕駛狀況、經緯度，即係 location。

1 有咗呢啲資料，點樣樣去判斷佢係 50 路段呢？亦都要再要 process，因  
2 為亦都要 match 番 FMI，FMI 就 fleet management information  
3 system，呢個 system 有咩嘢呢？有啲架車經過啲個地點，知道係行邊段係  
4 50、邊段係 70，從而知道啲架車有車長、有路線、有佢行車嘅情況，加埋 FMI  
5 啲段路佢係 50 抑或 70。

6 所以點解呢個事情咁複雜，所以點解--即係如果頭先所講有個 digital  
7 map，我乜嘢資料已經喺個黑盒嗰度有晒嘅話，咁樣樣就更加快捷，我相信--我  
8 敢講，個 report 一日就可以有。

9 主席：（經傳譯員）呢啲咁嘅科技已經有咗好耐㗎囉，咁唔啱呀？

10 梁健宏先生：Yes, I know.

11 主席：（經傳譯員）你可以話係定唔係嘅，跟住解釋。

12 梁健宏先生：（經傳譯員）係，我知道有嘅。

13 主席：（經傳譯員）你想解釋，好明顯，咁點解之前唔做呢？

14 梁健宏先生：亦都嘗試去理解呢個問題，亦都嘗試去問呢個問題，我哋儘量做喇，我  
15 哋嘅範疇以內，as an operator，我哋可以掌握到嘅資源、可以運用到嘅影  
16 響力，希望借住今次呢個機會，令到啲嘢可以行快啲。

17 主席：（經傳譯員）唔該晒。

18 MR DUNCAN：（經傳譯員）委員會就係要求咗你提供啲數據嘅，頭先我哋見過一  
19 個表裏面即係譬如超速啲數據嘅，你可唔可以畀一個報告就反映，即係譬如  
20 話係剎車或者加速太過突然、太快啲咁樣嘅情況嘅呢？

21 梁健宏先生：我哋有個 weekly report on 呢幾個狀況嘅，呢個 weekly report  
22 就係睇番過往嗰星期個車長佢個駕駛情況，有措施有幾多秒鐘係 exceed 超  
23 過我哋嘅特定指標嘅喺三個範疇，harsh braking、sudden acceleration  
24 同埋 speeding 嘅，我哋有個 weekly report。

25 呢啲 weekly report 出咗嚟之後，就會交畀我哋有關部門就跟進嘅，當  
26 然有時 harsh braking 或者 sudden acceleration 有時亦都係因應交通狀  
27 況係有時無可避免，亦都未必真係完全係車長嘅駕駛問題，睇番路面而家個狀  
28 況千變萬化，行人過馬路、其他車輛、交通狀況唔多唔少車長面對嘅壓力好  
29 大，所以有時無可避免佢都會做啲所謂唔係幾好嘅動作，但係我哋都希望知道  
30 佢所面對嘅係咩嘢情況。

31 收到呢啲 report，我哋啲同事亦都會跟進嘅，包括可能畀個電話佢，約見  
32 下佢，或者嚴重嘅，情況係許可嘅話，就可能要便衣去跟跟佢，睇下佢實際個  
33 個駕駛狀況係點樣樣，呢啲就係呢份 report 最主要嘅功能，而唔係去--因為  
34 亦都 identify 唔到佢係咪真係駕駛不良。

1 黃祥明先生：或者我可以補充少少，我哋今日全日講緊個黑盒，今朝我哋曾經講過佢  
2 嗰個車嘅顯示器，即係話我哋個車長喺車廂裏面有即時嘅顯示嗰四盞燈，我唔  
3 再重複喇，嗰個係即時畀個車長一個認知，等佢知道佢駕駛嘅時候有問題嘅，  
4 希望佢從而能夠即刻改善或者改好佢嘅駕駛方法。

5 跟住我哋亦曾經講過，拍卡有黃、綠、紅呢三種顏色嘅儀器，呢個我哋希  
6 望個車長係自我檢討，佢見到自己嘅駕駛技巧之後，就係希望佢可以自我檢  
7 討，就改進佢嗰個駕駛態度。

8 而家我哋講緊呢一樣嘢係我哋每個星期都會有一個嘅報告出嚟，呢個報告  
9 會包括車長嘅超速、車長嘅加速同埋急剎嘅資料，呢個資料喺呢個初步嘅時候  
10 係未好完善，唔係而家我螢光幕見到嗰個資料咁多嘢，只係見到一個累積嘅數  
11 字。

12 喺呢啲車長超速嘅累積數字，我哋見到嘅時候，我下面嘅一個叫做表現管  
13 制組嘅同事，即係 performance management 個 section，就會通知番廠務  
14 嘅同事，等佢哋通知呢個車長，呢個並非一個嘅懲罰，而係一個提醒，通知啲  
15 車長喺呢個階段已經知道佢有一啲超速嘅情況，等佢要小心駕駛。

16 另外頭先講到一啲急剎同埋突然加速呢啲咁嘅情況，我係會派一啲嘅便衣  
17 巡查，呢啲便衣係我哋嘅駕駛學校嘅一啲嘅導師，佢哋穿著便裝嘅衣服去上呢  
18 個巴士度，直接觀察呢個車長嘅駕駛情況，從而得知佢係咪真係好似電腦嘅顯  
19 示有急剎或者令到車輛嘅行動唔安全，然後向我匯報，等我哋可以採取呢個紀  
20 律嘅行動。

21 主席：（經傳譯員）梁先生，我想講番頭先鄧生幾分鐘前問嘅問題，你可唔可以畀一  
22 啲報告畀我哋呢個委員會呢？而家我哋螢幕見到一個報告，你可唔可以講一講  
23 嗰啲係剎車太過急、突然譬如加速，你可唔可以畀一個類似而家螢幕見到嗰個  
24 報告，就係關於嗰個加速、減速、太過突然、太快嘅？可唔可以呀？

25 梁健宏先生：Yes.

26 主席：（經傳譯員）多謝晒。

27 MR DUNCAN：（經傳譯員）我想請你再睇嗰個謄本嘅，係第六日嘅——聽證會第六日  
28 嘅謄本。

29 主席：（經傳譯員）邊一個嘅證供呀？

30 MR DUNCAN：（經傳譯員）係 Kulis 先生嘅。161 頁。

31 主席：（經傳譯員）邊一個文件冊㗎？

32 MR DUNCAN：（經傳譯員）第 3 份嘅。之前我提過嗰個積分卡呢個咁樣嘅講法同埋  
33 巴士車長嘅駕駛嘅表現、駕駛嘅行為，我就想問一問關於 Kulis 先生呢個證供  
34 所講嘅事嘅，我想問幾個問題，先睇第 3 行，161 頁第 3 行，我哋先要去番

159 頁先嘅，唔好意思。係 160，第 160 頁，第 22 行。

陳律師就話「我下一項有興趣嘅題目，就係我會問一啲問題，就係關於用一啲軟件分析去擬備一個報告，就係關於安全或者不安全嘅駕駛行為嘅。」佢就問「你問公司有冇提供軟件，就係根據黑盒收集嘅數據，就可唔可以提供一個軟件係可以製造一啲報告去顯示乜嘢係可接受或者不可接嘅駕駛行為嘅呢？係咪有可能嘅呢？」Kulis 先生嘅回答就係可以嘅。

而陳律師就係問「係點樣做呢？要點樣做呢？如果我係巴士嘅營運商，而我係嚟問你『我點樣可以係製造一啲某位司機嘅報告？』你會點樣同我講呢？即係你會同我講可以點樣做呢？」而就係有一啲--「我就會向你介紹一啲我哋嘅司機嘅回饋資料同埋一啲相關嘅部分同埋連同呢個軟件，你就可以去考慮一啲相關嘅數據，而最後，你係可以得到你自己嘅分析，而你就會可以見到邊個司機會有最多嘅警告或者超速嘅情況，呢個係其中一個選項，然後我哋可以為你設計一個方案。如果你係唔只係想要司機嘅回饋數據，咁都係睇下你究竟你嘅諗法係點，如果你想係計一啲嘅分數去決定乜嘢係--邊個係最好嘅司機或者用一啲負面嘅數據嘅分析，其實係有唔同嘅方法係可以達成呢個目標嘅，亦都係視乎司機或者工會嘅意見。」

而陳律師就話「呢個只不過係軟件嘅功能嘅啫，因為硬件就只係個黑盒嘅啫，我嘅了解係啱唔啱呢？我係咪唔需要買一啲新嘅設備，先至可以得出呢個司機嘅分數呢？」個回答就係「你唔需要新嘅設備嘅，如果你係顧客嘅話，你已經係有我哋嘅盒，我哋只需要傾下有啲咩嘢嘅可能性，我哋可以畀一個新嘅軟件你嘅。」

「究竟全球係幾咁--即係呢個情況係有幾咁普遍呢？究竟喺全球係有幾常用嘅呢，即係用呢個嘅積分制度？」Kulis 先生就話「根據我嘅經驗，係喺歐洲係幾常見嘅。而喺有一啲嘅地方，佢哋想係用一個簡單啲嘅制度，即係一個負面回饋嘅制度，例如一個簡單嘅警告，就係咁多嘅啫，因為我哋要明白司機亦都係要明白呢啲分數係點樣運作，如果你係用一啲比較複雜嘅計算，你係要培訓啲司機嘅。」

而陳律師就話「好喇，咁唔再講呢一個計分呢個制度。」主席就話「喺你繼續之前，如果喺一啲西方嘅一啲歐洲國家係非常普遍嘅話，佢哋係用啲咩嘢嘅數值去評核駕駛嘅行為係好定係唔好或者係普通呢？」「係一啲德國嘅公司，佢哋用嘅數據同我哋一樣，一啲基本嘅數值，例如係一啲超速、加速、減速，而另外佢哋亦都係會睇下司機係咪會比較克制，佢哋係呢一個係踩 brake 嘅時候。佢哋亦都係有分析佢哋嘅速度嘅變化，同埋呢個剎掣嘅情況嘅。」

主席就表示「基本嘅模式就係分析呢一個速度加速、減速，係咪？」回答就係「係嘅，而喺一個急速嘅--如果有個急速嘅情況，即係你係咁緊錢嘅。呢個就係個基本模型。而喺呢個之上，或者亦可能會睇下佢哋會唔會係克制地去剎掣嘅情況嘅。」

1 Kulis 先生就喺呢一部分嘅證供入面即係係咪顯示其實係有呢一個就軟件  
2 提供，對你有冇任何嘅吸引力呢，呢一個嘅方案？即係而唔係話你超咗速，所  
3 以--即係呢個係一個比較負面嘅做法嚟嘅，相反就係用一個比較正面嘅做法，  
4 係會比較受司機歡迎。

5 梁健宏先生：佢哋嘅做法其實同我哋一樣嘅，我哋都係做緊同樣事情，我哋就以安全  
6 去睇嘅，純粹以安全嘅角度，去睇番佢邊啲 item 係需要計嘅，當然而家嘅黑盒  
7 capture 到好多唔同嘅數據，包括佢個耗油量，包括佢踩 brake，包括佢其  
8 他嘅情況，我相信有啲 application，尤其是睇番個個內容，佢講緊一個  
9 commercial，講緊一個 truck transportation company，一個車長或者  
10 一個司機，啲啲商業嘅車長、商業嘅司機，佢可能揸緊一架車，固定都係啲架  
11 車，佢可以知道啲架車個個表現，喺一個商業個角度嚟睇，個 economic 嚟  
12 睇，佢知道佢有冇 idling 太耐，佢知道佢會唔會唔死火，佢知唔知道佢有熄  
13 冷氣，呢樣嘢係有用嘅，commercially。但係作為巴士車長，佢未必每日都  
14 揸啲架巴士，佢未必全日都揸一架巴士，啲架巴士亦都唔係一個車長揸晒，明  
15 天佢亦都揸第二架巴士，所以喺呢個角度嚟睇，有啲嘢如果你係點樣樣去評估  
16 個個價值，我相信就同而家我哋講緊個個安全就未必聯繫得上。

17 所以我覺得有啲咩嘢係要安全個部分我哋要攞嚟睇，我哋淨係最主要係應  
18 用到安全，如果你用埋其他嘅元素去再計，唔多唔少，我未必做到四日，可能  
19 要五日、六日或者七日。

20 MR DUNCAN：（經傳譯員）喺個螢幕上，就係我會顯示一篇嘅文章，委員會亦都係  
21 睇過，係 7 月 16 號嘅今年。你之前有冇見過呢篇報道呀？

22 梁健宏先生：（經傳譯員）冇嘅。

23 MR DUNCAN：（經傳譯員）我就想請秘書處去向下去顯示呢份報道嘅，就請你睇一  
24 睇。

25 主席：（經傳譯員）呢篇報道係舊年 7 月嘅。

26 MR DUNCAN：（經傳譯員）唔好意思，係 2017 年 6 月 29 號嘅呢篇文章係，唔該主  
27 席。請問你係咪睇完喇？

28 梁健宏先生：Yes.

29 MR DUNCAN：（經傳譯員）你見到佢哋有一個所謂嘅綠色路嘅一個監察制度，之前  
30 我哋睇到 GreenRoad.com，就係喺個謄本度入面有提及嘅，你有冇印象呀？

31 梁健宏先生：（沒有可聽到的回答）

32 MR DUNCAN：（經傳譯員）你對呢一個 GreenRoad 嘅道路監察系統熟唔熟悉呢？

33 梁健宏先生：（經傳譯員）唔熟悉。

- 1 MR DUNCAN：（經傳譯員）即係你對呢篇報道嘅--即係即時嘅反應係乜嘢呢？你覺  
2 得對於你哋公司嚟講，有冇價值呢？
- 3 主席：（經傳譯員）你係咪講緊呢個獎賞或者花紅嘅制度？
- 4 MR DUNCAN：（經傳譯員）係呀。
- 5 梁健宏先生：可以考慮嘅。
- 6 主席：（經傳譯員）到目前為止，有冇考慮過呀？
- 7 梁健宏先生：（經傳譯員）未嘅。
- 8 MR DUNCAN：（經傳譯員）咁所以你嘅反應就係你哋公司可以考慮嘅，係咪？
- 9 梁健宏先生：（經傳譯員）你可唔可以重複個問題呀？
- 10 MR DUNCAN：（經傳譯員）你嘅反應係咪就係呢個係你哋公司值得考慮？
- 11 梁乃鵬先生：係，我確認我哋係可以考慮，我哋係會考慮呢篇報道嘅建議嘅，我可唔  
12 可以要一份嘅副本呀？
- 13 主席：（經傳譯員）當然，我哋係可以影一份畀你嘅。
- 14 梁乃鵬先生：唔該晒。
- 15 MR DUNCAN：（經傳譯員）大概係咁多喇。
- 16 主席：（經傳譯員）係，各位，我哋今日嘅工作就到此為止，我哋係好快就會係休  
17 會。如果可以星期五返嚟嘅事，我哋就會星期五去繼續，即係 10 號，我哋喺同  
18 一個地點度繼續嘅。
- 19 梁先生，喺我哋完結之前，你之前係進行咗一個嘅測試嘅駕駛，就係比較  
20 咗 50 同埋 70 限速區嘅分別，而 Openmatics 就係有採用咗一啲裝置嘅，委員  
21 會係希望了解多一啲嘅，呢個係有冇任何嘅文件紀錄，喺呢一方面。
- 22 梁健宏先生：（經傳譯員）你係講緊個測試？
- 23 主席：（經傳譯員）即係你係相關嘅程序係點呢，就住呢啲車輛？
- 24 梁健宏先生：（經傳譯員）我哋係會預備呢啲資料嘅。
- 25 主席：（經傳譯員）希望有人可以用口頭作供，但係最好可以事前畀一啲資料我哋，  
26 等我哋係了解一下你哋嘅程序係點。
- 27 李澤昌先生：你嘅意思係咪星期五之前提供啲資料？
- 28 主席：（經傳譯員）係嘅，如果你可以嘅話，即係盡量提供你可以提供嘅資料，同埋  
29 係提供一個可以--即係提供可以口頭作供嘅人士，因為呢一個議題係會比較有

1 興或者有用嘅。歐陽先生係有一個問題。

2 歐陽先生：（經傳譯員）主席，我係想跟進兩個問題嘅，兩個問題都係同李先生有關  
3 嘅，今朝李先生係提到賠償嘅問題，管理層就係決定將呢一個嘅駕駛花紅就納  
4 入埋薪金度，你提到就會為車長帶嚟壓力嘅，因為嗰個花紅。之後你提到你係  
5 引入咗呢一個 20 分嘅制度，亦都係會有包括某種嘅獎賞，就住呢一個 20 點嘅  
6 制度會唔會為車長帶嚟任何嘅壓力呢？如果會嘅話，點解呢？

7 李澤昌先生：（經傳譯員）我諗嗰個實際嘅獎賞對車長嚟講，佢哋認為佢哋值得去攞  
8 到嘅，因為係佢哋嘅薪水一部分嚟嘅，就算有個意外，關唔關佢事都好，佢需  
9 唔需要負責都好，呢個獎金就會係押後咗先畀嘅，就會製造一啲不必要嘅壓  
10 力，你可以想像到，如果嗰個獎金係佢哋嘅薪金一部分，咁咪每一年佢哋都有  
11 加薪嘅，就係根據表現加薪嘅，佢就覺得好似你攞走佢啲嘢咁樣，佢就想有啲  
12 係評核、有啲基準，話「好喇，你值得係有咁嘅加薪嘅。」或者你係--譬如話  
13 「你可以升一個職位嘅。」咁就唔同。

14 歐陽先生：（經傳譯員）我想講第二件事，就關於安全嘅。我都收到今朝有啲講法，  
15 就因為安全係最重要嘅，所有部門都要處理嘅，所以有一個特別嘅部門處理安  
16 全問題嘅，過去一年，你哋個團隊有冇發現有啲部門係有啲誤會，以為其他嘅  
17 部門處理緊安全，而係實際上有任何一個部門係處理緊安全？

18 李澤昌先生：（經傳譯員）每一個禮拜一嘅早上，我本人同埋嗰個營運部嘅董事、其  
19 他嘅董事都會有幾個小時就坐低傾嘅，會講一講啲硬件問題、巴士或者係巴士  
20 司機嘅表現同埋設施、總站、車廠嘅問題，我哋係有一個團隊工作嘅，即係我  
21 意思即係話唔係話安全淨係講緊道路嘅問題或者淨係講緊巴士司機嘅問題。或  
22 者梁生可能有嘢補充。

23 梁健宏先生：好似嗰個車長咁，畀--啲乘客有啲衝突咁樣樣，咁要做一樣嘢去做，包  
24 括安裝 CCTV，包括裝嗰塊 protective shield，唔係淨係一個  
25 department 做，亦都需要 procurement 去配合，所以唔係單單一個部門，  
26 亦都係需要工程部，需要 procurement，都要 finance，去整體去睇呢件事  
27 情，夠唔夠資源、要做得幾快呢？呢啲唔係一個 single department 就可以  
28 做。譬如話就住 CCTV retrofit 或者點樣樣，唔係一個部門就可以決定幾  
29 快、做唔做，係一個成公司嘅決定，點樣做起上嚟？亦都係全公司要配合，  
30 procurement 去幫手，要盡量去啲嘢可唔可以掌握快啲到，所以呢樣嘢在在都  
31 係全個團隊。

32 李澤昌先生：因為做嗰樣嘢嘅時候，你要係好 responsive，同埋要  
33 comprehensive，你基本上係唔離得開個車個硬件、嗰班工程師、維修部門佢  
34 係咪真係可以配合到，當然喺個車務部亦都有佢個需求嘅，仲有當然就係有  
35 好多 incident 你係唔離得開係--唔係--即係整體性、跨部門嘅。

36 歐陽先生：Thank you very much. Thank you, Mr Chairman.

- 1 主席：（經傳譯員）多謝你，好喇，我哋會係暫時休息，休會直至到星期五上晝 10  
2 點鐘再續會。

3

4 2018 年 8 月 7 日

5 下午 5 時 36 分聆訊押後

Friday, 10 August 2018

(10.00 am)

EVIDENCE FROM KOWLOON MOTOR BUS CO (1933) LTD AND LONG WING  
BUS CO LTD: DR NORMAN LEUNG, DR JOHN CHAN, MR ROGER LEE, MR  
GODWIN SO, MR LEUNG KIN WANG, MR PATRICK PANG, MR JAMES WONG  
(simultaneous interpretation used only where indicated)

CHAIRMAN: Good morning, Dr Leung and gentlemen. Thank you  
for returning to continue to give evidence. I'll ask  
Mr Duncan to begin questioning.

Dr Leung, is there something you would like to say  
first of all?

Statement by DR NORMAN LEUNG

DR NORMAN LEUNG: Yes. Good morning, Mr Chairman. May  
I have two minutes, please?

Mr Chairman, I refer to the request made by  
Mr Duncan on Tuesday for the disclosure of part 2 and  
part 3 of our special committee's report dated 12 March  
2018.

Mr Chairman, I have had the opportunity of studying  
both part 2 and part 3 of the report. I am satisfied  
that part 3 of the report, namely issues relating to bus  
captains, would not in any way prejudice the  
investigation conducted by the police. I also feel that  
the report should have been submitted to this committee  
sooner, so that the committee will have better

1 understanding of our recruitment, training and  
2 performance monitoring of our bus captains.

3 Mr Chairman, please accept my apology that part 3 of  
4 the report has not been submitted to you sooner.

5 As to part 2 of the report, ie the accident  
6 investigation report, I am of the opinion that it is not  
7 appropriate to disclose the contents thereof to the  
8 public. I am also of the opinion that such report is  
9 not relevant to the terms of reference of this  
10 committee.

11 I would also like to take this opportunity to thank  
12 the committee for drawing to my attention the GreenRoad  
13 vehicle tracking system. I have directed the management  
14 to find out more about Tower Transit, the bus operator  
15 in Singapore, with a view to visiting them in due course  
16 to learn more about the GreenRoad vehicle tracking  
17 system.

18 Also, I have got inspiration from this news article  
19 that perhaps I should reconsider the award of safety  
20 bonus to our good performance bus captains. It doesn't  
21 have to be a significant amount, but some sort of  
22 recognition to our bus captains would serve to promote  
23 bus safe driving.

24 Thank you, Mr Chairman.

25 CHAIRMAN: Thank you, Dr Leung.

26

1           Mr Duncan, may I invite you to make enquiries into  
2           what Dr Leung has said to us now in relation to the  
3           parts of the report that are disclosed and are not to be  
4           disclosed, in view of what is said in the last paragraph  
5           of the letter that was sent to the committee on  
6           9 August?

7       MR PETER DUNCAN: Mr Chairman, yes, we will do that.

8           I think, Mr Chairman, if I might say, with regard to  
9           part 3, which we find now at page 377 of the KMB-1  
10          bundle, it would seem to me, with respect, that part 3  
11          really is no more than an introduction to or request for  
12          the details which we have already received at annex 5.

13       CHAIRMAN: So we have received annex 5?

14       MR PETER DUNCAN: That's right, we received that earlier.

15          So I don't think there is any particular issue which  
16          arises with regard to part 3.

17          Part 2, Mr Chairman, I have heard your remarks and  
18          we will consider the matter accordingly.

19       CHAIRMAN: Because the likelihood is that part 2 contains  
20          material of different nature. We know nothing about  
21          what it contains. Opinions and views are irrelevant to  
22          the committee, but empirical data may well be relevant.  
23          I invite you to consider that and deal with the matter  
24          in due course, whenever you feel it is appropriate.

25       MR PETER DUNCAN: We will do that, Mr Chairman.

26

1 Examination by MR DUNCAN (continued)

2 MR PETER DUNCAN: Thank you, Mr Chairman, and good morning,  
3 Dr Leung and gentlemen.

4 DR NORMAN LEUNG: Good morning.

5 MR PETER DUNCAN: We have since the last hearing received  
6 two letters from the company and I would like to go to  
7 the second of those letters, please, which we will find  
8 at KMB-1 at page 297.

9 I wish to bring your attention, please, to the  
10 bottom paragraphs on page 297, where there is reference  
11 to item (2), which concerns the matter of the 29 sharp  
12 bends which were the subject of questioning on Tuesday.

13 The letter states:

14 "In respect of item 2 [which was the item  
15 requested], the following are enclosed as appendix B".

16 Then from (i) through to (vi), there is reference to  
17 a number of matters.

18 Ultimately, at paragraph (vi), this statement is  
19 made in the letter:

20 "a series of emails indicating that Mr Owen Eckford,  
21 the then operations director ('OD') did not endorse this  
22 safety enhancement programme."

23 I wish to explore that a little with you, please.

24 In that respect, can I take you to the same bundle at  
25 page 309. At page 309 through to page 311, you will see  
26

1 item 1 as the letter identifies it, which are described  
2 as "Meeting Notes for Review on Safe Speed Limit for  
3 Identified Sharp Bends". You will see that it's dated  
4 31 July 2014, a meeting which apparently lasted for some  
5 two and a half hours and was attended by a number of  
6 people.

7 We can see the details of that for ourselves, pages  
8 309 through to 311.

9 Then at page 312 we see item (ii) in your letter, as  
10 identified in your letter, which is a table which sets  
11 out details of the 30 sharp bends. That runs from 312  
12 through to page 314.

13 Then at page 315, item (iii) is identified in your  
14 letter, a communication plan which had been referred to  
15 in the first item, the meeting notes. One can see the  
16 details of the communication plan, running from page 315  
17 through to 316, with what might be described as very  
18 detailed proposals with regard to the communication of  
19 the plan, as it then was.

20 Then at page 318, there commences a series of  
21 photographs of the relevant bends. One can see those  
22 right through to page 351.

23 Then at page 352, we have item (v) identified, which  
24 is said to be, according to the letter, a draft safety  
25 speed card in contemplation in September 2014. We see  
26

1           that card there at page 352.

2           Then finally, at (vi), from pages 353 to 355 we have  
3           the series of emails described in your letter as  
4           indicating that Mr Eckford did not endorse the  
5           programme.

6           I just want to pause for a few moments, if I could,  
7           with regard to the contents of these emails. They  
8           start, I think, with the email which can be seen on  
9           page 354. There's an email from Gary Wong, whose name  
10          has already been mentioned in the hearing as the head of  
11          the then safety and service quality department. It is  
12          an email sent on 14 August 2014 to Mr Edmond Ho, who  
13          I understand was the managing director of the company at  
14          that point.

15          Is it correct that Mr Ho was then the managing  
16          director?

17          DR NORMAN LEUNG: He was at the time, yes.

18          MR PETER DUNCAN: When did he cease to be the managing  
19          director?

20          DR NORMAN LEUNG: Roger should say.

21          MR ROGER LEE: He ceased on 1 January 2015.

22          MR PETER DUNCAN: Thank you.

23          CHAIRMAN: That's when you began your tenure?

24          MR ROGER LEE: Yes.

25          MR PETER DUNCAN: Did he then leave the company?

26

1 DR NORMAN LEUNG: No, he stayed on as a non-executive  
2 director of the board until the last AGM, last year.

3 MR PETER DUNCAN: Thank you.

4 Back to the email, we can see it's from Mr Wong to  
5 Mr Ho, and I won't read out the email but if you go  
6 through it quickly, you will see that it informs Mr Ho  
7 and those copied on the email with what it described as  
8 the field operational tests on safe speed limits for 30  
9 identified sharp bends and roundabouts having been  
10 completed on 12 August.

11 CHAIRMAN: Mr Duncan, before you move on, might I suggest  
12 you might read out the first paragraph.

13 MR PETER DUNCAN: Yes.

14 CHAIRMAN: Because there are some questions that might  
15 usefully arise, given that these are public hearings and  
16 it is difficult for the public to follow things unless  
17 they are given a context.

18 MR PETER DUNCAN: I understand, Mr Chairman.

19 Let me read the first paragraph to you:

20 "I am pleased to inform you that field operational  
21 tests on safe speed limits for the 30 identified sharp  
22 bends and roundabouts were completed on 12 August 2014  
23 (Tuesday). Attached please find the Excel file showing  
24 the calculation of safe speed limits carried out by EO,  
25 validation of calculated safe speed limits performed by  
26

1 DI of BCTS (SSQD's staff as observer) and the result of  
2 final review jointly conducted by EO, BCTS, depots,  
3 [Long Win Bus Company] and [the service and quality  
4 department]."

5 CHAIRMAN: Mr Duncan, that might be an entry for the  
6 Guinness Book of Records for acronyms, but perhaps we  
7 can explore what these acronyms mean with the  
8 representatives of KMB.

9 MR PETER DUNCAN: Would you gentlemen be able to help us,  
10 first of all, with the reference to -- if we go back to  
11 those copied, first of all, Evan Auyeung DMD, what would  
12 that be?

13 MR ROGER LEE: He was the deputy managing director.

14 MR PETER DUNCAN: HR, would I assume correctly that's human  
15 resources?

16 MR ROGER LEE: That is correct.

17 MR PETER DUNCAN: OD?

18 MR ROGER LEE: Operations director.

19 MR PETER DUNCAN: Is that a position that exists today,  
20 operations director?

21 MR ROGER LEE: Yes.

22 MR PETER DUNCAN: Is that Mr Leung's position?

23 MR ROGER LEE: Yes.

24 MR PETER DUNCAN: DOD?

25 MR ROGER LEE: Deputy operations director.

26

1 MR PETER DUNCAN: And SSQ?

2 MR ROGER LEE: Safety and service quality department.

3 MR PETER DUNCAN: Then in the substantive part of the email,  
4 the first paragraph, "EO"?

5 MR ROGER LEE: Engineering officer.

6 MR PETER DUNCAN: "DI"?

7 MR ROGER LEE: Driving instructor.

8 MR PETER DUNCAN: "BCTS"?

9 MR ROGER LEE: Bus Captain Training School.

10 MR PETER DUNCAN: I believe we've covered the acronyms in  
11 the first paragraph.

12 Is there then reference to the file which has been  
13 enclosed, the Excel file, at the beginning of the second  
14 paragraph; do you see that?

15 Does the email continue to say this:

16 "With respect to the theoretical calculations and  
17 validation of safe speed limits for the 30 identified  
18 locations where the risk of bus roll-over is deemed to  
19 be high, it would be very difficult for all concerned  
20 [bus captains] to remember different speed limits due to  
21 different turning radius of roadway curves. [Bus  
22 captains] can make errors (ie lapses of memory/memory  
23 errors) no matter how well trained ..."

24 And it's difficult to read but I assume that's  
25 "briefed they are".

26

1           "The consequences of such human errors can be severe  
2           if the BC [bus captain] gets wrong memory and drive the  
3           bus at a speed for what's that supposed not to be. This  
4           may lead to a serious 'bus roll-over' accident and the  
5           hazard presents significantly greater risk than other  
6           types of traffic accident. The risk is 'unacceptable'  
7           and cannot be tolerated. Therefore, we recommend  
8           stronger risk controls to minimise the intolerable risk  
9           caused by the human errors.

10           In view of above, we simplify the variety of safe  
11           speed limits into '15 [kilometre per hour', '20  
12           kilometres per hour' and '25 kilometres per hour'] for  
13           the 30 identified sharp bends and roundabouts so as to  
14           make it easier to understand and remember. Based on the  
15           final review shown in the attached Excel file, the  
16           recommended safe speed limits are listed as follows ..."

17  
18           You will then see a paragraph which is devoted to  
19           the particular limits.

20           If I pick it up again at page 355:

21           "The management of speed through appropriate safe  
22           speed limits is an essential element of road safety. As  
23           a rule of thumb, the recommended safe speed limits are  
24           not higher than the calculated roll-over speeds within  
25           the same depot area. Take for an example, if the [bus  
26

1 captain] of KBD gets wrong memory and drive [s] the bus  
2 at a speed of 20 [kilometre per hour] instead of 15  
3 [kilometre per hour, this may not lead to a 'bus  
4 roll-over' accident as the calculated roller-over speed  
5 limit for Hiram's Highway flyover to  
6 Clear Water Bay Road (shown in road section no 20 in the  
7 attached Excel file) 24.9 [kilometre per hour]. This  
8 principle can also be applied to other depots."

9 If I just pause there, "KBD" there presumably would  
10 be a reference to one of the depots?

11 CHAIRMAN: Is that correct?

12 MR ROGER LEE: Kowloon Bay Depot.

13 CHAIRMAN: Thank you.

14 MR PETER DUNCAN: Thank you.

15 Then to continue:

16 "To conclude, action [plans] are summarised as  
17 follows:

18 (a) Identify the locations of sharp bends and  
19 roundabouts where the risk of bus roll-over is deemed to  
20 be high; (Completed on 6 June 2014 for the first 29  
21 identified locations)

22 (b) Calculate safe speed limits for all identified  
23 sharp bends and roundabouts based on technical  
24 assessment; (Completed on 27 June 2014 for the first 29  
25 identified locations and on 13 August 2014 for the  
26

1           thirtieth location at Pui Oi Interchange (Yuen Long  
2           direction))

3           (c) Validate the calculated safe speed limits by  
4           test drive; (Completed on 29 July 2014 for the first 29  
5           identified locations and on 12 August 2014 for the  
6           thirtieth location at Pui Oi Interchange (Yuen Long  
7           direction))

8           (d) Review the safe speed limits based on the  
9           results of calculation and test drive; (Completed on  
10          31 July 2014 for the first 29 identified locations and  
11          on 13 August 2014 for the thirtieth location at Pui Oi  
12          Interchange (Yuen Long direction)) and

13          (e) Develop communication plan so as to convey  
14          safety message on safe speed limits to all relevant [bus  
15          captains] (see the attached Communication Plan) and  
16          conduct speed checks."

17          Then there is reference to the file and then the  
18          email continues to say this:

19          "It is expected that the implementation of safe  
20          speed limits can take effect in October 2014 upon  
21          completion of action items addressed in items 1 [to] 3  
22          of the communication plan."

23          The email which is addressed to Mr Edmond Ho, the  
24          managing director, and copied to a number of people,  
25          asks the managing director for his approval. So the  
26

1 last entry is, "For your approval please".

2 We then see, at page 353, a response email from  
3 Mr Ho the very next day.

4 CHAIRMAN: Before you go on, Mr Duncan, one of the matters  
5 that the committee asked for in its letter of 8 August  
6 to the companies was the Excel soft copy, if it was  
7 available.

8 Has that been addressed in KMB's response?

9 MR PETER DUNCAN: My reading of the email is that it has  
10 been addressed, but I will ask the members directly.

11 CHAIRMAN: Can we have a direct answer? Were you able to  
12 locate this Excel file or not? If you would like to be  
13 referred to the question, I can ask that that be brought  
14 up on the screen. It's in the annex to the letter and  
15 it's at page 234, and is item 2. The general request  
16 made in the letter itself was if you've got them, please  
17 provide, and then this is the shopping list, as it were.

18 Item 2 is the Excel soft copy and/or any hard copies.

19 MR LEUNG KIN WANG: Yes.

20 CHAIRMAN: Do you have it?

21 MR LEUNG KIN WANG: We have it.

22 CHAIRMAN: And are you going to provide it?

23 MR LEUNG KIN WANG: Yes.

24 DR NORMAN LEUNG: Chairman, I understand that hard copies  
25 have been provided to the committee.

26

1 CHAIRMAN: And by that, everything that's on the Excel soft  
2 copy we now have in hard copy? Do I understand you  
3 correctly?

4 MR GODWIN SO: We have printed out and provided on page 312  
5 and 313. It's the print-out of the Excel file  
6 mentioned.

7 CHAIRMAN: Thank you.

8 MR PETER DUNCAN: So if we go back, please, to the emails,  
9 at the bottom of page 353 there's a response from  
10 Mr Edmond Ho, which is addressed to Mr Gary Wong, the  
11 sender of the earlier email, and also to Mr Owen  
12 Eckford, who was then the operations director.

13 Is Mr Eckford still employed by the company?

14 MR ROGER LEE: No.

15 MR PETER DUNCAN: When did he leave the company?

16 MR LEUNG KIN WANG: He left at the end of 2015.

17 MR PETER DUNCAN: Did that coincide with Mr Edmond Ho  
18 ceasing to be the managing director?

19 MR LEUNG KIN WANG: No.

20 CHAIRMAN: Edmond Ho had ceased to be the managing director  
21 at the end of 2014/beginning of 2015?

22 MR LEUNG KIN WANG: Correct.

23 MR PETER DUNCAN: Was the email copied to a number of  
24 persons, many of whom had been copied to the email from  
25 Gary Wong through to Edmond Ho? Do you see the ccs on  
26

1           that?

2           MR LEUNG KIN WANG:   Yes.

3           MR PETER DUNCAN:   Thank you.

4                   If we turn the page to page 354, does the response  
5           read as follows:

6                   "Thank you and your team for the effort in  
7           coordinating this safety enhancement programme. Your  
8           proposed actions look fine with me. For formal  
9           approval, please ask [operations director] to check and  
10          endorse.

11                  Many thanks!"

12                  And there is a postscript to the message:

13                   "By copy of this email, would [operations director]  
14           please check HSSQD's documents and communication plan,  
15           and then issue formal approval as you see fit. Thanks!"

16                  Just to be clear, what is "HSSQD"?

17           MR LEUNG KIN WANG:   Head of safety and service quality  
18           department.

19           MR PETER DUNCAN:   Thank you.

20                   Thank you. The next email --

21           CHAIRMAN:   At that time, was that Mr Gary Wong?

22           MR LEUNG KIN WANG:   Correct.

23           CHAIRMAN:   Thank you.

24           MR PETER DUNCAN:   The next email with which the committee  
25           has been provided is one sent some time later, on

26

1           6 April this year, and it's from a person called Aman  
2           Fong TQD to Louisa Leung IA. The heading is the same  
3           heading as was contained in the two emails I've  
4           previously referred to, namely "Safe Speed Limits for  
5           the 30 Identified Sharp bend and Roundabouts".

6           Now, what is the position of Mr Aman Fong?

7           MR LEUNG KIN WANG: She is a manager.

8           MR PETER DUNCAN: A manager of what department?

9           MR LEUNG KIN WANG: She is a manager of training quality  
10          assurance department.

11          MR PETER DUNCAN: Thank you. And Louisa Leung?

12          MR LEUNG KIN WANG: Louisa Leung is head of internal audit  
13          department.

14          MR PETER DUNCAN: This request -- the email reads as  
15          follows:

16                 "Dear Louisa,  
17                 [Please] note.  
18                 Regards,  
19                 Aman."

20          Do you see that?

21          MR LEUNG KIN WANG: Yes.

22          MR PETER DUNCAN: It would appear that Louisa is being asked  
23          to note the emails to which I have just referred. Would  
24          that be a proper interpretation?

25          MR LEUNG KIN WANG: (Nodded head).  
26

1 MR PETER DUNCAN: Then there is a subsequent email to which  
2 the committee has been referred 11 days later, on  
3 17 April, from Louisa to Aman, the same heading, and  
4 this time the email reads:

5 "Dear Aman

6 It was noted that Edmond Ho asked Gary Wong to  
7 obtain [operations director's] formal approval for the  
8 exercise. Did you receive any subsequent email that  
9 suggest Owen have given formal approval to Gary on this  
10 topic?"

11 We have at the top of the page then another message  
12 from Aman to Louisa in response and a one-word answer,  
13 "No".

14 So it would appear from that that no subsequent  
15 email was received.

16 I'll take you back, if I could, to the construction  
17 of these events as it appears in the letter, at  
18 page 297. The author of this letter seems to have  
19 concluded that Mr Owen Eckford did not endorse this  
20 safety enhancement programme, but the committee, as  
21 I read it, has not been provided with any document which  
22 positively says that Mr Eckford did endorse it or did  
23 not endorse it or may even have failed to consider it.

24 Is there any further information available to the  
25 committee within the company's records which would  
26

1 assist the committee in understanding what happened,  
2 particularly with regard to the actions of Mr Eckford,  
3 after the email of 15 August 2014 was sent by  
4 Mr Edmond Ho?

5 MR LEUNG KIN WANG: Not that I am aware of.

6 MR PETER DUNCAN: Has the company searched its records with  
7 regard to what may have happened between 15 August 2014  
8 and 6 April 2018 which, according to the information we  
9 have been provided, is the critical period? Has the  
10 company looked for this information?

11 MR LEUNG KIN WANG: Yes.

12 MR PETER DUNCAN: Are you telling us that there is no  
13 written information available?

14 MR ROGER LEE: (Via interpreter) Let me put it this way. We  
15 have an internal audit unit. We have asked our head of  
16 internal audit to look at the safety and service  
17 department's work on such bends. The internal audit's  
18 report up to this date -- well, you have seen the  
19 relevant emails -- they are the information -- the  
20 latest information we have got.

21 MR LEUNG KIN WANG: (Via interpreter) We can take a look  
22 again but as Mr Lee says, that's all we have got so far.

23 CHAIRMAN: On its face, this is rather strange, is it not?

24 The managing director of the company responds to the  
25 head of the safety department, he copies it to the  
26

1 operations director, and he asks that he be asked to  
2 give formal approval, and the managing director doesn't  
3 leave the company for four months, at the end of the  
4 year, and you are saying that there is nothing that  
5 evidences the operations director doing anything, either  
6 endorsing it, not endorsing it? There's nothing at all?

7 It's a bit puzzling, isn't it? You agree? But you  
8 will look, will you?

9 MR LEUNG KIN WANG: (Via interpreter) Mr Owen Eckford left  
10 at the end of that year, 2015.

11 CHAIRMAN: Not the end of that year; it's the end of the  
12 following year.

13 MR LEUNG KIN WANG: (Via interpreter) Before he left, he  
14 didn't give any indication as regards this plan. I took  
15 up the safety section's work in April as the deputy  
16 operations director in 2015.

17 CHAIRMAN: I understand all of that. The only matter that  
18 I'm drawing to your attention is, on its face -- there  
19 may be some explanation -- when a managing director  
20 copies into an email the operations director, who is  
21 asked to give formal approval to what has obviously been  
22 an extensive research into a safety programme, and you  
23 tell the committee that there is nothing that evidences  
24 what he did, either way, endorsing it or rejecting it?

25 MR LEUNG KIN WANG: (Via interpreter) You might have noticed  
26

1           that at that time, the MD, in replying to the email,  
2           mentions that it's subject to the endorsement of  
3           a communication plan. There was a communication plan  
4           worked out by us. Many officers of our companies talked  
5           to the bus captains in different termini. It was not  
6           warmly received. They had strong views, bus captains  
7           had strong views. I believe that's one of the reasons  
8           that the OD would have taken into account. Whether this  
9           was the cause of this rejection, it was not formally  
10          recorded.

11       CHAIRMAN: Yes. Mr Duncan.

12       MR PETER DUNCAN: Did you yourself, Mr Leung, participate in  
13          those discussions with the bus captains?

14       MR LEUNG KIN WANG: No.

15       MR PETER DUNCAN: Was this before your time as operations  
16          director?

17       MR LEUNG KIN WANG: Before my participation.

18       MR PETER DUNCAN: So in that respect you are telling the  
19          committee what your understanding is of the situation?

20       MR LEUNG KIN WANG: Correct.

21       MR PETER DUNCAN: Is there anybody in the group who was  
22          there in 2014 who can speak to what happened?

23       MR LEUNG KIN WANG: Not in --

24       CHAIRMAN: Yes, of the seven of you.

25       MR LEUNG KIN WANG: Somebody else.

26

1 CHAIRMAN: Well, if it's appropriate, and if you wish,  
2 Dr Leung, for that person to speak to the matter, we  
3 will gladly receive evidence from him or her.

4 MR LEUNG KIN WANG: Kelvin.

5 MR PETER DUNCAN: As a matter of interest, is Mr Eckford  
6 still resident in Hong Kong, as far as you know?

7 MR LEUNG KIN WANG: No.

8 MR KELVIN LEUNG: (Via interpreter) Thank you, Chairman. As  
9 I replied to some other questions in the previous  
10 meeting --

11 CHAIRMAN: For the record, please identify yourself. We  
12 know who you are but the record doesn't.

13 MR KELVIN LEUNG: Kelvin Leung, assistant manager of  
14 operations.

15 (Via interpreter) From Tuen Mun depot.

16 CHAIRMAN: This is a matter that you dealt with in your  
17 evidence before, is it not?

18 MR KELVIN LEUNG: (Chinese words not interpreted).

19 CHAIRMAN: Sorry, I didn't get a translation of that. Would  
20 you repeat your answer?

21 MR KELVIN YEUNG: (Via interpreter) I'm Kelvin Yeung,  
22 assistant manager of operations at the Tuen Mun depot.

23 CHAIRMAN: The question that you were asked by me was: this  
24 is a matter that you dealt with in your evidence before,  
25 was it not; and your answer?

26

1 MR KELVIN YEUNG: (Via interpreter) Correct.

2 MR PETER DUNCAN: At the risk of repetition, Mr Yeung, could  
3 you assist us as to why it might have been that  
4 apparently this plan was not carried through?

5 MR KELVIN YEUNG: (Via interpreter) At that time, I received  
6 a document which was shown in the PowerPoint. It showed  
7 the locations of the 29 bends and the suggested speed  
8 limits. At that time, I was involved in talking to bus  
9 captains in the bus termini. As part of my day-to-day  
10 communication with them, there was --

11 MR PETER DUNCAN: Just to interrupt you, what was your  
12 position at that point exactly?

13 MR KELVIN YEUNG: (Via interpreter) I was a senior operation  
14 officer. I was responsible for the Tuen Mun depot as  
15 well. So I went to the bus termini to talk to bus  
16 captains.

17 The message I received from them was that it was not  
18 feasible, the plan was not feasible; they could not  
19 remember the speed limits of different bends in  
20 performing driving. That would bring a lot of pressure  
21 to them. If they remember things incorrectly they might  
22 be subject to punishment. That's what they told me.

23 I also relayed the message to my supervisor at that  
24 time.

25 MR PETER DUNCAN: Thank you. Who was your supervisor?

26

1 MR KELVIN YEUNG: (Via interpreter) The general manager of  
2 Tuen Mun depot, Mr Woo Kin Keung.

3 MR PETER DUNCAN: Is he still with the company?

4 MR KELVIN YEUNG: (Via interpreter) He has retired.

5 MR PETER DUNCAN: It is apparent from the material that the  
6 committee received that this plan was at some point  
7 discontinued; it was not carried out. Are you able to  
8 assist the committee as to who made the decision not to  
9 continue with the plan?

10 CHAIRMAN: And if you don't know the answer, don't  
11 speculate.

12 MR KELVIN YEUNG: (Via interpreter) I do not know.

13 MR PETER DUNCAN: Thank you.

14 CHAIRMAN: Thank you, Mr Yeung.

15 MR PETER DUNCAN: Leung, if I can go back to you, do  
16 I understand there is going to be a further search among  
17 the company's records --

18 MR LEUNG KIN WANG: Yes.

19 MR PETER DUNCAN: -- in order to assist the committee to  
20 find out who apparently made a decision to discontinue  
21 with this plan and the reasons for that discontinuance?

22 MR LEUNG KIN WANG: Yes.

23 MR PETER DUNCAN: As a matter of interest, would there not  
24 be, on the company's computer, copies of all emails sent  
25 or received by Mr Eckford in the course of his work at  
26

1 the company in 2014? Would you expect that information  
2 to be available?

3 MR LEUNG KIN WANG: I'm not too sure.

4 MR PETER DUNCAN: Thank you.

5 CHAIRMAN: Perhaps that's another matter that you could  
6 provide an answer to when you do this search, if those  
7 that would know what your record preservation system is  
8 could provide us with that information.

9 MR LEUNG KIN WANG: Yes.

10 MR PETER DUNCAN: Thank you, Mr Leung. I am going to move  
11 to another topic now, but I am going to go back to one  
12 matter which was dealt with on Tuesday. This relates to  
13 the speeding report that we have been provided with,  
14 which we will find in KMB-9 at page 3993.

15 The translation appears at page 3995-1.

16 I think it was Mr James Wong who assisted the  
17 committee with regard to this report on Tuesday. There  
18 are just some matters I would seek some clarification  
19 upon, if I could, Mr Wong.

20 During your evidence on Tuesday -- and we can see  
21 this, I will just give you the reference for everybody's  
22 benefit; it's Day 12 and the transcript reference is  
23 pages 134 to 135 -- you provided the committee with  
24 thresholds relating to the generation of this report.

25 So breaking it up between the 50-kilometre zones and  
26

1 the 70-kilometre zones, you told us that for the  
2 50-kilometre zones, the report will capture those buses  
3 that were travelling at three different speeds and  
4 different durations. The first speed was speeds between  
5 56 and 65 kilometres per hour for 30 seconds; then 66 to  
6 70 kilometres per hour for 15 seconds; and then 76 to  
7 79 kilometres per hour for 2 seconds.

8 Then we had a similar sort of breakdown for the  
9 70-kilometre zones. The report would capture those  
10 buses which were travelling at, first of all, 76 to  
11 79 kilometres for 30 seconds; secondly, over  
12 80 kilometres per hour for 2 seconds. They are the  
13 thresholds that you gave us.

14 I also understand from your evidence that the black  
15 box was at that time not capable of identifying  
16 different speed limits on different roads in generating  
17 real-time alerts to the drivers. In other words, the  
18 black box could not tell whether the speed limit on  
19 a particular road was 50 kilometres per hour or  
20 70 kilometres per hour, so therefore the threshold for  
21 the driver to be alerted was simply set at 75 kilometres  
22 per hour, and then you also told us that that had been  
23 reduced to 70 after the accident at Tai Po.

24 So is my understanding correct so far?

25 MR JAMES WONG: Correct.

1 MR PETER DUNCAN: Thank you. One of the explanations given,  
2 I think, was that this was because, at that time, in  
3 fact before 7 June 2018, the company did not possess the  
4 digital mapping which was available through the  
5 Transport Department?

6 MR JAMES WONG: Correct.

7 MR PETER DUNCAN: Thank you.

8 With all that in mind, and going back to this  
9 report, if the black box data does not tell you whether  
10 the bus is in a 50-kilometre zone or a 70-kilometre  
11 zone, how is it that this exception report is able to  
12 distinguish or pick out a bus which is speeding above  
13 the limit in a 50-kilometre zone?

14 MR JAMES WONG: (Via interpreter) This is exactly why we  
15 needed time in order to make available this report. We  
16 would know the additional information, but our depot  
17 would have to use another computer program to check  
18 whether that is a 50-kilometre zone or a 70-kilometre  
19 zone, so that we could know whether the bus was in  
20 a 50-kilometre zone or 70-kilometre zone, so that we  
21 would have this report which you have now, so that I can  
22 check which bus captain, at what time, at what location,  
23 sped.

24 MR PETER DUNCAN: So do I understand correctly this report  
25 has only been prepared very recently?

26

1 MR JAMES WONG: (Via interpreter) This is a report  
2 formulated on 1 May 2018. It was rather recent.

3 CHAIRMAN: By what means is the place at which the bus is  
4 identified doing a particular speed identified?

5 MR LEUNG KIN WANG: (Via interpreter) At present, we look at  
6 the route of the bus. We, on our own computer system,  
7 have mapped the places for every route. How can we  
8 identify the location? We will look at the time, at the  
9 material time, and also the hourly speed of the bus.  
10 That is why this takes time for our staff to use the  
11 relevant software to tackle it.

12 MR PETER DUNCAN: How long have you been able to produce  
13 this sort of report? Since when?

14 MR LEUNG KIN WANG: (Via interpreter) We started to have  
15 this kind of black box in 2013 and we already had this  
16 kind of report; we use the same way to do it.

17 MR PETER DUNCAN: You said that this report was produced on  
18 1 May this year. Were these sorts of reports being  
19 produced at the time of the Tai Po accident?

20 MR LEUNG KIN WANG: (Via interpreter) This report was done  
21 on 1 May, but then this type of report, this type of  
22 exception report, had always been produced. We started  
23 to have this kind of exception report in 2013, and we  
24 could know whether the bus captain sped in 50km or 70km  
25 zones.

26

1 MR PETER DUNCAN: How long after --

2 CHAIRMAN: Would you just give me a moment, Mr Duncan.

3 MEMBER LO: Can I ask you a question?

4 MR LEUNG KIN WANG: Sure.

5 MEMBER LO: Now, if the bus is speeding at 67.9, you should  
6 know that it was speeding beyond 50; right?

7 MR LEUNG KIN WANG: (Via interpreter) Correct.

8 MEMBER AUYEUNG: So in your company record, you should have  
9 a record of this segment is set a speed limit of 50;  
10 right?

11 MR LEUNG KIN WANG: (Via interpreter) Correct.

12 MEMBER LO: So you didn't need the TD's digital map to know  
13 that you have different speed limits for different  
14 sections of your routings?

15 MR LEUNG KIN WANG: (Via interpreter) That is what we judged  
16 according to our own knowledge. So we judged which zone  
17 was 70km or 50km. Our staff had to do this manually  
18 that this particular section was 50km or another  
19 section 70km and we had to do it every day. If there  
20 are new road sections, we will have to update our own  
21 records, and if there are new routes or if there is  
22 diversion, we will have to update the records ourselves.  
23 This is what we have to do. Even if we have these speed  
24 limits for different road sections, we will still have  
25 to verify that with the black box data so that we know

26

1 whether speeding happened in 50km or 70km zones.

2 MR ROGER LEE: (Via interpreter) Maybe I can supplement.

3 Actually, black box data will let us know the speed of  
4 the vehicle and the locations, but we will not know  
5 whether there has been speeding. From the start to the  
6 end of the journey, the black box will record the time  
7 at any X, Y, Z location and the speed that was used, and  
8 when this comes back to the company we have a system:  
9 knowing the speed limit of a particular road section, we  
10 superimpose the black box data on that, so we will know  
11 whether there has been speeding.

12 But it takes a long time because we have over 400  
13 routes and you have two directions for each route and  
14 there are many, many buses running on these routes.  
15 That is why it takes a long time.

16 As to your second point, the black box is two  
17 systems. The black box company can use a physical map  
18 and they can take the speed at any X, Y, Z location.  
19 This is what they can do but this was not done at that  
20 time.

21 Secondly, the black box companies have suggested  
22 that if there can be a digital map, a live map, like the  
23 one from TD, if it has been installed, then the time  
24 could be much shortened. I think this is what Mr Leung  
25 was trying to say.

26

1 CHAIRMAN: Perhaps I can recapitulate. The black box that  
2 we can see, looking at it now, tells you the latitude  
3 and longitude. I think you call that X and Y.

4 MR ROGER LEE: Correct.

5 CHAIRMAN: The latitude and longitude is what it's described  
6 by a short form.

7 That tells you where the bus is. At that point in  
8 time, because you get every one second a report of  
9 speed, you know what the speed of the bus is. The third  
10 step you take is to work out what the speed zone or  
11 limit is for that area.

12 MR ROGER LEE: Yes.

13 CHAIRMAN: So location, speed and then speed limit, and that  
14 is done manually because you hadn't found out about  
15 digital maps.

16 MR ROGER LEE: Yes.

17 CHAIRMAN: How many people have you been employing doing  
18 this manual job when it could have been done by digital  
19 map automatically?

20 MR ROGER LEE: 37.

21 CHAIRMAN: There's your cost-cutting.

22 Yes, Mr Duncan.

23 MR PETER DUNCAN: Just to clarify, at the risk of some  
24 repetition: when did the company start producing these  
25 sorts of reports, that distinguished between the 50 and  
26

1 the 70 kilometre per hour?

2 MR LEUNG KIN WANG: (Via interpreter) We had it since

3 an early time. I have been told by some colleagues that

4 we started to have this in 2007, but at that time the

5 black box data were not as detailed, and in 2013, with

6 this latest type of black box, we gathered more data and

7 therefore we can conduct a more detailed analysis.

8 MR PETER DUNCAN: So, if a bus driver exceeded

9 a 50-kilometre speed limit on the first of the month,

10 when would the report be compiled in order for you to

11 conclude that? How much later?

12 MR LEUNG KIN WANG: (Via interpreter) At present, it would

13 take four days for the report to be produced, and

14 Mr Wong would have received the same report, and Mr Wong

15 would deal with it.

16 MR PETER DUNCAN: Previously, how long did it take?

17 MR LEUNG KIN WANG: (Via interpreter) Ten days, and in the

18 more distant past, 14 days. In 2007, it would take even

19 longer. At that point, the data from the black box were

20 not transmitted through the server, and the physical

21 downloading was required, so the time taken would be

22 even longer.

23 MR PETER DUNCAN: This is what the 37 people have been

24 working on?

25 MR LEUNG KIN WANG: (Via interpreter) Maybe more, if for

26

1 downloading of data, you will have to do it on board  
2 individual vehicles, so it may involve thousands of  
3 buses and many people at the repair/maintenance section.  
4 It's a very tedious task. So more than 70 people would  
5 have been involved. More than 37 people would be  
6 involved.

7 MEMBER LO: Let me ask a question. So this 14 days or four  
8 days' delay would prevent basically real-time  
9 operations; right? If a driver taps in using his ID and  
10 the record is put into the black box, so this  
11 information is instantaneous, there's no need to go back  
12 14 days or four days to match it. Isn't that a very  
13 simple solution to fix it?

14 MR LEUNG KIN WANG: Correct, correct, (Chinese words not  
15 interpreted).

16 MEMBER LO: Why isn't that done?

17 MR LEUNG KIN WANG: (Via interpreter) We are moving towards  
18 the same direction so we can have the black box data  
19 transmitted by the bus captain. One of the items in our  
20 submission to the committee is on this geo-fencing  
21 element. That is we will store the information of the  
22 bus captain in the black box as well. So we have  
23 a record pertaining to the bus captain and we will know  
24 on a second-to-second basis which bus captain is driving  
25 the vehicle.

26

1 CHAIRMAN: That is not done at the moment?

2 MR LEUNG KIN WANG: No.

3 CHAIRMAN: The black box does not record the fact of the  
4 Octopus card of the captain logging on to take charge of  
5 that bus?

6 MR LEUNG KIN WANG: No.

7 MR ROGER LEE: That's why it takes at least ten days  
8 previously.

9 CHAIRMAN: If you can do it briefly, how is the identity of  
10 the bus captain established? You've got the bus number,  
11 you've got the speed, you've got the location, you  
12 manually work out the speed limit. How have you been  
13 and do you at the moment establish the identity of the  
14 driver?

15 MR LEUNG KIN WANG: (Via interpreter) It's not currently  
16 done, so we need to match the black box data with the  
17 terminus records, because through the terminus records  
18 we know which bus captain drove whatever bus in respect  
19 of whatever route at the particular time. Then we match  
20 the time of the records with the black box data, because  
21 the black box does record time, and then we know at  
22 a particular time that that bus was driven by  
23 a particular bus captain.

24 MR ROGER LEE: (Via interpreter) Simply put, you have some  
25 data from the black box and you have some records from  
26

1 the terminus which is a separate system. Then we have  
2 the fleet management records. The terminus records are  
3 about the bus captains, the fleet management records  
4 about the vehicle, and then we would have to match the  
5 three sets of data to make the identification. So it  
6 takes a long time.

7 CHAIRMAN: Is the terminus record done automatically through  
8 a computer by use of the Octopus card of the captain?

9 MR LEUNG KIN WANG: (Via interpreter) Yes. That's one of  
10 the inputs.

11 CHAIRMAN: Yes, Mr Duncan.

12 MR PETER DUNCAN: Thank you, Chairman.

13 I want to move slightly onwards now to another  
14 topic, not unrelated to this. That's the topic of  
15 real-time monitoring of the bus captains.

16 Just so it's understood what I mean by this, can  
17 I take you back to the evidence of the gentleman from  
18 Openmatics, Mr Kulis, which we will find on Day 6 at  
19 page 158.

20 That would be bundle 3, Mr Chairman.

21 CHAIRMAN: Thank you.

22 MR PETER DUNCAN: If I could ask you to turn to line 14 on  
23 that page, where Mr Chan, counsel for the commission,  
24 asks Mr Kulis this question:

25 "Now if the data is capable of being transmitted and  
26

1 received at, say, 5-second intervals, does your company  
2 provide the technology either in hardware or software to  
3 facilitate real-time monitoring of the data collected by  
4 the black box?"

5 And his answer is, "Yes".

6 Just to put this in context, you have told us at the  
7 moment, I think, that the data is provided at 30-second  
8 intervals, but it can be reduced down to 5 seconds? Is  
9 that a correct understanding?

10 MR LEUNG KIN WANG: Yes.

11 MR PETER DUNCAN: Thank you.

12 Mr Chan continues:

13 "So let me see if I get this right. Your company  
14 supplies the black box, it collects the data, and the  
15 system is able to transfer that data, say, every five  
16 seconds, to a defined server?

17 Mr Kulis: Mm-hmm.

18 Mr Derek Chan: So as a supervisor, I'm sitting in my  
19 office, how do I monitor the driver, real-time? Do  
20 I need additional software, or does your company already  
21 provide the software for me to do so?

22 Mr Kulis: There are two options, we can provide our  
23 software solution, which consists of the Openmatics  
24 portal and additional applications on the server side.  
25 That is one option, but some customers they are  
26

1 preferring just to get the data, and they have their own  
2 IT systems behind. In that case we are just the data  
3 provider and we don't care about the utilisation or  
4 operating of that. Utilising that.

5 Mr Derek Chan: In this case, KMB, is it the case  
6 that ZF only works as, as you describe it, a data  
7 provider, or are you aware of any more advanced use by  
8 [Kowloon Motor Bus] of your company's real-time  
9 monitoring capabilities?

10 Mr Kulis: I think in this case [Kowloon Motor Bus]  
11 is the customer, at the current moment, they are using  
12 their own IT system to handle the data and work with the  
13 data. But, yes, it's by agreement, we can also change  
14 it if we want.

15 Mr Derek Chan: I see. In your experience, how  
16 common is it around the world in terms of commercial  
17 fleet management for the company to monitor the driving  
18 behaviour of its drivers real-time? How common is that?

19 Mr Kulis: I think this is quite a common request.  
20 Both from the safety and economic reason, the companies  
21 usually want to monitor the drivers. In some countries  
22 there is the conflict with the law regulation and  
23 protecting the driver safety, like in the West European  
24 countries, sometimes it is not so easy to introduce  
25 monitoring system, but the demand is always there."  
26

1           So that's the context in which I want to explore  
2           this matter a little further with you, if I may. I want  
3           to take it further firstly by referring you to KMB-4, at  
4           page 1202. This is an extract from the 2013 annual  
5           report. We have seen one of these before.

6   CHAIRMAN: Of KMB?

7   MR PETER DUNCAN: I think the holding company, first of all.

8   CHAIRMAN: Yes.

9   MR PETER DUNCAN: And then Kowloon Motor Bus Company and in  
10          fact a number of other subsidiaries also of the listed  
11          company.

12   CHAIRMAN: Thank you.

13   MR PETER DUNCAN: So if we look down the list of key  
14          corporate executives in the Kowloon Motor Bus Company,  
15          you will find the name of one Alok Jain, head of  
16          planning and development department. Is that a name  
17          which is known to some of you?

18   MR LEUNG KIN WANG: Yes.

19   MR PETER DUNCAN: We can see the position that he held at  
20          that time.

21          Are you aware that Mr Jain has provided evidence to  
22          the committee?

23   MR LEUNG KIN WANG: Yes.

24   MR PETER DUNCAN: In that respect, I'm going to ask you to  
25          turn up, please, bundle FE-1 at page 40. In fact, the  
26

1 document I wish to show you commences at page 39 of that  
2 bundle, and it's a submission that the committee has  
3 received from Mr Jain.

4 Have you had the opportunity of reading this  
5 submission?

6 MR LEUNG KIN WANG: Briefly, yes.

7 MR PETER DUNCAN: Thank you.

8 If you have read it just briefly, perhaps I could  
9 bring your attention, please, to page 40, paragraphs 2  
10 and 3. Perhaps for the benefit of others than you and  
11 me, I will read those paragraphs out.

12 Mr Jain says in paragraph 2:

13 "Real-time Operational Management (ROM) System was  
14 a by-product of installation and telematics devices on  
15 board the buses, which has been ongoing by the time  
16 I joined the organisation.

17 a. I was involved in many meetings and discussions  
18 about the technical specifications, features, technology  
19 selection and so on in relation to ROM right after  
20 I joined the company. I was not involved in discussions  
21 related to funding, tendering and project management.  
22 I also cannot remember when exactly the decision to  
23 implement was undertaken but was aware that project  
24 implementation was in progress. The primary reasons to  
25 implement the project were --  
26

1 (i) Improve safety -- through real-time alerts and  
2 feedbacks to bus captains;

3 (ii) Improve fuel efficiency -- through enhanced  
4 driving behaviour and performance management; and

5 (iii) Deliver reliable bus services -- through  
6 active management of deployment and incident/disruption  
7 management.

8 b. There were extensive discussions on type of  
9 vehicle and driver performance parameters that will be  
10 monitored through this ROM system including their  
11 potential benefits. As the telematics data was still  
12 available even after the scrapping of the project, there  
13 was some level of monitoring but the real value of ROM  
14 system was 'real-time' and this capability was  
15 sacrificed. This was analogous to a post mortem ..."

16 I will leave out that sentence.

17 Then item (c):

18 "I was not much involved in the discussions  
19 pertaining to exact cost implications of the project but  
20 through meetings and discussions, was under the  
21 impression that the project was planned to deliver  
22 a positive ROI.

23 3. Many, if not the most, of the bus companies in  
24 the developed world today deploy same or similar  
25 functionalities as [Kowloon Motor Bus] had envisioned in  
26

1 the ROM system. Even at the time when KMB was drawing  
2 up the plans, we were drawing heavily on the experiences  
3 from Seoul, Singapore, London and Munich. Media reports  
4 or company announcements from other cities have shown  
5 clear benefits of such systems in terms of safety, fuel  
6 efficiency and driver behaviour. In New Zealand [and  
7 the source is the GreenRoad.com website] bus companies  
8 achieved 4 per cent reduction in fuel consumptions and  
9 81 per cent reduction in speeding infringements. Tower  
10 Transit in Singapore achieved more than 7 per cent fuel  
11 savings, and halving of 'incidents' of poor driving  
12 behaviour. Accidents from collisions fell by half,  
13 while accidents caused by bus drivers plunged by  
14 70 per cent."

15 So that's the information that Mr Jain provided in  
16 writing to the committee. Mr Jain has also given  
17 evidence to the committee -- I will simply give you the  
18 reference in the bundles; it's transcript bundle 8, and  
19 on this topic --

20 CHAIRMAN: I think it's bundle 3, is it not?

21 MR PETER DUNCAN: I see. It's Day 8 -- bundle 3, I beg your  
22 pardon -- and it runs for some pages, 81 to 98.

23 By the way, have you had the opportunity of reading  
24 that evidence, Mr Leung?

25 MR LEUNG KIN WANG: Yes, in Chinese.

26

1 MR PETER DUNCAN: Thank you. So I won't take you through  
2 it, but it amplifies what Mr Jain had said in this  
3 submission, which was to the effect that the company had  
4 considered a project which would involve real-time  
5 monitoring, but according to Mr Jain, that project was  
6 scrapped.

7 So what I would like to ask first of all is: do any  
8 of you recall discussions pertaining to the possibility  
9 of real-time monitoring?

10 MR LEUNG KIN WANG: (Via interpreter) ROM means real-time  
11 operations management system. It's not a real-time  
12 monitoring system.

13 MR PETER DUNCAN: So it doesn't live up to its name?

14 MR LEUNG KIN WANG: (Via interpreter) It is an operations  
15 real-time management system. It is about bus operations  
16 management. It has nothing to do with driving safety.

17 MR PETER DUNCAN: First of all, was there a real-time  
18 monitoring system considered by the Kowloon Motor Bus  
19 Company at some point, referred to by Mr Jain?

20 MR LEUNG KIN WANG: (Via interpreter) This is what we have  
21 now. This is the on-board driver's alert and driver's  
22 feedback. On board buses, there is a real-time alert to  
23 bus captains.

24 (In English) Speeding, when he applies brakes  
25 suddenly or with sudden acceleration.

26

1 MR PETER DUNCAN: Right. Are you aware that the company at  
2 one stage considered the type of system that Mr Kulis  
3 referred to in his evidence?

4 MR LEUNG KIN WANG: (Via interpreter) I had knowledge that  
5 there was this intention. I knew about it and I also  
6 asked ZF that we should have real-time alert to bus  
7 captains, that there should be a two-directional  
8 communication in order to have real-time alerts sent to  
9 bus captains about their behaviour. But at that time,  
10 the starting point is not about safety but about keeping  
11 distances between vehicles. This is just really for bus  
12 operation.

13 MR PETER DUNCAN: So you can see what Mr Kulis has referred  
14 to, and that's the concept of somebody receiving  
15 information, seeing that a driver is speeding or seeing  
16 that he's braking sharply or that he's accelerating, and  
17 then making instant communication to the driver as to  
18 his driving behaviour. That's what Mr Kulis is  
19 referring to.

20 Has the company had a project to consider that sort  
21 of facility?

22 MR LEUNG KIN WANG: (Via interpreter) No.

23 MR PETER DUNCAN: Never?

24 MR LEUNG KIN WANG: Never.

25 MR PETER DUNCAN: So your understanding of what Mr Jain was  
26

1 saying in his letter and his evidence, what is your  
2 understanding of what he was referring to?

3 MR LEUNG KIN WANG: (Via interpreter) I believe he was  
4 talking about our real-time operations management  
5 system.

6 MR PETER DUNCAN: I think, in that case, I will have to  
7 refer you to some of Mr Jain's evidence explicitly.

8 Could I refer you, please, to Day 8, bundle 3 of the  
9 transcripts, at page 86.

10 Can I bring your attention, please, to line 9 of  
11 page 86.

12 CHAIRMAN: May I suggest that we begin at the top of the  
13 page, because this might explain the marriage between  
14 the two, the bus grouping and another use that might be  
15 made of the data.

16 MR PETER DUNCAN: Certainly, Mr Chairman. So we go to  
17 line -- is Mr Chairman referring to page 85 or page 86?

18 CHAIRMAN: You might begin at page 85. I think that puts it  
19 into context.

20 MR PETER DUNCAN: Yes.

21 So line 2, Mr Leung, at page 85, Mr Jain says this:

22 "So until then, a lot of data in [Kowloon Motor Bus]  
23 was residing in silos in individual departments. They  
24 were collecting -- for example, engineering information  
25 was available in engineering, operational information  
26

1           was available in the operations department, and they  
2           were all in different systems. The plan was to put this  
3           all into a single data warehouse and create a single  
4           version of truth.

5           Chairman: What use was to be made of the data  
6           contained in this single data warehouse?

7           Mr Jain: So there were three stages. The first  
8           stage was to establish the static, what is real, what is  
9           happening on ground. The second stage was to put into  
10          some level of modeling, where we could use it for  
11          planning purposes, in short term. And the third  
12          objective, eventually, was to take it into a predictive  
13          level, where we could apply statistical tools and do  
14          some forward projections.

15          Chairman: What use was to be made of the first  
16          step, the real-time?

17          Mr Jain: That was primarily for management  
18          information purposes, as well as for any investigations,  
19          reporting, so on and so forth.

20          Chairman: Investigations into what?

21          Mr Jain: For example we used to receive a lot of  
22          passenger complaints about services, we could go back  
23          and look into the data and verify that information.

24          Chairman: So if the complaint had been made that  
25          the bus had been driven at an excessive speed and braked  
26

1           harshly, could that be investigated by analysing the  
2           data that had been put into this single data warehouse?

3           Mr Jain:   Potentially, yes.

4           Chairman:  That's a response to a complaint.  Was  
5           there any plan to use the data proactively?

6           Mr Jain:  So the second stage was where we went into  
7           real-time operations management system, because once we  
8           built the data models on the historic data we could  
9           translate the similar level of information and analyse  
10          on a real-time basis, and the idea was of course to  
11          monitor the whole operation on a real-time basis using  
12          what we normally call an exception management, where  
13          anything that goes beyond the threshold of normal  
14          operation you start to actively manage it.

15          Chairman:  How was it envisaged, if it was, that  
16          this approach could address the manner in which a bus  
17          was [being] driven?

18          Mr Jain:  For example, if any bus that was being  
19          driven beyond the parameters that were set as normal  
20          operation, then it would raise an alert, and normally  
21          the companies, or examples that I have seen around the  
22          world, they use this green, amber, red approach.  So  
23          green is normal operation, anything that goes on the  
24          outlines of threshold boundaries it starts to raise the  
25          alert [is] an amber, and then of course once it crosses,  
26

1           it is a red alert. So at that time some intervention is  
2           necessary.

3           Chairman: Was it envisaged that this alert raised  
4           by a parameter being breached could occur real-time?

5           Mr Jain: The intent certainly at that time was  
6           that."

7           Now, that's the passage that I was referring to.  
8           What sort of system do you understand Mr Jain to be  
9           referring to in that respect?

10          MR LEUNG KIN WANG: (Via interpreter) This is not in our  
11          present system.

12          MR PETER DUNCAN: Is that something which you understand to  
13          be the equivalent of the real-time monitoring system  
14          that Mr Kulis was referring to?

15          MR LEUNG KIN WANG: No.

16          MR PETER DUNCAN: What's the difference?

17          MR LEUNG KIN WANG: (Via interpreter) ROM is real-time  
18          operations management. It is about deployment of buses.  
19          This has nothing to do with driving safety of bus  
20          captains.

21          MR PETER DUNCAN: It would seem that Mr Jain understood it  
22          differently. Is that correct?

23          MR LEUNG KIN WANG: (Via interpreter) I agree.

24          MR PETER DUNCAN: When he says that the project, as he  
25          understood, was scrapped, do you recall a project being  
26

1 started but then being scrapped?

2 MR LEUNG KIN WANG: (Via interpreter) It was never scrapped.

3 This project started in October 2014. It has never been  
4 terminated. It's ongoing.

5 MR PETER DUNCAN: In that context, just to be absolutely  
6 clear, what do you say "this project" is?

7 MR LEUNG KIN WANG: (Via interpreter) This is about the  
8 real-time operation management system by using the black  
9 box and the availability of real-time location  
10 information, so that we can be more efficient in bus  
11 deployment.

12 CHAIRMAN: In what way?

13 MR LEUNG KIN WANG: (Via interpreter) For every route, the  
14 buses at different locations, frontline people,  
15 including the regulator, the officers, will know the  
16 locations of the buses at any time. When there's  
17 traffic congestion, some of the buses might be stuck in  
18 certain location. Such information will allow us to do  
19 a better deployment, because we would know that some of  
20 the buses might not be able to return very quickly, so  
21 deployment can be arranged in a more efficient manner.

22 That's the core of the facility of this real-time  
23 management system which would facilitate the work of our  
24 officers.

25 MR PETER DUNCAN: Just before we take a break, if I could  
26

1 return to Mr Kulis and what he was referring to in the  
2 earlier passages to which I brought your attention.  
3 That's Day 6, page 158, the same bundle 3.

4 Are you there, at page 158?

5 MR LEUNG KIN WANG: Yes.

6 MR PETER DUNCAN: I brought this to your attention earlier,  
7 but at line 25, Mr Chan is asking him questions about  
8 this situation:

9 "So as a supervisor ... [sitting in his office  
10 monitoring the driver real-time] ..."

11 And implicitly in that, if he sees a problem,  
12 communicating with the driver, he says, "You need to  
13 change the manner in which you're your driving", that  
14 sort of system.

15 First of all, that sort of system is quite  
16 different, is it not, to what you had just been  
17 adverting to?

18 MR LEUNG KIN WANG: (Via interpreter) Correct.

19 MR PETER DUNCAN: I don't want to confuse terms. If I could  
20 refer to that as "real-time driver monitoring".

21 Mr Kulis has referred to the fact that this is quite  
22 commonly used in other parts of the world. Have you  
23 seen that in his evidence?

24 MR LEUNG KIN WANG: Yes.

25 MR PETER DUNCAN: Is this something which Kowloon Motor Bus  
26

1 has given consideration to?

2 MR LEUNG KIN WANG: Yes.

3 MR PETER DUNCAN: What is its position with regard to this?

4 Because obviously Kowloon Motor Bus does not apply this  
5 system at the moment. What is the company's position?

6 MR LEUNG KIN WANG: Not practical.

7 MR PETER DUNCAN: So you have considered it and decided  
8 against it; is that the position?

9 MR LEUNG KIN WANG: Correct.

10 MR PETER DUNCAN: Could you explain to the committee why it  
11 is not practical?

12 MR LEUNG KIN WANG: (Via interpreter) It would mean a lot of  
13 pressure for bus captains, and we may not have a system  
14 that can deal with so many bus captains at the same  
15 time. We have also consulted ZF and Openmatics, and the  
16 conclusion was that it was not practicable.

17 CHAIRMAN: When were these consultations?

18 MR LEUNG KIN WANG: (Via interpreter) They were some time  
19 ago.

20 CHAIRMAN: Try and help us a bit more than that. When?

21 MR LEUNG KIN WANG: (Via interpreter) It is not very formal  
22 discussion. We did talk to them, especially to  
23 Openmatics.

24 CHAIRMAN: When?

25 MR LEUNG KIN WANG: (Via interpreter) It is not by me. My  
26

1           colleagues discussed the matter with them. We were  
2           aware of that.

3       CHAIRMAN: Who?

4       MR LEUNG KIN WANG: I can't recall now.

5       CHAIRMAN: Let me give you some time to recall while we take  
6           a break.

7       MR LEUNG KIN WANG: Okay.

8       CHAIRMAN: We will take a break for 20 minutes.

9       (11.36 am)

10                               (A short adjournment)

11       (11.58 am)

12       CHAIRMAN: Yes, Mr Duncan.

13       MR PETER DUNCAN: Thank you, Mr Chairman.

14           Mr Leung, do you have any further information for us  
15           as to who it was who spoke to Openmatics on this issue  
16           and when that was?

17       MR LEUNG KIN WANG: (Via interpreter) I asked my colleagues  
18           to try to understand the situation. It was proposed  
19           that a supervisor could use a software to monitor the  
20           performance of each bus captain. We found that it was  
21           not practical. We will not take this further. We  
22           talked to ZF about another thing. In other words,  
23           having one supervisor watching over bus captains, we  
24           think that is not practicable because we have 4,000 bus  
25           captains. We cannot have that number of supervisors to

26

1 watch over 4,000 bus captains.

2 CHAIRMAN: What did you talk to ZF about?

3 MR LEUNG KIN WANG: (Via interpreter) Our design with ZF was  
4 how to transmit the real-time data to our company and  
5 how our company's data can produce real-time maps of  
6 where our bus captains are at any time so that we can  
7 have more efficient real-time operations management.  
8 That is the objective of designing the ROM at that time.

9 MR ROGER LEE: (Chinese words not interpreted).

10 CHAIRMAN: When were these discussions?

11 MR LEUNG KIN WANG: (Via interpreter) It was in 2013. When  
12 we started to install black boxes, we were aware of how  
13 these black boxes would function.

14 MR ROGER LEE: (Via interpreter) I would like to supplement  
15 here to what the operations director has said. There  
16 are two views on how to manage the fleet real-time. One  
17 is that there would be a central management system  
18 knowing how the vehicles are doing on the roads and then  
19 a central control room can communicate with the bus  
20 captains so that the buses would be at a suitable  
21 distance from one another to ensure smooth operation.

22 But there is a big problem here. The real situation  
23 on the ground, unless you have very accurate information  
24 about the road conditions with a lot of CCTV monitoring  
25 the journey, because we are not a railway company, and  
26

1 the communication with the bus captain would be  
2 a problem because they are already facing a lot of  
3 pressure on the road. So that's a worry.

4 Now we have the data, and then at the back end we  
5 have the TER system, involving the regulators, the  
6 frontline staff at the bus termini. These people know  
7 the road conditions on the ground. When the bus captain  
8 reaches the terminus, of course the staff there know to  
9 what extent there has been a delay, then maybe something  
10 has to be done to catch up. It's more people-oriented  
11 as a management approach.

12 Bus is different from railway. It would be  
13 difficult to have a central control system to manage  
14 4,000 bus captains on the roads. But the data provided  
15 by Openmatics can facilitate the work of the back-end  
16 operation, but it is not about a system of managing  
17 4,000 bus captains.

18 CHAIRMAN: Yes. I think we've got that point; you have made  
19 it about three times.

20 Thank you, Mr Duncan.

21 MR PETER DUNCAN: Thank you, Chairman.

22 Mr Lee, I am sorry, but I had the impression before  
23 the break that with regard to the real-time driver  
24 monitoring system that Mr Kulis was talking about --  
25 I had the impression from you that somebody in the  
26

1 company had spoken to Openmatics about that. Are you  
2 saying that that has actually not happened?

3 MR LEUNG KIN WANG: (Via interpreter) We did discuss with  
4 Openmatics about their black box. As regards the  
5 software that would enable a supervisor to manage the  
6 fleet, that was not discussed and we will not consider  
7 doing that.

8 MR PETER DUNCAN: So you have decided against a real-time  
9 driver monitoring system because it is not practical?

10 MR LEUNG KIN WANG: (Via interpreter) If we have a system  
11 whereby a supervisor would be monitoring the bus  
12 captains, we are of the view that it is not practicable.  
13 If you take a look at ZF's reference to Western  
14 countries, and then also for safety or commercial  
15 reasons some of them have done this. We have had some  
16 internal discussions. It's about whether we can  
17 retrofit some vehicles to do the same, for example  
18 vehicles to transport the coins or fueled vehicles, we  
19 will consider whether those can be refitted to do the  
20 same.

21 But we are not talking about buses, and he was also  
22 talking about much smaller bus companies, not the bigger  
23 ones like us.

24 CHAIRMAN: Who is "he"?

25 MR LEUNG KIN WANG: (Via interpreter) It's in the evidence,  
26

1 the representative of Openmatics.

2 CHAIRMAN: I see. You are referring to Mr Kulis, are you?

3 MR LEUNG KIN WANG: Correct.

4 CHAIRMAN: Thank you.

5 MR PETER DUNCAN: I'm sorry to have to go back to Mr Jain's  
6 evidence, Mr Leung, but with regard to the project that  
7 he described and in respect of which you seem to have  
8 a different understanding from Mr Jain, were you  
9 involved in that project to which he refers?

10 MR LEUNG KIN WANG: Yes.

11 MR PETER DUNCAN: I need, I think, to take you to another  
12 part of his evidence, at Day 8, which will be in  
13 bundle 3, and this time at page 89.

14 Before I take you to the evidence, perhaps you could  
15 just describe to members of the committee what your  
16 involvement in this project was.

17 MR LEUNG KIN WANG: (Via interpreter) This project was  
18 considered in 2013. I was responsible for bus  
19 maintenance at that time. I participated in some of the  
20 presentations. It's because of the availability of  
21 black box as a technology to help the company to develop  
22 the bus operations. At that time, the company also  
23 engaged a consultancy firm, and some recommendations  
24 were made to KMB. I was responsible for managing people  
25 in maintenance and repair, but I was also involved in

26

1           some of the presentations and I knew about the concepts  
2           behind and how real-time information could be made use  
3           of to facilitate operations.

4           After I took over as operations director, I knew the  
5           relevant programme in much more detail, and in 2016,  
6           when I formally took over as head of operations, I knew  
7           that there was a real-time operation management system  
8           which was ongoing. I realised at that time that there  
9           were real-time maps to show the locations of buses which  
10          would facilitate the deployment of our fleet. It was in  
11          January 2016 when I took over as head of operations.

12          At the same time, I realised that the project would  
13          involve another function, that is a substitute for TER,  
14          a substitute of the function of the TER system. The TER  
15          is about the operations at the bus termini. When a bus  
16          captain arrives, he would report for duty and start the  
17          driving duty and then when he returns he also reports to  
18          the terminus and we will know the time of arrival and  
19          then the regulator can do the deployment duties based on  
20          the information collected.

21          One of the proposed ROM functions was to replace the  
22          TER, in that there will be a central control room to  
23          remotely deploy bus captains and assign duties to  
24          different routes and to adjust the headways, the  
25          frequency of service, and also to receive reports from  
26

1 bus captains regarding breakdowns, accidents, and  
2 matters relating to passengers. Under the proposed  
3 design, it would be centrally managed.

4 MR PETER DUNCAN: Thank you, Mr Leung.

5 I want to bring to your attention, please --

6 CHAIRMAN: Before you do that, Mr Duncan, before you pose  
7 that question -- Mr Leung, in the course of your answer,  
8 you said that the issue of the availability of black box  
9 data was considered and consultants had been engaged.

10 What were they asked to do?

11 MR LEUNG KIN WANG: (Via interpreter) He was asked to look  
12 into service delivery and service enhancement and to  
13 make recommendations.

14 CHAIRMAN: Would that include avoiding, for example,  
15 bunching up of buses? Is that what he was engaged for?

16 MR LEUNG KIN WANG: It's consultant services for operations  
17 transformation.

18 CHAIRMAN: But dealing with service issues like bunching up  
19 of buses?

20 MR LEUNG KIN WANG: Yes.

21 CHAIRMAN: Thank you.

22 Yes, Mr Duncan.

23 MR PETER DUNCAN: Thank you, Chairman.

24 The portion of Mr Jain's evidence to which I wish to  
25 bring your attention, Mr Leung, is at page 89 of the  
26

1 transcript, Day 8. I think you have that in front of  
2 you.

3 At line 14, Ms Wong, counsel for the committee, asks  
4 this question of Mr Jain:

5 "Is it the case that throughout the time you joined  
6 the company until the time you left, you were involved  
7 in this ROM project?

8 Mr Jain: I wouldn't say until the time I left, but  
9 during that period when it was being discussed as a part  
10 of implementation process, yes, I was involved in the  
11 project very actively.

12 Ms Wong: And I notice in (i) of that paragraph (a)  
13 you stated that the primary reasons to implement the  
14 project were to improve safety through real-time alerts  
15 and feedbacks to bus captains.

16 The feedbacks to bus captains, can you tell us  
17 whether it is intended to be real-time feedback or a  
18 reactive feedback to bus captains after the complaint  
19 has been received.

20 Mr Jain: There were two things that happened. The  
21 idea was to develop a two-way communication system  
22 between the bus itself and the operation control centre,  
23 and the bus drivers were supposed to have what we call  
24 a DDU, driver display unit, and through this DDU there  
25 are two ways to intervene with a driver. One is done at  
26

1 the bus level where the bus, you can pre-programme the  
2 parameters that bus -- any time transcends, it creates  
3 an alert for the driver.

4 The second level of alert could be triggered by  
5 somebody sitting in the operation control centre. Let's  
6 say, for example, if a bus is running too fast, but  
7 still within the speed limit, and the on-board device  
8 does not detect any anomaly. However, at the OCC,  
9 a supervisor detects that on a particular section the  
10 bus driver, probably because of weather conditions or  
11 because of any accident or road conditions, they should  
12 be driving slower, then a supervisor can technically  
13 intervene and alert the driver or remind the driver to  
14 go slow in that section.

15 So there are two levels of interventions that can be  
16 done.

17 Chairman: On the second intervention, that is the  
18 supervisor in the OCC, how would he communicate his  
19 intervention to the driver?

20 Mr Jain: So we had many options being discussed at  
21 the time. We were talking about just a display system.  
22 The second was we were also talking about an audio  
23 system.

24 Chairman: So there were two possibilities. One was  
25 through the display system or otherwise by audio?  
26

1           Mr Jain: Well, display was almost there, and audio  
2           was considered as an additional possibility.

3           Chairman: Was audio going to be by radio or by some  
4           other means?

5           Mr Jain: Primarily by radio, or even 3G  
6           communication. We had not gone that far, I think, at  
7           that time.

8           Ms Maggie Wong: You mentioned there were many  
9           meetings or discussions about this ROM features. Can  
10          you recall if there are minutes or documents recording  
11          what was discussed?

12          Mr Jain: There were a lot of presentations, if I  
13          recall, and there were e-mails post meeting summarising  
14          what was discussed, the key agenda, or key tasks to be  
15          [borne] by respective people. But as formal minutes, as  
16          we know them, I cannot recall if they were prepared."

17          Now, you see that evidence, Mr Leung. It would  
18          appear that Mr Jain's description of the project is  
19          totally at odds with your understanding of the project.  
20          Is that correct?

21          MR LEUNG KIN WANG: Correct.

22          MR PETER DUNCAN: Do you have any idea of any project that  
23          was being undertaken in the company with regard to the  
24          type of response to the drivers to which Mr Jain was  
25          referring?

26

1 MR LEUNG KIN WANG: (Via interpreter) Right now we don't  
2 have any such project going on. At present, the ROM  
3 does not have this function.

4 CHAIRMAN: You were asked about at that time, when Mr Alok  
5 Jain was in the company. Was there any such project  
6 going on that you are aware of, perhaps not the one  
7 you've told us about?

8 MR LEUNG KIN WANG: No.

9 MR PETER DUNCAN: Mr Jain at line 19 on page 91 has referred  
10 to "presentations". You also had referred to  
11 presentations, I think, in your evidence earlier, with  
12 regard to the same ROM project. Do those presentations  
13 still exist?

14 MR LEUNG KIN WANG: I have to find out.

15 MR PETER DUNCAN: I would be grateful if you could look  
16 further into that, so the committee can view  
17 presentations, emails, and so on, regarding the ROM  
18 project at the time that Mr Jain was at the company.  
19 Could you have somebody explore that for us?

20 MR LEUNG KIN WANG: Yes.

21 CHAIRMAN: Thank you.

22 MR PETER DUNCAN: Just before we leave this --

23 CHAIRMAN: Before we move on, Mr Duncan.

24 MR PETER DUNCAN: Thank you.

25 CHAIRMAN: In that context -- this was a matter that arose  
26

1 earlier -- would you provide us with information as to  
2 the company system of the preservation of these kinds of  
3 records? Mr Duncan has already mentioned the  
4 preservation of emails, but of other records. In this  
5 case, we are talking about presentations. Could we have  
6 some information about what the company policy is? Not  
7 necessarily now but when you come back to us.

8 MR LEUNG KIN WANG: (Via interpreter) I would like to add  
9 one point. With regards to ROM, we do have the entire  
10 ROM proposal for October 2014. We have it here. It  
11 talks about what the ROM is for. Some parts are about  
12 using the central control room to replace regulators,  
13 but it was not done because I thought that it was not  
14 practical. And it was not discussed by the board of  
15 directors.

16 So if you are talking about the ROM, the information  
17 is here. What the ROM is, it is here. I can submit it  
18 to the IRC so you will know what the ROM is. As I was  
19 saying, ROM is real-time operations management system,  
20 which has nothing to do with driving safety.

21 CHAIRMAN: We understand your evidence. We also have  
22 Mr Alok Jain's evidence, and clearly he speaks about  
23 what you are talking about, but he also speaks about  
24 another allied use of the data. The data is generated  
25 for one purpose but could be used for another. That's  
26

1           what we are asking about. But we will happily receive  
2           the material that you have.

3           Mr Duncan.

4       MR PETER DUNCAN: Thank you, Mr Chairman.

5           Just before I leave this topic, Mr Leung -- and I'm  
6           talking about real-time driver monitoring, you  
7           understand; that's the system that Mr Kulis was  
8           referring to -- I understand your position, that you say  
9           it's just not practical. What I do want to have clearly  
10          understood is how far the company has looked into this.

11          You mentioned some discussions with Openmatics but  
12          with regard to other sorts of vehicles. Has the company  
13          undertaken any study at all as to how this system is  
14          engaged, for example, in Western European countries as  
15          per the evidence of Mr Kulis?

16       MR ROGER LEE: (Via interpreter) Let me answer the question.

17          Yes, on Tuesday, we said that some colleagues went to  
18          Northern Ireland to learn about this, and talking about  
19          Openmatics and real-time systems.

20          In the past, when bus captains drove, they knew  
21          whether they were speeding, and today, when the  
22          speedometer points to 70 kilometres, he will be  
23          reminded. At present, Openmatics and our company are  
24          doing a study. There will be speed limits set on the  
25          map; whether it is 50km or 70km, it will be seen. In  
26

1 other words, on the dashboard, there will be an audio  
2 alert if there is speeding beyond 50km or 70km.

3 This was started on 31 July. That is, a trial was  
4 started. And on the day before yesterday, we submitted  
5 papers to explain to you that this was being done.

6 MR PETER DUNCAN: Yes. That covers speed. What about  
7 excessive braking, excessive acceleration, other aspects  
8 of the driver's behaviour that might constitute unsafe  
9 driving?

10 MR ROGER LEE: (Chinese words not interpreted).

11 CHAIRMAN: Forgive me, are you putting your question in the  
12 context of real-time information?

13 MR PETER DUNCAN: Yes, real-time driver monitoring.

14 CHAIRMAN: May I invite you to rephrase it with that  
15 included?

16 MR PETER DUNCAN: Certainly.

17 Has the company taken any steps in respect of  
18 real-time driver monitoring with regard to matters other  
19 than speed, specifically matters such as harsh braking,  
20 excessive acceleration?

21 MR ROGER LEE: (Via interpreter) Today, on board the buses,  
22 sudden acceleration and harsh braking are already  
23 subjects of alert sent to bus captains. We already have  
24 it today. But in this past period, we discovered that  
25 apart from Openmatics, passengers should be alerted as  
26

1 well because we have found that apart from elderly  
2 people, young people may be using their handphones and  
3 they may have accidents caused to them when there is  
4 sudden acceleration or harsh braking.

5 We have done a lot in order to avoid those  
6 accidents. My colleagues, say along Cheung Sha  
7 Wan Road, we have done something to distribute leaflets  
8 there to remind people that they should not concentrate  
9 on their mobile phones when they travel on buses.

10 As for Openmatics, we have done something as well  
11 and we are working on geo-fencing. We are testing it  
12 out on our fleet. But this is a little complicated,  
13 because the vehicle itself has a speed and then the  
14 black box would identify the location of the bus and  
15 what the speed should be, and number three, it is  
16 geo-fencing. This will feed the information back to the  
17 vehicle. This is electronic. Say, for example, the  
18 brake, the gas pedal, and how this is controlled --  
19 well, we are going in that direction.

20 We can give you supplementary information but this  
21 is being done.

22 MR PETER DUNCAN: Yes. I think we understand that, Mr Lee,  
23 and thank you for that. But my question is specifically  
24 aimed at the system that Mr Kulis was describing, where  
25 there is active supervision within a central control  
26

1 unit of a driver's speed and other aspects of his  
2 driving.

3 I have asked Mr Leung about that and he says, "No,  
4 it's not practical; it's been considered and we are not  
5 doing it."

6 My question is what investigations, if any, has the  
7 company conducted with regard to how that system is  
8 incorporated in other jurisdictions and whether,  
9 therefore, it might be suitable in Hong Kong?

10 MR LEUNG KIN WANG: (Via interpreter) Let me say something  
11 else about this issue. Technological advance is such  
12 that if we can have data to know whether a bus captain  
13 is speeding and if the information can be seen real-time  
14 and can be transmitted real-time and so we can identify  
15 the bus captains -- well, we will be able to take care  
16 of all the problems we thought we might have. So it  
17 depends on technological advance. We hope technology  
18 can help us. That is why now we have the 30-second  
19 interval. We hope it will be reduced to 10 seconds and  
20 maybe down to 2 seconds, 1 second. This is about  
21 technology. We wait for this to happen.

22 MR PETER DUNCAN: I don't think you have answered my  
23 question, but I conclude from that that you have done  
24 very little about what I had asked about, because you  
25 believe there are better ways of achieving it through  
26

1 different technology. Is that a fair summary of the  
2 situation?

3 MR LEUNG KIN WANG: (Via interpreter) What I mean is if  
4 technology will allow us to have real-time monitoring --  
5 you are talking about monitoring -- not real-time assist  
6 or real-time alert but real-time monitoring, that  
7 someone can be watching over the bus captains. Just now  
8 we talked about Western countries where a supervisor  
9 will be watching over a bus captain, for safety reasons,  
10 for commercial reasons. But talking about our buses, we  
11 have 4,000 of them. 90 per cent of the bus captains are  
12 competent and safe drivers. Do we have to have 3,999  
13 people watching over 4,000 drivers? That is a technical  
14 issue.

15 If technology can help us, say two persons can watch  
16 over 4,000 bus captains and if every bus captain drives  
17 well, then I will be embracing that system.

18 MR PETER DUNCAN: So because of those matters, the matter  
19 has not been explored; is that the situation? You have  
20 simply concluded it is not practical so it would be  
21 a waste of time exploring it?

22 MR LEUNG KIN WANG: (Via interpreter) We have an open mind.

23 MR PETER DUNCAN: I'm sorry but when you say you have  
24 an open mind, is it something that is on the table for  
25 your consideration, or have you concluded that it's just  
26

1 not practical?

2 MR LEUNG KIN WANG: (Via interpreter) At that time, the  
3 decision not to do it was based on the fact that it was  
4 not practicable, but later on, if there is a practicable  
5 real-time monitoring system, we will be very happy to  
6 adopt it.

7 MR PETER DUNCAN: But it is not something which the company  
8 is currently considering; is that correct?

9 MR LEUNG KIN WANG: (Via interpreter) For the time being, we  
10 cannot see a practicable solution. If there is one, we  
11 would be very happy to adopt it immediately.

12 MR PETER DUNCAN: Mr Lee, a few moments ago, mentioned the  
13 matter of passengers on the bus. I'm going to move to  
14 an aspect of passengers. That's the question of  
15 passenger behaviour on your buses.

16 I think you are aware that the committee has heard  
17 that it is a daily occurrence almost that your drivers  
18 will be subjected to verbal and sometimes even physical  
19 abuse. Is that a fair summary of the present  
20 unfortunate situation?

21 MR ROGER LEE: Yes.

22 MR PATRICK PANG: (Via interpreter) Let me respond to this  
23 question. Yes, indeed it is.

24 MR PETER DUNCAN: I'm going to ask you, please, to turn to  
25 bundle KMB-1 at page 203.

26

1           At this page, we will see a letter from the  
2           committee to the company, dated 20 July this year. If  
3           I could remind you that the letter seeks further  
4           information with regard to physical assaults on bus  
5           captains. In paragraphs 2 to 4, which you will see on  
6           page 204, you are requested to supply details pertaining  
7           to five particular assault cases. Do you see those  
8           references?

9       MR PATRICK PANG: (Via interpreter) Yes, I can see them.

10      MR PETER DUNCAN: Thank you.

11           If you then turn to page 212 of the bundle, you will  
12           see the response from the company, and the number of  
13           statistics relating to assault cases which occurred  
14           between the period of January 2015 to 22 July 2018.

15           At page 218 -- I'm looking at the translation -- you  
16           will see particulars of the five cases to which the  
17           committee have referred in its letter. Those cases  
18           having existed -- the dates were all in the month of  
19           April of this year.

20           Are you at page 218?

21      MR PATRICK PANG: Yes.

22      MR PETER DUNCAN: Thank you. Of those five cases, if we  
23           look at the "Penalty/Imprisonment" column there, we see  
24           that the first two are classified as "Not pursued by  
25           police", and we see the last referred to as "Still under  
26

1 investigation".

2 MR PATRICK PANG: (Via interpreter) That's correct.

3 MR PETER DUNCAN: At items 3 and 4, we have the defendant  
4 having pleaded guilty in each case, and having been  
5 fined \$3,000 and \$1,000 respectively.

6 Are you aware that the maximum term of imprisonment,  
7 maximum term of sentence that a magistrate can award for  
8 a case of common assault is a fine of up to \$100,000 and  
9 imprisonment for six months? Are you aware of that?

10 MR PATRICK PANG: (Via interpreter) Yes.

11 MR PETER DUNCAN: It would be fair to say, would it not,  
12 that in the light of those maximum sentences, these  
13 particular sentences seem to be rather light; would you  
14 agree with that?

15 MR PATRICK PANG: (Via interpreter) I agree.

16 MR PETER DUNCAN: Is this something of a problem that -- is  
17 this seen by the company as something of a problem, the  
18 lightness of these sentences?

19 MR PATRICK PANG: (Via interpreter) This is, to us, one of  
20 the problems and one of our concerns.

21 MR PETER DUNCAN: I wonder, please, if you could look at  
22 page 293 of the same bundle. This is a translation of  
23 a document which you will see, I think, around about  
24 page 286.

25 MR PATRICK PANG: (Via interpreter) I can see that.

26

1 MR PETER DUNCAN: Reading from the translation at page 293,  
2 is this a letter which is dated -- you can see the date  
3 under the signature of the Kowloon Motor Bus legal  
4 department -- 8 March 2018, under the heading, "Multiple  
5 Cases of Assault on Bus Captains"?

6 MR PATRICK PANG: (Via interpreter) Correct.

7 MR PETER DUNCAN: Is it addressed to the police force and in  
8 particular to the Commissioner of Police?

9 MR PATRICK PANG: (Via interpreter) That's correct.

10 MR PETER DUNCAN: Does the second paragraph of the letter  
11 read this:

12 "In May last year, we wrote to the Police expressing  
13 that our bus captains had been assaulted one after  
14 another. Upon considering the relevant cases, we found  
15 that certain offenders not only committed the offence of  
16 common assault but were also likely to be in violation  
17 of section 13A(1)(c) of the Public Bus Services  
18 Regulations ... no passenger or intending passenger  
19 shall wilfully do or cause to be done with respect to  
20 any part of the bus or its equipment, anything which --  
21 (i) obstructs or interferes with the workings of the bus  
22 or cause damage: or (ii) causes injury, discomfort,  
23 annoyance or inconvenience to any other person.

24 As such, our company had specially sent our staff to  
25 the police station to provide evidence for the following  
26

1 cases, and requested that the Hong Kong Police may  
2 prosecute the suspects in accordance with section 13A of  
3 the Regulations (the relevant statements are attached  
4 herewith for your reference) ..."

5 And the various cases are set out. I pick up the  
6 letter again on page 294:

7 "Subsequently, our company had written to the  
8 Hong Kong Police to enquire the developments of the  
9 above cases, but were told by the Hong Kong Police that  
10 the offenders involved in the cases were only prosecuted  
11 for common assault (the relevant letters exchanged with  
12 the Hong Kong Police in respect of the cases ... are  
13 attached herewith).

14 Recently, when our company met with the frontline  
15 bus captains, the captains have repeatedly indicated  
16 their wishes that the Hong Kong Police would strictly  
17 enforce section 13A of the Regulations to warn people  
18 who affect bus service operations, or even the offenders  
19 who attack our staff.

20 In this regard, we now earnestly request that the  
21 Hong Kong Police do, in future cases of assaults on bus  
22 captains, seriously consider charging the offenders  
23 under section 13A of the Regulation, in addition to the  
24 charge of common assault. Our company will definitely  
25 cooperate with the Hong Kong Police to offer our  
26

1 assistance. If you have any enquiries concerning the  
2 above matters, please feel free to contact our  
3 Counsel ..."

4 Then at page 296 do we see the response from the  
5 police dated 17 May:

6 "I acknowledge receipt ...", the first paragraph,  
7 then the second paragraph:

8 "Regarding the follow-up action of the meeting with  
9 your company on 28 March, you are hereby notified that  
10 the division has notified the regions in writing to  
11 remind the frontline staff to be fair and professional  
12 when handling the cases of assault or harassment of bus  
13 captains, and shall understand the nature of the case  
14 and the injury of the injured to properly categorise the  
15 case and seriously consider whether Public Bus Services  
16 Regulations ... of the Laws of Hong Kong should apply."

17 A few questions arising from that correspondence, if  
18 I may. First of all, with regard to assaults on your  
19 drivers, have the police instituted any prosecutions  
20 since 17 May this year?

21 MR PATRICK PANG: (Via interpreter) Not that I'm aware of.

22 MR PETER DUNCAN: So we don't know as yet whether the police  
23 have heeded the request to charge under the regulations;  
24 we have yet to find that out?

25 MR PATRICK PANG: No.

26

1 MR PETER DUNCAN: But do I understand that to date that has  
2 not been the practice at all?

3 MR PATRICK PANG: Sorry, you mean prosecution under 230A?

4 MR PETER DUNCAN: Yes.

5 MR PATRICK PANG: (Via interpreter) From the records of the  
6 company, I would say there has never been a case  
7 invoking Cap 230A for a prosecution.

8 MR PETER DUNCAN: Are you aware that the maximum penalty  
9 provided for by the regulations is a fine of \$3,000 and  
10 six months' imprisonment?

11 MR PATRICK PANG: (Via interpreter) I know that.

12 MR PETER DUNCAN: So what is the point of asking the police  
13 to prosecute under a section which carries a maximum  
14 penalty less than that for common assault?

15 MR PATRICK PANG: (Via interpreter) The company is of the  
16 view that in respect of cases like common assault, the  
17 investigation by the police is a difficult process. If  
18 Cap 230A is invoked in the investigation or in the  
19 prosecution, it would be relatively easier to prove the  
20 offence or the offending act.

21 We also hope that those who abuse or attack our bus  
22 captains, those passengers would be made known that  
23 there is this regulation, Cap 230A, in regard to  
24 passengers' behaviour, and it doesn't take physical  
25 abuse or physical contact to constitute a breach, and  
26

1 the spirit behind Cap 230A is that the behaviour of  
2 passengers can sometimes go against the law.

3 MR PETER DUNCAN: So are you of the view that it would be  
4 easier to establish an offence under the regulations  
5 than it would to prove common assault?

6 MR PATRICK PANG: (Via interpreter) I think we have to leave  
7 this question to the police, but as a public bus service  
8 provider, since we have a piece of legislation which is  
9 there to protect the bus company and our frontline  
10 colleagues, then why don't we try to use this regulation  
11 to institute prosecutions?

12 MR PETER DUNCAN: I'm going to ask for that regulation to be  
13 pulled up, just so that we understand exactly what it  
14 contains. The regulations are in the bundles.

15 CHAIRMAN: Whilst that's being done, Mr Pang, the offence is  
16 wider, is it not, under the regulation? The conduct  
17 that it catches is wider?

18 MR PATRICK PANG: Yes, Mr Chairman.

19 MR PETER DUNCAN: I think we've found them, Mr Chairman, at  
20 THB-2, page 132.

21 CHAIRMAN: Thank you.

22 MR PETER DUNCAN: So 13A(1)(c), which is the regulation you  
23 have in mind, reads:

24 "No passenger or intending passenger shall --

25 ...

1 (c) willfully do or cause to be done with respect to  
2 any part of the bus or its equipment anything which:

3 (i) obstructs or interferes with the workings of the  
4 bus or causes damage; or

5 (ii) causes injury, discomfort, annoyance or  
6 inconvenience to any other person."

