*[Blank Page]*

Monday, 7 May 2018

(10.06 am)

CHAIRMAN: Good morning.

The Independent Review Committee on Hong Kong's Franchised Bus Service was set up by the Chief Executive on 13 March 2018. Its terms of reference, which are displayed for you to see, are these, and it is important that we all understand what the terms of reference are, so I will read them out:

"From the point of view of safety, in the light of the fatal accident on 10 February 2018 and other recent serious incidents involving franchised buses in Hong Kong:

(a) to examine the operation and management of bus franchises under the current legislative, franchise and other contractual requirements;

(b) to examine the present regulatory and monitoring system for franchised buses; and

(c) in relation to the above, to make recommendations to the Chief Executive on safety-related measures with a view to sustaining a safe and reliable franchised bus service in Hong Kong.

The Committee may invite submissions from interested parties and from the public on the above matters and should use its best endeavours to submit its report

1           within nine months. Issues relating to the causes and  
2           liability of persons involved in the fatal accident on  
3           10 February 2018 will be investigated by the Police and  
4           fall outside the Committee's terms of reference."

5           It follows that it is the duty of the committee to  
6           obtain information in respect of, first, the operation  
7           and management of bus franchises, and secondly, the  
8           regulatory and monitoring system of bus franchises.  
9           Most importantly, the ultimate objective of the  
10          committee is to make recommendations to the Chief  
11          Executive on safety-related measures with a view to  
12          sustaining a safe and reliable franchised bus service.

13          The committee intends to be and to remain focused on  
14          attaining that objective.

15          Significantly, it is to be noted that the committee  
16          has been directed that issues relating to the causes and  
17          liability of persons involved in the fatal accident on  
18          10 February 2018 on the Tai Po Road fall outside the  
19          committee's terms of reference. That of course is  
20          because the incident is the subject of a separate police  
21          investigation.

22          On 28 March 2018, the committee commenced its work,  
23          and on that date issued a public invitation to  
24          passengers and family members of the victims of the  
25          fatal accident on Tai Po Road and other recent serious  
26

1 incidents involving franchised bus services, together  
2 with members of the public generally, to make written  
3 submissions to the committee.

4 Today, we acknowledge and welcome the presence of  
5 some of the surviving passengers and their family  
6 members, and the family members of others who have lost  
7 their lives in the incident on the Tai Po Road.

8 On 28 March 2018, the committee issued letters to  
9 specified interested parties, requesting or inviting  
10 them to make written submissions to the committee on the  
11 matters identified in the terms of reference. The  
12 committee requested some of those specified interested  
13 parties to provide responses, addressing issues and  
14 questions set out in annexes to the committee's letters.  
15 Amongst the specified interested parties asked to  
16 respond in that way were the Transport and Housing  
17 Bureau, the Transport Department, the five franchised  
18 bus companies, and no fewer than 16 trade unions  
19 representing franchised bus drivers, and one bus driver  
20 association, the LegCo Panel on Transport, the Community  
21 for Road Safety, and others.

22 Subsequently, the committee wrote to the  
23 Commissioner for Police, requesting the Hong Kong Police  
24 Force to make a written submission and asking them to  
25 address the issues and questions posed in an annex  
26

1 attached to the letter.

2 During April 2018, the committee received helpful  
3 submissions, written submissions, from the Transport and  
4 Housing Bureau, the Transport Department, all five  
5 franchised bus companies, and from or on behalf of  
6 various trade unions.

7 On 27 April 2018, the committee requested the  
8 Transport and Housing Bureau and the Transport  
9 Department to make further written submissions,  
10 addressing specifically identified issues and questions.

11 On 3 May 2018, the committee invited the Transport  
12 and Housing Bureau and the Transport Department to  
13 provide a representative to give oral evidence before  
14 the committee at today's and tomorrow's hearing. Today,  
15 we acknowledge the presence of Mr Joseph Lai, Permanent  
16 Secretary for the Transport and Housing Bureau, and his  
17 colleagues, Mr Kevin Choi and Ms Crystal Yip, who are  
18 representatives of the Transport and Housing Bureau, and  
19 in due course we would welcome representatives of the  
20 Transport Department, who are providing no fewer than  
21 six representatives to assist the committee.

22 The committee is grateful to those bodies for having  
23 accepted the committee's invitation to give oral  
24 evidence, and is pleased that they are here today to  
25 assist the committee in its work.

1           On 4 May 2018, the committee requested all five  
2           franchised bus companies to make further written  
3           submissions, addressing specifically identified issues  
4           and questions. On the same date, the committee received  
5           written submissions from the Transport and Housing  
6           Bureau and the Transport Department, and we are awaiting  
7           written submissions from the Commissioner of Police.

8           We acknowledge that the time frame in which those  
9           various parties have been asked to respond has been  
10          short, and we are grateful that they have obviously  
11          worked under time pressure to provide us with the  
12          information we have requested.

13          On 4 and 5 May 2018, the committee uploaded to its  
14          website paginated versions of the letters it had sent to  
15          interested parties and the written submissions that it  
16          had received, and they are available for all to access  
17          as they wish.

18          Finally, before we begin to receive the oral  
19          evidence, it is appropriate that we should acknowledge  
20          and mark the tragic circumstances that have led to this  
21          committee being set up. As a mark of our respect, for  
22          the 19 persons who died in the Tai Po Road incident on  
23          10 February 2018, and in commiseration to their family  
24          members for their grievous loss, and as a mark of  
25          respect for others who have died in recent incidents  
26

1 involving franchised buses, may I ask that we all stand  
2 and observe a short moment of silence.

3 Thank you.

4 At the outset, I am going to ask Mr Duncan, senior  
5 counsel of the counsel assisting the committee in its  
6 work, to open proceedings.

7 Mr Duncan.

8 EVIDENCE FROM THE TRANSPORT AND HOUSING BUREAU:

9 MR JOSEPH LAI, MR KEVIN CHOI AND MS CRYSTAL YIP

10 MR DUNCAN: Mr Chairman, thank you.

11 Mr Choi, Mr Lai and Ms Yip, thank you for attending  
12 this morning, and thank you for providing your written  
13 submissions. Would you care to take your seats, please,  
14 at the table.

15 As the chairman has already noted this morning, the  
16 invitation has been issued to the bureau to provide oral  
17 submissions today, in addition to the written  
18 submissions that you have helpfully provided the  
19 commission.

20 In the absence of your being represented by legal  
21 counsel this morning, who would normally lead you  
22 through any oral evidence that you wish to give, can  
23 I ask whether any of you do wish to take the opportunity  
24 of making any oral submissions?

25 CHAIRMAN: Mr Lai?

26

1 MR JOSEPH LAI: Mr Chairman, if I may, I would like to make  
2 a short opening statement.

3 CHAIRMAN: Please do.

4 Opening statement by MR JOSEPH LAI

5 MR JOSEPH LAI: Chairman and members of the committee, good  
6 morning. Thank you for inviting the Transport and  
7 Housing Bureau to attend before the committee and to  
8 give us the opportunity to make an opening statement.

9 Before I deliver the statement, I would like to  
10 convey a message from the Secretary for Transport and  
11 Housing. It has always been the intention of the  
12 secretary to personally attend before the committee.  
13 Regrettably, by the time the invitation from the  
14 committee arrived, the secretary already had  
15 a commitment firmed up some time ago with the  
16 Legislative Council. At this very moment, the secretary  
17 is attending a meeting of the Bills Committee which is  
18 set up to scrutinise the bill to provide for customs,  
19 immigration and quarantine co-location arrangements in  
20 the West Kowloon Station. The secretary has asked me to  
21 send his apologies to the committee for not being able  
22 to be here today.

23 Chairman, there are two characteristics of  
24 Hong Kong's public transportation system which stand out  
25 in any global comparison. These may form the backdrop  
26

1 to the issues which are being reviewed by the committee.

2 The first characteristic is that Hong Kong has  
3 a highly developed public transport system to cater for  
4 the daily commuting needs of the population. Our basic  
5 transport policy can be summarised as "public  
6 transportation is the primary means of transportation  
7 with railway as the backbone". Chairman, if you allow  
8 me, I will just translate that particular policy into  
9 Chinese, because it is a very familiar term in the local  
10 community.

11 CHAIRMAN: Please do so.

12 MR JOSEPH LAI: Thank you, Chairman. That is

13 "(Chinese spoken)".

14 Of all the daily trips undertaken by commuters every  
15 day, over 90 per cent, in other words 12 million or so,  
16 are made by way of public transport. This percentage,  
17 as far as we are aware, is by far the highest in the  
18 world. Within those 12 million trips, about 39 per cent  
19 are by heavy rail, 31 per cent by franchised buses,  
20 14 per cent by public light buses, 7 per cent by taxis,  
21 4 per cent by Light Rail, and other modes of public  
22 transport account for the remaining 5 per cent.

23 The other way to look at it is that on a typical  
24 day, franchised buses carry some 4 million passenger  
25 trips.

1           The second characteristic is that, unlike almost all  
2           other overseas jurisdictions, public transport services  
3           in Hong Kong, including franchised buses, are operated  
4           by private companies in accordance with prudent  
5           commercial principles, generally without government's  
6           direct subsidies. This reflects government's overall  
7           policy thinking, established over many years, that  
8           running public transport through prudent commercial  
9           principles would help ensure efficiency and  
10          competitiveness.

11          At the same time, franchised bus operators and other  
12          public transport operators are not just any other  
13          commercial entities. Many aspects of their operation  
14          are subject to government regulation, control and  
15          monitoring. These include, for example, fares, service  
16          level and frequency, as well as the all-important issue  
17          of safety.

18          In this connection, government has two roles. As  
19          policymakers, government formulates standards and  
20          requirements and seeks to reflect these in legislation,  
21          franchise terms, and other contractual commitments. In  
22          the process, government seeks to balance different,  
23          sometimes competing, interests. Different stakeholders  
24          include, for example, franchised bus operators, the  
25          operators of other public transport modes, the  
26

1 travelling public, other road users, politicians, and so  
2 on.

3 The Legislative Council also plays an important  
4 role, in particular where laws need to be introduced or  
5 amended or where financial resources are required.

6 The other role of government is that of regulator,  
7 to ensure that the franchised bus operators do comply  
8 with the prevailing legislation, franchise terms, and  
9 other contractual commitments.

10 Policies and thus the details and focus of the  
11 regulatory regime change over time. Sometimes this can  
12 be the result of change in public expectation. At other  
13 times this can be due to changing technologies or the  
14 changing mode of operation of the franchised bus  
15 operators. At still other times, policies can change in  
16 response to certain events or incidents.

17 But throughout the years, an overarching constant  
18 emphasis is always this. Franchised bus operators must  
19 provide proper and efficient service. This requirement  
20 for the provision of proper and efficient service is set  
21 out in the Public Bus Services Ordinance enacted in  
22 1975. Safety is always a crucial element when  
23 considering whether the service is proper. Indeed,  
24 safety is of uppermost priority in our transport policy,  
25 and this is publicly documented. For instance, in the  
26

1           2016 Hong Kong Yearbook, it is stated, and I quote:

2           "The Government aims to provide a safe, efficient,  
3           reliable and environmentally-friendly transportation  
4           system ..."

5           In the controlling officer's report of the Transport  
6           Branch of the Transport and Housing Bureau for this  
7           year, ie 2018 to 2019, it is stated that one of the aims  
8           of the Branch's work in relation to land and water-borne  
9           transport is to promote road safety. The website of the  
10          Transport and Housing Bureau states that one of the  
11          policy objectives of the bureau is to promote safety,  
12          and in this context I would say that this refers to the  
13          safety of passengers.

14          Furthermore, the Road Safety Council was established  
15          in 1973 to promote road safety in Hong Kong. Various  
16          promotion and publicity programmes were launched by the  
17          Road Safety Council over the years. For example, the  
18          Road Safety Council supports the Transport Department's  
19          signature event which is called Safe Driving and Health  
20          Campaign for Commercial Vehicle Drivers. This event is  
21          held each year on an annual basis, with a view to  
22          enhancing the safe driving skills and health awareness  
23          of commercial vehicle drivers, including of course  
24          franchised bus drivers.

25          The campaign includes a wide range of activities,  
26

1 including radio programmes, health checks, and advice  
2 provided for commercial vehicle drivers, as well as  
3 community promotion by goodwill ambassadors.

4 Safety-related standards and requirements can  
5 broadly be categorised into output-based, input-based  
6 and process-based.

7 To give just a few examples, accident rate in terms  
8 of, for example, involvement in accidents per  
9 vehicle-kilometre travelled; customer satisfaction as  
10 reflected through, for example, the number and nature of  
11 complaints received and the outcome of passenger  
12 surveys; type approval for any new bus model; annual and  
13 spot-checks of buses in service; mandatory bus  
14 equipment, such as the installation of black box and  
15 speed limiter; licensing requirements for bus captains;  
16 and maximum working hours and minimum rest time for bus  
17 captains.

18 As I alluded to a moment ago, standards and  
19 requirements evolve over time, as environment and  
20 community expectations change. Again, just to quote  
21 a few examples, Guidelines on Bus Captain Working Hours,  
22 Rest Times, and Meal Breaks was first introduced in  
23 1998, and then they were revised on several occasions,  
24 the latest being earlier this year, 2018.

25 Two or three other examples I would quote would  
26

1 include the installation of speed limiters and black  
2 boxes following a fatal accident in 2003; the  
3 installation of an additional horizontal guard bar on  
4 the exit doors, following a few accidents in 2016; and  
5 the requirement for newly purchased franchised buses  
6 must comply with the prevailing statutory emission  
7 standards.

8 With regard to the overall road safety in Hong Kong,  
9 the total number of accidents involving franchised buses  
10 has remained relatively stable in the past five years or  
11 so, which averages at about 2,200 per year, as compared  
12 with the total number of traffic accidents in Hong Kong,  
13 which averages at about 16,000 per year. The number of  
14 accident involvement for franchised buses in fact  
15 dropped slightly from 2,292 in the year 2013 to 2,187 in  
16 the year 2017, at a time when the number of franchised  
17 buses increased by 3.3 per cent. The involvement rate  
18 per million vehicle-kilometres of franchised buses also  
19 remained stable over the past few years.

20 Chairman, I should perhaps also mention that  
21 franchised buses are run, by definition, on the basis of  
22 franchises. These are to be differentiated from  
23 services that are provided directly by government and  
24 from services that are run purely as ordinary private  
25 businesses.

1           A franchise is awarded to a franchisee on the basis  
2           that the franchisee would be able to fulfil all the  
3           standards and requirements set out in law, the  
4           franchise, and so on. The regulatory authority  
5           scrutinises the performance of the franchisee at a broad  
6           overall level. There are checks and balances, sort of  
7           overall quality control, to ensure that franchisees are  
8           able to deliver and do deliver. A quick example is the  
9           spot-checks conducted every day on buses in service. At  
10          the same time, in terms of day-to-day performance, the  
11          primary onus and responsibility is on the franchisee to  
12          deliver and to meet its basic obligations.

13          Generally speaking, a franchisee is expected to have  
14          the maturity, the resources and the general capability  
15          to provide its services without the regulator having to  
16          look over the shoulder of each and every minute detail,  
17          day in and day out.

18          Chairman, the last point I would like to make is  
19          this. Whilst every effort has been made continuously by  
20          government to improve the safe operation of franchised  
21          buses, we are fully conscious that there is always room  
22          for further improvement. We constantly look for ways to  
23          bring safety to the next higher level, and any comments  
24          and suggestions from different stakeholders are always  
25          gratefully welcomed.

1 Chairman, this concludes my statement. My  
2 colleagues and I will be happy to answer questions.

3 CHAIRMAN: Thank you, Mr Lai.

4 Might I acknowledge on behalf of the committee that  
5 we were aware of the Secretary's commitment in LegCo,  
6 but given the urgency that we should examine and receive  
7 material, we, the committee, decided that we must press  
8 ahead, even without his attendance. But we thank him  
9 for his apology.

10 MR JOSEPH LAI: Thank you.

11 CHAIRMAN: Mr Duncan.

12 Examination by MR DUNCAN

13 MR DUNCAN: Thank you, Mr Chairman.

14 Thank you, again, Mr Lai, for those comments.

15 There are a number of matters that I wish to explore  
16 with the bureau. Before I start with those, can I just  
17 recognise a point which has been made in your written  
18 submissions, and that is the differentiation of duties  
19 and responsibilities between the bureau on the one hand  
20 and the Transport Department on the other.

21 The point that has been made in your submissions is  
22 that it's the bureau's task to formulate policies and  
23 initiate proposals, whereas the role of the department  
24 is to implement those policies, enforce the laws, and  
25 provide services generally to the community.

26

1 I recognise that distinction.

2 Accordingly, my questions of you this morning will  
3 be aimed, as far as I can, at the role you perform. We  
4 will of course have the benefit of personnel from the  
5 Transport Department later, and a lot more of the detail  
6 will be covered with those persons.

7 I would like to actually start with the terms of  
8 reference themselves, to which the chairman has already  
9 referred, and bring to your specific attention item (b)  
10 in the terms of reference. You will see, at the risk of  
11 repetition, that the committee is charged with the  
12 examination of the present regulatory and monitoring  
13 system for franchised buses.

14 So the first matter which I wish to explore with you  
15 a little this morning is the extent to which the current  
16 regulatory system truly addresses the issue of safety.  
17 As I understand it, again, from your written  
18 submissions, the basics of our regulatory regime consist  
19 firstly of the ordinance, to which Mr Lai has referred  
20 to this morning, the Public Buses Ordinance, Cap 230,  
21 I believe; secondly, the regulations which are made  
22 under that ordinance; and then, thirdly, the franchise  
23 document issued to a grantee as provided for in the  
24 ordinance.

25 What I would like to do is take you to the  
26

1 ordinance. I'm going to run through -- quickly, I hope,  
2 because all of these provisions will be well known to  
3 you -- identify those which seem to us to be the  
4 significant ones with regard to the committee's terms of  
5 reference; and then, having regard to those provisions,  
6 explore with you a number of matters.

7 The ordinance, I believe, is being brought up on the  
8 screen. If you wish to have access to the hard copy of  
9 that, it's in the THB-2 bundle at page 104.

10 MR JOSEPH LAI: Yes. Thank you.

11 MR DUNCAN: The first version to which I would bring your  
12 attention is section 9 of the ordinance. It gives the  
13 power to the Chief Executive to appoint not more than  
14 two persons as additional directors of any of the  
15 grantees under a franchise.

16 Moving from section 9, we go to section 12. That is  
17 the provision which requires, as Mr Lai has already  
18 referred to this morning, the franchisee or the grantee  
19 to provide a proper and efficient bus service.

20 Subsection (2) of section 12 refers to the fact that  
21 the grantee shall not be treated as maintaining that  
22 sort of service unless it maintains the service and  
23 operates it in accordance with the franchise, and any  
24 direction or requirement under the franchise or under  
25 the ordinance and any programme or any approval under  
26

1 section 16A.

2 Now, the reference to the programme is picked up in  
3 the following section of the ordinance, section 12A,  
4 "Forward planning programme". There is a requirement in  
5 subsection (1) for a grantee, in each year, to prepare  
6 a programme of the operations of the grantee for the  
7 following five years in respect of the matters set out  
8 in the schedule.

9 I will take you to the schedule in just a moment,  
10 but if you look down to subsection (4), there is  
11 a provision whereby if the franchisee concerned and the  
12 Commissioner for Transport are unable to agree as to  
13 matters to be included in the programme, then that is  
14 a matter which has to be resolved by the secretary.

15 If we go through to the schedule, at the end of the  
16 ordinance, it's page 126 on the marked bundle, the  
17 contents of a programme are set out in detail there,  
18 items (a) to (h). As far as I can tell, there is  
19 nothing specific within the schedule pertaining to the  
20 matter of safety. However, item (h) appears to be  
21 a catch-all, in that it states "any other matters,  
22 whether or not specified in paragraphs (a) to (g)  
23 inclusive, as may be required by the Commissioner".

24 Going back to the substance of the ordinance, the  
25 next section which is I think of relevance is that at  
26

1 section 18, page 112 of the bundle, the requirement for  
2 the grantee to keep proper records in respect of  
3 particular matters. At item (e), there is reference to  
4 accidents.

5 Then, following on from that, the next provision  
6 I wish to refer you to is section 22. This is on  
7 page 114, the provision for the Chief  
8 Executive-in-Council to require the payment of  
9 a financial penalty under certain circumstances. Those  
10 circumstances are set out in subsection (2):

11 "... may be imposed in respect of any failure by  
12 a grantee to comply with its franchise or this Ordinance  
13 or any direction or requirement under [the franchise or  
14 the ordinance], or with any programme ..."

15 With reference back again to the forward planning  
16 programme in section 12A.

17 Then section 24 on page 115 provides for fairly  
18 drastic measures in the case of a grantee having failed  
19 to maintain a proper and efficient public bus service,  
20 and the steps that are available to the administration  
21 to withdraw the franchise if that extreme situation were  
22 to develop.

23 Then section 35, if I could take you to that,  
24 please, at page 124 of the bundle:

25 "The Secretary for Transport and Housing may make  
26

1 regulations for [a number of matters set out there] ..."

2 If I could bring your attention to three of those  
3 provisions in the context of this Committee's terms of  
4 reference, first of all, at item (c):

5 "regulating the conduct of ... drivers, conductors  
6 and authorised persons" employed by the bus companies.

7 At (d):

8 "generally as to the conduct of passengers and  
9 intending passengers on buses used by a grantee".

10 And thirdly, at (j) over the page:

11 "regulating, in relation to the drivers of buses  
12 used by a grantee --

13 (i) the maximum number of hours during which any  
14 such driver may be permitted to drive ... a bus; and

15 (ii) the intervals to be provided by a grantee for  
16 the rest and refreshment of such drivers ..."

17 Then the following section, section 36, provides for  
18 a grantee, not the administration but the bus operator  
19 itself, to make by-laws for a number of matters, and at  
20 item (c) there is reference to, and I quote, "the safe  
21 and efficient operation of the grantee's public bus  
22 service".

23 Before I leave that, at subsection (3), there is  
24 a provision to enable those by-laws to provide that  
25 a contravention shall be an offence and can provide  
26

1 penalties.

2 Perhaps it's also worthy of note, in subsection (2),  
3 that any by-laws passed by a franchisee are subject to  
4 the approval of the Legislative Council.

5 So they are the provisions to which I wish to refer  
6 you to in the ordinance itself.

7 Then you have the regulations, which commence from  
8 page 128. Very quickly, you will notice that there are  
9 some regulations already passed with regard to the  
10 conduct of the driver and also the conduct of passengers  
11 on buses.

12 At page 130, we have regulation 9, which has some  
13 provisions for the conduct of driver; they are continued  
14 on page 131, under regulations 11, 12 and 13. I notice  
15 in passing that regulation 11 addresses the general  
16 conduct not just of the driver but also of the  
17 conductor, and to my knowledge bus companies these days  
18 do not employ conductors, so perhaps that is  
19 a reflection of how ancient perhaps these regulations  
20 may be.

21 Nevertheless, let's move on. At page 132, we have  
22 regulation 13A which pertains to the topic of the  
23 general conduct of passengers and intending passengers.

24 With regard to the regulatory landscape, we can see  
25 important provisions there in the ordinance and in the  
26

1 regulations.

2 I would then like to take you, please, to the  
3 franchise document itself. For this purpose, I'm going  
4 to refer to the latest franchise which has been issued,  
5 which I understand was last year to the Kowloon Motor  
6 Bus Company (1933) Ltd. You will find that document in  
7 the hard copies at THB-2 at page 137.

8 Do you have that in front of?

9 MR JOSEPH LAI: Yes, I do. Thank you.

10 MR DUNCAN: The first provision perhaps I could bring to  
11 your attention would be clause 7, one of the franchise  
12 documents which can be found at page 141. A relevant  
13 clause appears there:

14 "The Grantee shall, as far as practicable, acquire,  
15 provide, adopt, maintain, or modify to the satisfaction  
16 of the Commissioner such safety or service enhancement  
17 facilities, installation, fixtures, fittings, apparatus  
18 or equipment on its buses as may be reasonably required  
19 by the Commissioner after consultation with the  
20 Grantee."

21 So there is a specific reference there at clause 7  
22 with regard to facilities on the buses of the  
23 franchisee.

24 The ordinance, we have seen, refers to directions or  
25 requirements which may be required under the franchise

26

1 document. That also is reflected in the franchise  
2 document itself, in clause 1 at subclause (3) at  
3 page 139 of the bundle. We see at the bottom of that  
4 page:

5 "For the avoidance of doubt, unless there is express  
6 provision to the contrary, the Grantee shall at no cost  
7 to the Government comply with any direction and  
8 requirement given under this franchise by the  
9 Commissioner, the Financial Secretary or any ... public  
10 officer."

11 The next issue one turns to is what sort of  
12 direction or requirement is the commissioner, the  
13 Financial Secretary or any other public officer, able to  
14 issue, within the terms of the franchise.

15 If we look through this document, as far as counsel  
16 can tell, there is no general power to issue any sort of  
17 direction or any sort of requirement. There are  
18 specific matters in respect of which the administration  
19 can issue a direction or a requirement.

20 I will give you some examples of those. Page 141,  
21 paragraph 7, with regard to the provision of facilities,  
22 that is a typical example of a matter which can be the  
23 subject of a direction or a requirement; at item 9, the  
24 shared use of bus stops; item 12 at page 143, parking  
25 facilities at terminal points, display of routes and  
26

1 fares, and so on.

2 I won't take you through them all, but if you go  
3 down to number 28, clause 28 of the document, you will  
4 see a provision, 28(1):

5 "provide to the commissioner the information  
6 relating to and records kept by the Grantee in respect  
7 of the Bus Service in accordance with Schedule II ..."

8 And you will see that schedule at page 168 with  
9 regard to the sorts of records and information which has  
10 to be provided according to the terms of the franchise.

11 What I would like to note in passing is that it  
12 would appear to counsel that there are probably a number  
13 of safety-related issues which are not specifically  
14 addressed in the franchise document and which would not  
15 therefore be able to be the subject of any particular  
16 direction or requirement. The one that occurs to  
17 counsel as being an obvious one is the matter of the  
18 training of bus captains. There would appear to be  
19 nothing specific in the franchise which might set out  
20 requirements for the training of bus captains, either  
21 when they commence work as a bus captain or when  
22 refresher training might be required at a later date.

23 We will see undoubtedly later during the hearing  
24 that there are some arrangements between the  
25 administration and the bus companies with regard to  
26

1 training, but whether these arrangements have the teeth  
2 which some persons may think appropriate is a matter  
3 which may call for some questions.

4 I would now like to take you back to the ordinance,  
5 if I could, leading on to some of the matters now that  
6 I wish to explore from those provisions that I've taken  
7 you through.

8 Can we go back to the ordinance at page 124 of the  
9 bundle. If I could pick this up at section 35, the  
10 power of the secretary to make regulations. In  
11 particular, the item at (j), which is "regulating, in  
12 relation to the drivers of buses used by a grantee --

13 (i) the maximum number of hours during which any  
14 such driver may be permitted to drive such a bus; and

15 (ii) the intervals to be provided by a grantee for  
16 the rest and refreshment of such drivers ..."

17 The first matter I would like to ask the committee  
18 is whether it is true that this topic has for some years  
19 been a bone of contention between bus franchisees on the  
20 one hand, and employees and trade unions on the other?  
21 Is that something which has been an issue for the  
22 administration for some time?

23 CHAIRMAN: So your question is directed at Mr Lai?

24 MR DUNCAN: Yes, it is.

25 CHAIRMAN: You said "the committee".

26

1           Mr Lai, can you respond to that?

2       MR JOSEPH LAI: Yes. Thank you, Chairman, and thank you,  
3       counsel, for the question.

4           I think the way I would put it is that it is  
5       an issue which has been reviewed from time to time since  
6       the guidelines which all franchised bus operators are  
7       supposed to observe, and they do observe, I should add.  
8       If I could use it in a very loose sense, it was made  
9       mandatory since 1998. Prior to that, for over ten  
10      years, as I recall it, there were guidelines on  
11      a voluntary basis, to be observed on a voluntary basis.

12          I would say that this is an area which we have  
13      always been trying to improve. In doing so, of course,  
14      we need to consider all sorts of factors, including the  
15      feasibility of any changes and improvements, in terms of  
16      the impact on the actual operation of the operators, how  
17      they would deal with the need for any additional drivers  
18      that may be required as a result, how they would recruit  
19      and train the necessary drivers, and so on. At the same  
20      time, according to my understanding, whilst the bus  
21      drivers would perhaps welcome an improvement in that  
22      aspect, at the same time there is also the concern that  
23      the take-home pay should not be affected in a negative  
24      sense.

25          So there are a whole range of issues that will need  
26

1 to be taken on board.

2 The other issue, for completeness, I should mention,  
3 is the financial implications of any changes to the  
4 status quo and how those financial implications should  
5 be addressed.

6 MR DUNCAN: I think those guidelines have been amended on  
7 something like six occasions since 1998. Is that true?

8 MR JOSEPH LAI: If my recollection is correct, yes, counsel.  
9 1999, the year 2000, 2004, 2007, 2010, and then most  
10 recently earlier this year.

11 MR DUNCAN: Thank you. Now, they are guidelines. The  
12 ordinance itself enables regulations to be passed in  
13 that respect. Why are these the subject only of  
14 guidelines and not of regulation?

15 MR JOSEPH LAI: Chairman, in answer to counsel's questions,  
16 I actually do not have an immediate answer to that.  
17 What I can say, first of all, with a fair degree of  
18 firmness, is that the guidelines, although they are  
19 classified as guidelines, they are meant to be observed  
20 strictly by the operators. As I said a moment ago, they  
21 are in fact observed by the operators, and they know  
22 that the Transport Department will carry out surveys to  
23 ensure that the guidelines are observed, and that if for  
24 any reason the guidelines have not been observed fully  
25 on occasions, the department will come after them for  
26

1 explanation, and the operators are obliged to provide  
2 the explanation.

3 As to exactly why there have not been regulations in  
4 the sense of subsidiary legislation being made, I am  
5 afraid I don't have an immediate answer to that, but  
6 I suppose -- and I am surmising here now -- that it is  
7 the way we approach the whole regulatory regime, we seek  
8 to do that through various means, and if one means, ie  
9 the issue of guidelines, has proved feasible and  
10 workable, then to us that is also a means of achieving  
11 the objective of ensuring that the drivers will have the  
12 necessary rest time, and so on.

13 CHAIRMAN: Mr Lai, you have said twice that you are unable  
14 to give an immediate answer. Would you like the  
15 opportunity to give a considered answer, perhaps by  
16 supplying your answer in writing?

17 MR JOSEPH LAI: Chairman, I will certainly take that up,  
18 although I should add that because we are talking about  
19 guidelines which were first laid out in 1998, I do not  
20 have full confidence that I will be able to dig out the  
21 written record at the time.

22 But yes, of course, Chairman, we would be more than  
23 happy to give it a go.

24 CHAIRMAN: Thank you.

25 MR DUNCAN: You do appreciate, of course, that if this  
26

1 matter was the subject of regulation, that would enable  
2 a regulation to be passed, according to the terms of the  
3 ordinance, to make it an offence, if the content of the  
4 regulation was not conformed to.

5 MR JOSEPH LAI: Chairman, as I mentioned in my opening  
6 statement, we see the need for the franchise operators  
7 to ensure safety in the operations, very much part of  
8 the proper and efficient requirement test, perhaps not  
9 the "efficient" part of it but most certainly the  
10 "proper" part of it. We take the view, we have always  
11 taken the view, that if the operator are unable to  
12 provide safe operation, either through taking  
13 initiatives on their own or following initiatives,  
14 guidelines, directives, however we might want to put it,  
15 or even legislative provisions set out by the government  
16 to ensure safety, then we would argue that, if that  
17 failure is on a consistent basis, the franchisee's  
18 ability to provide proper service is in doubt.

19 MR DUNCAN: But then your only remedy would, as I understand  
20 it, be to take action under that what I described as the  
21 drastic provision of withdrawing the franchise?

22 MR JOSEPH LAI: Chairman --

23 CHAIRMAN: You are referring to the revocation provision?

24 MR DUNCAN: Yes.

25 CHAIRMAN: Remind us, if you would -- where do we find that?

26

1 MR DUNCAN: Section 24 of the ordinance.

2 CHAIRMAN: Which page do we find that on?

3 MR DUNCAN: Page 115 of the bundle.

4 There would have to be certain procedures followed,  
5 and the matter would have to be ultimately considered by  
6 the Chief Executive-in-Council, quite a long and  
7 cumbersome process, I would imagine?

8 MR JOSEPH LAI: Chairman.

9 CHAIRMAN: Yes.

10 MR JOSEPH LAI: In response to counsel's question, I would  
11 say that, yes, apart from revocation of the franchise,  
12 either the whole of it or perhaps part of it, the  
13 financial penalty provision in section 22 of the  
14 ordinance, in my opinion, could also come into play,  
15 because that refers to failure by the grantee to comply  
16 with, maybe if not the franchise, then certainly the  
17 ordinance. The ordinance does require the franchisee to  
18 provide proper and efficient service.

19 MR DUNCAN: Just referring to that, over the weekend, when  
20 the final submissions came in, it was clarified by the  
21 Transport Department that the guidelines did not  
22 constitute either a direction or a requirement under the  
23 terms of the ordinance. So would that not inhibit the  
24 ability to invoke the financial penalty provisions of  
25 section 23?

26

1 MR JOSEPH LAI: Chairman, not being a lawyer, the way I read  
2 section 22(2) is this. Subsection (2) says the  
3 financial penalty may be imposed for failure to comply  
4 with franchise or this ordinance or any direction of or  
5 requirement, and so on and so forth, or with any  
6 programme or any approval.

7 So there is a series of "ors", alternative  
8 scenarios. I have noted the Transport Department's  
9 written submission which says that the guidelines do not  
10 constitute direction or requirement. I was alluding  
11 a moment ago to the reference in section 22(2), to this  
12 ordinance, and this ordinance being the PBSO, in that  
13 the franchisee is obliged to provide a proper and  
14 efficient service.

15 The proper service, I would say, I would suggest,  
16 includes the safety requirement.

17 MR DUNCAN: That would not entitle the administration to  
18 invoke the provisions of section 22; would you agree?

19 MR JOSEPH LAI: Chairman --

20 MR DUNCAN: Sorry, let me -- I'm sorry for being a lawyer.

21 We will leave this perhaps to the lawyers. But if it is  
22 only invoked by virtue of the fact that it's a breach of  
23 the franchise generally, or the ordinance, for failure  
24 to provide a proper and efficient service, the remedy of  
25 the administration in those circumstances would be  
26

1           limited to the revocation clause; would that be right?

2       MR JOSEPH LAI:  Chairman, as I was trying to suggest just  
3           now, not being a lawyer, my reading of section 22(2)  
4           should give us room, if necessary, to invite the  
5           Executive Council to impose a financial penalty, because  
6           section 22(2) refers specifically to failure by the  
7           grantee to comply with this ordinance, and this  
8           ordinance imposes the obligation on the operators to run  
9           a proper and efficient service.

10           The proper service, I would argue -- the proper  
11           service requirement, I would argue, includes the  
12           requirement to provide a service which is safe,  
13           otherwise it cannot be proper.

14           But, Chairman, as I said, I am seeing this from  
15           a policy point of view.  This particular scenario has  
16           not been tested.

17       MR DUNCAN:  Thank you, Mr Lai.

18           Can we move on to --

19       CHAIRMAN:  Before you move on, Mr Duncan -- by that do you  
20           mean no financial penalty has ever been invoked?

21       MR JOSEPH LAI:  Chairman, by that I mean the question of  
22           safety issue leading to an attempted use of this  
23           particular section concerning financial penalty has  
24           never been invoked thus far, so it's not tested.

25       MR DUNCAN:  So do we understand correctly from that answer

26

1           that no financial penalty has ever been imposed for any  
2           of the reasons set out in that section, section 22?

3       MR JOSEPH LAI:   Chairman, not to my recollection or  
4           understanding.   I would be more than happy to come back  
5           with a written confirmation of that, but certainly not  
6           in recent times.

7       MR DUNCAN:   Has any application ever been made to the Chief  
8           Executive-in-Council for such a penalty to be imposed?

9       MR JOSEPH LAI:   Chairman, not that I am aware of in recent  
10          times, and I think the explanation for that is that we  
11          do not see that that provision needs to be invoked,  
12          having regard to the circumstances of everything.

13      MR DUNCAN:   Can I take you now to section 36, please,  
14          page 125, which gives the power of a grantee to make  
15          by-laws for certain matters, including the safe and  
16          efficient operation of the grantee's public bus service.

17          Have any of the current grantees made any such  
18          by-laws?

19      MR JOSEPH LAI:   Chairman, I personally can recall certain  
20          by-laws having been made, but I cannot answer right now  
21          whether each and every item set out in section 36 are  
22          the subject of by-laws which may currently be in force.  
23          I do not have the information in my hand and I would  
24          need to come back to the committee on this point.

25      MR DUNCAN:   That would be helpful, because from our search  
26

1           we can't find any such by-laws, of any of the  
2           franchisees.

3       CHAIRMAN: Please do. Your shopping list for written  
4           submissions is growing.

5       MR JOSEPH LAI: Thank you, Chairman.

6       MR DUNCAN: I believe in the case of other transport  
7           providers, specifically the Mass Transit Railway  
8           Corporation, they have passed their own by-laws?

9       MR JOSEPH LAI: The MTR do have their by-laws, yes.

10      MR DUNCAN: Of course the advantage of that is that the MTR  
11           can take its own action, backed up by appropriate  
12           by-laws and offences under those by-laws, in respect of  
13           conduct by drivers and in respect of conduct by  
14           passengers who may be on the bus?

15      MR JOSEPH LAI: Chairman, yes and no. As counsel reminded  
16           us a moment ago, there are regulations, Cap 230A, which  
17           provide for the regulation of the conduct of drivers and  
18           passengers. So there are already provisions in the law  
19           as it stands.

20           The only way I could put it is that it's not as if  
21           there is a total vacuum in law on this particular  
22           subject.

23      MR DUNCAN: Who, then, would be responsible for enforcing  
24           the regulations?

25      MR JOSEPH LAI: Chairman, generally speaking, the police, as  
26

1 far as I understand, will be responsible. As to whether  
2 any other authorities might be responsible, I can  
3 confirm. But generally speaking the police would be  
4 responsible.

5 MR DUNCAN: Would you see advantages in the bus companies  
6 themselves being able to take action in this respect,  
7 rather than relying on the police?

8 MR JOSEPH LAI: Chairman, a very off-the-cuff response: the  
9 mode of -- if we use the MTR as the reference point,  
10 Chairman, the mode of operation of buses and railways  
11 are rather different, because of the way MTR or rather  
12 the railway works, in a confined place, generally, with  
13 a lot of staff around, where backup and support will be  
14 generally -- can be made available generally rather  
15 quickly, and so on and so forth. Not being a trained  
16 law enforcer, to my mind, it may be easier to enforce  
17 whatever by-law that's in place regarding passengers'  
18 behaviour, and so on and so forth, without unduly  
19 affecting the movement of other passengers.

20 In a bus, particularly in this day and age where  
21 there is only the bus driver in control of the bus, and  
22 if something untoward were to happen during the journey,  
23 it might be in operational terms rather more tricky to  
24 expect the driver to enforce the law.

25 But that's really my very off-the-cuff response, but  
26

1           that might also be the reason why having the police  
2           enforce the law might be the present arrangement.

3       MR DUNCAN: The committee, in its submissions, has received  
4           a number of comments with regard to the conduct of  
5           drivers, on the one hand, and also with regard to the  
6           conduct of what might be called unruly passengers on the  
7           other.

8           How often are prosecutions instituted under the  
9           regulations relating to the conduct of drivers and  
10          passengers?

11       MR JOSEPH LAI: Chairman, if you could just give me  
12          a second.

13       CHAIRMAN: Mr Duncan, perhaps it might assist everyone  
14          else's understanding of what you are raising, if you  
15          were to take us to one of the submissions -- I think  
16          it's KMB, is it not? -- where there is reference to  
17          increasing abuse drivers suffer from passengers.

18       MR DUNCAN: I will find the reference to that, Mr Chairman.  
19          Thank you.

20       MR JOSEPH LAI: Chairman, if I could answer counsel's  
21          question just now.

22       CHAIRMAN: Yes, please do.

23       MR JOSEPH LAI: According to the police -- and this is  
24          a piece of information which in fact was made public in  
25          2016, in reply to a question from the Legislative  
26

1 Council -- the advice by the police at the time is that  
2 when there are incidents involving assault, they would  
3 investigate, regardless of, obviously, the location, and  
4 so on and so forth.

5 But the police do not maintain figures on cases of  
6 assault on bus captains or passengers, for that matter,  
7 nor do they keep the respective prosecution and  
8 conviction statistics.

9 The police also advised at the time that if there  
10 were cases of assault in a bus, for example, involving  
11 whatever parties, then apart from relying on Cap 230A,  
12 they could also use other pieces of legislation as may  
13 be appropriate, to investigate and to prosecute. There  
14 are a good number of criminal legislation which the  
15 police could make use of.

16 Thank you.

17 MR DUNCAN: I know the provision is there. My question  
18 really is aimed at how often is it actually invoked. It  
19 looks as though figures are not available.

20 MR JOSEPH LAI: Chairman, the short answer is that according  
21 to the police, they do not keep such figures.

22 MR DUNCAN: Just going back to the chairman's question,  
23 I think the reference -- you will probably be aware,  
24 Mr Lai -- to KMB's comments on this is to be found in  
25 the KMB bundle number 1 at page 95, at paragraph 35.

26

1 CHAIRMAN: Perhaps you would be kind enough to read that  
2 out, or the relevant parts.

3 MR DUNCAN: I quote:

4 "A recent phenomenon which has been causing  
5 considerable concern to KMB is the increasing incidence  
6 of assault by passengers or other road users on its bus  
7 captains. This has often resulted from tension arising  
8 directly or indirectly from worsening traffic  
9 congestion. While we have been doing our best to  
10 institute legal proceedings against the culprits, we  
11 observe that the penalties meted out in such cases have  
12 generally been insufficient to have much deterrent  
13 effect."

14 I think that is the matter, and I think it's fair to  
15 say that the submissions have referred not just to  
16 physical abuse but also to verbal abuse of passengers.

17 Is the bureau aware of those allegations?

18 MR JOSEPH LAI: Chairman, we are aware of the concern of bus  
19 companies and bus drivers in that respect, and I could  
20 add that one of the things which the Commissioner for  
21 Transport and her colleagues are working on is  
22 an education plan, to educate the travelling public on  
23 the sort of behaviour expected of them, and also the  
24 sort of complaints channels that they could or they  
25 should resort to in case of any dissatisfaction with  
26

1           either bus service generally or with the service of  
2           a particular driver.

3           So the Transport Department is working on that  
4           already.

5           We tend to think that education is perhaps more  
6           important, if not equally important, than looking purely  
7           on the question of enforcement. The law is already  
8           there. It's to be observed. And, really, the important  
9           thing is to educate the public to behave in a civil  
10          manner, even though, when they feel upset, there are  
11          other channels rather than resorting to physical or  
12          verbal abuse.

13       MR DUNCAN: When were these regulations last considered with  
14          regard to their applicability to current circumstances?

15       MR JOSEPH LAI: Sorry, Chairman, can I ask what regulations  
16          counsel is referring to?

17       CHAIRMAN: Yes. Perhaps you can more specific.

18       MR DUNCAN: The regulations provided for to which I am  
19          referring, which is the regulations made under the  
20          ordinance, talks about the responsibilities of drivers,  
21          conductors, passengers, and I'm just wondering when they  
22          may have been the subject of review by the  
23          administration, as to whether they cater for current-day  
24          circumstances?

25       MR JOSEPH LAI: Chairman, I believe, when -- I expect, when  
26

1 the Transport Department in due course presents the  
2 bureau with an overall plan on education and publicity,  
3 they would also look into the question of, you know, how  
4 the existing criminal penalty provisions in the  
5 legislation should be more widely promulgated, and in  
6 that connection, perhaps the need for any review.

7 CHAIRMAN: If I could ask you to respond directly to the  
8 question. The question was: when were the regulations  
9 last reviewed?

10 MR JOSEPH LAI: Chairman, we have not actually taken out  
11 this particular piece of legislation for, shall I put  
12 it, a thorough review, because the assumption has always  
13 been that the provisions therein are not insufficient.

14 CHAIRMAN: So there has been no review?

15 MR JOSEPH LAI: Chairman, we have not done a review because  
16 we do not think that the provisions therein are  
17 insufficient. But, as I said, we do expect that when  
18 the Transport Department come up with the education  
19 plan, in that context they will also look into the  
20 sufficiency of the provisions with a fresh pair of eyes.

21 CHAIRMAN: Thank you.

22 MR DUNCAN: Do I understand from those answers, Mr Lai, that  
23 the bureau has actually already charged the department  
24 with coming up with an education plan?

25 MR JOSEPH LAI: Yes, Mr Chairman, that is correct.

26

1 MR DUNCAN: When was the department given that directive?

2 MR JOSEPH LAI: Chairman, that directive followed shortly  
3 after the very tragic accident in Tai Po, when there  
4 were a number of reports coming to us which suggested  
5 that there seemed to be some occasions of rising tension  
6 between drivers and passengers.

7 MR DUNCAN: In essence, what is the education plan designed  
8 to address?

9 MR JOSEPH LAI: Chairman, as I said, as regards the details,  
10 I need to await the proposals from the Transport  
11 Department, and so I would not wish to pre-empt what  
12 they will come up with for the bureau's consideration.  
13 But the overall sense of it should be, and they are  
14 aware of it, that we should remind passengers to behave  
15 in a civil and orderly manner at all times, that if they  
16 are dissatisfied with either the provisions of the bus  
17 service generally or in relation to a particular bus  
18 driver, and so on, there are complaints channels that  
19 they could go to, and that is the far more sensible way  
20 than to take out their dissatisfaction on a particular  
21 bus driver.

22 MR DUNCAN: Has the department been given a time schedule  
23 for the plan?

24 MR JOSEPH LAI: They have not been given a deadline as such,  
25 but the department is fully aware of the urgency, so  
26

1           they are working on it expeditiously. This is what  
2           I have asked the department to do, and they are working  
3           on it.

4   MR DUNCAN: Can I raise another matter with you, going back  
5           to the ordinance, please, at page 108.

6           This is section 9 and the power of the Chief  
7           Executive to appoint additional directors of the  
8           grantees. Is this a power that the Chief Executive has  
9           exercised?

10   MR JOSEPH LAI: Chairman, yes, it is a power which the Chief  
11           Executive has exercised, and it's been exercised for  
12           a number of years.

13           The Commissioner for Transport and the deputy  
14           secretary responsible for bus service, the incumbent  
15           being Mr Choi to my right, they have been appointed by  
16           the CE as government directors to all the franchised bus  
17           companies.

18   MR DUNCAN: I believe at the moment there are five  
19           franchisees. Do I understand those two individuals sit  
20           on the boards of each of the five franchisee companies?

21   MR JOSEPH LAI: Mr Chairman, that is correct.

22   MR DUNCAN: And to what extent do the directors so appointed  
23           become concerned with safety issues on those boards?

24   MR JOSEPH LAI: Mr Chairman, the directors are appointed to  
25           represent the government. I would argue that by  
26

1 extension to represent the Government's interests. So  
2 safety issues are one of the issues which are of concern  
3 to the government directors, and where necessary or  
4 where appropriate they will in fact raise the issues at  
5 board meetings. That has been set out in our submission  
6 to the committee dated 4 May.

7 MR DUNCAN: We are aware that some companies from time to  
8 time may have subcommittees of the board, for example  
9 an audit committee or a safety committee, those sorts of  
10 committees. Have the government directors come across,  
11 in any cases of the franchises, to a particular  
12 committee of the board devoted to safety matters?

13 MR JOSEPH LAI: Chairman, if you will allow me, can I invite  
14 Mr Choi to answer the question, Mr Choi being the  
15 government director?

16 CHAIRMAN: Yes. Thank you.

17 MR KEVIN CHOI: Thank you, Chairman, thank you, Mr Lai, and  
18 thank you, counsel.

19 As Mr Lai said, I, as the incumbent Deputy Secretary  
20 for Transport, and also Commissioner for Transport,  
21 Ms Mable Chan, we are the two persons being appointed as  
22 the directors representing by the government, appointed  
23 by the Chief Executive to sit on the board of the five  
24 franchised bus companies as such.

25 We perform as one of the directors, so of course we  
26

1 represent the Government's interests, but at the same  
2 time we are also one of the many directors to look after  
3 the company matters in a strategic manner. So we do  
4 participate in the business as one of the many  
5 directors.

6 As far as I know, because I have been in post since  
7 September last year, I have been attending board  
8 meetings bi-monthly or quarterly of these boards. They  
9 do run audit committee or some form of audit programmes  
10 in their daily life or their everyday operations, which  
11 cover proper and efficient service part of it and also  
12 the safety part of it.

13 So indicators like accident rates and lost trip  
14 rates are examined by -- reported from the management to  
15 the board, through board papers, and we are also copied  
16 in and have a copy for reference.

17 Unfortunately, I would say that we don't really sit  
18 on the audit committee per se.

19 MR DUNCAN: Would you see value in these companies operating  
20 safety committees on which government directors might be  
21 members?

22 MR KEVIN CHOI: Well, chairman and counsel, thank you for  
23 your question. As Mr Lai has mentioned in the opening  
24 remarks, franchisees are given the duty and the  
25 responsibility for it to run its franchise properly and  
26

1       efficiently, to this extent. And of course, if there  
2       are improvements in the governance and also especially  
3       in the aspect of safety, we will see how best the  
4       government directors should join efforts on this end.

5           Of course, we do look forward to better governance  
6       and also more focused on the safety part of it, for the  
7       franchisee to discharge its duties in carrying out  
8       a proper and efficient franchised bus service in  
9       Hong Kong.

10   MR DUNCAN: Thank you, Mr Choi.

11           Can I refer now the members from the bureau to the  
12       forward planning programme provisions of the ordinance,  
13       in particular section 12A.

14   CHAIRMAN: If you are going to move to another topic, we are  
15       intending to take a short morning break, to give the  
16       witnesses some recovery time. Would this be  
17       a convenient moment?

18   MR DUNCAN: Indeed it would, Mr Chairman.

19   CHAIRMAN: We will take 15 minutes now.

20   MR DUNCAN: Thank you.

21   (11.32 am)

22                               (A short adjournment)

23   (11.48 am)

24   CHAIRMAN: Yes, Mr Duncan.

25   MR DUNCAN: Thank you, Mr Chairman.

26

1           Mr Lai, I was going to refer you to section 12A of  
2           the ordinance, please, at page 109.

3           CHAIRMAN: Yes.

4           MR JOSEPH LAI: Yes.

5           MR DUNCAN: You will recall I had taken you to this when we  
6           went through the provisions initially. This is the  
7           section that deals with the five-year forward planning  
8           programme.

9           We saw that the matters that could be contained in  
10          the programme are set out in the schedule, at page 126.

11          If you look at page 109, subsection (4) -- I brought  
12          your attention to the provision whereby if there was any  
13          disagreement or a failure to reach agreement, between  
14          the commissioner and the franchisee, the point of  
15          disagreement could be referred to the secretary for his  
16          resolution.

17          Has the secretary ever been called upon to resolve  
18          such a disagreement?

19          MR JOSEPH LAI: Chairman, no, not that I am aware of,  
20          because -- I suppose the way to explain it is the  
21          forward planning programme is often a result of many  
22          rounds of iterative or reiterative discussion process  
23          between the Transport Department and the franchised bus  
24          operators, so that -- usually, by the time the programme  
25          is finalised, it will have obtained the consent of both  
26

1 the department and the bus operators.

2 MR DUNCAN: Could I ask you to turn to the schedule, please,  
3 page 126, where you will see the contents of the  
4 programme set out.

5 Has the bureau issued any proposals to the  
6 department with regard to what the programme should  
7 contain over and above the specific provisions of  
8 clauses (a) through to (g)? I brought to your attention  
9 the catch-all provision of item (h), "any other  
10 matters", and my question is whether the bureau has at  
11 any time suggested to the department what matters should  
12 be included in the five-year plan. Was that something  
13 you leave to the department?

14 MR JOSEPH LAI: Chairman, we do know, from the content page  
15 of the most recent FPP provided to the committee, the  
16 committee will also know that there are certain broad  
17 subjects, or broad subject headings in at least some of  
18 the FPP, which are over and above what is strictly  
19 required as set out in the schedule.

20 For example, one of the bus companies, they do  
21 provide certain information on staff training, bus  
22 driver training to be more exact. I have been given to  
23 understand that this is the result of discussion between  
24 the department and the bus operators, but I cannot  
25 confirm one way or another whether that is very much the  
26

1 department's initiative or whether the department was  
2 acting under some specific request by the bureau.

3 I suspect it's more than likely to be the former.

4 CHAIRMAN: I think Mr Duncan's question was directed to  
5 another issue, and that is whether or not the bureau has  
6 issued any proposals to the Transport Department as to  
7 what should be contained in a five-year plan.

8 MR JOSEPH LAI: Chairman, the short answer to that is  
9 I cannot recall any specific directive of the sort you  
10 suggested or you alluded to. The starting point, the  
11 basic point, is always that everything in the schedule  
12 should be in the programme, and if the department is  
13 able to secure, through discussion with the bus  
14 companies, further information, then that would be  
15 reflected in the individual programmes.

16 CHAIRMAN: So no directive to the Transport Department?

17 MR JOSEPH LAI: Not in this context.

18 CHAIRMAN: Thank you.

19 MR DUNCAN: Mr Lai, I'm going to leave the regulatory regime  
20 now, and if I could take you back to the terms of  
21 reference again.

22 Just to remind us all, with regard to paragraph (b)  
23 of the terms of reference, the committee is also charged  
24 to examine the monitoring system for franchised buses,  
25 and it's that that I wish to explore with you briefly,

26

1 if I could.

2 It is clear from the submissions that the committee  
3 has received that the companies, as a matter of  
4 practice, furnish the department with quite  
5 a significant supply of written documentation, either on  
6 a monthly or on a quarterly basis, with regard to the  
7 operation and the management of the bus franchisees.

8 You are no doubt aware of that?

9 MR JOSEPH LAI: Yes.

10 MR DUNCAN: Does the bureau require the department to  
11 undertake any sort of verification process with regard  
12 to the written documentation which is provided to the  
13 department?

14 MR JOSEPH LAI: Chairman, if I seek a clarification on  
15 counsel's question. Counsel is asking whether the  
16 bureau has asked the department to check that the  
17 information provided by the companies, the information  
18 itself is truthful or accurate.

19 MR DUNCAN: Yes, that is so.

20 CHAIRMAN: Yes, that's Mr Duncan's question.

21 MR JOSEPH LAI: The short answer to that is that we expect  
22 the department to take the necessary action to ensure  
23 the truthfulness of the information, without the bureau  
24 having to actually ask or remind the department to do  
25 that.

26

1           Of course, under the franchise, if I recall  
2           correctly, there is also the requirement, in broad  
3           terms -- and I'm not sure it will cover each and every  
4           scenario or each and every piece of information to be  
5           provided by the operators -- but I do recall there is  
6           a provision which requires the bus companies to ensure  
7           that information provided to the commissioner is  
8           accurate and is truthful.

9           So there is also that requirement on the part of the  
10          operators to follow, to observe.

11          And I know, for example, that the department, as  
12          a matter of fact, on certain issues at least, that they  
13          will take action on its own, just to double-check to  
14          ensure the veracity of the information. For example, in  
15          the case of the bus drivers' rest time and working  
16          hours, for example, they do provide -- the department  
17          does engage contractor to conduct independent survey, ie  
18          independent of the bus companies, to check that the bus  
19          companies do observe the guidelines, quite apart from  
20          whatever information is received by the department from  
21          the bus companies.

22   MR DUNCAN: Yes, and of course that's a matter that we will  
23               explore further with the department.

24          But leading on from that answer, can I ask you this.  
25          A lot of the monitoring process is carried out,

26

1 obviously, by receiving and considering the records  
2 prepared by the bus companies. A considerable amount of  
3 the monitoring process is done in that way. Has the  
4 bureau issued any proposals/suggestions to the  
5 department as to the extent to which the department  
6 should be monitoring the activities of the bus companies  
7 directly, rather than relying on records that the bus  
8 companies provide to the department?

9 MR JOSEPH LAI: I suppose the answer to this is perhaps  
10 a rather long-winded one, counsel, if you would allow  
11 me, and Chairman, if you would allow me.

12 There are checks and balance features built into the  
13 overall regulatory and monitoring system, and all those  
14 checks and balances are basically either endorsed by the  
15 bureau or, at the very least, are initiatives which the  
16 bureau is aware of. Those include, for example -- just  
17 to quote a few examples -- I referred a moment ago to  
18 the survey on bus captain rest hours, rest time. There  
19 are also daily spot-checks conducted by the department  
20 on buses in service. So every day they will pick 14  
21 buses which are supposed to go into service, they will  
22 pick the 14 buses at random, and they will be subject to  
23 testing/examination by the Transport Department's own  
24 vehicle examiner. This is again quite apart from  
25 whatever information bus companies provide on the safety  
26

1 of their buses.

2 These are just two examples I can think of offhand  
3 of the sort of mechanism that we have built in with the  
4 policy endorsement of the bureau, to check against  
5 what's provided as a matter of course by the bus  
6 companies.

7 Of course, as you will have noticed from the written  
8 submissions by the Transport Department, if there is  
9 doubt on either the accuracy or the comprehensiveness of  
10 whatever information is provided by the bus companies,  
11 then the Transport Department does go after the bus  
12 companies and ask for more complete information.

13 That has been built up very much over the years, as  
14 very much part and parcel of the overall mode of  
15 operation of the department, and I think we have come to  
16 a stage when, you know, certain things are being done  
17 because colleagues know what is expected, without the  
18 need for any further specific written directives.

19 CHAIRMAN: So does it come to this, that there have been no  
20 such directives to the Transport Department because they  
21 are doing the job that you would expect them to do?

22 MR JOSEPH LAI: Basically, Chairman, I think that would be  
23 a fair way of putting it.

24 MR DUNCAN: I want to move away from monitoring, about which  
25 we will ask the department more later, but turning from  
26

1 monitoring to the general topic of safety policies.

2 There are a number of matters I would like to explore  
3 with you in that respect, Mr Lai.

4 The submissions from the bus companies indicate that  
5 they themselves will explore from time to time new  
6 safety technology that might be available, new safety  
7 measures that might be introduced. Does the bureau  
8 itself undertake research, domestically or  
9 internationally, to understand what new initiatives  
10 might be available with regard to technology or general  
11 safety measures?

12 MR JOSEPH LAI: Chairman, the division of labour between the  
13 bureau and the department is such that generally the  
14 research which counsel alluded to is done by the  
15 Transport Department rather than by the bureau, because  
16 at the bureau we really do not have the necessary  
17 expertise to do that, whereas in the department we have  
18 a team of traffic engineers who are, you know, more --  
19 and also electrical and mechanical engineers who are  
20 more well-versed, shall I say, in this sort of thing.  
21 And they do carry out research of that sort, as  
22 evidenced, for example, by the adoption and introduction  
23 of the black box and the speed limiters installed in all  
24 buses. Also as evidenced more recently, as this  
25 committee will be aware, following the tragic accident

26

1 in Tai Po, the setting up of a working group, chaired by  
2 the Transport Department, with participation by the  
3 franchised bus operators, to look into possible  
4 additional safety equipment or safety features that  
5 could be installed on our franchised buses, the details  
6 of which are already set out in one of the Transport  
7 Department's submissions.

8 So, yes, we do that.

9 MR DUNCAN: Has the bureau considered the possibility of  
10 a requirement whereby the individual bus franchisee  
11 should be required to draw up a composite approved  
12 safety programme, as opposed to dealing with individual  
13 safety issues on an ad hoc sort of basis?

14 I'm suggesting the possibility of a safety programme  
15 equipped with suitably qualified personnel with a safety  
16 background and with the requisite qualifications and  
17 experience.

18 Is that a matter that has been considered at all by  
19 the bureau?

20 MR JOSEPH LAI: Chairman, no, not in a structured or  
21 detailed way. However, since the question is put to me  
22 this morning by counsel, my first instinct would be,  
23 yes, we would be more than happy to look into that.

24 MR DUNCAN: As I understand the current situation, one of  
25 the bus franchisees might have a totally different  
26

1 safety programme, looked at overall, from one of the  
2 other franchisees. Could that be the case?

3 MR JOSEPH LAI: Chairman, I do not know enough about the  
4 exact details of how things are done on a day-to-day  
5 basis at the company, to say definitively "yes" or "no".  
6 But I would not be surprised if there is some  
7 difference.

8 So if we were to request or to require the  
9 setting-up of a safety programme of the sort counsel has  
10 in mind, there are of course a few things we would need  
11 to discuss with the operators, including, for example,  
12 what the programme should look like, should we insist  
13 for one size fits all, or should we accept that  
14 company A may come up with certain programme with  
15 different emphasis and focus, company B with a slightly  
16 different set of focus.

17 So those are sorts of the things obviously we would  
18 need to sort out.

19 MR DUNCAN: Many countries have adopted the international  
20 standard ISO -- I think it's 39001 -- road safety  
21 management system, and if I'm not wrong the Road Safety  
22 Committee has constantly advocated for the adoption of  
23 that in Hong Kong.

24 Has the bureau considered adopting the road safety  
25 management system for Hong Kong?

26

1 MR JOSEPH LAI: Chairman, this is a rather new standard, as  
2 far as I know. It's a standard which -- again, if  
3 I haven't got it wrong -- is normally used by transport  
4 and logistics companies, rather than by public  
5 authorities per se.

6 The question of whether we would encourage or we  
7 would ask bus companies to adopt this particular ISO,  
8 I would suggest could perhaps be looked at in  
9 conjunction with the earlier idea, counsel, you put  
10 across to me, ie the safety programme, whether --  
11 I suppose there is some logic in policy terms to look at  
12 the two issues together.

13 No, I wouldn't rule that out as a matter of  
14 principle. I think really the question to ask is, you  
15 know, what the cost and benefit of the adoption of the  
16 ISO is. Again, if we have companies with different  
17 stages of readiness regarding the adoption of the ISO,  
18 what should be done about that, and so on?

19 We would like to look into that and we have an open  
20 mind about it.

21 MR DUNCAN: Can I take it from that that that's not really  
22 been a matter considered to date by the bureau?

23 MR JOSEPH LAI: Chairman, I think that is not an unfair way  
24 of putting it, because it is a relatively new ISO, as  
25 far as I'm aware. It's been around for only a few  
26

1           years. In terms of standard and so on, it is still  
2           relatively new. But we are happy to look into new  
3           ideas.

4       CHAIRMAN: Mr Duncan, we have a copy of the ISO 39001, do we  
5           not? Does it state on its face when it came into being?

6       MR JOSEPH LAI: Mr Chairman, the document can be found at  
7           miscellaneous bundle 2 at page 645. According to that  
8           document, at page 646, it was issued in 2012.

9       CHAIRMAN: And that's the first edition. Yes, thank you.

10      MR DUNCAN: Hong Kong, the geography of Hong Kong, Mr Lai,  
11           is such that we have almost a peculiar situation whereby  
12           double-decker buses are visible on very steep and very  
13           narrow roads onto which pedestrians often spill.

14           How much of those sorts of situations are taken into  
15           account by the bureau with regard to the general topic  
16           of safety in Hong Kong?

17      MR JOSEPH LAI: Chairman, road design and how it affects  
18           safety is one of the tasks which our colleagues in the  
19           Transport Department, in particular the transport  
20           engineering team, look into very much as part of their  
21           routine. By "routine" I do mean as a day-to-day task.

22           So either after a particular accident or  
23           a particular spate of accidents, or as part of their  
24           normal review process, they will look into the safety of  
25           a particular stretch of road and see what can be done to  
26

1 improve the safety situation and whether, if necessary,  
2 certain restrictions should be placed on that particular  
3 stretch of road, restrictions including speed limit,  
4 including the type of vehicles which can access the  
5 particular stretch, and so on and so forth.

6 So, again, this is part of their ongoing job. For  
7 example, if a place has been designated a black spot --  
8 there is a very objective yardstick for determining  
9 whether a particular spot is a black spot, usually by  
10 reference to the number of accidents within a certain  
11 period -- then they will take a particularly closer look  
12 at that spot to see whether any of the changes  
13 I referred to a moment ago should be considered.

14 As I say, it's not a purely reactive process in the  
15 sense that they also take the initiative to look at  
16 other stretches of roads which are not black spots as  
17 such but they feel would require looking into or  
18 reviewed.

19 MR DUNCAN: I take it from those answers that there have to  
20 date been no discussions between the bureau and the  
21 department with regard to the responsibility of  
22 introducing into Hong Kong, either directly or through  
23 the bus companies or other transport companies, the road  
24 safety management system to which I have referred? Is  
25 that correct?

26

1 MR JOSEPH LAI: You are talking about the road safety --

2 MR DUNCAN: The ISO system, yes.

3 MR JOSEPH LAI: This ISO 39001, no. I think -- sorry, yes,  
4 it is correct to say that there have not been any  
5 discussion on this as such. As I explained, this is, to  
6 us, a relatively new ISO, although introduced in 2012,  
7 still at a relatively youthful stage, shall I say. But  
8 we also note that a growing number of transport and  
9 logistic companies are using that.

10 So, yes, now that the matter has been drawn to our  
11 attention on this particular ISO, as I said, we will be  
12 more than happy to look into its applicability in  
13 Hong Kong, in conjunction with the franchised bus  
14 operators.

15 MR DUNCAN: Can I turn to the topic of manpower supply. The  
16 submissions that the committee has received would  
17 indicate that there has been a shortage of persons who  
18 are either qualified or willing to undertake the duties  
19 of a bus captain, and this shortage has been with us for  
20 some time now.

21 Is that a fair summary of the situation?

22 MR JOSEPH LAI: Chairman, I would say that this is perhaps  
23 a reflection of the rather tight labour supply situation  
24 in Hong Kong. Yes, it exists not only in franchised bus  
25 companies but also in other transport-related companies,

26

1           and in fact in logistics-related companies as well.

2       MR DUNCAN: One of the matters the department has brought to  
3           the attention of the commission -- and I'm sure you are  
4           aware of this -- is that, as a result of the latest  
5           guidelines to which you have already referred, something  
6           like 250 additional bus drivers would need to be  
7           employed. Are you aware of that?

8       MR JOSEPH LAI: Yes, I am aware of that, Mr Chairman.

9       MR DUNCAN: In your submission, you stated that Hong Kong is  
10          one of the few places in the world where the franchised  
11          bus service is provided by private companies, without  
12          any direct subsidies. Do you recall that being in your  
13          submission?

14      MR JOSEPH LAI: Yes, Mr Chairman, although, if the chairman  
15          would allow, to be absolutely precise, I said "generally  
16          without direct subsidies".

17      CHAIRMAN: Perhaps you would like to refer to the passage to  
18          which Mr Duncan is referring.

19                Is that on the screen now, Mr Duncan?

20                I think that deals with a separate issue, does it  
21          not?

22      MR DUNCAN: Yes, that's a related but separate issue,  
23          Mr Chairman. I think it's --

24      CHAIRMAN: Your qualification is that that is a general  
25          observation, Mr Lai?

26

1 MR JOSEPH LAI: Mr Chairman, I was just trying to clarify --  
2 sorry for appearing to be pedantic. I heard Mr Duncan  
3 say that in my opening statement I said there was  
4 absolutely no government subsidies. I was trying to  
5 clarify that it's not absolutely no subsidies. It's  
6 generally no direct subsidies.

7 MR DUNCAN: Yes, I'm sorry.

8 Let us go to paragraph 14. Or perhaps you could  
9 locate where you have referred to this in your  
10 submission. The passage relates to the question of  
11 subsidies and the fact there are no direct subsidies.  
12 Is it paragraph 14?

13 MR JOSEPH LAI: It is paragraph 14, that might be the one,  
14 yes.

15 MR DUNCAN: Let me quote directly from that.

16 MR JOSEPH LAI: In our submission dated April, yes.

17 MR DUNCAN: "It should be noted that Hong Kong is one of the  
18 very few cities/jurisdictions in the world where the  
19 franchised bus service is provided by private companies  
20 without direct government subsidies."

21 That was the passage to which I was referring.

22 MR JOSEPH LAI: Yes.

23 MR DUNCAN: Does the government provide indirect subsidies  
24 to the franchisees?

25 MR JOSEPH LAI: Chairman, there are a few examples which  
26

1 I could cite. For example, franchised buses are  
2 exempted from, first, registration of tax. That is  
3 perhaps one of the more clear examples.

4 The other reason, Mr Chairman, why I said in my open  
5 statement that government generally does not provide  
6 subsidies is sort of -- it's meant to be elaboration of  
7 the written submissions we provided. In recent times,  
8 over the years, we do provide some form of financial  
9 assistance to franchised buses, to pursue a particular  
10 initiative or to pursue a particular programme.

11 To give this committee an example, the trial and  
12 testing of electric buses, this is an initiative by the  
13 Environment Bureau rather than by the THB, but  
14 nonetheless it is a government subsidy, and the subsidy  
15 is provided to the bus companies to procure a certain  
16 number of electric buses, on a trial basis.

17 So it is a form of subsidy, if you will, for  
18 a targeted means.

19 We also provide --

20 CHAIRMAN: Am I right in remembering that that involves four  
21 buses, four electric buses?

22 MR JOSEPH LAI: That involves 36 single-deckers,  
23 Mr Chairman.

24 CHAIRMAN: Thank you.

25 MR JOSEPH LAI: Another more recent example is that we  
26

1 provide subsidy to help the company put up realtime  
2 arrival display panels at bus stops. That is on  
3 a matching basis, a dollar-to-dollar matching basis.

4 But otherwise, apart from the few specific targeted  
5 subsidies, yes, it is fair to say that the government  
6 does not provide subsidy to the operators as such.

7 MR DUNCAN: Does the government provide subsidies to certain  
8 ferry companies?

9 MR JOSEPH LAI: We provide special helping measures, that is  
10 the terminology of the programme -- in counsel's  
11 wording, it's "subsidy", and I will not dispute the use  
12 of word -- for ferry service to outlying islands,  
13 specifically to outlying islands. The specific policy  
14 consideration is that ferry is the only transport means  
15 for people who live in the outlying islands, and those  
16 ferries are financially not viable, and that is  
17 a chronic problem, unless we go for a huge hike in the  
18 fare, which we do not think the public will be able to  
19 afford.

20 So there is a particular background to that special  
21 helping measure programme.

22 CHAIRMAN: How is that special helping measure implemented?

23 MR JOSEPH LAI: Could I invite Mr Choi, who looks after that  
24 on a day-to-day basis, to explain?

25 CHAIRMAN: Mr Choi.

26

1 MR KEVIN CHOI: Thank you, Mr Chairman, and thank you,  
2 counsel, for that particular question.

3 As Mr Lai has said, the outlying island ferry routes  
4 are a specific case for which the government has  
5 provided some special helping measures. There are six  
6 such routes that we are providing special helping  
7 measures, and the scheme is under review for the time  
8 being.

9 Basically, the government, as Mr Lai said,  
10 recognises that unless we have a very huge hike of ferry  
11 fares for these outlying islands, residents who rely on  
12 these ferry services to come to town, say for their  
13 office and other duties, otherwise these ferry services  
14 are not viable.

15 Under these special helping measures, the government  
16 undertook to subsidise individual items. For example,  
17 maintenance fees, electricity bills, some concession  
18 costs or insurance premium, or like also revenue forgone  
19 when they are introducing elderly or child concessions,  
20 so the costs of such measures.

21 The special helping measures identified individual  
22 items and subsidised these areas. The government  
23 undertook to the Legislative Council to get the funding  
24 approval from the Finance Committee of LegCo, and then  
25 we provided this public money to ferry operators, as  
26

1 I said, over those items, and we have an audit programme  
2 through the Transport Department to consider whether  
3 those costs are true or not and also to ensure that the  
4 public moneys are well spent.

5 So that's the case for the special helping measures.

6 MR DUNCAN: Thank you.

7 Going back to the manpower separation, Mr Lai,  
8 I wonder if you could be shown bundle TD-5 at page 1510.  
9 This is a document that came to the commission just over  
10 the weekend, and you may or may not have seen this.

11 MR JOSEPH LAI: Yes. It's notes of a meeting; is that  
12 right?

13 MR DUNCAN: Yes, minutes of the meeting. It's in the  
14 Chinese language.

15 It appears to be extracts from a special meeting  
16 held by the Sham Shui Po District Council on  
17 28 September 2017, following from the tragic accident in  
18 Sham Shui Po.

19 My interest is in particular with regard to  
20 page 1523 of the document.

21 MR JOSEPH LAI: Yes, Mr Chairman.

22 MR DUNCAN: It's paragraph 203(iii).

23 MR JOSEPH LAI: Yes.

24 MR DUNCAN: If I could read the translation with which I've  
25 been provided. It reports a chief transport officer of  
26

1 the department saying that the government is concerned  
2 about manpower shortage and that bus companies had  
3 responsibilities to increase salary, fringe benefits and  
4 promotion prospects, in order to attract new blood.

5 Is that a fair translation of what you are reading  
6 in the Chinese?

7 MR JOSEPH LAI: Mr Chairman, yes, I would say so.

8 MR DUNCAN: Does that reflect the Government's position  
9 accurately with regard to the manpower shortage?

10 MR JOSEPH LAI: Mr Chairman, I think it reflects what we  
11 expect the franchise companies to do. It does not  
12 reflect the full picture, because this is meant to be  
13 a summary of what Mr Leung, the chief transport officer,  
14 was supposed to have said. All I can say is that it is  
15 part of what our position is.

16 The other part of our position, regarding the  
17 chronic problem of shortage in commercial drivers, is  
18 that we are taking steps to try to -- a full legislative  
19 amendment, and I would be happy to elaborate on that in  
20 a moment or two -- full legislative amendment to relax  
21 the licensing requirement for commercial drivers.

22 So, basically, what happens is that, at present, if  
23 you want to apply for a licence, a driving licence, to  
24 be a commercial vehicle driver, you will have to have  
25 had a private car driving licence for three years before  
26

1       you are eligible to make the application, ie the  
2       application for a driving licence for commercial  
3       vehicles.

4             Because of the chronic manpower shortage, we have  
5       proposed, and the trade as well as Legislative Council  
6       have agreed, that the three-year period could be reduced  
7       to a one-year period. So in future, all you need is to  
8       have a private car driving licence for one year before  
9       you can apply for a driving licence for a commercial  
10      vehicle. Commercial vehicles include, of course, buses,  
11      and that includes of course franchised buses.

12            We are drafting the amendment legislation, and we  
13      hope to be able to introduce that into the Legislative  
14      Council before the end of this year. If that is passed  
15      by the Legislative Council, that should also go some way  
16      towards relieving the private shortage problem. It may  
17      not provide a total answer, but hopefully it will  
18      provide some relief.

19            On our part, that's what we have been doing. But  
20      yes, having said that, we do also think that it's part  
21      of the franchised bus companies, as the franchisee, to  
22      take all reasonable measures to ensure that they have  
23      the necessary number of drivers to provide service.

24      MR DUNCAN: Given the statement to which I referred, what  
25      steps has the administration taken with the bus  
26

1 companies to persuade them to increase the remuneration  
2 for bus captains?

3 MR JOSEPH LAI: Chairman, most recently there has been some,  
4 shall I say, restructuring in the pay package of the bus  
5 drivers, with a view to enhancing the package or at  
6 least improving the certainty of bus drivers that they  
7 would be able to take home X amount of dollars every  
8 month bus drivers.

9 That is a result of a discussion between the  
10 government and the bus companies, although it also has  
11 to be said, in fairness to the bus companies, that they  
12 reacted very quickly to the Tai Po accident, which is  
13 a very tragic one, and realised that something must be  
14 done very quickly about that.

15 MR DUNCAN: Have the bus companies undertaken that they will  
16 increase the remuneration?

17 MR JOSEPH LAI: I think the restructured package has already  
18 been announced.

19 MR DUNCAN: Given what you described as a chronic shortage,  
20 would the government consider providing a subsidy in  
21 respect of the added remuneration which appears to be  
22 desirable?

23 MR JOSEPH LAI: When we talk about subsidy for the long-term  
24 basis, we will have to consider that most carefully. It  
25 does represent a rather fundamental departure to the  
26

1        basic philosophy of how the public transport system is  
2        run in Hong Kong. Speaking sort of off-the-cuff, I do  
3        not think that for recruitment of bus drivers we have  
4        come to that stage. I think there can be means through  
5        which bus companies can recruit and retain the necessary  
6        number of qualified drivers.

7            As I went through some of the documents provided by  
8        some of the bus companies to this committee, it can also  
9        be seen that they are doing quite a lot to improve the  
10       situation.

11           So, no, I don't think we have come to that stage of  
12       having to provide subsidy for recruitment of bus  
13       drivers. There are ways through which we can help ease  
14       the problem, apart from what I just explained about the  
15       licensing requirement. Another is about, for example,  
16       the 250 drivers, counsel, you alluded to. You will be  
17       aware that there is the agreement that the guidelines  
18       will be introduced progressively, starting from later  
19       this year, to sometime next year, 2019, and the whole  
20       purpose being to enable the bus companies to have the  
21       necessary turnaround time to recruit the necessary  
22       number of people.

23           The other thing we have done in the past one or two  
24       years is to give priority to the driving exams of rookie  
25       bus drivers. They are given priority over people who  
26

1        want to take driving exams for, for example, a private  
2        car driving licence. This is against the backdrop of  
3        a big and rather sustained increase in the number of  
4        people who apply for driving licences, and against that  
5        background the Transport Department have redeployed  
6        driving examiners to give priority to bus driver  
7        applicants.

8        MR DUNCAN: Have the bus companies indicated to you that the  
9        requirement for increased remuneration which has been  
10       referred to in that minute is going to entail  
11       considerably more expense?

12       MR JOSEPH LAI: Chairman, this will be a fact anyway. As  
13       you recruit more drivers, then of course the cost  
14       generally speaking will go up. But this has not stopped  
15       the bus companies from agreeing to the latest  
16       guidelines.

17       MR DUNCAN: So does the bureau have any other initiatives,  
18       apart from speaking to the bus companies, lowering the  
19       licence qualifications; any other initiatives whereby  
20       the manpower shortage might be alleviated?

21       MR JOSEPH LAI: We have been encouraging them to look for  
22       new, unexplored or at least under-explored  
23       possibilities, the recruitment of women drivers, for  
24       example, and of course this is something that they have  
25       been doing more in recent years; and, I have to admit,

26

1 the rather sensitive subject nowadays, since the Tai Po  
2 accident, of part-time drivers. That was meant to  
3 provide some relief for the manpower shortage problem,  
4 but of course, as the committee will be aware, since the  
5 accident, the facts means it has been suspended by the  
6 companies themselves.

7 MR DUNCAN: What proportion of the bus captains are female?

8 MR JOSEPH LAI: Sorry, Chairman, I don't have the answer  
9 with me. I don't know if my colleagues have the answer.

10 No.

11 MR DUNCAN: Would it be very low?

12 MR JOSEPH LAI: It would not be high, definitely, but,  
13 Chairman, it's growing. From our point of view, we  
14 would welcome more women joining the ranks.

15 MR DUNCAN: Has the bureau taken any particular steps to  
16 attract the fairer sex to the position of bus captain?

17 MR JOSEPH LAI: Chairman, not us directly. It's very much  
18 a responsibility of the companies to recruit drivers.  
19 But we have put across that message to them in more than  
20 one or two occasions, and I know the Transport  
21 Department has also been in discussion with them. And,  
22 as I said, I do know for a fact that they have stepped  
23 up recruitment, in fact, in that process, as evidenced  
24 by, anecdotally at least, the probability of us running  
25 into women driver as we take the buses.

1           But no, sorry, I don't have the exact figures with  
2           me.

3       MR DUNCAN:   What I'm interested in is any particular  
4           substantive step that either the administration or the  
5           bus companies may have taken to attract females to their  
6           position?

7       MR JOSEPH LAI:   Chairman, maybe this is a question which the  
8           bus companies themselves would be best placed to answer.

9       CHAIRMAN:   So the direct answer to Mr Duncan's question is  
10          that there has been no such initiative?

11      MR JOSEPH LAI:   Sorry, Chairman --

12      CHAIRMAN:   There has been no such initiative because this is  
13          a matter for the bus companies?

14      MR JOSEPH LAI:   Initiative --

15      CHAIRMAN:   By the Transport and Housing Bureau.

16      MR JOSEPH LAI:   Chairman, the short answer is that we do not  
17          do the recruitment ourselves, but we do encourage the  
18          bus companies to do that.

19      CHAIRMAN:   Thank you.

20      MR DUNCAN:   One of the reasons for the inquiry is the  
21          unfortunate spate of accidents over the years involving  
22          buses.   Does the bureau conduct its own research into  
23          any common causes attributable to these accidents?

24      MR JOSEPH LAI:   Chairman, I was explaining a moment earlier  
25          that the task of researching into the causes of  
26

1 accidents are the job of the professional colleagues in  
2 the Transport Department. Quite frankly, in the bureau,  
3 we are not equipped to do any research.

4 However, there have been cases when we note that  
5 something properly should have been done, and we then  
6 ask or task of department to look into that.

7 If I could quote two examples. One is the most  
8 recent update of the Guidelines on Working Hours and  
9 Rest, and here I am making a factual correction to the  
10 written submission we made in April, because we have  
11 since been able to ascertain that that review, which  
12 started in 2017, was triggered from a request by the  
13 bureau. So that is one example.

14 The other example is, somewhere in our submissions  
15 and also in TD's submission, we refer to the cases of  
16 the broken glass doors, the exit doors in the buses with  
17 glass panels, and there were a spate of accidents in  
18 2016, where the glass was broken, leading to injuries  
19 suffered by passengers.

20 As it gradually became what looks like to be  
21 a pattern, not one accident but two accidents and then  
22 three accidents -- if I remember correctly, that was  
23 within a spate of maybe two months, more or less -- we  
24 suspected something might not be entirely right; there  
25 might be some weaknesses in either the bus design or the  
26

1        quality of the glass or whatever. So we asked the  
2        department to take a look at it, and they looked into  
3        it, in conjunction with the bus companies, and in the  
4        end the safety feature that was put in place was  
5        an additional horizontal handrail across the width of  
6        the glass door, to prevent -- sorry, not to prevent --  
7        but to reduce the possibility of passengers suffering  
8        major injuries such as that would be suffered if the  
9        passenger was thrown out of the bus.

10        So, yes, we do try to keep track of things, and  
11        where we can, when it comes to our attention, sometimes  
12        we will initiate, request a review by the Transport  
13        Department. Still other times the review or study would  
14        be initiated by the department itself, direct, because  
15        they are really at the coal face, so to speak. They are  
16        the frontline department, and they have a better sense  
17        sometimes than we do on what needs to be done or what  
18        needs to be looked into, having regard to their  
19        day-to-day interaction with the bus companies, the  
20        District Council, members of the public, and so on.

21        MR DUNCAN: Understanding that it's their domain, if they  
22        found any common causes, would you expect them to relate  
23        those back to the bureau?

24        MR JOSEPH LAI: Chairman, if we are talking about causes of  
25        accidents --

1 MR DUNCAN: Yes.

2 MR JOSEPH LAI: -- then particularly if the operation of  
3 buses is involved, then, yes, we would expect there to  
4 be some communication between the department and the  
5 bureau.

6 MR DUNCAN: Has the bureau drawn any conclusions as to  
7 whether there's any common causes threading their way  
8 through these spates of accidents?

9 MR JOSEPH LAI: Chairman, if I could ask counsel, when he  
10 refers to "these spates of accidents", what spate of  
11 accidents?

12 MR DUNCAN: There were a number of accidents. Go back to  
13 2003, I think it was in Tuen Mun. There was an accident  
14 in Chai Wan. There was an accident in Sham Shui Po.  
15 And then we had this one, this year, in Tai Po.  
16 A number of quite serious fatal accidents involving  
17 buses. They are the sorts of accidents I'm referring  
18 to.

19 MR JOSEPH LAI: Chairman, if you would allow me, I would  
20 leave out the accident in Tai Po in my response, because  
21 obviously it is subject to legal processes, and I would  
22 not want to infer or suggest that we have any particular  
23 view on what might have caused the accident. But  
24 generally --

25 CHAIRMAN: No. The committee has been directed not to  
26

1 consider issues as to the causes and liability, but it  
2 doesn't mean that we can't have regard to the accident.

3 MR JOSEPH LAI: No. I do understand that point,  
4 Mr Chairman.

5 Generally speaking, each accident will have  
6 a specific reason for it.

7 MR DUNCAN: Yes.

8 MR JOSEPH LAI: They could be categorised either into  
9 mechanical failure on the part of the buses or the  
10 design of the buses or the design of the roads, or  
11 driving behaviour or passenger behaviour. Some of the  
12 causes might be what we would call active involvement of  
13 the bus or the bus drivers, in the sense that the bus  
14 drivers are responsible or it's a mechanical failure of  
15 the bus which is responsible. Some of the other  
16 accidents would be the result of passive involvement of  
17 the buses, in the sense that the bus, shall we say, is  
18 the victim, is being rammed into from behind, for  
19 example, when it's travelling perfectly normally.

20 So there are different causes, and after each  
21 accident or spate of accidents, the Transport  
22 Department/THB, would look into those accidents and see  
23 what improvements we might make, what lessons we might  
24 learn from that.

25 The speed limiter and the black box was a direct  
26

1 result of another very tragic accident in Tuen Mun in  
2 the year 2003.

3 CHAIRMAN: And as a result of the experts' report, because  
4 the experts recommended both those safety measures.

5 MR JOSEPH LAI: Yes, and, as a result of that, the  
6 government accepted the expert report, and that was put  
7 into practice very quickly. So by now all the buses are  
8 equipped with both devices, the black box and the speed  
9 limiter.

10 MR DUNCAN: You have mentioned a number of factors there:  
11 mechanical failure, design of roads, driver behaviour,  
12 passenger behaviour. Has the bureau been able to  
13 discern a predominant feature?

14 MR JOSEPH LAI: Chairman, no, not that I am aware of.

15 MR DUNCAN: The chairman has just referred to measures which  
16 were taken after the 2003 accident in Tuen Mun. Is it  
17 correct that the accident in Sham Shui Po in September  
18 2017, that was the matter which prompted a review of the  
19 guidelines which was concluded in February of this year?

20 MR JOSEPH LAI: Chairman, yes. I think it's fair to say  
21 that that particular tragic accident prompted the  
22 review.

23 MR DUNCAN: The previous guidelines --

24 CHAIRMAN: That is the working hours of bus captains  
25 guideline?  
26

1 MR JOSEPH LAI: Yes, Chairman, that's right.

2 MR DUNCAN: The previous guidelines I think had been in  
3 force since 2012; is that correct?

4 MR JOSEPH LAI: 2010, Mr Chairman.

5 MR DUNCAN: 2010. Thank you.

6 And the new guidelines were issued, if I understand  
7 it correctly, on 23 February this year. That's just  
8 a couple of weeks after the unfortunate accident in  
9 Tai Po. Is that the position?

10 MR JOSEPH LAI: Yes, Chairman.

11 MR DUNCAN: Now, if I understand correctly, the Sham Shui Po  
12 accident also prompted the department to require more  
13 monthly information from the bus companies; is that  
14 correct?

15 MR JOSEPH LAI: Chairman, yes.

16 MR DUNCAN: For example, matters such as the traffic  
17 offences of bus captains, on-board monitoring by the bus  
18 companies, random checks on the black boxes, alcohol  
19 breath tests of the drivers, those sorts of things.

20 Do I understand correctly also that since the Tai Po  
21 accident, a working group has been established?

22 MR JOSEPH LAI: Yes, Mr Chairman, that is correct.

23 MR DUNCAN: And that is to review the technical feasibility  
24 of installing new safety devices on buses?

25 MR JOSEPH LAI: Yes, Mr Chairman, that's correct too.

26

1 MR DUNCAN: Was that also prompted by the unfortunate  
2 incident at Tai Po?

3 MR JOSEPH LAI: Yes, Mr Chairman, that would be a fair way  
4 of putting it.

5 MR DUNCAN: Can I ask you this, in conclusion, Mr Lai. What  
6 would you say to the suggestion that the administration  
7 has adopted a reactive approach to matters of safety  
8 rather than a proactive approach?

9 MR JOSEPH LAI: Mr Chairman, I would say that after  
10 particularly serious accidents, it falls to the  
11 government to try not only to look into the cause of it  
12 but also to see how such accidents could be prevented in  
13 future or at least to reduce the likelihood of  
14 recurrence.

15 But, as I said in my opening statement, we also seek  
16 to improve safety in response not only to particular  
17 accidents or incidents but in the light of changing  
18 technologies, different expectation and demands, and so  
19 on.

20 So I would not say that our approach is purely  
21 a reactive one, although I would agree that after  
22 an accident, you have to react, and in that sense it's  
23 a reactive one, and it's always tragic that you could  
24 not have prevented it in the first place, but at least  
25 you should try to see what might be done to prevent it  
26

1 from happening again.

2 MR DUNCAN: Thank you, Mr Lai.

3 CHAIRMAN: Thank you, Mr Duncan.

4 MR DUNCAN: Do you have any questions?

5 MEMBER LO: I just have some minor questions. The working  
6 hours guidelines talk about still keeping the special  
7 shift of 14 hours. Has the bureau done any research or  
8 study into if you were to totally remove the special  
9 shift, what is the impact on drivers needed; how many  
10 more drivers would the companies need?

11 MR JOSEPH LAI: Chairman, I do know that the Transport  
12 Department has done the research. I do not have the  
13 findings at the top of my head. The commissioner is  
14 right behind me. If you would allow, Chairman, the  
15 commissioner could answer that question in the next  
16 session.

17 CHAIRMAN: Yes.

18 MR JOSEPH LAI: But yes, something has been done.

19 CHAIRMAN: If she has the information, of course, that's  
20 sensible.

21 MR JOSEPH LAI: Thank you.

22 MEMBER LO: One more question. You mentioned about driver  
23 supply is a chronic problem. That means it has been for  
24 a long time. So why haven't more drastic measures been  
25 put up to address the problem more directly? Because

26

1           that has led to severe consequences in the work hours,  
2           in the tiredness of drivers. Has there been any policy  
3           that looks directly at this problem?

4       MR JOSEPH LAI: Chairman, I believe over these many years  
5           the bus companies have, you know, come up with different  
6           measures, from the recruitment of more women, to  
7           recruitment of part-time drivers. I know, as I said,  
8           this is now becoming a rather sensitive subject. But it  
9           was introduced to help relieve the shortage problem.  
10          The introduction of more benefits to the drivers; to the  
11          initiative to step up recruitment locally, "locally"  
12          meaning recruitment of drivers living near where the  
13          depots are, because my understanding is that drivers  
14          usually don't want to travel far to report for duty and  
15          to travel far to get home after work. So they have been  
16          looking at all those sorts of things.

17                So these are different measures. And also,  
18           recruitment of retirees, to get them working again, with  
19           suitable remuneration, and the improvement in  
20           remuneration package, bonus and all that.

21                Prof Lo might have in mind the question of importing  
22           labour, importing drivers. On this particular one, we  
23           have looked into this every now and then. Our  
24           conclusion is that it might not be suitable in the  
25           context of bus drivers, because bus drivers need to have  
26

1 very often and close interaction with passengers, where  
2 the ability to communicate in the passenger's language  
3 is most important.

4 So importing drivers from other places outside  
5 Hong Kong may create a communication problem between the  
6 imported drivers and the passengers.

7 Also, the other thing is we are right-hand drive in  
8 Hong Kong, which is a rarity.

9 MEMBER AUYEUNG: Thank you, Chairman.

10 The question I have to Mr Lai is -- I think in your  
11 opening statement, you mentioned that one of the safety  
12 measures is that you have 14 spot-checks a day.  
13 Considering the thousands of buses on the street every  
14 day, can you provide some more insight into how you  
15 determine this number, 14?

16 MR JOSEPH LAI: Chairman, again, this is a question which  
17 I believe the commissioner would be better placed than  
18 I to answer. But regardless of the exact number, how it  
19 came about and the exact rationale for it, I suppose the  
20 reason why the number is not bigger is that you have to  
21 bear in mind, first of all, that it is a surprise check,  
22 in the sense that we call in the buses on the day. So  
23 there is no prior notification, no prior warning. You  
24 can imagine the effect it will have on bus deployment on  
25 the day.

26

1           So, on the day, the bus companies will have to make  
2           alternative arrangements to replace that bus by another  
3           bus. I suppose this operational consideration is one  
4           factor that has to be taken into account.

5           The other is that this is on top of the annual  
6           check, the monthly check, and whatever check which the  
7           bus companies have, which the buses have to undergo; and  
8           also the daily examinations which the bus companies  
9           themselves are to undertake every day, before the bus is  
10          sent out for service and at the end of the day when the  
11          bus comes back to the depot.

12          So this surprise spot check of 14 buses is  
13          an additional check and balance safeguard measure, in  
14          addition to everything that's been done to ensure that  
15          the bus is in a sound and proper state.

16          MEMBER AU YEUNG: Thank you.

17          Thank you, Chairman.

18          CHAIRMAN: Thank you. For my own part, I have no questions,  
19          so it remains for me to thank you, Mr Lai, and thank  
20          you, Mr Choi. We haven't heard from you, Ms Yip. But  
21          thank you for attending, and we are grateful to the help  
22          you have provided the committee in having a better  
23          understanding of how the system works.

24          We will take a lunch break now and we will resume at  
25          2.30, when we will hear from Ms Chan.

1 MR JOSEPH LAI: Thank you, Chairman. Thank you, members.

2 Thank you, counsel.

3 CHAIRMAN: Thank you.

4 (1.04 pm)

5 (The luncheon adjournment)

6 (2.30 pm)

7 EVIDENCE FROM THE TRANSPORT DEPARTMENT: MS MABLE CHAN,

8 MS AMY LEE, MS RACHEL KWAN, MS MACELLA LEE,

9 MR REGINALD YK CHAN, MR TONY YAU

10 CHAIRMAN: Ms Chan and your representatives from the

11 Transport Department. May I invite you to take your

12 seats, all together, as you wish, or one at a time.

13 It's a matter for you.

14 MS MABLE CHAN: We will sit as a team.

15 CHAIRMAN: Thank you.

16 Mr Duncan, if you would commence proceedings.

17 MR DUNCAN: Thank you.

18 Ladies and gentlemen, thank you very much for

19 providing written submissions to the committee, and

20 thank you also for attending today, having been given

21 the opportunity of making any oral submissions you may

22 wish.

23 In the absence of any legal representatives of yours

24 who would perhaps normally take you through any oral

25 submissions, do you wish to make any oral submissions to

26

1 the committee?

2 MS MABLE CHAN: Yes, counsel, I would like to make an oral  
3 submission in front of the committee.

4 CHAIRMAN: Yes, please do so.

5 Opening statement by MS MABLE CHAN

6 MS MABLE CHAN: Thank you, Chairman.

7 Chairman, members of the committee, good afternoon.  
8 Thank you for giving us the opportunity today to appear  
9 before the committee to give oral submission on matters  
10 relating to the Transport Department's regulation and  
11 monitoring of the franchised bus operations in  
12 Hong Kong, in support of the committee's important  
13 mission in reviewing Hong Kong's franchised bus service  
14 following the occurrence of the tragic accident on  
15 Tai Po Road on 10 February 2018.

16 Today with me is my team, including my deputy,  
17 Ms Macella Lee, and three assistant commissioners  
18 overseeing the monitoring of franchised bus,  
19 Ms Rachel Kwan, Mr Reg Chan, overseeing vehicle  
20 licensing and examination, and Mr Tony Yau, who is the  
21 chief engineer overseeing road safety and standards.

22 We are happy to facilitate the committee's  
23 proceedings today by giving truthful and detailed  
24 evidence in order to facilitate the committee's  
25 understanding of what we know and more importantly what

26

1 we have been doing as a regulator.

2 The Transport Department, headed by the  
3 commissioner, is the main authority for administering  
4 the Road Traffic Ordinance and its subsidiary  
5 legislation for the management of road traffic,  
6 regulation of public transport services, and operation  
7 of major transport infrastructures, as well as the  
8 Public Bus Services Ordinance and the public bus  
9 services regulation. Both constitute the key statutory  
10 tools for the regulation of franchised bus operation in  
11 Hong Kong.

12 The policy objective and public expectations on the  
13 Transport Department in ensuring proper and efficient  
14 franchised bus service is clearly embedded in the  
15 statute.

16 Safety-related aspects are of utmost importance in  
17 sustaining a safe and reliable franchised bus service.  
18 The fact that safety-related defects per bus examination  
19 and number of buses involved in accidents per million  
20 vehicle-kilometres are two of the nine key indicators  
21 adopted in the annual performance assessment of the  
22 franchised bus operator speaks for itself.

23 To ensure the roadworthiness and operational safety  
24 of franchised buses, the Transport Department, in short  
25 "TD", keeps track closely of the conditions and  
26

1 performance of franchised buses, from their design and  
2 build stage, to the in-service period, through periodic  
3 examinations and inspections of vehicles as required  
4 under the regulatory framework.

5 All of the 5,900-plus licensed franchised buses are  
6 subject to annual inspection, monthly inspections, as  
7 well as spot-checks by the Transport Department at the  
8 average rate of 14 franchised buses per day, or around  
9 3,400 buses per year.

10 The TD conducted monthly review on bus operation  
11 safety by analysing the accident statistics derived from  
12 a database on all traffic accidents, jointly maintained  
13 by the police and TD. Should the TD find that there is  
14 a rising trend or abnormality, the TD will follow up  
15 with the respective bus operators for explanations and  
16 follow-up actions, remedial actions.

17 We would also examine the accident trends of each  
18 bus operator annually, as part of the systematic review  
19 on the performance of the bus operators.

20 To enable the delivery of public bus service through  
21 grant of franchise to private operators, the six  
22 franchises currently signed with the five operators have  
23 empowered the Commissioner for Transport to regulate the  
24 bus service performance levels in highly prescriptive  
25 terms, in the form of a schedule of service, ranging  
26

1 from the greeting and timetable, location of bus stops,  
2 fares and concessions, to the number and types of buses  
3 deployed for each route.

4 Pursuant to the relevant clause in the franchise,  
5 grantees are required to keep and provide information  
6 and records relating to the number of buses, passengers,  
7 journeys, as well as driver duties and establishment and  
8 strength, in order that the TD can monitor the delivery  
9 of service in accordance with the approved schedules of  
10 services.

11 Chairman, the regulation and monitoring of bus  
12 franchises is an ongoing and evolving process. Over the  
13 years, for better delivery of franchised bus service and  
14 to enhance safety and service, the TD has signed  
15 commitment letters with bus operators pursuant to the  
16 relevant franchises, requiring them to install safety  
17 and service enhancement measures.

18 While ensuring the delivery of franchised bus  
19 service according to the approved schedules of service,  
20 the TD pays importance to the working conditions and  
21 environment of bus captains, while reckoning that bus  
22 captains are employees of bus companies and their  
23 working conditions are parts of the latter's manpower  
24 policy.

25 In the form of administrative requirement reached  
26

1 with mutual agreement with franchised bus operators, the  
2 TD promulgated a set of Guidelines on Working Hours,  
3 Rest Times, and Meal Breaks in 1998, and revised it six  
4 times over the years, with the latest in 2018, for  
5 franchised bus operators to follow in bus captain  
6 deployment for their respective bus routes.

7 Bus operators are required to submit regular reports  
8 on the compliance with the guidelines to the Transport  
9 Department, which also conducts regular surveys to  
10 assess compliance with the guidelines.

11 As far as bus captains are concerned, franchised bus  
12 operators have also voluntarily made performance pledges  
13 on providing training to all new recruits, and training  
14 once every three years for in-service bus captains.  
15 They submit information on training to the TD on  
16 an annual basis for monitoring.

17 It is obviously not realistic for the TD to perform  
18 day-to-day checking of compliance of the franchised bus  
19 operators and the accuracy of information and records,  
20 each and every one submitted by the bus operators. As  
21 far as bus service is concerned, there is check and  
22 balance through monitoring by way of TD's on-site  
23 surveys, passenger satisfaction surveys, and monitoring  
24 of public complaints received.

25 As far as safety is concerned, we monitor franchised  
26

1 bus operators' performance by analysing the nature,  
2 severity and contributing factors of accidents involving  
3 franchised buses, coupled with black spot investigation,  
4 trend analysis, and benchmarking with other commercial  
5 vehicles in territory-wide accident statistics.

6 Follow-up actions include quarterly reporting to and  
7 monitoring by the Road Safety Council. We will also  
8 follow up recommendations and our own findings through  
9 road safety review, vehicle safety enhancements, and  
10 regular meetings with bus operators to discuss measures  
11 and proposals to improve bus captains' driving  
12 behaviour.

13 Chairman, franchised bus services have been  
14 expanding over the years in terms of fleet size and  
15 patronage. While the local licensed bus fleet has grown  
16 by 3.24 per cent as compared with that of ten years ago,  
17 to meet the increase in patronage by 37 million  
18 passenger journeys in absolute terms, franchised bus  
19 operators are facing an increasingly acute problem of  
20 manpower shortage. It is inevitable that the bus  
21 companies are exploring various means to meet manpower  
22 needs by increasing the remuneration package to attract  
23 new recruits, extending the retirement age of bus  
24 captains, and recruiting part-time bus captains.

25 It is against such background that the Transport  
26

1 Department sees the need to enhance bus captains' safe  
2 driving by institutionalising the monitoring of bus  
3 companies' training arrangements, including those for  
4 the new recruits, the in-service, be they full-time or  
5 part-time, as well as special or remedial training for  
6 those who are found to have improper driving behaviour  
7 or who have been away from driving duties for a long  
8 period because of sickness or other reasons.

9 What we intend to do includes the formulation of  
10 a set of new guidelines on the manpower training  
11 framework, with basic requirements on modules, duration  
12 and weighting, so as to provide a common basis for  
13 internal monitoring and audit within individual  
14 franchised bus companies.

15 We have indeed shared our thoughts with bus  
16 companies at our first two meetings of the Working Group  
17 on Enhancement of Safety of Franchised Buses on 13 March  
18 and 21 April 2018.

19 The feedback has been positive. The working group  
20 has pledged to complete its work by the end of June.

21 Taking advantage of the latest technological  
22 know-how on driver-assisted devices, we are also  
23 discussing with the bus companies and bus manufacturers  
24 to examine the feasibility of installing on new buses  
25 seat belts for all passenger seats, electronic stability  
26

1 control, speed limiter to cap the maximum speed for  
2 buses travelling downhill, and put on trial driver  
3 monitoring device, in order to assist bus captains to  
4 drive safely and improve passenger safety.

5 All in all, the Transport Department will continue  
6 monitoring of the public transport services in the  
7 territory and will spare no effort in enhancing the  
8 safety operation of public transport operators in  
9 Hong Kong.

10 Chairman, this concludes my statement. My team and  
11 I will be happy to answer questions. Thank you.

12 CHAIRMAN: Thank you.

13 Mr Duncan.

14 Examination by MR DUNCAN

15 MR DUNCAN: Mr Chairman, thank you.

16 Ms Chan, I am very interested to hear your remarks  
17 just at the end of your submission with regard to  
18 monitoring, because I think as you probably know from  
19 the terms of reference of the committee, one of the  
20 prime matters they have to consider -- it's item (b) of  
21 the terms of reference -- is first of all the regulation  
22 of the bus companies' operations, and secondly the  
23 monitoring.

24 This morning, I think you were in the auditorium  
25 when questions were asked of the bureau with regard to  
26

1 regulation. I would just like to ask a few more  
2 questions, please, about the monitoring process, as it  
3 is at the moment, and how the monitoring process as  
4 presently conducted might be in the process of change  
5 from the remarks that you've made this afternoon.

6 First of all, if I could understand the current  
7 process by which the monitoring is carried out. It may  
8 be useful if you were to turn up, please, one of the  
9 exhibits to your submission. This will be TD-2,  
10 page 293.

11 You will see there a document which is tabbed  
12 appendix L, and it's headed, "Records and information  
13 submitted by franchised bus operators". It's one of the  
14 documents that the department helpfully provided to the  
15 commission.

16 Are you able to have that in front of you?

17 MS MABLE CHAN: Yes.

18 MR DUNCAN: This, as I understand it, summarises the records  
19 and information which, by arrangement with the  
20 operators, they are required to supply the department  
21 from time to time. I think sometimes it's on a monthly  
22 basis; sometimes it's on a quarterly basis.

23 Would it be true to say that, at the present time,  
24 this represents the principal methods by which you  
25 monitor the operation of the bus companies?

26

1 MS MABLE CHAN: Yes, senior counsel, the records and  
2 information highlighted in appendix L actually flows  
3 from the requirements as specified in schedule 2 to the  
4 relevant franchises we signed with the bus operators,  
5 and this formed the basis for the regular monitoring by  
6 TD, either on a daily or quarterly basis.

7 For those which relate to passengers, buses,  
8 journeys, things like that, they are actually submitted  
9 by the bus companies, through an electronic system, so  
10 that -- and they are also required to upload the  
11 information within seven days from which those trips are  
12 made, so that the Transport Department can monitor them  
13 on a frequent basis as well as on an ad hoc basis.

14 As we have stated in my opening statement, the  
15 franchise has specified and empowered C for T power to  
16 regulate and monitor the delivery of franchised bus  
17 service in highly prescriptive terms. So this list of  
18 information actually helps us to monitor the delivery of  
19 the services in terms of the routes, the passengers, the  
20 bus deployment.

21 But I would also like to add that this only forms  
22 the basis. In order to verify whether this is actually  
23 happening on the ground, the Transport Department has  
24 been conducting regular on-site surveys, which include  
25 inspections on trips on board the buses and also at the  
26

1 bus stops. Those on-site surveys will help us to sort  
2 of do it on a random basis, in order to verify the  
3 information supplied by the bus operators are on valid  
4 and accurate terms.

5 Apart from that, we also conduct passenger  
6 satisfaction surveys, through which we will also gather  
7 feedback from the passengers on the various performance  
8 levels in a more systematic manner.

9 Thank you.

10 MR DUNCAN: So those on-site surveys to which you have just  
11 referred, are they referred to here in this appendix L?

12 MS MABLE CHAN: I would say that the on-site surveys  
13 actually cover most of the items in appendix L.

14 MR DUNCAN: Right. But if I take you to, for example,  
15 page 297 of the bundle, you see in the first box on the  
16 right-hand side, "Survey conducted by an independent  
17 consultant". That's a different type of survey, is it,  
18 from the one you've just referred to?

19 MS MABLE CHAN: Yes. This one is a special survey that we  
20 employed an independent contractor to do special  
21 checking on the compliance with the guidelines.

22 MR DUNCAN: Right. So what I want to clarify for the  
23 committee's consideration at the moment is what are the  
24 monitoring steps over and above what is in this  
25 appendix. So you mentioned during your statement  
26

1 spot-checks, about 14 buses a day. Can you tell us  
2 a little bit more about that, please?

3 MS MABLE CHAN: Sure. For the spot-checks, it's actually on  
4 top of the annual inspection and also the monthly  
5 inspection of the vehicle fleet.

6 The bus operators are actually required to do their  
7 monthly inspection, but as a statutory requirement, the  
8 Transport Department oversees the safety and the  
9 construction and maintenance fitness of the buses. So,  
10 to facilitate the Transport Department in monitoring, we  
11 conduct annual inspection and also monthly inspection.

12 But on top of that, in order to ensure the  
13 robustness of our monitoring, the vehicle licensing and  
14 inspection team will carry out unannounced spot-checks  
15 of an average 14 franchised buses from the fleet in the  
16 bus company. That is unannounced and that is to ensure  
17 that apart from the regular inspection which the bus  
18 companies may have geared up to prepare for the  
19 inspection, we can conduct on a spot-check basis to make  
20 sure that the buses are safe and fit for running.

21 MR DUNCAN: You mentioned regular on-site surveys. What do  
22 you mean by that?

23 MS MABLE CHAN: For the regular on-site surveys, they relate  
24 to the delivery of the services, including the bus  
25 journeys, the passengers on board from the first stop or  
26

1 at individual stops, and also the destination, the  
2 number of passengers alighting or boarding, and also the  
3 bus driver deployment on the individual bus, as well as  
4 whether there is any delay or change in frequency of the  
5 bus deployment according to the specified frequency in  
6 the approved schedule of routes.

7 MR DUNCAN: Who carries out the surveys?

8 MS MABLE CHAN: Transport Department.

9 Perhaps I can invite my deputy to fill in some  
10 details about how it is actually conducted from the  
11 ground, if I may.

12 MR DUNCAN: Thank you.

13 CHAIRMAN: Yes.

14 MS MACELLA LEE: Thank you, Chairman.

15 Because of the resources required, we also contract  
16 out these surveys to independent consultants or  
17 contractors. But of course our officers sometimes would  
18 also go and look for the demand situation himself, so as  
19 to better understand the situation or to go with the  
20 district councillors, and so on.

21 Basically, the bulk of them is contracted out to  
22 independent consultants.

23 MR DUNCAN: Are written records kept of --

24 MS MACELLA LEE: Yes.

25 MR DUNCAN: I don't recall this, but have any samples of  
26

1           those records been provided to the committee?

2       MS MACELLA LEE: As the commissioner has explained, these  
3           are all on the service side, whether the services are  
4           provided according to those approved by C for T.

5           So these are on the service side and we can supply  
6           some examples of these surveys if required.

7       MR DUNCAN: I don't think we have seen those. That's the  
8           point. So are they available if we require them?

9       MS MABLE CHAN: I can confirm that through the bundles we  
10          have not provided those samples, but we can surely do.

11       MR DUNCAN: Thank you.

12          In your remarks, Ms Chan, just a few moments ago,  
13          I believe you mentioned monthly undertakings by the Road  
14          Safety Council, in the context of monitoring.

15       MS MABLE CHAN: Quarterly.

16       MR DUNCAN: Could you give us some details about that,  
17          please.

18       MS MABLE CHAN: Sure. The Road Safety and Standards  
19          Division, headed by Mr Tony Yau, who is a traffic  
20          engineer, they will monitor and analyse the data about  
21          accidents from a common database jointly maintained by  
22          the police and the Transport Department. The purpose of  
23          the monitoring is to analyse the nature, the severity  
24          and also the contributing factor of the accidents.  
25          Then, based on the analysis, they will provide a report

26

1 on a quarterly basis to the Road Safety Council.

2 In that report, they will analyse whether there is  
3 any common factor in those accidents, in order to  
4 prepare for necessary improvement or remedial actions.  
5 The aspects covered will include road safety, vehicle  
6 safety, or human factor, including driver behaviour or  
7 whether there are any common phenomena of pedestrians  
8 crossing in a very dangerous way.

9 So, on a quarterly basis, we submit the report to  
10 the Road Safety Council, and we will then take the  
11 follow-up actions accordingly.

12 Worth noting is that should any trend or analysis  
13 involving franchised bus companies, in particular the  
14 driver behaviour, they will also highlight those actions  
15 that need to be taken to the Bus and Railway Branch of  
16 the Transport Department, and my team will then raise  
17 the issue with the franchised bus operators in their  
18 regular meetings, to remind them of necessary actions to  
19 remind the bus captains.

20 MR DUNCAN: The portion which caught my attention was what  
21 was recorded in the transcript.

22 The transcript has you recorded as saying this:

23 "Follow-up actions include quarterly reporting to  
24 and monitoring by the Road Safety Council."

25 Now, is the Road Safety Council distinct from the  
26

1 Transport Department?

2 MS MABLE CHAN: Yes. The Road Safety Council is distinct

3 from the Transport Department. Actually, can I take

4 this point to correct the flow of my wording?

5 MR DUNCAN: Yes, please.

6 MS MABLE CHAN: Actually, I would like to say that the

7 Transport Department conduct a quarterly analysis of the

8 accidents and analyse the contributing factor, the

9 nature and severity, and then we will produce quarterly

10 report to the Road Safety Council. Then the follow-up

11 actions arising from our analysis and report to the Road

12 Safety Council will include road safety review, vehicle

13 safety enhancements, and then regular meetings with the

14 franchised bus operators, to discuss means to improve

15 bus captains' driving behaviour.

16 MR DUNCAN: So that initial work that you do and provide to

17 the Road Safety Council, that's done by your conclusions

18 from the documentation that the bus companies provide to

19 you; is that correct?

20 MS MABLE CHAN: Basically, it's from the analysis done by

21 the Transport Department's road safety and standards

22 team on the accidents data collected in the common

23 database managed by the Transport Department and the

24 police.

25 MR DUNCAN: Right.

26

1 MS MABLE CHAN: So it is an independent source, not from the  
2 bus companies.

3 MR DUNCAN: Right. What I'm trying to understand is any  
4 steps the department takes to monitor the operations of  
5 the bus companies, apart from relying on the records of  
6 the bus companies.

7 MS MABLE CHAN: Yes, this is true. We have our own  
8 database. We do not rely just on the bus companies'  
9 data.

10 MR DUNCAN: Right. At the risk of asking you to repeat  
11 a few things, can you just identify what steps you take  
12 over and above considering the written information  
13 provided to you by the bus companies?

14 CHAIRMAN: Whenever there is an accident, in a particular  
15 fatal accident occurred, the police will timely input  
16 those data into the database. The Transport Department  
17 and the police jointly maintain that database. Then the  
18 Road Safety and Standards Unit, they will regularly  
19 monitor that database and analyse the accidents from  
20 that database. They do it independently, without  
21 reliance on the bus company's information on the  
22 accidents, because the bus companies' reports on the  
23 accidents, they may come a bit later, or they may come  
24 in the context of their annual programme provided by the  
25 TD.

26

1           So we actually look into that database maintained by  
2           the police and the Transport Department and then we will  
3           do a quarterly review to the Road Safety Council.

4   MR DUNCAN: Right. There, you are relying on the records  
5           from the police. I'm trying to find out what work the  
6           staff of the Transport Department might do independently  
7           to assess the operations of the bus companies, not  
8           relying on documentation of any sort. Your own work,  
9           that's what I would like you to identify.

10   MS MABLE CHAN: In that regard, I will invite Tony Yau, the  
11           chief engineer, to respond.

12   MR DUNCAN: Thank you.

13   MR TONY YAU: Thank you, Chairman, counsel.

14           As the commissioner mentions, we directly derived  
15           the accident data from a computer system which is input  
16           by the police, and we have accessibility to the system,  
17           and we retrieve the accident data in doing our  
18           monitoring and analysis work, including the trends,  
19           number of accidents, severity, collision type, vehicle  
20           types, and mainly the contributory factors.

21           The contributory factors can be driving factor,  
22           casualty factor, vehicle factor and environmental  
23           factors. So if we find out any common factors or any  
24           observations, we will quarterly report to the Road  
25           Safety Council.

26

1           The Road Safety Council consists of members from  
2           different bureaux, including Transport and Housing  
3           Bureau, Education Bureau, police, Highways Department,  
4           as well as other representatives from external members,  
5           such as Hong Kong Medical Association, Hong Kong Road  
6           Safety Association, Hong Kong Automobile Association,  
7           Institute of Logistics, to formulate -- what we are  
8           going to do then, the Road Safety Council will  
9           formulate -- help the different departments, initiate  
10          the department and the bureau to formulate the policy,  
11          and maybe implement road safety improvement measures  
12          such as updating or introducing new legislation,  
13          priority in enforcement, education and publicity  
14          campaign, et cetera.

15       MR DUNCAN:   Thank you.

16           Those remarks I think have been made in the context  
17          of accidents.   My enquiry is more operations generally.  
18          We've got an abundance of written records which are  
19          supplied, but over and above that, as I understand you,  
20          there is different work that the Transport Department  
21          actually undertakes with regard to the operations of the  
22          bus companies.

23           You have mentioned spot-checks, about 14 buses  
24          a day.   I understand that.   You have mentioned feedback  
25          you get back from passenger surveys; I understand that.

1           You have mentioned regular on-site surveys. Could you  
2           tell me just a little bit more about that: what does  
3           that consist of, who does the work, what conclusions do  
4           you draw from that?

5       MS MABLE CHAN: Perhaps I will invite Ms Lee to elaborate.

6       MR DUNCAN: Thank you.

7       MS MACELLA LEE: Thank you, Chairman.

8           Because of the requirement in the law about the  
9           service to be delivered by the franchised bus operators,  
10          those approval by C for T include a timetable, routing,  
11          stops, and also some patronage figures.

12          What we do is we either do terminal surveys, so we  
13          choose -- in a particular route, we station people in  
14          the terminus to time the departures, whether the bus  
15          companies have adhered to the schedules, and then on the  
16          same occasion record the number of passengers boarding.

17          In another end of the terminus, we will have the  
18          arrival time, so we know the journey time, we know if  
19          there are any delays in the trips, and so on. These are  
20          terminal surveys or stop surveys.

21          Another type is on-board surveys. We have surveyors  
22          on the bus. At each bus stop, they will record how many  
23          passengers getting down, setting down and so on. So we  
24          have the detailed operational data. These data are very  
25          important because all along we have to make sure that

26

1 the operators adhere to the schedules, and especially if  
2 there are complaints saying that there are missing  
3 trips, then we will examine these reports and take up  
4 with bus companies.

5 Another angle is the planning angle, because there  
6 are often requests for re-routing or to combine some  
7 routes, and so on, so for planning purpose we also need  
8 this data.

9 Actually, we got these data from the bus companies,  
10 but we verify them and also do -- sometimes we will need  
11 updated figures, especially for planning purpose. So  
12 because with these records and also our on-site survey  
13 we perform this operational performance monitoring and  
14 also planning purpose.

15 Thank you.

16 MR DUNCAN: Thank you.

17 I understand a lot of that work. A lot of it  
18 of course is not related to safety requirements. Is  
19 there any work done by the Transport Department  
20 independently of the records provided by the bus  
21 companies aimed at independently checking safety  
22 provisions undertaken by the bus companies? For  
23 example, the training of bus captains. Are you totally  
24 dependent on what the bus companies to inform you, or do  
25 you undertake independent assessments of safety  
26

1 requirements?

2 MS MABLE CHAN: Perhaps I can try to answer on that. The  
3 safety-related aspects, I have mentioned two of them,  
4 two of the nine key indicators, including safety-related  
5 defects per bus examination. Senior counsel has asked  
6 a minute ago about our 14 spot-checks. Perhaps on that  
7 I can ask the assistant commissioner to elaborate  
8 a little bit.

9 MR DUNCAN: I don't think you need to do that. I think we  
10 understand that one.

11 MS MABLE CHAN: The other is on the number of buses involved  
12 in accidents per million vehicle-kilometres. This is  
13 one of the indicators that we monitor. In this regard,  
14 we will check the information supplied by the bus  
15 companies on the number of buses involved in accidents  
16 per million vehicle-kilometre. Then we will compare the  
17 performance year-on-year.

18 In meeting that indicator, training is also  
19 an important aspect that the bus company has mentioned  
20 as an important aspect to ensure that the driver has  
21 received sufficient training. In this regard, the bus  
22 company has voluntarily made two performance pledges.  
23 One is provide training for all new recruits, and the  
24 other is provide training for in-service bus captains  
25 once every three years.

26

1           The bus companies have provided information in this  
2           regard in their annual programme to meet their voluntary  
3           performance pledges. We take note of the information  
4           supplied in that programme and we review their work on  
5           an annual basis.

6           But I would like to emphasise that the Transport  
7           Department does not, as in the previous case, perform  
8           our independent checks on that, because I must admit  
9           that the training is not a requirement that flows from  
10          the franchise or that flows from the ordinance. It was  
11          actually formulated by the bus company on a voluntary  
12          basis as part of our discussions with them to improve  
13          and enhance bus safety, but there is no such legal  
14          requirement nor requirement in the franchise.

15          So, up to the present moment, the Transport  
16          Department does not do any spot-checks or independent  
17          checking on the training provided by bus companies.

18       MR DUNCAN: Do I take it also that there is no direction or  
19          requirement, as stipulated in the ordinance, with regard  
20          to training?

21       MS MABLE CHAN: No.

22       MR DUNCAN: It's all done on a voluntary basis?

23       MS MABLE CHAN: No direction or requirement.

24       MR DUNCAN: I'm going to go back to the records, this table,  
25          in a moment, but are you able to inform the committee as  
26

1 to any other independent steps that the Transport  
2 Department might take, outside of the records supplied  
3 to you by the bus companies, with regard to matters of  
4 safety?

5 MR YK CHAN: I would like to supplement. The commissioner  
6 has mentioned about the spot-checks on vehicles. That's  
7 one thing. Another thing is, for all the buses run by  
8 bus companies nowadays, they have to do a complete check  
9 or repair once a year, and after that the Transport  
10 Department needs to check every one of them. So this is  
11 really an independent complete check to the standard, as  
12 spot-checks, really. So this is an aspect that the  
13 Transport Department do have independent information  
14 obtained by carrying out our own works by our  
15 inspectors, our vehicle examiners, at the depots.

16 MR DUNCAN: Thank you.

17 Let us go then back to this document, appendix L,  
18 "Records and information submitted by franchised bus  
19 operators". We can see the records and information  
20 which are supplied, the reference to the ordinance or  
21 the franchise, the relevant clause, the time frame for  
22 submission, and then the follow-up actions.

23 What we have done is been through the follow-up  
24 actions to try and identify where it is that matters  
25 beyond what the bus operators have provided you have  
26

1           been checked or investigated in some way.

2           The first one I've come across appears at page 296.

3           If you look at the second-last box on that page, there  
4           is in the second paragraph reference to:

5           "Survey conducted by independent consultant ..."

6           Do you see that reference?

7   MS MABLE CHAN:   Yes.

8   MR DUNCAN:   Thank you.   In fact the same reference is made  
9           in the next box, at the bottom of page 196, and another  
10          one at the top of page 297.

11          I believe that although there's three references,  
12          they all refer to one survey; is that correct?

13   MS MABLE CHAN:   Correct.

14   MR DUNCAN:   Can you tell us a bit more about that, a survey  
15          conducted by an independent consultant?   Who is the  
16          independent consultant and what does the survey  
17          indicate?

18   MS MABLE CHAN:   Again, Ms Lee, please.

19   MS MACELLA LEE:   Thank you, Chairman.   These surveys are to  
20          check the compliance of the franchised bus companies,  
21          whether they follow the guidelines in arranging the  
22          duties for the captains.

23          As you are aware, the original guideline, not the  
24          one just revised, there are four parts of the guideline.  
25          Basically, there are two types.   One is the driving --

26

1       the rest breaks, rest breaks and driving hours. This  
2       type of survey, we need to follow -- actually, the  
3       surveyor followed -- we select the drivers randomly and  
4       then the surveyor follows the driver the whole day. So  
5       we can check whether really rest break is given to him  
6       or whether, say, sometimes -- the rest break and the  
7       driving hours, whether the driving hours within that  
8       duty is within the maximum.

9               So this kind, we follow the surveys. But for breaks  
10       between two consecutive duties, for example, we check  
11       the sign in and sign out record of the drivers.

12              So there are basically two teams of surveyors. So  
13       where do we find these surveyors? We do it by an open  
14       tender, for qualified consultants to do it. We have  
15       a study brief, we select the most appropriate  
16       consultants, and then we follow up with the consultant  
17       to do this.

18              So, with these samples and we can see the  
19       compliance, and in fact, as we have included in the  
20       bundle, over the years the compliance rate is quite  
21       high, and for those items or guidelines that we found  
22       a small percentage of non-compliance, we have asked the  
23       bus company the reasons and explanations, and most of  
24       them are outside their control. This is the way surveys  
25       are done, and I must say these are very labour  
26

1           intensive. We do 12,000 bus drivers altogether, the bus  
2           companies.

3           So the surveys are done like that. Thank you.

4       MR DUNCAN: Sorry, you do 12,000?

5       MS MACELLA LEE: Yes.

6       MR DUNCAN: What does that mean?

7       MS MACELLA LEE: I mean we select samples and we take -- the  
8           six companies as a whole, we do 12,000 samples of  
9           these --

10      MR DUNCAN: You speak to 12,000 drivers?

11      MS MACELLA LEE: Sorry, 1,200.

12      MR DUNCAN: Per year?

13      MS MACELLA LEE: Yes.

14      MR DUNCAN: When did this system commence? When did you  
15           first engage surveyors for this?

16      MS MACELLA LEE: At least when the current guideline is  
17           implemented in 2010, and for those before 2010, I cannot  
18           give a definite answer here.

19      MR DUNCAN: If I refer the commissioner now to page 297,  
20           there is another box in the middle of the page:

21           "Survey conducted by independent consultant ..."

22           That is the same survey that's referred to, is it,  
23           earlier on?

24      MS MABLE CHAN: Yes, I can confirm it's the same.

25      MR DUNCAN: Thank you. The other one that we have located  
26

1 is on page 299. This refers to the report on the  
2 passenger liaison group, and it refers to sending of  
3 representatives to attend PLG meetings. Could you give  
4 us a bit more detail about that, please?

5 MS MABLE CHAN: Perhaps on this I can ask my assistant  
6 commissioner overseeing bus to explain the details.

7 MR DUNCAN: Thank you.

8 MS RACHEL KWAN: Mr Chairman, each of the bus franchisees  
9 arrange their passenger liaison group meeting once in  
10 every two months, and once they have determined the  
11 location of the PLG meeting, we will be informed and we  
12 will send our representatives to attend the meeting as  
13 well, and to monitor that the franchised bus operator  
14 will do their own PLG meeting properly and to listen to  
15 the views collected from the meeting.

16 We will take records and after the meeting the  
17 franchised bus operator will also send us the record for  
18 our forward bus planning purpose.

19 MR DUNCAN: Who selects --

20 CHAIRMAN: Before you proceed, Mr Duncan -- so are you  
21 saying there are two sets of records, one taken by your  
22 representative and another taken by the bus company?

23 MS RACHEL KWAN: We will do our own -- because we will only  
24 send one representative to attend the meeting, we cannot  
25 follow all the passengers' opinions collected. So

26

1           whenever we collect, we listen to the passengers' views,  
2           we will jot our own notes, and we will not put it  
3           formally into a record but we will report to our senior  
4           when they come back to the office.

5           But actually, all the information collected will be  
6           recorded by the franchisee, and they will send us their  
7           report afterwards to countercheck our own handwritten  
8           record.

9   CHAIRMAN:   So are there two sets of records?

10   MS RACHEL KWAN:   Yes.

11   CHAIRMAN:   Have we been supplied with these records?

12   MS RACHEL KWAN:   Not yet.

13   MR DUNCAN:   Could they be made available as well?

14   MS RACHEL KWAN:   Yes.

15   MR DUNCAN:   Thank you.   Samples.

16           How many persons typically attend these PLG groups,  
17           meetings?

18   MS RACHEL KWAN:   Mr Chairman, it all depends on the location  
19           of the PLG meeting.   If it is held at a popular  
20           location, more than 20 passengers will attend.

21   MR DUNCAN:   Who determines the make-up of the passenger  
22           liaison group?

23   MS RACHEL KWAN:   Pardon me?

24   MR DUNCAN:   Who determines, who makes up, the passenger  
25           liaison group?   Are they selected by the Transport  
26

1 Department? Are they selected by the bus operator?

2 MS RACHEL KWAN: Yes. They are determined by the bus  
3 operator.

4 MR DUNCAN: Thank you. You can put that document away.

5 I think I've finished the questions on that particular  
6 topic.

7 CHAIRMAN: Before we move on from that, at these passenger  
8 liaison group meetings, are issues of bus safety raised?

9 MS RACHEL KWAN: Depends on the passengers' opinion. There  
10 is no definite topic for the passengers, for them -- in  
11 fact, they can raise whatever comments they would like  
12 to put forward.

13 CHAIRMAN: I appreciate that. Perhaps the question is  
14 better put this way. Do they ever raise questions of  
15 bus safety?

16 MS RACHEL KWAN: In my mind, most of the comments received  
17 are service related or fare concession related, not  
18 much --

19 CHAIRMAN: So questions of bus safety not raised?

20 MS RACHEL KWAN: Very little.

21 CHAIRMAN: Thank you.

22 Yes, Mr Duncan.

23 MR DUNCAN: Thank you, Mr Chairman.

24 Turning to another topic, Ms Chan -- reference has  
25 been made already this afternoon to the Guidelines on  
26

1 Working Hours, Rest Times, and Meal Breaks for the bus  
2 captains, and one of your colleagues mentioned the  
3 guidelines in 2010, and we know that they were revised  
4 very recently and the guidelines issued in February of  
5 this year.

6 I would like to refer you, please, to your  
7 supplemental submission, the one that came in, I think,  
8 on 4 May. You will find this at TD-1 at page 157. In  
9 answer to a query from the committee, at paragraph (d)  
10 you mentioned that the department received a suggestion  
11 from a bus captains' union suggesting a revision of the  
12 guideline. It goes on to say that the department  
13 discussed the suggestion with the bus operators and  
14 another bus captains' union and both expressed objection  
15 to the suggestions. After further discussion with the  
16 proponent, it was concluded that the guidelines would  
17 not be changed.

18 Is it not the case that even before 2015, there had  
19 been requests and suggestions to the department that the  
20 guidelines be changed; do you recall that?

21 MS MABLE CHAN: Perhaps I can start -- the guidelines'  
22 development process is quite a long one.

23 MR DUNCAN: Yes.

24 MS MABLE CHAN: It dated back to 1993, when we sort of  
25 developed the guidelines for voluntary following up by  
26

1 the relevant bus operators. It was not until 1998 that  
2 we promulgated the guidelines and required the bus  
3 companies to follow.

4 Since the promulgation in 1998, the guidelines were  
5 revised six times.

6 I would like to highlight that throughout the years  
7 and as the process, there have been ongoing suggestions  
8 and views from the staff union side, to further improve  
9 the working conditions and shorten the working hours of  
10 the bus captains; and, on the other hand, we are also  
11 mindful of ongoing and increasing public expectations to  
12 enhance the service level of franchised bus service.

13 So senior counsel's referral of our written  
14 statement in March 2019 [sic], I would say that is  
15 an example to illustrate that the staff union all along,  
16 they have a genuine request for further improvement in  
17 the working hours and conditions of the bus captains.

18 MR DUNCAN: Thank you. Just in that respect, I would ask  
19 you to pick up bundle SEC-1, and go to page 437.

20 These are minutes of a meeting of the Panel on  
21 Transport of the Legislative Council on 27 November  
22 2012. Do you see that?

23 Then if you look through, please, to page 441, at  
24 the bottom of the page you will see that the chairman  
25 refers to:

1            "... a serious traffic accident had taken place in  
2            Chai Wan on 19 November 2012 involving two buses and  
3            a taxi and this had aroused extensive public concern on  
4            the health and driving attitudes of professional  
5            drivers, particularly bus captains."

6            So that was the context in which that meeting took  
7            place.

8            Then if you go through, please, to 442, there's  
9            reference in paragraph 2 to the secretary and the  
10           commissioner giving a brief account on paper which had  
11           included reference to details of the health check and  
12           the working hour arrangements for bus captains of  
13           franchised bus companies.

14           Then at 447, if I could refer you to that,  
15           paragraph 24, there's reference to the secretary  
16           undertaking that the administration would review the  
17           guidelines in conjunction with stakeholders, including  
18           franchised bus companies and their staff unions. He  
19           added that the department was liaising with major staff  
20           unions of the bus captains to discuss the problems  
21           arising from that accident.

22           Then there is, at page 454, a summing-up by the  
23           chairman of the meeting, where he thanked the parties  
24           and, amongst other things, indicated that members  
25           considered that the administration should review the  
26

1 operation of franchised bus services, the captains' rest  
2 times, working hours and remuneration, as well as  
3 measures to improve the existing traffic network.

4 Now, it would seem that notwithstanding the contents  
5 of those minutes, there was no change to the guidelines  
6 from 2012 up until the time of the Sham Shui Po accident  
7 in 2017. Are you able to assist the committee with  
8 regard to what determination and for what reasons that  
9 determination was made of the administration regarding  
10 the guidelines as they were at that time?

11 MS MABLE CHAN: Perhaps I can give a general answer first  
12 and then I will invite Ms Rachel Kwan to supplement on  
13 the thinking and review process.

14 Following the tragic accident back in 2012, actually  
15 there are two major follow-up actions. The first one is  
16 the enhancement of the health check requirement of the  
17 bus captains. It is following from that incident that  
18 we have required all the bus operators to step up the  
19 health check requirements. In addition to the annual  
20 health check for bus captains aged 50 or above, we  
21 actually stipulate additional health check requirement  
22 for those bus captains who have declared significant  
23 health illness, so that the companies can arrange more  
24 frequent health examination and also including the  
25 cardio checking on the bus captains.

26

1           We also require the bus companies to arrange health  
2           check for bus captains at the 54 and 60, things like  
3           that.

4           On the other hand, on the review of the guidelines,  
5           I understand that the department has actually, at that  
6           time, taken another look at the guidelines on the  
7           working hours of the bus captains. But, at the end of  
8           the day, there is no specific change made to the  
9           guideline at that moment. But the department did  
10          undergo a review of the guidelines to see whether any  
11          parts of it would need to be enhanced at that moment.

12       CHAIRMAN: You said there were two follow-up actions that  
13          followed the incident in November 2012, one was  
14          increased health checks. What was the other?

15       MS MABLE CHAN: The other is the review of the guideline,  
16          though it does not lead to any specific revision at that  
17          juncture.

18          Thank you, Chairman.

19       CHAIRMAN: Yes, Mr Duncan.

20       MS MABLE CHAN: I would invite Ms Kwan --

21       MS RACHEL KWAN: Mr Chairman, I would like to supplement.

22          The working hours guidelines was last reviewed in 2010.  
23          At that time, a new guideline was introduced. That is  
24          on the meal break. At that time, when we promulgated  
25          the guidelines in 2010, we allowed the bus companies to  
26

1 implement the new guideline E on the meal break in two  
2 years' time. That means, for full implementation of the  
3 revised guideline in 2010, that will be in 2012 already.

4 So I cannot give a definite answer right now why,  
5 after the review in 2013, there is no change to the  
6 guideline. May we have some time to check our record?  
7 Maybe it's due to the fact that the new guideline for  
8 full implementation has just been implemented in 2012,  
9 in the latter part of the year, so maybe this is one of  
10 the reasons for perhaps at that time to look at the  
11 performance of the franchised bus operator for a longer  
12 period of time.

13 MR DUNCAN: Thank you.

14 Ms Chan, you were present this morning, I think,  
15 when I asked representatives from the bureau as to why  
16 these guidelines with regard to working hours are simply  
17 guidelines, as opposed to regulations, given that the  
18 ordinance expressly stipulates that this topic can be  
19 the subject of regulation.

20 Are you able to assist the committee as to the  
21 reason why this has not been a regulation or has not  
22 even achieved the status of a direction or  
23 a requirement?

24 MS MABLE CHAN: Perhaps I can try to. Because I was present  
25 at this morning's session and the context in which this  
26

1 issue was raised was on whether or not it should be  
2 better implemented or enforced under the law or as  
3 a franchise requirement.

4 First perhaps I can express my view from  
5 an operational and monitoring point of view. As I see  
6 it, the history of the working hours guidelines is long  
7 and it is an ongoing process. As revealed from the few  
8 times that the guidelines are revised, the beauty of the  
9 requirements as set out in the guidelines is that it  
10 could be reviewed and revised in a more timely basis as  
11 compared to if it is stipulated as the ordinance or in  
12 the regulation; though I must admit that as and when  
13 necessary, we should not spare ourselves from the effort  
14 in reviewing the legislation or taking it through the  
15 Legislative Council.

16 The fact remains that, being guidelines, it can be  
17 more flexible and it can be sort of enhanced in the  
18 light of the prevailing circumstances. Franchised bus  
19 service is a very labour-intensive service. There are  
20 also highly prescriptive requirements on the service  
21 levels of franchised bus. So I think from the  
22 government perspective, we are trying to strike  
23 a balance in ensuring the delivery of bus service  
24 according to franchise requirement on the one hand and  
25 the enhancement of the working environment of bus  
26

1 captains on the other.

2 That being the case, while the working hours  
3 guidelines are guidelines as such, administrative  
4 requirement in our words, in our written submission, we  
5 also require the franchised bus operators to supply  
6 information on their compliance, and we do independent  
7 checking on their compliance, so as to ensure that the  
8 franchised bus operators will comply with those  
9 guidelines as a product following ongoing and mutual  
10 discussions with the franchised bus operators.

11 So we would see it as a contractual requirement in  
12 that sense, because it is a product of ongoing  
13 discussions between the government and also the bus  
14 operators.

15 On the other hand, I also note from the franchise  
16 document signed with the franchisees, under  
17 clause 28(1)(a), the grantee shall provide the  
18 commissioner information relating to records kept by the  
19 grantee in respect of the bus service in accordance with  
20 schedule 2 to the franchise.

21 Under that schedule 2, item (1), we have stipulated  
22 in the franchise that the grantee shall provide records  
23 and information on, inter alia, the percentage of bus  
24 drivers selected on the sample size as specified by  
25 C for T in compliance with the guidelines on  
26

1 arrangements in relation to working hours and rest time  
2 of bus drivers issued by C for T after consultation with  
3 the grantee.

4 CHAIRMAN: Before you go on any further, forgive me for  
5 interrupting -- Mr Duncan, may we see one of these  
6 franchise clause 28(1)(a) so we can follow this?

7 MR DUNCAN: Certainly. The franchise, Mr Chairman, is at  
8 THB-2 at page 137.

9 CHAIRMAN: Thank you.

10 MR DUNCAN: And I believe Ms Chan is referring to page 169.

11 CHAIRMAN: She referred first of all to clause 28,  
12 subsection (1), that's page 158, is it not? And  
13 schedule 2 is at 168.

14 Yes, Ms Chan, if that helps you with your  
15 explanation.

16 MS MABLE CHAN: Thank you, Chairman.

17 MR DUNCAN: I don't want to get into a legal debate, but  
18 that seems to be a requirement to produce records?

19 MS MABLE CHAN: Yes.

20 MR DUNCAN: As opposed to a requirement to keep to the  
21 guidelines?

22 MS MABLE CHAN: Absolutely. I'm not a legal expert on that,  
23 but I'm trying to explain how we would make use of the  
24 provision.

25 MR DUNCAN: Yes, in a practical sense.

26

1 MS MABLE CHAN: In a practical sense, I would see that the  
2 commissioner should exercise my authority to ensure that  
3 the bus operators do the checking and submit data  
4 according to the sample size and specify the  
5 commissioner according to item (1) of schedule 2 to the  
6 franchise.

7 So, in this respect, should we find that the bus  
8 operators cannot provide the information pursuant to  
9 this requirement, and should that lead us to any  
10 suspicion or cast doubt on whether the franchisees are  
11 providing proper and efficient service, we would also  
12 undertake necessary action, follow-up action, with the  
13 bus operators.

14 MR DUNCAN: So you gain flexibility on the one hand. On the  
15 other hand, it would appear that you may lose the force  
16 of a regulation providing for an offence, or action  
17 under section 12A, namely the imposition of a financial  
18 penalty.

19 MS MABLE CHAN: I would say that it does not constitute  
20 a statutory requirement as such in case of any failure  
21 of the bus operator in compliance with the guideline  
22 that leads to a strict triggering of the relevant  
23 clause, ie section 22, in regard of the imposition of  
24 the financial penalty.

25 But I would ride on the relevant item (1) in  
26

1 schedule 2 to ensure that the bus franchise operators  
2 are providing the information as required, and we would  
3 also do independent checking on the data provided, and  
4 then will take that into account in assessing whether  
5 a bus operator is providing proper and efficient  
6 service.

7 MR DUNCAN: Could we turn to the ordinance itself, which  
8 I think is in the bundle that you may have in front of  
9 you now. This is at page 104. This is the reference to  
10 the forward planning programme.

11 Do you see section 12A?

12 MS MABLE CHAN: Yes.

13 MR DUNCAN: Can I ask you this. To what extent does the  
14 department require bus operators to include detailed  
15 safety provisions in the forward planning programme?

16 MS MABLE CHAN: The forward planning programme flows from  
17 the legal backing in the law. The forward planning  
18 programme serves as a planning tool and it covers, by  
19 and large, the service aspects of the bus operators in  
20 fulfilling the requirement under the franchise.

21 I think we have provided the committee, in our  
22 bundle, a contents page of the forward planning  
23 programme. As one of the chapters in the forward  
24 planning programme, there is a chapter on bus safety.  
25 This actually arises from the past experience of the  
26

1 analysis of bus accidents involving franchised buses and  
2 our discussions with the franchised bus operators on  
3 important aspects to ensure bus safety.

4 CHAIRMAN: If you just pause there for a moment, I think  
5 an attempt is being made to put up this contents page  
6 which does have, as you say, in the index, references to  
7 bus safety, I think it's called. Perhaps we could have  
8 that on the screen.

9 Is this not something that comes from a letter sent  
10 to Citybus by the Transport Department?

11 Mr Duncan, where do we find the latest written  
12 submissions from the Transport Department?

13 MR DUNCAN: I think the document Mr Chairman is looking for  
14 is TD-4/1038. TD-4/1035, I believe.

15 CHAIRMAN: What I had in mind was what was sent to the bus  
16 operators, saying, "For your forward planning programme,  
17 please address the following matters." Is this the  
18 document?

19 MR DUNCAN: No. What I'm looking at is the document  
20 referred to by Ms Chan, which is the index document,  
21 indicating what was expected to be found in the forward  
22 planning programme document, the converse.

23 Could we go to TD-4 at page 1035. This is the  
24 contents page, is it not, that you were referring to?

25 And if you look at page 1038, there's a heading,  
26

1 "Bus safety". That's what you're referring to?

2 MS MABLE CHAN: Yes.

3 MR DUNCAN: Thank you. Now, you have not yet provided the  
4 committee with the report itself and the programme  
5 itself, you say for commercial confidential reasons.

6 Would there be any problem in your supplying that  
7 section which deals just with safety?

8 MS MABLE CHAN: We can certainly take that up and make sure  
9 that we can get the consent from the bus company on that  
10 part.

11 CHAIRMAN: Before we go ahead, Mr Duncan, let's take this  
12 step by step so that this can be followed by others who  
13 are not aware of what you are talking about.

14 Could we go to the submission where we have the  
15 passage that you just have in mind about the inability  
16 to furnish this material.

17 I'm looking at the document that was made available  
18 to me on Friday and it wasn't paginated but it's in the  
19 appendix at paragraph 22. Item 22, paragraph 34(a):

20 "All FB operators provided the TD a five-year plan.  
21 As the five-year plan contains commercially sensitive  
22 information of individual FB operators ...", and so on.

23 Do you have what I have in mind?

24 MR DUNCAN: Yes. That's actually been tabulated now. It's  
25 TD-1 at 164.

26

1 CHAIRMAN: Thank you.

2 Because this is what your question is aimed at, is  
3 it not?

4 MR DUNCAN: It is indeed.

5 If I could just remind you, Ms Chan, of the response  
6 of the department:

7 "As the five-year plan contains commercially  
8 sensitive information of individual FB operators, the FB  
9 operators agree to disclose the information to the IRC  
10 provided that prior agreement from IRC is obtained for  
11 not disclosing the information to the public."

12 All the committee will need is that portion -- for  
13 present purposes, anyway -- of the programme which is  
14 concerned with safety.

15 If I could ask you again, perhaps overnight, to try  
16 and speak to the bus operators, gain their consent to  
17 that part of the programme being provided to the  
18 committee.

19 MS MABLE CHAN: Yes. The basis of our response to the  
20 committee as highlighted on the screen now is we have  
21 sought the bus operators' view on the disclosure of  
22 their five-year plan and it's not made on the basis of  
23 just an extract of the relevant chapter. But knowing  
24 what the senior counsel has just asked me, we will  
25 certainly take that up and ask the operator again, to  
26

1 seek their consent and see whether that particular

2 chapter on bus safety can be provided to the committee.

3 CHAIRMAN: That's a matter we will take up directly with the  
4 bus companies.

5 MR DUNCAN: I think I can still ask this, though, if I may.

6 Could you look at TD-5, page 1599.

7 This is the index for the five-year forward planning  
8 programme for the New Lantao Bus company, one of the  
9 five franchisees.

10 If you turn the page to 1600, we have the contents  
11 page there. Do you see the contents page?

12 MS MABLE CHAN: Yes.

13 MR DUNCAN: There is no reference to the topic of safety  
14 there, for that particular company.

15 So my question is this, and I think you can answer  
16 this perhaps even though we are awaiting the full  
17 details. To what extent does the department require the  
18 franchisee to include in the forward planning programme  
19 details as to safety requirements?

20 MS MABLE CHAN: Actually, regarding this contents page, the  
21 bus safety is covered in part 1, "Route development  
22 programme".

23 MR DUNCAN: It's part of that, is it?

24 MS MABLE CHAN: Yes, it's part of the route development  
25 programme.

1 MR DUNCAN: So could you answer my question, perhaps a bit  
2 more directly: what details does the department require  
3 of the bus franchisees with regard to safety  
4 requirements in the context of this programme?

5 MS MABLE CHAN: Perhaps I will invite Ms Lee to give the  
6 details.

7 MS MACELLA LEE: Thank you, Chairman.

8 The preparation of the forward planning programme is  
9 a requirement under the PBSO, and in the PBSO there's  
10 a schedule setting out the content which the bus company  
11 must provide. So you can see from the law that it is  
12 emphasised on the route development programme, on the  
13 buses, purchasing and scrapping programmes, maintenance  
14 facilities, et cetera. Of course, at the last item, it  
15 mentions about other materials that C for T considers  
16 appropriate, and other matters that C for T may specify.

17 Some years ago -- just now my colleagues already  
18 said that we have analysed accident data, et cetera, and  
19 we find, actually, when we do this annual exercise, we  
20 look at the trends of the accident data and we found  
21 that it's good that we require the bus companies to  
22 provide a chapter -- not a chapter -- provide in the FPP  
23 their own analysis of traffic accidents and tell us what  
24 improvement measures that were made. It is in this  
25 context and for this purpose we asked them to include in  
26

1 the FPP, and since then it is included.

2 So now, for submission of this FPP every year, the  
3 bus companies will include an analysis of data, of their  
4 own accident statistics, and then tell us their proposed  
5 improvement measures. This is the background.

6 Of course, there are others that we added over the  
7 years. For example, because of the public aspiration  
8 for using more environmentally friendly buses, we added  
9 a chapter about environmental initiatives. So we have  
10 an environmental initiative that is outside -- I mean  
11 using the last item about "Other matters". This is the  
12 way that we add. And the commissioner has just  
13 mentioned that the bus companies also voluntarily make  
14 some performance indicators and targets. Some of them  
15 are on safety and some of them are on training.

16 This is the way that we deal with the forward  
17 planning programme. Thank you.

18 MR DUNCAN: Just before I leave this topic, it would be very  
19 helpful if you made contact with the bus companies this  
20 evening to obtain that safety information, so that we  
21 could ask you questions about it tomorrow. We don't  
22 want to wait until the bus companies come.

23 MS MACELLA LEE: Thank you. We can do that.

24 CHAIRMAN: Before you leave the topic, the matter is  
25 addressed in the some of the other five-year plan  
26

1 material that's in the bundle. That is TD-5 at  
2 page 1602. We see "Forward planning", where "Bus  
3 safety" is section 5; do you have that? We see "Bus  
4 safety" is item 5 at page 1604.

5 Then we have the five-year plan for Long Win Bus,  
6 and we have more detail here because at 1607 we see  
7 a chapter dealing with safety review.

8 There are eight items there in "Safety review" --  
9 are all of those items addressing requests that were  
10 made by the Transport Department of the bus company?

11 MS MABLE CHAN: I would try to answer this. As a statutory  
12 requirement or the franchise requirement, we do not  
13 specify specific requirement on training or on specific  
14 measures to be taken. That said, as an ongoing  
15 monitoring and discussions with franchised bus operators  
16 to assess their performance on an annual basis and also  
17 on top of the road safety quarterly review, we have  
18 asked the bus companies to include in their forward  
19 planning programme a safety chapter, to analyse their  
20 own accident data, and also to provide their improvement  
21 measures in bus operation.

22 Those improvement measures relate to vehicle safety,  
23 bus maintenance, as well as the measures taken to  
24 address drivers' behaviour, driving behaviour, and also  
25 training.

26

1 CHAIRMAN: Yes. Thank you.

2 MR DUNCAN: Moving on to the point about training. You have  
3 said I think a couple of times now that there is no  
4 specific requirement in the franchise document, nor do  
5 I think you say it anywhere else, that contains any  
6 particular requirement of the department with regard to  
7 what the actual training should be.

8 Is that a correct understanding?

9 MS MABLE CHAN: Yes.

10 MR DUNCAN: So do I take it that the department has not  
11 issued any particular directives to any of the  
12 franchisees as to how they should conduct their  
13 training?

14 MS MABLE CHAN: No, we did not issue any directive on that.

15 MR DUNCAN: So that's a matter left entirely to the bus  
16 companies?

17 MS MABLE CHAN: Yes.

18 MR DUNCAN: Does it vary then from one bus company to the  
19 next?

20 MS MABLE CHAN: Based on the information they provide in the  
21 context of bus safety and also training on bus captains  
22 in the forward planning programme, we have gathered that  
23 in terms of the arrangements for new recruits,  
24 in-service bus captains and also refresher course,  
25 remedial course, basically in terms of the contents,

26

1           they are the same.

2           But the duration of the individual training courses  
3           and modules may vary. So, in very specific terms, all  
4           the bus companies provide training for the new recruits.  
5           For the in-service bus captains, they provide training  
6           once every three years, and actually these are all which  
7           the bus operators have pledged to do so.

8           For those drivers which have been absent from the  
9           driving duties for a long period of time, they will  
10          provide refresher course or remedial courses for the  
11          drivers before they are taking up the driving duties  
12          again.

13          In terms of the refresher course, we know that,  
14          except one operator which does not provide refresher  
15          course for part-time captains, all the other bus  
16          operators provide refresher course for the part-time bus  
17          captains.

18          It is actually against this background that we think  
19          that there is merit in aligning the basic requirements  
20          in terms of the contents and modules for the training to  
21          be provided to the bus captains. While noting that it  
22          may not be realistic or reasonable to stipulate the  
23          duration or the frequency of such courses to be  
24          provided, bearing in mind that operators actually vary  
25          in terms of scale and also the bus routes operated, in  
26

1 terms of the manpower strength of the various bus  
2 operators.

3 So it is on this basis that we are developing a set  
4 of guidelines to devise a framework for the delivery of  
5 this kind of training, and we think that it is very  
6 important to have a common basis for the bus operators  
7 to perform internal monitoring and audit, to make sure  
8 that trainings are actually provided as pledged.

9 Thank you.

10 MR DUNCAN: When did you commence the development of these  
11 proposed guidelines?

12 MS MABLE CHAN: We have formulated our thinking on these  
13 proposals with the bus operators following the Tai Po  
14 accident in February, and the working group was formed  
15 in March. This is one of the proposals that we have  
16 noted in the first working group meeting held in March.

17 MR DUNCAN: So this is a matter of discussion with the bus  
18 operators at the moment?

19 MS MABLE CHAN: It is under discussion.

20 MR DUNCAN: Now, you mentioned earlier this afternoon health  
21 checks of the drivers. What is the current arrangement  
22 or directive, whatever it may be, between the department  
23 and the franchisees with regard to health checks?

24 MS MABLE CHAN: Perhaps on health checks I can invite  
25 Ms Kwan to elaborate on the details.

26

1 CHAIRMAN: Yes. Thank you.

2 MS RACHEL KWAN: Mr Chairman, before joining the service,  
3 all full-time and part-time bus drivers are required to  
4 declare their health conditions and to pass a health  
5 check, to prove that he or she is medically fit to drive  
6 buses.

7 The health check includes a chest examination,  
8 eyesight, hearing, diabetes, blood pressure, blood and  
9 urine test. And now, all the franchised bus operators  
10 currently require bus drivers aged 50 or above to  
11 undergo an annual health check which covers chest  
12 examination, eyesight, hearing, diabetes and blood  
13 pressure, blood and urine test.

14 For the bus drivers at the age of 50, 54, 57 or 60  
15 or above, they are also required to undergo  
16 an electrocardiogram as part of their health check.  
17 Moreover, for the bus drivers who have suffered stroke  
18 or cardiovascular diseases or are on medication due to  
19 diabetes or hypertension, they are also required to  
20 declare such illnesses to their employers and undergo  
21 an electrocardiogram in their annual health check.

22 This is the current arrangement.

23 MR DUNCAN: When you say it's an arrangement, is it  
24 a requirement or is this simply an understanding that  
25 you have with the bus companies?

26

1 MS RACHEL KWAN: The health check requirement is not  
2 a direction or a requirement under the bus franchise or  
3 under the PBSO. It is a requirement made known to all  
4 bus drivers.

5 MR DUNCAN: How long have these arrangements been in place?

6 MS RACHEL KWAN: The arrangements are evolving. I remember,  
7 since 2007, the health check requirement for all bus  
8 drivers aged 50 or above to undergo annual health check  
9 started from 2007.

10 MR DUNCAN: There are some observations in the submissions  
11 received by the committee that it would be beneficial  
12 for the checks on respective bus captains to include  
13 test as to their suitability in coping with the stress  
14 which is involved in the task of driving a bus.

15 Has that been brought to the attention of the  
16 department, that sort of proposal?

17 CHAIRMAN: I take it, Mr Duncan, you have in mind the  
18 submissions of KMB, where this matter was dealt with  
19 specifically?

20 MR DUNCAN: I think it is from KMB, Mr Chairman, yes.

21 CHAIRMAN: It might be useful if you were to draw our  
22 attention to it.

23 MR DUNCAN: Okay.

24 Would you turn up, please, KMB-1, page 81-1.

25 You see the reference there to "Remedial training"?

26

1           We are looking for another reference as well, but that  
2           concept --

3       CHAIRMAN:   If you are doing a word search, find the word  
4           "psychologist" because that's the passage I had in mind.

5       MR DUNCAN:   Thank you, Mr Chairman.

6       CHAIRMAN:   What I have in mind -- it's the report to the  
7           Commissioner for Transport.  It's the third of the  
8           documents that was provided in the first of the  
9           submissions, and it's paragraph 38.  That's at page 113.

10      MR DUNCAN:   Do you have that, Ms Chan?

11      MS MABLE CHAN:  Yes.

12      MR DUNCAN:   Paragraph E, referring to "Psychological  
13           support", and this is the KMB submission:

14           "A task force ... has been formed to look into  
15           enhancing the provision of emotional support for [bus  
16           captains] and frontline staff.  The task force will  
17           engage a professional consultant to provide  
18           a comprehensive review of the current practice and make  
19           recommendations in areas including but not limited to  
20           recruitment, assessment on [bus captains'] emotional  
21           intelligence and stress tolerance, training, counselling  
22           and performance management.  It is expected that the  
23           recommendations will be implemented phase by phase to  
24           address immediate concerns."

25           So is the department aware of that initiative?

26

1 MS MABLE CHAN: Thank you, senior counsel. We have not  
2 received such kind of suggestion from the KMB as such,  
3 and this is also not raised in our working group in  
4 discussing possible enhancements or alignments in the  
5 training to the offered to the bus captains.

6 But I can offer that in terms of training for new  
7 recruits and in-service bus captains, the bus companies  
8 have included stress handling and counselling as one of  
9 the modules in the courses for the new recruits and also  
10 the in-service bus captains. It is actually one of the  
11 topics that we will include -- that we intend to include  
12 in the future guidelines on the content framework for  
13 training to be offered. But that one does not address  
14 the point about emotional assessment for possible  
15 candidates applying for the job of bus captains.

16 MR DUNCAN: It could be considered, could it not, as part of  
17 any training regime which might be suggested?

18 MS MABLE CHAN: The suggestion to beef up the stress  
19 handling as part of the training modules was discussed  
20 in the working group, and this will be part of the  
21 topics that we will look into, in setting out possible  
22 guideline on the training framework.

23 But if there are any suggestions to make the  
24 emotional and stress as an assessment for new recruits,  
25 I think this will have to be carefully deliberated  
26

1        amongst all bus operators. Obviously, we note that KMB,  
2        as one of the bus operators, have raised this. We will  
3        need to flag this up and discuss with other bus  
4        operators, because this will also affect their  
5        recruitment policy, particularly the manpower supply  
6        situation in the current local market.

7        MR DUNCAN: So do I take it that this is a new concept as  
8        far as the department is concerned?

9        MS MABLE CHAN: I think so, yes.

10       MR DUNCAN: I would like to turn to the topic of part-time  
11       drivers. It's a fact, is it not, that many of the bus  
12       companies have, over the years, engaged part-time  
13       drivers, especially in view of the manpower issue. Is  
14       that correct?

15       MS MABLE CHAN: The manpower issue has long been an issue of  
16       concern in bus operation. This has particularly been so  
17       with the ever-increasing public expectations on the  
18       increase and enhancement of bus services in terms of bus  
19       routes and also frequency.

20       While we have been trying hard to discuss with the  
21       bus operators and the local district councils on ways to  
22       review the frequency and also the service of the bus  
23       routes, the fact is that over the ten years there has  
24       been an increase in percentage of the bus routes  
25       concerned. This will also imply an increasing need for  
26

1 recruiting more bus drivers to meet with the  
2 expectations of the franchise.

3 We are aware of this situation in our annual review  
4 and also in the board meetings, that especially in the  
5 annual review with the bus companies, we have encouraged  
6 them to look into various ways to increase the manpower  
7 supply. The Transport Department has, together with the  
8 Labour Department, helped the bus operators to stage  
9 recruitment exercises and campaigns in the various  
10 districts to help them recruit bus drivers, and we have  
11 also encouraged the bus companies to review their  
12 remuneration package so as to provide a more attractive  
13 and reasonable package to attract new blood into the  
14 industry.

15 MR DUNCAN: Thank you.

16 As far as the department is concerned, does the  
17 engagement of part-time drivers create any particular  
18 safety issues?

19 MS MABLE CHAN: In the past review, there is no obvious  
20 phenomenon or trend revealing that part-time bus  
21 captains is a cause for concern in contributing to  
22 franchised bus accidents.

23 MR DUNCAN: What checks are undertaken by the bus companies,  
24 as far as you are aware, as to what a part-time bus  
25 driver might be doing before he commences his work or  
26

1 after he finishes his work?

2 MS MABLE CHAN: In terms of training, the bus companies are  
3 expected to provide training for the in-service bus  
4 captains, be they full-time or part-time.

5 MR DUNCAN: Sorry to interrupt you. I'm not concerned about  
6 training so much. I'm concerned about whether they are  
7 fresh enough to undertake the duties of a bus captain,  
8 if they are working on a part-time basis, and there is  
9 no knowledge as to what they may be doing for other  
10 parts of the same day. Is that a matter that has been  
11 considered by the department?

12 MS MABLE CHAN: From the Transport Department's perspective,  
13 we do not have the information as to the bus companies  
14 in monitoring the part-time captains in their driving --  
15 in delivering their driving duty. The part-time bus  
16 captains are recruited by the bus companies as a relief,  
17 to help the bus companies meet the bus services,  
18 particularly in the hours where there are peak service  
19 demands.

20 So, over the years, we know that, at the present  
21 moment, the percentage of part-time bus captains ranges  
22 from 3 per cent in some companies to 31 per cent in one  
23 company, and that latter company actually has a lot of  
24 routes being operated on holidays, and that they need,  
25 in addition to their basic team members of the full-time  
26

1 bus captains, it is an established practice for them to  
2 recruit part-time drivers to meet the holiday peak  
3 demands.

4 MR DUNCAN: Has the department conducted any analysis as to  
5 the relationship between part-time drivers and  
6 accidents, whether there's more accidents as a result of  
7 driving by part-time drivers as opposed to full-time  
8 drivers? Has that analysis been carried out?

9 MS MABLE CHAN: I do not have the information at hand, but  
10 perhaps we can do some research on that and then we will  
11 supply the committee with information.

12 MR DUNCAN: Thank you.

13 CHAIRMAN: Mr Duncan, hasn't one of the bus companies given  
14 us the information as far as they are concerned? That  
15 there's no incidence of a greater rate of accidents of  
16 part-time drivers?

17 MR DUNCAN: I'm not up to the play with that. It might have  
18 come in very late.

19 CHAIRMAN: If you are about to leave this topic of part-time  
20 bus drivers.

21 MR DUNCAN: Yes, I am.

22 CHAIRMAN: Perhaps I can ask you this. The question I think  
23 Mr Duncan was asking you was this. By its nature, if  
24 you are part-time in one job, bus driver, perhaps you  
25 are part-time in another job, taxi driver, truck driver,

26

1 coach driver. Does the Transport Department require the  
2 bus companies to first of all gather any information  
3 about what other jobs the part-time bus driver might  
4 have?

5 MS MABLE CHAN: At the present moment, we do not have such  
6 requirement on the bus operators to gather such  
7 information and support to us.

8 CHAIRMAN: So I take it that it follows, then, that you have  
9 no information as to what these part-time drivers might  
10 be doing in the rest of their day?

11 MS MABLE CHAN: No, Chairman.

12 CHAIRMAN: Thank you.

13 MR DUNCAN: Could I ask you to turn up, please, the  
14 CTB-1 file, page 26, please. This is part of the  
15 submission received by one of the bus franchisees,  
16 Citybus. At the bottom of page 26, there's reference to  
17 "New technological aids". Do you see that?

18 MS MABLE CHAN: Yes.

19 MR DUNCAN: If I quote from page 26, at the bottom:

20 "We plan to include the following features on new  
21 buses for delivery from June 2019 onward".

22 And there's a series of headings, "Electronic  
23 stability control", "Dynamic stability control,  
24 "Roll-over prevention", "Active speed limiting system".

25 I wonder if I could ask you this. Does the  
26

1 department itself conduct any research, locally or  
2 overseas or with bus companies, whatever, with regard to  
3 what new technology or what new safety aids may be  
4 coming into the system and which could be considered for  
5 improving safety requirements? Does the department  
6 itself conduct that sort of research?

7 MS MABLE CHAN: Perhaps I can invite Mr Chan, who oversees  
8 the vehicle licensing and hardware, to advise on that.

9 CHAIRMAN: Yes.

10 MR YK CHAN: Thank you, Chairman.

11 The Transport Department is always mindful of having  
12 new technology applied in buses, particularly those that  
13 can make the operation of buses safer.

14 Of course, there are ways of doing it. You can do  
15 it in-house or you can do it in collaboration with bus  
16 companies. To us, I think we will always take the path  
17 that -- I think it's more useful actually to work with  
18 the bus companies, because they actually do the  
19 operations and actually have different types of buses to  
20 actually test out all this equipment, which is whether  
21 they are suitable for the type of buses they operate.

22 So, for us, your question is we always look out for  
23 improvements, and if there's any particular equipment  
24 that could be useful, then we will bring this up to  
25 discuss with the bus companies, to see whether there is  
26

1           any way we can ask the bus company to try them out and  
2           discuss with the vehicle manufacturers.

3       MR DUNCAN: Thank you. When you say you look out, where do  
4           you look?

5       MR YK CHAN: There are always developments search on the web  
6           and our engineers actually do it quite often, doing the  
7           web search, and also we have magazines. We do subscribe  
8           to magazines of equipment and we try to read them and  
9           see whether there are things that are worthwhile taking  
10          or trying out with bus companies.

11       MR DUNCAN: Do you have any contact with your counterparts  
12          overseas, regulators in other countries, in this  
13          context?

14       MR YK CHAN: Not regularly, but from time to time, if we  
15          want to do some research on equipment, we try to contact  
16          our counterparts in different countries, particularly in  
17          Singapore, UK, Japan, all these kind of Western  
18          countries. But of course we don't have sort of regular  
19          contact with them.

20       MR DUNCAN: The ASLS system referred to here by Citybus, was  
21          that something which was identified by them or was it  
22          identified by the department?

23       MR YK CHAN: I think this is something that was identified  
24          by them, but from the description of it, I think this is  
25          something like the system we talk about, the ESC, the

26

1 electronic stability control.

2 CHAIRMAN: I think ASLS is an active speed limiter, as  
3 opposed to a passive one.

4 MR YK CHAN: Okay. So this is another initiative that we  
5 are also discussing with bus companies concurrently.  
6 This is the features that on top of the current speed  
7 limiters which cap the speed at 70 kph at the moment,  
8 but we do need more functions when it's going downhill,  
9 to cap the bus to run on 70 kph.

10 What I think Citybus mentioned, talking about, is  
11 something like similar equipment but with a different  
12 name.

13 MR DUNCAN: Currently, the speed limiter comes in at  
14 70 kilometres per hour, I think. Is there any provision  
15 to limit the speed of a bus --

16 MR YK CHAN: Yes.

17 MR DUNCAN: -- going, say, 60 kilometres per hour in  
18 a 50 kilometre zone?

19 MR YK CHAN: A bus going 60 kph in a 50 kph zone is  
20 speeding.

21 MR DUNCAN: Yes. Is there any way of limiting the bus in  
22 that respect? Is there any technology available?

23 MR YK CHAN: This is something that people are talking  
24 about, if you can have something automatic GPS system,  
25 coupled with the operation of a limiter like this, and  
26

1       also the base map, that have charted out the whole area,  
2       and with the speed limit imposed on, yes, theoretically,  
3       you can do that.

4             But we have also touched base and discussed with bus  
5       operators on this, and the consensus is, yes,  
6       theoretically it can be done, but in the Hong Kong  
7       environment, the application of the GPS signal may have  
8       problems in areas, because the signals may be blocked  
9       out by skyscrapers.

10            So this is something that we are still asking the  
11       bus companies to explore, and hopefully one day,  
12       hopefully not too long in the distant future, you can  
13       adopt it as a safety measure, a safety device, which is  
14       reliable and functional.

15            At this point in time, probably they are still  
16       experimenting or exploring it.

17       CHAIRMAN: Is this system called geo-fencing?

18       MR YK CHAN: Yes.

19       MS MABLE CHAN: Chairman, can I add that --

20       CHAIRMAN: Yes.

21       MS MABLE CHAN: -- actually, these items as flagged up by  
22       Citybus are part of those items that we have included in  
23       the discussing under the Working Group on Enhancement of  
24       Bus Safety.

25       CHAIRMAN: Yes.

1 MS MABLE CHAN: While we note that there may be proposals  
2 from the bus companies on new devices and technology  
3 advancements, we would discuss with them very thoroughly  
4 on the technical feasibility, on the safety application,  
5 and also on how it could be put in a context of local  
6 franchised bus operation.

7 So we have actually covered this in our Working  
8 Group on Bus Safety Enhancement and will continue to  
9 look into that.

10 CHAIRMAN: May I come back to a question Mr Duncan asked  
11 earlier and I don't think he got an answer. Who has  
12 identified and suggested these various technical devices  
13 to be discussed in the working group? Was that done by  
14 the bus companies or by the Transport Department, or by  
15 both?

16 MS MABLE CHAN: Chairman, we have, in the first meeting,  
17 flagged up a number of possible devices and technology  
18 for discussion with the bus operators. The ideas could  
19 be suggested by various parties over the years, but it  
20 is the Transport Department to put out a paper to  
21 discuss with the bus operators on possible technology or  
22 devices to be discussed under that context.

23 CHAIRMAN: Who invited the bus manufacturers to be parties  
24 to the working group?

25 MS MABLE CHAN: The Transport Department.

26

1 CHAIRMAN: Thank you.

2 MR DUNCAN: Sorry, did you wish to add to that?

3 MR YK CHAN: That's all.

4 MR DUNCAN: I was going to ask you this. The geo-fencing to  
5 which the chairman referred, in what jurisdictions is  
6 that functioning, do you know?

7 MR YK CHAN: You mean currently in the world?

8 MR DUNCAN: Yes.

9 MR YK CHAN: We don't have this information in hand.  
10 Actually, I think this technology -- by concept, it may  
11 not be new, but in actual applications or actual formal  
12 application in other parts of the world, we don't have  
13 any information on that.

14 But from my information, I gather from the transport  
15 operators in Hong Kong, they are actually running this  
16 sort of management system, which you can check -- even  
17 now, they can check the buses on the computer utilising  
18 the GPS system, which partly nowadays people can find  
19 out where they are and has estimated arrival time from  
20 the application today.

21 One thing they do inside, internally, is to sort of  
22 mark out certain roads that they consider sensitive, or  
23 say they should be operating more safely, and they  
24 actually can find out whether those buses are operating  
25 above the speed limit. That is something very similar

26

1 to geo-fencing, but I think at the moment, for them,  
2 it's not entirely accurate. But this is something that  
3 they might think about and are testing out, whether it  
4 will be applicable in the future.

5 To answer your question, I don't know anybody  
6 actually formally adopting -- using the geo-fencing  
7 successfully, but of course we are now all working  
8 towards this goal.

9 MR DUNCAN: What you've just described would tell you what  
10 the bus is doing, but it wouldn't necessarily stop the  
11 problem, if there's a problem. What I'm trying to  
12 explore with you is whether the geo-fencing would  
13 actually provide a measure equivalent to the speed  
14 limiter over 70, if the bus was going more than 50 in  
15 a 50 zone.

16 MS MABLE CHAN: As Mr Chan just supplemented, it appears  
17 that the application of this kind of technology is more  
18 for fleet management and for tracking of buses or other  
19 vehicles over a territory. As to whether this  
20 technology can be further applied as to limit the speed  
21 or retard the speed, and prohibit the bus driver in  
22 speeding beyond 70 or even 50 in some cases, we don't  
23 have the information on successful experience overseas.

24 We do recollect that some individual bus operators  
25 have cautioned that with the availability of technology  
26

1           and driver-assisted devices, we should bear in mind that  
2           we should not go to the point that the bus drivers rely  
3           fully on such kind of devices, to the extent that they  
4           are being so accustomed to the device and they do not  
5           exert extra care or personal judgment in certain  
6           critical situations. This is one thing the bus  
7           operators have flagged up in examining the technical  
8           feasibility of any technology and devices.

9   MR DUNCAN: Yes, I understand, but just for the avoidance of  
10           any doubt, is the possibility of a speed limit within  
11           the geo-fencing system on the table for discussion?

12   MS MABLE CHAN: It is on the table for discussion.

13   CHAIRMAN: Mr Duncan, I see we have reached 4.30. If that  
14           a convenient moment or not an inconvenient moment?

15   MR DUNCAN: Yes, it is.

16   CHAIRMAN: Ms Chan and the rest of your team, we are going  
17           to adjourn our proceedings for the day now, and as you  
18           were invited earlier to make yourself available for  
19           tomorrow and you have kindly done so, may I invite all  
20           of you to come back at 10 o'clock tomorrow to continue  
21           with your testimony.

22   MS MABLE CHAN: Thank you.

23   CHAIRMAN: Thank you. 10 o'clock tomorrow.

24   (4.32 pm)

25   (The hearing adjourned until 10.00 am the following day)

香港專營巴士服務獨立檢討委員會

日期：2018 年 5 月 7 日

時間：上午 10 時 07 分

主席：Hon Mr Justice Michael Lunn（倫明高）

委員：歐陽伯權先生

：羅康錦教授

代表大律師：Peter N. Duncan（鄧樂勤）資深大律師，  
黃佩琪大律師及陳政龍大律師，由高露雲律師行委聘，  
代表香港專營巴士服務獨立檢討委員會

出席人士：黎以德先生，運輸及房屋局常任秘書長（運輸）

蔡傑銘先生，運輸及房屋局副秘書長（運輸）2

葉倩菁女士，運輸及房屋局首席助理秘書長（運輸）1

陳美寶女士，運輸署署長

李萃珍女士，副署長／公共運輸事務及管理

陳英傑先生，助理署長／行政及牌照

關翠蘭女士，助理署長／特別職務

邱國鼎先生，總工程師／道路安全及標準研究

李美鳳女士，總運輸主任／特別職務

以下內容乃數碼錄音謄本

主席：（經傳譯員）香港專營巴士服務獨立檢討委員會係由行政長官成立嘅，當時係 2018 年 3 月 13 號，佢嘅職能範圍而家已經係打咗上畫面，就係咁樣樣嘅。我希望大家都明白呢個係重要嘅，所以我就係將佢讀出，讓大家明白。從安全角度而言，鑑於香港專營巴士涉及 2018 年 2 月 10 號發生嘅致命意外以及其他近期發生嘅嚴重事故：

（一）審視巴士專營權喺現行法律專營權同埋其他合約規定下嘅運作同埋管

1 理模式；

2 (二) 審視現行對專營巴士嘅監管及監察制度；以及

3 (三) 就上述事宜向行政長官提出與安全相關嘅建議，以維持香港嘅專營巴  
4 士服務安全可靠。

5 我哋係可以邀請相關人士同埋公眾人士就上述嘅事宜提交意見書，亦都會盡  
6 力就係希望盡量可以喺九個月之內提交我哋嘅報告。關於有關 2018 年 2 月 10 號  
7 致命意外呢件事嘅成因同埋所涉及人事嘅法律責任呢啲事宜會由警方進行調  
8 查，佢哋係唔屬於委員會嘅職權範圍。所以我哋委員會嘅責任就係要獲取一啲資  
9 訊，首先就係關於巴士專營權佢哋運作同埋管理；第二，亦都要睇下專營巴士嘅  
10 監管同埋監察制度。最重要嘅就係我哋最終個目標，委員會最終嘅目標就係向行  
11 政長官提出建議，而係同安全相關嘅，希望係維持香港嘅專營巴士服務安全可  
12 靠。委員會希望一直都會聚焦，係達致呢一個目標。

13 重要嘅亦都係下面嘅一項事宜，有關呢一個意外嘅成因同埋係相關人士佢哋  
14 法律責任，即係我係指 2018 年 2 月 10 號大埔道呢一宗意外，呢啲事宜就唔屬於  
15 我哋專責委員會嘅職權範圍裏面嘅。當然，呢個另行係由警方進行調查嘅。喺  
16 2018 年 3 月 28 號，我哋開始我哋嘅工作，喺嗰一日我哋就係發出咗一項邀請，  
17 係向公眾人士邀請嘅，係相關嘅團體以及大埔交通意外死難者嘅家屬，以及係近  
18 期其他嚴重事件嘅相關人士。我哋邀請佢哋就係向我哋提交意見書，我哋今日係  
19 見到有一啲傷者同埋死難者佢哋嘅家屬，佢哋今日係到場嘅，佢哋係喺大埔道嘅  
20 交通意外裏面受傷或者死亡。

21 喺 3 月 28 號，我哋發出函件係畀嗰啲指名嘅團體，要求佢哋或者係邀請佢  
22 哋就係向我哋委員會提交意見書，呢個係關乎我哋嘅職權範圍裏面嘅事宜。我哋  
23 亦都係曾經同佢哋有函件嘅來往，咁就係我哋嘅附件嗰度，喺我哋函件嘅附件嗰  
24 度列出啲問題嘅。喺嗰啲指名團體裏面，我哋希望佢哋就係有一啲回應，其中包  
25 括就係運房局、運輸署、五間專營公司同埋係不少於十六個公會，佢哋都係專營  
26 巴士公司嘅公會、立法會交通事務委員會，以及道路交通安全委員會以及其他嘅  
27 團體。之後，我哋係寫信畀警務處處長，要求警方嗰方面提交書面意見書，同埋  
28 同我哋講一講就係喺我哋函件裏面，附件裏面所列出嘅問題，請佢哋回應。

29 喺 4 月份，我哋得到好多意見書，書面嘅意見書，係嚟自運房局同埋運輸署  
30 嘅，同埋係五間專營公司，以及係代表各個公會佢哋提交上嚟嘅意見書，都係非  
31 常有用嘅資料。喺 4 月 27 號，我哋檢討委員會係請運房局以及運輸署係作進一  
32 步嘅書面陳述嚟到回應我哋係鑑別出嘅某一啲事項或者問題。喺 5 月 3 號，我哋  
33 委員會係邀請運輸及房屋局以及運輸署就係話畀我哋聽，係有邊一位做佢哋嘅代  
34 表，喺今日同聽日嘅聽證會嗰度作呢個口述證供。我哋今日好高興係有運輸及房  
35 屋局常任秘書長（運輸）黎以德先生同埋佢兩位同事蔡傑銘先生同埋葉倩菁女  
36 士，佢哋都係代表運輸及房屋局嘅。稍後我哋亦都會係介紹同埋歡迎運輸署嘅代  
37 表，佢哋總共係有六位代表出席協助委員會。我哋委員會亦都感謝局同埋署同埋

1 其他團體就係上嚟畀口述證供我哋，感謝佢哋今日上嚟協助我哋嘅工作。

2 喺 5 月 4 號，我哋委員會係請所有五間專營權公司作進一步嘅陳述，嚟到回  
3 應我哋提出嘅一啲事項同埋問題。喺同一日，我哋接到運房局同埋運輸署畀我哋  
4 進一步嘅陳述，我哋而家就等緊警務處處長嘅書面陳述，我哋明白相關各位係畀  
5 佢哋回應嘅時間係好短嘅。當然，佢哋亦都受到好大嘅壓力，就係要提供我哋所  
6 要求嘅資訊，呢點我哋係明白嘅。喺今年嘅 5 月 4 號、5 月 5 號，檢討委員會我  
7 哋就係將文件編碼同埋將佢上載咗去我哋嘅網站，呢啲都係各方交畀我哋嘅陳述  
8 書，呢啲都係讓大家可以如果有需要嘅話，去取覽嘅。

9 最後，當我哋開始進行呢一個聽證會之前，我哋有一點好重要嘅，就係要理  
10 解成立呢一個委員會個背後嘅慘劇。呢個慘劇當中，就係喺大埔道嘅巴士意外，  
11 2018 年 2 月 10 號，導致到十九人死亡。我哋亦都明白死者家屬嘅哀痛，仲有喺  
12 近來一啲專營巴士嘅意外當中嘅死難者嘅家屬，希望大家而家起立去默哀。唔  
13 該。

14 喺一開始，我首先會邀請鄧樂勤資深大律師，佢就係協助呢個委員會嘅代表  
15 大律師，請佢開場發言。

16 MR DUNCAN：（經傳譯員）主席，唔該晒。蔡先生、黎先生、葉女士，多謝你哋今  
17 朝嚟到聽證會，亦都好多謝你提供咗書面嘅陳詞，而家請你去到個檯前面就座。  
18 剛才主席先生已經提到，曾經係發信件邀請運房局今日就作一個嘅口頭取證，除  
19 咗之前已經向檢討委員會提交過書面陳詞之外，今朝早亦都係有律師代表，通常  
20 如果有律師代表就會係引導你點樣做一個口頭證供嘅，希望亦都畀呢個機會就睇  
21 下你會唔會想做一個口頭嘅陳詞先。

22 黎以德先生：（經傳譯員）可以。主席、委員，早晨。多謝你邀請運房局嚟到呢一個  
23 聽證會，亦都有機會講一個開場白。我首先想代表運房局局長去講以下嘅說話，  
24 局長一向都希望係親身能夠嚟到呢一個獨立檢討委員會，但係喺訂定呢個聽證會  
25 時間表之前，其實局長已經係承諾咗喺立法會出席一個會議，其實呢一刻局長係  
26 出席緊一地兩檢個嘅法案委員會，即係呢一個委員會就係關於喺西九龍高鐵總  
27 站一地兩檢嘅安排，所以首先要同委員會道歉，佢有辦法今日出席呢個聽證會。

28 主席，香港嘅公共交通系統係有兩個特色，比起全球各地有呢兩個特色，咁  
29 亦都可以作為一個背景資料畀委員會參考。

30 第一個特色，香港嘅公共交通系統係有好高嘅載客量嘅，去滿足乘客嘅要  
31 求。我哋基本嘅公共交通政策就係可以咁講嘅，公共交通係作為交通嘅主要工  
32 具，我哋係以鐵路為骨幹，亦都容許我用中文去再強調呢一個嘅政策，因為喺本  
33 地，公眾都係好明白，「公交為主，鐵路為骨幹」。喺每日，乘客搭嘅交通工具  
34 超過百分之九十，即係話 1,200 萬乘客人次都係用公共交通工具嘅。據我哋所  
35 知，全球嚟講係最高嘅載客率，有百分之三十九係重型鐵路，百分之三十一係專  
36 營巴士，百分之十四係公共小巴士，百分之七的士，百分之四輕鐵，而其他嘅交  
37 通模式就佔其餘嘅百分之五。用另外一個角度睇，日常嚟講，專營巴士每日載客

1 量係 400 萬嘅。

2 第二個特色就係同其他國家唔同嘅，喺香港嘅公共交通模式，包括專營巴  
3 士，係由私營嘅公司營運，係根據審慎嘅商業理財原則，一般嚟講，係有政府  
4 直接資助。呢個亦都反映政府整體嚟講，當年呢一個諗法都係用私營嘅方式營  
5 運公共交通，就可以確保有競爭性同埋有效率。其他嘅公共交通營運者都唔係  
6 一般嘅經營者嚟嘅，佢哋都係要受到政府嘅規管、監察同埋監管嘅，譬如話喺  
7 車費方面、服務水平、班次同埋係要確保安全。

8 喺呢方面，政府有兩個角色，作為決策局，政府係制訂政策，亦都喺法例入  
9 面反映，譬如話仲有係專營權同埋其他合約嘅協議。喺呢個過程當中，政府有  
10 時要平衡各方利益嘅，譬如話專營公司嘅利益、其他交通工具嘅營運者、公  
11 眾、政客等等。立法會亦都有一個重要角色嘅，尤其係如果要引入法例或者修  
12 改法例，需要更多嘅財政資源等等。

13 政府另外一個角色就係一個規管角色，去確保專營巴士公司嘅營運者係可以  
14 符合到專營權入面嘅內容同埋係合約嘅內容。而有關呢個規管架構喺個政策上  
15 都係與時並進，有時都係因為公眾嘅期望係唔同㗎，又或者係科技嘅發展，又  
16 或者係營運者佢個營運模式改變，所以政策亦都可能係因為某啲事件而有改變  
17 嘅。

18 但係多年嚟，我哋一直致力都係強調呢個大原則，就係專營巴士公司嘅營運  
19 者必須要提供適當而有效率嘅巴士服務，呢一個要求，即係要提供適當而有效  
20 率嘅巴士服務，呢個係喺 1975 年訂立嘅《公共巴士服務條例》入面指出嘅。當  
21 考慮到底呢一個服務係唔係適當嘅時候，安全就係喺我哋運輸政策入面至為重  
22 要，呢一樣嘢亦都係各個公眾文件嗰度可以見到嘅。譬如喺 2016 年嘅報告，喺  
23 個年報入面就係話政策嘅目標就要提供安全、有效率、可靠同埋環保嘅運輸工  
24 具。而喺運房局嘅運輸嗰方面嘅觀察人員報告，即係今年 2018 及 19 年財政年度  
25 入面，亦都係話其中一個運輸科喺陸上運輸嗰方面嘅目標就係要推廣道路安  
26 全，而運房局個政策其中一點亦都係推廣安全嘅，我意思即係話係乘客嘅安  
27 全。

28 另外，道路安全議會係喺 1973 年成立，亦都係推廣喺香港嘅道路安全，我  
29 哋有唔同嘅推廣活動，咁多年嚟都係由道路安全議會提出嘅。譬如道路安全議會  
30 都係支持運輸署一啲嘅活動，譬如係「至 fit 安全駕駛運動」，呢一個運動係每  
31 年都會舉行嘅，目的就係提高商業司機安全駕駛嘅標準同埋佢哋嘅健康，亦都包  
32 括專營巴士嘅司機。有好多節目，包括電話節目、健康檢查，同埋係有啲意見界  
33 商業司機，亦都都有一啲嘅大使。

34 有關嘅安全標準可以大概分為向外型、向內型同埋呢個過程嘅安全嘅，可  
35 以舉幾個例子：意外率，譬如話以行車公里計算嘅涉及意外率；顧客嘅滿意率，  
36 譬如話係收到幾多乘客嘅投訴，同埋係調查咗幾多位乘客；有冇一啲新嘅巴士嘅  
37 型號，同埋一啲突擊檢查，有啲必須要安裝嘅巴士嘅儀器，譬如係話限速器同埋

1 個黑盒；車長牌照方面有冇符合批准，同埋係車長嘅工作同埋休息時間。呢啲嘅  
2 標準亦都一樣與時並進，因為隨住時日改變，公眾嘅期望亦都可能唔同。

3 我亦都可以舉個例子，有關於車長工作、休息同埋用膳時間指引，就首先  
4 喺 1998 年引入，然後經過幾次修訂，最近一次修訂就係今年年頭，2018 年嘅時  
5 候。仲有兩三個例子，譬如安裝限速器同埋黑盒，呢個係因為喺 2003 年一次致  
6 命嘅意外之後要求嘅。另外，就係喺落客嘅車門嗰度，喺 2016 年嘅意外之後，  
7 就裝咗一個橫向嘅護欄。另外，巴士亦都要符合法定嘅排放標準。

8 至於整體香港嘅道路安全方面，牽涉專營巴士嘅意外率，過去五年其實個  
9 數字都係穩定嘅，平均大概每年 2,200 宗，呢個係相比起香港整體嘅交通意外數  
10 字，平均就係一萬六千多宗。專營巴士涉及意外嘅比率其實係輕微下降嘅，由  
11 2,092 宗，呢個係 2013 年嘅時候，咁到 2017 年，個數字係 2,187 宗，但係同時間  
12 專營巴士嘅數目亦都上升咗百分之三點三，每百萬行車公里嘅意外涉及率對於專  
13 營巴士嚟講，過去幾年亦都係維持穩定。

14 主席，或者我都要提到，專營巴士係以專營嘅方式去營運一專營權。呢一  
15 個比起政府直接提供嘅服務係唔同嘅，亦都同純粹商業運作唔同嘅，專營權就係  
16 由政府批與一個公司，而呢個公司就必須要符合喺法例入面提出嘅所有要求，專  
17 營權條約入面嘅要求等等。規管當局就會喺一個較廣、較高嘅層面去監管公司嘅  
18 運作，有制衡嘅機制，可以話整體嚟講，係一個質管控制去確保專營嘅巴士公司  
19 佢哋係能夠提供有關嘅服務。其中一個例子就係每日對於行走中嘅巴士，我哋有  
20 突擊嘅檢查，同時每日嘅表現方面，主要嘅責任就係由專營巴士公司去提供服務  
21 同埋達至要求。一般嚟講，專營公司係應該有呢個成熟程度，有呢一個資源同埋  
22 有呢個能力去提供服務，而唔需要每一個細節每日都需要由政府去看管。

23 主席，最後想提嘅一點係咁樣樣嘅，我哋係盡一切嘅努力，恒久咁樣去  
24 做，政府係致力改善專營巴士嘅安全。我哋亦都完全明白總係有足以改善嘅地  
25 方，我哋不斷去尋求方法嚟到將安排嘅水平將佢再提升，任何嘅建議或者意見嚟  
26 自各方嘅人士，其實我哋都係衷心咁樣去歡迎嘅。主席先生，我作嘅開場白就係  
27 到此為止，我本人同埋我兩位同事都樂意回答大家嘅問題。

28 主席：（經傳譯員）唔該晒你，黎先生。讓我代表委員會，我哋知道局長係需要去立  
29 法會嘅，知道佢係需要出席，不過鑑於就係咁趕急，所以我哋委員會覺得都應該  
30 係縱使佢無法出席，就係都要開始我哋嘅工作，不過亦都感謝佢係作出致歉。  
31 係，鄧大律師。

32 MR DUNCAN：（經傳譯員）黎先生，多謝你嘅發言。有幾樣嘢我就係想同局方探討  
33 一下嘅。或者我未開始之前，或者咁，我就係表明一點，你喺書面陳述書嗰度  
34 係提過嘅。你話其實局係一方，以及署係另一方，兩者就係個責任上面係有一個  
35 區別。你哋有咁講過嘅，就話局方負責制訂政策，同埋就係建議一啲提議嘅。至  
36 於運輸署嗰個責任就係去執行呢一啲政策，落實呢啲政策，同埋就係去執法嘅。  
37 我明白兩者係有個分別嘅，因此，今朝我向你提出嘅問題，我盡量去就係集中喺

1 你哋個角色嘅。當然，我知道今日稍後亦都會有運輸署嘅代表上嚟，我哋亦都  
2 會向佢哋提出相關嘅問題。

3 其實咁，不如我先講一講我哋嘅職權範圍，其實主席剛才已經係提過嘅。  
4 或者我就特別係想請你睇番第二項，職權範圍裏面嘅第二點，我相信你喺呢度  
5 會睇到嘅，我好似都喺度重覆緊剛才主席所講嘅。不過，我要指出就係話職權  
6 範圍係咁嘅，就係審視現行對專營巴士嘅監管及監察制度，所以我想同你探討  
7 嘅第一個事項就係咁樣嘅，我就係想知道目前個監管制度喺幾大程度上係  
8 能夠處理到呢個安全嘅問題嘅呢？而且從你嘅書面陳述個度，我知道我哋嘅監  
9 管制度就包括係有關嘅條例，今朝你都提過嘅，就係《公共巴士服務條例》。  
10 另外就係有關嘅規則，而呢啲規則都係喺個條例底下就係制訂嘅。仲有第  
11 三，就係個專營權嘅文件，呢個就係發畀專營權公司嘅，呢個都係根據條例  
12 之下係發出嘅。

13 剛剛就係有人提醒我，我頭先講錯咗，唔係 430 章，係 230 章嘅。或者  
14 咁，等我係請你去睇一睇個條例，我都會好快嘅，因為你應該都好熟悉個條  
15 條例。不如咁，我哋就係搵出個重要嘅條文，有關乎我哋呢個委員會嘅職責  
16 範圍，職權範圍嘅。我就同你睇睇個條文，然後就再幾項事宜同你係探討一  
17 下，我而家先將有關嘅條文打咗出嚟，唔知你會唔會係想睇番有關嘅文本呢？  
18 咁就係喺運房局嘅 THB-2 個個文件夾嘅 104 頁個度。

19 黎以德先生：（經傳譯員）係，得。

20 MR DUNCAN：（經傳譯員）首先，第一條條文想你睇嘅，就係條例嘅第 9 條，呢個  
21 就係讓行政長官係有權去委任不多於兩人為專營公司嘅額外董事，即係呢個係喺  
22 個專營權底下嘅安排嚟嘅。

23 係，睇咗第 9 條之後，亦都想你揭去第 12 條，個度就係有一條咁嘅條文，  
24 呢度就正如黎先生剛才講過，就係話專營公司係需要提供一个適當而有效率嘅  
25 公共巴士服務。12(2)個度亦都係提及一點事實，就係話專營公司除非佢係按照  
26 佢嘅專營權，本條例如任何根據其專營權或者根據本條例所作出嘅指示、要求  
27 或者規定，以及任何計劃，或者係根據 16A 條作出嘅批准，以維持同埋經營，  
28 否則不可以被視為維持適當而有效率嘅公共巴士服務。

29 仲有 12A 呢條就講及遠期嘅計劃，呢度 12A 下面嘅第(1)款就咁有咁嘅要  
30 求，就話專營公司喺每一年就係需要已備佢嘅經營計劃，係涉及之後個五年嘅  
31 經營計劃，咁涉及咩嘢事宜呢？其實就係要睇番個附表個度就會講。我等一  
32 陣就會同你睇呢個附表，即係你睇番落去第(4)款個度。第(4)款個度就咁講嘅，  
33 如果有關嘅專營公司同埋運輸署署長係無法就已備計劃裏面某項事宜達成協議  
34 嘅話，咁就係需要由運房局局長去處理同埋解決。

35 講到個個附件，附件就係喺條例嘅後面嘅，咁大家可以睇番第 126 頁嘅，  
36 如果係我哋嘅文件夾。個度就係講及究竟計劃裏面應該有啲咩嘢內容，好詳細  
37 嘅，有啲細節嘅，由(a)至到(h)咁多項嘅。照我所知，其實喺個計劃裏面，就

1 有任何一樣係提及安全嘅事宜。不過，(h)個項似乎就係包羅萬有嘅，嗰度就係  
2 話其他事宜，不論該等事宜是否(a)至(g)段所指明者。呢個就係話要應署長嘅要  
3 求包括落去嘅。

4 好，我哋講番呢個條例，下一條條文，而我認為係相關嘅就係第 18 條，  
5 112 頁，嗰度就係要求專營公司備存妥當嘅紀錄，咁有各項事宜嘅。(e)嗰度就係  
6 涉及意外嘅。

7 跟住請睇下一條條文，就係第 22 條，114 頁。嗰度就係話行政長官會同行  
8 政會議就可以喺某一啲情況底下要求專營公司係繳付經濟罰則。呢一個就係喺  
9 第(2)款嗰度講咗嘅，就係話若果專營公司有遵從其專營權或本條例，或沒有遵  
10 從根據其專營權或本條例作出嘅指示或規定，或者有遵從任何計劃，或者任何  
11 根據 16A 給予嘅批准。當然，我哋剛才就係提及 12A 跟住所睇嘅附表。

12 另外，第 24 條，呢個就係睇 115 頁。嗰度就係有啲好犀利嘅權力，就係話  
13 如果專營公司佢唔能夠係維持一個適當而有效率嘅公共巴士服務嘅話，究竟政  
14 府當局係有啲咩嘢權力呢？呢度就係話喺極端嘅情況之下，係可以撤銷佢個  
15 專營權嘅。

16 跟住第 35 條，請你去睇睇第 35 條，124 頁。呢度就係話運輸及房屋局局長  
17 係可以訂立規條，就一系列事宜有權訂立規例嘅，嗰度係列咗出嚟嘅。我就係  
18 想請你睇睇其中三點嘅，呢個係關乎我哋呢個委員會嘅職權範圍。首先就係：

19 (c) 個項，規管該等司機、售票員或獲授權的人在如此受僱時的行為。

20 (d) 一般地關於某專營公司所使用嘅巴士上嘅乘客或擬成為乘客的人的行為。  
21 為。

22 然後就係跟住個版，喺：

23 (j) 個點，就駕駛某專營公司所使用嘅巴士嘅司機而言，規管在本規例所  
24 指明嘅任何期間：

25 (i) 該公司可准許駕駛該類巴士嘅最多時數；及

26 (ii) 該專營公司給予該等司機休息和用茶點的相隔時間。

27 跟住就係第 36 條，呢個就話專營公司，即係話巴士嘅經營者，佢係獲得授  
28 權去訂立一啲附例，而(c)個項就係有提及，我要將佢引述出嚟，就係講到安全  
29 和有效率運作，就係該專營公司的公共巴士服務的安全和有效率運作。另外，  
30 第(3)款嗰度亦都係有一個條文，就係話如果違反咗嘅話，就會係一個屬於犯  
31 法，而且亦都可以係罰款。或者大家亦都可以睇番呢個第(2)款，就係話如果係  
32 專營公司係提出呢啲附例嘅話，都需要經過立法會嘅批准。

33 我剛才讀出咗一啲條文，我希望你睇番呢一啲條文嘅。當然，亦都係有啲  
34 啲規例，由第 128 頁開始嘅，咁好快你會見到，其實係有一啲規例就已經係通過

1 咗，係關乎係嗰個司機嘅行為，同埋乘客喺車上面嘅行為。第 130 頁，就係第 9  
2 條，嗰度就係關乎司機嘅行為。另外，你可以繼續落去，就係 131 頁，就係第  
3 11 條、12、13。我知道 11 個條就唔係淨係司機嘅，售票員都係嘅，所以我知道  
4 今時今日其實就係都有乜售票員，所以你就可以反映出，其實嗰個規例已經過  
5 時。132 頁，我哋有 13A，就係話乘客嘅一般行為，同埋擬成為乘客嘅人嘅一般  
6 行為。

7 講到嗰個監管，其實你見到條文，你見到嗰個條例同埋個規例裏面嘅條  
8 文，跟住我就想請你睇睇個專營權文件。喺呢一方面，我就係想睇番最新嗰份  
9 專營權嘅文件，嗰個係發出咗，呢個係去年向九巴發出嘅。呢份文件，你可以  
10 睇到呢個副本就係喺運房局嘅文件冊第 2 冊嘅第 137 頁。你面前見唔見到呢個文  
11 件？

12 黎以德先生：（經傳譯員）見到。

13 MR DUNCAN：（經傳譯員）睇下呢啲條文，第 1 條--其實我想睇嘅係第 7 條，其中  
14 第 141 頁睇到呢一個專營權文件入面，佢就話專營公司應該喺合理可行嘅範圍內  
15 係令到運輸署署長信納去購置、提供、維護等等，係任何安全同埋提高服務嘅裝  
16 置、設施、儀器等等，就係喺同專營公司商討之後，合理地由運輸署署長提出嘅  
17 要求，呢個就係提到喺專營公司嘅巴士上面應該安裝啲乜嘢嘅安全措施或者係儀  
18 器。

19 我哋睇過個條例，條例入面就講到喺專營權文件入面要求嘅啲嘅要求。  
20 呢個專營權文件入面其實自己都有提到，就係喺第 1 條第(3)款，呢個係第 139  
21 頁。我哋見到呢頁最底就係話為免呢一個混亂，除非係另有明確指明，專營公  
22 司應該係根據運輸署署長、財政司司長或者任何公務人員喺呢一個嘅專營權文  
23 件底下要求嘅任何指示或者要求嘅。

24 如果我哋繼續睇呢份文件，據我理解，有一啲一般嘅權力去作出咁嘅指示  
25 同埋要求，佢講政府係喺點樣嘅情況底下係可以發出呢啲指示或者要求。我可  
26 以畀啲例子你，譬如第 141 頁，第 7 段，關於話要提供啲設施，呢個係一個好通  
27 用嘅例子，政府可以提供要求嘅。譬如話巴士站，即係第 143 頁嘅第 12 條就提  
28 到，就係話喺總站嘅時候，會提供一啲停泊設施之類之類。

29 我唔會逐個講，但係如果你睇到第 28 項嘅話，即係第 28 條，睇番呢份文  
30 件，你會見到就係運輸署署長需要獲提供有啲嘅資料，係由專營公司保管嘅紀  
31 錄，咁係關係喺附表二入面巴士服務。168 頁就睇到呢個附表二，呢度提到需要  
32 有啲乜嘢紀錄同埋資料係要由專營公司根據專營權文件要求提供嘅。我順帶一  
33 提，我哋覺得似乎有幾項都係同安全有關，喺專營權文件係有明確提出嘅。因  
34 此，亦都唔會係任何指示或者要求入面會提到，其中一點就譬如係話車長嘅訓  
35 練，似乎有任何啲個專營權文件入面係仔細講及點樣要培訓車長嘅要求，無論  
36 佢哋係已經擔任緊車長嘅工作，或者係一啲培訓新人，以便佢日後做車長嘅工  
37 作，都有嘅。我知道政府同埋巴士公司喺培訓方面都有啲安排，但係呢啲安排

1 到底係咪有力呢？令到即係有人覺得係或者佢係咪合適嘅培訓呢？有人都會提出  
2 出啲疑問嘅。我而家就想你睇番個條例，我而家打算就某啲範圍問一啲問題。  
3 頭先我已經講解咗某啲條文畀你聽，而家我哋可以返番去第 124 頁，文件冊  
4 124 頁，個條例。我想講下呢一點，第 35 條，運房局局長訂立規例嘅權力，特別  
5 我想講(j)款嘅，關於就駕駛某專營公司所使用嘅巴士司機而言，規管呢個條例  
6 所指明嘅任何時間，該司機可准許駕駛該類巴士嘅最多時數，同埋專營公司給予  
7 司機休息同埋用茶點嘅相隔時間。

8 第一點，我想問嘅，事實係咪咁呢？呢一個題目已經多年嚟都係有啲爭  
9 拗，一方面巴士公司同埋佢嘅僱員，又或者係公會之間都有啲爭拗，呢一點係  
10 唔係政府一段時間都知悉嘅呢？

11 主席：（經傳譯員）你問嘅問題係問黎先生？問黎先生，你可唔可以回應？

12 黎以德先生：（經傳譯員）唔該主席，唔該律師。我會咁樣形容嘅，呢個問題不時都  
13 會有人提出，即係自從引入一個指引，係所有專營巴士公司都應當遵守。或者我  
14 可以咁講，其實喺 1998 年引入之後，差唔多係一個硬性嘅指引嚟嘅，必須遵  
15 守。而十年嚟，呢個指引就係叫做一個自願意性嘅一個指引，我就會咁樣講，我  
16 哋一直致力改善，而當中亦都要考慮多種因素，包括任何改變係有冇改善呢？係  
17 咪可行呢？對於營運者嘅實際運作有冇影響呢？如果需要額外司機嘅話，佢哋點  
18 樣應付到呢？或者佢哋點樣會可以聘請同埋培訓有關嘅司機呢？同時，據我理  
19 解，巴士司機或者喺呢方面都會要求有改善嘅，都會歡迎。同一個時間亦都要關  
20 注嘅，就係佢哋嘅薪酬唔應該受到影響，即係話係減少咗咁嘅意思，所以係有一  
21 系列嘅問題都需要一併考慮。為咗完整性，我仲要提到另外一點，就係任何嘅改  
22 動對於公司狀況嘅財務影響，而呢個財務影響係應該點樣解決。

23 MR DUNCAN：（經傳譯員）我諗個指引應該有六次嘅條訂，喺 1998 年引入之後，  
24 係咪呀？如果我記憶係有錯嘅話。

25 黎以德先生：（經傳譯員）冇錯，你講得啱。1999 年、2000 年、2004 年、2007 年、  
26 2010 年，最近就係今年年頭。

27 MR DUNCAN：（經傳譯員）嗰啲係指引嚟嘅，條例本身就容許制訂規例嘅。喺呢一  
28 方面，點解只係以指引嘅方式而唔係以規例嘅方式實施呢？

29 黎以德先生：（經傳譯員）主席，回答番律師嘅問題，我其實即時亦都有一個答案。  
30 我只能夠咁樣講，首先我都可以幾確定咁樣講，雖然呢個指引只算係一個指引性  
31 質，叫做，但係意義上係營運者要嚴格遵守嘅。我頭先亦都提到的而且確營運者  
32 都係有遵守，佢哋亦都知道運輸署會進行調查，睇下係咪有符合呢個指引。如果  
33 有任何原因，冇完全遵守呢個指引，有咁嘅情況，運輸署係會要求公司解釋嘅，  
34 而呢個營運者就會被運輸署要求提供個解釋。

35 至於點解冇用附屬法例方式喺規例入面包含呢樣嘢，我恐怕我都即時畀唔到  
36 個答案。我只係猜測，喺我哋整個規管制度嘅底下，我哋希望係用唔同嘅方式。

1 如果我哋嘗試用某一個方式，譬如話係引入指引嘅時候，都係可行，已經係運作  
2 良好嘅話，呢個亦都係能夠達到我哋目的嘅其中一個手法，我哋個目的就係要確  
3 保司機要有足夠嘅休息時間等等嘅。

4 主席：（經傳譯員）黎先生，你講咗兩次，你話你即時都回答唔到，你想唔想要有啲  
5 機會諗咗，再畀個書面答案呢，遲啲？

6 黎以德先生：（經傳譯員）主席，我呢一方面會跟進嘅，但係我都要補充，我哋講緊  
7 呢個指引係喺 1998 年初次引入嘅，我就唔係有百分百信心可以搵番當年嘅書面  
8 紀錄。不過，當然，主席，我哋好樂意返去試下嘅。

9 MR DUNCAN：（經傳譯員）係，你都會明白如果呢一件事係 包括咗喺個規例入  
10 面，根據職權範圍，就可以被列作一個罪行，即係話如果巴士公司有遵守嗰個規  
11 例嘅內容嘅話，就會係犯罪。

12 黎以德先生：（經傳譯員）主席，正如我喺開場發言入面提到，我哋見到專營巴士公  
13 司係有需要喺運作上確保安全，我哋視為呢個係適當而有效率服務嘅其中一部分  
14 嚟嘅，或者唔當係即係有效率嗰方面，但係起碼係適當嗰方面嘅。我哋一向嘅睇  
15 法都係如果營運者係唔能夠提供安全嘅運作嘅話，無論係佢哋自行去做一啲措  
16 施，又或者係跟從任何我哋施行嘅，或甚至係政府以立法嘅方式施行嘅指示、安  
17 全嘅規則等等，如果佢哋持續係做唔到呢個要求嘅話，我哋嘅睇法就係專營公司  
18 係咪有能力提供適當嘅服務呢？我哋就會有懷疑。

19 MR DUNCAN：即係話我形容去到一啲極端嘅條文入面，係可以採取行動，譬如話係  
20 撤銷佢個專營權。

21 主席：（經傳譯員）講到撤銷，咁你可唔可以提一提我哋，就應該係搵番邊條款文  
22 呢？

23 MR DUNCAN：（經傳譯員）係第 24 條條例嘅第 24 條。

24 主席：（經傳譯員）可唔可以講番邊一頁呢？

25 MR DUNCAN：（經傳譯員）係 115，文件夾嘅 115 頁。呢度要跟番某一啲程序嘅，  
26 而最終嚟講，係要有行政長官會同行政會議去考慮，所以都相當繁複嘅一個程序  
27 嘅。

28 黎以德先生：（經傳譯員）係，主席。

29 主席：（經傳譯員）係。

30 黎以德先生：（經傳譯員）喺回答係大律師嘅問題嘅時候，我會話「係」㗎，除咗呢  
31 個撤銷專營權之外，即係可能係專營權嘅全部或者係一部分，另外亦都係有經濟  
32 罰則呢一個條文。大家可以睇番第 22 條，呢條條例嘅第 22 條。而我嘅睇法就係  
33 呢一個施加經濟罰則亦都可以應用，因為呢度就係講及就係專營公司係需要遵從  
34 嗰個專營權同埋條例。條例就講明咗就係專營公司係要提供一個適當有效率嘅服

1 務。

2 MR DUNCAN：（經傳譯員）係，喺週末嘅時候，你哋亦都提交咗進一步嘅書面嘅陳  
3 述，你哋亦都係澄清咗，就話嗰個指引就唔構成呢度所講嘅指示或規定。會唔會  
4 因此你哋就無法就係去施加嗰個經濟罰則呢，即係話第 23 條所提及嘅經濟罰則  
5 呢？或者第 22 條呢？

6 黎以德先生：（經傳譯員）主席先生，我本身唔係一位律師，我自己點樣去詮釋呢個  
7 第 22(2)呢？22(2)嗰度就咁講，「可以施加經濟罰則，如果沒有遵從其專營權或  
8 本條例，又或者係根據其專營權或本條例所作出嘅指示或規定，又或者係有遵從  
9 任何嘅計劃或者係批准」，所以呢度有好多個係或乜嘢，「或」即係話有好多個  
10 選項。

11 其實運輸署亦都有作出過陳詞，佢就話「嗰個指引不屬於指示或者規定」。  
12 不過較早之前我係提及喺呢個 22(2)條底下，呢度就講話「本條例」，嗰個「本  
13 條例」就係指《公共巴士服務條例》。呢度就係話係經營呢個專營權嘅公司係需  
14 要維持適當而有效率嘅服務。講到適當嘅服務，我會咁樣睇嘅，就係包括咗係嗰  
15 個安全嘅要求，

16 MR DUNCAN：（經傳譯員）但係都唔能夠係令到政府當局就可以引用呢個第 23 條或  
17 者第 22 條個嘢？

18 黎以德先生：（經傳譯員）主席先生。

19 MR DUNCAN：（經傳譯員）對唔住，我係律師，所以其實係咪呢條題目應該留番畀  
20 律師呢？如果你純粹話因為佢有遵從或者佢違反咗嗰個專營權或者係條例，因為  
21 佢有維持一個適當而又有效率嘅服務，政府當局嗰個補救，就只能夠係去番嗰個  
22 撤銷嗰個條文，撤銷專營權嗰個條文。

23 黎以德先生：（經傳譯員）主席，我剛剛其實係想咁講，我自己唔係律師，但係我自  
24 己點樣去睇呢個第 22 條第(2)款呢？其實你咁樣睇嘅時候，應該我哋就係有咁嘅  
25 能力，就係去向行政長官會同行政會議申請，就係要求施加係經濟罰則。

26 因為呢度講得好清楚，就話專營公司係有遵從本條例。講到本條例，本條例  
27 其實就係施加咗個責任畀嗰個經營者，就係話必須係維持一個適當而有效率嘅服  
28 務。適當嘅服務，我會話適當嘅服務係即係要求啲咩嘢呢？適當嘅服務就係要求  
29 你係提供一個係安全嘅服務，否則嘅話，不能視之為係適當嘅服務。

30 主席，正如我所講，我當然係從一個政策嘅角度去睇。其實一個咁樣嘅情況  
31 係有出現過，未經考驗。

32 主席：（經傳譯員）對唔住，或者你意思係咪從來都有施加過經濟罰則呢？

33 黎以德先生：（經傳譯員）主席先生，我剛才咁講意思係話，因為安全嘅事宜而引致  
34 我哋係嘗試去援引呢條條文，即係關乎經濟罰則嘅，我哋從來未試過去援引過，

1 所以我就話佢未經考驗，冇測試到。

2 MR DUNCAN：（經傳譯員）我哋咁嘅理解啱唔啱呢？即係話其實從來就有施加過經  
3 濟罰則，而個理由即係有話係因為呢個 22(2)款需要施加經濟罰則呢？

4 黎以德先生：（經傳譯員）主席先生，如果照我嘅記憶所及同埋照我嘅理解所知，就  
5 係咁樣樣。不過我好希望你畀機會我返去就係查咗，然後書面確認。不過最近應  
6 該有，係咪呀？

7 MR DUNCAN：（經傳譯員）行政長官會同行政會議有冇施加過咁嘅罰則呢？

8 黎以德先生：（經傳譯員）主席先生，以近期嚟計，我當然--即係我就係唔知有個咁  
9 樣嘅情況，就有嘅。即係我哋有遇過係一啲情況而需要係援引呢條文嘅。

10 MR DUNCAN：（經傳譯員）我而家係想請你去睇呢個第 36 條，125 頁。文件夾嘅  
11 125 頁，呢個就係 36 條，對唔住，係講係附例。就話專營公司就可以係訂立附  
12 例。我就想問，目前嘅現有嘅專營公司有冇制定過呢啲咁樣嘅附例呢？

13 黎以德先生：（經傳譯員）主席，我本人記得係有一啲附例係有訂立過，不過現時未  
14 必能夠講到係咪第 36 條裏面嘅每一點都係有一啲係而家執行緊嘅附例嘅。我而  
15 家係返去查一查，然後再返嚟向大家匯報。

16 MR DUNCAN：（經傳譯員）係，請你幫我哋手。因為我哋自己查，就係查唔到有啲  
17 咁樣專營巴士公司嘅係附例，我哋自己就查唔到。

18 主席：（經傳譯員）好呀，唔該你。你即係已經需要再補充嘅書面資料係不斷增加。

19 MR DUNCAN：（經傳譯員）我諗其他嘅係公交嘅專營--或者營運者係佢哋有附例。

20 黎以德先生：（經傳譯員）係呀，地鐵公司有自己嘅附例。

21 MR DUNCAN：（經傳譯員）因為地鐵就可以自己採取行動，因為佢係有附例，附例  
22 下面有訂明邊一啲事情係犯法，同埋有啲咩嘢罰則。譬如話如果係巴士嘅司機，  
23 係巴士嘅乘客，有冇類似嘅安排？

24 黎以德先生：（經傳譯員）主席先生，可以講話係，亦都可以講話唔係。我諗你剛剛  
25 提醒我，我哋有規例㗎。其實嗰度係有附例，230A 就係可以規管司機同埋乘客  
26 嘅行為，所以法例上面其實係有咁樣嘅條文。所以我要指出，其實唔係話就呢一  
27 個具體嘅課題唔係完全係一無所有㗎。

28 MR DUNCAN：（經傳譯員）邊一個去執行呢一啲規例呢？

29 黎以德先生：（經傳譯員）主席，一般嚟講，照我嘅理解就係警方就會係負責係執  
30 法。至於話有冇其他嘅權利當局係都可以負責呢，咁我要再查核一下。一般嚟  
31 講，警方係負責執法㗎。

32 MR DUNCAN：（經傳譯員）你會唔會覺得就係巴士公司自己去做，巴士公司自己㗎

1 呢方面都可以執法係會更好，亦都係好嘅咩？就唔使淨係靠警方。

2 黎以德先生：（經傳譯員）主席，或者我--你即時問我，我即時答呢，就係可能大家  
3 都以地鐵嘅附例作為一個參考點。嗰個其實巴士公司同埋係鐵路公司佢個營運模  
4 式係相當不同，因為地鐵或者鐵路公司佢個運作係點呢，佢係一個密封嘅環境裏  
5 面嘅，一般都喺密封嘅環境裏面㗎，而且佢下面就係有好多職員作一個支援。佢  
6 哋提供支援嘅職員，一般都好快可以到場處理㗎。或者講到係執法嘅話，即係如  
7 果係乘客嘅行為有問題，而需要執行呢個附例。其實佢哋比較容易去執法，就唔  
8 使就係妨礙其他嘅乘客嘅進出。

9 但係巴士又唔同㗎，巴士就係現場係只係得一位巴士司機係喺度控制住嗰部  
10 巴士。如果係有啲係唔妥當嘅地方嘅話，係行走中、喺旅程中係有啲問題嘅話，  
11 咁樣樣一般嚟講，你可以諗到，其實就比較難去預期嗰個司機喺嗰度去進行執法  
12 㗎。呢個純粹係我--即係你問我，我即時嘅一個回應，呢個可能亦都係點解需要  
13 由係警務人員去執法，呢個就係現時嗰個安排。

14 MR DUNCAN：（經傳譯員）委員會喺嗰啲收到嘅意見書，好多人都有提及--一方面  
15 提及司機嘅行為，另一方面亦都有人提及一啲係比較粗魯或者係唔聽話嘅乘客嘅  
16 行為。我就想問㗎，究竟根據現有嘅規例，關乎司機同埋乘客嘅行為係幾次進  
17 行過檢控呢？

18 黎以德先生：（經傳譯員）主席先生，畀少少時間我。

19 主席：（經傳譯員）或者係鄧大律師，或者你話番畀我哋聽，究竟係邊一個陳述書嗰  
20 度係有講呢，係咪九巴呢？係咪好似我諗佢哋嗰度就話係越嚟越多人，就係有咁  
21 嘅做法嘅，可唔可以話番畀我哋聽係邊一段呢？

22 黎以德先生：（經傳譯員）主席，或者我可以回答番律師頭先問嘅問題。根據警方嘅  
23 資料，而呢個資料其實都有公開嘅，喺 2016 年，就係我哋回覆番立法會嘅質  
24 詢。警方當時嘅意見就係話，如果係牽涉襲擊嘅事件，警方會調查，不論地點之  
25 類。但係警方就有就住襲擊--即係對車長襲擊嘅個案數字，又或者關於乘客方面  
26 嘅數字，亦都有去做一個統計嘅，有關嘅數字。警方當時亦都有個意見，就係話  
27 如果喺巴士上面有襲擊嘅事件，無論牽涉嘅係邊一方，除咗係倚賴法例 230A 章  
28 之外，亦都會倚賴其他嘅法例條文去恰當咁樣調查，同埋去提出檢控，亦都有幾  
29 條刑事嘅法例，警方係可以引用。

30 MR DUNCAN：（經傳譯員）我知道有呢啲條文，但係我想問嘅就係有幾常去提出檢  
31 控呢？

32 黎以德先生：（經傳譯員）主席，簡短嘅答案，根據警方，佢哋有記錄呢啲數字。

33 MR DUNCAN：（經傳譯員）講番主席嘅問題，我諗頭先講到一啲參與文件，黎先生  
34 你都應該知道㗎，呢個係九巴嘅書面意見，就係喺佢哋嘅文件夾嘅第 95 頁第 35  
35 段。

1 主席：（經傳譯員）或者請你讀番有關嘅部分出嚟。

2 MR DUNCAN：（經傳譯員）「最近有一個現象對九巴嚟講都係相當關注，就係似乎  
3 係有更多嘅事件係由乘客或者其他道路使用者對巴士嘅車長係襲擊。呢個好多時  
4 候係由日漸惡化嘅交通意外--交通擠塞，直接或者間接造成一啲嘅緊張嘅情況。  
5 我哋儘量係對於犯事者係採取法律行動，我哋亦都明白嚟呢一方面嘅罰則係唔足  
6 以有阻嚇作用。」

7 我相信呢一段唔單只--所謂「襲擊」，唔係講緊話用武力嘅襲擊，仲有譬如  
8 係乘客粗言穢語辱罵司機。你知唔知道係有呢啲指控呢？

9 黎以德先生：（經傳譯員）主席，我哋知悉巴士公司同埋車長對呢方面有關注。我可  
10 以講下，運輸署署長同佢嘅同事而家就係致力一啲公眾教育嘅工作，就係指出嘅  
11 公交通工具上面係唔應該有呢啲行為嘅。另外投訴有咩嘢渠道，而乘客如果想投訴唔  
12 滿意巴士服務又或者係某一個司機嘅行為嘅時候，可以用咩嘢渠道去投訴，運輸  
13 署係嚟呢方面已經有工作。我哋就認為教育或者係重要，甚至比起純粹考慮執法  
14 係更重要。法例就有㗎嘞，大家應該遵守法律，但係重要嘅一點就係教育公眾文  
15 明嘅方式去使用交通工具，就算佢哋不滿，其實係有投訴嘅渠道，唔應該係動  
16 武，或者係粗言穢語㗎。

17 MR DUNCAN：（經傳譯員）呢啲嘅規例，對上一次係幾時考慮過能唔能夠仍然適用  
18 嚟今時今日嘅情況呢？

19 黎以德先生：（經傳譯員）主席，唔好意思，我可唔可以請律師講清楚講緊乜嘢規  
20 例？

21 MR DUNCAN：（經傳譯員）嗰啲規例，我頭先講緊嘅，即係根據條例底下制定嘅規  
22 例提到巴士車長、票務員、乘客嘅責任等等，政府係幾時檢討過呢？睇下到底佢  
23 哋仲對於今時今日嚟講係咪適用呢？

24 黎以德先生：（經傳譯員）主席，我預期運輸署即將會向運房局呈交佢哋推廣同埋教  
25 育方面嘅工作嘅計劃嘅時候，亦都會提出現行嘅刑事刑責嘅條文，嚟法例入面點  
26 樣應該進一步去推廣，或者去考慮下需唔需要檢討。

27 主席：（經傳譯員）我諗我可以請你直接回答番個問題，個問題就係話嗰啲規例對上  
28 一次係幾時檢討過？

29 黎以德先生：（經傳譯員）主席，我哋冇單獨就住呢一條法例去徹底檢討。因為個假  
30 設一直都係入面嘅條文並非不足。

31 MR DUNCAN：（經傳譯員）即係冇做過檢討？

32 黎以德先生：（經傳譯員）主席，我哋冇做檢討，因為我哋唔覺得入面嘅條文係唔足  
33 夠。不過正如我頭先講，到運輸署提交一個教育嘅計劃嘅時候，佢哋亦都會去考  
34 慮番重新去審視番嗰啲條文係唔足唔夠。

1 主席：Thank you.

2 MR DUNCAN：（經傳譯員）黎先生，以你嘅答案，係咪運房局已經係指示運輸署要  
3 提交一個公眾教育計劃？

4 黎以德先生：（經傳譯員）冇錯，主席。

5 MR DUNCAN：（經傳譯員）幾時畀咁嘅指示畀運輸署呢？

6 黎以德先生：（經傳譯員）主席，呢個指示就係喺剛剛發生喺大埔呢一個巴士意外之  
7 後，因為我哋收到一啲嘅報告，似乎有更多嘅時候，我哋發現車長同埋乘客之間  
8 嘅緊張嘅氣氛係增加嘅。

9 MR DUNCAN：（經傳譯員）簡單嚟講，有咩嘢教育計劃去解決呢個問題呢？

10 黎以德先生：（經傳譯員）主席，正如我講，細節方面，我哋都要等運輸署提交，所  
11 以我唔想而家先一步去講，到底佢哋會提交啲乜嘢畀局方考慮。但係整體嚟講，  
12 個方向應該係咁，佢哋亦都知道嘅，就係我哋應該提醒乘客係要文明有禮，有秩  
13 序，任何時候都係。而如果乘客唔滿意巴士服務嘅提供，又或者係就住某一個司  
14 機嘅不滿嘅話，係可以透過投訴嘅渠道去跟進，呢個係更加合理嘅做法，而唔係  
15 因為自己不滿，就對某一個司機出氣。

16 MR DUNCAN：（經傳譯員）運輸署有冇--你哋有冇畀一個時間表？

17 黎以德先生：（經傳譯員）我哋冇畀限期，但係運輸署都知道呢件事嘅--有幾緊張㗎  
18 嘞，佢哋已經係加快進度進行緊。我已經叫咗運輸署咁樣做，佢哋亦都係做緊㗎  
19 嘞。

20 MR DUNCAN：（經傳譯員）我可唔可以同你提另外一點，而家講番第 108 頁個條  
21 例，呢個第 9 條，第 9 條就提到話行政長官係有權就住專--可以委任額外嘅董事  
22 嘅。呢個係唔係行政長官曾經有行使過嘅權力呀？

23 黎以德先生：（經傳譯員）主席，係嘅。呢個就係行政長官擁有嘅權力，佢亦都曾經  
24 行使過，有幾年嚟都行使過。運輸署長以及副秘書長，即係負責巴士服務嘅副秘  
25 書長，而家就係坐我右手邊嘅蔡先生，都係獲得行政長官委任作為所有專營公司  
26 董事局嘅額外董事嘅。

27 MR DUNCAN：（經傳譯員）我相信而家係有五間專營公司，我理解係咪就係呢兩位  
28 嘅官員都係呢五間專營公司嘅董事局嘅成員？

29 黎以德先生：（經傳譯員）冇錯。

30 MR DUNCAN：（經傳譯員）委任咗呢啲額外董事，佢哋係點樣喺董事局入面提出安  
31 全嘅事項嘅關注呢？

32 黎以德先生：（經傳譯員）主席，委任嘅額外董事係代表政府，所以以此延伸，即係  
33 話係代表政府嘅利益，或者關注。如果係講到安全問題，呢個係其中一個我哋政

1 府嘅董事關注嘅事項。喺適當嘅時候，適當嘅場合，佢哋會喺董事局開會嘅時候  
2 提出，喺我哋提交畀檢討委員會嘅書面陳詞亦都有提到。

3 MR DUNCAN：（經傳譯員）我哋知道有啲公司不時喺董事局會有啲嘅譬如係核數嘅  
4 委員會，安全委員會，有啲嘅小組委員會嘅。政府嘅額外董事有冇就住呢啲嘅專  
5 營公司，要求董事局成立一啲嘅小組委員會會關乎安全嘅呢？

6 黎以德先生：（經傳譯員）主席，如果得你准許，我想邀請蔡先生回答，因為佢係代  
7 表政府嘅額外董事嚟嘅。

8 蔡傑銘先生：（經傳譯員）唔該晒主席，唔該晒律師。就好似黎先生所講，我就係運  
9 房局嘅副秘書長，同埋連同陳美寶女士，即係運輸署署長，都係獲行政長官委任  
10 作為額外董事嘅，去代表政府參與五間專營公司嘅董事局。我哋作為其中一個董  
11 事，我哋係代表政府嘅利益，我哋其中亦都係即係喺專營公司嚟講嘅其中一個董  
12 事，睇番公司嘅策略嘅發展，我都可以話係其中一個公司董事。

13 我由去年 9 月上任，每兩個月或者每季，我都會去參與董事局嘅會議。佢哋  
14 係有一啲嘅核數嘅小組委員會，又或者係有啲會議去睇番每日嘅運作，以確保係  
15 提供適當而有效率嘅服務，同埋係安全嗰方面，譬如係意外率、巴士脫班率。管  
16 理層都會係透過提交畀董事局嘅文件，係要向董事局匯報，同埋一啲參考嘅資  
17 料。可惜，我哋就有參與佢個嘅核數小組委員會嘅會議。

18 MR DUNCAN：（經傳譯員）你會唔會建議成立一啲安全運作嘅小姐委員會，而政府  
19 嘅董事係可以參與做委員嘅呢？

20 蔡傑銘先生：（經傳譯員）感謝你提出呢個問題。正如係黎先生剛才喺發言嘅時候講  
21 過，就專營公司有咁嘅責任係妥善咁樣樣去做好佢嘅專營權嘅工作。其實講到公  
22 司管治同埋講到安全，我哋會睇下政府董事究竟喺呢一方面可以做啲乜嘢嘢。當  
23 然我哋亦都係希望佢哋嘅公司管治係更好，而且係更聚焦喺安全嘅事項。希望就  
24 專營公司喺去履行職責嘅時候，喺佢係致力係維持喺香港有適當而又有效率嘅服  
25 務嘅時候，都會關顧呢一點。

26 MR DUNCAN：（經傳譯員）唔該你，蔡先生。我而家係想問下局方一啲問題係關於  
27 呢個係遠期計劃，特別就係呢個 12A。

28 主席：（經傳譯員）我哋未落去另一個課題之前，我打算就係今朝早有一個小休。我  
29 就想請--亦都讓證人有少少時間休息一下，呢個係咪一個適當嘅時間呢？

30 MR DUNCAN：（經傳譯員）係嘅。

31 主席：（經傳譯員）好，我哋而家係休息十五分鐘，休息十五分鐘，唔該。

32

33 上午 11 時 32 分聆訊押後

1

2 上午 11 時 46 分恢復聆訊

3 出席人士如前

4

5 主席：（經傳譯員）鄧樂勤大律師。

6 MR DUNCAN：（經傳譯員）唔該晒，主席。黎先生，頭先我想你睇番，就係呢個條  
7 例嘅第 12A，即係 109 頁。

8 黎以德先生：（經傳譯員）係。

9 MR DUNCAN：（經傳譯員）你應該記得，頭先我同你都提到過嘅，我哋最初頭講呢  
10 個條例嘅條文嘅時候，12A 條就係講緊一個五年嘅遠期計劃。我哋見到呢個計  
11 劃入面嘅內容應該有啲咩嘢呢？就係喺個附表度有寫嘅，呢個就係 126 頁嘅附  
12 表。

13 而家睇番 109 頁嘅第(4)款，我就想你睇番呢個條文嘅，就話係「如果係唔能  
14 夠達成協議，又或者有唔同意嘅地方，專營公司同埋運輸署署長要將有歧見嘅事  
15 項嘅細節呈交畀運房局局長，等運房局局長去解決」。

16 有冇需要過運房局局長解決呢個有歧見嘅事項呢？

17 黎以德先生：（經傳譯員）主席，冇㗎，據我所知冇試過。我相信應該咁樣解釋，遠  
18 期計劃好多時都係經過多輪嘅一個討論嘅過程，就係運輸署同埋專營公司嘅討論  
19 過程，通常到計劃敲定細節嘅時候，就已經係得到運輸署同埋巴士公司嘅同意。

20 MR DUNCAN：（經傳譯員）可唔可以請你揭去附表第 126 頁？你可以見到計劃內  
21 容。運房局有冇向運輸署發出過任何建議，呢個計劃應該有咩嘢內容呢？即係話  
22 除咗喺附表入面提到呢一啲特定嘅條文，即係由(a)至(g)咁多之外，我提--我同你  
23 提到過嘞，就係(h)嗰一款，就係有提到「其他事宜」，似乎係包含所有包羅萬有  
24 個條款。有冇任何時間，運房局曾經建議過運輸署，呢個五年遠期計劃內容應該  
25 係乜嘢呢，定話係由運輸署決定呢？

26 黎以德先生：（經傳譯員）主席，我哋知道由最近嘅遠期計劃，其實委員會亦都會知  
27 道起碼其中嘅遠期計劃入面都有某啲嘅比較廣義嘅標題嘅，就係符合附表入面提  
28 到嘅計劃內容嘅。譬如其中一間巴士公司就可能要提供一個訓練員工嘅資料，據  
29 我理解，呢個亦都係運輸署同埋巴士公司嘅多番商討之後擬定嘅，但係我就唔可  
30 以確定到底係唔係由運輸署主動提出，定話係因為局方某啲特定嘅要求而行事  
31 嘅。我懷疑應該係前者。

32 主席：（經傳譯員）我諗鄧樂勤大律師嘅問題，其實係問第二樣嘢，就係運房局有冇  
33 向運輸署提交任何建議，去講呢個五年遠期計劃內容應該包括乜嘢？

1 黎以德先生：（經傳譯員）主席，簡短嘅答案，就係我唔記得有冇主席你提到你解釋  
2 呢啲嘅指示嘞。基本上所有嘅附表入面提到嘅內容都應該係包含嘅個計劃入面，  
3 如果運輸署能夠透過同巴士公司嘅商討有進一步資料，亦都會嘅個遠期計劃入  
4 面反映。

5 主席：（經傳譯員）即係話運房局有發出任何指示畀運輸署？

6 黎以德先生：（經傳譯員）唔係嘅呢一個範圍入面嘅。

7 主席：（經傳譯員）得嘞，唔該。

8 MR DUNCAN：（經傳譯員）黎先生，我而家就唔再講呢一個嘅規管嘅制度，我而家  
9 想講番我哋委員會職權範圍。

10 再提醒番所有人，第(b)啲一點就係職權範圍就係話委員會係要檢--係要審視  
11 現行對專營巴士嘅監管同埋監察制度。希望就住呢一方面，我進一步向你發問。

12 根據委員會收到嘅書面陳詞，好清楚巴士公司作為一個慣常做法，都會提交  
13 一啲資料畀運輸署嘅，就係一啲近期嘅好新近嘅文件，可能係按月、按季咁樣去  
14 提交，內容就係呢一個專營公司嘅營運同埋管理嘅。我都相信毫無疑問你都知道  
15 嘅。

16 黎以德先生：Yes.

17 MR DUNCAN：（經傳譯員）局方有冇要求運輸署去採取任何核實嘅步驟呢？睇下提  
18 交畀運輸署嘅定期嘅文件嘅真確性呢？

19 黎以德先生：（經傳譯員）主席，我希望澄清一下律師嘅問題。律師係咪問緊局方有  
20 冇要求運輸署去查核一下巴士公司提交畀運輸署嘅資料，啲啲資料本身係唔係真  
21 確呢？

22 主席：（經傳譯員）係呀，係呀，鄧樂勤大律師就係問呢個問題。

23 黎以德先生：（經傳譯員）簡短嘅答案，就係我哋預期運輸署採取適當嘅或者需要嘅  
24 步驟去確保收到嘅資料嘅真確性，而唔係需要由局方去提醒運輸署咁樣做。當然  
25 嘅專營權底下，如果我有記錯嘅話，有一個要求，廣泛而言，我唔知道係咪可以  
26 即係包括晒每一項提交畀運輸署嘅資料，但係我記得有一條條文，就係要求巴士  
27 公司確保提交畀運輸署嘅資料係準確、真確。的確係對運營者有施加咁嘅要求，  
28 佢哋需要遵守。

29 而我都知道譬如運輸署實際上嘅某啲事項上，佢哋都會採取行動，主動採取  
30 行動去查核一下收到嘅資料係咪真確。舉個例，就係巴士司機休息時間、更次時  
31 間等等。運輸署係有聘請外判商去做一啲獨立調查，即係嘅巴士公司個調查以  
32 外，自己做調查，去睇下巴士公司有冇跟從指引。呢個係除咗運輸署由巴士公司  
33 收到嘅資料以外會做嘅嘢。

1 MR DUNCAN：（經傳譯員）當然我哋進一步都會再同運輸署去查問呢樣嘢，但係你  
2 頭先咁樣答之後，我想繼續問你。

3 監管嘅過程，或者監察過程，大部分都係其實睇巴士公司提交嘅紀錄文件，  
4 呢個係所謂監察嘅過程就係咁樣做。運房局有冇發出過任何建議，運輸署應該某  
5 程度上，應該點樣監察巴士公司嘅活動呢？點樣直接去監察，而唔係淨係睇一啲  
6 巴士公司提供嘅紀錄呢？

7 黎以德先生：（經傳譯員）我相信呢個答案都會係幾長，主席，希望你畀時間我解  
8 釋。

9 整體嘅監管同埋監察制度入面係有制衡，所有呢啲嘅制衡基本上都係得到運  
10 房局嘅許可，又或者起碼運房局係知悉嘅。

11 或者講幾個例子，較早時間我就講過，譬如話調查一下車長佢嘅休息時間。  
12 另外亦都每日係會進行呢個突擊檢查，呢個係署方去做㗎，就會睇下現役巴士嘅  
13 情況，所以每一日佢哋會抽十四部巴士。呢十四部巴士本來就係要投入服務，佢  
14 哋係隨機咁抽呢十四部巴士。呢十四部巴士就係要通過署方自己嘅驗車主任嘅檢  
15 驗，呢個就係除咗巴士公司所提供嘅安全方面嘅事之外，我哋會再做呢啲抽樣嘅  
16 調查。

17 我而家即時隨手就諗到呢兩個例子，就講及究竟我哋嘅機制入面係有啲乜嘢  
18 嘢，而呢一啲亦都係局方所批准㗎嘅，去核對一下究竟有冇做到，即係話核對一  
19 下係巴士公司係做成點㗎。當然，你亦都會睇書面意見書嗰度睇到，就係署方講  
20 過，就話如果有疑問嘅話，譬如話如果懷疑嗰啲資料係咪唔準確，又或者啲資料  
21 係唔夠全面嘅話，運輸署係可以，亦都有去追問有關嘅巴士公司，要求佢哋提供  
22 更全面嘅資料。呢一個其實係多年嚟所建立嘅一個機制，亦都係我哋整體嘅做法  
23 嘅一個環節，係署方嘅安排㗎嘅。

24 呢個就係同事都知道係應該點樣做，因此就唔需要進一步需要有一個書面嘅  
25 指示。

26 主席：（經傳譯員）換句話講，你哋有一啲咁樣嘅係指示畀運輸署，因為你係預期  
27 係期望咗佢哋係會咁做㗎嘛。

28 黎以德先生：（經傳譯員）係呀，主席先生，我諗你講得好公道。

29 MR DUNCAN：（經傳譯員）好，監察我而家就唔講住，稍後會問署方多啲監察方面  
30 嘅事宜。跟住我就講下一般嘅安全政策呢個事宜。黎先生，嚟自巴士公司嘅意  
31 見書顯示就係巴士公司本身都不時係會研究一下有一啲乜嘢新嘅安全嘅技術、  
32 安全嘅措施都可以係引入嚟應用。我想問下，局方本身又有冇係進行一方面嘅  
33 研究呢？睇下本地或者海外有啲乜嘢嘅進展、有咩嘢發展、睇下有冇啲咩新  
34 嘅措施就可以係引用，即係話一般嚟講係指嗰啲科技同埋嗰啲係安全嘅措施  
35 喇。

1 黎以德先生：（經傳譯員）律師，局同埋署嘅分工係點呢？一般嚟講，如果話你剛才  
2 提及嘅嗰類型嘅研究就會由運輸署去進行，就唔係局方去進行，因為喺局嗰方  
3 面，我哋其實真係冇所需嘅專材嚟到去進行呢啲研究，相反，署方就會係有一  
4 隊運輸工程師以及就係機電工程師，佢哋係更熟悉呢一方面嘅事情，而且佢哋  
5 亦都有係進行你所講及嘅嗰類型嘅研究，其實你都睇到一啲證據，譬如話係採納  
6 咗嗰個黑盒喇，同埋係車速限制器呢一啲嘅要求嘅建議，而最近我相信委員會  
7 亦都會知道㗎喇，就係因應大埔所發生嘅巴士慘劇，運輸署就係組成咗一個工  
8 作小組，佢係做主席㗎，咁同埋就你有專營巴士公司嘅成員加做委員，就去研  
9 究一下有冇一啲係進一步嘅安全嘅設備可以係加入去我哋嘅專營巴士嗰度㗎。  
10 咁我相信運輸署嘅意見書嗰度都有提及呢點㗎。係呀，我哋有㗎，有咁樣做  
11 㗎。

12 MR DUNCAN：（經傳譯員）我想問下，局方有冇考慮過以下嘅可能性，即係話個別  
13 嘅專營巴士公司係要制訂一個計劃，而又得到你嘅批准，而唔係只不過係時不  
14 時耐唔中就某一個單一嘅項目去係引入一啲安全措施呢？換句話講，譬如話搵  
15 一個係有資歷嘅人士係關於安全嘅事方面有相關嘅資歷同埋經驗嘅人士去草擬  
16 一份咁樣樣關乎安全措施嘅計劃書咁呢？

17 黎以德先生：（經傳譯員）主席先生，冇。冇話好有組織或者好詳細咁樣去咁樣做，  
18 不過既然你問我呢一個問題，今朝早你問我呢個問題，律師，我諗我即時嘅回  
19 應係，係呀，我哋會好樂意去探討呢一個可行性。

20 MR DUNCAN：（經傳譯員）照我所知，目前個情況係咁㗎，係嘛？其中一家嘅專營  
21 巴士公司佢所推行嘅一啲安全措施就可能同另外嗰幾間係巴士公司嘅好唔同  
22 㗎㗎，會唔會有咁嘅情況出現呢？

23 黎以德先生：（經傳譯員）主席先生，究竟喺日常運作裏面點樣樣去做，我諗我唔掌  
24 握個情況，不過如果佢哋之間係有一個差別，我唔會感到奇怪。如果話要求佢  
25 哋係寫好一份係安全計劃，即係好似律師所講嘅咁樣樣，咁當然我哋係有幾樣  
26 嘢係要同營運商就係傾㗎，譬如話究竟嗰個計劃係點樣樣嘅呢，係咪所謂一本  
27 通書睇到老，大家個個都係一樣㗎，定抑或係不同嘅係營運公司，係因為嗰個  
28 重點不同而略有一啲不同呢？當然係如果要做嘅話，我哋都要處理呢啲事宜。

29 MR DUNCAN：（經傳譯員）有好多國家，佢哋採納咗一啲國際嘅標準，譬如  
30 ISO39001，關乎一個係道路安全管理系統，咁另外係道路安全議會亦都不時就係  
31 促請話應該喺香港係採納呢一套標準㗎，咁究竟係局方有冇諗過都係採納一個  
32 咁樣樣嘅道路安全管理系統呢？

33 黎以德先生：（經傳譯員）主席先生，照我所知，呢一套標準係都幾新下㗎，如果我  
34 有搞錯嘅話，一般係運輸及物流公司所採納，就唔係就係政府當局去採納㗎。  
35 至於話我哋會唔會鼓勵佢哋咁樣做，會唔會請巴士公司去採納呢一套嘅 ISO 國  
36 際標準，我諗不如咁喇，我哋應該係同你較早時候同我講嘅嗰樣嘢一齊去睇，  
37 即係話要唔要寫一個係安全計劃書。我諗從政策嘅角度，係兩者應該係一齊去

1 睇嘅，我唔會喺原則上就係排除個可能性，而其實要睇嘅係究竟嗰個成本同埋  
2 個效益係點樣嘅呢，如果我哋採納呢一個國際標準。如果公司之間佢哋嗰個準  
3 備嘅程度係有所不同，咁我哋又應該如何處理呢？另外我想講就係，我哋係保  
4 持個開放嘅態度，樂意去睇睇㗎。

5 MR DUNCAN：（經傳譯員）換句話講，你哋局方到今日嚟講係未有考慮過呢樣嘢  
6 㗎，係嘛？

7 黎以德先生：（經傳譯員）主席先生，你咁講都唔係話唔公道嘅，其實係新嘅事物嚟  
8 嘅，係只係有幾年嘅歷史，講到標準嚟到計，佢都係一個新嘅事物，不過我哋  
9 好樂意係去研究下一啲，探討下呢啲新嘅事物嘅。

10 主席：（經傳譯員）鄧樂勤大律師，我哋有冇呢一個係 ISO39001 呢？呢度佢有冇講  
11 明話係幾時係出版㗎？

12 MR DUNCAN：（經傳譯員）係，大家可以睇雜類文件二，645 頁、646 頁，咁根據  
13 646 頁嗰度講，就話 2012 年嘅時候出版嘅，呢個就係第一版。

14 主席：（經傳譯員）好，唔該。

15 MR DUNCAN：（經傳譯員）黎先生，香港嘅地理環境係咁嘅，個情況比較係奇怪  
16 嘅，我哋就有好多雙層巴士行走喺一啲糾斜喇、狹窄嘅道路，好多時乘客有呢  
17 個超載嘅情況添嘅，我就想問喇，呢一個安全嘅問題你又點睇呢？

18 黎以德先生：（經傳譯員）道路嘅設計同埋佢如果影響個安全，運輸署嘅同事，特別  
19 係交通工程師或者運輸工程師，佢哋嘅日常嘅工作都會係處理呢啲事宜嘅，即  
20 係佢哋每日都做㗎。一係就可能發生某件事又或者一系列嘅意外，又或者係  
21 佢哋平時做嘅檢討工作，佢哋都會睇睇某一段路係咪安全，又再睇下究竟有啲  
22 咩嘢可以做，去進一步係令佢更加安全，又或者睇下係咪應該喺嗰段路嗰度係  
23 施加一啲限制，所謂限制可以包括係車速嘅限制喇，可以係限制某一類嘅車輛  
24 使用喇，諸如此類，所以呢個係佢哋不斷做緊嘅工作㗎嘅。譬如話有一箇地方  
25 已經被列為係黑點喇，咁呢個就其實我哋有一個好客觀嘅標準就去界定一個地  
26 方係咪一個黑點㗎，一般我哋就會參考究竟喺某一段時段裏面係發生咗幾多宗  
27 嘅交通意外，如果係黑點嘅話，我哋會更加密切咁去留意，去睇下究竟我剛才  
28 所提及嘅改變係咪可以係加以考慮。所以我可以咁講，呢個唔係話完全一個被  
29 動嘅程序，佢哋亦都會採取主動去睇睇其他嘅路段，縱使佢哋唔係黑點佢哋都  
30 會去睇嘅，即係如果佢哋發現就係都有咁嘅需要去睇睇嗰個安全情況。

31 MR DUNCAN：（經傳譯員）照你嘅回答就係話局方同埋署方係有傾過就係直接又或  
32 者係透過巴士公司，或者其他嘅運輸公司呢一個係道路安全管理系統呢一套嘅  
33 ISO 國際標準，係嘛？

34 黎以德先生：（經傳譯員）你意思係指個 ISO 呢一個係國際標準？

35 MR DUNCAN：（經傳譯員）係，呢一個 ISO39001。

1 黎以德先生：（經傳譯員）我相信咁樣講係啱嘅，呢一方面冇傾過，正如我解釋，因  
2 為有個新嘅國際標準係 2012 年引入嘅，都叫做係相對比較新鮮嘅事，但係我哋  
3 都知道物流公司同埋啲其他嘅運輸公司都有用呢一個國際標準，呢件事而家我  
4 哋關注喇，呢個國際標準，正如我頭先解釋，我哋都好樂意探討下喺香港嘅適  
5 用性嘅，對於竊港嘅交通運輸系統嚟講。

6 MR DUNCAN：（經傳譯員）可唔可以而家同你講下人力嘅供應嘅問題？委員會收到  
7 嘅書面意見書就係顯示合資格嘅員工，特別係巴士車長方面係有短缺嘅，呢個  
8 問題已經持續咗一輪嚟喇，我咁樣簡述個情況公唔公道呢，咁講？

9 黎以德先生：（經傳譯員）主席，我會話其實呢個情況係都反映番整體香港勞動市場  
10 嘅問題，唔單只係專營巴士公司出現咁嘅現象，其他同運輸有關嘅公司等等都  
11 有呢一個情況嘅，物流嘅公司亦都一樣。

12 MR DUNCAN：（經傳譯員）咁其中一點運輸署有令到委員會知悉嘅，相信你都知道  
13 嘅，就係係最新嘅指引，頭先我哋傾過嚟喇，就係需要--因為有新嘅指引要多聘  
14 請二百五十個嘅額外司機，你知唔知道？

15 黎以德先生：（經傳譯員）我都知道嘅。

16 MR DUNCAN：（經傳譯員）喺你嘅書面意見書你提到香港係全球少數嘅地方係專營  
17 巴士嘅服務係有獲得任何政府嘅直接補貼，而由私人嘅營運商去營運嘅，你記  
18 唔記得喺你嘅陳詞入面有提到呢一點？

19 黎以德先生：（經傳譯員）係嘅，主席，雖然--如果主席准許嘅話，我想即係準確啲  
20 去講，係一般嚟講，有政府補貼。

21 主席：（經傳譯員）你可唔可以講番頭先鄧樂勤大律師指緊係邊段呢？係咪律師而家  
22 已經係喺嗰個畫面嗰度見到喇？但係呢個應該係講緊另外一部分，呢個係一般  
23 嘅觀察嘅，黎先生。

24 黎以德先生：（經傳譯員）主席，唔好意思，我想澄清下，即係或者我比較執著，我  
25 聽到鄧樂勤大律師話喺我嘅開場白入面提到我話完全有政府嘅資助，我想即係  
26 澄清一下，一般嚟講係有政府資助，唔係話絕對有政府資助。

27 MR DUNCAN：（經傳譯員）好，咁請大家睇第 14 段。或者你可以指畀我哋睇，當你  
28 講番頭先呢點嘅時候，喺書面意見書邊部分？關於有政府直接資助嗰方面係邊  
29 段？

30 黎以德先生：（經傳譯員）第 14 段，應該係第 14 段。

31 MR DUNCAN：（經傳譯員）而家可以等我引用番呢一段，應該要留意嘅就係香港係  
32 全球嘅國家或者城市當中極少數專營巴士服務就係由私人營運商提供，係有直  
33 接嘅政府資助嘅，你頭先提到係呢點，係咪？

34 黎以德先生：（經傳譯員）冇錯。

1 MR DUNCAN：（經傳譯員）政府有冇喺非直接嘅提供資助或者補貼畀專營公司？

2 黎以德先生：（經傳譯員）主席，有幾個例子，我而家可以引述嘅，譬如專營巴士公  
3 司喇，就唔需要交首次登記稅，呢個似乎都係其中一個比較清晰嘅例子。主  
4 席，另外一個原因點解喺我開場發言嘅時候咁樣講呢？政府一般嚟講係唔會提  
5 供資助，其實我係想解番啲書面意見書入面呢度提供嘅說話嘅，咁多年嚟，喺  
6 近年喇，尤其，我哋係有提供一啲嘅某啲形式嘅財政嘅資助--援助係畀專營公司  
7 嘅，去達至某一個政策或者達至某一個計劃，畀個例子畀委員會參考，譬如電  
8 動巴士嘅試驗計劃，呢個措施屬於環保局嘅，而唔係運房局，但係呢個都係政  
9 府嘅資助之一，就係提供資助畀巴士公司購置一定數目嘅電動巴士，以試驗性  
10 質運行，所以呢個某程度上都係一種資助嚟嘅。

11 MR DUNCAN：（經傳譯員）另外，我咁樣--我記憶啱唔啱，係咪有四架電動巴士？

12 黎以德先生：（經傳譯員）係三十六架單層巴士，主席。一個更新近嘅例子，就係我  
13 哋提供資助，幫助巴士公司設置啲巴士站有啲實時嘅資訊板，咁係一個配對資  
14 助嘅計劃嚟嘅，一個自願性嘅資金配對資助嘅計劃。除此之外，除咗呢幾個有  
15 特定目的嘅資助計劃方面，整體嚟講，的而且確政府係唔會直接提供資助畀專  
16 營公司嘅。

17 MR DUNCAN：（經傳譯員）政府係咪有提供資助畀渡輪公司？

18 黎以德先生：（經傳譯員）我哋提供啲特別支援措施，呢個係個個計劃嘅用語，咁律  
19 師用嘅「資助」呢個字眼我都唔會有爭議嘅，但係意思就係話對於係離島嘅渡  
20 輪服務，我哋提供資助，但係呢個有特別嘅政策考慮嘅。渡輪對於住喺離島嘅  
21 居民係唯一交通工具，而呢啲渡輪財政上因為唔可行喇，呢個係一個長期嘅問  
22 題，除非佢哋渡輪大幅加費喇，我哋認為公眾亦都未必能負擔。有一個特定背  
23 景，所以我哋先對渡輪公司係有一個特別嘅援助措施。

24 MR DUNCAN：（經傳譯員）呢個特別援助措施施行咗幾耐？

25 黎以德先生：（經傳譯員）我可唔可以講蔡先生回答？因為佢係負責日常嘅運作嘅，  
26 蔡先生。

27 蔡傑銘先生：（經傳譯員）唔該晒，主席。律師問呢個問題，正如黎先生講，離島嘅  
28 渡輪航線係一個特別嘅情況，政府係有提供一啲嘅特別支援措施，有六條航線  
29 都係接受緊我哋嘅特別支援嘅措施嘅。基本上，正如黎先生所講，政府亦都明  
30 白，除非渡輪服務大幅加費，因為離島居民係要倚賴渡輪嘅服務去返工、出去  
31 市區或者係做其他嘅事，如果唔大幅加費，佢哋呢啲服務財政上不可行嘅，喺  
32 咁嘅情況底下，政府嘅資助個別計劃，譬如話係維修費、電費、有啲嘅補費嘅  
33 扣減喇，同埋如果係有小童同埋長者嘅半價優惠嘅話，亦都係明白佢哋減少個  
34 收入嘅，呢啲係我哋就住呢方面提供嘅資助。政府都需要向立法會財務委員會  
35 申請撥款，然後就將公帑資助呢啲渡輪嘅營運商，咁我哋亦都有透過運輸署去  
36 核實呢啲原因係咪真確，去確保公帑係用得其所，咁呢個係關於對於渡輪公司

1 嘅特別支援計劃措施嘅。

2 MR DUNCAN：（經傳譯員）唔該。講番人力嘅問題，黎先生，我想畀你睇下 TD--即  
3 係運輸署嘅第 1510 頁，呢個就係啱啱週末先會收到嘅文件喇，你可能係睇過，  
4 可能未睇。

5 黎以德先生：Yes. It's notes of a meeting; is that right?