7 Is that the regulation you have in mind?

8 MR PATRICK PANG: (Via interpreter) Yes, Mr Duncan.

9 MR PETER DUNCAN: Just going back to the question of  
10 assaults, have you at any stage asked the police to  
11 bring to the attention of the magistrates the prevalence  
12 of this behaviour of passengers?

13 MR PATRICK PANG: (Via interpreter) Yes, we did, Mr Duncan.

14 That is why, on 28 March, Mr Leung, our head of the  
15 legal department, myself and another colleague  
16 responsible, another manager, responsible for traffic  
17 accident and investigation, we initiated to go to the  
18 police headquarters to meet with a chief superintendent  
19 and his superintendent. We discussed for an entire  
20 morning, to express what our company and other public  
21 bus operators are concerned about.

22 At that meeting, we gave a lot of figures to the  
23 police, because we felt that if you just looked at the  
24 figures, we would be concerned.

25 Allow me to use a little time. With regard to  
26

1 assault on bus captains, in 2017 there were 35 cases  
2 only, but in 2018, up till 27 July, there were 41 cases  
3 already. We could see that the situation is  
4 deteriorating. That is why we hope the police could  
5 seriously conduct in-depth investigations into such  
6 cases, so as to allow our bus captains to drive in  
7 a safe environment.

8 CHAIRMAN: Are the figures that you gave the chief  
9 superintendent at this meeting the same figures that  
10 you've given us for those periods, 2017, 2018?

11 MR PATRICK PANG: (Via interpreter) Mr Chairman, on  
12 28 March, our figures were only up to the month of March  
13 but --

14 CHAIRMAN: We are aware of that. But in other respects,  
15 were they the then current figures that we've got?

16 MR PATRICK PANG: (Via interpreter) That is correct,  
17 Chairman.

18 CHAIRMAN: Did you give them the same data, in the same  
19 format, that we've got?

20 MR PATRICK PANG: (Via interpreter) I should have done so.

21 CHAIRMAN: And did you go back -- because we asked you to  
22 provide these figures -- as far as 2015, in the figures  
23 you gave the police?

24 MR PATRICK PANG: (Via interpreter) Yes, we did.

25 CHAIRMAN: One looks at those figures. No one has been  
26

1           imprisoned in all that time, have they?

2           MR PATRICK PANG: (Via interpreter) That is correct,  
3           according to our records.

4           CHAIRMAN: Yes, Mr Duncan.

5           MR PETER DUNCAN: What sort of response did you receive from  
6           the police?

7           MR PATRICK PANG: (Via interpreter) At that meeting, on  
8           28 March, I could see that the police were also  
9           concerned. The chief superintendent promised at the  
10          meeting that he would issue guidelines to the frontline  
11          policemen to first allow them to seriously investigate  
12          into all alleged assaults, and he would remind his  
13          frontline staff to see whether there would be cases  
14          where Cap 230A could be applied for investigation and  
15          prosecution.

16          MR PETER DUNCAN: By bringing these matters to the attention  
17          of the police, what were you trying to achieve?

18          MR PATRICK PANG: (Via interpreter) Our objectives are  
19          simple. We don't want our frontline bus captains to  
20          continue to be subject to excessive abuse. This is our  
21          objective.

22                 Or, Mr Duncan, if you would allow me, Mr Chairman,  
23          to respond to your question: actually, common assault  
24          and Cap 230A -- now, why do we also want to bring in Cap  
25          230A? Please allow me to cite an example.

26

1 CHAIRMAN: It's obvious, looking at it. It's very wide, is  
2 it not?

3 MR PATRICK PANG: (Via interpreter) Chairman, can you please  
4 allow me to mention a case which is very recent? If Cap  
5 230A was applied, our bus captains' work would be made  
6 more safe and more efficient.

7 CHAIRMAN: Certainly. Please do so.

8 MR PATRICK PANG: (Via interpreter) The case happened on  
9 29 July. I can tell you the gist of what happened. It  
10 was around 11 pm. Four male passengers who were in  
11 their 20s boarded a bus. They did not pay the full  
12 fare. At that time, the bus captain asked them to pay  
13 up the full fare, but the four men did not pay any  
14 regard to the bus captain. The bus captain continued  
15 with his driving because there were other passengers.  
16 When he was at Festival Walk and Yau Yat Chuen, where  
17 passengers disembarked, these four men also wanted to  
18 disembark, and then the bus captain asked them to pay  
19 again.

20 The four men paid no regard to the bus captain and  
21 they disembarked from the bus. Then the bus captain --  
22 at that time, the engine was running but the bus captain  
23 suddenly found that the bus broke down; the engine was  
24 in an off position. The bus captain immediately  
25 alighted from the bus and he saw the four men running  
26

1 away. The bus captain suspected and in fact he heard  
2 some kicks against the bus body, and the bus captain  
3 suspected that, one, the men switched off the "off  
4 engine" button near the end of the bus body, but the  
5 four men ran away, and since there were passengers on  
6 the bus, the bus captain boarded the bus again and  
7 re-started the engine and then he continued with the  
8 journey.

9 Then, about 15/20 minutes later, after he went to  
10 the terminus and then he went back to the traffic light  
11 at Tat Chee Avenue in Yau Yat Chuen, the bus driver  
12 stopped because of the traffic lights, and then suddenly  
13 the bus company discovered that the engine was switched  
14 off. Then, from his rear view mirror, he saw those four  
15 men again. The bus captain alighted from the bus again,  
16 and again he found that the engine button was pushed so  
17 it was switched off, and then the four men ran away; he  
18 could not apprehend them. The bus captain immediately  
19 informed our inspector on duty and reported to the  
20 police.

21 After the police came on the scene to understand the  
22 incident, that policeman classified the case as  
23 "dispute". The bus went back to the depot and that was  
24 it for the day.

25 I would like to point out that cases like this one  
26

1           showed clearly, very clearly, that Cap 230A could have  
2           been contravened, but in the end, the case was just  
3           classified as "dispute".

4           I therefore very much hope that in protecting the  
5           personal safety of bus captains and in ensuring the  
6           provision of efficient service to the public, I really  
7           hope and I do earnestly hope that the relevant  
8           authorities can seriously consider applying Cap 230A.

9           Thank you, Mr Duncan.

10          MR PETER DUNCAN: Have you asked the police to bring to the  
11          attention of the Magistrates' Courts the prevalence of  
12          the behaviour to which your drivers seem to be  
13          subjected? Have you asked them that?

14          MR PATRICK PANG: (Via interpreter) Absolutely, yes.

15          MR PETER DUNCAN: Have they done that? Have they stood up  
16          in court and said to the magistrate, "This is a very  
17          prevalent offence which we think requires a deterrent  
18          sentence"? Has that step been taken?

19          MR PATRICK PANG: (Via interpreter) We did say this to the  
20          police, but, Mr Duncan, I hope you understand, with  
21          regard to 2017 and up to 22 July 2018, there are  
22          altogether 76 common assault cases against bus captains,  
23          but only ten of those were convicted. Six were resolved  
24          and seven were not pursued by the police. Another one,  
25          the police said they issued a verbal warning. So there  
26

1           were ten convictions.

2           Whether the case officer of the police told the  
3           court about the seriousness of the offence or whether  
4           the magistrate meted our sentences according to the  
5           mention of seriousness of the case, I don't think I can  
6           answer that here. Perhaps you can ask the police  
7           whether they did it.

8   MR PETER DUNCAN: Have you considered taking this issue up  
9           with the Secretary for Justice?

10   MR PATRICK PANG: (Via interpreter) Whatever we can do to  
11           protect our bus captains, we will do. We have even  
12           considered if we can bring follow-up civil claims in  
13           these cases, and also to inform the public that such  
14           cases seriously affect bus operations and safety.

15   CHAIRMAN: Could you answer the question?

16   MR PATRICK PANG: (Via interpreter) We haven't thought about  
17           talking to the Secretary for Justice, at this time.

18   CHAIRMAN: What about the Director of Public Prosecutions?

19   MR PATRICK PANG: (Via interpreter) No, not at this moment.  
20           We don't intend to do this now. We hope by talking to  
21           the police we can achieve what we want.

22   CHAIRMAN: In view of the time, if that's convenient,

23           Mr Duncan --

24   MR PETER DUNCAN: Certainly, Mr Chairman.

25   CHAIRMAN: -- we will take the lunch adjournment and we will  
26

1 resume at 2.30 this afternoon. Thank you.

2 (1.01 pm)

3 (The luncheon adjournment)

4 (2.30 pm)

5 CHAIRMAN: Good afternoon, gentlemen.

6 Mr Duncan.

7 MR PETER DUNCAN: Good afternoon, Chairman.

8 Gentlemen, I wonder if you could have in front of  
9 you, please, bundle TD-2, at page 1.

10 Here we have a copy of the Public Bus Services  
11 Ordinance. If you could go through, please, to page 58  
12 of the bundle, you will see there section 36, which is  
13 concerned with the question of by-laws. Subsection (1)  
14 of section 36 states:

15 "Subject to this ordinance and its franchise,  
16 a grantee may make by-laws for all or any of the  
17 following matters ..."

18 And we see them set out -- (a), (b), (c), (d) -- and  
19 (e) has a number of subparagraphs; and there are also  
20 subsections (2), (3) and (4) on the following page.

21 Of particular relevance with regard to the  
22 discussion we were having before lunch is perhaps  
23 (1)(e), in that a grantee has the power to make by-laws  
24 for the purpose "generally as to the conduct of  
25 passengers while using grantee's buses".  
26

1 The question is: has KMB passed any by-laws?

2 MR GODWIN SO: (Via interpreter) No.

3 MR PETER DUNCAN: Has it ever considered passing by-laws?

4 MR GODWIN SO: No.

5 MR PETER DUNCAN: Has the company given any consideration to  
6 whether the passing of a by-law may offer some  
7 assistance with regard to the current situation that its  
8 drivers face with regard to passenger behaviour?

9 MR GODWIN SO: (Via interpreter) My understanding is that if  
10 we are to pass by-laws, then the company will have the  
11 responsibility to enforce the by-law. We need to  
12 consider whether the company has got the resources, the  
13 capability, to do so.

14 Moreover, in the case of contravention of the  
15 by-laws, when it does take place, do we have staff  
16 on site to deal with it immediately? That's our  
17 consideration.

18 Currently, what happens is that Cap 230A is being  
19 enforced by the police, they have the resources, they  
20 are professional and that's much better than the case of  
21 a franchised bus company.

22 MR PETER DUNCAN: So does the company have any intention to  
23 consider this aspect?

24 MR GODWIN SO: (Via interpreter) Not for the time being.

25 MR PETER DUNCAN: We have received evidence from the company  
26

1           that in some buses, cameras have been installed to  
2           assist the detection and hopefully the prosecution of  
3           offenders.

4           Could I take you, in that context, to KMB-1 at  
5           page 82. We can see the question that was posed by the  
6           committee, as follows:

7           "Is there any customer services training provided to  
8           bus captains to equip them with the relevant skills to  
9           handle difficult passengers?"

10          The company's answer, which was contained in the  
11          first of the submissions, included the following, and  
12          I'm referring to the third bullet on that page:

13          "Apart from training, we have taken the following  
14          measures to assist [bus captains] in handling difficult  
15          passengers:

16                 ...

17          -- Surveillance cameras, including forward-looking  
18          cameras and a camera covering the driver seat, have  
19          become standard features on all new buses since 2015.  
20          Up to February 2018, surveillance cameras were installed  
21          in 2,319 KMB buses and 146 [Long Win] buses. The  
22          remaining buses will be equipped with surveillance  
23          cameras phase by phase. Surveillance cameras capture  
24          the behaviour (with audio recording) of difficult  
25          passengers. It will protect the interest of [bus  
26

1           captains] in subsequent investigation by the police or  
2           legal proceedings."

3           So my first question is: have these cameras resulted  
4           in evidence which has yielded successful prosecutions  
5           against offenders?

6   MR GODWIN SO:   Yes.

7   MR PETER DUNCAN:  According to what I have just read out,  
8           2,319 KMB buses have had the cameras installed.  That  
9           leaves how many at the moment without cameras?

10  MR LEUNG KIN WANG:  (Via interpreter) As of now, almost  
11           2,800 buses are equipped with the cameras.  The entire  
12           fleet is 4,300.

13  MR GODWIN SO:  (Via interpreter) Among the KMB buses, about  
14           1,800 are not yet equipped, and then for Long Win, 70 to  
15           80 buses haven't got the CCTV cameras.

16  MR PETER DUNCAN:  Have there been occasions when the drivers  
17           themselves have endeavoured to capture these unruly  
18           passengers by use of their mobile phones?

19  MR GODWIN SO:  (Via interpreter) Bus captains are not  
20           allowed to use their own mobile phones while they are  
21           driving.

22  MR PETER DUNCAN:  I suppose while they are driving it is  
23           pretty obvious why that would be, because of the effect  
24           on their safety.  What about when the bus is stationary,  
25           are they permitted to use their phones in those  
26

1           circumstances?

2       MR LEUNG KIN WANG:   (Via interpreter) We do not allow bus  
3           captains to use their own recording devices to carry out  
4           the recording.

5       MR PETER DUNCAN:   One of the witnesses who gave evidence  
6           from the unions to the committee -- I will simply give  
7           everyone the reference; I won't go to his evidence, but  
8           it's at Day 10, pages 128 to 130 -- was effectively  
9           complaining to the committee that bus drivers were not  
10          allowed to use their phones.

11       CHAIRMAN:   Did he say phones or cameras?

12       MR PETER DUNCAN:   I think he mentioned cameras.

13       CHAIRMAN:   Yes, because there's a distinction, is there not,  
14           between the kind of camera that one often sees in taxis  
15           and a camera on a telephone?

16       MR PETER DUNCAN:   Yes.   I will rephrase that.

17               One of the union representatives, I think it was  
18           from the Monthly-rated Drivers Union, stated that some  
19           of the drivers wanted to use a camera, but there was  
20           a circular which had been issued prohibiting such use.  
21           Are you aware, first of all, of that evidence?

22       MR GODWIN SO:   (Via interpreter) Yes, correct.

23       MR PETER DUNCAN:   Is there a circular?

24       MR GODWIN SO:   (Via interpreter) We do have it.

25       MR PETER DUNCAN:   I wonder if that can be provided to the  
26

1 committee, please.

2 MR GODWIN SO: (Via interpreter) Yes. May I explain the  
3 reason?

4 MR PETER DUNCAN: Certainly.

5 MR GODWIN SO: (Via interpreter) My understanding is that as  
6 far as the Commissioner of Personal Data is concerned,  
7 he has got guidelines concerning the use of cameras to  
8 collect personal data, including images. First of all,  
9 there must be a notice to tell others that they are  
10 being captured on camera. There must be an intention  
11 policy.

12 Moreover, if someone would like to get the  
13 information, there should be guidelines as to how to  
14 deal with that, and if it is no longer of use it has to  
15 be destroyed.

16 For individual bus captains, if they are to set up  
17 their own CCTV on board, I don't think they have ways to  
18 ensure that they can meet the three guidelines that  
19 I have just referred to.

20 As far as the company is concerned, the company can  
21 do so. Clearly, there is a notice to say that there is  
22 a CCTV on board and the bus company has the policy to  
23 retain or retrieve the images already captured.

24 So we won't stop at 2,400 buses as I referred to.  
25 Before the end of the year, 90 per cent of the buses

26

1 will be equipped with the CCTV facility. For the  
2 remaining 10 per cent, they are not getting it for the  
3 moment, and but then they will be retired from the fleet  
4 in the coming year, 16 to 18 years old, they will be  
5 replaced by new buses.

6 In other words, within the year, all the buses will  
7 be equipped with the CCTV facility.

8 CHAIRMAN: So the rights of privacy transcend the rights of  
9 protecting your own safety; is that it?

10 MR GODWIN SO: (Via interpreter) We have to strike  
11 a balance.

12 CHAIRMAN: It's not your balance; it's a legislative  
13 balance, isn't it?

14 MR PETER DUNCAN: Is this something on which you have taken  
15 legal advice?

16 MR GODWIN SO: (Via interpreter) I think the guidelines are  
17 clear and comprehensible. For this circular, by this  
18 circular, we do not allow the bus captains to have  
19 install their own devices, but I can't answer this  
20 question because I hadn't joined the company at that  
21 time. But surely I can ask for advice again, because  
22 there is still time before the end of the year.

23 MR PETER DUNCAN: Has it been a matter which the company has  
24 raised with the privacy commissioner?

25 MR GODWIN SO: Yes.  
26

1 MR PETER DUNCAN: You had discussions with the privacy  
2 commissioner?

3 MR GODWIN SO: (Via interpreter) No, I mean I have read the  
4 guidelines and the guidelines have already set out those  
5 points.

6 CHAIRMAN: Have you raised with the privacy commissioner  
7 whether or not the use of cameras by bus captains, who  
8 intend to record people abusing them or physically  
9 assaulting them, would contravene the legislation.

10 MR GODWIN SO: (Via interpreter) No, I didn't.

11 MR PETER DUNCAN: I'm going to move to the matter now of  
12 protective shields for the drivers. In this respect,  
13 could I ask you to turn, please, to page 62 of KMB-1.

14 In one of its answers in its initial submission, the  
15 company said the following:

16 "In response to increasing number of assaults  
17 against [bus captains], we have taken the following  
18 measures ..."

19 And the third-to-last paragraph:

20 "We will install a protective shield near the  
21 driver's seat starting from June 2018."

22 Has that process started?

23 MR LEUNG KIN WANG: Yes.

24 MR PETER DUNCAN: And what sort of numbers now of buses have  
25 installed the protective shield?

26

1 MR LEUNG KIN WANG: (Via interpreter) 1,500.

2 MR PETER DUNCAN: What is the intention with regard to the  
3 remainder of the fleet?

4 MR LEUNG KIN WANG: (Via interpreter) We will complete the  
5 installation by the end of the year.

6 MR PETER DUNCAN: I want to take you to another bundle,  
7 miscellaneous number 2, at page 913.

8 At the right-hand-bottom corner, do we see one of  
9 the installed protective shields?

10 MR LEUNG KIN WANG: Yes.

11 MR PETER DUNCAN: Who was responsible for designing the  
12 shield?

13 MR LEUNG KIN WANG: (Via interpreter) Our engineering  
14 section.

15 MR PETER DUNCAN: Who was responsible for manufacturing the  
16 shield?

17 MR LEUNG KIN WANG: (Via interpreter) It was designed by KMB  
18 itself. It is procured by KMB. We carried out the  
19 installation and we submitted it to the TD for approval,  
20 and upon their agreement they were installed in June.

21 MR PETER DUNCAN: When you say you procured these, you  
22 procured them from whom?

23 MR LEUNG KIN WANG: (Via interpreter) From an overseas  
24 supplier.

25 MR PETER DUNCAN: From which country?

26

1 MR LEUNG KIN WANG: (Via interpreter) I don't have the  
2 information on hand.

3 MR PETER DUNCAN: Would you be able to obtain that  
4 information?

5 MR LEUNG KIN WANG: Yes.

6 CHAIRMAN: Please provide that.

7 Was this design based on protective shields that one  
8 finds elsewhere in the world in buses or not?

9 MR LEUNG KIN WANG: (Via interpreter) For other countries,  
10 especially those in UK, might not be suitable for us.  
11 First of all, our buses are air-conditioned, so the  
12 design cannot be a full enclosure. For our bus  
13 captains, they are not covered to their left. So the  
14 design offers protection to the bus captains on their  
15 left. You might see that there is an opening which  
16 could be -- allows the shield to be opened. That's why  
17 we designed our own shield, to offer protection to our  
18 bus captains, and hopefully they are happy with the  
19 design.

20 When we carried out the design, there were some  
21 teething problems during installation and we are dealing  
22 with these. In some cases, the magnets were loose, and  
23 we found out a way to carry out the installation  
24 properly. There were views that there is light  
25 reflection and we served to solve that as well.

26

1 MR PETER DUNCAN: Are you aware that representatives from  
2 two of the unions have indicated to the committee that  
3 they are not entirely happy with the design?

4 MR LEUNG KIN WANG: (Via interpreter) I received comments  
5 from some unions on this issue. There was  
6 dissatisfaction. I also received some views from unions  
7 that we should speed up the installation.

8 MR PETER DUNCAN: I will simply give you the references and  
9 then I will take you through the issues which seem to  
10 have arisen. There was a representative from the Motor  
11 Transport Workers General Union who gave evidence on  
12 Day 9. If you want to see his evidence, you will find  
13 it at pages 33 to 36. Then on Day 11, there was  
14 a representative from the Federation of Bus Industry  
15 Trade Unions who gave evidence, and that can be found at  
16 pages 150 to 151.

17 CHAIRMAN: Also of Day 9?

18 MR PETER DUNCAN: Sorry, that's Day 11.

19 CHAIRMAN: Thank you.

20 MR PETER DUNCAN: Have you read that evidence, Mr Leung?

21 MR LEUNG KIN WANG: I should have.

22 MR PETER DUNCAN: I am not asking if you should have, if you  
23 have.

24 I will just take you to it quickly. First of all,  
25 Day 9, bundle 4, page 33.

26

1           If you commence to read to yourself from line 18 on  
2           page 33, you will see reference to the installation of  
3           a protective shield. Then, at the top of page 34,  
4           I bring your attention to this:

5           "It may look to be some protection, but the opening  
6           of the shield is very big, it is not easy for you to  
7           switch it on and off, and it is very reflective and then  
8           there is a magnet at the very tip, and while the bus is  
9           moving there may be noise."

10          There seems to be three complaints in that sentence:  
11          reflection, the magnet, and noise. Have those  
12          complaints been communicated to the company?

13   MR LEUNG KIN WANG: (Via interpreter) Yes.

14   MR PETER DUNCAN: Is anything being done about that?

15   MR LEUNG KIN WANG: (Via interpreter) We dealt with most  
16          issues and we are dealing with the problem of  
17          reflection.

18   MR PETER DUNCAN: So reflection remains an outstanding  
19          issue; correct?

20   MR LEUNG KIN WANG: (Via interpreter) Correct, but our  
21          intention is to protect the bus captains. As for the  
22          reflections, the shield is located on the bus captain's  
23          left, and normally we feel that this would not affect  
24          the bus captains in their driving, but we are still  
25          looking to get around the issue and hopefully we can  
26

1 improve upon that.

2 MR PATRICK PANG: (Via interpreter) Mr Duncan, I would like  
3 to add something. The reason for installing these  
4 protective devices in June was that, as I said before  
5 the lunch break today, in the year 2018, the number of  
6 assaults on our bus captains rose sharply, which was why  
7 our management felt that this issue should be dealt with  
8 immediately. Therefore, in terms of design, procurement  
9 and installation of the device, we made a decision  
10 within a very short period of time.

11 After installation, we realised there were some  
12 teething problems. For example, the magnets might be  
13 too tightly attached. And when bus captains get on or  
14 off, in an environment with a high light contrast, there  
15 might be reflections. However, some bus captains  
16 strongly welcomed our decision.

17 As I said, our bus captains were victims of assaults  
18 and we felt we had to address the sentiments of our bus  
19 captains. We hoped the police would make more  
20 prosecutions and we would speed up the installation of  
21 CCTVs. Apart from installing the protective shield in  
22 April, next to the driver's cabin we also put up  
23 a warning message, saying that disturbing the bus  
24 captain is a criminal matter or a criminal offence. We  
25 try to offer a safe driving environment for our bus  
26

1           captains.

2           That said, we are still rectifying the protective  
3           shield in order to do even better. For example, for  
4           reflections, is there something we can do? On each bus,  
5           we have an arrival reminding device, and on that device  
6           we added a message that if our bus captains are  
7           disturbed, we might stop the vehicles. And with our bus  
8           captains being disturbed or possibly being disturbed, we  
9           hope to do something for our bus captains, in order to  
10          help them.

11          Apart from these protective devices, the arrival  
12          reminding device and the slogans, our legal department  
13          has also been very down-to-earth in offering help to  
14          assaulted bus captains. For our frontline inspectors  
15          and terminus supervisor, they are offering plenty of  
16          support to our captains. If a captain is assaulted, our  
17          inspectors would arrive on site immediately and they  
18          would accompany our bus captains to a doctor, and our  
19          legal department colleagues might take statements from  
20          our captains if necessary. So these are things we are  
21          doing.

22          So in terms of protecting our bus captains, I feel  
23          that our company has a responsibility, and I hope that  
24          the police would offer as much support as possible. We  
25          have a string of measures in place.

1 CHAIRMAN: Mr Pang, could you provide the committee with  
2 a photograph of the warning that you say is being  
3 displayed on buses, and also the warning, if it's in  
4 visual form, about the bus captain stopping the bus if  
5 there is a disturbance?

6 MR PATRICK PANG: (Via interpreter) Yes, it is certainly  
7 possible. For the reminding device, the bus captain  
8 would have a button to press. So let's say if the next  
9 stop is on Nathan Road or a certain building or park,  
10 when the captain presses the button, it would show that  
11 the bus captain is being disturbed. I would offer that  
12 photograph.

13 Thank you, Mr Chairman.

14 MR PETER DUNCAN: The arrival reminding device, is that  
15 something in writing or is that audio?

16 UNIDENTIFIED SPEAKER: Both.

17 MR PETER DUNCAN: If you turn up, please, miscellaneous  
18 file 2, page 913, the photograph we had open before.

19 Are you able to see the warning device in that  
20 photograph, the warning sign?

21 MR PATRICK PANG: (Via interpreter) Mr Duncan, yes, indeed,  
22 there's the sticker we have put up: it is a criminal  
23 offence to cause nuisance to bus captains.

24 MR PETER DUNCAN: Thank you.

25 With regard to these issues that the representatives  
26

1 from the union raised, what is the current situation  
2 between the company and the unions? Are the unions  
3 supportive of what you are doing? Are they objecting to  
4 what you are doing?

5 MR PATRICK PANG: (Via interpreter) Mr Duncan, are you  
6 saying that whether they are in support of the  
7 installation of the protective shield, or are you  
8 referring to something else?

9 MR PETER DUNCAN: I'm referring in particular to the  
10 problems which they identified: the magnets, the  
11 reflection, the noise, and so forth, which you say are  
12 being addressed. What's the status of the communication  
13 between you and the unions on these matters?

14 MR PATRICK PANG: (Via interpreter) They are aware of the  
15 fact that the company is in the process of dealing with  
16 the problems. They are satisfied. But of course, in  
17 future, as to what the end product will be like, we will  
18 not just talk to the trade unions. We will also listen  
19 to the views of all the bus captains.

20 MR PETER DUNCAN: Can I bring your attention, please, to  
21 page 35 of the transcript that you have in front of you.  
22 That's Day 9. There's another issue which one of the  
23 representatives raised at line 7. There was concern  
24 that the protective shield might affect the sight line  
25 of the bus captains, and that they cannot see clearly  
26

1 the getting on and getting off of the passengers. Is  
2 that something which has been communicated to the  
3 company?

4 MR PATRICK PANG: (Via interpreter) Mr Duncan, let me answer  
5 your question like this. I also have a driving licence  
6 for buses. I had experience of getting on board a bus  
7 with the protective shield. For the driver's cabin, to  
8 the left-hand side we have the protective shield. For  
9 this protective shield, it is transparent. Unless we  
10 have a major contrast in terms of the lighting, the  
11 sight line would not have been affected substantially.

12 But of course we do appreciate individual bus  
13 captains may have concerns and therefore, in the course  
14 of it, we tried to modify the protective shield. We are  
15 working on it.

16 MR PETER DUNCAN: Are you satisfied yet that the protective  
17 shield will not materially affect the sight line?

18 MR PATRICK PANG: (Via interpreter) Well, I won't say it  
19 would affect substantially, but of course, in the past,  
20 there was nothing at all. Now you have got  
21 a transparent plastic panel to your left-hand side. As  
22 far as habits are concerned, maybe bus captains may find  
23 they are not yet used to it.

24 MR PETER DUNCAN: I wonder if you can pick up now, please,  
25 file KMB-1 again, at page 83.

26

1           Perhaps just before I leave that subject of the  
2           plastic protection shields, when was consideration first  
3           given to the installation of the shields?

4       MR LEUNG KIN WANG: (Via interpreter) It was July last year,  
5           2017. There was an increasing number of bus captains  
6           being assaulted. So we decided that we had to act on  
7           it, to help the bus captains, and in fact some bus  
8           captains did make such a suggestion. So it was last  
9           year that we started to think about it and we started to  
10          have our own designs.

11       MR PATRICK PANG: (Via interpreter) Mr Duncan, let me give  
12          you a response. From my contacts with the bus captains,  
13          I think the majority of them are happy to see that the  
14          bus company has taken a step forward. But of course, as  
15          to whether we can fine-tune the details, and with  
16          hindsight, if you put this question to me, of course we  
17          could have done better. However, at least we have taken  
18          the first step. When we have taken the first step,  
19          there will be a second step. By the second step, we are  
20          here sourcing some materials which can avoid the problem  
21          of reflection, and we will try to see if we can source  
22          another magnet.

23          What I want to say is that, after all, we need to  
24          make the first step forward and for the bus captains at  
25          the front line, they are aware that the company has  
26

1 taken the first step.

2 Thank you, Mr Duncan.

3 MR PETER DUNCAN: I understand that the company, in the  
4 context of bus drivers, has to deal with something like  
5 seven different unions; is that correct?

6 MR ROGER LEE: (Via interpreter) For the time being, we  
7 mainly communicate with two trade unions, but in fact we  
8 do communicate with every colleague via different  
9 channels.

10 CHAIRMAN: In the capacity of trade unions, two unions who  
11 constitute 90 per cent of your bus captains; is that  
12 right?

13 MR GODWIN SO: Yes.

14 CHAIRMAN: And when you communicate with the others, it's  
15 not in any capacity as a trade unionist; it's as  
16 an employee?

17 MR GODWIN SO: (Via interpreter) Well, we don't count the  
18 capacity. Other than the two unions I have referred to,  
19 for each bus captain, we do have a channel for them to  
20 speak up, and we will also take the initiative to listen  
21 to them. Say, for example, as Mr Pang has said, our  
22 depot officers, inspectors at the front line, and even  
23 Mr Pang himself, are regularly at the depots and at the  
24 terminus during the course of duty, and after they have  
25 knocked off will listen to them.

26

1           We have got a JCC, joint consultation committee. It  
2           holds meetings on a monthly basis. We listen to the  
3           suggestions of the bus captains as far as work is  
4           related, and if the suggestions are relevant and  
5           appropriate, they will be taken on board. This is  
6           a regular arrangement.

7   CHAIRMAN: The question was simply this. I'm sure you  
8           understand the question. Do you deal other than with  
9           the two main unions you have described as unions, not as  
10          bus captains but as unions?

11   MR GODWIN SO: Yes.

12   CHAIRMAN: And which unions do you deal with then, other  
13          than the two main ones?

14   MR PATRICK PANG: (Via interpreter) Mr Chairman, in our  
15          company, we have two so-called major unions. In  
16          addition, we have also liaised with the other so-called  
17          unions. Say, for example, in this hall, we have got  
18          Mr Kwok Chi Shing, a retired bus captain. He is sitting  
19          right here in the audience. I have personally talked to  
20          Mr Kwok for more than two hours.

21   CHAIRMAN: If my memory is correct, you told him that you'd  
22          deal with him as a bus captain but not as an unionist.  
23          That's why I am raising the question, not you  
24          personally, the company.

25   MR PATRICK PANG: (Via interpreter) In my context, whether  
26

1           somebody is a union member, that's not the main reason.

2       CHAIRMAN:   Yes, Mr Duncan.

3       MR PETER DUNCAN:   Thanks, Chairman.

4           I think we actually have a list of the unions on  
5       a slide.   I wonder if that can be brought up, please,  
6       just while we are on this topic.

7           We see there the names, I believe, of seven unions  
8       whose representatives have given evidence to assist the  
9       committee.   Which are the two major unions?

10       CHAIRMAN:   By that you mean the two major unions that KMB  
11       deal with?

12       MR PETER DUNCAN:   Correct.

13       CHAIRMAN:   Yes.

14       MR GODWIN SO:   (Via interpreter) Well, you are showing the  
15       English name.   I think it should be the Motor Transport  
16       Workers General Union, the KMB branch.   Is it possible  
17       to show the Chinese names of the unions?

18       MR PETER DUNCAN:   Certainly.   We will arrange for that and  
19       bring it up later on.

20       CHAIRMAN:   Mr Duncan, perhaps Mr Chan could just deal with  
21       that orally.

22       MR DEREK CHAN:   The Motor Transport Workers General Union,  
23       the Chinese for that is "(Chinese spoken)".

24       MR GODWIN SO:   (Via interpreter) Yes, right, that's correct.  
25       That's one of the two.

26

1 CHAIRMAN: Thank you.

2 I think it is now being displayed in Chinese  
3 characters for you.

4 And the other one?

5 MR GODWIN SO: (Via interpreter) It so happens that I found  
6 the submission. KMB Workers General Union.

7 CHAIRMAN: What is the reference page number for the  
8 submission where this is dealt with?

9 MR GODWIN SO: TU-1(A), page 130 to 131, and their  
10 submission is 133.

11 CHAIRMAN: Thank you.

12 Could that page that Mr So has referred to be put up  
13 on the screen, please.

14 MR GODWIN SO: Yes.

15 CHAIRMAN: Thank you.

16 MR PETER DUNCAN: So did I understand you to say that  
17 90 per cent of the bus drivers belong to one of the  
18 unions?

19 CHAIRMAN: One of the two unions?

20 MR PETER DUNCAN: It could be one of the two unions or one  
21 of the seven unions.

22 CHAIRMAN: No. My memory -- it's either in a submission or  
23 in oral testimony -- is that it was identified that KMB  
24 dealt with two unions.

25 I see Dr Leung nodding. If someone can find me that  
26

1 reference, then we can put that up.

2 MR PETER DUNCAN: Thank you, Chairman. We will find that  
3 and come back.

4 Did I understand you to say correctly -- would it  
5 follow from what you have said that it is just about  
6 10 per cent of the drivers who do not belong to any  
7 union?

8 MR GODWIN SO: (Via interpreter) First of all, each captain  
9 can take part in more than one union, so the total might  
10 not equate to our total number of bus captains, at  
11 8,600.

12 As for the number of members cited by each union,  
13 the information is provided by the unions themselves,  
14 but we would judge whether or not the numbers cited are  
15 reasonable. According to the numbers reported by the  
16 two unions, they make up about 90 per cent of our total  
17 number of bus captains.

18 MR PETER DUNCAN: Do I understand correctly that those two  
19 unions that you've identified are the unions that you  
20 deal with most?

21 MR GODWIN SO: (Via interpreter) Correct, but may I add  
22 something?

23 MR PETER DUNCAN: Yes.

24 MR GODWIN SO: (Via interpreter) As I said, some bus captain  
25 do not belong to any union, so on the request of unions  
26

1 we would discuss some matters with them. But regardless  
2 of which unions they belong to, we would listen to our  
3 staff and we would consult them actively.

4 MR PETER DUNCAN: So, if I understand you correctly, what  
5 you are saying is that your contact with the bus drivers  
6 is sometimes directly and is sometimes through the  
7 unions?

8 MR GODWIN SO: Correct, but both simultaneously happen.

9 MR PETER DUNCAN: Thank you.

10 Now, I had directed you towards page 83 of KMB-1.

11 CHAIRMAN: Are we moving to another topic?

12 MR PETER DUNCAN: Yes, we are.

13 CHAIRMAN: Before we do that, can I ask that KMB-1,  
14 page 218-1, be put up on the screen.

15 You will see at paragraph 2 there was a request  
16 that -- in paragraph 3: Please provide a copy of what is  
17 called the "CCTV brief finding report".

18 That related to the document that is at page 218,  
19 two of the five cases in which KMB described what had  
20 happened, and it's cases 3 and 4 where there is  
21 reference to that phrase, "CCTV brief finding report".

22 Have you provided us with a copy of that?

23 Can you give me the reference?

24 MR GODWIN SO: Yes.

25 You may turn to page 300.

1 CHAIRMAN: Yes. Thank you.

2 The question I wanted to ask, arising out of this  
3 issue, is: in your experience, how good is the quality  
4 of the video and audio recordings when it comes to  
5 examining verbal or physical assaults on bus captains?

6 MR PATRICK PANG: (Via interpreter) Mr Chairman, I can say  
7 that the quality of the CCTV recordings are adequate to  
8 identify the persons involved. So the quality is  
9 acceptable. It can also help the police roughly  
10 identify the assailant.

11 CHAIRMAN: And what of the audio track in capturing, for  
12 example, the verbal abuse that might lead up to the  
13 physical assault?

14 MR PATRICK PANG: (Via interpreter) Mr Chairman, it depends  
15 on how far you are from the microphone. Usually, sound  
16 from the driver's cabin can be captured.

17 Chairman, I want to add that each bus is equipped  
18 with nine CCTV cameras. So the CCTVs do not just  
19 capture the driver's cabin. They can capture what  
20 happens elsewhere on the bus as well as what happens  
21 outside. We have a total of nine cameras.

22 CHAIRMAN: Are there occasions when you transcribe what is  
23 captured on the audio track so that you can present that  
24 to the police, or do you leave that to them to do?

25 MR PATRICK PANG: (Via interpreter) It's not just for  
26

1 assault cases. For traffic accidents, et cetera, we  
2 would submit CCTV footage to the police.

3 CHAIRMAN: I'm asking about the audio track. Do you ever  
4 transcribe that so that the nature of the abuse can be  
5 identified, or do you just hand it over to the police?

6 MR PATRICK PANG: (Via interpreter) Usually, we will send  
7 the whole set of information to the police.

8 CHAIRMAN: By that you mean the CCTV?

9 MR PATRICK PANG: (Via interpreter) Yes. We would submit  
10 both the video and audio recordings to the police.

11 CHAIRMAN: The second matter that is dealt with in that  
12 schedule of those five unfortunate cases on 4, 5 and  
13 6 April -- page 218 of KMB-1 -- the second issue is the  
14 provision of information coming from the Octopus card  
15 used by the passenger.

16 MR PATRICK PANG: (Via interpreter) Yes.

17 CHAIRMAN: That's case 1; do you see that?

18 Now, case 1 was marked as not being proceeded with,  
19 "No further action", despite the fact that KMB had  
20 already provided the police with Octopus card records of  
21 the assailant.

22 MR PATRICK PANG: (Via interpreter) Yes, Chairman.

23 CHAIRMAN: Had the Octopus card records been provided to the  
24 police?

25 MR PATRICK PANG: (Via interpreter) For this case, I think  
26

1 we had submitted the records. But, Mr Chairman, I want  
2 to stress that if the Octopus card was not  
3 a personalised card, if it was non-personalised, the  
4 follow-up work might be difficult. However, if the card  
5 carries an identity --

6 CHAIRMAN: We understand that, because we have asked the  
7 police about the information that is obtainable.

8 In your letter, which I think is at page 297 of  
9 KMB-1, in the reply to this letter of request, the  
10 second paragraph, you refer to case 1 and you say this  
11 in the last sentence:

12 "In or around end of April 2018, we had a telephone  
13 conversation with the police concerning the Octopus card  
14 records and informed them to collect our written reply."

15 Were they collected? Try "yes" or "no" on that, if  
16 you can.

17 MR PATRICK PANG: No, they didn't come and collect.

18 CHAIRMAN: Did you then supply them to the police, "yes" or  
19 "no"?

20 MR PATRICK PANG: No, but --

21 CHAIRMAN: By all means explain, but what happened was the  
22 Octopus card information never reached the police?

23 MR PATRICK PANG: (Via interpreter) This is an assault which  
24 happened in Tin Shui Wai. As I recall, since I was on  
25 this case personally, in early April we received a fax  
26

1 from the police, requesting the Octopus card records,  
2 and on 24 April we had the letter ready, and we also had  
3 the Octopus card records ready.

4 Our colleagues followed the guidelines. Since the  
5 police faxed a memo to our company we had to verbally  
6 ask them to send someone to collect it themselves, or  
7 else we would not be able to identify the identity of  
8 the sender.

9 We made a phone call to Tin Shui Wai district of the  
10 police; we asked them to come and collect the reply.  
11 But the police never came and the letter is still with  
12 us and the Octopus records are still with us.

13 So that's what happened, Mr Chairman.

14 CHAIRMAN: Since you were personally involved in this case,  
15 what was the nature of the assault?

16 MR PATRICK PANG: (Via interpreter) I remember that on B1  
17 station, it is a cross-boundary route, it involved  
18 a male bus captain, it was in Lok Ma Chau.

19 CHAIRMAN: What was the nature of the assault -- a punch,  
20 a bottle on the back of the head -- what was it?

21 MR PATRICK PANG: (Via interpreter) Please give me some  
22 time. We have too many of these assault cases, excuse  
23 me.

24 CHAIRMAN: Yes, please take your time.

25 MR PETER DUNCAN: Mr Chairman, just while that's being  
26

1 looked for, Mr Chan has brought my attention to page 101  
2 of bundle 1 --

3 CHAIRMAN: Thank you.

4 MR PETER DUNCAN: -- in regard to the 90 per cent  
5 representation, and he suggests that that may be the  
6 evidence to which Mr Chairman was referring, paragraph 4  
7 on that page.

8 CHAIRMAN: Yes, that is what I had in mind.

9 Yes. Nature of the assault.

10 MR PATRICK PANG: Mr Chairman, it should be page 216.

11 CHAIRMAN: Yes. Just tell me the nature of the assault,  
12 that's all.

13 MR PATRICK PANG: The bus captain was pushed onto the ground  
14 and then sustained injuries to his hip and the head.

15 CHAIRMAN: And any medical treatment?

16 MR PATRICK PANG: I'm sorry, it doesn't contain any medical  
17 checkup, et cetera, et cetera, here.

18 (Via interpreter) It's not indicated here. I'm  
19 sorry about that.

20 CHAIRMAN: What I'm concerned about is that the ball has  
21 been allowed to drop between the police and KMB,  
22 involving one of your bus captains pushed to the ground  
23 and injured on his head and his hip, and the situation,  
24 you tell us, is that the information on the Octopus card  
25 is sitting in an envelope in KMB. How does this happen?

26

1 MR PATRICK PANG: Mr Chairman --

2 CHAIRMAN: If you are trying to protect your bus captains,  
3 how does this happen?

4 MR PATRICK PANG: (Via interpreter) Mr Chairman, I did ask  
5 this question, when I became aware that the Octopus card  
6 records are not been collected. It was the end of last  
7 month that I became aware of it. So I'm sorry, perhaps  
8 the follow-up work should have been done better.  
9 I think that's the case, that it should have been done  
10 better.

11 CHAIRMAN: Mr Pang, am I correct in thinking that you were  
12 formerly a gazetted officer of the Hong Kong Police?

13 MR PATRICK PANG: (Via interpreter) Correct.

14 CHAIRMAN: Is this something that both in your current job  
15 and with your former occupation you would be able to  
16 deal with so that the information does get where it  
17 should get?

18 MR PATRICK PANG: (Via interpreter) Certainly, I can do  
19 that.

20 CHAIRMAN: Thank you.

21 Mr Duncan.

22 MR PETER DUNCAN: Thank you, Chairman.

23 I was asking you now, please, to turn to page 83 of  
24 KMB-1. The question that you were asked and to which  
25 you responded in your initial submission was:

26

1 "Is there any counselling service provided to bus  
2 captain [s] in need?"

3 The second bullet answers that question in the  
4 following way:

5 "A task force comprise KMB's deputy operations  
6 director, depot heads, head of training and quality  
7 assurance department, head of communications and public  
8 affairs and manager, talent acquisition of human  
9 resources department has been formed to look into  
10 enhancing the provision of emotional support for [bus  
11 captains] and frontline staff. The task force will  
12 engage a professional consultant to provide  
13 a comprehensive review of the current practice and make  
14 recommendations in areas including but not limited to  
15 recruitment, assessment on [bus captains] emotional  
16 intelligence and stress tolerance, training, counselling  
17 and performance management. It is expected that the  
18 recommendations will be implemented phase by phase to  
19 address immediate concerns."

20 Could I ask, firstly, when was that task force  
21 formed?

22 MR JAMES WONG: (Via interpreter) Around about the end of  
23 May of this year.

24 MR PETER DUNCAN: And what prompted its formation?

25 DR NORMAN LEUNG: Mr Duncan, this is an initiative from me,  
26

1           because when I learned that our bus captains are often  
2           abused, I thought that we should seek professional  
3           advice on how to handle the situation and how to offer,  
4           in particular, counselling service to our bus captains  
5           in need of counselling.

6           I happened to learn from the vice-president of the  
7           Chinese University that they had previously offered  
8           consultancy service to the police some years back,  
9           during the occupation movement, and I thought that this  
10          might be useful to our bus captains who are often abused  
11          by passengers. As a result, because we are a utility  
12          company, we have to invite tender from different  
13          interested parties, and in the end the Chinese  
14          University of Hong Kong was selected. I did not take  
15          part in the selection exercise, to avoid any conflict of  
16          interest, because I happen to be the council chairman of  
17          the Chinese University of Hong Kong.

18          They are now working on a proposal that hopefully  
19          will assist us in the recruitment exercise and to offer  
20          emotional support to our bus captains, if in need.

21          That's basically how it comes about, Mr Duncan.

22          MR PETER DUNCAN: Thank you, Dr Leung.

23                 Can I ask you please to refer to page 229 of this  
24          same bundle.

25          CHAIRMAN: Before we move to that, Dr Leung, can you assist  
26

1           us if you have any indication so far as to how it is  
2           that you might be assisted by this advice, professional  
3           advice, in the recruitment of bus captains?

4       DR NORMAN LEUNG: Basically in the recruitment exercise,  
5           they will make an assessment of the emotional  
6           attributes, if I may use the word, of any candidates.  
7           So basically their advice would be in assisting us in  
8           the assessment of their emotional attributes.

9       CHAIRMAN: Thank you.

10      MR PETER DUNCAN: Could I ask you please to go to page 220  
11           of bundle 1. At page 220, you will see a letter from  
12           the company to the committee, dated very recently,  
13           6 August, and it refers to the action plan for  
14           implementation of the key recommendations.

15           You can see that action plan commencing from 221,  
16           and what I wish you to do, please, is to turn to page  
17           229. At page 229, can we see reflected, first of all,  
18           on the left-hand side of the page, the position at the  
19           initial stage of this psychological support proposal?  
20           Is that correct? Does that show the initial proposal?

21      DR NORMAN LEUNG: Yes.

22      MR PETER DUNCAN: Then, in the middle of the page, do we see  
23           the action plan with milestone dates as at 10 April?

24      DR NORMAN LEUNG: Correct, yes.

25      MR PETER DUNCAN: Are we then provided, on the right-hand  
26

1 side, with the current situation, which I will read out:

2 "The consultancy team from the psychology department  
3 of a local university was appointed on 31 May 2018. In  
4 June 2018, the team has kicked off its review of the  
5 current practice in relation to the provision of  
6 emotional support through visiting depots, BCTS and  
7 hotline centre, and meetings with deputy operations  
8 director, depot staff, zone heads, driving instructors,  
9 recruitment team and employee relations team of HR  
10 department."

11 "BCTS" would be?

12 MR ROGER LEE: Bus Captain Training School.

13 MR PETER DUNCAN: Thank you.

14 Continuation:

15 "In July 2018, the consultancy team has shared their  
16 initial observations with the task force. Both parties  
17 have worked out the general approach in delivering the  
18 project and the key activities in the coming months,  
19 namely to set up some focus groups to collect views  
20 directly from [bus captains] and frontline staff on  
21 their needs in terms of psychological support and  
22 wellbeing, to plan the training of driving instructors  
23 which was scheduled to start in September 2018, to  
24 further review the recruitment process so as to maximise  
25 its effectiveness, and to develop supporting activities  
26

1 for building a balanced and healthy work life."

2 Are you able to provide any more information as to  
3 when the results of this enterprise are likely to bear  
4 some fruit?

5 MR JAMES WONG: (Via interpreter) According to information  
6 from CU Hong Kong, the project is ongoing. Soon, we are  
7 going to make arrangements to let bus captains of  
8 different experiences and frontline staff members to  
9 form focus groups so that zero Hong Kong can understand  
10 the stress of frontline staff as well as the  
11 difficulties that they face. According to our plan, we  
12 are going to carry out a questionnaire/survey for all  
13 frontline staff of the company so as to find out further  
14 from them about the difficulties and then CU Hong Kong  
15 will formulate a programme so that we know how to tell  
16 bus captains ways to ease their stress, and it will  
17 start with the driving instructors of BCTS.

18 The instructors will soon be given courses so that  
19 they know how to relieve their work stress, so that they  
20 can in turn teach the bus captains.

21 So we start with the driving instructors and the  
22 instructors will teach the bus captains.

23 As far as timing is concerned, it is ongoing. In  
24 August, we are going to have the focus groups. In  
25 September, it is hoped we can finish the questionnaire  
26

1 and then we can train the driving instructors. It will  
2 continue and we hope that by the end of the year we are  
3 able to complete the whole exercise.

4 The target is we want to train the trainers, that is  
5 the driving instructors. We hope they will stay with  
6 the company and they will continue to train the  
7 frontline staff members.

8 DR NORMAN LEUNG: Mr Chairman, perhaps I should add that my  
9 initiative goes beyond that. I am hoping we are going  
10 to set up a department consisting of professional  
11 industrial psychologists and they will form part of the  
12 set-up of the company, so that they can stand ready to  
13 offer whatever might be needed by other colleagues in  
14 the company. So there would be a new department. You  
15 know, I don't know, subject to the consultancy  
16 recommendation, there might be, say, one unit in one of  
17 the four major depots. There might be someone posted to  
18 the recruitment department. It all depends. I am  
19 working on that. It's not just an ad hoc project, no.

20 MR PETER DUNCAN: Thank you, Doctor.

21 CHAIRMAN: Forgive me, Mr Duncan.

22 Dr Leung, when, if you have any idea, do you hope  
23 that this advice could be acted on in the recruitment  
24 process? What timescale do you have for that?

25 DR NORMAN LEUNG: I don't have a ready answer to that,  
26

1 Mr Chairman, I'm sorry.

2 CHAIRMAN: No, I understand.

3 DR NORMAN LEUNG: But I hope that it can be done as soon as  
4 possible. Basically, I want to set up this new  
5 department as soon as possible and to have in place  
6 professional psychologists working as colleagues in our  
7 company.

8 CHAIRMAN: Thank you.

9 MR JAMES WONG: (Via interpreter) I have something to add  
10 with regards to your question. I am the project manager  
11 for this project. During recruitment, we consider the  
12 fact that bus captains are a professional role, so the  
13 work nature is closely related to work attitude. So,  
14 with the help of psychologists, we hope to identify the  
15 right candidates during recruitment, and in turn they  
16 can help fulfil the roles of bus captains.

17 Thank you.

18 CHAIRMAN: Mr Duncan.

19 MR PETER DUNCAN: Thank you, Chairman.

20 Could you go, within the same file, please, to  
21 page 185. This is an extract from the second submission  
22 by the company to the committee.

23 I just want to bring to your attention the third of  
24 the questions that was asked at that stage. That is:

25 "Please describe what part, if any, of an assessment  
26

1 of the emotional intelligence and stress tolerance of  
2 a candidate played and plays in the previous and  
3 existing system for the recruitment of bus captains. In  
4 such previous recruitment and in the current system of  
5 recruitment are any enquiries directed at an assessment  
6 made of a prospective bus captain's ability to 'handle  
7 difficult passengers'? If so what was ... the nature of  
8 those enquiries and the related assessments?"

9 I just want you to confirm for the record that we  
10 will find the answer to that question on page 185 and  
11 186. Is that correct?

12 MR GODWIN SO: Yes.

13 MR PETER DUNCAN: Just one aspect of that I would like to  
14 confirm, please. Page 186, the second bullet:

15 "A sample [bus captain] candidate interview  
16 evaluation form is annexed ..."

17 And you have given the annex reference. We might  
18 just take a quick look at that. We will find that at  
19 KMB-10 at page 4439.

20 Is that the form, at KMB-10/4439, which is currently  
21 used at the evaluation form in this context?

22 MR GODWIN SO: Yes, but some columns are no longer  
23 applicable.

24 MR PETER DUNCAN: Please explain.

25 MR GODWIN SO: (Via interpreter) We can look at the next  
26

1 page, 4440. You can see there is a box called "DISC  
2 Test Evaluation". This is a personality check.  
3 A professional firm would conduct some questionnaires  
4 for the candidates. The candidates can make choices.  
5 For example, the candidate can describe their own  
6 personality as outgoing or any other adjective. The  
7 candidate can tick the most applicable or the least  
8 applicable boxes that describe them.

9 After review in 2014, the form was deemed to be  
10 ineffective, so this field was no longer included. The  
11 rest are still in use now.

12 CHAIRMAN: Although it's been discontinued, can you help me  
13 at least with the acronym, "DISC"?

14 MR GODWIN SO: (Via interpreter) "DISC" is an acronym. It  
15 refers to a form; I can provide that after the meeting.

16 CHAIRMAN: Thank you.

17 MR GODWIN SO: Can I continue?

18 CHAIRMAN: Please do.

19 MR GODWIN SO: (Via interpreter) Even without the DISC test,  
20 there was still something to assess the EQ and tolerance  
21 of the candidates. Currently, our interviewers would  
22 interview the bus captain candidates. There would be  
23 more questions. For instance, "If you face rude  
24 passengers or difficult passengers", we would assess how  
25 the candidate would react. So we would offer  
26

1           hypothetical scenarios to see how candidates would  
2           react. That way, we can assess the candidate's EQ,  
3           their attitude, whether they are polite, et cetera. So  
4           we currently use interviews as a way of assessment.

5           Apart from interviews, each candidate would have to  
6           undergo an on-the-wheel test. Our assessors would  
7           embark on a 30-minute trip together with the candidate  
8           on the road, and we can assess the personality of the  
9           candidates and in turn we can make a holistic assessment  
10          on whether a candidate is fit for the role of bus  
11          captain.

12       CHAIRMAN: Mr Duncan.

13       MR PETER DUNCAN: Thank you, Chairman.

14           Having touched now on the matter of recruitment, I'm  
15          going to ask you, please, to look at page 60 of KMB-1.

16           Again, this is an extract from the initial  
17          submission of the company to the committee on 24 April.

18           The first of two questions asked on that page is  
19          this:

20           "What are the problems encountered in recruiting and  
21          retaining bus captains?"

22           If you could just read to yourself the first two  
23          paragraphs on that page. You have brought to the  
24          attention of the committee the issue of the shortage and  
25          aging problem of commercial vehicle drivers generally in  
26

1 the transport industry in Hong Kong. Do you see that?

2 MR GODWIN SO: Yes.

3 MR PETER DUNCAN: Is this a matter, the shortage, that has  
4 existed for some years?

5 MR GODWIN SO: Yes.

6 MR PETER DUNCAN: I would like you to turn up, please,  
7 KMB-9, at 3840.

8 Has the company from time to time raised this  
9 shortage issue with the authorities in Hong Kong?

10 MR GODWIN SO: (Via interpreter) The shortage of bus  
11 captains started in 2016 and TD was aware of the  
12 situation.

13 CHAIRMAN: Thank you, Mr So.

14 MR PETER DUNCAN: At page 3840 of the bundle, do you see  
15 that there is a press release with regard to the matter  
16 having reached the attention of the Legislative Council;  
17 do you see that?

18 MR GODWIN SO: Yes.

19 MR PETER DUNCAN: Is it introduced by saying:

20 "Following is a question by the [honourable] Frankie  
21 Yick and a reply by the Secretary for Transport and  
22 Housing, Professor Anthony Cheung Bing Leung, in the  
23 Legislative Council today (June 29) ..."

24

25 We can see that's 2016. I won't read out the

26

1 question in full, but is it concerned with this matter  
2 of the manpower shortage?

3 MR GODWIN SO: Yes.

4 MR PETER DUNCAN: If we go down to the bottom of the page,  
5 do we see the reply from the Secretary for Transport and  
6 Housing?

7 Can I read the first paragraph of the answer:

8 "The Government is mindful of the manpower situation  
9 of the transport industry. Different transport trades  
10 have repeatedly relayed that the labour market has  
11 become tighter in recent years. Staff recruitment is  
12 not easy and there are signs that the workforce of the  
13 industry is aging. In response to the situation, the  
14 Government will formulate strategies together with the  
15 industry and will work with the trades at policy level  
16 if it is feasible and desirable. We also hope that the  
17 trades will strive to improve working environment and  
18 remuneration and help young people understand more about  
19 the trades through different platforms, thereby  
20 attracting new blood."

21 If I could just pause there, could I ask you this:  
22 has the government in fact formulated strategies  
23 together with the industry to address this problem?

24 MR GODWIN SO: (Via interpreter) Personally speaking,

25 I don't think I have got any such information.  
26

1           From the guidelines of the THB in the IRC bundles,  
2           it has been said that they encourage the recruitment of  
3           sufficient bus captains, but as to whether the  
4           government has got strategies, I don't think I have seen  
5           any.

6       MR PETER DUNCAN: If I could move to the next page, 3842,  
7           and the third full paragraph on that page, if I could  
8           bring that to attention, the secretary says this:

9           "In terms of staff qualifications, drivers of  
10          franchised and non-franchised buses, PLBs, taxis and  
11          container trucks have to hold the relevant driving  
12          licences of commercial vehicles. The law requires that  
13          an applicant of these driving licences must hold a valid  
14          licence to drive a private car or light goods vehicle  
15          for at least three years ... [Transport Department] is  
16          reviewing whether it is possible to shorten the  
17          requirement with a view to attract more new entrants.  
18          The target is to strive to complete the review within  
19          this year."

20          My question is: has the law been changed in that  
21          respect so that the period is shortened?

22       MR GODWIN SO: No.

23       MR PETER DUNCAN: Has anything happened in that regard?

24       MR GODWIN SO: No.

25       MR PETER DUNCAN: Is the company supportive of such  
26

1 a change?

2 MR GODWIN SO: (Via interpreter) I think we need to carry  
3 out consultation and I want to know about the  
4 compensation. If somebody has only got one year's  
5 experience as a holder of a private car, I just doubt  
6 whether he can drive a franchised bus carrying 150  
7 passengers. There is a safety consideration. Somebody  
8 gets a driving licence but it's not the same as having  
9 driving experience.

10 As to whether a year's duration is adequate, I think  
11 we need to study the matter and discuss about it.

12 MR PETER DUNCAN: Has the Transport Department come to you  
13 and said, "Look, let's discuss this, see what the issues  
14 are"?

15 MR JAMES WONG: (Via interpreter) The Transport Department  
16 did invite different franchised bus companies to discuss  
17 the matter, but no decision has been made. I think it  
18 was sometime last month. But no conclusion has been  
19 reached.

20 At that time, there was no clear position being  
21 stated. They merely tried to consult the different  
22 franchised bus operators.

23 MR PETER DUNCAN: Had they approached your company before  
24 last month on this issue?

25 MR JAMES WONG: (Via interpreter) No, not before that.

26

1 MR PETER DUNCAN: Can you look now, please, at KMB-9,  
2 page 3844. I think it will be 3855 that I want you to  
3 look at. I will be working off the translation at  
4 page 3847-1.

5 You should be looking at a document which is headed,  
6 "2018 [to] 19 audit", "Expenditure budget".

7 MR GODWIN SO: Yes.

8 MR PETER DUNCAN: I believe this to be a record regarding  
9 a discussion at a meeting of the Legislative Council  
10 earlier this year on 20 April.

11 MR GODWIN SO: Yes, but the data is on page 3847-3?

12 MR PETER DUNCAN: Yes. I want to take you through the  
13 questions first that were apparently asked of the  
14 government regulatory officer, who in this case seems to  
15 be the Commissioner for Labour.

16 The first question, reading from page 3847-1:

17 "Request is made to the concerning authority to  
18 inform us about the followings:

19 (a) Please provide the following statistics on the  
20 aging issue of drivers for public transport services and  
21 container trucks."

22 That's question (a), and then question (b), on the  
23 translation 3847-2:

24 "For job vacancy in (a), please provide the  
25 following statistics."

26

1           Then (c):

2           "The shortage of manpower in drivers for public  
3           transport services and container trucks has remained for  
4           a long time. Will there be any supplementary for  
5           whether the position of driver be included into the  
6           programme by the Labour Department? If yes, what's the  
7           plan? If not, what measures to help the industry in  
8           employing drivers effectively and also the relevant  
9           staffing arrangements and expenditure budget?"

10          If we go through the three answers, at item (a):

11          "From 2013 to 2017, the age distribution of drivers  
12          for franchised buses is as follows".

13          One will see the figures there, with in particular  
14          the age of 25 to 29-year-olds, 2013, 341; 2017, 449. At  
15          the other end of the scale, 60 to 69, in 2013, 1,167;  
16          and in 2017, 2,022 in that category. The previous  
17          category, 50 to 59, in 2017, 5,886 in that category.

18          Then (b):

19          "From 2013 to 2017, the number of job vacancies for  
20          drivers of franchised buses is as follows".

21          Then we can see a job vacancy in 2013 of 192, and  
22          a vacancy last year, 2017, of 366.

23          Then at 3847-4 we have the answer to the third  
24          question, item (c):

25          "Pursuant to the Transport Department, as of the end  
26

1 of 2017, there were more than 370,000 holders of  
2 effective 'commercial vehicle' (note) driving licence"  
3 -- Commercial vehicles refer to private light buses,  
4 public light buses, taxis, private buses, public buses,  
5 franchised public buses, medium truck, heavy truck,  
6 articulated vehicles and special purpose vehicles --  
7 "but only more than 90,000 commercial vehicles with the  
8 licences, therefore the key is how to attract qualified  
9 individuals to join the industry. In view of this, the  
10 government should not make a hasty consideration on the  
11 proposal of importing drivers for commercial vehicles  
12 but must take into account the livelihood of local  
13 drivers."

14 Now, you can see that a point which has been raised  
15 is the possibility of persons from outside Hong Kong  
16 being allowed to come in in order to alleviate the  
17 situation which appears to exist generally in the  
18 transport industry as far as drivers are concerned.

19 Does the company have any particular position on  
20 a proposal such as this?

21 MR GODWIN SO: (Via interpreter) No. May I explain?

22 CHAIRMAN: Yes.

23 MR PETER DUNCAN: Nothing to explain or ...?

24 MR ROGER LEE: I think so.

25 MR PETER DUNCAN: So you are neither for this nor against  
26

1           it; is that the position?

2       DR NORMAN LEUNG: May I say this: this is a very political  
3           issue. I can anticipate that there would be strong  
4           objection from the trade unions in Hong Kong to  
5           introduce import of labour. In Singapore, they do it.  
6           SBS, they have drivers imported from the mainland of  
7           China, thereby solving the problem of driver shortage.  
8           They do that in Singapore. But I doubt if we can do it  
9           in Hong Kong, in view of the current political  
10          situation.

11       CHAIRMAN: Didn't they have a lot of trouble with striking  
12          imported labour drivers?

13       DR NORMAN LEUNG: I think sometime -- yes, a few months ago,  
14          perhaps sometime last year, because of the  
15          differentiation of remuneration package, but I think the  
16          problem was solved eventually.

17       CHAIRMAN: But you identify this as a political issue?

18       DR NORMAN LEUNG: Here in Hong Kong.

19       MR ROGER LEE: (Via interpreter) I think, in reality, there  
20          is also another point. Hong Kong is a unique city. It  
21          is quite unlike the case in Shenzhen or Shanghai or in  
22          Taipei. In those cities, they have a larger context,  
23          and in Hong Kong we have got double-decked buses and we  
24          have the right-wheel drive. So it is quite different  
25          and this is the difficulty. For the roads in Hong Kong

26

1 and for the passengers in Hong Kong, when compared with  
2 other cities and when compared with the mainland,  
3 I think we are very different.

4 CHAIRMAN: Mr Duncan, I propose taking a break to give  
5 everyone a little rest, and I propose taking 15 minutes.  
6 Is this a suitable moment?

7 MR PETER DUNCAN: Indeed it is, Mr Chairman.

8 CHAIRMAN: Very well. We will take a break for 15 minutes.  
9 (4.13 pm)

10 (A short adjournment)

11 (4.29 pm)

12 CHAIRMAN: Yes, Mr Duncan.

13 MR PETER DUNCAN: Thank you, Mr Chairman.

14 Mr Wong, you assisted the committee in respect of  
15 the suggestion that one of the measures that might be  
16 taken to ease the manpower shortage would be to reduce  
17 the time that a person has to hold a licence before  
18 applying for a heavy duty licence from three years to  
19 one year. I think you expressed some reservations about  
20 that.

21 Do you have some reservations?

22 MR JAMES WONG: (Via interpreter) Just now, I said that TD  
23 approached the trades to discuss this issue.

24 MR PETER DUNCAN: Did you agree that reducing it would be  
25 a good idea or did you express some reservations?  
26

1 MR JAMES WONG: (Via interpreter) We would have to look into  
2 the issue. The current requirement is that someone must  
3 hold a private vehicle licence for three years. If the  
4 requirement is shortened, we may have to consider  
5 passenger safety and driving safety. I have no personal  
6 stance on this, but our company would have to look into  
7 this before replying to the TD.

8 CHAIRMAN: When do you expect to reply to the Transport  
9 Department?

10 MR JAMES WONG: (Via interpreter) This is in process. There  
11 is no fixed deadline for us to give a reply.

12 MR PATRICK PANG: (Via interpreter) Mr Duncan, when we  
13 approach this issue, I think we need to strike a balance  
14 among a number of factors.

15 First of all, there is no compromise on safety. If  
16 we are to reduce the requirement of three years, if you  
17 simply look at the duration or the number of years, you  
18 are losing sight of the whole picture. Can we reduce  
19 the number of years required but at the same time  
20 requiring the candidate to give us information that for  
21 two years he has been driving all the time or he has  
22 such driving skills that it is up to a particular  
23 standard, or maybe we can consider having another test  
24 so that he doesn't need three years, he can have  
25 a shorter duration, but he must pass a particular  
26

1 test -- can such be considered?

2 Of course I know that the industry, not just KMB,  
3 suffers from driver shortage, but still the prerequisite  
4 is as follows. First, we give priority to safety, and  
5 then for the other factors we have an open attitude.

6 Thank you, Mr Duncan.

7 MR PETER DUNCAN: I want you, please, to have in front of  
8 you the transcript bundle for Day 1, at page 66, so that  
9 will be bundle 1. Day 1 at page 66.

10 At page 66, line 8, you will see that I have asked  
11 a question of Mr Joseph Lai:

12 "Does that reflect the Government's position  
13 accurately with regard to the manpower shortage?"

14 And there is a response from Mr Lai, Mr Joseph Lai,  
15 who I can tell you was a representative from the  
16 Transport and Housing Bureau, permanent secretary.

17 If I can just bring to your attention, please, the  
18 answer which he provided to that question, and if  
19 I could pick it up at line 16:

20 "The other part of our position, regarding the  
21 chronic problem of shortage in commercial drivers, is  
22 that we are taking steps to try to -- a full legislative  
23 amendment, and I would be happy to elaborate on that in  
24 a moment or two -- full legislative amendment to relax  
25 the licensing requirement for commercial drivers.

26

1           So, basically, what happens is that, at present, if  
2           you want to apply for a licence, a driving licence, to  
3           be a commercial vehicle driver, you will have to have  
4           had a private ... driving licence for three years before  
5           you are eligible to make the application public ie the  
6           application for a driving licence for commercial  
7           vehicles.

8           Because of the chronic manpower shortage, we have  
9           proposed, and the trade as well as Legislative Council  
10          have agreed, that the three-year period could be reduced  
11          to a one-year period. So in future, all you need is to  
12          have a private car driving licence for one year before  
13          you can apply for a driving licence for a commercial  
14          vehicle. Commercial vehicles include, of course, buses,  
15          and that includes of course franchised buses.

16          We are drafting the amendment legislation, and we  
17          hope to be able to introduce that into the Legislative  
18          Council before the end of this year. If that is passed  
19          by the Legislative Council, that should also go some way  
20          towards relieving the private shortage problem. It may  
21          not provide a total answer, but hopefully it will  
22          provide some relief.

23          On our part, that's what we have been doing. But  
24          yes, having said that, we do also think that it's part  
25          of the franchised bus companies, as the franchisee, to  
26

1 take all reasonable measures to ensure that they have  
2 the necessary number of drivers to provide service."

3 So you can see from that extract that apparently the  
4 government is firmly advocating reducing the three-year  
5 period to a one-year period and is drafting legislation  
6 accordingly.

7 Before I read this extract to you, was the company  
8 aware of this?

9 MR ROGER LEE: (Via interpreter) Well, what is clear is  
10 that -- well, first of all, I know it -- now, regarding  
11 the three years' driving experience, I think that  
12 requirement, to one extent or other, has discouraged  
13 some candidates from applying. Cutting it from three  
14 years to one year means that more people can go to the  
15 school to sit for the bus driving licence exam.  
16 Ultimately, you need to take the exam for class 17 and  
17 then you will qualify as a bus driver.

18 Now, if you reduce it from three years to one year,  
19 it means that more people will be going to the bus  
20 training school, but ultimately the threshold is whether  
21 you can pass the driving examination. It helps, because  
22 people, some people, do have the ability to do so.  
23 Whether it's three years or one year, it is still being  
24 discussed; we haven't got a timetable.

25 CHAIRMAN: Were you aware that the trade supports this  
26

1 training, as Mr Lai states?

2 MR ROGER LEE: (Via interpreter) Half-half. Some in the  
3 trade of course would think about their interests, and  
4 then for the other half, fewer and fewer people are  
5 driving commercial vehicles. I think the most important  
6 threshold is whether you can pass the bus driving  
7 licence exam. For KMB, we have got two parts. The  
8 first part, you sit and pass the bus driving examination  
9 and there's a licence from the Transport Department.  
10 With this licence, basically, you can drive a bus and  
11 you can also drive vehicles like tourist coaches. So  
12 there will be more for the industry -- there would be  
13 more applicants. So I would say half-half.

14 CHAIRMAN: Thank you.

15 MR PETER DUNCAN: So, Mr Wong, when you indicated before  
16 that the government had discussed this with you, was  
17 this something which was discussed with KMB alone or was  
18 it discussed with other interested parties as well?

19 MR JAMES WONG: (Via interpreter) With all the bus companies  
20 together.

21 MR PETER DUNCAN: How many meetings were held?

22 MR JAMES WONG: (Via interpreter) I recall there was only  
23 one meeting. One.

24 CHAIRMAN: That was last month, as you put it?

25 MR JAMES WONG: (Via interpreter) Correct. I said it was  
26

1 last month. I need to look up my schedule before I can  
2 recall the exact date.

3 CHAIRMAN: But you went on to say no clear position was  
4 stated.

5 MR JAMES WONG: (Via interpreter) We were told about what  
6 they generally have planned to do. If the number of  
7 years required is to be reduced, then there is  
8 a requirement for passenger service cost. But then such  
9 were preliminary ideas. Therefore, we have yet to get  
10 the overall picture as to what would be done.

11 CHAIRMAN: Mr Lai was giving evidence three months ago,  
12 telling us that the trade supported it, and you say he  
13 was asking the bus companies last month about the same  
14 issue?

15 MR JAMES WONG: (Via interpreter) Correct.

16 CHAIRMAN: Thank you.

17 MR PETER DUNCAN: In February this year, the new guidelines  
18 with respect to shifts and rest times, and so forth,  
19 were issued. Has the issue of those guidelines affected  
20 the ability of the company to recruit staff for bus  
21 driving positions?

22 MR PATRICK PANG: (Via interpreter) Mr Duncan, if I am to  
23 answer your question directly -- well, maybe first of  
24 all let me say this. The Transport Department revised  
25 the guidelines this year, but then the revised  
26

1 guidelines are supposed to be fully implemented in the  
2 second quarter of next year. But our initial assessment  
3 is that -- and in fact we are already carrying out some  
4 system modifications; in other words, we are upgrading  
5 the computer programs so as to tie in with the revised  
6 guidelines. Well, for the new guidelines --

7 CHAIRMAN: Mr Pang, this was not an open-ended question.

8 The question was simply this: has it affected the  
9 recruitment of bus captains? You can probably answer  
10 that "yes" or "no".

11 MR PATRICK PANG: (Via interpreter) If you only talk about  
12 recruitment, yes, it will be affected.

13 CHAIRMAN: That was Mr Duncan's question.

14 Yes, Mr Duncan.

15 MR PETER DUNCAN: In what way has it been affected?

16 MR PATRICK PANG: (Via interpreter) We have done some  
17 calculations. If we are to follow the revised  
18 guidelines, we need to recruit an extra 200 bus  
19 captains. Then, under the revised guidelines, we have  
20 the special shift, and for this special shift, in  
21 future, if we are to do away with it and if we have  
22 a strict shift, then we need another extra 1,000 bus  
23 captains.

24 MR PETER DUNCAN: I will come to the ramifications of the  
25 extra shift somewhat later, but I'm sorry I haven't made  
26

1           myself clear. Since February, has the issue of the  
2           guidelines made it easier or made it harder, or has it  
3           had no effect, on the company's ability to recruit  
4           people to the position of a bus captaincy?

5   MR GODWIN SO: (Via interpreter) This depends on how  
6           candidates respond to the new guidelines. The company  
7           did a lot in February when the guidelines were revised.  
8           I do not feel that candidates knew or cared much about  
9           these guidelines, or the new guidelines.

10   MR PETER DUNCAN: So I infer from that that it has had no  
11           effect; the position is much the same now as it was in  
12           January; is that correct?

13   MR GODWIN SO: (Via interpreter) We did not feel that there  
14           was an effect.

15   MR PETER DUNCAN: Now, you have indicated that in order to  
16           comply with the new guidelines, you are going to have to  
17           engage something like 200 additional captains.

18           Since the Tai Po accident, it is true, is it not,  
19           that you have altered your policy with regard to the  
20           work of part-time captains and to the engagement of  
21           part-time captains?

22   MR ROGER LEE: (Via interpreter) Yes.

23   MR PETER DUNCAN: Does the figure you have given us, the  
24           extra 200, take that into account?

25   MR ROGER LEE: (Via interpreter) No.

26

1 MR PETER DUNCAN: The decision you have made with part-time  
2 captains, does that mean that number of 200 will  
3 actually increase?

4 MR GODWIN SO: (Via interpreter) The 200 extra bus captains  
5 to deal with the new guidelines, we were referring to  
6 full-time captains. In February, we made a change to  
7 our policy on part-time captains. The percentage of  
8 part-time captains in terms of the total captains of our  
9 captains was only 3 to 4 per cent before -- after that  
10 change in February.

11 MR PETER DUNCAN: Thank you. I'm going to ask you to go to  
12 page 58 of KMB-1, please.

13 The question you are asked -- again, this is the  
14 first submission:

15 "Does your company have adequate full-time bus  
16 captains to provide proper and efficient service? Is  
17 there a need for your company to continuously employ bus  
18 captains on a part-time basis to make up for the  
19 manpower shortfall and/or to augment the core staff  
20 complement to cover special events and absences? Please  
21 also furnish the number of bus captains on different  
22 employment terms and the extent to which the current  
23 staff complement can meet your operational  
24 requirements?"

25 If I could go to the last bullet on the page. You  
26

1 have said there that:

2 "[bus captains] are employed in the following types  
3 of employment based on [the] date of appointment:

4 -- Daily-rated [bus captains]: those who were  
5 employed before May 1999."

6 Forgive me for asking this, but does that mean these  
7 are bus captains whose salary is based on so much per  
8 day?

9 MR GODWIN SO: Yes.

10 MR PETER DUNCAN: And equally, monthly-rated bus captains,  
11 they are paid by the month, a monthly amount; is that  
12 correct?

13 MR GODWIN SO: Monthly amount, yes.

14 MR PETER DUNCAN: Then the third group, the retired bus  
15 captains who are engaged for re-employment, they can be  
16 paid either on a monthly rate or a third way, on the  
17 basis of so much per hour; is that correct?

18 MR GODWIN SO: (Via interpreter) This depends on the  
19 employment mode. If they choose an hourly rate, they  
20 would be rostered and paid on an hourly basis. For  
21 monthly-rated BCs, they would be rostered and paid on  
22 a monthly basis.

23 MR PETER DUNCAN: Thank you. We can see the numbers, at  
24 least as they were at the time of the return, 24 April,  
25 on page 59. Those on a daily rate, 2,105 for KMB; those

26

1 on a monthly rate, 5,201; retired folk who are  
2 re-employed, rated on an hourly basis, 577; retired who  
3 have come back on a monthly basis, 383; and then  
4 external hourly-rated bus captains, 371.

5 Do I infer correctly that external hourly-rated bus  
6 captains would all be part-time?

7 MR GODWIN SO: (Via interpreter) Correct.

8 MR PETER DUNCAN: Then you have the figure of bus captain  
9 vacancies at the end: 28 February, 280.

10 MR GODWIN SO: Yes, at that moment.

11 MR PETER DUNCAN: If we go back then to page 58, and if  
12 I could bring to your attention the second-last bullet  
13 on that page, concerning part-time bus drivers:

14 "Since mid-February 2018, KMB has stopped recruiting  
15 new external hourly-rated [bus captains] who work short  
16 hours (ie below 18 hours per week)."

17 Is a consequence of that that KMB will still engage  
18 new part-time workers as long as they work more than  
19 18 hours per week?

20 MR GODWIN SO: Yes.

21 MR ROGER LEE: (Via interpreter) I have something to add.

22 Part-time and full-time captains are different. With  
23 a threshold of 18 hours per week, we would have to know  
24 any employment of the bus captains prior to their work  
25 and we know whether they were engaged with other  
26

1 vehicles, et cetera. So it might be hard to define  
2 part-time or full-time work by the threshold of 18 hours  
3 per week, so that's why we drew the line at 18 hours per  
4 week for part-time drivers.

5 MR PETER DUNCAN: I do infer from that that you consider it  
6 is more likely that people who work more than 18 hours  
7 will not have another job which interferes with their  
8 driving? Is that the rationale?

9 MR ROGER LEE: Yes and no.

10 (Via interpreter) Yes, if someone works continuously  
11 more than 18 hours every week, we would ask if the bus  
12 captain has other work. If the answer is yes, we must  
13 understand the nature of such work and whether their  
14 employers allow them to drive. This is very important.

15 Let's assume the bus driver also drives a taxi. If  
16 he drives 18 hours at KMB, we might not know the total  
17 number of hours spent driving. We have rules in place.  
18 That is, we have to find out about the other employment  
19 of the driver or else we won't be able to understand  
20 their profile.

21 MR PETER DUNCAN: And what's the perceived problem with  
22 respect to a person, say, who wanted to work for you  
23 just 12 hours a week?

24 MR ROGER LEE: No. Simply just reject.

25 MR PETER DUNCAN: Yes, but why do you have no interest in  
26

1           that sort of person?

2           MR GODWIN SO: (Via interpreter) If the applicant does not  
3           provide the information, we cannot take the reasonable  
4           step to concern -- to find out about their total number  
5           of work hours or the possible problem of fatigue. We  
6           require applicants to make several declarations. First  
7           of all, their work outside, and from our records, for  
8           the 300-odd captains, 40 per cent are clerical post  
9           workers, and the remaining 30 per cent have no other  
10          employment and about 25 per cent are engaged in other  
11          driving duties or employment. They have to assure us  
12          that their work does not contravene with the work at KMB  
13          and there is no objection from their other employers.

14          So we want to make sure that there will not be  
15          driving fatigue from captains engaging in two driving  
16          jobs. For those who work below 18 hours per week, it  
17          would be hard for them to provide such information. For  
18          part-time captains, even though they are part-timers,  
19          they must take their work seriously. If they have to  
20          work 18 hours per week, we have to make sure that their  
21          driving skills are sharp.

22          So this is one of the factors we would consider.

23          MR PETER DUNCAN: But the bottom line with that system, if  
24          I may observe, is the quality of the information you are  
25          getting back with regard to the other employment of the  
26

1 individual. The quality of that will not necessarily  
2 depend on whether a person works for you for 12 hours or  
3 whether he works for you for 20 hours. Do you  
4 understand my point?

5 MR GODWIN SO: (Via interpreter) I do not agree.

6 MR PETER DUNCAN: Why do you not agree?

7 MR GODWIN SO: (Via interpreter) We know that a lot of  
8 people love driving buses of different models, that's  
9 why they become part-time captains. But do they have  
10 the right mindset? This is something I will not comment  
11 on. As I said, our company has guidelines in place, so  
12 we must apply these standards.

13 So, for continuous employment of someone who works  
14 18 hours per week, we can ask them what other jobs they  
15 have outside. That's why we set the threshold at  
16 18 hours. We feel that we would not recruit less bus  
17 captains on shorter hours, which would affect our  
18 productivity, so the threshold of 18 hours is the right  
19 trade-off between productivity, and that's why we set  
20 this threshold.

21 MR ROGER LEE: (Via interpreter) If you do not set such  
22 threshold, even if a captain has great driving skills,  
23 if the captain only works one or two hours, it would be  
24 very difficult to roster them. So this is something we  
25 must bear in mind.

26

1 CHAIRMAN: Mr Duncan, do you propose taking the  
2 representatives to the declarations?

3 MR PETER DUNCAN: I do ultimately, but not at this point.

4 CHAIRMAN: Thank you.

5 MR PETER DUNCAN: We will come to those later, in  
6 a different context, Mr Chairman.

7 CHAIRMAN: Of course.

8 But whilst we are on this topic -- you have given  
9 some overall statistics for the jobs -- the fact they  
10 don't have jobs, and those that have driving,  
11 40 per cent clerical, 30 per cent no other employment,  
12 25 per cent engaged in driving. Can you provide those  
13 statistics to the committee?

14 MR GODWIN SO: (Chinese words not interpreted).

15 CHAIRMAN: And in particular details of the other driving  
16 jobs?

17 MR GODWIN SO: (Via interpreter) Yes, it's possible.

18 CHAIRMAN: For example, presumably --

19 MR GODWIN SO: (Via interpreter) Like driving goods vehicles  
20 or chauffeurs.

21 CHAIRMAN: Yes, that's what I have in mind: coaches,  
22 chauffeurs, taxis, PLBs, and so on. If you could  
23 provide that, that would be helpful.

24 MR GODWIN SO: Yes.

25 CHAIRMAN: Thank you.

26

1 MR PETER DUNCAN: Was this change prompted by the accident  
2 at Tai Po?

3 MR GODWIN SO: (Via interpreter) Yes, triggered by this  
4 incident. This is because at that time, in the society,  
5 there was this idea; that is, we as a bus company had  
6 been engaging part-time bus captains. We weren't  
7 talking about the skills of the part-time bus captains.  
8 The question was maybe the bus captain had started with  
9 us in the evening, we didn't know about his daytime job,  
10 whether he was very tired. At that time, we thought we  
11 could have done better, so we paused and then we  
12 fine-tuned the arrangements and then we came up with the  
13 criteria that it should be drawn at 18 hours, and we  
14 have got 300-plus bus captains, we offered them the  
15 chance to convert and the new policy has been in place  
16 since then.

17 MR PETER DUNCAN: Prior to the Tai Po accident, how many  
18 part-time bus captains did you have working less than  
19 18 hours a week?

20 MR GODWIN SO: (Via interpreter) Among the 300-plus bus  
21 captains, I can't give you the exact figure, 200-plus  
22 could work for more than 18 hours. Less than 100 worked  
23 less than 18 hours.

24 MR PETER DUNCAN: Could I take you, please, to page 104 of  
25 the same bundle. This is the part 4 of the report sent  
26

1 to the Transport Department following the accident at  
2 Tai Po, so it's actually earlier in time. It's dated  
3 12 March. Part 4 is concerned with recruitment, and the  
4 first heading is, "Discontinuance of Employment of Part  
5 Time [bus captains]". What is said in this paragraph  
6 is, firstly, that:

7 "KMB has discontinued the employment of all  
8 part-time [bus captains] whose working hours fall below  
9 18 hours per week."

10 So you will see it's slightly differently expressed  
11 from what is at page 58, in that 58 talks about stopping  
12 the recruiting of new hourly-rated BCs, whereas this  
13 mentions the discontinuance of all part-time BCs whose  
14 working hours fall below 18 hours per week.

15 Leaving aside how it is expressed, are you conveying  
16 the same message in each of these communications?

17 MR GODWIN SO: (Via interpreter) The two are consistent.

18 They all talked about those working short working hours,  
19 that is less than 18 hours per week. First of all,  
20 there won't be recruitment of new candidates in this  
21 category. Second, for the one shown on the screen, for  
22 the existing employees -- now, the two are different.  
23 Just now I talked about stop recruiting new candidates,  
24 and then here we talk about the existing staff; we talk  
25 about discontinuing the employment. We weren't talking  
26

1 about dismissing them because they are hourly-rated,  
2 it's just that at that time we stopped rostering them,  
3 we didn't assign jobs with them, and then we discussed  
4 with them, as mentioned in the second paragraph, that is  
5 we persuaded them to convert into contract hourly-rated.  
6 That is whether they could work longer hours. Because  
7 some of them didn't have an alternative job or their  
8 income would be affected. So at that time we said, "You  
9 have been working shorter hours, maybe you would like to  
10 take up another role, say for example being an assistant  
11 at the terminus."

12 So we are talking about different things. For that,  
13 we didn't want to affect their income.

14 MR PETER DUNCAN: I understand. Thank you very much.

15 What is meant by "convert to contract hourly-rated  
16 BCs"? Would they not have been contract hourly-rated  
17 before this change?

18 MR GODWIN SO: (Via interpreter) Correct. In the past, we  
19 just called them part-time BCs. Since February, for the  
20 newly recruited, they would fit the arrangement of four  
21 weeks in a row, 18 hours a week, and we talk about  
22 continuous work. So it would be confusing to use  
23 "part-time", and that's why we use the term "contract  
24 hourly-rated BC".

25 For this group of employees, they worked for less  
26

1           than 18 hours in the past, then we talked to them. If  
2           they could take up more work, then that means they would  
3           drive for more than 18 hours. That's one way out.

4           Another way is they could take up other posts.

5   MR PETER DUNCAN: Thank you.

6           Could I take you through to page 145, please. This  
7           is the first of two action plans which you have  
8           provided. This first one was provided to the Transport  
9           Department on 10 April. I am sorry, I should have  
10          referred you to page 138. You can see the letter there  
11          at 138, and the second paragraph refers to an action  
12          plan.

13          Do you have page 138?

14   MR GODWIN SO: Yes.

15   MR PETER DUNCAN: Thank you. This response of 10 April --  
16          so again, it was before the first submission to the  
17          committee -- contained the action plan and I am asking  
18          you to turn up, please, page 145.

19          We can see the first of the topics there, consistent  
20          with what you have told us, number 1:

21          "To discontinue the employment of part-time [bus  
22          captains] whose working hours fall below 18 hours per  
23          week."

24          The action plan:

25          "No more new employment of part-time [bus captains]  
26

1 with working hours below 18 hours per week since  
2 15 February 2018."

3 So that was done?

4 MR GODWIN SO: Yes.

5 MR PETER DUNCAN: Secondly, number 2:

6 "To offer the previous part-time [bus captains] the  
7 option to convert to contract hourly-rated [bus  
8 captains] or to take up alternative duties in the  
9 company."

10 Then the action plan states this:

11 "Status of the 209 previous part-time [bus  
12 captains]:

13 Agreed to work [more than] 18 hours a week: 78.

14 Agreed to work over 10 hours a week; declare doing  
15 part-time [bus captains] at KMB will not breach the  
16 employment contract with their employer", and then  
17 a third row, "Quitted".

18 So if I could concentrate on the middle  
19 classification, do I read that correctly that some of  
20 the previously employed part-time bus captains are now  
21 permitted to work more than 10 hours a week but less  
22 than 18 hours a week, provided they are not breaching  
23 the employment contract with their employer?

24 MR GODWIN SO: Yes. Can I supplement?

25 MR PETER DUNCAN: It is not universally more than 18 hours?  
26

1 If you have been previously employed by the company, you  
2 can work, say, for 12 hours a week, provided there is  
3 a declaration that the employment contract with other  
4 employer is not breached?

5 MR GODWIN SO: Yes.

6 MR PETER DUNCAN: What about those who agree to work more  
7 than 18 hours a week? There is nothing in this  
8 particular box which suggests that they have to make  
9 a declaration with regard to whether or not they are  
10 breaching their employment contract. So what is the  
11 position with those who agree to work more than 18 hours  
12 a week? Do they have to make a declaration?

13 MR GODWIN SO: Can I one by one to explain slowly?

14 MR PETER DUNCAN: Please.

15 MR GODWIN SO: (Via interpreter) Someone was previously  
16 a part-time BC, now he opted to become a BC with more  
17 than 18 hours; he signed a new contract, and he is  
18 regarded as a contract hourly-rated BC. He has to  
19 disclose his outside employment. He has to disclose his  
20 outside employment. So this is the first category:  
21 agreed to work for more than 18 hours.

22 For the second group, they are still part-time BCs.  
23 This is because at that time there was a group of  
24 part-time BCs, they have been working for us, and all of  
25 a sudden they haven't been assigned work. They talked  
26

1 to us. They have expectations of us. We have been  
2 employing them. We have stopped new employment. We  
3 know about their driving skills. So we tried to do  
4 something which is a compromise to both parties. They  
5 can continue to drive, but then, as Mr Lee has said, we  
6 don't want them to drive an hour or two. At least they  
7 should drive 10 hours. And they have to declare that  
8 doing so would not breach the employment contract of the  
9 other job, because I know that for some employment  
10 contracts part-time work would not be allowed and they  
11 shouldn't have been working for us.

12 CHAIRMAN: Before you go on, Mr So, we have received  
13 evidence from drivers in this very category, Part-time  
14 Drivers Union.

15 Carry on.

16 MR GODWIN SO: (Via interpreter) I have finished.

17 MR PETER DUNCAN: I'm just wondering why, in the first  
18 category, there is no reference to the requirement for  
19 a declaration.

20 MR GODWIN SO: (Via interpreter) We have omitted -- well, in  
21 fact, the 78 of them did declare, they did report to us  
22 about their alternative employment.

23 CHAIRMAN: So was this done in a form?

24 MR GODWIN SO: (Via interpreter) Yes, and I can supply  
25 a copy.

26

1 CHAIRMAN: Please do.

2 MR PETER DUNCAN: So whether you work more than 10 or  
3 whether you work more than 18, you have to sign the same  
4 declaration; is that correct?

5 MR GODWIN SO: (Via interpreter) They are two different  
6 documents, but I can provide both to you.

7 MR PETER DUNCAN: Thank you.

8 While we are on the subject of these sorts of  
9 documents, I don't believe in the bundle we have any  
10 example of an employment contract with the bus captain.  
11 Is there a standard letter of employment that is entered  
12 into?

13 MR GODWIN SO: Yes.

14 MR PETER DUNCAN: Could you also provide that, please?

15 MR GODWIN SO: I will.

16 MR PETER DUNCAN: Is there just one form for all bus  
17 captains or are there different forms depending on their  
18 status?

19 MR GODWIN SO: (Via interpreter) For the new recruits, one  
20 form, and then there is another one. That's for the  
21 re-employment of retired BCs. So two types.

22 MR PETER DUNCAN: Thank you. We would be grateful if you  
23 could make available the two types. Thank you.

24 MR GODWIN SO: Yes.

25 MR PETER DUNCAN: Now, if we could go back, please, to  
26

1 page 124. I have a few more questions about part-time  
2 bus drivers, bus captains.

3 In fact, I think if you start with page 117 in the  
4 bundle. This I think is the first letter which was  
5 written by the Transport Department to the company after  
6 the Tai Po tragedy. The letter is dated 12 February,  
7 and there are a number of -- (a), (b), (c), (d) --  
8 questions, and the first of those questions we can see  
9 at (a). At the moment, I'm concerned with question (b):

10 "KMB's policy on part-time bus captains and details  
11 of these captains, including the number of part-time  
12 captains, deployment and working hours, et cetera".

13 If you then turn to page 124, you will pick up the  
14 question at the top of that page.

15 KMB's response is described to issue (b), as we can  
16 see it in (i):

17 "KMB's policy on part-time [bus captains]".

18 If you go through the bullets, there are seven of  
19 them, they basically say that part-time bus captains are  
20 treated in the same way as full-time bus captains in  
21 each instance, save for the third, which is concerned  
22 with training. So the first bullet:

23 "Part-time BCs have the same entry requirements as  
24 full-time BCs ..."

25 The second requirement:

26

1 "Part-time BCs are subject to the same assessment of  
2 instructors ..."

3 Then we get the third one:

4 "Part-time BCs receive appropriate training before  
5 passing out for duty ..."

6 So it's not "the same training", it is "appropriate  
7 training".

8 If I could just try to identify any differences  
9 which existed at least at this time, that's February  
10 2018, between the training which was provided to  
11 full-time bus captains and the training which was  
12 provided to part-time captains respectively.

13 In that respect, can I take you, please, to  
14 page 120. I think the first difference -- sorry, is  
15 there a difference in the qualification and recruit  
16 requirements in that for a full-time candidate, the  
17 alternative requirement is the holder of a private car  
18 licence for at least three years, or the holder of  
19 a valid class 10 or class 17 licence, whereas for  
20 a part-time candidate, in (ii), you must have either the  
21 class 10 or the class 17? Is that the first difference?

22 MR GODWIN SO: Yes.

23 MR PETER DUNCAN: Thank you.

24 CHAIRMAN: Presumably, that's because you weren't prepared  
25 to bear the cost of training someone to be a part-time  
26

1 captain if all he held was a driving licence; would that  
2 be it?

3 MR GODWIN SO: Yes.

4 MR PETER DUNCAN: Thank you.

5 The second matter to which I wish to bring your  
6 attention is (iii), "General training", and for  
7 full-time candidates, I refer to the bullet under (iii),  
8 he is required to "undergo an 18-day training (9.5 hours  
9 a day) (subject to extension based on assessment of the  
10 candidate's performance by instructor)."

11 And if we turn the page to page 121, we will see the  
12 comparable requirement for the part-time bus captain.  
13 Under (iv), he or she is required to undergo a training  
14 of 2.5 days, as compared to 18 days, of 9 hours a day.  
15 Is that the difference?

16 MR GODWIN SO: Yes, but I mention that for the (vi), this  
17 part-time BC with class 10 or class 11 driving licence.

18 MR PETER DUNCAN: Yes. There is still a difference, is  
19 there not, between the length of the training, in that  
20 the full-time bus captain has to undergo an 18-day  
21 training, whereas the part-timer has to undertake only  
22 a 2.5-day training?

23 MR GODWIN SO: Yes, at the moment.

24 MR PETER DUNCAN: Then a third difference, if I understand  
25 this correctly, if you look at page 121, "Phase 2", the  
26

1 route training at the bottom of that box is conducted on  
2 two routes; whereas if you look at the part-time  
3 position at page 122, the route training is for one  
4 route. Is that a difference?

5 MR GODWIN SO: Yes.

6 MR PETER DUNCAN: Then a further difference, if I understand  
7 this correctly, at page 121, the full-time -- I'm  
8 looking at the bullet just above (iv):

9 "A full-time [bus captain] candidate will have  
10 a total of at least 68 hours of on-the-wheel bus driving  
11 training (inclusive of the time for route training)  
12 under the supervision of instructors."

13 And the equivalent at page 122, just under the box:

14 "A part-time [bus captain] candidate will have  
15 a total of at least 16 hours of on-the-wheel bus driving  
16 training (inclusive of the time for route training)  
17 under the supervision of instructors."

18 So is that a fourth difference?

19 MR GODWIN SO: Yes.

20 MR PETER DUNCAN: Do you consider that the difference in the  
21 training between full-time captains and part-time  
22 captains is justified?

23 MR JAMES WONG: (Via interpreter) First of all, during the  
24 time of -- that was the training situation at that time  
25 around the incident, but not the current training  
26

1 situation now.

2 Mr Duncan just now cited a number of training  
3 requirements or factors. For training on full-time  
4 captains, for the 18 hours, each instructor would train  
5 two candidates. For part-time BCs, the training would  
6 be one-to-one. So in terms of direct guidance and  
7 education for bus captains, the time allocated would be  
8 greater. At that time, the thinking was that this could  
9 achieve the objective of enabling them to drive. So  
10 that was the situation at the time.

11 Meanwhile, the requirements of 18 days and 2.5 days  
12 refer to general training -- if a captain cannot fulfil  
13 the requirements within 18 days, the period might be  
14 extended, and likewise, for part-time captains, if the  
15 training cannot be completed within 2.5 days, the  
16 training would be extended.

17 MR GODWIN SO: (Via interpreter) I would like to add to  
18 that. In terms of justification, in the past, the 18  
19 days of training was provided in two phases. With the  
20 first phase, the driver can secure a driving licence.  
21 The captain would have held a licence already, ahead of  
22 the training. So the direct comparison should be  
23 between 2.5 days and nine days.

24 Secondly, for full-time captains, the ratio of  
25 instructors to candidates is two to one, whereas for  
26

1 part-time captains it would be one to one, and for  
2 full-time captains they would train on four to five bus  
3 types, whereas for part-time bus captains, they would be  
4 trained on two bus types. For the number of routes  
5 trained, for full-time BCs, two, and for part-time BCs,  
6 only one.

7 So the scope of education would be less diversified  
8 for part-time captains because they are likely to only  
9 operate one to two routes, and the training given by  
10 instructors would be on a one-to-one basis.

11 CHAIRMAN: So is the short answer to the question "yes"?

12 MR GODWIN SO: Yes, it's satisfied.

13 CHAIRMAN: Yes.

14 MR PETER DUNCAN: Do the full-time drivers and part-time  
15 drivers drive the same buses?

16 MR GODWIN SO: Yes.

17 MR PETER DUNCAN: And leaving aside the number of routes,  
18 the number of different routes that drivers drive on, do  
19 they drive on the same routes?

20 MR GODWIN SO: (Via interpreter) It's hard to give a direct  
21 answer. We have more than 400 routes. For our new bus  
22 captains, whether or not they are full-time or  
23 part-time, at the beginning they would drive the easier  
24 routes. As to whether all captains would drive the same  
25 routes -- well, we have four depots, but at the  
26

1 beginning drivers would drive the easier routes.

2 MR PETER DUNCAN: I know you have reviewed the training

3 provisions in recent times, and we will come to those in

4 the morning, but can I just ask you this question.

5 Under the new proposals -- leave aside the practice note

6 but just your new proposals -- will the training for bus

7 captains be the same whether they are full-time or

8 whether they are part-time?

9 MR GODWIN SO: Yes.

10 CHAIRMAN: Mr Duncan, thank you. If that's a convenient

11 moment, then we have reached the end of our day, tiring

12 no doubt as it was for everyone, not least the

13 stenographers.

14 We will adjourn now and we will resume tomorrow at

15 10 o'clock. Thank you.

16 (5.30 pm)

17 (The hearing adjourned until 10.00 am the following day)

Statement by DR NORMAN LEUNG .....1

Examination by MR DUNCAN (continued) .....4

*[Blank Page]*

1 2018 年 8 月 10 日

2 上午 10 時 01 分恢復聆訊

3 出席人士如前。

4

5 主席：（經傳譯員）梁博士，各位早晨，歡迎大家嚟到繼續出席我哋嘅聆訊。梁博士  
6 有咩嘢你想講一講呢？

7 梁乃鵬先生：（經傳譯員）係，主席，各位早晨。我想用兩分鐘講一講。主席，我係  
8 講關於鄧樂勤先生响 4 月提出嘅要求，要求星期二要求一個報告，2018 年 3 月  
9 12 號。主席我有過一個機會係睇番個報告嘅第二、第三部分，我係信納第三部  
10 分嘅報告，即係話關於巴士司機嘅事項呢部分，係唔會影響呢個警方進行嘅調  
11 查，唔會受到影響。

12 我都覺得呢個報告應該儘快交畀呢個獨立檢討委員會，等委員會更加明白  
13 我哋點樣招聘，點樣做訓練，同埋係點樣監察巴士司機嘅表現。請你接納我嘅道  
14 歉，即係話我之前有提交呢個報告嘅第三部分畀委員會，至於話報告嘅第二部  
15 分，即係有關意外調查嘅報告，我認為內容向公眾公告，係並不適宜。我亦都認  
16 為呢個報告係同呢個委員會嘅職權範圍，並不符合。

17 我亦都想多謝委員會就提醒我，呢個綠色駕駛監察系統嘅事項，我已經同  
18 管理層傾過，即係話究竟喺星加坡呢個 Tower Transit 公司，即係話响星加  
19 坡佢哋係點樣實施呢個綠色駕駛嘅監察系統。我亦都從中得到一啲啟發，上次所  
20 講呢份報導文章，或者我哋應該要重新考慮畀表現良好嘅司機係一個獎金嘅制  
21 度，應該安排，唔需要一個係好大額嘅獎金，但係都係一種對於巴士司機係一種  
22 獎勵，亦都可以係鼓勵安全駕駛同埋綠色駕駛嘅行為。

23 主席：（經傳譯員）多謝你梁博士。我想問一問關於嗰個報告嘅各個部分，有部分就  
24 要求公開，有部分唔公開，咁上次你嘅信件佢响 8 月 9 號呢係信件嘅最後一  
25 段，係向我哋提出一啲睇法，鄧生，你有咩嘢睇法？

26 MR DUNCAN：（經傳譯員）報告第三部分，我哋喺响 377 頁，九巴文件冊裏面 377  
27 頁。我就覺得第三部分只係一個簡介，就即係要求係附件 5 嘅一啲要求資料嘅  
28 一個簡介。

29 主席：（經傳譯員）係，我哋收到回覆？

30 MR DUNCAN：（經傳譯員）係，收到，所以冇乜特別關於第三部分事項係需要再  
31 睇。

32 主席：（經傳譯員）即係根據你嘅意見，第二部分我哋會採取跟進行動，第二部分有  
33 一啲材料係唔同性質，而家我哋都唔知道佢有咩嘢內容。意見或者係睇法，對委

1 員嚟講係無關重要，但係嗰個係有關記錄，可能對我哋嘅工作有關係。正如你所  
2 講，我哋可以稍後再跟進。

3 MR DUNCAN：（經傳譯員）我哋會咁做，主席。多謝你主席，梁博士各位，早晨，  
4 上次研訊完之後，我哋收到公司嗰兩封信，我想睇第二封先。呢個係 KMB-1，  
5 297 頁。我想請大家睇睇最底 297 頁第一段，佢就提述到第二項個項目，呢個  
6 係關於嗰啲好急彎，二十九個嘅，我哋响星期二都講過。

7 信件就話關於第二項，即係話呢個我哋要求嘅第二項事項，佢哋就有啲附  
8 件作為信件附件 B，咁就有羅馬數 I 去到第 VI 項，就提述一啲事項。跟住去到  
9 第 VI 項羅馬數字，呢個係一個陳述書，有啲係電郵嘅紀錄，呢個 Owen  
10 Eckford，當時係營運董事，就唔贊成呢個咁樣安全改進計劃。

11 我想喺呢度探討一下，喺呢方面我可唔可以請你亦都同時睇一睇同一套嘅  
12 文件 309 頁。309 頁去到 311 頁，第一項就係嗰個信件提過，呢個係一個會議  
13 記錄，即係話關於係辨析出嚟嘅急彎嘅安全速度限額嘅檢討，呢個 2014 年 7 月  
14 31 號，呢個會議總共維持兩個半鐘頭，有啲人出席咗呢個會議。我哋可以自己  
15 睇番個 309 到 311 頁就可以睇到個會議記錄嘅內容，312 就係第二項文件，正  
16 如你文件所講第二個事項。

17 其實呢個係一個表格嚟，表格就列出嗰三十個急彎，312 頁到 314 頁，去  
18 到 315 頁，呢個第三個事項，即係個文件所講嘅第三個事項，呢個係一個係通  
19 訊嘅計劃，睇到即係打算點樣通知各方計劃，由 315 頁開始去到 316 頁，我認  
20 為呢個係一啲好詳細提議，即係關於點樣溝通嘅，即係將當時嘅計劃點樣係通告  
21 有關嘅方面。

22 318 頁，呢度就見到有一啲相片，好多張相片，就係有關嗰啲彎道，彎  
23 位，一路可以去到 351 頁。352 頁就係所提出嘅信件第五項，呢個係一個係所  
24 謂係草擬本嚟嘅，係嗰個安全速度嘅一張卡，352 頁見到呢個係草擬本，安全  
25 速度嘅卡嘅草擬本；跟住第六項 353 頁到 355 頁，呢啲係一啲電郵嘅信件。

26 Eckford 先生，你首先喺信件講，就話佢並不贊成，並不通過呢個咁樣嘅  
27 計劃，我想你睇睇呢啲係電郵嘅內容。首先開始嘅時候，就係有一份電郵 354  
28 頁開始，呢個係 Gary Wong，咁頭先我發出，我哋都已經知道佢係當時安全服  
29 務組別嘅主管，2014 年 8 月 14 號發出畀 Edmond Ho，何先生，當時係公司嘅  
30 董事總經理。啱唔啱呢？何生係咪當時嘅董事總經理？

31 梁乃鵬先生：（經傳譯員）係。

32 MR DUNCAN：（經傳譯員）佢幾時就唔再做董事總經理呀？

33 梁乃鵬先生： Roger should say.

34 李澤昌先生：（經傳譯員）2015 年 1 月 1 號開始唔做。

1 MR DUNCAN: Thank you.

2 主席: (經傳譯員) 咁你開始就你嘅任期, 係咪呀?

3 李澤昌先生: Yes.

4 MR DUNCAN: (經傳譯員) 佢係咪離開公司呀?

5 梁乃鵬先生: (經傳譯員) 佢留低嘅, 就作為一個董事局嘅非執行董事, 我諗做咗過  
6 去八年都係咁樣, 都係做呢個職位。

7 MR DUNCAN: (經傳譯員) 好, 睇番呢份電郵, 呢個係由黃生發出嘅電郵畀何先  
8 生, 我就唔係成封電郵讀出嚟, 不過你可以快快咁攞一下, 你就見到, 佢就話畀  
9 何生, 同埋有啲副本有送交到其他人。佢就講到一個係現場嘅一個測試計劃, 就  
10 關於係嗰三十個急彎嘅安全速度嘅一個測試, 就 8 月 12 號完成咗。

11 主席: (經傳譯員) 鄧生, 你未講之前, 可唔可以建議下, 你可唔可以讀第一段出  
12 嚟?

13 MR DUNCAN: Yes.

14 主席: (經傳譯員) 因為嗰度可能會引起一啲對我嚟講, 有用嘅一啲問題, 因為呢個  
15 係公共嘅研訊嚟嘅, 因為除非佢哋有啲係背景佢哋好難明究竟發生咩嘢事?

16 MR DUNCAN: (經傳譯員) 好, 我而家讀出第一段「能夠好高興通知你, 關於安全  
17 車速, 即係關於嗰三十個識別咗嘅急彎同埋迴旋處嘅現場測試, 就已經喺 2014  
18 年 8 月 12 號星期二完成咗, 你可以睇番夾附喺呢一度嘅 Excel 個檔案呢, 就  
19 可以睇到我哋嘅 EO, 佢計出嚟嗰啲安全嘅車速, 咁同埋訓練學校嗰啲授權嘅人  
20 員, 就係點樣計出嚟, 然後就係將佢核實嘅, 咁之後 EO 有關嘅訓練學校、車  
21 廠、龍運巴士公司同埋安全及服務質量部, 佢哋係一齊做咗一個最後嘅檢討  
22 嘅。」

23 主席: (經傳譯員) 大律師, 呢度用咗好多簡寫, 你可唔可以話畀我哋聽呢啲簡寫係  
24 咩嘢意思? 請你通過九巴嘅代表, 睇下呢啲簡寫係咩嘢意思?

25 MR DUNCAN: (經傳譯員) 請各位幫係我哋睇一睇呢啲簡寫係咩嘢意思, 我哋睇下  
26 已經係抄寫咗喺度嘅呢啲, 咩嘢叫做 DMD, 呢個 Evan Auyeung?

27 李澤昌先生: (經傳譯員) 佢就係副董事總經理。

28 MR DUNCAN: (經傳譯員) HR, 係咪即係人力資源部?

29 李澤昌先生: (經傳譯員) 係, 啱。

30 MR DUNCAN: (經傳譯員) OD 呢?

31 李澤昌先生: (經傳譯員) 車務總監。

1 MR DUNCAN：（經傳譯員）呢一個嘅位置，今日係咪都仲係存在呢？

2 李澤昌先生：（經傳譯員）有。

3 MR DUNCAN：（經傳譯員）係咪就係而家呢位梁生？

4 李澤昌先生：（經傳譯員）係，冇錯。

5 MR DUNCAN：（經傳譯員）DOD 呢？

6 李澤昌先生：（經傳譯員）副車務總監。

7 MR DUNCAN：（經傳譯員）SSQ 呢？

8 李澤昌先生：（經傳譯員）安全及服務質量部。

9 MR DUNCAN：（經傳譯員）好嘞，嚟番個電郵個本體。第一段 EO 呢？

10 李澤昌先生：（經傳譯員）工程主任。

11 MR DUNCAN：（經傳譯員）DI 呢？

12 李澤昌先生：（經傳譯員）駕駛導師。

13 MR DUNCAN：（經傳譯員）BCTS？

14 李澤昌先生：（經傳譯員）巴士車長訓練學校。

15 MR DUNCAN：（經傳譯員）我諗我哋都處理咗第一段嘅簡寫。咁之後仲有提述到一  
16 個檔案，就係夾附咗呢一度，就係用 Excel 嘅方式寫嘅一個檔案。咁第二段開  
17 頭嗰度都有講，你睇唔睇到呀？咁呢個電郵繼續咁講，佢話關於嗰啲理論嘅計  
18 算，同埋嗰三十個已經識別出嘅地點，安全車速嘅核實。

19 同埋如果係好可能令到巴士有翻側嘅風險嘅話，咁同埋有時就係轉彎嘅時  
20 候，嗰個半徑係有唔同，令到車長可能會有錯誤，譬如話佢哋會記錯咗，即係無  
21 論你畀幾好嘅訓練佢，呢一度就係打咗窿，咁就係比較難睇，我相信呢個意思係  
22 話即係你對佢哋簡介咗幾多次，佢哋都可能會唔記得。

23 但係如果有咁樣嘅人為錯誤，嗰個結果就係會好嚴重，即係如果巴士車長  
24 係記錯咗，然後佢用嘅車速係唔應該用嘅車速，就會有大問題，就會導致嚴重嘅  
25 巴七翻側意外，係會比其他嘅交通意外造成嘅風險係更加大嘅，呢一個風險呢係  
26 不能接受，不能忍受嘅，因此我哋就認為係應該有更強嘅風險管理，去盡量減低  
27 人為錯誤造成嘅不能接受嘅風險。

28 因此我哋就會係將安全車速嘅不同種類將佢簡化，變成係每小時 15 公里，  
29 每小時 20 公里，每小時 25 公里，就去處理呢三十個我哋識別咗嘅急彎同埋迴  
30 旋處，咁樣就令到車長更加容易明白，同埋記得。跟番我哋夾附嘅 Excel 嗰個  
31 檔案裏面，我哋講最後檢討，我哋而家喺下面就係表列咗我哋建議嘅安全車速。

1 你就會睇到呢一段，就係講到唔同嘅車速限制。喺 355 個度佢仲會係繼續  
2 講，我哋用安全速去處理車速，係對道理安全嚟講一個好基本嘅原素，我哋係認  
3 為安全車速係一定唔可以喺同一個車廠區係高過我哋計過可能導致翻側嘅車速。  
4 有一位車長佢係記錯咗嗰個安全車速應該係 15 公里，但係佢行咗 20 公里，咁  
5 樣未必係會導致翻側。

6 因為我哋計過喺嗰個檔案裏面第二十段個度，就如果喺清水灣道，有關嘅  
7 翻側嘅車速應該係 24.9 公里先至巴士會翻側，呢一個原則亦都係會適應該於其  
8 他嘅車廠。呢一度你就係會講到有關其中一個車廠。你呢個 KBD 係咪即係話九  
9 龍灣車廠。

10 李澤昌先生：係，冇錯。

11 MR DUNCAN：（經傳譯員）我哋結論嘅時候，下低就係一啲行動嘅計劃。

12 第一，我哋係要搵番呢啲彎位同埋迴旋處嘅地點去睇下邊度呢有最高嘅令  
13 到巴士翻側嘅風險，呢一啲嘅做法首廿九個，就已經喺 2014 年 6 月 6 號做好  
14 咗。

15 第二，就去計算一下所有呢啲識別咗嘅彎位，同埋迴旋處嘅安全車速，我  
16 哋係根據技術嘅評估，咁呢個開頭嗰廿九個識別嘅地點，就已經喺 2014 年 6 月  
17 27 號完成咗，而第三十個，就喺 2014 年 8 月 13 號完成咗，呢個就喺元朗方  
18 向嘅博愛交匯處。

19 (c) 應該用實際駕駛測試去核實我哋計算出嚟嘅安全車速，咁開首嗰廿  
20 九個識別嘅地點，就已經喺 2014 年 7 月 29 號完成咗，而第十三  
21 個喺元朗方向博愛交匯處嗰個，就喺 2014 年 8 月 12 號係完成  
22 咗。

23 (d) 就係要去檢討安全車速，個基礎就係要跟番駕駛測試嗰個計算結  
24 果，就喺廿九個識別地點就已經喺 2014 年 7 月 31 日完成，第三  
25 十個喺元朗方向博愛交匯處嗰個，就 2014 年 8 月 13 號完成咗。

26 (e) 就係要發展一啲溝通計劃，就可以將安全信息係傳遞出去，呢啲信  
27 息就係關於安全車速，令到佢哋可以交界所有車長。

28 請大家睇下我哋夾附嘅溝通計劃，同埋我哋要去進行一啲車速嘅查核，然  
29 後跟住下一個有一個提述，就係講到嗰個檔案，個電郵就繼續講，我哋認為實施  
30 咗呢一個實施安全車速，應該可以喺 2014 年 10 月可以實施，即係話處理咗溝通  
31 計劃第一至三項嗰啲行動之後，就可以實施。

32 個電郵就係寫畀何達文先生，當時嘅董事總經理，就係副本係交界其他  
33 人，就係請董事總經理係批准，所以最起就係話「請你批准」。然後喺 353  
34 頁，就會有一封電郵係何生回應。

1 主席：（經傳譯員）你繼續之前大律師，委員會其中一樣要求，就係 8 月 8 個封信  
2 個度寫到嘅，就係一個呢個 Excel 檔案嘅軟件，請問九巴嘅回應有冇處理呢一  
3 點呀？

4 MR DUNCAN：（經傳譯員）我睇呢一個電郵，我就認為應該係處理咗，咁但係我就  
5 會請佢哋直接回答。

6 主席：（經傳譯員）請你直接回答，你搵唔搵到呢一個 Excel 嘅檔案？如果你想睇  
7 番有關嘅問題，我可以喺屏幕畀大家睇，就係一封信嘅附件個度，係 234 頁第  
8 二頁。呢一個係問題本身，即係話如果你有，請你提供，咁呢一個就係所謂購物  
9 表咁樣；第二點就係話希望你提供 Excel 個檔案嘅軟件，...

10 梁健宏先生： Yes.

11 主席：（經傳譯員）...或者有任何嘅確都畀我哋，即係有冇一啲實體嘅覆本？

12 梁健宏先生： We have it.

13 主席：（經傳譯員）你有嘅，係唔係？你會唔會提供呢？

14 梁健宏先生：（經傳譯員）會。

15 主席：（經傳譯員）唔該晒。

16 梁乃鵬先生：（經傳譯員）主席，我理解，啲啲實體嘅本，已經係交咗畀委員會。

17 主席：（經傳譯員）係咪所有啲軟件個度嘅嘢，係咪已經用實體文件提交咗呢？咁嘅  
18 理解正唔正確？

19 蘇偉基先生：（經傳譯員）我哋係印咗出嚟嘅，亦都係提供咗係 312 至 313 頁個  
20 度，係我哋將呢一個提述過嘅 Excel 檔案係印製咗出嚟。

21 主席：（經傳譯員）好，唔該。

22 MR DUNCAN：（經傳譯員）或者我哋而家返番去啲啲電郵個度。353 頁個底部，就  
23 係何達文先生嘅回應，佢係寫畀黃嘉峰（譯音）先生，就即係話頭先個封電郵嘅  
24 發出人，同埋 Owen Eckford，佢當時係車務總監。而家 Eckford 先生係咪  
25 仲係受聘畀九巴呢？

26 李澤昌先生：（經傳譯員）冇。

27 MR DUNCAN：（經傳譯員）咁佢幾時離開？

28 梁健宏先生：佢 2015 年年尾離職。

29 MR DUNCAN：（經傳譯員）咁係咪啲啲係可以同何達文先生做完董事總經理嘅間時  
30 間係脗合嘅呢？

1 梁健宏先生：（經傳譯員）並不是。

2 MR DUNCAN：（經傳譯員）何達文先生係 2014 年尾或者係 2015 年初嘅時候，係  
3 冇再做董事總經理嘅。

4 梁健宏先生： Correct.

5 MR DUNCAN：（經傳譯員）咁呢一封電郵亦都係抄錄畀其他人嘅，咁同黃嘉峰先生  
6 寫嗰個電郵呢都係一樣，大家睇唔睇到嗰個抄錄嘅表嗰度嗰啲人名？

7 梁健宏先生： Yes.

8 MR DUNCAN：（經傳譯員）好，我哋而家睇 354 頁，就係咁樣回應嘅「多謝你同埋  
9 你嘅團隊係盡力去統籌咗呢一個加強安全嘅計劃，你建議嘅行動，我覺得冇問  
10 題，如果要取得正式批准，請車務總監去查核同埋係批准同支持，好多謝你。」  
11 後面係有一個加註，就係話呢一封電郵亦都係抄錄畀其他，「請車務總監去查  
12 核一下，安全及服務質量部主管嘅文件同埋溝通計劃，然後正式由你決定係發出  
13 正式嘅批准，多謝。」我同你查核一下，“HSSQD”係咩嘢意思？

14 梁健宏先生：（經傳譯員）就係安全及服務質量部嘅主管。

15 MR DUNCAN：（經傳譯員）好，唔該。下一份嘅電郵，喺當時...

16 主席：（經傳譯員）係咪即係黃嘉峰先生？

17 梁健宏先生：（經傳譯員）係。

18 主席： Thank you.

19 MR DUNCAN：（經傳譯員）下一份電郵，我哋收到就係一封電郵之後發出嘅 2018  
20 年 4 月 6 號，就係由一位叫 Aman Fong 嘅人士發出，就係培訓及服務質素管  
21 理部嘅，佢就係發出畀 Louisa Leung IA 嘅，嗰個題目就係一樣嘅，就係同  
22 之前嗰兩份電郵嘅題目係一樣。即係話有三十個辨析嘅急彎同埋迴旋處嘅安全速  
23 度限制，呢個 Aman Fong 係做咩嘢職位？

24 梁健宏先生：（經傳譯員）係經理嚟嘅。

25 MR DUNCAN：（經傳譯員）邊個部門嘅經理？

26 梁健宏先生：（經傳譯員）係培訓同埋服務質素管理部嘅經理。

27 MR DUNCAN：（經傳譯員）Louisa Leung？

28 梁健宏先生：（經傳譯員）內部稽核嘅主管理。

29 MR DUNCAN：（經傳譯員）呢個電求佢咁講嘅個電郵「Louisa 請留意呢個信件」  
30 跟住就係話 Aman 發出嘅。即係話 Louisa 就收到呢個信件，就要求佢注意頭先  
31 嘅電郵，係咪啱呀？係咪咁樣解釋定係啱㗎？

1 梁健宏先生： Yes.

2 MR DUNCAN：（經傳譯員）咁之後仲有一封電郵，我哋都曾經睇過，十一日後，4  
3 月 17 號發出，由 Louisa 畀 Aman，嗰個標題一樣嘅。呢度就咁講「Aman，我  
4 哋知道何達文先生要求黃嘉峰先生要搵營運總監嘅正式嘅批准，進行有關嘅計劃  
5 嘅。」你有冇收到其他嘅電郵，就即係 Owen 先生係曾經就住呢個咁嘅事，畀過  
6 正式嘅批准呢？

7 我哋睇到有另一個 Aman 去 Louisa 有一個回應，佢就「冇」，即係似乎  
8 電郵發出之後，冇再收到其他電郵。我哋重組番呢個信件所講嘅事件，297  
9 頁。發出信件嘅人，似乎佢有個結論 Owen Eckfordh 先生並冇批准呢個安全  
10 改進計劃，但係委員會就有收到任何嘅--你有提供任何嘅文件，就話好正面咁  
11 講話，Eckford 先生係冇批准呢個計劃，係佢冇批准到或者有考慮過呢個計  
12 劃。

13 有冇其他嘅資訊可以提供畀委員會？即係你哋公司有冇其他記錄可以提  
14 供？協助委員會了究竟發生咗咩嘢事，即係關於呢個 Eckford 先生佢有啲咩嘢  
15 行動，自從 2014 年 8 月 15 號何達文先生發出電郵之後，佢有咩嘢行動採取  
16 過，等我哋比較 Eckford 先生？

17 梁健宏先生：（經傳譯員）我唔知道裏面嘅情況。

18 MR DUNCAN：（經傳譯員）公司有冇睇番佢嘅紀錄？即係話 2014 年 8 月 15 號到  
19 2018 年 4 月 6 號之間可能發生咩嘢事？即係呢個關鍵嘅期間，有冇咩嘢事發  
20 生，有冇睇番你哋公司紀錄？

21 梁健宏先生：（經傳譯員）我哋有睇。

22 MR DUNCAN：（經傳譯員）即係意思有任何書面嘅材料可以搵到出嚟？

23 李澤昌先生：可唔可以咁講，我哋公司有個 internal audit 嘅部門，我哋就搵咗  
24 我哋個 internal audit 嗰個 head，睇過成個嗰個呢個之前嗰個 safety  
25 service 部門，做過呢一個彎位嘅設計嘅嘢。我哋嗰個 internal audit 嗰  
26 個報告到今日為止，頭先你睇到嗰啲 e-mail，應該係最接近嘅，不過我諗我哋  
27 個 OD 係咪可以再返去再仲有啲咩嘢補充。

28 梁健宏先生：我哋可以再去再睇睇，但係正如李生頭先所講，我哋而家就係我哋手頭  
29 上嘅資料。

30 主席：（經傳譯員）表面睇起上嚟就比較奇怪，因為董事總經理就回應嗰個安全部門  
31 嘅電郵，佢就將呢個電郵就抄送咗嗰個營運總監，請營運總監畀一個正式嘅批  
32 准，跟住四個月之後，呢個董事總經理先至離開公司。你係咪即係話有任何證據  
33 就話嗰個係營運總監就住呢件事做過任何事，批准，唔批准，都冇任何資料？係  
34 咪令人有啲疑惑，你同唔同意？不過你會搵㗎嘞。

1 梁健宏先生：Owen 佢年尾辭職，佢年尾離，2015 離開。

2 主席： Not the end of that year; it's the end of the following  
3 year.

4 梁健宏先生：2015 離開，佢離開之前呢個計劃佢亦都冇任何表示過，我 4 月呢個--  
5 （經傳譯員）喺 2015 年做咗副嘅營運總監。

6 MR DUNCAN：（經傳譯員）我明白你講嘅，不過我想你留意，就係話就咁表面睇  
7 嚟，可能有得解釋，嗰個董事總經理將呢個電郵抄送畀營運總監，如果你需要正  
8 式嘅批准，即係呢個係一個新嘅安全嘅計劃，你話即係話有任何證據，你話畀委  
9 員會聽佢冇做過任何嘢，即係不論係批准，唔批准定係有資料？

10 梁健宏先生：你留意到當其時個 MD 覆番個 e-mail，佢喺下低嗰度亦都係話喺  
11 subject to 一個 communicataion plan，咁當其時亦都做咗一個  
12 communication plan，好多車務嘅同事，車務主任亦都去到各個站同車長去  
13 溝通，當其時嘅反應就係不理想嘅，啲車長係有好多嘅意見。我相信呢個係其中  
14 一個原因，當其時嘅 OD 佢會考慮嘅，至於係咪呢個佢唔批准嘅原因，就有正式  
15 披露嚟。

16 主席： Yes. Mr Duncan.

17 MR DUNCAN：（經傳譯員）你有冇同嗰啲係巴士司機自己有溝通呢？

18 梁健宏先生：（經傳譯員）冇嘅。

19 MR DUNCAN：（經傳譯員）呢個只係你上任前？

20 梁健宏先生：（經傳譯員）係，我未參與呢個工作。

21 MR DUNCAN：（經傳譯員）你即係話畀我聽，就係你個理解嘅情況？

22 梁健宏先生： Correct.

23 MR DUNCAN：（經傳譯員）有冇任何人當時係參與 2014 年，可以同我哋講當時發  
24 生咩嘢事呀？

25 梁健宏先生： Not in --

26 主席：（經傳譯員）有冇其他人？

27 梁健宏先生：（經傳譯員）有其他嘅。

28 主席：（經傳譯員）梁博士，可唔可以請有關嗰位人士，我哋可以從佢嗰度攞到啲口  
29 述嘅證供？不論係男士，邊位男士或者女士，如果喺度。

30 梁健宏先生： Kelvin.

- 1 MR DUNCAN：（經傳譯員）我想了解下，Eckford 先生而家仲喺唔喺香港呢？
- 2 梁健宏先生：（經傳譯員）唔喺香港嘅。
- 3 楊晉瑋先生：係，多謝主席。正如我上一次個 hearing，我回覆過，當時我係有見過  
4 頭先其中一張紙嘅，裏面係有...
- 5 主席：（經傳譯員）或者係記錄上係顯示究竟你係邊位？
- 6 楊晉瑋先生：（經傳譯員）我係 Kelvin Yeung（證人直接用本地話說）屯門車  
7 廠。
- 8 主席：（經傳譯員）呢個係你之前都係响呢個作過證，處理過嘅事項，啱唔啱？
- 9 楊晉瑋先生：（經傳譯員）啱。
- 10 主席：（經傳譯員）我聽唔到，可唔可以再將你嘅答覆再講多次？
- 11 楊晉瑋先生：係，我係 Kelvin Yeung，楊晉瑋，assistant manager 助理經  
12 理，operations of Tuen Mun depot，車務組嘅，屯門廠。
- 13 主席：（經傳譯員）我頭先問你嘅問題，呢件事你係之前作供嘅時候處理過，啱唔  
14 啱？
- 15 梁健宏先生：正確。
- 16 MR DUNCAN：（經傳譯員）我可能都會重複嘅，不過請楊生你幫我哋講講點解嗰個  
17 有關嘅計劃係有實行到？
- 18 楊晉瑋先生：喺當其時我收到一份文件，頭先喺個 PowerPoint 嗰度都見到有顯示  
19 過嘅，就係顯示當其時嗰二十九個急彎裏面嘅 locations，同埋建議嘅車速。  
20 我當其時就有份去落去同其他同事去唔同嘅車站去搵一啲車長，做我哋日常嘅溝  
21 通嘅時候，就同佢哋傾過呢樣嘢。我收到車長嘅信息，就係佢哋覺得呢張紙...
- 22 MR DUNCAN：（經傳譯員）停一停，你當時係咩嘢職位？
- 23 楊晉瑋先生：嗰陣時我係一個 senior operation officer，高級車務主任，  
24 係，我都係負責屯門嘅車務組。
- 25 MR DUNCAN： Thank you.
- 26 楊晉瑋先生：係嘞，咁我就喺嗰啲車站做，就同車長去做溝通，我收到車長嘅信息，  
27 就係佢哋覺得呢一張紙裏面嘅信息，係唔可行，佢哋冇辦法就住每一個彎去記住  
28 每一個彎嘅車速嚟行駛，咁樣會令到佢哋會有壓力，如果佢哋記錯嘅話，會唔會  
29 公司有一進一步嘅懲罰，呢個係當其時佢哋提出嘅一啲問題嚟嘅，我亦都有將當  
30 其時呢個情況轉達番畀我當其時嘅上級聽。
- 31 MR DUNCAN：（經傳譯員）你嘅上司係邊位呀？

1 楊晉瑋先生：係，當時嘅屯門廠嘅總經理，胡堅強先生。

2 MR DUNCAN：（經傳譯員）仲喺唔喺公司做？

3 楊晉瑋先生：佢已經退咗休。

4 MR DUNCAN：（經傳譯員）從呢個委員會收到嘅材料，就睇到你某一個階段，呢個  
5 計劃就終咗，就有實行到，你可唔可以幫委員會了解下，邊個決定唔再實施呢個  
6 計劃？

7 主席：（經傳譯員）如果唔知道呢一個答案，就唔需要猜測。

8 楊晉瑋先生：我唔了解。

9 主席：（經傳譯員）好，唔該。好多謝你楊生。

10 MR DUNCAN：（經傳譯員）梁生，咁個理解啱唔啱，係咪應該會喺公司嗰度再進一  
11 步搜查你哋嗰啲記錄...

12 梁健宏先生：Yes.

13 MR DUNCAN：（經傳譯員）...去協助委員去找出係邊一位決定咗唔繼續呢一個計  
14 劃，同埋唔繼續嘅理由？

15 梁健宏先生：（經傳譯員）係。

16 MR DUNCAN：（經傳譯員）我都有興趣知道，喺公司個電腦嗰度，係咪都應該有呢  
17 啲電郵嘅副本嘅呢？即係 Eckford 先生收到同埋係發出嘅電郵，喺 2014 年佢  
18 喺公司工作嘅時候，係咪佢啲電郵都有副本喺你哋嘅電腦嗰度？你認為有關嘅資  
19 料係咪應該會有嘅呢？

20 梁健宏先生：（經傳譯員）我唔係好肯定。

21 MR DUNCAN：（經傳譯員）好，唔該。

22 主席：（經傳譯員）呢樣嘢亦都係你進一步搜集嘅時候，可以為我哋找出答案，如果  
23 有人知道邊一位係負責公司嘅記錄保存嘅呢，請你都話畀我哋聽。

24 梁健宏先生：Yes.

25 MR DUNCAN：（經傳譯員）多謝你梁生，而家我去講另外一個題目，不過我就會去  
26 番一件事，就係星期二處理過嘅，就係關於超速報告，你係交過畀我哋嘅，喺  
27 KMB-9 號，3993 頁。翻譯本喺 3995-1。

28 應該係黃祥明先生係協助過委員會講過呢一個報告，係星期二嘅時候。我  
29 只係想澄清一啲事情啫黃生。喺你作供嘅時候，星期二，或者我畀番個參考嘅數  
30 目你，嗰個謄本嘅頁數 134 至 135，你就畀咗一啲關於呢一個報告，就一啲嘅  
31 限額，就係一啲 50 公里嘅區同埋 70 公里嘅區。

1 你就話如果係揸 50 公里車速嗰啲嘅地點，你嘅報告就會係記錄到一啲巴士  
2 係行緊三種唔同嘅車速，而且係有唔同嘅時限。第一個就係 56 至 65 個公里，  
3 如果係行咗三十秒呢，就係會記錄㗎；然後 66 至 70 公里，即係每一個鐘頭就  
4 會行咗十五秒就會記錄；如果係 75 係兩秒都會記錄，跟住關於 50 公里嗰啲，  
5 如果有關嘅速度係去到 76 至 79 公里，就會多過兩秒都會係記錄到，如果係高  
6 過 80 公里就係兩秒都會係記錄到，呢一啲就係你畀我哋嗰啲限值。

7 由你嘅證供我亦都明白到嗰個黑盒，當時就係未能夠識別出不同道路嘅車  
8 速限制，就係未能夠實時向車長發出警示，意思就係話個黑盒係唔能夠知道某一  
9 條路嘅車速限制，唔知道係每小時 50 定係 70 公里，因此對於嗰個車長嚟講，  
10 好多時個限值就係設定喺每一個鐘頭係 75 公里，但係喺大埔嘅意外之後，就將  
11 佢變成 70 公里嘅，咁我嘅理解到而家嚟講啱唔啱？

12 黃祥明先生：（經傳譯員）啱。

13 MR DUNCAN：（經傳譯員）咁其中一個解釋就係話，因為喺當時 2018 年 6 月 7 號  
14 公司係未有擁有運輸署畀嘅數碼地圖嘅。

15 黃祥明先生：（經傳譯員）正確。

16 MR DUNCAN：（經傳譯員）我哋記住呢一點，然後睇番呢一個報告。如果黑盒嘅數  
17 據話唔到畀你聽，巴士係喺 50 公里嘅地區定係 70 公里嘅地址，呢一啲例外報  
18 告點樣可以幫你識別出一架巴士係咪喺 50 公里嘅地區嗰度超速？

19 黃祥明先生：其實就係呢個正正就係原因，點解我哋需要一啲時間先至可以做到呢一  
20 個嘅報告。因為當一個初步嘅資料得悉之後，我哋喺廠嘅同事，就需要喺我哋另  
21 外一個可能叫做電腦程式，就係睇睇呢啲嘅道路，是否係 50 嘅限速道路，或者  
22 係 70 嘅限速道路，從而喺嗰度就搵出佢究竟呢一架車係喺 50 嘅超速道路行  
23 緊，定係 70 嘅限速道行緊，我哋先至可以得到你而家手頭上呢個報告，咁我先  
24 至可以對證睇睇邊一個車長、喺邊一個時段、喺邊一度係有超速嘅行為。

25 MR DUNCAN：（經傳譯員）咁我嘅理解啱唔啱呢？就係話呢一個報告係最近先至做  
26 好？

27 黃祥明先生：呢一個係 2018 年 5 月 1 號嘅報告，都係近期嘅。

28 主席：（經傳譯員）係用咩嘢嘅方法去知道嗰架巴士係喺某一個地區嗰度係超速緊，  
29 用咩嘢方法知道？

30 梁健宏先生：而家係根據嗰條路線，架車行嗰個 route，我哋自己就將嗰架車嗰條  
31 路線就自己就喺自己嗰個電腦系統嗰度就有地點嘅。點樣 identify 個地點，  
32 就係當其時個時間同埋佢行車時速去定嘅，所以呢樣事情係真係需要啲時間，我  
33 哋同事我哋嗰個軟件去處理。

34 MR DUNCAN：（經傳譯員）呢一類嘅報告，你係幾時開始能夠做到出嚟？

1 梁健宏先生：我哋 2013 年開始有呢樣黑盒，都已經有，用呢個方法去做。

2 MR DUNCAN：（經傳譯員）但係你話呢一個報告係今年 5 月先至做好，呢一類嘅報  
3 告當時大埔意外嗰陣時，係咪已經係有呢啲報告呢？

4 梁健宏先生：就 5 月 1 號嘅，但係呢款咁嘅 report，呢啲咁嘅 exception，我哋  
5 之前不勝都有，我哋 2013 年都開始有呢啲咁嘅 exception report，睇到個  
6 車長係喺 56 段超或者係 76 段超速。

7 MR DUNCAN：How long after --

8 主席：（經傳譯員）鄧大律師，等一等，畀啲時間我。

9 羅先生：（經傳譯員）我會問你一個問題。

10 梁健宏先生：Sure.

11 羅先生：（經傳譯員）如果嗰架巴士超速係 67.9，你應該知道佢應該係超速咗，過  
12 咗 50 公里，係咪呢？

13 梁健宏先生：係。

14 歐陽先生：（經傳譯員）喺你公司嘅記錄，你應該有一個咁樣嘅紀錄，你應該係定  
15 50 公里呢一個時速？

16 梁健宏先生：係。

17 羅先生：（經傳譯員）咁你喺運輸署嗰個數碼地圖，你唔需要一定有嗰個地圖先知道  
18 你每一條線嗰啲嘅區？

19 梁健宏先生：嗰啲係我哋自己根據我哋自己個認知去判斷話邊段路係 50，邊段係 70  
20 嘅。即係我哋啲同事要 manually 去喺嗰個自己個記錄嗰度，呢段路至到呢段  
21 路就 50，呢啲路去到邊度係 70，變咗呢個係一個過程，我哋每日都要去做，變  
22 咗有啲同事有啲有啲新嘅路段，我哋要 update，update 我哋自己嗰個記錄。  
23 咁有啲路段，有啲新嘅路線，或者改路，我哋要自己去 update 嘅，呢樣又係  
24 我哋要做嘅事情，就算有呢啲唔同路段嘅距離，50 好，70 好，亦都要同我哋而  
25 家嗰啲黑盒嘅數據又要擺番落去先至 compare 到佢係咪超 50 或者超 70。

26 李澤昌先生：或者我補充少少，其實個黑盒嘅數據就會講咗嗰架車行駛嘅速度，同埋  
27 佢嗰啲 X、Y、Z 嗰啲位置，咁就絕對唔知道嗰段路係咪超速，佢架車由開始去  
28 到終點嘅時候，個黑盒係有個時間，係呢個 X、Y、Z 嘅位置同埋佢當時行嘅  
29 速度。

30 返到嚟公司嘅時候，我哋有一套系統，嗰個系統係知道 X、Y、Z 嘅位置嗰  
31 段路嗰個 speeding limit，咁然後將黑盒嗰個東西 superimpose 落去嘅時  
32 候，就睇到佢有冇超速定係唔超速，係非常長嘅時間，因為我哋有成四百幾條

1 線，每一條線有來回嘅方向，仲兼夾好多班，所以係一個好長嘅時間，呢個係  
2 咁嘅情況，但係你頭先講第二就係，個黑盒本身佢有兩個系統可以做到嘅。

3 一個系統就係黑盒嗰間公司可以 physically 有個 map 裏面，佢喺嗰度就  
4 可以 dictate 咗個 x、y、z，有個速度，呢個佢哋係可以做到嘅，咁嗰陣時就  
5 未做嘅；另外一個方法，就個黑盒嘅公司呢有提議到，如果有個 digital 嘅  
6 map，係一個 live 嘅 map，就好似你講政府個 install 咗裏面嘅話，以上講  
7 嘅情況就可以大大縮短好多，我諗呢個係梁生想講嘅嘢。

8 梁健宏先生：冇錯。

9 主席：（經傳譯員）好，或者係我係重複一下，嗰個黑盒，而家睇番轉頭就會話到你  
10 聽有關嗰啲軸，即係 x 軸、y 軸。

11 李澤昌先生：Correct.

12 主席：（經傳譯員）就話到聽某一個地點喺邊度，咁樣就話到畀你聽嗰個巴士喺邊  
13 度，咁喺嗰個時候喺當時，因為你係每隔一秒都會係記錄個車速，所以你係知道  
14 巴士車速嘅，咁你做嘅第三個步驟，就係要睇下嗰一啲有關嘅地區當時嘅車速，  
15 所以就地點，然後車速，然後車速限制，然後你就要手動咁樣去做嘅，因為你當  
16 時有數碼地圖？

17 李澤昌先生：Yes.

18 MR DUNCAN：（經傳譯員）你係聘請咗幾多人去做呢一個手動嘅工作呢？即係其實  
19 數碼地圖都可以自動做到。

20 李澤昌先生：（經傳譯員）係三十七位。

21 主席：（經傳譯員）呢啲係咪慳錢嘅一個做法？係，大律師你可以繼續。

22 MR DUNCAN：（經傳譯員）我想澄清少少頭先重複嘅嘢，究竟公司係幾時開始提出  
23 呢啲報告？即係可以分到每小時同 50 同 70 公里嗰啲地區？

24 梁健宏先生：其實我哋好早已經有嘅，有啲同事同我講 2007 年已經開始咁做，不過  
25 當其時嗰個黑盒嘅數據就有咁詳細嘅，到 2013 年而家呢款嘅黑盒資料仲多啲，  
26 變咗就可以做得更加仔細少少。

27 MR DUNCAN：（經傳譯員）如果係超出咗 50 公里，譬如話一個月嘅第一日超速，  
28 咁嗰個報告會幾時出到嚟，等你可以即係有個咁嘅結論就發生咗呢件事，要幾多  
29 日？

30 梁健宏先生：而家就四日就出咗個 report，同一時期黃生嗰度就會收到呢啲報告，  
31 黃生就會處理。

32 MR DUNCAN：（經傳譯員）之前要幾耐？

1 梁健宏先生：之前就十日，再之前就十四日，再之前如果係 2007 年嗰陣時，可能仲  
2 耐。因為當其時嗰個電腦記錄喺個黑盒嗰度，就唔可以經 server 經  
3 internet 去傳送嘅，係需要係 physically 去 download 嘅，所以當其時就  
4 比較時間可能仲長。

5 MR DUNCAN：（經傳譯員）呢三十七個人就喺度做緊呢啲嘢？

6 梁健宏先生：可能仲唔只，當其時因為如果講 downloading 嗰啲 data，你每人要  
7 走去架車嗰度就 download，可能牽涉到維修組，每月月檢，我哋講緊幾千部車  
8 嘅話，就一個好 tedious 嘅工夫，肯定就遠遠多於三十七人，但係我哋都有做  
9 當其時。

10 羅先生：（經傳譯員）呢個十日或者十四，係咪即係要需要咁多時間？剛個車長拍  
11 卡，咁個記錄係响個黑盒度，即係唔需要再去睇番十四日前或者四日前，如果係  
12 咁樣做，係咪可以揀番呢？

13 梁健宏先生：正確。

14 羅先生： Why isn't that done?

15 梁健宏先生：而家我哋亦都循住呢個方向亦都係再做，就將個車長嘅資料會唔會擺咗  
16 落去個黑盒嗰度，呢度係我哋會做嘅。我哋琴日畀 IRC 嗰個報告嗰度，其中一  
17 樣 item 就講 geo-fencing 嗰度，我哋亦都加埋呢個元素落去，就係話將個車  
18 長個資料擺埋喺個黑盒資料落去，變咗每一秘嗰個資料都有埋嗰個車長嗰個記  
19 錄，咁就知嗰一秒鐘邊一個車長揸，呢樣嘢我哋就會去做。

20 主席：（經傳譯員）但係而家仲未做到呀？

21 梁健宏先生：No.

22 主席：（經傳譯員）而家嘅黑盒呢冇記錄，嗰個車長嘅八達通，即係佢拍卡開始揸  
23 車，係記錄唔到呢個資料嘅？

24 梁健宏先生：冇。

25 李澤昌先生：咁所以需要有十日時間處理。

26 主席：（經傳譯員）可唔可以簡單啲講，你點樣知道嗰個巴士車長嘅身份？你有巴士  
27 嘅編號、有速度、有位置，你可以計出嗰個，你都知道嗰個係限速係幾多，而家  
28 你係點做，係點樣去搵出嗰個有關嘅司機嘅身份，點樣辨析？

29 梁健宏先生：而家就未做到，咁變咗我哋就要將嗰啲黑盒資料同我哋個站務記錄要去  
30 相併，因為我哋站務記錄就知道邊個車長喺邊個時間揸緊邊架車同埋咩嘢路線，  
31 時間同埋個車牌對番黑盒嘅資，因為黑盒資料就有時間同埋個車，咁就去對番嘅  
32 啲資料就知道邊個時間就係嗰個車長揸，所以變就係用呢個...

1 李澤昌先生：唔係，簡答你，其實今日佢係個黑盒有個資料，跟住佢有一個站務嘅資  
2 料，就另外一道系統，跟亦都有一個就叫做嗰個車嗰個行駛嗰個 fleet  
3 management 個資料。即係佢個站務個資料係印嘅，車嗰個行駛嗰個資料個  
4 fleet 嘅車，再加埋黑盒個資料，佢將嗰三套嘢併埋一齊先至答到法官嗰個問  
5 題，所以係真係好長嘅時間。

6 主席：（經傳譯員）嗰個車站紀錄，係咪用一個你拍卡就會自動記錄？

7 梁健宏先生：係，呢個其中一個 input。

8 主席：（經傳譯員）鄧生。

9 MR DUNCAN：（經傳譯員）多謝你主席，我想向前睇睇其他另一個事項，就係嗰個  
10 實時嘅巴士監察系統，即係巴士車長嘅監察系統。可唔可以請你睇番  
11 Openmatics，Kulis 先生嘅證供。係研訊嘅第六日，158 頁。

12 主席：（經傳譯員）唔該。

13 MR DUNCAN：（經傳譯員）好，請睇第 14 頁。陳正隆（譯音）先生，即係代表委  
14 員問 Kulis 先生呢個問題。如果係可以係即係譬如話嗰啲數據，就每隔五秒鐘  
15 就可以傳送接收，佢哋公司有冇提供呢個服務，即係一條就硬件，一條軟件嚟到  
16 係協助可以實時監察嗰個黑盒嘅數據。個答覆係「可以」，我呢個係背景。你話  
17 畀我聽，而家有關嘅數據係用每隔三十秒就係傳送嘅，就唔可以減到每五秒做傳  
18 送，有冇理解錯誤？

19 梁健宏先生：（經傳譯員）係。

20 MR DUNCAN：（經傳譯員）陳先生，睇下我有冇理解錯誤，陳生就話貴公司係提供  
21 個黑盒，黑盒就收集數據，呢個系統係可以每五秒鐘傳送資料去一個指定嘅伺服器。  
22 佢嘅答覆就「唔㗎」

23 作為監察人員，我响寫字樓我點樣係實時監察司機，我需唔需要額外嘅軟  
24 件，定係你間公司已經係提供咗有關軟件畀我做到呢樣嘢？Kulis 先生話有兩  
25 個方法，可以畀我哋一個軟件嘅解決方案，呢個就係我哋有個 Openmatics 嘅  
26 門站網路，同埋額外嘅一啲係軟件，但係有啲公司佢哋就淨係需要個數據，佢哋  
27 背後有其他嘅資訊系統，我哋只係一個數據嘅提供者，我哋就唔理會佢點樣利用  
28 有關嘅數據。

29 陳生問「响個九巴嚟講，你哋公司正係作為一個數據嘅提供者，咁你知唔  
30 知九巴有冇利用你嗰啲數據，用一啲比較先進嘅用途嚟到做實時監察？」我諗你  
31 响咁嘅情況之下，Kulis 先生話咁嘅情況之下，「九巴係個客戶，而家佢哋係  
32 用佢哋嘅資訊系統嚟到處理嗰個數據，咁當然如果有協議，我哋可以改變呢個方  
33 法。」

34 你覺得個世界上管理商業嘅車隊公司係點樣實時監察佢哋嘅司機嘅系統，

1 呢個普唔普遍？通常佢哋都普遍有咁樣嘅要求，佢哋係要去考慮到安全同埋經濟  
2 嘅原因，有關嘅公司呢通常都希望係監察司機嘅表現，有啲國家就呢個會同嗰個  
3 法律方面嘅規管嘅一啲衝突，要嚟保障佢哋安全，有啲係西歐國家，就唔容易咁  
4 樣引一啲監察系統，不過呢個需要，呢個要求就一向都有。

5 我就想再進一步探討，不過第一先講一講嗰個背景脈絡。首先我想你再睇  
6 番 KMB-4 號檔案，第 1202 頁。呢個係 2013 年年報，我哋都之前見過。

7 主席：（經傳譯員）係九巴㗎？

8 MR DUNCAN：（經傳譯員）呢個係嗰個控股公司嘅。

9 主席： Yes.

10 MR DUNCAN：（經傳譯員）然之後有九巴嘅同埋佢其他嘅附屬公司，有啲係上市公  
11 司。

12 主席： Thank you.

13 MR DUNCAN：（經傳譯員）呢度有講過九巴嘅主要嘅人員，一個叫做 Alok Jain，  
14 係嗰個規劃及發展部門嘅主管，你識唔識呢個人，呢個人當時佢嘅職？呢位  
15 Jain 先生曾經向委員會提供過證供，你知唔知？

16 梁健宏先生：（經傳譯員）係，知嘅。

17 MR DUNCAN：（經傳譯員）想你睇 FE-1，第 40 頁。我想你睇番由 39 頁開始嘅呢  
18 份文件，委員會從程艾樂，Jain 呢位先生收到嘅陳述書，你有冇機會睇東呢份  
19 陳述書？

20 梁健宏先生：（經傳譯員）簡要咁睇過。

21 MR DUNCAN：（經傳譯員）我想你留意第 40 頁，第二段、第三段，為咗方便其他  
22 人同埋你哋各位，我就讀出嚟嘞，佢喺第二段就話「實時嘅營運管理系統，係將  
23 嗰啲黑盒裝咗上巴士之後嘅一個副產品嚟，呢個就係响我加入呢個公司嘅係一個  
24 持續嘅工作，我就涉及有好多嘅會議同埋關於嗰個技術嘅指標，個特色同埋點解  
25 選擇科技，同埋加入咗公司之後我就涉及呢方面嘅工作，我就冇涉及嗰個撥款，  
26 管理同埋招標嘅，我亦都唔記得當時係幾時係邊決定，但我知道嗰個係計劃係當  
27 時係進行緊，目的就係要改安全，希望有即時警示同埋對巴士車長嘅一啲回饋。

28 第二，就係改善現有嘅效率，就係希望可以改善駕駛嘅行為去咁樣做；第  
29 三，就係希望可以更積極咁樣去處理任何嘅事件或者係嗰啲有問題嘅事件，就可  
30 以提供更可靠嘅巴士服務，咁我哋可以用呢個 ROM 系統，就係可以處理咗呢啲  
31 事情，帶嚟好多嘅得益。我哋係廣泛咁樣係討論咗呢件事。

32 因為巴士信息系統嘅數據，當時仲有嘅，就算我哋冇咗呢一個計劃都仲可  
33 以有，我哋就唔可以冇咗呢一個實時監察，呢一個你可以話就係好似一個驗屍嘅

1 做法咁樣。然後(c)嗰度，我就有乜參與一啲嘅討論，就係講關於話呢一個計劃  
2 實際嘅成本，不過通過開會同埋討論，我有一個印象，就係呢一個計劃係可以帶  
3 嚟一個正面嘅 ROI。

4 好多巴士公司，即係喺已經發展嘅世界，都係用相同或者咁上下嘅呢一啲  
5 嘅功能，就係好似九巴睇到 ROM 嘅制度裏面有嘅功能，當時九巴係制訂緊計  
6 劃，我哋其實都係大大去學習首爾、星加坡、倫敦同埋幕尼黑嘅經驗。傳媒嘅報  
7 告或者係一啲係公司嘅宣布，即係呢一啲嘅城市都話畀我哋聽，喺安全巴士司機  
8 嘅行為同埋燃料效率方面，都有好多得益。

9 喺紐西蘭，佢其中一個嘅網站嗰度，巴士公司係可以減低百分之四嘅燃油  
10 嘅耗用，同埋係超速係減低百分之八十一；星加坡嘅 Tower Transit，就係可  
11 以慳油百分之七，然後就係因為不良嘅駕駛行為造成嘅事件係減半。關於碰撞嘅  
12 意外，就減咗一半，而巴士司機造成嘅意外甚至係減咗七成。」

13 呢一個就係程艾樂先生書面畀委員會嘅一啲意見，程生亦都係喺呢一度作  
14 過供，或者我又畀番有關嘅謄本嘅頁數畀你。

15 主席：（經傳譯員）應該係第 3 號文件。

16 MR DUNCAN：（經傳譯員）係，唔好意思，我講咗第 8，即係第 8 日研訊，3 號文  
17 件，係由第 81 頁至到第 98 頁。同埋梁生，你有冇睇過有關嘅作供。

18 梁健宏先生：（經傳譯員）有，我用中文睇過。

19 MR DUNCAN：（經傳譯員）好，我而家唔係話要詳細同你講，但係佢就係進一步闡  
20 釋程艾樂喺剛才佢嘅書面意見所講嘅嘢，講出嗰個效果就係話，公司係考慮過一  
21 個計劃，係會處理實時嘅監測，但係根據程生所講，嗰個計劃就係被取消。

22 首先，我想請問你哋任何一位有冇記得有一個咁樣嘅討論，就係講到話可  
23 以實時監察？

24 梁健宏先生：ROM 係 real-time operations management system，呢個就唔  
25 係一個 real-time monitoring system。

26 MR DUNCAN：（經傳譯員）即係話佢個名唔係講出佢真正嘅功能？

27 梁健宏先生：呢個係一個車務實時嘅管理系統，係車務管理系統，係同駕駛安全係有  
28 關嘅。

29 MR DUNCAN：（經傳譯員）首先，九巴有冇考慮過即係以前，即係程生講嗰啲，實  
30 時嘅監系統，有冇考慮過？

31 梁健宏先生：呢個就係以前我哋有嘅喺車廂入面嘅 driver's alert, driver's  
32 feedback，喺個車嗰度有個 real time alert to bus captain（經傳譯  
33 員）係畀實時嘅警示畀車長，當佢係超速，大力煞車或者係突然加速。

1 MR DUNCAN：（經傳譯員）係，咁你知唔知道喺某個階段，公司係考慮過 Kulis 先  
2 生喺佢作供嘅時候講嗰一類嘅系統呢？

3 梁健宏先生：呢個我曾經知悉過係有咁嘅念頭嘅，亦都曾經知悉過，亦都問過 ZF 呢  
4 個 real-time 提示嘅車長用一個雙向嘅通訊去提示嘅車長，即時提點佢呢個車  
5 長嘅行車態度，不過當其時嘅出發點就係，唔係叫佢安全嘅，係叫佢保持嗰個行  
6 車間距，純粹係 for 車務嗰個運作。

7 MR DUNCAN：（經傳譯員）你睇到 Kulis 先生所講嘅嘢，就係話有一個概念，就像  
8 有人收到資料知道巴士車長係超速，大力煞車，或者係突然加速，然後就係即時  
9 同車長溝通，話畀佢聽佢嘅駕駛行為係咁樣，Kulis 先生所講就係咁樣咁公司  
10 有冇有一個咁樣嘅計劃，去考慮呢一種嘅設施？

11 梁健宏先生：冇。

12 MR DUNCAN：（經傳譯員）從來冇？

13 梁健宏先生：從來冇。

14 MR DUNCAN：（經傳譯員）咁即係你個理解關於程生所講嘅嘢，即係喺佢嗰封信頭  
15 先講嘅嘢？咁你嘅理解係乜嘢，其實阿程係講緊係啲乜嘢？

16 梁健宏先生：我相信佢就係話，我哋而家講緊嗰個實時車務管理系統 ROM，real-  
17 time operations management system。

18 MR DUNCAN：（經傳譯員）如果係咁，我就要請你睇番程生其他嘅證供。我想請你  
19 第 8 日嘅研訊，第三套文件，係謄本嘅文件，第 86 頁。我想請你留意第 9 行，  
20 86 頁第 9 行。

21 主席：（經傳譯員）我建議我哋由呢一頁嘅開頭開始，因為程生就係解釋到兩件事嘅  
22 好處。一，就係將啲巴士組合；第二，就係點樣用嗰數據。

23 MR DUNCAN：（經傳譯員）好，主席。請問主席你係講 85 頁定係 86 頁？

24 主席：（經傳譯員）不如你由 85 頁開始，因為咁樣我哋知道成件事。

25 MR DUNCAN：（經傳譯員）梁生，第 85 頁第 2 行，Jain 先生就話到到嗰陣時之  
26 前，好多九巴數據都係喺個別嘅部門嗰度，咁佢哋嗰度收集一啲工程嘅資料，然  
27 後車務嘅數據就係車務嘅部門同埋係用唔同系統。嗰個計劃就係要全部將佢擺喺  
28 一個單一嘅數據庫嗰度，主席就係問「究竟會點樣用如果有一個單一嘅數據  
29 庫？」

30 程生就話「會三個階段，第一，就係要睇下當時靜態實際上發生緊咩嘢  
31 事；第二個階段就係要有一啲模擬，等我哋可以喺短期將佢做一個即係計劃出  
32 嚟；第三個目標就係話將佢帶到一個可預測嘅水平，等我哋可以用一啲數據或者  
33 統計嘅工具去做一啲向前嘅推算。」「咁如果係第一步驟，係咪即係話實時？」

1 「呢一個就係完全係愛嚟做管理信息嘅，就亦都可以做調查喇，報告。」  
2 「咩嘢叫調？調查乜嘢呀？」「譬如話我哋好多時都會收到乘客對服務嘅投訴，  
3 我哋就可以返去睇啲數據，然後去核實有關嘅資料。」

4 「如果個投訴已經係話呢架巴士係超速，同埋係突然大力煞車，會唔會係  
5 用數據分析，然後將佢去調查，即係如果已經有一個單嘅數據庫？」Jain 話  
6 「理論上可以。」

7 好嘞，呢一個就係去回應個投訴，「咁你會唔會好積極咁樣自己自動咁  
8 樣用啲數據？」「喺第二個階段，我哋就用呢一個實時嘅車務管理系統，當我  
9 哋有咗呢一啲嘅數據之後，我哋就將佢可以傳去一個另外一個水平，就可以分析  
10 有關呢啲實時嘅數據，我哋就可以用實時監察整個車務嘅營運，我哋呢個就叫佢  
11 做例外管理。」「即係話如果有任何嘢係超出咗一般嘅車務做嘅嘢，你而家就可  
12 以積極咁樣即時去處理佢？」

13 「你點係考慮到可以處理巴士嘅駕駛態度呢？」「譬如話如果係有任何嘅  
14 巴士超出咗一般車務應該有嘅參數，我哋就可以發出一個警示，全世界就會用  
15 紅、綠、黃呢三種嘅警示，綠就係正常嘅車務，但係如果有任何嘢係超出有關嘅  
16 限值範圍，就會有一個黃嘅警示，然後再進一步就會紅嘅警示。有時就係要即時  
17 去干預。」主席就問「你會唔會認為如果係超出咗參數，就會發出警示，係咪應  
18 該即時發出？」實時發出？程生就話「個個目的就當然係要喺當時做。」

19 呢個就係嗰一段，係我想提出，照你理解程生當時喺一方面講緊嘅系統係  
20 咩嘢系統？

21 梁健宏先生：我哋現時嘅系統係冇嘅。

22 MR DUNCAN：（經傳譯員）呢樣嘢照你嘅理解，係咪等於一個實時監察系統，就係  
23 Kulis 先生所講個個呢？

24 梁健宏先生：（經傳譯員）唔係。

25 MR DUNCAN：（經傳譯員）個分別係咩嘢？

26 梁健宏先生：我哋個 ROM 係實時車務管理，係講番一啲車務調動同個車長個駕駛安  
27 全係完全有關係。

28 MR DUNCAN：（經傳譯員）似乎程生個理解唔一樣，係咪呀？

29 梁健宏先生：同意。

30 MR DUNCAN：（經傳譯員）當佢話佢理解個計劃係被取消，你記唔記得係曾經開  
31 始過一個計劃，然後就取消咗？

32 梁健宏先生：係未有取消過嘅，呢個 project 係 2014 年 10 月開始做嘅，仲未停  
33 止，仲繼續做緊。

1 MR DUNCAN：（經傳譯員）個背景搞清楚先，你講嘅計劃係咩嘢計劃？

2 梁健宏先生：呢個就係一個實時車務管理系統，因為有呢個黑盒，有呢個巴士嘅實時  
3 地點，就可以令到車務調動更加有效率。

4 主席：（經傳譯員）用咩嘢方法？

5 梁健宏先生：每一條路線嗰啲巴士亦都知道佢喺唔同嘅地點，個前線員工包括站長、  
6 督察、車務主任，佢每一刻都知道嗰條路線嗰啲車輛嘅位置。有啲情況交通擠  
7 塞，啲車輛可能塞埋喺某一個地點，呢啲咁嘅資料，就令到我哋個車務調動更加  
8 容易掌握，知道邊啲地方可能係邊啲站啲巴士可能好耐都返唔到嚟，變咗佢喺調  
9 動巴可以更加有效率，呢個就係嗰個實時車務管理系統最核心嘅方面，可以畀到  
10 我哋嘅車務同事。

11 MR DUNCAN：（經傳譯員）我哋未曾小休之前，我想再睇番 Kulis 先生嘅證供，同  
12 埋佢所提述過之前嘅段落，我引述過佢提出嘅一啲，就响第 6 日提出嘅睇法，  
13 第 158 頁都係第 3 號文件冊。搵到未？158 頁。

14 梁健宏先生：（經傳譯員）係，搵到。

15 MR DUNCAN：（經傳譯員）之前我都提過，係第 25 行，陳律師問，咁你喺咁嘅情  
16 況之下，如果作為一個即係監督人員，坐喺寫字樓，可唔可以實時監察嗰個車  
17 長？佢即係暗示就話如果有問題，可唔可以同個車長嚟到溝通？就話你要改變嗰  
18 個駕駛行為，咁呢個就係佢個問題，當然呢個系統同你頭先所啱啱講嘅係好唔  
19 同。

20 梁健宏先生：正確。

21 MR DUNCAN：（經傳譯員）我想講呢樣嘢作為實時嘅車長嘅監察系統，以免混淆，  
22 我就話呢個係一個實時嘅車長監察系統，Kulis 先生就話呢個都好常見嘅，世  
23 界其他地方常見嘅，你見唔見到佢呢方面嘅證供？

24 梁健宏先生：（經傳譯員）係。

25 MR DUNCAN：（經傳譯員）九巴有冇考慮過做呢樣嘢？

26 梁健宏先生：（經傳譯員）有。

27 MR DUNCAN：（經傳譯員）你哋關於呢個咁樣嘅系統，有咩嘢立場，因為而家九巴  
28 未實施嘅，而你哋嘅立場係咩嘢？

29 梁健宏先生：（經傳譯員）唔現實嘅。

30 MR DUNCAN：（經傳譯員）你覺得即係決定就唔做，係咪呀？即係你哋決定就係唔  
31 採納？

32 梁健宏先生：（經傳譯員）講得啱。

1 MR DUNCAN：（經傳譯員）可唔可以同委員會解釋點解係唔現實？

2 梁健宏先生：對啲車長會好大壓力，亦都未必有咁嘅系統可以處理到咁大量嘅車長同  
3 一時間，亦都曾經徵詢過 ZF Openmatics 呢個情況，覺得個結論都係不可  
4 行。

5 主席：（經傳譯員）你啲諮詢係幾時做？

6 梁健宏先生：一段時間㗎喇。

7 主席：（經傳譯員）可唔可幫下我哋，幾時呀？

8 梁健宏先生：就唔係一個好 formal 嘅討論，不過亦都有啲傾談過，尤其是喺  
9 Openmatics 個部分。

10 主席：（經傳譯員）幾時？

11 梁健宏先生：就唔係我去傾談，我啲同事同佢討論過，知道有啲咁嘅嘢。

12 主席：（經傳譯員）邊個做？邊個同佢哋傾？

13 梁健宏先生：（經傳譯員）我而家唔記得。

14 主席：（經傳譯員）或者畀啲時間你諗一諗，我哋而家就小休二十分鐘。

15

16 上午 11 時 36 分聆訊押後

17

18 上午 11 時 58 分恢復聆訊

19 出席人士如前。

20

21 主席：（經傳譯員）係，大律師。

22 MR DUNCAN：（經傳譯員）多謝主席。梁生，你仲有冇進一步嘅資料可以畀我哋，  
23 就係話邊一位係同 Openmatics 講過呢一件事，同埋係幾時嘅事？

24 梁健宏先生：我問番啲同事，咁就了解番個情況就，呢個佢所提出嘅用一個  
25 supervisor，經過一個軟件，睇住每一個車長嘅表現，其實呢個情況，我哋係  
26 覺得唔可行嘅，所以變咗喺呢一方面，我哋亦都唔會再處理嘅，其實我哋同 ZF  
27 講個樣嘢就第二樣嘢㗎嘅。換句話講，頭先嗰個一個 supervisor 睇住一個  
28 車長，呢個咁嘅做法，我哋覺得唔可行，因為我哋有成四千個車長，我哋唔可能  
29 有咁多個 supervisor 去睇住四千個車長。

1 主席：（經傳譯員）你同 ZF 講嘅係咩嘢？

2 梁健宏先生：我哋同 ZF 嘅設計就係點樣樣將啲實時數據可以傳遞到畀我哋公司，  
3 咁而我哋公司啲數據點樣樣可以做到一啲實時嘅地圖，啲車長喺唔同路線嘅地  
4 點，可以從而令到我哋啲個車務啲個實時管理係做得更加有效率嘅，呢個就係當  
5 其時我哋設計呢個 ROM 嘅目的。

6 李澤昌先生：或者我呢度補充少少。

7 主席：（經傳譯員）幾時討論㗎，呢件事？

8 梁健宏先生：呢個應該係 2013 年我哋開始裝黑盒，當其時我哋知道有黑盒啲個用  
9 途。

10 李澤昌先生：我想喺呢度補充多少少 Operation Director 頭先講啲嘢，其實今  
11 日有兩個睇法，去點樣去實時去管理啲個車隊啲個狀況，一個睇法就係，佢啲個  
12 所謂 real time，佢有個中央嘅控制室，然後就可以知道路面啲車點樣行法，  
13 咁從而由個中央嘅控制室就同個車長去同佢溝通，就令到啲架車行嘅速度同前車  
14 嘅距離唔好太近或者太遠，令到個運作上會係順啲嘅。當然呢樣會有個好大嘅問  
15 題，一，實際上車長喺路面嘅真正嘅情況，喺個控制室裏面，你除非你嘅資料係  
16 非常之準確，你知道路面嘅情況，即係話好多 TV 影住之類嘅嘢，即係佢唔係一  
17 條鐵路嚟嘅；第二個問題，就係同個車長之間嘅溝通，呢個今日嚟講可能係唔理  
18 想嘅，因為個車長喺個路面嘅壓力都相當之大，所以呢個溝通嘅時間亦都係--  
19 呢個頭先梁生係憂慮嘅一點。另外，而家我哋做緊嘅，就係用咗啲數據，然後  
20 我哋自己喺個 back end 嗰度，有一個叫做 TER 嘅 system，T-E-A-R（原文  
21 照錄），我諗你大家都知道，呢一個就會係同我哋喺地勤啲嘅督察，同埋喺站頭  
22 啲個站長啲個，係比較即係有拿捏到啲個交通擠塞嘅情況資料。當啲車長去到  
23 個巴士總站嘅時候，而個站長同埋啲個督察係好清楚呢架車係遲咗幾多。當然，  
24 有啲情況係可能要個車長要做快少少，要追番個班，或者係知道情況，咁呢個我  
25 哋當其時覺得係比較人性化多少少。實際上，因為即係巴士同鐵路有少少唔同，  
26 佢個中央控制去管理四千個巴士喺路面，係有個難度，咁呢個我諗就相信頭先我  
27 哋講緊就係啲個分歧就喺呢度，但係 Openmatics 畀啲數據畀番我哋個 back  
28 end，都係做緊呢一樣嘢，不過就唔係一個中央去控制四千個車長。

29 梁健宏先生：多謝李生補充。

30 主席：（經傳譯員）我諗你都講咗三次嘞，我哋都明白嘅。大律師。

31 MR DUNCAN：（經傳譯員）梁生，我哋小休之前，我有個咁嘅印象就係話，關於呢  
32 個實時嘅司機，巴士車長嘅監察系統，呢個係 Kulis 先生嘅講法，我嘅印象就  
33 係，你話你問公司係同 Openmatics 講過呢樣嘢嘅，你其實而家係咪話，即係  
34 冇講過呢件事？

35 梁健宏先生：我哋有同 Openmatics 商討佢啲個黑盒嘅，就住佢個軟件，話有個

1 supervisor 睇住個車長去管理嗰度，嗰部分我哋係唔會考慮，亦都應該有討論  
2 過。

3 MR DUNCAN：（經傳譯員）即係話你決定唔做一個實時嘅車長監察系統，因為唔實  
4 在？

5 梁健宏先生：我哋覺得如果係用一個 supervisor 睇住一個車長呢個方法去處理，  
6 係不可行嘅，因為你睇番 zF 佢嗰度，佢就 refer to 喺一啲 Western  
7 country，佢 refer 番有啲個別嘅情況，因為安全嘅理由，因為商業嘅理由，  
8 咁就用呢個方式。其實我哋亦都曾經自己內部討論過，有啲--我哋自己有啲  
9 車，我哋有啲車可唔可以會裝啲呢啲咁嘅設施去監察佢，不過嗰啲車就唔係巴  
10 士，譬如係我哋運 coin box 嗰啲車，或者我哋運 fuel 嗰啲 tanker，咁呢啲  
11 車會唔會係一個 security reason 去做呢樣事情，就唔係我哋巴士，所以我  
12 覺得佢 refer 番一啲 case，就未必就係 City bus 嘅，或者我哋咁大車隊嘅  
13 application。

14 主席：（經傳譯員）你係講邊「佢」？邊個係「佢」？

15 梁健宏先生：我講緊就係喺個 exhibit--喺個 evidence 嗰度，你哋 Openmatics  
16 嗰個代表。

17 主席：（經傳譯員）係，你係講緊 Kulis 先生？

18 梁健宏先生：（經傳譯員）係嘅。

19 主席：（經傳譯員）唔該。

20 MR DUNCAN：（經傳譯員）唔好意思，我就想講番程生嘅證供。梁生，關於佢描述  
21 嗰個計劃，你似乎個理解同程生嘅理解係有啲唔同嘅，你有冇涉及佢講嗰個工作  
22 計劃？

23 梁健宏先生：（經傳譯員）有嘅。

24 MR DUNCAN：（經傳譯員）我想你睇番佢證供嘅另一部分，係研訊第八日，係文件  
25 冊第三號，89 頁。未睇呢個佢嘅證供之前，或者想同委員會--你可唔可以同委  
26 員會講一講，你參與係點樣參與法？

27 梁健宏先生：呢個 project 就 2013 年，咁就當其時我就係負責 bus  
28 maintenance，咁亦都有啲參與一啲 presentation，因為有黑盒呢個工具，  
29 可以幫助到公司嘅車務嘅發展，當其時亦都有公司搵過個顧問公司，幫 KMB 喺  
30 呢一方面有啲建議嘅。當其時對於車務，我就本人就唔係好參--我最主要係維  
31 修嘅啫，但係都有參與呢啲咁嘅簡介，個 involvement 就係咁樣樣，知道嗰個  
32 concept，車務點樣樣可以更加有效率，利用實時嘅資料。

33 到到我正式接任車務總監，我先至認真真知道呢個情況，到到我知道呢  
34 個情況之後，我 2016 年接任車務總監，知道有 ROM，real time

operation management system 呢個 project 進行中，我留意到有啲實時嘅地圖，知道架車喺條路線嘅邊度，呢樣嘢就幫到我哋站長督察去點樣調配車輛，呢度係做咗嘅，當其時係 2016 年 1 月，我接任車務總監呢個職位嗰陣時。但我亦同時發覺到呢個 project，原來係包含一啲另外一個功能嘅，就係代替我哋 TER 站務管理系統嘅功能嘅。站務管理系統就係講 bus termini 嘅運作，包括車長嚟到個站，佢去報到，開車，跟住到站，佢會 report duty，知道架車幾時到站，車長亦都喺要接受站長個車務調動，呢個就係站務管理系統 TER，當其時就係 TER。頭先我講番呢個 ROM 其中一個功能就係代替 TER，「代替」嘅意思就係佢會成立一個中央控制室，係遙控咁樣樣，remote 咁樣樣去調派車長嘅工作安排，調派車輛喺唔同路線嗰個班次嘅調動，亦都遙控咁樣樣收到車長嘅報告，就住任何事情，包括壞車，包括意外，包括乘客嘅種種狀況。呢樣嘢就係嗰個設計就係中央去負責所有嘢...

MR DUNCAN：（經傳譯員）唔該晒，梁生。我想你留意...

主席：（經傳譯員）未做呢樣之前，大律師，我想問一個問題，梁先生，你頭先答我哋嘅時候，你話當時有黑盒嘅數據係你考慮過，你又請咗顧問，咁顧問要求--你要求顧問做咩嘢？

梁健宏先生：佢負責就住 service enhancement、service delivery 嗰度畀啲意見嘅。

主席：（經傳譯員）包唔包括防止譬如話呢啲巴士去埋同一箇地方，即係堆埋一堆咁？

梁健宏先生：（經傳譯員）呢個係顧問係即係--係服務嘅。

主席：（經傳譯員）譬如話啲巴士太集中一箇地方都包括，係咪呀？

梁健宏先生：（經傳譯員）係。

主席：（經傳譯員）大律師，請繼續。

MR DUNCAN：（經傳譯員）程生嘅證供，我想你睇一睇 89 頁，謄本嘅 89 頁，係第八日嘅會議嘅，第 14 行，黃律師代表委員會問咗一個問題，問程生，「係咪你加入公司到到你離開嘅呢段期間，你係涉及呢個 ROM 實時管理系統嘅計劃？」

「我唔敢講話我離開嘅時候都係參與，不過當時係討論嘅時候，即係實施嘅時候，我係就好積極咁參與有關嘅計劃嘅。」

黃小姐話「我知道有個段落就係主要要實施呢個計劃嘅原因，係要通過實時嘅警示，同埋畀巴士司機嘅提示，係改善安全。咁可唔可以--關於嗰個將訊息回饋畀巴士司機，你可唔可以話畀我聽，呢個係一個實時、回饋定係一個畀人投訴之後事後先至去向巴士公司提供個資訊？」

程生就話「個概念就係要係希望同巴士公司同埋嗰個控制中心，車務員控

1 制中心有一個雙向嘅溝通系統，咁巴士佢哋有一個叫做 DDU，即係話司機個  
2 顯示系統嘅，咁透過呢個系統，就可以有兩個方法嚟到去干預嘅。第一，就根據  
3 預先設定嘅限值，就如果超出，就有個警示；第二個就係話，有啲人可以向控制  
4 中心嚟到係提示個車長嘅。咁我哋假設，譬如話有人坐咗嗰個車務控制中心，咁  
5 而家有架巴士太快，不過都仲係嗰個車速限制嘅範圍之內，嗰個車上嘅設備就  
6 發現唔到咩嘢問題，不過嗰個控制中心嘅控制人員發覺譬如冇咁地--有某個路  
7 段，天氣，或者其他嘅意外等等，應該係慢一啲嘅，咁呢個督導人員就可以係介  
8 入，就請嗰個司機响呢個路段特別小心，咁呢個係有兩個方法嚟到--兩個水平  
9 嘅干預嘅。」

10 「咁响第二個層面，嗰個係控制中心個督導人員，你點樣可以係同個司機  
11 嚟到係聯絡？」

12 「我哋係經過好多唔同嘅選擇，我哋係講緊一個顯示系統。第二就係，我  
13 哋都講過一個係聽力方面嘅做法。」

14 「咁即係話有兩個可能性，一個就係用顯示系統，另外就係用一個聲音嘅  
15 系統？」

16 「係呀，如果已經有顯示，就另外一個可能性就係加埋嗰個聲音。」

17 「咁會唔會係用無線電，抑或用任何嘅方法？」

18 「應該係可以用無線電，或者用 3G 嘅溝通系統，當時我哋冇講到咁遠。」

19 黃律師就話「你就講過話有好多嘅會議，同埋好多討論係講到呢一個實時  
20 車務控制系統，你記唔記得有冇一啲會議嘅紀錄，或者係一啲文件，係記錄咗呢  
21 啲嘅討論？」

22 「如果我記得，係有好多嘅簡介，亦都有好多嘅電郵係做咗啲摘要，即係  
23 話我哋主要嘅議題，主要要做嘅工作咁，但係如果你話正式嘅會議紀錄，我記唔  
24 到話有冇準備過。」

25 你睇到呢一個證供，梁生，似乎程生描述呢一個嘅計劃，完全係同你對於  
26 呢一個計劃嘅理解係截然不同，你覺得係咪咁？

27 梁健宏先生：（經傳譯員）係，正確。

28 MR DUNCAN：（經傳譯員）你有冇知道任何嘅計劃，係喺公司嗰度進行緊，係關於  
29 程生講到話點樣講番畀啲巴士車長聽？

30 梁健宏先生：現時係我哋有咁樣嘅 project 進行中，現時我哋個 ROM 就唔係做呢  
31 樣事情嘅。

32 主席：（經傳譯員）頭先係問你喺嗰陣時，程生仲喺公司嘅時候，有冇一啲咁樣嘅計  
33 劃係你知道嘅呢？即係唔係話你講個個。

1 梁健宏先生：（經傳譯員）冇。

2 MR DUNCAN：（經傳譯員）喺第 91 頁 19 行嗰度，程生就講到一啲簡介。你都有講  
3 過一啲簡介，你頭先作供嘅時候，都係講番 ROM 呢個實時車務控制系統，咁而  
4 家呢啲嘅簡介嘅資料仲喺唔喺度？

5 梁健宏先生：（經傳譯員）我要查一查先知。

6 MR DUNCAN：（經傳譯員）我哋會好希望你進一步睇一睇，等委員會可以睇番呢一  
7 啲嘅簡介資料、電郵，係關於呢個實時車務控制系統，而係當時程生喺公司嘅時  
8 候呢一啲嘅資料，你可唔可以搵人幫我哋搵下？

9 梁健宏先生：（經傳譯員）我哋會嘅。

10 主席：（經傳譯員）好，唔該晒。

11 MR DUNCAN：（經傳譯員）我哋...

12 主席：（經傳譯員）對唔住，大律師，等一等。

13 MR DUNCAN： Thank you.

14 主席：（經傳譯員）喺呢一方面，就住先前嘅一件事，我想請你提供一啲資料，係關  
15 於保存呢一啲紀錄嘅公司嘅制度，大律師都已經講過話保存電郵，仲有就係其他  
16 嘅紀錄，譬如今次呢啲就係簡介會嘅資料，我哋可唔可以都有一啲資料就係關於  
17 你公司呢一方面嘅政策？唔係一定而家，而係你返轉頭可以畀我哋。

18 梁健宏先生：想補充一點，就住嗰個 ROM，我哋其實就係有一套 2014 年 10 月嘅成  
19 份 ROM 嘅 proposal 係點做，就係喺度嘅，咁呢度講番呢個 ROM 係做咩嘢嘢  
20 嘅，其中有部分係關於用中央控制室去取替站長呢一方面，我就暫停冇做嘅，我  
21 覺得呢樣嘢係唔可行嘅，亦都未經過我哋公司尤其是董事會嘅討論嘅，所以如果  
22 講 ROM 呢個系統，嗰啲資料就喺度㗎喇。ROM 係乜嘢嘢，就係呢啲喇，我亦都  
23 可以交畀 IRC 去了解下實際係呢個 ROM 係咩嘢嘢。正如我頭先所講，“ROM”  
24 係 real time operations management system，係同駕駛安全有關。

25 主席：（經傳譯員）我哋理解你嘅證供，我哋都有程艾樂先生嘅證供，好明顯佢係講  
26 述一啲你有講嘅嘢，但係佢亦都講到用數據嘅另外一個輔助方法，即係嗰個數據  
27 產生係為咗一個目的，但係其實亦都可以愛嚟做第二啲嘢嘅，我哋而家就係問呢  
28 樣嘢，不過我哋好希望都睇到你而家有嘅一啲材料。大律師。

29 MR DUNCAN：（經傳譯員）多謝主席。我離開呢個題目之前，梁生，我哋就係講緊  
30 實時車長監察系統，你都知，呢個就係 Kulis 先生所講嘅系統。我明白你嘅立  
31 場，咁你就話唔實際，不過我希望你好清楚--我好清楚明白就係，究竟公司係  
32 考慮咗幾多。你就話同 Openmatics 討論過，係講到其他嘅車輛，公司有冇做  
33 過任何嘅研究，係呢一個系統可以點樣用？譬如話喺西歐啲國家，即係好似  
34 Kulis 先生提過咁，公司有冇考慮過，考慮咗幾多？

1 李澤昌先生：等我答你呢個問題，有，星期二已經講咗，我哋已經係有一啲同事去咗  
2 北愛爾蘭係學習緊。咁講番即係 Openmatics 個樣嘢，嗰個即時 real time  
3 個樣嘢。過去就個車長喺嗰個行走嘅時候，佢知道佢係咪超速，今日嘅情況就  
4 係，其實當嗰個油針去到 70 公里嘅時候，咁個車長就會提示佢。而家  
5 Openmatics 同我哋公司已經開始係做緊一個研究，就係將佢嗰個地圖係放咗一  
6 啲所謂叫做車速嘅限制，喺香港嘅地方，無論係 70 同 50 都會睇到嘅話，咁即  
7 是話，嗰個所謂 real time，喺嗰個車長嗰個 dashboard 嗰度就會響起超過  
8 70 同埋超過 50，呢個係進行緊嘅。其實呢個亦都喺 7 月 31 號已經開始我哋啲  
9 車隊係試緊呢樣嘢，咁亦都喺尋日我哋入咗啲文件--前日入咗啲文件畀你，都  
10 解釋緊呢個係進行緊。

11 MR DUNCAN：（經傳譯員）係，呢個講到車速，如果大力剎車，突然加速，其他巴  
12 士車長嘅行為係會導致不安全駕駛嘅行為？

13 李澤昌先生：有。

14 主席：（經傳譯員）唔好意思，你而家問嘅問題係咪都同實時嘅監察有關？

15 MR DUNCAN：Yes, real-time driver monitoring.

16 主席：（經傳譯員）如果係咁，你可唔可以再問一次，係包括埋實時監察？

17 MR DUNCAN：（經傳譯員）係，公司有冇採取任何嘅步驟，係關於實時巴士車長嘅  
18 監察，就係除咗超速之外？具體嚟講，就係譬如話大力剎掣，剎車，突然加速。

19 李澤昌先生：今日其實喺嗰個 real time，喺架巴士上，個 sudden  
20 acceleration 同埋個 harsh braking 已經有提示到個車長㗎嘞，今日已經  
21 有㗎嘞，但係我哋過往呢一段時間都發覺到，其實除咗係個 Openmatics 之  
22 外，其實車長--車裏面嘅乘客都要提醒佢哋，因為我哋發覺好多車嘅乘客，除  
23 咗係老人家提醒佢之外，一啲年青人佢用手機，佢令到佢--有個 harsh  
24 braking 同埋個 sudden acceleration 令到佢喺車裏面發生意外都有。我哋  
25 都喺而家特別啲路段發覺呢一個--我哋俗語叫做因為呢樣嘢而有嘅意外，都做  
26 咗好多工作，喺--我相信有啲同事呢一段時間喺嗰啲譬如長沙灣道，我哋喺幾  
27 個月前都做咗啲工作，就派啲 leaflet 就提醒一啲人喺坐巴士嘅時候唔好掛住  
28 睇手機咁多，或者提醒啲老人家，呢個我哋繼續做。

29 去到嗰個 Openmatics 嗰度，我哋之後亦都有啲工作做緊嘅，就係我哋講  
30 緊嗰個 geo-fencing 個樣嘢，geo-fencing 個樣嘢，其實我哋已經開始有啲  
31 車隊係試緊呢樣嘢嘅，但係呢樣嘢係比較複雜，因為點解，其實係除咗個車佢本  
32 身有個速度，架車本身有嘅，然後個 black box 係搵到個 location，知道嗰  
33 架車個位置應該行嘅速度。咁第三樣嘢就 geo-fencing，個 geo-fencing 就  
34 駁番入去架車裏面，嗰個用電子控制嘅，例如嗰個 brake，例如嗰個油門，例  
35 如嗰個減速器，即係有個 gearbox，係點樣控制番佢呢樣嘢，呢個我哋係向呢  
36 個工作行緊。我哋可以即係畀番啲補充少少，呢個係做緊嘅。

1 MR DUNCAN：（經傳譯員）係，我哋明白嘅，李生，多謝你。我頭先個問題係具體  
2 講到 Kulis 先生描述嗰個制度，就係話好積極主動嘅監測，即係話喺中央控制  
3 室嗰度係講到佢嘅速度，同埋其他駕駛嘅行為，咁你就話「係有嘅，係唔實際  
4 嘅，我哋考慮過，但係唔做。」我個問題就係，你有冇做過任何嘅調查，如果即  
5 係喺公司裏面，去睇下究竟其他嘅國家司法管轄區係點樣用呢一個系統？咁而因  
6 此可能喺香港都啱用呢？

7 梁健宏先生：或者我想再就住呢個問題再講多少少，科技嘅發達，科技嘅進步，如果  
8 嗰啲資料係好容易咁知道呢個車長係咪超速，如果啲資料係咪即時可以睇到嘅  
9 話，同埋嗰啲資料點樣傳送到，同埋點樣樣可以分辨到邊一位車長，我相信以前  
10 我哋覺得有問題嗰啲，都可能會解決，所以變咗，都係視乎嗰個科技嘅發展，我  
11 哋亦都希望科技係可以做到。所以點解我哋而家有 30 秒，希望去到 10 秒，或  
12 者會唔會去到兩秒、1 秒，呢樣嘢就真係科技，呢樣嘢就真係科技，我哋都期  
13 望，期望呢樣嘢可以做到。

14 MR DUNCAN：（經傳譯員）我諗你有答到我問題，不過由你嘅答案，我可以有一個  
15 結論，就係其實你做咗好少我問關於嘅嘢，因為你相信有其他好啲嘅方法，用其  
16 他嘅科技可以做到，咁我咁樣講係咪公道？

17 梁健宏先生：我意思就係話，如果嗰個科技可以令到嗰個 real time  
18 monitoring，而家你講緊 monitoring，就唔係 real time assist 或者  
19 real time alert，而係 real time monitoring，係有人睇住個車長嘅表  
20 現。之前所講及到，西方國家有個 supervisor 睇住個 driver，安全理由，  
21 商業理由，但係如果我哋講緊我哋巴士，四千個巴士，99%個巴士都係--車長都  
22 係一個好稱職，好安全駕駛嘅車長。我哋係咪要用三千九百九十九個人睇住呢四  
23 千呢個車長呢？呢個係一個技術上嘅問題，如果科技上係可以做到，幫到我哋，  
24 可以由兩個人睇住四千個車長，而每個車長都係駕駛好嘅話，我相信我哋會極之  
25 採納。

26 MR DUNCAN：（經傳譯員）就係因為呢一啲嘅事情，咁你就有進一步探索呢個問題  
27 嘞，係咪呢，呢個情況係咪咁？因為你個結論就係唔實際咩，係咁時間？

28 梁健宏先生：我哋係保持開放嘅態度。

29 MR DUNCAN：（經傳譯員）唔好意思，你話保持開放態度，係咪即係話仲喺檯面，  
30 你仲會考慮嘅呢？抑或你已經係有一個結論就係唔實際？

31 梁健宏先生：當其時我哋覺得嗰個決定，或者當其時個決定有做到，係基於不可行，  
32 如果將來有個情況，real time monitoring，係 practical 嘅話，我哋極  
33 之開心咁採納。

34 MR DUNCAN：（經傳譯員）但係就唔係公司而家考慮緊嘅嘢，咁樣講啱唔啱？

35 梁健宏先生：暫時我見唔到有一個 practical 嘅方向畀到我哋，如果有嘅，我哋極

1 之樂意即時去採納。

2 MR DUNCAN：（經傳譯員）李生頭先講即係巴士上面乘客嘅一個嘅事項，我就想請  
3 講到嗰一啲關於乘客嘅事項嘞，呢個係講緊係乘客嘅行為，即係巴士上乘客行  
4 為。我相信你都知道，委員會聽過啲證供就話，差唔多每日你哋嘅車長都會受到  
5 人口頭上，甚至有時係肢體上嗰啲係侵襲嘅，咁樣係咪一個合理嘅一個對事情嘅  
6 簡述？

7 李澤昌先生：Yes.

8 彭樹雄先生：或者我回應呢個問題，確實係嘅。

9 MR DUNCAN：（經傳譯員）我想請你睇 KMB1 號文件冊，203 頁。呢一頁係一封  
10 信，係由委員會發畀公司嘅，日期今年嘅 7 月 20 號。我想提醒你，就係呢封信  
11 係希望攞到啲進一步嘅資料，呢個關於即係襲擊巴士車長嘅資料。第二到第四  
12 段，即係 204 頁可以睇到呢兩段，我哋要求你提供一啲詳細嘅資料，就住五個  
13 襲擊嘅事件提供資料嘅，你見到呢度有關嘅要求嘞。

14 彭樹雄先生：係，睇到。

15 MR DUNCAN：（經傳譯員）唔該晒。請你睇番 212 頁，係同一個文件冊，呢個係公  
16 司嘅回信，你有提供啲統計嘅資料，關於襲擊嘅個案嘅，就從 2015 年 1 月 1 號  
17 到 2018 年 7 月 22 號期間嘅一啲統計數字嘅。218 頁，我係睇緊一個翻譯本  
18 嘅，你有睇到，呢度有五宗個案嘅詳情，即係委員會就係請你就住呢五宗係提供  
19 資料嘅，全部都係今年四月發生嘅事件嘅，請你係咪揭到已經 218 頁嘞？

20 彭樹雄先生：（經傳譯員）係嘅。

21 MR DUNCAN：（經傳譯員）唔該。呢度有五個個案，你睇番嗰個懲罰或者係入獄嘅  
22 刑期嘅度，你見到第一項第二個就係話，警方唔進一步處理，最後一個個案就仍  
23 然係調查緊。

24 彭樹雄先生：係，冇錯。

25 MR DUNCAN：（經傳譯員）三、四呢兩個個案，個被告就係認罪嘅，就罰款 3,000  
26 釐，另一個就罰款 1,000 釐，即係分開就兩個被告就分別就係罰款嘅。你知唔  
27 知道最高嘅入獄嘅懲罰或者係裁判官關於襲擊，最高可以係罰幾多呢？就係  
28 100,000 釐嘅罰款，同埋六個月入獄嘅，你知唔知道？

29 彭樹雄先生：係，知道。

30 MR DUNCAN：（經傳譯員）咁樣可唔可以咁講，既然有咁高--呢啲咁嘅高--最高刑  
31 罰，咁呢幾個個案嘅懲罰似乎都係比較輕微，咁樣講公唔公平呢？

32 彭樹雄先生：我同意嘅。

1 MR DUNCAN：（經傳譯員）呢樣嘢係咪一個問題？公司認唔認為係一個問題，即係  
2 話懲罰係輕微？

3 彭樹雄先生：呢個係我哋其中覺得一個嘅問題，亦都係我哋其中一個嘅 concern，  
4 可以咁講。

5 MR DUNCAN：（經傳譯員）我想請你而家睇睇 293 頁，同一個文件冊，293 頁。呢  
6 個係一個文件嘅翻譯本嚟嘅，文件大概會响 286 頁嗰度睇到㗎嘞。

7 彭樹雄先生：係，睇到。

8 MR DUNCAN：（經傳譯員）咁而家我睇 293 頁呢個信件嘅翻譯本，呢封信你可以睇  
9 到係嗰個簽名，九巴嘅法律部門嘅簽名下面嗰度，即係 2018 年 3 月 8 號，呢度  
10 即係話係巴士車長受到多宗襲擊嘅個案。

11 彭樹雄先生：係，冇錯。

12 MR DUNCAN：（經傳譯員）呢個係寄畀警方嘅，特別係即係寄畀警務處處長嘅？

13 彭樹雄先生：係，冇錯。

14 MR DUNCAN：（經傳譯員）第二段呢度咁講嘅，「舊年嘅 5 月，我哋寫信畀警方就  
15 係表示關注我哋個巴士車長一個接一個受到襲擊嘅。咁考慮過有關嘅個案，我覺  
16 得有啲人根本就唔淨只係襲擊嘅，而係一個係違反咗公共巴士服務規例嘅第  
17 13A(1)(c) 條，即係話乘客或者係打算搭巴士乘客就唔應該影響到巴士或者係  
18 巴士嘅設備嘅，或者影響到造成干擾或者造成損害嘅，或者係造成任何人嘅受  
19 傷，或者係唔舒服，或者係受到唔方便，或者係滋擾嘅。所以我哋請咗我哋嘅職  
20 員，就住上述個案向警方提供資料嘅，希望警方可以控告呢啲--根據有關規例  
21 嘅 13A 條，控告呢啲嫌疑犯嘅，咁我哋有關嘅陳述書證供就已經係附錄响本信  
22 件嘅。」

23 跟住去到 294 頁，就係繼續嗰封信喇，跟住我--「本公司就寫咗畀係香港  
24 警方就係考--查詢呢個發展嘅，我哋得到通知就係，佢哋淨係告呢啲人係--警  
25 方淨係告呢啲人係普通襲擊嘅。我哋有同--呢度亦都有啲其他同警方嘅通信嘅  
26 副本嘅，我哋就同--本公司最近同前線嘅巴士車長就見面，佢話香港警察就--  
27 佢哋希望警方會根據規例嘅第 13 條例嚴格執法，去到警告嗰啲人會影響我哋巴  
28 士車務嘅人，或者係襲擊我哋職員嘅人。我哋希望」--跟住咁寫，「我哋希望  
29 香港警方將來將呢啲襲擊嘅巴士車長會係考慮下根據規例嘅第 13A 條控告佢，  
30 即係再附加上嗰個普通襲擊嘅罪名嘅，我哋會同警方合作，嚟到係提供協助嘅。  
31 如果你有咩嘢需要查詢，請隨時係接觸我哋嘅律師。」

32 296 頁就係嗰個警方回信嚟嘅，係 5 月 17 號，佢即係話「收到你嘅信，關  
33 於嗰個係同你哋公司嘅見面--3 月 28 號見面之後嘅跟進行動，我哋已經係通知  
34 咗總區，嚟到提醒前線嘅人員，就係要處理嗰個係襲擊或者係滋擾巴士司機嘅個  
35 案，要係公平同埋專業處理，我哋明白到呢個情況嘅性質，我哋都知道呢個係一

1 個應該要考慮下係咪根據香港法例第 203A 條（原文照錄），將公共巴士服務採  
2 取行動嘅。」

3 關於襲擊車長，警方有冇試過，即係今年 5 月 17 號之後，有冇試過提出過  
4 檢控？

5 彭樹雄先生：呢個我暫時收唔到個訊息，應該就有嘅。

6 MR DUNCAN：（經傳譯員）所以我哋唔知道究竟警方係咪接受你哋嘅要求，根據個  
7 規例嚟到係檢控，我哋仲未知㗎？

8 彭樹雄先生：（經傳譯員）唔知嘅。

9 MR DUNCAN：（經傳譯員）咁到目前為止，一向個做法都唔係咁，係咪呀？

10 彭樹雄先生：（經傳譯員）你意思根據 230A 章提出檢控，係咪呀？

11 MR DUNCAN：Yes.

12 彭樹雄先生：從我公司嘅紀錄，我哋睇得到係從未有一單嘅案件係用 230A 係作出檢  
13 控嘅。

14 MR DUNCAN：（經傳譯員）你知唔知道，規例裏面最高嘅罰則係 3,000 釐罰款，入  
15 獄六個月？

16 彭樹雄先生：係，我知道嘅。

17 MR DUNCAN：（經傳譯員）所以要求警方根據呢度嚟到規例控告，係有咩嘢用途  
18 呢？因為佢比起普通襲擊嘅罰則係低啲嘅。

19 彭樹雄先生：其實我哋公司嘅睇法，因為就住一啲嘅譬如話普通毆打等等，好多時個  
20 個警方指出個個檢控，或者個調查，相對地係困難嘅，而喺--如果喺用 230A 作  
21 出調查甚至檢控，可能相對地，去證明個個違法行為係會比較容易啲。兼且，  
22 我哋亦都希望一啲毆打我哋車長，又或者“abuse”，我用個字，我哋車長--  
23 abuse 我哋車長嘅乘客亦都能夠得知到，其實係有一條嘅 230A 係監管住乘客嘅  
24 行為，有啲唔一定係話要 physically，即係要係郁手郁腳接觸到，有身體接  
25 觸，其實 230A 嘅精神就係話，一個乘客嘅態度其實都係可能會觸犯到法律嘅。

26 MR DUNCAN：（經傳譯員）你覺得比較容易係成立個個控罪，係咪呀？就唔係--即  
27 係比普通襲擊容易啲，係咪咁嘅睇法？

28 彭樹雄先生：當然，呢個我諗我哋都要交番畀警方去回答，不過站喺我哋一個公共巴  
29 士服務營運者，既然有一條法例係能夠我哋叫做保障到我哋巴士公司，保障到我  
30 哋前線嘅同事，點解我哋唔嘗試，試下用呢條條例去作出檢控呢？

31 MR DUNCAN：（經傳譯員）我唔係好記得，請佢哋打出呢一條規例出嚟，等我哋知  
32 道實際上佢係點寫嘅，我哋或者而家顯示個個規例。

1 主席：（經傳譯員）當我哋咁樣做嘅時候，彭生，嗰個喺規例之下嗰個罪行好似係寫  
2 得闊啲，係咪？即係佢包括嗰啲行為，係比較闊啲，係咪？

3 彭樹雄先生：（經傳譯員）主席，係㗎。

4 MR DUNCAN：（經傳譯員）我哋搵到嘞，係 THB 第 2 號文件夾，第 132 頁，  
5 13A(1)(c)，就係你諗到嗰個規例嘅部分，佢係咁講㗎，「乘客或已成為乘客  
6 嘅人，對巴士嘅任何部分或其設備故意作出或故意安排作出任何事情，而該等事  
7 情阻礙或干擾巴士的操作，或引致損壞；或第二，導致他人受傷、不安、煩擾或  
8 不便。」你係咪就係諗緊呢一方面嘅規例？

9 彭樹雄先生：（經傳譯員）係，鄧樂勤大律師。

10 MR DUNCAN：（經傳譯員）講番嗰個襲擊嘅問題，喺任何階段，你有冇要求過警方  
11 要讓裁判官留意，乘客呢一方面嘅行為其實都頗普遍嘅？

12 彭樹雄先生：係有，Mr Duncan，所以點解我會喺 3 月 28 號，其實係由我同埋我哋  
13 個 head of legal，梁律師，另外同一個負責交通意外或者調查嘅經理，我哋  
14 係主動去警察總部，police headquarters，同一位總警司同埋佢嘅警司，  
15 我哋係傾咗一個上晝，係表達我哋公司，甚至乎其他公共巴士服務營運者嘅  
16 concern，我哋嘅關心。喺會上面，我哋亦都畀咗好多嘅數字警方，因為我哋覺  
17 得，其實如果純粹睇嗰個數字，我哋會覺得係比較擔心，點解呢，容許我用少少  
18 時間，其實喺襲擊車長，2017 年只係得三十五宗，但係 2018 年直至到 7 月 22  
19 號，已經有四十一宗。我哋睇得到個情況係越嚟越差，所以係我哋希望警方能夠  
20 可以真係確確實實，認認真真，好深入咁去調查呢一啲嘅案件，令到我哋嘅車長  
21 可以喺一個安全嘅環境裏面去工作。

22 主席：（經傳譯員）你剛才畀嘅數字，即係你喺嗰個會議畀嘅兩位警司嘅，係咪同你  
23 今次畀我哋嘅數字係一樣嘅呢？

24 彭樹雄先生：Mr Chairman，我哋 3 月 28 號嘅時候，我哋嘅數係去到 3 月嗰個數  
25 嘅啫，呢個 7 月 22 號...

26 主席：（經傳譯員）我當然明白，但係喺另外一方面，我哋而家有啲數字？

27 彭樹雄先生：係，冇錯，冇錯，主席。

28 主席：（經傳譯員）你係咪用同一個方式，同一個寫呢一啲日子嘅方法畀警方？

29 彭樹雄先生：係，應該係。

30 主席：（經傳譯員）你有冇返去，因為我哋係請你畀呢啲數字我哋，你有冇畀畀警方  
31 嘅數字嗰度包括係去到 2015 呢？

32 彭樹雄先生：有嘅。

1 主席：（經傳譯員）咁我哋--當我哋睇呢啲數字嘅時候，有人係被監禁？

2 彭樹雄先生：根據我哋紀錄，係嘅，冇錯。

3 主席：（經傳譯員）大律師。

4 MR DUNCAN：（經傳譯員）咁警方嘅反應係點？

5 彭樹雄先生：其實喺個會面裡面，3 月 28 號個會面裏面，其實我睇得出警方都係  
6 關注嘅，咁個總警司，個 Chief Superintendent，佢亦都係喺個會度，亦  
7 都承諾佢會出一啲嘅指引畀佢哋前線個車長--Sorry，對唔住，畀佢哋前線嘅警  
8 員就係去第一，係會好認真咁去調查呢啲所有嘅 alleged assault，同埋佢亦  
9 都會係提點佢前線嘅同事，睇下有冇一啲嘅案件係能夠適合用 230A 係去調查，  
10 甚至檢控嘅。

11 MR DUNCAN：（經傳譯員）你請警方留意呢啲事情，其實你個目的係咩嘢呢？你想  
12 達到啲咩嘢目的？

13 彭樹雄先生：其實我哋想達致就好簡單嘅啫，我哋唔想我哋啲前線車長係繼續受到一  
14 啲即係係--我用個字係“excessive”，一啲 excessive 嘅 abuse，呢個就  
15 係我哋想咁樣做嘅啫。又或者 Mr Duncan，如果你容許我都回應番又或者 Mr  
16 Chairman 個問題就係話，其實 common assault 同埋 230A，我哋點解會想  
17 有 230A 呢？或者都容許我舉一個剛剛嘅...

18 主席：（經傳譯員）咁好明顯，好明顯㗎喇，一睇就知道喇，因為佢好廣泛吓嘛？

19 彭樹雄先生：主席，你可唔可以畀我講一講啱啱有一單發生咗嘅事件，其實如果用  
20 230A，係可以令到我哋嘅車長嘅工作更加安全，更加暢順？

21 主席：（經傳譯員）哦，好呀，當然可以喇，唔該。

22 彭樹雄先生：或者我想帶大家，其實呢一單事件發生係喺 7 月 29 號，7 月 29 號，  
23 咁我好簡單咁概括講一講就係，我哋喺夜晚差唔多 11 點鐘嘅時間，咁有四個二  
24 十幾歲嘅男乘客，咁佢上車，佢就係冇畀到足夠嘅車資嘅。當時個車長就曾經追  
25 問佢哋，叫佢畀足夠嘅車資，但係呢四個男子就完全冇理會個車長。咁個車長就  
26 繼續行車，因為有其他乘客。當佢去到又一城又一村落客嘅時候，呢四個男乘客  
27 就想落車，咁個車長就再一次追討。咁呢四個男乘客就完全冇理會，就落咗車  
28 喇。

29 好喇，跟住個車長就發覺，因為個架車當時個 engine 仲係應該 suppose  
30 係行緊㗎嘛，但係個車長突然之間發覺架車死咗火，個 engine off 咗。咁個  
31 車長即刻就落車睇，就發覺呢四個男乘客就一路跑住咁走咗。好喇，咁個車長於  
32 是乎就懷疑，同埋佢亦都聽到一啲踢我哋個車身嘅聲音㗎，有啲碰撞嘅聲音，其  
33 實我哋嘅車長就懷疑，第一，佢就係將我哋車尾有個死火掣就係熄咗，於是乎個  
34 engine 就 off 咗。但係個四個男子就跟住就跑走咗喇，好喇，咁個巴士車長

1 因為有乘客喺車，佢於是乎上番車，再重新 start 過個 engine，咁繼續行車  
2 嘅。

3 好嘞，架車就喺大約十五、二十分鐘之後，佢就去完總站，再返番轉頭，  
4 去到又一村達之路個燈位，當時個車長係因為燈位所以停咗車嘅，但係突然之  
5 間，嗰個車長又發覺，個 engine 又熄咗，然後佢喺倒後鏡，又見番嗰四個男  
6 子，咁車長再落車睇嘅時候，就發覺個車又係熄咗個 engine。咁於是乎個車長  
7 追唔到喇，因為嗰四個男子走咗嘞。車長就即刻通知我哋當值嘅 inspector，  
8 咁我哋報咗警嘅。但係警員到場了解事件之後，當時嗰個警員就將呢件事作為一  
9 個糾紛咁樣處理，佢哋當呢個係一個 dispute case。然後巴士返番廠，咁就  
10 收工。

11 我想指出，其實好似呢一個咁嘅案件，其實係好明顯地，好明顯地，230A  
12 係有可能係有人干犯咗嘅，但係結果呢個案件係作為一個糾紛咁樣處理。所以即  
13 係我都好希望就係話，喺保障我哋車長嗰個人身安全，保障我哋能夠提供一個適  
14 切嘅服務畀市民大眾，其實我真係好想懇請有關當局能夠認真考慮 230A 嘅檢  
15 控。

16 係，多謝 Mr Duncan。

17 MR DUNCAN：（經傳譯員）你有冇問過警方，去讓裁判官法庭去留意呢一類行為嘅  
18 普遍性呢？似乎你嘅巴士車長係要受到呢啲...

19 彭樹雄先生：有，絕對有，absolutely 有。

20 MR DUNCAN：（經傳譯員）咁佢哋咁做呢？佢哋有冇喺法庭度企喺身，話畀裁判官  
21 聽「呢一個係好常見，好普遍嘅罪行，我哋認為應該判得重啲，係可以有阻嚇作  
22 用。」有冇採取咁嘅步驟？

23 彭樹雄先生：呢一方面，我哋係有同 police--即係有同警方係提出過嘅，但係 Mr  
24 Duncan，我都希望你明白，就住 2017 年至到 2018 年 7 月 22 號，我哋總共係  
25 有七十六宗嘅普通襲擊車長嘅案件，但係當中只有十單係被定罪嘅啫，  
26 convicted 十單；有六宗就係和解咗；有七宗警方就係唔追究㗎，not  
27 pursuable--即係或者 not pursued；另外一單警方係話佢哋畀咗口頭警  
28 告。所以到底嗰十宗定罪，有冇喺法庭度，嗰個調查嘅警員係同法庭講咗嗰個嚴  
29 重性呢？又或者個法官有冇因為呢個嚴重性，而去考慮判刑呢？咁呢個我諗我喺  
30 呢度我答唔到，或者可以問一問警方有冇咁樣做法。

31 MR DUNCAN：（經傳譯員）你打唔打算同律政司司長提出呢件事？

32 彭樹雄先生：其實任何嘢可以保障到我哋嘅車長嘅，我哋都會做嘅，呢個其實我哋甚  
33 至乎都考慮，會唔會可以有一啲所謂 follow up 嘅 civil claim，可以令到  
34 市民大眾知道，其實呢一樣嘢係好影響到個巴士安全，好影響到個巴士運作。

35 主席：（經傳譯員）可唔可以請你回覆個答--問題呢？

1 彭樹雄先生：我哋喺呢刻就話，Secretary for Justice，我哋就--我哋有--喺  
2 呢個階段，我哋有諗過。因為我哋都想其實...

3 主席：（經傳譯員）嗰個係檢控專員呢，刑事檢控專員呢？

4 彭樹雄先生：有呀，對唔住，主席，我哋有--喺呢個階段，我哋係有咁嘅打算，因為  
5 我哋始終都係覺得，我哋同警察嘅溝通，我哋希望都能夠真係做到我哋想做嘅  
6 嘢。

7 主席：（經傳譯員）唔該晒，睇個時間...

8 MR DUNCAN：Certainly, Mr Chairman.

9 主席：（經傳譯員）而家我哋可以係小休食午餐，咁晏晝就係從兩點半開始嘅。

10

11 下午 1 時 01 分聆訊押後

12

13 下午 2 時 30 分恢復聆訊

14 出席人士如前。

15

16 主席：（經傳譯員）各位，午安。鄧大律師。

17 MR DUNCAN：（經傳譯員）主席，午安。各位，希望大家就係攤出 TD-2 嗰個文件  
18 夾，第 1 頁，呢度我哋有《公共巴士服務條例》，想麻煩你睇一睇呢個第 58  
19 頁，文件夾嘅第 58 頁，你睇下呢個第 36 條，嗰個係關乎呢個附例嘅，嗰度就  
20 係第(1)，喺嗰度嘅 36 就係話任何專營公司喺符合本條例同埋佢嘅專營權嘅規  
21 例下面，可就以下所有或任何事宜訂立呢個附例嘅，嗰度就係有(a)、(b)、  
22 (c)、(d)、(e)各項嘅，而(e)底下仲有一啲分段嘅，另外亦都係有第(2)、  
23 (3)、(4)條，跟住嗰版嗰度就見到喇。

24 而大家可能覺得同我哋喺午飯之前所傾嘅嘢最有關嘅應該就係(1)(e)嗰  
25 度，嗰度就係話專營公司有咁嘅權力係制定一啲附例嘅，就係關乎乘客一般嘅  
26 行為嘅，即係話如果啲乘客係搭呢啲專營公司嘅巴士，我想問九巴有冇制定過  
27 任何嘅附例呢？

28 蘇偉基先生：（經傳譯員）冇嘅。

29 MR DUNCAN：（經傳譯員）從來有冇考慮過話自己要制定附例呢？

30 蘇偉基先生：（經傳譯員）冇。

1 MR DUNCAN：（經傳譯員）想問公司有冇考慮過制定附例可能喺某程度上可以處理  
2 到目前個情況，即係話你哋而家嘅車長係要處理乘客行為嘅問題？

3 蘇偉基先生：我理解，如果係成立 by-laws 嘅話，公司就係有個責任去 enforce  
4 呢個 by-law，就要考慮公司有冇咁嘅資源、有冇咁嘅能力，同埋就係話當啲  
5 違反呢個 by-laws 嘅行為，佢哋嗰個地方嘅出現，公司係咪有員工可以即時去  
6 處理得到呢？呢個係一個考慮。現有嘅情況就係 230A 就係由警方去執法，佢哋  
7 個資源同埋嗰個嘅專業程度係比一個專營巴士嘅服務商嘅為大，同埋亦都更加  
8 專業。

9 MR DUNCAN：（經傳譯員）想問下，公司有冇打算去考慮呢？

10 蘇偉基先生：暫時冇。

11 MR DUNCAN：（經傳譯員）我哋就係有聽取過一啲證供，就話喺某啲巴士嗰度就係  
12 已經裝咗一啲鏡頭嚟到協助偵查嘅工作，亦都希望最後如果需要檢控一啲違例  
13 人士嘅話，就有助嘅。我就想請你睇呢個 KMB-1 嗰個文件夾嘅，就係喺第 82  
14 頁嗰度嘅，呢度就係委員會向你哋問咗一啲問題。

15 當時問嘅問題就咁嘅，「就想問下，向呢個車長有冇提供過一啲顧客服務  
16 嘅訓練嚟到幫佢哋就有個技巧去處理一啲麻煩嘅乘客？」

17 你哋提供嘅答案，其實就係喺第一份提交嘅陳述書嗰度有咁嘅答案，就包  
18 括下者嘅，我而家想睇番一個係第三點，呢度就話：

19 「除咗培訓之外，我哋亦都採取下列嘅措施嚟到協助車長去處理一啲難搞  
20 嘅乘客嘅」，其中就係話有一啲「監察嘅鏡頭，包括係方向向前嘅鏡頭，同埋  
21 有一個係影到車長個位嘅鏡頭，自從 2015 年開始，所有新巴士都係有一個標準  
22 嘅裝置。去到 2018 年嘅 2 月監察鏡頭就係已經係喺二千三百一十九部九巴嘅巴  
23 士同埋一百四十六部龍運巴士上面係裝咗嘅。其餘嘅巴士亦都會裝呢一啲監察  
24 嘅攝影機嘅鏡頭就係逐步咁去做嘅，呢啲監察鏡頭就可以影到嗰個行為，亦都  
25 可以有錄音，就可以影到嗰啲難搞嘅乘客，就會係喺日後警方進行調查或者係  
26 有法律訴訟或者程序嘅時候保障到車長嘅利益。」

27 我第一條問題就想問，呢啲嘅鏡頭或者係攝影機有冇讓你哋係有證據嚟到  
28 係促成係成功咁檢控到嗰啲違例者呢？

29 蘇偉基先生：（經傳譯員）有。

30 MR DUNCAN：（經傳譯員）根據我剛剛所讀出嘅二千三百一十九部九巴就已經有呢  
31 一啲嘅相機，呢啲攝影機，目前有幾多部係未有呢啲鏡頭嘅呢？

32 梁健宏先生：有二千--接近二千八百部車係有 camera，我哋成個車隊就有四千三百  
33 嘅，換句話說...