6 MR DUNCAN：（經傳譯員）係呢個會議紀錄嚟㗎，係寫中文嘅，呢個似乎就係一個  
7 特別會議嘅會議紀錄，深水埗區議會，2017 年 9 月 28 號，就喺深水埗發生慘劇  
8 之後開嘅特別會議。我就有興趣睇 1523 頁。

9 黎以德先生：（經傳譯員）係。

10 MR DUNCAN：（經傳譯員）第 203 段，羅馬數字 III，我讀番呢個我收到嘅英文譯  
11 本，佢就係咁講㗎，佢就會係「運輸署嘅總運輸主任就話政府關注運輸業人手  
12 不足的問題，巴士公司有責任透過增加薪酬、福利和晉升機會吸引新人入行及  
13 挽留人才。」你中文睇嘅版本同我頭先英文講嘅係咪都係脗合？

14 黎以德先生：（經傳譯員）都係嘅。

15 MR DUNCAN：（經傳譯員）係咪都反映--準確反映政府就住人手不足嗰個問題嘅立  
16 場呢？

17 黎以德先生：（經傳譯員）主席，我諗係反映我哋預期專營公司要做啲乜嘢，佢唔係  
18 反映整體嘅情況，因為呢一個係一個即係梁先生，即係總運輸主任一個綜合回  
19 應嘅一部分，我只能夠話呢個係我哋立場嘅部分，我哋嘅立場其餘嘅部分，譬  
20 如話關於長期人手不足嘅問題，我哋通過立法嘅程序，我都會再解釋番嘅，提  
21 交修訂嘅法例去--嘅建議去--譬如放鬆對於商業司機嘅牌照規定等等，所以基本  
22 上現時如果你想申請一個牌照做商業司機嘅話，你需要持有私人駕駛執照三年  
23 先可以有資格申請--即係話申請做商業車輛嘅司機，咁亦都因為長期人手不足嘅  
24 問題喇，我哋已經提出建議，同埋立法會亦都同意㗎喇，同業界一樣都同意三  
25 年呢一個要求可以縮減為一年。日後你只需要係擁有私家車嘅駕駛執照一年，  
26 咁你就已經可以係申請商用車輛嘅駕駛執照，呢一個就係包括咗巴士嘅駕駛執  
27 照，亦都包括埋係專營巴士嘅駕駛執照。我哋而家正係草擬緊嗰個修訂嘅條例  
28 草案，希望係今年嘅年尾之前可以引入立法會。如果立法會係通過嘅話，亦都  
29 可以喺某程度上幫我哋舒緩司機人手不足呢個問題，未必係可以完全解決個問  
30 題，不過希望都可以係緩減一下嗰個問題，所以我哋喺呢方面係做咗呢個工  
31 夫。另外，縱使係咁講，我哋都話專營公司--佢作為呢個專營巴士公司，佢作為  
32 一個專營公司，佢要採取一切嘅步驟嚟到確保佢有足夠嘅司機人手去提供服  
33 務。

34 MR DUNCAN：（經傳譯員）我剛才係提及係呢一個講法，咁究竟政府係同巴士公司  
35 跟進過咩嘢工夫嚟到去係促請佢哋係要有足夠嘅司機呢？有足夠嘅車長呢？

1 黎以德先生：（經傳譯員）主席先生，好近期呢--我可唔可以咁講呢？就話喺佢哋個  
2 個薪酬方案嗰度係有一啲重組，即係我係指巴士司機嘅薪酬方案，佢哋個重  
3 組都係希望係將個薪酬變得更有吸引力，或者起碼等佢哋巴士司機更加確定究  
4 竟係每個月係有幾多收入，希望可以有一個更大嘅保障，呢一個都係因為政府  
5 係同埋巴士公司之間嘅商討嘅結果㗎，當然，我哋都要對巴士公司係公道嘅，  
6 我一定要指出，佢哋係反應好快、好迅速，喺大埔意外之後，喺大埔嘅巴士意  
7 外呢個慘劇之後，佢哋亦都係反應非常之迅速。

8 MR DUNCAN：（經傳譯員）我想問，巴士公司係咪已經承諾咗會係提升佢哋嘅薪  
9 酬？

10 黎以德先生：（經傳譯員）我諗嗰個重組咗嘅薪酬方案已經係公布咗㗎喇。

11 MR DUNCAN：（經傳譯員）鑑於你講嗰個人手不足都係長期嘅問題，我想問下政府  
12 會否就係提供--或者會否考慮係提供一啲補助、補貼，即係薪酬嗰方面咁做呢？

13 黎以德先生：（經傳譯員）如果我哋講話補貼，如果係長期咁樣提供一個補貼，我諗  
14 我哋必須非常之小心咁去考慮呢件事宜，因為如果咁做嘅話，其實對於我哋認  
15 為喺香港點樣去營運公共交通服務嘅一個好根本嘅政策嘅改變。另外或者你  
16 而家問我，我即時嘅回應係我諗巴士司機嘅招聘問題未去到嗰個階段，我諗仲  
17 係有方法，巴士公司係可以用嗰啲方法去招聘同埋挽留足夠嘅合資格嘅司機  
18 嘅。我亦都有睇過一啲巴士公司提交畀呢個委員會嘅一啲文件，我諗喺嗰啲意  
19 見書，喺嗰啲文件裏面，你都可以見到喇，佢哋亦都好盡力咁樣去改善個情  
20 況，我諗我哋未去到嗰個階段、嗰個地步就係話要係提供補貼係畀巴士公司去  
21 招聘人手㗎。我哋可以透過其他嘅方法嚟到去舒緩呢個人手不足嘅問題，剛剛  
22 我提過，就係喺呢個係牌照嘅申請資格喇。剛才你亦都提過二百一十五名嘅司  
23 機，我哋嗰啲指引就會今年稍後時間就係陸續咁推出嘅，一路係去到 2019 年，  
24 嗰個目標就係希望巴士公司有足夠嘅時間去招聘足夠嘅人手，佢哋所需要嘅司  
25 機嘅數目。另外，過去嗰一、兩年，我哋亦都有做過呢啲工作㗎，就係話我哋  
26 優先處理係新嘅司機嘅牌照考試，我哋會優先就係處理呢啲巴士司機嘅駕駛執  
27 照嘅考試，就係同處理私家車嘅駕駛執照考試係唔同嘅。其實我哋就係--運輸署  
28 就已經係調動咗嗰啲考車官嚟到係優先處理嗰啲申請駕駛巴士嘅牌照嘅考生。

29 MR DUNCAN：（經傳譯員）如果話增加薪酬，其實剛剛我哋都提過喇，你認唔認為  
30 增加薪酬就係會引致嗰個支出係大大增加呢？

31 黎以德先生：（經傳譯員）其實事實就係你招聘得愈多司機，咁當然一般嚟講嗰個成  
32 本就會上升，不過咁樣並冇令到巴士公司係唔肯就係去跟從最新嗰個指引。

33 MR DUNCAN：（經傳譯員）所以我想問，局方有冇其他嘅措施，除咗係同巴士公司  
34 講以及係降低嗰個考牌嘅申請嘅資格，有冇其他嘅措施去企圖去舒緩嗰個人手  
35 不足嘅問題？

36 黎以德先生：（經傳譯員）我哋都喺度鼓勵巴士公司嚟招聘嗰方面或者諗下一啲潛在

1 嘅人手嘅，譬如話婦女，其實而家佢哋呢方面都做多咗好多呢方面嘅工夫㗎  
2 喇。即係佢哋可以考慮一下聘用婦女係做司機。自從係大埔嘅慘劇之後，當然  
3 以下呢個課題就更加係具敏感性，即係話招聘兼職司機嚟到去喺某程度上就係  
4 緩解一下呢個人手不足嘅問題，我相信委員會係會知道㗎喇，就係自從慘劇之  
5 後，呢一個方法其實巴士公司已經係暫停㗎。

6 MR DUNCAN：（經傳譯員）我想問下，車長嗰方面，有幾多--或者嗰個比例上係幾  
7 多係女性？

8 黎以德先生：（經傳譯員）我自己就有嗰個答案，唔知我啲同事知唔知呢。

9 MR DUNCAN：（經傳譯員）會唔會個比例好低？

10 黎以德先生：（經傳譯員）肯定就唔高。主席先生，嗰人數字有所上升嘅，個比例有  
11 所上升嘅，我哋個角度就係我哋歡迎更多就係女士去駕駛巴士。

12 MR DUNCAN：（經傳譯員）我想問，局方有冇採取任何嘅措施嚟到係鼓勵女士去申  
13 請駕駛巴士？

14 黎以德先生：（經傳譯員）唔係我哋去做㗎，因為係巴士公司佢負責招聘，但係呢一  
15 個訊息我哋係唔止一次係提過出嚟嘅，而運輸署我亦都知道有同佢哋討論。我  
16 知道就係巴士公司方面--喺呢方面嘅程序都係有加強個工作嘅，起碼譬如都聽聞  
17 就係話--其實你大家如果去搭巴士嘅時候，你會見到多啲--遇上多啲係女性嘅司  
18 機，你都可以係明白呢一點。

19 MR DUNCAN：（經傳譯員）局方、政府又或者係巴士公司，究竟有冇採取步驟嚟到  
20 係吸引女士去搵巴士？

21 主席：（經傳譯員）呢個留番係畀巴士公司去答。不過你都要直接回答鄧樂勤大律師  
22 嘅問題，係咪有作出咁嘅--有主動去做呢一方面嘅工作？即係話係問下局方有冇  
23 主動咁樣去促進呢件事？

24 黎以德先生：（經傳譯員）主席先生，簡短咁回答，我哋自己唔係負責招聘嘅，不過  
25 我哋的而且確係有鼓勵巴士公司去咁樣做。

26 主席：（經傳譯員）係，好，唔該。

27 MR DUNCAN：（經傳譯員）我哋進行呢一個檢討，就係由於過往嗰幾年涉及巴士都  
28 有多宗就係慘劇，多宗嘅意外，我諗想問下，局方自己有冇進行過研究，有冇  
29 去睇下有冇啲共同嘅係成因呢？即係喺呢啲嘅意外背後，有冇一啲共同嘅成  
30 因？

31 黎以德先生：（經傳譯員）主席先生，我較早時候解釋過，研究意外嘅成因呢個係運  
32 輸署裏面嘅專業嘅同事嘅工作㗎喇，坦白講，我哋喺局方，我哋有咁嘅能力去  
33 做呢方面嘅研究，不過過往曾經有咁嘅情況，我哋認為應該都有做過咁嘅工作  
34 或者係應該做呢方面嘅工作嘅話，我哋就會叫署方就係去睇一睇嘅。譬如係讓

1 我提兩個例子喇，一個就像最近係修訂咗嗰個工作休息及用膳時間嘅指引。呢  
2 度我就係要為我哋喺 4 月交上嚟嘅書面意見書就係作一個更正，因為交咗之  
3 後，自此我哋就知道係 2017 年嘅時候開始做嗰個檢討，而且亦都係由局方去係  
4 提議嘅，呢個係其中一個例子。另外喺我哋嘅意見書裏面嘅某處同埋喺運輸署  
5 嘅意見書裏面亦都有寫嘅。講到話車門--落車嘅車門玻璃爆裂，當時喺 2016 年  
6 有幾宗咁樣嘅事件，當時玻璃就爛咗，導致乘客係受傷。咁喺逐漸我哋睇得出  
7 有個咁樣嘅模式，因為意外接二連三咁發生嘅時候，我都記得喺兩個月之內都  
8 有連續發生嘅，我哋就思疑可能有啲地方出咗問題，可能係巴士設計方面喇、  
9 係咪巴士用嘅玻璃咩等等。我哋就敦促運輸署去睇下呢個情況，然後運輸署就  
10 同巴士公司研究，到最尾就有增加咗一啲嘅安全措施嘅，譬如話喺車門--玻璃門  
11 就打橫係有一個嘅護欄喇，去減低乘客重傷嘅可能性，因為如果乘客被拋出巴  
12 士外嘅話，係會重傷嘅。我哋都盡量去跟緊呢件事，有時我哋亦都會主動要求  
13 運輸署檢討，呢啲檢討、研究好多時候其實亦都會由運輸署直接提出嚟，因為  
14 佢哋其實係前線日常接觸呢啲事嘅部門，有時佢哋嘅判斷比我哋更加準確，佢  
15 哋更加明白要做啲乜嘢事、要研究乜嘢嘢嘅，因為佢哋每日都會同巴士公司、  
16 區議會、公眾等等有來往。

17 MR DUNCAN：（經傳譯員）我嘅理解就係佢哋嘅範圍嚟嘅，如果發現有一啲共同嘅  
18 成因嘅話，咁佢哋係會匯報畀局方聽？

19 黎以德先生：（經傳譯員）主席，如果係講緊意外原因嘅話，尤其如果巴士嘅運作係  
20 牽涉其中嘅呢，冇錯，我哋預期運輸署同埋運房局之間係應該有溝通嘅。

21 MR DUNCAN：（經傳譯員）咁局方有冇任何嘅結論？多宗嘅意外，一連串嘅意外，  
22 有冇咩嘢共通嘅成因？

23 黎以德先生：（經傳譯員）主席，我可唔可以請律師--問下，所謂「一連串嘅意外」  
24 係講緊咩嘢一連串意外？

25 MR DUNCAN：（經傳譯員）係咪有一連串意外咩？我哋講番 2003 年喺屯門有一--後  
26 來柴灣有巴士意外喇，喺深水埗喇，然後就今年喺大埔，都有數宗非常嚴重嘅  
27 致命巴士意外，我提到嘅「一連串意外」就係呢啲。

28 黎以德先生：（經傳譯員）主席，如果你容許嘅話，我回應就唔想提今次呢一個大埔  
29 嘅巴士意外住，因為仲有法律嘅程序，我就唔想作出任何推斷或者有任何嘅指  
30 稱呢一次意外成因係乜嘢。

31 主席：（經傳譯員）唔係，調查委員會已經係講清楚我哋唔會係喺呢個調查釐清邊一  
32 個嘅係有咩嘢責任嘅，但係我哋亦都可以去探究一下一般嘅情況。

33 黎以德先生：（經傳譯員）一般嚟講，每一宗意外都有一個特定嘅意外嘅原因嘅，可  
34 以將佢分類，機件故障咩，係咪巴士機件故障，或者巴士本身個設計，或者道  
35 路設計，又或者駕駛態度、乘客嘅行為，有啲嘅成因我哋就會話巴士同埋巴士  
36 司機係有積極嘅參與嘅，意思即係話巴士司機又或者係巴士嘅機件故障就係直

1 接導致意外嘅原因，有啲嘅意外就係一啲被動嘅方式，即係話架巴士--譬如話都  
2 係有一個受害嘅涉事車輛喇，就係譬如係後面架車撞上嚟咁樣，有唔同嘅意外  
3 成因。喺發生一連串嘅意外之後，運輸署、運房局就會睇番有關啲意外，睇下  
4 我哋可以吸取咩嘢教訓，有咩嘢改進。黑盒同埋車輛限速器就係有一次喺屯  
5 門，係 2003 年嘅巴士慘劇意外之後提倡㗎喇。

6 MR DUNCAN：（經傳譯員）咁亦都係根據當時專家報告，專家報告建議呢啲安全措  
7 施嘅？

8 黎以德先生：（經傳譯員）冇錯，係，政府採納專家嘅報告，亦都好快實施咗呢一個  
9 做法，而家所有巴士已經係有黑盒同埋有限速器兩個裝置㗎喇。

10 MR DUNCAN：（經傳譯員）你提到幾個原因喇，係道路設計、機件故障、司機操  
11 守、乘客嘅行為，有冇一個比較係佔大嘅比重係個成因呢？

12 黎以德先生：（經傳譯員）主席，據我所知就有喇。主席，啱啱提到有啲嘅安全措施  
13 喺 2003 年嗰個意外之後實施嘅，喺屯門發生嘅巴士嘅意外。咁講啱唔啱呢？喺  
14 深水埗，2017 年 9 月發生嘅巴士意外之後，就亦都導致檢討咗有關嘅指引，咁  
15 嗰個指引就喺今年 2 月修訂嘅，主席，咁講亦都係公道嘅，發生咗嗰次慘劇之  
16 後，就係導致我哋做咗個檢討。

17 主席：（經傳譯員）呢個就係車長嗰個工作時間嗰個指引㗎嘛？

18 黎以德先生：（經傳譯員）冇錯。

19 MR DUNCAN：（經傳譯員）之前嘅指引我相信就係喺 2012 年開始實施嘅，啱唔啱？

20 黎以德先生：（經傳譯員）應該係 2010 年，主席。

21 MR DUNCAN：（經傳譯員）係，2010 年，唔該。新嘅指引據我理解就係 18 年 2 月  
22 23 號就修訂嘅，即係發生咗喺大埔道嘅咁不幸嘅意外嘅幾個星期之內，係咪  
23 呀？

24 黎以德先生：（經傳譯員）冇錯，主席。

25 MR DUNCAN：（經傳譯員）如果我有理解錯嘅話，深水埗嗰次意外亦都導致部門係  
26 要求巴士公司每月提交更多資料，啱唔啱？

27 黎以德先生：（經傳譯員）冇錯。

28 MR DUNCAN：（經傳譯員）譬如車長干犯交通違例事項喇、喺巴士公司車上監察嘅  
29 工作喇、突擊檢查黑盒、司機要做啲嘅呼氣測試，測試酒精含量喇呢啲，我理  
30 解啱唔啱？喺大埔嗰次意外之後就係成立咗一個工作小組㗎？

31 黎以德先生：（經傳譯員）冇錯，主席。

32 MR DUNCAN：（經傳譯員）呢一個工作小組嘅目的係檢討安裝--喺巴士上安裝新嘅

1 安全儀器嘅可行性？

2 黎以德先生：（經傳譯員）冇錯。

3 MR DUNCAN：（經傳譯員）係咪都係因為喺大埔道呢個不幸嘅意外導致咁樣做呢？

4 黎以德先生：（經傳譯員）係，咁樣講亦都係公道。

5 MR DUNCAN：（經傳譯員）所以總括嚟講，黎先生可唔可以咁樣問你呢？如果有咁  
6 嘅講法，你同唔同意呢？政府其實係用一個被動嘅反應式嘅方法去處理呢件事，  
7 而唔係一個主動嘅方法呢？

8 黎以德先生：（經傳譯員）主席，喺一個尤其嚴重嘅意外之後，政府有責任唔單只係  
9 找出成因，更加要睇下以後點樣避免類似嘅意外，或者起碼減低再次發生嘅可能  
10 性，但係正如我喺開場發言所講，我哋亦都希望加強安全，唔單只係就住某  
11 件事、某次意外，而係因應科技嘅轉變、公眾期望嘅同埋要求嘅轉變，所以我  
12 唔會話我哋純粹係被動作反應嘅。雖然我都同意喺一次意外之後當然政府係要有  
13 反應喇，發生意外一定係悲慘㗎，因為冇辦法防止到佢發生，但係重要嘅就  
14 係點樣可以防止佢再一次發生。

15 MR DUNCAN：（經傳譯員）唔該晒，黎先生。

16 主席：（經傳譯員）唔該晒，鄧樂勤大律師。

17 羅先生：（經傳譯員）我仲有幾條好短嘅問題關於個指引，即係話特別更次係可以做  
18 到十四個小時，運房局有冇做過任何研究，可以睇下取消呢一個嘅--完全取消個  
19 特別更次嘅話，會點樣影響司機人手方面呢？

20 黎以德先生：（經傳譯員）主席，我知道運輸署係有做研究嘅，我就有--而家有研究  
21 嘅結果喺度，署長而家就喺我身後，如果主席容許嘅話，下一節可以由署長回  
22 答，但係有啲做㗎，係，可以問下署長有冇做過任何嘅工作。

23 羅先生：（經傳譯員）仲有一條問題，你提到司機人手不足係一個長期嘅問題㗎喇，  
24 個問題已經喺度咁耐時間，點解冇採取更加即係強烈嘅措施去處理呢個問題  
25 呢，因為喺工作時數方面，司機駕駛過勞都會有好大影響，有冇政策去直接研  
26 究呢個問題呢？

27 黎以德先生：（經傳譯員）主席，我相信多年來巴士公司制訂過唔同嘅措施，譬如話  
28 聘請更多女車長、兼職司機，不過我頭先提到喇，而家呢個係敏感話題，之前  
29 引入呢個做法就係解決人手不足嘅問題，又或者係提高車長嘅福利，仲有措施  
30 去加強本地僱用公司，本地即係本區咁解，即係話住喺巴士廠附近嘅人士可以  
31 聘用做車長，因為我理解，好多人就唔想話長途跋涉去當班，然後收工之後又  
32 長途跋涉返屋企嘅，佢哋亦都有考慮所有呢啲嘅措施。呢啲係唔同嘅措施喇，  
33 另外仲有聘用番退休嘅車長或者退休人士喇，令佢哋再次投入勞動市場，提供  
34 適當嘅報酬，譬如話改善佢哋個報酬嘅計算方法同埋係有一啲嘅特別獎金咁。

1 可能盧教授（羅教授？）就係有諗到呢個輸入外勞嘅問題，喺呢一點，我哋不  
2 時都會研究嘅，我哋嘅結論都係不適宜即係喺車長方面引入外勞係不適合㗎，  
3 因為車長需要非常--好多時候非常近距離同乘客接觸㗎，所以同乘客能夠以乘客  
4 嘅語言去溝通都係好重要。如果話由香港以外引入勞工擔任車長嘅話，就可能  
5 會引發乘客同埋外勞司機嘅溝通問題喇。另一點，我哋香港係·右軚嘅，呢一  
6 點亦都係比較少見㗎嘅。

7 唔該晒，主席。

8 歐陽先生：（經傳譯員）我想問下黎先生嘅就係喺你嘅開場白--對唔住，因為我有啲  
9 感冒所以把聲比較沉，你喺開場白嗰度有講過，就話你每一日就會特別抽樣檢  
10 查十四部巴士嘅，咁但係喺街上每日有數以千計嘅巴士，咁可唔可以解釋一下  
11 點解係定咗係每日抽查十四部車呢？

12 黎以德先生：（經傳譯員）主席先生，我相信--再次喇，就喺呢條問題上面，署長應  
13 該可以係答得更好。我講番個具體嘅數字，即係點解係十四，咁同埋點樣樣  
14 達至呢個數字，至於話點解個數字唔係再多㗎，你要明白，呢一個係一個突擊  
15 嘅檢查。換句話講，我哋當日即時係睇嗰架車嘅，即係之前有預先嘅通告，有  
16 預先嘅警告㗎，你可以想像一下，其實咁樣樣對於當日巴士嘅調動係會有影  
17 響，喺嗰一日㗎講，就係巴士公司就要調動一下嚟到搵另一部巴士去代替嗰部  
18 抽中咗嘅巴士㗎，所以喺營運上面嚟到考慮，你都要睇埋呢一點。

19 另外就係呢一個係喺年檢同埋月檢之外，或者係其他嘅巴士公司係做--或者  
20 係需要做嘅檢查以上再做嘅。而且巴士公司自己本身每一日都會有係檢查嘅，  
21 喺架巴士係出去服務之前就會做檢查，夜晚係返去車廠嘅時候都有，所以我哋  
22 呢一個係突擊係抽樣調查十四部車輛，呢一個係一個制衡嘅保障嘅措施，呢一  
23 個就係喺其他嘅所做嘅嘢以外再做嘅，所以我哋認為呢個做法都可以確保嘅巴  
24 士就係穩妥嘅。

25 主席：（經傳譯員）我自己就有咩嘢問題要問㗎，所以我就係感謝黎先生同埋蔡先生  
26 喇。葉女士，雖然你有發言，但係亦都感謝你出席，我哋非常感謝你哋係協助  
27 我哋委員會，讓我哋係更好咁理解嗰個制度點樣運行。

28 我哋而家就係會小休午飯，我哋會兩點半再返嚟嘅，咁兩點半嘅時候就會  
29 聽陳女士嘅發言。

30 黎以德先生：（經傳譯員）好，唔該晒主席，唔該晒，係，律師。

31

32 下午 1 時 04 分聆訊押後

33

34 下午 2 時 27 分恢復聆訊

1 出席人士如前。

2

3 主席：（經傳譯員）陳女士同埋你哋運輸署嘅各位代表，我想邀請你哋坐上前面嚟。  
4 或者你哋可以逐個上嚟，我哋會係整隊人一齊坐喺度嘅。鄧樂勤大律師，你可  
5 以開始喇，係咪呀？

6 MR DUNCAN：（經傳譯員）各位先生女士，感謝大家提供咗書面嘅意見書畀我哋，  
7 交咗畀檢討委員會，亦都感謝大家今日出席，讓我有機會係問下大家一啲口述  
8 嘅證供。你哋係有律師代表嘅，如果有嘅話，一般就會帶你哋係講番啲嘅係口  
9 述證供嘅，你哋會唔會係想係作一個口述嘅證供呢？

10 陳美寶女士：（經傳譯員）係，我想嘅，我就想喺席前就係作一個陳述。

11 主席：（經傳譯員）好，請你開始，唔該。

12 陳美寶女士：（經傳譯員）主席先生，委員會嘅成員，午安，感謝你哋畀我哋呢個機  
13 會今日喺你哋席前，讓我哋作一個口述證供，呢個就係關乎係運輸署如何去監  
14 管同埋監察係香港嘅專營巴士服務，我哋知道你哋係進行呢一個檢討嘅，呢個  
15 係喺大埔公路發生係巴士意外慘劇之後所組成嘅一個檢討委員會，係 2 月 10 號  
16 所發生嘅。

17 我自己以及係李萃珍女士同埋其他嘅助理署長，佢哋都係幫手係做呢個監察  
18 同埋監管嘅。我哋有陳英傑先生，佢係助理署長／行政及牌照；關翠蘭女士，  
19 助理署長／特別職務；同埋邱國鼎先生，佢係總工程師／道路安全及標準研  
20 究；同埋李美鳳女士，係總運輸主任／特別職務。我哋樂意係協助檢討委員  
21 會，我哋會如實作證，希望就係可以回答係你哋想問嘅問題，亦都係想話畀大  
22 家聽我哋作為一個監管機構，係如何工作嘅。

23 運輸署嘅首長係運輸署署長，佢係負責呢一個係《道路交通條例》，我哋亦  
24 都係會睇呢一個公共交通服務，我哋亦都睇埋係主要嘅係交通基建嘅。我哋  
25 係有《公共巴士服務條例》同埋有關嘅規例嘅，呢兩者都係我哋最主要嘅係工  
26 具，讓我哋去監管同埋監察香港嘅公共巴士服務。我哋嘅政策嘅目標同埋公眾  
27 嘅期望，即係對我哋運輸署方面，都係要確保係專營巴士服務都係適當同埋係  
28 有效率嘅，呢一點亦都係喺條例嗰度寫明嘅。

29 講到安全方面嘅事宜，對我哋嚟講，都係好重要嘅，否則嘅話，就唔能夠係  
30 有一個係有效同埋可靠嘅服務。其實我哋喺驗車嘅時候，我哋會睇下有冇毛  
31 病，我哋亦都會睇下每一百萬行車公里係有幾多係意外率，呢啲都係我哋每年  
32 去評估一下究竟專營巴士公司係如何運作呢一啲都係不言而喻嘅。

33 為咗確保專營公司佢哋就係安全運作，我哋署方就非常之密切咁留意佢哋嘅  
34 表現，我哋會睇下佢哋喺設計、建造嘅階段，去到係投入服務嘅階段，我哋都  
35 會定期去檢查同埋檢驗佢哋嘅車輛，呢個都係喺我哋個規管框架底下係有咁嘅

1 要求嘅。

2 喺五千九百多部持牌嘅專營巴士，佢哋都係要係通過我哋年檢、月檢，同埋  
3 我哋就係每日抽查十四部專營巴士嘅，呢個都係每日十四部，其實我哋每年就  
4 總共有三千四百部咁嘅巴士受到檢查嘅。我哋亦都係每個月都檢討一下佢哋嘅  
5 安全表現，譬如話我哋去分析啲意外嘅數字，呢一啲都係嚟自一個數據庫  
6 嘅。數據庫就係由警方同埋運輸署聯合係輸入啲個資料同埋製作嘅，如果發現  
7 有咩嘢問題或者一啲唔妥嘅地方，我哋都會跟進，都會同有關嘅經營者跟進，  
8 要求佢哋作一個解釋同埋作一個補救嘅。我哋亦都會去睇一睇每一間公司每年  
9 佢個交通意外嘅趨勢嘅，我哋會睇啲數字嚟到睇佢個表現係如何嘅。

10 為咗讓公共巴士服務可以得以提供，我哋係批出一啲專營權嘅，而家總共就  
11 係有六個專營權係畀咗五家公司嘅，呢啲專營權都係授權係署長就可以係監管  
12 巴士公司嘅表現，我哋都係有一啲係服務嘅細節嘅，講及係巴士站嘅地點、票  
13 價，以及係每一條路線係要派幾多部巴士，呢啲都係有所指明嘅，其實係專營  
14 公司都係有咁嘅責任，就係要提供一啲紀錄，話畀我哋聽究竟有幾多部巴士、  
15 有幾多乘客、車程、巴士司機嘅職責、佢哋嘅編制同埋佢哋實際嘅人手，讓我  
16 哋署方可以就係根據番係啲已經係批咗出嚟嘅服務表就係去跟進佢哋嘅表現  
17 嘅。

18 其實我哋嘅監管嘅工作都係不斷進行嘅，過往好多年，為咗我哋更好咁樣去  
19 監管巴士嘅服務同埋係提高呢一個服務嘅水質同埋安全，其實我哋係同巴士營  
20 運商就係有一啲係函件嘅，呢個都係根據係專營權去發出嘅，去確保佢哋就會  
21 增加啲安全嘅意識、提高個安全嘅水平同埋服務水平嘅。

22 我哋係有一個批准咗嘅一個服務詳細表，而我哋亦都係關注車長佢哋嘅工作  
23 環境，但係車長都係公司嘅僱員，而佢哋嘅僱用條件都係公司嘅人手政策之一  
24 嘅。我哋係有一啲行政嘅要求，呢個就係同專營公司係雙方協定咗嘅，我哋署  
25 方就係有一啲指引嘅，呢啲指引係關乎係工作、休息同埋用膳時間嘅指引，就  
26 係喺 1998 年嘅時候引入嘅，過去咁多年係修正咗係六次嘅，最新嘅係 2018 嘅，  
27 就係呢個畀佢哋啲個調派係車長去唔同嘅路線嘅時候有所依循嘅。巴士公司  
28 係需要經常咁樣話畀我哋聽，提供報告，話畀我哋聽究竟佢哋係咪遵從咗呢  
29 啲方面嘅指引嘅。另外我哋亦都就去進行調查，去睇下佢哋係咪跟從啲個指引  
30 去做嘅。

31 講到巴士車長嘅方面，其實係專營權公司亦都自願咁樣係作出一啲服務嘅  
32 承諾，亦都為所有新入職嘅車長就去提供呢個培訓，亦都每三年一次為現役嘅  
33 車長提供一個培訓嘅。佢哋亦都提供咗培訓方面嘅資訊，係每年咁樣向署方係  
34 交呢啲係資料，讓我哋進行呢個監察嘅。呢個當然係喇，如果話署方係每日咁  
35 樣去睇住佢哋係咪係跟從所有嘅指引，同埋啲個資料紀錄係咪每一項都係準確  
36 無訛，呢個當然係一個不切實際嘅期望。

37 講到巴士服務方面，我哋係一個制衡嘅機制嘅，我哋就係透過係現場嘅調

1 查，亦都會睇下係乘客嘅滿意調查，以及係睇下有冇收到一啲係投訴嘅。

2 講番呢個安全，其實我哋係監察住專營巴士公司嘅服務。點樣做呢？就係睇  
3 下嗰個係意外嘅性質、因素等等嘅。此外，我哋亦都會對一啲交通黑點進行  
4 調查，睇下嗰個趨勢，我哋亦都會同其他嘅商用車輛，係以全港嚟計佢個意  
5 外率，係互相比較一下嘅。

6 我哋有跟進嘅工作嘅，譬如話每季都會有交通安全議會嘅係監察嘅；另外，  
7 我亦都會跟進其他嘅提議，我哋亦都有自己嘅觀察，譬如話我哋經常咁樣係同  
8 巴士公司去會面，去研究一下有啲咩嘢措施、有啲咩嘢建議係可以就係提升巴  
9 士車長佢個駕駛嘅態度同埋係表現嘅。

10 其實我哋知道巴士嘅車隊同埋乘客量都不斷有所係擴大嘅，我哋知道同十年  
11 之前比較就係多咗百分之三點二四嘅，我哋嘅乘客量亦都係去到係三千萬人次  
12 嘅，其實係專營權公司係面對一個非常嚴峻嘅人手不足嘅問題嘅，所以無可避  
13 免嘅就係巴士公司係要尋求不同嘅方法嚟到去滿意呢個人手嘅需要。譬如話佢  
14 哋透過調查一個薪酬，希望係令到新入行嘅人士係覺得更加吸引，亦都將退休  
15 年齡係延長，以及係聘請呢個兼職嘅司機嘅。

16 就係喺一個咁嘅背景底下，我哋運輸署係見到有咁嘅需要去加強一下巴士車  
17 長佢個安全駕駛嘅意識，我哋亦都係透過係監察佢哋嗰個培訓嘅安排嘅，包  
18 括係新入行嘅車長、在職嘅車長，無論佢係全職定係兼職嘅車長，以及係一啲  
19 特別嘅培訓或者一啲係補救嘅培訓，如果發現佢哋就係嗰個駕駛行為係唔好，  
20 又或者佢個駕駛嘅工作係因為生病或者其他原因係暫停咗好一段時間嘅，我  
21 哋係希望係有一啲新嘅指引，呢個就係關乎係人手培訓方面嘅新嘅指引，希望  
22 裏面有一啲基本嘅指引，佢有啲咩嘢元素、係有幾長同埋就係嗰個比重嘅，好  
23 讓我哋可以係內部同埋係出面都可以監察住佢哋嘅表現嘅。

24 我哋已經同巴士公司就係喺頭嗰兩次係召開工作小組會議嘅時候講咗我哋嘅  
25 睇法，因為我哋有一個工作小組係喺 3 月 13 號同埋係 4 月 30 號就係舉行過呢啲  
26 會議嘅。我哋就希望係喺呢個 6 月尾嘅時候完成呢個工作小組嘅工作，係關乎  
27 安全嘅問題嘅。

28 講到話有啲乜嘢係設備可以協助車長嘅工作呢？我哋亦都同巴士公司同埋係  
29 巴士製造商係研究過，睇下譬如話新嘅巴士係咪所有嘅座位要有安全帶，同埋  
30 一個車速限制器，亦都係可以喺落斜嘅時候都做到，以及係有一啲係設備可以  
31 監察住車長嘅表現。我哋最終嘅目標都係希望安全駕駛，提高乘客嘅安全。

32 總括嚟講，我哋繼續係會監察呢一個公共巴士嘅服務，香港嘅公共巴士服  
33 務，我哋係會不遺餘力咁樣樣去提升呢一個安全嘅水平。

34 主席先生，我要作嘅開場白係到此為止，我同埋我嘅同事都係樂意回答大家  
35 嘅問題。

36 主席：（經傳譯員）好，唔該晒。鄧樂勤大律師。

1 MR DUNCAN：（經傳譯員）唔該晒主席。陳女士，我哋剛剛係聽到你嘅開場白，你  
2 講到呢一個監察嘅工作。我相信你都記得我哋呢個委員會佢嘅職權範圍，其中  
3 一項--大家可以或者睇番一個第 2 個項，即係關於呢個職權範圍，就係講到監  
4 管，即係監管專營巴士公司同埋係監察專營巴士公司。我知道今朝早你都係在  
5 席嘅，你都聽到我哋係向局方係問一啲問題，就係關乎係監管嘅工作嘅。我就  
6 監管嗰方面亦都係想問一問你嘅，有幾條問題問你嘅。目前嚟講，嗰個監察嘅  
7 工作係點樣進行嘅，或者你哋而家都喺度睇緊一啲轉變，因為聽你剛才所講，  
8 監察嘅工作係會有啲會有啲改變嘅，係咪呀？

9 或者首先咁，我嘅理解啱唔啱呢？目前嗰個程序，即係你做監察嗰個程序係  
10 咪係咁樣樣嘅呢，或者你可以睇番你嘅書面陳詞，就係 TD-2 第 293 頁嘅，你會  
11 見到呢度就有一份文件，就係附錄 L 嘅，就係有一啲嘅由專營巴士公司提交嘅  
12 紀錄，呢個就係運輸署交界委員會嘅文件之一，你係咪已經搵到呢一頁呀？

13 陳美寶女士：Yes。

14 MR DUNCAN：（經傳譯員）正如即係以我理解，呢個表就係綜合咗各項嘅紀錄，就  
15 係呢啲就係專營巴士公司需要定期向運輸署提交嘅資料嘅，有時可能係每個月  
16 呈交，有時係每季呈交。喺現時嚟講，可唔可以咁樣講呢？呢個就係你主要監  
17 察巴士公司營運嘅方式呢？

18 陳美寶女士：（經傳譯員）係嘅。鄧大律師，呢個係附錄 L 嘅資料，就係符合咗同專  
19 營巴士公司簽署協議附錄 II 嘅或者附件 II 嘅要求，呢啲資料就係每月或者係每  
20 季呈交嘅。至於關於啲巴士乘客等等嘅資料，呢啲就係巴士公司透過一個電子  
21 系統去呈交嘅，而佢哋亦都需要係喺七日內係上載呢啲資料，咁樣運輸署就係  
22 可以定期去監察佢哋嘅工作，亦都可以係喺--即係以一個隨時嘅--即係隨時都可  
23 以去檢視佢哋嘅情況。

24 而運輸署署長就係可以定期係好嚴格地去檢視專營巴士公司嘅運作，而呢啲  
25 資料係令到我哋可以監察巴士服務、巴士路線、乘客或者係人手調配方面嘅問  
26 題嘅。我哋係可以--為咗確保係咪實際係有進行咗呢啲安排，運輸署亦都係有定  
27 期係有一啲實地嘅抽查，包括就係喺巴士上面、巴士站嗰度，而呢啲實地嘅檢  
28 查就會係以一個隨機嘅形式進行嘅，目的就係確保佢巴士商呈交嘅資料都係正  
29 確同埋準確嘅。

30 除此之外，我哋亦都有做一啲乘客嘅滿意度調查，我哋就會從乘客收集一啲  
31 服務水平嘅資料，係比較有系統咁樣做嘅。

32 MR DUNCAN：（經傳譯員）呢啲實地嘅調查，即係你啱啱所提到呢啲調查，喺呢一  
33 個附錄 L 入面有冇提及到㗎？

34 陳美寶女士：（經傳譯員）我會話呢啲實地嘅調查其實已經係包含咗附錄 L 嘅大部分  
35 項目。

36 MR DUNCAN：（經傳譯員）或者我想帶你哋去睇 297 頁嘅，喺文件冊入面。喺右面

1 嗰一欄，你就見到係獨立顧問所進行嘅調查，呢個係咪另外一項調查嚟嘅呢？

2 陳美寶女士：（經傳譯員）呢個就係一項特別調查嚟嘅，我哋就係委託咗一個獨立嘅  
3 公司係去檢視呢一個指引嘅執行嘅。

4 MR DUNCAN：（經傳譯員）委員會而家考慮嘅點就係即係究竟係呢一個附錄上面所-  
5 -即係有啲咩嘢係喺呢個附錄嘅進行嘅基礎上面去做嘅呢？陳美寶女士：（經傳  
6 譯員）你講到呢啲突擊檢查，而突擊檢查就包括一啲突擊嘅檢查同埋每月嘅檢  
7 查，而巴士營運商係需要每月進行檢查嘅，但係根據法定嘅規定，運輸署係有  
8 監管巴士車隊嘅運作同埋狀況嘅，而運輸署有進行每年同埋每月嘅檢查。

9 但係除此之外，為咗確保我哋監管嘅工作係穩妥，而我哋驗車嘅隊伍亦都係  
10 會進行一啲突擊檢查，就係每間巴士公司嘅車隊平均係會檢查十四架巴士嘅，  
11 呢個係唔會事先通知，目的係確保除一啲常規檢查之外，因為巴士公司可能已  
12 經準備好接受呢啲常規檢查，我哋除此之外，亦都係會有突擊檢查去確保呢啲  
13 巴士嘅狀態係良好嘅。

14 MR DUNCAN：（經傳譯員）你講到一啲定期嘅實地嘅一啲檢查，呢個係咩嘢意思  
15 呢？

16 陳美寶女士：（經傳譯員）呢啲就係關於服務嘅提供，包括係嗰個巴士嘅車程，喺某  
17 啲嘅巴士站，上車或者落車嘅乘客嘅數目、個別巴士嘅車長調配，同埋有冇任  
18 何嘅延誤或者係人手調配上面有冇變更等等，同埋原本嘅計劃有冇任何嘅出  
19 入。

20 MR DUNCAN：（經傳譯員）邊個係會進行呢啲調查？

21 陳美寶女士：（經傳譯員）係運輸署嘅。或者我可以講多少少詳情究竟實際係點樣進  
22 行嘅。

23 李萃珍女士：（經傳譯員）因為資源問題，我哋亦都係將呢啲調查服務係外判畀某一  
24 啲嘅公司嘅，但係有時我哋係會睇下實際嘅情況係點樣，去睇下需唔需要係回  
25 應某啲區議會嘅要求等等，而呢啲服務就係外判畀一啲獨立嘅承辦商嘅。

26 MR DUNCAN：（經傳譯員）有冇書面嘅紀錄㗎？

27 李萃珍女士：（經傳譯員）有嘅。

28 MR DUNCAN：（經傳譯員）呢啲嘅書面紀錄有冇呈交畀檢討委員會？

29 關翠蘭女士：（經傳譯員）正如署長所講，呢啲全部都係同服務有關嘅，就係睇下呢  
30 啲即係實際提供嘅服務同運輸署署長所指定嘅係咪一致。

31 MR DUNCAN：（經傳譯員）我諗我哋未見過呢啲資料，其實有冇--係咪--如果我哋想  
32 睇呢啲資料，係咪有呢？

33 陳美寶女士：（經傳譯員）文件冊入我哋有包括到呢啲資料嘅，但係如果有需要，我

1 咁可以提供嘅。

2 MR DUNCAN：（經傳譯員）陳女士，你啱啱講到，你提到就係道路安全議會進行每  
3 月嘅檢查，係咪？或者係即係喺監管方面。

4 陳美寶女士：（經傳譯員）係每季進行嘅，每季進行。

5 MR DUNCAN：（經傳譯員）你可唔可以畀多啲詳情我哋呢？

6 陳美寶女士：（經傳譯員）喺道路安全同埋標準科就係由邱國鼎先生係處理嘅，佢哋  
7 係會負責係去睇一啲交通意外嘅數字，呢啲就係由警方同運輸署共同提供嘅。  
8 而工作嘅目標就係去監管道路或者交通意外嘅成因同埋詳情，而佢哋係每季係  
9 向道路安全議會提交一個報告嘅，喺報告入面，佢哋係會分析喺呢啲意外之中  
10 有冇有一啲共通點，目的就係可以提供一啲改善或者解決嘅措施，而範疇係包括  
11 道路安全、車輛安全或者係人為因素嘅，包括司機嘅行為或者譬如話會唔會有  
12 行人係以一啲好危險嘅方式過馬路等等，呢啲就會呈交畀道路安全議會，然後  
13 我哋係會有相應嘅跟進行動嘅。

14 如果有任何關於專營巴士公司嘅分析，特別係關於車長嘅行為或者表現，相  
15 關嘅資料亦都係會交畀運輸署嘅道路同埋鐵路科嘅，而我哋亦都係會提醒佢哋  
16 去提醒巴士車長有咩嘢需要注意嘅。

17 MR DUNCAN：（經傳譯員）喺嗰個謄本入面有冇提到呢？就係喺呢一個跟進嘅行  
18 動，就係包括每季嘅報告同埋係由道路安全議會係監察嘅，道路安全議會係咪  
19 獨立於運輸署？

20 陳美寶女士：（經傳譯員）係，冇錯，道路安全議會係獨立於運輸署嘅。我想更正一  
21 下頭先頭先所講嘅。

22 MR DUNCAN：Yes, please.

23 陳美寶女士：（經傳譯員）就頭先話運輸署係會就住呢啲交通意外進行每季嘅報告，  
24 同埋會分析佢哋嘅嚴重性同埋性質，然後我哋係會向道路安全議會提交每季嘅  
25 報告。而我哋分析所衍生嘅建議，就係會包括道路安全嘅檢討、車輛安全嘅改  
26 善同埋定期係同專營巴士公司會面，就係會討論車長嘅行為嘅。

27 MR DUNCAN：（經傳譯員）你向道路安全議會提供嘅報告就係根據巴士公司向你提  
28 供嘅資料，係咪呀？

29 陳美寶女士：（經傳譯員）基本上係根據運輸署道路安全及標準科進行嘅分析，係會  
30 從一個共同嘅資料庫度係去獲取一啲資料嘅，所以呢個來源係嚟自警方同埋運  
31 輸署，唔係來自巴士公司嘅。

32 MR DUNCAN：（經傳譯員）就住運輸署監察巴士公司，除咗係即係呢...

33 陳美寶女士：（經傳譯員）我哋係有自己嘅資料庫，我哋並唔係只係依賴巴士公司嘅

1 資料嘅。

2 MR DUNCAN：（經傳譯員）我就想請你講一講除咗--即係喺巴士公司提供嘅資料之  
3 上，你就有做咗啲咩嘢或者提供咩嘢資料呢？

4 陳美寶女士：（經傳譯員）如果有啲嚴重嘅意外或者致命嘅意外，一啲相關嘅巴士嘅  
5 公司就會將呢啲資料就入咗落呢個資料庫，而運輸署同埋警方係會共同係維護  
6 呢個資料庫，亦都係會定期監察呢個資料庫，同埋係會分析呢一個資料庫嘅。  
7 佢哋係會獨立去進行呢啲資料，而唔會係依靠巴士公司提供嘅資料嘅，因為巴  
8 士公司就住意外嘅報告可能係會遲一啲先至出現，或者可能係佢哋每年嘅報告  
9 之中先至會提及嘅，所以呢個資料庫係由警方同埋運輸署共同維護。而我哋每  
10 季係會呈交昇道路安全議會嘅。

11 MR DUNCAN：（經傳譯員）即係你係要依賴警方嘅資料，我嘅問題就係運輸署有啲  
12 咩嘢工作係獨立去進行去幫助啲巴士公司，而唔係去依賴其他嘅資料呢？

13 陳美寶女士：（經傳譯員）我會邀請邱國鼎先生我哋嘅總工程師去回應嘅。

14 MR DUNCAN：Thank you.

15 邱先生：（經傳譯員）多謝主席、律師。正如署長所講，我哋係由一個電腦系統直接  
16 係去取得啲資料，而呢啲資料係由警方輸入嘅，而我哋係可以攞到呢個系統上  
17 嘅資料嘅，我哋係會進行一啲監管同埋分析，包括係一啲趨勢、意外嘅數目、  
18 嚴重性、車輛嘅類別同埋成因等等。

19 而意外嘅成因可能係同駕駛有關、環境、車輛等等有關嘅，如果我哋發現有  
20 一啲共通嘅成因或者係觀察，我哋係會每季向道路安全議會匯報，而議會嘅成  
21 員係包括唔同局嘅官員，包括係運房局、教育局、警務處、路政署同埋一啲其  
22 他外在嘅成員，譬如話由醫委會、道路安全協會、香港汽車會等等。

23 而道路安全議會就會係訂立政策同埋去執行一啲嘅改善措施，譬如話係訂立  
24 新嘅法例、進行一啲宣傳工作等等。

25 MR DUNCAN：（經傳譯員）唔該晒。你剛才講嘅就係意外嗰方面嘅情況，但係我問  
26 嘅就係一般嘅係營運上嘅情況，我呢度就睇到你哋有啲文件嘅，如果我嘅理解  
27 有錯，你就係話運輸署會做唔同嘅工作嚟到睇下巴士公司佢嘅運作嘅，你頭先  
28 有提過係突擊檢查，每日就有十四部，呢個我哋明白嘅。另外你亦都有提過，  
29 就係話嚟自係乘客調查嘅意見，你亦都有提過話定期係實地進行呢個調查，可  
30 唔可以係詳細啲講一講係乜嘢一回事呢？邊個去做嘅呢？同埋會得出啲咩嘢結  
31 論呢？

32 陳美寶女士：（經傳譯員）或者我係請李女士去講。

33 李萃珍女士：（經傳譯員）好，唔該晒主席。由於法例有咁嘅要求，就講到話係公  
34 營運商佢哋嘅服務表現係有規定嘅，署長嗰方面就要求有時間表、路線、係巴

1 士站等等嘅，我哋做啲咩嘢呢？一係我哋喺總站嗰度進行調查，譬如話我哋喺  
2 某一條路線，我哋就會派啲人去到總站嗰度，就會睇睇佢幾多點鐘開車、睇下  
3 巴士公司係咪跟番個時間表，另外我哋亦都會睇下有幾多乘客上車；咁喺另一  
4 個車站，我哋亦都會睇埋嗰個到達時間，即係話佢用咗幾長嘅時間，亦都知道  
5 究竟有冇延誤等等，呢啲係總站同埋車站嘅調查。

6 另外亦都有車上嘅調查嘅，我哋有調查人員上咗車上面，每一個站佢就會記  
7 錄低有幾多人落車、有幾多人上車，我哋會有啲詳細嘅營運嘅資料，好重要  
8 嘅，因為一直嚟講，我哋一直係要確保巴士公司係跟番嗰個時間表嘅，因為好  
9 多時都有投訴，就話有脫班，我哋就係要係檢查啲報告，然後同巴士公司跟  
10 進。

11 另外就係一個規劃嘅角度，好多時係有一個要求，就話要改啲路線，將啲  
12 路線合併等等，所以喺規劃嗰方面亦都要靠呢一啲數據。呢啲數據，我哋喺巴  
13 士公司嗰度有嘅，但係我哋都想去核實一下同埋我哋亦都需要一啲更新嘅、更  
14 合時嘅資料畀我哋進行規劃。呢啲係啲紀錄，我哋亦都有實地嘅調查，去睇下  
15 佢嗰個系數，讓我哋係知道點樣規劃，亦都可以進行呢一個服務表現嘅監  
16 察。

17 MR DUNCAN：（經傳譯員）當然好多呢一方面嘅工作未必係同安全有關嘅，我就想  
18 問運輸署有冇獨立咁樣樣就巴士公司所提交嘅紀錄去睇一睇呢，或者獨立咁樣  
19 去查核一下，去睇一睇佢哋喺安全方面所做嘅工夫，譬如話培訓車長，定抑或  
20 你完全係倚賴巴士公司講啲咩嘢畀你聽呢，定抑或你自己會自行獨立咁樣樣去  
21 睇睇佢嗰個係安全要求有冇做到呢？

22 陳美寶女士：（經傳譯員）讓我嘗試回答一下。講到安全有關嘅方面，其實我亦都提  
23 咗兩點嘅，九個重要嘅指標裏面有兩個，一個就係話每一次檢查巴士係有幾多  
24 個係安全上面嘅問題，另外就係每日係抽查十四部巴士嘅，或者我請呢一個係  
25 助理署長去補充。

26 MR DUNCAN：（經傳譯員）嗰方面唔使喇，我哋明㗎喇。

27 陳美寶女士：（經傳譯員）另外係有幾多巴士係涉及意外？即係每百萬行車公里嘅涉  
28 及意外率，呢個都係我哋睇住嘅一個係數據。我哋會睇巴士公司所提供嘅數  
29 據，譬如話究竟每一百萬行車公里有幾多部巴士涉及意外，然後我哋會逐年逐  
30 年咁去比較嗰個表現。

31 培訓亦都係好緊要嘅，巴士公司亦都有提過，巴士公司就話係車長嘅培訓係  
32 重要嘅，係要確保係車長有足夠嘅培訓。喺呢一方面，巴士公司自願咁樣樣就  
33 係作出兩個服務承諾，一個就係話所有新入職嘅車長係有培訓，另外就係所有  
34 在職嘅車長都會係每三年再會有一次嘅培訓。

35 巴士公司提供咗一啲資料畀我哋嘅，喺呢一方面，喺佢哋每年嗰個計劃嗰度  
36 都有話畀我哋聽係點樣樣去落實佢哋自願作出嘅呢一個服務承諾，我哋會睇佢

1 咁呢啲資料，而且亦都每年去檢視佢咁嘅表現嘅。

2 我要係強調一點，運輸署並唔會係再自己獨立咁進行去查核嘅，因為呢啲培  
3 訓嘅工作唔係源自嗰個係專營權或者係嗰個條例嘅，其實就係巴士公司係自願  
4 咁樣樣係提出呢一個就跟進我哋同佢哋講係如何去加強巴士安全。其實喺法例  
5 上面就係有咁嘅要求，專營權嗰度亦都有咁嘅要求嘅，所以到目前為止，我哋  
6 運輸署就係有抽樣調查、突擊檢查或者係自己獨立咁去調查佢哋嗰個車長方面  
7 嘅培訓。

8 MR DUNCAN：（經傳譯員）換句話講，你就有好似條例要求嗰度咁講話有任何嘅指  
9 示或者要求，係咪呀？

10 陳美寶女士：（經傳譯員）有嘅。

11 MR DUNCAN：It's all done on a voluntary basis?

12 陳美寶女士：No direction or requirement.

13 MR DUNCAN：（經傳譯員）我等陣間亦都會再睇番呢一個表裏面嘅資料，但係我想  
14 而家問你嘅，就係話運輸署有冇獨立咁樣樣去再跟進呢？即係除咗佢哋所交界  
15 你嘅紀錄之外，有冇再自己獨立咁去睇佢哋嘅安全表現呢？

16 陳英傑先生：（經傳譯員）係，等我補充一下。署長剛才提過呢個突擊檢查，呢個就  
17 係檢查啲車輛嘅。另外巴士公司今時今日嘅巴士都要接受每年嘅檢查同埋維  
18 修，然後我哋運輸署就會再檢查嘅，所以可以話係一個獨立嘅檢查，呢個亦都  
19 係同係抽樣調查係不同嘅。運輸署的而且確係會有一個獨立嘅資料，因為我哋  
20 自己係有由自己嘅驗車主任去進行呢個檢查嘅，呢個就係喺車廠嗰度做。

21 MR DUNCAN：（經傳譯員）好喇，好，或者係睇番呢個附件 L，講到係巴士公司，  
22 專營巴士公司佢哋提交啲乜嘢嘅紀錄同埋資料嘅。呢度可以見到，你就講番話--  
23 即係睇番係條例嘅邊一條或者係咪跟呢個專營權，你另外亦都有講到話有咩嘢  
24 跟進嘅行動。我睇過嗰啲係跟進嘅行動，運輸署嘅跟進行動，我就想去睇下，  
25 你有冇做一啲工作去進行一個調查等等。我首先睇嘅就係 296 頁嗰度，畀二個  
26 格，嗰度有第二段，嗰度就話獨立嘅顧問進行一個調查，睇到嗰句未呀？

27 陳美寶女士：（經傳譯員）睇到。

28 MR DUNCAN：（經傳譯員）唔該。其實下一個格仔，即係話 296 頁最底下嗰度亦都  
29 有一樣咁嘅講法，落去 297 頁頂頭嗰個格亦都有咁講，我相信呢度三處嘅地方都  
30 係講番同一個調查，係咪呀？

31 陳美寶女士：（經傳譯員）㗎。

32 MR DUNCAN：（經傳譯員）可唔可以再講多一啲，究竟呢度所講嘅獨立顧問所進行  
33 嘅調查係邊一個顧問同埋究竟佢做咩嘢調查？

1 陳美寶女士：（經傳譯員）係，我亦都再想請李女士去答嘅。

2 李萃珍女士：（經傳譯員）唔該主席。呢啲調查就睇下係專營巴士公司佢哋有冇跟從  
3 我哋嘅指引，呢個就係關乎巴士車長嘅安排嘅指引嘅。其實唔係最新嗰份，而  
4 係就係有--之前嗰個係四個部分，主要就係講嗰個休息嘅時間同埋工作嘅時間  
5 嘅。

6 呢一類嘅調查嗰個調查人員就會隨機咁樣抽查一啲司機，然後嗰個調查人員  
7 就會整日咁跟住嗰個司機嘅。我哋會睇住究竟佢係咪真係得到嗰個休息時間  
8 呢？有咁長嘅時間呢？亦都會睇埋嗰個駕駛嘅時間--嗰個更次裏面嘅駕駛時間係  
9 咪有超過嗰個上限，所以我哋會跟住嗰個司機嘅。

10 至於話兩更之間嘅休息時間，我哋會睇下佢簽到同埋走嘅時候簽名嗰個時  
11 間，所以就會有兩隊唔同嘅調查人員去做嘅。呢啲調查人員係點呢？喺邊度搵  
12 番嚟嘅呢？我哋會係公開招標，搵一啲合資格嘅顧問幫我哋做嘅，我哋就搵最  
13 適合嘅顧問公司同我哋做，就係請佢哋進行呢個調查嘅。我哋有呢啲嘅資料，  
14 我哋就會睇到佢哋究竟係咪有跟從嗰個指引嘅。其實嗰個遵從律多年嚟都幾高  
15 嘅，我哋見到有少量就係未有遵從嘅個案，我哋會問公司點解有咁情況，好多  
16 時都係因為一啲佢哋控制唔到嘅因素嘅。我要指出就呢個係勞工密集嘅一項工  
17 作嚟嘅，我哋係有萬二個係巴士司機嘅。

18 MR DUNCAN：Sorry, you do 12,000?

19 李萃珍女士：Yes.

20 MR DUNCAN：（經傳譯員）你話萬二個，「萬二」係乜嘢？

21 李萃珍女士：（經傳譯員）我哋抽查嘅，將呢六間公司縱合嚟到一齊睇，總共就有萬  
22 二個調查嘅。

23 MR DUNCAN：（經傳譯員）你即係同萬二個...

24 李萃珍女士：（經傳譯員）對唔住，係一千二百，每年係一千二百個司機，我哋睇一  
25 千二百個司機。

26 MR DUNCAN：（經傳譯員）幾時開始做呢啲工作？第一次搵調查人員去做呢啲工作  
27 係幾時呢？

28 李萃珍女士：（經傳譯員）我諗起碼係喺 2010 年有呢個指引嘅時候就開始做嘅，之  
29 前我就唔係太肯定。

30 MR DUNCAN：（經傳譯員）署長，而家請你睇呢個 297 頁，嗰頁中間嗰度有一個方  
31 格嘅，嗰度亦都係講係獨立顧問進行調查，係咪就係你較早時候所提及嘅嗰個  
32 調查呢？

33 陳美寶女士：（經傳譯員）係，我可以確認，係講番同一個調查。

1 MR DUNCAN：（經傳譯員）另外喺 299 頁，呢個就係乘客聯絡小組嘅報告嚟嘅，佢  
2 講到就係派一啲代表去出席乘客聯絡小組嘅會議，你可唔可以講多啲詳情？

3 陳美寶女士：（經傳譯員）我想邀請我哋嘅助理署長係去講一講。

4 關翠蘭女士：（經傳譯員）主席，而每間巴士專營公司會每兩個月係安排一次乘客聯  
5 絡小組嘅會議嘅，當佢決定咗小組會議嘅地點之後，就會通知我哋，而我哋就  
6 會派代表去出席呢啲會議嘅。我哋會監察呢啲專營巴士公司就會係即係好妥當  
7 地進行呢一啲嘅小組會議。喺呢啲會面之後，佢哋亦都係會將呢啲紀錄就會呈  
8 交畀我哋作規劃嘅用途嘅。

9 主席：（經傳譯員）你嘅意思係咪有兩組嘅資料，有一套就係由你嘅代表去做，另外  
10 一組就係由巴士公司去準備嘅？

11 關翠蘭女士：（經傳譯員）我哋只會派一位代表去出席呢啲會議嘅，因為我哋唔可以  
12 個別去問晒每一個乘客意見嘅，所以我哋會係聽乘客嘅意見，我哋會自己去做  
13 一啲筆記，即係我哋唔會有一個好正式嘅紀錄，但係我哋係--即係當我哋嘅同事  
14 返番去公司之後，就會向上級匯報嘅，但係雖然巴士公司係會有晒紀錄，而佢  
15 哋事後係會向我哋呈交嘅。

16 主席：（經傳譯員）即係話會有兩組嘅紀錄，係咪呀？

17 關翠蘭女士：（經傳譯員）係。

18 主席：（經傳譯員）之前有冇呈交呢啲紀錄畀我哋，可唔可以之後畀我哋？

19 關翠蘭女士：（經傳譯員）可以嘅。

20 MR DUNCAN：（經傳譯員）通常會有幾多人係出席呢一啲乘客聯絡小組嘅會議呀？

21 關翠蘭女士：（經傳譯員）主席，呢個係視乎小組會議嘅地點喺邊，如果係一啲比較  
22 受歡迎嘅地點進行，可能會有二十幾個乘客。

23 MR DUNCAN：Who determines the make-up of the passenger liaison group?

24 關翠蘭女士：Pardon me?

25 MR DUNCAN：（經傳譯員）邊個係--即係由邊個去決定乘客聯絡小組嘅成員係--嘅組  
26 成係由邊個決定嘅呢？係咪由運輸署選擇嘅呢，定係由巴士公司去選擇嘅呢？

27 關翠蘭女士：（經傳譯員）佢係由巴士公司去決定嘅。

28 MR DUNCAN：（經傳譯員）唔該晒。我就問完呢一份文件。

29 主席：（經傳譯員）喺我哋繼續之前，我想知道呢啲乘客聯絡小組會唔會提及到巴士  
30 安全嘅問題呢？

31 關翠蘭女士：（經傳譯員）呢個好視乎乘客嘅意見，係唔會有一啲特定嘅議題去規限

1 啲乘客嘅，乘客係可以表達任何嘅意見。

2 主席：（經傳譯員）或者我個問題應該係咁問，啲乘客有冇曾經提到巴士安全嘅問題  
3 呢？

4 關翠蘭女士：（經傳譯員）喺我印象中，大部分嘅意見都係同一啲車費、優惠同埋服  
5 務有關。

6 主席：（經傳譯員）係咪巴士安--即係冇提及過巴士安全嘅問題呢？

7 關翠蘭女士：（經傳譯員）係好少嘅。

8 主席：（經傳譯員）唔該晒。係，鄧律師。

9 MR DUNCAN：（經傳譯員）我想講另外一個話題，今日下午我哋有講到呢個巴士車  
10 長工作、休息及用膳時間指引，你嘅同事就提到 2010 年嘅指引，我哋知道呢個  
11 指引最近亦都係有修訂，喺今年 2 月係有一個修訂本嘅，我想講番你喺 5 月 4 號  
12 提交嘅額外嘅陳述，你呢個就係第 157 頁，你回應委員會嘅問題之中，喺 D  
13 段，你就提到運輸署就係從一個巴士車長嘅聯盟係收到一項嘅建議，就係表示  
14 指引係應該修訂嘅。然後就講到運輸署係有同專營巴士公司同埋另外一個巴士  
15 車長嘅工會係傾過呢個意見，而兩者都係反對呢個建議嘅。喺同呢個提建議人  
16 嘅討論之後，就係決定唔會修訂指引。喺 2015 年之前，係咪已經收到一啲要求  
17 或者係建議，係去修訂啲指引，即係運輸署有冇收到呢啲建議，你有冇印象？

18 陳美寶女士：（經傳譯員）首先訂立指引嘅過程係好漫長嘅，係由 1993 年開始，就  
19 係當時我哋去開始訂立一啲指引，係以自願性質係畀一啲巴士公司去遵從嘅。  
20 係到 1998 年先至正式係頒布啲指引，係要求巴士公司係跟隨嘅。而喺 98 年頒布  
21 指引之後，指引已經係修訂咗六次，喺咁多年嚟，一直都係有唔同嘅意見，就  
22 係嚟自一啲職員嘅工會，就係希望係改善工作嘅環境同埋縮短車長嘅工作時  
23 間。

24 我哋亦都係明白一直都--即係外間都係希望專營巴士嘅服務得以提升嘅，所  
25 以根據我哋嘅書面陳述，我哋提到 15 年 3 月呢一個就係一個例子係去說明職員  
26 工會一直都係有一個確切嘅要求，希望係改善車長嘅工作條件同埋工時嘅。唔  
27 該晒。

28 MR DUNCAN：（經傳譯員）我想你揸去文件冊 SEC 1 號，我想你睇第 437 頁，呢份  
29 係立法會交通事務委員會嘅會議紀錄嘅，就係 2012 年 11 月 27 號，你見唔見到  
30 呀？請你揸去第 441 頁，喺最底嗰度，你就會見到，佢就話主席就話一個喺柴  
31 灣，喺 2012 年 11 月 19 號嘅嚴重交通意外係涉及兩架巴士同埋一架的士，係引  
32 致公--即係大眾嘅憂慮，就係對於呢啲專業司機嘅健康同埋駕駛態度嘅，特別係  
33 巴士車長。

34 請你揸去第 442 頁，第 2 段就有提及運房局局長同埋運輸署署長，就係簡單  
35 介紹事件，就係包括係專營巴士公司車長嘅健康檢查同埋工時安排。

1 而喺第 447 頁第 24 段，局長係承諾政府係會檢視呢啲指引嘅，就會同相關  
2 嘅持份者合作，包括係專營巴士公司同埋佢哋嘅工會。佢表示運輸署係有同一  
3 啲主要嘅巴士車長工會係溝通，去討論嗰一宗意外所引申嘅問題。

4 而第 454 頁，呢個就係由主席去總結，佢就感謝各方出席會議，而佢表示議  
5 員一般都係對巴士公司車長嘅健康檢查方面係有擔憂嘅，而佢認為政府係需要  
6 檢視各個方面嘅，包括係改善一個現有嘅交通網絡。

7 喺 2012 年至到深水埗交通意外，即係 17 年嗰宗意外，期間係有任何修訂  
8 過，即係嗰份指引。而政府係幾時或者係點樣決定去--即係當時係修訂指引嘅  
9 呢？

10 陳美寶女士：（經傳譯員）或者我可以畀一個比較一般嘅答案，然後我就會交畀關女  
11 士去講啲詳情嘅。講番 12 年嘅交通意外慘劇，當時有兩項主要嘅跟進行動嘅，  
12 第一係就係提升巴士車長健康檢查嘅要求，喺嗰一宗意外之後，我哋係要求所  
13 有嘅巴士公司係去提升呢一個健康檢查嘅要求，除咗每年為 50 歲或以上嘅車長  
14 進行健康檢查之外，就住一啲已經申報有重大健康問題嘅車長亦都會再進行年  
15 檢嘅，就令到車長嘅健康檢查更加頻密，同埋亦都係會包括車長嘅心臟檢查  
16 嘅。我哋都係要求巴士車長，係為 54 至 60 歲嘅車長安排健康檢查。

17 至於檢討指引方面，我係明白當時運輸署係有檢視巴士車長工時嘅要求，但  
18 係最後係有--即係喺當時係有修訂到指引，但係運輸署係有檢視指引，去睇下有  
19 有任何部分係需要改善嘅。

20 主席：（經傳譯員）你表示就係有兩項嘅跟進行動，就喺 12 年 11 月之後嘅交通意  
21 外，第一項係檢視呢個健康檢查嘅安排，第二就係？

22 陳美寶女士：（經傳譯員）第二項就係檢視指引，但係當時係有進行任何嘅修訂嘅。  
23 多謝主席。

24 關翠蘭女士：（經傳譯員）我想補充一下，呢個工時指引對上修訂係 2010 年，當時  
25 係有一啲新嘅指引，就係關於用膳時間嘅。而我哋喺 2010 年頒布指引嘅時候，  
26 我哋係允許巴士公司就係喺兩年之後先至係實行呢個用膳時間嘅指引，即係話  
27 喺 2012 年係全面實施咗相關嘅指引，至於話點解 2013 年檢討之後指引有修改，  
28 我諗我而家係唔能夠準確咁去回答，畀少少時間我哋返去查核一下，有可能就  
29 係剛剛先至係喺 2012 年嘅下半年先至係全面實施對上一次嗰個係修訂嘅要求，  
30 有可能就係話想有一啲時間去睇睇係專營巴士公司佢個表現，畀多啲時間睇  
31 咗佢哋表現，然後再作呢個修訂都唔定嘅。

32 MR DUNCAN：（經傳譯員）好，唔該。陳女士，我諗今朝早我向係局方提問嘅時  
33 候，你都在場嘅，當時我哋就問過，就點解呢啲指引就純粹只係指引嚟嘅呢？  
34 就唔係成為一部係規例呢？因為條例度係有講，就呢一啲事宜係可以訂定規例  
35 嘅，你就呢一個問題，你可唔可以幫到手呢？可唔可以講出嗰個原因點解呢啲  
36 只係指引，就唔係一個規例呢？甚至乎唔係一個指示，亦都唔係一個要求呢？

1 陳美寶女士：（經傳譯員）讓我嘗試，我今朝都在場嘅，我亦都係理解剛才你喺咩嘢  
2 情況之下提出呢個問題，你就係話其實係咪應該用一個更好嘅方法去實施呢一  
3 個要求呢？譬如話作為法例嘅一部分，又或者作為一個專營權嘅條文嘅一個部  
4 分，讓我係從呢一個係營運同埋係一個監察嘅角度去到睇。

5 講到呢個工作時間嘅指引，佢係一個好長嘅歷史，亦都係一個不斷演化嘅係  
6 情況，呢個指引已經經過多次嘅修訂，指引裏面所列出嘅要求，用咁嘅形式嘅  
7 好處就係我哋可以更適時咁樣去進行檢討同埋修訂。如果係喺條例或者規例裏  
8 面訂明嘅話，就有咁容易去檢討同埋修訂。當然我雖然咁講，我亦都覺得我哋  
9 應該不遺餘力咁樣樣去係檢討我哋嘅條例，同埋係如果有需要，去修訂。

10 佢係指引，指引佢可以更有彈性，亦都可以係因應當時嘅情況係加以係提  
11 升。其實專營巴士嘅服務係非常之勞工密集嘅，而且亦都有好多規範性嘅要  
12 求，係要求巴士公司喺服務裏面係做得到嘅，喺呢一個角度，其實我哋希望作  
13 出一個平衡，一方面希望佢哋係根據嗰個專營權嘅要求，提供一個巴士嘅服  
14 務，另一方面，我哋亦都希望能夠係提升係車長佢哋嘅工作嘅條件。

15 指引，佢而家係指引嚟嘅，但係喺我哋嘅意見書嗰度就講咗，喺行政上，  
16 我哋亦都要求係專營巴士公司話畀我哋聽佢哋有冇遵從呢一個指引，而且我哋  
17 亦都獨立咁樣去調查啲指引有冇得到遵從，嚟到確保係巴士公司係有遵守嗰個  
18 嘅指引嘅。

19 而呢個指引係點樣制訂出嚟呢？呢個就係長時間雙方商討係同意之後得出嘅  
20 結果嚟嘅，所以我哋就覺得喺呢一方面嚟講，都可以作為一個合約嘅要求，因  
21 為呢個係政府同巴士公司之間不斷嘅對話而得出嘅成果。

22 另一方面，同巴士公司所簽訂嘅專營權，28(1)(a)條嗰度就有講嘅，就話巴  
23 士公司係需要係提供一啲紀錄嘅，呢個係跟乎就係專營權附表 II 嗰度提供啲  
24 文件嘅，呢一個附件 II 嘅(I)項，我哋其實喺專營權嗰度係講咗，專營公司係  
25 要畀資料、畀紀錄我哋，包括以下：就係有幾多係--即係我哋係署長所講及嘅巴  
26 士司機嘅係百分比，讓我哋知道佢哋嗰個工作時間、佢個休息時間等等，而呢  
27 個都係同專營公司同意咗嘅指引。

28 主席：（經傳譯員）對唔住，我想打斷一下，可唔可以攞其中一份嘅專營權嘅文件嘅  
29 21(sic)(1)(a)嗰度出嚟呢？

30 MR DUNCAN：（經傳譯員）可以嘅，可以。THB-2，睇番 THB-2 嗰個文件夾裏面嘅  
31 相關嘅頁數，係 137 頁，佢係講到 169 頁，陳女士係講 169 頁。

32 主席：（經傳譯員）係 158 頁，係咪呀？嗰個第 28 條，然後第 168 頁就係附件 II  
33 嘅。係，打番出嚟，咁可能幫到你答呢個問題，係咪呀？陳女士。

34 陳美寶女士：（經傳譯員）係呀。

35 MR DUNCAN：（經傳譯員）似乎呢一度就係要求去提出呢一個係紀錄，係咪呀？

1 陳美寶女士：Yes。Yes。

2 MR DUNCAN：（經傳譯員）就唔係...

3 陳美寶女士：（經傳譯員）我唔係一位法律嘅專家，不過我就想嘗試去解釋我哋點樣  
4 樣引用嗰個條文，喺實際上點樣係運作。

5 MR DUNCAN：（經傳譯員）係呀。

6 陳美寶女士：（經傳譯員）署長--我作為署長，係要運用我嘅權力嚟到確保係巴士公  
7 司係會係根據我哋所要求嘅百分比嘅樣本就係提供嗰啲紀錄嘅，呢一個就係睇  
8 番呢一個係(I)嗰項嘅，即係話如果我哋認為巴士公司係冇或者無法提供嗰個係紀  
9 錄，即係根據我哋呢度(I)呢項嘅要求去做，又讓我哋就感到懷疑、有疑問，究竟  
10 呢一個係專營權公司係咪真係提供一個適當而有效率嘅服務，我哋亦都可以採  
11 取係相關、適當嘅行動，針對呢間公司。

12 MR DUNCAN：（經傳譯員）即係話你有一個彈性，一方面係有個彈性，另一方面，  
13 睇嚟就係你亦都可能冇嗰個規管嘅力度。12A，條文 12A 嗰度就講係可以施加呢  
14 個經濟罰則，就變咗係無法做到，係咪呀？

15 陳美寶女士：（經傳譯員）我會咁講，佢就唔係構成一個法定嘅責任，即係話如果巴  
16 士公司係冇遵從指引，嗰度就唔係構成一個係法定嘅責任，就唔會話即時就係  
17 引致就係 12A 嗰度係有問題，就話可以係要求佢交一個經濟嘅罰則。不過喺呢  
18 個附件 II 嘅(I)嗰項，我哋有呢一點，就係想確保巴士公司係會係應我哋嘅要  
19 求，提供嗰個資料，而且我亦都可以進行呢個獨立嘅調查嘅，根據佢畀我哋嘅  
20 數據。我哋亦都會喺評估究竟嗰個巴士公司係咪提供咗適當而效率嘅服務嘅時  
21 候，亦都可以以此作為一個根據。

22 MR DUNCAN：（經傳譯員）我想睇番有關嘅條文嘅，我諗你面前都有嘅，104 頁，  
23 有關嘅條文喺 104 頁嗰度，呢個就係講及嗰個遠期計劃，12A，睇到嘛？

24 陳美寶女士：Yes。

25 MR DUNCAN：（經傳譯員）我想問你呢個問題，署方係喺呢個遠期計劃嗰度，會要  
26 求專營巴士公司講及安全方面嘅嘢會去到咩嘢程度嘅呢？

27 陳美寶女士：（經傳譯員）呢個遠期計劃其實就喺法例嗰度係有一個係條文嘅，遠期  
28 嘅計劃係作為一個規劃嘅工具，而佢基本上就會講及係呢一個係巴士公司營運  
29 者佢嘅--係喺專營權底下究竟要提供咩嘢服務嚟到滿足嗰個要求嘅。我相信喺我  
30 哋嘅文件夾嗰度都有嗰一個內容表係講咗出嚟嘅，喺嗰個遠期計劃嗰度，其中  
31 一個項目就係關乎巴士安全嘅，其實呢個係睇番過往我哋分析咗係涉及專營巴  
32 士嘅巴士交通意外，亦都係完善我哋同巴士公司就一啲重要嘅事項商討嘅結  
33 果，呢啲都係關乎安全事宜嘅。

34 主席：（經傳譯員）或者你等等，我諗佢哋嘗試係打番嗰個目錄表出嚟嘅，嗰度就係

1 有--你話係有一部分係關乎安全嘅，或者我哋搵番個一個部分出嚟先。呢個係咪  
2 嚟自運輸署發畀城巴公司嘅一封函件裏面嘅內容呀？鄧樂勤大律師，喺邊度  
3 呢？喺佢哋嘅意見書嘅邊一度呢？

4 MR DUNCAN：（經傳譯員）係喺 1038 頁，TD-4，1035。

5 主席：（經傳譯員）呢度你就係話--係咪咁樣樣㗎？你寫封信畀啲公司，就話「遠  
6 期計劃，你要包括以下各點」？

7 MR DUNCAN：（經傳譯員）唔係，係陳女士就提及就係話有一個索引個頁，就講及  
8 係遠期計劃應該包括邊一啲係要點，我諗呢個啱啱調轉，係咪呀？或者去我哋  
9 TD-4 1035 個頁。呢個係目錄個頁，係咪呀？

10 陳美寶女士：Yes。

11 陳英傑先生：（經傳譯員）睇番 1038，嗰度有啲標題嘅，其中一個標題就係巴士安  
12 全，我諗你剛才係講呢一樣，係咪呀？

13 陳美寶女士：（經傳譯員）係呀。

14 MR DUNCAN：（經傳譯員）你未有向委員會係提交個計劃，你話因為裏面就係涉  
15 及一啲商業敏感資料嘅。可唔可以單單就嗰一段係抽出嚟畀我哋睇呢？淨係想  
16 睇個安全個部分。

17 陳美寶女士：（經傳譯員）我哋可以跟進一下嘅。我哋要確保係得到巴士公司同意我  
18 哋發放呢一個部分。

19 主席：（經傳譯員）係，你未落去之前，不如我哋逐步逐步咁去睇喇，好讓其他人士  
20 都知道，否則嘅話，佢哋跟唔到你喇。你頭先講到話係攞唔到呢一份文件，我  
21 就睇番係上個星期五即係畀我嘅文件，就係冇頁數嘅，就係 22 段 34(A)條嘅，但  
22 就話所有嘅巴士經營公司都係向運輸署呈交一個五年計劃，因為呢個計劃就會  
23 有一啲商業上敏感嘅資料等等、等等嘅。

24 MR DUNCAN：（經傳譯員）我想大家睇番文件冊 TD-1 嘅第 164 頁。

25 主席：（經傳譯員）好，唔該晒。即係呢個就係你所問嘅問題，係咪？

26 MR DUNCAN：（經傳譯員）冇錯。陳女士，我就想畀你睇番運輸署嘅回應，佢就話  
27 因為呢個五年計劃就係有個別巴士公司嘅商業敏感資料，營運商係同意向獨立  
28 檢討委員會係呈交呢啲資料，即係條件就係委員會唔會向公眾係披露呢啲資  
29 料。其實委員會所需要嘅就只係嗰個計劃嘅關於安全個一部分嘅嘢，或者我就  
30 再問一次，可唔可以向巴士公司係去尋求佢哋嘅同意，去向委員會呈交個一  
31 部分嘅資料呢？

32 陳美寶女士：（經傳譯員）我哋向委員會嘅回應，即係正如而家螢幕所顯示，就係我  
33 哋已經係諮詢巴士公司佢哋係咪願意去披露一個五年計劃，但係睇番--即係根據

1 鄧大律師嘅意見，我哋係會再次係去徵詢巴士公司去尋求佢哋同意係咪可以去  
2 提交關於巴士安全部分嘅資料。

3 主席：（經傳譯員）係咪委員會可以會直接問佢哋去攞呢個資料呢？

4 MR DUNCAN：（經傳譯員）如果你睇番文件冊 TD-5 第 1599 頁嘅，呢個就係新大嶼  
5 山巴士公司嘅五年計劃，而後面嗰一頁，你睇番第 1600 頁，呢個就係目錄，你  
6 見唔見到呢一頁目錄？

7 陳美寶女士：Yes。

8 MR DUNCAN：（經傳譯員）就有提及過安全嘅問題嘅，即係就住呢一間專營巴士公  
9 司。我嘅問題就係運輸署對專營巴士公司要求佢哋嘅五年計劃入面關於安全嘅  
10 部分個要求係點嘅呢？

11 陳美寶女士：（經傳譯員）就住呢一頁目錄，第一部分即係路線發展計劃已經係包含  
12 咗安全嘅問題㗎喇，係。

13 MR DUNCAN：（經傳譯員）你可唔可以直接回應我嘅問題呀？運輸署係會要求專營  
14 巴士公司提供啲咩詳情呢，就住安全要求方面？

15 陳美寶女士：（經傳譯員）我會請李女士去回答呢個問題。

16 李萃珍女士：（經傳譯員）多謝主席。喺《公共巴士服務條例》底下，必須要巴士公  
17 司係要準備一個五年嘅計劃，所以呢個係包括一啲巴士或者車隊嘅維護、安全  
18 等等，而佢亦都係需要提供一啲運輸署署長需要嘅資料。我同事啱啱已經解釋  
19 到，我哋有分析到一啲交通意外嘅資料，當我哋每年進行呢項工作嘅時候，我  
20 哋亦都會分析啲意外嘅趨勢，我哋係會要求巴士公司喺呢個五年計劃入面係提  
21 供佢哋自己對交通意外嘅分析，同埋佢哋要話畀我哋知佢哋會進行一啲咩嘢改  
22 善嘅措施，喺呢個前提底下，我哋係要求佢哋嘅五年計劃入面包括呢啲資料，  
23 所以而家每一間專營巴士公司都會係包括咗佢哋自己對交通意外嘅分析，同埋  
24 亦都話畀我哋知佢哋會做咩嘢改善措施嘅。

25 當然我哋係會隨住時間，亦都係會增加一啲要求，例如公眾對環保巴士係有  
26 一個要求，所以我哋嘅五年計劃之中亦都要求有一個環境嘅章節。

27 署長啱啱講到巴士公司亦都係有自願地去提供一啲表現嘅指標或者目標，有  
28 一啲同安全或者係培訓有關嘅，呢個就係我哋即係處理呢一啲五年計劃嘅方  
29 式。

30 MR DUNCAN：（經傳譯員）如果你係今晚係去接觸呢啲巴士公司去要求佢哋攞呢啲  
31 安全嘅資料，係會好有幫助嘅，就唔使--即係我哋聽日就可以問。

32 陳美寶女士：Thank you. We can do that.

33 主席：（經傳譯員）喺有一啲嘅五年計劃入面係有提過呢個問題嘅。即係喺文件冊

1 TD-5 第 1604 頁，或者 1602 頁，我哋有見到第五--即係喺呢一個計劃中嘅第 5  
2 章，就係有巴士安全，就係喺 1604 頁。而龍運巴士嘅五年計劃之中，亦都係有  
3 多一啲詳情嘅，喺 1607 頁，就係有一章係關於安全檢討嘅，就總共有八項嘅，  
4 喺安全檢討底下，係咪所有嘅項目都係回應運輸署嘅要求呢？

5 陳美寶女士：（經傳譯員）我會嘗試答呢個問題。根據法定要求或者係專營權嘅要  
6 求，我哋有特別係指明對培訓或者係某啲措施嘅一啲--去訂明我哋嘅要求，而專  
7 營巴士公司係需要每年去檢討佢哋嘅表現同埋每季亦都會有一個道路安全嘅檢  
8 討，我哋係要求專營巴士公司喺佢哋嘅五年計劃入面係包含一個安全嘅章節，  
9 佢哋係需要分析佢哋自己嘅意外嘅資料，同埋亦都係要提供一啲巴士行車安全  
10 嘅改善建議嘅，呢啲係同車輛安全、巴士維護、車長嘅行為同埋培訓等等嘅範  
11 疇都係有關係。

12 主席：（經傳譯員）唔該晒。

13 MR DUNCAN：（經傳譯員）我哋講講培訓嘅問題，你提到喺經營權文件入面係有特  
14 別針對培訓係有要求，或者係--而運輸署亦都係唔會有特定嘅要求去講培訓--即  
15 係要做一啲乜嘢培訓嘅，我咁理解啱唔啱呀？

16 陳美寶女士：（經傳譯員）係。

17 MR DUNCAN：（經傳譯員）我可唔可以咁講，運輸署係有發出任何嘅指示畀呢一啲  
18 嘅專營巴士公司嘅？

19 陳美寶女士：（經傳譯員）係，冇錯，我哋係有提供指引。

20 MR DUNCAN：（經傳譯員）所以呢啲就係由巴士公司決定嘅。

21 陳美寶女士：Yes。

22 MR DUNCAN：（經傳譯員）係咪每間巴士公司嘅做法都唔同呢？

23 陳美寶女士：（經傳譯員）根據佢哋提供嘅關於巴士安全嘅資料同埋訓練車長嘅資  
24 料，即係喺佢哋嘅五年計之中，我哋見到喺新入職同埋現職車長嘅培訓方面，  
25 或者係一啲補救或者係溫習嘅課程，基本上係一致嘅，但係個別培訓課程或者  
26 單元嘅長度係會有唔同嘅。所以嚴格嚟講，所有嘅巴士公司都會向一啲新入職  
27 嘅司機係進行培訓，而至於現職嘅車長，佢哋亦都係會每三年進行培訓，所有  
28 嘅專營巴士公司係都承諾咁做。

29 至於長期有執行駕駛職務嘅車長，巴士公司亦都係會提供一啲溫習嘅課程，  
30 然後車司先至會再投入佢哋嘅職務嘅。至於一啲溫習課程，除咗一間巴士公司  
31 之外，佢哋係有為兼職車長係提供溫習課程，其他所有嘅巴士公司都係會向呢  
32 啲嘅車長係提供--或者一啲退咗休嘅車長提供一啲溫習課程嘅。

33 如果係劃一呢啲標準，即係就住為車長提供嘅課程，係有好處嘅，但係如果  
34 係要訂明呢一啲課程，即係提供嘅頻度或者係長度未必係可行，因為呢啲課程

1 嘅規模係唔同，亦都係會視乎巴士路線、人手數目等等嘅因素，喺唔同嘅專營  
2 巴士公司有所唔同嘅。

3 所以我哋係訂立緊一啲嘅指引，係去制訂一個框架係提供呢啲培訓，我哋認  
4 為巴士營運商係需要有劃一嘅標準係進行一啲內部嘅審核嘅，即係就住佢哋嘅  
5 培訓課程。

6 MR DUNCAN：（經傳譯員）你哋幾時開始係制訂呢一啲擬議嘅指引？

7 陳美寶女士：（經傳譯員）我哋同巴士經營公司喺 2 月嘅大埔交通意外之後，就係著  
8 手去做呢個工作，而 3 月就係成立咗工作小組，我哋喺 3 月嘅第一次工作小組會  
9 議已經係有提到呢一點。

10 MR DUNCAN：（經傳譯員）呢件事就係係同巴士營運公司喺度討論緊，係咪呀？

11 陳美寶女士：（經傳譯員）係，冇錯，而家係討論緊嘅。

12 MR DUNCAN：（經傳譯員）今日下午早前你提到畀車長嘅健康檢查，現時嘅安排或  
13 係指令係點樣㗎？即係喺運輸署同埋專營公司之間，關於健康檢查嘅要求係點  
14 呢？

15 陳美寶女士：（經傳譯員）我會邀請關女士去講講，關女士。

16 主席：Yes. Thank you.

17 關翠蘭女士：（經傳譯員）全職同埋兼職嘅車長喺入職之前，佢哋係必須申報佢哋嘅  
18 健康情況，佢哋亦都係要通過健康檢查去證明佢哋係健康係良好，可以去揸巴  
19 士嘅，呢個包括係心腔嘅檢查、視力檢查、血壓、尿液、糖尿病檢查等等。而  
20 所有現時嘅專營公司亦都係要求所有 50 歲或以上嘅車長係接受每年嘅健康檢  
21 查，係包括胸腔檢查、糖尿病、視力、尿液、血壓檢查等等嘅。50 歲、54 歲、  
22 57 歲、60 或者以上嘅司機，佢哋亦都係要做埋嗰個心電圖嘅檢查，呢個係佢哋  
23 嗰個係體檢嘅一部分。

24 另外就係講到有一啲巴士司機如果試過中風又或者有過心血管病嘅話，又或  
25 者佢哋要食藥，係因為有糖尿病或者係高血壓食藥嘅話，亦都需要就係向佢哋  
26 嘅僱主作出呢一方面嘅申報，亦都係要做嗰個係心電圖嘅檢查嘅，如果做嗰個  
27 每年嘅體檢，呢個目前嘅安排係咁嘅。

28 MR DUNCAN：（經傳譯員）呢啲安排係安排咗，定抑或係你同巴士公司之間嘅一個  
29 理解咗，定抑或係一個要求嚟嘅呢？

30 關翠蘭女士：（經傳譯員）呢一個身體檢查嘅要求唔係一個專營權或者係條例底下嘅  
31 一個指示或者要求，呢個要求就係巴士司機個個知道係要做嘅。

32 MR DUNCAN：（經傳譯員）就係呢啲安排做咗有幾耐呢？

33 關翠蘭女士：（經傳譯員）我哋不斷有所演變嘅，我記得自從 2007 年呢一個身體檢

1 查，即係所有 50 或以上嘅巴士司機每年要做呢個體格嘅檢查、身體檢查係由 07  
2 年開始實施嘅。

3 MR DUNCAN：（經傳譯員）我哋睇到一啲係交界委員會嘅意見書就有講，就話如果  
4 係有關嘅車長佢哋嘅身體檢查係包括埋佢哋能否應付駕駛巴士嘅壓力，呢個係  
5 會好啲嘅，我想問呢啲咁樣嘅建議，有冇人同署方係提過呢？

6 主席：（經傳譯員）鄧樂勤大律師，我相信你指嘅就係咪具體地處理這事項的九巴嘅  
7 書面意見呢？

8 MR DUNCAN：（經傳譯員）係呀。

9 主席：（經傳譯員）或者你話畀我哋聽究竟係喺邊一頁或者邊度？

10 MR DUNCAN：（經傳譯員）請你睇 KMB-1，81-1 個度。個度就係講及一啲補救性質  
11 嘅培訓。

12 主席：（經傳譯員）如果你用 “psychologist” 「心理學家」呢一個字眼嚟到搜尋嘅  
13 話，就會搵到。

14 MR DUNCAN：Thank you, Mr Chairman.

15 主席：（經傳譯員）係，因為我諗心目中即係應該用個字嚟到進行搜尋。係喺第一  
16 份嘅意見書嘅第 3 項個度嘅，第 81 頁，就係交界署長--對唔住，係第 38 頁，交  
17 畀署長嘅一份文件，113 頁，搵到嘛？

18 陳美寶女士：（經傳譯員）搵到。

19 MR DUNCAN：（經傳譯員）E 個部分講到係心理嘅支援，個度就話有一個小組，  
20 提及就係要為車長同埋前線人員提供呢個情緒嘅支援，小組就會搵一個專業嘅  
21 顧問去全面咁檢討目前嘅做法，同埋提供一啲意見，包括但係並不限於呢個係  
22 招聘，睇下係車長佢個情緒智商能否係應付壓力、佢嘅培訓、輔導、係表現  
23 嘅管理，希望佢可以逐步逐步咁樣去實行嚟到係處理一啲係而家已經係有嘅  
24 一啲關注嘅，咁呢方面有冇做呢？

25 陳美寶女士：（經傳譯員）我哋喺九巴個度有收到一個咁嘅建議，而且喺我哋工作小  
26 組工作小組--即係我哋工作小組就係話，係咪應該車長之間嘅培訓作一個統一，  
27 呢方面亦都有收到咁嘅建議。不過我知道係新入職同埋現役車長佢哋嘅培訓，  
28 我知道公司亦都會包括就係輔助同埋係如何應付呢個壓力，呢啲都包括咗喺新  
29 入職同埋在職車長嘅培訓課程裏面嘅，其實呢啲嘅課題我哋亦都打算係喺日後  
30 個個指引個度包括埋嘅，即係話如果講到培訓，培訓個個框架應該包括啲咩嘅  
31 課題，我哋就都係有咁樣嘅諗法嘅。至於話係申請入職嘅人士，係咪應該睇埋  
32 佢哋個情緒智商，我哋就有睇埋嘅。

33 MR DUNCAN：（經傳譯員）不過或者係咪可以作為培訓嘅一個部分呢？

1 陳美寶女士：（經傳譯員）加強佢哋如何應付壓力作為培訓嘅一個部分，呢一個睇法  
2 係工作小組有提過嘅，亦都會係我哋會考慮嘅，即係喺我哋如果要訂定一啲培  
3 訓方面嘅指引嘅話，我哋都會考慮埋呢一點嘅。如果話有任何嘅建議就係要睇  
4 埋嗰個人嘅情緒、智商同埋佢應付壓力嘅能力，作為考核一個申請人係咪取錄  
5 佢呢？九巴係巴士公司之一，諗係要同其他巴士公司亦都一同係研究一下，因  
6 為呢個亦都會影響佢哋嘅招聘嘅工作嘅，特別係而家嗰個人手供應嘅問題，現  
7 有個勞工市場嗰個人手供應嘅問題。

8 MR DUNCAN：（經傳譯員）換句話講，對署方嚟到講，呢個係一個新嘅概念，係咪  
9 呀？

10 陳美寶女士：（經傳譯員）我諗都係。

11 MR DUNCAN：（經傳譯員）我而家就想轉到去講下兼職司機或者兼職車長呢樣嘢，  
12 呢個係事實嚟嘅，係咪呀？好多巴士公司過去咁多年都有請兼職嘅司機，特別  
13 係因為人手嘅問題，我咁講啱唔啱呀？

14 陳美寶女士：（經傳譯員）人手嘅問題其實一直都係大家所關注嘅，喺巴士營運方面  
15 都係一直受人關注嘅，特別係就係公眾嘅期望不斷有所提升，佢哋都希望巴士  
16 嘅服務係有所改善，講到路線、班次、公眾嘅期望都有所上升嘅。我哋好努力  
17 咁樣係同巴士公司係商討，亦都係同當區嘅區議會係商討，搵下有啲咩嘢方法  
18 可以增加個班次、提升個服務，但係過去嗰十年，嗰個事實就係巴士嘅路線係  
19 有所上升，換句話講，我哋係需要招聘更多嘅巴士司機嚟到去係應付嗰個專營  
20 權嘅要求。

21 我哋係知道嗰個情況嘅，我哋喺周年個檢討同埋喺董事局開會嘅時候都好明  
22 白呢個情況，特別係我哋每一年同巴士公司檢討嘅時候，做周年檢討嘅時候，  
23 我哋都有係鼓勵巴士公司係搵唔同嘅方法去增加人手嘅供應。喺運輸署嗰方  
24 面，同埋勞工處一齊，我哋協助巴士公司係做呢一個招聘嘅工作，喺各區係搞  
25 一啲招聘會去招聘巴士司機，亦都鼓勵巴士公司去檢討佢哋嗰個巴士司機嘅待  
26 遇，好讓嗰個薪酬就更加係有吸引力，而且嗰個待遇就係更為合理，可以吸引  
27 新血入行嘅。

28 MR DUNCAN：（經傳譯員）好，唔該。兼職司機--因為聘用兼職司機有冇引致一啲  
29 安全方面嘅問題呢？

30 陳美寶女士：（經傳譯員）喺過去嘅檢討裏面，我哋唔見到有啲咩嘢特別嘅情況或者  
31 個趨勢就顯示兼職司機係要讓人擔心係導致巴士意外嘅成因。

32 MR DUNCAN：（經傳譯員）究竟照你所知，巴士公司做過啲乜嘢嘢嚟到去睇下究竟  
33 兼職巴士司機返工之後或者放工之後究竟佢係做啲咩嘢嘅呢？

34 陳美寶女士：（經傳譯員）講到培訓，巴士公司--我哋期望巴士公司係提供培訓係畀  
35 在職嘅車長，無論佢係全職或者係兼職...

1 MR DUNCAN：（經傳譯員）係，係，對唔住，打斷。我唔係講培訓，我意思即係話  
2 佢哋係夠唔夠精神去開始去返工、上班同埋係去揸車嘅，即係話佢係兼職嘅司  
3 機咁嘛，佢一日裏面其他嘅時間佢會係做啲乜嘢嘅嘢？

4 陳美寶女士：（經傳譯員）從呢個運輸署嘅角度嚟到睇，我哋有咁嘅資料究竟巴士公  
5 司點樣樣去監察兼職巴士司機點樣樣去駕駛，兼職巴士司機呢啲車長就係巴士  
6 公司招聘嘅人手，嚟到去幫手係舒緩個問題同埋係去滿足個巴士服務嘅需  
7 求，特別係有某一啲時候就係一個服務需求嘅高峰期嘅，過去咁多年，我知道  
8 講到個兼職車長嘅百分比係有啲公司係百分之三至到係去到百分之三十一，  
9 其中一家公司就係百分之三十一嘅，而個間公司就因為佢有好多路線都係喺假  
10 日嘅時候行使，所以佢哋係需要除咗基本嘅人手之外，佢哋係全職嘅，之上佢  
11 哋一直有咁嘅安排，就係搵兼職嘅司機嚟到去應付係假日嘅額外嘅需求。

12 MR DUNCAN：（經傳譯員）公司有冇提供一啲分析畀你哋，就話係兼職司機同意外  
13 之間有冇關係呢？即係話會唔會話因為啲巴士係由兼職司機揸對比起全職司機  
14 揸，就多咗意外呢？

15 陳美寶女士：（經傳譯員）我有咁嘅資料，手頭上有咁嘅資料，不過我諗我哋可以喺  
16 呢一方面做一啲研究，然後提供資料畀委員會。

17 主席：（經傳譯員）鄧大律師，其中一間巴士公司有提供到佢哋嘅資料，係咪呀？即  
18 係個涉及兼職司機嘅意外率就並冇特別係高嘅，你問完關於呢個兼職司機嘅  
19 問題未呀？

20 MR DUNCAN：Yes, I am.

21 主席：（經傳譯員）我諗鄧大律師想問嘅就係如果你係一個兼職司機或者你可能會做  
22 一啲其他嘅兼職嘅工作，譬如話係兼職的士司機，兼職貨車司機等等，運輸署  
23 有冇要求巴士公司係去收集佢哋嘅兼職司機有啲咩嘢其他嘅兼職工作呢？

24 陳美寶女士：（經傳譯員）目前我哋係有咁嘅要求，即係有要求巴士公司係去搜集呢  
25 啲資料同埋向我哋呈交嘅。

26 主席：（經傳譯員）我即係假設你係有資料，你哋係唔知道呢啲兼職司機喺日間仲做  
27 緊啲咩嘢其他工作？

28 陳美寶女士：（經傳譯員）冇錯。

29 主席：（經傳譯員）唔該晒。

30 MR DUNCAN：（經傳譯員）我想大家睇 CTB-1 嘅文件冊第 26 頁嘅，呢個就係其中  
31 一間專營巴士公司，即係城巴所呈交嘅陳述，喺第 26 頁嘅最底就講到一啲新嘅  
32 科技輔助儀器，你見唔見到呢？

33 陳美寶女士：（經傳譯員）係。

1 MR DUNCAN：（經傳譯員）喺第 26 頁底，就話我哋係計劃去包括以下嘅技術，就係  
2 由 19 年 6 月開始付運嘅新巴士入面包括嘅，就係有電子穩定系統，一個--另一  
3 個穩定系統，一個防翻滾嘅系統，一個主動嘅速度限制系統，我問題就係運輸  
4 署有冇進行任何本地或者海外嘅研究，或者有冇同巴士公司去合作，有冇研究  
5 過有啲咩嘢新嘅技術或者新嘅安全措施係可以係考慮採納係去改善安全呢？運  
6 輸署有冇進行呢一類嘅研究？

7 陳美寶女士：（經傳譯員）或者我請陳先生，佢係負責呢一個硬件嘅部分嘅。

8 陳英傑先生：（經傳譯員）運輸署一直都係好留意係將新技術採納喺巴士上面，特別  
9 係一啲可以改善巴士安全嘅技術，至於我哋嘅做法可以係內部去做，或者係同  
10 巴士公司去合作嘅，對我哋嚟講，我哋認為同巴士公司合作係會更加有效嘅，  
11 因為佢哋係有運作嘅經驗，同埋佢哋有唔同種類嘅巴士係可以測試呢啲儀式  
12 嘅，佢哋可以睇下究竟呢啲技術係適唔適合佢哋嘅車輛。

13 我哋係一直都會尋求改善，如果有一啲儀器係幫到手，我哋係會同巴士公司  
14 去傾，睇下有冇辦法係可以測試同埋引入呢一啲儀器，我哋亦都係會同一啲車  
15 輛製造商去傾嘅。

16 MR DUNCAN：（經傳譯員）你話你會留意，你喺邊度留意或者點樣留意呢？

17 陳英傑先生：（經傳譯員）我哋會喺網上會搵資料，而我哋嘅工程師都係經常喺網上  
18 搵資料，我哋係會睇一啲嘅雜誌，我哋會--有訂閱一啲關於儀器嘅雜誌，我哋會  
19 睇下有啲乜嘢可以同巴士公司一齊去測試嘅。

20 主席：（經傳譯員）你有冇聯絡你哋一啲海外嘅其他嘅監管機構呢，喺呢一方面？

21 陳英傑先生：（經傳譯員）唔係經常嘅，但係耐唔耐我哋係會做一啲關於儀器嘅研  
22 究，我哋亦都係會聯絡唔同國家嘅監管機構，特別係新加坡、英國、日本等  
23 等，但係我哋係唔會有一個恆常嘅接觸。

24 MR DUNCAN：（經傳譯員）呢個主動嘅限速系統，呢個就係城巴提到嘅系統係咪由  
25 佢哋去建議嘅呢，定係由運輸署去建議嘅呢？

26 陳英傑先生：（經傳譯員）呢個係由佢哋建議嘅，我覺得，根據佢哋嘅描述，呢個就  
27 係同一個電子穩定系統相若嘅系統嚟嘅。

28 主席：（經傳譯員）我諗呢一個主動嘅限速系統係一個主動嘅限速系統，而唔係一個  
29 被動嘅限速系統。

30 陳英傑先生：（經傳譯員）我哋係同巴士公司亦都係有提過--即係有傾緊呢一個系統  
31 嘅，除咗一啲現有嘅限速器，即係最高嘅時速係每小時九--七十公里，我哋亦都  
32 係會引入多一啲嘅功能，當架車係落坡嘅時候，所以個車速上限係每小時 70 公  
33 里。城巴所提嘅就係一個類似嘅儀器，只不過個名唔同嘅啫。

34 MR DUNCAN：（經傳譯員）目前呢個車速限速器係上限係時速 70 公里，

1 陳英傑先生：（經傳譯員）如果一啲行緊--即係譬如話喺一個車速限制 50 公里嘅地  
2 方，如果有架巴士係行緊 60 公里嘅話，如果係咁嘅情況，即係架巴士超速。

3 MR DUNCAN：（經傳譯員）有冇任何方法係限制巴士超速，喺科技或者技術上？

4 陳英傑先生：（經傳譯員）如果你一啲有自動嘅全球定位系統，加上一啲某種嘅限速  
5 系統，再加上呢個地圖，如果係有車速限制，理論上係做得到嘅，我哋亦都係  
6 有同巴士公司去討論過呢一點，而個共識就係理論上係行得通嘅，但係喺香港  
7 嘅環境，全球衛星定位嘅訊號喺某啲地方可能會有啲問題，因為可能有一啲--喺  
8 某啲地方啲訊號可能畀啲高樓大廈係擋住，所以我哋仍然係要求巴士公司係去  
9 探討啲技術，希望喺不久嘅將來係可以採納呢一啲安全系統係有效嘅，但係目  
10 前佢哋仍然係試驗緊或者係探討緊。

11 主席：（經傳譯員）呢個係咪叫做地理圍欄嘅系統呀？

12 陳英傑先生：（經傳譯員）冇錯。

13 陳美寶女士：（經傳譯員）主席，我想補充，城巴所提嘅呢啲技術除咗我哋喺改善巴  
14 士安全嘅工作小組亦都係有睇過呢一啲嘅技術，我哋係會同巴士公司係會睇新  
15 嘅儀器同技術，我哋亦都會詳細同啲巴士公司睇呢啲技術上嘅可能性、安全同  
16 埋點樣可以應用喺本地嘅專營巴士上面嘅。我哋係工作小組入面，即係呢個改  
17 善巴士安全嘅工作小組我哋係有睇過呢個問題，我哋係會繼續探討嘅。

18 主席：（經傳譯員）鄧大律師之前問過一個問題係未答到嘅，係邊個去建議、討論--  
19 即係喺工作小組上面係去討論呢啲嘅技術呢？究竟係由運輸署建議㗎，定係巴  
20 士公司建議㗎，定係兩者都有建議呢？

21 陳美寶女士：（經傳譯員）主席，喺第一次會議，我哋係有提及一啲新嘅技術同埋裝  
22 置去預備同巴士公司去傾嘅，呢啲嘅建議可能係多年嚟各方提出，但係最後係  
23 由運輸署去草擬呢個文件去提呢一啲技術嘅。

24 主席：（經傳譯員）係邊個邀請呢啲巴士公司係出席呢個工作會議小組呀？

25 陳美寶女士：（經傳譯員）係運輸署。

26 主席：（經傳譯員）唔該晒。

27 MR DUNCAN：（經傳譯員）你有冇嘢想補充？

28 陳英傑先生： You mean currently in the world?

29 MR DUNCAN：（經傳譯員）喺呢個地理圍欄嘅技術，正如主席所講，係有用乜嘢嘅  
30 法理基礎去運作呢？或者喺邊一個嘅司法管轄區去運作呢？

31 陳英傑先生：（經傳譯員）我哋手頭上有呢一項嘅資料，我諗呢項技術就唔係新嘅，  
32 但係喺實際應用方面我哋有資料响手嘅，但係根據我知道嘅資料，香港嘅運輸--  
33 作為啲交通工具營運商係有一個咁嘅系統嘅，佢哋可以喺電腦上就用呢一個全

1 球定位系統就可以睇到啲巴士喺邊度，即係啲人可以知道佢哋响邊度或者幾時  
2 會到站，即係用啲手機應用程式可以睇到嘅。而內部嚟講，佢哋可能覺得--即係  
3 會見到某一啲嘅路線可能係營運得比較好啲或者安全啲，呢個同地理圍欄呢一  
4 個技術係相似，但係巴士公司係有留意到呢一方面，佢哋會睇下啲技術以後係  
5 能唔能夠應用嘅，所以回應番你嘅問題，據我所知，就有人係--即係成功係應用  
6 地理圍欄技術，但係當然大家都係向住呢個方向去做嘅。

7 MR DUNCAN：（經傳譯員）你所講就即係可能係--即係我哋知道啲巴士嘅情況係  
8 點，但係你防止唔到問題，如果有巴士喺呢個時速限制 50 公里嘅地方度開--即  
9 係超過 50 公里係會點樣呢？

10 陳美寶女士：（經傳譯員）呢啲嘅技術主要係為咗管理車隊同埋檢查巴士或者其他車  
11 輛嘅情況，至於呢項技術可唔可以用嚟去控制--限制速度或者去減慢速度或者係  
12 防止巴士司機係駛超過時速 50 公里或者 70 公里，即係我哋知道有一啲嘅巴士營  
13 運商就表示如果有呢啲輔助駕駛技術或者技術，佢哋係警告我哋啲司機唔應  
14 該係純粹倚賴一啲技術或者係儀器，因為佢哋可能會過份倚賴呢啲儀器，而係  
15 會失去咗一啲--即係係有一啲關鍵嘅時刻，可能會失去咗個人嘅判斷嘅，呢啲係  
16 專營巴士公司係特別提到嘅呢一點。

17 MR DUNCAN：（經傳譯員）為免生疑問，其實呢一個係車速限制係咪係啲個地理圍  
18 欄呢一個係概念係檢討嘅時候都有包括埋睇埋嘅呢？

19 陳美寶女士：（經傳譯員）有。

20 主席：（經傳譯員）鄧樂勤大律師，我哋而家已經到咗四點半，係咪一個啱嘅時候就  
21 今日係暫停呢？陳女士同埋你嘅同事，我哋今日就會暫停，我諗較早時候已經  
22 係邀請咗你亦都係明日就係再嚟嘅，請你預留咗明日嘅時間，所以請你哋明天  
23 係 10 點鐘再嚟到呢度繼續係作呢一個口述嘅證供。

24 好，明天 10 點鐘再繼續。

25

26 2018 年 5 月 7 日

27 下午 4 時 32 分聆訊押後

*[blank page]*

Tuesday, 8 May 2018

(10.00 am)

CHAIRMAN: Good morning.

Ms Chan, might I invite you to resume your seats at the table.

EVIDENCE FROM THE TRANSPORT DEPARTMENT: MS MABLE CHAN,

MS AMY LEE, MS RACHEL KWAN, MS MACELLA LEE,

MR REGINALD YK CHAN, MR TONY YAU

CHAIRMAN: Overnight, the Transport Department has provided

the committee with material relating to the forward

planning documents that the various bus companies have

provided to the Transport Department on bus safety.

I think at the outset we ought to afford you

an opportunity -- and I do -- if you wish to make some

statement about those documents. Otherwise, I will ask

Mr Duncan to pursue it in examination.

MS MABLE CHAN: Good morning. Thank you very much,

Chairman, for giving me this opportunity. I would just

like to say a very few words on that.

CHAIRMAN: Please do.

Further opening statement by MS MABLE CHAN

MS MABLE CHAN: Actually, I thank the chairman for raising

this and giving us the opportunity to have a go with the

bus operators last night, because I do appreciate that

the request came from the IRC secretariat for sight of

1 the whole FPP, but on the basis of the document  
2 containing commercial value, that's why we did not  
3 disclose it at the outset, but also noting that it  
4 comprises an important chapter on bus safety which does  
5 not comprise commercial value, we actually took the  
6 opportunity to run it past the bus operators last night  
7 and we managed to provide the IRC secretariat with  
8 copies.

9 In fact, I would like to say a few words, that the  
10 forward planning programme is part of the statutory  
11 requirement that the bus operators would have to submit  
12 for discussion and agreement with the Transport  
13 Department.

14 It is part of the two-pronged process which the  
15 Transport Department monitor and regulate the bus  
16 operators. The bus operators are expected to provide  
17 an FPP comprising the route development programme as  
18 well as other operational aspects to the Transport  
19 Department by the end of June of each year.

20 It is since 2003 that the Transport Department has  
21 required the bus operators to include a dedicated  
22 chapter on bus safety, and since then that chapter forms  
23 part of the programme and serves as a planning tool for  
24 the Transport Department to discuss and monitor the  
25 accident statistics of each franchised bus operator in  
26

1       their own analysis, and we expect the bus operators to  
2       propose improvement measures and we expect them to  
3       include in that programme the implementation timetable  
4       for the various improvement measures.

5       Apart from this forward planning process, we also  
6       conduct an annual performance assessment by the end of  
7       each year. That exercise, we will take into account  
8       nine indicators, of which two are related to safety. As  
9       I replied to the senior counsel during yesterday's oral  
10      session, we also maintain an independent database on the  
11      overall territory-wide accident statistics, in which  
12      there is also analysis of accident statistics in respect  
13      of each franchised bus operator. We will also conduct  
14      independent analysis of the accidents by its nature, by  
15      its contributing factor, in order to conduct our annual  
16      performance assessment of each franchised bus operator.  
17      This assessment is done annually based on independent  
18      data from the database, independent of the forward  
19      planning exercise. So the two run in parallel. And the  
20      annual performance assessment report will also be  
21      submitted to the Transport Advisory Committee for  
22      discussion and reference.

23             Thank you, Chairman.

24      CHAIRMAN: Thank you.

25             Mr Duncan.

26

1 Examination by MR DUNCAN (continued)

2 MR DUNCAN: Thank you, Chairman.

3 Good morning, Ms Chan, and ladies and gentlemen.

4 Thank you again for your homework last evening. What  
5 I would like to do is just note the documents which have  
6 been provided overnight, first of all, and then ask you  
7 a couple of questions about those.

8 With regard to the forward planning programmes, the  
9 safety parts of that, I will have questions on those  
10 later this morning. So I won't spend any time on those  
11 at the moment.

12 You have also, via your submission overnight,  
13 provided us with a number of other matters that were  
14 raised during the evidence yesterday, and for those  
15 I thank you.

16 There is just one of those matters referred to in  
17 your submission that I would like to ask you a little  
18 bit about. If you could turn to paragraph 8 of the  
19 overnight supplementary written submission, there is  
20 reference there to the Working Group on Enhancement of  
21 Safety of Franchised Buses. The committee has been  
22 informed that that group was formed after the Tai Po  
23 accident in February of this year, and contains as its  
24 membership, amongst others, representatives of bus  
25 companies.

26

1           You mentioned right at the end of the submission  
2           that the first meeting of that group was held on  
3           13 March this year. My question is: how many meetings  
4           have been held since that date?

5       MS MABLE CHAN: Two meetings.

6       MR DUNCAN: Since then, so three meetings in total?

7       MS MABLE CHAN: Two meetings at the working group level and  
8           then two meetings at the technical meeting, focusing on  
9           bus safety devices and technology.

10      MR DUNCAN: Thank you. So one meeting on 13 March and one  
11         subsequent meeting?

12      MS MABLE CHAN: Yes, I think on 24 April, if I remember.  
13         23 April.

14      CHAIRMAN: I think you gave us that date yesterday. You  
15         mentioned two dates.

16      MS MABLE CHAN: Yes, in the opening statement.

17      MR DUNCAN: Thank you.

18           And the technical meeting, who attends the technical  
19         meeting?

20      MS MABLE CHAN: Perhaps I will ask Rachel, because she  
21         convened the technical meeting.

22      MS RACHEL KWAN: Thank you, Ms Chan, and good morning,  
23         Mr Chairman.

24           The bus companies and the bus manufacturers,  
25         representatives of them have attended the meeting.

26

1 MR DUNCAN: The technical meetings?

2 MS RACHEL KWAN: Yes.

3 MR DUNCAN: Now, are minutes kept of these meetings?

4 MS RACHEL KWAN: Yes.

5 MR DUNCAN: Would the committee be able to obtain copies,  
6 please, of the minutes?

7 MS RACHEL KWAN: Sure.

8 MS MABLE CHAN: As far as minutes are concerned, because as  
9 a general rule it is comprised of internal  
10 deliberations, and our general principle is that we will  
11 not disclose the internal deliberations which may  
12 comprise incomplete analysis and research and may affect  
13 candid discussion within the government.

14 But we can surely provide some relevant extracts of  
15 the deliberations in terms of the measures being  
16 proposed and also actions being explored for the IRC's  
17 information.

18 MR DUNCAN: I know the committee is particularly interested  
19 in the technical considerations being given by those two  
20 groups, and it's in that context that I ask that the  
21 minutes be provided.

22 MS MABLE CHAN: If the committee considers it important to  
23 see the minutes, we may be able to provide to the  
24 committee in confidence.

25 CHAIRMAN: No. We are operating transparently, with  
26

1 everything on our website. We are not taking any  
2 information from anybody that is not disclosed publicly.

3 But what we have in mind -- one imagines, when there  
4 is a technical meeting and you are discussing what  
5 technology might be used in Hong Kong, and bus  
6 manufacturers come to help in the meeting, are we  
7 correct to assume that there would have been papers put  
8 forward by them? For example, speed limiters, you can  
9 do it passively by cutting off fuel but you can also do  
10 it actively, for example, by engaging gears and applying  
11 brakes. Are there any papers of that nature, saying,  
12 "These are the technological advances" -- is there  
13 material of that kind?

14 MS MABLE CHAN: There have not been papers as such so far.

15 We have tabled a scope of work and also the items to be  
16 discussed and explored at the meetings. But the  
17 attendees haven't proposed or tabled any papers so far.

18 CHAIRMAN: Perhaps "papers" is too technical. Anything in  
19 writing? It's hard to believe that you have meetings  
20 with nothing in writing about these kind of obvious  
21 issues, because I think it's the Transport Department  
22 that's identified the various technological devices that  
23 might be used.

24 MS MABLE CHAN: Chairman, because at the first two meetings  
25 we have listed out possible devices and technological  
26

1 matters to be explored and discussed, and we are  
2 attending the attendees to go back and study and then to  
3 come back. So I would have thought that for  
4 facilitating the discussion in future meetings, there  
5 will be analysis papers for us to consider.

6 Thank you.

7 CHAIRMAN: Thank you.

8 Yes, Mr Duncan.

9 MR DUNCAN: There is one other matter which I referred to  
10 you yesterday during the evidence, and in respect of  
11 which I did not ask for any particular reports. That  
12 was a matter which you mentioned during your evidence,  
13 when you mentioned quarterly undertaking -- quarterly  
14 reports to the Road Safety Council, in the context of  
15 monitoring.

16 Could I make a request, please, that we obtain  
17 copies of, or samples, of those quarterly reports?

18 MS MABLE CHAN: Yes.

19 MR DUNCAN: That can be arranged?

20 MS MABLE CHAN: Yes, samples of quarterly reports, sure.

21 MR DUNCAN: If we just go back to that matter that I have  
22 raised, and you had a discussion with the chairman, the  
23 minutes of the four meetings. I understand your  
24 reluctance. I think at the early stage of the exchange  
25 with the chairman, you indicated that there would be no  
26

1           problem with some parts of the minutes being  
2           communicated to the committee. Is that correct?

3       MS MABLE CHAN: I will seek further legal advice as to how  
4           to facilitate the committee to appreciate the work of  
5           the working group and also the technical meeting.

6       MR DUNCAN: Right. We will leave that in your court for the  
7           moment.

8       MS MABLE CHAN: Yes.

9       MR DUNCAN: And would be grateful for your response in due  
10          course.

11      MS MABLE CHAN: Sure.

12      MR DUNCAN: Thank you.

13           There were two other matters, just dealing with  
14          yesterday's proceedings, before I proceed this morning,  
15          that I wish to raise. The first related to the reason  
16          why no changes were made to the guidelines following the  
17          administration's undertaking to look at the guidelines  
18          again after the 2012 accident. That was a matter  
19          I think that you said you would look into further.

20           Have you had the opportunity of looking further into  
21          that as yet?

22      MS MABLE CHAN: I'm sorry, but in the interests of time we  
23          have not been able to do thorough file research, but we  
24          will do that as quickly as possible and we will provide  
25          written response on that.

26

1 MR DUNCAN: Thank you.

2 One other matter was the question of the  
3 full-time/part-time drivers, when I asked whether the  
4 department had conducted any analysis as to the  
5 relationship between the two and accidents as a whole,  
6 whether any analysis had been carried out, and you  
7 indicated that you did not have the information at hand,  
8 but perhaps some research could be done on that and the  
9 information supplied.

10 Is work being undertaken on that particular issue?

11 MS MABLE CHAN: Perhaps I can clarify on that. Based on the  
12 analysis provided by the companies over the years,  
13 especially in the forward planning programme, in the bus  
14 safety section, in analysing the accident by its  
15 category and its nature, there is no analysis or  
16 information pointing towards part-time bus captains as  
17 being the contributing factor to the accidents. In  
18 other words, there is no information as revealed from  
19 those analysis that there is a correlation between the  
20 deployment of part-time bus captains with the accidents.

21 So this is the basis based on which I mentioned  
22 yesterday that there is no information leading to such  
23 kind of correlation.

24 CHAIRMAN: Having had an opportunity briefly to go through  
25 the forward planning papers provided by the various

26

1 franchised buses, the phrase "no correlation" is  
2 repeated frequently when one looks at more or less  
3 anything: bus models, ages of drivers, number of hours  
4 working.

5 MS MABLE CHAN: Chairman, as I have said, those analyses are  
6 conducted and prepared by the bus companies. In our own  
7 independent analysis for reporting to the Road Safety  
8 Council, we do analyse the accidents, be it fatal or  
9 serious, and then in our analysis we will try to  
10 identify common factors, for example driver behaviour or  
11 the involvement of vehicles in those accidents.

12 CHAIRMAN: And that's a separate independent report?

13 MS MABLE CHAN: Yes.

14 CHAIRMAN: And you are making that available to us?

15 MS MABLE CHAN: In the Road Safety Council quarterly report.

16 CHAIRMAN: Yes. Thank you.

17 MR DUNCAN: Let's turn then to the bus safety contents of  
18 the forward planning programmes, the documents that were  
19 sent to us over the break.

20 I have looked at these in three groups, because  
21 although I think there are five franchisees, Kowloon  
22 Motor Bus and Long Win provide the same sort of reports;  
23 Citybus and New World First Bus Services, they supply  
24 the same sort of reports, that's the second type; and  
25 then the New Lantao Bus Company provides a third form of  
26

1 report.

2 Can I ask you first this: the type of information  
3 which is contained in these reports relating to bus  
4 safety, is that determined by the department or is it  
5 left to the bus companies to say, "This is what we will  
6 put in the FPP"?

7 MS MABLE CHAN: As I have mentioned in my opening statement  
8 this morning, the requirement for including a bus safety  
9 chapter in the forward planning programme dates back to  
10 2003. Since 2003, as an annual exercise, the department  
11 will keep track of the information supplied by the bus  
12 operators in terms of bus safety, accident analysis in  
13 the forward planning programme, and then we will write  
14 to the bus operators in around April or May on issues to  
15 be covered and provided in the upcoming forward planning  
16 programme.

17 In terms of bus safety, there are occasions at which  
18 the department will make special request on certain  
19 areas to be covered. So, basically, the scope of  
20 information, and sometimes on an occasional basis the  
21 specific areas provided by the bus companies are made on  
22 the advice of the TD.

23 MR DUNCAN: So who prepares the first draft of the document?

24 MS MABLE CHAN: The colleagues in the Bus and Railway  
25 Branch.

26

1 MR DUNCAN: Right. And have they been given a list of  
2 topics that need to be covered, or do they generate  
3 their own list of topics that the department then  
4 examines?

5 MS MABLE CHAN: It is an evolving exercise. So it starts  
6 off with framework on the coverage of the areas to be  
7 included in the various chapters. But over the years,  
8 there are also topics, list of topics, in those letters,  
9 as and when needed, to be provided to the operator, to  
10 guide them to include certain things in the chapter.

11 MR DUNCAN: Now, we have noticed that these programmes, the  
12 safety parts of these programmes, contain quite  
13 an amount of statistical information relating to  
14 accidents and to accident causes. You will be aware of  
15 that?

16 MS MABLE CHAN: Yes.

17 MR DUNCAN: They also contain information from the companies  
18 as to what they describe as their safety measures, and  
19 their proposed safety measures.

20 If I could take you to one example of the proposed  
21 measures, by asking you to turn to that of the New World  
22 First Bus Services Ltd, which is annex 3 to your  
23 material overnight. I'm looking at page 6, internal  
24 numbering, of that document., which has been apparently  
25 noted now as page 200 of the bundle.

26

1           Do you see on that page clause 5.3, "Measures and  
2           implementation programme to enhance safety"? Are you  
3           looking at that page?

4       MS MABLE CHAN: Yes.

5       MR DUNCAN: Thank you. Then if you look at the text:

6           "Apart from disciplinary actions taken, measures and  
7           programmes planned to reduce common types/causes of  
8           accidents are listed below".

9           And there's a series of measures, no less than  
10          14 measures described there by the company.

11          You mentioned yesterday and again this morning, in  
12          fact, the annual performance assessment of the  
13          franchised bus operators, and the fact that -- and  
14          I think what you were informing the committee was that  
15          safety is taken very seriously because if you look at  
16          the nine indicators, two of them are concerned with  
17          safety matters.

18       MS MABLE CHAN: Yes.

19       MR DUNCAN: Could we just go to those. I think you will  
20          find that in TD-2 at page 316.

21          Are you at the page that reads, "Summary of  
22          performance of the franchised bus operators in 2016"?

23          Do you have that in front of you?

24       MS MABLE CHAN: (Nodded head).

25       MR DUNCAN: Thank you. Do you see the nine key indicators,  
26

1 as they are described? And the two you have noted, are  
2 they respectively "Safety-related defects per bus  
3 examination", and then "No. of buses involved in  
4 accidents per million vehicle-kilometre"? Are they the  
5 two that you have referred to?

6 MS MABLE CHAN: (Nodded head).

7 MR DUNCAN: Thank you.

8 When the department conducts that annual assessment,  
9 does it carry out any sort of check on the individual  
10 matters which a bus operator has indicated it is going  
11 to pursue during that particular year? For example, the  
12 14 items which are contained in the New World  
13 submission.

14 MS MABLE CHAN: I would say yes.

15 MR DUNCAN: When you say you would say yes, why would you  
16 say that? Does it or does it not?

17 MS MABLE CHAN: The annual performance assessment was made  
18 on a company basis. So the Transport Department will  
19 look at the accident performance of the individual bus  
20 operators, in terms of the safety, by means of the two  
21 indicators. And the forward planning programme,  
22 in particular bus safety chapter, actually serves as  
23 a tool for us to study and examine better the  
24 circumstances faced by the bus companies and also their  
25 performance in terms of safety.

26

1           So this actually serves as the basis for the  
2           Transport Department to assess the annual performance  
3           assessment of that company.

4   MR DUNCAN: There is nothing in this summary that indicates  
5           that the department reaches into the individual  
6           companies' statements as to what they are going to do  
7           during a particular year. It's confined to accidents  
8           per million vehicle-kilometres and safety-related  
9           defects which are picked up during the oral examination.

10 MS MABLE CHAN: I can ask my colleague to search in our  
11           covering paper, paper number 2, but I think there is --  
12           yes, may I refer to paper number 2, appendix -- sorry,  
13           paper number 1, appendix M, "Performance of franchised  
14           bus operation in 2016". This is a sample of an annual  
15           performance assessment we did for the franchised bus  
16           operation; appendix M to paper 1.

17 CHAIRMAN: Yes. Mr Duncan, can you give us a page number  
18           for that?

19 MR DUNCAN: 305.

20 CHAIRMAN: Thank you.

21           Yes. You were speaking to this document,  
22           "Performance of franchised bus operation"?

23 MS MABLE CHAN: Yes. In paragraph 19, "Bus safety  
24           measures", it summarises our assessment in overall terms  
25           on the franchised bus performance in terms of the bus  
26

1 safety aspects, and also the common factors identified  
2 in those accidents. In particular in that year, the  
3 2016 performance:

4 "[The] accidents typically involved passengers  
5 losing balance inside bus compartment due to various  
6 reasons, such as not holding the handrail tightly, or  
7 falling down when boarding or alighting. The operators  
8 have made efforts in enhancing safety of bus operation  
9 through various measures."

10 Then we include in the summary the performance of  
11 individual bus operators in that particular year.

12 Then in annex B to that paper, we also mention the  
13 various measures to enhance safety of bus operations.

14 Thank you, Chairman.

15 MR DUNCAN: Do I understand you to say that they are  
16 specifically taken into account during the annual  
17 performance review?

18 MS MABLE CHAN: Yes.

19 MR DUNCAN: Thank you.

20 Now, I'm going to leave those safety provisions now  
21 of the forward planning programme, so you can put those  
22 to one side.

23 I want to turn now to the topic of passenger  
24 behaviour, which has been a topic in many of the  
25 submissions made to the committee. The committee has  
26

1       been alerted to what is said to be an increasing  
2       occurrence of both verbal and physical assaults on bus  
3       drivers in recent times.

4             The committee has heard these allegations from  
5       different sources, so from trade union movement, from  
6       LegCo itself, and also from one of the bus companies,  
7       KMB.

8             If I could just put this matter in perspective. Can  
9       I ask you to go to the TU bundle at page 256, please.  
10       In fact it's 256-1, the document which I ask you to look  
11       at, which is -- forgive me, but it's an English  
12       translation, and not certified, of minutes of a meeting  
13       between the Federation of Bus Industry Trade Unions and  
14       the Department. Do you see that document?

15   MS MABLE CHAN: Yes.

16   MR DUNCAN: If you want to look at the Chinese, I will give  
17       you the reference to that. 250 for the Chinese.

18             Now I wish to take you to the translation, 256-5,  
19       which is under the heading, "Issues on personal safety  
20       of bus captains". If I could read from the translation:

21             "Representatives of the union expressed concern on  
22       the recent incidents where bus captains were attacked,  
23       although the bus captains under attack reported to the  
24       police, in many cases, the police upon arrival would  
25       suggest the parties to settle the matter, without  
26

1 prosecuting the perpetrators. Union representatives  
2 also expressed that, apart from the general insurance  
3 that bus companies provide to its employees, there is no  
4 other support to frontline bus captains."

5 If you would bear that in mind, and then also refer,  
6 please, to 256 --

7 CHAIRMAN: Before you move on, this was a meeting on  
8 4 October 2016?

9 MR DUNCAN: That's correct.

10 Then at 256-8, you will see minutes of a meeting on  
11 27 March 2017. The Chinese of that will be at page 245.  
12 If I could refer you to the translation at 256-13, where  
13 we have the heading under (vi), "Bus captains being  
14 assaulted and prosecution standard for the  
15 perpetrators":

16 "The representative of the union paid close  
17 attention to incidents of assaults on bus captains.  
18 Even though the bus captains being assaulted reported to  
19 the police, most of the times when the police arrived  
20 they suggested the parties to settle the case instead of  
21 prosecuting the relevant persons. Besides, the bus  
22 company only provided insurance coverage for its staff.

23 The police expressed that they will not tolerate the  
24 use of violence, and asked that if the bus captains  
25 encounter such situation they must call for police and  
26

1           endeavour to seek witness(es) for the police's further  
2           handling."

3           Perhaps I should have mentioned, if you go back to  
4           the minutes of the meeting, you will see there the  
5           persons present: the government representatives, the  
6           District Councillors and the Federation of Unions, and  
7           so on.

8           Then thirdly, for the trade unions' complaints,  
9           page 256 --

10          CHAIRMAN: Before you move on, it is said that the police  
11           expressed a view. Was a police officer present at the  
12           meeting?

13          MS MABLE CHAN: Yes.

14          CHAIRMAN: Where is he identified?

15          MS MABLE CHAN: Mr Tsang Moon Lun, chief inspector on  
16           traffic safety from the police department, 256-8.

17          CHAIRMAN: Ah, yes. Thank you.

18          MR DUNCAN: Thank you.

19           Then if you go to page 256-16, please. That's the  
20           translation. The Chinese is at page 250. If I could  
21           take you to the translation, 256-18, you will see the  
22           minutes of a meeting on 20 July 2017, again a meeting  
23           with representatives of the Transport Department, the  
24           police force and the Hong Kong Federation of Trade  
25           Unions for the Bus Industry.

26

1           If I could bring your attention, please, to 256-18,  
2           and the entry at item (ii), "Assault incident on bus  
3           captain". It's long, so I won't read that out, but if  
4           you could just read through it quickly, please, and  
5           I will pick it up at the last couple of paragraphs. In  
6           fact, I will pick it up at the last paragraph:

7           "Further, the police and the trade union recommended  
8           to install protective equipment during bus captains'  
9           driving. The Transport Department will address the  
10          trade unions' concern to the Transport Department."

11          I'm sure that's not particularly well expressed.  
12          The Transport Department no doubt was alerted to the  
13          concern of the unions.

14   MS MABLE CHAN: Chairman, if I may, I am also looking at the  
15          original, the Chinese version of the minutes --

16   CHAIRMAN: Yes.

17   MS MABLE CHAN: -- which is on page 251. On that particular  
18          item, it is recorded that the Transport Department will  
19          relay the trade unions' concerns to the bus operators.

20   CHAIRMAN: Thank you. So there's an infelicity in the  
21          translation?

22   MS MABLE CHAN: Yes.

23   MR DUNCAN: I am grateful for that. Thank you. I will come  
24          back to that in a moment.

25          But if I could just go to some of the other examples  
26

1 of this being brought to the attention of the  
2 department.

3 Can we go to SEC-2, please. There is, again,  
4 a translation at 815 of a communication in Chinese, at  
5 page 814. This is a document actually addressed within  
6 LegCo. Do you know whether the department became  
7 alerted to this matter?

8 MS MABLE CHAN: I do not have the information at hand.

9 MR DUNCAN: Thank you.

10 CHAIRMAN: Perhaps you could give us more information, the  
11 date and between whom the communication is made?

12 MS MABLE CHAN: Because this letter was not addressed to us,  
13 but we can check.

14 CHAIRMAN: Sorry, I'm asking Mr Duncan.

15 What is the date of this communication?

16 MR DUNCAN: This is dated 19 May 2016, and it is addressed  
17 to the chairman of the Panel on Transport Affairs within  
18 the Legislative Council. But if you haven't seen this,  
19 I won't ask you any further questions about this.

20 Then finally can I take you, please, in this  
21 context, to KMB bundle 1, at page 62.

22 This document is part of the submission made by the  
23 Kowloon Motor Bus Company to the committee. I'm not  
24 sure whether you've had the opportunity of reading this,  
25 Ms Chan. Have you?

26

1 MS MABLE CHAN: I have done a cursory reading of the  
2 submissions. Thank you.

3 MR DUNCAN: Thank you.

4 Can I take you to page 62, please, and the top of  
5 the page, perhaps you can just read to yourself the  
6 first entry there, indicated by the indicator,  
7 commencing with, "In response to increasing number of  
8 assaults against [bus captains], we have taken the  
9 following measures".

10 CHAIRMAN: Mr Duncan, to assist those who are following this  
11 with simultaneous translation, given that the document  
12 is displayed only in English, perhaps I could invite you  
13 to read what you say are the relevant parts of the  
14 document.

15 MR DUNCAN: There is a reference in that passage, I think,  
16 Ms Chan, to "Surveillance cameras, including  
17 forward-looking cameras and a camera covering the driver  
18 seat, have become standard features on all new buses  
19 since 2015."

20 Do you see that reference?

21 MS MABLE CHAN: Yes.

22 Q. And:

23 "Up to February 2018, surveillance cameras were  
24 installed in 2,319 KMB buses and 146 [Long Win] buses.  
25 The remaining buses will be equipped with surveillance  
26

1 cameras phase by phase. Surveillance cameras capture  
2 the behaviour (with audio recording) of difficult  
3 passengers. It will protect the interest of [bus  
4 captains] in subsequent investigation by the police or  
5 legal proceedings."

6 Then there is reference to the fact that the company  
7 intends to install a protective shield near the driver  
8 seat starting from June 2018, and they say:

9 "We have added more on-board announcements to advise  
10 passengers not to do certain acts that will affect the  
11 [bus captains] and other passengers."

12 Finally, they indicate that they "offer legal  
13 support to [bus captains] after they have been  
14 assaulted."

15 With that background, from those papers, could I ask  
16 you a few things.

17 First of all, when I raised this issue, the issue of  
18 passenger behaviour, with the bureau yesterday, we were  
19 told that the department has been directed to prepare  
20 an education plan in respect of this matter. What is  
21 the status of this education plan?

22 MS MABLE CHAN: Thank you, senior counsel. The issue of  
23 passengers' behaviour or aggression towards bus captains  
24 was particularly discussed in the context of the  
25 Transport Advisory Committee's meeting in March, when we  
26

1 presented our actions to be followed for the Tai Po  
2 accident.

3 As we reported to the Transport Advisory Committee  
4 at that meeting in March, we reported that the  
5 department or the government is aware of the concern of  
6 the bus captains of incidents of passenger assault or  
7 aggression towards bus captains, and we reported that  
8 this matter was actually followed through in the Road  
9 Safety Council, in which both Transport Department and  
10 also the police are members.

11 We also reported that, as an ongoing education and  
12 publicity campaign, there are radio APIs, TV programmes,  
13 in Chinese it's "ging sun", educating the public on the  
14 appropriate behaviour of passengers when aboard buses.

15 At the meeting, after the discussion at the  
16 Transport Advisory Committee meeting, we are tasked to  
17 look into that and devise a more comprehensive publicity  
18 and education plan in this particular matter. Since  
19 then, in the 77th meeting of the Road Safety Campaign  
20 Committee, which is a committee formed under the Road  
21 Safety Council to look at campaign matters, in the  
22 meeting held on 13 April 2018, it has been agreed that  
23 the attitude of passengers will be one of the themes for  
24 the road safety campaign in 2018-19. The first  
25 publicity activity is to produce the radio API for the  
26

1 purpose of educating passengers on appropriate  
2 behaviour, and disseminating the road safety message in  
3 the third quarter of this year.

4 From the Transport Department's side, we also raised  
5 this issue with other public transport operators, for  
6 example the taxi trade. This is also one of the issues  
7 raised by the taxi drivers, and we are devising a code  
8 of practice and guidelines for quality taxis, to improve  
9 the taxi quality of the existing 18,000 taxis under the  
10 existing regime.

11 Apart from the chapters on drivers, we will also  
12 include a chapter on passengers' responsibility and  
13 attitude.

14 I have also raised with the MTRC at our annual  
15 operational review committee that we are planning to  
16 launch a comprehensive education and publicity campaign  
17 territory-wide, involving the various public transport  
18 operators. That means not only bus operators but also  
19 MTRC and taxis, et cetera.

20 We are considering the details of the plan and we  
21 hope to be able to launch the relevant publicity  
22 activity towards the end of 2018.

23 Thank you, senior counsel.

24 MR DUNCAN: So, by an education plan, we are really talking  
25 about a series of measures, are we? Is that it amounts  
26

1 to?

2 MS MABLE CHAN: By education plan, we think that education  
3 is a very important element in bringing out the key  
4 messages that passengers should bear in mind when they  
5 are aboard public transport vehicles.

6 One of the messages that we have been deliberating  
7 with the operators and within ourselves is that it is  
8 the joint responsibility of the driver and the  
9 passengers to ensure a safe and decent journey from the  
10 origin to the destination.

11 Thank you.

12 MR DUNCAN: KMB have indicated that they have installed, and  
13 will continue to install, surveillance cameras in their  
14 buses. Is that a requirement of the Transport  
15 Department to KMB?

16 MS MABLE CHAN: No.

17 MR DUNCAN: Have you had discussions with any of the other  
18 bus companies with regard to the installation of  
19 surveillance cameras?

20 MS MABLE CHAN: Personally, I am aware of the KMB's measures  
21 such as the installation of surveillance cameras. They  
22 have raised it with us at regular discussions, and also  
23 at the board meeting level. This issue was not  
24 particularly raised at the board meetings of the other  
25 bus operators, as far as I am aware, but we are also

26

1       aware that they are thinking of various ways to help the  
2       bus drivers deal with this issue, in order to  
3       facilitate, in the occasions whereby the passengers have  
4       any aggressive attitude towards the drivers, and that  
5       may lead to dispute on the spot, would there be any  
6       device to help to have some objective evidence?

7           On the other hand, the Transport Department has not,  
8       up to this stage, required this kind of installation,  
9       knowing that there may be implications on other aspects,  
10      the sentiments of the drivers towards this kind of  
11      device.

12           So this is an issue which is ongoing discussed  
13      within the bus operators. Thank you.

14   MR DUNCAN: So the Transport Department is not pursuing this  
15      matter? You are leaving it to the bus companies?

16   MS MABLE CHAN: We consider that, as I have said at the  
17      meetings between the Transport Department and the trade  
18      unions, we have relayed the concerns to the bus  
19      operators and we expect the bus operators to look into  
20      ways to address the occasions and incidents happening  
21      involving the bus drivers of the companies and seeing  
22      what suitable facilities or measures can be taken,  
23      having taken into account the employees' concerns,  
24      sentiments.

25           Thank you.

26

1 CHAIRMAN: So the answer is yes, it's being left to the bus  
2 operators?

3 MS MABLE CHAN: I would not say so, because we consider the  
4 passengers' attitude towards the drivers is an important  
5 issue, and we have over the years taken efforts to  
6 promote this message and do education and publicity  
7 exercise. We are aware that the trade unions have  
8 expressed this kind of concern to the bus companies and  
9 to the Transport Department, and we have relayed this  
10 matter to the bus operators. We take a keen interest on  
11 how the bus companies will address this concern, and we  
12 welcome the measures that will be produced by the bus  
13 companies.

14 On the other hand, to answer the chairman's  
15 question, we do not totally refer the matter to the bus  
16 companies, because we know that specific devices such as  
17 surveillance cameras may have its own implications. So  
18 we do want the bus companies to look into this  
19 carefully.

20 Thank you.

21 CHAIRMAN: I'm sorry, can I ask you what you mean by  
22 surveillance cameras have their own implications? Can  
23 you amplify what you mean by that?

24 MS MABLE CHAN: Based on our understanding and discussions  
25 at the board meetings of KMB, as an example, there are  
26

1           some concerns expressed by the bus captains that with  
2           the installation of the surveillance cameras in front of  
3           the driving seat, it may intrude into their personal  
4           privacy, and we have also received some complaints on  
5           that front.

6           Thank you.

7   CHAIRMAN:   From bus captains, through trade unions?

8   MS MABLE CHAN:   Trade unions, yes.

9   CHAIRMAN:   Do we have that documented anywhere, in any of  
10           the material that we have?

11   MS MABLE CHAN:   We may not be able to find it but we will  
12           try to locate.

13   CHAIRMAN:   Thank you.

14           So, on the one hand, bus captains or at least some  
15           of them are concerned about their own safety and being  
16           abused, and yet others are concerned about privacy? Is  
17           that it?

18   MS MABLE CHAN:   Yes.

19   CHAIRMAN:   Thank you.

20   MR DUNCAN:   What about the matter of protective shields? Is  
21           that a matter which is being considered by the Transport  
22           Department as a suitable measure?

23   MS MABLE CHAN:   This is also an initiative of the bus  
24           company, in this case the KMB.

25   MR DUNCAN:   Right, but my question is whether it occurs to  
26

1           the Transport Department as a matter worth pursuing, and  
2           if so whether the Transport Department is suggesting  
3           this to any of the other bus companies.

4   MS MABLE CHAN: This is a measure taken by the KMB in  
5           response to the concerns and suggestions from the bus  
6           captains towards the management, and we are aware of  
7           that.

8   CHAIRMAN: The question was have you suggested to other bus  
9           companies or operators that they look at this?

10   MS MABLE CHAN: We have suggested this measure to the other  
11           bus companies for consideration.

12   MR DUNCAN: So it would be entirely up to them as to whether  
13           they engage with it or not?

14   MS MABLE CHAN: Yes.

15   MR DUNCAN: It would be their decision?

16   MS MABLE CHAN: At the present moment, yes.

17   CHAIRMAN: Mr Duncan, do we have any photographs in the  
18           material that we've got as to what is meant by  
19           a protective shield?

20   MR DUNCAN: We will try and locate that, Mr Chairman.

21           One of the questions I raised with Mr Lai from the  
22           bureau yesterday was whether or not any of the bus  
23           companies had passed its own by-laws so that it could  
24           act in respect of the conduct of its drivers or  
25           passengers, and he wasn't sure precisely what the  
26

1 position was with regard to by-laws.

2 What is the position? Have any of the bus companies  
3 passed the by-laws provided for by the ordinance?

4 MS MABLE CHAN: We have checked on this specifically. At  
5 the present moment, the bus companies have not passed  
6 any by-laws at the present moment. As our colleagues  
7 have recalled, it appears that at least for the past ten  
8 years this issue has not been raised by the bus  
9 operators.

10 MR DUNCAN: It hasn't been raised by the bus operators, but  
11 has the department considered that the passing of  
12 by-laws by the bus companies may be able to provide some  
13 assistance in respect of the problem which seems to be  
14 reasonably prevalent and for which the police have  
15 apparently found difficulty in taking prosecution?

16 MS MABLE CHAN: The current legislative requirement under  
17 the Public Bus Services Regulations and also the Road  
18 Traffic (Public Service Vehicles) Regulations have  
19 provisions stated about the general conduct of  
20 passengers, prohibiting bus passenger disorderly conduct  
21 on public bus, including not to obstruct or distract the  
22 driver.

23 So there is a legislative basis for overseeing this  
24 matter. Thank you.

25 MR DUNCAN: You might understand a comment that this may not  
26

1           be the top of the police force's priorities, whereas the  
2           bus companies would be far more concerned about it.

3   MS MABLE CHAN: I am not in a position to respond on behalf  
4           of the police.

5   MR DUNCAN: Now, to the knowledge of the department, are  
6           drivers provided with any training with regard to how  
7           they should deal with an unruly passenger?

8   MS MABLE CHAN: I am aware that the bus companies have  
9           included modules on handling passengers and during  
10          stressful situations as part of their training courses  
11          for in-service bus captains, as well as new recruits.

12   MR DUNCAN: Given the fact that trade unions have complained  
13          about this, has the department looked into those modules  
14          to see what sort of training procedures might be  
15          available?

16   MS MABLE CHAN: The mentioning about the inclusion or  
17          enhancement of stressful courses, handling courses, as  
18          part of their training is mentioned in the forward  
19          planning programme, and we also take that into account  
20          and it is actually our plan to formalise the alignment  
21          of the training framework, to ensure that this will form  
22          part of the modules in the training for the new recruits  
23          as well as the in-service bus captains.

24          At the present moment, the bus companies are  
25          offering such kind of training courses to handle

26

1 passengers during particular occasions whereby the  
2 drivers may feel offended.

3 MR DUNCAN: Are you aware of any protocols that are in place  
4 for the drivers that they should follow if there is  
5 an incident arising from the behaviour of a passenger?

6 MS MABLE CHAN: I can speak from my personal knowledge, that  
7 the KMB have set out some rules, basic rules, for their  
8 drivers to follow and to observe in handling such kind  
9 of situations.

10 MR DUNCAN: Have you examined those?

11 CHAIRMAN: Forgive me, Mr Duncan. Whilst this is fresh in  
12 my mind. You say you intend to formalise alignment of  
13 training framework. What do you mean by that?

14 MS MABLE CHAN: Chairman, the Working Group on Enhancement  
15 of Bus Safety formed in March, the terms of reference  
16 and the scope of work included the enhancement of  
17 training as one of the areas to be looked into. As  
18 mentioned in our paper 11, TD paper 11, "Training and  
19 health checks of bus captains", we have reported that  
20 our intention is to set out the guidelines on the  
21 training framework in order to align the content and the  
22 modules of the training.

23 CHAIRMAN: Take your time to locate what you are looking  
24 for.

25 MS MABLE CHAN: Let me try to locate it.

26

1           It is shown on the screen, page 131.

2       CHAIRMAN: Paragraph 15?

3       MS MABLE CHAN: Yes.

4       CHAIRMAN: Thank you.

5       MS MABLE CHAN: The training of bus captains to handle this  
6       kind of situation involving passengers is a very  
7       important issue to be addressed. We know that at the  
8       present moment various bus companies have included such  
9       kind of module, but we think that it is very important  
10      to align and formalise the requirement, to make sure  
11      that this module is included in the training for new  
12      recruits as well as in-service captains, and we want to  
13      set out a guideline on the weighting and the contents of  
14      this relevant module, to make sure that there are  
15      appropriate training to be provided for bus captains, to  
16      equip them with the necessary skills and to prepare them  
17      psychologically for such kind of distressful situations.

18           Thank you, Chairman.

19      CHAIRMAN: So when you say "an alignment", and you say  
20      "formalise", you mean issue guidelines so that they are  
21      the same for all bus operators?

22      MS MABLE CHAN: Yes. In a way, we plan to issue a guideline  
23      requiring all the bus operators to include this kind of  
24      training as their training framework, and we will also  
25      plan to set out the basic duration and also the relative

26

1           weighting of each of the modules, so it will form  
2           a framework for the bus operators to follow, so that  
3           there will be a common basis for the individual bus  
4           operators to conduct internal monitoring and audit. By  
5           such kind of device, we can align the practice of the  
6           various bus operators.

7           Although the duration and the frequency may vary in  
8           very detailed way, but there will be a basic minimum  
9           duration required, and also the weighting to be accorded  
10          to the various modules under the broad training  
11          framework.

12   CHAIRMAN:   What do you mean by "weighting"?

13   MS MABLE CHAN:   The relative weighting of, say, the module  
14           on handling passengers, relative to the other modules on  
15           driving skills, route training, et cetera.

16   CHAIRMAN:   Thank you.

17           This working group, it is anticipated, would report  
18           by the end of June; am I correct?

19   MS MABLE CHAN:   Yes, you are correct, Chairman.

20   CHAIRMAN:   Is it intended that the guidelines be issued at  
21           that stage?

22   MS MABLE CHAN:   We are trying very hard to formulate the  
23           guidelines as early as possible. The pledge of the  
24           working group currently is to complete the report by the  
25           end of June. We will consider as to whether a draft of  
26

1 the guidelines can be included as part of the report.

2 But I think the detailed guidelines may take a little  
3 bit of time.

4 Thank you, Chairman.

5 CHAIRMAN: Thank you.

6 Yes, Mr Duncan.

7 MR DUNCAN: I just noticed that particular paragraph,  
8 Ms Chan, doesn't actually mention the problem that I've  
9 raised with you. It doesn't specifically address the  
10 question of the behaviour of passengers towards  
11 captains, does it?

12 MS MABLE CHAN: The paper does not make specific mention of  
13 that, but in our discussions at the two working group  
14 meetings, the various modules were actually discussed,  
15 and we have also sought the agreement of the bus  
16 operators to work towards having a common framework,  
17 comprising the modules that they are providing.

18 Thank you, Chairman.

19 MR DUNCAN: Let me try and finish this topic. With the  
20 complaints having been made, as we can see, by the trade  
21 unions, amongst others, and with meetings held involving  
22 the Transport Department, the unions and the police, and  
23 so forth, has the department itself developed any ideas  
24 as to how this problem might be overcome, as opposed to  
25 leaving ideas for the bus companies to pursue?

26

1 MS MABLE CHAN: The department considers this issue as  
2 a very important issue to be addressed, and as  
3 demonstrated by the various efforts that the Transport  
4 Department is taking, we believe that equipping the  
5 drivers with necessary skills and preparing them  
6 psychologically to handle such kind of situations,  
7 coupled with education and publicity campaign to impress  
8 upon them the important message of passengers'  
9 responsibility, are two-pronged measures to tackle this  
10 issue.

11 Thank you.

12 MR DUNCAN: Do you have any specific ideas, apart from  
13 a general approach?

14 MS MABLE CHAN: I think this is a very specific approach.

15 Thank you.

16 MR DUNCAN: Now, I want you, please, to go to your  
17 supplementary submission. You will find this at TD-1,  
18 page 163. May I just ask you to clarify a matter.  
19 Page 163.

20 The committee raised a question with you, and it was  
21 in these terms:

22 "[The Transport Department] would review the  
23 results of random checks to ascertain that the [bus]  
24 operators have been monitoring the driving behaviour of  
25 their drivers and have taken/will take follow-up action  
26

1           against those drivers with improper driving behaviour.'

2           Please describe the process by which those random checks  
3           are reviewed. If their process is recorded in writing,  
4           please provide copy samples of such documents."

5           The answer that you gave was this:

6           "The requirement for the submission of the results  
7           of random checks ... has been implemented only since  
8           January 2018. The [Department] reviewed the monthly  
9           report submitted by the [bus] operators to ascertain  
10          that the ... operators have been monitoring the driving  
11          behaviour of their drivers ..."

12          What is the arrangement between the department and  
13          the bus operators with regard to these random checks?

14   MS MABLE CHAN: The requirement of installing black box and  
15          also the arrangement for onboard plain-clothed employees  
16          of the bus companies to inspect the driving behaviour  
17          and attitude of the bus captains have been required over  
18          the years. I do not have the specific year at the  
19          present moment, but perhaps colleagues can check and  
20          supplement on that.

21          So, in order to equip and facilitate the bus  
22          companies to have a better knowledge and to better  
23          monitor the driving behaviour and attitude of the bus  
24          drivers, the installation of black box, coupled with the  
25          arrangement on onboard plain-clothed inspectors, would  
26

1        help them to analyse and monitor and to devise relevant  
2        improvement measures to be followed through by the bus  
3        companies.

4            This is a requirement set by the Transport  
5        Department, and we expect the bus operators to, based on  
6        this kind of observations, on an ongoing basis, and then  
7        they will devise the suitable measures.

8            Since January 2018, it is the initiative of the  
9        Transport Department to step up our monitoring of the  
10       bus operators, to ensure that they have done this kind  
11       of analysis and monitoring on a regular basis. We take  
12       the initiative to do so not because of any particular  
13       accident but we think that that will give us  
14       information, a basis, for us to consider whether any  
15       step-up monitoring can be conducted by both the bus  
16       companies or at the TD level, in order to ensure that  
17       there will be more informed basis to consider any  
18       appropriate measures to address improper driving  
19       behaviour of drivers.

20           We think that over the years, when we analyse the  
21        accident data, driver behaviour is one of the key  
22        contributing factors of many of the accidents, be it  
23        serious or less serious. So we consider this as a step  
24        forward for us to step up the monitoring on a more  
25        regular basis.

1           Thank you.

2       MR DUNCAN: My question is just aimed at what is constituted  
3           by the random check. What is this random check system?

4       MS MABLE CHAN: Based on my understanding and recollection,  
5           the bus companies are required to conduct random checks  
6           on the black box data, as well as random checks onboard  
7           the buses.

8       MR DUNCAN: Right. Let's just keep to onboard the buses.  
9           Is this a directive from the Transport Department or  
10          what?

11      MS MABLE CHAN: It is a requirement of the Transport  
12          Department.

13      MR DUNCAN: In writing?

14      MS MABLE CHAN: I can check. I can check on that and then  
15          supplement.

16      MR DUNCAN: I am interested in the details of what random  
17          checking may be conducted by the bus companies  
18          themselves of drivers' behaviour.

19      MS MABLE CHAN: I do not have the record at hand, but we can  
20          certainly check and try to locate whether there is  
21          anything in writing on this.

22      MR DUNCAN: Is there any random checking of passengers'  
23          behaviour?

24      MS MABLE CHAN: The random checking is focused on the driver  
25          behaviour.

26

1 MR DUNCAN: Thank you.

2 Turning away from --

3 CHAIRMAN: Before you do so.

4 The request made of you, the Transport Department,  
5 was to describe the process by which those random checks  
6 are reviewed, and that is a reference to the Transport  
7 Department. How are they reviewed by the Transport  
8 Department, the random checks?

9 MS MABLE CHAN: Chairman, if I may, I will locate the form,  
10 the compliance form, and then I will refer you to that.

11 CHAIRMAN: Thank you. Take your time.

12 MS MABLE CHAN: May I refer you to annex 11, to paper 4, in  
13 TD's bundle. Perhaps counsel's team can mention the  
14 page number.

15 CHAIRMAN: Perhaps Mr Duncan can help us as to where we find  
16 annex 11.

17 MR DUNCAN: Page 1020.

18 MS MABLE CHAN: Chairman, this monthly report was issued  
19 since January 2018. It comprises four aspects.

20 CHAIRMAN: Yes.

21 MS MABLE CHAN: The part (B), "Mysterious ride checks for  
22 monitoring of driving behaviours of bus captains", is  
23 relevant to our discussion just now. So we have  
24 stipulated in the monitoring report the number of  
25 routine mysterious ride checks conducted, number of

26

1       ad hoc mysterious ride checks conducted, and the number  
2       of malpractice cases found on a monthly basis, as well  
3       as the follow-up actions taken. This return will help  
4       us to check and monitor the number of routine and ad hoc  
5       mysterious rides conducted by the various bus companies,  
6       and to monitor whether there are any malpractice cases  
7       found and the follow-up actions taken.

8       In this sample provided in January 2018, you can see  
9       the various follow-up actions taken by the bus  
10      companies. On this return, we will look at it and then  
11      we will see whether the bus companies have regularly  
12      conducted such kinds of mysterious rides and whether the  
13      number of checks fluctuate by monthly basis, and on the  
14      other aspect, if we identify any trend in driver --  
15      inappropriate behaviour, from our independent analysis,  
16      in respect of the various bus operators, we will use  
17      this as one of the tools for us to follow up with the  
18      bus companies, to see whether they have taken  
19      appropriate actions to address the driving behaviour of  
20      bus captains.

21      Thank you.

22      CHAIRMAN: So just dealing with, say, black boxes, this  
23      particular form details the fact that there were 8,552  
24      checks on black box data as at the end of the month;  
25      yes?

26

1 MS MABLE CHAN: Yes.

2 CHAIRMAN: And that had produced speeding in 271 incidences.

3 MS MABLE CHAN: Yes.

4 CHAIRMAN: And that had resulted in what's described as  
5 a verbal warning, 187; a written warning, 78; and  
6 a final warning, 6.

7 MS MABLE CHAN: Yes.

8 CHAIRMAN: So the Transport Department reads this document,  
9 that's what's meant by "review", and presumably that  
10 would satisfy you, the entry here, that a system is in  
11 place, and that's the extent of the review?

12 MS MABLE CHAN: This monitoring mechanism by means of  
13 a monthly report serves to provide us with basic  
14 information on how the bus companies conduct the checks,  
15 either on mysterious ride or black box data, and the  
16 follow-up actions. This serves as one of the tools for  
17 us to do the assessment on the bus company on an annual  
18 basis, coupled with our independent analysis based on  
19 the accident data in respect of the bus operators and  
20 the contributing factors, if any, say in relation to the  
21 driving behaviour of bus captains.

22 So with all this, we will take issue with the bus  
23 companies and consider any appropriate improvement  
24 measures to be taken by the bus companies.

25 Thank you, Chairman.

26

1 CHAIRMAN: Yes. Thank you.

2 MR DUNCAN: Are you able to tell us, Ms Chan, how often  
3 police have prosecuted passengers in respect of their  
4 behaviour on buses, say over the last five years?

5 MS MABLE CHAN: I do not have the information.

6 MR DUNCAN: Does the department not maintain that  
7 information?

8 MS MABLE CHAN: We do not maintain such kind of information,  
9 but I am not sure whether such kind of information is  
10 presented to the Road Safety Council, because the police  
11 is one of the members, and they also chair the Road  
12 Safety Council -- the deputy director of operations  
13 chairs the Road Safety Council.

14 MR DUNCAN: What about under the regulations made under the  
15 Public Bus Services Ordinance: how often are  
16 prosecutions instituted under the regulations?

17 MS MABLE CHAN: We do not have the information at hand.

18 MR DUNCAN: Mr Chairman, if I may just interrupt, the  
19 protective shield photographs are apparently not in the  
20 bundle. We don't have any of those available within the  
21 bundle.

22 CHAIRMAN: I'm sorry, I missed the first part?

23 MR DUNCAN: The protective shields for the drivers, there  
24 are no copies of those photographs in the bundles, as  
25 far as we are aware.

26

1 CHAIRMAN: Thank you.

2 MS MABLE CHAN: Chairman, perhaps we can help on that.

3 I think I have seen such photo in our file records.

4 Perhaps we can try to locate and supply the committee.

5 CHAIRMAN: Thank you. That would assist.

6 MS MABLE CHAN: I will try. I cannot commit, but we will  
7 try.

8 CHAIRMAN: I understand that. If you can find one, please  
9 give it to us so that we can understand what it is that  
10 has been installed or will be installed.

11 MS MABLE CHAN: Because they are actually installed in the  
12 buses and when we ride on the buses, we actually see  
13 such kind of shield beside the driver.

14 Thank you.

15 MR DUNCAN: Now, spot-checks on vehicles. This was raised  
16 with Mr Lai yesterday, and he was asked a question by  
17 one of the committee members as to how the figure of  
18 14 per day had come about.

19 Are you able to assist us in that respect?

20 MS MABLE CHAN: The 14 vehicles under spot-check by the  
21 Transport Department is one of the indicators in the  
22 controlling officer's report under the Transport  
23 Department.

24 In devising the pledge or the indicator, we have to  
25 consider it in the context of a robust vehicle  
26

1 inspection exercise conducted by the TD. Every  
2 franchised bus vehicle is inspected on a monthly basis.  
3 On top of that, it is also inspected on an annual basis.  
4 Only in those cases whereby that bus vehicle is not  
5 under an investigation of a monthly inspection at that  
6 particular moment -- I would like to phrase it again --  
7 we would conduct monthly and annual inspection of each  
8 and every bus vehicle. It is only in those cases  
9 whereby the bus vehicle is not subject to a monthly  
10 inspection --

11 MR YK CHAN: Not recently --

12 MS MABLE CHAN: Can I ask my colleague to supplement on that  
13 detail?

14 CHAIRMAN: Certainly. I think the real question is why 14,  
15 why not 24, why not 214?

16 MS MABLE CHAN: In very simple terms, the spot-check is  
17 conducted on top of the regular monthly and annual  
18 inspection, and the monthly and annual inspection is on  
19 a planned basis. The spot-check is really to exercise  
20 a more robust and unplanned random check.

21 CHAIRMAN: But why 14? Why not some other number?

22 MS MABLE CHAN: 14 buses per day, equivalent to 3,400 buses  
23 per year, and this is against the total fleet of 5,900  
24 bus fleet of all the bus operators. There is not a very  
25 specific or scientific basis to arrive at 14, but  
26

1 obviously this is also derived having regarded to the  
2 resources available and also the size of the fleet and  
3 also the size of the fleet of vehicles to be inspected  
4 by TD under the monthly and annual programme in our  
5 vehicle examination centre.

6 So far, the check results of the annual and monthly  
7 checks, as well as the spot-checks, give us  
8 a reasonable, confident basis to say that in general the  
9 construction and maintenance of the bus vehicle is under  
10 a satisfactory situation, and should there be any  
11 safety-related bus defects, those are immediately  
12 rectified and detected.

13 Thank you, Chairman.

14 CHAIRMAN: Thank you.

15 Mr Duncan.

16 MR DUNCAN: Thank you, Mr Chairman.

17 Ms Chan, I want to turn now to a different topic, if  
18 I could. It's concerned with the department's contact  
19 with trade unions. It's clear from your evidence that  
20 there is a lot of communication between the department  
21 and the bus companies. What I'm keen to explore is the  
22 contact that you have from time to time with the trade  
23 unions.

24 The trade unions, many of them have made submissions  
25 to the committee for these proceedings. Have you had  
26

1 the opportunity of reading some of those submissions?

2 MS MABLE CHAN: I have read some of them.

3 MR DUNCAN: You have read them? Thank you.

4 Do I understand the position to be that, from time  
5 to time, trade unions will come to the department or  
6 write to the department and indicate matters of concern  
7 to them to the department?

8 MS MABLE CHAN: I will say time and again we have received  
9 letters or requests from the trade unions expressing  
10 their issues of concern.

11 MR DUNCAN: How does the department deal with those  
12 approaches?

13 MS MABLE CHAN: Perhaps I will start by saying this. As  
14 an ongoing basis, should the trade unions express any  
15 issues of concern relating to the benefits and working  
16 conditions of the bus captains, we will, depending on  
17 the nature of their request, consider whether it relates  
18 to the employment or manpower policy of individual bus  
19 companies, and then we will consider referring the  
20 matter or discuss the matter with the bus company on  
21 a case-by-case basis.

22 More frequently, relatively speaking, some of these  
23 requests relate to the working hours and the rest times  
24 of the bus drivers, because while the ordinance does not  
25 require us to stipulate specific requirements of working  
26

1 hours and conditions, the department over the last 10 to  
2 20 years have devised the guidelines requiring the bus  
3 companies to follow, insofar as the working hours, the  
4 driving hours and the rest and meal breaks are  
5 concerned.

6 In that context, it has developed to the present  
7 moment that the trade unions may raise their concerns in  
8 that context to us.

9 So the ongoing implementation of the working hours  
10 guideline actually enables the trade unions to express  
11 their suggestions or views time and again to the  
12 Transport Department, and we will take that into account  
13 and reflect upon them as an ongoing basis.

14 Thank you.

15 MR DUNCAN: Earlier on this morning, we saw minutes of three  
16 meetings that you had held at which trade union  
17 representatives were present. They were respectively in  
18 October 2016, March 2017 and July 2017.

19 What prompted those meetings?

20 MS MABLE CHAN: Perhaps I may invite my assistant  
21 commissioner, Ms Kwan, to try to respond to that  
22 question.

23 MR DUNCAN: Thank you.

24 MS RACHEL KWAN: Thank you, Chairman.

25 CHAIRMAN: Before you do so, just to remind ourselves, these  
26

1           were meetings where you took us to the issue of the  
2           safety of bus captains?

3       MR DUNCAN:   That's right.

4       CHAIRMAN:   Your question now is more general --

5       MR DUNCAN:   It is.

6       CHAIRMAN:   -- as to what led to the meetings being held?

7       MR DUNCAN:   Yes.

8       CHAIRMAN:   Thank you.

9       MS RACHEL KWAN:   So, Mr Chairman, over the years, we met the  
10           staff unions from time to time, in response to their  
11           request. They would raise issues that concern them  
12           most, such as working hours, implementation of the  
13           working hours guideline, the working conditions, and  
14           also their practical difficulties in their driving  
15           duties, such as they encounter some on-street  
16           obstructions to their bus operation, something like  
17           that. They will raise with us some congestion black  
18           spots to us, for us to liaise with other concerned  
19           departments to resolve the problems.

20      MR DUNCAN:   So how regularly would you meet the trade unions  
21           in a meeting such as we have seen from the  
22           documentation?

23      MS RACHEL KWAN:   There is no such fixed pattern. Usually,  
24           when we have some items to raise with them, we will  
25           discuss with them, we will arrange meeting to discuss

26

1 with them; or, on the other hand, if they have matters  
2 that concern them most, they will ask us to arrange  
3 meeting for them.

4 MR DUNCAN: So could you give the committee some idea as to  
5 how many times in a year you would meet with the trade  
6 unions?

7 MS RACHEL KWAN: It's about two to three times a year.

8 MR DUNCAN: Was it typical that persons from the police and  
9 other bodies would attend those meetings?

10 MS RACHEL KWAN: Yes. It really depends on the agenda, on  
11 the items to be raised at the meeting. We will invite,  
12 for example, the police to attend the meeting if  
13 necessary.

14 MR DUNCAN: I want to refer you, Ms Chan again, back to  
15 bundle TU-1, at page 80 this time.

16 This is part of the submission from the Kowloon  
17 Motor Bus Staff Union to the committee. I assume,  
18 Ms Chan, that this is one of the documents you have been  
19 able to read?

20 MS MABLE CHAN: Mm-hmm.

21 MR DUNCAN: Can I bring your attention, please, to  
22 paragraph 1 of the letter.

23 The translation is at page 80-1.

24 Item (1), could you just read that to yourself,  
25 please.

26

1 MS MABLE CHAN: Yes.

2 MR DUNCAN: Have you read that?

3 MS MABLE CHAN: Yes.

4 MR DUNCAN: You can see some sentiments, quite strongly  
5 worded there, from the trade union, sentiments that have  
6 been communicated to the committee.

7 What is your response to those sentiments?

8 MS MABLE CHAN: From the English translation of that letter,  
9 it actually -- the first paragraph mentions a number of  
10 issues, like high wastage rate, low remuneration  
11 package, overlong working hours, et cetera. These are  
12 the issues that have been raised by the staff unions,  
13 both to the bus operator and also during their  
14 discussions or meetings with the Transport Department.

15 On the high wastage rate, I think this was also  
16 mentioned in the first session yesterday, about the  
17 acute manpower shortage.

18 The low remuneration package is also one of the  
19 areas that the government has asked the bus operators to  
20 look into that as one of the measures to attract new  
21 blood and to retain the in-service bus captains.

22 The overlong working hours is a longstanding issue,  
23 and that is actually one of the issues that we have been  
24 looking into time and again over the years, when we  
25 formulate or revise the working hours guidelines.

26

1           The tight bus trip schedules is another issue  
2           concerning the operation, and this relates to the  
3           increasing public demand on public bus service, coupled  
4           with on-the-ground traffic congestion issues in certain  
5           areas, that will lead to the tight deployment of bus  
6           trip schedules.

7           As far as the management, they have raised the issue  
8           about the management issue, this is more an issue  
9           between the management and the staff as far as the  
10          individual bus companies are concerned.

11          So, in short, these areas relating to the general  
12          bus operation in Hong Kong, the manpower issue, the  
13          remuneration issue and also the working hours of bus  
14          captains, the government is aware of that and that is  
15          why we are taking various measures to discuss with the  
16          bus companies.

17          The working hours guideline is one of the measures  
18          that we would want to improve their working conditions,  
19          by further shortening their working hours. And the  
20          remuneration package, we have also asked the bus  
21          companies to devise various means to attract new  
22          recruits and to retain the in-service bus captains as  
23          far as possible.

24          Thank you.

25          MR DUNCAN: How would you describe the department's  
26

1 relationship with the trade unions? Is it a healthy  
2 relationship? Is it a tense relationship? Just how  
3 would you describe it?

4 MS MABLE CHAN: The Transport Department is a regulator of  
5 the franchised bus operators. Bus captains are  
6 an important asset and an important component in the  
7 operation of franchised bus operators. The Transport  
8 Department, though not being a labour department, we  
9 maintain an ongoing and close relationship with the  
10 staff unions of the bus captains under various bus  
11 operators.

12 I would say that we maintain an ongoing relationship  
13 and we stand ready to meet with them, on their request  
14 or on our own initiative.

15 Thank you.

16 MR DUNCAN: I wasn't really asking whether it was ongoing or  
17 not, but is it a good relationship? Do you get on well  
18 together?

19 MS MABLE CHAN: It is difficult to generalise, to reply to  
20 your question in very short manner. I do not want to  
21 say so. But I would say that we keep an ongoing  
22 dialogue and we maintain a cordial relationship with  
23 them, to discuss issues of mutual concern, and we take  
24 into account their views and concerns, amongst other  
25 factors, in devising our guidelines on working hours,  
26

1 and also in asking or facilitating the bus operators to  
2 improve the rest facilities in the depots and in the bus  
3 stops to address their very basic needs during the day.

4 MR DUNCAN: How does it compare with the relationship the  
5 department has with the bus companies?

6 MS MABLE CHAN: It is difficult to compare. We are the  
7 regulator of the bus operators. We take a very serious  
8 attitude in regulating and monitoring the bus operators.  
9 As far as the staff unions are concerned, we consider  
10 them as important stakeholders in the process to ensure  
11 a proper and efficient service. The employees are key  
12 components of the bus operators, so we consider them as  
13 important stakeholders and that we have to maintain  
14 a close and ongoing discussion and dialogue with the  
15 staff unions.

16 MR DUNCAN: Just before the break, could I ask you again to  
17 look, please, at the heading, the introductory words to  
18 clause (1) of that submission. That was the sentiment  
19 to which I was referring earlier.

20 Does that sentiment come as a surprise to you?

21 MS MABLE CHAN: I will not comment on that.

22 CHAIRMAN: Perhaps for the purpose of the record you want to  
23 read it out, then it will be in our transcript.

24 MR DUNCAN: Yes. It reads this:

25 "Serious negligence of duty by officials of the  
26

1 Transport Department and their ineffective monitoring".

2 Does it surprise you that the trade unions have made  
3 that suggestion to the committee?

4 MS MABLE CHAN: I will not comment on that. What I can  
5 respond is that we have done our part in regulating and  
6 monitoring the bus operators, and we also take into  
7 account the views and concerns of the staff unions in  
8 devising the various measures that relate to the bus  
9 captains. We have maintained an ongoing discussion  
10 channel with the staff unions and we stand ready to meet  
11 them and hear their views, and we take seriously their  
12 views into account when we devise the various measures.

13 MR DUNCAN: Thank you, Ms Chan. After the break, I will  
14 take you to just some of the particular matters that the  
15 trade unions have raised with the committee. I'm not  
16 going to go through them all, but some of them, and  
17 I will be anxious to find out whether they have been  
18 raised with the department and, if so, how they have  
19 been resolved. But we will do that after the break.

20 MS MABLE CHAN: Thank you.

21 CHAIRMAN: Yes. We will take a break for 15 minutes. Thank  
22 you.

23 (11.38 am)

24 (A short adjournment)

25 (11.58 am)

26

1 CHAIRMAN: Yes, Mr Duncan.

2 MR DUNCAN: Thank you, Mr Chairman.

3 Ms Chan, before we turn to some of those issues that  
4 the trade unions have raised with the committee, there  
5 are just a couple of other matters I would like to ask  
6 you about.

7 The first arises from something you said this  
8 morning, during your evidence, pertaining to the  
9 guidelines on working times, and so forth.

10 If I could just quote from your evidence this  
11 morning. You said:

12 "More frequently, relatively speaking, some of these  
13 requests" -- and you are talking about requests from the  
14 trade unions -- "relate to the working hours and the  
15 rest times of the bus drivers, because while the  
16 ordinance does not require us to stipulate specific  
17 requirements of working hours and conditions, the  
18 department over the last 10 to 20 years have devised the  
19 guidelines requiring the bus companies to follow,  
20 insofar as the working hours, the driving hours and the  
21 rest and meal breaks are concerned."

22 Now, of course it is true that the ordinance does  
23 not require those matters to be dealt with, but you are  
24 aware, are you not, of the regulation in the ordinance  
25 which specifically provides for these matters to be the

26

1 subject of regulation? You are aware of that?

2 MS MABLE CHAN: Yes.

3 MR DUNCAN: So I'm going to ask you the same question --

4 CHAIRMAN: Could you take us to where we find that?

5 MR DUNCAN: Certainly. It's in the THB-2 bundle,

6 Mr Chairman, at pages 124 and 125.

7 CHAIRMAN: And what are we looking at there?

8 MR DUNCAN: At 124, we are looking at section 35 of the

9 ordinance, which is introduced by the words:

10 "Secretary for Transport and Housing to make  
11 regulations."

12 And the provision then within section 35 for:

13 "The Secretary ... [to] make regulations for all or  
14 any of the following matters".

15 If I can refer you over the page, 125, to item (j),  
16 regarding "in relation to the drivers of buses used by  
17 a grantee":

18 "(i) the maximum number of hours during which any  
19 such driver may be permitted to drive such a bus; and

20 (ii) the intervals to be provided by a grantee for  
21 the rest and refreshment of such drivers, in any period  
22 specified in the regulations".

23 Are you able to tell us is there any particular  
24 reason why the working hours schedule is governed by  
25 guidelines as opposed to regulations?

26

1 MS MABLE CHAN: As a matter of fact, the Transport  
2 Department first formulated the guidelines for  
3 compliance by the franchised bus operators on  
4 a voluntary basis back in 1993. The formal promulgation  
5 of the guidelines was in 1998. Since then, the  
6 guidelines were reviewed and as a result revised six  
7 times since 1998.

8 The process of implementation of the guidelines and  
9 review of the guidelines is an ongoing, evolving  
10 process. So far, the formulation of the guidelines and  
11 the revision to the guidelines were arrived at through  
12 discussions with the bus operators and also through our  
13 meetings with the staff unions, taking into account the  
14 views expressed by various stakeholders.

15 In implementation of the guidelines, we have  
16 required the bus operators to do the regular monitoring  
17 and supply us with regular information. The Transport  
18 Department has also employed independent contractor to  
19 do the independent survey and checking, to monitor the  
20 compliance.

21 Over the years, we can observe that the compliance  
22 by the bus operators to the guideline is significantly  
23 high. We do not detect any significant deviation from  
24 the bus operators from the guidelines.

25 So, from the operational point of view, we think  
26

1           that the existing arrangement under which the working  
2           hours and the driving hours and the rest break and meal  
3           break are set out in the form of guidelines works well.  
4           Should there be any persistent non-compliance of the bus  
5           operators, we will take necessary follow-up actions,  
6           including issuing advisory letters, warning letters, to  
7           make sure that any non-compliance is rectified as early  
8           as possible.

9           Thank you, Chairman.

10       MR DUNCAN: So do I take it from that that it has never even  
11       occurred to the department to do this by way of  
12       regulation?

13       MS MABLE CHAN: Under the existing framework, the guidelines  
14       serve as an effective tool for us to monitor the bus  
15       operators in deploying the bus drivers' driving duties,  
16       to meet the requirements under the guidelines, the  
17       guidelines provided for requirement on rest breaks and  
18       meal breaks for the bus captains. Coupled with that, we  
19       will also discuss with the bus operators and require  
20       them to provide necessary rest facilities. The whole  
21       process is an ongoing process and needs to be  
22       implemented in a pragmatic manner.

23           So we think that the guidelines at the present  
24       moment serve well and we will surely take that into  
25       account in assessing the bus operators' performance in  
26

1 providing a proper and efficient service.

2 MR DUNCAN: Now, it is true, isn't it, that from time to  
3 time the trade unions and the staff unions have  
4 complained that the bus companies have not been  
5 complying with the guidelines? That has been a source  
6 of complaint from the unions and the staff members, has  
7 it not?

8 MS MABLE CHAN: We are aware that there may be individual  
9 complaints on particular occasions, but we have our own  
10 independent checking on the compliance of bus operators  
11 according to our guideline. We have tried our very best  
12 to institute independent checking mechanism, and we also  
13 expect the bus operators to make sure that those  
14 requirements are complied with.

15 Up to the present moment, we are reasonably  
16 satisfied that the bus operators regard those guidelines  
17 seriously and also fulfil the requirements as we  
18 required, to comply with the relevant guidelines, in  
19 formulating the bus driver duty shifts on an ongoing  
20 basis.

21 Thank you.

22 MR DUNCAN: Do you accept that if they were the subject of  
23 regulation, the department would have more teeth to  
24 enforce the arrangements than it does with simple  
25 guidelines?

26

1 MS MABLE CHAN: Based on our experience so far, we are  
2 satisfied that the guidelines are followed through and  
3 there are checks and balances to ensure independent  
4 checking, and should there be any non-compliance on  
5 a particular occasion, we would take it up with the bus  
6 operator and see what are the causes for those  
7 non-compliance in a particular case, and then we will  
8 take it up with the bus operator accordingly.

9 So far the mechanism to ensure compliance and  
10 follow-through works effectively.

11 Thank you.

12 CHAIRMAN: The question was: do you accept that the  
13 regulations would give the department more teeth than  
14 guidelines, not whether or not guidelines are working,  
15 but whether or not the regulations would give the  
16 armoury available to the Transport Department more  
17 teeth?

18 MS MABLE CHAN: I think this is an issue to be looked at in  
19 the overall scheme of things and the legislative  
20 framework. At the present moment, the monitoring of TD  
21 and also the regulation of TD of the bus operators  
22 actually flows from the statutory framework under the  
23 PBSO and the Road Traffic Ordinance, under the  
24 franchise, and also there are other commitment letters  
25 and administrative requirements.

26

1           So I think, overall, in the overall scheme of  
2           things, it is how the Transport Department performs our  
3           monitoring and mandatory role.

4           So I will not comment at this stage as to whether  
5           a particular requirement to be set out in the regulation  
6           will particularly give us more teeth in that particular  
7           sense, because the monitoring and regulation by TD on  
8           the bus operators' operation is performed under the  
9           overall scheme of things, with statutory requirements,  
10          franchise provisions, and also other directives or  
11          notices issued by the Commissioner for Transport.

12   CHAIRMAN:   So does it come to this: although the legislature  
13           thought it was sensible to give you the power to make  
14           regulations, you have not found it necessary to do so  
15           because the informal system that you have works?

16   MS MABLE CHAN:   I would respond that, as I mentioned just  
17           now, the existing framework or regime under which we  
18           enforce the compliance of the guidelines and follow  
19           through and take rectification system works to our  
20           satisfaction at the present moment.

21   CHAIRMAN:   Thank you.

22   MR DUNCAN:   The other matter I want to ask you about before  
23           we go to the trade unions' points is something that  
24           arises from your supplemental written submission. It's  
25           at TD-1 at page 163. Could you turn up that, please.

26

1           Could I refer you to the first item on that page,  
2           item 17.

3       MS MABLE CHAN:   Yes.

4       MR DUNCAN:   The question that was asked by the committee was  
5           that "If the requisite capabilities of the  
6           tachograph/black box were communicated to the [bus]  
7           operators in written form, please provide copy samples  
8           of such documentation. Has the [Department] revised the  
9           requisite capabilities of the tachograph/black box from  
10          the time that the [Transport Department] first required  
11          [bus] operators to fit the device on franchised buses?"

12               So that was the matter which was posed.

13               If we look at your response:

14               "The [Department] have issued a 'Basic minimum  
15               requirements for electronic recording devices (also  
16               known as black box) on new buses' to the [bus] operators  
17               and a copy is enclosed ..."

18               We will go to that in a moment.

19               "Based on these requirements, the vehicle examiners  
20               would conduct random checks on the functionality of the  
21               black boxes during bus inspections.

22               We understand that over the years with the  
23               advancement of technology, the ... operators have taken  
24               initiative to work with the supplier of the device to  
25               widen the scope of information being kept by the black  
26

1 box to facilitate their fleet management, which may  
2 include records of route number, door bell pushing,  
3 opening of the doors, GPS location, brake application,  
4 et cetera."

5 Now, if I could take you, please, to annex 15. You  
6 will find that at TD-5 at page 1597.

7 Do you see at that page, 1597, the letter that the  
8 Transport Department sent to a number of franchisees?  
9 Is that the letter requiring the use of the so-called  
10 black box?

11 MS MABLE CHAN: Yes. It was at a time when the black box  
12 requirement was imposed.

13 MR DUNCAN: Thank you.

14 If you turn over the page --

15 CHAIRMAN: So that is 17 October 2003?

16 MS MABLE CHAN: Yes.

17 MR DUNCAN: Then over the page, the "Basic minimum  
18 requirements for the electronic data recording device"  
19 are set out.

20 Is that correct?

21 MS MABLE CHAN: Sorry, I beg your pardon?

22 MR DUNCAN: Over the page, you will see the "Basic minimum  
23 requirements" set out.

24 MS MABLE CHAN: Yes.

25 MR DUNCAN: Since 2003, of course, technology has moved on  
26

1           and black boxes are able to provide all sorts of  
2           information now which wasn't available in 2003. You  
3           will be aware of that.

4           Has the department issued any further directives to  
5           the bus companies as to the sort of information that it  
6           needs to collect from these black boxes in today's  
7           technology world?

8   MS MABLE CHAN: I just confirmed with my colleagues that  
9           since 2003 we have not issued similar directive  
10          regarding the electronic data recording device.

11   MR DUNCAN: So this is something simply left to the bus  
12          companies, to keep up with technology?

13   MS MABLE CHAN: The advancement of the technology has  
14          evolved over the years, and we are in the process of  
15          discussing the enhancement of the black box system in  
16          our working group which I mentioned this morning, which  
17          we started to commence deliberation in March 2018.

18          This is one of the issues that has been included in  
19          the scope of work for discussing with the bus companies  
20          and bus operators. Over the past years, we have not  
21          issued any similar directive on enhancement over the  
22          years. But we would expect that as the technology  
23          advances, the bus companies, they are also prepared to  
24          consider and examine any possible means to enhance their  
25          existing devices in the buses.

26

1 CHAIRMAN: So the answer is yes, it's been left to the bus  
2 companies in the intervening 14 years?

3 MS MABLE CHAN: In the intervening 14 years, as my  
4 colleagues mentioned yesterday, there is ongoing contact  
5 with the bus manufacturers and the bus companies, and  
6 they keep in view any new technological data and  
7 advancement in the various devices.

8 We have not issued any particular additional note to  
9 supplement on this directive, but that doesn't mean that  
10 we did not look into that.

11 Thank you.

12 MR DUNCAN: Now I want to go, please, to some of the matters  
13 that --

14 CHAIRMAN: Before you do that, if you are moving away from  
15 black boxes?

16 MR DUNCAN: Yes.

17 CHAIRMAN: Perhaps you could help the committee with this.

18 Is the Transport Department aware of the devices that  
19 are now in use, the black box devices, in the various  
20 franchised bus companies?

21 MS MABLE CHAN: I beg your pardon? Is it are we aware of  
22 any --

23 CHAIRMAN: Are you aware of the capability of the devices  
24 now being used, that are called black boxes, by the  
25 various companies?

26

1 MS MABLE CHAN: Perhaps I will invite Mr Chan, our expert,  
2 to --

3 MR YK CHAN: Thank you, Chairman.

4 I think I will just roughly go over the various  
5 functions of the black box that various companies are  
6 now adopting.

7 CHAIRMAN: Can you answer the company directly, "yes" or  
8 "no" to start with, and then by all means give us your  
9 explanation. Are you aware of the capabilities of the  
10 devices described as black boxes, as a general sort of  
11 term, used by the various bus companies?

12 MR YK CHAN: Yes.

13 CHAIRMAN: So the answer is yes?

14 MR YK CHAN: Yes.

15 CHAIRMAN: Thank you.

16 Please explain.

17 MR YK CHAN: A black box -- I think basically the first  
18 thing is the device is capable of sort of monitoring the  
19 movement of the vehicle by each time interval, by a  
20 certain time interval, perhaps second by second.

21 CHAIRMAN: That was the 2003 requirement.

22 MR YK CHAN: It's the 2003 requirement.

23 CHAIRMAN: Yes.

24 MR YK CHAN: And really, in the old days, it's sort of  
25 analogue type of black box, tachographs, but nowadays  
26

1           it's become electronic, so there are developments that  
2           you can utilise this basic information in various ways.

3           I understand from the bus companies nowadays, they  
4           actually -- apart from recording, the braking, the  
5           speed, the opening of doors, the sounding of bells are  
6           all recorded in that gadget -- we call it black box  
7           nowadays -- and actually the bus companies are utilising  
8           this information as a driver monitoring or fleet  
9           management tool, to conduct their day-to-day monitoring.

10          That is the basic function of it. Of course, with  
11          the development of other type of technologies, like GPS  
12          or other --

13   CHAIRMAN: That's hardly a new technology, is it?

14   MR YK CHAN: I think the technology itself is not new.

15   CHAIRMAN: American mothers were buying their sons in the  
16          military in the Gulf War in 1990 Magellan GPS machines  
17          so they could find their way across the desert.

18   MR YK CHAN: Yes, the technology itself may not be new, the  
19          basic information it produces may not be new, but with  
20          the advance of technologies and the development of  
21          various uses of the information, in the context of fleet  
22          management, the bus companies are actually utilising  
23          this sort of information, as I said, as a tool to  
24          monitor the operation of the vehicles day in and day  
25          out, and also they can also monitor the driving

26

1           behaviour of drivers day in and day out.

2           So you can say fleet management is not new either,  
3           because actually it has been deployed by various  
4           transport companies for a long, long time, and this  
5           information, for our bus companies in Hong Kong, as  
6           I said, as the commissioner said, we have not just left  
7           it to the bus companies to look into what they want to  
8           do.

9           Over the years, as I mentioned yesterday either, we  
10          have been sort of looking around, new technologies and  
11          new applications or utilising technologies that are  
12          available. Now, black box, although it is producing  
13          very basic information, but we actually over the years  
14          have been communicating -- talking to bus companies,  
15          asking them to study and investigate the feasibility of  
16          applying this sort of technologies and the information  
17          produced by the black box to better manage their bus  
18          operation and drivers.

19          I think they have been doing that, and I understand  
20          also from a couple of companies, bus companies, recently  
21          they are actually upgrading their software and systems  
22          to better utilise the black box information.

23   CHAIRMAN: These requests that were made of the various bus  
24          companies, that they investigate the improved technology  
25          and consider using them, were these made in writing?

26

1 MR YK CHAN: I cannot answer this question right now. I can  
2 go back and check. But certainly we have various  
3 meetings and also discussion and even when -- our staff  
4 all go over to the depots to see the management over  
5 maintenance or construction and maintenance of vehicles,  
6 we do raise out this sort of discussions.

7 But whether these questions or requests have been  
8 recorded down formally, then we will have to check  
9 again.

10 CHAIRMAN: Whether it's formal or not, were there any  
11 minutes taken of meetings, were there any letters  
12 evidencing what you say was communication over the  
13 years? If you are able to find them, would you be kind  
14 enough to first of all locate them and give us sample  
15 copies?

16 MR YK CHAN: Sure.

17 MS MABLE CHAN: We will try to do our hard work again.

18 CHAIRMAN: Thank you.

19 MR DUNCAN: Can I take you, please, to bundle TU-1 at  
20 page 185.

21 I think I have to introduce this page by asking you  
22 to go back to page 147. We don't have a translation of  
23 this but it's a very small portion I'm going to ask the  
24 committee to consider. The start of the document is at  
25 page 147. Do you have that?

26

1 MS MABLE CHAN: Yes.

2 MR DUNCAN: Thank you. If you go back two pages to 145, you  
3 will see the covering letter. This is a written  
4 submission to the committee by the Federation of Bus  
5 Industry Trade Unions.

6 If you could go through then, please, to page 185 of  
7 the document, and if I could bring your attention,  
8 please, to the last paragraph which starts on page 185.

9 The translation that I have suggests that the  
10 content of this paragraph is as follows:

11 "In order to receive a bonus payment, the bus  
12 captains must pass the assessment. The bus operators  
13 use the attendance rate as an important criteria in  
14 determining whether to grant a bonus. Bus captains  
15 would continue driving even when they are sick."

16 Do you see that in that portion that I have brought  
17 to your attention?

18 MS MABLE CHAN: I have yet to locate the specific statement  
19 in the Chinese.

20 CHAIRMAN: Take your time.

21 MS MABLE CHAN: I can locate the paragraph, although the  
22 order of the expression of the views may not totally --

23 CHAIRMAN: Perhaps you can give us your interpretation, if  
24 you are able to. If not, say so.

25 MR DUNCAN: As it's been put to me -- you can agree with  
26

1           this or you can comment on it -- I will put to you --

2       MS MABLE CHAN: Can you put your English translation --

3       MR DUNCAN: I will read it to you again, yes.

4       MS MABLE CHAN: -- again so I can hear --

5       MR DUNCAN: So you can understand it and see whether that's  
6       reflective of what you have read:

7           "In order to receive a bonus payment, the bus  
8       captains must pass the assessment. The bus operators  
9       use their attendance rate as an important criteria in  
10      determining whether to grant a bonus."

11           So the bus companies (sic) have to continue have to  
12      continue driving in order to keep their attendance rate  
13      up, in order to get the bonus, so they will drive even  
14      when they should be on sick leave?

15      CHAIRMAN: That's bus captains do that?

16      MR DUNCAN: Bus captains, yes.

17           You need to read 185 and on to 186.

18      MS MABLE CHAN: Perhaps I can try to help.

19      MR DUNCAN: Thank you.

20      MS MABLE CHAN: Because the paragraph starts to mention  
21      about the new recruit employed on contract basis and the  
22      bus company takes into account their attendance  
23      performance, their attendance rate, as one of the  
24      factors in considering whether to renew the contract.  
25      And such contract staff very often, in order to hope

26

1           that the company will renew their contract, may attend  
2           while they are sick or have illness.

3           You consider this attendance as a factor in  
4           considering the renewal of the contract is unreasonable,  
5           then it's the second part of this paragraph mentioning  
6           that the bus company in recent years introduced  
7           a year-end bonus for new recruits, and the bus company  
8           has introduced an assessment mechanism for awarding of  
9           such bonus, and the bus company will also consider this  
10          attendance rate as one of the indicators in the  
11          assessment.

12          So there are two parts of the statement.

13   MR DUNCAN: Right. Let's not quibble with what is in there.

14          Let me ask you this, though. Is this a matter that the  
15          trade unions have brought to the department's attention?

16   MS MABLE CHAN: As I have said, because I have seen this  
17          submission, and this is also one of the issues recently  
18          raised by the staff unions in various occasions, so I am  
19          aware of that.

20   MR DUNCAN: Yes.

21   MS MABLE CHAN: But as to whether they have formally raised  
22          this in their submission or letter to the Transport  
23          Department, I will have to check on that.

24   CHAIRMAN: But it's been brought to the Transport  
25          Department's attention?

26

1 MS MABLE CHAN: I will have to check on that because I am  
2 aware of that and my colleagues are also aware of that,  
3 because this concern has been raised by the staff  
4 unions, particularly following the Tai Po accident, but  
5 I would have to check on that and then revert to the  
6 committee with our written response.

7 CHAIRMAN: Thank you.

8 MR DUNCAN: Please do so. What I'm interested in is, first  
9 of all, whether it's been communicated to the department  
10 and then, secondly, if so, what steps have been taken by  
11 the department to look into this matter. Could you  
12 cover that in your written response, please?

13 MS MABLE CHAN: Yes, because we are aware of these kinds of  
14 concerns through the various occasions the media has  
15 widely reported and following the Tai Po incident. But  
16 I'm not sure whether this has been formally communicated  
17 to the Transport Department. This relates to the recent  
18 introduction by the bus company on the year-end bonus  
19 and also on their indicators to assess newly recruited  
20 staff on contract basis.

21 So it relates to the terms of the employment and the  
22 recruitment of a bus company.

23 CHAIRMAN: If you are aware of it, I think the broader  
24 question is what have you done about it, if anything, so  
25 far?

26

1 MS MABLE CHAN: I was aware of it in very recent months,  
2 following the Tai Po incident, as widely reported, but  
3 I will revert with further information as to the  
4 department as a whole is aware of this concern and  
5 through formal channels.

6 Thank you.

7 MR DUNCAN: Another matter raised by the trade unions can be  
8 found at page 311 of the same bundle.

9 This, you will see, at page 310, is a document  
10 received from the Federation of Hong Kong & Kowloon  
11 Labour Unions. Do you see that?

12 MS MABLE CHAN: Yes.

13 MR DUNCAN: I'm referring you, please, to the paragraph  
14 which is the last paragraph to commence on page 311.  
15 For the purposes of the hearing this morning, I've had  
16 a translation of that particular paragraph prepared, and  
17 I'm going to make it available now. (Handed).

18 CHAIRMAN: Do we have a copy for the stenographer?  
19 (Handed).

20 MR DUNCAN: Could you take the time to read through that,  
21 please.

22 MS MABLE CHAN: Yes.

23 MR DUNCAN: In this particular part of the submission, the  
24 union has raised a matter pertaining to the advertising  
25 revenue of the franchised bus operators. Do you see  
26

1           that?

2       MS MABLE CHAN:   (Nodded head).

3       MR DUNCAN:   There's a request of the government to review  
4           the regulation with regard to the non-fare revenue of  
5           the bus company.

6           Is this a matter which the unions have raised with  
7           the Transport Department?

8       MS MABLE CHAN:   Not that I'm aware, no.

9       MR DUNCAN:   So this is the first that you've come to know of  
10          this issue?

11      MS MABLE CHAN:   Yes.

12      MR DUNCAN:   The submission to the committee?

13      MS MABLE CHAN:   Yes.

14      CHAIRMAN:   Could you just read out the part that you say is  
15          the request for a review.

16      MR DUNCAN:   It's the last sentence of the first paragraph:

17           "The Federation of Hong Kong & Kowloon Labour Unions  
18          demands the government to review the regulation on the  
19          non-fare revenue in the franchised bus ['policy',  
20          I think it must be] to avoid the repetition of the  
21          aforementioned vicious cycle."

22      CHAIRMAN:   Thank you.

23      MR DUNCAN:   I guessed correctly, "policy".

24      CHAIRMAN:   So you are not aware of this request, Ms Chan?

25      MS MABLE CHAN:   No.

26

1 MR DUNCAN: Can I then refer you back to another matter,  
2 this time at page 71.

3 MS MABLE CHAN: Sorry, Chairman, apart from giving the  
4 answer that we are not aware, can I comment on that?

5 CHAIRMAN: Of course you can, yes.

6 MS MABLE CHAN: Based on the submission, and the issue they  
7 raise about the companies' definition of the non-fare  
8 revenue, may I say for the record that the bus companies  
9 are expected to prepare their annual accounts and budget  
10 according to the international accounting standards, and  
11 they are subject to the internal audit of the  
12 department. Should they suggest any fare increase  
13 proposal, those will be scrutinised by the department  
14 and also the Financial Monitoring Unit of the Transport  
15 and Housing Bureau.

16 In considering the justification and basis for any  
17 fare increase, we will take into account the financial  
18 position of the company, projections of the cost and  
19 revenue; the non-fare revenue and fare revenue will both  
20 be taken into account.

21 Thank you.

22 MR DUNCAN: I now wish to refer you to page 67 of the same  
23 bundle, please.

24 This is an email which encloses a submission to the  
25 committee from the Monthly-rated Drivers Union.

26

1           Could I bring your attention, please, to page 72 of  
2           the translation. You may wish to read the Chinese at  
3           page 68. Would you read to yourself, please,  
4           paragraph 3, headed, "Training of bus captains".

5       MS MABLE CHAN: Yes, I have read that.

6       MR DUNCAN: This concerns the matter of training.

7       MS MABLE CHAN: Mm-hmm.

8       MR DUNCAN: Have trade unions from time to time raised these  
9           sorts of issues with the department?

10      CHAIRMAN: Could you be more specific, when you say "these  
11           sorts"?

12      MR DUNCAN: The particular complaints that are set out in  
13           this paragraph, has the department been apprised of  
14           these particular matters?

15      CHAIRMAN: For my benefit at least, can you identify what  
16           you regard as the significant points?

17      MR DUNCAN: Certainly, Mr Chairman.

18           If I could quote from the translation, at the bottom  
19           of page 72, it's alleged as follows:

20           "At present, each training course consists of one or  
21           two trainees and an instructor, who will get along with  
22           one another for 17 days. Besides teaching proper  
23           driving skills and manners, the instructor will also  
24           observe the character of the trainees. However, the  
25           company neglects relevant comments under the existing  
26

1 system. In fact, there is an abundant supply of  
2 trainees in the KMB bus captain training school.  
3 Nevertheless, only a few stay after a year. High work  
4 pressure ... and the discrepancy between the claimed  
5 salary in recruitment advertisements and actual  
6 income ... are reasons for wastage."

7 Have those sorts of allegations been brought to the  
8 attention of the department in the past?

9 CHAIRMAN: I'm sorry?

10 MR DUNCAN: My question is: have those sorts of complaints  
11 been brought to the attention of the department in the  
12 past?

13 MS MABLE CHAN: I have read the Chinese version as well as  
14 the English version.

15 MR DUNCAN: Yes.

16 MS MABLE CHAN: The first part of the paragraph describes  
17 a particular case in which a new recruit candidate goes  
18 through the training process and also the driver licence  
19 examination, and it happens that after one week of  
20 service there is an accident happened and the bus  
21 company organised training course for this captain.

22 The Chinese says the company, under the existing  
23 system, they did not take into account relevant opinion.  
24 So this is not sure how they said that the company does  
25 not take into account the relevant opinion, because at  
26

1           the outset it described the training course provided by  
2           the bus captain.

3           But the latter part of this paragraph actually  
4           mentioned about for those new recruits who continue to  
5           work for the first year, they may have to pay some  
6           training fees for the company. So, in this particular  
7           form, we have not received such kind of complaint, as to  
8           the specific occasion and also the specific arrangement  
9           of the training for individual companies, no.

10          Thank you.

11   MR DUNCAN: You haven't received those sorts of complaints?

12   MS MABLE CHAN: No.

13   MR DUNCAN: Moving to another topic: have trade unions or  
14           staff associations from time to time made comments to  
15           you about safety technology and safety provisions that  
16           might be introduced on buses? Have they themselves made  
17           suggestions?

18   MS MABLE CHAN: I will have to ask my colleagues to check  
19           from their memory.

20          Maybe I will ask Rachel to help out.

21   MR DUNCAN: Yes.

22   MS RACHEL KWAN: When we met the staff union in the past,  
23           say, two years, they seldom raised question or  
24           suggestions about safety device.

25          I remember once upon a time they raised about  
26

1 demister on the windscreen, because they find in spring  
2 time the foggy situation is serious. After that, we  
3 have followed up with their employers to see what  
4 solution could be made. This is the only item that  
5 relates to safety matters that I can remember.

6 MR DUNCAN: Have the unions from time to time raised matters  
7 pertaining to reflective mirrors and demisting devices,  
8 those sorts of things?

9 CHAIRMAN: I think that's what you just said that they have  
10 raised, some years ago; is that right?

11 MS RACHEL KWAN: Maybe two or three years ago, yes.

12 MR DUNCAN: What about display monitors and warning devices,  
13 sensors, to facilitate reversing? Have they been raised  
14 with you by trade unions at all?

15 MS RACHEL KWAN: I'm sorry, I'm not aware of that.

16 MR DUNCAN: Are trade unions represented at all on the  
17 working group which is looking at the new technology  
18 that might be available?

19 MS MABLE CHAN: No. The working group, the focus of the  
20 working group is to look at the bus safety enhancement  
21 device and also the training framework. We discussed  
22 with the bus companies and the bus manufacturers. In  
23 providing their views, insofar as the bus companies are  
24 concerned, we will expect the bus companies to take into  
25 account the company's circumstances and their other  
26

1 stakeholders' views as necessary to provide the feedback  
2 to us.

3 As colleagues have just recalled and mentioned, our  
4 ongoing discussion with the trade unions arises from our  
5 ongoing process in developing the working hours  
6 guidelines, so in that context, it is more often that  
7 they raise the working hours and the conditions and  
8 their concern about remuneration and take-home pay. It  
9 is not common for them to raise specific issues  
10 regarding their remuneration arrangement and the  
11 contractual terms which falls into the purview of the  
12 individual bus companies and their employees.

13 The bus operators are expected to fulfil the  
14 statutory requirements under the Employment Ordinance,  
15 to devise their employment terms for the recruitment of  
16 the bus captains.

17 Thank you.

18 CHAIRMAN: Is there any reason why the trade unions were not  
19 involved in the working group, if one of the things you  
20 are considering is training?

21 MS MABLE CHAN: Thank you, Chairman.

22 The working group started its scope of work to look  
23 at the bus enhancement device, and also see whether  
24 there are any ways to improve the monitoring and  
25 formalisation of the training framework.

26

1           The working group is not tasked to look into  
2           imposing new training requirements as such or modules on  
3           the bus companies. What we are trying to do is to get  
4           hold of the existing training arrangements and then to  
5           formalise it and align it.

6           Thank you.

7   CHAIRMAN: One of the technological devices being considered  
8           was a speed display unit in the bus, like the PLBs, as  
9           I understand it. Do I understand it correctly?

10   MS MABLE CHAN: Yes.

11   CHAIRMAN: Isn't that a matter that would be something that  
12           bus drivers themselves might contribute to?

13   MS MABLE CHAN: The speed display unit, the feasibility of  
14           such kind of device or the speed display unit in the bus  
15           is one of the topics being considered in the working  
16           group. But we are also aware of the bus companies'  
17           feedback that perhaps it may impose burden and pressure  
18           on the bus drivers, with passengers on board monitoring  
19           the driving behaviour of the bus captains.

20           Should there be any particular new proposal that may  
21           have implication on the staff, Transport Department is  
22           more than happy to involve the staff unions to explore  
23           feasibility of new measures.

24           Thank you.

25   CHAIRMAN: Rather than having the bus operators tell you  
26

1           what they think the bus captains might react to in terms  
2           of having a speed display unit, is there any reason why  
3           the bus drivers themselves were not asked or their trade  
4           unions?

5       MS MABLE CHAN: We are prepared to meet with them and  
6           discuss with them.

7           Thank you, Chairman.

8       CHAIRMAN: Mr Duncan.

9       MR DUNCAN: Which are the stakeholders then which are  
10          represented in this working group?

11       MS MABLE CHAN: The working group comprises of the bus  
12          operators and the bus manufacturers, and it also  
13          comprises the Vehicle Licensing Examination Unit, the  
14          electrical and mechanical engineers involved overseeing  
15          the technology side, and also the Road Safety and  
16          Standards Unit within the Transport Department,  
17          overseeing the territory-wide road safety matters.

18       CHAIRMAN: So the group is constituted by the Transport  
19          Department on one side, bus operators on the other side,  
20          and for technical purposes bus manufacturers are brought  
21          in; do I understand it correctly?

22       MS MABLE CHAN: Yes.

23       MR DUNCAN: Has the department given any consideration at  
24          all to involving trade union representatives in that  
25          working group?

26

1 MS MABLE CHAN: At the present moment the working group does  
2 not comprise representatives from the trade unions. The  
3 working group is tasked to look into possible ideas, in  
4 order to formulate proposals. As with our usual  
5 practice, when there are more systematic thoughts and  
6 proposals, we can discuss with the other stakeholders,  
7 including the trade unions, and we are ready to do so.

8 MR DUNCAN: I take it that the answer to my question is no,  
9 you haven't considered that?

10 MS MABLE CHAN: I have considered that, because at the  
11 present moment the working group has just discussed the  
12 initial thoughts on the devices and the training  
13 framework, and the training actually involves the bus  
14 captains. So, after the working group has come up with  
15 more concrete proposals, with our ongoing dialogue and  
16 discussion with the trade unions, we are ready to share  
17 with them, and I have this in my mind.

18 Thank you.

19 CHAIRMAN: So it has been determined, for current purposes,  
20 not to involve the trade unions at this stage?

21 MS MABLE CHAN: Yes, at this initial formulation stage.

22 Thank you.

23 MR DUNCAN: Have you communicated that intention to the  
24 trade unions?

25 MS MABLE CHAN: No, because the working group was initiated  
26

1 by us in order to take stock of various suggestions,  
2 requests, and various ideas initiated by the department.  
3 We want to scope the work and the task involved with  
4 a view to formulating more concrete proposals. It will  
5 be by then that we have a more clearer and more  
6 systematic framework in order to consult various  
7 stakeholders.

8 Thank you.

9 MR DUNCAN: Now could I take you, please, to one other  
10 matter raised by the unions. This you will find at  
11 TU-1, page 174. Sorry, this is a matter which has not  
12 been translated.

13 CHAIRMAN: Is this the document that begins at page 147?

14 MR DUNCAN: Indeed it is, Mr Chairman, yes.

15 CHAIRMAN: And it's the submission of the Federation of Bus  
16 Industry Trade Unions?

17 MR DUNCAN: Yes, with a cover letter at page 145. I've  
18 referred to this document before. I'm going back to the  
19 same document.

20 Can I bring to your attention, please, the bottom  
21 part of page 174, that paragraph. Could you read that  
22 to yourself.

23 MS MABLE CHAN: I beg your pardon, is it at the bottom of  
24 the page, the second paragraph?

25 MR DUNCAN: Correct, the second paragraph on page 174, yes.

26

1 CHAIRMAN: With the words "Alexander Dennis Enviro"?

2 MR DUNCAN: That's correct.

3 MS MABLE CHAN: We have read that paragraph. Thank you.

4 MR DUNCAN: Is that paragraph bringing to the attention of  
5 the committee the danger in trying to control buses that  
6 have rear-wheel steering functions, and also problems  
7 involved in 12.7-metre buses?

8 MR YK CHAN: Yes. If I may go into -- try to answer this  
9 question. I believe the question is about that recently  
10 there has been introduced 12.8-metre buses, with the  
11 turning circle may be -- well, some of the drivers find  
12 it is difficult to handle for them.

13 First of all, any buses introduced in Hong Kong will  
14 have to comply with all the construction and maintenance  
15 regulations, and also all those buses imported into  
16 Hong Kong, nowadays they -- I think over 99 per cent  
17 actually come from Europe, and they have to comply with  
18 all the European standards.

19 The question is whether these buses are sort of  
20 applicable in Hong Kong. This is the main question.  
21 So, in our system, any new buses introduced into  
22 Hong Kong, the first thing we do, it has to go through  
23 a type of approval procedure. Those procedures, apart  
24 from looking at the technical part, technical aspects of  
25 the vehicles, and also the vehicle, we also look into  
26

1           whether these vehicles are suitable to be used on roads  
2           in Hong Kong.

3           Having assessed those technical requirements, those  
4           buses, as we see, they are technically sound and  
5           feasible to be used in Hong Kong. On that, we notice  
6           actually some of the drivers feel that because the bus  
7           is longer than the existing -- most of the buses we use  
8           are 12 metres, and this one is 12.8 metres, so in the  
9           sort of turning handling, there is a slight deviation,  
10          slightly -- they have to sort of, I would say, get  
11          accustomed to the handling of those vehicles.

12          In this respect, we have actually asked -- we have  
13          done a few things. One, the bus company will have to  
14          sort of train their drivers to be accustomed to handle  
15          this vehicle. So there's no question of the bus is  
16          dangerous, if the buses can be handled properly.

17          The second thing is, if this bus is longer than most  
18          of the buses we use in Hong Kong, so in deploying these  
19          buses we have to actually look into the routes they are  
20          actually deployed, and it is -- at the moment when we  
21          deploy these 12.8-metre buses, they are route-specific.  
22          So we have to try those routes first and see if they are  
23          safe to be operated before we allow the bus companies to  
24          deploy them.

25          Not all buses used by the bus companies are  
26

1           12.8 metres. Some of them may be restricted to  
2           12 metres and some even to shorter buses, like those  
3           going up to The Peak.

4           So this is a matter of training and also deployment  
5           of the routes in the right place, and there is no  
6           question of these buses are dangerous.

7           That's my reply.

8   CHAIRMAN: Earlier on you said that they are 99 per cent  
9           from Europe and they comply with European standards?

10   MR YK CHAN: Yes.

11   MR DUNCAN: Has this been a matter which the trade unions  
12           have raised with the department?

13   MS MABLE CHAN: Yes. We are aware of that and we have  
14           looked into that.

15   MR YK CHAN: Yes, actually this has been raised by the union  
16           to the department, and that's why my division actually  
17           studied in detail on the turning circles and turning  
18           path, to see what the problem was.

19           We have actually mentioned that this is something  
20           that the bus companies should look into, because the  
21           complaint from the drivers is that they feel it is not  
22           comfortable to drive a new vehicle with that length.  
23           That's why we impress upon the bus company to do their  
24           job in driver training, and also on our part, when we  
25           improve these buses, we deploy them on a suitable route.

26

1 CHAIRMAN: Perhaps one last question from the chair before  
2 we have our lunch break.

3 Presumably there is some advantage to having  
4 a longer bus. Does it give greater passenger capacity?  
5 Is that the reason?

6 MR YK CHAN: Strictly speaking, if it's a longer bus, they  
7 provide more seats. But for this particular model,  
8 I would expect that this model does have the advantage  
9 to be deployed in Hong Kong. Apart from sort of a few  
10 seats, there may be other advantages in the  
11 manoeuvrability and the new technology deployed.

12 CHAIRMAN: You can tell us about the advantages after lunch.

13 MS MABLE CHAN: Perhaps I can add one point?

14 CHAIRMAN: Yes.

15 MS MABLE CHAN: The bus companies have pledged to enhance  
16 the accessibility facilities, like wheelchair  
17 passengers. So the greater room for manoeuvrability  
18 within a bus vehicle will enable them to improve in this  
19 aspect. This is also one of the indicators we look into  
20 in assessing the performance of the bus operator.

21 Thank you.

22 CHAIRMAN: Thank you. We will adjourn then and we will  
23 resume at 2.30 this afternoon.

24 MS MABLE CHAN: Thank you.

25 (1.02 pm)

26

1 (The luncheon adjournment)

2 (2.30 pm)

3 CHAIRMAN: Good afternoon.

4 Mr Duncan.

5 MR DUNCAN: Thank you, Mr Chairman.

6 Mr Chan, I think you were going to add some comments  
7 with regard to the advantages of these rather large  
8 buses.

9 MS MABLE CHAN: I have nothing to add.

10 MR DUNCAN: Sorry, Mr Chan. Is it Mr Chan?

11 CHAIRMAN: Yes, it is. You were telling us that there were  
12 some advantages to large buses.

13 MR YK CHAN: Yes. I think my colleagues already  
14 supplemented that longer buses will be able to make the  
15 bus have low-floor features and also accessible to  
16 wheelchairs.

17 CHAIRMAN: Easier access, in those circumstances?

18 MR YK CHAN: Yes.

19 CHAIRMAN: Thank you.

20 MR DUNCAN: Mr Chan, I want to raise another question with  
21 you, which was raised with Mr Lai from the bureau  
22 yesterday, and again he was unable to assist us. This  
23 is a matter raised I think by Prof Lo during the  
24 hearing. It relates to the number of drivers who are  
25 required, given the special shift provisions in the

26

1           working hours.

2           The question was whether any research had been done  
3           into the impact that there would be if that 14-hour  
4           special shift was removed, given that the current  
5           estimate of the Transport Department is that, with those  
6           new guidelines, there is going to be a need for  
7           something like 250 or so additional drivers. We were  
8           led to believe by Mr Lai that that sort of research had  
9           been done by the department, and I'm just wondering  
10          whether you are in a position to provide us with the  
11          results of that research.

12   MS MABLE CHAN: I would be pleased to do so.

13          We commenced a review of the working hours  
14          guidelines in September 2017. That was made on the  
15          initiative of the Transport and Housing Bureau. The  
16          starting point is to explore room for further  
17          improvement in the working conditions, in particular the  
18          working hours of bus captains.

19          In considering room for improvement and noting there  
20          have been changes and revisions in the past, we have  
21          taken a comprehensive review of the guidelines, taking  
22          into account the operational needs of the franchised bus  
23          operators, passengers and members of the public's  
24          demands for increased bus service level, staff unions'  
25          ongoing requests and demands for improvement in working

26

1 conditions, et cetera.

2 In conducting the review, we have also taken into  
3 account a number of factors, including the manpower  
4 implications of the implementation of the guidelines.

5 As I mentioned, the starting point is to improve the  
6 working conditions, in particular including the  
7 shortening of the maximum duty shift hours as well as  
8 the driving hours of the bus captains.

9 The latest products or the latest revised guidelines  
10 have involved research into the demands for the  
11 additional bus captains, and that ranges in the order of  
12 250-something, 260, and we have included it in our  
13 bundle, paper 5, on the working conditions.

14 In the process, we have explored the possibility of  
15 reducing the maximum duty hours of the prevailing long  
16 shifts which are in current operation by some of the bus  
17 operators. It is our understanding that some of the bus  
18 operators have arranged for longer shifts in order to  
19 cater for the morning and the peak demands of certain  
20 bus routes, especially in those bus routes which are  
21 long and may span across various districts, from the New  
22 Territories, to cross harbour, to the Island.

23 We looked into the possibility of shortening the  
24 maximum duty hours and driving hours for these kinds of  
25 special duty shifts as well. Based on the information  
26

1 provided by the bus operators, and having regard to  
2 those statistics that we have collected from our own  
3 surveys on the onboard bus trips as well as the driver  
4 deployment and establishment, we have conducted  
5 an analysis of the additional manpower implications  
6 should the maximum duty hours of this kind of special  
7 duty shifts be further shortened.

8 In very high-level summary terms, the ballpark  
9 estimate of the additional manpower implications for  
10 reducing the maximum duty hours of this kind of special  
11 duty shifts will range to the level of 1,600 additional  
12 bus captains amongst all the franchised bus operators.

13 Manpower implication is one of the factors that we  
14 have taken into account, because we are also very  
15 mindful to ensure a satisfactory level of bus service,  
16 as well as the practicality of the bus companies in  
17 recruiting additional bus captains, to ensure a timely  
18 implementation of the guideline.

19 We very much hope, and we have actually proposed to  
20 the bus companies throughout our meetings with them, to  
21 achieve a reasonable time frame for the full  
22 implementation of the guidelines.

23 Having regard to the manpower implications, the  
24 practicality of implementation, as well as the time  
25 frame for achieving the full implementation of the  
26

1 guidelines, we eventually consider that we will include  
2 in the revised guidelines a section on this special duty  
3 shift. The special duty shift maximum duty hour will be  
4 maintained at 14 hours as the maximum cap, but the  
5 driving hours of bus captains who are on the special  
6 duty shift will be reduced to ten hours, which is on par  
7 with that of the driving hours of the normal duty shift.

8 In addition, we also impose a requirement on the bus  
9 companies to provide a break of no less than three hours  
10 within the shift duty. This is to ensure that while the  
11 bus captain may be deployed for such kind of routes  
12 which are operated under special duty shift arrangement,  
13 there will be enough rest break for the bus captain, and  
14 the driving hours, ie the bus drivers who are on the  
15 road, the maximum hours will be reduced to ten hours.

16 We provided our research and also assessment to the  
17 Transport and Housing Bureau and discussed with them.  
18 After the discussion, and noting the relevant  
19 implications, the guidelines were finalised and  
20 promulgated earlier this year, in February 2018.

21 Thank you, Chairman.

22 MR DUNCAN: Sorry, I just really want to deal with the  
23 numbers, if I could. I may have misunderstood some  
24 aspects of your earlier submission. So, at the risk of  
25 having you to repeat some matters, could I just clarify  
26

1           some numbers?

2       MS MABLE CHAN:   Sure.

3       MR DUNCAN:   Currently, how many people are engaged as bus  
4           captains, across all of the franchised companies, the  
5           approximate number of all bus captains?

6       CHAIRMAN:   When you locate the information, perhaps you  
7           could tell us and we can follow it in the written  
8           submission.

9       MS MABLE CHAN:   Sure.   I am actually trying to refer to  
10          paper 5, TD bundle, table 1.

11          The total adds up to more than 12,000.

12       CHAIRMAN:   Where do we find that?   Which paragraph?

13       MS MABLE CHAN:   Paragraph 9.   Below paragraph 9, there is  
14          a table 1, showing the breakdown of the bus captains in  
15          respect of the individual FB operators.

16       CHAIRMAN:   Thank you.

17       MS MABLE CHAN:   So the total of each of the captains  
18          employed by the respective bus companies will add up to  
19          some 12,000-plus.

20       MR DUNCAN:   Assuming the implementation of the guidelines,  
21          what is the department's estimate as to the additional  
22          number of captains required?

23       MS MABLE CHAN:   Let me refer to paragraph 7 of this paper:

24          "Based on the crude projections by the FB operators,  
25          it is estimated that a total of 250 additional bus

26

1           captains will be required for full implementation of the  
2           [currently revised] guidelines."

3           We have also studied this figure and compared with  
4           our own information regarding the bus captains' strength  
5           and numbers in respect of the FB operators. So it is in  
6           the order of a total of additional 250.

7   MR DUNCAN: Thank you. And if the special shift, which is  
8           provided for in the new guidelines, was done away with,  
9           how would that impact the figure of 250?

10   MS MABLE CHAN: It will be increased to a total of 1,600  
11           additional bus captains.

12   MR DUNCAN: So instead of 250, read 1,600?

13   MS MABLE CHAN: 1,600, yes. More than 10 per cent of the  
14           total establishment of the FB operators added together.

15   MR DUNCAN: We may be able to work this out for ourselves,  
16           but given your position, can you explain very succinctly  
17           why the number would increase so significantly?

18   MS MABLE CHAN: Perhaps I can invite my deputy, who will  
19           have the knowledge about the shift duties and the hours  
20           and deployment, in order to help the committee to  
21           appreciate in simple and direct way. Thank you.

22   CHAIRMAN: Thank you.

23   MS MACELLA LEE: I will try to be simple. Because the  
24           operating hours are very long and there is a peak demand  
25           in the morning and the evening peak, so if we don't  
26

1 allow these drivers to have longer duty hours covering  
2 the two peaks, it means you have to have two drivers to  
3 meet the extra demand at the peak, and these drivers  
4 will have to have shorter duty hours. That means it can  
5 be six hours and seven hours. This, to some extent, is  
6 not efficient, in a sense.

7 Because we have to cover the demand in the morning  
8 peak and the evening peak, so we don't have one person  
9 doing that now, you have two people, so the headcount is  
10 not just 250 plus two, because -- actually, the heads  
11 are more but each one will do a shorter time, much  
12 shorter duty shifts, maybe six hours, seven hours or  
13 even five hours.

14 So that's why it's not 250 times two. More heads,  
15 each one doing -- you may say that a normal driver  
16 drives ten hours, but if we have to cancel the split  
17 shift, it means that those extra -- about 13 per cent of  
18 the drivers have to double, because they can't work so  
19 long, and when you double the head, each one of them  
20 doing not 14 hours but even shorter, like six hours. So  
21 the mathematics is like that. So it's up to 1,600.

22 I hope I can clarify the situation.

23 CHAIRMAN: Thank you.

24 MEMBER LO: I wonder if I can ask a question.

25 CHAIRMAN: Please do.

26

1 MEMBER LO: I'm just thinking about very simply how many  
2 drivers were involved in special shift, multiply that by  
3 two, that would be the answer; right?

4 MS MACELLA LEE: No.

5 MEMBER LO: How come it's not?

6 MS MACELLA LEE: I have to explain that. There are 12,000  
7 drivers, but this is the establishment, to me the daily  
8 service needs, it is about 9,000 duty shifts. You have  
9 more headcounts because everybody does only six days  
10 a week, you have leave, and so on.

11 I can tell you it's every day we need 9,000 duties,  
12 driving duties, or you can say 9,000 duty shifts, and  
13 among them about 1,200 are special duty shifts,  
14 13 per cent, about 13 per cent.

15 MEMBER LO: Okay.

16 MS MACELLA LEE: So these 1,200 duties have to be times two,  
17 so it's 2,400, but of course there's no need to have  
18 a double in that sense, so it ranges at about 1,600. So  
19 we have to look at the matter in terms of duty shifts.

20 MR DUNCAN: Is a special shift a new initiative, or was it  
21 in play before the latest revised guidelines?

22 MS MABLE CHAN: The special duty shift has been operated by  
23 the individual bus operators to meet the morning and  
24 peak demand. In our review of the guidelines, we  
25 consider it necessary, in the first place, to look at

26

1           whether the maximum duty hours can be reduced, no matter  
2           they are normal or special duty.

3           We take the opportunity of the revision of the  
4           guidelines to specify in clearer terms on our  
5           requirements on the maximum duty hours and the driving  
6           hours. It is under this perspective that we introduce  
7           the subsection of requirements in the guidelines to  
8           illustrate more clearly on the special duty shift  
9           arrangement, and for this kind of arrangement what is  
10          our requirement on the maximum duty hours, driving hours  
11          and rest break for this special duty shift.

12   MR DUNCAN: So the previous version of the guidelines made  
13          no reference to the special shift?

14   MS MABLE CHAN: That's correct.

15   MR DUNCAN: It's something that evolved within the bus  
16          companies?

17   MS MABLE CHAN: It is evolving. We know this as a matter of  
18          fact. And more importantly, in our discussion with the  
19          bus operators and in meeting the staff unions, there are  
20          also views and suggestions that for those drivers who  
21          have been deployed for these special duty shifts, those  
22          drivers are also concerned about the remuneration or the  
23          take-home pay that they can get from the bus companies,  
24          in particular those working on these special duty  
25          shifts.

26

1           While we are looking at ways to shorten the duty  
2           hours and the driving hours, another concern that comes  
3           out during the discussion is the staff side, some of the  
4           staff side's anxiety about possible reduction in their  
5           take-home pay they then get from the bus companies.

6           So this is the whole process that we tackle the  
7           issue and it is an evolving process. Thank you.

8   CHAIRMAN: How were those concerns expressed by the staff  
9           about a reduction in their take-home pay?

10   MS MABLE CHAN: They make them in written submissions and  
11           also raise them with the meetings with the Transport  
12           Department, because during that period from October 2017  
13           to February 2018, the Transport Department have met with  
14           the various staff unions and there were a series of  
15           meetings held during that period.

16   CHAIRMAN: Thank you.

17   MR DUNCAN: Thank you, Ms Chan.

18           I want to move to another topic now, if I may.

19   CHAIRMAN: Before you do that, Mr Duncan -- I think

20           Mr Duncan was trying to ask you this question: when did  
21           special duties come into operation with bus companies?  
22           How long has this practice been in place?

23   MS MACELLA LEE: I think it exists at least 10 or 20 years  
24           before.

25   CHAIRMAN: A longstanding practice?

26

1 MS MACELLA LEE: Yes, a longstanding practice?

2 CHAIRMAN: Thank you.

3 Yes, Mr Duncan.

4 MR DUNCAN: Thank you, Mr Chairman.

5 Could you turn up, please, SEC-2 at page 664.

6 Are you looking at a document which is headed,  
7 "Community for Road Safety", and the heading, "Comments  
8 on the scope of the Public Transport Strategy Study  
9 (PTSS) for LegCo's Panel on Transport"?

10 Does this document appear to bear a date in 2015?

11 MS MABLE CHAN: Yes.

12 MR DUNCAN: Was there a public transport strategy study in  
13 2015?

14 MS MABLE CHAN: Yes, there is a study conducted in 2015.

15 MR DUNCAN: Did the department participate in this study?

16 MS MABLE CHAN: Yes. It was led by the bureau and involved  
17 the Transport Department's input.

18 MR DUNCAN: Right. Would this paper have come to the  
19 attention of the department during the course of the  
20 study?

21 MS MABLE CHAN: In the usual practice of LegCo, they include  
22 this submission as the deputations to LegCo, and the  
23 bureau and also the department appear before that  
24 meeting of the deputations, and we note that this is one  
25 of the deputations made during that occasion.

26

1 MR DUNCAN: So this would be one of the documents that would  
2 have come to the attention of the department?

3 MS MABLE CHAN: Yes.

4 MR DUNCAN: Can I bring your attention down to the second  
5 subheading on page 664, "Opportunities and strategy for  
6 better safety".

7 Can you read the second of the black marks there,  
8 reference to the ISO standard, "Road traffic safety  
9 management". If I quote from the document:

10 "... a new member of ISO launched in 2012 to target  
11 at transport fleets of public transport operators and  
12 the logistic industries. This would follow the steps of  
13 other ISO quality assurance systems in the future to  
14 help deliver far more responsible transport operation  
15 from the road safety perspective."

16 Perhaps I should have read the introductory words:

17 "With the advent of new measures or practices, the  
18 PTSS [that's the study] should examine all opportunities  
19 afresh to improve safety and quality of service."

20 Then those examples are set out.

21 At any time before this paper was issued, before  
22 2015, or during the course of the study, did the  
23 department give consideration to supporting the  
24 introduction of this standard?

25 MS MABLE CHAN: We are aware of the remark made by the  
26

1 Community for Road Safety, in particular on the  
2 suggestion regarding the adoption of ISO 39001 in the  
3 context of the PTSS. Actually, this Community for Road  
4 Safety have also raised this in other occasions of  
5 LegCo.

6 The ISO 39001 was one of the subjects flagged up in  
7 yesterday's oral session as well. We note that this is  
8 a road traffic safety management standard, and it was  
9 finalised in 2012, after rounds of discussion. Over the  
10 years since 2012, there are a number of transport  
11 companies or logistics companies in certain  
12 jurisdictions, including Japan, Korea, and some of the  
13 European companies start adopting this kind of standard.  
14 We are aware of that.

15 We take an open-minded approach towards this  
16 ISO 39001. The Transport Department at the present  
17 moment, we also maintain and establish our road safety  
18 management system. As we explained yesterday, we keep  
19 track of the accident data from a common database, we  
20 analyse it, we identify common factors, and also try to  
21 develop preventive or remedial actions, as part of that  
22 system.

23 This ISO 39001 stipulates in a more sophisticated  
24 way, an elaborative way on how a road traffic safety  
25 management system can be formulated having regard to  
26

1 data and objective criteria. So we take an open-minded  
2 approach. We do not rule out the possibility of  
3 improving our standards of road traffic management  
4 system within the TD, towards a more sophisticated world  
5 standard.

6 Thank you.

7 MR DUNCAN: So, when you say you have an open mind, does  
8 that mean you are not for it, nor are you against it?

9 MS MABLE CHAN: We are not against it. As I said --

10 MR DUNCAN: Are you for it?

11 MS MABLE CHAN: We have our established road traffic safety  
12 management in the department. It's always a positive  
13 move for the department to take into account latest and  
14 prevailing standards, in order to improve our system or  
15 to adopt latest standards in improving our system.

16 So any improvement in the standards, I would say, we  
17 would welcome and we would be ready to consider and look  
18 into it and see how our existing system can be further  
19 improved.

20 MR DUNCAN: Has the department at any time since 2012  
21 considered the standard, to see whether it might improve  
22 the department's own current standards?

23 MS MABLE CHAN: Since the standards were first developed and  
24 promulgated in 2012, we noticed that it is quite new at  
25 that stage, and mostly it's the transport and logistics  
26

1 operators who are considering the adoption of such  
2 standard.

3 So, upon its promulgation in 2012, we see that it is  
4 the start of a newly developed standard, at its early  
5 stage.

6 This submission by the Community for Road Safety was  
7 made in 2015 in the context of the PTSS, so our  
8 department currently established our road traffic  
9 management system and at the present moment we take  
10 an open-minded approach to this standard and see whether  
11 there is scope for improvement or even the adoption of  
12 this standard.

13 MR DUNCAN: As I understand this document, this would be  
14 a standard which would not actually be adopted by the  
15 department; it would be adopted by the transport  
16 company, ie the bus operator. Is that correct?

17 MS MABLE CHAN: Yes.

18 MR DUNCAN: So has the department taken any steps to refer  
19 this to the bus companies for their consideration?

20 MS MABLE CHAN: We do not. We do not. This standard was  
21 raised by the community for road traffic in the overall  
22 study of the public transport strategy. It is very  
23 comprehensive and it's fully-fledged, and there are  
24 a lot of different suggestions and views made in the  
25 overall scheme of things.

26

1           So we did not at that juncture refer this particular  
2           standard to discuss with the bus operator.

3       MR DUNCAN: Can I move further into the bundle at page 778.

4           Are you looking at a communication from the  
5           Community for Road Safety, this time dated 16 June 2016?

6       MS MABLE CHAN: Yes.

7       MR DUNCAN: Does it appear to be a response to the public  
8           consultation which was conducted leading up to the  
9           question of whether KMB's franchise should be renewed in  
10          2017?

11       MS MABLE CHAN: Yes. I'm aware of that.

12       MR DUNCAN: No doubt this letter and the document enclosed  
13          with this would have come to the attention of the  
14          department --

15       MS MABLE CHAN: Yes.

16       MR DUNCAN: -- during that consultation exercise?

17       MS MABLE CHAN: Yes.

18       MR DUNCAN: If I could bring your attention to the letter,  
19          page 778, and in particular the first and second  
20          paragraphs -- the letter in total actually. Let me read  
21          it:

22                "In response to the above public consultation, we  
23                submitted a document to Government on 18 April 2016.  
24                Our comments focus on continuous safety improvement for  
25                bus operation. The contents cover a safety management  
26

1 system in conjunction with a series of specific topics.

2 The document submitted by Government to LegCo's  
3 Panel on Transport ... 'Administration's paper on new  
4 franchise for bus network of the Kowloon Motor Bus  
5 Company (1933) Ltd -- report on the public consultation  
6 on the new franchise' only consists of a short paragraph  
7 on safety with two simplified points, namely 'to monitor  
8 bus captains' driving behaviour more closely' and 'to  
9 improve safety facilities on buses'. These clearly fail  
10 to reflect the much broader issues we raised.

11 Bus safety is a very important topic. For this  
12 reason we consider that it is necessary to submit our  
13 original document directly to LegCo's Panel on Transport  
14 for reference."

15 Then you will see what I understand to be the  
16 original document, which runs from page 779 through to  
17 783.

18 Could I ask you to go to page 781. You will see the  
19 heading on that page, "Bus safety -- road safety  
20 management system", and there is reference again to the  
21 ISO 39001 standard, and there is reference, if I could  
22 quote it:

23 "This quality assurance system encourages fleet  
24 operators to be far more accountable and proactive in  
25 reducing accidents and risks."  
26

1           Then the recommendations, there are two:

2           "Under the new franchise requirements encourage the  
3           bus companies to adopt a more advanced road safety  
4           management system towards the ISO ... standard."

5           Then:

6           "Government shall collaborate with the bus companies  
7           to study bus accidents and risks in details, with the  
8           view of setting targets of accident reduction."

9           Now, having received this document, did the  
10          department take any steps to encourage the bus companies  
11          to adopt the ISO standard?

12       MS MABLE CHAN: This submission was made as part of the  
13          submissions from the other stakeholders to LegCo, and  
14          this was made in the context of the discussion of the  
15          renewal of franchise for KMB in that year.

16          The discussion in LegCo at that juncture focused on  
17          a number of issues, as reflected in our LegCo Brief  
18          submitted to the IRC. I can ask my colleagues to refer  
19          to that paper in a moment.

20          There are a number of issues flagged up in the LegCo  
21          Brief to address the various key suggestions and issues  
22          raised in the renewal of the franchised buses. This  
23          recommendation made by the Community for Road Safety  
24          relates to the encouragement of bus companies of a more  
25          advanced road traffic safety management system and a new

26

1 standard.

2 At that juncture, we need to say that we did not  
3 bring this issue specifically to the bus company, but on  
4 the other hand, because the bus company, over the years  
5 we have required them to institute an internal  
6 monitoring system for the accident -- and also the  
7 safety performance of the bus company. On the other  
8 hand, the Transport Department has also established our  
9 own safety management system with independent analysis,  
10 to achieve the principle of "plan, do, check, act",  
11 which is very similar to the ISO 39001 standard.

12 So while the ISO 39001 standard is pretty new in  
13 relative terms as compared to the ISO 9001, and also the  
14 certificate or the adoption of the ISO 9001 is on a more  
15 widespread basis as compared to the adoption of the  
16 39001, we treat it as a relatively new standard. That  
17 is why we did not raise this specifically with the bus  
18 companies at that juncture.

19 MR DUNCAN: How does the 39001 standard, as a standard,  
20 compare with the management systems that the bus  
21 companies operate? Which is better?

22 MS MABLE CHAN: Perhaps I will invite the chief engineer on  
23 road safety to highlight a few key features of 39001 and  
24 then to try to address the --

25 MR DUNCAN: I don't think we need, with respect, to go into  
26

1 a lot of detail with regard to what the standard  
2 contains.

3 What I think the committee would be interested in is  
4 the respective merits of one against the other.

5 MR TONY YAU: Chairman, as the commissioner mentioned,  
6 I think our system is actually doing the same thing, our  
7 safety management system is doing the same thing, that  
8 we have the planning process and we have the monitoring  
9 process -- we analyse and monitor the accident  
10 statistics, and then we report to the Road Safety  
11 Council to formulate policy on relevant road safety  
12 management measures, such as legislation enforcement.

13 Then, after these measures are delivered or  
14 implemented, the result will be reflected in the  
15 accident statistics, which is the result of our  
16 performance, and then we monitor the statistics again  
17 and then review to see if any of our existing policy or  
18 measures need to be reviewed.

19 The management system I think is quite similar in  
20 principle, but I cannot compare the details between the  
21 two systems, which one is better or which one is not so  
22 good as the others.

23 But in principle, I think for the Transport  
24 Department as an authority, our existing safety  
25 management system can achieve the same purpose.

26

1 MS MABLE CHAN: May I add that the Legislative Council Brief  
2 on the renewal of the franchise for KMB can be found on  
3 page 1100 in bundle TD-4.

4 The discussion in LegCo at that juncture actually  
5 involved a lot of the service enhancement initiatives,  
6 including enhancing ancillary facilities for passengers  
7 to disseminate information and provision of fare  
8 concessions and other issues relating to profit-control  
9 scheme.

10 MR DUNCAN: Has the department actually sat down and made  
11 a comparison between the ISO standard 39001 and its own  
12 systems?

13 MS MABLE CHAN: Pardon me?

14 MR DUNCAN: Has the department actually conducted a proper  
15 comparative analysis of the ISO standard on the one hand  
16 and the systems in place in the Transport Department on  
17 the other?

18 MS MABLE CHAN: We have yet to conduct a very comprehensive  
19 and systematic study and review at this present stage,  
20 especially given that we have mentioned the ISO 39001  
21 is, relatively speaking, new as an adoption as a tool  
22 for the transport sector. We have yet to conduct a very  
23 systematic and elaborative study on that.

24 MR DUNCAN: It did come into force in 2012.

25 MS MABLE CHAN: In relative speaking terms, since its  
26

1 promulgation in 2012, the rate of the adoption of the  
2 standard by the transport operators and logistics  
3 companies is small as compared to the prevailing  
4 adoption of the ISO 9001 by the other transport  
5 operators.

6 I have some figures or perhaps Tony can supplement  
7 on the statistics, as regards the adoption.

8 MR TONY YAU: Yes. You may say that 2012, just a few years  
9 ago, is quite a long time, but for a management system  
10 it's very new and the time is very, very short. What we  
11 are talking about is the overall management system.

12 With reference to the overseas experience, the  
13 system so far is mainly adopted by the operators. Even  
14 in Singapore and the UK, they are still studying, start  
15 studying or may not try to commit to adopt the system.

16 So you may say 2012 may be a long time ago, but for  
17 a policy system or for a management system, it's very  
18 new, especially for a department, for an authority to  
19 adopt it, it needs some time to get more information and  
20 experience, the implementation experience, so that we  
21 can do a more meaningful analysis.

22 MR DUNCAN: Thank you.

23 Can I ask this: has the department conducted any  
24 comparative analysis of the ISO standard 39001 and the  
25 management systems apparently in place within the bus  
26

1 companies?

2 MS MABLE CHAN: No.

3 MR DUNCAN: Do you have any plan in that respect?

4 MS MABLE CHAN: In any initiatives in improving or making  
5 the management system more robust, we would be ready and  
6 prepared to look into that.

7 MR DUNCAN: Do you think that would be a way of possibly  
8 improving matters?

9 MS MABLE CHAN: We will be ready to look into that as  
10 a possible way to improve the traffic management system  
11 in the bus operators.

12 MR DUNCAN: If I could refer you, please, to page 782 of the  
13 submission of the Community for Road Safety.

14 There are a number of suggestions there, under the  
15 heading of "Bus safety -- driving standard". They are  
16 under the heading "Recommendations".

17 Did any of those suggestions of the Community for  
18 Road Safety lead to any consideration of those sorts of  
19 matters by the department?

20 MS MABLE CHAN: I will ask my colleague to read them in  
21 a minute and then to give a response.

22 MR TONY YAU: Yes, Chairman. We receive the Community for  
23 Road Safety -- we occasionally receive their suggestions  
24 to introduce some lower speed limits to different areas.

25 I think I need to refer to our existing speed limit  
26

1 structure in Hong Kong. In Hong Kong we implement a  
2 quite simple three-tier speed limit structures. We have  
3 a low-band, medium-band and high-band speed limit. For  
4 low-band, we are talking about 50 kilometres per hour;  
5 that will be adopted for urban or new town built-up  
6 areas. Then we have the middle band, it's 70 or  
7 80 kilometres per hour; it's for areas or for some trunk  
8 roads outside the urban and new town areas. And the  
9 last one is the high band. High band is 100 kilometres  
10 per hour. It's usually for the high-standard  
11 expressway.

12 In Hong Kong, the highest speed limit is  
13 110 kilometres per hour, which only exists in North  
14 Lantau Highways.

15 We base on this speed limit structure, this  
16 three-tier structure, actually we have done a review on  
17 this speed limit structure by consultants, and the  
18 existing structure is generally in line with overseas  
19 jurisdictions, with proven safety records. These three  
20 tiers are simple for the motorists to be familiar with  
21 the speed limit. We are talking about the speed limit,  
22 it's not the motorist, you need to follow, or you forget  
23 the traffic condition, just simply follow the speed  
24 limit. The speed limit is the legislative requirement  
25 that you cannot exceed the speed limit at any time, and  
26

1           the motorists have to have the duty to make reference to  
2           the traffic condition, their vehicle condition --

3   CHAIRMAN: The speed limit's not compulsory. If it's 50 k,  
4           you don't have to drive at 50 k; that's your point,  
5           isn't it?

6   MR TONY YAU: Yes. So for a particular point, say a bend or  
7           some road with a hazard or need to slow down, we will  
8           not simply just lower this bend or short section of road  
9           to a lower speed limit. Instead, we provide sufficient  
10          advance warning signs, road markings, to inform the  
11          motorist ahead that there may be a hazard in front of  
12          you and you have to slow down.

13                So that with all the information provided to the  
14          motorist, the motorist has a duty to choose a safe speed  
15          for travelling.

16   MS MABLE CHAN: Chairman, may I supplement that the  
17          statements made by Mr Yau were actually stated in our  
18          paper 10 in TD bundle, paragraphs 12 to 17. There is  
19          a section on the designation of speed limits on roads  
20          and also our structure on a regular review of the speed  
21          limit.

22                Thank you, Chairman.

23   CHAIRMAN: Yes, I remember reading that. You made the same  
24          point: the speed limit isn't mandatory. It's not  
25          exceeding it that's mandatory.

26

1 MS MABLE CHAN: Yes.

2 MR DUNCAN: The part of page 782 that I was particularly  
3 interested in was the commencement of the  
4 recommendation, not so much the speed matters.

5 The commencement reads as follows:

6 "Incorporate into franchise requirement the need to  
7 set up a comprehensive standard and driver monitoring  
8 system using the installed black boxes."

9 Is that something which caused consideration within  
10 the department? Given that black box technology  
11 of course has moved on considerably since 2003.

12 MS MABLE CHAN: The black box and the related updated  
13 technology and devices is one of the subjects we  
14 discussed this morning, and there is a basic minimum  
15 requirement on the black boxes issued to the  
16 franchisees. Over the years our vehicle licensing team  
17 have taken stock of the possible advancements in black  
18 boxes and have been exploring on an ongoing basis with  
19 the franchisees and also the bus manufacturers, to see  
20 how the black box installation can be upgraded and  
21 deployed for better safety measure.

22 This is one of the issues that is keen in our heart  
23 and it is actually included in our scope of work under  
24 the working group under discussion currently, at the  
25 moment.

26

1 CHAIRMAN: But that hasn't resulted in any revision of the  
2 basic minimum requirement, which has its origins in  
3 2004.

4 MS MABLE CHAN: Yet to be reflected, yes, Chairman, you are  
5 right.

6 CHAIRMAN: And it doesn't incorporate GPS, does it? It  
7 simply requires that speed be measured.

8 MS MABLE CHAN: The basic specifications do not reflect  
9 that.

10 MR DUNCAN: If we can move to page 783, please, and the  
11 Community for Road Safety's suggestion with regard to  
12 bus safety and bus fleets, and the observation which was  
13 made by that organisation was:

14 "KMB has been investing in new modern buses. It is  
15 well agreeable that these buses are comfortable and well  
16 designed. However, attention is still required for  
17 safety risks including ..."

18 And then a number of safety risks are set out.

19 As matters stood at the time of this consultation in  
20 2016, would the department have agreed with this  
21 observation of the Community for Road Safety, that  
22 attention was still required for those risks which have  
23 been set out?

24 MS MABLE CHAN: I would say yes, because this is actually  
25 an ongoing process, as reflected and included in our  
26

1 requirements for the bus companies to include in the  
2 forward planning programmes. There are a number of  
3 improvement measures that we have discussed with the  
4 operators and suggest them to retrofit and to include in  
5 their forward planning programmes a retrofitting  
6 programme. Past examples include installation of double  
7 handrailing along the staircases, horizontal guard bar  
8 on the upper deck windscreen, and also strengthened  
9 glass on the upper deck windscreen as well.

10 We note the suggestions by the Community for Road  
11 Safety. In fact, it is an ongoing close partner with  
12 us, the Road Safety and Standards Unit, and we actually  
13 take note of the various suggestions and this is on the  
14 agenda when we discuss with the bus operators to explore  
15 ways to further enhance bus safety within the vehicle.

16 Thank you.

17 MR DUNCAN: Sorry, when you say it's on the agenda, it's on  
18 the agenda currently or has been on the agenda?

19 MS MABLE CHAN: It has been on the agenda, yes.

20 MR DUNCAN: So if these matters which the Community has  
21 suggested should be incorporated into the franchise  
22 agreements, if they exist they would be found in the  
23 forward planning programmes?

24 MS MABLE CHAN: Yes.

25 MR DUNCAN: That's where we would look for those?

26

1 MS MABLE CHAN: Yes. You can look for those in past forward  
2 planning programmes, or we have also issued  
3 a requirement to sum up the safety and enhancement  
4 initiatives and requirements, and we got the  
5 confirmation letter from the bus companies to install,  
6 retrofit the related service or safety enhancement  
7 measures in the past.

8 So as and when our discussion with them is mature  
9 and those are technically feasible for application, we  
10 will issue updated service enhancement list for them to  
11 confirm for retrofitting or for installation, and we  
12 also will include those in our requirement in the letter  
13 towards the bus operators, so that they will include  
14 a retrofitting programme in their upcoming forward  
15 planning programmes.

16 MR DUNCAN: We can leave that document, thank you.

17 CHAIRMAN: Before we move on, could you help me at least  
18 with who are the members of the Community for Road  
19 Safety?

20 MS MABLE CHAN: Tony has the information.

21 MR TONY YAU: Mr Julian Kwong.

22 CHAIRMAN: One member?

23 MR TONY YAU: I know he has his friends. Maybe -- to my  
24 information, it's only a few members, and the founder is  
25 Mr Julian Kwong.

26

1 CHAIRMAN: And how long has the organisation been in  
2 existence, as far as you are aware?

3 MR TONY YAU: Maybe less than ten years but I'm not sure.

4 CHAIRMAN: Has LegCo received papers over a period of time  
5 from the Community for Road Safety, a number of years?

6 MR TONY YAU: Did you mean LegCo?

7 CHAIRMAN: Yes, the LegCo Transport Panel.

8 MR TONY YAU: Yes.

9 CHAIRMAN: Over what period of time?

10 MR TONY YAU: To my memory, it's only in these few years  
11 when we had some topic that was related to road safety  
12 would be discussed in the Transport Panel, and Community  
13 for Road Safety would submit the document.

14 CHAIRMAN: Yes. I have been doing my own research and I'm  
15 trying to get some time parameters of when these papers  
16 first appeared.

17 MS MABLE CHAN: Past few years, past couple of years,  
18 I think, in LegCo.

19 The chairman's question is for how many years has  
20 this Community for Road Safety put in papers for LegCo;  
21 right?

22 CHAIRMAN: Yes.

23 MS MABLE CHAN: This is the question.

24 MR TONY YAU: I have no information. Not sure.

25 MS MABLE CHAN: Do you need us to do some --

26

1 CHAIRMAN: Perhaps if you could come back to us with  
2 something in writing as to that.

3 MS MABLE CHAN: Okay, sure. No problem.

4 CHAIRMAN: Thank you very much.

5 MR DUNCAN: Just on that, Ms Chan, what reputation does this  
6 organisation enjoy; are you able to say?

7 MS MABLE CHAN: I cannot comment on this.

8 MR DUNCAN: As far as the department is concerned, does the  
9 department respect the views of this organisation?

10 MS MABLE CHAN: We do not have any comment on the reputation  
11 or the standing of this Community, but being  
12 a stakeholder, which will submit deputation and  
13 submission to LegCo, we will take into account all the  
14 submissions, including the submission from this  
15 Community. Thank you.

16 CHAIRMAN: At least you could say perhaps this, that it does  
17 appear to present reasonably well thought-out -- whether  
18 or not you agree with them -- suggestions?

19 MS MABLE CHAN: They show interest in the road safety and  
20 make a number of recommendations on various occasions.

21 CHAIRMAN: And appears to be informed? Whether or not you  
22 agree with the recommendations, they are based on  
23 an informed understanding, it appears?

24 MS MABLE CHAN: I have no particular comment on that.

25 CHAIRMAN: Just a smile, nothing else; is that it?

26

1 MS MABLE CHAN: Any deputation or submission submitted by  
2 groups or bodies in the deputation meetings, we will  
3 take into and account and read over that.

4 Thank you, Chairman.

5 CHAIRMAN: Mr Duncan, you were moving on.

6 MR DUNCAN: Thank you, Mr Chairman.

7 The committee has been informed, as you know, of  
8 these new initiatives, if I could call them that, or the  
9 latest initiatives, which have been prompted by the  
10 Sham Shui Po accident in September 2017, with the  
11 revision of the guidelines, and the further proposals  
12 following on from the accident in Tai Po in February of  
13 this year, with the added information you're getting  
14 from the bus companies and the working group, and so on.

15 So we understand that in recent times, new matters  
16 are being considered by the department.

17 Apart from those recent initiatives, would it be  
18 fair to say that since, say, 2012, up until the time of  
19 the Sham Shui Po tragedy, there were really no  
20 significant changes at all in the way in which the  
21 department addressed matters of safety; it was the same  
22 system throughout that period? Is that a fair  
23 observation?

24 MS MABLE CHAN: Let me get my papers.

25 In terms of the overall road traffic safety  
26

1 management and monitoring, I wish to reiterate that we  
2 have an established system to take stock of the data  
3 from the accident database, analyse them, and take  
4 preventive or corrective or remedial actions.

5 I would like to quote a few examples arising from  
6 the discussion and analysis of that independent analysis  
7 of accident data and for reporting to the Road Safety  
8 Council.

9 A number of legislative amendments have been  
10 actually made over the years arising from discussion in  
11 the Road Safety Council, after monitoring and analysing  
12 the accident statistics. The recent one is being in  
13 June 2015, regarding the provision of the attendance of  
14 pre-service course for the issue of a full driving  
15 licence of public light bus, and in 2004, December --

16 CHAIRMAN: Sorry, what is a pre-service course?

17 MS MABLE CHAN: Pre-service course for the issue of a full  
18 driving licence of public light bus drivers.

19 CHAIRMAN: Yes.

20 MS MABLE CHAN: And in 2014 --

21 CHAIRMAN: I still don't understand. What is a pre-service  
22 course?

23 MS MABLE CHAN: Pre-service course is the requirement for  
24 them to attend a pre-service course after -- the public  
25 light bus driver is required to, after going through the  
26

1 driving test, they should have to attend a pre-service  
2 course before we would issue a full driving licence for  
3 the driver.

4 CHAIRMAN: So before he is let loose on the roads he has to  
5 attend this course?

6 MS MABLE CHAN: Yes.

7 CHAIRMAN: Thank you.

8 MR DUNCAN: Sorry, I may not have made my question clear,  
9 because I don't want to get involved with public light  
10 buses, unless it's relevant to these proceedings.

11 MS MABLE CHAN: Okay.

12 MR DUNCAN: What I'm really trying to get at is whether, if  
13 you compare the system as it was, system for safety as  
14 far as the department is concerned, safety in public  
15 buses, the system was more or less the same, from, say,  
16 2012 right down to 2017. There are no significant  
17 changes during that period to the system. Is that fair?

18 MS MABLE CHAN: The system is established, but under the  
19 system we have an ongoing and robust monitoring and  
20 regulatory framework to monitor and regulate the  
21 franchised bus operation, and under that system we have  
22 time and again analysed the bus safety performance of  
23 individual bus operators, and then we would issue  
24 requirements for the bus operators to enhance the safety  
25 measures.

26

1           So this underpins the robustness of the system on  
2           an ongoing basis. The system is there, and we are  
3           exercising the control and monitoring under their  
4           system.

5           The other system that I want to mention is about the  
6           overall road safety traffic management system. It is  
7           also an established system under which there will be  
8           monitoring and follow-up actions. Some of the follow-up  
9           actions may lead to legislative amendment exercise to  
10          tackle the relevant issues as revealed from those  
11          accidents.

12       CHAIRMAN: The first of the examples you gave about actions  
13          taken was June 2015.

14       MS MABLE CHAN: Yes.

15       CHAIRMAN: You wanted to mention some others?

16       MS MABLE CHAN: There are a couple of other legislative  
17          amendments in 2014. One is requiring the public light  
18          bus to install approved electronic data recording  
19          device. The other one is to require --

20       CHAIRMAN: Recording what kind of data?

21       MS MABLE CHAN: Public light bus.

22       CHAIRMAN: To record what data?

23       MS MABLE CHAN: Electronic data recording device, like black  
24          box.

25       CHAIRMAN: Do you have -- first of all, was that direction  
26

1           given in writing?

2       MS MABLE CHAN: This is a legislative amendment.

3       CHAIRMAN: I see. Can you give us then the legislative  
4           reference? Where do we find this?

5       MS MABLE CHAN: We will try to locate it under the Road  
6           Traffic Ordinance.

7       CHAIRMAN: In due course --

8       MS MABLE CHAN: In the THB bundle, there should be the Road  
9           Traffic Ordinance. Let us try to locate it.

10      CHAIRMAN: If one of your colleagues locates it at some  
11          later stage, you can come back and tell us about it.

12                So that's black boxes for PLBs, 2014. Yes?

13      MS MABLE CHAN: And also the attendance of the pre-service  
14          course for the issue of the full driving licence, it is  
15          also a legislative amendment exercise. We will try to  
16          locate it as well.

17                In 2003, we also introduce breath analysing for  
18          drink-driving.

19      CHAIRMAN: For all drivers of all vehicles?

20      MS MABLE CHAN: Yes.

21                So there is a long list dating until 2010, based on  
22          cursory research, but I don't want to bother the  
23          committee with all the details.

24      CHAIRMAN: We want to give you an opportunity to say what  
25          you want to say.

26

1 Yes, Mr Duncan.

2 MR DUNCAN: So can I put it this way: restricting it to  
3 public buses --

4 CHAIRMAN: Franchised buses?

5 MR DUNCAN: Public franchised buses, just looking at those,  
6 do I understand from what you have said that  
7 essentially, between 2012 and 2017, the same robust, in  
8 your words, system, regulatory and monetary, was  
9 utilised during that period?

10 MS MABLE CHAN: Yes, I would say so, not to mention during  
11 the 2012 to 2017 period, apart from legislative  
12 amendment exercise, there are also measures to improve  
13 the road design and also the road markings. After we  
14 have conducted black spot investigation and analysis of  
15 the accident data, then we will take appropriate either  
16 preventive or remedial actions in terms of road safety  
17 enhancement.

18 MR DUNCAN: Now, could I ask this. At any time up until the  
19 time of the Sham Shui Po accident, had you engaged in  
20 consultation with any of your overseas counterparts as  
21 to what sort of safety management systems they required  
22 of their public bus operators?

23 MS MABLE CHAN: Based on the colleagues' recollection, there  
24 is not any specific discussions with the overseas bus  
25 regulators in this regard.

26

1 MR DUNCAN: What about since these two tragedies in  
2 September last year and February this year? Has the  
3 department made contact with any of its counterparts to  
4 see what provisions they have with regard to safety?

5 MS MABLE CHAN: I did not recall we have particularly  
6 contacted the overseas regulators or bus regulators, but  
7 in the context of the working hour guidelines we have  
8 actually done the research into overseas experience and  
9 requirements. Examples include Singapore, the United  
10 Kingdom, United States, Australia, and EU countries.

11 The working hour guidelines, the important factors  
12 that we have taken into account is how the local  
13 operators operate and also the request from the staff  
14 unions for improvement. But we also did research into  
15 the overseas experience and requirements, in order to  
16 assess our comparability with overseas standards as  
17 well.

18 MR DUNCAN: When was that done?

19 MS MABLE CHAN: September 2017 to March 2018, in that review  
20 of the working hour guidelines leading to the current  
21 revised version.

22 MR DUNCAN: So it was just restricted to the working hours  
23 issue?

24 MS MABLE CHAN: Yes.

25 MR DUNCAN: You realise that the Community for Road Safety  
26

1           has made submissions to the committee. Have you read  
2           those submissions?

3       MS MABLE CHAN: You mean the Community for Road Traffic --  
4           sorry, I beg your pardon?

5       MR DUNCAN: The Community for Road Safety.

6       CHAIRMAN: Perhaps we could bring them up.

7       MR DUNCAN: Yes.

8       CHAIRMAN: Where do we find that?

9       MR DUNCAN: TU-25.

10      MS MABLE CHAN: Yes, I have read that.

11      MR DUNCAN: I'm going to take you through a few of the  
12           points that they made, and I'm bearing in mind the  
13           chairman's remarks that they are just one view, and  
14           everybody is entitled to a view. The question will be  
15           of course as to what your view of these is and what the  
16           committee may think are practical and worthwhile  
17           considering, having heard perhaps from the Community  
18           itself and having heard your response to it.

19           But can I ask this general question of you: having  
20           read this paper, have any of the ideas in this paper  
21           occurred to you as good ideas that the Transport  
22           Department might take into consideration, serious  
23           consideration?

24      MS MABLE CHAN: I have read this submission when we received  
25           it in the bundle provided to us. The purpose of my  
26

1 reading is to take note of that for preparation of the  
2 IRC's proceedings. It does not amount to a serious and  
3 detailed examination of the proposals as spelled out in  
4 this submission that will bring us to a level of giving  
5 very considered and conscious response.

6 In a very general remark, any suggestions made by  
7 bodies such as the Community for Road Safety, especially  
8 this has been a body which has been providing views in  
9 the past, we will also take note of that and I expect  
10 our colleagues will also take note of that in their  
11 upcoming discussions and deliberations with the various  
12 bus companies and manufacturers in our working group.

13 I would like to just say that for the purpose of the  
14 IRC proceedings, I have read that, but I think that does  
15 not give us sufficient time and opportunity for us to go  
16 through it one by one and to give very detailed and  
17 informed remarks and response on the individual  
18 recommendations.

19 MR DUNCAN: I understand. Notwithstanding that, what I'm  
20 going to do is take you through perhaps just a summary  
21 of the paper, and invite you to make any preliminary  
22 comments you may wish to make, and if you feel, because  
23 you haven't had time consider this properly, you will  
24 have the opportunity of making further written  
25 submissions on the matters.

26

1 Does that sound in order for you?

2 MS MABLE CHAN: I would be inclined not to give any response  
3 at this stage in response to the recommendations.

4 What I can respond to the committee is that we will  
5 also treat this submission to the IRC as a note and  
6 a list of recommendations so that we can take it back  
7 and look into, but I think we may not be in a position  
8 to provide further written submission, further to  
9 today's meeting, at this juncture.

10 We treat the recommendations and suggestions very  
11 seriously, and we have to go through the due process  
12 within the department to look into the technical  
13 feasibility and applicability of each and every one.

14 In general terms, any recommendations that may help,  
15 we will take an open-minded approach to looking into  
16 that, but it may not be fair for us to rush to any  
17 preliminary observations in regard to those  
18 recommendations for the IRC's purpose.

19 MR DUNCAN: I don't wish to be unfair to you, so would you  
20 prefer to be given the opportunity of responding to  
21 these suggestions in writing?

22 CHAIRMAN: I think the Commissioner for Transport has  
23 answered in the negative to that.

24 MR DUNCAN: She would not?

25 CHAIRMAN: No.

26

1 MR DUNCAN: I think first of all you are saying you don't  
2 wish to be asked questions about this today; is that  
3 correct?

4 MS MABLE CHAN: Let me try to restructure, in a way, my  
5 response.

6 We take note of this submission from the Community  
7 for Road Safety for the IRC, and I read this in  
8 preparation for the deliberations. We would not wish to  
9 provide our written submission for the IRC on our  
10 analysis and the observations on the applicability of  
11 the recommendations within such period of time, because  
12 we have to go through the due process.

13 On the other hand, I wish to assure the IRC that  
14 while we also see this submission to the IRC, we will  
15 treat this as suggestions and recommendations for the  
16 department to take it back and look seriously into in  
17 our system, and in particular in the working group on  
18 the enhancements of bus safety, and I can assure that we  
19 can go a step further in discussing with the Community  
20 for Road Safety, to hear further views from them in that  
21 context.

22 MR DUNCAN: Let me understand this properly. First of all,  
23 you don't wish to answer questions today relating to the  
24 proposals of the Community for Road Safety; is that  
25 correct?

26

1 MS MABLE CHAN: I can try to answer but my answer should not  
2 be regarded as the department's considered view as to  
3 the applicability of the individual devices, because we  
4 haven't prepared in that regard.

5 MR DUNCAN: Okay.

6 MS MABLE CHAN: But I'm sure, to help the IRC and give our  
7 preliminary view, on a preliminary basis, if that can  
8 help the IRC.

9 CHAIRMAN: Mr Duncan, let's proceed on that basis.

10 And you, Ms Chan, indicate if you feel unable to  
11 respond.

12 Mr Duncan.

13 MR DUNCAN: And you don't wish to advance any written  
14 submissions, as Mr Chairman observed a few moments ago.  
15 You are saying that rather than supply written  
16 submissions to the committee, you will take these away  
17 and give them consideration; is that your position?

18 MS MABLE CHAN: That's correct.

19 CHAIRMAN: And go through due process?

20 MS MABLE CHAN: Yes, that is correct.

21 MR DUNCAN: Let me then take you to the points which  
22 occurred to me as perhaps being worthy of some  
23 consideration.

24 MS MABLE CHAN: Sure.

25 MR DUNCAN: First of all, in the summary at page 27, the  
26

1 fifth paragraph down, there's the observation that:

2 "The safety risks of buses are diversified in terms  
3 of scenarios and severity. Scenarios of particular  
4 concerns include ..."

5 And there are a number set out:

6 "-- Passenger losing balance: most frequent.

7 -- Collision with pedestrians (cyclists): common and  
8 potentially severe.

9 -- Rear-front collision: common and potentially  
10 severe.

11 -- Head-on collision: less frequent but potentially  
12 severe.

13 -- Collision with roadside objects: common and  
14 potentially severe.

15 -- Rollover: sporadic but potentially catastrophic."

16 Would you agree that that's a fair scenario of  
17 particular concerns?

18 MS MABLE CHAN: I would say that it is a fair description of  
19 some of the scenarios of particular concern. In fact  
20 some of the aspects mentioned were also flagged up in  
21 our independent accident data analysis and also in our  
22 monitoring of the franchised bus operators' analysis of  
23 the accident data in the forward planning programmes.

24 MR DUNCAN: And they are not inconsistent with those  
25 observations?

26

1 MS MABLE CHAN: These are some of the common issues of  
2 concern.

3 MR DUNCAN: Thank you.

4 Then the next paragraph:

5 "Over the years various measures have been  
6 introduced to improve bus safety. However, without  
7 an insight into the problems involved, further  
8 substantial improvement is unlikely and current patterns  
9 will continue."

10 Do you wish to respond to that?

11 CHAIRMAN: It may be that you can't respond to that, it  
12 being so general.

13 MS MABLE CHAN: Yes. The chairman is correct.

14 MR DUNCAN: Thank you.

15 We can turn the page, and let me take you straight  
16 to the recommendations:

17 "The 'Safe System' approach should be adopted to  
18 cover the interactions among vehicle factors, road  
19 factors, human factors and management. Active measures  
20 aim at preventing a crash and passive measures aim at  
21 limiting injury consequences. They are equally  
22 important.

23 In the short term, active measures based on  
24 operational protocols and deployment of monitoring  
25 systems can be quickly implemented. The risk of severe  
26

1        rollover at some locations without safety barrier, [for  
2        example] Peak Road, Repulse [Bay] Road, Tai Tam Road, is  
3        very high and interim measures must be implemented  
4        swiftly.

5            In the medium to long term, passive measures aiming  
6        at limiting the consequences of crashes are very  
7        important. These measures fall into two primary groups,  
8        namely bus design and road design."

9            I appreciate that's a very general comment as well,  
10       but the issue with regard to safety barriers in respect  
11       of some locations and examples there, is that an issue  
12       that you consider is worthy of attention?

13    MS MABLE CHAN: Incidentally, because the road safety, in  
14       particular roadside safety on Hong Kong Island with  
15       bends and curvatures has been a longstanding issue of  
16       concern. In the past, we will look into the particular  
17       circumstances of the spot and also the relevant road  
18       section, then we will review whether there is a common  
19       factor in order to take remedial or preventive measures.

20            In parallel, it just happened -- I just reported to  
21       the committee -- that the Transport Department and  
22       Highways Department have commissioned a consultancy  
23       study on review of potential roadside safety hazards in  
24       Hong Kong road network to investigate and identify  
25       roadside safety hazards in a more proactive manner, in  
26

1 a thorough and systemic safe-track approach, taking into  
2 account overseas technology. The study will actually  
3 commence in mid-May for completion in 30 months.

4 MR DUNCAN: When you say it has issued a study, is there  
5 a document which --

6 MS MABLE CHAN: Yes, there is a consultancy brief.

7 MR DUNCAN: Can that be provided to the committee?

8 MS MABLE CHAN: Yes.

9 MR DUNCAN: Thank you. Will that address things such as the  
10 safety barriers on these narrow, hilly roads?

11 MS MABLE CHAN: Without divulging any commercial  
12 information, my colleague reminds me that this Community  
13 for Road Safety is one of the sub-consultants, for the  
14 consultant to conduct the study.

15 MR DUNCAN: I think the committee would be content with some  
16 sort of brief as to what exactly is involved in the  
17 study.

18 MS MABLE CHAN: Yes, we can provide that information, on the  
19 scope and also the coverage and objective of that study.

20 CHAIRMAN: Thank you.

21 MR DUNCAN: Then we have the heading, "Operational protocols  
22 and monitoring systems", and at the top of page 29, two  
23 particular types of protocols are suggested. First of  
24 all:

25 "-- General protocols -- addressing typical  
26

1 scenarios including speeds on busy urban streets.

2 -- Route-specific protocols -- addressing specific  
3 safety risks such as sections of narrow hillside road  
4 lacking a safety barrier."

5 Do these sorts of protocols exist at present?

6 MS MABLE CHAN: I'm not aware of that. But --

7 MR DUNCAN: How does that strike you? Does that strike you  
8 as a good idea or are you unable to --

9 MS MABLE CHAN: I think the Community has come up with some  
10 suggestion on how to address various scenarios in a more  
11 systematic way. The route-specific protocols address  
12 the sections of narrow hillside road lacking safety  
13 barrier, and I think the study that I mentioned just now  
14 is very important in mapping out the relevant road  
15 sections involving hillsides and curves and to devise  
16 relevant safety measures, and that will form a basis for  
17 us to consider as a step forward whether there should be  
18 any measures or protocols in that sense to address  
19 specific safety risk scenarios.

20 I think this is the preliminary observation that  
21 I can make on the spot.

22 MR DUNCAN: Thank you.

23 We then see the ISO standard creeping in again.

24 I won't ask any further questions about that.

25 Then the issue of bus design, and a number of safety  
26

1 features "are recommended as a priority".

2 Are these matters which commend themselves to the  
3 department?

4 MS MABLE CHAN: Perhaps I can invite Mr Chan to comment on  
5 this. I have some knowledge about a few of them but  
6 perhaps he can give a more systematic and comprehensive  
7 response, in a simple way.

8 CHAIRMAN: Certainly.

9 MR YK CHAN: I will try to make it simple.

10 For the "safer bus front", actually all the  
11 double-decker buses currently operating in Hong Kong are  
12 in compliance with the European requirements, as  
13 I mentioned earlier.

14 CHAIRMAN: Because 99 per cent of them come from Europe.

15 MR YK CHAN: Yes, that's the magic figure, and confirm the  
16 body structures on the franchised buses used in  
17 Hong Kong are the same as those apply to other  
18 countries, such as the United Kingdom, USA and  
19 Singapore.

20 The major double-decker buses suppliers have also  
21 confirmed that the use of aluminium alloys on the bus  
22 body has been an international trend in recent years,  
23 and they explain that the use of the material is  
24 stronger, but nowadays all these bodies are aluminium  
25 body, and they are, as explained, the use of materials

26

1 stronger than aluminium may not be beneficial during  
2 accidents and it may cause other types of casualties.

3 So the buses we use nowadays, it's already up to  
4 international standard, and I would say it's safe, but  
5 in terms of the "safer bus" at the front, you will  
6 notice that in recent years we have strengthened our --  
7 put the seat belt in front on those seats in front of  
8 the window, to prevent passengers from being thrown out.

9 In connection with the construction of those seats,  
10 the bus company has to actually strengthen the floor and  
11 fittings at the front of the buses in order to support  
12 those seats and the anchorage of the seat belts.

13 CHAIRMAN: This is if it was necessary to retrofit them --

14 MR YK CHAN: Yes.

15 CHAIRMAN: -- because the bus frame itself is not strong  
16 enough to sustain the anchor points for the seat belts?

17 MR YK CHAN: That's right, because those originally -- the  
18 old buses are not supposed to be fitted with that sort  
19 of safety seat belt, so they have to not only provide  
20 the seat belts in the seats but have to actually  
21 strengthen the anchorage and also the support inside the  
22 frontal part of the buses.

23 So, in that respect, I would say nowadays people  
24 travelling in front, with the seat belts on, are really  
25 safe.

26

1 Do you want me to go over the others as well?

2 CHAIRMAN: Please.

3 MR DUNCAN: If you can, please.

4 MR YK CHAN: But safety seat belts, actually this time we  
5 discuss in the technical group, they agree to fitting --  
6 all the seats in the bus will be fitted with seat belts.

7 CHAIRMAN: On new buses?

8 MR YK CHAN: On new buses, as just mentioned, because  
9 retrofitting is not just providing a seat and a seat  
10 belt.

11 CHAIRMAN: No, no, we understand that point.

12 MR YK CHAN: "Treatments of hazards of bus interiors:  
13 including" -- that has always been -- proper design of  
14 buses should not have that sort of sharp edges that  
15 actually people bump into and get hurt. This is  
16 something that we do look into very seriously.

17 CHAIRMAN: I think in fact it might assist us more if you  
18 were to move to what is described as, "The following  
19 safety features should be explored": IAS and ESP.

20 IAS.

21 MR YK CHAN: Intelligence speed adaptation?

22 The look of the terms, I'm not sure exactly what  
23 function is going to be provided. But if you are  
24 talking about the old thing, sort of integrating the  
25 speedometer with GPS and the base, the roadmap, in order

26

1 to sort of provide an overall monitoring of the driving  
2 behaviour and the vehicle's operating status --

3 CHAIRMAN: That's what I understand this system to be.

4 MR YK CHAN: If it is the system is meant to be used for,  
5 then yes, we have been -- in the technical group we did  
6 discuss about this, and obviously at the moment the  
7 discussion is still going, because there are sort of  
8 technical and also management considerations that have  
9 to be sorted out.

10 CHAIRMAN: What are the technical issues?

11 MR YK CHAN: Today, as I mentioned earlier, in the session  
12 yesterday, the sort of merging of the function of the  
13 speed limiter and also the GPS system, to provide  
14 accurate positioning of the vehicle, and interface with  
15 the base map, and this sort of matching -- I think  
16 mainly it's because GPS is not accurate in the moment,  
17 in the operating environment of Hong Kong, but --

18 CHAIRMAN: What is the problem?

19 MR YK CHAN: Because the height of the buildings and all the  
20 surrounding area, that may, in some patches of road, in  
21 particular like if you are in Central, when both sides  
22 are covered by buildings and we only have a little bit  
23 of sky you can pick up the GPS, then --

24 CHAIRMAN: The GPS antenna needs to be able to pick up the  
25 satellites in the sky; that's the problem, isn't it? If  
26

1           it can't see the satellite because of a building, the  
2           signal fails. Is there any research on this?

3       MR YK CHAN: Actually, we are discussing with the bus  
4           companies and in conjunction with the supplier of those  
5           systems, to see whether there's any sort of reliable and  
6           more functional system that can be adopted.

7           So I would say, at this moment, under the working  
8           group, we are not ruling out this particular  
9           application. This is still ongoing.

10       MS MABLE CHAN: And we ascertained that this is actually  
11           a very intelligent way of controlling speed and mapping  
12           it with the geotechnical features on the road. We are  
13           certainly alive to the benefit and advantage of this  
14           system, but in the process we have to make sure that it  
15           can work in the local context of Hong Kong.

16           We do not rule it out. We will try our very best to  
17           see whether it can be adopted in the medium term or in  
18           the not-too-distant future. We will put it on trial.

19           Actually, the electronic stability programme is  
20           an issue that they have agreed to install on new buses  
21           as an immediate measure.

22           The autonomous emergency braking system is another  
23           example that we will also look into.

24       CHAIRMAN: Thank you.

25       MR DUNCAN: Thank you.

26

1           If you turn to page 55, you may get a little bit  
2           more assistance with regard to the intelligent speed  
3           adaptation system and the autonomous emergency braking  
4           systems, which seem to be under active consideration at  
5           the moment by Transport for London, which is your  
6           counterpart, I think, in that city.

7   MS MABLE CHAN: Yes. I would just like to mention that  
8           personally, as commissioner, I haven't had an  
9           opportunity to contact the overseas counterpart or visit  
10          them, but my colleagues in the Transport Department have  
11          in the past visited London, United States as well, for  
12          different various issues under Transport Department's  
13          purview.

14          I would just like to emphasise that we will make use  
15          of opportunities available to make contact with them and  
16          visit them, and to go through various issues under our  
17          purview.

18   MR DUNCAN: Have those contacts in the past been concerned  
19          with safety matters?

20   MS MABLE CHAN: My deputy has conducted a visit to London.

21   MS MACELLA LEE: For example, I went to visit the authority  
22          of Transport for London and also Singapore, but at that  
23          time our focus was more on service rationalisation, on  
24          the service side more, and also the use of realtime bus  
25          arrival systems, and those more new technologies for  
26

1 provision of passenger information, more on the service  
2 side, I'm afraid. On that occasion, it was not on bus  
3 safety.

4 CHAIRMAN: But you are aware that Transport for London have  
5 conducted tests on this IAS system?

6 MS MABLE CHAN: Yes, from the engineering side, they have  
7 kept me informed of this.

8 Actually, my colleague have been drafting  
9 a programme for me to visit other overseas  
10 jurisdictions. The issue is that there is not -- we  
11 have yet to plan on that basis. We have to deal with  
12 a number of competing priorities at the moment.

13 Thank you.

14 MR DUNCAN: Finally then on page 29, "Road design":

15 "The following improvements related to road design  
16 and traffic management are crucial for bus safety".

17 And there are some particular matters there. Would  
18 you be able to respond at all to those, Ms Chan?

19 MS MABLE CHAN: You mean paragraph 2?

20 MR DUNCAN: Paragraph 3 on page 29.

21 MS MABLE CHAN: These areas relating to road design and  
22 traffic management are actually our task and on the  
23 agenda of our regular road safety monitoring and audit,  
24 under the Road Safety Council agenda, and as part of the  
25 follow-up or as part of the preventive actions we looked  
26

1           into ways to improve road design, which includes safety  
2           barriers and widening of blind bends.

3           The imposition of some safety barriers actually is  
4           one of the measures that we have adopted to improve the  
5           Tai Po Road section as well.

6           The safe crossing facilities or conditions around  
7           bus stops is actually an ongoing task for us to provide  
8           on a district basis. We conduct regular district visits  
9           and meetings with district councillors and we will take  
10          the opportunity of new developments and redevelopments  
11          on the district. Should there be any provisions of bus  
12          stops, bus lay-by, then we will look into the need to  
13          provide suitable pedestrian crossing to enhance the  
14          safety of pedestrians.

15       MR DUNCAN: You mentioned an audit under the Road Safety  
16          Council agenda. What is that?

17       MS MABLE CHAN: By means of audit, I'm referring to our  
18          established system of the road safety monitoring and  
19          analysis, with a quarterly report to the Road Safety  
20          Council.

21       MR DUNCAN: That's the one that I asked you about this  
22          morning?

23       MS MABLE CHAN: Yes. I should not use the word "audit".  
24          I have to be careful with this word. So the road safety  
25          monitoring system relating to the Road Safety Council.

26

1 MR DUNCAN: Ms Chan, that brings me to the end of the  
2 questions that I was going to ask and the matters that  
3 I wish to explore.

4 The committee may have some further questions for  
5 you. I would like to thank you and your colleagues for  
6 assisting the commission.

7 MS MABLE CHAN: Thank you very much, senior counsel, for  
8 assisting me and my team to answer the questions. Thank  
9 you.

10 Questioning by THE COMMITTEE

11 MEMBER LO: I just have some clarification questions on the  
12 statistics provided by your bundle last night on the  
13 accident statistics.

14 If you flip to page 91, I think it's KMB or Citybus.  
15 KMB, I think.

16 CHAIRMAN: Mr Duncan, has this been given pagination now,  
17 overall pagination? I think Prof Lo is working from  
18 internal pagination.

19 MR DUNCAN: Yes, it has now.

20 CHAIRMAN: Where do we find it?

21 MR DUNCAN: TD-1.

22 MEMBER LO: Yes, starting at page 182.

23 MR DUNCAN: 176 onwards.

24 CHAIRMAN: They are yet to find their way into our bundle.

25 MS MABLE CHAN: It should be the forward planning  
26

1 programme -- the safety chapter in the forward planning  
2 programme of KMB.

3 MEMBER LO: Yes. The numbers are categorised, for example,  
4 at the bottom of page 91, by "Hours on duty before  
5 accident". The table seems to indicate that those  
6 working over ten hours have a lower involvement rate in  
7 accidents, because it's the lowest bar. But I think, to  
8 be fair, we have to divide or normalise by the  
9 population in that bar. If there were very few drivers  
10 driving over ten hours, of course the accident rate  
11 would be lower. So this way of presenting information  
12 could be made clearer, so we can understand the causes  
13 of that.

14 The same for also bus captain service period, the  
15 figure above. The table indicates that the year zero to  
16 one year has the highest accident rate. Maybe there are  
17 simply more drivers belonging to that category.

18 To be fair for the analysis and also to expose the  
19 issues underlying the figures, would it be possible to  
20 regenerate this graph and to normalise it, so that we  
21 know exactly the risk exposure, instead of simply  
22 categorising it. I know the data is from KMB. I'm not  
23 sure if this thing can be done by TD or we can ask KMB  
24 to redo it.

25 CHAIRMAN: If it's a KMB document, perhaps it lies for KMB  
26

1 to address whether or not it's appropriate to rectify  
2 it, if that's necessary.

3 MS MABLE CHAN: I agree with the chairman.

4 MEMBER LO: Okay. So I raise with KMB? Okay.

5 The question I have is would TD actually write out  
6 the specification for future reports, so as to report  
7 accordingly, not using this particular format?

8 MS MABLE CHAN: Yes. It is an ongoing requirement, and  
9 I take your point. Although we are -- sort of this  
10 analysis is done by the bus company, your point is -- we  
11 will take that back and then look into how the accident  
12 rate analysis can be more accurate and concise in  
13 reflecting the picture. We will consider that.

14 Thank you.

15 MEMBER AU YEUNG: Thank you, Chairman. I have one request or  
16 maybe question. This refers back to the report that  
17 Mr Duncan referred to earlier, named Community for Road  
18 Safety.

19 On page 29, talking about road design, as we all  
20 know, we have many new buses coming in which are of much  
21 larger size than before, and when I look at the road  
22 design, and you did mention, Ms Chan, that the  
23 government has widened some roads before, in view of all  
24 these new vehicles coming -- can you give us some  
25 examples in writing later on, just to show that we

26

1           actually -- your department has actually widened some  
2           roads in consideration of all the new buses coming in  
3           which are as large as 12.8 metres long?

4       MS MABLE CHAN: The widening of some roads is not  
5           particularly to cater for the new buses with that  
6           extended length. But we can go back and ascertain --  
7           try to locate whether there are some examples, like the  
8           cul de sac, which we have to make sure -- I have to sort  
9           of explain. The cul de sac is --

10       CHAIRMAN: The turning circle.

11       MS MABLE CHAN: -- yes, the turning circle for buses or  
12           other vehicles to turn around, and how we have to ensure  
13           the design, the width and the turning curve on the  
14           cul de sac can accommodate buses of, say, 12.8 metres,  
15           for those bus stops nearby or in the vicinity,  
16           especially in those new residential developments, where  
17           we have the cul de sac for buses and other vehicles to  
18           turn around before going out to the main road.

19           I will see if we can give some example to illustrate  
20           that, in order to answer the question.

21       MEMBER AU YEUNG: Also, if possible please cover the New  
22           Territories area, because, as we understand, New  
23           Territories have a different set of design of roads, so  
24           I would like to know how are we accomplishing  
25           accommodating those buses.

26

1           Thank you very much.

2           Thank you, Chairman.

3   MS MABLE CHAN: That is doable. Thank you.

4   CHAIRMAN: There are one or two matters I would like to take  
5       up with you.

6           Since you've got the KMB paper that you provided us  
7       with, the forward planning paper -- I think that's still  
8       in front of you -- at KMB internal pagination 96, "Bus  
9       captain training and monitoring". Of course, this is  
10      a KMB paper, but presumably the Transport Department  
11      understand what they are talking about when they give it  
12      to you.

13          Can you help us -- it's the last two lines on the  
14      page -- what are "Realtime driving indicators are  
15      installed in all buses which can help bus captains to  
16      utilise the driving skills learnt in the eco-safe  
17      driving training course"? What are these realtime  
18      indicators?

19   MS MABLE CHAN: In our discussions with the KMB and also at  
20      the KMB board meetings, on some occasions they will  
21      update us on the monitoring device to assist or enhance  
22      the driving behaviour of the bus captains, because at  
23      some point they also identify the driver behaviour  
24      factor, including the incidence of harsh braking, and  
25      there is some realtime -- as I understand, these

26

1 realtime driving indicators will first help to identify  
2 those bus captains with this high incidence on  
3 a particular route, then they will sort of install this  
4 kind of indicator in the bus, so as to -- as a reminder  
5 for the bus captains to utilise the driving skills in  
6 order to remind them of the necessary skills along  
7 a particular route.

8 Perhaps the KMB will be in a better position to  
9 elaborate how it functions and how it serves the purpose  
10 of improving the drivers' behaviour, in those  
11 circumstances.

12 CHAIRMAN: The use of the word "indicator" doesn't suggest  
13 a flashing light or a device; it is an analysis done on  
14 a tachograph to see heavy retardation or heavy  
15 acceleration?

16 MS MABLE CHAN: Yes.

17 CHAIRMAN: Thank you.

18 At KMB again, page 98, paragraph 8.4.2, the  
19 statement is made that in terms of assignments to new  
20 bus captains, they are given, it states, "easy routes".  
21 Are you aware of any designation of routes by KMB as  
22 being easy, difficult; any other system?

23 MS MABLE CHAN: There are some description of routes which  
24 are complicated, complicated routes, so other not  
25 designated as complicated routes should be considered as  
26

1 easy routes.

2 More often, they refer to complicated routes.

3 CHAIRMAN: So this is their system of determining the  
4 difficulty or otherwise of a particular road or route?

5 MS MABLE CHAN: Yes, because the complicated routes, as  
6 I understand, may cover areas with more turns and bends,  
7 or there are more stops along the routes, with more  
8 passengers boarding or alighting, so it will not be  
9 straightforward driving and short route. Some of the  
10 routes involve more stops and cover a lot of various  
11 districts and there may be some routes covering some  
12 common or black spot accident areas.

13 CHAIRMAN: Thank you.

14 Page 99, paragraph 8.5.7. That's the internal  
15 pagination.

16 The references there to there having been a survey  
17 of "44 buses installed with 3-point seat belts on all  
18 seats by the end of April 2017. Survey will be  
19 conducted to assess the utilisation rate of seat belt on  
20 buses which are installed with [those kinds of seat  
21 belt]."

22 Are you aware of the results of such a survey?

23 MS MABLE CHAN: We are aware that this is an initiative done  
24 by the KMB themselves and they would like to conduct  
25 a survey to ascertain the utilisation rate. But we are  
26

1 not aware of the findings of the survey yet.

2 CHAIRMAN: Would you expect to be told the results?

3 MS MABLE CHAN: Yes, because this is actually raised in the  
4 board meetings as well, and we would expect the company  
5 to report on the utilisation rate of seat belts. If  
6 they do not report, we will certainly raise.

7 CHAIRMAN: Very well.

8 One final matter. In the TD-1, it's your paper 8  
9 where you look at technology, and one of the items at  
10 page 102, paragraph 21, is a speed display unit.

11 What is said about that is that it is technically  
12 feasible to install it. That's paragraph 22:

13 "The ... manufacturers have advised that it is  
14 technically feasible ..."

15 Then there are the comments made in the latter part  
16 of paragraph 22:

17 "... the FB operators are concerned that [the speed  
18 display unit] would create conflicts and arguments  
19 between the bus captain and passengers, and impose  
20 additional pressure on the bus captains which in turn  
21 would affect the safety for bus driving. The FB  
22 operators consider that the SDU is not conducive in  
23 enhancing bus safety."

24 Am I correct in understanding that this kind of  
25 units, speed display units, are used and have been used

26

1 on PLBs for some time?

2 MS MABLE CHAN: Yes.

3 CHAIRMAN: Can you help us as to when they were installed on  
4 PLB?

5 MS MABLE CHAN: A few years. We will try to be more  
6 specific.

7 CHAIRMAN: Yes.

8 MS MABLE CHAN: A few years. This device was installed in  
9 public light buses in the light of the concerns about  
10 speeding in public light buses. This issue was actually  
11 also discussed in the Transport Advisory Committee, and  
12 we include this as an agenda item in the scope of work  
13 to be discussed with the bus manufacturers and bus  
14 companies, to ask them to seriously consider the  
15 feasibility and applicability of installing the speed  
16 display unit.

17 The statements that we make here in paragraph 22  
18 reflect the current status of discussion.

19 CHAIRMAN: I appreciate that, because at the moment the  
20 discussion is confined to a tripartite group, is it not?

21 MS MABLE CHAN: Yes.

22 CHAIRMAN: Namely the franchised bus operators, yourself,  
23 and the bus manufacturers, when required to be brought  
24 in technically.

25 MS MABLE CHAN: Yes. We are also aware from the feedback  
26

1 from the bus operators that the bus captains may  
2 consider this device may impose additional pressure on  
3 them. So this is a sensitive area that we will have to  
4 seriously consider and we may as well have to explore it  
5 with the bus captain associations to tap their  
6 sentiments on it before we can take it further.

7 CHAIRMAN: Will you be doing that?

8 MS MABLE CHAN: We will be doing that.

9 CHAIRMAN: Will you also be consulting the public as to

10 whether or not this is something they think is a good  
11 idea, as being passengers whose safety is in the hands  
12 of a bus captain?

13 MS MABLE CHAN: We will surely need to take into account any  
14 public views on that. We haven't thought of any  
15 particular way to do that, but a possible and usual way  
16 is to sort of first discuss with the staff unions and  
17 also the bus captains to get their reaction, and then we  
18 may have to see whether we can get further views or  
19 feedback from the Legislative Council Panel on  
20 Transport, which may serve as a forum to flesh out the  
21 proposals to be taken forward in enhancing bus safety.

22 CHAIRMAN: How was it that the Transport Department came to  
23 learn that the public were concerned about speeding in  
24 PLBs? How was the public opinion learnt in that case?

25 MS MABLE CHAN: It is not just a public concern but it is  
26

1       also the accident rates involving public light bus. One  
2       of the contributing factors is also speeding and driver  
3       behaviour, so the accidents of the public light bus  
4       actually over the years is relatively high. Actually  
5       I would say that the rate of involvement of public light  
6       bus is higher than the franchised bus as well. So we  
7       have taken the effort to require the installation of the  
8       speed display units inside the public light bus.

9       CHAIRMAN: Are you able to help -- and say so if you are  
10       not -- as to whether or not the installation of these  
11       devices on public light buses led to any conflicts and  
12       arguments between passengers and drivers? I'm  
13       paraphrasing from what the franchised bus operators have  
14       said is their concern about installation on franchised  
15       buses. Was there any increasing conflict?

16       MS MABLE CHAN: Following the installation of the speed  
17       display unit inside the public light bus, we are not  
18       particularly aware of any surge in public complaints on  
19       such kind of installation during their journey over the  
20       public light bus.

21       CHAIRMAN: I was thinking more about conflicts resulting  
22       from the fact that the information is available to the  
23       passengers that the bus is speeding. Has that resulted  
24       in conflicts, for example?

25       MS MABLE CHAN: Not to our knowledge that there is any  
26

1           significant increase in such kind of complaints about  
2           the installation of the units in the public light bus.

3           Chairman, to supplement, the imposition of the speed  
4           limiter for public light bus was commenced since June  
5           2010 as part of the licensing conditions for public  
6           light buses.

7   CHAIRMAN: Thank you.

8           In that case, that brings me to the end of the  
9           questions I have for you. May we thank you and your  
10          colleagues for all the assistance you have given us, and  
11          we look forward to receiving the material that you said  
12          you would endeavour to provide to us in writing in due  
13          course.

14          Thank you very much.

15   MS MABLE CHAN: Thank you very much. Thank you again,  
16          Chairman, for your guidance during the deliberations,  
17          and the senior counsel as well. Thank you.

18   CHAIRMAN: In those circumstances, these proceedings will be  
19          adjourned. For general information, these are the first  
20          of the oral hearings, to which we intend to invite  
21          others to attend in due course. When we make those  
22          invitations, if they are accepted, then information will  
23          be displayed on our website as to when those hearings  
24          are to take place.

25          Thank you very much.

EVIDENCE FROM THE TRANSPORT DEPARTMENT: .....1

MS MABLE CHAN, MS AMY LEE,

MS RACHEL KWAN, MS MACELLA LEE,

MR REGINALD YK CHAN, MR TONY YAU

Further opening statement by MS MABLE CHAN .....1

Examination by MR DUNCAN (continued) .....4

Questioning by THE COMMITTEE .....150

*[blank page]*

1 2018 年 5 月 8 日

2 上午 10 時正恢復聆訊

3 出席人士如前。

4

5 主席：（經傳譯員）各位，早晨。陳女士，請你哋係上前就座。琴晚運輸署向我哋提  
6 交咗一啲資料，呢個就係關於各間巴士公司提供畀運輸署關乎巴士安全嘅遠期計  
7 劃。如果你哋呢啲文件係有乜嘢想發言嘅話，你可以而家做，否則嘅話，我會請  
8 鄧樂勤大律師係繼續提問嘅。

9 陳美寶女士：（經傳譯員）多謝你，主席，或者我咁喇，我講幾句喇，就此。

10 主席：（經傳譯員）係，請你開始。

11 陳美寶女士：（經傳譯員）實質上，我感謝主席係提出呢一點，讓我哋有機會就同巴  
12 士公司琴晚係傾過，我亦都當然好明白呢一個係嚟自秘書處，就係話希望可以睇  
13 晒所有嘅遠期計劃，但係鑑於佢裏面係有一啲商業嘅資料，所以我哋最初嘅時候  
14 就話唔能夠發放。但係我哋睇番個重要嘅章節，就係巴士安全，裏面就係有任  
15 何商業價值牽涉在內嘅，我哋就係藉呢個機會同巴士營運商就係琴晚討論過，而  
16 最後就係提供咗資料畀秘書處嘅。

17 我就想先講幾句嘅，講到呢個遠期計劃，佢係呢個法定要求嘅一個部分，即  
18 係話巴士營運商係需要提交畀政府當局，係讓運輸署可以同巴士營運商談判嘅。  
19 其實呢個嘢我哋嚟講，就係我哋監察同埋監管巴士營運商兩個方面嘅其中一個部  
20 分。巴士營運商，我哋對佢有咁嘅期望，佢哋要有呢個遠期計劃，裏面係要有路  
21 線發展計劃同埋其他營運方面嘅資料，係讓運輸署知悉，呢一個係每年嘅 6 月尾  
22 係需要交到畀我哋。

23 自從 2003 年開始，運輸署已經係要求巴士營運商有一個專章就係講及巴士  
24 安全。自此之後，呢個章節一直都係遠期計劃嘅一個部分，亦都作為運輸署一個  
25 計劃或者規畫嘅工具，嚟到同佢哋商討同埋監察每一間巴士公司佢哋個意外  
26 率，佢哋當然自己亦都會分析。巴士營運商係應該提議一啲改善嘅措施，我哋都  
27 期望佢哋係將有關建議落實嘅時間表，即係各項措施嘅時間表，亦都係包括在  
28 內。

29 除咗呢個遠期計劃嘅程序，我哋每年亦都進行呢個評估，每年嘅年尾之前都  
30 會做呢個評估嘅。呢啲嘅工作做嘅時候，我哋會睇九個指標，其中兩個就係同巴  
31 士嘅安全有關。我哋回答大律師昨日嘅問題嘅時候，我哋亦都係講咗我哋自己本  
32 身有一個獨立嘅數據庫，講及全港嘅意外嘅數字，裏面亦都分析咗一啲意外嘅統  
33 計數字，係關乎每一間專營巴士公司嘅。我哋自己亦都係進行獨立嘅分析，分析  
34 有關嘅意外嘅性質、成因，以助我哋係每年評估每一間公司個表現。呢啲評估嘅  
35 工作係每年去做，係根據一啲獨立嘅數據，嚟自呢一個數據庫嘅。而我哋係遠期

1 計劃同埋呢個意外分析就係並行嘅，有關嘅報告亦都會交畀交通諮詢委員會參考  
2 嘅，唔該。

3 主席：（經傳譯員）唔該晒。鄧樂勤大律師。

4 MR DUNCAN：（經傳譯員）多謝你，主席。陳女士，早晨，各位先生、女士，早  
5 晨。再次感謝你哋琴晚係做咗功課交畀我哋，我而家想做嘅就係想拆析你哋昨晚  
6 交畀我哋嘅文件，然後就問你幾條問題係關乎呢個文件嘅。關於遠期計劃，特別  
7 係安全嗰個章節，我今朝稍後會有問題問你，暫時我就唔會係問嗰方面嘅問題。  
8 你哋亦都係昨晚提交咗一啲文件係涉及其他嘅事宜，咁都係源於昨日提出嘅問  
9 題，我亦都感謝你係交咗呢啲資料。

10 你喺你嘅意見書嗰度係提出一樣，我就想跟進嘅。或者請你就係睇番呢個第  
11 8 段，係昨晚交上嚟嘅補充資料嘅第 8 段，呢度有提及一個工作小組，呢個工作  
12 小組就係加強專營巴士嘅安全。委員會獲悉呢一個工作小組係喺大埔公路交通意  
13 外 2 月發生咗之後成立嘅一個工作小組，而嗰個成員就係包括咗所有嘅巴士公司  
14 及其他人士。你喺呢一個陳詞嘅最後嗰度就有咁講嘅，呢一個工作小組第一次開  
15 會就係喺今年嘅 3 月 13 號，我個問題要問嘅就係話其實自此之後係總共開過幾  
16 多次會呢？

17 陳美寶女士：（經傳譯員）兩次。

18 MR DUNCAN：（經傳譯員）自此就兩次，即係總共三次？

19 陳美寶女士：（經傳譯員）兩次就係工作小組嘅層面，另外就係有兩個就技術小組嘅  
20 層面，咁就係講及嗰啲裝備同埋科技嘅。

21 MR DUNCAN：（經傳譯員）係之後有一次會議，係咪呀？

22 陳美寶女士：（經傳譯員）係呀，4 月 24--對唔住，係 4 月 23 號。

23 主席：（經傳譯員）琴日都有提過呢個日子嘅。

24 陳美寶女士：（經傳譯員）係，喺嗰個開場白嗰度有提過。

25 MR DUNCAN：（經傳譯員）講到嗰個技術會議，技術會議係邊個出席嘅呢？

26 陳美寶女士：（經傳譯員）或者我問一問我嘅同事，因為係關小姐就係負責嘅。

27 關翠蘭女士：（經傳譯員）係，早晨。主席，早晨。巴士公司同埋巴士製造商係應邀  
28 請出席會議。

29 MR DUNCAN：（經傳譯員）你指嗰個技術會議？

30 關翠蘭女士：（經傳譯員）係。

31 MR DUNCAN：（經傳譯員）有冇係會議紀錄？

1 關翠蘭女士：（經傳譯員）有。

2 MR DUNCAN：（經傳譯員）委員會可否得到係一份呢個會議紀錄嘅副本？

3 關翠蘭女士：Sure.

4 陳美寶女士：（經傳譯員）講到會議紀錄，因為一般嚟講，裏面係涉及一啲內部嘅討  
5 論，我哋一般嘅原則就係唔會將佢披露，因為呢啲係內部嘅討論，亦都有涉及一  
6 啲係未成熟嘅研究，亦都如果係將佢披露，可能就會妨礙大家好開放、好坦白咁  
7 樣係交談。或者我哋可以抽出其中嘅部分，又或者講及就有啲乜嘢係我哋探討緊  
8 個個可行性嘅。

9 MR DUNCAN：（經傳譯員）係，我諗委員會係特別關注個技術方面嘅考量，即係  
10 話你哋呢兩個小組考慮咗啲乜嘢嘢，所以係因此，我先至話要求係得到一份會議  
11 紀錄嘅副本。

12 陳美寶女士：（經傳譯員）如果委員會認為係有需要擺個會議紀錄嘅話，或者我哋  
13 以保密嘅形式係交出。

14 主席：（經傳譯員）唔係，我哋好透明嘅，我哋行事透明嘅，乜嘢都上載喺網站，我  
15 哋唔會接收任何嘅嘢係唔能夠披露畀公眾。你講到話有個技術小組嘅會議，就講  
16 喺香港可以應用啲乜嘢嘅科技，你就話巴士製造商亦都有出席會議嚟到幫手。我  
17 可唔可以假設你哋都喺佢哋邊收到一啲文件呢？譬如話一啲車速限制器，你可  
18 以被動咁樣樣係截斷個燃資料嘅供應，亦都可以主動形式，譬如話將個傳動  
19 嘅裝置影響佢，又或者係制動架車，即係煞車咁樣樣呢？呢度當然就係關乎科技  
20 嘅進展，有冇咁嘅文件呢？

21 陳美寶女士：（經傳譯員）到而家為止，冇乜咁樣嘅文件。我哋可以將喺會議探討過  
22 嘅課題嘅名目係交出嚟嘅，到而家我哋未有任何嘅文件嚟到我哋個度。

23 主席：（經傳譯員）或者啲文件都太過技術性強嘅，咁即係有咩嘢係書面寫低嘅呢？  
24 其實呢啲咁嘅課題即係好明顯，一定係會有文件，我即係覺得如果你話有，就好  
25 奇怪，會唔會你哋大家有提出過話可以考慮邊一類嘅設備去應用啲科技呢？

26 陳美寶女士：（經傳譯員）喺個兩次會議，我哋係有列出話可以加以考慮嘅設備或者  
27 科技去進行呢個研究同埋討論。我哋要求與會人士返去係考慮，然後再返嚟開會  
28 嘅，我諗就或者係讓日後便利開會，我相信日後都會有一啲分析文件係畀大家參  
29 考嘅，好，唔該。

30 MR DUNCAN：（經傳譯員）昨天，我亦都提過另外一件事，我有特別要求你交任何  
31 嘅報告，不過就係你作證嘅時候提過嘅，你當時就話有一啲季報就會交界道路安  
32 全議會，讓佢哋進行監察嘅。我而家想作出一個請求，我哋想得到係一啲樣本，  
33 即係話你交界呢一個議會嘅季報。

34 陳美寶女士：（經傳譯員）係，係，我哋呢啲季報嘅樣本，係，可以。

1 MR DUNCAN：（經傳譯員）剛才你同主席討論嘅事宜，即係話剛才提過嗰四個嘅會  
2 議紀錄，我理解你係唔願意將佢交出，你不過就講過，就話會議紀錄嘅部分應該  
3 係冇問題嘅，可以交上嚟委員會度，係咪咁呀？

4 陳美寶女士：（經傳譯員）我相信我要係問一問律師，得到法律意見先至知道究竟呢  
5 個工作小組同埋技術會議嘅會議紀錄可否披露嘅。

6 MR DUNCAN：（經傳譯員）係，我等你去問一問先。

7 陳美寶女士：Yes.

8 MR DUNCAN：That can be arranged?

9 陳美寶女士：Sure.