34 蘇偉基先生：喺九巴嘅車隊大約係有一千一百部係未有裝，喺龍運，我諗大約係有七

1 十至八十部係未有裝呢個 CCTV 嘅。

2 MR DUNCAN：（經傳譯員）有冇話出現過咁嘅情況，車長自己就係嘗試去影呢一啲  
3 粗魯嘅乘客嘅行為，用佢哋自己嘅手機，有冇車長嘗試過呢？

4 蘇偉基先生：行車期間，車長係唔可以用自己嘅手提電話。

5 MR DUNCAN：（經傳譯員）我諗佢揸緊車嘅時候，好明顯呢個當然係咁嘅情況，因  
6 為會影響安全，但係巴士停低落嚟嘅時候又點呢？准唔准佢哋用手机呢，喺咁  
7 嘅情況之下？

8 梁健宏先生：我哋唔容許車長佢用自己嘅攝錄器材就擺喺個車廂度去攝錄嘅。

9 MR DUNCAN：（經傳譯員）有一位證人係工會代表，佢曾經就係作證嘅，或者我畀  
10 番大家係嗰個有關嗰個係頁碼，第 10 日嘅聆訊，係 128 至 130 頁嘅，講到就  
11 係佢哋嘅投訴，就係話車長就唔可以用手機嘅。

12 主席：（經傳譯員）其實佢係講手機定係相機呢？

13 MR DUNCAN：I think he mentioned cameras.

14 主席：（經傳譯員）因為嗰度有分別嘅，因為好多時譬如的士，我哋見到有呢個相  
15 機，同手機嗰個相機又唔同嘅。

16 MR DUNCAN：（經傳譯員）係，等我再問過個問題。有一位工會嘅代表，我諗係月  
17 薪車長聯盟嘅，佢哋就講過，就話有啲車長就係想用相機，但係出過通告係發  
18 畀佢哋，就係禁止係咁樣用呢啲相機嘅，首先你有冇聽過呢啲咁嘅證供呀？

19 蘇偉基先生：正確。

20 MR DUNCAN：（經傳譯員）係咪出過份通告？

21 蘇偉基先生：有喺度。

22 MR DUNCAN：（經傳譯員）可唔可以係交畀我哋委員會睇呢？

23 蘇偉基先生：可以。我可否解釋原因呢？

24 MR DUNCAN：（經傳譯員）可以，講。

25 蘇偉基先生：我理解，而家私人專員喺用 CCTV，佢係有個指引去收納呢啲牽涉到個  
26 人私隱嘅數據，包括影像，首先就係要有個告示話畀人聽佢係被攝錄，然後  
27 亦都有個指引，佢係要有一個 retention 嘅 policy，同埋如果有人去索取，  
28 佢有個指引佢點樣去處理，亦都不需要嗰陣時，係要銷毀。

29 如果個別車長佢自己裝佢嘅 CCTV 喺個車廂入面，其實佢係有辦法係保證  
30 到佢係符合到頭先嗰三樣嘅指引嘅，而家公司其實喺呢三樣嘢係明確做到，佢  
31 喺個巴士個車廂，上車嗰陣時係有個告示我哋呢架車係有個 CCTV，公司亦有政

1 策去處理、保留或者 retrieve 嗰啲嘅錄咗嘅攝錄。公司唔係話停咗喺今日頭  
2 先講緊二千四百架車嗰度，我哋會喺年底之前，會將我哋嘅車隊九成係裝番  
3 CCTV，餘下個一乘唔裝原因，其實佢都相繼喺一年之內會係退役，因為佢亦都  
4 架車老喇，十七、八歲，畀一個新車取替咗。變咗成件事就係話喺年底之內，  
5 我哋嘅車隊係會有配置 CCTV。

6 主席：（經傳譯員）係咪保障私隱就緊要過保障你哋嘅安全呢？

7 蘇偉基先生：我哋要取個平衡。

8 主席：（經傳譯員）唔係你個係平衡，呢個係講到法例上面要有一個平衡，係咪  
9 呀？

10 MR DUNCAN：（經傳譯員）你哋係咪有徵求過法律意見呢？

11 蘇偉基先生：佢個指引其實係清楚、明白嘅，當時呢張嘅 circular 係唔畀車長自  
12 行裝，我唔可以答，因為係我未加入公司。但係我可以今日去再問一次，因為  
13 由而家到年底都仲有一個時間。

14 MR DUNCAN：（經傳譯員）公司有冇同呢個私隱專員係提過呢？

15 蘇偉基先生：（經傳譯員）有。

16 MR DUNCAN：（經傳譯員）你有冇同呢個私隱專員傾過？

17 蘇偉基先生：No, I have read --佢有個指引出嚟，而個指引亦都係列咗呢幾  
18 點。

19 主席：（經傳譯員）你有冇同私隱專員係傾過就係話如果係車長用呢一啲相機，希望  
20 就係影到啲人係襲擊佢哋嘅，...

21 蘇偉基先生：冇。

22 主席：（經傳譯員）...如果係咁樣嘅話，會唔會係違反法例，有冇問過呢？

23 蘇偉基先生：冇。

24 MR DUNCAN：（經傳譯員）我哋而家就講到係嗰個保護車長嘅嗰個保護屏或者係保  
25 護罩，我就想請你就係落去呢一個你哋第一份陳述書嘅第 62 頁，呢一份係第一  
26 份嘅陳述書，公司就講過以下嘅說話嘅，你話「鑑於就越嚟越多人襲擊呢個車  
27 長，我哋因應就係採取咗下列嘅措施」，或者你睇一睇呢一個第三至到最尾個  
28 段。「我哋就會裝一個保護板就係近住喺嗰個車長個位嗰度嘅，由 2018 年嘅 6  
29 月開始咁做。」呢個過程係咪已經開始咗？

30 梁健宏先生：（經傳譯員）係。

31 MR DUNCAN：（經傳譯員）而家有幾多架巴士係有裝呢一個保護罩呢？

- 1 梁健宏先生：直到目前為止，一千五百部。
- 2 MR DUNCAN：（經傳譯員）車隊餘下嘅巴士會點樣做呢，有咩嘢計劃呢？
- 3 梁健宏先生：我哋預計年底內完成呢個裝置。
- 4 MR DUNCAN：（經傳譯員）我想你睇另一個文件冊，就係雜項嘅文件冊 2，第 913  
5 頁，喺右下角，我哋見唔見到呢一塊嘅保護板？
- 6 梁健宏先生：（經傳譯員）係。
- 7 MR DUNCAN：（經傳譯員）邊個係負責設計呢一塊板嘅呢？
- 8 梁健宏先生：本公司嘅工程部，工程部。
- 9 MR DUNCAN：（經傳譯員）邊個負責製造呢塊板嘅呢？
- 10 梁健宏先生：KMB 自行設計，就去採購，亦都係試裝，亦都交過畀運輸署去檢視，  
11 佢哋覺得同意，我哋先至大量今年 6 月開始安裝。
- 12 MR DUNCAN：（經傳譯員）你話你採購咗呢啲裝備，你係同邊一個買㗎？
- 13 梁健宏先生：外國嘅供應商。
- 14 MR DUNCAN：（經傳譯員）係邊個國家㗎？
- 15 梁健宏先生：我而家有資料。
- 16 MR DUNCAN：（經傳譯員）你可唔可以攞呢個資料呢？
- 17 梁健宏先生：（經傳譯員）可以嘅。
- 18 主席：（經傳譯員）請你提供呢一個資料。呢個係咪根據世界其他地方巴士嘅保護板  
19 嚟設計㗎？
- 20 梁健宏先生：其他外國，尤其是英國，有部分嘅設計都未必啱我哋用嘅，因為我哋啲  
21 啲，首先第一，我哋有冷氣，我哋唔可以係一個 full enclosure 嘅，變咗呢  
22 個亦都因應番我哋啲車長，最主要個情況就係佢左邊係冇遮擋嘅，所以個原  
23 意設計都係喺左邊，希望有個保障畀我哋嘅車長。亦都有啲--你留意有啲位，  
24 有啲窿，其實係畀啲度開車門嘅，所以變咗呢個 protection shield 純粹係  
25 我哋自己設計，希望個車長又用得開心，亦都可以做到保養--保護佢個功  
26 能，希望--所以變咗係我哋設計。
- 27 當然我哋設計開始嗰陣時亦都安裝過程之中有少少 teething problem，  
28 而家我哋都喺度處理中，有啲情況話個攝石嗰度係鬆嘅，我哋都搵個方法安裝  
29 得企理啲。有啲投訴或者覺得意見話係反光嘅，我哋都諗有咩嘢方法去處理。
- 30 MR DUNCAN：（經傳譯員）你知唔知道有兩個工會嘅代表係有同委員會表示佢哋並

1 唔滿意呢個設計？

2 梁健宏先生：我收到有部分工會嘅意見，就住呢樣事情唔係幾理想，我亦都收到有啲  
3 工會嘅意見，係覺得希望我哋加快啲裝。

4 MR DUNCAN：（經傳譯員）我就會畀一個資料你參考，係嚟自汽車交通運輸業總工  
5 會，係喺第 9 日提供咗證供嘅，你可以睇番第 33 至 36 頁，而喺第 11 日，係  
6 有巴士業職工會聯盟作證嘅，呢個就喺 150 至 151 頁。

7 主席：（經傳譯員）係咪都係第 9 日㗎？

8 MR DUNCAN：（經傳譯員）唔好意思，呢個係第 11 日，11 日嘅。梁先生，你有冇  
9 睇過呢部分嘅證供呀？

10 梁健宏先生：（經傳譯員）應該有嘅。

11 MR DUNCAN：（經傳譯員）如果你已經睇過，我就想畀番你睇，首先第 9 日，文件  
12 冊 4，第 33 頁，你可以由第 18 開始睇嘅，你就會見到提到一個安裝保護板嘅  
13 事宜，而係第 34 頁嘅頁頂，我就想你睇一睇嘅，佢就話似乎有一啲保護，但係  
14 個保護罩嗰個窿係好大嘅，而亦都係唔容易係開關嘅，同埋佢係反光，非常之  
15 反光，而喺嗰個端端嗰度就有磁石，而當巴士行駛嘅時候，可能係會產生噪音  
16 嘅，似乎喺呢一句有三項嘅不滿，首先就係反光，第二就係有磁石，第三就係  
17 有噪音嘅。有冇人向公司反映咗呢啲問題呀？

18 梁健宏先生：有嘅。

19 MR DUNCAN：（經傳譯員）有冇做過任何嘢？

20 梁健宏先生：大部分我哋都處理咗，反光嘅問題，我哋亦都係在處理中。

21 MR DUNCAN：（經傳譯員）即係話反光仍然係一個未解決嘅問題，係咪呀？

22 梁健宏先生：正確，但係我哋覺得最主要嘅出發點就係希望畀個車長一個保障，反光  
23 嗰度係喺左手邊嘅，亦都係喺佢駕駛嗰個視線係左手邊，所以正常嘅行車，絕  
24 大部分時間都--我哋覺得係可以嘅，但係亦都希望睇下有咩嘢方法可以解決呢  
25 個問題，希望盡量做到最好。

26 彭樹雄先生：Mr Duncan，我有嘢想補充少少。其實點解我哋 6 月會裝呢啲嘅保護  
27 嘅裝置呢？正如我喺午膳休息之前都講，因為今年 2018 年，我哋車長被襲擊嘅  
28 數目係急升得好犀利，所以我哋管理層覺得有需要係要即時係要處理呢個問  
29 題，所以我哋喺嗰個設計、做 procurement 購物、裝置，其實我哋喺好短時  
30 間裏面係去做個決定嘅，裝咗之後，我哋明白係有啲啲嘅 teething  
31 problems，所謂一啲嘅問題，例如攝石可能會實得滯，又或者有--當嗰個車長  
32 進出一啲光或者暗，即係比較大對比嘅地點嘅時候，可能會有啲反光，呢個其  
33 實我哋知道嘅，但係裝咗之後，確實我有好多前線嘅車長係非常之歡迎我哋公  
34 司呢一個嘅舉措嘅。

當然，我都咁講，我哋去決定嘅時候，因為實在嗰個我哋車長畀人襲擊，我哋車長個 sentiment，我哋車長嗰個感覺、個感受，我哋覺得我哋一定要 address 嘅。當然我哋去同警方傾，我哋希望警方做多啲檢控，我哋儘快裝我哋嘅 CCTV，我哋亦都係喺 4 月除咗裝呢個保護嘅裝置之外，我哋亦都係我哋嘅司機駕駛室嘅隔離亦都新裝咗一個嘅標語，就係話「滋擾車長乃刑事罪行」，呢個其實亦都係一連串我哋係真係好想畀到一個安全嘅駕駛環境我哋嘅車長。

呢個當然喺個過程裏面係咪可以做得好啲呢？我哋其實而家都仲係喺度係去 rectify 緊呢一個 protective shield，譬如有啲咩嘢特別嘢，例如反光，我哋可以點樣處理呢等等。

另外，我哋亦都係我哋每一架車，我哋有個叫做報站器嘅，我哋亦都係個報站器度，我哋亦都加入咗一個嘅告示，大致上就係話我哋嘅車長係受到滋擾，我哋可能會停車處理。呢個亦都係幫助到我哋嘅車長去處理呢一樣畀人滋擾或者可能發生畀人滋擾嘅情況底下，我哋都希望我哋儘量可以做多少少嘢，就去幫得到我哋嘅車長。

另外，除咗呢啲保護裝置，除咗嗰個報站器，除咗嗰個標貼提醒乘客，我哋公司嘅法律部嘅同事亦都係好貼地咁樣、好 down to earth 咁係去幫助一啲我哋被襲擊嘅車長，我哋前線嘅督察、前線嘅站長亦都係畀晒所有支援我哋嘅車長，有車長被襲擊，我哋啲 inspector，我哋啲督察第一時間會到場，陪同我哋嘅車長睇醫生，法律部嘅同事會陪同個車長，有需要嘅，畀口供等等。呢個亦都係我哋會做緊嘅。

所以就住保護我哋車長方面，我覺得我哋公司係責無旁貸嘅，當然我哋都希望警方可以儘量幫多啲手，但係我哋自己本身亦都係有一連串嘅工作係做緊嘅。

主席：（經傳譯員）彭先生，你可唔可以向提供嗰句警告字樣嘅相片呀？即係喺車上面嗰一句嘅字句，同埋就話嗰句「如果車長受到滋擾，架車就可能會停落嚟。」可唔可以提供呢個字句？

彭樹雄先生：絕對可以，Mr Chairman，係可以嘅。主席，我想補充，嗰個報站器就係個車長佢有個 button 會揸嘅，其實嗰個就係譬如話到到某個站，如果大家有搭巴士，譬如下一個站係彌敦道幾多號或者係咩嘢大廈或者係咩嘢公園，佢揸，佢就會 show 到個車長被滋擾等等嘅。主席，我會提供嘅，主席。

主席：（經傳譯員）唔該晒。

彭樹雄先生：多謝主席。

MR DUNCAN：（經傳譯員）你話有個報站器嘅，嗰個就係文字表述㗎，定抑或係聲音廣播呢？

講者（不能辨別）：Both.

1 MR DUNCAN：（經傳譯員）麻煩你打出嚟就係呢一個雜項 1，913 頁--對唔住，應  
2 該就係雜項 2 嘅文件夾 913，我哋呢張相之前係打過出嚟睇㗎喇，913 頁，喺  
3 呢度我哋睇唔睇到嗰個警告嘅字眼㗎？

4 彭樹雄先生：Mr Duncan，而家係喇，冇錯，呢個就係嗰個我哋嘅標貼「滋擾車長  
5 乃刑事罪行」。

6 MR DUNCAN：（經傳譯員）唔該。關於係工會代表提過嘅事情，我想問下，而家公  
7 司同工會方面係個情況係點樣樣呢？工會係支持你哋嘅做法定抑或係反對呢？

8 彭樹雄先生：Mr Duncan，你意思係咪話佢哋係咪支持裝呢一塊保護板定係啲乜嘢  
9 呢？

10 MR DUNCAN：（經傳譯員）我係講緊佢哋話有個問題，即係話反光、有聲噪同埋個  
11 個攝石鬆，你就話已經處理緊，我想問下，而家你哋同工會就呢啲事情上面個  
12 溝通個情況而家係點呀？

13 彭樹雄先生：佢哋知道我哋公司正在係處理緊個問題，佢哋係感覺到滿意嘅，不過當  
14 然，嗰個 end product，即係將來嗰個製成品會係點樣呢？我哋其實都會再--  
15 唔係淨係同工會，我哋亦都會聽所有車長嘅聲音嘅。

16 MR DUNCAN：（經傳譯員）而家又想請你睇一睇呢一個第 35 頁，呢一個係謄寫本或  
17 者紀錄本嘅第 35 頁，應該喺你前面，呢個係第 9 天嘅，其中一位代表就係喺第  
18 七行嗰度有提過嘅，呢度佢哋就話擔心係嗰個保護板就會妨礙咗車長嘅視線，  
19 佢哋就無法就係睇清楚上車、落車嘅乘客，呢樣嘢係咪佢哋都已經同公司講過  
20 㗎？

21 彭樹雄先生：Mr Duncan，或者我可以咁樣答你，因為本身我都有巴士牌嘅，本身  
22 我都試過坐上一架有保護裝置嘅巴士度嘅，因為我哋個駕駛室嘅司機位--車長  
23 位嘅左手面就係嗰個 protective shield，呢個 protective shield 其實  
24 係透明嘅，除非有一個好大好大嘅 contrast，即係光同埋暗嘅對比，否則的  
25 話，其實個視線係冇受到太大嘅影響嘅，但係當然我哋都明白個別車長嘅擔  
26 心，所以其實我哋都係喺個過程裏面就係話去睇下點樣可以 modify 到呢一個  
27 嘅 protective shield，呢個我哋係做緊嘅。

28 MR DUNCAN：（經傳譯員）而家呢一個保護板係唔係大程度上係唔阻佢嘅視線呢？

29 彭樹雄先生：我可以講佢唔係好大嘅影響，當然，你始終喺你嘅駕駛室--以往係完全  
30 係冇遮擋嘅，但係當然，你有一塊透明嘅膠板喺你嘅左手面，當然喺個習慣上  
31 係可能會突然之間啲車長可能會有啲啲咁多唔習慣。

32 MR DUNCAN：（經傳譯員）而家又想請你睇一睇呢個 KMB-1 呢一個文件夾，再睇番  
33 呢個文件夾，83 頁，或者仲係講緊呢一個係塑膠嘅保護板，幾時係第一次係諗  
34 起要裝呢一個保護板呢？

1 梁健宏先生：呢個就係舊年 2017 年有車長襲擊嘅事件多咗，就決定要做啲嘢去幫助  
2 車長，亦都有啲車長就提議過，係舊年我哋諗住做呢一樣嘢，自行設計。

3 MR DUNCAN：（經傳譯員）唔該晒。

4 彭樹雄先生：Mr Duncan，我都想最後都有少少嘅回應，我同車長嘅接觸，其實大  
5 部分嘅車長其實都係高興公司係行前咗一步，當然呢一步會唔會可以喺個細  
6 節上可以做得好啲呢？即係 with hindsight，你問番，當然我哋係可以做得  
7 好啲嘅，但係我哋始終係行緊第一步出嚟，我哋有第一步，就會有第二步，我  
8 哋第二步，而家就係 source 緊有冇一啲物料係完全係唔會有反光，又或者個  
9 啲 magnetic 我哋係咪可以係 source 過另外一種類型呢咁樣，我想講嘅就係  
10 我哋係都需要行出第一步嘅。亦都我哋前線嘅車長亦都知道公司係行出呢一步  
11 嘅，多謝 Mr Duncan。

12 MR DUNCAN：（經傳譯員）我理解到，講到巴士司機方面，巴士公司係需要面對七  
13 個不同嘅工會嘅，係咪呀？

14 李澤昌先生：我哋暫時係主要同兩個係有個溝通，但係其實每一個同事，我哋都有同  
15 佢哋有唔同嘅渠道溝通。

16 主席：（經傳譯員）係唔係工會就係有兩個工會，呢兩個工會就包括咗百分之九十嘅  
17 車長，係咪呀？

18 蘇偉基先生：（經傳譯員）係。

19 主席：（經傳譯員）你同其他人係溝通嘅時候，就唔係以工會嘅身分，就以僱員嘅身  
20 分？

21 蘇偉基先生：我哋唔係話睇佢有冇 capacity，我哋除咗同頭先所講嘅兩個工會，其  
22 他每一個車長，其實我哋都有一個渠道畀佢去發聲，或者我哋去主動聽取佢嘅  
23 聲音。舉例如，正如頭先彭生講，我哋車廠嘅主任、前線嘅督察或者彭生本人  
24 都定期性，喺站頭、廠嘅上班、下班、中段時間去主動去接觸佢哋，聽取佢聲  
25 音。

26 而我哋公司亦有一個叫做 JCC，joint consultation committee 嘅  
27 組織，係每月定開會，聽取佢哋對工作上有啲咩建議，而相關嘅建議我哋亦  
28 都係合適嘅，會採納，呢一個係一個恆常嘅措施嚟嘅。

29 主席：（經傳譯員）其實個問題好簡單嘅，我諗你係明白個問題嘅，除咗啲兩大工  
30 會，你就稱佢哋為工會，除此之外，你會唔會有其他嘅組織，你都係同佢哋係  
31 打交道，唔一定係叫做工會嘅，有冇呢？

32 蘇偉基先生：（經傳譯員）有嘅。

33 主席：（經傳譯員）除咗啲兩大工會之外，仲有邊啲工會你係有同佢哋傾嘅？

1 彭樹雄先生：Mr Chairman，或者--其實我哋公司係除咗有兩個所謂我哋嘅主要大  
2 嘅 union，其實我哋都有同其他佢哋嘅所謂 union，我都有聯絡嘅，例如其實  
3 喺呢個 hall 裏面有一位郭志成（譯音）車長，一個退休嘅車長，坐咗喺嗰度嘅  
4 郭車長，其實我亦都親自同郭車長係傾談咗超過兩個鐘嘅，其實我係歡迎公司  
5 任...

6 主席：（經傳譯員）我諗你話唔係以呢個工會代表嚟到係同佢講，係車長身分，所以  
7 我就問你呢個問題。

8 彭樹雄先生：喺我嘅接觸裏面，其實係唔係工會喺我嘅接觸裏面其實唔係一個最主要  
9 或者係第一個嘅因素。

10 主席：（經傳譯員）鄧大律師。

11 MR DUNCAN：（經傳譯員）其實我估我哋其實有一個工會嘅名單，不如將佢打上  
12 嚟，而家既然係講開呢個課題，可以將佢哋個名貼咗出嚟嘅。我哋見到啲名，  
13 我諗係有七個嘅工會嘅，而佢哋就係已經上嚟作證，協助呢個委員會嘅。我想  
14 問，你所講嘅兩個主要嘅大嘅工會係邊兩個呢？

15 主席：（經傳譯員）即係話九巴會係同佢哋傾嘅嗰兩大工會？

16 MR DUNCAN：Correct.

17 蘇偉基先生：因為呢個係個英文譯名，我哋記得應該就係汽車工會嘅九巴分會，我想  
18 睇下會唔會有中文，我易認啲？我相信應該係第 9，有個工會...

19 MR DUNCAN：（經傳譯員）係，我哋可以嘅，可以等陣間安排，就畀個中文名你。

20 主席：（經傳譯員）鄧律師，或者你可以口頭上講一講。

21 陳政龍先生：（經傳譯員）汽車交通運輸業總工會。

22 蘇偉基先生：呢個係，正確，我哋係其中一個。

23 主席：（經傳譯員）唔該晒。我諗佢哋而家都將嗰個中文名係打咗出嚟畀你睇。另一  
24 個呢？另一個係邊一個呢？

25 蘇偉基先生：咁啱我搵到，佢曾經 submit 嗰封信，我好肯定個名喇而家，係九龍  
26 巴士職工總會。

27 主席：（經傳譯員）頁碼係邊個呢？即係等我哋可以睇一睇。

28 蘇偉基先生：（經傳譯員）TU-1 (A)，130 至到 131 頁，而佢哋嗰個陳述書就係  
29 133 頁嘅。

30 主席：（經傳譯員）好，唔該晒。我哋可唔可以顯示蘇先生所講嘅嗰一頁呀？

31 蘇偉基先生：（經傳譯員）係，可以嘅。

1 主席：（經傳譯員）唔該晒。

2 MR DUNCAN：（經傳譯員）據我理解，有九成嘅司機都係屬於呢兩個工會嘅。

3 主席：（經傳譯員）其中一個？

4 MR DUNCAN：（經傳譯員）可能係兩個工會其中一個或者七個工會其中一個。

5 主席：（經傳譯員）據我所記得，喺口頭或者係書面證供嘅時候就講過--即係佢哋講  
6 過，就佢哋會同兩個工會去交涉嘅。似乎梁先生係點頭，或者我哋之後可以睇  
7 番啲一部分。

8 MR DUNCAN：（經傳譯員）係，我哋之後會處理呢個問題。我咁樣理解正唔正確  
9 呢，只有一成嘅車長係唔屬於任何嘅工會？

10 蘇偉基先生：首先呢度每一個車長可以參加多一個工會，所以加埋晒個數係未必等於  
11 我哋車長嘅總人數八千六百位；第二，每一個工會講佢有幾多會員嘅人數，其  
12 實係由個工會自己去提供，當然我哋日常都會有個知悉，係咪一個合理嘅估  
13 算，我哋從頭先啲兩個工會報告出嚟嘅數字，確實係佔我哋公司嘅車長數目大  
14 約九成。

15 MR DUNCAN：（經傳譯員）我咁樣理解啱唔啱呢，你所講啲兩個工會就係你最常接  
16 觸或者係交涉嘅工會，係咪？

17 蘇偉基先生：正確。但係可唔可以補充？

18 MR DUNCAN：（經傳譯員）可以。

19 蘇偉基先生：正如頭先所講，有車長佢係不屬於任何工會，所以我哋一方面應工會要  
20 求同佢溝通，我哋亦都會同員工--我哋唔會理佢本身係邊個工會，我哋亦都會  
21 聽取佢意見，主動問佢嘅意見。

22 MR DUNCAN：（經傳譯員）如果我理解冇錯，你嘅意思就係你係會同巴士司機接  
23 觸，有時係會直接同佢哋接觸，有時就會透過同佢哋接觸嘅？

24 蘇偉基先生：（經傳譯員）但係兩者係會同時發生嘅。

25 MR DUNCAN：（經傳譯員）我之前就請你睇 KMB-1 文件冊嘅第 83 頁。

26 主席：（經傳譯員）我哋係咪講另一個話題喇？

27 MR DUNCAN：Yes, we are.

28 主席：（經傳譯員）我哋去另一個話題之前，我就想先顯示 KMB-1 文件冊第 218-1  
29 頁嘅，喺第 2 段，你就會見到有一項要求，第 3 段就話「請提供啲兩份閉路電  
30 視大綱調查報告嘅拷貝本」，同埋喺 218 頁有其中兩宗個案就有一個描述，呢  
31 個就係個案 3 同個案 4，就係有講到有一個閉路電視嘅扼要報告嘅，你有冇提供

1 過呢個資料，可唔可以畀番個頁數我參考？

2 蘇偉基先生：（經傳譯員）可以嘅。你可以睇番第 300 頁。

3 主席：（經傳譯員）好，唔該晒。我想問嘅問題，就住呢個問題，根據你嘅經驗，閉  
4 路電視嘅錄像同埋聲音嘅質素係好唔好嘅呢？就住對車長作出言語上面或者係  
5 身體上嘅襲擊？

6 彭樹雄先生：Mr Chairman，我可以講其實嗰啲 CCTV 嘅質數係足夠可以睇得到嗰  
7 啲人士嘅外貌嘅，個質素係都 okay 嘅。同埋亦都係可以幫到警方係好粗略咁認  
8 到個 assailant，即係個施襲者嘅。

9 主席：（經傳譯員）而聲音或者錄音嘅質素係點呢？例如係如果有一啲口頭上面嘅滋  
10 擾同埋身體嘅侵襲。

11 彭樹雄先生：Mr Chairman，咁又要視乎佢係距離嗰個咪有幾遠，如果一般喺嗰個  
12 駕駛室嘅，其實都可以聽到嘅。同埋，主席，我都想補充，我哋架車總共係有  
13 九個嘅 CCTV 嘅，九個鏡頭，所以唔係淨係嗰個我哋嘅 bus captain 嗰個駕駛  
14 室，其實係有唔同嘅角度都係可以影到車內嘅情況嘅，與及車外嘅情況都可以  
15 影得到嘅，我哋總共有九支嘅鏡頭。

16 主席：（經傳譯員）有冇一啲情況係--即係你有冇嘗試將呢個錄音就抄錄成謄本，然  
17 後就再將呢一個謄本交畀警方呀？

18 彭樹雄先生：其實唔係淨係呢啲毆打嘅案件，其實一般嘅交通意外等等，我哋好多時  
19 都係會--我哋係會交個閉路電視嗰個影像畀警方。

20 主席：（經傳譯員）我係問緊個錄音，你有冇試過將個錄音嘅內容係抄寫出嚟，去顯  
21 示呢一個襲擊嘅性質呢？定係你純粹就會交畀警方呀？

22 彭樹雄先生：我哋通常做法，我哋係一套咁樣交畀警方嘅，係聲音...

23 主席：（經傳譯員）你係咪指閉路電視嘅錄像呀？

24 彭樹雄先生：係，冇錯，聲音，即係嗰個 video、audio 都係會交畀警方嘅。

25 主席：（經傳譯員）第二個問題就係喺 4 月 4 號、5 號同 6 號嘅幾宗個案，就係  
26 KMB-1 文件冊嘅第 218 頁，第二個問題就係就住乘客所用嘅八達通卡嘅問  
27 題，...

28 彭樹雄先生：係，Mr Chairman，係。

29 主席：（經傳譯員）...呢個就係個案 1，你見唔見到？個案 1 就上面寫住「冇去跟  
30 進，冇再進一步採取行動」，雖然係九巴已經向警方提供襲擊者嘅八達通紀  
31 錄。

32 彭樹雄先生：係，Mr Chairman。

1 主席：（經傳譯員）有冇將相關嘅八達通紀錄交畀警方呀？

2 彭樹雄先生：我睇呢個案件，我哋係應該有交到出嚟嘅，我哋交咗出嚟嘅，不過 Mr  
3 Chairman，我想強調，如果呢個八達通卡佢唔係一啲 personalised 嘅，即  
4 係佢係非記名嘅，呢個如果佢係非記名嘅，其實嗰個跟進就可能會有啲困難  
5 嘅，但係如果當然佢登記咗，即係有個 identity 嘅，警方...

6 主席：（經傳譯員）我明白嘅，我哋明白，因為我哋有問過警方係攞到啲咩嘢資料  
7 嘅。喺你封信就應該係 KMB-1 嘅 297 頁，喺呢個回覆信入面，喺第二段你就講  
8 番個案 1，而你最後嗰句就係咁嘅，就話係「大概喺 2018 年嘅 4 月尾，我哋係  
9 同警方通過電話，就住呢個八達通紀錄同埋通知佢哋係收我哋嘅書面回覆  
10 嘅。」究竟佢哋有冇收到呢個回覆呀？或者你可以嘅話，你答有或者冇。

11 彭樹雄先生：（經傳譯員）冇，佢哋冇嚟收嘅。

12 主席：（經傳譯員）你有冇提供到呢個回應呀？

13 彭樹雄先生：（經傳譯員）冇，...

14 主席：（經傳譯員）請你解釋一下--你可以解--但係呢一個八達通嘅問題係從來都  
15 冇畀警方知道。

16 彭樹雄先生：呢個我哋講緊係一單喺天水圍發生嘅一單毆打案件，我記得因為我親自  
17 睇過呢一個案件，我哋 4 月初就收到警方一個 fax 傳真，就嚟就想攞呢一個嘅  
18 八達通紀錄，我哋喺 4 月 24 號，其實我哋已經準備好嗰個嘅 letter，同埋亦  
19 都係有八達通嗰個紀錄，我哋嘅同事跟番個指引，因為警方係 fax 嗰張 memo  
20 嚟畀我哋公司，所以我哋一定要 verbally，即係口頭上叫佢搵人親自嚟攞  
21 嘅，否則的話，我哋係唔能夠證實到對方嘅身分。

22 我哋嘅同事係畀過電話天水圍警區，叫咗佢嚟攞，但係一路警方都有嚟攞  
23 嘅，嗰封信仍然喺我哋公司度，嗰幾個八達通嘅紀錄仍然喺我哋公司度。Mr  
24 Chairman，嗰個詳情就係咁樣嘅。

25 主席：（經傳譯員）你話你自己有參與呢個個案，究竟個襲擊嘅性質係乜嘢呀？

26 彭樹雄先生：呢個我記得係喺一個 B1 嘅車站，即係喺一個過境嗰個車嚟嘅，有個男  
27 車長嘅，我記得，喺落馬洲。

28 主席：（經傳譯員）襲擊嘅性質係咩嘢呀？即係係咪有人打佢塊面或者係用樽扑佢個  
29 頭等等？

30 彭樹雄先生：主席，或者你容許我--畀少少時我睇一睇，因為--唔好意思，因為實  
31 在太多呢啲 assault case。

32 主席：（經傳譯員）好，你可以慢慢睇。

1 MR DUNCAN：（經傳譯員）主席先生，當佢哋搵緊嗰啲資料嘅時候，剛剛就係有人  
2 話畀我聽就係文件 1 101 頁就講過話代表百分之九十嘅車長，或者呢度就可以  
3 就係睇番，可能你剛才就問我哋啲證供係喺幾時提出嚟嘅，可能喺呢度，係個  
4 一頁嘅第 4 段。

5 主席：（經傳譯員）係，係，我心目中都係諗緊呢一段。係，個個襲擊嘅性質係點  
6 呀？

7 彭樹雄先生：Mr Chairman, it should be --佢係（經傳譯員）216 頁，216  
8 頁。

9 主席：（經傳譯員）講個性質。

10 彭樹雄先生：（經傳譯員）車長就畀人推咗落地下，就受傷，臀部同埋頭部就受傷。

11 主席：（經傳譯員）有冇需要接受治療呀？

12 彭樹雄先生：（經傳譯員）對唔住，呢度係有講話係咪驗傷。（直接用本地話說）  
13 冇，喺度冇表示到，sorry，對唔住。

14 主席：（經傳譯員）我關注嘅就係似乎件事就不了了之嘅，九巴同警方之間，但係呢  
15 件事係涉及你嘅一位車長畀人推咗落地下，臀部、頭部受傷，你話畀我聽就係  
16 話八達通嗰啲資料，你就入咗信封，就喺九巴公司嗰度就係不了了之，點會咁  
17 發生嘅呢？

18 彭樹雄先生：Mr Chairman...

19 主席：（經傳譯員）你係咪真係保護你嘅車長㗎？點會容許呢啲事發生呢？

20 彭樹雄先生：其實我想講，其實我都有問過呢個問題，當我知道嗰個八達通紀錄係有  
21 攞嘅時候，其實係上個月底，所以喺呢一方面，對唔住，係我哋可能跟進上面  
22 係咪可以做得好啲呢等等，我哋係覺得係可以做得好啲嘅。

23 主席：（經傳譯員）彭生，我咁講啱唔啱呢？其實你以前都係香港警隊嘅成員嘅。

24 彭樹雄先生：係，冇錯，主席。

25 主席：（經傳譯員）你而家份工同埋你以前嘅職業，其實你係咪都應該處理到--係即  
26 係應該個紀錄去到應該收到紀錄嘅人嗰度呢？

27 彭樹雄先生：我絕對可以嘅，主席。

28 主席：（經傳譯員）唔該晒。鄧樂勤律師。

29 MR DUNCAN：（經傳譯員）唔該主席先生。我就係想請你睇番第 83 頁嘅，呢個係九  
30 巴文件夾 1，83 頁，委員會問，而你喺呢個初步嘅陳述書所回應嘅，就係話你  
31 哋已經係有一啲係輔導嘅服務提供畀有需要嘅車長，呢個第二點，你就咁樣樣

1 回答呢個問題嘅，即係當時問你哋有冇提供呢啲服務，你就話有一個專責小  
2 組，成員包括係副車務總監、係車廠嘅主管、係培訓及服務質素管理部門、通  
3 訊傳訊以及係人力資源部嘅成員組成一個專責小組，就係睇下點樣樣為車長同  
4 埋前線員工提供呢個情緒支援，你哋會係搵一個專業嘅顧問，幫你哋全面咁樣  
5 樣去檢討目前嘅做法，而且就係睇下有邊啲地方可以提供建議，其中包括就係  
6 招聘車長同埋就評估車長嘅情緒智商，佢哋能否就係抵禦呢一個壓力，培訓、  
7 輔導同埋表現管理嘅；你哋預期就會係逐步咁樣樣去落實呢一啲建議嚟到去處  
8 理嗰個即時嘅問題。

9 我想問，就係呢個專責小組係幾時成立㗎？

10 黃祥明先生：喺 5 月尾左右，今年嘅 5 月尾。

11 MR DUNCAN：（經傳譯員）係咩嘢事促使你哋係成立呢個專責小組呢？

12 梁乃鵬先生：（經傳譯員）律師，可唔可以等我答呢？其實呢個主意係嚟自我嘅，因  
13 為當我知道我哋嘅車長經常畀人襲擊，我就覺得應該係尋求專業嘅意見，睇下  
14 我哋可以點樣去處理嗰個處境，同埋特別係就如何去搵我哋嘅車長，如果佢哋  
15 有需要嘅話，提供一個係輔導嘅服務嘅。

16 咁啱我就係識得中大嘅校長，佢哋之前係提供過一啲顧問嘅服務係畀警隊  
17 嘅，其實係幾年之前嘅事，就喺佔中嘅時期，佢哋有提供過咁嘅服務，我就諗  
18 下，可能對我哋嘅車長嚟講都有用嘅，因為我哋嘅車長經常都係有被乘客襲擊  
19 嘅，作為一個公共服務嘅營運商，我哋係需要招標，睇下有邊間公司或者組織  
20 係有興趣嘅，最後就係揀選咗中文大學。嗰個遴選工作我有參與嘅，因為咁樣  
21 係要避免呢一個利益衝突嘅，因為咁啱我係認識中大嘅校長嘅。

22 而家佢哋係喺度制定緊一啲建議，希望可以幫到我哋手，幫我哋進行招聘  
23 嘅工作，亦都可以為我哋提供呢個情緒嘅支援，如果我哋有車長係有需要呢一  
24 方面嘅協助嘅話，所以就係咁樣樣嘅一個背景係形成嘅。

25 MR DUNCAN：（經傳譯員）唔該晒。而家想請你睇一個 229 頁...

26 主席：（經傳譯員）未落去之前，梁博士，想問一問，你知唔知道佢哋係專業嘅顧  
27 問，而家嚟講，你知唔知佢哋喺招聘工作方面喺邊度可以幫到手？

28 梁乃鵬先生：（經傳譯員）基本上喺呢個招聘工作嗰度，佢哋會做一個評估嘅，評估  
29 一下嗰個應徵者佢嘅情緒方面嘅特性，如果我可以咁樣講，換句話講，佢哋嘅  
30 建議就係讓我哋就可以評估一下嗰個車長應徵者佢嗰個係情緒個表現嘅，或者  
31 佢個能力嘅。

32 主席：（經傳譯員）唔該。

33 MR DUNCAN：（經傳譯員）而家想請你睇呢個 219 頁，其實想請你揭去跟住嗰版  
34 220 頁，220 頁，就見到係你哋公司寫畀委員會嘅一封信，近期寫嘅，係 8 月

1 6 號嘅，呢度就講及一個行動計劃去落實一啲主要嘅建議。221 頁開始就係嗰個  
2 行動計劃。

3 我想請你係去 229 個頁嘅，229 個度，就係嗰版嘅左邊，就係嗰個關乎係  
4 心理支援嗰方面嘅情況，㗎唔㗎呀？呢個就係講及最初嗰個建議係點，係咪  
5 呀？

6 梁乃鵬先生：（經傳譯員）係。

7 MR DUNCAN：（經傳譯員）中間嗰欄就見到係 2018 年 4 月 10 號嗰個嘅行動計劃係  
8 有啲咩嘢里程碑同埋有啲咩嘢日期呀咁？

9 梁乃鵬先生：（經傳譯員）係。

10 MR DUNCAN：（經傳譯員）跟住喺右邊嗰欄，就知道目前個情況，我而家會將佢讀  
11 出嘅，係「一所本地大學嘅心理學系嘅顧問團隊就係 2018 年 5 月 31 號獲委任  
12 嘅，喺 6 月份就係開始咗係檢討目前嗰個做法，係睇下點樣樣提供呢一個情緒  
13 支援，就係透過去參觀車廠、車長訓練學校同埋一個熱線中心，同埋係同呢個  
14 副車務總監、車務嘅職員、分區嘅主管等等就見面嘅。」BCTS 係咩嘢意思？

15 梁乃鵬先生：（經傳譯員）就係呢一個車長訓練學校嘅。

16 MR DUNCAN：（經傳譯員）就係喺「2018 年 7 月，就話顧問團隊就係同呢一個專責  
17 小組講及佢哋初步嘅觀察，雙方就係制定咗一個係一般嘅方向，即係點樣去做  
18 嗰個項目，同埋喺嗰緊嗰幾個月會有啲咩嘢主要活動，就話會成立一啲焦點小  
19 組嚟到直接向車長同埋前線嘅員工係收集佢哋嘅睇法，睇下佢哋就喺呢個心理  
20 支援方面有咩嘢需要，同埋就係去睇一睇就點樣去培訓嗰個駕駛嘅老師，就會  
21 係 18 年嘅 9 月開始嘅，亦都再去睇一睇嗰個招聘嘅程序，嚟到係希望盡量就係  
22 奏效嘅，亦都希望就係有一啲支援嘅活動，就希望佢哋最後身心平衡同埋工  
23 作、生活都係好健康嘅。」

24 呢樣嘅工作，你知唔知道大概幾時會有啲成果呢？

25 黃祥明先生：根據中大畀我哋嘅資料同埋消息，其實我哋一定要係--呢個計劃係運作  
26 緊嘅，嚟緊我哋將會安排唔同資歷嘅車長同埋前線嘅站長同埋 inspector，就  
27 組成一啲嘅 focus group，等中大嘅同事可以了解到前線同事嘅工作壓力同埋  
28 困難。根據我哋嗰個計劃，將會做一個全公司嘅前線同事嘅問卷調查，進一步  
29 了解有關嘅困難，然後之後中大就會制定一個嘅方案畀我哋，係點樣可以去教導  
30 有關嘅車長去減壓或者舒緩壓力嘅情況。

31 呢個亦都會由駕駛學校嘅導師開始，佢哋將會接受一啲課程，就等佢哋係  
32 點樣將呢啲咁嘅舒緩工作壓力嘅或者情緒壓力嘅工作係點樣去教導呢啲車長，  
33 從而我哋由呢個導師開始就教導呢個車長，等佢哋可以喺工作上獲得呢個舒  
34 緩。

1 時間就係而家其實一路行緊嘅，嚟緊嘅 8 月，我哋就會有呢個 focus  
2 group，9 月就係希望可以完成到嗰個問卷之後，就進行呢個導師嘅教導，一路  
3 做落去，我哋希望嚟緊嘅年尾能夠完成到成個計劃。

4 目標就係話我哋要訓練有啲導師，一個 train the trainer 嘅模式，等  
5 佢哋日後可以留嚟九巴度繼續訓練有關嘅前線同事。

6 梁乃鵬先生：（經傳譯員）我就想補充我呢個提議其實並唔係得咁少嘅，我希望我哋  
7 可以成立一個部門，係有一啲專業嘅心理學家同埋佢哋都會成為我哋公司嘅一  
8 部分，咁樣佢哋就可以隨時支援公司其他嘅員工，所以換句話講，就會有一個  
9 新部門，呢個就要睇顧問嘅建議。可能佢哋就會建議嚟四大嘅車廠度可能成立  
10 一個部門，或者可能嚟全部嘅部門都有一個單位等等，但係呢個就並唔係一個  
11 臨時或者即興嘅工作嚟嘅。

12 主席：（經傳譯員）梁博士，你覺得幾時先至可以嚟呢一個招聘入面係加入呢個嘅考  
13 慮？

14 梁乃鵬先生：（經傳譯員）我就而家畀唔到一個答案，主席。

15 主席：No, I understand.

16 梁乃鵬先生：（經傳譯員）但係我希望可以儘快做。基本上我係想成立--即係儘早成  
17 立呢一個新部門，同埋係邀請一啲專業嘅心理學家加入，成為我哋員工嘅。

18 主席：（經傳譯員）唔該。

19 黃祥明先生：主席，我有嘢補充，關於你嘅問題嘅，因為呢個 project 係由我做個  
20 project manager，嚟呢個招募嘅時候，其實我哋考慮番每個車長，當佢做一  
21 個九巴車長，都係一個專業嘅工作嚟嘅，佢哋嗰個工作嘅性質同埋嗰個佢個工  
22 作態度係好成正比，我哋所以搵心理專家嘅協助，就係希望嚟佢招募嘅時候已  
23 經可以搵啲正確嘅人去協助我哋日後執行呢個車長嘅工作，唔該。

24 主席：（經傳譯員）鄧律師。

25 MR DUNCAN：（經傳譯員）多謝主席。我想請你睇 185 頁，嚟同一份嘅文件冊，呢  
26 個亦都係嚟最初嗰份文件嘅一個--應該係第二份呈交文件嘅一部分嚟嘅，即係  
27 你哋公司呈交畀委員會。我想你睇下嘅一頁嘅第三個問題，請你形容一下嚟分  
28 析一個候選人嘅情商或者係抗逆能力嘅時候，呢一個評核係扮演咗一個咩嘢角  
29 色呢，嚟聘請車長嘅時候？同埋嚟以往同埋現有嘅招聘系統底下，會唔會係問  
30 一啲問題，即係就住呢一個相關人士佢哋處理一啲比較棘手乘客嘅能力，呢個  
31 問題就係嚟第 185 頁同埋 186 頁嘅，正唔正確呀？

32 蘇偉基先生：（經傳譯員）係。

33 MR DUNCAN：（經傳譯員）我想確認其中一點嘅，就係第 186 頁，嚟第二點，一個  
34 車長面試評核表嘅樣本，就係嚟呢一個附錄入面嘅，或者我哋可以睇下個附

1 錄，呢個就係 KMB-10 文件冊，就係第 4439 頁，呢個就係嗰份--係咪就係而  
2 家用嘅評核表格就係呢個情況？

3 蘇偉基先生：（經傳譯員）係，但係有一啲欄就已經係唔再適用。

4 MR DUNCAN：（經傳譯員）你可唔可以解釋一下？

5 蘇偉基先生：Okay，我哋可以睇一睇後面嗰頁嘅 4440 嗰頁，中間下低，你會睇到  
6 “medical check” 上面有個 box，叫做“DISC Test Evaluation”，其  
7 實呢一個係一個 personality check，係外面一啲嘅 professional firm  
8 就做一啲問卷，個問卷就係話畀個投考人就去選擇，譬如話一條題目就係話點  
9 樣去形容你嘅性格，你可以話你自己開朗、其他嘅形容詞，由個投考人自己去  
10 剔邊個係最合適形容你、邊個最適合不形容你。呢一個嘅表格喺 2014 年已經係  
11 檢討過，話嗰個成效係低，所以呢個係冇用到嘅，其他嗰啲其實就係現時係冇  
12 用緊嘅。

13 主席：（經傳譯員）即使係冇再用嗰個欄，或者你可唔可以解釋下 DISC 係代表乜  
14 嘢？

15 蘇偉基先生：DISC 係一個 short form，會後我畀番出嚟，佢係一張表格嚟，我可  
16 以會後畀番。

17 主席：（經傳譯員）唔該晒。

18 蘇偉基先生：（經傳譯員）我可唔可以繼續？

19 主席：（經傳譯員）可以。

20 蘇偉基先生：有咗呢個 DISC，唔係話任何去睇下嗰個投考人嗰個 EQ、tolerance  
21 嗰啲嘢，我哋而家嘅方式就係由我哋嘅 interviewer，我哋嘅面試官係同投考  
22 嘅車長進行一個面試，喺面試嗰度會有啲模擬嘅題目，舉例如，就係當你揸  
23 車，有啲乘客好不禮貌地、好刁難地，就睇下嗰個投考人究竟佢會點樣反應，  
24 作為一啲咁嘅假設性嘅過案，就等個投考人去睇番，「如果咁樣發生，你會點  
25 樣做？」就睇到佢嗰個人個情緒、待人係咪禮貌、個和善，用一個面試嘅形式  
26 係做一個評估嘅。

27 亦都除咗話做面試之外，其實每位考生亦都要係有個試車，即係話喺一架  
28 私家車嗰度由我哋嘅駕駛嘅考官同佢一齊行大約三十分鐘嘅車程，就睇到佢喺  
29 路面上遇到其他嘅道路使用者，其實已經係睇得到一個人嗰個嘅性格各方面嘅  
30 嘢，綜合，我哋就可以評估到究竟呢個嘅考生係咪適合做一個職業嘅車長。

31 主席：（經傳譯員）鄧律師。

32 MR DUNCAN：（經傳譯員）多謝主席。我哋而家就講到招聘嘅問題，請你攞去 KMB-  
33 1 文件冊嘅第 60 頁，呢個就係你哋公司第一次呈交文件嘅一部分嘅，就係 4 月  
34 24 號呈交畀委員會。第一個問題就係咁樣嘅，喺招聘同埋保留車長嘅時候遇到

1        咁咩嘢問題，或者你自己可以睇一睇頭啲兩段嘅答案，你就向委員會表示呢一  
2        個短缺嘅問題同埋車長--或者商用車輛司機老化嘅問題嘅，喺香港整體嘅運輸  
3        業嚟講，你見唔見到呀？

4        蘇偉基先生：（經傳譯員）係，見到嘅。

5        MR DUNCAN：（經傳譯員）呢個司機短缺嘅問題係咪已經存在咗好多年㗎喇？

6        蘇偉基先生：係。

7        MR DUNCAN：（經傳譯員）我想你睇 KMB-9 文件冊，第 3840 頁嘅，Has the  
8        company from time to time raised this shortage issue with  
9        the authorities in Hong Kong?

10       蘇偉基先生：首先公司出現車長短缺係喺 2016 年嘅，我哋係有提出嘅，呢個我哋運  
11       輸署亦都得知我哋個車長係短缺嘅。

12       主席：（經傳譯員）頭先就聽唔到有傳譯嘅。

13       蘇偉基先生：車長短缺嘅問題喺 2016 年開始，而呢個問題運輸署係知悉嘅。

14       主席：（經傳譯員）唔該晒蘇先生。

15       MR DUNCAN：（經傳譯員）文件冊嘅第 3840 頁，你見唔見到呢度有一份嘅新聞稿  
16       呀？

17       蘇偉基先生：Yes.

18       MR DUNCAN：（經傳譯員）就係關於呢件事情就去到立法會，你見唔見到呀？

19       蘇偉基先生：（經傳譯員）係，見到嘅。

20       MR DUNCAN：（經傳譯員）呢個就係易志明議員嘅一個問題，就係運房局局長張炳  
21       良教授就係喺 6 月 29 號喺立法會回應嘅，呢個就係 2016 年，我就唔會將問題  
22       讀晒出嚟，但係呢個係咪同人手短缺嘅問題係相關嘅呢？

23       蘇偉基先生：（經傳譯員）係。

24       MR DUNCAN：（經傳譯員）呢一頁嘅底部，我哋就見到運房局局長嘅回應，我就想  
25       將呢一個答案嘅第一段讀出嚟。

26       「政府係知道運輸業嘅人手短缺嘅人手問題嘅，唔同嘅運輸業界亦都係多  
27       次提出喺近年嘅勞工市場係越嚟越緊張，招聘員工係唔容易嘅，同埋似乎係有  
28       跡象顯示業界嘅勞動人口係老化緊，就住呢個問題，政府係將會係訂立一啲嘅  
29       策略，同業界一齊，而亦都係會喺政策上同業界去合作，如果係可行同埋係有  
30       幫助嘅。我哋希望業界係會努力改善工作嘅環境同埋待遇，同埋幫助年輕人去  
31       了解多啲呢啲行業嘅，透過唔同嘅平台，咁樣就可以吸引多啲新血加入。」

1 我就讀到呢一度，我想問，政府其實有冇制定過任何嘅策略即係話同運輸  
2 業係聯手去到應付呢個問題呢？

3 蘇偉基先生：我個人就有收到，我喺個 IRC THB 嘅指引，佢就話鼓勵專營巴士嘅服  
4 務商係聘請足夠嘅車長，至於有冇一啲 strategies，我有睇到。

5 MR DUNCAN：（經傳譯員）落去下面啲頁，3842，喺啲一頁嘅第三、第四段，我想  
6 請你睇番，局長當時就咁講嘅，就講到就係「從業員資格方面，專營同埋非專  
7 營巴士、公共小巴、的士同埋貨櫃車司機，都需要持有相關嘅商用車輛駕駛執  
8 照，現時法例上面就規定呢一啲嘅駕駛執照嘅申請者必須係持有有效嘅私家車  
9 或者係輕型貨車駕駛執照最少係三年嘅，運輸署正喺度檢討係咪可以縮短呢個  
10 要求嚟到吸引更多新人去入行嘅，個目標就係爭取今年裏面完成。」

11 我要問嘅問題就係，我想問下，法例有冇改到呢，就呢一方面嚟講，法例  
12 有冇改呢？

13 蘇偉基先生：（經傳譯員）冇。

14 MR DUNCAN：（經傳譯員）即係話將啲個要求個期間係減短，係有冇發生過咩嘢事  
15 呢？

16 蘇偉基先生：（經傳譯員）冇。

17 MR DUNCAN：（經傳譯員）公司支唔支持咁嘅改變呢？

18 蘇偉基先生：呢個就真係要諮詢同埋佢有咩嘢 compensation，因為如果你話揸咗  
19 -獲得 private car licence 只得一年，其實有冇足夠嘅經驗可以駕駛一架  
20 專營巴士，載一百五十位嘅乘客呢？喺安全啲度係有個考慮。當然，你話攞咗  
21 牌係咪等於佢有個駕駛經驗呢？可以未必成正比，但係你話一年嘅牌係咪呢？  
22 我相信都要討論去研究。

23 MR DUNCAN：（經傳譯員）想問下運輸署有冇搵過你哋「我哋可唔可以傾下呢件  
24 事？睇下關注啲乜嘢嘢？」咁呀？

25 黃祥明先生：運輸署曾經就邀請各個嘅專營巴士就係討論呢個問題，但係未有一個結  
26 果嘅，應該係上個月嘅時候就討論，但係未有呢個結果。當時佢都有一個清晰  
27 嘅立場係點樣，只係徵詢各個專營巴士嘅意見。

28 MR DUNCAN：（經傳譯員）有冇搵過你哋公司，喺上個月之前，有冇呀？

29 黃祥明先生：冇，之前係冇嘅。

30 MR DUNCAN：（經傳譯員）而家想麻煩你睇睇 KMB-9 呢個文件夾，其實同一個文件  
31 夾嚟嘅，3844 頁，其實就想你睇 3855，我頭先就睇緊呢一個翻譯本，就係  
32 3847-1，你睇緊嘅就應該啲個標題係咁嘅，「2018 至到 19 年審計開支預  
33 算」。

1 蘇偉基先生：（經傳譯員）係。

2 MR DUNCAN：（經傳譯員）我相信係一個紀錄嚟嘅，呢個應該係立法會開會嘅一個  
3 紀錄，今年較早時候嘅一個會議紀錄，係 4 月 20 號佢哋開會嘅一個紀錄。

4 蘇偉基先生：係。不過嗰啲資料就係喺 3847-3。

5 MR DUNCAN：（經傳譯員）係。我首先想請你睇睇嗰個問題，我諗就係問政府嘅管  
6 制人員，相信就係有關嘅管制人員就係勞工署嘅，我睇 3847，嗰度就係請相關  
7 當局提供以下嘅資料，第一就係話關於就係公共運輸服務同埋貨櫃車呢啲行業  
8 嘅司機嘅老化嘅問題，嗰個 (a) 嗰個問題。(b) 就係問-- 3847-2，就係想問下  
9 嗰個空缺個情況，要求提供嗰個統計數字。(c) 就係話講到係公共運輸業同埋呢  
10 個貨櫃車嘅司機短缺嘅情況已經係存在一段長時間，會唔會係勞工處就係將佢  
11 納入作為呢個輸入勞工嗰度呢？如果有嘅話，係會有啲咩嘢措施嚟到幫業界可  
12 以有效咁樣請到司機呢，同埋相關嘅人手同埋嗰個開支嘅。

13 講到嗰個回覆，(a) 嗰個部分，2013 至到 17 年，專營巴士司機嗰個聯營  
14 分佈就係如下，大家可以睇到，嗰度有啲數字嘅，特別就係講到 25 至 29 歲，  
15 係 2013 年嘅時候 341 位嘅，2017 年係 449 位；另一邊，60 至 69 歲嘅，  
16 2013 年就係 1,167 位，2017 年嘅時候係有 2,022 位，就係屬於呢一個年齡  
17 組別；對上一個年齡組別係 50 至到 59 歲，2017 年就係 5,886 位就係屬於呢  
18 個年齡組別。

19 跟住 (b) 嗰個答案，講到係嗰個職位空缺嘅，講到係專營巴士嘅司機嘅職位  
20 空缺嘅數字係咁嘅，13 至到 17 年，2013 年就係 192 個空缺，去年 2017 年空  
21 缺嘅數字係 366 個。

22 3847-4，就係有 (c) 項嗰個答案，根據呢個運輸署喺 2017 年年尾，係有  
23 超過三十七萬人就係持有呢一個有效嘅商用車輛，下面有一個註釋，嘅駕駛執  
24 照，即係話的士、私家巴士、專營巴士、小巴、掛接車同埋係貨車等等，但係  
25 只係有多於九萬部商用車輛就係有牌照嘅，所以個問題就係話點樣去吸引嗰  
26 啲合資格嘅個別人士就去加入嗰個行業嗰度。有鑑於此，政府唔應該倉卒咁樣  
27 去考慮係話為商用車輛就係輸入司機，係應該就係考慮埋本地司機佢個生計。

28 你呢度可以睇到，呢度有一個提議，就話考慮搵外來嘅人士，輸入外來嘅  
29 司機，讓佢哋嚟香港嗰度就係做嘢，就係去舒緩嗰個運輸業面對司機不足嗰個  
30 情況。我想問你哋公司就呢一方面，就一個咁嘅建議，你哋有咩嘢立場呢？

31 蘇偉基先生：冇，我可唔可以解釋？

32 主席：Yes.

33 蘇偉基先生：呢一...

34 MR DUNCAN：（經傳譯員）有冇嘢解釋？有嘢解釋定點？

1 李澤昌先生：I think so.

2 MR DUNCAN：（經傳譯員）你一係支持，一係反對嘅，係咪？個情況係點呢？

3 梁乃鵬先生：（經傳譯員）可否讓我直接咁講呢？呢個係一個高度政治性嘅問題嚟  
4 嘅，我可以預計會有強烈嘅反對嘅，即係話香港個工會一定會大力反對嘅，如  
5 果話係要輸入勞工，喺新加坡佢哋有咁做嘅，喺新加坡嘅巴士公司佢哋有來自  
6 中國大陸嘅司機，因而係可以解決人手不足嘅問題，喺新加坡佢哋有咁做，不  
7 過我懷疑喺香港係咪可行嘅，有鑑於目前嘅政治氣氛。

8 主席：（經傳譯員）佢哋有冇話係抗議、示威反對呢一個輸入司機呢？

9 梁乃鵬先生：（經傳譯員）我諗係因為呢一個係薪酬不同嘅問題，但係呢個問題最後  
10 解決咗嘅。

11 主席：（經傳譯員）你就將佢定性為一個政治嘅問題。

12 梁乃鵬先生：（經傳譯員）講喺香港。

13 李澤昌先生：其實都仲有少少輕微嘅實際上嘅，因為香港呢個城市好獨特，其實佢周  
14 邊個個駕駛環境好唔同，即係唔似深圳或者上海或者喺台北，佢有好大個一個  
15 國家，佢個個駕駛嘅技術好相似，即係香港係零零舍舍喺成個區，佢除咗係個  
16 雙層巴士同埋佢個個右軚嘅揸法係非常之唔同，變咗係有一個困難嘅一點，所  
17 以亦都係香港嘅道路同埋香港嘅乘客都係比較係比其他嘅一個整個內地係  
18 好唔同，所以係有少少唔同嘅。

19 主席：（經傳譯員）鄧律師，我打算而家就係小休一下，讓大家稍事休息，我就打算  
20 就係休息十五分鐘，呢個係咪一個啱嘅時候呢？

21 MR DUNCAN：（經傳譯員）係嘅，主席先生。

22 主席：（經傳譯員）好，我哋而家係休息十五分鐘。

23

24 下午 4 時 13 分聆訊押後

25

26 下午 4 時 29 分恢復聆訊

27 出席人士如前。

28

29 主席：（經傳譯員）鄧律師。

30 MR DUNCAN：（經傳譯員）多謝主席。黃先生，你向委員會表示就即係你講到有一

1 個措施係去解決人手短缺嘅，就係將呢一個擺到牌照嘅要求由三年縮短到一  
2 年，你對呢個建議有冇保留？

3 黃祥明先生：剛才我講係運輸署係有搵過我哋嘅業界去討論呢個問題。

4 MR DUNCAN：（經傳譯員）你同唔同意縮短嗰個持牌年數嘅建議係有用嘅呢？

5 黃祥明先生：呢個我諗我真係要深入探討先得，因為而家嘅要求係需要有三年的私家  
6 車駕駛執照，如果將佢降低嘅時候，我哋都係始終考慮佢嗰個乘客安全同埋駕  
7 駛安全，所以呢個我有個人嘅立場，我諗係需要公司再詳細去探討，然後去  
8 回應畀運輸署。

9 主席：（經傳譯員）你幾時係回覆運輸署㗎？

10 黃祥明先生：呢個商討係進行中嘅，就未有一個最終嘅確定回覆日子。

11 彭樹雄先生：我諗，Mr Duncan，我哋睇呢個問題嘅時候，我哋相信要平衡好多方  
12 面嘅考慮，第一，我覺得有一樣嘢唔可以妥協嘅，就係嗰個所謂 safety。到底  
13 我哋如果將三年嗰個年期去減短，如果純粹就咁講個年期，我相信我哋就唔係  
14 睇緊一個大 picture，會唔會係譬如話我哋將個年期可能會縮短，但係可能嗰  
15 個投考者佢可能要有其他提供到畀我哋資料佢原來係可能兩年佢係不停咁駕駛  
16 又或者佢本身係嗰個駕駛技術都係有一定嘅水平，咁又會唔會有一啲額外嘅測  
17 試，可以唔使三年，可以係一個短啲嘅時間，但係經過一個--我哋一個所謂合  
18 格嘅測試，會唔會可以考慮呢等等。

19 我哋其實喺呢一方面，當然我知道成個業界唔係淨係 KMB，都係缺車長  
20 嘅，但係問題就係我哋嘅前設就係第一，safety 係行先，然後其他嘢我哋係完  
21 全係持一個開放嘅態度係去處理嘅。多謝 Mr Duncan。

22 MR DUNCAN：（經傳譯員）我想請你睇番嗰個紀錄本，係第 1 天嗰個聆訊嘅紀錄  
23 本，66 頁，文件夾 1 號，第 1 天嘅聆訊，第 66 頁，第 66 頁第 8 行，呢度你  
24 見到，我當時有問一個問題嘅，我就問黎以德先生「究竟嗰個係咪正確咁反映  
25 政府嗰個立場，即係關乎人手短缺？」

26 黎先生回應嘅時候就咁講嘅，佢係黎以德先生，佢就話「我就係作為呢一  
27 個運房局嘅代表，我係上任秘書長」--或者我將佢嗰個答案係打出嚟，我想請  
28 你睇呢個第 16 行嘅。

29 「我哋嘅立場嘅另一個部分，即係關乎係商業司機嘅長久存在嘅短缺問  
30 題，就係我哋已經採取步驟去係有一個全面嘅立法嘅修訂，我就可以講下嘅，  
31 就係話要將商用車輛司機嘅牌照要求就係放寬，即係話基本上就咁嘅，目前如  
32 果你想擺個牌照，想擺駕駛執照係揸商業車嘅話，你就需要有一個私家車嘅執  
33 照，要擁有咗三年，然後先至可以有資格係進行申請嘅，即係話係申請就係擺  
34 個駕駛執照，揸呢個係商業車輛。

1 由於長期都係人手短缺，我哋就已經作出咗一個建議，而業界以及立法會  
2 亦都同意咗，就係呢一個三年期係可以將佢縮減到一年期嘅，所以喺日後你只  
3 需要係有一個係私家嘅駕駛執照一年，然後就已經可以係申請攞呢個商用車輛  
4 嘅駕駛執照，商用車輛當然就包括巴士，亦都包括埋係專營巴士嘅。

5 我哋而家草擬緊相關嘅法例嘅修訂，我哋希望就可以喺今年年尾之前係將  
6 佢提交畀立法會，如果立法會係通過嘅話，應該喺某程度上都可以舒緩到呢一  
7 個短缺嘅問題。未必可以全部解決個問題，但希望都可以提供一啲舒緩嘅，喺  
8 我哋嘅度，呢個就係我哋所做緊嘅工作。

9 不過正如我講過，亦都要講埋，我諗亦都係專營巴士公司作為一個專營權  
10 嘅獲授權者，係採取一切合理嘅步驟，去確保佢哋有所需嘅司機嘅數目去提供  
11 個服務。」

12 好，呢度你見到喇，睇番呢一個紀錄本，睇嚟就係政府係立意就係要將個  
13 三年期就係縮減到一年嘅，而且已經係草擬緊個法例嘅修訂。我哋未將呢一  
14 段文字讀出嚟畀你聽之前，之前你哋公司知唔知悉呢件事㗎？

15 李澤昌先生：呢一樣嘢就好肯定清楚就係因為每一次--知道嘅，佢三年嗰個駕駛經驗  
16 係唔多唔少係減少咗一啲有機會投考做巴士司機嗰個機會，將三年去 relax 到  
17 一年嘅時間，其實變咗有多啲人可以入到個學校裏面去考呢個巴士牌。最後，  
18 最重要都係考個巴士牌，我哋所謂叫做 17 牌，就係有資格揸巴士，係嗰個先至  
19 為目標。

20 當然如果你將三年去到一年嘅時候，變咗佢入去個學院嘅人數就可能會多  
21 咗，變咗都係最後嗰個關卡都係考到嗰個巴士牌為基準。咁係幫到嘅，因為喺  
22 無論你三年又好，兩年都好，有啲真係有能力去做，呢個我哋係知道嘅。好似  
23 我哋頭先有個同事講緊，就係而家仲係喺度討論緊，就未有一個我哋嘅時間  
24 表。

25 MR DUNCAN：（經傳譯員）你知唔知道業界係支持呢個改變㗎？因為呢度黎秘書長  
26 係咁講嘅。

27 李澤昌先生：一半一半，一半一半，有啲係當然覺得有啲 trade，當然覺得某啲因  
28 素會對佢自己嗰個嘅利益嘅關係；從另外一半，有啲真係覺得而家係喺嗰個揸  
29 商業車越嚟越少人，嗰個門檻最重要都係考到巴士牌。今日我哋九日有兩個門  
30 檻嘅，一個就係頭一 part，就係令到佢入嚟個學校嘅時候就考到嗰個巴士牌，  
31 呢個巴士牌係政府運輸署批出嚟嘅，如果有咗呢個牌之後，佢基本上就已經可  
32 以揸得巴士，同埋其他嘅好似例如嗰啲旅遊巴士嗰啲咁嘅東西，對個業界係多  
33 咗，因為你入嚟嘅 applicant 係多咗。一半半囉，可以咁答你。

34 主席：（經傳譯員）唔該晒。

35 MR DUNCAN：（經傳譯員）黃生，你話政府係有同你哋商討過嘅，係淨係同九巴傾

- 1            咁，定抑或係同其他持份者傾？
- 2    黃祥明先生：係同所有嘅呢個巴士公司係一齊商討。
- 3    MR DUNCAN：（經傳譯員）開過幾多次會呀？
- 4    黃祥明先生：我印象中係記得只係一次啫，只係一次啫。
- 5    主席：（經傳譯員）呢個係上個月嘅，係咪呀？你講過。
- 6    黃祥明先生：冇錯，係，剛才我講過係上個月，但係日子我要 check 番我個行程表
- 7            先記得番邊一日。
- 8    主席：（經傳譯員）但你頭先亦都講過就話係冇清楚嘅立場顯示嘅？
- 9    黃祥明先生：講咗一啲嘅佢哋嘅大概預算嘅做法，包括其中一樣就話要啲--如果係改
- 10           低啲個有駕駛執照嘅年份嘅時候，就要佢哋進行一啲叫做商業駕駛嘅訓練，佢
- 11           英文叫做 passenger service course，但係呢啲都係好初步同我哋講，所
- 12           以而家都未有一個好大嘅 picture 知道佢哋係點樣做法。
- 13    主席：（經傳譯員）當時黎先生係三個月之前作證嘅，佢當時就話業界係支持嘅，你
- 14           而家就話只係上個月先同巴士公司係問呢個問題？
- 15    黃祥明先生：係，冇錯。
- 16    主席：（經傳譯員）唔該。
- 17    MR DUNCAN：（經傳譯員）喺今年嘅 2 月份，有新嘅指引，呢個就關於就係佢哋嘅
- 18           當值時間、休息時間，呢個新嘅指引就發咗出嚟嘅，呢啲新嘅指引，我想問有
- 19           冇影響咗你哋係招募員工、招募車長嘅工作呢？
- 20    彭樹雄先生：Mr Duncan，我如果直接答你，如果我哋係要--不過首先我想講，運
- 21           輸署今年嗰個修訂本嗰個 revised guidelines 係要到到出年嘅第二季先係
- 22           全面咁樣去落實嘅，但係我哋初步嘅估計，其實我哋而家開始做緊一啲嘅
- 23           system modifications，就係一啲電腦程式嘅 upgrade，就去 fit 番呢一
- 24           個新嘅 guideline，我哋估計，如果呢個新嘅工時指引係完全行嘅時候...
- 25    主席：（經傳譯員）彭生，其實呢個問題唔係一個開放式嘅問題，
- 26           好簡單嘅咋，有冇影響到你哋係招募車長呢？有定抑或有？
- 27    彭樹雄先生：如果純粹講 recruitment，係會有影響。
- 28    主席：（經傳譯員）我諗鄧律師要問嘅問題就係咁嘅。
- 29    MR DUNCAN：（經傳譯員）你話有影響係喺邊方面受影響？
- 30    彭樹雄先生：如果--我哋計過，用呢個新指引呢，我哋要額外請多
- 31           二百個車長，同埋新指引底下有一個所謂特別更，呢個特別更，

1 如果我哋係將來取消呢個特別更，一更過，一個 straight  
2 shift，我哋更加額外要請多一千個車長。

3 MR DUNCAN：（經傳譯員）對於嗰個特別更嗰個影響，我哋遲啲先  
4 至講。或者我頭先講得唔清楚，唔好意思。自從 2 月份，我想  
5 問，呢個指引係令到你容易啲咩，定抑或難啲，定抑或係有咩嘢  
6 影響，即係對於你哋招募車長方面係難咗咩，易咗咩，定抑或有  
7 影響呢？

8 蘇偉基先生：呢個其實可以喺番投考人佢點樣 respond 呢個新嘅 guideline 去決  
9 定，因為公司喺 2 月呢個新 guideline 期間做咗好多嘢，呢個我哋好 focus  
10 講個 guideline，我就唔感覺到招聘人其實對呢啲嘅 guideline 有幾大嘅認  
11 識或者關注。

12 MR DUNCAN：（經傳譯員）即係據我嘅理解，即係話有影響？

13 李澤昌先生：唔係好嚴重。

14 蘇偉基先生：暫時未反映。

15 李澤昌先生：唔係好嚴重。

16 黃祥明先生：暫時未反映。

17 MR DUNCAN：（經傳譯員）你表示為咗符合新嘅指引，你係要請多二百名嘅車長，  
18 喺大埔意外之後，你係已經係更改咗你對兼職車長同埋聘請兼職車長嘅政策，  
19 係咪呀？

20 李澤昌先生：係。

21 MR DUNCAN：（經傳譯員）你就話要請多二百個車長係咪已經反映咗呢一個新嘅政  
22 策？

23 李澤昌先生：有。

24 MR DUNCAN：（經傳譯員）你哋就住兼職車長嘅決定係咪即係意味住呢個數字係會  
25 唔止係二百？

26 蘇偉基先生：二百個車長係需要增加去配合呢個新指引，其實講緊嗰個係全職嘅車長  
27 嚟嘅。我另外都想答一答，就係話我哋 2 月喺嗰個 part-time 嗰個嘅改變，我  
28 哋要了解其實 part-time 車長 2 月前或者 2 月後對公司成個車長嗰個勞動  
29 力，佔嗰個比例其實都係講緊 3 至 4% 嘅啫。

30 MR DUNCAN：（經傳譯員）明白，唔該晒。我想你睇 58 頁，KMB-1 文件冊，個問  
31 題--呢個亦都係你第一份呈交嘅文件之一，問題就係你公司有冇聘請足夠嘅全  
32 職車長去提供有效同埋有效率嘅服務呢？你公司需唔需要持續咁樣去聘請一啲

1 兼職嘅車長去解決呢一個人手短缺嘅問題，或者係去輔助一啲核心嘅員工去處  
2 理一啲特別嘅活動同埋處理一啲缺席嘅問題呢？請你提供唔同聘請條件嘅車長  
3 數目同埋現有嘅員工能唔能夠係符合你嘅運作需要呢？

4 我想你睇番呢一頁嘅最後一段嘅，你回應指車長聘請嘅招聘類別就係根據  
5 佢哋嘅招聘日期去分類嘅，而以日薪嘅車長嚟講，就係 1999 年嘅 5 月之前嘅，  
6 呢個意思係咪即係話如果以日薪去聘請——即係呢啲係咪指以日薪去計算薪金嘅  
7 車長？

8 蘇偉基先生：（經傳譯員）係。

9 MR DUNCAN：（經傳譯員）而月薪車長嘅意思即係話佢哋每月去支薪嘅，正唔正  
10 確？

11 蘇偉基先生：（經傳譯員）每月支薪嘅，係。

12 MR DUNCAN：（經傳譯員）第三類就係退咗休嘅車長，佢哋就係重新被聘請，佢哋  
13 可以係每月支薪或者係用一個第三個方法，即係用月薪嘅。

14 蘇偉基先生：呢個係跟佢個 employment 而定嘅，唔係話佢選擇嘅，即係如果佢係  
15 一個揀咗時薪 hourly rate 嘅，我哋就計佢每一個鐘頭去編更，就計佢每一  
16 個鐘頭嘅工資，如果佢揀係一個月薪車長嘅，我就以一個每個月嘅形式去編  
17 更，佢收嘅就係月薪嘅工資。

18 MR DUNCAN：（經傳譯員）唔該晒。我哋睇到啲相關嘅數字，就係 4 月 24 號嘅情況  
19 嘅，就係第 59 頁，就有日薪嘅車長，2,105 名就係九巴嘅，月薪車長就係  
20 5,201，退咗休嘅車長而係重新聘請，如果以時薪計就係 577 名，一啲退咗休  
21 而再聘請嘅車長，以月薪計就有 383 名嘅，另外就係有啲外來嘅時薪車長就係  
22 有 371 名嘅。據我嘅了解，外部嘅時薪車長全部都係兼職車長嚟㗎嘛？

23 蘇偉基先生：正確。

24 MR DUNCAN：（經傳譯員）然後你就列出咗巴士車長空缺嘅數目，直至喺 2 月 28 號  
25 就係有 280 個空缺嘅。

26 蘇偉基先生：（經傳譯員）係嘅，當時係。

27 MR DUNCAN：（經傳譯員）我哋睇番第 58 頁，喺二個一點，呢個係關於兼職車長  
28 嘅，「自從 18 年嘅 2 月中開始，九巴已經係停止招聘新嘅外來時薪車長，如果  
29 佢哋嘅工時係短嘅（即係話每星期係少過十八小時）。」因為咁樣，九巴係會  
30 繼續去聘請兼職車長嘅，只要佢哋每星期係工作超過十八個鐘？

31 蘇偉基先生：Yes.

32 李澤昌先生：呢個有點補充，我哋覺得 part-time 同埋 full-time 呢樣嘢有一個  
33 好唔同嘅，其實十八個鐘頭每一個星期或以上其實係令到我哋好清楚可以同個

1 個員工知道佢之前如果有其他嘅工作，我哋一定要清楚知道佢嗰份咩嘢工作，  
2 兼夾佢揸車嘅時候可以知道佢之前有冇揸過其他車或者個身體嘅狀況，所以其  
3 實好難定論一個 full-time 佢工作嘅時間係咪十八定十九，有啲人嘅 full-  
4 time，其實佢每日係工作四個小時都係叫做 full-time，所以其實我哋將呢個  
5 part-time 呢個字係清楚地用「十八個鐘頭以上」，係我哋畫咗一條線喺度  
6 嘅，每個星期。

7 MR DUNCAN：（經傳譯員）根據我嘅了解，即係話每星期工作超過十八個鐘嘅人就  
8 唔會--即係再有其他工作係影響佢嘅駕駛工作嘅，係咪？

9 李澤昌先生：Yes or no，係，我哋覺得如果佢連續性每一個星期都做十八個鐘  
10 頭，我哋就會問嗰個車長佢有冇其他嘅工作，如果有其他嘅工作嘅話，我一定  
11 要了解清楚佢嗰份工作係咩嘢工作，而佢嗰個工作嘅僱主容唔容許佢揸車，呢  
12 個係一個好重要嘅問題嚟嘅，因為有啲情況，譬如假設一個車長佢嚟出面揸緊  
13 的士嘅，佢嚟到我呢度佢揸十八個鐘頭，其實我有機會唔知嘅，十八個鐘頭樓  
14 下，所以我哋係好肯定地，我哋想 draw 十八個鐘頭就--其實呢個係我哋一條  
15 例係畀自己，就我哋係一定要令嗰架車入嚟嘅時候係知道佢嗰份工作--另外嗰  
16 份工作係咩嘢工作。呢個重要嘅，因為相反，如果我哋唔知道嘅話，我哋就唔  
17 知道佢個情況。

18 MR DUNCAN：（經傳譯員）如果有人係淨係想幫你係工作十二個鐘，有咩嘢問題呢  
19 其實？

20 李澤昌先生：No. Simply just reject.

21 個問題係點解，個問題係點解，即係你點解會有興趣知道呢？

22 蘇偉基先生：如果嗰個投考人佢冇提供，其實我哋都做唔到我哋可以一個  
23 reasonable step 證明佢嘅工時或者佢另外有招聘，有個疲勞嘅考慮。佢如  
24 果而家過十八個鐘，我哋就要佢有幾個嘅 declarations，首先就係佢嚟出面  
25 有啲咩嘢職業，我知道佢做緊咩嘢職業，我哋而家個紀錄就係我嗰三百幾個車  
26 長，其實四成係文員工人，其他三成就係有職業嘅，餘下大約 25%就係佢從事  
27 其他駕駛嘅工作。

28 佢亦都要向我哋講佢做九巴呢個兼職係冇抵觸同埋佢嗰個僱主係知悉，佢  
29 自己講得㗎喇，一個 in good faith 嘅 system，起碼我知得到佢唔會打緊  
30 兩份工，而做到有個駕駛疲勞，呢個我可以做到嘅嘢，我做咗，自己。如果你  
31 話佢係一個少過十八個鐘嘅，基本上佢好難提供呢啲嘢畀我嘅，亦都我哋覺得  
32 part-time 車長雖然係 part-time，但係佢都要對佢嗰個職業係有一個著  
33 緊，seriousness，你一個禮拜你揸得十八個鐘頭，就唔係話揸兩、三個鐘  
34 頭，我都知道佢個駕駛技術唔好有生疏咁樣盛，係一個考慮嚟。

35 MR DUNCAN：（經傳譯員）但係呢個系統嘅底線，根據我嘅了解，就係你收集返嚟  
36 嘅資料，就係關於嗰個人士嘅其他嘅工作，而你收集返嚟嘅資料就係視乎究竟

1 嗰個員工係幫你工作十二個鐘定係二十個鐘嘅，你明唔明我嘅問題呀？

2 蘇偉基先生：唔認同呢個，我。

3 MR DUNCAN：（經傳譯員）點解你唔認同呀？

4 蘇偉基先生：我哋睇得到好多坊間都有講好多啲人佢好喜愛揸巴士，揸唔同嘅型號，  
5 所以佢就做兼職巴士車長，但係佢有冇個 mindset 呢？呢個我唔敢去喺呢度批  
6 評。正如頭先所講，公司一定係有個 guideline，一定係有把尺嘅，我就要擺  
7 呢把尺喺度，而呢把尺我哋參考就係話今日香港連續招聘十八個鐘頭就係一個  
8 連續招聘，佢可以係我嘅員工，我可以問佢「究竟你出面有啲咩嘢職業呀？」  
9 咁樣做。我哋就係擺咗呢十八個鐘喺度，我哋亦都覺得擺咗十八個鐘喺度，唔  
10 會因為咁樣而招聘少一啲短工時嘅車長而令我個車長個團隊個勞動力少  
11 咗，所以其實我十八個鐘以上係安全同勞動力中間一個嘅 trade-off 嚟，我就  
12 擺十八個鐘喺呢度。

13 李澤昌先生：或者你試下可以想像一下，如果你有十八個鐘定咗喺度，就算佢個駕駛  
14 技術點咁好都好，一個鐘，返兩個鐘，聽日又或者唔返，下個禮拜就唔知去咗  
15 邊度，喺嗰個編更同埋喺嗰個人事安排係非常之後困難嘅，我諗呢個都係一個  
16 我哋比較都要諗一諗嘅一點。

17 主席：（經傳譯員）鄧律師，你會唔會建議講番呢一個申報嘅問題？

18 MR DUNCAN：（經傳譯員）遲啲會，不過而家就暫時未住。

19 主席：（經傳譯員）喺呢個議題上，你係提供咗一啲整體嘅數字，就係關於呢啲工作  
20 嘅情況，譬如話四成就係做一啲文書工作，然後有三成就係冇工作，另外有兩  
21 成半就有其他嘅駕駛職務，你可唔可以提供呢啲嘅數據畀委員會呀？

22 蘇偉基先生：可以。

23 主席：（經傳譯員）特別就係其他駕駛職務嘅資料。

24 蘇偉基先生：可以。

25 主席：For example, presumably...

26 蘇偉基先生：貨車或者係私人嘅司機等等。

27 主席：（經傳譯員）係，我都喺心目中諗嘅，即係揸旅遊車、的士、公共小巴或者私  
28 人司機，請你畀多啲資料我哋，係會有用嘅。

29 蘇偉基先生：Yes.

30 主席：（經傳譯員）唔該晒。

31 MR DUNCAN：（經傳譯員）你有咁嘅改變係咪都係大埔嘅車禍之後促成嘅呢？

1 蘇偉基先生：係由嗰件事而引起嘅，因為當時社會上係有個聲音，就係話作為一個巴  
2 士公司，你招聘咗 part-time 車長，大家唔係討論 part-time 車長嘅技術，  
3 而係覺得作為個巴士公司，你點知道呢個 part-time 車長佢返你份工，可能佢  
4 黃昏返工，佢朝頭早做份咩嘢工、有幾勞動，呢個係要知嘅，我哋嗰陣時亦都  
5 係醒覺到係可以再做好啲嘅，就停咗先，跟住我哋就優化佢，所以我哋就跟住  
6 就係話做一個十八小時嘅一個 criteria，當時剩咗喺度嗰三百幾，我哋亦都  
7 有一啲轉職嘅安排係畀佢哋，就變咗嗰個新嘅 policy 亦都係沿到今日都喺度  
8 做緊。

9 MR DUNCAN：（經傳譯員）喺大埔車禍之前，想問下，你哋當時係有幾多車長每周  
10 係工作少於十八小時？

11 蘇偉基先生：其實喺嗰三百幾個車長入面，之前--我 exactly 唔記得，約莫喇，二  
12 百幾個係做十八個工時以上嘅，百幾個係十八個工時以下。

13 MR DUNCAN：（經傳譯員）我想請你睇呢個 104 頁，同一個文件夾嘅第 104 頁，呢  
14 一個就係報告嘅第 4 部分，呢個係你哋交畀運輸署嘅報告，呢個係喺大埔車禍  
15 嘅報告，個日期就係 3 月 12 號嘅，第 4 部就關乎係招聘嘅。你呢度就講話係停  
16 止係聘用呢個兼職車長，喺呢一段裏面所講嘅就係首先，你就話九巴已經不再  
17 係聘用工作時間低於每周十八小時嘅兼職車長，所以呢度嗰個表達嘅形式係少  
18 少唔同嘅，即係對照番呢個第 58 頁，58 頁就係話停止係招聘新嘅時薪計嘅車  
19 長嘅，但係你呢一度就講停止聘用佢哋係少過十八個鐘一個星期。兩者有啲唔  
20 同，其實你係咪兩者想講嘅係同一樣嘢嘅呢？

21 蘇偉基先生：係一致，兩個講法，都係話對短工時，每個禮拜返少十八個鐘嘅人，第  
22 一，係不再新招聘，唔再招聘新嘅，第 13 點，而家大家螢光幕見到嗰個，就係  
23 話現有，當時已經請落嘅，兩個唔同嘅，頭先我第一次講就係不再招聘新嘅，  
24 而家呢度提，就係喺現有嗰陣時我哋點呢？呢個 “discontinued the  
25 employment” 唔係講緊解僱住，因為呢班 part-time 車長佢係 hourly  
26 rate 做，我哋只不過嗰陣時係停止咗派更畀佢，然後去同佢商討一個方法，  
27 正如第二段講，係勸誘佢轉去一個 contract hourly rate，即係話「你短  
28 工時，可唔可以做多啲，做長工時呀？」可能有啲根本佢係無職業嘅，或者可  
29 能係影響佢收入，當時我哋亦都話「你以往做開短工時，不如你就做其他嘅崗  
30 位。」舉例如，一個站務嘅助理，起碼唔好因為咁樣係影響佢個收入。所以係  
31 講緊唔同嘅嘢嘅。

32 MR DUNCAN：（經傳譯員）好，明白，唔該。轉為呢個合約嘅時薪係咩嘢意思呢？  
33 佢哋唔係呢個合約嘅時薪嘅車長，以前唔係都已經係嘅喇咩？

34 蘇偉基先生：冇錯，以前我哋統稱叫做 “part-time BC”，喺 2 月之後，我哋就  
35 再請嗰啲就係符合連續性每周工作十八個小時，呢啲其實我哋叫做  
36 “continuous employment”，長工時。其實係咪再用個 “part-time” 個  
37 個字呢，有啲混淆，所以呢啲我哋叫做「合約時薪車長」，“contract

1 hourly rate BC”，呢班同事以往佢係少過十八個鐘嘅，所以正如頭先我  
2 講，我哋同佢商討，如果佢可以返多啲更分，返多啲工嘅，佢咪揼多過十八個  
3 鐘囉，呢個係一個方法。或者就係 take other 嘅 posts。

4 MR DUNCAN：（經傳譯員）唔該。我想請你睇呢個第 145 頁嘅，你哋就提交咗兩份  
5 嘅行動計劃，呢個係第一份嘅，第一份就係你提交畀運輸署，呢一個就係喺 4  
6 月 10 號所提交嘅，其實應該請你睇呢個 138 頁先嘅，因為嗰度係有封信嘅。喺  
7 第二段嗰度就係提及一個行動計劃嘅，138 頁，睇到嘛？

8 蘇偉基先生：（經傳譯員）係嘅。

9 MR DUNCAN：（經傳譯員）唔該。呢個就係 4 月 10 號嘅回應，亦都係第一次提交陳  
10 述書畀委員會嘅文件嘅，想請你睇番呢個 145 頁，因為之前嗰度，138 嗰度提  
11 及一個行動計劃。呢度睇到第 1 個項目，就係符合你剛才所講，就話「不再係  
12 聘用兼職車長，而佢嘅每周工作時數係低於十八小時。」呢個行動計劃就話兼  
13 職車長如果佢工時間係每周少於十八小時嘅話，自 2018 年 2 月 15 號開始就唔  
14 再有新嘅聘用，係咪呀？呢個就做咗喇？

15 蘇偉基先生：（經傳譯員）㗎。

16 MR DUNCAN：（經傳譯員）第 2 點就話「之前嘅兼職車長就佢哋係有一個選擇，將  
17 佢轉做呢個合約時薪嘅車長，又或者係喺公司裏面擔當其他嘅職責嘅。」嗰個  
18 行動計劃就咁講嘅，就話「209 位係之前嘅或者前兼職嘅車長佢而家個情況係  
19 點，第一就係話同意每周係工作超過十八小時就有 78 位；同意就係一周工作超  
20 過十小時，申報就係話喺九巴嗰度做兼職車長係不會就係違反佢哋原本僱主同  
21 佢嘅僱員合約嘅；最後一項就係離職。」

22 讓我就係集中睇中間嗰個類別，我咁嘅理解㗎唔㗎呀，就係有一啲你哋以  
23 前就係請佢做兼職車長嘅，而家畀佢哋就係做超過十個鐘，不過就少過十八個  
24 鐘嘅，只要佢哋咁樣做係唔會違反佢哋另一份工嘅僱主同佢個合約嘅，係咪  
25 呀？

26 蘇偉基先生：（經傳譯員）係。

27 MR DUNCAN：（經傳譯員）所以就唔係全部人都係超過十八個鐘，如果你之前已經  
28 公司請咗你嘅，你都仲係可以譬如話一周就係工作十二小時嘅，只要你作出咗  
29 聲明，就話你同另一個僱主嘅僱傭合約就係全部都遵守到條款，冇違反，係咪  
30 呀？

31 蘇偉基先生：（經傳譯員）係。

32 MR DUNCAN：（經傳譯員）如果係願意係做多過十八個鐘呢？呢個表格呢一欄嗰度  
33 有講話佢哋都要作一個聲明㗎嘅，冇講話要求佢哋聲明就話唔會違反另一份工  
34 嘅僱傭合約嘅，究竟個情況係點呢？嗰啲願意係做多過十八個鐘嘅情況又點  
35 呢？要唔要作一個聲明呢？

1 蘇偉基先生：（經傳譯員）或者我逐個逐個係慢慢解釋。

2 MR DUNCAN：（經傳譯員）好，好，唔該你。

3 蘇偉基先生：之前佢係 part-time 車長，佢揀咗轉去一個多過十八小時嘅，佢係簽  
4 過一份新嘅 contract，叫做 contract hourly rate 嘅 contract，佢係  
5 需要 disclose 佢嘅 outside employment，佢係需要 disclose outside  
6 employment，呢個就係第一個行講，“Agreed to work more than 18”  
7 個鐘頭嗰組。

8 第 2 個組就係其實佢仍然係 part-time 車長，我哋當時因應有一班  
9 part-time 車長佢繼續喺度工作，突然間唔派更分畀佢哋，佢哋有訴求同我哋  
10 講，因為我哋已經係招聘咗佢哋，我哋冇再請新嘅，佢嘅駕駛技術我哋知嘅，  
11 佢有個紀錄喺度，我哋就做一啲大家都可以 compromise 嘅嘢，就係話佢可以  
12 繼續駕駛，但係都唔好--正如頭先李生講你返一個鐘、兩個鐘，你一個禮拜都  
13 返番十個鐘，亦都需要佢 declare 佢唔好同佢現有嘅工作嘅合約係違反嘅。因  
14 為我哋所知悉有啲嘅僱傭係唔畀你做 part-time 嘅，你如果喺我哋做 part-  
15 time，其實就唔應該嘅。

16 主席：（經傳譯員）蘇先生，未繼續之前，其實有呢一類嘅巴士車長嘅，佢哋嘅陳述  
17 書有畀我哋，你可以繼續。

18 蘇偉基先生：我完㗎喇呢度。

19 MR DUNCAN：（經傳譯員）我就想知道第 1 類，你就冇提及就話佢哋要作一個聲  
20 明，要申報。

21 蘇偉基先生：呢度係寫漏咗，其實佢有做嘅，呢七十八位同事，係有報告佢喺  
22 outside employment 嘅資料畀我哋。

23 主席：（經傳譯員）係咪用一張表格嘅形式？

24 蘇偉基先生：有，可以提供。

25 主席：（經傳譯員）麻煩你畀一個副本我哋睇。

26 MR DUNCAN：（經傳譯員）即係話無論你係做多過十個鐘定抑或多過十八個鐘，你  
27 都係要簽署同一份嘅申報嘅表格去作一個聲明嘅，係咪呀？㗎唔㗎？

28 蘇偉基先生：兩份唔同嘅文件㗎嘅，我都可以分別提交。

29 主席：（經傳譯員）唔該。

30 MR DUNCAN：（經傳譯員）唔該你。我哋講緊呢一類嘅文件嘅時候，我諗我哋手頭  
31 上嘅文件夾就並冇任何嘅僱傭合約嘅樣本嘅，有冇一份標準嘅合約㗎？

32 蘇偉基先生：（經傳譯員）有，有。

1 MR DUNCAN：（經傳譯員）可唔可以亦都係畀份我哋睇呢？

2 蘇偉基先生：（經傳譯員）係，我可以嘅，我會嘅。

3 MR DUNCAN：（經傳譯員）我想問下係咪得一種表格畀晒所有嘅車長，定抑或係有  
4 唔同嘅呢？好視乎佢哋嘅身分呢？

5 蘇偉基先生：喺現有新招聘，我哋係用一款，另外一款就係話退咗休之後續聘，暫時  
6 係用緊兩款。

7 MR DUNCAN：（經傳譯員）唔該，希望你都畀埋我哋睇，兩款都畀我哋，唔該晒。

8 蘇偉基先生：Yes.

9 MR DUNCAN：（經傳譯員）我哋而家睇番第 124 頁，就住兼職車長，我仲有一啲問  
10 題嘅，或者由第 117 頁開始，第一點就係由運輸署--呢封信就係喺大埔意外之  
11 後，運輸署畀九巴嘅第一封信，日期係 2 月 12 號，就有幾個問題，有(a)、  
12 (b)、(c)、(d)項，而第一個問題，你就見到喺(a)嗰度，我而家就比較關心  
13 係問題(b)，就係話九巴對兼職車長嘅政策同埋呢啲車長嘅詳情，包括係兼職車  
14 長嘅數目、佢哋嘅工作嘅時數同埋調配。

15 而家我哋睇番 124 頁，你就會見到喺頁頂有呢個問題嘅，九巴嘅回應，就  
16 住問題(b)，你見到呢個羅馬數字(i)段，就係九巴對兼職車長嘅政策，如果你  
17 睇番下面啲幾點，就有七點嘅總共，基本上意思就係兼職車長嘅佢對待嘅方式  
18 同全職車長係一樣嘅，除咗第三點，第三點就係講培訓嘅。

19 第一點就係兼職車長同埋全職車長嘅入職要求係一樣；第二點就係兼職車  
20 長接受嘅評核同全職車長係一樣嘅；而第三點，兼職車長就係會接受合適嘅培  
21 訓先至會係開始工作嘅，即係佢講到係要接受合適嘅培訓。我就嘗試去搵究竟  
22 兩者之間有咩分別，呢個係講緊 2018 年 2 月嘅，就住對全職車長提供嘅培訓  
23 同埋對兼職車長提供嘅培訓。

24 就住呢一點，想你睇一睇第 120 頁，首先喺資歷同埋招聘條件方面，全職  
25 嘅申請人，即係一個另外嘅要求就係持有私家車牌照三年或者持有第 10 類或者  
26 第 17 類嘅駕駛執照嘅，呢個係全職嘅申請人；而兼職嘅申請人就喺第(ii)  
27 段，羅馬字(ii)段，你就係要有第 10 類或者第 17 類嘅駕駛執照嘅，呢個係咪  
28 第一個嘅分別呀？

29 蘇偉基先生：（經傳譯員）係。

30 MR DUNCAN：（經傳譯員）唔該晒。

31 主席：（經傳譯員）我假設就係你唔會花錢去培訓一個兼職嘅車長，係咪？

32 蘇偉基先生：（經傳譯員）係。

MR DUNCAN：（經傳譯員）唔該。我想講嘅第二個議題，就係羅馬字(iii)段，就係一般嘅培訓，全職嘅申請人就係必須接受十八日嘅培訓，每日係 9.5 小時，係有可能係延長嘅，根據駕駛導師嘅表現評核。而我哋睇番第 121 頁，我哋係見到對兼職車長嘅相應要求，就係羅馬字(iv)段嘅，呢個車長係必須接受 2.5 日嘅培訓，同全職車長嘅十八日每日九個鐘係唔同，呢個係咪有個分別呀？

蘇偉基先生：（經傳譯員）係。但係正如我提到羅馬數字(vi)段，就係呢一個兼職車長嘅申請人就係有 10 號或者 17 類嘅駕駛執照，

MR DUNCAN：（經傳譯員）但係培訓嘅長度仍然係有分別，係咪呀？全職車長係必須接受十八日嘅培訓，而兼職車長只需要接受 2.5 日嘅培訓。

蘇偉基先生：（經傳譯員）係，當時係咁嘅。

MR DUNCAN：（經傳譯員）第三個分別，以我嘅理解，你睇番第 121 頁，第 2 階段，嗰個一個表嘅最後一個部分，就話就會係兩條路線進行嚟講嘅訓練，但係如果你睇番 122 頁兼職車長嘅要求，路線嘅培訓只係會係就住一條路線進行培訓嘅啫，呢個係咪有個分別呀？

蘇偉基先生：（經傳譯員）係。

MR DUNCAN：（經傳譯員）另一項嘅分別，正如我理解，就係睇番第 121 頁，我哋睇番就係羅馬字(iv)段上面嗰一個部分，「全職嘅車長申請人就會係接受起碼六十八小時嘅駕駛訓練，包括係路線訓練嘅，就會係導師嘅指導下完成。」

而第 122 頁，兼職車長方面，嗰個一個表下面就講「兼職車長嘅申請人就會接受總共起碼十六小時嘅駕駛訓練，包括係接受路線培訓嘅時間嘅，係係駕駛導師嘅指導之下完成嘅。」呢個係咪就係第四項分別呀？

蘇偉基先生：（經傳譯員）係。

MR DUNCAN：（經傳譯員）就住全職車長同埋兼職車長之間培訓要求嘅分別係有原因或者係合理嘅呢？

黃祥明先生：首先剛才我哋睇度睇啲嘅就係之前，即係嗰個事件發生之後，即係嗰段時間發生嘅訓練情況嚟嘅，就非係而家嘅訓練情況。剛才 Mr Duncan 都舉出咗好多唔同嘅訓練元素嚟度，我想舉出多一樣，就係話如果係一個全職嘅訓練，即係十八日--所謂十八日嘅訓練裏面，當時係導師一對二嘅訓練嚟嘅，而嗰個 part-time 嘅訓練嘅導師係一對一嘅，即係話嗰個導師嘅直接監管同埋嗰個學習車長嘅駕駛亦都係時間會多咗嘅。呢個係當時嘅安排係咁樣樣，當時亦都嘅諗法係可以達到佢哋嗰個出嚟駕駛目標，所以呢個係當時嘅情況。

同時呢個所謂十八日同埋兩日半係一個正常嘅訓練，如果一個車長係十八日唔能夠達標，我哋係會延長佢嗰個訓練期，同樣地，一個 part-time 車長，如果佢兩日半唔能夠完成--唔能夠達標，佢亦都會延長個訓練期。

1 蘇偉基先生：呢度我補充，即係頭先講過 justification，因為喺以前嗰十八日係  
2 分開兩個階段，第一個階段嗰個嘅後果就係話佢可以攞到嗰個駕駛執照，喺  
3 part-time 車長，其實招聘嗰陣時佢已經領有駕駛執照，所以如果 like-to-  
4 like 嘅比較，就應該九日同兩日半，呢個先至做一個 adjustment。

5 第二，正如頭先黃生講，喺個導師同嗰個學員以一比二，呢個就一比一，  
6 所以又一半；第三，正如文件所講，如果全職，佢學嘅車型，學四至五款，但  
7 係兼職學嘅車型就係兩款；再者，就係話全職學嘅路線就兩條，兼職學嘅路線  
8 就係一條。所以雖然時間係短，但係佢學嘅嘢有咁 diversify，佢係兩個車  
9 型、一條線，因為佢做兼職，佢就係可能淨係揸嗰兩個車型，就揸嗰一條線嘅  
10 啫。亦都導師係一對一。

11 主席：（經傳譯員）簡單嘅答案係咪就係「係」呢，就住呢個問題？

12 蘇偉基先生：（經傳譯員）係嘅。

13 主席：（經傳譯員）唔該晒。

14 MR DUNCAN：（經傳譯員）全職同埋兼職嘅車長係咪駕駛同一啲巴士㗎？

15 蘇偉基先生：（經傳譯員）係。

16 MR DUNCAN：（經傳譯員）如果我哋唔考慮路線嘅數目或者唔同路線嘅數目，啲司  
17 機係咪都係揸同一啲路線嘅呢？

18 蘇偉基先生：呢個好難去直接答你呢個問題。我哋有四百幾條線，我哋嘅新同事，無  
19 論佢係全職車長或者兼職車長，佢開首都揸一啲容易啲駕馭嘅線，至於你話  
20 會唔會全部都係揸同一條線呢？因為我哋起碼有四個廠，就一定唔會大家都係  
21 揸同一條線，但係大家都會開首條嘗試一啲容易嘅線。

22 MR DUNCAN：（經傳譯員）我知道你有檢討過呢個培訓嘅安排喇最近，我哋今朝亦  
23 都傾過，但係我有一個問題想問嘅，喺呢一個新嘅建議底下，即係如果我哋唔  
24 考慮呢一個實務守則，我哋只係講呢個新嘅安排，就全職同埋兼職車長嘅訓練  
25 要求係咪一樣呀？

26 蘇偉基先生：（經傳譯員）係。

27 主席：（經傳譯員）鄧律師，呢個會唔會係一個適當嘅時間就係結束今日嘅聆訊呢？  
28 我諗大家都係好叻㗎喇，起碼負責記錄嘅都係喇，係咪呀？我哋而家會就係暫  
29 停，就聽朝早 10 點鐘再繼續，唔該晒。

30  
31 2018 年 8 月 10 日

32 下午 5 時 30 分聆訊押後

*[Blank Page]*

1 Saturday, 11 August 2018

2 (10.01 am)

3 EVIDENCE FROM KOWLOON MOTOR BUS CO (1933) LTD AND LONG WIN  
4 BUS CO LTD: DR NORMAN LEUNG, DR JOHN CHAN, MR ROGER LEE, MR  
5 GODWIN SO, MR LEUNG KIN WANG, MR PATRICK PANG, MR JAMES WONG  
6 (simultaneous interpretation used only where indicated)

7 CHAIRMAN: Good morning, Dr Leung and gentlemen.

8 DR NORMAN LEUNG: Good morning, Mr Chairman.

9 CHAIRMAN: Mr Duncan.

10 MR PETER DUNCAN: Thank you, Mr Chairman.

11 DR NORMAN LEUNG: Before that, Mr Chairman, may I have a few  
12 minutes, please.

13 CHAIRMAN: Yes.

14 Statement by DR NORMAN LEUNG

15 DR NORMAN LEUNG: Mr Chairman, after the hearing yesterday  
16 we submitted to the committee further documents in  
17 relation to the action plan for the speed limit on 29  
18 bends.

19 If I may briefly refer to the summary of documents  
20 submitted before the committee. First of all, I have to  
21 say, Mr Chairman, you have asked a very fair and valid  
22 question as to why the proposed plan -- the proposal  
23 submitted by Mr Gary Wong was not acted upon by the  
24 management. I had to agree that I have the same doubt,  
25 you know, as to why it was not acted upon.

1           If I may just refer to the summary of documents  
2           submitted before the committee. On 31 July 2014, the  
3           action plan -- it says that the action plan will be  
4           submitted to operations director and managing director  
5           for endorsement.

6           Then on 14 August 2014, an email was sent by Mr Gary  
7           Wong to Mr Edmond Ho, stating that "For your approval,  
8           please." Then on 15 August 2014, an email was sent by  
9           Edmond Ho to Gary Wong, "Please ask the operations  
10          director for formal approval after checking and  
11          endorsement."

12          Then came 2 February 2015. There was an email sent  
13          by Mr Gary Wong to all the general managers of the  
14          depots, saying that "it is now the right time to  
15          reconsider the implementation of the speed limits on  
16          these identified bends."

17          And on 5 February, another email was sent by Gary  
18          Wong to all the general managers of depots, "I will  
19          submit them to operations director and operations and  
20          planning director for final approval."

21          If I may refer the chairman to exhibit 5 of this  
22          bundle.

23   CHAIRMAN: Yes, I have that.

24   DR NORMAN LEUNG: Thank you, Mr Chairman. This is  
25          a circular sent by Mr Gary Wong to all the general  
26

1 managers and managers of the operations department as  
2 well as other departments. It is stated in this memo:

3 "A meeting with [operations director] this morning  
4 regarding the above captioned subject. We have a new  
5 approach" -- and I repeat, "a new approach" -- "to  
6 manage this issue and the actions are summarised as  
7 follows:

8 (1) SSQD [namely his department] will prepare  
9 a safety poster 'Safety driving through sharp bends' for  
10 the month of April. Depots are required to place and  
11 display the safety posters at prominent places inside  
12 the depot areas and all [bus terminals] and [driving  
13 instructors] are required to conduct safety briefings to  
14 [bus captains] at all [bus terminals] as normal  
15 practice;

16 (2) SSQD will prepare an internal notice which to be  
17 issued by Traffic Department to enhance the safety  
18 awareness among [bus captains] and to remind all [bus  
19 captains] to watch a safety video by means of e-learning  
20 (same approach for bus fire handling).

21 (3) SSQD will liaise with [Bus Captain Training  
22 School] to post a safety video on staff website to  
23 specify the general safety guidelines/precautions when  
24 driving through sharp bends. The sharp bend  
25 'Po Shun Road onto Tong Ming Street' will be selected as  
26

1 an example for the 30 second safety video. All [bus  
2 captains] are required to log in or make use of other  
3 means to watch the safety video and their names should  
4 be captured/recorded.

5 (4) [Bus Captain Training School] to quote  
6 Tseung Kwan O toppled over incident as a lesson learnt  
7 for all new [bus captain] trainees and all other [bus  
8 captains] through appropriate safe driving training."

9 At the end of the paragraph, it is stated:

10 "Please note that there is no need to issue the safe  
11 speed limits cards" -- no need to issue the safe speed  
12 limits cards -- "and the speed limits will not be  
13 specified" -- will not be specified -- "in the safety  
14 video and internal notice. It is expected that we will  
15 start to take the above ... actions in April 2015.  
16 I will keep you informed of the updated progress."

17 Mr Chairman, I just want to point out that all the  
18 proposals set out in this memo have all been acted upon.  
19 The management has taken action to implement all these  
20 proposals.

21 CHAIRMAN: Thank you.

22 DR NORMAN LEUNG: Thank you, Mr Chairman.

23 CHAIRMAN: Mr Duncan, have any steps been taken to paginate  
24 this material? Because it's likely to be referred to,  
25 and it would help if we were to paginate it.

1 MR PETER DUNCAN: Mr Chairman, we will arrange for that.

2 These pages just arrived on my desk a few moments ago.

3 CHAIRMAN: I appreciate that. If somebody could perhaps  
4 start doing that, then we can write the numbers in  
5 ourselves.

6 MR PETER DUNCAN: Certainly.

7 Dr Leung and gentlemen, good morning. Thank you for  
8 your homework overnight and thank you for that  
9 explanation this morning.

10 DR NORMAN LEUNG: I have to apologise on behalf of the  
11 management. So much time was spent on this topic  
12 yesterday. If our management had done their job better,  
13 you know, the whole thing could have been explained  
14 clearer yesterday. Please accept my apology.

15 CHAIRMAN: Yes, thank you for that gesture, Dr Leung.

16 Examination by MR PETER DUNCAN (continued)

17 MR PETER DUNCAN: Dr Leung, I just have a couple of  
18 questions arising from the material we received  
19 overnight.

20 If you look at exhibit 1, this is the email from  
21 Gary Wong of February 2, 2015:

22 "Following the clearance of protest areas in  
23 December 2014, it is the right time to reconsider the  
24 implementation of speed limits for the identified sharp  
25 bends/roundabouts."  
26

1           So the word "reconsider" would suggest that this  
2           matter had already been the subject of consideration.

3           We don't have any documentation with regard to what  
4           happened subsequent to the email of Mr Edmond Ho on  
5           15 August 2014, which sought formal approval from the  
6           operations director, Mr Eckford.

7           Has the management been able to find any information  
8           as to what happened after August 2014 and before  
9           February of 2015 with regard to that request for formal  
10          approval?

11       DR NORMAN LEUNG: We have to look up the file. The  
12          documents submitted before the committee are all we have  
13          got, the relevant material we have got, from our file.

14       CHAIRMAN: We understand that, but the question is very  
15          simple: where are the records of what was being  
16          considered between 14 August 2014 and 2 February 2015?  
17          Where are they?

18          Mr Lee, perhaps you can help.

19       MR ROGER LEE: I will try to help but I joined the company  
20          in January 2015.

21       CHAIRMAN: Yes.

22       MR ROGER LEE: And no doubt I will go back to the office and  
23          find out a bit more.

24       CHAIRMAN: Yes, but you weren't the managing director at the  
25          time this decision was taken on 13 February 2015,

26

1           because you told us previously that this was something  
2           that had been decided when Mr Edmond Ho was the managing  
3           director. That's not the case, is it, from the  
4           documents you have provided today?

5       MR ROGER LEE: Can you just let me to get back to the office  
6           to find out more information?

7       CHAIRMAN: Yes. Thank you.

8       DR NORMAN LEUNG: Chairman, perhaps if I may make a point of  
9           clarification, because I raised the same question with  
10          our management.

11           It started with:

12           "Following the clearance of protest areas in  
13          December 2014 ..."

14           They were referring to the Occupy --

15       MR PETER DUNCAN: Occupy Central, yes.

16           If I could raise another matter, please, that we  
17           addressed yesterday. This is the matter of the  
18           exception reports that we were provided with yesterday.

19           I am referring to two types of reports, one relating  
20           to speeding and the other relating to harsh braking and  
21           sudden acceleration which we saw yesterday. Just so  
22           there is no misunderstanding here, can we look first of  
23           all at KMB-9 at page 3993.

24           You will recall that we spent some time on this  
25           document in the last couple of days. That's the first  
26

1 type of report I'm referring to.

2 And the second type of report is that which we can  
3 find at KMB-1 at page 362.

4 CHAIRMAN: What kind of report is that?

5 MR PETER DUNCAN: This pertains to speed, and then also  
6 acceleration, and then also harsh braking.

7 You will recall that sort of report?

8 MR JAMES WONG: (Via interpreter) Yes.

9 MR PETER DUNCAN: Thank you.

10 With regard to the accident in Tai Po on 10 February  
11 this year, can I ask this question: was the bus involved  
12 or the driver of that bus identified after the incident  
13 in any of these two types of reports generated for  
14 10 February?

15 MR JAMES WONG: (Via interpreter) At that time, we did not  
16 identify the bus through these reports because, at that  
17 time, we looked at the specific incident and bus  
18 involved without having to wait for these reports.

19 MR PETER DUNCAN: So were the reports ever produced for  
20 10 February?

21 MR JAMES WONG: (Via interpreter) At that time, the focus  
22 was on the bus itself. I did not realise or pay  
23 attention to the occurrence of this bus in these  
24 reports.

25 MR PETER DUNCAN: So this type of reports had never been  
26

1 produced for 10 February?

2 MR JAMES WONG: (Via interpreter) These reports are regular  
3 reports. In other words, for buses that contravene our  
4 guidelines, they would show up on these reports. So  
5 these are regular reports.

6 For the Tai Po incident, it was an exceptional  
7 incident, which was why we looked at that bus  
8 specifically. I cannot recall whether the bus was  
9 covered in these reports.

10 MR PETER DUNCAN: Could you undertake a check as to whether  
11 there were such reports issued for 10 February?

12 MR JAMES WONG: (Via interpreter) Yes. I can check whether  
13 such reports appeared at that time.

14 CHAIRMAN: And having done so, will you provide them to the  
15 committee?

16 MR JAMES WONG: (Via interpreter) If I am able to identify  
17 the records, of course I would provide them to the  
18 committee.

19 CHAIRMAN: Thank you.

20 MR PETER DUNCAN: Had the bus been travelling in excess of  
21 70 kilometres per hour -- had that bus been  
22 travelling -- would a report such as the two types we  
23 have seen automatically have been produced?

24 MR JAMES WONG: (Via interpreter) First of all, for the  
25 table we see right now, the speed threshold was  
26

1           75 kilometres per hour. If the bus succeeded 75kph, it  
2           should show up on this table.

3           As for another, shorter table, it depends on the  
4           road speed limit at that time before we ascertain  
5           whether a bus was speeding. If there was speeding,  
6           again, it would show up on the report.

7   MR PETER DUNCAN: If there was harsh braking or extreme  
8           acceleration, would that have automatically generated  
9           the second type of report?

10   MR JAMES WONG: (Via interpreter) Yes.

11   MR PETER DUNCAN: If those reports were not generated at  
12           that time, would the system today allow for the  
13           production of those reports?

14   MR JAMES WONG: (Via interpreter) If there was harsh braking  
15           or sudden acceleration, there would be such record. If  
16           there was such occurrence, it would show up on the  
17           report. So if I am able to identify that report, I will  
18           share that with the committee.

19   MR PETER DUNCAN: My question is a little different. If the  
20           report does not exist, can you produce a report today  
21           from what consists in the company's records, in its  
22           computers?

23   MR JAMES WONG: (Via interpreter) I don't quite understand  
24           the question. If there was harsh braking or sudden  
25           acceleration, it should have shown up on the report

26

1 already.

2 MR PETER DUNCAN: I see. Thank you.

3 MR LEUNG KIN WANG: (Via interpreter) It should be possible,  
4 but since the records or figures were from half a year  
5 ago, they were already archived in other systems, so we  
6 might need to identify the data involved. So we have to  
7 study the feasibility, but I believe it's possible.

8 MR PETER DUNCAN: Thank you.

9 CHAIRMAN: Yes, Mr Duncan.

10 MR PETER DUNCAN: We moved, at the end of yesterday, to the  
11 matter of training. Before I resume with that, I just  
12 want to ask a few more questions about the issue of  
13 manpower shortage.

14 As a comment, it would seem that given the likely  
15 effect of the new guidelines, the problem of the  
16 shortage of bus drivers is going to get worse rather  
17 than better. Is that a fair comment?

18 MR PATRICK PANG: (Via interpreter) Yes, I agree, Mr Duncan.

19 MR PETER DUNCAN: Has the company developed any recent  
20 initiatives with regard to how the situation might be  
21 improved?

22 MR ROGER LEE: (Via interpreter) This is a diverse issue.

23 First of all, something must be done on recruitment, and  
24 the company also needs to promote staff morale. In  
25 terms of the recruitment of bus captains, something must

26

1 be done by way of remuneration. Our chairman mentioned  
2 some measures this Tuesday, and in terms of recruitment,  
3 in different districts and different types of roles, we  
4 hope to do something.

5 These days, not many staff are prepared to stay in  
6 the job for a very long time, unlike in the past, so we  
7 suggest recruiting different types of people to our  
8 company. In terms of promoting a sense of belonging for  
9 staff, we have also done a lot. We would enhance depot  
10 facilities. We are providing different services and  
11 facilities such as resting areas and hairdressing  
12 service. We have also introduced gym rooms and  
13 ping-pong tables and at bus termini a lot has been done  
14 to enhance comfort for bus captains. So we have done  
15 quite a lot.

16 In terms of lifestyle, we implemented recreation  
17 clubs, including football activities. Most bus captains  
18 are males, so we want to allow them to take part in  
19 various facilities or activities after work; for  
20 example, singing events. And at the instruction of the  
21 chairman, we also set up a scholarship. This way, we  
22 can do something for the children and kids of our bus  
23 captains or staff. So hopefully this can help us retain  
24 staff and attract new blood in the recruitment of bus  
25 captains. The work is certainly not easy. This is  
26

1 something we would continue in light of the shortage.

2 MR PATRICK PANG: (Via interpreter) Mr Duncan, our managing  
3 director, Mr Lee, talked about our work in terms of  
4 staff retention and recruitment. So in terms of  
5 software and bus operations, I would like to share what  
6 we have done to address the crew shortage.

7 Mr Lee talked about hardware, including rest kiosks,  
8 et cetera, so I won't repeat what he said. Meanwhile,  
9 in terms of bus operations, we want to adopt a more  
10 people-based approach. This way, we can improve a sense  
11 of belonging for our bus captains and boost retention  
12 rates. We also took out a number of encouraging  
13 measures to facilitate the application of sick leave for  
14 bus captains, and we would also streamline our journey  
15 times or durations and hopefully we can provide for  
16 adequate journey time and resting time.

17 In terms of application of leave, redeployment,  
18 application for rest days, et cetera, by bus captains,  
19 we hope to be adopting a people-based approach or  
20 people-oriented approach.

21 And for applications for bus captains on  
22 redeployments, leave, et cetera, this is something we  
23 will deal with. In April, we conducted a questionnaire,  
24 to allow BCs to choose their preferred work  
25 arrangements. The need of each BC might be different.

26

1           Some might work eight hours while others might want to  
2           work ten hours, and we would try our best to accommodate  
3           or facilitate their request.

4           (Chinese words not interpreted) ... like they have  
5           been harassed and I have talked about my measures  
6           yesterday. We have also stepped up our training for  
7           frontline staff. In June, 200 operations officers and  
8           instructors at all levels have been trained for two days  
9           and altogether eight courses were arranged. During the  
10          training, what we were doing was to enhance ways to give  
11          support to frontline bus captains when they encountered  
12          difficulties.

13          In addition -- Mr Chairman, well, a number of points  
14          here. A bus captain may get involved in a traffic  
15          accident. A bus captain may encounter what I said  
16          yesterday, incidents of abuse. So we have enhanced the  
17          ability of our operations officers and inspectors, so  
18          that they can arrive at the scene to help BCs to deal  
19          with a traffic accident.

20          We tried to enhance our frontline capacity to  
21          provide appropriate assistance to the bus captains. Our  
22          company has also got dedicated people to deal with  
23          traffic accident investigation. We have also got the  
24          legal department. We have also got the Road Safety Unit  
25          from the Hong Kong Police Force to give us talks. It's  
26

1 a two-hour talk, to talk about road safety.

2 So in June that was done and I believe that it was  
3 well received by our staff members.

4 So we would like to enhance the frontline management  
5 so that we are able to provide assistance to our  
6 frontline bus captains. For bus captains, they face  
7 a lot of problems on a daily basis, like the traffic is  
8 getting more and more congested, the number of vehicles  
9 on the road is not in proportion to the sort of road  
10 network. More and more vehicles are illegally parked.  
11 More and more of them are illegally parked in bus bays  
12 or at bus stops. Then, as a result of traffic  
13 congestion, as a result of illegal parking, our bus  
14 captains find that they have to get a longer journey  
15 time, and what is worse is that the journey time is such  
16 that bus trips have been lost, and in fact our bus  
17 captains are facing huge pressure.

18 Well, we have got verbal abuses, quarrels and  
19 sometimes physical abuses arise from such external  
20 factors.

21 As to illegal parking, especially illegal parking at  
22 bus stops -- I hope you would understand that there are  
23 wheelchair-bound passengers and buses have to be stopped  
24 right at the bus stop before the wheelchair passenger  
25 can make use of the specific point along the kerb to  
26

1 board the bus.

2 CHAIRMAN: Mr Duncan's question was not an open-ended  
3 enquiry into everything you might choose to tell us  
4 about what had been done. He was asking what  
5 initiatives have been taken.

6 You have told us about stepped-up training. Is  
7 there anything else you want to describe?

8 MR PATRICK PANG: (Via interpreter) I just want to summarise  
9 and say that the bus captains face many difficulties and  
10 in fact we are trying to solve the problems one by one,  
11 gradually.

12 As to the question of retention, Mr Chairman, I hope  
13 you will understand the pressure on the bus captains has  
14 a lot to do with retention and recruitment.

15 CHAIRMAN: You have told us repeatedly about what the  
16 pressures are. The question is what initiatives have  
17 been taken. You have probably told us all of the ones  
18 that exist.

19 Mr Lee wants to say something.

20 MR ROGER LEE: (Via interpreter) Mr Pang was saying that  
21 while a bus captain is driving, even if the bus is  
22 stationary, say for example caught in traffic  
23 congestion, the bus captain suffers from a huge mental  
24 stress. Many bus captains have been complaining that it  
25 is hard for them to be trapped in a traffic jam, so it  
26

1 is a difficult job.

2 Mr Pang is saying that we have been reminding being  
3 departments that traffic congestion is serious and the  
4 road conditions are bad. We hope that by raising this  
5 point, we are able to ease the traffic congestion and we  
6 hope that we can improve the road congestion. So such  
7 are our initiatives.

8 CHAIRMAN: Thank you.

9 Mr Duncan.

10 MR PETER DUNCAN: To which government departments have those  
11 complaints been issued?

12 MR ROGER LEE: (Via interpreter) You refer to the road  
13 conditions?

14 MR PETER DUNCAN: Yes.

15 MR ROGER LEE: (Via interpreter) A number of them.

16 Of course, first of all, the police force. Say, for  
17 example, because of illegal parking and also the loading  
18 and unloading activities blocking our access to the bus  
19 stop and we can't park right at the bus stop and we are  
20 not able to get the wheelchair passengers on board.  
21 Other passengers also find it difficult to get on board.  
22 And you recall the incident in Central on  
23 Connaught Road.

24 CHAIRMAN: I think you are repeating yourself.

25 MR PETER DUNCAN: So one is the police. What other  
26

1 department?

2 MR ROGER LEE: (Via interpreter) The other is the Transport  
3 Department.

4 CHAIRMAN: Anyone else?

5 MR PATRICK PANG: (Via interpreter) Highways Department as  
6 well, because the conditions on the road may not be that  
7 satisfactory, and then the FHD, Food and Environmental  
8 Hygiene Department --

9 CHAIRMAN: What conditions? Road surface or ...?

10 MR PATRICK PANG: (Via interpreter) Uneven road surfaces or  
11 obstacles on the road.

12 CHAIRMAN: Any other departments?

13 MR PATRICK PANG: (Via interpreter) The Food and  
14 Environmental Hygiene Department, FHD. The trees,  
15 especially in the rural area, after the rainy season,  
16 the branches are blocking or obstructing.

17 CHAIRMAN: Yes, so the trees need pruning, obstacles on the  
18 road, congestion and illegal parking, that's Police and  
19 Transport Department. Anybody else?

20 MR PATRICK PANG: (Via interpreter) I think basically those  
21 are the departments. Thank you, Mr Chairman.

22 CHAIRMAN: What's the overall response been from government?  
23 Perhaps Mr Lee can sum this up, shortly, if you can.  
24 Satisfactory or not?

25 MR ROGER LEE: (Via interpreter) Could have been quicker,  
26

1 faster.

2 CHAIRMAN: So it has been done, has it, but it could have  
3 been done quicker?

4 MR ROGER LEE: (Via interpreter) Sometimes we have to take  
5 our own efforts to do so.

6 CHAIRMAN: Has the problem of illegal parking at and around  
7 bus stops and elsewhere been solved?

8 MR ROGER LEE: Not all of them, especially at night.

9 CHAIRMAN: Thank you.

10 Mr Duncan.

11 MR PETER DUNCAN: Has the problem of traffic congestion been  
12 resolved?

13 MR ROGER LEE: No.

14 MR PATRICK PANG: No.

15 CHAIRMAN: Sorry, what was the answer to that?

16 MR ROGER LEE: No.

17 CHAIRMAN: Thank you.

18 MR PETER DUNCAN: What proportion of the company's bus  
19 drivers are women?

20 MR GODWIN SO: (Via interpreter) 6 per cent, roughly.

21 MR PETER DUNCAN: Does the company have any initiatives to  
22 attract more women to this position?

23 MR GODWIN SO: (Via interpreter) We do, and we have been  
24 studying the matter. In particular, for the Tuen Mun  
25 Depot, we have been working harder on it because it is  
26

1 a mainly residential area. During our recruitment  
2 exercise, of course we observe equal opportunities but  
3 still we want to attract more female candidates.

4 We have considered whether we can have facilities to  
5 cater for the needs of the females. Say, for example,  
6 someone may be a housewife, and if we can have nursery  
7 facilities for childcare, if we can set up such  
8 a facility within our depot, I believe it will be  
9 helpful.

10 But then, of course, land use is a restriction and  
11 we are not able to do that yet.

12 MR PETER DUNCAN: Have these considerations led yet to any  
13 particular initiatives undertaken by the company to  
14 attract women?

15 MR GODWIN SO: (Via interpreter) In addition, as far as the  
16 post or the job design is concerned, we have the  
17 so-called half-time bus captains. In other words, they  
18 work shorter hours or the number of days that they work  
19 in the week would be fewer, so as to cater for mothers  
20 who have to take care of their children.

21 MR PETER DUNCAN: Has that resulted in any significant  
22 increase in the number of women who are employed?

23 MR GODWIN SO: (Via interpreter) Yes, it does help with the  
24 number of applicants. As I have said, we try as much as  
25 possible to provide separate toilet facilities at our  
26

1 terminus. We will try as much as possible to have  
2 different toilets for different sexes.

3 MR PETER DUNCAN: I want to ask that a slide be brought up  
4 on the screen now which summarises the profits of KMB  
5 and Long Win Bus in recent years, I think for the years  
6 2011 to 2017. This has been gleaned from the reports in  
7 the bundles. So if I could just explain this chart, the  
8 top heading is "Profit for the years of 2011 to 2017 for  
9 [Kowloon Motor Bus]", and the references you will see  
10 across the top are all from the bundle KMB-6.

11 And the profits after taxation are shown across from  
12 the year 2011 up until the year 2017.

13 We can see from this chart that losses were made in  
14 the years 2012 and 2013. Do you see those losses  
15 recorded as 51 million and 21 million respectively?

16 MR ROGER LEE: Yes.

17 MR GODWIN SO: Yes.

18 MR PETER DUNCAN: It would be fair to say that since 2013,  
19 the profits of the company have increased quite  
20 steadily; is that a fair comment?

21 MR ROGER LEE: Not fair comment.

22 DR NORMAN LEUNG: I agree, but there is a reason for that.

23 Mr Duncan, perhaps I can explain better the financial  
24 position of the company by referring to KMB & Long Win-1  
25 submissions, page 93, if I may have that, please.

26

1           Yes, Chairman. May I say that we have been, and  
2           still are, labouring under very difficult position to  
3           operate a franchised bus business. If I may refer to  
4           this table, yes, Mr Duncan, you rightly pointed out that  
5           in 2012 we made a loss of \$51 million, and in 2013 we  
6           made a loss of \$21 million.

7           But when you say that, we had been making steady  
8           profit from 2014 to 2017.

9           May I please point out one thing. Please look at  
10          the profit of 2016. We made a profit of \$618 million.  
11          But if you look -- if I may draw your attention to the  
12          fuel costs. In 2012, the fuel cost was \$1.46 billion.  
13          In the year 2013, the fuel cost was \$1.4 billion. Then  
14          it comes down to \$1.2 billion in 2014, thereby giving us  
15          a profit of \$197 million.

16          If you look closely at the profit of 2016, we made  
17          a profit of \$618 million, but if you look at our savings  
18          of the fuel costs, in that year we spent only  
19          \$624 million on fuel costs.

20          So it tells us that while in 2016 there was  
21          a marginal increase of our revenue, our profit was not  
22          resulted from the rise in revenue but rather because of  
23          the savings from the fuel costs.

24          The same applies to the year 2017. The amount of  
25          profit equals to the amount of fuel costs we saved.

26

1           That is important to note.

2           More importantly, I would like to point out that in  
3           last year, 2017, our staff costs amounted to  
4           \$3.6 billion, and this equals to roughly 60 per cent of  
5           the total operating expenses. These staffing costs will  
6           continue to rise from year to year because of the annual  
7           pay increase exercise. So you will see that, in the  
8           case of fuel costs, we have completely no control  
9           whatsoever over such expenditure. So that's why I would  
10          like to bring out to the attention of the committee that  
11          I have been doing my level best to promote the wellbeing  
12          of our staff. They are very important assets of the  
13          company. We are here to serve people; we have to keep  
14          them.

15          I would say that within my level best -- I will do  
16          my level best to improve the wellbeing of our staff and  
17          to care for their wellbeing, so hopefully we can recruit  
18          new bus captains and to keep our serving bus captains in  
19          the company. But on that point, I have to say that I am  
20          painfully aware of the fact that we have been running  
21          short of bus captains for a number of years, but we have  
22          got to look at the larger issue, the market situation in  
23          Hong Kong. But right now the unemployment rate of  
24          Hong Kong is 2.8 per cent. This is virtually full  
25          employment in Hong Kong. But there is nothing -- well,  
26

1           you know, we talked about imported labour -- there is  
2           not too much we can do about it. But what I have been  
3           trying to do, at least I have a strategy, to improve the  
4           remuneration of our bus captains, in the hope that other  
5           commercial drivers will come over to join our company,  
6           and basically a movement of drivers from other transport  
7           sector to KMB and Long Win. That's my strategy for  
8           attracting bus captains.

9           I appreciate and fully recognise that it is  
10          difficult to get new bloods, new recruits, into bus  
11          captains, as explained by the management, because of the  
12          working conditions, the abuse of our bus captains by  
13          passengers, et cetera.

14          But I will continue to look after -- you have my  
15          assurance that I will continue to do my level best to  
16          promote the wellbeing of our staff, in the hope that the  
17          bus captain shortage problem can be addressed.

18          Thank you, Mr Duncan.

19   MR PETER DUNCAN: Thank you, Dr Leung.

20          If I could just pick up one of the matters you  
21          mentioned. You said a few moments ago that you have  
22          a strategy to improve the remuneration of the bus  
23          drivers. Are you able to disclose what that  
24          strategy is?

25   DR NORMAN LEUNG: Basically, we are talking about the  
26

1 remuneration of the bus captains. I did that, you know,  
2 at the board meeting of December last year, to  
3 incorporate the bonuses into the basic salary, and  
4 I told you at the Tuesday hearing that there will be  
5 further upgrades -- I will be expanding the grades of  
6 the monthly bus captains, and also to expand their  
7 annual increment from eight to twenty; I told that at  
8 the hearing.

9 But basically money, I'm talking about money, and  
10 the working conditions of our bus captains. No efforts  
11 will be spared in attracting, if I may say so, new  
12 bloods to our staff force, I would say that.

13 MR PETER DUNCAN: We will come to the starting salary of new  
14 recruits later today, but in the light of what you have  
15 told us about price of fuel and so forth, what scope is  
16 there to increase the basic remuneration of your bus  
17 captains, in order to attract more people to this  
18 position?

19 DR NORMAN LEUNG: Apart from -- well, let's say we want to  
20 recruit a new bus captain. After the implementation of  
21 all the initiatives that I mentioned, plus the annual  
22 increment of pay in 2018 being implemented later in the  
23 year, subject to agreement of the trade unions, I work  
24 out that a new bus captain would be earning about  
25 \$23,000 per month, roughly, for 10 hours of working.

26

1 Working on a 10 hours basis, it would be about 23,000.

2 MR PETER DUNCAN: That's 10 hours a day, six days a week?

3 DR NORMAN LEUNG: Yes, six-day week, and as I say, in the  
4 hope that perhaps some commercial drivers may consider  
5 to join our company as well as new bloods might consider  
6 joining our company.

7 MR PETER DUNCAN: Has the company developed any particular  
8 initiatives to attract young people to the position? We  
9 saw the statistics yesterday and saw that the number of  
10 young people is much less than the number of middle-aged  
11 people.

12 MR ROGER LEE: (Via interpreter) Yes, we did. I will talk  
13 about our HR initiatives. In terms of male bus  
14 captains, and as Mr Leung said, the labour productivity  
15 is limited, so in terms of remuneration -- well, many  
16 staff, including frontline staff, would not only  
17 consider salary; they would consider the working  
18 conditions, and we have enhanced the arrangement of  
19 family cards for staff, and family members of our staff  
20 can take the bus for free, and we are creating an ideal  
21 environment. As I said, the proportion of female  
22 drivers is 5 to 6 per cent, whereas in Hong Kong the  
23 proportion of males and females are comparable.

24 In terms of what we will do, perhaps I will defer to  
25 Mr So.

26

1 MR GODWIN SO: (Via interpreter) We strive to hire young  
2 drivers.

3 MR PETER DUNCAN: I am particularly interested in the young  
4 people.

5 DR NORMAN LEUNG: Young people.

6 MR GODWIN SO: (Via interpreter) Yes. In terms of  
7 recruitment channels, apart from the traditional medium  
8 of newspapers, we have been using social media in order  
9 to reach out to the younger generation.

10 And in terms of benefits, there is something we can  
11 do. As we said, we have recreation clubs which might be  
12 appealing to younger people. We have sports activities  
13 such as soccer, basketball, badminton, or singing  
14 activities. As Mr Pang said, in terms of rostering, we  
15 would try to cater for the young people and their  
16 lifestyle, and at depots we have introduced recreation  
17 facilities to appeal to young people.

18 And in terms of shuttle service to depots, we have  
19 expanded our service so that people who live far would  
20 not be discouraged from joining the company. In terms  
21 of promotion, we have been proactive and in the past  
22 half a year we have organised multiple open days and  
23 recruitment days, and we have sent outreach teams to our  
24 depots in order to reach out to younger prospects.

25 So this is what we have been doing.

26

1 MR PETER DUNCAN: Have you noticed any improvement in regard  
2 to young people?

3 MR ROGER LEE: (Via interpreter) KMB has four depots and  
4 when we open our depots, apart from -- well, we  
5 encourage young people to bring their family members to  
6 visit the depots so that the family members of our  
7 captains can understand the working environment, and  
8 this is rather appealing.

9 MR PATRICK PANG: (Via interpreter) Mr Duncan, I have  
10 something to add to what Mr So said.

11 MR PETER DUNCAN: I am only interested in whether these  
12 initiatives have actually resulted in any improvement.  
13 Or is it too early to say?

14 MR PATRICK PANG: (Via interpreter) I can only say that we  
15 are gradually achieving improvements. We do not want  
16 our young captains to feel that they become captains  
17 only because they are at a dead end or they have no  
18 choice. In the last nine months, some captains have  
19 been promoted to inspectors or operations officers. We  
20 hope to motivate young people to join the bus trade.  
21 This is something we want to do.

22 Thank you, Mr Duncan.

23 MR ROGER LEE: (Via interpreter) In the past, captains were  
24 seldom promoted to inspectors or to clerical grades, but  
25 this is something we are trying to do.

26

1 DR NORMAN LEUNG: Basically we are saying that we have  
2 accelerated promotion policy for the talented young men.

3 MR PETER DUNCAN: Thank you.

4 Is there a minimum age before you will engage a bus  
5 captain?

6 MR GODWIN SO: (Via interpreter) Can you repeat the  
7 question, please?

8 MR PETER DUNCAN: Yes. Is there a minimum age which applies  
9 to persons who can join your company as a bus captain?  
10 Do they have to be 20 or 25 or 30?

11 MR GODWIN SO: (Via interpreter) So long as the applicant  
12 holds a private vehicle licence for three years, they  
13 will be considered.

14 MR PETER DUNCAN: Thank you.

15 Dr Leung, you touched, in one of your answers a few  
16 moments ago, on the matter of fare increases.

17 When was the last fare increase approved by the  
18 Administration?

19 MR GODWIN SO: (Via interpreter) 2014.

20 MR PETER DUNCAN: The committee has heard of the mechanism  
21 by which fare increases are considered. Has the company  
22 applied for any fare increase since 2014?

23 DR NORMAN LEUNG: No, we have not. Again, to explain our  
24 position better, may I please refer to page 95 of this  
25 same file.

26

1 CHAIRMAN: Yes. Thank you.

2 DR NORMAN LEUNG: We have to apply for fare increase in  
3 accordance with the formula as set out in  
4 paragraph 33(vi). There is a formula stated there: 0.5  
5 times increase in wage index plus 0.5 times increase in  
6 Consumer Price Index minus 0.5 times productivity gain.

7 If the result of this formula equals to or exceeds  
8 2 per cent, then we can apply to the government for  
9 a fare increase. That's the trigger point for it. But  
10 as in the last two years, because our profit -- also,  
11 there was another cap -- if our profit reaches the level  
12 of 9.7 per cent of our net asset value --

13 DR JOHN CHAN: Net average fixed assets.

14 DR NORMAN LEUNG: -- net average fixed assets, we can't  
15 apply for any increase. This is the case for 2016 and  
16 2017, so we couldn't apply for any increase, according  
17 to this formula.

18 So unlike our big brother, MTRC, they have  
19 a formula, but the increase is automatic; they don't  
20 have to apply for it. But in our case, we have to make  
21 an application for fare increase, and more often than  
22 not we never get the rate of increase that we apply for.  
23 That's the situation.

24 MR PETER DUNCAN: Thank you.

25 The obvious question, Dr Leung, is this: are you  
26

1 content with the current formula?

2 DR NORMAN LEUNG: Sorry?

3 MR PETER DUNCAN: Are you happy with regard to the current  
4 formula?

5 DR NORMAN LEUNG: Of course not. Why would I be happy?

6 Of course not. Mr Duncan, how can I be happy with such  
7 a formula?

8 MR PETER DUNCAN: Do you have any particular suggestions as  
9 to what formula should be applied?

10 DR NORMAN LEUNG: I think we have been talking to the  
11 Transport Bureau for a number of years, and so far we  
12 have achieved nothing. We just have to keep on talking  
13 with them, to convince them that it is time for  
14 a revision of the formula.

15 MR ROGER LEE: (Via interpreter) The biggest problem with  
16 this formula is it is looking at what happened in the  
17 past, and then on that basis you apply for a fare  
18 adjustment. We talked about the staff costs as well as  
19 the fuel costs, and they are about the future costs.  
20 Say, for example, recently, the fuel prices have gone  
21 up. In the past year or two, prices have come down. So  
22 it's a matter of the time-lag and we are not able to  
23 reflect the situation.

24 DR NORMAN LEUNG: Mr Chairman, I missed out one important  
25 issue. The oil price is not included in this formula.

26

1           We know how much we spend on gas, but this is not  
2           included in the formula. A very significant cost factor  
3           of our operation is excluded from this formula.

4   CHAIRMAN: Fuel is not a part of Consumer Price Index?

5   DR JOHN CHAN: No.

6   MR PETER DUNCAN: Could you have in front of you, Dr Leung,  
7           the file THB-2, and in particular page 23.

8           Perhaps if I go back to the commencement of the  
9           document. It's actually at page 1. It is a document  
10          issued by the Transport and Housing Bureau and it's  
11          called, "Public Transport Strategy Study", dated June  
12          2017.

13          Are you familiar with the fact that this report  
14          exists?

15   DR NORMAN LEUNG: Yes.

16   MR PETER DUNCAN: Could you go, please, to page 23 of the  
17          bundle.

18   DR NORMAN LEUNG: Yes.

19   MR PETER DUNCAN: Do you see a heading on that page, "(d)  
20          Fare adjustment arrangement"? Do you see that?

21   DR NORMAN LEUNG: Yes.

22   MR PETER DUNCAN: And in paragraph 4.25, you will see the  
23          formula which you have included in your submission at  
24          page 95. Do you see that?

25   DR NORMAN LEUNG: Yes.

26

1 MR PETER DUNCAN: If I can take you over the page to  
2 page 24, and bring your attention to paragraph 4.28:

3 "The aforesaid existing arrangement was put in place  
4 in 2006 after consultation with the LegCo. The  
5 arrangement was subsequently fine-tuned having regard to  
6 the outcome of the review in 2009."

7 Then at 4.29:

8 "In this regard, the government has conducted  
9 a review of the FAA. The initial findings indicate that  
10 the arrangement should be kept intact, while the data  
11 could be updated on two fronts".

12 Then you can see those fronts there described, "(a)  
13 Productivity gain value" and then the "Passenger reward  
14 arrangement". I think you will see in the "Passenger  
15 reward arrangement" reference to the 9.7 per cent, which  
16 I think you have touched on during the course of your  
17 evidence this morning.

18 DR NORMAN LEUNG: Yes, the annual fixed assets, that's  
19 right.

20 MR PETER DUNCAN: Yes.

21 Then at 4.30 we have this statement:

22 "The government has initiated discussion with the  
23 franchised bus companies on the initial review outcome  
24 and the details of the above two data updates. We will  
25 announce the discussion outcome and expect to implement  
26

1           them in the first half of 2018 upon approval by the  
2           Chief Executive-in-Council."

3           Have you heard anything from the government on this  
4           matter?

5       DR NORMAN LEUNG: Not on -- basically, I have been  
6           talking -- I have had discussion with the government,  
7           you know, on the passenger reward arrangement, and we  
8           haven't come to --

9       MR GODWIN SO: (Via interpreter) May I supplement?

10      DR NORMAN LEUNG: No, no, no. Let me finish first.

11           I have been, you know, talking to the government.  
12           I have had discussion with the government on this, on  
13           the passenger reward arrangement, and no definitive  
14           agreement has been reached between us.

15      MR PETER DUNCAN: There is reference to the fact that this  
16           matter was going to be considered by the Executive  
17           Council, and then an implementation in the first half of  
18           2018.

19           Have you had any news in that respect?

20      DR NORMAN LEUNG: No, no implementation as of today.

21      MR PETER DUNCAN: If the recommendation which is described  
22           at the top of page 25 is accepted, will that ease your  
23           concerns with regard to the fare adjustment arrangement?

24      DR JOHN CHAN: Mr Duncan, we, as of today, have not been  
25           told of the outcome of the review and of any submission  
26

1 to Executive Council. This has not happened.

2 If you look at what this says here, if we may go to  
3 the next page. Yes, the sentence at the end of  
4 paragraph 4.29, it says:

5 "The consultant recommended that the triggering  
6 threshold of 9.7 per cent should be adjusted downwards  
7 slightly ...", et cetera.

8 Just looking at that figure --

9 CHAIRMAN: Sorry, where are you reading from?

10 DR NORMAN LEUNG: 25.

11 DR JOHN CHAN: 25, I think, paragraph 4.29 of the document.

12 CHAIRMAN: Yes, I have it, thank you.

13 DR JOHN CHAN: If the triggering threshold of 9.7 is  
14 reduced, purely from a financial point of view that is  
15 bad news for KMB.

16 MR PETER DUNCAN: So, as matters stand, from the perspective  
17 of KMB, it does not appear that there is any imminent  
18 likelihood of an improvement in the fare adjustment  
19 process? Is that a fair summary of the situation?

20 DR JOHN CHAN: That's right.

21 MR PETER DUNCAN: So the comment that Dr Leung had with  
22 regard to being the younger brother of the MTRC would  
23 remain; is that fair?

24 DR NORMAN LEUNG: We are the poor little cousin!

25 MR PETER DUNCAN: Right. I now wish to return to training.

26

1 MEMBER LO: I just have a question on the cost structure.

2 You mentioned that the fuel cost is a big part of the  
3 variation, fluctuation of your business.

4 DR NORMAN LEUNG: Yes.

5 MEMBER LO: Have you thought about a scheme to stabilise the  
6 variation over time, over the years, maybe with the  
7 government?

8 DR NORMAN LEUNG: The government will leave this matter to  
9 KMB and us only, and in fact, at one time, in previous,  
10 many -- some years ago, we discussed with the government  
11 the possibility of having a surcharge, you know, for our  
12 fares, arising from the increase, significant increase,  
13 in fuel costs. It came to nothing because the  
14 government would not agree to that.

15 Of course, we have considered all sorts of options  
16 for cost-saving in this aspect, but we made a conscious  
17 decision not to do any oil hedging. We find that it's  
18 not advisable to hedge against oil -- you know, the gas  
19 oil price, because we learned the unfortunate experience  
20 of Cathay in that aspect. You know, they got  
21 a substantial loss as a result of hedging.

22 So what we have done is to talk -- we have in fact  
23 reached an agreement with the oil supplier. That's what  
24 we are doing today. Then we have agreed that they will  
25 supply gas oil to us, for a number of years, normally  
26

1           for three years. Then we agree the capped price for the  
2           gas oil.

3           Currently, we have a capped price of US\$85 per  
4           barrel. That's what we are doing now. If the gas oil  
5           price goes up, goes beyond US\$85, we are still paying  
6           \$85. But, on the other hand, if the gas oil price comes  
7           down, say comes down to \$40, \$45, we don't have any  
8           floor on the price and we just pay the market price --

9   MR ROGER LEE: (Chinese words not interpreted).

10   DR NORMAN LEUNG: Yes, the floor is US\$45.

11   MR ROGER LEE: (Chinese words not interpreted).

12   DR NORMAN LEUNG: Currently, we don't have such floor.

13   MR ROGER LEE: (Via interpreter) We do not conduct hedging  
14           against oil, because oil costs are a major cost  
15           component. We agreed with the oil suppliers that the  
16           cap is US\$85 per barrel, which is the crude oil cost  
17           plus a margin, and we would have a spot rate and we  
18           would add a premium on top. Of course I cannot disclose  
19           the exact figure. It's meaningless to have a floor  
20           price. Coming up, we will have a floor price of about  
21           US\$45 and we have shifted the risk to the oil suppliers.

22           And, like the chairman said, we are trying to come  
23           up with our own way to protect ourselves against fuel  
24           costs. Fuel once made up 20 per cent of our costs,  
25           which was significant.

1           As for the toll charges, they are rather high. Most  
2           people do not know that KMB is paying the full toll  
3           charges, even for government tunnels.

4           So these are crucial cost components which we are  
5           monitoring.

6       MR PETER DUNCAN: Back to the question of training,  
7           gentlemen. Can I have you, please, at page 145 of  
8           KMB-1.

9           We are looking here at the action plan as of  
10          10 April 2018, which was submitted to the Transport  
11          Department on that date, and at paragraph 3 on page 145  
12          through to paragraph 7 on page 147, we see the action  
13          plan for training.

14          If I could pick it up at item 3, the statement is  
15          made there -- and this is the point we reached at the  
16          end of yesterday's hearing -- that henceforth "all newly  
17          recruited bus captain candidates should be subject to  
18          the same standard of training".

19       MR JAMES WONG: (Chinese words not interpreted).

20       MR PETER DUNCAN: Whether they are full-time or part-time,  
21           they will receive the same standard of training; is that  
22           correct?

23       MR JAMES WONG: (Via interpreter) Since that time, we no  
24           longer recruited part-time captains, so we applied the  
25           same standards to all.

26

1 MR PETER DUNCAN: Will there be part-time captains who  
2 perform for more than 18 hours a day -- will they be  
3 recruited in the future?

4 MR PATRICK PANG: (Via interpreter) A week?

5 MR PETER DUNCAN: 18 hours a week, yes.

6 MR GODWIN SO: (Via interpreter) Yes.

7 MR PETER DUNCAN: And they will receive the same form of  
8 training as any bus captain who is proposing to work on  
9 a full-time basis?

10 MR GODWIN SO: Yes.

11 MR PETER DUNCAN: Thank you.

12 Now, we can read for ourselves the contents of the  
13 new training programmes, as set out in items 3, 4, 5, 6  
14 and 7.

15 I just ask, with regard to item 7:

16 "The number of ... driving instructors should be  
17 increased to a total of 110."

18 And in the action plan, it is stated that the  
19 canned:

20 "The ... candidates would complete all training and  
21 necessary exams before 30 June 2018... to form a cadre  
22 of 81 [driving instructors]."

23 Has that been completed?

24 MR JAMES WONG: (Via interpreter) This is already completed.

25 We have now a cadre of 89 DIs.

26

1 MR PETER DUNCAN: I would like now to refer you to another  
2 bundle, which is TD-1, at page 403.

3 You should be looking at a document dated July 2018,  
4 issued by the Transport and Housing Bureau and Transport  
5 Department, for discussion in the Legislative Council on  
6 25 July. Do you have that paper in front of you?

7 MR JAMES WONG: (Via Interpreter) Yes, I see that.

8 MR PETER DUNCAN: Now, in the portion on page 403 with  
9 regard to the background, it refers to the setting up of  
10 a working group following the accident on 10 February.  
11 Do you see that?

12 MR JAMES WONG: (Via interpreter) Yes, I see that.

13 MR PETER DUNCAN: And we see that the scope of the work is  
14 described in paragraphs (a) and (b)? And was one of the  
15 scope of work described as the reviewing of the training  
16 arrangements adopted by the franchised bus operators?

17 MR JAMES WONG: (Via interpreter) Yes, that's described in  
18 paragraph (b).

19 MR PETER DUNCAN: At the bottom of the page, there is  
20 a footnote which describes the composition of the  
21 working group, to include the five franchised bus  
22 operators, together with the bus manufacturers and  
23 of course the representatives of the Transport  
24 Department itself.

25 May I ask whether any of the gentlemen present were  
26

1 members of this working group?

2 MR GODWIN SO: (Via interpreter) For KMB and LWB, myself,  
3 Godwin So, Mr Leung Kin Wang, operations director, and  
4 Mr James Wong, the head of the training and quality  
5 assurance department, represented our company.

6 CHAIRMAN: Was there not also a subgroup dealing with  
7 technical matters?

8 MR GODWIN SO: (Via interpreter) Yes.

9 CHAIRMAN: And what was the KMB representation on the  
10 subgroup?

11 MR LEUNG KIN WANG: (Via interpreter) Technically speaking,  
12 myself and another engineer represented the company.

13 MR JAMES WONG: (Via interpreter) For the relevant training,  
14 I attended the meeting.

15 CHAIRMAN: What was the name of the other engineer who  
16 attended the safety device subgroup?

17 MR LEUNG KIN WANG: Ivan Ho.

18 CHAIRMAN: And, Mr Wong, were you the only representative on  
19 the training group?

20 MR JAMES WONG: (Via interpreter) Yes, I was the  
21 representative. I was the lone representative for the  
22 training subgroup.

23 CHAIRMAN: Thank you.

24 MR PETER DUNCAN: On page 403 --

25 CHAIRMAN: Sorry, before we move on, Mr Duncan, would you  
26

1 explore who the representatives of the Transport  
2 Department and the other franchised bus companies were?

3 MR PETER DUNCAN: Certainly, Chairman.

4 Who on the working group represented the Transport  
5 Department?

6 MR GODWIN SO: (Via interpreter) In the past, TD was -- the  
7 group was chaired by Rachel Kwan, the Assistant  
8 Commissioner for Transport, and after she went on  
9 retirement leave Macella Lee, the Deputy Commissioner,  
10 chaired the group.

11 MR PETER DUNCAN: Did the Transport Department have other  
12 representatives?

13 MR GODWIN SO: (Via interpreter) Yes, they had plenty.

14 I cannot name each one of them. They had a senior  
15 transport officer, et cetera, and they were from a bus  
16 and railway unit as well as a road engineering unit, but  
17 I cannot remember all the names.

18 CHAIRMAN: Were minutes not produced of these meetings?

19 MR GODWIN SO: (Via interpreter) Yes.

20 CHAIRMAN: Can you provide them to us?

21 MR GODWIN SO: (Via interpreter) Yes.

22 CHAIRMAN: Thank you.

23 MR PETER DUNCAN: I would ask you, please, to turn up one of  
24 the other bundles, CTB --

25 CHAIRMAN: Before we do that, can we pursue the other  
26

1           franchised bus company representatives, or will they be  
2           reflected in the minutes that you are going to provide  
3           us?

4       MR GODWIN SO:   (Via interpreter) Yes, their names are  
5           present on those minutes.

6       CHAIRMAN:   Thank you.

7           Yes, Mr Duncan.

8       MR PETER DUNCAN:   Thank you, Chairman.

9           CTB & NWFB-3, please, at page 588. Do you see  
10          a document headed, "Working group on enhancement of  
11          safety of franchised buses" dated 13 March?

12       MR GODWIN SO:   Yes.

13       MR PETER DUNCAN:   Is it followed by a document which is  
14          described as an annex, and the heading, "Working group  
15          on enhancement of safety of franchised buses"?

16       MR GODWIN SO:   Yes.

17       MR PETER DUNCAN:   If you go to page 590, do you see  
18          a heading, "Membership"?

19       MR GODWIN SO:   Yes.

20       MR PETER DUNCAN:   Does that assist with regard to those  
21          persons from the Transport Department who worked on the  
22          working group?

23       MR GODWIN SO:   Yes.

24       MR PETER DUNCAN:   Was it the same people at each meeting?

25       MR GODWIN SO:   Almost.

26

1 MR PETER DUNCAN: Right. It would appear that this document  
2 does not include the names of any of the bus  
3 manufacturer representatives.

4 MR GODWIN SO: (Via interpreter) For bus manufacturers, they  
5 attended the meeting of the technical subgroup. Here,  
6 this is about the main meeting; they did not attend.

7 MR PETER DUNCAN: Thank you.

8 Did members of the Transport Department attend the  
9 subgroup meetings?

10 MR JAMES WONG: (Via interpreter) Yes, within the subgroup,  
11 some of the Transport Department representatives and  
12 representatives from franchised bus operators, including  
13 myself, hold meetings together.

14 MR PETER DUNCAN: Who chaired the subgroup?

15 MR JAMES WONG: (Via interpreter) If I remember correctly,  
16 it should be Amy Tse.

17 MR PETER DUNCAN: From the Transport Department?

18 MR JAMES WONG: (Via interpreter) Correct. Yes, she is  
19 responsible for training.

20 MR LEUNG KIN WANG: (Via interpreter) For the technical  
21 subgroup, a number of them were involved, David Tsang,  
22 once, and I think he retired and he was replaced by  
23 others, and at the last meeting it was chaired by  
24 Assistant Commissioner, a Mr Chan Ying Kit.

25 MR PETER DUNCAN: I notice on page 403 of TD-1 that the  
26

1 major bus manufacturers were invited to join the  
2 technical meetings. Did they actually attend the  
3 technical subgroup meetings?

4 MR LEUNG KIN WANG: (Via interpreter) Yes, they did.

5 MR PETER DUNCAN: And which of the bus manufacturers named  
6 there -- Alexander Dennis, Volvo, and Regal-MAN -- which  
7 of those were represented at the subgroup meetings?

8 MR LEUNG KIN WANG: (Via interpreter) For Alexander Dennis  
9 Ltd, it was represented by Andrew Boulton. Volvo, by  
10 Julia ...

11 (In English) I forgot the first name. And  
12 Jacky Chan of Volvo.

13 MR PETER DUNCAN: Julia for Volvo and Jacky Chan for?

14 MR LEUNG KIN WANG: Volvo.

15 MR PETER DUNCAN: Two for Volvo?

16 MR LEUNG KIN WANG: Two for Volvo.

17 MR PETER DUNCAN: And what about Regal-MAN?

18 MR LEUNG KIN WANG: Rex Wong for Regal.

19 MR PETER DUNCAN: Are these all local representatives of  
20 those companies, or are they resident overseas?

21 MR LEUNG KIN WANG: Local resident engineers.

22 MR PETER DUNCAN: Thank you.

23 MR LEUNG KIN WANG: Julia Lu, L-U.

24 MR PETER DUNCAN: The chairman asked whether minutes of the  
25 working group meetings were retained, were kept, and you  
26

1 indicated yes and you are going to supply those.

2 Were there minutes of the subgroup meetings kept?

3 MR LEUNG KIN WANG: The minutes are distributed by the  
4 working group chairman and they sent the minutes to us.

5 MR PETER DUNCAN: Do they include the minutes of the  
6 subgroup as well as the main working group?

7 MR LEUNG KIN WANG: Different meeting minutes, yes.

8 MR PETER DUNCAN: When you provide the minutes, could you  
9 provide the minutes not just of the working group but  
10 also of the subgroup?

11 MR LEUNG KIN WANG: Yes.

12 MR PETER DUNCAN: Thank you.

13 CHAIRMAN: Mr Duncan, if the hiatus suggests that you have  
14 in mind a break, that is certainly welcome.

15 We will take a 20-minute break, gentlemen. Thank  
16 you.

17 (11.36 am)

18 (A short adjournment)

19 (11.58 am)

20 CHAIRMAN: Yes, Mr Duncan.

21 MR PETER DUNCAN: Thank you, Mr Chairman.

22 We were at page 403 of TD-1, the paper which briefed  
23 members of the Legislative Council on the recommended  
24 measures to further enhance safety of franchised buses.

25 Could I ask this question. As the first sentence of  
26

1           the document indicates, these are recommended measures.  
2           Does the company regard itself as being bound by these  
3           measures, or is the company going to regard these  
4           measures as recommendations only, as is stated in the  
5           paper?

6       MR GODWIN SO:   (Via interpreter) On page 413, which is  
7           annex A, there would be a target time frame for each  
8           recommendation, and this is for the trade's  
9           consideration. So these are technical bus features.

10           In terms of the training of bus captains, there are  
11           practice notes which the trade has to comply with, and  
12           in the last paragraph of the practice note there is  
13           a requirement for a monitoring and audit system to be in  
14           place for each company, and they must ensure that the  
15           practice note is complied with and the matter must be  
16           reported to the board.

17       MR PETER DUNCAN: So with regard to the technical matters,  
18           do I understand your answer to mean that you go through  
19           the trials and then make a determination as to what can  
20           be implemented?

21       MR ROGER LEE:   (Via interpreter) As far as engineering is  
22           concerned, a lot is ongoing. They are recommendations  
23           but from the perspective of the company, we will  
24           certainly try our best to enforce them vigorously.

25       MR PETER DUNCAN: Without going into the detail of the  
26

1 document yet, it is apparent from this document that if  
2 many of the recommendations are adopted, this will have  
3 quite an impact on the way in which bus captains are  
4 trained and also on how bus captains carry out their  
5 duties. Do you agree with that?

6 MR GODWIN SO: Yes.

7 MR PETER DUNCAN: We notice that neither the unions nor the  
8 bus captains were represented on the working group.  
9 What consultation has taken place with the bus captains  
10 and/or the trade unions during the period that this  
11 working group has operated?

12 MR GODWIN SO: (Via interpreter) Allow me to elaborate on  
13 this. For this working group, the Transport Department  
14 hasn't invited any trade unions. When the discussion  
15 reached the third meeting, as you know, then we got the  
16 guidelines for the training of bus captains. It was  
17 suggested that individual operators, according to our  
18 needs, should consult the trade unions.

19 Now, for our company, that is KMB and LWB, read the  
20 guidelines. In fact, it is a matter of setting out all  
21 the practices among all the bus operators, and then the  
22 TD grouped them together and produced the practice note.  
23 For this practice note, our company is able to meet all  
24 the requirements, and in fact this is what we have been  
25 doing, and what we are doing. Therefore, we haven't  
26

1           consulted our trade unions or our staff members again.

2           This is because they are already in place. Nothing new  
3           there, as far as KMB is concerned.

4       MR PETER DUNCAN: What about the technology devices which  
5           have been recommended; what consultation, if any, has  
6           taken place with the trade unions with regard to those  
7           matters?

8       MR GODWIN SO: (Via interpreter) Again, as I have said, they  
9           would defer to the bus companies to carry out the  
10          consultation. We have to look at the broad suggestions  
11          made. First of all, for newly acquired buses, there  
12          should be seat belts. As of today, 44 of our buses in  
13          the fleet are fitted with seat belts for all, and bus  
14          captains have had the experience of driving such buses.  
15          So it isn't something new.

16          Then, as to the second recommendation, it is said  
17          that we should have real-time speeding alerts. Well,  
18          two days ago, you know that we do have the real-time  
19          alerts. We have got it already.

20          The TD is saying other than the 70km per hour, we  
21          should also cover 50km per hour. I have covered that so  
22          I don't want to repeat.

23          Then there should be another feature to alert bus  
24          captains who are sort of falling asleep. We have got  
25          four buses on a pilot basis. It is merely a matter of  
26

1           reminding them. There won't be a record and we are not  
2           going to resort to disciplinary actions. We want to ask  
3           bus captains to try them and then they can tell us  
4           whether such a device would be helpful to them.

5           Therefore, as far as the bus features are concerned,  
6           the first one I have covered, we have the seat belt;  
7           second, the drowsiness alert, we have got four on trial  
8           to get views from the bus captains; and then the other  
9           one, we have also got it in our company as well.

10       MR PETER DUNCAN: Thank you.

11           You have mentioned the practice note, and I wonder  
12           if we could turn the practice note up. I believe it  
13           would be at 470.

14       CHAIRMAN: This was provided on 9 August; am I correct?

15       MR PETER DUNCAN: Yes. If you look at page 463 of the  
16           bundle, you will see a letter from the Transport  
17           Department of 9 August, which was in response to  
18           a letter from the committee of 23 July.

19           You will see at page 471 to 473 a practice note  
20           which bears the date August of 2018. Do you see that?

21           So if you look at the practice note --

22       CHAIRMAN: Sorry, which page is this, the practice note?

23       MR PETER DUNCAN: 471.

24       CHAIRMAN: Thank you. But we were told, were we not, by  
25           a submission of the Transport Department, that this had  
26

1           been promulgated in July?

2           MR PETER DUNCAN: Indeed, that was the position,  
3           Mr Chairman.

4           If you go to page 427, please.

5           CHAIRMAN: That gives us the date.

6           MR PETER DUNCAN: Yes. There is a letter from the Transport  
7           Department dated 20 July, which provides an attachment,  
8           and then you will see the attachment running from  
9           page 428, and at page 435 there is reference, in the  
10          first complete box, to the fact that the TD had recently  
11          issued a practice note to franchised bus operators in  
12          respect of the training for bus captains, et cetera.

13          What date did the Transport Department issue the  
14          practice note to Kowloon Motor Bus?

15          MR GODWIN SO: (Via interpreter) 6 August.

16          (In English) Through a fax.

17          MR PETER DUNCAN: Had you received any practice note from  
18          the Transport Department prior to 6 August?

19          MR GODWIN SO: Yes.

20          (Via interpreter) Well, for the practice note, it's  
21          an output from the working group. On 25 July, they went  
22          to the Transport Panel of LegCo, but they didn't have  
23          that paper, as you can see. Then, on 6 August, we  
24          received a fax, telling us that it would be formally  
25          launched and we were expected to implement it.

26

1 MR PETER DUNCAN: Yes. My question is whether before  
2 6 August the Transport Department had issued a practice  
3 note to Kowloon Motor Bus.

4 MR LEUNG KIN WANG: Not a formal one.

5 CHAIRMAN: Were you issued an informal one?

6 MR GODWIN SO: (Via interpreter) Please ask the question  
7 again; I don't quite grasp the question.

8 CHAIRMAN: Well, the Transport Department are telling the  
9 committee in a written submission that they have  
10 recently issued a practice note to the franchised bus  
11 operators and they told us that on 20 July, and then,  
12 when they provide us with a practice note, it is dated  
13 August, and you tell us that you've got one that's dated  
14 6 August. Were you given any earlier version of the  
15 practice note, one that is consistent with what the  
16 Transport Department are telling us?

17 MR GODWIN SO: (Via interpreter) I can provide what I have  
18 received, so we have attachments to a discussion paper  
19 for meetings before that.

20 CHAIRMAN: What was the date that you received that practice  
21 note?

22 MR GODWIN SO: (Via interpreter) 6 August.

23 CHAIRMAN: Nothing prior to that, in any form?

24 MR GODWIN SO: (Via interpreter) Yes, there's an attachment  
25 to a discussion paper of the working group's meeting.

26

1 CHAIRMAN: And what's the date of that document?

2 MR GODWIN SO: Mid or early July.

3 (Via interpreter) I can't recall the exact date.

4 CHAIRMAN: Do you have a copy of the document?

5 MR GODWIN SO: (Via interpreter) Yes.

6 CHAIRMAN: Can you provide it to the committee?

7 MR GODWIN SO: (Via interpreter) Yes.

8 CHAIRMAN: Thank you.

9 Mr Duncan.

10 MR PETER DUNCAN: Thank you, Chairman.

11 Let's have a look at the practice note itself.

12 TD-1/470. We will be able to read for ourselves the  
13 general content of the document, but one matter I would  
14 like to bring to your attention, please, is paragraph 4  
15 on page 471, and the minimum requirement.

16 The working group, with regard to the induction  
17 course, has suggested a certain period of time for  
18 classroom training and then a certain period of time for  
19 behind-the-wheel road training, and the working group  
20 has drawn a distinction between full-time and part-time  
21 drivers.

22 What is the intent of the Kowloon Motor Bus Company  
23 in the light of the earlier evidence on the action plan  
24 that it's your intention in the future to treat all bus  
25 drivers in the same way whether they be full-time or  
26

1           whether they be part-time?

2       MR JAMES WONG: (Via interpreter) When this item was  
3       discussed, the other FB operators were also present. As  
4       far as training is concerned, different companies have  
5       different arrangements and needs. Therefore, in the  
6       light of the different circumstances of different  
7       operators, the TD came up with the minimum requirement.  
8       So you can see that the topic is called "minimum  
9       requirement". In other words, for some companies, they  
10      would still be engaging part-time bus captains, and  
11      I clearly stated that for KMB, we have stopped  
12      recruiting part-time bus captains, but then the TD has  
13      to take into account the other operators when they drew  
14      up the guidelines. That's why they have included this  
15      point about part-time bus captains, but it doesn't apply  
16      to KMB.

17      MR PETER DUNCAN: Does the company envisage any changes in  
18      its training programme, as set out in the action plan  
19      and in the other documentation provided to the  
20      committee, as a result of this practice note?

21      MR JAMES WONG: (Via interpreter) No, no need to change or  
22      revise. This is because we have made our suggestions  
23      and the TD came up with this in the light of our  
24      submission.

25      MR PETER DUNCAN: Thank you.

26

1 I would like to leave training now and turn to  
2 another matter.

3 Could you in this respect, please, turn up KMB-1 at  
4 page 129.

5 The original documentation here is at page 128 to  
6 129, and I'm working off the translation at 129-1.

7 This is a document headed, "Declaration". What is  
8 the purpose and what is the use of this document?

9 MR GODWIN SO: (Via interpreter) In February or March, the  
10 company set up an investigation committee in the  
11 aftermath of the Tai Po accident, and the idea was that  
12 we had to know more about our employees, in a process  
13 known as "know our employees", and we wanted to find out  
14 whether their other employments outside might affect  
15 their work and whether our employees have significant  
16 medical history which might affect their work, and also  
17 whether they have been convicted of dangerous driving in  
18 the past and also criminal conviction records.

19 And during recruitment, we would look at the  
20 information submitted by the applicants when considering  
21 whether they would be hired.

22 MR PETER DUNCAN: So, prior to the Tai Po accident, was  
23 there any form such as this required to be set out when  
24 a potential bus driver joined the company?

25 MR GODWIN SO: (Via interpreter) It wasn't that detailed but  
26

1           there was still similar work. For example, in terms of  
2           dangerous driving, we would ask them to give their  
3           records. For medical history, no declaration was  
4           needed, but there would be a medical check upon  
5           induction.

6       MR PETER DUNCAN: Did the form enter into the position of  
7           what other employment a person was undertaking, the old  
8           form?

9       MR GODWIN SO: (Via interpreter) No, not before.

10      MR PETER DUNCAN: Do you happen to still have a copy of the  
11           old form which was in use?

12      MR GODWIN SO: (Via interpreter) Yes, we can provide that.

13      CHAIRMAN: Please do.

14      MR PETER DUNCAN: Who was required to fill out this  
15           declaration?

16      MR GODWIN SO: (Via interpreter) The applicant for the post  
17           concerned.

18      MR PETER DUNCAN: So this form is signed upon the applicant  
19           being engaged in employment; is that correct?

20      MR GODWIN SO: Yes.

21      MR PETER DUNCAN: On an ongoing basis, what checks does the  
22           company undertake to understand what an employee might  
23           be doing outside his working hours, both part-time  
24           employees and full-time employees?

25      MR GODWIN SO: (Via interpreter) We rely on the candidates  
26

1 to make their own declarations in good faith and they  
2 would provide the information.

3 MR PETER DUNCAN: So there's a check when a person commences  
4 his employment. What, say, he's been working with the  
5 company for five years or so: is there any ongoing  
6 declaration such as this, or any other measure to  
7 understand what, for example, a part-time driver might  
8 be doing in other forms of employment?

9 MR GODWIN SO: (Via interpreter) Internally, we have a staff  
10 handbook, and there is a requirement that if a staff  
11 member engages in part-time work outside, it must be  
12 declared.

13 MR PETER DUNCAN: So it depends solely on what an employee  
14 would choose to tell you; is that the situation?

15 MR GODWIN SO: (Via interpreter) Our staff are obliged. The  
16 rules are there in the staff handbook and they must be  
17 complied with.

18 MR PETER DUNCAN: What measures are taken to audit and  
19 enforce the rules which are in the handbook in this  
20 respect?

21 MR GODWIN SO: (Via interpreter) If the rules are not  
22 followed, and if we find that a staff member engages in  
23 work outside, there would be sanctions, and in the past  
24 there were cases in which bus captains were dismissed  
25 for this reason.

26

1 CHAIRMAN: Is there any checking mechanism, due diligence,  
2 as it were?

3 MR GODWIN SO: (Via interpreter) No.

4 CHAIRMAN: Thank you.

5 MR PETER DUNCAN: Do you have any initiatives to change this  
6 situation whereby the company undertakes some sort of  
7 checking system as to what other employment activities  
8 an employee may be involved in?

9 MR GODWIN SO: (Chinese words not interpreted).

10 MR PETER DUNCAN: We requested yesterday --

11 CHAIRMAN: We didn't get a translation of the answer.

12 MR GODWIN SO: Yes, we will consider, actively consider.

13 CHAIRMAN: Thank you.

14 MR PETER DUNCAN: We did not receive last evening -- this is  
15 by way of a reminder -- a copy of any employment  
16 contract. Is that still to come?

17 MR GODWIN SO: (Via interpreter) Yes, we will provide that.

18 MR PETER DUNCAN: I want to ask you to turn now, please, to  
19 page 109.

20 CHAIRMAN: Before you do that -- are you moving away from  
21 this topic?

22 MR PETER DUNCAN: Yes, I am.

23 CHAIRMAN: You mentioned the staff handbook, and certainly  
24 I've seen the provision you're talking about. Do you  
25 happen to know the reference for it in our bundles, or  
26

1           Mr Duncan, do you happen to know, just so we can have  
2           a quick look at it?

3       MR GODWIN SO:   (Via interpreter) If I can find that, I would  
4           provide the page number.

5       MR PETER DUNCAN: I've got the annex number but not the  
6           page number. It's annex 1a-iii-7, I think. Sorry, that  
7           would be the outdoor operations staff handbook; is that  
8           it?

9       MR GODWIN SO:   (Via interpreter) In bundle KMB-8, page 3072,  
10          point 1.

11                 (In English) In English version, 3042.

12       CHAIRMAN: Yes, thank you.

13                 This of course refers to full-time employees, does  
14          it not?

15       MR GODWIN SO: Yes.

16       CHAIRMAN: So is there a provision that applies to part-time  
17          employees?

18       MR GODWIN SO:   (Via interpreter) As we said, our bus  
19          captains who work 18 hours a week for four continuous  
20          weeks would be considered full-time employees. That's  
21          why they have to follow the requirement under 1.8.

22       CHAIRMAN: But prior to the Tai Po accident, when you were  
23          recruiting part-time captains, was there a requirement  
24          that they declare their employment elsewhere, if they  
25          engaged in that after they had first been employed?

26

1 MR GODWIN SO: (Via interpreter) No.

2 CHAIRMAN: Thank you.

3 MR PETER DUNCAN: What about the former employees who are  
4 now allowed to work between 10 hours and 18 hours? Are  
5 they regarded as full-time employees or are they  
6 part-time employees?

7 MR GODWIN SO: Full-time.

8 MR PETER DUNCAN: So would they be aware of this, if they  
9 read this provision? Full-time employees, et cetera,  
10 et cetera, would they regard themselves as full-time  
11 employees if they read this handbook?

12 MR GODWIN SO: (Via interpreter) They were once our  
13 employees, after they retired they were re-engaged, and  
14 therefore they were aware of the provision 1.8.

15 MR PETER DUNCAN: Do you have any intention to amend 1.8 to  
16 reflect these new employment arrangements?

17 MR GODWIN SO: (Via interpreter) Yes.

18 MR PETER DUNCAN: If I could take you back, please, to KMB-1  
19 at page 109. We have here considerable detail with  
20 regard to the remuneration of bus captains, and the  
21 first thing I would bring to your attention with regard  
22 to the monthly rates is the distinction between those  
23 employed before 2004 and those employed after 2004.

24 Could you just amplify why there is this  
25 distinction?

26

1 MR GODWIN SO: (Via interpreter) First of all, some history.

2 In 2003, Hong Kong's economy took a hit because of SARS,  
3 and in 2003 the company did not recruit new bus captains  
4 and the bus operations declined that year. After 2004,  
5 we started hiring bus captains again. Based on the  
6 market pay level at that time, we adjusted the  
7 remuneration of new bus captains to reflect market  
8 changes.

9 So, for monthly-rated captains, there were two  
10 types. The first type, BCs employed before 2004, their  
11 remuneration would not change, but for those employed  
12 after 2004, based on the job market and economic  
13 environment, we paid remuneration based on market  
14 prices. So there are two types of BCs.

15 MR PETER DUNCAN: Thank you.

16 If we move down to item (E), the split shift duty  
17 allowance, does this reflect an allowance paid in  
18 respect of the split shifts which are now provided for  
19 in the 2018 guidelines?

20 MR GODWIN SO: (Via interpreter) If you pause here, the 2018  
21 guidelines are to be implemented in the first quarter of  
22 2019. Currently, we are following the government  
23 guidelines talking about 14 hours a day, out of which  
24 11 hours for driving duties; in other words, three hours  
25 for rest. Currently, we have got colleagues on split  
26

1 duties. When somebody is assigned split duties, he will  
2 be drawing an allowance measuring \$1,950-plus. In  
3 between, he has three hours' rest, and we cover that  
4 period by using this allowance.

5 CHAIRMAN: So currently you are following the 2010  
6 guidelines?

7 MR GODWIN SO: (Via interpreter) Correct.

8 CHAIRMAN: Thank you.

9 MR PETER DUNCAN: Do you envisage having split shift duties  
10 once the new guidelines are implemented?

11 MR GODWIN SO: (Via interpreter) We will consider as to how  
12 it will be revised. Since there will be the need to  
13 consult the staff -- well, we will certainly consider,  
14 but it is difficult to tell how it would be revised.  
15 Yes, there will be.

16 MR PETER DUNCAN: There will be some split shifts?

17 MR GODWIN SO: (Via interpreter) Yes.

18 MR PETER DUNCAN: And will that allowance be the same or  
19 will that change?

20 MR GODWIN SO: (Via interpreter) We will consider  
21 enhancement.

22 MR PETER DUNCAN: How is that calculated -- when you say  
23 \$1,951.50 a month, a driver would not be on a split  
24 shift for a whole month, would he?

25 MR GODWIN SO: (Via interpreter) No, because in the case of  
26

1 a monthly-rated BC, and if he is on a split shift duty,  
2 he will be on such a duty for the whole month.

3 MR PETER DUNCAN: So how many days in a month would you  
4 expect a driver to work? Say, would it be 27 days out  
5 of 30 or 31?

6 MR GODWIN SO: (Via interpreter) A rest day for every six  
7 days. So assuming that we haven't got a public holiday,  
8 then for a 30-day month he has to work 26 days.

9 MR PETER DUNCAN: And that would entitle him to \$1,951.50 in  
10 addition?

11 MR GODWIN SO: Yes.

12 MR PETER DUNCAN: Right. Would you have drivers who work  
13 split shifts for less than the whole month, say for five  
14 days or for ten days?

15 MR GODWIN SO: (Via interpreter) It's possible.

16 MR PETER DUNCAN: So what sort of allowance would they  
17 receive? Do they get the whole 1,951 or is there  
18 a proportion?

19 MR GODWIN SO: Proportion.

20 MR PETER DUNCAN: Is that based on a daily proportion or  
21 what? How is that calculated?

22 MR GODWIN SO: (Via interpreter) Depending on the number of  
23 days worked for that month and then for how many days he  
24 has been doing split shift duty and then that would be  
25 multiplied by the figure of 1,950-plus, and then that's

26

1 the amount of his split shift duty allowance.

2 MR PETER DUNCAN: So approximately how much per day does  
3 that amount to, approximately?

4 MR GODWIN SO: (Via interpreter) Roughly \$70.

5 MR PETER DUNCAN: If we go over to page 111, we can see at  
6 table 3 the daily-rated salary provisions, and we see  
7 the split shift duty allowance here at item (H). That  
8 is a sum of \$21.90, and I notice at (H) it's provided  
9 for on an hourly basis. So if a person is on a split  
10 shift for one hour, presumably he gets paid an extra  
11 \$21.90; if he is on a split shift where he has a rest  
12 time of three hours, presumably he gets \$60. Is that  
13 the way it's calculated?

14 MR GODWIN SO: Yes.

15 MR PETER DUNCAN: So there is a difference in the treatment  
16 between the monthly-rated and the daily-rated bus  
17 drivers with regard to the split shift duty allowance;  
18 is that correct?

19 MR GODWIN SO: (Via interpreter) You have to take a holistic  
20 view. You can't just look at the split shift duty  
21 allowance. For daily-rated BCs, they have a higher  
22 basic salary. So it is right to say that there is  
23 a difference, but then you have to look at the whole  
24 picture.

25 MR PETER DUNCAN: In the event that the company utilises the  
26

1 new guidelines and engages in split shift duties, will  
2 this allowance also be reviewed, will this be a matter  
3 of review?

4 MR GODWIN SO: Yes.

5 MR PETER DUNCAN: I wonder if we could turn up the new  
6 guidelines, please. We find these in KMB-2 at page 61.

7 And in fact the previous guidelines, those currently  
8 in force, are happily on the previous page, at page 60.  
9 You can see the two together.

10 Currently, what is a typical shift as opposed to  
11 a split shift, currently?

12 MR PATRICK PANG: (Via interpreter) If I may talk about it  
13 briefly. There are usually two types of shifts: first  
14 of all, what we call the straight duty or the straight  
15 shift. So maybe you work for eight hours or ten hours,  
16 or it could be 12 hours. So I'm talking about the  
17 working hours.

18 Then we have about 23 per cent of our BCs who are on  
19 special duties, so the split duty that Mr Duncan  
20 referred to, the working hours would not exceed 14.

21 MR PETER DUNCAN: So with regard to the new guidelines, are  
22 you able to indicate to the committee whether there is  
23 likely to be any material change to what you have just  
24 described?

25 MR PATRICK PANG: (Via interpreter) Under the new  
26

1 guidelines, for straight duties, the working hours will  
2 not exceed 12, out of which the driving hours should not  
3 exceed 10 hours. There isn't any obvious difference.

4 But then for the split duties, I think relatively  
5 speaking the difference is greater. This is because,  
6 according to the Transport Department's guidelines, for  
7 the special duty, that is the split duty, the working  
8 hours should still be no more than 14 hours. But then,  
9 for the driving hours, the driving hours must not exceed  
10 10 hours.

11 So, when compared with the current guidelines, for  
12 the current guidelines, not exceeding 11; under the  
13 revised guidelines, the driving hours would be one hour  
14 short.

15 Then there is another feature. Under the new  
16 guidelines, for the split duty BCs, the bus captains  
17 must have a rest break of no less than three hours and  
18 on a continuous basis.

19 So that's the main difference.

20 MR PETER DUNCAN: What are the dynamics? Are there persons  
21 who want to work the split shifts as they are at the  
22 moment, in order to earn more money, or is it  
23 a situation where the company has to order drivers to  
24 work those split shifts?

25 MR PATRICK PANG: (Via interpreter) For our company, we  
26

1 would never force any colleagues to take up any special  
2 or split shift duties. All bus captains who are on such  
3 split shift duties do so on a voluntary basis.

4 MR ROGER LEE: (Via interpreter) If I may add a point. The  
5 dynamics are such that as far as KMB is concerned, we  
6 cover a large catchment area. During the morning peak  
7 hours, by 6 or 7 am in the morning, it is already the  
8 start of the morning peak and the demand is huge, and  
9 then the peak will come up again at about 6, 7 or 8. So  
10 it's like two humps for the peak periods. Someone may  
11 live in Tuen Mun. After the morning peak period, the  
12 bus captain can go home and then come back for the  
13 evening duties. So there is this geographical factor.

14 So some of them are like that, and that's the  
15 minority, and they do have such a need.

16 MR PATRICK PANG: (Via interpreter) All in all speaking, for  
17 BCs on split shift duties, as Mr Lee has pointed out, we  
18 need to cover the morning peak as well as the evening  
19 peak.

20 KMB is in a unique position because we do cover  
21 a large area, and we have got four main depots, and we  
22 have also got satellite depots. For BCs on split shift  
23 duties, well, indeed, they may go home to take a rest in  
24 the middle of their shift, for those few hours involved.

25 MR PETER DUNCAN: Given the remuneration rates that we have  
26

1       seen, will the new guidelines, if they are adopted, with  
2       reduction in the maximum working hours and the  
3       requirement for rest times -- will they result in some  
4       of your drivers receiving less by way of remuneration?

5       MR PATRICK PANG: (Via interpreter) To answer your question,  
6       if we don't consider the remuneration -- in other words,  
7       if the remuneration package is the same, if we simply  
8       look at the driving hours -- it may be the case that  
9       some BCs may have a reduced take-home pay. But then, as  
10      Mr So has said, in fact we are actively considering  
11      measures, in particular how we are able to enhance the  
12      allowance covering the rest break, so that for BCs,  
13      especially those on split shift duties, they have more  
14      rest time but more -- they would not be suffering from  
15      a reduction in their take-home pay. The management and  
16      chairman asked us to consider this.

17      DR NORMAN LEUNG: Mr Duncan, the board has made a direction  
18      to the management to the effect that in respect of the  
19      split duty shift drivers, although they would be working  
20      10 hours instead of 11 hours per day, their remuneration  
21      should not be less favourable, let me put it that way.

22      MR PETER DUNCAN: Has that been communicated to the bus  
23      captains?

24      DR NORMAN LEUNG: In fact, this is stated in our action plan  
25      for the recommendation, and I think the management has

26

1 already talked to the trade unions.

2 Perhaps Mr Pang can elaborate on that.

3 MR PATRICK PANG: (Via interpreter) Mr Duncan, I touched  
4 base with representatives of staff unions, and the  
5 depots also convey such messages to the bus captains,  
6 that our management would actively look to optimise the  
7 remuneration package so that even with the new  
8 guidelines the take-home salaries of bus captains would  
9 not be less. So the captains are positive about this.

10 DR NORMAN LEUNG: May I also add that if their working hours  
11 are reduced from 11 to 10, then we may also consider  
12 whether it is necessary to have 14 hours a day, when it  
13 can be changed from 14 hours to 13 hours. Although this  
14 is permitted by the Transport Department, to have 14  
15 working hours per day, we will review that, and our  
16 intention is to reduce the working hours from 14 to 13.

17 CHAIRMAN: Thank you.

18 Mr Duncan, am I correct in recalling that that is  
19 what we have been told in evidence that Citybus will be  
20 doing, that the split shift which they don't operate at  
21 the moment but which they will implement will only be  
22 a maximum of 13 hours?

23 DR NORMAN LEUNG: Yes.

24 MR PETER DUNCAN: I believe that is a correct recollection,  
25 Mr Chairman.

26

1           If I could just have that confirmed through the  
2           action plan, Dr Leung. If I can refer you, please, to  
3           KMB-1 at page 149. Is that reflected in item 12 on  
4           page 149?

5   MR PATRICK PANG: (Via interpreter) Yes, Mr Duncan.

6   DR NORMAN LEUNG: On the right-hand side.

7   MR PETER DUNCAN: That is what is meant by that last  
8           paragraph; is that correct?

9   DR NORMAN LEUNG: Exactly.

10   MR PETER DUNCAN: Yes, thank you.

11   DR NORMAN LEUNG: Thank you, Mr Duncan.

12   MR PETER DUNCAN: I have just been handed a note,  
13           Mr Chairman, that that evidence from Citybus appears at  
14           Day 4 of the transcript, page 75, lines 1 to 6.

15   CHAIRMAN: Thank you.

16   MR PETER DUNCAN: Moving on, gentlemen, to page 180, please,  
17           this time of TD-1.

18   CHAIRMAN: Before you do that, before you move on -- Mr Lee,  
19           you told us about the rest pattern of bus captains  
20           working split shift hours, where they take that longer  
21           period of rest. You said that a minority of them are  
22           able to go home.

23   MR ROGER LEE: Yes.

24   CHAIRMAN: Can you help us with, in rough terms, the  
25           proportion of bus captains driving these split shifts  
26

1           who begin their rest period at a bus station rather than  
2           a depot? I ask that question because the secretariat  
3           and I have visited bus stations and the Tuen Mun Bus  
4           Depot and we are aware of the difference in the  
5           facilities available.

6           So the question is what proportion of bus captains  
7           working special shifts commence their period of rest at  
8           a bus station.

9   MR ROGER LEE: (Via interpreter) We will come back and  
10          identify these figures. We do have such figures. They  
11          take their rest at three places: one, at home; two, at  
12          bus stations; and three, at bus depots.

13   CHAIRMAN: Thank you.

14   MR PETER DUNCAN: Thank you.

15          Page 180 of TD-1, please. You will see at this  
16          page an extract from the forward planning programme for  
17          the years 2018 to 2022, submitted by the company to the  
18          Transport Department. If I understand correctly, this  
19          is one of the requirements of the franchise, that such  
20          a programme be provided each year to the Transport  
21          Department, and I believe this is the latest one that is  
22          available. Is that correct?

23   MR GODWIN SO: (Via interpreter) The latest forward planning  
24          programme was for 2019 to 2023, and it will be submitted  
25          on 17 August. It is ready for submission by early next  
26

1 week. So this is the latest programme submitted.

2 CHAIRMAN: So when was this submitted, the one we are  
3 looking at?

4 MR GODWIN SO: (Via interpreter) It was submitted in June  
5 2017.

6 MR PETER DUNCAN: This portion of the forward planning  
7 programme concerns the matter of bus safety.

8 CHAIRMAN: Before we move on, you are going to be submitting  
9 one on or by 17 August of this year; is that right?

10 MR GODWIN SO: Yes.

11 CHAIRMAN: Would you please provide the relevant chapters of  
12 that report to the committee?

13 MR GODWIN SO: Yes.

14 MR PETER DUNCAN: Thank you.

15 If we look at bus safety -- it is referred to as  
16 clause 8 of the forward planning programme, and I wish  
17 to bring your attention, please, to paragraph 8.2, which  
18 is concerned with the analysis of bus accidents in the  
19 past two calendar years.

20 If I could bring your attention in particular,  
21 please, to page 181, and the "Accident rate by bus  
22 captain age". Have you made the point in that paragraph  
23 that the results show that younger bus captains are more  
24 prone to higher accident rates, mainly due to the fact  
25 that these bus captains have relatively less bus driving  
26

1           experience and they are more prone to accidents in their  
2           first few months of service? Is that a point which is  
3           made on page 181?

4       MR GODWIN SO: Yes.

5       MR PETER DUNCAN: Then if you turn the page to 182, is there  
6           a similar point made in clause 8.2.4?

7           "The results of an analysis on accident rate by  
8           experience in terms of years of service ... are shown in  
9           figure 8.3. As mentioned above, the likelihood of  
10          an accident occurring in the first year immediately  
11          following recruitment is relatively higher."

12       CHAIRMAN: Is that what's stated there?

13       MR PETER DUNCAN: Is that what's stated?

14       MR GODWIN SO: Yes.

15       MR PETER DUNCAN: Are there any particular provisions made  
16           to meet what seems to be this trend with regard to what  
17           happens at the commencement of the career of a bus  
18           captain?

19       MR GODWIN SO: (Via interpreter) I do not quite get what you  
20           mean.

21       MR PETER DUNCAN: If I could give you something from my own  
22           experience. When I was a young boy and travelled  
23           regularly to school on a bus, the bus driver often had  
24           a co-bus driver with him, sitting with him, giving him  
25           tips and so forth. Is there any sort of provision like  
26

1           that within the company?

2           MR GODWIN SO: (Via interpreter) Yes. We realise the  
3           figures you pointed out. The new bus captains are often  
4           younger, and in the initial period there would be  
5           a buddy bus captain to accompany them, to reinforce  
6           their confidence and familiarise the bus captains with  
7           the roads, and so that they know how to deal with  
8           passengers. At around the third month, there would be  
9           a workshop for bus captains so that they can share their  
10          experience as a bus captain. We hope that new bus  
11          captains would be able to familiarise themselves with  
12          the work environment and minimise occurrences of  
13          accidents, or accident rates.

14          MR PETER DUNCAN: How long have these buddies been  
15          operating?

16          MR PATRICK PANG: (Via interpreter) Mr Duncan, perhaps  
17          I would briefly introduce these buddy drivers or buddy  
18          inspectors and their work.

19                 For all full-time bus captains and half-time bus  
20          captains, for example, the housewives as mentioned by  
21          Mr Duncan, they might work four hours a day and five or  
22          six days a week, they are considered half-time drivers.  
23          After the bus captains complete two phases of training  
24          at our captain training school, we would assign buddy  
25          drivers on a full-time basis for the first and second  
26

1 days of work, and on the seventh and 16th day, the buddy  
2 drivers would accompany these new bus drivers in their  
3 driving duties.

4 For our part-time captains, again we would assign  
5 buddy drivers, but for part-time captains recruited in  
6 the past, they all held class 10 and class 17 licences,  
7 in other words licences for buses and franchised buses.  
8 So our buddy drivers would accompany them on their first  
9 day of work.

10 Earlier this year, we introduced a buddy inspector  
11 programme. For each new bus captain we would assign  
12 a designated inspector who would liaise with the bus  
13 captain and we also prepared cue cards, containing the  
14 contacts of our inspectors as well as the phone numbers  
15 of depot managers, assistant depot managers and  
16 operations officers.

17 So apart from driving skills, our buddy inspectors  
18 can provide holistic support, so you can consider them  
19 mentors. If bus captains run into any questions or  
20 doubts, they can approach the buddy inspector. That  
21 way, we hope the new bus captains can familiarise  
22 themselves in the job as soon as possible, and like  
23 Mr So said, for all our new bus captains, after they are  
24 on the job for three months, we would arrange a workshop  
25 for them, and all depot managers, driving instructors  
26

1           and myself would attend the workshop to check with the  
2           bus captains to identify the difficulties they  
3           encountered in the first three months.

4           Then every time we would invite a very experienced  
5           bus captain to share tips as to how to cope with the  
6           daily work. So, for a new bus captain who has three  
7           months' experience, he will certainly go through such  
8           a process.

9   MR PETER DUNCAN: Yes. My question was: when did these  
10          buddies first start operating?

11   MR GODWIN SO: (Via interpreter) For the concept of the  
12          buddy driver, it was conceived in the year 2013 and it  
13          has undergone enhancement all the time.

14   MR PETER DUNCAN: Thank you.

15   CHAIRMAN: Mr Duncan, if that's not inconvenient, we will  
16          take our luncheon adjournment now.

17   MR PETER DUNCAN: Thank you, Chairman.

18   CHAIRMAN: Gentlemen, we will adjourn now and resume at 2.30  
19          this afternoon. Thank you.

20          (1.01 pm)

21                               (The luncheon adjournment)

22          (2.30 pm)

23   CHAIRMAN: Good afternoon, gentlemen.

24          Mr Duncan.

25   MR PETER DUNCAN: Thank you, Mr Chairman.

26

1           Gentlemen, could I ask you please to be at page 180  
2           of TD-1.

3           Before the lunch break, I had taken you through to  
4           page 182. Could you now please turn to page 183, where  
5           we have analysis by the company of accidents by nature.

6           If I could just ask you a few questions, please,  
7           arising from table 8.1. We have the first column,  
8           referring to "Passenger loss of balance"; percentage,  
9           51.5 per cent.

10          There is another heading further down the table,  
11          "Injury to passenger inside bus". What is the  
12          distinction between those two headings?

13       MR GODWIN SO: (Via interpreter) For "passenger loss of  
14          balance", it means the passenger doesn't hold the  
15          handrail and he loses balance. And "injury to passenger  
16          inside bus" means there is an accident and the passenger  
17          is inside the bus, and the passenger is injured just  
18          sitting there, not loss of balance, and he is injured  
19          due to the accident.

20       MR PETER DUNCAN: How would a passenger just sitting there  
21          receive an injury? How does that happen?

22       MR GODWIN SO: (Via interpreter) Let's say there's  
23          an accident, a collision, and the passenger is sitting  
24          there inside the bus, and let's say the bus rolls over,  
25          and then the sitting passenger is injured, so that would

26

1 mean injury to passenger inside bus.

2 MR PETER DUNCAN: I don't want to be pernickety but we have  
3 a different percentage for a bus which rolls over, the  
4 last heading. Would it not be covered under that?

5 MR JAMES WONG: (Via interpreter) Maybe I can give you  
6 another example. A passenger can still get injured  
7 while sitting inside bus. For example, when the bus  
8 brushes against some trees or tree branches and the  
9 passenger is injured. So it's a different category from  
10 the passenger loss of balance category.

11 MR GODWIN SO: (Via interpreter) Last month, there was  
12 a case in Central, the bus was on the road and suddenly  
13 the bottom of the bus deck was hit by protruding  
14 concrete.

15 MR PETER DUNCAN: So do I understand correctly that the  
16 company has set out these categories and in the case of  
17 an accident there will be a classification according to  
18 the categories which are here listed?

19 MR GODWIN SO: Yes.

20 MR PETER DUNCAN: Thank you.

21 The passenger loss of balance, 51.5 per cent. At  
22 8.2.7, there is a reference to the fact that more than  
23 half of these cases were caused by bus braking in  
24 traffic. Do you have any information for the committee  
25 with regard to the other half or so of these cases as to  
26

1 the cause of those accidents?

2 MR JAMES WONG: (Via interpreter) Passenger losing balance  
3 can be due to a number of reasons. One of them might be  
4 that the driver is not quite aware of the passenger  
5 situation, whether he has already been standing there  
6 properly or has taken a seat, or maybe the bus captain  
7 is not driving the bus properly. We talked about  
8 acceleration or harsh braking a few days ago, and that  
9 can be another cause. Sometimes, after alighting a bus,  
10 the passenger doesn't -- boarding the bus, rather, after  
11 boarding the bus, the passenger doesn't hold the  
12 handrail and when the driver has to take some evasive  
13 action of driving, the passenger then loses his balance.

14 MR PETER DUNCAN: The second item, "Head on/tail collision",  
15 13.5 per cent --

16 CHAIRMAN: Before you move on, Mr Duncan -- when there is an  
17 incident where a passenger loses balance and becomes  
18 part of these statistics, over half of the injuries  
19 involving buses, do you investigate the data available  
20 to you as to deceleration and acceleration?

21 MR JAMES WONG: (Via interpreter) In the case of a passenger  
22 losing balance, we would investigate into whether there  
23 is an acceleration or deceleration on the part of the  
24 bus captain. So the short answer is yes. And also the  
25 CCTV can also capture what happened on board the bus.

26

1 CHAIRMAN: Do you do the investigation -- let me ask the  
2 question neutrally. What data do you use to investigate  
3 deceleration or acceleration?

4 MR JAMES WONG: (Via interpreter) As we have discussed, the  
5 black box will record the relevant data, and we can have  
6 access to such data on our server, and then we know  
7 whether the bus captain suddenly accelerates or brakes,  
8 decelerates the bus harshly.

9 CHAIRMAN: Do you have statistics that are the result of  
10 these investigations, for example the rate of  
11 deceleration or acceleration?

12 MR JAMES WONG: (Via interpreter) We don't have formal  
13 statistics on this issue.

14 CHAIRMAN: Why not?

15 MR JAMES WONG: (Via interpreter) If there is a case of this  
16 nature, we would handle the irregular driving behaviour  
17 of the bus captain, but no record is kept about the  
18 analysis.

19 CHAIRMAN: But half of the injuries on your buses are caused  
20 by this factor alone.

21 MR GODWIN SO: (Via interpreter) I agree that records should  
22 be kept, but it's in relation to 2015/2016, we cannot  
23 provide any statistics for that period. But I will  
24 check that if in the new system, we would see if we can  
25 keep statistics about acceleration or deceleration in  
26

1           respect of cases involving passengers losing balance.

2       CHAIRMAN: Are you doing that at the moment, 2018?

3       MR GODWIN SO: (Via interpreter) We can do it.

4       CHAIRMAN: But have you done it, past tense?

5       MR GODWIN SO: (Via interpreter) I don't know at this  
6           moment.

7       CHAIRMAN: But you can do it?

8       MR GODWIN SO: Yes.

9       CHAIRMAN: Do you know how many passengers have been injured  
10           by loss of balance so far this year, approximately?

11      MR GODWIN SO: 300.

12      CHAIRMAN: Thank you.

13           Presumably, when you investigate the circumstances  
14           in which a passenger has been injured through loss of  
15           balance, you have available the data from the black box  
16           which you can obtain on the server, but you also have  
17           the data from your various cameras on the bus?

18      MR JAMES WONG: Correct.

19      CHAIRMAN: So by a combination of the technological devices  
20           you have available, you can determine reasonably,  
21           perhaps, whether or not the braking was justified?

22      MR JAMES WONG: Correct.

23      CHAIRMAN: Do you keep any statistics as to that?

24      MR JAMES WONG: (Via interpreter) As I said, we would  
25           investigate into such cases, but the records, the data  
26

1 of the investigation, are not kept.

2 CHAIRMAN: You don't keep a simple statistic like 445

3 persons injured but the braking was justified in 300

4 cases? Nothing as simple as that?

5 MR JAMES WONG: (Via interpreter) Well, we have the data but

6 we don't transform such data into so-called statistics.

7 MR LEUNG KIN WANG: (Via interpreter) Maybe I can supplement

8 here. All accidents will be looked into, and we would

9 categorise cases into whether the bus captains should be

10 held responsible or not, and whether the sudden braking

11 is justified by the traffic conditions. Of course we

12 can carry out more analysis.

13 CHAIRMAN: But presumably, when you do that, you must keep

14 statistics?

15 MR LEUNG KIN WANG: (Via interpreter) I believe the data are

16 there, but of course we can go back and do some analysis

17 to seek further improvement.

18 CHAIRMAN: Well, isn't it an important tool, to monitor the

19 behaviour of bus drivers, to know whether or not the

20 deceleration was harsh, and from your investigation it

21 was unnecessary?

22 MR LEUNG KIN WANG: (Via interpreter) I agree with you.

23 CHAIRMAN: Yes, Mr Duncan.

24 MR PETER DUNCAN: Thank you, Chairman.

25 Just leaving table 8.1 for a moment and going down

26

1 to table 8.2, we have again the same "Accidents by  
2 nature", but this time not percentages, actually the  
3 number of accidents.

4 Now, the chairman asked with respect to "passenger  
5 loss of balance" whether the number of passengers  
6 affected is recorded, and my understanding is that you  
7 said that so far, for 2018, the passenger loss of  
8 balance number would be 350. Is that correct?

9 MR GODWIN SO: (Via interpreter) It's 300, approximately  
10 300. I'm speaking from memory.

11 MR PETER DUNCAN: Approximately 300, yes, thank you.

12 Is it possible for you, from your records, to go  
13 down the columns and indicate the numbers of persons  
14 affected by each of these accidents?

15 MR GODWIN SO: (Via interpreter) We are talking about the  
16 number of cases here, the data are not kept in this  
17 table.

18 CHAIRMAN: No. Table 8.2 simply describes the number of  
19 accidents. There might have been 1,000 passengers who  
20 lost their balance; is that what you are saying?

21 MR GODWIN SO: I agree. I know what you mean.

22 (Via interpreter) Yes, I agree, but there is no  
23 number for the passengers, but we can have the figures  
24 for 2018.

25 CHAIRMAN: Both of the number of accidents, 300,  
26

1 approximately, and you can then also provide us with the  
2 number of passengers who lost their balance?

3 MR GODWIN SO: (Via interpreter) Yes, I can do that.

4 CHAIRMAN: It might have been all of those standing up who  
5 might have lost their balance?

6 MR GODWIN SO: Yes.

7 CHAIRMAN: Would you please provide us with that  
8 information, for 2018?

9 MR ROGER LEE: Yes.

10 MR GODWIN SO: (Via interpreter) Yes, we will do that.

11 MR PETER DUNCAN: Can you do that for each of the columns  
12 thereunder?

13 MR GODWIN SO: (Via interpreter) I will try, but I may have  
14 difficulty, because these have to do with 2015-2016, but  
15 we can provide case numbers and also passenger numbers  
16 for 2018 with regard to loss of balance accidents.

17 MR PETER DUNCAN: Yes. I'm only concerned about 2018. But  
18 say -- you've got a heading there, "Bus  
19 overturn/topple", there's just one accident -- can the  
20 number of passengers injured by that be easily  
21 ascertained?

22 MR GODWIN SO: (Via interpreter) Yes. There is only one  
23 case. Certainly we can look up the figures.

24 MR PETER DUNCAN: And likewise, hit a street object or a  
25 vehicle or an animal, there are 27 accidents, is it  
26

1           possible for you easily to retrieve the number of  
2           persons injured by that?

3       MR GODWIN SO:   (Via interpreter) Yes, we can do that.

4       MR PETER DUNCAN: I would be grateful if that can be  
5           supplied when you supply the records for 2018.

6       MR GODWIN SO:   (Via interpreter) Yes.

7       MR PETER DUNCAN: Thank you.

8           Just going back to get a further understanding of  
9           these charts, the second heading is "Head on/tail  
10          collision". We have another heading further down the  
11          chart, "Collision with other vehicle (rolling  
12          back/forward/reversing)". What is the distinction  
13          between those two? I notice the first one is  
14          responsible for 13.5 per cent of accidents. What is the  
15          distinction?

16       MR JAMES WONG:  (Via interpreter) For head-on/tail  
17          collision, usually we look at static objects, and if  
18          there is head-on/tail collision then we classify it as  
19          this.

20          The second collision column, very often it is  
21          because we changed lanes and that leads to collision  
22          between vehicles, and then we would classify it as  
23          collision with other vehicles in lane-changing.

24       MR PETER DUNCAN: So that's the distinction between the  
25          second heading and the third heading?

26

1 MR JAMES WONG: (Via interpreter) Correct.

2 MR PETER DUNCAN: What about the heading further down,  
3 "Collision with other vehicle (rolling  
4 back/forward/reversing)"; what's the distinction with  
5 that?

6 MR JAMES WONG: (Via interpreter) Sometimes vehicles would  
7 reverse and that leads to collision, then it would be  
8 classified as this one.

9 MR PETER DUNCAN: Going back up, "J/O collision" at  
10 6 per cent and 48 incidents in 2016. What is a "J/O"  
11 collision?

12 MR JAMES WONG: (Via interpreter) This means junction,  
13 junction collision.

14 MR PETER DUNCAN: Thank you. And further down, "Entering  
15 R/A collision"; what does that refer to?

16 MR JAMES WONG: (Via interpreter) It's a roundabout,  
17 entering roundabout collision.

18 MR PETER DUNCAN: When you supply the statistics with regard  
19 to 2018 with regard to the number of passengers  
20 affected, could you also distinguish between persons  
21 injured and fatalities?

22 MR JAMES WONG: (Via interpreter) Yes.

23 MR PETER DUNCAN: Thank you.

24 I wish to turn to another subject now, and that is  
25 a matter which has been referred to this morning by at  
26

1           least two of you, I think, and that's the subject of  
2           illegal parking.

3           The committee has heard not only from you but also  
4           from previous witnesses that this is very much a safety  
5           hazard, and I think this morning one of you gentlemen  
6           assisted the committee by indicating what steps you had  
7           taken with regard to this, in particular reports to  
8           different government departments, but without any  
9           apparent improvement in the situation.

10          Could you look, please, at miscellaneous  
11          bundle number 2, at page 644. In fact, I think the  
12          document starts at page 643, and runs into page 644, and  
13          with a translation at 644-1, which continues on  
14          page 644-2.

15          You will see this is a document received by the  
16          committee from the persons from the Democratic Alliance,  
17          and if I could turn to the second page of the  
18          translation -- in fact, I think at the bottom of the  
19          first page of the translation, 644-1, we have this  
20          opinion expressed:

21          "To eradicate illegal parking at bus stops, it must  
22          be dealt with from its roots and by formulating suitable  
23          policies, revising the outdated laws. The problem can  
24          only be resolved by multipronged measures."

25          It continues to say:  
26

1            "Suggestion 1: Following Singapore and installing  
2            cameras on all bus fleets. Singapore has since 2008  
3            installed cameras on buses and the cameras are installed  
4            next to the driver's seats. When drivers discover cars  
5            parking inside the bus stop, they can press the button  
6            and record a video of 5-10 minutes. The bus companies  
7            will then hand the recording to the police, thereafter  
8            the police can review the recording and in around two  
9            weeks' time the ticket will be sent to the car owner's  
10           home. Each penalty ticket costs nearly [\$800], there is  
11           additional charge of [\$5,000] and imprisonment of 3  
12           months for late payment of penalty.

13           For the first year, Singapore has recorded 2112  
14           incidents of drivers driving into the bus lanes or bus  
15           stops to pick up and drop off customers. For 2014, the  
16           number of cases of driving into the bus lanes and  
17           illegal parking has already reduced to 886, it has  
18           successfully deterred most drivers not to stop at the  
19           bus stops."

20           Now, we have heard evidence already that the company  
21           installs a camera which is I think directed towards the  
22           driver's seat, and there is also a camera which is  
23           a forward-looking camera, described I think in the  
24           submissions as a surveillance camera.

25           Could I ask, first of all, presently, are either of  
26

1           those cameras used to record cars which are illegally  
2           parked or vehicles which are illegally parked, at the  
3           moment?

4       MR PATRICK PANG:   (Via interpreter) Mr Duncan, my short  
5           answer is no.  However, if you would allow me, I can  
6           supplement.

7       MR PETER DUNCAN:  Please.

8       CHAIRMAN:  Yes, please do.

9       MR PATRICK PANG:  (Via interpreter) Regarding the recorded  
10           clip being given to the police for the purpose of  
11           prosecuting against illegal parking, in October/November  
12           last year I started to do it, because I was responsible  
13           for Lai Chi Kok Depot at that time, and it was a pilot  
14           scheme that was agreed with the police, and we took that  
15           approach in order to report cars that were illegally  
16           parked at bus stops.

17       CHAIRMAN:  So what did you do?

18       MR PATRICK PANG:  (Via interpreter) What we did was, I used  
19           one trial location and that is in Tsim Sha Tsui, on  
20           Canton Road, at bus terminus 271, we used that route  
21           which travels from Lai Chi Kok Depot to Sha Tin Depot,  
22           because at that terminus there was always illegal  
23           parking, and also, at Canton Road, you call it the  
24           luxury shop street, actually there is a high traffic  
25           volume there, and at that time I was the general manager

26

1 of Lai Chi Kok Depot and I had a meeting with the  
2 police.

3 I myself wrote a standard statement, a statement,  
4 and then I asked my frontline inspectors that if they  
5 should see illegal parking, we should use our mobile  
6 phones to record a footage which, together with  
7 a standard pro forma -- well, we will just record the  
8 date and time. The location is already known because  
9 that is the only trial location, and we would give it to  
10 the traffic section of Kowloon West of the police for  
11 prosecution.

12 We found that it was very effective, because when  
13 prosecutions started I could see that on some social  
14 media there were reports of this and that if you park at  
15 bus stops, you might be prosecuted. And on Canton Road,  
16 very often there is illegal parking, we would call the  
17 police, but when the police come the cars would have  
18 gone, and then the police would go and then the cars  
19 would come back. So it was only tackling the symptoms  
20 but not the root of the problem.

21 Therefore, we used our own initiative. We joined  
22 hands with the police and we found that it was  
23 effective, and you can see that recently the police have  
24 also carried out two pilot schemes, and now the pilot  
25 scheme has been expanded to all five land-based police  
26

1 regions, and the police is doing that now.

2 Therefore, Mr Duncan, my short answer is we do not  
3 use our on-board CCTV for prosecution, but in our pilot  
4 scheme, together with what the police are doing, and  
5 also we can see that there is more prosecution and fines  
6 being meted out for illegal parking at bus terminus.

7 Thank you.

8 CHAIRMAN: Why don't you use the on-board, rolling-all-day,  
9 CCTV cameras?

10 MR PATRICK PANG: (Via interpreter) Well, we can do that,  
11 but in that pilot scheme, it would be more convenient,  
12 because our inspectors would be driving a patrol vehicle  
13 to patrol the area, and if they use their mobile phones  
14 it would be more convenient.

15 But of course, Chairman, if -- well, in the on-board  
16 CCTV we can also do recording, we can do that.

17 CHAIRMAN: Presumably, it would be very simple to have  
18 a button that would keep a log of the time at which  
19 someone should view the CCTV?

20 MR PATRICK PANG: (Via interpreter) You are correct,  
21 Chairman. If we can reduce illegal parking, we will  
22 certainly do that.

23 CHAIRMAN: Yes, Mr Duncan.

24 MR PETER DUNCAN: So I take it from the scheme that you have  
25 described, this has brought some improvement to the  
26

1 illegal parking problem?

2 MR PATRICK PANG: (Via interpreter) If we are talking about  
3 the terminus of 271 at Canton Road, then I would say  
4 a significant improvement has been made.

5 MR PETER DUNCAN: Just with regard to that terminus?

6 MR PATRICK PANG: (Via interpreter) Because the police have  
7 just launched the scheme, the full scheme, we have to  
8 monitor the effectiveness now.

9 But as of yesterday, on the whole, illegal parking  
10 has not really been improved significantly. That's not  
11 what we have seen.

12 MR PETER DUNCAN: Is there any correspondence between KMB  
13 and the police with regard to the pilot scheme that you  
14 have described?

15 MR PATRICK PANG: (Via interpreter) We have some emails, and  
16 also we use the so-called standard pro forma, the  
17 statement, in respect of the terminus of 271 at  
18 Canton Road. I can hand over the information to the  
19 committee.

20 MR PETER DUNCAN: Thank you.

21 CHAIRMAN: Please do so.

22 MR PATRICK PANG: (Via interpreter) We will do that.

23 CHAIRMAN: That's the emails, communication with the police,  
24 and your standard form.

25 MR PATRICK PANG: (Via interpreter) No problem.

26

1 CHAIRMAN: Thank you.

2 MR PETER DUNCAN: Do I understand correctly from your  
3 evidence that you will pursue the possibility of the  
4 system which is described as being in use in Singapore?

5 MR PATRICK PANG: (Via interpreter) We do have an open mind.  
6 We agree that we should do that.

7 MR PETER DUNCAN: Sorry, when you say you have an open mind,  
8 are you going to look into it or not?

9 MR PATRICK PANG: (Via interpreter) Yes, yes, we will follow  
10 up. We will look into that.

11 CHAIRMAN: You are complaining on the one hand of having  
12 a problem. This is a beyond belief simple way of  
13 solving it, is it not?

14 MR PATRICK PANG: (Via interpreter) Chairman, the pilot  
15 scheme we launched for Canton Road last year was carried  
16 out when there was no precedent of basing a prosecution  
17 on just video footage. That never happened before the  
18 trial scheme.

19 CHAIRMAN: There are lots of prosecutions that are based on  
20 the use of video, CCTV evidence, are there not?

21 MR PATRICK PANG: (Via interpreter) Yesterday, Chairman, you  
22 said I had worked for the police, and I have also worked  
23 in the traffic section of the police. So in respect of  
24 illegal parking, in the past there was no prosecution  
25 based on video footage. There might be prosecution for  
26

1           jumping a red light and things like that.

2       CHAIRMAN: That might be a limitation of the police force or  
3           the Department of Justice, but there is no barrier in  
4           law to using that evidence.

5       MR PATRICK PANG: (Via interpreter) I agree. Earlier this  
6           year, I learned from the press reports that the police  
7           had started to do this based on video clipping, to  
8           prosecute illegal parking vehicles, and I'm talking  
9           about stationary vehicles, not those vehicles in motion  
10          involved in speeding or jumping red light, et cetera.

11       DR NORMAN LEUNG: Mr Pang, I think we should do it on our  
12          own, take our own action, and see how the police respond  
13          to our action.

14                I think, Mr Chairman, that's the action I'm going to  
15          direct my management to take.

16       CHAIRMAN: Thank you, Dr Leung.

17                Yes, Mr Duncan.

18       MR PETER DUNCAN: Gentlemen, could you turn up, please, the  
19          transcript for Day 11.

20       CHAIRMAN: In which bundle do you find that?

21       MR PETER DUNCAN: Bundle 4.

22       CHAIRMAN: Whose evidence are we going to?

23       MR PETER DUNCAN: This is the evidence of Mr Lam Kam Piu,  
24          who is a representative of the Federation of Bus  
25          Industry Trade Unions.

26

1           If I could direct your attention to line 2 on  
2           page 153, Ms Wong has brought the witness's attention to  
3           the fact that his union had expressed concerns about the  
4           use of 12.8-metre-long buses that have a rear wheel  
5           steering function in Hong Kong.