10 MR DUNCAN：（經傳譯員）另外，仲有兩件事嘅，即係跟番琴日嘅兩點，然後先至  
11 去問今日要問嘅問題。我哋就問過，就係點解嗰啲指引縱使就你哋係承諾咗，喺  
12 2012 年交通意外發生之後，承諾就話要修訂嗰個指引，點解係冇做到呢個修訂  
13 嘅工作，我哋就問你點解，你有冇做到呢方面嘅工夫呢？

14 陳美寶女士：（經傳譯員）對唔住，因為時間緊逼，我哋琴日未有做到嘅，我哋會儘  
15 快去做，亦都會係交番個書面嘅回覆畀你。

16 MR DUNCAN：（經傳譯員）好，唔該。另外仲有一件事就係全職同兼職司機，我曾  
17 經有問過部門有冇進行過分析，睇下兩類司機同埋意外之間嘅關係，問下有冇咩  
18 嘢分析，你就話你手頭上有呢個資料。或者係咪可以係進行研究，然後再交個  
19 資料畀我哋呢？你哋著手做呢一個工作未呀？

20 陳美寶女士：（經傳譯員）或者讓我澄清一下，根據公司多年嚟畀我哋嘅數據，特別  
21 喺嗰個遠期計劃裏面，關乎係巴士安全嘅章節，我哋就會係分析嗰個交通意外嘅  
22 性質等等，我哋就係有資料顯示，就話兼職巴士司機就係一個造成交通意外嘅成  
23 因。換句話講，係有由呢啲分析入面得到任何資料顯示兩者有關連嘅，即係話聘  
24 用兼職巴士司機同發生意外，呢一個係我琴日提到話有資料去指出有咁樣關連嘅  
25 基礎。

26 主席：（經傳譯員）你有機會好快睇番嗰啲遠期計劃，遠期計劃係各個專營巴士公司  
27 提供嘅。你話有關連，你經常重複呢句說話，巴士型號、巴士司機嘅年歲、工作  
28 時數。

29 陳美寶女士：（經傳譯員）主席，正如我講，呢啲嘅分析係由巴士公司製備。喺我哋  
30 自己獨立而分析嚟講，就再交界道路安全議會，我哋就會分析意外係咪致命，係  
31 咪嚴重交通意外，然後我哋嘅分析亦都會嘗試找出一啲共通嘅因素，譬如話係駕  
32 駛態度，又或者係涉案嘅車輛。

33 MR DUNCAN：（經傳譯員）呢個係另一個分開獨立嘅報告？

- 1 陳美寶女士：（經傳譯員）係。
- 2 MR DUNCAN：（經傳譯員）你會交界我哋個呵？
- 3 陳美寶女士：（經傳譯員）係，我哋喺交界呢一個道路安全議會季度報告入面有嘅。
- 4 MR DUNCAN：（經傳譯員）而家講下巴士安全，喺遠期計劃入面，即係交咗畀我哋—  
5 —琴晚交界我哋嘅遠期計劃，關於巴士安全嘅內容。我睇過，有五間專營公司，  
6 九巴、龍運都係交同一種報告，然後城巴同埋新巴又係都係交同一份報告，呢個  
7 第二款。另外仲有係新大嶼山巴士公司，就係有第三種格式嘅報告。首先，我想  
8 咁樣問你，關於巴士安全方面，資料類別，要交啲乜嘢係運輸署決定，定係巴士  
9 公司決定呢？即係話喺遠期計劃入面要提供咩嘢內容。
- 10 陳美寶女士：（經傳譯員）正如我喺開場發言，今朝早提到，喺遠期計劃入面，我哋  
11 有個要求係 2003 年引入嘅，要提供關於巴士安全嘅內容。而運輸署就會睇番巴  
12 士營運者喺巴士安全，意外率方面嘅有關資料，然後我哋就會寫信畀巴士營運  
13 商，大概 4 月、5 月嘅時候，就會寫番我哋要求要啲咩嘢資料，喺嚟緊嘅遠期計  
14 劃應該包括啲乜嘢嘅。關於巴士安全，有啲時候運輸署會有特別嘅要求，要求提  
15 供某啲範圍嘅資料，即係基本上資料嘅範圍，又或者係某啲時候，我哋會要求啲  
16 地區咁樣，咁呢個係運輸署會提供建議畀巴士公司嘅。
- 17 MR DUNCAN：（經傳譯員）咁文件係邊個交第一份嘅草稿？
- 18 陳美寶女士：（經傳譯員）係鐵路部門嘅同事。
- 19 MR DUNCAN：（經傳譯員）咁有冇係有一份嘅草稿咁定或係佢哋自己寫低有啲咩嘢  
20 嘅題目需要準備呢？
- 21 陳美寶女士：（經傳譯員）呢個係雙向嘅工作嚟嘅，首先就會寫番個範圍喺唔同章節  
22 需要包括啲乜嘢，但係多年嚟，亦都有某啲題目或者係一個題目嘅清單，附隨信  
23 件個度，有需要係可以交界營運商，去指導佢哋要喺報告某一章節包括咩嘢內容  
24 嘅。
- 25 MR DUNCAN：（經傳譯員）我哋留意到呢啲遠期計劃嘅安全嘅部分都有頗多統計數  
26 字，係關於意外嘅數字同埋意外成因嘅數字，你都知道，係咪？
- 27 陳美寶女士：（經傳譯員）係。
- 28 MR DUNCAN：（經傳譯員）咁亦都由巴士公司就提供一啲嘅資料，佢哋形容啲啲叫  
29 做安全措施，同埋佢哋擬議實施嘅安全措施。我可以同你舉個例子，佢哋提議有  
30 咩嘢安全措施呢？而家就請你揭去新巴嗰一份嘅遠期計劃，呢個就係你琴晚交嚟  
31 嘅附件三嘅部分，我睇緊第 6 頁，呢個係該分文件嘅第 6 頁，應該就係文件冊  
32 而家係第 200 頁嘅。你見唔見到呢一段呀？就係 5.3 段，即係話實施咩嘢嘅措  
33 施去加強安全嘅。
- 34 陳美寶女士： Yes.

MR DUNCAN：（經傳譯員）如果你睇番啲文字嘅話，除咗係採取紀律行動之外，仲有計劃以下嘅措施，同埋計劃去減低某類型意外嘅成因或者係種類。然後就總共列咗有 十四項嘅措施，呢個係巴士公司嘅描述嚟嘅。

琴日同今朝早你都有提過，每年表現評估，即係評估巴士營運商嘅表現，你同委員會講就話安全係好重要嘅，因為如果你睇番九個指標嘅話，有兩個指標都係關乎安全。我哋亦都可以而家去睇下，應該係嚟運輸署第 2 文件冊嘅 316 頁。你而家會睇到呢一頁，就係話 2016 年專營巴士營運商表現嘅一個撮要，面前見到嘛？

陳美寶女士：（點頭示意）。

MR DUNCAN：（經傳譯員）你見到有九個主要指標喇，我哋頭先講過。你提到有兩個同安全有關嘅，就係例如與安全有關嘅，喺巴士檢查中發現與安全有關嘅缺損，另外就係每百萬行車公里涉及巴士嘅意外率。運輸署喺每年進行服務表現評估嗰時有冇查核過巴士營運商佢哋提出某一件事，喺某一年佢哋打算做嘅，譬如頭先講到呢十四項，即係嚟新巴嗰份嘅遠期計劃入面嗰十四項。

陳美寶女士：（經傳譯員）我會答有嘅。

MR DUNCAN：（經傳譯員）你話「我會答有」係咩嘢意，即係有定有咁做？

陳美寶女士：（經傳譯員）每年嘅表現報告就係--評估就係按照每間公司去做嘅，運輸署會睇番意外嘅表現，每一間營運商，睇番佢個安全嘅情況，就係用呢兩個指標嚟睇。遠期計劃，尤其關於巴士安全嘅章節，就係畀我哋去仔細研究，睇清楚巴士公司佢個情況同埋佢哋喺安全方面嘅表現，呢個就係作為一個基礎畀運輸署評估呢間公司嘅表現。

MR DUNCAN：（經傳譯員）但係喺呢個撮要入面，有任何部分顯示運輸署係有逐間營運商睇佢哋個報告話每一年佢哋打算實施乜嘢嘢，呢度只係指每百萬行車公里有幾多次意外，同埋係喺檢查巴士嗰時發現同安全有關嘅缺損。

陳美寶女士：（經傳譯員）我請你睇番我哋嘅第 2 號文件。我想請你睇番第 2 號文件，附件 F--對唔住，應該係運輸署第 1 號文件，另外就係 2016 年嘅巴士營運商嘅表現報告。咁應該...

主席：（經傳譯員）你可唔可以再講下邊一頁呀？

MR DUNCAN：305。

主席：Thank you。（經傳譯員）你頭先講到呢份文件，係嘞，就係 2016 年嘅專營巴士公司運作嘅表現。

陳美寶女士：（經傳譯員）睇到同安全措施有關嘅段落，咁就簡述專營公司嘅安全嗰方面嘅表現，同埋喺呢啲意外入面係搵到嘅共通成因。尤其喺 2016 年嘅表現，意外通常都包括係譬如因為唔同原因，乘客喺呢個巴士車廂入面失衡，譬如話係

1 冇扶穩扶手，或者係落緊樓梯咁樣跌㗎，而巴士公司就以唔同嘅方式實施措施，  
2 加強安全嘅。然後我哋就再睇番啲一年啲間巴士公司嘅表現，然後呢份文件嘅附  
3 錄 B，我哋亦都有提到有啲乜嘢措施去加強巴士運作嘅安全性。

4 MR DUNCAN：（經傳譯員）我理解㗎唔㗎呢？即係有特登喺每年嘅評估入面考慮  
5 嘅？

6 陳美寶女士：（經傳譯員）係。

7 MR DUNCAN：（經傳譯員）而家我暫時唔講呢個遠期計劃入面嘅安全有關部分，你  
8 可以將文件搵開先。而家想同你講下乘客嘅行為方面，委員會亦都收到好多有關  
9 嘅書面意見，亦都委員會知悉，又據稱對車長近來亦都多咗係用武力嘅對待，或  
10 者係粗言穢語嘅，有唔同嘅團體，譬如係公會、立法會、其中一間巴士公司，即  
11 係九巴，都有呢啲嘅指稱。我再解釋一下個情況，請你睇番第 256 頁，應該係  
12 256-1 頁，我就請你睇番，呢個係一個英文譯本，未鑑證嘅譯本㗎嘅，就關於呢  
13 一個會議紀錄，就係呢個巴士業職工會聯盟同埋運輸署嘅會面。

14 陳美寶女士：Yes.

15 MR DUNCAN：（經傳譯員）你如果要睇中文嘅話，我可以畀番中文啲個頁數你，中  
16 文版係 250 頁，英文譯本就係 256-5，呢度係講及就係車長嘅人身安全。我就  
17 讀番啲個翻譯本出嚟，啲度就講及車長擔心就係話好多時佢哋受到襲擊，但係警  
18 方嚟到嘅時候，就係唔告啲個犯案嘅人，就叫佢哋自行解決。而公會就問下，就  
19 係究竟有冇啲乜嘢嘅保障，即係前線嘅車長，究竟遭遇呢啲情況有冇乜嘢保障  
20 嘅，所以就你記住呢一點先。另外就 256-6。

21 主席：（經傳譯員）2016 年 10 月 4 號所舉行嘅一次會議㗎嘅，係咪？先搞清楚呢  
22 點。

23 MR DUNCAN：（經傳譯員）係。256-8，你呢就會見到就係呢一個 3 月 27 號 2017  
24 年嘅一次會議紀錄。中文就係 245 頁啲度見到。或者我就係想請你睇番呢一個譯  
25 本，啲度就係講到話車長受到襲擊，同埋施暴者嘅檢控準則。工會就表示關注近  
26 日車長被襲擊，即係使被襲擊嘅車長報警，好多時候，警方到場就提議雙方和  
27 解，就係冇檢控有關人士。另外，巴士公司只係為員工提供保險。警方表示就係  
28 唔會容忍任何人使用暴力，並同係呼籲車長如果遇到有關情況，就必須報警，並  
29 且儘可能係尋找證人，以便警方跟進。或者我想話畀你聽，就不如你睇番啲個會  
30 議紀錄，會議紀錄啲度就有話畀你聽有邊個出席嘅，啲度就係有政府代表，有議  
31 員同埋巴士業職工會嘅代表咁樣樣。

32 主席：（經傳譯員）講番佢哋嘅投訴，256 頁，你呢度就話警方就係表達一個意見，  
33 警方有冇人在場代表嘅呢？

34 陳美寶女士：Yes.

35 主席：（經傳譯員）喺邊度可以見到佢個名呀？

1 陳美寶女士：（經傳譯員）曾滿麟先生係警務處嘅總督察（道路安全），256-8 個  
2 頁，英文版。

3 主席：（經傳譯員）係，好，唔該，好。

4 MR DUNCAN：（經傳譯員）256-16 個度，嗰個就係中譯本嚟嘅。中文版係 250  
5 頁，我就想請你睇一睇。英文譯本就係 256-18 個度嘅，你會就係見到 2017 年  
6 7 月 20 號一次開會嘅會議紀錄。係，當時亦都有係運輸署、警方嘅代表出席，  
7 亦都係有巴士業職工會聯盟嘅代表出席嘅。或者我想請你睇番 256-18 個度，個  
8 度第（ii）個項就係講到巴士車長被襲事件，個度比較長嘅，我就唔會逐句讀  
9 出嚟，或者你自己好快咁睇一睇個幾段，然後我就係想講番兩段。或者不如  
10 我講最後個--呢一個部分最耐個段。另外，警方及工會建議巴士公司喺司機駕  
11 駛間加裝保護設施，運輸署會就公會嘅關注向巴士公司反映，好似個書面翻譯  
12 個度係有啲唔係好清楚。當然，就係呢度，運輸署係知悉公會嘅關注。

13 陳美寶女士：（經傳譯員）主席，我亦都睇番中文嗰個原本嗰個版本，呢個係喺 251  
14 頁。就呢個部分，個度就咁講，運輸署會就公會嘅關注向巴士公司反映。

15 MR DUNCAN：（經傳譯員）係，好。嗰個書面翻譯個度就係有啲問題，係咪呀？我  
16 稍後會再返番嚟呢度。不過，我再想係講及其他嘅例子，就係話運輸署其實都知  
17 悉呢一啲關注。請你睇 SEC 2 嘅文件，亦都睇番嗰個翻譯本，係 815 頁，佢原  
18 本就係中文嘅，中文嗰個版本就喺 814 頁。呢份其係提交畀立法會嘅文件，你  
19 知唔知道其實部門都--即係有人係話畀部門聽，話發生呢件事呢？

20 陳美寶女士：（經傳譯員）我手頭上有呢啲資料。

21 主席：（經傳譯員）不如咁，你可唔可以講多啲資料畀我哋聽，就係日期同埋係邊個  
22 寫畀邊個嘅呢？

23 陳美寶女士：（經傳譯員）呢封信唔係寫畀我哋嘅。

24 主席：（經傳譯員）我明白，我係想請鄧樂勤大律師講講。

25 MR DUNCAN：（經傳譯員）呢個日期就係 2016 年嘅 5 月 19 號，咁係一封函件係致  
26 函畀立法會交通事務委員會嘅主席。如果你有睇過呢一封信嘅話，咁我唔問你任  
27 何問題。最後就呢一方面，我亦都想請你睇一個係--九巴嘅第一份文件，係喺  
28 第 62 頁個度，呢個就係九龍巴士有限公司向委員會提交嘅意見書。我唔知道你  
29 有冇時間，有冇機會係睇過呢？

30 陳美寶女士：（經傳譯員）我只係攞一攞嘅。

31 MR DUNCAN：（經傳譯員）係，好，唔該。我想請你睇呢個第 62 頁，喺頂頭個度，  
32 或者你自己睇一睇。或者先睇第一點，即係話因應就係愈嚟愈多車長受襲，我哋  
33 就係採取咗下列嘅措施。

34 主席：（經傳譯員）由於即時傳譯就係都需要做翻譯，但係我打上嚟嘅，就只係嗰個

1 英文個版本，你係咪都將佢讀出嚟方便啲呢？

2 MR DUNCAN：（經傳譯員）嗰度係有講過就係一啲偵察嘅相機，就包括向前嘅相  
3 機，同埋有相機就係睇住，就係影住嗰個司機位嘅，呢個都已經係所有嚟自  
4 2015 年新嘅巴士都會裝呢啲咁嘅鏡頭，咁係一個標準設備嚟嘅。2018 年嘅 2  
5 月，其實就二千三百一十九部九巴同埋一百四十六部龍運巴士都有呢啲鏡頭。其  
6 餘嘅巴士就會逐步逐步係加裝嘅，呢一啲嘅監察鏡頭就可以係睇到嗰啲如果有麻  
7 煩嘅乘客佢嘅行為係點，亦都包括埋錄音嘅，咁就會保障嚟事後警方嘅調查或者  
8 法律行動嘅車長嘅利益。我哋亦都會係喺 18 年嘅 6 月開始，就係喺近司機位嗰  
9 度加個保護罩，我哋亦都會有更多車上嘅宣布，就係促請乘客唔好做某一啲嘢係  
10 會影響車長或者其他嘅乘客，我哋亦都會就係提供一個法律支援畀車長，如果佢  
11 哋係遇襲嘅話。

12 大家就睇到呢啲文件，作為一個背景，我想問下你幾個問題。首先，當我提  
13 及呢一個乘客嘅行為嘅時候，即係琴日我都同局方就講呢個乘客嘅行為，當時佢  
14 哋就話部門獲得指示，就係要草擬一啲呢方面嘅公眾教育嘅計劃。我想問下，你  
15 哋做呢個公眾教育，究竟而家程度--嗰個進展係如何呢？

16 陳美寶女士：（經傳譯員）講到係乘客嘅行為，即係佢哋點樣對嗰啲車長，其實我哋  
17 喺 3 月分交諮會開會嘅時候，我哋當時就係提交咗我哋有啲咩嘢跟進嘅行動，即  
18 係跟進番大埔公路交通意外有咩嘢行動。交諮會當時喺 3 月開會，當時我哋就作  
19 一個報告，就係話部門，即係政府就係知悉車長嘅關注，即係話曾經發生過一啲  
20 事件就係乘客襲擊車長，或者就係對佢哋有暴力咁樣嘅。其實就係道路安全議會  
21 亦都有跟進嘅，而當時--其實呢個議會亦都有運輸署同埋警方嘅代表作為成  
22 員，以作為一個係持續嘅宣傳同埋教育嘅工作，我哋係有電台嘅宣傳片，亦都有  
23 電視嘅宣傳片，亦都喺警訊嗰度話畀大家聽究竟就係如果你搭巴士嘅時候，作為  
24 一個乘客，你點樣做先係屬於一個適當嘅行為。而交諮會開會嘅時候，當時我哋  
25 就係--佢哋就係叫我哋睇一睇有冇一啲裝置係好啲嘅，同埋就係有冇一個好嘅  
26 教育同埋宣傳嘅工作。喺交通安全運動委員會第七十七次嘅會議，呢一個委員會  
27 就係交通安全議會底下嗰個工作小組，佢哋喺 4 月 13 號嘅時候開咗會，佢哋就  
28 係話乘客嘅態度應該就係道路安全運動喺 2019(sic) 年嘅主題之一。第一個推  
29 廣活動就係製造一啲公共宣傳，就係推廣乘客喺公交上嘅操守，同埋係今年第三  
30 季就會推出。

31 喺運輸署方面，我哋亦都有同其他公共交通嘅營運商或者行業溝通，例如係  
32 的士業，呢個亦都係的士司機提出嘅關注，正在製備一啲嘅守則同埋指引去推行  
33 優質的士服務，改善現行嘅制度底下一萬八千架的士嘅服務質素。除咗司機嗰方  
34 面，我哋亦都有一個章節係關於乘客嘅責任同埋態度。我亦都有同港鐵公司提出  
35 喺我哋每年嘅運作檢討委員會提出，我哋係打算推行大型嘅公眾教育推廣活動，  
36 係牽涉不同嘅公交營運商，唔單只係巴士公司，亦都有港鐵、的士之類。我哋考  
37 慮緊計劃細節，希望可以呢一個有關嘅推廣活動喺 2018 年底推出。唔該晒，大  
38 律師。

1 MR DUNCAN：（經傳譯員）教育計劃其實即係講緊話有一系列嘅措施，係咪呀？

2 陳美寶女士：（經傳譯員）教育計劃嘅意思就係我哋覺得教育係好重要嘅一個元素，  
3 可以帶出一個主要信息，乘客乘搭工具交通工具嘅時候需要留意乜嘢。其中一個  
4 訊息，我哋一直都係同營運商同我哋自己之間都有討論，就係話司機同乘客之間  
5 都有個共同嘅責任去確保旅途係安全舒適嘅，由出發地至到目的地都係。

6 MR DUNCAN：（經傳譯員）九巴已經表示，佢哋已經安裝同埋會繼續安裝一啲嘅監  
7 視鏡頭喺佢哋嘅巴士上面。呢個係咪運輸署要求嚟㗎？係咪運輸署對九巴嘅要  
8 求？

9 陳美寶女士：（經傳譯員）唔係。

10 MR DUNCAN：（經傳譯員）你有冇同其他巴士公司商討過安裝監視鏡頭？

11 陳美寶女士：（經傳譯員）我個人嚟講，就知悉九巴嘅措施，譬如話安裝啲監視鏡  
12 頭，佢哋喺日常嘅討論入面有同我哋講過，喺董事局嘅層面都有提過。呢一點喺  
13 董事局，即係其他嘅巴士營運商嘅董事局會議就有提出嘅，據我所知，但係我哋  
14 都知道佢哋考慮用唔同嘅措施協助巴士司機處理呢個問題。如果出現一啲情況，  
15 乘客對司機有啲侵犯嘅行為嘅話，喺車上有啲爭議嘅話，車上有冇一啲裝置可以  
16 收集證據呢？另外一方面，運輸署直至現在係冇要求安裝鏡頭嘅，我哋明白喺某  
17 啲方面會有啲關注，譬如話司機對於呢啲鏡頭會有乜嘢嘅情緒反映，呢點而家喺  
18 巴士營運商之間都係討論緊嘅。

19 MR DUNCAN：（經傳譯員）即係話運輸署而家唔會係跟進呢件事，係交界巴士公司  
20 做？

21 陳美寶女士：（經傳譯員）正如我提到，運輸署同公會開會入面，都聽到有關嘅關  
22 注，將佢轉交咗畀巴士公司，亦都請巴士公司尋找一啲方法去處理一啲咁樣嘅事  
23 件，即係牽涉巴士司機嘅，就睇下有冇乜嘢嘅設施，有咩嘢措施可以解決，但係  
24 亦都要考慮到職員嘅士氣同埋佢嘅情緒。

25 MR DUNCAN：（經傳譯員）咁即係個答案係喇，你係交界巴士公司自己決定。

26 陳美寶女士：（經傳譯員）我唔會咁講嘅，因為我哋要考慮埋乘客對司機嘅態度亦都  
27 係好重要嘅問題。多年來，我哋致力透過教育同埋推廣嘅活動，發放呢個訊息，  
28 我哋亦都知道公會同公司同運輸署都有反映佢哋嘅關注，呢件事我哋亦都有將關  
29 注轉交界巴士公司，我哋明白巴士公司係會處理呢一項嘅關注，我亦都歡迎巴士  
30 公司制訂一啲措施係處理呢個問題。再回答番個問題，我哋唔係完全話交界巴士  
31 公司處理就算嘅，因為我哋都知道有啲特定嘅儀器，譬如係監視鏡頭，可能本身  
32 都有某啲影響嘅，我哋係要求巴士公司小心去研究呢一方面。

33 主席：（經傳譯員）我可唔可以請你再解釋，你話監視鏡頭會有啲咩嘢影響，可唔可  
34 以解釋下？

1 陳美寶女士：（經傳譯員）據我哋理解，同埋同九巴董事局開會，舉個例子，車長有  
2 啲關注嘅，安裝咗監視鏡頭嘅話，喺佢哋司機位前方安裝嘅話，係會侵犯佢哋個  
3 人私隱，我哋亦都有收到一啲投訴嘅，呢方面，唔該。

4 主席：（經傳譯員）即係車長透過公會投訴？

5 陳美寶女士：公會，係。

6 主席：（經傳譯員）有冇文件，呢啲投訴，有冇任何資料？

7 陳美寶女士：（經傳譯員）我哋可能搵唔到，我哋會盡量去搵下。

8 主席：（經傳譯員）即係一方面有啲車長喇，起碼，就係關注可能侵犯個人私穩，另  
9 一方面，車長亦都擔心可能係被襲嘅。

10 MR DUNCAN：（經傳譯員）保護罩，呢一方面有冇考慮？係咪運輸署考慮嘅，覺得  
11 係合適嘅措施呢？

12 陳美寶女士：（經傳譯員）呢個亦都係巴士公司主動提出嘅，喺呢個情況，即係九巴  
13 提出嘅。

14 MR DUNCAN：（經傳譯員）我個問題係運輸署覺得值唔值得研究加裝保護罩呢？係  
15 咪由巴士--係咪運輸署研究之後，可以向其他巴士公司都提出呢啲要求呢？

16 陳美寶女士：（經傳譯員）呢個係九巴提出嘅措施，佢哋係回應番車長對於管理方面  
17 嘅一啲建議同埋關注，我哋都明白嘅。

18 主席：（經傳譯員）個問題係你有冇同其他嘅巴士公司提議，或者營運商提議，佢哋  
19 都考慮呢個措施呢？

20 陳美寶女士：（經傳譯員）我哋有對其他嘅巴士公司提呢個建議畀佢哋考慮。

21 MR DUNCAN：（經傳譯員）即係都係由佢哋自己決定繼唔繼續去實施呢個措施，係  
22 佢哋考慮嘅，呢個現階段係。

23 主席：（經傳譯員）鄧大律師，有冇任何相片可以睇下你所謂嘅保護罩係點樣嘅呢？

24 MR DUNCAN：（經傳譯員）我會盡量搵下。琴日我同局方嘅黎先生就問咗呢個問  
25 題，到底有冇邊一間巴士公司有自己成立附例去規管，譬如話車長或者乘客嘅行  
26 為？黎先生就話呢一方面，附例方面佢唔係十分清楚個情況係點樣，你答唔答到  
27 呢？有冇任何嘅巴士公司係根據條例底下制訂附例呢？

28 陳美寶女士：（經傳譯員）呢一方面我哋有檢查過嘅，係現階段，巴士公司係有喺呢  
29 一個階段就制訂任何嘅附例，我哋同事就記得似乎起碼過去十年，巴士營運商都  
30 冇提過呢一點。

31 MR DUNCAN：（經傳譯員）巴士營運商冇提過，但係你作為運輸署，有冇考慮過巴  
32 士公司訂立附例，可能係可以幫助到解決近來都頗為猖獗嘅問題呢？因為警方顯

1 然都覺得提出檢控係有困難。

2 陳美寶女士：（經傳譯員）根據《公共巴士服務規例》同埋係道路交通嘅規例，咁已  
3 經提到有關係乘客嘅操守，喺公共巴士上面嘅一般操守，係唔可以阻礙司機嘅，  
4 呢個已經係一個立法嘅基礎，規管呢一方面嘅事情。

5 MR DUNCAN：（經傳譯員）你或者唔係好明白，呢個意見可能就係話唔係警方嘅首  
6 要任務，但係巴士公司就可能會好關注。

7 陳美寶女士：（經傳譯員）我唔可以代表警方回答呢個問題。

8 MR DUNCAN：（經傳譯員）據運輸署所知，有冇提供訓練畀司機呢？對於一啲不守  
9 禮嘅乘客點樣處理。

10 陳美寶女士：（經傳譯員）據我知，巴士公司喺課程入面有一啲部分係關於點樣處理  
11 乘客嘅，係，呢個佢哋培訓嘅部分嚟嘅，對於現行嘅車長同埋新入職嘅車長都有  
12 嘅。

13 MR DUNCAN：（經傳譯員）公會已經投訴過，運輸署有冇考慮過呢個培訓課程入面  
14 嘅部分，睇下有咩嘢措施可以提供培訓呢？

15 陳美寶女士：（經傳譯員）我提到，就係喺有啲處理壓力嘅培訓內容，就係喺個遠  
16 期計劃入面提到培訓部分都有嘅。我哋本身亦都係計劃將培訓嘅框架，大家睇  
17 齊，令到畀新入職同埋現職嘅車長都有同一個培訓嘅模組，而家亦都有呢啲培訓  
18 課程提供，喺某啲情況，車長如果覺得受侵犯嘅話，點樣處理呢啲乘客。

19 MR DUNCAN：（經傳譯員）你知唔知道對於巴士車長嚟講，如果發生一件事係涉及  
20 乘客行為嘅話，一般個準則應該點處理呢？

21 陳美寶女士：（經傳譯員）據我所知，九巴係有訂立一啲基本嘅規矩畀車長遵守同埋  
22 係處理喺呢啲情況。

23 MR DUNCAN：Have you examined those?

24 主席：（經傳譯員）等一等，大律師。趁我仲記得，你就話你打算將培訓嘅架構係將  
25 佢體齊，係咩嘢意思？

26 陳美寶女士：（經傳譯員）有一個工作小組 3 月成立，係增強呢一個巴士安全嘅。佢  
27 哋嘅工作範圍亦都包括增強培訓，呢個係其中一個佢哋研究嘅題目。正如喺我哋  
28 文件亦都有提到，文件 11 號，即係話關於巴士車長嘅培訓同埋健康狀況，我哋  
29 已經匯報咗，我哋就打算訂立指引係關於培訓嘅架構，將培訓嘅內容同埋組成嘅  
30 部分都係一致嘅。

31 主席：（經傳譯員）你花啲時間去搵番文件嘅邊部分喇。

32 陳美寶女士：（經傳譯員）畀啲時間我。係第 131 頁嘅螢幕上都有顯示。

1 主席：（經傳譯員）第 15 段？

2 陳美寶女士：Yes.

3 主席：（經傳譯員）唔該。

4 陳美寶女士：（經傳譯員）培訓車長處理有關情況，即係牽涉乘客係十分重要，需要  
5 處理呢個問題。現時有好多巴士公司已經提供有關嘅培訓嘅課程，但係我哋覺得  
6 呢啲嘅課程係需要有一致性，去確保啲畀新入職同埋現職車長嘅培訓入面有呢個  
7 內容，我哋想制定指引，睇下呢一個有關嘅模組培訓課程嘅比重，去確保有合適  
8 嘅培訓提供畀車長，令到佢哋有相關嘅技能，心理上亦都可以處理到呢啲有壓力  
9 嘅情況。

10 主席：（經傳譯員）當你講話要睇齊同埋將佢常規化，你意思係咪話發出啲指引，好  
11 讓就係所有嘅巴士公司啲呢方面都係一致呢？

12 陳美寶女士：（經傳譯員）係，我哋打算發出指引。呢個指引就要求所有巴士營運  
13 商，就係將呢一類嘅培訓係加入去佢哋嘅培訓框架嗰度，而且我哋亦都打算係將  
14 基本嘅要求，譬如嗰個係時間，佢個比重等等，就係列出嚟嘅，制作成為一個框  
15 架，就係讓巴士公司去遵從。換句話講，就係有一個框架，亦都係讓各家巴士公  
16 司就係進行監察。希望有咁樣嘅做法，就可以將各家巴士公司佢嘅做法係一致。

17 當然可能啲細節上面，佢個係期間等等可能係有所不同，但係有啲基本嘅  
18 個時間同埋不同單元個比重，亦都應該係差唔多。

19 主席：（經傳譯員）你所謂嘅「比重」係咩嘢意思？

20 陳美寶女士：（經傳譯員）相對嘅比重，即係譬如話處理乘客呢一個單元，相對其他  
21 嘅單元，譬如話關乎呢個駕駛技術、路線嘅訓練咁樣。

22 主席：（經傳譯員）好。呢一個工作小組，我知道你哋預期佢哋係喺 6 月尾就係完成  
23 工作。

24 陳美寶女士：（經傳譯員）係，主席，你啱㗎。

25 主席：（經傳譯員）係咪預計到時就可以發出啲指引？

26 陳美寶女士：（經傳譯員）我哋好努力㗎㗎，我哋儘早希望制定到啲指引。而家喺  
27 工作小組個承諾，就話希望喺 6 月尾嘅時候寫好個報告。我哋就會睇下個指  
28 引嘅草擬本係咪可以喺報告嗰度係包括埋，但係嗰個詳細嘅指引可能都需要一啲  
29 時間添。

30 唔該你，主席。

31 主席：（經傳譯員）係，唔該晒。係，鄧大律師。

32 MR DUNCAN：（經傳譯員）其實呢段文字，其實都有處理到我同你提個問題，有

1 具體咁樣樣去回應到嗰個乘客嘅行為，即係啲乘客點樣對嗰個車長呢一個問題。

2 陳美寶女士：（經傳譯員）係，呢份文件冇具體特定咁樣係回應呢一點，但係啲工作  
3 小組兩次開會嘅時候係有講過呢一個單元。我哋亦都係取得巴士營運商嘅同意，  
4 就係大家同意就係有一個一致嘅框架，而裏面就係有所需嘅單元。

5 MR DUNCAN：（經傳譯員）我想即係結束呢一方面嘅討論。我想問下就係我哋都見  
6 到，工會同埋其他人都有提出過投訴，我就知道運輸署、警方同埋工會都開過會  
7 嘅。我想問下部門本身有冇構思係點樣樣去解決呢個問題，就唔係話將佢留番畀  
8 巴士公司自行去解決？

9 陳美寶女士：（經傳譯員）署方認為呢一個係一個好重要嘅課題係需要處理，你哋亦  
10 都可以見到，我哋運輸署係喺各方面作出努力。我哋相信係讓車長有所需嘅技  
11 巧，同埋讓佢哋心理上係作好一個準備，可以處理呢啲情況。另外仲有教育同埋  
12 宣傳嘅工作係話畀大家聽，就最重要就係要知道自己乘客有啲咩嘢責任，都係一  
13 個雙管齊下嘅方法嚟嘅。

14 MR DUNCAN：（經傳譯員）你有冇啲係比較具體嘅措施，即係除咗你剛才所講比較  
15 係一個廣泛嘅手法？

16 陳美寶女士：（經傳譯員）我相信我剛才講嘅已經係好具體。

17 MR DUNCAN：（經傳譯員）我就想睇番你嗰個補充嘅資料，TD-1 嘅 163 頁。就有  
18 一點係想你澄清一下，163。

19 委員會係曾經問過你一個問題，就係咁樣問嘅，運輸署就係睇過啲抽樣調  
20 查嘅結果，就去確保專營巴士營運商就係有監察佢哋司機嘅駕駛行為，同埋就  
21 會採取跟進行動。如果有啲司機就係駕駛態度或者行為不良，請你講一講，你係  
22 用啲乜嘢嘅程序嚟到進行呢一個檢討或者檢視嘅工作？如果係書面嘅話，請交出  
23 嚟。

24 你呢度就係話，突擊檢查或者抽樣調查嘅結果係需要呈交，呢個就係 04 號  
25 文件嘅附件十一個度睇到，就係指係 18 年嘅 1 月先開始推行。運輸署就係檢討  
26 營運商所提交嘅每月嘅報告，去確保佢哋有監察住呢個司機嘅駕駛行為。我想問  
27 呢一方面，究竟你有做過啲咩嘢，即係關乎呢個抽樣嘅調查？

28 陳美寶女士：（經傳譯員）呢個要求佢哋係設置呢個黑盒，同埋係要有係公司自己嘅  
29 便衣嘅職員上車嗰度，嚟到監察車長嘅行為。其實過去多年，就係進行咗，不過  
30 我唔記得係具體邊一年嘅，或者我嘅同事都可以查核一下，然後再補充。

31 為咗係讓巴士公司係有能力係知道得更多，同埋更好咁樣樣去監察車長嘅駕  
32 駛行為，我哋就話呢一個黑盒，同埋就係車上嘅便衣嘅督察都可以協助公司分  
33 析，同埋監察行為，同埋亦都可以建議一啲改進嘅措施。呢個要求係運輸署訂  
34 定。

1 我哋預期--或者我哋期望巴士公司就根據呢度觀察所得，而呢樣嘢亦都係不  
2 斷咁去做，希望佢哋喺呢個基礎之上，就係訂定一啲適當嘅措施。

3 18 年 1 月之後，運輸署就係採取主動，就要求係做好呢個監察嘅工作，嚟  
4 到確保巴士公司係真係有做分析，亦都有做監察，亦都係定期咁樣做。我哋採取  
5 主動去做，唔係因應有乜嘢意外，而係話我哋覺得咁樣樣可以讓我哋得到一啲資  
6 料作為一個基礎，去諗下究竟係咪可以巴士公司又或者係運輸署嗰方面都可以加  
7 強嗰個監察，嚟到確保我哋--如果要考慮一啲適當嘅措施嘅話，都係一個知情  
8 嘅情況之下去做嘅。

9 呢個就關乎係駕駛嘅行為，過去多年，我哋都喺度分析嗰啲意外嘅數據，而  
10 好多時係意外裏面，無論係嚴重或者有咁嚴重嘅意外裏面，司機嘅行為都係一個  
11 重要嘅因素，所以我哋認為係有需要加強嗰個定期嘅監察。

12 MR DUNCAN：（經傳譯員）其實我嘅問題就只係問你所講嘅係隨機抽查係點樣樣嘅  
13 呢？

14 陳美寶女士：（經傳譯員）據我嘅理解同埋我所記得，巴士公司係要應我哋嘅要求係  
15 就黑盒嘅數據進行呢個隨機抽樣調查，同埋亦都喺車上進行隨機嘅抽查。

16 MR DUNCAN：（經傳譯員）好，講番車上嘅抽查。呢一個係咪運輸署嘅要求定點  
17 呢？

18 陳美寶女士：（經傳譯員）其實運輸署要求。

19 MR DUNCAN：（經傳譯員）係咪書面要求？

20 陳美寶女士：（經傳譯員）我可以查下，然後再補充。

21 MR DUNCAN：（經傳譯員）我好想知道你呢個隨機嘅抽查究竟嗰個詳情係點，同埋  
22 巴士公司係咪佢哋自己去進行，係咪係針對呢個司機嘅行為？

23 陳美寶女士：（經傳譯員）我有有關嘅紀錄喺手邊，不過我哋可以返去查下，同埋睇  
24 下有冇咩嘢係已經寫低咗落嚟。

25 MR DUNCAN：（經傳譯員）我就係想問會唔會隨機抽樣抽查一下乘客嘅行為？

26 陳美寶女士：（經傳譯員）呢個隨機抽查就係焦點在於車長嘅行為。

27 MR DUNCAN：（經傳譯員）好，我去另一個題目。

28 主席：（經傳譯員）不過你未去第二個題目之前，其實我哋係請運輸署形容一下，你  
29 哋點樣樣去檢視嗰啲隨機抽查嘅報告，或者嗰啲紀錄。究竟你哋點樣去即係睇番  
30 檢討番、檢視番佢哋交上嚟嘅報告？

31 陳美寶女士：（經傳譯員）讓我係搵一搵番有關嗰個遵從嘅報告表格，然後話畀你  
32 聽。

1 主席：（經傳譯員）好，慢慢嚟。

2 陳美寶女士：（經傳譯員）請大家睇一個 04 號文件嘅附件十一，喺運輸署嘅文件夾  
3 嗰度，或者律師嘅團隊可以話畀大家聽嗰個頁碼。

4 主席：（經傳譯員）鄧大律師，可唔可以話畀我哋聽喺邊度搵到嗰個附件十一？

5 MR DUNCAN：（經傳譯員）1020 頁。

6 陳美寶女士：（經傳譯員）主席，呢個月報嚟，係指 18 年 1 月開始發出，係涉及四  
7 個方面。

8 主席：（經傳譯員）係。

9 陳美寶女士：（經傳譯員）(B) 部嗰度就係便裝嘅檢查，就去睇下車長嘅駕駛行為。  
10 我哋喺嗰個監察報告嗰度，就係講明係需要知道有幾多個係常規嘅便衣檢查，有  
11 幾多個係隨機做，同埋每個月係發現到有幾多宗不良嘅行為，同埋跟進嘅行動。  
12 有個咁嘅報告，就讓我哋係知道同埋監察到，究竟佢哋常規係做幾多呢個便衣嘅  
13 視察，同埋幾多係非常規。亦都知道係有幾多宗個案係涉及不當嘅行為同埋有咩  
14 嘢跟進行動。呢個係 18 年 1 月嘅報告，你亦都見到佢哋係有啲咩嘢跟進行為。

15 喺呢個報表嗰度，我哋會收到之後就睇，我哋就睇下究竟巴士公司係有冇定  
16 期咁樣樣去喬裝乘客咁樣去睇佢哋個情況，亦都睇下嗰個數字會唔會係波動得好  
17 緊要，亦都更重要嘅，就會睇下有冇一個趨勢，就係話車長嘅行為係不當。我哋  
18 自己會進行呢個分析，就會睇到各家巴士公司嗰個情況，我哋亦都用佢作為其中  
19 一個工具，等我哋就可以同巴士公司就跟進，就問下佢哋，睇下佢哋有冇採取適  
20 當嘅行動，嚟到去處理一個車長嘅不當行為。

21 主席：（經傳譯員）譬如講下黑盒，喺呢個表格度就有寫到「八千五百五十二次」喺  
22 月尾--截至月尾，就有八千五百五十二次嘅檢查黑盒？

23 陳美寶女士：Yes。

24 主席：（經傳譯員）然後超速就有二百七十一宗。

25 陳美寶女士：Yes。

26 主席：（經傳譯員）跟進行動就包括一百八十七次嘅口頭警告，七十八次書面警告，  
27 同埋六次嘅最後警告。

28 陳美寶女士：Yes。

29 主席：（經傳譯員）運輸署即係睇呢份文件，所謂檢視嘅情況，相信睇到呢個記項，  
30 你都係即係知道有咁樣嘅儀器，有咁嘅檢查，你嘅檢視工作就係咁？

31 陳美寶女士：（經傳譯員）呢個係以月報嘅形式提供嘅，提供資料畀我哋，一啲基本  
32 資料，睇下巴士公司係以乜嘢方式去檢查，譬如話係查嗰個黑盒嘅數據，又或者

1 係便裝去監察司機，呢個係等我哋喺每年評估巴士公司表現嘅時候嘅一個理據，  
2 再加埋我哋有個獨立嘅分析。我哋分析番巴士營運商嘅意外嘅數字，同埋有冇乜  
3 嘢嘅成因，譬如話係咪巴士車長個行為嘅問題，所有呢啲問題，我哋會再同番巴  
4 士公司跟進，睇下巴士公司要提出咩嘢改良嘅措施。

5 主席：（經傳譯員）唔該。

6 MR DUNCAN：（經傳譯員）陳女士，你可唔可以同我哋講下，有幾常見係檢控乘  
7 客？

8 陳美寶女士：（經傳譯員）關於佢哋喺巴士上嘅行為，過去五年，我有資料。

9 MR DUNCAN：（經傳譯員）運輸署冇保存呢啲資料？

10 陳美寶女士：（經傳譯員）我哋冇保存呢一啲資料，但係我唔肯定啲資料係冇提交  
11 畀道路安全議會。因為警方就係其中一個議會嘅成員，另外仲佢哋亦都係即係做  
12 主席，去主持呢一個嘅道路安全議會。

13 MR DUNCAN：（經傳譯員）喺啲規例底下呢？即係根據《公共巴士服務條例》底下  
14 制定嘅規例？根據呢個規例底下有幾常提出嘅檢控呢？

15 陳美寶女士：（經傳譯員）我哋現時亦都有資料。

16 MR DUNCAN：（經傳譯員）主席，我想打斷一下。嗰啲嘅保護罩，就係文件冊入  
17 面，就有呢個相片嘅。

18 主席：（經傳譯員）我聽唔清楚，唔好意思。

19 MR DUNCAN：（經傳譯員）關於巴士車長嗰個位置嘅保護罩，係文件冊入面係有  
20 相。

21 陳美寶女士：（經傳譯員）主席，或者我哋可以呢方面協助。我相信我有見過呢一張  
22 相嘅。或者我哋可以搵下喺我哋啲紀錄入面，提交畀委員會，我會盡力嘗試嘅。

23 主席：（經傳譯員）好吖，總之你搵到一張就交畀我哋，等我哋明白係咩嘢嚟嘅。因  
24 為話已經有安裝咗，同埋亦都會繼續安裝。

25 陳美寶女士：（經傳譯員）我哋其實搭巴士嗰陣時都可以見到有咁嘅保護罩，有啲已  
26 經安裝咗，就係個司機位旁邊。

27 MR DUNCAN：（經傳譯員）突擊檢查車輛，尋日同黎先生亦都有講呢個問題。其中  
28 一位委員亦都有問，有個數字，每日十四架，點解會有咁嘅數字呢，呢一方面你  
29 可唔可以協助我哋？

30 陳美寶女士：（經傳譯員）運輸署檢查十四部車係突擊檢查，就係《管制人員報告》  
31 入面提出嘅，係喺運輸署嗰個《管制人員報告》。制定指標或者承諾，我哋要考  
32 慮一個穩建嘅車輛檢查嘅制度，係屬於運輸署。每一架專營巴士都要每個月檢

1 查，除此之外，每年亦都有檢查。如果有一架巴士係當時每月冇做檢查嘅話--  
2 等我再重講一次，我哋會每月、每年就住每一架巴士都會檢查嘅。如果有啲情  
3 況，有架巴士唔係每月或者每年有檢查嘅話...

4 陳英傑先生：Not recently...

5 陳美寶女士：（經傳譯員）或者我請我同事補充。

6 主席：（經傳譯員）可以。我諗個問題其實話點解淨係得十四架，唔係二百四十架，  
7 譬如咁講？

8 陳美寶女士：（經傳譯員）簡單嚟講，突擊檢查就係喺每月同埋每年例行檢查之外嘅  
9 突擊检查工作嚟嘅。每月、每年就係一啲已經計劃咗嘅检查工作，突擊檢查就係  
10 令到個制度更加完善，因為係以突擊、隨機嘅性質嘅。

11 主席：（經傳譯員）係呀，點解十四架，而唔係其他數目？

12 陳美寶女士：（經傳譯員）每日十四架，即係等如每年三千四百架巴士，總數就係有  
13 五千九百架巴士係屬於唔同嘅專營巴士公司。呢個唔係一個特別有科學根據嘅數  
14 據嘅，每日十四架。但係我哋亦都考慮到有嘅資源，巴士車隊嘅數目，同埋運輸  
15 署喺每年或者每個月例行檢查嘅時候，喺驗車中心需要檢驗嘅車輛數目。

16 每月、每年嘅檢查同埋突擊檢查加埋嘅數據，就畀一個基礎畀我哋去考慮巴  
17 士嘅車輛嘅構造係咪安全嘅情況。同埋找出如果巴士嘅基件有咩嘢缺失嘅話係要  
18 能夠辨認到，同埋係更正番嘅。

19 主席：Mr Duncan.

20 MR DUNCAN：（經傳譯員）主席，我而家想講下另外一個範圍，關於運輸署同工會  
21 嘅聯繫。你嘅證供就顯然運輸署同埋巴士公司就有好多嘅來往嘅、連繫嘅，我想  
22 知道你哋接觸--即係不時會接觸工會嘅情況又係點？好多工會都有提交文件畀  
23 我哋聽證會嘅，你有冇機會睇，呢啲書面嘅意見書？

24 陳美寶女士：（經傳譯員）睇咗。

25 MR DUNCAN：（經傳譯員）我理解啱唔啱呢，行業工會不時係會接觸運輸署或者寫  
26 信畀運輸署，提出佢哋嘅關注畀運輸署知道？

27 陳美寶女士：（經傳譯員）我會話我哋不時會收到工會嘅信件去提及佢哋嘅關注嘅。

28 MR DUNCAN：（經傳譯員）運輸署係點樣處理，對方接觸你嘅時候？

29 陳美寶女士：（經傳譯員）或者我可以咁樣講，係一個持續嘅工作嚟嘅。如果工會提  
30 出某一項關注，譬如係員工福利，或者係巴士嘅車長工作情况嘅話，我哋會睇下  
31 佢哋提出要求嘅性質，睇下係咪同各自巴士公司嘅聘用僱員政策有關，再考慮同  
32 巴士公司就住個別個案進行商討嘅。

1 相對嚟講，更常見嘅就係有啲要求係關於工作時數同埋休息時間嘅。雖然條  
2 例並冇要求我哋指明一啲特別要求關於工作環境同埋工作時數，過去十至二十  
3 年，我哋已經制定咗指引係要求巴士公司遵守番更次時間、駕駛時間、休息時  
4 間，同埋用膳嘅時間。發展到現時，工會可能都係就住呢一個指引嘅範圍同我哋  
5 提出關注嘅。呢個工作時間指引一直係實施嘅，令到工會可以向我哋不時表達佢  
6 哋嘅意見，同埋建議。我哋亦都會考慮佢哋嘅關注嘅，即係一直都會咁做。

7 MR DUNCAN：（經傳譯員）今朝早啲嘅時候，我哋睇到有三次會議。你哋係同工會  
8 代表開會，我哋睇到個會議紀錄。2016 年 10 月、2017 年 3 月，同埋 2017 年  
9 嘅 7 月。係有咩嘢原因要開呢啲會？

10 陳美寶女士：（經傳譯員）或者我可以請阿關女士，助理署長去回答呢個問題嘅。

11 MR DUNCAN： Thank you.

12 關翠蘭女士： Thank you, Chairman.

13 主席：（經傳譯員）喺你開始回答之前，就要提醒大家。呢啲會議，你係同我哋講番  
14 巴士車長安全問題啲啲會議？

15 MR DUNCAN： That's right.

16 主席：（經傳譯員）即係你而家問一個比較概括性嘅問題，就係點解要開呢啲會，係  
17 咪？

18 MR DUNCAN： Yes.

19 主席： Thank you.

20 關翠蘭女士：（經傳譯員）主席，多年來我哋係不時同行業工會會面嘅，回應佢哋嘅  
21 訴求。佢哋會提出一啲切身關注嘅問題，譬如係話實施呢個工作時間嘅指引，工  
22 作環境，以及佢哋實際上遇到嘅困難嘅。譬如話喺街上可能對於佢哋巴士嘅運作  
23 有啲阻礙咁樣，都會同我哋提出嘅，譬如話有邊啲係交通擠塞黑點，等我哋可以  
24 同有關嘅部門去聯絡，解決問題。

25 MR DUNCAN：（經傳譯員）你有幾常見工會代表？係咪就好似我哋文件睇到啲啲嘅  
26 會議？

27 關翠蘭女士：（經傳譯員）就唔係話有固定嘅時間表嘅，通常當我哋有一啲事項要同  
28 佢哋提出嘅時候，就會同佢哋開一個會見面傾下。如果有啲事項，佢哋覺得係設  
29 身關注嘅，佢哋亦都會要求安排會議嘅。

30 MR DUNCAN：（經傳譯員）可唔可以解下畀委員會聽？譬如話一年開幾多次會，你  
31 會同工會？

32 關翠蘭女士：（經傳譯員）大概一年兩至三次。

1 MR DUNCAN：（經傳譯員）警方又或者其他嘅代表都會參與會議，呢個係咪亦都係  
2 好經常發生嘅嘢？

3 關翠蘭女士：（經傳譯員）呢個係視乎喺會議個議程入面將會討論咩嘢題目，譬如話  
4 如果有需要，我哋會邀請警方出席會議嘅。

5 MR DUNCAN：（經傳譯員）陳女士，我想請你睇番行業工會嘅書面意見書第 80 頁，  
6 呢一份係九龍巴士公司，即係九巴員工協會交界委員會嘅書面意見書，相信你都有  
7 有機會睇過呢份文件。

8 陳美寶女士：（經傳譯員）係嘅。

9 MR DUNCAN：（經傳譯員）請你睇番信件第 1 段，翻譯就係第 80-1 頁，第 (1) 項，  
10 你可唔可以自己睇一睇？

11 陳美寶女士：（經傳譯員）睇咗。

12 MR DUNCAN：（經傳譯員）你可以見到呢度語氣都幾重，即係工會提出佢哋嘅即係  
13 情緒，話畀我哋委員會聽。你嘅回應係點樣？

14 陳美寶女士：（經傳譯員）我睇嗰個英譯本，呢封信嘅英譯本，其實第 1 段佢就提及  
15 幾個問題，譬如話嗰個待遇低、流失率高，工作時間長等等，呢啲都係即係工會  
16 係向巴士公司同埋運輸署開會嘅時候，佢哋所提過嘅問題嘅。

17 講到流失率高，琴日我諗大家都有講過，大家就講及係人手短缺嘅嚴重--人  
18 手短缺嘅問題；講到係待遇太低，政府亦都有請巴士公司就係考慮係咪要處理呢  
19 個問題，嚟到係吸引更多嘅新血係入行；工作時間過長，呢個亦都係一個好耐嘅  
20 一個問題。其實我哋過去多年，就時不時咁樣去睇，我哋亦都有去修訂咗嗰個工  
21 作時間嘅指引。至於話編訂行車時間緊迫，呢個就係關乎巴士公司嘅事宜。其實  
22 公眾對於公共巴士服務嘅期望不斷提升，另外喺路上某啲地區交通十分擠迫，就  
23 令到編定行車時間係好緊迫。跟住又講管理層嘅手法，管治嘅手法，呢個更多係  
24 管理階層同埋員工之間嘅關係，係指某一啲巴士公司。

25 所以係有人手問題、待遇問題、工作時間問題，即係車長嘅工作時間問題，  
26 政府係知悉。所以我哋係採取不同嘅措施，亦都係同巴士公司傾，我哋有嗰個工  
27 作時間指引，正正就係我哋其中一個方法，希望係再縮短佢哋嘅工作時間，嚟到  
28 改善佢哋工作環境。薪酬待遇，我哋係請巴士公司用各種嘅方法嚟到吸引新人入  
29 行，亦都希望佢哋係改善現職車長嘅待遇。

30 MR DUNCAN：（經傳譯員）運輸署同呢一啲工會嘅關係，你係會點形容？就係健  
31 康，定抑或好緊張？

32 陳美寶女士：（經傳譯員）運輸署係監管專營巴士公司嘅監管當局，車長係一個重要  
33 嘅資產，亦都係一個重要嘅一環，如果唔係，就無法做呢個營運。當然我哋運輸  
34 署唔係勞工處，但係我哋亦都係一直係同車長--即係工會保持一個關係，一個

1 持續不斷嘅關係。呢個關係一直都喺度，我哋亦都隨時係預備好同佢哋會面，一  
2 係佢哋要求，又或者我哋自己採取主動係要求開會。

3 MR DUNCAN：（經傳譯員）我其實唔係問呢個關係係咪一直都係喺度定抑或點樣，  
4 我哋係問即係個關係是否良好？

5 陳美寶女士：（經傳譯員）我諗好難去一概而論，然後去回答你個問題，或者係簡單  
6 去回答你個問題，我好難咁樣去講。我只能夠話我哋嘅對話係持續不斷，而且  
7 我哋嘅關係都係融洽，我哋大家傾一啲大家都關注嘅問題，我哋亦都考慮佢哋嘅  
8 意見，同埋佢哋嘅關注，再加埋其他嘅睇法，然後先至草擬個個工作時間嘅指  
9 引。講到話佢哋嘅車廠、喺巴士站嘅休息嘅設施，我哋亦都有同巴士公司講，就  
10 希望可以照顧到車長日常嘅需要。

11 MR DUNCAN：（經傳譯員）你哋同巴士公司個關係又點呢？

12 陳美寶女士：（經傳譯員）好難去比較，我哋就係巴士營運商嘅監管當局，我哋好認  
13 真嚴肅咁樣樣去監察佢哋嘅表現。講到職工會，我哋認為職工係喺呢一個程序裏  
14 面，佢哋係重要嘅資產。如果有嘅話，就無法有呢個有效率嘅服務。所以員工就  
15 係佢哋一個重要嘅一環，所以我哋都認為佢哋係一個重要嘅持分者，因而我哋係  
16 持續同佢哋保持一個對話。

17 MR DUNCAN：（經傳譯員）我哋就快會有一個小休，我想請你睇一睇呢一度個標  
18 題，呢份意見書嘅呢段文字個標題。我諗呢個就係佢哋嘅感受，我較早時候亦  
19 都提過佢哋嘅感受。佢哋有咁嘅感受，你覺唔覺得出奇？

20 陳美寶女士：（經傳譯員）我唔會講。

21 主席：（經傳譯員）要為求記錄起見，請你將佢讀出，亦都方便傳譯。

22 MR DUNCAN：（經傳譯員）呢度標題就話「政府運輸署官員嚴重失職，監管失  
23 效」，即係工會佢哋有咁嘅睇法，即係咁樣寫上嚟委員會，你覺唔覺得係出奇？

24 陳美寶女士：（經傳譯員）我唔會作一個回應，不過我哋覺得係喺監管呢個巴士公司  
25 方面，我哋已經盡責。我哋亦都有考慮職工會嘅意見，然後先至制定同車長有關  
26 嘅一啲政策。我哋亦都係同佢哋保持呢個溝通嘅渠道，我哋亦都時常就係願意會  
27 見佢哋，而佢哋表達咗意見嘅時候，我哋亦都認真考慮，然後先至制定我哋各  
28 項嘅措施。

29 MR DUNCAN：（經傳譯員）好，唔該晒。我諗小休之後，我諗我哋同你再講一講係  
30 一啲比較具體嘅事件，而係職工會就係已經提咗出嚟嘅，唔係全部要你逐個去  
31 答，我就會抽其中一部分，就睇下運輸署有冇回應同埋如何去解決呢啲問題，我  
32 哋小休之後會處理。

33 陳美寶女士：Thank you.

34 主席：（經傳譯員）係，我哋會小休十五分鐘，唔該。

1

2 上午 11 時 38 分聆訊押後

3

4 上午 11 時 58 分恢復聆訊

5 出席人士如前。

6

7 主席：（經傳譯員）鄧樂勤大律師。

8 MR DUNCAN：（經傳譯員）唔該，主席。陳女士，喺我哋講番公會向委員會提出嘅  
9 一啲關注之前，我仲有幾點想問下你嘅。第一，就係你今朝早作供嗰時提到工作  
10 時間等等個指引，我而家想講番你今朝早嘅口述證供係咁嘅。唔該晒，而家要  
11 呢個科技做到先，就係更加常見嘅係相對嚟講，頭先就講到話公會有啲嘅要求就  
12 係關於車長嘅工作時間、休息時間嘅，因為雖然條例係冇寫明要我哋指定車長嘅  
13 工作時間同埋工作環境，我哋亦都有制訂指引係要求巴士公司追求--跟從呢一  
14 個車長嘅工作時間、休息、用膳時間等等嘅，雖然你話即係條例就有要求要處理  
15 呢啲事項，但係你都知悉有規例--喺條例底下有規例係指明呢啲事項係需要規  
16 管嘅，你係知道，係嘛？

17 主席：（經傳譯員）係，你可唔可以話畀我哋聽喺邊度搵到？

18 MR DUNCAN：（經傳譯員）當然喇，局方嘅文件 125 頁，局方嘅文件嘅 125 頁，係  
19 124、125 頁，係局方嘅第二份嘅文件。

20 主席：（經傳譯員）我哋睇嘅又睇邊度呢？

21 MR DUNCAN：（經傳譯員）我哋睇番呢一個條例嘅第 35 條，嗰度就講及由運輸及房  
22 屋局局長訂立規例，咁第 35 條嗰度就講就係話係局長就可以就以下所有或任何  
23 事宜訂立規例嘅。我想請你睇番跟住嗰版喇，就係 125 頁喇，就去到 J 嗰行  
24 嘅，嗰個就係「就駕駛某專營公司所使用嘅巴士嘅司機而言，規管在本規例所指  
25 明嘅任何期間(i)該司機可准許駕駛該類巴士的最多時數；及(ii)該專營公司給  
26 予該等司機休息同埋用茶點的相隔時間」，你可唔可以話畀我哋聽有冇咩嘢特別  
27 嘅原因，點解佢哋嘅工作時間係只係由指引規管，而唔係由規例嚟到去規管呢？

28 陳美寶女士：（經傳譯員）事實上，運輸署喺呢個指引嘅制訂其實係畀專營公司係自  
29 願咁樣遵從㗎，係喺 93 年嘅時候係做㗎，咁 98 年嘅時候先至正式係有呢啲指  
30 引嘅，自此之後，我哋有檢討過嗰個指引喇，亦都係修訂咗六次嘅，自從呢個  
31 98 年以嚟，但講到話指引嘅係落實同埋係檢討喇，呢個係一個不斷進行嘅一個  
32 程序喇。咁講到話係制訂嘅指引同埋修訂個指引，我哋都係透過係同巴士營運商  
33 商討喇，亦都係透過我哋同職工會係開會商量喇，咁我哋就會係考慮晒所有持份  
34 者嘅意見嘅。

1 喺實施呢啲指引嘅時候，我哋需要專營巴士公司係做個監察工作，亦都提  
2 供個數據畀我哋嘅，運輸署本身亦都有聘請係獨立嘅承辦商幫我哋做一個獨立  
3 嘅調查，去查下睇下佢哋有冇遵從嘅。過去多年，我哋可以見到巴士公司遵從呢  
4 個指引個比率都相當高㗎，我哋有睇到佢哋係大幅咁樣偏離咗呢一個指引。所  
5 以從呢個營運嘅角度嚟到睇，我哋認為目前個安排，即係話工作時間以及係駕  
6 駛時間，以及係休息同埋用膳時間，係用指引嘅形式嚟到定出係恆之有效㗎。咁  
7 如果係見到係持續不斷巴士公司係唔遵從嘅話，我哋就會採取跟進行動，包括就  
8 係發出呢一個警告信或者勸喻信，嚟到確保佢不遵從嘅情況可以儘早得以糾正，  
9 唔該。

10 MR DUNCAN：（經傳譯員）係咪咁講呢，就係部門根本冇諗過係要透過規例嚟到做  
11 呢？

12 陳美寶女士：（經傳譯員）根據現有嘅框架，呢啲指引係一個有效嘅工具，讓我哋可  
13 以監察巴士公司嘅表現，監察巴士公司點樣樣去調派車長去工作喇，呢啲指引講  
14 出咗係工作、休息同埋用膳時間有咩嘢要求，呢個係關乎車長嘅情況㗎。我哋亦  
15 都有同巴士公司講，亦都係同佢講，一定要畀足夠嘅休息設施係畀啲車長㗎，呢  
16 個係不斷咁喺度一直做緊嘅工作。落實嘅時候、施行嘅時候亦都係要實際嘅。我  
17 哋繼續指引而家係有效㗎，係我——當然，我哋亦都會睇埋呢樣嘢嚟到去評估專  
18 營公司係咪真係提供到個適當、有效率嘅服務。

19 MR DUNCAN：（經傳譯員）我咁講㗎唔㗎呢，是不是職工會都有投訴，就話巴士公  
20 司其實冇遵從到個指引㗎，呢個都係職工會同埋職員同埋係職員方面——員工  
21 方面不時都有係投訴呢一點㗎，係嘛？

22 陳美寶女士：（經傳譯員）我哋知道喺某啲時候曾經有個別嘅投訴，不過我哋自己本  
23 身亦都係有獨立嘅調查，睇下巴士公司係咪真係有遵從我哋嘅指引㗎，我哋好盡  
24 力咁樣樣去用呢一個獨立嘅查核機制，我哋亦都預期或者期望巴士公司係會確保  
25 我哋呢啲要求佢哋係會遵從㗎。喺目前嚟講，喺個合理程度上，我哋都覺得係滿  
26 意嘅，我哋都覺得巴士公司就係認真咁樣去對待呢啲指引喇，亦都有係遵從有關  
27 嘅指引㗎。有遵從呢啲指引嚟到——喺佢哋個調配工作個方面有遵從指引嘅。

28 MR DUNCAN：（經傳譯員）如果係做咗規例嘅話，你哋部門更有牙力去係執法，就  
29 唔係單單係靠指引喇，係咪？同唔同意？

30 陳美寶女士：（經傳譯員）根據我哋一直以嚟嘅經驗，我哋都覺得滿意嘅就係呢啲指  
31 引佢哋係有遵從，而且亦都一個制衡嘅機制嚟到確保我哋自己亦都有一個獨立嘅  
32 查核，如果某一個時候、某一次係有不遵從，我哋就會同巴士公司係跟進，問下  
33 佢點解有不遵從嘅個案，咁亦都會係採取適當嘅行動跟進。到而家嚟講，呢一個  
34 機制都係恆之有效㗎。

35 MR DUNCAN：（經傳譯員）唔係，個問題就係話規例就會讓你哋係更有力——更有牙  
36 力，就唔係淨係指引，問你同唔同意，唔係問你個指引係咪恆之有效，而係話如  
37 果用咗規例，就係讓運輸署就係有——更有牙力去執行呢一個要求喇，同唔同

1 意？

2 陳美寶女士：（經傳譯員）我諗呢一點係要整體咁去睇，亦都睇番嗰個法律框架，目  
3 前我哋運輸署嘅監察--我哋監察呢啲巴士公司，其實係沿自嗰個道路交通同埋  
4 公共巴士服務呢兩條條例底下畀我哋嘅法定權力，所以以整體嚟到去睇，呢一個  
5 就係我哋運輸署係點樣樣去履行我哋嘅職責，去扮演我哋嘅監察嘅角色，喺呢個  
6 階段，我唔會評論究竟某一個要求係咪應該躉嚟規例更好，讓我哋更有牙力，因  
7 為我哋監察巴士公司嘅表現，我哋都係要睇番整個框架去做嘅，裏面有法定嘅要  
8 求喇、有專營權嘅條文喇同埋亦都有其他嘅指引喇同埋係通告㗎，都係我哋發出  
9 㗎。

10 MR DUNCAN：（經傳譯員）立法會就覺得應該係畀呢個權力你哋，咁但係你覺得有  
11 需要運用呢個權力，因為你認為呢一個非正式嘅機制你覺得係恆之有效，係咪咁  
12 講？

13 陳美寶女士：（經傳譯員）我剛才講過，目前嗰個框架我哋就係用呢個框架嚟到去係  
14 執行呢個指引喇，咁同埋係請佢哋糾正喇，如果有問題，我就認為而家係恆之有  
15 效㗎。

16 MR DUNCAN：（經傳譯員）唔該。我哋未講職工會嘅關注之前，我就係想同你再跟  
17 進另一點，呢個就係你哋嘅補充文件嗰度㗎，咁就係 TD-163 頁，請你哋將佢打  
18 出嚟喇。我想請你睇番呢一版嘅第一個項目，就係第十七，嗰度委員會問嘅問題  
19 就係話，如果呢一個黑盒或者車速紀錄儀嘅所需嘅係功能或者能力就係以書面係  
20 話咗畀專營權公司聽，咁可唔可以畀啲副本我哋睇喇，咁同埋你有冇修訂過佢個  
21 個功能？即係話由你一開頭要求佢哋去加裝呢一啲設施到而家，中間有冇修訂過  
22 嗰個要求？呢個就係委員會問你哋個問題，咁或者我哋睇番你哋嗰個回應，你就  
23 話部分就發出咗一個咁嘅文件㗎，咁就係話基本最低要求呢個係電子紀錄儀，新  
24 巴士嘅電子紀錄儀器，亦即係黑盒嘅最低嘅基本要求，咁你就畀咗營運商喇，咁  
25 就係附錄咗呢個附件嗰度嘅，根據呢啲要求，咁驗車主任就會抽查佢哋嗰個功能  
26 㗎。

27 我哋知道就多年嚟就由於科技係有發展喇，咁而專營公司就已經主動咁樣樣  
28 去同呢個供應商去擴充嗰個黑盒保存嘅資料嘅範圍，嚟到讓佢哋就可以更好咁管  
29 理個車隊，包括就係車嗰個路線號碼、門鈴、開門、地點、係就係--地點等等  
30 嘅。我想請你睇呢個 TD-1597 頁。喺 1597 頁嗰度喇，咁你見到有封信嘅，咁  
31 呢個係運輸署發出去畀多間專營公司嘅一封信，呢封信係咪就係你所講嗰封信，  
32 就要求佢哋係要裝呢個黑盒呢？

33 陳美寶女士：（經傳譯員）係呀，呢個就最初係要求要有黑盒㗎，係。

34 MR DUNCAN：（經傳譯員）睇下你跟住嗰版。

35 主席：（經傳譯員）呢個就係 2003 年嘅 10 月 7(sic)號，係咪呀？

36 陳美寶女士：（經傳譯員）係。

1 MR DUNCAN：（經傳譯員）喺跟住嗰版就開列咗係呢一個電子數據紀錄裝置嘅基本  
2 最低要求，係嘛？

3 陳美寶女士：（經傳譯員）對唔住，你再問一次。

4 MR DUNCAN：（經傳譯員）係，喺跟住嗰版你就見到係列咗嗰個基本嘅最低要求出  
5 嚟，係嘛？

6 陳美寶女士：（經傳譯員）係。

7 MR DUNCAN：（經傳譯員）自 2003 年開始，科技一直發展喇，黑盒而家可以提供  
8 好多嘅資料㗎喇，2003 年當時可能未發展到提供到，你都知道嘅，咁運輸署有  
9 冇再發出進一步嘅指引去畀巴士公司，關於由黑盒度應該收納咩嘢嘅資料呢，考  
10 慮到科技嘅發展？

11 陳美寶女士：（經傳譯員）我同同事㗎㗎確認㗎，由 2003 年之後，我哋係冇再就住  
12 呢個電子嘅數據紀錄儀係再發出指引。

13 MR DUNCAN：（經傳譯員）即係係要靠巴士公司自己去追上個科技喇？

14 陳美寶女士：（經傳譯員）的確咁多年嚟科技發展嘅，我哋而家係商量緊點樣可以加  
15 強黑盒嘅功能，我今朝睇到喇，就喺個工作小組嗰度而家討論緊，就係 2018 年  
16 3 月開始工作嘅，呢個係其中一個喺佢哋工作範圍嘅一個要點㗎嘅，係我哋--係  
17 同巴士公司商討，過去咁多年我哋就有再就發出呢個修訂嘅指引去加強黑盒嘅功  
18 能，但係我哋亦都會同巴士公司溝通喇，佢哋亦都願意去睇下有咩嘢方法去加強  
19 巴士上嘅裝置。

20 主席：（經傳譯員）即係話個答案係冇錯，的確過去十四年呢樣嘢係交畀巴士公司自  
21 己做喇？

22 陳美寶女士：（經傳譯員）正如我同事琴日睇到，呢十四年間我哋亦都有同巴士嘅製  
23 造商同埋巴士公司一直保持聯繫，佢哋亦都知道科技嘅發展嘅，各項儀器有咩嘢  
24 新嘅科技發展，我哋係的確冇發出任何嘅備考，就住呢一個嘅指引，咁但係唔等  
25 於我哋冇研究過呢方面嘅。

26 MR DUNCAN：Now I want to go, please, to some of the matters  
27 that --

28 主席：（經傳譯員）如果你而家唔再講黑盒呢。

29 MR DUNCAN：Yes.

30 主席：（經傳譯員）我想喺你講第二個範圍之前問呢個問題，或者你可以協助委員會  
31 嘅。運輸署知唔知道而家用緊嘅譬如黑盒--數據盒喇，咁係各個專營巴士公司  
32 用緊嘅係乜嘢呢？

33 陳美寶女士：（經傳譯員）唔好意思，係咪問我哋知唔知道...

1 主席：（經傳譯員）我問你知唔知道而家各間巴士公司用緊嘅所謂黑盒，佢個能力  
2 係點樣嘅？

3 陳美寶女士：（經傳譯員）或者請我哋專家陳先生回答呢個問題嘅。

4 陳英傑先生：（經傳譯員）或者我好簡單講下喺黑盒而家用緊嘅功能係咩嘢。

5 主席：（經傳譯員）可唔可以回答，直接回答，答咗知或者唔知先，跟住你再畀你嘅  
6 專家意見喇，你知唔知道而家各間嘅專營巴士公司用緊嘅所謂黑盒嘅儀器個功能  
7 係點樣嘅？

8 陳英傑先生：Yes.

9 主席：So the answer is yes?

10 陳英傑先生：Yes.

11 主席：Thank you. Please explain.

12 陳英傑先生：（經傳譯員）基本上，黑盒呢個儀器係可以監察車輛嘅移動，係每隔某  
13 一個時刻㗎，呢個 2003 年嗰陣時係--冇錯，係每一秒嘅方法去監察嘅。

14 主席：That was the 2003 requirement.

15 陳英傑先生：It's the 2003 requirement.

16 主席：Yes.

17 陳英傑先生：（經傳譯員）以前就係用一個即係非數碼嘅方式嘅，係一個製圖嘅方  
18 式，今時今日就係電子嘅方式㗎喇，就基本上係可以用唔同嘅方式使用番呢個數  
19 據嘅，我理解今時今日巴士公司除咗係紀錄之外，譬如話嗰個剎車喇、嗰個嘅車  
20 速或者嗰個門、門鐘咁等等，都係有紀錄㗎喇，咁然後可以使用番喺黑盒呢啲嘅  
21 數據去作為一個管理駕駛嘅工具去進行每日嘅監察嘅，呢個就係黑盒嘅基本功  
22 能。當然喇，亦都有其他嘅科技嘅發展，譬如係全球定位系統喇。

23 主席：（經傳譯員）但係呢個都唔係新嘅科技喇？

24 陳英傑先生：（經傳譯員）個科技本身未必係新。

25 主席：（經傳譯員）喺 1990 年，喺美國嘅時候已經係有㗎--即係有啲媽媽都識得買  
26 啲全球定位系統儀器畀佢啲仔去海灣嗰度服役嗰時可以搵到方向。

27 陳英傑先生：（經傳譯員）嗰個科技本身未必係新，但係嗰個用嘅資料個方法就係唔  
28 同㗎喇，喺管理數據方面，而家管理層係可以用番啲嘅數據可以監察番每日車  
29 輛嘅運作喇，同埋司機嘅操守、駕駛態度都可以每日去監察嘅，你可以話對於巴  
30 士嘅管理，呢個唔係新嘅科技喇，因為有唔同嘅運輸公司好耐以嚟都有用呢一個  
31 嘅技術，由於香港嚟講，正如我所講，或者正如委員會講，並唔係--即係唔係  
32 好似署長所講喇，我哋唔係就咁交界巴士公司做嘅，多年嚟我哋都有去四圍睇下

1 有咩嘢新嘅科技嘅應用。黑盒係提供一啲好基本嘅數據，但係咁多年嚟，我哋亦  
2 都有同巴士公司溝通，請佢哋--即係話要利用數據--嚟黑盒入面嘅數據去更好  
3 管理巴士嘅行走同埋車長個態度嘅。佢哋亦都有咁做，據我知道，有啲巴士公司  
4 最近其實都係將佢哋嘅系統同埋軟件升級，去更好利用黑盒數據資料。

5 主席：（經傳譯員）對於不同嘅巴士公司你有咁嘅要求，叫佢哋投放資源去用多啲新  
6 嘅技術，咁呢個係咪用書面提出㗎？

7 陳英傑先生：（經傳譯員）而家我回答唔到呢個問題，我可以返去睇下，但係肯定我  
8 哋有同佢哋成日開會傾，商討嘅。有時我哋嘅職員去個車廠睇番佢哋整體嚟講車  
9 輛嘅構造同埋維護喇，我哋亦都有提呢一類型嘅討論嘅。但係呢啲嘅討論或者要  
10 求有冇正式書面，咁我要返去睇下。

11 主席：（經傳譯員）無論係咪正式提出都好喇，有冇會議紀錄㗎，有冇任何書信來往  
12 㗎，可以去顯示咁多年嚟你哋溝通之間有提過，如果你搵到嘅話，首先你搵出  
13 嚟，就都畀啲副本畀我哋。

14 陳英傑先生： Sure.

15 陳美寶女士：（經傳譯員）我哋會儘量嘅。

16 主席：（經傳譯員）唔該。

17 MR DUNCAN：（經傳譯員）咁請你睇番行業工會嘅文件冊喇，第 185 頁。我諗我先  
18 要請你睇番第 147 頁，呢一份文件我哋係冇譯文嘅，但係我將會請委員會係調-  
19 -研--去考慮一小段。呢份文件係 147 頁開始嘅，如果睇番第 145 頁，你就可  
20 以見到呢一個附隨嘅信件，呢個係巴士業職工盟交界檢討委員會嘅書面意見。咁  
21 而家請你睇第 185 頁。而家睇番最尾嗰段，185 頁最尾嗰段。我有嘅翻譯嘅版  
22 本就係話呢段嘅內容係咁樣嘅「為咗要收到花紅，車長必須要係通過一個評核，  
23 而巴士公司成日用一個出勤表現作為畀唔畀花紅嘅因素喇，所以車長好多時候就  
24 算生病都會繼續帶病上班嘅」，你見唔見到嗰部分？

25 陳美寶女士：（經傳譯員）我仲搵緊有關嗰個段落。我搵到一個段落，但係嗰個表達  
26 嘅方式似乎就...

27 主席：（經傳譯員）或者你譯畀我哋聽㗎。

28 MR DUNCAN：（經傳譯員）你可以睇下你同唔同意㗎，我知道嘅版本係咁樣嘅，

29 陳美寶女士：（經傳譯員）你可唔可以讀你英文嘅譯文讀多次出嚟？

30 MR DUNCAN： I will read it to you again, yes. （經傳譯員）係，等我  
31 睇下係--「員工要收到年中獎金嘅話，必須要經過評核，巴士公司卻將出勤率  
32 作為其中一項評核指標去決定巴士員工能夠全數取得年中獎金，巴士員工往往為  
33 咗得到整筆嘅年中獎金便儘可以帶病都會上班」，即係話就算佢哋應該本來請病  
34 假，佢都繼續會去搵車嘅。

- 1 主席： That's bus captains do that?
- 2 MR DUNCAN：（經傳譯員）即係講緊係巴士嘅車長。可能你需要睇第 185 至 186 頁  
3 喇。
- 4 陳美寶女士：（經傳譯員）或者等我協助一下。
- 5 MR DUNCAN： Thank you.
- 6 陳美寶女士：（經傳譯員）你提到嗰個段落係關於新入職員工以合約方式聘請嘅，巴  
7 士公司會考慮佢哋出勤率作為其中一項評核指標是否續約，而員工往往為咗得到  
8 公司續約，就算係生病都係會繼續執勤嘅。即係話出勤率係作為考慮員工續約嘅  
9 因素，而工會覺得係不合理嘅。然後呢一段仲有第二部分嘅，就係話近年巴士公  
10 司設立年中獎金畀新入職員工，咁樣巴士公司就係有一個評核嘅制度嘅，先至  
11 --要通過先可以獲得個年中獎金，但係巴士公司亦都會將出勤率作出其中一個評  
12 核指標。即係其實係有兩部分嘅，呢個段落。
- 13 MR DUNCAN：（經傳譯員）我哋唔需要爭拗入面嘅內容喇，或者我咁樣問你，工會  
14 係咪曾經同運輸署反映過呢個問題㗎喇？
- 15 陳美寶女士：（經傳譯員）正如我所講喇，我哋都有睇過呢一封意見書，而最新職工  
16 會喺不同嘅場合亦都有提過呢個關注，所以我係知悉嘅。
- 17 MR DUNCAN： Yes.
- 18 陳美寶女士：（經傳譯員）不過至於話佢哋有冇正式咁樣 樣你向運輸署係有書面嘅  
19 意見或者係講過，我要返去查核嘅。
- 20 主席：（經傳譯員）但係佢哋已經係話咗畀運輸署聽有咁嘅情況個㗎？
- 21 陳美寶女士：（經傳譯員）我都要再查一查。我自己係知嘅，我嘅同事亦都知嘅，因  
22 為呢個關注其實係職工會特別係喺大埔嘅意外之後都係有提出過嘅，不過我要返  
23 去再查下，再返嚟書面咁回覆你哋嘅。
- 24 主席：（經傳譯員）好，唔該晒。
- 25 MR DUNCAN：（經傳譯員）係，麻煩你。我呢度要問嘅就係，第一，佢哋有冇同部  
26 門講過；第二，如果有嘅話，咁究竟部門係採取一個乜嘢措施、咩嘢步驟去研究  
27 呢件事呢，麻煩你回應嘅時候跟番呢一點。
- 28 陳美寶女士：（經傳譯員）我哋係知道佢哋有咁嘅關注嘅，喺不同嘅場合，我哋知道  
29 嘅，媒體亦都有廣泛報導喇，呢個係喺大埔意外之後有咁嘅廣泛報導。不過至於  
30 話有冇正式咁樣係同部分溝通過呢，因為呢度講及係新近推出嘅年中獎金喇，  
31 同埋係講及呢個員工續約，新入職嘅員工續約嘅情況。咁呢個就係關乎埋佢哋嘅  
32 招聘事宜嘅。
- 33 主席：（經傳譯員）咁如果你係知嘅話，咁更--嗰個大啲嘅問題就係話，既然係知

1 喇，到而家為止做過啲咩嘢？

2 陳美寶女士：（經傳譯員）係呢幾個月，自從大埔意外之後，由於廣泛報導，咁所以  
3 我係知嘅，我要再睇睇究竟部門整體嚟講係有冇透過正式嘅渠道係知悉呢一個關  
4 注嘅。

5 MR DUNCAN：（經傳譯員）職工會亦都有另一樣嘢就係提過出嚟嘅，就係同一個文  
6 件冊嘅 311 頁。310 頁就係港九勞工社團聯會寫入嚟嘅。我想請你係睇最耐嘅  
7 一段，喺 311 頁嘅最耐嗰段。我亦都有一個英譯本喺度嘅，就有關嗰一段係有  
8 個英譯本我係將佢打出嚟嘅。

9 主席：（經傳譯員）可唔可以畀一份我哋嘅速記員？

10 MR DUNCAN：（經傳譯員）你慢慢睇咗先喇。

11 陳美寶女士：（經傳譯員）係。

12 MR DUNCAN：（經傳譯員）喺呢份意見書嘅呢一個部分，工會就講及廣告裏面嘅收  
13 入㗎，廣告收入㗎，咁就話要求政府就係要檢討嘅，呢個就係指嗰個非票務收  
14 入。呢樣嘢我想問下喇，工會係咪已經係同運輸署係提過呢？

15 陳美寶女士：（經傳譯員）我有聽聞過。

16 MR DUNCAN：（經傳譯員）即係話你而家先係首次係知道有咁樣嘅意見，而佢哋就  
17 係將呢個意見交咗畀呢個委員會。

18 主席：（經傳譯員）可唔可以將佢係讀出嚟？邊一度係講話要求檢討？

19 MR DUNCAN：（經傳譯員）第 1 段嘅最後一句，「勞聯要求政府必須檢討非票務收  
20 入嘅規管，呢個係指巴士專營權政策裏面嘅呢個部分，以免係上述惡性循環，不  
21 斷重複」。

22 主席：（經傳譯員）好，唔該。所以你之前係唔知道佢哋有咁嘅要求，係嘛，陳小姐  
23 --陳女士？

24 陳美寶女士：（經傳譯員）係，㗎㗎。

25 MR DUNCAN：（經傳譯員）再請你睇番另一個項目，係 71 頁。

26 陳美寶女士：（經傳譯員）對唔住，主席，除咗係講話我哋之前係唔知，我可唔可以  
27 亦都補充一下，講下我哋嘅睇法？

28 主席：（經傳譯員）當然可以喇，請你講㗎。

29 陳美寶女士：（經傳譯員）根據佢哋嘅意見同埋佢哋提及就係公司對於係非票務收入  
30 嘅定義，我就想係紀錄在案，公司係要擬備佢哋嘅周年賬目同埋佢哋嘅報告，呢  
31 個都要跟番國際嘅標準同埋做法，而且佢哋亦都有內部嘅稽核喇，即係有我哋部  
32 門嘅內部稽核嘅。如果佢哋係提議票價要增加，咁我哋部門就會係檢討喇，另外

1 就係運房局裏面有關嘅小組亦都會去檢視嘅。如果佢哋想申請加價，我哋會睇埋  
2 佢哋嘅財務嘅情況喇，佢哋預計嘅收入同埋支出喇，以及係票務收入、非票務收  
3 入，兩者我哋都會考慮埋嘅。唔該。

4 MR DUNCAN：（經傳譯員）我而家想請你睇同一查文件嘅第 67 頁。一封電郵，裏面  
5 就係嚟自月薪車長大聯盟所提交畀委員會嘅一份意見書，我就想請你睇呢個 72  
6 頁，72 頁就係個翻譯本，或者你想睇番個中文版，就係第 68 頁嘅。麻煩你睇  
7 一睇呢個第 3 段，個標題係「車長培訓」。

8 陳美寶女士：（經傳譯員）係喇，我已經睇咗喇。

9 MR DUNCAN：（經傳譯員）呢個關乎培訓嘅事宜嘅。我想問下喇，工會有冇時不時  
10 咁樣樣係同部門係提及呢一啲關注？

11 主席：（經傳譯員）對唔住，你可唔可以講得具體一啲？

12 MR DUNCAN：（經傳譯員）呢段裏面佢哋都係一個投訴嚟嘅，咁我想問喇，部門係  
13 知唔知悉佢哋有呢個咁嘅情況？

14 主席：（經傳譯員）起碼你話畀我聽，究竟你講嘅邊一樣係個重點？

15 MR DUNCAN：（經傳譯員）當然可以喇，主席。我想喺個譯本嗰度係引述，嗰度  
16 就咁講，「目前訓練就由一至兩名學員同埋導師組成，導師會同學員相處十七  
17 日，除咗教導學員正確嘅駕駛技術同埋態度，亦都會觀察學員嘅性格，可怕公司  
18 現行嘅制度無視相關嘅意見，其實九巴駕駛訓練學院嘅學生源源不絕，川流不  
19 息，無奈一年之後，剩下嘅寥寥可數。工作壓力大，包括精神壓力。招聘廣告與  
20 實際收入不相稱等都係流失嘅原因。」呢啲嘅指稱、指控，有冇係喺過去曾經已  
21 經同部門講咗呢？

22 主席：（經傳譯員）對唔住。

23 MR DUNCAN：（經傳譯員）我嘅問題係，呢啲嘅投訴有冇話過畀運輸署聽？即係過  
24 去。

25 陳美寶女士：（經傳譯員）我睇咗個中文版，亦都睇咗個英文版，呢一段文字嘅開  
26 頭嗰度提及一個個案，有一個個案就係一個係新入職嘅應徵者喇，咁就係接受培  
27 訓同埋考咗牌，咁一個禮拜之後--入職一個禮拜就發生交通意外，而公司係為  
28 呢一個車長提供培訓，中文嗰度咁寫嘅，就話公司喺現有嘅制度底下係唔會考慮  
29 相關嘅意見㗎，嗰度話無視相關嘅意見，其實佢最初嘅時候就講，係話車長個培  
30 訓，但係呢一段文字嘅後面嘅部分其實就係講呢啲新入職嘅人士佢哋係工作一年  
31 喇，咁佢哋可能係要賠款嘅，喺呢一方面嚟講，呢一類嘅投訴關於個具體嘅安  
32 排喇，呢個咁嘅投訴就有㗎，我哋冇收過咁嘅投訴，冇。

33 MR DUNCAN：（經傳譯員）講下第二部分喇，咁呢啲行業工會會唔會不時同你反映  
34 呢個意見呢，關於有咩嘢安全技術，又或者有乜嘢安全嘅條文可以引入規管巴士

1 呢，佢哋自己有冇就畀過意見你？

2 陳美寶女士：（經傳譯員）我要請同事去查一查先。或者請關女士回答吓。

3 關翠蘭女士：（經傳譯員）我哋過去兩年同工會聯絡，係好少提出咁嘅問題嘅，係講  
4 關於安全嘅儀器嘅，我記得佢哋曾經講過，喺擋風玻璃有除霧裝置，因為佢哋覺  
5 得春天嘅時候就好多霧，個情況嚴重喇，之後我哋亦都同佢哋僱主跟進，睇下有  
6 乜嘢解決方法。呢個係唯一一個關於安全嘅事項我記得係有傾過嘅。

7 MR DUNCAN：（經傳譯員）工會有冇不時提出，譬如係話嗰個嘅車鏡或者係擋風玻  
8 璃個除霧裝置？

9 主席：（經傳譯員）我諗佢頭先係講咗，係幾年之前曾經提過呢樣嘢，係咪？

10 關翠蘭女士：（經傳譯員）又或者兩、三年前，係嘅。

11 MR DUNCAN：（經傳譯員）顯示屏呢，同埋一啲警告嘅裝置呢，或者一啲嘅譬如倒  
12 後嘅感應器咁樣，工會有冇提過？

13 關翠蘭女士：（經傳譯員）對唔住，我自己就唔知喇。

14 MR DUNCAN：（經傳譯員）工會代表係咪喺你嘅工作小組都係有一個代表㗎，去睇  
15 下有冇咩嘢新嘅科技可以應用？

16 陳美寶女士：（經傳譯員）冇㗎，工作小組個重點係睇下有咩嘢嘅加強巴士運作嘅裝  
17 置喇，同埋培訓嘅框架，我哋同巴士公司同埋廠商商量，喺巴士公司角度而言，  
18 我哋預期佢哋會考慮番公司本身個情況，其他嘅持份者嘅意見，再畀番佢哋嘅回  
19 應我哋嘅。好似我頭先同事咁講喇，我哋同工會持續嘅溝通都係喺制訂嗰個工作  
20 時數指引嗰方面嘅發展嘅，喺咁嘅情況，我哋比較通常傾嘅就係工作環境，同埋  
21 佢個工作時數、薪酬等等，就唔係話好常見會去商量佢哋嘅合約條款、工資，因  
22 為呢個係個別公司個佢哋僱員嘅安排。巴士公司係要根據《僱傭條例》去符合入  
23 面嘅僱傭嘅要求喇，亦都係制訂工作時間、合約條款咁樣。

24 主席：（經傳譯員）冇咩嘢原因點解冇巴士工會嘅代表係喺你個工作小組呢，尤其  
25 是你考慮緊其中一樣嘢係培訓？

26 陳美寶女士：（經傳譯員）唔該，主席。工作小組個工作範疇就係本身係睇巴士嗰個  
27 安全裝置，同埋睇下有冇咩嘢方法增強或者監察培訓嘅架構。工作小組個職權範  
28 圍就唔包括引入新嘅培訓要求或者係單元要求公司跟從嘅，我哋做嘅就係對於現  
29 有嘅培訓嘅安排，我哋將佢達至一致性嘅。

30 主席：（經傳譯員）其中一個考慮嘅科技嘅裝置就係一個顯示車速屏嘅，喺巴士上面  
31 嘅，我嘅理解㗎唔㗎？呢一樣嘢係咪會--即係巴士司機本身都會有參與呢？

32 陳美寶女士：（經傳譯員）顯示個速度嘅顯示屏，其中一個工作小組考慮嘅儀器㗎  
33 嘅，但係我哋亦都明白巴士公司一個反應，就係話可能會令到巴士司機係更加大

1 壓力嘅，因為乘客都喺車上可以一直監察巴士司機點樣揸車，如果有個咁嘅建  
2 議，係會對職員係有影響嘅話，運輸署亦都好高興可以即係請職方參與去商量  
3 嘅。

4 主席：（經傳譯員）唔單只係話巴士公司話畀你聽佢哋車長可能覺得如果裝個車輛顯  
5 示屏會有咩嘢問題嘅話，你點解冇直接問下佢哋職方睇法呢，同工會見面呢？

6 陳美寶女士：（經傳譯員）我哋係樂意同佢哋見面嘅。

7 主席：（經傳譯員）鄧樂勤律師。

8 MR DUNCAN：（經傳譯員）咁喺你個工作小組有乜嘢持份者代表？

9 陳美寶女士：（經傳譯員）有巴士營運商喇，同埋巴士嘅製造商，亦都有車輛牌照及  
10 檢驗組喇、機電署喇去睇番科技或者技術嗰方面嘅問題喇，同埋道路安全同埋標  
11 準，呢個都係運輸署底下其中一組去睇番全港嘅道路安全。

12 主席：（經傳譯員）咁一方面你就係有運輸署、巴士公司同埋亦都有啲技術上嘅問題  
13 就係請巴士嘅製造商都參與嘅，我理解有冇錯？

14 陳美寶女士：Yes.

15 MR DUNCAN：咁運輸署有冇考慮過請埋工會嘅代表參與工作小組嘅呢？

16 陳美寶女士：（經傳譯員）而家嚟講就有工會代表喺工作小組嗰度嘅，工作小組嘅職  
17 權範圍就係考慮下有可行嘅建議喇，睇下我哋一般嘅做法喇，如果係有啲有系統  
18 嘅諗法或者建議嘅話，我哋就會同持份者溝通㗎，就係包括職方、工會，我哋樂  
19 意咁做。

20 MR DUNCAN：（經傳譯員）即係你嘅答案係有？

21 陳美寶女士：（經傳譯員）我哋有考慮到--我哋考慮咗嘅，因為呢一刻工作小組先至  
22 啱啱喺度傾呢啲嘅儀器同埋培訓嘅初步諗法，咁而呢啲亦都係牽涉巴士車長嘅培  
23 訓嘅，到我哋有更加多細節嘅建議之後，我哋就會可以會見工會，同佢哋分享我  
24 哋嘅建議喇，呢個我都有諗過㗎。

25 主席：（經傳譯員）即係你而家諗下呢個階段就係唔牽涉工會先嘅？

26 陳美寶女士：（經傳譯員）冇錯㗎，喺最初草擬一個建議嘅階段。

27 MR DUNCAN：（經傳譯員）咁你有冇將呢個諗法同工會溝通過？

28 陳美寶女士：（經傳譯員）冇，因為呢一個工作小組係由我哋成立嘅，去考慮所有唔  
29 同嘅--由署方提出嘅建議、諗法，咁我哋就係等待制訂一啲更多細多嘅建議  
30 嘅，我哋有一個更加系統性嘅架構嘅時候，我哋就會諮詢有關持份者。

31 MR DUNCAN：（經傳譯員）而家想請你睇下第二個問題喇，都係工會提出嘅，喺工  
32 會嗰個文件冊第 174 頁。同樣喇，呢份文件都係呢部分冇譯到嘅。

1 主席：（經傳譯員）係咪就 174 (sic) 頁開始嗰份文件？

2 MR DUNCAN：（經傳譯員）的確係。呢個係巴士業職工盟嘅書面意見嘅，其實我會 -  
3 -其實睇番嗰個成個文件開頭，145 頁嘅，咁我都會繼續講番。而家想請你睇番  
4 174 頁頁底，你可唔可以自己睇下先？

5 陳美寶女士：（經傳譯員）唔好意思，係咪頁底？

6 主席：（經傳譯員）第 2 段，174 頁，第 2 段。你會見到呢個 Alexander Dennis  
7 Enviro E500NG 系列。

8 陳美寶女士：（經傳譯員）我哋睇咗喇，呢段。

9 MR DUNCAN：（經傳譯員）呢段係咪解釋番畀委員會聽，如果係有尾軸轉向功能嘅  
10 話，巴士□起上嚟有個咩嘢危險，尤其是係 12.7 米長嘅巴士？

11 陳英傑先生：（經傳譯員）或者我嘗試回答呢個問題。我相信個問題就係最近就係引  
12 入 12.8 米巴士嘅，咁而嗰個轉向有啲司機就覺得轉彎嗰時係好難操控嘅。首  
13 先，任何嘅香港引入嘅巴士都要符合所有嘅車輪構造及維修嘅規例嘅，而嘅香港  
14 呢啲巴士，超過百分之九十九都係嚟自歐洲車廠㗎喇，都係要符合歐洲嘅標準。  
15 個問題係到底呢啲巴士嘅香港係咪適用呢，呢個先係主要問題，喺我哋嘅系統當  
16 中，任何引入新巴士嘅時候，第一件事都係要經過一啲嘅程序嘅，個程序係咩嘢  
17 呢？除咗係睇車輛技術嘅問題之外，都要睇下呢個車輛喺道路上係咪適宜香港使  
18 用，符合咗技術要求之後，我哋見到嘅呢啲嘅巴士，佢係技術上係可行，係可以  
19 喺香港路上行走嘅，而我哋都留意到有啲司機就認為因為呢啲巴士比起現有嘅  
20 長，而家現有嘅都係 12 米，但係新引入嘅係 12.8 米，喺轉彎嘅時候，車輛控  
21 制方面--即係佢哋比較適應舊款嘅巴士嘅駕駛方法喇。

22 咁我哋就要求佢哋做幾樣嘢，第一，巴士公司要訓練佢哋嘅員工適應新嘅巴  
23 士，並唔係話架巴士本身危險，又或者只係係可唔可以係好好控制好架巴士啫；  
24 第二，如果呢架巴士比起大部分香港現行嘅巴士都長嘅話，喺使用新嘅巴士嘅時  
25 候，我哋又要睇下個路線喇，會派啲車行咩嘢路線喇，而家當我哋派 12.8 米嘅  
26 巴士行走路面嘅時候，係行某啲路線嘅，我哋要試過，要確保係可以安全咁樣行  
27 走先至會准巴士公司派呢啲車行嗰啲路線嘅。唔係所有巴士都係 12.8 米，有啲  
28 巴士公司都係用番 12 米嘅車，有啲甚至--可能係上山頂、上山嘅就用一啲巴士  
29 更加短，呢個係培訓問題同埋係恰當咁樣調派呢啲巴士行走某啲路線，並唔係話  
30 啲巴士本身係危險嘅，呢個係我嘅回應。

31 主席：（經傳譯員）你話百分之九十九係嚟自歐洲，亦都符合歐洲嘅標準，係嘛？

32 陳英傑先生：（經傳譯員）係。

33 MR DUNCAN：（經傳譯員）我想問，職工會有冇同運輸署提過呢件事呢？

34 陳美寶女士：（經傳譯員）有嘅，我哋知道嘅，亦都有睇過嘅。

1 陳英傑先生：（經傳譯員）其實工會有同運輸署講過㗎，咁因此我嗰個組別係有好仔  
2 細咁樣樣去睇過佢嗰個轉彎個弧度同埋轉彎個路線嗰個問題嘅。我哋有講過就話  
3 係巴士公司都要睇嘅，因為司機有投訴，佢哋就覺得就唔穩陣，即係咁長嘅一架  
4 新車，佢哋覺得就係揸得唔好，咁所以我哋就話巴士公司要做多啲培訓，咁而當  
5 我哋嗰部分，我哋做呢一個係類型評估嘅時候，只能夠批准佢做某一啲路線嗰度  
6 用嘅。

7 主席：（經傳譯員）或者最後一點，然後我哋就小休午飯。有長啲嘅巴士，當然有優  
8 點喇，咁其中係咪包括即係載客量係高啲，呢個係咪長身啲嘅巴士嘅一個原因  
9 呢？

10 陳英傑先生：（經傳譯員）嚴格嚟講，如果架巴士更長，咁可以安多啲座位，咁但係  
11 以呢一個型號嚟到計，呢個型號本身如果喺香港行走，都有一啲係好處，一啲優  
12 點嘅，除咗多幾個位，佢嗰個新嘅科技，同埋就係可以駕駛得更好。

13 主席：（經傳譯員）或者係午後我哋可以再講。

14 陳美寶女士：（經傳譯員）其實--譬如話係輪椅嘅乘客，坐輪椅嘅乘客，佢可以就係  
15 出入容易啲嘅，所以係呢一類嘅巴士係喺呢一方面係有所改善嘅，所以我哋喺評  
16 估巴士營運商嘅時候，呢一點我哋都睇埋嘅。

17 主席：（經傳譯員）好，我哋而家就係小休，就係兩點半再繼續嘅，唔該。

18  
19 下午 1 時 02 分聆訊押後

20  
21 下午 2 時 30 分恢復聆訊

22 出席人士如前。

23  
24 主席：（經傳譯員）各位，午安。鄧樂勤大律師。

25 MR DUNCAN：（經傳譯員）唔該晒主席。陳女士，我相信你係想有啲補充嘅，係咪  
26 呀？關於話用呢啲比較大型嘅巴士嘅好處。

27 陳美寶女士：I have nothing to add.

28 MR DUNCAN：（經傳譯員）我諗陳先生，係，對唔住，係咪陳先生？

29 主席：（經傳譯員）係，你頭先啱啱講到話用呢啲大型嘅巴士係有好處嘅。

30 陳英傑先生：（經傳譯員）係，我諗我哋同事就係已經講咗㗎喇，就話大部嘅巴士  
31 就係可以有低地台，讓輪椅可以上嚟。

1 主席：（經傳譯員）換句話講，就係上落係容易啲，係咪呀？

2 陳英傑先生：（經傳譯員）係。

3 主席：（經傳譯員）唔該。

4 MR DUNCAN：（經傳譯員）我就係想問，琴日係黎先生問過佢，不過佢就係答唔  
5 到，我諗就係羅教授喺聆訊嘅時候有提過嘅，呢個就係講及係需要幾多司機，因  
6 為話有一啲叫做特別更，當時問嘅問題就係話有冇做過任何嘅研究，去睇下有冇  
7 影響，即係話如果呢個特別更十四個鐘呢一個上限係取消嘅話，對司機嘅數目有  
8 咩嘢影響，琴日就講過話需要多二百五十位司機嘅，黎先生就同我哋話，就話呢  
9 個研究就係部門進行嘅，我就想問下，唔知你係咪可以同我哋講一講就嗰個研究  
10 嘅結果係點？

11 陳美寶女士：（經傳譯員）係，我可以嘅。我哋就呢個工作時間嘅指引嘅檢討係喺  
12 17 年嘅 9 月係開始檢討嘅，呢個係因為局方請我哋去做嘅，我哋就希望就睇下  
13 係咪有空間可以進一步改善係車長嘅工作嘅條件，特別係車長嘅工作時間，講到  
14 話要改善佢哋嘅工作情況，亦都睇番過往嘅改變同埋修訂。我哋就係比較全面咁  
15 樣去檢討過嗰個指引，我哋考慮咗佢哋嘅營運嘅要求，即係話專營巴士公司嘅營  
16 運要求，以及係乘客，以及公眾，係希望巴士嘅服務水平有所提升，另外車長亦  
17 都希望工作嘅情況，工會亦都係希望嗰個工作嘅條件有所改善嘅。

18 我哋做指引嘅時候，考慮咗數個因素嘅，其中係包括對人手嘅影響，即係話  
19 如果實施呢一啲指引對人手有咩嘢影響，我其實講過，其實嗰個出發點就希望改  
20 善車長嘅工作條例，特別就係希望將嗰個更次嘅時間縮短，同埋車長嘅駕駛時間  
21 係縮短嘅。

22 最新嘅修訂指引其實就係涉及我哋一個研究，研究一下係需要額外係增加幾  
23 多個車長嘅，大概就二百六十個，我哋就係喺我哋嘅文件夾或者意見書，5 號文  
24 件嗰度嘅。

25 我哋亦都研究過目前長嘅更次嘅工作時間係咪可以縮短，而家有一啲巴士公  
26 司係有一啲比較長嘅更次嘅，我哋嘅理解就係咁嘅，有一啲巴士營運商佢哋係有  
27 一啲長嘅更次時間嚟到去滿足呢個早上同埋係傍晚嘅繁忙時間，特別係一啲係路  
28 程比較長嘅路線，以及係會係跨越幾個地區嘅，譬如話由新界嗰度係去到港島呢  
29 一啲嘅路線。我哋睇過，睇下係咪可以將嗰個更次時間同埋駕駛時間係將佢縮  
30 短，呢啲就叫做係特別更次。我哋根據巴士公司畀我哋嘅資料，同埋亦都睇過嗰  
31 啲嘅數據，我哋手頭上係已經係從自己嘅調查嗰度收集咗一啲數據，呢啲就係上  
32 咗車上面就去收集嘅數據。

33 另外亦都係睇番車長嘅編制同埋實際嘅人手，我哋就分析過，究竟係對增加  
34 人手方面嘅影響有幾大，然後睇下呢啲嘅特別更次嘅係——最長嘅更次時間係咪  
35 可以進一步縮短嘅，或者係好概括性咁講，我哋可以話粗略嘅估計，對人手嘅影  
36 響，即係話將呢啲嘅特別更次嘅最高嘅時間就係會要增加一千六百名嘅司機，係

1 指係所有嘅專營巴士公司加埋一齊嘅。

2 我哋睇過呢啲因素，當然我哋亦都係要確保巴士嘅服務水平係令人滿意嘅，  
3 另外亦都要睇下巴士公司實際上係咪能夠招聘到額外嘅人手，好讓佢哋可以適時  
4 咁樣樣去落實有關嘅指引。我哋亦都好想，亦都向巴士公司係建議過，我哋不斷  
5 同佢哋開會，就話我哋希望佢哋可以有一個合理嘅時間嚟到全面落實個指引。

6 我哋考慮過個個人手嘅影響、係咪可行以及個時間，即係話全面引入呢個  
7 指引個時間表，我哋最終就認為喺個修訂本個度，就特別更次係有一個特別嘅  
8 提述嘅，呢個特別更次最長嘅時間，我哋就話都依然係上限嘅十四小時，但係呢  
9 啲做特別更次嘅車長佢嘅駕駛時間應該將佢減至係十小時，呢個十小時就係同一  
10 般正常更次嘅駕駛時間係一樣。

11 此外，我哋亦都有多一個要求嘅，就係要求巴士公司係提供一個休息時間，  
12 而呢個休息時間係要不少於三小時嘅，亦都喺個更次裏面，呢個去確保車長可  
13 能係要調派到去揸啲咁樣嘅路線，而係要有特別更次嘅安排。都希望佢哋有一個  
14 足夠嘅休息時間，而個駕駛時間，即係話佢坐埋個軟盤個度開車個時間就係  
15 將佢減至十小時。

16 我哋係將個研究同埋評估就係交咗畀運房局，亦都同運房局係傾過，討論  
17 過之後，亦都留意到係對各方面嘅影響，個指引就最終定咗稿，亦都係頒布  
18 咗，係今年年初嘅時候頒布咗，係 2018 年嘅 2 月。唔該。

19 MR DUNCAN：（經傳譯員）對唔住，或者我再想講一講啲數字，我恐怕我可能就  
20 係喺你個陳述書個度就或者係有啲誤解嘅，我想請你澄清一下某一啲數字嘅。

21 陳美寶女士：（經傳譯員）好呀。

22 MR DUNCAN：（經傳譯員）目前，而家有幾多人係請咗係做車長嘅呢？即係所有嘅  
23 專營公司，所有加埋有幾多人係車長呢？

24 主席：（經傳譯員）等你係搵個頁出嚟嘅時候，係咪都答咗先，等我哋可以理解一  
25 下？

26 陳美寶女士：（經傳譯員）我想請大家睇嘅就係運輸署嘅文件夾嘅 5 號文件，第一個  
27 表，表 1，總數加埋係多過萬二。

28 主席：（經傳譯員）喺邊度搵到呢？喺邊一段？

29 陳美寶女士：（經傳譯員）第 9 段，第 9 段下面就有表 1，個度就係分別列出個別專  
30 營權巴士公司嘅車長嘅數目。

31 主席：Thank you.

32 陳美寶女士：（經傳譯員）個總數，個別公司佢嘅車長嘅數目，如果將佢全部加  
33 埋，就係萬二。

1 MR DUNCAN：（經傳譯員）假設嗰個指引係落實，你哋嘅估計係點呢？即係話要增  
2 聘幾多嘅車長呢？

3 陳美寶女士：（經傳譯員）不如大家睇番呢個第 7 段，同一份文件嘅第 7 段。好粗略  
4 咁樣樣睇過，係營辦商佢粗略嘅係一個預測，就話總共係要二百五十位嘅車長，  
5 先至可以係全面落實嗰個指引嘅，我哋自己亦都係睇過呢個數字，我哋亦都比對  
6 我哋自己手頭上嘅資料，即係話睇番係車長嗰個編制同埋嗰個實際人手嘅數字，  
7 所以大概係要增加二百五十位車長。

8 MR DUNCAN：（經傳譯員）好，唔該。如果特別更次，特別更次喺嗰個指引嗰度  
9 嘅，如果係有特別更次嘅話，對二百五十個數字有咩嘢影響呢？

10 陳美寶女士：（經傳譯員）就會增加，增加到要額外多一千六百位車長。

11 MR DUNCAN：（經傳譯員）即係話唔係二百五十，就變咗係一千六百，係咪呀？

12 陳美寶女士：（經傳譯員）係。換句話講，係編制嘅多於百分之十，即係所有公司加  
13 埋一齊。

14 MR DUNCAN：（經傳譯員）或者我哋自己都計到嘅，不過我諗你亦都可以好精簡咁  
15 樣樣係介紹一下，點解會個數字大增到係嗰個水平呢？

16 陳美寶女士：（經傳譯員）或者我係請我嘅副手佢就係好熟悉呢一個更次同埋人手嘅  
17 問題，等佢解釋，係讓你哋係好簡單、好直接咁樣去理解個問題。

18 MR DUNCAN：（經傳譯員）好，唔該晒。

19 李萃珍女士：（經傳譯員）我會盡量係簡單嘅。呢度講緊嗰個佢哋營運嘅時間好長，  
20 一早一晚亦都有一個繁忙時間，我哋唔畀司機就係咁長嘅更次嚟到係包括咗一早  
21 一晚嘅繁忙時間，即係話要有額外嘅司機先至可以做晒嗰兩節嘅繁忙時間，佢哋  
22 就要有短啲嘅時間，即係話六個鐘或者七個鐘，咁樣樣就有效率嘅，即係換句話  
23 講，因為我哋要有照顧朝早嘅繁忙時間同埋傍晚嘅繁忙時間，與其係一個人做，  
24 就要分兩個人去做，計人頭，就唔係二百五十嘅兩倍，而係就係多啲人，因為每  
25 一個人做嘅更次時間係短啲，可能係六個鐘、七個鐘，甚至乎係五個鐘，所以就  
26 唔係二百五十乘二，我哋要更多嘅人手。

27 你可能會話一般司機係駕駛時間係十小時，但係如果係有咗呢個特別嘅更  
28 次，呢個分開兩節嘅更次嘅話，咁樣就係有百分之十三嘅司機就係需要係將佢乘  
29 二，而每人就唔係十四個鐘，就係更短嘅時間，譬如係六個鐘，所以計數就係咁  
30 樣計嘅，所以就去到一千六百。我希望我就澄清咗嗰個計算方法。

31 主席：Thank you.

32 羅先生：I wonder if I can ask a question.

33 主席：Please do.

- 1 羅先生：（經傳譯員）喺特別更次有幾多司機，將嗰個數目乘二唔係就係答案喇咩？
- 2 李萃珍女士：（經傳譯員）唔得。
- 3 羅先生：How come it's not?
- 4 李萃珍女士：（經傳譯員）我要解釋一下，有一千二百個司機，呢個係個編制，即係  
5 去滿足每日個需求，就有九千個更份，但係人數要多啲，因為每人返工返六日，  
6 仲要放假等等。我可以話每日我哋需要九千個駕駛嘅更份，而當中大概一千二百  
7 個就係特別更次嘅，即係百分之十三，大概百分之十三。所以呢個一千二百個  
8 更次，要將佢乘二，即係二千四百，但係咁又唔需要雙倍嘅，即係話大概一千六  
9 百個，我哋要用更次呢個概念去睇呢件事。
- 10 MR DUNCAN：（經傳譯員）特別更次係咪一個新措施㗎㗎？定或喺最近嘅修訂指引  
11 之前已經存在㗎㗎？
- 12 陳美寶女士：（經傳譯員）特別更次係由個別嘅專營巴士公司去營運嘅，去處理一早  
13 一晚嘅高峰期，我哋就考慮下最高嘅工作嘅時數，無論係咪特別更次都好，可唔  
14 可以縮減。喺呢次修訂指引，我哋都藉機會去澄清我哋對於最大駕駛同埋工作時  
15 間，我哋嘅要求係點，喺咁嘅角度底下，我哋就加入咗喺指引入面一個要求，去  
16 清楚解釋呢一個特別更次嘅要求係乜嘢，而呢一個安排，我哋個要求係點呢？即  
17 係關於係最高嘅工作時數、駕駛時數同埋係休息時間。
- 18 MR DUNCAN：（經傳譯員）即係呢個指引之前就冇提到特別更次嘅？
- 19 陳美寶女士：（經傳譯員）冇錯。
- 20 MR DUNCAN：（經傳譯員）只係喺巴士公司營運期間係慢慢演變出嚟，係有演變過  
21 程嘅？
- 22 陳美寶女士：（經傳譯員）我哋都知道更重要嘅係喺同巴士公司商量嘅時候，同工會  
23 見面嘅時候，我哋都聽到有啲意見，有啲司機係被指派做特別更次嘅時候，呢啲  
24 司機亦都關注薪酬或者係實際上賺取嘅酬金係幾多嘅，尤其係做特別更次嘅同  
25 事，我哋一方面探討點樣可以縮減駕駛同埋工作時間，另外一個喺商討嘅時候提  
26 出嘅關注，就係職方有啲焦慮，會唔會係咁樣影響到佢哋收到巴士公司發畀佢哋  
27 嘅薪酬嘅減少，呢一個過程我哋都要處理呢啲問題嘅，呢個過程都不斷演變。
- 28 主席：（經傳譯員）呢一種關注係點樣表達出嚟呀？
- 29 陳美寶女士：（經傳譯員）即係話驚影響佢哋嘅薪酬，喺書面意見書入面同埋同佢哋  
30 見面，同運輸署都有提到嘅，因為由 2017 年 10 月至到 2018 年嘅 2 月，運輸  
31 署有同不同嘅工會會面，喺嗰段期間，我哋亦都有一系列嘅會面嘅。
- 32 主席：（經傳譯員）唔該。
- 33 MR DUNCAN：（經傳譯員）唔該晒陳女士。我而家想同你講第二個範圍，...

1 主席：（經傳譯員）你開始講之前，鄧樂勤大律師，應該律師想問嘅問題就係咁嘅，  
2 呢個做法係已經維持咗幾耐喇？

3 李萃珍女士：（經傳譯員）我諗呢個問題已經有十年、二十年㗎喇之前。

4 主席：（經傳譯員）即係一個係長久以嚟個做法都係咁？

5 陳美寶女士：（經傳譯員）係呀。

6 主席：（經傳譯員）係，大律師。

7 MR DUNCAN：（經傳譯員）而家請你睇下秘書處嘅文件第 2 冊第 664 頁，而家係咪  
8 睇緊呀？呢個係道路安全研究小組嘅文件，佢哋畀咗啲意見，就係關於係呢一個  
9 公共交通策略研究，簡稱英文 PTSS，係佢哋將呢個意見書交咗畀立法會嘅交通  
10 事務委員會嘅，似乎個日期就係 2015 年嘅，呢份文件。

11 陳美寶女士：（經傳譯員）係。

12 MR DUNCAN：（經傳譯員）係咪有公共交通策略研究 2015 年嘅時候？

13 陳美寶女士：（經傳譯員）係呀，係有一個策略研究，係 2015 年做嘅。

14 MR DUNCAN：（經傳譯員）運輸署有冇參與呢個研究？

15 陳美寶女士：（經傳譯員）係，由局方帶頭嘅，就有運輸署嘅協助。

16 MR DUNCAN：（經傳譯員）運輸署喺進行研究期間有冇留意到有呢份文件？

17 陳美寶女士：（經傳譯員）喺立法會一般嘅情況，一般嘅做法，呢一個係當係公聽會  
18 嘅團體嘅書面意見嚟嘅，亦都會邀請署方、局方去參與呢一個嘅會議，我哋就知  
19 悉呢一個係其中一個團體提交嘅書面意見。

20 MR DUNCAN：（經傳譯員）即係話部門都係知悉有呢一個書面意見嘅。

21 陳美寶女士：Yes.

22 MR DUNCAN：（經傳譯員）而家想請你睇下第 664 頁嘅標題第 2，即係話提升安全  
23 嘅機會同埋策略嘅，你可唔可以睇番第 2 點？人面提到國際標準，應該係話道路  
24 交通安全管理，呢度就咁講嘅，國際標準喺 2012 年有一個新嘅標準，係針對公  
25 共交通營運者同埋物流業嘅，呢個亦都係跟從國際標準其他品質保證系統，喺將  
26 來可以由道路安全嘅角度幫助建立一個更加負責任嘅交通嘅運作，我讀番呢一個  
27 嘅引言，就係話因為有新嘅做法，新嘅措施，公共交通策略研究係應該研究所有  
28 有機會--嘅機會可以提供--即係提升安全同埋服務質素嘅。喺 2015 年，呢份  
29 意見書提出之前，又或者喺你研究期間，運輸署有冇研究過引入呢一個國際標準  
30 呀？

31 陳美寶女士：（經傳譯員）我哋知悉道路安全研究小組提出嘅意見，尤其係喺採用呢  
32 一個嘅國際標準組織 39001 呢一個嘅標準，道路安全議會其實喺其他嘅--或者

1 呢個小組喺立法會喺其餘嘅時間都曾經向立法會提出嘅，其實喺尋日嘅口頭聽證  
2 會亦都有提出過呢一點，

3 我哋知道呢一個係關於道路交通安全管理嘅標準，喺 2012 年係最後定稿  
4 嘅，喺多番商量之後，喺 2012 年之後，有幾間嘅運輸公司同埋物流業就喺日  
5 本、韓國或者仲有一啲歐洲嘅國家都有採納呢個標準。我哋知道，對於呢個 ISO  
6 39001 嘅標準，我哋保持開放態度，而家我哋亦都維持自己嘅道路交通安全系  
7 統。

8 正如我尋日解釋，我哋用一個通用嘅數據庫追蹤意外率，我哋去辨認出有  
9 一個模式或者係再制訂一啲補救措施或者防禦策略，呢個國際標準嘅 39001 號  
10 標準係一個更加複雜嘅、仔細嘅標準，關於道路交通安全管理嘅，係要考慮數據  
11 同埋係啲客觀嘅標準，呢方面我哋持開放態度，我哋唔會排除以咁嘅方式喺運輸  
12 署內係提高安全同埋呢個服務質素嘅，令我哋邁向國際化。

13 MR DUNCAN：（經傳譯員）當你話持開放態度，即係你唔係話贊成定反對嘅？

14 陳美寶女士：（經傳譯員）我哋唔係反對。

15 MR DUNCAN：（經傳譯員）咁你係咪支持？

16 陳美寶女士：（經傳譯員）我哋運輸署內已經有既定嘅道路交通安全管理系統，運輸  
17 署當然都會考慮現行嘅或者最新嘅標準去改善我哋嘅系統，又或者係採用英國標  
18 準去改善我哋嘅系統嘅，所以我話我哋歡迎任何措施可以改善我哋嘅系統，我哋  
19 亦都隨時可以研究一下，睇下我哋現行嘅系統可以點樣提升

20 MR DUNCAN：（經傳譯員）2012 年之後，運輸署有冇曾經考慮過呢個標準，睇下能  
21 唔能夠採納呢個標準之後係改善運輸署自己嘅系統嘅標準呢？

22 陳美寶女士：（經傳譯員）喺 2012 年發展同埋頒布呢個新嘅國際標準之後，我嘅理  
23 解，當時都係算係好新嘅一個標準，運輸同物流業都係考慮緊會唔會採用呢個新  
24 標準，所以 2012 年頒布標準之後，我哋所見都係一個新發展嘅一個系統同埋係  
25 一個新嘅——仲係好新嘅。呢一個道路安全研究小組，佢係就住公共運輸策略研  
26 究提出呢個意見，係 2015 年嘅，我哋自己係有個道路交通安全管理系統，我哋  
27 而家亦都係持開放態度，睇下可唔可以採納呢一個標準或者點樣可以改善我哋嘅  
28 系統嘅。

29 MR DUNCAN：（經傳譯員）據我理解，呢份文件唔會係話實際上運輸署去採納呢個  
30 國際標準，而相反，就係啲運輸公司，啲營運者去採納呢個標準嘅。

31 陳美寶女士：（經傳譯員）冇錯。

32 MR DUNCAN：（經傳譯員）運輸署有冇採取任何嘅步驟去同巴士公司傾下，提出畀  
33 佢哋考慮呢？

34 陳美寶女士：（經傳譯員）我哋冇。呢個標準就係道路安全研究小組佢哋提出嚟，作

1 為整體嘅交通策略之一，係好全面、好成熟，亦都有唔同嘅建議同埋意見包含喺  
2 呢個意見書入面，我哋呢一刻就有將呢一個國際標準轉介畀--同巴士公司商量  
3 嘅。

4 MR DUNCAN：（經傳譯員）我想睇第 778 頁，同一份文件冊，我哋都係睇緊道路安  
5 全研究小組嘅一封信，就係 2016 年 6 月 16 號嘅，似乎係回應緊一個公眾諮詢  
6 嘅活動，就係諮詢喺 2017 年九巴嘅專營權續期嘅事情嘅。

7 陳美寶女士：（經傳譯員）我知道嘅。

8 MR DUNCAN：（經傳譯員）毫無疑問，呢一封信同埋佢夾附嘅文件，我相信部門都  
9 係知悉嘅，係咪呀？喺嗰個個個諮詢嘅過程裏面。

10 陳美寶女士：（經傳譯員）係。

11 MR DUNCAN：（經傳譯員）我想請你睇一睇嗰封信，778 頁嗰封信，特別係第一同  
12 埋第二段，其實封信都只係有幾段嘅，呢度就話「回應上述嘅公眾諮詢，我哋就  
13 係喺 16 年嘅 4 月 18 號提交咗一份文件畀政府，我哋嘅意見就係集中係巴士營  
14 運要不斷咁樣係改善個安全，內容就係涉及就係一啲具體題目嘅安全管理系統。  
15 政府交咗畀立法會交通事件委員會嘅文件，就係叫做『政府文件』，係關於係九  
16 巴嘅巴士網絡嘅新專營權，即係話嗰度就只係得一段好短嘅文字，就係講安全，  
17 而且兩個好簡單嘅論點，一個就係話更緊密咁樣樣、去密切咁樣去監察係車長嘅  
18 駕駛行為，同埋就係改善巴士上面嘅安全措施，呢個顯然就係未能夠就係更廣泛  
19 咁樣去睇剛才所講嘅問題嘅，巴士安全係一個好重要嘅題目，所以我哋認為係有  
20 需要將原本嗰份文件直接交畀立法會嘅交通事務委員會參考嘅。」

21 佢所謂原本嘅文件，你可以睇番嘅，就 779 頁，一路就去到 783 頁嘅，我  
22 想麻煩你睇一睇 781 頁。你會見到嗰個標題就係巴士安全--道路安全管理制度  
23 嘅系統，呢度就係有提番係 ISO 39001 國際組織標準--國際標準組織 39001  
24 嘅，呢度就話一個質素保證嘅系統就係鼓勵車隊嘅營運商就係更加問責同埋就係  
25 更主動咁樣去減少意外嘅出現同埋嗰啲風險減少嘅。

26 呢度就係有兩個建議嘅，就話根據新嘅專營權嘅要求，就應該鼓勵巴士公司  
27 係去採納一個更加先進嘅道路安全管理系統，而且應該就係更加靠近 ISO  
28 39001 嘅，亦都話就政府應該同巴士公司一齊就去研究一下呢個巴士嘅意外同  
29 埋嗰個風險，更加詳細咁睇，希望有一啲係減少意外呢一啲嘅目標嘅。

30 我個問題就係話部門有冇採取呢啲步驟去鼓勵巴士公司去採納呢一個係 ISO  
31 嘅標準呢？

32 陳美寶女士：（經傳譯員）呢份陳述書係其他嘅持份者係交畀立法會交通事務委員會  
33 嘅，當時就係要睇呢個九巴專營權續期嘅問題，當年要處理嗰個問題嘅，當時立  
34 法會嗰個焦點就係喺幾樣嘢嗰度嘅，或者大家都可以再睇番我哋嗰個交畀立法會  
35 嘅文件嘅，我哋亦都交咗畀委員會嘅，我可以叫我嘅同事等陣間睇番嗰份文件出  
36 嚟嘅，另外喺我哋交畀立法會嘅文件嗰度亦都提咗幾個關鍵嘅建議，即係話喺同

1 佢哋續期嘅時候有啲咩嘢關鍵嘅論點。

2 呢一度係道路安全研究小組嘅陳述書，佢講到就係講到話要求就係我哋鼓勵  
3 巴士公司係採納一個更加先進嘅道路安全管理系統，係更加貼近呢個 ISO  
4 39001。我哋冇好具體咁樣係叫巴士公司做呢樣嘢，但另一方面，多年嚟，巴士  
5 公司都係畀我哋要求係要有一個內在嘅監管制度嚟到去睇個意外同埋係睇佢哋  
6 個安全表現，一方面運輸署亦都有自己嘅安全管理系統嘅，我哋亦都獨立進行  
7 呢個分析嚟到係規劃、做同埋係達致目的，呢個都好似 ISO 39001 嘅。

8 39001 比對嚟講，對比呢個 9001 就係新一啲嘅。其實 9001 就係更加係闊  
9 嘅，即係對比起 39001，我哋就覺得佢係一個比較新嘅一個標準，所以我哋未  
10 有係特別係具體咁樣喺個時候同巴士公司提呢一個標準。

11 MR DUNCAN：（經傳譯員）39001 呢個標準係同巴士公司做開嘅管理系統係點樣比  
12 較呢？邊一個係好一啲呢？

13 陳美寶女士：（經傳譯員）或者係請總工程師係講一講呢個 39001 有啲乜嘢特色。

14 MR DUNCAN：（經傳譯員）我諗我哋唔需要嘅，唔需要講好多細節嘅，唔需要講好  
15 多細節話個標準係包括啲乜嘢嘢，我哋好想知道兩者點樣比較，個個優劣喺邊  
16 度。

17 邱國鼎先生：（經傳譯員）主席，正如剛才署長講過，我諗我哋個制度，我哋嘅系  
18 統，我哋個安全管理系統都係做緊同一樣嘢嘅，我哋有一個規劃嘅程序，然後  
19 有一個監察嘅系統，跟住就係分析，我哋會監察同埋分析啲意外嘅數字，然後  
20 就會作一個匯報，報告畀交通安全議會，亦都會係建議一啲措施嘅，譬如話立法  
21 同埋執法。

22 落實咗呢啲措施之後，我哋個結果應該--或者成效應該會喺啲數字個度  
23 反映出嚟，我哋會再次監察住個情況，再去睇下究竟現有嘅政策係咪--措施係  
24 咪需要再進一步檢討嘅。我諗個係原則上大家個管理制度係差唔多嘅，但係  
25 如果話要比較邊個係好啲，我諗就好難嘅，但係原則上運輸署作為一個政府當  
26 局，而我哋認為我哋個安全管理系統都可以做到同樣嘅功效。

27 陳美寶女士：（經傳譯員）其實我哋畀咗文件畀立法會就講呢個專營權嘅續期，大家  
28 可以睇 1100，喺 TD-4 個個文件夾嘅 1100 頁個度，喺立法會當時個討論係  
29 講好多點樣去改善個服務，包括一啲輔助嘅設施，係畀乘客用嘅，以及就係去  
30 發放資料，以及係呢個票價嘅優惠咁樣嘅，亦都有其他同係個利潤管制計劃有  
31 關嘅事宜。

32 MR DUNCAN：（經傳譯員）我想問，部門究竟有冇去比較過 39001 同埋你哋自己個  
33 個系統呢？

34 陳美寶女士：（經傳譯員）對唔住，講一次。

1 MR DUNCAN：（經傳譯員）你哋有冇比較過 ISO 39001 同埋係你哋自己已經係有嘅  
2 個套系統呢？

3 陳美寶女士：（經傳譯員）我哋仲未有係全面或者有系統咁樣樣進行呢一方面嘅檢討  
4 嘅，特別係我哋都提過 ISO 39001 相對嚟講都係比較新嘅，對比起--同埋就係  
5 比交通行業嚟講，就係比較一個新嘅標準，我哋仲未進行呢個檢討。

6 MR DUNCAN：（經傳譯員）不過係 2012 年嘅時候已經係引入咗個囉嘢？

7 陳美寶女士：（經傳譯員）係。我諗佢喺 2012 年頒布咗之後，其實係運輸、物流個  
8 個界別個採納率係對比起 ISO 9001 個個佢哋採納個個比率就係比較慢嘅、  
9 低一啲嘅。或者邱先生都可以講一講個係有幾多人係採納個個比率嘅。

10 邱國鼎先生：（經傳譯員）2012 年只不過係幾年之前，你可能覺得一個好長嘅時  
11 間，但係從管理個角度，幾年只係一個好短嘅時間，講番海外嘅經驗，其實呢一  
12 個系統只係營運者就係採納嘅，就算喺星加坡或者係英國，佢哋仲喺度研究緊  
13 嘅，佢哋都仲未係承諾話會係採用呢一個系統嘅。你可能話自從 2012 年到而家  
14 已經係一個好長嘅時間，但係從呢個政策個角度嚟到講，特別係以一個部門、一  
15 個政府當局係要係採用某一個系統嘅話，呢一個唔係一個長嘅時間，我哋仲要有  
16 多啲資料，亦都要睇下其他人個個經驗，我哋仲要去進行分析嘅。

17 MR DUNCAN：（經傳譯員）好，唔該。我可唔可以問一個問題呢？我就想問究竟部  
18 門有冇進行過比較呢？比較呢個 ISO 39001 同埋就係睇嚟你哋所見到巴士公司  
19 自己所採納咗管理系統，有冇進行過兩者之間嘅比較呢？

20 陳美寶女士：（經傳譯員）冇。

21 MR DUNCAN：（經傳譯員）你哋有冇打算做呢個比較呢？

22 陳美寶女士：（經傳譯員）改善個個交通安全系統，其實我哋係成日都想做呢啲嘅，  
23 我哋係樂意去做。

24 MR DUNCAN：（經傳譯員）咁你會唔會做？

25 陳美寶女士：（經傳譯員）我哋可以考慮個係咪可以用呢一個方法嚟到去改善佢哋  
26 嘅管理系統嘅。

27 MR DUNCAN：（經傳譯員）或者咁，我想請你睇呢個 782 頁，呢個就係道路安全研  
28 究小組嘅陳述書，782 頁，其實個度有多個建議嘅，或者可以睇番個個標題，有  
29 呢個係巴士安全，以及係駕駛嘅水準，同埋亦都有個個建議咁樣樣。我就想問，  
30 呢一個道路安全研究小組所作嘅任何建議有冇係令你哋部門係進行呢方面嘅研究  
31 呢？

32 陳美寶女士：（經傳譯員）或者我請我嘅同事就睇一睇，然後就係畀一個係回應。

33 邱國鼎先生：（經傳譯員）好，主席。係呀，我哋係收到道路安全研究小組佢哋嘅意

1 見書，時不時都收到佢哋嘅意見書，佢哋係譬如話叫我哋喺某一啲地段、路段就  
2 係有一個低啲嘅車速嘅限制。

3 喺香港，我哋有一個比較簡單嘅三級嘅車速限制，如果係第一層嘅話，就係  
4 嗰個時速限制，係每小時 50 公里，就係市區同埋就係新市鎮嘅市區部分；另外  
5 就係去到係每小時 70 公里或者八十--至到 80 公里嘅，呢啲就係喺嗰個市區同  
6 埋新市鎮以外嘅地方嘅；最後就係最高層就係每小時係 100 公里嘅，呢個一般  
7 嚟講，就係畀一啲係高標準嘅快速公路嘅，喺香港，我哋最高嘅時速限制就係每  
8 小時 110 公里，呢個就只係喺北大嶼幹線嗰度先至有嘅。

9 我哋有一個咁樣嘅三級嘅制度，我哋其實做過一個檢討嘅，呢一個三級嘅車  
10 速限制，我哋搵咗顧問去做嗰個就係檢討。我哋知道呢一個都同海外嘅司法管轄  
11 區而嗰個安全紀錄良好嘅都係差唔多嘅，呢個三級嘅制度對駕駛人士嚟講係一個  
12 好簡單嘅制度，佢哋亦都係好容易熟悉嗰個有關嘅限制。

13 我哋講緊嘅速度限制就唔係話叫道路使用者唔需要理道路狀況，只係跟從嗰  
14 個車速限制就得，只係話呢個係最高嘅車速，任何時候，但係始終司機都要考慮  
15 番當時嘅路面情況。

16 主席：（經傳譯員）即係話車速限制唔代表你一定要揸到去限制嘅時速 50 公里嘅，  
17 只係話一個最高速嘅限制。

18 邱國鼎先生：（經傳譯員）某一個位置，譬如話一個彎位或者一個路段係有啲隱患需  
19 要減速嘅話，唔單只係淨係減速嘅，我哋仲有譬如話係預先有啲嘅道路標記或者  
20 係路牌通知司機「前方可能係一個彎位，有一啲嘅危險，你需要慢速嘅。」我哋  
21 提供充足嘅資訊，但係司機就有責任去確保係安全車速行駛嘅。

22 陳美寶女士：（經傳譯員）主席，我想補充，邱先生講嘅說話其實係我哋文件第 10  
23 號，運輸署嘅文件冊第 10 號第 12 至 17 段係有解釋到道路嘅車速限制嘅定義同  
24 埋我哋嗰個設計嘅，唔該晒。

25 主席：（經傳譯員）我記得我有睇過嘅，都係同一點，即係話嗰個車速限制就唔係話  
26 一定要揸到去最高嘅速限嘅。

27 MR DUNCAN：（經傳譯員）我想睇第 782 頁就係佢哋嘅建議，唔係講速度嗰方面，  
28 佢就話要喺呢個嘅專營權文件度加入呢個要求，要設立一個全面嘅標準，同埋利  
29 用安裝咗嘅黑盒去監察司機，要製造一個咁嘅系統，呢點係咪都係喺運輸署入面  
30 都較為關注㗎？

31 陳美寶女士：（經傳譯員）當然都考慮到黑盒嘅科技已經係由 2003 年之後都有相當  
32 嘅發展，黑盒以及有關嘅更新嘅科技同埋其他嘅儀器今朝都係有傾過嘅，喺黑盒  
33 方面有啲嘅基本要求，我哋有向專營公司發出嘅，而我哋嘅車輛牌照組亦都有留  
34 意黑盒嘅技術發展，亦都持續去同專營巴士公司同埋廠商研究，安裝黑盒點樣可  
35 以提升去加強安全，呢個就係其中一個我哋好關注嘅課題，喺我哋工作小組嗰個  
36 嘅工作範圍亦都包括咗嘅，佢哋亦都有商討呢件事嘅。

1 主席：（經傳譯員）但係結果冇修改過畀--即係喺 2004 年向巴士公司發出嘅基本黑  
2 盒嘅要求

3 陳美寶女士：Yet to be reflected, yes, Chairman, you are right.

4 主席：（經傳譯員）譬如話冇包括全球定位系統，只係要求量度個速度。

5 陳美寶女士：（經傳譯員）呢個只係基本嘅最低嘅要求。

6 MR DUNCAN：（經傳譯員）睇下第 783 頁，道路安全研究小組就都有研究過巴士嘅  
7 安全、巴士隊伍，呢個小組嘅建議就係話九巴一路係有投資更新佢個巴士隊  
8 伍，現代化，亦都同意而家啲巴士係舒適同埋設計好好嘅，但係仍然有啲安全嘅  
9 隱患嘅，有啲風險，跟住就有幾點就係呢啲安全嘅風險，喺 2016 年做呢一個諮  
10 詢嘅時候，運輸署會唔會同意道路安全研究小組呢一個嘅觀察呢？即係佢列出嚟  
11 嘅呢啲所謂安全風險呢？

12 陳美寶女士：（經傳譯員）我會話同意嘅，因為呢個其實係一個持續嘅過程嚟嘅，我  
13 哋一路都有要求巴士公司喺準備遠期計劃嘅時候要包含呢啲元素，有啲改善嘅措  
14 施嘅，但係我哋要同營運者商討，譬如建議佢哋加裝某啲設施，同埋喺佢哋遠期  
15 計劃入面要包括一個加裝嘅計劃嘅。有啲例子，譬如係話雙層嘅--喺樓梯嗰度  
16 要裝雙層嘅扶手，喺上層嘅擋風玻璃要有一個橫向護欄，另外係喺上層嘅擋風玻  
17 璃要用強化玻璃。我哋被悉道路安全研究小組嘅建議，不過一路我哋都係喺--  
18 同我哋嘅道路安全標準小組都係好好嘅合作夥伴嚟嘅，我哋亦都有採納佢哋好多  
19 嘅建議，當我哋同巴士營運商開會嘅時候都有呢啲議題，傾下喺車輛內點樣加強  
20 車輛嘅安全。

21 MR DUNCAN：（經傳譯員）你話喺議題係--喺個議程係咪即係話而家先係一個議  
22 程？

23 陳美寶女士：（經傳譯員）唔係，一直都有嘅。

24 MR DUNCAN：（經傳譯員）小組就建議呢啲嘢應該係加入去專營權文件嗰度嘅，但  
25 係你就係話係好似一啲開會嘅過程咁樣？

26 陳美寶女士：（經傳譯員）你可以睇番過去嘅遠期計劃，又或者我哋都有發出一啲要  
27 求，係增強安全嘅措施，亦都有巴士公司寫信回覆，承諾佢哋會加裝譬如話安全  
28 帶等等嘅，加強安全嘅，所以到我哋同佢哋商討係成熟嘅時候，可以應用嘅時  
29 候，我哋就會發一個清單，就係有一啲嘅提升服務嘅事項，畀佢哋加裝或者安裝  
30 啲儀器，當中亦都係包括我哋嘅信件入面提出要求，巴士營運商要做乜嘢，等  
31 佢哋嚟緊嘅遠期計劃入面要加設一啲嘅加裝計劃嘅。

32 MR DUNCAN：（經傳譯員）而家暫時完成呢份文件。

33 主席：（經傳譯員）喺講完呢份文件之前，我想請你協助我，呢個道路安全研究小組  
34 嘅成員係乜人呀？

1 陳美寶女士：Tony has the information.

2 邱國鼎先生：（經傳譯員）係一位鄭先生，據我所知，係幾個成員嘅啫，主席，就係  
3 呢位鄭先生，Julian Kwong。

4 主席：One member?

5 邱國鼎先生：I know he has his friends. Maybe -- to my  
6 information, it's only a few members, and the founder is Mr  
7 Julian Kwong.

8 主席：（經傳譯員）成立咗幾耐呢？

9 邱國鼎先生：（經傳譯員）係唔夠--應該唔夠十年嘅。

10 主席：（經傳譯員）立法會之前有冇--係咪過去幾年都有收到呢一個嘅小組嘅文件  
11 呢？

12 邱國鼎先生：（經傳譯員）就係鄭子憲先生做主席嘅。

13 主席：（經傳譯員）係咩嘢時間呢？

14 邱國鼎先生：（經傳譯員）據我印象，都係近幾年，當我哋喺交通事務委員會提供--  
15 即係商討關於道路安全嘅時候，呢個小組都有提交意見書，我自己都有做過嘅研  
16 究嘅。

17 主席：（經傳譯員）我想知道個時間性嘅問題，第一次係幾時提交一啲建議，大概？

18 陳美寶女士：（經傳譯員）主席嘅問題係呢一個道路安全研究小組係有幾多年嚟都有  
19 提交意見書畀立法會嘅事務委員會？

20 主席：Yes.

21 陳美寶女士：This is the question.

22 邱國鼎先生：（經傳譯員）我有資料。

23 陳美寶女士：Do you need us to do some --

24 主席：（經傳譯員）或者你可以書面回覆番我哋。

25 陳美寶女士：（經傳譯員）可以。

26 主席：Thank you very much.

27 MR DUNCAN：（經傳譯員）陳女士，你可唔可以評價一下呢個道路安全研究小組個  
28 評價係點樣呀？

29 陳美寶女士：（經傳譯員）我唔可以畀評語。

1 MR DUNCAN：（經傳譯員）運輸署嚟講，運輸署有冇尊重呢一個機構嘅意見呀？

2 陳美寶女士：（經傳譯員）我哋對於佢個聲譽或者佢個地位係有乜評語嘅，不過作為  
3 持份者，佢哋會提交書面意見畀立法會嘅，我哋亦都考慮所有呢啲嘅意見，包括  
4 呢一個小組嘅。

5 主席：（經傳譯員）或者起碼你可以咁樣講，視乎佢哋嘅書面意見似乎都係好似係一  
6 啲深思熟慮嘅建議嘅，無論你同唔同意佢建議都好。

7 陳美寶女士：（經傳譯員）佢哋對於道路安全係好有興趣，亦都有係多次係提出一啲  
8 嘅建議。

9 主席：（經傳譯員）無論你同唔同意佢哋建議都好，似乎係做足資料搜集嘅，似乎佢  
10 哋係充分知悉一個議題嘅。

11 陳美寶女士：（經傳譯員）我呢一方面有特別嘅意見。

12 主席：（經傳譯員）你微笑一下，冇其他喇。

13 陳美寶女士：（經傳譯員）任何團體、機構喺立法會聽證會提交書面意見，我哋都會  
14 考慮嘅。

15 主席：（經傳譯員）鄧樂勤大律師，你係繼續講第二個範圍，唔該。

16 MR DUNCAN：（經傳譯員）委員會都知悉係有啲最新嘅措施，係因應深水埗喺 2017  
17 年 9 月嘅意外之後就有嘅，就係譬如修訂咗個指引，同埋喺大埔嘅交通意外，2  
18 月發嘅交通意外之後，亦都有一啲嘅建議嘅，由巴士公司你索取更多資料、成立  
19 咗工作小組等等，我哋理解最近又有新嘅事情，運輸署考慮緊嘅，除咗新措施之  
20 外，咁樣講公唔公道呢？喺 2012 年之後一路至到深水埗嗰個慘劇，運輸署喺解  
21 決安全嘅問題其實有重大改變，喺嗰段期間有重大嘅改變，咁樣嘅講法你覺得公  
22 唔公道？

23 陳美寶女士：（經傳譯員）喺整體道路安全管理監察方面，我想強調我哋有既定嘅系  
24 統，由意外嘅數據庫係分析數據同埋採取一啲更正補救嘅措施，我想畀幾個例  
25 子，就係我哋利用過採集數據之後，做獨立分析，向道路安全議會提交我哋分析  
26 嘅結果。其實咁多年嚟係有一啲嘅建議，都係同道路安全議會商議之後，係因為  
27 監察咗有啲嘅數據，其中 2015 年 6 月關於公共小巴係發放一個嘅牌--小巴司機  
28 牌照之前。

29 主席：（經傳譯員）你再講多一次。

30 陳美寶女士：（經傳譯員）係入職前嘅課程，係為公共小巴司機攞正式牌照而設嘅，  
31 喺 2014 年...

32 主席：（經傳譯員）我唔係好明白，呢個叫入職前嘅課程係咩意思呢？

33 陳美寶女士：（經傳譯員）即係話學員要先上一個入職前課程，就算考完駕駛測試之

1 後，公共小巴司機都要上呢個入職前嘅課程，先至會獲發正式牌照嘅。

2 主席：（經傳譯員）即係話佢哋可以正式揸車出路面之前就要上呢一個嘅課程嘅？

3 陳美寶女士：Yes.

4 MR DUNCAN：（經傳譯員）唔好意思，可能我有解釋清楚我嘅問題，因為我其實唔  
5 係想講公共小巴嘅牌照嘅，唔係同呢個嘅聽證會有關嘅。其實想問嘅，就係話你  
6 係咪可以比較一下嗰個系統或者制度，你係咪想比較呢個小巴嗰個制度？其實  
7 2012 至到 2017 基本上期間都有咩嘢重大嘅改變嘅，係咪呀？我咁講啱唔啱  
8 呢，公唔公道呢？

9 陳美寶女士：（經傳譯員）呢個系統我哋一早係設立咗，我哋會好嚴謹咁樣去規管、  
10 監管同埋監察佢哋嗰個表現嘅，喺呢個系統底下，我哋不時會分析個別巴士公司  
11 佢哋個安全嘅數據，而且亦都會發出要求畀巴士公司，要求佢就係加強嗰個安全  
12 嘅，所以呢個係我哋嘅制度嘅一個部分，個制度有喺度嘅，系統有喺度嘅，亦都  
13 係健全嘅，所以我哋就係有做嗰個規管嘅工作。

14 另外就講番嗰個整體嘅道路安全管理系統，亦都係既定㗎喇，我哋就會做監  
15 察，就會做呢一個跟進嘅，有時可能係需要修訂法例，嚟到係處理--係喺意外  
16 發現咗一啲問題，要去處理嘅。

17 主席：（經傳譯員）2015 年 6 月個情況你講咗，有冇其他啲你想講呢？

18 陳美寶女士：（經傳譯員）都有其他嘅改例嘅，譬如話 2014 年，有要求就係公共小  
19 巴就係就有一個電子紀錄嘅。

20 主席：（經傳譯員）乜嘢紀錄呀？

21 陳美寶女士：（經傳譯員）佢哋要有一個電子紀錄儀器，即係黑盒，黑盒。

22 主席：（經傳譯員）呢個指示係咪書面嘅要求㗎㗎？

23 陳美寶女士：（經傳譯員）呢個係法例嘅修訂。

24 主席：（經傳譯員）係，好。可唔可以講番畀我哋聽有關嗰個資料喺邊度可以搵到  
25 呢？

26 陳美寶女士：（經傳譯員）係，我哋會睇番嘅，應該喺《道路交通條例》底下。

27 主席：（經傳譯員）陣間話畀我哋聽。喺嗰個運房局嘅文件夾嗰度會有嗰個條例嘅，  
28 稍後你哋同事可以話畀我哋聽嘅，而家搵咗，然後之後話畀我哋聽。2014 年，  
29 係咪？

30 陳美寶女士：（經傳譯員）係。另外就係話喺發出正式牌照之前要有一個入職前嘅課  
31 程嘅，呢個亦都係法例嘅要求嘅，我哋亦都會搵番相關嘅文件畀大家睇。喺  
32 2013(sic)年，我哋亦都有嗰個因為要處理呢個醉酒駕駛，我哋有嗰個呼氣測

1 試個方面嘅修訂法例。

2 主席：（經傳譯員）係所有車輛類別嘅所有司機都係受佢嘅管轄嘅，係咪？

3 陳美寶女士：（經傳譯員）係。其實個名單都好長嘅，即係我查過㗎喇，就係由  
4 2010 年開始，不過我唔想講晒咁多出嚟。

5 主席：（經傳譯員）係，鄧律師。

6 MR DUNCAN：（經傳譯員）係，不如咁喇，我哋只係講公共巴士。

7 主席：（經傳譯員）專營巴士？

8 MR DUNCAN：（經傳譯員）係專營公共巴士，我哋淨係睇專營公共巴士，你剛才所  
9 講嘅，我嘅理解咁啱唔啱？2012 年至到 2017 年期間，你就話你個制度好健  
10 全㗎嘛，你個監管、監察嘅制度，一直個幾年都係用你所講嘅一個好健全嘅制  
11 度嘅，係咪呀？

12 陳美寶女士：（經傳譯員）係。12 至到 17 年間，除咗係立法方面有修訂之外--法  
13 例有修訂之外，其實亦都有一啲措施去改善個道路嘅設計、路面嘅標誌或者道  
14 路嘅標記，另外我哋亦都有一個黑點方面嘅調查工作，我哋去分析係個啲意外嘅  
15 數據，就睇下有冇乜嘢補救或者係防範嘅措施嚟到去提升個道路安全嘅水平。

16 MR DUNCAN：（經傳譯員）我想問，直到去個深水埗交通意外，直到個陣時為  
17 止，當時有冇係同你哋嘅海外嘅對口部門係討論過，就話有冇乜嘢嘅安全管理制度、  
18 安全管理嘅系統佢哋係要求佢哋自己嘅公共巴士公司去建立、制訂咁嘅呢？

19 陳美寶女士：（經傳譯員）根據同事記憶所及，冇同對口嘅海外嘅巴士監管者喺呢方  
20 面有討論過。

21 MR DUNCAN：（經傳譯員）個兩宗悲劇發生之後，慘劇發生之後有冇做過呢？即係  
22 最近一宗同埋之前個宗，你哋有冇同海外嘅規管當局就係問下佢哋嘅安全嘅管理  
23 個方面有冇咩嘢做過呢？

24 陳美寶女士：（經傳譯員）我唔記得我哋有特別就同海外嘅規管當局或者巴士規管當  
25 局就係傾過嘅，不過係我哋睇個個工作時間指引嘅時候，我哋係有研究過海外係  
26 有冇乜嘢嘅要求嘅，其中包括睇咗星加坡、英國、美國、奧大利亞同埋係歐盟嘅  
27 國家嘅。

28 講到呢個時間--工作時間嘅指引，我哋睇過一啲好重要嘅因素，譬如話睇下  
29 佢哋當地嘅營運者點樣營運，亦都睇下佢哋工會有冇乜嘢要求、要求點樣改善  
30 法。我哋自己亦都有睇過海外嘅經驗，嚟到去睇下我哋同人哋比較，係點樣樣。

31 MR DUNCAN：（經傳譯員）係幾時做？

32 陳美寶女士：（經傳譯員）17 年嘅 9 月至到 18 年嘅 3 月，我哋就係檢討個個工作  
33 時間嘅指引，而後嚟就係有啲修訂。

1 MR DUNCAN：（經傳譯員）即係只係講及工作時間，係咪呀？

2 陳美寶女士：（經傳譯員）係。

3 MR DUNCAN：（經傳譯員）你知道呢個道路安全研究小組都有向呢一個委員會就係  
4 提交意見書嘅，你有冇睇過？

5 陳美寶女士：（經傳譯員）你指邊一個？可唔可以再講一次？

6 MR DUNCAN：（經傳譯員）道路安全研究小組...

7 主席：（經傳譯員）或者將佢再打番出嚟

8 MR DUNCAN：Yes.

9 主席：（經傳譯員）喺邊度？

10 MR DUNCAN：（經傳譯員）TU-25。

11 陳美寶女士：（經傳譯員）有，我有睇過。

12 MR DUNCAN：（經傳譯員）我當然謹記主席所提醒，就係話呢個係其中一個睇法，  
13 每一個人都可以有自己嘅睇法，我亦都想知道你嘅睇法，然後委員會就會諗下邊  
14 一個就係一個比較實際可行嘅做法。當然我哋或者會都聽下道路安全研究小組佢  
15 嘅講法，聽下你嘅回應。我就想問你呢個問題，你睇咗呢份文件，我就想問下，  
16 呢份文件裏面有冇任何一個主意、一個概念對運輸署嚟講都係一個好嘅睇法，而  
17 運輸署都應該認真去考慮嘅呢？

18 陳美寶女士：（經傳譯員）我睇咗呢份意見書，我哋係--你哋交嗰個文件夾畀我哋嘅  
19 時候，我哋都有睇到嘅，我睇就係為咗要準備呢一個聽證會，所以我就去睇過  
20 嘅，就唔係話好認真、好詳細咁樣逐個去睇佢哋意見書裏面個別嘅建議，所以就  
21 唔能夠話係作出一個知情嘅回應嘅。

22 不過一般咁嚟講，任何一個團體，譬如話好似道路安全研究小組，特別係呢  
23 一個團體就過往都有交意見畀我哋嘅，我哋一定就會去睇，我哋嘅同事亦都會去  
24 留意，然後日後我哋同巴士公司同埋巴士製造廠嚟嗰個工作小組嘅層面都會去睇  
25 嘅。

26 我有睇過嘅，不過我有足夠嘅時間去逐點、逐點咁樣去睇，所以而家唔能夠  
27 作一個係充分嘅、詳細嘅回應嘅，如果係逐個建議去睇嘅話。

28 MR DUNCAN：（經傳譯員）當然，我明白。我就係或者係想你睇一睇呢份文件嗰個  
29 總結，然後就請你就係去作一個初步嘅回應，因為你話你有時間去充分咁去考  
30 慮，或者係之後，亦都可以畀一個係比較詳細嘅回應，咁樣你覺得可以嘛？

31 陳美寶女士：（經傳譯員）我傾向就唔喺呢個階段係回應佢哋嘅建議。其實呢個意見  
32 書，佢哋係交畀呢個委員會，我哋覺得都可以作為好似畀我哋嘅建議咁樣，我哋

1 可以帶返去睇下嘅，但係我恐怕就未可以喺呢個時候返去再寫一份書面嘅回  
2 應，我哋係認真咁對待佢哋嘅建議嘅，我哋亦都要喺部門裏面係跟番既有嘅程  
3 序，去睇下佢每一項建議究竟係咪可行嘅。其實一般嚟講，任何有用嘅建議，我  
4 哋都持開放嘅態度，我哋都會去睇嘅，但係如果叫我哋匆匆忙忙咁樣去交一個  
5 初步嘅回應，咁樣去問我哋嘅話，就未必係好公道嘅，如果係喺今日呢一個聽證  
6 會嘅咁嘅場合。

7 MR DUNCAN：（經傳譯員）我就想問，你願唔願意係書面係回應呢？因為我都唔想  
8 對你唔公道。

9 主席：（經傳譯員）我諗其實佢已經講咗話唔好，唔會咁樣做。

10 MR DUNCAN：（經傳譯員）佢話唔會？

11 主席：（經傳譯員）唔會。

12 MR DUNCAN：（經傳譯員）我諗你剛才嘅意思係話你唔想我今日喺呢一方面問你問  
13 題，係咪呀？

14 陳美寶女士：（經傳譯員）不如等我再重組一下我嗰個答案，我哋係留意到呢一個道  
15 路安全研究小組交界委員會嘅意見書，我做今次嘅準備工作嘅時候，我亦都有睇  
16 過，不過我唔想係而家向委員會交一個書面嘅分析或者係講一講究竟呢一個研究  
17 小組佢個別嘅建議究竟我哋嘅回應係點，因為我哋要走過嗰個既定嘅程序嘅，不  
18 過我可以向委員會係確保，我睇過佢哋呢一份嘅意見書，我會將佢視為係一啲意  
19 見、一啲建議，而部門係會認真咁去考慮嘅。我哋會喺我哋自己內部嗰度就去  
20 睇，特別係有嗰個工作小組亦都會係認真去睇嘅。我哋亦都會再進一步係會同道  
21 路安全研究小組係傾，就會係希望聽取佢哋進一步嘅意見。

22 MR DUNCAN：（經傳譯員）等我睇下我嘅理解啱唔啱，第一，你今日唔想就呢一方  
23 面係佢哋嘅提議就回應我嘅問題，係咪呀？即係道路安全研究小組嘅建議，我今  
24 日問問題，你唔願意回答，係咪呀？

25 陳美寶女士：（經傳譯員）我可以嘗試去回答，但係唔應該被視為係部門深思熟慮係  
26 諗清楚係個別嘅建議是否可行嘅一個回應，因為喺呢一方面，我哋未有作咁嘅準  
27 備

28 MR DUNCAN：Okay.

29 陳美寶女士：（經傳譯員）但我哋願意係協助委員會，我哋可以係初步咁樣作一個回  
30 應嘅，如果咁樣做可以係幫助到檢討委員會。

31 主席：（經傳譯員）係，佢可以隨時話畀我聽有邊一部分佢係答--唔答到嘅。

32 MR DUNCAN：（經傳譯員）即係你唔想提交嗰個書面嘅陳詞，據主席嘅講法，即係  
33 你寧願係--係咪即係話會返去再仔細研究呢？

1 陳美寶女士：Correct.

2 主席：（經傳譯員）經過政府既定嘅程序？

3 陳美寶女士：（經傳譯員）冇錯。

4 MR DUNCAN：（經傳譯員）我而家帶你睇番一啲部分，都應該大家關注嘅，首先 27  
5 頁撮要，第 5 段，佢嘅觀察，就係話關於巴士嘅安全風險係要考慮個嚴重程度同  
6 埋個情景，然後有唔同嘅情景，下面就講，譬如係話乘客失平衡，同埋係同行入  
7 或者係踩單嘅人士相撞，呢個都係可以潛在嘅、好嚴重嘅風險，譬如係話係追尾嘅  
8 撞車，或者係對頭撞車，或者係撞到路邊嘅物件，因為常見同埋潛在係嚴重嘅，  
9 另外就係翻側都係不常見，但係可以係潛在非常之即係災難性嘅。邊一方面係特  
10 別關注呢？

11 陳美寶女士：（經傳譯員）我會覺得咁樣去形容大家尤其關注嘅意外都係好公道嘅，  
12 尤其是頭先提到嘅一啲情況，的確喺我哋嘅獨立數據分析都有提到，同埋喺我哋  
13 監管專營公司佢哋嘅遠期計劃提供嘅分析亦都係一樣嘅。

14 MR DUNCAN：（經傳譯員）係咪亦都係類似呢？

15 陳美寶女士：（經傳譯員）呢啲係一啲大家都關注嘅事項嘅。

16 MR DUNCAN：（經傳譯員）跟住嗰段，就話過去咁多年曾經係引入唔同嘅措施去改  
17 善巴士安全，但係唔透徹理解問題所在嘅話，係好難獲得好大嘅改善，而而家呢  
18 個情況會繼續嘅，你同唔同意咁講呀？

19 主席：（經傳譯員）或者你唔可以回應到，因為佢講得咁概括。

20 陳美寶女士：（經傳譯員）冇錯，主席講得啱。

21 MR DUNCAN：（經傳譯員）揭去跟住嗰頁，我請你睇番建議，呢個安全系統嘅方法  
22 應該係採納呢個方法，即係話包括車輛、道路、人性嘅因素同埋管理，仲要有一  
23 啲主動嘅措施去防止有撞車同埋一啲被動嘅措施就係要減低受傷嘅程度，大家一  
24 樣重要嘅，短期方面有啲主動嘅措施，譬如係根據一啲運作上嘅標準，同埋係監  
25 察系統係可以儘快實施嘅。喺某啲道路--某啲地點係譬如冇安全撞欄嘅、會有  
26 嚴重翻側嘅風險，譬如話山頂道、淺水灣道、大潭道係非常之高嘅風險，呢啲短  
27 期措施必須要儘快實施。

28 中至長期，啲被動嘅措施，啲減低撞車帶嚟嘅後果都--嚴重性都係好重要  
29 嘅。呢個主要就係有兩方面，我讀番呢一段，就係--冇錯喇，中至長期，有啲  
30 被動嘅措施要減低撞車帶嚟嘅嚴重後果，呢啲好重要嘅，可以有兩方面去做，譬  
31 如係話巴士設計同埋道路設計。你可能都會話呢個係好概括嘅一個評語。講到安  
32 全欄或者防撞欄，喺某啲地點，譬如頭先講嘅，你覺唔覺得都值得關注嘅事呢？

33 陳美寶女士：（經傳譯員）順帶一提，因為某啲喺香港島嘅地方係彎位多，我哋持續  
34 都係關注個道路安全嘅，過去我哋會睇番嗰個地點個道路情況，同埋會考慮各個

1 因素，睇下採用啲乜嘢嘅補救或者防禦措施嘅。

2 同時，我亦都想同委員會匯報，運輸署同路政署其實係有做一個嘅顧問研  
3 究，就係睇下喺香港嘅道路網絡入面係邊一度嘅路邊行人係會有啲安--即係嘅  
4 風險，去用一個更加主動嘅方式去查出路面嘅隱患嘅，亦都考慮到海外嘅技術，  
5 呢一個研究其實喺 5 月中會開始，會持續三十個月嘅。

6 MR DUNCAN：（經傳譯員）你話會發出一個研究，即係係咪一份文件？

7 陳美寶女士：（經傳譯員）一個顧問研究。

8 MR DUNCAN：（經傳譯員）可唔可以提交畀委員會？

9 陳美寶女士：（經傳譯員）可以。

10 MR DUNCAN：（經傳譯員）係咪會回應呢啲好窄嘅山路入面冇安全防撞欄呢個問題  
11 呢？

12 陳美寶女士：（經傳譯員）我唔可以透露任何商業嘅資料，不過我同事提醒我呢個道  
13 路安全研究小組其實係個顧問佢會做呢個研究。

14 MR DUNCAN：（經傳譯員）我諗委員會都希望會聽到好簡單嘅個研究內容嘅。

15 陳美寶女士：（經傳譯員）可以研究範圍或者研究目的都可以嘅。

16 主席：（經傳譯員）唔該。

17 MR DUNCAN：（經傳譯員）跟住就有一個標題，就係運作嘅準則同埋係監察系統  
18 嘅，第 29 頁，頂部提到有兩種嘅準則，一種就係一般嘅，就係講述一般嘅情  
19 景，譬如係喺繁忙嘅市區街道嘅車速問題，有啲係關乎路線嘅，某一啲，譬如係  
20 好窄嘅山路冇防撞欄嘅安全風險，而家有冇咁樣嘅準則㗎？

21 陳美寶女士：（經傳譯員）我唔知道。

22 MR DUNCAN：（經傳譯員）你覺得點？你覺得係咪一個好嘅主意？

23 陳美寶女士：（經傳譯員）我諗佢哋提出咗係用一個更加有系統嘅方法去回應呢啲嘅  
24 關注嘅，呢個準則就係譬如話處理喺某啲路段係好窄嘅山路，冇防撞欄，我覺得  
25 呢個亦都係要先喺地理上找出邊一啲地方係有咁樣嘅情況，再制訂安全嘅措施，  
26 作為一個基礎畀我哋進一步考慮要唔要實施一啲措施或者一啲準則去解決一啲特  
27 定嘅安全嘅風險嘅情景。我可以初步講嘅，對呢件事嘅觀察就係咁。

28 MR DUNCAN：（經傳譯員）跟住就講話國際標準 ISO，我唔繼續講喇。然後就到巴  
29 士設計，有幾個安全嘅措施，佢哋建議應該優先採用嘅，呢啲措施運輸署個睇法  
30 又係點呢？

31 陳美寶女士：（經傳譯員）或者我可以請陳先生回應嘅。我有某啲我都有認知，但係  
32 我諗等陳先生畀一個更加整體嘅、好簡單嘅回應。

1 陳英傑先生：（經傳譯員）我嘗試簡單地講，譬如話巴士前方更安全呢一點，其實所  
2 有雙層巴士而家喺香港運作嘅，都係跟從歐洲嘅標準嘅，正如我頭先提過，...

3 主席：（經傳譯員）百分之九十九都係嚟自歐洲。

4 陳英傑先生：（經傳譯員）冇錯，而專營巴士用嘅巴士車身亦都係符合譬如話英國、  
5 美國、星加坡嘅。雙層巴士都係個趨勢都係用鋁鋼身嘅，呢個係近年嘅全球趨  
6 勢。用嘅物料係強靱啲，即係起碼都係用鋁。

7 我可以解釋下，如果用比起鋁更加強硬嘅物料，喺音意外嘅時候未必係最好  
8 嘅，可能會導致到第二種嘅意外嘅。今日用嘅巴士車身嘅材料已經係國際標準嘅  
9 喇，但係至於巴士前方更安全方面，近年嚟我哋都有啲措施，譬如話前座嘅座位  
10 喺擋風玻璃前面嘅係有安全帶，令乘客唔易拋出車外，而巴士公司都要加強車前  
11 面嘅嗰個構造，令到佢可以支持到嗰個安全帶同個座椅嘅。

12 主席：（經傳譯員）即係意思話佢本身嗰個支架唔係咁夠力嘅？

13 陳英傑先生：（經傳譯員）因為最初舊嘅巴士唔諗住要裝安全帶嘅，只係諗住係有座  
14 位，但係你要加強個繫固，呢個係巴士前方嗰度要做嘅喇。喺呢方面，今日大家  
15 坐巴士前方，扣安全帶嘅就好安全喇。我要唔要討論埋其他嘅要點㗎？

16 主席：Please.

17 MR DUNCAN：（經傳譯員）可以嘅。

18 陳英傑先生：（經傳譯員）安全帶方面，我哋喺技術小組有討論過係咪所有嘅巴士座  
19 椅都要加裝安全帶。

20 主席：（經傳譯員）係新嘅巴士？

21 陳英傑先生：On new buses。（經傳譯員）我都提過，因為加裝嗰方面唔係就咁話  
22 係裝一張凳、加個安全帶。

23 主席：（經傳譯員）我哋理解嘅。

24 陳英傑先生：（經傳譯員）所以呢段係話巴士嘅內裝有咩嘢隱患要處理呢？呢個係我  
25 諗如果巴士設計得好，唔應該係有一啲尖凸嘅邊、物件會令人撞到。呢一個我哋  
26 都好小心去睇。

27 主席：（經傳譯員）我諗有一點可能對我哋更有幫助嘅，或者你可以睇下，佢話以下  
28 嘅安全嘅措施都可以考慮嘅，譬如係 IAS、ESP。

29 陳英傑先生：（經傳譯員）IAS 就係呢個智能嘅速度控制或者調適，就咁睇，我都唔  
30 係好知道嗰個功能係乜嘢嘅，但係如果你係講緊話舊嘅方法，譬如話係將速度計  
31 同全球定位系統同埋個路面嘅地圖係一個整合嘅，提供司機--即係監察司機嘅  
32 情況，同埋係提供數據嘅話，...

1 主席：（經傳譯員）據我理解係咁樣。

2 陳英傑先生：（經傳譯員）如果係咁嘅意思，設計嗰個系統係有呢個功能嘅話，喺技  
3 術小組，我哋都有傾過嘅，現時都仲係商討緊嘅，因為有一啲技術同埋管理方嘅  
4 考慮--即係有啲問題要處理。

5 主席：（經傳譯員）乜嘢係技術問題？

6 陳英傑先生：（經傳譯員）正如我頭先提到或者尋日提過，融合呢一個車速限速器、  
7 全球定位系統去提供嗰架車輛嘅準確位置，然後再同地圖比對，我諗因為整體嚟  
8 講，全球定位系統喺香港嘅操作環境唔係咁準確。

9 主席：（經傳譯員）個問題係咩嘢呢？

10 陳英傑先生：（經傳譯員）因為高樓大廈、四周嘅環境，可能有啲路段，譬如你喺中  
11 環嘅話，兩邊都有高樓大廈，得好少嘅露天範圍。

12 主席：（經傳譯員）但係佢係可以收到衛星嘅訊號，如果係話有大廈喺度就會收唔到  
13 訊號？咁有冇做過研究呢？

14 陳英傑先生：（經傳譯員）我哋同巴士公司研究緊，同埋嗰啲系統嘅供應商，睇下有  
15 冇啲有效啲嘅系統我哋可以採用嘅，所以喺呢一刻，工作小組唔會排除應用呢一  
16 個科技，仍然都係討論緊嘅。

17 陳美寶女士：（經傳譯員）呢個係一個好智能嘅方法嚟到去控制嗰個時速，亦都將佢  
18 就係同路上嗰個地理環境就配對嘅。我哋有講過呢一個系統嘅好處，不過亦都要  
19 確保喺香港本地嘅環境係真係行得通，我哋冇將佢排除，我哋好盡力咁去睇下究  
20 竟係中期或者唔係太遠嘅將來可以係做到，我哋都想去進行呢個試驗嘅。講到嗰  
21 個電子穩定控制系統，我哋就話喺新嘅巴士嗰度已經即時係做㗎喇，至於話自動  
22 緊急剎車系統，我哋都喺度考慮緊嘅。

23 主席：Thank you.

24 MR DUNCAN：（經傳譯員）好，麻煩你揭去第 55 頁，講番話呢一個智能嘅車速適應  
25 系統，或者我哋可以睇番嘅，倫敦佢哋係做緊嘅，呢個都係你哋嗰個對口部門  
26 嘅，係咪呀？

27 陳美寶女士：（經傳譯員）我就想講我個人作為呢一個署長，我自己本人未有機會係  
28 同海外嘅對口當局就係接觸或者係探訪過佢哋，不過我哋嘅部門嘅同事過往有去  
29 探訪過倫敦、美國，佢哋就係因應就係運輸署其他職責範圍--包括其他職責範  
30 圍，有同佢哋係交流過嘅。我哋會係盡量係搵機會同佢--就我哋嘅職責範圍，  
31 就係去交流嘅。

32 MR DUNCAN：（經傳譯員）關乎安全嘅問題？

33 陳美寶女士：（經傳譯員）我嘅副手係去過倫敦嘅。

1 李萃珍女士：（經傳譯員）係呀，譬如話我有去過倫敦同埋星加坡係同當局嘅--當地  
2 嘅運輸署就交流嘅，但係就嗰個重點有些少唔同，我哋就更多就係睇嗰個實時巴  
3 士到站嘅資訊，以及係其他嘅新嘅科技，係讓乘客係得到更多嘅資訊，我哋當時  
4 係睇嗰啲多過就係巴士安全。

5 主席：（經傳譯員）不過我諗你會知道就係倫敦嘅巴士規管當局係有試驗過呢個 IAS  
6 呢個智能車速調適系統嘅，係咪呀？

7 陳美寶女士：（經傳譯員）係，其實就我啲同事就幫我哋度係睇緊--就草擬緊一個行  
8 程，讓我去海外參觀係交流嘅，不過我哋仲未落實嘅，因為而家仲有好多其他嘅  
9 事就係要優先處理㗎。

10 MR DUNCAN：（經傳譯員）係，好，第 29 頁就係講到呢個道路嘅設計，呢度就係話  
11 巴士嘅設計、道路嘅設計，呢度講道路嘅設計同埋係交通嘅管理都係對巴士嘅安  
12 全係起關鍵嘅作用。

13 陳美寶女士：（經傳譯員）你講係第 2 段？

14 MR DUNCAN：（經傳譯員）第 3。第 29 頁嘅第 3 個部分。

15 陳美寶女士：（經傳譯員）道路設計，呢啲關乎係道路嘅設計同埋交通管理，呢個都  
16 係我哋常規嘅道路安全議會嗰個議程嗰度都會睇嘅，我哋就會跟進，我哋亦都想  
17 有一啲防範嘅工作，我哋會睇嗰個道路嘅設計，亦都會睇嗰個防撞欄，亦都會拉  
18 闊嗰啲彎位等等嘅。

19 講到話呢個防撞欄，安全嘅防撞欄，呢個我哋亦都採納㗎--即係因應就係大  
20 埔嘅巴士意外之後有咁樣做嘅。至於話巴士站附近嗰個係提供一啲安全嘅過馬路  
21 嘅設施，我哋不時都係睇嘅，我哋經常都會落區嗰度去睇，亦都同區議會係交流  
22 嘅，我哋會因應有新嘅發展，去睇下要唔要有巴士站，係巴士嘅彎位等等，咁去  
23 睇下係咪需要有合適嘅行人過路設施嚟到係保障行人嘅安全。

24 MR DUNCAN：（經傳譯員）你有提過，就係剛才提過話道路安全議會嘅議程，咁究  
25 竟係乜嘢嘢呢？

26 陳美寶女士：（經傳譯員）你講個審核，其實我哋道路安全監管同埋分析，就係我哋  
27 同道路安全議會一直有咁做嘅。或者我唔應該用「審計」或者「審核」呢樣，因  
28 為我諗用呢個字都要比較小心嘅。呢個係我哋嘅道路安全嘅監察系統。

29 MR DUNCAN：（經傳譯員）我要問嘅問題嘅後面嘅部分，已經去到尾聲㗎喇，或者  
30 委員會係有問題要問你嘅，我自己要問嘅係咁多。

31 陳美寶女士：（經傳譯員）感謝你，資深大律師，感謝你協助我同埋我嘅團隊係回答  
32 你嘅問題。

33

1 委員會的提問

2 羅先生：（經傳譯員）我係有啲問題想問，就係想作澄清嘅，就係你琴晚交上嚟嘅，  
3 就係關乎嗰啲統計數字，不如你揭去呢個第 91 頁，我諗係九巴或者係城巴，係  
4 咪呀？

5 主席：（經傳譯員）我想問，有冇編到頁碼？我諗羅教授就係講番佢自己內部嗰個頁  
6 碼，但係整體，即係跟番我哋嗰個文件嘅頁碼又點樣樣呢？

7 MR DUNCAN: Yes, it has now.

8 主席：Where do we find it?

9 MR DUNCAN:（經傳譯員）TD-1。

10 羅先生：Yes, starting at page 182.

11 MR DUNCAN:（經傳譯員）176 打後。

12 主席：（經傳譯員）咁佢已經入咗我哋嗰個文件夾，係咪呀？

13 陳美寶女士：（經傳譯員）哦，呢個係關乎係呢個遠期計劃巴士安全嗰個章節，係九  
14 巴嘅。

15 羅先生：（經傳譯員）係，好，呢度嘅數字，譬如話下面嗰幅圖就係講係意外之前究  
16 竟係當更咗幾耐嘅，呢度睇下，超過十個鐘嘅，佢嗰個涉及意外率係最低嘅，不  
17 過我哋亦都要睇番嗰個數字，即係譬如話得好少司機係揸超過十個鐘，當然嗰個  
18 比率就係低，所以喺呢方面嘅數字應該係搞清楚啲，讓我哋可以知道嗰個因果。

19 另外，你亦都有--上面嗰個圖表，就話佢哋公司服務咗幾多年，你有呢個零  
20 至到一年，可能純粹係更多嘅司機係屬於呢個類別，所以嗰個比率就高啲，我諗  
21 就係要公道嘅，同埋讓我哋就係更好咁樣去知道背後嗰個成因。我就想問你，你  
22 可唔可以就將呢啲表就係再做過？讓我哋知道究竟嗰個風險係幾多，就唔好純粹  
23 係去咁樣樣分類。當然我知道呢啲數據係嚟自九巴嘅，運輸署可唔可以做番嗰個  
24 表，又或者九巴可唔可以做呢？

25 主席：（經傳譯員）如果係九巴嘅文件，不如我哋係請九巴話畀我哋聽係咪可以係將  
26 佢係修正下呢？

27 陳美寶女士：（經傳譯員）係，我都同意主席嘅講法。

28 羅先生：（經傳譯員）係，好。我想問運輸署嘅，就係講日後嘅報告，就希望你哋日  
29 後唔好用呢一種咁樣樣嘅形式。

30 陳美寶女士：（經傳譯員）呢個係我哋一直都要求佢要經常提交呢一啲數字嘅，呢啲  
31 係巴士公司自己做嘅分析。你剛才嘅建議，我哋一定會謹記嘅，我哋會睇下嗰個  
32 意外分析嘅數據係如何可以係編寫得更好，更精確咁樣樣係將嗰個情況反映番出

1 嚟。

2 歐陽先生：（經傳譯員）多謝主席。我有一個未必係問題，係一個要求，呢個係關乎  
3 係鄧大律師係較早時候提及嘅個報告，係 29 頁，係呢一個道路安全研究小組  
4 個報告嘅第 29 頁，講到道路嘅設計，我哋知道有更多嘅新巴士個設計都係  
5 比以前嘅尺寸為大嘅，講到道路嘅設計，其實有冇話鑑於有呢啲新嘅巴士，就會  
6 係擴闊啲道路，你可唔可以之後書面回覆下我哋，畀啲例子我哋知道即係睇下運  
7 輸署會唔會因應呢啲新嘅巴士，而你哋就係擴闊啲路呢？因為新嘅巴士有啲長到  
8 係 12.8 米嘅。

9 陳美寶女士：（經傳譯員）擴闊路面唔係單單係為咗就係符合呢一啲新嘅車身嘅長度  
10 嘅標準嘅，不過我哋可以返去搵一搵嘅，譬如話有時有啲倔頭路。

11 主席：The turning circle.

12 陳美寶女士：（經傳譯員）我諗我要解釋一下，即係話個譬如話巴士或者其他車輛  
13 佢哋點樣樣喺倔頭路個度轉彎，我哋要確保巴士如果佢係 12.8 米咁長嘅話，譬  
14 如話佢喺附近個度嘅巴士站，特別係一啲新發展區、新嘅住宅發展區，如果佢哋  
15 係有一啲倔頭路，無論係巴士或者其他車輛，我哋都要確保係有足夠嘅空間畀佢  
16 哋去駕駛嘅。

17 歐陽先生：（經傳譯員）如果得嘅話，亦都係睇埋新界地方，因為照我哋所知，新界  
18 就係個道路嘅設計係有所不同嘅，所以我好想知道我哋如何去可以就係讓呢啲  
19 巴士就係可以喺個度行駛嘅。

20 陳美寶女士：（經傳譯員）好，唔該。

21 主席：（經傳譯員）有一、兩樣嘢我就想同你跟進一下嘅，因為你有呢個係九巴嘅文  
22 件，個度就係佢哋嘅遠期計劃嘅，我諗仲係喺你面前嘅，係咪呀？就係九巴佢哋  
23 自己嘅內部嘅頁碼就係 96 頁，就講及係巴士車長嘅培訓同埋監察，當然呢一份  
24 係九巴嘅文件，不過我都假設運輸署都應該睇得明佢哋講緊乜嘢嘢嘅，當佢哋交  
25 份文件畀你嘅時候。呢一頁嘅最尾兩行，乜嘢叫做「實時駕駛指標」？呢啲全  
26 部都係所有嘅巴士個度安裝咗，就可以係讓巴士司機係可以就係引用係佢哋個  
27 環保安全駕駛訓練學番嚟嘅駕駛技術用得著。

28 陳美寶女士：（經傳譯員）我哋同九巴係傾過，亦都係喺九巴嘅董事會個度開會，佢  
29 哋有時都會同我哋講佢哋有啲咩嘢新嘅監察設備，嚟到就係加強或者改善車長個  
30 個駕駛嘅技術或者行為嘅，佢哋亦都有睇到，佢哋可能就係有陣時好大力咁樣  
31 去踩個 brake 嘅，我哋知道呢一方面就係話首先就係睇下，有冇一啲司機就  
32 係揸某一條路線嘅時候成日會咁樣做嘅，然後就會係安裝咗一啲駕駛提示器，提  
33 醒呢啲車長要佢改善駕駛嘅技術，喺個一條路線應該用乜嘢駕駛技術，或者九巴  
34 可以更加好咁樣解釋呢一個儀器嘅功能，點樣可以幫助司機改善佢嘅態度。

35 主席：（經傳譯員）你提到就係話可能喺個儀器度有一個閃燈，然後就開咗個電子紀  
36 錄儀器，睇下會唔會有啲急剎嘅情況嘅，或者係急劇減速嘅情況嘅？

1 陳美寶女士：（經傳譯員）係。

2 主席：（經傳譯員）都係九巴文件，8.4.2 段嘅，第 98 頁，呢個講法係咁嘅，對於  
3 新入職車長嘅工作，會安排佢哋揸一啲容易啲嘅路線，你知唔知九巴係有冇指明  
4 邊啲路線係容易，有邊啲係難呢？

5 陳美寶女士：（經傳譯員）有啲比較複雜嘅路線係有咁嘅形容嘅，如果有指明係複雜  
6 路線嘅話，就可以當成係容易嘅路線，好多時候佢哋提到係複雜嘅路線。

7 主席：（經傳譯員）即係佢哋有個系統決定路線嘅難度嘅，某一條路或者某一段路嘅  
8 難度？

9 陳美寶女士：（經傳譯員）因為據我理解，有啲路線可能包括更多彎位，或者要停多  
10 啲站嘅，更多客嘅，要上落更多嘅客嘅，就唔會話好直接嘅揸一條好短嘅路線，  
11 有啲可能係停好多個站，又會包括唔同區域，有啲路線就亦都會經過一啲嘅交通  
12 黑點、意外黑點嘅。

13 主席：（經傳譯員）第 99 頁，8.5.7 段，呢句係咁講嘅，就話做咗一個調查，有四  
14 十四架巴士係所有嘅座位都係安裝咗一啲三點繫固嘅安全帶，已經喺 2017 年 4  
15 月底嘅時候，然後亦都會做一個調查去評估一下喺巴士上已經安裝咗所有座位都  
16 有安全帶嘅使用率嘅，你知唔知道有咁樣嘅調查？

17 陳美寶女士：（經傳譯員）我哋知道九巴係自己有做呢一個調查，佢哋想調查一下使  
18 用率係點，但係我哋就唔知道調查嘅結果，我哋未知。

19 主席：（經傳譯員）你哋係咪預期對方會通知你？

20 陳美寶女士：（經傳譯員）係，因為喺董事局嘅會議有提到。我哋預期九巴會向我哋  
21 匯報安全帶嘅使用率情況，如果佢唔匯報，我哋都會一定追問。

22 主席：（經傳譯員）好。最後一件事，喺運輸署 1 號嘅文件冊第 8 號文件，睇番技術  
23 嗰度，第 21 段，第 102 頁，就係有一個嘅車速顯示屏，呢方面，我想問嘅就係  
24 技術上係可以安裝嘅，呢個係第 22 段，就話巴士嘅廠商就畀咗意見話技術上係  
25 可行嘅，但係 22 段較後就有個咁嘅意見，巴士公司關注用咗呢個車速顯示屏係  
26 會增加車長同埋乘客之間嘅磨擦同埋拗撬，亦都會令到車長有更大壓力嘅，可能  
27 影響巴士嘅安全駕駛，巴士公司認為呢一個嘅車速顯示屏對於加強巴士嘅安全係  
28 冇幫助。

29 我咁樣理解啱唔啱呢？呢啲嘅顯示屏喺公共小巴都已經用咗一段時間，係咪  
30 呀？

31 陳美寶女士：Yes.

32 主席：（經傳譯員）可唔可以解釋畀我聽幾時喺公共小巴度安裝？

33 陳美寶女士：（經傳譯員）幾年，我哋想講得準備啲，不過係幾年。呢個裝置係安裝

1 喺公共小巴上面，原因係之前有個關注小巴超速嘅問題，呢件事其實喺交通諮詢  
2 委員會都有討論過，喺工作小組工作範圍都有包括呢一方面嘅，要同巴士嘅製造  
3 商、巴士公司再商討下安裝車速顯示屏嘅可行性。我哋 22 段咁寫其實就係而家  
4 討論嘅狀態。

5 主席：（經傳譯員）我哋明嘅，因為而家係個討論只係牽涉三方，即係話巴士嘅營運  
6 商、你哋同埋巴士嘅製造商，佢哋考慮技術上嘅可行性。

7 陳美寶女士：（經傳譯員）另外仲有巴士公司嘅回應，車長覺得安裝呢個儀器會令佢  
8 哋更大壓力，呢個係好敏感嘅地方，我哋要小心考慮，或者要同車長嗰啲工會組  
9 織去睇下佢哋嘅意見係點樣先。

10 主席：（經傳譯員）你會唔會咁樣做？

11 陳美寶女士：（經傳譯員）我哋會。

12 主席：（經傳譯員）你係咪都會諮詢公眾，睇下公眾認為係咪作為乘客，佢哋認為係  
13 咪一個好主意呢？因為佢哋作為乘客，佢哋嘅命都係車長控制。

14 陳美寶女士：（經傳譯員）我哋會考慮所有公眾嘅意見，我哋而家未諗到用咩嘢方式  
15 進行，不過一般有可能嘅做法就係首先同職方工會傾、車長，睇下佢哋嘅反應，  
16 再睇下點樣進一步由立法會嘅交通事務委員會作為一個平台去聽下佢哋意見，再  
17 敲定最終嘅建議點做。

18 主席：（經傳譯員）小巴呢個例子，運輸署又點樣知道公眾都關注超速嘅問題呢，小  
19 巴？

20 陳美寶女士：（經傳譯員）呢個唔單只係公眾關注，而係意外率，因為牽涉小巴嘅意  
21 外率嘅問題就係超速，但係多年嚟小巴嘅意外率都係幾高嘅，其實我可以話比起  
22 專營巴士，公共小巴嘅意外率係更高，所以先要要求小巴入面安裝呢個速度顯示  
23 屏。

24 主席：（經傳譯員）你睇下你可唔可以協助下，喺公共小巴上加裝呢一個儀器，有冇  
25 導致到司機同乘客更多衝突同埋拗撬呢？就好似呢度巴士公司嘅講法，佢哋係反  
26 對安裝呢個車速顯示屏，你知唔知道小巴司機同乘客有冇爭執？

27 陳美寶女士：（經傳譯員）我哋有特別留意到喺——即係話我哋有特別留意到喺搭公共  
28 小巴嘅時候有冇增加投訴，啲乘客。

29 主席：（經傳譯員）我係關注有冇衝突，根據有安裝咗個顯示屏之後，乘客可能有較  
30 多資料知道司機有冇超速，咁有冇增加衝突吖？

31 陳美寶女士：（經傳譯員）據我所知，就有特別增加關於安裝呢一個小巴嘅速度顯示  
32 屏嘅投訴。主席，我補充，公共小巴嘅限速器係 2010 年開始安裝嘅，作為公共  
33 小巴嘅發牌條件。

1 主席：（經傳譯員）唔該。我都問完我需要問嘅問題，我感謝你同埋你嘅同事盡力協  
2 助我哋，我哋亦都會繼續等你哋提交--你承諾會提交嘅書面嘅資料嘅，唔該  
3 晒。

4 陳美寶女士：（經傳譯員）唔該晒，主席，多謝你嘅指導同埋資深大律師嘅協助。

5 主席：（經傳譯員）喺咁嘅情況底下，而家會押後呢個程序，我哋嘅口頭聽證會就係  
6 第一節到呢度，遲啲我哋都會邀請其他各方出席、我哋要先發出邀請，如果對方  
7 接受嘅話，喺我哋網頁會發放資料，睇下幾時會再開聽證會，唔該晒。

(10.00 am)

EVIDENCE FROM NEW WORLD FIRST BUS SERVICES LTD AND  
CITYBUS LTD: MR SAMUEL CHENG, MR WILLIAM CHUNG, MR PAUL LI,  
MR GARETH NG, MR KENNETH LIT, MR KENNY SO (given in  
Cantonese; transcription of the simultaneous interpretation)

CHAIRMAN: Good morning. Today we welcome and thank

Mr Cheng and his colleagues for responding to our  
invitation to assist the committee by giving evidence,  
and he and his various colleagues are available to  
answer as they choose the different questions that  
counsel to the committee pose for them.

But first of all, Mr Cheng, if I can address you  
directly -- make yourself comfortable with the  
translation, first of all. I understand first of all no  
request has been made of the committee that lawyers  
appear on your behalf, and in those circumstances  
I understand that you wish to make a brief statement at  
the outset, and you propose doing so in Cantonese.

MR SAMUEL CHENG: Mr Chairman, yes.

CHAIRMAN: Please do make your statement.

Opening statement by MR SAMUEL CHENG

MR SAMUEL CHENG: Thank you.

Mr Chairman, members, ladies and gentlemen, good  
morning. I would like to thank the committee for

1        inviting us to attend today's hearing. On behalf of New  
2        World First Bus and Citybus, I would like to make the  
3        following brief statement.

4            New World First Bus and Citybus have been operating  
5        franchised bus service for many years. Our core value  
6        is to provide safe and quality bus service. We have all  
7        along been in strict compliance with all the  
8        legislation, regulations, franchise terms governing  
9        franchised bus service, as well as all the guidelines  
10       issued by the Transport Department to franchised bus  
11       operators.

12           New World First Bus and Citybus take a positive  
13        stance towards the present review of franchised buses by  
14        the Independent Review Committee. In the past few  
15        months, we have been reviewing the operation of our  
16        companies, in particular the safety aspect, so as to  
17        identify room for improvement.

18           Recently, New World First Bus and Citybus have  
19        formed a safety committee, to specifically examine all  
20        matters related to operational safety. Initially, we  
21        have identified the following areas for improvement.

22           First, strengthening driver training on new bus  
23        routes for all in-service bus captains.

24           Second, increasing the number of driving training  
25        hours for newly recruited part-time bus captains.

1 Third, providing classroom training, including  
2 training on customer service and EQ management for newly  
3 recruited part-time bus captains.

4 Fourth, providing refresher training, including  
5 training on customer service and EQ management, for  
6 in-service part-time bus captains.

7 Fifth, from 1 June 2018 onwards, all part-time bus  
8 captains will be required to provide information about  
9 the working hours of their principal employment to  
10 enable the companies to better understand whether they  
11 have sufficient rest time.

12 Sixth, upon upgrading the companies' black box  
13 system, in the third quarter of this year, when a bus  
14 captain exceeds the speed limit, the on-board black box  
15 will automatically give out alert signal to the bus  
16 captain.

17 Seventh, we have started to explore the feasibility  
18 of conducting psychological assessment of bus captain  
19 applicants.

20 Eighth, we will continue to explore the feasibility  
21 of introducing new technologies for enhancing safe  
22 driving.

23 Apart from the above, regarding the recommendations  
24 to be made by the Independent Review Committee, subject  
25 to the availability of our financial resources, where  
26

1           feasible, we shall actively consider them.

2           Thank you, Mr Chairman.

3   CHAIRMAN: Thank you, Mr Cheng.

4           I'm now going to ask Mr Duncan, senior counsel, to  
5   pose questions to you. He will be asking questions in  
6   English. They will be translated to you into Cantonese.  
7   And then your answer in Cantonese will be translated  
8   into English. So we will have to learn together how to  
9   do this successfully. It will require shorter  
10   questions, and it will require pauses in answers. So if  
11   we can all bear that in mind.

12          Mr Duncan.

13                           Examination by MR DUNCAN

14   MR DUNCAN: Thank you, Mr Chairman.

15          Mr Cheng, good morning, and good morning, gentlemen,  
16   and again thank you for attending the committee this  
17   morning.

18          Thank you for your opening statement, Mr Cheng.  
19   There are a number of matters that I would wish to  
20   explore with you arising from the submissions that you  
21   have already supplied to the committee.

22   CHAIRMAN: Ms Wong, are you able to confirm whether or not  
23   this is being translated into Cantonese? On which  
24   channel is the translation?

25   MS MAGGIE WONG: It's on channel number 1.

26

1 CHAIRMAN: Thank you.

2 MR DUNCAN: The first matters arise from the franchise  
3 agreement under which the company operates. I'd like  
4 you to turn up the franchise agreement, if you could.  
5 We will find this at bundle reference TD-2 at page 386.

6 Mr Cheng, I'm aware of the fact that you appear on  
7 behalf of two companies. When I ask you questions,  
8 I will probably be referring mainly to "the company",  
9 but by that I will be referring to both companies. If  
10 you wish to distinguish between one company and the  
11 other, please feel free to do so.

12 The document which you should now have in front of  
13 you is the franchise agreement under which Citybus Ltd  
14 operates many of its routes, the latest, I believe, of  
15 the franchise documents under which the company  
16 operates. Do you understand that?

17 MR SAMUEL CHENG: Yes, I understand.

18 MR DUNCAN: Thank you. Can I bring your attention, please,  
19 to clause 7, which you will find on the bundle reference  
20 at page 389. Could you just familiarise yourself with  
21 the provisions of clause 7(1).

22 MR SAMUEL CHENG: Yes, I have read it.

23 MR DUNCAN: We will see reference in that clause to the  
24 grantee providing, amongst other things, such safety or  
25 service enhancement facilities or equipment on its bus  
26

1 as may be reasonably required by the Commissioner for  
2 Transport from time to time. Do you see that?

3 MR SAMUEL CHENG: Yes, I do.

4 MR DUNCAN: I understand from the submissions that you have  
5 provided to the committee that back in 2003, the  
6 committee determined that a black box system, as it's  
7 often referred to, should be introduced on all public  
8 franchised buses. Is that correct?

9 MR SAMUEL CHENG: Correct.

10 MR DUNCAN: Can I ask you this question: apart from that  
11 determination by the Commissioner in 2003, has the  
12 Commissioner required any specific safety features to be  
13 installed on any of your buses?

14 MR SAMUEL CHENG: Yes, there were.

15 Let me cite two examples. The Transport Department  
16 did ask the bus operators -- allow me to use English to  
17 talk about this term -- in relation to exposed seats,  
18 seat belts must be fixed.

19 In addition, a small number of our buses had  
20 a straight and long flight of steps, so the Transport  
21 Department asked us to fix an additional handrail.

22 MR DUNCAN: We are aware that amongst the features carried  
23 on your buses are speed limiters. Do I understand from  
24 your answer that the introduction of a speed limiter is  
25 a matter decided by the company, not required of you by

26

1 the Transport Department?

2 MR SAMUEL CHENG: This was not a requirement from the  
3 Transport Department. The bus manufacturer added this  
4 facility to the bus.

5 MR DUNCAN: So the only requirements which have come from  
6 the Department are the black box system, seat belts, and  
7 the guardrails to which you have just referred?

8 MR SAMUEL CHENG: Yes. Just now I mentioned two examples  
9 that I can recall, but I'm not sure whether there were  
10 just these two facilities. There might be other  
11 facilities but I'm afraid I cannot mention them; I don't  
12 know about that.

13 Let me put it this way. I defer to Mr Li, head of  
14 engineering, to provide you with more information.

15 MR PAUL LI: Chairman, in the annex of our submission,  
16 page 29, annex 1.6, that is annex 1.6 of the first  
17 submission, therein is the agreement between the bus  
18 company and the Transport Department with regard to the  
19 safety features. When we order new buses, they have to  
20 be installed and they have to be considered. They  
21 include the seats, the design of the seats. For the  
22 exposed seats, three-point seat belts have to be  
23 provided. The seats have to have headrests. The design  
24 of the seats and the design of the seat belts and the  
25 anchoring points of the seat belts and the design will

26

1 have to measure up to the European standard.

2 For other safety features, for staircases of  
3 double-decker buses, we have to provide double  
4 handrails, guardrails, so that passengers going up and  
5 down will have the guardrails to hang on to.

6 We have to bear in mind the safety of the glass. We  
7 have to provide a hammer with which to break the glass.  
8 In an emergency situation the hammer will be needed to  
9 break the glass. We also need to provide CCTV. When  
10 buses are reversed, the captain would be able to use the  
11 camera, and the bus captain will also be able to see  
12 what's happening upstairs and also the passengers going  
13 up and down the staircase.

14 In terms of fire prevention, all the materials have  
15 to fulfil the relevant regulations. The relevant  
16 regulations are set out in a table on page 31.

17 In the engine area, we need to install  
18 high-temperature detector. When a bus catches fire,  
19 when a bus experiences high temperature, there will be  
20 alarms emitted in the cabins, in the bus captain's  
21 cabin.

22 In terms of air-conditioning, if the engine area  
23 catches fire, there is a partitioning between the engine  
24 area and the air-conditioning. Between the bus  
25 compartment and the engine area, we need to have metal  
26

1 partitioning wall. If it catches fire, it will not  
2 spread into the compartment of the bus.

3 As regards other features, we need to have a meter  
4 and a speed limiter. The area designed for wheelchair,  
5 no seats, should be installed. For air-conditioning  
6 system, we have to have an all-weather control  
7 mechanism. Near the passenger seats, we have the  
8 air-con fans, for which they can regulate the flow of  
9 the air and the direction.

10 Thank you, Chairman.

11 MR DUNCAN: Thank you, Mr Li.

12 I notice that this document bears the date February  
13 2012. Is this the latest document to be issued in this  
14 respect?

15 MR PAUL LI: Yes, indeed, Chairman.

16 MR DUNCAN: When would the previous document in this respect  
17 have been dated?

18 MR SAMUEL CHENG: Chairman, we don't have that document with  
19 us now. What you are looking at is the document that we  
20 first received.

21 MR DUNCAN: Do you know whether this document is reviewed  
22 from time to time between the Transport Department and  
23 the company?

24 MR SAMUEL CHENG: Mr Li?

25 MR PAUL LI: With the publication of this document, indeed  
26

1           it was reviewed.

2       MR DUNCAN:   Sorry, there was a review leading up to the  
3           publication of the document; is that what you mean?

4       MR PAUL LI:   Well, this document was discussed at our  
5           regular meetings many times, and in 2012 we finalised  
6           this document.

7       MR DUNCAN:   Thank you.

8           Just before I leave the document, I notice also it  
9           does refer to a speed limitation function. Can you see  
10          that in paragraph 4(a)?

11      MR PAUL LI:   Yes.

12      MR DUNCAN:   There doesn't appear to be any specifications  
13          with regard to the limiting function; is that correct?

14      MR PAUL LI:   As we all know, for our buses, we have the  
15          limiting function, limiting the speed to 70 kilometres  
16          per hour, and we all know that the speed limit is  
17          70 kilometres, that's the limit.

18      MR DUNCAN:   So there's simply an understanding between your  
19          company and the Transport Department but which hasn't  
20          been recorded in detail in the document; is that  
21          correct?

22      MR PAUL LI:   Indeed, yes, sir.

23      CHAIRMAN:    Forgive me if I interject. Was the requirement  
24          for a speed limiter to be fitted to franchised buses not  
25          introduced in the aftermath of the Tuen Mun bus tragedy

26

1 in 2003?

2 MR PAUL LI: Chairman, many years ago the buses had this  
3 functionality for the buses, earlier than 2003.

4 CHAIRMAN: Can you tell us when it was first introduced?

5 MR PAUL LI: In terms of diesel engines, diesel engines have  
6 the functionality of cutting the fuel, and 30 or  
7 40 years ago the functionality was there, although we  
8 couldn't limit the speed to 70kph, maybe 75, 80kph. It  
9 depends on the design of the gearbox and the engine.

10 When Euro II engines came about, we had the  
11 electronic control, and it was easily achievable. We  
12 could limit the fuel supply at the speed of 70.

13 MR DUNCAN: Leaving clause 7 now, could I take you through,  
14 please, to page 393 of the bundle, still with the  
15 franchise agreement.

16 In your submission, you have referred to the matter  
17 of passenger liaison groups, and I just want to ask  
18 a couple of matters with regard to those groups.

19 Could I ask you, please, to have in front of you  
20 clause 15(3) of the franchise agreement, which deals  
21 with the matter of passenger liaison groups.

22 MR SAMUEL CHENG: I beg your pardon. We can't see this on  
23 the screen. What you are referring to we can't see,  
24 sorry.

25 MR DUNCAN: TD-2, at page 393.

26

1           Could you just familiarise yourself, please, with  
2           clause 15(3).

3       CHAIRMAN: I take it you are able to see that now?

4       MR SAMUEL CHENG: Yes, sir. Yes, I can.

5           Yes, I have done so.

6       MR DUNCAN: Thank you.

7           The franchise clause provides for the grantee to  
8           promulgate rules for membership and meetings.

9           Has the company promulgated any such rules?

10       MR SAMUEL CHENG: I defer to Mr Chung, head of operations.

11       MR WILLIAM CHUNG: Chairman, this passenger liaison group  
12       holds meetings every two months. We will hold the  
13       meetings at different bus terminus and passengers will  
14       be invited to come in and express their views. At the  
15       meetings, we will invite the Transport Department  
16       representatives, and our company's representatives will  
17       engage passengers and discuss the relevant issues.

18       CHAIRMAN: I think the question was more specific: has the  
19       company promulgated any rules that govern such meetings?

20       MR WILLIAM CHUNG: We did talk to the Transport Department  
21       as to how this would be done.

22       MR DUNCAN: Yes. Have any rules been issued in writing?

23       MR WILLIAM CHUNG: No, we didn't.

24       MR DUNCAN: You will see in the same clause provision for  
25       the Commissioner for Transport to direct or approve  
26

1 matters in writing. Do you see that reference?

2 MR WILLIAM CHUNG: Yes.

3 MR DUNCAN: As far as you are aware, has the Commissioner  
4 issued any such directions or approvals?

5 MR WILLIAM CHUNG: I'm not sure, because that was quite  
6 a long time ago.

7 MR DUNCAN: But these meetings are held, are they not, from  
8 time to time, even today; is that correct?

9 MR WILLIAM CHUNG: Correct.

10 MR DUNCAN: Can I ask you to refer to another page in the  
11 bundle, this time CTB-2 at page 170. There's  
12 a translation of this in the bundle at page 172-1.

13 You will see that this is annex 4.1 to one of your  
14 submissions, and it seems to constitute notes of the  
15 meeting of one of these passenger liaison groups on  
16 27 February 2018. Do you see that?

17 MR WILLIAM CHUNG: Yes.

18 MR DUNCAN: Now, I cannot see, at least on the translation,  
19 any record as to how many passengers attended that  
20 meeting. Is there any entry?

21 MR WILLIAM CHUNG: The minutes didn't record the number.

22 MR DUNCAN: Would the minutes normally record the number of  
23 people attending?

24 MR WILLIAM CHUNG: These minutes doesn't mention how many  
25 people attended.

26

1 MR DUNCAN: If you go through to page 173 of the same  
2 bundle, CTB-2, page 173, that's apparently notes of  
3 a meeting on 28 February.

4 Are there any indications from those notes as to how  
5 many passengers attended that meeting?

6 MR WILLIAM CHUNG: No.

7 MR DUNCAN: How is it decided which passengers would attend  
8 such a meeting?

9 MR WILLIAM CHUNG: We didn't restrict as to which passenger  
10 may attend. Two weeks before a meeting is to be held,  
11 through the company's website and at the bus terminus  
12 where the PLG meeting will take place, a notice will be  
13 put up to inform passengers about the time and date of  
14 the meeting. On the relevant date, the passengers can  
15 freely attend the meeting.

16 MR DUNCAN: Typically, how many passengers would turn up?

17 MR WILLIAM CHUNG: It depends on the location. Generally  
18 speaking, there would be eight or ten.

19 MR DUNCAN: When you say it's at a terminus, is there a room  
20 at which the meeting would take place, or does it take  
21 place outdoors or ...?

22 MR WILLIAM CHUNG: We will make arrangements so that there  
23 would be a bus parked at the bus terminus. On the bus  
24 body we will put up a notice saying there is a passenger  
25 liaison group. There are also staff members outside the

26

1 bus, urging passengers to attend the meeting.

2 MR DUNCAN: Can I take you back to page 170 again, and bring  
3 your attention to entry number 3 on that document, the  
4 translation at 172-1. The translation reads:

5 "Proposed to add a bus speed indicator (similar to  
6 that of the minibus) to all buses and emit noise when  
7 they exceed the speed limit."

8 Do you see that reference?

9 MR SAMUEL CHENG: Yes.

10 MR DUNCAN: Can I bring your attention to what is recorded  
11 as the company's response:

12 "In response to the installation of certain  
13 facilities on the bus, the company will carry out  
14 assessments based on factors such as operation costs,  
15 economic benefits and the technical front. Currently,  
16 there is no plan to install the relevant facilities."

17 Do you see that entry?

18 MR SAMUEL CHENG: Yes.

19 MR DUNCAN: Has the company, since February 2018, carried  
20 out any assessments as referred to there?

21 MR SAMUEL CHENG: Well, we carried out an assessment in  
22 another area. We are worried that there would be  
23 a greater likelihood that the passenger may have  
24 a confrontation with our bus captain.

25 In recent years, we have had confrontation between  
26

1 bus captains and bus passengers, so we are concerned.  
2 Say, for example, for a particular stretch of road, the  
3 speed limit may be 50kph, and then at that time a bus  
4 captain may be driving at, say for example, 52kph. From  
5 the perspective of the bus passenger, he would regard it  
6 as speeding, exceeding the speed limit. If the  
7 passenger chooses to take this up with the bus captain  
8 right on the spot, this will cause a nuisance to -- this  
9 will disturb the bus captain.

10 Therefore, our company has chosen to work through  
11 the black box system so that we can become aware of the  
12 performance of the bus captains, like whether he has  
13 exceeded the speed limit, and then we can work through  
14 our internal disciplinary mechanism, and we will follow  
15 our internal instructions to discipline bus captains who  
16 have been caught speeding.

17 We believe that in this way we won't be creating  
18 a scenario in which there will be confrontation between  
19 the bus captain and the bus passenger, while at the same  
20 time we can monitor whether our bus captains have been  
21 exceeding the speed limit.

22 Thank you.

23 MR DUNCAN: So do I understand from that, Mr Cheng, that the  
24 company has actually decided not to install the speed  
25 indicators?  
26

1 MR SAMUEL CHENG: At this moment, our assessment is that  
2 there is no need to install such a speed limit display  
3 unit.

4 Regarding the monitoring of the bus speed, we will  
5 rely on our black box system. We believe that this is  
6 more effective.

7 MR DUNCAN: The committee is aware that these indicators  
8 have been installed as per a requirement of the  
9 Transport Department in public light buses in Hong Kong.  
10 You would be aware of that?

11 MR SAMUEL CHENG: Yes, I have seen public light buses  
12 equipped with such display units.

13 MR DUNCAN: Has the company made any enquiries as to whether  
14 that has caused confrontation between the PLB drivers  
15 and their passengers?

16 MR SAMUEL CHENG: Well, many people take public light buses,  
17 all because they are driven at a high speed. So I don't  
18 think that when passengers see that there is  
19 an exceedance of the speed limit, there will be  
20 a confrontation.

21 For the people in Hong Kong, for those who take  
22 public light buses, especially during nighttime, this is  
23 quite common. So, when compared with taking a ride on  
24 a franchised bus, this is different.

25 MR DUNCAN: Can we go back to the franchise document,  
26

1           please.

2       CHAIRMAN: Before you do that, Mr Duncan -- it appears,  
3           then, Mr Cheng, that the companies have decided not to  
4           install the speed indicators on buses at the moment?

5       MR SAMUEL CHENG: Unless this becomes a requirement,  
6           otherwise we do not have the plan to install such  
7           a speed limit display unit.

8       CHAIRMAN: Have you communicated this decision to your  
9           passenger liaison group, in view of what was said in  
10          February?

11      MR SAMUEL CHENG: Mr Chung will answer this question.

12      CHAIRMAN: Thank you.

13      MR WILLIAM CHUNG: I think on the spot we have given a reply  
14           to that passenger, as indicated in the response. That  
15           is, at this moment we do not have a plan to install such  
16           a facility.

17      CHAIRMAN: Have you communicated the results of your  
18           assessment as to the factors such as operation costs and  
19           economic benefits and the technical front?

20      MR WILLIAM CHUNG: When we answered the passenger's  
21           question, we did mention those factors.

22      CHAIRMAN: Well, you were carrying out an assessment; that's  
23           what the minute says. Have you carried out  
24           an assessment, and if so have you communicated that to  
25           the passenger liaison group?

26

1 MR WILLIAM CHUNG: No, we did not. That's because we do not  
2 have the contact details of the passenger.

3 CHAIRMAN: Did you carry out an assessment?

4 MR SAMUEL CHENG: Mr Chairman, we have not started this  
5 assessment. This is because we tried to look at it from  
6 another perspective. The concern instead is on the  
7 possible confrontation between the bus captain and the  
8 bus passenger. We believe that this is the main reason  
9 as to why we do not plan to install such a speed limit  
10 display unit.

11 CHAIRMAN: Thank you.

12 Mr Duncan.

13 MR DUNCAN: Thank you, Mr Chairman.

14 Could I ask you to go back to the franchise again,  
15 and move this time to bundle TD-2 at page 410. Can  
16 I bring your attention to clause 33 of the franchise  
17 document and just ask you to familiarise yourself,  
18 please, with its terms.

19 MR SAMUEL CHENG: Yes, I have done so.

20 MR DUNCAN: Thank you. Can I then ask you to have in front  
21 of you a document from CTB-2 at page 32.

22 At page 32, you should be looking at a document,  
23 it's a little hard to read, but it's annex 2.1 to one of  
24 your submissions, and it's headed, "NWFB Fuller  
25 Disclosure 2017". Do you have that in front of you?

26

1 MR SAMUEL CHENG: Yes, sir.

2 MR DUNCAN: Thank you.

3 Then could you go through, into the document, at  
4 page 42 of the bundle. It's CTB-2 at page 42.

5 Do you see on that page a heading which reads,  
6 "Corporate social responsibility"? Do you see that?

7 MR SAMUEL CHENG: Yes, sir.

8 MR DUNCAN: Do I understand correctly that that is the  
9 document, the corporate social responsibility, which is  
10 required under clause 33 of the franchise document?

11 MR SAMUEL CHENG: Correct, sir.

12 MR DUNCAN: Thank you.

13 This page, I think it's a page, the corporate social  
14 responsibility, is part of this wider document called  
15 "Fuller Disclosure 2017". I haven't been able to find  
16 reference in the franchise agreement to the requirement  
17 for this "Fuller Disclosure" document.

18 Could you inform the committee the basis on which  
19 this document is issued, the "Fuller Disclosure"  
20 document?

21 MR SAMUEL CHENG: Chairman, this document, we publish it  
22 every year, October every year in fact.

23 MR DUNCAN: Is that a requirement, or is it a voluntary  
24 thing on behalf of the company, or what? Because  
25 I can't see it in the franchise agreement. That's the  
26

1           only reason I ask.

2       MR SAMUEL CHENG: This is a requirement of the Transport  
3           Department.

4       MR DUNCAN: When did this requirement come about?

5       MR SAMUEL CHENG: If I remember correctly, it's been more  
6           than ten years.

7       MR DUNCAN: So it's issued annually by the company; is that  
8           correct?

9       MR SAMUEL CHENG: Correct, sir.

10      MR DUNCAN: Can I bring your attention to page 39 of the  
11          bundle, so CTB-2/39, which is headed, "Financial  
12          information".

13      MR SAMUEL CHENG: Yes, I can see that, sir.

14      MR DUNCAN: In particular, does it contain a profit and loss  
15          account for the year ended 30 June 2017?

16      MR SAMUEL CHENG: Yes, sir.

17      MR DUNCAN: Can I bring your attention to the heading,  
18          "Turnover". The turnover is constituted by two items:  
19          first of all, fare receipts, and then advertising  
20          income.

21               Where does the company generate its advertising  
22          income from?

23      MR SAMUEL CHENG: In that year, the advertising income came  
24          from three sources. First, the advertising at the bus  
25          stops. Second, the advertising on the side of the

26

1 buses. Third, inside the buses we have the monitor, the  
2 screen monitor, on which we also have advertising.  
3 Starting from last year, we discontinued that, because  
4 this mode of advertising wasn't popular so we  
5 discontinued that. So from now we have only two sources  
6 of income from advertising.

7 First, that's the advertising from the bus stops,  
8 and the second is the advertising on the bodies of the  
9 buses.

10 MR DUNCAN: Does the company have any plans to generate  
11 advertising revenue from any other source?

12 MR SAMUEL CHENG: As a matter of fact, where we can get  
13 advertising revenue, we have already explored all the  
14 sources.

15 MR DUNCAN: If I could take you back again to the franchise  
16 document, please, TD-2, at page 410. Can I on this  
17 occasion bring your attention to clause 34. Could you  
18 please familiarise yourself with that provision.

19 MR SAMUEL CHENG: I'm done, sir.

20 MR DUNCAN: This clause refers to an annual system report.  
21 Does the company issue an annual system audit report, as  
22 required by this clause?

23 MR SAMUEL CHENG: Yes, sir.

24 MR DUNCAN: Thank you. Has that been referred to in your  
25 submission?

26

1 MR SAMUEL CHENG: Yes, sir.

2 MR DUNCAN: Could you please, if you can, just take me to  
3 the reference.

4 MR SAMUEL CHENG: It is in the first submission. That's  
5 page 15, paragraph 6(a)(iii).

6 MR DUNCAN: Thank you. That contains the name of the  
7 auditing body who attends to the report; is that  
8 correct?

9 MR SAMUEL CHENG: Yes, sir. That is Hong Kong Quality  
10 Assurance Agency, HKQAA.

11 MR DUNCAN: Would the company be prepared to provide the  
12 committee with a sample of one of its latest reports?

13 MR SAMUEL CHENG: Yes, sir, no problem. We can supplement  
14 the information.

15 MR DUNCAN: Thank you.

16 I'm going to leave the franchise document. Thank  
17 you. And I'm going to ask you now to turn to another  
18 document in CTB-2, this time at page 64.

19 MR SAMUEL CHENG: Yes, sir.

20 MR DUNCAN: Are you looking at a document headed,  
21 "Organisational chart"?

22 MR SAMUEL CHENG: Yes, sir.

23 MR DUNCAN: Does this illustrate the senior management  
24 structure of the company?

25 MR SAMUEL CHENG: Correct, sir.

26

1 MR DUNCAN: Does the company have a dedicated safety  
2 department?

3 MR SAMUEL CHENG: Well, in this document, there is the head  
4 of operations. Under this particular division, there is  
5 a department which is responsible for service quality.  
6 If there are bus captains whose service leaves something  
7 to be desired or he has committed some wrongdoing or if  
8 he was involved in any traffic accidents, that  
9 department would be responsible for investigation and  
10 disciplinary actions.

11 Thank you.

12 MR DUNCAN: Does the company have a department which is  
13 looking proactively at the matter of safety, as opposed  
14 to reacting to breaches of safety requirements?

15 MR SAMUEL CHENG: Mr Chairman, for the past practices, if  
16 there is new technology available, my colleagues would  
17 make a report to me, and if necessary I would gather  
18 together the senior management to explore the  
19 feasibility of these ideas.

20 If there is a major traffic accident, for instance,  
21 my colleagues, Mr William Chung, head of operations,  
22 Mr Paul Li, head of engineering, and all the relevant  
23 managers, will review and investigate into the causes of  
24 the accident.

25 Recently, we have formally set up a safety  
26

1 committee. This safety committee is tasked to review  
2 and scrutinise all the safety issues in the company.

3 For this safety committee, the membership includes  
4 myself -- I'm the chairman -- as well as the head of  
5 operations, the head of engineering, the head of human  
6 resources and administration, as well as the senior  
7 operations manager and senior engineering support  
8 manager. So I've just mentioned the membership of the  
9 safety committee.

10 In the bus operating environment in Hong Kong,  
11 I think the members are very experienced. I mentioned  
12 a few members. Each of us has had more than 20 years'  
13 experience in bus operations.

14 Thank you.

15 MR DUNCAN: If I understand it correctly, the formation of  
16 that safety committee is a very recent development; is  
17 that correct?

18 MR SAMUEL CHENG: Correct.

19 MR DUNCAN: So just when?

20 MR SAMUEL CHENG: Roughly three weeks ago.

21 MR DUNCAN: Right. Prior to that, was there any particular  
22 person employed within the company whose responsibility  
23 was safety?

24 MR SAMUEL CHENG: No. We didn't have a specific employee  
25 for that purpose. This is because, for safety-related  
26

1 matters, we who are seated here today from the senior  
2 management share such responsibility.

3 MR DUNCAN: The committee appreciates that as time goes by,  
4 technology with regard to safety devices can change, can  
5 evolve. Up until the time of the formation of this new  
6 committee, who in the company had the responsibility of  
7 keeping up with changes in technology?

8 MR SAMUEL CHENG: For safety-related technologies, as to the  
9 source of our information, it mainly comes from the  
10 suppliers of our buses. For the bus suppliers, if they  
11 become aware of new technologies, and if it has been  
12 proven to be effective, they will tell us when they have  
13 meetings with our people from the engineering  
14 department.

15 Of course, we have to find out about the details, as  
16 to how the new technology will work, and we will find  
17 out whether it is relevant to the application in  
18 Hong Kong.

19 MR DUNCAN: Can I take you to your second submission, at  
20 CTB-1 at page 54.

21 Are you at page 54? This is the first page of your  
22 submission dated 18 May. CTB-1 at 54.

23 MR SAMUEL CHENG: Yes, I'm there.

24 MR DUNCAN: Is it in the second paragraph of this letter  
25 that you have referred to the establishment of the  
26

1 safety committee?

2 MR SAMUEL CHENG: Correct.

3 MR DUNCAN: Is it your intention to employ anybody or  
4 nominate anybody who would have specific responsibility  
5 for matters pertaining to bus safety?

6 MR SAMUEL CHENG: You mean getting somebody from outside or  
7 getting somebody from the company itself?

8 MR DUNCAN: Either. Either way.

9 MR SAMUEL CHENG: Okay. Well, as of now, we do not have  
10 plan to engage anybody from outside to join this safety  
11 committee. As I have said, for this committee, all the  
12 members have a long history of experience working with  
13 bus operators.

14 As far as the company itself is concerned, my  
15 personal view is as follows. For safety-related  
16 matters, the scope will cover many departments. We may  
17 very well be talking about the facilities on board the  
18 bus. It may be related to the training of bus captains.  
19 It may also cover the recruitment of bus captains.  
20 Therefore, for this safety committee, when we talk about  
21 the primary responsibility, the person will be I myself,  
22 because I do oversee all the departments. I am the  
23 chair of this safety committee. So the person in charge  
24 is myself.

25 MR DUNCAN: Are you familiar with the ISO standard  
26

1 ISO 39001?

2 MR SAMUEL CHENG: I only learnt about it recently. I wasn't  
3 aware of it prior to that. No, I'm not familiar with  
4 it.

5 MR DUNCAN: I wonder if you could be shown one of the  
6 documents that has been provided to the committee, which  
7 we will find at TU-1 at page 18.

8 MR SAMUEL CHENG: Yes.

9 MR DUNCAN: Let me tell you, Mr Cheng, this is an extract  
10 from one of the submissions that the committee has  
11 received, this coming from an organisation called the  
12 Community for Road Safety. Are you familiar with that  
13 organisation?

14 MR SAMUEL CHENG: No, I do not know that organisation.

15 MR DUNCAN: Could you please just look at the last entry on  
16 that page, headed, "Bus safety -- road safety management  
17 system", and just read that to yourself, please.

18 CHAIRMAN: Mr Duncan, whilst that's being done, did we not  
19 receive something in the middle of the night from the  
20 Transport Department setting out the membership of this  
21 body?

22 MR DUNCAN: I think we did, Mr Chairman.

23 CHAIRMAN: That might help the witnesses, if some of the  
24 names are drawn to their attention.

25 MR DUNCAN: Have you been able to read that, Mr Cheng?

26

1 MR SAMUEL CHENG: No. I cannot read the membership on the  
2 screen.

3 Well, I can see it now.

4 MR DUNCAN: Do the names of the members of that community  
5 mean anything to you?

6 MR SAMUEL CHENG: There is only one among the many names  
7 that I have seen before.

8 MR DUNCAN: And that is?

9 MR SAMUEL CHENG: Paul Zimmerman.

10 MR DUNCAN: Very good.

11 Can I take you back, please, from the membership, to  
12 the document that I wished you to read, which is TU-1 at  
13 page 18. It's the last paragraph on that page,  
14 Mr Cheng, which continues over the page. Can you just  
15 read that to yourself, please.

16 MR SAMUEL CHENG: Yes. I've finished with that page.

17 MR DUNCAN: Could you also look, please, at TU-1 at page 53.  
18 This is a separate document also issued by the Community  
19 for Road Safety, and I'm asking you to read the  
20 paragraph immediately before paragraph 3.5. The  
21 paragraph is headed, "ISO 39001 road traffic safety  
22 management system". I would like you to read that  
23 paragraph to yourself, please.

24 MR SAMUEL CHENG: Yes, I have done with that.

25 CHAIRMAN: It might help, to put things into context,  
26

1 Mr Duncan, if we have page 25 on the screen. That is  
2 the front page of the document, is it not? So it's  
3 a April 2018 report.

4 MR DUNCAN: Can you look at the front cover of that,  
5 Mr Cheng, "Community for Road Safety. Report on bus  
6 safety in Hong Kong".

7 Can I perhaps ask you this: are you familiar with  
8 that report? Have you seen it?

9 MR SAMUEL CHENG: No, I haven't read it.

10 MR DUNCAN: Those extracts I have shown you suggest that  
11 that particular standard would encourage fleet operators  
12 to be more accountable and proactive in reducing  
13 accidents and risks. Have you seen that in those two  
14 extracts? Have you seen reference to that?

15 MR SAMUEL CHENG: Yes, I read it.

16 MR DUNCAN: Having read that, do you consider that that  
17 would be worthy of consideration by the company?

18 MR SAMUEL CHENG: First of all, Mr Chairman, this ISO 39001,  
19 we don't have any knowledge of it. In Hong Kong, in the  
20 public transport sector, I have never heard of any large  
21 companies that have adopted this ISO.

22 Earlier, at the hearing involving the Transport  
23 Department, it was then that I became aware of  
24 ISO 39001, and obviously I didn't have any idea what  
25 this was all about, so I cannot say whether we will be

26

1 adopting it.

2 As far as our company is concerned, if there is  
3 anything that can be done to help safety, as long as it  
4 is feasible, as long as we have the financial resources  
5 to adopt it, we keep our options open.

6 So, going forward, I think we have to try and  
7 understand what ISO 39001 is all about, what country and  
8 what company has adopted it, and as a result of the  
9 adoption what the effectiveness is. Then we will be in  
10 a position to consider adopting it.

11 Thank you.

12 MR DUNCAN: In the context of safety, does the company from  
13 time to time ascertain from companies overseas --

14 CHAIRMAN: I'm sorry, Mr Duncan, forgive me for  
15 interrupting, but I think it would be fair to Mr Cheng  
16 to draw his attention to how the Transport Department  
17 have dealt with this in their overnight submission.

18 It's at paragraphs 24 and 25 of annex 1, which is on  
19 internal pagination 8 and 9.

20 MR DUNCAN: I think if that can be brought up on the screen.

21 CHAIRMAN: Yes. I think the problem is that because the  
22 material came in overnight, we haven't been able to make  
23 arrangements to do it, but I think it's important that  
24 you should see what view the Transport Department take.

25 Yes, I think that's it. So if you scroll down, 23  
26

1           and 24. Take a moment to read that, Mr Cheng, 23 first.  
2           Could we have paragraph 23 on the screen, and then 24.  
3           I'm sorry, it's 24 and 25 that I want.

4           Perhaps to assist you, Mr Cheng, when we received  
5           evidence from the Transport Department and the Transport  
6           and Housing Bureau, although this standard was  
7           introduced in 2012, they regarded that, so they told us,  
8           as at an early stage of the development of such a  
9           system, and that's perhaps the point they are making  
10          here. In other words, they are waiting to see whether  
11          or not it is effective, and to what extent it is  
12          adopted.

13          It may be that you have nothing to add to your  
14          answer. I just wanted you to be aware of what this  
15          other material was.

16       MR SAMUEL CHENG: Mr Chairman, for this ISO 39001, I have no  
17          knowledge of it, so I'm afraid I don't have anything to  
18          add, sir.

19       CHAIRMAN: Thank you.

20       MR DUNCAN: Just before I leave this topic, can I take it,  
21          Mr Cheng, that given your coming to know of this earlier  
22          than today's hearing, it is something that the company  
23          will at least consider in the future?

24       MR SAMUEL CHENG: Well, in future we will explore what this  
25          is all about. We will consider it, yes.

1 CHAIRMAN: Thank you. I think you have already said, if  
2 it's feasible, you keep your options open.

3 MR SAMUEL CHENG: Correct, sir.

4 MR DUNCAN: I want to turn now to the matter of recruitment,  
5 something you have referred to already this morning.  
6 The committee has been informed, through submissions and  
7 through its hearings, that over the years there has been  
8 a shortage of persons willing to take up the position of  
9 a bus captain. Do I assume correctly that that's the  
10 experience of your company?

11 MR SAMUEL CHENG: Mr Chairman, in recent years, we do  
12 experience difficulties recruiting bus captains.

13 MR DUNCAN: Could I refer you, please, to CTB- 1 at page 24.  
14 This is an extract from your first submission.

15 MR SAMUEL CHENG: Yes, sir.

16 MR DUNCAN: Can I bring your attention to the very last  
17 paragraph on that page. In that paragraph, have you  
18 referred to the fact that in order to comply with the  
19 latest guidelines issued by the Transport Department,  
20 and in order to meet your own internal targets, the  
21 companies will need to engage some 121 additional bus  
22 captains?

23 MR SAMUEL CHENG: Yes, sir.

24 MR DUNCAN: Does the company have any plan to increase the  
25 remuneration of bus captains, in order to attract them  
26

1 to a position in your company?

2 MR SAMUEL CHENG: In March 2018, the company, for the bus  
3 captains, in particular the new recruits, has already  
4 put up the remuneration. The salaries package of the  
5 company has to be in keeping with the labour market  
6 situation.

7 MR DUNCAN: What was the increase in March?

8 MR SAMUEL CHENG: For the new recruits, it was 8 to  
9 9 per cent increase. Sorry, for new recruits, they have  
10 had about 6 per cent increase.

11 MR DUNCAN: The committee has received a number of  
12 submissions which suggest that the remuneration  
13 available to bus captains is not competitive with the  
14 general transport market. I would like just to refer  
15 you, please, to two of those submissions.

16 The first you will find in the miscellaneous bundle,  
17 MISC-2, at page 644. It's actually a document that  
18 starts, I think, at page 643. It's a two-page document,  
19 received from the Democratic Alliance.

20 Have you seen this document before, Mr Cheng?

21 MR SAMUEL CHENG: No, sir. I'm reading it now though.

22 MR DUNCAN: Thank you. Take your time. The particular  
23 aspect I want to bring to your attention is on the  
24 second page, and is headed, under item 2, and in  
25 particular 2.1, which talks about the current salary of  
26

1 franchised bus captains.

2 So by all means familiarise yourself with the  
3 document, but I'm going to ask you specifically about  
4 the entry in clause 2.1.

5 CHAIRMAN: Mr Cheng, if you would like to take up  
6 Mr Duncan's offer and familiarise yourself with the  
7 whole document, we are about to have a morning break and  
8 it may be that you could use that time so that you can  
9 achieve that. Is that what you would like to do?

10 MR SAMUEL CHENG: Yes, sir.

11 CHAIRMAN: Very well. What we will do is we will take our  
12 morning break for 20 minutes. We will resume in  
13 20 minutes' time.

14 Yes?

15 MR SAMUEL CHENG: Chairman, sir, I've got a request. Could  
16 we have the Chinese version, please, for our reading?

17 CHAIRMAN: Yes, of course. I'm sure a hard copy can be  
18 given to you.

19 Mr Duncan, can we do that, a hard copy of the  
20 Chinese?

21 MR DUNCAN: Certainly.

22 CHAIRMAN: So a 20-minute break.

23 MR SAMUEL CHENG: Thank you, sir.

24 (11.29 am)

25 (A short adjournment)

26

1 (11.51 am)

2 CHAIRMAN: Yes, Mr Duncan.

3 MR DUNCAN: Thank you, Mr Chairman.

4 Mr Cheng, did you get a chance to read that  
5 document?

6 MR SAMUEL CHENG: I have done it, sir.

7 MR DUNCAN: The clause I was going to ask you about is  
8 clause 2.1 on the second page, and in particular the  
9 assertion that, according to the Democratic Alliance,  
10 the current salary of franchised bus captains is around  
11 15,000, which is around 2,000 less than that of  
12 a non-franchised bus captain, 17,000.

13 Does that accord with your understanding of the  
14 situation?

15 MR SAMUEL CHENG: Well, I'm not sure how many hours of duty  
16 they are referring to. There are two figures being  
17 cited, \$15,000 and \$17,000. For non-franchised buses,  
18 we don't have any information. Then why don't we focus  
19 our attention on the remuneration of our company?

20 In our company, the remuneration package of our bus  
21 captains is in our first submission.

22 MR DUNCAN: Yes. I don't want to interrupt you. I'm going  
23 to go to that in a few moments. So by all means, you  
24 will have a chance at that time to explain all of that.

25 Is there anything else you want to say about that

26

1 claim, that there's a difference of about \$2,000 between  
2 franchised bus captains and non-franchised bus captains?  
3 Is there anything that you would wish to say about that?

4 MR SAMUEL CHENG: For our company, I dispute the figure  
5 15,000. That's because, for our bus captains, on  
6 average they have two hours of additional duty. So  
7 let's take ten hours of work on average, this is the  
8 figure. And for the monthly salary, they are making  
9 something like \$20,000. That's on the basis of ten  
10 hours of work.

11 For the non-franchised buses, \$17,000 cited, I don't  
12 have any idea how many hours they are referring to for  
13 this amount of money. So I don't think I can make any  
14 meaningful comparison.

15 MR DUNCAN: Thank you. Just before I take you to your own  
16 remuneration figures, there's one other matter I would  
17 like to refer to you, it having been provided to the  
18 committee. That's to be found also in the MISC-2  
19 bundle, this time at page 632.

20 There's a translation, Mr Chairman, at 642-2.

21 CHAIRMAN: Thank you.

22 MR DUNCAN: Could the original Chinese be brought up,  
23 please, at page 632.

24 CHAIRMAN: And who is the author of this document?

25 MR DUNCAN: The author of this document, as I understand it,  
26

1 is the Confederation of Trade Unions, the Labour Party,  
2 and the Federation of Bus Industry Trade Unions.

3 CHAIRMAN: Thank you.

4 MR DUNCAN: Mr Cheng, there is just one page to contend with  
5 on this occasion. Could you familiarise yourself with  
6 the document. I wish to ask you a question or two with  
7 regard to the paragraph which appears towards the bottom  
8 of the page and which is headed, "Protect the wage level  
9 of bus captains, protect bus service quality". Do you  
10 see that?

11 MR SAMUEL CHENG: Yes, sir.

12 MR DUNCAN: Thank you. Please take your time to read that,  
13 and I'm going to ask you a question or two.

14 MR SAMUEL CHENG: I'm done, sir.

15 MR DUNCAN: The assertion in this document is:

16 "Currently the basic salary of newly joined bus  
17 captain of the three bus companies is \$15,364, which is  
18 far lower than the 'median range of land transport',  
19 \$18,200, bus captains have no choice but work overtime  
20 to sustain their living, it is not surprised that the  
21 workforce of bus captains has been diminishing  
22 continuously."

23 Just leave aside the comment, but the comparison  
24 which the author of that document has advanced, does  
25 that accord with your understanding?

26

1 MR SAMUEL CHENG: Mr Chairman, I defer to Mr Gareth Ng, head  
2 of human resources and administration.

3 CHAIRMAN: Yes. Thank you.

4 MR GARETH NG: Mr Chairman, as Mr Cheng said just a moment  
5 ago, for a bus captain, every month, if he is doing two  
6 additional hours of overtime work, the pay will reach  
7 something like HK\$20,000.

8 So here they are talking about the basic salary and  
9 also the median wage. They are not comparing apples  
10 with apples.

11 Thank you, Chairman.

12 MR DUNCAN: We'll get into a little bit more detail on this  
13 in a few moments, but one way of interpreting what has  
14 been said here is that the base salary of a franchised  
15 bus captain, leaving aside overtime, is 15,364, or  
16 thereabouts, compared with the base salary of the median  
17 wage of land transport at 18,200.

18 Are you able to comment as to whether that's  
19 a proper comparison? Leave aside overtime for the  
20 moment.

21 MR GARETH NG: Mr Chairman, our understanding is as follows.  
22 For this land transport median wage, it does include  
23 overtime work, so it is not just covering the basic  
24 salary.

25 Thank you.

26

1 MR DUNCAN: Is it true that the Transport Department does  
2 not lay down at all what the salary, remuneration  
3 conditions of bus captains should be? This is a matter  
4 entirely for the company to determine?

5 MR GARETH NG: Correct.

6 MR DUNCAN: So let us have a look, if we could, just for a  
7 few moments, at some of the remuneration figures with  
8 which you have supplied the committee, Mr Cheng, and to  
9 which you were referring a few moments ago.

10 I think we will find these at CTB-1, page 34.

11 You have set out for the committee there, in  
12 paragraph 9, the remuneration packages of your full-time  
13 bus captains. We first see those for Citybus, recruited  
14 on or before March 1999, and a base salary of \$17,106.

15 Is that correct?

16 MR SAMUEL CHENG: Correct.

17 MR DUNCAN: Then if we turn the page to page 35, there's  
18 a second group, recruited between 1999 and 8 March 2004,  
19 with a basic salary of 15,874.

20 MR SAMUEL CHENG: Correct.

21 MR DUNCAN: Then there's a third group, those who are  
22 recruited on or after 9 March 2004, with a base salary  
23 of 15,364 up to 15,764.

24 MR SAMUEL CHENG: Correct.

25 MR DUNCAN: Then we have, not exactly the same, but we also

26

1 have classifications for New World First Bus Services  
2 Ltd, continuing on pages 35 and 36.

3 If I understand matters correctly, the remuneration  
4 on or after 9 March 2004 is identical for both  
5 companies. So if you look at item (iii) on page 35, the  
6 amounts are the same as appear under item (iv) for New  
7 World First Bus; is that correct?

8 MR SAMUEL CHENG: Correct.

9 MR DUNCAN: Thank you. So let us just keep with page 35, if  
10 we could. And please, I need to understand this  
11 a little further.

12 If one looks, as I no doubt have done, superficially  
13 at this, one would get the impression, perhaps, that the  
14 basic salary of bus captains is actually diminishing  
15 rather than increasing. I get that simply by looking at  
16 the basic salary of persons recruited between March 1999  
17 and March 2004 at 15,874, and then recruited after  
18 9 March 2004, 15,364 to 15,764. Are you able to explain  
19 that? Are they in fact diminishing or what?

20 MR SAMUEL CHENG: Bus captains were recruited at different  
21 times and their basic salary was different. This is  
22 because we looked at the prevailing demand and supply in  
23 the labour market.

24 MR DUNCAN: So there was in fact a decrease post-March 2004  
25 from the position which had preceded that?

26

1 MR SAMUEL CHENG: Correct.

2 MR DUNCAN: Right. Now, why is the basic salary of  
3 15,364 -- sorry, let me ask you this again. What is the  
4 basic salary today, 2018? Where we read "15,364 to  
5 15,764", what is it today?

6 MR SAMUEL CHENG: This is the basic salary that they are  
7 getting, but our company is currently negotiating with  
8 different trade unions as to the pay rise for 2018.  
9 After the pay rise, the figure will be different.

10 MR DUNCAN: So are you able to give an estimate of what the  
11 difference will be, in percentage terms?

12 CHAIRMAN: Perhaps you could say what the difference is  
13 between the two sides.

14 MR SAMUEL CHENG: Well, I have heard from the trade unions  
15 that they have this claim. Well, some unions have asked  
16 for an 8 per cent increase, other trade unions have  
17 asked for an increase of 10 per cent.

18 For the company, we have yet to decide on the rate  
19 of increase. Therefore, at this moment, I cannot guess  
20 as to how much more they were getting. Otherwise,  
21 I will be sending out a wrong or misleading signal to  
22 our trade union representatives, because I just now saw  
23 representatives of the trade unions in the audience.

24 MR DUNCAN: I understand, Mr Cheng.

25 Today, is the prevailing basic salary rate or the  
26

1           actual basic salary rate 15,364 to 15,764, today?

2       MR SAMUEL CHENG:   Correct.

3       MR DUNCAN:   So do I read this correctly that there has been

4           no increase in the basic salary since 2004?

5       MR SAMUEL CHENG:   No.   Well, every year our company

6           negotiates and meets with the trade unions and staff

7           representatives over pay rise.   For the figures that you

8           see here, in fact you are reading the pay levels for

9           2017.   For the year 2018, we have to decide on that

10          after discussion with them.   For the past ten years,

11          every year we have provided a pay increase.   In fact,

12          I can say that for the past 20 years, other than the

13          time when Hong Kong's economy was in a poor shape, the

14          pay level was frozen.   Otherwise, every year we did

15          increase the pay levels for our staff.

16       MR DUNCAN:   So in 2017, the basic salary for a bus captain

17          is 15,764; is that correct?

18       MR SAMUEL CHENG:   For a new recruit, 15,764 for 2017.

19          Sorry, it should be 15,364.

20       MR DUNCAN:   So why have we got "to 15,764"?   Who gets

21          15,764?

22       MR SAMUEL CHENG:   Well, for a new recruit, he will be

23          getting 15,364, and then there will be an increment,

24          depending on the length of service.   The longer you have

25          worked for the company, then the more you will get, and

26

1           you will reach 15,764.

2       MR DUNCAN:   So that's the maximum, 15,764, in 2017?

3       MR SAMUEL CHENG:   Correct.

4       MR DUNCAN:   Then, if I understand it correctly, that's less  
5           than the bus captain would have been getting back in  
6           2004, 15,874; is that correct?

7       MR SAMUEL CHENG:   I don't think you can draw such  
8           a comparison.   This is because they were recruited at  
9           different times and they were subject to a different  
10          remuneration structure.

11           Now, you can see from the figures from our company,  
12          for those recruited many, many years ago, they were paid  
13          more.   That was because at that time it was even more  
14          difficult to recruit bus captains in Hong Kong than now.  
15          With the improvement of the economy of Hong Kong, the  
16          demand and supply in the labour market has also changed.  
17          So, at that time, we offered a lower level of pay and we  
18          were still able to recruit bus captains.   Therefore, for  
19          staff members recruited at different times, they are  
20          having a different pay level.

21       MR DUNCAN:   I understand that, but is this the case -- to  
22          make sure I have a correct understanding of this --  
23          a new recruit who joined the company on 7 March 2004  
24          would have received a basic salary of \$15,874; is that  
25          correct?

26

1 MR SAMUEL CHENG: Correct.

2 MR DUNCAN: Is it also correct that if a new recruit joins  
3 the company today, his basic salary is \$15,364, some  
4 \$500 less than his counterpart joining in 2004; is that  
5 correct?

6 MR SAMUEL CHENG: Correct.

7 MR DUNCAN: Thank you.

8 Now, there are other allowances to which you have  
9 referred on page 35. You have indicated just a few  
10 moments ago that your best bus captains, if I understand  
11 you correctly, generally, with overtime, would earn  
12 about \$20,000 per month. Is that a correct  
13 understanding of your evidence?

14 MR SAMUEL CHENG: Correct.

15 MR DUNCAN: Could you just break that down so we understand  
16 how he gets from 15,364 to 20,000?

17 MR SAMUEL CHENG: So the basic salary is 15,364. Lower down  
18 you can see that for the overtime pay per hour, it's  
19 derived from this formula: basic salary to be divided by  
20 240 and multiplied by 1.5. So you get a figure. It  
21 would be around \$96 an hour. That is, if you do  
22 overtime work, you get \$96 an hour.

23 For our bus captains, he works 25 days in a month.  
24 Every day, on average, he has two hours' overtime work.  
25 In other words, 50 hours' overtime per month. Then you

26

1       apply the figure I mentioned, \$96 per hour, and then you  
2       will get a figure of \$4,800 a month. That's the  
3       overtime pay. \$4,800, and to that you add 15,364, which  
4       is the basic salary, and you will get the figure 20,164.

5       That's the basis of what I said earlier on, roughly  
6       \$20,000 a month.

7       Thank you.

8       MR DUNCAN: If you look back at page 34 of the bundle, the  
9       overtime rate which prevailed before March 1999 was  
10      different from the overtime rate which applies today; is  
11      that correct?

12      MR SAMUEL CHENG: Yes, they are different, correct.

13      MR DUNCAN: Likewise, for the period between March 1999 and  
14      8 March 2004, the overtime rate is different from that  
15      which applied in 1999?

16      MR SAMUEL CHENG: Correct.

17      MR DUNCAN: So has the overtime rate increased or decreased?

18      MR SAMUEL CHENG: Before March 1999, those who joined would  
19      have the overtime rate multiplied by 1.75. March 1994  
20      to March 2004, the overtime rate, it is multiplied by  
21      1.5. After March 2004, the rate is multiplied by 1.5.  
22      That's for Citybus.

23      For New World First Bus, it is somewhat different.  
24      For NWFB, for those who switched over from CMB, the rate  
25      was multiplied by 1.35; that was in 1998. In September  
26

1           1998, thereafter, until now, all of them had the rate  
2           multiplied by 1.5.

3       MR DUNCAN: So, given the differences, the 1.75, the 1.5 and  
4           the 1.35, have the overtimes rates increased over the  
5           years or have they decreased?

6       MR SAMUEL CHENG: Whether there has been a decrease or  
7           increase, as I said for the Citybus, for the earliest  
8           stage, they had 1.75 and then 1.5. For First Bus, for  
9           those who switched over from CMB, it was 1.35, and  
10          thereafter they all had 1.5.

11                So, for the same staff, if he enjoys 1.5, then he's  
12           always on 1.5. Depending on the basic salary, the  
13           overtime rate will also increase per hour.

14                So, for the same person, for instance, with the  
15           passage of time, the overtime pay will not experience  
16           any decrease.

17       MR DUNCAN: What about page 34:

18                "Overtime paid per hour: basic salary/240 x 1.75".

19                That's a higher rate, is it not, than basic salary  
20           divided by 240, times 1.5?

21       MR SAMUEL CHENG: There is a difference when it comes to the  
22           sum worked out from that.

23       MR DUNCAN: The basic salary, if I understand you correctly,  
24           is reflective of eight hours' work; is that correct?

25       MR SAMUEL CHENG: Yes, correct, sir.

26

1 MR DUNCAN: In fact, do any of your drivers work just for  
2 eight hours?

3 MR SAMUEL CHENG: They are in the minority. On average,  
4 they work for ten hours.

5 MR DUNCAN: Is it a significant minority or a tiny minority?

6 MR SAMUEL CHENG: My colleague has to have a look at the  
7 information first.

8 CHAIRMAN: Please take your time.

9 MR SAMUEL CHENG: If their duty hours are eight hours to  
10 eight hours and 30 minutes, then the percentage is about  
11 12 per cent.

12 MR DUNCAN: Is there a dynamic here at all? I mean, do most  
13 drivers want to work the overtime, or is it a situation  
14 of the bus company saying, "You have no choice, you must  
15 work the overtime"? What's the climate in that respect?

16 MR SAMUEL CHENG: The company makes the arrangement for the  
17 shifts for the bus captains. If the shift involves  
18 overtime, then the bus captain will have to work  
19 overtime.

20 MR DUNCAN: He doesn't really have a choice?

21 MR SAMUEL CHENG: No, they don't have a choice. However,  
22 for our bus captains, between them, they can swap their  
23 shifts or their duties with mutual consent.

24 MR DUNCAN: In your view, Mr Cheng, is the amount of  
25 remuneration that the company is able to provide to bus  
26

1 drivers an inhibitor to people wanting to apply for  
2 a position as a bus captain?

3 MR SAMUEL CHENG: That's not the main reason. Obviously,  
4 what level of pay will attract people to join, it varies  
5 from person to person. Some may consider 15,000  
6 reasonable, whereas some others consider that on the low  
7 side. So it varies from person to person.

8 The difficulty with recruitment lies, amongst  
9 others, in the fact that those who are willing to sign  
10 up to become bus captains are mostly living in remote  
11 areas, like in housing estates. If they are required to  
12 travel all the way to turn up for work and then travel  
13 back after work all the way, then they consider that  
14 unsuitable.

15 It is, to our knowledge, the main reason. There are  
16 people turning up wanting to be bus captains every day,  
17 but there is a difference between the number of people  
18 turning up and the number of vacancies. We have  
19 consistent vacancies. It doesn't mean that they don't  
20 want the salaries.

21 MR DUNCAN: The matter to which you have just referred, the  
22 people living in public housing estates in the New  
23 Territories, that is something which is in your  
24 submission, I think, at page 29, CTB-1/29.

25 MR SAMUEL CHENG: Yes, I did indeed, sir.

26

1 MR DUNCAN: Has the company given any consideration to ways  
2 in which that problem might be overcome, apart of course  
3 from changing all the routes? I'm thinking of shuttle  
4 buses, other means of transport for the drivers, things  
5 such as that. Has the company addressed measures which  
6 might ameliorate that situation?

7 MR SAMUEL CHENG: We have all along provided vehicles to  
8 take the staff to and from work. But we will not pick  
9 them up at their doorstep. We have different zones in  
10 our pickup service.

11 MR DUNCAN: What sort of vehicles do you provide for that?

12 MR SAMUEL CHENG: Our buses.

13 MR DUNCAN: On regular routes?

14 MR SAMUEL CHENG: Yes, indeed, at fixed points, fixed  
15 routes.

16 MR DUNCAN: What about shuttle buses, direct routes, so that  
17 people can go quickly from their housing estate to the  
18 terminus? Has that been considered?

19 MR SAMUEL CHENG: Let me elaborate a little bit further.  
20 These are staff buses. They are not the buses for the  
21 franchised routes. These are the buses that are  
22 deployed to areas where we have a large number of bus  
23 captains living there. We pick them up and we will come  
24 back to the depot. Our depot is the place where they  
25 sign in.

1 MR DUNCAN: Mention has been made already of remuneration,  
2 mention is made of the difficulty because people live in  
3 the outlying areas of the New Territories. Are there  
4 any other particular factors which have contributed over  
5 the years to what seems to be a shortage of bus drivers?

6 MR SAMUEL CHENG: As a matter of fact, we have difficulties  
7 recruiting bus captains. It happens over the past few  
8 years.

9 I would like to take this opportunity to make  
10 available some information to the committee.

11 For the past few years, we have found that for the  
12 spare bus captains, for the purpose to cover staff  
13 members on sick leave, have to be increased in the  
14 number all the time. I think -- we believe -- well, let  
15 me say this. I think the reason being that our bus  
16 captains are applying for more and more sick leaves over  
17 the past few years, and therefore we have had this  
18 problem of not having enough bus captains. This is one  
19 of the reasons. We have to recruit bus captains but  
20 then there are bus captains who have applied for sick  
21 leave, and some of them, we have reason to believe or we  
22 have suspected that it's a matter of abuse of sick  
23 leave.

24 Of course, when this happens, and if we have hard  
25 evidence, we did dismiss the relevant bus captain  
26

1 immediately. In other cases, it was highly suspicious,  
2 we thought it was a matter of abuse of sick leave and we  
3 have acted on them.

4 Now, it is always said that there aren't enough bus  
5 captains. So it isn't the case that we haven't got any  
6 applicants. In fact, every day we have applicants, and  
7 for our bus driver training section every day we have  
8 new recruits joining the training section and get  
9 trained.

10 I think the main point is that the issue of sick  
11 leave is causing us a headache.

12 Thank you.

13 MR DUNCAN: Can I take you to page 29 of your first  
14 submission. So that's CTB-1/29.

15 At the bottom of the page, there's reference to  
16 unsocial working hours.

17 MR SAMUEL CHENG: Yes.

18 MR DUNCAN: Just before I ask a question about that, could  
19 I take you, please, also to page 28, the previous page,  
20 where you talk about operational efficiency leading to  
21 a splitting of 14 hours between a full-time bus captain  
22 working for ten hours and a part-time bus captain  
23 working for four hours.

24 So, in the light of those comments, could you give  
25 the committee some idea of a typical working day for  
26

1 a bus driver who works the ten hours? When does he  
2 start, when does he finish, when does he take his rest  
3 time?

4 MR SAMUEL CHENG: May I defer to Mr Chung, head of  
5 operations.

6 MR WILLIAM CHUNG: Mr Chairman, for a normal duty shift, at  
7 about 6 am --

8 INTERPRETER: Sorry, the speaker is not close to the mic  
9 enough.

10 MR WILLIAM CHUNG: -- for those on the morning shift, they  
11 start at about 5 or 6. Generally speaking, at about 1  
12 or 2 o'clock, he will finish the duty, and then he will  
13 be or his work will be taken over by someone from the  
14 night shift. So we have the morning shift as well as  
15 the night shift.

16 So, for a night shift bus captain, he will start at  
17 2 or 3, up to 12 midnight. In addition, we have got  
18 shifts which run longer, so they start at about 6 or 7  
19 and work until 7 or 8 in the evening, covering the peak  
20 hours. Some would also knock off at 6 or 7 o'clock, and  
21 after that, as we have said, we will get part-time bus  
22 captains to work for a few more hours so as to cover the  
23 evening peak hours.

24 Thank you, Mr Chairman.

25 MR DUNCAN: So those hours would necessitate some rest times  
26

1           for the drivers during those different shift periods; is  
2           that correct?

3       MR WILLIAM CHUNG:   Correct.   We follow the guidelines on bus  
4           captain duty hours and rest times, so as to arrange for  
5           their duty hours and meal hours.

6       MR DUNCAN:   So a rest time, if I understand, could be up to  
7           two to three hours in the course of a shift; is that  
8           correct?

9       MR WILLIAM CHUNG:   Could be, but just for a minority.  
10           Generally speaking, if we are talking about a longer  
11           shift, having 12 or 13 hours, then our arrangement will  
12           be such that there will be a tea break, at least  
13           30 minutes of tea break.   Then there is also a meal  
14           break with at least 60 minutes.

15           If we talk about a ten-hour shift, then perhaps he  
16           will only get one meal break no less than one hour's  
17           length.

18       MR DUNCAN:   Right.   So, if he is working ten hours from  
19           start to finish, for what period would he be driving  
20           through those ten hours, approximately, on average?  
21           Eight hours?   Nine hours?

22       MR WILLIAM CHUNG:   Well, if somebody is on a ten-hour shift,  
23           then the driving hours would generally be about eight  
24           hours or so, because you have to take out an hour's meal  
25           break, and before he starts he will be given time to

26

1 make preparation, like inspecting the bus. For every  
2 trip, one-way trip, when he comes back to the bus  
3 terminus, there is time for layover, so a brief pause.  
4 So then he can alight from the bus to go to the restroom  
5 or to have a sip of water.

6 MR DUNCAN: So his tea break and his meal break, he is paid  
7 overtime for that; is that correct? So, if he works ten  
8 hours, an hour or so of which is a meal break, he's  
9 getting eight hours at the standard rate plus two hours  
10 of overtime; is that a correct understanding?

11 My question is aimed at the meal break. Is he paid  
12 for the meal break?

13 MR WILLIAM CHUNG: Correct. The meal break as well as the  
14 rest times are paid.

15 MR DUNCAN: Right.

16 Look at page 30, CTB-1, page 30. The writer has  
17 referred to "demands and aspirations of bus captains",  
18 and amongst them are the aspirations for more facilities  
19 at the bus terminals.

20 What exactly are the aspirations in that respect?

21 MR SAMUEL CHENG: At the bus terminus, generally speaking  
22 there's a room for the bus captains to take a break.  
23 Generally speaking, it is rather small. This is because  
24 the company doesn't own the land. Usually, it would be  
25 on the property, on a private property. We always want  
26

1 to provide a larger room for our bus captains, and this  
2 is exactly what our bus captains would like to get.

3 There is one other point. At the bus terminus, you  
4 may not have a toilet nearby, but then our bus captains  
5 do have to use a toilet. So there's the demands and  
6 aspirations of our bus captains. They are the sort of  
7 facilities they want the company to provide.

8 MR DUNCAN: We will look later on at the special shift  
9 arrangements that exist under the new guidelines. We  
10 will explore those later. But if I could just touch on  
11 those for the moment.

12 If I understand things correctly, the company is  
13 going to try and limit the duty hours under those  
14 guidelines to something like 13 hours as opposed to  
15 14 hours, which is the guideline, but there is going to  
16 be a limitation within those 13 hours as to the actual  
17 amount of time the driver has to spend driving the bus.  
18 Is that correct?

19 MR WILLIAM CHUNG: Correct.

20 MR DUNCAN: And built into that arrangement are rest times  
21 for the drivers; is that correct?

22 MR WILLIAM CHUNG: Yes.

23 MR DUNCAN: So where would the bus company expect the driver  
24 to spend his rest time during those duty hours? Are  
25 there any facilities made available to him to have  
26

1 a rest?

2 MR WILLIAM CHUNG: Currently, we don't have such special  
3 shifts and therefore we haven't got such facilities.  
4 But then, in the light of the new guidelines, there's  
5 a need on our part to introduce the special shifts, and  
6 we have already talked to our staff representatives and  
7 trade union representatives, at our depots and at places  
8 where we park our buses we are going to provide such  
9 facilities, so that bus captains may take a rest at such  
10 facilities.

11 In addition, they don't necessarily have to stay at  
12 such a facility. If, say for example, their homes are  
13 nearby, they may go home.

14 MR DUNCAN: Given the issues that Mr Cheng has raised, with  
15 toilets and lack of land that can be occupied at the  
16 termini, what prospects are there of having appropriate  
17 facilities for a bus captain who's on duty for 13 hours  
18 that wants, as he is entitled to under the guidelines,  
19 to have a rest for two to three hours? What facilities  
20 are likely to be available?

21 MR WILLIAM CHUNG: Just now, I mentioned our depot as well  
22 as the places where we park our buses. At such  
23 locations, the site constraints will be different from  
24 that at bus termini. So, at those locations, we are  
25 able to provide a larger room for them to take a rest.

26

1           It will be air-conditioned, there will be refrigerators  
2           and facilities like microwaves, microwave ovens, and  
3           there will be chairs for them to take a rest.

4   MR DUNCAN:   So do I understand that these facilities do not  
5           currently exist but when the special shifts are  
6           introduced they will be available?

7   MR WILLIAM CHUNG:   That's correct, because it will take time  
8           to make preparation.

9   MR DUNCAN:   Just before we leave page 30, TD-1/30, there  
10          seems to be some demands and aspirations from bus  
11          captains for fringe benefits.   What sort of fringe  
12          benefits have they sought?

13                Sorry, I'm looking at the top of page 30, and (ii)  
14          at the top, "In our view, the demands and aspirations of  
15          bus captains include the following", and item (ii),  
16          "Better remuneration and more fringe benefits".

17                What sort of fringe benefits have they sought in the  
18          past?

19   MR SAMUEL CHENG:   Well, for fringe benefits, they want more  
20          holidays and they want bus passes for family members,  
21          and they want less restrictions.   For instance, their  
22          children should have bus passes.   There are some  
23          suggestions that there should not be any age limit.  
24          Their child can be 40 years old, they still want a bus  
25          pass for him.   That's something I've heard of.

1           There are some suggestions to the company that there  
2           should be more allowance for doctors' visits, more  
3           visits to the doctor.

4           Thank you.

5       MR DUNCAN: I don't need details, but is there a bus pass  
6           system of some sort? Is there a bus pass for families?

7       MR SAMUEL CHENG: Yes. We do provide staff members with  
8           free bus passes. At the moment, they are available.  
9           However, I have heard from some staff members the  
10          request that they want one or two additional bus passes,  
11          and they want less restrictions on the bus passes. This  
12          is what I have heard.

13       MR DUNCAN: There is no medical cover for your employees, as  
14          I understand it; is that correct?

15       MR SAMUEL CHENG: Yes, there is medical cover. That  
16          includes GP visits and also hospitalisation.

17       MR DUNCAN: Again, I wonder if your HR department could  
18          provide the committee with details of that medical  
19          cover. Would that be possible?

20       MR SAMUEL CHENG: Yes, certainly, sir. My colleague Mr Ng,  
21          Mr Gareth Ng, can supplement.

22       MR DUNCAN: We don't need it now. There is no doubt --  
23          something in writing which the committee can digest.

24       MR SAMUEL CHENG: No problem, sir.

25       MR DUNCAN: You mentioned a few moments ago depots and  
26

1           termini. How many depots does the company have?

2       MR SAMUEL CHENG: Altogether six, big and small -- or more  
3           than six in fact. Some are smaller, or smaller scale.

4       MR DUNCAN: Are they on Hong Kong Island?

5       MR SAMUEL CHENG: Yes. On Hong Kong Island there are three  
6           depots, and on Lantau we have two, and in other places,  
7           in Kowloon also, but of a smaller scale. Mainly on  
8           Hong Kong Island, yes.

9       MR DUNCAN: Just go back to the question of salaries for  
10           a moment, remuneration. Could you look at page 36, so  
11           CTB-1/36, please.

12           There is, at the bottom of that page, reference to  
13           a reward for good performance. CTB-1/36. Do you see  
14           the reference there, "Reward for good performance"?

15       MR SAMUEL CHENG: Yes, sir.

16       MR DUNCAN: And there's reference to a safety bonus,  
17           performance bonus and attendance bonus, and there's  
18           reference to a demand by staff unions "these bonuses  
19           were reclassified to basic salaries".

20           So do I understand from that that these are paid  
21           irrespective of whether it's safety or performance or  
22           attendance; it's simply a supplement to the basic  
23           salary?

24       MR SAMUEL CHENG: Yes, correct.

25       MR DUNCAN: So does it follow then that at the moment,  
26

1           there's no remuneration incentive for a person to  
2           maintain a safe driving record?

3       MR SAMUEL CHENG: We do have a discipline system here. If  
4           there are problems with safety, there may not be any  
5           safety bonus. That can be deducted. However, we will  
6           mete out disciplinary action to them. For those who are  
7           subject to disciplinary action and they are not making  
8           improvements, then the disciplinary action would be  
9           escalated, and if it persists, they will be dismissed.

10       MR DUNCAN: So how long were these safety bonuses in place?

11       MR SAMUEL CHENG: Well, this safety bonus has been around  
12           for many years. Until March 2018, we merged that into  
13           the basic salaries.

14       MR DUNCAN: When you say you merged it into the basic  
15           salaries, do the basic salaries then go up?

16       MR SAMUEL CHENG: There are two aspects here. First, there  
17           will not be any deduction of the bonus, because it's  
18           been reclassified into the basic salaries, and this has  
19           become part of the basic salaries. When it comes to  
20           working out the overtime pay, the base factor would  
21           increase.

22       MR DUNCAN: But also the basic salary would increase  
23           reasonably significantly, would it not, if there was  
24           a safety bonus of 1,285 to 1,552 a month, that would  
25           have quite an effect on the basic salary, would it not?

26

1 MR SAMUEL CHENG: Previously, that's not part of the basic  
2 salary, right.

3 MR DUNCAN: What drove the staff unions to have this  
4 reclassified as a basic salary?

5 MR SAMUEL CHENG: There are three reasons. First, for the  
6 three bonuses, if they are not reclassified into basic  
7 salaries, then it is likely that there will be  
8 deductions. Say, for instance, if a bus captain is  
9 unsafe in his driving, it is likely that the safety  
10 bonus will be deducted. If a bus captain is impolite to  
11 the passengers, then the performance bonus will go. If  
12 a bus captain doesn't observe the attendance, then the  
13 attendance bonus will be deducted.

14 So, for these three bonuses, if they are  
15 incorporated into the basic salaries, then there will be  
16 no prospect of deduction. That's reason number one.

17 Second, as I said just a moment ago, the calculation  
18 of overtime pay.

19 Third, each year, when it comes to pay hikes, we  
20 will adjust the basic salaries.

21 For these three bonuses, there is no adjustment,  
22 with the exception of 2017, when we made the adjustment.  
23 Prior to 2017, all these bonuses, the level remained  
24 unchanged for many years. Now they have been  
25 incorporated into the basic salaries. Effectively each  
26

1           year, when it comes to pay adjustment, there would be  
2           an increase as a result of that merge.

3       MR DUNCAN:   So if we go back to the day when a safety bonus  
4           existed --

5       CHAIRMAN:   Mr Duncan, before we get involved in that,  
6           I think we should take the break now for lunch.   But can  
7           I ask you to ask Mr Cheng or one of his colleagues to  
8           provide us with details of how these systems worked.   It  
9           appears to be something that was in place that you lost  
10          or it was deducted if you didn't fulfil certain  
11          criteria, and I would invite you to explore that after  
12          lunch.

13       MR DUNCAN:   Certainly.

14       MR SAMUEL CHENG:   Thank you, sir.

15       MR DUNCAN:   We will adjourn now until 2.30.   Thank you.

16       (12.59 pm)

17                               (The luncheon adjournment)

18       (2.31 pm)

19       CHAIRMAN:   Good afternoon.   Yes, Mr Duncan.

20       MR DUNCAN:   Thank you, Mr Chairman.

21           Good afternoon, gentlemen.

22           Mr Cheng, I think before the break I had asked you  
23           to look at CTB-1, page 36 -- if we could just bring that  
24           up, please -- and I had begun to ask you some questions  
25           about the "Reward for good performance" part of this

26

1 page, at the bottom.

2 You told us just before the luncheon break that the  
3 safety bonus had been there for quite some time, and we  
4 know from your submission that it has now been  
5 reclassified to part of the basic salary.

6 Prior to that reclassification, what were the  
7 criteria which were to determine whether or not  
8 a particular individual was entitled to the safety  
9 bonus?

10 MR SAMUEL CHENG: Mr Chung, my colleague, will answer this  
11 question.

12 MR WILLIAM CHUNG: Mr Chairman, in relation to the safety  
13 bonus, we try to see if the bus captain has committed  
14 any mistakes when it comes to driving, and then there  
15 will be deductions. Maybe it is due to a traffic  
16 accident or he has been complained by passenger for  
17 improper driving. It may also be the case that we have  
18 found exceedance of the speed limit as a result of the  
19 black box data.

20 We have got driving instructors or inspectors. They  
21 are on board to assess his performance. If it is found  
22 that there has been improper driving, then depending on  
23 the extent, there will be deductions.

24 Thank you.

25 MR DUNCAN: When you say there would be deductions, this is  
26

1           actually termed to be a bonus. It's a plus, isn't it,  
2           a bonus?

3       MR SAMUEL CHENG: Mr Chairman, if a staff member has not  
4           committed any mistakes, then he's going to collect the  
5           full amount of the bonus. However, if he has committed  
6           a mistake, depending on the extent, then the bonus will  
7           be deducted to a certain extent.

8           Thank you.

9       MR DUNCAN: I understand.

10           What about the performance bonus; what were the  
11           criteria for the performance bonus?

12       MR SAMUEL CHENG: Mr Chung, please.

13       MR WILLIAM CHUNG: Yes, for the performance bonus, we mainly  
14           look at the customer service. Say, for example, he has  
15           been complained by a passenger for poor attitude, and if  
16           it has been established, then his performance bonus will  
17           be deducted.

18       MR DUNCAN: So no complaint, no deduction; it would be  
19           an automatic payment?

20       MR WILLIAM CHUNG: Correct.

21       MR DUNCAN: Attendance bonus: what was the criteria for  
22           that?

23       MR SAMUEL CHENG: This is the attendance bonus. Say, for  
24           example, for that particular month, he has full  
25           attendance. That is, after then the leave he has been  
26

1 assigned, if he has been attending on all the days  
2 assigned to him, then he will get the full amount of the  
3 attendance bonus. However, had he been absent, then the  
4 bonus will be deducted proportionately.

5 Thank you.

6 MR DUNCAN: With regard to the situation post the  
7 reclassification, I would like just to ask about  
8 a couple of matters.

9 Is it the position at the moment, then, that there's  
10 no financial incentive offered to any driver to adopt  
11 safe driving measures?

12 MR SAMUEL CHENG: As far as financial incentives are  
13 concerned, yes, I agree, there would no longer be  
14 an incentive as you have said.

15 But let me say this again. Safe driving is their  
16 duty. If a bus driver fails to do that, then we will  
17 look at the breach that he has committed, we will look  
18 at the degree of seriousness. Depending on the  
19 severity, we will hand out different degrees of  
20 disciplinary action.

21 Thank you.

22 MR DUNCAN: If I was to take you, please, to CTB-2 at  
23 page 209 -- the translation at 209-1 and -2.

24 MR SAMUEL CHENG: Yes.

25 MR DUNCAN: Do we see set out there the guidelines of New  
26

1 World First Bus Services Ltd for disciplinary actions  
2 against normal bus terminus supervisor and bus captains  
3 who are in breach? Does that contain the guidelines?

4 MR SAMUEL CHENG: Yes, I do see the guideline.

5 MR DUNCAN: If you look at the end of the guidelines, that's  
6 page 209-2 in particular of the translation, you will  
7 see guidelines which deal with breaches of speed limits  
8 by the bus driver?

9 MR SAMUEL CHENG: Yes, I see that.

10 MR DUNCAN: And the sanctions can be seen there as well.

11 MR SAMUEL CHENG: Yes.

12 MR DUNCAN: Oral warnings, written warnings, and ultimately  
13 perhaps dismissal, without the need for payment in lieu.  
14 Are those the sorts of sanctions that the company might  
15 consider?

16 MR SAMUEL CHENG: Yes.

17 MR DUNCAN: So do I understand correctly that under the  
18 current system, post-reclassification, there is no  
19 provision for any loss of income with regard to a speed  
20 breach?

21 MR SAMUEL CHENG: You are correct.

22 MR DUNCAN: That is a different situation from that which  
23 prevailed prior to reclassification, in that previously,  
24 if a person had breached the speeding limit, then  
25 amounts otherwise payable to him would be withheld. Is

26

1           that a correct understanding?

2       MR SAMUEL CHENG:   Correct.

3       MR DUNCAN:   Just with regard to the effect of the  
4           reclassification, if we go back to page 36 of CTB-1, if  
5           we start with the new recruit at the moment, his  
6           basically salary, if I understand correctly, would be  
7           \$15,364.   Is that correct?

8       MR SAMUEL CHENG:   Correct.

9       MR DUNCAN:   Then he would have added to that a reclassified  
10          safety bonus of at least 1,285?

11      MR SAMUEL CHENG:   Well, for the various bonuses, they have  
12          already been included in the sum of 15,364.

13      MR DUNCAN:   What about the performance bonus of 362 per  
14          month?

15      MR SAMUEL CHENG:   The three bonuses covering safety,  
16          performance and attendance, they have already been  
17          included in the sum of \$15,364.

18      MR DUNCAN:   I see.   When did this reclassification actually  
19          take place?

20      MR SAMUEL CHENG:   1 March 2018.

21      MR DUNCAN:   So when you have at (iv) on that page,  
22          "Recruited on or after 9 March 2004", the figure of  
23          15,364 would in fact be much less prior to 1 March 2018?  
24          You would have had a figure plus these other bonuses; is  
25          that correct?

26

1 MR SAMUEL CHENG: All the three bonus have been added and  
2 then you will get 15,364.

3 MR DUNCAN: Right. That's today, isn't it?

4 MR SAMUEL CHENG: Correct.

5 MR DUNCAN: Let's go back 12 months. What would the basic  
6 salary have been 12 months ago?

7 MR SAMUEL CHENG: Mr Chung, my colleague, will do the sums  
8 now.

9 CHAIRMAN: Yes. Take your time.

10 MR SAMUEL CHENG: Thank you, Mr Chairman.

11 MR GARETH NG: I beg your pardon, Chairman. Let me give  
12 an example.

13 The bonus reclassified into basic salary went into  
14 effect on 1 March. On 1 February, prior to this  
15 reclassification, the basic salary was 12,536.

16 MR DUNCAN: Thank you.

17 CHAIRMAN: So on what basis is it asserted on page 36 that  
18 if you were recruited on or after 9 March 2004 your  
19 basic salary was 15,364, and you now tell us that if you  
20 were recruited on 1 February 2018, your basic salary was  
21 12,536?

22 MR GARETH NG: Mr Chairman, would you repeat, please?

23 CHAIRMAN: Yes. I'm looking at page 36. In the middle of  
24 that page, it asserts:

25 "(iv) Recruited on or after 9 March 2004.

26

1 Basic salary: 15,364."

2 You now tell us that if you were recruited on

3 1 February 2018, your basic salary is 12,536.

4 MR SAMUEL CHENG: If I may explain once again.

5 Starting from 1 March, the three bonuses were

6 reclassified into basic salaries. Let's say in February

7 2018, the basic salary was 12,536, and the bonuses

8 amounting to 2,328 was reclassified to basic salaries,

9 and the basic salaries were put up by \$500. Adding all

10 together, it amounts to 15,364. Let me repeat the

11 numbers again. 12,536, 2,328 and 500. Adding them

12 together would amount to 15,364.

13 CHAIRMAN: I hear what you say, but I don't understand what

14 you say.

15 MR SAMUEL CHENG: Let me repeat. In February, before the

16 changes took place, the new recruits had the basic

17 salary standing at 12,536. And I mentioned the three

18 bonuses. The three bonuses together amounted to 2,328.

19 On 1 March, this 2,328 by way of bonuses were

20 classified to basic salaries. At the same time, we

21 added or we increased the basic salaries by \$500 for all

22 the bus captains. So, in March, the basic salary comes

23 to 15,364, but the bonuses were not there because they

24 had been incorporated into the basic salaries.

25 CHAIRMAN: I've heard you again.

26

1 MR DUNCAN: Thank you, Mr Cheng. I'm going to move from  
2 remuneration now, but keeping with the topic of  
3 recruitment, the question of female or lady  
4 drivers -- what proportion of your drivers are females?

5 MR SAMUEL CHENG: Less than 10 per cent. However, I would  
6 like to stress one point. When we mount recruitment, we  
7 give equal treatment to male and female and we don't  
8 give any priority to any particular gender. So those  
9 who turn up for employment, the number of males  
10 outnumbers females.

11 MR DUNCAN: Has the company considered any initiatives to  
12 increase the interest in bus captaincy amongst the  
13 female population?

14 MR SAMUEL CHENG: We have recruitment advertisements. There  
15 are three faces of our bus captains. One of the faces  
16 is a female bus captain. That way, we hope that the  
17 members of the public will know that female population  
18 would be welcome to join as bus captains.

19 MR DUNCAN: Are there any female part-time drivers?

20 MR SAMUEL CHENG: We are not sure, but even if there are,  
21 the number would not be high.

22 MR DUNCAN: Can I ask you to look at page 29 of the bundle,  
23 again on your submission. So CTB-1/29. It's on that  
24 page that you have informed --

25 MR SAMUEL CHENG: Yes, sir.

26

1 MR DUNCAN: -- the committee as to the number of part-time  
2 bus captains registered with the companies. We can see  
3 that these, at the time of the submission, totalled some  
4 346 bus captains.

5 I understand also from your submission -- this is at  
6 page 36 of the bundle -- that the part-time bus captains  
7 are paid an hourly rate of \$80. Is that the sum total  
8 of their remuneration?

9 MR SAMUEL CHENG: Correct, because each hour, they get paid  
10 on an hourly basis.

11 MR DUNCAN: How long has that rate prevailed?

12 MR SAMUEL CHENG: This rate started from 1 March.

13 MR DUNCAN: This year?

14 MR SAMUEL CHENG: 2018.

15 MR DUNCAN: Yes. What was it previously?

16 MR SAMUEL CHENG: It was 75, if my memory serves any  
17 correctly.

18 MR DUNCAN: Is this something which is subject to an annual  
19 review?

20 MR SAMUEL CHENG: Not necessarily, because we have to look  
21 at the market. We have to look at the prevailing market  
22 rate for part-time then we have the corresponding  
23 number.

24 MR DUNCAN: Do any of your office workers at Citybus or  
25 New World act from time to time as part-time bus  
26

1 drivers?

2 MR SAMUEL CHENG: When they finish the work or when they are  
3 on holiday, yes, sometimes.

4 MR DUNCAN: What sort of numbers would be in that category?

5 MR SAMUEL CHENG: At the moment, it is 179.

6 MR DUNCAN: So roughly half of the current part-time  
7 establishment are office workers at the company?

8 MR SAMUEL CHENG: No. If you look at -- in our previous  
9 submission which you quoted, 314 is the number for First  
10 Bus, and there is another number for Citybus, 346.  
11 Altogether the number stands at 660.

12 MR DUNCAN: Oh, I see. Sorry, could you take me to that  
13 number again? I've got 346 at page 29.

14 MR SAMUEL CHENG: Yes, sir. 346 for Citybus, 314 for First  
15 Bus. Altogether, 660.

16 MR DUNCAN: Of which approximately -- you gave a figure --  
17 179 would work in the offices of either of those two  
18 companies?

19 MR SAMUEL CHENG: That's correct, sir.

20 MR DUNCAN: Leaving aside the office workers, most of the  
21 other part-time works presumably would have other  
22 employment; is that your understanding?

23 MR SAMUEL CHENG: That's correct.

24 MR DUNCAN: If we look, please, at page 59 of the bundle,  
25 CTB-1 at 59.

26

1 MR SAMUEL CHENG: Yes.

2 MR DUNCAN: I bring your attention, please, to  
3 paragraph 5(b) on that page.

4 MR SAMUEL CHENG: Yes, I've read that.

5 MR DUNCAN: In that paragraph, have you stated, amongst  
6 other things, that at the moment the company does not  
7 "specifically require part-time bus captains to declare  
8 if they have adequate rest time before commencing their  
9 duties"; do you see that?

10 MR SAMUEL CHENG: Yes, I see that.

11 MR DUNCAN: And I think it's fair to say that in the third  
12 paragraph under item (b), you have signalled changes  
13 that you intend to adopt with regard to that aspect of  
14 recruiting part-time bus captains. Would that be  
15 correct?

16 MR SAMUEL CHENG: Correct.

17 MR DUNCAN: If I could take you, please, to CTB-2 at  
18 page 401 -- actually, 400 I think the document starts --  
19 there is a form which runs over four pages, 400 to 403,  
20 "Job application form (driving)".

21 MR SAMUEL CHENG: Yes.

22 MR DUNCAN: Is this a form which is used for both full-time  
23 and part-time applicants?

24 MR SAMUEL CHENG: Yes, correct.

25 MR DUNCAN: Relative to this issue of other employment or  
26

1 rest time, could I ask you to look at page 401, please,  
2 the second page of the document. You see the first  
3 heading, "Important information", and item 3. Does that  
4 read, "Are you currently working part-time? If yes,  
5 what is the work nature and the working hours?"

6 MR SAMUEL CHENG: Yes.

7 MR DUNCAN: So each applicant, either for full-time or  
8 part-time work, would be required to complete that part  
9 of the form?

10 MR SAMUEL CHENG: Yes.

11 MR DUNCAN: Then if you go through to page 402, page 3 of  
12 the document, we see a declaration, pages 402 and 403.

13 MR SAMUEL CHENG: Yes, I see that.

14 MR DUNCAN: Do I understand correctly that that is also  
15 required to be filled out at the time of the  
16 application?

17 MR SAMUEL CHENG: May I defer to my colleague Mr Ng?

18 MR DUNCAN: Certainly.

19 MR GARETH NG: Mr Chairman, yes. For this particular form,  
20 the applicant has to fill out this part. But let me  
21 supplement. If he has omitted anything, it means that  
22 we will not be able to know. Say, for example, if he  
23 applies for a post with us, on the right-most side it  
24 talks about supplementary information. For that  
25 particular column, if the candidate doesn't write  
26

1           anything, we won't insist that he must fill out all the  
2           parts.

3       MR DUNCAN:   So I take it there's no independent verification  
4           of anything that a person might say in this form?

5       MR GARETH NG:   You may say so.

6       MR DUNCAN:   Apart from the application form, if the person  
7           is accepted for a position with the company, is he  
8           required to sign a formal employment contract?

9       MR GARETH NG:   Yes.

10      MR DUNCAN:   And is there a standard form for that, for the  
11           case of a bus captain?

12      MR GARETH NG:   It's an employment contract in the form of  
13           a letter rather than a form.

14      MR DUNCAN:   Does that address at all the question of working  
15           in outside employment beyond the company?

16      MR GARETH NG:   No.

17      MR DUNCAN:   Would you be able to provide the committee with  
18           a sample of one of those employment letters, as you have  
19           referred to it?

20      MR GARETH NG:   Yes, we can.

21      MR DUNCAN:   Thank you.

22      CHAIRMAN:   Is this letter the same for both full-time and  
23           part-time employees?

24      MR GARETH NG:   Not the same.

25      CHAIRMAN:   Do you have sample then of a part-time employee  
26

1 contract as well, the letter?

2 MR GARETH NG: We can provide the information to the  
3 committee later on, Mr Chairman.

4 CHAIRMAN: Yes, that's what I'm asking. This will be  
5 something that we would invite you to provide  
6 subsequently. We will give you a list of what it is you  
7 have undertaken to provide.

8 MR GARETH NG: Thank you, Mr Chairman.

9 MR DUNCAN: Could I bring your attention --

10 CHAIRMAN: Before you move on, Mr Duncan --

11 MR DUNCAN: Sorry.

12 CHAIRMAN: -- has the format of this letter changed, say in  
13 the last several years?

14 MR GARETH NG: I'm not sure.

15 CHAIRMAN: Perhaps you can check and, if there is a change,  
16 because new references have been made in the current  
17 letter, provide us with examples of older letters that  
18 will illustrate to us what the change has been.

19 MR DUNCAN: Can I bring your attention now to --

20 CHAIRMAN: Is there something you wanted to say, Mr Cheng?

21 MR SAMUEL CHENG: No, no. No problem at all. We can  
22 provide that information.

23 CHAIRMAN: Thank you.

24 Yes, Mr Duncan.

25 MR DUNCAN: Thank you, Mr Chairman.

26

1           Could I ask you to look at one other document,  
2           please, in this context. Page 404 of CTB-2. The  
3           translation is at 404-1 and 404-2.

4           You should be looking at a document which is headed,  
5           "Employee code of conduct and discipline/declaration for  
6           external works". What is the function of this document?

7   MR SAMUEL CHENG: Say we have a full-time employee working  
8           for us. If he has part-time work outside the company,  
9           then we ask him to inform the company.

10          In addition, if he is a part-time employee with us,  
11          so if he has got a principal employment, again he has to  
12          give us the information.

13   MR DUNCAN: Now, we can see that, according to the document,  
14          it's annex 7 to your submission, your second submission,  
15          I believe. If we go back to page 59, please. So CTB-1  
16          at page 59.

17   MR SAMUEL CHENG: Yes, I see that.

18   MR DUNCAN: And I think you will see a reference to annex 07  
19          right at the end of paragraph 5(b).

20   MR SAMUEL CHENG: Yes.

21   MR DUNCAN: It's referred to there as an annual declaration.

22          Is there any requirement within any of these  
23          documents or any employment letter that an employee is  
24          obliged to inform you if he changes his outside  
25          employment or undertakes new outside employment?

1 MR SAMUEL CHENG: For full-time employee, they must do so.

2 For part-time employees, if they don't declare, as of  
3 now, we don't have the mechanism to go after them. But  
4 then, starting from 1 June 2018 onwards, at the time of  
5 taking up the post and on a yearly basis, a declaration  
6 must be made.

7 MR DUNCAN: When you say the full-time employee must do  
8 that, obviously he has to fill out a form annually.  
9 What is the position if he takes on outside work halfway  
10 through the year? Is there any obligation on him to  
11 report that?

12 MR SAMUEL CHENG: For the details, I would like to defer to  
13 Mr Ng.

14 MR GARETH NG: Mr Chairman, just now the counsel referred to  
15 this scenario. Well, the employee has the duty to make  
16 a declaration to us, and upon approval by us he can then  
17 take up other part-time work.

18 Thank you, Chairman.

19 MR DUNCAN: Where is the provision for that, which requires  
20 the employee to do that?

21 CHAIRMAN: It might help if you have a look at page 72-1 in  
22 the English, and no doubt the preceding pages in the  
23 Chinese. CTB-2, page 72.

24 MR DUNCAN: Thank you.

25 Does that help, Mr Ng?

1           72-7 in the English, paragraph 26.

2       CHAIRMAN: The form that I'm looking at is headed, "Employee  
3       code of conduct ... declaration of outside work". In  
4       the middle of the page it reads:

5           "I would like to apply for/have the following  
6       outside work (in accordance with article 26 of the  
7       employee code of conduct and discipline, full-time  
8       employees shall apply to the company before accepting  
9       outside employment and do so annually thereafter)."

10           Then there are various headings which provide for  
11       information to be supplied.

12       MR DUNCAN: Thank you, Mr Chairman. Which page is that?

13       CHAIRMAN: On my version, it's got "72-1" at the bottom.

14           It's described as annex 3.1.

15       MR GARETH NG: Thank you, Chairman. Here in this form, we  
16       have made it very clear that the employee has to make  
17       the declaration.

18           I would also like to say, if I remember correctly,  
19       we will review this later on. My impression is that in  
20       the employment letter, we do have the same requirements  
21       specified.

22           Thank you.

23       MR DUNCAN: Thank you, Mr Ng.

24           I think also, if you look at page 72-7 of the  
25       translation, and if you are looking at the original

26

1 document, paragraph 26, there is reference to the same  
2 point, as I understand it.

3 Is my understanding correct?

4 MR SAMUEL CHENG: Correct, sir.

5 MR DUNCAN: Thank you.

6 So the improvements or the changes that you are  
7 considering implementing in this respect are designed  
8 more at the part-time employees than the full-time  
9 employees; is that a correct understanding?

10 MR SAMUEL CHENG: That's correct, sir, because for  
11 full-time, we do have adequate declaration system.

12 MR DUNCAN: Could I ask you, please, to --

13 CHAIRMAN: Are you moving to another topic, Mr Duncan?

14 MR DUNCAN: Yes.

15 CHAIRMAN: Before you do so, what is it that you propose  
16 asking part-time employees to do once they are employed,  
17 if they are going to take up different or extra other  
18 part-time work? What are you asking them to do?

19 MR SAMUEL CHENG: Starting from 1 June, if an applicant  
20 comes forward to apply to be a part-time bus captain, he  
21 has to fill out a form which spells out the principal  
22 employment, the working hours, what hour to what hour,  
23 and what days of the week he's supposed to work and what  
24 days he is not supposed to work. Then we will be in  
25 a position to ascertain whether he is suitable to become  
26

1 a part-time bus captain.

2 Say, for instance, if someone has to be working for  
3 a dozen hours of work every day, then we will not employ  
4 him because there would not be enough rest time. If  
5 somebody has to work eight hours a day, and if he were  
6 to tell us that maybe he would be making himself  
7 available on Saturdays and Sundays to become part-time  
8 bus captain, then there will be no problems and we would  
9 put him through the normal procedures. If he is  
10 suitable, then he would be taken on as part-time bus  
11 captain.

12 Other than making the declaration when he first took  
13 up the job, every year he has to make the same  
14 declaration. If there are no changes, he would fill out  
15 the same stuff in the form. If there are some changes,  
16 then the new nature of work will be declared to the  
17 company. That's what we are going to do starting from  
18 1 June.

19 CHAIRMAN: So this is an enquiry you make when you recruit  
20 somebody, and then a year later he's got to confirm what  
21 the position is?

22 MR SAMUEL CHENG: Yes, that's correct, sir.

23 CHAIRMAN: Is there any obligation, proposed obligation, to  
24 be imposed on such a part-time bus captain if he was to  
25 take up part-time employment or additional part-time  
26

1 employment in that one-year period?

2 MR SAMUEL CHENG: If he takes up other extra work, he has to  
3 make the declaration to us. That way, we will be able  
4 to understand the working hours he's putting in, whether  
5 he would have the energy to become part-time bus captain  
6 with us.

7 CHAIRMAN: Is this requirement reflected in forms,  
8 documents?

9 MR SAMUEL CHENG: Starting from 1 June, yes, there will be.

10 CHAIRMAN: Right. Have we been provided with this  
11 prospective form or not?

12 MR SAMUEL CHENG: Not for the time being. We will make  
13 these available.

14 CHAIRMAN: Thank you.

15 MR DUNCAN: Could I take you back to the document, "Employee  
16 code of conduct and discipline". The original Chinese  
17 version is at page 66 of CTB-2, the translation from  
18 page 72-2.

19 Could I ask you this. This employee code of conduct  
20 and discipline, does it apply to both full-time and  
21 part-time employees?

22 MR SAMUEL CHENG: Yes, all of them, yes.

23 MR DUNCAN: If I could take you back to paragraph 26 -- the  
24 translation at page 72-7 -- there's a heading there,  
25 "Outside work", and a reference to what a full-time  
26

1 employee should do if he's going to take up concurrent  
2 employment, either on a regular or consulting basis. Do  
3 you see that?

4 MR SAMUEL CHENG: Yes, I do.

5 MR DUNCAN: Given what you have told the chairman just a few  
6 moments ago, is there any reason why that sort of  
7 provision should not apply to part-time employees?

8 MR SAMUEL CHENG: Well, the part-time staff in our company,  
9 they are mainly bus captains. Bus captains are working  
10 part-time for us. Whatever their principal employment  
11 is, the likelihood of any conflict of interest would be  
12 negligible. It would be zero, in fact.

13 MR DUNCAN: So the intention is to provide a different sort  
14 of form for the part-time employee who changes his  
15 outside work during the course of the year between the  
16 annual declaration; you would have a different sort of  
17 form for that?

18 MR SAMUEL CHENG: Yes. That's when conflict of interest  
19 arises or the potential of conflict of interest arises,  
20 that's where they have to fill that out.

21 MR DUNCAN: Right. Let us move away from that and back to  
22 your submission, CTB-1, this time at page 61.

23 May I bring your attention to paragraph 7, headed,  
24 "Customer service and EQ management training"; do you  
25 see that?

26

1 MR SAMUEL CHENG: Yes, sir.

2 MR DUNCAN: It's paragraphs (b) and (c) in which I'm  
3 interested at the moment. Could you just read through  
4 those paragraphs to familiarise yourself with what is  
5 being communicated to the committee, please.

6 MR SAMUEL CHENG: We have read it, sir.

7 MR DUNCAN: You refer to the fact that in March of this  
8 year, a study was commenced to explore the feasibility  
9 and effectiveness of conducting a psychological  
10 assessment in order to screen out applicants who either  
11 have an inclination to drive aggressively or who are  
12 easily provoked and therefore lose control and drive in  
13 an aggressive manner.

14 What is the progress that has been made with regard  
15 to that step?

16 MR SAMUEL CHENG: I defer to Mr Gareth Ng, please.

17 MR GARETH NG: Chairman, after March, we have started the  
18 study. Other than downloading the information online  
19 regarding the evaluation in the public domain out there,  
20 we also had meetings with a practising clinical  
21 psychologist and also a psychologist academic. We had  
22 meetings with these two people about the feasibility and  
23 effectiveness of this kind of assessment.

24 At the present moment, we are trying to meet  
25 a mechanical engineering professor who has been having  
26

1 a lot of expertise regarding the EQ management vis-a-vis  
2 driving, and we try to meet him about this.

3 Thank you, sir.

4 MR DUNCAN: The meetings that you have had, are these with  
5 local psychologists?

6 MR GARETH NG: Yes.

7 MR DUNCAN: And the professor, have you actually identified  
8 the professor? Do you have somebody particular in mind?  
9 I don't need a name. I just need whether you have  
10 actually identified somebody.

11 MR GARETH NG: He is a professor from CUHK, Chinese  
12 University of Hong Kong, in the faculty of psychology.

13 MR DUNCAN: Has he been given a brief?

14 MR GARETH NG: It was on an exploratory basis. We are  
15 exchanging ideas, our background purposes, our purposes,  
16 and what areas we want him to enlighten us on regarding  
17 the practices in the industry, in the field.

18 MR DUNCAN: When you say "the practice in the industry, in  
19 the field", what does "the field" comprise of? Is it  
20 a Hong Kong field? Is it a China field? What's the  
21 field?

22 MR GARETH NG: As a matter of fact, the world over, we are  
23 looking for some psychological assessments that can be  
24 applicable to bus captains, and our discussion  
25 surrounded this area.

26

1 MR DUNCAN: Have you explored this issue with any other  
2 local bus companies?

3 MR GARETH NG: Not in that area, no.

4 MR DUNCAN: Have you explored this issue by making contact  
5 with any overseas bus companies?

6 MR GARETH NG: No, sir.

7 MR DUNCAN: Are you able to give the committee any idea as  
8 to when you think you might be able to make progress  
9 with regard to this study?

10 MR GARETH NG: As I have said, there is a professor from the  
11 mechanical engineering faculty who has said that he  
12 could only meet with us in June, so I believe that the  
13 earliest would be end of June that we would be able to  
14 come back to the committee in relation to the progress.

15 Thank you.

16 MR DUNCAN: Thank you. I'm going to move now from  
17 recruitment to the matter of training, the training of  
18 bus captains. If I could ask you this. Do I understand  
19 correctly that what training is required is entirely  
20 a matter for the company? It's not a matter where you  
21 receive any directive from the Transport Department?

22 MR SAMUEL CHENG: Yes, decided by the company.

23 MR DUNCAN: And there is no scheme, there's no training of  
24 any sort, offered by the government authorities over and  
25 above or separate from any training scheme which the  
26

1           company operates? Is that a correct understanding?

2       MR SAMUEL CHENG: Correct.

3       MR DUNCAN: And because of that, do I understand correctly  
4           that whatever training you provide is totally  
5           independent of what training might be provided by other  
6           franchised bus operators in Hong Kong?

7       MR SAMUEL CHENG: We are only responsible for the training  
8           of our own company.

9       MR DUNCAN: With regard to what training is required, are  
10           these decisions made solely by your company, or would  
11           you make them after consultation with perhaps some of  
12           your counterparts in overseas jurisdictions, other bus  
13           companies? Is it entirely your decision or do you check  
14           out with other bus companies how they might go about  
15           their training?

16       MR SAMUEL CHENG: Entirely decided by our company.

17       MR DUNCAN: If we look, please, at CTB-1, page 37. I just  
18           want to run through what the current situation is with  
19           regard to the training, first of all of persons who  
20           become full-time bus captains.

21           Do we have page 37 available?

22       MR SAMUEL CHENG: Yes. We can see that.

23       MR DUNCAN: Thank you. So we see that at (i), full-time bus  
24           captain without a bus driving licence has 15 days'  
25           driving training before attending the driving  
26

1 examination which is required by the Transport  
2 Department. If he doesn't pass, he has another five  
3 days of training. Once he's passed that and obtained  
4 the licence, employment is offered and induction  
5 training is arranged.

6 Is that correct?

7 MR SAMUEL CHENG: Correct.

8 MR DUNCAN: Thank you. And that induction training consists  
9 of two parts. The first is a one-day classroom  
10 training, and the second is 10 to 15 days of driving  
11 training.

12 MR SAMUEL CHENG: Correct.

13 MR DUNCAN: Then if we go down to (ii), those who become  
14 full-time bus captains but already have a bus driving  
15 licence, they will be provided with the induction  
16 training.

17 MR SAMUEL CHENG: Correct.

18 MR DUNCAN: The one day in the classroom and the 10 to  
19 15 days of driving training?

20 MR SAMUEL CHENG: Correct.

21 MR DUNCAN: As a matter of interest, is there much movement  
22 amongst bus captains from one bus company to another in  
23 Hong Kong?

24 MR SAMUEL CHENG: Yes, they do transfer, but not too many.

25 MR DUNCAN: Just going back to page 37, moving to the  
26

1 question of part-time bus captains who have a bus  
2 driving licence, do I take it from the headings here  
3 that you wouldn't take on a part-time bus captain unless  
4 he held a bus driving licence? You wouldn't provide him  
5 with the 15 days' driving training which you make  
6 available to full-time applicants; is that a correct  
7 understanding? You only take part-time people on if  
8 they are already holders of a bus driving licence?

9 MR SAMUEL CHENG: Correct. All part-time bus captains must  
10 possess bus driving licences before we would consider  
11 employing them.

12 MR DUNCAN: Thank you.

13 Now, as far as those persons are concerned, they  
14 will be provided with two days of driving training; is  
15 that correct?

16 MR SAMUEL CHENG: Correct.

17 MR DUNCAN: As opposed to the 10 to 15 days of driving  
18 training which the full-time driver gets. Is that  
19 a correct understanding?

20 MR SAMUEL CHENG: Yes, your understanding is correct. This  
21 is because for someone who would like to become  
22 a part-time captain with us, he must be somebody who is  
23 already driving a bus or a heavy vehicle. In other  
24 words, he is already experienced in driving large  
25 vehicles.

26

1           So, for the two-day driving training, it's mainly  
2           route training.

3       MR DUNCAN:   So he would receive two days' training  
4           irrespective of the degree of experience that he's had  
5           in driving a bus? It doesn't matter whether he's had  
6           one month or ten years; he still just gets the two days?

7       MR SAMUEL CHENG: In relation to the driving experience of  
8           heavy vehicles or large vehicles, if he is not too  
9           experienced, we are not going to take him on. In other  
10          words, for those who would like to be part-time bus  
11          captains, those that we engage, they are all  
12          experienced.

13      MR DUNCAN:   Sorry, do you want to refer to something else  
14          there?

15      MR SAMUEL CHENG: Yes. Well, while we are still on this  
16          page, towards the end, we have got some supplementary  
17          information. Whether we are talking about full-time or  
18          part-time bus captain, after the bus captain has  
19          completed all the training, he will be assessed by our  
20          driving instructor. If the assessment is not  
21          satisfactory, there will be further training for the bus  
22          captain.

23          Therefore, as far as part-time bus captains are  
24          concerned, yes, indeed they get two days, but after  
25          training them for two days, if they cannot pass the  
26

1           assessment, such a bus captain would not be deployed to  
2           drive on the road.

3       MR DUNCAN:   You said a few moments ago that you wouldn't  
4           employ somebody on a part-time basis unless they were  
5           very experienced.   Can you give us some idea as to what  
6           sort of experience would be required?   Is there any  
7           criterion for that?

8       MR SAMUEL CHENG:   Not so much a particular criterion.   For  
9           experience part-time bus captains, some of them were  
10          previously bus captains.   They were former franchised  
11          bus captains.   They might have worked for us in the  
12          past; they left for a period of time.   But in fact they  
13          have had a lot of experience.   That's the first group.

14               The second group, they may be retirees who used to  
15               be franchised bus captains for other companies.

16               So these are the two main sources, and we believe  
17               they possess adequate experience in driving buses.

18       MR DUNCAN:   They don't get the classroom training before  
19           they are able to take up their duties; is that correct?

20       MR SAMUEL CHENG:   Not as of now, but later on we are going  
21           to make arrangements for them to be given classroom  
22           training which will cover customer service and EQ  
23           management as well.

24               Thank you.

25       MR DUNCAN:   The question of driving instructors.   How does  
26

1           one become a driving instructor in your company?

2       MR SAMUEL CHENG: First of all, he must have obtained  
3           a driving instructor licence from the TD for driving  
4           vehicles of the same type as that in our company. Then  
5           he may become a driving instructor. And for our driving  
6           instructors, most of them or all of them have been very  
7           experienced bus captains and they have been driving  
8           instructors for a long time.

9           Thank you.

10       MR DUNCAN: How many driving instructors does the company  
11           employ?

12       MR SAMUEL CHENG: Currently, there are 15 who are full-time  
13           driving instructors, two part-time driving instructors.  
14           In addition, we have five bus captains in the near  
15           future will take an examination with the Transport  
16           Department so as to get the driving instructor licence.

17           Thank you.

18       MR DUNCAN: Now we turn the page to page 38 of the bundle,  
19           so it's CTB-1/38. We see the topic of "Refresher  
20           training", and the statement that you provide refresher  
21           training to in-service full-time bus captains, and it is  
22           said:

23           "We pledged to the [Transport Department] that the  
24           refresher training should be provided to every  
25           in-service full-time bus captain at least once every

26

1           3 years.

2           Only classroom training is provided ..."

3           And you then go on to describe the course contents.

4           Now, the classroom training, is this the same  
5           classroom training that is provided as part of the  
6           induction training, when a person first joins the  
7           company? Is that the sort of material which is covered?

8       MR SAMUEL CHENG: Yes, most of them are the same. However,  
9           in the last sentence of this submission, we look at the  
10          analysis of traffic accidents. From the first inception  
11          with us to the training, it may be one or two years  
12          already, and within these one or two years, maybe  
13          something had occurred that would be of reference value  
14          to them, some traffic accidents, and we would bring up  
15          these cases and share with them during the classroom  
16          training. That way, we will try to tell them how to  
17          avoid these kinds of accidents.

18       MR DUNCAN: When was the pledge given to the Transport  
19          Department?

20       MR SAMUEL CHENG: That was many years ago. We don't have  
21          the precise information with us now.

22       MR DUNCAN: Just going back to the previous page for  
23          a moment. Right at the end of the page, page 37, you  
24          state:

25                "After passing the assessment, they are sten  
26

1 assigned to the routes that they have been trained."

2 MR SAMUEL CHENG: Yes, correct.

3 MR DUNCAN: In the course of being trained to be a bus  
4 driver, how many routes would a bus driver be required  
5 to undertake?

6 MR SAMUEL CHENG: I defer to Mr Chung who has detailed  
7 information.

8 MR WILLIAM CHUNG: It would depend on which depot he is  
9 assigned to. Some three routes, some four, some five.  
10 Even for five routes, some of the routes are duplicated.  
11 In other words, the starting point and the end point may  
12 be different but a lot of the routes will be  
13 overlapping. Let's say Moreton Terrace, they start from  
14 Moreton Terrace in Causeway Bay, going to the south, and  
15 will go through the Aberdeen Tunnel, and the route  
16 before the tunnel would be the same, and then they split  
17 up, some would go to Wah Kwai, Wah Fu, and some would go  
18 to South Horizons.

19 MR DUNCAN: So would he be then stuck with those routes  
20 forever?

21 MR WILLIAM CHUNG: They would be driving on these routes for  
22 some time, maybe a couple of months, and thereafter they  
23 will be redeployed to other routes.

24 For these routes, we categorise them as more  
25 straightforward routes. The number of stops would be

26

1 smaller, and the road conditions would be less  
2 complicated. Things would be more straightforward. We  
3 would let them familiarise themselves with the driving  
4 skills and the routes, and then they would be deployed  
5 to other routes.

6 MR DUNCAN: So if a driver is required to take on a new  
7 route, is he provided with familiarisation process, or  
8 does he, to coin a phrase, learn on the job?

9 MR SAMUEL CHENG: Mr Chung.

10 MR WILLIAM CHUNG: For new routes, we have a number of ways.  
11 We see whether he has been instructed about the route or  
12 whether he has declared that he is familiar with the  
13 route. If he is familiar with the route, then we will  
14 let him drive on the route, but if he is unfamiliar with  
15 the route, then we will arrange him to ride on a serving  
16 bus to get him familiar with all the bus stops en route  
17 and how he should go about taking on this route. This  
18 is how we deal with it now.

19 MR DUNCAN: If I understand correctly from your submissions,  
20 the company utilises buses from three different bus  
21 suppliers. Is that correct?

22 MR SAMUEL CHENG: Mr Li.

23 MR PAUL LI: Yes, that's correct, sir.

24 MR DUNCAN: Just for the record, which companies are those?

25 MR PAUL LI: Mainly the main suppliers: Alexander Dennis,  
26

1 Volvo and MAN.

2 MR DUNCAN: Again, if I understand matters correctly, these  
3 individual companies will have different models from  
4 time to time?

5 MR PAUL LI: Yes.

6 MR DUNCAN: So, when a bus captain undertakes his initial  
7 training, how is it determined which bus he does his  
8 training on, which model?

9 MR SAMUEL CHENG: I defer to Mr Chung, please.

10 MR WILLIAM CHUNG: We look at the routes that are going to  
11 be deployed and the types of buses that will be used.  
12 For a new recruit, we would coach him on a number of  
13 models. For the 15 days, other than coaching him about  
14 the routes, every day we would coach him on the  
15 different models of buses.

16 So, for the 15 days of training, he would be  
17 familiar with different models of buses.

18 MR DUNCAN: I think you mentioned a few moments ago perhaps  
19 four to five routes during the course of the training.  
20 Is that correct?

21 MR WILLIAM CHUNG: Yes, correct, sir.

22 MR DUNCAN: So how many different models of buses would you  
23 expect a trainee to encounter during his training  
24 period?

25 MR WILLIAM CHUNG: Yes, a moment ago we said that there are  
26

1           three suppliers. Most of the buses are the Alexander  
2           Dennis model, to be followed by Volvo. These are the  
3           main suppliers. In the course of the training, mostly  
4           we would use ADL, Alexander Dennis, for training  
5           purposes.

6       MR DUNCAN: Any reason for that?

7       MR WILLIAM CHUNG: Mainly because most of the buses are  
8           Alexander Dennis's bus.

9       MR DUNCAN: And what if a driver is required to drive a new  
10          bus on a new route subsequently in his career? Is there  
11          any training provided for the new type of bus?

12      MR WILLIAM CHUNG: If there are new models that the bus  
13          captain has to drive, we will arrange for training to be  
14          provided.

15      MR DUNCAN: What does that training consist of?

16      MR WILLIAM CHUNG: The driving instructors would show the  
17          meters, the seats and all the instruments, all the  
18          buttons, on the meters, all the warning signals, warning  
19          lights, and under the guidance of the instructor they  
20          would be allowed to drive some distances to familiarise  
21          themselves with the operation.

22      MR DUNCAN: So would that be half a day's work, a day's work  
23          or ...?

24      MR WILLIAM CHUNG: It would depend on the model and how  
25          different it is from the original buses that he's  
26

1 familiar with. Let's say there are some electric buses,  
2 the control, the buttons and everything are different,  
3 so it would take a longer time.

4 When we order the buses, we require the suppliers,  
5 for the control panel and so on, we try to have the  
6 system standardised instead of having different control  
7 mechanisms. That's to facilitate the familiarisation.

8 MR DUNCAN: If we go back to page 38 of the bundle, so  
9 CTB-1/38, you then provided the committee with a section  
10 on "Remedial training".

11 CHAIRMAN: Before you embark on that, Mr Duncan, now you  
12 have gone back to that page -- Mr Cheng, can I ask you  
13 this. Under the heading "Refresher training", and from  
14 what you've said in evidence, the refresher training is  
15 provided for full-time bus captains at least once every  
16 three years. How is it that that time period was  
17 decided, rather than, for example, once a year?

18 MR SAMUEL CHENG: We don't feel that there is a need for  
19 them to come back every year, not that frequent.

20 CHAIRMAN: Are you aware of the practices of other bus  
21 companies in Hong Kong in this regard?

22 MR WILLIAM CHUNG: Mr Chairman, as far as I understand,  
23 other bus operators have the pledge with the TD that it  
24 is once every three years.

25 CHAIRMAN: And are you aware of practices in overseas  
26

1 jurisdictions as far as this is concerned?

2 MR WILLIAM CHUNG: We didn't make the comparison.

3 CHAIRMAN: Thank you.

4 MR DUNCAN: Another point with regard to refresher training.

5 Do I understand correctly from that section that no  
6 refresher training is currently provided to part-time  
7 employees?

8 MR SAMUEL CHENG: Not for the time being, no. However,  
9 later on, we are going to provide that to the part-time  
10 workers.

11 MR DUNCAN: When you say "later on", when?

12 MR WILLIAM CHUNG: Well, that we have to discuss with the  
13 part-time drivers, because they hold down a principal  
14 employment. We have to work out the time. But we hope  
15 we can arrange for a suitable time as soon as possible,  
16 to facilitate the part-time drivers to come for these  
17 refresher training.

18 MR DUNCAN: Have you made any contact with the part-time  
19 drivers yet in that regard?

20 MR WILLIAM CHUNG: Not yet, no.

21 MR DUNCAN: If you then turn to "Remedial training", please,  
22 page 38. In the first paragraph, you refer to the fact  
23 that both companies require full-time and part-time bus  
24 captains to report their driving offence points, and  
25 there is then a points system which will determine  
26

1           whether a remedial training course is required.

2           Do you see that?

3       MR SAMUEL CHENG: Yes, sir.

4       MR DUNCAN: Now, are you totally reliant then on the bus  
5           captains to report their driving points?

6       MR SAMUEL CHENG: For the precise operation, I defer to  
7           Mr Ng, please.

8       MR GARETH NG: Chairman, for the bus captains, they have the  
9           obligation to make the declaration. That's number one.

10           Number two, every single month we would random  
11           check. We will randomly select some bus captains and  
12           they have to sign a consent form for us to check the  
13           points record with the Transport Department.

14           Thank you, sir.

15       MR DUNCAN: How long has that system been in place, that  
16           system of registration with the Transport Department?

17       MR GARETH NG: My recollection is it has been so for a few  
18           years. It should be five years.

19       MR DUNCAN: Have you encountered any faults in the system at  
20           all? Have people suffered from incurring points but not  
21           reported to you? Have you come across that at all?

22       MR GARETH NG: Yes. When we find this out, we will resort  
23           to disciplinary action.

24       MR DUNCAN: You have a need for that from time to time, do  
25           you? Has that actually happened?

26

1 MR GARETH NG: I remember that it did happen. Sorry, it did  
2 happen but not too many.

3 MR DUNCAN: If I could refer you to the third paragraph  
4 under that heading, "Remedial training", please:

5 "In 2016, 198 bus captains attended the remedial  
6 training."

7 I just want to understand the sentence which  
8 follows:

9 "76.3 per cent of these bus captains did not have  
10 been disciplined for blameworthy accidents in the  
11 subsequent 6 months."

12 I think there's a grammatical error in there  
13 somewhere, but do I understand this correctly, that if  
14 76.3 per cent have not been disciplined for blameworthy  
15 accidents in the subsequent six months, does it follow  
16 that some 23.7 per cent have been disciplined, even  
17 after remedial training; is that how I should read that?

18 MR SAMUEL CHENG: Yes, you are right.

19 MR DUNCAN: So these persons have incurred eight or more  
20 points, they've been through remedial training, and  
21 notwithstanding that, they've had to be disciplined  
22 subsequently?

23 MR SAMUEL CHENG: Yes, they did, but of course we have to  
24 understand the degree of severity of their mistakes.

25 If it is serious and if they have already had  
26

1 a similar incident, then we will escalate the  
2 disciplinary action. It may even result in dismissal.

3 MR DUNCAN: Is that figure a cause of concern for the  
4 company, that that proportion would be disciplined for  
5 blameworthy accidents subsequent to receiving remedial  
6 training? Is that a matter of concern?

7 MR SAMUEL CHENG: I agree, it is a matter of concern.

8 MR DUNCAN: Has the company addressed how the situation  
9 might be improved? Does something need to be done to  
10 the remedial training, for example?

11 MR SAMUEL CHENG: I think this is one of the directions. We  
12 need to carry out a further analysis as to why, despite  
13 attending the remedial training, they are still involved  
14 in accidents. In fact, each accident has its own cause.  
15 They are different, and we need to go back to carry out  
16 a more detailed analysis.

17 MR DUNCAN: Are you planning to do that?

18 MR SAMUEL CHENG: Yes.

19 MR DUNCAN: Now, could I raise the matter of simulator  
20 training. We all know that pilots of aeroplanes, as  
21 part of their training, operate simulators. Is there  
22 a similar system available for a person who wishes to  
23 take on the responsibility of driving a bus, which often  
24 involves as many passengers as you would find on  
25 an aeroplane? Is there such a system?

26

1 MR SAMUEL CHENG: We don't have such a system, because we  
2 believe that for someone to practise driving, it is  
3 better to drive a real bus on a real road in reality.  
4 That's the better version.

5 CHAIRMAN: But to answer the question directly, do such  
6 systems exist?

7 MR SAMUEL CHENG: We don't have it in our company, but  
8 I have heard that it does exist.

9 MR DUNCAN: What have you heard?

10 MR SAMUEL CHENG: In the past, I heard there was another bus  
11 company which had such a simulator.

12 MR DUNCAN: Which was this company?

13 MR SAMUEL CHENG: KMB. I heard about that. I didn't see it  
14 myself.

15 MR DUNCAN: Have you heard of any bus companies overseas  
16 operating a simulator system?

17 MR SAMUEL CHENG: Yes, I have heard that Singapore has got  
18 this system.

19 MR DUNCAN: And where did you hear that from?

20 MR SAMUEL CHENG: Just now, my colleague sitting next to me,  
21 Mr Chung, told me so.

22 CHAIRMAN: Are you aware that in Singapore the government  
23 takes on the responsibility for training bus captains?

24 MR SAMUEL CHENG: Perhaps I would like to defer to Mr Chung.

25 MR WILLIAM CHUNG: Mr Chairman, yes, we have heard about  
26

1           that. Well, two years ago my colleague went to  
2           Singapore to visit their simulator system, and he also  
3           looked at the operations of the Land Transport Authority  
4           in Singapore.

5           Thank you.

6       MR DUNCAN: So your colleague went to Singapore?

7       MR WILLIAM CHUNG: Correct.

8       MR DUNCAN: Is this sent by the company?

9       MR WILLIAM CHUNG: Yes, sent by our company.

10      MR DUNCAN: And what level was he at? Was he a senior  
11      manager in the company?

12      MR WILLIAM CHUNG: Yes, a manager.

13      MR DUNCAN: Did he come back and write a report as to what  
14      he had seen, and so on?

15      MR WILLIAM CHUNG: After they have returned, they did give  
16      a presentation to me.

17      MR DUNCAN: Was that in writing?

18      MR WILLIAM CHUNG: No. It was a presentation. Other than  
19      looking at the simulator, they also looked at the bus  
20      operation in Singapore.

21      MR DUNCAN: And what was the thrust of what he had to say  
22      about the simulator?

23      MR WILLIAM CHUNG: As the chair has said, for this  
24      simulator, it was subsidised by the government. This is  
25      because the simulator is rather expensive. Then, for  
26

1           this simulator training, different scenarios would be  
2           shown on the screen, so as to test the response of the  
3           driver.

4       MR DUNCAN: I'm sorry, this was two years ago, did you say?

5       MR WILLIAM CHUNG: Correct.

6       MR DUNCAN: Right. Whose idea was this? Was it your  
7           company's idea or was it the idea of the government that  
8           this be looked at?

9       MR WILLIAM CHUNG: I'm not sure whether it was an initiative  
10           from the Singaporean government or an initiative from  
11           the Singaporean bus company.

12      MR DUNCAN: Was it an initiative of your company or some  
13           other organisation?

14      MR WILLIAM CHUNG: You mean the Singapore visit?

15      MR DUNCAN: Yes. I mean was this something that your  
16           company came up with, or was it provided to you by  
17           somebody else as a proposal?

18      MR WILLIAM CHUNG: For this visit, our black box supplier  
19           had a UITP conference in Singapore, so they invited us  
20           to go there to participate. So outside of the  
21           conference we made arrangements to visit the authorities  
22           and look at the simulator.

23      MR DUNCAN: So it was the bus supplier who suggested you  
24           look at the simulator, or was it your company which  
25           decided off its own bat to look at the simulator?

26

1 CHAIRMAN: I don't think we were told it was the bus  
2 supplier. It was the black box supplier.

3 MR DUNCAN: I beg your pardon.

4 CHAIRMAN: The black box supplier is NEC, is it not? Is  
5 that right?

6 MR WILLIAM CHUNG: (Nodded head).

7 CHAIRMAN: So NEC invited you to this UITP. Can you give us  
8 the meaning of that acronym?

9 MR WILLIAM CHUNG: UITP, the international transport  
10 organisation.

11 CHAIRMAN: What's the acronym? International Transport?

12 MR WILLIAM CHUNG: I'm not too sure but I can provide the  
13 information later.

14 CHAIRMAN: It has a website, doesn't it, public transport?

15 MR WILLIAM CHUNG: Correct.

16 MR SAMUEL CHENG: My colleague is trying to look it up right  
17 now.

18 CHAIRMAN: Very well. If you get the answer, tell us.

19 And it was on the occasion of this visit that you  
20 took the opportunity, because you were in Singapore, to  
21 examine the bus simulator, and at whose suggestion was  
22 that?

23 MR WILLIAM CHUNG: It was NEC which made the suggestion.

24 MR DUNCAN: Did you yourself attend that?

25 MR WILLIAM CHUNG: I didn't.

26

1 MR DUNCAN: It was your colleague who subsequently gave you  
2 a report; is that correct?

3 MR WILLIAM CHUNG: Correct.

4 MR DUNCAN: But did I understand you to say earlier that the  
5 government had provided some sort of subsidy for this?

6 CHAIRMAN: I think he was suggesting the Singapore  
7 government subsidised the use of this training facility.  
8 Is that right?

9 MR WILLIAM CHUNG: Yes, that's how I understood it.

10 CHAIRMAN: Because they provide the training of bus  
11 captains; it's not done by the bus companies, it's done  
12 by the government of Singapore, through the Land  
13 Transport Authority. Is that correct?

14 MR WILLIAM CHUNG: Correct.

15 CHAIRMAN: Before we leave the topic -- if that's what you  
16 were about to do, Mr Duncan --

17 MR DUNCAN: Sure.

18 CHAIRMAN: -- your colleague came back and reported to you,  
19 and so far you have told us one element of the report,  
20 that it was rather expensive. Was there anything else  
21 he reported?

22 MR WILLIAM CHUNG: My colleague reported that the simulator  
23 wasn't real enough, the simulator couldn't move, and  
24 there was the absence of the 3D element there, or 4D.

25 CHAIRMAN: Do you know who were the manufacturers of this  
26

1 bus simulator?

2 MR WILLIAM CHUNG: That I'm not aware of.

3 CHAIRMAN: Yes, Mr Duncan.

4 MR DUNCAN: Thank you, Mr Chairman.

5 So, after that, did you carry the matter forward at  
6 all within the company, as to whether any further  
7 consideration should be given to engaging some sort of  
8 simulation?

9 MR SAMUEL CHENG: No, we didn't consider adopting it.

10 CHAIRMAN: That's because of a preference you have for  
11 reality practice driving; is that right, Mr Cheng?

12 MR SAMUEL CHENG: That's correct, sir.

13 MR DUNCAN: Now, if we could move from the current training  
14 to what you propose for the future, and you have  
15 indicated, Mr Cheng, in your submission that there are  
16 some changes afoot.

17 Could I ask you to look at page 54, so CTB-1/54. If  
18 you look first of all at paragraph (a) on that page.

19 MR SAMUEL CHENG: I've done it, sir.

20 MR DUNCAN: The first thing I notice is that you said:

21 "In our recent review of various safety-related  
22 matters, we identified the following areas for  
23 improvement".

24 Could you tell us a little bit more about this  
25 review? Who took part in it? How long did it take?

26

1 MR SAMUEL CHENG: That review, I referred to the safety  
2 committee this morning, and that's part of it. Our  
3 company has set up the safety committee which has not  
4 been around for so long and the membership of the safety  
5 committee is set out in our submission.

6 Basically myself, Mr Chung next to me, Mr Ng, Mr Li,  
7 Mr So, and also the one who cannot make it today,  
8 Mr Fung, the six of us are standing members.

9 MR DUNCAN: How did you go about the review?

10 MR SAMUEL CHENG: Well, we have identified what we set out  
11 in the submission, (a) to (f), and these are the areas  
12 that we have identified for improvement.

13 As to the specifics, how we are going to go about  
14 it, and the time frame, we have assigned the job to  
15 different departments to carry out the review. But  
16 there are things that can be undertaken straightaway,  
17 like, for example, the part-time bus captains, they have  
18 to declare the working hours of the principal  
19 employment, these can be undertaken immediately. We  
20 have decided this would go into effect come 1 June.

21 There are other areas where it would be rather  
22 difficult to get on top of, like for instance the  
23 classroom training being made available to the part-time  
24 bus captains. As Mr William Chung said just a moment  
25 ago, we have to tie in with the timing of the part-time  
26

1 bus captains when we make arrangement for them to sit  
2 through this kind of training. And in each of these  
3 areas, we have to look at the actual timing.

4 MR DUNCAN: So the review itself, was this done in writing,  
5 through communications, memos, and so forth, or did you  
6 have a sit-down meeting, or what was the process?

7 MR SAMUEL CHENG: We have just had the first meeting. We do  
8 have the minutes. After the meeting, we have the  
9 supervisor or the senior manager who would be following  
10 up. Maybe there would be more than one supervisor would  
11 be in charge. And they would be tasked to see when  
12 these are implemented, all the details that will be  
13 involved.

14 Once we have identified all the details, then they  
15 will come back to the safety committee and make a report  
16 there, and the whole committee will be discussing the  
17 issues and work out the actual implementation timetable.  
18 That's how we plan to proceed.

19 Other than conducting the review at the committee,  
20 we also discussed the fact that once a review has been  
21 undertaken, once implementation has been undertaken, the  
22 follow-up work would also be terribly important. How we  
23 are going to follow up this, the safety committee will  
24 take the decision also.

25 Thank you.

26

1 MR DUNCAN: Is there a proposal for a second meeting?

2 MR SAMUEL CHENG: Our committee would like to have the  
3 meeting every two months. If the managing director sees  
4 fit, then we can have extra meetings scheduled.

5 I have been enquiring my colleagues, of course, in  
6 the office, how they are progressing and whether there  
7 are any difficulties they encounter. If I see the merit  
8 of having additional meetings, I will do so; I will  
9 convene extra meetings.

10 Thank you.

11 MR DUNCAN: Would it be possible to provide the minutes of  
12 the first meeting to the committee?

13 MR SAMUEL CHENG: Most certainly, sir.

14 MR DUNCAN: Thank you.

15 In paragraph (a) on that page, there is indication  
16 that the committee proposes to "enhance new route  
17 driving training for all bus captains".

18 Sorry, we are still on page 54.

19 MR SAMUEL CHENG: Yes, sir.

20 MR DUNCAN: Both for full-time and part-time drivers.

21 MR SAMUEL CHENG: Yes.

22 MR DUNCAN: Have you been able to detail just exactly how  
23 that training is to be enhanced as yet?

24 MR SAMUEL CHENG: For the details, I defer to Mr William  
25 Chung, please.

26

1 MR WILLIAM CHUNG: For the new route, the bus captain will  
2 have to ride on the bus of the relevant route. Other  
3 than riding on the bus, we would let him drive a bus on  
4 that route. Now, that's not a passenger-carrying bus.  
5 That will familiarise him with all the route details.

6 MR DUNCAN: And the plan to increase the driving training  
7 hours for newly recruited part-time bus captains, what  
8 is the plan?

9 MR WILLIAM CHUNG: For new part-time bus captains, the  
10 driving hours will go up from eight hours to 16. And  
11 also we will have a four-hour classroom training which  
12 will include customer services, EQ management, traffic  
13 safety awareness and knowledge, and the relevant laws  
14 and regulations, drug driving, drink-driving, and also  
15 the Discrimination Ordinance regarding disability, and  
16 so on.

17 MR DUNCAN: Do we see other proposals at the bottom of  
18 page 54 under (b)(i) and (ii)?

19 MR SAMUEL CHENG: Yes. What's your question, sir?

20 MR DUNCAN: I'm just asking you to confirm that the  
21 enhancement that you have referred to includes what we  
22 can all read in paragraph (b)(i) and (ii) on pages 54  
23 and 55.

24 MR SAMUEL CHENG: Yes, sir, they are included.

25 MR DUNCAN: Now, at page 55, the provision of refresher  
26

1 training to all in-service bus captains, will that apply  
2 to both full-time and part-time bus captains?

3 MR SAMUEL CHENG: The earlier page, (b), we are talking  
4 about enhancing the training for part-time bus captains.  
5 For the part-time bus captains training, it is divided  
6 into two parts, (i) and (ii). As a matter of fact, we  
7 are talking about part-time bus captain training,  
8 because full-time training for full-time bus captains,  
9 they will already have this kind of training.

10 MR DUNCAN: Thank you. I see. Thank you very much.

11 The chairman asked you a question earlier on with  
12 regard to the period between one refresher training and  
13 another, and I think in the case of full-time bus  
14 captains it's once every three years. Is that correct?

15 MR SAMUEL CHENG: Yes, at least they have to have one every  
16 three years.

17 MR DUNCAN: Do I assume that the same period is proposed to  
18 be applied to the part-time bus captains?

19 MR SAMUEL CHENG: In future, yes. At the moment, that  
20 doesn't include the part-time bus captains, but in  
21 future, yes.

22 MR DUNCAN: Right. The chairman asked why three years was  
23 selected. Is there any proposal to review the periods  
24 at which refresher training should be provided to the  
25 bus captains in order to keep them reminded as to the

26

1           need to undertake procedures which can minimise safety  
2           concerns?

3       MR SAMUEL CHENG: As a matter of fact, for the refresher  
4           training, we feel that it doesn't have 100 per cent  
5           correlation with driving safety. It is partially  
6           related to that. The thing is, we have to monitor the  
7           driving behaviour of the bus captains. That's far more  
8           important.

9           For the once every three years refresher training,  
10          we haven't heard from the bus captains any suggestion  
11          that it is too long a cycle, but when we meet the  
12          unions, we will explore with them and hear their views  
13          as to whether there is a need to increase the frequency.  
14          We would like to hear from them because they are the  
15          beneficiaries. We would like to hear from them.

16       MR DUNCAN: The reason that I ask that is that we seem to  
17           have encountered a situation where the remedial training  
18           doesn't seem to be as successful as perhaps it might  
19           have been intended to be. Does that alert you to the  
20           fact that some more training of a remedial fashion might  
21           be considered? Sorry, refresher training might be  
22           considered.

23       MR SAMUEL CHENG: Having heard your suggestion today, when  
24           we go back to our safety committee meetings, we will  
25           explore the idea.

26

1 MR DUNCAN: Just before we finish today, you have touched on  
2 a matter that I was going to ask you about. The safety  
3 committee has been set up. You've had one meeting.  
4 You've delegated certain work to other people. What  
5 sort of communication has there been with the bus  
6 captains and/or the unions so far with regard to these  
7 different proposals?

8 MR SAMUEL CHENG: Not yet. We haven't, not yet, because we  
9 have only just had our first meeting. In fact, in  
10 future, for the safety committee, if we are to conduct  
11 a review, if there are changes, we will only communicate  
12 with the trade unions once they have been finalised.  
13 This is because before it is finalised, and if we start  
14 to talk to them, it may cause confusion in the messages.

15 MR DUNCAN: When you say "finalise", do you mean you've made  
16 the decision and you tell the unions, or you've made  
17 a preliminary decision which you are then going to  
18 discuss with the unions, and then make a final "final"  
19 decision?

20 MR SAMUEL CHENG: It depends whether it is controversial in  
21 nature. If it is not controversial, say for example,  
22 I suggest that I would like to increase the number of  
23 training hours, I believe it is not going to be  
24 controversial. In this case, I don't think there is  
25 a need to have prior discussion with the trade unions.

26

1           However, for other matters which may be  
2           controversial, then, depending on the circumstances, if  
3           there is a need, then perhaps we need to engage the  
4           trade unions at an earlier stage and communicate with  
5           them.

6       MR DUNCAN: Mr Chairman, that would be a convenient moment.

7       CHAIRMAN: Yes, Mr Duncan.

8           Mr Cheng and your colleagues, we have reached beyond  
9           4.30, so we are going to adjourn proceedings today, and  
10          I'm going to ask you if you would be kind enough to come  
11          back tomorrow so we can resume our hearing at  
12          10 o'clock.

13          Thank you for your attendance today.

14       MR SAMUEL CHENG: Thank you.

15       (4.34 pm)

16       (The hearing adjourned until 10.00 am the following day)

EVIDENCE FROM NEW WORLD FIRST BUS SERVICES LTD .....1

AND CITYBUS LTD: MR SAMUEL CHENG, MR WILLIAM

CHUNG, MR PAUL LI, MR GARETH NG, MR KENNETH

LIT, MR KENNY SO

Opening statement by MR SAMUEL CHENG .....1

Examination by MR DUNCAN .....4

1 2018 年 5 月 29 日

2 上午 10 時正恢復聆訊

3 出席人士：鄭偉波先生，董事總經理（新世界第一巴士服務有限公司和城巴有  
4 限公司）

5 鍾澤文先生，營運總監（新世界第一巴士服務有限公司和城巴有  
6 限公司）

7 李廣威先生，工程總監（新世界第一巴士服務有限公司和城巴有  
8 限公司）

9 吳智光先生，人力資源及行政總監（新世界第一巴士服務有限公  
10 司和城巴有限公司）

11 列俊華先生，營運支援經理（新世界第一巴士服務有限公司和城  
12 巴有限公司）

13 蘇國健先生，高級工程支援經理（新世界第一巴士服務有限公司  
14 和城巴有限公司）

15

16 主席：（經傳譯員）各位早晨，今日我哋係歡迎同埋感謝鄭先生同埋佢嘅同事，佢哋  
17 回應咗我哋嘅邀請，我哋邀請佢哋上嚟作證，協助我哋。佢同埋幾位同事今日都  
18 出席，係回應咗我哋嘅問題。我哋嘅律師就已經向佢哋提咗啲問題，今日律師亦  
19 都會再向佢哋問題，佢哋係樂意今日回答嘅。

20 首先，鄭先生，或者讓我直接同你講，首先我哋會有傳譯服務，或者你帶好  
21 個耳機。首先，我明白我哋冇要求你哋係請律師代表你哋嘅，所以我明白你希望  
22 一開始嘅時候，就係作一個短嘅開場白，同埋用粵語進行嘅，用廣東話嘅，係咪  
23 呀？

24 鄭偉波先生：主席，係呀。

25 主席：（經傳譯員）請你而家開始發言。

26 鄭偉波先生：多謝。主席先生、各位委員、女士們、先生們，早晨。多謝委員會邀請  
27 我哋今日嚟到呢個聽證會，我現在代表新巴同埋城巴作出以下嘅簡短陳述。新巴  
28 同城巴經營專營巴士服務已經好多年，提供安全及優質嘅巴士服務係我哋嘅核心  
29 價值，我哋一向嚴格遵守規管專營巴士嘅所有法例、規例、專營權條款，以及所

有運輸署對專營巴士公司所發出嘅指引。就今次獨立檢討委員會對專營巴士所作出嘅檢討，新巴同城巴嘅取態係正面嘅。過往幾個月，我哋對於公司嘅運作，尤其是安全方面作出檢討，查找不足。近日，新巴同城巴已經成立咗安全委員會，專責檢討所有有關營運安全嘅事項，我哋初步確定有以下嘅範圍會作出改進嘅：

第一， 就係加強所有在職車長嘅新路線駕駛訓練；

第二， 增加新入職兼職車長嘅駕駛訓練時數；

第三， 向新入職嘅兼職車長提供課堂培訓，內容包括顧客服務同埋情緒管理（EQ Management）；

第四， 向在職嘅兼職車長提供重溫培訓（Refresher Training），內容亦都包括咗顧客服務同埋情緒管理；

第五， 由今年 6 月 1 日起，規定所有兼職車長必須提供佢正職嘅工作時間，以便公司更了解佢哋是否有足夠嘅休息時間；

第六， 喺今年嘅第三季，當公司嘅黑盒系統完成提升之後，每當車長超速駕駛，佢車上嘅黑盒會自動發出警號提示車長；

第七， 我哋已經開始探討對車長職位嘅申請人作心理評估嘅可行性；

第八， 我哋會繼續探討引入新嘅科技，以提升駕駛安全。

隨咗上述嘅事項，對於獨立檢討委員會將來所作出嘅建議，喺我哋有足夠財政資源，並且可行嘅情況下，我哋都會積極考慮，多謝主席。

主席：（經傳譯員）唔該晒你，鄭先生。我而家就係想請鄧樂勤資深大律師向你提出問題，佢就會用英文係向你提問嘅，我哋就會係有傳譯將佢譯番做廣東話，然後你用廣東話作答，亦都會將佢傳譯番做英文嘅。我諗我哋大家都要學下點樣樣好成功、好順利咁樣去做呢一樣嘢嘅，我相信就係要問嘅時候問得比較短，同埋就係答嘅時候，可能中間亦都有稍為一個停頓，希望大家謹記。鄧大律師。

MR DUNCAN：（經傳譯員）唔該晒，主席。鄭先生，早晨。各位先生，早晨。亦都再一次感謝你哋今日出席檢討委員會今朝嘅聽證會，感謝你剛才所作嘅開場發言，鄭先生，有幾樣嘢我係希望可以同你探討一下嘅，呢個都係源自你哋已經提供咗畀委員會嘅陳述書。

主席：（經傳譯員）黃女士，係咪可以確認一下，係咪已經係傳譯咗做廣東話？係邊一個頻道呀？唔該。

MR DUNCAN：（經傳譯員）講到呢個專營權嘅協議，你哋就喺呢個專營權協議底下去運作㗎嘛，關於呢件事，我就想請你就係揭番去呢個專營權協議嗰度嘅，你可以喺 TD-2 呢個文件夾第 386 頁嗰度搵到嘅。鄭先生，我知道你係代表兩間公司出席，當我問你問題嘅時候，我相信我會講係「間公司」咁樣樣，其實我講話

1 「你間公司」嘅時候，我都係講及你哋嘅兩間公司嘅。如果你想特別係指明兩間  
2 公司裏面嘅邊一間，請你隨時話畀我聽。你前面嘅嗰份文件就係嗰個專營權協  
3 議，而城巴有限公司就係嗰份專營權協議底下營運嘅，講及嗰個路線，我諗  
4 就係你哋係最新嗰份專營權協議畀你哋去運作嘅，就係靠呢一份，你明唔明白我  
5 講㗎？

6 鄭偉波先生：我明白。

7 MR DUNCAN：（經傳譯員）唔該晒。麻煩你睇第 7 條，請你揭去第 389 頁。或者你  
8 睇一睇番嗰個條文第 7 條第（1）款，7（1）嗰條，請你睇睇。

9 鄭偉波先生：我睇㗎。

10 MR DUNCAN：（經傳譯員）你會睇到嗰個條條文嗰度係有提及專營權公司要提供一  
11 系列嘅東西，其中包括就係一啲提升安全或者服務嘅設施擺喺嗰個巴士上面，而  
12 呢一啲都係應運輸署署長所作嘅合理要求，而且佢係有權不時咁樣提出呢啲合理  
13 要求嘅，睇到嘛？

14 鄭偉波先生：睇到。

15 MR DUNCAN：（經傳譯員）你哋係提供咗嗰個陳述書，你話畀我哋聽，就係話喺  
16 2003 年嗰陣時，運輸署已經決定就係要--我哋成日都係叫做黑盒，當時運輸署  
17 署長就話所有嘅公共專營巴士都要安裝呢個黑盒嘅，咁講啱唔啱呀？

18 鄭偉波先生：正確嘅。

19 MR DUNCAN：（經傳譯員）跟住想問你呢一個問題，除咗 2003 年當時嘅運輸署署  
20 長作出咁嘅決定之外，運輸署署長有冇要求係其他指明嘅安全裝置要安喺個巴士  
21 上面呢？

22 鄭偉波先生：係有嘅，我舉兩個例子，就運輸署係有要求巴士公司喺車上面有啲較為  
23 --我諗我用英文先講到呢個字，啲“exposed seats”就要加裝安全帶嘅。而  
24 另外，我哋有小部分嘅巴士就係條樓梯係一條長嘅直樓梯，運輸署有要求我哋就  
25 要加裝額外嘅扶手。

26 MR DUNCAN：（經傳譯員）我哋知道，講到你哋巴士上面嘅裝置，亦都有個車速限  
27 制器嘅，你剛才咁樣答，意思係咪車速限制器係公司自己嘅決定，就唔係運輸署  
28 嘅要求，係咪呀？

29 鄭偉波先生：呢個不是運輸署嘅要求㗎嘅，係嗰個巴士生產商佢加落去嘅設施㗎嘅。

30 MR DUNCAN：（經傳譯員）所以部門唯一嘅要求就係嗰個黑盒、安全帶同埋嗰個扶  
31 手，係咪呀？你剛才所提及嘅。

32 鄭偉波先生：我剛才提及嘅就係兩個我記得嘅例子，但係我唔可以肯定就只係得呢幾  
33 樣嘢，即係可能仲有其他嘅嘢，我而家呢度就未必答得到你。或者咁樣，我畀我

1 咁嘅工程總監李先生提供多少少呢部分嘅資料。

2 李廣威先生：主席，喺我哋嘅 submission 嘅 Annex page 29。第 29 頁，Annex  
3 1.6，係第一次 submission 嘅 Annex 1.6，裏面係一啲巴士公司同運輸署達  
4 成嘅一啲協議，裏面亦都係包括咗一啲嘅安全設施，喺我哋訂購新車嘅時候，係  
5 需要加裝，需要考慮嘅。裏面包括咗座位嘅設計，其中包括咗一啲無遮掩嘅座位  
6 係需要安裝三點式嘅安全帶；座位係盡量需要有頭枕；座位嘅設計同埋安全帶嘅  
7 設計，安全帶嗰個嘅定位同埋車身嘅結構需要符合歐盟嘅標準。

8 喺另外一啲嘅安全設施方面，喺雙層巴士嘅樓梯係需要有雙重嘅扶手，令到  
9 乘客上落嘅時候，可以有足夠嘅扶手可以搵扶嘅。我哋亦都需要考慮到玻璃嗰個  
10 嘅安全，亦都需要提供一啲打破玻璃嘅錘仔，係有足夠呢啲嘅設施喺緊急嘅情況  
11 底下可以打破玻璃。

12 我哋亦都需要提供一啲閉路電視系統，可以協助巴士喺倒車嘅時候，可以畀  
13 車長佢睇得到，亦都需要畀車長可以睇到上層嗰個嘅情況，同埋乘客上落嘅情  
14 況。

15 喺巴士嘅防火方面亦都需要所有嘅物料係符合一啲相關嘅規例。相關嘅規例  
16 亦都係列咗喺第 31 頁嘅嗰個表嗰度。

17 喺引擎室嗰度，我哋亦都需要係安裝一啲高溫嘅探測，係當巴士預到火警或  
18 者高溫嘅時候，就會喺車長室度會有一啲嘅警號。

19 至於冷氣系統方面，假如巴士喺引擎室發生火警，就需要有一個自動嘅閘去  
20 令到引擎室嗰度同個冷氣系統係分離。引擎室同埋車廂之間亦都需要加裝一啲金  
21 屬做嘅防火牆，令到當發生火警嘅時候，火勢唔可以容易蔓延到車廂裏面。

22 至於其他方面，我哋亦都需要提供咪錶同埋車速限制。另外，就係輪椅位嗰  
23 度個位置唔可以提供座位。

24 喺冷氣方面，我哋個冷氣系統亦都需要去有一個全天候嘅控制，乘客座位附  
25 近需要提供嘅冷氣出口亦都需要係可以調節風量或者方向，多謝主席。

26 MR DUNCAN：（經傳譯員）唔該晒，李生。我留意到呢份文件就係 2012 年 2 月份  
27 嘅，呢份係咪最新嘅文件㗎㗎㗎？即係喺方面，係咪最新嘅文件㗎㗎㗎？

28 李廣威先生：係，冇錯。

29 MR DUNCAN：（經傳譯員）以前嗰啲文件，即係上一份嗰啲文件係幾時㗎，即係對  
30 上嗰啲文件，日期係幾時呀？

31 鄭偉波先生：主席，而家我哋手頭上就有嗰份文件嘅，而家大家睇到嗰份文件係我哋  
32 第一次收到嘅。

33 MR DUNCAN：（經傳譯員）呢份文件係咪經常檢討㗎㗎，係咪呀？即係運輸署同你

1 咁大家經常檢討住呢份文件㗎嘛，係咪？

2 鄭偉波先生：李生。

3 李廣威先生：呢份文件出咗之後，冇再檢討過。

4 MR DUNCAN：（經傳譯員）即係檢討完之後先至出呢一份，係咪咁嘅意思？

5 李廣威先生：呢份文件係喺多次嘅例會大家商討咗之後，就定咗呢一份文件，就喺  
6 2012 年嘅時候，就係定咗出嚟。

7 MR DUNCAN：（經傳譯員）唔該晒。離開呢份文件之前，就我知道你提到嗰個即係  
8 限速嘅功能，其實你係睇到第 4(a)段都有講嘅。

9 李廣威先生：係，冇錯。

10 MR DUNCAN：（經傳譯員）睇嚟冇一啲嘅規格喺度個啲，就係呢個限速嘅功能嗰方  
11 面，係咪㗎？

12 李廣威先生：其實大家都知道，或者係過往我哋嘅車都已經係有一個限速喺 70 公理  
13 嘅功能，不過喺呢度定咗就係一個正規化，所以大家都理解巴士嗰個限速就係  
14 70 公里。

15 MR DUNCAN：（經傳譯員）其實呢個係一個理解，你哋公司同運輸署之間有一個理  
16 解係咁樣，其實就冇一啲具體咁樣寫明喺文件入面嘅，係咪咁嘅意思？

17 李廣威先生：係，冇錯。

18 MR DUNCAN：（經傳譯員）唔該晒。

19 主席：（經傳譯員）或者我係加多句，嗰個限速器喺呢啲專營巴士喺屯門嗰個 2003  
20 年慘劇之後係咪先至裝，定係點樣㗎？

21 李廣威先生：主席，其實喺好多年前，巴士已經有呢一個限速嘅功能，早過 2003  
22 年。

23 主席：（經傳譯員）可唔可以同我哋講幾時開始裝嘅呢，咁樣？

24 李廣威先生：其實喺柴油引擎方面，喺柴油引擎其實本身係已經有一個收油嗰個功能  
25 嘅。以我記憶，其實喺三、四十年前已經有呢一個功能，不過就當時未必係可以  
26 指定限制到 70 公里嘅時候收油，可能就係譬如話 75 或者 80，係視乎嗰個引擎  
27 嗰個設計同埋波箱嘅設計。到咗歐盟二期嘅引擎嘅時候，因為可以有呢個電子控  
28 制，所以就可以好容易做到限制喺 70 公里嘅時候會收油呢一個功能。

29 MR DUNCAN：（經傳譯員）我哋講完第 7 項，我哋而家睇睇第 393 頁，都係嗰個專  
30 營權嘅協議，393。喺你嘅陳述書嗰度，你係提到嗰啲乘客聯絡小組。乘客聯絡  
31 小組，咁想問幾方面嘅，喺呢一度係關於呢個小組嘅。或者想請你係睇睇面前  
32 15(3)，專營權嘅第 15(3)條。

1 鄭偉波先生：對唔住，我哋而家喺個畫面度睇唔到你所講嗰一頁。

2 MR DUNCAN：（經傳譯員）可唔可以就係睇一睇第 15(3)，393 頁，15(3)嗰度？  
3 我相信睇到，你而家係咪呀？

4 鄭偉波先生：睇到。我哋睇咗。

5 MR DUNCAN：（經傳譯員）唔該晒。呢條條款就係規定公司就要制定一啲規則係關  
6 於嗰個會議同埋成員嘅，你有冇頒布呢類咁嘅規則呢？

7 鄭偉波先生：呢個我請我嘅營運總監鍾先生回答。

8 鍾澤文先生：主席，我哋呢個乘客聯絡小組就係每兩個月度會舉行一次嘅，我哋會喺  
9 唔同嘅巴士總站嗰度係邀請一啲乘客，佢係喺--入嚟呢個會議係發表佢嘅意  
10 見。同埋喺呢個會議裏面，我哋會邀請運輸署嘅代表同埋呢個我哋公司嘅代表係  
11 同乘客去商討佢哋提出嘅問題。

12 主席：（經傳譯員）我諗個問題較為具體嘅，你哋公司係冇冇頒布呢啲乘客聯絡小組  
13 嘅規則，關於個成員同埋開會？

14 鍾澤文先生：我哋係有同運輸署講咗究竟點樣做嘅。

15 MR DUNCAN：（經傳譯員）有冇係書面咁樣制定咗一啲規則呢？

16 鍾澤文先生：我哋冇。

17 MR DUNCAN：（經傳譯員）喺同一條條文嗰度亦都講咗話係運輸署署長可以作出指  
18 示，或者書面就係作一啲批准嘅，睇唔睇到嗰幾個字呀？

19 鍾澤文先生：睇到。

20 MR DUNCAN：（經傳譯員）照你所知，運輸署署長有冇係出過啲咁嘅指示，或者係  
21 作出咁嘅批示呢？

22 鍾澤文先生：我唔肯定，因為都較耐之前嘅事。

23 MR DUNCAN：（經傳譯員）呢啲開會呢就係時不時召開嘅，即使今時今日都仲係  
24 咁，啱唔啱呀？

25 鍾澤文先生：啱嘅。

26 MR DUNCAN：（經傳譯員）亦都想請你睇另一頁，係 CTB-2，170 頁。亦都係有一  
27 個翻譯本，係 172-1 嗰頁就係嗰個翻譯本。你會見到附件 4.1 就係你嘅陳述  
28 書，係附件 4.1，嗰個就係其中一個乘客聯絡小組開會嘅會議紀錄，日期就係  
29 2018 年 2 月 27 號開會嘅會議紀錄，睇唔睇到呀？

30 鍾澤文先生：睇到。

1 MR DUNCAN：（經傳譯員）起碼喺翻譯本嗰度，我就睇唔到話究竟有幾多位乘客係  
2 出席當次嘅會議，有冇嘅呢？

3 鍾澤文先生：呢個會議紀錄冇寫低。

4 MR DUNCAN：（經傳譯員）一般會唔會係提及有幾多人出席嘅呢？

5 鍾澤文先生：呢個會議紀錄冇提及有幾多人出席嘅。

6 MR DUNCAN：（經傳譯員）你揭到去第 173 頁，同一個文件夾嘅 173 頁，173 頁，  
7 CTB-2 嘅 173 頁，嗰度睇嚟就係 2 月 28 號嘅會議紀錄嚟嘅。我想問，呢個會  
8 議紀錄嗰度有冇顯示話有幾多位乘客係出席該次會議呢？

9 鍾澤文先生：冇嘅。

10 MR DUNCAN：（經傳譯員）其實點樣決定係邊位乘客出席呢啲會議嘅呢？

11 鍾澤文先生：我哋係冇限制咩嘢乘客嚟出席嘅。喺開會之前兩個禮拜，我哋會係透過  
12 公司嘅網頁，同埋喺個將會舉行呢個聯絡小組嘅巴士站係張貼啲通告，就通知乘  
13 客嗰個會議嘅日期同埋時間。咁當日，乘客就會係自由去出席嘅。

14 MR DUNCAN：（經傳譯員）一般嚟講，有幾多乘客會係出席嘅呢？

15 鍾澤文先生：會視乎地區，一般都會有十個、八個嘅。

16 MR DUNCAN：（經傳譯員）你講係巴士總站，會唔會係有一個會議室係開會，定抑  
17 或喺戶外進行嘅呢？

18 鍾澤文先生：我哋係會安排一架巴士就係停喺嗰個巴士站嗰度嘅，咁個巴士嘅出面亦  
19 會張貼咗嗰個乘客聯絡小組會議，亦都有同事喺個巴士出面就係叫啲乘客就參  
20 與咁樣嘅。

21 MR DUNCAN：（經傳譯員）再請你翻番去第 170 頁，麻煩你睇第 3 項，喺嗰一頁，  
22 嗰份文件嘅第 3 項，翻譯本就係喺 172-1 嗰頁嘅。翻譯嗰度就咁講嘅，就話建  
23 議係增加一個巴士車速顯示器，即係類似小巴嗰種，係安裝喺所有嘅巴士嗰度，  
24 同埋如果係超過嗰個車速限制，就會發出聲響嘅，睇唔睇到嗰項嘅紀錄？

25 鄭偉波先生：我睇到嘅。

26 MR DUNCAN：（經傳譯員）就想請你睇睇，呢度就話係公司嘅回應，講到話係回應  
27 番喺車上係安裝某一啲設施，公司就會評估嘅，咁就係睇番一啲因素，譬如話係  
28 運作嘅成本、經濟效益同埋嗰個技術嘅問題。目前嚟講，就係冇計劃安裝所講嘅  
29 有關設施，睇唔睇到嗰項紀錄？

30 鄭偉波先生：睇到。

31 MR DUNCAN：（經傳譯員）我想問下，自從 2018 年 2 月開始到而家有冇進行過你  
32 呢度所講嘅評估呢？

1 鄭偉波先生：其實我哋就係進行咗另一方面嘅評估，因為我哋就擔心個乘客會有更大  
2 嘅機會同我哋嘅車長喺巴士上面發生爭執，因為即係而家其實近年都有啲乘客  
3 同車長有磨擦嘅情況出現。我哋就係驚，比喻嚟講，嗰段嘅路段嘅限速係 50 公  
4 里，而當時我哋嘅車長譬如佢係揸緊 52 公里，喺乘客嘅角度，佢就覺得呢個係  
5 超速。如果個乘客選擇即時同我哋嗰個車長理論嘅話，呢個會滋擾我哋嘅車長，  
6 所以我哋公司選擇就係透過個黑盒系統，咁就得知我哋嘅車長駕駛嘅時候有冇超  
7 速，繼而我哋就會有啲內部嘅懲處，就跟番我哋公司內部嘅指引嚟到懲處有超速  
8 嘅車長。我哋覺得呢一個方法就唔會製造一個機會畀車長同乘客發生磨擦，而同  
9 時我哋亦都可以監察到我哋車長有冇超速，多謝。

10 MR DUNCAN：（經傳譯員）鄭生，你意思係咪話你哋決定咗係唔會安裝呢一啲車速  
11 顯示器？

12 鄭偉波先生：喺現時，我哋嘅評估就係有需要安裝呢個車速顯示器，反而對於監察車  
13 速，我哋會著重喺透過我哋嘅黑盒系統，我哋覺得呢個係更加有效。

14 MR DUNCAN：（經傳譯員）委員會就係知道嘅，呢一啲顯示器就會係按呢個運輸署  
15 嘅要求喺公共小巴嗰度安裝，香港嘅情況係咁嘅，你知唔知道呀？

16 鄭偉波先生：我見過公共小巴有呢個顯示器。

17 MR DUNCAN：（經傳譯員）我想問，公司有冇查詢過，即係話係咪咁樣係有引致  
18 到公共小巴嘅司機同乘客之間係有磨擦呀？

19 鄭偉波先生：其實好多人搭公共小巴就係貪佢開得快，咁變咗啲乘客——即係我唔覺得  
20 啲乘客見到佢有超速嘅情況底下，就走去同佢磨擦嘅，即係呢個喺我哋香港人真  
21 係有去搭公共小巴，尤其是喺夜晚嘅時候，呢個係經常嘅現象嚟嘅，變咗就同搭  
22 我哋專營巴士係唔同嘅。

23 MR DUNCAN：（經傳譯員）我哋講番嗰份專營權文件。

24 主席：（經傳譯員）對唔住，鄧大律師，你未繼續之前——鄭先生，似乎公司就係決定  
25 咗就唔會喺巴士上面，喺呢個時候安裝車速顯示器，係咪？

26 鄭偉波先生：除非呢個係一個規定，否則我哋冇計劃去安裝呢個顯示器。

27 主席：（經傳譯員）你有冇將呢一個決定係話番畀你哋嘅乘客聯絡小組知呀？即係 2  
28 月嘅時候開會吓嘛。

29 鄭偉波先生：鍾生回答呢個問題。

30 主席：（經傳譯員）唔該。

31 鍾澤文先生：我諗我哋喺即場已經係回答咗嗰個乘客，就係我哋喺嗰個回應嗰度寫  
32 嘅，就係話我哋現階段係暫無計劃加裝有關設施。

33 主席：（經傳譯員）有冇將你嘅評估結果，包括係啲因素，即係話營運成本、經濟

1 效益同埋技術問題係話畀個乘客知呢？

2 鍾澤文先生：我哋話畀乘客聽嗰陣時係有講埋呢啲原因嘅。

3 主席：（經傳譯員）但係嗰個會議紀錄就係話你哋進行評估，有冇進行過評估？如果  
4 有進行過評估，評估咗之後，有冇通知番呢個乘客聯絡小組呢？

5 鍾澤文先生：冇嘅，因為我哋係冇佢哋嗰個聯絡方法。

6 主席：（經傳譯員）你有冇進行過評估呢？

7 鄭偉波先生：主席，我哋係未進行呢個評估嘅，因為我哋喺另一個角度嚟到睇呢件  
8 事，嗰個關注反而就係嗰個車長同乘客之間可能發生磨擦，嗰個我哋覺得係一個  
9 最主要嘅因素，我哋唔打算去安裝呢個顯示器。

10 主席：（經傳譯員）唔該晒。鄧律師。

11 MR DUNCAN：（經傳譯員）係，主席。或者而家想睇番嗰個專營權協議，而家就想  
12 睇一睇第 TD-2，410 頁。或者想大家睇一睇第 33 條，呢份文件嘅 33 段，或者  
13 請大家係睇一睇當中嘅內容。

14 鄭偉波先生：我哋睇咗嘅。

15 MR DUNCAN：（經傳譯員）唔該。或者想你哋睇一睇另一份文件 CTB-2，頁數就係  
16 32 頁。CTB-2，32 頁，喺第 32 頁，呢度係比較難睇嘅，附件二，2.1，係你  
17 嗰個陳述書嘅當中嚟嘅，NWFB，寫住“Fuller Disclosure 2017”咁樣  
18 嘅，個版面係咁樣，大家睇唔睇到？

19 鄭偉波先生：我哋睇到嘅。

20 MR DUNCAN：（經傳譯員）唔該。可唔可以係睇一睇嗰份文件，就睇第 42 頁，文件  
21 嘅第 42 頁。CTB-2，第 42 頁。咁睇唔睇到喺呢一版，有一個標題就係  
22 “Corporate Social Responsibility”，即係企業社會責任，睇唔睇到  
23 呀？

24 鄭偉波先生：睇到。

25 MR DUNCAN：（經傳譯員）我咁理解啱唔啱呢？即係話呢個企業社會責任呢一份文  
26 件，就係嗰個專利協議嘅第 32 條當中係有咁規定嘅，係咪呢？

27 鄭偉波先生：正確。

28 MR DUNCAN：（經傳譯員）唔該。呢一版，喺呢一版嗰度，企業社會責任其實就係  
29 喺呢一個即係更全面披露呢一份文件當中係有關嘅，喺呢一個專利權嘅協議嗰度  
30 就有睇到呢一個即係更全面披露呢一份嘅文件，即係城巴概覽，咁可唔可以同我  
31 哋講講，即係幾時係出呢一份文件嘅？即係呢一個 Fuller Disclosure，即  
32 係全面披露呢一份嘅文件。

1 鄭偉波先生：主席，呢一份文件係我哋每一年出一次嘅，就每一年嘅 10 月嘅時候出  
2 嘅。

3 MR DUNCAN：（經傳譯員）呢個係咪一個規定嚟㗎，還是係自願咁做，公司自願咁  
4 做定係點？因為我睇唔到喺嗰個專營權協議當中有咁樣講嘅？

5 鄭偉波先生：呢個係運輸署嘅規定嚟嘅。

6 MR DUNCAN：（經傳譯員）咁幾時係有咁嘅規定㗎？

7 鄭偉波先生：以我嘅記憶，都有超過十年。

8 MR DUNCAN：（經傳譯員）咁每一年出，係咪呀？即係公司每年出嘅，呢一份，係  
9 咪？

10 鄭偉波先生：正確嘅。

11 MR DUNCAN：（經傳譯員）我想你睇一睇 39 頁，文件夾嘅第 39 頁。CTB-2，39  
12 頁。當中就係有個標題就係「財務資料」咁樣。

13 鄭偉波先生：睇到。

14 MR DUNCAN：（經傳譯員）當中就有一個損益表 2017，6 月 30 號嘅。

15 鄭偉波先生：見到。

16 MR DUNCAN：（經傳譯員）想你睇一睇營業額嗰一個部分，營業額就有兩項，車費  
17 嘅收入同埋廣告嘅收入。公司嗰個廣告收入嗰個來源係點樣㗎？

18 鄭偉波先生：喺當年，我哋公司嘅廣告收入就係分開三部分嘅，有三個來源：第一，  
19 就係喺我哋啲巴士站上面嘅廣告；第二，就係我哋嘅巴士車身上面嘅廣告；第  
20 三，就係喺巴士裏面，就有啲電視機咁樣嘅嗰個——嗰啲愛嚟賣廣告嘅。但係第  
21 三種就係舊年開始就有咗，因為呢一個嘅廣告模式就唔受歡迎，所以有咗。喺現  
22 時，我哋就只係有兩種廣告嘅收入來源，第一，就係巴士站嘅廣告收入；第二，  
23 就係巴士車身嘅廣告收入。多謝。

24 MR DUNCAN：（經傳譯員）咁公司有冇計劃從其他來源係開源，咁係攞一啲廣告收  
25 入番嚟呢？

26 鄭偉波先生：其實可以攞到收到嘅來源，我哋都已經探討齊晒。

27 MR DUNCAN：（經傳譯員）或者而家想你睇一睇嗰個專營權嘅協議，TD-2，第 410  
28 頁。而家想大家睇一睇第 34 條，或者大家睇一睇個內容。

29 鄭偉波先生：我睇咗。

30 MR DUNCAN：（經傳譯員）呢條條文就係講到有一個每年嘅報告，公司有冇一個即  
31 係每年經審核嘅一個報告，喺呢度規定嘅報告有冇每年出㗎？

1 鄭偉波先生：有嘅。

2 MR DUNCAN：（經傳譯員）唔該。咁你喺個陳述書有冇提到呢一點呀？

3 鄭偉波先生：係有。

4 MR DUNCAN：（經傳譯員）可唔可以同我哋講講係邊一度呀？

5 鄭偉波先生：係喺我哋第一個 submission, first submission 嘅第 15 頁第 6  
6 段嘅 A3。

7 MR DUNCAN：（經傳譯員）唔該晒。呢個係有講到審核機構嘅名稱，即係睇個報  
8 告，係咪？有講，係咪？

9 鄭偉波先生：有，係香港品質保證局，HKQAA。

10 MR DUNCAN：（經傳譯員）咁公司係咪可以向委員會提供一啲報告嘅一啲樣辦？

11 鄭偉波先生：可以嘅，我哋可以後補呢個資料。

12 MR DUNCAN：（經傳譯員）唔該晒。而家講完呢一個--暫時講完呢個專營權協議  
13 先。我而家就想問--或者想請你睇 CTB-2 嘅另一份文件，呢一份文件就係第 64  
14 頁嘅。CTB-2，64 頁。

15 鄭偉波先生：見到。

16 MR DUNCAN：（經傳譯員）唔該。你而家睇嘅文件就係嗰個架構圖。

17 鄭偉波先生：見到。

18 MR DUNCAN：（經傳譯員）呢個架構圖係咪顯示出嗰個高層管理層嘅架構呢？

19 鄭偉波先生：正確。

20 MR DUNCAN：（經傳譯員）公司其實係咪有一個即係專門管安全嘅部門㗎？

21 鄭偉波先生：喺呢個文件就有一欄就係 Head of Operations，營運總監。喺呢個  
22 Operations 嘅 division 轄下，其中有部門就係負責 service quality  
23 嘅，而呢個部門就係譬如話我哋有車長嗰個服務唔好，做咗啲違規嘅事情，或者  
24 有交通意外，都係由呢個部門負責調查同埋懲處嘅，多謝。

25 MR DUNCAN：（經傳譯員）公司有冇一個部門係好積極咁樣睇安全嘅問題，即係唔  
26 係話單係咁樣被動式咁樣係睇啲安全有違反嘅情況，有冇積極咁睇嘅呢？

27 鄭偉波先生：主席，呢個公司以往嘅做法，以往就係如果即係有啲新嘅譬如話科技咁  
28 樣，我哋嘅同事就會嚟報告畀我知，我覺得有需要就會搵埋其他高級嘅同事，  
29 就愛嚟研究呢啲嘢嘅可行性。而另外如果有大型嘅交通意外發生㗎，我哋相關嘅  
30 同事就包括埋我、營運總監鍾先生、我哋嘅工程總監李先生同埋佢轄下相關嘅經

1 理都會去檢討個意外嘅成因。

2 我哋係喺近排就正式成立咗一個安全委員，呢個安全委員會嘅職能就係去檢  
3 討同埋去審視所有我哋公司有關安全嘅事項。而呢個安全委員嘅成員就包括我就  
4 係個主席，跟住就係營運總監、工程總監、人力資源總監同埋高級營運經理，同  
5 埋高級工程支援經理。而頭先我述嘅呢個安全委員會嘅成員，其實喺香港個巴士  
6 行業個個工作經驗係非常豐富，頭先我講過嗰幾位成員，每一個人喺香港巴士嘅  
7 工作經驗都超過二十年，多謝。

8 MR DUNCAN：（經傳譯員）如果我個理解係正確嘅話，你提嘅係安全委員會係最近  
9 先至成立，係咪？非常近期先成立嘅，係咪？

10 鄭偉波先生：正確。

11 MR DUNCAN：（經傳譯員）即係近到幾時呢？

12 鄭偉波先生：大約係三個星期之前。

13 MR DUNCAN：（經傳譯員）之前有冇邊一位人士係你公司嘅僱員，而佢嘅職責就係  
14 專注安全嘅呢？

15 鄭偉波先生：我哋有特定話係邊一位僱員，因為有關安全嘅嘢，其實就係我哋即係今  
16 日坐喺呢處幾位公司嘅高級嘅人員大家都有責任。

17 MR DUNCAN：（經傳譯員）委員會明白隨住時間，我哋有新嘅係唔同嘅安全有關嘅  
18 係技術，咁直到係你成立呢個安全委員會之前，我就想問下，公司裏面有邊個人  
19 係負責睇住跟進住不時變化係安全有關嘅技術嘅呢？

20 鄭偉波先生：有關呢啲安全嘅技術，我哋個個信息嘅來源主要都係嚟自我哋巴士嘅供  
21 應商。巴士供應商如果佢係知道有呢啲嘅新科技，而又已經證明到有成效嘅話，  
22 佢哋喺同我哋公司工程部嘅同事開會嘅時候就會話畀我哋知，我哋當然就要詳細  
23 去了解到底嗰啲新科技係點樣去運作，同埋是否適合香港嘅應用，多謝。

24 MR DUNCAN：（經傳譯員）想請你睇番係 CTB-1，第 54 頁。你去到第 54 頁未呢？  
25 呢個係你嘅 5 月 18 號嘅陳述書嘅第 1 頁。

26 鄭偉波先生：去到。

27 MR DUNCAN：（經傳譯員）係喺呢封信嘅第二段，你就係提及話成立咗一個安全委  
28 員會？

29 鄭偉波先生：正確。

30 MR DUNCAN：（經傳譯員）你哋有冇打算係聘用任何人士，又或者係提名任何人士  
31 讓佢係有專門嘅責任嚟到去睇呢一個巴士嘅安全呢？

32 鄭偉波先生：你嘅意思係外面嘅人士定係我哋自己內部呢？

1 MR DUNCAN：（經傳譯員）兩樣是但一樣都得嘅。

2 鄭偉波先生：就現時我哋就有計劃去聘任外面嘅人士入呢個委員會，因為頭先我哋亦  
3 都講過，其實我哋喺呢個委員會裏面嘅所有嘅成員，其實都係香港有好長嘅巴士  
4 公司工作嘅經驗。而至於喺內部，我哋公司嘅內部，因為我自己嘅睇法，就係話  
5 有關呢啲安全嘅嘢其實牽涉嘅範圍就係跨部門性，可能係個車裏面嘅設施，亦都  
6 包括車長嘅訓練，亦都包括車長嘅招聘。所以喺呢一個委員會裏面，嗰個叫做  
7 primary responsibility 嗰個人就係我自己嚟嘅，因為我係睇晒咁多個部  
8 門，因為我係呢個委員會嘅主席嚟嘅，所以個負責人就係我嚟嘅。

9 MR DUNCAN：（經傳譯員）國際機構標準，你熟唔熟呢？ISO39001，你熟唔熟悉？

10 鄭偉波先生：我係近日先至聽過，之前我係未聽過，唔熟。

11 MR DUNCAN：（經傳譯員）或者將其中一份文件係畀你睇睇，咁我哋委員會係有收  
12 到呢一份文件。請你睇番 TU-1 嘅第 18 頁。

13 鄭偉波先生：見到。

14 MR DUNCAN：（經傳譯員）鄭先生，其中我哋收到嘅一份意見書就係抽咗呢一度出  
15 嚟，我哋就係有道路安全研究小組所提交嘅意見書，你熟唔熟呢一個係道路安全  
16 研究小組（Community for Road Safety）？

17 鄭偉波先生：唔認識。

18 MR DUNCAN：（經傳譯員）好。麻煩你睇一睇嗰一頁嘅最後一項，個標題就係「巴  
19 士道路安全－安全管理系統」，麻煩你自己睇一睇先。

20 主席：（經傳譯員）鄧律師，其實我哋半夜係咪運輸署有交過啲資料上嚟，就講及係  
21 嗰個成員嘅呢？

22 MR DUNCAN：I think we did, Mr Chairman.

23 主席：（經傳譯員）或者可以協助係證人，咁可以將啲名畀佢睇一睇。

24 MR DUNCAN：（經傳譯員）鄭先生，剛才有機會睇到嘛？

25 鄭偉波先生：我而家睇到嘅，就係而家呢個 screen 我睇唔到啲啲成員。而家見到。

26 MR DUNCAN：（經傳譯員）呢一個機構話呢個組織啲啲名字係你認唔認識？

27 鄭偉波先生：裏面只係有一個名字我係見過嘅。

28 MR DUNCAN：（經傳譯員）邊一個名？

29 鄭偉波先生：（經傳譯員）係司馬文。

30 MR DUNCAN：（經傳譯員）好，唔該。而家唔睇嗰個成員，就睇番剛才嗰份文件。

1 我就先想請你睇嘅，TU-1 嘅第 18 頁。嗰一頁嘅最後一段，鄭先生，佢會係繼  
2 續到跟住嗰版嘅，請你繼續自己再睇一睇呢一段文字。

3 鄭偉波先生：呢一版睇咗。

4 MR DUNCAN：（經傳譯員）麻煩你亦都睇睇 TU-1 第 53 頁。另一份文件嚟嘅，不過  
5 亦都係一個道路安全研究小組發出嘅。我想麻煩你睇 3.5 段之前嗰一段嘅，佢  
6 嗰個標題就係 ISO39001 道路交通安全管理系統，我想請你自己睇一睇嗰一段  
7 文字。

8 鄭偉波先生：睇咗。

9 主席：（經傳譯員）鄧律師，或者我哋亦都打埋第 25 頁出嚟。呢個就係呢份文件嘅  
10 首頁，係 2018 年 4 月--對唔住，2015 年 4 月嘅文件嚟嘅。

11 MR DUNCAN：（經傳譯員）係，想麻煩你亦都睇一睇呢份文件嘅首頁嗰個封面，道  
12 路安全研究小組一個關於香港巴士安全嘅報告。我想問你自己有冇睇過呢個報  
13 告？你熟唔熟佢嗰個內容嘅呢？

14 鄭偉波先生：冇睇過。

15 MR DUNCAN：（經傳譯員）剛才係抽咗一部分出嚟畀你睇，嗰啲內容就係話講及嗰  
16 個標準，如果有嘅話，就會讓嗰個車隊嘅經營者就更加就係問責，同埋係更加主  
17 動咁樣去減少個意外同埋風險，有冇睇到剛才所提及嘅嗰個部分？

18 鄭偉波先生：有睇到。

19 MR DUNCAN：（經傳譯員）你睇咗之後，你會唔會認為係值得你哋公司去考慮呢？

20 鄭偉波先生：首先，呢個 ISO39001，就我哋對佢完全冇任何認識嘅，就係香港公共  
21 運輸行業，我亦有聽過有邊一間大間嘅公司係有應用到佢呢一個 ISO 嘅。我其  
22 實就係喺之前，就呢個委員會同運輸署嗰個 hearing 嘅時候，我喺嗰處先至得  
23 知有呢一個 ISO39001 嘅。

24 當然我完全唔知道佢係乜嘢嚟嘅，咁我就答唔到話是否會去用呢一樣嘢。我  
25 哋公司對於任何可以幫到我哋嗰個安全嘅嘢，只要係可行嘅，同埋我哋有足夠嘅  
26 財政資源愛嚟應用佢，我哋都係持開放態度嘅。呢一個我諗將來我哋要真係去了  
27 解一下，呢一個 ISO39001 到底係乜嘢國家，乜嘢公司係有應用到，而應用咗  
28 之後嗰個成效又到底係點樣樣，咁我哋先至可以就較為深入咁樣去考慮佢，多  
29 謝。

30 MR DUNCAN：（經傳譯員）喺安全嗰個角度嚟講，你公司係咪都是不是即係睇下外  
31 國嘅公司...

32 主席：（經傳譯員）鄧律師，等一等先。我諗對鄭生嚟講，就係即係我睇喺呢一個即  
33 係嗰份陳述書，即係 24、25 頁嘅陳述書嗰度。呢個係第 8、第 9 頁嘅號碼。

1 MR DUNCAN：（經傳譯員）我諗係可以打出嚟嘅。

2 主席：（經傳譯員）因為尋晚好夜先至出，就未有準備得咁好，咁大家可以應該睇到  
3 運輸署嗰啲資料，我相信係，或者落啲，第 24、25，或者係花少少時間。鄭  
4 生，花少少時間睇下第 24 段先。23 段可唔可以打埋出嚟呀？然後就睇埋 24 段  
5 --對唔住，應該係 24、25 先啱。

6 鄭生，可以幫幫你手。我哋喺運房局同埋運輸署嗰度都畀個證供，咁呢個就  
7 係 2012 年係提出呢啲，其實呢個系統就係 2012 年嗰度係引進嘅，佢就而家就  
8 係睇下係唔係有效咁樣，同埋係咪即係應該係要採納嘅，採納幾多咁，或者呢方  
9 面你可能有嘢補充嘅，即係你未必咁熟悉呢一方面。

10 鄭偉波先生：我其實係對於呢個 ISO39001 係有認識嘅，所以對唔住，我係有嘢補  
11 充嘅。

12 主席：（經傳譯員）唔該晒。

13 MR DUNCAN：（經傳譯員）或者離開呢個課題之前，或者鄭生想講講，你就係喺今  
14 日聆訊之前係有睇到呢度，咁將來會唔會考慮呢？

15 鄭偉波先生：將來我哋會去探討一下到底係乜嘢嘢嚟嘅，我哋係會考慮嘅。

16 主席：（經傳譯員）係，你話如果可行嘅話，你都係會保持開放態度，係咪？

17 鄭偉波先生：正確嘅。

18 MR DUNCAN：（經傳譯員）而家想睇睇招聘嗰方面，咁其實你今朝亦都係有提過  
19 嘅。委員會係得到知會，係透過啲陳述書同埋透過聽證會咁樣，就係多年嚟係的  
20 確有短缺，係比較少人鍾意想揸巴士，想投入呢個行業，可唔可以假定就係你公  
21 司都係有同樣嘅問題呢？

22 鄭偉波先生：主席，喺近年我哋招聘車長係有困難。

23 MR DUNCAN：（經傳譯員）我要想你睇一睇 CTB-1，第 24 頁。呢份就係喺第一份  
24 嘅陳述書當中抽出嚟嘅。

25 鄭偉波先生：見到。

26 MR DUNCAN：（經傳譯員）最後嗰段，呢版嘅最後嗰段。喺呢一段你提到要符合最  
27 新運輸署嘅指引，同埋係要達到內部嗰個嘅目標，公司就係需要係請多一百二十  
28 位嘅車長咁樣。

29 鄭偉波先生：係，睇到。

30 MR DUNCAN：（經傳譯員）公司其實有冇一啲計劃係增加車長嘅工資，希望係吸引  
31 到更多人係投身呢個行業呢？

32 鄭偉波先生：公司喺 2018 年嘅 3 月就已經對於我哋嘅車長，尤其是新入職嘅車長就

1 有個特別嘅加薪嘅，我哋公司所訂立嘅薪金制度，其實都係要因應個勞工市場嘅  
2 情況嚟到訂立嘅。

3 MR DUNCAN：（經傳譯員）3 月係加咗幾多？

4 鄭偉波先生：喺新入職嘅車長嚟講，就加咗係大約 8 至到 9%--sorry，新入職嘅車  
5 長係大約加咗 6%。

6 MR DUNCAN：（經傳譯員）委員會係收咗一啲嘅陳述書，就係講到話嗰個嘅巴士車  
7 長嘅收入其實係唔夠競爭力，喺呢個運輸界其實唔夠競爭力。我就想請你睇一睇  
8 呢兩份嘅陳述書。第一份就係喺嗰個雜項嘅文件夾 MISC-3(MISC-2?)，644  
9 頁。份文件就係 643 頁開始嘅，係兩版嘅。係民主陣線嘅一份陳述書嚟嘅。鄭  
10 生，有冇睇過呢份文件？

11 鄭偉波先生：我有睇過嘅，但係而家我係睇緊。

12 MR DUNCAN：（經傳譯員）唔該。仲一度我想係你留意下，不過你睇一睇喺第 2 頁  
13 嗰度，第 2 項嗰度，2.1，係講到目前係專營巴士車長嘅薪酬待遇，你花少少時  
14 間係睇一睇，跟住我就會好具體咁樣係睇 2.1 嗰段嘅內容。

15 主席：（經傳譯員）鄭生，或者係你可以聽下鄧律師講就睇一睇份文件，咁我哋而家  
16 會有個小休嘅，或者喺小休嘅時間，你就花啲時間就再深入啲去睇，可唔可以咁  
17 樣？咁樣好唔好？

18 鄭偉波先生：好。

19 主席：（經傳譯員）係，好。或者而家可以係小休二十分鐘，我哋係廿分鐘之後再開  
20 會。

21 鄭偉波先生：主席，我有個請求，可唔可以畀我哋睇到中文版本，呢份文件？

22 主席：（經傳譯員）係，冇問題嘅。

23 鄭偉波先生：多謝。

24 主席：（經傳譯員）亦都係有紙張嘅版本畀你嘅，可唔可以係畀一份文本畀鄭生睇  
25 睇？

26 MR DUNCAN：Certainly.

27 主席：（經傳譯員）休息廿分鐘，唔該。

28 鄭偉波先生：好，多謝主席。

29

30 上午 11 時 29 分聆訊押後

1

2 上午 11 時 51 分恢復聆訊

3 出席人士如前。

4

5 主席：（經傳譯員）大律師。

6 MR DUNCAN：（經傳譯員）多謝你，主席。鄭生，有冇機會睇到份文件呀？

7 鄭偉波先生：睇咗。

8 MR DUNCAN：（經傳譯員）剛才想問嘅就係 2.1 段，第 2 頁，特別係有提到就話根  
9 據呢個民主陣線就係話咗專營公司嘅車長就係 15,000 釐嘅薪酬待遇嘅，咁就  
10 係比--對於非專營車長嘅\$17,000 就係少咗 2,000 釐嘅，咁呢個係咪你嘅理  
11 解㗎㗎？

12 鄭偉波先生：我其實就唔清楚佢講緊嘅人工係幾多小時嘅工作，因為佢呢度就只係引  
13 述咗兩個數目字，就一個就\$15,000，一個就\$17,000，就非專營巴士嗰處我  
14 就有嗰個資料，不如我哋集中講一講我哋公司嗰個薪酬嘅情況。我哋公司嗰個  
15 車長薪酬情況，就係我哋嘅 first submission。

16 MR DUNCAN：（經傳譯員）我唔想係打斷你，鄭生，我哋一陣間就會講到呢一方面  
17 嘅。

18 鄭偉波先生：好。

19 MR DUNCAN：（經傳譯員）咁你一陣間係有機會就係進一步解釋呢一方面嘅資料，  
20 但係就住呢一點，呢一個聲稱，佢話係有賺咗 2,000 釐㗎嘛，公營嘅巴士車長  
21 同呢個非--專營同非專營係賺咗 2,000 釐咁樣，咁呢方面你有冇嘢想講呢？

22 鄭偉波先生：喺我哋公司喇，嗰 1,500 釐呢個數字我係不同意嘅，因為...

23 MR DUNCAN：（經傳譯員）點解呢？

24 鄭偉波先生：...我哋公司嘅車長就一般嚟講，平均一日都有兩小時嘅加班工作嘅，  
25 所以如果以十小時嚟到計喇，十小時工作時間嚟到計㗎，佢哋一般個平均都係  
26 呢個數字嚟嘅，佢哋嘅月薪就大約係有兩萬釐左右嘅，咁呢個就係喺我哋公司  
27 十小時工作嚟到計，咁而非專營嗰處，佢話嗰 17,000 釐，我就完全冇概念，  
28 唔知道佢係講緊幾多小時嘅工作嘅，所以就我唔能夠作出個比較。

29 MR DUNCAN：（經傳譯員）唔該你。我就講你哋公司嗰個待遇之前，仲有一樣嘢我  
30 就想係你睇一睇嘅，就係咁亦都係 MISC 第 2 號嘅文件夾，咁今次就係 632  
31 頁。係有份翻譯本嘅，就係 642 頁第 2 號，642 嘅 2。可唔可以打埋呢一個  
32 642 嘅中文版--632 嘅中文版？係邊個寫㗎，呢一份文件？照我理解就係係工

1 盟同埋工黨，同埋呢一個嘅職工會嘅一個聯會。鄭生，一版嘅啫，或者想請你  
2 係睇一睇呢份文件嘅內容，咁跟住我就會係向你問一、兩個問題，係關於下--  
3 比較底嘅段落，係保障車長公工資水平、保障巴士服務質素嗰一段，大家睇唔  
4 睇到？

5 鄭偉波先生：睇到嘅。

6 MR DUNCAN：（經傳譯員）唔該。花少少時間係睇一睇，鄭生，一陣間我就會問問  
7 題嘅，好唔好？

8 鄭偉波先生：睇完喇。

9 MR DUNCAN：（經傳譯員）好喇，呢份文件所指稱嘅就係目前新入職嘅車長嘅底薪  
10 就係 15,364 釐，咁就係低於陸路運輸工資中位數嘅\$18,200 嘅，咁車長就係  
11 惟有超時工作嚟到養妻活兒喇，咁難怪車長嘅人手係不斷流失。或者後面嗰度  
12 唔好講喇，咁呢份文件其實所作出嘅比較，咁你其實個理解係咪都係咁樣呢？

13 鄭偉波先生：主席，呢個問題我會畀我哋嘅人力資源總監吳先生嚟到回應嘅。

14 主席：（經傳譯員）係，唔該。

15 吳智光先生：好，主席。正如頭先鄭先生所講，喺嗰個整體入息嚟講，一個車長一個  
16 月如果佢做大概係有每日多兩個鐘頭嘅超時工作嘅話，佢嘅總體入息水平大概  
17 已經係去到港幣兩萬釐左右嘅，咁所以如果喺呢個通告所寫嘅，用底薪嚟比對  
18 呢一個中位數，呢個係唔公平嘅，並不是蘋果對蘋果嘅一個比對嘅。多謝，主  
19 席。

20 MR DUNCAN：（經傳譯員）或者係一陣間會講得詳細少少喇，但係正話所講嘅其中  
21 一個睇法就係嗰個底薪，一個專營巴士嘅底薪，唔好計嗰個嘅超時補水喇，就  
22 係\$15,364 嘅，咁相對於嗰個嘅陸路運輸工資中位數\$18,200，你可唔可以係  
23 講--評論一下，即係點解唔係一個合理嘅比較呢？其他加薪唔好講，補水唔好  
24 講。

25 吳智光先生：好，主席，據我哋嘅理解，呢個陸路運輸工資中位數係包含埋超時工作  
26 嘅，並不是淨係個基本底薪嘅，多謝，主席。

27 MR DUNCAN：（經傳譯員）咁講啱唔啱？運輸署係完全冇規定車長嘅薪酬嘅，薪酬  
28 完全就係由公司去決定，啱唔啱？

29 鄭偉波先生：正確。

30 MR DUNCAN：（經傳譯員）大家睇一睇其他嘅薪酬嘅數字，你哋係交咗呢啲數字上  
31 嚟畀我哋嘅，鄭生睇過嘅，你亦都有睇過嘅，有關嘅數字可以睇番 CTB-1，第  
32 30 頁--實質上應該係 34，第 34 頁先至啱㗎，CTB-1，34 頁。你睇第 9 段，  
33 你話畀委員會聽，就係你哋嘅全職車長嘅薪酬係點樣樣㗎，咁我哋見到首先係  
34 城車嘅資料㗎，如果係喺 1999 年 3 月 9 號嗰日或之前受聘嘅話，咁嗰個底薪

1 就係 17,106 釐，啱唔啱？

2 鄭偉波先生：正確。

3 MR DUNCAN：（經傳譯員）揭去跟住嗰版第 35 頁，呢個就係有第二個組別喇，係喺  
4 1999 年嘅 3 月 10 號至到 2004 年 3 月 8 號期間受聘嘅，佢個底薪就係  
5 15,874 元？

6 鄭偉波先生：正確。

7 MR DUNCAN：（經傳譯員）有第三個組別嘅，受聘嘅日期係喺 2004 年 3 月 9 號或  
8 之後，佢哋嘅底薪就係 15,364 元至到 15,764 元？

9 鄭偉波先生：正確。

10 MR DUNCAN：（經傳譯員）跟住個資料唔係完全一樣，不過你哋亦都有分類嘅，就  
11 係講及係新巴，嗰個資料係由第 35 頁係去到第 36 頁嘅。如果我嘅理解冇錯嘅  
12 話，2004 年 3 月 9 號之後嘅薪酬，兩間公司嘅係一樣㗎。你可以睇番第 35 頁  
13 嘅第 3 段，嗰個數字就係同新巴嘅第四項嗰度嘅數字係一樣㗎，啱唔啱？

14 鄭偉波先生：正確。

15 MR DUNCAN：（經傳譯員）唔該晒。我哋而家睇番 35 頁喇，我想係進一步了解一下  
16 呢度嘅資料，我初步睇過嘅，如果你睇，你就會得出一個咁樣嘅印象，巴士車  
17 長嘅底薪其實就冇加，反減咗個番，我有咁嘅印象，因為我就淨係睇嗰個底薪  
18 喇，即係話你比較 99 年 3 月同係 99 年 3 月嘅——同 2004 年 3 月之後嘅數字係  
19 唔同㗎，一個就係 \$17,166 同埋 \$15,364、一個 \$15,874，咁係咪係減少緊  
20 呢？

21 鄭偉波先生：呢個係唔同時期入職嘅車長佢哋個薪酬係不同嘅，呢個就係我哋因應  
22 當時勞工市場嗰個供求情況嚟到制訂嘅。

23 MR DUNCAN：（經傳譯員）實質上係下降咗，04 年 3 月之後對比起之前，嗰個數目  
24 係減少咗㗎，係嘛？

25 鄭偉波先生：係。

26 MR DUNCAN：（經傳譯員）好，點解嗰個底薪 \$15,364——咁等我再問一次，再問  
27 過，我想問，今時今日，2018 年，今日今日嘅底薪係幾多？呢度寫「\$15,364  
28 至到 \$15,764」，咁今時今日，2018 年嗰個底薪有幾多呀？

29 鄭偉波先生：現時佢哋嘅底薪就係呢個數字，不過我哋公司現正係同唔同嘅工會商討  
30 緊 2018 年度嗰個加薪嘅，咁到加咗薪之後就嗰個數字會係唔同嘅。

31 MR DUNCAN：（經傳譯員）咁你可唔可以估計一下？即係大概會賺咗幾多，可唔可  
32 以話畀個百分比我哋？你可唔可以講下雙方各自嗰個睇法係幾多呀？

1 鄭偉波先生：我就聽到工會就有個睇法，有啲工會就要求要加 8%，有啲工會就要求  
2 就要加 10%，咁而公司就都未定得到會係加幾多，所以我唔可以喺呢度猜測就  
3 會多幾多錢，因為如果咁樣嘅話，可能就畀咗一個錯誤嘅信息我哋工會嘅同  
4 事，因為頭先我都見到我哋有啲工會嘅成員而家都喺觀眾席度。

5 MR DUNCAN：（經傳譯員）我明白嘅，鄭先生。今時今日嗰個現行嘅底薪都仲係  
6 \$15,364 至到\$15,764，啱唔啱？

7 鄭偉波先生：正確。

8 MR DUNCAN：（經傳譯員）我咁嘅理解又啱唔啱？以底薪嚟到計，自 2004 年到而  
9 家，係有調整過--冇加過㗎？

10 鄭偉波先生：不是，而家呢個二零--我哋--其實我哋公司喺每一年都會同我哋嘅工  
11 會同埋員工代表嚟到商討嗰個每年嘅加薪嘅，咁現時你喺呢處見到嘅數字就係  
12 我哋公司 2017 年嘅薪金水平嚟嘅，咁 2018 年就要等我哋同佢商討咗之後先至  
13 會定到嗰個數字喇，咁我哋其實每年都係有--喺過往十年喇，過往十年，每年  
14 都有加人工嘅，甚至喺過往二十年，除咗係即係香港個經濟特別差嘅時候就會  
15 凍薪，否則，我哋每一年都係有加人工畀我哋嘅員工㗎。

16 MR DUNCAN：（經傳譯員）2017 年嗰個底薪，作為一個車長係\$15,764 喇，啱唔  
17 啱？

18 鄭偉波先生：新入職嘅車長係\$15,764，2017 年。Sorry，係\$15,364 嘅。

19 MR DUNCAN：（經傳譯員）咁又有一個數字\$15,764，...

20 鄭偉波先生：係。

21 MR DUNCAN：（經傳譯員）邊個先攞到\$15,764 呢？

22 鄭偉波先生：佢哋入職嘅時候就係\$15,364，咁佢就有個增薪點嘅，就係根據佢哋嘅  
23 年資，咁個增薪點就做得耐啲啲啲就會去到\$15,764 嘅。

24 MR DUNCAN：（經傳譯員）嗰個\$15,764 就係以 2017 年嚟到計，就係最高係咁㗎  
25 喇嘅，係嘛？

26 鄭偉波先生：正確。

27 MR DUNCAN：（經傳譯員）如果我理解係咁嘅話，咁呢個係少於 2004 年嘅時候嗰  
28 個薪酬喇嘅，當時係\$15,874 㗎嘛，咁講啱唔啱？

29 鄭偉波先生：唔可以咁樣嚟到比較，因為佢哋係唔同時期入職就係唔同嘅薪酬架構  
30 㗎，咁我哋公司呢度我哋睇到個數據喇，就係啲好多年前已經入職嘅，佢哋嘅  
31 人工就係高啲嘅，因為當時喺香港請人係比起而家更困難㗎，咁隨住香港個經  
32 濟環境有所改變，咁喺嗰個勞工市場嗰個供求情況亦都有所改動，咁我哋當時  
33 就係用一個較低嘅薪金都可以請到人返嚟㗎，咁所以唔同時期入職嘅人，佢哋

1 個--喺去到今日個個人工係唔同嘅。

2 MR DUNCAN：（經傳譯員）我都明白嘅，咁我要確保我嘅理解係啱㗎，即係對於你  
3 所作嘅證供。一個新入職嘅車長，如果佢係 2004 年 3 月 7 號入職，係會攞到  
4 15874 作為佢嘅底薪，啱唔啱？

5 鄭偉波先生：正確。

6 MR DUNCAN：（經傳譯員）以下所講嘅都啱㗎，係嘛？如果係今時今日作為一個新  
7 入職嘅車長，佢個個底薪就係\$15,364 喇，係咪呀？即係話少咗 500 釐喇，...

8 鄭偉波先生：係嘅。

9 MR DUNCAN：（經傳譯員）就對比佢嘅--同時係 2004 年嘅時候入職？

10 鄭偉波先生：正確。

11 MR DUNCAN：（經傳譯員）係，唔該晒。我知道係有其他嘅津貼，你亦都有提過  
12 㗎，喺第 35 頁嗰度有呢啲津貼，剛剛有提過，即係如果我理解係啱嘅話，最好  
13 嘅時候，一個車長加埋補水係會去到係賺到一個月 20,000 釐㗎，係咪呀？咁  
14 嘅理解啱唔啱？你嘅作證係咪咁講？

15 鄭偉波先生：正確。

16 MR DUNCAN：（經傳譯員）點樣由\$15,364 係變咗做 20,000 釐，可唔可以將佢細  
17 分？

18 鄭偉波先生：個底薪就係\$15,364，咁喺下少少嗰處我哋寫咗，就話嗰個加班，每小  
19 時個加班嘅薪金，就係由個底薪除以 240，就再乘番 1.5。咁呢個得咗出嚟嘅  
20 數字就係九十幾釐嘅，係 96 釐一個鐘頭嘅，即係如果係加班就有 96 釐一小  
21 時。我哋嘅車長一個月係工作二十五天，每天平均係兩小時嘅加班，換言之，  
22 一個月就有五十小時嘅加班總數，就乘番頭先講嘅 96 釐一小時，得出嘅數字就  
23 係 4,800 釐一個月，係加班嘅薪金。4,800 釐加番底薪\$15,364 就得出就係  
24 \$201,641，呢個就係剛才我所講嘅大約兩萬釐一個月，多謝。

25 MR DUNCAN：（經傳譯員）如果你睇一睇 34 頁，文件嘅第 34 頁。超時工作，99 年  
26 3 月之前就係唔同嘅，即係同今日個超時嗰個補水係唔同嘅，係咪呢？

27 鄭偉波先生：係唔同嘅，正確。

28 MR DUNCAN：（經傳譯員）同樣，99 年 3 月到 04 年 3 月之間，咁就亦都係唔同  
29 嘅，即係同 99 年嘅時候係唔同嘅，係咪呢？

30 鄭偉波先生：正確。

31 MR DUNCAN：（經傳譯員）咁個率係加咗定係減咗，其實？

32 鄭偉波先生：喺 99 年 3 月之前入職嘅，佢哋個個加班就係乘 1.75 嘅，99 年 3 月至

1 到 2004 年 3 月，嗰個加班就係乘 1.5 嘅，咁而 04 年 3 月之後入職嘅，都係  
2 乘 1.5 嘅，呢個就係城巴嘅情況。喺新巴，嗰個同城巴都係有少少唔同嘅，如  
3 果新巴喺 98 年 9 月 1 號，由中巴轉職過嚟新巴嘅同事，佢哋嘅加班就係乘  
4 1.35 嘅，而喺 98 年 9 月之後去到而家，全部都係乘 1.5 嘅。

5 MR DUNCAN：（經傳譯員）咁由於有咁樣嘅分別喇，1.75、1.5、1.35，咁喺超時  
6 補水咁多年嚟，整體嚟講，係加咗還是減咗？

7 鄭偉波先生：我哋呢個就要--即係所謂加咗、減咗，喺個制度上就係頭先已經講咗出  
8 嚟喇，喺城巴就最早期嘅車長就係乘 1.75，之後，由 99 年開始請番嚟嗰啲就  
9 係 1.5，而新巴就有兩種嘅，一種就係由中巴轉職嘅，就係乘 1.35，咁之後請  
10 嘅就全部係 1.5。咁我諗唔係應該話用--即係如果對一個--同一個員工嚟講，  
11 同一個員工嚟講，佢如果係 1.5 嘅，咁就一路都係 1.5，就要隨住佢個底薪增  
12 加，佢每小時嗰個加班嘅薪金亦都會係增加嘅，即係喺同一個人嚟講，就唔會  
13 隨住時間，佢嗰個加班，每個小時嘅加班收入係減少，就不會有呢個情況發生  
14 嘅。

15 MR DUNCAN：（經傳譯員）第 34 頁嗰度，嗰個每個鐘頭嘅超時工作，薪酬除 240  
16 再乘 1.5，咁其實呢個就比起即係底薪除 240 乘 1.5 係有唔同㗎㗎，係咪呢？

17 鄭偉波先生：計咗出嚟嘅答案係有唔同嘅。

18 MR DUNCAN：（經傳譯員）底薪，照我理解就係反映咗八個鐘頭嘅工作，係咪㗎？

19 鄭偉波先生：係。

20 MR DUNCAN：（經傳譯員）其實你哋嘅車長係咪淨係八小時工作嘅呢？

21 鄭偉波先生：呢個佔絕少部分，平均嚟講佢哋係工作十小時嘅。

22 MR DUNCAN：（經傳譯員）係，咁即係絕大部分少數還是係即係只係少數，定係點  
23 呢，可唔可以量化一下？

24 鄭偉波先生：我同事要檢視一下啲資料。

25 MR DUNCAN：（經傳譯員）係，花少少時間，唔緊要嘅。

26 鄭偉波先生：如果佢哋嘅工作時間係八小時至到八小時三十分，就嗰個百分比大約係  
27 12%左右。

28 MR DUNCAN：（經傳譯員）咁其實大多數嘅車長係咪都係有超時工作嘅呢，還是公  
29 司就話「你有得揀㗎喇，你必須係要超時工作」嘅呢，定係點樣？即係嗰個情  
30 況會係點樣㗎？

31 鄭偉波先生：就係公司安排嗰個更分畀個車長，如果嗰個更分係要有超時工作，嗰個  
32 車長就要做超時工作。

1 MR DUNCAN：（經傳譯員）佢冇得揀㗎喇喎，係咪呀？

2 鄭偉波先生：係冇得揀嘅，但係我哋嘅車長佢哋互相之間就可以調更嘅，即係大家雙  
3 方同意就係可以調更嘅。

4 MR DUNCAN：（經傳譯員）照你所知喇，鄭先生，咁呢一個公司所提供畀車長嗰個  
5 薪酬待遇，係咪令到啲人唔係好想去投身做呢個巴士車長呢？

6 鄭偉波先生：呢個我諗唔係個主要原因㗎㗎，即係當然，就幾多錢人工先至可以吸引  
7 到一個人去做一份工，就個個人就唔同嘅，即係同一份工，有人可能就話  
8 15,000 釐就覺得合理，有人就可能覺得係低，個個人唔同嘅。其實我哋而家請  
9 人嗰個困難，其中有一個原因，就係我哋發現嗰個--即係願意應徵做巴士車長  
10 嘅人就多數就住喺啲新界偏遠嘅地方，例如係啲公共屋邨，咁但係如果要佢哋  
11 每日來回咁長時間搭車返工、放工，咁呢就令到佢哋就覺得係唔適合嘅，即係  
12 呢個我哋覺得係其中一個原因㗎㗎。其實我哋每日我哋公司都有人嚟應徵做我  
13 哋嘅巴士車長嘅，但係個問題就係話應徵嘅人同我哋嘅空缺都仲有一個距離，  
14 就所以我哋而家持續都係有空缺㗎處嘅，就不是就話而家呢個人工就冇人肯嚟  
15 做，就唔係咁樣嘅。

16 MR DUNCAN：（經傳譯員）但係你正話所提嘅，啲人就住喺新界嘅屋邨咁樣，咁其  
17 實喺你陳述書係有講嘅，第 29 頁嗰度，CTB-1，29。

18 鄭偉波先生：我係有講嘅。

19 MR DUNCAN：（經傳譯員）公司有冇考慮過一啲方法嚟到克服呢一個問題？即係當  
20 然喇，即係除咗改變啲路線等等之外，我諗緊譬如話一啲嘅穿梭巴士畀啲車長  
21 咁樣，提供穿梭巴士畀佢哋，公司有冇有一啲嘅措施嚟到去緩解呢個問題呢，  
22 解決呢個問題呢？

23 鄭偉波先生：我哋一向有提供員工車接載佢哋返工、放工，但係當然喇，就唔係話每  
24 一個同事都去到佢門口度嚟到接載喇，係分開一個一個地區咁樣嚟到接載佢哋  
25 嘅。

26 MR DUNCAN：（經傳譯員）咁係咩嘢車㗎㗎，你派啲咩嘢車出去接佢哋？

27 鄭偉波先生：係我哋啲巴士㗎㗎。

28 MR DUNCAN：（經傳譯員）有一定嘅路線㗎，係咪呀？

29 鄭偉波先生：有嘅，有定嘅地點、定嘅路線嘅。

30 MR DUNCAN：（經傳譯員）即係穿梭巴士又得唔得？直接嘅路線，等啲人可以快啲  
31 咁樣由屋邨上車就去到總站，可唔可以考慮呢一點？

32 鄭偉波先生：或者我想講解多一次㗎，呢啲係員工巴士㗎㗎，就唔係我哋平時嗰啲  
33 街見到專利路線嘅巴士㗎㗎，就係我哋特定安排㗎，就去比較多我哋員工居住

1 嘅地區，就去接佢哋返工嘅，咁而接咗佢哋之後，就係多數就返番嚟我哋嘅車  
2 廠，因為我哋嘅車廠係一個主要嘅簽到點嚟嘅。

3 MR DUNCAN：（經傳譯員）你提到即係個薪酬待遇，提到個嘅即係招聘困難，  
4 因為啲人住得比較偏遠嘅地方，咁有一啲嘅因素係多年嚟即係令到點解係咁  
5 難請呢啲車長呢？

6 鄭偉波先生：其實我哋話難請車長就並不是多年來嘅，係近年來，即係近呢幾年。咁  
7 另外一樣喇，就我都想喺呢一處就同委員會提供一啲資訊喇，我哋喺過往呢幾  
8 年就發現我哋安排嘅後備車長愛嚟填補啲員工嘅病假，係要不斷嚟到增加，咁  
9 其中我哋相信--唔係相信先喇，個原因就係因為我哋嘅車長佢哋攞病假係一路  
10 增加嘅，喺過往呢幾年，就變咗我哋所謂有唔足夠車長其中一個原因，就係我  
11 請人返嚟，跟住又有多啲人就走去攞咗病假，咁而呢啲病假有部分我哋係有懷  
12 疑過係騙取病假嘅。咁當然喇，有呢啲情況，公司如果係有真憑實據就試過係  
13 即時解僱呢啲車長嘅，而另外有啲都係我哋覺得係高度懷疑係騙取病假嘅，我  
14 哋亦都作出處理嘅。但係我哋喺呢處就話--經常就話唔夠車長，其實就唔係話  
15 完全冇人嚟應徵，每一日都有人嚟應徵，我哋嘅車長訓練部每一日都有新嘅車  
16 長係加入嚟到培訓，但係最主要就係個病假嘅度係一個令我哋覺得係一個好  
17 頭痛嘅問題嚟嘅，多謝。

18 MR DUNCAN：（經傳譯員）想麻煩你睇第 29 頁，係你第一份嘅意見書，第 29 頁  
19 嘅，係 CTB-1 嘅 29 頁。喺個頁嘅底下個度提到話啲啲工作時間就不利社交生  
20 活嘅，喺我未問你呢個問題之前，想麻煩你亦都去睇睇之前個頁，第 28 頁。你  
21 有提及呢個營運嘅效率，因為營運嘅效率，咁所以就係將佢係分開個十四個  
22 鐘，即係如果係全職嘅話，就十四個鐘嘅話就係變成十個鐘，咁然後兼職嘅就  
23 四個鐘，睇番呢度所講嘅，你可唔可以話畀委員會聽，究竟一個巴士車長如果  
24 佢做十個中頭嘅話，典型個個分布係點樣樣，幾時開工、幾時收工，同埋幾時  
25 會有休息時間？

26 鄭偉波先生：呢個我畀我營運總監鍾生嚟到回答。

27 鍾澤文先生：主席，一個正常嘅更分通常會係朝頭早六點零鐘就會開工，咁我哋會分  
28 咗係有一啲叫做「早更」，早更嘅同事佢哋喺六點零鐘開工或者五點幾鐘開工  
29 喇，一般係會喺兩點鐘--點零兩點鐘就會收工，咁佢哋就會係由夜更嘅夜車長  
30 就會去接替佢哋嘅工作，咁就分咗早更同夜更，咁夜更係兩、三點鐘開工就會  
31 做到夜晚黑嘅 12 點、1 點鐘嘅。除此之外，我哋有啲更分係會比較長一啲嘅，  
32 咁佢哋會做係 6、7 點鐘開工喇，就做到夜晚黑嘅 7 點鐘、8 點鐘嘅，咁就  
33 cover 咗繁忙時間，咁亦都有一啲會係六點零鐘、七點鐘收工，之後我哋會--  
34 頭先所講，會搵一啲 part-time 嚟係去做多幾個鐘，去 cover 埋個尾嘅繁  
35 忙時間。多謝，主席。

36 MR DUNCAN：（經傳譯員）呢啲時間就需要係車長係喺唔同嘅更分裏面有一啲休息  
37 時間㗎，㗎唔㗎？

1 鍾澤文先生：啱嘅，我哋係會跟番運輸署畀我哋嘅車長工作同埋休息時間嘅指引去編  
2 排佢哋嘅休息時間同埋用膳時間。

3 MR DUNCAN：（經傳譯員）休息時間，呢個係喺一更裏面可能去到係兩、三個鐘  
4 㗎，係咪呀？啱唔啱？

5 鍾澤文先生：會有，不過都--我哋係會佔少部分，一般嚟講就係如果長--比較長嘅  
6 更分，譬如有十二、十三個鐘嘅，咁我哋會編排有一個茶休嘅時間，最少有三  
7 十分鐘，咁同埋亦都會有一個食飯嘅時候，係最少有六十分鐘，咁但係如果係  
8 譬如話你係一個十個鐘頭嘅更分，咁佢可能淨係只係得一個食飯嘅時間係--即  
9 係唔少過一個鐘嘅食飯時間。

10 MR DUNCAN：（經傳譯員）好，呢啲做十個鐘嘅，由開始至到結束係十個鐘嘅，咁  
11 係邊段時間或者佢一般嚟講平均係做幾多個鐘頭係駕駛嘅呢，係八個鐘㗎，定  
12 九個鐘？

13 鍾澤文先生：如果佢係做十個鐘嘅更分，佢哋個駕駛嘅時間一般係八個零鐘嘅嘅  
14 啫，因為扣除咗一個鐘頭嘅食飯時間喇，同埋喺佢開工之前我哋亦都有啲時間  
15 畀佢去準備，譬如檢查架車咁樣，咁而每一個--每一轉車或者每一個單程嘅  
16 車，返到總站亦都有一啲 layover 嘅，即係一啲休息站--即係短暫停留嘅時間  
17 畀佢哋落車可以去下洗手間或者係飲杯水咁樣嘅。

18 MR DUNCAN：（經傳譯員）好，佢嘅飲茶時間同埋用膳時間，佢係有呢個係人工  
19 㗎，係咪呀？譬如話佢工作十小時，其中一個鐘頭係一個用膳時間喇，咁佢有  
20 係八個幾鐘頭就係底薪嘅人工喇，另外有兩個鐘頭就係超時補水，係咪呀？我  
21 主要就係講呢個用膳時間，用膳時間佢係咪有人工㗎？

22 鍾澤文先生：係，用膳時間同埋啲休息時間都係有人工嘅。

23 MR DUNCAN：（經傳譯員）好，請你睇第 30 頁喇，CTB-1 嘅第 30 頁，你喺嗰度有  
24 講過係巴士車長嘅要求同埋佢哋嘅訴求，其中就包括咗希望有多啲嘅係--總站  
25 嗰度有多次設施畀佢哋，呢一個可唔可以講清楚啲，佢哋係要求啲乜嘢嘢呢？

26 鄭偉波先生：就喺個總站嗰處喇，其實我哋一般嗰個車長嘅休息室都係偏細㗎，因為  
27 嗰啲地就唔係屬於我哋公司嘅，即係好多時係啲私人嘅物業嘅地方嚟嘅，咁我  
28 哋其實都想整啲大間少少嘅休息室畀我哋嗰啲車長嘅，咁呢個亦都正正係我哋  
29 啲車長嘅要求。而另一樣，就係好多時喺個總站嗰處，就附近就有洗手間嘅，  
30 咁而我哋嘅車長亦都係有呢個嘅需要嘅，咁呢啲就係我哋一向聽到番嚟，我哋  
31 嘅車長希望公司可以提供到嘅設施畀佢哋嘅。

32 MR DUNCAN：（經傳譯員）稍後我哋會講及呢個特別更次嘅，你喺新嗰個指引底下  
33 有講及特別更次㗎，我之後再講。如果我嘅理解係啲嘅話，公司都希望係將嗰  
34 個更次嘅時間將佢最高係限於十三個鐘，就唔係指引所講嘅十四個鐘，不過喺  
35 嗰十三個鐘裏面係有一啲限制嘅，即係話究竟十三個鐘裏面，究竟嗰個車長係  
36 用幾多時間去駕駛，咁講啲唔啲？

1 鄭偉波先生：啱嘅。

2 MR DUNCAN：（經傳譯員）咁喺咁嘅安排底下，嗰個休息時間--就包括咗休息時間  
3 嘅，係咪？

4 鄭偉波先生：係，冇錯。

5 MR DUNCAN：（經傳譯員）咁巴士公司諗住車長喺佢當值嘅時間，喺個更次時間裏  
6 面嘅休息時間，你諗住佢哋會係喺邊度打發嗰個時間㗎？有冇任何嘅設施提供  
7 畀佢哋，等佢哋喺嗰度休息一下咁？

8 鍾澤文先生：我哋而家就係有呢啲特別更嘅，所以我哋就未有呢啲設施，咁但係我哋  
9 而家因為呢個新嘅指引，我哋有需要要引入呢個特別更分，咁我哋亦都係同咗  
10 我哋嘅員工代表同埋工會代表講咗，我哋會喺我哋嘅車廠同埋一啲泊車嘅場地  
11 係增設呢啲休息嘅設施，等佢哋可以喺呢段時間裏面，喺呢啲設施裏面休息  
12 嘅。咁另外，其實佢哋都唔需要一定要留喺呢啲設施，如果佢哋嘅屋企喺附近  
13 嘅，其實佢哋都可以返屋企休息嘅。

14 MR DUNCAN：（經傳譯員）鑑於鄭生有提及洗手間同埋有地方可以喺總站嗰度使  
15 用，我就想問喇，你講到話提供一啲適當嘅設施畀做十三個鐘嘅車長去得到佢  
16 哋係兩、三個鐘應得嘅休息時間，咁究竟嗰個可能性或者個前景係點？

17 鍾澤文先生：我哋會係喺--因為我頭先所講嘅，喺我哋嘅車廠同埋一啲泊車嘅場地，  
18 咁嗰度嘅地方嘅限制同會喺巴士總站就有分別嘅，咁變咗就我哋可以喺呢啲地  
19 方設置一啲大啲嘅休息室，咁休息室裏面會有冷氣、雪櫃、微波爐呢啲設施，  
20 咁亦會有一啲類似安樂椅嘅座椅畀佢哋可以係攤抖嘅。

21 MR DUNCAN：（經傳譯員）咁就照我理解，就而家係未有呢啲設施嘅，咁但係當呢  
22 個特別更行嘅時候就會係有呢啲設施，係咪？

23 鍾澤文先生：噯，冇錯，因為都要需要時間去準備。

24 MR DUNCAN：（經傳譯員）或者我哋離開呢一頁之前，TD-1，30，睇嚟車長係有一  
25 啲訴求，一啲嘅附帶福利方面都有啲訴求嘅，咁佢哋要求啲咩嘢附帶福利？  
26 係，而家我睇緊就係第 30 頁，羅馬數字第 II 嘅，即係巴士車長嘅訴求喇，包  
27 括以下：薪酬待遇好啲喇，同埋附帶福利係好啲咁樣。咁係乜嘢嘅附帶福利，  
28 即係其他嘅福利佢哋係希望係要求得到嘅呢？

29 鄭偉波先生：（在低聲的說話）如果講話附帶福利喇，咁就係佢哋要多啲假期，就同  
30 埋就係要嗰個家屬乘車證就要多啲，就同埋裏面嗰啲限制就少啲，舉個例，譬  
31 如話個子女就有呢個乘車證喇，就曾經有人就提議過就唔好有年齡限制，即係  
32 個仔女去到 40 歲都仲有張子女乘車證，呢一類我都聽過，咁同埋就係又亦都有  
33 人向公司提議過，就係要增加睇醫生嘅次數，即係免費睇醫生嘅次數，主要都  
34 係呢幾樣嘢，多謝。

- 1 MR DUNCAN：（經傳譯員）我唔需要個細節，咁但係即係其實呢個巴士乘車證嗰度  
2 係咪有一個咁嘅制度喺度㗎？
- 3 鄭偉波先生：係。
- 4 MR DUNCAN：（經傳譯員）乘車證。
- 5 鄭偉波先生：我哋係有向我哋嘅員工就發出家屬嘅免費乘車證嘅，現時係有嘅，不過  
6 我聽過有員工就要求就係要畀多一張、兩張咁樣，就同埋啲限制就減低，呢啲  
7 我係以前有聽過嘅。
- 8 MR DUNCAN：（經傳譯員）咁你嘅員工係冇醫療㗎，係咪呀？而家係咪冇㗎？
- 9 鄭偉波先生：係有醫療福利嘅，就包括門診就同埋住院保險。
- 10 MR DUNCAN：（經傳譯員）我就想知道人力資源部門可唔可以係即係嗰個醫療嗰度  
11 嗰方面嘅資料畀多啲我哋，得唔得？
- 12 鄭偉波先生：可以，我交畀我同事吳生。
- 13 MR DUNCAN：（經傳譯員）唔使而家講，或者喺書面--你可以書面畀啲資料我哋  
14 喇，你等委員會係消化一下咁得唔得？
- 15 鄭偉波先生：Okay，冇問題，可以嘅。
- 16 MR DUNCAN：（經傳譯員）你剛才就講到啲車廠同埋總站，咁有幾多個總--有幾多  
17 個廠㗎，你哋公司？
- 18 鄭偉波先生：大大細細加埋都有六個嘅--六個以上，即係有啲細啲喇，有啲係主要㗎  
19 喇。
- 20 MR DUNCAN：（經傳譯員）係咪全部喺港島區㗎？
- 21 鄭偉波先生：喺港島區車廠就有三個，咁跟住就喺大嶼山又有兩個，咁同埋有其他  
22 啲地方就比較小，喺九龍又有，比較小型嘅，主要都係喺香港島。
- 23 MR DUNCAN：（經傳譯員）或者返番去薪酬待遇嗰度嘅情況先喇，或者請你睇一睇  
24 第 36 頁，TD-1，36。喺底下嗰度有提到一個表現良好嘅獎項嘅，嘅獎賞咁樣  
25 嘅，係喇，TD-1，36--CTB，對唔住，CTB-1，36，對唔住。你睇到良好表現  
26 嘅獎賞嗰度，睇唔睇到？
- 27 鄭偉波先生：見到。
- 28 MR DUNCAN：（經傳譯員）有提到就係嗰個安全嘅獎金、表現獎金同埋勤工獎咁  
29 樣，咁呢個就係話員工工會係要求嘅，咁嗰啲獎金就重新納入到去嗰個底薪，  
30 咁我嘅理解就係而家佢哋都係不管佢哋安全好唔好、表現好唔好、勤工好唔  
31 好，咁全部都係納入咗去底薪，係唔係？

1 鄭偉波先生：係。

2 MR DUNCAN：（經傳譯員）好喇，咁目前個薪酬待遇個度有冇一啲誘因，等啲車  
3 長就係要維持一個良好嘅安全紀錄㗎喇，係咪？

4 鄭偉波先生：但係我哋有個紀律制度㗎處嘅，如果佢個安全係有問題嘅話喇，雖然而  
5 家就有咗個安全獎愛嚟扣，但係我哋係會對佢哋作出紀律處分嘅，咁而如果受  
6 到紀律處分嘅話，佢又唔去改進，咁個紀律處分就會向上提升，到最後如果  
7 真係好差嘅一個人，我哋就係會係解僱佢嘅。

8 MR DUNCAN：（經傳譯員）咁呢個安全嘅獎金維持咗幾耐，即係行咗幾耐㗎喇？

9 鄭偉波先生：呢個安全獎金就係我哋公司行咗好多年㗎喇，咁就直至到係 2018 年嘅  
10 3 月我哋先至將佢歸納咗落去底薪裏面嘅。

11 MR DUNCAN：（經傳譯員）你納入去底薪，咁但係即係個底薪就會高咗，係咪？

12 鄭偉波先生：呢個有兩方面嘅效果嘅，就第一，就唔會有機會畀公司扣減喇，因為納  
13 入咗去底薪喇；第二，因為佢係底薪嘅一部分，就所以計算個加班薪金嘅時  
14 候個基數係增大咗嘅。

15 MR DUNCAN：（經傳譯員）咁個底薪都會增加咗囉，係咪呀？都增加咗好多㗎嗎，  
16 係咪呢？以前就係有個\$1,285、\$1,552 一個月嘅安全嘅津貼㗎，咁呢個唔  
17 係底薪㗎喇，係咪？

18 鄭偉波先生：以前唔係底薪。

19 MR DUNCAN：（經傳譯員）點解工會係要求咁樣將佢納入去底薪？

20 鄭偉波先生：係有三個原因嘅，第一，如果個三個嘅獎金係冇納到入去底薪，咁就有  
21 機會就畀公司扣錢嘅，例如如果佢揸車不安全嘅話，就有可能扣佢個安全獎  
22 喇；如果佢對乘客唔禮貌嘅話，我哋就有可能會扣佢個表現獎喇；如果佢有缺  
23 勤嘅話，就有機會會扣佢哋嘅勤工獎，如果呢三個嘅獎金全部納入咗底薪裏面  
24 嘅話，咁我哋就係有機會會扣佢喇，呢個係第一個原因㗎。第二個原因就係  
25 頭先我所講解過嘅，就係個超時薪金個計算喇。第三，就係我哋以往每一  
26 年嘅加薪就只係調整個底薪嘅，而呢幾項嘅津貼我哋都有調整嘅，即係除咗  
27 一個例外，就係喺 2017 年就係有調整過，喺 2017 年之前，我哋呢啲嘅獎金嘅  
28 數目就維持不變咗好多年㗎喇，咁而家將佢歸納咗入去底薪裏面，就變咗每一  
29 年個薪金調整，呢啲數字都相等於係有增加到。

30 MR DUNCAN：（經傳譯員）好喇，講番呢個安全個獎金先喇，即係當時喺度嘅  
31 時候喇...

32 主席：（經傳譯員）或者我哋講呢度之前，或者應該而家係要食飯時候喇。或者想請  
33 鄭生同埋你嘅同事就關於個制度個運作畀多啲資料我哋。咁其實即係呢個點樣  
34 扣，有啲唔符合某啲嘅標準點樣扣咁樣，我哋想即係攞多啲資料嘅，我哋食完

1 飯先再講喇，呢方面。

2 鄭偉波先生：好，多謝主席。

3 主席：（經傳譯員）好，而家暫時休會，兩點半返嚟，唔該晒，各位。

4

5 下午 12 時 59 分聆訊押後

6

7 下午 2 時 31 分恢復聆訊

8 出席人士如前。

9

10 主席：（經傳譯員）各位，午安。係，鄧樂勤大律師。

11 MR DUNCAN：（經傳譯員）唔該主席先生。各位，午安。鄭先生，喺小休之前，我  
12 就請你去睇一睇 CTB-1 嘅第 36 頁。唔該打番出嚟。我剛剛開始咗問你一啲問  
13 題，係關於表現良好嘅獎勵，我就問你呢一頁紙嘅下面嗰部分，我哋未去食飯  
14 之前，你曾經同我哋講過呢個安全獎金就其實行咗好耐嘅，根據你嘅意見書，  
15 你就話咗畀我哋聽已經將佢納入咗去底薪裏面，喺未納入底薪之前，我就想問  
16 下，究竟有乜嘢準則去決定個別嘅車長係可以攞到個安全獎金嘅呢？

17 鄭偉波先生：我同事鍾生會回答呢條問題。

18 鍾澤文先生：主席，嗰個安全獎金係會因應嗰個司機佢喺嗰個駕駛嘅方面有冇犯錯而  
19 去扣減嘅，佢犯錯嘅情況可能係因為交通意外，亦都可能係因為佢嗰個畀乘客  
20 投訴佢駕駛不當，亦都會係如果係我哋喺黑盒嗰度係發現佢係有超速同埋如果  
21 佢係有一啲我哋一啲駕駛嘅導師或者督察喺跟車去評估佢個表現嗰陣時發覺佢  
22 係有駕駛不當，我哋就因應佢嗰個駕駛不當嘅程度而去扣減嘅。多謝。

23 MR DUNCAN：（經傳譯員）你話會扣減，咁呢個係一個獎金，其實係獎金就話係原  
24 本嘅嘢之上加上上去㗎嘛，唔係咩？

25 鄭偉波先生：主席，如果嗰個員工係完全冇犯錯嘅情況底下，佢哋會全數支取嗰個獎  
26 金嘅，但係如果佢係有犯錯，咁要睇下唔同程度嘅犯錯，呢個獎金係會扣減  
27 嘅。多謝。

28 MR DUNCAN：（經傳譯員）明白喇。至於話嗰個良好表現嘅獎金，又用咩嘢準則  
29 呢？

30 鄭偉波先生：鍾生，唔該。

31 鍾澤文先生：良好表現嗰個主要係睇佢哋嗰個顧客嗰個服務，譬如話佢畀乘客投訴佢

1 態度唔好，而我哋亦都引證得到佢係態度唔好嘅，我哋會扣減佢嗰個服務表現  
2 獎。

3 MR DUNCAN：（經傳譯員）如果有投訴，就有扣減，就自動會得到呢個獎金，係咪  
4 呀？

5 鍾澤文先生：冇錯。

6 MR DUNCAN：（經傳譯員）勤工獎個準則又點樣嘅呢？

7 鄭偉波先生：呢個就勤工獎嚟嘅，如果佢係嗰個月返足工，即係個意思就係除咗佢公  
8 司編咗假期畀佢之外，其他應該要返工嘅日子佢全部都有返工，就會全數攤到  
9 呢個勤工獎嘅，但係如果佢有缺勤嘅話，就會按比例嚟到扣減呢個勤工獎嘅。  
10 多謝。

11 MR DUNCAN：（經傳譯員）喺納入底薪之後嗰個情況，我而家就想有幾條問題問一  
12 問，目前個情況係咪咁呀，而家喺金錢上、財政上對車長有咩嘢誘因令到佢就  
13 係會係安全啲㗎？

14 鄭偉波先生：喺錢銀方面，我同意嘅，呢度就唔會再有所講嘅 incentive 嘅，但  
15 係我要重申，就係佢哋安全駕駛係佢哋嘅責任嚟嘅，如果佢唔能夠做得到呢件  
16 事，咁就要睇下佢所犯嘅規則係有幾嚴重，我哋視乎嗰個事情嘅嚴重性，就會  
17 對佢哋作出唔同程度嘅紀律處分嘅。多謝。

18 MR DUNCAN：（經傳譯員）我想請你睇 CTB-2，209 頁，翻譯就可以睇番 209-1 同  
19 埋 209-2，好，唔該。睇唔睇到新巴有限公司一般站長及車長違規事件違例處  
20 分指引？呢度就係有係講站長同埋一般嘅司機如果違例嘅話就點樣樣咁嘅，係  
21 咪嗰頁有嗰個指引？

22 鄭偉波先生：我哋見到個指引嘅。

23 MR DUNCAN：（經傳譯員）喺個指引後面嗰個部分，英文版就 209-2，嗰度就有一  
24 啲指引嘅，係關乎係超速，如果車長係超過咗嗰個車速限制就係點樣樣嘅。

25 鄭偉波先生：係，見到嘅。

26 MR DUNCAN：（經傳譯員）罰則都有列出嚟嘅。

27 鄭偉波先生：係。

28 MR DUNCAN：（經傳譯員）口頭警告、書面警告，以及係最終就係可能係將佢辭  
29 退，就唔需要補番薪金畀佢嘅，係咪就係呢一啲咁嘅罰則呢，即係公司就會考  
30 慮上述所講嘅各類罰則，係咪呀？

31 鍾澤文先生：係嘅。

32 MR DUNCAN：（經傳譯員）我咁嘅理解啱唔啱呢？根據係現有嘅制度，即係話將佢

1 納入咗做底薪之後，其實你哋冇任何嘅條文，即係如果有人超速嘅話，就佢嘅  
2 收入都唔會被扣減㗎㗎，係咪呀？冇咁嘅條文嘅？

3 鄭偉波先生：正確嘅。

4 MR DUNCAN：（經傳譯員）呢個情況就同係將佢納入底薪之後係唔同喇，之前如果  
5 有個人就係超速咗，咁本來畀到佢嘅嗰啲錢就會係扣起咗，㗎唔㗎呀？咁樣嘅  
6 理解㗎唔㗎呀？

7 鄭偉波先生：正確嘅。

8 MR DUNCAN：（經傳譯員）將佢納入底薪之後嘅一個影響，或者請你揭番去第 36  
9 頁，CTB-1 嘅第 36 頁，我哋睇番新入職嘅車長，佢目前嗰個底薪，如果我理解  
10 係㗎，佢底薪入職就係\$15,364，㗎唔㗎？

11 鄭偉波先生：正確。

12 MR DUNCAN：（經傳譯員）再加上一個已經納入咗底薪嘅安全獎金，起碼就會  
13 1,285 釐，係咪呀？

14 鄭偉波先生：嗰幾個獎金已經包括咗喺\$15,364 裏面。

15 MR DUNCAN：（經傳譯員）良好表現獎金又點呢？362 釐一個月嘅。

16 鄭偉波先生：嗰三個獎金包括安全獎、表現獎同埋勤工獎，全部已經包咗喺\$15,364  
17 裏面。

18 MR DUNCAN：（經傳譯員）明白。呢個改組或者納入咗去底薪嗰度究竟係幾時開始  
19 實施嘅呢？

20 鄭偉波先生：2018 年 3 月 1 號。

21 MR DUNCAN：（經傳譯員）喺 2004 年 3 月 9 號嗰日或者之前入職嘅，\$15,364 個  
22 個數字就仲少囉㗎，係咪呢？因為你嗰個數字係會有一個數再加呢一啲獎金㗎  
23 嘛，㗎唔㗎呢？

24 鄭偉波先生：係加晒呢三個獎金之後先至係\$15,364。

25 MR DUNCAN：（經傳譯員）今時今日係咁樣，係咪呀？

26 鄭偉波先生：正確。

27 MR DUNCAN：（經傳譯員）去番十二個月之前嘅情況，當時個底薪係會點嘅呢？十  
28 二個月之前嘅底薪係幾多？

29 鄭偉波先生：呢個我同事吳生會而家計一計。

30 MR DUNCAN：（經傳譯員）好，你慢慢。

1 吳智光先生：多謝主席。唔好意思，主席，我想舉個例，譬如話喺我哋--因為嗰個嘅  
2 津貼轉入去底薪其實就係 3 月 1 號就生效嘅，咁譬如話喺 2 月 1 號嘅時候，未  
3 有呢一個嘅歸撥嗰個嘅津貼嘅時候，其實當時嘅底薪，一個人職嘅車長就係  
4 12,536 釐。多謝。

5 MR DUNCAN：（經傳譯員）唔該晒。

6 主席：（經傳譯員）好喇，咁樣喺第 36 頁嗰度，因為 04 年 3 月 9 號入職--之後入  
7 職就係\$15,364，咁而家你講就係--咁 2018 年 2 月 1 號之後入職就係  
8 \$12,536，係咪呢？

9 吳智光先生：主席，我請問可唔可以再重複一次？

10 主席：（經傳譯員）你睇第 36 頁中間嗰度第羅馬 IV，04 年 3 月 9 號之後入職就係  
11 \$15,364，而家你講就係如果佢哋 2018 年 2 月 1 號入職嘅就變咗係\$12,536  
12 嘅底薪，係咪呢？

13 鄭偉波先生：或者呢度我再講解一次喇，我再講解一次，我哋就係 3 月 1 號開始就將  
14 嗰三項津貼就納入去底薪嘅，好喇，咁即係話譬如話係 2018 年嘅 2 月嘅時候嘅  
15 情況，喺 2 月嗰個底薪就係\$12,536 嘅，\$12,536，咁我哋就將\$2,328 嘅津  
16 貼，呢個總數嚟嘅，就加咗落去呢個底薪，另外佢哋嘅底薪亦都另外再增加  
17 500 釐，咁幾個數加埋就係\$15,364 嚟㗎喇。或者我再重複嗰幾個數字，  
18 \$12,536、\$2,328 同埋\$500，呢度全部加晒就係\$15,364 嚟㗎喇。

19 主席：（經傳譯員）我聽到你講，但係我又唔係好明嗰個點樣計出嚟。

20 鄭偉波先生：或者我再重複一次，喺 2 月份嘅時候，即係未作出呢啲改動嘅時候，我  
21 哋嘅新入職嘅車長，佢嘅底薪係\$12,536，而佢有頭先講過嗰三項嘅獎金，呢  
22 三項獎金嘅總數係\$2,328，咁我哋喺 3 月 1 號嘅時候就將呢\$2,328 由獎金改  
23 為納入咗去底薪裏面，而同時我哋另外再加 500 釐人工個底薪，再加 500 釐底  
24 薪畀每一位車長，咁樣嘅情況底下，佢喺 3 月份佢嘅底薪就係\$15,364，但係  
25 就有咗頭先講嗰三項嘅津貼，因為已經納入咗去個底薪裏面。

26 主席：（經傳譯員）係，我都聽多呢一次喇。

27 MR DUNCAN：（經傳譯員）係，唔該你。好喇，而家就講完嗰個待遇，就講番嗰個  
28 嘅招聘女性嘅車長。其實女性嘅車長佔車長總數係有幾多呢？

29 鄭偉波先生：係低過 10%嘅，不過我要喺呢度要重新一樣嘢，我哋公司係招聘嘅時候  
30 係男女平等嘅，就唔會話因為係男士或者係女士佢有任何優勢嘅，但係就--即  
31 係呢個咁樣嘅結果，即係我相信就係嚟到應徵嘅人係男士多過女士。多謝。

32 MR DUNCAN：（經傳譯員）咁公司有冇諗過一啲措施就增加嗰個車長嗰個興趣呢，  
33 就係女性嗰個車長嘅數目嗰度，有冇提高佢哋嘅興趣參加、加入呢？

34 鄭偉波先生：我哋現在我哋嘅招聘廣告--現時我哋嘅招聘廣告，我哋都有三位車長嘅

1 相擺咗喺我哋嘅廣告嗰處嘅，嗰啲相其中一位就係女車長嚟嘅，我哋希望咁樣  
2 就等公眾嘅人士就知道女士亦都係歡迎加入我哋新巴、城巴成為車長嘅，多  
3 謝。

4 MR DUNCAN：（經傳譯員）有冇一啲女性嘅兼職車長？

5 鄭偉波先生：呢個我哋唔肯定，但係就算有，都唔會多。

6 MR DUNCAN：（經傳譯員）或者想請大家睇一睇第 29 頁，文件第 29 頁，係閣下嘅  
7 陳述書嚟嘅，CTB-1，29，你就話畀委員會聽，喺呢一版嗰度，係關於嗰個兼  
8 職嘅車長，公司兼職車長嘅數目，我哋睇到總共就係三百一十四嘅車長數目，  
9 係兼職嘅，好喇，我理解到，從你嗰個嘅陳述書嗰度，即係第 36 頁嗰度，就係  
10 話個兼職嘅車長就係有時薪嘅，就係 80 釐時薪，呢個係咪即係佢哋嗰個待遇嘅  
11 數目嚟㗎？

12 鄭偉波先生：正確，因為佢哋係每一個小時嚟到計算薪金嘅。

13 MR DUNCAN：（經傳譯員）呢一個率係即係行咗幾耐呀，呢個數？

14 鄭偉波先生：呢個數係 3 月 1 號嘅時候開始嘅。

15 MR DUNCAN：（經傳譯員）今年？

16 鄭偉波先生：2018 年。

17 MR DUNCAN：（經傳譯員）之前係幾多？

18 鄭偉波先生：係 75 釐，如果我有記錯嘅話。

19 MR DUNCAN：（經傳譯員）呢個係咪每年檢討㗎？

20 鄭偉波先生：唔係一定嘅。因為我哋呢個要去睇市場嗰個時薪或者個兼職嘅人工大約  
21 係幾多，咁我哋就要出番個相應嘅人工嘅。

22 MR DUNCAN：（經傳譯員）你哋喺寫字樓嘅員工，即係城巴嗰度或者係新巴，會唔  
23 會係即係有時都兼職做埋呢個司機？

24 鄭偉波先生：喺佢哋放咗工或者放假嘅時候，有時係會嘅。

25 MR DUNCAN：（經傳譯員）咁個數目又幾多㗎呢，呢個裏面？

26 鄭偉波先生：現時係一百七十九人。

27 MR DUNCAN：（經傳譯員）咁差唔多係一半，即係而家個兼職車長數目嘅大概一  
28 半，即係你哋寫字樓嗰啲人就係做兼職咁係一半㗎喇，係咪？

29 鄭偉波先生：不是，因為而家我哋睇番呢度，我哋之前個 submission，頭先你有引  
30 述過嗰一頁，314 只係新巴嘅數字，而城巴另外有 346 嘅，即係總數就係 660

1 嘅。

2 MR DUNCAN：（經傳譯員）哦，我明喇。可唔可以講番邊一個數目？講多次數目，  
3 好唔好呀？呢度係 346，咁講多次個數目，好唔好呀？

4 鄭偉波先生：城巴 346，新巴 314，總數 660。

5 MR DUNCAN：（經傳譯員）唔該晒。咁當中即係 179 就係寫字樓做嘅，咁就係其中  
6 兩間公司都有，係咪？

7 鄭偉波先生：係，正確。

8 MR DUNCAN：（經傳譯員）唔該晒。好喇，暫時唔講啲寫字樓嘅員工先，大多數  
9 嘅其他嘅兼職車長，我相信佢哋有其他嘅職業嘅，係咪？

10 鄭偉波先生：係。

11 MR DUNCAN：（經傳譯員）你嘅理解係咪咁？

12 鄭偉波先生：係，正確。

13 MR DUNCAN：（經傳譯員）好喇，或者我想你睇一睇第 59 頁，文件 59 頁，CT-8，  
14 59 頁，CT-1，59 頁，CTB-1，59 頁。

15 鄭偉波先生：見到。

16 MR DUNCAN：（經傳譯員）我想請你睇下嗰一頁嘅 5B 嗰一段。

17 鄭偉波先生：睇咗。

18 MR DUNCAN：（經傳譯員）喺嗰一段裏面你講咗啲嘢，其中就包括就話目前公司就  
19 有特別要求職位嘅車長去申報佢哋喺開工之前有冇足夠嘅休息時間，睇到嘛？

20 鄭偉波先生：睇到。

21 MR DUNCAN：（經傳譯員）我諗我咁講係公道嘅，喺呢度嘅 B 底下嘅第三段，講到-  
22 -你就講咗就係話有一啲改變嘅，你就話打算係會有所改變嘅，呢一個係關乎招  
23 聘兼職車長嘅，咁講啱唔啱呀？

24 鄭偉波先生：正確。

25 MR DUNCAN：（經傳譯員）我想你睇 CTB-2，401 頁，應該係第 400 頁嘅，文件係  
26 喺第 400 頁嗰度開始嘅，CTB-2 第 400 頁，嗰度有個表格嘅，總共有四頁紙，  
27 由第 400 去到第 403 頁嘅，個名就叫做係職位申請表--「駕駛職位申請表」。

28 鄭偉波先生：見到。

29 MR DUNCAN：（經傳譯員）我想問，呢份表格係咪全職、兼職嘅車長都係用呢一份  
30 申請表嘅呢？

1 鄭偉波先生：係。

2 MR DUNCAN：（經傳譯員）講到係佢咁其他嘅職業同埋休息時間，我想你睇呢份文  
3 件--呢份表格嘅第 2 頁，你睇到個標題就叫做「重要資料」，第 3 項，嗰度係  
4 咪咁講，「現時有否兼職工作？如有，工作類型」同埋「時間」？

5 鄭偉波先生：係。

6 MR DUNCAN：（經傳譯員）即係每一位申請人，無論係全職定抑或兼職嘅申請人，  
7 都需要填寫呢一個部分嘅，係咪呀？

8 鄭偉波先生：係。

9 MR DUNCAN：（經傳譯員）如果你落到去 402 頁，即係嗰個表格嘅第 3 頁嘅，我哋  
10 見到嗰度有一個申報或者聲明書嘅，402 頁同埋 403 頁。

11 鄭偉波先生：係，見到。

12 MR DUNCAN：（經傳譯員）我咁嘅理解啱唔啱呢？呢個亦都要填報嘅，呢個要係申  
13 請嘅時候就要填報㗎喇，係咪呀？

14 鄭偉波先生：呢一部分我交畀我同事吳生作答。

15 MR DUNCAN：（經傳譯員）可以嘅。

16 吳智光先生：主席，係嘅，就呢張表格嘅時候，嗰個 applicant，即係話個應徵者  
17 係需要寫嘅，但係我想補充一點，就係如果佢真係有填漏嘅時候，我哋亦都唔  
18 會話確信知道嘅。又舉個例，如果佢係申請我哋嘅工作職位嘅時候，如果譬如  
19 話係表格最右手面寫住「補充資料」嗰一個欄裏面，如果佢唔填，我哋亦都唔  
20 會話一定要佢填晒嘅。

21 MR DUNCAN：（經傳譯員）咁即係話唔會係獨立咁樣去查核一下嗰個人所填報嘅資  
22 料，係咪呀？

23 吳智光先生：可以咁講。

24 MR DUNCAN：（經傳譯員）除咗呢個申請表格之外，如果你係招聘呢一個人擔任你  
25 公司嘅一個職位，我想問要唔要係填番--簽番一份正式嘅聘用書嘅呢？

26 吳智光先生：係有嘅。

27 MR DUNCAN：（經傳譯員）有冇係就車長嚟講，有一份標準嘅咁樣嘅招聘書呢？

28 吳智光先生：係一個僱傭合約，係一封書信嘅形式啫，就並不是一個表格嘅形式。

29 MR DUNCAN：（經傳譯員）會唔會係兼顧到喺外間工作--兼職工作呢一啲嘅事宜  
30 呢？

1 吳智光先生：不會。

2 MR DUNCAN：（經傳譯員）可唔可以畀個咁樣樣嘅係僱傭合約嘅樣本畀我哋呢？

3 吳智光先生：可以嘅。

4 MR DUNCAN：（經傳譯員）唔會晒。

5 主席：（經傳譯員）呢封信係咪全職、兼職嘅僱員都係一樣嘅呢？

6 吳智光先生：不一樣嘅。

7 主席：（經傳譯員）有冇係兼職嘅僱員即係嗰一封嘅招聘信，有冇個樣本呢？

8 吳智光先生：我哋稍後可以提供畀委員會嘅，主席。

9 主席：（經傳譯員）係，我要求嘅就係咁。我哋邀請你哋就係事後係補充嘅，我哋會  
10 開一個清單就係話你應承係提供啲咩嘢額外嘅資料。

11 吳智光先生：多謝主席。

12 MR DUNCAN：Could I bring your attention...

13 主席：（經傳譯員）鄧律師，未繼續...

14 MR DUNCAN：Sorry.

15 主席：（經傳譯員）...我想問下，過去嗰幾年，你哋呢封招聘書嗰封信嘅內容有冇  
16 改變過呢？或者形式有冇改變過呢？

17 鄭偉波先生：我哋唔肯定。

18 主席：（經傳譯員）或者你返去查下，如果有改變到嘅話，因為--若果你係有係新同  
19 舊唔同嘅版本嘅，麻煩你都畀我哋，等我哋知道有咩嘢改變。

20 MR DUNCAN：Can I bring your attention now to...

21 主席：（經傳譯員）你係咪有啲嘢想講，鄭生？

22 鄭偉波先生：冇問題嘅，我哋可以提供。

23 主席：（經傳譯員）唔該晒。係，律師。

24 MR DUNCAN：（經傳譯員）唔該晒主席先生。我想請你睇另一份文件，都係關於呢  
25 一個課題嘅，CTB-2，404 頁，個翻譯嘅 404-1 同埋 404-2 嗰兩頁嘅。嗰個標  
26 題應該就僱員嘅行為守則同埋係紀律處分，然後斜戙，就話外間工作嘅聲明  
27 書，我想問，呢份文件嗰個目的係做咩嘢嘅呢？

28 鄭偉波先生：呢一個如果我哋有個全職嘅員工喺我哋嗰度做嘢，如果佢又喺外面係有  
29 兼職嘅話，咁我哋要佢要話番畀公司知道嘅，而另外如果佢係一個喺我哋度嘅

1 兼職員工，佢如果有份正職嘅喺外面，佢亦都要填寫嗰個資料畀我哋嘅。

2 MR DUNCAN：（經傳譯員）根據份文件嗰個係你嘅意見書嘅附件 7，我諗係你第二份  
3 嘅意見書嘅附件 7，或者我哋睇番第 59 頁，就係 CTB-1 嘅 59 頁。

4 鄭偉波先生：見到。

5 MR DUNCAN：（經傳譯員）我諗你呢度見到就提及係附件 7，係喺第 5B 嗰段最尾嗰  
6 個部分講及係附件 7。

7 鄭偉波先生：係。

8 MR DUNCAN：（經傳譯員）嗰度就提及一個每年嘅聲明或者每年嘅申報，我想問你  
9 哋有冇咁嘅要求呢啲文件又或者係僱傭合約有冇要求就係話僱員有咁嘅責任就  
10 報告畀你聽，即係如果佢喺外間嘅工作唔同咗，又或者係開始喺外面有其他工  
11 作，有冇規定要佢哋向你哋匯報嘅呢？

12 鄭偉波先生：如果係正職員工就一定要報，如果係兼職員工，就唔--如果佢唔報番返  
13 嚟，我哋都喺現時嚟講，都有去迫佢嘅，但係喺 2018 年嘅 6 月 1 號開始，我  
14 哋就係無論佢入職嘅時候同埋每一年都一定規定佢哋要作出申報嘅。

15 MR DUNCAN：（經傳譯員）你講到係全職嘅員工一定要咁做，咁明顯就係佢每年就  
16 要填番一份表格，如果佢做外間嘅工作，即係喺嗰年嘅中間嘅時候先至去做外  
17 面嘅嘢，兼職嘅話，咁佢有冇責任係向你哋報告呢？

18 鄭偉波先生：呢個詳細嘅情形吳生會作答嘅。

19 吳智光先生：主席，頭先律師所講嘅情況，個員工係有責任要向我哋作出申報，在得  
20 到我哋嘅批准之後，佢先至可以去接受其他嘅兼職工作。多謝主席。

21 MR DUNCAN：（經傳譯員）咁喺邊度見到呢個規矩、見到呢個條文就話要求僱員咁  
22 樣做呀？

23 主席：（經傳譯員）你或者可以睇 72-1 嗰版，嗰個係英文嘅譯本，72-1，我諗應  
24 該之前嗰幾版就係嗰個中文，CTB-2 嘅第 72 頁。

25 MR DUNCAN：（經傳譯員）唔該主席。

26 主席：（經傳譯員）吳生，睇番呢度會唔會係幫到你答呢個問題呢？72-7 嗰個係英  
27 文譯本，或者 72-6。我睇緊嗰度就係員工守則係申報外間工作，嗰度就寫住按  
28 就係申請係做以下嘅兼職工作，嗰度就第 26 段就講及就係話應該--如果全職嘅  
29 話，就應該就係要先申請咗，先可以做外間嘅兼職工作，之後係每年要申報  
30 嘅，下面有不同嘅標題就講及，就係話要求提供啲乜嘢嘅資料。

31 MR DUNCAN：（經傳譯員）好，唔該晒主席，係，究竟係邊一頁呢？

32 主席：（經傳譯員）我嗰度就係下面個角落嗰度寫住“72-1”嘅，係嗰個頁碼嘅。

1 吳智光先生：多謝主席。係嘅，喺呢一張嘅表格裏面，呢個附註我哋亦都講得好清  
2 楚，嗰個同事係需要作出申報嘅。同埋我都想講，如果我有記錯，呢個我哋之  
3 後--稍後會返去再檢視一下，我印象就係喺我哋嗰個 employment letter，  
4 即係話嗰個招聘書--嗰個聘用書嘅時候，我哋都有同樣呢一個嘅要求寫咗喺度  
5 嘅。多謝。

6 MR DUNCAN：（經傳譯員）唔該晒吳生。如果你睇埋 72 頁 7，翻譯版本嗰度，你睇  
7 原本嘅版本第 26 段，係有提到同樣一點嘅，照我理解，我理解啱唔啱呀？

8 吳智光先生：對的。

9 MR DUNCAN：（經傳譯員）唔該晒。好喇，嗰個你考慮嘅更改其實就係針對嗰啲兼  
10 職嘅員工，就唔係呢個全職嘅員工，係咪呀？咁理解啱唔啱？

11 鄭偉波先生：正確，因為我哋全職員工而家已經有足夠嘅申報制度㗎喇。

12 MR DUNCAN：（經傳譯員）或者我想請大家...

13 主席：（經傳譯員）係咪講另一個課題呀？

14 MR DUNCAN：Yes, I am.

15 主席：（經傳譯員）等一等先，嗰啲兼職嘅僱員，你係要求佢哋點樣做呢？即係佢哋  
16 一招聘之後，然後就係做額外嘅其他嘅兼職工作，你會要求佢哋點樣做呢？

17 鄭偉波先生：由 6 月 1 號開始，如果有一個工作申請者嚟我哋公司申請做兼職嘅車長  
18 工作，佢就首先就要填一份表，而呢份表就要講得出就係佢自己嘅正職係乜嘢  
19 嘢嚟嘅，嗰個工作時間係幾多點至幾多點，同埋星期幾係返工、星期幾係放  
20 假，咁我哋就可以掌握得到就係呢個人是否適合嚟我哋公司度做兼職車長。舉  
21 個例，如果有個人佢日日都要返十幾個鐘頭工嘅，佢嚟我哋度應徵兼職車長，  
22 我哋係不會僱用佢嘅，因為呢個一定係唔足夠休息時間。另外，如果有個人，  
23 譬如佢係一日係返八小時嘅工作，佢就同我哋講就話主要係星期六或者星期日  
24 嚟我哋嗰處做兼職車長嘅，咁我哋睇番個個案，我哋覺得係冇問題嘅，呢個我  
25 哋就會經過我哋一貫嘅程序嚟到考核，如果係得嘅話，就會請佢做兼職車長；  
26 佢除咗呢個人職嘅時候申報之外，以後每一年都要作出同樣嘅申報，如果佢係  
27 有變到嘅，佢就填番同舊年一樣嘅嘢，如果佢嘅工作係變咗嘅，佢就要將佢新  
28 嘅工作嘅模式要申報番畀公司知。呢個就係我哋喺 6 月 1 號之後將會做嘅嘢  
29 㗎。

30 主席：（經傳譯員）其實當你係請人嘅時候，你就會咁樣查詢，之後一年後，咁就即  
31 係睇下個情況係點樣，係咪？

32 鄭偉波先生：係，冇錯。

33 主席：（經傳譯員）呢個係一個責任嚟嘅，咁佢哋即係做啲兼職車長係有咁嘅責任，  
34 如果佢係做啲兼職嘅工作或者係有其他嘅兼職工作，喺一年之內，佢有個責

- 1 任，係咪，匯報？
- 2 鄭偉波先生：佢有其他嘅工作，佢都要報畀我哋知，等我哋就可以了解到佢個每一  
3 日嘅工作嘅時間係幾多，有冇足夠嘅精神嚟我哋度做兼職車長。
- 4 主席：（經傳譯員）咁呢一個規定有冇一啲表格、一啲文件係反映咗出嚟？
- 5 鄭偉波先生：喺 6 月 1 號開始係會有嘅。
- 6 主席：（經傳譯員）而家有冇一啲嘅資料，即係嗰啲表，呢度有冇喺度，有冇提供  
7 到？
- 8 鄭偉波先生：現時係冇提供到嘅，我哋可以後補。
- 9 主席：（經傳譯員）唔該晒。
- 10 MR DUNCAN：（經傳譯員）或者想睇番一份文件，僱員嘅紀律同埋係守則--行  
11 為守則，中文版就係 66，CTB-1 嘅 66 頁，翻譯就係喺 72 頁嘅 2，想問一問，  
12 就係呢一個行為守則同埋紀律係適用於全職、兼職都適用嘅，係咪？
- 13 鄭偉波先生：全部都適用嘅。
- 14 MR DUNCAN：（經傳譯員）或者想睇番第 26 段嗰度，翻譯就係 72 頁，嗰度就話  
15 「外間工作」嘅，有個標題係咁寫嘅，提到全職嘅員工應該點樣做，即係如果  
16 佢係做呢啲其他嘅工作，喺呢度有講嘅，睇唔睇到？
- 17 鄭偉波先生：睇到。
- 18 MR DUNCAN：（經傳譯員）正話主席就提到一點，其實有冇特別原因呢啲咁嘅條文  
19 唔適用喺兼職身上嘅？
- 20 鄭偉波先生：我哋公司嘅兼職員工其實主要就係車長嚟嘅，而車長喺我哋度兼職，就  
21 無論佢個正職係做乜嘢工作都好，而可以出現到呢個利益衝突嘅機會係等於零  
22 嘅。
- 23 MR DUNCAN：（經傳譯員）咁嘅說法就係有不同嘅表格係畀兼職嘅員工，即係喺一  
24 年之內，申報之前佢哋有一啲兼職嘅改變，咁呢度係有不同嘅做法，係咪？
- 25 鄭偉波先生：呢個係出現咗有利益衝突或者有機會有利益衝突嘅時候先至需要填寫  
26 嘅。
- 27 MR DUNCAN：（經傳譯員）好，我哋暫時唔講呢度先，就講番你哋嘅陳述書，CTB-  
28 1 第 61 頁，或者想大家係留意第 7 段顧客服務同埋情緒智商嘅管理訓練咁樣，  
29 睇唔睇到？
- 30 鄭偉波先生：睇到。
- 31 MR DUNCAN：（經傳譯員）B 同 C 嗰度，咁我哋係想睇一睇嘅，或者係睇一睇呢兩

1 段，等大家熟悉一下個內容，好唔好？即係關於個內容係點樣。

2 鄭偉波先生：係，我哋睇咗。

3 MR DUNCAN：（經傳譯員）你提到今年 3 月就係開始一個研究，係睇下一個可行性  
4 或者係可唔可以做一個心理嘅評估，等你可以係識別一下一啲申請者可能就像  
5 有一啲揸車上嚟比較躁狂或者係佢哋個揸車嘅態度就比較粗暴咁樣，而家喺  
6 呢一方面個進展係點樣呀，喺你做嘅研究方面有冇進展，進展成點？

7 鄭偉波先生：係吳生會作答嘅。

8 吳智光先生：多謝。其實我哋喺 3 月之後就開始咗呢個嘅 study，我哋除咗喺網上  
9 係下載有關文件，即係睇下嚟出面坊間嗰啲嘅評估係點做之外，我哋其實亦都  
10 同一啲嘅專業人士開過會討論過，其中包括咗就係一個執業嘅精神科醫生，另  
11 一位就係香港一間大學心理系嘅一個教授，我哋同呢兩位專業人士都分別開會  
12 討論過就係嗰個評估嘅可行性同埋嗰個嘅收效--成效，而我哋亦都而家係約見  
13 緊一位--另外一位大學嘅機械工程系嘅教授，而呢位嘅教授素來就係喺呢個情  
14 緒影響駕駛方面係有研究嘅，咁我哋亦都想同佢約見，了解下佢嗰個嘅研究嘅  
15 成效。多謝主席。

16 MR DUNCAN：（經傳譯員）你提到呢啲會議，佢哋係咪本地嘅心理學家嚟嘅？

17 吳智光先生：係。

18 MR DUNCAN：（經傳譯員）一位教授，咁其實係邊位教授？有冇諗到邊一位㗎，其  
19 實？我唔需要你講名，或者即係咩嘢教授？

20 吳智光先生：係中文大學心理系嘅一位教授。

21 MR DUNCAN：（經傳譯員）咁係咪即係畀咗簡介佢要點樣做㗎喇？

22 吳智光先生：係一個探討性質嘅，其實就係我哋交換緊我哋嘅背景、我哋嘅目的同埋  
23 我哋想佢 enlighten 我哋究竟而家坊間或者喺嗰個行業裏面嗰個做嘅範圍咁樣  
24 樣嘅情況。

25 MR DUNCAN：（經傳譯員）即係你話呢個做法，佢哋喺呢行行內嘅做法，其實即係  
26 呢個範圍係乜嘢呀？係香港嘅範疇㗎，中國嘅範疇㗎，定係邊度呢？即係邊個  
27 範圍呢其實？

28 吳智光先生：其實我意思就係話喺世界各地有冇呢啲嘅心理嘅評估，亦都係喺--套用  
29 喺呢個巴士車長方面嘅，我哋嘅討論係圍繞住呢個方面。

30 MR DUNCAN：（經傳譯員）你有冇係探討過--即係同本地嘅其他巴士公司探討過呢  
31 一方面呀？

32 吳智光先生：呢方面我哋冇。

1 MR DUNCAN：（經傳譯員）呢個問題有冇接觸過海外嘅巴士公司呢，喺呢方面？

2 吳智光先生：沒有。

3 MR DUNCAN：（經傳譯員）可唔可以話到畀委員會聽關於呢一個研究幾時會有啲進  
4 展呢？

5 吳智光先生：因為正如我頭先所講，我哋睇到第一另外有位機械工程系嘅教授，佢話  
6 要喺 6 月嘅時候先至可以同我哋見面，所以我諗最快我哋都要喺 6 月底嘅時候  
7 先至可以再同委員會講述番個嘅進展。多謝。

8 MR DUNCAN：（經傳譯員）好，唔該晒。而家就由招聘轉為講去訓練嗰方面，培訓  
9 車長。我想問你，唔知以下嘅理解啱唔啱呢，其實要求點樣培訓完全係公司嘅  
10 事，就唔係話運輸署有作出過任何嘅指示嘅，係咪呀？

11 鄭偉波先生：係由公司決定出嚟。

12 MR DUNCAN：（經傳譯員）政府當局就有提供過任何嘅係計劃或者培訓係多過你哋  
13 自己自行所提供嘅，咁樣講啱唔啱呀？只係由你哋自己公司所提供嘅，政府有  
14 喺之上再提供其他嘅培訓，係咪呀？

15 鄭偉波先生：正確。

16 MR DUNCAN：（經傳譯員）因為係咁，你所提供嘅培訓完全係獨立於其他專營巴士  
17 公司所提供嘅培訓嘅，係咪呀？

18 鄭偉波先生：我哋淨係負責我哋自己公司嘅培訓嘅。

19 MR DUNCAN：（經傳譯員）係，關於話要求啲乜嘢嘅培訓，作決定嘅純粹係你哋公  
20 司自己決定定抑或係你會同你哋其他海外嘅巴士公司傾過先至決定㗎，定抑或  
21 點呢？係完全自己決定，定抑或你會問下其他巴士公司點樣做，然後你哋先至  
22 係制定個計劃嘅呢？

23 鄭偉波先生：完全係由我哋公司自己去決定嘅。

24 MR DUNCAN：（經傳譯員）想請你睇 CTB-1，37 頁，想同你講一講究竟目前個情  
25 況係點嘅，即係關乎培訓方面嘅，首先睇番啲啲嘅係做全職車長嘅。37 頁，打  
26 咗上去未呢？

27 鄭偉波先生：係，我哋睇到。

28 MR DUNCAN：（經傳譯員）唔該晒。喺羅馬數字 I 嗰度，就係全職車長而有一個係  
29 駕駛巴士嘅牌照嘅，有十五日嘅駕駛訓練，然後先至去考運輸署所舉辦嘅駕駛  
30 考試，若果佢唔通過嘅話，就會有多五日嘅培訓，通過咗個考試之後，佢就  
31 有個牌照，就會係請佢，就會開始做個入職嘅培訓，啱唔啱呀？

32 鄭偉波先生：正確嘅。

1 MR DUNCAN：（經傳譯員）唔該晒。而呢個人職嘅培訓就包括兩個部分嘅，首先就  
2 係一個一日嘅課堂嘅培訓，第二個部分就係十至到十五日嘅駕駛培訓。

3 鄭偉波先生：正確。

4 MR DUNCAN：（經傳譯員）落去羅馬數字 II，如果想做全職車長，但係佢自己本身  
5 已經有巴士嘅駕駛執照嘅，佢哋就會參加嗰個人職嘅培訓喇？

6 鄭偉波先生：正確。

7 MR DUNCAN：（經傳譯員）即係話係一日課堂，十至到十五日就係駕駛培訓喇？

8 鄭偉波先生：正確。

9 MR DUNCAN：（經傳譯員）我有啲好奇，想知道喺香港會唔會啲車長係喺一間巴士  
10 公司轉去第二間巴士公司，即係喺巴士公司之間咁樣轉職，多唔多呢？

11 鄭偉波先生：係有，不過就唔多。

12 MR DUNCAN：（經傳譯員）又返番去第 37 頁，講到兼職嘅車長，如果兼職車長佢本  
13 身已經有巴士嘅駕駛執照，睇番嗰個標題，我咁嘅理解啱唔啱呢，除非嗰個申  
14 請者佢已經有巴士駕駛執照，否則你都唔會請佢做兼職嘅巴士車長，亦都唔會  
15 係畀嗰十五日嘅培訓畀嗰啲申請做全職巴士車長嘅人嘅，咁嘅理解啱唔啱呢？  
16 請兼職嘅話，係要請嗰啲已經擁有巴士嘅執照嘅人，係咪呀？

17 鄭偉波先生：正確，全部兼職車長佢都需要擁有巴士駕駛執照，我哋先至有可能會請  
18 佢嘅。

19 MR DUNCAN：（經傳譯員）唔該晒。而呢一個類別嘅人士，你哋係提供兩日嘅駕駛  
20 培訓，啱唔啱呀？

21 鄭偉波先生：正確。

22 MR DUNCAN：（經傳譯員）就同全職車長所得到嘅十至十五日嘅駕駛培訓就唔同，  
23 咁嘅理解啱唔啱呀？

24 鄭偉波先生：呢個理解係啱嘅，原因就係我哋--如果嚟我哋度做兼職車長嘅人，佢一  
25 定係平時都係揸開巴士或者揸開重型車嘅，即係大型車嘅，就變咗佢揸大型車  
26 嘅經驗就已經喺處㗎喇，咁嗰兩日嘅訓練就主要係路線訓練㗎嘅。

27 MR DUNCAN：（經傳譯員）即係話佢有兩日嘅培訓，無論佢有幾多經驗都好，都係  
28 畀兩日嘅培訓佢，即係究竟佢係揸過巴士一個月㗎，定抑或揸過巴士十年都  
29 好，佢都只係得到兩日嘅駕駛培訓，係咪呀？

30 鄭偉波先生：如果佢揸大型車嘅經驗係淺嘅話，我哋係不會請佢嘅，即係換句話嚟  
31 講，嚟到做兼職嗰啲，我哋請得佢嘅，佢哋都係有足夠嘅經驗嘅。

32 MR DUNCAN：（經傳譯員）你係咪想提及啲乜嘢嘢呢？

1 鄭偉波先生：係，就喺而家大家睇緊呢一頁，就喺最底嗰處，我哋亦都有啲補充嘅資  
2 料嘅，當嗰個兼職車長--當啲所有嘅車長，無論佢係全職或者兼職，完成咗嗰  
3 個駕駛訓練之後，佢哋就要通過我哋駕駛導師嘅評核嘅，如果嗰個評核嘅結果  
4 係不滿嘅，就會再有額外嘅培訓會畀佢哋嘅，所以喺嗰個兼職車長嗰處，佢  
5 係兩日，但係如果培訓咗佢兩日，佢係過唔到呢個評核嘅話，佢都唔會出去執  
6 勤嘅。

7 MR DUNCAN：（經傳譯員）你剛才就話除非佢哋係好有經驗，否則嘅話，亦都唔會  
8 請佢哋嘅，可唔可以講一講你話好有經驗係乜嘢意思呢？有冇準則嘅呢？

9 鄭偉波先生：就唔係話一個準則嚟嘅，呢啲嘅有經驗嘅兼職車長，有啲就係以前就係  
10 揸開巴士嘅，係專營巴士，即係可能喺我哋公司做過，就離開咗一段時間，其  
11 實佢揸咗好多年巴士嘅，呢度有嘅；第二，就可能係其他巴士公司退休嘅車  
12 長。主要就係呢兩類，就係我哋覺得佢哋係有好足夠嘅駕駛巴士嘅經驗嘅。

13 MR DUNCAN：（經傳譯員）佢哋就有課堂培訓，喺佢哋開工之前就唔會有課堂嘅培  
14 訓畀佢哋，係咪呀？

15 鄭偉波先生：現時係有嘅，不過我哋遲下就會安排佢哋會有課堂培訓，就係裏面包括  
16 顧客服務、情緒管理呢啲嘅環節嘅。多謝。

17 MR DUNCAN：（經傳譯員）講到係駕駛導師，你公司嗰度點樣樣先可以成為呢個駕  
18 駛導師呢？

19 鄭偉波先生：佢首先就要取得運輸署嘅駕駛導師執照，即係駕駛我哋啲啲型號嘅車嘅  
20 導師執照，就先至有可能喺我哋嗰處就做到導師，而我哋啲導師佢哋大部分  
21 或者全部都係以前好有經驗嘅車長，同埋亦都做咗好多年導師嘅。多謝。

22 MR DUNCAN：（經傳譯員）你哋公司總共聘用咗幾多位嘅駕駛導師呢？

23 鄭偉波先生：現時係有十五位全職嘅駕駛導師、兩位兼職嘅駕駛導師，另外我哋再有  
24 五位車長就喺不久嘅將來就會去運輸署嗰度考試，就考取嗰個導師嘅牌照。多  
25 謝。

26 MR DUNCAN：（經傳譯員）好，我哋睇下一頁，第 38 頁，CTB-1，38，個標題就係  
27 「重溫課程」或者係「復收課程」，你就話係提供呢個重溫培訓畀啲全職  
28 嘅、在職嘅車長，你亦都話就向呢個運輸署係作出咗承諾，呢一啲嘅重溫課程  
29 就會係起碼至少就每三年就會向在職嘅全職車長係提供畀佢哋嘅，然後就話係  
30 只係有課堂嘅培訓，跟住就講及嗰個培訓嘅內容。講到課堂嘅培訓，呢個係唔  
31 係同入職嘅培訓所講嘅係課堂培訓一樣呢？即係一個人新入職，就得到嘅課堂  
32 培訓同呢度嘅係咪一樣呢？所涉及嘅材料或者內容係咪一樣呢？

33 鄭偉波先生：大部分嘅內容係一樣嘅，但係我哋嗰個 submission，喺呢一段最後嘅  
34 句，就係嗰個交通意外嘅分析，由佢入職至到佢嚟到重溫培訓課程可能係已經  
35 經過咗兩年嘅時間或者兩年幾嘅時間，喺呢兩年幾時間裏面，可能就已經係香

1 港發生過一啲值得佢哋去有參考性嘅交通意外，我哋就會將呢啲嘅個案就喺個  
2 課堂裏面就同佢哋嚟到分享嘅，就等佢哋知道點樣去避免呢啲交通意外嘅。

3 MR DUNCAN：（經傳譯員）幾時係畀運輸署嗰個承諾㗎？

4 鄭偉波先生：呢個都好多年前喇，我哋而家手頭上有呢個準確嘅資料，對唔住。

5 MR DUNCAN：（經傳譯員）講番之前嗰一頁，喺最後嗰度，37 頁，你話通過嗰個評  
6 估之後，跟住就係派佢哋去某啲嘅路線就訓練。

7 鄭偉波先生：係。

8 MR DUNCAN：（經傳譯員）喺培訓嘅時候嘅過程當中，其實佢哋會係睇到幾多條線  
9 㗎？

10 鄭偉波先生：鍾生會畀呢個詳細嘅資料。

11 鍾澤文先生：呢個就會視乎佢將會派去邊一個廠嗰度去做嘅，有啲係三條、有啲四  
12 條、有啲五條，不過就算五條嘅路線，有啲路線係重疊嘅，即係個意思佢雖然  
13 話嗰個起點或者個終點係唔同，但係喺中間好多部分係相同，舉個例，譬如話  
14 佢喺銅鑼灣嘅摩頓臺開車去南區，佢可能就係喺銅鑼灣摩頓臺南區經過香港仔  
15 隧道之後嗰段路都係一樣嘅，之後有一架車可能就去咗海怡半島，有架車就可  
16 能去咗華貴邨，咁就係尾嗰段係唔同嘅㗎。

17 MR DUNCAN：（經傳譯員）其實佢哋都係一路揸呢啲線嘅囉㗎，係咪？

18 鍾澤文先生：佢哋會喺呢啲路線裏面揸一段期間，可能係幾個月㗎，之後就會調佢去  
19 其他嘅路線㗎喇，喺呢啲路線我哋--一般我哋介定為一啲比較簡單嘅路線，可  
20 能佢嗰個站--停嘅站比較少啲，或者係佢嗰條路就有咁複雜嘅，係比較直接啲  
21 嘅，咁等佢係熟習咗嗰個路線同埋熟習咗個駕駛技巧，我哋就會調派佢去做其  
22 他嘅路線。

23 MR DUNCAN：（經傳譯員）好喇，有一個司機係要揸新路線嘅話，咁係咪會有一啲  
24 熟習嘅一個過程嘅呢，還是係佢一路揸一路學定係點呢？

25 鄭偉波先生：鍾生。

26 鍾澤文先生：新嘅路線，我哋會係睇下佢會--我哋有幾個方法嘅，第一就係話佢係咪  
27 之前會係有導師係教過佢行嘅，另外就係佢或者佢自己即係宣稱佢已經係熟悉  
28 嗰啲路線，因為佢如果係熟悉個路線嘅話，我哋就可以直接畀佢去揸嘅，但係  
29 如果佢係話佢唔識呢條路線嘅話，我哋會安排佢就係去乘坐係一個服務中嘅巴  
30 士就去認識嗰一條路線嘅呢啲巴士站嘅巴士站位，同埋喺嗰條路線係點樣行  
31 法。呢個就係而家我哋嗰個做法㗎嘅。

32 MR DUNCAN：（經傳譯員）從你嘅陳述書嗰度，如果我理解得正確嘅話，公司就係  
33 會有三間不同嘅供應商，喺巴士嚟講，三間不同嘅生產商，係咪呢？

1 鄭偉波先生：李生。

2 李廣威先生：係，正確嘅。

3 MR DUNCAN：（經傳譯員）邊啲公司呀？可唔可以講一講？

4 李廣威先生：主要嘅供應商--主要供應商係 Alexander Dennis，即係亞歷山大丹  
5 尼士，第二就係富豪，另外就係 M-A-N，即係 Youngman。

6 MR DUNCAN：（經傳譯員）如果我理解冇錯嘅話，呢啲個別嘅巴士生產商佢哋係有  
7 不同嘅型號，係咪呀？

8 李廣威先生：係。

9 MR DUNCAN：（經傳譯員）好喇，當車長係接受初步訓練嘅時候，你點樣決定佢揸  
10 邊類車呀，喺訓練期間，邊個型號，點決定㗎？

11 鄭偉波先生：鍾生。

12 鍾澤文先生：我哋會睇番佢將會派落去啲路線，啲路線係用邊一類型嘅車，我哋  
13 都會教佢嘅。如果係一個新入職嘅車長，其實幾種類型我哋都會教，即係喺啲  
14 十五日裏面，我哋除咗話係教佢行啲路線之外，每日都可能係教佢唔同類型  
15 嘅巴士，等佢喺呢十五日裏面係熟悉各種類型嘅巴士。

16 MR DUNCAN：（經傳譯員）剛才你提到四、五條線嘅，即係喺訓練、培訓期間有  
17 四、五條線㗎嘛，係咪呢？

18 鍾澤文先生：係，冇錯。

19 MR DUNCAN：（經傳譯員）咁有幾多種型號嘅巴士，一個受訓嘅人喺訓練期間會接  
20 觸到㗎？

21 鍾澤文先生：頭先我哋講過其實我哋有三個供應商，其實主要我哋大部分嘅巴士就係  
22 Alexander Dennis 嘅型號，亦都有富豪，呢兩個係我哋最主要嘅，喺啲個訓  
23 練裏面，我哋多數都會係用 Alexander Dennis 嘅車去訓練我哋啲司機  
24 嘅。

25 MR DUNCAN：（經傳譯員）有咩嘢特別原因點解係咁樣呢？

26 鍾澤文先生：主要因為我哋大部分嘅車都係 Alexander Dennis 嘅車。

27 MR DUNCAN：（經傳譯員）如果司機係需要揸一個新嘅路線咁講，即係喺之後佢可  
28 能揸新路線，新嘅模型--型號，有冇一啲訓練嘅呢？

29 鍾澤文先生：如果我哋有新嘅型號嘅車，我哋係會即係再安排訓練畀啲車長嘅。

30 MR DUNCAN：（經傳譯員）呢啲訓練訓練啲乜嘢？

1 鍾澤文先生：我哋嘅駕駛導師會教佢哋呢啲新型號嘅巴士嘅司機位嗰個儀標板嗰啲所  
2 有嘅控制嗰啲掣，標板裏面關於一啲警告燈嘅燈號同埋就會畀佢哋喺個導師嘅  
3 指導下係駕駛一段嘅路程去熟習架巴士嘅運作咁。

4 MR DUNCAN：（經傳譯員）咁係半日咩，一日咩，定點呢？

5 鍾澤文先生：呢個要睇下嗰個巴士--即係呢個型號嘅巴士同原有我哋嘅巴士嗰個分別  
6 有幾大，即係舉個例，譬如話我哋之前有啲電動巴士咁樣，咁啲啲--因為全--  
7 嗰個操控或者啲掣都好唔同嘅，所以嗰個時間就會長啲。因為我哋喺訂巴士嗰  
8 陣時，其實我哋都要求供應商喺呢啲控制嘅譬如話嗰個標板各樣嘢都盡量係標  
9 準化，就唔會咁多唔同嘅操控嘅方式，就方便我哋嘅車長係去熟習嘅。

10 MR DUNCAN：（經傳譯員）好喇，我哋返番去第 38 頁，CTB-1，38，你就向委員會  
11 提到一啲矯正嘅訓練咁樣，...

12 主席：（經傳譯員）等等先，鄧律師。鄭生，想問一問，喺呢一個即係嗰個復修嘅訓  
13 練、重溫嘅訓練嗰度，就畀呢啲全職嘅車長，係三年起碼有一次嘅，其實呢一  
14 個--點樣定呢一個嘅時間嘅呢？點解唔係一年一次呢？點定㗎？

15 鄭偉波先生：我哋覺得就有需要一年一次返嚟返得咁密。

16 主席：（經傳譯員）你知唔知道其他巴士公司嘅做法係點㗎，喺呢方面，佢哋點樣做  
17 㗎？

18 鍾澤文先生：主席，據我理解，其他巴士公司同運輸署嗰個承諾都係每三年一次呢一  
19 個重溫課程嘅。

20 主席：（經傳譯員）你知唔知道海外嗰啲巴士公司喺呢方面又點樣做㗎？

21 鄭偉波先生：我哋冇去對比過。

22 主席：（經傳譯員）唔該晒。

23 MR DUNCAN：（經傳譯員）另一點就講到呢啲嘅重溫培訓，而家就係兼職嘅就有重  
24 溫培訓嘅，係咪呀？

25 鄭偉波先生：現時係有嘅，不過我哋遲下亦都係會提供呢個課程畀兼職車長嘅。

26 MR DUNCAN：（經傳譯員）你話遲啲，係幾時呀？

27 鄭偉波先生：呢個我哋要同啲兼職車長去商討，因為嗰個時間性，因為佢哋--要就到  
28 佢哋，因為佢哋可能有份正嘅職業，咁要睇下嗰個時間嘅安排，咁但係我哋希  
29 望可以儘快係搵到一個合適嘅時間方便呢啲兼職車長係返嚟上呢個重溫課程  
30 嘅。

31 MR DUNCAN：（經傳譯員）咁有冇接觸過呢啲兼職車長，有冇接觸過佢哋，喺呢方  
32 面？

1 鄭偉波先生：未嘅。

2 MR DUNCAN：（經傳譯員）好喇，講到呢啲矯正嘅培訓，即係第 58 頁，第 1 段嘅  
3 度，你都睇到兩間公司就需要全職、兼職嘅車長係如果有一啲違例扣分，就要  
4 向公司匯報嘅，跟住就有一個計分嘅制度，就要決定究竟需唔需要係上呢啲咁  
5 樣嘅矯正嘅訓練課程咁樣嘅，睇唔睇到呀？

6 鄭偉波先生：睇到。

7 MR DUNCAN：（經傳譯員）你其實係咪全倚賴車長本身係匯報呢啲咁嘅扣分畀你哋  
8 聽呢？

9 鄭偉波先生：個具體運作，吳生會同大家講解。

10 吳智光先生：主席，車長嚟講，佢係有責任向我哋申報嘅，呢個係第一；而第二，我  
11 哋亦都每個月係會隨機抽樣係搵一啲嘅車長出嚟，而我哋就抽咗佢之後，係要  
12 求佢讓我哋--簽同意書畀我哋去有關嘅政府部門去查核佢而家記分嘅紀錄。多  
13 謝主席。

14 MR DUNCAN：（經傳譯員）呢個制度行咗幾耐呀？

15 吳智光先生：我印象起碼有幾年嘅，應該有五年嘅。

16 MR DUNCAN：（經傳譯員）有冇問題呢，即係呢個咁嘅制度？即係話佢哋係扣咗  
17 分，但係又冇向你呈報，有冇發現咁嘅事情呢？

18 吳智光先生：有試過，如果我哋見到有呢啲咁嘅情況嘅時候，我哋會作出紀律嘅懲  
19 處。多謝。

20 MR DUNCAN：（經傳譯員）時不時亦都曾經需要過咁做，有冇實際上發生過咁嘅事  
21 情呢？

22 吳智光先生：我印象係有嘅，亦都有啲嘅情況就係--睇下先，對唔住，應該係有嘅，  
23 不過亦都唔多。

24 MR DUNCAN：（經傳譯員）想睇番第 3 段，即係標題係「矯正培訓」嘅第 3 段，喺  
25 2016 年一百九十八位車長係參加過呢一啲嘅矯正培訓，我就想問下跟住嗰句係  
26 點解嘅，佢哋裏面嘅百分之 76.3 嘅車長就喺之後嗰六個月冇再係因為佢哋需要  
27 負責，而所以有紀律處分，可能嗰度英文嘅文法上面有啲錯誤，百分之 76.3 就  
28 有話因為佢哋有交通意外而佢哋需要負責而受紀律處分係講之後嗰六個月，換  
29 句話講，減一減個數，就即係話就算係上過呢啲糾正嘅課程之後都仲有百分之  
30 廿三點幾佢哋再有呢啲咁樣樣佢哋係做錯咗而引致交通意外，係咪呀？

31 鄭偉波先生：正確嘅。

32 MR DUNCAN：（經傳譯員）換句話講，佢哋有扣咗 8 分或者更多，佢哋就參加咗個  
33 糾正課程，縱使係咁，即係縱使佢哋係咁都好，之後都仲有再犯錯，需要紀律

1 處分，係咪呀？

2 鄭偉波先生：係有嘅，但係當然，就要睇下佢哋嗰個再犯錯係犯得有幾嚴重，如果係  
3 犯咗嚴重嘅錯，而之前又有類似嘅錯，呢個我哋就會再提升嗰個處分嘅，甚至  
4 係有可能係解僱嘅。

5 MR DUNCAN：（經傳譯員）呢一個比例對公司嚟講係咪需要關注呢？即係話有咁嘅  
6 百分比嘅車長縱使係接受咗矯正嘅培訓，但係之後依然涉及一啲佢哋需要負責  
7 嘅交通意外，而又要接受紀律處分，你哋關唔關心、擔唔擔心呢個問題？

8 鄭偉波先生：我同意係需要關注嘅。

9 MR DUNCAN：（經傳譯員）咁又點樣去--係咪需要係譬如話試下修改一下你哋嗰  
10 個糾正課程，咁先至可以將呢個百分比係做得更好呢？

11 鄭偉波先生：呢個係其中一個方向，我哋係需要再去分析佢哋係點解上完呢個堂都繼  
12 續會有意外嘅，因為呢個每一單意外個成因都係不相同嘅，我哋係需要返去再  
13 作詳細嘅分析嘅。

14 MR DUNCAN：（經傳譯員）你係咪打算咁樣做㗎？

15 鄭偉波先生：係。

16 MR DUNCAN：（經傳譯員）模擬訓練，我想講一講呢個安排，我哋都知道飛機師佢  
17 哋培訓嘅其中一個部分就會係揸個模擬駕駛嘅，我想問呢一啲咁樣嘅系統有冇  
18 嘅呢？如果有人係想做係車長，有人想揸巴士，即係其實佢哋都--巴士上面都  
19 載住好多乘客㗎，你哋有冇一個咁樣嘅系統嘅呢？模擬駕駛巴士嘅系統，有  
20 冇？

21 鄭偉波先生：我哋沒有呢個系統嘅，因為我哋覺得如果要練習駕駛巴士，係駕駛一架  
22 真嘅巴士，喺真嘅路面上面嚟到去行駛先至真係學到嘅。唔該。

23 MR DUNCAN：（經傳譯員）不如你答番個問題，直接問嗰個問題，咁樣嘅系統有  
24 冇嘅呢？即係有冇咁嘅系統㗎嘅呢？

25 鄭偉波先生：我哋公司有，不過我就聽過係有嘅，有呢一類嘢嘅。

26 MR DUNCAN：（經傳譯員）咁聽到嘅係咩嘢呢？

27 鄭偉波先生：我以前聽過香港有--另外有巴士公司有呢個 simulator 嘅。

28 MR DUNCAN：（經傳譯員）係邊一間公司？

29 鄭偉波先生：九巴，我係聽過嘅啫，我有見過。

30 MR DUNCAN：（經傳譯員）有冇聽過海外嘅巴士公司有用到呢一啲嘅模擬駕駛嘅系  
31 統？

- 1 鄭偉波先生：我有聽過星加坡有嘅。
- 2 MR DUNCAN：（經傳譯員）喺邊度聽番嚟嘅呢？
- 3 鄭偉波先生：我剛剛喺我隔離同事鍾生度聽番嚟嘅。
- 4 MR DUNCAN：（經傳譯員）你知唔知道喺星加坡政府佢哋都係會負責嗰個巴士車長  
5 嘅培訓，部分嘅責任都係政府做番嘅，有冇聽過呢？
- 6 鄭偉波先生：我畀我嘅同事鍾生答。
- 7 鍾澤文先生：主席，我哋係聽過嘅，其實我哋喺兩年前，我嘅同事亦都去過星加坡嗰  
8 度就係參觀過呢一個 simulator，同埋了解過喺星加坡嗰個 Land  
9 Transport Authority 佢哋喺呢一方面嘅運作、嘅工作係點樣嘅。多謝主  
10 席。
- 11 MR DUNCAN：（經傳譯員）即係你同事去過星加坡，係咪呀？
- 12 鍾澤文先生：冇錯。
- 13 MR DUNCAN：（經傳譯員）係公司派佢去嘅？
- 14 鍾澤文先生：係我哋公司派佢去嘅。
- 15 MR DUNCAN：（經傳譯員）佢係咩嘢職級嘅呢？係咪公司裏面嘅高層管理嘅人士  
16 呢？
- 17 鍾澤文先生：佢係我哋公司嘅經理級同事嚟。
- 18 MR DUNCAN：（經傳譯員）佢返嚟有冇寫番個報告畀你哋，話畀你哋聽佢睇到啲乜  
19 嘢嘢呢？
- 20 鍾澤文先生：佢哋返咗嚟之後係有做過一個 presentation 畀我睇嘅。
- 21 MR DUNCAN：（經傳譯員）係咪書面㗎？
- 22 鍾澤文先生：唔係，係一個 presentation 嚟嘅，佢係當時除咗話去睇呢個  
23 simulator，仲係睇咗其他嘅--即係喺星加坡嘅巴士嘅運作嘅嘢。
- 24 MR DUNCAN：（經傳譯員）關於呢個模擬訓練，佢主要係講咗啲咩嘢呢？
- 25 鍾澤文先生：主要，好似頭先主席講，呢一個模擬訓練，呢啲都係政府嘅一啲資助去  
26 做嘅，因為嗰個 simulator 都非常之昂貴嘅；同埋喺嗰個模擬訓練裏面係--  
27 都係會用--有一啲唔同嘅情況係喺嗰個螢光幕嗰度會播出嚟係去考核個司機嗰  
28 個反應咁樣嘅。
- 29 MR DUNCAN：（經傳譯員）呢個係兩年前嘅，你咁講嘅，頭先，係咪呀？
- 30 鍾澤文先生：係，冇錯。

1 MR DUNCAN：（經傳譯員）當時係邊個嘅主意呢？係公司嘅主意㗎，定抑或係政府  
2 嘅主意就係要睇一睇呢一個模擬訓練呢？

3 鍾澤文先生：我哋唔清楚係星加坡係星加坡政府㗎，定係星加坡嘅巴士公司嘅主意。

4 MR DUNCAN：（經傳譯員）係咪你哋自己公司嘅睇法，定抑或係其他機構或者組織  
5 嘅主意嚟嘅呢？

6 鍾澤文先生：你係指去星加坡參觀呢一個？

7 MR DUNCAN：（經傳譯員）係呀，係你公司自己諗到呢一個主意㗎，定抑或係其他  
8 人提出呢一個咁樣嘅建議呀？

9 鍾澤文先生：呢一個 visit 係其實係我哋個黑盒嘅供應商喺星加坡因為有一個 EYTP  
10 嘅 conference，佢請我哋去參--去 participate，咁喺嗰個 conference  
11 之外，我哋另外再安排去參觀呢一個 simulator 嘅。

12 MR DUNCAN：（經傳譯員）咁係巴士製造商定抑或係你哋係決定--自己決定話都想  
13 睇下模擬器呢--模擬？

14 主席：（經傳譯員）我諗佢唔係話巴士供應商，係嗰個黑盒嘅係供應商，係咪 NEC  
15 呢？係咪 NEC 邀請你哋去 UTIP，UTIP 其實係咩嘢意思？可唔可以講一講呢個  
16 簡稱其實代表乜嘢嘢呢？

17 鍾澤文先生：係一個 UITP，佢係一個國際嘅運輸...

18 主席：（經傳譯員）嗰個簡稱究竟係--即係嗰個英文嘅縮寫係乜嘢嘢呢？係咪  
19 International Transport 呢？

20 鍾澤文先生：我...

21 主席：（經傳譯員）係咪國際運輸...

22 鍾澤文先生：好似係，我唔 sure，我可以補番畀你。

23 主席：（經傳譯員）佢自己有個網站嘅，係咪呀？

24 鍾澤文先生：冇錯。

25 主席：（經傳譯員）係關乎公共交通？

26 鍾澤文先生：冇錯。

27 鄭偉波先生：其實我嘅同事而家查緊。

28 主席：（經傳譯員）好，唔該晒，你搵到個答案，就話畀我哋聽喇。

29 鄭偉波先生：係。

- 1 主席：（經傳譯員）係當時就係你去參觀嘅時候，因為你喺星加坡，所以你就係借個  
2 機會去睇過星加坡嗰個模擬訓練系統喇，當時係邊個提出一個咁嘅建議呢？
- 3 鍾澤文先生：係 NEC 建議我哋去睇一睇嘅。
- 4 MR DUNCAN：（經傳譯員）你自己有冇親自出席去睇過？
- 5 鍾澤文先生：我有。
- 6 MR DUNCAN：（經傳譯員）但係你嗰個之後畀番個報告你嗰個同事自己去睇過，係  
7 咪呀？
- 8 鍾澤文先生：係，冇錯。
- 9 MR DUNCAN：（經傳譯員）你較早時候係咪咁樣講㗎，政府提供一啲資助㗎，係咪  
10 呀？
- 11 主席：（經傳譯員）我諗佢意思係話星加坡政府係資助係使用呢一類嘅培訓，咁講㗎  
12 唔啱呀？
- 13 鍾澤文先生：我嘅理解係咁樣。
- 14 主席：（經傳譯員）唔該。因為佢哋就係培訓嗰個車長嘅，係政府係培訓車長，就唔  
15 係巴士公司培訓車長嘅，呢個係透過佢哋嘅陸上交通當局去做嘅，係啱唔啱  
16 呀？
- 17 鍾澤文先生：啱。
- 18 主席：（經傳譯員）未離開呢一個題目之前，我就想問，你個同事去完之後返嚟向你  
19 匯報，你剛才所講嘅就係話其中報告裏面嘅一個元素就話都相當貴，除此之  
20 外，佢仲有冇匯報其他嘅嘢呀？
- 21 鍾澤文先生：我同事就匯報咗嗰個 simulator 就唔係咁真實，因為架車嗰個  
22 simulator 係唔會識郁嘅，即係冇咗嗰個 3D 嗰個--4D 嘅感覺。
- 23 主席：（經傳譯員）你知唔知道呢一個模擬機器嘅製造商喺邊一度呀？
- 24 鍾澤文先生：我哋唔知道。
- 25 主席：（經傳譯員）鄧律師。
- 26 MR DUNCAN：（經傳譯員）好喇，之後你公司入面有冇進一步跟進，睇下會唔會考  
27 慮用呢類咁樣嘅模擬訓練嚟到去做培訓呢？
- 28 鄭偉波先生：我哋冇考慮會採用嘅。
- 29 MR DUNCAN：（經傳譯員）因為你係想真正實際嘅駕駛體驗，係咪呀？你係希望做  
30 呢方面，係咪呀？鄭生。

1 鄭偉波先生：正確。

2 MR DUNCAN：（經傳譯員）好喇，而家想講一講目前個嘅培訓同埋將來你打算點  
3 樣做，鄭生，你嘅陳述書嗰度有講到就話會有一啲改變嘅，短期內，咁或者想  
4 你睇一睇 54 頁，CTB-1 第 54 頁，或者首先睇一睇 A 嗰段，呢一版 A 嗰段。

5 鄭偉波先生：睇咗。

6 MR DUNCAN：（經傳譯員）我留意到你講到話最近有檢討即係一啲安全嘅問題，跟  
7 住就係搵出以下嘅範疇係可以加以改善嘅咁，可唔可以同我哋講一講呢一個檢  
8 討邊個參與呢個檢討㗎，同埋檢討咗幾耐呢？

9 鄭偉波先生：呢個檢討其實就係我今朝有講過嘅安全委員會㗎嘅，我哋公司成立咗唔  
10 係太耐嘅安全委員會，而呢個安全委員會嘅成員就都已經寫咗喺我哋個陳述書  
11 嗰處㗎喇，就其實就係我、我隔離嘅鍾生、吳生、李生、蘇生，就同埋今日有  
12 一位嚟唔到嘅同事馮生，就係我哋六位係常設嘅會員。

13 MR DUNCAN：（經傳譯員）好喇，你點樣進行呢個檢討呀？

14 鄭偉波先生：我哋就而家已經搵到出嚟，就係喺呢度個 submission 寫咗出嚟，就  
15 係 A、B、C、D、E、F、G--E、F 咁樣，就係呢一啲嘅嘢，初步我哋搵到呢啲  
16 嘅位置，就覺得需要改善嘅，咁而個具體嘅改善係點樣做法同埋嗰個時間性，  
17 咁我哋就會係分派咗畀我哋嘅唔同部門嘅同事而家去檢討緊嘅，有啲如果可以  
18 即刻做得到嘅，舉個例，就係我哋嗰啲兼職車長，就要佢申報佢嗰個正職嘅工  
19 作時間，呢啲比較可以快做到嘅，我哋就決定咗係 6 月 1 號就要實行。而有啲  
20 就要牽涉到就係唔係--有啲我哋唔係咁容易可以控制到嘅嘢嘅，舉個例，就係  
21 我哋嗰個培訓，課堂嘅培訓，提供畀兼職車長嘅課堂培訓，頭先鍾生都講解  
22 過，我哋就要時間，要就番啲兼職車長佢自己嘅時間，就安排啲課堂畀佢哋  
23 返嚟上嘅，我哋就係每一個呢啲範疇，我哋都要睇嗰個實際嗰個時間性係點樣  
24 樣嘅。

25 MR DUNCAN：（經傳譯員）所以檢討就係有書面嘅，係咪呀？即係有大家溝通、有  
26 便箋呀咁樣，還是坐低大家開會，就咁算，個程序係點㗎？

27 鄭偉波先生：我哋剛剛開咗第一次嘅會議，就我哋係有會議紀錄嘅，咁開完個會之  
28 後，每一個事項就要有唔同嘅總監或者高級經理係要負責跟進，有可能係一位  
29 總監，亦都有可能係跨部門係多過一位總監，佢哋就係要去睇一睇，就真係去  
30 實行呢啲嘅時候，個細節--個執行細節到底要係點樣樣，好喇，知道咗，咁  
31 樣喺下個會議就會返番去嗰個安全委員會，就報番返去，就大家成個委員會就  
32 去要商討一下，再檢討一下，就有個真真正正嘅實行時間，呢個我哋就係我哋  
33 打算咁做嘅。除咗話去檢討之外，我哋亦都喺個委員會有傾過，就話檢討咗、  
34 實行咗，將來我哋嗰個跟進嘅工作亦都係好重要嘅，到底到時點樣嚟到跟進  
35 呢？我哋會繼續喺嗰個委員會裏面嚟到做決定嘅。多謝。

36 MR DUNCAN：（經傳譯員）會唔會有第二次嘅會議？有冇建議第二次嘅會議呀？

1 鄭偉波先生：我哋個委員會就暫定就每兩個月就開一次會，而董事總經理如果覺得  
2 係有需要嘅時候，就可以加開會議嘅。就而家其實我都一路問緊我身邊啲同  
3 事，即係當然喺公司問，就係佢哋嘅進展係點樣樣同埋有冇遇到困難，咁如果  
4 我--去到我認為值得要加開會議嘅時候，我就會召開呢個會議㗎喇。多謝。

5 MR DUNCAN：（經傳譯員）會唔會係第一次開會個會議紀錄畀唔畀到我哋委員會參  
6 考呢？

7 鄭偉波先生：可以，我哋畀你。

8 MR DUNCAN：（經傳譯員）唔該晒。好喇，第 8 段，呢一版嘅第 8 段就提到就提升  
9 個個新路線嘅培訓嘅，即係對車長嚟講，係 54 頁，應該 54 頁。

10 鄭偉波先生：睇到。

11 MR DUNCAN：（經傳譯員）全職、兼職都係有㗎喇，你喺呢方面有冇一啲細節，咁  
12 呢個訓練點樣係提升？

13 鄭偉波先生：細節鍾生係會提供嘅。

14 鍾澤文先生：咁而家新路線嘅安排就係個司機就係去搭一次個架車嘅路線，將來我哋  
15 會係除咗佢搭完呢一程車之外，我哋會再畀呢架車佢揸一次，呢架車當然唔係  
16 載客嘅，等佢可以熟習晒成條路嘅行法咁樣。

17 MR DUNCAN：（經傳譯員）喺個培訓嘅時數方面，即係啲新請番嚟嘅兼職車長個  
18 方面，個計劃又係點樣呀？

19 鍾澤文先生：新車長個個--即係兼職車長個度，我哋個駕駛嘅時數會係由而家嘅八  
20 個鐘增加到去十六個鐘，另外我哋亦都會係增加一個四個鐘嘅課堂訓練，呢個  
21 課堂嘅訓練係會包括咗顧客嘅服務、情緒嘅管理、一啲交通嘅安全嘅知識同埋  
22 一啲相關嘅法例，例如話酒駕、毒駕、藥駕或者係啲《殘疾歧視條例》等等  
23 呢一啲條例嘅。

24 MR DUNCAN：（經傳譯員）好喇，有冇其他嘅建議？即係呢度喺底個度，第 54 頁，  
25 底個度，B，I 同埋 II 個度。

26 鄭偉波先生：對唔住，我唔明個問題，可唔可以重複？

27 MR DUNCAN：（經傳譯員）可唔可以確定一下呢啲咁樣嘅提升嘅培訓，你正話所  
28 講，咁係咪包括埋我哋而家睇到喺第 B I 同埋 II 個度當中所講嘅細節呢？即係  
29 54 頁同埋第 55 頁個度，係咪包埋呢啲㗎？

30 鄭偉波先生：係包埋呢啲。

31 MR DUNCAN：（經傳譯員）好喇，第 55 頁，個個重溫培訓就畀啲車長嘅--在職  
32 車長嘅，呢個係咪全職同埋兼職都有份㗎？

- 1 鄭偉波先生：之前一頁嘅 B，我哋係講緊我哋係會增強兼職車長嘅培訓，而呢個兼職  
2 車長嘅培訓就係分開兩部分，就係羅馬數目字 I 同埋羅馬數目字 II，其實我哋  
3 一路而家講緊係兼職車長嘅，因為全職車長一向已經有兩方面嘅訓練。
- 4 MR DUNCAN：（經傳譯員）唔該晒，我明喇。主席剛才問你一個問題，就係問到即  
5 係嗰一個矯正培訓嘅一方面，佢哋係得三年一次咁樣，呢個啱唔啱呀？係咪咁  
6 講呀？即係嗰個重溫培訓嘅度，三年一次，係咪呀？
- 7 鄭偉波先生：至少喺三年裏面要有一次。
- 8 MR DUNCAN：（經傳譯員）咁我相信呢個期間，即係呢個咁嘅訓練期間，兼職嘅車  
9 長都係一樣，係咪咁樣？
- 10 鄭偉波先生：將會係，現在兼職車長係有，將會係，將來。
- 11 MR DUNCAN：（經傳譯員）係主席就問點解三年，點解揀三年呀？有冇一啲建議就  
12 話係可以檢討一下佢哋接受呢啲重溫培訓嘅個嘅期間，等佢哋就係得到一啲知  
13 識，就係需要採取一啲嘅步驟咁樣，等佢哋可以係--等啲乘客可以減低嗰個安  
14 全嘅顧慮呢？
- 15 鄭偉波先生：其實嗰個重溫訓練，我自己覺得就係同嗰個駕駛安全就唔係有百分之一  
16 百嘅關係嘅，係有部分有關係，反而我哋日常係點樣監察我哋嘅車長嘅駕駛行  
17 為，呢個係更重要嘅。而嗰個三年一次嘅課堂重溫訓練，我哋暫時都有聽到車  
18 長反映返嚟話隔得太長，不過呢個我哋可以同工會開會嘅時候探討下、聽下佢  
19 哋嘅意見，睇下佢哋覺得係有冇需要係加密啲呢個培訓，我哋要聽一聽，因為  
20 佢哋係受眾嚟嘅，我哋一定要聽一聽佢哋嘅睇法。
- 21 MR DUNCAN：（經傳譯員）我點解問呢個問題呢？就係由於似乎我哋遇到一個咁嘅  
22 情況，就係話嗰啲糾正嘅培訓似乎唔係好似你預想中咁有效用㗎，會唔會促使  
23 你就係去考慮一下或者有一啲係又重溫、又矯正咁樣嘅形式嘅培訓會唔會有  
24 用呢？你會唔會係考慮係加密啲嗰個重溫嘅培訓呢？
- 25 鄭偉波先生：今日聽咗你嘅意見之後，我哋返去會嚟我哋嘅安全委員會嚟到探討嘅。
- 26 MR DUNCAN：（經傳譯員）我哋今日未結束之前，我亦都提過一下你哋成立咗呢個  
27 安全委員會，你哋開過一次嘅會議，你亦都將一啲工作下放咗畀其他人士，我  
28 想問下，有冇同車長以及係所有嘅工會係溝通過呢，即係關於你哋安全委員會  
29 所提出嘅建議，有冇同車長、同工會提過呀？
- 30 鄭偉波先生：係有佢哋提過或者未有同佢哋提過嘅，因為而家只係剛剛開咗第一次會  
31 議，同埋將來我哋打算就係嚟個安全委員會有任何檢討、任何改動，有定案嘅  
32 時候先至會同工會講嘅，因為如果嗰個事情未成熟之前就走去同佢哋講，咁可  
33 能會製造到嗰個訊息混亂嘅。唔該。
- 34 MR DUNCAN：（經傳譯員）你話定案，即係話你作咗決定，你就通知啲工會，定抑

1            或你作一個初步嘅決定，然後就同工會去討論呢，然之後先至作最後嘅定案  
2            呢？

3    鄭偉波先生：呢一個就要睇嗰個事情是否有爭議性嘅，如果嗰件事情係沒有爭議性  
4            嘅，譬如我話要加長佢哋嗰個駕駛訓練嘅時數，呢個我相信一定有爭議性，如  
5            果咁樣嘅話，我唔覺得就需要話事先要同工會講嘅，但係如果有啲事情有可能  
6            係有爭議性嘅，我哋就要視乎嗰個情況，就有需要就同嗰個工會喺比較早嘅階  
7            段，就要溝通嘅。

8    MR DUNCAN：（經傳譯員）主席先生，我諗係差唔多時候喇，係咪呀？

9    主席：（經傳譯員）係，大律師，鄭先生同埋你嘅同事，我哋而家嚟到四點半，我哋  
10           今日就係暫時到此為止，係想邀請你哋明天再繼續出席，我哋會明天 10 點鐘再  
11           恢復嘅，感謝你哋今日出席。

12    鄭偉波先生：再見。

13

14    2018 年 5 月 29 日

Wednesday, 30 May 2018

(10.00 am)

EVIDENCE FROM NEW WORLD FIRST BUS SERVICES LTD AND  
CITYBUS LTD: MR SAMUEL CHENG, MR WILLIAM CHUNG, MR PAUL LI,  
MR GARETH NG, MR KENNETH LIT, MR KENNY SO (given in  
Cantonese; transcription of the simultaneous interpretation)  
CHAIRMAN: Good morning.

Mr Duncan.

Examination by MR DUNCAN (continued)

MR DUNCAN: Thank you, Mr Chairman.

Mr Cheng, good morning.

MR SAMUEL CHENG: Good morning.

MR DUNCAN: Good morning, gentlemen.

I would like to start this morning by asking some  
questions relating to the devices that are available to  
the company with regard to bus safety.

The first matter that I would like to address is the  
question of what's commonly referred to as the black  
box.

In that respect, could I ask you to turn up, please,  
CTB-1 at page 55.

MR SAMUEL CHENG: Yes, I see that.

MR DUNCAN: Could I bring to your attention item 1 on that  
page, "Introduction of black boxes to our buses". Do  
you see that entry?

1 MR SAMUEL CHENG: Yes.

2 MR DUNCAN: Do those paragraphs contain a brief history as  
3 to the installation of black boxes in the buses?

4 MR SAMUEL CHENG: Correct.

5 MR DUNCAN: It seemed to have commenced in October 2003,  
6 with a requirement from the Transport Department for the  
7 devices to be installed.

8 MR SAMUEL CHENG: Correct.

9 MR DUNCAN: Then that would apply to buses first registered  
10 after July 2004.

11 MR SAMUEL CHENG: Correct.

12 CHAIRMAN: Perhaps we could have the letter from the  
13 Transport Department, which I think is October 2013,  
14 which details this, so that this can be followed by  
15 others. I think it's annex 1, is it not?

16 MR DUNCAN: It would be, I think, at TD-2, page 205.

17 MR SAMUEL CHENG: Yes, I see it.

18 MR DUNCAN: So the buses registered after 2007 came with  
19 black boxes; is that a correct understanding?

20 MR SAMUEL CHENG: For the first batch of buses first  
21 registered after the effective date, that was in 2007,  
22 in other words between 2004 and 2007, we didn't have any  
23 batch of new buses. In 2007, we had the first batch of  
24 buses equipped with black boxes when they were first  
25 registered.

26

1 MR DUNCAN: Right. So did the bus companies themselves then  
2 provide the black boxes as part of the delivery of the  
3 bus?

4 MR SAMUEL CHENG: Correct.

5 MR DUNCAN: Thank you.

6 If I go back to CTB-1/55, it was stated that in  
7 2010, your companies took the initiative to upgrade the  
8 black boxes to an integrated system, with automatic bus  
9 stop announcement capability.

10 Is that the position?

11 MR SAMUEL CHENG: Yes.

12 MR DUNCAN: Thank you.

13 CHAIRMAN: Mr Duncan, before you pursue that line, perhaps  
14 we could establish what was the base requirement. It's  
15 the second page of the document we just looked at, the  
16 2003 letter, and it's on the next page that the  
17 requirements are stipulated.

18 MR DUNCAN: So can we take you back to that page, please,  
19 TD-2 at 206.

20 In paragraph 2, do you see the requirements of the  
21 Transport Department as they were when the requirement  
22 was issued --

23 MR SAMUEL CHENG: Yes, I see that.

24 MR DUNCAN: -- in 2003, headed under (a) and (b) -- first of  
25 all, the operation times, the start time, rolling time,  
26

1           idle time and finish time; and secondly, the speed of  
2           the vehicle.

3           Now, if you go back to --

4   CHAIRMAN: Forgive me again, Mr Duncan -- item 1 stipulates  
5           the purpose of this requirement, does it not, in these  
6           terms?

7           "The purpose of the Electronic Data Recording Device  
8           is to provide tools for the bus company to monitor and  
9           manage the on-road speed- and safety-related behaviour  
10          of its buses, and indirectly to encourage better driving  
11          behaviour."

12          Do you see that, Mr Cheng?

13   MR SAMUEL CHENG: Yes, I see it.

14   CHAIRMAN: What did you understand was the role, if any,  
15          that was to be played by the Transport Department in  
16          response to this requirement?

17   MR SAMUEL CHENG: Yes, the TD had a role. The TD took the  
18          initiative to promote the idea of installation of black  
19          boxes by the bus company.

20   CHAIRMAN: And thereafter?

21   MR SAMUEL CHENG: Thereafter, the bus company has to meet  
22          this requirement under the guideline. The technology at  
23          that time was such that those items were available, but  
24          then, a few years later, there was new technology. When  
25          our company became aware of that, we upgraded the system

26

1 of our black boxes.

2 CHAIRMAN: And how did you become aware of the development  
3 of new technology?

4 MR SAMUEL CHENG: May I defer to Mr Chung, my colleague?

5 CHAIRMAN: Yes, Mr Chung.

6 MR WILLIAM CHUNG: Mr Chairman, at the time we had a study.  
7 We were studying the idea of a bus stop announcement  
8 facility. We didn't want the bus captains to have  
9 an increase in their workload. Therefore, we studied  
10 the idea of making use of GPS so that there would be  
11 automatic bus stop announcements.

12 When we were studying the matter, we came to  
13 understand that the two systems could be integrated so  
14 that, in addition to meeting the requirements of the TD  
15 in relation to provision of data, we could also have the  
16 positions, the locations of the buses.

17 Thank you.

18 CHAIRMAN: Yes, Mr Duncan.

19 MR DUNCAN: Thank you, Mr Chairman.

20 So do I understand that it was the company which  
21 took the initiative to increase the available  
22 technology?

23 MR SAMUEL CHENG: Correct.

24 MR DUNCAN: So do I understand correctly that between 2003  
25 and 2010, when according to the letter the company took  
26

1           that initiative, the Transport Department itself did not  
2           require any further advances in the technology in the  
3           black box, beyond what it set out back in 2003?

4       MR SAMUEL CHENG: Mr Chung will answer this question.

5       MR WILLIAM CHUNG: No, there wasn't.

6       MR DUNCAN: If I go again to your submission at page 55, at  
7           the bottom of the page you have set out the  
8           second-by-second data which is available from the black  
9           box.

10           Is that the data which is available today from the  
11           black box?

12       MR SAMUEL CHENG: For such a question relating to the  
13           technology, my colleague Mr Lit will take it.

14       MR KENNETH LIT: Correct.

15       MR DUNCAN: Have there been improvements to the system  
16           between the time that the automatic bus stop  
17           announcement capability was integrated with the system?

18       MR KENNETH LIT: Yes.

19       MR DUNCAN: What are those improvements?

20       MR KENNETH LIT: Last year, in 2017, we started to install  
21           a new system. We call it RTS2, real-time system 2. We  
22           have added new functions, including the following. As  
23           Mr Cheng mentioned yesterday, in the third quarter, when  
24           the entire fleet has been fitted with this system, then  
25           we will be able to provide a display; that is, we will

26

1 alert the bus captain when the bus is speeding.

2 MR DUNCAN: That's the real-time system which is yet to be  
3 implemented across the whole fleet; is that right?

4 MR KENNETH LIT: Correct. We haven't completed the fitting  
5 of the entire fleet.

6 MR DUNCAN: Right. Apart from the real-time system, were  
7 there any other improvements to what was available from  
8 the black box between the time of the integration of the  
9 system, of the bus stop announcement, up until the  
10 present time?

11 MR KENNETH LIT: No. For that period of time, no, no  
12 improvement.

13 MR DUNCAN: Now, when was it that the company decided that  
14 the real-time system would be implemented?

15 MR KENNETH LIT: Round about 2015, when the franchise of the  
16 Citybus was granted by the TD, among the clauses there  
17 was this requirement on us. That is, we have to provide  
18 a real-time -- to provide estimated time of arrival.

19 As a result of this requirement of the ETA system,  
20 it means that we require a real-time function.  
21 Therefore, round about that time, we started to prepare  
22 for the fitting of the entire fleet with this real-time  
23 bus stop announcement or the ETA.

24 MR DUNCAN: I would like you to look, please, at  
25 a document --

26

1 CHAIRMAN: Before you move on -- you said earlier that this  
2 RTS2 system would be fully installed in the third  
3 quarter. Is that the third quarter of 2018?

4 MR KENNETH LIT: That's correct, sir.

5 CHAIRMAN: Thank you.

6 Yes, Mr Duncan.

7 MR DUNCAN: Thank you, Mr Chairman.

8 Could you look, please, at a document which you will  
9 find at BM1 at page 35.

10 Are you looking at a document which is headed "News  
11 release"?

12 MR SAMUEL CHENG: Yes, we're reading it.

13 CHAIRMAN: Take your time to familiarise yourself with it  
14 first.

15 MR SAMUEL CHENG: We are done, sir.

16 MR DUNCAN: Thank you. Now, is it headed, "NEC won the  
17 contract of the integrated automatic bus stop  
18 announcement and data logger system by New World First  
19 Bus Services Ltd and Citybus Ltd"? Is that the heading?

20 MR SAMUEL CHENG: Yes, sir.

21 MR DUNCAN: Is it dated 13 January 2012?

22 MR SAMUEL CHENG: Yes, sir.

23 MR DUNCAN: Does the first paragraph announce, on the part  
24 of NEC, that it has won a contract in respect of 702  
25 buses of New World First Bus Services Ltd and 172 buses  
26

1 of Citybus Ltd?

2 MR SAMUEL CHENG: Yes, I see.

3 MR DUNCAN: And does it refer to the deployment of the  
4 integrated automatic bus stop announcement, ABSA, and  
5 the data logger, DL, system?

6 MR SAMUEL CHENG: Yes. This is about the specific details.  
7 I defer to Mr Chung, please.

8 MR WILLIAM CHUNG: That is correct, sir.

9 MR DUNCAN: Thank you. Then if I take you down to the third  
10 paragraph, does it refer to the fact that, "The BSA and  
11 DL system combines the Global Positioning System  
12 ('GPS'), bus odometer signal and proprietary  
13 snap-on-route technology to overcome the 'ghost' GPS  
14 signal caused by the unique environment of narrow  
15 streets and skyscrapers in Hong Kong"?

16 MR WILLIAM CHUNG: That's correct, sir.

17 MR DUNCAN: Then the last paragraph on that page, does it  
18 refer to the fact that, "The control unit also logs the  
19 position and speed of the bus throughout the day"?

20 MR WILLIAM CHUNG: That's correct, sir.

21 MR DUNCAN: And that the data will be uploaded to the server  
22 via WiFi when the bus is returned to the bus depot?

23 MR WILLIAM CHUNG: That's correct, sir.

24 MR DUNCAN: I want to understand exactly what this contract  
25 achieved for the company. If you go back to your  
26

1 submission at page 55, CTB-1/55.

2 CHAIRMAN: Before you embark on that, Mr Duncan, might I ask  
3 this question.

4 Paragraph 1 has two parts to it. One is the  
5 contract which has apparently been recently won; and  
6 secondly, it states this:

7 "... after its successful implementation of the same  
8 system across 760 buses of Citybus, the only large-scale  
9 deployment of GPS and ABSA system in Hong Kong."

10 Of that statement, can I ask this: first of all, is  
11 that accurate; and secondly, when was this system  
12 implemented?

13 MR WILLIAM CHUNG: Mr Chairman, this system was first  
14 implemented in the Citybus franchise 1. We started with  
15 franchise 1 and then we extended it to Citybus franchise  
16 2 and also First Bus.

17 CHAIRMAN: The question was when was it installed, in terms  
18 of time?

19 MR WILLIAM CHUNG: Citybus franchise 1, it was June 2011.  
20 Citybus franchise 2 and also New World First Bus, the  
21 installation was towards the end of 2012; they were  
22 completed then.

23 CHAIRMAN: Thank you.

24 Thank you, Mr Duncan.

25 MR DUNCAN: Thank you, Mr Chairman.

26

1           If you go to page 55, there is reference there at  
2           the bottom to the fact that:

3           "In 2010, our companies took the initiative to  
4           upgrade the black boxes to an integrated system with  
5           automatic bus stop announcement capability."

6           Is this via the NEC project?

7       MR WILLIAM CHUNG: Yes, correct. That was done by NEC, sir.

8       MR DUNCAN: So was it 2010 or 2011?

9       MR WILLIAM CHUNG: In 2011, we started discussion with NEC  
10           and developed this system. In June 2011, the  
11           installation took place in the Citybus fleet  
12           franchise 1.

13       MR DUNCAN: Right. So when you refer at the bottom of that  
14           page to something happening in 2010, is that the same as  
15           the NEC system you have just been referring to, or is it  
16           a separate integration?

17       MR WILLIAM CHUNG: Your question again, please, sir.

18       MR DUNCAN: I am trying to ascertain what happened in 2010,  
19           as we can see from the bottom of page 55. It is stated  
20           there:

21           "In 2010, our companies took the initiative to  
22           upgrade the black boxes to an integrated system with  
23           automatic bus stop announcement capability."

24           It would appear that that's what NEC did, according  
25           to your testimony a few moments ago, in 2011. Is that  
26

1 correct?

2 MR WILLIAM CHUNG: That's correct, sir.

3 MR DUNCAN: So for "2010" here, should we be reading "2011"?

4 MR SAMUEL CHENG: Mr Chairman, if we have to develop a new  
5 system, it would take time, and in 2010 we took the  
6 initiative to get in touch with NEC to design the new  
7 system. With the new system, we have to install them in  
8 700 or so buses, and that again would take time. We can  
9 manage a couple of them per day, because the buses are  
10 deployed on the road every day.

11 So, from the installation to the end of the  
12 installation, it took about a year's time. So, in our  
13 submission -- perhaps please turn to the next page.

14 Here we say:

15 "The whole fleet of CTB (F1) was equipped with this  
16 integrated system in June 2011. The whole fleet of  
17 CTB (F2) and NWFB were equipped with the same integrated  
18 system at the end of 2012."

19 That's the same system that I'm talking about,  
20 because CTB (F1), during the franchise renewal, the  
21 government imposed a requirement that we have to provide  
22 the bus announcement system, so we had to complete the  
23 CTB (F1) fleet first.

24 MR DUNCAN: Thank you for clarifying that. So the  
25 initiative was taken in 2010 but the installation  
26

1 commenced in 2011, with the help of NEC; is that  
2 correct?

3 MR SAMUEL CHENG: That's correct.

4 MR DUNCAN: Thank you.

5 CHAIRMAN: Before you move on, Mr Duncan -- you say that in  
6 the course of the renewal of the CTB (F1) franchise, the  
7 government imposed a requirement that you provide a bus  
8 announcement system. Have we been provided with  
9 documentation that evidences that requirement?

10 MR SAMUEL CHENG: In the franchise document, it doesn't  
11 specifically refer to this bus announcement system. But  
12 when the franchise was renewed, other than the franchise  
13 document, through exchanges of letters, there was  
14 an undertaking that something else would be done.

15 In our company, we do have that document with us.

16 Thank you.

17 CHAIRMAN: Would you be in a position to provide us with  
18 copies of those documents -- perhaps there were a series  
19 of documents -- so we can follow this point?

20 MR SAMUEL CHENG: No problem, sir.

21 CHAIRMAN: Thank you.

22 MR DUNCAN: I think there was reference earlier on to  
23 another document, a franchise, which first raised  
24 a question of real-time capability. Was that mentioned  
25 earlier, Mr Cheng?

26

1 MR SAMUEL CHENG: Yes, that was.

2 MR DUNCAN: Is that a separate requirement from the one that  
3 you just mentioned?

4 MR SAMUEL CHENG: I defer to Mr Chung, please.

5 MR WILLIAM CHUNG: Yes, that's a separate requirement.

6 MR DUNCAN: Was that expressed in a franchise document?

7 MR WILLIAM CHUNG: Like Mr Cheng said a moment ago, that was  
8 a separate issue. That wasn't inside the franchise  
9 document.

10 MR DUNCAN: So was there documentation backwards and  
11 forwards which would evidence that?

12 MR WILLIAM CHUNG: Yes, we do have the information. We can  
13 make available the information afterwards.

14 MR DUNCAN: Thank you very much.

15 CHAIRMAN: Thank you, if you would do so.

16 Can you give us the time frame of when there was  
17 this -- in the course of which franchise renewal was  
18 this, and what was the time?

19 MR SAMUEL CHENG: We had exchanges of correspondence with  
20 the Transport Department. That was a couple of days  
21 before, in fact, the franchise was awarded, we had to  
22 make these pledges.

23 Thank you.

24 CHAIRMAN: Which year was that? Was this franchise 2 or  
25 franchise 1?

26

1 MR SAMUEL CHENG: 2015.

2 CHAIRMAN: Thank you.

3 MR SAMUEL CHENG: The franchise started to take effect in  
4 2016.

5 CHAIRMAN: Was that franchise 2?

6 MR SAMUEL CHENG: Franchise 1.

7 CHAIRMAN: Thank you.

8 Yes, Mr Duncan.

9 MR DUNCAN: Thank you, Chairman.

10 I want to move on now and explore what data the  
11 black box actually provides and what use is made of that  
12 data.

13 In that respect, can I ask you, please, to look at  
14 your first submission. So it will be CTB-1 at page 33.

15 MR SAMUEL CHENG: Yes, I see it.

16 MR DUNCAN: At the moment I'm concerned with the system as  
17 it is at the moment. I'll ask you about the real-time  
18 capability later, but I'm just concerned with the system  
19 prior to the real-time capability.

20 At the bottom of that page, 8(a)(i), there is  
21 reference to this:

22 "Data captured by black boxes installed on buses is  
23 uploaded to our server every night for generation of  
24 reports to monitor the driving behaviour of bus  
25 captains."  
26

1 Do you see that reference?

2 MR SAMUEL CHENG: Yes, sir.

3 MR DUNCAN: So, no doubt, if a driver is driving at  
4 an excessive speed, let's say 80 kilometres per hour,  
5 that is something which will show up on the server; is  
6 that correct.

7 MR SAMUEL CHENG: No. Before we get the real-time  
8 function -- let me explain how it works. Every night,  
9 the bus will return to the depot, and then, only at that  
10 time, will the data be transmitted to our computer  
11 system of the company. So it won't be a question of  
12 letting us know in real-time. In future, there will be  
13 a real-time function, and then, once every 15 seconds,  
14 such data will be transmitted to our company system. So  
15 the two are different.

16 MR DUNCAN: Yes. Just keeping with the non-real-time  
17 system, the current system, once the data is uploaded on  
18 the server at night, it will show if the bus driver has  
19 exceeded the speed limit of 70 kilometres per hour; is  
20 that correct?

21 MR SAMUEL CHENG: Perhaps let me elaborate. When the bus is  
22 in service during daytime, if there has been  
23 an exceedance of the speed limit, the black box on board  
24 will record this incident of speeding. At night, this  
25 piece of information will be uploaded or transmitted to  
26

1           our computer system, which will then collate the data.  
2           On the following day -- sorry, well, in fact, in about  
3           five days' time, a report will be generated in relation  
4           to exceedance of speed incidents.

5           So what happens to those five days? Our system has  
6           to match the speed exceedance incident with our Octopus  
7           card system, so as to identify the name of the relevant  
8           driver. So it takes a few days' time to do that. So we  
9           have a report on the speed exceedance and then our  
10          colleagues will follow up on that.

11          Thank you.

12       MR DUNCAN: So what about other faults that the driver may  
13          have caused or may have -- his conduct may have been at  
14          fault? For example, if he had braked excessively or if  
15          he had accelerated too fast, would that sort of  
16          information appear on the server in the same way as  
17          excessive speed appears on the server?

18       MR SAMUEL CHENG: Yes, we do get such information, but we do  
19          not generate such reports.

20       MR DUNCAN: So the only reports that are currently generated  
21          are speed reports; is that correct?

22       MR SAMUEL CHENG: Correct.

23       MR DUNCAN: And when that report is available, what happens  
24          to it? Does it just sit there, or is there somebody who  
25          is required to examine each and every report?

26

1 MR SAMUEL CHENG: When the report is available, our system  
2 will automatically generate an email to our operations  
3 division. In fact, there are three operation divisions:  
4 CTB1, CTB2, and New World operations. So, for each of  
5 them, when such an email is received, then it will be  
6 known that within the relevant division, which drivers  
7 are involved in such cases of exceeding the speed limit.

8 Thereafter, we will follow the guideline, the  
9 internal guideline, on disciplinary action, and  
10 appropriate disciplinary action will be taken. For  
11 a first offender and not too serious, then a reminder  
12 will be issued. In the case of a serious incident or in  
13 the case of a repeat offender, then a warning will be  
14 issued.

15 Thank you.

16 MR DUNCAN: So do I understand correctly that the current  
17 monitoring system, monitoring of the drivers' conduct,  
18 is limited to speed only?

19 MR SAMUEL CHENG: Well, there are two aspects. Every day,  
20 we have the routine monitoring, and that's about the  
21 speed. On the other hand, if there is a passenger  
22 complaint or when there is a traffic accident, then we  
23 will have colleagues who will look up the relevant data  
24 and then will carry out an investigation. The findings  
25 of the investigation, if say the case is established,  
26

1           then the relevant bus captain will be disciplined.

2       MR DUNCAN: Right. As far as the black box is concerned, it  
3           monitors only speed, no other conduct of the driver?

4       MR SAMUEL CHENG: The black box isn't just about monitoring  
5           the speed.

6       MR DUNCAN: I'm sorry, let me rephrase that. I understand  
7           what you were about to say.

8           As far as the report is concerned, the report which  
9           comes up on the server from the black box is concerned  
10          only with speed; it does not reflect any other driving  
11          fault of the driver. Is that correct?

12       MR SAMUEL CHENG: Our server will issue routine reports, and  
13          that would just be about exceeding the speed limit.  
14          However, for the data, for the information that we have  
15          recorded, that goes beyond vehicle speeds. Well, in  
16          fact we cover the following information as well, like  
17          the G force generated when the vehicle is in motion.  
18          That will be recorded as well. And of course other  
19          behaviour of the bus captain, say for example whether he  
20          has opened the bus doors, that would also be recorded as  
21          well.

22                Thank you.

23       MR DUNCAN: But do I understand correctly, those sorts of  
24          matters are not the subject of any report currently?

25       MR SAMUEL CHENG: There won't be an automatic report, but  
26

1           then if we find the need to carry out an investigation,  
2           then such information can be retrieved from the system,  
3           to facilitate our investigation.

4   CHAIRMAN: I think we understand your evidence, Mr Cheng.

5           A report is generated in respect of speed only, but  
6           other data is available if you wish to investigate. Is  
7           that the position?

8   MR SAMUEL CHENG: Correct.

9   MR DUNCAN: Thank you, Mr Chairman.

10           Now, sticking with the matter of speed, could I ask  
11           you please to refer again to your submission, and this  
12           time page 26 of CTB-1.

13   MR SAMUEL CHENG: Yes, I see it.

14   MR DUNCAN: Thank you.

15           May I bring your attention to the page just under  
16           the heading "Bus ignition" -- so you will see item (ii),  
17           "Bus ignition (on/off)", and then a portion which  
18           commences:

19           "The black boxes are used to monitor the speed of  
20           each bus and over speed exception report[s] are  
21           generated automatically."

22           Do you see that?

23   MR SAMUEL CHENG: Yes, I see it.

24   MR DUNCAN: I think, if you read through that, it covers  
25           some of the matters that I have just been asking you

26

1 about.

2 MR SAMUEL CHENG: Yes, I see it.

3 MR DUNCAN: So if there is the speed of over 70 kilometres  
4 per hour, that would be caught in the black box or be  
5 recorded in the black box, and will automatically become  
6 part of the report; is that correct?

7 MR SAMUEL CHENG: Correct.

8 CHAIRMAN: Is it not 75 kilometres per hour generates  
9 a report?

10 MR SAMUEL CHENG: We are monitoring the speed limit of 70,  
11 but then the black box is set in such a way that there  
12 has to be 70 kilometres per hour for 10 consecutive  
13 seconds before an event would be generated.

14 CHAIRMAN: So there are two qualifications, one is  
15 75 kilometres and the other is 10 consecutive seconds?

16 MR SAMUEL CHENG: Correct.

17 MR DUNCAN: That would occur whatever route and whatever  
18 road the bus is on; is that right?

19 MR SAMUEL CHENG: That's correct, sir.

20 MR DUNCAN: Dealing with the situation where the speed limit  
21 is 50 kilometres per hour, the reference you will see  
22 there is:

23 "Speed of over 55 [kilometres per hour] for 10  
24 consecutive seconds on road section[s] with speed  
25 limit[s] of 50 [kilometres per hour]".

26

1 Do you see that?

2 MR SAMUEL CHENG: Yes, sir.

3 MR DUNCAN: Now I wish to ask you about these road sections  
4 that exist. Do I understand, these are just random  
5 sections of road which the company has chosen from time  
6 to time?

7 MR SAMUEL CHENG: That's incorrect. In our company, we have  
8 selected 25 road sections with a speed limit of 50kph.  
9 For these 25 road sections, they include the continuous  
10 downhill slope road sections, and also these road  
11 sections involve sharp bends. For these road sections,  
12 there were major traffic accidents that occurred before;  
13 it wasn't random per se.

14 MR DUNCAN: I think if I could bring your attention, please,  
15 to page 56. This is your second submission. So CTB-1,  
16 page 56.

17 MR SAMUEL CHENG: Yes, sir.

18 MR DUNCAN: There has been a question asked and you have  
19 responded in that submission in 2(a) with "Criteria for  
20 identifying road sections for speed detection". Do you  
21 see that?

22 MR SAMUEL CHENG: Yes, sir.

23 MR DUNCAN: It is said in the response:

24 "Among these 25 road sections, 11 road sections were  
25 identified for monitoring in June 2013, 3 additional  
26

1 road sections ... in September 2014, and 11 road  
2 sections ... identified for monitoring in March 2018."

3 How long are these road sections?

4 MR SAMUEL CHENG: I defer to Mr Chung, please.

5 MR WILLIAM CHUNG: Generally speaking, they are more than  
6 100 metres.

7 MR DUNCAN: Why have you increased these from time to time?  
8 There was 11 initially, then three additional, three  
9 added, and then 11 added. Why are you adding to them  
10 from time to time?

11 MR WILLIAM CHUNG: When we first introduced this method to  
12 monitor the road sections, we discussed with the unions'  
13 representatives. We discussed with them the road  
14 sections. We need them to know what sections we are  
15 dealing with so that they will observe the speed on  
16 these sections. As we increased the number, we also  
17 kept them posted of the development.

18 MR DUNCAN: Would it be fair to say that the total of these  
19 25 road sections would be a very, very small proportion  
20 of the area covered on all the routes on which the buses  
21 of the company ply their trade?

22 MR WILLIAM CHUNG: Yes, you may put it this way, but we feel  
23 that these are rather dangerous sections; if they go  
24 beyond 50kph, it would pose some danger.

25 MR DUNCAN: What is actually involved in identifying these  
26

1 road sections?

2 MR WILLIAM CHUNG: As Mr Cheng said a few moments ago, we  
3 basically look at the three criteria, continuous  
4 downward slope, sharp bends, and also there were  
5 frequent traffic accidents that occurred in the past or  
6 some serious ones. So we identified these road sections  
7 on the basis of these criteria.

8 MR DUNCAN: Yes, I understand that you identify them, but  
9 how do they then get into the system? What is involved  
10 technically?

11 MR WILLIAM CHUNG: Technically, we have the electronic map  
12 in the system. We just set these into the system and we  
13 set all these 55kph for 10 continuous seconds -- we set  
14 all these criteria and set it into the system.

15 MR DUNCAN: Is there any reason why all the routes couldn't  
16 be fed into the system, so that you could monitor not  
17 only speed in excess of 70 kilometres per hour but also  
18 speeds in excess of 50 kilometres per hour wherever it  
19 occurs?

20 MR WILLIAM CHUNG: In theory, yes, but it would involve  
21 a lot of efforts, because then we would have to separate  
22 all the different routes and everything would be  
23 separated out. In the electronic map, we have to split  
24 the 50kph and 70kph. That would take a lot of efforts.

25 MR SAMUEL CHENG: Mr Chairman, if I may supplement. I agree

26

1 with that. At the present moment, these 25 road  
2 sections cannot cover all the routes that we serve, all  
3 the routes that the buses are deployed to. Right now,  
4 we have 25 identified that we consider prone to danger.

5 In addition to that, in the days to come, we will be  
6 randomly selecting additional road sections for speed  
7 detection purposes in relation to the 50kph sections.  
8 This is something we plan to do. That would be similar  
9 to what the police do with regard to speeding detection.  
10 They have the cameras that are mounted at certain  
11 locations, and the police would also randomly put the  
12 mobile cameras to detect speeding.

13 This is the inspiration that we got from the police  
14 initiative. This is something that we are going to do.  
15 But until that happens, we do need to have a word with  
16 the unions.

17 Thank you.

18 MR DUNCAN: Do the unions know currently which are the  
19 25 sections?

20 MR SAMUEL CHENG: Yes, they do, because this has been  
21 published in the appendix of the captains handbook.

22 MR DUNCAN: Would it improve your monitoring system --

23 CHAIRMAN: Before you move on, just so we can confirm we are  
24 talking about the same thing -- you are referring to,  
25 for example, annex 1 of CTB-2 at page 169-88? That's  
26

1 the English version, where the sections are identified.

2 Is that correct?

3 MR SAMUEL CHENG: That's correct, sir.

4 CHAIRMAN: So these are the 25 sections of road that are  
5 currently monitored in your system to produce a report  
6 of a vehicle going greater than 55 kilometres per hour,  
7 your buses going greater than 55 kilometres per hour?

8 MR SAMUEL CHENG: That's correct, sir.

9 MR DUNCAN: With the advent of the real-time system, is  
10 there any proposal to increase the number of road  
11 sections from 25?

12 MR SAMUEL CHENG: With the real-time system, it doesn't have  
13 any direct relationship with the number of sections. As  
14 regards the increase in the number of monitored road  
15 sections, that doesn't present any problems to us, but  
16 we have to discuss with the unions. So that's why  
17 I said that we do have the plan to randomly identify  
18 road sections in an electronic map to detect the speed  
19 limit -- speeding on the 50kph sections.

20 MR DUNCAN: But do I understand you correctly, that would be  
21 done in conjunction with the unions, so they would know  
22 the outcome of any proposals in that respect?

23 MR SAMUEL CHENG: Yes, we have to notify the unions. We are  
24 not asking them for permission, but they have to be kept  
25 posted.

26

1 MR DUNCAN: Let us turn then to the proposal for real-time  
2 capability. If I could ask you to go back, please, to  
3 page 33 of your submission. So CTB-1/33.

4 At the bottom of the page, in the third line of the  
5 last paragraph on the page:

6 "We schedule to replace the black box system with  
7 real-time capability by the third quarter of 2018. By  
8 then, we will be able to monitor the driving behaviour  
9 of bus captains in real-time and take immediate action  
10 as appropriate".

11 In that respect, could I ask you to turn to your  
12 second submission at page 58.

13 MR SAMUEL CHENG: Yes, sir.

14 MR DUNCAN: Thank you. Do we see at the bottom of the page  
15 this entry:

16 "The real-time ... system will emit an instant audio  
17 warning (ie a beeping sound) automatically through the  
18 black box control panel in the driver cab to alert the  
19 bus captain whenever an over speed event occurs."

20 Is that a summary of the real-time capability of the  
21 system?

22 MR SAMUEL CHENG: Yes. This can only be done with the  
23 real-time capability.

24 MR DUNCAN: So is the real-time capability concerned only  
25 with the matter of speed?

26

1 MR SAMUEL CHENG: Mr Chung, my colleague, will answer the  
2 question.

3 MR WILLIAM CHUNG: For the real-time capability, it isn't  
4 just about the speed. Just now, we have already said  
5 that one of the functions of the real-time capability is  
6 to enable us to estimate the arrival time of the bus.  
7 So that's one of the functions of the real-time feature.

8 MR DUNCAN: Right. So speed is one aspect. The arrival  
9 time is another. What about other faults of the driver?  
10 Would any of those be picked up in real time? I'm  
11 thinking of things such as sudden braking, excessive  
12 acceleration, those sorts of things. Would they be  
13 picked up in real time?

14 MR SAMUEL CHENG: I need to consult my colleague.

15 CHAIRMAN: Yes, please do so.

16 MR SAMUEL CHENG: Mr Lit will answer the question.

17 MR KENNETH LIT: Thank you, Mr Chairman.

18 Mr Cheng mentioned that data will be transmitted  
19 once every 15 seconds, and that's about simple  
20 information like the speed. For the transmission of  
21 data for over 25-second sort of cycling, that's not the  
22 second-by-second data. For second-by-second data, it  
23 will be sort of based on a 15-minute cycle, and it will  
24 come from the bus to the server of the company.

25 MR DUNCAN: One of the advantages of the real-time system is  
26

1           that there is an instant audio warning to alert the bus  
2           captain that he's speeding. Would the driver receive  
3           any alert for any matter other than speeding?

4       MR SAMUEL CHENG: Mr Lit will take the question.

5       MR KENNETH LIT: Other than speeding, no, we are not having  
6           any other alerts for the bus captain.

7       MR DUNCAN: When it is said at page 33 that immediate action  
8           as appropriate can be taken, what is meant by "immediate  
9           action"?

10      MR SAMUEL CHENG: The immediate action that we refer to is  
11           actually what we have just referred to. That is the  
12           beeping sound so as to alert the bus captain.

13      MR DUNCAN: Now, I need to understand this, please. If the  
14           driver is exceeding 50 kilometres per hour in one of the  
15           25 road sections, clearly the new system will result in  
16           his receiving an alert; is that correct?

17      MR KENNETH LIT: Yes.

18      MR DUNCAN: If, say, he is going 60 kilometres per hour on  
19           a road which is not caught by one of the 25 road  
20           sections, will he be alerted in that situation?

21      MR KENNETH LIT: No.

22      MR DUNCAN: Would your system of monitoring be far better if  
23           there were a lot more road sections covered than simply  
24           25?

25      MR SAMUEL CHENG: Yes, it would have been better, but  
26

1 currently we are not able to get a digital map which  
2 includes all the speed limits of all the roads in  
3 Hong Kong. Currently, there isn't such a digital map.  
4 So what we have to do is to manually mark such road  
5 sections onto our digital map.

6 MR DUNCAN: The fact that there's no digital map available,  
7 is that something which has been the subject of  
8 discussion at all between the company and the Transport  
9 Department?

10 MR SAMUEL CHENG: No, we didn't.

11 MR DUNCAN: Would that be a matter worth discussing with the  
12 Transport Department, do you think?

13 MR SAMUEL CHENG: We will try.

14 MR DUNCAN: Now, unless anybody has some further questions,  
15 I'm going to leave the matter of black boxes and move to  
16 the matter of speed limiters.

17 CHAIRMAN: Prof Lo.

18 MEMBER LO: I just have a question on the real-time alert.  
19 Would that be part of the report generated about the bus  
20 captain's performance, or is it just an alert without  
21 record, without permanent record?

22 MR SAMUEL CHENG: In real time, the bus captain will be  
23 alerted if the over speed continues for continuously  
24 10 seconds, then the black box will record such  
25 an event. And as I have mentioned earlier on, later on

26

1           the information will be transmitted to our system, and  
2           then it will be listed in the over speed report.

3       MEMBER LO:   So they are kind of independent?

4       MR SAMUEL CHENG:   Sorry, I don't understand your question.

5       MEMBER LO:   The real-time warning is independent of the  
6           report generated offline five days later?

7       MR SAMUEL CHENG:   Yes, the two are separate.

8       CHAIRMAN:   In your approach to generating an alert to the  
9           driver, would it not be easier to set the system to  
10          generate a report at 55 kilometres per hour for all  
11          roads, except those that you then identify as being  
12          70 kilometre per hour roads, rather than doing it the  
13          other way around?

14      MR SAMUEL CHENG:   I think technically your idea is feasible,  
15          but then the work to be done will be equal in terms of  
16          the volume. Our current system is such that we have  
17          pre-set all the road sections to have a speed limit of  
18          70, and then for 25 road sections we have marked it as  
19          50. If we have to reverse it, it means that the digital  
20          map of our system has to be set in such a way that it  
21          would be 55 throughout, and then we have to identify  
22          those road sections which permit 70 or above, so as to  
23          make it 70.

24          In other words, either way, the workload will be  
25          heavy. So just now we have said that we are thinking of

26

1 adding randomly picked road sections so as to monitor  
2 the speeding of our bus captains.

3 CHAIRMAN: Broadly speaking, what is the proportion of the  
4 roads that your buses travel that are subject to  
5 a 70 kilometre per hour speed limit rather than 50?  
6 What is the general proportion?

7 MR SAMUEL CHENG: Sorry, Mr Chairman, I'm afraid I don't  
8 have the information with me just off the cuff.  
9 However, in Hong Kong, for road sections allowing 70kph,  
10 we don't just have expressways.

11 Allow me to cite an example for you, sir. Say for  
12 example, along Gloucester Road westbound, part of it has  
13 a limit of 50, while other parts 70. In other words,  
14 for the speed limit of 70km/h, our buses would not be  
15 having too few in relation to such road sections, but  
16 I'm afraid I haven't got the percentage that you asked  
17 for.

18 CHAIRMAN: What's your off-the-cuff feeling? Are there more  
19 70 kilometre per hour roads that you travel on or  
20 50 kilometre per hour roads?

21 MR SAMUEL CHENG: Maybe Mr Chung, head of operations, is  
22 more familiar with this.

23 Mr Chung, please.

24 MR WILLIAM CHUNG: Mr Chairman, really, it would be  
25 difficult for me to give you an answer on the spot.

26

1 CHAIRMAN: Very well.

2 Yes, Mr Duncan.

3 Professor?

4 MEMBER LO: I'm just thinking about speed limit. Other than  
5 freeways, they should be all on 50, basically, mostly?  
6 For urban arterials, typically it's 50?

7 MR SAMUEL CHENG: I'm afraid that's not my understanding.  
8 Earlier on, I gave you the example of westbound  
9 Gloucester Road. It's not an expressway, but for  
10 certain parts of it, they have a speed limit of 70km/h.

11 MEMBER LO: One further question on the rapid deceleration  
12 and sudden braking. They don't depend on speed limits,  
13 so there should be no technical issues of implementing  
14 that.

15 MR SAMUEL CHENG: Sorry, in which way?

16 MEMBER LO: In case of sudden stopping, sudden braking,  
17 sudden acceleration, they should be independent of speed  
18 limits of the roads the buses are travelling on; they  
19 can be done without knowing speed limits?

20 MR SAMUEL CHENG: They are unrelated. Yes, we can monitor  
21 such scenarios. Say, for example, we have a bus and  
22 there is a need to step on the brake suddenly. It may  
23 not necessarily be a fault on the part of a bus captain.  
24 Say, for example, there may be a pedestrian stepping  
25 onto the road suddenly and then the bus captain has to

26

1 respond properly, which means stepping on the brake  
2 suddenly. If we start to collect all the information  
3 about sudden deceleration, it means that we have to  
4 follow up on such cases and we have to make enquiries  
5 with the bus captains, and that will mean quite a large  
6 amount of work and it would be rather time-consuming.

7 So what we are doing now is that the system does  
8 collect such information. In the event of a traffic  
9 accident or there is a complaint against us, then in the  
10 course of investigation, we will retrieve the data from  
11 the system.

12 Thank you.

13 CHAIRMAN: Mr Duncan.

14 MR DUNCAN: Thank you, Chairman. Just one other matter --

15 CHAIRMAN: I'm sorry, Mr Duncan.

16 MEMBER AUYEUNG: Sorry, Mr Duncan -- I just want to clarify  
17 one thing.

18 The 10 seconds report on speeding, is this report --  
19 sort of anything over 10 seconds generating a report --  
20 is this 10 seconds determined by your company or by the  
21 manufacturer?

22 MR SAMUEL CHENG: (Chinese spoken).

23 MEMBER AUYEUNG: So if there is a desire to change the  
24 10 seconds to 15 or five, it's doable, technically?

25 MR SAMUEL CHENG: I defer to Mr Chung, please.

26

1 MR WILLIAM CHUNG: Yes, indeed, this can be done.

2 MEMBER AUYEUNG: Thank you.

3 MR WILLIAM CHUNG: Let me say this, 10 consecutive seconds,  
4 when we discussed this with the unions, we got input  
5 from them, and they indicated that they do not look at  
6 the speedometer all the time. When they become aware of  
7 speeding, they have to react, but when they are behind  
8 the wheel, it would be hard for them to slam on the  
9 brakes to decelerate and they have to react. It would  
10 take time for them to make the adjustment. That was the  
11 discussion with the unions. That's one of the  
12 considerations why 10 seconds for over-speeding.

13 MEMBER AUYEUNG: Thank you.

14 Thank you, Mr Duncan.

15 CHAIRMAN: It is the case, is it not, that the legislation  
16 that deals with black boxes on PLBs prescribes a period  
17 of three seconds' consecutive speeding? Are you aware  
18 of that?

19 MR SAMUEL CHENG: We are not aware of that, sir.

20 CHAIRMAN: Perhaps that's something Mr Duncan can deal with  
21 in due course.

22 Yes, Mr Duncan.

23 MR DUNCAN: Thank you, Chairman.

24 Just before leaving the black boxes, one other  
25 point, if I may, Mr Cheng.

26

1           In the press release that I referred you to, the  
2           press release of NEC, the company stated that the system  
3           that they had installed, or were installing, would  
4           "overcome the 'ghost' GPS signal caused by the unique  
5           environment of narrow streets and skyscrapers in  
6           Hong Kong".

7           Do you remember reading that in their press release?

8       MR SAMUEL CHENG: Yes, I did, sir.

9       MR DUNCAN: Are you able to tell the committee as to whether  
10          that has been effective? Has that system coped  
11          adequately with the unique environment, narrow streets  
12          and tall buildings in Hong Kong, so that you don't get  
13          these "ghost" GPS signals? Has the system been  
14          effective in that respect?

15       MR SAMUEL CHENG: First of all, this press release was  
16          released by NEC. What they say there doesn't represent  
17          the stance of the CTB and NWFB.

18          As regards the accuracy of the system, how accurate  
19          it is, I would say that it is not 100 per cent accurate.  
20          It all depends on the road sections that the bus goes  
21          through, and the high-rises, the number of high-rises,  
22          whether there are any buildings with curtain walls; that  
23          would have a bearing on the accuracy of the GPS system.

24          I can tell you that it is not 100 per cent accurate,  
25          but the level of accuracy is acceptable to us though.

1 MR DUNCAN: Do I take it that this not regarded as a major  
2 problem by the company with the system?

3 MR SAMUEL CHENG: At the present moment, the system that we  
4 are using, we do not see any major problems at all.

5 MR DUNCAN: I said I would move to the matter of speed  
6 limiters.

7 CHAIRMAN: Before you do that, Mr Duncan -- Mr Cheng,  
8 presumably you have available a map which depicts all of  
9 the routes that your buses travel on. Is that the case?

10 MR SAMUEL CHENG: I defer to Mr Lit, my colleague, who is  
11 more familiar with this.

12 MR KENNETH LIT: Yes, Mr Chairman. In our system, in our  
13 interface, we can show all the routes on the map.

14 CHAIRMAN: Can you provide such a map to us, so that we can  
15 see every route that you travel? I'll tell you what  
16 I have in mind. Somebody must know what the speed  
17 limits are on the roads of Hong Kong, whether it's the  
18 Transport Department or the police or somebody else, and  
19 what I propose doing is being in a position to compare  
20 both your routes with speed limits.

21 So can you provide us with a map of your routes, all  
22 your routes?

23 MR KENNETH LIT: Most certainly, sir. However, Mr Chairman,  
24 it all depends on the data that you are looking for,  
25 because if we provide in hard copies, then you may not

26

1 be able to get what you want.

2 CHAIRMAN: What I'm seeking, as I suspect is obvious, is to  
3 know which roads you travel down. Somebody else could  
4 tell us what the speed limit is on those roads.

5 MR KENNETH LIT: I understand. No problem, sir.

6 CHAIRMAN: Thank you very much.

7 MR DUNCAN: Can I take you to your submission at page 26, so  
8 CTB-1, page 26.

9 MR SAMUEL CHENG: Yes, sir.

10 MR DUNCAN: The matter of the speed limiter is referred to  
11 there, two-thirds of the way down the page. So:

12 "When the vehicle speed reaches 70 [kilometres per  
13 hour], the speed limiter functions by restricting fuel  
14 supply to the engine even if the bus captain presses  
15 hard on the thottle. However, vehicle speed may exceed  
16 70 [kilometres per hour] on a downward slope."

17 Do you see that reference?

18 MR SAMUEL CHENG: Yes, sir.

19 MR DUNCAN: If we go to the following page, there's  
20 reference on that page to an active speed limiting  
21 system, ASLS, and it is stated:

22 "In the event that the speed of the bus exceeds  
23 70 [kilometres per hour] when travelling on a downward  
24 slope, the [system] will automatically apply the gearbox  
25 retarder and/or the service brake to limit the bus speed

26

1 to 70 [kilometres per hour]."

2 If I understand the submission correctly, it is  
3 planned to introduce that feature on new buses delivered  
4 from June of next year. Is that the position?

5 MR SAMUEL CHENG: I defer to Mr Li, director of engineering.

6 MR PAUL LI: Chairman, that's correct, sir.

7 MR DUNCAN: Is this a requirement of the Transport  
8 Department or is this an initiative of the company?

9 MR PAUL LI: With this system, we have discussions with the  
10 Transport Department and the working group, and we agree  
11 that for new buses that are delivered, we have this  
12 requirement.

13 Starting from next year, June, all the vehicles  
14 delivered will be equipped with this.

15 MR DUNCAN: When you say "the working group", is that the  
16 working group which was formed after the Tai Po accident  
17 in February of this year?

18 MR PAUL LI: That's correct, sir.

19 MR DUNCAN: So before that, had the company considered the  
20 question of this ASLS system?

21 MR PAUL LI: No, sir, not before that.

22 MR DUNCAN: So whose idea was it within the working group?  
23 Was it the company's idea? Was it the Transport  
24 Department's idea? Was it somebody else on the working  
25 group who came up with this proposal?

26

1 MR PAUL LI: That was something arising out of the  
2 discussion at the working group; Euro VI vehicles, they  
3 do have the technology to provide that.

4 MR DUNCAN: So it was the bus manufacturers who came up with  
5 this proposal?

6 MR PAUL LI: It was the working group. There was a request  
7 that was made to consult the manufacturers to ascertain  
8 whether this would be achievable, and they said that for  
9 Euro VI buses, it is doable.

10 CHAIRMAN: Who convened the working group?

11 MR PAUL LI: It was Transport Department, sir.

12 CHAIRMAN: Did they produce an agenda for the first meeting?

13 MR PAUL LI: There was, yes.

14 CHAIRMAN: Do you have a copy of the agenda?

15 MR PAUL LI: We can make this available afterwards, sir.

16 CHAIRMAN: So the answer is you do?

17 MR PAUL LI: Yes, we do.

18 CHAIRMAN: Were technological advances/devices identified in  
19 this agenda?

20 MR PAUL LI: Yes, on the agenda there are some suggestions  
21 regarding new technological devices.

22 CHAIRMAN: So this came from the Transport Department?

23 MR PAUL LI: Yes, sir.

24 CHAIRMAN: Thank you. Would you be kind enough to provide  
25 us with the agenda?

26

1 MR PAUL LI: Certainly.

2 CHAIRMAN: Thank you.

3 Yes, Mr Duncan.

4 MR DUNCAN: With regard to the possibility of retrofitting  
5 this facility, this is something which has been  
6 addressed in your second submission, at CTB-1, page 61.  
7 Do you see at 60 the heading number 8, "Speed limiters",  
8 and the entry:

9 "We have enquired with our bus suppliers on the  
10 technical feasibility and cost implications in  
11 retrofitting our buses with the [ASLS] system."

12 MR PAUL LI: Yes, sir.

13 MR DUNCAN: Thank you. And you see all the details that  
14 have been provided there.

15 First of all, with regard to the Dennis buses,  
16 I notice that the company apparently has 876 buses which  
17 are of the model E500 MMC, and it would, according to  
18 the company, be feasible to retrofit those buses with  
19 that facility.

20 What's the company's intention with regard to  
21 retrofitting that model?

22 MR PAUL LI: Your question again, sir?

23 MR DUNCAN: Is the company proposing to retrofit the ASLS  
24 system on its 876 Alexander Dennis E500 MMC buses?

25 MR PAUL LI: We need further details from the bus supplier

26

1           about the feasibility of retrofitting the device. We  
2           need the details.

3           Moreover, we haven't been told about the costs  
4           involved in retrofitting it on each and every bus. So  
5           we have yet to consider that.

6   MR DUNCAN: Is this a matter which is under consideration by  
7           the company?

8   MR SAMUEL CHENG: Not yet. As stated in our submission, we  
9           are told by them that it would be feasible, that is ADL  
10          thinks that it is feasible, but then it would require  
11          12 months' time to develop the product.

12          Therefore, at this moment, they cannot provide the  
13          retrofitting cost at this stage. Before we know how  
14          much it will cost to retrofit such a device per us, we  
15          are not able to give an answer as to whether we will  
16          consider it or not. First of all, we need to know the  
17          cost before we can consider the matter.

18          Thank you.

19   MR DUNCAN: So, to the extent that you are waiting on the  
20          cost, it is a matter still under consideration; is that  
21          correct?

22   MR SAMUEL CHENG: Yes.

23   MR DUNCAN: What about the Volvo B9 buses, 117, an entry of  
24          "Feasible", with the asterisk we can see over the page,  
25          "Volvo requires 18 to 24 months for product  
26

1 development"? Is this something that is under  
2 consideration by the company?

3 MR SAMUEL CHENG: Given the cost indicated, if they are able  
4 to deliver the product and if we are happy with the test  
5 result, we are going to retrofit it.

6 MR DUNCAN: How long would a bus like this, a B9, a Volvo  
7 bus, for example, be in service?

8 MR SAMUEL CHENG: Our buses would be put into service for  
9 17 years or more. Of course, I must supplement. Here  
10 we talk about 117 B9 buses. They are around three years  
11 old. In other words, we can use them for another  
12 14 years.

13 Thank you.

14 MR DUNCAN: Just one other matter on speed limiters, if  
15 I could, before the morning break.

16 Could I ask you to go to TD-1 at page 94.

17 I don't know whether you've seen it --

18 MR SAMUEL CHENG: Yes, I see it.

19 MR DUNCAN: I'm not sure whether you have read this  
20 document, Mr Cheng. Let me explain what it is.

21 MR SAMUEL CHENG: Thank you.

22 MR DUNCAN: It's part of the submission received by the  
23 committee from the Transport Department, which is  
24 headed, "Application of new devices or technology on  
25 franchised buses", and the purpose is described as:

26

1            "This paper gives an account of the feasibility and  
2            desirability for application of new devices or  
3            technology on franchised buses."

4            Have you seen this document before?

5            MR SAMUEL CHENG: Sorry, we haven't read it.

6            MR DUNCAN: Right. In that case, what I might do, if the  
7            chairman is minded to take the morning break -- I just  
8            refer you to page 101 of the bundle, and read the  
9            section (c) which is headed, "Speed control by Global  
10           Positioning System ('GPS') or geo-fencing". Would you  
11           be able to do that during the course of the break, read  
12           paragraphs 19 and 20?

13           MR SAMUEL CHENG: Can you also show paragraph 20 for us? So  
14           two pages. In that case, it means I can't read  
15           paragraph 19. Would you mind giving me a hard copy?

16           CHAIRMAN: I'm sure you can be provided with a physical copy  
17           so that you can see the context.

18           MR SAMUEL CHENG: Thank you, Mr Chairman.

19           MR DUNCAN: It deals with the situation where there is no  
20           speed limitation at the moment. In other words, a bus  
21           travelling, say, 60 kilometres per hour in  
22           a 50 kilometre zone, it deals with that situation,  
23           something which is not covered currently by the speed  
24           limiters in the buses, and that's what I'm interested  
25           in.

26

1           What I would ask you to do, perhaps, is read to  
2           yourself paragraphs 19 and 20 of that paper, which you  
3           will see on pages 101 and 102 of the bundle.

4       MR SAMUEL CHENG: Yes, we will do so.

5       MR DUNCAN: Thank you.

6       CHAIRMAN: We will take a 20-minute break now. Thank you.

7       (11.37 am)

8                               (A short adjournment)

9       (11.59 am)

10      CHAIRMAN: Yes, Mr Duncan.

11      MR DUNCAN: Thank you, Chairman.

12           Mr Cheng, have you had a chance of reading that  
13      extract?

14      MR SAMUEL CHENG: Yes, I did, sir.

15      MR DUNCAN: This is the matter of speed control by GPS, or  
16      as is it's sometimes called, geo-fencing. Is this  
17      something which has been discussed in the working group?

18      MR SAMUEL CHENG: I defer to my colleague, Mr Chung, if  
19      I may, please.

20      MR WILLIAM CHUNG: Yes, we did.

21      MR DUNCAN: First of all, if this sort of system was to be  
22      implemented, there would be the requirement again for  
23      the digital mapping; is that correct?

24      MR WILLIAM CHUNG: Correct.

25      MR DUNCAN: At paragraph 20, the Transport Department has  
26

1           referred to the fact that all of the bus manufacturers  
2           have given the opinion that the technology was being  
3           controlled by GPS is theoretically feasible.

4           The Department say:

5           "However, they do have concerns on the accuracy of  
6           the signals as it would be affected by the high-rise  
7           buildings of Hong Kong."

8           Do you see that?

9   MR WILLIAM CHUNG:   Yes.

10   MR DUNCAN:   Is this consideration to go no further, or is  
11           somebody going to be looking into whether those concerns  
12           about the GPS system are justified and, if so, whether  
13           they can be overcome?

14   MR WILLIAM CHUNG:   Our view is that we know that the system  
15           is available in the market.   However, in the past, when  
16           we worked on the black box, the accuracy of the GPS  
17           signals was indeed a matter of concern to us.

18           So currently we think that we need to get some  
19           devices from the suppliers and we need to test the  
20           devices so as to ascertain the functionality as well as  
21           their accuracy first.   So it's not a matter that we are  
22           ruling it out at this moment.

23   MR DUNCAN:   So can we take it that that's under active  
24           consideration?

25   MR WILLIAM CHUNG:   Yes, you may say so.

1 MR DUNCAN: And who is considering this? Is it your  
2 company? Is it all of the bus companies, or what?

3 MR WILLIAM CHUNG: It was discussed within the working group  
4 and we said that we would consider it. Other companies  
5 also said they would consider it.

6 MR DUNCAN: Okay. Now I'm going to move from speed  
7 limiters, please, to another of the devices. This is  
8 the electronic stability control.

9 You will see reference to this in CTB-1 at page 26,  
10 please.

11 MR SAMUEL CHENG: Yes, I see that.

12 MR DUNCAN: At the bottom of page 26, there's reference to  
13 the company planning to include the electronic stability  
14 control system on new buses for delivery from June 2019  
15 onwards.

16 And at page 27, we can see a description of the two  
17 aspects of the mechanism. First of all, dynamic  
18 stability control, and then roll-over prevention.

19 Is this something which has been decided as a result  
20 of the working party discussion?

21 MR SAMUEL CHENG: I would like to defer to Mr Li.

22 MR PAUL LI: Thank you, Chairman. Yes, indeed, that's true.

23 MR DUNCAN: So this was not something which was considered  
24 at all prior to the formation of that working group; is  
25 that correct?

26

1 MR PAUL LI: Correct.

2 MR DUNCAN: The proposal is to have this installed on new  
3 buses supplied after June 2019. Has the possibility of  
4 retrofitting this facility onto existing buses been  
5 considered?

6 MR PAUL LI: We are now asking our bus suppliers to examine  
7 our buses to see whether retrofitting such systems would  
8 be feasible. That is, whether it is technically  
9 feasible.

10 We would also like to know about the cost  
11 implications for the retrofitting. We are awaiting  
12 replies from the bus suppliers.

13 MR DUNCAN: Have those sorts of requests been made in  
14 writing of the bus suppliers?

15 MR PAUL LI: Yes.

16 MR DUNCAN: I wonder if you could provide a couple of  
17 samples of that correspondence also to the committee.

18 MR PAUL LI: Mr Chairman, we will go back and look for the  
19 relevant records.

20 MR SAMUEL CHENG: Sorry, Mr Chairman, Mr Li may not be too  
21 certain as to whether we have the correspondence. We  
22 need to go back to check whether we did have the  
23 correspondence.

24 CHAIRMAN: Yes, please provide an answer in writing in due  
25 course. If you have it and you are prepared to supply  
26

1           us with a copy, please do so.

2       MR DUNCAN: Thank you.

3           Moving to another of the devices, TD-1/103, could  
4       I bring your attention to that page, please.

5       MR SAMUEL CHENG: Yes, I see it.

6       MR DUNCAN: This, Mr Cheng, is also part and parcel of that  
7       document I asked you to look at just before the break,  
8       the Transport Department document, "application of new  
9       devices or technology on franchised buses".

10           At page 103, from paragraphs 23 through to 26, there  
11       is reference to this sort of facility, collision  
12       prevention and lane-keeping devices.

13           I wonder if you could just read through that to  
14       familiarise yourself with what's contained in  
15       paragraphs 23 to 26, please.

16       MR SAMUEL CHENG: I think Mr Chung, my colleague, can answer  
17       the question, because he has already read it.

18       MR DUNCAN: Thank you.

19           Mr Chung, if I could then ask you to look at  
20       paragraph 26. It records the fact that "the ... bus  
21       operators do not consider that the installation of  
22       collision prevention and lane-keeping devices are  
23       effective for enhancing the safe operation of franchised  
24       bus services", and I believe this for the reasons that  
25       you can see earlier in paragraph 26. Is that the case?

26

1 MR WILLIAM CHUNG: Correct.

2 MR DUNCAN: So do I understand correctly then that as far as  
3 the company is concerned, it is not proposing to pursue  
4 that possible device any further?

5 MR WILLIAM CHUNG: Let me first of all explain. Such  
6 a device, in the year 2014, our company did carry out  
7 a test of such devices. This is called Mobileye.  
8 Mobileye is a driving assisting device. At that time,  
9 it was mainly applied to private cars. What was  
10 involved was that they would use the visual aid to  
11 detect what is in front and then the system will carry  
12 out an analysis and then calculations would be made as  
13 to the distance between the subject vehicle and the  
14 preceding one and the following one, and then come up  
15 with an idea about the time of collision, then warning  
16 signals would be sent to the driver.

17 At the time we fitted this Mobileye on three of our  
18 buses, we carried out a trial scheme for four months.  
19 We made arrangements for representatives of different  
20 trade unions, that is bus captain representatives, as  
21 well as 50-plus bus captains to drive such buses, that  
22 is three of them, in their normal service, and after  
23 that they were asked to fill out a questionnaire for us,  
24 telling us what they think about this device called  
25 Mobileye.

26

1           So the findings were such that some of the alerts  
2           were not quite suitable for use on buses. Say, for  
3           example, when the bus pulls up at a bus bay, since it is  
4           detected that there are people in front of the bus, as  
5           you know there are passengers waiting at the bus stop,  
6           so when people are detected then there will be an audio  
7           signal. Well, in fact the driver hasn't yet  
8           straightened the bus and so a signal would also be sent.

9           Moreover, when the bus is stopped too close to the  
10          preceding bus, this will be a signal to be sent out in  
11          the case of when the traffic is slow. As a result, it  
12          means that the warning signals are emitted many times  
13          during a journey. 46 per cent of the bus captains told  
14          us in the questionnaire that there were too many warning  
15          signals and it was causing a nuisance to their driving,  
16          and as a result they ignored the signals, and then  
17          50 per cent of the drivers told us that the Mobileye  
18          didn't help in their safe driving.

19          So having considered the functions of this Mobileye  
20          and having taken into account the views of our bus  
21          captains, moreover there is a high cost involved in the  
22          installation, we as a result decided against following  
23          up on the idea.

24          So that's our experience. We shared our experience  
25          at the meeting.

1 Thank you.

2 MR DUNCAN: So that exercise that was conducted in 2014, was  
3 that of your own initiative or was that something  
4 requested by the Transport Department?

5 MR WILLIAM CHUNG: At that time, it was our own initiative.  
6 This is because the supplier approached us and told us  
7 about this safety device, saying that it could help to  
8 reduce the number of traffic accidents. Therefore we on  
9 our own carried out this trial scheme.

10 MR DUNCAN: Was this supplier one of the bus manufacturers  
11 or was it independent of the bus manufacturers?

12 MR WILLIAM CHUNG: An independent supplier, the device  
13 supplier.

14 CHAIRMAN: Who is that?

15 MR WILLIAM CHUNG: It is an Israeli company, Neshtech  
16 Pty Ltd. There is an agent in Hong Kong.

17 CHAIRMAN: Thank you.

18 MR DUNCAN: Moving down, still on the Transport Department's  
19 document at page 105 --

20 CHAIRMAN: Before you move on -- were the results of your  
21 testing of this device produced into some paper which  
22 gave an opportunity for the decision to be made?

23 MR WILLIAM CHUNG: Yes, Chairman. We have a report as  
24 a result of the test.

25 CHAIRMAN: Are you in a position to provide us with a copy  
26

1 of that report, the salient features as to why it was  
2 not thought to be useful?

3 MR WILLIAM CHUNG: Most certainly, sir.

4 CHAIRMAN: If you could provide us with that, we would be  
5 grateful.

6 Yes, Mr Duncan.

7 MR DUNCAN: Thank you, Chairman.

8 Moving down page 105 to another of the safety  
9 devices, this time the driver monitoring device. Can  
10 you familiarise yourselves with paragraphs 27 and 28 of  
11 that document, please.

12 MR SAMUEL CHENG: My colleague Mr Li can take the questions.

13 He has already done the reading. Thank you.

14 MR DUNCAN: Thank you. Can I ask you this: is the company,  
15 either Citybus or New World, one of the two operators  
16 who have advised that they would install a system of  
17 this nature in four of their buses for a trial of three  
18 months, tentatively starting from early May of this  
19 year?

20 MR PAUL LI: No, sir.

21 MR DUNCAN: So there's been no commitment from the company  
22 to become involved in this system?

23 MR PAUL LI: Correct. We haven't made any commitment, sir.

24 MR DUNCAN: Have you decided against it?

25 MR PAUL LI: No. We are enquiring about the three  
26

1 suppliers, we are liaising with the suppliers, and  
2 trying to get hold of some information there.

3 MR DUNCAN: Can I bring your attention to your submission at  
4 page 62. It's CTB-1, page 62.

5 At paragraph 9, have you set out the suppliers with  
6 whom you have already met with regard to the potential  
7 for installing this facility?