6           At line 13, you will see that Mr Lam Kam Piu makes  
7           this statement:

8           "Because for 12.8 [metre] buses in light of the road  
9           conditions in Hong Kong, because we have narrow roads,  
10          and heavy pedestrian flow ... there is a hazard using  
11          very long buses."

12          At line 17, he says this:

13          "As for 12.8 [metre] bus[s] with the rear axle  
14          steering function, when manoeuvring a bend of course it  
15          would be very good for the driver. But for other  
16          vehicles they may not know that the bus comes with this  
17          rear wheel steering function, and the Transport  
18          Department would issue something to let the driver know  
19          that it has the function, but other drivers may not  
20          know. So when the rear axle steers during a bend, when  
21          another vehicle approaches very closely the back of the  
22          bus, the wheel would actually go outside its own lane,  
23          causing danger to the vehicle next to it."

24          And Mr Lam continues right through to the middle of  
25          page 155.

1           Could I ask this question: to what extent are  
2           12.8-metre buses used in Hong Kong; and secondly, does  
3           the company share the concern of Mr Lam that these may  
4           pose a hazard in some of the regions of narrow streets?

5       MR LEUNG KIN WANG: (Via interpreter) 12.8-metre buses? We  
6           have them. KMB has these buses. Most are not  
7           rear-wheel steered. There are advantages. We did try  
8           such buses. We had some concerns, so we converted them  
9           to ordinary 12.8-metre buses. They are not rear-wheel  
10          steered.

11          Of course, 12.8 metres means that these buses are  
12          longer, with a higher passenger capacity. We will use  
13          them for busy routes, especially long-haul routes, so  
14          that we can carry more passengers. That's helpful, to  
15          improve our services.

16          It's longer than the 12-metre-long buses, but we  
17          would try them out first on the routes. The routes for  
18          which we would deploy such buses would be determined  
19          after carrying out tests in conjunction with the  
20          Transport Department. The deployment will come after  
21          the trials.

22          So far, for KMB, we have some 200 buses,  
23          12.8-metre-long buses.

24       MR ROGER LEE: (Via interpreter) Maybe I can supplement.

25          What is meant by the rear-wheel steering -- most are  
26

1 front-wheel steering vehicles. They have three axles.

2 So, when the bus makes a turn into a bend or when

3 there's a sharp bend, the outward displacement would be

4 less serious. For the first batch, we only got one with

5 rear-wheel steering and our colleagues don't think

6 highly of that, so we stopped the use of this kind of

7 buses with rear-wheel steering.

8 CHAIRMAN: Mr Leung, you said you had some concerns about

9 rear-wheel steering. What were those concerns? Are

10 they the ones Mr Lee has just told us about?

11 MR LEUNG KIN WANG: (Via interpreter) The concerns are the

12 bus captains' concerns. The turning circle would be

13 smaller. But the characteristic of outswing would be

14 different. The outswing is bigger. That is, when you

15 negotiate a bend, you have to make some adjustment to

16 adapt to it. If you drive a rear-wheel steering this

17 day, and then tomorrow you drive another one which is

18 not rear-wheel steering, you need to do some adjustment

19 yourself. So that's the concern of bus captains.

20 MR ROGER LEE: (Via interpreter) It's not related to safety.

21 It's about the adaptability.

22 CHAIRMAN: Thank you.

23 MR PETER DUNCAN: So, if I understand correctly, there are

24 no rear-wheel 12.8-metre buses now in the fleet?

25 CHAIRMAN: Rear-wheel steering.

26

1 MR PETER DUNCAN: Rear-wheel steering, yes.

2 Is that correct?

3 MR LEUNG KIN WANG: Correct.

4 MR PETER DUNCAN: With regard to the 12.8-metre buses that  
5 do exist in the fleet, how many are there?

6 CHAIRMAN: I think you have told us about 200?

7 MR ROGER LEE: Yes, 200.

8 MR PETER DUNCAN: When you say you would deploy them on  
9 certain routes after contact with the Transport  
10 Department, has that already happened?

11 MR LEUNG KIN WANG: Correct.

12 MR PETER DUNCAN: And are these buses simply used on defined  
13 routes?

14 MR LEUNG KIN WANG: Correct.

15 MR PETER DUNCAN: Do you have any concerns about their use,  
16 given what the committee was told by the trade union  
17 representative?

18 MR LEUNG KIN WANG: No.

19 MR PETER DUNCAN: Do you have any concerns that when the  
20 vehicle goes around a bend, it might end up going  
21 outside the lane, causing a hazard to other vehicles?  
22 Is that a concern at all?

23 MR ROGER LEE: (Via interpreter) First of all, in deciding  
24 which route would be suitable, we will talk to the  
25 Transport Department. For some routes, it would not be  
26

1 appropriate to deploy such buses, and the bus captains  
2 would have to learn to drive 12.8-metre-long buses,  
3 before they really drive these buses.

4 So we would do it only if it is not a rear-wheel  
5 steering 12.8-metre-bus and only when the bus captain  
6 has been properly trained.

7 MR PETER DUNCAN: So are you aware of any particular issue  
8 with any of the unions at the present time with regard  
9 to this matter?

10 MR LEUNG KIN WANG: (Via interpreter) No.

11 MR PETER DUNCAN: I want you to go to another volume now,  
12 this time TU-1(A). At page 84, you will see a copy of  
13 a submission received by the committee from the KMB  
14 Employees Union. The translation of that commences at  
15 page 90-1. I am working on the translation and I wish  
16 to refer you, please, to page 90-3, which refers to the  
17 matter of facilities safety.

18 Do you have that?

19 MR LEUNG KIN WANG: Yes.

20 MR PETER DUNCAN: Thank you. The union has said this to the  
21 committee:

22 "In order to save repair cost, KMB has, since 2015,  
23 inappropriately removed all defog heater installation,  
24 causing the front window panel to have serious fogging  
25 issue under cold and wet weather (when the difference  
26

1           between external and internal temperature is big) ..."

2           And they have referred to annex 1 which I think you  
3           will find at page 91, the original, and 90-1 as the  
4           translation.

5           The question I would like to ask is: is it correct  
6           that since 2015, the company has removed all defog  
7           heater installations?

8   MR LEUNG KIN WANG: (Via interpreter) That is not correct.

9   MR PETER DUNCAN: Do you know what the union may be  
10          referring to here?

11   MR LEUNG KIN WANG: (Via interpreter) I believe they were  
12          talking about some demisters. We have two models. Some  
13          used heated air, and then in 2010 we changed it to using  
14          cold air ones. The bus shown in annex 1 with the plate  
15          UF 2751, it had a cold air defog installation.  
16          I believe this bus was two years old.

17          Why is it that we changed from hot air to cold air  
18          defog installation? Before 2010, all the defog  
19          installations were heaters, and the heated air would use  
20          the coolant at the end of the bus and then it would be  
21          heated up, and then the hot water would travel from the  
22          end of the bus through pipes to the front of the bus,  
23          and it runs throughout entire bus for 12 metres, and  
24          a two-way pipe would measure 24 metres. The hot water  
25          would be travelling along the 24-metre hot-water pipe.

26

1           The defog heaters would use such hot water to generate  
2           hot air, so that the windscreen will not see any  
3           condensation, especially when the weather is wet and  
4           cold.

5           However, that installation was not reliable. Very  
6           often, the pipes might burst. If the pipes burst, the  
7           very hot water, which is of a very high temperature, and  
8           in certain cases some hot water travelled into the bus  
9           itself, and in 2010 we changed it to a cold air  
10          installation in order to resolve that problem.

11          But whether we use hot air or cold air defog  
12          installation, you have to turn it on for five to ten  
13          minutes before you can remove the condensation.

14          In 2010, we started to use cold air defog  
15          installation to replace the heaters, but the bus  
16          captains did not welcome it because it was already cold  
17          and there was cold air blowing onto the windscreen. So,  
18          by 2015, we heard those views from bus captains and we  
19          had to resolve the problem, because this might affect  
20          the driving situation of the buses, and then we found  
21          some anti-fog coating to remove the fog. This would be  
22          painted onto the windscreen. It sounded old-fashioned  
23          but it was effective. You paint it on the windscreen,  
24          there would be no condensation.

25          At the same time, we looked for other ways to deal  
26

1 with the problem. At the same time, we researched into  
2 other demisters together with bus manufacturers. We  
3 discussed with Volvo to see whether we could find  
4 anything, and then we found two things. One, heated  
5 windscreen. There would be heated wires within the  
6 windscreen. That is very common for private cars, but  
7 if you don't ask, if the manufacturer doesn't do it for  
8 you, you cannot do it yourself. But was it immediately  
9 available? No. It was not as simple as buying it from  
10 a supermarket. This had to be particularly manufactured  
11 for buses, and we tried it on 25 buses in 2016, and the  
12 situation is still the same now.

13 Then, at the same time, together with ADL, another  
14 manufacturer, we researched into another thing, and that  
15 is to use electrical demisters. We would use heated  
16 wires to generate hot air to remove condensation.

17 Many trials were done because it involved heating  
18 elements and we had to resolve other possible problems,  
19 and in the end we resolved the problem this year, and  
20 functional electrical demisters that can be installed  
21 now.

22 So, at this moment, we have electrical demisters, we  
23 have heated windscreens. These are the two options for  
24 now. And the bus company has decided that these two  
25 will be installed on buses without heaters. We will  
26

1 retrofit those buses with these installations. We will  
2 do this on the cold air demisters so that the entire  
3 fleet can be provided with proper demisters so the bus  
4 captains will welcome using them. And in future, we are  
5 inclined to use heated windscreens in our new buses.

6 MR ROGER LEE: (Via interpreter) Let me add something here.

7 From this picture, we actually know -- well, actually,  
8 with regard to the coating, the anti-fog coating, there  
9 would be different problems because bus captains did not  
10 know there was this coating and they might remove it,  
11 and at the depot we had to rely on our staff to do the  
12 anti-fog coating, and the staff did not like it. Now,  
13 we have posted notices to say that some windscreens have  
14 had anti-fog coating painted on them.

15 And in the past, we have always been trying to  
16 research into new ways to deal with the condensation,  
17 and even in future, if we embed demisters within the  
18 windscreens, we would be the first in the whole wide  
19 world.

20 We have spent over a year with the manufacturers.  
21 As Mr Leung was saying, buses are very different from  
22 private cars. We have to do so much more.

23 MR PETER DUNCAN: Can I ask you, please, to turn to KMB-1 at  
24 page 98. You will see that this is the commencement of  
25 the report which was sent to the Commissioner for  
26

1 Transport on 12 March after the accident. I want to  
2 bring to your attention page 115 of the bundle.

3 At paragraph 46 is the question, this issue of  
4 condensation, addressed and communicated to the  
5 Transport Department. Is that where you can see that?

6 MR LEUNG KIN WANG: Yes.

7 MR PETER DUNCAN: The second sentence:

8 "Prior to the incident, for the sake of defogging,  
9 anti-fog coating would be applied to the windscreens of  
10 buses that were without hot air demisters. Having  
11 reviewed the mechanism, either hot air demisters or  
12 heated windscreens will be adopted, for more effective  
13 and faster dehumidification."

14 Does that statement recognise that before the  
15 incident, ie the accident on 10 February, the defogging  
16 provisions were not satisfactory?

17 MR LEUNG KIN WANG: Yes.

18 MR PETER DUNCAN: Can I ask you, please, to turn to the  
19 action plan, the first of the action plans, at page 151.

20 At item 20, is the matter of condensation addressed?

21 MR ROGER LEE: Yes.

22 MR PETER DUNCAN: Thank you. The second of the bullets  
23 indicates that the existing buses, as opposed to new  
24 buses, will be retrofitted with hot air demisters or  
25 heated windscreens by phase within the next 12 months.

26

1           So how far through this programme are you at the  
2           moment?

3       MR LEUNG KIN WANG: As I said, we have already started some  
4           of the retrofit and we are already ordering most of the  
5           components.

6       MR PETER DUNCAN: How many buses will require to be  
7           retrofitted?

8       MR LEUNG KIN WANG: (Via interpreter) A total of about  
9           2,700.

10      MR PETER DUNCAN: And how many have been done already?

11      MR LEUNG KIN WANG: Probably ten, as at today.

12      MR PETER DUNCAN: Is the union aware of this programme?

13      MR LEUNG KIN WANG: (Via interpreter) They do.

14      MR PETER DUNCAN: Are you aware of any disagreement between  
15           the company and the reason why presently with regard to  
16           this matter?

17      MR LEUNG KIN WANG: (Via interpreter) There is none.

18      MR PETER DUNCAN: Could I go back to the union submission,  
19           that's the KMB Employees Union submission, again at  
20           page 90-3 -- that's the translation -- in  
21           bundle TU-1(A).

22           In the paragraph which immediately follows that to  
23           which I referred previously, we have this information  
24           that the union has brought to the attention of the  
25           committee:

26

1 "Besides, the company altered the gear buttons  
2 installation for safety driving, cancelled the  
3 [overdrive] gear button and manual retarder  
4 installations and relies only on computer-controlled  
5 singular automatic D-gear to control vehicle speed ...  
6 Under emergent situation it is very dangerous for there  
7 to be no saving devices for the bus captains to use.  
8 For example (such as aeroplane, mass railway transit,  
9 Express Rail Link and cruises) all adopt computer  
10 navigation, but during emergency, manual operation mode  
11 is used to avoid danger. This is like all  
12 automatic-transmission private vehicles are equipped  
13 with ... [plus or minus] M gear ..."

14 There are references then to annexes 2 and 3 in the  
15 bundle, which one can find on pages 92, 92-1, 93, and  
16 93-1.

17 The representative of the union spoke of this during  
18 the hearing, during an earlier part of this hearing.  
19 The reference is Day 10, pages 13 to 18.

20 Have you had the opportunity of reading his  
21 evidence?

22 MR LEUNG KIN WANG: Yes.

23 MR PETER DUNCAN: Could I just ask, first of all, was there  
24 a time when there was what the document described as  
25 a manual retarder available to the captain?  
26

1 MR LEUNG KIN WANG: (Via interpreter) All buses are equipped  
2 with a retarder. All retarders are handled by the foot  
3 pedal in automatic mode. But for specific routes, we  
4 have manual retarders. Those running on Tai Mo Shan  
5 with long, steep slopes, they will use hand-retarders.  
6 All buses are equipped with retarders.

7 MR PETER DUNCAN: The written submission seems to imply that  
8 the manual retarder was cancelled. Is that correct?

9 MR LEUNG KIN WANG: (Via interpreter) It's not correct.

10 MR PETER DUNCAN: Let us have a look at what was said to the  
11 committee on Day 10. Bundle 4.

12 At page 13, line 6, Ms Wong says this:

13 "If I may go to the next issue which relates to the  
14 gear button installation."

15 She then refers to the section that I have just read  
16 out:

17 "... the company altered the gear buttons installing  
18 for safety driving, cancelled the O/D gear button and  
19 manual retarder installations and relies only on  
20 computer-controlled singular automatic D-gear to control  
21 vehicle speed ..."

22 Then further on, on page 14, line 25, the chairman  
23 brings Mr Kwok to this question:

24 "The specific question was: how does the removal of  
25 the manual retarder affect bus safety? Could you  
26

1 address that question."

2 And Mr Ivan Lee replies:

3 "In the system, there is a device that allows you to  
4 select. It includes a manual selection, automatic  
5 selection, and a third one is a combination of manual  
6 and automatic control."

7 Then at page 17, again the chairman intervenes and  
8 asks this question:

9 "Before you go on. Does it come to this, that the  
10 absence of a manual retarder removes from the bus driver  
11 a choice of how to retard the vehicle, and therefore it  
12 would be better to have it? Is that what it comes to?

13 Mr Ivan Lee: You can put it this way."

14 Mr Kwok at line 9:

15 "Let me answer. Manual retarder is very important,  
16 especially when it comes to going downhill."

17 Then at page 18, line 5.

18 "Without manual retarders we would use this system  
19 by controlling the gear instead of relying solely on the  
20 brake."

21 So there is no further information from the  
22 witnesses as to the cancellation -- direct evidence as  
23 to the cancellation of the manual retarder. It seems to  
24 be implicit in those replies that at some stage the  
25 manual retarder device has been cancelled. Do you know  
26

1           what he getting at here, Mr Leung?

2       MR LEUNG KIN WANG: (Via interpreter) Let me try to say  
3           this. We have not cancelled any retarder. If you may  
4           refer to appendix 2.

5       MR PETER DUNCAN: Of ...?

6       MR LEUNG KIN WANG: (Via interpreter) Annex 2 of the union  
7           submission.

8       CHAIRMAN: Yes?

9       MR LEUNG KIN WANG: (Via interpreter) If you take a look at  
10           the gear selector -- that's not a gear selector as such.  
11           That's a gear inhibitor. To limit the gear, you can  
12           engage, for old buses, we have this gear inhibitor. In  
13           2008, we switched to automatic gear, so there is no need  
14           to have this gear inhibitor anymore. The design of the  
15           gear inhibitor is that when you go up a slope, and the  
16           power is not sufficient, then the bus captain can choose  
17           not to go beyond number 2 gear or number 3 gear, because  
18           if you don't have the power to go up, you may have to --  
19           the gear would go up and then down, so that would be the  
20           selection allowed for the bus captain to ensure  
21           a smoother journey. That's the gear inhibitor. That  
22           would mean they would limit the gear from going up to  
23           a certain level.

24           If it's pressed when it goes down a slope, it will  
25           not drop from a higher gear to a lower gear instantly.

26

1       If you press number 2 gear and you are travelling at  
2       gear number 4, you will not drop to gear number 2, as in  
3       the case of a private car. So this gear inhibitor is  
4       not for the purpose of deceleration or slowing down the  
5       speed. We are talking about a very big bus with  
6       passengers, a number of passengers. So to ensure safety  
7       we have pneumatic decelerator. It's within the gearbox.  
8       It's in the annex. It's in every bus. This pneumatic  
9       device is operated like this. It's in the brake. What  
10      it requires is to press the brake lightly, to trigger  
11      the pneumatic braking, to slow down the vehicle. It's  
12      used by exerting -- it's operated through pneumatic  
13      transmission, and you would not damage the brake, and  
14      the brake lining would not be damaged. The brake is not  
15      subject to additional loading. It's a safety device.  
16      It has been a safety device, a standard safety device,  
17      on every bus for a long time, and it cannot be  
18      dismantled by us.

19       In 2008, when we adopted the automatic gear, there  
20      would be no need for this inhibitor. So it's D, N, R,  
21      the three buttons, and we don't have that gear inhibitor  
22      button anymore. So that's already the smart gearbox  
23      that we have adopted since 2008. And the gearbox would  
24      be able to tell whether the journey is uphill or  
25      downhill or whether the bus captain is stepping on the  
26

1           accelerator and also whether he's trying to accelerate  
2           or decelerate and to what extent, and a suitable gear  
3           would be automatically set or selected. If it's  
4           an uphill journey, the gearbox knows that and it would  
5           not allow the gear to go up a higher level, and the bus  
6           captain doesn't have to expend a lot of effort to try to  
7           reduce the gearing, and the bus captain can pay more  
8           attention to traffic conditions. That's the advantage  
9           of this smart system.

10           We have never dismantled any safety device on the  
11           buses, and we are here talking about standard  
12           installations or devices.

13       MR PETER DUNCAN: So are you aware of any issue at the  
14           moment with any of the unions with regard to the manual  
15           retarder system?

16       MR LEUNG KIN WANG: (Via interpreter) I repeat, we don't  
17           have manual retarder system now. And we haven't heard  
18           views on this subject from other unions.

19       MR PETER DUNCAN: There is one other matter raised by the  
20           unions with the committee which I wanted to give you the  
21           opportunity of commenting on. That is the number of  
22           routes that any one driver might be asked to travel on  
23           during the course of one shift.

24           The committee heard evidence from representatives of  
25           two unions who said that some drivers would be required  
26

1 to drive up to three routes in a day, and this was  
2 regarded as too much of an onus on the drivers.

3 First of all, are some drivers required to drive on  
4 three different routes in the course of one day's work?

5 MR PATRICK PANG: (Via interpreter) Mr Duncan, yes, that  
6 happens. So yes.

7 MR PETER DUNCAN: And the union takes the view that it's too  
8 much of an onus on the drivers. What is the company's  
9 position with regard to this?

10 MR PATRICK PANG: (Via interpreter) We have an internal  
11 guideline on this issue. In a day's work, a bus captain  
12 is not to be asked to drive on more than three different  
13 routes, and also our duty despatch staff know this. If  
14 individual bus captains say they may drive on three  
15 routes in a day -- well, it can happen. This is within  
16 the scope of our guidelines.

17 MR PETER DUNCAN: Have the unions raised with you the fact  
18 that the view is that three routes is too many?

19 MR PATRICK PANG: (Via interpreter) This really depends --  
20 well, if you are only talking about the unions, they  
21 have not really mentioned that three routes are too  
22 many. Very often, many bus captains are equipped to  
23 drive on a number of routes, but our guidelines are  
24 there to ensure that within any shift on a day, there  
25 will not be too much change, because they may have  
26

1           difficult remembering the stops.

2           But all the routes must be despatched to drivers  
3           only when they have been trained on those routes, but we  
4           don't want them to drive on too many routes because they  
5           have to remember the stops, and to a certain extent this  
6           may be difficult for them.

7   MR PETER DUNCAN:   Sorry, I don't quite understand your  
8           answer. I asked you whether any of the unions had  
9           complained three routes are too many, and your answer  
10          was "have not really mentioned". Either they have  
11          mentioned it or they haven't.

12   MR PATRICK PANG:   (Via interpreter) Individual bus captains,  
13          a minority of bus captains, mentioned that, that is  
14          a fact. So the company said that it should be three  
15          routes or fewer in any shift.

16   MR PETER DUNCAN:   Those who have mentioned to you that three  
17          routes is too many, is that a very large majority of --  
18          a large number of the bus drivers or is it a small  
19          number? Can you give the committee some idea of that?

20   CHAIRMAN:   I think Mr Pang has already said it was  
21          a minority, but can you give us an idea of the number  
22          you are describing?

23   MR PATRICK PANG:   (Via interpreter) At this moment, I cannot  
24          give you an exact figure, but we can go back and take  
25          a look. We can look at one particular day and -- we can

26

1 look at that.

2 DR JOHN CHAN: (Chinese words not interpreted).

3 CHAIRMAN: Thank you, Mr Chan.

4 MR PATRICK PANG: (Via interpreter) Sorry, Chairman, to my  
5 knowledge there are not many, as far as I know. As to  
6 how we can quantify it and what is regarded as  
7 a majority or what is regarded as a minority, but to my  
8 knowledge there are not too many.

9 CHAIRMAN: Thank you, Mr Duncan.

10 MR PETER DUNCAN: Mr Chairman, this would be a convenient  
11 time for the afternoon break, if it suits the Chairman.

12 CHAIRMAN: Yes, certainly.

13 Gentlemen, as we have done on previous days, we will  
14 take an afternoon break to give everyone a rest.  
15 15 minutes, please.

16 (3.49 pm)

17 (A short adjournment)

18 (4.04 pm)

19 CHAIRMAN: Yes, Mr Duncan.

20 MR PETER DUNCAN: Thank you, Mr Chairman.

21 Gentlemen, would you be good enough, please, to turn  
22 up TD-1 at page 477.

23 You should be looking at a copy of a letter from the  
24 Transport Department to the franchised bus operators,  
25 dated 7 June 2018, the date of course after the

26

1 committee was set up and commenced its deliberations.

2 Do you see that letter?

3 MR LEUNG KIN WANG: Yes.

4 MR PETER DUNCAN: Prior to receiving this letter which  
5 informs the receivers of the availability of digital  
6 road mapping, prior to receiving this letter dated  
7 7 June 2018, was KMB aware of this facility?

8 MR LEUNG KIN WANG: You mean geo-fencing?

9 MR PETER DUNCAN: Yes. Digital road mapping, rather.

10 MR LEUNG KIN WANG: (Via interpreter) Yes.

11 MR PETER DUNCAN: When did you first become aware that  
12 digital road mapping was accessible?

13 MR LEUNG KIN WANG: (Via interpreter) I thought you were  
14 talking about geo-fencing. The map was only  
15 available -- well, we only knew about the map after  
16 receiving this letter, 7 June.

17 MR PETER DUNCAN: Right --

18 CHAIRMAN: There are two matters here, are there not? It's  
19 a digital map but it also contains speed limit  
20 information, and that's the question: did you know that  
21 this was available before the letter of 7 June 2018?

22 MR LEUNG KIN WANG: No.

23 CHAIRMAN: Thank you.

24 MR PETER DUNCAN: In the second paragraph, the writer of the  
25 letter says that the speed limits managed by the

26

1 Transport Department in the geographical information  
2 system format is "already available", do you see that,  
3 "already available"?

4 MR LEUNG KIN WANG: Yes.

5 MR PETER DUNCAN: Do you know now when that information  
6 actually became available?

7 MR LEUNG KIN WANG: (Via interpreter) We have since talked  
8 to our suppliers, and we have tried to access the  
9 information through the data set. We have to deal with  
10 the format in some way, but we are in the process of  
11 accessing the information.

12 CHAIRMAN: No. The question is simply this: do you know at  
13 what date the information was available? Because it's  
14 said to be "already available". Do you know now when it  
15 was available?

16 MR LEUNG KIN WANG: I only learn from this letter.

17 CHAIRMAN: No, I appreciate that. You have been given the  
18 good news that there is a digital map of Hong Kong and  
19 it's got speed limits on it, and you can redeploy your  
20 37 people who are involved in tracking this information.

21 Did you then find out when it was that this was  
22 first available?

23 MR LEUNG KIN WANG: (Via interpreter) I don't quite get the  
24 question.

25 DR JOHN CHAN: (Via interpreter) We know that it's  
26

1           available; not when we knew about this, when it was  
2           available.

3       MR LEUNG KIN WANG:   (Via interpreter) It was available for  
4           a long time.

5       CHAIRMAN:   That's what I'm trying to find out, and that's  
6           what Mr Duncan is asking you.   It's been available for  
7           quite a long time.   Do you know when it was -- not  
8           "quite", it was available for a long time.   Do you know  
9           when it first became available?

10      MR LEUNG KIN WANG:   I don't know.

11      CHAIRMAN:   What did you mean when you said it was available  
12           for a long time?   What's the time period?

13      MR LEUNG KIN WANG:   Sorry about the confusion.   I was not  
14           aware that the government is releasing this information  
15           to us freely.

16      CHAIRMAN:   No, we understand this, but having -- as I've  
17           tried to put it -- received the good news that this  
18           digital map with speed limits is available, have you  
19           troubled to find out for how long it has been available,  
20           for how many years, for example?

21      MR LEUNG KIN WANG:   I think our IT department is able to get  
22           one last year, so I know this exists.

23      CHAIRMAN:   Are you suggesting that they didn't tell you  
24           about it?

25      MR LEUNG KIN WANG:   You mean TD?  
26

1 CHAIRMAN: Yes. No, your IT department, "I think our IT  
2 department was able to get one last year".

3 MR LEUNG KIN WANG: But that is not a live map. I know  
4 that --

5 CHAIRMAN: Mr Leung, they are very simple questions. You  
6 are being told by this letter that there is a digital  
7 map available and it has a function which allows you to  
8 know speed limits, and the question is, subsequently,  
9 have you found out how long this has been available?

10 "How long have we been missing out on this device?"

11 Have you troubled to find that out?

12 DR JOHN CHAN: Sorry, Mr Chairman.

13 (Via interpreter) Not when we were told by the  
14 government about it but when was it available first on  
15 the part of the government?

16 MR LEUNG KIN WANG: (Via interpreter) Sorry about this. The  
17 answer is I don't know.

18 MR ROGER LEE: (Via interpreter) GIS, that is something in  
19 the last couple of years. The geographical information  
20 system has been around for a long time on the part of  
21 the government.

22 CHAIRMAN: Thank you.

23 Yes, Mr Duncan.

24 MR PETER DUNCAN: Prior to the receipt of the letter of  
25 7 June, had the company made any enquiries of the  
26

1 government to ascertain whether this digital mapping  
2 system was available?

3 MR LEUNG KIN WANG: No.

4 CHAIRMAN: Are you aware that, for example, in London,  
5 a digital map with speed limits on has been available  
6 since at least 2008-9; are you aware of that?

7 MR LEUNG KIN WANG: No.

8 CHAIRMAN: Yes, Mr Duncan.

9 MR PETER DUNCAN: Thank you, Chairman.

10 If you could look, please, at KMB-1 at page 279.  
11 Perhaps we should start with page 235, just to see what  
12 this document is. You can see there your letter of  
13 8 August, which is addressed to the committee, and  
14 addresses items 1, 3, 6 and a poster plus a circular  
15 under item 4. It's the second paragraph of the letter.  
16 Do you see that?

17 DR NORMAN LEUNG: Yes.

18 MR LEUNG KIN WANG: Yes.

19 MR PETER DUNCAN: Then if we try to find out what item 6 is,  
20 we have to go back one page to the annex to the  
21 committee's letter of 8 August. We see there, it's:

22 "Copies of the documentation that describe and  
23 evidence the steps taken, including the involvement of  
24 Openmatics, to enable data to be obtained in real-time  
25 to distinguish between speeding in speed limits of  
26

1           50 kilometres per hour and speeding in speed limits of  
2           70 kilometres per hour and the documents describing and  
3           evidencing the results of those tests ..."

4           You kindly then provided an amount of information,  
5           and that which I am interested in is at page 279,  
6           item 6.

7           If I could bring your attention there to paragraphs  
8           under the heading "Works undertaken":

9           "A number of initiatives have [been] carried out to  
10          improve the above.

11          Openmatics has manually defined 50 ... and 70  
12          [kilometre per hour] zonings (please refer to annex).  
13          KMB had started a conceptual trial on 31 July 2008 by  
14          comparing the above speed limits with the actual speed.  
15          Such [speed] is to verify whether the real-time on-board  
16          speed alert would notify the bus captains upon the  
17          actual speed of the trial bus exceeds the speed limit of  
18          the road. The result of the initial trial is so far  
19          positive. Further testing will be carried out. We are  
20          prepared to introduce the government's digital map into  
21          the Openmatics black box, which will take three to four  
22          months. However, the government's digital map does not  
23          contain live information, and can only be updated every  
24          6 months."

25          The question is, what deficiencies do you regard  
26

1           there as being with regard to what you have identified  
2           in the last sentence, "The government's digital map does  
3           not contain live information, and can only be updated  
4           every 6 months"; what's the problem there?

5       MR ROGER LEE:   (Via interpreter) By "live information", it  
6           means if there is a road situation which may affect the  
7           speed to be used, the information should be sent to the  
8           digital map. This is what we mean by "live  
9           information". Say, for example, tonight a tunnel will  
10          be closed, and another tunnel, there would be just one  
11          tube for both directions, then the speed would have to  
12          be reduced, and within a very short time the map should  
13          tell us the new speed limit in a tunnel.

14               But right now the digital map is updated only every  
15               six months. In other words, if the time period is  
16               shortened, it will become more like a live situation.

17       CHAIRMAN: Is that accurate, that it is updated every six  
18               months, or is that what it says on the website?

19       MR LEUNG KIN WANG:   (Via interpreter) We discussed this with  
20               government officials. We hope we can be given a live  
21               map. But so far, it is still only updated every six  
22               months, and they only update the permanent road speeds.

23       CHAIRMAN: With whom did you have this conversation?

24       MR LEUNG KIN WANG: This is an email message between our  
25               staff and TD.

1 CHAIRMAN: Do you have that with you?

2 MR LEUNG KIN WANG: Yes, I bring it with me.

3 MR ROGER LEE: August 8.

4 CHAIRMAN: Can you provide a copy of it to us?

5 MR LEUNG KIN WANG: Yes.

6 CHAIRMAN: Can you do it now? We can copy it -- it's not  
7 marked, is it? Thank you very much.

8 Can we have multiple copies.

9 You were answering my question when I interrupted  
10 you. With whom did you have the conversation? Perhaps,  
11 now the document has been taken away from you, you can't  
12 answer.

13 MR LEUNG KIN WANG: It was an email to the TD engineer, my  
14 email to Mr Danny Chan.

15 MR PETER DUNCAN: We will find out when we get it.

16 Prof Lo, please.

17 MEMBER LO: It seems to me the speed limit will not change  
18 every day. Once in a while, certain segments will  
19 change speed limit, maybe construction sites, maybe  
20 certain kinds of scenario. So it's not going to change  
21 every day; is that correct?

22 MR LEUNG KIN WANG: Depending on the road conditions,  
23 because sometimes you have a temporary construction  
24 site.

25 MR ROGER LEE: Accident.

26

1 MR LEUNG KIN WANG: So you may have some shortened.

2 CHAIRMAN: But these are all gazetted, are they not,  
3 government gazette?

4 Well, let's approach this step by step. There is  
5 a system, is there not, so that speed limits can be  
6 changed legally, and that involves the government  
7 posting gazettes, saying such and such a section of  
8 road, the speed limit which is 70 will change for the  
9 next three months and become 50? Are you familiar with  
10 that system?

11 MR ROGER LEE: Yes, I do.

12 CHAIRMAN: And that system of gazettes deals with both  
13 changes for months, or some of them are even for a year,  
14 and it also deals with short-term changes?

15 MR ROGER LEE: Yes.

16 CHAIRMAN: Sometimes it deals with changes that are for  
17 a certain hours of the day for a few days or a month?

18 MR LEUNG KIN WANG: Yes.

19 MR ROGER LEE: Like tunnel or accident.

20 CHAIRMAN: So what I am asking you about, these are all  
21 gazetted, are you saying there is another system of  
22 changing speed limits legally that are not gazetted?

23 You are not saying that? So they are all gazetted.

24 If one looks back at the 2018 gazettes, I think you  
25 will find there are 22 gazettes that deal with this  
26

1 issue. Some of them are temporary and some of them are  
2 long term.

3 Perhaps we had better wait for the document.

4 Mr Duncan, are there some other matters you can deal  
5 with?

6 MR PETER DUNCAN: I was simply going to ask whether the  
7 Transport Department has yet responded to your email.

8 MR LEUNG KIN WANG: The TD hasn't replied to last reply yet.

9 CHAIRMAN: Well, don't hold your breath.

10 MR PETER DUNCAN: I'm going to turn now to a number of the  
11 technology devices that have been referred to in the  
12 submissions to the committee, possible technology  
13 devices which are available and which relate to safety  
14 matters.

15 Could I start, please, by asking you to look at  
16 KMB-1, page 114. This is an extract from the report  
17 sent to the Transport Department on 12 March, and on  
18 this page we see part 5, "Other measures to enhance bus  
19 safety", and what I wish to bring to your attention is  
20 paragraph 43, which is under the heading of "Tilt  
21 alarm". What is contained under that heading is the  
22 following:

23 "A tilt alarm will be installed on every bus on the  
24 entire fleet. Upon reaching a specific inclination, the  
25 alarm will be triggered to alert the driver."

26

1 Do you see that entry?

2 MR LEUNG KIN WANG: Yes.

3 MR PETER DUNCAN: Thank you.

4 We heard on Tuesday -- in fact, we saw the statement  
5 of Mr Kulis that the black box that was supplied by  
6 Openmatics contained a provision for a tilt parameter.  
7 Do you remember that?

8 MR LEUNG KIN WANG: Yes.

9 MR PETER DUNCAN: And I think it was you, Mr Leung, who  
10 explained on Tuesday that the company did not provide  
11 any value for this parameter because you could not  
12 identify any particular reference values. Do you  
13 remember saying that?

14 MR LEUNG KIN WANG: Yes, I did.

15 MR PETER DUNCAN: Can we go back to page 114, that  
16 paragraph 43. Would it be fair to say that that  
17 statement was made in reaction to what had happened to  
18 the bus involved in the Tai Po incident?

19 MR LEUNG KIN WANG: This is after the incident.

20 MR PETER DUNCAN: Yes. Was it a reaction to it, because  
21 that bus had in fact tilted and it in fact overturned?

22 MR LEUNG KIN WANG: This is the recommendation of the  
23 committee, so this is after the incident.

24 MR PETER DUNCAN: Well, this was very shortly after the  
25 incident, wasn't it?

26

1 DR NORMAN LEUNG: Yes.

2 MR PETER DUNCAN: 12 March.

3 DR NORMAN LEUNG: Yes.

4 MR PETER DUNCAN: What do you mean by "the committee"?

5 DR NORMAN LEUNG: The special committee of the board of KMB.

6 MR PETER DUNCAN: Thank you.

7 If you could then go, please, to page 150.

8 CHAIRMAN: Before you move on, the context in which this  
9 statement is made at paragraph 43 is paragraph 39, under  
10 the heading, "Other measures to enhance bus safety",  
11 specifically this, the last three lines:

12 "The special committee has considered these issues,  
13 in consultation with KMB's bus suppliers, and made  
14 various recommendations which KMB's management will be  
15 implementing or further examining."

16 That's the context, is it?

17 MR LEUNG KIN WANG: That's the context.

18 (Via interpreter) With regard to the tilt alarm and  
19 the tilt angle, we would decide on the angle. Before  
20 that, we did not know how to do it. Together with ADL  
21 and Volvo, we discussed this, and their advice was that  
22 they could not give us any specific recommendation.  
23 They could not recommend any particular tilt angle.  
24 Their recommendation was that it would be difficult to  
25 decide on an angle, because if the angle was too narrow

26

1           it would not be meaningful, and the bus captains would  
2           be receiving a lot of misleading information, and if the  
3           angle is too broad, it may be dangerous and the bus  
4           captains will either steer the bus or apply the brake.

5           Therefore, ADL and Volvo both did not recommend  
6           a tilt angle. Rather, they proposed to deal with this  
7           with ESP or ESC, in order to deal with this matter of  
8           tilting, and in fact we could not take reference from  
9           other countries. We could not find any relevant tilt  
10          angle for reference.

11       CHAIRMAN: Did you raise this with Openmatics, since it is  
12          in their equipment, whether or not it is used anywhere?

13       MR LEUNG KIN WANG: We did, we did.

14       CHAIRMAN: What was their response?

15       MR LEUNG KIN WANG: There isn't any relevant -- they didn't  
16          recommend anything for us.

17       CHAIRMAN: Did they indicate to you whether or not they knew  
18          that this alert was used by anybody?

19       MR LEUNG KIN WANG: Not any double-decker that is relevant  
20          to us, no.

21       CHAIRMAN: By that, is it to be inferred it is used by  
22          vehicles other than double-decker vehicles? Is that  
23          what you are saying?

24       MR LEUNG KIN WANG: They are referring to some coaches,  
25          presumably.

26

1 CHAIRMAN: So it is used on coaches; is that what Openmatics  
2 told you?

3 MR LEUNG KIN WANG: Not exactly. We asked them any relevant  
4 double-decker for reference. They didn't -- they come  
5 up with a figure but that presumably is not  
6 double-decker, so we still awaiting for their  
7 confirmation but it is not double-decker.

8 CHAIRMAN: Was this done in writing?

9 MR LEUNG KIN WANG: Yes, in writing.

10 CHAIRMAN: Are you in a position to provide us with copies  
11 of this exchange?

12 MR LEUNG KIN WANG: Yes, I try to, yes.

13 CHAIRMAN: When was this done, approximately?

14 MR LEUNG KIN WANG: One or two weeks ago.

15 CHAIRMAN: Thank you. So please provide the exchange of  
16 correspondence that addresses this issue.

17 MR PETER DUNCAN: Mr Leung, having regard to what you have  
18 just said, if I can go back to page 114, the statement  
19 at paragraph 43 seems to be quite unequivocal:

20 "A tilt alarm will be installed on every bus of the  
21 entire fleet. Upon reaching a specific inclination, the  
22 alarm will be triggered to alert the driver."

23 Was that in fact the resolution of the company at  
24 this point, 12 February 2018?

25 CHAIRMAN: Well, it's 12 March I think when this report was  
26

1           made. The accident was on 10 February.

2           MR PETER DUNCAN: 12 March, I beg your pardon, yes.

3                   There's a positive statement there at paragraph 43  
4           that the company will install a tilt alarm on every bus  
5           in the entire fleet.

6           MR LEUNG KIN WANG: (Via interpreter) That should be in the  
7           black box, and we are talking about triggering the  
8           alarm, the one in the black box, not that we would  
9           install another alarm, another tilt alarm.

10          CHAIRMAN: No, that's understood, but perhaps if one stands  
11          back, this was a recommendation from the special  
12          committee. It was recommended that:

13                   "A tilt alarm will be installed on every bus of the  
14          ... fleet. Upon reaching a specific inclination, the  
15          alarm will be triggered to alert the driver."

16                   Now, that's 12 March. Since then, you have carried  
17          this forward, from what you have said. You have spoken  
18          to ADL and Volvo and you have spoken to Openmatics.

19          MR LEUNG KIN WANG: Right.

20          CHAIRMAN: So what is the result of that? Just summarise it  
21          because I think I understand what the result is.

22          MR LEUNG KIN WANG: Volvo, ADL --

23          CHAIRMAN: There is no need to go through the details. What  
24          is the end result?

25          MR LEUNG KIN WANG: (Via interpreter) There is no suitable  
26

1 angle. They cannot specify any particular angle.

2 CHAIRMAN: So is the result this, that although this is  
3 a recommendation of the special committee, it's not one  
4 that you are able to enforce or put into practice?

5 MR LEUNG KIN WANG: That's correct. Thank you very much.

6 MR PETER DUNCAN: So if we look at the second action plan,  
7 at page 231 of the same bundle -- this is the action  
8 plan provided to the committee on 6 August -- have you  
9 summarised in writing what you have just told the  
10 chairman --

11 MR LEUNG KIN WANG: Yes.

12 MR PETER DUNCAN: -- in the right-hand column on that page?

13 MR LEUNG KIN WANG: Yes.

14 MR PETER DUNCAN: So the upshot is there will in fact be no  
15 tilt alarm; is that correct?

16 MR LEUNG KIN WANG: That's correct.

17 MR PETER DUNCAN: Now, you mentioned in the course of those  
18 remarks the electronic stability control system.

19 Could you go, please, to page 114 of KMB-1. Do we  
20 see there what was contained in the report to the  
21 Transport Department on 12 March, and to put into proper  
22 context it was said that the special committee had  
23 considered the issues which had been described in  
24 consultation with the bus suppliers and it made various  
25 recommendations with KMB's management will be  
26

1 implementing or further examining.

2 There is then reference at paragraph 41 to the  
3 electronic stability control system, and it is described  
4 as follows:

5 "[It is] an important safety feature available for  
6 buses. It is a mandatory safety feature on coaches in  
7 Europe. ESP reduces the risk of skidding and rolling  
8 over. Installation of ESP in Euro V and Euro VI buses  
9 is under testing and verification with the suppliers.  
10 Upon confirmation by the suppliers, ESP will be  
11 installed in the entire fleet phase by phase."

12 Now can I ask this question: prior to the incident,  
13 had the company considered the application of this  
14 system?

15 MR ROGER LEE: Yes.

16 MR PETER DUNCAN: When did it first consider the application  
17 of the electronic stability programme?

18 MR ROGER LEE: (Via interpreter) It is between 2014 and  
19 2015. We tried to approach a German company, MAN, they  
20 had this ESP programme. In 2016 we purchased 20 buses  
21 with ESP system. We used them on the road. 21  
22 altogether, 21 buses altogether.

23 CHAIRMAN: From MAN?

24 MR ROGER LEE: Yes.

25 MR LEUNG KIN WANG: Double-decker.

26

1 MR PETER DUNCAN: So these had been in use for some time  
2 prior to the accident on 10 February?

3 MR ROGER LEE: Correct.

4 MR PETER DUNCAN: Had any decision been made by the company  
5 as to whether the use of this system should be extended  
6 beyond that's MAN buses?

7 MR ROGER LEE: Yes.

8 MR PETER DUNCAN: What was that decision?

9 MR ROGER LEE: (Via interpreter) All new buses that we are  
10 going to purchase, all Euro VI new buses will be  
11 equipped with ESP.

12 CHAIRMAN: But when was that decision made?

13 MR LEUNG KIN WANG: (Via interpreter) Volvo and ADL, we need  
14 some time. We have to talk to them further as to when  
15 these will be available. So those buses will be  
16 available after that happen.

17 DR NORMAN LEUNG: Mr Chairman, if I may, this was actually  
18 reported in the updated action plan as of 1 August 2018.

19 CHAIRMAN: Can you give us the page reference? 235,  
20 something like that?

21 MR PATRICK PANG: 230, should be.

22 CHAIRMAN: Yes. Thank you.

23 I think the context of Mr Duncan's question was  
24 this. From 2016, you had 21 buses, double-decker buses,  
25 supplied by MAN which had ESC. Had you made any  
26

1 decision whether or not to go ahead with installing ESC  
2 on new buses prior to the Tai Po accident?

3 I see you are shaking your head, Mr Leung.

4 MR ROGER LEE: (Via interpreter) Well, it was still on  
5 trial. We wanted to get more data. We only had 21  
6 buses at that time. But we found out that ESP could  
7 help us in preventing skidding and rolling over, so we  
8 wanted to speed up the programme.

9 CHAIRMAN: So the decision to act in the way that is set out  
10 at page 230 of KMB-1 is a consequence of, firstly, the  
11 10 February accident and, secondly, the investigation of  
12 the special committee, and thirdly its recommendation?

13 MR ROGER LEE: Yes.

14 CHAIRMAN: Thank you.

15 MR PETER DUNCAN: Could you describe the current position  
16 then with regard to the retrofitting of the ESP  
17 programme? It is said on page 114 that:

18 "Upon confirmation by the suppliers, ESP will be  
19 installed in the entire fleet phase by phase."

20 Have you received any confirmation by suppliers that  
21 this is feasible?

22 MR LEUNG KIN WANG: (Via interpreter) They are still  
23 developing their own equipment. The new buses will  
24 arrive in 2019 and these will be equipped with this  
25 system then the next step will be for the retrofitting  
26

1 of the same device or system to our existing buses.

2 The initial response is positive; the initial  
3 indication is positive.

4 MR ROGER LEE: (Via interpreter) For Volvo it's 18 to 24,  
5 but for ADL, we don't have a timetable for the  
6 retrofitting programme.

7 MR PETER DUNCAN: Have ADL indicated whether it is feasible?

8 MR LEUNG KIN WANG: (Via interpreter) Yes. It can be done.  
9 It can be retrofitted.

10 MR PETER DUNCAN: So does that then cover the entire fleet  
11 by referring to --

12 MR LEUNG KIN WANG: (Via interpreter) We are restricted to  
13 Euro V buses.

14 MR ROGER LEE: (Via interpreter) Pre Euro V vehicles, there  
15 is no electronic braking system.

16 MR PETER DUNCAN: So does that mean some of the fleet will  
17 not have this system?

18 MR LEUNG KIN WANG: Correct.

19 MR PETER DUNCAN: What numbers?

20 MR LEUNG KIN WANG: (Via interpreter) Euro V or newer buses  
21 account for more than half of our fleet.

22 CHAIRMAN: So just under or some figure under half will not  
23 have this fitted --

24 MR LEUNG KIN WANG: Correct.

25 CHAIRMAN: -- when retrofitting has been complete?  
26

1 MR LEUNG KIN WANG: Yes.

2 MR PETER DUNCAN: Is that correct?

3 MR LEUNG KIN WANG: That is correct.

4 MR PETER DUNCAN: Just to complete the picture on this,  
5 could we go to TD-404 again, please.

6 CHAIRMAN: Which bundle is that in?

7 MR PETER DUNCAN: TD, I beg your pardon, TD-1.

8 Has the working group recommended that all  
9 franchised bus operators, in paragraph 4, have committed  
10 that all new double-deck buses procured from July 2018  
11 onwards will be incorporated with that device, the  
12 electronic stability control device?

13 MR LEUNG KIN WANG: Yes.

14 MR PETER DUNCAN: And does that contain, in paragraph (a),  
15 a description, full description, of the nature of that  
16 device?

17 MR LEUNG KIN WANG: (Via interpreter) For KMB, all new buses  
18 starting from 1 January 2019 will be fitted with this.

19 MR PETER DUNCAN: While we are on page 404, do you see the  
20 reference in paragraph (b) to "'Retarders for capping  
21 the maximum speed of the speed limiters on downhill  
22 ('speed limiting retarder')"? Do you see that  
23 reference?

24 MR LEUNG KIN WANG: Yes.

25 MR PETER DUNCAN: Could I ask you just to keep that open,  
26

1 but to refer again to the report to the Transport  
2 Department after the accident, at page 115, please.

3 CHAIRMAN: Of KMB-1?

4 MR PETER DUNCAN: KMB-1, yes.

5 Can you read paragraph 45 to yourself, please.

6 MR LEUNG KIN WANG: Yes.

7 MR PETER DUNCAN: Does it finish by saying this?

8 "A retarder is a hydraulic system that slows down  
9 the gearbox. Speed limitation systems could be offered  
10 on new buses after a period of engineering and testing."

11 Who supplies these sorts of devices?

12 MR LEUNG KIN WANG: The bus manufacturer.

13 MR PETER DUNCAN: How long have they been available?

14 MR LEUNG KIN WANG: They will become available on our new  
15 buses for ADL in early next year.

16 CHAIRMAN: I think Mr Duncan's question is more general than  
17 that. How long have they been available to buy or fit,  
18 purchase?

19 MR LEUNG KIN WANG: Not at the moment.

20 MR PETER DUNCAN: Let me ask it -- I haven't made myself  
21 clear, I'm sorry -- were these devices available prior  
22 to the Tai Po accident?

23 MR LEUNG KIN WANG: No.

24 MR ROGER LEE: No.

25 MR PETER DUNCAN: When did they become first available?

26

1 MR LEUNG KIN WANG: They will become available.

2 MR ROGER LEE: Maybe the first one in KMB.

3 CHAIRMAN: They are not available elsewhere in the world?

4 MR LEUNG KIN WANG: For double-decker, no. I'm not sure.

5 I'm not sure.

6 CHAIRMAN: By all means be cautious.

7 MR LEUNG KIN WANG: I'm not sure.

8 MR PETER DUNCAN: Let's go back to square one. Before the  
9 accident, were you aware of the existence of these  
10 device?

11 MR LEUNG KIN WANG: We did, we did, but not with ADL. We  
12 did go to Wrightbus, we did go to Belfast, we did go to  
13 Queen's University to talk about a lot of new features,  
14 safety features. Yes, we know this technology. We know  
15 this technology, especially on vehicles.

16 CHAIRMAN: Are you saying that this was a technology that  
17 was offered on Wrightbuses?

18 MR LEUNG KIN WANG: Not at that moment.

19 MR ROGER LEE: (Via interpreter) Actually, after the  
20 accident, we talked to ADL and Volvo in order to explore  
21 whether retarders can be fitted onto buses. At that  
22 time they spent some time to think about the possibility  
23 and we can only say this, because it was not readily  
24 available.

25 CHAIRMAN: Yes, Mr Duncan.

26

1 MR PETER DUNCAN: Presumably, before the incident, before  
2 February this year, you would have been aware of the  
3 fact that the retarder mechanism that you had to keep  
4 buses below 70 would not be effective on a downhill  
5 slope; you must have known that? Would that be correct?

6 MR LEUNG KIN WANG: Yes.

7 CHAIRMAN: Because that system simply works by starving the  
8 engine of fuel, doesn't it, reducing the amount of fuel?

9 MR LEUNG KIN WANG: Correct.

10 MR PETER DUNCAN: So given that you were aware that the  
11 system did not retard a bus going in excess of 70  
12 downhill, had you before the incident made any enquiries  
13 into whether there was available in the market any  
14 device which would offer assistance in that respect?

15 MR LEUNG KIN WANG: (Via interpreter) There should have been  
16 but I don't know where we mentioned this.

17 If the buses use hand-retarders, this can be done.

18 The speed going downhill can be limited.

19 MR PETER DUNCAN: That's not quite the question. Had you  
20 considered with the bus manufacturers before the  
21 incident anything in the nature of what you discovered  
22 since the incident with regard to inhibiting the speed  
23 downhill?

24 MR LEUNG KIN WANG: (Via interpreter) Not that, from my  
25 memory, nothing.

26

1 DR JOHN CHAN: May I try to explain what is a slightly  
2 technical question. We had referred earlier to a system  
3 of hand-retarders on certain bus routes coming down  
4 Hiram's Highway, because it is particularly steep. In  
5 the context of Mr Duncan's question, yes, those buses  
6 and those hand-retarders had been in use for a long time  
7 before the Tai Po accident. So to that extent, yes, we  
8 knew.

9 But this particular type of speed retarder that we  
10 are talking about here, that's something that has  
11 occurred to us only since, after the February accident.

12 MR PETER DUNCAN: Thank you, I understand.

13 CHAIRMAN: By that you mean the hydraulic system?

14 DR JOHN CHAN: Yes.

15 MR PETER DUNCAN: Can we go to the action plan, please, the  
16 first action plan, to understand the situation here.  
17 I think this can be found at page 150.

18 Is that the reference, "Speed limitation -- speed  
19 limitation system which will automatically activate the  
20 brakes to slow down the gearbox should be installed on  
21 new buses after a period of engineering and testing"?

22 MR LEUNG KIN WANG: Yes.

23 MR PETER DUNCAN: And the action plan as at 10 April:

24 "Both ADL and Volvo are studying how this system  
25 could be implemented on new bus. Feasibility will be  
26

1 updated in due course."

2 Then if we follow this through to action plan no. 2,  
3 item 19.

4 CHAIRMAN: Which page?

5 MR PETER DUNCAN: This will be at page 232, Mr Chairman.

6 CHAIRMAN: Thank you.

7 MR PETER DUNCAN: We are informed that:

8 "ADL's Euro VI new buses will come with this  
9 feature. Volvo will have this feature available in July  
10 2019 and their Euro VI new buses delivered before this  
11 time will have the feature retrofitted."

12 Does that cover all the new buses that you will be  
13 acquiring in the future, just ADL and Volvo?

14 MR LEUNG KIN WANG: Yes, all new Euro VI buses.

15 MR PETER DUNCAN: So are you going to be acquiring new buses  
16 apart from Euro VI buses?

17 MR ROGER LEE: All the new buses will be Euro VI.

18 MR PETER DUNCAN: And they will be restricted to ADL and  
19 Volvo, will they?

20 MR ROGER LEE: So far, only these two manufacturers.

21 MR PETER DUNCAN: If we go back to the working group's  
22 recommendations, are we able to see those in detail at  
23 TD-1, pages 404 and 405?

24 Do you see those entries?

25 MR LEUNG KIN WANG: Yes.

26

1 MR PETER DUNCAN: With regard to retrofitting, you will  
2 notice that the working group recommends that the  
3 operators and the bus manufacturers start the  
4 development of these two add-on devices for existing  
5 buses with a working target to commence the tests of the  
6 devices and trials of the retrofitting work in about 12  
7 to 18 months. That's the second half of 2019.

8 Could you just confirm for us, please, what the  
9 company's intentions are with regard to retrofitting  
10 with regard to this device?

11 MR LEUNG KIN WANG: (Via interpreter) We will do it.

12 MR PETER DUNCAN: And will you do that in accordance with  
13 the working group's recommendations?

14 MR LEUNG KIN WANG: (Via interpreter) We will do that  
15 accordingly.

16 MR PETER DUNCAN: I would now like to move to the next  
17 device referred to by the working group. This is under  
18 the heading of page 405 of "Trials of new safety  
19 technology".

20 If I could just introduce this by reading the  
21 introductory paragraph:

22 "In order to enable the [franchised bus] operators  
23 to step up their management and control of their bus  
24 fleet, and reduce the potential risks arising from human  
25 errors or effect of unsafe driving behaviour, the  
26

1 [working group] considered that new safety technology  
2 which can assist the [franchised bus] operators in  
3 monitoring and controlling bus safety should be actively  
4 explored. Generally, the [franchised bus] operators  
5 have committed to further exploring sources of supply of  
6 various latest safety devices/technology and launch  
7 trials with a view to establishing the technical  
8 feasibility and cost-effectiveness of their application  
9 in [franchised buses]".

10 The first matter to which the working group has  
11 referred is what is described as the "bus monitoring and  
12 control system". Could I just read out, please, what  
13 this is said to contain:

14 "In view of the latest technological development in  
15 bus fleet management system and black box with functions  
16 on real-time fleet supervision, bus speed recording,  
17 Global Positioning System ... location recording,  
18 et cetera, the [working group] considered that it should  
19 be a medium-term goal for [franchised bus] operators to  
20 develop a comprehensive BMCS with positioning function,  
21 operational information monitoring function, and  
22 variable speed limiting function with geo-fencing  
23 technology. In brief, by making use of GPS or other  
24 positioning technologies, the system will match the  
25 legal speed limit at the actual bus location. This  
26

1 real-time speed limit information can then be used to  
2 control the enhanced speed limiter (ie speed limiter  
3 with 2 speed settings). In other words, the bus speed  
4 could be controlled or limited within the applicable  
5 speed limits (50 [kilometre per hour] or 70 [kilometre  
6 per hour] depending on the road section). The system  
7 will also enable the [franchised bus] operators to  
8 monitor their bus fleet more closely and to take  
9 appropriate management action against overspeeding and  
10 other unsafe or improper driving behaviour such as heavy  
11 braking or inappropriate speed during cornering or  
12 downhill. To this end, [franchised bus] operators have  
13 agreed to proceed with developing the system and  
14 conducting trials in two phases ....

15 (i) Phase 1: a BMCS with positioning function,  
16 operational information (such as vehicle speed, brake  
17 status, deceleration, et cetera) monitoring function and  
18 geo-fencing technology for fleet management will be put  
19 on trial to achieve detection of speeding and provide  
20 real-time alert to the bus captains; and

21 (ii) Phase 2: Subject to the successful development  
22 of the phase 1 trial, the BMCS so developed will be  
23 incorporated with additional application of enhanced  
24 speed limiter being developed by bus manufacturers so as  
25 to limit the bus speed in accordance with the  
26

1           corresponding speed limit of various road sections."

2           If we go there to the company's action plan --

3       CHAIRMAN: Before you do that, Mr Duncan, may I interrupt --

4           and this is a question for you, Mr Leung.

5           If you go back to page 402, where the Transport  
6       Department provided the committee with information  
7       relating to progress of the working group's meetings,  
8       you will see that in the final two lines it says that:

9           "... the report of the working group will be  
10       provided the soonest possible for the committee's  
11       reference."

12          Now, this letter is dated 19 July. You are a member  
13       of the working group. When might we expect to receive  
14       the working group's report?

15       MR LEUNG KIN WANG: (Via interpreter) I haven't received it.

16       CHAIRMAN: I appreciate that. Can you help us as to when we  
17       might all expect to receive it?

18       MR LEUNG KIN WANG: (Via interpreter) The working group is  
19       still in session.

20       CHAIRMAN: I understand that. It's obviously gone over the  
21       time that we were told by the Commissioner for Transport  
22       was to be its reporting time, when she gave evidence in  
23       May, but I'm trying to get some indication from you, as  
24       a member of the group, nothing more than that, when we  
25       might expect to receive the report.

26

1 MR LEUNG KIN WANG: (Via interpreter) There are minutes of  
2 meeting, and all I've got are the minutes of meetings.

3 CHAIRMAN: You misunderstand me. At the end of the day, the  
4 working group is going to produce a report. When might  
5 we expect to get the report?

6 MR LEUNG KIN WANG: (Via interpreter) I have to ask the  
7 chairman of the working group.

8 CHAIRMAN: I understand that, but you are a member of it.  
9 Are you close to the end? Is it about to be signed off  
10 or not?

11 MR LEUNG KIN WANG: I think it's close to the end.

12 CHAIRMAN: Thank you.

13 Sorry, Mr Duncan.

14 MR PETER DUNCAN: That's perfectly in order, Mr Chairman.

15 Is it proposed to have any more meetings of the  
16 working group, or has the working group fulfilled its  
17 function?

18 MR GODWIN SO: (Via interpreter) According to the agenda,  
19 there have been three general meetings on training and  
20 fleet management. We have made some progress. We  
21 expect a report to be written up. And there will be  
22 a fourth meeting. The agenda will be on bus training  
23 and the monitoring mechanism of bus captain training.  
24 It will be convened in mid-September.

25 CHAIRMAN: Thank you.

26

1 MR PETER DUNCAN: Thank you. Let us go to the action plan,  
2 the first of the two action plans, at page 150 of KMB-1.

3 Is it at paragraph 16 on that page that this matter,  
4 that is to say BMCS, is reflected?

5 MR ROGER LEE: (Via interpreter) We are working towards this  
6 objective. We have talked about digital map and black  
7 box, and these are being worked out. We have  
8 a timetable. If we achieve that goal, then the next  
9 stage -- there will be a second stage. In the future,  
10 we will be able to give alerts to the bus captain  
11 instantaneously, real-time, whether it's a 50km speed  
12 limit or 70km speed limit.

13 But geo-fencing is more complicated. There will be  
14 information fed into the black box and the black box  
15 will identify whether there is speeding, and then the  
16 CAN system will be provided with the input so as to  
17 reduce the speed, to reduce the fuel supply. We have to  
18 be very careful because this will mean taking over the  
19 captain's driving.

20 We have a bus being tried for this new system but it  
21 is still on trial.

22 MR PETER DUNCAN: So is it at item 16 of the action plan  
23 which reflects the work to be done on the bus monitoring  
24 and control system?

25 MR ROGER LEE: Yes.

26

1 MR PETER DUNCAN: Thank you. For a further update on that,  
2 can we go to the second action plan, at page 231 of  
3 KMB-1, please. Do we see on page 231 the action plan,  
4 as of 1 August 2018, and in the first paragraph, does it  
5 refer to the test drive which you mentioned a few  
6 moments ago?

7 MR ROGER LEE: Yes.

8 MR PETER DUNCAN: So going back to the recommendations of  
9 the working group, according to the Transport  
10 Department, where is KMB exactly with regard to phase 1  
11 and phase 2 respectively?

12 MR LEUNG KIN WANG: (Via interpreter) Phase 1 will involve  
13 giving alerts only. Only alerts would be given.

14 MR PETER DUNCAN: Yes. What stage has been reached? Is  
15 phase 1 completed? Is it halfway done? What's the  
16 situation?

17 MR LEUNG KIN WANG: (Via interpreter) We are still doing the  
18 trials. We haven't reached the stage where we can have  
19 the findings.

20 MR ROGER LEE: (Via interpreter) We have to install the  
21 digital map in the black box so that we can tell between  
22 50kmh and 70kmh, and this test drive is about finding  
23 out whether this will work, the digital map will work,  
24 this can be done in the short term.

25 MR LEUNG KIN WANG: (Via interpreter) Let me supplement. We  
26

1 have manually installed information on some road  
2 sections in the black box. That is to say for certain  
3 GPS coordinates, it is subject to -- it is a 50-kmh  
4 zone, we have manually inputted the information to the  
5 black box. But if we have a live map, the entire map  
6 would be installed and then we can carry out a more  
7 comprehensive test.

8 CHAIRMAN: And how many road sections have you dealt with by  
9 installing that manually, the distinction between  
10 a 50-kilometre zone and a 70-kilometre zone?

11 MR ROGER LEE: (Via interpreter) The manual input is done  
12 this way. If the section is 70kmh zone, we would  
13 manually install or input the map, and then we can  
14 actually test all buses but we are just doing this for  
15 one bus. Then, if the alarm doesn't go off when it  
16 exceeds 70kmhkmh we know whether it works.

17 If it works on one bus, it will work for all 4,000.  
18 This is done manually now. If we can install the  
19 digital map, of course we need to verify the format  
20 first, and if that can be done then we can  
21 comprehensively do this for both 50kmh zones and 70kmh  
22 zones.

23 CHAIRMAN: But the question was, in this manual trial, how  
24 many sections of road have you installed with these  
25 latitude/longitude parameters?

26

1 MR ROGER LEE: In fact all of them.

2 CHAIRMAN: Thank you.

3 MR PETER DUNCAN: Are you able to provide any sort of  
4 indication to the committee as to how long it might take  
5 for these two phases to be totally trialled?

6 MR ROGER LEE: (Via interpreter) We have given you the  
7 indicative information.

8 CHAIRMAN: Yes. Can you remind us where we can find that in  
9 the bundles? You have given us a bar chart, haven't  
10 you?

11 DR NORMAN LEUNG: 279 to 281.

12 CHAIRMAN: Thank you very much.

13 Can you help us then as to what is meant by the  
14 first heading, "Incorporate speed limit into black box  
15 by Openmatics", end of November 2018?

16 MR LEUNG KIN WANG: (Via interpreter) This is about the  
17 government's data set.

18 CHAIRMAN: Digital map with speed limits?

19 MR LEUNG KIN WANG: Yes, right.

20 CHAIRMAN: Installed by Openmatics into all black boxes?

21 MR LEUNG KIN WANG: All black boxes. But for the trial, it  
22 may be one or two, but ...

23 CHAIRMAN: This is what you hope to achieve, presumably?

24 MR ROGER LEE: Yes.

25 MR LEUNG KIN WANG: Correct.

26

1 CHAIRMAN: But going through the steps, what is meant by  
2 "Validate the speed limit accuracy"?

3 MR LEUNG KIN WANG: (Via interpreter) We hope the system can  
4 operate normally. We would like to try whether, at  
5 a certain location, that it can really fulfil the  
6 requirement.

7 CHAIRMAN: So cross-check; is that it?

8 MR LEUNG KIN WANG: Cross-check.

9 MR ROGER LEE: (Via interpreter) Chairman, sometimes it  
10 relies a lot on the GPS for positioning. Sometimes  
11 certain road sections, even if the map speed limit is  
12 accurate, the bus speed as fed into it might not be  
13 accurate, because if you only rely on GPS it may not be  
14 accurate and it needs to be adjusted.

15 MR LEUNG KIN WANG: (Via interpreter) One of the  
16 considerations is whether the signals of the GPS are  
17 stable and accurate. That has to be adjusted.

18 MR ROGER LEE: (Via interpreter) Say, for example, on  
19 Tuen Mun highway, we have a bus speed at 70 kilometres  
20 per hour, but then if you rely on GPS for positioning,  
21 sometimes they would tell you that the bus is on  
22 Castle Peak Road and the speed limit is 50km there.  
23 Therefore, sometimes the roads can be very close and we  
24 have to adjust the positioning.

25 CHAIRMAN: This is a problem that occurs when one road is on  
26

1 a flyover and the other road is beneath?

2 MR ROGER LEE: Yes, and also the parallel one.

3 CHAIRMAN: Yes.

4 Just going through the steps here -- so you are  
5 going to carry out an internal trial. What is meant by  
6 that?

7 MR LEUNG KIN WANG: (Via interpreter) Well, it may be a test  
8 drive by our own staff, or a trial on a specific route.  
9 We need to carry out the trials to see whether the  
10 operation will meet expected results.

11 MR ROGER LEE: (Via interpreter) Because today, if the light  
12 would be activated at 70km, there will be a light on the  
13 speedometer. But later on, the 50km and 70km alert will  
14 be done by the system. So it is totally different.  
15 From the angle of the bus captain, today there will be  
16 a light, it is because today he is reminded that it  
17 exceeds 70km, but later on, whether it is 50km or 70km,  
18 we will have to rely on the system to check it against  
19 the speed limit of the road section, and bus captains  
20 have to adapt to this and we have to give them some time  
21 to tell them that this is the incentive behind the  
22 change of the system.

23 CHAIRMAN: You have another bar here, "Consultation with  
24 frontline staff"; I suppose that speaks for itself.

25 "Implementation to full fleet", by the end of  
26

1 January of 2019.

2 MR ROGER LEE: Yes.

3 CHAIRMAN: Then in terms of time, if one goes to the bottom  
4 of this bar chart, you repeat the matters that you have  
5 set out earlier: carry out internal trial, consult  
6 frontline staff. Why is that repeated?

7 MR ROGER LEE: (Via interpreter) They are different. This  
8 is phase 2, Chairman. The first one is that on the  
9 dashboard there will be two real-time indicators,  
10 telling the bus captain that he has gone beyond 50km and  
11 he will be alerted, or whether he is exceeding 70km so  
12 we alert him. But the one that is below, it is about  
13 phase 2. When the bus captain exceeds the speed limit  
14 or is driving at a high speed, then the geo-fencing  
15 system will take over the bus captain's driving, and to  
16 tell him that he has to cut the fuel supply.

17 We have left out 70km here. In other words, when it  
18 comes to phase 2, if the bus captain goes beyond 70km,  
19 say for example when he goes downhill, then the bus will  
20 use geo-fencing technique in order to cut the fuel  
21 supply. We will not just alert the bus captain. This  
22 is about phase 2.

23 CHAIRMAN: So phase 1 will be complete on this timeline by  
24 the end of January 2019?

25 MR ROGER LEE: We hope.

26

1 CHAIRMAN: Yes.

2 Yes, Mr Duncan.

3 MR PETER DUNCAN: Thank you, Chairman.

4 TD/406, please. TD-1/406, please, leads on to the  
5 next device to be trialled. This is the collision alert  
6 and lane-keeping devices. It is said that:

7 "The collision alert system is an add-on device  
8 which will give an alert to the bus captain in the event  
9 of a possible crash. The lane-keeping device is also  
10 an add-on device to alert the bus driver when the bus  
11 starts moving away from the lane other than proper  
12 steering. Both devices are available in the market.  
13 Thus, trial of using the devices in [franchised buses]  
14 to assess their applicability and effectiveness is  
15 recommended."

16 We saw earlier today in the accident statistics that  
17 head-on and tail collisions, and collisions involving  
18 a changing of lane, were responsible for something like  
19 25 per cent of bus accidents.

20 CHAIRMAN: Remind me, if you would, Mr Duncan, where those  
21 figures are to be found.

22 MR PETER DUNCAN: Yes. That's at page 183, Mr Chairman, of  
23 the same volume, TD-1.

24 Had the company given any consideration to the  
25 application of these devices prior to the accident in  
26

1 Tai Po in February?

2 MR ROGER LEE: (Via interpreter) Yes, we did.

3 MR PETER DUNCAN: Could you please describe what  
4 consideration was given and what the outcome of that  
5 consideration was.

6 CHAIRMAN: Before you answer that question, I'm looking at  
7 183. Lane collision seems to be 11 per cent, does it  
8 not? Are you including some other figures?

9 MR PETER DUNCAN: Yes, I'm sorry, Mr Chairman. I should  
10 have broken it down. I was combining "head on/tail  
11 collision" with "collision (changing lane)", giving  
12 approximately 25 per cent.

13 CHAIRMAN: Yes. Thank you.

14 I'm sorry, please put the question again.

15 MR PETER DUNCAN: Yes.

16 What consideration had been given to the engagement  
17 of these sorts of devices prior to the accident in  
18 February?

19 MR ROGER LEE: (Via interpreter) Actually, in 2017, our  
20 engineering department -- well, myself and our  
21 operations director, Mr Leung, together with some young  
22 engineers in the company -- we thought of new ways to  
23 help those two things that you mentioned, and because of  
24 that, as I said, in the spring or actually in the autumn  
25 of last year we went to Northern Ireland to go to

26

1 Queen's University in Belfast, exactly to look into  
2 these two matters.

3 KMB in-house has a group of engineers who actually  
4 have been sent to Northern Ireland to do this, and  
5 Queen's University sent professors to Hong Kong to look  
6 at our buses.

7 These are two main projects. The first one is  
8 collision alert. We would like to know the distance  
9 between our bus and the vehicle in front of the bus,  
10 because we have found that direct collision on long-haul  
11 routes can be fatal, and we want to do something to see  
12 whether our bus can be a distance away from the vehicle  
13 in front, and if the braking distance is not sufficient  
14 we will have to alert the bus captain and we have been  
15 doing this internally. Now we have engaged a university  
16 in Belfast so that we can develop this together.

17 If you look at the W-Tech document, you will see  
18 that when there is a change of lanes, when the bus  
19 captain engages in lane changing but he doesn't do  
20 proper steering, there will also be alerts. We are  
21 researching into this now.

22 But today, I can only tell you that we are still  
23 doing the research. We don't even have initial  
24 conclusions or results.

25 MR LEUNG KIN WANG: (Via interpreter) I would like to add  
26

1           one point. In the market, we will be watching out for  
2           third-party products. Later on, we are going to address  
3           driver monitoring device. We don't know whether the  
4           device would be applicable, but we hope so.

5       MR PETER DUNCAN: According to the Transport Department's  
6           account of the working group's deliberations at  
7           page 406, there are already devices available on the  
8           market. Do you see that reference?

9       MR LEUNG KIN WANG: Yes.

10      MR ROGER LEE: (Via interpreter) That's right, for (c), on  
11           drowsiness.

12      MR PETER DUNCAN: No, for (b).

13      MR LEUNG KIN WANG: (Via interpreter) I know that some other  
14           bus companies are also trying this out. We will be  
15           keeping a close watch. We will try it out again. We  
16           will do that.

17           Talking about lane-keeping devices and the alert,  
18           I remember many years ago we tried out something, but  
19           the results were not satisfactory. But given present  
20           technology, we will be keeping watch and we will be  
21           doing further trials.

22      MR PETER DUNCAN: I'm just wondering why you are entering  
23           into this research project with the overseas university  
24           if there are in fact already devices available on the  
25           market.

1 MR LEUNG KIN WANG: (Via interpreter) Mr Duncan, even if  
2 some products are available, you may try them out and  
3 you don't know whether they are good for your buses.

4 MR ROGER LEE: (Via interpreter) I would like to say  
5 something more here. Actually, a product may be very  
6 good for a particular place, but we drive on different  
7 roads. We have long-haul routes. We have urban routes.  
8 We have routes where there are many people and many  
9 vehicles. The situation is complex. There is no one  
10 third-party product that can be applicable to our buses.  
11 We are talking about very congested and sometimes  
12 long-haul routes. It is very difficult to find one  
13 product. We can only try them out. But at the same  
14 time we should also try to seek a way out for ourselves.

15 CHAIRMAN: Mr Duncan, we have reached the close of play and  
16 it's been a very long day for everyone, as always for  
17 the stenographers the longest, but that's why it's time  
18 to close.

19 Gentlemen, it's clear, as was obvious during the  
20 day, that you have much information to provide us. We  
21 will go through the transcript, as no doubt you will,  
22 and we will identify exactly what it is that you are to  
23 provide to us, which is most helpful. We would ask you,  
24 if you could, to make that available to us within two  
25 weeks of today, because it is clear that we will need to  
26

1           have another oral session. But it is helpful to  
2           everyone if we can get the documents in good time, have  
3           them paginated. You can then digest them and so can our  
4           counsel.

5           So can I ask that you provide the information that  
6           you have undertaken to provide within two weeks and we  
7           will fix another hearing thereafterwards.

8           Thank you very much for attending. I know these  
9           have been long days but it has been helpful to the  
10          committee.

11          So we will adjourn now and the hearing will resume  
12          when we are able to fix a date. Thank you.

13         (5.32 pm)

14                 (The hearing adjourned to a date to be fixed)

LONG WIN BUS CO LTD: DR NORMAN LEUNG, DR JOHN

CHAN, MR ROGER LEE, MR GODWIN SO, MR LEUNG

KIN WANG, MR PATRICK PANG, MR JAMES WONG

(simultaneous interpretation used only where  
indicated)

Statement by DR NORMAN LEUNG .....1

Examination by MR PETER DUNCAN (continued) .....5

*[Blank Page]*

1 2018 年 8 月 11 日

2 上午 10 時 01 分恢復聆訊

3 出席人士如前。

4

5 主席：（經傳譯員）梁博士同埋各位先生，早晨。

6 梁乃鵬先生：（經傳譯員）早晨，主席，早晨。

7 主席：（經傳譯員）鄧律師。

8 MR DUNCAN：（經傳譯員）唔該你主席。

9 梁乃鵬先生：（經傳譯員）主席先生，或者等我先講，可唔可以畀幾分鐘我？

10 主席：（經傳譯員）當然可以。

11 梁乃鵬先生：（經傳譯員）主席先生，琴日聆訊之後，我哋向委員會係提供進一步嘅  
12 文件，呢個係關乎行動計劃嘅，就關於二十九個彎位嘅時速限制。另外我講一  
13 講提交畀席前嘅提交文件總結。

14 或者讓我講一講，主席先生，你問咗一個問題，就係都好公道嘅同埋好切  
15 題嘅，你就問過點解王家豐先生所作嘅建議，我哋管理階層係未有係落實嘅，  
16 我一定要承認，我自己心中亦都有咁嘅疑問，就想知道點解係冇加以實施嘅。

17 或者我哋睇一睇嗰個提交文件嘅一覽，喺 2014 年嘅 7 月 31 號，嗰度就係  
18 話行動計劃就會提交畀車務總監同埋總經理，以供佢哋係通過嘅。跟住就係喺  
19 2014 年嘅 8 月 14 號，當時就係王家豐先生就係寫電郵畀何文達先生，就話請  
20 你係批准嘅。跟住就係 14 年嘅 8 月 15 號，當時就何先生就係畀電郵就係黃  
21 生，就叫佢就係請車務總監就係去正式批准，當然事先就係查核咗同埋通過咗  
22 先。

23 跟住就係喺 15 年嘅 2 月 2 號，當時就係有一封電郵嘅，就係王家豐先生  
24 就係發出係畀所有車廠嘅總經理，嗰度就話「而家就係適當嘅時候去再考慮係  
25 落實車速限制呢項事情嘅」，即係只針對嗰啲已經係搵出嘅嗰啲急彎。

26 喺 15 年嘅 2 月 5 號，王家豐先生就發電郵畀所有車廠嘅總經理，佢就話  
27 「我會將佢呈交畀車務總監同埋另一位總監，就等佢哋作最後嘅批核嘅。」

28 主席先生，我想請你哋睇番呢一個證物 5 號，即係呢一個文件夾嘅證物  
29 5。

30 主席：（經傳譯員）係，好，我有喇。

1 梁乃鵬先生：（經傳譯員）好，唔該晒主席先生。呢一份就係一個通函，就係王家豐  
2 先生就係發畀所有有關嘅部門嘅主管。喺呢一份便箋嗰度，就話「今早係同車  
3 務總監開過會，係關乎上述嘅題目嘅，我哋而家係有一個新嘅做法」，我要強  
4 調，呢度就講話係「對於點樣處理呢個事宜就有新嘅睇法，新嘅做法。嗰個行  
5 動就會係總結如下：

6 第(1)，就係嗰個安全服務及質量部就會預備一份安全嘅海報，一張咁嘅海  
7 報就係話駛過急彎嘅安全駕駛，就會 4 月嘅時候做，車廠就需要將呢一啲安全  
8 海報係擺放喺同埋展示喺一啲當眼嘅地方，喺車廠嘅地方同埋所有嘅總站嗰  
9 度，係駕駛訓練導師就需要向所有嘅車長就係進行呢個安全嘅提示，作為一個  
10 正常嘅做法；

11 第(2)，就係安全及服務質量部就會擬備一份內部通告，呢個就會由交通部  
12 就係發出嘅，就加強車長嘅安全意識，亦都提醒所有嘅車長就係要觀看一個安  
13 全嘅錄影帶，就係透過呢個電子學習嘅方法，呢個就 1 月就好似處理巴士火警  
14 一樣；

15 第(3)點，就係安全及服務質量部就會同車長訓練學校商討嘅職員嘅網站嗰  
16 度上載一個安全嘅短片，就講明如果佢哋係駛過呢啲急彎嘅時候，一般嘅安全  
17 指引同埋預防措施係乜嘢嘅，而嗰個寶順路轉入去唐明街呢一個急彎就會被揀  
18 選作為一個例子，呢個就係三十秒鐘嘅安全短片嘅。所有嘅車長都需要登入或  
19 者用其他嘅方法嚟到觀看呢一個安全嘅短片同埋佢哋嘅名就會係記錄低，會有  
20 紀錄嘅；

21 第(4)點就係巴士車長訓練學校，就會引呢一個將軍澳巴士翻側意外作為一  
22 個教訓，就係要所有嘅新入職嘅車長、學員同埋其他嘅車長就係知悉嘅，就透  
23 過適當嘅安全駕駛訓練。」

24 跟住嗰段就話「請留意，而家係唔需要係發出嗰個安全車速限制卡嘅，而  
25 嗰個安全短片嗰度係唔會」，係唔會，「講明嗰個安全車速嘅限制嘅，嗰個內  
26 部通告都唔會咁樣嘅，預計就會喺 2015 年 4 月嗰度採取上述嘅行動。我會係適  
27 時咁樣將嗰個進展向你匯報。」

28 主席先生，我想講，就係所有嘅建議、所有嘅行動，即係話喺呢份文件嗰  
29 度所列出嘅行動全部都已經係做咗，管理層亦都採取咗行動嚟到去落實呢一度  
30 所有嘅建議嘅。

31 主席：（經傳譯員）好，唔該晒。

32 梁乃鵬先生：（經傳譯員）唔該你，主席。

33 主席：（經傳譯員）鄧律師，我相信都會成日講番呢份文件，我諗要係編番個頁碼，  
34 做咗未呢？

35 MR DUNCAN：（經傳譯員）我哋會安排㗎喇，呢幾頁就只不過係剛剛係嚟到我面前

1 嘅。

2 主席：（經傳譯員）我都明白嘅，會唔會係搵人幫我哋做咗呢樣工作，就等我哋自己  
3 去填番個頁碼。

4 MR DUNCAN：（經傳譯員）係，肯定可以嘅。梁博士，各位先生，早晨，多謝你哋  
5 做咗功課，琴晚做咗功課，交界我哋，亦都感謝你剛才作個解釋。

6 梁乃鵬先生：（經傳譯員）我要致歉嘅，我要代表管理層就係致歉，琴日大家花咗咁  
7 多時間，如果我哋嘅管理層早啲做好呢樣工夫嘅話，其實就一早已經係喺琴日  
8 係清楚解釋咗個事情，請接納我嘅道歉。

9 主席：（經傳譯員）唔該晒你，梁博士。

10 MR DUNCAN：（經傳譯員）梁博士，我係因應就係你哋交界我哋嘅新嘅文件，係有  
11 啲問題要問嘅，請一請你睇番呢個 1 號證物，呢個就係王家豐喺 15 年 2 月 2 號  
12 發出嘅電郵，呢個就係話「喺 2014 年 12 月示威區嗰度清咗場之後，而家係適  
13 當嘅時候再考慮係落實啲啲已經係搵出嘅急彎同埋迴旋處嘅車速限制。」你呢  
14 度就話再考慮，我睇呢個字眼就係意味住你呢一個課題之前已經係考慮過嘅。

15 我哋有任何嘅文件係關乎究竟何先生喺呢一個 2014 年 8 月 15 號發出電郵  
16 之後究竟係有啲乜嘢事做過嘅，當時就話希望就係得到車務總監嘅批准嘅，你  
17 可唔可以話畀我哋聽究竟 14 年嘅 8 月 15 號之後一路去到 2015 年嘅 2 月之間  
18 就係做過啲咩嘢，而係希望得到佢正式嘅批准呢？

19 梁乃鵬先生：（經傳譯員）我哋要搵番有關嘅文件，我哋呈交界委員會嘅文件就係我  
20 哋手頭上嘅所有，即係相關嘅文件就係咁多，喺我哋嘅手頭上就係咁。

21 主席：（經傳譯員）係，我都明白，我哋就係 14 年 8 月至到 15 年嘅 2 月 2 號之間  
22 係有啲咩嘢紀錄、有啲咩嘢文件，關乎呢件事？李生，或者你係咪會知道呢？

23 李澤昌先生：（經傳譯員）我嘗試去幫手。我係 15 年 1 月先加入公司嘅，但係我肯  
24 定可以返去公司睇下有冇嘅。

25 主席：（經傳譯員）但係當時 15 年 2 月 15 號落呢個決定嘅時候，當時你就係個總  
26 經理，你之前同我哋講過呢樣嘢就係喺何達文先生係總經理嘅時候就已經落咗  
27 個決定嘅，係咁樣嘅，係咪呢？根據你今日所畀嘅資料就係顯示個情況係咁  
28 嘅。

29 李澤昌先生：（經傳譯員）可唔可以讓我返去寫字樓再搵啲資料出嚟呢？

30 主席：（經傳譯員）係，唔該，好。

31 梁乃鵬先生：（經傳譯員）等我係澄清一下，因為我都同管理層就問過呢個問題嘅，  
32 呢度就係話喺 2014 年 12 月係示威區清咗場之後，呢度講嘅就係佔中嘅。

1 MR DUNCAN：（經傳譯員）呢度所指嘅就係佔中。或者我亦都想問另一件事，跟進  
2 琴日所講嘅，呢個就係講到嗰啲係例外嘅報告嘅，琴日都有提過嘅，我就係講  
3 緊兩類嘅報告，一類就係關乎超速嘅，另外一類就係關於突然剎掣或者係加  
4 速，我哋琴日都睇過，我就想澄清呢一點。

5 首先，我哋講下 KMB-9 文件冊第 3993 頁，你應該記得我哋過去嗰幾日係  
6 講過呢一份嘅文件嘅，呢個就係我所講嘅第一類報告；而第二類報告就係係  
7 KMB-1 文件冊第 362 頁。

8 主席：（經傳譯員）呢一類係咩嘢報告呢？

9 MR DUNCAN：（經傳譯員）呢個就係同車速有關嘅，同埋亦都關乎加速同埋突然剎  
10 掣嘅問題。你應該記得呢份報告，係咪呀？

11 黃祥明先生：係。

12 MR DUNCAN：（經傳譯員）就住大埔嘅意外，就係今年 2 月 10 號嘅意外，我想問一  
13 個問題，涉事嘅巴士或者嗰架巴士嘅司機喺意外之後有冇喺呢兩類嘅報告中嘅  
14 任何報告係顯示出嚟，就係係 2 月產生嘅呢啲報告？

15 黃祥明先生：當時就並冇喺呢兩個報告裏面去留意有冇嗰單案件嘅車長或者架車嘅情  
16 況出現嘅，因為其實喺當時我哋係獨立咁去睇番嗰架車發生情況嘅事件，就無  
17 需要等呢一個報告嘅出現。

18 MR DUNCAN：（經傳譯員）當時有冇擬備呢啲報告，係 2 月 10 號？

19 黃祥明先生：由於當時係集中喺即時搵呢個報告嘅——呢架車當時嘅情況嘅報告，我有  
20 留意，亦都唔記得有冇喺呢個報告裏面再出現嗰個車嘅情況。

21 MR DUNCAN：（經傳譯員）即係話係 2 月 10 號就從來都有產生過呢啲報告，係咪  
22 呀？

23 黃祥明先生：呢啲報告係一個恆常性嘅報告嚟嘅，即係話所有車當佢係違反一個我哋  
24 指定嗰個指引嘅時候，就會喺呢啲報告就出現，所以呢個係恆常性嘅報告，但  
25 係當時你講大埔案件嗰單事件嘅時候，係因為佢係獨特嘅事件，我哋係獨特咁  
26 樣去睇嗰個車嘅情況，就我唔記得有冇喺呢個報告再睇番。

27 MR DUNCAN：（經傳譯員）你可唔可以承諾去檢查一下究竟有冇發出過呢啲報告  
28 呢，係 2 月 10 號？

29 黃祥明先生：可以嘅，我可以再查番，睇下當時有冇呢個報告出現。

30 主席：（經傳譯員）你可唔可以同委員會分享呢份報告呀？

31 黃祥明先生：如果我 check 到，我當然會提交畀呢個 committee。

32 主席：（經傳譯員）唔該晒。

1 MR DUNCAN：（經傳譯員）當時巴士有冇係以超過時速 70 嘅速度行駛，如果巴士以  
2 超過 70 嘅時速行駛，會唔會嗰架巴士--即係會唔會自動係產生呢兩類嘅報告  
3 呢？

4 黃祥明先生：首先而家喺我哋螢光幕見到呢個表，當時我哋 set 嘅車速係 75 公里，  
5 如果佢超過 75 公里，應該就會係喺呢個表嗰度出現。至於另外一個比較細嘅圖  
6 表，就要睇下當時嘅道路嘅限速係幾多，我哋先至會睇下架車有冇超速，如果  
7 有超速，同樣都會係喺嗰個報告度走出嚟。

8 MR DUNCAN：（經傳譯員）如果係有急速剎車或者係急速嘅加速嘅情況，會唔會自  
9 動產生咗第二類嘅報告呀？

10 黃祥明先生：會嘅。

11 MR DUNCAN：（經傳譯員）如果當時係冇產生呢啲報告，現時嘅系統可唔可以產生  
12 番啲報告呢？

13 黃祥明先生：因為呢個紀錄係當時如果佢係有一個 harsh braking 或者 excess  
14 acceleration 嘅時候，已經係記錄在案㗎喇，如果係有嘅時候，已經喺個報  
15 告裏面會出現㗎，我會搵到嘅時候，我提交番畀委員會。

16 MR DUNCAN：（經傳譯員）我個問題有少少唔同嘅，如果係不存在呢個報告，你可  
17 唔可以喺今日去--即係根據你哋公司電腦系統嘅紀錄產生報告呢？

18 黃祥明先生：我唔係好明白個問題，因為如果佢係當時有 harsh braking 或者有  
19 excess acceleration，就應該已經喺個報告度出現㗎喇。

20 MR DUNCAN：（經傳譯員）明白，唔該晒。

21 梁健宏先生：應該係可以嘅，但係啲數據因為都半年前，我哋所有啲數據已經係  
22 擺咗喺 archive 去第二啲系統入面嘅，我哋可能要攞番當其時半年前嘅數據，  
23 所以變咗我哋要睇一睇個可行性，我相信係可以嘅。

24 MR DUNCAN：（經傳譯員）唔該晒。

25 主席：（經傳譯員）鄧律師。

26 MR DUNCAN：（經傳譯員）琴日我哋最後講到培訓嘅問題，喺我繼續講呢個話題之  
27 前，我就想就住人手短缺呢個問題再問一啲問題，喺新嘅指引底下，巴士車長  
28 嘅短缺就似乎會更加係加劇，而唔係會改善嘅，咁樣講合唔合理呢？

29 彭樹雄先生：係，Mr Duncan，我同意嘅。

30 MR DUNCAN：（經傳譯員）你哋公司最近有冇推出過一啲措施去改善呢個情況呢？

31 李澤昌先生：其實呢個係多方面嘅，首先一，就係喺嗰個招聘方面做啲嘢，另外一方  
32 面就係喺公司裏面點樣提高嗰個員工之間，佢個對嗰間公司嘅嗰種 morale。

1   喺聘請車長方面，除咗喺個薪酬要做一啲工夫，主席星期二已經講咗一啲  
2   舉措。我哋亦都係好希望喺請人方面，喺唔同嘅類型、唔同嘅性質，喺唔同嘅  
3   區域，我哋都係想做啲工夫，因為而家大部分呢個世代嘅人做工作，有啲未必  
4   真係好似以前嗰種長時間咁嘅，我哋而家喺呢個情況裏面都做緊一啲工夫。我  
5   哋個人事部嗰度都有一啲建議，係請唔同類型嘅人嚟呢間公司。

6   至於喺嗰個公司裏面令到啲員工個歸屬感強啲，其實亦都做咗好多工作，  
7   無論喺佢哋嗰個廠嗰個 depot 裏面優化佢哋嗰個設施，令到佢哋休息同埋譬如  
8   我哋做咗一啲有啲畀佢買嘢方便啲，或者幫佢哋剪頭髮，或者有啲休息嘅地方  
9   可以有啲譬如打乒乓球、gym room 嘅嘢。亦都喺佢哋喺個站頭裏面過去呢段  
10 時間亦都做咗好多嘅工作，令到佢哋個站頭亦都舒適啲，呢個係做咗都幾多。

11 仲有就喺佢個生活方面，個 lifestyle 方面，我哋亦都做咗好多  
12 recreation 嘅 club，好似係足球，令到好多--因為車長嘅數目都係比較多  
13 係男性，就希望佢哋喺工作以外都有啲活動令到好多大家啲同事可以聚埋一  
14 齊，唱歌會等等嘅嘢。

15 亦都我哋嘅主席吩咐我哋成立咗呢個獎學金，希望好多啲公司啲啲員工啲  
16 家屬都可以有個機會可以幫--有啲嘢幫到佢啲細路仔可以讀大學等等，好多嘢  
17 都希望可以挽留一啲同事之餘，亦都可以希望吸引一啲新嘅人做我哋嘅車長。

18 呢個工作係知道唔容易，亦都知道因為個短缺嘅問題，我哋向呢個方向會  
19 繼續做。

20 彭樹雄先生：Mr Duncan，或者我哋個 managing director 李生都講咗我哋嗰個  
21 喺招募或者喺嗰個挽留人才方面做咗啲工夫，我想係集中講一講我哋有啲乜嘢  
22 嘅軟件，喺行動上，喺嗰個車務運作上，我哋係過去係做咗，而係去 address  
23 呢啲 crew shortage 嘅問題。

24 正話李生講咗一啲嘅硬件，例如休息室等等，我就唔再補充，不過喺另一  
25 方面，我哋而家嗰個車務運作，我哋係希望盡量做到係人性化啲啲，我哋就希  
26 望係可以加強啲車長嘅歸屬感，減少佢哋個離職嗰個比例、比率，亦都係做  
27 咗好多鼓勵嘅工作，就去針對有啲車長嗰個病假嘅申請。另外，我哋亦都係不  
28 時咁樣去優化我哋嗰個嘅行車時間，亦都係極力希望能夠提供一啲充足嘅行車  
29 時間同埋一啲休息嘅時間。

30 就住車長申請假期、調更、調假、崗位嘅調配、休息日嘅申請，我哋全部  
31 都係盡量做到人性化，我哋亦都係會接受車長，譬如話口述又或者正式入申請  
32 去做一啲調更、調假、調崗位等等。我哋 4 月亦都係做咗一個問卷，就畀啲車  
33 長去選擇一啲嘅工作嘅安排，因為每個車長，其實佢哋可能嗰個需要都係有啲  
34 唔同，有啲可能要八個鐘頭嘅工時，有啲可能佢想做十個鐘頭嘅工時等等，我  
35 哋亦都係盡量係去--我用個字就係用「盡量去遷就」或者「盡量去  
36 facilitate」，facilitate 佢哋嘅 requests 嘅。

1 另外，琴日我都講咗我哋嘅車長面對好多嘅問題，有啲係客觀嘅問題，例  
2 如佢哋受到滋擾，我哋琴日都講咗，盡咗好多工夫。另外，我哋亦都係加強咗  
3 前線督導人員嘅訓練，喺 6 月我哋係同我哋有二百位嘅車務主任同埋各級嘅督  
4 察，我哋做咗一個訓練課程，係兩天嘅，總共我哋係搞咗八個 courses。喺個  
5 訓練課程裏面，其實我哋都係強化點樣可以支援到前線車長，當佢哋遇到困難  
6 嘅時候，我哋點樣去處理。

7 另外，我哋亦都同其他政...

8 主席：（經傳譯員）有啲乜嘢嘅困難？你話佢哋面對困難。

9 彭樹雄先生：主席，佢哋主要係幾樣嘢嘅，第一，車長可能會遇到一啲交通意外，車  
10 長可能會遇到一啲我琴日所講嘅 abusive 嘅事件。我哋就係強化咗我哋啲車  
11 務主任同埋啲督察點樣去現場協助車長處理交通意外，點樣可以強化到我哋  
12 前線嘅督導人員點樣能夠提供一個適切嘅幫助畀車長。

13 我哋公司亦都係搵咗我哋內部，我哋搵咗一啲專職交通意外調查、法律部  
14 嘅律師，甚至乎我哋都請埋香港警務處道路安全小組亦都係嚟講咗--每一次都  
15 嚟，就兩個鐘頭嘅安全駕駛、道路安全等等。我哋係 6 月舉行，就呢個我哋覺  
16 得啲同事啲個評價，睇得到係非常之高。呢個亦都係我哋希望強化我哋啲個  
17 前線管理，從而令到我哋畀到前線車長啲個幫助係更加多。

18 另外車長每日面對嘅問題其實都係好多，例如交通越嚟越擠塞，道路嘅車  
19 輛嘅數目同道路嘅增長完全唔成一個正比，違例泊車亦都多，違例泊喺巴士站  
20 裏面嘅車亦都多，因為正正呢個問題，好多時交通阻塞，好多時違例泊車令到  
21 我哋嘅車長不但只行車時間係要加長，更甚嘅就係好多時因為行車時間又或者  
22 因為咁樣脫班，其實我哋車長係面對一個好沉重嘅壓力。好多嘅言語上嘅衝  
23 突，甚至乎肢體上嘅衝突，其實正正就係因為啲個客觀嘅因素而引致到有所發  
24 生。

25 交通個違泊，違例泊車，特別係巴士站，大家應該要明白我哋好多嘅輪椅  
26 客，我哋嘅巴士一定係要停正喺啲個巴士站，啲輪椅客先至能夠有一個 curb  
27 位係可以上到車，但係正正就係因為有某啲違例嘅泊車...

28 主席：（經傳譯員）彭生，鄧律師就唔係一個開放式嘅問題就係讓你選擇係你想答晒  
29 你想講嘅嘢嘅。我哋想知道就係有啲咩嘢設施，你就講咗加強呢個培訓，除此  
30 之外，仲有啲咩嘢想講呢？

31 彭樹雄先生：其實我想總結，就係話其實我哋車長面對好多嘅困難，我哋其實係每一  
32 個困難喺度慢慢去同佢哋解決，所以其實呢個對於啲個所謂 retention，其  
33 實，主席，我想你--希望你明白，呢個其實對於車長啲個嘅壓力，其實同佢哋  
34 個 retention 或者佢留任係有一個直接影響。

35 主席：（經傳譯員）我哋明白，...

1 彭樹雄先生：多謝主席。

2 主席：（經傳譯員）...其實你重複講咗佢哋有咩嘢壓力。我哋其實剛才問題就話你  
3 用咗咩嘢措施，我諗你已經講咗你係現有㗎喇，李生想講，係咪呀？

4 李澤昌先生：彭生講個樣嘢，譬如車長佢行車嘅時候，佢喺個個--佢架車唔啱呢，佢  
5 喺架車--即係等如好塞車嘅時候，對佢個個精神壓力係好大，好多車長而家係  
6 經常都講緊係好辛苦，因為塞車嘅關係，因為車塞車係辛苦過揸車，我諗好多  
7 人都知，所以彭生嘅意思就話我哋做嘅嘢就係好多時同啲政府--提點佢啲道路  
8 擠塞或者啲道路係個啲路面嘅條件好差，我哋係做緊呢啲 initiative 嘅嘢，  
9 呢個可以從而幫到個車長喺塞車嘅時間，或者個啲路面個 condition 可以有  
10 啲改善，令到佢個個舒服啲，我諗呢啲都係我哋嘅 initiatives。

11 主席：（經傳譯員）唔該晒。鄧律師。

12 MR DUNCAN：（經傳譯員）你哋係向邊一個政府部門係提出呢啲投訴呢？

13 李澤昌先生：你講緊係關於個啲路面個啲，係咪呀？

14 MR DUNCAN：（經傳譯員）係。

15 李澤昌先生：我諗有幾個嘅，一個就當然係警務處，因為有啲違例嘅泊車或者係啲  
16 loading and loading 個啲，會擋住個巴士站，令到個巴士司機泊唔到站，  
17 就好似頭先彭生講搞個輪椅個板嘅時候又搞唔到。有啲乘客就會要好辛苦咁  
18 上車，呢個我記得係上年有一件事就係喺中環干諾道發生個件事。另外有個情  
19 況就係當...

20 主席：（經傳譯員）我諗你重複緊你講嘅說話。

21 MR DUNCAN：（經傳譯員）一個就係警隊，另外呢？

22 李澤昌先生：一個就係運輸署。

23 主席：（經傳譯員）係，唔該。有冇其他部門？

24 彭樹雄先生：我哋個別都有路政署，因為個啲路面個 condition 可能有咁好，另  
25 外 FEHD，食環署...

26 主席：（經傳譯員）你話個路面情況，係個路面...

27 彭樹雄先生：係，冇錯，路面譬如話凹陷，路面有一啲嘅障礙物。另外我哋喺雨季...

28 主席：（經傳譯員）有冇其他部門？

29 彭樹雄先生：食環署，食物環境衛生署，一啲樹喺個啲路，特別係郊區，雨季之後好  
30 多樹伸咗出嚟係撞到我哋啲巴士。

31 主席：（經傳譯員）個啲樹就需要係修剪、路上嘅障礙物，另外就係塞車同埋就係違

1 例泊車就警方？

2 彭樹雄先生：係，冇錯，冇錯，主席。

3 主席：（經傳譯員）仲有冇其他部門呀？

4 彭樹雄先生：大致上都係咁，主席。

5 主席：（經傳譯員）整體嚟講，政府有咩嘢回應呢？或者李生就可以總結一下，就簡  
6 單咁講，係滿唔滿意呢，你哋？

7 李澤昌先生：可以快啲。

8 主席：（經傳譯員）即係都有做，不過你話佢哋應該係做得快啲？

9 李澤昌先生：有啲係靠自己去做嘅。

10 主席：（經傳譯員）違例泊車，喺巴士站違例泊車同埋其他地方違例泊車解決咗未？

11 李澤昌先生：（經傳譯員）未全部解決晒，特別係夜晚。

12 主席：（經傳譯員）唔該。鄧律師。

13 MR DUNCAN：（經傳譯員）交通擠塞，呢個問題解決咗未呢？

14 李澤昌先生：No.

15 彭樹雄先生：No.

16 主席：（經傳譯員）對唔住，你點答呀？

17 李澤昌先生：（經傳譯員）冇，未呀。

18 主席：（經傳譯員）唔該。

19 MR DUNCAN：（經傳譯員）車長裏面有幾多個百分比係女性呢？

20 蘇偉基先生：大約 6% 嘅。

21 MR DUNCAN：（經傳譯員）公司有冇措施就係吸引更多嘅女性嚟到係擔任呢個崗位  
22 呢？

23 蘇偉基先生：呢個係有嘅，我哋亦都係有啲探討，呢個特別喺我哋屯門嘅車廠，我哋  
24 會做得多啲，因為嗰度係住宅區多啲，我哋招聘嗰陣時都係會 equal  
25 opportunity，但係我哋真係想吸納多啲女性嘅車長。呢度我哋有諗過就有啲  
26 設施可以配到畀我哋女性嘅車長，舉例如，佢可能係一個 housewife 主婦，如  
27 果有一啲育兒、nursery 嘅設施，我哋可以喺個廠某啲地方撥到出去，我相信  
28 係有幫助，但係確實而家我哋用地嗰度係有個限制，我哋係未做到。

1 MR DUNCAN：（經傳譯員）呢啲嘅考慮有冇引致你哋就係做咗啲咩嘢措施嚟到係吸  
2 引佢哋申請呢？

3 蘇偉基先生：另外我哋亦都喺嗰個崗位嗰度設計到有啲叫做半職嘅車長，意思即係話  
4 佢工時短啲或者佢每周返嘅工作天會短啲，就適合一啲需要照顧小朋友嘅母親  
5 去擔崗。

6 MR DUNCAN：（經傳譯員）咁樣樣有冇令到你哋大大咁增加咗女性擔任車長呢？

7 蘇偉基先生：喺申請嗰度係有幫助，頭先我哋亦都講多一樣，就係話儘可能我哋喺我  
8 哋巴士總站嘅設施嗰啲嘅洗手間就係男、女廁係分開，如果我哋喺--儘可能做  
9 得到。

10 MR DUNCAN：（經傳譯員）我就而家想請大家係攤張投影片出嚟，呢個就會係總結  
11 咗九巴同埋龍運巴士嗰個喺近年嚟嗰個盈利嘅，去到 2011 至到 2017 年嗰個情  
12 況嘅，呢啲就係喺你哋嘅報告嗰度就係抽出嚟嘅，或者我解釋一下呢啲圖表，  
13 首先就係 2011 年至到 2017 年九巴嘅盈利，你呢度見到係頂頭嗰度亦都有講咗  
14 佢喺邊一個文件夾嗰度攤出嚟，就係 KMB-6，喺呢個稅後嘅盈利，你呢度就可  
15 以睇到，就由 2011 年一路去到係 2017 年嘅。

16 喺呢個圖表嗰度大家可以睇到喺 2012 年、2013 年係有虧損嘅，嗰度見到  
17 就係五千一百萬同埋二千一百萬嘅，分別係。

18 李澤昌先生：（經傳譯員）係。

19 蘇偉基先生：（經傳譯員）係。

20 MR DUNCAN：（經傳譯員）我咁講公唔公道呢，自從 2013 年到而家，公司嘅盈利  
21 就係都穩步咁樣樣上升嘅，咁講啱唔啱呢？

22 李澤昌先生：Not fair comment.