8 MR PAUL LI: Yes, correct.

9 MR DUNCAN: What is the current situation with regard to  
10 this study?

11 MR PAUL LI: The latest situation is Consolidated Parts  
12 & Accessories Sales Centre Ltd, they gave us  
13 a demonstration of the product, but the videoing process  
14 is not sufficiently sophisticated. It's not good  
15 enough, and in June they are going to be coming again  
16 for the demonstration of the videoing process.

17 The second, Guardian, they said they would put  
18 forward a proposal to make available 10 devices on loan  
19 and will give us a quotation. We have received  
20 a quotation and it is being considered at the moment.

21 The third supplier, BYD Auto Industry Co Ltd, they  
22 haven't shown us any products yet. They are going to be  
23 showing us some products for testing.

24 Other than those three, we will explore whether  
25 there are other devices available.

26

1 MR DUNCAN: I would like to refer you, please, to the  
2 website of the Ming Pao newspaper, which carries  
3 an article relevant to this particular matter. This is  
4 not in the bundle.

5 CHAIRMAN: Where do we find that?

6 MR DUNCAN: This is not in the bundle, Mr Chairman, but it's  
7 available on the screen now, I believe, with  
8 a translation.

9 CHAIRMAN: Yes.

10 MR DUNCAN: Could you just read through this publication on  
11 the website dated 27 May. Could you read that to  
12 yourself, please.

13 MR WILLIAM CHUNG: We've seen it, sir.

14 MR DUNCAN: Have you seen this article before?

15 MR WILLIAM CHUNG: Yes, I was given this yesterday.

16 MR DUNCAN: Are you aware, because of that article, that  
17 it's proposed to introduce some sort of monitoring  
18 device for the benefit of the bus driver on the buses  
19 which will ply between Hong Kong, Macau and Zhuhai, on  
20 the new bridge? Are you aware of that?

21 MR WILLIAM CHUNG: Yes, I am.

22 MR DUNCAN: Were you aware of that before you read this  
23 article?

24 MR WILLIAM CHUNG: I learnt about it from the news.

25 MR DUNCAN: Do you have any plan with regard to exploring  
26

1           what this system, apparently researched and developed in  
2           the mainland, might provide for the company?

3       MR WILLIAM CHUNG: We will see whether we can get in touch  
4           with the shuttle bus company for this  
5           Hong Kong-Zhuhai-Macau Bridge and see if we can get more  
6           information from them about the system.

7       MR DUNCAN: Are you able to give the committee any idea as  
8           to when it's likely that you will make a decision on  
9           this sort of device? When do you think you will be in  
10          a position to make a decision?

11      MR SAMUEL CHENG: At the moment, we haven't been able to get  
12          in touch with the relevant company regarding the  
13          Hong Kong-Zhuhai-Macau Bridge, and we are not sure about  
14          all the actual operational details. We are not sure  
15          about the cost implications. So, at this present stage,  
16          I find it difficult to say precisely when that decision  
17          will be taken, until such time as we have all the  
18          relevant information, before we can consider it and take  
19          a decision.

20                Thank you.

21      MR DUNCAN: When was it that the company first started to  
22          consider the possibility of utilising this sort of  
23          facility?

24      MR SAMUEL CHENG: We haven't started considering it yet, in  
25          the absence of any information.

26

1 MR DUNCAN: Right, but you made contact with various  
2 suppliers. When did you make contact with those  
3 suppliers?

4 MR SAMUEL CHENG: Your question is about the Hong  
5 Kong-Zhuhai-Macau Bridge company, or which part are you  
6 referring to?

7 MR DUNCAN: The earlier companies referred to in your  
8 submission.

9 MR SAMUEL CHENG: I defer to Mr Li, please.

10 MR PAUL LI: It was about April this year.

11 MR DUNCAN: So, again, was that as a result of the  
12 discussions amongst the working group?

13 MR PAUL LI: Yes, correct, sir.

14 MR DUNCAN: And had it not been considered before the  
15 formation of the working group?

16 MR PAUL LI: No, sir.

17 MR DUNCAN: Could I ask you now, moving to another safety  
18 matter, to go to TD-1.

19 CHAIRMAN: Before you do that and before we move on -- at  
20 page 63 of your second submission, CTB-1, page 63, it is  
21 stated in that paragraph that Guardian, I think the  
22 Australian manufacturer of the device, indicated that  
23 Singapore Land Transport Authority had stipulated that  
24 the device be deployed in their new public buses.

25 Have you contacted the Singapore Land Transport  
26

1 Authority for any information?

2 MR PAUL LI: We were made available this information through  
3 Guardian. We haven't got in touch with SLTA.

4 CHAIRMAN: Thank you.

5 MR DUNCAN: Could I ask you please to go to TD-1/195.

6 MR SAMUEL CHENG: Yes, sir.

7 MR DUNCAN: You will probably recognise this, Mr Cheng, as  
8 part of --

9 MR SAMUEL CHENG: Yes, sir.

10 MR DUNCAN: -- the forward planning programme of Citybus  
11 that you have provided to the committee. It's that part  
12 of the forward planning programme which is concerned  
13 with the topic of bus safety, item number 5. Do you see  
14 that?

15 MR SAMUEL CHENG: Yes, sir.

16 MR DUNCAN: Could I bring your particular attention to  
17 page 202 of the bundle.

18 MR SAMUEL CHENG: Yes, sir.

19 MR DUNCAN: Thank you. In particular, item 5.13,  
20 "Feasibility of installation of seat belts on (a) all  
21 seats and (b) all seats on the upper deck on new buses".

22 Do you see that entry?

23 MR SAMUEL CHENG: Yes, sir.

24 MR DUNCAN: If I could read it quickly:

25 "It is feasible to install seat belts on all seats  
26

1 or on all seats on the upper deck. However, our  
2 observation shows that very few people wear the seat  
3 belts currently available at the exposed seats. Without  
4 any legislation to mandate the wearing of passenger seat  
5 belts on a franchised bus and the enforcement authority  
6 to strictly enforce the legislation, installing seat  
7 belts on all seats will be a waste of resources because  
8 vast majority of passengers will not wear seat belts  
9 even though they are provided."

10 That was a statement that you made in the latest  
11 forward planning programme for Citybus.

12 Could you now look at, please, TD-1/95, again the  
13 same document, and the heading on this particular page,  
14 "Installation of seat belts for all passenger seats".

15 Do you see that entry?

16 MR SAMUEL CHENG: Sorry, which paragraph, please?

17 MR DUNCAN: TD-1, page 95.

18 CHAIRMAN: 95, not 195.

19 MR DUNCAN: TD/95, sorry.

20 MR SAMUEL CHENG: Yes, I've got it.

21 MR DUNCAN: I wonder if you or one of your colleagues could  
22 read through what's contained in paragraphs 5 to 9 of  
23 this matter.

24 CHAIRMAN: This is paper 8 of the Transport Department's  
25 submissions to the committee, Mr Duncan.

1 MR SAMUEL CHENG: My colleague is reading it.

2 MR DUNCAN: Can I ask you this question: has this been  
3 a matter which has been discussed amongst the working  
4 group?

5 MR SAMUEL CHENG: Yes, it was.

6 MR DUNCAN: If I could bring your attention to paragraph 7  
7 in particular. Is it the case that the company has  
8 indicated that it now agrees to incorporate the  
9 requirement for all new buses to be equipped with seat  
10 belts for all passengers?

11 MR PAUL LI: Yes, our company has agreed that, starting from  
12 June 2019 onwards, those buses delivered should get the  
13 seat belts, that's the three-point safety seat belts.

14 MR DUNCAN: As far as retrofitting seat belts into existing  
15 buses, have you read the content of paragraph 8 of the  
16 document?

17 CHAIRMAN: Before you embark on retrofitting, might I ask  
18 this question. In your earlier answers, you said that  
19 it was a waste of resources to fit seat belts because  
20 the vast majority of passengers simply wouldn't wear  
21 them, so that it required enforcement. Given that you  
22 have now indicated that you have agreed to incorporate  
23 them, what view do you have about whether or not this is  
24 a waste of resources if there isn't enforcement?

25 MR SAMUEL CHENG: If it is not mandated by law, then it is  
26

1 impossible to enforce the law. Currently, there is no  
2 requirement that when you are on a bus you have to put  
3 on your seat belt. Even if it is mandated by law, in  
4 the absence of law enforcement, I'm afraid it is also  
5 a waste of resources. We maintain the same view.

6 CHAIRMAN: Have you raised this view with the Transport  
7 Department?

8 MR SAMUEL CHENG: We did. Our colleagues did raise it with  
9 the TD.

10 CHAIRMAN: And what, if any, response did you get?

11 MR SAMUEL CHENG: I can defer to Mr Chung. He was there at  
12 that time.

13 CHAIRMAN: Thank you.

14 MR WILLIAM CHUNG: Mr Chairman, at that time, the TD said  
15 that it should be fitted there and then it is up to the  
16 passenger to choose whether to put on the seat belt. If  
17 the passenger worries for his safety, he will have  
18 a seat belt available for use, but if it is not there,  
19 then even if he is worried, he can't have one to use.

20 CHAIRMAN: Thank you.

21 MR DUNCAN: Have you actually raised with the Transport  
22 Department whether they would endeavour to have the  
23 appropriate legislation passed?

24 MR WILLIAM CHUNG: We did mention to the Transport  
25 Department, that is, if there isn't any statutory  
26

1 backup, then the seat belt may very well be a waste.

2 But then the TD didn't promise that there would  
3 certainly be the passage of the relevant legislation.

4 MR DUNCAN: Can I ask you to refer, please, to TD-2 at  
5 page 58.

6 You will see there an extract from the Public Bus  
7 Services Ordinance, and in particular section 36 of the  
8 Ordinance. Do you see that?

9 MR SAMUEL CHENG: Yes.

10 MR DUNCAN: Are you familiar with that provision, Mr Cheng?

11 MR SAMUEL CHENG: No, I am not.

12 MR DUNCAN: Is this the first time you have come across it?

13 MR SAMUEL CHENG: Yes, the first time.

14 MR DUNCAN: You see that it --

15 CHAIRMAN: Take your time to read it so that you understand  
16 what you are being asked.

17 MR SAMUEL CHENG: Yes, I have taken a look of that.

18 MR DUNCAN: Do you understand that it provides that subject  
19 to the Ordinance and the franchise, the grantee may make  
20 by-laws for a number of matters which are therein set  
21 out?

22 MR SAMUEL CHENG: Yes, I read it.

23 MR DUNCAN: Has the company ever considered passing by-laws  
24 pursuant to this provision?

25 MR SAMUEL CHENG: In relation to the making of by-laws and  
26

1 the related laws involved, I'm not familiar with that,  
2 and therefore I'm afraid I cannot give you an answer,  
3 that is, whether we could consider and whether we would  
4 make the by-laws, because we haven't considered this  
5 particular area.

6 Thank you.

7 MR DUNCAN: Is the behaviour of passengers on your buses  
8 sometimes a matter of concern to the company?

9 MR SAMUEL CHENG: Which aspect do you mean?

10 MR DUNCAN: In their abuse of drivers, verbal abuse of  
11 drivers. Does that happen from time to time?

12 MR SAMUEL CHENG: Yes, it did happen.

13 MR DUNCAN: Do you think that the company would be better  
14 equipped to cope with that situation if it had its own  
15 by-laws which itself could enforce?

16 MR SAMUEL CHENG: I'm not familiar with things like by-laws  
17 as well as what you mentioned. That is, with the  
18 by-laws, we can then enforce the law. I don't know how  
19 it will work. In particular, law enforcement. Our bus  
20 captains would not know how to enforce the law.  
21 Moreover, if it is left to the bus captain to enforce  
22 the law, then all the more there will be a greater  
23 conflict between the bus captain and the bus passengers.  
24 There is only one bus captain on board. The rest are  
25 all bus passengers. He is on his own.

26

1 MR DUNCAN: Do you have any bus inspectors?

2 MR SAMUEL CHENG: Yes, we do have bus inspectors, but we  
3 won't have a bus inspector on each and every bus. Bus  
4 inspectors are there to monitor the work performance of  
5 our bus captains. Moreover, at the bus terminus, bus  
6 inspectors also carry out their work.

7 MR DUNCAN: Are you aware of the fact that the Mass Transit  
8 Railway has its own by-laws?

9 MR SAMUEL CHENG: I've heard about that but I don't know  
10 about the details.

11 MR DUNCAN: If seat belts were installed on all buses, and  
12 if passengers refuse to wear a seat belt, do you think  
13 that by-laws passed by the company might be able to  
14 assist with regard to enforcement?

15 MR SAMUEL CHENG: I believe our bus captains do not have the  
16 ability to enforce it, because if the bus passenger  
17 insists on not wearing the seat belt, first of all, the  
18 passengers are seated on the upper deck; it is  
19 impossible for the bus captain to see whether each and  
20 every passenger has worn a seat belt. Even if he can,  
21 it means he has to stop the bus and then the bus captain  
22 has to turn off the engine.

23 Now, for a public bus, if the engine is on, it is  
24 impossible for the bus captain to leave his cabin, so he  
25 has to switch off the engine, he has to walk upstairs,

26

1 identify the passenger not wearing the seat belt, and  
2 then ask him to do it. If the passenger refuses to do  
3 it, it means then, right on the spot, there will be  
4 a confrontation between the passenger and the captain.  
5 Our service will be affected, and the bus captain may  
6 even have a fight with the bus passenger.

7 So I don't think our bus captain can actually  
8 enforce the law.

9 Thank you.

10 MR DUNCAN: The bus inspectors whom you say are there just  
11 to monitor the driving of the bus, how many bus  
12 inspectors are employed in that capacity?

13 MR SAMUEL CHENG: First of all, let me correct a fact.

14 Inspectors don't just go to monitor the driving of bus  
15 captains. Monitoring of bus driving is one of the  
16 duties of the bus inspectors. Bus inspectors are at the  
17 frontline to manage the bus operation.

18 As to how many bus inspectors we have and what they  
19 do, I would like to defer to Mr Chung, my colleague.

20 MR WILLIAM CHUNG: Thank you, Mr Chairman.

21 We have more than 100 inspectors, and they have  
22 different areas of work. Some will be in the control  
23 centre. Others are on the road, making their rounds.  
24 They may be at the bus terminus, assisting the  
25 passengers or maintaining order.

26

1           We have a thousand or more buses on the roads. It  
2           is impossible for the inspectors to be on hand, if  
3           anything happens, to give assistance to the drivers.  
4           The MTRC has the by-laws but there is a difference here.  
5           For the MTR stations, they have a certain number of  
6           staff who can offer assistance. If anything happens on  
7           board the train, their drivers will be driving into the  
8           station, into the platform, to seek assistance. But for  
9           our bus captains, if anything happens, like we said, he  
10          cannot drive the bus to look for the inspector. If  
11          a dispute has already occurred, then this simply cannot  
12          happen.

13                So there is a bit of difference between the two.

14                Thank you.

15       MR DUNCAN: If we go back to the Transport Department  
16       document -- I had you at page 96 of the bundle,  
17       paragraph 7, which is concerned with seat belts on new  
18       buses.

19                In paragraph 8, the question of retrofitting seat  
20       belts on seats of existing buses is raised, and at the  
21       end of that paragraph there's an indication that the  
22       franchised bus operators will further study this  
23       proposal.

24                Is this something which is under study by the  
25       company?

1 MR SAMUEL CHENG: I defer to Mr Li, please.

2 MR PAUL LI: Our company is consulting the suppliers  
3 regarding the feasibility of retrofitting the existing  
4 buses with seat belts. The preliminary reply is that  
5 for ADL buses, post-2013, buses in 2013 and post-2013,  
6 the upper deck seats can be retrofitted. But we do need  
7 to have structural reinforcement and all the seats have  
8 to be replaced, because the existing seats cannot be  
9 used for the retrofitting purposes.

10 The preliminary cost, estimated cost, is for each  
11 bus, it would be 15,000 to 20,000 pounds per vehicle.  
12 We estimate that we have 1,100 buses in a fleet that  
13 belong to this category or this model. If retrofitting  
14 has to happen, the price tag is going to be \$180 million  
15 to \$240 million. That's a vast sum of money, and some  
16 money will be wasted.

17 CHAIRMAN: It will be wasted because passengers won't use  
18 the seat belts?

19 MR PAUL LI: Correct, sir, because we noticed, for our  
20 existing buses, for the exposed seats, we do have the  
21 three-point seat belts available, but we noticed the  
22 passengers can't be bothered putting on the seat belts.

23 MR DUNCAN: Has the company in the past received any form of  
24 subsidy from the government authorities?

25 MR PAUL LI: In the past, the government or the EPD in fact  
26

1 subsidised the installation of some emission-reduction  
2 devices. And there were some hybrid vehicles, three,  
3 that were funded for trial purposes.

4 Also, there are 10 single-decker buses, electric  
5 buses, that were tested.

6 Thank you, sir.

7 MR DUNCAN: We have seen that a number of these initiatives  
8 for safety devices or improvement to safety devices have  
9 been raised as a result of the working group which has  
10 been set up.

11 In the course of those deliberations, has it  
12 occurred to the company to raise with the government the  
13 possibility of subsidies being made available in order  
14 to meet some of the cost of what might be regarded as  
15 improved safety provisions?

16 MR SAMUEL CHENG: We never talk to the government, but if  
17 the government is prepared to offer subsidy with a view  
18 to enhancing safety, we will work on that.

19 MR DUNCAN: Why would you never talk to the government about  
20 this?

21 MR SAMUEL CHENG: We didn't know that we could ask for  
22 subsidy from the government.

23 MR DUNCAN: I want to ask you just a few questions, please,  
24 about the disciplinary process, to which reference has  
25 been made already. If I could ask you in that respect,  
26

1           please, to turn up page 39 of the CTB-1 bundle. So  
2           CTB-1 at page 39.

3       MR SAMUEL CHENG: Yes, sir.

4       MR DUNCAN: We can see reference to this at the bottom of  
5           the page, (b), under the heading "Background checks and  
6           penalties for traffic convictions":

7               "(b) Our service quality department is responsible  
8           for administering disciplinary sanctions for any  
9           misconduct by bus captains, as per the guidelines set  
10          out in the bus captain manual."

11           Then there is further detail provided to the  
12          committee with regard to the disciplinary process.

13           Now, the reference to "the bus captain manual",  
14          could we just turn this up, please. CTB-2 at page 85.

15       CHAIRMAN: Which year of the manual is that, Mr Duncan?

16       MR DUNCAN: 2018, Mr Chairman.

17       CHAIRMAN: Thank you.

18       MR DUNCAN: Thank you.

19           We have extracts from the bus captain's handbook at  
20          page 85, and a translation of the extracts from  
21          page 169-1.

22           If I could ask you to look, please, at the list of  
23          contents, which I believe you will see in original  
24          version at page 87, and in the translation at 169-3.

25           Are you at the list of contents?

26

1 MR SAMUEL CHENG: I see them.

2 MR DUNCAN: Thank you.

3 Would you agree that this is a very long and a very  
4 detailed document?

5 MR SAMUEL CHENG: Yes, sir.

6 MR DUNCAN: And the English version -- both versions, we  
7 have seven different sections, with a number of  
8 different paragraphs in each section.

9 What steps are taken by the company to ensure that  
10 a bus captain is familiar with all the provisions in the  
11 handbook?

12 MR SAMUEL CHENG: I defer to Mr Chung, please.

13 MR WILLIAM CHUNG: In this bus captain's manual, when they  
14 first join the induction training, they are briefed on  
15 most of the details of this handbook, and in the  
16 refresher training we also brief them on the details  
17 again. So this handbook is there to facilitate them,  
18 after attending all these training courses, to go into  
19 detail about them. If they don't remember anything,  
20 they can go back to this manual.

21 Thank you.

22 MR DUNCAN: In answer to the chairman, I indicated that this  
23 particular handbook bears the date of April of this  
24 year. When was the previous version of this issued?

25 MR WILLIAM CHUNG: The previous version was July 2017.

26

1 MR DUNCAN: Is this handbook reviewed from time to time?

2 MR WILLIAM CHUNG: Yes, sir.

3 MR DUNCAN: How often is that?

4 MR WILLIAM CHUNG: There is no fixed time frame, no fixed  
5 cycle. It depends on whether there are changes that  
6 have to be added or made.

7 MR DUNCAN: Could you give the committee some idea as to how  
8 many bus captains have been subjected to a disciplinary  
9 process, say in the last 12 months?

10 MR SAMUEL CHENG: Well, at first we thought we will be asked  
11 questions about driving safety, so we haven't prepared  
12 the information about the number of disciplinary  
13 actions. We can certainly provide the information  
14 afterwards.

15 CHAIRMAN: Yes, please do so.

16 MR DUNCAN: Thank you.

17 Mr Chairman, that would be a convenient moment, if  
18 it suits the committee.

19 CHAIRMAN: Yes, it does.

20 We will now adjourn and resume the hearing at 2.30  
21 this afternoon. Thank you.

22 (1.01 pm)

23 (The luncheon adjournment)

24 (2.30 pm)

25 CHAIRMAN: Good afternoon.

26

1 Yes, Mr Duncan.

2 MR DUNCAN: Thank you, Chairman.

3 Mr Cheng, I would like to ask you a few questions,  
4 please, arising out of the 2018 Guidelines on Bus  
5 Captain Working Hours, Rest Times, and Meal Breaks.

6 You will find the actual guidelines at CTB-2 at  
7 page 2, and the previous guidelines you will find, if  
8 you want to refer to those, at TD-5 at page 1556.

9 But just for the ease of this afternoon's questions,  
10 I'm having distributed what is a comparison table of the  
11 various guidelines, which seeks to compare the  
12 guidelines as they evolved between 2004 and 2018.

13 So could I perhaps ask you just to have a look at  
14 that chart, first of all. You should be looking at  
15 a document which is headed "Comparison table of the  
16 guidelines", with a date of 4 May 2018. Do you have  
17 that in front of you?

18 MR SAMUEL CHENG: Yes.

19 MR DUNCAN: Thank you.

20 What I would like to do first is just identify some  
21 of the more important changes which have been made  
22 between the guidelines passed in this year with those  
23 passed back in 2010. Do you follow that?

24 MR SAMUEL CHENG: Yes.

25 MR DUNCAN: Thank you.

26

1           What I would like to do first of all, on the chart,  
2           is bring to your attention the third entry down on the  
3           page, the maximum driving hours. Do you see that entry?

4       MR SAMUEL CHENG: Yes.

5       MR DUNCAN: We can see the change, that as far as maximum  
6           driving hours are concerned, the new guideline is that  
7           it should be 10 hours in a shift, as opposed to what  
8           was, in the 2010 guidelines, as 11 hours in a working  
9           day.

10           Do you see that difference, first of all?

11       MR SAMUEL CHENG: Yes, I can see that the wordings are  
12           different.

13       MR DUNCAN: Does that accord with your understanding of the  
14           changes?

15       MR SAMUEL CHENG: I would like to defer to Mr Chung.

16       MR WILLIAM CHUNG: Yes, it is.

17       MR DUNCAN: Thank you.

18           Now, the second matter I would like to bring to your  
19           attention is the maximum duty hours, which is the entry  
20           just above that. Do we see the change there to the  
21           effect that, from the 2018 guidelines, the maximum duty  
22           hours are 12 hours in a shift, as compared with 14 hours  
23           in a working day? Does that accord with your  
24           understanding, Mr Chung?

25       MR WILLIAM CHUNG: Yes.

26

1 MR DUNCAN: If we turn the page, we will see, however, that  
2 in the context of maximum duty hours and driving hours,  
3 there is a new arrangement arising out of what is  
4 described as a "special shift duty". Do you see that on  
5 the second page?

6 MR WILLIAM CHUNG: Yes.

7 MR DUNCAN: So there is a provision whereby the duty hour of  
8 the driver may in fact exceed the 12 hours provided for,  
9 as we can see on page 1, and it can be as much as  
10 14 hours; do you see that?

11 MR WILLIAM CHUNG: Yes.

12 MR DUNCAN: Again does that accord with your understanding  
13 of the new guidelines?

14 MR WILLIAM CHUNG: Yes.

15 MR DUNCAN: And the driving hour within that special shift  
16 duty, is that subject to a maximum of 10 hours?

17 MR WILLIAM CHUNG: Yes.

18 MR DUNCAN: And is there a further condition with regard to  
19 the special shift duty, that there should be a rest  
20 break of no less than three consecutive hours?

21 MR WILLIAM CHUNG: Yes.

22 MR DUNCAN: Is that again your understanding?

23 MR WILLIAM CHUNG: Yes.

24 MR DUNCAN: Having taken you through those, could I ask you  
25 this, first of all: do I understand correctly that  
26

1           notwithstanding the provision that there can be  
2           a special shift duty of maximum duty hours of 14 hours,  
3           it is the company's intention not to operate a shift  
4           duty in excess of 13 hours? Is that the company's  
5           intention?

6       MR WILLIAM CHUNG: Correct.

7       MR DUNCAN: Earlier on, we noted that according to the  
8           information that you've given to the committee, in the  
9           light of these new guidelines, some 121 additional  
10          drivers would be needed. Do you recall seeing that  
11          figure?

12      MR WILLIAM CHUNG: Yes.

13      MR DUNCAN: Has the intention to invoke the maximum of  
14          13 hours been taken into account in reaching that  
15          figure?

16      MR WILLIAM CHUNG: Correct.

17      MR DUNCAN: If in fact you availed yourself of the ability  
18          to have maximum duty hours of 14 hours, as opposed to  
19          13 hours, would that reduce the number of additional  
20          drivers that you would need?

21      MR WILLIAM CHUNG: Yes, it would.

22      MR DUNCAN: So what has prompted the company to decide to  
23          restrict its maximum duty hours just to 13?

24      MR WILLIAM CHUNG: Because we are aware of the public's  
25          concern about safety.

1 MR DUNCAN: And how will this help safety?

2 MR WILLIAM CHUNG: Regarding the daily hours of the bus  
3 captains, that won't be too long, because it will be  
4 capped at 13.

5 MR DUNCAN: But the driving hours would be the same in  
6 either case, wouldn't it? The maximum driving hours  
7 would be 10 hours, irrespective of whether the shift was  
8 13 hours or 14 hours?

9 MR WILLIAM CHUNG: Correct.

10 MR DUNCAN: So it's just the extra hour in a long day, is  
11 it, that the company takes into account?

12 MR WILLIAM CHUNG: Yes. In other words, if he can knock off  
13 earlier, then he will have more rest time between two  
14 consecutive shifts.

15 MR DUNCAN: Right.

16 Now, you told us earlier that typically a driver,  
17 a bus captain, apart from the part-time drivers,  
18 of course, would be working for something like 10 hours,  
19 eight hours at normal time and two hours of overtime.  
20 Do you recall telling the committee about that?

21 MR WILLIAM CHUNG: Yes, I recall.

22 MR DUNCAN: A person who is required to work the special  
23 shift duty -- in other words, be on duty for 13 hours  
24 but who drives just for 10 -- on what basis is he paid?  
25 Does he get eight hours of normal time and five hours of  
26

1 overtime, or does he get eight hours of normal time and  
2 two hours of overtime, as per the usual arrangement,  
3 with no payment for the rest break?

4 MR WILLIAM CHUNG: He will get eight hours' basic salary,  
5 and then, for the five hours, that would be overtime  
6 pay.

7 MR DUNCAN: Have you started to introduce the operation of  
8 the new guidelines?

9 MR WILLIAM CHUNG: Not yet.

10 MR DUNCAN: When are they going to start?

11 MR WILLIAM CHUNG: We plan to do so in the third quarter of  
12 this year.

13 MR DUNCAN: Why the delay?

14 MR WILLIAM CHUNG: First, we need to recruit sufficient bus  
15 captains before we can launch it. Second, we have to  
16 increase facilities for bus captains to take their rest  
17 for those three hours. They need to have a place to  
18 take a break.

19 MR DUNCAN: Are you able to give the committee any idea as  
20 to how often a driver will be required to be on duty for  
21 the 13-hour period which you indicated would be  
22 introduced?

23 MR WILLIAM CHUNG: For New World First Bus and Citybus, they  
24 have different arrangements. For the New World First  
25 Bus, for the bus captains, they have a fixed shift. If  
26

1 a bus captain has applied to be on special shift duties,  
2 then he will always be on a special shift duty, unless  
3 and except when he's on leave.

4 For Citybus, for their bus captains, they have  
5 a roster system. So every week he will be having  
6 a different shift. So it depends. It depends on the  
7 deployment of the roster.

8 So it would be difficult to say how often he would  
9 be on such a shift.

10 MR DUNCAN: With regard to New World First Bus, do  
11 I understand you to be saying that some drivers would be  
12 permanently on a 13-hour shift, special shift?

13 MR WILLIAM CHUNG: Yes.

14 MR DUNCAN: How many days a week would they be working?

15 MR WILLIAM CHUNG: Work for five days or six days per week,  
16 with one day off.

17 MR DUNCAN: When you say five or six, is that the driver's  
18 choice or ...?

19 MR WILLIAM CHUNG: They have to apply for the shift that  
20 they prefer. There are some shifts that would go on  
21 from Monday to Saturday and they would have to work for  
22 six days, with Sunday being off. There are other shifts  
23 that we go on from Mondays to Sundays and then they work  
24 for five days and then they will have a day off.

25 MR DUNCAN: So do I understand that many of the drivers in  
26

1           that company, New World First Bus, would be on duty  
2           13 hours a day for five or six days in a week?

3       MR WILLIAM CHUNG:   There are some bus captains who are like  
4           that, but not all of them.   We estimate that there are  
5           10 or more per cent of the shifts that are special  
6           shifts.

7       MR DUNCAN:   So approximately what proportion of drivers  
8           would be working those hours, a 13-hour special shift  
9           each day, for five to six days; approximately what  
10          percentage of the New World First Bus contingent?

11      MR WILLIAM CHUNG:   With indulgence, sir.  
12           10-odd per cent, about 144 shifts.

13      MR DUNCAN:   Going to Citybus, could you explain again,  
14           please, the difference between New World First Bus and  
15           Citybus in this respect?

16      MR WILLIAM CHUNG:   For Citybus, the bus captains do not have  
17           a fixed shift per day.   Each week, they will -- every  
18           five days, they have a shift and then they have a day  
19           off, and when they come back from the day off they will  
20           rotate to the next shift, for five days, and then they  
21           have a day off and then they come back for another  
22           shift.   It works like this.

23      MR DUNCAN:   So do I understand correctly that within a week,  
24           one day they might be on duty for a maximum of 10 hours  
25           and another day they might be on duty for 13 hours?   It

26

1 changes day-to-day?

2 MR WILLIAM CHUNG: Every five days. They rotate every five  
3 days.

4 MR DUNCAN: I see.

5 CHAIRMAN: So what are the variables? You have a 10-hour  
6 day. You've got a 13-hour day. Is there any other  
7 different category?

8 MR WILLIAM CHUNG: Yes, there are -- 10 hours is the average  
9 number. There are some shifts that would involve eight  
10 hours, some nine hours, 10 hours, 11 hours.

11 MEMBER LO: The whole five-day shift has the same pattern,  
12 so you don't change from eight, 10, 13? So the five  
13 days, exactly the same shift?

14 MR WILLIAM CHUNG: That's correct.

15 MR DUNCAN: Are you able to give the committee some idea as  
16 to what practical effect this will have, the new  
17 guidelines will have, on the duty of the average, if  
18 I can call it that, the average bus captain's working  
19 hours? Is this going to be a shift change within the  
20 companies, or is it going to be other than significant,  
21 with regard to their working hours?

22 MR WILLIAM CHUNG: Well, if they are on special shift, then  
23 the rest time would be concentrated on the three hours.  
24 Before we changed the guidelines, the maximum working  
25 hours would be 14 hours, with driving hours 11 hours.

26

1 For a 14-hour shift, they have three hours' rest time,  
2 but this rest time would be broken up during that  
3 stretch. For a special shift, the rest break will be  
4 concentrated in a particular three-hour or more than  
5 three-hour stretch.

6 MR DUNCAN: The old 14-hour shift, was that popular with  
7 your drivers?

8 MR WILLIAM CHUNG: Some. It is popular with some captains.

9 MR DUNCAN: Were any bus captains required to work a maximum  
10 of 14 hours or be on duty for 14 hours against their  
11 wishes?

12 MR WILLIAM CHUNG: We assign them the shifts and they have  
13 to observe the shifts. However, if they can find  
14 a colleague to swap the shift with and it is in keeping  
15 with the guidelines, then this would be granted.

16 MR DUNCAN: And if a person was not happy with the 14-hour  
17 provision, would he find it easy to undertake that  
18 exchange?

19 MR WILLIAM CHUNG: I'm not sure whether they find it easy to  
20 exchange, but the swap arrangement is quite common.

21 MR DUNCAN: What do you anticipate with regard to the  
22 special shift duty? Do you think it will be popular  
23 with your employees or other than popular?

24 MR WILLIAM CHUNG: I heard from some union representatives  
25 that it is popular, but other representatives that it is  
26

1           unpopular.

2       MR DUNCAN:   So you've got mixed reports, have you?

3       MR WILLIAM CHUNG:   Whether it is half-and-half, I'm not  
4           sure.   I heard some bus captains that they would like to  
5           have longer shifts because they want more money.

6       MR DUNCAN:   What makes it unpopular with some?

7       MR WILLIAM CHUNG:   There are some bus captains who don't  
8           need so much money.   There are some, for instance,  
9           who've been with us for a long time and they are not the  
10          breadwinner in the family, and eight hours/nine hours  
11          would be enough for them, and therefore they don't  
12          prefer any shifts which are long.

13      MR DUNCAN:   Do you anticipate requiring people to be on duty  
14          for up to 13 hours against their will?   Do you expect  
15          that to happen?

16      MR WILLIAM CHUNG:   I don't think so.

17      MR DUNCAN:   Right.   In the absence of any further questions,  
18          I'm going to leave the guidelines now.

19                I want to go back to the forward planning programme,  
20          please.   This is what we will find at TD-1, at 195.  
21          We've seen this document this morning, Mr Cheng, in the  
22          context --

23      MR SAMUEL CHENG:   I did, yes, sir.

24      MR DUNCAN:   -- of seat belts.   There are just a few other  
25          matters I wish to explore with you, if I could.

26

1 First of all, if you would look at page 199 of the  
2 bundle, and "Analysis of accident by nature in 2016".

3 Do you see that entry?

4 MR SAMUEL CHENG: Yes, I do, sir.

5 MR DUNCAN: We can see table 4 there. The nature of the  
6 accidents have been classified under a number of heads,  
7 with the table reaching over to page 200. Do you see  
8 that?

9 MR SAMUEL CHENG: Yes, I do.

10 MR DUNCAN: The nature of the accident which is the greatest  
11 by quite a long way is the last on page 199, and that is  
12 the non-collision accident involving a passenger injury.  
13 Do you see that?

14 MR SAMUEL CHENG: Yes, I do.

15 MR DUNCAN: And that point is picked up on page 200:

16 "As about 60 per cent of the accidents were  
17 non-collision accidents involving passenger injury,  
18 further analysis was made on this type of accidents as  
19 shown in table 5 below. The analysis revealed that  
20 accidents caused by passengers losing balance in the bus  
21 has always been the major cause of accidents."

22 As far as you know, does that remain the case today,  
23 that that proportion appears to be the highest with  
24 regard to the nature of accidents?

25 MR SAMUEL CHENG: Not much different, yes.

26

1 MR DUNCAN: So, if I'm reading from the paragraph above  
2 table 5:

3 "The analysis revealed that accidents caused by  
4 passengers losing balance in the bus has ... been the  
5 major cause ..."

6 What has the company been able to do with regard to  
7 this particular matter?

8 MR SAMUEL CHENG: I defer to Mr Chung, please.

9 MR WILLIAM CHUNG: Yes. Passengers falling over on buses,  
10 this has always been the major cause. In the past, we  
11 had publicity together with the Transport Department.  
12 The government had some APIs which were broadcast on TV  
13 to remind the passengers that when they are on board  
14 they have to hold onto the handrail, and if they are  
15 loaded down with a lot of stuff, they should not move  
16 upstairs. Our company has also put up some signs on  
17 board, to remind passengers that as soon as they get on  
18 board, they should find a seat to sit down on or they  
19 should hold onto the handrails.

20 Other than the signs or notices, we have also made  
21 use of the bus stop announcement system, to show  
22 messages and to broadcast messages, to remind passengers  
23 to hold onto the handrails. So this was what we had  
24 done in the past.

25 Other than enhancing publicity for the public, for  
26

1       our passengers, when we train our drivers, we also  
2       remind the bus captains that when they drive, they need  
3       to note the activities of the bus passengers on board.  
4       In particular, before they leave the bus stop, they have  
5       to check whether passengers have already reached their  
6       seats or whether they have held onto the handrails, and  
7       they have to pay particular attention to the elderly  
8       passengers. And before they stop, they need to be  
9       gradual and smooth in the manoeuvring, so as to avoid  
10      braking the vehicle and causing injuries to passengers,  
11      when they fall.

12     MR DUNCAN: Does the mode of driving by the driver  
13       contribute to these passengers falling over? Is that  
14       your experience?

15     MR WILLIAM CHUNG: The driving attitude of bus captains may  
16       contribute to the passengers falling. Yes, this is one  
17       of the causes.

18       As to whether a bus passenger has held onto the  
19       handrail after boarding, it's also part of the duty or  
20       the responsibility of the passenger himself. And for  
21       the roads of Hong Kong, from time to time, there may be  
22       emergencies and they are beyond the control of the bus  
23       captains. Therefore, sometimes there is indeed a need  
24       to brake suddenly and this may cause a passenger to  
25       fall.

1 MR DUNCAN: Are there rules and regulations as to how many  
2 people can travel on a bus, over and above those persons  
3 actually seated in a spot on the bus? Are there rules  
4 and regulations as to how many people are permitted to  
5 stand in a bus?

6 MR WILLIAM CHUNG: For each and every bus, the number of  
7 seats as well as the number of standees are subject to  
8 a limit, and such limits are already sort of written on  
9 the side of the body of the bus, near to the door.  
10 Depending on the model and the length of the bus, the  
11 carrying capacity would vary, in terms of the number of  
12 seats as well as the number of standees.

13 MR DUNCAN: And who is responsible for determining whether  
14 there is more than the required number of standees on  
15 the bus? Whose responsibility is that?

16 MR WILLIAM CHUNG: For each new bus delivered to Hong Kong,  
17 the TD will carry out the process of type approval. As  
18 part of this process, consideration will be given to the  
19 size of the passageway on the lower deck of the bus,  
20 before coming up with a figure for the number of  
21 passengers who can stand. We would also take into  
22 account the load of the bus, and that would come into  
23 the calculations as well.

24 CHAIRMAN: I think the question is more specific: whose job  
25 is it to decide that the number of standees is in excess  
26

1 of the stipulated limit?

2 MR WILLIAM CHUNG: The bus captain has the duty to make sure  
3 that the carrying capacity hasn't been exceeded.

4 MR DUNCAN: How would you expect the bus captain to  
5 discharge that duty?

6 MR SAMUEL CHENG: Let me answer this question. For every  
7 bus, the number of standees will be stated and  
8 stipulated. When a bus captain is driving a bus, it is  
9 impossible for him to be distracted, to count the number  
10 of passengers boarding his bus. When a bus passenger  
11 boards a bus, I think probably he will first of all try  
12 to sit down. When all the seats have been taken up,  
13 then passengers have to stand. But at any one time, the  
14 bus captain will not know how many passengers he is  
15 carrying on his bus. He can only observe. And such  
16 an observation would be based on how near the standing  
17 passengers are to the front of the bus. If there are  
18 many people standing, that means it's quite full.  
19 However, if you have ever made the observation on the  
20 street or if you have taken a ride on a bus during peak  
21 hours, you would notice that towards the further end of  
22 the passageway of the lower deck, passengers don't like  
23 to stand there. They would rather stand near to the  
24 door, that is, the exit door in the middle of the bus.  
25 And then, when there are more and more people standing,  
26

1           they would rather stand near the front of the bus. They  
2           are reluctant to go further inside.

3           Now, the bus captain can only make an observation.  
4           He will only notice that many people are standing near  
5           to the front of the bus. He would not know whether  
6           there is in fact a lot of space available further down  
7           the passageway but nobody is willing to take up that  
8           space. That is common during the peak hours.

9           Thank you.

10          MR DUNCAN: I understand those difficulties, Mr Cheng. Does  
11           it mean that in fact it's really virtually impossible  
12           for the driver to enforce the standing limits that are  
13           written on the side of the bus?

14          MR SAMUEL CHENG: First of all, the bus captain would not  
15           know when he has to enforce it, because it is not  
16           possible for him to count how many people are on the  
17           bus. I think we all need to understand one point.  
18           There are always people boarding and alighting. As to  
19           the net number of passengers on board, I don't think you  
20           can expect a bus captain to do the calculations using  
21           a calculator. He can't have an accurate idea. The most  
22           he can do is to rely on visual observation. All right?  
23           If he sees that there are many people standing quite  
24           near to the front of the bus, there is no way and  
25           nothing that he can do. This is because passengers are

26

1 all anxious to go to work and they have already paid for  
2 the bus fare. For passengers standing inside the bus,  
3 they have all paid by using the Octopus card or inserted  
4 coins into the fare box.

5 Now, if the bus captain is to start a headcount one  
6 by one, and say, for example, he finds that there are  
7 two passengers above the limit, it will be difficult for  
8 him to identify which two passengers should be persuaded  
9 to alight. So that's a practical difficulty.

10 Thank you.

11 MR DUNCAN: Is overcrowding on buses an issue for the  
12 company? Overcrowding meaning more people standing on  
13 buses than the limits imposed on the bus. Is that  
14 a problem?

15 MR SAMUEL CHENG: Let me repeat once again. In fact, we  
16 don't have any data to prove that we have got having  
17 more standing passengers than the standee limit. We  
18 don't have such a figure. We don't have such data.

19 So I can't say with certainty as to whether we have  
20 got this question of overcrowding.

21 MR DUNCAN: So that is something unknown to the company; is  
22 that correct? You don't know whether you have  
23 an overcrowding problem or not?

24 MR SAMUEL CHENG: Let me say this once again. Near to the  
25 front of the bus, or for the first half, first part of  
26

1 the bus, there may be cases of overcrowding, but then  
2 for the further end of the bus, on many occasions nobody  
3 is standing. So in certain parts of the bus, there may  
4 be overcrowding, but then it's an impression only. As  
5 to whether there is an excess of the carrying capacity,  
6 it is something objective. We don't have such  
7 information, that is whether and how many buses have got  
8 passengers exceeding the carrying capacity. We don't  
9 have this sort of figures.

10 MR DUNCAN: I would like to refer you, please, to another of  
11 the submissions that the committee has received, by  
12 taking you to MISC-1, at page 124-1.

13 MR SAMUEL CHENG: Yes. We have already read that.

14 MR DUNCAN: You've read this letter from the Hong Kong  
15 Police Force dated 7 May 2018?

16 MR SAMUEL CHENG: Yes, we have read it.

17 MR DUNCAN: Have you read paragraph 5 on the second page?

18 MR WILLIAM CHUNG: Yes, we did.

19 MR DUNCAN: In that particular paragraph, the writer has  
20 referred to five main causation factors. Do you see  
21 that?

22 MR WILLIAM CHUNG: Yes.

23 MR DUNCAN: Can I ask you this: does the company receive  
24 from time to time reports of this nature from the  
25 police?  
26

1           This is of course addressed to the committee, but  
2           I'm just trying to ascertain what information, if any,  
3           the company might receive from the police from time to  
4           time.

5       MR WILLIAM CHUNG: No, we haven't received from the police  
6           information like this.

7           However, when we prepared the five-year forward  
8           planning programme, the Transport Department gives us  
9           guidelines for preparing the forward planning programme,  
10          and information like this has been given to us, and on  
11          a yearly basis.

12       MR DUNCAN: So you get this sort of information but through  
13          the Transport Department; is that a correct  
14          understanding?

15       MR WILLIAM CHUNG: Correct.

16       MR DUNCAN: Can I just ask you this with regard to  
17          paragraph 5, with regard to the main causation factors:  
18          does that indication come as any surprise to you? Is it  
19          consistent with your own understanding?

20       MR WILLIAM CHUNG: Yes, it accords with our understanding;  
21          not surprised.

22       MR DUNCAN: Right. Now, I'm going to ask you to look,  
23          please, at another document that the committee has  
24          received from the Transport Department, this time very  
25          recently. I'm not sure whether you will have seen this.

26

1           We can locate it at TD-5/1649. This, I believe, is  
2           a communication to the committee received just a couple  
3           of days ago, headed, "Road safety management system",  
4           and the purpose of which is described, it is to outline  
5           "the road safety management system currently adopted by  
6           the government".

7           Have you or your colleagues been able to read this  
8           document?

9       MR WILLIAM CHUNG: No, sir.

10      MR DUNCAN: Right.

11           If I could then take you slowly to just a couple of  
12           aspects of the document, please.

13           Could I bring your attention first of all to the  
14           first page, page 1649, and paragraph 4 of that page,  
15           commencing with, "Apart from the follow-up actions by  
16           the TD". Could you just read that to yourself.

17      MR WILLIAM CHUNG: I've done so.

18      MR DUNCAN: It refers to a sample of the quarterly traffic  
19           accident situation report, submitted by the Transport  
20           Department to the Road Safety Council, a sample of which  
21           is at attachment I.

22           In that respect, could I ask you to go to page 1658  
23           of the document, please, of the bundle, 1658. Do you  
24           see at 1658 the heading, "Traffic accident situation  
25           report for Road Safety Council meeting on 7 March 2018"?  
26

1 Do you see that?

2 MR WILLIAM CHUNG: Yes.

3 MR DUNCAN: Thank you. Then if you look at the next page,  
4 1659, you see appendix I with a heading, "Summary of  
5 traffic accidents status in 2017".

6 MR WILLIAM CHUNG: Yes, sir.

7 MR DUNCAN: If you go down that page, you get to "Appendix 3  
8 franchised bus involvements", still at 1659.  
9 "Appendix 3 franchised bus involvements"; do you see  
10 that paragraph?

11 MR WILLIAM CHUNG: Not yet, sir.

12 MR DUNCAN: Do you see it now?

13 MR WILLIAM CHUNG: Yes.

14 MR DUNCAN: "Appendix 3 ...

15 For franchised bus involvements in Q4 2017, Kowloon  
16 Motor Bus, Long Win Bus, New Lantao Bus and Citybus  
17 (franchise 2) recorded increases while New World First  
18 Bus and Citybus (franchise 1) recorded decreases over  
19 Q4 2016."

20 If I could then take you to appendix 3 which has  
21 been referenced there, which you will find at 1664 of  
22 the bundle. Do you see the heading "Appendix 3" and  
23 "Franchised bus involvements"?

24 MR WILLIAM CHUNG: Yes, sir.

25 MR DUNCAN: And then a box for each of the franchisees?

26

1 MR WILLIAM CHUNG: Yes, sir.

2 MR DUNCAN: One of the ways in which the Transport

3 Department measures road safety is the involvement rate,

4 as they refer to it, per million of vehicle-kilometres.

5 Are you aware of that?

6 MR WILLIAM CHUNG: Yes, I do.

7 MR DUNCAN: If you look at the first entry, Kowloon Motor

8 Bus, and if we look at the last two entries, the fourth

9 quarter of 2016 and the fourth quarter of 2017, you will

10 see the involvement rates at 2.979 and 4.005

11 respectively. Do you see those entries?

12 MR WILLIAM CHUNG: Yes, I do.

13 MR DUNCAN: If you look then through the rest of it, do you

14 see that the figures for New World First Bus and Citybus

15 franchise 1 seem to be amongst the highest with regard

16 to the involvement rate per million vehicle-kilometres.

17 Can you detect that from reading through the document?

18 MR WILLIAM CHUNG: Yes, sir.

19 MR DUNCAN: Does that come as any surprise to you?

20 MR WILLIAM CHUNG: No, sir. Well, because for each

21 franchise, the network is different, and the traffic

22 situations that they serve also varies. Citybus, for

23 instance, Citybus franchise 1 and Citybus franchise 2,

24 the accident rates differ vastly. These are the two

25 franchises managed by the same company. Why the vast

26

1 difference? That's because the networks that they serve  
2 are different.

3 Citybus 2, most of the buses are running on highways  
4 and the mileage is pretty high for them. Also, they  
5 don't serve much in busy road sections. So we feel that  
6 we cannot simply make the comparison like this in  
7 relation to the accident rate per million kilometres.  
8 We cannot simply make a comparison like that.

9 CHAIRMAN: This is a point you have made in one of your  
10 submissions, is it not, apples with apples?

11 MR WILLIAM CHUNG: Correct, sir.

12 CHAIRMAN: Can you give us the reference where this point is  
13 made? Or perhaps you can come back to it in due course.

14 MR WILLIAM CHUNG: Sorry, Mr Chairman, we haven't got this  
15 in the submission, we didn't say this in the submission,  
16 but in the five-year forward plan, in 5.1, in the  
17 introduction, we have made this point.

18 MR DUNCAN: It will be at page TD-1/195.

19 CHAIRMAN: Yes:

20 "The significant difference in accident statistics  
21 of Citybus [franchise 1 and franchise 2] is a good  
22 demonstration of the effect of network composition and  
23 operating areas of Citybus [franchise 1] and Citybus  
24 [franchise 2] are both operated by Citybus.

25 What are the highways on which Citybus franchise 2  
26

1 operate mostly?

2 MR WILLIAM CHUNG: Mainly North Lantau Highway and also West  
3 Kowloon Corridor.

4 CHAIRMAN: Thank you.

5 MR DUNCAN: There is one other point I wish to explore with  
6 you or raise with you, Mr Cheng, before I leave this  
7 Transport Department document recently received.

8 Could you look at page 1650. So it's TD-5/1650.

9 This morning, the chairman raised the matter of  
10 black boxes on public light buses, and I would just like  
11 you, please, to read through paragraph 7 on that page,  
12 page 1650.

13 MR SAMUEL CHENG: I've done it, sir.

14 MR DUNCAN: Thank you.

15 The chairman also referred to the fact that,  
16 according to his understanding, there were provisions  
17 applicable to public light buses which had an over speed  
18 threshold of three seconds as opposed to the 10 seconds  
19 we were discussing this morning. Do you remember his  
20 raising that with you?

21 MR SAMUEL CHENG: Yes, I do, sir.

22 MR DUNCAN: I'm just going to tender for the record  
23 schedule 19 to the Road Traffic (Construction and  
24 Maintenance of Vehicles) Regulations. I think that's on  
25 the system now.

26

1           If one was to look at paragraph 3 of the schedule,  
2           you will see there a requirement with regard to the  
3           capability of an EDRD, or black box, with regard to its  
4           installation in a public light bus. And in  
5           paragraph 3(d) there's reference to "records of vehicle  
6           activity when the actual speed of the vehicle exceeds  
7           an over speed threshold stored in the EDRD for  
8           a continuous period of more than three seconds".

9           I simply bring that to your attention because of the  
10          chairman's comment this morning.

11       MR SAMUEL CHENG: Yes, I've read it.

12       MR DUNCAN: Thank you.

13          Let us go now back to the forward planning programme  
14          and the bus safety report. So it's TD-1 at page 200.

15          At 5.11 -- and of course this was written before the  
16          working group was set up --11 there is a heading,  
17          "Measures and programmes planned to enhance safety". We  
18          can see on that page, 200, going right through to  
19          page 201, a number of measures that have been  
20          identified.

21          Just one matter I would like to raise with you in  
22          (iv) on page 201, please. The fourth-last line:

23          "Harsh braking reports generated whenever  
24          deceleration is beyond threshold are used to identify  
25          drivers with harsh braking habit. Remedial training or  
26

1 disciplinary action will be taken to rectify the  
2 misbehaviours."

3 How are these harsh braking reports generated?

4 MR SAMUEL CHENG: I would like to defer to Mr Chung.

5 MR WILLIAM CHUNG: Yes. If we receive a complaint from  
6 a passenger saying that the bus driver has had harsh  
7 braking, then we will get hold of the data, to find out  
8 whether he does have such a habit of harsh braking. If  
9 it is established, then we would take follow-up action.

10 MR DUNCAN: Thank you. So no complaint, no report; is that  
11 the situation?

12 MR WILLIAM CHUNG: Correct.

13 MR DUNCAN: Then page 202, 5.12, in the middle of that  
14 paragraph we have this entry:

15 "Proper and fair disciplinary procedure and reward  
16 mechanism are in place to deter bad driving behaviour  
17 and to encourage good driving attitude."

18 Do you see that reference?

19 MR SAMUEL CHENG: Not yet. Now I see it.

20 MR DUNCAN: Thank you.

21 Now, post-reclassification of the safety bonus, the  
22 attendance bonus, the performance bonus, what reward  
23 mechanism is now in place to deter bad driving behaviour  
24 and to encourage good driving attitude?

25 MR SAMUEL CHENG: I think I have answered this question

26

1 before. If they have a poor driving attitude, if they  
2 are not having a high standard of driving safety, then  
3 there will be different degrees of disciplinary action.

4 CHAIRMAN: I think the real question perhaps is this,  
5 Mr Cheng. At one stage you had a stick and a carrot,  
6 and now you have given up the carrot. Is that the  
7 situation?

8 MR SAMUEL CHENG: Yes. Correct.

9 MR DUNCAN: We can leave the forward planning report now,  
10 please, and go back to your submission, which is -- the  
11 entry I wish to take up is at CTB-1, pages 27 to 28.

12 MR SAMUEL CHENG: Yes, I see it.

13 MR DUNCAN: At page 27, we have a heading provided by the  
14 company, "Maintenance and inspection", and that runs  
15 through to most of page 28.

16 The pre-service check, item (d), which is  
17 a requirement on the bus captain, is the bus captain  
18 required to keep a written record of this check?

19 MR WILLIAM CHUNG: No.

20 MR DUNCAN: To what extent have maintenance matters  
21 contributed to bus accidents involving company buses  
22 over the last few years?

23 MR SAMUEL CHENG: I would like to defer to Mr Li.

24 MR PAUL LI: I haven't got the figures with me. I believe  
25 it is quite unlikely and there are just very, very few  
26

1 cases.

2 MR DUNCAN: The very, very few cases have revealed what?

3 What sort of problems?

4 MR PAUL LI: As far as I can recall, some parts have been  
5 broken, causing damages to the bus, but it was minor.

6 MR DUNCAN: Are there written reports made of these sorts of  
7 incidents?

8 MR PAUL LI: Yes, there are.

9 MR DUNCAN: I wonder if you could provide the committee with  
10 samples of reports which have led to any sort of  
11 incidents, say in the past two years. Would that be  
12 possible?

13 MR PAUL LI: Yes, we will go back to check.

14 CHAIRMAN: Thank you.

15 Mr Duncan, is this not a matter that has been  
16 addressed in the LegCo papers dealing with the renewal  
17 of the franchise, where the overall record of the  
18 company, for example Citybus, was examined, and the  
19 success of their maintenance programme described?

20 MR DUNCAN: I think that is right, Mr Chairman. We'll try  
21 and find the reference to that. We'll try and locate  
22 that.

23 Just moving away from that topic, could I ask you  
24 this, Mr Cheng. In the context of safety, are there any  
25 matters where you would consider that the government  
26

1           could assist your company materially, in a way in which  
2           it doesn't assist the company at the moment? We  
3           understand that primarily safety is a matter for the bus  
4           companies, but is there anything which occurs to you  
5           whereby you could be assisted by the government in your  
6           endeavours?

7       MR SAMUEL CHENG: Mr Chairman, as far as we are concerned,  
8           anything to enhance safety would involve expenditure.  
9           It will cost money. In future, should there be  
10          requirements incurring a vast amount of money on our  
11          part, to install certain devices so as to enhance the  
12          safety standards of our service, I do hope that the  
13          government will provide some financial support to us.

14                Thank you.

15       MR DUNCAN: Can you point to anything specific which you  
16           would regard as beyond your financial capabilities at  
17           the moment, but which, if it could be could funded,  
18           would add materially to the matter of safety? Is there  
19           any specific matter?

20       MR SAMUEL CHENG: I cannot give any examples which will  
21           substantially enhance the safety. Rather, there are  
22           certain things which the public would think that, when  
23           done, the safety would be enhanced.

24                I can give examples. Say, for example, this  
25           morning, you explored the idea of retrofitting safety  
26

1 seat belts for the upper deck. This morning, Mr Li  
2 talked about the cost. It will be 15,000 to  
3 20,000 pounds per bus, and we have got 1,100 buses  
4 falling into this category. If they all have to be  
5 retrofitted with safety belts on the upper deck, the  
6 total cost, as we have given, will be HK\$180 million to  
7 HK\$240 million.

8 The two companies are registering a very low level  
9 of profits. We don't know how many years we have to  
10 operate before we can earn that amount of money so as to  
11 retrofit the safety belts. So this is one of the  
12 examples that our financial capability cannot afford.

13 So, for such kinds of expenditure, I believe we have  
14 to be very cautious, and find out whether it can really  
15 very effectively achieve the purpose.

16 This morning, we have said that currently there are  
17 certain exposed seats on board and they have been fitted  
18 with seat belts, but then in fact I ride on the buses  
19 many times. I seldom see passengers occupying such  
20 seats put on the seat belts. In future, if you ask our  
21 company to spend \$100 million to \$200 million, or more  
22 than \$200 million to work on this, while we query very  
23 much the effectiveness, of course, if the administration  
24 would like to impose such a requirement, that is to  
25 retrofit the seat belts, then I very much hope that the  
26

1 government will provide a subsidy so that we can install  
2 the seat belts.

3 So this is one of the examples. Thank you.

4 CHAIRMAN: So your point really is this: if the government  
5 thinks that it's worthwhile doing because it gives  
6 passengers who might want to put a seat belt on the  
7 opportunity to do so, but it's your experience that if  
8 they don't do so, then it's up to government to fund  
9 this, rather than impose it on your own? Is that the  
10 point?

11 MR SAMUEL CHENG: If the government sees the need for seat  
12 belts, in order for the passengers to put on the seat  
13 belts if they want to, if that's the case then I hope  
14 the government would fund the exercise because if we  
15 fund it, it would be a waste of resources.

16 Sorry, if I may, Mr Chairman, most importantly, if  
17 you think of the situation in Hong Kong, we do have  
18 standing capacity. If you feel that it is not safe  
19 enough to sit down and you need the seat belt, what  
20 about those who are standing up? They don't have a seat  
21 belt. For the standees, I think it's a bit of a  
22 contradiction.

23 Thank you.

24 CHAIRMAN: I think your other point was -- I will leave that  
25 point.

26

1 Yes, Mr Duncan.

2 MR DUNCAN: Thank you, Chairman.

3 Can I refer you to page 40 of your submission. So  
4 that will be CTB-1 at page 40 of the bundle.

5 MR SAMUEL CHENG: Yes, sir.

6 MR DUNCAN: You should be looking at a page which has the  
7 heading in the middle, "Other relevant information". Do  
8 you have that?

9 MR SAMUEL CHENG: Yes, sir.

10 MR DUNCAN: You have said:

11 "To assist the committee in understanding the  
12 franchised bus industry, we also wish to take this  
13 opportunity to explain our operating environment and  
14 challenges we have encountered in providing franchised  
15 bus services".

16 And you have set out there a number of issues. Can  
17 I just bring your attention to item (b), "Route  
18 rationalisation". You have said at the end of that  
19 paragraph that what has happened has led to a waste of  
20 money and resources at your end.

21 CHAIRMAN: Might I invite you to read out the short  
22 paragraph?

23 MR DUNCAN: Certainly. I quote:

24 "To tackle the competition posed by the railway, we  
25 proposed route rationalisation plans to the [Transport  
26

1 Department] to scale down or cancel low demand services.  
2 Due to the objection of district councils, a number of  
3 our route rationalisation plans could not be computed to  
4 match the decrease in passengers demand. This has led  
5 to a waste of money and resources on our end."

6 Could you just appraise the committee of the system  
7 that operates, first of all with regard to the routes  
8 you are required to support, and then the system, if you  
9 wish to change a route?

10 MR SAMUEL CHENG: I defer to Mr Chung, if I may.

11 MR WILLIAM CHUNG: Thank you, Mr Chairman.

12 If a railway line is coming on stream, we will make  
13 proposals to the Transport Department. If there are  
14 routes that are overlapping with the rail alignment,  
15 then we would propose a cancellation of these routes or,  
16 alternatively, scale back the frequency of these routes  
17 or have diversion.

18 With the proposals being put in, then we have to  
19 submit the route rationalisation plans to the district  
20 councils for discussion. Normally, the councillors  
21 would have a lot of comments and they would raise a lot  
22 of objections. These bus routes have been around for  
23 some considerable time, and many of the residents have  
24 been using these routes. With the railway coming on  
25 stream, some passengers will be lost to the railway and  
26

1 we are running short of patronage, although there will  
2 still be passengers using them. Still, the councillors  
3 would object to the cancellation or the scale-back of  
4 the services.

5 If the objection is particularly strong, the  
6 Transport Department may not necessarily approve the  
7 plan.

8 Thank you, Chairman.

9 CHAIRMAN: Is the MTR link to Ocean Park or Wong Chuk Hang  
10 an example of how a railway system arriving affects  
11 passenger usage on buses, just as an example?

12 MR WILLIAM CHUNG: Yes, sir. Yes, indeed.

13 MR SAMUEL CHENG: Mr Chairman, if I may, the impact was  
14 significant because prior to the railway coming on  
15 stream, we had a route, that's the 629, bus 629, running  
16 between Admiralty and Ocean Park. At that time, if  
17 anybody wants to go to Ocean Park by public transport,  
18 they will be using this particular route.

19 Ever since the MTR line has come on stream, we had  
20 to cancel the route altogether because we have lost all  
21 the passengers to MTR.

22 Thank you.

23 MR DUNCAN: So the Transport Department has the final say;  
24 is that the position?

25 MR WILLIAM CHUNG: Indeed, sir.

26

1 MR DUNCAN: You don't have any right of appeal to any  
2 further authority with respect to that sort of matter?

3 MR WILLIAM CHUNG: No. We never tried.

4 CHAIRMAN: Is there an avenue of appeal?

5 MR SAMUEL CHENG: We don't realise there is such a channel.

6 MR DUNCAN: Do you have any -- have you ever considered --

7 MR SAMUEL CHENG: I would like to correct this. It's we  
8 don't aware of such a channel, not realised, we don't  
9 aware of.

10 CHAIRMAN: Is there not an appeal to the Secretary of  
11 Transport and Housing, or am I thinking of another  
12 provision?

13 MR SAMUEL CHENG: I defer to Mr Chung. He is more familiar  
14 with this.

15 MR WILLIAM CHUNG: According to Cap 230, PBSO, if there is  
16 dispute over the rationalisation plan, then the THB  
17 would be the authority for settlement, but we never  
18 tried this.

19 CHAIRMAN: But specifically the Secretary for Transport and  
20 Housing?

21 Don't worry. We can check that. But that's the  
22 provision I have in mind.

23 MR DUNCAN: Moving from the route rationalisation to another  
24 matter you have raised, the fare adjustment arrangement,  
25 item (f) on page 41.

26

1           Perhaps I could read quickly through this before  
2           I ask you a couple of matters:

3           "The approval of franchised bus fare adjustment  
4           applications is governed by the fare adjustment  
5           arrangement ('FAA'). Under the FAA, there is a basket  
6           of factors that the government would consider. Public  
7           acceptability and affordability is one of the factors.  
8           In our view, this factor is highly discretionary and  
9           subjective and has been conveniently abused by  
10          politicians.

11          We had our last fare adjustment in 2008. Since  
12          then, we have not applied for any fare adjustment until  
13          August 2017 when [Citybus, the first franchise, and New  
14          World First Bus] submitted applications for fare  
15          adjustments to mitigate the substantial revenue loss due  
16          to railways competition in recent years and cost  
17          increases over the last 10 years. As mentioned in (c)  
18          above, the cumulative inflation rate in Hong Kong over  
19          this ... period was 31.2 per cent and we have awarded  
20          a cumulative increase in wages of 39.9 per cent.  
21          Although we were fully justified to seek fare  
22          adjustments under the FAA on various occasions, no  
23          application had been made mainly due to the  
24          ineffectiveness of the FAA and the highly politicised  
25          environment against fare/price increases of public  
26

1 utilities.

2 In addition to the difficulty in obtaining a fair  
3 deal in FAA applications, the fare adjustment approval  
4 process has been excessively long. By way of example,  
5 our current fare adjustment applications submitted in  
6 August 2017 are still being scrutinised by the  
7 government.

8 Unlike the MTR, which has automatic fare adjustment  
9 made annually in accordance with a prescribed formula,  
10 franchised bus companies do not have the same certainty  
11 in fare adjustments. Without such certainty, it is  
12 difficult for franchised bus companies to formulate  
13 comprehensive future plans."

14 You have identified in those paragraphs a number of  
15 matters which can perhaps be summed up by your phrase  
16 "the ineffectiveness of the FAA". Have you --

17 CHAIRMAN: Before you embark on any questioning, Mr Duncan,  
18 do we have that document available, the fare adjustment  
19 arrangement?

20 MR DUNCAN: I think we do.

21 Mr Chairman, if we are able to turn up SEC/373.

22 CHAIRMAN: SEC-1 at page 373?

23 MR DUNCAN: Yes.

24 This is an example of one of the fare increase  
25 applications --

26

1 CHAIRMAN: Thank you.

2 MR DUNCAN: -- and its treatment.

3 Back to you, Mr Cheng, if I could. Given your  
4 description of the FAA being ineffective, the process,  
5 have you made any overtures to anybody with regard to  
6 changing what you see as an ineffective system?

7 MR SAMUEL CHENG: Yes, we did. Last time, when the FAA was  
8 reviewed -- allow me to paraphrase it. Every time when  
9 the government reviews the FAA, we point out that the  
10 FAA has certain inadequacies and it is not transparent  
11 enough, in the eyes of the bus operators.

12 Thank you.

13 MR DUNCAN: How long has that situation existed?

14 MR SAMUEL CHENG: Ever since the FAA came into existence, so  
15 far we have only applied for one fare increase, and that  
16 was in 2008. On that occasion, for Citybus (F1), it was  
17 only for the jointly operated cross-harbour routes were  
18 allowed to put up the fares. For the Hong Kong Island  
19 routes, we were not allowed to increase the fare levels.

20 As to the rationale, and then as to the financial  
21 forecast data submitted by us to the government, whether  
22 the government has taken on board all our financial  
23 projection data or which part of our data was not  
24 acceptable, nothing was said to us.

25 At the end of the day, all we knew was that for  
26

1 CTB (F1), all the Hong Kong Island routes were not  
2 allowed to increase their fare levels. In fact, the  
3 last time we increased the fares for the Hong Kong  
4 Island routes, it was 1998. That's because in 2008 our  
5 application was rejected. And we didn't know the  
6 reason.

7 So, for this FAA, I believe that the transparency  
8 has to be enhanced.

9 Thank you.

10 CHAIRMAN: Are you saying that you simply get the result  
11 without any reasoned decision?

12 MR SAMUEL CHENG: Correct.

13 MR DUNCAN: Just for the record, Mr Chairman, there is  
14 another reference to the fare adjustment arrangement at  
15 THB-2 at 23, a fuller description.

16 CHAIRMAN: Thank you.

17 MR DUNCAN: So, Mr Cheng, when did this arrangement come  
18 into existence?

19 MR SAMUEL CHENG: It was 2005 or 2006, round about that  
20 time. I think 2006.

21 MR DUNCAN: As far as you are aware, have there been any  
22 changes made to the adjustment mechanisms since that  
23 time?

24 MR SAMUEL CHENG: Yes, there were some changes, but I'm  
25 afraid I cannot state the specific changes. But at  
26

1       least I can remember that originally it was not called  
2       FAA. It was not called -- it was at first called fare  
3       adjustment mechanism. Later on, the name was changed,  
4       together with other changes, and it is now called FAA.

5             As to the specific changes, I'm afraid offhand  
6       I don't have the information for you.

7       MR DUNCAN: I'm sorry, did you say in 2008 you made  
8       an application which was unsuccessful?

9       CHAIRMAN: Well, it was successful for the harbour route but  
10      nothing else.

11      MR SAMUEL CHENG: In year 2008, for CTB (F1) and New World  
12      First Bus, there was an application for fare increase  
13      from both. The result was, for New World First Bus, the  
14      fare increases were approved. But then for CTB, for our  
15      Hong Kong Island routes, we were not allowed to increase  
16      the fares. For the harbour routes, when they were  
17      jointly operated with KMB, since KMB was given approval  
18      to increase the fares, and as a result we were also  
19      allowed to increase the fares. But of course most of  
20      our operations are on Hong Kong Island, and for those we  
21      were not allowed to increase the fares.

22      MR DUNCAN: Were you given any reasons at all as to why that  
23      application was rejected?

24      MR SAMUEL CHENG: No, no specific reasons were given.

25      MR DUNCAN: Well, any reasons? Did you receive anything in  
26

1 writing, beyond the fact that it had been unsuccessful?

2 MR SAMUEL CHENG: No.

3 MR DUNCAN: Since we are moving to the MISC bundle, can

4 I raise another matter with you.

5 CHAIRMAN: Are you moving on to another matter?

6 MR DUNCAN: Yes.

7 CHAIRMAN: Before you do so -- at page 42 of your first

8 submissions, paragraph (g), "Reasonable return", the

9 last three lines say this:

10 "We are given to understand that the government is  
11 in the course of reviewing the FAA, and we earnestly  
12 hope that the above-mentioned issues can be addressed in  
13 the review."

14 Perhaps, Mr Duncan, I can invite you to read out the  
15 whole of that paragraph as being relevant to the  
16 conclusion.

17 MR DUNCAN: "Due to the difficulties regarding fare  
18 adjustment as described above, the chance of being  
19 awarded a fare adjustment and the increase rate are full  
20 of uncertainties. We forecast that the return on  
21 [average net fixed assets of CTB franchise 1 and New  
22 World First Bus] will be below 1 per cent for the  
23 financial year ending 30 June 2018. This is taken into  
24 account that the status quo can be maintained in regard  
25 to our overall expenditure. Should there be any  
26

1           significant increase in staff and fuel costs, both of  
2           these franchises may well become loss making.  
3           Therefore, let alone earning a reasonable return, when  
4           the companies' commercial viability is at stake, it will  
5           be impossible for our companies to continue to provide  
6           the high quality and efficient services expected by the  
7           public, and to offer attractive pay packages to recruit  
8           and retain staff. We are given to understand that the  
9           government is in the course of reviewing the FAA, and we  
10          earnestly hope that the above-mentioned issues can be  
11          addressed in the review."

12           Do you maintain those sentiments today, Mr Cheng?

13   MR SAMUEL CHENG: Yes, I maintain this view.

14   MR DUNCAN: Your information that the government is in the  
15          course of reviewing the FAA, on what basis have you  
16          formed that understanding?

17   MR SAMUEL CHENG: We have had meetings with the government.

18   CHAIRMAN: Specifically with whom in the government?

19   MR SAMUEL CHENG: Transport and Housing Bureau.

20   CHAIRMAN: When were those meetings which led to this  
21          understanding?

22   MR SAMUEL CHENG: Let me say this. I say "we are given to  
23          understand", and so on and so forth. I think I have  
24          made it rather indirect. Allow me to rephrase this  
25          sentence. I should say, "We understand" or "We know  
26

1           that".

2       CHAIRMAN:   As a result of meetings?

3       MR SAMUEL CHENG:   Correct.

4       CHAIRMAN:   When were the meetings?

5       MR SAMUEL CHENG:   I have to go back to check the meeting  
6           date.

7       CHAIRMAN:   Were they this year or last year?

8       MR SAMUEL CHENG:   Last year.

9       CHAIRMAN:   Nothing this year?

10      MR SAMUEL CHENG:   I don't recall having any more meetings  
11          this year, but I really have to go back to check my  
12          diary.

13      CHAIRMAN:   Please do so, if you would be kind enough, and  
14          inform us what the position is, as to whether there were  
15          meetings this year, on this subject.

16      MR SAMUEL CHENG:   Yes.   Certainly, I will do that.

17      MEMBER LO:   Can I ask a question?   The question, is it about  
18          the FAA or it's about the formula?   According to the  
19          formula, have you calculated how much fare increase you  
20          could ask for or request?

21      MR SAMUEL CHENG:   The FAA itself.

22      MEMBER LO:   But there's a formula you can apply?

23      MR SAMUEL CHENG:   We don't have an automatic mechanism.

24          According to the FAA, we may submit an application, and  
25          after that there will be a process, a series of

26

1 examination and approval. Ours is different from that  
2 of the MTR.

3 MEMBER LO: So is it about the procedure or is it about what  
4 is the change that you request for reviewing the FAA?

5 MR SAMUEL CHENG: Well, to us, if we have more certainties  
6 about the fare adjustment, and if the transparency is  
7 enhanced, then at least it will be better. I hope at  
8 least in those two areas there will be improvements.

9 MR DUNCAN: Mr Chairman, just for the record, I referred to  
10 the fact that the fare adjustment arrangement had been  
11 the subject of one of the THB documents, THB-2/23.

12 CHAIRMAN: Yes.

13 MR DUNCAN: The matter of the review of the FAA is a matter  
14 which the bureau has also addressed at the ensuing  
15 pages, THB-2, pages 24 and 25, for the record.

16 CHAIRMAN: Perhaps we ought to turn to that, since it's the  
17 subject matter of this evidence.

18 MR DUNCAN: Certainly.

19 Just before we do that, Mr Cheng, do I understand  
20 correctly from your evidence that you had discussions  
21 about a change in the FAA, but you have not yet been  
22 informed by the government as to the outcome of those  
23 discussions? Is that the position?

24 MR SAMUEL CHENG: Yes. The review is with the government.  
25 It's in the government's court.

26

1 MR DUNCAN: And you don't know what the outcome of that  
2 review is at the present time?

3 MR SAMUEL CHENG: At the moment, we don't know. We don't.

4 MR DUNCAN: So can we have on the screen, please, THB-2,  
5 pages 24 and 25. We want bundle page 24. Yes.

6 I will read through, if you can follow me. Perhaps  
7 if we go back to the previous page, just to get the full  
8 flavour, page 23 of the bundle. Do you see item (d) on  
9 that page, "Fare adjustment arrangement", and then  
10 a subheading, "Current arrangement"?

11 MR SAMUEL CHENG: Yes, sir.

12 MR DUNCAN: Then if I could pick it up at the following  
13 page, bundle page 24, paragraph 4.28:

14 "The aforesaid existing arrangement was put in place  
15 in 2006 after consultation with the LegCo. The  
16 arrangement was subsequently fine-tuned having regard to  
17 the outcome of the review in 2009. As the existing  
18 arrangement can basically strike a balance between the  
19 sound operation of bus service as well as public  
20 affordability and acceptability, there is no need for  
21 an overhaul of the FAA.

22 In this regard, the government has conducted  
23 a review of the FAA. The initial findings indicate that  
24 the arrangement should be kept intact, while the data  
25 could be updated on two fronts:

26

1 (a) Productivity gain value ...

2 (b) Passenger reward arrangement".

3 Unless the chairman wishes me to go to that, I will  
4 leave out the detail of that, but then move to  
5 item 4.30:

6 "The government has initiated discussion with the  
7 franchised bus companies on the initial review outcome  
8 and the details of the above two data updates. We will  
9 announce the discussion outcome and expect to implement  
10 them in the first half of 2018 upon approval by the  
11 Chief Executive-in-Council."

12 Now, according to that statement, Mr Cheng, the  
13 government has initiated discussions with the bus  
14 companies, obviously including yours, on the initial  
15 review outcome and what they propose, namely that the  
16 arrangement should be kept intact but with the data  
17 being updated on two fronts. Have you in fact been  
18 informed of the government's view with regard to those  
19 matters?

20 MR SAMUEL CHENG: Yes, I am aware that the government is  
21 conducting a review.

22 MR DUNCAN: But has the government indicated to you their  
23 findings --

24 CHAIRMAN: I think they are called "initial findings".

25 MR DUNCAN: Yes, the initial findings that indicate that the  
26

1 arrangement should be kept intact but with the data  
2 being updated on two fronts, as it's suggested in  
3 paragraph 4.29. Has the government informed you of  
4 that?

5 MR SAMUEL CHENG: Yes, at the meeting, yes. But as to the  
6 updating of the data on two fronts, what new figures  
7 would there be, we are not sure. We don't know. For  
8 these two figures, they are terribly important.

9 MR DUNCAN: And you are still awaiting details with regard  
10 to those figures; is that the position?

11 MR SAMUEL CHENG: Yes, sir.

12 MR DUNCAN: Thank you. I'm going to leave the fare  
13 adjustment arrangement now and go to MISC-2.

14 Could I bring to your attention again a document we  
15 saw yesterday at page 643 of the bundle, with the  
16 translation at 644-1.

17 If we could pull up the Chinese document, please, at  
18 page 643. Thank you.

19 Do you recall my referring this submission to you  
20 yesterday from the Democratic Alliance?

21 MR SAMUEL CHENG: Yes, I do.

22 MR DUNCAN: That was in the context of the salary of  
23 franchised bus captains. Today, I want to bring to your  
24 attention a matter which they have brought to the  
25 attention of the committee. That appears in the third  
26

1 paragraph of the first page, beginning with the words:

2 "The industry actions of bus captains that took  
3 place in February 2017 and 2018 aroused the concern of  
4 different sectors of the community over problems such as  
5 illegal parking at bus stops, bus captains' treatment  
6 and working hours."

7 It goes on to say, "Below are reasons for illegal  
8 parking at bus stops", and there are four items which  
9 are mentioned. Do you see those?

10 MR SAMUEL CHENG: Yes, sir.

11 MR DUNCAN: Then if you go to the second page of the  
12 original document, page 644 of the bundle, and the  
13 translation, the last paragraph on page 644-1:

14 "To eradicate illegal parking at bus stops, it must  
15 be dealt with from its roots and by formulating suitable  
16 policies, revising the outdated laws. The problem can  
17 only be resolved by multipronged measures."

18 Then there's a paragraph:

19 "Suggestion 1: Following Singapore and installing  
20 cameras on all bus fleets."

21 Before we go further into this, does the company  
22 regard illegal parking at bus stops as a problem?

23 MR SAMUEL CHENG: I defer to Mr Chung, if I may.

24 MR WILLIAM CHUNG: Yes, sir.

25 MR DUNCAN: Could you perhaps just describe the extent of  
26

1 the problem?

2 MR WILLIAM CHUNG: In many bus stops, there is illegal  
3 parking, and these vehicles are getting in the way of  
4 the buses, in a way that they cannot pull up close to  
5 the kerb for loading and unloading. There may be  
6 markings for the bus stop. Our buses require a certain  
7 distance to pull into the bay. If there is illegal  
8 parking on the front end or back end of the bay, it  
9 would be getting in the way of the bus operation, and  
10 sometimes the buses would have to pick up and set down  
11 passengers in the middle of the road. This is quite  
12 a commonplace and serious problem.

13 MR DUNCAN: Does it cause safety concerns?

14 MR WILLIAM CHUNG: Indeed, yes.

15 MR DUNCAN: In what way?

16 MR WILLIAM CHUNG: For instance, illegal parking would  
17 reduce the width of the road when the buses drive past.  
18 Because of the large size of the bus, it's likely to get  
19 into problem, and if the passengers cannot get on and  
20 off on the kerbside, there is a likelihood of them being  
21 hit by vehicles or they may fall over.

22 MR DUNCAN: If we go back to the letter -- sorry, before we  
23 go back to the letter, has the company endeavoured to  
24 overcome this problem?

25 MR WILLIAM CHUNG: We notified the Transport Department  
26

1           about the black spots of illegal parking. We hope that  
2           these sections, they will have 24-hour restricted zone.

3           We also notified the police to do enforcement work.

4       MR DUNCAN: Has that eradicated the problem?

5       MR WILLIAM CHUNG: It doesn't help much.

6       MR DUNCAN: If we go back to --

7       CHAIRMAN: Did it result in any action?

8       MR WILLIAM CHUNG: The police would take action, but as soon  
9           as the police back is turned, then the illegal parking  
10          problem would recur. Say, for instance, in Causeway  
11          Bay, Yee Wo Street, near SOGO, outside SOGO, in fact,  
12          this is a problem that occurs very often. Earlier,  
13          a taxi driver got into a confrontation with a bus  
14          captain.

15      MR DUNCAN: If we go back to the letter, there is then  
16          reference to a system which appears to exist in  
17          Singapore. I'm quoting from the letter to the  
18          committee:

19                "Following Singapore and installing cameras on all  
20          bus fleets. Singapore has since 2008 installed cameras  
21          on buses and the cameras are installed next to the  
22          driver's seats. When drivers discover cars parking  
23          inside the bus stop, they can press the button and  
24          record a video of 5-10 minutes. The bus companies will  
25          then hand the recording to the police, thereafter the

26

1 police can review the recording and in around two weeks'  
2 time the ticket will be sent to the car owner's home.  
3 Each penalty ticket costs nearly HK\$800, there is  
4 an additional charge of HK\$5,000 and imprisonment of 3  
5 months for late payment of penalty.

6 For the first year, Singapore has recorded 2,112  
7 incidents of drivers driving into the bus lanes or bus  
8 stops to pick up and drop off customers. For 2014, the  
9 number of cases of driving into the bus lanes and  
10 illegal parking has already reduced to 886, it has  
11 successfully deterred most drivers not to stop at the  
12 bus stops."

13 Is that a method which has any appeal to you?

14 MR SAMUEL CHENG: Regarding this proposal, I have doubts  
15 about the credibility of such an arrangement. If  
16 I understand it correctly, what it means is that on  
17 board the bus, near to the bus driver's seat, there is  
18 a camera, so that when the bus approaches the bus stop,  
19 if it is found that there is somebody who has parked his  
20 vehicle there, then the bus driver would press a button  
21 and then there would be an automatic recording of a clip  
22 running for five to ten minutes. That's how  
23 I understand it.

24 But then, first of all, in Hong Kong, when the bus  
25 driver reaches a bus stop, it is impossible for us to  
26

1 stop there for five to ten minutes, not for our buses in  
2 Hong Kong. For the approach in Singapore, I think they  
3 have something similar to that in Hong Kong. I don't  
4 quite think that you will see a bus pulling up in a bus  
5 stop, it is found that there is illegal parking and then  
6 the bus doesn't pull up into the bus bay and then the  
7 camera is on for five to ten minutes. Well, I don't  
8 think this is going to be feasible, at least not in  
9 Hong Kong.

10 CHAIRMAN: Five to ten seconds?

11 MR SAMUEL CHENG: Here, in the Chinese version, it's five to  
12 ten minutes.

13 CHAIRMAN: I'm asking you what you think about five to ten  
14 seconds.

15 MR SAMUEL CHENG: It depends whether a bus can move further  
16 up and stop by the bus stop. If we don't and yet we  
17 just stop our bus there and then make a recording of  
18 that offending vehicle for five to ten seconds, I'm  
19 afraid this will cause delay to our passengers. It will  
20 also obstruct the traffic on the road.

21 Thank you.

22 CHAIRMAN: We saw from the demonstration at the Chai Wan  
23 depot that you have forward-looking cameras in buses,  
24 did we not?

25 MR SAMUEL CHENG: Yes, we do.

1 CHAIRMAN: We saw a lady for whom the bus driver waited and  
2 opened the door again so she could board.

3 MR SAMUEL CHENG: Yes.

4 CHAIRMAN: That kind of camera could capture what is being  
5 described, could it not?

6 MR SAMUEL CHENG: Yes, it can capture images for one to  
7 three seconds. However, if it is just for one to three  
8 seconds, I'm not sure whether it is adequate to  
9 establish a case and penalise the driver for having  
10 stopped the vehicle at a bus bay. I'm not familiar with  
11 the criteria on the part of the police to prosecute.  
12 Will somebody be booked and issued a summons for just  
13 stopping there for two seconds? I'm not sure.

14 CHAIRMAN: That's a matter for the prosecuting authorities,  
15 but at least you would be providing them with evidence.  
16 It's for them to judge whether it is sufficient.

17 MR SAMUEL CHENG: In that case, it means that our bus  
18 captain has to be doing both at the same time. While  
19 driving, he has to note down at what time and at which  
20 bus stop somebody has parked illegally there, and then,  
21 when he finishes work, he hands over such a logbook to  
22 the company, and then the company tries to identify this  
23 car and tries to download the video clip. In other  
24 words, we have to go through a series of steps before  
25 that can be done.

26

1 I think, for this matter, it should be the police  
2 that should be doing something about it, because if that  
3 stretch of the road should be an urban clearway and  
4 nobody should park there, then the police should enforce  
5 the law. Our bus captains are already very busy while  
6 driving. If you ask them to remember doing such, it  
7 means adding to the burden of their work.

8 Thank you.

9 CHAIRMAN: Are you aware that the police suggested to

10 I think the Transport Department and LegCo that cameras  
11 should be used, fixed, perhaps lamppost, cameras, to  
12 record what you are describing, and that that should be  
13 the source of the evidence?

14 MR SAMUEL CHENG: If we have cameras on lampposts, I think  
15 it's a very good idea. I really hope that you won't be  
16 involving the bus captains in this kind of work.

17 CHAIRMAN: Presumably, that would be a relatively simple  
18 thing to do, because you would provide the police with  
19 details of the bus stops that are black spots and they  
20 would simply install a camera.

21 MR SAMUEL CHENG: I think that's feasible.

22 CHAIRMAN: Are you aware of vehicle number recognition  
23 systems, so that a computer that takes a photograph, or  
24 rather a camera that takes a photograph of a number  
25 plate, can match it with the registered owner?

26

1 MR SAMUEL CHENG: This is very technical. I would like to  
2 defer to Mr Chung.

3 MR WILLIAM CHUNG: Yes, we are aware of such a system, but  
4 I don't think it is affordable by us.

5 CHAIRMAN: No, I'm suggesting that this is something that  
6 might be considered by the Transport Department and the  
7 police: A camera takes a photograph of the stationary  
8 vehicle impeding the photograph; the computer matches  
9 the vehicle registration owner; and the third step is to  
10 issue a ticket by email.

11 MR WILLIAM CHUNG: We welcome such an idea.

12 CHAIRMAN: Mr Duncan.

13 MR DUNCAN: It's getting on a bit, but there is just one  
14 other substantive matter that I want to raise with you,  
15 Mr Cheng, if I could.

16 This arises from a document which we can find at  
17 page 822 of SEC-2. Again, I'm not sure whether you have  
18 seen this document. You will see from the screen that  
19 it starts as an information note relating to franchised  
20 bus services in Seoul and Singapore, and it is  
21 apparently a production of the research office at the  
22 Legislative Council Secretariat here in Hong Kong.

23 Have you seen this document at all?

24 MR SAMUEL CHENG: No, we haven't.

25 MR DUNCAN: I'm going to take you directly to page 826 of  
26

1 the bundle, and bring your attention to paragraph 2.11,  
2 and the heading, "Implementation of the bus signal  
3 priority system". Do you see that heading?

4 MR SAMUEL CHENG: Yes.

5 MR DUNCAN: If I can read the entry:

6 "The bus signal priority ('BSP') system, which has  
7 been deployed in many cities around the world, is  
8 a traffic signal enhancement strategy. The strategy  
9 facilitates efficient movement of buses through  
10 signalised intersections which allows an approaching bus  
11 to have priority on using the limited intersection  
12 capacity over other vehicles entering the intersection.  
13 The Seoul Metropolitan Government has implemented the  
14 BSP system to permit the optimisation of traffic signals  
15 to speed up buses."

16 Are you aware of such systems in different cities  
17 around the world?

18 MR SAMUEL CHENG: Yes, we are aware of such a system in the  
19 world. We are aware that in Singapore they do have  
20 a similar system.

21 MR DUNCAN: Do you think this sort of system might have some  
22 relevance as far as Hong Kong is concerned?

23 MR SAMUEL CHENG: We would welcome it very much.

24 MR DUNCAN: Have any steps been taken to have this  
25 considered?

26

1 MR SAMUEL CHENG: All the time, we believe that it is what  
2 the government should do.

3 MR DUNCAN: Have you raised it with the government?

4 MR SAMUEL CHENG: We haven't raised it with the government.

5 MR DUNCAN: I think in some cities around the world, buses  
6 are accorded general priority, are they not? If a bus  
7 is pulling out of a bus stop, cars are required to make  
8 way for the bus. Is that the situation in some  
9 countries, some cities?

10 MR SAMUEL CHENG: Let me defer to Mr Chung.

11 MR WILLIAM CHUNG: Yes, indeed. We are aware, say for  
12 example, that in Singapore, when a bus leaves the bus  
13 bay, other vehicles have to give way.

14 MR DUNCAN: Is that something which the company would regard  
15 as a good thing?

16 MR WILLIAM CHUNG: Yes, we regard it as something which is  
17 good. However, in Hong Kong, the road conditions may  
18 not permit this. Say, for example, we have bus-only  
19 lanes. In the past, as a result of complaints, some of  
20 them have been cancelled.

21 CHAIRMAN: Complaints by whom?

22 MR WILLIAM CHUNG: Citizens, complaining that the bus lanes  
23 were not put to optimal use, and as a result they have  
24 to be scrapped.

25 CHAIRMAN: Citizens who are car drivers?

26

1 MR WILLIAM CHUNG: I'm not sure, but then we were informed  
2 by the Transport Department.

3 CHAIRMAN: Presumably not citizens standing on a bus with  
4 130 other passengers.

5 MR DUNCAN: Just going back to the system in Seoul for the  
6 moment, the bus signal priority system. Given your  
7 response to my question, is that something that would be  
8 worthy of your taking up with the Transport Department?

9 MR SAMUEL CHENG: Yes, sir.

10 MR DUNCAN: Do you have any plans to do that?

11 MR SAMUEL CHENG: As a result of today's hearing, we have  
12 been enlightened. We are going to do it.

13 MR DUNCAN: Can I just bring to your attention a couple of  
14 other matters that have come up during the course of the  
15 questions this afternoon. First of all, may I bring to  
16 your attention section 33(1) of the Public Bus Services  
17 Ordinance, which reads as follows --

18 CHAIRMAN: Do we have that in the papers?

19 MR DUNCAN: Yes. It will be in THB-2 at page 124,  
20 Mr Chairman.

21 CHAIRMAN: Thank you.

22 MR DUNCAN: THB-2, page 124, section 33(1). You can  
23 probably read that for yourself, Mr Cheng. It reads as  
24 follows:

25 "A grantee which is aggrieved by any decision,  
26

1 direction or requirement of the Secretary for Transport  
2 and Housing, or a public officer given directions under  
3 section 3, or the Commissioner, or any person authorised  
4 by him, under this Ordinance or its franchise may,  
5 within 28 days of the giving or making of the decision,  
6 direction or requirement, appeal by petition to the  
7 Chief Executive-in-Council, and the decision of the  
8 Chief Executive-in-Council on any such appeal shall be  
9 final."

10 Hitherto, have you been aware of that provision?

11 MR SAMUEL CHENG: I am aware of that.

12 MR DUNCAN: Has the company ever availed itself of its  
13 rights under that?

14 MR SAMUEL CHENG: Never, sir.

15 MR DUNCAN: One other matter, just a reference, if I could,  
16 with regard to the issue I raised as to whether  
17 maintenance of facilities had contributed at all to  
18 accidents.

19 I just refer the committee to another of the  
20 documents, TD-2 at page 183, which is the Brief of the  
21 Legislative Council considering the new franchises and  
22 the bus networks of Citybus Ltd, that's for Hong Kong  
23 Island and the cross-harbour bus network, and the New  
24 Lantao Bus Company.

25 You will see, in the course of the assessment of the  
26

1 applications, references to accidents, maintenance, and  
2 so on, pages 183 and 184. That may be the provision  
3 that the chairman had in mind.

4 CHAIRMAN: Yes. Thank you.

5 MR SAMUEL CHENG: I beg your pardon. You mentioned the  
6 maintenance and repair. I can't see any mention of  
7 maintenance and repair here.

8 CHAIRMAN: I think what I had in mind was the inspections,  
9 the random checks on buses, detected a very low rate of  
10 defects, and that was the observation that was made.

11 MR DUNCAN: By the Transport Department?

12 CHAIRMAN: Yes.

13 MR DUNCAN: We will look for that, Mr Chairman, and find it  
14 for the committee.

15 CHAIRMAN: Thank you.

16 MR DUNCAN: Mr Chairman, unless the committee has any  
17 further matters that you wish me to explore, they are  
18 the questions.

19 CHAIRMAN: There is one matter, and I will raise the  
20 question directly with you, Mr Cheng. It's simply this.  
21 You have told us about a safety committee that was put  
22 into being I think in April in the companies, to address  
23 safety issues, of which you are the chair, and on which  
24 some of your fellow representatives here today also sit.  
25 My question, first of all, is this. It's right, is it

26

1 not, that a director or perhaps two of your directors  
2 are Transport Department employees?

3 MR SAMUEL CHENG: Yes. This safety committee is composed of  
4 our senior management. We have not invited the  
5 government officials to sit on this committee, because  
6 if the company has issues to discuss with the Transport  
7 Department, then it would be meeting between the company  
8 and the Transport Department. It's not for us to invite  
9 the Transport Department to sit on this safety  
10 committee.

11 CHAIRMAN: So although they are directors of the company,  
12 you specifically decided not to invite them because of,  
13 what, a potential conflict? Is that it?

14 MR SAMUEL CHENG: No, it's not because of the conflict;  
15 because the operation of our company is the  
16 responsibility of the management. The Transport  
17 Department has two officials sitting on the board, and  
18 generally speaking, the operation is a matter for the  
19 management of the company. We have non-executive  
20 directors. They are not involved in operation of the  
21 company.

22 CHAIRMAN: Thank you for your answer to that. Those are the  
23 questions that counsel has to ask you and those are the  
24 questions that we have. I understand that there is  
25 a final short statement that you wish to make, and if  
26

1           that's so, please do so now.

2                       Closing statement by MR SAMUEL CHENG

3   MR SAMUEL CHENG:   Thank you, Chairman.

4           Mr Chairman, on behalf of New World First Bus and  
5   Citybus, I would like to thank the following members  
6   over the past two days: first, I thank the IRC for  
7   inviting us to this hearing; Mr Duncan and his team has  
8   raised questions to us and that allowed us the  
9   opportunity to talk about the operation of the company;  
10   third, I would like to thank the secretariat of the IRC  
11   for the arrangement over the past fortnight; finally,  
12   I would like to thank the simultaneous interpreters for  
13   their service.

14           Thank you very much, Mr Chairman.   Thank you,  
15   members.

16   CHAIRMAN:   Finally, then it remains for us to thank you for  
17   your oral evidence and to remind you of the various  
18   matters that you said that you would provide us with in  
19   writing in due course.   To assist you with that, the  
20   secretariat will identify those matters and give you the  
21   transcript references so that you will see what it is  
22   that is sought from you.

23   MR SAMUEL CHENG:   Most certainly, sir.   Thank you.

24   CHAIRMAN:   Thank you very much.

25   MR SAMUEL CHENG:   Thank you, Mr Chairman.

26

EVIDENCE FROM NEW WORLD FIRST BUS SERVICES LTD AND ...1

CITYBUS LTD: MR SAMUEL CHENG, MR WILLIAM

CHUNG, MR PAUL LI, MR GARETH NG, MR KENNETH

LIT, MR KENNY SO (given in Cantonese;

transcription of the simultaneous

interpretation)

Examination by MR DUNCAN (continued) .....1

Closing statement by MR SAMUEL CHENG .....134

1 2018 年 5 月 30 日

2 上午 10 時正恢復聆訊

3 出席人士如前。

4

5 主席：（經傳譯員）各位早晨。鄧大律師。

6 MR DUNCAN：（經傳譯員）多謝你，主席。鄭先生，早晨。

7 鄭偉波先生：早晨。

8 MR DUNCAN：（經傳譯員）各位先生，早晨。今朝早我首先想問一啲問題係關於一  
9 啲裝置嘅，係關乎巴士安全方面嘅裝置。首先，我就想講下嗰個俗稱係黑盒嗰個  
10 裝置，我就想請你睇 CTB-1，55 頁。

11 鄭偉波先生：睇到。

12 MR DUNCAN：（經傳譯員）唔該晒。想請你睇嗰一頁，寫住“1”，係喺我哋個巴士  
13 嗰度引入黑盒嗰個部分，請你睇一睇。睇到嗎？

14 鄭偉波先生：睇到。

15 MR DUNCAN：（經傳譯員）嗰幾段文字就係咪講及喺巴士嗰度安裝呢個黑盒嘅歷史  
16 呀？

17 鄭偉波先生：正確。

18 MR DUNCAN：（經傳譯員）似乎就係喺 2003 年嘅 10 月開始，當時運輸署就係有一  
19 個咁嘅要求，就要求呢啲裝置就要係安裝喺巴士嗰度嘅，係咪呀？

20 鄭偉波先生：正確。

21 MR DUNCAN：（經傳譯員）咁就係適用於 2004 年 7 月 1 號之後首次登記嘅巴士，  
22 係咪呀？

23 鄭偉波先生：正確。

24 主席：（經傳譯員）或者係將 2013 年 10 月運輸署嗰封信亦都打上嚟，好唔好呀？  
25 應該就係附件一。

26 MR DUNCAN：（經傳譯員）係 TD-2，205 頁。

27 鄭偉波先生：我哋睇見。

28 MR DUNCAN：（經傳譯員）2007 年之後註冊嘅巴士就係有埋黑盒，係咪呀？

1 鄭偉波先生：喺嗰個生效日期之後，我哋首批登記嘅車就係喺 2007 年嘅。換句話嚟  
2 講，喺 04 至到 07，即係我哋登記嘅車之前，有一段時間我哋係有新車嘅。而喺  
3 2007 年，我哋首次登記嘅車係有黑盒嘅。

4 MR DUNCAN：（經傳譯員）好，巴士公司係咪就係你哋接收嘅巴士嘅時候，你自己  
5 有埋嗰啲黑盒呢？

6 鄭偉波先生：正確。

7 MR DUNCAN：（經傳譯員）唔該晒。CTB-1，55 頁，你就話喺 2010 年嘅時候，你  
8 哋公司採取主動就將黑盒係提升，咁係成為一個綜合系統嘅一部分，裏面係有埋  
9 一個功能，就係自動有嗰個到站嘅廣播嘅，係咪咁呀？

10 鄭偉波先生：正確。

11 MR DUNCAN：（經傳譯員）唔該。

12 主席：（經傳譯員）律師，請你停一停。講番嗰份文件嘅第 2 頁，就講及係嗰個基本  
13 嘅要求係乜嘢嘢，但係係 2003 年嗰封信嘅，下面嗰頁，嗰個要求就喺嗰一頁嘅  
14 度列咗出嚟嘅。

15 MR DUNCAN：（經傳譯員）係，不如係請你睇番嗰一版，TD-2，206 頁，第 2 段。  
16 請問你睇唔睇到嗰個要求呢？即係話運輸署嘅要求。

17 鄭偉波先生：睇到。

18 MR DUNCAN：（經傳譯員）係當時嗰個情況。

19 鄭偉波先生：睇到。

20 MR DUNCAN：（經傳譯員）咁就係 2003 年發出嗰個要求嘅時候嘅細節，就有分開 A  
21 同埋 B 兩項嘅。首先，就係嗰個營運時間開始，就係結束時間，中間係冇開引擎  
22 嘅時間，行緊車嘅時間。B 嗰項就係車速。

23 主席：（經傳譯員）對唔住，律師。第一項嗰度講出就係點解有咁嘅要求嘅，係咪  
24 呀？佢呢度就話係電子數據記錄系統嘅目的就係希望讓巴士公司係有呢個工具去  
25 監察，同埋管理喺路上嘅車速，同埋佢嘅巴士同安全有關嘅表現，係間接就希望  
26 鼓勵駕駛嘅行為係更好嘅。鄭生，睇到嘛？

27 鄭偉波先生：睇到。

28 主席：（經傳譯員）你嘅理解係點呢？你嘅理解係運輸署喺呢方面，佢扮演咩嘢角色  
29 呢？如果有嘅話。即係話佢有咁嘅要求，你回應佢嘅要求，咁喺你眼中，運輸署  
30 係咪有一個角色？同埋個角色係咩嘢呢？

31 鄭偉波先生：運輸署係有個角色嘅，係由佢推動巴士公司去安裝呢個黑盒嘅裝置。

1 主席：（經傳譯員）之後呢，個角色係點呢？

2 鄭偉波先生：之後，巴士公司就要符合呢一個指引嘅要求。而呢一個喺當時嚟講，個  
3 個科技就係去到呢啲嘅內容，但係喺幾年之後有再新嘅科技，當我哋公司知道咗  
4 之後，於是我哋就提升我哋個黑盒嘅系統。

5 主席：（經傳譯員）你點知道係有新科技嘅發展呢？

6 鄭偉波先生：呢個我畀我同事鍾生嚟到答大家。

7 主席：（經傳譯員）係，鍾先生。

8 鍾澤文先生：冇錯，當時我哋亦都係有研究緊喺一個巴士上面嘅報站裝置。因為呢個  
9 報站裝置，我哋當時就考慮到唔想令啲司機係加重佢個工作負擔，所以我哋就  
10 係研究一個利用衛星定位嘅方法係去自己動報站嘅。喺研究呢樣嘢嗰陣時係理解  
11 到可以將兩個系統串連咗一齊嘅，咁就可以除咗話提供運輸署所要求嘅一啲資料  
12 之外，亦都可以加埋啲巴士嘅位置，係咁樣產生出嚟嘅，多謝。

13 主席：（經傳譯員）鄧生。

14 MR DUNCAN：（經傳譯員）唔該主席。我嘅理解啱唔啱呢？就係公司係主動提升個  
15 個科技，用更多嘅科技，係咪呢？

16 鄭偉波先生：正確。

17 MR DUNCAN：（經傳譯員）咁講啱唔啱呢？喺 2003 年至到 2010 年之間，因為你話  
18 2010 年嘅時候，你主動係提升咗嘛，03 至到 10 年之間，運輸署冇要求喺黑盒  
19 嗰方面係採取新嘅嘅科技，除咗係早喺 2003 年已經作出嘅要求之外，冇要求有  
20 新嘅科技，係咪呀？

21 鄭偉波先生：我同事鍾生回答。

22 鍾澤文先生：係有嘅。

23 MR DUNCAN：（經傳譯員）我又想睇番你嘅意見書，亦都睇番第 55 頁，喺嗰版嘅下  
24 面嗰度，你就講出就係話逐秒逐秒嘅數據，呢個黑盒可以提供逐秒逐秒嘅數據  
25 嘅，呢啲數據今時今日喺黑盒嗰度係咪都係有嘅呢？

26 鄭偉波先生：呢個技術性嘅問題，我同事列先生回答嘅。

27 列俊華先生：係正確嘅。

28 MR DUNCAN：（經傳譯員）我想問下，你哋有嗰個係自動嘅巴士到站廣播入咗去個  
29 黑盒嗰個制度之後——個系統之後，直至而家有冇新嘅提升或者改進呢？

30 列俊華先生：係有嘅。

31 MR DUNCAN：（經傳譯員）有提升，有改進係邊啲呢？

1 列俊華先生：我哋喺上一年，2017 年，我哋開始安裝新嘅系統，我哋簡稱係  
2 “RTS2”，Real Time System 2，裏面我哋加入啲新嘅功能，包括正如鄭生  
3 喺昨天講，提及過嘅，我哋會喺第三季當所有車隊完成安裝呢套系統之後，就會  
4 可以提供一個顯示，當車輛係發覺超速嘅時候，我哋會提供一個顯示通知車長。

5 MR DUNCAN：（經傳譯員）嗰個係實時嘅系統，呢個係未做嘅，係咪呀？即係仲未  
6 喺整個車隊嗰度係安裝呢個實時系統嘅，係咪呀？啱唔啱呀？

7 列俊華先生：正確，未完全安裝喺所有車隊裏面。

8 MR DUNCAN：（經傳譯員）除咗嗰個實時系統之外，我想問有冇其他方面係有所提  
9 升呢？即係喺黑盒嗰方面。我所講嘅時間就係你將黑盒同埋到站廣播結合咗之  
10 後，到而家中間有冇啲咩嘢地方係有提升，有改進呢？

11 列俊華先生：冇，暫時喺嗰段時間係有改進嘅。

12 MR DUNCAN：（經傳譯員）公司係幾時決定將呢一個實時嘅系統加落去呢？

13 列俊華先生：係，我哋大約喺 2015 年，當我哋城巴專營權由運輸署批准，政府批准  
14 之後，其中一條條款係要求我哋提供一個實時到站畀乘客，英文係  
15 “Estimated Time of Arrival”。由於呢一個系統提供呢一個 ETA 嘅系統  
16 需要有一個實時嘅功能，所以我哋喺嗰段時間開始就籌備去完成為所有新巴、城  
17 巴嘅車隊提供實時報站。

18 MR DUNCAN：（經傳譯員）我就係想請你睇番份文件...

19 主席：（經傳譯員）不過你未繼續之前，我就想問，你較早時候就講過 RTS2 呢個實  
20 時系統就會喺第三季係落實嘅，係咪 2018 年嘅第三季呀？

21 列俊華先生：正確。

22 主席：（經傳譯員）唔該晒。鄧大律師。

23 MR DUNCAN：（經傳譯員）多謝你，主席。或者想你睇一睇呢份文件 BM-1，35  
24 頁。你睇緊份文件就係有一個新聞發布咁樣嘅，而家係咪睇緊份文件？

25 鄭偉波先生：我哋而家睇緊。

26 MR DUNCAN：（經傳譯員）唔該晒。

27 主席：（經傳譯員）或者花少少時間係睇睇個內容，唔該。

28 鄭偉波先生：我哋睇完嘞，份文件。

29 MR DUNCAN：（經傳譯員）唔該晒。佢就係話 NEC 就係攞到嗰份合約，就係一個綜  
30 合嘅自動報站系統同埋嗰個數據紀錄嘅系統，咁就係城巴、新巴嘅系統嚟嘅，個  
31 標題睇到，係咪？

- 1 鄭偉波先生：係，冇錯，睇到。
- 2 MR DUNCAN：（經傳譯員）係 2012 年 1 月 13 號嘅。
- 3 鄭偉波先生：見到。
- 4 MR DUNCAN：（經傳譯員）第一段就係宣布，代表 NEC 宣布就係話中咗一份合約係  
5 關於七百零二部巴士嘅，呢啲就係新巴嘅巴士同埋一百七十二部城巴嘅巴士。
- 6 鄭偉波先生：見到。
- 7 MR DUNCAN：（經傳譯員）同埋佢講到就係運用呢一個嘅報站系統 ABSA 同埋個  
8 數據嘅儲藏 DL 嘅系統，係咪？
- 9 鄭偉波先生：因為呢個係去到啲具體嘅操作，我畀我同事鍾生答。
- 10 鍾澤文先生：係，正確嘅。
- 11 MR DUNCAN：（經傳譯員）唔該晒。或者第 3 段，係咪講到呢個 BSA 同埋 DL 嘅系  
12 統就係結合咗呢個衛星定位嘅系統，巴士個車速計嘅訊號同埋有關一啲特別嘅  
13 技術係可以克服到一啲街道狹窄或者高樓大廈所產生嘅一啲假嘅訊號嘅問題，係  
14 咪呢？
- 15 鍾澤文先生：正確。
- 16 MR DUNCAN：（經傳譯員）最後個段，呢一版，係咪提到就係話有一個控制嘅裝  
17 置，咁就記錄咗個巴士位置速度全日都係做㗎嘞，係咪？
- 18 鍾澤文先生：正確。
- 19 MR DUNCAN：（經傳譯員）同埋呢個數據就會係用 Wi-Fi，就係巴士回廠嘅時候，  
20 就會係加番入去個數據庫嗰度咁樣？
- 21 鍾澤文先生：正確。
- 22 MR DUNCAN：（經傳譯員）究竟呢份合約對公司嚟講係點樣呢？如果你睇番你嘅陳  
23 述書第 55 版嗰度，CTB-1。
- 24 主席：（經傳譯員）鄧律師，等一等，我想問一個問題，第 1 段嗰度就有兩部分嘅，  
25 第一，就係最近係佢哋中咗標；第二，就係提到嚟成功推行呢一個系統之後，就  
26 係城巴嘅七百六十部巴士之後，佢哋係有呢一套嘅 ABSA 同埋 DL 嘅系統。我想  
27 問一條問題，就係第一，呢個係咪準確嘅？第二，就係呢個系統幾時係推行嘅？
- 28 鍾澤文先生：主席，我哋呢個系統係首先嚟城巴嘅專營權一嗰度先做先嘅，當時我哋  
29 做咗專營權一之後，係再去推廣到嚟新巴同埋城巴嘅專營權二嘅。
- 30 主席：（經傳譯員）咁係幾時安裝呀？嚟嗰個時間性，幾時裝？

1 鍾澤文先生：城巴嘅專營權一就係喺 2011 年嘅 6 月完成嘅，城巴嘅專營權二同埋新  
2 巴嘅安裝喺 2012 年嘅年尾就完成安裝嘅。

3 主席：（經傳譯員）唔該晒。鄧律師。

4 MR DUNCAN：（經傳譯員）多謝你，主席。好，而家想睇番第 55 版嗰度，底嗰度就  
5 有講到 2010 年我哋公司就採取步驟就係提升嗰個黑盒，就做一個綜合嘅制度，  
6 咁結合埋嗰個巴士報站嘅系統能力咁樣，呢個係咪 NEC 係有份㗎，呢度？

7 鍾澤文先生：係，都係 NEC 幫我哋做嘅。

8 MR DUNCAN：（經傳譯員）係 2010 年定 2011 年，個實際日期？

9 鍾澤文先生：2011 年我哋開始同呢個 NEC 去商討同埋研發嘅，咁 2011 年 6 月係裝  
10 好咗城巴嘅專營一嘅車隊。

11 MR DUNCAN：（經傳譯員）係。你講到呢版最底嗰度，你講到話即係 2010 年就係  
12 有啲咁嘅情況發生，呢個係咪 NEC 嗰個系統，還是呢一個係另一套嘅呢個結合  
13 嘅系統，係咪 NEC 個系統定係點呀？

14 鍾澤文先生：你可唔可以重複個問題？

15 MR DUNCAN：（經傳譯員）其實我就係要去確定一下，究竟喺 2010 年嘅時候，我  
16 哋睇到呢版最底嗰度，就係 55 頁，佢就話喺 2010 年嘅時候，我哋公司就採取  
17 咗措施係提升嗰個黑盒，咁就變成一個結合嘅系統，可以結合呢一個報站嘅系  
18 統，睇嚟呢個係即係 NEC 做，根據你正話所講嘅，NEC 有份做，咁 2011 年就係  
19 NEC 做咗好多呢啲咁嘅安裝㗎，係咪？

20 鍾澤文先生：冇錯。

21 MR DUNCAN：（經傳譯員）喺 2010 年嘅時候，其實係咪應該係 2011，唔係 2010  
22 呢？我問題係咁。

23 鄭偉波先生：主席，如果我哋去研發一個新嘅系統，係需要時間嘅，我哋喺 2010 年  
24 嘅時候就採取個主動，就搵 NEC 去設計呢個新嘅系統。而有咗呢個新嘅系統之  
25 後，我哋要安裝七百多部嘅巴士係需要時間嘅，就因為每日可能安裝幾部咁樣，  
26 因為我哋嘅車就需要每日運作嘅。由佢開始安裝至到安裝完成就都要成一年時  
27 間，所以喺我哋個 submission，請可唔可以去下一頁呢？係，我哋呢度就講  
28 咗，就係我哋城巴專營權一就係 2011 年嘅 6 月就完成咗安裝呢個系統。而至於  
29 城巴嘅專營權二同埋新巴就去到 2012 年尾先至完成安裝呢個系統，就係同一個  
30 系統㗎嘅。因為當時城巴專營權一喺佢嗰個 franchise renewal 嘅時候，政  
31 府就有個要求要我哋提供嗰個報站系統，所以城巴專營權一係首先要完成呢個安  
32 裝嘅，多謝。

33 MR DUNCAN：（經傳譯員）係，唔該晒，你澄清呢一點。當時你哋採取咗措施，10  
34 年嘅時候，就話安裝呢一個系統，11 年就裝好，咁就 NEC 幫手裝嘅，係咪？

1 鄭偉波先生：正確。

2 MR DUNCAN：（經傳譯員）唔該晒。

3 主席：（經傳譯員）鄧律師，等等先。喺個城巴第一號嘅專營權續期嘅時候，政府  
4 就有個規定，就話你係需要一個報站系統咁樣，而家呢啲資料有冇文件畀我哋，  
5 有冇一啲證供係話有咁樣嘅規定呢？

6 鄭偉波先生：喺個專營權——喺專營權文件裏面，就有提及到呢一個報站系統嘅，但  
7 係當我哋當時係續個專營權嘅時候，除咗個專營權文件之外，我哋亦都透過書  
8 信來往嘅形式就承諾有啲其他嘅事項需要做嘅，呢個就我哋公司係有呢份文件  
9 嘅，多謝。

10 主席：（經傳譯員）可唔可以係將嗰份文件畀個副本畀委員會呢？應該係有幾份文件  
11 嘅，係咪？我哋可以跟進呢一方面嘅情況。

12 鄭偉波先生：可以。

13 主席：（經傳譯員）唔該晒。

14 MR DUNCAN：（經傳譯員）我諗剛才都有提到另外一份文件，就係話個專營權，  
15 咁提到就話個實時嘅能力咁樣嘅，實時功能咁樣嘅，係咪呀？正話係咪有提  
16 到？鄭生。

17 鄭偉波先生：有提到。

18 MR DUNCAN：（經傳譯員）呢份係咪即係另外一個要求嚟，唔係同一個要求嚟呀？

19 鄭偉波先生：鍾生會回答呢個問題。

20 鍾澤文先生：係，嗰個係另外一個要求嚟嘅。

21 MR DUNCAN：（經傳譯員）係咪喺個專營權文件當中有講嘅呢？

22 鍾澤文先生：都係好似頭先鄭生講，我哋係另外書信，就喺個專營權嘅文件裏面。

23 MR DUNCAN：（經傳譯員）嗰啲文件你哋大家書信來往嗰度係咪有證據嚟嘅呢，  
24 有資料呢？

25 鍾澤文先生：係有嘅，我哋可以事後提供番。

26 MR DUNCAN：（經傳譯員）唔該晒。

27 主席：（經傳譯員）唔該晒。嗰個時間係點樣呢，邊一份嘅專營權嗰個時間係點樣  
28 嘅，即係續期嗰啲資料，時間性係點樣㗎？

29 鄭偉波先生：我哋同運輸署呢啲嘅書信來往，就係喺政府頒發個專營權畀我哋之前幾  
30 日，我哋就要作出呢啲嘅承諾，多謝。

1 主席：（經傳譯員）咁邊一年呀？鄭生，呢個係一號定二號專營權㗎㗎？

2 鄭偉波先生：係 2015 年。

3 主席：（經傳譯員）唔該。

4 鄭偉波先生：而個專營權就係 2016 年開始先至係生效嘅。

5 主席：（經傳譯員）係咪二號嘅專營權呀？

6 鄭偉波先生：係專營權一。

7 主席：（經傳譯員）唔該。係，律師。

8 MR DUNCAN：（經傳譯員）我想繼續，跟住想睇下究竟呢一個黑盒就係提供啲乜嘢  
9 嘅數據，同埋呢啲數據係擺嚟點樣用。我想請你睇番你嘅第一部分嘅意見書，  
10 CTB-1，33 頁。

11 鄭偉波先生：我見到。

12 MR DUNCAN：（經傳譯員）唔該。目前我想睇而家嗰個系統現有嘅功能，遲啲我先  
13 至會問嗰個實時嘅功能。而家我想關注就係未做到嗰個實時功能之前嘅現況，喺  
14 嗰版下面嗰度，8(a)(i) 嗰段，你有咁提到嘅，就話安裝喺巴士上面嘅黑盒所收  
15 集到嘅數據就係會上番去嗰個伺服器，咁就每晚都做嘅，嚟到係去做一啲報告出  
16 嚟，啲報告愛嚟就去監察我哋車長嘅駕駛行為嘅，睇到呢句嘛？

17 鄭偉波先生：睇到。

18 MR DUNCAN：（經傳譯員）無疑嘅就係如果有一個車長係超速，譬如話開到 80 公里  
19 一小時，咁肯定就會喺嗰個伺服器嗰度係顯示到出嚟，係咪呀？

20 鄭偉波先生：不是。喺我哋未有 real time 嗰個系統之前嘅情況，我先講一講，咁  
21 就係每一晚架車返到嚟我哋嘅車廠，我哋先至會將啲數據就傳輸去我哋公司嘅  
22 電腦系統，就唔係實時我哋知得到嘅。而將來我哋係有個實時系統嘅時候，呢啲  
23 資料就係會每十五秒就傳輸一次上嚟我哋公司嘅系統，兩者係有分別嘅。

24 MR DUNCAN：（經傳譯員）明白。我哋先集中睇嗰個未有實時功能，即係現在嗰個  
25 系統。上傳咗啲數據，夜晚上傳畀個伺服器，嗰度都可以睇到話一位司機就係  
26 超過咗每小時 70 公里嗰個車速，㗎唔㗎呀？

27 鄭偉波先生：或者我再詳細少少嚟到講一講，當架車喺運作緊嘅時候，個巴士喺日頭  
28 運作嘅時候，如果係發生咗超速嘅情況，我哋車上面嘅黑盒就會記錄低呢一個超  
29 速嘅事件，當呢啲資料喺夜晚上傳到我哋公司嘅電腦系統，我哋嘅電腦系統就會  
30 將呢啲嘅數據嚟到整理，而第二日--對唔住，係大約五日之後，就會可以出到  
31 一個超速嘅事件嘅報告。咁呢五日到底係咩嘢事呢？我哋嘅系統就係需要將呢個  
32 超速嘅事件去配對番我哋公司另外一個嘅八達通系統，就去搵出相關嘅車長名

1 字，呢個就需要幾日嘅時間。咁有咗呢一個超速事件嘅報告，我哋嘅同事就會作  
2 出跟進，多謝。

3 MR DUNCAN：（經傳譯員）咁其他嘅問題，即係譬如話車長可能係有其他嘅失誤，  
4 或者佢嘅行為係唔妥，譬如話佢加速加得太快，又或者佢個踩剎動器，即係踩  
5 brake 係太犀利，會唔會亦都好似係超速咁樣樣，喺你個公司個電腦系統，  
6 喺個伺服器嗰度係睇到呢啲資料呢？

7 鄭偉波先生：係有呢啲資料，但係我哋個系統冇去編製個報告出嚟。

8 MR DUNCAN：（經傳譯員）目前唯一會產生嘅報告就關於個車速嘅報告，啱唔啱  
9 呀？

10 鄭偉波先生：正確。

11 MR DUNCAN：（經傳譯員）個報告出到嚟嘅時候，咁就會點嘅呢？就咁躉咗喺度，  
12 定抑或會有人係有咁嘅責任，就係要逐個呢啲報告去睇嘅呢？

13 鄭偉波先生：當呢個報告出咗嘅時候，我哋個系統就會自動產生電郵去畀我哋嘅營運  
14 部門。我哋公司係有三個營運部門嘅，係城巴一部、城巴二部同埋新巴嘅營運  
15 部。喺每一個部門，佢當收到呢個電郵之後，就知道喺佢個部門嘅車長有邊啲嘅  
16 人係牽涉咗喺呢啲超速嘅事件裏面，之後就會根據我哋公司嘅內部紀律處分指引  
17 嚟到作出合適嘅處分，可以係--如果係初犯，唔係嚴重嘅話，就係用提示嘅形  
18 式。如果係嚴重或者係再犯嘅，就會係用警告嘅形式，多謝。

19 MR DUNCAN：（經傳譯員）我咁嘅理解啱唔啱呢？目前嗰個監察嘅系統，即係你監  
20 察住車長嗰個行為係只限於個車速嘅啫，係咪呀？

21 鄭偉波先生：係呢兩方面嘅，喺每一日嗰個慣常嘅監察就係車速方面，而另外一方  
22 面，當有乘客投訴或者有交通意外發生，我哋有同事就會搵番相關嘅行車紀錄資  
23 料作出調查，咁調查嘅結果如果係成立嘅，相關嘅車長係會受到紀律處分。

24 MR DUNCAN：（經傳譯員）講番嗰個黑盒，淨係講嗰個黑盒。個黑盒其實只係監察  
25 嗰個車速嘅，係咪呀？就睇唔到，亦都唔會監察車長嘅其他行為，啱唔啱呀？

26 鄭偉波先生：嗰個黑盒就唔係淨係監察車速，喺我哋嗰個遞交嘅...

27 MR DUNCAN：（經傳譯員）對唔住，或者等我再問過個問題，我諗我知你想講乜  
28 嘢。講到嗰啲報告，報告即係話喺呢個伺服器嗰度嚟自黑盒嗰啲報告，嗰啲報告  
29 就只關乎係車速，就唔會係反映到其他車長嘅失誤嘅，係咪呀？咁講啱唔啱呢？

30 鄭偉波先生：我哋恒常性電腦系統產生嘅報告就只係有關超速嘅，而喺我哋個系統裏  
31 面所記錄嘅數據資料就唔只係超速嘅，就包括當時駕駛嘅時候，嗰架車所產生嘅  
32 G force，咁都有記錄低喺處嘅。當然，就仲有其他個車長嘅行為，例如有冇開  
33 到車門，都會有記錄到喺處嘅，多謝。

1 MR DUNCAN：（經傳譯員）我咁嘅理解啱唔啱呢？嗰啲講嘅就唔會係嗰報告嗰度，  
2 即係唔會產生一個報告係報告呢啲嘢嘅，啱唔啱呀？目前嗰個情況係咁。

3 鄭偉波先生：係唔會自動產生呢個報告。如果我哋公司覺得有需要做調查嘅時候，就  
4 可以將呢啲嘅資料喺個電腦裏面擺出嚟愛嚟做調查工作。

5 主席：（經傳譯員）我諗我哋嘅理解就咁嘅，係咪呀？有報告，只係關乎車速，就可  
6 以產生一個報告，但係如果你想做調查，亦都可以有其他嘅數據，其他資料嘅，  
7 啱唔啱呀？

8 鄭偉波先生：正確。

9 MR DUNCAN：（經傳譯員）唔該晒，主席先生。我哋集中番講車速，我想請你再睇  
10 番你自己嗰個意見書，今次係想睇 26 頁，CTB-1，26 頁。

11 鄭偉波先生：睇到。

12 MR DUNCAN：（經傳譯員）唔該。想請你--嗰個講到係開動引擎，開同關，你呢度  
13 就話啲黑盒係用嚟監察每部巴士嘅車速，同埋就會係自動係產生呢一個超速嘅例  
14 外報告出嚟，睇唔睇到嗰句呀？

15 鄭偉波先生：睇到。

16 MR DUNCAN：（經傳譯員）如果你繼續睇落去，你就會見到係其實都講及一啲剛剛  
17 我問及你嘅一啲情況嘅。

18 鄭偉波先生：睇到。

19 MR DUNCAN：（經傳譯員）如果嗰個車速係超過咗一小時 70 公里嘅話，咁就係嗰個  
20 黑盒嗰度會有一個紀錄，同埋會自動成為嗰個報告嘅一個部分，係咪呀？啱唔  
21 啱？

22 鄭偉波先生：正確。

23 主席：（經傳譯員）乜唔係 75 咩？呢度唔係 75 就會有報告？

24 鄭偉波先生：我哋係監察 70 公里嘅限速，但係我哋 set 咗落去嗰個黑盒，就係要  
25 75 公里就連續十秒鐘先至會產生一個 event 嘅。

26 主席：（經傳譯員）即係話嗰度係有兩樣嘢睇嘅，一個就 75，同埋仲要連續十秒，  
27 要符合兩個條件先得㗎，係咪呀？

28 鄭偉波先生：正確。

29 MR DUNCAN：（經傳譯員）邊條線，邊條路都好喇，咁都係會咁樣，係咪呀？

30 鄭偉波先生：正確。

1 MR DUNCAN：（經傳譯員）講番個速限即係 50 公里，一小時 50 公里個速限咁  
2 講，你睇到就係超過 55 公里係連續十秒，而個路段個速限就係每小時 50 公  
3 里，你睇到呢句嘛？

4 鄭偉波先生：睇到。

5 MR DUNCAN：（經傳譯員）我想問一個問題，就係嗰啲路段，即係而家嗰啲路段，  
6 我嘅理解啱唔啱呢？呢啲係隨意咁抽嘅路段，係咪？即係公司其實係隨意咁樣係  
7 不時揀呢啲路段出嚟嘅，係咪呢？

8 鄭偉波先生：不是，我哋公司——就我哋公司揀咗二十五個路段，佢限速係 50 公里  
9 嘅路段，而呢個二十五個路段就包括咗係落長嘅斜路，長嘅斜路，係落斜嘅。第  
10 二，呢啲路段係有啲急彎嘅。第三，呢啲路段以前曾經係有啲比較大型嘅交通意  
11 外發生過嘅，就不是隨意嘅。

12 MR DUNCAN：（經傳譯員）或者我想請你係睇一睇第 56 版，係你第二份陳述書嘅第  
13 56 頁，CTB-1，56。

14 鄭偉波先生：睇到。

15 MR DUNCAN：（經傳譯員）正話有問題問到，你喺呢度——即係以前問過問題，你喺  
16 呢度答咗嘅，2a) 嗰度就係有啲準則搵出呢啲偵速嘅一啲嘅路段，係咪？你睇唔  
17 睇到呢句？

18 鄭偉波先生：睇到。

19 MR DUNCAN：（經傳譯員）呢度有講，呢廿五條嘅路段有十一個路段就係喺 2013  
20 年 6 月嗰度係搵出嚟嘅，另外就係有 14 年 9 月就係有另外三條，跟住 18 年 3  
21 月就有十一條嘅路段咁樣。咁呢啲路段有幾長㗎，其實？

22 鄭偉波先生：我畀我同事鍾生答你。

23 鍾澤文先生：一般呢啲路段都會係超過一百米㗎。

24 MR DUNCAN：（經傳譯員）點解你不時咁增加呢啲路段呢？初期，十一，跟住三，  
25 跟住加多十一，點解不斷咁加呢？點解嘅？

26 鍾澤文先生：（經傳譯員）喺我哋初初引入呢個方法去監控嗰個路段嗰陣時，我哋係  
27 有同我哋嘅工會代表去商討，亦都同佢哋就傾談過有啲咩嘢嘅路段，因為我哋都  
28 要佢哋知道係邊啲路段，從而佢哋會係去跟番嗰度路段嘅車速咁樣。我哋亦都日  
29 後喺度一路加，我哋都有同佢哋——即係去話畀佢哋聽，等佢哋知道嘅，㗎。

30 MR DUNCAN：（經傳譯員）可唔可以咁講呢，係咪公道呢？呢廿五個路段其實就係  
31 所有呢啲巴士所行嘅路線嘅路段係一小部分嚟嘅啫，係咪？

32 鍾澤文先生：可以咁樣講，不過就呢啲都係我哋覺得係比較危險㗎，如果佢係超過

1           50 公里嘅超速嘅話，呢啲路段係比較危險嘅。

2   MR DUNCAN：（經傳譯員）其實喺搵呢啲路段嘅時候，係點樣搵㗎，係做啲乜嘢？

3   鍾澤文先生：正如頭先鄭生所講嘅，我哋都係跟番個三個準則，佢如果係落長斜，或  
4       者個段路係好多急彎嘅，或者我哋發覺呢段路段過往都經常發生一啲交通意外，  
5       或者發生過嚴重交通意外，我哋去搵呢啲路段係即係用呢三個因素去考慮嘅。

6   MR DUNCAN：（經傳譯員）係，我明白，你咁樣搵。但係喺技術上，你點樣係將佢  
7       加入去個系統入面呢？

8   鍾澤文先生：技術上，我哋喺個系統嘅電子地圖上面，我哋喺個路段，我哋畫咗  
9       落個地圖裏面，咁 set 番頭先我哋所講嘅準則，譬如話 55 公里十秒連續咁  
10      樣，咁佢就會加咗落去個系統裏面。

11   MR DUNCAN：（經傳譯員）點解你唔將所有嘅路線都加晒入去個系統入面，你咪全  
12      部都睇晒㗎，即係 70 或者 50 嘅情況你都可以睇晒，所有路段，邊度都好，都  
13      睇到晒，咁得唔得？

14   鍾澤文先生：理論上係可以嘅，不過個個要花嘅工夫就會好長，因為我哋要分番我哋  
15      所有唔同路線，或者香港嘅道路係全部要喺個電子地圖裏面就分番邊啲係 50  
16      公里，邊啲係 70 公里，咁嚟去做，呢個比較花個工夫。

17   鄭偉波先生：主席，我有少少補充。我同意嘅，現時我哋呢二十五個路段就唔能夠涵  
18      括晒我哋所有路線所行經嘅路段。而家我哋就係已經有二十五個揀咗係比較我哋  
19      覺得係高風險嘅位置。除此之外，我哋打算就係喺將來就會係以隨機嘅形式就再  
20      劃一啲附加嘅路段愛嚟偵測呢啲 50 公里限速嘅駕駛情況。其實呢個我哋打算做  
21      呢一樣嘢，就同警察去捉快車係類似嘅，現時有啲影相機就固定裝喺某啲嘅位置  
22      個處。而除此，警察亦都係會以隨機嘅方法，有啲流動嘅快速攝影機，即係愛嚟  
23      捉啲快車嘅攝影機，我哋其實都係由呢度啟發到出嚟，我哋而家就打算係會咁  
24      樣做嘅，但係我哋咁樣做之前，我哋亦都需要同我哋嘅工會溝通嘅，多謝。

25   MR DUNCAN：（經傳譯員）工會其實目前佢哋知唔知個廿五段嘅路段，佢哋知唔知  
26      㗎？

27   鄭偉波先生：知道嘅，因為呢個係刊登咗喺我哋嘅車長手冊嘅附件裏面。

28   MR DUNCAN：（經傳譯員）呢個...

29   主席：（經傳譯員）鄧律師，等等先。我哋即係確定一下先，譬如話附件一嗰度，係  
30      咪？CTB-2，169-88 頁，英文版就係呢度，你係咪講緊呢一炸嘅地點？而呢啲  
31      路段係列咗出嚟嘅，係咪？

32   鄭偉波先生：正確。

33   主席：（經傳譯員）呢個就係個廿五個路段，所有呢啲路段而家就喺呢個系統嗰度係

1 監察緊嘅，同埋係會出報告。如果個車係制動 55 咁樣，即係巴士去到 55，咁就  
2 會有報告出，係咪？

3 鄭偉波先生：正確。

4 MR DUNCAN：（經傳譯員）而家你準備有實時系統，咁有冇一啲計劃就係增加呢啲  
5 路段嘅數目呢，就超過二十五個呢？

6 鄭偉波先生：實時系統同幾多個路段有直接關係嘅，而我哋對於增加呢啲監偵嘅路  
7 段，喺我哋公司嚟講，係覺得冇問題嘅，但係我哋亦都要同我哋嘅工作嚟到商  
8 討，所以就頭先我有講過，我哋有個計劃就係以隨機嘅形式嚟到畫落去我哋個電  
9 子地圖嗰處，愛嚟偵測更多嘅 50 公里限速嘅路段，多謝。

10 MR DUNCAN：（經傳譯員）咁係咪即係話呢個係同工會一齊傾，等佢哋知道嗰個結  
11 果係點樣呢？

12 鄭偉波先生：我哋要先話畀佢知，當然唔係問佢哋擺批准，要佢哋要知道。

13 MR DUNCAN：（經傳譯員）而家就睇睇嗰個實時系統嗰個建議，或者想請大家睇一  
14 睇第 33 頁，即係 CTB-1，33，係閣下嘅陳述書嚟嘅。底嗰度，第三行，最後嗰  
15 度第三行，我哋打算就係取代嗰個黑盒系統，咁新嘅系統就係一個有實時嘅能  
16 力，個時間就係 2018 年第三季咁樣做。到時我哋就能夠係監察車長嘅駕駛行  
17 為，係實時可以做到，同時就係有需要，就係即時咁樣係採取行動嘅。喺呢方  
18 面，我就想請你睇睇你第二份嘅陳述書，就係第 58 頁。

19 鄭偉波先生：睇到。

20 MR DUNCAN：（經傳譯員）唔該晒。你睇到最底嗰度又係有一項嘅，嗰個實時嘅系  
21 統就會係發出一啲即時嘅響號，即係一啲嗶嗶聲嘅響號，咁係喺嗰個控制台嗰度  
22 就會自動發出呢啲訊號係知會嗰個車長，即係話如果佢哋係有超速嘅話，就會有  
23 咁嘅情況。呢個其實係咪可以話係總結咗呢個系統嘅實時功能嘅做法呢？

24 鄭偉波先生：呢一個係嗰個實時功能先至做得到嘅。

25 MR DUNCAN：（經傳譯員）嗰個實時嘅功能係咪只係關乎嗰個車速嘅呢？

26 鄭偉波先生：我同事鍾生回答。

27 鍾澤文先生：嗰個實時功能唔係淨係做車速嘅，頭先我哋講過個實時功能其中一個作  
28 用，就係畀我哋去預計架巴士嘅到站時間，就係 estimated arrival  
29 time，咁呢個其實就係嗰個實時嘅其中一個功能嚟嘅。

30 MR DUNCAN：（經傳譯員）車速係其中一方面，到站時間亦都係另一方面，咁有冇  
31 其他車長嘅行為失誤會唔會亦都喺呢個實時功能嗰度係察識得到嘅呢？我諗下譬  
32 如話佢突然間係剎掣，又或者係加速加得好緊要，咁呢啲咁樣唔妥當嘅地方會唔  
33 會亦都可以用嗰個實時嘅功能嚟到係即時知道呢？

1 鄭偉波先生：我要問一問我嘅同事。

2 主席：（經傳譯員）係，你問喇。

3 鄭偉波先生：我嘅同事列先生會回答呢個問題。

4 列俊華先生：係，主席，鄭生提及過嘅每十五秒傳送數據係指一啲關於車速簡單嘅資  
5 訊，佢哋數據以十五秒嘅傳送方法傳送上嚟嘅數據，並非每秒嘅數據。至於每秒  
6 傳送上嚟嘅車輛數據係以十五分鐘為一個單位，由車輛傳送到公司嘅伺服器當  
7 中，thank you。

8 MR DUNCAN：（經傳譯員）嗰個實時嘅功能嘅一個好處，就係咪即時係會發出個聲  
9 響嚟到係提示嗰個車長，就話你而家超速嘞。我想問車長會唔會係收到係除咗係  
10 超速之外，有冇其他方面亦都會收到個提示嘅呢？

11 鄭偉波先生：列先生，請你答。

12 列俊華先生：我哋除咗呢個超速之外，未有其他嘅提示畀車長。

13 MR DUNCAN：（經傳譯員）喺 33 頁嗰度，你就話如果有需要嘅話，就可以即時採取  
14 行動，咁你所講嘅「即時行動」係咩嘢意思呢？

15 鄭偉波先生：我哋所講嘅即時行動就係我哋頭先講緊嗰個「嗶嗶」聲，愛嚟提醒嗰個  
16 車長。

17 MR DUNCAN：（經傳譯員）我需要多啲理解呢一方面嘅事宜嘅。若果嗰個司機係超  
18 越咗每小時 50 公里嘅車速，即係喺嗰個二十五個道路嗰度，咁就會收到一個係提  
19 示，係咪？即係如果喺嗰個廿五個路段裏面佢超過咗 50 公里，佢就會收到提示，  
20 啱唔啱呢？

21 列俊華先生：係，正確。

22 MR DUNCAN：（經傳譯員）如果佢去到 60 咁又點呢，喺一段路，但係嗰段路又唔係  
23 屬於嗰廿五個路段，佢又去到 60，咁有冇提示畀佢呢？

24 列俊華先生：沒有。

25 MR DUNCAN：（經傳譯員）你嗰個系統如果要做到監察嘅話，其實係包括更多嘅路  
26 段，就唔係單單廿五個路段，咁樣樣個監察嘅作用係咪更好呢？

27 鄭偉波先生：會係更好嘅，但係因為而家我哋都搵唔到有一個電子地圖有晒香港所有  
28 路段嗰個限速，而家係冇呢一樣嘢嘅，就變咗我哋現時個做法係要人手將呢啲路  
29 段寫落去我哋嗰個電子地圖上面嘅。

30 MR DUNCAN：（經傳譯員）係咪因為冇電子地圖就有咁嘅問題。我又想問係你哋公  
31 司有冇同運輸署講呢個問題，話有一種咁樣樣嘅電子地圖？

1 鄭偉波先生：我哋冇嘅。

2 MR DUNCAN：（經傳譯員）其實你唔會覺得係值得同運輸署係商量下呢件事咩？

3 鄭偉波先生：我哋會嘗試。

4 MR DUNCAN：（經傳譯員）若果冇其他人係就黑盒有其他問題嘅話，我打算就係問  
5 其他嘅事宜，譬如我會問呢個係車速限制，或者係想問下呢個問題嘅。

6 主席：（經傳譯員）教授。

7 羅先生：（經傳譯員）我想問你到時就係有一個報告會產生，定抑或係淨係只係一個  
8 「嗶嗶」聲係提示個司機呢？有冇一個報告嘅呢？

9 鄭偉波先生：呢一個就實時就會提示司機，而如果佢嗰個超速係連續超過十秒，我哋  
10 個黑盒就會將呢一個嘅 event 記錄低，咁就同之前我講過，就係會之後入番去  
11 我哋個系統，就喺個超速報告嗰度就會列出嚟嘅。

12 羅先生：（經傳譯員）係獨立嘅，係咪呀？就唔係獨立嘅，係咪呀？

13 鄭偉波先生：對唔住，我唔明嗰個問題。

14 羅先生：（經傳譯員）呢個實時嘅警告係獨立於嗰個係報告嘅，係咪呀？嗰個報告係  
15 離線㗎嘛，係五日之後先至產生嗰個報告，實時嗰個提示就同佢兩個係分開嘅，  
16 獨立嘅，係咪？

17 鄭偉波先生：係兩樣分開嘅。

18 主席：（經傳譯員）向司機產生一個提示，係咪所有嘅路都喺 55 嗰度就設個提示，  
19 除咗嗰啲係 70 嘅，就唔係調轉，你而家係調轉咗㗎嘛？所有除咗 70 嗰啲嘅路  
20 段都設喺 55 就有提示，會唔會好啲呢？

21 鄭偉波先生：呢個技術上係可行嘅，但係我哋需要做嘅工作係同樣咁多，因為而家我  
22 哋嗰個系統就預設咗就全部嘅路段都係用 70，咁而有廿五個路段我哋就劃咗佢  
23 係 55，就係咁樣嘅。如果我哋要調轉嚟到做，就要將我哋成個系統嗰個電子地  
24 圖就全部設咗佢係 55，就要搵番晒所有嗰啲 70 或以上嘅路段，就將佢改為  
25 70，咁其實兩方面所做嗰個工作都係多嘅，所以我哋就頭先有提過，我哋諗緊  
26 就係話係加一啲嘅隨機嘅路段愛嚟監察我哋車長超速嘅行為。

27 主席：（經傳譯員）大體嚟講，我想問下你哋巴士所行嘅路有幾多就係屬於係車速係  
28 70，就唔係 50 嘅呢，嗰個比例大概係幾多呢？

29 鄭偉波先生：對唔住，主席，我手頭上係有呢個數據。不過，其實喺香港行 70 公里  
30 嘅路段，就唔係淨係只喺啲快速路嗰處嘅。我舉一個例畀主席知道，就係例如喺  
31 告士打道西行，喺呢個路段就有部分就係 50 嘅，有部分就係 70 嘅，咁所以其  
32 實嗰個 70 限速嘅路段喺香港，我哋巴士有行經嘅地方都唔會係太少，但係我就

1 冇個資料就係佔個百分比係幾多，多謝。

2 主席：（經傳譯員）你即是可以講到嗰個係印象係點呢，係多啲係 70 定抑或多啲係  
3 50 嘅呢？

4 鄭偉波先生：呢個我諗我哋營運總監鍾生會比我更熟悉，鍾生。

5 鍾澤文先生：主席，我都真係好難話即時可以畀到一個答案你。

6 主席：（經傳譯員）好，係，鄧律師--教授。

7 羅先生：（經傳譯員）我有另一個問題。除咗係嗰個高速公路，你講到嗰個時速，  
8 我諗除咗高速公路，應該大部分都應該係時速限制係 50 嘅，係咪？即係嗰個  
9 係市區，基本上一般個典型嗰個都係 50 嘅，係咪呢？

10 鄭偉波先生：以我個理解就不是嘅，頭先我舉咗嗰個例子，告士打道西行佢不是一條  
11 高速公路嚟嘅，但係佢有某啲路段限速係 70 嘅。

12 羅先生：（經傳譯員）亦都有多一個問題想問嘅，就係突然之間係加速，又或者突然  
13 之間係踩 brake 嘅，咁呢個就係同嗰個車速限制無關嘅，所以喺落實嗰方面應  
14 該冇問題嘅，係咪呢？

15 鄭偉波先生：邊一方面呀？對唔住。

16 羅先生：（經傳譯員）突然間停車，突然間係踩腳掣，突然間係加速，呢啲係咪都係  
17 應該同嗰個車速限制係無關嘅，唔需要知道個車速限制你都可以去嘗試去監察呢  
18 啲突然加速、踩 brake 啲啲嘅事宜嘅，係咪呀？

19 鄭偉波先生：係無關嘅。如果要監察係可以，但係譬如我哋有部車係突然間要踎  
20 brake，呢個未必係代表我哋個車長係做錯嘢。例如有個行人突然間衝出馬路，  
21 我哋嘅車長就要即時剎停架車，咁而呢一個就係佢個正確嘅反應。咁如果我哋去  
22 攞晒所有啲突然間去減速嘅數據，我哋去跟進嘅時候，去問番個車長，我哋做  
23 嘅嘢就會係好多嘅，同埋就係亦都頗浪費時間嘅。所以我哋而家個做法就係個系  
24 統有記錄低晒呢啲嘅數據，如果當時係有交通意外或者係有人投訴我哋嘅話，咁  
25 我哋就係喺個調查嘅階段，就會攞番呢啲數據出嚟睇嘅，多謝。

26 主席：（經傳譯員）鄧大律師。

27 MR DUNCAN: Thank you, Chairman. Just one other matter...

28 主席：（經傳譯員）對唔住，對唔住，律師。

29 歐陽先生：（經傳譯員）對唔住，律師，我亦都想再有一點係要澄清一下嘅，你講到  
30 嗰個係十秒嘅係超速報告，任何超過十秒就會有報告，呢個十秒係你公司就係設  
31 定，定抑或係嗰個製造商設定係十秒嘅呢？

32 鄭偉波先生：係我哋公司設定嘅。

1 歐陽先生：（經傳譯員）咁如果你想係改嗰十秒，譬如話改到十五秒、五秒都做到  
2 嘅，係咪呀？技術做到嘅，係咪？

3 鄭偉波先生：我畀鍾生回答呢個問題。

4 鍾澤文先生：係做到嘅。

5 歐陽先生：Thank you。

6 鍾澤文先生：我想解一解即係點解我哋十秒，當時我哋同公會去商討嗰陣時，佢哋有  
7 畀到意見我哋嘅。咁因為就佢哋亦都表示佢哋唔係成日睇住嗰個咪錶，同埋當佢  
8 哋知道係超速嘅時候，佢哋都要做反應。咁但係揸住架巴士亦都唔可以話好急速  
9 咁樣剎車去減低個車速嘅，咁佢都柔順去反應，所以佢哋要有一個時間畀佢哋去  
10 調整，咁呢個係當時我哋同公會去商討嘅時間，其中一個考慮點解要用十秒呢個  
11 時段嚟去先至記錄佢哋個超速。

12 歐陽先生：（經傳譯員）唔該晒，鄧律師。

13 主席：（經傳譯員）係，法例就係即係喺小巴嗰度就係三秒，係咪呀？法例嗰度係三  
14 秒，即係佢超速嗰度，小巴。你知唔知，小巴嗰方面？

15 鄭偉波先生：我哋係唔知嘅，對唔住。

16 主席：（經傳譯員）或者鄧律師可以係處理一陣間。鄧律師。

17 MR DUNCAN：（經傳譯員）唔該你，主席。或者離開黑盒之前，仲有一點嘅，就或  
18 者鄭生，我想係睇一睇，喺嗰個新聞發布嗰度，剛才我就係提到 NEC 嗰份新聞  
19 稿，公司提出就話佢哋安裝嗰套嘅系統，即係當時安裝嘅系統就可以克服到一啲  
20 GPS 嘅訊號嘅問題，譬如香港高樓大廈、道路又窄，咁可能出現啲問題，咁佢呢  
21 個系統克服到呢啲問題，你記唔記得睇過呢一句，喺嗰個發布嗰度？

22 鄭偉波先生：有睇過。

23 MR DUNCAN：（經傳譯員）可唔可以同我哋講講究竟呢個係咪有效呢，嗰套嘅系統  
24 係咪好有效咁樣嚟到應付到香港呢個咁獨特嘅環境街道狹窄、高樓大廈，咁引致  
25 嗰個 GPS 嘅訊號問題，就係唔會出錯咁呢啲問題，咁嗰套系統係咪好有效咁克  
26 服到呢個問題呢？

27 鄭偉波先生：首先，就呢一個新聞發布係 NEC 出嘅，就佢哋講嘅嘢就並不代表係我  
28 哋新巴、城巴嘅睇法。至於呢個系統嗰個準確度係有幾高，我覺得就一定唔係百  
29 分之一百準確，咁要視乎就所經過嘅路段，佢側邊啲高樓大廈，甚至有冇玻璃  
30 幕牆嘅大廈，呢啲都係會有影響到嗰個 GPS 嗰個定位嘅準確性嘅。咁我可以答  
31 你就唔係百分之一百準確，但係嗰個準確度我哋覺得都可以接受。

32 MR DUNCAN：（經傳譯員）咁係咪即係話唔係有咩嘢重大問題，公司唔覺得有一啲  
33 重大嘅問題喺呢個系統入面？

1 鄭偉波先生：現時我哋用緊個系統，我哋睇唔到有重大嘅問題。

2 MR DUNCAN：（經傳譯員）好，而家講個個限速器...

3 主席：（經傳譯員）鄧律師--鄭生，我相信你其實係有一個地圖就係顯示你哋巴士嘅  
4 路線嘅，係咪？係咪有個地圖有巴士路線喺度嘅，係咪呀？

5 鄭偉波先生：我畀我個同事列生答，因為佢喺呢方面係比較熟悉嘅。

6 列俊華先生：係，主席，喺我哋呢一個系統，我哋嘅操作介面裏面係可以顯示各巴士  
7 路線嘅地圖嘅。

8 主席：（經傳譯員）可唔可以係畀個地圖，提供畀委員會，等我哋可以睇到晒你哋嘅  
9 啲公司嘅路線呢？或者點解我咁講，咁相信有啲人就知道香港道路嘅速限喺邊  
10 度，運輸署或者警方佢哋都知嘅。我打算做嘅就係可以將你啲路線同啲速限係  
11 比較一下咁解。可唔可以將啲資料提供畀委員會呢，啲路線啲個地圖咁  
12 樣？

13 列俊華先生：當然可以，不過，主席，要視乎你需要嘅數據係喺一個咩嘢情況，因為  
14 如果我哋以紙張去提交，可能係未必得到主席所想得到嘅嘢。

15 主席：（經傳譯員）我希望就係即係你啲路，即係有啲人可以話畀你聽啲路上面  
16 嘅速限係幾多咁解。

17 列俊華先生：好，明白，我哋會提供有關數據。

18 主席：（經傳譯員）唔該晒。

19 MR DUNCAN：（經傳譯員）好，想你睇睇第 26 頁，CTB-1，第 26 頁係閣下嘅陳述  
20 書。

21 鄭偉波先生：睇到。

22 MR DUNCAN：（經傳譯員）個個速限嘅裝置，中間個度有限速器，當車就去到 70 公  
23 里，咁個個限速器就會係限制咗個供油量，即使係踩油都好，都係限咗個油，但  
24 係車速就喺落山段就可能超過 70 咁樣。你睇唔睇到呢一段呀？

25 鄭偉波先生：睇到。

26 MR DUNCAN：（經傳譯員）好，睇番下一頁。咁呢一版就係有提到一個自動嘅減速  
27 系統咁樣嘅，英文就係“ASLS”。咁個度講呢，就係話即係如果個車速過咗  
28 70，係落山落斜咁計，咁個 ASLS 就會自動咁樣係有一個波箱嘅減速嘅系統，  
29 咁就或者係收油，咁等佢個車速係去限到去 70 嘅。如果我個理解係正確嘅話，  
30 咁打算就呢個系統係喺新巴市個度就會安裝，明年 6 月開始新嘅巴士就會裝，  
31 係咪？

32 鄭偉波先生：呢個我哋工程總監李先生會回答呢一部分嘅。

1 李廣威先生：係，主席，係正確嘅。

2 MR DUNCAN：（經傳譯員）咁呢個係咪運輸署規定，還是係公司自己主動咁做？

3 李廣威先生：呢一個嘅系統係我哋同運輸署嚟度嘅 working group 一路傾嘅時  
4 候，就係大家都同意嚟新車嘅時候，我哋需要要求呢一個規格，咁嚟明年 6 月開  
5 始運送嘅車就會有。

6 MR DUNCAN：（經傳譯員）你提到工作小組，咁係咪即係話嚟大埔意外，今年 2 月  
7 意外之後成立個工作小組呀？

8 李廣威先生：正確。

9 MR DUNCAN：（經傳譯員）之前公司有冇考慮過呢個 ASLS 個系統，有冇考慮過  
10 呢一個系統，之前？

11 李廣威先生：之前係冇嘅。

12 MR DUNCAN：（經傳譯員）咁係邊個嘅說法嚟㗎，工作小組嗰度嘅說法，還是係公  
13 司嘅說法，定係運輸署嘅說法，還是工作小組入面有人提出咁樣嘅做法呢？

14 李廣威先生：呢個係嚟工作小組裏面商討嘅時候，大家覺得歐盟六型嘅車係係可以有  
15 咁嘅技術提供到。

16 MR DUNCAN：（經傳譯員）咁係製造商係提出呢個建議嘅，係咪？定係點樣？

17 李廣威先生：係工作小組裏面我哋去提出呢個要求，去諮詢巴士個供應商佢哋可唔可  
18 以提供到呢一樣嘢，咁佢哋嘅答覆係歐盟六型嘅車係可以。

19 MR DUNCAN：（經傳譯員）係。邊個召集個工作小組？

20 李廣威先生：係運輸署。

21 主席：（經傳譯員）佢哋第一次開會有冇議程出㗎？

22 李廣威先生：係有嘅。

23 主席：（經傳譯員）有冇個議程嘅副本嚟度呀？

24 李廣威先生：我哋試下可以提交番。

25 主席：（經傳譯員）你有，係咪即係話？

26 李廣威先生：係。

27 主席：（經傳譯員）其實嚟議程上面有冇話即係睇一啲新嘅科技嘅裝置咁樣，有冇呢  
28 個議程？

29 李廣威先生：議程上面係有一啲嘅建議去考慮新嘅裝置嘅。

1 主席：（經傳譯員）咁呢個其實係運輸署嗰度係提出嘅，係咪？

2 李廣威先生：冇錯。

3 主席：（經傳譯員）唔該晒。咁麻煩你就畀嗰個議程我哋參考下，好唔好？

4 李廣威先生：好。

5 主席：（經傳譯員）唔該。鄧律師。

6 MR DUNCAN：（經傳譯員）好嘞，講到嗰個係裝番呢啲咁樣嘅設施喇，呢個問題就  
7 係喺你第二份嘅陳述書嗰度係有講嘅，個頁數就係 CTB-1，61 頁。喺 61 頁嗰  
8 度你睇到第 8 段嗰個限速器，同埋即係我哋係同呢個供應商講過個技術可行性，  
9 同埋成本，就話即係喺呢啲車上面安裝呢啲 ASLS 嘅系統，你睇到呢段嘛？

10 李廣威先生：睇到。

11 MR DUNCAN：（經傳譯員）唔該晒，你睇到晒啲啲細節喺度喇。好，首先，關於個  
12 Dennis 嗰款車，我知道公司有八百七十六部係 E500 MMC 嘅，根據公司就話係  
13 可以裝到呢啲設施嘅。公司對於呢一個型號，佢哋嘅講法係點樣，即係佢哋關於  
14 呢一個型號安裝嗰個設施？

15 李廣威先生：對唔住，可唔可以重複個問題？

16 MR DUNCAN：（經傳譯員）公司係咪建議係呢啲 ASLS 呢個系統，就喺八百七十六  
17 部 Alexander Dennis E500 MMC 呢啲巴士係咪諗住喺度裝？

18 李廣威先生：我哋需要供應商提供畀我哋有詳細嘅資料，後裝嘅可行性嘅詳細嘅資  
19 料，同埋因為我哋未曾收到佢哋講後裝嗰個每一部車所牽涉嘅費用，所以我哋需  
20 要去考慮。

21 MR DUNCAN：（經傳譯員）你公司係咪考慮緊呢件事？

22 鄭偉波先生：未係考慮嘅，因為喺我哋嗰個文件上面亦都講咗，就佢話係可行嘅，即  
23 係 ADL (ASLS?) 覺得係可行，咁但係就要需要十二個月嘅時間就要發展呢個產  
24 品，就所以喺現階段就未能夠提供到嗰個安裝嘅價錢畀我哋。咁喺我哋未知道每  
25 部車需要幾多錢嚟到安裝嘅時間，即係現在，我哋就唔能夠答得到就係話考慮定  
26 係唔考慮嘅，我哋首先要知道嗰個價錢先至可以考慮嘅，多謝。

27 MR DUNCAN：（經傳譯員）即係話你喺度等緊佢哋價錢嗰個問題先至去考慮，係咪  
28 呀？

29 鄭偉波先生：正確。

30 MR DUNCAN：（經傳譯員）富豪 B9 一一七部係話咗可行嘅，就係講話係需要十八至  
31 廿四個月去發展嗰個產品，公司係咪考慮緊？

1 鄭偉波先生：喺呢一個價錢就嘅情況底下，如果到時佢個產品係做到出嚟，而我哋  
2 測試又滿意嘅話，我哋係會安裝嘅。

3 MR DUNCAN：（經傳譯員）一部咁樣嘅車，B9 嘅巴士，佢會係可以行到幾多年車？

4 鄭偉波先生：我哋架車係用十七年或者十七年幾左右。

5 MR DUNCAN：（經傳譯員）唔該。

6 鄭偉波先生：當然我要補充少少，而家我哋講緊呢一百一十七部 B9 嘅車，佢已經係  
7 大約係三歲，咁即係話我哋再可以用多十四年左右，多謝。

8 MR DUNCAN：（經傳譯員）關於呢個車速限制器我想問多個問題，然後我哋大家先  
9 至有早上嘅小休。想請你睇呢個 TD-1，94 頁。TD-1，94 頁。

10 鄭偉波先生：我係見到嘅。

11 MR DUNCAN：（經傳譯員）唔該。我唔知道你有冇睇過呢份文件，鄭先生，或者我  
12 解釋一下。

13 鄭偉波先生：多謝。

14 MR DUNCAN：（經傳譯員）呢個就係委員會喺運輸署嗰方面收到嘅呢一份意見書，  
15 嗰個標題就係話喺專營巴士嗰度應用一啲係科技嘅發展。呢份文件就係話畀我哋  
16 聽究竟係咪可行，亦都係咪可取嘅，即係話究竟係咪可以用一啲新嘅裝置或者新  
17 嘅科技喺嗰個專營巴士嗰度。呢份文件你之前有冇睇過？

18 鄭偉波先生：對唔住，我哋係冇睇過嘅。

19 MR DUNCAN：（經傳譯員）好，如果咁因為我諗主席都係諗住係有朝早嘅小休，我  
20 不如係請你睇呢個係 101 頁。請你係閱讀 (c) 嗰個部分，個標題就係話用全球定  
21 位系統或者係地理圍欄去控制嗰個車速，喺呢個標題底下嘅文字可唔可以麻煩你  
22 等陣間小休嘅時候睇一睇呢，即係讀一讀呢個第 19 同埋第 20 呢兩段呢，可以  
23 嘛？

24 鄭偉波先生：可唔可以出埋第 20 段畀我睇到？嗰兩頁㗎，哦，咁樣第 19 段我又睇  
25 唔晒。可唔可以印一張畀我哋？

26 主席：（經傳譯員）係，可以畀份實物你嘅，咁樣你係知道嗰個上文下理。

27 鄭偉波先生：多謝，主席。

28 MR DUNCAN：（經傳譯員）目前一部巴士佢如果係行緊 60 公里，不過佢嗰個地段就  
29 嗰個車速限制係 50 嘅，呢度就係講話點樣樣可以處理到呢個情況，因為係而家  
30 巴士上面嘅裝置就處理唔到呢個問題，所以我哋請你等陣間自己睇一睇第 19 同  
31 埋第 20 呢兩段嘅文字，呢個就係佢哋嘅意見書嘅第 101 同埋 102 頁呢兩頁  
32 嘅。

1 鄭偉波先生：好，我哋會睇嘅。

2 MR DUNCAN：（經傳譯員）唔該晒。

3 主席：（經傳譯員）好，我哋而家就係小休二十分鐘，唔該。

4

5 上午 11 時 37 分聆訊押後

6

7 上午 11 時 59 分恢復聆訊

8 出席人士如前。

9

10 MR DUNCAN：係，唔該你，主席。鄭生，正話有冇機會係睇過嗰段文字？

11 鄭偉波先生：有睇㗎。

12 MR DUNCAN：（經傳譯員）好喇，呢個係用 GPS 同埋呢個地理圍欄嚟到控制車速，  
13 咁嚟工作小組有冇討論過呢個問題呢？

14 鄭偉波先生：我畀我同事鍾生嚟到發言㗎。

15 鍾澤文先生：係有嘅。

16 MR DUNCAN：（經傳譯員）首先，呢類系統如果要做嘅話，就首先要有一個電子地  
17 圖，係嘛？

18 鍾澤文先生：冇錯。

19 MR DUNCAN：（經傳譯員）製造商就話對於嗰個 GPS 嘅信息嘅準確性就係話有啲係  
20 關心，因為香港好多高樓大廈，睇唔睇到？

21 鍾澤文先生：睇到。

22 MR DUNCAN：（經傳譯員）我想問，呢一方面嘅考慮係咪就已經唔再考慮，定抑或  
23 係會有人係睇下究竟 GPS 呢樣嘢係咪真係要——即係真係做唔到，定抑或係會考  
24 慮下 GPS 嗰個問題係咪可以克服到咁呢？

25 鍾澤文先生：我哋嗰個睇法就係我哋都知道呢一個系統喺坊間都會有嘅，咁但係我哋  
26 喺過往做呢個黑盒嗰陣時，嗰個 GPS 嘅準確度確實都係令我哋有個關注嘅，咁  
27 所以我哋而家係認為需要係將我哋搵一啲供應商係擺一啲咁樣嘅儀器返嚟，做  
28 一啲測試，去確認佢嗰個功能同埋佢嗰個準確性先。咁呢個我哋唔係話而家就  
29 話唔做嘅。

1 MR DUNCAN：（經傳譯員）可唔可以咁講，你哋仲係積極考慮中？

2 鍾澤文先生：可以咁講。

3 MR DUNCAN：（經傳譯員）咁邊個負責考慮？係你哋公司咩，其他所有巴士公司都  
4 考慮中咩，定抑或點？

5 鍾澤文先生：喺嗰個工作小組裏面討論，我哋話我哋公司都會考慮嘅，其他公司亦都  
6 話會考慮。

7 MR DUNCAN：（經傳譯員）好。我而家就係唔係呢個車速限制器喇，就講另一個裝  
8 置喇，呢一個就係電子穩定控制系統，你可以睇番 CTB-1 第 26 頁。

9 鄭偉波先生：睇到。

10 MR DUNCAN：（經傳譯員）喺第 26 頁嘅下面嗰度係有提及話你哋公司就計劃係包括  
11 以下嘅系統嘅，就係一個電子穩定控制系統喇，就係話會由 2019 年 6 月之後所  
12 收嘅新巴士就話會有一個咁嘅系統嘅，咁喺 27 頁嗰度我哋就睇到喇，你哋就描  
13 述咗兩個方面，即係話嗰個機制有邊兩方面嘅特色，一個就係動態穩定控制，  
14 另一個就係防止翻車嘅特色嘅。我想問，呢個係咪都係因應嗰個工作小組開會  
15 同埋討論之後你哋先有咁嘅決定嘅呢？

16 鄭偉波先生：我同事李生會回答。

17 李廣威先生：係，主席，冇錯嘅。

18 MR DUNCAN：（經傳譯員）換句話講，喺嗰個工作小組成立之前，你哋係冇考慮過  
19 呢啲事㗎，係嘛？㗎唔㗎？

20 李廣威先生：係，冇錯嘅。

21 MR DUNCAN：（經傳譯員）呢度個建議就係話係喺新巴士嗰度安裝，係指嗰啲  
22 2019 年 6 月之後係畀你哋嘅車，有冇諗過話對現有嘅巴士都加裝番呢一啲系  
23 統，有冇考慮過？

24 李廣威先生：我哋而家係要求緊我哋嘅巴士供應商去檢視我哋嘅車係咪可以加裝呢啲  
25 嘅系統，喺技術上面係咪可行，同埋有冇一個嘅財政上面嗰個嘅需要，即係話  
26 加裝係需要幾多錢。咁我哋而家係等緊供應商嘅答覆。

27 MR DUNCAN：（經傳譯員）係咪書面咁作出一個咁嘅要求，向巴士供應商作出咁樣  
28 嘅書面要求？

29 李廣威先生：係，冇錯嘅。

30 MR DUNCAN：（經傳譯員）可否係畀一啲咁樣嘅書面往來嘅紀錄畀我哋睇睇，畀  
31 啲樣本我哋睇？

1 李廣威先生：主席，我哋會返去再搵番啲紀錄。

2 鄭偉波先生：對唔住，主席，我諗李生未必肯定係唔係有書信來往㗎，我哋係要返去  
3 要 check 下係唔係有書信來往。

4 主席：（經傳譯員）係，好吖，請你係啲適當嘅時候書面話畀我哋聽，係咪如果有，  
5 同埋有嘅話係咪願意畀一個副本畀我哋。

6 MR DUNCAN：（經傳譯員）唔該晒。好，而家講其他嘅裝置喇，TD-1，103，請你  
7 睇番啲一頁吖。

8 鄭偉波先生：睇到。

9 MR DUNCAN：（經傳譯員）鄭生，呢個亦都係剛才我請你係小休嘅時候請你睇嘅啲  
10 份文件嘅其中一個部分嘅，呢個就係運輸署嘅文件，就話就係專營巴士嗰度可  
11 以應用一啲乜嘢新嘅裝置或者新嘅技術㗎。103 頁第 23 段一路落到去第 26  
12 段，呢度就係有提及呢一種嘅裝置，就係避免碰撞同埋係保持啲嗰個行車線嘅  
13 度。我想請你自己睇一睇，讓你係熟悉第 23 至到 26 段嗰個內容。

14 鄭偉波先生：呢個問題會係由我哋同事鍾生答，佢已經睇咗㗎喇。

15 MR DUNCAN：（經傳譯員）唔該晒。鍾先生，如果咁嘅話，我就想請你睇呢個第 26  
16 段喇，呢度就話巴士公司唔認為裝置呢啲防撞同埋保持行車線係會提升嗰個  
17 巴士服務嘅，我諗其實就係第 26 段前啲嗰度你就睇到佢哋講嗰個原因㗎，係咪  
18 咁？

19 鍾澤文先生：係，冇錯。

20 MR DUNCAN：（經傳譯員）係咪你哋公司嚟講，你哋都唔打算去跟進係裝置呢一種  
21 咁樣嘅設備呢，即係你哋都唔會再跟進，唔會做呢樣嘢㗎喇，係嘛？

22 鍾澤文先生：我想先先解釋一下關於呢一種裝置，咁我哋公司係 2014 年都曾經做過  
23 一個測試係呢一啲咁樣嘅裝置嘅，咁呢一個裝置係叫做「神眼」，英文係叫做  
24 “Mobileye”，咁呢個神眼係一個駕駛輔助嘅系統，當時係主要係應用喺私家  
25 車上面嘅，佢係利用視像嘅科技去偵測前方嘅影像，再由系統進行分析同埋計  
26 算前後車之間嘅距離同埋相撞嘅時間，從而係對嗰個司機係發出一啲警示嘅。  
27 當時我哋係三架巴士上面就裝咗呢個神眼進行測試，就為期四個月。咁我哋安  
28 排咗唔同工會嘅代表，即係司機代表喇，同埋有五十幾個車長去揸呢三架車，  
29 係如常咁樣工作。咁之後佢哋係要做番一份問卷畀我哋，就係佢哋對呢一個神  
30 眼嘅意見嘅。

31 咁嘅結果顯示，有部分嘅警示就唔係咁適合喺巴士裏面使用嘅，例如架車係  
32 駛入個巴士彎個站嗰陣時，嗰個警示器因為偵測到前面有人，因為喺巴士站裏面  
33 好多人企喺度等車嘅，咁偵測到人，佢就即刻發出呢個聲響嘅，咁但係當時架巴  
34 士係轉緊入個彎度，個司機係未將架巴士拉番直，咁就出現咗呢啲咁樣嘅響聲。

1 咁亦都有就係停車嗰陣時係太近距離，同前車太近距離，喺慢車嗰陣時亦都會出  
2 現一啲咁樣嘅警示。咁因為咁樣，就喺嗰個車程裏面都出現咗好多次嘅呢啲警  
3 示，有 46%嘅司機佢哋喺問卷就認為太多嘅警示，對佢哋嘅駕駛造成滋擾，甚  
4 至乎佢因為咁樣佢係唔理呢啲警示。咁 50%嘅司機認為呢一個神眼對佢哋嘅駕駛  
5 嘅安全係有幫助。咁喺考慮過神眼呢啲功能之後，同埋我哋車長嘅意見，亦都考  
6 慮要裝呢個神眼嗰個費用亦都幾大嘅，咁當時我哋就即係決定唔繼續去搞呢一樣  
7 嘢喇。咁呢個就係我哋嘅經驗喇嘅，咁喺嗰個會議裏面我哋亦都分享咗我哋呢個  
8 經驗。多謝，主席。

9 MR DUNCAN：（經傳譯員）你哋係喺 2014 年嘅時候進行㗎，係自己係提出呢一個  
10 主意㗎，定抑或係應呢個運輸署嘅要求去做呢個測試嘅呢？

11 鍾澤文先生：當時係我哋自己主動嘅，因為呢一間公司就佢哋嚟我哋嗰度就係提出有  
12 個咁樣嘅安全嘅系統可以幫助到我哋去減低交通意外嘅，咁所以我哋就自己進  
13 行㗎一個測試。

14 MR DUNCAN：（經傳譯員）你意思係咪嗰三家巴士供應商嘅其中一間㗎，定抑或係  
15 另外一個獨立嘅呢種儀器嘅供應商？

16 鍾澤文先生：係一個獨立嘅儀器供應商㗎。

17 主席：（經傳譯員）係邊間公司？

18 鍾澤文先生：係一間以色列嘅公司㗎嘅，個公司喇叫做 “Neshtech Pty  
19 Limited”，咁佢係喺香港嘅代理嘅。

20 MR DUNCAN：（經傳譯員）唔該晒。好喇，亦都係運輸署嗰份文件 105 頁...

21 主席：（經傳譯員）等等先，鄧生。嗰個測試呢個儀器嗰個結果有冇一啲文件嚟度  
22 㗎？可唔可以係有機會等你作出決定咁樣㗎？

23 鍾澤文先生：我哋係有一個報告，即係測試後嘅報告嘅。

24 主席：（經傳譯員）咁可唔可以向委員會係提供一份副本，有關嗰啲重點，點解係覺  
25 得唔係好有用咁樣呢？

26 鍾澤文先生：可以嘅。

27 主席：（經傳譯員）咁如果係可以嘅話，係好感激你。鄧律師。

28 MR DUNCAN：（經傳譯員）好喇，105 頁，講到另一個嘅安全嘅裝置，咁呢個就係  
29 司機監察嘅裝置，或者你係——請你睇一睇第 27 段同埋 28 段嘅內容，係請你睇  
30 一睇，唔該。

31 鄭偉波先生：呢個問題係我同事李生會答，佢睇完咗份文件喇。

32 MR DUNCAN：（經傳譯員）唔該晒。或者想問一問，公司，城巴、新巴係咪話會安

1 裝呢一類咁樣嘅設施，咁就即係試辦三個月，咁就應該係今年 5 月開始，係咪  
2 咁樣？

3 李廣威先生：唔係嘅。

4 MR DUNCAN：（經傳譯員）咁係冇作出任何承諾嘅，係咪？即係公司有作出承諾，  
5 就話係裝呢啲設置，係咪呀？

6 李廣威先生：對，公司有作出任何承諾。

7 MR DUNCAN：（經傳譯員）係，咁係咪決定唔裝喇？

8 李廣威先生：唔係嘅，我哋會--我哋都同唔同嘅供應商同埋--我哋都問緊三間巴士  
9 供應商，亦都同唔同嘅供應商聯絡緊，係攞緊一啲資料嘅。

10 MR DUNCAN：（經傳譯員）好喇，我想請你留意一下你嘅陳述書第 62 頁，CTB-1，  
11 62 嘅。好喇，第 9 段嗰度，你就係列出咗有關嘅供應商，咁你亦都係見過㗎  
12 喇，咁呢個就係關於睇下可唔可以安裝呢類咁嘅設施嘅，係咪？

13 李廣威先生：冇錯。

14 MR DUNCAN：（經傳譯員）目前嗰個情況係點樣呀？即係關於呢個研究。

15 李廣威先生：最新嘅進展就係 Consolidated Parts，即係呢個大聯合零件銷售中  
16 心有限公司，佢哋曾經嚟做過產品嘅示範，但係嗰個錄影嘅程序就係未曾完善  
17 嘅，咁佢哋將會喺 6 月份會再嚟再做一次嘅錄影程序嘅示範。第二間，  
18 Guardian，佢哋話會提供一個嘅建議，係租借十套嘅設備同埋畀我哋有報價，  
19 咁我哋最近係收咗個報價，而家正在考慮當中。第三間，比亞迪有限公司，咁  
20 佢哋係未曾有一個產品畀我哋嘅，咁佢亦都係將會係有一個產品畀我哋去測  
21 試。另外，除咗呢三間之外，我哋亦都會搵--繼續去睇下有冇其他嘅產品可以  
22 供應到。

23 MR DUNCAN：（經傳譯員）我想請大家睇一睇呢個明報嗰個嘅網頁，咁嗰度有一篇  
24 文章就係同呢個係相關嘅。呢個文件當中有㗎，主席。咁而家喺螢幕嗰度係打  
25 咗出嚟㗎喇，係有翻譯。或者想請大家睇一睇呢個係 5 月 27 號嘅一篇文章，或  
26 者請大家睇一睇先，好唔好？

27 鄭偉波先生：我哋係睇咗㗎。

28 MR DUNCAN：（經傳譯員）以前睇過㗎喇？

29 鍾澤文先生：琴日你哋畀咗我哋睇。

30 MR DUNCAN：（經傳譯員）係，咁喺呢篇文章就係關於一啲嘅監察裝置，監察嘅司  
31 機嘅，咁佢係港珠澳大橋嗰度行駛嘅一啲司機嘅監察咁樣嘅，你知道㗎？

32 鍾澤文先生：知道。

1 MR DUNCAN：（經傳譯員）咁你睇呢篇文章之前知唔知道呢件事㗎？

2 鍾澤文先生：之前我喺新聞睇過。

3 MR DUNCAN：（經傳譯員）係，有冇計劃就係探討一下呢套制度，喺國內即係研發  
4 嘅一套咁嘅制度係咪可以喺公司提供？

5 鄭偉波先生：我哋睇下可唔可以聯絡到呢個港珠澳大橋穿梭巴士公司，去問佢哋擺多  
6 啲關於佢哋嘅監察系統嘅資料。

7 MR DUNCAN：（經傳譯員）你可唔可以向委員會係講講，咁幾時係會作出決定係關  
8 於裝唔裝呢類設備呢？幾時可以即係作出到決定，講唔講到？

9 鄭偉波先生：我哋而家係未聯絡到嗰個港珠澳嗰個營運嘅公司，咁而嗰個裝置嘅具體  
10 運作我哋係唔清楚嘅，而牽涉嘅成本係幾多，我哋亦都係未知道，所以喺現階  
11 段，我哋答唔到係幾時可以做到決定，我哋要有足夠嘅資訊我哋先至可以做到  
12 考慮，做咗考慮之後先至可以做決定嘅，多謝。

13 MR DUNCAN：（經傳譯員）公司係幾時開始係考慮用呢類咁樣嘅設施㗎，幾時？

14 鄭偉波先生：我哋係未開始考慮嘅，因為我哋未有資料㗎。

15 MR DUNCAN：（經傳譯員）係，咁但係你會係接觸不同嘅供應商㗎嘛，咁你幾時開  
16 始同佢哋接觸㗎？

17 鄭偉波先生：對唔住，我想知道你而家問緊嘅係同港珠澳有關嗰啲設施，定係邊一部  
18 分？

19 MR DUNCAN：（經傳譯員）喺最早嗰間公司，即係你喺陳述書嗰度講咗幾間公司，  
20 最早嗰啲公司係幾時開始接觸㗎？

21 鄭偉波先生：呢個李生會答。

22 李廣威先生：係大約今年嘅 4 月㗎。

23 MR DUNCAN：（經傳譯員）好喇，咁呢個係咪其實喺工作小組傾完之後，你先開始  
24 咁做㗎？

25 李廣威先生：係，冇錯。

26 MR DUNCAN：（經傳譯員）咁工作小組之前係冇考慮過，係咪呀？

27 李廣威先生：係冇嘅。

28 MR DUNCAN：（經傳譯員）好喇，而家講另一項嘅安全嘅問題，TD-1...

29 主席：（經傳譯員）等等，鄧律師，我哋--第 63 頁，你第二份嘅陳述書嗰度，  
30 CTB-1，63，咁有講到就話 Guardian，澳洲嘅製造商，於提到就話星加坡嘅

1 土地運輸局佢哋就話嘅新嘅巴士嗰度就會有呢啲咁樣嘅裝置嘅，你其實有冇接  
2 觸過星加坡嗰個當局係關於呢方面嘅資料？

3 李廣威先生：呢方面嘅資料其實我哋係經 Guardian 話畀我哋聽嘅，我哋冇接觸過  
4 LTA。

5 主席：（經傳譯員）唔該晒。

6 MR DUNCAN：（經傳譯員）係，想請大家睇睇 TD-1，195 頁，TD-1，195 嘅。

7 鄭偉波先生：睇到。

8 MR DUNCAN：（經傳譯員）你應該係睇到，鄭生？

9 鄭偉波先生：睇到。

10 MR DUNCAN：（經傳譯員）呢個就係嗰個即係長遠計劃，即係呢個城巴嗰個嘅長遠  
11 發展計劃係提供畀委員會，咁喺呢一個遠期計劃嗰度係有第 4 項係講到安全  
12 嘅，你睇到嘛？

13 鄭偉波先生：睇到。

14 MR DUNCAN：（經傳譯員）我想請你睇 202 頁，文件嘅 202 頁。

15 鄭偉波先生：睇到。

16 MR DUNCAN：（經傳譯員）唔該，5.13 嗰度，安裝安全帶嘅可行性同埋即係所有座  
17 位，同埋係上層嘅所有嘅座位，咁呢個係(b) 嗰度喇。你睇到？

18 鄭偉波先生：睇到。

19 MR DUNCAN：（經傳譯員）或者好快咁讀一讀喇，「其實就安裝喺所有座位同埋喺  
20 上層座位安裝安全帶係可行嘅，但係我哋嘅觀察就係話好少人係會繫安全帶  
21 嘅，而家喺一啲即係比較空曠嘅位置，咁如果冇法例嚟到規定喺專利巴士上面  
22 係戴安全帶同埋執法當局係嚴格咁執行法律，喺所有座位安裝安全帶就係浪費  
23 資源嘅，因為大多數嘅乘客根本都唔會係繫呢個安全帶，即使有都唔繫嘅」，  
24 咁呢一個其實係之後喺嗰個遠期--城巴遠期嘅計劃嗰度係你有咁嘅說話喇。咁  
25 其實你可唔可以睇一睇 TD-1，95 頁？同一份--同一套文件夾嚟喇，嗰個標題  
26 就係講「為所有嘅乘客嘅座椅係安裝安全帶」嘅，睇唔睇到嗰一段？

27 鄭偉波先生：睇唔--係邊一段？第幾段，請問？

28 MR DUNCAN：（經傳譯員）TD/95，係 95，唔係 195。係 TD/95，對唔住。

29 鄭偉波先生：睇到嘅。我同事睇緊。

30 MR DUNCAN：（經傳譯員）係 TD-08 號嘅文件嘅，第 95 頁，第 5 至到第 9 段。

1 主席：（經傳譯員）唔該。

2 鄭偉波先生：有，有。

3 MR DUNCAN：（經傳譯員）想問你呢個問題喇，喺工作小組裏面有冇傾過呢件事？

4 李廣威先生：係有嘅。

5 MR DUNCAN：（經傳譯員）想你特別睇睇呢個第 7 段。想問下，你哋公司係咪顯示  
6 話已經同意咗嗰個要求，就話所有新嘅巴士都要為所有嘅乘客座椅係安裝呢一  
7 個安全帶，係咪你哋同意咗？

8 李廣威先生：係，我哋公司同意咗由 2019 年 6 月開始付運嘅車係會有安全帶嘅，三  
9 點式安全帶。

10 MR DUNCAN：（經傳譯員）講到話事後補裝，即係現有嘅巴士再加裝番呢啲安全  
11 帶，唔知道你有冇睇到第 8 段，呢份文件嘅第 8 段，唔知你睇咗未呢？

12 主席：（經傳譯員）未講番加裝之前，我自己就想問一個問題喇，你哋較早嘅時候答  
13 過，就話如果係裝呢個安全帶就係浪費資源，因為大部分嘅乘客都唔會繫安全  
14 帶嘅，咁而且亦都要靠有人去執法先至得㗎。你而家就話你同意係將呢個要求  
15 加落去，咁如果有人去執法嘅話，又會唔會係浪費資源呢？你喺呢一度嘅睇法  
16 又點呢？

17 鄭偉波先生：如果法例有規定嘅話就有得執法喇，因為現時就有規定坐巴士要繫安全  
18 帶嘅，就算法例有規定，如果到時有執法嘅話，咁呢個都係浪費資源嘅，我哋  
19 仍然係呢個睇法。

20 主席：（經傳譯員）咁你有咁嘅睇法，你有冇同運輸署講？

21 鄭偉波先生：有㗎，我哋同事有同運輸署講過嘅。

22 主席：（經傳譯員）咁運輸署有冇回應？係咩嘢回應？

23 鄭偉波先生：我同事鍾生，當時係佢負責，佢會答一答，係。

24 主席：（經傳譯員）唔該。

25 鍾澤文先生：主席，當時運輸署就話裝咗喺度就畀個乘客自己去選擇嘅，佢繫唔繫，  
26 即係如果佢係擔心自己嘅安全嘅，佢就有得繫，但係如果我哋係有嘅話，佢擔  
27 心都有得繫，呢個就係佢哋嘅 response。

28 主席：（經傳譯員）好，唔該你。

29 MR DUNCAN：（經傳譯員）你有冇同運輸署講過，就話佢哋都打算係引入相關嘅法  
30 例要求？

31 鍾澤文先生：我哋有同運輸署提過，就話如果佢唔立法，根本條安全帶就可能係真係

1 浪費咗嘅，咁但係運輸署冇應承話一定會立法。

2 MR DUNCAN：（經傳譯員）想麻煩你睇番 TD-2 第 58 頁，TD-2 嘅 58 頁。呢度就  
3 係《公共巴士服務條例》其中嘅一個部分，特別就係第 36 條，有關嗰個條例嘅  
4 第 36 條，睇到嘛？

5 鄭偉波先生：睇到。

6 MR DUNCAN：（經傳譯員）有關呢個條文，鄭先生你熟唔熟悉佢個內容㗎？

7 鄭偉波先生：我係唔熟悉嘅。

8 MR DUNCAN：（經傳譯員）係咪第一次睇到呢個條文？

9 鄭偉波先生：係第一次。

10 主席：（經傳譯員）咁你慢慢，畀少少時間自己去睇清楚呢個內容，咁先至答到陣間  
11 嘅問題嘅。

12 鄭偉波先生：初步睇咗。

13 MR DUNCAN：（經傳譯員）根據嗰個專營權協議同埋呢個條文就可以係制訂附例  
14 嘅，睇唔睇到？

15 鄭偉波先生：剛剛睇到。

16 MR DUNCAN：（經傳譯員）公司有冇諗過就係制訂呢啲附例呢？即係根據呢條嘅條  
17 文去制訂附例呢？

18 鄭偉波先生：因為我哋對於制訂附例所關乎嘅法例，我係唔識嘅，咁所以我哋係今日  
19 喺度就答唔到話我哋會不會制訂附例，因為我哋係有接觸過呢個範疇嘅，多  
20 謝。

21 MR DUNCAN：（經傳譯員）你以巴士上面嘅巴士乘客嘅行為，係咪有陣時你哋公司  
22 都係關注，都係擔心嘅呢？

23 鄭偉波先生：你係指邊一方面？

24 MR DUNCAN：（經傳譯員）譬如話佢哋有陣時鬧啲巴士車長喇，係咪時不時有咁嘅  
25 事發生？

26 鄭偉波先生：係有發生過嘅。

27 MR DUNCAN：（經傳譯員）你認唔認為如果你有自己嘅附例，就自己可以執法嘅  
28 話，咁樣係可以更好咁樣，更有效咁處理呢啲場面，同唔同意？

29 鄭偉波先生：我係唔認識呢啲附例嘅嘢，同埋剛剛你講過，話如果有附例就我哋自己  
30 可以執法，但係我唔清楚係點樣執法㗎，因為我哋個車長佢唔識得執法㗎，同

1 埋如果由個車長去執法，就更加會同個乘客就產生更加大嘅衝突，一架車裏面  
2 淨係有一個車長，一個人嚟咋喎，其他全部乘客嚟㗎。

3 MR DUNCAN：（經傳譯員）你哋係咪有稽查㗎？

4 鄭偉波先生：我哋係有稽查，但係我哋就不會係每部車上面有個稽查㗎，稽查係負責  
5 去監察我哋車長嘅工作，同埋喺巴士總站嗰度工作嘅。

6 MR DUNCAN：（經傳譯員）你知唔知道其實地鐵有自己嘅附例嘅，你知唔知㗎？

7 鄭偉波先生：我有聽過，但係詳細係點樣，我係唔清楚㗎。

8 MR DUNCAN：（經傳譯員）如果所有嘅巴士都有安全帶，又如果乘客拒絕繫安全  
9 帶，你認唔認為你哋公司自己制訂嘅附例可以幫到手去執行呢一個咁嘅要求？

10 鄭偉波先生：我相信我哋嘅車長有能力去執行，因為如果個乘客堅持唔戴安全帶，首  
11 先，佢係坐喺樓上嘅，我個車長唔可能係睇得到每一個乘客有冇戴安全帶，就  
12 算睇到，就要停低架車，跟住個車長就要熄咗架車。因為一架公共巴士如果著  
13 咗車，唔可以冇車長喺個駕駛位嘅。要熄咗部車，跟住就行上去樓上，就搵番  
14 冇戴安全帶嗰位乘客，咁就叫佢戴安全帶，咁假若嗰個乘客拒絕戴安全帶，咁  
15 就當場就會同我哋嘅車長就發生爭執㗎喇，咁呢個又影響到我哋個服務，同埋  
16 即係可能會車長同個乘客打交都唔定㗎，所以我唔覺得我哋嘅車長可以執法。  
17 多謝。

18 MR DUNCAN：（經傳譯員）稽查，你講到稽查就只係去監察嗰個巴士嘅駕駛，我想  
19 問㗎，你哋係有幾多個稽查就係受你哋僱用，又履行呢一方面咁嘅職責嘅呢？

20 鄭偉波先生：首先就我想 correct 一個 fact 先，就稽查並不是只係去監察巴士車  
21 長嘅駕駛，監察駕駛係佢一部分嘅職能，稽查係負責管理，係我哋嘅前線管理  
22 我哋個巴士嘅運作嘅。至於我哋有幾多個稽查，係做啲乜嘢嘅工作，我交畀我  
23 同事鍾生回答。

24 鍾澤文先生：係，多謝，主席。我哋有百幾個呢啲所謂 inspector 嘅稽查，咁但係  
25 佢哋嘅工作係有唔同嘅，例如有一啲佢哋係會喺個控制中心嗰度負責調配，有  
26 一部分會喺街上面做巡邏，或者喺總站嗰度係協助一啲乘客嘅秩序。咁相比我  
27 哋有千幾架車喺街嗰度行緊嘅話，啲稽查係唔可能即時可以去到發生事故嘅巴  
28 士裏面係提供協助畀啲車長。呢個同譬如話港鐵有附例有好大嘅分別，因為喺  
29 港鐵嘅車站都有相當數量嘅職員可以提供協助，如果係港鐵喺架車上發生事故  
30 嘅話，佢哋嘅司機係會揸番架車去到個站度，係尋求個站務員幫佢協助嘅，咁  
31 如但係我哋嘅車長如果發生事故，頭先都講，已經停咗架車，佢唔可以就走番  
32 去架車嗰度揸架車去搵個督察，或者如果係咁嘅情況喇，已經係有個爭執喺度  
33 嘅話，就做唔到嘅，咁呢個就有個分別㗎度。多謝，主席。

34 MR DUNCAN：（經傳譯員）好喇，我哋返番去運輸署嗰份文件，96 頁第 7 段，就係  
35 關於安全帶嘅，新巴士嘅安全帶。第 8 段講到加裝安全帶，即係現時巴士上面

1 加裝安全帶呢個問題係有提出嘅，咁最後嗰部分就係提到，就話專利巴士公司  
2 係會進一步咁研究呢一項嘅建議咁樣，咁而家公司係咪諗緊呢樣嘢，係咪研究  
3 緊？

4 鄭偉波先生：我同事李生會答。

5 李廣威先生：我哋公司係諮詢緊我哋嘅巴士供應商，對於一啲嘅舊車係可唔可以加裝  
6 安全帶嘅。初步嘅回覆係 ADL 嘅車係 2013 年之後--2013 年或之後嘅車嘅上層  
7 係可行嘅，但係需要加裝好多嘅結構上面嘅鞏固，同埋需要將所有嘅凳係更  
8 換，因為現時嘅凳係唔可以再用。咁嗰個初步估計，估算嗰個價錢係每一架車  
9 可能係需要 15,200 磅至到 20,000 磅一架車。我哋估計我哋嘅車隊入面大概  
10 有一千一百架車係呢一類型，如果真係要加裝嘅，嗰個價錢係會可能去到一億  
11 八千萬至到二億四千萬。呢一個係好巨大嘅數目，係會造成好大嘅浪費。

12 MR DUNCAN：（經傳譯員）浪費係因為啲乘客唔繫安全帶，係咪呀？

13 李廣威先生：：冇錯，因為我哋都留意到乘客而家--其實我哋而家嘅車嘅無遮擋座位  
14 都係已經有三點式安全帶，但係我哋留意到乘客係冇用呢啲嘅安全帶嘅。

15 MR DUNCAN：（經傳譯員）公司喺過去有冇一啲嘅補貼，係即係政府當局畀任何補  
16 貼㗎？

17 李廣威先生：喺過往政府只係補貼過--即係由環保署係補貼我哋係安裝一啲嘅減排裝  
18 置，亦都係曾經出資係買過幾架嘅混能嘅電車--混能車去試驗，有三架。另外  
19 亦都係有提供有十架單層嘅電動巴士係畀我哋作測試嘅。係，多謝，主席。

20 MR DUNCAN：（經傳譯員）：我哋睇到呢啲咁嘅措施，就安全措施嘅設施喇或者係  
21 改善安全嘅措施喇咁，但係呢啲其實就係喺工作小組成立咗之後先提出嘅，咁  
22 喺考慮嘅過程當中，公司係咪有冇諗過同政府講，就話睇下可唔可以有一啲嘅  
23 補貼畀公司，等你哋可以係照顧到部分嘅成本，咁等你哋可以提升嗰個安全？

24 鄭偉波先生：我哋係未同政府講嘅，但係如果政府係願意補貼我哋提升--令到我哋可  
25 以更加提升安全，我哋係非常歡迎嘅。

26 MR DUNCAN：（經傳譯員）點解你唔同政府講一講，點解？

27 鄭偉波先生：我哋唔知道可以咁樣問政府攤津貼㗎。

28 MR DUNCAN：（經傳譯員）好喇，我想問多幾個問題添，就係關於嗰個紀律處分嘅  
29 程序，咁其實都係有提過㗎喇，或者想請大家睇一睇 39 頁，CTB-1 嘅 39 頁，  
30 CTB-1，39。

31 鄭偉波先生：睇到。

32 MR DUNCAN：（經傳譯員）我哋睇到底下嗰度，(b) 嗰度就係背景檢查同埋係定罪  
33 嘅刑罰咁樣，咁其實就係服務質素嘅部門就係負責嗰個紀律處分嘅，即係有違

1 規行為，咁呢個係根據嗰個車長嘅手冊嚟到做，仲有，委員會就係收到一啲嘅  
2 資料，就係關於嗰個紀律處分嘅程序咁樣嘅。好喇，講到個車長嘅手冊，咁或  
3 者而家等我打一打出嚟，CTB-2，就係 85 頁嘅。

4 主席：（經傳譯員）鄧律師，係幾時㗎？

5 MR DUNCAN：（經傳譯員）係 2018 嘅。咁車長手冊嗰度係有一啲嘅節錄，第 85  
6 頁，翻譯就係 169-1。或者想大家睇一睇嗰個目錄喇，就應該係第 87 頁嘅，喺  
7 翻譯個版本嗰度 169-3。你係咪睇到個目錄嘅一版，睇唔睇到？你同唔同...

8 鄭偉波先生：睇到。

9 MR DUNCAN：（經傳譯員）你同唔同意就係呢個係好詳盡，有好多細節嘅文件㗎  
10 嘅，同唔同意？

11 鄭偉波先生：同意。

12 MR DUNCAN：（經傳譯員）英文嘅版本，即係兩個版本喇，有七個唔同嘅章節嘅，  
13 咁就當中係包括不同嘅段落喇，每一章都係有不同嘅段落咁樣。好喇，其實公  
14 司係採取咗乜嘢嘅步驟去確保車長係熟習所有呢個手冊當中嘅條文嘅呢？

15 鄭偉波先生：我同事鍾生會答嘅。

16 鍾澤文先生：喺呢本車長手冊裏面所講嘅嘢，其實我哋喺--有大部分喺佢哋入職嗰個  
17 訓練嗰度係已經講過畀佢哋聽，咁亦都有一部分係喺嗰個重溫課程裏面亦都會  
18 喺--再講解嘅。咁呢一本手冊就係方便佢哋上完呢啲課程之後再去詳細睇番  
19 嘅，或者佢如果係真係唔記得嘅，佢可以睇番。多謝。

20 MR DUNCAN：（經傳譯員）好喇，答番主席喇，呢個手冊就係今年 4 月嘅，個日期  
21 係。咁之前嗰個版本係幾時出㗎？

22 鍾澤文先生：上一個版本係 2017 年嘅 7 月。

23 MR DUNCAN：（經傳譯員）咁呢個手冊係咪不時咁樣檢討㗎？

24 鍾澤文先生：係，冇錯。

25 MR DUNCAN：（經傳譯員）幾耐檢討一次？

26 鍾澤文先生：呢個都唔係一個定期嘅，咁就要睇下我哋喺嗰段時間有幾多嘢有改動或  
27 者需要加番落去。

28 MR DUNCAN：（經傳譯員）可唔可以同委員會講一講，有幾多車長係曾經係受過紀  
29 律處分，即係譬如過去嗰十二個月，有幾多位車長係遭受到紀律處分嘅呢？

30 鄭偉波先生：因為今次我哋嚟，就以為主要就係講交通安全呢一部分嘅，即係駕駛安  
31 全，所以我哋有準備到資料就係整體紀律處分嘅數字，呢個我哋可以後補番畀

1 委員會。

2 主席：（經傳譯員）係，請你之後補番，唔該。

3 MR DUNCAN：（經傳譯員）主席先生，而家會唔會係一個適當嘅時間係小休？

4 主席：（經傳譯員）係，係，啱。我哋而家就係休息，就會係下晝兩點半再繼續㗎，  
5 唔該晒。

6

7 下午 1 時 01 分聆訊押後

8

9 下午 2 時 30 分恢復聆訊

10 出席人士如前。

11

12 主席：（經傳譯員）各位，午安。鄧律師。

13 MR DUNCAN：（經傳譯員）唔該主席。鄭先生，有幾條問題係想問一問你嘅，呢個  
14 就係關乎 2018 年嘅指引，呢個就係巴士車長工作、休息及用膳時間嘅指引，  
15 2018 嘅版本。有關嘅指引，CTB-2 嘅第 2 頁嗰度就會見到嘅。至於話之前嘅版  
16 本，你就會係--如果想睇番嘅話，可以睇 TD-5，睇 1556 頁嗰度見到。或者為  
17 求今日係問題嘅時候比較係容易理解，我而家就分發咗個比較表，係將不同嘅  
18 指引，將佢進行一個比較，因為啲指引就係有改變嘅，睇 04 年至到 2018 年之  
19 間呢啲指引係有個變動嘅，或者咁，我想請你係睇一睇我呢一個表，嗰份文件  
20 嗰個標題就係嗰份指引嘅比較表，嗰個日期就係 2018 年嘅 5 月 4 號，你面前  
21 係咪已經有呢份文件呀？

22 鄭偉波先生：有。

23 MR DUNCAN：（經傳譯員）唔該晒。首先，我想講番一啲比較重要嘅變動嘅，呢啲  
24 係今年嘅指引，同以前 2010 年所通過嘅指引之間嘅不同之處，你跟到我所講嘅  
25 說話嘛？

26 鄭偉波先生：跟到。

27 MR DUNCAN：（經傳譯員）唔該晒。首先睇呢個表嗰度想請你係睇第 3 項，即係話  
28 嗰個係總嘅或者最高嘅駕駛時間，見到嘛？

29 鄭偉波先生：見到。

30 MR DUNCAN：（經傳譯員）嗰個變動，如果以呢一個係最長嘅係駕駛時間嚟到計，  
31 新嘅指引就咁嘅，睇一更裏面係十個鐘，之前睇 2010 年嗰個指引係講睇一個工

- 1 作日裏面十一個鐘，首先見唔見到佢兩者不同之處呀？
- 2 鄭偉波先生：我見到個指引唔同嘅。
- 3 MR DUNCAN：（經傳譯員）呢個脗唔脗合你自己所理解嘅變動呢？
- 4 鄭偉波先生：呢一部分我請鍾先生負責回答。
- 5 鍾澤文先生：係脗合嘅。
- 6 MR DUNCAN：（經傳譯員）唔該晒。第二點想請你睇嘅就係嗰個最長嘅更次時間，
- 7 呢個就正正喺剛才所講嗰項嘅上面，你睇唔睇到嗰度嘅變動呀？個變動就係
- 8 2018 年最長嘅更次時間就一更裏面係十二個鐘，對比起一個工作天裏面係十四
- 9 小時，呢個係咪亦都脗合你嘅理解呢，鍾先生？
- 10 鍾澤文先生：脗合嘅。
- 11 MR DUNCAN：（經傳譯員）我哋揭去後面嗰版，你會見到最長嘅更次同埋呢一個駕
- 12 駛時間由於係有一個所謂嘅特別更次，所以就有啲變動，喺第 2 頁嗰度，見唔
- 13 見到呀？
- 14 鍾澤文先生：見到。
- 15 MR DUNCAN：（經傳譯員）嗰度就有一個要求嘅，就話嗰個更次嘅時間，嗰個司機
- 16 嘅更次時間係實質上可以超過嗰個剛才第 1 頁所講嘅十二個鐘，係可以最多去
- 17 到十四個鐘嘅，睇到嘛？
- 18 鍾澤文先生：睇到。
- 19 MR DUNCAN：（經傳譯員）亦都脗唔脗合你對新指引嘅理解呢？
- 20 鍾澤文先生：脗合。
- 21 MR DUNCAN：（經傳譯員）講到個駕駛時間，即係喺嗰個特別更次裏面嘅駕駛時
- 22 間，係咪有一個上限㗎？個上限係十小時，㗎唔㗎呀？
- 23 鍾澤文先生：㗎嘅。
- 24 MR DUNCAN：（經傳譯員）嗰度亦都有多一個條件嘅，如果係呢個特別更次嘅話，
- 25 就係話應該係有一個休息，嗰個休息唔可以少於連續三小時。
- 26 鍾澤文先生：係嘅。
- 27 MR DUNCAN：（經傳譯員）係咪都係你嘅理解係咁㗎？
- 28 鍾澤文先生：係嘅。
- 29 MR DUNCAN：（經傳譯員）我請你睇咗剛才嘅資料之後，首先我想問，我嘅理解㗎

1 唔啱，縱使可以係有一個特別更，而個特別更就係上限個時間可以去到十四  
2 個鐘，但係你哋公司就唔諗住係多過十三個鐘嘅，係咪你哋嘅計劃或者你哋嘅  
3 打算係咁呀？

4 鍾澤文先生：係嘅。

5 MR DUNCAN：（經傳譯員）較早時候，我哋留意到，根據你哋提交畀委員會嘅資  
6 料，有鑑於新嘅指引，係需要增加一百二十一位車長嘅，你記唔記得曾經提過  
7 一個咁嘅數字呀？

8 鍾澤文先生：記得。

9 MR DUNCAN：（經傳譯員）你計算出呢個數字嘅時候係咪已經考慮埋你哋打算最高  
10 個個時數係十三個鐘呀？

11 鍾澤文先生：冇錯。

12 MR DUNCAN：（經傳譯員）如果你哋係用到個個上限十四個鐘，就唔係用十三個鐘  
13 嚟到計嘅話，會唔會減少你所需要增聘或者增加嘅車長嘅數目呀？

14 鍾澤文先生：會嘅。

15 MR DUNCAN：（經傳譯員）好，咁點解公司而家決定係將個個最長嘅時間係定喺十  
16 三個度呢？

17 鍾澤文先生：因為我哋理解到公眾對個個安全嘅關注。

18 MR DUNCAN：（經傳譯員）咁嘅安排又點樣樣可以有助安全呢？

19 鍾澤文先生：車長佢個每日工作時間都唔會太長，去到十三個鐘。

20 MR DUNCAN：（經傳譯員）但係無論如何，最高嘅駕駛時間都會係十個鐘，即係無  
21 論個個更係十四個鐘定十三個鐘，個個駕駛時間嘅上限都係十個鐘嘅，係咪  
22 呀？

23 鍾澤文先生：冇錯。

24 MR DUNCAN：（經傳譯員）即係話係個個——你指係就係講到話而個日係好長嘅話，  
25 你就係考慮到個個多咗一個鐘個個問題啫，係咪呀？

26 鍾澤文先生：係，冇錯，即係佢可以早啲放工嘅話，咁佢同下一個更分個個相隔時  
27 間，休息就會多啲。

28 MR DUNCAN：（經傳譯員）唔該。早啲時候，你講過一位車長，即係當然唔計個啲  
29 兼職車長，一般車長一般會係工作十小時，八個鐘頭就係正常嘅，兩個鐘就係  
30 超時嘅，你記唔記得曾經同我哋咁樣講過呀？

31 鍾澤文先生：記得。

1 MR DUNCAN：（經傳譯員）好，如果有一個人佢要做呢個特別更次，你哋要求佢做  
2 特別更嘅，換句話講，佢當值就係十三個鐘嘅，但係裏面駕駛嘅時間就只係十  
3 個小時，我就想問，佢係攞八個鐘頭正常時間嘅工資，另外五個鐘頭嘅超時補  
4 水，係咪咁樣計嘅呢？佢點樣出糧嘅呢？定抑或係佢係有八小時嘅正常工資，  
5 另外兩小時嘅超時補水，即係好似平時咁樣樣，而嗰個休息嘅時間就係冇工資  
6 嘅，係邊一種安排呢？

7 鍾澤文先生：係佢會獲得八個鐘頭嘅基本底薪，跟住嗰五個鐘就係一個超時嘅補水。

8 MR DUNCAN：（經傳譯員）我想問，你哋係行咗新嘅指引未呢？

9 鍾澤文先生：仲未嘅。

10 MR DUNCAN：（經傳譯員）幾時會開始呀？

11 鍾澤文先生：我哋打算會喺今年嘅第三季。

12 MR DUNCAN：（經傳譯員）係點解要遲啲先做呢？

13 鍾澤文先生：第一，因為我哋要請到足夠嘅車長，先至可以推行；第二，我哋亦都要  
14 增加一啲休息嘅設施畀嗰啲車長喺嗰三個鐘嘅休息時間裏面有一個地方去休  
15 息。

16 MR DUNCAN：（經傳譯員）你可唔可以同委員會講下司機幾常係需要做嗰個十三個  
17 鐘嘅更次呢？即係你遲啲就會有呢個十三個鐘嘅更次，幾頻密、幾常佢哋要咁  
18 做呢？

19 鍾澤文先生：新巴同城巴就係有唔同嘅安排嘅，新巴嘅司機佢哋係返梗一個更次嘅，  
20 如果佢申請咗做呢啲特別更分嘅話，咁佢就係每一日都會係做呢個特別更分，  
21 除咗佢係休息。而城巴嘅車長，因為佢哋嗰個返工係輪更嘅方式嘅，佢哋係每  
22 一個禮拜係會輪一個唔同嘅更分，咁就要睇下嗰個更分嘅編排係點樣，就好難  
23 講話究竟佢係有幾頻密。

24 MR DUNCAN：（經傳譯員）講到新巴，你嘅意思係咪話有啲司機就係恆常都會係做  
25 十三個鐘呢一啲嘅特別更次嘅，係咪呀？

26 鍾澤文先生：係。

27 MR DUNCAN：（經傳譯員）一個禮拜做幾多日呢？會返幾多日工呢？

28 鍾澤文先生：一個禮拜會返五日或者六日，就會有一日嘅休息時間。

29 MR DUNCAN：（經傳譯員）你話五、六日，係咪佢哋有得揀㗎？

30 鍾澤文先生：要佢申請去做邊一個更分，有一啲更分因為係一至六都會有嘅，佢哋就  
31 會返六日，就星期日會休息，有一啲更分係星期一至星期日都會有嘅，佢哋就  
32 會返五日就放一日假，咁嚟休息嘅。

1 MR DUNCAN：（經傳譯員）我嘅理解就係有好多嘅新巴嘅車長就會係十三個鐘一  
2 日，就一係五日、一係六日一個禮拜咁計，係咪呢？

3 鍾澤文先生：會有一啲車長係咁樣，但係唔係全部嘅，我哋估計就大約係會有十幾個  
4 per cent 嘅更分會係呢啲特別更嘅更次。

5 MR DUNCAN：（經傳譯員）大概有幾多比例嘅車長係做呢啲更分--呢啲時間，十三  
6 個鐘特別更，每一日，就五至六日，大概個百分比係幾多呢，車長嘅數目，係  
7 新巴嚟講？

8 鍾澤文先生：等我睇一睇。有十幾個 per cent 嘅，大約係一百四十四個更分。

9 MR DUNCAN：（經傳譯員）好喇，講到城巴嗰方面，可唔可以解多次新巴同城巴之  
10 間嚟呢方面嘅分別係點樣呀？

11 鍾澤文先生：城巴嘅車長佢哋唔係每一日都固定返個一個更分嘅，佢哋係每一個禮拜  
12 返一個更分，或者五日返一個更分，跟住就會放一日假，放完假之後，佢就會  
13 係 rotate 去下一個更分，又做五日，之後又放假，又去第二個更分咁樣嘅。

14 MR DUNCAN：（經傳譯員）即係話喺一個禮拜之內，佢哋就會係十個鐘咁計，跟住  
15 下一更就可能係十三個鐘，係咪即係每一日都唔同，一日就十個鐘，一日十三  
16 個鐘，係咪咁樣唔同㗎？

17 鍾澤文先生：係每五日就轉一次更。

18 MR DUNCAN：（經傳譯員）係，我明。

19 主席：（經傳譯員）咁係可以係一日十個鐘，一日係十三個鐘，仲有冇其他嘅類別  
20 呀，有冇其他做不同鐘數嘅類別呀？

21 鍾澤文先生：有嘅，十個鐘其實係一個平均嚟嘅，我哋有一啲更分，有啲係八個幾  
22 鐘，有啲係九個鐘，十個鐘又有，十一個鐘又有咁樣嘅。

23 羅先生：（經傳譯員）咁呢個即係五日嗰度，就即係個模式係一樣嘅，係咪呀？即係  
24 五日之後先至轉嘅，即係每五日嚟講係完全一樣嘅，個時數，係咪呀？

25 鍾澤文先生：冇錯。

26 MR DUNCAN：（經傳譯員）你可唔可以就畀委員會一啲嘅講法呢，其實呢啲新嘅指  
27 引對一般車長嚟講，有啲咩嘢嘅具體影響？有冇一啲具體嘅改變、實質嘅改變  
28 呀咁樣呢？還是係喺佢哋工作時數都有乜特別嘅轉變呢？

29 鍾澤文先生：如果佢係轉咗做一個特別更咁先算，佢個休息時間就會係集中咗喺個  
30 三個鐘或者三個幾鐘嘅安排裏面，未改呢個指引之前，其實最高工作時間係十  
31 四個鐘，而個駕駛時間係十一個鐘，其實佢如果係一個十四個鐘嘅更分，佢  
32 都係有三個鐘嘅休息時間，不過呢啲休息時間其實就會分開咗係唔同嘅時間畀

1 佢啫。但係喺一個特別更嚟講，嗰個休息時間就會連續集中咗喺同一段時間，  
2 即係嗰三個鐘裏面或者三個鐘以上嘅裏面。

3 MR DUNCAN：（經傳譯員）舊時就十四個鐘嗰個嘅更係咪車長好鍾意㗎，鍾唔鍾意  
4 㗎？

5 鍾澤文先生：有部分車長係鍾意嘅。

6 MR DUNCAN：（經傳譯員）有冇車長就係需要做到十四個鐘--最高十四個鐘，而係  
7 唔想咁樣做嘅，違背佢哋嘅意願咁樣做嘅，有冇㗎？

8 鍾澤文先生：我哋係編排咗個更分畀佢，佢就需要去做嗰個更分嘅，不過佢哋如果係  
9 搵到同事同佢去調更，而又合乎個指引嘅話，我哋係會批准嘅。

10 MR DUNCAN：（經傳譯員）如果嗰個人對十四個鐘嘅安排唔滿意嘅話，係咪即係好  
11 難搵人調呢，其實？

12 鍾澤文先生：我唔知道佢哋難唔難，不過我哋車長調更嘅安排都幾普遍嘅。

13 MR DUNCAN：（經傳譯員）你估計--對於呢啲特別更嚟講，你覺得對員工嚟講係咪  
14 都係受歡迎㗎，還是真係唔受歡迎㗎？

15 鍾澤文先生：我聽過有工會話歡迎，亦都有工會話唔歡迎。

16 MR DUNCAN：（經傳譯員）都係兩樣都有，係咪呀？一樣一半咁樣，係咪呀？

17 鍾澤文先生：係咪一樣一半，我唔知，但係我又聽過一個，有啲車長佢係鍾意做長啲  
18 嘅更分，因為佢要搵--想搵多啲錢。

19 MR DUNCAN：（經傳譯員）如果唔受歡迎，點解唔受歡迎呀？

20 鍾澤文先生：有啲車長佢唔需要搵咁多錢，譬如話有一啲車長佢都做咗好多年，可能  
21 屋企佢唔係一個主要嘅經濟支柱，佢可能佢做八個鐘、九個鐘，佢已經足夠㗎  
22 喇，所以佢哋就唔鍾意做一啲較長嘅更分。

23 MR DUNCAN：（經傳譯員）你估計要求員工係做到十三個鐘其實係咪即係違背佢哋  
24 嘅意願，佢哋係唔想嘅，係咪呢？你覺唔覺得係咁呢？

25 鍾澤文先生：我唔覺得。

26 MR DUNCAN：（經傳譯員）好喇，或者如果大家冇問題，我哋就講完嗰個指引。我  
27 就想講番嗰個遠期嘅計劃，呢個就係 TD-1，195 嘅，今朝都睇過呢份文件，鄭  
28 先生。

29 鄭偉波先生：有睇過。

30 MR DUNCAN：（經傳譯員）係，唔該。係喇，就係講嗰個安全帶咁樣，或者我再講  
31 多少少，呢一度。首先或者想請你睇一睇第 199 頁，文件嘅 199 頁，呢度係有

1 一個意外嘅性質嘅分析，係 2016 嘅，睇唔睇到，鄭生？

2 鄭偉波先生：睇到。

3 MR DUNCAN：（經傳譯員）好喇，表 4，意外嘅性質係有不同嘅類別咁樣嘅，呢一  
4 度，就一路係去到 200 頁嘅，睇唔睇到呀？

5 鄭偉波先生：睇到。

6 MR DUNCAN：（經傳譯員）意外嘅性質係 199 頁最後嗰度就係一啲非碰撞嘅意外就  
7 係有呢個乘客受傷嘅咁，你睇到，鄭生？

8 鄭偉波先生：睇到。

9 MR DUNCAN：（經傳譯員）呢一點就係喺 200 頁嗰度都係有跟進嘅，六成嘅意外都  
10 係非碰撞嘅意外而係有乘客受傷嘅，就有進一步咁樣嚟到去分析呢一類嘅意  
11 外，喺表 5 嗰度係有列出嚟嘅，個分析就係話有啲乘客就係失咗平衡，呢個係  
12 一個主要嘅意外嘅成因嚟嘅，就你所知，呢個今日都係咪--即係都係咁樣呢？  
13 嗰個比例睇嚟係最高嘅，即係對於呢個意外嘅性質嚟講，係咪今日嘅情況都係  
14 一樣，冇變呀？

15 鄭偉波先生：冇大分別。

16 MR DUNCAN：（經傳譯員）好喇，喺表 5 嗰度上高個段落，個分析就係話乘客就失  
17 平衡咁樣，呢個就係個主要嘅成因，公司嚟講，係可以做啲乜嘢呢？對於呢類  
18 咁嘅事情，可以做啲乜嘢呢？

19 鄭偉波先生：我畀鍾生回答。

20 鍾澤文先生：乘客喺呢個車度跌到嘅，我哋一向都睇得到佢係最主要嘅原因嚟嘅，我  
21 哋過往都同運輸署係做一啲宣傳嘅工夫，包括政府就拍咗一啲宣傳嘅短片，喺  
22 電視嗰度播嘅，就係提醒啲乘客上車咗之後，就要緊握扶手，同埋就係如果搵  
23 住太多嘢嘅話，就唔好行上去樓上坐；另外我哋公司亦都喺車上面加貼咗一啲  
24 標示，提醒啲乘客係去上車之後，係儘快去搵位坐或者係扶手--緊握扶手嘅；  
25 除咗標貼之外，我哋亦都有利用車上面嘅報站系統係出示一啲--顯示同埋廣播  
26 係提醒啲乘客緊握扶手，呢啲都係我哋過往有做嘅嘢嚟嘅；除咗話係加強乘客  
27 嘅宣傳，我哋亦都有喺我哋嘅司機嘅訓練裏面係提醒啲司機，喺駕駛時要留意  
28 乘客喺車廂入面嘅活動，尤其是喺停完站開車之前要睇下啲乘客佢哋係行到埋  
29 去位未，或者係扶穩未，同埋係留意有啲老人家佢哋嗰個狀況，同埋喺開--即  
30 係停車之前，都要柔順一啲，呢啲我哋都有提醒啲車長係儘量避免因為剎車而  
31 令到乘客係跌到嘅，呢啲係我哋做嘅嘢。

32 MR DUNCAN：（經傳譯員）巴士車長嗰個駕駛態度會唔會就係都導致到乘客會跌到  
33 呢？你嘅經驗、去嘅體驗係咪咁呢？

34 鍾澤文先生：車長嘅駕駛態度係會導致乘客跌到嘅，呢個係其中一個原因，乘客佢自

1 已上咗車之後有冇緊握扶手，呢個都係佢哋自己--即係乘客嘅一個責任嚟嘅。  
2 當然喺香港嗰個駕駛路面亦都有好多突發嘅事情，車長係控制唔到，變咗有時  
3 佢真係需要緊急剎車而令到乘客係跌到嘅。

4 MR DUNCAN：（經傳譯員）有冇啲規例或者規則講到話一架巴士可以載幾多乘客  
5 呢？即係話除咗係有座位坐嘅乘客之外，有冇規例、規則講除此之外仲可以多  
6 載幾多乘客，換句話講，可以係有幾多乘客係企喺度嘅呢？

7 鍾澤文先生：每一架巴士佢嘅座位數目同埋可以企立乘客嘅數目都係有限制嘅，而呢  
8 個數目亦都寫咗喺架車嘅出面，喺近住車門嗰度，唔同巴士嘅種類或者佢嘅長  
9 度，佢個載客量都會有唔同嘅，企位嘅人數亦都會有唔同。

10 MR DUNCAN：（經傳譯員）邊個負責去決定係可以載得多過係巴士所容許嘅站立乘  
11 客呢？邊個負責嘅呢？

12 鍾澤文先生：每一架新入到嚟香港嘅巴士，運輸署都會做一個所謂叫做 type  
13 approval 嘅程序，喺呢個程序裏面就會因應架巴士嗰個喺樓下嘅通道嘅面積  
14 去計算嗰個可以企嘅乘客嘅數目，同埋呢個亦都要考慮埋嗰個車嘅總載重量，  
15 亦都有一個重量去計算。

16 主席：（經傳譯員）我諗嗰個問題係比較係具體嘅，邊個可以決定就係嗰個企喺度嘅  
17 乘客嗰個上限過咗，邊個可以決定，邊個有咁嘅責任呢？

18 鍾澤文先生：司機有責任要確保佢架車唔會超載。

19 MR DUNCAN：（經傳譯員）你諗住巴士嘅車長點樣樣可以履行到呢個職責呢？

20 鄭偉波先生：呢個由我負責回答，我哋每部車就係有定咗嗰個企位嘅總數嘅，但係當  
21 我哋個車長佢揸住架車嘅時候，佢就有可能分心就去一路數住有幾多乘客上咗  
22 車，因為乘客上咗車，首先佢哋係應該選擇係會坐位先，如果有晒座位嘅話，  
23 就啲乘客就需要企，但係喺任何一個時間，我哋巴士上面嘅車長佢係唔可能知  
24 道自己架車上面係載咗幾多乘客嘅，佢只係可以憑觀察嘅，而呢個觀察就係啲  
25 乘客企到幾近車頭嗰度，即係如果企到好近車頭，即係好多人企，但係--即係  
26 如果大家喺街上面有留意嘅話，或者平時有喺繁忙時間搭巴士嘅，就會有呢個  
27 體驗㗎喇，喺架巴士樓下嘅後面嘅部分，乘客係唔鍾意企喺嗰處嘅，佢哋就選  
28 擇就企喺近住個門口嗰度，即係架巴士中門，即係個 exit door 嗰度，同埋就  
29 再企下企下就企咗去車頭，就唔行入去，如果喺咁樣嘅情況底下，嗰個巴士車  
30 長佢只係憑觀察見到好多人企喺佢近住車頭，但係佢唔會知道喺後面嘅位置會  
31 唔會有好多嘅空間係冇人願意入去企，呢個就係普遍我哋喺繁忙時間嘅情況嚟  
32 嘅。多謝。

33 MR DUNCAN：（經傳譯員）我明嘅，我明呢啲困難嘅。換句話講，係咪話實質上巴  
34 士車長係無法去執行嗰個係企位嘅上限，縱使佢喺車身嗰度已經寫明咗只可以  
35 企咁多個人，但係佢其實係無法去執行嘅，係咪呢？

1 鄭偉波先生：第一，個車長佢不知道幾時要去執行，因為佢數唔到有幾多個人喺架車  
2 上面，因為大家要注意嘅，一架車一路有人上車，一路又有人落車，到底剩番  
3 喺架巴士裏面嘅係幾多人呢，個車長唔可能拎住部計數機一路去計住嘅，唔可  
4 以咁準確做得到嘅，佢就只可以憑肉眼嘅觀察。好喇，如果佢觀察到話好多人  
5 企到去近住車頭，佢亦都有嘢可以做得嘅，因為啲乘客係趕住去返工，同埋  
6 已經畀咗錢，因為企喺架車裏面嘅乘客全部已經一係入咗錢，一係拍咗八達通  
7 㗎喇，如果個車長真係去逐個人、逐個人去數，數完係多咗--譬如多咗兩個人  
8 人，佢唔可能去執行到嘅，佢唔知叫邊兩個人落車，即係呢個就係個實質上  
9 個困難嚟嘅。多謝。

10 MR DUNCAN：（經傳譯員）巴士過份擠逼係咪你哋公司面對嘅難題之一呢？過份擠  
11 逼而令致就有好多人係要企，而企嘅人就多過個企位嘅上限，對你哋公司嚟  
12 講，呢個係咪你哋嘅問題之一呢？

13 鄭偉波先生：我再重申一次，我哋其實係冇任何數據去證明到係有呢個所謂超載，即  
14 係個企位多過個準許上限呢個情形，我哋係冇呢個數字嘅，所以我唔能夠可以  
15 好清楚咁樣答到你我哋有冇呢個超載嘅情況嘅。

16 MR DUNCAN：（經傳譯員）即係公司係唔知嘅，即係你哋有冇過度擠逼呢個問題，  
17 你哋就唔知，係咪呀？

18 鄭偉波先生：再重申一次，係喺車頭，近住車頭，或者架車嘅前半部係有可能有過度  
19 擠逼，但係喺架車嘅後半部，係樓下後半部好多時係有人企喺度，呢個就係架  
20 車有部分嘅位置係過度擠逼，但係過度擠逼就係一個觀感嚟嘅，有冇超載就係  
21 一個客觀嘅計算，我哋就有呢個資料就係話啲車有幾多部係超過咗個車容許  
22 嘅上限嘅，我哋有呢個資料嘅。

23 MR DUNCAN：（經傳譯員）我想請你睇委員會所收到嘅另一份意見書，MISC-1，  
24 124-1 個頁。

25 鄭偉波先生：我哋係睇咗。

26 MR DUNCAN：（經傳譯員）唔該。呢個係嚟自警方嘅，喺 18 年 5 月 7 號嘅個封  
27 信，你睇咗，係咪呀？

28 鍾澤文先生：睇咗。

29 MR DUNCAN：（經傳譯員）第 2 頁嘅第 5 段。

30 鍾澤文先生：有睇過。

31 MR DUNCAN：（經傳譯員）喺嗰段裏面，寫呢封信嘅人就講到係五個主要嘅成因，  
32 睇到嘛？

33 鍾澤文先生：睇到。

1 MR DUNCAN：（經傳譯員）我想問你呢個問題，公司會唔會時不時收到咁樣性質嘅  
2 報告，係警方交畀你哋嘅，當然呢封信就係特登係寫畀專責委員會嘅，但係我  
3 嘅問題就話你哋公司會唔會喺警方嗰度時不時都收到類似咁樣嘅資料呢？

4 鍾澤文先生：我哋係冇同警方嗰度係收到呢啲資料嘅，不過我哋喺做頭先嗰個五年發  
5 展計劃嗰陣時，運輸署佢哋畀我哋嗰個——做嗰個發展計劃個指引嗰度係有提供  
6 類似嘅資料畀我哋嘅，係每一年一次。

7 MR DUNCAN：（經傳譯員）呢一類嘅資料係有嘅，不過係透過運輸署攞到，係咪  
8 呀？咁樣講啱唔啱，咁嘅理解啱唔啱？

9 鍾澤文先生：啱嘅。

10 MR DUNCAN：（經傳譯員）講到第 5 段，講到嗰五個係主要嘅成因，佢哋指出呢五  
11 大成因，你覺得啱唔啱呢？係咪脗合你哋平時嘅理解，定抑或你都感到意外  
12 呢？

13 鍾澤文先生：脗合嘅，唔感到意外。

14 MR DUNCAN：（經傳譯員）好，跟住就想請你睇另一份文件嘅，亦都係委員會係從  
15 運輸署嗰度所收到嘅資料，係好近期嘅，不過就唔知道你哋有冇機會係睇過，  
16 呢度就係 TD-5，1649，TD-5，1649 嘅，我相信就係委員會幾日前先至收到  
17 嘅啫，道路安全管理系統，呢度就係講到而家政府所採納嘅嗰一套制度，你同  
18 同事有冇睇過呢份文件呀？

19 鍾澤文先生：有睇過。

20 MR DUNCAN：（經傳譯員）好，或者睇幾方面，呢份文件，首先第一版 1649 第 4  
21 段，呢版第 4 段，“Apart from”嗰段，或者請大家睇一睇呢段先。

22 鍾澤文先生：睇咗。

23 MR DUNCAN：（經傳譯員）呢度有一個嘅樣辦，即係每一季嘅交通意外嘅情況，係  
24 運輸署係提交畀道路安全議會嘅，咁個資料就係喺附件 1 嗰度，或者喺呢方面  
25 就請大家就睇去 1658 嗰一版，1658，大家睇唔睇到 1658 呀？個標題就係交  
26 通意外嘅報告，係畀呢個道路安全議會嘅，日期就係 2018 年 3 月 7 號，睇到  
27 喇呵？

28 鍾澤文先生：睇到。

29 MR DUNCAN：（經傳譯員）好，下一版，1659，就係交通意外情況嘅總結，係  
30 2017 年嘅。

31 鍾澤文先生：睇到。

32 MR DUNCAN：（經傳譯員）好喇，睇落啲就係附件 3，專利巴士，牽涉專利巴士嘅，

1 係 1659，附件 3，牽涉到專利巴士，睇到嘛？

2 鍾澤文先生：未睇到。

3 MR DUNCAN：（經傳譯員）睇到喇呵，而家？

4 鍾澤文先生：睇到。

5 MR DUNCAN：（經傳譯員）附件 3，專利巴士，第四季，17 年第四季，九巴、龍  
6 運、大嶼山、城巴（第二），就係記錄到係有增加嘅，而新巴、城巴（專利  
7 一）就係有下降嘅，呢個係相對 16 年第四季嚟講。好喇，而家想請大家係睇附  
8 件 3，呢度係有講附件 3，我哋睇埋附件 3，就係文件嘅 1664 頁，睇到呢度附  
9 件 3 專利巴士嘅情況，有冇睇到？

10 鍾澤文先生：睇到。

11 MR DUNCAN：（經傳譯員）然後每間專利巴士公司都有個表喺度嘅，係咪？

12 鍾澤文先生：係。

13 MR DUNCAN：（經傳譯員）好喇，其中一個方法運輸署量度或者衡量道路安全嘅就  
14 係睇嗰個嘅每一百萬公里行車嘅數目嚟到去睇，你知唔知道咁樣計法㗎？

15 鍾澤文先生：知道。

16 MR DUNCAN：（經傳譯員）睇九巴嗰欄，睇嗰兩項，16 年第四季同埋係 17 年第四  
17 季咁睇，2.979、4.005，係兩季嘅，大家睇到嘛？

18 鍾澤文先生：睇到。

19 MR DUNCAN：（經傳譯員）如果你一路睇埋其他，你睇唔睇到新巴嗰度同埋城巴一  
20 嗰度，睇嚟好似係最高㗎，即係咁多間嚟講，講到話嗰個牽涉嘅比率，即係  
21 每一百萬公里咁計，睇嚟好似係呢兩間係最高，你睇呢個表嘅時候，係咪睇到  
22 咁樣嘅情況呀？

23 鍾澤文先生：係。

24 MR DUNCAN：（經傳譯員）你睇到呢啲數字，覺唔覺得好出奇呀？

25 鍾澤文先生：唔覺得，因為每一個專營權嘅路線嘅網絡都唔同嘅，同埋佢哋所行走嘅  
26 個地區個交通情況都好大分別嘅。就以城巴嚟睇，城巴嘅專營權一同城巴嘅專  
27 營權二，呢一個意外嘅比率都係差別好大嘅，兩間公司都係同一個管理層去管  
28 理嘅，點解會有咁大嘅差別呢？就係因為兩個專營權嘅網絡係好唔同，城巴二  
29 嘅專營權網絡嘅車唔係--大部分會係喺一啲高速公路行走，佢所行嘅咪數亦都  
30 好高；除此之外，路線比例喺一啲繁忙嘅路段亦都係相對低嘅，所以我哋覺得  
31 唔可以就咁樣去比較呢一個 involvement rate per million km 去比較唔  
32 同專營權嗰個安全度。

1 主席：（經傳譯員）呢個其實你喺陳述書嗰度都有講過，係咪呀？即係唔係蘋果比蘋  
2 果咁樣，係咪呀？你話。

3 鍾澤文先生：冇錯。

4 主席：（經傳譯員）可唔可以同我哋講一講喺邊一度你講過呢一個觀點呀？或者一陣  
5 間可以再返番嚟講呢一點嘅。

6 鍾澤文先生：對唔住，主席，我哋 submission 係冇講過。但係喺我哋嗰個運輸署  
7 提交我哋嗰個五年發展計劃嗰度喺 5.1 我哋嗰個 introduction 係有提過嘅。

8 MR DUNCAN：（經傳譯員）係 TD-1-195。

9 主席：（經傳譯員）嗰個第城巴一、城巴二，都係顯示出就係佢哋嘅網絡組別同埋營  
10 運嘅地點，即係城巴一、城巴二，兩者都係城巴運作嘅，其實你講嗰啲公路，  
11 城巴二嗰啲公路大多數係咩嘢公路呀？

12 鍾澤文先生：主要係北大嶼山公路同呢個西九龍走廊。

13 主席：（經傳譯員）唔該晒。

14 MR DUNCAN：（經傳譯員）仲有一點我想同你探討一下嘅，鄭生，我講埋呢點先至  
15 係講其他嘅運輸署嘅文件，或者最近收到嘅文件。而家想請你睇一睇 1650 嗰份  
16 TD-5-1650，今朝主席就睇到黑盒嗰個問題，即係喺小巴嘅黑盒嘅問題，我而  
17 家就想請鄭生你睇一睇第 7 段，呢一版嘅第 7 段，1650 第 7 段。

18 鄭偉波先生：睇咗。

19 MR DUNCAN：（經傳譯員）唔該。主席亦都提到，根據佢嘅理解，就係小巴嗰度嗰  
20 啲情況，佢哋係有一個超速嗰度嗰個時間就係三秒鐘嘅，佢哋係三秒嘅，今朝  
21 主席提過嘅，你記唔記得主席今朝講過呢一點？

22 鄭偉波先生：記得。

23 MR DUNCAN：（經傳譯員）或者係為咗紀錄，呢一個道路交通車輛構造保養規例嘅  
24 附表 19 嗰度，而家係打咗出嚟，如果或者大家睇一睇第 3 段，附表第 3 段，大  
25 家睇到就有個規定嘅，就係一個電子數據紀錄儀器，即係黑盒，呢個係關於喺  
26 小巴安裝呢一類嘅黑盒嘅情況嘅，同埋仲有，就係第 3D 嗰段，就有提到就係所  
27 有該汽車嘅實際速度超過呢一個超速限制持續多於三秒嘅紀錄咁樣嘅，呢度咁  
28 寫，或者想你係留意下呢一點，今朝主席都提過下嘅。

29 鄭偉波先生：睇咗。

30 MR DUNCAN：（經傳譯員）唔該。等我哋而家又睇下嗰個遠期計劃同埋你哋嘅巴士  
31 安全報告，TD-1，200 頁，喺 5.11 段，當然寫嘅時候就係仲未成立咗嗰個工  
32 作小組嘅，5.11 嗰段就講及係有啲乜嘢嘅措施同埋計劃係規劃咗嚟到去加強個

安全嘅，喺呢度可以睇到，200 頁嗰度落到去後面 201 頁，嗰度就係羅列咗一啲你哋已經鑑別咗出嚟嘅一啲措施，相睇下羅馬數字(iv)，係 201 頁嘅羅馬數字(iv)，請你睇一睇嗰段，乜四嗰行就話大力踩 brake 嘅報告就係會產生出嚟嘅，就會用嚟係睇下有邊啲司機就成日有咁嘅習慣就係會急剎掣嘅，就會係有呢個糾正嘅培訓或者係紀律處分嘅，嚟到係糾正呢啲情況，我想問呢啲報告係點樣產生到嘅呢？

鄭偉波先生：我嘅同事鍾生會負責答呢啲題目。

鍾澤文先生：如果我哋係收到有乘客投訴，係話嗰個車長佢嗰個 brake 係好重嘅，我哋就會係攞番呢一個車長佢過往喺使用 brake 嗰個情況嚟去睇下佢係咪有呢一個咁樣嘅習慣，從而就係會--如果真係有嘅，我哋就會去跟進番。

MR DUNCAN：（經傳譯員）唔該。即係話有投訴就唔會有嗰個報告出，係咪呀？

鍾澤文先生：冇錯。

MR DUNCAN：（經傳譯員）5.12 段，我哋有呢一個嘅講法，就係話有啲乜嘢嘅紀律處分同埋有啲咩嘢獎勵嚟到係鼓勵佢哋唔好有啲壞嘅習慣同埋鼓勵佢哋有好嘅駕駛態度，見唔見到呢一個提述呀？

鄭偉波先生：未見到。

MR DUNCAN：（經傳譯員）唔該。

鄭偉波先生：見到喇而家。

MR DUNCAN：（經傳譯員）喺嗰個安全獎金、勤工獎同埋係表現獎金，將佢歸撥咗之後，我想問，有啲乜嘢嘅獎勵制度係可以係避免佢哋駕駛態度唔好同埋鼓勵佢哋駕駛態度要好呢？

鄭偉波先生：我之前都答過㗎喇，就係如果佢哋個駕駛態度唔好、駕駛個安全度唔夠高嘅話，我哋係對佢哋會有不同程度嘅紀律處分嘅。

主席：（經傳譯員）可能個問題其實係咁，你就即係有獎、有罰，但而家就只係得獎，係咪呢？即係蘿蔔同棍嗰個嘅比喻。

鄭偉波先生：正確嘅，係嘅。

MR DUNCAN：（經傳譯員）我哋而家可以將嗰個遠期計劃係躉開，跟住就講番你個意見書，想大家睇下呢個 CT-1 第 27 至到第 28 頁。

鄭偉波先生：睇到。

MR DUNCAN：（經傳譯員）27 頁嗰個標題就係維修同埋檢查，係你哋落嘅標題，嗰度一路去到 28 頁嘅大部分都喺呢個標題底下嘅，講到話開工之前嘅檢查，即係(d)嗰項，呢個係要求巴士車長去做嘅，我想問巴士車長係咪需要係有一個書面

1 嘅紀錄呢，即係檢查咗之後？

2 鍾澤文先生：唔使嘅。

3 MR DUNCAN：（經傳譯員）想問下，維修嘅事宜有冇係引致過去嗰幾年你哋公司嘅  
4 巴士係涉及意外呢？維修係咪一個成因之一呢？

5 鄭偉波先生：李生會答呢條題目嘅。

6 李廣威先生：我而家有呢啲嘅數字，相信係好少機會、又好少嘅情況係出現過嘅。

7 MR DUNCAN：（經傳譯員）你話好少、好少係乜嘢呢？係顯示出一個乜嘢嘅問題  
8 呢？係邊一類嘅問題呢？

9 李廣威先生：曾經試過，呢個我記憶所及係有試過一啲嘅零件損壞而造成另外一啲嘅  
10 車輛嘅損毀嘅，不過呢個係輕微嘅。

11 MR DUNCAN：（經傳譯員）有冇書面嘅報告呢，呢一類事件有冇書面嘅報告呢？

12 李廣威先生：有嘅。

13 MR DUNCAN：（經傳譯員）係咪都可以係畀一啲樣本我哋呢，呢啲報告嘅樣本？譬  
14 如話過去嗰兩年係引致事件發生嘅，得唔得呢？有冇咁嘅樣本呢？

15 李廣威先生：我哋會返去睇一睇。

16 MR DUNCAN：（經傳譯員）唔該，唔該你。

17 主席：（經傳譯員）鄧大律師，我想問下，喺立法會嘅文件，即係關乎呢個專營權嘅  
18 續期，講到話公司嘅整體嘅紀錄，即係話睇下城巴佢個維修個紀錄，係咪  
19 嗰度處理咗呢？

20 MR DUNCAN：（經傳譯員）我諗咗嘅，我而家會嘗試去搵搵究竟係喺邊一度，我哋  
21 會嘗試搵番個一頁出嚟嘅。離開呢一個題目㗎喇，但係鄭先生，想問下，講番  
22 安全嘅時候，我想問有冇咩嘢事情你認為政府可以幫到你哋公司嘅呢，可以好  
23 實質上幫到你哋公司嘅呢，而現時又有係做到、冇幫到公司嘅呢？當然，我哋  
24 知道安全都係你哋公司嘅責任，但係你有冇諗到一啲嘢就話政府其實可以係幫  
25 你哋手，喺呢度，係當你哋致力尋求安全嘅水平嘅時候，係咪有啲嘢你認為政  
26 府都可以幫到手嘅呢？

27 鄭偉波先生：主席，其實喺我哋嘅睇法，所有要提升安全嘅嘢，全部都係要用錢嘅，  
28 如果將來係有啲嘅要求我哋係要用大額嘅金錢去安裝一啲嘅裝置以提升我哋嘅  
29 服務嘅安全，我好希望政府可以畀到個財政嘅資助我哋，多謝。

30 MR DUNCAN：（經傳譯員）可唔可以較為具體咁講下呢？有啲乜嘢嘢係你哋目前嘅  
31 財政能力係做唔到，但係就如果係有政府資助就會大大咁樣係提升嗰個安全  
32 呢？可唔可以講得比較具體嘅事項呢？

1 鄭偉波先生：我就舉唔到有啲嘅例子就可以大大咁樣提升安全嘅，其實就係有啲嘢就  
2 係大家或者個公眾覺得做咗就會提升安全嘅，呢啲就有，舉一個例子，就今朝  
3 大家都有探討過，就係話巴士會唔會加裝番啲安全帶喺個樓上嘅，今朝李生都  
4 有引述過嗰個成本，個成本就係 15,000 英鎊至到兩萬英鎊一部巴士，我哋就  
5 一千一百部巴士係呢一個類別，如果全部要加裝安全帶喺樓上嘅話，嗰個總開  
6 支就會係港幣係 180 個 million，就至到港幣 240 個 million，我哋其實兩  
7 間公司而家嗰個利潤係好低嘅，我哋而家嘅利潤係好低，我哋唔知道要營運幾  
8 多年先至賺到個錢可以去安呢啲嘅安全帶，呢個就係其中一個例子，就係我哋  
9 嘅財務資源係唔足夠或者不存在去做呢件事嘅，所以呢一類嘅開支，我覺得就  
10 要好審慎咁樣嚟到睇，就是否真係好有效嘅。

11 今朝有提過，就係話而家我哋嘅車上面都有啲嘅 exposed seats 就有安  
12 全帶喺處嘅，但係我好少、好少，我自己經常有搭巴士嘅，係好少、好少見到  
13 車上嘅乘客坐喺呢啲位置有扣上安全帶嘅，而將來如果真係話叫我哋公司拎億  
14 幾、兩億，甚至兩億幾出嚟愛嚟做呢件事情，而我哋就非常質疑佢個成效嘅。  
15 當然，如果政府真係到時有個要求要我哋去加裝安全帶嘅，我就好希望就政府  
16 就會提供資助嚟到畀我哋安呢啲安全帶，呢個係一個例子。多謝。

17 MR DUNCAN：（經傳譯員）即係如果話政府覺得係值得嘅，因為乘客可能係想繫安  
18 全帶，都有機會係繫到安全帶，但係根據你經驗，佢哋通常都唔會咁樣做，就  
19 你覺得政府應該係出錢嚟到去做，唔係你哋做，係咪咁嘅意思呀？

20 鄭偉波先生：如果政府覺得我哋有必要要加安全帶，就係為咗乘客要繫安全帶，就有  
21 條安全帶，如果係咁樣嘅話，我就希望政府就出錢愛嚟安呢啲安全帶上去。  
22 因為如果喺我哋自己嘅角度，我哋就覺得呢個係一個浪費嚟嘅，同埋最重——  
23 sorry，我仲有少少補充。同埋最重要，大家再諗一諗喺香港嘅巴士係有企位  
24 嘅，如果坐位坐喺度都覺得唔安全，要有個安全，咁我車上面企喺嗰度嗰啲人  
25 佢唔可以有條安全帶畀佢嘅，呢個就其實係一個都幾自相矛盾嘅做法嚟嘅。多  
26 謝。

27 主席：（經傳譯員）唔該晒，好，暫時我都有嘢講。鄧律師。

28 MR DUNCAN：（經傳譯員）好，請睇大家嘅陳述書嘅第 40 頁，CTB-1，40。

29 鄭偉波先生：我見到。

30 MR DUNCAN：（經傳譯員）唔該。你睇到中間嗰度，「其他相關資料」“other  
31 relevant information”嗰段，睇唔睇到？

32 鄭偉波先生：睇到。

33 MR DUNCAN：（經傳譯員）你就話「協助委員會了解到專營巴士呢個行業，我哋都  
34 希望藉呢個機會係解釋一下我哋營運嘅環境同埋個挑戰」，即係喺提供呢啲專  
35 營服務嘅時候嗰啲挑戰同埋環境，下低嗰度你講咗幾個事項嘅，或者我想請大

1 家睇 (b) 嗰度，路線嘅重組，你就話最後嗰度就講，其實就係有浪費嗰個金錢同  
2 資源嘅。

3 主席：（經傳譯員）或者係讀一讀出嚟，鄧律師。

4 MR DUNCAN：（經傳譯員）「要處理鐵路造成嘅競爭，我哋建議就係做呢個巴士路  
5 線重組計劃，係建議畀運輸署係將某一啲需求低嘅服務係取消或者係減低嗰個  
6 規模，由於區議會嘅反對，我哋有若干嘅巴士重組嘅計劃係做唔到嘅，嚟到配  
7 合番個乘客下降嘅情況，呢個就導致金錢同埋資源上嘅損耗咁樣。」可唔可  
8 以同我哋講一講而家嗰個制度係點樣㗎？即係嗰個你需要支援嘅一啲嘅路線，  
9 即係嗰個制度如果你係話想改呢啲路線嘅話，個制度係點樣㗎？

10 鄭偉波先生：鍾生會回答。

11 鍾澤文先生：多謝主席。如果係有新嘅鐵路落成，我哋會同運輸署係提出一啲建議，  
12 有一啲路線如果係同嗰個新鐵路係重疊嘅，我哋會建議取消啲條線或者係將呢  
13 啲路線嘅班次係削減或者有一啲係改道。建議咗之後，呢一啲路線嘅重組方案  
14 係需要提交畀區議會去討論，一般議員都會有好多意見或者係反對嘅聲音，因  
15 為我哋行呢啲巴士線都有一段時間，有部分嘅居民都係會採用，只不過當新鐵  
16 路開通，有啲乘客就會流失咗，形成呢啲路線嘅客量係不足，但係亦都唔可以  
17 完全話冇晒人搭，喺咁嘅情形之下，區議員佢哋都會反對我哋去做一啲取消路  
18 線或者係大幅削減班次嘅。如果議員嘅反響係好強烈嘅話，運輸署就未必會批  
19 准畀我哋去做呢啲路線重組。多謝主席。

20 主席：（經傳譯員）如果地鐵係喺黃竹坑嗰度譬如話去到海洋公園，佢哋呢一個咁樣  
21 嘅鐵路安排係咪影響到巴士嘅服務呢，舉個例咁講，係咪有影響㗎？

22 鍾澤文先生：係，有影響嘅。

23 鄭偉波先生：主席，其實係好大影響，因為未有呢條地鐵之前，就我哋有條路線就係  
24 629 號嘅路線，就係喺金鐘去海洋公園嘅，而當時喺香港，如果有人要去海洋  
25 公園，搭公共交通工具主要就係搭呢條線嘅，自從呢個地鐵通車咗之後，我哋  
26 係成條線要取消咗，因為全部嘅乘客流失晒去地鐵嗰處。多謝主席。

27 MR DUNCAN：（經傳譯員）好喇，運輸署就有最後決定權嘅，係咪呀？

28 鍾澤文先生：冇錯。

29 MR DUNCAN：（經傳譯員）你有得上訴、咩嘢嘅囉嗎？冇更高嘅權力係可以處理，  
30 係咪呀？

31 鍾澤文先生：我哋冇試過。

32 主席：（經傳譯員）有冇上訴渠道㗎？

33 鄭偉波先生：我哋唔察覺有呢個渠道。

1 MR DUNCAN: Do you have any -- have you ever considered...

2 鄭偉波先生: Sorry, 個翻譯啲處, 我覺得有少少要更正嘅, 係 “we don't  
3 aware of such a channel”, 就唔係 “not realize”, “we don't  
4 aware of”。(經傳譯員) 係「唔察覺」嘅, 係「唔察覺」。

5 主席: (經傳譯員) 其實呢個運房局啲度有冇得上訴嘅呢? 有冇得上訴? 有冇渠道上  
6 訴?

7 鄭偉波先生: 呢方面鍾生會比較熟啲, 由鍾生答。

8 鍾澤文先生: 根據啲個《公共巴士服務條例》Cap. 230, 係如果啲個五年即係路線  
9 發展計劃係有 dispute 嘅話, 係會係去呢個運房局啲度係做一個  
10 settlement 嘅, 但係我哋未試過。

11 主席: (經傳譯員) 具體上, 個局長, 係咪運房局局長係可以處理, 係咪? 唔緊要,  
12 我哋可以查一查嘅, 但係我就即時諗到係咁樣。

13 MR DUNCAN: (經傳譯員) 好喇, 而家係講完巴士重組路線, 就而家講一講啲個 f  
14 啲度, 就係票價調整, 就係第 41 頁嘅, 或者好快咁係讀一讀, 然後就係想請大  
15 家評論一下。

16 「專營巴士票價調整嘅批准就係根據啲個『票價調整安排』嚟到去做嘅,  
17 喺根據呢個安排底下, 就有一籃子嘅因素政府會考慮嘅, 公眾嘅接受同埋負擔  
18 能力係其中, 我哋認為呢啲都係好主觀同埋係有酌情性質嘅, 同埋從政人士就  
19 往往都係好容易係用咗呢啲嘅理由嘅。

20 我哋就係 08 年就係上次調整過, 之後我哋係有申請過票價調整, 直至到  
21 17 年 8 月, 當時就城巴一同埋新巴就係提交申請係進行票價調整, 嚟到去緩減  
22 啲個收入嘅損失, 因為鐵路嘅競爭同埋成本增加, 喺過去十年, 正如 (c) 啲度  
23 講, 啲個香港啲個累積嘅通脹率喺呢十年就係百分之 31.2, 而累積嘅增加喺  
24 個工資啲度就百分之 39.9, 儘管我哋係有理由係根據呢個安排, 不同時候係要  
25 求調整票價, 但係我就有係提出咁樣嘅申請嘅, 因為呢個安排就唔係好有效,  
26 同時個環境係好政治化, 係反對公共設施係加價嘅。

27 除此之外, 喺啲個『票價調整安排』嘅申請啲度, 係好難係取得一個公平  
28 嘅待遇嘅, 而票價嘅調整程序亦都係非常之冗長。舉個例子, 目前嘅票價調整  
29 申請就係 2017 年 8 月提出, 政府而家都仲係睇緊嘅。

30 同地鐵唔同, 佢哋就係每年係根據佢哋嘅方程式就係有自動嘅票價調整,  
31 專營巴士公司就並冇咁樣嘅肯定性可以作出票價調整, 冇呢一個肯定性, 專營  
32 巴士公司其實好難係制訂一個全面嘅、長遠嘅計劃。」

33 就係搵出咗呢啲段落, 就係有一啲嘅因素, 你就講到呢一個即係票價調整  
34 安排就唔係好有效嘅, ...

1 主席：（經傳譯員）鄧律師，嗰份文件有冇㗎，呢個票價調整嘅安排嗰份文件會唔會  
2 有㗎度呢？

3 MR DUNCAN：（經傳譯員）我哋有嘅，係咪呀？主席先生，SEC 373。

4 主席：（經傳譯員）係咪 SEC-1 373 呢？

5 MR DUNCAN：（經傳譯員）呢個係一個例子，講到其中一次嘅係票價調整申請...

6 主席：（經傳譯員）好，唔該晒。

7 MR DUNCAN：（經傳譯員）...同埋係點樣處理㗎嘅。鄭先生，我想繼續問，你剛才  
8 係提過，就話呢個票價調整安排呢個過程就唔係好有效嘅，你有冇向任何人提  
9 議過就係將呢一個你認為係有效嘅安排去作一個調整呢？

10 鄭偉波先生：係有嘅，呢個喺上一次就佢哋去檢討呢個票價調整安排嘅時候--或者我  
11 再講過，喺每一次當政府去檢討票價調整安排嘅時候，我哋都係有指出呢個票  
12 價調整安排裏面有啲地方係唔理想嘅，同埋唔夠透明度嘅，對於我哋巴士公司  
13 嚟講。多謝。

14 MR DUNCAN：（經傳譯員）咁嘅情況係持續㗎幾耐呢？

15 鄭偉波先生：從一開始有呢個票價調整安排到而家，我哋就只係申請過一次加價，就  
16 係 2008 年嗰一次，而嗰一次加價，我哋城巴專利一就只係聯營嘅過海線可以有  
17 得加價，而本地，即係香港島嘅路線全部就有得加價，但係到底個原因係點樣  
18 樣，或者我哋當時提交㗎一啲財務嘅預測數據畀政府，政府又有冇全盤接納我  
19 哋提交嘅財務預測數據，而係邊一部分嘅數據佢唔接受、佢反對，冇同我哋講  
20 過，我哋到最後只係知道城巴一嚟香港島所有路線都有得加價，所以呢個其實  
21 呀，其實城巴一香港島嘅路線上一次加價其實係 1998 年嚟㗎喇，因為 2008 年  
22 嗰次佢係冇得加嘅，而點解冇得加我哋都唔知道嘅，所以呢個票價調整安排，  
23 我覺得嗰個透明度要提升嘅。多謝。

24 主席：（經傳譯員）你係咪話你淨係得到個結果，就有畀個原因你就點解有一個咁嘅  
25 決定，係咪咁嘅意思呀？

26 鄭偉波先生：正確。

27 MR DUNCAN：（經傳譯員）主席，其實亦都有提過嗰個票價調整安排底下嘅申請  
28 嘅，係喺呢個 THB 嗰度 2 嗰度亦都有提過嘅，23 嗰度嘅。

29 主席：Thank you.

30 MR DUNCAN：（經傳譯員）幾時係開始有呢個票價調整安排㗎？鄭生。

31 鄭偉波先生：係喺 2005 年或者 2006 年左右，大約係 2006 年。

32 MR DUNCAN：（經傳譯員）照你所知，呢個調整安排自此之後有冇係改變過呢？

1 鄭偉波先生：係有改變過嘅，但係而家具體我講唔到畀大家知嗰個具體嘅改變，因為  
2 最少一樣嘢，我記得佢個原名就唔係叫做「票價調整安排」嘅，就叫做“Fare  
3 Adjustment Mechanism”嘅，就係「票價調整機制」，就後來就有改動咗之  
4 後，同埋個名都改咗，就係叫 FAA，就係咁樣嘅，而具體嗰個改動，我對唔  
5 住，我喺呢處 off hand，我畀唔到個資料大家。

6 MR DUNCAN：（經傳譯員）對唔住，你係咪講過話 2008 年申請過加價，但係就唔  
7 成功呢？

8 主席：（經傳譯員）係過海嗰啲線就得，但係其他嗰啲就唔得。

9 鄭偉波先生：2008 年就係城巴專營權一同埋新巴都有申請加價嘅，而個結果就係新  
10 巴就全部路線都有得加價，新巴係有嘅，而城巴喺香港島嘅路線就有得加價，  
11 而嗰啲過海路線如果係同九巴一個聯營嘅過海路線就因為九巴有得加價，所以  
12 到帶到我哋嗰啲聯營過海路線有得加，而我哋主要就其實係香港島嘅路線嚟  
13 嘅，嗰啲就有加到價。

14 MR DUNCAN：（經傳譯員）有冇畀到個原因你就點解該次申請係被拒絕呢？

15 鄭偉波先生：係有畀到具體原因嘅。

16 MR DUNCAN：（經傳譯員）有冇畀過任何原因？有冇係除咗係話唔成功之外，有冇  
17 書面上係畀過啲理由你呢？

18 鄭偉波先生：係有嘅。

19 MR DUNCAN：（經傳譯員）我哋去 MISC 嗰個文件夾...

20 主席：（經傳譯員）你而家轉去另一樣嘢，係咪呀？

21 MR DUNCAN：Yes.

22 主席：（經傳譯員）或者你未去第二個項目之前，喺第 42 頁，即係你第一次提交嘅  
23 意見書 42 頁 g 嗰項，即係「合理回報」最尾嗰三行就咁講嘅，「我哋嘅理解就  
24 係政府而家正在喺度檢討呢個巴士票價調整安排，我哋熱切希望上述所講嘅事  
25 宜係會喺檢討嗰度處理到嘅。」或者係鄧律師，你係咪可以將呢段成段係讀出  
26 嚟呢，作為係問下係咪一個合理嘅一個結論呢？

27 MR DUNCAN：（經傳譯員）「鑑於就係喺呢一個剛才上述嘅票價調整所遇到嘅困  
28 難，即係話如果得到票價調整同埋嗰個加幅其實都係有不肯定性嘅。我哋預計  
29 講到嗰個城巴專營權一，同埋新巴佢嗰個資產淨值嘅回報就會係喺 2018 年 6 月  
30 結束嘅財政年度嚟講，係會低於百分之一嘅，呢個就係考慮到目前嗰個現狀就  
31 會係關於我哋整理嘅支出係維持到，但如果喺嗰個職員嘅支出同埋嗰個燃料費  
32 有重大增加嘅話，就呢兩個專營權就會蝕錢，所以唔好講話有合理回報，公司  
33 嘅商業可行性都甚至乎係岌岌可危，因此就無法話我哋公司可以繼續維持一個  
34 高質素同埋有效嘅服務提供畀公眾，同埋就係有一個有吸引力嘅薪酬去招聘同

1 埋挽留職工。我哋理解就政府而家正在喺度檢討呢一個巴士票價調整安排，我  
2 哋熱切希望上述提及嘅事項會喺檢討工作裏面係處理到嘅。」你會唔會係都而  
3 家依然係話你嘅睇法都係咁呀，鄭先生？

4 鄭偉波先生：我仍然係咁嘅睇法。

5 MR DUNCAN：（經傳譯員）你話知道政府就正在喺度檢討嗰個票價調整安排嘅，你  
6 係基於乜嘢嘢就係有一個咁嘅理解呢？

7 鄭偉波先生：我哋有同政府開過會。

8 主席：（經傳譯員）可唔可以具體啲講係同政府嘅邊位係開會呢？

9 鄭偉波先生：係同運房局嘅人開會。

10 主席：（經傳譯員）呢啲會議幾時開，而令到你有一個咁樣嘅理解呢？

11 鄭偉波先生：或者咁，而家我嗰個文字上，“we are given to  
12 understand”，即係我覺得呢個講得比較間接嘅，又或者我重新 rephrase  
13 呢一句嘢，就係“we understand that”或者“we know that”。（經傳  
14 譯員）「我哋明白到」。

15 主席：（經傳譯員）係因為同佢哋開會，所以就有咁嘅理解，係咪呀？

16 鄭偉波先生：正確。

17 主席：（經傳譯員）幾時開會？

18 鄭偉波先生：我要返去檢視一下嗰個開會日期。

19 主席：（經傳譯員）係今年吖，定去年吖，定點呢？

20 鄭偉波先生：係舊年嘅。

21 主席：（經傳譯員）今年冇？

22 鄭偉波先生：我印象當中，今年係冇再開過會。不過我要返去就要檢視我嘅日記簿。

23 主席：（經傳譯員）好，請你——麻煩你咁樣做，然後話番畀我哋聽究竟個情況係點，  
24 即係話究竟今年就呢件事、呢個課題有冇開過會。

25 鄭偉波先生：好，一定。

26 羅先生：（經傳譯員）係講嗰個調整安排定抑或係嗰個方程式呢？因為如果你有計過  
27 嗰個方程式，你就可以有一個要求㗎嘛。

28 鄭偉波先生：係整理個票價調整安排。

29 羅先生：（經傳譯員）但係嗰度有一個方程式又可以計出嚟㗎嘛，然後就申請嘅。

1 鄭偉波先生：但係我哋個唔係一個自動機制嚟嘅，我哋係根據嗰個 FAA，可以去遞  
2 交個申請，而申請咗之後，就有一連串、一系列嘅審核同埋批准嘅程序嘅，我  
3 哋同地鐵係唔同嘅。

4 羅先生：（經傳譯員）係咪就係嗰個程序定抑或係有邊啲方面你係想佢喺檢討嘅時候  
5 作出一個改動呢？

6 鄭偉波先生：其實我覺得如果我哋個票價調整嗰個肯定性係加強同埋透明度係增  
7 高，最少喺呢兩方面我覺得係可以改進嘅。

8 MR DUNCAN：（經傳譯員）主席，為咗紀錄，我就睇到嗰個票價調整安排，呢個係  
9 運房局嘅文件，THB-2，23 嘅，嗰個檢討就係運房局係有處理，有講嘅，跟住  
10 嗰頁 THB-2 24、25 頁嗰度係有嘅，呢個為咗紀錄嘅啫。

11 主席：（經傳譯員）或者可以打埋出嚟，呢個係一個證供。

12 MR DUNCAN：（經傳譯員）我哋講呢方面之前，鄭生，咁理解啱唔啱呢，就係你其  
13 實就係討論過一個票價調整嘅安排嘅更改，但係政府就有話畀你知嗰個結果--  
14 討論之後嘅結果係點，就有講嘅，係咪？係咪呀？

15 鄭偉波先生：係嗰個檢討仍然係喺政府嗰處進行緊。

16 MR DUNCAN：（經傳譯員）你唔知道嗰個檢討嘅結果係點樣嘅，目前唔知，係咪  
17 呀？

18 鄭偉波先生：目前係唔知道嘅，係未知道嘅。

19 MR DUNCAN：（經傳譯員）好喇，可唔可以打出嚟就係 THB-2 嗰度 24、25 頁？我  
20 哋睇 24 頁嘅，第 24 頁嗰一版，冇錯，或者我讀一讀，你可以跟住睇。我哋睇  
21 番前一頁先，等我哋睇晒，全面啲，第 23 頁嗰度，你睇到 (d) 嗰度，係咪？  
22 「票價調整安排」，然後就目前嘅安排咁樣，睇到嘛？

23 鄭偉波先生：睇到。

24 MR DUNCAN：（經傳譯員）或者我想睇下一頁，第 24 頁，4.28，「上述嘅安排就  
25 係由 06 年係制定嘅，就係經過同立法會諮詢，個安排之後就係有微調嘅，就考  
26 慮到嗰個 09 年嘅檢討嘅結果，由於目前嘅安排基本上就係平衡咗巴士服務嘅有  
27 效運作同埋公眾人士嘅接受程度同埋負擔能力，係有需要係檢討或者修改呢一  
28 個票價修訂安排嘅。

29 喺呢一方面，政府其實做過一個檢討嘅，檢討過呢個票價調整安排，初步  
30 嘅結果就係顯示就唔變，而嗰個數據係兩方面可以係修訂或者更新嘅，第一，  
31 就係嗰個生產力嘅因素，(b) 就係乘客嗰個獎勵嘅安排。」詳細唔講喇，呢度。

32 好喇，講到係 4.30 嗰度，「政府就係同專利巴士公司就有一個嘅討論，  
33 就係講嗰個檢討嘅，而有關嘅兩項數據係會更新嘅，佢哋就會係宣布嗰個嘅結

1 果，同埋喺 18 年上半年就得到呢一個行政長官會同行政會議嘅批准，就會  
2 行。」㗎喇咁。

3 好喇，根據呢一個聲明，鄭生，政府其實就係有開始同巴士公司係討論  
4 嘅，你都知喇，就係根據嗰個初步嘅檢討結果，同埋佢哋所建議嘅，即係話個  
5 安排應該係維持不變嘅咁樣，但係嗰個有關數據兩方面就會係更新，其實你有  
6 冇得到知會就係話政府喺呢方面嘅睇法呢？

7 鄭偉波先生：我知道政府係做緊檢討嘅。

8 MR DUNCAN：（經傳譯員）但係政府有冇同你講過就係佢哋嘅結果...

9 主席：（經傳譯員）初步結果喇，不如話。

10 MR DUNCAN：（經傳譯員）個初步結果就係顯示嗰個安排就應該維持不變嘅，但係  
11 有關嘅數據兩方面係會更新嘅，正如喺第 4.29 個段有講，政府有冇同你講過呢  
12 一方面呢？

13 鄭偉波先生：係開會嘅時候有講過嘅，但係至於嗰個兩個數據嗰個更新，會更新成為  
14 係乜嘢數字呢，我哋就係未知嘅，而呢兩個數字其實就係好重要。

15 MR DUNCAN：（經傳譯員）你而家仲係等緊有關嘅細節嘅數字，係咪呀？你立場係  
16 咪咁呀？

17 鄭偉波先生：係。

18 MR DUNCAN：（經傳譯員）唔該晒。我哋而家講完嗰個票價調整嘅安排，而家想講  
19 MISC-1--MISC-2 嘅，應該係，或者想請大家留意一份文件，琴日都睇過㗎  
20 喇，就係文件夾嘅第 643 頁，翻譯版就係 644 嘅，644-1 嗰度，或者係搵埋個  
21 個中文嘅文件，就係 644-3 嘅，唔該晒。你記唔記得我就曾經提過呢一份嘅意  
22 見書，尋日同你講嘅，記唔記得？就係呢個民主陣線嘅一份意見書，記唔記得  
23 呀？

24 鄭偉波先生：記得。

25 MR DUNCAN：（經傳譯員）呢個就係關於嗰個專利巴士車長薪酬嘅，今日我就想你  
26 留意一下佢哋係想委員會注意嘅一點，就喺第三段，第一版嘅第三段，就係講  
27 個巴士車長工業行動，就係 17 年 2 月同埋 18 年發生嘅，就引起社會各界關於  
28 巴士站違例泊車、車長待遇、工作時數等等問題咁樣，跟住就講到以下就係一  
29 啲巴士站違例泊車嘅原因咁樣，有四項嘅呢一度，睇唔睇到，鄭生？

30 鄭偉波先生：睇到。

31 MR DUNCAN：（經傳譯員）或者睇落去下一頁，文件嘅下一頁就係 644 嘅，翻譯版  
32 就係 644-1 嘅最後個段，就係解決巴士站嗰度違例泊車，就係有一定嘅政策，  
33 就要修訂過時嘅法例，同埋就係多方面嘅措施先解決到個問題咁樣，跟住有一

1 段就係睇到星加坡嘅例子，同埋就係巴士上面就係安裝攝錄機咁樣嘅。其實公  
2 司係咪認為巴士站嘅違例泊車係一個問題呢？

3 鄭偉波先生：鍾生會回答。

4 鍾澤文先生：係嘅。

5 MR DUNCAN：（經傳譯員）可唔可以同我哋描述一下究竟問題有幾嚴重呀？

6 鍾澤文先生：有好多巴士站因為有一啲違例泊車就阻礙咗我哋巴士係可以停近個行  
7 人路邊上、落客，就算係有一個 bus stop 嘅 marking 係 mark 咗喺度都好，  
8 因為我哋架巴士需要一段距離去轉入個彎道嘅，如果有違例泊車喺個巴士  
9 彎嘅前、後泊咗喺度，亦都會阻礙到我哋個巴士嘅運作，逼使有時啲巴士係  
10 要喺路中間畀個乘客上落咁樣，呢個問題都幾普遍同嚴重。

11 MR DUNCAN：（經傳譯員）係咪有安全嘅顧慮喺呢方面？

12 鍾澤文先生：都有嘅。

13 MR DUNCAN：（經傳譯員）邊方面呀？

14 鍾澤文先生：譬如違例泊車會令到路面個闊度係減少咗，架車經過嗰陣時個情況  
15 就好容易因為架車--巴士大，轉彎係會揩碰到，或者乘客唔可以喺呢個路邊個  
16 度上、落客，形成佢喺上、落客嗰陣時可能有車撞到佢或者係佢會容易跌到。

17 MR DUNCAN：（經傳譯員）我哋返番去嗰封信--等陣先，公司其實係有冇致力去刻  
18 服或者解決呢個問題呢？

19 鍾澤文先生：我哋有通知運輸署一啲違例泊車嘅黑點，希望佢哋可以喺呢啲路段個度  
20 增設一啲廿四小時嘅禁區，亦都有通知警察去執法嘅。

21 MR DUNCAN：（經傳譯員）咁有冇解決到個問題呀？

22 鍾澤文先生：幫助不大。

23 MR DUNCAN：（經傳譯員）好喇，我哋返番去...

24 主席：（經傳譯員）咁有冇採取過行動--有冇任何行動採取過㗎？

25 鍾澤文先生：警察會採取行動，但係當警察係離開咗嗰個地點之後，嗰一個泊車問題  
26 --即係違例泊車嘅問題又返番嚟嘅。舉一個例，譬如話喺銅鑼灣怡和街崇光百  
27 貨公司門外就經常出現呢啲問題，早前亦都出現過的士上客，同我哋啲車嘅車  
28 長係發生衝突呢啲嘅問題嘅。

29 MR DUNCAN：（經傳譯員）好喇，而家返番去嗰封信，就係有提到星加坡嗰個嘅制  
30 度咁樣，我而家係引述番嗰封信，即係星加坡安裝咗呢啲鏡頭，即係喺巴士線  
31 嗰度，星加坡自從 2008 年安裝咗喺巴士上面嘅鏡頭，就近住呢個司機位嘅，佢

1 咁就可以睇到有車係違例泊車，就亦都係有啲紀錄就係十分鐘嘅紀錄咁樣，但  
2 係可以搵警方嚟到去處理，警方可以係睇番個紀錄，兩個禮拜之後就會將個  
3 告票送畀個司機，呢個就係香港紙 800 釐，然後就係如果唔交，仲有 500 釐  
4 嘅罰款，有監禁嘅。呢個係 2012 年，佢咁就好多時就喺巴士站個度係上、落客  
5 咁樣個啲，啲私家車，2014 年個數目就減低到係 886 嘅，亦都係好有效咁樣係  
6 阻止到一啲司機喺呢啲巴士站個度停車嘅。係咪呢種方法對你嚟講，都覺得係  
7 幾好呢，有吸引力呢？

8 鄭偉波先生：我對於呢一個建議裏面啲內容個可信性，我係有疑問嘅，如果我嘅  
9 理解係正確嘅話，佢係講緊就係部巴士上近住個司機位就安裝一部錄影機，而  
10 駛到去車站，發覺有人喺個車站度泊低咗架車，於是個巴士司機就揸個掣，就  
11 會自動就錄影五至十分鐘嘅影片，即係我嘅理解就係咁嘅，首先喺香港我哋啲  
12 巴士駛到去一個車站，我意思係中途嘅車站，係永遠有可能停喺度五至十分鐘  
13 嘅，我哋架巴士。而星加坡個運作模式其實同香港都有類似嘅地方，我就唔  
14 係太覺得喺星加坡可以有架巴士駛到去個站就見到有架車就阻——泊咗喺處，仲  
15 要個架巴士就唔好駛入個站，係咁影住個架車就影五至十分鐘，即係呢個我聽  
16 起上嚟就不可行嘅，即係至少喺香港我哋嘅運作係不可行。

17 主席：（經傳譯員）五至十秒呀？

18 鄭偉波先生：我呢度中文版係五至十分鐘，5 to 10 minutes。

19 主席：（經傳譯員）如果五至十秒又得唔得呢？

20 鄭偉波先生：就要視乎我哋架巴士係能唔能夠譬如駛前啲就去停到個站，如果可以，  
21 而我又唔使前少少，就停住架車喺處就係咁影住人哋個違例架車，影佢五至  
22 十秒，呢個其實會阻慢咗我哋乘客，亦都會阻礙到路上嘅交通。多謝。

23 主席：（經傳譯員）喺柴灣車廠個度，你哋就有啲係示範，就話你哋有啲向前——個鏡  
24 頭嚟住前面個種裝置㗎嘛，係咪呀？

25 鄭偉波先生：係有嘅。

26 主席：（經傳譯員）我哋就見到就係有位女士佢喺個度等，然後就再開門，就讓佢  
27 可以上車，係咪呀？

28 鄭偉波先生：係。

29 主席：（經傳譯員）呢啲咁嘅鏡頭就可以捕捉到剛剛所提及嘅情況，係咪呢？

30 鄭偉波先生：會係捕捉到可能係一秒、兩秒、三秒嘅畫面，但係如果只係一、三、兩  
31 秒嘅畫面，我就唔知道係唔係足夠可以罰呢個私家車，話佢停咗喺巴士站度，  
32 我唔熟悉個警方檢控個準則，即係係咪停兩秒鐘喺處就可以出告票，我唔  
33 知道。

34 主席：（經傳譯員）呢啲就係檢控當局嘅事，但係起碼你哋就可以提供到啲證據畀佢

1 咁，讓佢哋自己去判斷夠唔夠證供去告。

2 鄭偉波先生：但係如果係咁樣做，我哋個車長係要去自己一路揸緊車，就要記低喺幾  
3 多點鐘喺邊個巴士站曾經有人就停咗架車喺處，到放工嘅時候就將呢一個嘅  
4 logbook 或者呢個 log 就交畀公司，就公司就再去搵番呢部車，就去  
5 download 條影片，要一系列嘅程序先至做得到，其實我覺得呢件事，最應該  
6 要做嘅係警方，因為嗰個路段如果係唔准停車嘅，就應該係警方去執法，因  
7 為如果唔係呢，我哋個車長已經係好忙㗎喇佢個工作，揸緊車嘅時候，仲要再  
8 去記埋呢啲嘢，就加重佢哋嗰個工作負擔嘅。多謝。

9 主席：（經傳譯員）你知唔知道警方其實有咁嘅建議，我諗係運輸署同埋立法會就係  
10 建議就係用--喺燈柱嗰度有啲鏡頭嚟到處理你剛才所講嘅情況，就會係有一個  
11 來源，就讓我哋可以搜集到證據喇？

12 鄭偉波先生：如果喺燈柱嗰度愛嚟做，我覺得係非常好嘅，但係就希望唔好搞到我哋  
13 啲車長都要做埋呢一個工作。

14 主席：（經傳譯員）我諗相信都好簡單嘅啫，要做嘅話，因為你純粹就話畀警方聽邊  
15 一啲巴士站就係黑點，然後警方就去裝設啲鏡頭。

16 鄭偉波先生：呢個係可以嘅。

17 主席：（經傳譯員）你又知唔知道其實係有一啲系統係可以幫你辨識啲車牌秊巴，  
18 就個電腦或者係有一個鏡頭就會影張相，影咗個車牌張相，然後就再將佢配對  
19 番、搵番出嗰個係車主？

20 鄭偉波先生：呢個好技術性嘅嘢，我畀鍾生回答。

21 鍾澤文先生：我哋知道係有嘅，不過即係呢個系統都唔係我哋可以--喺我哋負擔嘅範  
22 圍。

23 主席：（經傳譯員）我係提議或者運輸署同埋警方可以考慮呢一點，即係有個鏡頭就  
24 拍低嗰個係停咗喺度嘅車，即係霸住咗嗰個巴士站，將呢架車嘅相影咗，然後  
25 個電腦就會係睇下個車牌秊巴係幾多，然後配對番、搵番出嗰個車主，第三  
26 步，就係用電郵就係發出一張告票。

27 鄭偉波先生：我哋歡迎嘅。

28 主席：（經傳譯員）鄧律師。

29 MR DUNCAN：（經傳譯員）仲有多一樣嘢係想問鄭生嘅，如果我可以嘅話，我哋見  
30 到一份文件嘅，822 個頁，DM-1 嘅 822 個頁嗰度可以搵到呢個資料嘅，對唔  
31 住，係 SEC-2 嘅 822 頁，我亦都唔肯定你之前有冇睇過呢份文件，你喺螢光幕  
32 上面見到呢個就係話係一份係資料文件嚟嘅，係關乎喺首爾同埋星加坡嘅專營  
33 巴士服務，睇嚟就係立法會秘書處佢哋嘅研究部嘅，你有冇睇過呢份文件呢？

1 鄭偉波先生：我哋冇睇過嘅。

2 MR DUNCAN：（經傳譯員）我就想請你直接去睇第 826 頁，826，我想你睇呢個  
3 2.11 段，嗰度就係話實施一個巴士訊號優先系統，睇唔睇到個標題？

4 鄭偉波先生：睇到。

5 MR DUNCAN：（經傳譯員）或者我將嗰度係讀出嚟，「呢一個巴士訊號優先系統其  
6 實全世界有好多城市都有做嘅，呢一個係一個交通訊號嘅提升策略，呢一個策  
7 略就係讓巴士可以有效咁樣樣係進出嘅，就係透過嗰個有燈號嘅路口，就讓一  
8 架嚟緊嘅巴士就可以係對比起其他入嗰個路口嘅車輛係有優先權使用嗰個路口  
9 嘅。首爾嘅政府就係有用到呢一個咁嘅系統嚟到係讓嗰個交通訊號可以優化，  
10 嚟到係等巴士可以行得快啲。」你知唔知道有咁嘅系統，係世界各地嘅城市係  
11 有做嘅呢？

12 鄭偉波先生：我哋知道世界上係有呢啲系統嘅，同埋我哋知道星加坡係有類似嘅系統  
13 嘅。

14 MR DUNCAN：（經傳譯員）你認唔認為咁樣嘅系統喺香港都用得著呢？

15 鄭偉波先生：我哋會非常歡迎。

16 MR DUNCAN：（經傳譯員）你哋有冇採取過任何嘅步驟係讓人考慮呢一個咁嘅建議  
17 呢？

18 鄭偉波先生：我哋一向覺得呢個係政府要做嘅嘢。

19 MR DUNCAN：（經傳譯員）你哋有冇同政府提議過？

20 鄭偉波先生：我哋有同政府提議過。

21 MR DUNCAN：（經傳譯員）我諗喺世界上有一啲城市巴士一般嚟講都係得到優先  
22 嘅，係咪呀？譬如話巴士係入站，就係私家車就係要讓畀巴士嘅，係咪世界有  
23 啲地方係有啲國家係有咁樣嘅優先嘅政策嘅呢？

24 鄭偉波先生：我畀鍾生回答。

25 鍾澤文先生：係嘅，我哋都知道譬如星加坡咁樣，佢哋係譬如巴士離開站，其他車係  
26 要讓畀佢出先嘅。

27 MR DUNCAN：（經傳譯員）呢樣嘢係咪你哋公司都會覺得係好嘅呢？

28 鍾澤文先生：我哋係覺得係好嘅，但係喺香港，可能嗰個路面嘅環境未必許可嘅，譬  
29 如話我哋有啲巴士專線，過往都因為有人投訴而要取消㗎。

30 主席：（經傳譯員）邊個投訴？

31 鍾澤文先生：有市民投訴話嗰個巴士專線嘅使用量低，而令到就要取消。

1 主席：（經傳譯員）嗰啲自己本身係駕駛人士嘅市民呀？

2 鍾澤文先生：我唔清楚，但係呢個係由運輸署去通知我哋。

3 主席：（經傳譯員）假設唔係企喺巴士--同其他一百三十個乘客一齊企喺巴士上面嘅  
4 市民啫。

5 MR DUNCAN：（經傳譯員）講番喺首爾嘅嗰個系統，就即係話佢哋有一個巴士訊號  
6 嘅優先系統，如果你正話嘅回應，其實你覺得係咪值得同運輸署係討論呢個問  
7 題呢？

8 鄭偉波先生：值得。

9 MR DUNCAN：（經傳譯員）有冇計劃點樣做呀？

10 鄭偉波先生：經過今日呢次會議之後，我哋係被 enlighten 咗，我哋係會咁做。

11 MR DUNCAN：（經傳譯員）或者想講講其他嘅問題，今日下晝係有提到嘅，第一就  
12 係想請你留意一下第 32 條第(1)款，呢個係喺《公共巴士服務條例》嘅，  
13 32(1)。

14 主席：（經傳譯員）文件有冇㗎？

15 MR DUNCAN：（經傳譯員）喺 THB-2，就係 124 頁。

16 主席：（經傳譯員）唔該晒。

17 MR DUNCAN：（經傳譯員）THB-2，124 頁，33 條(1)，你自己可以睇一睇先，鄭  
18 生。「任何專營權公司如果因為運輸及房屋局局長或者係因為根據第 3 條獲給  
19 予指示嘅公職人員，又或者因為署長或者署長授權嘅人，根據本條例或者該專  
20 營公司專營權所作嘅決定、指示、要求或者規定感到受屈，可以喺給予或作出  
21 該項決定、指示、要求或規定嘅廿八日之內，以呈請方式向行政長官會同行政  
22 會議提出上訴，而行政長官會同行政會議嘅上訴所作嘅決定係最終嘅決定。」  
23 你知唔知有呢項條文㗎？

24 鄭偉波先生：我係知嘅。

25 MR DUNCAN：（經傳譯員）公司有冇曾經用過呢個條文？

26 鄭偉波先生：冇用過。

27 MR DUNCAN：（經傳譯員）仲有一項，就係關於我都提過嘅一點，就係嗰個保養，  
28 係咪對意外係有一個--造成一個因素，我就想委員會係睇另一份文件嘅，TD-  
29 2，第 183 頁，TD-2 183，呢個就係畀立法會嘅資料摘要嚟嘅，係考慮一個城  
30 巴港島嘅一啲嘅路線同埋新大嶼山巴士公司，大家可以睇到就係有提到一啲意  
31 外一啲保養，就喺 183、184 嗰度係有講嘅，而主席亦都係考慮過呢一點。

1 主席：（經傳譯員）係，唔該。

2 鄭偉波先生：對唔住，你頭先有講過話係同--講維修嘅事情，但係我呢一頁，我係睇  
3 唔到同維修有關嘅事情。

4 主席：（經傳譯員）我諗我諗緊嘅就係嗰個抽樣檢查，就即係嗰個問題，即係個問題  
5 嗰度嗰個數目係低嘅。

6 MR DUNCAN：（經傳譯員）呢個係運輸署嗰度嘅資料，可能可以睇一睇，睇下可唔  
7 可以提供畀委員會嘅。

8 主席：（經傳譯員）唔該晒。

9 MR DUNCAN：（經傳譯員）主席，除非委員會有任何其他嘅事項想提供，我就有其  
10 他問題。

11 主席：（經傳譯員）仲有一樣嘢，就係鄭生，我想直接問一問嘅，就係你同我哋講到  
12 一個安全委員會，我相信係 4 月成立嘅，係公司成立㗎喇，嚟到去處理安全嘅  
13 問題，你作為一個主席嘅，你嘅今日嘅代表亦都係喺呢個委員會上面嘅，我問  
14 題首先就係咁樣，係咪正確嘅，就係話你哋嘅董事或者兩位嘅董事運輸署嘅僱  
15 員？

16 鄭偉波先生：我哋呢個安全委員會純粹係由我哋嘅 senior management 嚟到組成  
17 嘅，就有--我哋有邀請到政府嘅官員喺呢個委員會嗰處，因為如果我哋公司有  
18 需要冇事情要同運輸署商討，我覺得係應該係公司同運輸署之間嘅會議嚟嘅，  
19 就唔係話邀請運輸署入嚟我哋呢個安全委員會。

20 主席：（經傳譯員）好喇，就有公司董事喺度，你就決定唔請運輸署，係咪因為有衝  
21 突定乜嘢呢？

22 鄭偉波先生：完全同有衝突係冇關係嘅，因為我哋公司嘅運作就係由我哋公司嘅管理  
23 層負責嘅，而運輸署佢有兩位嘅--而家有兩位政府官員就喺我哋嘅董事會嗰處  
24 嘅，我哋一般我哋嘅運作就係番我哋自己嘅管理層嚟到負責嘅，就我哋嘅--譬  
25 如喺我哋公司嘅非執行董事都唔會參與我哋公司嘅運作。

26 主席：（經傳譯員）好，唔該晒。好喇，我哋問都問得七七八八。我知道你係有一份  
27 聲明想講嘅，係咪呀？而家可以講，鄭生。

28 鄭偉波先生：多謝主席。主席，我代表新巴、城巴就過往兩日嘅聽證會多謝以下嘅人  
29 士：一，獨立檢討委員會邀請我哋出席呢兩日嘅聽證會；第二，鄧樂勤資深大  
30 律師同埋律師團隊喺呢個聽證會對我哋嘅提問，而等到我哋有機會講解我哋公  
31 司嘅營運情況；三，係獨立檢討委員會嘅秘書處喺過往兩星期所作出嘅安排；  
32 最後，我亦都要多謝負責即時傳譯嘅人士所提供嘅服務，多謝主席，多謝各位  
33 委員，多謝各位。

34 主席：（經傳譯員）好喇，最後，我哋都係好感激大家口頭作出陳述，同埋就希望有

1            啲資料就你可以進一步書面咁樣提供畀我哋嘅，秘書處就會係指明邊一類嘅問  
2            題，就會畀個謄錄嘅文本畀大家，等大家可以係清楚啲嘅。

3    鄭偉波先生：一定，多謝。

4    主席：（經傳譯員）好，唔該晒。

5    鄭偉波先生：多謝主席。

6

(10.00 am)

EVIDENCE FROM NEW LANTAO BUS CO LTD: MR JAMES WONG CHEUK ON,

MR TIMOTHY WONG CHEUK TIM, MR BENNY CHAN TIN LUNG,

MR PATRICK YEUNG KA PO, MR RICHARD LEE CHUN FAI,

MR BILLY WONG LEONG TING (given in Cantonese; transcription

of the simultaneous interpretation)

CHAIRMAN: Good morning. We thank Mr James Wong and the

other representatives of the New Lantao Bus Company who

have attended today to assist the committee by

supplementing what they have provided already in written

submissions with answers to questions that counsel to

the committee will ask of them.

Before we reach that stage, I understand, Mr Wong,

that you wish to make a short statement orally in

opening, and I would invite you to move to that now.

Opening statement by MR JAMES WONG CHEUK ON:

MR JAMES WONG: Mr Chairman, members, counsel, ladies and

gentlemen, good morning. I am Wong Cheuk On, James.

I am the managing director of the New Lantao Bus Company

(1973) Ltd. My colleagues and myself would like to

thank the committee for inviting us to attend today's

hearing to give oral evidence.

We are open-minded on the examination of the

franchised bus system by the Independent Review

1 Committee on Hong Kong's Franchised Bus Service. We  
2 have all along been operating our bus service in strict  
3 compliance with the relevant legislation, franchise  
4 terms as well as the guidelines issued by the Transport  
5 Department. In recent months, we have implemented and  
6 will implement the following measures in our daily  
7 operation as well as administration, with a view to  
8 enhancing the safety level in operating our bus service.

9 First, increasing the number of hours and the  
10 instructor-to-trainee ratio of driving training for our  
11 bus captains; second, requiring the part-time bus  
12 captains to declare more information about their  
13 principal employment; third, setting up a Bus Captain  
14 Training School to assist qualified persons in obtaining  
15 bus driving licences; and fourthly, making reference to  
16 international standards in raising the standard of safe  
17 driving.

18 We apologise for not being able to provide written  
19 information in time on the aforementioned measures to  
20 the committee. We are pleased to provide detailed  
21 information at today's hearing. If necessary, we can  
22 submit more detailed information after the hearing.

23 Thank you, Mr Chairman.

24 CHAIRMAN: Thank you, Mr Wong. I'm sure, from what you've  
25 said in your statement, that counsel will be asking you

1 questions on those new matters, but I would ask counsel,  
2 Ms Wong, to begin questioning.

3 Examination by MS WONG

4 MS MAGGIE WONG: Yes. Mr Wong, good morning, and good  
5 morning, gentlemen, and thank you for attending the  
6 committee this morning, and thank you for your opening  
7 statement, Ms Wong.

8 There are a number of matters that I would wish to  
9 explore with you arising from the submissions that you  
10 have already supplied to the committee.

11 In your submissions, the number of part-time bus  
12 captains employed by your company, if we can see at NLB  
13 bundle 1, page 17 -- we can see in the table the number  
14 of part-time bus captains employed by your company has  
15 nearly tripled in the past six years. As we can see, 13  
16 part-time bus captains in 2012, that is about  
17 9.4 per cent of 137 total bus captains, to 2017, where  
18 we have 53 part-time bus captains, constituting  
19 27 per cent of the total 183 bus captains employed by  
20 the company. And we can see throughout the years the  
21 employment and proportion of the part-time bus captains  
22 has been constantly rising between 2012 and 2018.

23 Can you first of all tell us why there has been such  
24 a substantial increase?

25 MR JAMES WONG: Thank you. First of all, let me make

1 a point. From the perspective of the company, whether  
2 a bus captain is full-time or part-time, in relation to  
3 the safety requirements of the driving skills, we don't  
4 make a distinction. In other words, we won't harbour  
5 the thinking that part-time bus captains would drive  
6 more dangerously. We don't think this happens.

7 And regarding the counsel's question, that is  
8 between 2012 and 2017, why the number of part-time bus  
9 captains has been increasing all the time -- well, for  
10 full-time and part-time bus captains, I think the major  
11 difference is that part-time bus captains can turn up  
12 for work for fewer days. In other words, they have more  
13 flexibility concerning their work as well as their  
14 leave. They can make their own arrangements.

15 And we are different from two other companies. For  
16 part-time bus captains and full-time bus captains, they  
17 were very different in their case, but for the case of  
18 the New Lantao Bus Company, other than salary, we are  
19 not able to give too many fringe benefits to our  
20 full-time bus captains. Say, for example, for other bus  
21 companies, for the full-time bus captains, they do have  
22 a concessionary fare card for their family members. In  
23 our case, as of today and as a result of the use of  
24 Octopus cards, we are not able to share such  
25 concessionary cards with the other two bus companies.

1 In other words, the fringe benefits for our bus captains  
2 is such that their family members can have a free ride  
3 on New Lantau buses but not on other buses of other bus  
4 companies.

5 Of course, I won't know the details about the number  
6 of such cards given to the family members, but you can  
7 see that there is a very clear distinction between  
8 full-time and part-time bus captains.

9 I also mentioned that in the case of part-time bus  
10 captains, they are able to have a greater flexibility in  
11 terms of the number of working days, and that's why many  
12 colleagues are interested in becoming part-time bus  
13 captains.

14 MS MAGGIE WONG: Thanks for your answer, but my question is  
15 actually: do you know why there has been such  
16 a substantial increase in terms of the number of  
17 part-time captains over the years?

18 MR JAMES WONG: When we recruit our staff, we recruit both  
19 full-time as well as part-time bus captains. It won't  
20 be because of financial reasons or any other  
21 work-related reasons we are interested in part-time  
22 rather than full-time bus captains. No, that's not the  
23 case.

24 A candidate will approach us for recruitment. We  
25 tell him about the package for full-time as well as

1 part-time bus captains. Of course we welcome him as a  
2 full-time bus captain, because in terms of deployment,  
3 it's easier for the company because we are certain about  
4 the number of working days from this full-time bus  
5 captain. For part-time bus captains, it's uncertain,  
6 and of course the decision is in the hands of the  
7 candidate. If somebody would like to be a part-time bus  
8 captain, we can't impose a wish on him and say, "You  
9 must be full-time." You may ask why we haven't been  
10 employing more people. Well, in fact, it was only in  
11 recent years we have seen a greater number of routes and  
12 we have recruited more people and that's why we have  
13 seen an increase.

14 You ask why more part-time and not more full-time  
15 bus captains. That's the explanation. It's up to the  
16 candidate to choose. So it is not for us to make  
17 a choice.

18 MS MAGGIE WONG: So, if I understand correctly, it's because  
19 of the manpower shortage, or there are other reasons, or  
20 because of the pay? Or there is increase in manpower  
21 supply because of the increase in demand of bus  
22 captains?

23 MR JAMES WONG: You asked for the reason. As I have said in  
24 the outset, I don't think, if you say there is  
25 a shortage, it means we would not even be able to get

1 part-time bus captains. That's my view.

2 On the other hand, as I have said, in fact we did  
3 think about it and some colleagues also told us about  
4 the small difference between the pay for full-time and  
5 part-time bus captains, and then to individual bus  
6 captains, since our franchised service is rather focused  
7 on the Lantau district only, so if somebody isn't living  
8 on Lantau Island, then, as I have said, the  
9 concessionary card for the family members will not be  
10 attractive.

11 So, in the trade, somebody has said that such  
12 a concessionary card would have the value of \$1,000 if  
13 you take a ride every day. For us, for our full-time  
14 bus captains, this isn't something that they have when  
15 they compare with other bus captains from other bus  
16 companies.

17 When you asked for the reason, of course, on our  
18 part, we can't be sure about the reason in individual  
19 cases. It is up to them to make a choice. But I think  
20 probably it is due to the fact that the pay isn't really  
21 that different, among other reasons.

22 MS MAGGIE WONG: Does your company regularly recruit

23 full-time bus captains who have retired, to take up  
24 employment as part-time bus captains?

25 MR JAMES WONG: Counsel, was it your question that whether

1           we recruit our retirees?

2   INTERPRETER:   Yes.

3   MR JAMES WONG:   Yes, we did.   When a colleague retires, and  
4           if his health condition is still fit for taking up the  
5           duty as a bus captain, then we will offer to him that he  
6           should stay with us.

7   MS MAGGIE WONG:   What is the approximate percentage?

8   CHAIRMAN:   What is the retirement age for full-time bus  
9           captains?

10   MR JAMES WONG:   65.

11   CHAIRMAN:   Thank you.

12   MR JAMES WONG:   Can we provide the information after the  
13           hearing?   At this moment, I'm afraid we don't know how  
14           many retired bus captains have become part-time bus  
15           captains.   But initially I don't think there are too  
16           many of them at this moment.

17   MS MAGGIE WONG:   In your introductory remarks, you stated  
18           that in recent months your company has implemented and  
19           will implement measures in your daily operation and  
20           administration, with a view to enhance safety level in  
21           operating buses.   This includes requiring the part-time  
22           bus captains to declare more detailed information about  
23           their principal employment.

24           You also stated you are pleased to provide further  
25           information to the chairman and members at the hearing

1           today.

2           Can you tell us, first of all, what are the new  
3           measures?

4   MR JAMES WONG: May I defer to Mr Benny Chan?

5   CHAIRMAN: Yes, please do.

6   MR BENNY CHAN: Thank you, Mr Chairman. Mainly speaking, we  
7           have enhanced the requirement that part-time bus  
8           captains must declare to us their principal employment  
9           as well as the number of working hours, so as to  
10          safeguard us, so that we can meet the requirements of  
11          the Transport Department.

12   MS MAGGIE WONG: So since when did you implement these  
13          measures?

14   MR BENNY CHAN: For this measure, it was introduced recently  
15          in June.

16   MS MAGGIE WONG: So do I understand it correctly, before  
17          June, there is no requirement for part-time bus captains  
18          to declare information about their principal employment?

19   MR BENNY CHAN: Well, when a bus captain joins us, we do  
20          require the bus captain to make a declaration about his  
21          work. Now, the difference is that within a certain  
22          period of time, we will ask the bus captain to make  
23          a declaration again to update the information.

24   MS MAGGIE WONG: Do all part-time bus captains have to fill  
25          in a form?

1 MR BENNY CHAN: The part-time bus captain, upon joining the  
2 company, has to declare, by filling out the information,  
3 as shown on the screen, there is a form.

4 MS MAGGIE WONG: We will come to that form in a moment, but  
5 after June, do you have a new form requiring the  
6 part-time bus captains to declare their working hours,  
7 before their employment?

8 MR BENNY CHAN: Yes, we do. We have already prepared a new  
9 form for the bus captains to declare their work details.

10 MS MAGGIE WONG: Can we have a sample of that form, if  
11 convenient?

12 MR BENNY CHAN: Yes. Later on, we can provide it to the  
13 committee.

14 CHAIRMAN: Please do so, and there's an earlier matter that  
15 you indicated that you would supply information. That  
16 was Mr James Wong, who said that you would provide  
17 information as to the number of retired full-time bus  
18 captains who work part-time. So that's the second item  
19 on the shopping list, as it were.

20 MR JAMES WONG: (In English) Okay.

21 MS MAGGIE WONG: Now, Mr Wong, you earlier referred to your  
22 current application form. If I can take you to  
23 bundle 2, NLB-2, page 468.

24 If we look at the form, the form itself does not  
25 require part-time bus captains to provide information as

1 to whether they are currently working part-time or the  
2 work nature and the working hours. And earlier, when  
3 you gave evidence, you said the form itself does provide  
4 declaration for that kind of information. Can you tell  
5 us where?

6 MR JAMES WONG: Thank you. I would like to say that in this  
7 form, when they are required to fill in, at the time  
8 when they join us, we require the person to declare to  
9 us where they have worked before. But indeed, in this  
10 form, there is no requirement to do so, because their  
11 employment may be clerical and not related to driving.  
12 So there is no requirement of stating the number of work  
13 hours in the old form.

14 And in the new form which Mr Chan mentioned, it has  
15 this added.

16 MS MAGGIE WONG: So it's not simply a form but a new  
17 employment contract, if I understand correctly? Or it  
18 is two different things?

19 MR JAMES WONG: It's not a contract. Serving part-time bus  
20 captains will have to file this declaration.

21 MS MAGGIE WONG: And have you revised this employment  
22 contract since June?

23 MR JAMES WONG: No, not this one.

24 MS MAGGIE WONG: And if I may take you to the declaration  
25 paragraphs in the current form at page 472, in all these

1 paragraphs of your existing form, it does not  
2 specifically require the part-time bus captains to  
3 declare if they have adequate rest time before  
4 commencing their duties? Can you confirm that?

5 MR JAMES WONG: That is right. I confirm that.

6 MS MAGGIE WONG: And just now you said there would be  
7 certain period of time where you would require part-time  
8 bus captains to declare the information. Under these  
9 new measures, how regularly or what is the period of  
10 time would you require part-time bus captains to declare  
11 principal employment and working hours?

12 MR JAMES WONG: At this stage, our plan is to ask the  
13 colleague to, starting from June -- well, because they  
14 are part-time bus captains, they won't come to work  
15 every day; they will have to furnish all the information  
16 to us. That is to start with.

17 Just now, you asked about the frequency of making  
18 such a declaration. Our thinking at this moment is once  
19 a year. Say, for example, in a year's time, they will  
20 have to update the record.

21 But this is a new measure, after all, so we think  
22 that perhaps in three months' time there will be  
23 a review on the frequency and whether this measure is  
24 appropriate and sufficient.

25 MS MAGGIE WONG: And in your new form, is there any

1 requirement which requires an employee to oblige to  
2 inform you if he changes his outside employment or  
3 undertakes new employment, given it will be an annual  
4 declaration?

5 MR JAMES WONG: Yes. Yes. It's there.

6 MS MAGGIE WONG: If I could go back to the previous  
7 practice --

8 CHAIRMAN: Before you do that -- are we to understand that  
9 this process has begun with you asking part-time bus  
10 captains to declare their principal employment and their  
11 working hours, that you've already started asking some  
12 bus captains, part-time ones, those questions?

13 MR JAMES WONG: Yes. Yes. We have begun doing that.

14 CHAIRMAN: Have any of these part-time bus captains declared  
15 that they do have other employment and have given you  
16 their working hours?

17 MR JAMES WONG: Yes, indeed, Chairman.

18 CHAIRMAN: Have any of them told you they have other  
19 employment involving driving?

20 MR JAMES WONG: Yes.

21 CHAIRMAN: Are you able to illustrate, by reference to one  
22 of the bus captains, what kind of employment and how  
23 much driving was involved in this other job?

24 MR JAMES WONG: Chairman, the initial information we have  
25 got -- well, I hope that you would give us some time to

1 collate the information. From the initial information  
2 we have received, there are part-time bus captains,  
3 according to them, that they are bus captains working  
4 for a hotel. According to the information supplied to  
5 the company, they work on average five days a week. Per  
6 working day, the average driving time is about eight  
7 hours. That is just an example.

8 CHAIRMAN: Can you give us some idea of how many of your  
9 part-time bus captains you have asked these questions  
10 of, so far?

11 MR JAMES WONG: There are 30 or so of them who have replied  
12 to us. It's about 80 per cent of our part-time bus  
13 captains, those 30 or so bus captains.

14 CHAIRMAN: Thank you, Mr Wong.

15 Yes, Ms Wong.

16 MS MAGGIE WONG: Thank you, Mr Wong.

17 If I may take you to your submissions at NLB  
18 bundle 1, page 31, the third box from the right. You  
19 submitted that you:

20 "... require the applicant to submit their past and  
21 existing employment information in the application  
22 form ... During the recruitment process, we will explain  
23 to applicant, no matter he/she apply for part-time or  
24 full-time bus captain vacancy, their working arrangement  
25 is regulated by [the guidelines] ... and verbally convey

1 [ed] to part-time bus captain applicant that they have  
2 to ensure sufficient rest time and separation time from  
3 other external employment."

4 My question is this. Apart from verbally conveying  
5 to these part-time bus captains that they have to ensure  
6 sufficient rest time and separation time, are there any  
7 requirement or disclosure made by part-time bus captains  
8 as to the number of hours they worked prior to coming to  
9 their duties in your company?

10 MR JAMES WONG: Thank you. At the time when we furnished  
11 the information, there was no such thing. It was only  
12 verbally. It was the information we have supplied.  
13 There is a new measure that we require them to declare  
14 the information.

15 MS MAGGIE WONG: So prior to June 2018, there was no way you  
16 could ascertain if the part-time bus captains have been  
17 working over the working hours as stipulated in the  
18 guidelines, apart from this verbal assurance?

19 MR JAMES WONG: That is right. Prior to June -- well, to  
20 a certain extent, today -- we rely on face-to-face  
21 communication with bus captains in relation to their  
22 working hours of the principal employment.

23 MS MAGGIE WONG: Now, if I may take you to some of the  
24 documents that we have seen from other bus companies.  
25 If I may take you to CTB bundle 2, page 400.

1           At page 401, that's page 2 of the original document,  
2           headed, "Important information", item 3, it reads:

3           "Are you currently working part-time? If yes, what  
4           is the work nature and [the] working hours?"

5           This is the Citybus application form, and as one can  
6           tell, it requires the employee to specifically state in  
7           the employment contract whether they have other  
8           part-time employment.

9           Would you consider adopting this form, in revising  
10          your employee application form?

11       MR JAMES WONG: The document you just showed me -- well,  
12          I will have to look further into it with my colleagues.  
13          My initial thinking is it is of high reference value.  
14          We will consider adopting or enhancing such measures.

15       MS MAGGIE WONG: Yes, and also, if we continue on page 404  
16          in Chinese, and English at page 404-1 to 404-2, we can  
17          see that is a requirement, perhaps similar to your new  
18          form, called "Employee Code of Conduct and  
19          Discipline/Declaration for External Works", setting out  
20          in details not only the employment, the employer's  
21          company, working hours, salary, and we can see at the  
22          bottom, part C, "Signature", it requires specific  
23          declarations, requiring the employee to strictly comply  
24          with the terms of disclosure.

25          Would you consider adopting this in your new form,

1 if it hasn't contained similar paragraphs?

2 MR JAMES WONG: Well, we have just seen this form. We have  
3 to look further into it. Any good suggestions will be  
4 adopted by us, but I don't have time to go into it.  
5 I would need time to go into it when we go back.

6 MS MAGGIE WONG: Before I move on to another topic, I would  
7 like to ask something about disclosure of driving  
8 offence points during recruitment.

9 In your submission, you state that you request all  
10 bus captains, full-time or not, to compulsorily declare  
11 their driving offence point record annually and report  
12 to company when their points records changed, and then  
13 there would be random cross-check to be conducted, to  
14 make sure information provided by staff is true and  
15 accurate.

16 My first question is, would you check the driving  
17 offence points of your bus captains before you employ  
18 them?

19 MR JAMES WONG: I will defer to Mr Benny Chan.

20 MR BENNY CHAN: Chairman, at the time of recruitment, before  
21 we employ them, we will require the bus captain to  
22 obtain a record. This record will show the  
23 driving-offence points.

24 MS MAGGIE WONG: Thank you. If I may take you to TD  
25 bundle 1. It is a paper submitted by the Transport

1 Department at page 135, paragraph 4. It states in the  
2 first sentence:

3 "All FB operators, except the New Lantao Bus  
4 Company ..., will also check the driving offence points  
5 of their bus captain applicants."

6 It appears from what is stated in the Transport  
7 Department's submission that apart from your company,  
8 all other operators will check the driving-offence  
9 points of their bus captain applicants.

10 Do you have any comment as to this sentence?

11 CHAIRMAN: From what you've said earlier, this statement is  
12 inaccurate. Is that the position?

13 MR JAMES WONG: I believe -- well, Mr Chan talks about the  
14 check. It started at the beginning of 2018, and we have  
15 to go back to check when it was formally implemented.  
16 I think it was the beginning of 2018. When we supplied  
17 the information to the committee, we would not  
18 communicate with the Transport Department first.

19 MS MAGGIE WONG: I understand.

20 MR JAMES WONG: Perhaps in their record, this information is  
21 not updated. After all, this is internal measure of the  
22 company. Perhaps we did not mention this to the  
23 Transport Department in a meeting. That's why there is  
24 this misunderstanding.

25 MS MAGGIE WONG: So do I understand correctly --

1 CHAIRMAN: Before you move on, Ms Wong -- would you provide  
2 the information as to when it was that this check took  
3 place?

4 MR JAMES WONG: (In English) Yes, sure.

5 CHAIRMAN: Thank you.

6 Yes, Ms Wong.

7 MS MAGGIE WONG: Apart from providing the information, can  
8 you tell us about this checking of driving offence  
9 points? When is this new policy, or what is the policy  
10 before June 2018? Do you know?

11 CHAIRMAN: I think Mr Wong has told us that this began, he  
12 thinks, at the beginning of 2018, not June, but the  
13 beginning of the year.

14 MR JAMES WONG: (In English) That's right. Should be.

15 MS MAGGIE WONG: Yes. Now, if we look at paragraph 4, it  
16 states that:

17 "... Citybus ... and New World First Bus Services  
18 Ltd ... will not offer employment to applicants who have  
19 incurred 9 or above driving-offence points in the recent  
20 2 years."

21 Whilst:

22 "... KMB and Long Win Bus ... will not offer  
23 employment to applicants who have incurred 9 or above  
24 driving-offence points in the recent 3 years ..."

25 Can you tell us what is your company's policy in

1 relation to this?

2 MR JAMES WONG: We don't have detailed information for the  
3 time being. We are not like the other two companies  
4 whereby we have clear stipulation as to, say, in the  
5 recent two to three years, whereby you have certain  
6 points deducted, then you will not be hired. At this  
7 moment, we don't have such a policy.

8 MS MAGGIE WONG: Would you consider adopting this policy?

9 MR JAMES WONG: We will consider doing so.

10 Now, we want to look at whether the bus captains  
11 have driving-offence points deducted, and actually we  
12 can observe that through their normal driving attitude.  
13 We will consider adopting such a policy, but at this  
14 moment, if you are to say specifically whether it's  
15 seven points, nine points, two years or three years, I  
16 cannot give you a definite answer. We will consider  
17 doing so.

18 MS MAGGIE WONG: Based on your answer, do I understand  
19 correctly that prior to 2018, your company have not  
20 checked the driving-offence points of part-time bus  
21 captains at all?

22 MR JAMES WONG: Chairman, can you give us some time to  
23 collect the relevant information and pass the same on to  
24 the committee later?

25 MS MAGGIE WONG: Thank you.

1 CHAIRMAN: Very well. Thank you.

2 MS MAGGIE WONG: Now, moving on to another topic, the use of  
3 non-franchised buses.

4 MEMBER LO: I have a question.

5 CHAIRMAN: Prof Lo wishes to ask a question.

6 MS MAGGIE WONG: Yes.

7 MEMBER LO: I just want to clarify that the use of higher  
8 percentage of part-time bus captains, is that a strategy  
9 of the company or is it a consequence of your ability to  
10 hire full-time, that you cannot hire enough full-time,  
11 so you become hiring part-time? So which is which?

12 MR JAMES WONG: Thank you, Professor. Is it the company's  
13 policy to hire part-time bus captains? Definitely not.  
14 The counsel has also asked why there is a high ratio of  
15 part-time bus captains. Before the committee's hearing,  
16 for myself, I don't know the number of part-time bus  
17 captains in other companies. Only after the hearing did  
18 I learn about the higher ratio of part-time bus captains  
19 in our company versus other bus companies.

20 So we've been pondering what the real issue is here.  
21 Of course, we are inclined to hiring more full-time  
22 rather than part-time bus captains.

23 MS MAGGIE WONG: Following on that question, Mr Wong, in  
24 your submission at page 18, NLB bundle 1 at page 18, and  
25 if we can see the paragraph right below paragraph 6 and

1       above section 5, "Journey time", it started with the  
2       words:

3               "During the years, we are actively resourcing  
4       manpower from different means, such as joining career  
5       day organised by Labour Department and local charity  
6       communities, job referral ..."

7               And the end of the paragraph states:

8               "Together with employment condition improvement as  
9       mentioned in previous paragraph, we believe these  
10      measures can strengthen our manpower resourcing  
11      status ..."

12              And you mention a number of measures from 1 to 6.  
13      Apart from those measures, have you considered other  
14      improvement measures, in terms of remuneration and  
15      benefits to part-time -- or full-time bus captains?

16   MR JAMES WONG:   For our company, every year, basically,  
17      there will be an adjustment of the salary. As for  
18      benefits, starting 2018, we are giving an extra five  
19      days of leave to our bus captains, in the trade  
20      generally. We will give labour days 12 days and we are  
21      giving them an extra five days, which is on a par with  
22      that of the white-collar workers.

23              We hope the colleagues can enjoy more holidays and  
24      they can take more rest and they are given the  
25      flexibility to choose their leave days.

1           As for a pay rise, we will do it on an annual basis  
2           depending on the actual circumstances.

3   MS MAGGIE WONG: About this extra five days, that applies to  
4           all full-time employees? Is that the case?

5   MR JAMES WONG: Yes, that's correct, all full-time bus  
6           captains enjoy that.

7   MS MAGGIE WONG: May I move on to another topic, use of  
8           non-franchised bus. At page 17, bundle NLB-1, if we can  
9           see right below the table, you stated, your company  
10          stated, that with the approval of the Transport  
11          Department, you:

12               "... hire at least 30 non-franchised bus with bus  
13          captain from our contractor on every weekends, and this  
14          surplus of bus is almost 25 per cent extra of our  
15          fleet."

16               First of all, you state "our contractor" -- is it  
17          one contractor or multiple suppliers?

18   MR JAMES WONG: Just one contractor.

19   MS MAGGIE WONG: And who is that contractor?

20   MR JAMES WONG: It's called Kwoon Chung Motors.

21   MS MAGGIE WONG: Now, these franchised buses is to cater for  
22          upsurge in passenger demand only in weekends and public  
23          holidays, is that correct? It does apply to weekdays?

24   MR JAMES WONG: Correct.

25   MS MAGGIE WONG: And in your supplementary submission filed

1 on 15 June 2018 at page 38, NLB-1, you attach the "no  
2 objection" letter from the Transport Department dated  
3 19 December 2017. Your letter, if we go back to  
4 page 37, also stated that the initial approval from the  
5 Transport Department was issued over the past 20 years,  
6 and that you have been locating or searching this  
7 document by different means.

8 Have you been able to locate this initial approval  
9 document?

10 MR JAMES WONG: No, I haven't been able to retrieve the  
11 information.

12 MS MAGGIE WONG: Will you continue with the attempt?

13 MR JAMES WONG: Yes, we will try to retrieve the initial  
14 letter. I joined the company in 2011 myself and I have  
15 asked the colleagues that have worked longer than  
16 myself. The letter was approved, I mean it was given,  
17 in 1990 and 1991, and on Lantau, back then, during  
18 holidays, there was a great surge in demand, but on  
19 weekend days there wasn't such a huge demand. We were  
20 talking about trips to Po Lin Monastery. At that time,  
21 not even a cable car was put in place or built, so the  
22 New Lantau Bus was given approval by the Transport  
23 Department to hire non-franchised buses to operate on  
24 public holiday to deal with the passenger demand peak.

25 Our company, compared to the two bus companies, in

1 terms of our scale and the structure of our route, it  
2 was very different from them. So conversely, actually,  
3 the holidays, we are seeing a passenger demand peak, and  
4 on weekdays we don't see such a big passenger demand.

5 So our starting point or rationale here is if just  
6 for the sake of coping with the demand on weekends and  
7 public holidays to procure an extra 20 to 30 per cent of  
8 buses -- well, in the 1990s, the Tsing Ma Bridge was not  
9 even built. I could not give you the exact size of our  
10 fleet back then. So that's the arrangement put in place  
11 back then and it lasts until today.

12 MS MAGGIE WONG: Now, this letter from the Transport  
13 Department was dated 19 December 2017, but in the first  
14 paragraph it makes reference to "your letter",  
15 presumably your application on 4 December 2017, and the  
16 first paragraph states that the Transport Department has  
17 no objection to your application for deployment of  
18 a maximum of 80 non-franchised buses on every Sunday and  
19 public holidays for six months from 1 June 2018,  
20 suspension period of Ngong Ping 360, et cetera; and 50  
21 non-franchised buses on every Saturday in the periods  
22 mentioned in subparagraph (2).

23 My first question is, who decides the number of  
24 non-franchised buses to be deployed for those periods?

25 MR JAMES WONG: Thank you. It is our company which made the

1 decision as to the extra number of buses needed.

2 MS MAGGIE WONG: And if I understand correctly, your total  
3 amount or total number of franchised buses that you  
4 operate are 130; is that correct?

5 MR JAMES WONG: More or less. Around 100, 130 or so.

6 MS MAGGIE WONG: So the percentage is quite significant, and  
7 have you considered deploying or purchasing more buses  
8 in future, to be managed by your company exclusively?

9 MR JAMES WONG: Thank you. In this letter, the Transport  
10 Department approved the number, 80 and 50. That's the  
11 maximum number. And in actual fact, why were we making  
12 an application for a larger number? Usually, because  
13 the contractor would sometimes tell us that because of  
14 certain deployment situation or reasons, we need  
15 a closed road permit to go into Lantau South for these  
16 50 buses and the administration's approval is required  
17 for them to provide the service.

18 So that's why we asked for more. Your question, on  
19 whether we would be procuring more buses ourselves --  
20 for the time being, we don't have such a plan. That's  
21 exactly because of what I just said. Even if we procure  
22 more buses, it's just for the sole purpose of certain  
23 passengers, on Saturdays and public holidays and  
24 Sundays. But we are just talking about two days in  
25 a week.

1           Even -- it's not the case that for a Saturday and  
2           a Sunday there would be a lot more passengers. For  
3           example, if the weather is not that good, then the  
4           situation would be affected. Now, the buses going to  
5           Tai O and Ngong Ping will see passenger rise in public  
6           holidays, but in, say, bad weather, the passenger number  
7           will significantly drop. So at this juncture we don't  
8           have plan to add more buses.

9           Say, however, if in the long term, if we see that  
10          there is an increase in passenger demand from Monday to  
11          Friday, then we will of course consider procuring our  
12          own buses.

13 MS MAGGIE WONG: Thank you. Who decided the six-month  
14          period as set out in paragraphs (1) and (2) for the  
15          deployment of non-franchised buses?

16 MR JAMES WONG: I believe it's the Transport Department,  
17          half-year, you talk about half-year, that is the  
18          Transport Department's decision.

19 MS MAGGIE WONG: Now, at the bottom it set out six  
20          conditions by the Transport Department, (a) to (f), and  
21          if I may summarise:

22               "(a) the buses must be below six years of age;  
23               (b) the same franchised bus maintenance standard  
24          must be adopted for the hired buses."

25          Now, what does it mean by "the same franchised bus

1 maintenance standard must be adopted for the hired  
2 buses"; what does that include?

3 MR JAMES WONG: Can I defer to Mr Yeung to take that  
4 question?

5 CHAIRMAN: Yes, Mr Yeung.

6 MR PATRICK YEUNG: Thank you, Chairman. For all  
7 non-franchised buses, they will be treated the same as  
8 the franchised buses in terms of repair and maintenance.  
9 Every month, there will be a monthly inspection called  
10 MI, and they have to go through an annual examination as  
11 well, the same as franchised buses.

12 MS MAGGIE WONG: Does this include -- do you know if all  
13 these non-franchised buses have black box or speed  
14 limiters?

15 MR PATRICK YEUNG: Yes, they do. Yes, they do.

16 MS MAGGIE WONG: Is that a contractual requirement in the  
17 contracts that you signed with this non-franchised bus  
18 contractor?

19 MR JAMES WONG: We asked our contractor to fit out the  
20 non-franchised bus to the same degree as our franchised  
21 bus. So that's our original intention.

22 MS MAGGIE WONG: So prior to today is there a requirement  
23 for all these non-franchised buses to have black box or  
24 speed limiters installed?

25 CHAIRMAN: Whose requirement?

1 MS MAGGIE WONG: Whether your company requires the  
2 non-franchised bus operators to install speed limiters  
3 and black box before today.

4 MR JAMES WONG: In fact, you can refer to item (d). It says  
5 "similar on-vehicle facilities". Of course, we are  
6 referring to those buses engaged by us to assist us. My  
7 understanding is that as of today, in relation to  
8 non-franchised buses, the TD does not have such  
9 a requirement. So it is different in the case of  
10 franchised buses.

11 Here, it has already been said that if the  
12 non-franchised bus is to be used by us and serving us,  
13 then that bus should be equipped with the same  
14 on-vehicle facilities as a franchised bus.

15 MS MAGGIE WONG: Would there be any document --

16 CHAIRMAN: Just allow me a moment.

17 Do you read paragraph (2)(d) as a Transport  
18 Department requirement that you have a black box and  
19 a speed limiter, or not?

20 MR JAMES WONG: For item (d), of course, the term "black  
21 box" hasn't been included. But my understanding, our  
22 understanding, is that this is the requirement; it has  
23 to be fitted. That's our understanding.

24 CHAIRMAN: Thank you.

25 MS MAGGIE WONG: Can you provide us with a sample of the

1 contract between your company and Kwoon Chung in respect  
2 of the arrangement to use the non-franchised buses,  
3 specifically the safety features?

4 MR JAMES WONG: Yes, we can provide the information  
5 afterwards.

6 MS MAGGIE WONG: Maybe I should clarify. Before today, is  
7 there a contractual requirement for Kwoon Chung to  
8 provide non-franchised buses with black box and speed  
9 limiters, contractual requirement? The question is  
10 "contractual requirement".

11 MR JAMES WONG: I think we need to go back to check the  
12 document. Thank you.

13 MS MAGGIE WONG: Now, if we go to the sixth requirement,  
14 (f), it states:

15 "non-part-time drivers should be arranged to operate  
16 the Tung Chung Road bus routes. They must have been  
17 given proper and adequate training by your company."

18 Can you tell us: why single out the Tung Chung Road  
19 bus routes?

20 MR JAMES WONG: As I have said, for South Lantau, the routes  
21 for South Lantau, will certainly go via Tung Chung Road,  
22 because for you to go from Tung Chung to Tai O and  
23 Ngong Ping and South Lantau, you have to go past  
24 Tung Chung Road. For this to be singled out -- well,  
25 of course we are not trying to get a bus to travel on

1           Tung Chung Road. Rather, we are getting buses to travel  
2           in South Lantau. I think that's what is meant here.

3   MS MAGGIE WONG: Well, it appears that it set out a must  
4           condition, that you have to have full-time drivers to  
5           drive the Tung Chung Road bus routes. Is there anything  
6           special about the Tung Chung Road bus routes? And also  
7           it requires a specific condition that it has to receive  
8           proper and adequate training by your company.

9   MR JAMES WONG: I am not too sure. We are not too sure  
10          about the reason for this condition. For us here, our  
11          initial view, we believe that prior to the  
12          reconstruction of Tung Chung Road, it was very, very  
13          narrow, very different from what you see today as far as  
14          the road conditions are concerned. But then back then,  
15          I was too young to recall what it was like. But we  
16          believe that as far as this condition or this  
17          requirement is concerned, I think the prevailing road  
18          conditions back then should be relevant. Perhaps we  
19          will ask, "Tung Chung Road has been reconstructed, you  
20          want to know why this particular condition remains  
21          there?" Let me go back to check with my colleagues for  
22          the details.

23          My understanding is this is a letter issued by the  
24          Transport Department on a half-yearly basis. It's  
25          a routine document. Perhaps we haven't reviewed as to

1           whether certain conditions no longer apply.

2   MS MAGGIE WONG:   And it says that --

3   CHAIRMAN:   Before you go on, Ms Wong -- perhaps, this being  
4           a Transport Department letter, it's the Transport  
5           Department who can tell us why the condition is there.

6   MR JAMES WONG:   (In English) Maybe.

7   MS MAGGIE WONG:   It also states that they must have been  
8           given proper and adequate training by your company.  
9           Have there been any arrangements to ensure these  
10          full-time drivers of these non-franchised bus operators  
11          or bus company should receive training by your company,  
12          any arrangement?

13   MR JAMES WONG:   Mr Chairman, may I defer to Mr Lee?

14   CHAIRMAN:   Yes, Mr Lee.

15   MR RICHARD LEE:   Mr Chairman, let me answer the question.

16          As far as training is concerned, for bus drivers plying  
17          Tung Chung Road, from FB or non-FB, well, for South  
18          Lantau, the roads are narrow and there are many bends.  
19          Therefore, for bus captains travelling on such routes,  
20          they have to receive a two-day route training to make  
21          sure they are familiar with the road conditions and they  
22          are alert.

23          So, so far as the route training is concerned,  
24          during that time our instructor will check if the bus  
25          captains are skilful at manoeuvring the bends and they

1           are assessed. Therefore, for the non-FB bus captains  
2           carrying out the duty for us, we do provide a route  
3           training for them.

4   MS MAGGIE WONG: I believe the full-time bus captains  
5           require five days' training, is that correct, if they  
6           are to drive this route?

7   MR RICHARD LEE: If I may add a word here, counsel. For the  
8           five-day training, that's for the new recruits, that's  
9           the induction training. For serving bus captains,  
10          depending on the needs, will adjust. Like for South  
11          Lantau Road, we provide an extra two-day training.

12   MS MAGGIE WONG: Thank you.

13           Now, is there any measure in place to monitor the  
14          qualifications and driving records of these  
15          non-franchised bus drivers?

16   MR JAMES WONG: We have the same treatment for franchised  
17          buses and non-franchised buses, as far as our measures  
18          are concerned. In other words, the answer is yes.

19   MS MAGGIE WONG: As of today?

20   MR JAMES WONG: Mmm.

21   MS MAGGIE WONG: So prior to 2018, is there any measure in  
22          place to check the qualifications and driving records of  
23          this non-franchised bus operator, or is this  
24          a contractual requirement in your contract with  
25          Kwoon Chung?

1 MR JAMES WONG: Today, we do not require our contractor --  
2 well, just now, in the letter, you see the registration  
3 numbers with information about the buses. As to the bus  
4 captains -- well, it will involve a larger number of bus  
5 captains rather than just 80 or 50 respectively.  
6 Therefore, as of today, we do have a specific  
7 requirement to ask for the details of the captains  
8 involved. So we haven't got this as a current  
9 requirement.

10 CHAIRMAN: Sorry, I don't understand that. Do you have this  
11 requirement today or is this something you are going to  
12 impose in the future?

13 MR JAMES WONG: We haven't got such a requirement as of  
14 today.

15 CHAIRMAN: Thank you.

16 Yes, Mr Auyeung.

17 MEMBER AUYEUNG: Thank you, Chairman. I want to stay on  
18 this letter from the Transport Department. If I read  
19 this letter correctly, this provision they have given  
20 you will expire the end of June. Have you received  
21 a new letter from Transport Department on similar  
22 arrangement?

23 MR JAMES WONG: Not yet.

24 MEMBER AUYEUNG: Okay. Thank you.

25 MS MAGGIE WONG: Did you apply?

1 MR JAMES WONG: We did. We have.

2 MS MAGGIE WONG: When? When was that?

3 MR JAMES WONG: I have to go back to check. I believe it  
4 must be end of May or early June. Say, for example, for  
5 the letter shown on the screen, so it expired towards  
6 the end of December, and we wrote in early December to  
7 apply.

8 MS MAGGIE WONG: Can you provide us with a copy of your  
9 letter to the Transport Department?

10 MR JAMES WONG: Yes.

11 MS MAGGIE WONG: Have there been follow-up discussions about  
12 this arrangement with the Transport Department since you  
13 wrote the letter?

14 MR JAMES WONG: I don't quite understand your question.

15 MS MAGGIE WONG: Have there been discussions with the  
16 Transport Department since you wrote the letter to renew  
17 this arrangement? Any meetings?

18 MR JAMES WONG: We did meet with the Transport Department.

19 Well, as to the letter we wrote, as to the application  
20 we have made, I don't think they are related to such.

21 MS MAGGIE WONG: Now, about this arrangement, do you wait  
22 until you have received the approval from the Transport  
23 Department before you sign the contract with Kwoon Chung  
24 to provide non-franchised buses?

25 MR JAMES WONG: Well, as to our contract with the

1 contractor, it is for a longer duration. I don't have  
2 the information with me, but if my memory serves me  
3 right, it's a three-year duration. So it won't be the  
4 case that for every six months I get the approval from  
5 the TD and then I sign a contract with the contractor.  
6 No. It is a three-year contract, for -- if we need to  
7 hire vehicles from them, then we do so. So that's the  
8 arrangement.

9 So the TD requires renewal once every six months.  
10 I think it is mainly because the TD would like to know  
11 whether the vehicles are in line with their  
12 requirements, like the year of age.

13 MS MAGGIE WONG: Now, you talked about the measure, earlier  
14 on, that you would require the Kwoon Chung operators to  
15 install speed limiters and black box from now on. Can  
16 you tell us what is the measure to ensure that?

17 MR JAMES WONG: The installation of such devices would have  
18 to be notified to us upon completion.

19 MS MAGGIE WONG: From now on.

20 MR JAMES WONG: It has been so all the time. After they  
21 have installed the devices, they would inform us. Like  
22 in the case of black boxes, of course we can check from  
23 the system, in relation to the transmission of data or  
24 data uploaded. So if you ask me as to whether we  
25 regularly verify the arrangement, that is whether, when

1       the vehicle arrives, I will check it every time, we  
2       didn't, because we believe that the hardware installed  
3       will not be dismantled, so they would notify us the  
4       first time it has been installed.

5   MS MAGGIE WONG: Is there any written record of such  
6       notification?

7   MR JAMES WONG: I can go back to get it and give it to you.  
8       We haven't come prepared with that.

9   CHAIRMAN: Please supply that, if you would.

10   MR JAMES WONG: (In English) Sure.

11   MS MAGGIE WONG: What is the measure, the current existing  
12       measure, to monitor the qualifications and driving  
13       records of these non-franchised bus drivers?

14   MR JAMES WONG: Existing, as was mentioned, at this moment  
15       of time, we do not require the contractor to supply us  
16       with the information. For part-time bus captains, we  
17       would obtain the information, and we have plans to get  
18       the information from them.

19   MS MAGGIE WONG: Would you ask for a similar requirement as  
20       you impose on your part-time bus captains, namely to  
21       sign a declaration form from all these non-franchised  
22       bus drivers, before they would be allowed to drive those  
23       buses?

24   MR JAMES WONG: At this moment of time, we haven't made  
25       a decision as to how to implement the measure. We don't

1       have a definite decision yet. I believe that we will  
2       adopt the same practice whether they are permanent staff  
3       or not. We don't have a decision yet.

4   MS MAGGIE WONG: So at this moment, do I understand  
5       correctly, your company would not know as of today  
6       whether any of these non-franchised bus drivers used on  
7       any particular day have any previous driving-related  
8       records, nor their experience?

9   MR JAMES WONG: When it comes to Kwoon Chung Motors, it's  
10      not completely independent from us. It's not the case  
11      that we don't know anything about them. Kwoon Chung  
12      Motors is a shareholder of New Lantao Bus Company. In  
13      relation to staff of Kwoon Chung Motors, when it comes  
14      to New Lantao Bus Company -- well, we don't have their  
15      files, but when it comes to recruitment, we have adopted  
16      certain measures to ensure that they are qualified bus  
17      captains. We will collate the information and give it  
18      to you.

19   CHAIRMAN: Please do.

20            Yes, Professor.

21   MEMBER LO: The question -- there are three types of  
22      drivers: full-time, part-time, and also drivers driving  
23      on those non-franchised buses. They have different  
24      treatments in terms of the last group.

25            Now, the question is, the non-franchised buses also

1           have a black box. When will this black box information  
2           be used? Because they are driven by non-franchised  
3           operators, drivers. So would that ever be used to  
4           monitor their performance?

5   MR JAMES WONG: Thank you. In our system today, we can see  
6           black box records of non-franchised buses. We have  
7           access to such records today.

8   MEMBER LO: But are they used? Are such information ever  
9           used to assess their performance?

10   MR JAMES WONG: It's not just the non-franchised buses. In  
11           our fleet, black box has already been installed. Let's  
12           leave the non-franchised buses aside first. We use  
13           random checks to check every month whether there are  
14           problems with the buses or with the driving of the  
15           drivers.

16           For non-franchised buses, I believe that we use the  
17           same approach, but I have to go back to ask my  
18           colleagues as to random checks are conducted on their 80  
19           buses during Saturdays and Sundays, because I can't give  
20           you a definite answer now. But that is our general  
21           approach in relation to random checks.

22   CHAIRMAN: Before you move on, are there none of the six of  
23           you who are able to answer that question? It's a simple  
24           enough question. Do you actually check the black boxes  
25           of the non-franchised buses?

1 MR BENNY CHAN: I would like to supplement, Chairman. At  
2 the moment, we don't really take the initiative to check  
3 the information in the black box. When we receive  
4 complaints, we will conduct random checks of the  
5 information of the black box to investigate into the  
6 incidents.

7 MS MAGGIE WONG: Following from your --

8 CHAIRMAN: Forgive me -- so you respond to complaints; is  
9 that it?

10 MR BENNY CHAN: That is right.

11 CHAIRMAN: And accidents?

12 MR BENNY CHAN: Right.

13 CHAIRMAN: But do you do random checks on black boxes on  
14 non-franchised buses?

15 MR BENNY CHAN: Yes, we do that too.

16 CHAIRMAN: Thank you.

17 At some stage, Ms Wong, we are going to take  
18 a 20-minute break. It's a matter for you when it's  
19 convenient.

20 MS MAGGIE WONG: Yes. Maybe I will follow up with the  
21 question on the safety performance.

22 Mr Wong, apart from this question, any measures in  
23 place to monitor the safety performance of these drivers  
24 of non-franchised buses whilst they are being used by  
25 your company? For example, mystery rides, or would you

1 put your staff on these buses to monitor performance?

2 MR BENNY CHAN: Chairman, every month we have used mystery  
3 shoppers. We don't distinguish between New Lantau Bus  
4 Company's or non-franchised buses.

5 MS MAGGIE WONG: So these secret checks of bus captain  
6 performance apply to all three types of bus captains?

7 MR BENNY CHAN: That is right.

8 MS MAGGIE WONG: So if you find there are performance that  
9 are substandard or over-speeding, what disciplinary  
10 actions would you take on these non-franchised bus  
11 drivers?

12 MR BENNY CHAN: If we find, let's say, for example,  
13 speeding, we will issue a warning letter. We may even  
14 suspend the bus driver from working on Lantau Island.

15 MS MAGGIE WONG: Mr Chairman, that may be an appropriate  
16 time.

17 CHAIRMAN: Yes, very well.

18 Mr Wong and your fellow colleagues, we are going to  
19 take a 20-minute break now and then we will resume at  
20 11.50 by that clock. Thank you.

21 (11.29 am)

22 (A short adjournment)

23 (11.50 am)

24 CHAIRMAN: Yes.

25 MS MAGGIE WONG: Thank you, Mr Chairman.

1 MR JAMES WONG: Excuse me, Chairman, I would like to provide  
2 some supplementary information. Excuse me.

3 CHAIRMAN: Yes, please supplement.

4 MR JAMES WONG: In relation to new bus captains, our  
5 checking of their records, I would like to supplement  
6 that we did not start doing that only in 2018. This has  
7 been a long-established practice. We have been doing it  
8 for many years. What we meant by starting in 2018 is  
9 that in the past, we used to select some bus captains by  
10 random and check on their records, and what we started  
11 in the beginning of 2018, for all bus captains we  
12 checked, on all of them.

13 CHAIRMAN: Thank you.

14 MR JAMES WONG: So we will do it annually.

15 MS MAGGIE WONG: You mean the driving offence records or  
16 other records?

17 MR JAMES WONG: Yes, correct.

18 MS MAGGIE WONG: Just a few follow-up questions, Mr Wong.

19 Earlier on, you said on the safety features that the  
20 physical hardware on the non-franchised bus -- you said  
21 earlier on that these buses are equipped with the same  
22 on-vehicle facilities as franchised buses.

23 May I take you to bundle NLB-2, page 453. It set  
24 out a list of bus safety features adapted in NLB buses,  
25 and that includes 24 features.

1           Are you able to confirm, or based on your  
2           understanding, whether all these non-franchised buses  
3           are equipped with the same safety features as set out at  
4           page 453?

5   MR JAMES WONG:   Sorry, it will take a while for me to  
6           confirm this. For these 24 items, say, for example, for  
7           double-decker buses -- excuse me, yes, I confirm that.  
8           I just tried to check with my colleague. We did indeed  
9           hire double-deckers as well, and all these safety  
10          features are there. Thank you.

11   MS MAGGIE WONG: Thank you. Now, just a few follow-up  
12          questions on -- you mentioned that you hired  
13          non-franchised buses from Kwoon Chung Bus Holdings;  
14          correct? You hired non-franchised bus buses from  
15          Kwoon Chung Bus Holdings?

16   MR JAMES WONG:   Kwoon Chung Motors.

17   MS MAGGIE WONG:   Kwoon Chung Motors?

18   MR JAMES WONG:   Correct.

19   MS MAGGIE WONG:   Is it correct that New Lantao Bus is  
20          a 99.99 per cent owned subsidiary of Kwoon Chung Bus  
21          Holdings, a listed company?

22   MR JAMES WONG:   The parent company is Kwoon Chung Holdings.  
23          Maybe other companies are used to hold shares of NLB.  
24          I have to check. But ultimately the parent company is  
25          Kwoon Chung Bus Holdings.

1 MS MAGGIE WONG: Is your company, in other words, renting  
2 non-franchised buses from your parent company?

3 MR JAMES WONG: Correct. We have gone through an open  
4 tender exercise.

5 MS MAGGIE WONG: Is it correct that both Mr Wong, yourself,  
6 and Mr Timothy Wong, are senior management of  
7 Kwoon Chung Bus Holdings as well?

8 MR JAMES WONG: I am the managing director of Kwoon Chung  
9 and Mr Timothy Wong is the operations director of  
10 Kwoon Chung.

11 MS MAGGIE WONG: Thank you. As of 2017, the chairman of  
12 Kwoon Chung is Mr Matthew Wong Leung Pak, who is your  
13 father; is that correct?

14 MR JAMES WONG: Correct.

15 MS MAGGIE WONG: My question is this. How is the hiring  
16 price delivered when your company is renting  
17 non-franchised buses from its parent company,  
18 Kwoon Chung, or agreed? How is the price agreed?

19 MR JAMES WONG: As I said, once every three years, we will  
20 have an open tender exercise.

21 MS MAGGIE WONG: And how is the hiring price determined?

22 MR JAMES WONG: The tenderer makes a decision about the  
23 pricing, and for us, NLB makes a decision as to the  
24 number of vehicles to be deployed.

25 MS MAGGIE WONG: And who is the tenderer?

1 MR JAMES WONG: Sorry, what is your question? Kwoon Chung  
2 Motors is the tenderer.

3 MS MAGGIE WONG: Do you know whether the Transport  
4 Department has any requirements or guidelines on the  
5 price at which these non-franchised buses are hired?

6 MR JAMES WONG: No. As far as pricing is concerned, the  
7 Transport Department does not have any requirements for  
8 us.

9 MS MAGGIE WONG: Thank you. If I may continue --

10 CHAIRMAN: Before you move on -- is this arrangement with  
11 Kwoon Chung Motors Company, by which non-franchised  
12 buses are leased, is that an arrangement that came into  
13 place on 1 May 2018?

14 MR JAMES WONG: Mr Chairman, for the existing one, it is  
15 dated August 2016. It came into effect since August  
16 2016, up to now.

17 CHAIRMAN: Prior to that date, did you have other  
18 contractors providing you with non-franchised buses?

19 MR JAMES WONG: No. All the time it was Kwoon Chung Motors.

20 CHAIRMAN: Give us some timescale, if you would, as to "all  
21 the time".

22 MR JAMES WONG: Well, I have this understanding, from what  
23 I have heard. When Kwoon Chung acquired NLB, it was in  
24 1992. Kwoon Chung started to provide service to NLB,  
25 I think it was in the year 1990 or 1991.

1 CHAIRMAN: Thank you.

2 MS MAGGIE WONG: Now, if I may continue. Any measures in  
3 place to monitor these non-franchised bus drivers'  
4 physical condition before they start driving for your  
5 company's purposes, for example any medical checkups?

6 MR JAMES WONG: Can I confirm with you as to your question?  
7 You mean every time they drive for us or prior to taking  
8 up duties from us?

9 MS MAGGIE WONG: Either way.

10 MR JAMES WONG: If you refer to the scenario every time  
11 before they drive, certainly not. We won't. Not to  
12 mention the bus captains from non-franchised buses, even  
13 for our own bus captains of NLB, it is impossible for us  
14 to carry out a medical checkup every time before they  
15 start work.

16 As to the other arrangement in relation to medical  
17 check, well, upon joining us, they will undergo such  
18 a medical checkup. If I may also add to the answer, for  
19 Kwoon Chung Motors -- well, Kwoon Chung Motors and NLB  
20 are sister companies, so to speak. Well, for NLB, it is  
21 of a smaller scale, having 130 buses only, and then  
22 a lot of our back-office officers and management staff,  
23 we must rely on the parent company's support.  
24 Otherwise, NLB cannot do what the other two franchised  
25 bus companies have been doing. We won't be able to put

1 up a similar performance because we are one 13th or one  
2 33rd of their scale.

3 So for a Kwoon Chung bus captain, for him to drive  
4 an NLB bus, if you ask prior to taking up the duty as to  
5 whether there is a formal document being sent to NLB to  
6 confirm a medical checkup has been done, I am afraid  
7 I have to ask my colleagues as to how it actually works.  
8 But for us, for Kwoon Chung to recruit the bus captains,  
9 it has already gone through all the procedures like  
10 checking the records and going through the medical  
11 examination.

12 CHAIRMAN: Perhaps you would make those enquiries and  
13 provide us with a formal document, if one is sent to  
14 NLB.

15 MR JAMES WONG: (In English) Sure.

16 MS MAGGIE WONG: In respect of these non-franchised buses  
17 used for your company purposes, any measures in place to  
18 ensure these buses are mechanically fit for use?

19 MR JAMES WONG: If I may defer to Mr Yeung.

20 MR PATRICK YEUNG: Thank you. Regarding the non-franchised  
21 buses, they undergo regular checks and every year they  
22 go through the government's vehicle examination. So  
23 they are subject to the same requirement as our  
24 franchised buses.

25 MS MAGGIE WONG: What documentation would you ask from all

1           these non-franchised bus companies to verify this  
2           information?

3   MR JAMES WONG:   Thank you.   Well, as I have said, as of  
4           today, NLB and Kwoon Chung are sister companies, so for  
5           documents in black and white, we don't actually demand  
6           them from Kwoon Chung.   This is the current arrangement.  
7           But of course, for the management, in particular, we are  
8           aware of the conditions in both companies.   We provide  
9           passenger service.   We provide safe passenger service to  
10          our customers.

11           In future, maybe we will review and see if there is  
12          a need to do so.   Of course, sometimes we may not be  
13          talking about an associate company.   In future, we may  
14          have a non-associate contractor providing the service to  
15          NLB.   So perhaps we have to think more about whether  
16          there is a need to have more documents from the  
17          contractors.

18   MS MAGGIE WONG:   In your supplemental annex 2A, 2B and 2C --  
19           that's NLB bundle 2, pages 474 to 480.   Annex 2A is at  
20           pages 473 and 474; 2B at 476; and 2C at 479.

21           Who conducts these surveys?

22   CHAIRMAN:   To which surveys are you referring?

23   MS MAGGIE WONG:   Three surveys.

24   CHAIRMAN:   What are the titles of the surveys?

25   MS MAGGIE WONG:   Annex 2A is the "Monthly report on

1 scheduled and actual compliance with guidelines on bus  
2 captains' working hours, rest times and meal breaks".

3 Annex 2B is "On-board survey to check NLB's driver  
4 rest time".

5 And annex 2C is a "Survey on franchised bus  
6 captains' working hours (Guidelines B & D)".

7 CHAIRMAN: Thank you.

8 MR JAMES WONG: Thank you, Mr Chairman. Regarding the three  
9 surveys mentioned, they were conducted internally by  
10 ourselves, that is NLB.

11 MS MAGGIE WONG: If we look at page 474, annex 2A, the  
12 "Monthly report on scheduled and actual compliance with  
13 guidelines on bus captains' working hours, rest times  
14 and meal breaks", it states the number of captains  
15 surveyed at 115. So does it mean that 115 captains were  
16 surveyed on that single day, ie 21 February 2018, by  
17 a single person?

18 MR JAMES WONG: Correct. 115 on that day, on a single day.  
19 A day was picked and we tried to have a look.

20 MS MAGGIE WONG: So would they be surveyed by a single  
21 person of your company?

22 MR JAMES WONG: If I may supplement. The format wasn't so  
23 much that he followed each and every 115 bus captains.  
24 Rather, our colleagues checked the driving records. We  
25 try to check against that record.

1 MS MAGGIE WONG: So that would be based on driving records  
2 submitted to your company by who?

3 MR JAMES WONG: It was the Transport Department who picked  
4 the date, and then we checked against our internal  
5 records. So that's the record provided by the operating  
6 division.

7 MS MAGGIE WONG: If we go to annex 2B, "On-board survey to  
8 check NLB's driver rest time", pages 477 to 478, how  
9 would this be conducted?

10 MR JAMES WONG: Sorry, please give us a bit of time to read  
11 through the record.

12 CHAIRMAN: Yes, please take your time.

13 MR JAMES WONG: Mr Chairman, for this form, it was prepared  
14 by the company internally.

15 MS MAGGIE WONG: If we go to page 480, the third annex,  
16 "Survey on franchised bus captains' working hours", how  
17 would this be conducted? Or, to put it another way,  
18 would someone follow the driver for that day?

19 MR JAMES WONG: Mr Chairman, with this form, it talks about  
20 "Employee No. of bus captain". For this column, it was  
21 picked by the Transport Department as well as the survey  
22 date, and then on the right-hand side we tried to  
23 retrieve the record. So it wasn't that somebody was on  
24 board to follow, because it was provided afterwards, so  
25 we tried to look up our records and we tried to find out

1 the working hours of that particular colleague.

2 CHAIRMAN: How were these records created in the first  
3 place, sign-off time, sign-on, and so on?

4 MR JAMES WONG: Mr Chairman, currently, what we do is that  
5 at the bus terminus, we have a card reader, so the  
6 colleague will clock his time by tapping his card on the  
7 reader and that would record his sign-on time and  
8 sign-off time. For others who are at remote locations  
9 and not at the bus terminus, then we rely on the  
10 telephone to ask him to report the time.

11 MS MAGGIE WONG: I apologise for that. I should have asked  
12 page 477 the same question, because the title is  
13 "On-board survey to check NLB's driver rest time", so it  
14 was a survey on board. So my question is, would someone  
15 follow the driver for that day?

16 MR JAMES WONG: Thank you, Chairman. For this on-board  
17 survey, we did have a colleague on board. It was  
18 a requirement from the Transport Department. So for ten  
19 days, five holidays and ten weekdays, we carried out the  
20 survey.

21 MS MAGGIE WONG: Can you tell us whether, during the rest  
22 time or meal time provided under the guidelines, is  
23 a bus captain, be it those three types of bus captains,  
24 hired by your company required to perform any  
25 non-driving duties, like updating duty or shift rosters,

1           undertaking other administrative tasks, or inspecting  
2           vehicles?

3   MR JAMES WONG:   Thank you, Chairman.   When it comes to rest  
4           time, they are not required to perform those  
5           administrative duties mentioned, because these  
6           administrative duties are carried out by regulators,  
7           terminal regulators.   There may be other staff members  
8           at the terminus to deal with such duties.

9   MS MAGGIE WONG:   The same applies -- would travelling under  
10          the instructions of your company to another location or  
11          to attend to another driving shift be included in the  
12          rest time or meal time?

13   MR JAMES WONG:   Thank you.   The scope of our service is  
14          rather confined.   There is no need for our bus captains  
15          to travel to a different district, say for example to  
16          Kowloon, to provide services.   If your question is  
17          whether that is counted towards rest time -- well,  
18          basically, under normal circumstances there is no such  
19          duty, but should there be, it would be counted towards  
20          one's duty hours instead of rest time.

21   MS MAGGIE WONG:   If I may take you to DC bundle 1, page 71.  
22          The Chinese is at page 71, the last five lines; English  
23          at page 75, last six lines.   If I may read out --

24   CHAIRMAN:   What are you reading from, first of all?

25   MS MAGGIE WONG:   I'm sorry.   This is a submission by the

1 Islands District Council submitted to the committee in  
2 relation to this review of Hong Kong's franchised bus  
3 service.

4 CHAIRMAN: Thank you.

5 MS MAGGIE WONG: If I may read out the last five lines:

6 "... NLB's bus routes are mainly composed of  
7 mountainous routes to and from the south of Lantau  
8 Island and long-distance routes along the highways to  
9 and from the main areas, which require high level of  
10 attention in order to handle these routes, therefore,  
11 more rest time is required in order to prevent accidents  
12 caused by fatigued driving."

13 Mr Wong, just one question, about the bus routes in  
14 South Lantau. What is the approximate length or  
15 duration for each shift?

16 CHAIRMAN: Can you help me as to what you mean by "shift"?

17 Is that the completion of a route or a working shift?

18 MS MAGGIE WONG: Yes, completion of a route. Say, for  
19 example, the route 3M from Mui Wo Ferry Pier to the  
20 Tung Chung, I believe, town centre.

21 MR JAMES WONG: Thank you, Chairman. Using 3M as  
22 an example, from Tung Chung to Mui Wo or Mui Wo to  
23 Tung Chung, it takes about 30 or 40 minutes, depending  
24 on whether there are a lot of passengers getting on or  
25 off on route.

1 MS MAGGIE WONG: And what do you --

2 MR JAMES WONG: 35 to 40 instead of 30.

3 MS MAGGIE WONG: Now, it states that it requires

4 long-distance routes and requires a high level of

5 attention. Do you agree with that statement, first of

6 all?

7 MR JAMES WONG: This document was first shown to me just

8 now.

9 MS MAGGIE WONG: Oh, I apologise for that.

10 MR JAMES WONG: I don't really understand what is meant by

11 "long-distance routes along the highways to and from the

12 main areas". For Lantau Island, the scope of our

13 franchise is limited to Lantau Island. We don't go to

14 other areas, say for example urban areas. From Shenzhen

15 Bay Port, we provide a service to Yuen Long and

16 Tin Shui Wai, but they don't go to Lantau Island. So

17 I am not too sure what is meant by the district council.

18 Perhaps -- well, I will only focus on what I know

19 instead of speculating what it means. When it comes to

20 south of Lantau Island, in terms of journey time,

21 compared to the route of the other two bus companies',

22 ours are not too long. The scope of our service and the

23 road's condition is rather free from congestion. So

24 when it comes to the scheduled journey time, compared to

25 the actual journey time, it won't deviate too much.

1           For 40 minutes, compared to feeder bus services to  
2           train stations, say, for example, that of Yat Tung which  
3           takes only about several minutes, a 40-minute journey  
4           time would be longer. But when it comes to comparison  
5           with other routes, say for example from New Territories  
6           to the urban area, ours are not that long. Compared to  
7           airport routes, if you add congestion time, those would  
8           be even longer.

9           That's my view.

10       MS MAGGIE WONG: Yes, and --

11       CHAIRMAN: Ms Wong, do you have any more questions arising  
12           from this document? Because if you do, Mr Wong should  
13           have the opportunity to read it.

14       MS MAGGIE WONG: Yes, I will have a few questions.

15       CHAIRMAN: Mr Wong, take the time that you need to read  
16           these two or three pages.

17       MR JAMES WONG: (In English) Okay. Thank you.

18       CHAIRMAN: If you do that now, we will wait.

19       MS MAGGIE WONG: Maybe if you read the Chinese version.

20           It's at pages 71 to 72.

21       MR JAMES WONG: Chairman.

22       CHAIRMAN: Yes, Ms Wong.

23       MR JAMES WONG: (In English) Excuse me.

24       CHAIRMAN: Yes.

25       MR JAMES WONG: I have read the Chinese translation.

1 Perhaps there is some translation error, because in the  
2 Chinese version it says "Lantau Island buses", but they  
3 don't refer to our bus company but bus services serving  
4 Lantau Island. So it's not routes of NLB. Of course,  
5 for south island, some of the routes are ours, but when  
6 it comes to routes that ply highways, I think they are  
7 referring to Long Win Bus or Citybus.

8 MS MAGGIE WONG: Thank you. If I may refer you to  
9 paragraph 3, English at page 76, it expressed certain  
10 concerns raised by the Islands District Council about  
11 NLB's bus routes, and if I read it out:

12 "As stated in the submissions above, NLB's bus  
13 routes are mainly composed of mountainous routes to and  
14 from the south of Lantau Island and long-distance routes  
15 along the highways to and from the main areas,  
16 nevertheless currently the facilities in bus cabin and  
17 the regulation are not able to ensure the safety of  
18 passengers. For instance, taking the example of NLB  
19 route 3M that runs to and from Tung Chung and Mui Wo, I,  
20 at various times, found that the buses were [fully  
21 loaded], and even the aisles of the bus cabin were  
22 packed, for buses that run urban bus routes, other than  
23 the very front row, the very last row and seats facing  
24 backwards ... other seats are not installed with seat  
25 belts; [compared] to the regulation of the European

1 Commission, regardless of the bus type, whereby all  
2 captains and passengers must fasten their seat belts to  
3 ensure driving safety. This reflects that Hong Kong is  
4 very behind on passenger safety."

5 And we see some photographs on pages 78 and 79. May  
6 I ask what is your view on this matter?

7 MR JAMES WONG: Thank you, Chairman. I see that two points  
8 have been raised. First, in relation to the fact that  
9 no safety belts have been installed on our buses, and  
10 second, that's in relation to some photographs depicting  
11 a crowded bus compartment.

12 I will first reply to the first point -- well, to  
13 the second point, that is the bus that is packed. We do  
14 notice that in Mui Wo, during morning peak hours, for  
15 route 3M, plying to and from Tung Chung, there are more  
16 passengers compared to other times. In our previous  
17 analysis, we found that it's because there are more  
18 people going there to work in construction sites. These  
19 projects will be completed soon. Our approach is to  
20 increase bus frequency for these routes. The bus type  
21 we use is different from other companies, because there  
22 are more mountainous routes. It's been a few years that  
23 we have stopped using double-deckers, so during peak  
24 hours, given the limited capacity of a single-decker, in  
25 2017 we decided that for route 3M, we would use

1 double-decker buses, because in 2018-19 there will be  
2 population intake for their home ownership scheme flats,  
3 so we used double-decker buses in 2017 to address the  
4 problem of limited capacity during peak hours. From  
5 Mui Wo to Tung Chung, for a 40-minute journey time,  
6 well, a double-decker bus can only take so many  
7 passengers, so we have specifically procured buses that  
8 are shorter in length. We have done some road tests, to  
9 ensure that the use of double-decker buses along these  
10 routes would not be problematic.

11 In relation to the point of seat belts, currently  
12 there is no requirement that all seats are to be fitted  
13 with seat belts. So we have retrofitted seat belts for  
14 exposed seats. We keep an open mind. If there is  
15 a view that all seats should be fitted with seat belts,  
16 we will keep an open mind.

17 CHAIRMAN: Yes, Ms Wong.

18 MS MAGGIE WONG: Yes. If I may take you to the minutes,  
19 again by the Islands District Council, dated 23 October  
20 2017 -- Chinese at page 252; English at 256 -- Mr Wong,  
21 on the first page, this is the minutes of the meeting of  
22 the Islands District Council dated 23 October 2017, and  
23 we can see the persons in attendance include, if we go  
24 to page 257 and page 258, I believe your company was  
25 also present, Mr Benny Chan Tin Lung, deputy general

1 manager of New Lantau Bus Co Ltd, was present at this  
2 meeting.

3 If I may take you to paragraph 41. The Chinese is  
4 at page 254. If you may read that first.

5 If I may also invite you to read paragraph 43 as  
6 well, as to the district councillor's suggestion,  
7 Mr Eric Kwok. If you may read that first.

8 MR JAMES WONG: (In English) Okay.

9 MS MAGGIE WONG: One of the matters he raised is that:

10 "... the EU rules limited the working hours of  
11 drivers to 9 hours ... The present 14 hours of work was  
12 excessive and bus captains would be tired and prone to  
13 accident. He was concerned about the safety of Lantau  
14 buses and opined that the Guidelines of the Transport  
15 Department were inadequate. If the bus accident  
16 occurred on Tung Chung Road or Keng Shan Road of Lantau  
17 Island, the consequence would be too ghastly to  
18 contemplate. It was hoped that the Transport Department  
19 and the bus companies could handle the long driving  
20 hours of bus captains and the functionality of their  
21 buses seriously."

22 As to this suggestion, what is your view on this, or  
23 what is your company's view on this?

24 MR JAMES WONG: Sorry, it will take a while for us to read  
25 through the information.

1 CHAIRMAN: Yes. Take your time.

2 MR JAMES WONG: Thank you, Chairman. For Southern Lantau,  
3 the bus captains who are working on 14-hour duty shift,  
4 we call these special shifts. The number of bus  
5 captains on special shift is relatively small. There  
6 are just eight routes on special shift. Out of 100 or  
7 so routes, out of in fact 113 routes, eight are on  
8 special shift duty. We would ensure that the bus  
9 captains have sufficient rest time. Many of our bus  
10 captains live in that district, in Lantau. We believe  
11 that we have done our best to make sure that bus  
12 captains on special shift are not exhausted; they should  
13 have sufficient rest time.

14 And Mr Kwok referred to the EU standards. I have  
15 not looked at the standards myself. If they drive  
16 continuously for nine hours, I believe they would be  
17 very tired. For a 14-hour duty, or a duty with less  
18 hours, we have to look at the rest time and the driving  
19 time and the proportion of these different periods.

20 In Hong Kong, many people do not work in places  
21 where they live, and for the service sector -- well, for  
22 bus captains, they have to go to work earlier than the  
23 normal people because they have to take them to work,  
24 and when people get off work, bus captains have to work  
25 even later to take these people back home. So we are

1        talking about these 14-hour duties, special shift, and  
2        if you want to cut it to nine hours, the arrangement is  
3        not that simple, because you can imagine, say, during  
4        the peak morning we need the most people and during the  
5        evening peak hours we need the most people, our bus  
6        captains.

7                So we would go beyond nine hours. We just cannot  
8        simply change the 14-hour shift to a nine-hour shift.

9                Thank you.

10    MS MAGGIE WONG: Mr Wong, I'm going to move on to another  
11        topic, facilities and support to bus captains.

12                You just gave evidence that many of your bus  
13        captains live in the Lantau district; correct?

14    MR JAMES WONG: (In English) Yes, but I don't have the  
15        numbers, actual numbers.

16    MS MAGGIE WONG: Does your company provide any bus shuttle  
17        service to bus captains between their living area and  
18        their working place, for example the bus terminus?

19    MR JAMES WONG: Mr Chairman, we don't provide bus services  
20        for our colleagues. That's mainly because most of our  
21        colleagues live where they are supposed to take their  
22        buses. If they, say, live further away, we would  
23        arrange for the buses to be parked near where they live,  
24        say in the bus terminus near their homes or maybe some  
25        other appropriate locations as well. So there is no

1           need for us to provide shuttle bus service for our bus  
2           captains, to take them to work.

3   MS MAGGIE WONG:   Apart from the rest facilities at the major  
4           service hub that you mentioned in your submissions -- if  
5           you want the reference, that's at page 20 -- would  
6           toilets or break rooms be available in the proximity of  
7           your company's every bus terminal during breaks in  
8           between for bus captains?

9   MR JAMES WONG:   Thank you, Mr Chairman.   It's not the case  
10           that for every bus terminus there will be toilets and  
11           rest rooms.   We will have to look at the land titles and  
12           other issues.   We don't have the exact information on  
13           hand, but on the application -- indeed, we have applied  
14           for such facilities to be installed at bus termini, but  
15           then we have to go through many government departments  
16           which are there to supervise the procedure and it takes  
17           a lot of time for our application to be processed, and  
18           actually we failed in some of our applications.

19   MS MAGGIE WONG:   If I may refer you to your forward planning  
20           programme --

21   CHAIRMAN:   Before you do that, perhaps I could ask this:  
22           could you provide the committee with samples  
23           illustrating your applications to provide facilities, be  
24           they toilets or places to rest, and letters that  
25           illustrate, on the one hand, perhaps, success, but the

1 length of time it took, and then, on the other hand,  
2 failure, where you were refused.

3 MR JAMES WONG: (In English) Okay.

4 CHAIRMAN: Perhaps indicating, for our benefit, what is the  
5 ratio of success as against failure, and the length of  
6 time it all takes.

7 MR JAMES WONG: (In English) Okay.

8 CHAIRMAN: Thank you.

9 MS MAGGIE WONG: If I may take you to TD-1, page 241.

10 Mr Wong, this is a forward planning programme of your  
11 company, and if we cast our eye down to the bottom, it  
12 states that all terminals are facilitated with toilets,  
13 but in the cases of Yat Tung, Tin Tsz and Tin Yiu, they  
14 could only be accessible within walking distance to  
15 public toilets.

16 Can I ask you, what is the "walking distance", do  
17 you know?

18 MR JAMES WONG: Thank you, Mr Chairman. The bus termini is  
19 adjacent to a shopping centre. Say, for example, for  
20 Yat Tung, there is a shopping centre next to it, so the  
21 colleagues are asked to go inside the shopping centre.  
22 So, after the colleague has parked the bus, he goes to  
23 the shopping centre and he returns, and the whole thing,  
24 the whole process, will take around ten minutes.

25 MS MAGGIE WONG: Yes, thank you, Mr Wong, because I want to

1 ask this question. It's the new guidelines imposed in  
2 2018 by the Transport Department. If I may take you to  
3 TD bundle 4, page 1086.

4 If you can see that the new guidelines state that  
5 within six-hour duty, they should have short rest  
6 breaks, ie rest times, of less than 40 minutes:

7 "... totalling not less than 20 minutes, of which no  
8 less than 12 minutes should be within the first 4 hours  
9 of duty."

10 So my question is: can we do better, in terms of  
11 this provision of toilets, or to extend the rest time if  
12 necessary?

13 MR JAMES WONG: Thank you, Mr Chairman.

14 The counsel mentioned about the provision of  
15 facilities and whether more facilities could be  
16 provided. The company's stance is that we are more than  
17 happy to do that, because we treasure our colleagues,  
18 respect them as human beings, and if they are asked to  
19 walk a long distance to go to the toilet, I believe that  
20 those who are seated here would not like to have that  
21 kind of experience, and maybe after that, after the  
22 hearing, we will provide you with additional information  
23 on our application, that we have been refused to provide  
24 facilities. So there seems nothing much that we can do.

25 You talk about Yat Tung Estate and the shopping

1           centre. The shopping centre has been newly renovated --  
2           is being renovated, rather, and the toilet is not being  
3           put to use, so our colleagues need to go to another  
4           toilet, and this places a great impact on our  
5           colleagues; we will try our best to help them.

6   MS MAGGIE WONG: Thank you, Mr Wong.

7   CHAIRMAN: Have you made any application at your terminus at  
8           Yat Tung to provide your own toilet facility?

9   MR JAMES WONG: (In English) Yes.

10   CHAIRMAN: Was that refused? Or is that one in the waiting  
11           queue?

12   MR JAMES WONG: (In English) Yes, it should be in the queue.

13   CHAIRMAN: How long ago did you make that application?

14   MR JAMES WONG: We will provide you with the information  
15           later.

16   CHAIRMAN: Okay. Thank you.

17   MS MAGGIE WONG: Just one last question on this document.

18           If Mr Wong may refer to page 242. I apologise, it's  
19           TD-1, page 242. Again, this is the forward planning  
20           programme. It states at the top:

21           "Toilet and dining facilities are all within walking  
22           distance from the terminals, with the exception of  
23           Shenzhen Bay Port, where there is no dining facilities."

24           So may I ask what would be done to ameliorate the  
25           situation, to ensure there are sufficient facilities?

1 MR JAMES WONG: At Shenzhen Bay, that's a port, that's  
2 a boundary crossing facility. Permission was not given  
3 to us to provide a facility for colleagues to take  
4 a rest. For that particular route, it runs from  
5 Shenzhen Bay to Yuen Long or Tin Shui Wai. The current  
6 arrangement is such that colleagues have to take their  
7 meals in Yuen Long or Tin Shui Wai so as to resolve the  
8 problem. At Shenzhen Bay Port, they have toilet  
9 facilities.

10 MS MAGGIE WONG: Mr Chairman, I see the time.

11 CHAIRMAN: Yes. We will now adjourn for lunch and we will  
12 resume at 2.30 this afternoon. Thank you.

13 (1.01 pm)

14 (The luncheon adjournment)

15 (2.30 pm)

16 CHAIRMAN: Good afternoon.

17 MS MAGGIE WONG: Good afternoon.

18 CHAIRMAN: Yes, Ms Wong.

19 MS MAGGIE WONG: Thank you.

20 Mr Wong, we are going to the topic of training of  
21 bus captains. You referred in your introductory  
22 statement that in recent months you have implemented or  
23 will implement measures, including increasing the number  
24 of hours and the instructor-to-trainee ratio of driving  
25 training for your bus captains, and setting up a Bus

1 Captain Training School to assist qualified persons in  
2 obtaining bus driving licences.

3 My question is this: what is the situation on this  
4 aspect before this change?

5 MR JAMES WONG: Mr Chairman, if I may defer to Mr Lee to  
6 answer the question.

7 CHAIRMAN: Yes, Mr Lee.

8 MR RICHARD LEE: Thank you, Mr Chairman.

9 There are a number of aspects here. First of all,  
10 in the past, as far as bus captain training was  
11 concerned, for new recruits and for serving bus  
12 captains, there were different cases. For new recruits,  
13 in the past, there was a five-day training, route  
14 training, bus-type training and classroom training.  
15 Recently, for the five-year training programme, we have  
16 added an additional day, so that there will be six days.

17 Mainly speaking, for classroom training, there used  
18 to be theory during the five-day training. Now we have  
19 a whole-day classroom training. Therefore, for new  
20 recruits, currently we are giving him six days'  
21 training, five days at the wheel.

22 In the past, the instructor-to-trainee ratio was  
23 one-to-two or one-to-three, depending on the elements  
24 involved. Now we have decided that for the  
25 instructor-to-trainee ratio, it should be set at

1       one-to-two. With a one-to-two ratio, it means that the  
2       instructor will spend more time with the trainees when  
3       compared with the past.

4       And for in-service captains, there are different  
5       kinds of training. Say, for example, route  
6       familiarisation, bus-type training, supplementary  
7       training and refresher training.

8       In the past, for route training and bus-type  
9       training, both lasted for a day. Currently, we would  
10      examine the bus type involved. This is because in  
11      future most of the buses will be double-deckers, and  
12      with the introduction of the double-decker buses, we  
13      think the training should last for two to three days.  
14      This is because we want to allow the trainees to get  
15      familiar with the manoeuvring of the double-decker  
16      buses, including making a turn.

17      Then, for refresher training, we ask each and every  
18      bus captain to return to the training section or the  
19      training school to attend a class.

20      As to the establishment of a training school, we  
21      have done some preparatory work. Earlier on, we have  
22      applied to the Transport Department that we could have  
23      GP2, that is the restricted instructor licence for  
24      franchised buses. We're waiting the TD's reply. So  
25      that's the GP2. We are also trying to recruit more

1       instructors. Currently, for the instructors of the NLB,  
2       they do not possess the GP2 qualification. In other  
3       words, we have only got those with class 1, class 2, and  
4       who's been licence holders. In other words, in future,  
5       if our application is to be granted, we can become  
6       self-sufficient; we will get qualified driving  
7       instructors to help the candidates, the new recruits, to  
8       sit the bus driving licence. In other words, we can  
9       have an expanded source, instead of confining ourselves  
10      to applicants holding a class 9 and class 10 bus driving  
11      licence.

12       Of course, for the setting up of the school, we need  
13      other support measures, like parking training venue and  
14      also route training venues. If we can get the  
15      restricted licence, then for the six-day training, it  
16      will be lengthened to nine days. For those without  
17      a bus driving licence, for those with a private car  
18      licence only, we are providing 18 days' training. For  
19      the number of trained hours, currently we have a mere  
20      six days. In future, there will be a much larger number  
21      of training hours.

22   MS MAGGIE WONG: If I may take you to bundle NLB-2,  
23       page 467. It is a table setting out the bus captain --  
24       annex 10, setting out the Bus Captain Training schedule.  
25       Section A is the regular training for newly recruited

1 bus captain; section B is the regular training for  
2 serving bus captains.

3 Can I firstly ask, is this the old training or the  
4 new measures as you have just told us?

5 MR RICHARD LEE: The previous arrangement.

6 MS MAGGIE WONG: So this is the old training?

7 MR RICHARD LEE: Correct.

8 MS MAGGIE WONG: Can you tell us who provided this training,  
9 as you have told us that the training school was not  
10 established yet.

11 MR RICHARD LEE: You are correct. We are preparing for the  
12 establishment. Our driving instructors are giving the  
13 training.

14 MS MAGGIE WONG: And if you look at section A, "Induction  
15 Training", below "Classroom lectures on company rules",  
16 there is "accident black spot analysis"; do you see  
17 that?

18 MR RICHARD LEE: Yes, I see it.

19 MS MAGGIE WONG: "Classroom lectures on company rules,  
20 passenger safety, accident black spot analysis ..."

21 Can you tell us what this is, or what empirical data  
22 did you compile to make this accident black spot  
23 analysis?

24 MR RICHARD LEE: To us here, first of all, case studies from  
25 previous instructors, like the black spots for accidents

1 along South Lantau Road, and then other than relying on  
2 the experience-sharing of instructors, we would also  
3 look at the locations where there were traffic  
4 accidents. We shared with the trainees as to the cause  
5 of the accident and ways to prevent an accident.

6 In addition to classroom lectures, during the  
7 driving training session, the instructor would also make  
8 explanations about ways to prevent accidents at the  
9 bends and they have the defensive training.

10 MR JAMES WONG: Ms Wong, Mr Chairman, if I may add to the  
11 answer. Just now, you talked about preparing for the  
12 establishment of the training school and you want to  
13 know how we are training the new recruits today. I just  
14 want to add to Mr Lee's point.

15 Mr Lee was talking about how we could do it when we  
16 have the new school so that those who don't have a bus  
17 driving licence, that is those only having a private car  
18 licence or a goods van licence but they want to become  
19 a bus captain of franchised buses, when we get the  
20 approval from the TD to set up the school, then we can  
21 help such drivers to sit for the bus driving licence  
22 exam. So that's the difference. Other franchised bus  
23 companies have already got such an arrangement, that is  
24 they help drivers who haven't got a bus driving licence  
25 to take the exam.

1 I just want to add this point. For our regular  
2 training, that is whether we have got the training  
3 school or not, we have already got the capability to  
4 train up our drivers.

5 Thank you.

6 CHAIRMAN: How many people work in your current training  
7 regime?

8 MR RICHARD LEE: Four, four driving instructors who are  
9 providing the training.

10 CHAIRMAN: And the future training school, how many people  
11 is it envisaged will work in that?

12 MR RICHARD LEE: Recently, we have applied for a licence  
13 from the TD, and the quota will be six.

14 CHAIRMAN: Six driving instructors?

15 MR RICHARD LEE: Correct.

16 CHAIRMAN: Thank you.

17 MS MAGGIE WONG: Thank you, Mr Lee, for your explanation.

18 About this accident black spot analysis, is there  
19 a copy that you can provide to us about the analysis  
20 that your company has carried out?

21 MR RICHARD LEE: Well, in addition to what we have said --  
22 well, in fact, we can give you a report. During the  
23 course of training, we have printed some handbooks or  
24 leaflets. There are ten units. The first five are  
25 about safe driving, and for the other five, that's about

1 quality service. Then, for the second unit among the  
2 first five, it is about the major causes of traffic  
3 accidents, among which we talk about slippery roads, wet  
4 weather, the health condition of the drivers, the  
5 vehicle features, as well as the design of the roads.  
6 On such basis, we talk about the cause of accidents.

7 MS MAGGIE WONG: You talk about the design of the roads.

8 Where did you get information concerning this design of  
9 the roads and which parts of the roads would be selected  
10 for your analysis?

11 MR RICHARD LEE: We rely on the suggestions of the  
12 instructors, like the hilly roads of South Lantau, they  
13 have alerted us to the bends that we need to pay  
14 attention, the gradients; the usual one is 1 to 6 and  
15 then a motorist has to pay attention at certain points  
16 for such steep-hill roads then when making a turn, what  
17 is needed to make it a safe driver.

18 MS MAGGIE WONG: Mr Lee, may I also refer you to another  
19 document, which is the forward planning programme, at TD  
20 bundle 1, page 237.

21 If you can cast your eye to paragraph (g). This is  
22 your company's forward planning programme, which states  
23 that your company --

24 CHAIRMAN: Am I right in recalling that this was June 2017?

25 MS MAGGIE WONG: Yes, this was June 2017.

1           Your company states that it:

2           "... may seek to cooperate with fellow franchised  
3           bus operators to achieve the above, by sending bus  
4           captains to the training programmes offered by other  
5           operators, subject to mutual acceptance and  
6           cooperation."

7           Have you liaised with fellow franchised bus  
8           operators on this matter with.

9   MR TIMOTHY WONG:   Mr Chairman, at the level of the driving  
10           school, for us to get somebody who's experienced, it is  
11           very difficult in this trade.   Mr Lee joined the NLB  
12           earlier this year.   In year 2017, in addition to relying  
13           on our own instructors who are experienced instructors,  
14           we have also asked an institute to help us with smart  
15           driving.   At that time, we didn't have very qualified or  
16           professional instructors, so we tried to get input from  
17           a third party.   That's why we have got this institute to  
18           help us, and in fact every driver has one such  
19           opportunity.   It was done in 2017.   Mr Lee joined us in  
20           2018.   He had over 20 years' experience in training.   So  
21           we have become more sort of positive in trying to get  
22           from the TD an instruction licence, so as to get six  
23           instructors to do this.

24           So what we want to do is to be more positive, more  
25           active, to make use of our resources internally to

1           enhance our training. I was talking about the Institute  
2           of Advanced Motorists.

3   CHAIRMAN: When you say that every driver had an opportunity  
4           in this respect, what was that opportunity?

5   MR TIMOTHY WONG: Thank you, Chairman. The opportunity to  
6           take part in the smart driving programme offered by the  
7           Institute of Advanced Motorists Hong Kong, IAM. So it's  
8           about awareness, mainly about the driving attitude, and  
9           talking about the different road conditions and they try  
10          to give lectures to help our instructors. Sorry.

11   CHAIRMAN: Is this a classroom source, or classroom plus  
12          road?

13   MR TIMOTHY WONG: (In English) It's on road.

14   CHAIRMAN: And how long, duration?

15   MR TIMOTHY WONG: (In English) Three hours.

16   CHAIRMAN: Is this opportunity offered to instructors or to  
17          all your bus captains?

18   MR TIMOTHY WONG: (In English) So there are two types of  
19          classes. The first part will be instructor to drivers,  
20          which is driving behaviour, and also there will be  
21          classes offered by IAM -- I'll be telling you the full  
22          name in a moment -- so IAM could provide a trainer  
23          course, we also call it an instructor course, back in  
24          2017; early 2017, about 20 of our experienced drivers  
25          actually had an instructor course. And for NLB, we have

1 four instructors, as Richard was saying.

2 CHAIRMAN: Thank you.

3 MS MAGGIE WONG: If I may take you to bundle TD-1 -- it's  
4 still the forward planning programme -- at page 239,  
5 paragraph (c). I understand this is back in 2017, and  
6 the proposal is to have a:

7 "Regular review of bus drivers' performance [and to  
8 encourage them] to register for driving enhancement  
9 programmes, which NLB would be prepared to reimburse,  
10 subject to prior approval."

11 About this, has this been overtaken by your recent  
12 measures about setting up of training school and  
13 training courses, or is this still in place?

14 MR TIMOTHY WONG: As we have mentioned before, last year we  
15 used a partnership with IAM. At the beginning of this  
16 year, we have recruited Mr Lee. As a result, the  
17 training school will replace paragraph (c).

18 MS MAGGIE WONG: I come to another topic, and that would be  
19 on the topography of Southern Lantau.

20 Can I take you to a document by the Islands District  
21 Council minutes of meeting on 19 March 2018. The  
22 Chinese is at DC bundle 1, page 264; English at  
23 page 272. And I think Mr Benny Chan on behalf of your  
24 company was also present, if you can see at page 265 in  
25 Chinese and English at 273.

1           May I summarise some of the points raised in these  
2           minutes? The first issue they raised is whether it is  
3           safe to use double-decker bus in Southern Lantau. That  
4           would be at paragraph 30; Chinese at 266, English at  
5           275.

6           Can I trouble you to read paragraphs 30, 35 and 36,  
7           so three paragraphs first.

8           Paragraph 30 raised concerns about using  
9           double-decker buses to serve on route 3M. Paragraph 30  
10          is by Ms Sherman Choi. She is the senior transportation  
11          officer of Islands, and she said that:

12          "... the Transport Department has conducted two  
13          on-site tests ... with the police, Lantau Bus and the  
14          bus manufacturer, in November 2016 in Tung Chung Road  
15          section and in November 2016 on the entire route 3M ..."

16          Can I confirm that has been done, the two road tests  
17          have been done?

18   MR JAMES WONG: Chairman, I can confirm that the two site  
19          tests have been done.

20   MS MAGGIE WONG: Are the two tests in writing?

21   MR BENNY CHAN: At that time, we require manufacturer of  
22          buses to furnish us with a report.

23   MS MAGGIE WONG: If we look at --

24   CHAIRMAN: Did they do so? Did they furnish you with  
25          a report, the bus manufacturer?

1 MR BENNY CHAN: We have the report. We can give you the  
2 report after today's hearing.

3 CHAIRMAN: Which bus manufacturer was this?

4 MR BENNY CHAN: For the one in November 2016, it's MAN. The  
5 second one, June 2017, it's ADL.

6 CHAIRMAN: Alexander Dennis?

7 MR BENNY CHAN: That's right.

8 CHAIRMAN: Thank you.

9 MS MAGGIE WONG: If we look at paragraphs 35 and 36, by  
10 Mr Fan Chi Ping, he was one of the committee members,  
11 and he expressed that one should not simply use sand  
12 bags during simulation tests as in actual situation,  
13 because the passengers are not evenly distributed and  
14 they may concentrate on one side. And he urged to  
15 conduct another test and in bad weather condition.

16 If I may also take you to another paragraph, just to  
17 complete this. It's at paragraph 44(b) [sic], in which  
18 I believe Mr Chan, Benny Chan, provided a reply, at  
19 40(b).

20 CHAIRMAN: 40 or 44?

21 MS MAGGIE WONG: 40(b). I apologise for that. Your reply  
22 is set out at paragraph 40(b):

23 "During the two above mentioned road tests, the said  
24 company acted in accordance with the Transport  
25 Department's requirement to place metal boards, each

1        assuming the standard person weight ... to simulate the  
2        situation that the vehicle is fully loaded."

3            And if we go on to look at paragraph 44, by Mr Randy  
4        Yu, one of the committee members:

5            "He suggested that before official commencement of  
6        service of the double-deck buses in end of June, the  
7        department and the Lantau Bus should arrange two  
8        double-deck buses of the same model type to conduct  
9        another on-site test, especially for the turn in Silver  
10       Mine Bay? All stakeholders, including district council  
11       members, the committee members, the rural committees and  
12       village representative(s), to monitor the entire process  
13       and make improvement suggestions."

14           Lastly, paragraph 51, in which Ms Sherman Choi on  
15       behalf of the Transport Department:

16           "... replied that as to arrangement for another road  
17       test, the department will make appropriate follow-up  
18       with the Lantau Bus after the meeting, and committee  
19       members who are interested can participate."

20           If we turn over the page:

21           "... [as to] the suggestion that the road test shall  
22       be conducted under bad weather condition ... [the  
23       department said it] needs to coordinate with [other]  
24       departments ... But the department understood the  
25       relevant proposal and will try to arrange. [They]

1       understood the committee's concern about the use of  
2       double-deck buses to serve on route 3M, and will  
3       continue to keep in close contact with the bus company  
4       to strengthen the safety of the bus service."

5           May I ask, has this road test been carried out after  
6       the meeting?

7   MR BENNY CHAN:   Chairman, that bus was newly procured.   The  
8       first one was delivered today to Hong Kong.   There are  
9       some formalities to be done, say for example to get  
10      a registration mark as well as vehicle examination.  
11      After we have completed the formalities we will liaise  
12      with the district council to arrange for the road test.

13   MS MAGGIE WONG:   And if that test is carried out, would you  
14      be able to provide a test report to the committee as  
15      well?

16   MR BENNY CHAN:   Of course.

17   MS MAGGIE WONG:   In this meeting, they also raised a second  
18      matter.

19   CHAIRMAN:   Before you move on -- do you have in mind a time  
20      frame during which this test is likely to be conducted?

21   MR BENNY CHAN:   I think it is in about one month's time.

22   CHAIRMAN:   Thank you.

23   MS MAGGIE WONG:   The second matter I raise is about the  
24      installation of a tilting alarm system.   If you look at  
25      paragraph 32, Chinese at page 266, English at 275.

1           If you read paragraph 32, Mr Kwong suggested about  
2     installing:

3           "... a tilting alarm system within the bus  
4     compartment, when the bus tilt angle reaches tipping  
5     point, the alarm will be triggered to remind the bus  
6     captain. On the basis island that most roads on Lantau  
7     Island are narrow with lots of turns, he suggested the  
8     bus company to consider installing the same."

9           We also see the Transport Department's response at  
10    paragraph 38(b). Ms Sherman Choi stated:

11          "The department understood the proposal to install  
12    tilting alarm within the bus compartments, and will  
13    research for its feasibility with Lantau Bus."

14          So has this tilting alarm system been explored by  
15    your company?

16   MR JAMES WONG: Chairman, I will hand over to Mr Yeung.

17   CHAIRMAN: Yes, Mr Yeung.

18   MR PATRICK YEUNG: Thank you.

19          Chairman, in relation to this system, we have been  
20    having meetings with the Transport Department. We  
21    propose that all new double-decker buses will be  
22    installed with ESP system. There are two functions.  
23    One is to stop over-steering and to improve the  
24    steering. The other one is anti-tilting. Before the  
25    critical point is reached, the speed of the vehicle will

1 be reduced to maintain stability of the vehicle.

2 In relation to the alarm system, if necessary we can  
3 ask the supplier to add that function.

4 We have this concern about the alarm. It may  
5 disturb the bus captain. Say, for example, it's  
6 an alarm for speeding and there is another alarm for  
7 door opening and closing. With too many alarms in  
8 place, it may disturb the bus captain. So instead of  
9 installing another alarm system, we aim to enhance the  
10 stability of the vehicle itself.

11 MS MAGGIE WONG: Thank you. The third matter --

12 CHAIRMAN: Before you move on -- you say that before the  
13 critical point is reached, the speed of the vehicle will  
14 be reduced. How is that achieved?

15 MR PATRICK YEUNG: We make use of two devices. The  
16 injection to the engine will be reduced, and there is  
17 also a retarder, speed retarder, to reduce the speed of  
18 the vehicle.

19 In relation to the monitoring of the speed, we have  
20 a sensor. The sensor is installed on the chassis, right  
21 in the middle of the chassis. The function is to detect  
22 lateral speeding and calculation of centrifugal force,  
23 so that it will have the function of stabilising the  
24 vehicle before it reaches a critical point.

25 CHAIRMAN: So there are two aspects: one is fuel injection

1 is reduced. Is that a reference to diesel or whatever  
2 the fuel is?

3 MR PATRICK YEUNG: (In English) Correct.

4 (Via interpreter) Yes.

5 CHAIRMAN: Reduce but not cut off?

6 MR PATRICK YEUNG: Well it's from reduction to halting of  
7 injection, depending on the speed of the vehicle. On  
8 top of that, there is also the retarder which will  
9 reduce the speed of the vehicle.

10 CHAIRMAN: The retarder, does that involve the use of lower  
11 gears and/or brakes, or both?

12 MR PATRICK YEUNG: Both.

13 CHAIRMAN: Thank you.

14 MS MAGGIE WONG: The third matter the Islands District  
15 Council members raised is the topography of Southern  
16 Lantau. They raised the fact that there are many turns  
17 and speed roads, particularly the turns in Silver Mine  
18 Bay are very rapid, and they mentioned a problem that  
19 even single-deck buses have to give way to each other  
20 for there to be enough room to pass through, and there  
21 is no parking bay installed.

22 If I may invite you to read a number of paragraphs.  
23 It's 34(a), first of all, and then 45(a), stating that  
24 that particular road requires bus drivers:

25 "... to be equipped with experience and driving

1 techniques and shall be on high alerts in order to  
2 handle the roads ... especially the Silvermine Bay turn,  
3 because the slightest mistake can cause accident."

4 And at paragraph 52 --

5 CHAIRMAN: Before you move on, could you identify the status  
6 of the person making the observation?

7 MS MAGGIE WONG: He is Mr Wong Fuk Kan. I believe he is  
8 also a member -- yes, he is also a committee member of  
9 the Islands District Council, at page 272.

10 CHAIRMAN: Thank you.

11 MS MAGGIE WONG: If we can go to paragraph 48, that's the  
12 vice-chairman, Mr Cheung Fu, also mentioned this  
13 problem. He mentioned that:

14 "... the biggest problem came from the roads and not  
15 the buses, therefore the priority is to improve the  
16 turns of the roads."

17 And stating that there is simply not enough room to  
18 fit two buses to pass through at the same time,  
19 "especially the rapid turn of Silvermine Bay".

20 May I ask you your views on this matter: is this  
21 a problem that caused concern to your company?

22 CHAIRMAN: By that you mean the roads themselves are the  
23 problem?

24 MS MAGGIE WONG: First of all, the roads themselves, and  
25 secondly, some of the members expressed that it required

1 highly skilled drivers to drive that particular road.

2 CHAIRMAN: So there are two questions there.

3 MS MAGGIE WONG: There are two questions.

4 CHAIRMAN: And the first question is: what view, if any, do  
5 you have about the observation about the roads being the  
6 problem?

7 MR JAMES WONG: Thank you, Mr Chairman. First, I would like  
8 to take this opportunity, and actually at various  
9 occasions, including the meeting of the district council  
10 as cited by the paper. We understand that there have  
11 been road accidents in Hong Kong giving rise to worries  
12 about safety of double-deckers. But I must remind all  
13 of us here that for the road now, buses are already  
14 operating on that road. It's not the case that the  
15 roads are not used by the buses. So that's number one.

16 We don't have the plan to have double-deckers  
17 running the entire area of Southern Lantau. Our  
18 judgment is that, say, in places like Ngong Ping,  
19 Tai O -- well, for these places, they are not suited to  
20 the -- not suitable for double-deckers' operation. But  
21 in Mui Wo, double-deckers are suitable.

22 We have finished the tendering exercise and we have  
23 decided to procure a certain model of double-decker.  
24 Those of us who are here will understand that, say, for  
25 Hong Kong Island, there are also hilly terrains,

1 including, say, Stanley, The Peak, Shek O, et cetera,  
2 and these double-deckers also run in these places as  
3 well.

4 So the car model that we are going to procure will  
5 have a shorter length than single-deckers. It's  
6 10.4 metres in length. For single-deckers, their length  
7 is between 11 metres to 11.5 metres or 11.6 metres. So  
8 it is shorter in length compared to the single-deckers.

9 Of course, we understand that there is this  
10 perception that double-deckers are more prone to  
11 overturning. Theoretically speaking, that may be so.  
12 But then we think what matters most is the driver's  
13 driving attitude.

14 Of course, single-deckers will have less risk of  
15 overturning than double-deckers, but does it mean that  
16 for all hilly roads double-deckers should not be used?  
17 No, that should not be the case.

18 So we think what matters most is the driver's  
19 attitude, and in terms of the hardware, we also have to  
20 consider what can be done. This time, we decided to  
21 procure a shorter double-decker. In the market, there  
22 are longer double-deckers, but we opted for a shorter  
23 double-decker which also comes with a lesser height, and  
24 we believe that given that this is the model and coupled  
25 with the appropriate training to be provided to bus

1           captains, the risk can be lowered.

2           Thank you, Mr Chairman.

3   CHAIRMAN:   What do you mean, Mr Wong, when you say, "What  
4           matters most is the driver's driving attitude"?

5   MR JAMES WONG:   Thank you, Mr Chairman.

6           We have a traditional way of doing things here.   For  
7           every bus, we need a bus captain to operate the bus, and  
8           after all he is a human being.   It's not like rail or  
9           an aircraft.   There are so many automated processes in  
10          place.   There are automated devices to help the pilots  
11          and, say, the drivers of trains.

12          In buses, as you mentioned, our chairman of the  
13          company is my father and we have been operating in the  
14          transport business for three generations.   We started  
15          the business with my grandpa, and they used to say that  
16          vehicles in the old days were not as advanced as  
17          today's.   Maybe I was not born when, say, the old  
18          vehicles were being used.   But we deeply believe that  
19          the most important thing to ensure safety -- of course,  
20          it will be good that we have technology to help us, but  
21          what matters most is the driver's attitude.   He must be  
22          professional.   He must have the mindset that he should  
23          drive very safely.   This is the core value that we  
24          embrace.

25   CHAIRMAN:   Thank you.

1 MS MAGGIE WONG: You mentioned earlier that the double-deck  
2 buses, in terms of length and height, are less than the  
3 normal single-deck buses. For completeness, actually,  
4 your Mr Chan did say that in the minutes at  
5 paragraph 40(a) at page 278, for the committee's  
6 reference.

7 CHAIRMAN: They were less in length than singles, but surely  
8 not less in height?

9 MS MAGGIE WONG: Not less in height but --

10 CHAIRMAN: But shorter.

11 MR JAMES WONG: (In English) But the height is less than  
12 those normal double-deckers.

13 CHAIRMAN: Yes.

14 MS MAGGIE WONG: There is another minute I would like to  
15 refer you to. This is based on an accident that  
16 happened on 6 April 2015, when a bus of your company  
17 nearly fell off the hill when it was travelling down  
18 a slope on its way from Tung Chung to Tai O.

19 Do you remember this incident? We can show you the  
20 news article, if it may assist you.

21 That's the Keng Shan Road.

22 CHAIRMAN: What is the source of this material?

23 MS MAGGIE WONG: This is from the Oriental Daily News, and  
24 that would be on 30 May 2015.

25 CHAIRMAN: Thank you.

1 MS MAGGIE WONG: Would you mind taking a look at the  
2 article, or do you recall this accident happening on  
3 6 April 2015?

4 CHAIRMAN: And where is this to be found in the materials,  
5 the bundles?

6 MS MAGGIE WONG: Chairman, this is not found in the  
7 bundle but it is on the website link. We have provided  
8 a translation for your ease of reference.

9 MR JAMES WONG: Mr Chairman, I just read this article. It  
10 mentions that there is an accident which happened  
11 42 years ago, and there was another accident which  
12 happened 12 years ago, and it didn't mention about the  
13 accident happening in April 2015.

14 Well, I can remember this particular photo. For  
15 these three accidents, they came with different causes.  
16 For the accident 42 years ago, the road condition back  
17 then was very different from today's.

18 I, of course, could not confirm the situation on the  
19 road 42 years ago, but as far as what I've heard, the  
20 road situation has improved a lot today.

21 CHAIRMAN: Take your time to read the material before you  
22 answer.

23 MR JAMES WONG: (In English) Yes.

24 (Via interpreter) It mentioned an accident in 2003.  
25 We have to go back and look for the information, because

1 we are not sure about the location of the accident, and  
2 also how it happened.

3 For the accident in 2015, it was not mentioned in  
4 this article at all. But the photo that was shown and  
5 the vehicle is stranded there -- yes, that's the one --  
6 I remember that this happened in 2015. For this  
7 accident, fortunately, no one was seriously injured;  
8 there was no injury or death. Some passengers sustained  
9 minor injuries and had to be sent to the hospital. This  
10 photo looks rather appalling. The front part of the bus  
11 actually landed on a piece of land. After the incident,  
12 we tried to conduct a review on how we could improve on  
13 things. We have to check into the details further.

14 We looked into a speed limiter, so we just don't  
15 count on the braking system. Because we are talking  
16 about a downward slope, so we are looking into the  
17 possibility of adopting a retarder. So in future,  
18 whether we are using a double-decker or -- right now,  
19 for the single-deckers, they are retrofitted with  
20 retarders.

21 MS MAGGIE WONG: Thank you.

22 CHAIRMAN: Before you move on, do I understand you to say  
23 that the photograph of the bus that we can see displayed  
24 on the screen now is, as you remember it, a photograph  
25 of the 2015 April 6 accident; is that correct?

1 MR JAMES WONG: (In English) Yes.

2 (Via interpreter) Correct.

3 CHAIRMAN: But the article itself doesn't give any  
4 description of that accident; it's just a photograph?

5 MR JAMES WONG: Correct. The article doesn't mention about  
6 this particular accident. Maybe it's not reported by  
7 this article here.

8 CHAIRMAN: Do you have any report, Ms Wong, of the 6 April  
9 2015 accident for Mr Wong to remind himself about the  
10 details?

11 MS MAGGIE WONG: Chairman, I think this matter was discussed  
12 at the minutes of meeting on 18 May 2015 by the Islands  
13 District Council; Chinese at page 203, English at  
14 page 208.

15 This was in response to a question raised at  
16 page 201, in Chinese, and page 202 in English,  
17 a question raised by district council member Mr Randy Yu  
18 in relation to the safety of North Lantau Highway.

19 CHAIRMAN: So we should start with the question --

20 MS MAGGIE WONG: We should start with the question.

21 CHAIRMAN: Page 201 in the Chinese and 202 in the  
22 translation.

23 MS MAGGIE WONG: Correct.

24 CHAIRMAN: Take a moment to familiarise yourself with that,  
25 Mr Wong.

1 MS MAGGIE WONG: Mr Wong, if you look at page 204, I believe  
2 your company's representative, Mr Wong Wah, was present.  
3 In English, it's at page 209. And the committee members  
4 in the Islands District Council on 18 May 2015 identify  
5 three main issues.

6 First, they mentioned the road design. That's at  
7 paragraph 79(c) by Mr Lou Cheuk Wing. He is also  
8 a committee member. He identified that the road design  
9 on Lantau Island is not safe, such as the South  
10 Lantau Road and the Keng Shan Road between the reservoir  
11 and Tai O, and it states that the Transport Department  
12 had conducted several improvement construction and that  
13 there are more than ten turns but only three received  
14 improvements.

15 The second problem is at paragraph 79(d):

16 "The Transport Department approved 30 tour buses to  
17 operate on Lantau Island, but the vehicle body of these  
18 tour buses are relatively longer than regular buses and  
19 when driving through substandard turns on  
20 Keng Shan Road, accidents will be caused more easily."

21 The third is at paragraph 81, by Ms Lee Kwai Chun.  
22 She's also a committee member, and she identified that  
23 the request to expand the road, South Lantau Road, for  
24 more than 20 years, but still the situation had not  
25 improved.

1 And in relation to the first issue, I believe  
2 Mr Wong Wah of your company have enquired about the  
3 exact location of the three improvement spots, and if we  
4 can go to paragraph 90:

5 "Mr Wong Wah enquired about the exact location of  
6 the 3 improvement spots to be carried out. He was of  
7 the opinion that the entire Keng Shan Road has about 30  
8 spots that needed improvements."

9 My question is, did your company identify those 30  
10 spots to the Transport Department?

11 MR JAMES WONG: Mr Chairman, at this moment, we cannot be  
12 sure as to whether we have formally taken up the matter  
13 with the TD in the form of correspondence in writing,  
14 that is asking the TD to tell us which locations will  
15 get improvements.

16 For Mr Wong Wah, who was at this district council  
17 meeting, he is not present today and has also retired.  
18 I'm afraid I have to go back to check the information to  
19 see what has transpired between ourselves and the TD.

20 CHAIRMAN: Yes, please do so, and if you are able to obtain  
21 anything which casts light on this, please provide it to  
22 the committee.

23 MR JAMES WONG: (In English) Yes, sure.

24 MS MAGGIE WONG: In your provision of information, I wonder  
25 if you could also assist by telling us whether these 30

1 spots are within the accident black spot analysis in  
2 your training programme that you are going to provide to  
3 your bus captains.

4 MR JAMES WONG: Mr Chairman, at this moment, as to the 30  
5 locations -- I think it's roughly 30 spots -- for those  
6 30 spots requiring improvements mentioned by  
7 Mr Wong Wah, at this moment we are not sure of the  
8 locations, so offhand it is impossible for us to tell  
9 whether they are the same as those covered in our  
10 training programme where we need to enhance the  
11 training. I'm sorry, I'm afraid I have to go back to  
12 check and clarify, that is those 30 spots mentioned by  
13 Mr Wong Wah.

14 CHAIRMAN: Thank you. Please do so.

15 MS MAGGIE WONG: The next topic I'm going to go to is the  
16 illegal parking problem, and if I may take you to  
17 miscellaneous bundle 2, page 63 in Chinese, and the  
18 translation at 644-1.

19 If you can look at this page, the third paragraph,  
20 at page 644-1. This is a letter from the Democratic  
21 Alliance provided to the committee, a matter brought to  
22 the attention of the committee. It begins with the  
23 words:

24 "The industry actions of bus captains that took  
25 place in February 2017 and 2018 aroused the ...

1 different sectors of the community over problems such as  
2 illegal parking at bus stops, bus captains' treatment  
3 and working hours."

4 They identified a number of reasons for illegal  
5 parking, and if we go over to page 644, English at  
6 644-1, it states:

7 "To eradicate illegal parking at bus stops, it must  
8 be dealt with from its roots and by formulating suitable  
9 policies, revising the outdated laws. The problem can  
10 only be resolved by multipronged measures."

11 Then one of the suggestions --

12 CHAIRMAN: Before you move on, where do we find that in the  
13 translation?

14 MS MAGGIE WONG: Page 644 at the bottom, 644-1, the last  
15 four paragraphs.

16 CHAIRMAN: The final paragraph?

17 MS MAGGIE WONG: The final paragraph.

18 Then over the page at 644-2, they made one  
19 suggestion:

20 "Following Singapore and installing cameras on all  
21 bus fleets. Singapore has since 2008 installed cameras  
22 on buses and the cameras are installed next to the  
23 driver's seats. When drivers discover cars parking  
24 inside the bus stop, they can press the button and  
25 record a video of 5-10 minutes. The bus companies will

1        then hand the recording to the police ... the police can  
2        review the recording ... in around two weeks' time the  
3        ticket will be sent to the car owner's home", et cetera.

4            Before we go further into this, does the company  
5        regard illegal parking at bus stops as a problem?

6    MR JAMES WONG:    Yes.    Thank you, Mr Chairman.

7            Well, in the case of the NLB, all the time we have  
8        been talking about the roads in South Lantau.    You need  
9        a closed road permit before you can drive in South  
10       Lantau.    So when compared with the case downtown, we  
11       have less traffic.    For the information received by us  
12       from the colleagues, as far as illegal parking at bus  
13       stops, we don't have as many instances.    Currently, this  
14       is the case.    But then in individual cases, say for  
15       example at the bus terminus at Tai O, recent years have  
16       seen a lot of construction works going on, and at the  
17       bus terminus, where we set down and pick up passengers,  
18       space is limited.    Sometimes there may be vehicles  
19       nearby, especially on festive days.    Well, in fact, they  
20       don't have enough private parking spaces.    We do have  
21       this scenario to a lesser degree, but when compared to  
22       the urban area, the problem isn't as bad.

23            Thank you.

24    MS MAGGIE WONG:    The reason why I raise this is because the  
25       minutes of meeting, again from the Islands District

1 Council on 21 March 2016, if you go to page 98 in  
2 Chinese.

3 CHAIRMAN: Of which bundle?

4 MS MAGGIE WONG: DC bundle 1, page 98 in Chinese,  
5 paragraphs 143 to 144, and in English, page 103-1. So  
6 paragraphs 143 and 144.

7 Both concerns were raised by the committee member,  
8 and they talked about the illegal parking problem or the  
9 double parking observed at Tat Tung Road. I wonder  
10 if -- what is your comment on the problems raised by  
11 these two district councillors?

12 MR JAMES WONG: Mr Chairman, if I may defer to Mr Chan,  
13 thank you.

14 CHAIRMAN: Yes, Mr Chan.

15 MR BENNY CHAN: Mr Chairman, well, for us to operate bus  
16 service in Tung Chung, we have seen that for Tat  
17 Tung Road, the traffic situation there is quite bad. We  
18 have only got a single direction for traffic and  
19 a single lane.

20 For the points raised by the district council  
21 members, of course we are talking about the town centre  
22 of Tung Chung, and whenever there is the congestion, the  
23 entire Tung Chung will be blocked, and for our bus  
24 operation, it creates a difficulty. This is because our  
25 bus stop is at Tat Tung Road, and then it is sometimes

1           difficult for buses to depart from the bus terminus.

2           I think it is a problem for the community as  
3           a whole, and in fact this is a problem that is known to  
4           the district council for quite a long time.

5   CHAIRMAN: Are you saying that the problem for your buses,  
6           in that they find it difficult to leave from the bus  
7           terminus, is directly because of illegal parking, or is  
8           caused indirectly by traffic caused by illegal parking  
9           elsewhere?

10   MR BENNY CHAN: Indirectly affected. As I have said, for  
11           this particular road, it is very busy. It is in the  
12           town centre of Tung Chung. Whenever there is double  
13           parking or whenever there is a traffic accident, then  
14           the town centre of Tung Chung will suffer from  
15           congestion.

16   CHAIRMAN: Thank you.

17   MS MAGGIE WONG: Are you aware that the police suggested to  
18           the Transport Department and LegCo that cameras should  
19           be used at black spots, fixed at the lamppost, to record  
20           this illegal parking at the bus terminus, and that could  
21           be the source of the evidence? Do you know about that?

22   MR JAMES WONG: Thank you, Mr Chairman.

23           Yes, I have heard about such a suggestion in the  
24           news reporting.

25   MS MAGGIE WONG: Do you welcome such an idea?

1 MR JAMES WONG: From the standpoint of the company,  
2 of course we very much welcome any means that can  
3 resolve the problem of roadside illegal parking.

4 MS MAGGIE WONG: I'm going to another topic. It's about  
5 disciplining of bus captains. If I may take you to  
6 NLB-1, page 23.

7 Your company states that bus captains involved in  
8 serious accidents will be suspended from driving duty.

9 May I ask how long will they be suspended?

10 MR JAMES WONG: Thank you, Mr Chairman.

11 I think page 13 of the same document -- well,  
12 I think the page following the one shown on the  
13 screen -- I think we have explained. You can refer to  
14 item 3. If it is so unfortunate that there is a very  
15 serious accident, we have to spend time to carry out  
16 an investigation, to find out whether our colleague is  
17 to be blamed or whether it is not his responsibility.  
18 During that period of time, we may very well be  
19 suspending his driving duty. He's still being paid,  
20 because first of all we want to find out about the  
21 facts. In the past, there were cases in which something  
22 very unfortunate happened and the bus captain himself  
23 also asked for a break; he would like to take a rest.  
24 So suspension pending investigation is of assistance.

25 MS MAGGIE WONG: Thank you. If I may take you to page 23.

1 It also makes reference to bus captains who are  
2 suspected to suffer from mental -- who require mental  
3 attention. Can you tell us how are these bus captains  
4 identified, those who require mental attention?

5 MR JAMES WONG: Thank you, Chairman.

6 Well, I won't say that today we have any mechanism  
7 to investigate into bus captains who are suspected from  
8 having some mental problems, because it would take  
9 professionals to be qualified to give such views. As to  
10 how we find those who are in such need, we will have to  
11 wait for our colleagues to approach us, because it's not  
12 something physical. If they need more attention, they  
13 need someone to talk to, our company has engaged  
14 an outside company to work with us. Colleagues may call  
15 that company to receive professional help.

16 MS MAGGIE WONG: You have made reference in this paragraph  
17 to counselling service. Would this counselling service  
18 be provided by your company and paid for by your  
19 company?

20 MR JAMES WONG: Thank you.

21 At this moment of time, we have provided a hotline  
22 for our colleagues. If our colleagues think there is  
23 a need, they may call a consultant service hotline.  
24 After talking to their operator, because some screening  
25 may be required, if that consultant is of the view that

1 counselling service may be needed, the case will be  
2 referred to more professional organisations. All these  
3 are paid for by our company. Our employees don't have  
4 to pay.

5 MS MAGGIE WONG: Would you like to introduce a system for  
6 regular assessment of whether a driver is mentally and  
7 emotional fit to continue to be a bus captain?

8 MR JAMES WONG: Thank you.

9 After the hearing with Citybus, I noticed that they  
10 are looking into it, to see if it's suitable. I have  
11 some friends who are psychologists. I would like first  
12 to find out how to help them, from a professional point  
13 of view. Well, we don't -- even for a psychologist,  
14 it's not easy for them to tell us who is suitable to be  
15 a bus captain. However, after conducting psychological  
16 assessment, the psychologist may be able to tell us what  
17 further assistance or support is required by  
18 a particular bus captain, and we can start to help from  
19 that point.

20 It's not an across-the-board approach where, like  
21 a medical checkup, a doctor can tell you whether someone  
22 is fit to drive or not. Everything I have said just now  
23 is something that I have learned from my friends. We  
24 are aware that sometimes our colleagues are under  
25 pressure because they deal with many different people

1 every day. We do need to provide different channels for  
2 our colleagues to vent or to talk. We will look further  
3 into it. Is it helpful to have some psychological  
4 assessment before they join us? Is it necessary to have  
5 regular assessment? Do we need random checks? I can't  
6 say because we don't have much information at this point  
7 of time. I can't give you a concrete answer. I will  
8 have to look further into it.

9 MS MAGGIE WONG: I am going to the topic of remuneration and  
10 welfare. If I may invite you to look at two pages of  
11 your submission, NLB-1, page 17 and page 21.

12 At page 17, the second paragraph from the bottom,  
13 your company states:

14 "To enhance job attractiveness and retain existing  
15 bus captain, apart from wages and welfare package  
16 adjustment ..."

17 If I may invite you to look at page 21, which sets  
18 out the remuneration packages. Are they before or after  
19 the adjustment?

20 MR JAMES WONG: The adjustment you just referred to, when  
21 was it? Which adjustment?

22 MS MAGGIE WONG: I'm just referring to your company's  
23 submission at page 17, the second paragraph from the  
24 bottom, line 3. You make reference to "wages and  
25 welfare package adjustment" and --

1 CHAIRMAN: Could you read out the sentence?

2 MS MAGGIE WONG: Yes:

3 "To enhance job attractiveness and retain existing  
4 bus captain, apart from wages and welfare package  
5 adjustment, our company is developing some measures,  
6 include but not limited to the following items of  
7 enhancing their job satisfaction".

8 So it is this word "adjustment" I'm referring to.

9 MR JAMES WONG: Thank you.

10 In relation to that table, it's July 2017. We  
11 haven't done the adjustment this year. Just now,  
12 Ms Wong mentioned about an adjustment. You find  
13 a number of measures following the paragraph she just  
14 read out. Apart from take-home pay, we have introduced  
15 some enhancements. So that's what it was about. And  
16 for that table, it's from July 2017 to now. We are  
17 preparing for the adjustment for 2018. We are still  
18 looking into it, about the rate of increase.

19 MS MAGGIE WONG: When will this rate of increase be  
20 determined for 2018?

21 MR JAMES WONG: Thank you.

22 Under normal circumstances, there will be a pay rise  
23 on 1 July. This year, at the beginning of April, we  
24 announced that there will be a one-off special bonus.  
25 It is because we noticed that the two other bus

1 operators in the market, in around February or March,  
2 I think it was March, they have changed the pay  
3 structure of their employees. We are concerned that if  
4 we wait until July to have the pay rise, there will be  
5 a huge gap.

6 That's why, in April, we announced the one-off  
7 arrangement. The bonus will be released in September.  
8 In relation to the wage adjustment in 2018, just like we  
9 have done before, we are talking to the labour union and  
10 we are also looking at the company's situation.

11 There is actually an indicator for our reference.  
12 The scale of our company is the smallest, so we will  
13 draw reference from the two major operators in the  
14 market, in order to gauge the rate of increase, because  
15 their wage adjustment will be of reference to us.

16 Today is 19 June. We hope that in around July or  
17 August we will be able to do that. If it's after July,  
18 then it will have a retrospective effect.

19 MS MAGGIE WONG: Would you be able to provide us with  
20 an updated table after the review has been carried out  
21 in 2018?

22 MR JAMES WONG: Yes, of course.

23 MS MAGGIE WONG: Thank you.

24 Now, if we look at the table, we can see that the  
25 remuneration package, a significant part of the driver's

1           monthly pay appears to derive from per-day duty  
2           allowance, that is item 2. Do you agree?

3   MR JAMES WONG: Yes.

4   MS MAGGIE WONG: How many days a month would a driver be  
5           typically required to work?

6   MR JAMES WONG: Thank you.

7           On average, it's 24 to 25 days.

8   MS MAGGIE WONG: So a rough calculation would be 5,500-odd,  
9           if it is a 24 days' duty allowance. So if the driver  
10          was sick, would that mean he would not get that  
11          allowance?

12   MR JAMES WONG: Right. You are referring to duty allowance,  
13          item 2?

14   MS MAGGIE WONG: Yes, correct.

15   MR JAMES WONG: If on that day the bus captain is not  
16          working, absent from work, there won't be any duty  
17          allowance.

18   MS MAGGIE WONG: So let's quote an example. If he was sick  
19          for three days, he would lose about \$700-odd; is that  
20          correct? About \$700, assuming it's \$230.

21   MR JAMES WONG: Thank you.

22           Yes, I confirm. Assuming that a colleague has been  
23          sick for three days and not reported duty, he would not  
24          be given the duty allowance.

25   MS MAGGIE WONG: What about the attendance bonus at item 4,

1           which is given on a monthly basis --

2   CHAIRMAN: Before you move on, is the duty allowance that is  
3           lost, the \$230 for each of the days that he doesn't  
4           work, or does he lose an overall package of duty  
5           allowance?

6   MR JAMES WONG: If you're referring to the duty allowance,  
7           it's on a daily basis. It's counted on a daily basis.  
8           Say, for example, if that person -- well, there are 25  
9           working days, then it's \$230 times 25 for that month.  
10          For whatever reason, if that person has worked less than  
11          that number of days, then we will times 230 by the  
12          number of days he has worked.

13   CHAIRMAN: So if he doesn't work one of the 25 days, then he  
14          only loses one day's \$230 daily duty allowance?

15   MR JAMES WONG: If you're talking about duty allowance, yes.

16   CHAIRMAN: Thank you.

17   MS MAGGIE WONG: What about the attendance bonus, \$750,  
18          awarded on a monthly basis? If he was sick for three  
19          days, would that be deducted pro rata?

20   MR JAMES WONG: Thank you, Chairman.

21           When it comes to the attendance bonus, in Chinese  
22          it's (Chinese spoken). It's given to the employee on  
23          a monthly basis. If the colleague has missed work, for  
24          the first day there will be a deduction of 200; second  
25          day, 250; the third day, 300, and so on, and so forth.

1           So if that person has missed work for three days,  
2           that means the \$750 will not be given to that person.  
3           That means if that person has not come to work for three  
4           days, the attendance bonus will not be given. If it's  
5           just one day of work, then what's missed is \$200.

6   MS MAGGIE WONG: So, if my calculation is correct, if the  
7           bus captain is sick for three days, then he would in  
8           total lose 1,500? Is that an accurate calculation? 750  
9           plus 750?

10   MR JAMES WONG: Sorry, I confirm that. If the colleague has  
11           not turned up for work for three days, just like what  
12           was said, \$690 deduction from the duty allowance --  
13           well, not deduction but that will not be paid, and  
14           another \$750 under attendance bonus will not be paid to  
15           that colleague.

16   CHAIRMAN: Mr Auyeung has a question.

17   MEMBER AUYEUNG: Am I right to assume then that both duty  
18           allowance and attendance bonus is having the same  
19           objective; it's to encourage the employee to report to  
20           work?

21   MR JAMES WONG: Thank you, Mr Auyeung.

22           In response to your question, like you said, when we  
23           set the duty allowance, the objective is to encourage  
24           colleagues to work hard, and for the attendance bonus,  
25           it has undergone some changes, just like the safety

1       bonus. Maybe I have to check into old records to come  
2       up with a more exact picture. It used to be, say, once  
3       every year or twice every year, but colleagues told us  
4       that they had to wait for too long if this is  
5       distributed, say, once or twice a year. Later, it was  
6       changed to a quarterly disbursement. Now, it's  
7       a monthly disbursement.

8               Indeed, the aim is to encourage colleagues to work  
9       hard. So the objectives of the two allowances are  
10      similar.

11   MEMBER AU YEUNG: Thank you.

12   CHAIRMAN: So the answer was "yes", in the short form?

13   MR JAMES WONG: (In English) Yes.

14   CHAIRMAN: Ms Wong.

15   MS MAGGIE WONG: This is not the only bonus that  
16      incentivises workers to allowance. If we look at item  
17      6, "Rest day work allowance", the worker or the bus  
18      captain will be awarded \$625 per working day if they  
19      work on a rest day; is that correct?

20   MR JAMES WONG: Correct.

21               Maybe I can give you the rationale behind. I would  
22      like to use the best words to describe this. As I said,  
23      our chairman, Mr Wong, has been working in the transport  
24      sector for many, many years, and he had some practical  
25      thoughts. When the grass-roots and frontline workers

1 would like to work on a rest day, this \$625 is  
2 an additional amount. They should already have the duty  
3 allowance, and then another \$625 would be given to them.

4 Say for this colleague, maybe he should be working  
5 25 days and then he would like to work on the 26th day  
6 as well, so he's sacrificing his rest time to work, so  
7 if we are not going to give him the rest day work  
8 allowance, indeed, it is easy for the colleagues to find  
9 some part-time driving duties outside, say driving  
10 lorries and taxis, et cetera. So instead of having them  
11 doing that, we would be giving them a good return to our  
12 colleagues, if they work for us.

13 Like we said, compared to other bus companies, we  
14 are offering an extra five days' leave, and honestly  
15 speaking, we allow the colleagues to choose to take  
16 leave or not. So sometimes a colleague would not like  
17 to take leave; they would opt to work. So, in other  
18 words, it's an increase in the pay for the colleague, in  
19 effect.

20 CHAIRMAN: Prof Lo.

21 MEMBER LO: For the rest day, is it by invitation or can the  
22 bus captain invite himself to work on a rest day? For  
23 example, he's one day sick and wants to make up the  
24 loss, can he, say, work 27 days?

25 MR JAMES WONG: Thank you, Professor.

1           If, say, the colleague would have one less day on  
2       rest day, he would like to drive, we would have to look  
3       at when he applied for that. Say, for example, he said,  
4       "Tomorrow I have an appointment with a friend", but  
5       then, "The friend would not like to meet with me", then  
6       all of a sudden he said, "I have nothing better to do  
7       tomorrow so I will work tomorrow", so we will look at  
8       whether there is an actual need for him to work  
9       tomorrow. Normally, that application will be declined  
10      because it is a sudden request, because we have the duty  
11      roster drawn up in advance.

12           Then we would also be looking at the guidelines  
13      issued by the Transport Department and also we will be  
14      mindful of the actual circumstances, whether he is  
15      exceeding the duty hours, et cetera. So all these will  
16      be looked into.

17   MS MAGGIE WONG: So would this structure of pay provide  
18      incentive for the driver to work longer hours or working  
19      even if he was sick?

20   MR JAMES WONG: Now, first, when you mentioned he was sick,  
21      does it mean he's seriously ill or he's not fit for  
22      driving, or he is still fit to drive, although he  
23      suffers from minor illness? Our system is that if the  
24      colleague has some minor illnesses -- well, we would  
25      actually look at the extent or the degree of sickness.

1 If he is not fit to drive, then even if he doesn't want  
2 to take the rest day he shouldn't be driving.

3 Also, our core belief is that the more you work, the  
4 more return you will get. This is very much a servicing  
5 industry, and for the newly joined bus captains, they  
6 think it's a complicated system and we have to spend  
7 efforts to make the calculations for the colleague. But  
8 what we want to do most is for colleagues who are  
9 dedicated and hard-working, they will be given the pay  
10 they deserve. That's our aim.

11 MS MAGGIE WONG: Moving on to another topic. It's about  
12 passengers' behaviour. We have heard other bus  
13 operators, that their bus captains have experienced  
14 problems of passenger behaviour. Do you or does your  
15 company receive similar complaints?

16 MR JAMES WONG: Chairman, I would like to defer to  
17 Mr Timothy Wong to take that.

18 CHAIRMAN: Yes, Mr Wong.

19 MR TIMOTHY WONG: James has said that we provide localised  
20 services, relatively speaking. Routes are centred  
21 around Southern Lantau and Tung Chung, and for the  
22 passengers, they are normally the local residents, and  
23 our colleagues and bus captains our regulators will meet  
24 with the passengers every day, so we receive relatively  
25 fewer complaints.

1 Another source of our passengers is tourists.

2 Tourists' intention really is to sight-see Hong Kong, so  
3 there are fewer disputes involving tourists. And for  
4 the regulators, the problems that they encounter mostly  
5 have to do with whether passengers can carry luggages on  
6 board, and also if people go into Lantau, when they are  
7 carrying surfing boards and bicycles, et cetera. The  
8 regulators will also tell the passengers if they are too  
9 bulky, they should not be carried on board.

10 If there are luggage racks on board, then we will  
11 assist the passengers to take them on board. So we  
12 experience fewer disputes.

13 MS MAGGIE WONG: We note that earlier we have seen one of  
14 the bus safety features adapted in NLB buses include  
15 CCTV at driver console with video-record function. Does  
16 this camera include or have audio facility?

17 CHAIRMAN: Firstly, can you take us to where this dealt with  
18 in the written submission?

19 MS MAGGIE WONG: Yes, the submission is at page 20,  
20 Mr Chairman.

21 CHAIRMAN: Thank you.

22 MS MAGGIE WONG: And the bus safety features is at page 453  
23 of the NLB-2 bundle.

24 CHAIRMAN: And page 20, would you read out the relevant  
25 passage?

1 MS MAGGIE WONG: Yes:

2 "In-bus [CCTV] video may also be retrieved in  
3 real-time to monitor the bus captain or passenger  
4 situation in restricted to emergency and security  
5 purpose."

6 CHAIRMAN: And page 453 of NLB-2.

7 MS MAGGIE WONG: Yes, page 453, NLB-2, item 16.

8 Does this CCTV system or cameras have audio  
9 facility?

10 MR TIMOTHY WONG: Well, let me explain what kind of cameras  
11 we have. We have two types of buses. One is  
12 single-deckers, the other is double-deckers.

13 Let's talk about double-deckers first. For the  
14 newly procured double-deckers, they come with CCTV  
15 functions. Your question just now is about audio  
16 recording. The audio function -- the CCTV with audio  
17 function will be placed on top of the bus captain, and  
18 for existing single-deckers, for the time being, no CCTV  
19 has been installed. If we are to retrofit such CCTV  
20 cameras, it takes a long time, and this system will  
21 involve recurring costs as well. We have to pay monthly  
22 fees.

23 Given our existing financial burden, we don't have  
24 plan to retrofit every bus with CCTVs, but for new  
25 buses, we will actively look into retrofitting CCTVs.

1 MS MAGGIE WONG: You just mentioned that the CCTV with audio  
2 function will be placed on top of the bus captain. What  
3 is the purpose of that?

4 MR TIMOTHY WONG: The audio function is mainly to help, say,  
5 if there are passengers making complaints and then, say,  
6 at our customer service hotline we receive calls about  
7 disputes with the bus captain, we will retrieve the  
8 relevant information to look into the real situation.  
9 We would not on our own initiative retrieve such files.

10 MS MAGGIE WONG: So it is reactive to complaints rather than  
11 on a random checking purpose?

12 MR TIMOTHY WONG: Correct.

13 MS MAGGIE WONG: The next topic is the design of buses and  
14 safety devices and if I may invite you to go to NLB-2  
15 bundle at page 2.

16 The franchise agreement starts at page 2. If we go  
17 to page 5, clause 7.

18 CHAIRMAN: Sorry, which bundle is this?

19 MS MAGGIE WONG: This is the NLB-2 bundle.

20 Could you familiarise yourself with the provisions  
21 of clause 7(1) at page 5.

22 It makes reference to the grantee providing, amongst  
23 other things:

24 "... such safety or service enhancement facilities,  
25 installation, fixtures, fittings, [et cetera] ...

1 apparatus or equipment on its buses as may be reasonably  
2 required by the commissioner of transport after  
3 consultation with the grantee."

4 So, in other words, the Commissioner for Transport  
5 can reasonably require your company to install service  
6 enhancement facilities from time to time?

7 MR JAMES WONG: Correct.

8 MS MAGGIE WONG: Do you have any discussions recently with  
9 the government about service enhancement facilities?

10 MR BENNY CHAN: Mr Chairman, I want to say this. When we  
11 discussed with the Transport Department on the new  
12 franchise, the Transport Department has asked us to  
13 provide certain facilities, and recently, in our  
14 meetings with the Transport Department, we discussed  
15 safety devices to be installed on buses. We had  
16 discussed those with the Transport Department.

17 CHAIRMAN: When was that?

18 MR JAMES WONG: For the new franchise, that came into effect  
19 in 2017. We had to look into the exact date. We  
20 started discussing with the Transport Department towards  
21 the end of 2015/early 2016, and we discussed what  
22 enhancement should be made under the new franchise.

23 Mr Chan referred to our discussions with the  
24 Transport Department on safety devices and there was  
25 a meeting. The meeting was held several months ago. In

1 fact, we held two meetings in the past several months,  
2 and going forward we will have a third meeting.

3 CHAIRMAN: And when were these meetings?

4 MR PATRICK YEUNG: Mr Chairman, if I may add to the answer.

5 There should have been three such meetings. After the  
6 IRC has been established, there was this second working  
7 group, on 27 March, 30 May and 12 June respectively.

8 CHAIRMAN: And these were meetings at which the franchised  
9 bus operators, bus manufacturers and the Transport  
10 Department attended; is that correct?

11 MR PATRICK YEUNG: Correct.

12 CHAIRMAN: Thank you.

13 MS MAGGIE WONG: You refer to the discussions about the  
14 safety devices. What safety devices were discussed with  
15 the Transport Department at these three meetings?

16 CHAIRMAN: Perhaps we could leave you with that question for  
17 the moment because I think it's appropriate we take  
18 a short break now, because we are going to sit until at  
19 least 5.30, but I think, given the imposition placed on  
20 you, that we give you a break. So we will take ten  
21 minutes now. Thank you.

22 Ten minutes.

23 (4.32 pm)

24 (A short adjournment)

25 (4.41 pm)

1 CHAIRMAN: Yes, Ms Wong.

2 MS MAGGIE WONG: Just a while ago, Mr Wong, we have provided  
3 you with the TD bundle 1, page 98.

4 CHAIRMAN: What is this document?

5 MS MAGGIE WONG: This is the paper of the Transport  
6 Department, TD\_Paper\_07, with the title, "Vehicle  
7 safety -- design, build, examination and inspection of  
8 franchised buses". It started at page 81. I'm focusing  
9 on page 98, as to the safety devices of franchised  
10 buses.

11 CHAIRMAN: Thank you.

12 MS MAGGIE WONG: Yes, Mr Wong, you have had an opportunity  
13 to read, in particular, paragraph 10?

14 MR JAMES WONG: Yes, I read it.

15 MS MAGGIE WONG: Are these the safety devices that you  
16 discussed with the Transport Department in its three  
17 meetings?

18 MR JAMES WONG: Yes. At those three safety-related  
19 meetings, we had a discussion of the above-mentioned  
20 safety devices.

21 MS MAGGIE WONG: I would like to focus your attention to  
22 three particular safety devices. First is the  
23 geo-fencing at (c), "Speed control by GPS or  
24 geo-fencing".

25 Can you give your views or feedbacks regarding the

1 Transport Department's suggestion of implementing  
2 a geo-fencing system, ie a speed limiter that uses a GPS  
3 system to limit the speed of buses at specific road  
4 sections?

5 MR TIMOTHY WONG: Mr Chairman, for us to discuss the GPS  
6 system, I think we need to talk about the background of  
7 the black box. As early as 2015 and 2016, when we had  
8 a negotiation about the new franchise, we identified  
9 a new supplier of black box. As Mr Chan has already  
10 said, GPS is nothing new. However, as far as operators  
11 are concerned, we have to bear in mind the frame point  
12 to the long-term. For the data collected by GPS as well  
13 as the black box, we have to transmit the raw data to  
14 the server of the company.

15 Between 2012 and 2015, at that time there was  
16 another black box supplier for our company. Many  
17 suppliers in the market provide the maintenance on  
18 a recurrent basis in the form of a monthly cost. For  
19 our long-term development, in 2016 we acquired the black  
20 box. Of course the black box has got important  
21 functions. At that time, under the new franchise  
22 agreement, we had to provide the ETA function. We  
23 looked at two suppliers and we chose our current  
24 supplier, called Openmatics. For the GPS of this  
25 supplier as well as the raw data produced, they can be

1 uploaded onto our server.

2 For geo-fencing, for this to be used to monitor the  
3 speed or to control the speed, we are open-minded. We  
4 hope in the future we can develop a way so that on  
5 specific road sections we can control the speed.

6 So when compared with other operators, I believe  
7 that we stand a higher chance to do this. This is  
8 because we have fewer interferences for the road  
9 sections on Lantau. I think for our black box system,  
10 I think it would be easier for us to send the GPS data  
11 correctly to our server.

12 What is important is that for the real-time  
13 transmission of the data from the GPS, and for it to  
14 interface with the computer on board, it takes time to  
15 develop the arrangement. This is because currently the  
16 black box is directly connected to the bus cam. For  
17 this to be done, however, we have to cooperate with the  
18 bus manufacturer.

19 Of course we welcome the new direction, but as far  
20 as NLB's IT department is concerned, the scale is such  
21 that probably it will take it more time to have it  
22 researched and done, but we certainly welcome such  
23 a move.

24 MS MAGGIE WONG: Now, since we are on the black box, may  
25 I refer you to your submissions at NLB-1, page 14, first

1 of all. The second-last paragraph, you stated:

2 "Through our in-house information technology team,  
3 we planned to develop an exceptional report system of  
4 using 'on-bus' black box data log to generate reports  
5 actively to spot any bus captain with potential hazard  
6 of their driving habit."

7 If I also take you to page 20 of your submission,  
8 second-last paragraph:

9 "As per commencement of 2nd generation black box  
10 system in late 2017, it provides lowest level of raw  
11 data of its data log. Additional application such as  
12 generation of exceptional report of vehicle speed at  
13 certain location is not included. We are now developing  
14 our in-house software to provide such information for  
15 bus captain performance monitoring purpose. At present,  
16 we will check and consolidate the raw data from data log  
17 manually upon traffic incident and passenger complaint  
18 investigation."

19 Now, do I understand this to suggest at the moment  
20 your company does not have an over-speed exceptional  
21 report generated automatically?

22 MR TIMOTHY WONG: At this point of time, no. When we were  
23 writing this document, we have considered introducing  
24 the exceptional report function in relation to speeding.

25 MS MAGGIE WONG: If I may also take you to NLB-1, page 33,

1 the first box on the right. In response to the  
2 committee's further questions, you provided  
3 supplementary information, and you stated:

4 "Refer to our existing black box system, it can  
5 record multiple bus operations information, which  
6 includes geographical location, speed, orientation,  
7 gear, door, bell push, [et cetera] by every second. To  
8 record and manipulate all these large number of data, it  
9 is require heavy capital investment of data  
10 transmission, data storage system and sophisticated  
11 software to do so."

12 Now, it made reference to this "heavy capital  
13 investment". May I ask if your company is prepared to  
14 invest on this system, as you stated there?

15 MR JAMES WONG: Thank you.

16 When it comes to our finances, out of the bus  
17 operators, our company is of the smallest scale. When  
18 it comes to development of softwares or new systems, the  
19 cost involved, whether it is one bus or 1,000 buses, the  
20 development cost will not differ much. The major  
21 difference is hardware on board our buses. In our work  
22 to continuously strengthen our input in this regard, say  
23 for example what Tim has said, generation of exceptional  
24 report, we are willing to make such investments.

25 But you must understand that if we calculate the

1 cost per bus, our cost will be much higher than other  
2 operators.

3 MR TIMOTHY WONG: I would like to add that our current  
4 investment is on mainly two areas. First, hardware.  
5 Black boxes on board buses, and the transmission of  
6 black box data to our server. When it comes to  
7 software, as we have said, we buy black box for our  
8 back-end system software development, there is a fee.  
9 In the new franchise, we are required to provide ETA;  
10 there is a development fee. Every month, the upload  
11 fees or transmission fee of bus data, all these are  
12 development cost, and there is also manpower required to  
13 maintain this system.

14 Just now we said that the black box is able to  
15 record information by every second. Currently, our  
16 system will upload the information once every 30  
17 seconds. If it's changed to every second, the fees and  
18 the server size will have to be enhanced. That is what  
19 we mean by capital investment. It's mainly the software  
20 development fee.

21 MS MAGGIE WONG: Mr Wong, you made reference to the  
22 development of this software. When would you expect  
23 your company --

24 CHAIRMAN: Before you get involved in that, perhaps I could  
25 ask this.

1           You say there are two elements of cost. One is the  
2           black box and the other is software. Do I understand  
3           you correctly?

4   MR TIMOTHY WONG: (In English) Yes, correct.

5   CHAIRMAN: What is the cost of a black box, in ballpark  
6           figures?

7   MR TIMOTHY WONG: (In English) When we first purchased it in  
8           2016, per unit, it's EUR800 per unit, which is  
9           approximately HK\$8,000-something back in 2016 and --

10   CHAIRMAN: Do I take it the black box side of the cost isn't  
11           the significant cost?

12   MR TIMOTHY WONG: (In English) Significant.

13   CHAIRMAN: You say it is significant?

14   MR TIMOTHY WONG: (In English) It is significant, yes.

15   CHAIRMAN: Right. What about software?

16   MR TIMOTHY WONG: (In English) Software, at the moment we  
17           have three headcounts maintaining this programme.  
18           Actually, the ETA apps and system we developed back in  
19           2016 up till now, total cost around HK\$1 million, and  
20           there's another issue that I would like to raise up, the  
21           installation cost, installation cost of the black box,  
22           because it requires skilful professional technician to  
23           install this black box. It requires connection with the  
24           supplier, who are teams from Czech Republic.

25   CHAIRMAN: This is Openmatics?

1 MR TIMOTHY WONG: (In English) Openmatics, yes, in Czech  
2 Republic.

3 Back in 2016, when we have not acquired our in-house  
4 technician, per bus, installation per bus, it's up to  
5 HK\$4,000 per bus.

6 CHAIRMAN: Up to?

7 MR TIMOTHY WONG: (In English) Up to. It depends on the  
8 amount of buses that we can provide for the company to  
9 install black boxes.

10 CHAIRMAN: You were dealing with software and you said there  
11 are three accounts. You dealt with installation of the  
12 ETA requirement. What about the other accounts?

13 MR TIMOTHY WONG: (In English) Sorry, Chairman, do you mean  
14 the other headcounts for IT department, or do you mean  
15 the installation?

16 CHAIRMAN: No, the other accounts, as you called them.

17 MR TIMOTHY WONG: (In English) Oh, headcounts.

18 CHAIRMAN: As in head?

19 MR TIMOTHY WONG: (In English) As in number of employees,  
20 sorry. So we need three --

21 CHAIRMAN: Who are the other two?

22 MR TIMOTHY WONG: (In English) A total number of three  
23 persons have been deployed to develop the programme.  
24 I'm sorry.

25 CHAIRMAN: So the cost is three people; is that it? That's

1           what "headcounts" means?

2       MR TIMOTHY WONG:   (In English) Yes, exactly.

3       CHAIRMAN:   Thank you.

4           Ms Wong.

5       MS MAGGIE WONG:   You earlier stated that your company  
6           planned to develop this exceptional report system to  
7           generate reports, to spot bus captains' potential hazard  
8           behaviour.

9           When would you expect this to be done?

10      MR TIMOTHY WONG:   (In English) 2018, quarter 3 -- sorry,  
11           quarter 4 of 2018.

12      MS MAGGIE WONG:   So later this year?

13      MR TIMOTHY WONG:   (In English) Yes.

14      CHAIRMAN:   That will be an exceptional over-speed report,  
15           4th quarter 2018?

16      MR TIMOTHY WONG:   (In English) That's correct.

17      MS MAGGIE WONG:   We've heard other bus companies setting the  
18           criteria at speeds of over 5 kilometres per hour for  
19           every road section with certain speed limit, say over  
20           55 kilometres per hour for ten consecutive seconds, for  
21           road sections with speed limit of 50 kilometres per  
22           hour. We have heard a bus operator using this criteria.

23           Can you tell us what criteria your company would be  
24           using for these Openmatics generated reports?

25      MR TIMOTHY WONG:   (In English) We have to confirm the

1 criteria. We will be negotiating with our labour union  
2 to come up with a final decision, but we will take the  
3 other operator as a consideration as well.

4 MS MAGGIE WONG: And whether your company would consider  
5 this real-time capability to be concerned only with the  
6 matter of speed, or would you take into account other  
7 faults of the driver, for example sudden braking,  
8 excessive acceleration, that sort of thing; would that  
9 be picked up?

10 MR TIMOTHY WONG: (In English) At the moment, we consider  
11 speeding as a priority for the exceptional report, but  
12 we could also look at hard braking, harsh turn. Yeah,  
13 we will need to study further. Thank you.

14 MS MAGGIE WONG: Would you also consider giving real-time  
15 information or monitoring alerts to the particular bus  
16 driver when that occurs?

17 MR TIMOTHY WONG: (In English) Again, we will consider and  
18 we will need to speak to our labour union to discuss  
19 whether this will affect the driving -- it might affect  
20 the attention of the drivers, if there are too many  
21 alerts.

22 MS MAGGIE WONG: Thank you. If we go back to your  
23 submissions at page 14.

24 CHAIRMAN: Just before you do that, this exceptional  
25 over-speed report, which is the one that is planned to

1           be introduced in the 4th quarter of 2018, is that one  
2           that is intended to be done real-time, or is this  
3           something that will be generated subsequently?

4   MR TIMOTHY WONG:   (In English) Real-time.

5   CHAIRMAN:   And the system, as I understand it to be in  
6           place, is an upload every 30 seconds from a bus; do  
7           I understand you correctly?

8   MR TIMOTHY WONG:   (In English) Currently, yes, but we are  
9           hoping to upload data from the black box per second in  
10          the coming future.

11   CHAIRMAN:   Yes, and you indicated that there was a cost  
12          attached to doing it every second?

13   MR TIMOTHY WONG:   (In English) Yes.

14   CHAIRMAN:   What is that cost?

15   MR TIMOTHY WONG:   (In English) The network fee, so it  
16          requires more gigabytes to upload data every second. At  
17          the moment it's being uploaded every 30 seconds because  
18          all the data have been zipped and been uploaded to our  
19          server, so it requires less gigabytes to do it every 30  
20          seconds rather than every second.

21   CHAIRMAN:   Do you have a ballpark figure for the extra cost?

22   MR TIMOTHY WONG:   (In English) Not right now, sorry.

23   CHAIRMAN:   Nothing at all? No range?

24   MR TIMOTHY WONG:   (In English) Around HK\$100 per bus.

25   CHAIRMAN:   Per what?

1 MR TIMOTHY WONG: (In English) Per black box.

2 CHAIRMAN: Thank you.

3 MEMBER LO: Per month?

4 MR TIMOTHY WONG: (In English) Per month, yes.

5 MS MAGGIE WONG: Thank you.

6 CHAIRMAN: I'm sorry, before you move on, have you discussed  
7 these issues of cost with the Transport Department?

8 MR JAMES WONG: I don't think we did, no.

9 CHAIRMAN: Because we've looked at the list of the devices  
10 that the special group, the Transport Department  
11 convened I think in March this year where there have  
12 been three meetings. One thing that is missing from the  
13 six items that have been discussed is the black boxes or  
14 Openmatics devices. Am I correct?

15 MR TIMOTHY WONG: (In English) It's not on the agenda but  
16 I suppose all bus operators have installed black box on  
17 it.

18 CHAIRMAN: But it's not on the agenda -- has it been  
19 discussed?

20 MR TIMOTHY WONG: (In English) I think they discussed about  
21 the black box indirectly, relating to geo-fencing.

22 CHAIRMAN: And who set this agenda, if that's what one can  
23 call it?

24 MR TIMOTHY WONG: (In English) The Transport Department.

25 CHAIRMAN: Thank you.

1 Yes, Ms Wong.

2 MS MAGGIE WONG: If we look at your NLB submission at  
3 page 14, it's the third paragraph from the top, the last  
4 sentence:

5 "At present, a random selected 50 trips of black box  
6 data will be retrieved every month and this random check  
7 report will [be sent] to TD for their record."

8 And this was put in place in March 2018. Can  
9 I first of all ask -- it talks about selecting 50 routes  
10 at random -- who selects these routes?

11 MR JAMES WONG: Our company. It's 50 trips.

12 MS MAGGIE WONG: What is the criteria for selecting these 50  
13 trips?

14 MR JAMES WONG: It's random. It's at random.

15 MS MAGGIE WONG: And what, if anything, would be checked by  
16 your company in this report? For example, speeding, or  
17 any information you can provide us?

18 MR BILLY WONG: Chairman, in our second submission, in the  
19 last page, you will find a table in relation to black  
20 box data that we checked.

21 MS MAGGIE WONG: That's page 487 of NLB-2 bundle.

22 MR BILLY WONG: Yes, it's the one shown on the screen, this  
23 report. As per the request of the TD, we have randomly  
24 checked 50 trips of black box data. We will look at the  
25 speed, whether there is any hard braking and any

1 abnormal driving behaviour. In this report, we only  
2 report a number we have -- a number of normal behaviour  
3 and abnormal behaviour.

4 In relation to more detail, say location, time, what  
5 happened, that is the raw data, they are not required in  
6 this report.

7 Thank you.

8 CHAIRMAN: How do you define "hard braking"?

9 MR BILLY WONG: Our information shows that if the G force  
10 reaches 0.2, then there is serious hard braking. So  
11 that we count as hard braking.

12 CHAIRMAN: Is that one of the requirements in the 2003  
13 Transport Department requirements in respect of black  
14 box, 0.2G?

15 MR BILLY WONG: Yes, that is correct. The guidelines  
16 mention that, say, if there are accidents, then we have  
17 to provide data on G force.

18 CHAIRMAN: Abnormal driving behaviour is monitored in these  
19 50 random trip checks?

20 MR BILLY WONG: Mr Chairman, the black box will also record  
21 the topographical location of the buses, the X/Y axis,  
22 et cetera. So we can look at the geographical location  
23 and the orientation that the bus is supposed to be in,  
24 and then we can compare that against the actual  
25 situation. If these two do not match, then that means

1 the buses are taking the wrong route or taking the wrong  
2 timing, then that means the bus drivers or bus captains  
3 are, you know, having abnormal behaviour.

4 CHAIRMAN: When you refer to X/Y axis, do you mean latitude  
5 and longitude?

6 MR BILLY WONG: Yes, correct.

7 CHAIRMAN: And the orientation, is that the magnetic  
8 direction of the bus?

9 MR BILLY WONG: Yes, correct.

10 CHAIRMAN: Thank you.

11 Yes, Ms Wong.

12 MS MAGGIE WONG: If I may take you to your forward planning  
13 programme submitted by your company at TD bundle 1,  
14 page 236 to 237. 236 is at the bottom.

15 We can see that there is a "Plan for automation of  
16 monitoring bus captain driving behaviour through data  
17 captured in black boxes or similar devices."

18 It mentioned about retrieval of data that requires  
19 special analysis, and if we go to page 237 at the top:

20 "Analysis results could be put forward for  
21 prevention studies to avoid accidents of similar  
22 nature."

23 Has your company carried out any prevention studies  
24 or any reports of that nature?

25 MR JAMES WONG: Can we look at the previous page?

1 MS MAGGIE WONG: Yes, it is at page 236.

2 MR JAMES WONG: Thank you, Mr Chairman.

3 When we drew up the five-year plan, we did have such  
4 a plan, but as of today we haven't been able to deliver  
5 the plan. At this moment in time, we haven't worked on  
6 it. As we said, we have hope that by the end of this  
7 year we could strengthen work in that area.

8 MS MAGGIE WONG: If I could go back to the TD bundle at  
9 page 198 -- I have finished the topic on the black box.

10 CHAIRMAN: Before we move away from the black boxes, may  
11 I ask that NLB-1, page 33, be put up on the screen.  
12 It's that top box on the right-hand side. You speak  
13 there about the existing black box system. You speak  
14 about the recording and manipulation of the data. and  
15 the "heavy capital investment of data transmission, data  
16 storage system and sophisticated software".

17 Then you say this:

18 "At the time being ..."

19 I think it perhaps means this: "At the moment, it  
20 is not a mandatory requirement for franchised bus  
21 operators to perform real-time bus captain performance  
22 monitoring by black box system ..."

23 I take it that's a reference to the 2003, 15 years  
24 old, requirement of the Transport Department.

25 Am I correct?

1 MR JAMES WONG: Yes, correct. That was the 2003 standards.

2 CHAIRMAN: And the position being taken is that this is not  
3 a requirement of the Transport Department, so am I right  
4 to interpret this as, "And therefore we have a choice as  
5 to what we do"?

6 MR JAMES WONG: Mr Chairman, my colleague has mentioned  
7 this. After 2003, while we were required to install  
8 black box, so all along we have been using an old model  
9 of black box. We couldn't upload certain data to our  
10 server, and when we started discussing the new franchise  
11 in 2016, we needed to work on ETA, so we replaced the  
12 old black box with a new model of the black box.

13 Now, once the new model of black box was put in  
14 place, we realised that we could do more. Of course,  
15 you mentioned -- I believe that if I understand you  
16 correctly, for NLB, could we do more? The answer is  
17 always in the affirmative. We can always do more. We  
18 will continue to review and we want to progress.

19 And honestly, given our scale, we were not in full  
20 grasp of the latest developments in the sector, and so  
21 please allow us some time for us to keep abreast of the  
22 developments and catch up.

23 Thank you.

24 CHAIRMAN: It was the requirement that you provide  
25 an estimated time of arrival of buses, the ETA system

1           that you refer to, that led to the enhancement of the  
2           black boxes; am I correct?

3   MR JAMES WONG:   Correct.

4   CHAIRMAN:   Could we have back on the screen the 2003  
5           Transport Department guidelines.

6           So being able to monitor real-time the behaviour of  
7           drivers comes as a side-wind from having to do estimated  
8           time of arrival of buses for the benefit of passengers;  
9           is that right?

10          I'm coming to the other document in a moment.  I'm  
11          just establishing what I think is the position, that it  
12          is ETA that produces by a side-door the ability to do  
13          things real-time?

14   MR TIMOTHY WONG:  (In English) I think the ETA system gave  
15          us a doorway to look into more sophisticated black box  
16          systems.  As I have mentioned earlier, the old one we  
17          used, we are not able to retrieve the data to our  
18          server; we have to speak to the supplier and get all the  
19          reports.  So, yes, the ETA system gave us a doorway to  
20          look into a new system.

21   CHAIRMAN:  Because if one looks at this document, the 2003  
22          guidelines, the Transport Department spell out in the  
23          very first sentence what is the purpose of this  
24          equipment, and it is this, is it not:

25          "The purpose of the electronic data recording device

1 is to provide tools for the bus company to monitor and  
2 manage the on-road speed- and safety-related behaviour  
3 of its buses, and indirectly to encourage better driving  
4 behaviour."

5 That was the initial purpose. Do you still regard  
6 this as the purpose of this equipment?

7 MR TIMOTHY WONG: (In English) Yes.

8 CHAIRMAN: Thank you.

9 Ms Wong.

10 MS MAGGIE WONG: If I may move on to the Transport  
11 Department's suggestion of installing speed display unit  
12 in passenger compartment.

13 If I may take you to the TD bundle 1, page 102 to  
14 103, paragraphs 21 to 22.

15 21 states:

16 "It is a device which can be installed in the  
17 passenger compartments. It captures the real-time  
18 signal from the vehicle speed sensor and provides  
19 a visual display of the current speed to the passengers  
20 on board ... The existing SDU installed on a public  
21 light bus which may resemble the installation of the  
22 proposed device on a [franchised bus] ..."

23 If we go to paragraph 22, the last five lines:

24 "In addition, the FB operators are concerned that  
25 SDU would create conflicts and arguments between the bus

1 captain and passengers, and impose additional pressure  
2 on the bus captains which in turn would affect the  
3 safety for bus driving. The FB operators consider that  
4 the SDU is not conducive in enhancing bus safety."

5 Do you accept the summary made by the Transport  
6 Department at paragraph 22 as to your company's  
7 position?

8 MR JAMES WONG: Yes, thank you, Mr Chairman.

9 Regarding the speed display unit, I would like to  
10 supplement. Of course it would be up to the committee  
11 to verify the truth of what I am going to say. We  
12 understand that for public light buses which have  
13 installed this speed display unit, these SDUs were  
14 installed in 2005 and then in 2010 or even afterwards,  
15 it was decided that the speed limiter and the black  
16 boxes were installed afterwards. When they installed  
17 the SDU, the main reason was that for public light  
18 buses, their operation is very different from the buses.  
19 They are mainly operated by small and medium sized  
20 operators. But for franchised buses, there are mainly  
21 three operators. And the bus captains of public light  
22 buses may not have an employment relationship with the  
23 operators. Maybe it's just the owners of the PLBs will  
24 handle the management of some managers who in turn lease  
25 the public light buses to the drivers. So there is

1 no one to monitor the drivers' attitude and the driving  
2 habits. Well, in extreme cases, that is like that.

3 And in 2005, the SDUs were installed and the  
4 passengers on board, before the SDUs were installed,  
5 felt they were in danger because of speeding and they  
6 lodged a number of complaints and there were a series of  
7 accidents and ultimately the administration believed  
8 that speed limiters should also be installed on the  
9 public light buses.

10 Our view is that if SDU is installed in bus  
11 compartments, it means that the passenger will know  
12 about the speed every second. So let's take a step  
13 backwards. If the passengers know that there is  
14 speeding, do they have a brake to press on that they can  
15 retard the vehicles? Then what would happen is that the  
16 passengers will talk to the bus captain and ask him to  
17 "Drive more slowly because you are speeding". We all  
18 have to be mindful about the passenger's attitude. They  
19 may be angry passengers and they may display very good  
20 behaviour. We don't know.

21 Should we be posing a notice on the bus compartment,  
22 asking the passengers to call a certain number if they  
23 find there is speeding? Maybe some passengers will do  
24 that. But there is a high possibility, however, that  
25 the passengers will confront the bus captains.

1           Given today's technology, if there is a technical  
2           means to make sure there is no speeding of the buses,  
3           then we would prefer to do that, instead of asking the  
4           passengers to confront the bus captains and have  
5           conflicts with them. This is the last thing that we  
6           would like to see.

7           Thank you, Mr Chairman.

8   MS MAGGIE WONG: The last matter in the safety device at  
9           page 98 of TD-1 is the driver monitoring device.

10  CHAIRMAN: Before you move on to that, perhaps just dealing  
11           with what you've just had to say -- of course it's  
12           an offence, is it not, under the regulations to the  
13           ordinance, to talk to the bus driver whilst he's  
14           driving; it's an offence, criminal offence?

15  MR JAMES WONG: He must not disturb the bus captain.

16  CHAIRMAN: Or the word might have been "distract" but yes,  
17           that's the spirit of the regulation.

18           At the moment, you respond to complaints that you  
19           have received from passengers, and that's when you might  
20           do, as I understand it, a search of the black box, to  
21           see if the complaint is made out?

22  MR JAMES WONG: It depends on the nature of the complaint,  
23           whether it is about the speed or the driving  
24           performance. If the complainant is not complaining  
25           about such matters, even if we turn to the black box, it

1           won't help us.

2           Thank you.

3   CHAIRMAN: Let's assume it is a complaint about speed.

4           "This bus driver was going too fast." Would you accept  
5           that if there is a speed display unit, one thing  
6           a passenger could do was simply take a photograph of the  
7           speed display unit, so there would then be empirical  
8           evidence to substantiate the complaint?

9   MR JAMES WONG: Mr Chairman, as to the scenario that you  
10          refer to, so there is a speed display unit indicating  
11          the speed of the vehicle, the passenger takes  
12          a photograph. If it can clearly show the location, the  
13          section of the road, then perhaps it can achieve the  
14          effect that you mentioned, so using that photograph as  
15          a piece of evidence. But if it only shows the speed of  
16          the vehicle, it will still be difficult to tell with  
17          certainty as to when and where the photograph has been  
18          taken.

19   CHAIRMAN: Let's make it simple. A franchised bus is not  
20          permitted to do more than 70 kilometres per hour; is  
21          that correct?

22   MR JAMES WONG: (In English) Yes.

23   CHAIRMAN: So if the speed display unit showed 80 kilometres  
24          per hour and the passenger took a photograph, that would  
25          be objective empirical evidence of the behaviour of the

1 bus at that time?

2 MR JAMES WONG: Mr Chairman, you said that a photograph has  
3 been taken, it indicates 80 km/h. Initially, I think  
4 you need to take a photograph of the registration  
5 number, to indicate who the bus captain is, because  
6 after all it's an allegation, it's a complaint from the  
7 passenger, saying he's on a particular bus. I haven't  
8 thought through this or think in this direction, but you  
9 outlined a scenario as to whether this can become the  
10 evidence for this. I'm just sort of giving you some  
11 initial response.

12 CHAIRMAN: So you mentioned the possibility of putting  
13 a number up for the passengers to call, earlier on in  
14 your evidence. If this was displayed, an email address  
15 could be provided so that the passenger whilst he's on  
16 a bus could email the speed of the vehicle to the  
17 Transport Department, to your headquarters; do you  
18 accept that?

19 MR JAMES WONG: Yes. Say, for example, in future, if we  
20 have to install a speed display unit on board, we would  
21 accept the arrangement that we allow the passenger to  
22 inform the company directly, so that we can resolve the  
23 problem. I'm sure this is much better than the  
24 passenger taking it up with the driver, because there  
25 may be a confrontation.

1 CHAIRMAN: Yes. Thank you.

2 Ms Wong.

3 MS MAGGIE WONG: Would this not have a deterrent effect on  
4 the bus captain in not over-speeding? Because the real  
5 source of the problem is not to over-speed, so if you  
6 put on a speed display unit, the drivers know, the  
7 passengers know, everyone knows. Wouldn't that  
8 discourage the bus captains in not driving excessively  
9 or over-speeding?

10 MR JAMES WONG: In reality, I believe of course, as the  
11 Chinese say, your fingers are of different lengths. The  
12 majority of our bus captains in our company are good  
13 drivers. But of course there may be some who are more  
14 aloof or they are more impatient.

15 Ms Wong, just now, you mentioned that perhaps many  
16 people see that a driver is speeding; will this create  
17 a lot of pressure on him? I won't say that, but  
18 of course good colleagues, they will never speed, they  
19 will never over-speed. But for others who are more  
20 impatient -- just thinking off the cuff -- it all  
21 depends on what happens. Say, for example, when we  
22 receive an over-speed report, it all depends on whether  
23 we are being harsh about the penalty given in relation  
24 to the safety bonus, and some colleagues may care a lot  
25 about that. But I don't think that just because many

1 people witness the speeding, so he has the pressure. On  
2 the other hand, it depends on how he sees it himself.  
3 Say, for example, he's worried that driving points will  
4 be deducted or he's worried that there may be  
5 an accident. Sometimes, excessive speed may be the  
6 result of overconfidence on the part of the driver, or  
7 he may be a bit impatient or he thinks that he is in  
8 control of the bus.

9 MS MAGGIE WONG: Moving on to the driver monitoring device.

10 Can I take you to the website of the Ming Pao newspaper.  
11 The article talks about the anti-dozing device. Could  
12 you just read through briefly the publication on the  
13 website. It is dated 27 May this year.

14 The article, in summary, provided some sort of  
15 monitoring device for the benefit of bus driver on the  
16 buses which will ply between Hong Kong, Macau and Zhuhai  
17 on the new bridge. Are you aware of that?

18 MR JAMES WONG: Yes. Yes. I have come across this in the  
19 news.

20 MS MAGGIE WONG: Do you have any plan with regard to  
21 exploring what this system -- apparently researched and  
22 developed in the mainland -- might provide for the  
23 company?

24 MR JAMES WONG: Mr Chairman, at this moment, we will  
25 continue to pay attention. We won't say no to anything

1       that would enhance our overall safety. We will continue  
2       to keep an open mind and we will watch the development.

3           However, if you ask me, my initial understanding of  
4       the news report is as follows. If you ask for my  
5       priority, of course we want to make good use of our  
6       existing resources, because, after all, the service that  
7       we provide covers a shorter distance, so perhaps this is  
8       not the most urgent item for us at this moment in time,  
9       but we will be watching the development.

10   MS MAGGIE WONG: I'm going to the last topic. It's the  
11       financial information of your company.

12           If you look at NLB bundle 2, page 71, it is  
13       a document of fuller disclosure of financial and  
14       operational information, and that's for the year  
15       2012/2013.

16           If we go to page 72, it stated that for the year  
17       ended 31 March 2013, the total turnover was  
18       approximately 145.5 million, with a profit of  
19       approximately HK\$9.52 million. Do you see that?

20           And if we go to page 132, that's for 2014 and 2015,  
21       and if we see the income, the revenue, we see there are  
22       three sources of income or revenue: the fare revenue,  
23       advertising income, and the sundry income.

24           Can you tell us where the advertising income comes  
25       from?

1 MR TIMOTHY WONG: Mr Chairman, for the advertising income,  
2 it is drawn from the bus body. Different from the other  
3 two bus companies, we don't have a lot of advertisements  
4 at our bus stops. The main source of income for  
5 advertising comes from the bus body, the advertisements.

6 MS MAGGIE WONG: What about the sundry income?

7 MR JAMES WONG: Thank you, Mr Chairman.

8 In NLB, say for example, we have an agreement with  
9 Ngong Ping 360. If the cable car system has to be  
10 suspended suddenly, say for example due to weather or  
11 other reasons, then we will provide immediate support.

12 In addition, at our bus depots, we have got the  
13 arrangement to provide annual inspection for the  
14 non-franchised buses, and we charge a fee for that.

15 Thank you.

16 MS MAGGIE WONG: If we see on this page, at page 132, we see  
17 the advertising income was \$493,000, and in 2014/2015 it  
18 is \$438,000.

19 But if we go to 2016 and 2017, that's at page 182,  
20 we see the advertising income dropped significantly; in  
21 2015/2016 to 190,000, and in 2016/2017, to 87,000.

22 Can you tell us the reasons?

23 MR TIMOTHY WONG: If you look at the case 2012/2013 to  
24 2013/2014, at the time the advertising income was  
25 relatively high because we had the Shenzhen Bay Port

1 route. On the part of the company, it was rather  
2 attractive to the clients in advertisements. For  
3 2015/2016 and up to now, for this kind of advertisements  
4 on the bus body, relatively speaking they aren't as  
5 attractive to our clients who like to place  
6 advertisements.

7 Take Shenzhen Bay as an example. Many clients have  
8 stopped placing advertisements. This is because the  
9 production cost to put the advertisements on the bus  
10 body are expensive, and then for the media agencies, for  
11 this traditional form of advertisements, this is no  
12 longer attractive and therefore we see a huge drop.  
13 Very soon, we will have the Hong Kong-Zhuhai-Macau  
14 Bridge being commissioned. We believe there will be  
15 an increase in the advertising income because many  
16 clients have become interested in the new port.  
17 Therefore the advertising income in relation to our  
18 routes, since we are running along hilly routes and they  
19 are not so visible, and so for Lantau routes and for  
20 South Lantau routes they cannot attract advertising  
21 income. For Tung Chung, we can have some local  
22 advertisements, say for example related to markets, but  
23 they are not going to draw a lot of income.

24 For Shenzhen Bay Port, currently, since it has  
25 already got a long history now -- for others who would

1       like to place advertisements, they would rather opt for  
2       other forms of transport, like the cross-boundary buses.

3   MS MAGGIE WONG: Thank you.

4           If I may take you to bundle NLB-2, page 27, that's  
5       your franchise agreement clause 34. This clause refers  
6       to an annual system report, and may I ask what is the  
7       name of the auditing body for you to comply with this  
8       clause 34?

9   MR JAMES WONG: Allow us a bit of time to look up the  
10       information for you.

11   CHAIRMAN: Yes, take your time.

12   MR JAMES WONG: Yes, Mr Chairman. It is a local accountancy  
13       firm called Tony Yau & Company. We can give you the  
14       full name after the hearing.

15   MS MAGGIE WONG: Thank you. Would you be able to provide us  
16       with a sample of the latest annual system audit report  
17       by this company?

18   MR JAMES WONG: Of course, yes.

19   MS MAGGIE WONG: Lastly, if I can take you to the same  
20       bundle, NLB-2, page 196. That's your organisational  
21       chart. It shows the senior management structure of your  
22       company.

23           Can you tell us whether the company has a dedicated  
24       safety department?

25   MR TIMOTHY WONG: Mr Chairman, as far as bus safety is

1 concerned, our company is of the idea that it covers all  
2 departments. Every month or on a bi-weekly basis, all  
3 the management as indicated on this organisation chart,  
4 the management staff will come together and talk about  
5 it. Every time we talk about bus safety. In a recent  
6 meeting we focused on training schools, so you can't see  
7 a particular person dedicated to safety.

8 Bus safety is the duty of the entire team of the  
9 entire bus company.

10 MEMBER AUYEUNG: Can I ask a question on that. If  
11 a terrible accident happens, what would happen within  
12 your organisation?

13 MR TIMOTHY WONG: You mean should there be an accident, what  
14 our team will do? There is an established system in  
15 place to deal with accidents, regardless of the size of  
16 the accident. So we have a complete structure to deal  
17 with that. I can't tell you off the top of my head, but  
18 I can supplement information in relation to our  
19 procedures dealing with accidents. I apologise.

20 MEMBER AUYEUNG: Thank you.

21 CHAIRMAN: No doubt you can provide that to us in due  
22 course.

23 MR TIMOTHY WONG: (In English) Okay.

24 (Via interpreter) And I would like to add -- well,  
25 what I would like to say is that ISO 39001 has been

1 mentioned by the committee. The stance of our company  
2 is that we strongly support achieving that standard.  
3 Back in 2017, when we used on a trial basis  
4 double-decker buses on route 3M, we would like to  
5 achieve this international standard.

6 First of all, in our Mui Wo depot, we have done  
7 three ISOs. That is ISO 39001 quality system, 14001  
8 environmental system, and ISO 18001, occupational safety  
9 and management.

10 In May 2018, that is last month, we have been  
11 authorised to use it starting from the middle of 2017,  
12 we have in our depot updated our system for the  
13 verification. BSI, that is the company responsible for  
14 ISO, told us about ISO 39001.

15 Our view at that time was we were concerned that if  
16 ISO 39001 is to be implemented company-wide, the cost  
17 will be high. However, when we talked further with the  
18 company, we found that it can be put on a trial basis by  
19 route.

20 So when it comes to B4 and B6, in relation to the  
21 Hong Kong-Zhuhai-Macau Bridge, when it is commissioned,  
22 we will take the initiative to cooperate with BSI to  
23 obtain ISO 39001 for these two routes.

24 If we achieve success for these two routes, then we  
25 will use it on the route that we use a double-decker bus

1 in order to achieve the ISO 39001 accreditation.

2 MS MAGGIE WONG: In what way does ISO 39001 standard improve  
3 or raise the level of safe driving? Can you be more  
4 specific about this?

5 MR TIMOTHY WONG: (In English) Sorry, I will use English  
6 because I have been reading it and understand it in  
7 English.

8 CHAIRMAN: You can use whatever language you like.

9 MR TIMOTHY WONG: (In English) The scope of the ISO is to  
10 develop and implement road traffic policy to improve the  
11 company's performance. In order to establish and  
12 implement such system, most important is to have the  
13 organisation, to have a standard between the  
14 organisation. So, in other words, there is no uniform  
15 standard from BSI or anyone.

16 So what the organisation needs to do is to create  
17 a uniform standard which could promote and implement  
18 road traffic safety system.

19 We cannot guarantee -- using this system, we cannot  
20 guarantee zero accidents, but the new system could help  
21 reduce the number of incidents and also improve whenever  
22 there -- improve our back-end system and our support  
23 whenever there is an accident.

24 One of the key issues or one of the key elements of  
25 ISO is the importance of internal audit. Having the

1 internal audit could help us improve and sustain our  
2 safety management system within the company in the  
3 longer run.

4 So, in the meantime, we have confirmed with BSI that  
5 we will go ahead with the ISO examination with our new  
6 routes, B4 and B6. The whole process is yet to proceed  
7 because the bridge hasn't been opened yet, so hopefully  
8 by year-end we could give the committee good news that  
9 we will be able to acquire the standard for our new  
10 routes.

11 Thank you.

12 MS MAGGIE WONG: Mr Chairman, I have finished my questions.

13 Thank you.

14 Thank you, gentlemen.

15 CHAIRMAN: One matter, Mr Wong, I would like to come back to  
16 you on, and that was the information you gave us about  
17 the use of special shifts. They are the 14-hour shifts.  
18 You told us that they were used on eight routes, that is  
19 eight of the 113 routes that you have.

20 MR JAMES WONG: (In English) That's for those trips at South  
21 Lantau, eight out of 113 South Lantau routes. We will  
22 provide the total numbers, because we still have some  
23 other routes at Tung Chung and Shenzhen Bay.

24 CHAIRMAN: So there are more than eight special shifts?

25 MR JAMES WONG: (In English) The total number should be more

1           than that, the total number.

2       CHAIRMAN: Let me just confirm this. You have altogether  
3           113 routes; is that right?

4       MR JAMES WONG: (In English) No, should be more than that.

5       CHAIRMAN: More than that?

6       MR JAMES WONG: (In English) Yes, More than that.

7       CHAIRMAN: Then perhaps you can come back to us. What I'm  
8           interested in is being told what proportion of your  
9           routes are special shifts, and perhaps you can answer  
10          this now, if not, say so, but with a special shift,  
11          where the bus captain has a three-hour rest break, can  
12          you tell us where on these special shifts he would get  
13          out of his bus and he would come back three hours later?  
14          Because relevant to that is what are the rest facilities  
15          that you provide at that place.

16                So are you in a position to answer that now or would  
17          you prefer to come back with a written explanation?

18       MR JAMES WONG: Well, it involves a lot of information.

19                Perhaps we will collate the information before we send  
20          it to the committee.

21       CHAIRMAN: Yes. Please provide that information. And if  
22                there are no facilities or limited facilities for rest,  
23                no doubt you can explain if this is one of the places  
24                where you have applied for facilities but haven't been  
25                granted permission, so that we can understand the

1 situation in context.

2 Prof Lo.

3 MEMBER LO: I just have one question on the income  
4 statement. You have a fairly sizeable rental for  
5 non-franchised buses, so in the income statement, which  
6 part is for that non-franchised buses? Is it in the  
7 category of "Other expenses"?

8 MR JAMES WONG: Yes, under "Other expenses".

9 MEMBER LO: About what proportion? What is the amount paid  
10 for these non-franchised buses?

11 MR JAMES WONG: Sorry, Professor, we don't have the  
12 information at this moment. Do you mind if we supply it  
13 to you afterwards?

14 CHAIRMAN: Please do.

15 Would this information appear in your interim  
16 results for the six months ended 30 September 2017?

17 MR JAMES WONG: Chairman, do you mean the interim report of  
18 the listed company? Because NLB doesn't have an interim  
19 report.

20 CHAIRMAN: Perhaps that's what I do mean. Do we find it in  
21 something that's published?

22 MR JAMES WONG: For NLB, there will be the fuller  
23 disclosure -- it's once a year -- we set out all the  
24 details.

25 CHAIRMAN: Perhaps you can provide it to us subsequently

1 with the answer to Prof Lo's question, the cost of the  
2 non-franchised buses. Thank you.

3 MR JAMES WONG: Yes.

4 CHAIRMAN: That concludes the questions that we have, and  
5 obviously it concludes the questions that counsel  
6 assisting the committee have.

7 I understand that you wish to make and we are happy  
8 to receive a concluding statement. So over to you,  
9 Mr Wong.

10 Closing statement by MR JAMES WONG

11 MR JAMES WONG: Thank you. Thank you, Chairman.

12 When it comes to the provision of safe bus service,  
13 we think it is our responsibility. Our level of service  
14 is always regulated by the government under the bus  
15 franchise. There are changes in society as well as the  
16 travel pattern of the public. We have to keep pace with  
17 these changes. We have to keep improving and enhancing  
18 our service to achieve expectations.

19 The key management personnel of our company are also  
20 shareholders of our company. Therefore, we don't just  
21 focus on short-term performance or profit. We also  
22 focus on long-term development and sustainability of our  
23 company. To carry on the tradition of the company, we  
24 have been maintaining long-term and good relationships  
25 with our bus captains, and we think that that is of

1 particular importance to quality service and safety of  
2 our bus service.

3 The scale of our company is significantly different  
4 than that of our companies. As I have explained  
5 already, our fleet is only one 13th or one 33rd of other  
6 bus companies. When it comes to development of new  
7 systems or software, or the implementation of such, the  
8 cost incurred and the difficulties we encounter will be  
9 much higher and more than other companies.

10 Given the current bus franchise system, it is  
11 difficult for us to develop our fleet. Using Lantau  
12 Island as an example, our catchment is just the Lantau  
13 residents. There are two other franchises for  
14 Chek Lap Kok and Tung Chung, going outside to the urban  
15 area. We are different from other franchised bus  
16 operators who have different routes operating in  
17 different areas and the number is increasing.

18 So, from the perspective of operational efficiency,  
19 it's not easy for the market to accommodate  
20 a small-scale franchised bus company. However, having  
21 regard to the overall interest of the community, I do  
22 believe that the existence of our company can enhance  
23 the competitiveness of the industry and provide more  
24 options for Hong Kong residents.

25 Notwithstanding the aforementioned constraints, we

1 are willing to invest in the company and support  
2 government policies to enhance our capability to better  
3 serve the public in the future.

4 Lastly, on behalf of New Lantau Bus Company (1973)  
5 Ltd, I would like to thank the chairman and the two  
6 members for their invitation to our company to come here  
7 to explain to you our situation. I thank Ms Wong's  
8 questions, the secretariat and relevant parties, for  
9 their arrangements.

10 I would like to also thank my colleagues, especially  
11 frontline colleagues, for their contribution to the bus  
12 industry.

13 Thank you.

14 CHAIRMAN: Mr Wong, it remains for us to thank you and your  
15 colleagues for attending this hearing to assist the  
16 committee in its deliberations, and we look forward to  
17 receiving what I think is quite a bundle of material  
18 that is promised to us. It would assist if we could  
19 receive that sooner rather than later, whilst the  
20 details of this hearing are actively in our minds.

21 Thank you for your help. These proceedings then are  
22 concluded.

23 (6.06 pm)

24 (The hearing adjourned to a date to be fixed)

1 2018年6月19日

2 上午10時正恢復聆訊

3 出席人士：黃焯安先生，董事總經理（新大嶼山巴士（一九七三）有限公司）

4 黃焯添先生，董事（新大嶼山巴士（一九七三）有限公司）

5 陳天龍先生，副總經理（新大嶼山巴士（一九七三）有限公司）

6 楊家寶先生，維修部總監（新大嶼山巴士（一九七三）有限公司）

7 李春暉先生，培訓經理（新大嶼山巴士（一九七三）有限公司）

8 黃亮霆先生，助理經理-營運支援（新大嶼山巴士（一九七三）有限  
9 公司）

10

11 主席：（經傳譯員）各位，早晨。我哋感謝黃焯安先生同埋新大嶼山巴士公司其他嘅  
12 代表今日出席，協助我哋委員會，因為佢哋除咗書面嘅陳述書之外，佢哋今日  
13 上嚟就係會回應律師同埋委員會嘅問題，嚟到協助我哋嘅工作。喺未開始提問  
14 之前，我知道黃先生你係想作一個簡單嘅開場白嘅，我而家係邀請你係發言  
15 嘅。

16 黃焯安先生：主席、各委員、律師、女士們、先生們，早晨。我係黃焯安，係新大嶼  
17 山巴士有限公司嘅董事總經理。今日好多謝委員會給予我哋機會嚟到今日嘅聽  
18 證會提供陳述資料。我哋對專營巴士服務獨立檢討委員會審視巴士專營權制度  
19 持開放嘅態度，我哋一向都按香港相關嘅法例、專營權條款、運輸署嘅指引去  
20 營運我哋嘅服務。近月，我哋喺日常運作以及行政上做咗一啲同埋將會做一啲  
21 措施去加強營運巴士嘅安全水平嘅，措施係如下嘅：提升車長訓練時數及導師  
22 與車長學員嘅比例；要求兼職車長申報更詳細、正式嘅資料；成立車長訓練學  
23 校以協助合資格人士考取巴士駕駛執照；以及引用國際標準提高行車安全水  
24 平。

25 就上述嘅措施，非常之抱歉，我哋未能及時準備書面嘅資料畀委員會，我哋  
26 樂意喺今日嘅聽證會度詳細講解，如果有需要，我哋可以喺今日嘅聽證書之後去  
27 遞交詳細嘅資料嘅。唔該，主席。

28 主席：（經傳譯員）唔該晒，黃先生。剛才聽到你嘅開場白，我知道大律師就會就新  
29 嘅措施就係向你提問嘅，而家我想係將時間交畀黃佩琪大律師，佢會提問嘅。

30 黃女士：（經傳譯員）係，唔該晒，主席。黃先生，早晨，各位代表，早晨。亦都感  
31 謝你哋今早係出席委員會嘅聆訊。感謝你作咗開場合，裏面係有一啲問題我係  
32 想同你探討一下㗎，呢個都係源於你哋係已經較早之前向委員會提交咗嘅陳述  
33 書嘅。

1 首先，喺你嘅陳述書裏面講到係兼職車長嘅數字，或者大家可以睇番係你嘅  
2 嘅陳述書一嘅第 17 頁嘅。大家可以睇番嗰個圖表喇，講番嗰個兼職巴士車長，  
3 即係你嘅所聘用嘅兼職巴士車長嘅數字喇，喺過去嗰六年，差唔多係三倍於之前  
4 嘅，咁呢個就係講 2012 年嘅時候就係一百三十七位車長裏面係佔咗百分之九點  
5 四嘅。咁去到 2017 年，當時--你見到喇，就係有一百八十三位嘅車長喇，咁裏  
6 面有五十三位係兼職嘅，就佔咗百分之廿九嘅，呢個係你嘅公司係聘用嘅情  
7 況。我哋亦都可以見到喺嗰幾年裏面，如果你睇番就係聘用兼職巴士車長係一直  
8 係上升嘅，由 2012 年至到 2018 年嘅情況都係咁樣樣嘅。所以首先問你呢個問  
9 題喇，點解係會嗰個升幅咁大？

10 黃焯安先生：唔該。咁首先關於--我想先係講一點，就係喺我哋公司嘅角度，不論佢  
11 係正職或者兼職嘅同事，我哋對佢駕駛嘅要求，包括安全等等，係有分別嘅。  
12 就唔會存在喺一啲說法話兼職嘅同事駕駛會唔會危險啲，我哋相信係唔會有咁  
13 嘅情況嘅，呢個第一點。咁嗰啲律師嘅提問就話，咁點解喺 12 年到到 2017 年  
14 其實呢個兼職嘅車長係會即係持續嘅上升，我哋嘅睇法就--本身我哋係全職同  
15 兼職嘅車長，其實佢最大分別就係佢哋兼職嘅車長可以係返工嘅日數少啲，返  
16 工嘅日數少啲，咁變咗佢哋可以喺工作上同埋佢哋自己嘅假期嗰個彈性，即係  
17 佢哋自己有個彈性去自己安排。

18 咁而本身我哋同其他另外兩間公司有個好大嘅分別係正職嘅同事同兼職嘅同  
19 事，其實佢哋嘅福利係差好遠嘅，但係喺大嶼山巴士嚟講，即係薪酬以外，其實  
20 本身嘅嗰個福利，其實我哋畀唔到話太多福利我哋全職嘅同事，以一個例子嚟比  
21 喻，其他嘅巴士公司佢哋全職嘅同事係有嗰個乘車--家屬係有個乘車證，咁但係  
22 喺我哋嘅情況，喺今天我哋個八--因為係八達通系統嘅原故，其實我哋亦都有辦  
23 法同另外兩間巴士公司去共用呢個乘車證，變咗我哋嘅員工--全職員工嘅福利，  
24 其實佢係只係可以免費乘坐番大嶼山巴士嘅車，而佢唔會可以免費去乘坐其他巴  
25 士公司嘅車。

26 咁喺呢一方面，我相信係同--即係喺另外--即係當然我唔會好詳細知道另外  
27 兩間佢哋實際嗰個乘車證畀咗幾多個家屬㗎，但係係有個明顯嘅分別嘅，喺全職  
28 同埋兼職嘅員工。咁另外就係頭先我提及到，兼職嘅員工佢哋係可以有一個彈性  
29 啲嘅工作日數，咁我相信呢個就係點解會都有好多同事係想去做一個兼職，係。

30 黃女士：（經傳譯員）唔該晒你嘅回答，不過其實我嘅問題就係想知道點解嗰個增幅  
31 咁大，你知唔知？即係話兼職車長嘅數目係咁多年嚟係有咁大幅嘅增加。

32 黃焯安先生：當我哋去招聘嘅時候其實我哋係長工、兼職同一時間招聘嘅，我哋唔會  
33 話因為財政嘅原因，定係我哋自己工作個原因，就淨係請兼職，唔請全職，主  
34 要都係畀嚟到嘅--即係嗰個人嚟到見工，咁我哋就話畀佢聽全職係咁樣嘅薪  
35 金，兼職係咁樣嘅薪金，咁當然我哋係希望佢揀全職喇，咁但係--因為全職其  
36 實對公司嚟講，當然嗰個調動會係--喺公司嚟講係舒服啲嘅，因為我可以確定  
37 佢一個月個工作日數係幾多，兼職始終都有個不穩定性，咁但係始終最終嘅決  
38 定權其實喺嗰個車長度，當佢係決定話「我想做兼職」，咁我哋都有得話一定

1 要佢做長工，咁但係當然喇，即係如果律師你話點解我哋會即係請多啲人呢，  
2 因為本身我哋即係都係呢幾年嘅線路有增加，咁所以我哋都要一路增加人手。  
3 係喇，就--即係你話如果人手多咗就呢個原因囉，咁你話點解會係多咗嘅兼  
4 職，唔係多咗嘅長工，咁我哋個分析係咁樣，即係都係我哋會畀佢揀囉，係  
5 喇，就唔係話即係係我哋去選擇。

6 黃女士：（經傳譯員）如果我嘅理解係正確嘅話，呢個係由於人手短缺又或者係有其  
7 他原因，又或者係嗰個薪酬，係咪因為--你呢度請多啲人，就係因為對巴士車  
8 長嗰個需求大咗？

9 黃焯安先生：你話個原因就好似頭先我哋第--一開頭咁講㗎，我就唔覺得係話--即  
10 係如果其實短缺嘅話，我哋連兼職都請唔到喇，即係我會--我認為係咁樣喇，  
11 咁反而係--頭先咁講，就係佢--即係我哋自己都有諗過嘅，做兼職、做長工，  
12 好似個--都有同事反映過，即係嗰個薪酬其實唔係睇太遠，而福利本身亦都係--  
13 --即係個別同事喇，如果佢哋係真係係當區--因為我哋嗰個專營嗰個服務其實就  
14 係好集中喺大嶼山嗰個區域嘅，咁如果佢本身唔係居住喺大嶼山，其實變咗--  
15 頭先我講嗰個乘車證嗰個問題，佢就唔會覺得話做全職員工好吸引，係喇，因  
16 為呢個係--因為佢哋其實係行內會講話一張乘車證係等同可能係 1,000 釐咁樣  
17 嘅，如果佢哋每日都去搭車等等咁樣，咁但係正正我哋就係--即係全職嚟講就  
18 係同另外啲公司比較係少咗呢樣嘢喇。係，咁至於你話咩嘢原因，我相信就我  
19 哋自己去--當然唔能夠好確實知道每一個人嘅諗法係點樣㗎，因為都係畀佢揀  
20 嘅，咁但係我相信都不外乎係本身全職同兼職嗰個--佢哋可能覺得個工資比較  
21 又唔係話真係睇咁遠，即係等等呢啲原因喇。

22 黃女士：（經傳譯員）想問下喇，你哋公司會唔會係經常定時咁樣樣去招聘一啲已經  
23 退休嘅全職司機去喺你哋嗰度做番兼職司機、兼職車長嘅呢？

24 黃焯安先生：律師，請問你個問題係咪話我哋自己請番我哋公司退休嘅同事？

25 黃女士：（經傳譯員）係。

26 黃焯安先生：呢個情況係有嘅，當我哋嘅同事佢退仔，而係佢係嗰個健康情況係繼續  
27 適合去做呢個車長嘅工作，我哋係都會去 offer 佢，都會邀請佢留低繼續提供  
28 服務。

29 黃女士：（經傳譯員）大概係佔百分幾？

30 主席：（經傳譯員）你哋嘅退休年齡係幾多歲，如果係全職嘅話，幾多歲退休？

31 黃焯安先生：65。

32 主席：（經傳譯員）唔該晒。

33 黃焯安先生：呢個可唔可以後補畀委員會？因為呢一刻我哋唔係好掌握到究竟我哋有  
34 幾多退休嘅同事轉咗做兼職，但係我哋初步睇就嗰個唔係--應該唔係太多嘅，

1 暫時嚟睇。

2 黃女士：（經傳譯員）好，喺你嘅開場白嗰度，你有講過喺近月你哋公司係落實咗，  
3 亦都將會落實係一啲措施，呢個係指喺呢個日常運作同埋行政上面係有一啲措  
4 施，係希望能夠係加強嗰個營運巴士嘅安全水平嘅，呢個就包括係要求兼職車  
5 長係申報更加詳細嘅正職嘅資料嘅。你亦都係有講過，就話係樂意喺今日嘅聽  
6 證會係向主席同埋委員講解資料嘅，首先，可唔可以講一講有啲咩嘢嘅新措  
7 施？

8 黃焯安先生：我交畀陳天龍先生去回答，唔該。

9 主席：（經傳譯員）係，請你講，陳生。

10 陳天龍先生：主席，係，其實最主要我哋而家係會加強咗就係要求我哋兼職車長佢哋  
11 申報番佢哋個正職係乜嘢，同埋佢哋個工作時數有幾多，咁嚟到保障番我哋符  
12 合運輸署所訂出嚟嘅指引嘅。

13 黃女士：（經傳譯員）係幾時開始你哋係落實咗呢項措施？

14 陳天龍先生：呢個措施係我哋最近喺 6 月份開始嘅。

15 黃女士：（經傳譯員）我咁嘅理解啱唔啱，喺 6 月之前有咁嘅要求，冇要求兼職車長  
16 去申報佢哋正職嘅資料？

17 陳天龍先生：其實我哋喺嗰位車長佢入職嘅時候有要求佢申報佢嘅在職嘅情況嘅，但  
18 係而家個分別係我哋係會喺一段時間之內就會要番佢重新再申報番佢，update  
19 番佢嘅資料。

20 黃女士：（經傳譯員）我想問下喇，嗰個僱員，即係指呢個兼職巴士車長喇，需唔需  
21 要係填寫一個表格㗎？

22 陳天龍先生：嗰位兼職車長佢入職嘅時候係需要填報佢嘅資料嘅，就好似而家喺畫  
23 面上面見到嗰張 form 咁樣。

24 黃女士：（經傳譯員）我哋稍後就會講下呢個表嘅，6 月之後有冇一份新嘅表要求兼  
25 職車長去申報佢哋嘅工作時間？即係話未入職之前有冇係另外一張表係叫佢哋  
26 申報咗佢哋嘅工作時間？

27 陳天龍先生：係有嘅，我哋已經整咗一張新嘅表去畀呢啲車長去申報番佢哋嘅在職嘅  
28 情況。

29 黃女士：（經傳譯員）可唔可以畀個樣本畀我哋睇下，如果方便嘅話？

30 陳天龍先生：我哋可以喺稍後交番畀委員會嘅。

31 黃女士：（經傳譯員）唔該。

1 主席：（經傳譯員）好，請你提供呢個表畀我哋喇。咁同埋較早時候你亦都講過話會  
2 提供資料嘅，呢個就係黃焯安先生佢就話會話畀我哋聽係有幾多已經退休嘅全  
3 職車長係而家成為你哋嘅兼職車長，咁換句話講，呢個名單上面就有兩個項目  
4 要畀補充資料我哋喇。

5 黃女士：（經傳譯員）黃先生，較早時候你提及現時現行嘅係申請表嘅，咁我哋就係  
6 睇番一個係你哋嘅補充資料或者附件嘅第 468 頁，或者我哋睇番嗰份表喇，個  
7 表本身就並冇要求兼職車長係提供啲資料，即係話究竟佢哋目前係唔係做緊兼  
8 職，又或者工作性質係乜嘢，又或者有點樣嘅工作時間嘅。而頭先你作證嘅時  
9 候你就話呢個表格係有要求佢哋係申報呢一類型嘅資料㗎，喺邊度搵到？

10 黃焯安先生：係，唔該，律師，咁我想補充番，喺我哋呢一張入職填嗰張係有要求個  
11 入職者佢去填番佢喺邊度或者曾經工作喇，咁喺呢一張上面的而且確係有話要  
12 求佢寫今--即係每一日，因為佢其實個工作唔一定係駕駛㗎嘛，佢有機會係做  
13 緊文職嘅工作嘅，咁就有話要求佢寫番嗰個每日嗰個工作時數，喺遠--即係舊  
14 嗰張，咁喺新嗰張，頭先陳生提嗰個就係我哋開--即係有加番呢樣嘢上去。

15 黃女士：（經傳譯員）即係唔係淨係一個表格，係一個新嘅僱員嘅合約㗎㗎，以我所  
16 理解，定係兩樣唔同嘅嘢㗎㗎呢？

17 黃焯安先生：我哋嘅--唔係一個合約㗎㗎，即係係另外係在職嘅兼職同事都要佢去申  
18 報，即係有個申報表，係喇。

19 黃女士：（經傳譯員）咁你有冇喺 6 月之後改過你哋嘅僱傭合約？

20 黃焯安先生：冇，呢份冇。

21 黃女士：（經傳譯員）請你睇番有關於申報嗰一段，即係而家嗰個嘅表格，係呢一個  
22 472 頁，喺呢一段聲明裏面，現有嘅表格裏面有特別要求兼職車長申報有冇足  
23 夠嘅休息時間先至開始替你哋工作㗎，可唔可以確認一下？

24 黃焯安先生：係，冇嘅，確定。

25 黃女士：（經傳譯員）剛剛你話係有一啲嘅時間你會要求兼職車長去申報呢啲資料  
26 嘅，喺呢個新嘅措施底下，你哋隔幾耐要求兼職車長申報正職嘅資料同埋有關  
27 嘅工作時數？

28 黃焯安先生：我哋喺現階段，現階段個計劃就係要個同事先係喺 6 月份開始要--因  
29 為兼職佢都唔係日日喺度嘅，咁先要佢第一階段就係填番晒，報番返嚟，呢個  
30 係第一喇。第二就係啱啱你問到，例如要佢幾頻密去做，我哋暫時個諗法就係  
31 一年，暫時嘅諗法，即係可能要佢例如一年後都要將我哋嘅紀錄更新番，咁但  
32 係當然，我哋呢一刻--因為呢個都係個新嘅措施㗎㗎，咁我哋就諗住喺三個月  
33 後就再作檢討，睇一睇嗰個時間同埋呢個措施適唔適合同埋足唔足夠。

34 黃女士：（經傳譯員）喺個新表格裏面你有冇任何嘅要求僱員有責任係如果佢正職係

1 有改變嘅時候或者轉咗工，要話番畀你聽，即係要喺呢一個嘅聲明裏面講番畀  
2 你聽？

3 黃焯安先生：有嘅，喺上面係有寫，上面。

4 黃女士：（經傳譯員）我想返番轉頭之前，...

5 主席：（經傳譯員）你咁做之前，我想理解一下，呢個過程其實你係要求兼職車長申  
6 報正職同埋工作時數，已經開咗咗要求某啲嘅兼職車長去咁做㗎喇，係嘛？

7 黃焯安先生：係，開始㗎。

8 主席：（經傳譯員）有冇任何嘅兼職車長申報的確係有其他嘅工作，亦都畀咗工作時  
9 數你哋？

10 黃焯安先生：有嘅，主席。

11 主席：（經傳譯員）咁有冇任何呢啲嘅車長話畀你哋聽佢哋嘅其他職業係有駕駛嘅  
12 呢？

13 黃焯安先生：有。

14 主席：（經傳譯員）咁你可唔可以譬如講番其中一位嘅車長係乜嘢嘅職業同埋啲咩嘢  
15 類型嘅駕駛？即係喺佢呢個嘅另外一份工裏面。

16 黃焯安先生：主席，我哋初步嘅資料--即係呢個都希望畀啲時間我哋詳細整理畀委員  
17 會喇，咁我哋初步就有--例如喇，係有--我哋兼職嘅同事佢係根據佢寫，佢例  
18 如係做一個酒店嘅車長嘅，例如。咁佢--根據佢去報畀公司，佢每周平均嘅工  
19 作係五天，咁每個工作日平均嘅駕駛時間就係八小時，例如呢啲咁樣，係。

20 主席：（經傳譯員）可唔可以畀多啲資料，你哋兼職車長裏面有幾位即係你有問--你  
21 係問過呢類型嘅問題，係幾多位兼職車長，目前嚟講？

22 黃焯安先生：當而家已經回覆嘅就有三十幾位，接近我哋兼職嘅八成嘅喇，係喇，即  
23 係三十幾位喇。

24 主席：（經傳譯員）唔該晒，係，黃律師。

25 黃女士：（經傳譯員）唔該晒，黃生。想請你睇一睇 NLB 第一號文件喇，31 頁，第  
26 三個文件冊，右手邊。你提供嘅資料就話你要求申請人將過去同現有嘅職業資  
27 料係喺申請表裏面填寫㗎，咁喺呢一個就聘用嘅過程裏面，我哋會解釋畀佢哋  
28 聽，無論係全職定兼職都好喇，嗰個工作嘅安排係受呢個指引去規管㗎，咁亦  
29 都係要確保要係同外間嘅工作係要分得好清楚，同埋係要有足夠嘅休息時  
30 間，咁除咗口頭上將呢啲資料講畀兼職車長聽之外，即係話要佢哋係確保有足  
31 夠嘅時間同埋係同外面嘅工作有適當嘅分隔之外，仲有冇其他嘅要求或者係要  
32 求兼職車長去提供資料，即係話係喺你公司返工之前就係--即係嗰個嘅工作時

1 數等等。

2 黃焯安先生：好，唔該，咁喺我哋遞交呢個資料嘅時候，嗰陣時係未有嘅，只係係口  
3 頭上嘅啫，咁就係頭先我哋正正頭先提及到嗰啲就係一個新嘅措施，咁就要求  
4 佢哋去申報番，唔該。

5 黃女士：（經傳譯員）即係 2018 年 6 月之前喇，你係冇辦法去確保呢啲兼職車長係  
6 咪工作超過咗指引上面嘅工作時間，即係除咗係口頭同你講之外？

7 黃焯安先生：係，之前--6 月前我哋都係--即係或者到有一部分喇今天，係喇，都  
8 係要靠主要係同佢面對面去溝通喇，咁去了解佢嗰個即係作息、工作，即係正  
9 職工作嗰個時間。

10 黃女士：（經傳譯員）我想叫你睇番就係其他巴士公司嘅資料，就係呢一個嘅城巴嘅  
11 文件夾嚟㗎，第二號文件夾嘅第 400 頁、401 頁，呢個就係嗰份文件嘅第 2 頁  
12 嚟㗎，係一啲嘅重要資料，第 3 項就話「你現時有否兼職工作，如有，工作類  
13 型及時間」，呢個係城巴嘅申請表，我哋睇到係要求僱員係喺呢一個合約上面  
14 表明有冇其他嘅兼職工作，你會唔會考慮採納呢個申請表呢一項嘅資料去更新  
15 你自己嗰個嘅入職申請表？

16 黃焯安先生：啱啱睇到嗰個文件，咁即係當然我要再詳--返去同同事再詳細啲睇，咁  
17 初步咁睇，我覺得都係好值得去參考嘅，會考慮，即係我哋返去都會係考慮將  
18 呢啲措施加強。

19 黃女士：（經傳譯員）我哋繼續，404 頁，係中英對照嘅，404 頁，404-1 同 404-  
20 2，我哋就見到係一啲嘅要求，可能同你哋嘅新表格差唔多，係僱員嘅守則，就  
21 係關於外間工作㗎，裏面有一啲詳細嘅資料，唔單只係有嗰個公司、薪酬、工  
22 作時間喺底下喇，仲有一個特定嘅聲明添㗎，呢個聲明就要求僱員係要確保遵  
23 行呢個資料嘅披露㗎，你會唔會考慮採納呢個嘅措施喺你哋新嘅表格裏面？

24 黃焯安先生：我哋自己如果而家初步去睇呢張 form，因為都要再詳細啲睇喇，咁我  
25 哋都--好嘅建議我哋都一定會去接納㗎，因為--係，即係都未能夠好詳細睇，  
26 係喇，呢個都要返去再詳細啲睇一睇先。

27 黃女士：（經傳譯員）未講另外一個事項之前，我就想講一講關於係一個違例駕駛記  
28 分嘅披露㗎，喺你資料裏面，你就話要求所有嘅車長，無論係兼職、全職都  
29 好，係硬性規定要將自己違例駕駛記分嘅紀錄係講畀公司聽，如果有改變亦都  
30 要講，同時，公司係會隨機去抽樣檢查㗎，即係確保呢啲資料係正確。我第一  
31 個問題就係你會唔會係喺僱用佢哋之前先查下佢哋嗰個有關嘅駕駛罪行或者記  
32 分紀錄？

33 黃焯安先生：我交畀陳天龍先生去作答。

34 陳天龍先生：主席，我哋喺我哋請人嘅時候，如果申請咗入職之前，我哋係會要求個  
35 車長去攞一份所謂叫做「查底紙」嘅，咁上面係會睇到佢曾經被扣分嘅紀錄㗎

1 度嘅。

2 黃女士：（經傳譯員）唔該。想請你睇下有關運輸署文件夾一號，呢個就係運輸署嘅  
3 文件嚟㗎，第 135 頁第 4 段，喺第一行就話喇，所有嘅專營巴士經營者就係除  
4 咗大嶼山，就要求佢哋嘅車長申請人係會 check 下佢哋嗰個嘅記分紀錄㗎，咁  
5 你哋--即係除咗你哋公司之外，其他嘅巴士公司都會係會查一查佢哋個紀錄  
6 㗎，對於呢一個資料呢一句，你有冇任何嘅意見想表達？

7 主席：（經傳譯員）你頭先所講喇，呢句說話係唔正確㗎，係唔準確㗎，係咪咁嘅意  
8 思？

9 黃焯安先生：我相信因為本身我哋其實呢一個--頭先啱啱陳生講話查牌嗰個措施，我  
10 哋係今年 2018 年初嘅時候開始嘅，咁我哋呢個都要返去睇清楚係幾時係即係正  
11 式係推行呢樣嘢喇，係喇，應該就 2018 年初嘅。咁可能係喺呢度--即係話  
12 因為本身我哋交呢個資料上委員會嘅時候，咁我哋就唔會同運輸署溝通，即係  
13 大家填啲乜㗎嘛，係喇，呢個都大家獨立㗎喇，咁可能係佢個紀錄度就未有我  
14 哋呢方面嘅更新㗎喇，咁或者我哋自己更新㗎，亦都--因為我哋自己個定位呢  
15 啲都係公司內容嘅一啲措施，咁我哋亦都可能冇去--即係當開會嘅時候又有同  
16 運輸署提番呢樣嘢，咁所以可能大家有咁嘅誤會。

17 主席：（經傳譯員）你講之前--黃女士。你會唔會提供資料係幾時開始做呢個檢查  
18 㗎？

19 黃焯安先生：Yes, sure。

20 主席：（經傳譯員）黃律師，可以，請你繼續㗎。

21 黃女士：（經傳譯員）除咗提供呢個資料，你可唔可以講下有關於呢一個係查下佢哋  
22 嘅違例駕駛記分，喺 2018 年 6 月之前，你哋嘅措施係咩嘢㗎，知唔知？

23 主席：（經傳譯員）黃先生同我哋講就係話 2018 年初開始嘅，而並非 6 月開始嘅。

24 黃女士：（經傳譯員）我哋睇番第 9 段或者係第 4 段㗎，呢度講新世界、城巴兩間公  
25 司就會話如果嗰啲申請人佢哋過去三年之內就係有九分扣咗嘅時候，佢哋就唔  
26 會聘請呢啲申請人嘅，咁而九巴同埋龍運就係話如果呢一個嘅申請人喺過去兩  
27 年係扣咗九分嘅時候，佢哋就唔會獲聘用㗎，咁你哋嘅政策又係點樣，喺呢方  
28 面？

29 黃焯安先生：我哋暫時有呢一方面嗰個好詳細嘅資料，不過我哋呢一刻相信就我哋有  
30 話好似另外兩間公司咁樣，有個明確定咗話例如對上兩年或者對上三年佢係有  
31 幾多分扣減㗎，我哋就一定唔請囉，咁呢一刻我哋就--我相信我哋有呢一個  
32 policy 喇，即係...

33 黃女士：（經傳譯員）咁你會唔會考慮係實施有相關類似嘅政策？

34 黃焯安先生：呢個會考慮嘅，因為咁我相信就咁--即係就咁好表面去睇落去，其實最

1 主要我哋諗呢一個車長嘅--佢有冇畀人哋去扣咗分，咁主要都係想--即係呢個  
2 因為係正正就係其實佢平時個駕駛態度等等，可以好實際反映出嚟囉，咁呢個  
3 我哋都會考慮，咁但係當然你話要我哋喺呢一刻去答你話係兩年㗎、三年㗎、  
4 九分㗎、七分㗎咁樣，我就即係答唔到喇，不過會係咪--考慮下係咪同佢哋一  
5 樣囉，係。

6 黃女士：（經傳譯員）好，根據你嘅答案，喺 2018 年 6 月之前，你哋間公司係冇去  
7 查核兼職車長佢哋個違例駕駛記分紀錄㗎，係唔係？

8 黃焯安先生：主席，呢個我哋希望畀啲時間我哋返去搜集番啲資料再交番畀委員會，  
9 係。

10 主席：（經傳譯員）好，唔該晒。

11 黃女士：（經傳譯員）就想去另一個課題，係關於租用非專營巴士嘅，...

12 羅先生： I have a question.

13 主席：（經傳譯員）羅教授係想問一個問題。

14 羅先生：（經傳譯員）我想澄清一點，你係用更多非全職或者兼職嘅車長，呢個係你  
15 間公司嘅政策㗎，還是因為你係唔能夠係聘用足夠嘅全職，所以你就係用更多  
16 嘅兼職㗎，係邊一方面呢？

17 黃焯安先生：你話係咪我哋公司嘅策略去請兼職，呢個就一定唔係，咁至於你話--即  
18 係頭先律師都有問到，點解會嗰個兼職個比例咁高，因為其實以往--即係亦都  
19 去講番喇，喺今次委員會之前，其實我都--我自己本人喇，亦都唔會知道其實  
20 其他巴士公司嗰個兼職人數，我都係睇到先知原來我哋嗰個兼職比例係比起其  
21 他公司係高咁多嘅，咁呢個我哋都會即係再去--即係我哋自己內部都會去--即  
22 係一路都有--呢一刻，就去諗番其實嗰個即係實際嘅問題係喺邊度喇，係喇，  
23 當然，我哋自己梗係請到想--傾向係想請全職嘅員工多過想請兼職嘅員工，  
24 係。

25 黃女士：（經傳譯員）我想跟進呢一個問題，黃先生，喺你個陳述書第 18 頁之中，  
26 第一號文件第 18 頁，第 6 段之下嗰一段同埋喺行車時間之前嗰段，佢呢度就講  
27 話--呢個講就係話「我哋好積極係希望能夠增加我哋嘅人手，譬如--例如可以  
28 係參加勞工處嘅職業招聘會同埋其他等等嘅相關嘅活動」，咁同埋你就講話  
29 「我哋喺呢一個聘用條件改善咗之後，我哋相信呢一啲嘅措施可以係增強我哋  
30 嘅人力資源」，你亦都提到有一系列嘅措施，包括係第一至到第六點。除咗呢  
31 一啲第一至六嘅措施之外，你有冇考慮過其他改善措施，譬如話薪酬方面或者  
32 福利方面等等，就係改善兼職或者全職車場嘅待遇？

33 黃焯安先生：咁本身喺我哋公司，其實每年都會--基本上每年都會去做一個薪酬嘅調  
34 整喇，咁至於你話福利嚟講，我哋喺 2018 年開始其實就畀多咗五日嘅假期我哋  
35 嘅車長嘅，因為普遍其實行業嚟講，佢哋嗰個假期就叫做勞工假喇，就十二

1 日，咁我哋就係畀多五日佢哋，就同白領睇齊囉，因為我哋都覺得即係我哋自  
2 己嗰個出發點都係希望即係同事係多啲假期，咁有個多啲作息時間，亦都畀個  
3 彈性佢哋去選擇係工作定係休息咁樣囉。咁當然，你話人工加幅啲，我哋就  
4 每年去睇番個實際情況囉。

5 黃女士：（經傳譯員）關於呢個另外五個假期就係咪所有嘅全職嘅車長都適用？

6 黃焯安先生：係，所有全職嘅車長都有。

7 黃女士：（經傳譯員）我就去另一個課題，係關於係租用非專營巴士，係第一號文件  
8 嘅第 17 頁。我哋喺個表格下低我哋睇到，你就話就係如果運輸署係同意嘅時  
9 候，咁你就會喺租用--係起碼向承辦商租用三十架非專營巴士，係有埋車長  
10 㗎，喺每一個週末都會咁做，咁呢個嘅數量係等如你嘅成個車隊數目大概係百  
11 分之二十五。首先我想問一問，就係關於承辦商，你係講緊一個承辦商，還是  
12 係多個供應商？

13 黃焯安先生：一個，one contractor。

14 黃女士：（經傳譯員）咁係叫做乜嘢名？

15 黃焯安先生：嗰間公司個名叫做冠忠遊覽車有限公司，Kwoon Chung Motors。

16 黃女士：（經傳譯員）呢啲係非專營巴士，就係係去應付喺週末嘅時候嗰個乘客量嘅  
17 增加同埋假期，就唔係喺平日嘅，係咪？

18 黃焯安先生：係。

19 黃女士：（經傳譯員）喺你補充嘅陳述書之中講，喺 2018 年 6 月 15 號提交嘅時  
20 候，第 38 頁裏面，係呢個一號文件夾第 38 頁，咁你就係附夾咗運輸署不反對  
21 嘅書信，就係 2017 年 12 月 19 號嘅日子，咁呢一封信--我哋睇番第 37 頁，  
22 你信件裏面講就係話運輸署嘅同意書其實過去二十年都有同意嘅，咁你就係用  
23 唔同嘅方法就去搵番相關嘅資料，咁你就有冇搵過首封嘅准許信？

24 黃焯安先生：暫時未搵到，都仲係。

25 黃女士：（經傳譯員）咁你會唔會再繼續？

26 黃焯安先生：會，我哋會繼續嘗試去搵番呢個文件出嚟嘅。因為--不過--即係當然  
27 我哋--因為我自己加入公司就係喺 2011 年嘅時候嘅，咁我照我嘅理解去問番  
28 啲做得耐啲嘅同事，係喺--我哋知道就應該係 1990 或者 1991 年嘅時候已經有  
29 呢個批准嘅，係，咁嗰陣時亦都係因為主要就係嗰陣時喺大嶼山假日係有個好  
30 大嘅需求，但係平日就有咁嘅需求嘅，嗰陣時係講緊去呢個寶蓮寺，因為嗰陣  
31 時轉吊車都未起嘅。咁所以就大嶼山巴士就得到運輸署嘅同意，咁就向--租用  
32 一啲非專營巴士，喺假日嘅時候就去幫佢哋高峰囉。

33 因為我哋嗰個公司其實同另外兩個公司都--不論喺規模上同埋其實我哋嗰個

--即係啲線路嘅結構都好唔同，咁我哋都係其實主要就係倒番轉，假日先至係我哋嘅高峰嚟嘅，反而一至五就其實係相對地嗰個客量就有咁多嘅。咁變咗我哋嗰個出發點就係如果要我哋公司去為咗星期六或者日嘅高峰而去採購額外，都講緊兩至三成嘅車咩，咁嗰陣時當然係唔止添喇，因為我哋今天先有今日咁嘅數量啫，喺 90 年嘅時候，咁嗰陣時連青馬橋都未起嘅，咁當然我答唔到嗰陣時係嗰個車隊係幾大喇。咁變咗就有呢一個安排囉，就時至今日。

黃女士：（經傳譯員）呢個運輸署嘅信件就係 2017 年 12 月 19 號嘅日期，咁但係你嗰個信件--你就係 2017 年 12 月 4 號嘅時候發出嘅，咁你就話嗰個運輸署就講，就話唔會反對你喺假日同埋週日--星期日嘅時候係租用不超過八十個非專營巴士，就係由 2018 年 1 月 1 號至到 6 月 30 號嘅。咁然後喺五十架就係非專營巴士就係每一個嘅星期六，就由 2018，1 月 1 號等等，呢個就係第 2 段嘅。咁我嘅問題就係邊個決定究竟係租用幾多架非專營巴士喺呢啲嘅時期裏面係邊個做決定嘅呢？

黃焯安先生：係，唔該。係我哋公司去決定有幾多部車，即係需要多幾多部車。

黃女士：（經傳譯員）係，如果我有理解錯誤，你嘅專營巴士嘅數目一共總數係一百三十嘅，係咪正確？

黃焯安先生：係差唔多咁--一百三十嘅，一百三十幾咁樣，係。

黃女士：（經傳譯員）所以嗰個比例係幾高㗎，你有冇考慮過就購置更多嘅巴士，喺將來就由你哋自己嚟管理嘅呢？

黃焯安先生：因為本身喺--唔該先。喺本身喺呢個信度，運輸署批准八十、五十呢個數字係 maximum 㗎，即係最高，咁實際我哋其實就點解要即係叫做申請多啲呢，因為我哋係以往試過係嗰個非專營嗰邊去同番我哋講，就係嗰個--可能佢哋臨時嘅調動或者擺咗--因為呢個要個禁區證入去大嶼山南，其實呢五十部車係要有個額外嘅禁區證同埋得到署方去准許佢去提供呢個服務，咁所以我哋叫做擺多啲，其實主要係呢個出發點囉。

咁至於你啱啱問，話我哋會唔會考慮採購多啲車喺自己車隊度，咁暫時就未有呢個計劃嘅，因為最主要就係正正頭先我咁講喇，如果就算我哋去買多啲車，其實都係為咗星期六或者星期日，咁一個禮拜七日裏面，其實係淨係得嗰兩日，同埋係就算係星期--唔係每一個星期六、星期日都會係有咁多客嘅，例如係天氣唔係咁好嘅時候㗎，因為咁主要我哋其實今日喺星期六、日較為--即係個客量比平日較為多嘅線路，其實就係例如去大澳同埋去昂平呢兩條線。咁當一打風落雨或者天氣唔係咁好嘅時候，其實嗰個客量就會係大大咁減少，咁所以我哋呢一刻係未有呢個計劃去加多啲。咁當然，如果你話如果未來係講緊連我哋星期一至五都會係--長遠嚟講，星期一至五都睇到係有個咁嘅增長或者個需求係有喺度嘅話，咁我哋當然係會考慮去自己採購車。

黃女士：（經傳譯員）邊個去決定呢個六個月嘅時期，就係第 1 段同埋第 2 段所陳列

1 嘅，係關於租用非專營巴士？

2 黃焯安先生：呢個就我相信係運輸署嗰邊喇，就半年，即係你講嗰個問題係半年咁  
3 嘛，係喇，就運輸署嗰邊嘅——係喇，即係我哋都係入半年咁樣，係。

4 黃女士：（經傳譯員）喺下半部分就係運輸署就羅列咗六個條件，（a）至到（f）嘅，  
5 我哋可以咁樣就係講一講喇，就係「嗰啲巴士個年齡係六歲以下喇；咁我哋就  
6 係——我哋係採用相同嘅維修標準喇，好似呢一個嘅專營巴士一樣」，呢一個係  
7 咩嘢意思？就係「我哋租用嘅巴士係同呢一個我哋專營巴士個維修水準一  
8 樣」，咁呢個確切嚟講係咩嘢意思？

9 黃焯安先生：我想請楊先生去幫我作答呢條問題。

10 楊家寶先生：主席，多謝。所有呢啲非專營巴士，我哋都係會將佢納入為好似我哋專  
11 營巴士咁樣嘅處理方式，喺個保養同埋維修方面，咁包括係每一個月有一個我  
12 哋叫做“MI monthly inspection”，月檢嘅保養喇。同埋佢會——佢需要通  
13 過一個年檢嘅檢查嘅，呢個同專利巴士一樣嘅做法。

14 黃女士：（經傳譯員）你知唔知道呢啲所有嘅非專營巴士佢哋有冇黑盒？又或者限速  
15 器？

16 楊家寶先生：係有嘅，係有嘅。

17 黃女士：（經傳譯員）呢個係咪一個合約嘅要求嚟嘅呢？喺你哋係同呢啲——同呢一間  
18 非專利巴士承辦商簽嘅合約係咪有一個咁嘅要求？

19 黃焯安先生：因為我哋今天係會要求我哋呢個營辦商去將呢部非專營巴士係要將佢去  
20 配置到等同我哋一部專營巴士，要佢咁樣安排喇，係，即係嗰個原意就係要做  
21 到呢樣嘢喇。

22 黃女士：（經傳譯員）今日之前，即係以前又點？以前有冇咁嘅要求，就要求所有呢  
23 啲非專營巴士都要有埋呢個黑盒或者係限速器係安裝好？

24 主席：（經傳譯員）邊個嘅要求？

25 黃女士：（經傳譯員）無論係你哋公司嘅要求定——即係話你哋間公司有冇要求呢個非  
26 專營巴士公司係裝配呢一個係黑盒同埋限速器，即係講以前有冇咁嘅要求？

27 黃焯安先生：其實你可以睇番呢度（d）嗰項，咁係喇，其實佢呢架車嘅要求係  
28 “similar on-vehicle facilities” 喇，係喇，咁但係當然係佢入嚟提——  
29 即係幫我哋去提供服務嗰啲車喇，因為本身喺我嘅理解，今天喺運輸署對非專  
30 營巴士係有咁嘅要求，即係同專營巴士係唔同嘅，咁但係就係正正呢一度都已  
31 經係提出咗，如果嗰架非專營巴士係去幫我哋去提供服務，佢就係要將呢架車  
32 係要裝備到同一架專營巴士一樣咁嘅要求。

33 主席：（經傳譯員）對唔住，等等。（2）（d）嗰個係咪視為係運輸署嘅要求，呢一句

1 你嘅解讀係咪就話要求車上有一個黑盒呢，你嘅理解係咪咁㗎？

2 黃焯安先生：因為我嘅理解㗎(d)個項當然佢係冇寫到“black box”㗎(d)個項個  
3 度，但係我哋自己個理解，即係都係要去要求佢裝呢樣嘢㗎，我哋自己嘅理解  
4 係咁樣。

5 主席：（經傳譯員）唔該晒。

6 黃女士：（經傳譯員）可唔可以係畀個樣本我哋睇下，即係睇下你間公司同冠忠關於  
7 使用非專利巴士嘅服務嘅合同嘅樣本，特別係我哋想知道有關嘅安全設備嘅。

8 黃焯安先生：呢個我哋後補番畀委員會，唔該，係，唔該。

9 黃女士：（經傳譯員）或者讓我澄清一下喇，以前，以前，我想問下，有冇咁嘅合約  
10 嘅要求嘅呢？即係話要求冠忠提供一個非專利巴士畀你哋嘅時候，佢係有埋呢  
11 個黑盒同埋限速器嘅，想知道合約裏面有冇咁嘅合約要求呢？

12 黃焯安先生：呢個我唔--我哋都要返去睇番個文件先，係，係喇，唔該。

13 黃女士：（經傳譯員）唔該。好，去到第 6 項嘅要求喇，(f)個度，個度就係話應該  
14 係安排非兼職司機去行呢個東涌道嘅巴士線，之前亦都係要得到恰當同埋足夠  
15 嘅訓練嘅，由你哋去訓練嘅。好喇，想問下喇，點解東涌路就係嘅路線就特別  
16 係要抽出嚟講嘅？

17 黃焯安先生：因為㗎--頭先我講就係喺嶼南，即係大嶼山南面嘅線路其實佢就係一定  
18 係曾經東涌道，因為個邊嘅路其實係主要係靠東涌到嘅啫，即係從東涌入去嶼  
19 南，包括去大澳同去昂平，咁我相信佢喺呢度咁樣去列出嚟，係即係主要係呢  
20 個--因為我哋唔係話去搵部車嚟去行東涌個邊嘅線路㗎，就係行嶼南嘅線  
21 路，大嶼山南面嘅線路，咁我相信係呢一個意思喇，係。

22 黃女士：（經傳譯員）睇嚟呢度就講出一個必定要遵守嘅要求，即係話必定要搵全職  
23 嘅車長去行呢啲東涌道嘅巴士線。我想問下喇，東涌道嘅巴士線有冇咩嘢特別  
24 嘅呢，有冇咩嘢特別呢？同埋呢度亦都有一個好具體嘅要求，就話嘅車長係要  
25 由你哋公司係畀足夠同埋恰當嘅係培訓嘅車長嘅。

26 黃焯安先生：呢個我哋唔係肯定個個條款嘅原因，咁我哋在座我哋自己去初步去諗，  
27 就覺得係因為喺東涌道重建之前，其實係一條好窄好窄嘅路，而係同今天個條  
28 路就好唔同，個路況，咁但係我哋陣時太細個，我有印象係點樣。咁但係我哋  
29 相信即係其實喺即係呢個條款度，其實主要係--係喇，即係因為個陣時東涌道  
30 嘅路況喇。咁當然，你話如果係咁，咁而家都重建完喇，咁點解都仲喺上面  
31 呢？咁呢個都要再返去我哋自己同啲同事去詳細啲去傾一傾，因為喺我哋嘅理  
32 解，其實呢封就係運輸署出畀我哋，就每半年出一次咁樣嘅，咁就可能一啲恒  
33 常啲嘅文件，我哋亦都有好--即係定期去檢討番其實會唔會有啲條款裏面係唔  
34 適用呀點樣，係，唔該。

1 主席：（經傳譯員）或者你未繼續問之前，黃律師，呢個係運輸署嘅信件嚟嘅，運輸  
2 署或者可以話畀我哋聽點解嗰個條款係喺嗰度嘅。

3 黃女士：（經傳譯員）係，好。呢度亦都講咗㗎，一定係得到你哋公司嘅妥善同埋足  
4 夠嘅培訓，我想問喇，你哋有冇咩嘢安排嚟到確保呢啲全職嘅車長--係呢一個  
5 非專利巴士嘅全職巴士車長係會得到你哋公司嘅足夠嘅培訓先至去揸嗰啲車？

6 黃焯安先生：主席，我會交畀李先生幫我哋作答。

7 主席：（經傳譯員）係，李先生，請。

8 李春暉先生：主席，咁我講番喇，咁其實喺培訓嗰方面，非專利同埋專利嘅車長行呢  
9 個東涌道，其實我哋都有特別嘅安排嘅，我哋都同運輸署--都覆番佢喇，呢個  
10 嶼南路喇，由於嗰個路面比較窄同埋彎位比較多，我哋會行經呢類嘅同事車長  
11 都要接受兩日嘅路線訓練，目的就係要佢熟習喺路面上嗰個嘅操作熟習性、嗰  
12 個警覺性。咁喺呢一個路線訓練嘅同時，我哋嘅駕駛導師係會睇一睇車長本身  
13 喺呢啲彎位嗰個嘅技巧，咁我哋都會有個評估嘅，咁所以喺非專利車長去幫我  
14 哋做呢個嘅責任嗰陣時，我哋都會同佢做一個路線訓練。

15 黃女士：（經傳譯員）我相信嗰個全職車長係需要五天嘅培訓㗎，係嘛？即係如果佢  
16 哋要行呢條線，佢哋就接受五天嘅培訓㗎，係嘛？

17 李春暉先生：我補充律師先，五天嗰個培訓係 for 新入職嘅車長，而現職車長我哋  
18 會因應番佢嗰個嘅需要，譬如頭先我所講，嶼南路我哋會額外提供兩日嘅路線  
19 訓練。

20 黃女士：（經傳譯員）唔該。我想問，有冇咩嘢措施嚟到去睇下呢啲係非專營巴士嘅  
21 車長佢哋嗰個資歷同埋佢哋個水準咁呢，或者佢哋個扣分紀錄咁呢？

22 黃焯安先生：今天我哋去對待呢個非專營巴士同我哋專營巴士嗰啲會係一樣嘅，係  
23 喇，即係嗰個措施等等嗰啲都係一樣，即係有，有嘅，係，即係都係一樣嘅。

24 黃女士：（經傳譯員）即係今日，今時今日？

25 黃焯安先生：唔。

26 黃女士：（經傳譯員）咁之前？2018 年之前又有冇咩嘢措施嚟到去查核佢哋嗰個資  
27 歷同埋佢哋嗰個駕駛嘅紀錄？即係關乎呢啲非專營巴士嘅車長，定抑或你哋基  
28 本--根本就係喺合約上已經係有咁要求，要求冠忠做到呢點？

29 黃焯安先生：因為今天我哋就有即係要求我哋個承判商佢係將每一個佢嗰個--即係個  
30 車--頭先嗰封信有個車牌喺度喇，即係呢一封後面就有啲車牌喇，咁車我哋就  
31 有資料喇，咁但係佢係咪每一個人--因為其實人--就會涉及多啲人嘅，就唔一  
32 定係八十個人定五十個人咁樣嘅，咁本身今天我哋就有特別安排要佢去提交番  
33 啲人嗰個資料，即係今天就有呢個安排。

- 1 黃女士：（經傳譯員）較早時候，...
- 2 主席：（經傳譯員）我唔明白，你今時今日有冇咁嘅要求，定抑或你將來係會係要求  
3 咁樣做？
- 4 黃焯安先生：今天未有呢個安排。
- 5 主席：（經傳譯員）好，唔該你。係，歐陽委員。
- 6 歐陽先生：（經傳譯員）係，唔該晒，主席。我想講番係呢封信，呢個係運輸署嘅函  
7 件嚟嘅，如果我嘅理解係咁嘅話，佢呢度就係畀你嘅呢個批准就會係 6 月尾就  
8 係到期㗎喇，你哋收到運輸署另一封函件係作出咁嘅類似安排嘅未？
- 9 黃焯安先生：未收到。
- 10 歐陽先生：（經傳譯員）好，唔該你。
- 11 黃女士：（經傳譯員）有冇申請？
- 12 黃焯安先生：有申請，申請㗎。
- 13 黃女士：（經傳譯員）幾時？幾時申請？
- 14 黃焯安先生：呢個要返去睇番先，呢個你可以例如--我相信都係喺 5 月底、6 月頭嘅  
15 時候，因為例如喺咁而家喺螢光幕上面嗰封信，咁我哋都係喺嗰陣時係--例  
16 如 12 月尾到期，我哋就係 12 月初嘅時候就寫入去續咁樣囉。
- 17 黃女士：（經傳譯員）可唔可以畀個係副本我哋睇？即係畀運輸署封信。
- 18 黃焯安先生：可以，係呢...
- 19 黃女士：（經傳譯員）你哋有冇係就呢啲安排係同運輸署就係有啲跟進嘅討論？即係  
20 除咗寫咗信寄咗畀佢哋之外。
- 21 黃焯安先生：我唔係太明你個問題係咩嘢意思。
- 22 黃女士：（經傳譯員）同運輸署有冇進行過商討？即係寫咗信申請係續期之後，有冇  
23 再同佢哋商量過？又或者有冇開過會去跟進？
- 24 黃焯安先生：因為我哋有同運輸署見面呀、開會呀，但係就唔--你話相信係同我哋入  
25 嗰封信或者個申請而去開會，我相信就有嘅。
- 26 黃女士：（經傳譯員）好，關於呢項安排喇，我想問喇，你係咪每一路等，等到係運  
27 輸署作出批准，然後你先至係同冠忠係簽合同，係請佢哋係提供啲非專利巴士  
28 畀你哋㗎？
- 29 黃焯安先生：因為我哋同個 contractor 個合約就係長啲嘅，係講緊--我印象中--  
30 因為呢一刻冇個實際資料喺手，但係應該係三年期嘅，咁就唔係話我每半年當

1 我收到運輸署嘅同意喇，咁我先至再同個 contractor 去簽，即係其實係一個  
2 簽咗三年嘅合約，如果我哋需要同佢租車就同佢租車，咁樣嘅安排囉，咁但係  
3 就本身署方就係--係囉，就有--一路有呢個安排，就要我哋每半年去續呢個申  
4 請，係喇，我諗主要就係佢要去睇番啲車係咪符合番頭先講啲嘅要求，包括年  
5 份啲嘅。

6 黃女士：（經傳譯員）你剛才就有提到，你提到就會係要求冠忠就係安裝一個限速器  
7 同埋黑盒㗎，即係由而家開始就要求佢安裝呢兩樣嘢喇，你可唔可以講多啲？  
8 你有啲咩嘢措施去確保佢哋會裝一個黑盒同埋限速器？

9 黃焯安先生：因為佢裝呢個儀器，咁佢裝咗上去，我哋就即係要佢通知番我哋佢裝咗  
10 咁樣。

11 黃女士：（經傳譯員）係咪由而家開始？

12 黃焯安先生：之前都--即係一路嘅做法都係佢裝咗就通知我哋咁樣，係，咁而我哋-  
13 -因為例如好似黑盒咁樣，我哋係可以即係睇番，即係從一啲系統度都可以睇番  
14 究竟啲嘅叫做上傳嘅數據㗎嘛，咁變咗都即係呢方面我哋就--即係你話我哋喺  
15 我哋自己有冇去話定期再去核實佢，即係係咪話例如佢每次嚟到，我哋都會睇  
16 下佢有冇呢，呢個就一定冇嘅，咁因為我哋都相信佢裝咗上去，啲嘅硬件其實  
17 佢唔會拆番落嚟，係喇，咁我哋就係會咁，即係佢第一次裝咗就通知我哋咁樣  
18 囉。

19 黃女士：（經傳譯員）有冇書面嘅紀錄，就係記錄低佢哋係咁樣樣通知你哋？

20 黃焯安先生：可以，我哋返去補充番畀你，一條呢個，係，因為冇準備得咁充足，唔  
21 好意思。

22 黃女士：（經傳譯員）係，好吖，唔該你。

23 主席：（經傳譯員）麻煩你都提供啲嘅資料。

24 黃焯安先生：Okay, sure。

25 黃女士：（經傳譯員）我想問下喇，而家有啲咩嘢措施去監察呢啲非專營巴士嘅車長  
26 佢個駕駛嘅資歷同埋佢個駕駛嘅紀錄？

27 黃焯安先生：係，唔該。Existing，即係頭先都有提到喇，呢一刻我哋就有要求我  
28 哋個承辦商去將啲嘅資料提供畀我哋嘅，咁我哋都即係會--頭先例如我哋講，  
29 我哋兼職啲嘅同事去攞喇，咁我哋都下一步係即係有呢個計劃去向佢哋索取呢  
30 啲嘅資料。

31 黃女士：（經傳譯員）咁會唔會有類似嘅要求，即係好似要求兼職車長咁，即係簽一  
32 個嘅聲明書，即係要求呢一啲嘅非專營巴士車長簽類似嘅聲明，先至可以畀佢  
33 哋駕駛呢啲嘅巴士？

1 黃焯安先生：我諗我哋呢一刻未有個決定究竟係點去即係實施嗰個措施喇，呢刻未有  
2 個確定點去做，咁但係就我相信會係啲即係同我哋本身不論請長工或者兼職，  
3 都係一啲類似嘅做法喇，咁呢個會--但係呢一刻未有個決定，係。

4 黃女士：（經傳譯員）即係而家以我嘅理解，你嘅公司今日就唔知道呢啲非專營巴士  
5 司機即係喺任何一日用嘅，之前有冇試過係違反一啲嘅交通條例，你亦都唔知  
6 道佢哋嘅經驗㗎？

7 黃焯安先生：因為本身呢一個 Kwoon Chung Motors，其實佢同我哋嘅關係就唔係  
8 一個完全獨立，即係完全係一個我哋唔識佢咁樣嘅關係嘅，即係本身 Kwoon  
9 Chung Motors 亦都係其實係新大嶼山巴士嘅嗰個控股股東嚟嘅，即係持股，  
10 係喇，咁變咗其實我哋亦都係對於佢 Kwoon Chung Motors 下面嘅嗰個員  
11 工，佢啲我哋都係即係知道佢本身係--即係當然喺大嶼山巴士，我哋係唔會  
12 話好詳細知道每一個同事嘅嗰個--即係我哋本身大嶼山巴士冇存檔㗎，但係我  
13 哋知道佢本身喺招聘等等都係有去即係採取一定嘅措施去確保嗰個係一個  
14 qualified 嘅車長。咁呢個都可以我哋整理一下啲資料，再補充番嘅。

15 主席：（經傳譯員）係，唔該晒。

16 羅先生：（經傳譯員）有三類型嘅巴士喇，全職、兼職同埋駕駛非專營巴士嘅司機，  
17 就有唔同嘅待遇㗎，即係對於最後嘅一種。我問題就係話呢啲非專營巴士都有  
18 黑盒嘅，呢啲黑盒嘅資料幾時會用到？因為呢啲巴士係由非專營巴士嘅司機駕  
19 駛㗎嘛，咁所以係幾時會用到黑盒嘅資料去監察佢哋嘅表現？

20 黃焯安先生：係，唔該，委員。咁喺今天我哋個系統度係睇到呢啲入嚟幫我哋大嶼山  
21 巴士做嘢嘅呢啲非專營巴士嘅黑盒嘅紀錄，我哋係 access 到呢個紀錄嘅。即  
22 係今天已經係我哋係接觸到，係。

23 羅先生：（經傳譯員）咁但係呢啲資料有冇試過用到去監察或者評估佢哋嘅駕駛表  
24 現？

25 黃焯安先生：因為本身講番唔係淨係呢啲非專營巴士喇，我哋自己喺我哋嘅車隊度已  
26 經裝咗黑盒，咁本身我哋去檢視呢啲我哋自己--即係先唔好講話 non-  
27 franchised 先，我哋都係用一個 random check 嘅方式，每個月咁就去檢查  
28 究竟我哋呢啲車有冇一啲--或者啲車長有冇啲駕駛嘅問題嘅，咁喺非專營巴士  
29 呢啲，我哋相信都係用一個同樣嘅--即係喺我哋自己嗰邊，去同樣去一個方  
30 法，但係呢一刻我要即係返去都要問番啲同事，究竟呢個 random check 呢一  
31 個抽查係有冇抽查到嗰八十部車喇，喺星期六、日嘅時候。因為呢一刻我抱  
32 歉，未能夠去確定答到你，但係本身我哋整體都係咁樣去抽查。

33 主席：（經傳譯員）講其他嘢之前我想問，你哋六個人有一個可以答到呢個咁簡單嘅  
34 問題？即係話會唔會去檢查下呢啲非專營巴士上面嘅黑盒。

35 陳天龍先生：主席，我想補充少少，而家我哋就暫時未係好主動咁去 check 個黑盒

1 裏面嘅資料嘅，但係裏面嘅資料我哋會點樣用？我哋如果收到投訴嘅時候，我  
2 哋就一定抽查裏面黑盒嘅資料去調查個事件嘅。

3 主席：（經傳譯員）唔好意思，即係你係有投訴先至會採取行為，係嘛？

4 陳天龍先生：冇錯。

5 主席：（經傳譯員）即係同埋有意外嘅時候？

6 陳天龍先生：冇錯。

7 主席：（經傳譯員）咁會唔會隨機抽樣查呢啲非專營巴士嘅黑盒㗎？

8 陳天龍先生：我哋亦都有做嘅。

9 主席：（經傳譯員）唔該。黃律師，喺適合嘅時間我哋想休息二十分鐘。

10 黃女士：（經傳譯員）或者我想係先講一講關於呢一個安全表現方面先。黃生，除咗  
11 呢一個嘅問題之外，仲有冇其他嘅措施去監察非專營巴士佢哋嘅安全表現？即  
12 係你哋公司用緊呢啲呢類型嘅巴士司機，譬如係一啲神秘嘅乘客，或者會唔會  
13 係將你哋嘅員工係要佢哋搭巴士去監察呢啲巴士司機嘅表現？

14 陳天龍先生：主席，我哋其實每個月都有做 mystery shoppers 嘅，咁其實呢一方  
15 面都係唔分我哋大嶼山嘅車咩，定係入嚟幫手嘅非專營巴士嘅。

16 黃女士：（經傳譯員）呢個神秘嘅檢查就會係即係三種嘅巴士車長都會用嘅？即係如  
17 果你發現一啲唔合標準、低於標準嘅表現，或者超速，又會採取咩嘅紀律行  
18 動，即係關於非專營巴士司機呢方面？

19 陳天龍先生：如果我哋發現有譬如係超速嘅情況，咁我哋會有一啲--我哋會發警告信  
20 畀--甚至乎我哋會 suspend 佢哋，唔畀佢入嚟大嶼山嗰度做嘢嘅，如果嚴重起  
21 上嚟。

22 黃女士：（經傳譯員）喺呢個係一個適合嘅時間。黃生同埋你嘅同事，我哋而家會休  
23 息二十分鐘，跟住喺呢個 11 點 50 分再繼續。

24

25 上午 11 時 28 分聆訊押後

26

27 上午 11 時 50 分恢復聆訊

28 出席人士如前。

29

1 主席：（經傳譯員）黃律師。

2 黃女士：（經傳譯員）多謝主席。

3 黃焯安先生：Excuse me, Chairman, 我有啲資料想補充番，係關於頭先講--  
4 excuse me。

5 主席：（經傳譯員）係，可以，可以補充。

6 黃焯安先生：關於頭先我哋講話新入職嘅同事去做嗰個查底嗰個紀錄，我想補充番，  
7 我哋唔係由 2018 年開始嘅，我哋呢個做法已經係一個好長嘅時間，即係好多年  
8 㗎喇。我哋 2018 年做嗰個係因為以往我哋每年可能只係會揀一部分嘅車長出嚟  
9 去抽查佢哋嗰個紀錄，喺 2018 年我哋做嘅，年初係講緊我哋全體嘅車長，我哋  
10 向佢哋再攞--即係去查多次全體車長，我哋自己個計劃係每年...

11 主席：Thank you.

12 黃焯安先生：係喇，都去查，係。

13 黃女士：（經傳譯員）你講緊就係呢啲關於係違例駕駛記分嘅紀錄，係咪？

14 黃焯安先生：係。

15 黃女士：（經傳譯員）另外仲有啲跟進問題，黃生，之前你講過，關於嗰啲安全裝置  
16 方面，嗰啲非專營巴士嘅硬件，你話佢哋係有同專營巴士相同嘅裝置，我哋就  
17 睇番第 453 頁，就係文件冊嘅第 2 號，呢度就係有講到所有嘅新大嶼山巴士公  
18 司嘅安全嘅裝置嘅，呢度一共有二十四個裝置嘅，你可唔可以確認又或者基於  
19 你嘅理解，呢啲所有嘅非專營巴士都係有裝置所有 453 頁嘅所列出嘅一啲嘅裝  
20 置？

21 黃焯安先生：唔該，抱歉，要少少時間去確定番。因為喺呢廿四個 item 嗰度，有一  
22 --例如講雙層巴士嗰個，就--唔好意思，係，確認有嘅。因為頭先我問清楚同  
23 事，我哋都有租用雙層巴士嘅，裏面嘅係有。

24 黃女士：（經傳譯員）唔該晒。亦都有跟進問題，你話你會租用非專營巴士，就有冠  
25 忠公司，係咪？你係從呢個冠忠遊覽車公司去租用嘅？

26 黃焯安先生：Kwoon Chung Motors。

27 黃女士：Kwoon Chung Motors.（經傳譯員）你係咪新大嶼山巴士公司百分之九  
28 十九點九九都係冠忠遊覽車有限公司所擁有㗎喇，呢個後者係一間上市公司㗎  
29 嘅？

30 黃焯安先生：個母公司係 Kwoon Chung Bus Holdings，但係中間可能係有用其  
31 他公司嚟持有新大嶼山巴士嘅股份，我嘅喺呢度--係喇，要去睇番，但係最終  
32 嗰個母公司就係 Kwoon Chung Bus Holdings，冠忠巴士集團。

1 黃女士：（經傳譯員）你間公司，換句話嚟講，就係向你嘅母公司去租用非專營巴  
2 士？

3 黃焯安先生：係，正確，係，但係我哋係有公開去投標嘅，呢個過程係。

4 黃女士：（經傳譯員）黃先生，你自己同埋 Timothy Wong 就係黃焯添先生都係呢  
5 一個嘅冠忠遊覽車有限公司嘅股東呢？

6 黃焯安先生：係，正確，本身我自己冠忠巴士集團係個職銜係行政總裁，黃焯添先生  
7 係冠忠巴士集團嘅營運總監。

8 黃女士：（經傳譯員）唔該晒。喺 2017 年冠忠嘅主席就係 Mr Matthew Wong，係  
9 你嘅爸爸，啱唔啱㗎？

10 黃焯安先生：係，正確。

11 黃女士：（經傳譯員）我個問題就係話當你間公司係租用非專營巴士公司，係同母公  
12 司去租用嘅時候，嗰個佢哋嗰個租金係點樣去取得大家去同意個租金嘅呢？

13 黃焯安先生：頭先正如我咁講，就我哋每三年會係去投標。

14 黃女士：（經傳譯員）個租金係點樣去釐訂嘅呢？

15 黃焯安先生：係落標嗰間公司去決定嗰個定價咁樣，而我哋 NLB 就去決定用幾多部  
16 車。

17 黃女士：（經傳譯員）落標嘅公司係指邊個？

18 黃焯安先生：唔好意思，你嘅問題係講緊——即係落標嗰間就叫做 Kwoon Chung  
19 Motors。

20 黃女士：（經傳譯員）你知唔知道運輸署有冇咁嘅要求又或者有冇指引就講及如果用  
21 上呢個非專營巴士嘅租賃嗰方面，喺定價嗰方面佢哋有冇乜嘢指引嘅呢？

22 黃焯安先生：冇嘅，關於價格上嘅，運輸署就有呢個 requirements 或者  
23 guideline。

24 黃女士：（經傳譯員）唔該晒。等我繼續，...

25 主席：（經傳譯員）你未繼續之前，我就想問下，呢個咁嘅安排，同冠忠巴士呢個安  
26 排，你就透過呢個安排，你哋就係租嗰啲非專利巴士，我就想問，係咪 2018 年  
27 5 月 1 號開始嘅呢？

28 黃焯安先生：Chairman，我哋手頭上最——而家 existing 現有嗰份係 2016 年 8 月  
29 生效嘅，到而家，2016 年 8 月。

30 主席：（經傳譯員）喺嗰日之前，我就想問，你哋有冇其他嘅供應商係提供呢一啲非  
31 專營巴士畀你哋用呢？

1 黃焯安先生：冇，係一直都係 Kwoon Chung Motors。

2 主席：（經傳譯員）可唔可以畀我哋知道乜嘢叫做「一直以嚟」？係幾時呢？

3 黃焯安先生：我都係聽番--我哋嘅理解，就係喺--因為冠忠收購大嶼山巴士嘅時候  
4 就係 1992 年嘅，冠忠開始向大嶼山提供服務就應該係 1990 或者 1991 年嘅。

5 主席：（經傳譯員）唔該晒。

6 黃女士：（經傳譯員）等我繼續。想問下，你哋有冇咩嘢嘅措施去監察住呢啲非專利  
7 巴士嘅車長佢哋嘅身體狀況，有冇監察㗎，睇㗎，然後先至係畀佢哋上班呢？  
8 譬如話有冇驗身嘅呢？

9 黃焯安先生：我想確定個問題係講緊佢每一次駕駛㗎，定係佢開始駕駛，即係入職前  
10 咁樣，即係駕駛--幫大嶼山巴士駕駛前？

11 黃女士：（經傳譯員）兩者，兩者都問。

12 黃焯安先生：如果你話每一次駕駛前，呢個冇嘅，一定唔會話每一次駕駛前，因為包  
13 括唔好話係非專營巴士提供嘅車長，我哋自己大嶼山巴士嘅車長，我哋都有可  
14 能每一次開車前去幫佢做一個檢查。至於你講話另外嘅身體檢查，就係例如喺  
15 入職嘅時候，佢就會去做身體檢查。

16 因為我都想補充，其實頭先即係本身，因為 Kwoon Chung Motors 同大  
17 嶼山巴士係一個姊妹公司嘅關係，其實佢本身都有好多今天--因為大嶼山巴士  
18 其實規模係較為細嘅，得一百三十部車，而有好多後勤嘅工作人員或者一啲主  
19 要嘅管理人員其實都係要靠母公司嗰面去支援嘅，如果唔係，係有可能去可以  
20 跟到另外--即係大嶼山巴士去做到可以好似另外兩間專營巴士公司咁樣嘅相近  
21 嘅表現出嚟嘅，我哋大嶼山巴士只係佢哋嘅十三分之一或者三十三分之一咁嘅  
22 規模。

23 所以係當你話如果喺冠忠嗰個車長佢去駕駛大嶼山巴士之前會唔會話真係有  
24 一個文件正式存入去大嶼山巴士個紀錄度話佢做咗身體檢查，呢個我都要返去  
25 問番我自己嘅同事佢哋嗰個實際嗰個操作係點樣，但係本身我哋嘅了解，喺冠  
26 忠佢哋自己去聘請呀盛，都係有做足頭先講嗰啲去查底、身體檢查等等，係有  
27 做嘅。

28 主席：（經傳譯員）或者你查番之後，就再正式咁畀份文件我哋喇，即係佢哋點樣樣  
29 正式咁將個文件交界你哋新大嶼山巴士公司嘅。

30 黃焯安先生：Sure。

31 黃女士：（經傳譯員）關於呢啲非專營巴士，即係利用呢啲非專營巴士嚟到係做巴士  
32 營運嘅，我想問你哋有冇咩嘢措施嚟到確保呢一類嘅巴士喺機器上面、機械上  
33 面都係適宜係你哋使用嘅呢？

1 黃焯安先生：我交界楊生代我作答。

2 主席：（經傳譯員）係，楊生。

3 楊家寶先生：Thank you。關於呢啲非專利巴士，佢哋都會定期做一個檢查，同埋  
4 每一年佢哋都會 go through 政府嗰個驗車嘅，因為呢個係完全同我哋專營巴  
5 士係一樣嘅。

6 黃女士：（經傳譯員）關於呢啲非專營巴士嘅公司，你會要求佢哋畀啲咩嘢文件嘅證  
7 明你哋，就去證明呢啲嘢都做咗呀？

8 黃焯安先生：唔該。因為本身--正如頭先我咁講，喺今天大嶼山巴士同冠忠係一個姊  
9 妹公司嘅關係，可能有好多 black and white 嘅文件我哋係有話係由大嶼山  
10 嗰邊係向冠忠去索取嘅，今天。但係當然我哋自己本身係--尤其是我哋管理層  
11 呢方面亦都係知道兩間公司佢哋係--因為我哋都係提供客運嘅，亦都係會提供  
12 呢個安全嘅服務去畀我哋嘅乘客嘅，當然呢一方面我哋如果往後係我哋自己都  
13 返去檢討一下，覺得係咪真係有需要係就算係--即係當然唔一定嗰個係一個我  
14 哋有關連嘅公司，如果往後係一個冇關連嘅公司去幫大嶼山巴士提供嘅服務，  
15 變相我哋都可能要諗清楚往後會唔會係需要多啲文件係需要番呢個營辦商去提  
16 供番畀我哋。

17 黃女士：（經傳譯員）喺你嗰個附件 2A、2B 同 2C，即係話你哋文件嘅 474 至到  
18 480 頁，473、474 頁就係附件 2A 嘅，2B 就係 476，之後嗰個就係 479 頁  
19 嘅。我想問，呢啲嘅調查係邊個進行嘅呢？

20 主席：（經傳譯員）我想問一下你講邊一個調查？

21 黃女士：（經傳譯員）三個調查。

22 主席：（經傳譯員）可唔可以講嗰個係標題呢？

23 黃女士：（經傳譯員）2A 就係呢個每月嘅報告，就係講及就係編定咗嘅服務同埋實  
24 際嘅服務就係佢哋究竟係咪符合到嗰個休息時間、用膳時間；2B 就係呢個車上  
25 嘅調查，去調查一下就係大嶼山巴士車長嘅休息時間；2C 就係提及專營巴士車  
26 長工作時間嘅調查，就關乎係 B 同 D 嗰兩項嘅指引嘅。

27 主席：（經傳譯員）唔該。

28 黃女士：（經傳譯員）唔該你。

29 黃焯安先生：唔該主席。呢三份啱啱提到嘅 survey 都係由我哋公司 NLB 內部自己  
30 去做嘅。

31 黃女士：（經傳譯員）喺呢個 2A，474 頁，呢個就係每月嘅報告，就講及就係嗰個  
32 巴士車長嗰個工作時間個指引，編定咗嘅同實際嘅，嗰度就係有一百一十五位  
33 車長係接受調查嘅，換句話講，你意思係咪話一百一十五位車長就係喺嗰一日

1 單一日裏面都畀你哋調查，即係話 2018 年嘅 2 月 21 號嗰日單一個人係調查晒  
2 一百一十五位車長呢？

3 黃焯安先生：係，正確，係當天嘅一百一十五個，係喇，喺嗰一日，係喇，抽一日去  
4 睇番嗰日。

5 黃女士：（經傳譯員）會唔會係單一位公司嘅職員去進行晒呢個調查呢？

6 黃焯安先生：因為我想補充番，佢呢一個形式，佢唔係話去逐個、逐個一百一十五個  
7 司機去跟住佢去見，而係我哋嘅同事去對番當天嗰我哋自己嘅人事--即係嗰個  
8 車務嘅紀錄--行車紀錄，去對番當天嘅工作。

9 黃女士：（經傳譯員）換句話講，即係睇番嗰個係交畀你哋公司嘅駕駛紀錄，係咪  
10 呀？邊個交出嚟嘅紀錄呢？

11 黃焯安先生：Thank you, Chairman, 我哋係呢個日子係運輸署去定畀我哋嘅，而  
12 我哋就去同我哋自己個--即係對番我哋自己內部嘅紀錄，喺嗰個營運--即係主  
13 要係營運部門嗰方面提供嘅紀錄。

14 黃女士：（經傳譯員）或者你去睇番附件 2B，就話車上嘅調查，去查核一下大嶼山  
15 巴士公司嘅司機嘅休息時間，請你睇番 477 至到 478 頁嘅，呢個又點樣進行嘅  
16 呢？

17 黃焯安先生：唔好意思，我哋要少少時間去睇番個紀錄，唔好意思。

18 主席：（經傳譯員）係，慢慢。

19 黃焯安先生：Chairman，呢一個表係我哋公司內部自己做嘅都係。

20 黃女士：（經傳譯員）去 480 個頁，附件 3 就係調查番專營巴士車長嘅工作時間，  
21 呢個又係點樣進行嘅呢？又或者調轉去咁問，會唔會有個人係嗰一日整日跟住  
22 個車長，然後作出呢個調查呢？

23 黃焯安先生：好，主席，喺呢個表度，“Employee No. of bus captain”呢一  
24 項就係運輸署去選取嘅，同埋嗰個“Survey Date”都係，而我哋喺右邊呢  
25 度，我哋就係搵番嗰個紀錄，即係都唔係話有個人去坐喺架車跟住，因為呢個  
26 係事後去填報番出嚟嘅，我哋就填番究竟--搵番我哋自己個紀錄，佢當天嗰個  
27 同事嘅工作時間。

28 主席：（經傳譯員）當初係點樣樣有呢一啲嘅紀錄呢？即係呢個又係簽到同埋簽走嘅  
29 時間，最初呢啲時間係點樣樣係記錄低嘅呢？

30 黃焯安先生：主席，喺我哋嘅今天嚟講，主要就係喺呢個總站，即係站頭嗰度有個拍  
31 卡機咁樣，個同事就擺個員工證去打卡，即係拍卡，就係去記錄番佢嗰個上、  
32 下班時間。如果有啲係 remote，唔係呢個站頭，就靠個電話去報番。

1 黃女士：（經傳譯員）對唔住，我其實係應該問 477 頁都同一個問題嘅，因為嗰個  
2 標題就係話車上嘅調查你都係查核大嶼山巴士公司司機嘅休息時間嘅，呢個都  
3 係就係車上嘅調查，都想問同一個問題，係咪當日係有人跟車去調查嘅呢？

4 黃焯安先生：唔該主席。呢一個 on-board survey 呢個就我哋係有同事喺車度  
5 嘅。佢呢個係運輸署要求我哋有十日就係喺平日，有五就係假日嘅時候去做  
6 嘅。

7 黃女士：（經傳譯員）你可唔可以講下喺休息或者係用膳嘅時間，即係根據呢個指  
8 引，嗰三類嘅巴士車長需唔需要做任何嘅非駕駛嘅職務，譬如話係要更新佢哋  
9 嗰個當更時間或者其他一啲行政嘅工作？

10 黃焯安先生：唔該主席。喺嗰嗰提及嘅如果休息時間，係唔會需要去做你講嘅呢一類  
11 我會當佢係行政工作咁樣，因為主要行政工作係會由我哋一啲例如喺個站站長-  
12 -即係喺個站頭嗰度就有個站長去處理呢啲工作，或者喺個總站嗰度係有其他一  
13 啲職員去幫手。

14 黃女士：（經傳譯員）如果根據你公司指示，要去到另外一個地點，或者係要去進行  
15 另外一種嘅駕駛工作，會唔會包埋喺呢個食飯或者休息時間裏面呀？

16 黃焯安先生：唔該。因為本身我哋嗰個服務嗰個範圍其實係較為集中，就唔會話出現  
17 一個要跨區喺大嶼山搭車去到九龍提供服務呢啲咁嘅情況，所以如果你嘅問題  
18 係話嗰啲會唔會都當咗係一個 rest time 呢，因為本身呢啲情況基本上係冇  
19 嘅，我哋相信，但係如果有都好，我哋都要計，當係一個工作時間畀我哋嘅同  
20 事嘅，就唔會當佢係一個休息時間咁樣。

21 黃女士：（經傳譯員）唔該。或者想睇下，就係呢一個第 71 頁，係區議會嘅文件  
22 夾，中文係 71 頁最後嘅五行，英文就係 75 頁最後嘅六行，我會讀出嚟。

23 主席：（經傳譯員）你係由邊度讀出嚟呀？

24 黃女士：（經傳譯員）呢個係離島區議會嘅意見書，交界委員會，有關於呢次嘅專營  
25 巴士獨立檢討委員會嘅聆訊嘅。

26 主席：Thank you.

27 黃女士：（經傳譯員）我想讀出最耐嗰五行，「大嶼山巴士路線主要係一啲山路，係  
28 大嶼山南同埋就喺高速公路來往主要地區嘅長途，呢啲嘅路線係需要高度集  
29 中，所以需要更多嘅休息時間，防止因為疲勞引致交通意外。」黃生，我有一  
30 個問題，係關於大嶼山南嘅一啲路線，每一更嗰個嘅時間、時數或者長度係幾  
31 多？

32 主席：（經傳譯員）可唔可以講下，一更？係指一個工作嘅更數定係行完一條路線  
33 呀？

34 黃女士：（經傳譯員）行完路線，譬如話 3M 呢條線，由梅窩碼頭到東涌應該市中心

1 喇。

2 黃焯安先生：Thank you, Chairman, 如果以梅窩呢個 3M 為例，佢由東涌去到梅  
3 窩或者梅窩去東涌，就大概係三十五至四十分鐘，睇下沿途多唔多--即係要上  
4 落咁樣。

5 黃女士：And what do you...

6 黃焯安先生：三十五至四十，唔好意思，三十五，唔係三十。

7 黃女士：（經傳譯員）呢度就話呢啲嘅長途路線係需要高度集中，你同唔同意呢一句  
8 咁講呢？

9 黃焯安先生：因為啱啱呢一個文件我都係第一次睇，即係...

10 黃女士：Oh, I apologise for that.

11 黃焯安先生：唔緊要，唔緊要，我自己就唔--我都唔係太明其實佢個 “long-  
12 distance routes along the highway to and from the main  
13 areas” 個意思係點，因為其實我哋本身大嶼山個--我哋就--我哋個專  
14 營權個範圍其實就淨係喺大嶼山，就有話去其他例如市區咁樣嘅，我哋另外  
15 就係喺深圳灣口岸個度就有服務去到元朗同埋天水圍個度，亦都唔連去大嶼山  
16 嘅。

17 我唔係太肯定議員個--我唔知係咪講緊--或者如果你就咁--我集中番講  
18 番，我唔去揣測佢個意思係點先，如果就咁講嶼南個面，我相信以個車程  
19 嚟講，其實比起一啲另外兩間巴士公司嘅路線嚟講，就我諗對比起上嚟，就  
20 唔算話係好長。

21 同埋本身因為我哋個服務嘅範圍個路面情況其實就係較為暢通嘅，就好  
22 少會遇到啲擠塞嘅問題，所以就我哋編排個時間通常都唔會話同實際行車  
23 時間睇太遠。當然你話四十分鐘同一啲好近好近，例如一啲我哋叫 feeder  
24 bus，係去地鐵站個咁樣，即係另外--例如逸東邨去地鐵站個車程只係講緊  
25 幾分鐘，比較起上嚟，佢會係長啲。但係如果你話真係同--我相信其他，例如  
26 喺新界去市區個咁，我諗我哋又唔算好長嘅。或者係同一啲機場，機場去  
27 市區個咁，其實個咁可能就跨區再加埋喺市區擠塞嘅，個車程會更加長，  
28 我個睇法會係咁。

29 黃女士：Yes, and...

30 主席：（經傳譯員）黃女士，呢份文件仲有冇其他問題呀？因為如果有，應該畀個機  
31 會黃生睇過先。

32 黃女士：（經傳譯員）有呀，我有幾個問題要問。

33 主席：（經傳譯員）黃生，你去睇番呢三頁，你可以而家睇嘅，用幾多時間都有問

題，我哋會等你。

黃女士：（經傳譯員）或者睇中文，中文就係 71 至到 72 頁。

黃焯安先生：主席，我...

主席：（經傳譯員）係，黃生(sic)。

黃女士：Thank you. And...

黃焯安先生：Sorry, excuse me。因為我睇咗個中文譯本，可能佢翻譯嗰度係搞錯咗，因為佢個中文譯本嗰度係寫「大嶼山巴士」，嗰個「大嶼山巴士」唔係講緊我哋公司，係講緊喺大嶼山度服務嘅巴士，係包括--即係佢話加上第--佢話「加上大嶼山巴士路線」其實唔係講緊係新大嶼山巴士公司嘅路線。當然我會有一部分，大嶼南嗰啲就係我哋公司，你話往來高速公路嗰啲就係講緊城巴或者龍運嘅線路。

黃女士：（經傳譯員）唔該。請你睇番第 3 段，英文就喺 76 頁，呢度就表達咗啲嘅關注，係離島區議會，關於大嶼山巴士公司嘅路線，讀出嚟，就係話「正如先前嘅意見書所講，大嶼山巴士公司嘅路線主要都係呢一個來往大嶼山南嘅一啲山路同埋一啲來往主要區域嘅高速公路，長途嘅，無論如何，目前嚟講，嗰個巴士車廂同埋嗰個嘅規定嘅設施都唔能夠係確保乘客嘅安全嘅，譬如話 3M 呢條線，來往梅窩同埋東涌，我有時候就發現啲巴士就係載滿客嘅，連呢一個嘅車廂裏面嘅通道都滿晒客嘅，而一啲來往市區嘅，除咗前面嗰幾行座位之外，後面嗰幾行同埋係向車尾嘅啲座位都有安全帶嘅，呢個相比起歐盟嘅規定，即係話無論任何嘅類型都好，巴士乘客、司機、乘客都係要戴安全帶，呢個顯示到香港係落後好多嘅。」

跟住我就睇番 78 同埋 79 頁，我想問，你對於呢件事有咩嘢嘅睇法？

黃焯安先生：好，唔該主席，如果簡單去睇，我睇到佢提出有兩個疑問，第一個疑問就係對於我哋啲車冇裝安全帶呢個問題，第二就係佢另外有去影咗啲相，喺啲相度就見到企得好滿咁樣，即係呢個情況。我首先回應第二個疑問嘅，就係關於佢話啲車好似企得好滿咁樣。

因為我哋其實都有留意到喺梅窩每日一啲較為繁忙嘅時間，正正呢條 3M 嘅路線其實係去呢個東涌--往返東涌，其實係比起以往嗰個人係多咗嘅，之前我哋嘅分析就係因為佢多咗人入去起樓，因為嗰面而家係起緊啲居屋咁樣嘅，都應該係將會起完，或者都差唔多起完咁樣。我哋之前嗰個做法就係都係盡量喺啲繁忙時間去加密嗰個班次，因為本身我哋同平時各位喺市區見到嘅提供嘅車款就較為唔同嘅，我哋本身因為嗰度行嗰個山路較為多，其實我哋已經係好多年冇去採用呢個雙層巴士，所以就當一有啲去到一啲繁忙嘅時間，一個單層巴士始終個載客量就有咁高，我哋喺 2017 年嘅時候就決定就係想喺 3M 嗰度就係去用番呢個雙層巴士。

1 因為都見到嗰個，同埋嚟緊嘅都知道本身梅窩係會有呢個居屋喺 2018、19  
2 年去入伙，我哋喺 2017 年嘅時候其實就試埋車盛呀咁樣，個目標就係希望去解  
3 決番一啲喺繁忙時間，就即係喺個車度即係唔夠--都始終我哋都明白例如喺四  
4 十分鐘，由梅窩去到東涌，如果你話個坐位咁少，因為單層嘅車始終個坐位係  
5 比較少嘅，我哋就去專登係喺市面度都採購咗一啲車身較為短啲--車長較為短  
6 啲，都係我哋做過路面測試，都確保係上述嘅呢部雙層巴士係去投入服務都唔  
7 會有問題。

8 至於你話議員佢有提到話安全帶嗰個，我哋嘅本身，因為今天係冇要求我哋  
9 所有座位都安裝安全帶嘅，我哋就主要喺一啲較為署方認為即係叫做 *exposed*  
10 *seat* 嗰啲座位度去加番安全帶，我哋都係開放態度嘅，如果你話係當覺得係真  
11 係有需要去喺所有嘅座位度加安全帶，我哋都覺得呢個建議係可以，我哋好開  
12 放嘅，對呢個建議。

13 主席：（經傳譯員）係，黃律師。

14 黃女士：（經傳譯員）而家我想請你睇番會議紀錄，係同樣，離島區區議會嘅，係  
15 2017 年 10 月 23 日嘅會議紀錄，中文係 252 頁，英文係 256 頁。黃生，呢個  
16 係第一頁嚟嘅，係離島區議會嘅會議紀錄，日期係 17 年嘅 10 月 23 號，我哋  
17 可以睇到出席人士，睇番 257 頁同埋 256，仲有 258 頁，你間公司係有出席  
18 嘅，就係陳天龍先生副總經理，係大嶼山巴士公司，有出席嘅，現在想請你睇  
19 第 41 段，中文就係 254 頁，可以請你睇，你自己睇下。我亦都想請你睇第 43  
20 段添，就係區議員郭平先生佢嘅建議。

21 黃焯安先生：唔，okay。

22 黃女士：（經傳譯員）佢提出嘅其中一個事項，就係話歐盟嘅規例就限制巴士車長工  
23 作時間係九小時嘅，如果係連續工作嘅時間就係十四小時就太長，會引致可能  
24 會有呢一個意外發生嘅，所以佢就關注呢一個大嶼山巴士公司同埋呢一個嘅運  
25 輸署，有關於呢個羌山路、東涌道，即係大嶼山嗰個嘅情況嘅，因為後果係不  
26 勘設想嘅，所以佢希望巴士公司同埋運輸署就可以係做啲嘢關於呢一個嘅工作  
27 長嘅時間，對於呢方面，你有咩嘢嘅意見呀？或者你哋間公司對於呢方面有咩  
28 嘢意見？

29 黃焯安先生：唔好意思，我哋要少少時間睇番啲資料先，唔好意思。

30 主席：（經傳譯員）好呀，你慢慢。

31 黃焯安先生：唔該主席。本身我哋公司，講番喺即係嶼南呢面，我哋嘅嗰個--因為而  
32 家其實規定做，可以提供十四--即係駕駛--即係工作十四個小時嗰啲車長，我  
33 哋稱呼嗰啲叫做「特別更」，特別更嘅車長，本身因為我哋嗰個呢類型嘅車長  
34 就比較少嘅，其實係得八條，因為我哋自己編咗路線嘅，即係叫做「字軌」，  
35 我哋個行業簡稱。我哋係當中係百幾條裏面係有--一百一十三條裏面就有八條  
36 係要去即係呢種特別更嘅工作嘅。

1 特別更佢中間我哋係確保佢有足夠嘅休息時間同埋係--因為本身我哋都有  
2 好多車長其實係喺當區居住嘅，因為我哋較為係集中喺番大嶼山嗰面，變咗就  
3 我哋去相信就算係呢一種特別更，我哋都會確保佢哋唔會話係過勞咁樣，就係  
4 安全嘅，呢個可以放心。

5 當然你話郭議員佢提出話係 EU 嗰個 standard，因為我自己就有睇過嗰  
6 個 standard，你話如果真係佢連續駕駛九個小時，我相信都會係好叻，呢個  
7 係事實嚟嘅，連續駕駛，但係我覺得都要真係睇番究竟係如果係一個十四小時  
8 嘅工作或者少啲或者以下嘅，究竟當中嘅駕駛時間、休息時間等等係點樣。因  
9 為始終香港係我哋好多居民其實都係工作嘅地點同埋佢真係居住嘅地點其實係  
10 有距離嘅，而我哋作為服務性行業，其實係要喺大部分嘅市民佢哋去工作之前  
11 我哋已經喺早啲上班，去送啲市民去工作，到佢哋收工，我哋就去接佢哋放  
12 工。

13 你可以諗下假設今日係用十四個小時一個叫做特別更嘅安排去處理呢一個  
14 咁嘅結構，如果你話「唔得，太長，一刀切。」佢係例如九個鐘，但係就嗰個  
15 人手就唔係咁簡單話係用呢個比例，九個小時同十四小時咁樣嘅比例，因為你  
16 可以想像到係例如我哋喺朝早最繁忙嘅時間，你要最多嘅人，到到傍晚放工時  
17 間嗰個最繁忙時間又要最多嘅人，隨時嗰個--你話真係九個鐘咁樣嘅安排係好  
18 大機會就--即係一定會高過你就咁樣咁簡單話係十四轉九咁樣嘅一個比例。唔  
19 該。

20 黃女士：（經傳譯員）黃先生，我而家就會講第二啲嘅課題，就關於係設施同埋對於  
21 車長嘅支援，你啱啱就講到，就係話你好多嘅車長都係喺大嶼山居住嘅，係咪  
22 呀？

23 黃焯安先生：（經傳譯員）但係我有嗰個正確嘅數字。

24 黃女士：（經傳譯員）你嘅公司會唔會提供穿梭巴士畀車長，就將佢哋從佢哋嘅屋企  
25 就像去番嗰個總站咁樣佢哋工作嘅地點？

26 黃焯安先生：主席，我哋今天係有提供呢個即係叫做員工車去車我哋嘅同事，因為最  
27 主要個原因就係我哋大部分同事都住得同佢哋嗰個擺車嘅地點係好近嘅，有啲  
28 可能住得遠少少嘅，佢可能架車就係--我哋都係安排咗係泊喺佢哋可能係屋企  
29 附近嘅一啲巴士站頭或者係搵個合適嘅位去泊車，變咗我哋就有呢個需要去話  
30 提供一個返工車咁樣嘅安排。

31 黃女士：（經傳譯員）除咗話休息嘅設施，喺啲主要嘅服務嘅地點嗰度，呢個係第  
32 24 頁嘅，喺你嗰個文件夾當中，係咪喺每個總站都會係有呢一個嘅洗手間，就  
33 係讓一啲車長喺小休嘅時間可以去使用洗手間呢？

34 黃焯安先生：唔該主席。喺我哋今天嘅情況，就唔會話所有嘅站都有呢啲休息或者我  
35 哋去安排咗洗手間畀啲同事嘅，因為都要真係睇番實際嗰個地權等等嗰啲問題  
36 嘅。我哋亦都係有經驗，當然呢一刻我哋有準備喺手究竟係實際係邊一個申請

1 同埋係用咗幾多時間，但係以往的而且確係我哋有喺一啲站等等想去申請去起  
2 嗰啲設施，但係就礙於係都要經過唔同，因為係唔同政府部門去監管嘅，亦都  
3 係需要我哋花費好多嘅時間先至申請到，亦都有啲係試過係申請唔到。

4 黃女士：（經傳譯員）你嗰個遠期計劃嗰度...