23 梁乃鵬先生：（經傳譯員）同意，不過呢度有原因嘅，鄧律師，或者我可以解釋一下  
24 公司嘅財政狀況，我想講番九巴同埋龍運第一份嘅陳述書嘅第 93 頁，或者借用  
25 嗰份文件就可以更好咁解釋一下我哋公司嘅財務狀況。

26 MR DUNCAN：（經傳譯員）係，唔該晒梁博士。

27 梁乃鵬先生：（經傳譯員）主席先生，我想講就係我哋而家都仲係喺好困難嘅情況底  
28 下係營運專營巴士嘅服務嘅，我想請大家睇一睇呢個圖表，係，鄧律師，你講  
29 得啱嘅，喺 2012 年我哋有一個虧損，就係五千一百萬，喺 2013 年，我哋個虧  
30 損就係二千一百萬元嘅，當你哋話我哋之後係穩步咁樣係有呢個盈利，即係話  
31 由 2014 年至到 2017 年有咁嘅情況，不過我想指出一點嘅。

32 請你睇一睇 2016 年嗰個盈利嘅，我哋就係有六億一千八百萬，我請你睇  
33 睇嗰個燃油嘅成本，喺 2012 年嘅時候嗰個燃料嘅成本係十四億元嘅，喺 2013

1 年就係十四億，然後去到十二億，呢一個就 2014 年，因而讓我哋係可以有一個  
2 盈利嘅，盈利就係一億九千七百萬元。

3 如果你睇番 2016 年嘅利潤，我哋嘅利潤係 6.8 億，但係如果你睇番我哋  
4 嘅燃油度慳到嘅開支，嗰一年我哋只係花咗 6.24 億嘅燃油度嘅。換句話講，喺  
5 2016 年，我哋嘅收入係輕微上升，但係我哋嘅利潤上升唔係因為收入增加，而  
6 係因為我哋嘅燃油度慳到嘅錢係多咗。而到 2017 年，利潤就同我哋慳到嘅燃油  
7 成本係相等嘅，我就想指出呢一點。

8 我亦都想指出喺舊年，即係 2017 年，我哋嘅員工開支就係達到三十六  
9 億，呢個大概係等如營運開支嘅六成，員工嘅開支係會繼續上升，每年都會上  
10 升嘅，因為每年都會有一個工資調整嘅。你見到我哋完全係控制唔到呢一類嘅  
11 成本嘅，所以我就想向委員會指出我係一直係致力係促進我哋員工嘅福祉，因  
12 為佢哋對公司係非常重要，我哋係希望服務大家，所以我會竭盡所能去改善我  
13 哋員工嘅福祉，希望我哋係可以請多啲巴士車長同埋係可以挽留我哋現有嘅車  
14 長。

15 但係我都好明白我哋已經面對咗車長短缺多年，但係我哋要睇番香港嘅市  
16 場情況，現時香港嘅失業率係百分之二點八，幾乎係一個全民就業嘅狀態，我  
17 哋講過輸入勞工，呢方面我哋係有嘢可以做到嘅，但係我哋嘅策略就係改善我  
18 哋巴士車長嘅薪酬，而我哋希望其他——即係揸其他商用車輛嘅司機亦都係會加  
19 入我哋嘅，我哋係希望將業界其他嘅司機吸引嚟加入九巴同埋龍運，呢個就係  
20 我哋就住車長嘅策略。

21 我非常明白係好難係吸引新血去成為車長，正如管理層亦都講過，關於因  
22 為呢個工作嘅環境、乘客嘅態度等等，但係我可以向你保證，我會繼續竭盡所  
23 能去提升我哋員工嘅福祉，希望我哋可以解決車長短缺嘅問題，多謝主席。

24 MR DUNCAN：（經傳譯員）多謝梁博士。你提到一點就係你有一個策略去改善車長  
25 嘅薪酬，你可唔可以透露一下呢個策略嘅詳情？

26 梁乃鵬先生：（經傳譯員）基本上我哋係講緊車長嘅薪酬，喺舊年 12 月嘅董事局會  
27 議，我哋傾過，我哋決定就將呢一個花紅納入為呢一個底薪之中，而我哋亦都  
28 向委員會透露我哋會進一步提升車長級別嘅薪酬，我哋會將個增薪點由 8 個增  
29 加到 20 個嘅，所以我哋係講緊薪酬同埋我哋車長嘅工作環境嘅。我哋係會繼續  
30 努力去吸引新血加入我哋嘅公司。

31 MR DUNCAN：（經傳譯員）我哋今日稍後會講到你哋新車長嘅起薪點嘅。你提到呢  
32 一個燃油嘅成本等等，有乜嘢計劃去提升你哋車長嘅起薪點或者係底薪去吸引  
33 多啲人入嚟呢？

34 梁乃鵬先生：（經傳譯員）假設我哋要請一個新車長，當時我哋實質我哋提到嘅措  
35 施之後，再加上每年嘅增薪點，喺 2018 年稍後實施新措施，即係當工會同意之  
36 後，我預計新嘅巴士車長嘅薪金大概月薪係 23,000 蚊，大概 23,000 蚊，呢

1 個係講緊工時十個鐘，大概收入係\$23,000。

2 MR DUNCAN：（經傳譯員）係咪即係每日十個鐘，每個星期六日呀？

3 梁乃鵬先生：（經傳譯員）冇錯。正如我所講，我哋希望有一啲嘅商業車輛嘅司機係  
4 會考慮加入我哋公司，同時係希望可以吸引到新血，呢個就係我哋嘅策略。

5 MR DUNCAN：（經傳譯員）你哋公司有冇引入任何嘅措施去吸引年輕人加入呢？我  
6 哋琴日睇到一啲數據，我哋見到年輕人嘅數目係比中年人係少好多嘅。

7 李澤昌先生：有嘅，有嘅，我會畀少少時間我哋嘅 HR 嗰邊傾一傾。嗰個問題係其實  
8 今日，如果你講一個男性嘅車長，佢係喺個--頭先啱啱講咗嗰個實際嗰個勞動  
9 量其實係有限，所以除咗係個人工之外，好多工作嘅人其實--就算係前線嘅員  
10 工，唔係單講個人工，亦都講嗰個環境、待遇，其實巴士公司，我哋都提升咗  
11 譬如係嗰啲家屬卡，即係佢可以坐巴士係免費或者係有一啲嘅我哋巴士公司可  
12 以做到嘅--營造個環境畀佢，相反個問題就係問，即係頭先你講緊譬如嗰啲女  
13 性車長係 5 至 6%，其實香港嘅男性同女性其實嗰個量唔係相差遠嘅，嗰度係一  
14 個好大嘅市場我哋去諗。

15 就你講緊我哋仲有啲乜嘢嘅要諗去做嗰樣嘢，或者蘇生可以補充少少。

16 蘇偉基先生：唔該，我哋係致力請一啲年輕嘅車長，...

17 MR DUNCAN：（經傳譯員）特別係年輕人。

18 梁乃鵬先生：Young people.

19 蘇偉基先生：Young people，冇錯，首先我哋就喺招聘嘅途徑嗰度，我哋除咗傳統  
20 用報章，我哋用啲社交嘅媒體，social media，因為呢啲就先可以接觸到  
21 younger generation，我哋亦都可以喺我哋公司嘅福利嗰度考量，正如頭先  
22 所講，我哋嗰啲康樂會，我相信對一啲年青一代會吸引啲，舉例如，係有啲係  
23 體育嘅活動，踢波、籃球、羽毛球或者係唱歌呢啲。

24 我哋亦都喺嗰個--頭先彭生講，編更嗰度係適合佢，佢哋有佢自己日常嘅  
25 作息，亦都喺個廠嗰度設立一啲康樂嘅設施吸引一啲年輕嘅人，我哋亦都喺廠  
26 車嘅接送嗰度，我哋做得更加滲透啲，就算佢住得遠啲，亦都唔好因為有所考  
27 慮係唔走入嚟。

28 我哋亦都喺 promotion 嗰度儘量主動，舉例如，我哋過往嗰半年嘅亦都  
29 舉辦多次嘅招聘日、開放日，喺車廠或者喺個巴士總站嗰度有我哋外展嘅招聘  
30 員工團隊去接觸一啲稍為年青嘅，希望佢哋新入行，呢啲就係我所講嘅舉措。

31 MR DUNCAN：（經傳譯員）你見唔見到有任何改善，就住年輕人嘅方面？

32 李澤昌先生：有嘅，我哋譬如啱啱想講嗰個係個車廠，我哋九巴有四個車廠，我哋開  
33 放個車廠嘅時候，就個車廠裏面除咗係有一啲車廠嘅設施，就吸引多啲年青

1 人，特別帶埋佢啲子女嚟一齊參觀個車廠，等佢一家人知道如果佢爸爸或者佢  
2 媽媽做呢個職業嘅時候，嗰個環境係吸引到嘅，呢過去呢幾個月。

3 彭樹雄先生：另外，Mr Duncan，我想補充一個點啫，就係正話蘇生講咗，我哋為  
4 咗吸引年青啲嘅...

5 MR DUNCAN：（經傳譯員）我只係想知道呢啲嘅措施係咪有實際係得到任何嘅改善  
6 呢？

7 彭樹雄先生：我可以講係慢慢、慢慢有啲成效，特別係我哋希望我哋唔想一啲年青嘅  
8 車長覺得佢哋做車長係好似一啲所謂 dead end 嘅一種工種，我哋過去嗰九個  
9 月，我哋亦都係有好多嘅升級，包括直接由車長升督察，車長甚至升車務主  
10 任，其實我哋一路都做緊。我哋希望真係可以鼓勵到，亦都能夠真係可以  
11 motivate 到一啲年青人加入我哋巴士嘅行列，呢個就係我哋真係好想做嘅。  
12 多謝 Mr Duncan。

13 李澤昌先生：過往係比較少一啲車長係升做 inspector，然後再去寫字樓，而家我  
14 哋係希望喺呢度--即係呢個 internal 個公司會做緊呢樣嘢。

15 梁乃鵬先生：（經傳譯員）基本上我哋對於一啲有才華嘅年輕人係有一個特快嘅晉升  
16 機會嘅。

17 MR DUNCAN：（經傳譯員）成為你哋車長有冇一個最低嘅年齡限制？

18 蘇偉基先生：可唔可以重複個問題？

19 MR DUNCAN：（經傳譯員）要加入你哋公司做車長，有冇一個最低嘅年齡要求？會  
20 唔會係二十幾歲或者三十歲？

21 蘇偉基先生：只要求職人佢有三年嘅私家車嘅駕駛執照，我哋都會考慮。

22 MR DUNCAN：（經傳譯員）唔該晒。梁博士，你喺稍早之前就係講過嘅，就係講及  
23 呢個加票價。我想問，政府當局對上係幾時批准過你哋加車費嘅呢？

24 蘇偉基先生：2014 年。

25 MR DUNCAN：（經傳譯員）委員會有聽過有個乜嘢嘅機制係可以係增加呢個票價，  
26 或者係點樣去考慮呢個票價增加嘅申請嘅，我想問你哋公司有冇喺 2014 年之後  
27 申請過加價呢？

28 梁乃鵬先生：（經傳譯員）我哋有嘅，或者亦都要解釋一下我哋嗰個立場嘅話，或者  
29 係想請你哋睇番呢個第 95 頁，同一個文件夾嘅第 95 頁。

30 主席：（經傳譯員）係，好呀，唔該。

31 梁乃鵬先生：（經傳譯員）第 95 頁，我哋係要申請嘅，我哋要根據一個方程式去申  
32 請加價嘅。喺第 33 段嗰度，第 (vi) --唔係十六，對唔住，係第 (vi) 小段嗰度

1 列咗有一個方程式出嚟嘅，嗰度就講咗，0.5 去乘工資指數嘅改變，再加 0.5  
2 係乘呢一個係消費物價指數嘅改變，然後就減 0.5 去乘嗰個係生產力嘅增長。  
3 如果用呢條算式計咗出嚟，而見到佢係等如或者係超過百分之二嘅話，我哋就  
4 可以向政府申請就係加價嘅。呢個就係嗰個觸發點。

5 不過喺過去嗰兩年，由於我哋嘅利潤，你知喇。當然另外仲有一樣嘢嘅，  
6 如果我哋嘅盈利係去到百分之九十七，呢個係以我哋嗰個資產淨值嚟到計嘅——  
7 平均資產淨值嚟到去計算嘅，如果超過嘅話，我哋亦都唔能夠申請加價嘅，所  
8 以 2016 年同埋 2017 年嘅情況就咁，我哋就不能係申請係調整票價嘅，因為就  
9 係唔可以根據呢個公式去申請加價嘅。

10 好唔同嗰個大哥，係地鐵，佢哋係自動可以加價，唔需要申請嘅，我哋嚟  
11 講，就唔同我哋係要申請去調整價格嘅，往往都係唔能夠加足我哋所申請嗰個  
12 幅度嘅。

13 MR DUNCAN：（經傳譯員）好，唔該。好明顯我跟住就想問呢個問題，梁博士，你  
14 對於呢一條方程式，你滿意唔滿意呢？

15 梁乃鵬先生：（經傳譯員）對唔住？

16 MR DUNCAN：（經傳譯員）你對呢條方程式你滿意唔滿意呢？

17 梁乃鵬先生：（經傳譯員）當然，如果你問滿唔滿意，梗係唔係喇，你點可以係期望  
18 我會話係滿意呢？

19 MR DUNCAN：（經傳譯員）你有冇咩嘢提議呢？即係應該係嗰個方程式係點寫呢？

20 梁乃鵬先生：（經傳譯員）我哋同運房局已經傾咗幾年㗎喇，到而家我哋都唔成功，  
21 我哋只能夠繼續同佢哋講，希望可以說服到佢哋就係話而家係時候要去檢討同  
22 埋改變嗰個方程式。

23 李澤昌先生：呢個 formula 有一個最大嘅問題就係佢係睇緊過去嘅情況，然後你先  
24 至 apply 一個 fare，其實啱啱講緊人工同埋油價，其實好多都係將來嘅情  
25 況。呢個 picture 如果永遠都係好似啱啱——好似而家我哋嘅油價係升咗，但係  
26 過去嗰一年、兩年，個油價係跌嘅，其實係有少少我哋滯後嘅，即係反映唔  
27 到，可以咁講。

28 梁乃鵬先生：（經傳譯員）主席先生，對唔住，我漏咗一個好重要嘅一點，呢一個油  
29 價，油價其實喺呢個方程式嗰度冇加埋落去嘅，我哋知道係譬如話用咗幾多錢  
30 係買呢個汽油，但係就呢度方程式反映唔到嘅，一個咁重要嘅元素，但係呢個  
31 方程式嗰度就係冇嘅。

32 主席：（經傳譯員）燃料唔係喺嗰個消費物價指數嗰度計算埋㗎？

33 陳祖澤先生：No.

1 MR DUNCAN：（經傳譯員）梁博士，請你睇番呢一個 THB 運房局嘅文件夾 2 號，特  
2 別係想請你睇呢個第 23 頁，THB-2 運房局 2 嘅第 23 頁，其實第 1 頁就係呢份  
3 文件嘅第一版，呢個係運房局發出嘅文件，嗰個標題就叫做「公共交通策略研  
4 究」，嗰個日期就係 2017 年嘅 6 月，你知唔知道係有份咁嘅文件？

5 梁乃鵬先生：（經傳譯員）係。

6 MR DUNCAN：（經傳譯員）「公共交通策略研究」。你去睇一睇呢個第 23 頁，呢份  
7 文件嘅第 23 頁。

8 梁乃鵬先生：（經傳譯員）你講 23？

9 MR DUNCAN：（經傳譯員）23，係。

10 梁乃鵬先生：（經傳譯員）係。

11 MR DUNCAN：（經傳譯員）你見到 (d) 嗰度就係話「票價調整安排」，見到嘛？

12 梁乃鵬先生：（經傳譯員）係。

13 MR DUNCAN：（經傳譯員）喺呢個 4.25 段，你就會見到嗰個方程式，而實質上，  
14 你亦都係喺你個陳述書，喺第 95 頁嗰度亦都係包括咗呢啲文字嘅，不如我請你  
15 睇跟住嗰版第 24 頁，就想請你就係睇第 4.28 段，嗰度就話之前所講嘅現有嘅  
16 安排就係喺 2006 年嘅時候就係引入嘅，呢個就係同立法會諮詢過之後做嘅，就  
17 係睇過 2009 年嘅檢討之後，呢一個安排係有將佢微調嘅。

18 2009 年就係政府係就呢一個票價調整嘅安排就係檢討過嘅，不過就基本上  
19 係保留嘅，不過個數據喺兩方面就係要加以就係調整嘅，呢度就講咗，第一，  
20 就係嗰個生產力嘅增長同埋嗰個乘客嘅優惠或者回贈計劃。呢度就有講就話百  
21 分之九點七，我諗剛剛你亦都係提過呢一個數字嘅。

22 梁乃鵬先生：（經傳譯員）係，就係嗰個固定資產平均淨值回報。

23 MR DUNCAN：（經傳譯員）政府就係有同專營巴士公司就係展開過商討嘅，亦都有  
24 講過就係有嗰兩項數據嘅更新嘅，政府就佢話會就預期喺 2018 年上半年就會將  
25 嗰個討論結果公布同埋將佢落實嘅，當然首先就係要得呢個特首會同行政會議  
26 嘅批准。喺方面，有冇聽過有啲咩進展、有咩消息？

27 梁乃鵬先生：（經傳譯員）我係有同政府討論過呢個乘客嘅優惠計劃嘅。

28 蘇偉基先生：我可以補充...

29 梁乃鵬先生：（經傳譯員）唔好，唔好，等我講埋先，我有同政府係傾過嘅，我有香  
30 港政府講過嗰個乘客嘅優惠或者回贈計劃嘅，但係我哋仲未係達致一個共識  
31 嘅。

32 MR DUNCAN：（經傳譯員）呢度就講話係會交由行政長官會同行政會議去考慮嘅，

1 同埋亦都講過話係預期 2018 年嘅上半年係落實嘅，呢方面有冇咩嘢消息呢？

2 梁乃鵬先生：（經傳譯員）冇，直到今日都係冇實施嘅。

3 MR DUNCAN：（經傳譯員）呢度所講及嘅建議，即係睇番第 25 頁頂頭嗰度嘅建議，  
4 如果係獲接納嘅話，會唔會就係釋除你嘅疑慮呢？即係關乎呢一個票價調整安  
5 排方面你嘅擔心嘅地方？

6 陳祖澤先生：（經傳譯員）鄧律師，直到今日，我哋都仲未知道嗰個檢討嘅結果，亦  
7 都唔知道佢哋係有上到去行政會議嘅，呢個應該未發生嘅，你睇到呢度所講嘅  
8 就係--或者不如咁，我哋睇番另一版，4.29 段最尾嗰度就話嗰個顧問建議就係  
9 百分之九點七呢個觸發點就應該稍為向下微調嘅。

10 主席：（經傳譯員）對唔住，你讀緊係邊一段呀？

11 梁乃鵬先生：（經傳譯員）第 25 頁。

12 陳祖澤先生：（經傳譯員）4.29 段。

13 主席：（經傳譯員）係，我搵到喇，唔該晒。

14 陳祖澤先生：（經傳譯員）嗰個百分之九點七嘅觸發點，嗰個觸發嘅水平，如果係要  
15 改嘅話，純粹從財務嚟到計，對九巴嚟講，係壞消息嚟嘅。

16 MR DUNCAN：（經傳譯員）以而家嘅情況嚟到計，亦都從九巴嘅角度，睇嚟，就係  
17 即時嚟講，就唔會係喺呢一個票價安排方面係有啲乜嘢--對你嚟講係一個改  
18 善，咁樣嘅總結啱唔啱呢？

19 陳祖澤先生：（經傳譯員）啱。

20 MR DUNCAN：（經傳譯員）梁博士，剛才就講到地鐵就係大佬，你哋係細佬，個情  
21 況就係會繼續。

22 梁乃鵬先生：（經傳譯員）我哋係窮親戚。

23 MR DUNCAN：（經傳譯員）我而家想講番嗰個培訓。

24 羅先生：（經傳譯員）我有一個關於成本嘅問題，你提到燃油嘅價格係會影響你哋公  
25 司嘅收入，你見到咁多年嚟個情況有冇穩定過呢？

26 梁乃鵬先生：（經傳譯員）政府會係叫九巴去自己處理呢個問題嘅，喺多年前我哋係  
27 同政府去討論即係徵收一個附加費嘅可能性嘅，即係喺我哋嘅車費當中，呢個  
28 附加費就係因為燃油價格大幅上升嘅，但係最後政府就不同意，所以就冇實行  
29 到。

30 當然我哋考慮過好多唔同嘅方案，喺呢方面係節省成本嘅，但係我哋就決  
31 定就冇採納任何對沖嘅安排，因為我哋認為就住油價去對沖唔係一個好嘅選擇

1 嚟嘅。不幸地，我哋見到國泰航空嘅例子，佢哋係因為對沖而係虧損咗好多  
2 嘅。

3 我哋同期油嘅供應商係取得共識，佢哋係會以某一個年期，譬如話三年，  
4 向我哋供應燃油，然後我哋就同意咗呢個汽油價格嘅一個上限，我哋同意嘅上  
5 限就係每桶 85 美元嘅。如果汽油嘅價格係超過 85 美元，我哋仍然都只需要係  
6 畀 85 美元一桶嘅啫。

7 另一方面，如果汽油嘅價格下降到每桶 40 或者 45 美元，我哋亦都係只需  
8 要畀呢一個市價嘅啫，即係最低嘅價格係 45 美元一桶嘅，暫時我哋有一個咁嘅  
9 最低價格。

10 李澤昌先生：或者我喺呢度補充，其實我哋就有 hedge 到 oil 嘅，因為油價係佔我  
11 哋個基礎好大，主席頭先講咗，就係我哋其實係同啲油公司有一個協議，就係  
12 我哋係 cap 咗佢個 gas oil，即係個 crude oil，你睇下個牌價，加多辣  
13 個十零釐嘅就係 gas oil，咁 cap 咗 85 釐。85 釐以上嘅我哋就唔會再畀多  
14 過，但係以下，我哋畀緊佢嘅 spot rate，然後再加一個 premium，即係當  
15 然呢個係我哋之間一個 trading 嘅銀碼，我唔方便講，即係話喺個 floor --  
16 其實我哋頭個兩年都有-- floor 都有乜意思，因為 gas oil 唔會變零嘅，大  
17 概都係三十五、四十釐嘅，我哋而家嚟緊都有一個 floor，大約係四十零釐  
18 嘅，我哋就會 trade 緊喺個之間裏面，咁係為咗保護自己。

19 就我哋其實就將個 risk 就畀咗個油公司去做，我哋發覺呢個係--即係  
20 好似主席講，呢個係自己係諗方法去 protect 番我哋嘅油 cost 係佔都差唔多  
21 --曾經佔過 20%我哋個 expenses，都相當之犀利。

22 另外有一個都要講嘅，就係我哋個 toll charge 個個都相當之高嘅，  
23 因為好多人都唔知道其實我哋 KMB 係照畀足過海隧道費，無論係政府嘅隧道，  
24 我哋都畀足，呢個都係相當之高嘅，所以我哋係呢幾個大嘅數據我哋係睇得都  
25 幾緊。

26 MR DUNCAN：（經傳譯員）講番呢個培訓嘅問題，請大家撇去 KMB-1 文件冊嘅 145  
27 頁，我哋睇緊 2018 年 2 月 10 號嘅行動計劃，係呈交咗畀運輸署嘅當日，喺第  
28 3 段，即係第 145 頁嘅第 3 段至到第 147 頁嘅第 7 段，我哋就見到培訓嘅行動  
29 計劃，我就想先講第 3 段，入面就講到個問題就係琴日我哋都有提過嘅，「所  
30 以所有嘅車長嘅申請人係會有同樣嘅要求嘅」...

31 黃祥明先生：同意。

32 MR DUNCAN：（經傳譯員）...「無論佢哋係全職或者係兼職都好」，啱唔啱呀？

33 黃祥明先生：其實喺個時間之後，我哋已經有再招聘 part-time，所以全部都係  
34 用呢個準則去聘請嘅。

35 MR DUNCAN：（經傳譯員）會唔會有一啲兼職車長每日係--或者每日工作--或者每

1 星期工作超過十八小時呢？

2 蘇偉基先生：（經傳譯員）有嘅。

3 MR DUNCAN：（經傳譯員）佢哋係會接受相同嘅訓練，係咪呀？即係同全職車長去  
4 比較。

5 蘇偉基先生：（經傳譯員）係嘅。

6 MR DUNCAN：（經傳譯員）唔該晒。就請你自己睇睇呢個新培訓計劃嘅內容，就係  
7 喺第 3 至 6 段列咗出嚟嘅，同埋第 7 段，就住第 7 段，佢就話「九巴嘅駕駛導  
8 師數目應該係增加到 110 名」，而根據行動計劃，呢啲申請人必須喺 18 年嘅 6  
9 月 30 日前完成所有嘅培訓同埋考試，先至可以完成一個有八十一位駕駛導師嘅  
10 團隊，Has that been completed?

11 黃祥明先生：已經係完成咗，而家我哋已經係有八十一位嘅訓練導師。

12 MR DUNCAN：（經傳譯員）我而家想你睇另一份嘅文件冊，就係 TD-1，第 403  
13 頁。呢份文件就係今年 7 月由運房局發出嘅，呢個就係 7 月 25 號係呈交畀立法  
14 會嘅，你見唔見到？

15 黃祥明先生：有，見到。

16 MR DUNCAN：（經傳譯員）喺 403 頁就係一啲背景資料，佢係關於成立一個工作小  
17 組嘅，就係就住 2 月 10 號嘅啲一宗意外嘅，你見唔見到呀？

18 黃祥明先生：係，見到。

19 MR DUNCAN：（經傳譯員）你見到喺 (a) 同 (b) 段，就係描述咗嗰個覆蓋嘅範圍或者  
20 工作範圍，其中一項工作就係去檢討專營巴士營運商嘅培訓安排。

21 黃祥明先生：係，喺 (b) 項嗰度有咁寫。

22 MR DUNCAN：（經傳譯員）喺頁底就係有一個註釋就講到呢一個工作小組嘅組成  
23 嘅，就包括咗五個專營巴士營運商同埋巴士製造商同埋運輸署嘅，我想問在座  
24 各位有冇人係呢一個工作小組嘅成員？

25 蘇偉基先生：如果講番九巴同埋龍運巴士，係由我本人蘇偉基、我哋車務總監梁健宏  
26 同埋我哋培訓部嘅主管黃先生呢三位係代表呢兩間公司。

27 主席：（經傳譯員）係咪仲有個--即係另一個--轄下嘅小組係處理一啲技術嘅問  
28 題？

29 蘇偉基先生：係。

30 主席：（經傳譯員）九巴係邊個去代表呢一個小組呢？

31 梁健宏先生：技術層面嗰度就係我本人同埋我另外一位工程師。

- 1 黃祥明先生：有關訓練就係由我去出席呢個會議。
- 2 主席：（經傳譯員）另外一位工程師嘅名字係乜嘢呀？即係出席個小組。
- 3 梁健宏先生：（經傳譯員）佢叫做 Ivan Ho。
- 4 主席：（經傳譯員）黃先生，喺呢一個培訓小組，你係咪唯一嘅代表呀？
- 5 黃祥明先生：訓練係由我嘅，就喺呢個訓練方面係我一個人去出席嘅啫。
- 6 主席：（經傳譯員）唔該晒。
- 7 MR DUNCAN：（經傳譯員）喺第 403 頁。
- 8 主席：（經傳譯員）喺我哋繼續之前，鄧律師，你會唔會去了解一下其他嘅專營巴士  
9 公司同埋運輸署嘅代表係邊個？
- 10 MR DUNCAN：（經傳譯員）係嘅，會嘅。邊個係代表運輸署出席呢？
- 11 蘇偉基先生：之前係由一個助理署長 Rachel Kwan 去做 chairperson，之後佢退  
12 休休假，就由副署長 Macella Lee 係喺嗰個 call meeting 係做  
13 chairman。
- 14 MR DUNCAN：（經傳譯員）運輸署有冇其他嘅代表？
- 15 蘇偉基先生：好多，當然我未可以喺而家逐一去記起佢哋嘅名字，分別係有一啲  
16 principal transport officer、transport officer、senior  
17 transport officer，佢分別係來自--佢入面有個 floor 叫做係巴士及鐵路  
18 小組嘅，亦都有一啲係一個 road 嘅 engineering 嘅小組嘅出席，但係個別名  
19 稱我記唔到。
- 20 梁健宏先生：亦都有啲係...
- 21 主席：（經傳譯員）呢啲會議有冇會議紀錄㗎？
- 22 蘇偉基先生：有嘅。
- 23 主席：（經傳譯員）你可唔可以向我哋提供？
- 24 蘇偉基先生：可以。
- 25 主席：（經傳譯員）唔該晒。
- 26 MR DUNCAN：（經傳譯員）我就請你睇另一個文件夾，就係 CTB...
- 27 主席：（經傳譯員）首先，我哋可唔可以都得悉其他嘅專營巴士公司有派咗邊個代表  
28 定係你提供呢個會議紀錄度會顯示出嚟？
- 29 蘇偉基先生：可以，嗰度都見到佢嘅名字。

- 1 主席：（經傳譯員）唔該晒。鄧律師。
- 2 MR DUNCAN：（經傳譯員）多謝主席。想大家睇 CTB 同埋 NWFB-3 號文件冊嘅，喺  
3 588 頁嗰度，你見到佢就係講及加強專營巴士安全工作小組，嗰個日期就係 18  
4 年 3 月 13 號。
- 5 蘇偉基先生：（經傳譯員）係。
- 6 MR DUNCAN：（經傳譯員）嗰度就有個附件嘅，附件嗰個標題就係「加強專營巴士  
7 安全工作小組」。
- 8 蘇偉基先生：（經傳譯員）係。
- 9 MR DUNCAN：（經傳譯員）去到 590 頁，見到嗰個標題就係話「成員」？
- 10 蘇偉基先生：（經傳譯員）係。
- 11 MR DUNCAN：（經傳譯員）呢度有啲人名嘅，包括就係運輸署嘅代表，呢個幫唔幫  
12 到你呢？
- 13 蘇偉基先生：（經傳譯員）係。
- 14 MR DUNCAN：（經傳譯員）每次開會係咪都係同一班人呢？
- 15 蘇偉基先生：（經傳譯員）差唔多都係。
- 16 MR DUNCAN：（經傳譯員）係，睇嚟呢度就係冇巴士製造商嘅代表名嚟度嘅。
- 17 蘇偉基先生：喺 bus manufacturer，佢哋係出席嗰個叫做 technical  
18 subgroup 嘅 meeting，呢個係一個 main meeting，佢哋係冇出席嘅。
- 19 MR DUNCAN：（經傳譯員）唔該。講到運輸署嘅代表，佢哋亦都有出席嗰啲下面嘅  
20 小組嘅會議嘅，係咪呀？
- 21 黃祥明先生：佢亦都喺呢個 subgroup 裏面就將呢度部分嘅運輸署同事就同其他，  
22 包括我在內嘅，專利巴士公司嘅同事係一齊開會。
- 23 MR DUNCAN：（經傳譯員）嗰個下面嘅小組係邊個擔任主席呢？
- 24 黃祥明先生：如果我有記錯，應該係 Amy Tse。
- 25 MR DUNCAN：（經傳譯員）運輸署嘅，係咪呀？
- 26 黃祥明先生：係，冇錯，佢係負責呢個 training 嗰面嘅。
- 27 梁健宏先生：Technical 個 subgroup 有幾個人都做過嘅，David Tsang 係做第  
28 一次嘅，之後亦都有佢--因為佢應該係退休，有其他佢啲代替者，包括最嚟  
29 嗰次有個 Assistant Commissioner 陳英傑先生。

1 MR DUNCAN：（經傳譯員）喺 TD-1 嘅 403 頁，嗰度就話主要嘅巴士製造商，都有  
2 邀請佢哋出席呢一個技術嘅小組嘅，有冇佢哋出席過呢啲技術小組嘅會議呢？

3 梁健宏先生：有嘅。

4 MR DUNCAN：（經傳譯員）嗰度就有亞歷山大丹尼斯、富豪、猛獅，啲名就有嘅  
5 度，邊一個有出席呢一個下面嘅工作小組嘅會議嘅？

6 梁健宏先生：Alexander Dennis 就係 Andrew Boulton，Volvo 就係 Julia，  
7 （經傳譯員）唔記得咗佢個姓，Jacky Chan 就係都係代表富豪嘅。

8 MR DUNCAN：（經傳譯員）富豪就係 Julia，Jacky Chan 係邊度？

9 梁健宏先生：（經傳譯員）Jacky Chan 都係富豪嘅。

10 MR DUNCAN：（經傳譯員）猛獅呢？

11 梁健宏先生：（經傳譯員）Rex Wong 係猛獅嘅。

12 MR DUNCAN：（經傳譯員）呢啲係咪都係本港佢哋嘅代表呢，定抑或佢哋係主要喺  
13 海外嘅呢？

14 梁健宏先生：（經傳譯員）係當地——我哋香港佢哋嘅工程師。Julia Lu，佢個姓英  
15 文係 L-U。

16 MR DUNCAN：（經傳譯員）剛才主席就問過，呢一啲工作小組係有冇會議紀錄嘅，  
17 你就話有嘅，亦都會提交嘅，至於底下工作小組——下面嘅小組個會議又有冇紀  
18 錄嘅呢？

19 梁健宏先生：（經傳譯員）由主席嚟到係分發畀小組嘅成員嘅，交畀我哋嘅。

20 MR DUNCAN：（經傳譯員）包唔包括埋下面嘅小組嘅會議紀錄呢？

21 梁健宏先生：（經傳譯員）係有不同嘅會議紀錄嘅，係有嘅。

22 MR DUNCAN：（經傳譯員）你畀會議紀錄嘅時候，可唔可以唔係淨係畀工作小組，  
23 係底下嘅小組嘅都畀我哋，好唔好呀？

24 梁健宏先生：（經傳譯員）可以。

25 主席：（經傳譯員）會唔會你就好似係暗示而家係小休呢？我哋而家係休息二十分  
26 鐘，剛才你唔停，又有出聲，二十分鐘。

27

28 上午 11 時 36 分押聆訊押後

2 上午 11 時 58 分恢復聆訊

3 出席人士如前。

4

5 主席：（經傳譯員）鄧律師。

6 MR DUNCAN：（經傳譯員）多謝主席。我哋頭先講到 TD-1 文件冊嘅 403 頁，呢個  
7 文件就係呈交昇立法會嘅，內容就係關於點樣改善專營巴士嘅安全。我有一個  
8 問題，正如文件第一句指出，呢啲係建議嘅措施嚟嘅，你哋公司認唔認為你哋  
9 係必須要採取呢啲措施呢，定係你哋公司係覺得呢啲只係建議嘅措施，即係正  
10 如文件所講？

11 蘇偉基先生：可以喺文件嘅 413 頁，annex A 嗰度，佢每一個嘅  
12 recommendation 都會係有一個 time frame 係畀業界去考慮，呢一個就係  
13 technical 嗰方面嘅 bus feature，如果係巴士車長培訓嗰個，佢有一個實  
14 務守則，業界係需要遵循，亦都喺個實務守則最尾嗰段就係加入咗公司本身係  
15 要有一個監控嘅程序，審計嘅程序，係要肯定嗰個實務守則係有遵從，亦都去  
16 番公司嘅董事會匯報。

17 MR DUNCAN：（經傳譯員）講番啲啲技術事宜，我嘅理解啱唔啱呀，就係你哋就會  
18 做試驗，然後就作一個決定，就睇下有邊啲係可以落實嘅，係咪咁呀？

19 李澤昌先生：喺工程方面其實就已經好多都係進行緊㗎喇，佢係 recommend，但係  
20 其實喺我哋公司角度嚟講，都係一定會係盡努力去嚴格去執行緊呢方面嘅嘢。

21 MR DUNCAN：（經傳譯員）唔需要講嗰個文件嘅細節住嘅，不過睇份文件，你都會  
22 知道如果呢個建議全部都係落實嘅話，應該對於巴士車長嘅培訓以及巴士車長  
23 如何去履行佢嘅職責都會有好大影響嘅，同意嘛？

24 蘇偉基先生：（經傳譯員）同意。

25 MR DUNCAN：（經傳譯員）我哋留意到工會同埋車長都有代表喺呢一個工作小組嗰  
26 度嘅，我就想問你哋有冇諮詢呢個巴士車長，又或者有冇諮詢工會呢？即係當  
27 呢個工作小組開會嘅時候有冇咁做呢？

28 蘇偉基先生：呢個我要講多少少，喺個 working group 入面，運輸署係有邀請工  
29 會代表，喺個談-- discussion 去到第三次會議，大家都知道有一個嘅  
30 guideline，就係個 bus captain 嘅 training 嘅 guideline，就提議係  
31 由巴士公司自己個別按需要去同工會係有一個 consultation，公司--我講緊  
32 係九巴、龍運睇到呢個 guideline，其實佢係將當時所有巴士公司各自對巴士  
33 車長嘅培訓，大家就講晒然後你點樣做法，然後運輸署就將佢融會，然後  
34 就出咗一個實務守則。

1 喺呢個實務守則入面嘅嘢，公司係達到所有佢所講嘅要求，亦都係現時做  
2 緊嘅，所以我哋係冇同我哋嘅工會或員工去諮詢，原因係已經現有持之以恆執  
3 行緊，係有新嘢嘅，對於九巴嚟講。

4 MR DUNCAN：（經傳譯員）嗰個技術裝置嗰方面，呢度係有一啲建議係加啲咩嘢技  
5 術嘅裝置嘅，又想問下，同工會方面有冇咩嘢諮詢呢？

6 蘇偉基先生：都係頭先所講，佢係交番畀公司去做個諮詢，我哋要睇番佢提議嘅幾個  
7 大點，佢第一個大點就係話全車--喺新添購置嘅車係有安全帶，今日喺九巴嘅  
8 車隊其實已經有四十四架車係全車有安全帶，有大部分嘅車長都有機會係駕駛  
9 過呢啲車輛㗎喇，好耐㗎喇，所以呢個唔係新事物。

10 第二樣嘢，佢嘅舉措，就係話要有一個實時嘅超速提示，咁呢樣嘢早兩日  
11 嘅聽證會大家都知道，公司而家係有個實時嘅車速提示，亦都係現有㗎喇。運  
12 輸署可探討就係話除咗 70 咪，就要做埋 50 咪，我哋講咗好多，我唔重複喇。

13 第三個，喺嗰個 bus feature，就係話提示有睡眠嘅一個裝置，呢個公  
14 司用一個方式，就係話我哋就搵四部，用一個先導嘅形式，我哋純粹提示，我  
15 哋唔會記錄，亦都唔會因為咁而做一個紀律處分，就係希望車長真係試過，佢  
16 先至可以表達到究竟呢件裝置對佢哋有冇幫助。

17 所以其實喺 bus feature 嗰度，一，講咗，安全帶係現有㗎喇；提示睡  
18 眠，我哋用四部去吸納員工嘅意見；至於即時一個超速嘅提示，公司亦都係現  
19 有㗎喇。

20 MR DUNCAN：（經傳譯員）唔該晒。你講番嗰個實務守則，或者我哋可以係打番出  
21 嚟，我相信喺 470 嘅。

22 主席：（經傳譯員）係 8 月 9 號畀我哋嘅，係咪呀？

23 MR DUNCAN：（經傳譯員）係。請你睇番 463 頁，就係呢一個文件夾嘅 463 頁，你  
24 會見到就係運輸署 8 月 9 號嘅函件，嗰度就係回應我哋專責委員會喺呢個 7 月  
25 23 號發出嘅信件嘅，你喺 471 頁嗰度，至到 473 頁，嗰度就係有呢個實務守  
26 則，嗰個日期就係 2018 年嘅 8 月嘅，睇到嘛？

27 主席：（經傳譯員）對唔住，實務守則係邊度呀？

28 MR DUNCAN：（經傳譯員）係 471。

29 主席：（經傳譯員）係，唔該晒。我諗運輸署就話畀我哋聽呢個係 7 月就落實㗎喇，  
30 係咪呀？

31 MR DUNCAN：（經傳譯員）係，的而且確係有個情況係咁，主席。去四七--對唔  
32 住，係 435 頁--對唔住，應該去 427 頁，唔該。

33 主席：（經傳譯員）嗰個就睇到個日期，係咪呀？

1 MR DUNCAN：（經傳譯員）係呀，嗰個就係運輸署嘅信嚟嘅。日期就係 7 月 20 號，  
2 嗰度亦都有個附件嘅。喺附件，你就係由 428 頁開始去到 435 頁嘅，嗰度第一  
3 個格嗰度就係話運輸署最近係發出咗一份實務守則係畀專營巴士營運商，呢個  
4 關乎係巴士車長嘅培訓等等。我想問運輸署係幾時係發出呢個實務指引畀九巴  
5 嘅？

6 蘇偉基先生：（經傳譯員）係 8 月 6 號。

7 MR DUNCAN：（經傳譯員）運輸署有冇畀到嗰個守則你呢？即係喺 8 月 6 號之前有  
8 冇呢？

9 蘇偉基先生：（經傳譯員）有嘅。（直接用本地話說）嗰個 practice note 係嗰  
10 個 working group 嘅 output 嚟嘅，佢喺 7 月 25 號上立法會個 Transport  
11 Panel，佢係有嗰個文件嘅，大家睇到。之後喺 8 月 6 號，我哋就收到一個傳  
12 真，佢就話正式係推出，要我哋執行。

13 MR DUNCAN：（經傳譯員）8 月 6 號之前係咪已經向運輸署發出咗畀你哋呢？

14 梁健宏先生：（經傳譯員）唔係正式嘅。

15 主席：（經傳譯員）你話非正嘅，係咪之前有個非正式嘅畀你呢？

16 蘇偉基先生：可唔可以再問多一次？我掌握唔到個題目。

17 主席：（經傳譯員）運輸署就話畀委員會聽，書面陳述就話佢哋最近就係出咗個實務  
18 守則，佢哋就話畀我哋聽就係發畀呢一個專營巴士營運商嘅，就話係 7 月 20 號  
19 咁講嘅，所以佢哋亦都係提供咗一份文件，就日期係 8 月嘅，你話你哋係有一  
20 份日期係 8 月 6 號，有冇一個早啲嘅版本嘅實務守則呢？而佢哋嘅內容亦都同  
21 運輸署所講嘅係符合呢？

22 蘇偉基先生：我可以提供番我收到嘅乜嘢，之前嗰啲係嗰個會議嘅 attachment，係  
23 一個 discussion paper。

24 主席：（經傳譯員）你邊一日係收到嗰一個實務指引？

25 蘇偉基先生：8 月 6 號。

26 主席：（經傳譯員）再早啲就有？咩嘢形式都好，再早啲有冇呢？

27 蘇偉基先生：有，係一個 attachment 落嗰個-- as an attachment of 呢個  
28 discussion paper of 嗰個 working group 嘅 meeting。

29 主席：（經傳譯員）嗰份文件日期係幾時呢？

30 蘇偉基先生：（經傳譯員）8 月中或者 8 月初。（直接用本地話說）我而家記唔到。

31 主席：（經傳譯員）你有冇文件副本？

1 蘇偉基先生：有。

2 主席：（經傳譯員）可唔可以交界我哋委員會呢？

3 蘇偉基先生：會。

4 主席：（經傳譯員）唔該。鄧律師。

5 MR DUNCAN：（經傳譯員）唔該主席。好喇，我哋睇番呢個實務守則，TD-1 嘅 470  
6 頁，我哋自己都睇到究竟嗰個內容係啲咩嘢嘅，不過有一樣嘢就想問你嘅，  
7 係第 4 段，睇番 471 頁，講到嗰個最低要求，工作小組講到話入職培訓嘅時候  
8 就講咗，就話喺課堂培訓方面係有啲乜嘢嘅要求嘅，應該要幾多時間嘅，另外  
9 就係路上駕駛嘅培訓又應該有幾多時間嘅，呢度亦都係分開全職同兼職車長嗰  
10 個要求係點樣樣。

11 我想問，九巴--我哋係知道你哋較早時候有講過嗰個行動計劃，你就話打  
12 算所有嘅車長你都會無論佢係全職定抑或兼職都會係一視同仁，你哋係點睇  
13 呢？

14 黃祥明先生：喺討論呢個事項嘅時候，係其他嘅專營巴士公司都係出席嘅，每個公司  
15 因為佢個訓練方面都有唔同嘅條件或者佢哋嘅需求，所以運輸署就因應各個巴  
16 士公司嘅唔同情況，就訂定咗呢個最低嘅要求，我哋睇番呢個事項係寫「最低  
17 嘅要求」。所以有啲巴士公司佢哋係會仍然係聘請一啲嘅叫做 part-time 嘅車  
18 長，而我好清楚咁表示咗我哋九巴公司已經係停止咗聘請呢個 part-time 嘅車  
19 長，但係運輸署係需要因應其他嘅同行去制定呢個指引，所以訂定咗有埋呢個  
20 part-time 車長嘅範疇喺裏面，但係呢個並不適用於九巴嘅。

21 MR DUNCAN：（經傳譯員）我想問，公司喺自己嘅培訓嘅計劃裏面，即係你喺嗰個  
22 行動計劃已經列出你嗰個培訓計劃喇嘛，同埋喺其他交界我哋嘅文件嗰度都有  
23 提過嘅，會唔會因而受影響要改呢？

24 黃祥明先生：冇嘅，我哋無需要更正或者更改，因為呢個提議係我哋九巴提出之後，  
25 佢運輸署因應而係制定。

26 MR DUNCAN：（經傳譯員）唔該晒。我而家就唔再講培訓呢個話題，我就想講另一  
27 個議題嘅，請你睇 KMB-1 文件冊 129 頁嘅，原有嘅嗰份文件就係第 128 頁  
28 嘅，我就會睇番個翻譯本，就係 129-1 嗰一頁嘅，呢份就係聲明書，呢份文件  
29 嘅目標同埋作用係乜嘢呢？

30 蘇偉基先生：呢份 declaration 其實係喺 2、3 月，公司成立咗一個調查委員會，  
31 就著嗰個大埔意外之後嘅一個建議，個理念就係“know our employees”，  
32 我哋招聘車長，但係我哋確認要對我哋招聘嘅員工多啲認識，所以就喺幾個範  
33 疇嗰度透過呢張 declaration 去認知，第一，佢有冇喺外間係有其他嘅僱  
34 用，會唔會影響佢工作；第二，就係佢有冇一啲嚴重病歷，係會影響佢嘅工  
35 作；第三，佢有冇一啲過往違例駕駛嘅紀錄；去到第四，就係有冇一啲刑事嘅

1 紀錄。我哋喺做招聘嗰陣時就會睇嗰個投考人佢填嘅資料而作出一個嘅考慮係  
2 咪去招聘佢。

3 MR DUNCAN：（經傳譯員）喺大埔意外之前，有冇任何嘅好似呢份咁嘅表格係要畀  
4 一啲申請人去填寫呢？

5 蘇偉基先生：冇咁仔細，但係相對嘅工作係有做嘅，舉例如，就係查佢嗰個違例駕  
6 駛，我哋係有做嘅，病歷，雖然唔使佢自己 declare，但係亦都係有人職前嘅  
7 驗身。

8 MR DUNCAN：（經傳譯員）嗰份表格有冇包括係即係要填寫申請人有冇其他嘅工作  
9 呢？

10 蘇偉基先生：之前係冇。

11 MR DUNCAN：（經傳譯員）你有冇嗰份舊表格嘅版本可以提供呢？

12 蘇偉基先生：可以提供。

13 主席：（經傳譯員）係，請你提供。

14 MR DUNCAN：（經傳譯員）係邊個需要填寫呢份聲明書呢？

15 蘇偉基先生：申請職位嗰個投考人。

16 MR DUNCAN：（經傳譯員）呢份表格係咪喺聘請申請人嘅時候需要簽署㗎？

17 蘇偉基先生：（經傳譯員）係。

18 MR DUNCAN：（經傳譯員）公司係持續去進行啲乜嘢嘅檢查去睇下究竟全職同埋兼  
19 職員工喺外面有啲咩嘢工作呢？

20 蘇偉基先生：我哋係有賴嗰個投考人佢自己做一個 declaration，佢係一個 in  
21 good faith 去填佢嘅資料。

22 MR DUNCAN：（經傳譯員）換句話講，當有人係開始工作嘅時候，即係譬如話如果  
23 有個員工係為你工作咗五年，有冇任何持續嘅聲明要求呢，或者有冇其他嘅措  
24 施去了解譬如話一名兼職嘅車長喺外面有冇其他嘅工作呢？

25 蘇偉基先生：我哋自己入面有個員工嘅手冊 staff handbook，入面亦都有規定員  
26 工如果係從事外間嘅兼職，係需要申報嘅。

27 MR DUNCAN：（經傳譯員）換句話講，你係完全依賴員工去申報啲咩嘢資料畀你，  
28 係咪呀？

29 蘇偉基先生：佢係有責任，因為嗰個員工手冊係所有好多規矩都擺晒喺度，佢係需要  
30 遵循嘅。

1 MR DUNCAN：（經傳譯員）你哋採取咗啲咩嘢措施係去執行員工手冊入面嘅規矩  
2 呢？

3 蘇偉基先生：如果發覺佢冇遵從，而我哋發覺外面有兼職，我哋會有紀律處分，亦都  
4 過往我哋發覺我哋有車長係做啲咁嘅嘢，係解僱咗嘅，嗰個同事。

5 主席：（經傳譯員）但係有冇任何檢查或者盡職審查嘅工作呢？

6 蘇偉基先生：冇。

7 主席：（經傳譯員）唔該晒。

8 MR DUNCAN：（經傳譯員）你有冇任何措施去改變呢個情況呢？換句話講，即係公  
9 司會唔會有一啲嘅檢查嘅安排去了解員工可能參與嘅其他嘅工作呢？

10 蘇偉基先生：會。

11 MR DUNCAN：（經傳譯員）琴日...

12 主席：We didn't get a translation of the answer.

13 蘇偉基先生：（經傳譯員）係，我哋會主動考慮。

14 MR DUNCAN：（經傳譯員）我哋冇收到任何嘅聘用合約嘅，會唔會係提供呀？

15 蘇偉基先生：我哋會提供。

16 MR DUNCAN：（經傳譯員）我請你揭去第 109 頁。

17 主席：（經傳譯員）首先係咪完成咗呢個議題喇？

18 MR DUNCAN：（經傳譯員）冇錯。

19 主席：（經傳譯員）你提到員工手冊，你知唔知係喺文件冊入面嘅頁數係幾多呀？鄧  
20 律師，你知唔知道係邊一頁呀？我哋就可以好快咁睇一睇。

21 蘇偉基先生：如果我搵到，我提供。

22 MR DUNCAN：（經傳譯員）我哋有嗰個附錄嘅頁數，就係附錄 1a-iii-7 嘅應該  
23 係。呢個就係戶外車務嘅員工手冊嘅，係咪呀？

24 蘇偉基先生：喺呢個 bundle KMB-8, page 3072, 第 1 點。（經傳譯員）英文  
25 版，就喺 3042 頁嘅。

26 主席：（經傳譯員）唔該晒。呢個就係關乎全職嘅員工嘅，係咪呀？

27 蘇偉基先生：（經傳譯員）係。

28 主席：（經傳譯員）就住兼職員工，有冇任何安排呢？

1 蘇偉基先生：正如頭先所講，而家我哋嘅車長係符合每周十八小時，連續四周，係一  
2 個持續性嘅僱用，我哋當佢根本係一個 full-time employment，所以佢  
3 都要受呢個 1.8 嘅條款係約束。

4 主席：（經傳譯員）喺大埔交通意外之前，當你聘請兼職車長嘅時候，有冇一個要求  
5 係要求佢哋申報其他嘅工作，喺聘請佢哋嘅時候？

6 蘇偉基先生：冇。

7 主席：（經傳譯員）唔該。

8 MR DUNCAN：（經傳譯員）至於你哋嘅前員工又係點呢？佢哋而家可能係可以工作  
9 十個鐘或者十八個鐘，你會當佢哋係全職員工定係兼職員工呢？

10 蘇偉基先生：（經傳譯員）全職員工。

11 MR DUNCAN：（經傳譯員）如果佢哋有睇呢個要求，佢哋知唔知道——即係佢哋會唔  
12 會當自己係全職員工，當佢哋睇呢本員工手冊嘅時候？

13 蘇偉基先生：佢哋係我哋曾經嘅僱員，佢哋退休之後，從事——退休再續聘，所以佢哋  
14 係得悉呢個 1.8 嘅條款。

15 MR DUNCAN：（經傳譯員）你有冇計劃去修改條款 1.8 呢，就住呢啲招聘安排？

16 蘇偉基先生：會。

17 MR DUNCAN：（經傳譯員）請睇番 KMB-1 文件冊第 109 頁，呢個就係有一啲嘅詳  
18 情，就住車長嘅薪酬，首先想你睇下呢一個月薪水平，喺 2004 年之前聘請嘅員  
19 工同埋 2004 年之後聘請嘅員工，就有一個比較，你可唔可以解釋點解兩者之間  
20 有區別？

21 蘇偉基先生：呢度要講啲歷史，因為喺 2003 年，大家知道香港嘅經濟唔係好，當時  
22 係有個 SARS，喺 2003 年，公司係冇招聘新嘅車長，當然當時亦都個車務係有  
23 個萎縮喺度。喺 2004 之後，我哋再請番新嘅車長，因應當時嗰個勞工市場，當  
24 時個市場嘅工資水平，我哋對新人職嘅車長係有一個嘅調節，反應番當時市  
25 場，所以同係月薪車長，我哋分咗兩組，一組就係 2004 前佢哋現有——嗰時嘅  
26 薪酬我哋唔會改變佢，但係喺 2004 之後，就因應番當時嗰個嘅就業市場經濟環  
27 境，我哋係按市場水平係畀咗個工資出嚟，所以分開兩組。

28 MR DUNCAN：（經傳譯員）唔該晒。我哋睇番 (E) 項，就係呢一個分更嘅津貼，喺  
29 2018 年嘅指引度有提到呢一個分更嘅津貼嘅。

30 蘇偉基先生：幾樣嘢要講一講先，2018 年嗰個 guideline，正如之前我哋講，係  
31 喺 2019 年第二季實行嘅，現時公司遵循政府嗰個嘅 guideline 就係每日十四  
32 小時，其中十一就係可以做駕駛職務，即係話有三小時係休息，公司而家係有  
33 同事係行走呢個叫做 split duty，當 assign 呢個 split duty 畀佢，佢就

1 會申領有個 allowance，就一千九百五十幾釐，佢中間大約係有三個小時係休  
2 息，呢三個小時，我哋用呢一個 allowance 畀佢。

3 主席：（經傳譯員）換句話講，你目前就係跟番 2010 年嘅指引？

4 蘇偉基先生：係。

5 主席：（經傳譯員）唔該。

6 MR DUNCAN：（經傳譯員）呢個分段更嘅派更，你新嘅指引落實之後，仲有冇呢個  
7 分段更嘅呢？

8 蘇偉基先生：呢個會考慮，但係究竟係點樣改法呢，因為會牽涉到同員工會溝通，我  
9 哋會係考慮，但係你話怎樣，我唔可以講，會有。

10 MR DUNCAN：（經傳譯員）即係仲會有分段更？

11 蘇偉基先生：有。

12 MR DUNCAN：（經傳譯員）嗰個津貼係咪一樣定抑或會改呢？

13 蘇偉基先生：會考慮優化。

14 MR DUNCAN：（經傳譯員）呢個點樣計嘅呢？你話\$1,951.50 係一個月，司機唔係  
15 話成個月都做分段更嘅，係咪呀？

16 蘇偉基先生：呢個係唔會嘅，因為我哋派更，如果嗰個係月薪車長，佢係返 split  
17 shift duty，佢會整個月都係返 split shift duty。

18 MR DUNCAN：（經傳譯員）一個月有幾多日司機係要做嘢呢？二十七日？三十日裏  
19 面--三十一日裏面二十七？

20 蘇偉基先生：每六日有一個休息日，如果假設當個月係有公共假期，佢應該係三十天  
21 嘅月份就返二十六天。

22 MR DUNCAN：（經傳譯員）就會讓佢係收到\$1,951.50，即係額外嘅？

23 蘇偉基先生：（經傳譯員）係。

24 MR DUNCAN：（經傳譯員）我想問，分段更嘅車長，你會唔會安排佢哋就係一個月  
25 唔需要返足全個月呢？就譬如五日或者十日。

26 蘇偉基先生：有咁嘅機會嘅。

27 MR DUNCAN：（經傳譯員）如果係嘅話，就唔係全個月，佢哋又幾多錢嘅津貼呢？  
28 係咪千九定係點呢？

29 蘇偉基先生：（經傳譯員）係按比例。

1 MR DUNCAN：（經傳譯員）係日計嘅比例㗎，定抑或點樣計算出嚟嘅呢？

2 蘇偉基先生：睇番佢當月返工嘅日子，然後睇番佢喺呢段日子有幾多日係做  
3 split duty，就乘番頭先講嗰個一千九百五十幾釐嘅數字，就得出佢當月享有  
4 嘅 split shift duty 嘅 allowance。

5 MR DUNCAN：（經傳譯員）大概係計起上嚟，一日有幾多錢呀？

6 蘇偉基先生：約莫 70 釐嘅。

7 MR DUNCAN：（經傳譯員）落去 111 頁，表 3，日薪嘅待遇，我哋見到個分段更嘅  
8 個津貼，喺 (H) 嗰項，個數字就係 \$21.90，我見到 (H) 嗰度係逐個鐘頭計嘅，  
9 如果一個人就係做分段更，佢做咗一個鐘，換句話講，係咪即係會多收  
10 \$21.90？佢會有三個鐘頭嘅休息嘅，即係話係有 60 釐，係咪咁計？

11 蘇偉基先生：（經傳譯員）係。

12 MR DUNCAN：（經傳譯員）即係話嗰個待遇唔同，月薪同日薪嘅待遇就不同？即係  
13 如果淨係睇呢個分段更嘅津貼，佢哋嘅待遇唔同喇？

14 蘇偉基先生：要睇整體，唔可以淨係睇一個 split duty allowance，因為其實日  
15 薪佢哋嘅員工佢個底薪亦都係比月薪高，所以首先兩者有差異，正確，但係差  
16 異原因係要睇整體嘅。

17 MR DUNCAN：（經傳譯員）公司會用嗰個新嘅指引，如果你亦都推行呢個分段更嘅  
18 話，我想問，呢一個津貼係咪都會去檢討呢？

19 蘇偉基先生：（經傳譯員）會嘅。

20 MR DUNCAN：（經傳譯員）或者我哋將嗰個新嘅指引嗰度打出嚟，呢個喺 KMB-2 嗰  
21 度會有嘅，61 頁，而家目前仲係有效嘅，就係舊嘅指引，就喺前面嗰版，就係  
22 60 頁嗰度就有個資料嘅，亦都可以將兩者一齊睇嘅。目前，一般正常嘅更分係  
23 點呢，即係對比起呢個分段更？

24 彭樹雄先生：或者我簡單啲講，其實我哋嗰個 shift 就我哋大致上有兩種，一種我  
25 哋叫做 straight duty 或者係 straight shift，就返可能係八個鐘頭或者  
26 係十個鐘頭，又或者可能會係十二個鐘頭，個工時，呢個講緊工時。另外一個  
27 我哋特別嘅，我哋每日約有二十三個百分比嘅車長就係返緊一個叫做特別更，  
28 正話係 Mr Duncan 所講嘅 split duty，就係佢嘅工時係唔會超過十四個鐘  
29 嘅。

30 MR DUNCAN：（經傳譯員）講到新嘅指引，可唔可以同我哋講下會唔會有重大嘅改  
31 變呢，對於你剛才所提及嘅安排，有冇重大嘅改變㗎？

32 彭樹雄先生：如果喺新嘅指引底下，我哋一個直更，straight duty，一個  
33 working hours，工時係唔會超過十二個鐘，而當中嗰個駕駛時間係唔應該超

1 過十個鐘，另外有--其實分別就同而家係有一個比較明顯嘅分別，但係反而個  
2 個 split duty 個分別就會相對地比較大啲，點解呢？因為運輸署嘅指引底  
3 下，呢個所謂特別更 split duty，佢嘅工時仍然係唔應該超過十四個鐘，但  
4 係佢當中嘅駕駛時間就係唔會超過十個鐘，對比番而家嘅指引，我哋係唔應該  
5 超過十一個鐘，新指引底下，個個駕駛時間係少咗一個鐘頭。

6 另外一個特色--特別嘅地方就係新嘅指引底下，呢個 split duty 嘅車  
7 長佢一定要有一段唔少過連續三個鐘頭嘅休息時間，一定係連續唔少過三個鐘  
8 頭嘅休息時間，呢個就係最主要嘅分別。

9 MR DUNCAN：（經傳譯員）有冇人係會想做呢個特別更，即係分段更，好讓佢可以  
10 有多啲收入，定抑或唔係咁嘅，而係你要下令先至叫到啲人去做呢一個分段更  
11 或者特別更呢？

12 彭樹雄先生：我哋公司係絕對唔會強逼啲同事係去返啲乜嘢嘅特別更分，split  
13 shift，所有返呢啲所謂特別更嘅車長係全部都係自願咁去返嘅。

14 李澤昌先生：補充一點，個個 dynamic 就其實因為九龍巴士佢 cover 個個地區太  
15 大，譬如假設你朝頭早繁忙嘅時間，佢凌晨六、七點鐘已經係繁忙時間，佢早  
16 上嘅繁忙係好高嘅，去到夜晚黑個繁忙就會五、六、七、七、八點又上番嚟，  
17 好似成個駱駝咁兩個峰嚟度。有啲車長其實佢係長嘅譬如話屯門咁嚟計，佢朝  
18 頭早揸完個個繁忙嘅時候，佢返到去，有一段時間，佢可以返番去自己屋企休  
19 下息先，然後再返番去晏晝個段繁忙時間，其實佢係有一個地理個個問題--個  
20 個因素，或者一個車長本身佢有一個--即係佢個工作環境嘅因素，呢個係比較  
21 少部分，呢個係佢哋有呢方面嘅需要，係咁樣。

22 彭樹雄先生：其實整體我哋有特別更嘅車長，因為正如李生講，因為我哋係要  
23 cover 個兩個 peak，即係 morning peak 同埋 evening peak，正正我哋九  
24 巴嘅特色就係因為我哋--即係我哋個個涵蓋嘅範圍實在都頗大。同埋我哋有四  
25 個主要嘅大廠，亦都我哋有啲叫做衛星廠，satellite depot，我哋好多車長  
26 做呢個特別更，佢係可以喺中段嗰幾個鐘頭，其實佢真係可以返屋企休息等等  
27 咁樣嘅。

28 MR DUNCAN：（經傳譯員）睇番呢度，剛才亦都睇過個個待遇，個薪酬，我想問，  
29 新嘅指引如果係採納，亦都會減少個個總嘅時數，亦都有呢個休息時間嘅要求  
30 嘅，會唔會令到你哋部分嘅車長個個收入係會減少呢？

31 彭樹雄先生：我答你嘅問題，就係如果我哋唔去諗個 remuneration 個個，或者  
32 係維持不變，確實如果純粹睇番個駕駛時數，可能有車長係真係個個所謂  
33 take-home salary 係會少咗嘅。不過正話蘇生都講咗，我哋其實都係積極考  
34 慮點樣可以將個個--特別係個個休息時間個 allowance 個個津貼點樣可以  
35 優化佢，從而令到我哋返--特別係特別更嘅車長，佢駕駛時數少咗，休息時間  
36 多咗，而希望佢個個所謂 take-home salary 都唔會減少嘅，呢個就係我哋  
37 管理層，主席亦都係責成咗我哋會去考慮嘅。

1 梁乃鵬先生：（經傳譯員）鄧律師，董事局係指示咗管理層就住特別更嘅司機，雖然  
2 佢哋係會每日工作十個鐘，而唔係十一個鐘，佢哋嘅薪酬唔應該係會少咗嘅。

3 MR DUNCAN：（經傳譯員）有冇同車長講過呢一個訊息呀？

4 梁乃鵬先生：（經傳譯員）事實上喺我哋嘅行動計劃下嘅建議中係有提及嘅，我相信  
5 管理層係已經同工會溝通過。或者彭先生可以補充。

6 彭樹雄先生：好呀，主席。Mr Duncan，我其實亦都初步同啲工會嘅代表，亦都係  
7 我哋同廠嗰個嘅管理層亦都係已經將個訊息帶咗畀啲前線車長，我哋管理層係  
8 會認真咁樣去優化呢一個嘅 remuneration package，希望佢哋嗰個 take-  
9 home salary，唔會因為個新指引實行而少咗嘅，呢個我哋係完全正面，車長  
10 亦都係完全正面嘅。

11 梁乃鵬先生：（經傳譯員）我想補充，如果車長嘅工時係由十一個鐘減少到十個鐘，  
12 我哋亦都會考慮係咪需要--即係個要求係咪需要由十四個鐘減低到十三個鐘。  
13 雖然運輸署係容許可以每日有十四個工時，但係如果我哋嘅目標係想由每日嘅  
14 工時由十四降至到十三，我哋都會考慮。

15 主席：（經傳譯員）鄧律師，如果我有記錯，之前作供嘅時候，城巴係會咁樣做嘅，  
16 即係佢哋而家係冇特別更，但係佢哋之後係會實施，而嗰個每日嘅工時規定係  
17 十三個鐘嘅。

18 梁乃鵬先生：Yes.

19 MR DUNCAN：（經傳譯員）我相信係正確嘅，主席。梁博士，我想你睇番 KMB-1 文  
20 件冊嘅第 149 頁，喺第 12 項，即係喺第 149 項嘅第 12 項係咪已經反映咗呢一  
21 點？

22 彭樹雄先生：Yes, Mr Duncan.

23 梁乃鵬先生：（經傳譯員）喺二嗰一段，喺右面嗰一欄。

24 MR DUNCAN：（經傳譯員）係咪就係最後一段所講呀？

25 梁乃鵬先生：（經傳譯員）冇錯嘅。

26 MR DUNCAN：Yes, thank you.

27 梁乃鵬先生：（經傳譯員）唔該晒鄧律師。

28 MR DUNCAN：（經傳譯員）城巴作供嘅時候，即係喺第 4 天嘅謄本入面，第 75 頁 1  
29 至 6 行嘅。

30 主席：Thank you.

31 MR DUNCAN：（經傳譯員）我哋而家睇第 180 頁，呢個係 TD-1 文件冊嘅。

1 主席：（經傳譯員）首先，李先生，你同我哋講過返特別更嘅車長嘅休息時間，佢哋  
2 嘅休息時間係會長啲嘅，你講有部分係可以返屋企，你可唔可以大概話我哋知  
3 返特別更嘅車長之中有幾多車長係喺巴士站開始佢哋嘅休息時間，而唔係喺車  
4 廠呢？因為我哋係參觀過屯門嘅車廠，我哋明白呢啲設施係有啲分別嘅，所以  
5 我哋嘅問題就係大概有幾多嘅車長會喺巴士站開始佢哋個個休息時間呢？

6 李澤昌先生：我要返去畀呢啲數據你，我有嘅，我哋有嘅。主要佢哋係三個地方休  
7 息，一個就係返屋企，一個就係喺巴士站個度，一部分就係喺個個巴士個個  
8 depot 個度嘅。

9 主席：（經傳譯員）唔該晒。

10 MR DUNCAN：（經傳譯員）TD-1 文件冊嘅第 180 頁，呢一頁就係喺 2018 年至到  
11 2022 年嘅遠期計劃嘅一部分嚟嘅，呢個就係你公司呈交畀運輸署嘅，如果我有  
12 了解錯，呢個係巴士專營權嘅其中一項要求嚟嘅，係必須要提供一個遠期計  
13 劃，就係每年要呈交畀運輸署嘅，我相信呢一份係最新嘅計劃嚟嘅，係咪？

14 蘇偉基先生：最新嗰份係由 2019 年去 2023，就我哋需要喺 8 月 17 號，淨係呢個  
15 section，section 8 bus safety 提交，嗰份亦都係 ready to  
16 submission，我哋應該係下個禮拜初係可以 ready，呢個現時 submit 咗最  
17 latest version。

18 主席：（經傳譯員）呢一份，我哋而家睇緊呢份計劃係幾時呈交㗎？

19 蘇偉基先生：而家我哋見緊嗰份應該喺 2017 年嘅 6 月十幾。

20 MR DUNCAN：（經傳譯員）遠期計劃嘅呢一部分就係關乎巴士安全嘅，...

21 主席：（經傳譯員）首先，你話你會喺今年 8 月 17 號呈交一份新嘅計劃，係咪？

22 蘇偉基先生：（經傳譯員）冇錯嘅。

23 主席：（經傳譯員）你可唔可以提供嗰一份報告嘅相關章節畀委員會呀？

24 蘇偉基先生：（經傳譯員）可以。

25 主席：（經傳譯員）唔該。

26 MR DUNCAN：（經傳譯員）就住巴士安全，就係喺呢一個遠期計劃嘅第 8 章嘅，我  
27 想你睇一睇 8.2 段，就係分析過去兩年嘅巴士意外，我想你睇第 181 頁，呢個  
28 就係以巴士車長嘅年齡係分類呢一個意外率嘅，呢一段就講，結果顯示，一啲  
29 年輕嘅車長就會同一啲更加高嘅意外率有關，因為主要係呢啲車長嘅駕駛巴士  
30 嘅經驗係比較少，而佢哋喺頭幾月嘅期間就會遇上更多意外嘅，呢個就係第  
31 181 頁所講嘅。

32 然後喺第 182 頁亦都有一個相似嘅論點，就喺 8.2.4 段，「如果以服務

1 嘅年期去將呢個意外率去分析，結果就係顯示喺 8.3 呢個表嘅，就係招聘後嘅  
2 第一年發生意外嘅機會係相對地高嘅。」

3 主席：（經傳譯員）係咪呢度所講嘅係咪咁樣呀？

4 蘇偉基先生：（經傳譯員）係。

5 MR DUNCAN：（經傳譯員）有冇任何嘅措施去針對呢一個現象呢，即係話針對頭一  
6 年服務嘅車長？

7 蘇偉基先生：唔係好掌握到你問乜嘢。

8 MR DUNCAN：（經傳譯員）根據我嘅經驗，當我細個嘅時候，我都成日搭巴士，啲  
9 車長通常有一個副車長喺旁邊，然後就畀一啲指示或者係提示佢哋嘅，你哋公  
10 司有冇類似嘅安排呢？

11 蘇偉基先生：有，我哋亦都有留意到頭先你所指出嘅數字，新入職嘅車長通常都係年  
12 輕啲，我哋而家喺佢揸車開首，我哋係有一個夥伴車長係陪伴住佢，等佢可以  
13 個信心，嗰個對路面嘅實習、對乘客嘅處理係更加有信心。我哋亦都喺車長第  
14 三個月度係有個工作坊，同佢分享佢開首做巴士車長嘅經驗，從而希望對一啲  
15 新入職嘅車長儘快熟習嗰個工作環境，減少嗰個交通嘅意外率。

16 MR DUNCAN：（經傳譯員）呢啲夥伴車長呢個安排係開始咗幾耐？

17 彭樹雄先生：Mr Duncan，或者我簡單咁介紹呢啲所謂嗰啲叫做 buddy driver 或  
18 者 buddy inspector 嗰個嘅工作。所有全職嘅車長同埋一啲嘅我哋而家有啲  
19 叫做半職車長，就正話 Mr Duncan 所講嘅，譬如會唔會有啲家庭主婦佢每日可  
20 以做四個鐘，一個禮拜做五日或者做六日，我哋嗰啲叫做半職車長？我哋個  
21 buddy driver 就係會喺佢完成咗我哋駕駛訓練學校嗰兩個 phases 嘅  
22 training 之後出嚟，我哋就會全日有個夥伴車長陪住佢，係包括佢第一日、  
23 第二日嘅工作，然後就再喺第七日同埋十六日係會完全陪伴住呢個新車長嘅駕  
24 駛嘅。

25 另外我哋嗰啲兼職車長，我哋亦都係會有夥伴車長嘅計劃，但係大家要明  
26 白因為呢啲以往我哋所請嘅兼職車長佢哋全部係有 10 牌同埋 17 牌，即係換句  
27 話講，佢哋亦有巴士牌同埋有專利巴士牌，我哋嗰個夥伴車長係會陪佢第一  
28 日。

29 另外，我哋喺今年年初，我哋亦都有一個所謂夥伴督察嘅計劃，每一個新  
30 加入嘅車長，我哋會有一個指定嘅督察，就會同佢聯絡，我哋亦都做咗一啲所  
31 謂 cue card，一啲嘅 card 仔，裏面有晒我哋嗰啲督察嗰啲聯絡嘅方式，有晒  
32 所有屬廠嗰啲經理同埋嗰啲助理經理同埋車務主任嘅電話。

33 呢個夥伴督察就會係一個除咗駕駛技術方面，都係一個全面嘅支援嘅，好  
34 似一個 mentor 咁，係喇，你可以用一個字，就係“mentor”咁樣，個車長有

1 啲乜嘢疑難，有啲咩嘢困難，有咩嘢困惑，佢都會直接搵呢個夥伴督察，呢個  
2 就係我哋希望就係能夠可以令到個新車長儘快融入嗰個工作裏面。

3 另外，蘇生講咗，我哋所有新車長，當佢工作咗三個月之後，我哋會搞一  
4 個工作坊，就係會所有車廠嘅管理、駕駛導師，甚至我都會出席，同嗰啲車長  
5 傾偈，睇下佢哋有啲乜嘢--過去嗰三個月遇到啲咩嘢困難。同埋我哋每一次我  
6 哋都會請一個資深嘅車長嚟度同大家分享點樣可以處理日常工作等等。呢個我  
7 哋每一個新出嚟三個月，我哋一定會做嘅。

8 MR DUNCAN：（經傳譯員）我個問題就問呢個咁嘅計劃，即係夥伴計劃係幾時開始  
9 呢？

10 蘇偉基先生：Buddy driver 呢個概念喺二零一三-- 12 年已經有，但係我哋係不  
11 停去優化佢。

12 MR DUNCAN：（經傳譯員）唔該；

13 主席：（經傳譯員）會唔會方便就而家開始我哋就係小休係午飯？

14 MR DUNCAN：（經傳譯員）好。

15 主席：（經傳譯員）各位，我哋而家休息，就兩點半再繼續，唔該晒。

16  
17 下午 1 時 01 分押聆訊押後

18  
19 下午 2 時 30 分恢復聆訊

20 出席人士如前。

21  
22 主席：（經傳譯員）各位午安。大律師。

23 MR DUNCAN：（經傳譯員）多謝你，主席。各位先生，請你而家翻去 180 頁，嗰個  
24 文件冊係 TD-1。响我哋食午飯之前，我就叫你睇咗 182 頁嘅。而家或者你都係  
25 請翻到 183 頁。呢度一個分析，即係公司進行一個分析，意外嘅性質嘅分析。  
26 我呢度想就住表格 8.1 問幾個問題。

27 第一行呢度講係乘客失去平衡百分率就係百分之五十一點五。另一個項目  
28 响個表格中間下面嗰度，巴士內嘅乘客受傷嘅。呢個係--你有咩嘢分別？

29 蘇偉基先生：“Passenger loss of balance”，我哋係講緊一啲意外個乘客跌  
30 倒，或者係冇緊握扶手，而架車箱係移動緊嗰陣時嘅。“Injury to  
31 passenger inside bus”，就係因為有意外，而個意外個乘客喺個車箱本身

1 入面，因為外來嘅意外而導致乘客坐喺架車入面受傷，佢係坐喺度，佢唔係  
2 loss of balance，但係意外會造成佢有個損傷。

3 MR DUNCAN：（經傳譯員）你意思就坐住响嗰度，點解會受傷嘅，點解會有咁樣嘅  
4 事？

5 蘇偉基先生：假設有個意外係碰擊，佢坐咗喺個車箱嗰度，假設我當番一個意外翻  
6 側，佢坐咗喺度，佢係因為一個意外而受傷，佢就係 “Injury to  
7 passenger inside bus”。

8 MR DUNCAN：（經傳譯員）呢度有另一個百分比嘅，嗰度係巴士翻側，最後嗰個。  
9 會唔會嗰度都已經包括咗？

10 黃祥明先生：或者另外一個例子可以話畀你聽，有啲乘客坐喺架車度都會有受傷，就  
11 係有時我哋啲巴士經過啲樹突咗出嚟嘅地方，棵樹打落個巴士度係啲玻璃碎，  
12 就會引致呢個乘客喺車裏面受傷，呢個同嗰個乘客喺車跌嚟嗰個受傷係兩樣嘢  
13 嚟嘅。

14 蘇偉基先生：亦都最近有個例子，就係上個月喺中環，架車行行下，條路突然間有個  
15 石屎撞爛咗個車底，嗰次就有乘客受傷，但係有機會就係咁樣，呢個咪意外。

16 MR DUNCAN：（經傳譯員）我有解釋錯--即係話公司係定咗呢啲唔同嘅類別，如果  
17 係意外就會分類，根據呢個各種嘅分類，就係將佢定為邊一種，啱唔啱？

18 蘇偉基先生：（經傳譯員）係嘅。

19 MR DUNCAN：Thank you. （經傳譯員）呢度就乘客失去平衡就百分之五十一點  
20 五。

21 8.2.7 佢話就超過一半因為係嗰個巴士向行駛中需要煞車，引致失去平衡  
22 嘅。有冇其他一半嘅事件，佢哋係咩嘢原因造成？

23 黃祥明先生：呢個乘客喺車箱失平衡而跌嚟有好多個原因嘅，其中一個原因好可能係  
24 啲車長駕駛嘅時候，就唔係太過為意呢個乘客是否係已經企好或者進入咗呢個  
25 車箱。另外一個可能性，就係個車長本身佢嗰個操控架車嘅時候，就唔係咁妥  
26 當。即係我哋幾日前曾經討論過嘅一啲叫 “acceleration”，或者佢嗰個  
27 “harsh braking”，亦都會引致呢啲情況。另外一啲情況我哋睇到有好多時  
28 啲乘客本身就係上車之後，就並冇緊握扶手，因而喺架車行駛期間，或者需要  
29 有啲車進入佢嘅路線，亦需要閃避期間，呢個乘客係會失平衡而跌倒嘅。

30 MR DUNCAN：（經傳譯員）呢度第二行，撞頭、撞尾，相撞嘅事項...

31 主席：（經傳譯員）我想問一樣嘢先，如果有意外，乘客就失去平衡受傷，成為呢度  
32 統計涵蓋嘅一個事件，就有一半係乘客失去平衡嘅。你有冇研究你哋嘅數據，  
33 即係話加速、減速嘅情況，你有冇研究？

1 黃祥明先生：喺有啲乘客跌嘅案件裏面，我哋係會喺調查呢架車嘅車長操控呢架車  
2 是否有加速或者減速，所以答案係有，我哋有睇到。另外，我哋喺呢個車嘅  
3 CCTV 亦都可以睇得到當時個車嘅情況。

4 主席：（經傳譯員）或者我再問，你用咩嘢數據嚟調查加速、減速？

5 黃祥明先生：我哋都討論過個黑盒係會記錄當時個車嘅情況，呢啲情況我哋喺個  
6 server 嘅資料嗰度係能夠睇得到，亦都可以鑑別得到呢個車長當時操控架車嘅  
7 時候係咪有突然加油或者突然減速呢樣嘢。

8 主席：（經傳譯員）有冇咩嘢統計數字，即係研究完之後，調查完之後個結果有冇統  
9 計？譬如話係減速佔幾多，加速佔幾多？

10 黃祥明先生：有一個實質嘅統計數字。

11 主席：（經傳譯員）點解有？

12 黃祥明先生：我哋遇有呢啲情況嘅時候，就會處理嗰個車長嘅違規，但係我哋就並冇  
13 將呢啲數字綜合做一個嘅記錄。

14 主席：（經傳譯員）但係呢度佔咗你哋——呢個因素佔咗意外成因一半㗎。

15 蘇偉基先生：同意係要有呢個記錄，因為呢個係講緊 2015/16，而家我哋係提供唔  
16 到。但係正如頭先所講，我哋做緊新嗰個，我要睇清楚係咪有個記錄，loss  
17 of balance 有幾多，harsh braking 幾多，係 acceleration 做咗，我呢  
18 刻我答唔到。

19 主席：（經傳譯員）而家係咪做緊，2018 年你有冇做呢樣嘢？

20 蘇偉基先生：可以做番。

21 主席：（經傳譯員）你係咪做咗，過去式？

22 蘇偉基先生：我唔清楚呢一刻。

23 主席：（經傳譯員）不過係可以做到嘅？

24 蘇偉基先生：（經傳譯員）係嘅。

25 主席：（經傳譯員）今年有幾多個乘客係因為失去平衡受傷，大概有幾多人？

26 蘇偉基先生：三百嘅。

27 主席：Thank you. （經傳譯員）你調查嗰個乘客因為失去平衡嘅情況，你係有一  
28 啲黑盒嘅數據，你嗰個伺服器有嘅，同埋你都有巴士上面嗰啲閉路電視嘅資料  
29 嘅？

30 黃祥明先生：（經傳譯員）係。

1 主席：（經傳譯員）所以你將你嗰啲科技嘅設備一齊睇，你就可以有一個合理嘅推  
2 斷，究竟當時嘅煞車係咪一個合理嘅原因？

3 黃祥明先生：Correct.

4 主席：（經傳譯員）有冇任何嘅統計數字？

5 黃祥明先生：我剛才講過，我哋有調查呢樣嘢，但係我哋冇將呢個記錄做一個數字。

6 主席：（經傳譯員）你有話簡單嘅統計數字，譬如話四百四十五人受傷，有三百宗個  
7 案佢煞車係合理，有冇啲咁簡單嘅統計數字？

8 黃祥明先生：呢啲數字係有記錄嘅，但係我冇將佢歸納做一個統計，喺呢方面嘅。

9 梁健宏先生：或者我嘗試補充一點，所有呢啲意外都會分析嘅，所有啲意外都分番開  
10 係咪嗰個車長係負責任嘅。如果個車長唔係負責任嘅話，佢可能真係就住當其  
11 時個交通狀況，佢需要 sudden braking 嘅。所以如果我哋睇番個車長要負責  
12 任嗰啲個案，我相信嗰度應該我哋再做多數據分析。

13 主席：（經傳譯員）但係假設當你做，你一定要有個統計嘅數據嘅。

14 梁健宏先生：我相信嗰啲資料喺度嘅，我哋應該返去做啲數據分析，從而睇睇有咩嘢  
15 我哋可以再做好啲。

16 主席：（經傳譯員）呢個唔係一個重要嘅監察嘅工具，即係監察你個司機、車長嘅行  
17 為，即係話係咪突然煞車？但係你調查，你又覺得有需要咁樣睇嘅？

18 梁健宏先生：同意。

19 主席：（經傳譯員）大律師。

20 MR DUNCAN：（經傳譯員）多謝你，主席。我哋暫時唔睇表格 8.1，睇番表格  
21 8.2。呢度亦都係從個意外性質做分類嘅，今次就唔係百分率，而係實際有幾多  
22 宗嘅意外。

23 主席問過你乘客失去平衡嘅呢個類別，呢度受到影響嘅乘客數目係咪有記  
24 錄？你話 2018 年，到目前為止三百五十個乘客因為咁受傷。

25 蘇偉基先生：係，約莫呢個而家記到嘅數係。

26 MR DUNCAN：Approximately 300, yes, thank you. （經傳譯員）有冇可  
27 能睇睇呢個記錄，根據呢個一行、一行睇落去，根據呢度乘客嘅數字、受影響  
28 嘅人客數字，每一種類別嘅意外逐個睇？

29 蘇偉基先生：呢個係冇數據，嗰個係講緊個個案嘅宗數㗎。

30 主席：No. （經傳譯員）8.2.8 就只係好簡單咁樣描述咗呢一啲意外嘅性質，係咪  
31 有可能有一千個咁嘅乘客係失去...

1 蘇偉基先生：I agree. I know what you mean. （經傳譯員）但係呢個報  
2 告係有個乘客嘅數喺度。如果你話 2018 年，我哋可以提供番乘客嘅數字。

3 主席：（經傳譯員）係咪即係話三百個以外，同埋你都話畀我哋聽有幾多乘客係失去  
4 平衡？

5 蘇偉基先生：可以。

6 主席：（經傳譯員）有可能所有企喺度嗰啲人都失去平衡個啲，你可唔可以畀呢一個  
7 資料我哋，係 2018 年嘅？

8 蘇偉基先生：Yes.

9 主席：（經傳譯員）可唔可以呢一度每一欄嘅數字，你都畀埋乘客嘅數字我哋？

10 蘇偉基先生：我嘗試，但係我相信有困難嘅。因為嗰個數據講緊 2015、2016，但係  
11 喺 2018 年，我哋可以提供番個案同埋涉及嘅人數，係關於 loss of  
12 balance 嘅意外。

13 MR DUNCAN：（經傳譯員）係，我都係知道你係諗緊 2018。不過譬如話有一個題  
14 目，就係話呢架巴士係翻側或者係直情翻車嘅，可唔可以有乘客數字？

15 蘇偉基先生：呢個可以，呢個一單個案當然可以。

16 MR DUNCAN：（經傳譯員）同埋如果係撞到啲動物或者其他廿七宗嘅，你會唔會  
17 都好容易搵到受影響嘅乘客或者係受傷嘅乘客？

18 蘇偉基先生：可以。

19 MR DUNCAN：（經傳譯員）好多謝你，當你畀 2018 年嘅數字我哋嘅時候，畀埋呢  
20 啲就好嘞。

21 蘇偉基先生：可以。

22 MR DUNCAN：（經傳譯員）好，唔該。

23 講番轉頭，睇番呢一啲表，我想理解多啲。第二個就係話追撞，另外低啲  
24 就係同其他嘅車輛碰撞，就係有向後、向前。呢兩個有咩嘢分別？第一個就係  
25 13.5 個百分比，呢兩者有咩嘢分別？

26 黃祥明先生：Head-on/tail 嘅 collision，通常我哋係會睇一啲停定咗嘅物件  
27 係頭尾相撞，呢個我叫做 head-on/tail 嘅 collision。第二個 collision  
28 好多時係因為一個轉線而引致有車輛嘅碰撞，我哋要斷為呢個  
29 classification，就係 collision with 呢個 changing lane 嘅  
30 vehicle。

31 MR DUNCAN：（經傳譯員）呢個就係第二個標題同埋第三個標題之間嘅分別？

1 黃祥明先生：冇錯。

2 MR DUNCAN：（經傳譯員）再低啲，「同其他車輛碰撞」嗰個括號裏面，就係話向  
3 後溜或者向前溜，或者係倒後，有咩嘢分別？

4 黃祥明先生：有時啲車輛嘅褪後而引致呢個碰撞，就係會喺呢個 classification  
5 裏面。

6 MR DUNCAN：（經傳譯員）好，上番去“J/O collision”就係百分之六，有四十  
7 八宗，呢個係咩嘢意思？

8 黃祥明先生：呢啲係喺 junction 位，路口嘅 junction 位嘅碰撞。

9 MR DUNCAN：（經傳譯員）好，唔該。下低係「進入 R/A 碰撞」咩嘢意思？

10 黃祥明先生：呢個係一個進入迴旋處引致嘅碰撞，roundabout。

11 MR DUNCAN：（經傳譯員）當你提供 2018 年嘅統計數字，即係關於受傷乘客嘅數  
12 字嘅時候，請問你可唔可以都幫我哋區分一下，傷同亡嘅數字？

13 黃祥明先生：可以。

14 MR DUNCAN：（經傳譯員）好，唔該。我而家想講另外一個題目，今朝早都講過，  
15 我相信你有兩位人士係提過，就係關於非法泊車嘅問題。委員會唔係淨係由你  
16 哋各位，由其他嘅以前嘅證人都聽到，就係話呢個安全嘅隱患嚟。

17 我諗今朝早其中你哋一位都協助委員會，就話畀我哋聽你哋喺呢一方面採  
18 取咗咩嘢步驟。尤其是係向唔同嘅政府部門係舉報或者報告，就令到個情況有所  
19 改善。請問你可唔可以睇下雜項文件套第 2 號，第 644 頁。呢一度就係由 643  
20 頁開始，一路去到 644，然後係有翻譯本，644-1，佢係繼續去到 644-2 嗰一  
21 頁。

22 你會睇到呢一份文件係委員會收到，係來自一個民主聯盟咁樣嘅組織。我  
23 哋睇番翻譯嘅第 2 頁嗰度，係民主陣線，應該係去番第 1 頁嘅底部嗰度，644-  
24 1 嗰度。我哋睇到係有一個意見，就係話可以喺巴士站嗰度永遠停止有非法泊車  
25 嘅時候，就話應該係有正確嘅政策，同埋係要睇下啲法律係咪已經過咗期，一定  
26 係要多管齊下咁樣去處理。

27 佢就話第一個建議就係跟番新加坡喺成個巴士車隊嗰度係安裝攝錄機，新  
28 加坡自從 2008 年就係喺巴士上面安裝攝錄機。呢一啲攝錄機就係裝置喺巴士司  
29 機個位側邊，當司機發現係有車停喺巴士站，佢哋就可以揸一個掣，就可以錄影  
30 五至十分鐘，巴士公司就會將有關嘅攝影帶交畀警方，警方就可以檢討，睇番個  
31 個錄影帶，然後大概有兩個禮拜之內就會將告票寄畀車主。每一張告票就係香港  
32 800 元，另外如果係遲交嘅話，就會額外收 5,000 元，同埋甚至係監禁三個  
33 月。

1 喺第一年，新加坡就記錄咗二千一百一十二宗嘅情況，就係啲司機入咗係  
2 巴士線，或者係喺巴士站嗰度畀佢哋嘅乘客上落客嘅。2014 年，喺巴士站同埋  
3 係喺巴士線裏面非法泊車，就已經係降到八八六宗，就係好成功可以阻嚇啲司機  
4 唔好再喺巴士站嗰度停車。

5 我哋聽到一啲證據，就係公司係裝置攝錄機，就係向住巴士個司機位，另  
6 外仲有一個攝錄機，就係有一個前置鏡頭，就好似話係一個監察嘅攝錄機嚟嘅。  
7 想請問你而家呢一啲嘅攝影機有冇其中一部係用嚟去攝錄喺巴士站嘅非法泊車嘅  
8 啲車輛，而家有冇？

9 彭樹雄先生：Mr Duncan，我簡單嘅答案係冇嘅。不過如果你容許，我可以有啲嘅  
10 補充。

11 MR DUNCAN： Please.

12 主席：（經傳譯員）請你講，請你講。

13 彭樹雄先生：其實就住呢一個，我哋將個錄影片段交界警方作出違例泊車嘅情況，我  
14 舊年嘅 10 月、11 月開始。因為我負責荔枝角廠，我有一個先導計劃同警方係  
15 大家協調咗，就係正正用呢一個方式係去檢舉一啲嘅喺巴士站裏面嘅違例泊  
16 車。

17 主席：（經傳譯員）你做咗啲咩嘢？

18 彭樹雄先生：我哋嘅做法就係我用咗一個嘅試點，就係我哋喺尖沙咀廣東道 271 巴  
19 士總站嗰條線係去沙田廠嘅，由荔枝角廠去沙田廠嘅。因為嗰個巴士總站經常  
20 係泊滿違例泊車。另外廣東道，大家俗稱嗰個「名店街」，其實嗰個車嘅流量  
21 非常之高嘅。

22 我當時我係荔枝角廠嘅總經理，我就同警方開會。我自己寫咗一張  
23 standard 嘅 statement，即係一個 statement，然後就我叫我啲前線嘅督  
24 察，如果見到違例泊車，我哋就用我哋嘅手機影低嗰個嘅片段，然後我哋將呢個  
25 片段加埋一張我哋叫做“standard pro forma”，其實好簡單，我哋淨係寫  
26 日期、時間，因為地點已經係--我哋係用咗嗰個做試點。我哋就畀西九龍交通  
27 就作出檢控。

28 呢個做法，我哋發覺非常之有效嘅。因為我哋開始檢控嘅時候，我亦都睇  
29 到有啲社交媒體開始報導，就話「咦，泊喺巴士站原來會畀人告」咁樣。因為我  
30 哋曾經喺廣東道，我哋好多時有違泊，我哋報警。但係因為實在差人嚟到，啲車  
31 走咗，and then 差人走咗，啲車又返轉頭。呢個其實係一個治標但係唔治本嘅  
32 方法。所以我就用我哋嘅 initiative，我哋同 police 夾埋發覺係有效嘅。  
33 大家都應該睇得到，最近警方亦都做咗兩個先導計劃，而家佢將個先導計劃係擴  
34 充晒去五個陸上嘅警區，警方其實而家都係做緊呢一樣嘢。

35 所以 Mr Duncan，簡單答，我哋係有用我哋嘅車上面裝嘅 CCTV 檢控，不

1 過我哋嘅先導計劃，加上而家警方嗰個做法，同埋最近嗰個違泊嗰個罰款嘅巴士  
2 站，亦都係增加咗，呢個係我嘅答案，Mr Duncan。

3 主席：（經傳譯員）你點解唔用車上面嗰啲時時開著嘅閉路電視嚟用？

4 彭樹雄先生：其實呢個我哋都可以咁樣做，不過只不過我哋當時用嗰個先導計劃，就  
5 係好多時我哋比較方便，就係我哋啲 inspector，我哋啲督察，佢哋本身會揸  
6 住架巡邏車去巡邏嘅。如果用佢哋嘅手機，其實嗰個便捷度可能會快啲。當  
7 然，主席，呢個係我哋下一步，我哋如果車上面嗰個 CCTV，其實我哋有錄像，  
8 其實我哋都可以咁做嘅，主席，多謝。

9 主席：（經傳譯員）假設其實好簡單，你揸一個掣，然後就可以記錄咗嗰個時間，到  
10 時有人睇嘅時候都睇到。

11 彭樹雄先生：冇錯，主席，冇錯。如果可以令到違泊減少，我哋一定會做嘅，主席。

12 主席：（經傳譯員）大律師。

13 MR DUNCAN：（經傳譯員）我諗從你所描述，呢個做法就令到個非法泊車嘅情況有  
14 改善？

15 彭樹雄先生：如果用番我哋廣東道 271 線嗰個巴士總站，我可以答係有好大嘅改善  
16 嘅。

17 MR DUNCAN：（經傳譯員）淨係嗰個總站？

18 彭樹雄先生：因為警方嗰個全面先導計劃，其實啱啱先至正式開始。我哋都要一啲時  
19 間睇下到底嗰個成效係咪真係咁好，不過我可以答你，直至到琴日為止，嗰個  
20 違泊嘅情況都唔係——整體嚟講，我講，都唔係一個好大嘅改善，我哋睇唔到。

21 MR DUNCAN：（經傳譯員）警方同埋嗰個九巴，關於呢個咁嘅試驗計劃，有冇咩嘢  
22 通訊嘅記錄？

23 彭樹雄先生：我有一啲嘅電子郵件，我哋亦都有一啲嘅 standard pro forma，即  
24 係我嗰個 statement，就有關於尖沙咀廣東道 271 總站，我可以畀到個委員會  
25 嘅。

26 MR DUNCAN：（經傳譯員）唔該晒。

27 主席：（經傳譯員）請你交畀我哋。

28 彭樹雄先生：冇問題，我哋會 provide。

29 主席：（經傳譯員）嗰個電郵，即係同警方，同埋你用嘅標準表格。

30 彭樹雄先生：冇問題，主席，冇問題。

31 主席：（經傳譯員）唔該晒

1 MR DUNCAN：（經傳譯員）如果有理解錯誤，你會係即係睇下可唔可以採納類似新  
2 加坡嘅制度或者做法？

3 彭樹雄先生：如果--我哋絕對係持開放態度，我哋絕對係同意咁樣做。

4 MR DUNCAN：（經傳譯員）你話你開放態度，你係咪會研究？

5 彭樹雄先生：我哋會跟進，我哋會 look into it。

6 主席：（經傳譯員）你投訴有問題，有好簡單嘅方法嚟解決，係咪？

7 彭樹雄先生：主席，我想講一講，其實喺我哋呢一個舊年喺廣東道呢一個先導計劃之  
8 前，其實係有試過淨係基於一個影像去作出交通違例嘅發出嘅定額罰款通知書  
9 嘅，呢個係以前有試過用影像嘅。

10 主席：（經傳譯員）係有好多控告都係靠啲閉路電視好多錄影嘅片段嚟到進入，咁  
11 唔啱？

12 彭樹雄先生：主席，容許--其實你喺琴日嘅聽證會都講咗，我都係一個喺警務處工作  
13 過，我亦都喺交通部工作過。就住違例泊車，我淨係講違例泊車，illegal  
14 parking，以往係有用影像去做檢控。佢用影像檢控啲可能係超速、衝紅燈  
15 等等，主席。

16 主席：（經傳譯員）呢個可能係警察或者係律政司嘅一個限制，但係法律上有規定你  
17 唔可以用呢啲做證據。

18 彭樹雄先生：所以今年年初我知道從報章得悉，警務處開始就係用影像去檢控一啲  
19 illegal parking，即係我哋俗稱，即係或者 police 俗稱，呢啲叫「死  
20 車」，即係 stationary 嘅 illegal parking，就唔同一啲嘅 moving  
21 vehicle，such as speeding、jumping red light、crossing  
22 double white line，et cetera，主席。

23 梁乃鵬先生：（經傳譯員）彭先生，我諗我哋應該係要自己做一個我哋應該做嘅行  
24 動，睇下警方有咩嘢回應。我諗我哋會係做番我哋嘅本份。

25 主席：（經傳譯員）係，唔該晒。大律師。

26 MR DUNCAN：（經傳譯員）請你而家睇第十一日啲個聆訊嘅謄本。

27 主席：（經傳譯員）邊一個文件冊？

28 MR DUNCAN：（經傳譯員）第 4 號。

29 主席：（經傳譯員）邊個嘅證供？

30 MR DUNCAN：（經傳譯員）係 Lam Kam Piu，佢係巴士員工嘅工會嘅代表嚟。

31 請睇 153 頁嘅證供，工會就有啲關注嘅。佢話就係關於使用呢個 12.8 米

1 長嘅巴士，係用後輪驅動嘅巴士，佢哋對於喺香港使用呢種巴士有啲關注嘅。見  
2 到第 13 行，呢個林錦培（原文照錄），佢話「由於香港嘅路面嘅情況，即係道  
3 路比較窄，好多行人使用呢個 12.8 米嘅巴士係會帶來一啲危險嘅」，去到第  
4 17 行，佢話「呢個 12.8 米巴士係後輪驅動嘅。响嗰個過彎嘅時候，對個巴士  
5 嚟講當然好，但係其他嘅車可能唔知道呢個巴士係後輪嚟到驅動。即係話運輸署  
6 都係出過一啲嘅通知，就等其他司機知道嘅，但係其他司機未必知道嘅。因此會  
7 對隔離行駛嘅車輛造成一個危險」。林先生就一路講，講到呢一頁，155 頁  
8 嘅。

9 我想問一個問題，12.8 米嘅巴士，香港應用得有幾廣泛？同埋巴士公司係  
10 咪同意林先生嘅睇法，就係呢啲巴士响某啲窄嘅路會造成危險？

11 梁健宏先生：12 米 8 嘅車，香港有嘅，絕大部分所以都係冇尾輪轉向嘅。尾輪轉向  
12 亦都有佢嘅好處，我哋舊年有一部試過，不過就有啲擔心，所以變咗嗰架車我  
13 哋都改番做普通嘅 12 米 8 嘅車，就有尾輪轉向。

14 講番 12 米 8 嘅車，佢就個長度係長咗，不過就當然，嗰個乘客載客量就會  
15 多咗嘅。呢啲係一啲繁忙嘅或者載客量高嘅路線，尤其是係長程嘅路線係的而且  
16 確係幫到個服務。呢啲路線或者呢啲咁嘅 12 米 8 長嘅車，相對 12 米車係長  
17 咗，但係啲路線都係特定要試過嘅，唔係話普通一條路線。呢啲 12 米 8 嘅車可  
18 以行邊啲路線，係會同運輸署一齊試過路，知道呢架車係安全可行，我哋先至可  
19 以將呢啲 12.8 米嘅車係 deploy 落去嗰啲路線嘅。暫時目前為止，九巴接近有  
20 大約二百部呢啲咁嘅 12 米 8 車。

21 李澤昌先生：或者補充少少咩嘢叫尾輪轉向，其實佢因為大部分嘅巴士而家都係頭輪  
22 轉嘅。因為如果你--因為後面佢係三軸嘅關係，佢後面有一個軸都係可以一齊  
23 轉，所以個車轉彎嘅時候，或者係行一啲路比較即係急少少，轉啲急彎嘅時  
24 候，佢入啲彎就有擺得咁犀利。當然即係香港其他好多公司都仲係有用緊，我  
25 哋第一批初初出嚟嘅時候，就係有呢個尾輪轉向，所以我哋嚟咗試咗一架。嗰  
26 架其實試咗啲同事，啱啱就講緊都對佢有啲唔係好舒服，我哋都停用咗。

27 主席：（經傳譯員）梁生，你有啲嘅關注即係後輪嚟到係轉向。你有啲咩嘢關注，係  
28 咪頭先李生講？

29 梁健宏先生：我啲 concern 係車長嘅 concern，因為尾輪轉向，佢嗰個 turning  
30 circle 會細啲嘅，但係佢揸起上嚟嗰個 characteristic 就有啲唔同，個  
31 outswing 就同普通嗰啲冇尾輪轉向嗰啲車嗰個 outswing 係大咗啲，所以變  
32 咗喺嗰個習慣個問題嗰度要適應嘅。有個問題嘅，如果你今日揸一架冇尾輪轉  
33 向，而跟住你揸架冇尾輪轉向，可能適應--就要少少要適應，呢啲係有少少係  
34 車長可能會 concern 嘅。但係就對於安全嗰部分...

35 李澤昌先生：關於安全係冇關，係揸車嗰個適唔適應到，嗰度比較係我哋要處理。

36 主席：（經傳譯員）唔該晒。

1 MR DUNCAN：（經傳譯員）如果我有理解錯誤，你係有後輪轉向嘅 12.8 米嘅巴  
2 士？

3 主席：（經傳譯員）我諗已經講咗，大概二百架。

4 梁健宏先生：Correct.

5 MR DUNCAN：（經傳譯員）你係會即係响某啲路線就係用呢啲巴士，你會同運輸署  
6 接觸咗先。係咪已經發生咗，呢樣事？

7 梁健宏先生：（經傳譯員）咁嘅。

8 MR DUNCAN：（經傳譯員）呢啲巴士係咪有啲指定路線度使用？

9 梁健宏先生：（經傳譯員）係，冇錯。

10 MR DUNCAN：（經傳譯員）你會唔會擔心--鑑於工會同我哋講嘅嘢，你有冇任何嘢  
11 關注？

12 梁健宏先生：（經傳譯員）冇嘅。

13 MR DUNCAN：（經傳譯員）你有冇關注到啲巴士轉彎嘅時候，會唔會係出咗條線，  
14 令到對其他嘅車輛造成問題？

15 李澤昌先生：首先兩樣嘢先，一，嗰條路線係一定係運輸署、政府係大家同意咗條路  
16 線行得先。因為有啲路線係行唔到 12 米 8。第二樣嘢係個車長，其實九巴嘅車  
17 長揸 12 米 8，佢必先之前去咗我哋個學院嗰度係學習過揸 12 米 8 嘅車，佢先  
18 至可以揸 12 米 8 嘅。所以其實路線同埋個車長嘅訓練，兼夾如一架車尾輪轉向  
19 都有埋嘅，其實基本上嗰三件嘢係齊備，我哋先至行緊嘅。

20 MR DUNCAN：（經傳譯員）你知唔知道工會而家關於呢件事有咩嘢關注？

21 梁健宏先生：我哋冇。

22 MR DUNCAN：（經傳譯員）我想請你睇另一份文件 TU-1 (A)，84 頁。你會見到呢份  
23 意見，就係委員會收到嘅。嚟自九巴僱員工會，嗰個翻譯就係第 90-1 個一頁。  
24 我就係會倚賴呢一份翻譯本，我想請你睇 90-3 個一頁，就係講到安全嘅設施。  
25 搵唔搵到？

26 梁健宏先生：Yes.