5 主席：（經傳譯員）我可唔可以問一問呢？你可唔可以提供畀委員會就係一啲你個申  
6 請書嘅樣本，就話你希望能夠係提供休息室、廁所等等嘅設施，就可以話到畀  
7 我哋聽就係究竟需要幾多時間，同埋另一方面就係話你啲申請被拒嘅情況？就  
8 亦都可以話清楚畀我聽究竟成功同失敗嗰個申請嘅比例係點樣同埋嗰個所需嘅  
9 時間係幾多。

10 黃焯安先生：Okay。

11 主席：（經傳譯員）唔該晒。

12 黃女士：（經傳譯員）我就想去運輸署嘅文件夾第 241 頁，呢個係遠期計劃，呢度  
13 寫到你間公司嘅遠期計劃，我哋睇到最後呢一版嘅呢個部分，呢個講就係話所  
14 有嘅總站都係有廁所嘅，但係喺逸東、天慈同埋天耀邨佢哋只不過係嗰個總站  
15 就會附近係可以行到去一個公共廁所嘅，你知唔知道大概嗰個要行幾耐呢或者  
16 係幾長呢嗰個距離？

17 黃焯安先生：唔該主席。嗰個我哋呢一刻問到，就係本身嗰個巴士總站隔離係有商場  
18 嘅，例如以逸東為例，佢側邊係商場嚟嘅，我哋就要個同事行入去個商場度，  
19 由佢放低部車，泊低咗，行到去商場，返番嚟，個時間我哋粗略估計係十分鐘  
20 嘅。

21 黃女士：（經傳譯員）多謝黃生。2018 年就運輸署出咗一個新嘅指引，就係運輸署  
22 嘅文件資料夾 1086 頁嘅，第 4 號文件夾嘅 1086 頁，喺新嘅指引嗰度就係車長  
23 駕駛六小時後最少係有一啲嘅小休，就應有四十分鐘休息時間，而該六小時內  
24 應有合共不少於二十分鐘嘅小休，其中不少於十二分鐘嘅小休應該安排喺首四  
25 小時內提供。我個問題就係話呢個可唔可以改善多啲呢？特別係關於嗰個洗手  
26 間嘅設施方面。如果有需要嘅時候，可唔可以延長嗰個休息時間呢？

27 黃焯安先生：唔該主席。啱啱律師提到嘅我哋--你話提供呢個設施，我哋可唔可以提  
28 供多啲，喺公司嘅立場，我哋係非常之樂意去做呢樣嘢嘅，因為我哋都希望我  
29 哋嘅--即係我哋嘅同事其實都係人，就大家都係人，你叫我要去洗手間要每次  
30 要行到咁遠，我相信在座都希望唔需要去有咁嘅經歷嘅。我啱啱問番我哋嘅同  
31 事，但係就真係喺--我哋之後都會補充番資料畀委員會，喺申請嗰度，而又有  
32 好多嘢都係喺我哋公司能力範圍以外，即係嗰個地方係唔批准我哋去裝置呢啲  
33 設施嘅，我哋都有咩嘢可以做到。

34 我哋之前嘅--即係有亦都係一啲咁嘅--例如遇到啲問題，因為啱啱講話逸  
35 東嗰個商場，正正就係個商場係啱啱裝修緊，變咗嗰度個洗手間亦都係用唔到

1 嘅，我哋就惟有係要我哋同事去另外一面嘅--即係其他洗手間，我哋亦都係好  
2 清楚對我哋嘅同事係好大嘅影響嘅，我哋都會盡力去協助佢哋。

3 黃女士：（經傳譯員）多謝黃生。

4 主席：（經傳譯員）你有冇逸東邨嗰度嘅總站就有冇申請話「我自己要去裝置啲洗手  
5 間。」呢？

6 黃焯安先生：（經傳譯員）有嘅。

7 主席：（經傳譯員）但係有冇--係咪申請被拒絕呢？或者係而家等緊批呢？

8 黃焯安先生：（經傳譯員）應該係等緊審批嘅。

9 主席：（經傳譯員）你幾耐之前去提出申請㗎？

10 黃焯安先生：我哋後補番呢個資料，因為就呢一刻答唔到。

11 主席：（經傳譯員）好，唔該晒。

12 黃女士：（經傳譯員）喺呢一個嘅文件，最後一個問題，請你睇下第 242 頁，對唔  
13 住，呢個係運輸署嘅第 1 號文件冊嘅第 242 頁嘅，呢個亦都係遠期計劃嗰度就  
14 講到就係話喺呢個嘅總站附近都係步行距離就係有廁所同埋餐飲設施，除咗話  
15 喺深圳灣口岸嗰度就係有餐飲設施，我就想問你哋會唔會做啲乜嘢嘢係去改善  
16 個情況，確保有足夠嘅設施呢？

17 黃焯安先生：Chairman，因為本身喺--深圳灣做一個例子，嗰度係個關口，嗰度係  
18 唔批准畀我哋去配置例如一個休息室去畀同事，所以我哋--因為而本身嗰條路  
19 線其實係從深圳灣去元朗或者去天水圍，我哋今天嘅嗰個安排就係要同事喺元  
20 朗或者天水圍嗰面去食飯咁樣，去解決呢個問題，佢哋喺深圳灣入面就嗰度有  
21 洗手間呢啲設施。

22 黃女士：（經傳譯員）主席先生，我睇到個時間。

23 主席：（經傳譯員）係，我哋而家就小休，讓大家食飯，我哋會喺下晝嘅兩點半再繼  
24 續，唔該晒，唔該。

25

26 下午 1 時 01 分押聆訊押後

27

28 下午 2 時 30 分恢復聆訊

29 出席人士如前。

30

1 主席：（經傳譯員）各位午安。係，黃律師。

2 黃女士：（經傳譯員）唔該主席。黃先生，我哋而家係講到巴士車長嘅培訓，你喺個  
3 個開場白嘅時候就講咗最近幾個月係已經引入咗又或者將會引入呢一啲新嘅  
4 措施，係包括下面嘅措施嘅，第一，就係將巴士車長嘅訓練時數同埋導師與培  
5 訓學員嘅比例提升，亦都話會成立一所巴士車長嘅訓練學校去協助合資格嘅人  
6 士取得巴士駕駛執照嘅。我而家嘅問題係咁嘅，喺呢方面，而家個情況係點  
7 呢？未改變之前，你原本個安排係點嘅？

8 黃焯安先生：主席，我會交畀李先生代表我去作答。

9 主席：（經傳譯員）李先生，請你答。

10 李春暉先生：主席，幾方面，第一，喺以往嚟講，個車長訓練嚟新人同埋嚟現職車長  
11 都略有唔同嘅種類去提供呢個培訓嘅，嚟新人嘅車長嚟講，過往係有五個--  
12 五天嘅車長訓練，包括路線、車型、課堂嘅訓練。嚟最近嚟講，我哋嚟呢一個  
13 五天嘅訓練就加咗一日，變為六天嘅訓練，主要嚟講，喺邊度加咗呢？就喺個  
14 個課堂嘅方面，我哋由以往嘅五日嘅車上嘅理論就加咗一日，全日嘅課堂理  
15 論，所以而家嚟新車長入職嚟講，我哋嚟而家嚟講係提供六日嘅訓練，包括五  
16 日嘅掂車。而呢個掂車嚟以往嘅導師同呢一個學員個比例係一比二或者一比  
17 三，視乎當時個個人入職個嘅成分而定嘅，但係我哋而家去決定個導師同學  
18 員嘅比例係定嚟一比二。一比二嚟講，學員同導師個相處嘅時間亦都會多  
19 咗，比以往嚟講。

20 嚟現職車長嘅訓練嚟講，我哋會有幾種嘅，包括路線訓練、車種嘅訓練、  
21 輔助訓練同埋重溫嘅訓練。嚟以往嚟講，路線同埋車型嘅訓練都係一日，但係  
22 而家我哋會檢視番個車種個種類，因為日後嚟講，我哋個車種大部分都  
23 可能會係雙層巴士。雙層巴士嘅引入，我哋會喺培訓個方面定嚟兩至三日嘅訓  
24 練，因為呢種訓練係要畀學員個方面係要熟習個雙層車嘅操作，包括轉彎個  
25 陣時嘅技巧。而嚟重溫班個方面，我哋都要求每個學員--每個車長都要喺一年  
26 之內係要返嚟學校或者返嚟我哋培訓部去上堂嘅，就有關車長訓練學校成立一  
27 事，其實我哋有幾個準備工夫做咗，包括較早前向運輸署申請要求有呢一個限  
28 制導師執照考巴士--專利巴士，俗稱“GB2”嘅駕駛執照，而家就等候呢一個回  
29 覆。

30 我哋嚟內部嚟講，亦都會招聘更加多嘅駕駛導師，由於而家現時我哋大嶼  
31 山個駕駛導師係並非擁有呢一個 GB2 嘅資格，即是話我哋本身而家嚟講係未有  
32 培訓，只有持有私家車牌、1 號牌或者 2 號牌、貨 van 牌嘅人士去考取巴士  
33 牌，如果日後我哋嘅申請係接納嘅話，我哋可以自給自足，我哋可以有資歷嘅  
34 駕駛導師去考取--去幫持有--即係應徵者--新應徵者嘅車長應徵人士去考取呢  
35 一個巴士牌，我哋個來源，即係我哋個嘅來源會更加廣闊，並非而家限制  
36 於 9 號、10 號私家車同埋巴士牌嘅人士申請。當然呢一個訓練學校嘅成立仲需  
37 要一啲配合，包括我哋個泊位、路線、個場地去訓練嘅地方。

而如果個牌照係攞到嗰個限制牌照嘅話，我哋會喺而家持有巴士牌嘅六日訓練係會增加到九日嘅訓練，而未有巴士牌，只係持有私家車牌嘅人士，我哋暫定係會提供十八日嘅訓練，喺訓練嘅時數係會比而家純粹只係六日嚟講係多好多嘅。

黃女士：（經傳譯員）唔該，或者咁，我想請你睇番 NLB-2，467 頁，呢度係一個圖表嚟嘅，個圖表就係列出就係車長嘅培訓嘅時間表，呢個附件 10，A 就係新入職嘅巴士車長嘅恒常嘅訓練，B 個項就係現職車長嘅恒常嘅訓練嘅，我想問下呢個係咪舊有嘅安排定抑或你剛剛所講及嘅新嘅安排呢？

李春暉先生：呢個係舊有嘅安排。

黃女士：（經傳譯員）呢個係舊嘅訓練，係咪呀？

李春暉先生：係，冇錯。

黃女士：（經傳譯員）可唔可以話畀我哋聽係邊個提供呢啲培訓嘅呢？你有講過你哋嘅訓練學校係仲未成立嘅，係咪呀？

李春暉先生：係，冇錯。而家籌備中，我即係話喺而家嚟講，呢啲訓練係由我哋嘅駕駛訓練導師係教緊嘅，in service 嘅。

黃女士：（經傳譯員）如果你睇番 A 嗰個部分，即係入職嘅訓練，你就係喺呢個課室嘅上堂下面嗰度，你呢度就有講及就係喺呢個意外黑點嘅分析，睇唔睇到呀？

李春暉先生：睇到。

黃女士：（經傳譯員）你呢度就話課堂--上堂講公司嘅規則、乘客嘅安全同埋意外黑點嘅分析，你可唔可以解釋一下你用啲咩實證嘅數據作為基礎嚟到去做呢一個意外黑點嘅分析呢？

李春暉先生：兩部分，一部分係由過往嘅駕駛導師所提供一啲嘅過往經驗，包括喺嶼南路嘅交通意外所發生嘅地點。除咗係導師過往經驗個分享之外，我亦都會根據番實質喺個意外嘅真實地點嗰方面係同啲學員分享番個成因--意外個成因係乜嘢、點樣去預防。而且除咗係課堂嗰個理論之外，喺真實嘅行車訓練當中，導師亦都會講解一啲彎位、一啲嘅防衛性駕駛嘅技巧。

黃焯安先生：Ms Wong、Chairman，我想補充一點，頭先你嘅問題係話當我哋準備成立嗰個 training school，我哋今天點去培訓，因為我想補充番一點，係啱啱頭先李生提嗰個係可以 set up 咗嗰個 training school，嗰個用意就係變咗我哋可以去幫一啲冇巴士牌，今天可能淨係得私家車或者客貨車嘅人士，而佢又想做一個專營巴士嘅車長，佢就可以經過我哋，當我哋係正式向署方申請到，就變咗我哋都可以幫嗰啲人去考到個駕駛執照，巴士嘅駕駛執照，即係主要嗰個分別喺呢度。

而今天呢一個安排係喺另外嗰啲專營巴士公司佢哋都已經係有做緊，即係

1 去幫一啲未有巴士牌嘅車長去考呢個巴士牌，想補充呢點。但係本身我哋恆常  
2 一啲基本嘅訓練，即係嗰個係不論我哋有冇呢個叫做學--即係駕駛學堂咁樣，  
3 呢個 training school 呢個考牌呢一個，我哋本身都係有呢個能力去同佢做  
4 一個訓練。唔該。

5 主席：（經傳譯員）目前訓練嗰度，你哋有幾多人係做緊訓練嘅工作㗎？

6 李春暉先生：我哋而家有四個--四名嘅駕駛導師係進行呢個培訓嘅。

7 主席：（經傳譯員）日後嘅訓練學校，你諗住係會有幾多人做培訓㗎？

8 李春暉先生：我哋最近向署方申請嗰個牌照係六個配額。

9 主席：（經傳譯員）六個係駕駛嘅導師，係咪呀？

10 李春暉先生：係，係，冇錯。

11 主席：（經傳譯員）唔該。

12 黃女士：（經傳譯員）唔該晒李先生，唔該晒你畀我哋嘅解釋。關於呢一個意外黑點  
13 嘅分析，我想問你可唔可以畀個副本我哋睇下呢，即係睇下你哋公司係點樣進  
14 行嗰個分析嘅？

15 李春暉先生：其實除咗頭先我所講，我哋可以畀個副本你，因為其實我哋而家喺個培  
16 訓當中，我哋自己都印有一啲小冊子或者叫做手冊，當中我哋會有十個單元，  
17 頭個五個單元係講關於安全駕駛，另外個五個單元係講呢一個優質服務，而喺  
18 第二個單元，即係頭五個單元嘅第二個單元係講交通意外主要成因，當中我哋  
19 會講解天雨路滑、天氣影響、駕駛者嘅身體狀況、車輛嘅設備同埋路面嘅設計  
20 呢四大方向去討論意外嘅成因。

21 黃女士：（經傳譯員）你講到路面嘅設計，關於呢一點--關於路面嘅設計，你喺邊度  
22 係攞資料呢？你會係選取路面嘅邊一個方面嘅特色嚟到進行你嗰個分析呢？

23 李春暉先生：其實呢度我哋都係主要攞番導師畀我哋嘅意見，包括喺嶼南路呢啲山路  
24 邊啲彎位係要特別留意同埋佢嗰個斜度，嗰個斜路個波幅同正常係一比六，作  
25 為一個駕駛者，喺呢一個斜度入面要留意啲乜嘢，如果喺轉彎嗰陣時嘅車速同  
26 埋嗰個扭力要幾多先為之安全。

27 黃女士：（經傳譯員）李先生，我想請你睇另一份文件嘅，呢個就係你哋嘅遠期計  
28 劃，大家可以睇呢個 TD-1 嘅 237 頁，麻煩你睇一睇(g)嗰一段，呢個就係你哋  
29 公司嘅遠期計劃，呢度就咁講嘅，就話你哋公司...

30 主席：（經傳譯員）我咁寫低，好唔好呀？係 2017 年嘅 6 月嘅，係咪呀？

31 黃女士：（經傳譯員）係，2017 年嘅 6 月。你公司就咁講嘅，就話公司就可能就會  
32 係尋求係其他嘅專營巴士嘅營運商合作嚟到係達致上述所講嗰點，就係話將自

1 己嘅巴士車長就係送去接受人哋嘅培訓，當然要雙方接納同埋合作嘅，我想  
2 問，有冇同其他嘅專營巴士公司就呢件事展開商討呢？

3 黃焯添先生：主席，其實我哋喺一個駕駛學校嘅層面上面要搵一個好有經驗同事去做  
4 係喺呢一個行業係非常之困難嘅，李先生係今年年初係去加入我哋大嶼山巴  
5 士，喺 17 年嘅時候，其實我哋一路都--除咗係一啲用我哋自己本身嘅導師以外  
6 --一啲有經驗嘅導師以外，我哋亦都會去搵咗一間叫做香港汽車高級駕駛協  
7 會，去做一啲叫精明駕駛嘅訓練嘅，當時我哋因為喺有一個咁專業嘅導師嘅情  
8 況下，我哋希望用一啲第三者嘅角度去畀一啲培訓我哋嘅司機，所以我哋就特  
9 別去搵咗呢間協會去做一啲培訓，係當時我哋係每一位司機都做過一次嘅，當  
10 時係 2017 年。

11 啱啱李先生就係 2018 年係加入我哋公司嘅，李先生就有超過二十年係呢  
12 個培訓嘅經驗，所以我哋就積極啲再向運輸署署方去申請一個駕駛學校嘅牌  
13 照，希望可以增加到六個嘅 instructor 去做到呢一樣嘢嘅。我哋其實公司都  
14 係希望可以積極啲用內部嘅資源去加強番本身我哋嘅訓練。

15 主席：（經傳譯員）你話每個車長就有一次機會，喺呢方面究竟係咩嘢意思呢？乜嘢  
16 有一次呢，每位車長都一次呢？

17 黃焯添先生：個機會就係去參與由 IAM 去設計嘅，sorry，高級駕駛協會去設計嘅  
18 精明駕駛訓練，個訓練內容其實最主要都係講番一啲駕駛嘅 awareness，即係  
19 佢唔係教個司機點揸車嘅，最主要係駕駛佢哋嘅--個駕駛態度，同埋本身佢哋  
20 喺個路面嘅--唔同路面嘅情況，講下路牌，佢用一啲口述嘅方式去幫下我哋嘅  
21 師傅嘅，所以呢個訓練係--sorry。

22 主席：（經傳譯員）係咪課堂㗎，上堂㗎，定抑或又有上堂，又有去路面嗰度學習嘅  
23 呢？

24 黃焯添先生：（經傳譯員）路面嘅。

25 主席：（經傳譯員）幾長時間呢？

26 黃焯添先生：（經傳譯員）三個鐘頭。

27 主席：（經傳譯員）係咪畀教車師傅定抑或係畀你哋所有嘅車長呢？

28 黃焯添先生：（經傳譯員）有兩類嘅課堂嘅，一個就係畀車長，就講佢哋揸車嘅態  
29 度，另外亦都係呢個高級駕駛協會，佢叫做 IAM，IAM 呢個香港汽車高級駕駛  
30 協會就會畀一個培訓者嘅課程嘅，即係話教啲導師嘅，係參與呢個導師嘅訓  
31 練嘅，正如頭先李生所講，就係我哋呢個大嶼山巴士公司喺 2017 年初就有二十  
32 位嘅具經驗車長參加啲導師訓練。

33 主席：Thank you。

34 黃女士：（經傳譯員）而家請你睇番就係運輸署嘅文件，1 號文件夾，就係關於你哋

1 遠期嘅計劃，第六段，239 頁，我知呢個係 2017 年嘅事嚟嘅，建議就係有個定期  
2 嘅檢討關於巴士車長嘅表現同埋鼓勵佢哋去參加一啲駕駛提升嘅培訓訓練，  
3 而你哋巴士公司係會畀番呢個課堂錢佢哋嘅，呢個係關於你哋設立培訓課程同  
4 埋呢一個駕駛學院，呢樣嘢係咪仍然存在嘅呢？

5 黃焯添先生：正如頭先所講，上年我哋係用 IAM 呢個夥伴合作嘅，今年嘅年初我哋  
6 有機會請到李先生，所以我哋嚟緊嘅呢個 paragraph (c)，係會我哋嘅  
7 training school 會取代。

8 黃女士：（經傳譯員）而家講另外一個課題，就係關於大嶼山南部嘅地勢嘅，想請你  
9 睇番呢一個離島區 2018 年 3 月 19 號嘅區議會文件，文件夾 1 號，中文版係  
10 264 頁，英文版係 272 頁嘅，你哋公司陳天龍先生係有出席，你可以睇中文嘅  
11 265 頁見到，英文 273 頁就見到，我就想將呢一次嘅會議紀錄其中一啲要點提  
12 出，第一個議題就係話你哋喺呢一個大嶼山南部係咪用雙層巴士，呢個係關於  
13 第 30 段嘅，中文係 266 頁，英文係 275 頁，請你睇一睇第 30 段、35 同埋 36  
14 段，即係你睇番三段先。

15 第 30 段，呢個就關於使用雙層巴士嘅 3M 路線，30 段就係一位嘅蔡小  
16 姐，佢係離島區嘅運輸署嘅主任嚟嘅，而運輸署佢係就於呢一個——同埋運輸  
17 署、警方同埋大嶼山巴士嘅呢一個嘅 2016 年嘅 11 月，就喺東涌道嗰一段，同  
18 埋係 2017 年 6 月係成段嘅 3M 路線係做咗兩次嘅實地測試嘅，呢個係蔡小敏女  
19 士。

20 陳天龍先生：主席，我可以確認嗰兩次嘅試路係確實有做到。

21 黃女士：（經傳譯員）呢兩個嘅測試係咪書面有寫嘅呢？

22 陳天龍先生：係，我哋當時有要求到巴士嘅生產商提供番一份報告畀我哋。

23 黃女士：And if we look at...

24 主席：（經傳譯員）佢哋係咪有真係交界你哋？有冇真係交到份報告畀你哋，嗰班巴  
25 士嘅製造商？

26 陳天龍先生：個報告我哋喺手嘅，我哋可以喺會後提供番畀委員會。

27 主席：（經傳譯員）係邊間巴士製造商嚟㗎？

28 陳天龍先生：2016 年 11 月嗰次嘅測試係 MAN，而喺第二次，2017 年 6 月嘅測試就  
29 係 ADL。

30 主席：（經傳譯員）係咪 Alexander Dennis？

31 陳天龍先生：冇錯。

32 主席：（經傳譯員）唔該。

1 黃女士：（經傳譯員）我哋睇番 35 同埋 36 段，就係一位樊先生嘅，佢係樊志平先  
2 生，佢係議員嚟嘅，佢就表達話唔應該單單使用沙包去做呢個模擬測試當係真  
3 實，因為真實係乘客可能側埋一邊，唔會平均分佈喺巴士，佢就促請做多一  
4 次，喺呢一個天氣差嘅時候嘅測試。

5 我再請你睇另外一段，就係 44 段 (b)，當時就係陳天龍先生回答咗嘅，  
6 44--40 (b)。

7 主席：（經傳譯員）40 定係 44 呀？

8 黃女士：（經傳譯員）40 (b)。你嘅回覆係喺 40 (b) 寫咗出嚟，話喺呢兩次嘅道路測  
9 試嘅時候，呢一間公司就根據運輸署嘅要求去做嘅，即係就將一啲嘅金屬板，  
10 每一塊就係代表一個人嘅重量喺個座位嗰度嘅，去模擬巴士係載滿乘客嘅。

11 跟住 44 段，一位嘅余先生，余漢坤先生，佢係議員嚟嘅，佢就建議，喺  
12 開始服務--正式服務之前，即係呢啲嘅雙層巴士喺 6 月服務之前，運輸署同埋  
13 大嶼山巴士應該係安排兩架嘅雙層巴士用番同一個嘅巴士型號就係做道路測試  
14 嘅，尤其就係銀礦灣嗰個嘅彎位，所有嘅持份者，包括議員、鄉土委員會、村  
15 代表會睇晒成個嘅過程，同埋作出建議。

16 跟住最後，第 51 段，呢位嘅蔡小敏女士代表運輸署就回答話關於安排另  
17 一次嘅道路測試，署方就會同大嶼山巴士公司喺會後作進一步適當嘅跟進，委  
18 員係如果有興趣，可以參與。

19 揭去跟住嗰頁，道路測試就根據佢哋嘅要求，就係喺一個天氣差嘅時候  
20 做，署方需要同其他嘅部門作安排嘅，其他嘅部門都明白呢一個建議會嘗試安  
21 排嘅，署方係明白委員對於使用雙層巴士係用作 3M 線係有關注，亦都會係密切  
22 同巴士公司係跟進，確保加強安全性嘅。有關於呢一次建議嘅道路測試，喺會  
23 後有冇真係做到呀？

24 陳天龍先生：主席，因為嗰架巴士係我哋新購買嘅，其實第一架巴士其實先至喺今日  
25 先至送到嚟香港，喺今朝早，所以就佢仲有一啲手續要做，要上牌或者其他驗  
26 車嘅手續要做，所以我哋喺完成晒呢啲手續之後，我哋會再聯絡番區議會嗰  
27 面，會安排番一個試車嘅。

28 黃女士：（經傳譯員）唔該。如果係進行呢一次嘅測試，你可唔可以係都將嗰個嘅試  
29 車報告交界委員會呢？

30 陳天龍先生：呢個當然可以。

31 黃女士：（經傳譯員）喺呢次會議仲提出...

32 主席：（經傳譯員）唔好意思，等一等。你心目中會唔會知道大概幾時會進行呢一個  
33 測試呢？

34 陳天龍先生：應該係大約喺一個月後左右。

1 主席：（經傳譯員）唔該晒。

2 黃女士：（經傳譯員）第二個課題就係關於一個傾側嘅警號系統，請你睇番中文第  
3 266 頁，英文係第 275 頁嘅，你睇咗 32 段，鄭官穩先生就話有關於安裝喺車  
4 上呢一個嘅傾側警報器，如果個巴士嘅車身係斜到某一個程度就會響警號去話  
5 畀車長聽嘅，係大部分大嶼山嘅道路都好窄，同埋係好多彎嘅，佢就建議巴士  
6 公司安裝呢一個警報器嘅。

7 睇番運輸署嘅回覆，就係 38(b) 段，蔡小敏女士就話署方理解呢一個建  
8 議，喺車廂上面安裝警報器嘅，亦都就會同大嶼山巴士公司睇下嗰個可行性。  
9 呢個嘅傾側警報器，有冇真係去由你公司去詳細了解一下？

10 黃焯安先生：主席，我交畀楊先生去作答。

11 主席：（經傳譯員）楊生。

12 楊家寶先生：主席，thank you。關於呢一個系統，我哋一路都有同運輸署嗰邊做  
13 一個檢討同埋開會咁傾嘅，焦點而家就係基本上係會所有--我哋建議所有新嘅  
14 雙層巴士都會安裝一個系統，叫做 ESD 嘅系統。而呢個系統就有兩個功能嘅，  
15 一個功能係防止架車過度轉向同埋改善轉向，另外一個功能就係防滾嘅，即係  
16 防反車嘅，喺嗰個臨界點之前，嗰架車有自動一個反應就係將個車速減慢，而  
17 令佢保持喺一個穩定嘅狀態。至於講嗰個警號嗰度，就如果有需要嘅話，可以  
18 叫生產商加埋落去都得。

19 基本上嗰個警號可能我哋有個 concern 就係佢會影響到個司機，即係太  
20 多警號嚟講，因為我哋講緊 over speed，即係超速一個警號，有時啲門啲啲  
21 開門又一個警號，變咗有時司機太多警號，佢哋會有一個混淆，變咗所--與其  
22 將佢提出一個警號，倒不如將佢控制喺穩定嘅情況之下。

23 黃女士：（經傳譯員）唔該。

24 主席：（經傳譯員）唔好--未講第二樣嘢住。你就話係臨界點嘅之前，嗰架車速就會  
25 係減慢嘅，點做到呢樣嘢呀？

26 楊家寶先生：佢嗰個係用有--包括有兩樣嘢嘅，就係車速嘅，佢會將個  
27 injection，即係嗰個噴油就係減少，同埋就會用嗰個叫做減速器將個車速減  
28 慢嘅。至於嗰個速度嘅嗰個監測，佢哋因為有個 sensor，嗰個 sensor 一個感  
29 應器，就裝咗喺嗰個底盤嗰個中間位置，佢嘅作用就係感應嗰個車嘅本身嗰個  
30 側向加速同埋呢一個離心力嘅計算，而提早計算出一個當時到達嗰個臨界點未  
31 呢，而產生一個功能嘅。

32 主席：（經傳譯員）即係有兩方面，一就係會將嗰個噴油減慢，係咪講緊關於呢一個  
33 汽油，或者無--即係睇下嗰架車用咩嘢油？

34 楊家寶先生：係，correct。

1 主席：（經傳譯員）係減慢嘅啫，唔係將佢直情切斷？

2 楊家寶先生：基本上佢係有一個減慢至到停止 injection 嘅，因為視乎嗰個車嘅速  
3 度同埋再加埋嗰個 retarder，嗰個叫做「減速器」嘅功能將架車收慢。

4 主席：（經傳譯員）呢個車速減慢器係咪將個檔次減低或者用制動器或者兩個都用？

5 楊家寶先生：兩個都用。

6 主席：（經傳譯員）唔該。

7 黃女士：（經傳譯員）第三樣，離島區議會嘅委員就講過一樣嘢，關於大嶼山南部嘅  
8 地勢，佢哋就話有好多斜嘅路同埋好多彎道，尤其係銀礦灣路，係好崎嶇同埋  
9 好多彎，佢哋就話單層巴士都要讓路畀對方先至夠位過，而且係冇任何嘅避車  
10 或者泊車處嘅。我想請你睇番 34(a)，跟住就 45(a)，就係呢一個礮石灣路，  
11 呢度就話呢條路係需要巴士司機要具備經驗同埋技巧同埋要係好警覺，尤其係  
12 呢一個礮石灣嘅彎，因為好細微嘅錯誤都會引致意外。跟住 52 段...

13 主席：（經傳譯員）未講第二樣之前，可唔可以講番，講呢句說話嘅係咩嘢人呀？

14 黃女士：（經傳譯員）係黃福根，佢都係議員嚟嘅，以我所知，佢都係呢一個委員會  
15 嘅委員。272 頁。

16 主席：（經傳譯員）唔該。

17 黃女士：（經傳譯員）我哋去睇一睇第 48 段，呢個係副主席張富先生，佢亦都係提  
18 出相同嘅問題，佢話最大嘅問題係出於道路，而唔係巴士，因此首要係改善道  
19 路彎位，佢亦都講，就根本就唔夠位就係兩架巴士一齊通過呢段路，尤其係礮  
20 石灣嘅彎位十分急速嘅。我想聽一聽你對呢件事嘅睇法，呢個對你嚟講--對你  
21 哋公司嚟講，係咪都係一個關注點呢？

22 主席：（經傳譯員）你嘅意思就係話個問題係個道路？

23 黃女士：（經傳譯員）首先就係個道路，另外有啲嘅委員亦都講到，就係需要啲嘅車  
24 長需要足夠嘅經驗。

25 主席：（經傳譯員）所以呢度有兩條問題嘅。

26 黃女士：There are two questions.

27 主席：（經傳譯員）第一個問題就係話，就住呢個觀察，就係話個問題在道路本身，  
28 你哋嘅立場係點樣呢？

29 黃焯安先生：唔該主席。首先我哋想都藉呢個機會，其實喺好多唔同嘅場合，包括係  
30 嗰啲嗰份文件見到嗰個區議會嗰個會議，我亦都係明白喺之前嘅一啲--即係  
31 喺香港嘅交通意外係令到公眾係擔心雙層巴士--即係整體嚟講，雙層巴士嗰個  
32 行車安全嘅。不過首先我想喺度先係再去補充--即係提醒番，其實本身今天嗰

1 條路我哋已經係有巴士行緊嘅，即係唔係話一條路係本身冇巴士去行駛嘅，呢  
2 個係首先要先。

3 我哋亦都唔係計劃整個嶼南都去行雙層巴士嘅，我哋嘅判斷有一部分係向  
4 例如大澳、昂平嗰面係都唔適合行雙層巴士嘅。而去梅窩嗰面，我哋認為係可  
5 以行嘅，雙層巴士，因為我哋今天打算--即係今天我哋之前已經開咗標，去採  
6 購嗰種巴士其實喺市面度，我相信在座好多人都會了解，例如喺港島，都一樣  
7 係有好多山路好險要，好多彎路係行，包括赤柱、山頂、石澳等等嘅路段嘅，  
8 而我哋打算採購嗰一種嗰款車個車長都係甚至乎係比我哋今天嘅單層巴士係為  
9 短嘅，嗰部車係 10.4 米，我哋今天嘅單層巴士係介乎 11 米，接近 11 米 5 左  
10 右，11 米 3 至 11 米 6，所以變咗個長度嚟講，佢係短咗嘅，同單層巴士嚟比  
11 較。

12 當然我哋都好理解有個感覺話雙層巴士嗰個會唔會反車個風險大咗等等，  
13 當然可能喺科學上、理論上可能會，但係我哋覺得最重要、最重要就係駕駛個  
14 車長個態度。當然你話呢架車單層永遠都係比雙層去反嗰個風險會為低，咁係  
15 咪全港所有嘅山路都唔可以行雙層巴士呢？我相信都唔會係一個咁嘅情況。所  
16 以我哋認為最重要嘅係個車長嘅態度。

17 當然我哋喺嗰個車個硬件上面，我哋亦都要去諗有啲乜嘢係--例如好似我  
18 哋今次就係覺得用一架短啲嘅車，因為我哋其實喺市面上係有長啲嘅雙層巴士  
19 嘅，但係我哋都係選擇例如用一部短啲嘅雙層巴士，個高度亦都係矮啲嘅，而  
20 我哋相信呢一個配置，再加上我哋畀到適合嘅培訓畀我哋嘅車長，係可以將呢  
21 個風險係減低。唔該主席。

22 主席：（經傳譯員）黃先生，你話最重要嘅就係呢個車長嘅駕駛態度，嘅意思係乜嘢  
23 呢？

24 黃焯安先生：唔該主席。可能我哋個做法比較傳統啲，始終喺巴士--每一架巴士都需  
25 要一個車長去操控，始終佢都係一個人，我哋唔同話係飛機或者鐵路，有好多--  
26 --今天嘅科技已經有好多好自動化嘅儀器去幫啲機師或者火車上嘅車長。喺巴  
27 士嚟講，我哋呢個咁--我哋自己本身亦都係--頭先你有提及到我哋公司嘅主席  
28 黃良柏先生，佢係我嘅父親，我哋自己經營咗呢個交通運輸行業，係我已經去  
29 到第三代，由阿爺開始去做。而當然你話以前嘅車，佢哋成日都去講以前嘅車  
30 係咪好似今日咁樣咁先進呢？當然我可能都根本都未出世，可能以前嘅車我都  
31 未睇到，但係我哋深信最緊要、最緊要嗰個元素，今天要去安全，當然有科技  
32 去幫到我哋梗係好，係一個輔助，但係最重要嘅一定係我哋車長嘅嗰個態度，  
33 即係佢要係有個心去專業嘅，佢有個心係去真係去安全咁去駕駛嘅，呢啲係相  
34 信係最核心嘅價值。

35 主席：（經傳譯員）唔該晒。

36 黃女士：（經傳譯員）你早前講過就係雙層巴士無論係長度同埋高度嚟講，就係會係  
37 就短過同埋矮過就係單層巴士嘅，但係陳先生就喺第 48 段嗰度講，喺 278 頁嗰

1 度講，...

2 主席：（經傳譯員）佢就當然係長度係比較短，但係如果喺高度嚟講，一定唔會係低  
3 過或者矮過嗰個單層巴士。

4 黃女士：Not less in height but...

5 主席：But shorter...

6 黃女士：...shorter.

7 黃焯安先生：（經傳譯員）佢係就係嗰個係比較一般嘅雙層巴士係比較矮嘅。

8 黃女士：（經傳譯員）我就想睇一睇另外一個會議嘅會議紀錄，呢個係有關就係  
9 2015 年 4 月 6 號發生嘅交通意外，就係你哋嘅公司嘅一架巴士就差啲跌落山，  
10 就係落緊斜嘅時候，就由東涌--大澳嘅時候，你記唔記得呢個事件呢？我哋可  
11 以就係畀你睇一睇個相關嘅新聞報道嘅，係幫你去睇一睇，呢個係講緊羌山  
12 道。

13 主席：（經傳譯員）呢個係個來源喺邊度呢，呢個嘅文章？

14 黃女士：（經傳譯員）呢個係《東方日報》2015 年 5 月 30 號嘅一個報道。

15 主席：（經傳譯員）唔該晒。

16 黃女士：（經傳譯員）我哋睇一睇呢一個報道，你或者記唔記得呢個意外係 2015 年  
17 4 月 6 號發生嘅？

18 主席：（經傳譯員）呢個喺我哋嘅聽證會文件之中喺邊度搵到呢？

19 黃女士：（經傳譯員）主席，呢個就有擺落個文件冊嗰度，但係就係喺個網站嗰度  
20 嘅，我哋亦都係將佢翻譯咗出嚟，等你容易啲去參考嘅。

21 黃焯安先生：唔該。主席，因為如果我就咁睇呢個報道，其實佢裏面提及到首先有一  
22 單係四十二年前嘅意外，跟住另外有一單就係十二年前，另外就反而佢冇提到  
23 話 2015 年 4 月嗰單，但係張--即係如果你話張相呢個，呢個我哋有印象嘅，  
24 呢單意外。三單意外，我相信都係唔同嘅成因嘅，你話喺四十二年前嗰單，嗰  
25 條路同而家個路況相信都已經係改變咗好多，當然我唔--四十二年前嘅，我唔  
26 能夠確定嗰陣時個路況係點，但係我一路嘅理解，就係聽番啲同事講嗰個今天  
27 喺大嶼山嗰面嘅路況已經係改善咗好多。咁十二...

28 主席：（經傳譯員）好呀，你慢慢睇，睇完先至回答。

29 黃焯安先生：Yes。至於裏面提及到 03 年嗰個意外，就我哋要返去再搵一搵資料  
30 先，而家嗰個都唔係太過肯定當時嗰個事發地點同埋嗰個事發經過。至於你話  
31 15 年嗰個，就喺內文--呢度內文就有提及到嘅，係張相嗰度--有見到張相係喺  
32 嗰個--即係有架車擲住咗喺嗰度咁樣，係喇，呢個，呢個就應該係我粗略記得

1 都係 15 年時候去--好似 15 年嗰陣時發生嘅，好似係，應該係，係喇。

2 呢一單意外嗰陣時就有--即係慶幸係冇人係嚴重受傷或者--即係死傷都有  
3 嘅，係當日有乘客係受咗輕傷，而要去送院。當然喺呢張相嗰個角度去睇係即  
4 係好似好驚險咁嘅，但係其實前面嗰度唔係一個--即係佢嗰個位係嗰啲--嗰個  
5 平，即係其實佢前面車頭嗰個位係--即係其實都係一個陸地嚟嘅，其實平嘅，  
6 但係當然係我哋事後去了解番嗰個--即係呢一單意外，我哋之後都去檢討係要  
7 去點樣做好啲呢，就係嗰陣時嗰個--即係再 detail 啲，真係要返去搵下，但  
8 係就本身嗰個車款同埋我哋之後都要求咗係用另外--即係可以用一個--個中文  
9 應該係叫「減速器」，就變咗可以唔使淨係靠個剎車系統去--因為嗰度係個斜  
10 路落嚟，就唔需要淨係靠嗰個剎車系統去剎車。

11 呢啲裝置，即係呢一個減速器呢個裝置，我哋都係會喺--就算我哋之後用  
12 雙層巴士又好，或者我哋自己今天用嘅單層巴士都好，都係有配備咗呢個裝  
13 置。

14 黃女士：Thank you. Actually the...

15 主席：（經傳譯員）我想問一問，呢張喺螢幕上嘅巴士，呢個你係會係 2015 年 4 月  
16 6 號嗰個交通意外嘅情況嚟嘅，係唔係呢？

17 黃焯安先生：Yes。

18 主席：（經傳譯員）但係嗰個文章本身就冇講到呢一單意外嘅，但係淨係幅相係關於  
19 呢單意外嘅啫？

20 黃焯安先生：係喇，如果我就咁睇呢個新聞，就有提到嗰單新聞，可能唔喺呢個報道  
21 度。

22 主席：（經傳譯員）黃律師，你有冇 2015 年 4 月 6 號嗰一單意外嘅報道呢？

23 黃女士：（經傳譯員）呢個係 2015 年 5 月 18 號呢一個離島區議會嘅一個會議紀錄  
24 嗰度，就中文版 203，然後英文版係 208 嘅，呢一個就係有關於回應一個 201  
25 頁嗰個問題，就係英文版係 202 嘅，係余先生係一個區議會議員嘅時候就係問  
26 到呢個北大嶼公路嗰個嘅安全嘅。

27 主席：（經傳譯員）咁我哋就應該係...

28 黃女士：We should start with the question.

29 主席：（經傳譯員）就係中文版係 201，英文版就係 202 嘅，黃先生，或者你自己  
30 睇一睇先。

31 黃焯安先生：Yes。

32 黃女士：（經傳譯員）黃先生，你睇一睇第 204 頁，我相信你個公司嘅代表係黃先

1 生都有出席嘅，喺英文版就係 209 頁嘅，喺離島區議會嘅 2015 年 5 月 18 號嘅  
2 時候就發現有三個主要嘅問題嘅，佢哋講及嗰個道路嘅設計，呢個就係喺 79(c)  
3 嗰段，當時就係劉焯榮先生，佢都係委員之一，佢就提出呢點嘅，佢就話嗰個  
4 係大嶼山嘅道路設計就唔安全嘅，譬如話嶼南道同埋係羌山路，即係喺水塘同  
5 大澳之間嗰段路都唔安全嘅；另外，佢就話運輸署就已經係多次就係作出改善  
6 嘅，但係都有超過十個彎位嘅，但係只係得三個真係有所改善嘅。

7 跟住佢就講出第二個問題，你可以睇到 79(d) 嗰段嘅，運輸署就係批准係  
8 有三十條嘅旅遊路線就係大嶼山嗰度行走嘅，但係呢啲車嘅車身就係比起正常  
9 嘅巴士稍為長嘅，同埋行呢個係羌山道一啲唔合標準嘅彎位嘅話，就更加容易  
10 係發生意外。

11 第三個成因，佢就話--你可以睇呢個第 81 段，李桂珍女士就咁講嘅，佢  
12 亦都係委員之一嘅，佢就話要求擴闊嗰條道路，即係嶼南路，其實要求咗超  
13 過二十年，但係嗰個情況依然係未有改善嘅。

14 而關於第一點，我相信黃華先生，即係你哋嘅代表，當時就問過究竟嗰三  
15 個改善地點係邊三個，或者我哋可以睇一睇呢個第 80 段--對唔住，第 90 段。  
16 黃華先生就問究竟嗰三個改善咗嘅地點係喺邊度，或者將要改善嘅邊度嘅，佢  
17 嘅意見就認為係羌山道有三十個地點係需要改善嘅。

18 我而家個問題係你公司有冇係搵出運輸署所講嘅三十個地點呢？

19 黃焯安先生：Chairman，關於呢一個，呢一刻我哋唔能夠確定有冇同運輸署嗰面去  
20 喺一啲正式嘅文書或者書信往來係畀佢哋話我哋係希望佢去--即係去將話邊啲  
21 位置去改造咁樣，呢個都要返去--因為本身喺區議會代表我哋嗰位黃華先生今  
22 日就唔在場，同埋佢都已經退咗休其實，我哋都要返去搵一搵番啲資料，睇下  
23 佢去--即係我哋都搵番究竟係同署方嗰面嗰個往來係點樣先。

24 主席：（經傳譯員）好，好，請你返去搵一搵，如果係攞到啲咩嘢資料可以幫我哋理  
25 解嘅話，就麻煩你係交畀我哋委員會。

26 黃焯安先生：（經傳譯員）好呀，主席。

27 黃女士：（經傳譯員）你提供資料嗰方面，麻煩你亦都係幫我哋手，話埋畀我哋聽呢  
28 度嗰三十個地點係咪都係你哋喺培訓嘅課程裏面所提及嘅交通意外黑點分析嘅  
29 名單上面呢？

30 黃焯安先生：主席，因為呢一刻我哋手頭上有--即係唔知究竟係黃華先生嗰陣時講嘅  
31 三十個--約略喇，佢話“has about 30 spots”，約呢三十個需要改善嘅位  
32 置係喺邊個位，所以我哋都唔能夠一時間去回覆到究竟呢三十個位係咪等同我  
33 哋而家自己喺培訓嗰度覺得需要特別加強嗰三十個位，我都真係抱歉，呢度我  
34 都要返去真係先搞清楚喺黃華先生佢講嘅呢約略三十個位係邊三十個位先。唔  
35 該。

1 主席：（經傳譯員）好，唔該晒，麻煩你返去咁樣查下喇。

2 黃女士：（經傳譯員）我亦都想講一講一個違例泊車呢一個課題，想請你睇一睇呢  
3 一個雜項文件夾嗰度嘅第 643 頁，如果係翻譯，就係 644 個頁嘅。想請你睇睇  
4 呢度呢一頁嘅第三段，644-1 個一頁嘅，呢度係有一封信，就係民主陣線係寫  
5 畀委員會，係請委員會就係要留意嘅，呢度就開頭嗰句就係話係巴士車長嘅  
6 2017 年 2 月、2018 年所採取嘅工業行動，就係令到係社區嘅不同界別嘅人士  
7 留意到一啲咁嘅問題，例如就係喺巴士站違例泊車、車長嘅待遇同埋嗰啲工作  
8 時間；跟住佢哋就係列出幾個原因點解係有人違例泊車--喺巴士站違例泊車。

9 我哋落去跟住嗰頁，644，英文版就 644-1，呢度就講嘅，如果要係取締  
10 巴士站嘅違例泊車，一定係要連根拔起同埋要有適當嘅政策，亦都係要將嗰啲  
11 過時嘅法例係修訂嘅，呢個問題要解決嘅話，一定要多管齊下。佢哋其中一個  
12 建議...

13 主席：（經傳譯員）對唔住，你未繼續之前，英文版喺邊度呀？

14 黃女士：（經傳譯員）644-1，下面嗰度。

15 主席：（經傳譯員）最後嗰段，最後嗰段。

16 黃女士：（經傳譯員）係，最後嗰段。

17 主席：（經傳譯員）好。

18 黃女士：（經傳譯員）跟住嗰頁，644-2 個頁，佢哋作一個咁嘅建議嘅，就話可以  
19 跟隨星加坡嘅例子，就係所有車隊嘅巴士嗰度都係安裝呢個相機，自從 2008 年  
20 星加坡已經係咁做，巴士上面同埋車長個座位側邊嗰度嘅，如果司機發現有車  
21 停咗喺巴士站嗰度，就揪個掣，然後錄係五至到十分鐘，巴士公司跟住就將嗰  
22 個錄影帶交畀警方，警方跟住就可以檢視，然後喺兩個星期之內就會將告票係  
23 送去畀呢個車主屋企嗰個住址嗰度。或者我哋未繼續落去之前，我就想問你哋  
24 公司覺唔覺得喺巴士站有違例泊車係一個問題呢？

25 黃焯安先生：唔該主席。喺大嶼山巴士嘅情況嚟講，本身我哋--因為頭先例如一路講  
26 緊嶼南嗰面嘅路係一個禁區，係需要禁區紙先可以進入嘅，喺巴士--即係嗰面  
27 嘅車其實同市區比較，係少啲嘅，即係有咁繁忙嘅，喺你話一啲--即係我哋同  
28 事--我哋收到返嚟嘅訊息，你話巴士站呢啲違泊嘅情況係較為少嘅，喺我哋自  
29 己嘅暫時嘅一啲路。

30 當然你話反而係個別--一啲好個別，例如去到喺大澳巴士總站嗰度，因為  
31 近年都係一路做緊啲工程等等，喺個巴士總站嗰度就即係個上落客個位置就唔  
32 係好足夠，亦都本身可能旁邊有啲車，有少少--尤其是係一啲大時大節咁樣，  
33 因為有咁禁區紙，即係嗰度可能當區其實係一啲私家車泊位又唔係好足夠，會  
34 有少少啲咁嘅情況，但係你話真係--我相信同市區比較，我哋嗰面嘅嗰個情況  
35 就唔係咁惡劣嘅。唔該。

1 黃女士：（經傳譯員）點解我提出呢件事呢？就係因為離島區議會 2016 年 3 月 21  
2 號嘅會議紀錄嗰度，或者睇番第 98 頁中文。

3 主席：（經傳譯員）邊一度呀？

4 黃女士：（經傳譯員）DC-1，第 98 頁就係中文，第 143 至到 144 段，英文就請你  
5 睇呢個 103-1 嗰一頁嘅，143、144 兩段，呢兩段都係委員會嘅成員提出嘅，  
6 佢哋就講到話泊車--違例泊車同埋雙行泊車，呢個都係指呢個達東路嘅，我想  
7 問下，你對於呢兩位區議會嘅委員所提出嘅問題，你有咩嘢睇法？

8 黃焯安先生：主席，我交畀陳先生代我去作答，唔該。

9 主席：（經傳譯員）請你講。

10 陳天龍先生：主席，其實喺近年我哋喺東涌營運巴士，都睇到喺達東路其實嗰個交通  
11 情況都頗為惡劣嘅，因為嗰度係單向行車，得一條路嘅啫，相信喺區議會裏面  
12 嗰啲 member 所提出嚟嘅意見，其實係因為嗰個係一個東涌嘅市中心嘅道路嚟  
13 嘅，如果嗰度有擠塞起上嚟，就會成個東涌區都會塞晒嘅，亦都對我哋巴士營  
14 運亦都有相當嘅困難，因為我哋嘅巴士站就係喺達東路，變咗有陣時有啲情況  
15 可能連我哋架巴士駛出總站都有困難。但係呢一個問題，其實我相信係成個社  
16 會個問題嚟嘅，呢個議題其實都喺區議會裏面都存在咗好耐㗎喇。

17 主席：（經傳譯員）你意思係咪話你哋嘅巴士所面對嘅問題就係話喺總站嗰度都難以  
18 開出，呢個都係直接係由於係違例泊車，定抑或係間接係因為違例泊車而引致  
19 有交通問題所造成呢？

20 陳天龍先生：係有間接嘅影響嘅，正如我頭先所講，因為呢條路係非常之繁忙嘅，喺  
21 東涌市中心嚟講，其實呢條路只要有 double parking 或者有交通意外發生，  
22 就會影響到成個東涌市中心都會擠塞。

23 主席：（經傳譯員）唔該晒。

24 黃女士：（經傳譯員）你知唔知道警方就係向運輸署同埋立法會嗰度建議，就話應該  
25 喺黑點嗰度就係用呢個相機，即係話喺燈柱嗰度係安裝一啲攝影機，嚟到係應  
26 付呢一個巴士總站附近嘅違例泊車，咁樣樣就可以收集到啲證據，你知唔知道  
27 有咁嘅建議呀？

28 黃焯安先生：唔該主席，喺新聞度有睇過呢啲關於呢個建議。

29 黃女士：（經傳譯員）你歡唔歡迎一個咁嘅提議呢？

30 黃焯安先生：係。

31 黃女士：（經傳譯員）咁嘅建議你覺得好唔好呀，歡唔歡迎呀？

32 黃焯安先生：當然我代表喺公司嘅立場，當然係非常之歡迎，如果係有方法去解決到

1 呢啲喺路邊嘅違泊。

2 黃女士：（經傳譯員）好喇，而家講去第二個題目，就關於就係巴士車長嘅紀律處  
3 分，我就想請你睇番呢個 NLB-1，呢個第 23 頁嘅，你哋公司就有咁講過嘅，巴  
4 士車長如果佢係涉及一啲嚴重嘅交通意外，就會就係唔畀佢繼續揸車住，會暫  
5 停駕駛嘅，我想問下，究竟呢個暫時係唔揸車係會維持幾耐嘅呢？

6 黃焯安先生：唔該主席。喺我哋--應該喺同一個文件嘅第 13 頁，應該呢個螢幕而家  
7 睇緊嗰度之後嗰版，我哋都有去講解番當有啲--即係喺第三樣咁嘅情況，當然  
8 其實通常如果真係咁不幸發生一啲好嚴重嘅事故，我哋都當然要先--都要花啲  
9 時間去調查究竟係同事嘅問題㗎，定係唔係佢嘅責任㗎，定係--即係係咪佢個  
10 責任。而亦都係呢段時間，其實我哋即係雖然係暫停咗佢個駕駛職務，但係我  
11 哋都會係繼續支薪畀佢，即係先我哋了解清楚晒成件事，亦都係--因為亦都試  
12 過過往有啲情況係可能係發生咗啲好不幸嘅事件，而個車長係自己要求都係想  
13 話要停一停，休息一下先，即係想去喇一喇先咁樣，我哋覺得呢一個先叫佢停  
14 工，調查咗先呢個安排係有幫助嘅。

15 黃女士：（經傳譯員）唔該晒，好，或者想請你睇呢個第 23 頁，你就提及到話一啲  
16 車長，懷疑佢哋需要係一啲精神上嘅支援，你可唔可以講下點樣可以搵出呢一  
17 類嘅車長？即係話嗰啲需要精神上去特別照顧佢嘅車長。

18 黃焯安先生：唔該主席。喺今天，我哋就唔會話有一個機制或者調查去睇下我哋啲同  
19 事佢會唔會有喺你嗰嗰提到嘅 mental problem 咁樣，呢個都係我相信要好專  
20 業嘅人士先至可以畀到呢個意見，而我哋--即係你嗰嗰講話我哋點去--即係呢  
21 啲人係--呢啲同事喺邊度嚟，就都係要等個同事自己主動提出。倘若例如佢係  
22 一啲唔係一啲 physically 嘅問題，佢係覺得有啲咩嘢心--即係個心裏面有啲  
23 咩嘢唔舒服，想好似搵人哋去傾下偈，去傾訴咁樣嘅，我哋公司就搵咗一個出  
24 面嘅機構去合作，就係可以畀我哋嘅同事去打電話嗰度，就去得到一啲專業啲  
25 嘅幫助。

26 黃女士：（經傳譯員）你提及就係一個輔導嘅服務，呢個輔導嘅服務係咪由你公司提  
27 供，由你公司支付嘅，畀錢嘅呢？

28 黃焯安先生：唔該。呢一刻我哋係將呢個服務係有個熱線畀咗我哋嘅同事嘅，而個同  
29 事如果覺得有需要，就可以致電去嗰個一個顧問服務熱線咁樣，當佢喺嗰個熱  
30 線嗰度去同嗰面個 operator 去傾完，而嗰面佢覺得佢係有需要，因為可能佢  
31 都要先篩選下或者了解下個問題係啲咩嘢嘅，佢係覺得佢係有需要係做一啲--  
32 即係一啲叫做輔導性質，佢會再將佢轉介去另外一啲再專業啲嘅機構，以上呢  
33 啲都係由我哋公司去畀嘅費用，就唔需要我哋嘅僱員去自付。

34 黃女士：（經傳譯員）你想唔想引入一個系統就係定期評估巴士車長心理、精神上係  
35 咪適合繼續做車長？

36 黃焯安先生：好，唔該。因為本身喺上一次城巴上完嚟委員會之後，我亦都留意到其

1 實佢有去研究緊究竟合唔合適，我自己就都有去--因為我自己有啲朋友係有去  
2 一啲--即係叫做心理學家，咁我都即係先係想去搞清楚其實究竟係從一個真係  
3 叫做話專業啲嘅角度係點幫到我哋呢？即係初步，我諗--不過我哋只係一個好  
4 初步咁樣，而我嘅了解到，就係我哋又唔好話會覺得係咁容易會話去搵到話--  
5 即係就算心理學家都好，佢都唔會可以話到畀我哋聽有邊啲人係合適定係唔合  
6 適去做一個巴士嘅車長嘅。

7 反而心理學家可能係做咗一啲適當嘅評估之後，佢係可以話到畀我哋公司  
8 聽可能呢一個同事佢係喺邊一方面係較為弱，係需要即係有啲--或者係需要一  
9 啲額外嘅支援或者協助嘅，就從而係向嗰方面去著手，就唔--即係我相信未必  
10 會存在係可以好清一色，好似一個--當係你好似去驗身咁樣，而個醫生可以好  
11 清晰咁話到畀我哋聽呢個人係適合揸車定係唔適合揸車咁樣。

12 但係只係一個好--因為其實頭先我講嘅都係一個口頭上我同--即係我自己  
13 嘅一啲朋友去了解嘅，我哋都喺呢一方面，你見到其實我哋自己喺本身都已經  
14 係有去--都意識到其實有陣時係同事嘅壓力，尤其是我哋都係較為好日常面對  
15 好多唔同嘅人，都了解其實有陣時都要搵啲渠道去畀同事去表達佢哋嘅即係心  
16 中嘅一啲壓力嘅，我哋亦都好樂意如果係往後即係繼續會再深入啲了解，如果  
17 你話喺心理輔導呢方面，例如係--即係甚至乎你話係一啲入職前去做一啲評估  
18 等等，係咪真係有幫助呢？都要真係再了解下先。

19 或者你話定期嘅去有啲嘅抽查一啲同事咁，但係因為呢一方面就我哋暫時  
20 未真係掌握太多資料，就唔能夠話去有個好確實嘅答案，不過就要再研究一下  
21 先。

22 黃女士：（經傳譯員）而家講就係呢一個薪酬同埋福利，我想請你睇你自己嘅文件  
23 NLB-1，17 同埋 21 頁，17 頁，第二段，由尾數上，你公司就話就係要提高你  
24 哋公司個職位嘅吸引力去吸引車長，就會有一個嘅薪酬同埋待遇嘅調整。我想  
25 請你睇第 21 頁，上面就講咗你哋公司嘅薪酬待遇，呢個係調整之前定之後嘅事  
26 嚟㗎？

27 黃焯安先生：請問你講嗰個 adjustment 係講緊幾時嘅，即係邊個，咩嘢嘅  
28 adjustment？

29 黃女士：（經傳譯員）我提及嘅就係你公司嘅意見書，第 17 頁尾數上第二段第三  
30 行，上面就提及過，就係 “wages and welfare package  
31 adjustment”，薪酬同埋福利嘅待遇調整...

32 主席：（經傳譯員）你成段讀，成句讀。

33 黃女士：Yes。（經傳譯員）佢就話「為咗提升我哋職位嗰個吸引力同埋挽留現有嘅  
34 車長，除咗就係調整薪酬同埋福利，我哋公司就係發展緊一啲嘅措施，就係包  
35 括就不限於係以下嘅一啲項目，以提高工作嗰個嘅滿足感嘅」，呢個就係我所  
36 提及嘅嗰個調整。

1 黃焯安先生：唔該主席。喺呢個薪酬嗰個表嗰度，就係 2017 年 7 月份嘅，今年就未  
2 做呢個調整。至於頭先嗰句，即係你啱啱--黃小姐提到嗰個 adjustment，即  
3 係嗰個成個安排就係喺頭先嗰段後面就有幾樣--有幾個措施，就係即係我哋除  
4 咗 take-home pay，即係佢真係喺個薪酬嗰度，另外我哋就去加強咗啲係希  
5 望--我諗主要係講緊後面呢度，你話本身佢哋嗰個--上面嗰個表嗰個人工就係  
6 2017 年 7 月到暫時為止，我哋都而家一路喺度都準備緊 2018 年嗰個人工，就  
7 都而家準備緊，睇下--即係未--都仲傾緊都係個加幅嗰度。

8 黃女士：（經傳譯員）呢個係幾時決定 2018 年嘅加幅呀？

9 黃焯安先生：唔該，本身我哋正常嚟講，就係 7 月 1 號嘅時候加人工嘅，今年個情況  
10 就我哋本身喺 4 月初嘅時候就公布咗會發放一個一次性嘅特別獎金先嘅，因為  
11 我哋其實係留意到喺個市場度其實另外兩間巴士公司喺 2、3 月嗰陣時咁上下，  
12 佢哋就--應該 3 月份嘅時候，就佢哋將一個佢哋薪酬度有啲--個架構有啲改變  
13 咗，就我哋擔心如果我哋等到 7 月份先至加人工，就會同佢哋嗰個距離太遠，  
14 就所以我哋喺 4 月份就有個一次性嘅--有個咁嘅安排，就去到 9 月底嘅時候發  
15 放。

16 至於 2018 個人工，我哋呢一刻就都係正常，其實每年都係會同工會嗰面  
17 去商討，第一；亦都係我哋自己睇番我哋自己公司嗰個情況，同埋其中一樣，  
18 我哋都會係有個指標性去參考，就係因為我哋嗰個規模就係最細嗰間，我哋都  
19 會係睇番市場另外兩間主要嘅公司，睇一睇佢哋嗰個大概個加幅係點樣嘅，我  
20 哋又再去--即係都有啲參考作用。

21 因為今年--其實今日已經係 6 月 19 號，暫時嚟講，我哋睇可能都係會--  
22 應該希望喺 7 月份、8 月份咁上下做到，如果你話過咗 7 月 1 號嘅，我哋就會--  
23 --即係往時都係叫追加番咁樣。唔該。

24 黃女士：（經傳譯員）可唔可以畀一個更新咗嘅表，即係你喺做咗 2018 年嘅覆核之  
25 後，畀番一個更新版本我哋？

26 黃焯安先生：當然可以。

27 黃女士：（經傳譯員）如果我哋睇番個表，可以見到薪酬待遇，有大部分，即係車長  
28 嘅月薪，大部分似乎係來自一個每日嘅值日津貼嘅，即係第 2 項，你同意嘛？

29 黃焯安先生：係。

30 黃女士：（經傳譯員）每個月有幾多日車長係需要工作嘅呢？

31 黃焯安先生：唔該，就平均而言，就二十四至二十五日。

32 黃女士：（經傳譯員）大概計到就係五千五百零釐嘅，即係二十四日嘅值日津貼的  
33 話，如果車長係病咗，係咪佢唔會得到呢一個--呢項嘅津貼㗎喇？

34 黃焯安先生：係，請問你係咪講緊第 2 項嗰個 duty allowance？

- 1 黃女士：（經傳譯員）冇錯。
- 2 黃焯安先生：如果嗰日個同事個車長係冇上班，就唔會攤到個 duty allowance。
- 3 黃女士：（經傳譯員）譬如如果佢係病咗三日，就會失去七百零釐，係咪呀？大概  
4 700 釐嘅，假設就係一日\$230。
- 5 黃焯安先生：係，thank you, Chairman，係，確認，如果嗰個同事係假設你啱啱  
6 講嗰個例子，佢係三日病咗，冇上到班，係，嗰三日嗰個 duty allowance 係  
7 唔會攤到。
- 8 黃女士：（經傳譯員）第 4 項嗰個勤工獎，就係每個月咁計？
- 9 主席：（經傳譯員）未講呢樣嘢之前，個失去咗嘅值日津貼，即係每一日\$230 就係  
10 逐日計，定係佢成套嘅值日津貼有咗？
- 11 黃焯安先生：如果係講緊個 duty allowance，我哋係逐日去計算畀個同事嘅，佢  
12 一日--即係佢例如係叫做佢係嗰日--嗰個月佢有二十五個工作天，嗰個 duty  
13 allowance 就係用\$230 乘以 25 咁去計算，如果佢係咩嘢緣故都好，而佢係少  
14 --即係叫做係嗰個日數係少咗嘅，個收入就會係用番\$230 乘番幾多日咁去減少  
15 咗。
- 16 主席：（經傳譯員）即係如果佢二十五日裏面有一日冇返工，只係喪失 230 釐嘅，  
17 即係嗰日嘅津貼啫，係咪呀？
- 18 黃焯安先生：如果係用第 2 種嘅 duty allowance 嚟講，係。
- 19 主席：（經傳譯員）唔該。
- 20 黃焯安先生：係，唔該。
- 21 黃女士：（經傳譯員）勤工獎呢？750 釐就係月計嘅，如果佢病咗三日，會唔會扣咗  
22 --即係會按比例咁樣扣番呀？
- 23 黃焯安先生：唔該主席。喺嗰個講到去呢個 attendance bonus 呢度，本身係我哋  
24 呢個中文係叫做勤工服務獎，係每月去發放畀個同事嘅，如果佢係有--即係有  
25 上到班，第一日就會係少發兩百釐，第二日就少發\$250，第三日就少發\$300，  
26 如此類推，就如果佢三日--即係咁樣，你將佢加埋，三日就係 750 釐就唔會發  
27 畀個同事，個獎金，即係三日都個同事係有上到班，呢個 attendance bonus  
28 都係唔會發畀個同事嘅，變咗，如果佢一日，就係\$200。
- 29 黃女士：（經傳譯員）如果我計得啱，如果車長係病咗三日，總共就會喪失 1,500  
30 釐，我咁樣講，計得啱唔啱？\$750 加\$750。
- 31 黃焯安先生：唔好意思，主席。係，確認，如果嗰個同事佢係三日--如果佢三日冇上  
32 到班，就會係好似頭先咁講，喺 duty allowance 嗰度有 690 釐嘅扣減--唔

1 係扣減，即係少發咗。同埋就係喺 attendance bonus 嗰度又\$750 亦都係唔  
2 會發畀個同事。唔該。

3 黃女士：Now would this -- sorry.

4 主席：（經傳譯員）歐陽先生。

5 歐陽先生：（經傳譯員）我咁樣講，就係話值日津貼同埋勤工獎服務都係同一個目  
6 標，就係希望鼓勵嗰啲員工係盡量都返工嘅？

7 黃焯安先生：唔該歐陽先生，如果回應你嘅提問，我哋去--好似你咁講，去訂立呢個  
8 duty allowance 嗰個用意係想同事係積極啲去工作，呢個第一；第二，你話  
9 去--因為嗰個勤工獎嗰個其實佢有個變化嘅，本身以往係即係同安全獎都係，  
10 其實係一個--當然嗰陣時我唔係好--即係呢一刻我都可能都要搵番啲舊啲嘅資  
11 料，可能以前係一年發一次或者發兩次咁樣嘅，但係慢慢因為同事都反映番，  
12 如果咁樣，要等太耐，第一，呢個獎金要去到一年或者半年先攞到，就變咗季  
13 度，季度再久而久之轉咗就月發，就咁樣。

14 好似你咁講，如果你話嗰個--我哋個目的係咩嘢呢？的而且確我哋當然就  
15 係想我哋嘅同事係即係積極去工作。驟眼睇，都你可以話佢哋嗰個出發點係相  
16 近。

17 歐陽先生：Okay, thank you, thank you。

18 黃焯安先生：唔該。

19 歐陽先生：Thank you, Ms Wong。

20 主席：（經傳譯員）所以個答案係即係簡單嚟講，就「係」喇？

21 黃焯安先生：（經傳譯員）係，冇錯。

22 主席：（經傳譯員）黃律師。

23 黃女士：（經傳譯員）呢個唔係唯一嘅獎金就係鼓勵嗰啲同事係工作嘅，如果你睇番  
24 第 6 項，關於休息日嘅津貼，車長就會係每一日嘅工作日就係 625 釐嘅，如果  
25 佢哋喺休息日都工作，佢哋就會獲發 625 釐，係咪呢？

26 黃焯安先生：係，我諗喺度都想講一講我哋背後嗰個理念，可能講出嚟會--希望個字  
27 眼表達得可以好啲，因為本身--正如我頭先咁講，我哋嘅主席黃良柏先生佢從  
28 事咗交通運輸行業係好多年，而佢亦都有個較為--即係佢覺得係一個實際啲嘅  
29 想法，當如果我哋一啲咁基層前線嘅同事，如果佢想去喺嗰個你啱啱講嗰個  
30 rest day 嗰個--其實呢\$625 係另外去發畀啲同事，即係佢會本身嗰日已經係  
31 有當天嘅 duty allowance，另外再發嗰個\$625 畀佢嘅，係因為佢知道如果  
32 嗰個同事，例如佢係嗰個月 suppose 佢原先佢應該要返廿五日工，變咗佢肯額  
33 外返多一日，返第二十六日咁嘅，打個比喻，當然就係正正個同事犧牲咗佢嘅

1 休息嘅時間，而我--如果倘若我哋唔去叫做畀一個 rest day allowance 嘅  
2 個同事，可能嗰個同事只係會--因為其實嚟出面其實要去搵一啲兼職揸車嘅工  
3 作，其實都市場上有好多嘅，包括可能嚟出面揸貨車、的士等等，我哋公司嘅  
4 諗法就係覺得倒番轉，與其係咁，不如我哋畀個好啲嘅叫做少少回報咁樣去畀  
5 我哋同事。

6 正如我哋再之前有提及到，其實我哋同其他巴士公司比較，係多咗五日嘅  
7 個假期，其實嗰五日假期，好坦白講，好坦白講，個同事其實未必--因為我哋  
8 會係容許個同事去選擇放假，有啲同事佢不嬲都係冇放開咁多假嘅，可能佢會  
9 選舉去寧願係想工作嘅，佢就變相嚟呢度都係一個加咗人工畀個同事咁樣。唔  
10 該。

11 主席：（經傳譯員）羅教授。

12 羅先生：（經傳譯員）關於休息日嘅呢度，其實我哋--你係邀請個車長係去工作，  
13 還是個車長自己要求呢？譬如話我係有一日係放咗病假嘅，我就嚟番我嘅休息  
14 日去工作番，我咪彌補番囉咁樣，會唔會係咁呢？

15 黃焯安先生：好，唔該晒教授。本身如果個同事佢係--例如佢想話休息--即係少一  
16 日休息咁樣，佢想話嗰日去開車咁嘅，當然要實際睇番佢幾時同公司申請，即  
17 係如果佢例如係無端端話聽日畀人哋--約咗人，人哋俗啲咁講，放咗佢飛機，  
18 唔知應該點可以簡單講，就佢突然問話佢有嘢做，想開番工，我哋都要實際睇  
19 番究竟我哋有冇需要，通常嚟講，即係咁嘅情況，其實就都唔會有工作畀佢  
20 做，即係咁即時，因為本身我哋其實嗰個更分係編好晒。當然我哋亦都係再睇  
21 番其實我哋自己運輸署嗰個 guidelines，睇下佢有冇話--亦都睇番實際情  
22 況，佢有冇超咗工作時間等等，呢一類型。唔該。

23 黃女士：（經傳譯員）好，總結嚟講，就係呢個咁樣嘅工資嘅結構，就會令到嗰啲車  
24 長會係就工作長啲時間，甚至乎當佢病嘅時候佢都想工作呢？

25 黃焯安先生：我諗首先，要睇下你講話“he was sick”，即係佢唔舒服嗰度，究  
26 竟佢係真係非常之唔舒服而係唔適合駕駛，定係佢有少少唔舒服都仲可以駕  
27 駛，因為我哋相信我哋今日呢個制度就係倘若嗰個同事佢係有少少唔舒服嘅，  
28 因為你話 sick 都可以係睇下嗰個程度去到邊，如果本身佢真係都唔適合駕駛  
29 嘅，佢當然係唔能夠話就算佢唔想去休息，佢都係--即係佢都不能駕駛，佢都  
30 唔可以去開車㗎。

31 同埋我哋--當然我哋自己個信念本身嘅核心，就係覺得多勞多得，因為我  
32 哋呢個係一個服務性嘅工種，當然可能我哋裏面都係有啲例如新嚟見工、入職  
33 嘅同事有反映話好似好複雜，有陣時我哋都要花好多唇舌去計算畀個同事，但  
34 係當然我哋嗰個希望最緊要做到出嚟嘅就係真係畀到一啲勤力嘅同事，佢哋係  
35 用心去做嘅同事，佢哋係攞到佢哋應有嘅薪金，就係我哋嗰個目標係咁樣。

36 黃女士：（經傳譯員）好，我就想去另外一個課題，就係關於乘客嘅表現，我哋聽到

1 其他嘅巴士公司就佢哋話一啲車長係曾經係同呢個顧客嘅行為係有問題，就係  
2 有困難嘅，你哋有冇係有收過類似嘅投訴呢？

3 黃焯安先生：主席，我交畀黃焯添先生去作答。

4 主席：Yes, Mr Wong.

5 黃焯添先生：唔該主席。頭先 James 都有講到，我哋嘅服務係相對比較地區性，我  
6 哋大部分嘅路線都係圍繞住喺東涌區或者嶼南區嘅，所以大部分平日嘅乘客都  
7 會係一啲本地嘅住客，我哋嘅同事或者係車長、站長都基本上係每日都見到呢  
8 啲乘客嘅，所以我哋遇到呢啲所謂爭執或者係投訴係相對地較少。

9 另外我哋最主要另外一個收入嘅來源或者係客路就係旅客。旅客相對地嚟  
10 講，因為佢哋本身嚟嘅 intention 都係遊覽香港，佢哋比較少會係遇到呢啲爭  
11 執嘅問題嘅；相反之，我哋喺前線嘅站長遇得比較多問題嘅就係可能喺車上可  
12 唔可以攜帶行李或者係如果入大嶼山嘅話，可唔可以帶一啲 surfing board、  
13 單車，呢啲我哋喺前線嘅站長嘅處理都盡量係會同啲乘客講如果太大件嘅，亦  
14 都唔可以攜帶上車。如果可以嘅，我哋一啲旅遊巴係有一啲行李櫃可以放到入  
15 去嘅，我哋都盡量會幫啲乘客去放入去。所以對於我哋公司嚟講，呢一類型嘅  
16 爭執係比較少見。唔該主席。

17 黃女士：（經傳譯員）其中一個就安全嘅設施，喺你哋嘅巴士，就係有閉路電視--喺  
18 嗰個司機位嗰度就係有閉路電視係有錄影嘅功能嘅，呢度有冇一個嘅錄音系統  
19 嘅呢？

20 主席：（經傳譯員）你可唔可以話畀我聽喺邊度，喺個陳詞度？

21 黃女士：（經傳譯員）第 20 頁嘅。

22 主席：（經傳譯員）好，唔該晒。

23 黃女士：（經傳譯員）就關於嗰個安全裝置，就喺佢哋嘅文件冊第 2 號嘅第 453 頁  
24 嘅。

25 主席：（經傳譯員）你可唔可以講一講第 20 頁嗰度？

26 黃女士：（經傳譯員）係，喺呢一個嘅閉路電視都可以實時啲啲資料抽取，就可以去  
27 監察車長同埋乘客嘅情況，特別係喺一啲安全同埋緊急嘅情況有關嘅情況。

28 主席：（經傳譯員）第 453 頁嗰度呢。

29 黃女士：（經傳譯員）喺第 16 項嘅安全裝置。呢個嘅閉路電視系統又或者呢個攝錄  
30 機佢哋有冇一啲錄音嘅功能？

31 黃焯添先生：先解釋番有啲邊類型嘅鏡頭先喇，我哋有兩款嘅巴士嘅，第一款就係單  
32 層巴士，另外一款係雙層嘅。先講雙層，我哋新買番嚟嘅雙層巴士都會有配備

1 到 CCTV 嘅功能嘅，剛才你嘅問題係 audio，有 audio function 嘅都會係只  
2 係放喺司機頂頭上面嗰個，司機頂頭上面嗰個。至於我哋一啲現有嘅巴士，  
3 existing 嗰啲單層巴士，我哋暫時係未裝 CCTV 嘅，因為要 retrofit 呢啲  
4 CCTV 嘅鏡頭係需要好多時間，同埋其實本身呢一個系統係需要一啲叫  
5 recurring cost，就係我哋每個月都要畀一啲可能 monthly fee，相比起  
6 現時我哋嘅財政嘅--即係我哋 financial burden，我哋未有咁樣嘅方向，每  
7 一部車會 retrofit CCTV，但係新車我哋係會積極考慮裝晒。

8 黃女士：（經傳譯員）你剛才提及個閉路電視係錄音嘅功能，就係會擺喺車長個頭頂  
9 嘅，嗰個目的係乜嘢呢？

10 黃焯添先生：個錄音嘅裝置最主要係當有一啲乘客有投訴或者係喺我哋嘅 CS  
11 hotline 係講番同司機有爭執嘅情況，我哋先至會攞番呢啲嘅數據出嚟去睇番  
12 件事係點樣嘅。本身我哋自己唔會主動去 retrieve 呢啲--唔會主動去攞番呢  
13 啲嘅 file 去睇嘅。

14 黃女士：（經傳譯員）你即係被動，就話如果係有投訴，你哋先至會睇，所以你就唔  
15 會話係抽查嘅，係咪？

16 黃焯添先生：係，冇錯。

17 黃女士：The next topic is the design of buses and safety devices  
18 and if I may invite you to go to NLB-2 bundle at page 2.  
19 The franchise agreement starts at page 2. If we go to page  
20 5, clause 7.

21 主席：Sorry, which bundle is this?

22 黃女士：This is the NLB-2 bundle. Could you familiarise  
23 yourself with the provisions of clause 7(1) at page 5. It  
24 makes reference to the grantee providing, amongst other  
25 things:

26 "... such safety or service enhancement facilities,  
27 installation, fixtures, fittings, [et cetera] ... apparatus  
28 or equipment on its buses as may be reasonably required by  
29 the commissioner of transport after consultation with the  
30 grantee."

31 So, in other words,（經傳譯員）運輸署署長嘅要求同埋就係係經  
32 過諮詢過專營公司，所以就係運輸署署長就係可以有合理咁樣去係要求你哋係  
33 裝置一啲可以提升服務質素嘅設施嘅？

34 黃焯安先生：係。

1 黃女士：（經傳譯員）最近你有冇同政府有討論關於係點樣係裝置一啲提升服務嘅設  
2 施呢？

3 陳天龍先生：主席，我想交代，就係其實我哋係同運輸署傾新 franchise 嗰陣時，  
4 都有一啲 facilities 運輸署要求我哋 provide 嘅。另外最近我哋同運輸  
5 署嘅會議上面都有講到一啲安全嘅設施係安裝喺啲巴士上面嘅，呢個我哋都有  
6 同運輸署有討論。

7 黃女士：Can you tell...

8 主席：（經傳譯員）請問係幾時呢？

9 黃焯安先生：新嗰個專營權，我哋係講緊喺 2017 年嘅時候正式去實行嘅，當然嗰陣  
10 時去傾，我哋要畀番啲資料先，但係約略係 2015 年底、2016 年頭嗰陣時開始  
11 去同運輸署接觸，要去--即係有啲咩嘢再畀新嗰個專營權嗰度去加強。至於頭  
12 先啱啱陳生提到嗰個一啲關於同署方嗰面去傾關於一啲安全嘅設施嗰個會就係  
13 喺最近呢幾個月開過兩次會，喺最近呢幾個月開過兩次會，嚟緊會開第三次。

14 主席：（經傳譯員）幾時開呢啲會嘅呢？

15 楊家寶先生：主席，有少少補充一下，嗰個會議應該係有三次咁多嘅，就係就呢個獨  
16 立調查委員會之後成立嘅第二個工作小組，第一次會議就係喺 3 月 27 號，第二  
17 次喺 5 月 30 號，第三次喺 6 月 12 號嘅。

18 主席：（經傳譯員）呢啲會議就係專營巴士公司、巴士製造商同埋運輸署係出席嘅會  
19 議嚟嘅，係咪呀？啱唔啱呀？

20 楊家寶先生：Correct，係。

21 主席：（經傳譯員）唔該晒。

22 黃女士：（經傳譯員）你有講過話一啲安全嘅裝置，其實你哋係同運輸署係討論過邊  
23 一啲嘅係安全嘅設備呢？即係你頭先提及三次會議，係講及邊一啲嘅安全設備  
24 呢？

25 主席：（經傳譯員）或者暫時可以係唔答呢個問題住，我諗我哋起碼都要係做到五點  
26 半，不如而家作一個小休，我諗我哋都要畀少少時間你休息，我哋而家休息十  
27 分鐘，唔該，休息十分鐘。

28

29 下午 4 時 32 分聆訊押後

30

31 下午 4 時 41 分恢復聆訊

1 出席人士如前。

2

3 主席：（經傳譯員）黃律師。

4 黃女士：（經傳譯員）不久之前，黃先生，我哋剛剛就係畀你睇咗 TD-1 第 98 頁，  
5 TD-1 第 98 頁。

6 主席：（經傳譯員）呢份文件係咩嘢文件㗎㗎？

7 黃女士：（經傳譯員）呢份文件就係運輸署嘅文件嘅，文件 7 號，嗰個標題就係話係  
8 專營巴士公司，喺 81 頁嗰度開始嘅，就係「車輛安全 - 設計建造、檢查同埋  
9 驗車」嘅，我哋就想睇番呢個第 98 頁嘅，就係使用科技㗎到就係加強專營巴士  
10 嘅安全。

11 主席：Thank you.

12 黃女士：Thank you。（經傳譯員）黃先生，想問下，你剛才冇冇時間就係睇一睇  
13 呢一份文件，特別係第 10 段呢？

14 黃焯安先生：係，睇咗。

15 黃女士：（經傳譯員）呢啲嘅安全裝置係咪就係你哋同運輸署嗰個三次會議裏面所提  
16 及、所討論嘅安全裝置呀？

17 黃焯安先生：係，係嗰啲三個安全會議嗰度係有討論過上述嘅一啲儀器。

18 黃女士：（經傳譯員）我想請你就係特別睇其中嘅三項嘅，首先就係呢個地理圍欄，  
19 即係(c)嗰項，就話靠呢個係全球定位系統或者係地理圍欄㗎到控制嗰個車速。  
20 可唔可以話畀我哋聽關於運輸署呢一個建議，即係話要引入呢一個地理圍欄，  
21 換句話講，就係使用呢一個全球定位系統，㗎到去限制巴士喺某一啲路段上面  
22 嘅車速，你哋個睇法係點呀？

23 黃焯添先生：主席，要去討論呢個 GPS system，我諗我哋要先帶出個黑盒個  
24 background 先，因為早喺 2015 年同埋 2016 年，喺我哋討論我哋新嘅專營權  
25 嘅時候，我哋有去特別搵咗一個新嘅黑盒嘅提供嘅 supplier 嘅，最主要其實  
26 之前主席都有講過，其實 GPS 唔係一個好新嘅技術，但係對於我哋營辦商嚟  
27 講，我哋最重要同埋要長遠考慮到就係必須要將呢啲 GPS 同埋本身黑盒擺到個  
28 數據要以 raw data 嘅形式去上傳番去我哋本身公司嘅 server 嘅。

29 喺 2012 年至 2015 年嘅時候，其實我哋本身係有另一個黑盒嘅  
30 supplier，但係好多市面上呢啲嘅公司佢哋係以一個 recurring 嘅方式去做  
31 一個 monthly cost 嘅 maintenance，對於我哋公司長遠嘅發展，因為其實  
32 喺 16 年點解會採購黑盒呢？當然黑盒本身嘅功能係好緊要，另外就係當時我哋  
33 新嘅專營權底下，我哋要做一個叫做 ETA 嘅功能，即係實時到站嘅功能，當時

1 我哋睇咗兩間公司之後，選擇咗而家我哋嘅 supplier，係 Openmatics，呢  
2 間公司佢哋嘅 GPS 同埋本身一啲 raw data 嘅數據係可以上傳上去我哋嘅  
3 server 嘅。

4 講到用 geo-fencing 去監察或者係去限速，呢個我哋係 open-minded  
5 嘅，即係我哋係希望會可以嚟到將來可以研究到一個方式，喺我哋一個特定嘅  
6 路段去做呢一個限速嘅。喺度咁講，即係相比起其他嘅營辦商，我相信我哋做  
7 到嘅機會亦都會較大，因為本身我哋大嶼山嘅道路相對係少啲  
8 interference，我哋嘅黑盒係可以應該做到容易啲--或者係容易啲將呢啲準  
9 確啲將啲 GPS 嘅數據可以上傳到我哋 server。

10 但係最主要一樣嘢就係將呢一個 GPS 嘅數據實時去同我哋本身架車嘅電腦  
11 去做到個配合，呢個係需要時間去研究，最主要係現時我哋嘅黑盒係會直接駁  
12 落去車嘅電腦，即係簡稱“bus CAN”。呢一個嘅動作係需要去同車嘅製造商  
13 有啲嘅合作去傾嘅，我哋就當然係好 welcome 呢一個新嘅方向去做，但係以我  
14 哋而家暫時大嶼山巴士嘅 IT 部門嘅規模，我哋可能係會比起其他公司可能要花  
15 多少少嘅時間去做呢一個嘅研究工作，但係絕對係歡迎去做呢一樣嘢。

16 黃女士：（經傳譯員）既然我哋都係講緊呢個黑盒，我哋而家講緊個黑盒，我就想請  
17 你睇番你哋嘅陳述書 NLB-1 第 14 頁，睇二個段，喺嗰度就講咗，「透過我哋  
18 內部嘅資訊科技嘅隊伍，我哋係計劃係會發展一個例外報告嘅系統，呢個就係  
19 使用就係車上嘅黑盒嘅數據嚟到去產生呢啲報告，就係主動咁提出啲報告，嚟  
20 到睇下有邊一啲車長就係佢駕駛嘅習慣係唔好，會引致問題嘅。」

21 另外就想睇下呢個第 20 頁，就係你哋嗰個陳述書嘅第 20 頁，係睇二個段  
22 嘅，呢度就話「喺呢一個 2017 年尾有第二代嘅黑盒製造引入咗之後，佢就係會  
23 就係最低嗰個層次嗰度有一啲原數據嘅。另外有進一步嘅應用，就譬如話喺一  
24 啲例外報告，呢啲就係有包括在內嘅，即係話車速嘅例外報告就有嘅，而家我  
25 哋就內部就想發展一啲軟件，嚟到提供呢一類嘅資訊，就畀我哋監察住車長嘅  
26 表現，目前我哋而家喺度檢視緊同埋綜合緊嗰啲數據嘅，就人手去做嘅，即係  
27 如果有交通事件或者有乘客投訴，就會咁做。」

28 我咁樣理解唔唔啱呢，目前嚟講，你公司係有一個超速嘅特別報告--自動  
29 產生呢啲特別報告嘅功能？

30 黃焯添先生：呢一刻係有嘅，但係我哋寫呢份 supporting document 係考慮到嚟  
31 緊嘅將來我哋係會加呢一個 exceptional report，係特別喺 over speed  
32 方面，我哋會做多啲工作嘅。

33 黃女士：（經傳譯員）我想請你睇番 NLB-1 第 33 頁，第一格右手邊有關於委員會進  
34 一步嘅問題，係要求你哋提供資料，你喺呢度就話「睇番現有嘅黑盒系統可以  
35 記錄到幾個巴士運作嘅資料嘅，包括地理位置、速度、方向檔次、門、有冇人  
36 揷鐘等等，係要秒計嘅，如果需要記錄同埋係使用呢啲咁大量嘅數據，係需要  
37 大量嘅資金投入有關於呢一個資料傳送同埋儲存同埋要有一個好先進嘅軟件

1 嘅。」有關於呢一個大量嘅資金投資，你公司係咪願意投資喺呢一方面嘅系統  
2 裏面呀？

3 黃焯安先生：係，唔該主席。喺財務方面，因為我哋喺咁多間巴士公司個個規模就最  
4 細，當要去發展呢啲軟件或者係一啲新嘅系統，其實需要到嘅個個成本，坦白  
5 講，不論係一部車同一千部車，其實個個發開成本，我相信係唔會睇得太遠  
6 嘅，個個主要嘅分別就可能喺個個硬件，即係喺架車上面個個硬件個分別啫，  
7 變咗係當我哋嚟緊要去繼續去加強我哋喺呢方面嘅投入，不論頭先 Timothy 提  
8 到嘅喺個 exceptional report 等等，呢啲我哋係好樂意去投入嘅，但係  
9 都希望係即係會各位係了解，就係當我哋要去做呢啲嘅時候，其實我哋每用--  
10 如果你按每部車咁去計個個成本，就一定會係比起其他公司係高出好多。

11 黃焯添先生：同埋我想補充，其實現時我哋嘅投資係投資咗喺啲咩嘢度呢？尤其最主  
12 要係兩方面嘅啫，第一方面就係 hardware，喺車上面嘅黑盒，同埋黑盒上傳  
13 數據去我哋公司上面嘅 server，呢兩個最主要嘅 hardware cost；另外一啲  
14 software 嘅，就係剛才講到，我哋買呢個黑盒去做一個 back-end system  
15 個 software development fee，本身我哋喺個新專營權度講到要我哋用嘅  
16 ETA 嘅 development fee，每個月巴士--呢啲數據嘅上傳嘅數據費用，呢啲  
17 都係一啲 recurring cost 嚟嘅，因為本身要去 maintain 同埋去維繫呢一  
18 個系統都需要人力去做嘅。

19 剛才講到話呢一個黑盒係可以每秒去記錄呢啲嘅數據，但係現時我哋嘅系  
20 統係每三十秒，集晒所有數據，每三十秒上傳一次，當如果我哋改到每一秒上  
21 傳一次，其實個個數據嘅費用同埋本身個 server 個 size 都要相對地係提升，  
22 所以講到話會有個 capital investment，其實就喺呢一方面上面係最主要  
23 嘅，當然就係本身我哋嘅 software development fee，係主要呢兩方面。  
24 唔該主席。

25 黃女士：（經傳譯員）唔該晒。你提及呢個軟件嘅發展費用...

26 主席：（經傳譯員）唔好講呢樣嘢之前，你話有兩個元素，一個就係黑盒，另外一個  
27 就係軟件，我咁講啱唔啱？

28 黃焯添先生：（經傳譯員）啱。

29 主席：（經傳譯員）黑盒嘅大約成本係幾多？

30 黃焯添先生：（經傳譯員）當我哋喺 2016 年開始採購嘅時候，每一件--每個單位就  
31 係 800 歐羅一件，大約八千零釐港紙，係 2016 年嘅事。

32 主席：（經傳譯員）呢一個係咪最大嘅成本呢？

33 黃焯添先生：（經傳譯員）係呢一個主要嘅成本，係。

34 主席：（經傳譯員）軟件呢？

- 1 黃焯添先生：（經傳譯員）目前我哋有三位人員去負責維護呢個系統嘅，有關於嗰個  
2 係預計到暫時間嘅發展費用，大概係要一百萬港元。另外有一個事項，我都想  
3 提一提，就係安裝費用，安裝費用係關於黑盒嘅，呢個係一啲要有一啲高技術  
4 嘅專業人士，呢類嘅技術人員去安裝，需要將佢係同個供應商係連繫，供應商  
5 係來自捷克嘅。
- 6 主席：（經傳譯員）呢個就係 Openmatics 呢間公司？
- 7 黃焯添先生：（經傳譯員）冇錯。喺 2016 年嘅時候，我哋係有請到自己公司嘅技術  
8 人員嘅，每架巴士嘅安裝費大約係要 4,000 釐港元。
- 9 主席：（經傳譯員）係要去 4,000 釐？
- 10 黃焯添先生：（經傳譯員）係呀，睇下係公司裏面有幾多架巴士係提供去安裝黑盒。
- 11 主席：（經傳譯員）你講過話係軟件就有三項，安裝呢個--預計到站時間嘅要求，仲  
12 有另外兩項係咩嘢嚟㗎？
- 13 黃焯添先生：（經傳譯員）你指係另外兩項人士呀定係...
- 14 主席：（經傳譯員）另外兩位人士，係咪呀？
- 15 黃焯添先生：（經傳譯員）係，另外兩位人士，即係人員。
- 16 主席：（經傳譯員）另外兩位係咩嘢人？
- 17 黃焯添先生：（經傳譯員）總共有三個人係請咗嚟去發展呢個軟件嘅。
- 18 主席：（經傳譯員）即係有三個人佢哋嘅費用，你所指人頭就係呢個意思，係咪呀？
- 19 黃焯添先生：（經傳譯員）係。
- 20 主席：（經傳譯員）唔該。黃律師。
- 21 黃女士：（經傳譯員）早前你提及你間公司計劃發展呢個特別報告系統，就會係如果  
22 巴士車長係有一啲潛在危險行為，就會發出呢個特別報告嘅，你預期係幾時會  
23 做呢？
- 24 黃焯添先生：（經傳譯員）第三季，2018 年嘅第四季。
- 25 黃女士：（經傳譯員）即係今年嘅較後時間？
- 26 黃焯添先生：（經傳譯員）係。
- 27 主席：（經傳譯員）係呢個超速嘅特別報告系統係 2018 年嘅第四季？
- 28 黃焯添先生：（經傳譯員）冇錯。
- 29 黃女士：（經傳譯員）我哋聽過其他巴士公司，就定咗一啲嘅標準，就係話係車速超

1 過每一段路段，係每小時過咗五公里，譬如話連續係十秒超過咗一段係限速 50  
2 公里嘅路段，行駛 55 公里，就會係用到呢個嘅系統喇，你哋公司定咗咩嘢標準  
3 使用呢個自動發布報告嘅系統呀？

4 黃焯添先生：（經傳譯員）我哋要確認一下嗰個條件係乜嘢，我哋要同工會傾過先有  
5 最後決定，但係另外嗰兩間巴士公司做嘅嘢，我哋都會考慮。

6 黃女士：（經傳譯員）你問公司會唔會考慮呢個實時係只係同車速有關，定係會考慮  
7 埋車長其他嘅問題，譬如話突然畀車，過份係加速，會唔會都包埋喺裏面呢？

8 黃焯添先生：（經傳譯員）目前我哋考慮超速係發布報告嘅條件，另外大力剎車、扭  
9 軚扭得太犀利，呢樣我哋會進一步再研究。

10 黃女士：（經傳譯員）你會唔會考慮--你一個實時嘅資料可以利用嚟監察某一啲嘅車  
11 長嗰個駕駛行為嘅，即係如果發生啲咁嘅事嘅時候？

12 黃焯添先生：（經傳譯員）我哋會考慮，但係我哋要同工會傾一傾，因為呢個係有關  
13 於話會影響到車長嗰個嘅集中度嘅，如果太多警報系統的話。

14 黃女士：（經傳譯員）講番第 14 頁你哋嘅交嚟嘅資料，第 14 頁，...

15 主席：（經傳譯員）未講之前，呢個係超速嘅特別報告，你係打算 2018 年第四季推  
16 行，呢個係咪實時做嘅呢，定係話之後事後先至會發出報告㗎？

17 黃焯添先生：（經傳譯員）實時嘅。

18 主席：（經傳譯員）呢個系統以我所理解，係每三十秒就上傳一次資料嘅，係嘛？

19 黃焯添先生：（經傳譯員）目前嚟講，係，我哋希望可以做到從黑盒每秒上傳資料。

20 主席：（經傳譯員）你講過其實如果要咁做，係有更高成本，呢個成本係乜嘢呀？

21 黃焯添先生：（經傳譯員）淨網絡費用就需要多啲嘅寬頻，而家係每三十秒，因為所  
22 有資料全部都係壓縮咗先至上傳去我哋嘅伺服器，所以我哋就係暫時做都係每  
23 三十秒。

24 主席：（經傳譯員）你知唔知道大概額外嘅費用係幾多？

25 黃焯添先生：（經傳譯員）唔知。

26 主席：（經傳譯員）冇，連一個範圍都有？

27 黃焯添先生：（經傳譯員）每架巴士 100 港元。

28 主席：Per what?

29 黃焯添先生：（經傳譯員）每個黑盒計。

- 1 主席：Thank you.
- 2 羅先生：（經傳譯員）每個月呀？
- 3 黃焯添先生：（經傳譯員）係，每個月。
- 4 黃女士：Thank you. And...
- 5 主席：（經傳譯員）唔好意思，未講第二啲嘢之前，你有冇同運輸署講過關於成本嘅  
6 問題？
- 7 黃焯安先生：應該就有，冇。
- 8 主席：（經傳譯員）因為我哋睇番一啲儀器嘅清單，就係呢一個今年 3 月傾過三次，  
9 其中一樣，嗰六項裏面有講嘅，就係黑盒，即係行車紀錄儀，但係你哋有傾過  
10 嘅，係咪呀？
- 11 黃焯添先生：（經傳譯員）唔喺呢個表上面，但係我認為所有嘅巴士公司都有安裝。
- 12 主席：（經傳譯員）呢上面冇記錄到嘅，但係有冇傾過呢？
- 13 黃焯添先生：（經傳譯員）有間接傾過黑盒，呢個就係同講呢一個地理圍欄嘅時候提  
14 到嘅。
- 15 主席：（經傳譯員）呢個議程係邊個定㗎？
- 16 黃焯添先生：（經傳譯員）運輸署。
- 17 主席：（經傳譯員）唔該。黃律師。
- 18 黃女士：（經傳譯員）睇番第 14 頁你哋自己嘅文件，頂數落嚟第三段，最尾嗰句，  
19 「目前就係隨意揀選五十程嘅黑盒資料，就會每個月去攞到，而呢個隨機嘅檢  
20 查報告係會發送畀運輸署畀佢哋作紀錄嘅。」呢一個嘅 2018 年 3 月。我想問先  
21 問，呢度講就話揀咗就係隨機五十程嘅，邊個揀㗎？
- 22 黃焯安先生：係我哋公司去揀，我哋公司去選擇。
- 23 黃女士：And what is...
- 24 黃焯安先生：同埋係五十個 trips，唔好意思，sorry，五十個 trips。
- 25 黃女士：（經傳譯員）選擇呢五十個車程嘅條件係乜嘢呀？
- 26 黃焯安先生：隨機去揀，random。
- 27 黃女士：（經傳譯員）如果你間公司有檢查任何嘢嘅話，係檢查啲乜嘢呢？喺呢個報  
28 告裏面，譬如話超速或者冇任何資料你可以畀到我哋嘅呢？
- 29 黃亮霆先生：主席，個資料就係我哋响第二次個 submission 入面嘅 annex 最尾嗰

1 一版，就有一個報表嘅，就係關於抽查呢啲黑盒嘅數據。

2 黃女士：（經傳譯員）呢個係第 2 號文件嘅 487 頁。

3 黃亮霆先生：係，就係螢光幕而家顯示緊呢個報表，我哋就因應番運輸署嘅要求，就  
4 係抽查正話我哋提--見到個段落所提及嘅隨機抽查五十班車嘅黑盒嘅數據，入  
5 面就喺嗰個格仔入面都有提到，就係睇啲咩嘢呢？就係睇個車速、佢有冇做過  
6 hard brake 嘅動作，或者其他有啲唔正式嘅駕駛嘅行為嘅，喺呢個報表度就  
7 我哋淨係就報告番我哋抽查嘅數量，有幾多係正常或者唔正常嘅，至於就話入  
8 面會唔會細睇究竟每一單個抽查入面嗰個譬如咩嘢時間、咩嘢位置、究竟發生  
9 啲咩嘢，個 raw data 就喺呢個報表入面就有要求到我哋要同時去遞交嘅。報  
10 告係咁多，唔該。

11 主席：（經傳譯員）你點樣去釐訂或者界定乜嘢叫做「突然剎車」呢？

12 黃亮霆先生：我哋嘅資料顯示，就係如果個 G force 係達到 0.2 嗰陣時候，就嗰個  
13 hard brake 都係相當之嚴重嘅，我哋會 count 呢個就做一个 hard  
14 braking。

15 主席：（經傳譯員）呢個係咪運輸署 2003 年發出關於黑盒嘅自願嗰個指引方面，就  
16 係話 G force 去到 0.2 呢？

17 黃亮霆先生：係嘅，以我哋嘅印象，就係嗰個指引入面係有提及如果萬一架車發生咗  
18 交通意外嗰陣時候，就我哋要提供呢一個 G force 嘅數據。

19 主席：（經傳譯員）仲有啲咩嘢其他嘅不正常嘅駕駛嘅行為你會係監察嘅呢，特別係  
20 呢個五十個車程之中？

21 黃亮霆先生：主席，因為個黑盒同一時間可以記錄到架車當時嗰個地理上嘅位置，即  
22 係嗰個 X、Y，我哋叫做，嗰個地理上嘅位置，我哋可以根據番我哋抽查嗰啲車  
23 輛究竟佢嗰陣時應該係行緊咩嘢巴士路線、應該係行緊咩嘢方向，我哋可以睇  
24 到佢哋係咪出嚟嗰個 raw data 係同佢哋而家執行緊嗰個駕駛職務係相符嘅，  
25 如果係個地理位置係唔相符嘅，即係話嗰架車其實係行錯咗路，或者係可能喺  
26 時間方面唔吻合，可能佢可能係開錯車諸如此類咁樣樣。唔該晒。

27 主席：（經傳譯員）你係講 X、Y，你係咪講緊經度同埋緯度？

28 黃亮霆先生：係，冇錯。

29 主席：（經傳譯員）個方向呢，係咪講緊嗰個巴士嘅方向呢？

30 黃亮霆先生：係，冇錯。

31 主席：（經傳譯員）唔該晒。

32 黃焯安先生：Excuse me, sorry。我呢個同事唔係叫 William Chung，因為佢

1 嗰度出咗個名係出錯咗個名，我想澄清番，佢係 Billy Wong，唔該。

2 主席：（經傳譯員）好，唔該晒。黃律師。

3 黃女士：（經傳譯員）就係遠期計劃，就你哋公司提交嘅，係運輸署第 1 號文件夾，  
4 係第 236 頁嘅去到 237 頁嘅，236 頁就係下底嘅部分，呢個就係講，就話有一  
5 個係透過黑盒嘅錄得嘅數據，就令到希望能夠更好係可以監察車長嘅行為嘅，  
6 而呢度就係話咁數據應該係更加詳盡去分析嘅，呢度二百--下一頁就係講，就  
7 話應該係呢啲嘅分析嘅資料，就希望能夠係防止以後有類似嘅意外發生嘅，你  
8 哋公司有冇做過呢一方面嘅就係分析呢，係致使到相同嘅意外唔會喺將來發  
9 生？

10 黃焯安先生：可唔可以睇番前一頁？

11 黃女士：（經傳譯員）第 236 頁。

12 黃焯安先生：唔該主席。喺我哋去訂立呢個 five-year plan 嘅時候，我哋有呢個  
13 計劃，但係就到呢一刻為止係未實現到，即係嗰個--頭先喺後面嗰段嗰度，係  
14 喇，preventive 嗰度我哋未--暫時呢一刻未做到，個計劃就好似頭先我哋一  
15 路講，就希望喺今年年底可以喺呢一方面加強啲。唔該。

16 黃女士：（經傳譯員）亦都係呢一個運輸署嘅第 1 號文件夾第 98 頁，就關於黑盒  
17 嘅，我哋係繼續講黑盒。

18 主席：（經傳譯員）第 33 頁就佢哋嘅文件冊嘅第 1 號，可唔可以將佢打出嚟呢？喺  
19 右上角嘅嗰個格裏面，你就話而家就有--目前有個黑盒嘅系統，就講緊點樣去  
20 處理同埋去記錄呢啲嘅數據，同埋就係需要傳送數據或者一啲儲存等等，都要  
21 好花費嘅，你就話目前嚟講，就呢個就唔係話強行要求就係話專營嘅巴士公司  
22 就需要係實時去用黑盒去監察車長嘅表現嘅。我相信你呢個係講緊就係 2003  
23 年，即係十五年前運輸署嘅要求嘅，我係咪正確呢？

24 黃焯安先生：係，2003 年嗰個時候嘅標準，係。

25 主席：（經傳譯員）你哋嘅立場就係話因為唔係運輸署嘅要求，所以我咁樣演繹咁  
26 啱，所以我哋就有個選擇，究竟我哋係點樣做法，我哋有個選擇嘅？

27 黃焯安先生：Chairman，喺我哋本身頭先我哋同事都有提及到，喺 2003 年之後，  
28 我哋當然係嗰陣時要求我哋去裝黑盒，我哋以前係有去即係用--一路--一直用  
29 一個舊式嘅黑盒，其實係連一啲資料我哋想去上傳番返去我哋個 server 度，  
30 都做唔到。

31 亦都係喺 2016 年我哋開始去傾個新專營權嘅時候，因為係去做個 ETA，  
32 而我哋就換咗一個新款嘅黑盒，喺呢一度，當有呢個新款黑盒嘅時候，我哋就  
33 亦都係意識到我哋可以去再做多啲咁樣。當然你頭先提及到，就係--即係我諗  
34 個意思都係--如果我冇意會錯，就係我哋喺大嶼山巴士呢一方面係咪可以做多

1   啲呢，當然係我相信呢個答案永遠都係「係」嘅，我哋永遠都係可以去做多啲  
2   嘅，我哋會去一路去檢討，盡力去行前啲。

3   亦都係好坦白講，亦都係以往有好多我哋亦都唔會知道行業度究竟係--其  
4   實有好多發展我哋--以我哋嘅規模，其實我哋有好多嘢係唔能夠完全掌握嘅，  
5   係喺呢方面亦都係希望畀啲時間我哋去追番我哋落後咗嘅系統。唔該主席。

6   主席：（經傳譯員）個要求就係話你就係應該係有個預計實時到站嘅系統嘅，就令到  
7   你就係改良嗰個黑盒嘅，係咪咁樣呢？

8   黃焯安先生：Yes，係。

9   主席：（經傳譯員）我哋可唔可以打番出嚟 2003 運輸署嗰個指引呢？你係可以實時  
10   係監察嗰個車長嘅表現，其實只不過係--唔係--你主要都係話有個實時到站系  
11   統，而監察車長嘅行為只係一個輔助嘅啫，呢個預計實時到站系統令到你其實  
12   你亦都有能力係可以做其他實時嘅系統嘅報告嘅？

13  黃焯添先生：（經傳譯員）呢個預計實時到站系統畀我哋一個機會就睇下可唔可以有  
14   啲先進嘅黑盒，嗰啲舊式嘅黑盒其實就令到我哋唔可以取回一啲嘅資料就可以  
15   上載，冇錯喇，預計實時到站系統畀我哋有一個機會可以睇一啲新嘅系統。

16  主席：（經傳譯員）如果我哋睇番呢個 2003 年嘅指引，運輸署第一句就係話呢個咁  
17   樣嘅裝置有啲咩嘢嘅目的，呢個目的就係提供一啲嘅工具令到巴士公司可以去  
18   監察、管理道路上面關於呢個車速同埋一啲呢一個安全有關嘅行為，而係間接  
19   係鼓勵一啲更加好嘅駕駛行為嘅，呢個都係一個目的嚟嘅，你同唔同意呢？

20  黃焯添先生：（經傳譯員）同意。

21  主席：（經傳譯員）黃律師。

22  黃女士：（經傳譯員）運輸署亦都係有提議就喺車廂裏面係有一啲嘅車速顯示器嘅，  
23   就係我哋睇番運輸署第 1 號文件冊嘅第 102 至 103 第 21 至 22 段，第 21 段就  
24   係「呢個係一個裝置，就可以喺車廂裏面裝置，佢就係知道就係有實時可以喺  
25   呢一個嘅嗰個監察器嗰度就攞啲資料，而亦都係將嗰個現存嗰個速度就係可以  
26   展示出嚟。而家就係有小巴有裝置嘅，亦都係建議喺巴士裝置。」

27   第 22 段最後畀個五行，「此外，嗰啲巴士公司就係好擔心就係呢個咁樣  
28   嘅巴士速度顯示器就會令到呢一個車長同埋巴士(sic)就有拗撬，亦都致此令到  
29   個安全受影響，所以巴士公司認為呢個車速顯示器都幫唔到提高個巴士安全  
30   嘅。」

31   你會唔會接受運輸署呢個第 22 段嘅結論呢？你公司嘅立場係點樣呢？

32   黃焯安先生：唔該。主席，喺關於呢個 display unit，我有少少都想補充嘅，但  
33    係當然可能嗰個資料都需要委員會去事後核實番，因為我哋亦都去理解番，其  
34    實喺小巴佢哋去安裝呢個車速顯示器，其實係安裝咗呢個嘅零零--好似係

1 2005 年咁上下，係先安裝車速顯示器，跟住去到 2010 年定係再打後先至係去  
2 決定去加裝個黑盒同埋嗰個限速器。

3 我哋嘅理解嗰陣時當佢哋安裝個車速顯示器嗰個原因，就係因為其實專線  
4 小巴或者--即係就係公眾小巴，其實同我哋嗰個巴士嘅營運都幾大分別嘅，佢  
5 哋好多都係主要由一啲中、小型嘅營辦商去組成嘅，就唔同我哋專營巴士其實  
6 主要係三間公司，第一；第二，佢哋好多都係嗰個車長--小巴嘅車長同嗰個車  
7 公司未必係有嗰個僱傭關係，佢哋只係可能係個車主將嗰個車交咗畀一啲管理  
8 人，而將嗰個車租咗畀個車長嘅啫，變咗其實當中係冇人喺後面去監管嗰個車  
9 長個駕駛嗰個態度、表現等等咁樣，即係一啲極端嘅嘅例子。

10 而當嗰陣時去安裝咗--呢個 05 年安裝顯示器之後，正正就係好多市民坐  
11 嘅車度感受到--我相信其實未裝之前，嗰陣時都可能已經感受到危險嘅，就見  
12 到係常常超速等等，衍生好多投訴同埋係一連串嘅意外，就最終署方就決定要  
13 將黑盒、限速器呢啲都加裝落去小巴嗰度。

14 講番啲我哋嘅睇法，就係如果去將呢個顯示器加裝嘅車度，的而且確乘客  
15 係會每分每秒都會睇到架車嘅車速，但係各位褪後一步去諗番，乘客知道架車  
16 超速，佢係咪有個 brake 畀佢剎停架車，減慢個車速呢？係唔會㗎嘛，其實佢  
17 都係直接去同番個車長--喺現場去同番個車長講話「喂，你揸慢啲喇，超速  
18 㗎。」當然亦都要睇嗰個乘客個態度，有機會好，有機會好惡劣，而我都唔相  
19 信到時我哋就算攞張紙話叫乘客「如果超速，你打去呢個熱線喇。」可能會有  
20 啲乘客會咁做，但係我相信最大嘅機會都係直接去 confront 嗰個車長嘅。

21 反而我會覺得如果係喺今天嘅技術上，頭先提及嘅嗰啲技術係可以做到真  
22 係有個方法去令到架車係唔超速，我覺得個效果係會好過係要個乘客去出聲，  
23 一個我哋變咗唔係太控制到嘅情況之下去同嗰個車長去產生一啲磨擦，我哋最  
24 唔想係見到呢個情況嘅。唔該主席。

25 黃女士：（經傳譯員）最後關於安全裝置嘅一樣嘢，就係想請你睇番呢個 TD-1 嘅  
26 90 頁嗰度，呢個就監察呢個司機嘅行為嘅。

27 主席：（經傳譯員）或者你未落去之前，當然我就想問，呢個係違例事項㗎嘅，係咪  
28 呀？即係其實就係法例裏面有規例，就話如果司機開緊車嘅時候你同司機談話  
29 嘅話，其實係一個刑事嘅違例行為㗎嘅，㗎唔㗎呀？

30 黃焯安先生：佢唔可以騷擾個車長。

31 主席：（經傳譯員）即係唔可以去令佢分心、干擾佢，係呀，呢個就係嗰個精神，係  
32 咪呀？目前如果乘客有投訴，你就會作出回應，喺嗰個時候，照我嘅理解，就  
33 係你就會去番個黑盒嗰度，去睇下嗰個投訴係關乎幾時嘅事，係咪呀？同埋睇  
34 下佢講得啱唔啱？

35 黃焯安先生：都要睇下嗰個投訴係同--係咪例如係同車速或者嗰個駕駛表現有關，倘

1 若嗰個投訴人嘅投訴同嗰啲有關，就我哋去睇番個黑盒都幫唔到我哋。唔該。

2 主席：（經傳譯員）假設，假設就係投訴呢個車速，就話嗰個司機就係開得太快，我  
3 想問，你同唔同意我嘅講法，如果係有一個車速顯示器，就係嗰個乘客純粹咪  
4 影張相，喺嗰度影咗張相，影咗顯示器係幾多車速，然後就係作為佢嗰個投訴  
5 嘅證據喇？

6 黃焯安先生：喺主席你提到嗰個情況，佢去一邊有個車速顯示器顯示可能嗰個一個車  
7 速，佢去影相，如果你話好清晰影到係邊個位置、路段等等，都可能會做到你  
8 講嗰個效果嘅，即係以嗰張相去做一個證據，但係我亦都要--即係始終其實佢  
9 如果就咁影住嗰個車速，我哋都唔能夠確定究竟係幾時、幾刻同埋喺邊度去影  
10 嗰張相，我就咁即時去諗嗰個情況。

11 主席：（經傳譯員）不如將佢簡化一下，專營巴士就唔可以係超過每小時 70 公里  
12 嘅，係咪呀？啱唔啱呀？

13 黃焯安先生：Yes。

14 主席：（經傳譯員）好，如果嗰個車速顯示器就係打出嚟就係每小時係 80 公里，有  
15 乘客影咗張相，呢個就係客觀嘅證據，就係證明到當時巴士車長嘅行為，係咪  
16 呀？

17 黃焯安先生：啱啱主席講到，好喇，佢影到係 80，我哋都要可能影埋個--我就咁好  
18 快咁諗，可能都要影埋個車牌，我哋亦都知道係邊個車長或者--即係咁可能都  
19 係一個例如，因為咁都係嗰個人講，個乘客話佢喺邊部車等等咁樣，因為我就  
20 從來冇咁諗過呢個方向，不過啱啱你咁提問，我諗你話係咪真係做到證供，就  
21 可能要--例如有咁樣。

22 主席：（經傳譯員）不過你都有提過，就話譬如話寫個電話號碼出嚟，等呢個乘客打  
23 電話，你較早時候係咁樣講過嘅，係咪呀？如果係顯示咗出嚟，或者有個電郵  
24 嘅地址，當佢仲係喺車上嘅時候，係咪可以將嗰個車速就係電郵畀運輸署或者  
25 電郵畀你哋嘅總部，你會唔會接納呢？

26 黃焯安先生：如果係--倘若未來真係要擺呢個車速顯示屏喺個車上面，我哋會接受畀  
27 乘客去直接通知我哋公司去解決，我相信咁就一定係好過個乘客去同個車長去  
28 有個--驚有個衝突。

29 主席：（經傳譯員）唔該晒。黃律師。

30 黃女士：（經傳譯員）咁樣唔係會對呢個司機有阻嚇作用咩？因為其實嗰個問題就在  
31 於唔好超速，如果你係有個車速顯示器嘅話，個司機知，乘客知，個個都知有  
32 呢樣嘢喺度，你唔覺得係會令到車長就因而就係會係小心，就唔會係超速駕  
33 駛？

34 黃焯安先生：喺實際嘅情況，我相信--當然十隻手指有長短，大部分嘅車長，就算喺

1 我公司旗下都好，大部分都係好嘅，但係當然就係有啲可能個個性孤僻少少，  
2 可能個人急躁啲咁樣，你喺 Ms Wong 去提到就係假設有好多人都見到佢超  
3 速、做得唔啱，係咪會對佢構成好大壓力呢？我又唔敢講，即係有啲極端嘅  
4 情況，我相信，即係當然你話一啲好嘅同事，佢根本都唔會超速嘅，梗係冇問  
5 題，有啲心急嘅同事，我就咁諗，我又唔會特別覺得--即係可能都好睇我哋  
6 公司到時倘若你話係好--即係叫做倘若收到佢哋呢啲超速嘅情況，我哋會有啲  
7 可能喺個安全獎金會有個好嚴重嘅懲處定點嘅，可能會有啲緊張啲。

8 但係個情況我就唔覺得會話因為好多人都睇到佢超速，反而我覺得每個人  
9 其實倒番轉，佢哋主要都係喺番自己個角度去睇，佢究竟會唔會話畀人--  
10 驚畀人扣分，或者會唔會真係危險、發生意外，好多時其實超速係--有陣時係  
11 個同事嘅即係有少少過度自信嘅，即係佢哋覺得可能有少少急，亦都係覺得自  
12 己會操控到部車。

13 黃女士：（經傳譯員）啲監察司機嘅裝置，我想請你睇睇《明報》嘅網站，嗰度有  
14 一份報道--有一篇報道就講及就係避免啲人係瞓眼瞓嘅，請你睇番有關嘅報  
15 道，係今年嘅5月27號嘅，嗰篇報道。呢篇文章就係話畀我哋聽係有一啲監察  
16 嘅裝置嘅，其實呢個都係講及香港、珠海、澳門，即係話港珠澳大橋上面行走  
17 巴士嘅司機之用嘅，你知唔知道有呢篇嘅報道呀？

18 黃焯安先生：係，喺新聞度有見到呢個報道。

19 黃女士：（經傳譯員）你自己有冇打算去研究一下呢一種嘅系統，睇嚟就係內地係  
20 進行研究同埋開發嘅，你有冇諗過話--有冇打算都自己係引用入去你公司嗰度  
21 用呢？

22 黃焯安先生：主席，喺現階段，我哋會繼續留意，當然我哋唔會對任何對本身整個安  
23 全提升嘅系統 say no，一定會--我哋都會保持住開放態度，睇一睇到時成個  
24 演變。不過當然你--即係本身如果你問我，我會覺得係--我淨係好表面去初步  
25 了解個即係喺個新聞度嘅一啲--即係去咁睇，當然你問我哋嗰個 priority，  
26 當然係希望先做好咗我哋現有一啲已經有嘅資源，呢個我哋會再--因為始終我  
27 哋提供嘅服務其實係嗰個車程較為短啲，我相信嗰個--即係未必係我哋呢一刻  
28 最迫切覺得係要立即做嘅嘢，不過我哋會留意住嗰個事態發展。

29 黃女士：（經傳譯員）我去到最後一個課題，就講及係公司嘅財務情況嘅，請你睇番  
30 呢個 NLB-2 嘅 71 頁，呢份文件就係透露更詳盡財務及營運資料，呢個就係  
31 2012/2013 年嘅情況嘅，請你睇番第 72 頁，呢度就講就話係 2013 年 3 月 31  
32 日為止嘅年度，就係話你哋嗰個財務就係咁樣嘅，就係你嗰個係一億四千五  
33 百五十萬，而嗰個盈利就係九百五十二萬元嘅，係咪呀？

34 黃焯安先生：唔。

35 黃女士：（經傳譯員）你去呢個 132 頁，嗰個係 2014/2015 年度嘅，你睇睇嗰個收  
36 入，你個收入，你見到就係有三個來源嘅，你嘅收入，首先就票務嘅收入，廣

1 告收入同埋係雜項嘅收入，可唔可以話畀我哋聽嗰個廣告嘅收入係嚟自邊度  
2 呢？

3 黃焯添先生：主席，我哋廣告嘅收入主要來源都係我哋車身，巴士車身，同兩間巴士  
4 公司唔同之處，我哋係好少巴士站嘅廣告，我哋主要嘅廣告收入都係巴士車  
5 身，唔該。

6 黃女士：（經傳譯員）雜項收入又點呢？

7 黃焯安先生：唔該主席。本身我哋新大嶼山巴士同--例如，同昂平 360，係簽咗一  
8 個協議，就係當嗰個吊車例如佢係突然要停駛，即係可能因為天氣或者種種原  
9 因，我哋會係去立即去支援佢咁樣，譬如。同埋另外就嗰度例如係有啲呢個我  
10 哋嘅車廠去幫我哋頭先提及嗰啲非專營巴士去做嗰個年檢嗰類嗰啲服務，我哋  
11 就收番佢費用咁。唔該。

12 黃女士：（經傳譯員）啲呢版嗰度，132 頁講到嗰個廣告嘅收入係四十九萬三千元  
13 嘅，2014/2015 年就係四十三萬八千元嘅，但係如果你去番 2016 年/2017  
14 年，就係就係睇番呢個 182 頁，我哋見到嗰個廣告嘅收入就係下降，大幅下降  
15 嘅，啲 2015/16 年度就係十九萬，啲 2016/17 年就係 87,000 元，可唔可以  
16 話畀我哋聽點解？

17 黃焯添先生：12 至 13、13 至 14，當時個廣告收入會相對地偏高，係最主要因為我  
18 哋有條深圳灣線，深圳灣線係我哋嘅公司立場嚟講，係相對地吸引，對於廣告  
19 商。當去到 15/16，特別係 16/17 同埋而家，呢一類型我哋巴士車身嘅廣告係  
20 相對地有咁吸引，即係對於一啲落廣告嘅人嚟講。我哋而家最主要譬如我哋深  
21 圳灣咁講，我哋好多嘅廣告商都已經有落廣告，最主要原因係本身巴士車身廣  
22 告嘅製作費係相當之昂貴，而對於一啲落廣告嘅人，即係而家嘅 media  
23 agency 嚟講，我哋呢一類型嘅傳統廣告係比較唔吸引，所以係有個相對大嘅跌  
24 幅。

25 但係譬如嚟緊港珠澳大橋嘅開張，我哋嘅廣告係應該會有個提升嘅，係因  
26 為已經有唔少嘅廣告商係對一個新嘅口岸係有興趣，所以我哋嘅廣告嘅收入係  
27 同我哋本身路線相對地唔吸引，因為我哋行嘅路，特別係大嶼山，我哋行嘅路  
28 係山路，係唔會有人見到嘅，所以基本上大嶼山、大嶼南嘅路線係唔會有人落  
29 廣告。東涌係有機會有啲地區性嘅廣告出現嘅，譬如係街市，呢啲嘅廣告係唔  
30 會有好大嘅收入嘅。

31 至於深圳灣，本身深圳灣係個關口，而家係比較耐，所以想落廣告嘅人都  
32 有機會選擇其他嘅交通工具，譬如可能係跨境巴士等等，所以我哋係有見到咁  
33 嘅跌幅。

34 黃女士：（經傳譯員）唔該晒。我想請你睇呢個 NLB-2 第 27 頁，呢個就係你哋嗰個  
35 專營協議嘅第 34 條，呢項條款就講到一個每年嘅一個報告嘅制度，我想問下，  
36 究竟你哋嗰個核數嘅機構係叫咩嘢名呢？如果你要符合第 34 條，係搵邊一個做

1 呢個核數嘅，佢叫咩嘢名呢？或者係審核嘅機構。

2 黃焯安先生：畀少少時間我搵番個資料先，抱歉，搵一搵先要。

3 主席：（經傳譯員）你慢慢喇。

4 黃焯安先生：主席，嗰間公司係一間本地嘅會計師樓，係叫做 Tony Yau &  
5 Company 咁，或者可以我哋之後將個全名補番上畀你睇。

6 黃女士：（經傳譯員）唔該晒，係咪可以畀個樣本我哋，即係睇一睇你哋係最新嘅一  
7 份呢間公司幫你哋做嘅年度審核？

8 黃焯安先生：當然可以。

9 黃女士：（經傳譯員）最後或者係想請你睇番同一份嘅文件，第 196 頁，呢一個就  
10 係你哋嗰個組織架構表，呢度就係顯示你哋嘅高層管理，你可唔可以話畀我哋  
11 聽你哋公司有冇一個專責嘅安全嘅組別或者部門呢？

12 黃焯添先生：主席，對於巴士安全，喺我哋嘅公司立場嚟講，其實係包含晒所有部門  
13 嘅，其實我哋每個月，有機會係甚至兩個星期，我哋所有嘅管理層，即係所有  
14 喺呢個 org. chart 見到嘅大部分嘅管理層都會坐低去傾嘅。每一次我哋都會  
15 當然會講到巴士安全，譬如最近我哋會 focus 喺 training school 上面。所  
16 以喺呢個 org. chart 上面我哋係見唔到一個特別嘅人係 dedicate 去做  
17 safety 嘅，而其實 bus safety 呢樣嘢就係整個公司，成個團隊嘅 duty 嚟  
18 嘅，唔該。

19 黃女士：（經傳譯員）唔該。

20 歐陽先生：（經傳譯員）我想問一個問題，如果有一個係好可怕嘅意外發生咗，你哋  
21 公司裏面會發生啲咩嘢事嘅呢？

22 黃焯添先生：唔好意思，委員，你嘅意思係咪我哋當有意外發生嘅時候，我哋嘅團隊  
23 會做啲咩嘢？

24 歐陽先生：Yes。

25 黃焯添先生：Okay，其實我哋本身對於交通意外已經有個既定嘅制度嘅，不論大  
26 小，我哋本身有個完整嘅 structure 去做，呢一刻我喺個頭度即刻講唔到畀你  
27 聽，但係我哋可以後補一個我哋本身當遇到意外成個 procedure 可以點樣做、  
28 點樣面對，呢個我哋可以做到，交到畀你嘅，唔該，唔好意思。

29 歐陽先生：Thank you.

30 主席：（經傳譯員）冇錯，你係可以儘快交番畀我哋嘅。

31 黃焯添先生：Okay。其實我想再補充多少少，其實我想講番，就係最近我見到嘅關  
32 於呢個獨立委員會有提及到 ISO39001 嘅，其實我哋本身公司嘅立場係好支持

1 同埋好積極去做到呢一個 standard 嘅，其實個 background 都要講番，就係  
2 喺 2017 年，當我哋去試行呢啲新嘅雙層巴士，即係喺 3M 嘅雙層巴士，我哋公  
3 司都有個目標，係希望可以做到呢一個國際水準。

4 我哋首先就喺我哋嘅梅窩廠房係做咗三個嘅 ISO，分別就係 ISO9001 質  
5 量管理體系、ISO14001 環境管理體系同埋 ISO18001 職業安全健康管理體  
6 系，呢三個嘅認證，我哋喺 2018 年嘅 5 月，其實即係上個月，係正式授權係可  
7 以用嘅。我哋 17 年嘅年中開始就開始有喺我哋嘅廠房度做一啲嘅 system 嘅更  
8 新，去做一啲考核嘅。

9 當我哋喺 17 年嘅年中開始做考核嘅時候，BSI，即係嗰間 ISO 嘅公司亦  
10 都有同我哋講過 ISO39001 嘅，當時我哋嘅睇法就係擔心如果將 39001 去畀全  
11 公司用嘅話，我哋嘅成本會好高，但係再去同 BSI 呢間公司傾落去，其實就發  
12 現原來一個 ISO 係可以用一個路線上面去試行嘅，即係用個 routes 去分嘅，  
13 所以嚟緊我哋港珠澳大橋 B4、B6 線，當然而家條橋未開，但係當條橋開咗之  
14 後，我哋係會主動去同 BSI 合作係儘快幫 B4、B6 呢條路線去擺到 ISO39001  
15 嘅。

16 當擺咗成功--呢個 trial 成功咗之後，我哋會積極去幫 3M 呢條路線，即  
17 係頭先剛才大家都好擔心我哋行雙層巴嗰條路線，我哋都會好積極去做呢個  
18 ISO39001 嘅認證。唔該。

19 黃女士：（經傳譯員）唔好意思。

20 黃焯安先生：我想補充番，嗰個係 39001，唔係 3900。

21 黃女士：（經傳譯員）呢個 ISO39001 點樣可以提升安全駕駛呢，可唔可以詳細啲  
22 講呀？

23 黃焯添先生：（經傳譯員）或者我用英文進一步講。

24 主席：（經傳譯員）冇所謂，用咩嘢語言都得。

25 黃焯添先生：（經傳譯員）ISO 其實就係要訂定一啲嘅道路交通安全去提升公司嘅表  
26 現，為咗要執行呢個系統，公司係要有一個好清晰嘅標準，唔係一個單一嘅標  
27 準，即係唔係 BSI 或者任何一間機構嘅單一標準，公司要做嘅就係要做一個統  
28 一嘅標準，要提升同埋係推廣道路交通安全，用呢個系統，我哋唔能夠確保係  
29 零意外，但係新嘅系統係可以幫助我哋提升表現，同時改善我哋嗰個終端嘅系  
30 統同埋我哋嘅支援嘅，即係如果出現意外。其中一個主要嘅元素，即係 ISO 嘅  
31 主要元素就係內部審核，有內部審核可以幫助我哋改善同埋維持安全管理系  
32 統，呢個就係我公司內部同埋長遠嚟講。

33 喺呢段時間，我哋已經同 BSI 確認咗係會進行 ISO 嘅 B4、B6 兩條線嘅認  
34 證，整個過程係未開始，因為港珠澳大橋未通車，希望喺年尾可以將好消息講  
35 畀委員會聽，即係我哋呢一個新線會有一個國際標準。

- 1 黃女士：（經傳譯員）我已經完成晒我所有嘅問題，唔該晒主席，唔該。
- 2 主席：（經傳譯員）黃生，我有一個問題，就係想講番你話用特別更嘅資料，即係一  
3 個十四個小時嘅更，你就話係八條線有用，即係一百一十三條裏面八條線係有  
4 用特別更？
- 5 黃焯安先生：（經傳譯員）呢啲就係大嶼南--就係一百一十三條裏面嘅八條係大嶼山  
6 南部，我哋會將總數交界你，因為仲有其他嘅路線喺東涌、深圳灣。
- 7 主席：（經傳譯員）即係超過八條線有用？
- 8 黃焯安先生：（經傳譯員）總數會多過呢個數嘅，係。
- 9 主席：（經傳譯員）我想確認一下，你總共就係一百一十三條嘅路線，係咪呀？
- 10 黃焯安先生：（經傳譯員）應該係多過呢個數。
- 11 主席：（經傳譯員）或者可以之後講番畀我哋聽。
- 12 黃焯安先生：Yes。
- 13 主席：（經傳譯員）我想知嘅就係你哋嘅路線裏面有幾大部分係用呢個特別更？睇下  
14 你答唔答到，用特別更，巴士車長就會有三個小時嘅小休，咁可唔可以講喺呢  
15 啲特別更，佢係會離開架車，跟住三個小時後返嚟呢？呢個有關係，因為我哋  
16 想知道你喺嗰個地方提供嘅休息設備，你想而家答咗，定係之後先至再提供呢  
17 個資料呢？即係可以用書面解釋。
- 18 黃焯安先生：主席，或者我哋--因為嗰度都涉及多啲資料，我哋一次過整理好，再送  
19 去委員會度。
- 20 主席：（經傳譯員）係，請你將呢啲資料提供。如果冇任何設施或者係有限嘅設施，  
21 你要解釋一下，等我哋知道係整個嘅情況，即係你哋係--即係有關於特別更同  
22 埋休息設施等等。Professor Lo。
- 23 羅先生：（經傳譯員）關於嗰個嘅收入嘅申報方面，我有啲資料想問嘅，來自非專營  
24 巴士嗰個嘅收入都幾多，我就想知道喺呢個數字裏面有幾多係來自非專營巴士  
25 呢？係咪就係話其他嘅支出呢方面？
- 26 黃焯安先生：係喺 other expenses 嗰度。
- 27 羅先生：（經傳譯員）嗰個比例係幾多？即係支付用作非專營巴士嘅數額係幾多？
- 28 黃焯安先生：教授，抱歉，因為我哋呢一刻未有呢個資料係，你介唔介意我哋之後補  
29 充番畀你？講番畀你？
- 30 羅先生：Yes, please.
- 31 黃焯安先生：係，好，唔該。

1 主席：（經傳譯員）請你咁做。呢個嘅--會唔會喺你個中期即係六個月嘅報告裏面  
2 有呢？即係個係截止於17年9月30號個嘅資料。

3 黃焯安先生：主席，你係咪講緊個中期報告？係上市公司定係大--因為大嶼山巴士應  
4 該有獨立有個中期報告，係，我哋...

5 主席：（經傳譯員）可能我真係呢個意思，係咪可以喺一啲公開資料裏面搵到㗎？

6 黃焯安先生：如果大嶼山巴士嚟講，就每年會喺 fuller disclosure 個文件度去-  
7 -一年一次，就去詳細顯示番出嚟。

8 主席：（經傳譯員）就係請你提供番盧教授嘅資料，有關於非專營巴士嘅支出。

9 黃焯安先生：Okay，好。

10 主席：（經傳譯員）今次就完成咗律師要問嘅問題，我哋亦都--如果你有嘅話，我哋  
11 都係會係開始聽你個嘅總結發言，黃生。

12 黃焯安先生：唔該主席，喺我哋巴士公司提供安全嘅載客服務係責無旁貸，喺專營權  
13 底下，我哋嘅服務水平一直受到政府嘅監管，不過隨著社會嘅變化，市民出行  
14 模式係改變，我哋自身亦都要與時並進，改善同埋優化服務，以滿足市民對巴  
15 士服務嘅期望。

16 我哋公司主要嘅管理層都係公司其中一個股東，因此我哋唔係淨係著眼於  
17 好短期嘅表現或者利益，而係更著眼於公司長遠嘅發展同埋可持續性，而繼承  
18 公司嘅傳統，我哋同車長嘅關係係保持長遠同埋良好嘅關係，而呢個係我哋認  
19 為對營運巴士嘅服務同埋安全水平係尤其重要。

20 但係基於我哋公司嘅規模同其他巴士公司個差距係好大，頭先有提及  
21 到，我哋如果以車輛去比較，係只有佢哋十三分之一至到三十三分之一嘅，當  
22 要發展新嘅系統或者軟件，不論係從開發硬件，甚至乎係去 implement 呢啲系  
23 統，其實我哋嘅成本都係會遇到嘅困難會比起其他巴士公司係多好多。

24 而我哋預期喺現有嘅專營巴士制度之下，我哋想去發展我哋嘅車隊係好困  
25 難嘅，以今天喺大嶼山為例，我哋可以服務嘅區域其實只係喺大嶼山入面，而  
26 大嶼山出去以外嘅範圍係有另外兩個專營權，即係喺赤臘角、東涌去市區咁，  
27 我哋就唔同其他嘅專營巴士公司，本身佢哋係有好多路線已經喺市區度係一路  
28 去運行或者一路加緊咁樣。

29 可能從營運嘅效率呢個角度去考慮，其實社會係好難去容納一間規模咁細  
30 嘅專利巴士公司，但我相信係從整體嘅社會利益角度，我哋公司嘅存在係可以  
31 提升業界嘅競爭力同埋係畀市民多一個選擇。

32 縱使係受到我剛剛提及嘅條件去限制，我哋係好樂意繼續投放資源同埋配  
33 合政府嘅政策，以便我哋有更好嘅條件去為未來嘅服務去加強去服務市民嘅。

1           最後，我喺度代表新大嶼山巴士有限公司再次多謝主席、兩位委員邀請我  
2           哋公司上到嚟聽證會去講解我哋嘅情況同埋意見，亦都好多謝 Ms Wong 嘅提  
3           問，亦都多謝秘書處同埋相關人員嘅安排，亦都想藉呢個機會去多謝我哋一班  
4           嘅同事，包括我哋前線嘅同事一直去對巴士行業嘅付出同埋努力。多謝主席，  
5           多謝各位，thank you。

6   主席：（經傳譯員）黃生，我哋多謝你同你嘅同事出席今次嘅聆訊嘅，我哋期待接到  
7           你應承畀我哋嘅資料，其實如果儘早畀到我哋，係會幫助到我哋嘅，因為我哋  
8           而家仲仍然係進行緊呢一個嘅聆訊，所以今次嘅聆訊完結。

9  
10   2018 年 6 月 19 日

11   下午 6 時 06 分聆訊押後

2 (9.00 am)

3 EVIDENCE FROM TAI PO DISTRICT COUNCIL: MS WONG PIK KUI,  
4 MR CHAN CHO LEUNG, MR YAM KAI BONG, MR CHAN SIU KUEN, DR LAU  
5 CHEE SING

6 (given in Cantonese; transcription of the simultaneous  
7 interpretation)

8 CHAIRMAN: Good morning. We welcome the representatives of  
9 the Tai Po District Council. We thank them for  
10 responding to our invitation by coming today to assist  
11 us with their evidence.

12 I'm going to ask Ms Wong to begin by posing  
13 questions to the representatives. If Ms Wong wishes one  
14 of the other representatives of the council to respond  
15 to a particular question, please feel free to identify  
16 that person, and that person can then deal with the  
17 particular question. But I will ask counsel assisting  
18 the committee to begin her questioning now.

19 Examination by MS MAGGIE WONG

20 MS MAGGIE WONG: Yes. Thank you, Chairman. And thank you,  
21 ladies and gentlemen, for coming to this hearing today.  
22 I have a few topics and areas of questions.

23 First of all, may I draw your attention to a letter  
24 sent by the Committee on 4 May 2018, inviting you to  
25 address three accidents. That would be DC-2 page 759.

1           It is in Chinese. I will just summarise the three  
2           accidents.

3           The first accident is at Dai Kwai Street on  
4           10 August 2011, at footnote 1; the second incident is at  
5           Tai Wo Service Road West on 12 May 2013; and the third  
6           is the Tai Po Road accident on 10 February 2018. And by  
7           that letter the committee invited you to provide  
8           documentation in relation to these three accidents.

9           Is that correct?

10          MS WONG PIK KUI: Good morning.

11                 So is it now for the Tai Po District Council to give  
12                 our views on the three accidents?

13          MS MAGGIE WONG: This is just a general question, that by  
14                 that letter the committee invited you to comment or give  
15                 documentation in relation to these three accidents. Can  
16                 you confirm that, first of all.

17          MS WONG PIK KUI: Yes. In this document, it is true, on  
18                 those three days there were the accidents.

19          MS MAGGIE WONG: And the reply, I believe the Tai Po  
20                 District Council, its committee and working group, was  
21                 able to confirm that you have only discussed about the  
22                 Tai Po accident on 10 February 2018. If I invite you to  
23                 look at the document at page 762 in Chinese, English at  
24                 page 764.

25                 Do you see that? It is in the second paragraph. If  
26

1 I may read you. It is a letter from the Tai Po District  
2 Council, replying to the committee. Dated 23 May 2018.

3 The letter states that:

4 "Among the records, the Tai Po District Council, its  
5 Committees and Working Groups had only discussed about  
6 the traffic accident that occurred on Tai Po Road near  
7 Tai Po Mei on 10 February 2018."

8 Is that correct?

9 MS WONG PIK KUI: Yes. Yes.

10 MS MAGGIE WONG: So do I take it that according to your  
11 records, the discussion, you were only able to retrieve  
12 documents in relation to the Tai Po accident, but not  
13 the other two accidents?

14 MS WONG PIK KUI: Yes. For the accident on  
15 10 February 2018, we had a special meeting to  
16 discuss it.

17 MS MAGGIE WONG: Thank you. And may I first of all refer  
18 you to the minutes of the special meeting on  
19 12 February 2018. The Chinese is at page 766, English  
20 starts at page 782. If I may refer to English version,  
21 we can see that the persons in attendance at page 768 in  
22 Chinese and 783 in English, that includes Ms Mable Chan,  
23 Commissioner for Transport, and also Mr Chau, amongst  
24 others, Chau Chung Mun, superintendent of police, do you  
25 see that? 768 in Chinese and 783 in English.

26

1 MS WONG PIK KUI: Yes, correct.

2 MS MAGGIE WONG: If I may take you to paragraph 5, English  
3 at 785, Superintendent of Police, Mr Chau Chung Mun  
4 stated in that paragraph as to that particular road  
5 section, that:

6 "In 2017, the police had made 4 arrests involving 2  
7 drunk drivers, 1 case of dangerous driving and 1 case of  
8 drug-related crime. The police had issued a total of 32  
9 fixed penalty tickets at the road section in 2017 for  
10 speeding and traffic violations. A total of 29 traffic  
11 accidents had occurred in the Chek Nai Ping to Wong Yee  
12 Au section on Tai Po Road, out of which 2 are more  
13 serious. Although there were no speed enforcement  
14 cameras installed at the above mentioned road section,  
15 the police could carry out operations to detect speeding  
16 from time to time by placing detection equipment a few  
17 designated spots along the road section."

18 Do you see that?

19 MS WONG PIK KUI: Yes.

20 MS MAGGIE WONG: Now in relation to this, is this enquiry  
21 made in response to the Tai Po District Council's query,  
22 or questions as to the number of accidents that happened  
23 in that particular Tai Po Road accident that the police  
24 provided those information?

25 MS WONG PIK KUI: Yes.

26

1 MS MAGGIE WONG: And as a matter of fact, your minutes state  
2 at paragraph 16, if I may take you to paragraph 16,  
3 page 772 in Chinese and English at 789, if you see at 16  
4 (iv) it stated that:

5 "Some district councillors had made suggestions on  
6 how to improve the design of the road section involved  
7 in the past. But the Transport Department cited  
8 technical factors as a reason and did not follow up, he  
9 [that is Mr Lo Hiu Fong, I believe he is a member of the  
10 Tai Po District Council] hoped that after this accident,  
11 the Transport Department could respond to the demands of  
12 the district councillors and install road-side speed  
13 detection equipment and signage to improve road safety."

14 In relation to that paragraph, can you elaborate on  
15 the first sentence that some district councillors had  
16 made suggestions in the past how to improve the road  
17 design, but the Transport Department did not follow up.  
18 Can you elaborate on that.

19 MS WONG PIK KUI: Yes, thank you. Now, today, we have  
20 district councillor from the constituency Mr Chan Siu  
21 Kuen attending the meeting. Perhaps he could give his  
22 views on this paragraph.

23 MR CHAN SIU KUEN: May I speak please?

24 As the district councillor of that constituency  
25 I received comments from residents. On holidays there  
26

1 are often cars speeding along the Tai Po Road and it  
2 causes great disturbance to residents and they go at  
3 great speed. So after I received complaints from  
4 residents I wrote to the Transport Department asking for  
5 speed cameras at the road section.

6 On 24 July 2015 and also on 5 June 2017, as  
7 mentioned in the letter, I wrote to the Transport  
8 Department, and the police respectively, the first  
9 letter to Transport Department, the second one to  
10 police, and I made it clear in the letters that near the  
11 Savannah Garden on weekends there is car speeding.

12 The Transport Department responded to me orally, and  
13 they said they would consult the Owners' Corporation  
14 first to see what the response is. For the Savannah  
15 Garden it is not a major traffic black spot, accident  
16 black spot. That's why there has been no follow-up.

17 On the second letter from Tai Po Mei to this Green  
18 Wood Villa, that's a slope, so when cars go up, you  
19 know, for ordinary cars they can't speed, but of course  
20 sports cars could. When they come down that bend, cars  
21 come at a great speed and it is scary. That's why  
22 I wrote to police directly to ask the police to put  
23 a speed camera there. The police responded to me saying  
24 that that is not a traffic black spot, but they would  
25 put some police officers there to set up speed traps.

26

1           After that incident people asked me whether I have  
2           looked at that particular section of road. Fortunately,  
3           as a district councillor I have been monitoring the  
4           government's work all the time so I was able to produce  
5           the two letters at once at the District Council meeting.

6           I'm the District Councillor of that constituency,  
7           when the media asked me questions I could produce proof  
8           that I did ask the Transport Department to put up a road  
9           sign slowing down, and also speed cameras there and I  
10          made the request both to the Transport Department and  
11          the police. That's why you now ask how come there is no  
12          response to my two letters.

13       MS MAGGIE WONG: Thank you, Mr Chan.

14           You mentioned a few letters. The first one is  
15           24 July 2015. May I first of all take you to that  
16           document. It is a letter to the Transport Department.  
17           Chinese at 840-72 in DC-2-bundle. English at 840-75.

18           That's the first letter in which you wrote to the  
19           Transport Department project in Tai Po section,  
20           engineer, Mr Wong Kwok Leung, stating that you have  
21           received request for assistance from the residents in  
22           the vicinity of Tai Po Road, and there was an absence of  
23           speed limit traffic signs around the bend of Savannah  
24           Garden. Then you stated that:

25           "To ensure the safety of road users, your department  
26

1 is now requested to expeditiously install the '50km'  
2 speed limit signs at the above location to remind the  
3 motorists to pay attention to driving at safe speed for  
4 prevention of unnecessary incidents."

5 Is that the first letter you refer to in your  
6 answer?

7 MR CHAN SIU KUEN: Correct.

8 MS MAGGIE WONG: Mr Chan, you mentioned that about  
9 expeditiously install the 50-kilometre speed limit  
10 signs, but in fact during that time, for that particular  
11 road section, the speed limit is actually 70 kilometre  
12 per hour. In that regard, why did you write  
13 50 kilometres per hour?

14 MR CHAN SIU KUEN: 70 kilometres -- one step down from 70 is  
15 50 under the laws of Hong Kong, there is no 60 or  
16 65 kilometres per hour of speed limit. And for  
17 residents living near Savannah Garden they said to me  
18 that "Please write on behalf of us as the District  
19 councillor", and so I wrote on their request.

20 And also there were some minor traffic accidents, at  
21 the biggest bend. I believe for that section a speed  
22 limit of 50 kilometres is reasonable. But of course I'm  
23 not the expert, that's why I have asked the Transport  
24 Department, asking them to help me do a consultation and  
25 see whether it is possible to put up this 50-kilometre  
26

1 sign.

2 CHAIRMAN: Do we understand that this was a request that the  
3 speed limit be reduced from 70 kilometres per hour to  
4 50 kilometres per hour?

5 MR CHAN SIU KUEN: Yes. Yes. I have just listened to  
6 residents' views. Residents called me up, and I also  
7 believe that for that bend it is rather dangerous.  
8 That's why I have stated specifically for that  
9 particular bend the speed limit should be reduced from  
10 70 to 50 kilometres per hour.

11 MS MAGGIE WONG: In relation to this letter the Transport  
12 Department no written response was received from the  
13 Transport Department in reply to this letter before the  
14 Tai Po accident, is that correct? I believe you stated  
15 that in the further submission to the committee by  
16 letter dated 11 July 2018. Chinese at 840-76, and  
17 English at 840-86.

18 MR CHAN SIU KUEN: That is right. At that time, the  
19 Transport Department did not give me a direct reply.  
20 However, I have spoken to them on the phone. They said  
21 that if the speed is to be reduced to 50 they would have  
22 to consult residents as well as owners corporations.  
23 And in 2014, near the Japanese International School  
24 there was a traffic accident at the signal junction, as  
25 a result a person was injured, and the TD, Transport

26

1 Department replied to me. He said for the speed to be  
2 reduced to 50 the TD would have to conduct a study, and  
3 after the accident they have appealed to the public to  
4 abide by road traffic regulations. They said that from  
5 the perspective of the TD, for the speed to be reduced  
6 to 50, they would have to do a lot of consultation and  
7 to liaise with the police.

8 I have been waiting. And I have been in contact  
9 with them. Well, Mr Wong of the Transport Department  
10 has been transferred out. And regrettably we had the  
11 traffic accident at Tai Po Mei. And I approached the  
12 police, because the TD could not help us. I asked the  
13 police to install speed cameras and I have been  
14 following that up.

15 CHAIRMAN: Who was it that you spoke to the telephone at the  
16 Transport Department about this matter?

17 MR CHAN SIU KUEN: It was Mr Wong Kwok Leung, an engineer of  
18 the TD.

19 CHAIRMAN: What was his status or rank within the Transport  
20 Department?

21 MR CHAN SIU KUEN: At that time I think he was a senior  
22 officer in the department.

23 CHAIRMAN: When did you have this conversation in relation  
24 to the letter of 24 July 2015?

25 MR CHAN SIU KUEN: I can't remember. I'm a district  
26

1           councillor, every day as soon as I receive calls for  
2           assistance I would deal with departments as soon as  
3           possible. I urged them to erect the sign and reduce the  
4           speed as soon as possible. However, the government is  
5           very serious about following procedures, I understand  
6           that they have to follow the procedure if the sign is to  
7           be put up. I have been following the matter up, and  
8           I have a lot of work as a district councillor.  
9           Residents from time to time would call me to say that in  
10          that road section where there is a bend, they ask for  
11          the speed to be reduced.

12       CHAIRMAN: Ms Wong, before we go any further, could we see  
13          a photograph of this area of road, and perhaps we could  
14          see a map so that we can all understand what we are  
15          talking about?

16       MS MAGGIE WONG: I wonder if we may pull up the map of the  
17          Tai Po Road section. And first of all, Mr Chan, if you  
18          look at the map, the section where you propose to reduce  
19          the speed limit is in relation to Savannah Garden. And  
20          it appears it would be around the location between  
21          numbers 26 to 29 on the map. Is that correct?

22       MR CHAN SIU KUEN: Yes. It is before the Hung Lam Road, at  
23          the bend.

24       MS MAGGIE WONG: Can you point out the parts that you  
25          propose to the Transport Department to look into the  
26

1 speed limit or reduction of the speed limit from 70 to  
2 50 kilometres per hour by reference to the number shown  
3 on the map?

4 MR CHAN SIU KUEN: I think it is 30, 28 and 29. That's the  
5 bend. So going from 30 to 29 and 28, and for that road  
6 surface, as soon as there is heavy rain it would flood.  
7 That is at location 28. I have just sent a letter to  
8 the Highways Department asking for them to do something  
9 about the underground water, because as soon as there is  
10 heavy rain there will be accumulation of water under the  
11 road surface. In the mornings on Saturdays and Sundays  
12 there are cars racing and doing that bend, and it is  
13 very dangerous.

14 MS MAGGIE WONG: Maybe we can show you the photographs of  
15 number 28, 29 and 30. So that we know which bend or  
16 curve we are talking about.

17 Photo 28, Mr Chan, I believe is the area near the  
18 Hung Lam Road, is that correct.

19 MR CHAN SIU KUEN: That is a bit too forward. You have to  
20 go back a little bit. This is the Kowloon-bound  
21 section. I think you have gone the other way. You  
22 should go the other way.

23 MS MAGGIE WONG: 27?

24 MR CHAN SIU KUEN: I think you have to go further back.

25 MS MAGGIE WONG: 26?

26

1 MR CHAN SIU KUEN: You have overshoot.

2 MS MAGGIE WONG: So it should be between 26 and 27; is that  
3 correct?

4 MR CHAN SIU KUEN: Not this one. This is a different  
5 residential development. Go back a bit.

6 MS MAGGIE WONG: Or photo 29?

7 Mr Chan, maybe we will show you a video about the  
8 relevant locations, so that you can ask us to pause when  
9 the location we talked about is the location mentioned.

10 MR CHAN SIU KUEN: It is close, it is close. Keep going.  
11 Keep going.

12 (Video played)

13 MR CHAN SIU KUEN: It is after this bend. Stop. And all  
14 the way, when you continue, if there are two  
15 double-decker buses servicing this bend, it would be  
16 very dangerous. And just now at the position where  
17 someone was standing, as soon as there is rain, it would  
18 flood. So it is particularly dangerous here.

19 CHAIRMAN: Before we move on. Can we identify this from the  
20 still photographs?

21 MS MAGGIE WONG: Yes. Maybe we would print out a photo of  
22 that particular photo that you have identified.

23 CHAIRMAN: Do we have a physical album of photographs?

24 MS MAGGIE WONG: We have selected a few photographs, but  
25 this does not happen to be one of them. We will mark  
26

1 the time, we can look at the time, and we will print out  
2 that particular photo in due course. Or with those  
3 particular coordinates.

4 And Mr Chan, you mentioned another incident about  
5 a Japanese International School accident, and if I may  
6 refer you to the letter of complaint from the Japanese  
7 International School, that was dated 10 February 2015.  
8 English at page 840-84, and Chinese at 840-85.

9 The original version is 840-84, and Mrs Juliet  
10 Ashton wrote to you stating:

11 "Last year, outside our school a lady was killed  
12 whilst crossing the road. The speed limit is  
13 70 [kilometres an hour] which probably contributed to  
14 the severity of her injuries."

15 In the fourth paragraph she also mentioned that:

16 "Along the Tai Po Road there are other areas where  
17 the speed limit has been adjusted to 50 [kilometres per  
18 hour] and I would ask that the same adjustment is made  
19 for outside our school."

20 So that's a plea made by Ms Juliet Ashton on behalf  
21 of the Japanese International School to reduce the speed  
22 limit from 70 to 50 kilometres per hour. Is that the  
23 letter you mentioned earlier on?

24 MR CHAN SIU KUEN: I mentioned this letter, which is in  
25 front of me. I am aware that someone talked about  
26

1 a traffic accident. I was concerned about it, that's  
2 why I wrote a letter about the area near Savannah Garden  
3 asking for the speed to be reduced to 50. I asked the  
4 TD about details of the accident, whether the person  
5 dashed into the road, or someone did not obey the  
6 traffic light. If the person involved rushed into the  
7 road, well, that one might be different. The TD was  
8 asked by me to make some improvement at the signal  
9 junction to facilitate pedestrian crossing to make that  
10 location safer to cross.

11 And as to whether that location is suitable, I have  
12 actually talked to the TD about it.

13 CHAIRMAN: This was a letter addressed to Mr Man; how did  
14 you come to be dealing with it?

15 MR CHAN SIU KUEN: Yes, it is just that I see it here.

16 Oh, yes, it is written to the chairperson, Mr Man,  
17 who is the chairperson of the Tai Po Transport and  
18 Traffic Committee.

19 CHAIRMAN: Thank you.

20 MS MAGGIE WONG: And this matter was discussed at the  
21 District Council meeting on 13 March 2015. Chinese is  
22 at page 840-81, and English at 840-92. And we can see  
23 the chairman's name there, Mr Man Chen Fai. If you look  
24 at paragraph 79, the chairman made reference to the  
25 letter of the Japanese International School stating  
26

1           their request to reduce the speed limit from  
2           70 kilometres per hour to 50 kilometres per hour, and  
3           actually invites the district council members to go  
4           there to visit their school to discuss about the  
5           transport issues. Do you see paragraph 79?

6       MR CHAN SIU KUEN: Yes, I can see it.

7       MS MAGGIE WONG: If you go to paragraph 80, that's at  
8           page 840-92, a Mr Wong Kwok Leung responded. I believe  
9           that is the Mr Wong Kwok Leung referred to in your  
10          letter that you addressed to in July 2015. Is that  
11          correct?

12       MR CHAN SIU KUEN: Yes, it is related. At that time when  
13          I wrote to him it was when I received complaints from  
14          residents of Savannah Garden, especially on the mornings  
15          of Saturdays and Sundays, there were a lot of cars  
16          racing. Around that area, it is very dangerous, that  
17          was a different matter.

18               And I wrote to him to ask for the speed to be  
19          reduced to 50, around Savannah Garden. And I was aware  
20          of that.

21       MS MAGGIE WONG: And in that paragraph 80, Mr Wong Kwok  
22          Leung responded that he knew that the Japanese  
23          International School suggested the reduction of speed  
24          limit of the road section in front of the school in view  
25          of a traffic accident in the section of Tai Po Road in  
26

1 front of the school in 2014, in which a member of the  
2 public was killed.

3 It also stated that the Transport Department and  
4 police were examining the cause of that traffic accident  
5 which might not necessarily be related to the speed  
6 limit of that road section, including issues of some  
7 motorists' driving attitude and problem as to whether  
8 pedestrians observed traffic light signals. But it also  
9 stated that the Transport Department would examine  
10 whether the present speed limit of that road section was  
11 appropriate.

12 Furthermore, the Transport Department has sent an  
13 interim reply to the school, and will provide a detailed  
14 reply letter.

15 So Mr Chan, it appears that the Transport Department  
16 stated back in March 2015 that they are going to examine  
17 the speed limit of that road section.

18 Did they follow up with the district council, with  
19 your district council about their proposal or suggestion  
20 since that meeting?

21 MR CHAN SIU KUEN: Yes, I was shown this by the deputy  
22 chairperson. They said the case is sub judice, so it  
23 was not appropriate for them to discuss the case. There  
24 might be a prosecution against the driver. It was  
25 mentioned in paragraph 87 in the district council.

1 MS MAGGIE WONG: But my question is not about the cause of  
2 the accident, but the fact that the Transport Department  
3 would examine whether the present speed limit of that  
4 road section was appropriate. Did you see that sentence  
5 in paragraph 80 where Mr Wong Kwok Leung stated that?

6 MR CHAN SIU KUEN: Every day we have a lot of meetings. As  
7 far as I know, we asked them -- we told that we could  
8 only wait, because they are dealing with the procedure  
9 or the proceeding.

10 MS MAGGIE WONG: So is the answer no, that after the  
11 minutes, or after the meeting in March 2015 the  
12 Transport Department did not approach the district  
13 council discussing about the speed limit of that road  
14 section. Is that the case?

15 MR CHAN SIU KUEN: I don't know whether they have talked to  
16 the chairperson, Mr Man, but I was the councillor of  
17 that constituency, so I would talk to them. They said  
18 there needed to be consultation. They needed to consult  
19 if the speed limit is to be reduced to 50.

20 CHAIRMAN: The question really is this. Did they tell you  
21 what was the result of this consultation? This happened  
22 three years ago.

23 MR CHAN SIU KUEN: No, they did not. If there was a result,  
24 I would not have sent a second letter to the police.  
25 From the letter dated 2015, there wasn't much result.

26

1 That's why in 2017 I sent a letter to the police.

2 MS MAGGIE WONG: Before we move on, can I show you the map  
3 identifying where the location of the Japanese  
4 International School. I believe the location is  
5 around -- it is between number 21 and 22. If we can  
6 pull up the photo, 21 and 22, I believe it is 21. This  
7 shows the site of the Japanese International School. Is  
8 that correct?

9 MR CHAN SIU KUEN: This one is correct. This one, near the  
10 traffic signal.

11 MS MAGGIE WONG: Thank you. And you referred to the letter  
12 to the police, and if I may refer you to the bundle at  
13 page 840-70 in Chinese, and 840-74 in English. It was  
14 a letter dated 5 June 2015, written by you to the Hong  
15 Kong Police.

16 We can see that the letter stated that there were  
17 a lot of people over-speeding during holidays and then  
18 requesting for installation of speed enforcement  
19 cameras. Is that correct?

20 MR CHAN SIU KUEN: Correct.

21 MS MAGGIE WONG: And there was a reply from the police --

22 CHAIRMAN: Before you move on. The reference here is  
23 generally to the Tai Po Road. Was there any particular  
24 part of the Tai Po Road where there was this problem  
25 with speeding?

26

1 MR CHAN SIU KUEN: I think just now I said that

2 Tse Lai King(?), uphill, when they approach the bus  
3 accident location, the first bend, there are a lot of  
4 accidents there. So in that section I had specified all  
5 the way up to Ng San Jong(?) that there are some  
6 residents who wrote a letter in Dragon Hill Bay --  
7 Deerhill Bay, where they say there is a lot of speeding  
8 from sports cars, and in the first bend, that's where  
9 the bus accident occurred, when they turn right, there  
10 is a drifting, and vehicles can flip very easily. So  
11 that's why we want a 50-kilometre speed limit and also  
12 a speed camera.

13 MS MAGGIE WONG: We have a map pulled up. Can you first of  
14 all identify the location of the Deerhill Estate  
15 mentioned in your letter. Or your evidence. Deerhill  
16 Bay. Is that around the location of the Japanese  
17 International School?

18 MR CHAN SIU KUEN: This is the second letter. The first  
19 letter was referring to Savannah Garden. This is the  
20 second letter, and this letter does not mention the  
21 Japanese school. The first letter involved the  
22 international school.

23 MS MAGGIE WONG: Yes. So that's the location that you are  
24 referring to on the map, the Deerhill Bay, which is  
25 behind the Japanese International School on the map.

26

1 Can you confirm that?

2 MR CHAN SIU KUEN: Let me see. It is not very clear. It is  
3 between 22 and 20, right? Kon Hang is also on the map.  
4 This is Cheung Shue Tan, the bus stop before we reach  
5 Deerhill, that would include -- this is Deerhill. That  
6 is correct. This is approaching Deerhill, the approach,  
7 the entrance to Deerhill.

8 MS MAGGIE WONG: And your letter stated that there are often  
9 speeding and unlawful motor racing on the Tai Po Road,  
10 but there appears no reference to the speed limit in  
11 this letter. Can you tell us why? Or request in  
12 relation to the speed limit.

13 MR CHAN SIU KUEN: Well, in the heading I said that  
14 I request a 50-kilometre speed limit sign, and I also  
15 wanted -- I had written that, I had requested that.

16 MS MAGGIE WONG: I refer to a letter dated 5 June.

17 CHAIRMAN: Perhaps we can put that letter up on the screen.

18 MR CHAN SIU KUEN: Well, this speeding camera, the --  
19 typically it is 70 kilometres, if you have a speeding  
20 camera they will take pictures, if it exceeds the speed  
21 limit. A typical motorist when they see the camera they  
22 will slow down, it is very natural, so what I wrote was  
23 they needed to heed our residents' request to add  
24 a speed camera -- you are correct, I did not add that  
25 there, but the purpose is that if you have a speed limit  
26

1 of 50 then it would activate the camera if it exceeds  
2 50, and if --

3 MS MAGGIE WONG: There was a reply from the police on  
4 16 June 2017.

5 If I may take you to 840-71 in Chinese, English at  
6 840-73. The police stated that:

7 "The locations for installation of fixed speed  
8 monitoring cameras are mainly determined by the  
9 Transport Department. After installation, the Police is  
10 responsible for taking enforcement action. This office  
11 understands that the Transport Department currently has  
12 no plans to install fixed speed monitoring cameras in  
13 the captioned road section. At the same time, the  
14 Police will continue to closely monitor the traffic  
15 situation of the road section concerned."

16 This letter was copied to the Transport Department,  
17 Mr Paul Chiu, Traffic Control Division, Technical  
18 Service Branch, and the district commander at Tai Po.  
19 Do you see that?

20 This letter was addressed to you personally.

21 MR CHAN SIU KUEN: That is correct. I issued the letter and  
22 they should have responded to me. I had submitted them  
23 the letter, and I have a record of all the letters  
24 I send, so all these three letters were disclosed by  
25 myself, and the fact is we -- I see the Transport  
26

1 Department have not concluded their work, so I wrote  
2 directly to the police to see if they could install the  
3 speeding camera at the end of where the slope is going  
4 downhill, and that was my request.

5 MS MAGGIE WONG: So in other words they said that the  
6 Transport Department refused the request, and the police  
7 is simply the enforcement department. So they can't do  
8 anything about it unless the Transport Department  
9 install the fixed speed monitoring cameras; is that  
10 correct?

11 MR CHAN SIU KUEN: That is correct. It is clear that's what  
12 they responded, and subsequently, after this serious  
13 accident, I had contacted a police officer, we went to  
14 the site, and they promised that at the end of the year  
15 they would install a speeding camera.

16 MS MAGGIE WONG: I refer you back to the minute dated  
17 12 February 2018. That would be at page 790 in English.  
18 Chinese at page 772.

19 In this paragraph 17(ii), Dr Lau Chee Sing raised  
20 the following views, and he stated that:

21 "Half a year ago, some district councillors had  
22 proposed installing speed enforcement cameras in the  
23 road section where the accident had occurred but were  
24 rejected by the relevant departments. He opined that  
25 despite there were sufficient signage at the scene,  
26

1 a vehicle's speed would increase as a result of the  
2 impulse and centrifugal force generated as the vehicle  
3 went downhill and made a turn. Relevant departments  
4 should review on whether it was appropriate to keep the  
5 speed limit of the road section in concern at  
6 70 [kilometres per hour]. He said, for example, there  
7 had been an accident at Sai Kung ... [and] Clear Water  
8 Bay ... as the vehicle failed to brake in time. The  
9 speed limit was then lowered from 70 kph to 50 kph, and  
10 speed enforcement cameras were also installed. He  
11 suggested to lower the speed limit to 50 [kilometres per  
12 hour] and install speed enforcement cameras in the road  
13 section concerned to deter drivers from speeding."

14 This is perhaps a question directed at Dr Lau.  
15 Reference was made to the fact that half a year ago  
16 district councillors had proposed installing speed  
17 enforcement cameras in the road section where concerned  
18 in relation to this accident. Was that in writing? Was  
19 this request made in writing?

20 DR LAU CHEE SING: So it was not my request. At the time  
21 they were aware that district councillors had written  
22 a request.

23 CHAIRMAN: Were you referring to Mr Chan's request, is that  
24 what this is a reference to?

25 DR LAU CHEE SING: (In English) Yes, that was Mr Chan's  
26

1 request, yes.

2 MS MAGGIE WONG: And when you made reference to "rejected by  
3 the relevant departments", that was the letter of  
4 rejection by the police that we have just seen; is that  
5 correct?

6 DR LAU CHEE SING: (In English) Correct, yes.

7 MS MAGGIE WONG: If we continue, if we look at  
8 paragraph 24(iii), English at page 794, Chinese at  
9 page 776, paragraph 24(iii), that's the response by  
10 Mr Au Chun Wah stated that:

11 "He agreed that the speed limit of the road section  
12 concerned should be lowered from 70 [kilometres per  
13 hour] to 50 [kilometres per hour]. Yet, the attitude of  
14 the driver was just as important. Some bus drivers who  
15 knew the route extremely well might drive at a higher  
16 speed. To add one, the road section was sloping  
17 downwards. Even if the bus would be 'locked' when the  
18 speed exceeds 70 [kilometres per hour], there would be  
19 an impulse generated from the slope and the weight of  
20 the vehicle, causing an increase in the speed. He  
21 suggested that the bus company should remind bus drivers  
22 to be patient at all times, and to slow down when going  
23 downhill. In addition, he hoped that the bus company  
24 would instruct all bus drivers to maintain a good  
25 attitude while driving."

26

1           Then at (vi):

2           "He enquired the police for the number of traffic  
3           accidents that had happened ..."

4           Not only for the road section concerned, but also  
5           for the entire length of Tai Po Road, and he asked  
6           whether there were speed enforcement cameras at Tai Po  
7           Road, and if yes, the number and the locations.

8           And now may I ask, first of all, about this speed  
9           limit lowering from 70 kilometres to 50 kilometres per  
10          hour. After this meeting, did you and the Transport  
11          Department have a site inspection of the location of the  
12          accident, in order to discuss about this request of  
13          reduction of speed limit?

14       DR LAU CHEE SING: (In English) You asking me? Or ask  
15       Mr Chan?

16       CHAIRMAN: It is a matter for you, amongst yourselves, to  
17       decide who should answer a particular question. Perhaps  
18       Ms Wong could indicate who might best reply.

19       MS MAGGIE WONG: Maybe Ms Wong, if --

20       MS WONG PIK KUI: I will invite our TT group chairman  
21       Dr Lau.

22       DR LAU CHEE SING: (In English) That question was raised by  
23       Mr Au, another district councillor. I think that should  
24       be better answered by Mr Chan, because he is the  
25       district councillor of that area.

26

1 CHAIRMAN: Mr Chan, can you help us? The question is, was  
2 there a site visit?

3 MR CHAN SIU KUEN: Well, I personally did, now whether the  
4 district council chairman, he spoke at that -- on that  
5 occasion, he just raised the question, but whether there  
6 was any follow-up, that was another issue. Now, as  
7 a councillor, I definitely went to examine the scene  
8 before and after the accident. I definitely went  
9 myself, and Dr Lau Chee Sing, as chairman, whether he  
10 attended I could not recall.

11 CHAIRMAN: Did you go with the Transport Department, I think  
12 is the question. Was there any joint site visit?

13 MR CHAN SIU KUEN: I went personally with the Transport  
14 Department.

15 MS WONG PIK KUI: Let me also answer, well, we -- the Tai Po  
16 District Council, the chairman, Mr Cheung Hok Ming, the  
17 Home Affairs officer DO, Ms Cheung, together with us,  
18 the whole Tai Po Transport Traffic Committee, all our  
19 members went to the site to visit once. And Au Chun Wai  
20 had also attended.

21 CHAIRMAN: Thank you.

22 MS MAGGIE WONG: Thank you. Out of this site visit was it  
23 agreed amongst Transport Department and the persons in  
24 attendance at this site visit that the speed limit has  
25 to be reduced? For that particular road section in  
26

1 relation to the accident?

2 MS WONG PIK KUI: Yes, when we were at the site we had  
3 raised two requests. The first was to bring in the  
4 70 kilometres speed limit and lower it to 50 kilometres  
5 per hour, and we also wanted signage, and the second  
6 request was that in this section where we needed the  
7 speed limit to be slowed down, they should also install  
8 the speeding cameras.

9 MS MAGGIE WONG: During the site visit did you discuss about  
10 where the speed enforcement cameras should be installed,  
11 or the location of the cameras?

12 MS WONG PIK KUI: We, yes. We did identify the location.  
13 We had a whole coach, tour bus coach, some 40 people  
14 visiting the site, and we had more than 40 people on  
15 that section, and we felt it was dangerous to conduct  
16 our site visit under those conditions, so we took our  
17 request, and raised that in our district council meeting  
18 room in our Traffic and Transport Committee.

19 So if we wanted a precise location for the speeding  
20 cameras, we handed that over to the TD and the police,  
21 and our Councillor Chan Siu Kuen would follow up.

22 MR CHAN SIU KUEN: I did. I was with the police officer  
23 responsible for traffic at the site, and I identified  
24 and designated the site -- that is the stretch that is  
25 going downhill where the cameras should be installed,

26

1 and we did have a discussion.

2 MS MAGGIE WONG: So was all this in writing? Or recorded in  
3 minutes, apart from the ones that you produced to us?

4 MS WONG PIK KUI: No. These were not listed out in such  
5 details at the meeting, because on the locations of the  
6 cameras, the district councillor of the constituency had  
7 to liaise with the village heads of the three villages  
8 at Tai Po Mei, he had to listen, consult them on the  
9 views, because there are also bus stops involved, maybe  
10 they need to be repaired and then need to remove the  
11 lamp post, and so on. So these are all details which  
12 are left to Mr Chan Siu Kuen to follow up by making  
13 appointment on another occasion with the relevant  
14 parties. That is why it was mentioned repeatedly,  
15 Mr Chan said he and the department went to the site  
16 several times afterwards.

17 CHAIRMAN: Can we have the date of the communal visit, the  
18 40-odd people in the coach. When was that?

19 MS WONG PIK KUI: I think it should be 12 April. Perhaps  
20 our colleagues could all help out. I think it was  
21 12 April. On that day we hired a coach bus to go there.  
22 Yes. 2 pm on 12 April. We started from the Tai Po  
23 government offices and then we went up to the Tai Po  
24 Road bus stop for a site inspection. We arrived at 2.15  
25 at the scene at Tai Po Mei.

26

1 CHAIRMAN: Thank you.

2 MS WONG PIK KUI: Yes, and then ... then at 3.30 there was  
3 a DMC, the district management committee meeting. At  
4 that meeting, we had a discussion after the site  
5 inspection. Now only the chairman and deputy chairman  
6 of the district council and the chairman of the five  
7 committees, so altogether seven district councillors who  
8 met with the district office and the departments of Tai  
9 Po. So that's a meeting for these people. And yes,  
10 there is a minute for this meeting.

11 MS MAGGIE WONG: Can I take you back to -- still in  
12 the February 2018 minutes, as to the response by the  
13 KMB. That would be at 798 in English, and 780 in  
14 Chinese. At paragraph 35 it stated that:

15 "Mr Godwin So's views and responses to the questions  
16 raised by the district councillors were as follows ..."

17 And 35(ii) stated:

18 "The KMB will consider the views of the District  
19 Councillors on the routes, schedules, and dispatches of  
20 Route 872, and will submit proposals to the Transport  
21 Department and the district council for future  
22 considerations."

23 First of all, what views of the district councillors  
24 was he referring to?

25 MS WONG PIK KUI: The route 872, I proposed that it  
26

1           shouldn't continue to go via the racecourse, and then on  
2           to Tai Po Road to the terminus. I hope there would be  
3           a new route. And then the new route could take the Tolo  
4           Harbour Highway.

5       MS MAGGIE WONG: Did they submit any proposal to your  
6           council for consideration? Since -- (Simultaneous  
7           speakers - unclear) --

8       MS WONG PIK KUI: After the end of the meeting, well, it was  
9           close to the Chinese New Year, there was no further  
10          meeting. The Transport Department colleague called me,  
11          and asked if I agreed to this, that is for route 872X,  
12          it will go from the racecourse via the Tolo Highway to  
13          Tai Po centre.

14       MS MAGGIE WONG: If I may refer you to paragraph 12 at  
15          page 788 in English, and 771 in Chinese. This request  
16          was made by Mr Kwan Wing Yip, at paragraph 12(iv). He  
17          stated that:

18               "Since he began serving as District Councillor  
19               18 years ago, there had not been any large-scale road  
20               widening or improvement works carried out on Tai Po  
21               Road. He understood that Tai Po Road was subjected to  
22               geographical limitations, but he still hoped that the  
23               relevant departments could try their best to work on  
24               improvement plans. He also hoped that the Transport  
25               Department could also consider improvement plans of  
26

1           other roads (eg Ting Kok Road, Lam Kam Road, Sai Sha  
2           Road) proposed by the Traffic And Transport Committee of  
3           the Tai Po District Council ... so as to prevent traffic  
4           accidents caused by road defects."

5           In relation to this request by Mr Kwan, he mentioned  
6           that the Tai Po Road had not had any improvement works  
7           carried out during the past 18 years.

8           What is your view on that, when he stated that?

9           MS WONG PIK KUI: Now I think, perhaps it is best to get  
10          a response from the district councillor of the  
11          constituency, Mr Chan Siu Kuen.

12          MR CHAN SIU KUEN: For the Tai Po Road, there are quite  
13          a number of bends. Yes, there have been widening works,  
14          for example the bend near Savannah Garden, this slope  
15          was cut before. There were not too many serious  
16          accidents there, it is true. But really, I think in  
17          this case, it is the bus driver, who drove carelessly.  
18          For this whole section, now as the district councillor  
19          of the constituency, most of the complaints were about  
20          speeding, and the residents were worried that might lead  
21          to serious traffic accidents, but for that particular  
22          location, best of course if it could be widened. You  
23          know, in Hong Kong there are many such roads with such  
24          bends, but for Tai Po Road it is not particularly  
25          dangerous, but of course if the widening could be done

26

1 we could support it.

2 CHAIRMAN: Before you go on, Mr Chan, may I remind you, in  
3 view of the remarks that you just made, that the causes  
4 and liability of the accident on 10 February are not  
5 within the terms of reference of this committee. We are  
6 interested to find out about the circumstances, but we  
7 are precluded from making any determination about that,  
8 for obvious reasons in light of prospective litigation.

9 MR CHAN SIU KUEN: Yes. I got it.

10 MS MAGGIE WONG: Mr Chan, that paragraph made reference to  
11 improvement plans. Can you tell us when did the Traffic  
12 and Transport Committee of your district council propose  
13 the improvement plan? When?

14 MR CHAN SIU KUEN: There is no mention here. On widening of  
15 Tai Po Road, it is not mentioned.

16 MS MAGGIE WONG: Dr Lau --

17 MS WONG PIK KUI: Perhaps I could say this here. Mr Kwan  
18 said he has been a district councillor for 18 years,  
19 actually I am in the same case.

20 Now, at the district council, for all these years,  
21 it is true, there are widening works at some sections of  
22 Tai Po Road, for instance, Ting Kok Road has been  
23 widened and is open to traffic already, it is a very  
24 successful case. The roundabout at Lam Kam Road, again  
25 widening works have been completed. Sai Sha Road, there

26

1 is now consideration of an option. Next time, when we  
2 talk about road improvement works again, we would ask  
3 the Transport Department to submit proposals together  
4 with others for the consideration of the Traffic and  
5 Transport Committee. That should be the case.

6 MS MAGGIE WONG: Do you have anything to supplement?

7 DR LAU CHEE SING: Yes, I would like to add this. At the  
8 Traffic and Transport Committee meetings we discussed  
9 requests made by a particular member. When that is the  
10 case, it is not necessarily that the committee would  
11 submit plans. Usually at meetings we would ask the  
12 Transport Department to make improvements, and we would  
13 wait for the Transport Department to make proposals.  
14 Because they are the experts on transport matters. So  
15 it is for them to respond to members' requests, and come  
16 up with some improvement proposals for our  
17 consideration. Because district council councillors are  
18 not experts in this area. So usually when we make  
19 request at the Traffic and Transport Committee meetings,  
20 then we hope the Transport Department or the relevant  
21 departments would then put forward proposals for  
22 improvement for our consideration.

23 That's the point I would like to clarify.

24 MS MAGGIE WONG: In other words, you propose a certain idea,  
25 but in terms of execution, you leave it to the Transport  
26

1 Department as experts, to execute the improvement works.

2 Is that what you are saying?

3 DR LAU CHEE SING: Yes. Correct.

4 MS MAGGIE WONG: And may I also refer you to paragraph 26,  
5 page 796 in English. And 778 in Chinese.

6 Paragraph 26(ii). Mr Yu Chi Wing, councillor, commented  
7 as follows. He said that:

8 "The staff of the Transport and Housing Bureau and  
9 Transport Department often refused to implement the  
10 suggestions put forward by the District Councillors, and  
11 they are often biased in favour of KMB at the meeting.  
12 In addition, there are often personnel changes in the  
13 Transport Department, which has led to a slow progress  
14 in handling cases."

15 First of all, when Mr Yu made reference to  
16 suggestions put forward by the district councillors are  
17 they referring to safety-related measures in relation to  
18 the road section of Tai Po Road? Or can you tell us  
19 what those suggestions were?

20 MS WONG PIK KUI: Now, I think, perhaps I should say this.

21 Mr Yu Chi Wing expressed his views at the meeting so it  
22 should be for him to explain and clarify his views. We  
23 really cannot speak for him and interpret what he meant  
24 here.

25 MS MAGGIE WONG: Have there been meetings with the Transport  
26

1 and Housing Bureau and Transport Department after  
2 suggestions had been put forward by the district  
3 councillor each time?

4 MS WONG PIK KUI: Yes. Now let me put it this way.

5 District councillors receive complaints from residents.  
6 So through various channels they would convey these  
7 complaints. Going through the district council is one  
8 way, then writing is another way, or calling up someone  
9 is also a possibility. And then district councillors  
10 would speak with the Transport Department on their  
11 proposals or suggestions.

12 Perhaps other departments could also express their  
13 views on the matter. Mr Yam, thank you.

14 MR YAM KAI BONG: Now, on Mr Yu Chi Wing's views, and the  
15 counsel just asked about the views of other members, for  
16 example on how the Transport Department views members'  
17 views. I would like to give my opinion as well.

18 Now, the Transport Department, the police, and  
19 relevant departments did respond expeditiously including  
20 reducing the speed limit from 70 to 50, or undertaking  
21 to install speed cameras, speeding cameras, but then as  
22 Mr Chan Siu Kuen said, he has actually followed up on  
23 such proposals for a long time. Let me say this, it's  
24 a fact which may not be pleasing to the ear, it is only  
25 when someone is killed or injured then the would  
26

1           actively respond to our views, and we don't want to see  
2           that.

3           Now, there's mention of questions asked by district  
4           councillors and often the Department would reject  
5           district councillors' demands, and that's true. It is  
6           not just on this particular subject. For example, in  
7           Tai Po district we would like to build a flyover at  
8           Kwong Fuk Road, we have talked about it for 10,  
9           20 years, but because no lives were lost -- and then for  
10          district councillors of the Tai Po town going into Tai  
11          Po town or Kam Shan Village there is just a single road  
12          section, and if there should be a traffic accident and  
13          ambulances or fire engines prevented from entering it  
14          would affect rescue effort. So because nothing  
15          happened, that's why this demand of the district council  
16          for many years could not be addressed.

17          Now, you have to understand it. You know, district  
18          council is rather passive, especially when departments  
19          often cite technical reasons to block our request, and  
20          it is hard for us to question those technical  
21          considerations, and technical considerations include  
22          a lot of data, or a thousand reasons why something  
23          cannot be done.

24          Now we are very unhappy about it, but we feel rather  
25          helpless too -- and I must say this too.

1           Now, district councillors collect views from the  
2           public on traffic and transport issues, whether it be  
3           about professional drivers or pedestrians or after  
4           accidents have happened. Yes, of course those are minor  
5           accidents, but after minor accidents have happened does  
6           it mean that there could be more serious accidents in  
7           the future? This is something we can see. That's why  
8           Mr Chan Siu Kuen or other district councillors here have  
9           put forward these views. It is not groundless, because  
10          we predict something could happen so we want to make  
11          improvements as earlier as possible.

12          As to how improvements could be made, we don't have  
13          the capacity or the expertise to deal with it. But if  
14          certain measures are taken, could it then reduce the  
15          chance of accidents happening? This is what the  
16          district council could like to achieve.

17       CHAIRMAN: Ms Wong, perhaps we could move forward to the  
18          improvements that did actually happen. And as I recall,  
19          there was a paper dated 9 April which was discussed by  
20          the district council on 11 May.

21          And I think that we might have received the approved  
22          minutes yesterday.

23       MS MAGGIE WONG: Yes. Chairman. Maybe I should jump  
24          immediately to the proposals made by the Transport  
25          Department.

1 CHAIRMAN: Thank you.

2 MS MAGGIE WONG: I believe after this meeting there was  
3 another meeting on 9 March 2018, also in relation to the  
4 Tai Po Road accident. Is that correct?

5 CHAIRMAN: Perhaps you could bring up the minutes of the  
6 meeting.

7 MS MAGGIE WONG: Yes. The Chinese is at page 801 and the  
8 English is at page 815.

9 Maybe I will summarise some of the key matters in  
10 this minute before I go straight to the Transport  
11 Department's proposals.

12 This meeting was on 9 March 2018, and paragraph 4.  
13 Mr Cheung Wai Fung representing the Transport  
14 Department --

15 CHAIRMAN: Slow down a bit, Ms Wong, so that the  
16 representatives can see what you are addressing.  
17 I think you have hard copies, do you, of these minutes?  
18 You don't. In that case, take time, so that we can show  
19 them to you on the screen.

20 You are going to ask some questions about  
21 paragraph 4?

22 MS MAGGIE WONG: Paragraph 4. Mr Cheung Wai Fung  
23 representing the Transport Department made four  
24 suggestions in that paragraph. First, to study whether  
25 to revise speed limits. Second, to strengthen traffic

26

1 signs, and road markings. Third, installation of speed  
2 enforcement cameras, and fourth, to examine the  
3 topography of the site of the accident and explore how  
4 the bus stop could be optimised.

5 So those are the four issues the Transport  
6 Department would comprehensively review as stated in  
7 paragraph 4. Do you confirm that?

8 MS WONG PIK KUI: Yes.

9 MS MAGGIE WONG: I believe in that meeting some members  
10 voiced their discontent about the progress in general  
11 terms because some district councillors considered that  
12 the reduction of the speed limit of the particular road  
13 section where the accident occurred could be reduced at  
14 a shorter time, and to have the road section, the entire  
15 length of the road section reviewed comprehensively  
16 later.

17 Can you recall that?

18 CHAIRMAN: Can you take us to an example of such  
19 a suggestion?

20 MS MAGGIE WONG: Yes. If you look at paragraphs 11 and 12,  
21 by Councillor Yam Kai Bong, and in the first paragraph  
22 he expressed discontent or disappointment about the  
23 progress.

24 And he mentioned that there are many sharp bends or  
25 slopes at paragraph 12 in the section of Tai Po Road  
26

1           between Chek Nai Ping and Kwong Fuk Road to Savannah  
2           Garden.

3       CHAIRMAN: Perhaps it is paragraph 12(ii) that captures what  
4           you are saying.

5       MS MAGGIE WONG: Yes.

6       CHAIRMAN: The suggestion was that the department should  
7           first install a speed enforcement camera on this road  
8           section.

9           "Do it now, don't wait until later."

10          Wasn't that the suggestion.

11          Yes, Doctor?

12       MS WONG PIK KUI: I defer to Dr Lau.

13       DR LAU CHEE SING: I was chairman of that meeting. The  
14           first item for discussion was about the traffic  
15           accident, we would like to know the progress of  
16           follow-up of improvement measures by the Transport  
17           Department.

18           Their representative on that day mentioned the four  
19           items mentioned. However, what he said was there was no  
20           confirmation as to when they would be implemented. We  
21           are district councillors, something major happened  
22           in February. In March there was still nothing to  
23           respond to our request. That is, reduction of speed.  
24           Because that was something simple and could be done  
25           immediately.

1           The representative of the Transport Department at  
2           that time still said that it would be under  
3           consideration. District councillors expressed  
4           discontent and disappointment. That was because even  
5           though they have mentioned four items, they did not say  
6           anything about implementation date.

7       CHAIRMAN: Thank you.

8       MS WONG PIK KUI: Mr Yam is here, maybe we can hear from  
9           him.

10       MR YAM KAI BONG: I agree what Dr Lau said. It was not that  
11           I was not happy with the recommendation of the Transport  
12           Department. I was not happy about the lack of  
13           timetable, and the date of installation of speed camera.  
14           The meeting took place on 9 March, and on 12 April  
15           during the site visit they then gave us a report saying  
16           that there would be speed camera and improvement to  
17           facilities and the locality of the bus stop as well as  
18           speed reduction. So it was only on 12 April that they  
19           gave us a confirmation about the improvement.

20           However, at that time the Transport Department used  
21           words like they would consider "whether" there would be  
22           an adjustment to the speed limit, as well as "whether"  
23           there should be improvement to road signs.

24           So it was "whether" they would do it or not. That's  
25           why I myself and other councillors were not happy and  
26

1           were disappointed.

2           MS MAGGIE WONG: I think, Dr Lau, you have also recorded  
3           your sentiments at paragraph 31 of the minutes, just for  
4           completeness. That's at page 811 in Chinese, and 825-2  
5           in English. By the time of this meeting you had not  
6           received the proposal from the Transport Department, and  
7           you complain about reducing speed limits and the fact  
8           that installing speed cameras are not difficult to  
9           implement. The matters that you have averred to  
10          earlier.

11          If we may look further at the Tai Po District  
12          Council paper dated 9 April 2018 -- that's at  
13          TD-1 page 354 in Chinese, and 360-1 in English.

14          This paper lists out a number of measures that they  
15          proposed to the Tai Po District Council. If you can see  
16          the first section -- the second section is the review of  
17          the speed limit, and it is proposed that the speed limit  
18          of certain sections be reduced from 70 kilometres per  
19          hour to 50 kilometres per hour.

20          If we could go to subparagraphs 4(a), (b) and (c).  
21          Subparagraph 4(c) is the part where they proposed the  
22          section between Chek Nai Ping and Yun Yi Road of Tai Po  
23          Road be adjusted, the speed limit be adjusted from  
24          70 kilometres per hour, be lowered to 50 kilometres per  
25          hour. That's subparagraph 4(c).  
26

1           And if we could -- if you could read it first, and  
2           then we will pull up the map for you to look at.  
3           Subparagraph 4(c). If we enlarge it, the section that  
4           we are referring to where the speed limit is reduced is  
5           the section starting from number 15 to number 31. The  
6           line marked in orange or brown colour.

7           Can you confirm that's the Transport Department's  
8           proposal?

9       DR LAU CHEE SING: (In English) Yes. By Transport  
10       Department.

11       MS MAGGIE WONG: And they also proposed other measures  
12       including the road traffic signs be put up and other  
13       road markings. That's at subparagraph 8(a). If we may  
14       look, first of all, at the map showing where the road  
15       traffic signs are proposed by the Transport Department.  
16       That's TD-1 page 360.

17           So they proposed to add two "Ahead" sign at the  
18           bottom, and then warning traffic sign, you can see the  
19           first, "Reduce speed now", "100 metres", and "Bend to  
20           the right ahead"; and then the second traffic sign, then  
21           we can see nine signs of sharp deviation of route, used  
22           with amber border. Then we can see the enlargement of  
23           the building, or construction of the pedestrian, and  
24           other road markings, or more markings on the road  
25           indicating the reduction of speed limit.

1 Can you confirm that's the proposal you have  
2 discussed with the Transport Department?

3 DR LAU CHEE SING: (In English) Yes. Actually that was  
4 presented by the Transport Department.

5 MS MAGGIE WONG: Yes.

6 DR LAU CHEE SING: (In English) And we discussed that at the  
7 TTC meeting.

8 CHAIRMAN: So the paper was 9 April, and the meeting was on  
9 the 12th.

10 DR LAU CHEE SING: (In English) That was the -- the meeting  
11 was on --

12 CHAIRMAN: I'm talking about the site visit. As

13 I understand the evidence, that was 12 April: then there  
14 was a meeting on 11 May.

15 DR LAU CHEE SING: (In English) No.

16 DR LAU CHEE SING: It was mentioned during site visit and  
17 then it was mentioned later.

18 (In English) The meeting on 12 April.

19 CHAIRMAN: Thank you.

20 MS MAGGIE WONG: As to this proposal, I believe there was  
21 draft minutes of the meeting dated 11 May this year. If  
22 we may go to Chinese at page 840-9.

23 CHAIRMAN: Before we do that, were we not told that they  
24 would be considered and approved in a meeting that was  
25 held yesterday? The 13th?

26

1 MS MAGGIE WONG: Yes.

2 CHAIRMAN: Have they been approved?

3 MS MAGGIE WONG: Have they been approved?

4 DR LAU CHEE SING: So Mr Lunn would like to know whether it  
5 was discussed yesterday?

6 MS MAGGIE WONG: No because what we have here is a draft  
7 minute. Has that been approved, this draft minute, or  
8 have there been changes?

9 DR LAU CHEE SING: (In English) That was approved.

10 MS MAGGIE WONG: Without changes?

11 CHAIRMAN: Without changes?

12 DR LAU CHEE SING: (In English) Without changes.

13 CHAIRMAN: Thank you. In which case we can go to the draft  
14 minutes, if that is what you were going to do.

15 MS MAGGIE WONG: Thank you.

16 If we go to page 840-09 in Chinese, and 840-20 in  
17 English. And at paragraph 5 --

18 CHAIRMAN: Which bundle are we in now?

19 MS MAGGIE WONG: We are at DC-2, page 840-23 in English, and  
20 840-12 in Chinese.

21 CHAIRMAN: Thank you.

22 MS MAGGIE WONG: And maybe we should go back one page to see  
23 who is present. At page 840-22, the chairman welcomed  
24 a few representatives, including Dr Lau and Mr Hui Kam  
25 Nin Henry, the senior engineer of the Transport  
26

1 Department. If we go to paragraph 4:

2 "The chairman said that the Transport Department had  
3 earlier submitted documents to the committee introducing  
4 the latest traffic control measures on Tai Po Road ..."

5 And it made reference to a Tai Po District Council  
6 paper. That is the paper I took you to earlier on.

7 "The secretariat had also sent the same by e-mail on  
8 10 April 2018 to the members ... Further, the  
9 secretariat had assisted the Transport Department in  
10 arranging the members of this committee to conduct  
11 a site inspection of Tai Po Road with the District  
12 Management Committee on 12 April this year, and the  
13 Transport Department had explained the traffic control  
14 measures to be implemented shortly. He invited the  
15 Transport Department to report on the implementation of  
16 the various measures."

17 And paragraph 5 is the response from the Transport  
18 Department by Mr Henry Hui. He made five updates of  
19 work progress. First, he stated that: The speed limits  
20 of the Tai Po Road between Chek Nai Ping and Yung Yi  
21 Road had been lowered from 70 to 50 kilometres per hour  
22 from 27 April this year.

23 Second, that they have added the traffic sign and  
24 road sign with yellow fluorescent on the background on  
25 the signs to enforce reminder to drivers. Third,  
26

1 widening of the bus bay that was damaged in the accident  
2 with protective barriers. The works were expected to be  
3 completed in this month, in July 2018.

4 The fourth is optimise the bus stop near the Tai Po  
5 Mei. The work is supposed to be completed in August  
6 2018.

7 Fifth is to improve the traffic sign and road  
8 markings near Hung Lam Drive, Dragon Fountain and Yin  
9 Tse Lane. The relevant works expected to be completed  
10 by the end of this year.

11 Can you confirm the suggestions or the work progress  
12 reported by the Transport Department?

13 MS WONG PIK KUI: Counsel, Mr Chan can respond.

14 MR CHAN SIU KUEN: (No interpreted answer).

15 MS MAGGIE WONG: If we go to paragraph 14. Mr Henry Hui  
16 also reported that the Transport Department endeavoured  
17 to complete installation of speed enforcement cameras by  
18 the end of this year. As to operation matters, it would  
19 be the responsibility of the police.

20 So the Transport Department has reported on the work  
21 progress thus far. Is that correct? Or is this an  
22 ongoing process?

23 MR CHAN SIU KUEN: It is not ongoing, it is a single  
24 project. They had installed the camera and they were  
25 restoring the bus stop to its previous condition. That  
26

1           was the end of the project.

2           MS MAGGIE WONG: If we could go further to see Henry Hui's  
3           observations after the reduction of the speed limit. At  
4           paragraph --

5           CHAIRMAN: Before you move on. Was the committee given any  
6           explanation as to why it would take until the end of the  
7           year to install a single speed camera, one camera?

8           MR CHAN SIU KUEN: There was an explanation given. They  
9           said that it took time to order the camera, they  
10          couldn't order just one camera, they had to order  
11          a whole batch, and second, it had to go through EMSD,  
12          Highways, Transport, Police, they had to go to visit the  
13          site. They had to dig up the road site, they had to get  
14          permits, they could not do it for one project, so that's  
15          why they had to take until the end of the year. I asked  
16          why they couldn't speed it up, and they said that they  
17          received the permit, after questioning by district  
18          councillors they promised by the end of this year that  
19          they would install a speed camera for us.

20          CHAIRMAN: They had various procedures to go through in  
21          order to lower the speed limit, did they not? But they  
22          had managed to achieve that by 27 April.

23          DR LAU CHEE SING: Because the speed reduction is simple,  
24          and it does not involve a lot of government departments,  
25          so I think regarding the speed reduction it was just the  
26

1 Transport Department, they could make the arrangements  
2 themselves. And Highways Department -- they are also an  
3 executive, or a branch of the government. It is easier  
4 to coordinate the work.

5 MR CHAN SIU KUEN: So when you order the speed camera you  
6 cannot order one unit. I recall from memory that they  
7 had to order a whole batch, and there are still a lot of  
8 areas in Hong Kong where they need to install these  
9 camera heads and they were ordering a batch then, they  
10 couldn't just order one single camera ahead, and there  
11 were a lot of procedures, government department  
12 procedures. They had to consult the different  
13 government departments, they had to contact EMSD,  
14 Electrical and Mechanical Services Department to get the  
15 power supply for the camera. That was the response  
16 I had at the site.

17 CHAIRMAN: Are we to understand that although there are  
18 4,200 kilometres of roads in Hong Kong, the Transport  
19 Department has no inventory of speed cameras?

20 Perhaps you can't answer that.

21 MS WONG PIK KUI: Let me add. The incident occurred on  
22 10 February, and after that, in our special meeting on  
23 12 February, and then in March, we had our regular  
24 session at the district council meeting, and then the  
25 third meeting was the Traffic and Transport Committee  
26

1 meeting, and the subsequent discussion on 12 April, and  
2 then in May, July, we focused on urging for the  
3 installation of a speed camera vociferously and up until  
4 now we still have not accomplished this request.

5 So perhaps our councillors could also add.

6 MR YAM KAI BONG: I agree with the honourable judge. We do  
7 have a question why there isn't inventory. It is such  
8 a large traffic department. How come they don't have  
9 back-up, or even parts, because the government said they  
10 were going to respond to the issue very promptly, and  
11 the honourable judge said just now, or Mr Chan Siu Kuen  
12 said that the changing of the speed limit, that could be  
13 done very quickly in terms of works, but the Transport  
14 Department said that they had to purchase the  
15 components, and use that as a reason, and the district  
16 council found that unreasonable.

17 CHAIRMAN: Thank you.

18 MS MAGGIE WONG: Thank you.

19 Madam Wong, I would like to take you to paragraph 19  
20 in this minute. At page 840-29, and that's  
21 paragraph 19. I would like to ask a few observations  
22 you made in this paragraph.

23 The first paragraph, you make reference to the  
24 lowering of the speed limit. After it came into effect,  
25 you received feedback from school coach drivers, bus  
26

1 drivers, and traffic accident victims, et cetera.

2 May I know what feedback you have received?

3 MS WONG PIK KUI: Well, the incident had been discussed  
4 thoroughly in the district council and we were focused  
5 on reducing the speed from 70 to 50 kilometres per hour  
6 and I received feedback from school bus drivers  
7 regarding this road section. And they say that this is  
8 an incline, and if you want to travel uphill and then  
9 you want them to brake and brake to 50 kilometres, they  
10 say it is very hard to control or maintain the speed of  
11 the bus. But they understand that the incident needs to  
12 lead to some improvements, but they are worried that if  
13 they have to reduce the speed, their school bus, they  
14 have more than 40 passengers, so such a large vehicle,  
15 it is very hard to keep it under 50 kilometres speed.  
16 So I heard different drivers' input, and I reflected  
17 that in the district council.

18 MS MAGGIE WONG: At (iii), you mentioned that some bus  
19 drivers reflected that double-decker buses are not  
20 suitable to operate on Tai Po Highway since the speed  
21 limit will easily exceed 50 kilometres per hour, even  
22 the bus is accelerated when not at a full capacity.

23 Can you elaborate on this. Are you suggesting that  
24 double-decker buses are not suitable for this road  
25 section? Or are you making other suggestions here?

26

1 MS WONG PIK KUI: Well, I have visited the injured, after  
2 they were discharged from hospital -- one of the victims  
3 was a bus driver, there were also lorry driver victims,  
4 so they had -- they were victims, and they told me that  
5 double-decker buses on this road is very dangerous  
6 because a double-decker bus is so large. When they  
7 accelerate uphill they have to step on the gas, and such  
8 a large double-decker bus compared to a single-decker  
9 bus, they told me that they don't want to see  
10 double-decker buses running on this section. They say  
11 it is very dangerous, and they were asking for  
12 single-decker buses. So that's the opinion that  
13 I brought back to the council.

14 MS MAGGIE WONG: Before we move on, can we look at the map  
15 with some of the photographs to identify the location as  
16 to how -- what it looks like now with the improvement  
17 works? That would be photo 14 to 19. That's the first  
18 reduced -- that's the first "ahead" traffic sign.

19 And then that's the reduction of limit 50 kilometres  
20 per hour and the road markings.

21 And I believe just now what we saw is the -- what  
22 you said is when the bus is driving uphill and then  
23 slightly downhill, that's the part you referred to  
24 earlier on. Is that correct? The 50 speed limit.

25 MS WONG PIK KUI: Yes.

26

1 MS MAGGIE WONG: And then we see the first warning sign,  
2 "Reduce speed now", "100 metres". And then the next is  
3 the second sign, and then we see a lot of -- nine of  
4 them, nine signs with amber background asking drivers to  
5 be alert to slow down.

6 CHAIRMAN: I think they are described as "chevrons", are  
7 they not? Nine chevrons.

8 MS MAGGIE WONG: If we go to the next photo we can see the  
9 reconstruction of the bus stop and the expansion of the  
10 pedestrian area.

11 We also see there are three new lamp posts installed  
12 in that bus stop. This is something I wish to ask.  
13 What is the lighting condition before the Tai Po  
14 accident, for this area? Do you know?

15 CHAIRMAN: You mean by that the street lighting? Or the  
16 road lighting?

17 MS MAGGIE WONG: Yes, for this particular bus stop. Because  
18 we can see there are three new lamp posts installed.

19 MR CHAN SIU KUEN: Basically, the lighting is sufficient,  
20 there is a requirement of a street lighting every  
21 60 feet, and there was a tree that had shaded the bus  
22 stop, but now with three extra lamp posts there is  
23 sufficient lighting, but we are most concerned about the  
24 bend. There is a slight incline on the bend, and that  
25 is where it is most dangerous, but now with three extra  
26

1           lamps or street lighting it is sufficient.

2           MS MAGGIE WONG: Did your council have any comments on any  
3           of these improvement measures, whether they are  
4           sufficient to address the concerns that you have  
5           expressed previously in the previous meetings? Would  
6           they be sufficient to address your concerns?

7           MR CHAN SIU KUEN: Well, basically, I personally had  
8           discussed with the relevant government departments  
9           including TD, so the bus stop is now moved forward, it  
10          is widened, they have removed, they felled the old tree,  
11          they widened that piece of road. And I also asked for  
12          a traffic signal, but they were not able to do that.  
13          They created some pedestrian crossing, and so the  
14          village entrance has been widened a little bit. They  
15          cannot do that right now.

16          So is it 100 per cent meeting the villagers'  
17          requirements, no? The village head also asked whether  
18          the bus stop could be moved further ahead, make it more  
19          visible. So TD, after looking at the actual site they  
20          said they can't do it. They said there is a very steep  
21          incline. After the improvement they have to consider  
22          the actual usage and conditions before they make further  
23          decisions.

24          MR CHAN CHO LEUNG: Honourable judge, I want to say that  
25          they cannot meet our requirements. Even when we provide

26

1 input regarding safety, I feel this kind of signage, the  
2 arrows, the chevrons, are only visual information, but  
3 a lot of our colleagues have provided input that when  
4 you are going downhill the most effective input is not  
5 visual input, you would need a small speed bump, or  
6 yellow stripes, when you go downhill. You can feel  
7 there is a palpable sensation, and it helps you meet the  
8 safety needs.

9 MS MAGGIE WONG: Did you relate the request that you made  
10 about putting speed bump or yellow stripes to allow  
11 people to feel, or there is a palpable sensation so that  
12 people feel they have to slow down. Did you relate this  
13 request to the Transport Department?

14 MR CHAN CHO LEUNG: We did. All councillors had expressed  
15 this, but the response was the Hong Kong TD have some  
16 constraints. The constraint is installing the yellow  
17 stripes, they can only do that at say the interchange  
18 going downhill, for example in Sai Kung where they have  
19 an incline, they have installed it there. But it is not  
20 in front of the interchange, if it doesn't go down  
21 towards the interchange they cannot do it.

22 MS WONG PIK KUI: I had visited this site, and in another  
23 picture where we have these nine chevrons, this is the  
24 highest point. The bus drivers say if you are driving  
25 a double-decker full of passengers they need to step on  
26

1 the gas to -- and then they start going downhill. There  
2 is a sharp bend, and we also feel it is dangerous, so on  
3 this road surface, as Mr Chan Cho Leung said, can we  
4 have some yellow stripes, we had mentioned that on the  
5 site, but TD said it is not easy to implement, and the  
6 reason was given by Mr Chan Cho Leung.

7 We also said that the rest area, could it be  
8 relocated, and they said it couldn't, because that  
9 little resting area, that is the entrance to the Tai Po  
10 village, they need to cross the road to access the bus  
11 stop, but the bus stop is at the steepest point in this  
12 indented area, and the buses turning into that bend from  
13 the high point you have to decelerate, and then you have  
14 to turn into that indentation, so you need to consider  
15 the bus driver's skills, can they accomplish this  
16 manoeuvre. So that is something we do not wish to see  
17 repeated.

18 MS MAGGIE WONG: Thank you.

19 I'm going to refer to the last document. It is the  
20 25 May 2018 minutes. In Chinese it is at page 826,  
21 English at page 827, where you enclosed the 25th minutes  
22 at page 828 in Chinese, and then English starts at 834.

23 In this minute you made a number of suggestions or  
24 expressed certain opinion. I would like to explore that  
25 with you. First, it is paragraph 4 of this minute.

1 Reference was made to the working hours, the  
2 Transport Department's current guidelines which state:

3 "The maximum duty hours of bus captains shall not  
4 exceed 14 hours."

5 And then it is stated there:

6 "It was thought that the maximum duty hours as  
7 stipulated in the guidelines is too long and caused  
8 safety concerns to passengers. It was hoped that the  
9 committee could review the issue of the overly long  
10 working hours of bus captains."

11 It also states at 835 in English and 830 in Chinese  
12 that:

13 "Irrespective of how duty is arranged it was thought  
14 that it was in fact too long for bus captains to work  
15 14 hours on a daily basis."

16 My question is, can you explain why you consider  
17 14 hours too long?

18 MS WONG PIK KUI: In a day, there are 24 hours, and how we  
19 distribute the 24 hours, well, they should be divided  
20 into three parts, 8 hours for work, 8 hours for rest,  
21 and 8 hours for us to, you know, take care of family, or  
22 do studying and so on. That's reasonable.

23 But then for 24 hours in a day now, the KMB has  
24 divided that into just two parts. In fact it is more  
25 than half of a day, it's 14 hours, they ask staff to go  
26

1 to work, and here we are talking about drivers. We are  
2 not talking about someone just sitting there, and you  
3 can just close your eyes if you want, or when you are  
4 tired you can just stretch or something. No, they can't  
5 do that.

6 So we are talking about 14 hours, in such an  
7 important position. He is responsible for the lives of  
8 over 130 passengers on a bus, and this is totally  
9 inappropriate.

10 I can invite my colleagues also to give their views  
11 on this.

12 MR YAM KAI BONG: Thank you, Ms Wong.

13 On working hours we would like to say this.  
14 Especially in the New Territories, I hope you will  
15 appreciate this, for New Territories residents early in  
16 the morning they will go from New Territories to Kowloon  
17 or Hong Kong Island and then in the evening they go from  
18 Hong Kong Island or Kowloon to go back to the New  
19 Territories or Tai Po. Now this is the way of  
20 commuting. So, say, we are talking about 10 loaded  
21 buses going to Kowloon, then there won't one or two  
22 loaded buses going back to Tai Po.

23 In fact, bus operators said in their evidence that  
24 there are especially during peak hours, that is why  
25 there is this special shift. Maybe in the morning they  
26

1 work four or five hours, then in the evenings they work  
2 another three or four hours, in between. So 14 hours is  
3 not 14 hours straight in a row driving. But they are on  
4 duty, or the so-called rest break.

5 Do they really get to rest during that break?

6 Sometimes bus drivers will tell us maybe they live in  
7 Tuen Mun or Yuen Long but they are assigned to Tai Po to  
8 work, let's say they finish at 10 am, that is the peak  
9 morning shift, they may have three or four hours to take  
10 a rest, but can they really get home to take a nap, for  
11 instance? If they go from Tai Po to go home to take  
12 a nap they may spend two hours or so commuting, and then  
13 they have to come back to Tai Po, pick up the bus and  
14 then take the second shift of driving duties.

15 And then in between they have a few hours of free  
16 time, but can they really take a rest then? That's the  
17 question.

18 Now we learned this from bus drivers for the break  
19 in between there is not a proper environment for them to  
20 take a rest.

21 Ms Wong led us to the mainland some time ago on  
22 a study visit, we went to Hangzhou and visited a bus  
23 company. The bus company actually had a proper rest  
24 facilities, similar to dormitory for drivers to rest.

25 All around the world people usually work from 9 to  
26

1           5, so that's why there are peak hours for travelling.  
2           But in between, probably few people take the bus, so  
3           there are such a special arrangement, but then in  
4           between, do staff really get to go home to take a rest?  
5           Probably not.

6           But then shouldn't the bus company have the duty to  
7           provide a good environment for drivers to take a rest?  
8           Maybe they start working at 5 am and then they have to  
9           work again until 8 to 9 pm in between do they get to  
10          take a rest.

11          So shouldn't the bus company have the responsibility  
12          to provide proper environment for their drivers to take  
13          a rest during their breaks?

14          Now I hope members of the committee will appreciate  
15          this, especially for empty bus routes, this is even more  
16          important.

17          Because after 9 am or 10 am, for passengers going to  
18          Hong Kong Island or Kowloon there are far fewer in  
19          number, and then probably the peak hours start again at  
20          4 or 5 pm when people start to come home from work.

21          So let's say we just remove the special shift  
22          altogether, it will actually affect bus services in the  
23          New Territories, unless the bus company is to hire  
24          double the number of drivers so there would be drivers  
25          from the morning shift, another batch of drivers for the  
26

1 evening shift, but if the bus companies cannot do that  
2 and they just reduce the special shifts, then for  
3 residents of the New Territories, or many of the bus  
4 routes in the New Territories will be affected, so  
5 please appreciate that.

6 You have to understand the way NT residents commute  
7 and how bus services are provided as a result.

8 MS MAGGIE WONG: Thank you.

9 I would like to ask four proposals set out in your  
10 minutes --

11 CHAIRMAN: Before you move on, on this issue of the  
12 Guideline of Bus Captain Working Hours, Rest Times, and  
13 Meal Breaks, in September of 2017, the Transport  
14 Department announced that it was reviewing the then  
15 guidelines, which was the 2010 version. Were you asked  
16 to give your views as a district council about the  
17 proposed changes to guidelines?

18 MR YAM KAI BONG: (In English) No.

19 MS WONG PIK KUI: No. We were not consulted.

20 CHAIRMAN: Thank you.

21 MS MAGGIE WONG: I would like to ask four proposals set out  
22 in your minutes. The first one is at page 836, second  
23 bullet from the bottom, in English, and then page 830 in  
24 Chinese, also the second bullet from the bottom.

25 You quoted Singapore as an example where the local  
26

1 government is responsible for hardware assets such as  
2 bus depot, vehicles, operation system, and operators are  
3 responsible for operation. So the operators are simply  
4 responsible for the operation, and that could have  
5 additional bonus.

6 So first, why do you think the Singapore model, or  
7 do you advance the Singapore model as suitable for Hong  
8 Kong?

9 MS WONG PIK KUI: Can I invite Mr Yam Kai Bong to respond,  
10 please.

11 MR YAM KAI BONG: Thank you, Ms Wong.

12 Yes, I raised this suggestion. We have looked at  
13 studies done in the market on how bus services should be  
14 run, should buses be totally privately run as is done  
15 here now? Or should bus services be owned by the  
16 government, and they could hire staff as civil servants  
17 or it could be a public-private partnership, the  
18 Singapore model, the London model. That is, the  
19 government buys the bus depot, the vehicles, and so on,  
20 and then the routes are contracted out to contractors.  
21 Why did I suggest that? For franchised bus services, we  
22 count there are all together five operators.

23 So they each have their own turf, if I could put it  
24 that way. KMB, Kowloon; New World Bus, New Territories,  
25 Hong Kong Island, blah, blah, blah.

26

1           So they will just focus on profit-making routes.  
2           For loss-making routes, because they are franchise  
3           operators, they may overlook the service to the public  
4           on these routes. Perhaps Mr Chan Siu Kuen could say  
5           a bit more later.

6           Now, if the companies could be split up further,  
7           that is we have more companies, that means there would  
8           be more competition, then would there be a possibility  
9           of improvement? For the Singapore model, the services  
10          are contracted out to a few operators, so for the bus  
11          routes, the fare level, or staff, wages, it is for the  
12          government to decide. So their consideration is not  
13          just about profit then. They will consider whether the  
14          wage level is reasonable, for instance, and so on.

15          And then you can look at another place, Taipei. In  
16          Taipei there are many different companies operating  
17          different bus routes. Even for routes that are similar,  
18          there could be different operators and that leads to  
19          competition. With competition, it leads to two things.

20          One, because they have to, you know, fight for  
21          staff, so there may be an increase in wage, and if the  
22          routes are similar, that could also bring about  
23          competition, maybe they will offer concessions, so  
24          passengers will benefit from that.

25          Why we are proposing that the government should buy  
26

1 up the whole bus system and then contract out the routes  
2 to different operators? Because then we could  
3 consolidate certain routes, let's say for some  
4 profit-making routes they could be packaged together  
5 with some of the less profitable routes to meet the  
6 needs of smaller groups of residents, because the needs  
7 of these residents are now overlooked, and they cannot  
8 provide more bus services in such cases.

9 But if a route is profitable the bus company will  
10 just focus on that.

11 That's why we believe the Singapore model is more  
12 flexible. If it is a totally privately run bus service,  
13 of course, first of all, companies will put profits  
14 first. They will exploit -- maybe I shouldn't say  
15 "exploit", they will see where they could save costs,  
16 they can't save fuel costs, you know, as for costs of  
17 vehicles, there's probably a world standard, so there is  
18 not much room for reduction. So they could save only  
19 staff costs, or at least they won't increase wages, and  
20 that's why some staff or unions say that the pay and  
21 conditions of service of bus drivers have always been  
22 kept on the low side.

23 Why is it that, it will change, that's why we say if  
24 we change the models, maybe we can bring about changes  
25 in the services provided.

1 MR CHAN CHO LEUNG: Let me provide two facts by way of  
2 supplement. Of course there are merits for the model  
3 proposed. One fact is there are buses without  
4 patronage, so these are the loss-making routes. Of  
5 course, bus companies are not keen on them. Let's say  
6 there are popular routes like the Lam Tsuen route, there  
7 is just one bus route so it is heavy patronage. But the  
8 bus company will still just make use of existing  
9 resources for that route to redeploy bus services to  
10 meet our needs.

11 These are the two facts I would like to share with  
12 you.

13 MS MAGGIE WONG: Thank you.

14 The second suggestion you made is using the real  
15 time technology, or real time information, and you asked  
16 that information be released as similar application.

17 CHAIRMAN: Where do we find this suggestion?

18 MS MAGGIE WONG: If we look at page 838 in English, and 831  
19 in Chinese at the bottom. And 838 is the second bullet.

20 It states that:

21 "Some members indicated that because Hong Kong buses  
22 has high loss trip rate, if the bus companies are to  
23 provide this information, the passengers will discover  
24 the loss trip problem more easily and this is the reason  
25 why this realtime information has not been fully  
26

1 released. He is of the opinion that the passengers'  
2 oversight will be of certain use to improve the  
3 operation of buses. It is hoped that the committee will  
4 consider to [require] bus companies to release similar  
5 application, to use technology to monitor bus service."

6 Can you elaborate on this about how the passenger  
7 could use this technology to monitor the loss trip rate,  
8 if I understand it correctly.

9 MR YAM KAI BONG: Well, let me explain that. Because it is  
10 from me. I found this information on line or it is also  
11 from my own experience. And that's why I expressed this  
12 view at the meeting.

13 I mentioned the Taipei Citybus information system.  
14 That's a mobile app, and on that app you can see on the  
15 map where the bus is, say, the bus is at a certain  
16 junction, or it has arrived at a certain bus stop. For  
17 the KMB's mobile app it can only show that the bus will  
18 arrive in three minutes or five minutes.

19 But we cannot see how long the distance is, where  
20 the bus is.

21 Now, why do we want to know that? If they say it is  
22 just three minutes but maybe there is traffic  
23 congestion, so it doesn't mean that the bus will  
24 actually arrive at three minutes.

25 The mobile app only tells us it is three minutes  
26

1 journey time but maybe for the three-minute journey, if  
2 it is totally congested then maybe the bus will not  
3 arrive in 15 minutes. But if it is like the Taipei bus  
4 information system the public can see that the bus is  
5 trapped in traffic congestion two blocks away. It is  
6 like when you read the Google map you have realtime  
7 information on traffic condition whether the road is  
8 congested or not, we see there is true traffic and the  
9 bus still does not arrive in three minutes then we can  
10 ask what the problem is.

11 Or if we want to monitor bus service many we should  
12 say the next bus should have arrived, why is it that it  
13 is still not here after so long? Is it because of  
14 a road condition, like traffic congestion, or traffic  
15 accident, or is it a case of loss trip?

16 For the KMB mobile app we can't see such information  
17 and there is limited information provided. If we could  
18 follow the example of other countries or places with  
19 realtime display of information, then we can see this  
20 clearly for ourselves, we see there is a bus two blocks  
21 away, it will arrive in about three minutes and traffic  
22 condition is fine, but maybe there is another bus at  
23 a junction five minutes away but it is actually, you  
24 know, trapped in traffic congestion, for instance, and  
25 then the passenger may decide not to wait for the bus,  
26

1           instead I'll take the MTR so I get a choice. But now we  
2           don't see that information.

3       MR CHAN CHO LEUNG: I could give you an example of loss  
4           trips. Again, I will use Lam Tsuen as an example. For  
5           the past 20 years the problem of lost trips could never  
6           be addressed. You know why? From Yuen Long, going  
7           through Kam Shan Road to Tai Po, there are so many bus  
8           stops along Kam Shan Road, by the time the buses come to  
9           Lam Tsuen there are just two or three services left and  
10          this problem can never be addressed.

11           The problem now is for the KMB mobile app, it may  
12           show it is arriving in 10 or 15 minutes but that is  
13           totally inaccurate. So far many have complained about  
14           the mobile app to say that the ETA is totally  
15           inaccurate.

16           Counsel just mentioned the paragraph, Mr Yu Chi Wing  
17           just said, the Transport Department is biased towards  
18           the KMB. Now they cannot address this problem for so  
19           many years, so TD is just defending KMB or speaking up  
20           for KMB. That's how we see it.

21       MS MAGGIE WONG: The third proposal you made is at page 839.  
22           At the fourth bullet, and in Chinese at page 833, the  
23           second bullet. You proposed a penalty mechanism for bus  
24           companies similar to the MTR mechanism. In other words,  
25           a fine will be imposed when an accident occurred. And  
26

1 I would like to explore this.

2 Why do you think it would be suitable in the  
3 franchise operations environment in Hong Kong?

4 MS WONG PIK KUI: It was proposed by a number of members.

5 Perhaps I will defer to Mr Yam Kai Bong. Thank you.

6 MR YAM KAI BONG: A number of members were of the view that  
7 when it comes to the renewal of franchise and a penalty  
8 system, there can be a mechanism put in place. We see  
9 that for the MTRCL where there are service delays as  
10 a result of incidents, they will be fined.

11 However, when it comes to bus companies, providing  
12 substandard service or where there are lost trips, it  
13 seems that there are no penalties.

14 We can't see why the government would continue to  
15 renew the franchise, say for example, for the KMB about  
16 three years ago or so when the franchise was renewed, it  
17 wasn't discussed at the district council.

18 For a franchised bus service using KMB as an  
19 example, the service coverage is Kowloon and New  
20 Territories. Members of the public and district  
21 councillors should be given an opportunity to speak, but  
22 I can say with certainty that district council has not  
23 been consulted when it comes to whether to renew the  
24 franchise of KMB.

25 In this case, KMB doesn't have to pay attention to  
26

1 views of district councillors. We have, as some others  
2 members said, we have made suggestions by saying that  
3 there should be increase of service, of routes, bus  
4 companies did not respond to us actively, because we are  
5 not effectively their boss, we don't have the say when  
6 it comes to franchise renewal. The Transport  
7 Department, or the government, do they effectively  
8 monitor whether there are lost trips, and what is the  
9 service level of bus companies? We think that the  
10 Transport Department has not done their job.

11 For 64K from Yuen Long to Tai Po via Lam Tsuen there  
12 have been a number of problems. They remain unresolved.  
13 Bus services from Tai Po to Hong Kong Island, it seems  
14 that bus service cannot be increased. We think that it  
15 is because there is no monitoring mechanism. We do  
16 think that by introducing a penalty mechanism we will be  
17 able to, hopefully, reduce lost trips and the occurrence  
18 of incidents.

19 We can't stop bus companies from renewing their  
20 franchise or focusing on making a profit. With the  
21 penalty mechanism we can urge bus companies to do  
22 better.

23 It seems that we don't have any measures to monitor  
24 bus companies. With a penalty mechanism, members would  
25 be able to find a way to penalise bus companies should  
26

1           their bus service fall below standard.

2           MS WONG PIK KUI: I would like to say something as the  
3           chairperson. Franchise of bus companies in Hong Kong,  
4           once they have the franchise, the government tasks the  
5           Transport Department to monitor their service and to  
6           work with them in the formulation of bus routes.

7           We think that the Transport Department has not  
8           devoted enough manpower to do this. In Tai Po we have  
9           over 100 routes. We have the Transport Department with  
10          us in meetings, only one representative overseeing the  
11          entire Tai Po area. We have over 100 bus routes, many  
12          buses and many drivers, and even more passengers.

13          We don't speak too often about this in district  
14          council meetings, but it is an important livelihood  
15          issue, because when you go to do your shopping, to go to  
16          hospital, to go to work, you always have to take a bus.

17          Airport bus service is very important to us as well.  
18          We have A47X from Tai Po. I use this as an example.  
19          There are lost trips. However the Transport Department,  
20          especially the higher echelons of the department don't  
21          even know that the bus driver has fallen ill so the bus  
22          remains at the terminus. If there is no one there to  
23          drive the bus, passengers will have to wait for three  
24          more buses to go to the airport.

25          I'm talking about between 6 and 7 am.

1           We couldn't find anyone when we make a phone call to  
2           try to get the problem solved.

3           And that's when people had to go to the airport.

4           We visited Hangzhou, we really appreciated the  
5           supervision of Hangzhou, because there is one single  
6           centre with many computers. You only have to key in  
7           a bus route number when information such as number of  
8           passengers waiting for a bus and all the different  
9           situations will be displayed by these computers. When  
10          it comes to Hong Kong, there is nothing like that. We  
11          have not progressed at all. Thank you.

12       MS MAGGIE WONG: Can I move on to the fourth proposal,  
13          because it is also on the same page, 839, the second  
14          bullet from the bottom, that the district council as  
15          a stakeholder of bus route planning and services has  
16          a close relationship with bus companies. And it is  
17          proposed that a marking scheme be added during the  
18          process of renewal with bus companies to allow district  
19          council to rate and to provide comments on the  
20          performance of bus companies.

21          I believe that's the fourth proposal that your  
22          counsel made.

23       MS WONG PIK KUI: I would defer to Mr Yam Kai Bong.

24       MR YAM KAI BONG: Thank you.

25          As I said previously, regarding franchise renewal,  
26

1           it seems that the district council doesn't really have  
2           the power to make decisions. We hope that we can  
3           increase the say of district council as a stakeholder.  
4           Regarding franchise renewal, they would just come to the  
5           district council for a brief consultation, but if  
6           district council can make comments on, say, poor service  
7           of the bus company and the say of the district council  
8           would affect the government's decision when it comes to  
9           franchise, it would be good.

10           As mentioned in the review committee regarding the  
11           Tai Po accident, district councillors have made a lot of  
12           comments.

13           District council is both passive and active. When  
14           it comes to bus service we have a working group in the  
15           Tai Po District Council. We have made a lot of  
16           suggestions. But how much have the bus company and the  
17           Transport Department responded to them? If there is  
18           a scoring system, if we can make comments, and these  
19           comments would influence the government's decision on  
20           franchise renewal, then I think the bus company would  
21           listen and respond to views expressed by district  
22           councillors.

23           I would like to draw the attention of the  
24           Independent Review Committee that district councillors'  
25           views are not groundless. We have collected views from  
26

1 the public. We are returned by voters, we speak for  
2 them in council meetings. But if our views are not  
3 addressed properly by departments and companies, then  
4 there is nothing we can do.

5 We think that if district council can be involved in  
6 the scoring system in franchise renewal, then bus  
7 companies would definitely listen to our views.

8 We think that our views can be incorporated in your  
9 review of bus service. Thank you.

10 MS MAGGIE WONG: Thank you.

11 Thank you ladies and gentlemen, I have completed my  
12 questioning.

13 CHAIRMAN: Thank you.

14 MEMBER AUYEUNG: Thank you, Chairman. I want to follow up  
15 a comment, Ms Wong, you made earlier, about you have  
16 heard comments that Tai Po Road may not be suitable for  
17 double-decker buses. Would you agree to that statement?

18 MS WONG PIK KUI: Well, the views I have received came from  
19 one of the injured persons. It was a bus driver.  
20 I spoke to that person. They said that there was Tai Po  
21 Road before Tolo Highway. The route number is called  
22 872 because there was a bus route called 72. Later,  
23 there was the racecourse, this route will be used to  
24 take residents from Tai Po to the racecourse, and the  
25 bus route was therefore called 872. Later, the KMB  
26

1 started to turn single-decker buses to double-decker  
2 buses.

3 The buses that KMB procured would be used for route  
4 872. I said that we only asked for residents to be  
5 taken to the racecourse, and there is the Tolo Highway.  
6 If it is a point-to-point service then it is simple.  
7 You can use the other way. So that was the 872X. Do we  
8 still need to use double-decker buses for route 872?  
9 Are there so many passengers, over 100 of them? If that  
10 is the case, you can increase the service by using three  
11 single-decker buses.

12 CHAIRMAN: That's on the assumption that you have enough bus  
13 drivers to drive the buses.

14 Do you have any questions?

15 MEMBER LO: I just have one clarification question, Ms Wong.

16 You mentioned about when the speed limit was reduced  
17 from 70 to 50 certain drivers of coaches expressed some  
18 concern. Is their concern that lowering the speed limit  
19 does not deliver, or what is their concern?

20 MS MAGGIE WONG: They said to me that at the highest point,  
21 well, they have to use 70 kilometres per hour because  
22 when the bus is fully loaded they couldn't effectively  
23 control the bus at 50k per hour. However, I think that  
24 for this section of the road, safety is paramount. So  
25 we asked for the speed limit to be reduced to 50.

26

1 That's the view they expressed to us in this regard.

2 CHAIRMAN: Well, it remains for the committee to thank you,  
3 Ms Wong, and gentlemen, for assisting us with your  
4 evidence. The committee is interested in receiving the  
5 views of the district councils, which is why we have  
6 invited you and two other district councils. We are  
7 charged to make recommendations in relation to safety of  
8 buses, to enhance bus safety, not wider issues.

9 But it is in that context that we have been most  
10 interested to receive your evidence, Mr Chan, about the  
11 concerns that you have expressed specifically about this  
12 very stretch of road in terms of the speed limit and the  
13 need for cameras. And we thank you for your evidence on  
14 that subject.

15 We are now going to adjourn the proceedings for  
16 20 minutes.

17 Dr Lau.

18 DR LAU CHEE SING: (In English) Will we be given a chance to  
19 express some other issues regarding the bus service?

20 CHAIRMAN: If they relate to safety, please do.

21 DR LAU CHEE SING: (In English) Should be related to safety.

22 CHAIRMAN: Yes.

23 DR LAU CHEE SING: (In English) After the adjournment?

24 CHAIRMAN: Well, we have already been under way for

25 2.5 hours. But how long do you expect to take? Because  
26

1           we have given you an opportunity to give us written  
2           submissions.

3       DR LAU CHEE SING:   (In English) In that case let me express  
4           some views which I received regarding the bus drivers'  
5           view.

6       CHAIRMAN:   Yes, please do.

7       DR LAU CHEE SING:   (In English) I will express it in  
8           Chinese.

9       CHAIRMAN:   Yes, of course.

10      DR LAU CHEE SING:   Chairman, it is unfortunate that we have  
11           had the Tai Po Mei accident.   People have the impression  
12           that it was the bus driver who has committed careless  
13           driving.  When it comes to franchise bus service, bus  
14           drivers play a very important role.  As my colleagues  
15           said, there are over 100 passengers on board, so the  
16           professional knowledge as well as the driving attitude  
17           of drivers are very important.

18           There are some friends of mine who are bus drivers,  
19           they expressed my views to me when they knew I was going  
20           to come here.

21           They said that it is about management and staff  
22           deployment of bus companies.  They don't have sufficient  
23           experience.  That may be the reason.

24           They said that when it comes to deployment of bus  
25           captains, if bus captains are deployed to unfamiliar  
26

1 routes, there will be tremendous pressure. They asked  
2 for a chance to familiarise themselves with the route  
3 before they are deployed. That is something about staff  
4 training.

5 If they can be given an opportunity to familiarise  
6 the route before they drive a bus load of passengers, it  
7 would be better.

8 And if they are deployed to drive new buses, they  
9 should be given a chance to familiarise themselves with  
10 the new bus. That's the view they expressed to me.

11 There is a third point. It is about bus schedules.  
12 There is a pre-set time. Bus drivers think that the  
13 time is not enough, and if that is the case, they will  
14 have to speed up to catch up. And as a result, there  
15 may be dangerous situations.

16 These are the three points I would like to say.

17 And I hope the committee can take note of these  
18 issues and you could follow up with bus driver  
19 associations and other related associations, and hear  
20 their views as well, thank you.

21 CHAIRMAN: Yes. One matter on that last point you raise,  
22 Dr Lau, this is a generic complaint that we have heard  
23 about, that journey times are too short. But what we  
24 need is evidence that the times are too short. So if  
25 your bus driver/captains can communicate with us with  
26

1 specific examples that the route from A to B is set at  
2 a one-hour journey time, but in fact can it take more  
3 than that, that's the kind of information the committee  
4 needs.

5 DR LAU CHEE SING: The honourable judge, in my constituency,  
6 75K, since I have been in office, the bus travel time  
7 has been adjusted. The timetable was roughly 35 minutes  
8 from Tai Mei Tuk to Tai Po, and they felt that is too  
9 rushed. So ultimately it was adjusted to 45/50 minutes,  
10 it allowed the bus drivers during the journey they would  
11 not feel that it was an unreasonable demand for bus  
12 drivers. So if you ask KMB for the timetable, that is  
13 a fact. So they had made some adjustments.

14 CHAIRMAN: Yes, it is really the ones that remain a problem  
15 that, if somebody gives us evidence about that, then we  
16 can take that up.

17 DR LAU CHEE SING: Do you mean I need to provide this  
18 evidence?

19 CHAIRMAN: Somebody needs to give us evidence. We have  
20 anecdotal or generic assertions that are made that  
21 journey times are too short, bus drivers therefore speed  
22 up, they are worried about losing rest time, but we need  
23 to have evidence to support that, not just sweeping  
24 statements.

25 DR LAU CHEE SING: Okay.

26

1 CHAIRMAN: Thank you.

2 MR YAM KAI BONG: I would also like to supplement. The  
3 request for evidence, well, if you look at the bus  
4 companies, the average travel time, well, I recall there  
5 was a statistic, but I cannot recall where it originated  
6 from. In the last 10-plus years, the average travel  
7 time has been slower and slower. So the bus speed is  
8 slower, and have the companies deployed sufficient  
9 drivers to maintain the service? Because when vehicle  
10 speed is slowing down that will lead to longer travel  
11 time, and if you maintain the frequency of service, then  
12 you need to add drivers and add to the fleet.

13 So that is in direct proportion, so as councillors  
14 we feel that you need to maintain the service, you  
15 cannot have loss of service, but then the road is more  
16 and more congested, we have more and more vehicles on  
17 this road. So TD, did they communicate with the bus  
18 company, to deploy more staff, deploy more resources?  
19 That is something that needs to be looked into.

20 There are statistics, but I cannot recall or cannot  
21 confirm the source, the average bus speed has been  
22 slower and slower. So district council has asked for  
23 special bus routes, and other measures, so we could look  
24 into that. Thank you.

25 CHAIRMAN: Thank you. Mr Chan.

26

1 MR CHAN CHO LEUNG: (No interpreted channel recorded) --

2 when they look at signs that is insufficient, so as  
3 a motorist we feel if there is a palpable sensation, if  
4 you can feel a speed bump you can slow down. So I hope  
5 for village roads that are going downhill that there can  
6 be some speed bumps.

7 Another suggestion is that in villages downhill  
8 areas where there are bus stops, there should be  
9 barriers. These barriers are very important. For  
10 example, on the last occasion we have a wishing tree,  
11 there is a bus stop, and I asked for a few years to add  
12 a barrier railing, and they had neglected us. But that  
13 is necessary because it is going around a bend and it is  
14 going downhill, so it is very treacherous for  
15 a double-decker bus if it is a full of passengers, and  
16 if they skip the bus stop they are travelling at even  
17 higher speeds. So passengers waiting at the bus stop  
18 feel terrified. So we need some barriers.

19 CHAIRMAN: Thank you.

20 If that concludes the various views that you wish to  
21 give us, and we have made our invitation, Dr Lau, the  
22 committee is open to receiving further information that  
23 addresses the topic that you have raised.

24 But it remains for us to thank you very much for  
25 attending today to assist us, and to encourage those  
26

1           that are waiting to give evidence, that we will hear  
2           their evidence soon, but we are going to take  
3           a 20-minute break now. Thank you.

4           (11.46 am)

5                               (A short break)

6           (12.05 pm)

7           EVIDENCE FROM SHA TIN DISTRICT COUNCIL: MICHAEL YUNG

8           (Given in Cantonese; transcription of the simultaneous  
9                               interpretation)

10          CHAIRMAN: We will now move to receive evidence from Mr Yung  
11          on behalf of the Sha Tin District Council.

12                 Thank you for accepting our invitation on behalf of  
13          the council to attend to give evidence, and I will ask  
14          Ms Wong to begin by asking you questions.

15                             Examination by MS MAGGIE WONG

16          MS MAGGIE WONG: Thank you for coming, Mr Yung.

17                 I have a few areas of questions for you. First of  
18          all, may I take you to your discussion paper dated  
19          8 January 2013. Page 631 in Chinese and 637 in English.

20          CHAIRMAN: Which bundle?

21          MS MAGGIE WONG: DC bundle 2.

22          CHAIRMAN: Thank you.

23          MS MAGGIE WONG: Mr Yung, if you take time to read this  
24          page, this is a question raised by I believe district  
25          councillor Ms Yeung Sin Hung, and she raised questions  
26

1 on behalf of the Sha Tin District Council relating to  
2 the lost trips and working hours of bus captains.

3 She said that she received first complaints from  
4 residents that there was a situation of lost trips of  
5 buses during peak hours; and secondly, she observed that  
6 some bus captains had no rest time between too long  
7 a bus trip.

8 Can you tell us something about this complaints,  
9 Mr Yung?

10 MR MICHAEL YUNG: Let me first of all say this. Ms Yeung  
11 Sin Hung is a former district councillor. Now I would  
12 like refer to the minutes of the meeting, the Chinese  
13 version, because the Chinese version is the one  
14 confirmed by members. As for the English version, it is  
15 just for summary reference.

16 The government counsel would like us to talk about  
17 rest hours, and lost trips, right?

18 Ms Yeung Sin Hung referred to E42, this is Long Win  
19 bus route. My understanding that Long Win operates  
20 franchised bus services to the airport.

21 So Long Win, compared to its parent company KMB, is  
22 much smaller in scale. Therefore, it has fewer bus  
23 captains, and so if bus captains are absent from work  
24 then it is easy to have lost trips.

25 MS MAGGIE WONG: Yes, I am more concerned about the problem  
26

1 about the journey time being too short, and then the  
2 driver have to speed up and to make up the time, for  
3 example there may be traffic jam and then there may be  
4 other problems on the road. And by the time he got to  
5 the station, it is unrealistic the journey time, let's  
6 put it this way. And then he has to make up the time,  
7 and by doing that he has to speed up. I'm concerned  
8 about this issue. Maybe you can enlighten us. During  
9 your time as district councillor have you received  
10 complaints in that regard?

11 MR MICHAEL YUNG: Now, the journey time you mentioned,  
12 perhaps I could put it this way. I understand that  
13 during different times of the day, let's say the morning  
14 peak hours, the morning non-peak hours, the evening peak  
15 hours, and the evening non-peak hours, in theory there  
16 are different bus schedules or there are -- there is a  
17 different journey time rather, on that basis they would  
18 compile a schedule. So it is possible that one driver  
19 may use one or more than one vehicle to go on the same  
20 route. So they could achieve the standard schedules on  
21 the bus schedule.

22 Now there is a system. They call it, you know,  
23 hopping planes, that's the jargon bus drivers use.  
24 Let's say bus captain takes the E42 route primarily, but  
25 then, say, at Ma On Shan there is another route, A41P,

26

1           it goes from Wu Kai Sha to the airport, ETC, that is the  
2           transport centre of the airport. So sometimes they may  
3           need buses from the E42 route to drive on the A41P  
4           route, and if there should be problems with the A41P  
5           route, that means the E42 routes would also suffer at  
6           the same time.

7           There could be two scenarios. One, for this reason,  
8           during the highway section bus drivers may have to make  
9           up for the lost time. But I understand there is a limit  
10          on bus speed. So when it is approaching 70 kilometres  
11          per hour there should be a speed limiter to prevent the  
12          bus from going any faster, but on other sections along  
13          the route, or on road sections where the speed limit is  
14          lower than 70, if the buses go faster we cannot control  
15          that.

16          That's the first scenario.

17          Another case is, say, if they couldn't catch up with  
18          the lost time, then it is possible that for the next bus  
19          service there is a delay, or they need to take special  
20          measures to make up for part of the trips. Let's say  
21          instead of starting from the airport, maybe the bus  
22          service would start midway along the route to make up  
23          from the journey time.

24          So it depends how much time is lost when the bus  
25          arrives at the terminus. My understanding is that the

26

1 bus stop officer on duty would decide on that, or there  
2 is a rostering system from the bus company and then the  
3 bus captain would be told from where to start his  
4 service.

5 MS MAGGIE WONG: And on this page, there is another issue  
6 that touches upon the long working hours of bus  
7 captains, and when the Transport Department in  
8 September 2017 reviewed the guidelines, did they consult  
9 your district council as to those guidelines, as to the  
10 proposed revision of those guidelines?

11 MR MICHAEL YUNG: From my recollection, I am the deputy  
12 chairman of the transport and traffic committee of the  
13 Sha Tin District Council. Of course I have no power to  
14 decide on the agenda of our meetings, but from what  
15 I recollect, since 2016, that is for this term of the  
16 district council, of all the TCC meetings we have had,  
17 I don't recall having discussed the Guideline of Bus  
18 Captain Working Hours, so our views have not been  
19 sought.

20 MS MAGGIE WONG: And what was your district council's  
21 opinion on these guidelines?

22 MR MICHAEL YUNG: Since we have not had a discussion, as in  
23 a formal discussion, there is no formal records. If you  
24 ask me personally, I believe the working hours of bus  
25 captains are on the long side.

26

1           Let's say for security guard, the longest working  
2           hours are 12 hours, and as some colleagues from the Tai  
3           Po District Council said just now, we only have 24 hours  
4           in a day. If the working hours are longer than  
5           12 hours, that means the rest time and time for other  
6           activities would be reduced. Let's not forget, for  
7           colleagues of bus companies, they have to start early in  
8           the morning, and finish late at night, and there may not  
9           be a convenient mode of transport for them to go between  
10          their place of work and their home. So if you take out  
11          the travels hours as well, do they really have eight  
12          hours of rest a day? That remains a question mark.

13                 So if you ask me personally, I believe a maximum of  
14                 14 working hours for someone who has to look after road  
15                 safety as well as being responsible for the safety of  
16                 passengers on board, then the hours are far too long.

17       MS MAGGIE WONG: The reason I'm asking is because if you  
18                 look at your district council's minutes, TT paper  
19                 23/2017, Chinese at page 709 to 710, English at bundle  
20                 DC-2, page 714 to 715. It is a question from Mr Chiu  
21                 Man Leong, in relation to the bus accident.

22                 And the comments from Mr Chiu was that the  
23                 guidelines in terms of the working hours are too long,  
24                 and the drivers do not have enough time for rest. He  
25                 expected the Transport Department, and bus company to  
26

1           make a review so as to reduce the maximum working hours  
2           of drivers to 10 hours.

3           So --

4   CHAIRMAN:   What is the date of this meeting?

5   MS MAGGIE WONG:   Chairman, I believe this date of the  
6           meeting is.

7   MR MICHAEL YUNG:   (In English) March 8th, 2017.

8   CHAIRMAN:   Thank you.

9   MS MAGGIE WONG:   So it appears that your council has made  
10           certain position on the working hours. Did you consult  
11           trade union about the maximum number of working hours?

12   MR MICHAEL YUNG:   I have not consulted the trade unions on  
13           what would be the suitable working hours. But as  
14           a passenger, or as someone from the local community --  
15           now I have been in contact with some of our residents,  
16           they are bus drivers as well. In general, they start  
17           the day early and finish late. Let's say we take the  
18           morning shifts. Now my constituency is Tai Shui Hang,  
19           Fu On Garden. The nearest bus depot is in Sha Tin, Yuen  
20           Shun circuit, opposite Yu Chui Court. The journey time  
21           is about 15 minutes.

22           Now, usually, bus captains will have to take their  
23           company coach at around 4-something in the morning, and  
24           then they arrive at the bus depot at about 5-something  
25           in the morning to report to duty. And then they would

26

1 take their bus or they go on some other buses, and then  
2 get to the point where they would pick up their bus. In  
3 between, actually, for the shifts arranged, it could be  
4 about them starting off only at 6 or 7 am in the peak  
5 hours.

6 So in between there is no way they could take  
7 a rest, because at the bus depot there may not be an  
8 ideal environment for them to take a rest. That's the  
9 first point.

10 There is also this situation. In order to set out  
11 punctually, they would have to drive the bus to  
12 a relevant terminus, or substation. There may not be  
13 a staff rest kiosk for them to rest inside. So they  
14 will have to stay in the bus to rest.

15 Under the requirement by the Environmental  
16 Protection Department to turn off your engine when the  
17 vehicle is idling, that means bus drivers cannot start  
18 the engine to keep the air conditioning working.

19 So they will have to be stuck in a very close and  
20 stuffy environment when they are waiting to start their  
21 driving duties. So bus drivers don't have a place to  
22 rest, and they can't properly rest. That would result  
23 in a drop of their driving performance. So if you ask  
24 me whether there should be more rest kiosks or a place  
25 to rest before they start their driving duty. I think  
26

1 we can look into that.

2 In relation to work hours, I know that there is  
3 a dilemma. Tai Po District Councillors have talked  
4 about work hours and the transportation, or traffic  
5 pattern of the New Territories. In the morning you will  
6 find a lot of people travelling from the New Territories  
7 to urban areas, for example Kwun Tong, Wanchai or Chai  
8 Wan. There needs to be really frequent bus services to  
9 take passengers to work. However, these buses will have  
10 to return to do the next trip. But the return trip is  
11 not as frequent. When it comes to planning the working  
12 schedule for bus drivers, they would require a lot of  
13 people to drive buses.

14 However, during non-peak hours they don't need that  
15 many people.

16 Then later in the evening peak they will need a lot  
17 of people to drive buses to take passengers from urban  
18 areas back to their own homes. So the actual driving  
19 hours may not be as long as 10 hours. But the work  
20 hours, that is the time on standby and the time on  
21 driving duties, can be as long as 10 to 14 hours.

22 Without a proper place for them to rest, bus captains  
23 can only find a place to rest in shopping malls, or stay  
24 in a rest kiosk cramming up with other bus drivers  
25 trying to rest. I do think that bus companies should

26

1 provide suitable rest facilities for bus drivers to take  
2 on special shifts.

3 CHAIRMAN: Can you identify a place that does not have  
4 a proper rest facility?

5 MR MICHAEL YUNG: Perhaps I can do it this way. There are  
6 not many places where there is rest kiosk for staff  
7 members. In my constituency, at one point, bus  
8 companies asked us for our views about increase of rest  
9 facilities. It was about six months or nine months ago.  
10 Well, these staff rest kiosk is not just to partition an  
11 area. They will have to connect water supplies,  
12 electricity --

13 CHAIRMAN: Mr Yung --

14 MR MICHAEL YUNG: If you ask me --

15 CHAIRMAN: We are familiar with what the problems are,  
16 because we have received a lot of information about the  
17 difficulties in constructing these kiosks: water,  
18 sewage, electricity. Just give us an example of a place  
19 and we will go and visit it.

20 MR MICHAEL YUNG: For large terminus, say for example New  
21 Town Plaza, Sha Tin train station. There are no  
22 large-scale rest kiosk. So you can --

23 CHAIRMAN: Sha Tin train station?

24 MR MICHAEL YUNG: Sha Tin PTI under New Town Plaza is the  
25 public transport interchange, and also Sha Tin train  
26

1 station, the rest kiosk is small, and there is only one.

2 There is also another bus company, Citybus. They  
3 don't have a proper staff rest kiosk for bus drivers of  
4 another bus company to use.

5 CHAIRMAN: Thank you.

6 MS MAGGIE WONG: You mentioned that one of the bus companies  
7 asked your views, your council's views about the  
8 facility. Is it in writing?

9 MR MICHAEL YUNG: At that time it was asked verbally. If  
10 I remember correctly, there was a consultation paper.  
11 It was done via the Transport Department and the  
12 district office. I think it was around March or April  
13 this year. I have to find the document, and I will give  
14 it to you after the hearing.

15 CHAIRMAN: Thank you.

16 MS MAGGIE WONG: Thank you.

17 Mr Yung, I'm going to ask a few questions about  
18 accidents that happened at a few locations. First is  
19 the Lei Yue Mun accident, which I believe your council  
20 has raised a lot of questions. If I may take you to  
21 page 709 in Chinese, and in English at paragraph 133.  
22 In English at page 714.

23 CHAIRMAN: What's the date of this document?

24 MS MAGGIE WONG: March. I believe it is also in March 2017.

25 CHAIRMAN: Thank you.

26

1 MS MAGGIE WONG: Now this accident happened, and then -- one  
2 of the questions raised by Mr Chiu --

3 CHAIRMAN: When was the accident?

4 MS MAGGIE WONG: The accident was in January 2017.

5 CHAIRMAN: Thank you.

6 MS MAGGIE WONG: And Mr Chiu Man Leong raised a question  
7 regarding the accident. And one of the questions he  
8 asked is whether the companies allowed drivers to work  
9 part time for long hours after their normal work.

10 And he quoted some examples, for example as  
11 part-time bus or minibus drivers.

12 If we look at the reply of the Transport Department  
13 at page 707.

14 CHAIRMAN: Paragraph?

15 MS MAGGIE WONG: The paragraph at the top. "Reply from the  
16 Transport Department".

17 If I may go back, actually, it is 706, the question  
18 is at 706, and it identified the vehicle accident on  
19 14 January 2017 of number 681 bus of KMB. And the bus  
20 drove to Lei Yue Mun.

21 MR MICHAEL YUNG: (In English) It is Citybus, not KMB.

22 CHAIRMAN: That's a typographical error.

23 MS MAGGIE WONG: Yes, that is a typographical error.

24 "When the bus travelled to Lei Yue Mun Road and  
25 approached the Lam Tin bus station, it bumped into the  
26

1 ramp stone crack in the middle of the road and turned  
2 over towards left as it was out of control. Tens of  
3 people were thrown out of their seats ... and several  
4 people were trapped ..."

5 Regarding this incident, they raise a number of  
6 matters.

7 First, is the condition of passengers on scene.  
8 Second, bus company, did the company follow up? But I'm  
9 more concerned about (c), (d) and (e). The (c) issue is  
10 about the health condition of the driver, whether it  
11 conformed to standards.

12 Second is the existing design of the pavement and  
13 ramp stone crack increase.

14 And the third is the design of the bus running in  
15 Hong Kong, whether it guaranteed passenger safety.

16 And the Transport Department gave a reply on the  
17 next page.

18 CHAIRMAN: Before you move on, surely the question that is  
19 relevant to our topic is (c):

20 "Do the government and bus companies allow drivers  
21 to work part time for long hours after their normal work  
22 as part-time bus or minicab drivers for example?"

23 MS MAGGIE WONG: If we see the reply from the Transport  
24 Department over the page at page 707, the Transport  
25 Department did not appear to answer the second part of  
26

1 the question that the chairman just read out. Instead,  
2 they made quite a generalised answer if we look at  
3 page 707.

4 The second paragraph:

5 "We have formulated guidance on the shifts of bus  
6 drivers, including working, rest and meal time. The  
7 shift arrangement of the driver involved as well as his  
8 schedule before work conforms to the requirement  
9 specified in our guidance."

10 Et cetera.

11 Then he did not address the question whether part  
12 time drivers can work for long hours after their normal  
13 work.

14 In relation to this issue, did your district council  
15 follow up on the Transport Department's reply?

16 MR MICHAEL YUNG: From my recollection, in the meeting our  
17 focus was on the traffic accident. We did not discuss  
18 in detail about part-time bus drivers are allowed to  
19 carry out driving duties for how long. As I recall,  
20 during the renewal of a franchise of bus companies, the  
21 community was very concerned about lost trips. As  
22 a result, bus companies introduced a lot of part-time  
23 bus captains to deal with the situation. There are two  
24 groups of part-time bus captains. For one, they have  
25 a job during the day and then they will drive for a few  
26

1 hours in the evening.

2 Administration staff of bus companies have driving  
3 licence to drive buses. That is what I know.

4 If the Transport Department only focused on the  
5 driving hours then they would always meet the  
6 requirement. Because they don't take into account the  
7 working hours of their main job. But if there are ways  
8 for bus companies to record their own driving duties, if  
9 the part-time bus captains have a principal employment,  
10 you won't be able to find out whether the principal  
11 employer allows these people to take up driving duties  
12 after work. I don't know whether these part-time bus  
13 captains are required to report the exact number of  
14 hours they work in their principal employment.

15 So it is very difficult for bus companies to know  
16 whether these part-time bus captains are working  
17 exceedingly long hours.

18 The guidelines they have don't target part time  
19 duties, and the problem is that bus companies do employ  
20 part-time bus captains, so I think it is a matter of  
21 chicken and egg.

22 CHAIRMAN: The problem is if the bus companies don't ask the  
23 questions about what their part-time drivers do in the  
24 rest of their day?

25 MR MICHAEL YUNG: (In English) Yes.

26

1 MS MAGGIE WONG: Given this is a concern, did your council  
2 raise these matters with the Transport Department as to  
3 the monitoring mechanism?

4 MR MICHAEL YUNG: Of course district councillors expressed  
5 the view. After the meeting we asked for guidelines on  
6 working schedules, and that guideline does not cover  
7 part-time bus captains and that is the focus.

8 We tried to follow up on this matter but they never  
9 dealt with it, so there are no ways for us to pin them  
10 down to get them to resolve it.

11 CHAIRMAN: Did you do so in writing?

12 MR MICHAEL YUNG: In the meeting, apart from moving  
13 a motion -- well, if there was a motion, then the  
14 department will be asked to follow up. As to whether  
15 other councillors have been chasing for a reply, I don't  
16 know, so I don't have the information as to whether it  
17 was done in writing. I believe that district  
18 councillors of different parties have mentioned this in  
19 unofficial meetings of the Transport Department, and  
20 I have raised this issue as well. I've raised it with  
21 Citybus, First Bus, KMB and the Transport Department.  
22 And as to whether bus companies have actually  
23 implemented anything to address the problem, I think it  
24 is for bus companies to answer.

25 CHAIRMAN: When you raised these matters with those parties,  
26

1           you did so orally, rather than in writing?

2       MR MICHAEL YUNG:   (In English) Orally.   Orally during  
3           meeting.

4       CHAIRMAN:   Thank you.

5       MS MAGGIE WONG:   The second issue identified at page 706 is  
6           the design of the pavement and ramp stone crack  
7           increased the probability of serious bus accidents,  
8           that's (d), page 706 at (d).   And the reply from the  
9           Highways Department and Transport Department is at  
10          page 707.   It states, if we start from line 2:

11               "The open end of the fence railing uses an inclined  
12           stone crack, which can reduce injury to drivers and  
13           passengers when any vehicle runs into the fence railing,  
14           if it is out of control.   The Highways Department,  
15           together with the Transport Department, continue to  
16           inspect the protection facilities on the existing public  
17           roads and install appropriate protection facilities on  
18           new and existing public roads according to the actual  
19           conditions and needs."

20               It states that the Transport Department and the  
21           Highways Department will continue to inspect these  
22           protection facilities.   Did you follow that up with the  
23           Transport Department?

24       MR MICHAEL YUNG:   In the minute, paragraph 135(a) and (b),  
25           it was mentioned at that time that the design of the

26

1 road does not allow that to happen. We have been asking  
2 them to do something that is similar to a U-shape, so  
3 when there is a crash the vehicle will be made to go  
4 a certain way. I know that on highways this design  
5 would be adapted. If I remember correctly, in the part  
6 of Tai Po District Council, there is this design in the  
7 new bus stop in Tai Po. On that day, the Transport  
8 Department told us that it could only happen on  
9 highways.

10 If that is the case, we then understand that from  
11 Kwun Tong bypass there was the speed limit of  
12 70 kilometres per hour. That would be suitable to have  
13 this kind of protective facilities installed, because  
14 the design is to absorb the impact.

15 So what we are saying is these locations should be  
16 reviewed as soon as possible. I recall there was  
17 an engineering diagram just now, there was a location  
18 where it was installed.

19 MS MAGGIE WONG: If we continue, I'm moving on -- I think  
20 you may be referring to TD bundle, bundle 5, page 1617.

21 If we enlarge the --

22 MR MICHAEL YUNG: That is correct. We are talking about the  
23 crash barrier. In my understanding, that location is  
24 suitable for installing this type of equipment. It is  
25 not a highway, and I should put it this way. The TD  
26

1 highway design is based on transport design and planning  
2 manual. They have different paragraphs describing  
3 highway design. So if you ask me whether the initial  
4 design was up to standard, that I can reserve for the  
5 experts to comment on, but if we are talking about  
6 access roads leading up to the highways, these crash  
7 barriers were not installed. Now, if a barrier is  
8 installed and if a car or vehicle crashes into it, it  
9 will be stuck in that material, and they won't create  
10 a serious accident.

11 MS MAGGIE WONG: Is that what you are referencing in  
12 paragraph 135(a) and (b)?

13 MR MICHAEL YUNG: Yes.

14 MS MAGGIE WONG: And the Transport Department, I believe is  
15 set out at paragraph 138. English is at page 717:

16 "Mr Fung Ka Chun, regional engineer of ... Highways  
17 Department ... indicated in his reply that the Lei Yue  
18 Mun Road is designed as ramp type, aiming to reduce the  
19 injury to drivers and passengers when any vehicle bumps  
20 into the fence as it is out of control."

21 Then on, over the page, 718:

22 "On the highways with maximum vehicle speed of  
23 70 [kilometres per hour], the Highways Department also  
24 installs organ type safety fences. As the Lei Yue Mun  
25 Road does not satisfy the conditions, the existing stone  
26

1 crack design conforms to relevant standards. The  
2 Highways Department will improve the facilities here  
3 according to actual conditions."

4 In other words, they refused your suggestion. Is  
5 that correct?

6 MR MICHAEL YUNG: Correct. But take note, you said in  
7 bundle TD-5. The original speed limit was 70, and  
8 because of this traffic accident the speed has now been  
9 reduced to 50. So that means we have one country, two  
10 systems.

11 So highways, when they have a 70 kilometres  
12 standard, they had not reviewed this location and  
13 whether it was suitable to install a crash barrier. So  
14 the committee in our special meeting, we had requested  
15 all the government departments regarding their previous  
16 responses, they should have reviewed those responses and  
17 see whether a new response was appropriate. In my  
18 understanding, the Highways Department did not provide  
19 an updated response.

20 In other words, essentially I can only say that TD  
21 and highways they did not look at it from  
22 a comprehensive safety perspective. They only dealt  
23 with the issues as they arose. They did not implement  
24 further designs to ensure motorist safety and pedestrian  
25 safety, and I expressed my regret regarding this  
26

1 situation.

2 MS MAGGIE WONG: I will now move on to the A Kung Kok  
3 Street, which relates to another accident. The minutes  
4 or the discussion paper is dated 8 May 2018, entitled  
5 "TT paper number 26/2012". It is at page 610, in  
6 English, and Chinese at page 607.

7 In the second paragraph, I believe it is Mr Yeung  
8 Cheung Li in the Traffic and Transport Committee of Sha  
9 Tin District Council, raised questions about the safety  
10 at A Kung Kok Street. In the second paragraph he  
11 pointed out that there had been many serious traffic  
12 accidents taken place at A Kung Kok Street.

13 Do you know about all the complaints or these  
14 accidents mentioned by Mr Yeung?

15 MR MICHAEL YUNG: Mr Yeung Cheung Li was an ex Sha Tin  
16 councillor. He did not raise specific questions  
17 regarding a specific accident, but I recall that there  
18 was a traffic incident that had a lot of fatalities and  
19 injured people. I recall that in the morning an 89D bus  
20 heading towards Kowloon, they couldn't brake in time  
21 rammed into either a 85K or 86K bus, and it led to some  
22 30-plus people being injured. And at the time, after  
23 the accident, I had visited the site and I had seen the  
24 injured people, and I also helped with the claims, the  
25 injury claims of the victims.

26

1           So that was a bus accident, and subsequently there  
2           were some other accidents relating to minibuses, and  
3           there were also some fatalities. I think Mr Yeung's  
4           question about fatalities and injuries was not just  
5           limited to buses. There were other accidents in that  
6           question. So that is my understanding.

7           Second, why A Kung Kok Street is accident prone,  
8           that is because A Kung Kok Street is a dual lane dual  
9           carriageway road, and from my constituency, Fu On  
10          Gardens to the interchange, there are two crossing lanes  
11          and one traffic light, if I remember correctly, and  
12          there are also three T-sections to Mui Tsz Lam Road, Ah  
13          Kung Kok Fisherman Village, and to Sha Tin Hospital.  
14          There is also another road heading up to A Kung Kok  
15          Street. So there are four branches of the road, and the  
16          design of all four sections have a yielding -- has  
17          priority junctions, it is not a signallised junction,  
18          and this yielding design has to accommodate low traffic  
19          flow. But a lot of times, the motorists, when they use  
20          these sections, they are not very careful, and that  
21          leads to traffic accidents.

22          So that is one of my understandings that I have  
23          regarding that situation. So aside from the morning and  
24          afternoon busy hours where there are a lot of trucks and  
25          lorries, there is not a lot of traffic, because we have  
26

1 another highway, Ma On Shan highway, and that is  
2 a dual-lane six-carriageway highway and they can travel  
3 at 60 to 80 kilometres, so normally private vehicles  
4 will not traverse that section of road. But in the  
5 morning, maybe people want to avoid congestion so some  
6 private vehicles will use that road. But typically, the  
7 incidents, traffic incidents don't occur in the morning.  
8 Usually it is smooth driving, there is no speed camera,  
9 and there is only one traffic light, it is also  
10 a manually controlled light where that leads to Sha Tin  
11 hospital. So the motorist might not be complying with  
12 the 50 kilometres speed limit. They might be going at  
13 more than 50 kilometres.

14 So it is relatively easier to have traffic accidents  
15 there because of that design.

16 MS MAGGIE WONG: If we look at page 611, there are certain  
17 figures provided by the Hong Kong Police from 2007 to  
18 2011.

19 Is it within your council's knowledge, whether the  
20 occurrence of the accident has increased, decreased, or  
21 remained constant in the years after 2012? Did you make  
22 enquiries?

23 MR MICHAEL YUNG: (In English) No.

24 MS MAGGIE WONG: If we look at the question raised by  
25 Mr Yeung at page 610, he asked whether the Transport  
26

1 Department have any short-term or long-term plans to  
2 resolve the problems at A Kung Kok Street, and the  
3 Transport Department advised four matters. And that's  
4 at page 611. First, question (d). The Transport  
5 Department mentioned there is no obstruction to driver's  
6 line of sight, the design conforms to the present road  
7 design standards.

8 And then the third, it had been considering whether  
9 to enhance the traffic control over this section.

10 Lastly, the 16 April 2012 incident, the Transport  
11 Department had reminded the bus companies to enhance the  
12 training of drivers and would make further improvements  
13 upon knowing the results of the police investigation.

14 So did your council follow up with this? Or you are  
15 satisfied with the answer provided -- first of all, are  
16 you satisfied with the answer provided by the Transport  
17 Department?

18 MR MICHAEL YUNG: Well, on page 613 of the minutes of  
19 meetings, paragraphs 67(c) and (d), I had made some  
20 recommendations. So they say they want to have double  
21 white line to prevent traffic violations. So in Texaco  
22 Road, there was a fatal accident near the bridge, and  
23 they had added these double white lines, so we thought  
24 that that was very good improvement, but I recall that  
25 that suggestion hasn't been taken up.

26

1           And in paragraph (d), the police don't have a laser  
2           gun, they will use their unmarked vehicles, and they  
3           would deploy these unmarked vehicles on highways. They  
4           don't deploy unmarked vehicles on local roads. But  
5           after that question the police in fact did deploy more  
6           laser guns to detect speed on A Kung Kok Street, and the  
7           installation, if I remember correctly, was the exit of A  
8           Kung Kok fisherman new village, and they would test  
9           vehicle speeds for vehicles entering Ma On Shan, because  
10          after Sha Tin hospital, after the traffic light, it is  
11          a straight road, and motorists tend to drive at a higher  
12          speed. But TD, at the yielding area, they had issued  
13          a works order to widen that area, but even if the  
14          yielding area is widened, because there is a hospital  
15          there, there are visitors or people queuing.

16          So even if you increase the yielding space,  
17          sometimes the buses, they have to wait, or they might  
18          even have to allow passengers to embark, disembark at  
19          the road side. So it is not very effective.

20       MS MAGGIE WONG: I can see at page 615 there was  
21          a provisional motion passed by Mr Yeung demanding for  
22          a -- paragraph 73 in Chinese, and at 618 in English,  
23          paragraph 73.

24          There was a provisional motion passed by Mr Yeung  
25          demanding a comprehensive review of the road design of  
26

1 A Kung Kok street, including making the street wide and  
2 installing additional speed camera. So did the  
3 Transport Department respond to this request?

4 MR MICHAEL YUNG: In paragraph 13(1) the police had stepped  
5 up law enforcement. There was not any patrolling, and  
6 they started to patrol, and the design of A Kung Kok  
7 Street, regarding the widening of A Kung Kok Street and  
8 installing speed cameras, and up until now we still  
9 don't have the cameras. The widening of A Kung Kok  
10 Street, next to it is the Ma On Shan road, there is  
11 a divider, and that is where the Ma On Shan rail is  
12 located. So by widening A Kung Kok Street we need to  
13 start from Fu On all the way to Sam Mun interchange.

14 But I think it would be difficult to identify  
15 suitable locations to widen the road because widening  
16 a road according to the planning standards, 3.6 to  
17 3.7 metres is required to accommodate an extra traffic  
18 lane. But my understanding is the pedestrian minimum  
19 width is 1.5 metres so. That means, given limited  
20 space, if you widen the vehicle's space, and if the  
21 pedestrian space is not wide enough, then the Transport  
22 Department will not proceed with the works because if  
23 the pedestrian sidewalk is too narrow they cannot  
24 accommodate wheelchairs, so they did not install  
25 cameras, they did not widen the area, and I think the  
26

1 widening was constrained by the space, so relatively  
2 speaking, the cameras are easier to install.

3 MS MAGGIE WONG: I see the time.

4 CHAIRMAN: We will carry on.

5 MS MAGGIE WONG: Carry on.

6 CHAIRMAN: I think we are moving into areas that are a long  
7 way away from making recommendations about bus safety.

8 MS MAGGIE WONG: Yes, I believe there will be one or two  
9 topics, and I will complete the documentation.

10 Mr Yung, you referred to in your minutes of the  
11 meeting, I believe it is TT paper 3/2017. If you go to  
12 page 710, Chinese.

13 CHAIRMAN: What is the document we are going to?

14 MS MAGGIE WONG: This is a minutes of meeting of Sha Tin  
15 District Council. TT paper --

16 CHAIRMAN: We don't need the paper number. What is the  
17 date?

18 MS MAGGIE WONG: I think it is still March 2017.

19 CHAIRMAN: Yes.

20 MS MAGGIE WONG: If we look at paragraph 134(a), it raised  
21 the suggestion that bus companies should assess annually  
22 if bus captains suffer from sleep disorder.

23 CHAIRMAN: Sleep apnea.

24 MS MAGGIE WONG: Yes, and did you follow up with that  
25 suggestion? Or did your council follow up with that  
26

1 suggestion?

2 MR MICHAEL YUNG: I need to check with that. Because we  
3 have some colleagues following up on whether the  
4 suggestions were acted upon, and if there were some  
5 motions the government departments would respond at  
6 a later date, and in the next meeting in the matters  
7 arising, it would be dealt with. And if not, then my  
8 understanding is the government department would take  
9 note and would see whether the opinion could be  
10 implemented.

11 I do not have the document at hand. That is the  
12 paper on the matters arising. Maybe I have to go and  
13 check whether it is covered under matters arising.

14 CHAIRMAN: Perhaps if you can locate it in due course you  
15 can provide it to us if it is relevant.

16 MR MICHAEL YUNG: Okay.

17 MS MAGGIE WONG: Mr Yung, I'm coming to near the end of the  
18 topic. It is the Tai Po Road which you have expressed  
19 in a discussion paper at page 727.

20 This is a question raised by Mr Yiu Ka Chun in  
21 question (b) and (c). And the problem is, they raised  
22 the question about Tai Po Road, Sha Tin Heights section,  
23 that it has a number of potentially dangerous locations  
24 and bends. At Chinese it is at page 719.

25 Do you know how Mr Yiu came to the view that this  
26

1 particular section is potentially dangerous, that it is  
2 a dangerous location and bend? Is it because he  
3 received complaints, or can you tell us why?

4 MR MICHAEL YUNG: Are you asking me this? That is for that  
5 location on Tai Po Road why we consider it dangerous, is  
6 it because we have received complaints, right?

7 Now, Mr Yiu is not here. Please give me some time  
8 to read the document.

9 CHAIRMAN: Yes, take your time.

10 MR MICHAEL YUNG: I believe, having read the document, the  
11 location referred to by Mr Yiu Ka Chun is -- well,  
12 because there are different locations along the Tai Po  
13 Road, and the section referred to falls within Sha Tin  
14 district, that's the Sha Tin section. I believe you are  
15 talking about question (c), the location mentioned in  
16 question (c), right? Is it question (c)?

17 (In English) Is it question (c)?

18 CHAIRMAN: I think it is, yes.

19 MR MICHAEL YUNG: Okay, because for the entire Tai Po Road,  
20 of course there are various sections. If I recall,  
21 within Sha Tin, there is the Sha Tin section, the Sha  
22 Tin Heights section, the Piper's Hill section, and so  
23 on. And I think Mr Yiu is referring to the Sha Tin  
24 section near the Luk Hop new estate, and there have been  
25 fatal accidents there involving buses. But if I recall

26

1           correctly, I believe it is someone ramming into the  
2           buses, not the other way around.

3       MS MAGGIE WONG: If we look at page 728, question (b) at the  
4           bottom. The answer from the Transport Department. In  
5           spite of the speed limit from Tai Po Road, Sha Tin  
6           Heights section to Tai Po Road Piper's Hill section is  
7           70 kilometres. And this section is about 1.7km long  
8           with two sharp turns. The remaining 1.4km is close to  
9           Sha Tin and the speed limit is 50 kilometres with three  
10          sharp turns. The locations of sharp turns are set out  
11          on the next page.

12               Then it states that:

13               "A number of traffic signs on speed limit have been  
14               erected in the proper location on the Tai Po Road ... to  
15               and from, including road sections where the speed limit  
16               has been changed. Furthermore, the warning traffic  
17               signs have been erected in front of sharp turns and the  
18               'slow down' road markings have been added on the road to  
19               remind the driver to decelerate before the sharp turns."

20               Now the Transport Department was aware of the sharp  
21               turns, and the speed limit of this road section. Are  
22               you satisfied with the Transport Department's answer  
23               that it is sufficient in terms of road speed limit and  
24               in terms of traffic -- sufficiency of traffic signs.

25       MR MICHAEL YUNG: Perhaps I would speak as a motorist.

1           Because sometimes I would go via Tai Po Road to drive  
2           between Sha Tin and Kowloon. Now, the location in  
3           question, here there are sharp bends. In addition there  
4           are uneven road levels, it could be slanting in one way  
5           or the other.

6           If a car travels at 70 kilometres per hour, along  
7           this section, and if we have weather like today, that is  
8           a rainy day, then it is possible that there could be  
9           a crash.

10          So this is a little similar to the case, you know,  
11          under your investigation at Tai Po Road. The sharp bend  
12          is not the main consideration, but rather you can feel  
13          that the cars, you know, are travelling at different  
14          levels, so for people with lesser driving skills there  
15          is a chance that they may cause traffic accidents. And  
16          that explains why there are so many traffic accidents  
17          along that section. Because if I recall correctly,  
18          I think on both sides -- no, no, for the Luk Hop  
19          Village, going out 70 kilometres coming back  
20          50 kilometres, if I recall correctly.

21       MS MAGGIE WONG: Thank you. Lastly, I would like to refer  
22          to you a minutes of meeting, page 736 in Chinese, and  
23          743 in English.

24          It is also by Mr Yiu Ka Chun.

25       CHAIRMAN: What is the date of this meeting?

26

1 MS MAGGIE WONG: It is minutes of meeting, but it does not  
2 bear a date, but it has the paper number 2/2018.  
3 I assume it is in February 2018. Following the Tai Po  
4 Road accident.

5 It starts, in Chinese, page 735. And in English at  
6 742.

7 If we look at paragraph 128(c), the comments by  
8 Mr Yiu Ka Chun was that there were three different speed  
9 limits in different sections of the Tai Po Road, which  
10 would make it hard for drivers to adapt.

11 And he asked whether the Transport Department would  
12 review this situation and mount additional speed  
13 monitors.

14 Can you see that?

15 MR MICHAEL YUNG: Yes. I see that. So you are asking after  
16 that meeting whether the Transport Department conducted  
17 any review, is that your question?

18 MS MAGGIE WONG: Yes, but I think to facilitate your  
19 consideration the Transport Department did respond at  
20 the meeting at 132, paragraph 132. English at page 746.  
21 Chinese at 739. In short they said that the section had  
22 been provided with clear signs for speed limit and turns  
23 to alert drivers.

24 So did your district council follow up or did your  
25 district council deal with this matter after this  
26

1 meeting?

2 MR MICHAEL YUNG: I have to go back to what I said before.

3 If there is a motion, yes, they will follow up on it.

4 If there is not a motion, then we will have to look at

5 whether there is response in the supplementary

6 information. Because in this bundle, it does not

7 include supplementary information after the discussion,

8 so I can't see it now. Do you want me to check now or

9 what?

10 CHAIRMAN: If you are able to find something that is

11 relevant later, by all means provide it to us in

12 writing.

13 MR MICHAEL YUNG: Fine. Perhaps I can do this later. Later

14 on I will liaise with your committee to see what

15 information you want me to provide. And then I will

16 instruct the secretary to look up the information and

17 see whether there are relevant meeting documents that we

18 could provide later.

19 CHAIRMAN: That would be most helpful, thank you.

20 MS MAGGIE WONG: Mr Chairman, I have completed my questions.

21 CHAIRMAN: Mr Yung, thank you for coming to assist us with

22 your evidence, and we look forward to your communication

23 if you do find any relevant documents, that we should

24 have sight of. Thank you very much.

25 MR MICHAEL YUNG: (In English) Thank you.

26

1 CHAIRMAN: We now have representatives from the Sham Shui Po  
2 district council. May we ask Mr Lam and Ms Chan to come  
3 forward.

4 Just allow us a moment, we will change the names  
5 over and provide you with fresh glasses.

6 EVIDENCE FROM SHAM SHUI PO DISTRICT COUNCIL: MR LAM KA FAI

7 AND MS CHAN WING YAN, JOEPHY

8 (given in Cantonese; transcription of the simultaneous  
9 interpretation)

10 CHAIRMAN: Mr Lam and Ms Chan, thank you for accepting our  
11 invitation to give evidence today. Apologies for the  
12 delay before we reached you, but I would now ask Ms Wong  
13 to pose her questions to you.

14 Examination by MS MAGGIE WONG

15 MS MAGGIE WONG: Thank you, Mr Lam, and Ms Chan for coming.

16 May I first of all deal with the topic on the  
17 working hours for bus drivers. If you would turn to  
18 DC-2 bundle page 986 in Chinese and in English at 988.

19 CHAIRMAN: What are we going to?

20 MS MAGGIE WONG: We are going to questions for discussion to  
21 Sham Shui Po district council in relation to the fatal  
22 traffic accident at Sham Shui Po. Cheung Sha Wan Road  
23 near Yen Chow Street. It was on 25 September 2017.

24 CHAIRMAN: This is in consequence of the accident on  
25 22 September.

1 MS MAGGIE WONG: Yes.

2 CHAIRMAN: That's 2017.

3 MS MAGGIE WONG: 2017.

4 CHAIRMAN: Yes.

5 MS MAGGIE WONG: And one of the matters raised in this  
6 document, if you look at paragraph 3, is to strengthen  
7 the management of working hours of bus captains. And in  
8 this document, it states that:

9 "In a foreign country, such as the EU, there are  
10 restrictions on drivers from driving more than 9 hours  
11 a day, whereas the bus captains in Hong Kong work for  
12 a maximum of 14 hours per day, amounting to 360 plus  
13 hours per month."

14 If I may also refer you to the minutes of the first  
15 special meeting, after the Sham Shui Po accident, dated  
16 28 September 2017, Chinese is at page 1026, English at  
17 page 1043.

18 And I --

19 CHAIRMAN: Of which bundle?

20 MS MAGGIE WONG: DC-3.

21 CHAIRMAN: Yes.

22 MS MAGGIE WONG: If we look at paragraph 168, Councillor  
23 Yeung Yuk added that:

24 "He required the government to revise the  
25 guidelines, reducing working hours from 14 to  
26

1           12 hours ..."

2           If we look at paragraph 170, Councillor Tam Kwok Kiu  
3           added that the:

4           "... relevant rules and regulations stipulate that  
5           driver cannot work over 14 hours ... many labour union  
6           had pointed out 14 working hours are not humane:

7           And at paragraph 201, Councillor Tam Kwok Kiu  
8           commented that Citybus shall reduce all driver's work  
9           hours to 12 hours.

10          My question is, it appears that the Sham Shui Po  
11          district council proposed 10 working hours. Can you  
12          tell us why you propose 10 working hours?

13          CHAIRMAN: Where do we see that? Which paragraph?

14          MS MAGGIE WONG: You see that at the letter at page 986,  
15          English at 988, paragraph 3. We asked --

16          CHAIRMAN: Thank you. Just read it out.

17          MS MAGGIE WONG: "We asked the Transport Department to  
18          reflect that the longest driving time per day is  
19          10 hours."

20          Can you tell us why you proposed 10 hours as the  
21          longest driving time?

22          MR LAM KA FAI: After that accident, the council in relation  
23          to this matter discussed for a very long time the  
24          location where the accident took place was right in  
25          front of the district council. It was a junction. From

26

1 the window of the conference room you would be able to  
2 see the tragedy. The wreckage was not cleared  
3 immediately. It was done only after a long time when  
4 the injured were rescued.

5 The bus was stuck and wedged at that location, and  
6 it took a lot of engineering staff to dislodge the bus.  
7 The district council discussed for a very long time the  
8 cause of the accident. The district council concluded  
9 that one of the major reasons was that the bus driver  
10 has been driving for too long.

11 Regarding 14 hours, no one in the meeting was of the  
12 view that it was a suitable length. We discussed it  
13 from 14 to 12 hours, and then to 10 hours. We thought  
14 that the suitable length of driving duties given the  
15 fact that bus captains were in control of a large bus,  
16 were responsible for picking up passengers and letting  
17 passengers alight and on top of their driving duties  
18 they have their family lives. There should be  
19 a balance.

20 If bus captains could have just 10 hours of maximum  
21 driving duties, well, we thought that caretakers in  
22 public housing estates only worked for eight hours.  
23 Security guards under the Housing Authority work eight  
24 hours per shift. The workload, the pressure faced by  
25 security guards can't possibly compare with that faced  
26

1 by bus captains. That is, bus captains face tremendous  
2 pressure and in recent times customers very often scold  
3 bus captains. In the past month or two, we found  
4 incidents where seats are planted with needles. So we  
5 see that there is tremendous pressure faced by bus  
6 captains.

7 In that meeting, we thought that if the working  
8 hours of bus captains could be reduced to 10 hours, it  
9 would be ideal.

10 We also thought that this would reduce the  
11 possibility of traffic accidents involving buses. That  
12 is also another area of concern. Assuming that the work  
13 hours can be reduced from 14 to 12 to 10, we would think  
14 whether they would be paid a sufficient wage to support  
15 their families.

16 We were concerned about that as well.

17 Bus captains is not an easy job. If they are not  
18 paid a wage that can support the family, we think there  
19 will always be a shortage of bus captains, and as  
20 a result, then work hours can never be reduced. Bus  
21 companies would use various ways to continue to increase  
22 their work hours.

23 MS MAGGIE WONG: There were some minutes of the meeting on  
24 28 September 2017. The 5th Sham Shui Po district  
25 council meeting. The English starts at 1041, and  
26

1 Chinese at 1026.

2 CHAIRMAN: Yes, which paragraph?

3 MS MAGGIE WONG: Paragraphs 167 and 168, and I would like to  
4 draw your attention to two sentences. 167, at the end,  
5 Councillor Vincent Cheng Wing Shun at the end:

6 "... inquired why the driver work hour instruction  
7 was not amended over past 7 years."

8 And 168, the second sentence in (i), Councillor  
9 Yeung Yuk:

10 "He required the government to revise the guideline  
11 reducing working hours from 14 to 12 hours and  
12 increasing rest hours and salaries."