27 MR DUNCAN：（經傳譯員）唔該。委員會就係聽到工會咁講「為咗減低維修嘅費  
28 用，九巴自從 2015 年開始就係不適當地係拆除咗所有啲防霧嘅熱氣裝置，令到  
29 前面嗰塊嘅玻璃就有好多霧化嘅情況，如果個天氣係凍同埋濕嘅時候，即係當  
30 外部同埋內部嘅溫差係大嘅時候」。佢哋就係講到附件 1，我諗應該係原本嘅  
31 91 頁同埋 91-1 頁，就係睇到個翻譯。

1 我想請問係咪咁嘅，自從 2015 年開始，你就拆除咗所有嘅除霧器喺巴士  
2 上面？

3 梁健宏先生：不正確。

4 MR DUNCAN：（經傳譯員）你覺得個工會當時係講緊乜嘢？

5 梁健宏先生：我相信佢係講緊我哋有啲除霧器係有兩款嘅，我哋 basically。以往  
6 有啲係暖風，去到 2010 年，我哋就轉咗用啲冷風嘅。喺附件 1 個架車車牌  
7 UF2751 係一個用冷風除霧器嘅裝配嘅，呢架車我相信大約係接近兩歲嘅。

8 點解我哋由暖風變做冷風，2010 年之前所有啲巴士嘅除霧器都係用暖  
9 風，啲暖風就由我哋喺車尾個引擎啲冷卻水，經過引擎加熱，啲熱水就由車尾  
10 沿住水喉接駁去到車頭嘅，嗰度長度有一架巴士咁長，係 12 米咁長，來回就有  
11 24 米嘅。呢 24 米嘅熱水喉，啲熱水就係喺度流轉嘅。暖風除霧器就係用呢啲  
12 咁嘅熱水，就產生啲熱氣，就令致到嗰個車長嗰個駕駛螢光幕，個  
13 windscreen 就唔會有 condensation 嘅，尤其是喺比較天氣凍同埋潮濕嘅日  
14 子。

15 但係呢個咁嘅裝置就唔係好可靠，好多時啲水喉可能會爆。如果爆水喉嘅  
16 話，有啲好熱嘅水，啲水熱呢，就溫度相當高。亦都有啲個案，有啲熱水就真  
17 係流入到個車箱入面。去到 2010 年，我哋公司就將呢樣嘢就換咗做吹乾嘅冷  
18 風，去解決咗呢個情況。不過係無論係暖風好、冷風好，你開著咗佢都需要五至  
19 十分鐘先至可以將啲 fog，啲 condensation 去 remove 嘅。

20 呢個冷風除霧器 2010 年我哋開始代替個暖風，但係呢樣嘢，車長就唔係  
21 好歡迎，因為天時凍，仲吹啲冷風。所以變咗去到 2015 年，2015 聽到啲車長  
22 有啲咁嘅意見，就要搵啲--要解決。因為你唔多唔少都可能影響到嗰個駕駛狀  
23 況，我哋就搵到啲 anti-fog 嘅 coating，除霧膏，搽喺嗰個 windscreen  
24 上面。似乎就好 old-fashion，不過亦都係好 effective 嘅。你搽咗上去之  
25 後，condensation 就唔會發生。

26 同一時期，我哋覺得都可能要搵其他方法。同一時期，我哋亦都同啲巴士  
27 製造商去研究其他啲 demister。我哋同 Volvo 去傾傾，睇睇會唔會有啲東  
28 西。有兩樣嘢可以走咗出嚟，其中一樣就係 heated windscreen，個  
29 windscreen 入面係有啲發熱線嘅，呢啲其實都好 common 喺私家車，但係喺  
30 double-decker 其實就--即係你唔問佢，佢唔幫你做，都做唔到。但係係咪  
31 即刻有，亦都唔係咁簡單。你唔係喺超級市場就可以買到，要特登為巴士去做。  
32 我哋 2016 年就試裝咗上去，有廿五部車有 heated windscreen 嘅，至到而  
33 家。

34 亦同一時期，我哋亦都同 ADL，第二間巴士製造商，就同佢研究第二樣  
35 嘢，就係用 electrical 嘅 demister，同發熱線製造啲暖風去 remove 啲  
36 condensation。而呢樣嘢亦都經過一輪嘅測試，因為呢度牽涉到有啲

1 heating element，唔多唔少亦都要解釋嗰個甚麼可能有啲其他嘅問題。所以  
2 亦都卒之都今年亦都解決咗個問題，卒之都有個可行嘅 electrical  
3 demister 可以安裝。

4 所以去到呢個 moment，我哋有 electrical demister、有 heated  
5 windscreen 呢兩個 option。而公司亦都決定將呢兩樣嘢裝喺我哋嗰啲有暖氣  
6 嘅、有暖風嘅巴士度，有暖風嘅 demister 嗰度，我哋會 retrofit 呢啲咁嘅  
7 equipment 去到用冷風除霧器嘅巴士上面，從而令到希望所有嘅車隊都可以提  
8 供一個好 proper 嘅 demister，令到車長係樂於使用嘅。我哋將來嘅新車都  
9 傾向採用 heated windscreen。

10 李澤昌先生：呢度補充一句，其實塗呢個塗液，其實過往我哋都知道有好多即係技術  
11 性嘅問題。因為好多時啲車長佢唔知道，佢塗咗，佢用佢嘅過往嘅方法，佢抹  
12 咗，可能係甩咗。亦都係好倚賴我哋去到廠嘅時候，係靠一啲員工係塗上去。  
13 其實係喺嗰個人手方面係有啲——即係唔好聽啲，有啲囉唆。我哋而家就都已經  
14 黏咗啲告示牌話呢架車係塗咗。

15 但係你睇到成個過程，呢啲前面車嗰啲除霧嘅嘢，其實過往我哋係有停過  
16 手係諗緊啲新嘅方法去做。就算你講緊今日嗰個前面 windscreen，未來我哋  
17 嘅新車安咗嗰啲，即係已經佢裏面 embed 咗嗰個 demister 係全世界嘅雙層巴  
18 士第一架，即係我哋同啲製造商都已經差唔多花咗超過一年嘅時間，即係好似梁  
19 生話喺巴士嗰度，係真係同私家車好唔同，做嘅嘢係要多。

20 MR DUNCAN：（經傳譯員）我可唔可以請你睇番 KMB-1 文件冊，第 98 頁？你會睇  
21 到呢一個係交界運輸署嘅報告嘅第一頁，呢個係 2018 年 3 月 12 號係交界運輸  
22 署，呢個係巴士意外之後交界運輸署嘅報告。請大家睇第 15 頁，即係呢一個文  
23 件冊嘅 115 頁。

24 第 46 段就係講到話有霧氣呢個問題，你有同運輸署係報告過關於呢個霧氣  
25 嘅問題，睇唔睇到？

26 梁健宏先生：（經傳譯員）睇到。

27 MR DUNCAN：（經傳譯員）第二行嗰度就話喺呢一個事件之前，我哋就係會有呢啲  
28 塗層係髹上去嗰個擋風玻璃嗰度，如果佢哋冇熱氣嘅除霧器，我哋檢討咗個機  
29 制之後，無論熱氣嘅除霧器，或者係加熱嘅擋風玻璃，我哋都會採納，咁樣係  
30 會更加有效，更加快咁樣除霧。

31 係咪即係話喺嗰個 2 月 10 號嘅巴士意外之前，嗰啲除霧嘅做法係並不令人  
32 滿意？

33 梁健宏先生：（經傳譯員）係。

34 MR DUNCAN：（經傳譯員）我可唔可以請你去睇番行動計劃，即係第一個，151  
35 頁？第二十項就係講霧氣嘅問題。

1 李澤昌先生：（經傳譯員）係。

2 MR DUNCAN：Thank you. （經傳譯員）喺第 2 段嗰度就話現有嘅巴士，即係唔  
3 係新巴士，就會係加裝熱氣嘅除霧器或者加熱咗嘅，或者暖化咗嘅擋風玻璃。  
4 你就話喺未來十二個月係分期咁樣做，你而家係做到邊個階段？

5 梁健宏先生：（經傳譯員）而家我哋係跟到個時間表，我哋已經開始咗加裝，我哋而  
6 家已經係訂咗大多數嗰啲組件。

7 MR DUNCAN：（經傳譯員）有幾多架巴士係需要咁樣加裝？

8 梁健宏先生：（經傳譯員）總共係大約二千七百個。

9 MR DUNCAN：（經傳譯員）而家做咗幾多架？

10 梁健宏先生：（經傳譯員）大概做咗十架，今日為止。

11 MR DUNCAN：（經傳譯員）工會知唔知道呢個計劃？

12 梁健宏先生：佢哋知道嘅。

13 MR DUNCAN：（經傳譯員）你知唔知道公司同埋工會喺呢一方面有冇任何意見分  
14 歧？

15 梁健宏先生：冇。

16 MR DUNCAN：（經傳譯員）我咪講番九巴僱員工會嗰個意見書，係 90-3，呢個係一  
17 個譯本嚟嘅，嗰個文件冊係 TU-1 (A)。

18 跟住頭先我讀過嗰段下面緊接嘅，下一段我哋得到啲咁嘅資訊，工會就向  
19 委員會提出呢個睇法嘅。「此外，公司改咗個變速器嘅按鈕，呢個係為咗安全駕  
20 駛設備嘅。佢將呢個超檔嘅掣同埋人手嘅減速嘅裝置就係取消咗，淨係靠嗰個由  
21 電腦嘅 D 波嘅控制器嚟到控制車輛嘅速度。响嗰個緊急嘅情況之下，就因為冇  
22 任何嘅安全裝置畀巴士司機用，係好危險嘅。例如好似飛機、地鐵或者係高鐵，  
23 或許係遊船，佢哋都係用電腦嚟到航行嘅。但係响緊急嘅時候，就會係用一個人  
24 手嚟到控制嘅模式，嚟到防止避免危險嘅，呢個就等如全自動波嘅私家車都係會  
25 有一個加減波嘅設備嘅。」

26 佢就話响有附件 2 同附件 3 嘅一啲資料嘅，你可以睇到呢一啲相片，92、  
27 92-1、93 同 93-1。

28 工會代表响較早前嘅研訊就第十日，佢都有講過嘅，係 13 頁到 18 頁。你  
29 有冇機會睇過佢哋陳述嘅？

30 梁健宏先生：係有嘅。

31 MR DUNCAN：（經傳譯員）首先我問一問係咪曾經有段時間，即係文件所講嘅，即

1 係話人手減速嘅一個裝置，即係車長可以使用呢個裝置？

2 梁健宏先生：我哋所有嘅巴士都有 retarder 嘅，我哋所有嘅巴士個 retarder 都  
3 係自動波箱，有腳掣去控動嘅。唯一 hand retarder 就係我哋有特別嘅路線  
4 which is 大帽山嗰條路線係好長、好斜，就有個特別嘅配置係需要特別嘅，  
5 係用 hand retarder 嘅。我哋所有嘅巴士都係配置 retarder 嘅。

6 MR DUNCAN：（經傳譯員）佢哋嘅意見書就暗示似乎話有個人手嘅減速呢個掣就取  
7 消咗，㗎唔㗎？

8 梁健宏先生：完全不正確。

9 MR DUNCAN：（經傳譯員）我哋睇睇佢哋响第十日向委員會講咗啲咩嘢，文件冊第 4  
10 號，第 13 頁第六行。黃小姐就話「呢個講講嗰個係變速器嘅按鈕」，我頭先讀  
11 咗出嚟，「公司改咗嗰啲係變速嘅按鈕，就係為咗安全駕駛，就取消咗 O/D 呢  
12 個減速，同埋人手減速嘅裝置嘅，就淨係靠嗰個由電腦控制嘅自動波控制系統  
13 嚟到控制速度。」

14 就去到 14 頁，第廿五行，問郭生呢個問題，「就話取消咗呢個人手減速裝  
15 置，點樣會影響巴士安全？你可唔可以回應？」呢位 Ivan Lee 先生講「呢個  
16 裝置，就等你可以選擇一啲做--嘅行動嘅，可以有個自動嘅選擇--即係你可以  
17 選擇自動操控，或者係混合自動人手操控，同埋人手操控，唔同嘅方法嘅。」

18 去到 17 頁，主席就係問一個問題話「你未繼續之前，我想問，係咪即係呢  
19 個情況其實係有咗呢個人手嘅減速器，就即係話巴士車長有機會揀點樣減慢個車  
20 速，最好就有，係咪咁嘅意思？」Ivan Lee 先生話「可以咁講嘅。」郭先生喺  
21 第九行就話「等我答覆，人手減速好重要，特別你係落山嘅情況。」十八行「如  
22 果有嗰個人手減速，我哋就係利用嗰個變速器嚟到減速，唔係淨係靠煞車掣。」  
23 證人就再講「冇咗呢個人手嘅減速器」--似乎佢哋嘅回覆就暗示某個階段，你  
24 哋即係取消咗呢個人手減速嘅裝置。你明唔明白佢究竟想講咩嘢？

25 梁健宏先生：或者我嘗試咁樣答，我哋係冇取消到任何 retarder 嘅。或者你睇番  
26 appendix 2。

27 MR DUNCAN：Of...

28 梁健宏先生：Annex 2 of 僱員工會嗰個，唔好意思。

29 主席：Yes?

30 梁健宏先生：你留意番佢講緊嗰個就係“gear selector”，其實嗰個唔係 gear  
31 selector 嚟，嗰個係 gear inhibitor，嗰個就係限波掣嚟嘅。舊款車係有  
32 限波掣嘅。我哋 2008 年就轉咗用智能波箱，就唔需要限波掣。限波掣係咩嘢，  
33 限波掣嘅設計，就等你架車，尤其是你上斜路嗰陣時唔係好夠力，就唔想個車  
34 長可以揀咗唔好上三波，唔好轉上二波。因為如果你上咗某個波段，跟住唔夠

1 力，又會跌番落嚟，跟住又上番去，又跌番落嚟。所以當其時呢個限波掣，就  
2 令致個車長一個選擇，等架車嗰個 journey 就比較順暢啲，呢個就限波掣，佢  
3 限住個波箱，就唔好跳上去高一個波。

4 調番轉頭，如果呢個限波掣，佢落斜路嗰陣時佢掣，佢唔可以由一個高波  
5 即刻變做一個低波嘅。For example，如果佢行緊四波，你掣個限波掣二，佢  
6 唔會好似私家車咁轉咗落去個二波度嘅，係唔會嘅。呢個 gear inhibitor 係  
7 唔係好似大家所想像中係愛嚟減速嘅，呢個完全唔係嘅。

8 呢架車，呢架巴士，一個咁重型嘅巴士，尤其是載客嘅，安全個系數係點  
9 樣樣去保持，就係用減速器。每一架巴士，我哋都有油壓減速器，而呢個油壓減  
10 速器就係一個全動箱，喺個波箱入面，或者係附件嚟嘅。我哋每一架巴士已經有  
11 嘅。呢個油壓減速器係點操作，就係喺嗰個逼力掌嗰度，當佢想啟動呢個減速  
12 器，佢只要輕輕咁喺個腳掌，喺個逼力掣嗰度壓落去，就會啟動呢個減速器。個  
13 減速器其實就係一個油壓嘅減速器，佢就利用嗰啲油壓嘅 friction 去減速。  
14 但係呢個油壓減速器亦都唔會對嗰個逼力皮有損耗嘅，佢純粹係減速，令到架巴  
15 士減速，但係唔會令致到嗰個逼力系統係受 loading 嘅，呢個係安全嘅設備，  
16 係好多年已經係巴士標準嘅裝備嚟。所以我哋係完全冇--亦都係拆唔到嘅。

17 至於我哋去到 2018（原文照錄）年，2018（原文照錄）年智能波箱，呢  
18 個限速器就唔再需要。所以變咗你見到有啲相片，就係有一、二咁嘅，淨係 D、  
19 N、R，就有呢個 gear inhibitor 嘅 button。因為 2008 年嗰啲波箱已經係  
20 智能波箱，你嗰啲波箱，佢亦都知道架車係上緊斜或者落緊斜，佢知道個車長佢  
21 係咪踩緊油，佢知道個車長踩油踩得幾深，或者佢踩 brake 踩得幾多，從而個  
22 波箱會自自然然就住架車喺咩嘢狀況，喺咩嘢波段，令到入到一個適合嘅波段  
23 嘅。譬如如果佢上緊斜，個波箱知道佢上緊斜，佢就唔會咁容易畀佢跳上一個高  
24 啲嘅波段。所以呢啲其實就係一個智能波箱，就唔需要車長花太多嘅 effort  
25 去兼顧去揀邊一個波段，從而希望減輕喺駕駛嗰陣時嘅壓力，集中精神留意交通  
26 狀況，呢個係智能波箱帶嚟嘅好處。我哋從沒有拆除任何安全嘅裝置。而呢啲亦  
27 都係大部分嘅標準裝置嚟。

28 MR DUNCAN：（經傳譯員）你知唔知道而家工會有冇呢方面--人工減速器有冇咩嘢  
29 意見、睇法？

30 梁健宏先生：I repeat，我哋有 manual retarder system 嘅。我哋亦都聽唔  
31 到其他工會就住呢個課題有咩嘢任何嘅意見。

32 MR DUNCAN：（經傳譯員）個工會亦都向委員會提出過另一個事項，我想畀你一個  
33 機會嚟到回應嘅。即係話司機要揸嘅路線--即係話一更要揸幾條路--就一條路  
34 線嘅問題。我哋收到兩個工會嘅代表嘅證供，佢話有啲司機某一日可能需要揸  
35 三條路線，佢哋覺得對於司機嚟講負擔太大。

36 首先係咪有啲司機需要一日嘅工作要揸三條唔同嘅路線？

1 彭樹雄先生：Mr Duncan，係有嘅，係有嘅。

2 MR DUNCAN：（經傳譯員）工會認為呢個對於巴士車長就太大負擔，你哋有咩嘢回  
3 應，公司有咩嘢回應？

4 彭樹雄先生：其實我哋公司亦都係有一個內部制定嘅指引，每一位車長喺每一日嘅更  
5 分裏面，佢係唔可以揸多過三條唔同嘅路線，亦都係喺我哋嘅派更組嘅同事，  
6 佢哋係會知道呢一樣嘢嘅。所以有個別同事車長講，佢哋可能會揸三條線，係  
7 可能會發生嘅，呢個亦都係喺我哋個指引嘅範圍裏面嘅。

8 MR DUNCAN：（經傳譯員）工會有冇同你講過，就係佢哋話個意見，一日三條線太  
9 多？

10 彭樹雄先生：呢個真係好視乎--如果純粹講工會，呢個其實佢哋比較少提及三條線係  
11 多。其實好多時，我哋好多個車長，佢哋手頭上佢可以揸到嘅線路，其實都係  
12 有一定數量嘅。但係我哋呢個指引，其實就係想確保佢哋喺每一日個 shift  
13 裏面係唔會有太多唔同嘅變化。因為可能要記啲站等等，可能會有啲困難。不  
14 過呢個歸根究底，佢所有啲嘅路線，佢一定要有相關嘅路線操練嘅，呢個就  
15 絕對係肯定嘅。只不過我哋唔想佢揸咁多條線，就係因為可能有啲站等等佢要  
16 記，某個程度上可能佢哋會覺得辛苦啲。

17 MR DUNCAN：（經傳譯員）唔好意思，我唔係好明你個答案。我問你有冇任何嘅工  
18 會係投訴過話三條線係太多，你嘅問題就話，佢哋真係冇乜提過。即係佢真係  
19 冇提過，係完全冇提過？

20 彭樹雄先生：佢哋有個別少數嘅車長有提出過，呢個係事實嚟嘅，所以我哋公司都制  
21 定喺三條線或者以下，每一個 shift。

22 MR DUNCAN：（經傳譯員）啲啲同你提過話三條線太多啲啲車長，係咪大多數，抑  
23 或係少數，你可唔可以話畀委員會聽？

24 主席：（經傳譯員）我諗彭生頭先就已經講咗話係少數，佢係講咗少數嘅。你可唔可  
25 以畀啲數字我哋？

26 彭樹雄先生：我諗我即係喺呢一刻，我好難畀到個好確實嘅數字，不過我哋可以返去  
27 睇一睇，譬如我哋可以擺一日嘅 example 可以睇一睇。

28 主席：Thank you, Mr Duncan.

29 彭樹雄先生：Sorry，對唔住，主席。喺我認知裏面，其實唔係好多，即係我  
30 personally 唔係好多。即係當然，你話點樣 quantify 或者點為之多，點為  
31 之少，其實喺我嘅認知裏面，就唔係太多嘅。

32 主席：（經傳譯員）係，得，大律師。

33 MR DUNCAN：（經傳譯員）或者而家可以小休，好唔好，主席？

1 主席：（經傳譯員）好呀，當然。各位，就好似以前咁多日，我哋下晝都會有一個小  
2 休，等大家休息一下，十五分鐘。

3

4 下午 3 時 49 分聆訊押後

5

6 下午 4 時 04 分恢復聆訊

7 出席人士如前。

8

9 主席：（經傳譯員）大律師。

10 MR DUNCAN：（經傳譯員）多謝你，主席。各位請你揭去 TD-1，477 頁。大家見到  
11 呢係運輸署發出嘅一封信，係發畀專營巴士公司嘅。日期呢係 2018 年 6 月 7  
12 號，係委員會成立之後嘅，亦都開始咗討論㗎㗎。大家睇到？

13 梁健宏先生：（經傳譯員）睇到。

14 MR DUNCAN：（經傳譯員）喺未收到呢封信之前呢，咁個封信呢，就通知收信人就  
15 有呢個係數碼嘅地圖嘅，喺呢封信，收到呢封信前呢，九巴知唔知道有咁樣嘅  
16 設備，有咁樣嘅方便嘅呢？

17 梁健宏先生：（經傳譯員）你係話地理圍欄呀？

18 MR DUNCAN：（經傳譯員）我講緊係電子地圖。

19 梁健宏先生：知道。

20 MR DUNCAN：（經傳譯員）你幾時開始知道呢個電子道路嘅地圖係可以--你可以搵  
21 到嘅，攞到嘅？

22 梁健宏先生：對唔住，我以為你講 geo-fencing，如果你個 map 係 accessible  
23 to openly 呢就係呢封信先至知嘅，係 6 月 7 號。

24 MR DUNCAN： Right --

25 主席：（經傳譯員）呢度有兩樣嘢嘅，一係就數碼地圖喇，亦都係有講嗰個限速嘅資  
26 料呢件事嘅，咁個問題就係話，你知唔知道响 6 月 7 號之前喇吓，收到信之前  
27 呢，知唔知道有呢兩件事㗎？

28 梁健宏先生：（經傳譯員）唔知嘅。

29 主席： Thank you.

1 MR DUNCAN：（經傳譯員）第二段，發信嘅人呢，呢度就咁寫，運輸署所用呢個地  
2 理嘅資訊系統嘅係一個道路嘅限速呢，已經係有㗎嘞，佢就咁講，已經係有㗎  
3 嘞。而家呢你知唔知道，呢個資訊呢係幾時係有嘅呢，幾時可以--幾時開始你  
4 係有嘅呢？

5 梁健宏先生：而家就我哋同啲我哋啲供應商，亦都嘗試去經過呢個佢畀我哋嘅資料  
6 呢，係擺呢啲資料嘅，喺 data set 嗰度，咁雖然嗰個 format 就要需要處  
7 理，但係係擺緊嘅。

8 主席：（經傳譯員）個問題就係，你知唔知道呢啲資料，第一次開始係幾時有，呢度  
9 講話，封信就話已經有㗎嘞，咁而家你知唔知道係幾時開始有嘅呢？

10 梁健宏先生：（經傳譯員）只係從信件先知嘅。

11 主席：（經傳譯員）呢度佢就話好消息，香港有一個係數碼地圖嘞，咁當然喇已經係  
12 有㗎喇，一段時間喇，你可唔可以睇睇呢個三--可以用呢個嚟去睇睇你嗰三十  
13 七個地點嘅資料呢，嗰三十七個人點樣安排工作呀，你幾時知道有咁樣嘅資料嘅  
14 呢？你幾時知道呢個資料係可以擺到嘅呢？

15 梁健宏先生：唔明。

16 陳祖澤先生：唔係我哋而家知唔知道呢個 system 喺政府，佢話有呢個 system，係  
17 幾時？

18 講者（不能辨別）：我哋幾時知嘅？

19 陳祖澤先生：唔係我哋幾時知，政府幾時有呢個 system。

20 梁健宏先生：政府有好耐已經有呢個 system㗎喇。

21 主席：（經傳譯員）係，我就想知。等鄧生--大律師問呢，即係話已經有咗一段時間  
22 㗎嘞，好長時間，咁即係話呢個資訊係幾時第一時係有嘅呢？

23 梁健宏先生：（經傳譯員）唔知。

24 主席：（經傳譯員）你話都好耐之前已經有㗎嘞，咁你講緊係咩嘢時間呀？

25 梁健宏先生：（經傳譯員）唔好意思，嗰個有啲混亂嘞，我係唔知道政府係會免費提  
26 供呢個資訊畀我哋嘅。

27 主席：（經傳譯員）我明白，你收到呢個好消息，有數碼地圖，有速度限制嘅資料畀  
28 到你嘞，你有冇嘗試搵已經有咗幾多年喇，咁樣呢個資訊其實？

29 梁健宏先生：（經傳譯員）我哋嘅資訊科技服務部門呢就係舊年擺過嘅，咁所以我當  
30 時都知道係有咁樣嘅資訊嘅。

31 主席：（經傳譯員）你係咪你意思話佢哋冇通知你話有呀？

1 梁健宏先生：（經傳譯員）你係講運輸署呀？

2 主席：（經傳譯員）係呀，係呀，你個資訊科技部門㗎，你話舊年就試過搵過一次  
3 㗎嘛。

4 梁健宏先生：（經傳譯員）不過呢個唔係個即時嘅地圖。

5 主席：（經傳譯員）梁先生，其實呢好簡單嘅個問題，當時呢通過呢封信話畀你聽有  
6 數碼地圖嘞，咁個有個功能呢，等你知道個係速度嘅限制係乜嘢嘅，咁我  
7 哋問嘅問題呢，之後，收到信之後，你有冇試圖搵出究竟第一次幾時開始有呢  
8 個資訊呢？即係話我哋隔咗咁耐先--幾耐先至收到呢個消息呢？

9 陳祖澤先生：Sorry，我哋而家政府話畀我哋聽有呢樣嘢，但係我哋知唔知佢政府有  
10 呢樣嘢有咗幾耐。

11 講者（不能辨別）：幾耐，係嘞，係。

12 講者（不能辨別）：你知唔知？唔知就唔知。

13 梁健宏先生：我唔知，我唔知，sorry about that, I don't know。

14 李澤昌先生：但係 GIS 呢樣嘢呢，係即係根本上我諗好多--已經唔係一件即係呢  
15 一、兩年間嘅事㗎嘅，呢個係一個即係係政府嘅--係一個 geographical 嘅  
16 information system 呢，呢個係有咗一段好長嘅時間。

17 主席：（經傳譯員）唔該晒。大律師。

18 MR DUNCAN：（經傳譯員）你未收到呢封信，即係話 6 月 7 號之前，你哋公司有冇  
19 詢問過政府，嚟到確--即係問一問，究竟有冇呢個數碼地圖，係咪可以搵到呢  
20 個數碼地圖，有冇問過呢？

21 梁健宏先生：冇。

22 主席：（經傳譯員）你知唔知道譬如話倫敦呢，數碼地圖有埋個速度嘅限制嘅資料  
23 呢，自從 08 年、09 年都已經係有㗎嘞，你知唔知呢件事呢？

24 梁健宏先生：（經傳譯員）唔知。

25 主席：（經傳譯員）大律師。

26 MR DUNCAN：（經傳譯員）多謝你，主席。請你睇 KMB-1 號，279 頁。我哋首先睇  
27 235 頁，等我哋知道呢份文件係關於咩嘢嘅。你可以睇到呢日子係 8 月 8  
28 號，呢一封信呢係交界委員會嘅。係處理第 1、3、6 項，同埋第 4 項嘅一個海  
29 報，同埋一封通函㗎，你睇唔睇到呢？係第 2 段嗰度咁寫。

30 梁健宏先生：（經傳譯員）係，睇到。

31 MR DUNCAN：（經傳譯員）咁我哋呢就要睇下第 6 項係乜嘢呢，我哋就要上番去一

1 頁喇，睇番委員會寫嘅信呢，就係 8 月 8 號寫嘅。我哋可以睇到呢，就係一啲  
2 文件，係去描述有關嘅證供喇，同埋關於嗰啲嘅步驟，係講到 Openmatics 點  
3 樣去處理即時嘅呢一啲數據，就係話譬如每 50 公里，或者每 70 公里嗰啲咁嘅  
4 地方點樣有人超速㗎，係超速㗎幾多，同埋係做過啲咩嘢嘅測試㗎。

5 咁你呢就好好喇，就畀咗一啲嘅資料我哋嘞，咁喺呢一方面呢，我有興趣  
6 嘅呢就係 279 頁嗰度。呢一個係關於第 6 項。咁我呢想你睇一睇，做咗嘅工作  
7 嗰一度嗰幾段。就話呢係做咗好幾樣新嘅措施呢去改善以上嘅情況，  
8 Openmatics 呢就係用手動去分開咗 50 公里同埋 70 公里嘅區份㗎。九巴呢就  
9 喺 2018 年 7 月 31 號呢開始咗一個概念嘅測試，就係將上面嘅車速同實際嘅車  
10 速呢去比較㗎，咁呢一個呢就係要去核實一下呢一個即時嘅車上車速警示，係  
11 咪可以通知到巴士車長，就話佢已經係超速㗎。

12 咁而家嗰個開頭嘅測試嘅結果係正面㗎，我哋會再進一步做其他嘅測試，  
13 我哋係會準備引進政府嘅數碼地圖呢入去 Openmatics 嗰個黑盒嗰度，係需要  
14 三至四個月㗎。不過呢政府嗰個數碼地圖就有包含即時嘅資訊㗎，而只係每六  
15 個月呢先至會更新一次嘅㗎。

16 個問題呢就係，你覺得喺過去，即係最靚嗰一行嗰度呢，你認為有啲咩嘢  
17 嘅不足之處呢？你話政府嘅數碼地圖呢係有即時嘅資訊，只係每六個月先至更  
18 新一次。

19 李澤昌先生：Live information 嘅意思即係話當個路面將會發生嘅情況，好快會  
20 影響到嗰個路面嗰個車速，而呢個訊息會好快傳遞到去嗰個 digital map 個  
21 information 裏面，咁呢個就係我嚟講，係一個 live 嘅，即係例如今晚嗰條  
22 隧道會封閉，或者另外一條隧道變做單管雙程行車嘅時候，個速度會大大減低，  
23 咁好短嘅時間呢，嗰個 map 就會知道嗰條隧道嘅 speed limit。今天呢個  
24 digital map 呢就係每六個月會 update 一次嘅，咁即係話，換言之即係話，  
25 如果嗰個時間愈嚟愈縮短嘅話呢，咁呢就愈嚟愈接近嗰個 live 嘅情況。

26 主席：（經傳譯員）咁係咪真係準確呢，係咪真係每六個月先至更新一次，抑或係好  
27 似佢網站咁講呢？

28 梁健宏先生：我哋亦都同嗰啲政府官員討論過，希望佢畀個 live map 我哋，但係  
29 so far 都仍然係--都係六個月 update 一次，同埋 update 嗰啲係永久  
30 permanent 嘅 road speed。

31 主席：（經傳譯員）你係同邊個講呢啲呀？

32 梁健宏先生：（經傳譯員）有一個電郵嘅，係我哋嘅人員同運輸署。

33 主席：Do you have that with you?

34 梁健宏先生：（經傳譯員）有嘅。

1 主席：（經傳譯員）你可唔可以畀一個副本我哋？

2 梁健宏先生：（經傳譯員）可以嘅。

3 主席：（經傳譯員）我哋而家可唔可以攞到呢？未編號嘅，咁你可唔可以複印畀我哋  
4 呢？唔該。我哋印多幾份喇，唔該。你剛才答緊我問題，但係我呢就係打岔咗你  
5 嘅，就係你同邊個講呢一個對話呢？唔好意思，而家你有嗰份文件喺手，拎咗去  
6 影印，咁你就答唔到嘞。

7 梁健宏先生：（經傳譯員）其實係同運輸署嘅工程師呢，我哋通過電郵。

8 MR DUNCAN：（經傳譯員）我哋一陣間睇番個文件就知。

9 羅先生：（經傳譯員）似乎呢其實係個限速，唔係個車速，係有時呢同一日之內呢，  
10 譬如話喺路上面有啲建造工程呀，都有可能變速㗎每一日，咁但係佢就唔係每一  
11 日去更新㗎？

12 梁健宏先生：（經傳譯員）咁呢個係要睇番個道路情況，有時呢係有啲臨時嘅建造工  
13 程，咁有啲路係縮短咗喇。

14 主席：（經傳譯員）咁但係呢啲都係刊憲嘅道路㗎嘛，係咪呀？不如我哋一步一步  
15 咁講喇，應該有一個制度㗎，等呢一啲嘅速度限制可以合法咁樣改變，呢一個呢  
16 就係政府要喺憲報嗰度刊登，就話呢一段嘅路，原本係每小時 70 公里呢，喺未  
17 來三個月呢就會改到去每小時 50 公里，你知唔知有咁樣嘅制度？

18 梁健宏先生：（經傳譯員）我係知道。

19 主席：（經傳譯員）而呢一個刊憲嘅制度呢，係處理以月計、以年計嘅改變，但係甚  
20 至係短期嘅改變都會係刊憲處理㗎，有時呢處理嘅改變呢，只不過係幾個鐘，或  
21 者係幾日。

22 李澤昌先生：（經傳譯員）即係譬如話隧道有意外。

23 主席：（經傳譯員）咁我而家問你呢就係，呢啲全部都係刊憲嘅，你係咪話畀我聽有  
24 另外一個嘅制度都可以合法咁樣改變道路嘅車速，而唔係通過刊憲嘅呢？我哋有  
25 咁講，咁全部都係刊憲嘅。咁如果而家睇番轉頭，2018 年嘅憲報，你就會發覺  
26 呢應該有廿二份呢啲憲報呢係處理呢一個問題嘅，有啲係臨時嘅，有啲係長期  
27 嘅。或者我哋等一等，等下嗰份文件先。大律師你有冇其他嘅嘢想處理先？

28 MR DUNCAN：（經傳譯員）我就想問呢運輸署有冇回覆你嘅電郵？

29 梁健宏先生：（經傳譯員）運輸署並未回覆。

30 主席：（經傳譯員）唔緊要，照直講。

31 MR DUNCAN：（經傳譯員）而家呢，我想講一啲關於科技嘅裝置，係有一啲意見書  
32 交畀委員會嗰度呢提起㗎，即係話而家已經有嘅，有可能用到嘅科技裝置，而係

同安全有關嘅。咁或者我呢，可以咁樣開始，請你睇一睇 KMB-1 號文件冊，114 頁。呢一個畀運輸署嘅報告嗰度係抽出嚟㗎，係 3 月 12 號㗎，喺呢一版呢，你可以睇到第 5 部分，其他提升巴士安全嘅措施，我想請你留意呢就係 43 段，就係話傾側嘅警示。跟住佢係咁講，「全個車隊每一架巴士都會裝置傾側警示，當巴士係達到一個指定嘅傾斜度，警示就會係引發，就會係向司機發出呢個警示」，你睇唔睇到？

梁健宏先生：（經傳譯員）睇到。係，睇到。

MR DUNCAN：（經傳譯員）星期二呢我哋聽到--我哋睇到 Kulis 先生嗰個證供，嗰個黑盒呢，Openmatics 提供嗰個呢，就係包括一個條文，就係有一個傾側嘅參數㗎，你記唔記得呀？

梁健宏先生：（經傳譯員）記得。

MR DUNCAN：（經傳譯員）梁生，我諗係你呢，星期二解釋過，公司呢並冇為呢個參數呢係講出一個價值，因為呢你識別唔到任何參照嘅價值，你記唔記得你講過？

梁健宏先生：（經傳譯員）我記得，係，我講過。

MR DUNCAN：（經傳譯員）我哋可唔可以睇番 114 頁，第 43 段。咁樣講公唔公道呢，就係話呢一句，係因為巴士發生嘅事，因為有大埔嘅意外，呢一個係一個反應㗎㗎，咁樣講係咪公道呢？

梁健宏先生：（經傳譯員）係呀，的而且確係事件之後。

MR DUNCAN：（經傳譯員）咁係咪對嗰件事嘅一種反應呢？因為實際上係有傾側，而實際上係翻車㗎。

梁健宏先生：（經傳譯員）呢一個係委員會嘅建議㗎，係嗰件事之後。

MR DUNCAN：（經傳譯員）咁唔係喺件事發生之後好耐，3 月 12 號，「委員會」即係咩嘢意思呀？

梁乃鵬先生：（經傳譯員）九巴董事局嘅特別委員會。

MR DUNCAN：（經傳譯員）咁而家唔該去睇 150 頁。

主席：（經傳譯員）你繼續之前，喺 43 段呢一度嗰句，嗰個背景係咪第 39 段呢？就係其他提升巴士安全嘅措施，最起碼三句係咁講嘅，「特別委員會考慮過呢啲問題，就係同九巴嘅巴士供應商係諮詢過，咁呢就係作咗一啲建議，就話九巴嘅管理層呢就會係實施，或者係進一步去考慮㗎」，呢一個係咪個背景？

梁健宏先生：（經傳譯員）係，冇錯。（證人直接用本地話說）哦，我哋就住呢個 tilt alarm, tilt 呢個 angle 呢去點樣定一個 angle，因為之前我哋唔

1 知道點定。咁呀同 ADL 呀，同 Volvo 亦都商討過，佢哋亦都嘅 advice 呢就亦  
2 都有一個建議畀到我哋，佢就建議呢就係，佢哋有一個角度嘅建議畀到我哋。佢  
3 哋嘅建議呢就係，好難定到一個 angle 呢，因為佢哋覺得，定個 angle 如果係  
4 太細嘅話，其實就有乜意思嘅，咁呀變咗啲車長呢就收到好多啲錯誤嘅信息。

5 咁如果定個 angle 係接近太危險嘅話，亦都唔知道個車長點 react，唔知  
6 道個車長會踩逼力，抑或會擺軌。所以變咗 Volvo 同埋 ADL 呢都唔建議嘅，都  
7 唔建議呢個 tilt angle 嘅，反為佢哋建議呢就係會唔會 ESP 呀，或者 ESC  
8 去處理呢個 tilt 呢個 issue。而亦都有其他嘅 reference 可以參考，包括其  
9 他巴士公司，或者其他國家有啲咩嘢規定，就住呢個 tilt angle 嘅 alarm，  
10 亦都搵唔到任何相關嘅作為參考。

11 主席：（經傳譯員）你有冇同 Openmatics 講過呢件事呀？因為係睇番佢哋個器  
12 材㗎。

13 梁健宏先生：（經傳譯員）我哋有呀。

14 主席：（經傳譯員）咁佢哋個反應係點呀？

15 梁健宏先生：（經傳譯員）佢哋都話呢係有任何相關嘅嘢，佢哋有建議任何嘅數字。

16 主席：（經傳譯員）咁佢哋有冇向你顯示話知唔知道呢一個咁樣嘅警示，係任何人用  
17 得過嘅呢？

18 梁健宏先生：（經傳譯員）有任何關於雙層巴士，即係同我哋相關嘅資料。

19 主席：（經傳譯員）咁你意思係咪即係話，如果唔係雙層巴士，就有一啲嘅汽車係用  
20 過呢？

21 梁健宏先生：（經傳譯員）佢哋有講過一啲好似大嘅旅遊巴啲咁。

22 主席：（經傳譯員）係咪即係話 Openmatics 話畀你聽係喺啲旅遊巴，佢哋有用  
23 過呢？

24 梁健宏先生：（經傳譯員）咁又唔係，我哋問佢有冇任何相關雙層巴士嘅嘢可以畀我  
25 哋參考，佢哋畀咗個數字，不過呢具體上呢唔係關於雙層巴士㗎，我哋仲等緊佢  
26 哋係確認一個資料。

27 主席：（經傳譯員）係咪係書面啲度咁樣講㗎？

28 梁健宏先生：（經傳譯員）係呀。

29 主席：（經傳譯員）你可唔可以將呢一個對話嘅副本可以交畀我哋？

30 梁健宏先生：（經傳譯員）我哋可以。

31 主席：（經傳譯員）係幾時嘅事呀，大概？

1 梁健宏先生：（經傳譯員）一、兩個禮拜前。

2 主席：（經傳譯員）唔該提交有關嘅通訊，關於呢件事嘅通訊嘅資料畀我哋。

3 MR DUNCAN：（經傳譯員）梁生，鑑於你頭先所講嘅事呢，我想你睇 114 頁，第 43  
4 段呢，似乎呢講得好實在嘅，即係我哋會係裝置一個係即係傾斜嘅警報嘅，係所  
5 有巴士都會裝嘅，咁呀達到某一個傾斜角度呢，嗰個警示呢就會響嘅，嚟到係提  
6 醒個司機。呢個係咪公司當時有咁樣嘅決議呢？係我講緊 2018 年 2 月 12 號嘅  
7 時候。

8 主席：（經傳譯員）我諗係 3 月 12 號嘅，當呢個紀錄，做呢個紀錄嘅時候。

9 MR DUNCAN：（經傳譯員）唔好意思，係 3 月 12 號嘅。呢個係一個好正面嘅，43  
10 段呢講得好正面嘅，公司呢會喺個總--你哋車隊呢所有巴士都裝呢個警報器  
11 嘅。

12 梁健宏先生：呢個就應該係個黑盒嗰度嚟㗎嘞，就係個意思就應該係 trigger 嗰個  
13 alarm，喺個黑盒嗰度 trigger 嘅，就唔係話要再裝一個 tilt alarm 嘅。

14 主席：（經傳譯員）我哋明白嘅。不過我哋企番後睇睇呢，呢個特別委員會嘅一個建  
15 議㗎㗎，佢建議我哋有一個--要裝一個傾側嘅警報器嘅，咁呀去到某一個傾側  
16 嘅角度呢，咁就會響喇，係提醒嗰個巴士車長，呢個係 3 月 12 號嘅。好嘞，跟  
17 住呢你就之後呢，你就同 ADL 呀，同埋 Volvo 呀，兩間公司，同埋亦都同  
18 Openmatics 講呢，咁呢個有咩嘢結果呢，可唔可以畀個即係簡述我呀？我哋知  
19 道發生咩嘢事呢？

20 梁健宏先生：Volvo, ADL --

21 主席：（經傳譯員）唔需要詳細，即係講個結果得㗎喇。

22 梁健宏先生：有一個合適嘅 angle，定唔到一個 angle。

23 主席：（經傳譯員）咁個結果就係咁樣，雖然係特別委員會有咁嘅建議呢，咁就你係  
24 冇辦法係真係實際上施行嘅，咁樣講㗎唔㗎？

25 梁健宏先生：（經傳譯員）係，咁係㗎嘅，唔該晒。

26 MR DUNCAN：（經傳譯員）我哋睇番第二個個行動計劃，同一個文件冊嘅 231 頁。  
27 呢個係一個 8 月 6 號提交畀委員會嘅一個工作或者行動計劃，呢度有一個簡  
28 述，用書面簡述㗎頭先你同主席所講嘅說話，即係喺右手邊嗰一欄，咁呀講到底  
29 就係話，即係話唔會有個傾側角度嘅警報器㗎。

30 梁健宏先生：（經傳譯員）咁講係㗎嘅。

31 MR DUNCAN：（經傳譯員）你响嗰個意見嗰度，即係嗰個備註呢，呢個電子嘅穩定  
32 系統，有提過嘅。請你去番 KMB-1 號文件冊嘅 114 頁。我哋見到呢度係報告，

1 即係向運輸署提交嘅報告，即係 3 月 12 號嘅報告嘅內容呢，咁呀呢度就配合番  
2 有關嘅背景呢，即係話特別委員會呢考慮過呢件事，呢度就描述，咁呀亦都同巴  
3 士製造公司呢就商討過，咁有個建議呢，咁個巴士公司呢係會實施，或者係進  
4 一步研究嘅。

5 咁呢度第 41 段呢，就講到係電子嘅穩定嘅系統嘅，咁佢係咁樣描述嘅，呢  
6 個咁嘅系統係一個重要嘅巴士安全嘅裝置㗎，喺歐洲㗎講，所有旅遊巴士係一  
7 個必定要裝嘅安全設備㗎嘅，呢個係防止嗰個跣胎同埋係翻車嘅危險，喺歐盟 V  
8 同埋歐盟 VI 巴士裝置呢個電子穩定系統呢，而家係正在測試緊，亦都會同--供  
9 應商呢亦都係喺度做緊核實嘅過程。咁呀供應商證實㗎可以做呢，我哋就會响-  
10 -按一個分期嘅方法，將成個車隊嘅巴士就裝呢個電子穩定系統嘅。响呢件事  
11 發生之前呢，你哋公司有冇考慮過採納呢個咁樣嘅系統呀？

12 梁健宏先生：（經傳譯員）有嘅。

13 MR DUNCAN：（經傳譯員）第一次係幾時考慮使用呢個電子穩定系統呀？

14 梁健宏先生：喺 14、15 年之間，我哋係嘗試搵一間廠，佢叫做 MAN，喺德國，咁就  
15 有呢個 ESP 呢個 system，咁我哋喺 16 年嘅時間，就買咗二十架 MAN 嘅車，佢  
16 就配置咗呢個 ESP 嘅 system，係已經喺個路試緊，即係用緊，咁總共二十一  
17 架。

18 主席：（經傳譯員）MAN 嗰度畀你嘅？

19 梁健宏先生：（經傳譯員）係嘅，係雙層巴士。

20 MR DUNCAN：（經傳譯員）咁响 2 月 10 號發生意外之前，都用咗一段時間㗎嘞，呢  
21 啲巴士？

22 李澤昌先生：（經傳譯員）係嘅。

23 MR DUNCAN：（經傳譯員）公司有冇決定究竟用呢個--應該係除咗 MAN 呢個巴士之  
24 外，其他都要運用呢個系統呢？

25 李澤昌先生：（經傳譯員）而家我哋買嘅全部嘅新車，歐 VI 嘅新車，全部都會配置  
26 呢個 ESP 嘅 system。

27 主席：（經傳譯員）決策係幾時做㗎，幾時決定㗎？

28 梁健宏先生：因為嗰啲 Volvo 同埋 ADL 呢，佢要一段時間同佢傾，佢幾時開始有，  
29 咁就我哋磋商咗一段時間，佢哋可以 supply，所以先至係有嘅。

30 陳祖澤先生：（經傳譯員）我哋其實响嗰個更新嘅工作計劃，即係 8 月 1 號嗰個工作  
31 計劃，2018 年 8 月 1 號裏面有講嘅。

32 主席：（經傳譯員）可唔可以講邊一頁呀？等我哋可以參考嗰一頁。

1 彭樹雄先生：（經傳譯員）230。

2 主席：（經傳譯員）唔該晒。我諗呢鄧先生問嘅問題就係話，2016 年呢你有二十一  
3 架呢啲雙層巴士，係由 MAN 提供畀你嘅，有呢個電子穩定系統，咁猛獅公司，  
4 咁你可唔可以幾時決定話新巴士呢就要有呢個系統嘞，即係响嗰個大埔意外之  
5 前，你幾時決定話要咁做呢？

6 李澤昌先生：嗰陣時仲試緊呀，所以即係想攞多啲數據先，因為嗰陣時得二十一架。  
7 但係我哋發覺到其實個 ESP 係可以幫助到，當架車 skidding，特別係佢  
8 rolling 嘅時間呢，我哋就即刻將個速度會加快啲想做咗佢嘅。

9 主席：（經傳譯員）咁呢個決定話要咁做，即係話 230 頁呢個行動呢，你嘅決定係  
10 因為 2 月 10 同埋有個特別委員會嘅調查，有個咁樣嘅建議，所以你決定咗要咁  
11 做？

12 李澤昌先生：（經傳譯員）係嘅。

13 MR DUNCAN：（經傳譯員）可唔可以形容一下而家嘅情況係點呢？即係話從加裝呢  
14 個電子穩定系統嘅現時嘅進展呢？即係 114 呢，你話巴士供應商證實做到嘞，  
15 咁我哋就會係分期呢加裝呢個系統落去巴士度嘅，所有巴士度嘅，你有冇收到供  
16 應商話證實係做得到嘅？

17 梁健宏先生：佢哋都仲係喺度發展緊佢而家嗰套設備嘅，咁新車嚟到呢就係 2019 年  
18 嘅新車就會有，咁到期時佢就會下一步就睇睇點樣樣，呢啲咁嘅設備呢係去  
19 retrofit 落我哋嘅舊車度，初步嘅 indication 呢就係 positive，咁就個  
20 時間可能需要時間，但係嗰個 indication 係 positive。

21 李澤昌先生：即係正如呢度講咗喇，Volvo 係大概 18 至 24，但係 ADL 就未有一個  
22 確實嘅時間表，嗰個 retrofit。

23 MR DUNCAN：（經傳譯員）咁 ADL 有冇講過可唔可行呢？

24 梁健宏先生：係嘅，可以嘅佢哋覺得，係可以 retrofit。

25 MR DUNCAN：（經傳譯員）咁係咪即係成個車隊都包括在內？

26 梁健宏先生：淨係 restricted to Euro V 嗰啲車呢，係有電子逼力系統嗰啲車  
27 先至可以。

28 李澤昌先生：因為歐 V 之前呢係冇電子逼力系統嘅。

29 MR DUNCAN：（經傳譯員）即係話有啲車隊裏面有啲巴士就有嘅？

30 梁健宏先生：（經傳譯員）冇，係唔嘅。

31 MR DUNCAN：（經傳譯員）咁有幾多架呢？

- 1 梁健宏先生：我諗我哋歐 V 以上嘅，佔我哋而家係超過一半嘅車隊。
- 2 主席：（經傳譯員）即係話有一半係冇個囉嗎？即係重新安置，就住做完都係有一半  
3 冇嘅？
- 4 MR DUNCAN：（經傳譯員）咁講啱唔啱？
- 5 梁健宏先生：（經傳譯員）係嘅。
- 6 MR DUNCAN：（經傳譯員）或者全面起見，我哋想睇睇 TD-404。
- 7 主席： Which bundle is that in?
- 8 MR DUNCAN：（經傳譯員）TD-1。工作小組有冇建議所有專營巴士公司响新嘅雙層  
9 巴士，即係話 2018 年開始都係會裝呢個電子穩定嘅系統，係咪要咁樣做呢？
- 10 梁健宏先生：（經傳譯員）係㗎。
- 11 MR DUNCAN：（經傳譯員）喺 (a) 嗰一段，係咪就係話可以全面咁樣描述呢一個裝置  
12 嘅性質呢？
- 13 梁健宏先生：九巴就會係 2019 年 1 月 1 號嗰啲新車就會有。
- 14 MR DUNCAN：（經傳譯員）當我哋仲睇緊 404 頁嘅時候呢，你喺 (b) 嗰一段呢，係  
15 睇到一個參照呢就係講到減速器嘅，就係話你可以限制最高嘅車速，尤其是係落  
16 坡嘅時候，就係有一個限速嘅減速器。你睇唔睇到有呢一個提述呀？
- 17 梁健宏先生：（經傳譯員）有嘅。
- 18 MR DUNCAN：（經傳譯員）我想請你呢記住呢一點，然後呢再去睇番交畀運輸署嗰  
19 個報告，即係意外之後，喺 115 頁。
- 20 主席： Of KMB-1?
- 21 MR DUNCAN：（經傳譯員）KMB-1 號文件冊。可唔可以你自己睇一睇第 45 段呀？
- 22 梁健宏先生： Yes.
- 23 MR DUNCAN：（經傳譯員）佢就係咁講，佢話呢一個咁嘅減速器呢，就係一個水壓  
24 嘅設施㗎㗎，佢就話呢，做完一啲工程同埋測試之後呢，就可以喺新巴士嗰度裝  
25 上呢一啲嘅限速系統㗎。係邊一啲人會供應呢一類嘅裝置嘅呢？
- 26 梁健宏先生：（經傳譯員）係巴士製造商。
- 27 MR DUNCAN：（經傳譯員）已經有咗幾耐呢？
- 28 梁健宏先生：（經傳譯員）喺新巴士嗰度就會有㗎㗎，出年呢就有㗎㗎，就係 ADL  
29 嗰啲，即係亞歷山大丹尼斯車廠。

- 1 主席：（經傳譯員）我諗頭先大律師所問呢就係話，究竟嗰啲供應商幾時開始有？
- 2 梁健宏先生：（經傳譯員）而家就有。
- 3 MR DUNCAN：（經傳譯員）唔好意思，我諗我問得唔清楚，呢一啲嘅裝置，喺大埔
- 4 意外之前係咪已經有嘅呢？
- 5 梁健宏先生：（經傳譯員）冇㗎。
- 6 MR DUNCAN：（經傳譯員）佢哋係幾時首先出現嘅呢？
- 7 梁健宏先生：（經傳譯員）將會有。
- 8 李澤昌先生：（經傳譯員）第一個呢就會喺九巴嘅巴士嗰度出現。
- 9 主席：（經傳譯員）即係話世界其他地方都有？
- 10 梁健宏先生：（經傳譯員）對雙層巴士嚟講係冇。我唔係好肯定。
- 11 主席：（經傳譯員）咁你要小心啲答，要謹慎啲。
- 12 MR DUNCAN：（經傳譯員）去番最開頭先。喺意外之前，你知唔知道有呢一類嘅裝
- 13 置？
- 14 梁健宏先生：（經傳譯員）我哋有去過皇后大學，就係貝爾法斯特嘅，我哋就唔去亞
- 15 歷山大丹尼斯車廠，我哋知道有咁樣嘅科技㗎，尤其是係車上可以用到㗎。
- 16 主席：（經傳譯員）你意思係咪即係話呢一個嘅裝置呢，呢一個科技呢喺 Wright 嘅
- 17 啲巴士嗰度有？
- 18 梁健宏先生：（經傳譯員）而家係冇㗎。
- 19 李澤昌先生：其實今次呢個交通意外之後呢，我地同咗呢個 ADL、Volvo 呢兩間公
- 20 司呢，係同佢傾嘅時候呢，我哋都係同佢探討緊呢，呢個 retarder 呢個東西
- 21 呢，係咪可以呢係喺個巴士裏面安裝，咁佢哋當其時呢，都係花咗一段時間呢，
- 22 係諗下呢個嘅可行性，咁我哋只能夠係講到呢度，因為即係唔係嗰件嘢，佢係好
- 23 readily available 咁樣畀我哋嘅感覺㗎。
- 24 主席：（經傳譯員）大律師。
- 25 MR DUNCAN：（經傳譯員）喺今年二月嘅意外之前呢，其實你可能都知道你有嗰個
- 26 減速器嘅裝置呢，就係令到你啲巴士係 70 公里內，咁係唔會喺巴士減坡嘅時候
- 27 係受到影響，係咪？
- 28 梁健宏先生：（經傳譯員）我知道。
- 29 主席：（經傳譯員）因為你嗰個系統就係話會減少燃油供應落去嗰個引擎嗰度㗎嘛？

1 梁健宏先生：（經傳譯員）係呀，啱。

2 MR DUNCAN：（經傳譯員）既然你係知道呢一個系統就算巴士係落坡嘅時候超過 70  
3 公里，佢都唔會將佢減速嘅，咁喺意外之前呀，你有冇查詢過喺市場上面，有冇  
4 任何嘅裝置，喺呢一方面會向你提供到協助嘅呢？

5 梁健宏先生：應該有，但係我唔知道喺邊一個情況講過。我哋有啲車係用 hand-  
6 retarder 嗰啲車就有，落斜路我哋會 restrict 咗嗰個車速嘅。

7 MR DUNCAN：（經傳譯員）呢個唔係問題㗎，你有冇考慮過，即係同巴士供應商喺  
8 意外之前，即係話自從意外之後，你發現咗有嘅嘢，你喺之前有冇傾過，即係話  
9 呢係可以喺落坡嘅時候限制車速？

10 梁健宏先生：我記憶中係冇。

11 陳祖澤先生：（經傳譯員）或者我嘗試處理呢一個有少少技術嘅問題。之前我哋係講  
12 過一個某啲要喺西貢公路落斜嗰一啲巴士嗰度，可以有一啲手動嘅減速器，咁要  
13 答大律師嘅問題呢，係有㗎。呢一啲有手動減速器嘅巴士呢，喺大埔意外之前  
14 呢，好耐都有用㗎嘞，所以呢，你咁樣講就話我哋係知道，但係講到好似呢一類  
15 咁樣嘅限速減速器呢，即係我哋而家講緊呢啲呢，只係喺個意外之後，我哋先至  
16 知道有㗎。

17 MR DUNCAN：（經傳譯員）好，明白，我明㗎。

18 主席：（經傳譯員）咁你意思即係呢一個水壓嘅系統？

19 陳祖澤先生：（經傳譯員）係。

20 MR DUNCAN：（經傳譯員）我哋可唔可以睇番個第一個行動計劃，等我哋可以明白  
21 呢一個情況。我相信呢應該係 150 頁㗎。係咪講呢一度呢，就係話有一個限速  
22 嘅制度，就可以自動咁樣係可以剎車，等佢可以減低嗰個波箱嘅操作。

23 梁健宏先生：Yes.

24 MR DUNCAN：（經傳譯員）咁嗰個行動嗰度就話，喺 4 月 10 號，亞歷山大同埋富豪  
25 呢，都係喺度探索緊點樣可以喺新巴士嗰度裝置呢一啲嘅設施㗎，咁就話喺適當  
26 時間亦都更新資料。然後我哋去第二個行動計劃。第 19 項。

27 主席：（經傳譯員）第幾頁呀？

28 MR DUNCAN：（經傳譯員）應該係 232 頁喇，主席。

29 主席：（經傳譯員）唔該。

30 MR DUNCAN：（經傳譯員）我哋係收到資料呢，就係話亞歷山大丹尼斯歐盟 VI 型嘅  
31 新巴士呢，就會有呢一個裝置，富豪呢就會係 2019 年 7 月呢就會有呢一種嘅設  
32 施，而佢哋新嘅歐盟 VI 型巴士，如果喺呢一個時間之前，係交付嘅話呢，就可

1 以加裝呢一個設施㗎。咁樣係咪包括晒你將來會買嘅新車呢，即係從亞歷山大丹  
2 尼斯車廠同埋富豪？

3 梁健宏先生：（經傳譯員）係㗎，所有新嘅歐盟 VI 型車呢都會包括晒。

4 MR DUNCAN：（經傳譯員）咁你會唔會將來買嘅車都會係歐盟 VI 型嘅呢？

5 李澤昌先生：（經傳譯員）所有嘅新巴士呢都會係歐盟 VI 型。

6 MR DUNCAN：（經傳譯員）係咪即係限制於亞歷山大丹尼斯車廠同埋富豪呢？

7 李澤昌先生：（經傳譯員）到而家為止都只係有呢兩間嘅製造商係製造歐盟 VI 型嘅  
8 巴士。

9 MR DUNCAN：（經傳譯員）或者我哋睇番工作小組嘅建議㗎。我哋可唔可以睇到啲  
10 細節呢，就係 TD-1，404 頁同埋 405 頁。你睇唔睇到呢一度寫嘅嘢呀？

11 梁健宏先生：（經傳譯員）係嘅，睇到。

12 MR DUNCAN：（經傳譯員）講到加裝呢，你就會發現呢，工作小組嘅建議就係話，  
13 就係呢兩個新裝嘅裝置呢，就都要喺現有嘅巴士嗰度去加裝㗎，咁就係話呢，你  
14 應該喺十二至十八個月之內，即係話 2019 年嘅下半年，就開始嗰啲試行嘅計劃  
15 㗎，你可唔可以同我哋確認一下公司對於呢一個加裝嘅工作，你打算點樣做呢？  
16 加裝呢一個裝置。

17 梁健宏先生：我哋會做嘅。

18 MR DUNCAN：（經傳譯員）咁你會唔會係根據工作小組嗰個建議咁樣去做呢？

19 梁健宏先生：我哋會跟進。

20 MR DUNCAN：（經傳譯員）我而家呢想睇工作小組講嘅另外一個裝置。就係 405  
21 頁，嗰度講到話一啲測試嘅，一啲新嘅安全科技嘅測試，或者呢，我而家係讀咗  
22 嗰個引旨嗰一段出嚟先，就係話令到專營巴士商可以更好咁樣管理同埋控制佢哋  
23 嘅車隊，同埋呢係防止一啲不安全嘅駕駛行為造成嘅潛在風險。工作小組呢就認  
24 為有啲新嘅安全科技呢，係可以協助專營巴士商係去監察同埋控制巴士嘅安全。  
25 呢一啲應該係積極咁樣去探索嘅，一般嚟講呢，專營巴士商呢就係願意去睇下最  
26 新嘅安全裝置，或者係科技嘅裝置，去睇下邊度有呢一啲嘅供應，同埋願意呢係  
27 去測試佢哋嘅技術可行性，同埋呢係佢哋嘅——係咪物有所值㗎。

28 咁第一個建議就工作小組提出嘅就係所謂巴士監察同埋控制系統。我就可以  
29 以讀出呢度嘅內容，由於有最新嘅巴士管理系統嘅技術進步，技術發展呢，有  
30 黑盒喇，亦都有即時嘅監察嘅功能，包括埋係速度呀，地球位置呀，同埋嘅紀  
31 錄呀，咁嗰個工作小組覺得呢一個中期嘅目標，專營巴士公司呢，應該設立一  
32 個，發展一個全面嘅巴士監察同埋個控制系統喇，有定位系統喇，亦都有啲係  
33 營運嘅資料可以進行監察喇，同埋有唔同嘅限速，包括係地球圍欄嘅科技喇，

1 會使用地球定位系統，或者其他嘅定位科技，呢個系統就會係即係將嗰個實際  
2 嘅巴士所在嘅位置，同埋嗰個法定嘅速度呢結合起嚟嘅。

3 咁跟住呢個實時嘅資料呢，限速資料就可以用嚟控制嗰個係限--加強個限  
4 速器，即係話限速器係有兩個唔同速度嘅設定嘅，即係話巴士嘅速度呢，係可  
5 以响嗰個速--即係譬如話每小時 50 公里、70 公里嚟到進行限制嘅，就視乎路  
6 段喇。呢個系統亦都可以容許個專營巴士公司嚟到係監察佢哋嘅巴士車隊喇，  
7 更加緊密咁樣去監察喇，亦都可以就住超速就採取適當嘅管理。就住超速同埋  
8 唔安全，或者唔妥當嘅駕駛行為，譬如話大力剎車呀，或者係上山或者轉彎嘅  
9 時候速度不當呢，進行一啲適當嘅管理行動。

10 咁呢方面就專營巴士公司同意呢係發展咁樣嘅系統，咁就會响另外一個階  
11 段進行測試嘅。第一個階段就會有一個咁樣嘅管理系統，係有定位嘅功能嘅，  
12 亦都有車務嘅資料嘅，例如車輛嘅速度呀，嗰個係剎車嘅狀態呀，加速等等，  
13 減速等等喇，有啲咁樣嘅監察系統，同埋個地理圍欄嘅科技呢，就要嚟管理個  
14 車隊，咁我會試用，嚟到係可以察覺到有冇超速，亦都可以即時提供實--警示  
15 畀巴士車長嘅。

16 第二個階段呢，視乎第一個階段嘅測試係如果係成功嘅話，咁呢個新嘅系  
17 統呢，即係巴士監察管理系統呢，就會有啲額外嘅裝--應用嘅功能嘅，咁就係  
18 一個加強版嘅增加，即係改進版嘅限速嘅功能嘅，呢個會由巴士製造商發展出  
19 嚟嘅，所以可以決定嗰個巴士嘅速度呢，就會係符合番唔同路段嘅相應嘅限速  
20 嘅。咁而家我哋睇睇巴士公司嘅行動計劃。

21 主席：（經傳譯員）未去嗰度先前呢，我就想問梁生一個問題，請你睇番 402 頁。  
22 運輸署呢提供咗啲資料畀委員會。呢個關於嗰個工作小組工作嘅進展，佢哋嘅會  
23 議喇，你見到最後兩行，「工作小組嘅報告呢，我哋會提交--儘快提供一個副  
24 本畀委員會參考嘅。」呢個係 7 月 19 號嘅信件，咁幾時可以收到，我哋幾時可  
25 以收到工作小組嘅報告呢？

26 梁健宏先生：我未收到過。

27 主席：（經傳譯員）你可唔可以幫我哋呢，我哋幾時可以收到呢，你大概可以...

28 梁健宏先生：Working group 仲係開緊會。

29 主席：（經傳譯員）我明白嘅，可能亦都係過咗我哋之前即係運輸署講嘅時間嘅限度  
30 喇，佢哋喺 5 月畀證供呀，我就想你可唔可以指示一下呢，即係作為你都係工作  
31 小組嘅一個成員喇，可唔可以畀我哋講一講大概我哋幾時可以收到報告呢？

32 梁健宏先生：有會議紀錄嘅，啲啲我就收到會議紀錄嘅啫，Chairman。

33 主席：（經傳譯員）你唔明白我嘅講法，去到尾呢，個工作小組有個報告㗎，我哋幾  
34 時，大概幾時可以攞到呢個工作小組報告？

1 梁健宏先生：我要問番個 working group 嘅 chairman。

2 主席：（經傳譯員）我都明白嘅，係咪差唔多完喇，差唔多即係做晒喇，就可以最後  
3 簽字？

4 梁健宏先生：（經傳譯員）差唔多做完㗎喇。

5 主席：（經傳譯員）唔該。大律師。

6 MR DUNCAN：（經傳譯員）係咪工作小組仲有其他會議要開呀？係咪已經做晒佢哋  
7 嘅工作㗎喇？

8 蘇偉基先生：個 working group 呢，根據頭先講個兩個 agenda，一個 bus  
9 fleet，一個就係 training 呢，係開咗三次嘅大會呢，係叫做有一個階段性  
10 嘅進展嘅，咁我哋都 expect 佢有個 report 㗎，咁出 report 就確實係主席、  
11 副署長去處理，佢跟手就召開咗第四次嘅會議，個 agenda 最主要係講 bus  
12 captain training 入面有啲乜嘢嘅 monitoring mechanism，咁就係 9  
13 月，我有記錯係 9 月中開嘅。

14 MR DUNCAN：（經傳譯員）唔該晒。跟住講下個個工作計劃嘞。150 頁，呢個係  
15 KMB-1 個個文件冊嘅。呢個係第 16 段喇呢一頁，係關於呢件事嘅就係呢一段，  
16 係 BMCS，即係巴士管理及控制系統，係咪呢？

17 李澤昌先生：而家我哋係有向呢個方向做緊嘅。首先我諗頭先都講咗啲 digital  
18 map 同埋個個 black box 個樣嘢，咁個樣嘢係而家係進行緊，有個時間表，咁  
19 如果個樣係做得到嘅話，第一個階段就可以將車長今日佢個 70 公里，而呢個  
20 70 公里今日淨係架車本身係 set 咗出嚟。咁呀未來呢係真係可以 70 同 50 呢都  
21 係提醒個車長，係即時呢，喺個 dashboard 個度見到嘅。

22 咁第二個階段就係講緊個個 geo-fencing，geo-fencing 個個其實係比  
23 較複雜，係首先一，就由個車本身佢個 CAN system，輸入個資料喺個  
24 black box，然後 black box 分析完佢個 location 係咪超速，然後就叫  
25 個 geo-fencing 嘅 system 呢，就去番落去個 CAN system，即係架車本身  
26 個個系統個度，做呢個動作，究竟係收油㗎，抑或將佢個速度，去番個  
27 speed limit 嘅速度㗎，或者係逼力呢，呢個呢係比較要小心㗎，因為我哋係  
28 overtake 㗎，我哋 takeover 㗎車長個個行為。咁呢個我哋亦都有一架車行  
29 緊係試緊呢樣嘢，但係就仲係喺試緊嘅階段㗎嘅。

30 MR DUNCAN：（經傳譯員）呢個係咪第 16 段呢度所講㗎？就反映個需要做嘅工  
31 作，即係話呢個巴士管理同埋控制系統。

32 李澤昌先生：（經傳譯員）係嘅。

33 MR DUNCAN：（經傳譯員）咁有啲進一步嘅更新呢，我哋睇番第二個工作計劃，231  
34 頁，都係 KMB-1 文件冊。大家睇唔睇到 231 頁，2018 年 8 月 1 號嘅情況，呢

1 個係一個駕駛測試，頭先我哋提過呢件事嘅。

2 李澤昌先生： Yes.

3 MR DUNCAN：（經傳譯員）咁褪番後喇，我哋睇番工作小組嘅建議，根據運輸署所  
4 講呢，咁九巴就住第一個階段，第二個階段，而家嘅情況係去到邊呢？

5 梁健宏先生：Phase 1 呢就淨係畀 alert 嘅啫，淨係畀提示嘅。

6 MR DUNCAN：（經傳譯員）係，我哋達到邊一個階段呀？做咗一半，第一階段定係  
7 第二階段？

8 梁健宏先生：未㗎，我哋仍然都係喺度試驗，都未曾去到一個即係有結果嘅階段。

9 李澤昌先生：今日呢仲係嗰個，因為要個 digital map 呢，即係裝咗喺嗰個黑盒裏  
10 面呢，先至係可以完成咗 50 同 70，但係今日我哋試緊呢一架車呢，係試緊呢一  
11 個 50 同 70 嗰個情況裏面呢，個系統係 work 唔 work 嘅啫，咁即係話其實個  
12 digital map 嚟咗之後呢，第一個階段呢，應該喺短期內應該可以做到。

13 梁健宏先生：補充一點喇，我哋而家就 manually 將有啲 location 呢就擺咗喺個  
14 黑盒度，manually 即係話邊一啲 GPS location 係個 zone 係 50 公里限制  
15 嘅，我哋就係 manually 就已經 put 咗落去嗰個黑盒嗰度，即係如果有個 live  
16 map 呢，我哋就成個擺咗落去呢就到期時就可以再認真真再去試。

17 主席：（經傳譯員）有幾多路段呢，你哋人手即係分辨 50 公里嘅路段，70 公里路  
18 段，要涵蓋幾多路段呢？

19 李澤昌先生：我哋而家用手入嗰個係咁樣嘅，我哋將我哋行嘅車嘅路段係 70，咁呢  
20 就 manually 就 digit--我哋自己 manually install 落去 70 嗰啲地方，  
21 咁其實 install 70 嗰個 map 之後呢，即係 manual 嗰個，咁呢然後我哋就--  
22 其實呢就全部車都可以試得㗎嘞，但係我試咗一部，嗰一部車試咗佢行，喺  
23 70，佢唔響，如果佢超過 70 嘅時候，50 佢係咪響，如果超過 50 嘅時候，而家  
24 我哋試緊一部，即係如果你可以想像呢，如果一部 work 嘅時候呢，其實我哋四  
25 千幾部車都會成功嘅。

26 但係另外個問題就返番去，就係而家呢啲係我用手去做呢個動作，咁如果  
27 嗰個 digital map，政府佢入咗去之後呢，咁嗰件事情呢，即係當然要  
28 verify 啲 format 喇，咁呢就應該可以係實際可以好全面性就變咗一個 50 同  
29 70，都會係做到嘅。

30 主席：（經傳譯員）個問題我問，頭先問呢就話，人手做呢個階段呢，你涵蓋到幾多  
31 個路段呢？即係譬如話呢啲咁樣嘅參數呀，嗰啲定位系統嘅參數。

32 李澤昌先生：（經傳譯員）係所有嘅路段都得嘅。

33 主席： Thank you.

1 MR DUNCAN：（經傳譯員）你可唔可以同委員會講一講大概呢兩個階段呢，要做嘅  
2 啲測試要幾耐呢？

3 李澤昌先生：我哋畀咗你哋嘅，呢個係一個好 indicative，plan 咗邊啲路係  
4 70，就係做 70。

5 主席：（經傳譯員）可唔可以提一提醒我哋响邊度搵到呢，文件度，係咪有一個好似  
6 係條狀嘅圖表畀我哋呀？

7 梁乃鵬先生：（經傳譯員）279 至到 281。

8 主席：（經傳譯員）好，唔該晒。你可唔可以協助下我哋呢，第一個係咩嘢意思呢，  
9 就係 Openmatics 呢將有關嘅限速呢，係擺入去黑盒裏面嘅。

10 梁健宏先生：呢個就係將政府嗰個 live data set，就係嗰啲 road...

11 主席：（經傳譯員）即係話嗰個數碼地圖係有限速嗰個？

12 梁健宏先生：（經傳譯員）係，啱嘅。

13 主席：（經傳譯員）係由 Openmatics 去裝置落去黑盒，係咪所有黑盒呢？

14 梁健宏先生：（經傳譯員）係。咁喺測試嗰陣時可能係一、兩個。

15 主席：（經傳譯員）呢個係你希望可以達到嘅，係咪？

16 梁健宏先生：（經傳譯員）係呀。

17 主席：（經傳譯員）睇番唔同嘅步驟，呢度話核實嗰個限速嘅準確性，咩嘢意思呀？

18 梁健宏先生：亦都希望嗰套系統真係正常咁去運作呢，咁就真係要試試佢係咪去到嗰  
19 個地點，係真係做到嗰個要求。

20 主席：（經傳譯員）係咪即係話交叉咁樣查核？

21 梁健宏先生：Cross-check.

22 李澤昌先生：有時呢，因為其實佢係好依靠嗰個 GPS 話番你嗰個定位嘅，有陣時啲  
23 路段呢，其實就算你嗰個 map 嗰個 speed limit 係準呀，但係實際上嗰個車  
24 嗰個彈上去嗰個未必係準嘅，因為你靠 GPS，嗰個位置會未必係準，嗰度要做少  
25 少調較㗎。

26 梁健宏先生：其中一個要考慮嘅就係嗰個 GPS 訊號係咪穩定，同埋係咪準確，呢樣  
27 嘢都要去 validate 嘅，Chairman。

28 李澤昌先生：即係譬如你喺屯門公路，我哋係個巴士車速係可以去到 70，其實當佢  
29 行緊屯門公路嘅時候，因為你靠 GPS 定嘅位呢，有陣時呢，佢會係度咗你行咗  
30 青山公路，咁嗰度就會 50 㗎㗎。所以我哋要係即係有一段時間，因為有好多呢

1 响路，佢唔同嘅車速，但係佢好近㗎，咁所以喺嗰度要做嘅工夫。

2 主席：（經傳譯員）呢一個問題就係，係咪一條路係一條天橋，或者另外一條就唔  
3 係？

4 李澤昌先生：（經傳譯員）佢哋平行嗰陣時都有問題，平行嘅兩條路都會有問題。

5 主席：（經傳譯員）我而家呢就再睇番呢度嘅步驟㗎，咁你就會進行內部測試㗎，咩  
6 嘢意思呢？

7 梁健宏先生：可能就係一個自己同事嘅 test drive，或者一個特別嘅路線嘅測驗  
8 呀，呢啲係要去試下實際嗰個運作係咪達到預期嘅效果。

9 李澤昌先生：因為今日呢佢 70，佢響嗰盞燈嘅時候呢，係真係喺架車，佢本身嗰個  
10 speedometer 嗰度呢，cut 咗個 70，佢響燈嘅，未來呢佢個 70 同埋佢個 50  
11 alert 呢，係靠呢一個系統 alert，係完全兩樣唔同嘅事㗎，所以喺個車長嘅  
12 角度，佢今日 70 響燈呢，係因為佢係一個車速裏面呢，就提醒佢一過 70 響  
13 燈，未來 70 同 50 呢，都會靠呢一個系統呢，係同佢個實際上嗰個路面嗰個  
14 limit 去響燈，咁即係同事呢，即係車長呢，佢可能要適應呢一樣嘢，所以要  
15 一段時間，等佢知道嗰個改變咗嗰個系統嗰個背後嘅誘因㗎。

16 主席：（經傳譯員）呢一度仲有另外，就係話同前線人員諮詢㗎，咁我哋都顧名思義  
17 㗎，咁然後就係 1 月，就係全個車隊要實施㗎，即係 2019 年 1 月。

18 李澤昌先生：（經傳譯員）係。

19 主席：（經傳譯員）咁關於時間嗰度呢，我哋去睇下最耐㗎一行，你又重複㗎，就係  
20 之前所講嘅嘢，就係話進行內部測試，諮詢前線人員，點解要重複呢？

21 李澤昌先生：（經傳譯員）呢個同呢個唔同嘅。呢個係 phase 2，係兩樣嘢㗎嘅，  
22 主席，phase 2 嗰個呢就係，頭嗰個就係佢嘅車喺嗰個 dashboard 裏面呢，  
23 有兩個 real-time 嘅，有個 real-time 嘅指示，就話畀個車長聽，你係超過  
24 50 嘞，嗰個 speed limit，你要提醒佢，或者超過 70，你提醒佢。

25 下邊嗰個就唔同嘅，下邊嗰個呢，就係第二階段㗎㗎㗎，就係話當你嗰個  
26 車長係超過某一個 speed limit，或者某一個更加高嘅速度嘅時候，就由  
27 geo-fencing 呢個 system，係 takeover 嗰個車長嗰個行為，就即係話畀你  
28 聽叫佢收油，咁呢一個呢，我哋係先做呢，呢個第一階段我哋寫漏咗係 70 公里  
29 嗰個啫，50 嗰個未做住嘅。咁如果即係話換言之呢，即係話當第二階段呢，就  
30 話如果個車長超過 70，有陣時落斜呀，等等嘅情況呢，咁個車就會係用 geo-  
31 fencing 呢個系統呢，就幫架車去收油㗎，就唔會再依賴提醒車長咁簡單，呢  
32 個係第二階段㗎。

33 主席：（經傳譯員）咁第一階段係咪即係話 2019 年 1 月就完成呀？

34 李澤昌先生： We hope.

1 主席：（經傳譯員）係，大律師。

2 MR DUNCAN：（經傳譯員）多謝主席。請大家睇運輸署文件 1 號文件冊，406 頁。  
3 就係講到下一個要測試嘅裝置㗎，就係話呢，碰撞嘅警示同埋維持行車線嘅裝置  
4 㗎。就係話呢一個係附加裝置㗎，就係會令到巴士車長呢係得到警示，就有可能  
5 會撞車㗎，咁呢個維持行車線嘅裝置呢，都係一個附加裝置㗎，就係當巴士離開  
6 佢係應該轉向嗰條線嘅時候呢，就會係警示個巴士車長㗎。

7 咁兩個裝置呢都係市場會有㗎，因此呢喺專營巴士嗰度去試用呢一啲嘅裝  
8 置係應該㗎，我哋係會建議㗎。今日較早嘅時候呢，我哋睇番啲意外統計數字  
9 嘅時候，追撞同埋係迎頭嘅相撞呢，同埋因為轉線而有嘅意外呢，都係有成百  
10 分之廿五㗎。即係佢哋呢係總意外嘅百分之廿五㗎，呢幾種嘅相撞。

11 主席：（經傳譯員）鄧律師，你可唔可以話畀我聽呢啲嘅數字喺邊度呀？

12 MR DUNCAN：（經傳譯員）係第 183 頁㗎，係 TD-1，183 頁。公司有冇考慮過係  
13 去應用呢一啲咁樣嘅裝置呢？大埔嗰個意外之前，有冇考慮過應用呢啲裝置？

14 李澤昌先生：有。

15 MR DUNCAN：（經傳譯員）你可唔可以形容一下你哋考慮過啲咩嘢？咁考慮過之後  
16 嘅結果係點？

17 主席：（經傳譯員）你未答呢個問題之前呢，我睇緊第 183 頁，因為轉線而造成嘅  
18 碰撞呢係百分之十一，係咪呢？抑或你係包括咗其他嘅意外呢？

19 MR DUNCAN：（經傳譯員）唔好意思，主席，我應該係講啲分項㗎，我呢係將迎  
20 頭相撞、追撞同埋係轉線相撞呢，加埋係百分之廿五。

21 主席：（經傳譯員）好，唔該。唔好意思，請你再問嗰個問題喇。

22 MR DUNCAN：（經傳譯員）係嘅。公司有冇考慮過使用呢一啲嘅裝置呢？即係喺 2  
23 月個意外之前。

24 李澤昌先生：其實喺 2017 年呢，就我哋個工程部，我本人同埋我哋嗰個車務總監梁  
25 生，咁就喺公司裏面呢，我哋都有一班即係年青嘅工程師，一齊諗一啲即係新嘅  
26 方法，係可以係幫到你頭先講啲兩樣嘢，亦都正正係咁樣，我哋喺正話我之前講  
27 過喇，喺上年嘅春天呢--秋天呢，我哋就去咗呢個北愛爾蘭，就搵咗呢間大  
28 學，Queen's University 喺 Belfast，咁呀正正就係研究緊呢兩個工作。

29 咁呀其實我哋自己 KMB in-house 都有個即係自己嘅一班工程師呢，都會  
30 一齊同--我哋 send 咗啲工程師，去咗呢個北愛呢，都係做緊呢一樣嘢，咁亦  
31 都北愛嗰啲，北愛爾蘭 Queen's University 亦都 send 啲 professor 過嚟  
32 香港一齊睇下我哋啲車係點樣。咁呢兩樣係兩個主要嘅工程，一個就係你頭  
33 先講嗰個，即係 collision alert 嗰樣嘢，就話前車同我哋架巴士嗰個距  
34 離，咁呀呢個我哋察覺到呢，特別係嗰啲即係長途車呢，係嗰個意外呢，嗰個

1 direct 嘅 collision 呢，係可以好 fatal 㗎。

2 咁我哋係，即係我哋自己都做緊一啲嘢，係可唔可以將嗰架車，同前車距  
3 離嘅時間係去到某一個距離，而你嘅車速亦都度咗你嘅 braking distance  
4 呢係遠遠低過嘅時候呢，就應該要 alert 嗰個車長，咁呢個我哋自己裏面呢都  
5 不停做緊呢個工作，咁但係呢又有一間，而家我哋又搵到一間學校呢，喺  
6 Belfast 呢，將呢樣嘢係一齊共同去發展。咁如果你睇下呢個 vTech 呢份文件  
7 裏面呢，亦都有介紹到呢，當佢轉線嘅時候呢，當個車長轉行車線嘅時候，而  
8 佢有做到佢基本嗰啲嘅動作呢，個 steering 點點嘅話呢，亦都有啲提示，咁  
9 呢個而家我哋係研究緊嘅，不過係今日只係講畀你聽，係喺嗰個，即係我哋嗰  
10 個研究之間，係有一啲即係實際上一啲即係初步嘅結論呀，或者結果出嚟。

11 梁健宏先生：補充一點喇，市面上喺可以搵到嘅 third party 嘅 product 呢，我  
12 哋都會密切留意嘅，咁就正如稍後都會講到嗰啲 driver monitoring  
13 device，咁呢啲 device 有時都即係係咪真係咁使呢，有時都我哋都希望係  
14 嘅，我哋都希望係。

15 MR DUNCAN：（經傳譯員）根據運輸署，就講到工作小組嗰個商議嘅時候，喺 406  
16 頁呢，其實市場已經有呢啲裝置㗎，你睇唔睇到呀？

17 李澤昌先生：(c) 嗰點係喇，drowsiness 嗰啲，yes。

18 梁健宏先生：（經傳譯員）睇到。

19 MR DUNCAN：（經傳譯員）唔係呀，(b)。

20 梁健宏先生：我知道有啲巴士公司都試緊嘅，咁我哋都會密切留意，咁我哋亦都會去  
21 再去睇睇，再試嘅，我哋會嘅。咁其實講番呢個 lane-keeping devices 嗰  
22 個 alert 呢，我記得亦都我哋嗰個神眼（原文照錄）我哋亦都試過嘅，好多年  
23 前，咁就呢啲產品，咁就當然以前試過係效果不如理想，但係而家嘅科技我哋會  
24 繼續留意，我哋會繼續再試。

25 MR DUNCAN：（經傳譯員）我想問點解你要進行呢一個研究計劃呢？仲要同一間海  
26 外嘅大學去做，因為市場已經有呢一啲嘅裝置。

27 梁健宏先生：Mr Duncan，即係有時有啲 product available 呢，有時都試咗之  
28 後係唔係合用呢，都要真係要試過嘅。

29 李澤昌先生：因為呢度呢，其實即係要講多啲咁多多，其實每一件 product 呢，佢  
30 係喺佢當地嘅地方呢，可能呢係好適用，但係因為九巴佢涉及嗰個唔同嘅路呀，  
31 長途嘅路有喇，市區嘅路有喇，人多擠迫嘅路亦都有喇，即係好複雜㗎，所以即  
32 係有一個好零零舍舍嘅一個即係 third party 嘅產品呀，可以係真係即係  
33 apply 咗喺我哋身上，因為正正我哋就係講緊咁多人數呀，喺嗰啲擠迫嘅路  
34 呀，或者一啲長途嘅路呢，係好難係搵一個呢，只能夠去試，但係當然試嘅同時  
35 呢，我哋都要自己呢，要搵一個自己嘅出路囉。

1 主席：（經傳譯員）大律師，我哋差唔多去到尾嘞，咁今日都係好長嘅，用咗好多時  
2 間嘞，咁我就唔打算呢要大家再留多啲時間。各位先生，今日好明顯呢你哋要再  
3 提供好多資料畀我哋嘅，我哋會睇個謄本喇，我相信你亦都會喇，你會睇睇究竟  
4 嗰度點樣講喇，你要提供啲咩嘢資料畀我哋喇，希望提供嘅資料我哋覺得會好有  
5 用。

6 我想請你可唔可以兩個禮拜，即係今日開始計，兩個禮拜內請你提供資  
7 料，因為我哋都需要另一個係口頭取供嘅環節嘅，咁如果我哋可以攞到，即係  
8 及時攞到個文件喇，編咗個號碼，咁呀會有幫助嘅，我都會請大律師都係喇，  
9 同樣係咁樣。好嘞，我就想請你兩個禮拜提供你哋要提供嘅文件，跟住我會再  
10 定一個日期做一個研訊嘅。

11 好，多謝大家出席，我知道今日都時間好長，咁亦都係大家都幫咗委員會  
12 好多，而家我哋暫時休會，到我哋定咗日期呢，我哋會復會嘅，唔該晒。

13  
14 2018 年 8 月 11 日

15 下午 5 時 32 分聆訊押後

*[Blank Page]*

Wednesday, 12 September 2018

(10.00 am)

EVIDENCE FROM KOWLOON MOTOR BUS CO (1933) LTD

AND LONG WIN BUS CO LTD: DR NORMAN LEUNG, DR JOHN CHAN,

MR ROGER LEE, MR GODWIN SO, MR LEUNG KIN WANG,

MR PATRICK PANG, MR JAMES WONG

(simultaneous interpretation was used where indicated)

Examination by MR PETER DUNCAN (continued)

CHAIRMAN: Good morning, Dr Leung, gentlemen.

DR NORMAN LEUNG: Good morning, Mr Chairman.

CHAIRMAN: Mr Duncan.

MR PETER DUNCAN: Thank you, Mr Chairman.

Good morning, Dr Leung and gentlemen. Could I first  
acknowledge receipt of a considerable amount of material  
from the company since the last day of the hearing.

Thank you for providing the committee with that  
information.

At the end of Day 14, I was asking you questions  
about the possible engagement of collision-alert and  
lane-keeping devices, and through Mr Leung we were  
informed that the company was undertaking research with  
Queen's University in Belfast, that had commenced last  
autumn, which is now about a year ago. Also, we were  
informed that in the market, you will be watching out  
for whatever third-party products might be available.

1           The committee has been made aware that there are  
2           devices of that nature available under the trade name of  
3           Mobileye, and I would like to ask the company whether  
4           you are aware of those sorts of devices.

5   MR LEUNG KIN WANG:   (Via interpreter) Yes, we were.

6   MR PETER DUNCAN:   Have you considered the engagement of  
7           those devices?

8   MR LEUNG KIN WANG:   (Via interpreter) Yes, we will.

9   MR PETER DUNCAN:   Have you not done so as yet?

10   MR LEUNG KIN WANG:   (Via interpreter) In year 2014, we did  
11           try it out with Mobileye. In 2014, we had a similar  
12           trial scheme with Mobileye, but then the result wasn't  
13           that satisfactory, but of course technology does  
14           progress and in fact we have started to liaise with them  
15           again.

16   MR ROGER LEE:   (Via interpreter) If I may add to that. As  
17           of today, we have already got something from Australia,  
18           and in fact we have something similar to Mobileye  
19           device, so that when a bus captain is driving, if he is  
20           to sort of doze off, then we will alert him. So we are  
21           carrying out a trial, and in fact at the same time we  
22           have also got help from Japan. For the past two years,  
23           we are looking for something similar, so that when the  
24           signs of fatigue are detected from the driver, then we  
25           can try to do something to help them.

1           It is difficult because in Hong Kong, for long-haul  
2           trips and short-haul trips, especially during peak  
3           hours, the bus captain will have to move his head very  
4           frequently, so it will be difficult to be precise. He  
5           has to liaise with passengers and he has to watch out  
6           for the road conditions.

7           So, to tackle the problem of fatigue, it will be  
8           difficult to get a third-party product. Currently, for  
9           Queen's University from Belfast, we are now tackling  
10          a number of points. First of all, a driver, for no  
11          particular reason, tries to change lanes, we would like  
12          to alert him. We would also like to alert him if he is  
13          keeping too close to the preceding vehicle. So we are  
14          carrying out technological research.

15          For the Japanese product, later in the year, we will  
16          have the chance to try it again. The Australian product  
17          is being tried. Then, for Mobileye, we did try it but  
18          for the time being it is not suitable for us.

19   CHAIRMAN: You are conflating a number of different devices  
20           there, are you not? Mobileye 6, for example, has  
21           a forward-looking anti-collision device. It picks up  
22           the speed limits, because it reads speed limits. But  
23           you are talking about an anti-dozing device as well.

24   MR ROGER LEE: (Via interpreter) Yes, basically, they are  
25           two different products. For Mobileye or the two  
26

1 products being experimented by us, we are trying to  
2 check the facial expression of the bus captain or his  
3 visual -- his eyes, so as to alert him, so as to wake  
4 him up. Then there is a sensor on board. Then it  
5 measures the distance between the bus and the preceding  
6 vehicle, and it is aware of the speed of the vehicle.

7 We have the braking distance, that is, at  
8 a particular speed, you need to have a reasonable  
9 distance from the preceding vehicle to brake in time.  
10 So, if we know that it is very close to the preceding  
11 vehicle, and if the speed is such that it is not  
12 rational, then it is about something else, so it is  
13 entirely a different product.

14 We are having a trial of both kinds of products.

15 MR PETER DUNCAN: Just so that we don't get confused by any  
16 sort of conflation, can we just, for the moment, keep to  
17 the collision-alert and the lane-keeping device, and  
18 then I will ask some questions about the anti-dozing  
19 device in a moment.

20 MR LEUNG KIN WANG: (Via interpreter) Yes.

21 MR PETER DUNCAN: So, with regard to the collision-alert and  
22 lane-keeping devices, I understood you to say a few  
23 moments ago that you have re-engaged the possibility of  
24 the Mobileye device; is that correct?

25 MR LEUNG KIN WANG: (Via interpreter) We will make  
26

1 reference. In particular, I understand that the other  
2 operators are also trying this out. So we will try to  
3 look at the results of their pilot schemes. On top of  
4 our work with Queen's University, we have an open  
5 attitude as to the functions, the current functions, of  
6 Mobileye, although the previous experience was that it  
7 wasn't quite suitable, but I'm sure we can look at it  
8 again.

9 MR PETER DUNCAN: Right. Have you started yet to go back to  
10 Mobileye?

11 MR LEUNG KIN WANG: (Via interpreter) Not yet.

12 MR PETER DUNCAN: Is it your intention to do so?

13 MR ROGER LEE: (Via interpreter) For the time being, it is  
14 a matter of reading the literature. We haven't yet  
15 started any dialogue with Mobileye. This is because  
16 there are similar products in the market, and maybe they  
17 are better. So we are looking at a few other products  
18 and we are also carrying out our own research.

19 MR PETER DUNCAN: Right. Have you commenced any sort of  
20 engagement with any supplier of collision-alert and  
21 lane-keeping devices?

22 MR ROGER LEE: (Via interpreter) Indeed. An Australian  
23 company, we are now trying their Australian product.  
24 For a Japanese company, we have had direct dialogue with  
25 them, and they are developing a particular device. And  
26

1           on our own, we are also having an anti-collision device.  
2           It is different from Mobileye's product and it is being  
3           carried out in Northern Ireland.

4   MR PETER DUNCAN: Thank you. Are you prepared to provide  
5           the name of the Australian company?

6   MR ROGER LEE: (Via interpreter) Yes.

7   MR PETER DUNCAN: What is it?

8   MR LEUNG KIN WANG: (Via interpreter) Guardian.

9   MR PETER DUNCAN: And are you prepared to provide the name  
10          of the Japanese company?

11   MR LEUNG KIN WANG: Denso.

12   MR PETER DUNCAN: Thank you.

13   CHAIRMAN: Could you repeat that?

14   MR LEUNG KIN WANG: (Via interpreter) Denso. It's called  
15          Denso.

16   MR PETER DUNCAN: Thank you. Perhaps you could spell that  
17          for the committee.

18   DR JOHN CHAN: D-E-N-S-O.

19   MR PETER DUNCAN: Thank you. Going back to the research  
20          with Queen's University, this, as you told us on the  
21          last occasion, started about a year ago. What is the  
22          stage that has been reached with that research?

23   MR ROGER LEE: (Via interpreter) First of all, the  
24          professor, if I recall -- if I recall, the professor  
25          from Queen's University came to visit KMB last month and  
26

1           he looked at the operation on board. We also sent one  
2           of our engineers to Northern Ireland. I think he has  
3           already started to study the matter together with them.  
4           I think soon, in a month or two, the university's  
5           researcher will also come to Hong Kong to base  
6           themselves here, so as to look at the road conditions.  
7           On my part, in the next month or two, I am going to go  
8           to Queen's University to have a look of the update.

9   MR PETER DUNCAN: When do you expect the research will be  
10          completed?

11   MR ROGER LEE: (Via interpreter) I think we only have  
12          a tentative timetable. Summer of next year. But  
13          of course it depends on the progress.

14   MR PETER DUNCAN: At this stage of the research, are you  
15          able to provide the committee with any indication as to  
16          what outcome you would expect?

17   MR ROGER LEE: (Via interpreter) I need to go back to check  
18          the progress. Of course the outcome can be shared with  
19          the committee.

20   MR PETER DUNCAN: Yes. My question really is: is the  
21          research at the moment such that you are hopeful or  
22          expecting of a particular outcome?

23   MR ROGER LEE: (Via interpreter) Well, I think, in our  
24          documents, we have already told you about the nature of  
25          the product ADAS. I think it's in the paper, in the  
26

1 documents.

2 MR PETER DUNCAN: Are you optimistic that this research will  
3 result in an effective collision-alert and lane-keeping  
4 device? Are you optimistic or are you not optimistic?

5 MR ROGER LEE: (Via interpreter) Well, the most that I can  
6 say is as follows. For Queen's University, I think for  
7 their mechanical faculty, I think it is such that few  
8 other universities are interested in carrying out  
9 double-decker buses related research, so it is quite  
10 unique. Then, in the UK, they are in the UK, so it  
11 would be good for them to look at it from an European  
12 perspective.

13 I think we can claim ourselves to be a very large  
14 bus company. Of course, I have high expectations of  
15 them.

16 MR PETER DUNCAN: Let us move then from the collision-alert  
17 and lane-keeping device, and move to the anti-dozing  
18 device, if I might call it that, or the driver  
19 monitoring device, in respect of which you have already  
20 made certain remarks this morning.

21 In this respect, can I first take you back to one of  
22 the files, KMB-1, and ask you to go to page 115.

23 Now, at page 115, you will find the penultimate page  
24 of the report that the company provided to the transport  
25 authorities following the Tai Po accident.

26

1 CHAIRMAN: The investigation report?

2 MR PETER DUNCAN: The investigation report, that's indeed  
3 it, Mr Chairman.

4 At page 115, paragraph 47, you will see the heading,  
5 "Drowsiness of bus captain":

6 "KMB is conducting a trial with a supplier on  
7 monitoring drowsiness of bus captains while they are  
8 driving. The trial test will detect the level of  
9 alertness of a driver to give an early warning of the  
10 driver experiencing a 'microsleep'. If the trial  
11 results are satisfactory, such system will be installed  
12 in KMB buses."

13 If I could also just ask you to leave that open but  
14 also have in front of you one of the recommendations of  
15 the working group. We will find that at TD-1, page 406.

16 If I can just read into the record this  
17 recommendation of the working group:

18 "Driver monitoring device -- such device monitors  
19 the bus captain's behaviour on-board and alerts him/her  
20 if it detects a lack of attention or drowsiness. When  
21 the system detects potential unsafe behaviours such as  
22 'looking aside', 'dozing', 'drowsiness' or 'bad  
23 posture', the system will give visual warning and voice  
24 alert. Such device is available in the market, and  
25 trial of using it in franchised buses to assess its  
26

1 applicability and effectiveness is recommended."

2 Now, could I ask this: with regard to paragraph 47  
3 of the investigation report, who was the supplier with  
4 whom this trial was being conducted? Are you able to  
5 reveal that?

6 MR LEUNG KIN WANG: (Via interpreter) The company name is  
7 Seeing Machines, and the name of the product is  
8 Guardian.

9 MR PETER DUNCAN: Can you inform the committee with regard  
10 to the progress of that trial?

11 MR PATRICK PANG: (Via interpreter) Mr Duncan, if I may talk  
12 about the process of the trial. Towards the end of June  
13 this year, the system of Guardian was installed on four  
14 buses from different depots. This is because we have  
15 got long-haul trips for different depots, two for  
16 Sha Tin Depot, one for Tuen Mun Depot, and also one from  
17 Long Win Bus.

18 The initial trial results are such that it is  
19 effective, and we are able to detect, say for example,  
20 if the bus driver closes his eye longer than winking,  
21 and there is a voice alert, then the back of the seat  
22 will vibrate. I myself also tested it on two buses, one  
23 from Tuen Mun Depot, the other from Sha Tin Depot.  
24 Initially speaking, we believe that it is effective.

25 However, this system is such that it will scan your  
26

1 five sensory organs. I know it and I have been told by  
2 the depots that since it is an Australian product, and  
3 the Australian company also shared our opinion, that is  
4 sometimes, say for example, if the bus captain tilts his  
5 head to look at passengers, then the facial detection  
6 may be lost, and then it will lead to the vibration.

7 We understand this point, but all in all, my  
8 understanding and the feedback of the employees are both  
9 positive. So, for this trial, we are going to extend it  
10 so as to engage more bus captains to carry on with the  
11 trial.

12 Thank you, Mr Duncan.

13 MR PETER DUNCAN: When do you expect the trial will be  
14 completed?

15 MR PATRICK PANG: (Via interpreter) In mid-August -- well,  
16 at the end of June, we trial tested with the first batch  
17 of bus captains and then we tested with the second batch  
18 of captains. We already prepared a questionnaire to  
19 gauge the reactions of captains, and by the end of this  
20 month we will decide whether we will conduct more tests  
21 at different depots, and then we will look to implement  
22 it by phases.

23 MR PETER DUNCAN: Do I infer from what you have said that  
24 the likelihood is that this device will be implemented?

25 MR PATRICK PANG: (Via interpreter) According to results of  
26

1 the tests so far, we find it positive.

2 MR ROGER LEE: (Via interpreter) I would like to add  
3 something. Any device that can facilitate road safety  
4 is something we will try. We will move with the times  
5 and we would certainly make a start on this.

6 CHAIRMAN: This device, Guardian device, is one that is used  
7 in Singapore, is it not?

8 MR PATRICK PANG: (Via interpreter) Chairman, I know that  
9 it's in use in Australia, but as far as I know, it is  
10 not deployed in Singapore.

11 MR ROGER LEE: (Via interpreter) Singapore has not properly  
12 started using it.

13 CHAIRMAN: Well, we can look at that, because it is  
14 certainly my memory that Singapore has been using it for  
15 some years.

16 But also, this was the device that was recommended  
17 after the investigation into the Croydon or Sandilands  
18 tram accident, was it not? It was recommended to be  
19 installed and was installed after the investigation was  
20 concluded? Transport for London.

21 Well, we have the report. We can make that  
22 available to you.

23 MR ROGER LEE: (Via interpreter) Two or three years ago, we  
24 were actively looking into this issue. For trains and  
25 big coaches the device was already deployed. For train  
26

1 drivers, the captains, and also truck drivers, they  
2 might doze off and in many cities the device is in  
3 common use already. So, for metro or city buses, for  
4 long-haul routes, for example airport routes, I feel  
5 that this device has a key role to play and there are  
6 benefits.

7 For busy areas or roads, since some captains would  
8 have to tilt their heads quite a lot to look at  
9 pedestrians and traffic lights, so we must be very  
10 careful not to cause nuisance to the captains. That's  
11 why, for the research in Northern Ireland and the work  
12 done by Denso in Japan, I think the Guardian system can  
13 be deployed in some routes. And, as we said, we should  
14 have different strategies or treatments for different  
15 routes.

16 MR PETER DUNCAN: Why would the different routes have  
17 an impact on this?

18 MR ROGER LEE: (Via interpreter) In busy urban roads, since  
19 the bus captains would likely move or tilt their heads  
20 quite a lot to assess the road conditions or traffic  
21 lights and there are a lot of bends, this would be very  
22 different from road sections that are straight. For  
23 example, for an airport route, the bus would often use  
24 the highway, and the bus captains are unlikely to tilt  
25 their heads quite as much. So the situation is

26

1 different from cities that deploy big trucks or buses.

2 MR PETER DUNCAN: I am going to move now from these  
3 anti-dozing devices to the question of seat belts.

4 Could I introduce this by referring you again to the  
5 investigation report -- sorry, first of all, to the  
6 recommendations of the working group. We will get this  
7 again at bundle TD-1, this time at page 407.

8 CHAIRMAN: These are the recommendations that were expressed  
9 in the paper made available to LegCo for discussion on  
10 25 July of this year; is that correct?

11 MR PETER DUNCAN: That's correct, Mr Chairman. We see that  
12 reference on page 403.

13 CHAIRMAN: Thank you.

14 MR PETER DUNCAN: The section on seat belts starts at the  
15 bottom of page 407, and it runs through to page 410.

16 If I could just bring your attention, please, to  
17 paragraph 16, which contains the recommendation and the  
18 proposed way forward. If I could quote from  
19 paragraph 16:

20 "Having regard to the points mentioned in  
21 paragraphs 10 to 15 above, the working group has arrived  
22 at the following recommendations with a view to giving  
23 extra protection to seated passengers:

24 (a) seat belts should be provided for all seats in  
25 future procurement of new bus; and  
26

1 (b) subject to further assessment on the technical,  
2 operational and financial feasibility, consideration may  
3 be given to retrofitting all seats in the upper deck  
4 with seat belts on buses deployed for specific bus  
5 routes, ie long-haul routes which are operated via  
6 expressways with relatively fewer bus stops."

7 So we see there those recommendations, and could  
8 I also ask you in this context to look again at the  
9 investigation report which was referred to earlier this  
10 morning, this time at page 114. If I quote from  
11 paragraph 40, under the heading, "Other measures to  
12 enhance bus safety", the report states as follows:

13 "KMB has already requested its suppliers to install  
14 safety belts on all [buses] as a standard feature for  
15 new buses ordered after 5 March 2018. As for buses that  
16 are currently in service, where certain routes so  
17 require, safety belts will be installed on the upper  
18 deck of KMB buses phase by phase."

19 So, if I understand things correctly, what has been  
20 said in the investigation report is consistent with the  
21 recommendations of the working group.

22 Now, has the retrofitting of these seat belts yet  
23 commenced?

24 MR ROGER LEE: (Via interpreter) To install safety belts on  
25 the upper deck, technically speaking, we would have to  
26

1 consider the issue of gravity. The government and  
2 ourselves -- well, the government has consulted us for  
3 certain information and our supplier conducting  
4 a technical assessment, and the progress has been  
5 positive so far. The safety belts are relatively heavy.  
6 If they are to be installed on the upper deck, the  
7 government would have to conduct tilt tests. If this is  
8 technically feasible, it won't be an issue to install  
9 them. Whereas for the two main suppliers, Volvo and  
10 ADL, the progress has been very positive, however we  
11 would still have to wait until the tilt tests are  
12 completed.

13 MR PETER DUNCAN: Can you give the committee some idea as to  
14 the financial implications of the retrofitting of the  
15 seat belts?

16 MR ROGER LEE: (Via interpreter) This is not cheap, or  
17 should I say, in the beginning of this year, a special  
18 committee of our company issued clear instructions. Our  
19 buses procured in 2019 and after would be fitted with  
20 safety belts. As for the retrofitting of safety belts,  
21 where possible, especially on long-haul routes, we would  
22 install safety belts on the upper deck. We do not want  
23 to see further accidents, so cost is not our main  
24 consideration. We have not considered the financial  
25 implications yet. Retrofitting of safety belts would  
26

1 cost about \$200,000 per bus.

2 CHAIRMAN: That is on the upper deck?

3 MR ROGER LEE: (Nodded head).

4 MR LEUNG KIN WANG: (Nodded head).

5 MR PETER DUNCAN: Thank you. Approximately how many buses  
6 do you expect would be retrofitted, how many buses in  
7 your fleet?

8 MR LEUNG KIN WANG: (Via interpreter) I think nearly 3,600  
9 long-haul buses.

10 MR PETER DUNCAN: I'm trying to do the maths.

11 MR ROGER LEE: (Via interpreter) I would like to add  
12 something. Currently, we have 4,200 to 4,300 buses.  
13 That is for KMB and Long Win Bus combined. Some buses  
14 are fully equipped with safety belts. For some others,  
15 as they will retire in the next years -- for buses that  
16 will retire in two or three years, they might not need  
17 to be retrofitted. For long-haul buses, I do not have  
18 the exact figure, but about one-third of our buses would  
19 go on long-haul routes, so that comes to about 1,000.

20 MR PETER DUNCAN: Do I understand that the new buses will  
21 have seat belts --

22 CHAIRMAN: Before you move on, Mr Duncan -- earlier, Mr Lee,  
23 you said this involved retrofitting 3,600 long-haul  
24 buses. Are you now correcting that statement and in  
25 fact it involves 1,000?

26

1 DR NORMAN LEUNG: Yes.

2 MR ROGER LEE: Yes.

3 CHAIRMAN: Thank you.

4 Yes, Mr Duncan.

5 MR PETER DUNCAN: I'm just trying to do the mathematics.

6 1,000 buses at \$200,000 per bus?

7 DR JOHN CHAN: Yes.

8 MR PETER DUNCAN: \$200 million?

9 DR NORMAN LEUNG: Yes.

10 MR PETER DUNCAN: Is the cost of that something that has

11 been discussed with the government?

12 MR ROGER LEE: No.

13 CHAIRMAN: Sorry, Dr Leung --

14 DR NORMAN LEUNG: May I just add. Recently I had a meeting

15 with the government official and in fact I talked to him

16 and requested the government whether they can offer any

17 assistance to us in retrofitting these safety belts, and

18 the response was quite positive, if I may put it this

19 way.

20 CHAIRMAN: Can you identify with whom you had these

21 conversations?

22 DR NORMAN LEUNG: Yes, Mr Chairman. Mr Joseph Lai,

23 permanent secretary for transport, and his deputy,

24 Mr Kevin Choi, deputy secretary for transport.

25 CHAIRMAN: Thank you.

26

1 DR NORMAN LEUNG: Thank you, Mr Chairman.

2 MR PETER DUNCAN: Has the company ever in the past  
3 approached the government with regard to some  
4 assistance, let's call it a subsidy, with regard to the  
5 need to, I'd like to say, modernise its fleet?

6 DR NORMAN LEUNG: Never. Specifically this was the first  
7 time I talked to him about subsidy for retrofitting the  
8 seat belts.

9 MR PETER DUNCAN: Now, do I understand correctly that the  
10 new buses will have seat belts upstairs and downstairs?

11 MR ROGER LEE: Correct.

12 MR PETER DUNCAN: Has the company given any consideration as  
13 to whether -- or does the company have any view as to  
14 whether the public will actually utilise the seat belts?

15 MR ROGER LEE: (Via interpreter) We conducted a rough  
16 assessment on how the public would see safety belts.  
17 For short-haul routes safety belts are unlikely to be  
18 used, especially on the lower deck. For long-haul  
19 routes, safety belts would be more popular.

20 But they are not hugely popular with passengers  
21 because it is somewhat a hassle to put them on. But, in  
22 our view, especially for long-haul routes, the trend is  
23 that safety belts would be more and more important. For  
24 passengers that want to have a nap on the bus, they can  
25 choose to put on safety belts. I hope more and more  
26

1 passengers would use them in the future. At the moment,  
2 they are not very popular. But KMB should follow the  
3 trend. At the end of the day this is a safety device.

4 MR PETER DUNCAN: Does the company have a view as to whether  
5 there should be any legislative backup for the use of  
6 seat belts, in other words to make it compulsory that  
7 persons utilise seat belts where they are provided?

8 MR ROGER LEE: (Via interpreter) This is somewhat difficult  
9 because passengers can stand on buses in Hong Kong. So,  
10 by way of legislation, this is a challenge. And the  
11 second challenge is enforcement. Bus captains are often  
12 harassed these days. KMB has not set up any rules to  
13 enforce this, but we find it positive to allow  
14 passengers the choice of putting on safety belts.

15 MR PETER DUNCAN: Thank you. I'm going to leave the subject  
16 of safety belts now.

17 Can I move to something else, which I will introduce  
18 by asking you to turn up KMB-4.

19 Can I ask you to turn, please, to page 1182 of the  
20 bundle, which is an extract from the annual report of  
21 the listed company, that's Transport International