13 If we look at the reply from the Transport  
14 Department at page 1044, paragraph 171, Mr Leung Cheong  
15 Kit stated that:

16 "After the accident, drivers' work hour and rest  
17 hours drew public attention."

18 Then over the page:

19 "To guarantee drivers' enough rest time, the  
20 Transport Department and all bus companies made ... bus  
21 companies have to follow the instruction ... and the  
22 department engages in independent investigator ... to  
23 investigate drivers' work ..."

24 And then (iv):

25 "Transport Department is preparing to review the  
26

1 guideline, and plans to consult bus companies and labour  
2 unions, and respond to public concerns about drivers'  
3 work hours. The department has no established position  
4 on the review, and will then consider comments of bus  
5 companies, labour unions, and public."

6 I have two questions.

7 It appears the revision of guidelines was triggered  
8 by this September 2017 incident, and because of the  
9 complaints received from the public about the concerns  
10 of drivers' work hours. Do you agree?

11 MS JOEPHY CHAN: Thank you. Perhaps I will supplement.

12 In relation to your question, perhaps you refer to  
13 paragraph 196. I said, because I am a representative of  
14 a labour union, we always been expressing our views to  
15 bus companies and transportation companies in relation  
16 to the conditions of employment and working hours of bus  
17 captains. It was only after the accident that the  
18 Transport Department and bus companies seriously  
19 considered our views.

20 The last time, when there was a real amendment was  
21 seven years ago. That is seven years before the  
22 accident. It was 2010. I believe that labour union  
23 representatives have been expressing their views but  
24 they were not responded to until the accident.

25 You mentioned about work hours of 10 hours. I know  
26

1           that representatives of labour unions have been  
2           advocating no more than 14 hours of maximum driving  
3           duties. They would like that to be revised to 12 hours.  
4           As to the proposed 10 hours, perhaps it was the result  
5           of studies conducted by district councillors. The  
6           general view of the district council was that 14 hours  
7           was too long.

8           I represent labour unions. I think that we should  
9           not just focus on work hours, because that is related to  
10          conditions of employment as well as salaries.

11          I understand that the driver involved in the  
12          accident has just over five years of experience. On  
13          that day he was scheduled to work earlier than he was  
14          supposed to because he wanted to make up for work hours  
15          in order to earn a wage that can support him and his  
16          family.

17          I understand that for the KMB they offer just over  
18          \$10,000 for bus captains. For First Bus it is slightly  
19          better. It would be around 12,000. However, you will  
20          have to take into account various allowances in order to  
21          make a salary comparable to other jobs that have to deal  
22          with a lot of pressure.

23          So the review should not be just focused on work  
24          hours, we have to attach importance to conditions of  
25          work as well.

1           We have mentioned about rest as well. I have heard  
2           other councillors talk about rest kiosks. I can't say  
3           how many estates or locations are without rest kiosk,  
4           but using Lai Kok Estate as an example. That estate has  
5           been in place for over three decades. However, it was  
6           only at the end of last year that the bus terminus had  
7           a rest kiosk for our bus routes. That is not desirable.  
8           For Kowloon East Lok Wah Estate, I know it was with the  
9           intervention of Jonathan Ho, a legislator, that a rest  
10          kiosk was installed for bus captains.

11          So I think we should not just focus on work hours.  
12          We have to look at salaries, conditions of employment as  
13          well as the rest facilities.

14   CHAIRMAN: Before you move on, Mr Lam, Ms Chan, you say that  
15           you are a representative of labour unions. What do you  
16           mean by that? Explain that.

17   MS JOEPHY CHAN: I came from the FTU.

18   CHAIRMAN: What was your position in the federation?

19   MS JOEPHY CHAN: I am a district councillor.

20   CHAIRMAN: You said you came from the FTU. What do you mean  
21           by that?

22   MS JOEPHY CHAN: (In English) That's my political  
23           association.

24   CHAIRMAN: Thank you.

25           Yes, Mr Lam.

1 MR LAM KA FAI: Just now I was asked by the counsel about  
2 this review of the Transport Department, whether it was  
3 a result of the traffic accident or complaint made by  
4 the council or members of the public.

5 I think that is the case. In the community, when it  
6 comes to road safety, traffic accidents, of course  
7 members of the public are very concerned. Every day we  
8 see traffic accidents, minor ones or major ones,  
9 happening every day. It may not be as serious as that  
10 one.

11 But if a serious accident takes place, it would  
12 shake the community. We see very often that as  
13 a result, the government and the public would try to do  
14 something. I think the establishment of this  
15 Independent Review Committee might be a result of  
16 a number of major accidents.

17 I do think that it is really worthwhile to have this  
18 Independent Review Committee. We have to consider the  
19 scale of the accidents and the number of fatalities and  
20 casualties and hope that it will not happen again.

21 Regarding the location of accidents, there may be  
22 inadequacies in the design of the road or the facilities  
23 provided. Say, for example, the locality of this  
24 accident, it is the centre of Sham Shui Po, it is right  
25 in front of the government office, right in front of the  
26

1 district council.

2 Regarding transportation services, road users, we  
3 see that when there is a change of traffic light,  
4 thousands or hundreds of pedestrians would be waiting at  
5 that junction waiting to cross. And at that junction,  
6 there may be dozens of buses waiting to pass that  
7 junction.

8 For Sham Shui Po district, it is the centre point  
9 between New Territories and urban areas. Well, you will  
10 have to go via Sham Shui Po, wherever you are going to  
11 or wherever you are travelling from. It is unfortunate  
12 that we have seen this accident. The district council  
13 has been making a lot of suggestions to transportation  
14 operators and the Transport Department about the heavy  
15 traffic at this junction, and the fact that pedestrians  
16 have to compete for space with vehicles.

17 We don't want bus companies to deploy their buses in  
18 a way that they would all have to travel along this  
19 road. We know that bus routes will have to pick up  
20 passengers from various places. I'm sorry to see that  
21 this accident has happened, but I hope that with this  
22 hearing there may be a policy change.

23 We have made a discussion, say, for example,  
24 building foot bridges at this junction so that  
25 pedestrians don't have to congregate at road crossings.

26

1 A lot of people --

2 CHAIRMAN: Forgive me for interrupting. But may I ask you  
3 to help me with the other suggestion you made, and that  
4 was in terms of the review of the guidelines of working  
5 hours for bus captains.

6 Can I ask you this. Having made the suggestion, and  
7 having received the Transport Department's answer, that  
8 they were going to review it, that's at the meeting of  
9 28 September of 2017, did the Transport Department  
10 consult you again before, I think it was 23 February,  
11 they announced the result of the review? Were you  
12 consulted in the meantime?

13 MR LAM KA FAI: No, they did not.

14 CHAIRMAN: Yes, Ms Wong.

15 MS MAGGIE WONG: Thank you.

16 If you look at page 1053 of bundle DC-2,  
17 paragraph 203, Mr Leung Cheong Kit made a comprehensive  
18 reply stating that:

19 "The Transport Department will work together with  
20 bus companies and labour union stakeholders to review  
21 the instruction on drivers' work hour and rest hour to  
22 reach a consensus."

23 But the Transport Department never approached the  
24 district council, your district council to seek your  
25 views. Is that correct?

26

1 CHAIRMAN: I think he just answered that.

2 MS MAGGIE WONG: Yes.

3 May I move on to another accident which is on  
4 26 April 2016 at Kwong Lee Road. If you look at  
5 bundle page 991, English, and in Chinese, 990.

6 MS JOEPHY CHAN: Before we move on, we would like to express  
7 the view regarding the accident in Yen Chow Street.  
8 Aside from work hours, our union members also tell us  
9 that would it be possible to assist bus drivers through  
10 road design, for example the minutes also mention that  
11 if you look at other cities, they have diagonal crossing  
12 or X crossing, in Japan, UK, in busy areas they have  
13 road design --

14 CHAIRMAN: We have read the minutes, and this matter was  
15 canvassed at some length in the minutes.

16 MS JOEPHY CHAN: Just now it was mentioned why did we have  
17 an accident. It is because the crossing -- people want  
18 to cross diagonally, but the pedestrians when they wait  
19 too long, they can only cross diagonally, it is a L  
20 crossing, so when they are waiting at the junction they  
21 are waiting a longer time, and that increases the  
22 chances or odds of an accident. That's why we mentioned  
23 the X crossing idea. The Transport Department needs to  
24 consider this, and the bus drivers also tell us that  
25 they hope that there can be some countdown at the

26

1 crossing lights, and that can remind them, remind the  
2 pedestrians they can get ready, when they need to stop.

3 So if you look at the other cities, there is a lot  
4 of technology that helps reduce pressure from motorists,  
5 but Hong Kong is lagging behind. We have not even  
6 attempted the X crossing, so the committee needs to  
7 consider this.

8 Thank you, chairman.

9 MS MAGGIE WONG: Go to document page 990 and 991. It

10 relates to a fatal accident on 26 April 2016 on Kwong  
11 Lee Road. If you see at the bottom there were certain  
12 requests. And one of them is that:

13 "KMB and Transport Department should carry out  
14 detailed investigation of this serious traffic accident  
15 and provide a detailed explanation to the public."

16 And at paragraph 4:

17 "The Transport Department should properly handle the  
18 follow-up work and improve traffic conditions on Kwong  
19 Lee Road against potential traffic hazards."

20 Did your council follow up on these two requests?

21 MR LAM KA FAI: Yes.

22 MS MAGGIE WONG: Before you answer, are they in writing?

23 This follow-up? Are they in writing?

24 MR LAM KA FAI: The district council practice, for example  
25 our councillors, they would write -- there was an  
26

1 accident in So Tsuen bus stop, and we would have  
2 a discussion in the council and the Transport Department  
3 representative would respond to these documents, and in  
4 our practice after the discussion there might be  
5 motions, maybe not on this occasion, but it could be  
6 followed up in matters arising in the next meeting.

7 So in future meetings we would have a list of  
8 matters that need to be followed up and in the next  
9 meeting we can have further discussions.

10 So on that occasion, we requested the government to  
11 do certain items, they were able to respond to some of  
12 the points on the spot, and they might have to go back  
13 and consider our other requirements, so they would have  
14 documents in preparation.

15 So regarding the So Uk Estate bus accident, that  
16 gave rise to a discussion topic that the So Uk Estate  
17 bus stop had been in operation for more than 50 years,  
18 so whether its design, its usage, because new bus routes  
19 are continuously added, there are more and more bus  
20 routes, so the suggestion was to rebuild the bus stop,  
21 and there were even other calls for multipurpose uses,  
22 where other community facilities could be built.

23 Whether a building could be built, there could be  
24 maybe be a government clinic or even a social welfare  
25 office and so on.

26

1 MS MAGGIE WONG: Mr Chairman, I've finished my questions for  
2 this district council.

3 CHAIRMAN: Sorry, I missed the first part?

4 MS MAGGIE WONG: I completed my questions.

5 CHAIRMAN: Right.

6 Those are the questions that we have posed for you,  
7 you have made some general statements, and we thank you  
8 for that. You have made some specific statements as  
9 well. If there is anything more you wish to raise, do  
10 so now.

11 But I will tell you this. We have a video link with  
12 a witness in Germany at 3 o'clock and we would like to  
13 take some break before that, but if there is anything  
14 you want to say, you can have the last word.

15 MR LAM KA FAI: Okay. Thank you, honourable judge.

16 Regarding traffic accidents, one is too much. And  
17 I sincerely anticipate that this IRC under your  
18 leadership can come up with innovative ideas or new  
19 measures for the government to allow the public  
20 transport service -- and can modernise and move to  
21 a higher level of service. That is my expectation.  
22 Thank you.

23 CHAIRMAN: Thank you.

24 MS JOEPHY CHAN: I wish to say that the committee here  
25 today, I think the role it will play is a positive one,

26

1 and I hope these regular reviews can be routine practice  
2 rather than occurring after accidents. We would like  
3 our views to be accepted, but the franchise arrangement,  
4 because of its heritage, the bus companies, whether we  
5 are talking about the reprovisioning of bus routes,  
6 about public convenience, or when you talk about public  
7 safety, bus captain safety, a lot of times our views are  
8 ignored, because I understand that bus franchise won't  
9 be affected because of our views. And that is  
10 regrettable and not ideal.

11 When we talk about bus routes we have continuously  
12 provided our input. We even talked about bus safety,  
13 but unfortunately in the past we didn't have platforms,  
14 and routine venues, so in the past our views have never  
15 been acknowledged. So we hope after this there can be a  
16 new practice, a new venue where our views regarding  
17 improvement can be made.

18 Thank you, Chairman.

19 CHAIRMAN: Thank you.

20 MR LAM KA FAI: Just now Tai Po District Council made

21 a point and I agree with them, regarding bus policy or  
22 franchise issues. If the 18 district councils could  
23 have some input before the expiry of the franchise, if  
24 they could be consulted, if their views could be adopted  
25 formally, then the bus companies would respect community  
26

1 views even more.

2 So given the government structure, we do have some  
3 examples, for example the Town Planning Board. Even the  
4 Urban Renewal Authority or other land use changes,  
5 developments, the Town Planning Board needs to seek the  
6 support of the district council, and they might also  
7 have to take on board other views. They have to take on  
8 board -- it is the majority view, before they decide on  
9 a change of land use.

10 So there are precedents, and I hope the honourable  
11 judge can provide some strong impetus to an improvement  
12 in bus company service and management such that our  
13 views can be conveyed through our counsel and taken  
14 seriously. And it should be greatly respected.

15 CHAIRMAN: May I ask you this. In the context of the  
16 Transport Department's, Transport and Housing Bureau's  
17 consultation about whether or not to recommend the  
18 renewal of a bus franchise, has your district council  
19 made submissions in response to invitations to the  
20 public to forward their views?

21 MR MICHAEL YUNG: When the franchise is about to expire, in  
22 our existing policy they don't need to consult the  
23 district council.

24 CHAIRMAN: I appreciate that. But they do make a general  
25 invitation. I was looking at a document yesterday, when

26

1 the KMB franchise was being renewed. And it starts off  
2 with an invitation to the public to make  
3 representations, and has the district council, your  
4 district council, not contributed to that general  
5 invitation?

6 MR LAM KA FAI: I was not aware of that response. But if  
7 there is a mechanism that is part of our agenda or all  
8 the 18 district councils' agendas, then it would be  
9 taken much more seriously. If it is a regular agenda  
10 item, of course the franchise does not come up for  
11 reapplication on a frequent basis, it is every five,  
12 10 years, then ...

13 CHAIRMAN: Nowadays.

14 MR LAM KA FAI: So, in the 9th year, the 18 district  
15 councils could place this on our agenda. Then all  
16 district councils, we can discuss that in earnest,  
17 a year before the application. That would be more  
18 conducive to enhancing bus service.

19 MS JOEPHY CHAN: Mr Lam means that the bus companies should  
20 take the initiative in contacting the 18 district  
21 councils and consult us.

22 I know there are general invitations, but if you  
23 want to stimulate a discussion, then they need to reach  
24 out to our district councils. I'll give you an example.

25 The bus companies, whether it is a franchise, or  
26

1           whether it is during the operation, when they talk about  
2           the bus route reorganisation, our views are not  
3           respected, they don't even bother listening.

4           I'll give you a bus route example. You asked  
5           whether there are written submissions. So I have  
6           written to the Commissioner for Transport Department,  
7           bus route 6F, about a route change, because it travels  
8           along -- it passes a hospital. So they shouldn't just  
9           consider the passenger numbers, because a lot of the  
10          elderly take that bus route to visit hospital services,  
11          but unfortunately our views are ignored, and they might  
12          cut bus service or even change the routes. So the  
13          district councils have no way or no incentive to have  
14          them heed our views.

15          So when the franchise is up for renegotiation, they  
16          need to consider the DC views before a decision is made.  
17          That would be appropriate and in the public's interest.  
18          Thank you, Chairman.

19   CHAIRMAN: Thank you very much. I'll ask the secretariat to  
20          communicate with you about the document that I had in  
21          mind which sets out the public consultation that the  
22          government says it has before a franchise is renewed.  
23          The first step. There are a number of papers that  
24          follow. But I would ask that you be given a copy of  
25          that in due course.

1           It remains for me on behalf of the committee to  
2           thank you for giving up your time on a rainy Saturday to  
3           come and help us with your evidence.

4           Thank you very much. And we will resume at  
5           3 o'clock.

6           (1.58 pm)

7                       (The luncheon adjournment)

8           (3.16 pm)

9           EVIDENCE FROM ZF FRIEDRICHSCHAFEN REPRESENTATIVE:

10                       MR JAN KULIS

11                       (Given via video link)

12       CHAIRMAN: Good afternoon, Mr Hui. We welcome you and your  
13       colleagues as the legal representatives of  
14       ZF Friedrichschafen and its subsidiaries, including  
15       Openmatics, and we welcome you, Mr Kulis, and thank you  
16       for accepting our invitation to assist us with  
17       understanding how the technical devices work.

18           I'm going to ask counsel for the committee, Mr Chan,  
19       to begin posing questions of you.

20           Now, if there are any difficulties in your accessing  
21       material, if you need time to read material, please say  
22       so, and we will do what we can to help you.

23           Do you understand?

24       MR KULIS: Okay, perfect, I understand, thank you.

25                       Examination by MR DEREK CHAN

1 MR DEREK CHAN: Good morning, Mr Kulis. My name is Derek  
2 Chan, and I'm counsel for the committee.

3 I will be asking you questions on behalf of the  
4 committee, and the committee members themselves may also  
5 ask you questions directly during this session.

6 Can I start first by thanking you, Mr Kulis, for  
7 attending today. Your evidence is important to the  
8 committee's task in considering from a technical  
9 perspective the safety-related measures that are  
10 available for franchised buses in Hong Kong.

11 Mr Kulis, can I start first by asking you several  
12 basic questions about your current position in your  
13 company.

14 Now, if I may, I will use the term "ZF" in short, to  
15 collectively refer to your company and its subsidiaries,  
16 including Openmatics.

17 So I will just use the term "ZF" collectively.

18 MR KULIS: Yes, of course.

19 MR DEREK CHAN: I understand you are an employee of ZF; what  
20 is your current position in the company?

21 MR KULIS: My current position is team leader of system  
22 engineering and I'm an employee of the company  
23 Openmatics, which is the subsidiary of the ZF. So  
24 that's the correct technical status.

25 MR DEREK CHAN: Can you just give us a very general  
26

1 description of your responsibilities as a team leader of  
2 systems engineering?

3 MR KULIS: Yes. So my work is consisting mainly from the  
4 technical support for deploying the Openmatics systems  
5 for current customers, new customers, and in general the  
6 job of the system engineer is to tailor our system to  
7 customer needs, because our system is pretty much  
8 configurable so we are always trying to find the best  
9 technical way how to fit our system into some customer  
10 solution.

11 MR DEREK CHAN: And I understand that you have a degree in  
12 electronic engineering and telecommunications from the  
13 University of West Bohemia; is that correct?

14 MR KULIS: Yes, that's correct.

15 MR DEREK CHAN: Mr Kulis, the committee had previously been  
16 in correspondence with a law firm in Hong Kong that  
17 represents your company, and through correspondence the  
18 committee has already asked some questions and your  
19 company gave some answers through this law firm. Are  
20 you aware of that?

21 MR KULIS: Yes, I am aware.

22 MR DEREK CHAN: Yes. Do you have the answers provided by  
23 your company through this law firm in front of you?

24 MR KULIS: Yes, I have it in front of me.

25 MR DEREK CHAN: Mr Chairman and members, the correspondence  
26

1 in our bundle is located at the bundle for bus and  
2 technical devices manufacturer. I think it is BM-1, in  
3 short.

4 CHAIRMAN: Thank you.

5 MR DEREK CHAN: And the letter from Zhong Lun Law Firm  
6 starts at page 64.

7 Mr Kulis, can I just confirm that we are reading the  
8 same thing?

9 Do you have in front of you a letter from a law firm  
10 for Zhong Lun Law Firm dated 26 June 2018?

11 MR KULIS: Yes, and I can see it on the screen also.

12 MR DEREK CHAN: You can see it on the screen also. Great.

13 Mr Kulis, the hard copy you are reading off, is it  
14 paginated in the bottom right-hand corner.?

15 MR KULIS: No.

16 MR DEREK CHAN: It is not, no problem --

17 MR KULIS: -- (Simultaneous speakers - unclear).

18 MR DEREK CHAN: I see.

19 Mr Kulis, I'll be asking you questions today from  
20 two perspectives, and I'll tell you what they are, so  
21 you know where I'm coming from. Firstly, I will be  
22 asking you questions about the technical capabilities of  
23 the black boxes that had already been supplied by your  
24 company to Hong Kong bus operators.

25 So for this, I will be asking you to clarify and  
26

1 explain to the committee some of the matters that arise  
2 from the written answers that your company has very  
3 helpfully provided.

4 That's the first perspective.

5 Secondly, I will be asking you questions about  
6 technical capabilities of other hardware or software  
7 systems that your company provides, or are able to  
8 provide, that are relevant to the issue of bus safety.

9 These are the two perspectives I will be asking you  
10 questions from.

11 So with that in mind, Mr Kulis, can I ask you to  
12 look at the submissions in front of you at paragraph 1.

13 Does the page that you are looking at start with the  
14 word "Annex III" at the top?

15 MR KULIS: Yes.

16 MR DEREK CHAN: The answers provided by your company are in  
17 blue, and can I draw your attention to the second  
18 paragraph -- sorry, paragraph 1, in the three blue  
19 paragraphs, the second one:

20 "Openmatics entered into a supply contract to  
21 deliver telematic systems ... with Kowloon Bus Company  
22 and Long Win Bus Company."

23 And then your company states here:

24 "Openmatics started offering telematic services by  
25 using the first black box system called the 'Mozart  
26

1 Box'. Later on, Openmatics replaced the Mozart Box by  
2 a successor platform black box called the 'Bach Box'.  
3 Clients can use both systems in parallel as KMB does."

4 Now can you first tell us when were the Mozart Box  
5 and the Bach box first introduced to the market?

6 MR KULIS: If I remember correctly, the Mozart Box was  
7 introduced to the market in 2011.

8 MR DEREK CHAN: What about the Bach box?

9 MR KULIS: The Bach Box, it was -- I think it was in summer  
10 of 2015.

11 MR DEREK CHAN: So a Bach Box is more advanced than a Mozart  
12 Box? Can you --

13 MR KULIS: Yes, it is an advance of technical evolution.

14 MR DEREK CHAN: Can you tell us in general terms what are  
15 the key differences between the two boxes or the  
16 advances that have been made to the first generation?

17 MR KULIS: Yes. As the technology develops, then the Bach  
18 Box is the second generation of our telematic product,  
19 so it was designed to be smaller, cheaper, faster and it  
20 have more interfaces. That's the major difference.

21 MR DEREK CHAN: More interfaces, what do you mean by that?

22 MR KULIS: Yes, our device can read different data from  
23 different sources, and different ports. You can -- it  
24 mentioned the situation with your laptop, where you have  
25 maybe USB port, the video port and so on, so the Mozart  
26

1           Box and the Bach Box, we have the interfaces for the  
2           vehicle systems, to the cameras, serial line and  
3           tachograph interface, GPS, and so on and so on. So the  
4           Bach Box have more of them.

5       MR DEREK CHAN: Is the Bach Box currently the most advanced  
6           black box system offered by your company?

7       MR KULIS: The current moment, yes.

8       MR DEREK CHAN: Now, can I go on in the submissions provided  
9           by your company. Your company talks about the driver  
10          feedback device.?

11       MR KULIS: Okay.

12       MR DEREK CHAN: Over the page, after that, there is a screen  
13          grab of certain driver feedback thresholds?

14       MR KULIS: Mm-hmm.

15       MR DEREK CHAN: Now, your company says here that the  
16          thresholds were initially defined by Kowloon Motor Bus  
17          and then calibrated by Openmatics to fit the defined  
18          parameters. My first general question is, after your  
19          company has calibrated these threshold values, can the  
20          end user, for example, the bus operator, can they change  
21          or redefine these values by themselves, or do they have  
22          to go back to your company?

23       MR KULIS: Yes. The general concept is that customer can  
24          change the threshold if he wants to.

25       MR DEREK CHAN: Now, just going through the threshold  
26

1 values, one by one.

2 The first two parameters, or the first two  
3 thresholds, relate to acceleration and deceleration.

4 Can you tell us what is the time frame within which the  
5 acceleration or deceleration is measured before the  
6 threshold is considered crossed?

7 MR KULIS: Okay. I think the acceleration -- in general all  
8 the thresholds are measured in the time frame of one  
9 second.

10 MR DEREK CHAN: Of one second. Is the system -- and I'm  
11 talking about the system supplied to the Hong Kong bus  
12 companies, is it capable of incorporating different  
13 measures of acceleration and deceleration over different  
14 time periods, for example a constant acceleration over  
15 three second or five second intervals? Is that possible  
16 under this current system?

17 MR KULIS: Yes, this is possible, I think this option is  
18 configured.

19 MR DEREK CHAN: So this type of measuring acceleration, and  
20 deceleration, is capable to be recorded under the both  
21 the Mozart Box and Bach Box, or just one type of them?

22 MR KULIS: Yes. On the both, it is the same software, to be  
23 correct.

24 MR DEREK CHAN: If that's the case, is there any reason why  
25 we don't see that type of threshold definition in this  
26

1 screen grab here? If it is possible?

2 MR KULIS: Excuse me, I didn't get the point of your  
3 question.

4 MR DEREK CHAN: I will just start again. If I can draw your  
5 attention to the screen grab in the middle of the page?

6 MR KULIS: Yes.

7 MR DEREK CHAN: You just told us that the acceleration and  
8 deceleration rates are measured per second?

9 MR KULIS: Yes.

10 MR DEREK CHAN: And my question was can the acceleration and  
11 deceleration threshold values be measured at variable  
12 time periods over a longer period, three seconds, five  
13 seconds, so that you can measure a more constant  
14 acceleration or deceleration? Is it possible under this  
15 system? Or do you need something else?

16 MR KULIS: Yes. To be absolutely correct, this is possible,  
17 but the configuration of this parameter is not public.  
18 So the current application is not designed to be  
19 configurable in this time frame of the (unclear), but  
20 the system is capable to be configured in this way. It  
21 is just not designed for the end customer like that.

22 MR DEREK CHAN: The reason I'm asking this question is  
23 because when I look at your company's website, and in  
24 the Vivaldi on-board unit, one of the thresholds for  
25 acceleration/deceleration is speed increase by more than  
26

1 50 per cent within three seconds, or an increase of more  
2 than 32 kilometres per hour over five seconds, so you  
3 have a variable way of measuring sudden or extended  
4 acceleration and deceleration.

5 So my question is really, is that sort of more  
6 sophisticated way of measuring acceleration and  
7 deceleration available with the current technology that  
8 is supplied to the Hong Kong bus companies?

9 MR KULIS: Yes. Now you are talking about the Vivaldi unit,  
10 this is the unit we are providing for passenger cars and  
11 which we introduced to the market in 2017, or beginning  
12 of 2018, so the software is more sophisticated on the  
13 Vivaldi unit that compared to the Mozart and the Bach.

14 MR DEREK CHAN: Yes, I understand that. So do I take it  
15 that the most sophisticated way of measuring  
16 acceleration and deceleration is not available in the  
17 current Mozart or Bach units?

18 MR KULIS: I think it is available because we have the open  
19 application concept. It was just not requested by any  
20 customer so far. But it can be changed any time.

21 MR DEREK CHAN: I see. On the issue of acceleration and  
22 deceleration still, can I take you to a few pages on --

23 CHAIRMAN: Before you move on. Mr Kulis, can I just ask  
24 you, from that page where you have the data displayed,  
25 just above the data display there is a narrative  
26

1 describing what is being displayed. Can I ask that that  
2 be brought up on the screen.

3 The sentence that I want to draw to your attention  
4 is this:

5 "The driver feedback thresholds for the accident bus  
6 were initially defined by KMB and then calibrated by  
7 Openmatics to fit KMB's defined parameters."

8 And the question I wanted to ask you is, which is  
9 the accident bus? What is meant by that?

10 MR KULIS: I think this is referring to the recent fatal  
11 accident on the Tai Po Road, if I'm correct.

12 CHAIRMAN: The Tai Po accident bus?

13 MR KULIS: Yes, which happened ...

14 CHAIRMAN: Thank you.

15 MR DEREK CHAN: Mr Kulis, on the issue of acceleration and  
16 deceleration values, can I draw your attention a couple  
17 of pages on from the submissions at paragraph 5.

18 Chairman, members of the committee, page 69 of our  
19 bundle. Paragraph 5.

20 MR KULIS: Okay.

21 MR DEREK CHAN: In the middle of the page, again, in blue,  
22 that is the answers from your company, it is stated  
23 that:

24 "The telematics system installed at KMB is capable  
25 of recording speed, deceleration and acceleration of the  
26

1 buses. However, the deceleration and acceleration of  
2 the buses as feature recording this on an ongoing basis  
3 is not enabled."

4 Are you able to elaborate or explain to us what is  
5 meant by this paragraph, especially the part about  
6 recording acceleration and deceleration on an ongoing  
7 basis?

8 MR KULIS: Yes, I'm also not sure if I will get the point of  
9 this sentence correctly, but I think the sentence is  
10 referring to the situation that these values,  
11 acceleration and deceleration, for the KMB we are using  
12 to raise realtime warnings, not for recording them to  
13 the data. This is my understanding of this declaration.  
14 So we have the system, the driver feedback device, which  
15 is warning the drivers in the realtime if they  
16 accelerating too much or decelerating too much. For  
17 this propose we are using the values of acceleration and  
18 deceleration, we are not storing these values for the  
19 historical data. That's my understanding of this  
20 sentence declaration.

21 MR DEREK CHAN: I see. Okay.

22 So your understanding is that the acceleration and  
23 deceleration are not recorded in the black box data  
24 systems?

25 Is that correct, Mr Kulis?

26

1 MR KULIS: Yes, that's my understanding. Because another  
2 function of the -- our box is the record, the several  
3 data, as the black box feature. There are maybe 20  
4 different values, but not the acceleration and  
5 deceleration.

6 MR DEREK CHAN: Is there a reason, a purpose for not  
7 enabling the storing of such data?

8 MR KULIS: If definitely there must be a reason, but it is  
9 not known for me, and I think the data set which is  
10 recording for the customer, KMB for example, most  
11 definitely by the customer KMB, so whatever data they  
12 can read, we can store. Obviously it has some impact on  
13 the data volume transferred and so on. That might be  
14 the reason, but it is not, at least for the moment.

15 MEMBER LO: I have a question on acceleration, deceleration,  
16 is it measured by an accelerometer or is it calculated  
17 by velocity change over time?

18 MR KULIS: As we can also see on this screenshot from the  
19 configuration, the very first parameter is the  
20 acceleration signal source, in this situation the signal  
21 source is changed in the vehicle speed, and from that  
22 over the one second is calculated acceleration or  
23 deceleration, in this case. But it can be also switched  
24 to the internal accelerometer of the Mozart Box or the  
25 Bach Box.

26

1 MEMBER LO: So is it directly measured or is it derived from  
2 velocity changes over time?

3 MR KULIS: From this configuration, which we are looking on,  
4 it is derived from the vehicle speed --

5 MR DEREK CHAN: So did the signal come from the speedometer,  
6 is that correct, in this case? So the signal source of  
7 the acceleration and deceleration calculation, the  
8 signal source comes from the speedometer of the bus, and  
9 then the computer or the system calculates the  
10 acceleration and deceleration based on the changes in  
11 the vehicle speed as recorded by the bus itself; is that  
12 correct?

13 MR KULIS: Yes, that's correct.

14 MR DEREK CHAN: Moving on to the next parameter, which is  
15 the tilting angle, in terms of degrees?

16 MR KULIS: Yes.

17 MR DEREK CHAN: In this case we see that the tilting angle  
18 is set at 44 degrees in this case?

19 MR KULIS: Mm-hmm.

20 MR DEREK CHAN: From a technical perspective, do you know  
21 why the angle of 44 is selected, why not some other  
22 figure?

23 MR KULIS: I think value of the 44, as you can imagine, is  
24 not a real value for the operating bus. So my  
25 understanding of this configuration is that it means  
26

1           that deactivation of the tilting angle warning in this  
2           example.

3           If you do not want to be notified on the tilting,  
4           then you can set it up to the value which you will not  
5           reach during the normal operation, and this, for  
6           example, is 44.

7   MR DEREK CHAN: The next parameter under tilting angle is  
8           the configuration of excessive speed values.

9           In this screenshot we can see two parameters under  
10          that. One is speed and one is speed in areas, and this  
11          this case, both are set at 75 kilometres per hour.

12          Now, firstly, a more basic question. Just to see if  
13          my understanding is correct. So if the bus in this case  
14          exceeds 75 kilometres per hour, the threshold would be  
15          considered crossed; is that correct?

16   MR KULIS: That's correct.

17   MR DEREK CHAN: What is the difference between these two  
18          parameters, speed and speed in areas?

19   MR KULIS: The application driver feedback is capable of  
20          handling the areas where you can set up different speed  
21          limits. For example, you can have some areas with 50  
22          and some with 70. So if you want to configure this  
23          application in that way, that you are respecting that in  
24          some areas you have different speed limit, then this  
25          particle configuration parameter, speed in area, should  
26

1 be different.

2 And then, of course, you need also to configure the  
3 areas in some other window, or enter some geofencing  
4 into the system.

5 MR DEREK CHAN: I'm interested in that last bit of your  
6 answer.

7 Obviously the bus, if you wish to take advantage of  
8 the speed in areas parameter, the system would have to  
9 know where the bus is to trigger that parameter. How is  
10 that done, technically?

11 MR KULIS: This is currently done by the GPS technology,  
12 both on the Mozart and the Bach Box, and in the Hong  
13 Kong commission, the GPS technology is also supplied  
14 with data recording feature which is helping to recover  
15 the GPS position when the signal is lost.

16 MR DEREK CHAN: Is this capability of setting different  
17 speed thresholds in different areas, is this capable in  
18 the current systems that are supplied to the Hong Kong  
19 bus companies? Or do they have --

20 MR KULIS: Yes.

21 MR DEREK CHAN: -- to add something extra to utilise this  
22 feature?

23 MR KULIS: No. Of course they need to configure or in  
24 cooperation with us, we need together to configure the  
25 areas, we need to define results, the rules, then the  
26

1 system is capable.

2 MR DEREK CHAN: In this case, we have the same speed, 75,  
3 for both parameters. What would be the use of, or the  
4 purpose of configuring both parameters at the same speed  
5 in this case?

6 MR KULIS: I think that also means that this feature is not  
7 used for this particular configuration.

8 MR DEREK CHAN: I see. Now in Hong Kong, I'm sure you  
9 realise, that we are generally a very dense city, with  
10 lots of high rise buildings. To what extent would the  
11 stability or reliability of the GPS signals in places  
12 such as Hong Kong with a lot of high rise buildings, how  
13 would it affect the efficiency of such a system?

14 MR KULIS: Of course the -- let's say the precision of the  
15 positioning is affected by the Hong Kong environment, it  
16 is called (unclear), you have very high rise buildings,  
17 so the efficiency and let's say the error in the meters  
18 is higher than on the free land, but I think our  
19 positioning system was generally accepted by the  
20 customers after some several trials of examination and  
21 fine tuning, so as I was recently speaking about the  
22 data recording, we have the special algorithm which is  
23 trying to input the position, the value when the GPS  
24 signal is lost or not recorded. So we are trying our  
25 best to provide a good position.

26

1 MR DEREK CHAN: As far as you are aware, how widespread or  
2 how common is it for commercial fleet operators around  
3 the world to take advantage or to configure different  
4 speeds thresholds, when the vehicle moves into a for  
5 example a lower speed zone? How often is that used?

6 MR KULIS: According to our experience, it is not used so  
7 widely. Most likely we have the operators which are  
8 using only the higher limit, and that's it. It doesn't  
9 matter if you are talking about buses or trucks, usually  
10 the interest is about one general high rule, and it is  
11 I think because they don't want to introduce too complex  
12 system to the drivers.

13 MEMBER LO: If the system can set different speed thresholds  
14 for different areas, the input interface got to be more  
15 complicated than one number. It got to define the area  
16 and the threshold, right? So in this simple interface,  
17 it cannot handle different speed thresholds for  
18 different areas; is that correct?

19 MR KULIS: In this interface you can set up the two  
20 different speed thresholds, and then you need define the  
21 areas in the next window which is not shown, but next to  
22 the headline of this configuration window, you have the  
23 details, settings, messages, and areas configuration.  
24 So you can --

25 MR DEREK CHAN: So does this --  
26

1 MR KULIS: -- particular areas to this configuration, and  
2 maybe you want to limit the speed and the depth only for  
3 some numbers, so you can do it through that.

4 MEMBER LO: So the system is already designed for that, it  
5 is just the interface shown here does not show that  
6 feature?

7 MR KULIS: Yes.

8 MR DEREK CHAN: If I have a digital map that is able to show  
9 different speed limits on different roads, would I be  
10 able to use that combining with the system currently  
11 available here, to configure to set different speed  
12 thresholds depending on where the bus is on the digital  
13 map? Or is that not possible under the system?

14 MR KULIS: Definitely it is possible. Of course we will  
15 need some software which will convert the file format of  
16 your map, which we don't know, to the file format of our  
17 configuration, and at the current moment I also need to  
18 highlight that we are supporting only two different  
19 speed limits, not unlimited values of the limits.

20 MR DEREK CHAN: I see, so the limit of the system is just  
21 two speeds, not multiple speeds; is that correct?

22 MR KULIS: I think this is, to be correct, this is limit of  
23 the current application. It can be easily extended to  
24 support more limits, it is just a software change, but  
25 it is not supported right now because the request was  
26

1 just a low band and a middle band of the speeds.

2 MR DEREK CHAN: Again, just staying on this screenshot and  
3 focusing on the equipment currently supplied to the Hong  
4 Kong bus operators, am I correct to understand if one or  
5 more of these threshold values are crossed, the driver  
6 feedback system would provide visual and acoustic  
7 feedback to the driver immediately? So a light would  
8 come on and there would be a beeping sound of some sort,  
9 is that correct?

10 MR KULIS: Yes, that is correct.

11 MR DEREK CHAN: Now, what I'm interested in is this.

12 In addition to alerting the driver who was driving  
13 the bus, if these threshold values are crossed, do the  
14 systems presently supplied by your company to the Hong  
15 Kong bus operators have the capability of automatically  
16 generating reports for the crossing of threshold values  
17 to alert those monitoring the driver's behaviour that  
18 these values had been crossed?

19 MR KULIS: Yes, the system is capable.

20 MR DEREK CHAN: Of automatically generating reports?

21 MR KULIS: Yes.

22 MR DEREK CHAN: Would the bus company need to have  
23 additional software applications in order to take  
24 advantage of this automatic generation of reports?

25 MR KULIS: No, actually, this is supported directly in the  
26

1 application bundle which we got driver feedback. To be  
2 exact, the driver feedback is not also meant for the  
3 device, it is also the application bundle we are  
4 providing. Part of the application is running on the  
5 device in the bus, but another part of the application  
6 is also running on the server, and it is capable of  
7 receiving events as they appear, so together with the  
8 position information where it happened. Then, for  
9 example, if you have the speeding event, you can see on  
10 the bottom there had been the speeding event recently on  
11 this road, and so on, or you can check the statistics of  
12 it.

13 MR DEREK CHAN: So it is a matter of how the end user or the  
14 bus operator wants to use the data that is being  
15 collected; is that correct?

16 MR KULIS: Yes.

17 MR DEREK CHAN: In addition to these basic threshold values  
18 that we see in this screenshot, do the systems provide  
19 any other threshold values that relate to safety or safe  
20 driving?

21 MR KULIS: Not the application driver feedback currently.  
22 We have also another application which we can just  
23 upload to these boxes, and then we can measure --  
24 basically, any parameter which we can technically read  
25 we can analyse, so if you realise that some maybe bridge  
26

1           somewhere is important parameter to monitor, then we can  
2           start monitoring such parameter, and make the  
3           notifications, something like that.

4   MR DEREK CHAN: Can I then move on to the next topic, which  
5           is the transmission of the data collected by the black  
6           boxes to another place.

7           So for that, can I first take you to our page 69,  
8           which I think in your bundle would be under paragraph 5.  
9           If you have the correct page, at the bottom of the page  
10          there should be a small (ii) at the bottom of the page.?

11   MR KULIS: Yes. I have it.

12   MR DEREK CHAN: And the blue answer given by your company  
13          refers to the system collecting the defined data every  
14          second. And then sends that data to a defined FDP  
15          server every 30 seconds.

16   MR KULIS: Mm-hmm.

17   MR DEREK CHAN: My first question is is the setting of  
18          a 30-second data transmission time gap, is it a matter  
19          of choice, or a matter of the limitations of the  
20          hardware capabilities offered by your company?

21   MR KULIS: It is a matter of choice. It is a configurable  
22          parameter.

23   MR DEREK CHAN: So if the end user wants he can configure  
24          the system to send the data to a defined server every  
25          second, for example?

26

1 MR KULIS: For example, then I will assume there will be  
2 some technology limitation, because the transfer  
3 protocol is FDP file transfer protocol and it needs some  
4 seconds to check and establish a connection and upload  
5 the file, so I think the technology limitation for the  
6 FDP can be about two or three seconds for this --

7 MR DEREK CHAN: So delay --

8 MR KULIS: Just I think the lowest useful value for the FDP  
9 transfer rate should be around 5 seconds. That's my  
10 feeling.

11 MR DEREK CHAN: Taking into account the speed of data  
12 transfer, is my understanding correct?

13 MR KULIS: Exactly.

14 MR DEREK CHAN: Now if the data is capable of being  
15 transmitted and received at, say, 5-second intervals,  
16 does your company provide the technology either in  
17 hardware or software to facilitate realtime monitoring  
18 of the data collected by the black box?

19 MR KULIS: Yes.

20 MR DEREK CHAN: So let me see if I get this right. Your  
21 company supplies the black box, it collects the data,  
22 and the system is able to transfer that data, say, every  
23 five seconds, to a defined server?

24 MR KULIS: Mm-hmm.

25 MR DEREK CHAN: So as a supervisor, I'm sitting in my  
26

1 office, how do I monitor the driver, realtime? Do  
2 I need additional software, or does your company already  
3 provide the software for me to do so?

4 MR KULIS: There are two options, we can provide our  
5 software solution, which consists of the Openmatics  
6 portal and additional applications on the server side.  
7 That is one option, but some customers they are  
8 preferring just to get the data, and they have their own  
9 IT systems behind. In that case we are just the data  
10 provider and we don't care about the utilisation or  
11 operating of that. Utilising that.

12 MR DEREK CHAN: In this case, KMB, is it the case that ZF  
13 only works as, as you describe it, a data provider, or  
14 are you aware of any more advanced use by KMB of your  
15 company's realtime monitoring capabilities?

16 MR KULIS: I think in this case KMB is the customer, at  
17 current moment, they are using their own IT system to  
18 handle the data and work with the data. But, yes, it's  
19 by agreement, we can also change it if we want.

20 MR DEREK CHAN: I see. In your experience, how common is it  
21 around the world in terms of commercial fleet management  
22 for the company to monitor the driving behaviour of its  
23 drivers realtime? How common is that?

24 MR KULIS: I think this is quite a common request. Both  
25 from the safety and economic reason, the companies  
26

1 usually want to monitor the drivers. In some countries  
2 there is the conflict with the law regulation and  
3 protecting the driver safety, like in the West European  
4 countries, sometimes it is not so easy to introduce  
5 monitoring system, but the demand is always there.

6 MR DEREK CHAN: Moving on, then, Mr Kulis, to another topic.

7 You mentioned a bit earlier, or I mentioned actually,  
8 the Vivaldi unit that is offered by your company. When  
9 was this unit first introduced to the market?

10 MR KULIS: I think that was at the end of 2017 or beginning  
11 2018 I'm not sure exactly, but it is relatively new  
12 hardware.

13 MR DEREK CHAN: Is it a more advanced version of the Mozart  
14 and Bach boxes or something completely different?

15 MR KULIS: This is something completely different. The  
16 Vivaldi unit is designed for the passenger cars, it  
17 cannot work in the buses because of different interface.

18 MR DEREK CHAN: So this unit is more for passenger cars not  
19 for buses?

20 MR KULIS: Or maybe light commercial vehicles, but not big  
21 buses. Not for the heavy --

22 MR DEREK CHAN: In that case I'll move on.

23 The next item that I'm interested in, or I am going  
24 to ask questions on, is the ability or the capability of  
25 using software analysis to provide a report on  
26

1 acceptable or unacceptable, safe or unsafe driving  
2 behaviour.

3 Does your company provide the software that is  
4 capable of assessing, based on the data collected by the  
5 black box, capable of assessing or coming up with  
6 a report of what is acceptable or unacceptable driving  
7 behaviour? Is that possible?

8 MR KULIS: Yes, it is possible.

9 MR DEREK CHAN: How is that possible? What do I have to do?  
10 If I'm a bus operator and I come to you and say I want  
11 something that allows me to generate a report of  
12 a particular driver? How would you tell me that can be  
13 done, how can that be done?

14 MR KULIS: In that case, I will introduce you to our  
15 application driver feedback, together with the portal  
16 parts, together with the software solution which we are  
17 providing, so then you can regard the parameters as we  
18 were talking about, then, and you can get also the  
19 statistics, so then at the end of the day, or some  
20 period, you can make your own analysis, for example,  
21 which driver have most warnings, thresholds, speeding  
22 events, and so on.

23 This is one option.

24 And then we can also design the solution for you, if  
25 you are not satisfied with the driver feedback only, if

26

1           you want to have more sophisticated calculations, we can  
2           log the driving data, the parameters, into the database  
3           and make the analysis relevant for you. If you are more  
4           focused on different inputs, maybe some other parameter  
5           is concerning you, we can make analysis and score it on  
6           that.

7           It depends how you feel the logic. If you want to  
8           calculate the bonus points and evaluate the best driver,  
9           or if you want to introduce, let's say, the negative  
10          restriction, it is just check they are better drivers,  
11          or better behaviour, and so on. There are multiple ways  
12          to achieve it.

13          Also depends what the drivers are open for, or the  
14          unions, it can have more solutions.

15   MR DEREK CHAN: So it is just the software capabilities.

16          Because the hardware itself is just the data collected  
17          by the black boxes. Is my understanding correct?

18          I don't need to buy new equipment? In order to come up  
19          with such a score card of a driver's behaviour?

20   MR KULIS: No, you don't need new equipment. If, for  
21          example, now you are the customer, and you already have  
22          our boxes we can just talk about new possibilities and  
23          we can give you the new software and you will use the  
24          same hardware for that.

25   MR DEREK CHAN: In your experience, how common is it around  
26

1 the world in commercial fleet management for the  
2 operator to use software to come up with a score card of  
3 the driver's driving behaviour? How common is it around  
4 the world?

5 MR KULIS: It is -- based on my experience it is relatively  
6 common in the West European countries. On the other  
7 hand, in some other regions, they want to keep the  
8 system simple, like is the driver feedback negative.  
9 Only a simple warning, and that's it. Because still we  
10 need to consider that drivers need to understand what  
11 they are scored for. So if you introduce more complex  
12 calculation, to evaluate the score cards, we need to  
13 provide the training of the drivers, need to understand  
14 it. So it differs by the countries and regions.

15 MR DEREK CHAN: But I think you said it is quite common in  
16 Western European countries?

17 MR KULIS: Definitely.

18 MR DEREK CHAN: Moving on then from this driver score card  
19 --

20 CHAIRMAN: Before you move on. If it is quite common in  
21 Western European countries, what thresholds do they use  
22 to monitor driver behaviour if they are scoring the  
23 driver "good" or "bad", or "average". Whatever the  
24 score card might be?

25 MR KULIS: To give you the example, for example the truck  
26

1 companies in Germany, they are using the parameters as  
2 we have here, the basic parameters, so the speeding  
3 events, acceleration, deceleration, but on top of that  
4 they are, for example, evaluating if the driver is using  
5 the (unclear) for the driving, so he is saving the  
6 brakes, or they even have the analysis of the speed  
7 value shape in time, and the brake application. So if  
8 they are not using the aggressive driving style or if  
9 they are not -- how to say, if they are driving more  
10 effectively. There are multiple analyses for this.

11 CHAIRMAN: So the basic model would be to start with  
12 analysing speeding, acceleration and deceleration,  
13 that's the basic model?

14 MR KULIS: Yes. Also the idling, if you keep the engine  
15 running, if you are standing, then you are wasting money  
16 obviously. That's the basic model. And then on top of  
17 that, maybe saving of the brakes and so on.

18 CHAIRMAN: Thank you.

19 MEMBER LO: I have another question on the 30 seconds.

20 So when you send information every 30 seconds, do  
21 you send second by second of the last 29 seconds, or do  
22 you average everything for the last 30 seconds and send  
23 one number?

24 MR KULIS: We are sending second by second.

25 MEMBER LO: So you get second by second of the last 30  
26

1 second, and not one every --

2 MR KULIS: Each second is recorded.

3 MEMBER LO: Okay, good.

4 MR DEREK CHAN: Moving on to the next topic, which is  
5 automatic logging of a driver's driving or rest times.

6 MR KULIS: Okay.

7 MR DEREK CHAN: I understand that your company offers the  
8 hardware and software to enable a driver's driving time  
9 to be automatically logged or digitally; is that  
10 correct?

11 MR KULIS: To be exact, we are offering the Mozart and Bach  
12 boxes where you can upload the software which is logging  
13 the driver's driving time. We are not selling the  
14 tachographs by the definition of the European law  
15 because the tachographs in Europe are produced and sold  
16 by different companies, and to that kind of the  
17 tachographs we can connect and download, but we are not  
18 selling them.

19 MR DEREK CHAN: Let me see if I understand it correctly. So  
20 what your company provides is the software to be able to  
21 record the driver's driving time based on the data  
22 collected by the Mozart and Bach boxes; is that correct?

23 MR KULIS: That's correct.

24 MR DEREK CHAN: And I think, is the software application  
25 called Digi Tacho Download, or is that something  
26

1 different?

2 MR KULIS: That particular application is used to download  
3 the data from the digital tachograph that needs to be  
4 installed in the vehicle. It is widely used in Europe,  
5 where we have the tachograph rule, tachographs are  
6 mandatory, and to avoid manual downloads from the big  
7 fleets, we can download the data through the Mozart or  
8 Bach Box. For that we have this application.

9 MR DEREK CHAN: I see. What about the application called  
10 the Driving Times app? Does that perform the same sort  
11 of function or is it something different?

12 MR KULIS: It is a little bit more advanced sort of  
13 function. This application is also connected to the  
14 digital tachograph in the vehicle, but the scope of the  
15 application is that you will see on the screen the  
16 remaining driving time for each driver in your fleet, so  
17 you will get the fast overview which driver needs to be  
18 exchanged, which drivers can drive, where they are, so  
19 on. So kind of that.

20 MR DEREK CHAN: So if in Hong Kong we do not have  
21 a tachograph system in the way that Western European  
22 countries may have them, can Hong Kong use this  
23 electronic recording of the driver's driving time  
24 through the data collected by the Mozart and Bach boxes?

25 MR KULIS: Yes. This is generally possible. Because we  
26

1           need just the information about the driver  
2           identification, and the speed. Then we can easily get  
3           the information how long the driver is driving. So we  
4           can make our own implementation of measuring the driver  
5           and times.

6       MR DEREK CHAN: How widely is it used in the world in terms  
7           of systems for electronically logging driver's driving  
8           times? Is it very common or not common?

9       MR KULIS: It is very common in Europe, because we need to  
10          have the tachographs from law. It is not so common in  
11          north or south America, these countries are just  
12          considering if they need the tachographs or the  
13          measuring of the driving times in general or not. Same  
14          in Asia Pacific I think. It is still under discussions.

15       MR DEREK CHAN: Thank you.

16           Moving on then from the electronic logging of  
17          driving times, the next topic I want to cover with you  
18          is the braking systems that are offered by your company.

19       MR KULIS: Okay.

20       MR DEREK CHAN: The two braking systems that we saw from  
21          your company's website being offered by your company,  
22          the two systems that we found are called intarders, and  
23          the second one is called integrated brake control.

24           Now, firstly, what are they, and secondly are they  
25          suitable for use on commercial buses and in particular  
26

1 in Hong Kong, double-decker buses?

2 MR KULIS: Yes, so the --

3 MR DEREK CHAN: If I can ask you to explain those matters

4 one by one, firstly the intarder. What is it?

5 MR KULIS: I think the intarder, this is the additional

6 brake system which is part of the gearbox. For example,

7 the echo live gearbox, which is the product that is

8 used, is also in some Hong Kong buses. It is mostly

9 equipped with this brake system and its commercial name

10 is intarder. So it is kind of additional device on the

11 gear box which can provide the braking power.

12 MR DEREK CHAN: So let me see if I understand it generally.

13 The device, does it use the engine to slow down the

14 vehicle, or am I getting it completely wrong?

15 MR KULIS: No, no, the braking function or the braking power

16 is done in the gear box in this intarder device.

17 CHAIRMAN: So effectively it is going down into lower gears,

18 is that it?

19 MR KULIS: It is actually not going to lower gears, it is

20 using another kind of gear which is there only for this

21 braking. But the principle is something like that.

22 MR DEREK CHAN: Is the intarder capable of being retrofitted

23 to existing buses or do they have to be incorporated in

24 the manufacturing stage?

25 MR KULIS: It is definitely part only of the transmission,

26

1           so you can use the intarder only in the buses where you  
2           have modern sort of transmissions. So the retrofitting,  
3           I'm not sure if this is possible. Probably not in every  
4           bus.

5   MR DEREK CHAN: And how does the intarder enhance safer  
6           driving? Does it help the driver brake in certain  
7           circumstances? How does it help safe driving?

8   MR KULIS: Let me check. If you can give me a few seconds,  
9           I need to browse the training manual.

10   CHAIRMAN: Please take your time.

11   MR KULIS: I think the main advantage is that intarder have,  
12           let's say, bigger braking effect at the higher speeds,  
13           if we will check the brake diagram which shows the  
14           braking power based on the vehicle speed, then the -- if  
15           you are braking by the intarder, then you have higher  
16           braking power at higher speeds, and even available to  
17           the lower speed range.

18           Maybe later I can provide you with the official  
19           diagrams and documents for this.

20   CHAIRMAN: Yes, thank you. That would be helpful.

21   MR KULIS: If you are fine with that, I can give some PDFs  
22           or something.

23   CHAIRMAN: Please do that.

24   MR DEREK CHAN: Just on the issue of providing us with  
25           material explaining how the intarder works, can you also  
26

1 provide something similar in relation to the driver  
2 feedback app, the app with which you create a score card  
3 for the driver. Can you provide the committee later on,  
4 as well, with presentation materials, PDFs to explain  
5 how it actually works.

6 MR KULIS: For the driver feedback application I can send  
7 you the application manual, the official instruction,  
8 how to use the application, how it works.

9 MR DEREK CHAN: That would be very helpful, thank you.

10 I have asked you questions about the intarder. Can  
11 I move on to the same type of questions about the  
12 integrated brake control.

13 Again, firstly what is it, and how does it help safe  
14 driving?

15 MR KULIS: For the integrated brake system, I didn't find  
16 the relevant information so far. So I need to excuse  
17 myself, I will prepare information on that and later  
18 I will give you the connection to the expert on this  
19 field. Still my specialisation is more on the  
20 Openmatics side.

21 MR DEREK CHAN: I see. It would be helpful if you could  
22 forward those materials to us on a later stage.

23 MR KULIS: Yes. Just give me a bit more time and I will  
24 give you something on that.

25 MR DEREK CHAN: Mr Chairman, those are the questions I had  
26

1           for Mr Kulis.

2       CHAIRMAN: Mr Chan, do we know which franchise bus companies  
3           in Hong Kong ZF have supplied equipment and what  
4           equipment they have supplied?

5       MR DEREK CHAN: Mr Kulis, firstly, in relation to the  
6           equipment that is supplied to the bus operators in Hong  
7           Kong, can I take you to your submission at page 65.

8           It is page 65 for us, but it would be the first page  
9           of your submission.

10      MR KULIS: Okay.

11      MR DEREK CHAN: That has the heading "Annex III".?

12      MR KULIS: Okay.

13      MR DEREK CHAN: Now, you have noted -- or at least your  
14           company has noted in this submission that your company  
15           has entered into supply contracts with Kowloon Bus  
16           Company, and Long Win Bus Company. And the black box  
17           systems installed are the Mozart Box and the Bach Box.  
18           Are these systems supplied to both KMB and Long Win, or  
19           are the systems supplied a bit different for each  
20           company?

21      MR KULIS: As far as I know, our customer is called KMB, but  
22           I'm not specialist for this business question, so  
23           I cannot say it for sure.

24      MR DEREK CHAN: Do you personally, or at least do you have  
25           access to information which tells us what equipment has  
26

1           been supplied to Kowloon Motor Bus and Long Win Bus  
2           Company?

3       MR KULIS:   You mean which kind of hardware?

4       MR DEREK CHAN:   Yes.?

5       MR KULIS:   I think also as is stated below we were supplying  
6           the Mozart Box in the past, and then the Bach Box is the  
7           successor to the Mozart.   Plus the driver feedback  
8           device and the accessories, that means cables, antennas  
9           and all the stuff which you need to run the system.

10      MR DEREK CHAN:   Can I also refer you to what in our bundle  
11           is page 52.   For your purposes, what I'm looking at is  
12           a letter from the Committee to your company dated  
13           25 May 2018, which contains a number of annexes, and  
14           I want to look at annex II.   So perhaps you can look at  
15           the screen.?

16      MR KULIS:   Okay.

17      MR DEREK CHAN:   The screen talks about Kwoon Chung, which is  
18           a company in Hong Kong that runs buses, to put it  
19           generally?

20      MR KULIS:   Mm-hmm.

21      MR DEREK CHAN:   Do you have any knowledge about what is  
22           being described in this page?

23      CHAIRMAN:   Perhaps for the purpose of the record, Mr Chan --

24      MR KULIS:   I didn't see this text before, but it is  
25           definitely true that Kwoon Chung is also our customer

26

1           and they are also using some telematics services in  
2           a similar case to the customer KMB.

3       CHAIRMAN: Perhaps you could read it out, Mr Chan, because  
4           when one comes to read the transcript, it is difficult  
5           to understand what one is following unless at least some  
6           of it has been read out.

7       MR DEREK CHAN: Certainly. Firstly, the page refers to  
8           a system that has been supplied to Kwoon Chung, and at  
9           the bottom paragraph of this page it is stated that:

10           "We got a tailored app for data collection to  
11           substitute the Black box. Now we receive telematics and  
12           also diagnostics data about our vehicles. Openmatics  
13           telematics solution was integrated in our BSAS (bus stop  
14           announcement system) so our passengers get up to date  
15           information. We were able to increase safety and reduce  
16           costs by changing particular behaviour of our drivers.  
17           We are planning to move forward to Openmatics platform  
18           2.0 soon. We would like to use more smart solutions  
19           from Openmatics in our company and are currently  
20           considering an entertainment solution with on-board  
21           hotspot and depot management to monitor vehicles  
22           entering and leaving depot with bluetooth smart TAGs."

23           So firstly, are you able to tell from the paragraph  
24           what system had been supplied to Kwoon Chung?

25       MR KULIS: I think to Kwoon Chung we supply the Bach boxes

26

1 as the hardware plus the cables and so on, and the  
2 software downloads. They do not have the Mozart boxes  
3 because I think --

4 MR HUI: If I may assist, the witness is more responsible on  
5 the technical side. So on the business side, he may not  
6 be able to provide useful information to this  
7 commission. But if Mr Chan wants to ask, we can  
8 continue the questioning.

9 CHAIRMAN: I don't understand the difference between the  
10 business and the technical side. The question simply is  
11 this. When the statement says "We plan to move forward  
12 to Openmatics platform 2", what does that mean to you?

13 MR KULIS: Ah, okay. They are going to release soon the new  
14 portal version, or we to all Openmatics customers, we  
15 will provide access to the new Openmatics portal,  
16 because the old portal, the server solution was designed  
17 five or six years ago, and it uses old technologies, it  
18 is not so nice, so the 2.0 will mean the new server  
19 solution for the Openmatics system.

20 CHAIRMAN: Thank you.

21 MR DEREK CHAN: Perhaps I can see if I'm understanding this  
22 correctly, in terms of hardware being supplied to the  
23 Hong Kong bus operators, you are talking about the Bach  
24 and the Mozart boxes that are responsible for collecting  
25 data?

26

1 MR KULIS: Yes.

2 MR DEREK CHAN: How that data is then subsequently used is  
3 a software problem, not a hardware problem, is that  
4 correct?

5 MR KULIS: That's correct.

6 MR DEREK CHAN: And your company develops certain software  
7 to take advantage of the data collected by the Mozart  
8 and Bach Boxes?

9 MR KULIS: Yes, that's true.

10 MR DEREK CHAN: Do you know if your company is supplying the  
11 software to analyse the data? Is your company supplying  
12 that software to the Hong Kong bus companies and, if so,  
13 what software had been supplied, do you know?

14 MR KULIS: I think they are not supplying software to the  
15 KMB as far as I know, for this analysis but we are in  
16 negotiation with Kwoon Chung to develop some common  
17 solution how to analyse, for example, the driver  
18 behaviour and some other parameters like maybe some  
19 diagnostics services and so on.

20 MR DEREK CHAN: Mr Kulis, thank you for your help.

21 Mr Chairman, those are the questions I have for  
22 Mr Kulis.

23 CHAIRMAN: Thank you.

24 MEMBER LO: I just have a clarification. The paragraph  
25 mentioned about Openmatics platform 2.0. Is that  
26

1 a hardware platform or is it a software app platform?

2 MR KULIS: It is the software app platform. It is the  
3 server side of the solution.

4 MEMBER LO: So that's a software platform, that will  
5 manipulate the data collected for various purposes.

6 MR KULIS: Exactly.

7 CHAIRMAN: Well, thank you very much for your assistance,  
8 Mr Kulis, it has been an educational experience. And we  
9 hope to put the information to good use.

10 Thank you for accepting our invitation to assist  
11 this enquiry in its work.

12 MR KULIS: Okay, it is my pleasure to help you.

13 MR HUI: Mr Chairman, I have a short closing remark on  
14 behalf of ZF.

15 CHAIRMAN: We will happily receive it.

16 MR HUI: On behalf of ZF I wish to thank this Commission  
17 for its invitation to assist. ZF will continue to try  
18 their best to assist this Commission on a voluntary  
19 basis. ZF is determined and committed to make a  
20 contribution to the improvement of road safety in Hong  
21 Kong and around the world.

22 We hope the information provided by ZF, and  
23 Mr Kulis, is helpful to this Commission, and for further  
24 information and documents, we will continue to work with  
25 the Secretariat. Thank you.

26

1 CHAIRMAN: Thank you for that statement, and thank you for  
2 the undertaking to continue to assist us. It is most  
3 gratefully received.

4 Mr Kulis, thank you for your assistance, and these  
5 proceedings are now closed, for the current hearing.

6 Thank you.

7 (4.30 pm)

8 (The hearing adjourned to Monday, 16 July 2018)

1 2018 年 7 月 14 日

2 上午 9 時 01 分恢復聆訊

3 出席人士：黃碧嬌議員，BBS，MH，JP，大埔區議會副主席和交通及運輸委員會  
4 轄下跟進公共巴士及小巴服務工作小組主席（大埔區議會代表）

5 劉志成博士，交通及運輸委員會主席（大埔區議會代表）

6 陳笑權議員，MH，JP，環境、房屋及工程委員會主席（大埔區議會代  
7 表）

8 陳灶良議員，MH，地區設施管理委員會主席（大埔區議會代表）

9 任啟邦議員，交通及運輸委員會委員（大埔區議會代表）

10 容溟舟議員，交通及運輸委員會副主席（沙田區議會代表）

11 陳穎欣議員，環境保護工作小組主席（深水埗區議會代表）

12 林家輝議員，BBS，JP，地區設施委員會主席（深水埗區議會代表）

13

14 主席：（經傳譯員）早晨，我哋歡迎大埔區議會嘅代表，我哋多謝佢哋接受我哋邀請  
15 今日嚟到協助我哋提供證供。我首先會請黃女士向代表提問題，如果黃女士想  
16 請區議會嘅邊位特別嘅代表回答問題，請你可以指出係邊一位嘅代表，然後請  
17 佢答問題。而家可以請黃女士協助委員會提出問題。

18 黃佩琪女士：（經傳譯員）多謝主席，歡迎各位先生、女士出席今日嘅聽證會，我有  
19 幾個題目方面係想提問題嘅。首先我想邀請大家睇一封信，係委員會喺 2018 年  
20 5 月 4 號所寫嘅，就係請你就住三宗意外提供證供，就係 DC 文件夾第 2 號 759  
21 頁，係中文嘅，我想提個三宗嘅意外，就係大概講一講，第一宗就係大貴街，  
22 2012 年 10 月 10 號，就係註腳 1 個度嘅；第二，就係大窩西支路，2013 年 5  
23 月 12 號嘅；然後第三宗意外就係大埔公路，喺 2018 年 2 月 10 號嘅。喺呢封  
24 信個度，委員會請你就住呢三宗意外提交文件，係咪正確呀？

25 黃碧嬌女士：早晨。係咪而家係屬於由我哋大埔區議會係就住呢三宗嘅 case 係表達  
26 意見呀？

27 黃佩琪女士：（經傳譯員）仲未係嘅，而家只係一般嘅問題，就關於嗰封信，就話委  
28 員會喺封信裏面邀請各位發表意見或者提供文件，係同呢三宗交通意外有關  
29 嘅，你可唔可以首先證實呢一點呢？

30 黃碧嬌女士：係，喺大埔，喺呢一份文件裏面，上述三個日期都係有呢啲交通意外  
31 嘅。

1 黃佩琪女士：（經傳譯員）喺回覆嘅時候，我相信大埔區議會同埋佢嘅委員會同埋工  
2 作小組都可以證實，就話你只係就住大埔嗰宗意外，即係 2018 年 2 月 10 號嗰  
3 宗意外有討論過，請大家睇文件 762 頁，而英文版就係 764 頁，睇唔睇到？中  
4 文版 762 頁，第二段，或者可以讀出嚟，就係大埔區議會所發出嘅信件，係回  
5 覆委員會嘅，日期就係 2018 年 5 月 23 日，信裏面提及喺相關嘅紀錄當中，大  
6 埔委員會同埋佢嘅屬下委員會同埋工作小組只係討論過喺大埔公路接近大埔尾  
7 嗰宗交通意外，即係 2 月 10 號嗰宗交通意外，係咪正確呢？

8 黃碧嬌女士：係。

9 黃佩琪女士：（經傳譯員）我可唔可以咁講，就係根據你嘅紀錄，或者你哋嘅討論，  
10 你哋只能夠可以搵番同大埔交通意外有關嘅紀錄，就有其他交通意外嘅紀錄  
11 呢？

12 黃碧嬌女士：我哋都係就住 2018 年 2 月 10 號呢一個嘅巴士意外事件係進行過一個  
13 嘅特別嘅會議係討論嘅。

14 黃佩琪女士：（經傳譯員）好，唔該。首先我想請你睇番呢個特別會議嘅會議紀錄，  
15 就係 2018 年 2 月 12 號，中文版就係 766 頁開始，英文版就由 782 頁開始。  
16 或者我用英文版本，我哋可以睇到出席會議嘅人士名單就喺 768 頁中文版，然  
17 後英文版就係 783 頁，就包括就係運輸署署長陳美寶女士，仲有鄒頌滿先生，  
18 就係警司嚟嘅，就係 766 頁開始，中文版。

19 黃碧嬌女士：係呀。

20 黃佩琪女士：（經傳譯員）或者就請大家睇第 5 段，英文版就 785 頁，鄒頌滿警司  
21 喺嗰段提到，就話有關嗰段路段喺 2017 年警方喺嗰度有四次拘捕行動，就係牽  
22 涉到兩名醉駕嘅人士同埋一宗同毒品有關嘅罪行，即係兩宗就危險駕駛，然後  
23 喺嗰個路段，2017 年警方就一共發出咗三十二張告票，涉及超速或者其他不遵  
24 守交通規則嘅罪行，喺赤泥坪到黃宜坳段喺 2017 年一共發生咗二十九宗交通意  
25 外，其中兩宗比較嚴重，雖然嗰段路段就有路面偵速攝影機，但係警方不時會  
26 喺嗰個路段幾個特定地點擺放偵速工具，進行偵測超速嘅行動，你睇唔睇到呢  
27 段？

28 黃碧嬌女士：睇到。

29 黃佩琪女士：（經傳譯員）好，有關呢一點，呢個係咪因為回應大埔區議會嘅問題，  
30 就話問到嗰段路段，大埔公路嗰個特別路段發生嗰幾宗意外，所以點解警方就  
31 提供呢啲資料，係咪？

32 黃碧嬌女士：係。

33 黃佩琪女士：（經傳譯員）而事實上，你嘅會議紀錄第 16 段，或者請大家睇第 16  
34 段，中文版 772 頁，英文版 789 頁，你可以睇到喺第 16 段第 (iv) 小段提到話  
35 過去曾經有區議員提出建議點樣改善有關肇事路段嘅道路設計，但係運輸署以

技術理由就有跟進，佢，即係羅曉楓議員，我相信佢係大埔區議會嘅區議員，佢希望署方喺發生呢次意外之後能夠回應區議員嘅訴求加裝路面測速儀器同埋指示牌，令到呢個路段更加安全。喺呢段裏面，你可唔可以再詳細啲解釋一下第一句說話，就話過去曾經有區議員提出建議點樣改善道路設計，但係運輸署就有跟進，可唔可以再詳細啲講一講呢一段呢？

黃碧嬌女士：好呀，唔該。我哋今日都有我哋當區嘅區議員陳笑權議員係出席嘅，喺呢度都可以請佢就住呢一段係表達一下意見。

陳笑權先生：可唔可以由我講解？

主席：（經傳譯員）係可以嘅，請講。

陳笑權先生：好。就我作為當區議員，就收到啲居民就反映，有時啲假期就好多啲快車就喺個大埔公路嗰度就擾民同埋佢嘅車速非常之快，我收到啲居民投訴，我就去信畀運輸署，要求嗰度就加番啲快相機，喺信件都有提及，喺 2015 年 7 月 24 號同埋喺 2017 年 6 月 5 號分別我都去咗兩封信，第一封就畀運輸署，第二封就畀警方。我封信都寫得好清楚嘅，第一封信就關乎就喺翡翠花園附近嗰度逢係星期六、日朝頭早好多啲快車，就我就畀咗封信運輸署，運輸署就佢都有口頭上有回覆我嘅，首先都一定要諮詢當區啲居民、啲法團，睇下佢哋個回應先，由於上面嗰度就--翡翠花園嗰度就唔屬於係一個嚴重交通意外嘅黑點，所以一路一路就未有去跟進到。

至於第二封信嗰度，就喺大埔尾至到嗰個鹿茵山莊嗰段，由於喺赤泥坪嗰面一路上斜坡，個車速一般普通車係快唔到嘅，除非嗰啲係一定係啲跑車先可以快得到。上咗之後一落，落個彎位個車速就一定好快，所以我見到嗰個彎位好得人驚，我知，我就去信畀直情係警方，要求警方喺度加個快相機，警方就都有覆我嘅，佢就話嗰度唔屬於一個好交通黑點，不過佢都會派人去睇或者派啲快相機，喺嗰度裝啲快相機就喺度監控，呢度都有做。

上次經過呢個意外之後，佢哋問我有冇睇過呢條路，我即時--好在我自己有作為一個議員，不斷都有監察政府嘅運作，所以我即時就攞番兩封信就呈現番喺區議會度，同埋好多傳媒、啲媒界就都係我作為當區議員，我係有事實當然係有要求運輸署同埋警方喺嗰個路段就要求佢做一個減速標誌同埋加快相機嘅，所以羅曉楓睇到我呢兩封信，佢先至有追問，佢話「點解議員寫咗封信，你哋冇反應呢？」就咁嘅一封信得嚟嘅，唔該。

黃碧嬌女士：唔該陳笑權議員。

黃佩琪女士：（經傳譯員）唔該陳先生。你提到有幾封信，第一封就係 2015 年 7 月 24 號嘅信件，或者我哋首先睇嗰份文件，呢個就係寫畀運輸署嘅，中文就係 840-72 頁，英文就係 840-75 頁。

陳笑權先生：係，㗎。

黃佩琪女士：（經傳譯員）呢封就係第一封信你寫畀運輸署嘅，大埔組王國良先生就

1 係負責工程嘅，嗰度就提到話你係收到喺附近居民要求協助，就話嗰度就有足  
2 夠嘅慢駛嘅道路標誌喺近住翡翠花--嗰度嘅，所以你就要求佢哋儘快加裝 50 公  
3 里時速限制嘅道路標誌喺度，然後以提醒駕駛者就要小心安全駕駛，呢個係咪  
4 你第一封信得到個回覆？

5 陳笑權先生：正確嘅。

6 黃佩琪女士：（經傳譯員）陳先生，你提到話要儘快加裝時速 50 公里嘅速度限制標  
7 誌，喺嗰段時間，嗰段車其實個車速限制係 70 公里嘅，所以點解你會寫到話係  
8 50 公里呢？

9 陳笑權先生：由於 70 就再減落去，香港法例係得 50 嘅，佢有 65，又有 60，所以  
10 得 50，同埋佢哋啲居民--住喺翡翠花園一帶嗰啲居民都向我個求助，佢話  
11 「你作為一個議員，就幫我去信。」我應佢哋要求。亦都之前有少少嗰啲插  
12 曲，有啲嗰個--有些少交通意外，同埋個彎位--個手臂彎係最彎嗰個位，我覺  
13 得喺嗰段嚟講，就 50 就都係合理嘅，我就唔係專家，我就交番畀運輸署嗰面就  
14 幫我做一个諮詢同埋去睇下可唔可以喺上面路段可以裝番個 50 咁。

15 主席：（經傳譯員）我哋嘅理解，就係話呢個即係你係有要求將嗰個時速限制由 70  
16 公里減到 50 公里呢，即係每小時？

17 陳笑權先生：係，我都係聽民意，市民畀電話畀我，我都覺得喺嗰個彎位係危險啲嘅  
18 嗰度，所以我係特別註明嗰個彎位一帶嗰度就由 70 減為 50 嘅。

19 黃佩琪女士：（經傳譯員）有關呢封信，運輸署或者--應該話運輸署有畀過書面回覆  
20 係回應呢封信嘅，即係喺大埔意外之前，係咪正確呢？我相信你係你進一步提  
21 交文件畀本委員會時候有提到嘅，就係一封信 18 年 7 月 11 號嘅，中文版即係  
22 840-76 頁，然後英文版就係 840-86 頁。

23 陳笑權先生：係，就當時就運輸署就有好正面，不過我都有電話同佢傾嘅，佢哋都係  
24 要口頭上都要--如果係要減嗰個改為 50，都要去諮詢番一帶嗰個居民同埋嗰啲  
25 法團嘅意見。亦都喺 2014 年嗰度，亦都喺國際嗰個--日本人國際學校嗰個紅  
26 綠燈對出嗰度有單交通意外嘅，導致一名市民就會傷亡，運輸署亦都有回應過  
27 嘅，就係王國良先生。佢始終就嗰個車路就限制 50，運輸署與警方要研究後個  
28 意外，包括埋駕駛者嘅態度同埋遵守嗰個交通燈嘅問題，個意外就--即係喺嗰  
29 個路段要做一個 70 改 50，可能喺運輸署嘅角度，佢要做好多好多諮詢同埋要  
30 同警方聯繫，咁樣先可以改到。我就一路一路喺度等，都有聯絡，而家都王國  
31 良先生都調咗，都有不幸就呢個大埔尾嗰個交通意外，好在我之前亦都提示警  
32 方，我話運輸署做唔到，我話不如試下警方，由警方負責去裝呢個快相機嘅，  
33 呢度就係一路跟進緊。

34 主席：（經傳譯員）喺電話上面，同運輸署關於呢件事，你同邊個通過電話？

35 陳笑權先生：王國良，嗰個運輸署嗰個工程師。

1 主席：（經傳譯員）佢喺運輸署入面，佢嗰個嘅官階職級係乜嘢呀？

2 陳笑權先生：嗰陣時應該係運輸署嗰個高級主任嚟嘅，好似高級主任。

3 主席：（經傳譯員）你同佢講關於 2015 年 7 月 24 號嗰件事通話嘅時候就係講啲  
4 乜？係幾時同佢通電話？

5 陳笑權先生：唔係好清楚，我哋每一日做議員，都一收到啲個案，都儘快都同佢哋  
6 傾，希望佢哋儘快裝嗰個標誌同埋嗰個減速嘅，由於佢哋嗰個程序上，政府好  
7 多個程序上嘅，我都明白嘅，我哋一路一路去跟進，佢要去裝嗰個 50 呢，佢真  
8 係要去地區諮詢嘅，我都明白到有個程序嚟度，一路一路一路跟，尤其是我哋  
9 喺地區上係好多好多工作，呢個係其中之一嘅工作。呢度就都居民都耐唔耐都  
10 有畀下電話我，都想將呢一段路段，嗰個手臂彎位嗰度一帶就係想減速為 50，  
11 呢個好清楚嘅呢度。

12 主席：（經傳譯員）黃律師，我哋未講其他嘢之前，可唔可以睇一睇呢段路段嘅地  
13 圖、相，等我哋知道我哋究竟講緊乜嘢呢？

14 黃佩琪女士：（經傳譯員）係。或者可唔可以睇番大埔公路路段嘅地圖？首先，陳  
15 生，我想你睇下呢個地圖，有關嘅路段，話你建議將車速減低係喺呢一個翡翠  
16 花園附近嘅，似乎就係喺 26 同 29 呢兩個數字中間嘅，係嘛？

17 陳笑權先生：係，嗰個紅林路之前嘅手臂彎位嗰度。

18 黃佩琪女士：（經傳譯員）或者你可以指出你向運輸署建議，叫佢哋睇番減速嘅嗰段  
19 路段，即係由呢一個 70 公里減到 50 公里嗰個路段，可以講一講嗰個數字，顯  
20 示畀我哋睇。

21 陳笑權先生：係 30、29 至 28 嗰個彎位嗰度，即係喺 30 進入 29 至 28 嗰個彎位嗰  
22 度，同埋佢地下嗰度一大雨就會水浸，嗰個彎位，28 嗰度個彎位，我哋亦都  
23 去咗信譽路政署，要求佢將嗰個地下水——就佢一大雨就養住啲水，就喺個路面  
24 度係非常之危險嘅，所以嗰個彎位，我特別好重視呢個彎位嘅。同埋朝頭早，  
25 星期六、日，嗰啲跑車入呢個彎位好危險，所以我就係重點就喺呢一帶嘅。唔  
26 該。

27 黃佩琪女士：（經傳譯員）或者我哋可以畀你睇下 28、29 同埋 30 嗰啲嘅相，等我  
28 哋知道你講緊嘅係邊一個彎，第 28 號嘅相，呢一度就影到嗰一部分，就係近住  
29 紅林路嘅，係咪呀？

30 陳笑權先生：呢個係前咗，後番少少，呢個係出番九龍方向，你而家再前——你係啱啱  
31 倒番轉頭，應該係向後。

32 黃佩琪女士：（經傳譯員）或者 27，係咪呢？

33 陳笑權先生：我諗褪多一格。

1 黃佩琪女士：（經傳譯員）26？

2 陳笑權先生：你又過咗龍，30，29。

3 黃佩琪女士：（經傳譯員）應該係 26 同 27 之間？

4 陳笑權先生：呢個蔚海山莊，唔係呢個，你後番，後番。

5 黃佩琪女士：（經傳譯員）係咪 29 呢？

6 陳笑權先生：（沒有可聽到的回答）

7 黃佩琪女士：（經傳譯員）陳生，或者我哋畀條片你睇，就係有關路段，等你可以話  
8 --到咗嗰度，你就叫我哋停。

9 陳笑權先生：再向前啲，就到㗎喇。（上午 9 時 27 分委員會播放影片）

10

11 陳笑權先生：再向前啲。

12

13 （上午 9 時 27 分委員會繼續播放影片）

14

15 陳笑權先生：就係過咗呢個--喺呢個彎位，停，呢個彎位，一路轉落去，個彎位有陣  
16 時兩架雙層巴士一過都好--呢個就好危險，同埋地下呢個彎位，即係嗰嗰有個人  
17 企喺度嗰度就容易養水嘅呢度，一落雨就有堆水喺度，所以呢度係特別危  
18 險嘅呢度。

19 主席：（經傳譯員）未講之前，我可唔可以就係從呢一個嘅照片嗰度搵到呢個地點  
20 呀？

21 黃佩琪女士：（經傳譯員）或者可以我哋係印出嚟。

22

23 主席：（經傳譯員）咁相，有冇一本相簿？

24 黃佩琪女士：（經傳譯員）我哋揀咗幾張相嘅，但係就有影到呢個位，不過我哋可以  
25 寫低個時間，然後就印嗰張硬照出嚟嘅，即係搵番呢一個座標，然後印番  
26 嗰個地點出嚟。

27 陳生，你就提到有一宗意外，就係日本人學校嘅，我想請你睇番一封嘅投  
28 訴信，就係來自香港日本人學校嘅，日期係 15 年嘅 2 月 10 號，英文就係  
29 840-84 頁，中文就係 840-85 頁，正本就係一橫 84，就係 840 頁嘅，呢度見

1 到係一位 Ashton 先生就寫信畀你哋，就話之前嗰年喺學校外面有位女士過馬  
2 路嘅時候就被撞死，嗰度嘅車速係 70，每小時 70，可能因為咁樣而令到佢嘅傷  
3 勢嚴重。喺第四段，佢亦都提及喺大埔公路有啲路段車速已經調低到係時速 50  
4 公里，所以佢懇請將學校外嘅嗰段路段車速都要調低到同一水平，呢個係由  
5 Ashton 太太代表香港日本人學校請求將嗰段路段由每小時 70 調低至每小時 50  
6 嘅，呢個係咪就係你之前提及嘅嗰封信呀？

7 陳笑權先生：就我提及呢封信，即係我檯面封信，我知道就有人提及就話上次有個交  
8 通意外，我都關注到嘅，所以我呢封信就係寫喺翡翠花園一帶附近減至 50。上  
9 述嗰個意外，我都問咗運輸署嘅，屬於係一個什麼交通意外，係佢自己衝出馬  
10 路咁，定係紅綠燈畀車撞到呢，係屬於邊個責任呢，我哋亦都要問一問署方  
11 嘅。如果佢自己衝出馬路，我哋就都要睇佢點樣做。我上次都同運輸署同警方  
12 都--運輸署，我都要求佢將而家上述嗰個紅綠燈嗰度改善佢嘅，即係畀佢哋  
13 行人過路就更加安全、更加適合去過馬路，係咪上述嗰個位置係咪真係適合  
14 呢，我都同運輸署都同佢提過下嘅。唔該。

15 主席：（經傳譯員）呢封信係寫畀一位嘅文生或者萬生嘅，點解會係去到你手呢？

16 陳笑權先生：唔係，我睇到呢份嘢喺度，呢份文件喺度。佢寫畀文春輝主席，當時佢  
17 係交通運輸委員會主席，係呀，係呀，應該係。

18 主席：（經傳譯員）唔該晒。

19 黃佩琪女士：（經傳譯員）呢封信就係區議會會議，15 年 3 月 13 號係討論過嘅，  
20 中文係 840-81 頁，英文就係 840-92 頁，我哋就見到主席嘅名文春輝，如果  
21 睇番 79 頁的話，主席提及日本人學校嗰封信，就話佢哋要求將時速 70 減至  
22 50，要求區議員去探訪佢哋學校，同佢哋傾關於交通嘅事項嘅，你見唔見到 79  
23 段？

24 陳笑權先生：我睇到，係。

25 黃佩琪女士：（經傳譯員）如果睇番第 80 段，呢個就係 840-92，王國良先生就回  
26 應，我相信呢位王國良先生即係喺封信裏面提及到嘅，就係即係你寫信畀佢，  
27 當時就係呢個 15 年嘅 7 月時候你寫過信畀呢位王生嘅，係咪呀？

28 陳笑權先生：呢個都係有關連嘅，當年我寫信畀佢嗰時就係收到翡翠花園一帶嘅居民  
29 就投訴話嗰個車速，有朝頭早星期六、日好多快車喺度奔馳，好危險，呢單係  
30 另外一單嘅嘅，我都知道連貫帶一帶，我要求佢就要喺嗰個翡翠花園一帶就將  
31 嗰個車速減為 50，就呢個係我都知嘅呢單。

32 黃佩琪女士：（經傳譯員）喺第 80 段，王國良先生回應話佢知悉日本人國際學校要  
33 求喺學校門口嘅嗰段路段係將嗰個嘅車速係降低嘅，因為曾經發生過呢一個嘅  
34 係意外，當時係 2014 年，有一位嘅公眾人士係因而死亡嘅。佢就話運輸署就係  
35 研究過呢個嘅意外原因，未必係同當個路段嘅車速有關，因為可能就係同駕駛

1 人士態度、行人有冇遵守燈號係有關，呢度亦都同時有講話署方會研究呢個路  
2 段嘅車速限制係咪適合。另外署方亦都係作咗一個嘅簡覆畀學校，稍後會係再  
3 詳細回覆嘅。似乎 3 月，即係 2015 年 3 月，運輸署話會研究該路段嘅車速限  
4 制，佢哋有冇同區議會跟進番呢個嘅意見、呢個嘅要求，即係喺嗰次開會之  
5 後？

6 陳笑權先生：係呀，佢嗰日都有寫嘅，呢一段，副主席畀我睇，佢已經進入嗰個司法  
7 程序，所以就唔方便討論，因為可能嗰陣時檢控緊嗰個--唔知係咪檢控個司機  
8 定係咩嘢，都有寫，喺 87 段嗰度係區議會都有提過。

9 黃佩琪女士：（經傳譯員）陳生，但係我個問個問題唔係講關於意外嘅原因，就係話  
10 運輸署話佢哋會研究目前嗰段路嘅車速係咪適合，你見唔見到喺 80 段裏面呢一  
11 行呀？係王國良先生講嘅。

12 陳笑權先生：每一日我哋開好多會，真係我就有乜印象，不過據我所知，我哋要求佢  
13 做，就係佢哋進入佢哋嘅程序，就由佢哋決定，我哋都係等嘅啫，我哋作為一  
14 個議員就。唔該。

15 黃佩琪女士：（經傳譯員）即係喺會議之後，當時係 2015 年嘅 3 月，會議之後，運  
16 輸署係有搵區議會同佢哋傾關於時速限制嘅，係咪呀？

17 陳笑權先生：有冇同文主席講，我就唔係好清楚，即係佢寫信畀文主席，我作為當區  
18 議會，就而家我都係不斷都有同佢傾嘅，始終都係話嗰度一定要諮詢，要成個  
19 路段--即係喺嗰一段個彎位要改個 50，都係要諮詢嘅，佢話唔係咁簡單嘅。

20 主席：（經傳譯員）個問題其實就係問佢哋有冇同你講呢一個諮詢之後嘅結果呀？因  
21 為係三年前嘅事㗎㗎。

22 陳笑權先生：有呀，如果有結果，我就唔會再去第二封信去畀警方，就係 17 年--唔  
23 係，17 年--2015 年嗰封信到而家就係有乜結果，所以我先至再喺 2017 年嗰  
24 度先再畀封信畀警方。

25 黃佩琪女士：（經傳譯員）喺我哋繼續之前，我想畀個地圖你睇睇嘅，係畀你睇睇日  
26 本人學校個位置嘅，個位置就係响 21、22 之間嘅，如果可以擺番照片 21、22  
27 號出嚟，應該係 21 嘅，21 係顯示到日本人學校個位置嘅，㗎唔㗎呀？

28 陳笑權先生：呢張係鹿茵，呢張就喺喇，呢張喺，嗰個紅綠燈嗰度。

29 黃佩琪女士：（經傳譯員）唔該晒。你就將封信係交咗畀警察，麻煩你睇睇文件夾係  
30 840-70 嘅，呢個係中文版，840-74 係英文版嘅，呢封信係 2017 年嘅 6 月 5  
31 日嘅，係由你寫畀警察嘅，我哋見到封信就話好多人係超速嘅，係响假期會超  
32 速，你要求係有啲影快相嘅攝影機安裝嘅，係咪呢？

33 陳笑權先生：係。

34 黃佩琪女士：（經傳譯員）警察亦都有回應嘅，...

1 主席：（經傳譯員）喺你繼續問之前，呢度係講緊大埔路嘅，會唔會係有某個路段係  
2 有超速呢個問題呢？

3 陳笑權先生：嗰個我頭先都講咗，由赤泥坪上斜路嗰度，佢進入嗰個大埔尾，而家巴  
4 士意外涉事嗰個位置，嗰個手臂彎位都好多交通意外嘅，所以我喺嗰個路段指  
5 明就大埔尾至鹿茵山莊嗰段，呢封信係第二封信，我亦都收到鹿茵山莊有啲居民  
6 就不斷畀電話我，就話嗰度星期六、日又係一樣，就嗰度好多啲快車，超速，  
7 尤其是手臂個彎位，啱啱巴士個意外嗰度，佢一落一轉過去右手嗰度，架車會  
8 飄，你普通車就容易反嘅，所以嗰段我就註明咗嗰度，就要求佢做一個 50  
9 公里同埋做嗰個快相機嘅，呢度我第二封信出去嘅。

10 黃佩琪女士：（經傳譯員）而家係有個地圖係可以顯示出嚟，你可唔可以講一講嗰個  
11 --頭先你封信提到嗰個鹿茵山莊？呢個係咪接近日本人學校嗰個位置呀？

12 陳笑權先生：呢封信係第二封嚟嘅，第一封就係翡翠花園一帶，呢封信係第二封嚟嘅，  
13 就你呢封就唔係提及嗰個日本人國際學校嘅，第一封就牽涉到國際學校。

14 黃佩琪女士：（經傳譯員）呢個就係你講緊嗰個位置，地圖呢個鹿茵山莊就响日本人  
15 學校後面嘅，喺地圖上顯示出嚟嘅，可唔可以確認呢？

16 陳笑權先生：地圖嗰度，咪住先，我就睇得唔係太清楚，應該係咪喺 22 至到 20 嘅  
17 度嗰段，定係--乾坑都屬於係咩嘢㗎。

18 黃佩琪女士：（經傳譯員）我哋放大個圖片畀你睇睇。

19 陳笑權先生：呢個就係樟樹灘，樟樹灘個路口巴士站，未到鹿茵，包括埋在內，呢段  
20 路，係喇，鹿茵，呢度係鹿茵，至到鹿茵呢度啱，鹿茵嘅入口。

21 黃佩琪女士：（經傳譯員）你封信就講到話成日有超速、賽車响大埔路嘅，你就喺封  
22 信就有提到嗰個車速限制，可唔可以講一講點解呢，點解要有個咁嘅車速嘅要  
23 求呢？

24 陳笑權先生：我 heading 已經寫咗，要求加設 50 公里車速限制標誌，同埋加埋個  
25 個時速--係呀，有寫㗎。

26 黃佩琪女士：（經傳譯員）我而家係講緊係 6 月 5 號嗰封信。

27 主席：（經傳譯員）呢個封信可以打埋上屏幕吓不如。

28 陳笑權先生：呢個快相機，一般嚟講，嗰度係 70，如果你加個快相機，佢超過個車  
29 速就會影相，一般駕駛者嚟講，佢一見到快相機會收腳，好自然嘅，我就寫咗  
30 上去，係都係要--應我哋啲居民，要加個快相機上去嘅，你啱嘅，呢度係我有  
31 寫上去，不過快相機個作用，如果佢寫 50，就超過 50 就會著，如果佢寫 70，  
32 超過 70 就會影到佢嘅。

33 黃佩琪女士：（經傳譯員）警察就响 2017 年嘅 6 月 17 號係有個回應嘅，麻煩你睇

1 睇 840-71 頁，英文版就 840-73 嘅，警察就話個安裝呢個定點嘅快相機主要  
2 係由運輸署嗰度去決定嘅，喺安裝咗之後，警察就係負責係執法嘅，而運輸署  
3 係知道目前係有一個安裝固定偵察車速嘅一個意圖嘅，喺相關嘅路段。同時警  
4 方就會繼續密切留意住呢個路段嘅交通嘅情況嘅，呢封信係抄送畀趙鏡波先  
5 生，又係運輸署技術服務交通控制組嘅，同埋亦都畀咗大埔分區指揮官，你睇  
6 唔睇到呢封信嘅內容？呢封信亦都係發咗去你本人嗰度嘅。

7 陳笑權先生：就呢封信我出嘅，佢都應該都要回覆番我嘅，呢封信都係我交出嚟嘅，  
8 我每一封信我都有紀錄嘅，就呢三封信全部都係我擺出嚟畀大家睇嘅。亦都事  
9 實係，佢哋就--我哋就同--運輸署，我見到佢都仲未搞得掂，所以我直接就  
10 寫信畀警方，睇下佢哋嗰面可唔可以加一個快相機就喺大埔尾同埋啱啱落斜路  
11 之間嗰個位置嘅，呢個係我要求。

12 黃佩琪女士：（經傳譯員）換句話說，佢哋就話運輸署就係拒絕咗你個要求，而警察  
13 只不過係一個執法機關嚟嘅，所以佢哋係無能為力嘅，除非運輸署係安裝呢個  
14 固定嘅偵察車速攝影機，係咪咁呢？

15 陳笑權先生：係，清楚嘅，佢都咁回覆，事後我都有經過呢一次咁嚴重災禍，我都直  
16 接再同警方一位警司都落去現場睇過，亦都佢哋都承諾咗就會喺呢個年尾就會  
17 裝番個快相機。

18 黃佩琪女士：（經傳譯員）主席先生，麻煩你睇番個會議紀錄，係 2018 年嘅 2 月  
19 12 號嘅，呢個就會係响英文版嘅 790，中文就係 772 頁嘅，喺第 17 段有個羅  
20 馬數字(ii)嘅，劉志成博士就有以下嘅意見嘅，佢就話大概喺半年前，有啲區  
21 議會議員係建議安裝一啲快相機嘅，就响意外發生嗰個路段安裝嘅，但係就被  
22 相關嘅當局係拒絕咗嘅，佢嘅意見就話係--即係佢話政府部門就話有足夠嘅一  
23 個車速嘅限制嘅牌，當車行落山嘅時候，佢話有關嘅政府當局就應該考慮番係  
24 咪應該係維持一個 70 公里咁嘅速度嘅，佢話舉個例子，喺西貢有過意外，清水  
25 灣又有意外，因為個車未能夠及時剎車嘅，所以個車速其後由時速 70 公里調低  
26 到 50 公里，同埋亦都加裝咗偵速嘅攝錄機，佢建議調低大埔公路調低到 50 公  
27 里同埋加裝呢個偵速嘅攝錄機嘅，係讓啲駕駛人士就唔好超速嘅。呢個問題其  
28 實應該係問番劉志成博士嘅，佢係提到大概半年前區議員係已經建議係喺有關  
29 路段安裝呢個偵速機嘅，呢個要求係咪以書面形式提出嚟嘅呢？

30 劉志成先生：你話個 request 係--即係唔係我嘅 request，而係我當時係知道有  
31 當區議員寫咗一個 request 出去嘅。

32 主席：（經傳譯員）你係咪講緊陳先生嘅要求？呢個係咪個問題？呢個係陳先生嘅要  
33 求嚟嘅。

34 劉志成先生：Yes, that was Mr. Chan's request, yes.

35 黃佩琪女士：（經傳譯員）當你相關嘅政府部門拒絕，係有警察嘅一封拒絕信，我哋  
36 剛剛見過嗰封，啱唔啱？

1 劉志成先生：（經傳譯員）咁嘅。

2 黃佩琪女士：（經傳譯員）如果我哋接住睇落去，睇第 24 段(iii)，英文喺 794 頁  
3 嘅，中文 776 頁嘅，第 24 段羅馬數字(iii)，呢個區鎮樺議員，佢就話認同要  
4 將肇事路段嘅車速限制由 70 公里調到 50 公里嘅，然而司機嘅駕駛態度亦都十分  
5 重要，部分巴士司機可能因為係十分熟悉路段，就會以較快嘅車速行駛，加  
6 上該路段係斜路，就算巴士嘅車速達到時速 70 公里時會鎖車，但係落斜同埋車  
7 身嘅重量會產生衝力嘅，令到車速係更快嘅，佢建議巴士公司係應該提醒行駛  
8 危險路段嘅巴士司機係應該更有耐性嘅，同埋落斜路要減慢車速；另外佢希望  
9 巴士公司係會訓示所有巴士司機，提醒佢哋要保持良好嘅駕駛態度嘅；而响羅  
10 馬數字(vi)個度，佢就問警方過去一年該路段或者整段大埔公路發生嘅交通意  
11 外數字嘅，佢就問大埔公路係咪應該設有呢個偵速嘅攝錄機呢，如果係嘅話，  
12 個數量同埋位置係幾多。而家我想首先問一問關於呢個車速限制，由 70 公里下  
13 調到 50 公里，喺嗰次會議之後，你同運輸署有冇去考察過現場呢？去番個意外  
14 個現場嗰度考察，去討論你呢個下調車速嘅要求嘅。

15 劉志成先生：（經傳譯員）你係問緊邊位呢？

16 主席：（經傳譯員）你哋之間要商量下究竟係邊位要回答，或者黃小姐係可以提示邊  
17 個會作答。

18 黃佩琪女士：（經傳譯員）黃小姐。

19 黃碧嬌女士：好，我請我哋交通運輸委員會主席劉志成博士答吓，係。

20 劉志成先生：（經傳譯員）呢個係區先生同埋另一位區議員提出嘅，我覺得應該係由  
21 陳先生回答會好啲，佢係嗰區嘅區議員--當區區議員嘅。

22 主席：（經傳譯員）陳先生，可唔可以幫幫忙呢？個問題係就係有冇去考察。

23 陳笑權先生：我本人就有，你話區議會佢委員會主席當日喺個會講，議員就個個都有  
24 提問嘅，佢提問啫，不過佢有冇跟進就另外一 part。我作為自己當區議員，我  
25 就一定係有去睇過嘅，事前、事後、之前、之後我都有睇過嘅，我本人一定  
26 有，劉志成博士就佢作為一個主席，有冇出席，我唔係好記得喇咁就。

27 主席：（經傳譯員）你係咪同運輸署一齊去？嗰個係問題呀，嗰個問題係有冇聯席嘅  
28 一個考察活動？

29 陳笑權先生：同運輸署有嘅，我私人有。

30 黃碧嬌女士：好，或者等我回答一下，我哋係同埋我哋大埔區議會張學明主席、我哋  
31 民政事務專員呂少珠女士，就聯同我哋全體大埔交通運輸委員會全體嘅委員係  
32 實地係視察過一次嘅，當中區鎮樺議員都有出席嘅。

33 主席：（經傳譯員）係，唔該晒嘅。

1 黃佩琪女士：（經傳譯員）唔該晒。喺嗰次嘅實地考察，現場考察，你哋同運輸署同  
2 埋出席嘅人士係去做嗰次考察，係咪同意就係嗰個車速限制應該下調嘅，係為  
3 嗰個路段係需要下調，係因為出咗交通意外，應該下調個車速？

4 黃碧嬌女士：係，我哋喺現場就提出咗兩個要求，第一個就將呢一個嘅車速由 70 公  
5 里下調至 50 公里，就要落番一個車速嗰個嘅指示牌；第二個要求就係要喺呢一  
6 個嘅減速呢個路段係加裝一個就係嗰個叫做快相機。

7 黃佩琪女士：（經傳譯員）喺考察嗰個時間有冇討論到應該邊度安裝呢個車速攝錄  
8 機，個位置，即係邊度安裝呢個攝錄機？

9 黃碧嬌女士：係有睇到呢一個嘅位置嘅，跟住因為嗰日都一部旅遊巴嘅人數，接近有  
10 四十人去到現場，其實嗰個嘅路面有超過四十人嘅度，我哋都覺得大家喺度咁  
11 樣視察都係比較危險，因此我哋就再係將有一啲我哋要求嘅嘢就帶番喺嗰個嘅  
12 區議會嘅會議室度，再喺我哋嘅 T and T 裏面繼續跟進嘅，而好準確要放嗰個  
13 嘅快相機喺邊一度呢，我哋就交咗畀運輸署同埋警方係再聯絡當區區議員就係  
14 陳笑權議員係再去跟進。

15 陳笑權先生：我有嘅，我同負責嗰個交通個警司喺現場睇過嘅，都有指定嗰個位置，  
16 喺嗰個啱啱落斜嗰個位係安裝嗰個攝錄機嘅，都有傾過嘅。

17 黃佩琪女士：（經傳譯員）呢啲係咪全部書面寫低嘅呢，或者喺會議紀錄嗰度有記錄  
18 嘅呢？即係除咗你提交畀我哋嘅紀錄之外，有冇記錄呢？

19 黃碧嬌女士：呢一個就有係再喺嗰個會議裏面逐項咁細節寫出嚟，因為要去到擺呢一  
20 啲位，當區區議員仲要連絡埋喺呢一個嘅大埔尾佢有三條村嘅村長嘅，亦都  
21 要聽番村長嘅意見同埋呢一個巴士站嘅一啲--即係再將佢維修同埋燈柱點樣種  
22 番，呢一啲好細節嘅嘢就真係由番當區區議員陳笑權議員係繼續喺現場再約一  
23 啲嘅時間去跟進，所以你剛才都聽到陳議員係講咗好幾次之後佢係自己同不同  
24 嘅部門都落過去睇過。

25 主席：（經傳譯員）你可唔可以畀番個日期，即係嗰四十個人嘅去考察係幾時呢？

26 黃碧嬌女士：應該係 4 月 12 號，我諗我哋各位同事一齊協助下，應該係 4 月 12  
27 號，因為我哋就租咗架旅遊巴上去，睇完之後，我哋就--係喇，4 月 12 號嘅兩  
28 點鐘，我哋喺大埔政府合署集合，跟住就上到去大埔公路巴士站就進行視察  
29 嘅，嗰個時間就係兩點三個字去到大埔尾呢一個事發嘅現場嘅。

30 主席：（經傳譯員）唔該。

31 黃碧嬌女士：係，okay，唔該。跟住我哋就係喺番三點半有一個叫做 DMC，地區管  
32 理委員會嘅會議上面就進行我哋視察之後嗰個嘅討論嘅嘢，呢一個嘅會議就只  
33 係區議會嘅正、副主席同埋我哋五個委員會嘅主席，有七位嘅區議員就同我哋  
34 民政事務署同埋係大埔嘅部門係一齊開會嘅。亦都再補充，呢一個嘅會議係有  
35 一份會議紀錄嘅。

1 黃佩琪女士：（經傳譯員）繼續講 2018 年 2 月嘅會議紀錄，即是九巴嘅回應，798  
2 頁英文，780 頁中文，35 段提到蘇偉基先生嗰個意見同埋佢回應區議員嘅意  
3 見，35 段第(ii)小段就話九巴會考慮區議員有關 782 路線嘅建議同埋會提交  
4 建議畀運輸署同埋區議會，畀佢哋考慮嘅，即係日後。首先九巴--或者應該  
5 話，首先九巴提及區議員嗰個意見係咩嘢呢？

6 黃碧嬌女士：872 呢個路線，我係建議唔好繼續係行番由馬場行大埔公路再返大埔嘅  
7 呢條路線，我希望佢係再有一條新嘅路線，而呢條新嘅路線就可以係行吐露港  
8 公路。

9 黃佩琪女士：（經傳譯員）佢哋有冇提交任何建議畀區議會考慮呢？即係自從嗰次之  
10 後。

11 黃碧嬌女士：係，由佢--就我哋呢一個會完咗之後，就接近係過年，就有再會議嘅  
12 喇，運輸署嘅同事就有打過電話畀我，就問我同唔同意就係改為 872X，就由呢  
13 一個馬場經吐露港就返到去大埔中心嘅。

14 黃佩琪女士：（經傳譯員）想請你睇第 12 段，英文版 788 頁，中文版 771 頁，呢  
15 個建議係關永業先生提出嘅，第 12 段第(iv)小段，佢就話自從佢出任區議員  
16 十八年嚟，一路都未試過有大型嘅大埔公路擴闊或者改善工程，佢明白大埔公  
17 路受到地理環境嘅限制，但係佢仍然希望有關部門可以盡力喺今次意外之後研  
18 究改善方案；佢亦都希望運輸署能夠一併研究大埔區議員轄下其他嘅公路嘅改  
19 善方案，例如係汀角路、林錦公路同埋西沙路，認真處理區議員提出嘅訴求，  
20 避免發生因為道路缺憾而引致嘅交通意外。喺有關呢個要求，係關議員提出  
21 嘅，佢提到大埔公路從來都喺過去十八年進行過--都有進行過大型嘅擴闊同埋  
22 改善工程，你嘅睇法係點呢，當佢咁講嘅時候？

23 黃碧嬌女士：我諗就聽番呢一個區嗰個嘅區議員回應下，好唔好呀？陳笑權議員，唔  
24 該。

25 陳笑權先生：大埔公路本身有個先天性就係個彎位就都多嘅，有擴闊過嘅，佢之前翡  
26 翠花園嗰個彎位都有削過嗰個斜坡嚟嘅，事實上喺嗰個路段嚟講，佢嘅嚴重交  
27 通意外就唔係太多嘅，咁係事實。唯一即係我哋睇到嗰個巴士嘅司機真係佢自  
28 己係不小心駕駛，如果整個路段嚟講，即係我作為當區議員，就係好多投訴就  
29 係佢哋揸快車，而驚影響有發生嚴重嘅意外嘅啫。嗰個現場嗰個位置，如果你  
30 真係話去擴闊梗係最好，香港整體嚟講，好多呢啲咁嘅彎位嚟講，大埔公路都  
31 唔算好特別嘅危險，如果真係可以做嘅，我哋都支持嘅。

32 黃佩琪女士：This paragraph ...

33 主席：（經傳譯員）或者你繼續之前。陳先生，我想提醒你，你剛才所作嘅講法，有  
34 關於 2 月 10 號嗰個意外個成因同埋邊個負責任，呢個唔係我哋委員會嘅職權範  
35 圍裏面嘅，我哋想知道嘅就係點樣去處理當時嘅情況，但係我哋就唔會係會處  
36 理邊個要負責任嘅問題嘅。

1 陳笑權先生：知道。

2 黃佩琪女士：（經傳譯員）陳生，嗰段就提到話改善嘅方案，交通運輸委員會，即係  
3 你哋區議會下面嘅交通運輸委員會係幾時提過呢啲嘅改善方案呢？

4 陳笑權先生：呢度就有提過嘅，擴闊嗰個大埔公路係有提過。

5 黃佩琪女士：（經傳譯員）其他嘅改善方案呢，有冇任何改善方案？

6 黃碧嬌女士：或者呢度講下，關議員所講，因為佢做十八年議員，佢同我同一齊做十  
7 --即係我哋一齊做議員做到而家嘅，喺我哋區議會裏面，咁多年，的而且確係  
8 喺大埔有一啲嘅路段係做緊擴闊公路嘅，例如汀角路已經擴闊咗同埋行緊，好  
9 成功㗎喇，林錦公路就迴旋處亦都係完成咗擴闊嘅，西沙路就係研究呢個方案  
10 嘅，佢嘅意思係講應該再喺下一次我哋再有提到改善公路嘅時期，應該將大埔  
11 公路都請運輸署係一併畀我哋交通運輸委員會係作一個考慮嘅。唔該。

12 黃佩琪女士：（經傳譯員）劉博士，你有咩嘢要補充？

13 劉志成先生：我想補充就係我哋喺交通運輸委員會討論某位同事提出嘅一啲嘅要求，  
14 我哋委員會就未必會係提交一個計劃畀大家嘅，通常我哋都係喺個會嗰度提出  
15 一啲要求運輸署去做一啲嘅改善嘅建議，我哋都係等運輸署嚟到去提出，佢哋  
16 作為運輸嘅專家，點樣去應議員嘅要求嚟到去畀一啲改善嘅建議畀我哋考慮  
17 嘅，即係我哋作為議員，就唔係喺呢方面嘅專家，所以喺交通運輸委員會通常  
18 我哋提咗出嚟，就希望運輸署或者有關部門係可以畀到我哋去考慮嘅就係由佢  
19 哋提出一個改善建議，我想澄清一點，喺呢方面。

20 黃佩琪女士：（經傳譯員）換言之，你哋會提出一啲諗法，然後--但係講話實際執  
21 行，你就會交界運輸署，因為佢哋係專家，由佢哋去執行有關嘅改善工程，你  
22 講嘅係咪咁意思呢？

23 劉志成先生：係，都應該係正確嘅，係呀。

24 黃佩琪女士：（經傳譯員）可唔可以請你睇第 26 段 796 頁英文版，778 頁中文版，  
25 第 26 段第(ii)小段，余智榮議員發表以下嘅意見，佢話運房局及運輸署嘅人  
26 員經常拒絕落實區議員提出嘅建議，而且經常喺會議上偏幫九巴；另外運輸署  
27 人員經常變動，導致個案嘅處理進度十分緩慢。當余議員提到話區議員提出嘅  
28 建議嘅時候，呢啲建議係咪同安全有關嘅措施呢？即係指有關大埔公路嘅路  
29 段，你可唔可以講一講嗰啲建議係咩嘢嚟呢？

30 黃碧嬌女士：我諗咁，因為喺會上面余智榮議員佢自己去表達呢個意見，需要由佢自  
31 己喺呢度作一啲嘅解釋同埋澄清同埋表達，我哋喺呢度就唔可以代表到佢演繹  
32 呢一段嘅深化嗰個意思嘅。唔該。

33 黃佩琪女士：（經傳譯員）同運輸房屋局同埋運輸署嚟提出建議之後，即係每一次議  
34 員提出建議之後，會唔會有同佢哋開會嘅呢？

1 黃碧嬌女士：有，係，我哋喺--咁樣講，區議員佢係接受市民嗰一個嘅投訴，佢就會  
2 將呢個投訴係應該喺不同嘅渠道去表達佢哋嘅建議，透過區議會係一種，佢哋  
3 自己用信件亦都係一種，打電話亦都係一種，運輸署嘅同事係會有同區議員係  
4 一齊商討佢哋提出嘅建議嘅。或者我都可以畀--我哋有其他嘅議員，我都或者  
5 請佢可以表達一下呢樣嘢，任啟邦議員，唔該。

6 任啟邦先生：好，唔該。我諗就住余智榮議員或者頭先剛才律師盤問嘅時候講緊其他  
7 一啲議員同事個意見，就住運輸署點樣睇議員嗰個嘅建議，我都想表達一下。  
8 當今次嚴重嘅事故之後，運輸署或者相關嘅政府部門，包括警方、路政署咁  
9 樣，的而且確係作出好快嘅回應，包括係減呢個嘅速度，由 70 轉 50，包括係  
10 承諾係會加呢個快相機，但係呢啲訴求，陳笑權議員頭先嘅發言嗰度都已經講  
11 咗，其實佢係跟進咗好耐嘅。我亦都可以講番一句，都唔係幾好聽，不過可能  
12 係一個事實，係見到有人命傷亡，部門先至會去積極考慮、積極嘅回應，呢個  
13 我諗我哋係唔想見到嘅。頭先律師提到呢一個即係呢啲引述到議員提問嘅時  
14 候，佢就會講話--即係議員話好多時都拒絕咗區議員提出嘅訴求，呢個係事  
15 實。

16 喺區議會嘅文件裏面，我諗唔係淨係呢個議題，譬如話我哋喺大埔區我哋希  
17 望起一條行車天橋，一個廣福道嘅行車天橋，講咗十幾、二十年，因為嗰個問  
18 題唔會牽涉到一個人命損失，但係當區議員--大埔墟嘅議員講到話因為入  
19 去大埔墟或者入去錦山村係單一嘅路段，如果當地有交通意外，阻礙咗消防  
20 車、救護車進入嘅時候，如果又有呢條橋，咁樣係咪會影響救援呢咁，因為有  
21 呢件事發生，所以唔能夠催生到區議會多年嘅訴求。

22 我諗希望主席閣下或者法官閣下即係呢個要明白，區議會嘅運作可以咁講係  
23 非常之被動，尤其是部門係提出好多技術嘅阻礙，技術因素我哋係好難係去抗  
24 拒或者去質疑，呢個技術嘅因素包括好多數據，包括係好多即係千萬種唔能夠  
25 做到嘅理由，呢個係我哋議會覺得係好不滿，亦都係相當之無耐嘅一個情況。

26 我想講多一句，就係尤其是我哋議員提出嘅就係收集咗市民嘅意見，如果講  
27 交通嘅，講緊係無論係職業車司機、行人，以至到甚至係有時一啲意外發生咗  
28 之後，當然嗰啲意見係比較輕微嘅意外，但係我哋會睇到輕微嘅意外出現咗，  
29 係咪未來日子會有啲更嚴重嘅意外會出現呢？呢個我哋係睇到，所以陳笑權議  
30 員或者我哋在席我哋所有區議員點解會提出呢啲意見，都唔係空談，而係希望  
31 將一啲可能預測到嘅事故係早日去作出改善。當然點樣去作出改善，我哋有一  
32 個能力或者有一個技術去能夠去處理得到，但係如果做咗嗰啲措施係咪可以減  
33 輕或者減少呢啲意外出現呢？呢個當然係我哋想--即係區議會所做到嘅工  
34 作，唔該。

35 主席：（經傳譯員）黃律師，或者我哋可以講其他，即係真係有發生嘅一啲改善，我  
36 知道喺 4 月 9 號有一份嘅文件，由區議員喺呢一個 5 月 11 號傾過嘅，或者可以  
37 就係同佢哋講一講。

1 黃佩琪女士：（經傳譯員）係，我可以跳去講運輸署嗰個嘅建議。嗰個會議之後，  
2 喺 3 月 9 號即係 18 年嘅時候有另外一個會議，同樣亦都係有關於大埔公路嘅意  
3 外，係咪呀？

4 主席：（經傳譯員）或者你可以攞番嗰個會議紀錄出嚟。

5 黃佩琪女士：（經傳譯員）中文就係 801，英文就係 815 頁開始嘅，815-82 就係個  
6 英文版。或者我講番呢一個會議紀錄嘅一啲重點，跟住先至講運輸署嘅建議，  
7 呢個會議喺 2018 年 3 月 9 號進行嘅，第 4 段張偉鋒先生，佢係代表運輸署  
8 嘅。

9 主席：（經傳譯員）慢慢，慢慢，等代表可以睇到你究竟講緊乜嘢。其實你都會議紀  
10 錄係有呢一個嘅--有文件印咗出嚟嘅，如果有嘅話，就可以睇個顯示屏嘅，你  
11 頭先講緊嘅就係第 4 段，係咪呀？

12 黃佩琪女士：Paragraph 4.（經傳譯員）張偉鋒先生，佢係代表運輸署嘅，佢提  
13 出四個建議嘅，嗰呢一段，第(i)，就係會研究嗰個嘅速度限制會唔會修訂；第  
14 (ii)，就係加強交通標誌同埋道路標記，同埋進一步促進道路、安裝偵速攝錄  
15 機、睇番肇事附近嗰個嘅地形環境同埋點樣優化巴士站；呢個就係四項運輸署  
16 會全面檢視嘅事項嚟嘅，係咪呀？

17 黃碧嬌女士：係。

18 黃佩琪女士：（經傳譯員）我相信嗰呢一次會議裏面有啲議員就係爭議呢一個--呢一  
19 啲改善項目嘅進度嘅，區議員就話減低車速限制，即係喺肇事嘅嗰段路段係咪  
20 真係可以喺較短嘅時間內將個車速限制調低，同埋係咪可以之後先至去將整段  
21 路段嗰個嘅車速限制全面檢視？

22 主席：（經傳譯員）或者可唔可以講一講個例子呀？

23 黃佩琪女士：（經傳譯員）請大家睇下第 11 同埋 12 段，呢個就係任啟邦議員嘅意  
24 見，首先佢就表示對於運輸署報告失望，佢提及喺嗰段路段有好多急彎同埋斜  
25 路嘅，就係大埔公路赤泥坪至廣福道到翡翠花園嘅一段。

26 主席：（經傳譯員）係 12 段嘅羅馬數字(ii)，佢就話首先就係要安裝一個嘅偵速攝  
27 錄機，就叫佢哋而家係要即刻要裝，唔好等到之後，係咪咁嘅意思呀？劉博  
28 士。

29 黃碧嬌女士：劉博士回應。

30 劉志成先生：我係嗰個會議個主席，就安排咗第一項就即係話呢個交通意外，想了解  
31 下運輸署跟進一啲改善措施嘅情況，其實喺當日運輸署嘅官員代表係有提過頭  
32 先講嗰四樣嘢，但係佢嗰個表達係未曾確實會幾時落實，當日佢講嘅時候。站  
33 喺我哋區議員發生咁大件事，喺 2 月份發生咁大件事，去到 3 月份都有一啲即  
34 係話我哋要求嘅要求，即係話我哋嘅要求就係減速、加相機，呢兩樣嘢係好基

1 本可以即係話儘快落實嘅嘢，運輸署嘅代表都有--當時係仍然係話喺考慮中嘅  
2 話，我哋議員同事係表達不滿，呢個表示失望或者表示不滿係呢個前設就係話  
3 因為佢當其時--雖然佢講咗四樣嘢，但係佢冇講到話係落實嘅時間。我想表達  
4 呢個意見，喺度。

5 主席：（經傳譯員）唔該。

6 黃碧嬌女士：任啟邦議員都喺度，佢可以直接表達一下。

7 任啟邦先生：係，我同意頭先劉志成博士嗰個演繹嘅，因為我唔係話不滿運輸署個建  
8 議，我係不滿佢個回覆係未有一個時間表，未有一個係確實係安裝快相機嘅日  
9 期，因為呢一個會就係 3 月 9 號開，直至到 4 月 12 號，即係剛才頭先都講過喺  
10 一個實地視察嘅時候先至有一個正式嘅一個匯報，就話畀我哋聽會加快相機、  
11 會改善巴士站嗰個位置同埋設施同埋會將嗰個限速調低，係直至到 4 月 12 號先  
12 有一個比較明確嘅答覆話會做出呢啲改善。當時即係如果佢運輸署用嗰個字  
13 眼，都係話「包括研究應否修訂速度限制」，「應否」即係唔知有冇，「與及  
14 係是否需要加強現有嘅交通標誌或者道路標記」，都係「應否」嘅啫，即係都  
15 係研究階段。但係我哋會覺得咁嚴重嘅意外之後其實係咪應該比較落實啲去答  
16 呢個答案呢，所以先導致到我或者當中其他議員好不滿嘅一個原因或者係好失  
17 望嘅一個原因就係咁解。唔該。

18 黃佩琪女士：（經傳譯員）劉博士，你都記錄低咗你嗰個嘅感受嘅，就喺呢一個嘅第  
19 31 段，中文係 811 頁，英文係 825-2，喺開呢個會嘅時候，你有收到運輸署嘅  
20 建議書，你就投訴話係減低車速限制同埋安裝車速攝錄機唔難做嘅。

21 可以再睇番大埔區議會文件，日期係 18 年嘅 4 月 9 號，中文就係 354  
22 頁，英文就係 360-1，呢份文件寫咗幾個嘅措施，係佢哋向大埔區議會建議嘅  
23 措施嚟嘅，睇番，第一部分就係目的，第二部分就係檢視速度限制。建議就係  
24 話某啲路段車速限制就係會由時速 70 減低到時速 50 嘅，我哋睇番第 4 (a)、  
25 (b)、(c)，即係 4 (I)、(II)、(III)，(III) 就係關於赤泥坪至雍宜路  
26 嘅一段路段，就話可唔可以將車速限制由時速 70 減到時速 50 嘅，呢個就係第  
27 4 嘅 (III) 段。

28 我哋先睇一睇，跟住再畀個地圖你睇下，係 4 嘅小段 (III)。如果我哋撐  
29 番大嚟睇，頭先我哋提及過嗰個嘅路段，即係建議車速限制減低，就由 15 去到  
30 31 呢兩個數字之間嗰段嘅，即係呢個啡色嗰段路段，可唔可以確認一下就係運  
31 輸署嘅建議嗰個路段嚟嘅？

32 劉志成先生：（經傳譯員）係，呢個係由運輸署建設嘅。

33 黃佩琪女士：（經傳譯員）佢哋亦都提出咗其他嘅措施，包括道路標記、交通標誌，  
34 呢個係第 8 小段 (1)，我哋睇番，首先係顯示到交通標誌，即係運輸署建議嘅，  
35 係頁數係運輸署嘅文件 360 頁，佢哋就建議增加兩個嘅標誌，另外就係其他嘅  
36 一啲警告標誌，即係譬如話慢速，而家有一個見到就係 100 米，跟住就話右邊

1 有彎；第二個交通標誌就係見到就係有個--又係黃色同埋呢一個嘅係紅色嘅標  
2 誌嘅；跟住就係其他嘅道路標記表示道路嘅車速限制係減低嘅。可唔可以講畀  
3 我哋聽呢個係咪同運輸署所傾過嘅建議呀？

4 劉志成先生：（經傳譯員）係，呢個係運輸署提出嘅，我哋喺交通運輸委員會同佢哋  
5 傾過。

6 主席：（經傳譯員）即係話文件就係 9 號，但係開會就係 12 號？

7 劉志成先生：（經傳譯員）會議係...

8 主席：（經傳譯員）我而家講緊嗰個嘅係--真係去睇嗰個道路段，另外開會就係 5  
9 月 11 號，係咪呢？

10 劉志成先生：（經傳譯員）呢個就喺 4 月 12 號會議嘅時候有提出嘅。

11 黃佩琪女士：（經傳譯員）有關於呢個建議其實係有一個草稿嘅，係今年嘅 5 月 11  
12 號會議紀錄嘅議稿，係咪...

13 主席：（經傳譯員）未講之前，我哋講一講，就係咪話即係之前嗰日，13 號係咪已  
14 經就係批准咗㗎喇？

15 劉志成先生：喺琴日你--法官想知道喺琴日我哋開交通運輸委員會個會議有冇再傾呢  
16 一個 proposal，係咪呀？

17 黃佩琪女士：（經傳譯員）唔係呀，呢個只不過係一個會議紀錄嘅草稿㗎嘅，係有冇  
18 批准--係咪已經核准咗嘅呢？

19 劉志成先生：That was approved. Yes.

20 黃佩琪女士：（經傳譯員）冇改到？

21 主席：Without changes?

22 劉志成先生：（經傳譯員）冇改到嘅。

23 主席：（經傳譯員）我哋就可以嗰個嘅議稿。

24 黃佩琪女士：（經傳譯員）中文係 840-9，英文就係一橫 20，第 5 段。

25 主席：（經傳譯員）邊一沓嘅文件呀？

26 黃佩琪女士：（經傳譯員）係區議會文件 2 號，840-23 頁英文版，中文係 840-12  
27 頁。

28 主席：（經傳譯員）唔該。

29 黃佩琪女士：（經傳譯員）或者我哋講番之前嗰一頁，睇下邊個出席，就係 840-22

1 頁，就係主席係歡迎出席人士，包括係劉博士同埋係 Henry Hui，佢係運輸署  
2 嘅高級工程師，請睇番第 4 段，主席話運輸署早前向委員會提交文件，介紹大  
3 埔公路最新嘅交通管理措施，提及到一個係大埔區議會文件嘅號碼，就係之前  
4 我向你展示嘅文件，秘書處亦都係經電郵喺 4 月 10 號將呢個發畀委員會參閱；  
5 另外秘書處協助運輸署安排委員會嘅委員係大埔公路做現場視察，就係聯同呢  
6 一個地區委員會喺 4 月 12 號做嘅，運輸署亦都即場講解即將實施嘅交通管理措  
7 施，佢請運輸署報告各項措施嘅落實情況。

8 第 5 段就係運輸署嘅回應，係由許錦年先生回應嘅。佢就係講咗四方面嘅  
9 工程進展，首先，佢話大埔道介乎赤泥坪至雍宜路嘅車速限制已經由時速 70 減  
10 到 50 公里，係由 4 月 27 號開始。第(ii)，佢哋亦都就係安裝咗一啲係黃色螢  
11 光背景嘅安全標誌。同埋路牌，亦都就係擴闊喺呢一個意外中損毀嘅巴士站停  
12 車彎。（直接用英語說）The works were expected to be completed  
13 in this month, in July 2018. The fourth is optimise the  
14 bus stop near the Tai Po Mei. The work is supposed to be  
15 completed in August 2018.

16 第(v)，（經傳譯員）就係署方會改善紅林路、觀海崇庭同埋燕子里一帶嘅  
17 交通標誌同埋道路標記嘅，呢個工作會喺年底完成嘅。

18 你可唔可以確認呢個係運輸署嘅一個進度報告？

19 黃碧嬌女士：當局陳笑權議員回應下。

20 陳笑權先生：唔係，佢運輸署係咁講嘅，係，確認嘅。

21 黃佩琪女士：（經傳譯員）如果我哋睇一睇第 14 段，許先生亦都回應就係運輸署就  
22 致力喺年底完成呢個安裝偵速嘅攝錄機，但係至於個運作事宜就要交畀警方。  
23 運輸署就已經提供咗呢個進度報告，還是係一個持續嘅工作嚟嘅呢？

24 陳笑權先生：呢個應該唔係持續工作嚟嘅，呢個係單一個工程，佢裝咗嗰個攝錄機之  
25 後同埋而家還原番嗰個肇事嗰個巴士站，就會完㗎喇。

26 黃佩琪女士：（經傳譯員）如果我哋再睇一睇許錦年先生嘅一啲觀察，...

27 主席：（經傳譯員）喺你繼續之前，我哋會--有冇聽到一個解釋，點解要等到年底先  
28 安裝到一部咁嘅偵速嘅攝錄機呢？一部攝錄機㗎。

29 陳笑權先生：佢有解釋過畀我聽嘅，佢話訂貨就整體嘅，就唔會話訂一部嗰個攝錄  
30 機，仲有要經過機電署、路政署、運輸署、警方、到現場實地掘路、攞  
31 permit，好多複雜嘅問題，佢唔會單一做一個，我問過佢呢個問題，所以佢一  
32 定要年尾，我話點解唔快啲呢，我話，佢話已經批准咗，畀我哋區議會好多議  
33 員都質詢佢之後，最後佢都承諾咗話今年年尾就會加個快相機畀我哋。

34 主席：（經傳譯員）佢哋係有唔同嘅程序，先至係可以降低嗰個車速，係咪呀？佢哋

1 就响 4 月 27 號就已經完成咗呢個工作，係咪呢？

2 劉志成先生：因為個減速係比較簡單同埋佢係賣憲報，就唔牽涉到好多個部門，我諗  
3 減速嗰度係主要係運輸署佢哋即係話可以安排得到，又搵路政署，亦都係佢哋  
4 喺工程上嘅一個執行嘅部門，佢哋兩面係比較容易協調到嘅。

5 陳笑權先生：嗰個訂個快相機個頭，安裝個頭，佢話冇單一嘅，佢話一訂，好似據  
6 我所知，我問過佢嚟嘅，我記憶之中，佢就話訂一批嘅，香港仲有好多地方需  
7 要加啲快相機頭，佢話而家訂緊嘅，係一批過，單一就暫時就有嘅，同埋要經  
8 過好多程序，好多政府部門嘅程序，諮詢好多部門，又要放電--要搵機電署畀  
9 電個快相機，先至可以做得嘅，呢個佢當時，我同佢對答，就係咁覆我。

10 主席：（經傳譯員）我哋係咪要理解，就係話全港有 4,200 公里嘅路，而運輸署係  
11 唔會有存貨嘅，即係有呢啲咁嘅攝錄機嘅存貨，係咪咁樣理解？或者你答唔到  
12 呢個問題喇。

13 黃碧嬌女士：或者我都講下，呢件事情 2 月 10 號發生咗之後，我哋喺特別會議，2  
14 月 12 號有個特別會議，跟住就 3 月我哋有區議會嘅大會，就第二次會議，跟住  
15 就係第三次就係交通運輸委員會會議，跟住再去討論就係 4 月 12 號嘅 DMC 會  
16 議，跟住 5 月、7 月，我哋都係集中好強烈地要求儘快安裝呢一個嘅車速嘅攝錄  
17 機，但係到而家應該都仲係未曾能夠完成嘅。或者我哋啲議員可以發表下。

18 任啟邦先生：係，我同意法官閣下所講嘅，因為我哋都有個質疑，就話點解冇存貨呢  
19 個問題，或者咁大個運輸署嘅部門，點解會一啲後備嘅一啲零件--唔係，即係  
20 後備嘅一啲嘅裝置都有呢？因為呢個政府話到要好快去回應呢個問題，其實頭  
21 先法官講話更改--唔係，頭先陳笑權議員講因為更改地面嗰個--即係更改個車  
22 速可能喺工程上可以就好快做得到，但係呢個運輸署曾經係用呢一個訂貨呢啲  
23 理由，我哋區議會嚟講，都認為係一個不合理嘅理由。

24 主席：（經傳譯員）唔該晒。黃小姐。

25 黃佩琪女士：（經傳譯員）黃女士，我就想你睇一睇第 19 段嘅，會議紀錄嘅 19  
26 段，係 840-29，呢個係第 19 段嘅，我就想問係關於呢一段嘅一啲幾個問題，  
27 你第一樣嘢講到就話要下調個車速，車速下調咗之後，你就得到一啲校巴司  
28 機、巴士司機同埋意外康復者嘅一啲意見，我就想知道你收到啲咩嘢嘅回應  
29 呢？

30 黃碧嬌女士：因為呢一件事，我哋都比較集中喺議會度討論，就係要求嗰個現階段嗰  
31 個 70 公里降至到 50 公里，就係我係收到係喺呢一段道路嘅校巴司機同我講，  
32 佢話由於有一個好--佢嗰個係斜路嚟嘅，斜路佢哋如果係要由一個咁高嘅地  
33 方，佢踩上到去最高，跟住要佢踩低收油落番嚟去到 50，佢話好難控制到呢一  
34 個嘅車速，就都希望我哋--佢哋好理解呢一單嘅意外係必須要有一啲嘅改善，  
35 但係如果純粹就係要減個嘅速度，佢係驚影響--因為佢哋嗰部嘅校巴，佢載  
36 嘅客都超過四十個嘅，佢話咁大個嘅車輛唔容易控制到去壓低過 50。所以我

1 都喺接收到不同嘅司機，我都喺番個區議會度表達嘅。

2 黃佩琪女士：（經傳譯員）而你第二個觀察，就係羅馬數字(iii)個度，你就提到有  
3 啲巴士司機--有啲雙層巴士司機就唔適合係行走大埔公路，因為佢哋係好容易  
4 係超過每小時公里嘅，就算係巴士裝唔滿人，都係好容易係加速嘅，你係咪知  
5 道有咁嘅情況，你係咪意思話雙層巴士係唔適宜行走呢個路段呢，還是你係有  
6 第二啲嘅意見呢？

7 黃碧嬌女士：呢一度就咁嘅，我就去探啲啲嘅傷者，個傷者出咗院之後，其中有一個  
8 傷者佢就係揸巴士嘅，同埋揸貨--亦有揸巴士嘅傷者，亦都有揸貨車嘅傷者，  
9 佢哋喺呢段路裏面，自己都係其中一個受傷嘅乘客，佢都有同我講，佢話喺呢  
10 一段路係行雙層巴士係好危險嘅，因為一架雙層巴士佢咁大，佢個嘅油門係-  
11 -佢上斜路嘅時期，佢哋踏個油門係會大力啲去踏落去加油嘅，一部車咁--雙  
12 層巴士，唔係一般嘅單層巴士，所以佢哋都同我提議番，佢話而家唔想再睇到  
13 喺呢一個公路上面係有雙層巴士，佢話其實係好危險，能唔能夠再係去畀番一  
14 啲嘅單層巴士行呢咁樣。我喺呢一次嘅會議上面，我係將佢哋個意見表達出  
15 嚟。

16 黃佩琪女士：（經傳譯員）喺我哋繼續之前，我哋睇睇啲相片同埋個地圖，睇睇有咗  
17 改善之後個情況係點，個圖片就係 14 至 19 號嘅，呢個係第一個交通標誌，呢  
18 個係減速之後嘅新嘅時速限制 50 公里同埋地下有啲標誌嘅，剛才我哋見到就係  
19 巴士上斜同埋有少少落斜個部分嘅，呢個就係你較早前講嘅部分，啱唔啱？

20 黃碧嬌女士：係，係。

21 黃佩琪女士：（經傳譯員）見到第一個警示嘅標誌，前面 100 米要減速，接住就有  
22 第二個標誌，有九個標誌，有呢個黃色框提醒啲駕駛者要小心嘅，係有九個箭  
23 嘴標示嘅。

24 主席：I think they are described as “chevrons”, are they not?  
25 Nine chevrons.

26 黃佩琪女士：（經傳譯員）我哋見到巴士站重建，同埋行人區擴大嘅範圍，呢度個巴  
27 士站亦都加咗三盞燈嘅，我都想問大埔交通意外之前個燈光個照明個情況係點  
28 嘅？

29 主席：（經傳譯員）你意思係街燈路段嘅照明係畀呢個嘅巴士站？

30 黃佩琪女士：（經傳譯員）因為而家見到有三盞新嘅燈安咗上去...

31 黃碧嬌女士：陳議員回應下。

32 陳笑權先生：基本上佢個照明就可以嘅，佢規定有 60 呎一支街燈嘅，之前就有棵樟  
33 樹喺度，個樹蔭就遮咗個巴士站上蓋個度，就較為黑啲嘅，而家加咗三支燈，  
34 基本上 okay，最危險就係架巴士站個彎位，即係我哋成日講就係個彎位，

1 就有少少暗斜嗰度，就係講嚟講去就係最危險嗰個路段，而家可以嘅，而家加  
2 咗三支燈，okay。

3 黃佩琪女士：（經傳譯員）有晒呢啲措施，議會對呢啲改善措施有冇反映話係足夠--  
4 係咪足夠，係咪滿足到你哋之前嗰啲擔憂，係咪能夠解決咗你哋之前嗰啲擔憂  
5 㗎？

6 陳笑權先生：基本上我本人我都有同運輸署相關部門都有傾過，佢而家將嗰個巴士站  
7 就拉前、擴闊，將嗰棵枯萎嗰棵樹都移咗，將個現場個巴士站係擴闊咗嘅，係  
8 事實。我要求佢做一個手按式紅綠燈嗰度，佢做唔到，不過就做咗一個行人輔  
9 助線，就喺大埔尾個入口嗰度將嗰個出口--個村嘅出口就想擴闊番少少，暫時  
10 都做唔到住，你話係咪百分之百應佢哋村民嘅要求呢，係未係嘅。亦都有村長  
11 提及將個巴士站可唔可以褪番前去嗰個位置就容易睇得到，運輸署即係佢哋睇  
12 嗰個現場嗰個實際情況，佢話暫時喺呢刻係做唔到住嘅，佢話本身個後面好大  
13 個斜坡，而家就改善咗之後，要睇日後嗰個實際用落先至知道嘅。唔該。

14 黃碧嬌女士：陳議員補充下。

15 陳灶良先生：法官，我想講其實滿足唔到，因為就住安全嗰方面去畀意見，我就覺得  
16 呢啲咁嘅標示同埋呢啲咁嘅箭嘴都可能都係畀一啲駕駛者去睇，用眼嚟到去睇  
17 呢個--即係去警示呢一個嘅車速等等，但係我哋好多同事都畀一個意見，就係  
18 尤其是喺呢啲咁嘅落斜路，其實最有效唔係用眼嚟到去睇，最有效就係喺地面  
19 用一啲減速嘅，即係好輕微減速嘅一啲黃間，即係我哋有陣時見到落斜都有啲  
20 「戥戥戥戥」，即係有個感覺，用呢個感覺嚟去呢個減速可以達致呢個安全呢  
21 個要求嘅。

22 黃佩琪女士：（經傳譯員）你有冇去表達安裝呢個減速帶、呢啲條，畀人有個體感係  
23 感覺到係需要減速，係覺得係要減速，你有冇將呢個要求係表達畀運輸署呢？

24 陳灶良先生：我哋都有嘅，我哋所有區議會都有表達呢個，但係佢哋嘅回覆，因為香  
25 港運輸署佢係有一個局限嘅，個局限要設立呢啲咁嘅黃間減速只能夠喺一啲交  
26 匯處，即係落交匯處嘅斜路，例如西貢嗰單交通意外嗰個暗斜嗰度，佢而家加  
27 咗，但係唔係喺交匯處嘅前面，即係唔係落交匯處呢，佢哋係做唔到呢一個  
28 嘅。

29 黃碧嬌女士：我哋喺現場，我自己都有睇嘅，因為佢去到另外一張圖，我哋有九個嗰  
30 個--係呀，呢個牌，其實呢度已經係最高點㗎喇，佢哋即係揸巴士嗰啲司機就  
31 話如果揸住一架雙層巴士，載滿客，佢係要有一個踩油門大力加油先至可以去  
32 到，跟住佢呢度就衝落去嘅，呢個就係斜路，有一個急彎，呢一個彎就係會--  
33 我哋自己都覺得係危險，能唔能夠喺呢一個路面，就正如陳灶良議員講嘅，就  
34 畫一啲黃色嘅斜線，喺現場有提到嘅，但係佢哋都表達咗就係唔容易，嗰個原  
35 因就陳灶良議員都有講嚟嘅。

36 同埋我哋都有講過將呢一個亭再移上去上面呀咁，亦都佢哋都表示咗係做

1 唔到，因為你呢個亭喺度，就係前面就係大埔尾嗰個村民嗰個嘅路口嚟嘅，佢  
2 哋就係要由嗰度去過馬路去入到去嗰個巴士站，嗰個巴士站其實凹咗落去，喺  
3 最斜路嘅呢一個位裏面過馬路，你話係咪好危險呢？係呀，仲要架巴士扭入  
4 去，你喺最高處要減速，減速之餘，你架巴士係扭埋入去落客。即係我哋要諗  
5 下呢一個司機嗰個嘅駕駛嘅技術能唔能夠做到呢樣嘢，所以即係意外我哋就希  
6 望唔好再有第二次㗎喇。

7 黃佩琪女士：（經傳譯員）係，唔該晒陳女士嘅。我而家要畀最後一份文件你睇嘅，  
8 係 2018 嘅 5 月 25 號嘅會議紀錄嘅，中文就係响 826 頁，英文係 827 頁嘅，  
9 你係有個附件，英文版就係 834，中文版係 828，喺呢個會議紀錄，你係作出  
10 一啲建議嘅，同埋發表咗一啲意見嘅，我想同你探討下嘅，第一個就係會議紀  
11 錄第 4 段，係提到運輸署目前對司機嘅工作時數，就話車長更次就唔應該超過  
12 十四小時嘅，就覺得就最長嘅工時，喺呢個指引嘅工時太長，係對乘客係有啲  
13 安全嘅擔憂嘅，就希望委員會係可以檢討呢個車長嘅工作時間嘅過長嘅；亦都  
14 講到喺 835 段，英文，同埋中文 830，就不管工作點安排都好，個工作時數係  
15 太長，個車長要佢做十四個鐘，每日十四個鐘係太長嘅。我個問題就係你可唔  
16 可以解釋下點解你會覺得十四個鐘係太長呢？

17 黃碧嬌女士：我哋一日係有二十四小時，二十四小時嗰個嘅分配就應該係用三分去分  
18 嘅，八個鐘頭就係工作，八個鐘頭就係休息，另外八個鐘頭就係畀自己係做一  
19 啲係家庭或者係自己嘅學習咁樣樣先至係合理嘅，而家九巴就將一日嘅廿四小  
20 時，佢係將二分一嘅一半仲要多嚟成為十四個小時畀一個員工去返工，佢承擔  
21 嘅工作係一個司機㗎喇，你十四個鐘頭唔係坐喺度可以你鍾意就瞓埋隻眼或  
22 者係「我好叻喇，咁樣攤一攤條腰。」完全係冇，絕對我諗如果十四個鐘頭喺  
23 做呢一個咁重要嘅崗位，承擔住整架巴士超過一百三十個人嘅生命嘅安全，我  
24 諗絕對係不適合。呢個我都可以請我哋其他議員同事都去表達一下嘅，任啟邦  
25 議員。

26 任啟邦先生：係，唔該晒黃碧嬌副主任。我就住工時嗰個問題，我哋都要表達番一個  
27 意見，因為日常喺——尤其是新界區，我希望各位都了解，就係新界區嗰個市民  
28 出行模式就係朝頭早就好多人嚟新界出九龍或者出港島，黃昏放工時間就嚟港  
29 島、九龍就返入新界，呢個運輸模式就其實喺——我相信喺——即係嗰個比例，可  
30 能十架車出九龍，即係十架車裝滿人出九龍，都未必有一架車或者兩架車裝滿  
31 人返番入大埔；所以變咗嗰個運輸模式就運——即係其實之前嘅委員會嘅一啲嘅  
32 其他，譬如巴士公司嘅作供都講到，就話其實都有一啲繁忙時間嘅需要，而家  
33 正正就係出現一啲特別更嘅情況，就係朝頭早可能做四個鐘、五個鐘，跟住黃  
34 昏時間可能做三個鐘、四個鐘，但係中間有一段係所謂叫做唔需要，即係十四  
35 個鐘頭未必係十四個鐘頭全部係揸緊車嘅，但係佢一啲所謂叫做 on duty 或者  
36 叫做待命，即係叫做所謂嘅休息時間，其實係咪畀到佢哋休息呢？

37 當我哋有時接觸到啲巴士司機就會講佢可能係住屯門，可能住元朗嗰面，  
38 佢分派到嚟大埔區揸啲特別路線，好喇，佢 10 點鐘，佢完咗上晝嗰個繁忙時

1 間，佢可能有三、四個鐘頭佢係可以休息嘅，但係嗰個休息佢返唔返到佢屋企  
2 瞓覺呢？佢如果由大埔返屋企瞓覺，可能佢要花兩個鐘頭、兩個幾鐘頭一個搭  
3 車時間，好喇，跟住之後又要返番嚟大埔度攞車，就再做埋下半場嗰個嘅工  
4 作，所謂駕駛嘅工作，而導致到佢咁其實中間有幾個鐘頭所謂空閒時間，其實  
5 係咪真係畀到佢休息呢？呢個我哋都會覺得係有個問題。

6 而巴士公司，我哋又唔係好清楚，不過我聽番啲司機講，就係佢中間嗰個嘅  
7 時間其實係未必有一個好好嘅休息環境，我要講一講，其實黃碧嬌主席帶領我  
8 哋喺早前去到中國大陸就去參觀考察，其中去到杭州嘅一個巴士公司嗰度講，  
9 就係其實佢都有一啲休息室或者一個--直情一個--類似一個宿舍咁樣嘅性  
10 質，係畀到巴士司機係作一啲休息。

11 我諗甚至我可以講大啲，全世界返工、放工時間都係朝九晚五、晚六，  
12 peak hour，即係嗰個高峰時間亦都係嗰個時段，中間嘅時間我相信係比較少  
13 人去搭車，呢個亦都可能係事實，好喇，其實佢哋都有類似啲所謂特別更嘅模  
14 式，但係中間嗰啲職員佢係咪返到屋企瞓覺，係咪返到屋企休息呢？呢個我哋  
15 覺得係未必，但係巴士公司有冇一個責任去畀一啲特別更嘅員工有一個好嘅休  
16 息嘅時間，佢朝頭早五點幾揸緊部車，要佢可能揸到夜晚十點--八、九點嘅時  
17 候，佢係咪有足夠嘅精神呢？中間有一個好嘅環境休息，呢個我哋覺得係一個  
18 問題。所以巴士公司係咪應該有個責任喺所謂呢啲特別更嘅員工休息嘅地方或  
19 者時間係畀到一個好啲嘅環境佢哋呢？

20 法官閣下，我哋或者幾位委員會嘅成員，我希望大家明白，特別更對新界  
21 區，我可以咁講，尤其係新界區嘅巴士路線係特別嘅重要，因為好明顯過咗九  
22 點零、十點鐘之後出九龍、出港島嘅乘客係明顯減少咗好多嘅，而放工返嚟，  
23 就亦都係可能係四、五點個高峰期開始，之前嘅時間其實係比較少人嘅，如果  
24 一刀切將特別更嘅巴士司機即係切除咗，即係叫做冇咗呢個特別更分嘅話，其  
25 實亦都會幾影響新界區嘅巴士服務嘅，除非佢係大幅度即係請多一倍人，早上  
26 有一班司機，下午黃昏又另一班司機，呢個其實如果佢唔係咁樣做得到嘅話，  
27 佢就將特別更嘅服務就減少嘅話，其實對於新界區，唔淨只大埔，係新界區嘅  
28 好多路線都係可能會因此而受到影響，希望委員會係明白新界區居民出行嘅模  
29 式同埋巴士服務嘅需要嘅情況。唔該。

30 黃佩琪女士：（經傳譯員）唔該。我想問關於你哋會議紀錄裏面提到四個建議...

31 主席：（經傳譯員）或者喺你繼續之前。關於話嗰個指引，即係巴士車長工作休息用  
32 膳嘅時間指引，喺 2017 年 9 月嘅時候運輸署就檢討過當時嗰個指引，即係講緊  
33 2010 年嗰個版本，當時你作為區議會，有冇諮詢你哋嘅意見，就係話佢哋建議  
34 點樣修改個指引呢？

35 黃碧嬌女士：冇諮詢過我哋。

36 主席：（經傳譯員）唔該。

1 黃佩琪女士：（經傳譯員）跟住我想問關於會議紀錄裏面提到嘅四項建議，第一，  
2 836 頁，第二點，即係英文版本，然後 830 頁就係中文版本，都係第二點，由  
3 下數番上去。你提到星加坡作為一個例子，就話當地政府佢哋負責一啲硬件嘅  
4 資產，例如話巴士車廠、車輛、運作系統等等，營運方面就由營運商負責，所  
5 以營運商只需要負責營運嗰部分，佢哋仲可以額外得到獎金，點解你認為星加  
6 坡個模式喺香港係合適呢？

7 黃碧嬌女士：呢個請任啟邦議員回應一下。

8 任啟邦先生：好，唔該黃碧嬌副主席。就呢個題目其實--呢個意見係我提出嘅，其實  
9 我亦都參考過一啲市面上一啲嘅研究，就住究竟巴士嘅服務係應該點樣去經  
10 營呢咁樣，究竟係全私營，全私營即係好似現在嘅模式㗎，定係話我國營，由  
11 政府去擁有，包括係聘請員工，變成咗公務員呢？定係話公、私營模式，即係  
12 話好似而家講緊星加坡或者倫敦嘅模式，即係話政府就係購買咗佢哋嘅車廠、  
13 車輛咁樣樣，跟住就去再外判一啲路線畀一啲承辦商呢咁？

14 點解會咁樣講呢？因為我哋會覺得而家專營巴士嘅服務係分咗四間--如果  
15 計埋龍運，五間公司，其實係各有一啲路線，即係俗啲講，就係一個各有地  
16 盤，九巴係九龍、新界，新巴、城巴就係港島區，大嶼山巴士公司諸如此類。  
17 其實佢哋一個咁大嘅組合，其實佢好明顯就會著重咗一啲賺錢嘅路線，而一啲  
18 蝕錢嘅路線，佢因為其實專營，佢對於市民嘅服務可能係會有個忽略，陣間陳  
19 灶良議員可以講一講呢一方面嘅情況。

20 我哋都睇到就話如果佢能夠將佢拆散成為更多公司嘅話，喺一啲互相競爭  
21 嘅情況之下，有冇機會係可以做到啲改善呢？譬如星加坡嘅模式就係話佢外判  
22 咗畀幾間巴士公司去做營運，令到嗰個譬如話路線、票價或者員工嘅薪酬佢都  
23 可以由政府係去做一個編制，就未必係完全純粹用盈利個考慮，而係講緊有冇  
24 需要同埋工資係咪一個合理或者係一個能夠滿足到個工人嘅一個水平。

25 第二，就係話其實我哋睇番另一個地方，台北，其實佢台北就係好多唔同嘅  
26 公司係去營運緊唔同嘅巴士路線，台北嘅巴士路線就係可能會有啲好接近嘅路  
27 線係由唔同嘅公司去做嘅，其實互相係作出一個競爭，競爭會帶嚟兩個情況，  
28 第一，就係工資可以係更加係--因為搶員工，可能會有個上升，令到佢個工資  
29 嘅回報係會好啲，第二個路線如果係一個相近嘅路線嘅話，佢係可以帶來一啲  
30 競爭，帶來一啲優惠，乘客可以得益。

31 第三，其實我哋會建議就係點解會由政府去買起晒成個巴士公司嘅系統，去  
32 再交界去其他公司--即係再外判一啲公司去營運呢？就話可以將一啲路線做一  
33 啲整合，譬如話賺錢嘅一啲路線，再搭一啲冇咁賺錢，但係有居民--可能少數  
34 嘅居民需要，而家就係少數居民嘅需要或者佢嘅服務係被忽略，當某啲地區佢  
35 成日爭取希望加多啲車嘅時候就加唔到，但係就有啲地方可能係覺得--即係佢  
36 政府--巴士公司認為有錢賺，佢就係咁去做。

37 所以點解我哋覺得所謂呢個星加坡模式係比較彈性，因為如果全私營嘅模式

1 嘅話，巴士公司就好明顯就第一，就以盈利掛帥；第二，就係話佢可以剝--我  
2 唔用「剝削」，即係可能會可以減低嘅開支係邊度呢？油價佢減低唔到，嗰個  
3 購買車嘅成本其實都可以咁講係世界嘅一個標準，其實都有得點樣減，減就可  
4 能係減，或者唔能夠加到員工嘅人工，呢個就係喺度就向佢哋開刀，所以點解  
5 先至會有一啲員工或者工會就話巴士司機嘅薪酬、待遇係一直係被壓低個情  
6 況。可能陳灶良議員都講，即係點解會出現咗點解--即係其中有啲人講到話模  
7 式上面嘅改變可以帶動到一啲服務嘅改變。唔該。

8 黃碧嬌女士：陳灶良議員。

9 陳灶良先生：或者我補充兩個事實，一個事實就係正話講嗰個--當然佢建議嘅模式喺  
10 個好處方面都係有嘅，講兩個事實，就一個，一個就係冇人搭，即係蝕本嘅，  
11 蝕本嘅路線，佢梗係唔係幾想做喇；好喇，講一個多車冇人搭嘅，譬如好似林  
12 村咁，得一條巴士線嘅啫，好多人搭嘅，但係佢都只能夠用番現有嗰條路線嘅  
13 資源去調動嗰啲班次嚟到去滿足我哋，變咗呢兩個係事實嘅情況都要大家分享  
14 下。

15 黃佩琪女士：（經傳譯員）好，唔該。第二個建議，你就話用實時技術--即係實時資  
16 料嘅技術，你話要求實時訊息可以發放，...

17 主席：（經傳譯員）呢個建議喺邊度搵到呀？

18 黃佩琪女士：（經傳譯員）英文版 838 頁，中文就係 831 頁，喺底下嗰度，即係中  
19 文版底下嗰部，838 就係英文，第二點，就提到有啲議員提到因為香港嘅巴士  
20 脫班情況嚴重，如果巴士公司可以提供呢個資訊嘅話，政府就能夠更好咁監控  
21 嗰個脫班嘅問題，可能呢個就係原因點解實時嘅資料冇全面發放，佢認為如果  
22 由乘客嚟監察就可以改善嗰個脫班嘅情況，所以佢希望委員會會考慮要求巴士  
23 公司發放類似嘅應用程式，利用呢個技術去監察巴士服務，你可唔可以再解釋  
24 一下乘客點樣可以利用呢個技術嚟去監察脫班率呢？即係如果我理解正確嘅  
25 話。

26 任啟邦先生：呢個都我去講一講嘅，呢個建議或者呢個資料都係我去喺網上面去搵到  
27 或者我哋自己一啲經驗去睇到嘅，喺嗰個會議上面去表達番，我引用呢個台北  
28 市公車動態資訊系統作一個例子，就係佢係喺個手機嘅應用程式裏面係實際上  
29 睇到嗰架巴士喺個地圖上面顯示緊佢係行到邊個位置，即係譬如話行到邊一個  
30 街口、邊一個站頭，我哋睇到嘅。而家九巴嗰個手機應用程式，佢只係 show 到  
31 --即係佢顯示到係仲有三分鐘就嚟到，仲有五分鐘就嚟到，但係而家呢個資料  
32 其實係睇唔到佢仲有幾遠嘅途程。

33 呢個資料點解會我哋要知道比較清楚呢？就係話如果佢仲有三分鐘，但係其  
34 實原來係好塞車嘅話，其實嗰三分鐘係唔等於三分鐘之後到達，因為嗰個巴士  
35 嗰個手機應用程式只係睇到三分鐘嘅路程，但係如果三分鐘嘅路程係全部塞死  
36 咗車嘅話，其實可能係十五分鐘都嚟唔到，但係如果我哋能夠喺嗰個 app--如  
37 果好似台北嗰個系統嘅話，市民係能夠睇到嗰架巴士原來就塞咗喺兩個路口之

前，但係佢係--嗰個系統亦都睇到埋當時嘅實時嘅交通狀況，好似大家而家睇 Google Map 咁樣，都會睇到實時嘅交通狀況究竟係擠塞定係暢通呢咁。

如果睇到其實條路係暢通，但係三分鐘嚟唔到係咪有咩嘢問題呢？或者亦都可以監察到巴士嗰個服務，就話其實我哋下一班車係應該要有嚟到，點解隔咗咁耐都嚟唔到，究竟係咩嘢問題呢？究竟係道路嘅路面嘅擠塞、交通意外所導致咗，定係巴士公司脫班嘅情況出現呢？而家嗰個九巴嗰個 apps，即係嗰個手機應用程式係睇唔到嘅，亦都資訊係比較有限。

如果可以引用到譬如其他國家地區嘅一啲實時嘅一啲嘅顯示嘅模式嘅話，我哋好清楚睇到有一架巴士喺兩個街口，約莫三分鐘後嚟到，佢係好暢通嘅；約莫有一架巴士五分鐘之後可能嚟到，不過原來係塞死咗喺條路上面嘅。我哋市民無論作為監察又好，作為旅客，我唔等，我搭地鐵，我都可以有個選擇。而家就睇唔得好清楚呢方面嘅資料。

陳灶良先生：或者我補充呢一個脫班一個嘅事實嘅例子，亦都好似林村咁樣樣，佢咁多年嚟，即係講緊超過二十年嚟，個脫班解決唔到，個原因就係點解呢？大家都知道，喺由元朗經錦上路嚟到林村，嚟到大埔，佢喺錦上路太多巴士站，停下又等下，停下等下，分分鐘嚟到林村兩架、三架，咁多年都解決唔到。好喇，出現一個問題係咩嘢呢？而家佢九巴嗰個應用程式佢可能 show 十分鐘、十五分鐘，其實佢完全係唔準嘅，個例子就係咩嘢呢？到而家為止，都好多人投訴佢嗰個應用程序係已經完全係唔準時到達，第一樣嘢。

點解會之前有一個--即係正話律師講嗰個證供呢？點解好似余智榮議員咁講呢？運輸署偏幫九巴個情況就係咁樣樣，點解呢？我哋係作為一個橋樑同運輸署講，佢咁多年都解決唔到呢個問題，惟有用一啲維護或者去幫佢--即係我哋感覺上佢係幫佢講嘢，咁覺得即係幫緊佢，即係個意思咁樣。

黃佩琪女士：（經傳譯員）你提過第三嘅建議，就係呢個 839 頁，第四點，中文就 833 頁第二點嚟嘅，你就建議一個懲罰機制畀巴士公司，類似港鐵嘅懲罰機制，即係話如果發生意外就要交罰款。我想進一步講下，點解你認為喺專營巴士嘅經營環境，呢樣嘢係適合呀？

黃碧嬌女士：其實呢一度就幾個成員提嘅，任啟邦議員都可以繼續嘅。

任啟邦先生：係，唔該主席。我哋多位嘅成員其實都覺得巴士公司呢一個是否去續牌又或者係嗰個懲處嘅時候有冇一個機制去處理呢咁，而家我哋睇到港鐵如果佢係因為一啲事故而導致到延誤嘅話，佢係要罰款，但係巴士公司如果出現咗脫班或者出現咗一啲服務欠缺理想嘅情況嘅話，其實佢好似就冇一個罰則，我哋亦都睇唔到或者有一個好清晰嘅公眾知道嘅情況就係究竟政府點樣或者點解會繼續一啲專營權畀巴士公司。即係譬如九巴咁，幾年前，應該三幾年前，即係呢個續到佢個專營嘅時候，其實冇拎過嚟區議會討論嘅。

一個專營嘅巴士服務，對於--如果用九巴嚟計，整個九龍同新界區嘅服

1 務，咁多個區議會，咁多個區議員，咁多個市民，其實係咪應該有一個發聲嘅  
2 機會呢？但係我所了解，就肯定喺區議會上面係冇被諮詢過九巴應唔應該去續  
3 呢個專營權，呢一個情況其實就似乎巴士公司咪唔需要理議員嘅一個意見囉。  
4 如果佢唔需要理議員嘅意見嘅話，我哋就當然我哋其實喺議會裏面講嘅嘢，正  
5 如頭先幾個議員都講，我哋係有提出一啲唔同嘅意見，要求佢改善服務、增加  
6 班次、增加路線，但係似乎都唔能夠得到巴士公司好積極嘅回應，個問題就係  
7 我哋係咪佢嘅老闆，我哋係咪佢嘅一個能夠有操一個生殺大權嘅一個持份者  
8 呢？似乎區議會就唔係。

9 但係而政府作為運輸署，作為一個行政部門，有冇有效監察到、監督到巴士  
10 公司有冇脫班、服務嘅質素係點呢？似乎我哋又覺得運輸署亦都有啲不力。即  
11 係好似頭先陳灶良議員所講，64 號 K，元朗去到大埔，經過林村一個唯一嘅巴  
12 士服務，講咗好耐嘅問題都似乎解決唔到，又或者我哋議員希望由譬如大埔區  
13 去某一啲地方、去港島區嘅巴士服務，似乎都唔能夠增加得到。個原因我哋就  
14 睇到其實佢都有一個監察嘅機制。

15 我哋希望引入呢啲所謂罰則嘅話，除咗係希望改善服務之餘，就係希望減少  
16 譬如脫班又或者譬如話一啲事故咁樣樣，令到巴士公司--我哋阻唔到佢繼續去  
17 搵錢，阻唔到佢繼續去攞呢個專營權，但係都希望製造一啲條件，等佢做好  
18 啲。因為而家佢做得好定唔好，其實即係佢自己睇住盤數，但係對於我哋市民  
19 嚟講，或者對於我哋議會嚟講，似乎冇乜嘢可以監督嘅板斧嘅話，我哋覺得引  
20 入呢啲懲罰嘅機制，我諗我哋議會裏面即使未必有就住呢個題目嘅發言，但係  
21 我相信議會裏面議員都有一個咁嘅希望，就係佢做得唔好，我哋咪罰佢囉，我  
22 哋咪要佢承擔番做得唔好嘅後果，呢個就係我哋嘅意見。唔該。

23 黃碧嬌女士：我都想喺度講幾句嘅，主席。其實我哋去到睇而家香港嗰個嘅巴士嗰個  
24 專營權，而佢就係攞咗個專營權之後，政府就係搵運輸署去監管，同埋就係同  
25 佢哋開會去制訂不同嘅路線嘅，而我自己覺得運輸署喺呢一面真係放嗰個嘅人  
26 力係太薄弱，好似我哋大埔咁樣，我哋係超過一百條嘅巴士路線，同我哋開會  
27 嘅就係運輸署一個同事，佢就係睇晒大埔區㗎喇，但係你諗下，超過一百條嘅  
28 路線，牽涉到嘅肯定係好多嘅巴士，亦都好多嘅巴士嘅司機，而當中亦都好多  
29 嘅乘客，我哋都唔敢喺個區議會嘅會議上面提得咁多，但係呢個事實上係一個  
30 民生上面係一個好重大嘅問題嚟嘅，我哋一落街就係要--返工你就係要搭巴  
31 士，買餸你又要搭巴士，去醫院亦都要坐巴士。

32 而特別去機場嘅巴士，我覺得就係喺呢度嗰個專營權--不過而家大埔就多  
33 咗一架叫做 A47X，我用呢個舉例，而佢嗰個嘅脫班，你有一個--而家嗰個嘅-  
34 -佢睇唔到，即係佢運輸署高層亦都睇唔到，佢嗰個專營權龍運直情唔知道呢一  
35 個巴士司機係病咗，而嗰架巴士就喺嗰個嘅站頭冇人開，好喇，我哋嘅尾站嘅  
36 乘客等三架車都有，但係係要去機場嘅。喺呢啲嘅監管裏面都唔能夠係好順  
37 暢。而呢一啲嘅時間--我講緊呢啲時間係上晝 6 點至 7 點嘅，我哋去到現場打  
38 一個電話，你都搵唔到嘅，但係係去機場。

1 我哋區議會去杭州做咗一個嘅視察，我哋係好讚賞杭州佢哋個嘅公交個  
2 嘅監管，可以喺一個控制中心裏面好多部電腦，而一條線，你打一條線個嘅  
3 杯巴係我哋睇到二十部嘅電腦係可以睇到成條路線嘅巴士站，呢個站裏面有冇  
4 人等客，而個客嘅程度係去到邊度。如果係好多客嘅，佢哋即刻係調動特別嘅  
5 巴士去解決呢啲乘客嘅問題，但係香港喺呢一方面冇進步過。係喇，我就係咁  
6 講，即係要表達呢個意見。唔該。

7 黃佩琪女士：（經傳譯員）呢個就係講嘅第四個建議，就係呢一個尾數上第二點，  
8 839 頁，就話區議會作為巴士路線規劃同埋服務嘅持份者，同巴士公司嘅合作  
9 非常之密切，所以建議係呢一個續牌嘅過程引入評分制度，等區議會可以就於  
10 巴士公司嘅表現評分同埋提供意見。我相信呢個就係第四個建議。

11 黃碧嬌女士：呢度都請任啟邦表達一下。

12 任啟邦先生：係，唔該。就正如頭先我所講嘅發言裏面講，即係話喺個續牌或者係延  
13 續個專營權當中，其實區議會似乎冇乜一個決定，咁嘅話，其實我哋希望未來  
14 嘅日子能夠增加區議會作為呢個專營權是否續牌畀邊間巴士公司係可以有一個  
15 即係參與，係一個持份者。

16 極其量，即係你而家可能所謂續牌，可能嚟一嚟區議會，咁就過一過諮詢，  
17 但係如果譬如話就住我哋議會能夠係畀到一個意見，或者如果個意見係覺得  
18 某個巴士公司做得非常之差，係咪可以係影響到政府續唔續牌畀呢啲巴士公司  
19 呢咁。又或者譬如頭先大律師講到，喺呢一段個度，喺個規劃上面，正如呢一  
20 個聽證會講呢個大埔公路嘅意外，其實議員喺好早時間亦都提咗好多嘅意見，  
21 不過我所講嘅就係區議會其實某程度上係主動，但係喺一啲事實上面亦都係被  
22 動。

23 被動嘅就在於我哋提出咗唔同嘅意見，如果大家搜集資料嘅時候可以睇到，  
24 尤其是譬如話巴士服務嘅話，我哋大埔區有個叫做巴士服務工作小組，小組裏  
25 面係有好多唔同嘅意見，但係巴士公司或者運輸署回應咗有幾多呢？如果我哋  
26 區議會能夠係喺呢一個續牌嘅時候能夠去評分，能夠去有一個意見嘅表達，而  
27 呢個意見表達真係可以令到政府係決定畀唔畀牌巴士公司嘅話，我相信巴士公  
28 司係必須要聆聽同埋履行區議會議員所提出嘅意見。

29 我諗希望委員會知道就係區議員嘅意見就唔係天方--唔係，應該咁講，即  
30 係唔係空談出嚟嘅，其實我哋係收集咗民意，即係點解要搞代議政制呢？就係  
31 市民選議員出嚟，議員喺議會反映意見，但係當議員喺議會反映意見嘅時候又  
32 得唔到行政部門即係運輸署與及營運者嘅同意嘅話，其實我哋覺得都係好無  
33 奈，呢個無奈亦都係一個憤怒，但係我哋仍然要同佢繼續合作，所以我哋會覺  
34 得如果喺續牌嘅時候能夠加入區議會作為一個評分，又或者係令到巴士--咁係  
35 必定會令到巴士公司係會重視同埋聽取我哋嘅意見。

36 所以呢個我係覺得未來可能委員會要檢討呢個專營權個個--或者整體專營  
37 巴士服務嘅時候，呢一個意見我希望能夠納入在內。唔該主席。

1 黃佩琪女士：（經傳譯員）唔該晒。唔該晒各位，我已經完成提問，唔該。

2 歐陽先生：（經傳譯員）唔該晒主席，我就想跟進一下黃女士之前講過嘅意見，就話  
3 你聽過一啲嘅意見，大埔公路未必適合使用雙層巴士，你會唔會同意咁樣嘅講  
4 法呀？

5 黃碧嬌女士：我聽嘅意見就係其中一個傷者，係喇，其中一個傷者佢就係巴士司機嚟  
6 嘅，佢而家已經係--即係同佢傾偈，佢自己就--佢話呢一條路係我哋大埔未有  
7 吐露港公路，先有大埔公路嘅，點解會叫 872 呢呢架巴士？就因為大埔公路有  
8 條 72 嘅巴士線行嘅，後期有咗馬場，有咗馬場，咁咪要將大埔嘅居民，我哋啲  
9 想去馬場嘅，咪車佢哋過去，所以就行呢一條路，就係行 872，但係都係用單  
10 層嘅。

11 後期--應該咁講，就係九巴慢慢將佢嘅「熱狗」巴士--其實佢嘅單層多  
12 數都係「熱狗」嚟嘅，佢嘅「熱狗」都有晒喇，佢就要變雙層巴士，喺呢一個  
13 嘅階段，佢哋購入嘅巴士其實就無形中成為咗 872 嘅其中一部。但係我就問  
14 番，其實我哋只係需要將我哋大埔嘅居民去馬場啫，我哋咪有條--跟住咪有條  
15 吐露港公路囉，如果你話要服務呢一段嘅居民嘅，我哋就有辦法講，如果你諗  
16 住點到點嘅，就好簡單，就係行下面，所以就多咗個 872X。

17 而家又有 872X，其實仲有 872，係咪有需要繼續呢架 872 用雙層巴士？我  
18 講緊呢架 872 呢一度，係咪有咁多客？每次都超過一百個客？如果超過一百個  
19 客，你可以用三架單層巴士㗎，你加密班次都得㗎。係，唔該。

20 歐陽先生：（經傳譯員）唔該晒。

21 主席：（經傳譯員）呢個係假設要有巴士司機去揸巴士先得㗎。

22 羅先生：（經傳譯員）黃女士，我想澄清一下，你就講過車速限制就由時速 70 減到  
23 50 嘅，有啲嘅旅遊車司機就顯示佢哋係關注嘅，係關注啲乜嘢？關注啲乜嘢  
24 呀？係咪冇減車速限制訂係乜嘢呢？

25 黃碧嬌女士：佢就係同我講，正話去到最高嗰個地方，佢話佢哋而家點解係要踩 70  
26 時速呢？就係呢架巴士載滿晒客嘅時期，佢一踩落去，佢話控制喺 50 嗰度係唔  
27 得嘅，佢問我「如果你有 60 就最好。」我話冇 60，但係喺呢一單意外裏面，  
28 我哋面對住呢一條嘅公路，我哋必須係以安全，就有辦法，我哋一定只會喺區  
29 議會裏面我哋多番討論，都係要調低去 50，佢應該講係對呢一個我哋呢個討論  
30 係有一個嘅意見畀番我哋。

31 主席：（經傳譯員）委員會就想多謝黃女士同埋各位人士協助我哋，委員會係有興趣  
32 收到區議會嘅意見，所以就邀請你同埋其他兩位嘅議員嚟到，我哋嘅職責就係  
33 要就於改善巴士安全，提出建議，就唔係其他嘅議題嘅，所以就係喺呢一方  
34 面，我哋邀請你哋嚟講關於唔同路段你哋嘅關注，就係就於車速限制同埋需要  
35 安裝呢一個嘅車速攝錄機，我哋而家會休息二十分鐘嘅。劉博士。

1 劉志成先生：（經傳譯員）會唔會有機會畀我哋去講其他有關巴士嘅議題呀？

2 主席：（經傳譯員）如果同安全有關，就可以。

3 劉志成先生：（經傳譯員）應該係關於安全嘅。係休息之後定係點呀？

4 主席：（經傳譯員）我哋已經係進行咗超過兩個半小時，你預計會用多幾多時間？因  
5 為我哋已經係畀機會你哋係畀書面意見。

6 劉志成先生：（經傳譯員）係講番一啲我收到嘅意見，有關於巴士司機嘅。

7 主席：（經傳譯員）係，可以。

8 劉志成先生：（經傳譯員）我會用廣東話講嘅。（直接用本地話說）法官大人，今次  
9 大埔尾嗰個車禍係好不幸嘅，就其實就喺呢一個車禍，關鍵嗰--即係都畀人感  
10 覺就係個司機嘅不小心駕駛。而作為司機，喺專營巴士嚟講，個司機嗰個責任  
11 係好重，因為正如頭先我哋嘅同事講，有百幾個乘客喺架車上面嘅時候，佢個  
12 個駕駛態度同埋嗰個專業嘅知識係好緊要。

13 我有啲車長朋友知道我嚟呢個委員會，都向我表達咗一啲意見，就係話其實  
14 就佢哋覺得即係話呢個其實係成個專營巴士嗰個管理同埋佢哋個調配人員，即  
15 係嗰啲車長調配人員同埋嗰個方面嘅經驗不足可能有關嘅。就其實喺兩、三方  
16 面，佢哋表達到個意見就係第一，就係如果調配啲人員去行啲唔熟悉嘅路線，  
17 佢畀佢哋一啲比較大嘅壓力，就希望喺嗰個調配新路線之前有一個熟習嘅機  
18 會。呢個其實係純粹係巴士公司內部嗰個佢哋對員工嘅培訓，咁嘅時候，如果  
19 係能夠即係話保障到佢係即係話正式揸架車，有咁多乘客喺上面嘅時候，佢要  
20 去熟習嗰條路線。

21 另外一方面，就係話揸嗰架車亦都係--如果調配一啲新嘅車可能亦都係需  
22 要去熟習嗰架車嘅性能。呢兩方面佢哋係表達即係話都希望能夠喺呢個檢討嚟  
23 到去即係話都關注一下呢方面。

24 第三樣就係呢個喺嗰個行車時間表，佢哋有預設一啲時間可能佢哋有陣時話  
25 行車時間不足夠，如果係唔足夠，嗰啲車長就可能會加快嚟到去追番個即係話  
26 所失去嘅時間。而喺呢個過程容易即係話因為你要加快，所以可能會係引致一  
27 啲嘅比較--可能會係有啲危險嘅情況會出現都唔定。

28 喺呢三方面，我簡單咁樣喺呢個委員會嗰度表達，代表佢哋，希望委員會係  
29 聽到呢一方面嘅意見，可能你哋亦都會去問番有關嘅團體--嘅車長團體嚟到去  
30 讓佢哋都表達下意見嘅。好，多謝。

31 主席：（經傳譯員）就頭先你最後嗰段，劉博士，呢個係一個一般嘅投訴，我哋係聽  
32 過行車時間係短，我哋要有個證據顯示個行車時間係長定短，如果你個車長係  
33 能夠畀到啲具體嘅例子我哋，譬如話由甲去乙點係定咗一小時嘅行車時間，但  
34 係如果事實上經常係要多過一小時，呢個就係我哋委員會需要嘅訊息。

1 劉志成先生：法官大人，就住呢一樣，喺我個選區，75 號 K，喺我做議員--接手做  
2 嗰區嘅議員，係有調整過嗰個巴士行車時間嘅，佢哋當其時就話個時間表大約  
3 係應該係三十五分鐘，由大尾督到大埔，佢哋覺得呢個時間係太短，搵乜所以  
4 就調整去到大約接近好似係四十五至五十分鐘嘅。咁讓司機即係話喺個駕駛過  
5 程，即係佢哋就唔會話覺得你 set 呢個時間係真係--根本對佢哋嚟講，揸車、  
6 作為一個司機，係一個好大嘅壓力。呢個係如果你問番九巴講嗰個時間表，呢  
7 個係一個事實嚟嘅，係有將呢一方面調整嘅。

8 主席：（經傳譯員）係呀，咁而家係有問題嗰啲路線，要有人喺呢方面作供，我哋就  
9 可以跟進喇。

10 劉志成先生：Do you mean I need to provide this evidence?

11 主席：（經傳譯員）有人係需要作供嘅，而家係得一個口頭嘅聲稱，就話啲行車時太  
12 短，司機因此就會加速，擔心唔夠足夠嘅休息時間，我哋需要就係證據，唔可  
13 以就咁一般性咁描述。

14 黃碧嬌女士：任啟邦議員。

15 任啟邦先生：法官閣下，我補充一下。頭先你所講嗰個，即係要求一個實證，其實可  
16 以你哋翻查番巴士公司喺過去嘅嗰個平均行車時速，即係咩嘢意思呢？即係話  
17 我記得有個數據，不過我唔係好記得喺邊度搵得到出嚟。過去十多年嗰個巴士  
18 嘅平均行車時速係每況愈下，即係越行越慢。究竟呢個行車時速越來越慢，亦  
19 都同時間有冇擺番足夠嘅巴士司機落去個時間表裏面，即係維持番足夠嘅班次  
20 喺裏面呢？因為呢個巴士嗰個行車時速越嚟越慢呢個情況係會令到嗰個行車時  
21 間長咗，如果維持現在嘅班次嘅話，佢必定係要加入手、加車，呢個係一個直  
22 接嘅一個正比例嚟嘅。

23 我哋作為議員，我哋梗係覺得你必定要維持番現有班次，唔能夠脫班，但  
24 係同時間條路係塞咗嘅，多咗車嘅，運輸署喺呢一方面有冇同巴士公司作出一  
25 啲協作，令到佢加番足夠嘅人手，加番足夠車嘅資源呢？呢個我覺得係值得去  
26 研究嘅地方。有呢個數據，不過我唔係好肯定喺邊度搵出嚟，係巴士車速平均  
27 喺過去十幾年裏面係越行越慢。其實我哋區議會都提議過，譬如話會唔會可以  
28 設立巴士專線等等嘅一啲措施，其實都即係呢方面可以去再研究一下。唔該。

29 主席：（經傳譯員）係，唔該晒。陳先生。

30 陳灶良先生：主席，我想建議一個--我一分鐘講完㗎喇。個建議因為都係一個安全嘅  
31 問題，安全，因為我正話都講到喺鄉村落斜嗰個情況，用一個嗰個眼嚟到去睇  
32 一啲嘅交通標誌，一個警示，我覺得係不足嘅，但係如果我哋喺路面有一啲不  
33 平嘅，即係我哋揸車嘅人士都 feel 到嘅，一 feel 到佢路面不平，自動會減  
34 速，所以我都好希望喺一啲鄉村落斜嘅地方都能夠有一啲減速嘅警示。

35 而另外一個建議，就係希望喺鄉村落斜附近有巴士站嗰啲，就加一啲防

1 撞。點解呢？呢個防撞好緊要嘅，例如我上次開會，我都講咗，例如好似許願  
2 樹好出名，許願樹對出嚟有一個巴士站，我要求咗幾年，叫佢加一個欄杆畀我  
3 哋等巴士嘅人有一個安全感，佢都唔加嘅，但係呢個係必須嘅，因為點解呢？  
4 佢一路彎，一路斜落嚟，係好得人驚嘅，尤其是啲雙層巴士一路咁樣落嚟，如  
5 果佢係客滿的話，佢唔停站的話，個車速仲快，變咗我哋上唔到車，喺度等車  
6 嘅巴士嘅乘客係好驚，呢一個所以我建議都希望能夠加啲防撞欄。

7 主席：（經傳譯員）好，唔該。如果大家表述完，我哋亦都係邀請咗其他有關人士如  
8 果係想作供，係能夠表述你想講嗰個題目，我哋係歡迎佢哋嘅，而家多謝你哋  
9 出席係協助我哋，同埋亦都要鼓勵，喺度等待緊作供嘅人，我哋暫時係要休息  
10 二十分鐘嘅。

11  
12 上午 11 時 46 分押聆訊押後

13  
14 下午 12 時 04 分恢復聆訊

15 出席人士如前。

16  
17 主席：（經傳譯員）我哋而家跟住聽取容溟舟議員，佢係代表沙田區議會嘅嚟畀證  
18 供，首先多謝你代表區議會接受我哋嘅邀請嚟出席我哋嘅聽證會。而家黃女士  
19 可以問問題。

20 黃佩琪女士：（經傳譯員）好，多謝容生。我有幾方面嘅問題想問你嘅。首先可唔可  
21 以請你睇你哋嗰份嘅討論文件，係 2013 年 1 月 8 號嘅，中文版 631 頁，英文  
22 版 637 頁。

23 主席：（經傳譯員）邊一沓文件呢？

24 黃佩琪女士：（經傳譯員）就係區議會文件夾 2。容生，或者請你花啲時間睇一睇呢  
25 一頁，呢度有個問題，我想相信係區議員楊倩紅女士提出嘅，佢係代表沙田區  
26 議會提問，係有關脫班同工作時數嘅，即係指車長嘅工作時數。佢話首先佢係  
27 聽到居民嘅投訴，就話有咁嘅情況，巴士喺繁忙時間脫班；而第二，就係佢觀  
28 察到有啲嘅車長喺兩段長嘅車程之間係冇休息時間。你可唔可以講一講畀我哋  
29 聽關於呢啲嘅投訴，再講啲呢？

30 容溟舟先生：我講番先，因為就楊倩紅係一個前區議員，就我都想睇一睇番，你畀少  
31 少時間我睇一睇番當其時嘅會議紀錄，我會睇番中文版，因為我哋嘅中文版嘅  
32 會議紀錄係一個經我哋同事確認嘅會議紀錄，而英文版係 for 你哋簡單嘅  
33 reference。我想政府嘅律師就想我哋講番就究竟嗰個休息時間同埋嗰個脫班  
34 率嗰個問題，係咪？

1 黃佩琪女士：（經傳譯員）係嘅。

2 容溟舟先生：其實因為就楊倩紅女士所講嗰個就係 E42，係一條龍運嘅巴士線，據我  
3 嘅理解，就因為龍運本身係一個機場對外嘅專營巴士嘅專營權，佢個公司嘅規  
4 模係比番佢母公司九巴係為之細嘅，所以可供調動嘅車輛同埋司機會比較少，  
5 亦都容易係有呢個車長缺勤導致到有脫班呢個情況。

6 黃佩琪女士：（經傳譯員）或者想問一問容生，就話嗰個行車時間太短，所以司機就  
7 要加速嚟可以賺番啲時間，因為可能話有交通擠塞或者路上有其他嘅問題，所  
8 以到佢去到總站嘅時候，嗰個--可以咁講話嗰個行車時間就唔實際，因此佢就  
9 要追番啲時間，而咁做，佢就等於佢要加快個車速，我係關注呢個問題嘅，或  
10 者你可唔可以再講一講畀我哋聽，你作為區議員嘅時候有冇收到投訴係關於呢  
11 方面嘅呢？

12 容溟舟先生：你所講嗰個行車時間，其實就應該咁講嘅，喺巴士公司，據我嘅理解，  
13 喺唔同時段，譬如可能係早上嘅繁忙時間、早上非繁忙時間、晚上嘅繁忙時間  
14 同晚上非繁忙時間，理論上佢哋都會有唔同嘅行車時間去制訂，跟住就會有一  
15 個行車時間嘅制定之後就會做一個編更表。就喺佢哋嘅術語就係一啲嘅「字  
16 軌」，就係可能係一個司機會用一架車或多於一架車去揸唔同嘅路線以達致嗰  
17 個服務詳情表所列嘅標準嘅班次。

18 如果你話因為有一個制度，佢哋係譬如類似叫做--即係術語叫做「跳飛  
19 機」，我舉個例子，可能係個司機可能係主力係揸 E42，但係有一啲時段，譬  
20 如喺馬鞍山有一條路線叫做 A41P，係由馬鞍山嘅烏溪沙站去呢個機場嘅呢個  
21 GTC，即係呢個機場嘅運輸中心嗰個站，其實係有機會佢哋係需要借用 E42 嘅  
22 車輛去做 A41P 嘅班次嘅，如果喺 A41P 個行程--嘅車程嘅時候出現咗問題或者  
23 係有啲未能夠預計嘅情況之下，係會令到 E42 嘅班次都會同一時間係會  
24 suffer。

25 咁會有兩個情況，一，個司機可能係基於呢個原因，佢哋要喺高速公路嘅路  
26 段去追回一啲時間，但係據我嘅理解，巴士嘅車速其實係有限制嘅，係會去到  
27 接近 70 公里嘅，應該會有一個系統去截油，令到佢架車唔會再行得快，但係喺  
28 其他嘅路段或者係其他標示低於 70 嘅路段佢行快咗，呢個係有辦法可以控制到  
29 嘅，呢個係第一。

30 第二，就係佢哋可能就要--如果做唔番--即係趕唔番個--追唔番個時間，  
31 係有機會令到下一更車係缺咗更，或者係要採取一啲特別嘅措施去補回部分嘅  
32 班次，例如可能嗰架車唔係直接由機場開出，而係由呢個中途站點去開出，而  
33 去追番一啲行車時間嘅。咁要視乎佢去到總站嘅時候嗰個時間究竟係損失咗幾  
34 多，而我嘅理解，係由當值嘅站長去決定呢架車究竟去邊度或者係佢哋巴士公  
35 司嗰個派更系統話畀個車長聽究竟去邊一度站起載咁嘅情況。

36 黃佩琪女士：（經傳譯員）喺呢一頁，仲有另外一個問題，就關於巴士司機工作時數  
37 長嘅問題，運輸署喺 2017 年 9 月檢討指引嘅時候，佢哋有冇諮詢你哋嘅區議會

1 呢，就係話有關嗰個建議嘅修訂係點，有冇諮詢你哋呢？

2 容溟舟先生：我嘅憶述所及，喺--因為我就係沙田區議會嘅交通運輸委員會嘅副主  
3 席，雖然我有權去審視一個會議嘅議程，但係我憶述所及，喺 2016 直至到呢一  
4 屆--直至到今日為止嘅開嘅區議會，我嘅印象中，係冇同我哋傾過呢一個嘅巴  
5 士車長嗰個嘅編更個指引嘅，其實係冇問過我哋嘅意見嘅。

6 黃佩琪女士：（經傳譯員）你哋區議會對呢個指引有咩睇法呢？

7 容溟舟先生：因為冇傾過，有一個 formal--即係有一個正式嘅紀錄，如果你問我，  
8 就個人而言，我哋覺得巴士司機嘅工時係比較長嘅。個原因其實好簡單，以一  
9 個保安員最盡嘅工時其實係講緊十二小時，即係行業所講嘅「12 碼」。其實正  
10 如頭先亦都有大埔嘅同事講，一日只係得廿四小時嘅啫，如果嗰個工時係超過  
11 十二個鐘頭，其實佢變相係佢嘅休息時間同埋佢嘅起居生活嘅時間其實係少  
12 嘅。唔好忘記，巴士公司嘅同事係要早出晚歸嘅，佢哋未必有一個好便捷嘅交  
13 通可以好迅速由佢嘅工作地點往返呢一個屋企嘅，所以喺咁嘅情況之下，七除  
14 八扣，究竟佢有幾多嘅休息時間、夠唔夠至少八個鐘其實係一個疑問嚟嘅。所  
15 以你問我，我個人覺得十四小時嘅最高工作時間對一個需要兼顧路面嘅安全同  
16 埋掌控緊全車人嘅安全嘅情況之下，個工時係過長嘅。

17 黃佩琪女士：（經傳譯員）點解我問呢個問題呢？因為如果你睇番你哋區議會嘅會議  
18 紀錄 TT23/2017，中文版就係 709 至 710 頁，英文版就係 714 至 715 頁，就  
19 係區議會文件夾 2，呢個問題係招文亮先生問嘅，就關於係巴士意外。招生嘅意  
20 見就係有關於指引裏面提及嘅工作時間太長，所以巴士司機係冇足夠時間休  
21 息，佢建議運輸署同埋巴士公司檢討可以減低巴士司機最長嘅工作時間到十個  
22 鐘頭。

23 主席：（經傳譯員）呢個會議日期係幾時呀？

24 黃佩琪女士：（經傳譯員）主席，我相信個會議日期係 2017 年 3 月 8 號。

25 主席：（經傳譯員）好，唔該。

26 黃佩琪女士：（經傳譯員）所以似乎你哋區議會就住工作時數係表達咗一個立場，你  
27 哋有冇諮詢職工會話點樣為之--應該最長嘅工時係幾多呢？

28 容溟舟先生：我係冇問過工會究竟應該係幾多工時係為之恰當嘅，但係作為一個乘客  
29 或者作為一個社區人士，我亦都接觸過係我嘅居民，亦都係巴士司機嚟嘅，其  
30 實佢哋都普遍係早出晚歸，我舉個例子嚟到講，如果以早上嘅更分嚟到講，其  
31 實我嘅選區係大水坑，係富安花園，喺距離最近嘅巴士廠，沙田嘅源順圍，即  
32 係榆翠苑對面，其實講緊個車程約莫係大概十五分鐘嘅車程，通常巴士嘅師傅  
33 係四點幾鐘就要搭佢哋嘅廠車，就係去到佢哋嘅廠，大概五點零鐘係要報更  
34 嘅，然後就去等，揸佢哋嘅車或者係去再轉乘其他嘅車輛去適當嘅位置擺番  
35 佢嘅車輛嘅，但係喺中間嘅時間其實係有機會，可能佢編嘅更次或者編嘅--我

1 咁叫做俗稱嘅「字軌」，可能係講緊 6 點、7 點，去到嗰個繁忙時間，佢哋先有人出車嘅。喺咁嘅情況之下，其實佢中間嗰個時間係有辦法係有休息嘅，因為  
2 喺嗰個車廠裏面其實未必有一個充足或者理想嘅休息空間，呢個係第一個地方。  
3  
4

5 第二個地方就係其實有一啲情況，佢哋為咗要準時喺外站開出，其實佢哋要將架車輛係駕駛到去相關嘅總站嘅或者係嗰個分站，其實嗰啲地方未必有一個  
6 員工嘅休息室畀佢哋可以喺度休息嘅，變相佢哋可能要逗留喺架車嗰度或者喺  
7 架車嘅駕駛室裏面去休息，但係亦都基於呢個環保署嗰個停車熄匙個情況，其實  
8 佢哋唔能夠著--即係尤其是夏天，佢哋唔能夠著住架車去令到佢哋嗰個車輛  
9 嘅氣溫係下降，即係話其實佢哋喺一個悶熱嘅環境裏面去等候或者待命嘅。  
10

11 其實喺一個--即係如果我諗可以想像到，就係喺一個咁嘅情況之下，其實  
12 佢哋係既睇神，亦都有地方去休息嘅時候，其實變相係降低咗佢哋嗰個駕駛嘅  
13 質素，喺咁嘅情況之下，你問我其實係咪可以增加一啲嘅休息室或者係有一啲  
14 地方可以畀佢休息，直至到佢哋出車為止，從而令到佢個精神可以集中呢？呢  
15 個係可以研究。

16 至於嗰個工時嘅時間，確實有兩難嘅，因為喺頭先亦都有大埔嘅同事去闡述  
17 佢哋嗰個工時或者係新界區嗰個交通嘅--即係我哋叫佢做 pattern，係其實係  
18 比較特別嘅，因為朝頭早係一個單向，由新界區去市區嘅，譬如我諗觀塘、灣  
19 仔或者係荃灣一帶，佢係一個傳統嘅工商業區去返工，嗰陣時係需要極集--即  
20 係高度集中嘅頻密嘅班次，將啲客流係帶山去呢啲地方嘅。好喇，但係喺調番  
21 轉頭，因為車出咗去，都要入番嚟先至可以做到班次咁嘛，如果你話嗰啲車出  
22 晒去，又唔需要做咁密嘅班次嘅，喺個司機嚟講，喺個巴士公司嚟編更嚟說，  
23 咪只能夠去用最多嘅人手去做呢一個嘅班次囉，喺咁嘅情況之下，過咗繁忙時  
24 間其實就有需要咁多司機，好喇，但係問題係另外一個晚黑嘅繁忙時間你又確  
25 實又需要呢啲司機將一啲乘客由嗰啲工商業區帶番佢哋去住宅區返屋企。

26 所以你問我喺咁嘅情況之下，實際嘅揸車嘅工時其實可能未必去到十個鐘  
27 頭，但係佢哋返工嘅時間，即係佢嘅揸車時間加埋佢嘅叫做 standby 嘅時間其  
28 實係可能超過十個鐘或者去到十四個鐘。喺咁嘅情況之下，其實如果有一個休  
29 息嘅地方，對佢哋嚟到講，其實佢就只能夠可能喺一啲商場去喇，或者喺一啲  
30 好迫挾嘅員工休息室裏面去休息。呢個我覺得如果係需要編配一啲特別更嘅更  
31 分畀一啲司機，其實巴士公司係要提供足夠嘅休息地方畀呢啲巴士司機，先至  
32 可以推行到呢啲特別更嘅情況。

33 主席：（經傳譯員）容生，你可唔可以講一個地點係有一個適當嘅休息設施嘅地點  
34 呀？

35 容溟舟先生：法官大人，不如我調番轉講，其實喺現時嘅地方其實並不多一啲嘅員工  
36 休息室嘅。個情況喺以我選區為例，就係曾經巴士公司都有問過我哋增設休息  
37 室嘅意見，約莫接近係半年前至九個月，但係就其實到而家，我哋初步都覺得

1 有問題㗎喇，但係到而家其實佢哋--因為員工休息室唔係擺一個間格落去咁簡  
2 單，係要申請電或者係一啲流動電話嘅設施㗎㗎，其實㗎㗎係需要時間，正如  
3 電㗎方面可能係需要申請各類紙嘅...

4 主席：（經傳譯員）係我哋知嘅。

5 容溟舟先生：所以你問我，其實沙田區所以...

6 主席：（經傳譯員）容生，容生，我哋知道問題係乜嘢嘅，因為我哋收到好多資料關  
7 於設置呢啲休息室，即係排污、電、水嘅問題，你可以講個例子，就係一個地  
8 點，等我哋去睇。

9 容溟舟先生：其實一啲嘅大嘅站，譬如新城市廣場或者沙田火車站，其實都有一啲呢  
10 一類型嘅一啲大型嘅員工休息室嘅，唔好講啲屋邨嘅細站，譬如我自己嗰區富  
11 安花園、...

12 主席：（經傳譯員）沙田火車站？

13 容溟舟先生：沙田嘅公共交匯處 under New Town Plaza，okay，亦都喺沙田嘅  
14 火車站，其實個員工休息室係偏細嘅，只係得一個嘅啫。亦都有--因為嗰度亦  
15 都有另外一間嘅巴士公司，叫做城巴，亦都--其實佢哋亦都未有一個好完備嘅  
16 員工休息室係畀另外一間巴士公司嘅司機去休息嘅。

17 主席：（經傳譯員）唔該。

18 黃佩琪女士：（經傳譯員）你提及其中一間巴士公司，就問你哋區議會嘅意見，係關  
19 於員工設施嘅，係書面問呀？

20 容溟舟先生：佢當其時係以口頭諮詢，跟住我有記錯，係曾經出過諮詢文件問過佢哋  
21 嘅，即係經過運輸署透過民政署嘅諮詢嘅系統去問我哋嘅。

22 黃佩琪女士：（經傳譯員）係幾時嘅事呀？

23 容溟舟先生：我諗應該係今年嘅 3、4 月左右，我要啲番份文件出嚟後補番畀番委員  
24 會，係可以嘅。

25 黃佩琪女士：（經傳譯員）唔該，唔該晒。容生，我想問幾個問題係關於意外，呢啲  
26 意外就喺幾個地點發生，首先就係鯉魚門道嘅意外，你哋區議會曾經係問過好  
27 多問題嘅，想請你睇一睇 709 頁，中文版，英文版就係--133 段嘅中文，英文  
28 版係 714。

29 主席：（經傳譯員）呢份文件嘅日期係幾時呀？

30 黃佩琪女士：（經傳譯員）我相信都係喺 3 月 17 年。

31 主席：（經傳譯員）唔該。

1 黃佩琪女士：（經傳譯員）呢次意外就發生咗，其中一個招...

2 主席：（經傳譯員）呢個意外係幾時發生㗎？

3 黃佩琪女士：（經傳譯員）係 17 年嘅 1 月。招文亮先生就問咗一個關於呢次車禍嘅  
4 問題，其中佢問嘅一個問題就係嗰間公司係咪容許司機係以兼職嘅形式做長嘅  
5 時間，即係喺佢哋做完自己正職，就做兼職，佢就提出咗--講咗一啲嘅例子，  
6 一啲兼職車長，係即係做巴士嘅兼職車長。睇番運輸署嘅回應就係 707 頁。

7 主席：（經傳譯員）第幾段呀？

8 黃佩琪女士：（經傳譯員）喺頂部，就係運輸署嘅回應，我想睇番其實就係 706 頁  
9 嘅問題嚟嘅，就講咗話 17 年 1 月 14 號嗰次嘅車禍，就係九巴嘅 618 號，巴士  
10 去到鯉魚門道...

11 容溟舟先生：It is Citybus, not KMB.

12 主席：（經傳譯員）呢個打錯咗嘅，係呢一個嘅城巴，唔係九巴。

13 黃佩琪女士：（經傳譯員）就嗰架巴士去到鯉魚門道近藍田巴士站就係撞到路邊嘅石  
14 壘嘅，跟住就係翻側嘅，十位嘅乘客就被拋出車外--就係被拋離座位，亦都係  
15 困住咗嘅，有關呢件事，有幾件事項，就係話係現場嘅時候傷者嘅情況，同埋  
16 巴士公司點樣跟進。我想問嘅就係有關於就係 (c)、(d) 同埋 (e) 呢幾項嘅，(c)  
17 項就係巴士司機嘅健康狀況係咪符合標準；跟住就係有關於而家呢一個嘅路面  
18 同埋係斜台石壘嘅設計；第三，就係本港行駛嘅巴士嘅設計上面有冇有效嘅保  
19 障到乘客安全。跟住...

20 主席：（經傳譯員）未講之前，有關我哋工作嘅問題就係 (c)，就係話巴士公司係咪  
21 容許巴士車長喺正職完咗之後，係做呢一個長時間嘅兼職車長？

22 黃佩琪女士：（經傳譯員）我哋睇番運輸署嘅回應，喺之後嗰頁，就係 707 頁嘅，  
23 運輸署似乎就有答到問題嘅第二部分，即係頭先主席讀出嚟嗰個嘅問題，佢就  
24 畀咗一個係好一般嘅答案嘅，睇番呢一個嘅 707 頁英文版，第二段，就話就以  
25 車長嘅更分，包括工作、休息同埋用膳食係有指引嘅，肇事巴士車長嘅意外當  
26 日嘅更分編排同埋上班前嘅作息時間係符合運輸署指引嘅要求等等，佢就有答  
27 到話兼職車長係咪可以喺做完正職之後再係做長嘅時間工作嘅，呢一個議題區  
28 議會冇跟進番運輸署嘅回覆呀？

29 容溟舟先生：我印象中就喺個會議上面大家嘅焦點喺嗰個嘅交通事故嗰個意外上面，  
30 就有好細緻去商討過呢一個兼職車長究竟係可以容許佢會揸幾多嘅時間。我嘅  
31 理解，引入兼職車長嘅原因其實係確實喺幾間巴士公司續專營權時間，社會對  
32 佢嘅脫班率係非常關注，結果就巴士公司就引入咗都唔少嘅兼職車長去處理。

33 兼職車長理論上應該係分兩批嘅，有一批真係可能係日頭有一份工，夜晚揸  
34 幾個鐘，我舉個好簡單嘅例子，就係巴士公司裏面嘅行政人員其實都會有巴士

1 嘅巴士嘅駕駛執照，係可以駕駛巴士嘅。個問題出咗嚟，就係如果運輸署只係  
2 針對巴士車長嗰陣時揸嘅時間去處理，佢哋係永遠達標嘅，因為佢哋唔需要計  
3 算正職嗰個工作時間，呢個係第一個問題。

4 第二個問題就係呢個就係如果係同一間公司，都倘有辦法可以記錄到究竟佢  
5 做幾多個鐘，但係如果一個情況就係佢可能係打第二--即係嚟出面有另外一份  
6 工嘅，你叫嗰個出面嘅僱主會唔會容許佢嘅職員去兼職做車長呢？呢個第一個  
7 問題。第二個問題就係你容唔容許究竟嗰個車長會唔會如實申報究竟佢日頭嗰  
8 份工做咗幾多個鐘呢？

9 你就算有呢啲資料，你巴士公司都未必能夠可以好清楚計算到究竟佢會唔會  
10 超過一個長工時。亦都喺呢一個指引裏面其實係有針對兼職車長嘅安排，但係  
11 運輸署確實容許巴士公司可以請兼職車長。所以呢個係一個雞同蛋嘅問題嚟  
12 嘅。

13 主席：（經傳譯員）其實係有問題，巴士公司係有問呢啲嘅問題，即係話問兼職車長  
14 喺其餘嘅時間做啲乜嘢，呢個係一個問題嚟嘅？

15 容溟舟先生： Yes.

16 黃佩琪女士：（經傳譯員）你哋議會係關注呢樣嘢，亦都同運輸署講，你係有冇跟  
17 進？

18 容溟舟先生：我哋嘅同事當然有表達過呢個意見，但係問題係就現時我哋喺會後要求  
19 佢後補畀我哋個編更個指引，確實係有處理到兼職嗰個問題，呢個係重點嚟  
20 嘅，佢有處理過。即係我哋想繼續去追問，其實佢有處理過，我哋都老鼠拉  
21 龜，我哋根本無從入手去追。

22 主席：（經傳譯員）你有冇用書面去嘗試去追問呀？

23 容溟舟先生：我哋同事因為喺個會議上面除咗有 motion 以外，如果有 motion，我  
24 哋就會畀番一個動議畀番相關嘅部門，私底下其餘嘅同事有冇就呢啲嘅意見畀  
25 番巴士公司呢？喺我哋呢一刻，同事有畀到任何資料我，我暫時答唔到你究竟有  
26 冇以 writing 去講。不過喺我哋唔同--我相信喺唔同黨派嘅同事同運輸署一啲  
27 非正式嘅會議其實都有提，以我自己嘅政治嘅組織，都有講過呢一個問題出現  
28 過嘅，不論同運輸署、九巴同埋城巴、新巴，我哋都有傾過呢個問題，但係巴  
29 士公司究竟有冇去切實去執行或者去處理呢？呢個就要交番畀巴士公司。

30 主席：（經傳譯員）我哋可唔可以咁樣理解呢，當你同唔同嘅人員去提出呢樣嘢，係  
31 口頭去提出嘅，唔係書面提出嘅？

32 容溟舟先生：（經傳譯員）口頭，係會議上嘅口頭提出。

33 黃佩琪女士：（經傳譯員）第二個事項，就係呢一個 706 頁，就係關於呢一個石壘  
34 同埋行人路嘅路邊嗰個設計會好容易引致有意外嘅，呢個係 706 頁，路政署同

1 埋運輸署嘅回覆就喺 707 頁，上面就講，由第二行開始，就係話呢個嘅護欄嘅  
2 開端係用傾斜式石壘，可以減低失控車輛撞擊護欄開端時對駕駛者同埋乘客嘅  
3 傷害。路政署聯同運輸署會繼續檢視現有公共道路嘅防護設施，同埋按實際情  
4 況同埋需要係為新建同埋現有嘅公共道路安裝合適嘅防護設施。上面就話運輸  
5 署同埋路政署會繼續檢視呢個防護設施，你有冇同運輸署跟進番呀？

6 容溟舟先生：喺個會議紀錄嘅 135(a)段同埋(b)段，其實當其時我已經有指出呢一  
7 個嘅道路設計係並不容許--一個容錯嘅設計嚟嘅。其實我哋都當其時有要求--  
8 一路都要求，叫佢哋做番一啲嘅類似一個 U 型嘅，一個撞埋去係會吸咗落去個  
9 個嘅設計，因為呢個設計其實我嘅理解，係一啲比較高速公路嘅地方或者高速  
10 公路嘅分岔位佢哋會裝置呢啲嘅設計。

11 如果我有記錯，頭先我睇住大埔個聽證會嘅申述，其中有一幅圖係新個  
12 巴士站嘅設計上面確實係有呢一個嘅設計，但係當日運輸署答我哋就係嗰啲一  
13 定要喺高速公路做。如果喺公路做個標準係咁嘅話，我哋唔明白點解一條  
14 喺觀塘繞道落去呢一個嘅東區海底隧道嘅位置其實係行 70 嘅車速嘅，嗰個位置  
15 其實理論上都適合安裝嗰一類型嘅防撞欄，因為嗰個類型嘅防撞欄一撞咗埋去  
16 之後，架車就會凹陷咗喺個防撞欄裏--裏面係有一啲嘅設計係將嗰個震嘅物料  
17 吸咗落去嘅。所以我哋嘅講法，就係其實應該係要儘快檢視番呢一啲位置嘅。  
18 頭先有張工程圖嘅，我憶述頭先有張工程圖，我係睇到喺張工程圖裏面係有一  
19 個位置係裝咗嗰個嘅。

20 黃佩琪女士：（經傳譯員）我哋而家繼續落去，你可能講緊嘅係 TD 文件 5 號 167 頁  
21 嘅，...

22 容溟舟先生：冇錯，我哋就係講緊嗰個防撞欄，其實嗰個位置我哋嘅理解係適合安裝  
23 呢一類型嘅，因為而家呢個位置，第一，呢條唔係快速公路嚟，其實呢個係快  
24 速公--應該咁講，運輸署嘅道路設計，我嘅理解，係根據 transport design  
25 and planning manual，即係佢哋係有唔同嘅 volume 去講述一啲嘅道路嘅  
26 設計或者係一啲嘅情況，呢一個其實你問我原本嘅設計合唔合標準，呢個有待  
27 專家去講，但係我哋要求咗好耐嘅一啲高速公路或者鄰近高速公路嘅出入口裝  
28 置啲防撞欄，係冇裝到嘅，如果裝咗個防撞欄，架車撞埋去，係會凹陷咗喺裏  
29 面，就唔會話剷上咗個壘跟住導致反車造成呢個嚴重嘅交通意外。

30 黃佩琪女士：（經傳譯員）你而家係咪响 135(a)段係建議呢樣嘢呢？

31 容溟舟先生：（經傳譯員）係嘅。

32 黃佩琪女士：（經傳譯員）而運輸署我相信喺 138 段嗰度係有佢哋嘅立場，係咪  
33 呢？馮家晉，138，英文版係 717 頁，馮家晉先生佢係路政署新界區區域工程  
34 師，個回應就話鯉魚門個石壘設計係斜台式嘅，目的係要減低失控車輛撞擊護  
35 欄嘅時候對駕駛者同埋乘客造成嘅損害係可以減少嘅。跟住喺下一頁，就話如  
36 果 70 公里時速限制嘅高速公路，路政署都會裝設啲風琴式嘅防撞欄嘅，由於鯉  
37 魚門唔屬嗰個條件，所以現時嘅石壘設計係符合有關嘅標準嘅，路政署就會同

運輸署按實際情況改善嗰度嘅設施，換句話，佢哋係拒絕咗你嘅要求嘅，啱唔啱呢？

容溟舟先生：係，但係你留意番你頭先講過 TD-5 嗰個 bundle，上址嘅道路速度原本係 70，後畀就係因應呢次交通意外改變咗做 50，即係話一國兩制。路政署嘅道路 70 嘅標準冇因應呢一個嘅檢視覆檢呢一個位置究竟係唔係適合去裝設番呢一個嘅防撞欄，其實委員會喺我哋嘅特別會議係有要求所有嘅部門就佢之前嘅回覆畀一個檢視番有冇一個新嘅回覆嘅，我嘅理解，應該路政署係有就呢一個嘅提問裏面嘅答案做一個 update 嘅回覆，即係話其實基本上我只可以講一句，對運輸署同埋路政署用頭痛醫頭、腳痛醫腳、冇針對整個道路安全嘅情況之下去檢視番道路上嘅設施或者係增加一啲叫容錯嘅設計去保障道路使用者嘅安全，我極度遺憾嘅。

黃佩琪女士：（經傳譯員）而家我就想亞公角道嘅問題嘅，呢個係有另外一宗嘅意外嘅，個會議紀錄係 2018 年嘅 5 月 8 號，係 TT26 嘅文件，係 2012 年嘅，就喺 610 頁嘅英文版，中文版就 607 頁嘅，中文 607，英文 610，喺第二段，楊祥利先生喺交通運輸委員會，係呢個沙田區議會，就提咗啲亞公角道嘅安全問題，第二段佢就指出，就喺亞公角道係發生過好多嘅嚴重交通意外，你知唔知悉呢個咁嘅投訴，楊生所講嘅交通意外，你熟唔熟悉呢？

容溟舟先生：楊祥利先生亦都係一個前沙田區議員，佢有就一個嘅交通意外就去針對即係去提問，但係喺我嘅記憶所及，係有一個嘅交通意外嘅傷亡人數都比較多嘅，可能都要稍後補充番資料。

嗰個交通意外，我記得就係朝頭早有一架 89D 號嘅巴士就住九龍方向，就因為收掣不及，就撞咗落去之前應該唔記得咗係 85K 還是係 86K 一架巴士度，就造成都有成三十幾人受傷嘅，而當日其實就事發之後，其實我到過現場，係見到傷者嘅情況，亦都有處理過傷者啲嘅索償。我憶述所及，呢個係第一單關於巴士嘅交通意外，亦都斷斷續續喺一啲過路處其實有一啲嘅交通意外係同小巴係有關連嘅，亦都導致過一啲嘅致命交通意外，我相信楊先生問嘅，喺嗰個交通意外同埋傷亡數字其實並不限於係巴士嘅意外嘅，亦都有其他嘅意外集合咗喺嗰度。呢個係我嘅理解。

第二，就初步嘅理由，點解會有亞公角街會較為多交通意外出現呢咁樣，因為亞公角街係一條雙線雙程嘅一條嘅行車路嘅，就途中由我嘅選區富安花園去到石門交匯處就大概係有兩個過路處同埋一支嘅交通燈，我有記錯嘅話，同埋亦都有三組嘅 T 字路口，分別去梅子林路、入亞公角漁民新村同埋呢個沙田醫院，仲有一個，係上亞公角山路嘅，係有四組唔同嘅路口嘅。呢四組嘅路口全部嘅設計都係一啲讓線嘅設計，啲 priority junction，就唔係 signalized junction 嘅，呢啲讓線嘅設計嘅路口其實係兼顧一啲比較行車流量少嘅地方，但係好多時就可能係駕駛人士喺過呢啲路口嘅時候冇好小心、謹慎去駕駛，而導致到係有交通意外發生嘅，呢個係其中一個我理解嘅原因。

第二個原因就係因為其實亞公角街除咗朝頭早同埋晚黑嘅繁忙時間比較多重型車輛，包括巴士去使用，其實喺其他時間路面嘅車輛其實不多，點解呢？因為喺馬鞍山去呢個嘅石門交匯處其實仲有一條高速公路，叫馬鞍山路，嗰度係一條雙程六線行車嘅一條高速公路嘅，而時速係行緊 70 至 80 公里，即係如果平時嚟到講，冇乜特別嘅——即係私家車其實唔會走入去嗰條街度行呢一個路面嘅，但係喺朝頭早因為可能有機會避免擠塞，所以有少部分嘅私家車會走咗入去，但係通常呢一啲嘅交通意外都好少發生喺朝頭早嘅，通常喺一個好路面暢順嘅地方，因為嗰度既有測速嘅相機，亦都得一眼嘅交通燈，仲要係手揸嘅控制嘅交通燈，去過沙田醫院嗰個路口，其實相對路面暢順嘅，駕駛者未必係好守規矩揸 50 公里，甚至乎可能係揸超過 50 公里嘅，所以係比較容易出現交通意外，呢條道路嘅設計。

黃佩琪女士：（經傳譯員）如果你睇一睇 611 頁，嗰度就係有警察提供嘅一啲數字嘅，係 07 年到 2011 嘅，就區議會嘅所知，個交通傷亡數字係喺 2012 年之後個傷亡數字係增加咗、減少咗定維持不變呢？如果我哋睇一睇楊先生喺 610 頁嘅提問，佢就問就運輸署有冇啲短期或者長期措施去解決問題，即係解決亞公角道嘅問題，運輸署提咗四點嘅，就响 611 頁，第一，運輸署就話駕駛者個視線係有障礙嘅；亦都符合道路設計標準；第三，就話已經有考慮會唔會喺呢個路段增加個交通燈個控制，佢哋就話 4 月 16 號嘅交通意外，運輸署已經提醒咗巴士公司要加強車長嘅培訓嘅，同埋要作出更進一步嘅改善，係當警察係作出個報告之後，佢哋要繼續改善。你哋區議會會唔會跟進呢？又或者你對運輸署嘅答案是否滿意？

容溟舟先生：喺我嘅——喺個會議紀錄嘅第 613 頁 paragraph 67(c) 同埋 67(d)，我係有啲建議嘅，佢哋話要求做雙白線，避免越線同埋爬頭，我哋當其時係建議佢種一啲膠 bollard 嘅，嗰個膠 bollard 就正如當年喺荃灣德士古道天橋嘅一個致命對頭車交通意外之後，佢哋係裝咗落去嘅，我哋覺得呢個係可以值得借鏡嘅一個交通安全改善嘅措施，其實到而家我嘅憶述其實係有裝過嘅，即係我哋建議，係有裝過。

第二，就係 (d) 嗰度，其實當其時警方嘅回答就係有鐳射槍——佢話用隱形戰車嘅，其實我嘅理解，警方隱形戰車其實係會係不定時、不定期喺主要嘅主幹道同埋高速公路去做偵查，係好少喺呢啲嘅 local road 喇我哋叫做，即係本區嘅道路裏面去使用嘅，但係喺嗰一次嘅提問之後，警方確實係增加咗喺亞公角街使用鐳射槍去偵測嗰個速度，而擺嗰個位置，我有記錯，就係大概喺亞公角漁民新村出口往馬鞍山方向個電箱後面，佢哋通常就係測返入馬鞍山嘅車，因為嗰個位置過咗沙田醫院嗰個燈控嘅交通燈其實係一條大直路嘅，車司機係好容易地比較會去揸快咗都唔出奇，所以我記得就係咁。

但係就 TD 其實係避車處嗰度其實係後起係出咗一個叫做 Works Order 去拓闊咗個避車處嘅，但係因為個避車處就算拓闊咗，因為嗰個上址係因為一間醫院，亦都有唔同嘅探訪者去用或者去排隊，所以其實就算增大咗個避車處，

1 其實都有陣時啲巴士要等候入站，或者喺條行車線度去作上落嘅，所以個作用  
2 係有，不過效用不大。

3 黃佩琪女士：（經傳譯員）我見到 615 頁係有個臨時動議，係楊先生作出嘅，佢中  
4 文版係 73 段，英文版 618，73 段，有個臨時動議，係由楊祥利先生提出，就  
5 要求係要對亞公角道係作一個全面檢討，要擴闊佢，同埋要安裝啲攝錄機嘅，  
6 運輸署就呢個要求有冇作出回應呢？

7 容溟舟先生：喺 73 段嘅：

8 第（一）就其實警察係加強咗執法嘅，因為原本由冇到有咁嘛，咁實  
9 加強咗喇。

10 第（二），就係亞公角街嘅道路設計，包括擴闊亞公角街同埋裝置呢  
11 個超速攝影機，我憶述所及，係成立亞公角街到現在呢一刻為止都係冇超  
12 速攝影機嘅。另外，包括擴闊亞公角街，因為亞公角街隔離係條馬鞍山  
13 路，馬鞍山路嘅中央分隔，但係就起咗一條馬鐵。其實你問我喺適當嘅位  
14 置拓闊條亞公角街，其實係有需要係由富安花園一路去到石門交匯處去拓  
15 闊，但係我相信係比較困難去搵一啲適合嘅位置去拓闊條路。

16 因為拓闊一條嘅行車嘅--因為根據個標準，應該要有 3.6 至到 3.7 米嘅  
17 闊度，你先至可以有一個比較合適嘅道路去畀多一條行車線，但係喺我嘅理  
18 解，就係行人路最低嘅 minimum width 係要留番 1.5 米，即係話如果喺一啲  
19 有限嘅空間，你拓闊條車路，而行人路個闊度不足，佢哋未必會 proceed 去  
20 做，因為行人路如果太過窄嘅時候，可能連輪椅都推唔到，運輸署係未必會執  
21 行去做呢啲拓闊嘅，所以第二個其實攝影機冇做到，擴闊其實都有做到嘅。我  
22 估可能係擴闊個度係因為呢個道路嘅限制，即係道路空間嘅限制，而攝影機其  
23 實係相對嚟講，係可行嘅。

24 黃佩琪女士：（經傳譯員）主席，...

25 主席：（經傳譯員）我哋可以繼續嘅，而家我哋仲係有排先會講到作出巴士安全嘅建  
26 議嘅。

27 黃佩琪女士：（經傳譯員）仲有一、兩點係需要問，我就可以完成我嘅提問嘅。容先  
28 生，你喺會議紀錄 TT 文件 23/2017，如果你睇中文 710 嘅啲頁，...

29 主席：（經傳譯員）而家睇嘅係咩嘢文件呀？

30 黃佩琪女士：（經傳譯員）呢個係會議紀錄嘅，係沙田區議會嘅會議紀錄。TT...

31 主席：（經傳譯員）唔需要，個日期呢？

32 黃佩琪女士：（經傳譯員）係 2017 年嘅 3 月嘅。如果睇番 134 段，就有個建議  
33 嘅，就巴士公司應該每年係檢查車長有冇...

1 主席：（經傳譯員）睡眠窒息症嘅。

2 黃佩琪女士：（經傳譯員）係呀，睡眠窒息，同埋你有冇跟進呢個咁嘅建議呢，或者  
3 區議會有冇跟進呢個建議？

4 容溟舟先生：我要睇一睇番，因為我哋嗰個做法就係我哋有同事提出咗呢一啲嘅意  
5 見，喺個會議上面，如果會議上面有一啲動議，部門係會有一個嘅稍後嘅回覆  
6 嘅，喺下一次會議嘅續議事項有回覆嘅。如果有嘅話，其實就我嘅理解，部門  
7 係會記錄在案，然後就去睇番究竟有冇呢一個嘅意見或者係可以點樣去落實  
8 嘅，我嘅理解就係咁樣。因為而家我手頭上就有嗰份嘅文件，即係究竟--嗰個  
9 續議事項個文件，我都可能要上去睇番嗰個嘅續議事項究竟有冇講過。

10 主席：（經傳譯員）或者你如果可以搵到呢份文件，你可以提供畀我哋嘅，如果係相  
11 關嘅話。

12 容溟舟先生：Okay.

13 主席：（經傳譯員）好，唔該。

14 黃佩琪女士：（經傳譯員）容生，我已經去到呢個課題嘅最後部分，就係你提到大埔  
15 公路，就係討論文件嗰度嘅，係 727 頁，呢度係姚嘉俊先生提問題，(b) 同  
16 (c)，個問題就係佢哋提呢個問題就係關於大埔公路沙田段，就話有唔少存在嘅  
17 危險位置同埋彎位，中文就係 719 頁，你知唔知點解姚先生有咁嘅睇法，就話  
18 特別呢一段係有潛在危險呢，即係沙田嶺段？就有潛在危險同埋彎位係咪因為  
19 佢收到投訴定係點，你可唔可以講一講呢？

20 容溟舟先生：你而家問我係咪即係話番大埔公路嗰個位係點解會覺得係一個危險，係  
21 收到投訴㗎，定抑或點，係咪？

22 黃佩琪女士：（經傳譯員）係。

23 容溟舟先生：因為姚議員就唔喺度，我都要--你畀少少時間我望一望份文件。

24 主席：（經傳譯員）好，請你慢慢。

25 容溟舟先生：我相信，睇番份文件，而姚嘉俊議員講嗰個位置因為大埔公路就有唔同  
26 嘅位置嘅，嗰度佢講過就係沙田區裏面嘅沙田段，而佢所指出嘅--應該講緊提  
27 問(c)嗰個位置，係咪呀？

28 黃佩琪女士：Yes.

29 容溟舟先生：佢所講--因為咁講--因為--係咪提問(c)？（經傳譯員）係咪(c)？

30 主席：（經傳譯員）我諗係嘅。

31 容溟舟先生：Yes, okay. 因為其實整條大埔公路會有唔同嘅段數嘅，喺沙田嚟講，  
32 我有記錯，有沙田段，亦都有一啲沙田嶺段、琵琶山段咁樣，其實姚議員所指

1 出就應該係沙田嶺段嘅位置近六合新村嗰個位，其實嗰度曾經都有出現過一啲  
2 嘅致命交通意外嘅，亦都有牽涉過巴士嘅，不過就係我有記錯，就係如果我憶  
3 述所及，就應該係巴士畀人撞，就唔係巴士撞人。

4 黃佩琪女士：（經傳譯員）如果你睇番 728 (b) 個問題底部個答案嗰度，就係運輸署  
5 嘅，佢就講出大埔公路沙田嶺段去到琵琶山段嗰個時速限制係 70 公里，呢段大  
6 概係 1.7 公里有兩個急彎，剩番個 1.4 公里路段就比較接近沙田，嗰個車速限  
7 制係每小時 50 公里，有三個急彎，呢個就喺下一頁嗰度有列出嚟；然後就提到  
8 話喺適當嘅地方已經係設立咗一啲慢駛嘅道路標記，特別係嗰個車速限制改咗  
9 嘅地方就已經有擺咗出嚟，同埋喺急位之前亦都樹立咗警告性嘅交通標誌同埋  
10 喺路面加設咗慢駛嘅道路標記提醒駕駛者喺急彎之前減速。運輸署係知道呢度  
11 有啲急彎，亦都知道呢段路嘅車速限制，你係咪滿意運輸署嘅回覆，就話已經  
12 足夠，即係話講車速嘅限制同埋話有冇足夠嘅交通標誌嗰方面，你係咪滿意  
13 呢？

14 容溟舟先生：或者我用一個道路駕駛者嘅身分去同你分享，因為嗰個位置其實我有陣  
15 時都會係透過大埔公路係往返沙田同埋九龍，所講嗰個位置其實除咗係有急彎  
16 以外，其實嗰個——一條路嘅水平唔係直嘅，係可能係會傾斜去某一個方向或者  
17 係另外一邊嘅，如果架車係以時速 70 公里去行嘅時候，其實係有機——如果遇著  
18 一啲好似今日嘅天氣，落雨天，其實有機會會“ball out”咗或者係會撞嘅，  
19 呢個情況有點兒似一似到大埔公路你哋今次調查嗰個情況，因為條路轉急彎唔  
20 係重點，而係個情況係架車你會感受到架車係會有高有低或者會嘅嘅去，即  
21 係駕駛技術稍為遜色嘅朋友係有機會會有交通意外，亦都好容易解釋到點解嗰  
22 個位置咁多交通意外嘅原因。因為我有記錯呢，嗰個位置其實係兩邊都係——睇  
23 下先，六合新村嗰個位置出去係行 70，入番嚟係行 50 嘅，我有記錯嘅話。

24 黃佩琪女士：（經傳譯員）唔該。最後我想請你睇一份會議紀錄，736 頁中文版，  
25 743 頁英文版，都係姚嘉俊先生嘅。

26 主席：（經傳譯員）呢個會議日期係乜嘢呀？

27 黃佩琪女士：（經傳譯員）呢個係一個會議紀錄，但係冇顯示個日期，但係就有個文  
28 件編號 2/2018，所以我就假設應該係 2018 年 2 月，即係喺大埔公路交通意外  
29 之後，中文版就由 735 頁開始，英文版就係 742 頁。如果我哋睇番第 128 (c)  
30 段，呢度就係姚嘉俊先生嘅意見，佢就話嗰度有三個唔同嘅車速限制喺唔同嘅  
31 路段，即係指喺大埔公路，所以對於駕駛者嚟講，就好難適應，佢就問運輸署  
32 會唔會檢討呢個情況同埋增加車速偵測機，你睇唔睇到呢段？

33 容溟舟先生：我睇到，你其實想即係問番我哋究竟運輸署嗰件交通意外，即係喺嗰次  
34 嘅提問之後有冇做一啲嘅檢討？

35 黃佩琪女士：（經傳譯員）或者係可以幫助你去考慮答案，其實喺會議上運輸署都有  
36 回應，就係第 133 段，英文版就 746 頁，中文 739 頁。簡單嚟講，佢話嗰段已  
37 經有好清晰嘅車速限制嘅標誌，亦都有標誌係提醒司機嘅，你哋區議會有冇跟

1 進呢或者冇處理呢個問題，喺呢次會議之後？

2 容溟舟先生：我都係講番頭先個情況，如果有動議嘅話，其實佢哋會跟嘅，但係如果  
3 有嘅話，就要睇番補充資料冇冇回覆，因為呢個 bundle 確實係冇交到一啲嘅  
4 討論事項之後嘅一啲嘅補充資料，我暫時睇唔到。

5 黃佩琪女士：（經傳譯員）可唔可以去查呀？

6 容溟舟先生：你想我而家 check 吓，定係點呢？

7 主席：（經傳譯員）唔係，如果你可以搵到一啲相關嘅資料，之後請你以書面提交畀  
8 我哋。

9 容溟舟先生：咁喇，我或者可以咁嘅，我稍後同番你哋嘅調查委員會確認番你哋想交  
10 番啲乜嘢嘅意見，即係我會用番--指示番秘書處去就啲嘅意見，執番出嚟，睇  
11 下仲冇冇相關嘅會議文件可以再補遺番。

12 主席：（經傳譯員）咁就會好有幫助，唔該。

13 黃佩琪女士：（經傳譯員）主席，我完成咗我嘅訊問。

14 主席：（經傳譯員）容先生，多謝你出席嚟協助我哋提供證供，我哋希望可以收到你  
15 嘅進一步嘅資料，即係如果你搵到有啲相關嘅資料，請你提供。

16 容溟舟先生：好，唔該晒。

17 主席：（經傳譯員）跟住就係深水埗區議會嘅代表，或者請林先生同陳先生係上前，  
18 或者畀少少時間我哋改番啲個名牌，同埋畀新嘅水杯你。林先生同陳女士，多  
19 謝你接受我哋嘅邀請，今日出席作證，對唔住，我哋係延誤咗啲時間，或者而  
20 家請黃女士向你哋提問。

21 黃佩琪女士：（經傳譯員）好，多謝林生同陳女士嚟出席，或者首先我可唔可以處理  
22 就係關於工作時數呢個課題，即係指巴士司機喇當然。或者請你睇區議會文件  
23 夾 2 嘅 986 頁，呢個中文版，英文版就係 988 頁。

24 主席：（經傳譯員）呢度我哋想睇啲乜嘢呀？

25 黃佩琪女士：（經傳譯員）我哋係想討論深水埗區議會嘅討論，就係關於話喺深水埗  
26 嗰宗致命交通意外嘅，就係長沙灣道近住欽州街，發生喺 2017 年 9 月 22 號晚  
27 嘅。

28 主席：（經傳譯員）呢個係 2014 年 9 月 22 號所發生嘅意外？

29 黃佩琪女士：（經傳譯員）係喇，係 2017 年 9 月 22 號晚發生嘅意外。

30 主席：（經傳譯員）2017 年呀？

31 黃佩琪女士：（經傳譯員）係，2017 年。

1 主席：（經傳譯員）好。

2 黃佩琪女士：（經傳譯員）喺呢份文件其中提到嘅一個問題，如果睇番第 3 段，就話  
3 要加強規管巴士車長嘅工作時數，喺呢份文件就提到話喺其他外國嘅地方，例  
4 如歐盟，就會限制司機每日唔可以揸車多過九小時，而香港嘅巴士車長每日最  
5 長可以做到十四個鐘頭，每個月即係超過三百六十小時。我亦都想請你睇番第  
6 一次特別會議嘅會議紀錄，就係喺呢個深水埗嘅意外之後，就係 17 年 9 月 28  
7 號，中文版就係 1026 頁，英文版 1043 頁。

8 主席：（經傳譯員）邊一查文件呀？

9 黃佩琪女士：（經傳譯員）區議會文件夾 2。唔好意思，係區議會文件夾 3。

10 主席：（經傳譯員）係。

11 黃佩琪女士：（經傳譯員）如果我哋睇番 168 段，楊彧議員補充，佢要求政府修訂  
12 個指引，將嗰個工作時數由十四小時減到十二小時，如果我哋睇番 170 段，譚  
13 國橋議員補充相關嗰個規例，規定司機唔可以工作超過十四小時，好多職工會  
14 都有提到其實十四小時嘅工作時間都唔人道，而喺 201 段亦都有譚國橋議員亦  
15 都話城巴應該係將所有司機嘅工作時間減到十二個小時或者以下。所以我個問  
16 題就係似乎區議會——即係深水埗區議會建議嗰個工作時數係十個鐘頭，你可唔  
17 可以講畀我聽點解你哋建議係十個鐘頭？

18 主席：（經傳譯員）我哋喺邊度睇到？喺邊一段睇到？

19 黃佩琪女士：（經傳譯員）係喺 986 頁嗰封信裏面，英文版就係 988 頁第 3 段。

20 主席：（經傳譯員）係，唔該。

21 黃佩琪女士：（經傳譯員）「我哋要求運輸署規定每日最長駕駛時間係十小時」，你  
22 可唔可以解釋點解你哋建議十個鐘頭應該係最長嘅駕駛時間呢？

23 林家輝先生：喺嗰次意外發生之後，我哋議會就就住呢一個議題就傾咗都相當多嘅時  
24 間嘅，因為其實發生交通意外嗰個位置就喺咁喺我哋區議會門口，响個十字路  
25 口嚟嘅，如果喺區議會個窗口望出去，見到個慘劇嘅現場嘅，簡直係驚心動  
26 魄，係咪呀？同埋嗰個巴士撞過去，唔係可以即刻清走，經過好長時間嘅拯救  
27 同埋處理傷者，個巴士撞咗入去個建築物裏面，插實咗，搵番出嚟都係要好多  
28 工程人員、工程師喺現場處理。

29 就我哋議會就要諗下辦法點樣搵到出嚟呢個交通意外嘅成因嘅，呢份文件喺  
30 嗰個討論過程之中，綜合而言，我哋整個議會係都覺得其中一個重要嘅原因就  
31 係巴士司機喺駕駛個時間係頗長嘅。至於係呢個十四小時，我哋喺嗰個會議上  
32 面，有一位議會嘅議員同事係覺得呢個係一個巴士司機合適嘅服務工作時數嚟  
33 嘅。就由十四小時去到十二小時，跟住就係再一路呢份文件所講嘅十小時，其  
34 實我哋覺得係一個合適嘅巴士司機嘅服務時數係應該就住佢哋嗰種工作嘅模

1 式，即係駕駛住一個咁大型嘅巴士同埋係兼顧住乘客嘅上落同埋家居嘅生活，  
2 係要作出一個平衡嘅。

3 我哋覺得喺個平衡裏面，如果係一個車長能夠去到十個鐘頭嘅工作時數，頭  
4 先之前有啲議會都提過，其實而家就係就算做呢一個看更，喺一啲公屋上面嘅  
5 看更佢哋都係八個鐘嘅啫，我哋呢個全香港嘅公共屋邨嘅保安員嘅服務，喺房  
6 委會下面係廿四小時有看更，每一更都係得八個鐘嘅啫，看更同事其實就佢嘅  
7 工作嗰個壓力同埋嗰個量同呢一個巴士司機嗰種工作壓力係冇得比嘅，即係換  
8 言之，巴士司機個工作壓力同埋量係好大，同埋近年巴士司機都會周時畀啲乘  
9 客指責，即係就算今時今日，呢兩個月，巴士上面有毒針添，係咪先？巴士司  
10 機譬如受到呢啲咁樣嘅--處理呢啲意外嘅，其實佢哋要好大概嘅心力。喺個會議  
11 上面討論都覺得係如果係嗰個巴士司機嗰個時數去到十個鐘，呢個係比較理  
12 想，同埋我哋覺得會係令到個巴士嘅意外嗰個機率係會減低嘅。

13 當然我哋其實仲有一樣嘢關注嘅，就係巴士司機十個--即係假設真係去到--  
14 --由十四個鐘、十二個鐘去到十個鐘，佢哋嗰個薪酬係可唔可以足夠養活佢哋一  
15 家人呢？呢個都係我哋關注嘅，因為都係投身車長服務其實都呢個工作都幾艱  
16 辛，如果唔係有足夠嘅人工去養妻活兒，我覺得亦係令到呢一個行業越嚟越人  
17 手短缺之下，可能係永遠都唔會將個時數減低，因為唔夠人，就車長--即係喺  
18 個巴士公司裏面可能就係要用一啲政策令到嗰啲車長係繼續增加佢哋嘅工作時  
19 數。呢個我回應。

20 黃佩琪女士：（經傳譯員）有一份會議紀錄嘅，就係呢一個嘅 2017 年 4 月 28 號  
21 嘅，係深水埗區議會會議紀錄，英文就係 1041 頁開始，中文就係 1026 頁開始  
22 嘅。

23 主席：（經傳譯員）邊一段呀？

24 黃佩琪女士：（經傳譯員）167 同埋係 168 段嘅，呢個會議係 9 月進行嘅，我想你  
25 睇番兩項嘅，167 段就係呢一個係鄭泳舜議員就話，就係呢一個嘅過去七年，  
26 對於巴士車長工時嘅指引係有任何嘅修訂嘅。跟住係(i)嗰度，楊彧議員就話車  
27 長必須留意路面安全，同埋就要修訂指引，嗰個工作時數由十四減到十二，薪  
28 酬亦都要提高，休息時間亦都要增加。

29 呢一個嘅第 171 段嘅時候，梁昌杰先生回應就話喺呢件意外之後，其實個  
30 巴士車長工作同埋休息時間係受到社會關注嘅，運輸署同埋巴士公司係制定咗  
31 指引，巴士公司係需要喺編更時候遵行指引。運輸署每季亦都會聘請獨立調查  
32 員去睇番車長嘅工作、休息時間等等。

33 羅馬數字第(iv)，運輸署現正籌備有關指引嘅檢討工作，計劃諮詢巴士公  
34 司同埋工會，回應公眾對於車長工時嘅關注。運輸署有既定立場，會考慮巴士  
35 公司、工會同埋公眾喺呢一次檢討嘅意見。

36 我有兩個問題要問嘅，似乎指引檢討係因為呢一個 2017 年 9 月嘅交通部意

1 外，仲有公眾人士投訴關於巴士司機嘅工作時數而引致嘅，呢次有檢討工作  
2 嘅，同意嘛？

3 陳穎欣女士：係，唔該主席。或者我都補充一下，其實針對番你而家呢個問題，可能  
4 你都睇番我哋嘅會議紀錄第 196 段，喺我哋發言度其實都有講，因為我都係一  
5 個工會嘅代表，其實工會一直都有就我哋一啲車長嘅權益同埋工時嘅問題向運  
6 輸署同埋巴士公司去反映嘅，但係好可惜，就係正正--回應你呢個問題，係意  
7 外發生咗之後，政府與及巴士公司嘅代表先至有意去考慮唔同持份者包括我哋  
8 一啲工會代表嘅意見。因為其實呢一個工時嘅問題，我哋見到對上一次我哋有  
9 一個真正嘅修訂其實係講緊七年前，即係意外發生之前嘅七年，喺 2010 年嘅時  
10 候嘅一個版本。其實呢一個問題，我相信一直以嚟，我哋工會代表都有去反映  
11 嘅，但係可惜得唔到一啲正面嘅回應，直至到有不幸嘅事故出現咗之後至願意  
12 去做一個修正。

13 另外頭先有關你個問題，提及到有關十小時工時嘅問題，其實我所知道，  
14 一路以嚟工會嘅代表佢哋都希望最高嘅上限嘅駕駛時間其實係唔好超過十四個  
15 鐘，亦都希望可以修訂到去十二個小時嘅。至於十小時點樣得嚟呢，就可能係  
16 我哋議會其他嘅同事佢自己研究出嚟嘅，但係我哋其實整體個文件，我諗我哋  
17 成個議會嘅方向，大家都認為十四小時係太長，而我自己嚟睇，亦都係代表住  
18 工會嘅意見，我哋唔應該淨係著眼於個工時嘅問題，因為其實工時嘅問題同佢  
19 哋嘅待遇以至薪酬其實都係環環相扣嘅。

20 我所知道發生意外，其實當時個情況，個車長佢入職咗已經五年多嚟  
21 喇，當日其實佢都係應該原定提早咗去開工嘅，個原因就係因為佢要維持生  
22 計，如果佢返唔足夠嘅一啲工時，其實佢係唔能夠賺取到佢可以為生嘅工資  
23 嘅。即係我哋擺一啲數據嚟睇，其實一路以嚟，九巴佢哋嘅薪金都係一點幾  
24 萬，即係萬零釐，可能新巴就會好少少嘅，佢哋都會去到萬二釐左右，但係要  
25 計埋一啲津貼，先至個個薪酬係及得上我哋現時好多同類型，亦都係承受住巨  
26 大壓力嘅一啲行業，其實呢一個情況並唔理想，亦都係間接導致到今次呢個意  
27 外，我相信如果我哋要去做一個檢討，唔單只係講緊工時嘅問題，其實薪酬嘅  
28 問題同樣我哋都要重視嘅。

29 而至於有關個待遇，其實我哋都講緊提及到休息嘅問題，頭先有其他嘅議  
30 會同事我都聽到都針對一啲有關休息室嘅問題去提出意見，其實我唔能夠講話  
31 全港有幾多個屋邨或者巴士站係未有休息室，因為呢啲我哋可能部門都畀唔到  
32 一啲嘅數據我哋睇到，但係我以我自己邨為例，我麗閣邨其實已經開邨咗三十  
33 幾年，但係我哋嘅 6F 巴士站其實都只不過喺去年年底先至可以開始設立一個休  
34 息室畀我哋 6F 巴士嘅一啲車長。其實呢個情況係唔理想，我知道其他嘅屋邨，  
35 我哋宏觀番睇番甚至乎九龍東，喺樂華邨，我知道係要有立法會議員何啟明嚟  
36 介入，先至可以喺屋邨個度成功幫到車長去爭取到一個休息室。所以其實成個  
37 情況，希望我哋睇嘅唔係淨係著眼於工時，亦都要睇埋佢哋薪金嘅待遇同埋休  
38 息嘅情況。唔該主席。

1 林家輝先生：你頭先問我呢個問題，就...

2 主席：（經傳譯員）未講之前，林生。陳女士，你話你係工會嘅代表，你嘅意思係指  
3 乜嘢呀？可唔可以解釋？

4 陳穎欣女士：我嘅政治聯繫係工聯會。

5 主席：（經傳譯員）你喺呢一個工聯會裏面嘅職位係乜嘢呀？

6 陳穎欣女士：我係一個區議員。

7 主席：（經傳譯員）我知，但係你話你同呢一個工聯會有聯繫嘅，你意思係乜嘢呀？

8 陳穎欣女士：（經傳譯員）呢個係我嘅政治嘅聯繫嚟嘅。

9 主席：（經傳譯員）唔該。唔該，林生，你可以繼續。

10 林家輝先生：頭先就即係律師問我個問題，就係話呢一次嘅政府嘅部門有關嘅檢討係  
11 咪就住啲交通意外或者係我哋議會或者公眾人士係發生咗意外之後就係會做一  
12 系列嘅呢個係好似今日嘅公聽會或者檢討，我覺得係嘅。當然喺社區、社會上  
13 面係對交通服務或者交通安全、意外等等都一定會有關注嘅，其實交通意外每  
14 日都會發生，有輕微嘅，有嚴重，好似今次咁嚴重嘅交通意外等等，但係你話  
15 係發生咗一啲重大嘅交通意外嘅事故令到個社區、社會震撼，跟住無論政府、  
16 公眾作出積極嘅處理或者回應，呢一種處理嘅方法係常見嘅，但係唔等於話社  
17 會一路唔關注嘅，但係今次，就算衍生咗今一次嘅公聽會都係可能係有好幾單  
18 好大型嘅不幸所衍生出嚟，所以我覺得--所以我哋係嚟到呢個公聽會係好值得  
19 嘅，我哋都要諗辦法令到呢啲意外個規模、傷亡人數唔會重蹈覆轍。

20 每一個交通嘅意外嘅地點都係可能喺設計上面、設施上面係有所不足嘅，好  
21 似我哋發生意外呢一笪地點係我哋深水埗最核心嘅地帶，頭先我提到喺我哋政  
22 府合署門口，喺議會嘅前面。呢一啲咁嘅咁人同巴--無論係公共交通服務、普  
23 通市民嘅汽車同埋行人過路嗰啲擠逼係好嚴重嘅，每一眼燈轉燈可能係有一千  
24 幾百個市民喺呢個十字路口嗰度準備過馬路嘅，同時期亦係有可能係十字路口  
25 有幾十架巴士等住去越過呢個十字路口嘅，因為我哋個區有啲特別嘅，深水埗  
26 區，法官大人，就係新界同市區嘅一個轉駁嘅區域嚟嘅，即係新界出嚟嘅車又  
27 會經過我哋區去其他市區嘅各區，另外其他各區入新界亦係經過我哋個區，所  
28 以呢個十字路口係我哋嘅交通核心嘅路口嚟，好不幸發生咗呢一次嘅意外。

29 但係我哋議會不斷都就住呢個交通十字路口佢嘅繁忙係有好多意見畀運輸部  
30 門、巴士公司等等，即係運輸部門就係點樣去疏導呢個十字路口令到人、車爭  
31 路呢個問題係解決，巴士公司就係希望佢哋將啲巴士唔好集中去呢個路口，其  
32 實仲有幾條路可以行，但係因為呢個路口又係好多乘客，所以啲巴士公司就唔  
33 肯將啲巴士路線移去第二條路行嘅，因為佢哋要接載乘客，所以就係有啲死結  
34 喺度嘅。

1 但係不幸發生咗呢個交通意外，亦去到今日呢個公聽會，我都希望透過呢個  
2 公聽會令到呢啲社會政策係有所改變，即係我哋包括頭先都提出咗譬如喺呢條  
3 十字路口會加多啲行人天橋，令到唔使咁多市民企喺呢一個每一次轉燈嗰陣時  
4 嗰個等候咁多人口。其實喺個路中心仲有啲位係畀嗰啲人喺路中心嗰度等  
5 嘅，...

6 主席：（經傳譯員）唔好意思，唔好意思，打斷你，可唔可以就係請你講一講關於其  
7 他嘅建議，即係關於檢討巴士車長工時、休息嘅指引，我就想問，可唔可以同  
8 你講，你就係講咗一啲嘅建議同埋收到運輸署嘅答案，就話佢哋話係會檢討，  
9 呢一次係 17 年嘅 9 月 28 號，之後運輸署有冇喺呢一個嘅--喺 2 月 23 號之前  
10 係諮詢過你先呢？

11 林家輝先生：冇。

12 主席：（經傳譯員）唔該晒。黃律師。

13 黃佩琪女士：（經傳譯員）請你睇番就係區議會文件 2 嘅第 1054 頁，就係第 302  
14 段，梁昌杰先生綜合回應，就話運輸署會同巴士公司同埋工會持份者檢討指  
15 引，即係關於係車長工時、休息時間嘅指引，以達致共識，但係運輸署係冇再  
16 同呢一個嘅區議會傾過，問你哋嘅意見嘅，係咪呀？

17 主席：（經傳譯員）佢應該答咗㗎喇。

18 黃佩琪女士：（經傳譯員）我想再接再住講另一宗意外嘅，2016 嘅 4 月 26 號嘅，係  
19 廣利路嘅，如果你 991 頁，中文 990 頁。

20 陳穎欣女士：唔好意思，我哋喺 move on 之前，其實都想表達一下意見，針對番我  
21 哋頭先講緊喺欽州街嗰個意外嘅，因為我知道大家除咗關注有關工時嘅問題，  
22 其實有好多巴士司機，即係我哋一啲工會嘅會員都同我哋反映番其實可唔可以  
23 喺一個道路設計上其實都可以幫助到巴士司機去減低佢哋可能平時駕駛嘅壓  
24 力，特別係我哋提到，其實會議紀錄都有講過嘅，就係有關我哋--其實參考番  
25 其他嘅城市，我哋見到都有一個叫做 X crossing 或者 diagonal crossing  
26 嘅，我哋見到日本、英國一啲比較繁忙嘅區域其實都有咁樣嘅一個道路設計嘅  
27 裝置响度，頭先輝哥提及到...

28 主席：（經傳譯員）我哋已經睇咗個會議紀錄嘅，已經有討論。

29 陳穎欣女士：係，頭先輝哥提到點解有講有關行人天橋嗰個問題，其實正正就係點解  
30 會發生意外呢，係因為喺嗰個過路處，大家可能其實經常我哋會係想過斜對面  
31 對角嘅，但係市民就應該佢要喺本身嗰個位置停留得比較耐嘅時間，過咗去對  
32 面先至可以過到去斜對角，即係可能就係一個 L crossing，佢哋平時停留喺  
33 我哋而家嗰個過路處嘅時間變相就會長咗，咁樣亦都係令到意外嘅機會提高咗  
34 嘅，所以其實點解我哋提到有關 X crossing 嗰個做法，其實運輸署都要去考  
35 慮。

1 亦都可以考慮下，特別係一啲巴士司機同我哋反映番，佢哋其實都希望可以  
2 有一啲倒數裝置喺佢哋嘅過路燈嗰度嘅，其實都係可以提醒到佢哋去作準備究  
3 竟幾時要開車、幾時停車。

4 我哋而家講緊宏觀我哋好多唔同嘅城市其實而家都用咗好多嘅科技去幫助司  
5 機去減低佢哋嘅駕駛壓力，但係我哋香港仲係比較落後，而家我哋連 x  
6 crossing 呢個做法其實亦都未係嘗試過嘅，我覺得其實委員會應該要考慮呢  
7 個意見。唔該主席。

8 黃佩琪女士：（經傳譯員）可唔可以睇一睇 990 同 991 頁，呢個係 2016 年 4 月 26  
9 有個致命意外嘅，係廣利道嘅。喺下面就提咗一啲要求嘅，其中一個就係九巴  
10 同運輸署要作一個詳細嘅調查嘅，同埋要向公眾作出一個詳盡嘅交代嘅，而運  
11 輸署應該係負責呢個跟進工作同埋改善廣利道嘅交通，要減少嗰度嘅危險嘅。  
12 區議會有冇跟進呢啲要求呢？

13 林家輝先生：有嘅，...

14 黃佩琪女士：（經傳譯員）喺你回答之前，係咪以書面形式跟進呢，呢個跟進係咪書  
15 面形式跟進呢？

16 林家輝先生：咁樣嘅，類似呢啲--即係區議會嗰個議政嗰個形式，好似呢一份文件係  
17 我哋啲議會同事就寫出嚟，就因為有一個交通意外，呢個蘇屋邨巴士總站呢  
18 度，之後就我哋會喺議會嗰度討論，就即係運輸署同事就係就住呢啲文件就係  
19 逐點回應，我哋嘅會議嘅常規，我哋就係會完咗呢一次討論，有時就會有動議  
20 添嘅，可能呢一次冇，就會擺落去跟進事項嘅，喺下一次--即係呢一次嘅會議  
21 嘅往後嘅會議就會有一個明細表嘅，因為將成個區發生或者需要跟進嘅事項就  
22 擺落去跟進事項，然後喺下次又會討論。

23 喺呢一次嘅會議要求部門係做乜、做乜、做乜，即係佢有啲佢即時答到，有  
24 啲未必即時答到，或者有啲會再研究一個新嘅政策係去點樣應對呢件事件呢，  
25 下一次會議就有晒所有文件嘅。好似呢一次蘇屋嘅巴士意外，跟住就衍生到個  
26 議題，就係話蘇屋邨巴士總站用咗超過五十年，呢個巴士總站無論喺個設計，  
27 喺個需求使用，因為不斷會加咗巴士線，以前就得兩條巴士線，而家一路加咗  
28 其他好多，就係衍生到話要重建呢個巴士總站，甚至乎再衍生落嚟就係一地多  
29 用，就下面做巴士總站，上面可唔可以做社區設施，整一個大廈式嘅巴士總  
30 站，上面係可以做其他政府診所或者社會福利署等等。所以係有嘅。

31 黃佩琪女士：（經傳譯員）主席，我個問題問完，係就呢個區議會嘅問題問完。

32 主席：Sorry, I missed the first part?

33 黃佩琪女士：（經傳譯員）我已經問完想問嘅問題。

34 主席：（經傳譯員）剛才係已經向你提問嘅要求，你已經作出一般嘅回應，你亦都作  
35 咗啲個別嘅回應，如果有額外嘅補充，你可以而家講，但係我哋 3 點鐘同一個

1 德國嘅證人係有個取證嘅，所以我哋希望係有足夠嘅時間準備嘅，但係你可以  
2 補充嘅。

3 林家輝先生：好呀，多謝法官閣下。對於呢個社會上發生呢啲交通意外，一宗都嫌  
4 多，我衷心期待我哋呢個獨立嘅檢討委員會由閣下帶領係諗到啲新嘅方法或者  
5 係一啲新嘅政策出嚟畀政府，同埋令到呢一個我哋呢個城市就住交通意外、公  
6 共交通服務能夠係走向更現代化同埋走向世界前列上面，我有呢個期望，多謝  
7 你。

8 主席：（經傳譯員）多謝。陳小姐。

9 陳穎欣女士：我想表達嘅就係其實有今日呢一個委員會，我覺得係對未來嘅發展，我  
10 哋巴士、任何其實公營嘅交通工具，我相信對未來嚟講都係一件好事嚟嘅，但  
11 係我希望其實呢啲定期嘅檢討係可以恆常化嘅，而唔係我哋發生咗事故之後我  
12 哋先至去邀請持份者去表達意見。

13 其實我哋議會同工會嘅角色其實一直都好希望我哋嘅意見可以得到尊重同  
14 埋接納，但係好可惜我哋見到因為呢個巴士專營權其實成個議題亦都因為佢有  
15 一個模式，所以令到巴士公司其實基本上喺不論我哋講緊巴士路線重組計劃嘅  
16 時候係牽涉到市民嘅便利或者大致牽涉到市民嘅安全、司機嘅安全都好，其實  
17 我哋嘅意見往往都係唔被接納嘅，因為我嘅理解，其實佢個巴士專營權係唔會  
18 因為我哋嘅意見而受到影響嘅，呢一個係好可惜同埋一個唔理想嘅情況。

19 我哋往往講緊好多嘅巴士線，其實都一直有去表達意見，甚至乎一啲安全嘅  
20 指標上其實都有表達意見，但係好可惜我哋因為以往冇呢啲平台，亦都有一啲  
21 恆常可以表達意見嘅一個機會，所以令到以往一直以嚟我哋嘅意見不被接納，  
22 我哋都好期望今次之後我哋可以有一啲新嘅做法、有啲新嘅模式喺我哋公營嘅  
23 巴士路線上面可以得到改善。唔該主席。

24 林家輝先生：主席，我...

25 主席：Yes.

26 林家輝先生：頭先大埔議會同事都提到一點，我認同嘅，就住係啲巴士政策或者專營  
27 權嘅問題，就如果可以十八個區議會都係就住專營權到期嘅時間之前係作出諮  
28 詢或者正式畀呢一個專營權續期嘅意見，其實係會令到巴士公司係會更加尊重  
29 區議會嘅意見。

30 其實喺而家政府嘅架構裏面係有呢啲例子嘅，就係城市規劃委員會喺地區  
31 裏面，就算市建局、所有嘅--或者其他用地嘅改變同埋發展，城市規劃委員會  
32 都要睇區議會支持或者唔支持或者對呢個發展係有其他嘅意見，然之後先至--  
33 係一個主要嘅意見，然之後先至係再去決議呢一個轉變或者使用嘅，所以係有  
34 先例。

35 我都希望閣下能夠就住對巴士公司佢嘅服務能夠積極去提高、作出一啲有

1 力嘅推動嘅方案，令到巴士公司同市民之間透過議會嗰個意見係得到佢哋認真  
2 去看待同埋去對我哋嘅意見係多加尊重。

3 主席：（經傳譯員）我不如咁問你，喺運輸署、運房局佢哋有啲諮詢關於是否應該讓  
4 巴士專營權續期，你嘅區議會有冇作出意見呢，去提供你哋嘅立場嘅意見呢？

5 林家輝先生：當呢個續期嗰陣時，喺而家嗰個政策上面，係唔使諮詢我哋區議會，我  
6 哋...

7 主席：（經傳譯員）呢個我知，但係佢哋一般都會有邀請嘅，我琴日先睇一份文件，  
8 九巴要續期嘅時候，一開始就會廣邀市民係作啲表述嘅，區議會，你嘅區議會  
9 有冇回應過呢份咁嘅諮詢呢？

10 林家輝先生：我有聽到有，但係如果係一個機制係納入咗我哋嗰個議程裏面或者十八  
11 區區議會嘅議程裏面，係積極好多嘅，成為一個常規性嘅議程，當然專營權唔  
12 係成日會去續期，但係可能五年、十年，喺一年前...

13 主席：（經傳譯員）好似係每十年。

14 林家輝先生：係喇，喺第九年嗰陣時，我哋十八個區議會就係放呢個議程喺我哋嘅議  
15 會裏面，十八個區議會或者早一、兩個月或者早一年我哋去積極去討論，就會  
16 係更加方便去推動巴士服務。

17 陳穎欣女士：主席，輝哥--我補充林生嘅意思其實就係話其實運輸署同埋巴士公司係  
18 應該主動去到我哋十八區區議會嗰度去提交文件，向我哋諮詢嘅，我呢度會  
19 有一啲 general 嘅 invitation，但係如果希望可以促進到我哋十八區嘅討  
20 論，更加希望佢可以 reach out 去我哋嘅區議會嗰度，向我哋做一啲諮詢。

21 我簡單講一個例子，其實巴士公司一般不論係專營權又好，抑或佢營運緊嘅  
22 時候，講緊巴士路線重組都好，我哋嘅意見係唔被尊重嘅，亦都其實基本上係  
23 唔需要聆聽我哋嘅意見。簡單我哋擺一條巴士線為例，當時其實你經常都會問  
24 有冇一啲 written 嘅 submission，其實我寫信寫埋去運輸署署長嗰度，就一  
25 條巴士線，6F 嘅巴士線去改道嘅問題，因為呢條巴士線佢係途經醫院，所以我  
26 哋認為佢唔應該只係考慮盈利，唔應該只係考慮佢當時嘅載客量，因為好多長  
27 者係要乘搭呢條巴士線去一啲醫院嘅服務，但係好可惜都係唔會聽我哋嘅意見  
28 隨意去做一啲改道，甚至乎削減班次。

29 喺呢啲層面上，其實我哋嘅區議會完全係有任何令到佢要聆聽我哋嘅意見嘅  
30 一啲誘因，所以點解講到話可以喺個專營權去考慮續期嘅時候係需要考慮到我  
31 哋十八區區議會嘅意見先至去再做決定，我認為呢一個係比較恰當，亦都係最  
32 合乎公眾利益嘅做法。唔該主席。

33 主席：（經傳譯員）好，多謝你，我就叫秘書同你溝通，關於我想要嗰份文件，就係  
34 關於政府話嗰個專營權到期前嘅公眾諮詢嘅，亦都有一系列嘅文件係會要你要  
35 索取嘅。我要多謝委員會--我要代表委員會係感謝你出席嘅，我哋會 3 點鐘繼

1 續嘅。

2  
3 下午 1 時 56 分押聆訊押後

4  
5 下午 3 時 16 分恢復聆訊

6 出席人士： Mr JAN Kuliš，系統工程組長（ZF Friedrichshafen AG 及  
7 其附屬公司 Openmatics s.r.o 代表）

8 中倫律師事務所律師許卓傑先生，代表 ZF Friedrichshafen AG 及  
9 其附屬公司 Openmatics s.r.o

10  
11 主席：（經傳譯員）各位，午安。許生，午安。歡迎你哋出席，你哋就係 ZF 同埋  
12 Openmatics 嘅律師代表嘅，Kulis 先生，感謝你係接納我哋嘅邀請，係幫我  
13 哋手，讓我哋係知道係有關嘅技術裝置係點樣運作嘅。我哋係會請陳大律師，  
14 係我哋嘅委員會嘅代表大律師係提問嘅，如果你睇唔清楚啲啲文件或者需要時  
15 間去睇啲啲材料嘅話，請話畀我哋聽，我哋會儘量係幫忙嘅，請問你明白嘛？

16 MR JAN KULIS：（經傳譯員）係，冇問題，唔該晒。

17 主席：（經傳譯員）唔該。

18 陳政龍先生：（經傳譯員）Kulis 先生，早晨，我係陳政龍，我係委員會嘅代表大  
19 律師，我會係代表委員會向你提問，委員本身亦都可能有問題問你嘅，喺今節  
20 嘅聽證會裏面。首先就想感謝你，Kulis 先生，感謝你今日係幫我哋作證，你  
21 嘅證供對於我哋委員會嘅工作好有用嘅，讓我哋從一個技術嘅角度去睇下現存  
22 係對專營巴士喺香港運作有啲乜嘢嘅技術裝置、科技裝置可以用得著嘅。

23 首先想問你幾個基本嘅問題，關乎係你現時喺你公司裏面你嘅職位嘅，如果  
24 得嘅話，我就用“ZF”呢個簡稱嚟到係總括你間公司同埋係附屬公司，包括係  
25 Openmatics 嘅，所以我以下就會“ZF”嚟到係作一個簡稱。我知道 Kulis 先  
26 生你係 ZF 嘅僱員，請問你而家公司裏面嘅職位係乜嘢呀？

27 MR JAN KULIS：（經傳譯員）我目前嘅職位，我就係負責呢個系統工程嘅，我係公  
28 司嘅僱員，我係 Openmatics 嘅僱員，Openmatics 就 ZF 嘅係附屬公司。

29 陳政龍先生：（經傳譯員）可唔可以係簡單咁講出一下你有啲乜嘢嘅職責呢，你係呢  
30 一個系統工程嘅組長，你有啲咩嘢職責，簡單可唔可以講一講？

31 MR JAN KULIS：（經傳譯員）係，我哋寫字樓負責技術支援，技術支援  
32 Openmatics 呢一個系統嘅，新、舊嘅客戶我哋都進行呢個支援嘅，我哋工程

1 師就會開發我哋嘅應用程式，係滿足我哋客戶嘅需要，我哋如果有問題嘅話，  
2 就希望能夠搵出個辦法去解決啲問題，係協助我哋嘅客戶，幫佢哋尋求解決  
3 方案。

4 陳政龍先生：（經傳譯員）我知道就係喺電子工程方面就係有個大學嘅學位嘅，係咪  
5 呢？

6 MR JAN KULIS：（經傳譯員）係，冇錯嘅。

7 陳政龍先生：（經傳譯員）Kulis 先生，呢個委員會之前就同一個律師就係有書信  
8 來往，佢就係代表你嘅公司嘅，我哋已經係問咗一啲嘅問題，你嘅公司就係畀  
9 咗一啲嘅答案，就通過呢個律師事務所，你知唔知呢件事㗎？

10 MR JAN KULIS：（經傳譯員）係，我知嘅。

11 陳政龍先生：（經傳譯員）你自己有冇透過呢個律師事務所提供嘅答案，有冇喺你手  
12 頭上面？

13 MR JAN KULIS：（經傳譯員）有嘅。

14 陳政龍先生：（經傳譯員）好，主席同埋委員，喺我哋嘅文件夾之中，就係呢一個巴  
15 士技術製造商，就係 BM-1 嗰個嘅文件夾之中嘅，呢個中倫律師事務所嘅信件就  
16 係第 64 頁開始嘅。Kulis 先生，我可唔可以同你確認我哋係咪讀緊同一個文件  
17 呢？你喺你嘅前面就有冇一個中倫律師事務所嘅信件，就係 2018 年 6 月 26 號  
18 嘅一個信件，有冇？

19 MR JAN KULIS：（經傳譯員）有，我哋亦都喺屏幕上面見到。

20 陳政龍先生：（經傳譯員）Kulis 先生，你睇嗰個文本就喺右下角係咪有個頁數嘅  
21 呢？

22 MR JAN KULIS：（經傳譯員）冇嘅，冇嘅。

23 陳政龍先生：（經傳譯員）好，明白。Kulis 先生，我就會問你一啲嘅問題嘅，今  
24 日，就從兩個角度，咁所以你就知道我究竟係問咩嘢問題，第一方面，我就  
25 會係問就係關於黑盒嗰方面嘅技術嘅功能，就係已經係你公司係提供畀香港嘅  
26 巴士營運者嗰嘅黑盒，我希望能夠澄清同埋解釋到就關於嗰個你答案裏面  
27 嘅一啲嘅細節嘅，你問公司就已經提供咗啲答案，呢個就係第一個角度。第二  
28 個角度，我就會問關於其他嘅硬件或者軟件嘅功能，你公司係有提供嘅又或者  
29 可以提供，可能對於巴士嘅安全係有關嘅，所以從呢兩個角度，我就會去提問  
30 嘅。就我就想請你睇一睇就你面前嗰個文件夾，就係第 1 段，你而家睇緊嗰個  
31 頁係咪附件 3 㗎，上面寫住「附件 3」？

32 MR JAN KULIS：（經傳譯員）係嘅，冇錯。

33 陳政龍先生：（經傳譯員）你公司就係提供嘅答案就係藍色，我可唔可以睇一睇第二

1 段或者係第一段，呢個第三段藍色嘅就係第二段，就話 Openmatics 就係簽約  
2 係提供呢個遠程通訊系統畀九巴同埋龍運巴士公司，然後你間公司就話  
3 Openmatics 就係開始提供呢啲嘅遠程系統就係使用第一代嘅黑盒，叫做「莫  
4 札特黑盒」，之後就係代替佢，就用一個叫做「巴克黑盒」去代替嘅，然後同  
5 時間顧客係可以兩個系統一齊用嘅，就好似九巴咁樣樣。你可唔可以首先話畀  
6 我哋聽嗰個莫札特個盒同埋巴克盒係幾時係推出市場嘅呢？

7 MR JAN KULIS：（經傳譯員）如果我有記錯嘅，係2011年係莫札特盒。

8 陳政龍先生：（經傳譯員）巴克盒呢？

9 MR JAN KULIS：（經傳譯員）2015年嘅夏季嘅時候推出嘅。

10 陳政龍先生：（經傳譯員）所以巴克盒就相對於莫札特盒係比較先進嘅？

11 MR JAN KULIS：（經傳譯員）係，冇錯。

12 陳政龍先生：（經傳譯員）你可唔可以話畀我聽一般嚟講佢哋主要呢兩種嘅黑盒其實  
13 係有咩嘢主要嘅分別呢？

14 MR JAN KULIS：（經傳譯員）可以嘅，係科技越嚟越進步，唔好意思，就呢一個巴  
15 克就係第二代嘅，佢係比較外型係細啲、平啲、快啲同埋有更多嘅介面嘅，所  
16 以呢個主要分別就喺呢度。

17 陳政龍先生：（經傳譯員）你話更多介面咩嘢意思呢？

18 MR JAN KULIS：（經傳譯員）呢個嘅裝置係可以閱讀唔同嘅數據，同埋去到接駁唔  
19 同嘅電腦，呢個嚟莫札特就可以係同呢一個車嚟去接駁等等；巴克盒就可以接  
20 駁去更多唔同嘅介面，譬如好似全球定位系統咁樣嘅。

21 陳政龍先生：（經傳譯員）而家嚟講，巴克盒其實係咪你間公司裏面最先進嘅一種型  
22 號呢？

23 MR JAN KULIS：（經傳譯員）係，冇錯，而家係最先進㗎喇。

24 陳政龍先生：（經傳譯員）我可唔可以再睇一睇你哋個陳述書？就係你公司提供嘅陳  
25 述書，你嘅公司講就係關於就係司機嘅反饋裝置，係再翻開後面嗰版，呢度就  
26 係有一個就呢一個螢幕嘅走出嚟嘅一個節錄，就係關於某一啲嘅界限值嘅，你  
27 個公司就講話就個界限起初就係應該係由九巴佢自己制定嘅，就由呢個  
28 Openmatics 就去調校去到一個適合嘅一個界限嘅，我個一般性嘅問題就係話  
29 你間公司就係將佢校正咗呢啲界限值之後，嗰個最終嘅使用者，譬如話嗰個巴  
30 士嘅營運者，佢哋可唔可以係改變或者係再自己去制訂一啲新嘅價值，還是佢  
31 要返番嚟你間公司度呢？

32 MR JAN KULIS：（經傳譯員）一般嘅說法就係嗰個嘅顧客可以能夠改變呢啲嘅界限  
33 值嘅。

1 陳政龍先生：（經傳譯員）我哋睇一睇嗰啲每一個個界限值，頭啲兩個嘅指標，就係  
2 關於係加速同埋減速嘅，你可唔可以話畀我哋聽佢個其實講嗰個時間係點樣  
3 樣呢？就係點樣去量度個加速同埋減速，就去致使到就話已經係超越咗個界限  
4 值呢？

5 MR JAN KULIS：（經傳譯員）我覺得就已經喺呢度列咗出嚟㗎喇，已經係，係呢個  
6 每二次方秒嘅。

7 陳政龍先生：（經傳譯員）我就講緊呢一個嘅系統就係提供畀香港巴士公司嘅，可唔  
8 可以就係裏面係講係唔同嘅時段用唔同嘅方法去量度呢，譬如話係三秒或者五  
9 秒，其實嗰個加速嘅情況係點樣樣？喺而家嘅系統底下可唔可以嘅呢？

10 MR JAN KULIS：（經傳譯員）係可以嘅，呢個係可以嘅，呢個係一個選項㗎嘅。

11 陳政龍先生：（經傳譯員）呢個咁樣嘅量度加速、減速其實喺莫札特同埋巴克盒嘅制  
12 式底下都係可以有咁嘅量度嘅？

13 MR JAN KULIS：（經傳譯員）係兩個系統，兩個制式都係可以用呢個嘅量度方法  
14 嘅。

15 陳政龍先生：（經傳譯員）如果係咁嘅說話，點解喺呢一個嘅屏幕之中我哋冇清楚表  
16 明係咁樣樣呢，如果係可以嘅說話？

17 MR JAN KULIS：（經傳譯員）唔好意思，我就唔係好明你嗰個問題。

18 陳政龍先生：（經傳譯員）我再開始，如果我哋睇番呢一個屏幕，屏幕嗰個啱啱摘  
19 錄，喺你就頭先就講話嗰個加速同埋減速嗰個量度就係每秒去量度嘅，我問題  
20 就係話嗰個加速同埋減速嗰個界限值會唔會就係譬如話三秒、五秒你去量度，  
21 而唔係每秒，致使到你就可以睇得更清楚嗰個加速同埋減速嘅情況，係可唔可  
22 以嘅呢？或者你需要其他嘅裝置先可以做到？

23 MR JAN KULIS：（經傳譯員）係可以嘅，但係呢個而家嗰個應用程式其實都唔係可  
24 行嘅，就其實嗰個系統都唔係咁樣設計嘅，就唔係畀嗰個客咁樣去調整嘅。

25 陳政龍先生：（經傳譯員）點解我問呢個問題呢？因為我睇番你嗰個公司嘅網頁，係  
26 呢一個嘅車載監察系統之中，其中一個嘅界限值就係三秒之中就係多過或者減  
27 少嘅，就係超過百分之五十又或者係喺呢一個每個鐘頭裏面五秒之內就增速咗  
28 32 個公里，所以你一個唔同嘅方法去量度突然之間點解會加速或者減速，所以  
29 我個問題就係話其實而家有嘅科技底下其實你有一個更加先進嘅方法去量度加  
30 速同埋減速嘅？

31 MR JAN KULIS：（經傳譯員）其實你係講緊呢個 Vivaldi 嗰個單位，呢個就係我  
32 哋係畀呢一啲客車嘅，呢個係喺 2017 年嗰陣時我哋製造或者係 2018 年，嗰個  
33 軟件就更加嘅先進嘅。

34 陳政龍先生：（經傳譯員）我明白喇，呢個相對於莫札特同埋巴克係更加先進，我明

1 白嘅，你其實係咪講緊呢個莫札特或者係巴克嘅盒，其實呢一種嘅量度方法係  
2 唔得嘅呢？

3 MR JAN KULIS：（經傳譯員）其實係可以有嘅，但係就係問題就係話嗰個嘅顧客有  
4 冇咁要求嘅，目前為止其實就有七顧客係咁樣要求嘅，其實係隨時可以係改變  
5 嘅。

6 陳政龍先生：（經傳譯員）仍然係加速或者減速嗰方面，我哋再睇之後嗰幾頁，...

7 主席：（經傳譯員）Kulis 先生，唔好意思，你呢度有啲數字就喺呢一個頁數，喺  
8 啱啱佢上高，你呢度有一段文字就係解釋點解呢啲數字就係點樣去解釋嘅，我  
9 哋係可唔可以係睇一睇呢啲數字呢？呢個我哋想睇嘅就係話嗰個嘅司機反饋裝  
10 置，就關於嗰個意外嘅巴士，其實起初就係個界限值就係由九巴自己制定嘅，  
11 後來就係由 Openmatics 校正咗，然後就去符合嗰個九巴嗰個要求嘅，你個意  
12 思係嗰個牽涉喺嗰個意外嘅車輛係乜嘢意思呢？

13 MR JAN KULIS：（經傳譯員）呢個喺大埔公路嗰個嘅交通意外嘅，有人命損失嘅。

14 主席：（經傳譯員）好，唔該晒。

15 陳政龍先生：（經傳譯員）關於個加速同埋減速嘅方面，我可唔可以睇一睇就之後第  
16 5 段？第 69 頁嘅，喺我哋嘅文件夾之中，第 5 段。

17 MR JAN KULIS：（經傳譯員）係，見到。

18 陳政龍先生：（經傳譯員）喺呢個頁嘅中間，再係喇，藍色嗰段就係你哋公司嘅答  
19 案，呢一個嘅遠程通訊系統就喺九巴用嘅，就係可以記錄嗰個速度，加速同埋  
20 減速嘅啲巴士，但係嗰啲加速或者減速就係持續咁樣去個記錄其實就有啟動到  
21 呢一個功能嘅，你可唔可以再進一步係解釋畀我哋聽呢個係咩嘢意思呢？特別  
22 係講就係話持續去記錄嗰啲加速同埋減速，呢個係咩嘢意思呢？

23 MR JAN KULIS：（經傳譯員）如果我有理解錯嘅時候，呢個係就係講緊就係話嗰個  
24 情況就係呢啲界限值、加速同埋減速就係喺九巴嗰度就係愛嚟實時嘅監察，但  
25 係就唔係愛嚟記錄嘅，呢個就係我個理解。冇錯，我哋係有個系統嘅，但係我  
26 哋就有去啟動嘅，我哋所建議--我哋就有記錄到呢啲加速同埋減速嘅界限值，  
27 就有記錄到一啲數字嘅。

28 陳政龍先生：（經傳譯員）你嘅理解就係加速同埋減速就有喺個黑盒系統裏面係有記  
29 錄嘅，係咪咁呀？係咪正確？

30 MR JAN KULIS：（經傳譯員）正確嘅，呢個都係我嘅理解。另外一個功能就係我哋  
31 嘅黑盒就有記錄唔同嘅數據嘅，就有二十種唔同嘅界限值嘅，但係就唔係加速  
32 同埋減速嘅。

33 陳政龍先生：（經傳譯員）有冇咩嘢原因冇啟動到話要去儲存呢一啲嘅數據呢？

1 MR JAN KULIS: (經傳譯員) 我相信一定有原因嘅, 但係我就唔知道, 我覺得就係  
2 可能係按住九巴佢個客戶嘅要求究竟係需要啲乜嘢, 可能就對於嗰個儲存量都  
3 有啲關係嘅, 一定有原因, 但係我就唔知個原因係乜嘢。

4 羅先生: (經傳譯員) 我有一個關於加速同埋減速嘅問題, 呢個係直接去量度吓, 還  
5 是係根據嗰個時間而去--嗰個嘅動力嚟計出嚟嘅呢?

6 MR JAN KULIS: (經傳譯員) 你可以睇到我哋嗰呢一個嘅屏幕嗰度, 我哋係我哋第  
7 一個嘅指標嚟嘅, 喺呢個情況底下, 嗰個訊號嘅來源就係嗰個車速, 然後喺嗰  
8 度, 我哋就會計到每一秒嗰個加速同埋減速嘅速度嘅, 亦都係可以佢哋係用一  
9 啲內置嘅咪錶去使用嘅、應用。

10 羅先生: (經傳譯員) 其實係咪直接去量度還是係以佢嗰個動力嗰個改變去計出嚟嘅  
11 呢?

12 MR JAN KULIS: (經傳譯員) 喺我哋呢個嘅系統之中, 係用個車速嗰度計出嚟嘅,  
13 所以嗰啲嘅訊號...

14 陳政龍先生: (經傳譯員) 對唔住, Kulis 先生, 就係嗰啲嘅訊號就係用嗰個量度  
15 車速嗰個嘅裝置係擺出嚟嘅, 係咪呀? 嗰個訊號嘅來源就係由嗰個車嘅車速嗰  
16 個咪錶嗰度擺出嚟啲資料, 然後嗰個系統就係計到, 從呢啲嘅車速計到嗰個加  
17 速同埋減速嘅速度嘅, 係咪呢?

18 MR JAN KULIS: (經傳譯員) 係, 冇錯嘅, 正確嘅。

19 陳政龍先生: (經傳譯員) 好, Kulis 先生, 我哋就去睇下一個指標, 就係關於嗰  
20 個嘅傾側嗰個角度, 而家呢度就寫係 44 度嘅, 從一個技術嘅層面嚟講, 你知唔  
21 知道點解係用 44 度, 而唔係用其他嘅度數?

22 MR JAN KULIS: (經傳譯員) 我諗 44 度你就可以想像呢一架係一架運行之中嘅巴  
23 士, 佢唔係一個真正嘅數值, 即係根據我嘅諗法, 呢一個嘅配置就係表示喺呢  
24 一個傾斜角度嗰度係會發出警告嘅, 如果你想係因為呢個傾斜角度而被通知,  
25 你可以將呢個界限值係定喺嗰度嘅, 即係喺一個一般嘅營運操作嘅時候。

26 陳政龍先生: (經傳譯員) 另外一個參數, 講到呢個傾斜角度嘅, 就係呢個嘅配置,  
27 就係過速嘅配置, 喺呢一幅圖入面, 我哋可以見到有兩個嘅參數, 一個就係速  
28 度, 另外一個就係喺地方中嘅速度, 呢兩個都係每小時 75 公里嘅, 首先一個比  
29 較基本嘅問題, 睇下我係咪明白得清楚, 如果架巴士喺呢個情況之下係超過咗  
30 每小時 75 公里, 佢就會超過咗個界限, 係咪?

31 MR JAN KULIS: (經傳譯員) 係。

32 陳政龍先生: (經傳譯員) 咁有咩嘢唔同呢, 就係呢兩個嘅參數, 即係速度同埋嗰個  
33 地區嘅速度?

34 MR JAN KULIS: (經傳譯員) 呢一個嘅應用就係話有一個司機嘅反饋系統, 就可以

1 去處理一個嘅地方嘅，譬如你係可以喺就住嗰個地方去定立一啲唔同嘅限速，  
2 如果你想將佢配置，因為有一啲地方係 50，有啲地方係 70，如果你配置呢一個  
3 應用嘅方法係咁樣做嘅話，喺某一啲地方亦都係有唔同嘅速限制嘅，所以呢一  
4 個參數亦都唔同。當然你亦都需要再去配置其他嘅一啲嘅窗口或者係去輸入一  
5 啲有關嘅資料入到去嗰個系統度。

6 陳政龍先生：（經傳譯員）我對於你個答案嘅後半部係比較有興趣嘅。架巴士如果你  
7 係想利用呢一個嘅地方速度嘅參數，係首先要知道架巴士喺邊度，就先至話可  
8 以觸發呢一個嘅參數嘅，喺技術上係點樣做嘅呢？

9 MR JAN KULIS：（經傳譯員）呢一個就係而家喺我哋用全球定位系統嘅技術，喺莫  
10 札特同埋巴克盒嗰度都係嘅，而喺香港嘅情況，呢一個嘅全球定位系統嘅科技  
11 亦都係有供應嘅，呢一個嘅功能就可以幫助我哋知道嗰個位置，咁樣我哋知道  
12 嗰個訊號喺邊度。

13 陳政龍先生：（經傳譯員）呢一個嘅可以訂定唔同嘅速度嘅界限，喺唔同嘅地方，而  
14 家喺目前嘅系統嗰度係咪可以用得到呢？即係你供應畀香港呢啲公司嘅呢個系  
15 統嗰度，或者定話佢哋要加落去嘅呢，係咪一啲額外嘅嘢嚟嘅呢，如果佢哋用  
16 呢一個功能嘅話？

17 MR JAN KULIS：（經傳譯員）當然佢哋需要去配置或者同我哋合作，我哋要一齊去  
18 配置呢一啲嘅地方，就係我哋係可以去界定嘅，喺個系統入面係做得到嘅。

19 陳政龍先生：（經傳譯員）喺呢個情況之下，我哋亦都係同樣嘅速度就係兩個參數都  
20 係 75，有一啲咩嘢嘅目的，而家呢兩個嘅速度都係一樣嘅話，係點解呢？

21 MR JAN KULIS：（經傳譯員）我諗即係話呢一個嘅功能就係有喺呢一個特別嘅配置  
22 入面使用嘅。

23 陳政龍先生：（經傳譯員）喺香港，我諗你都知道我哋係一個非常稠密嘅城市，有好  
24 多嘅高樓大廈，你覺得嗰個穩定性或者嘅可靠性，即係關於呢個全球定位系統  
25 係其實喺香港係咪真係咁可靠呢？因為香港有更加多嘅高樓大廈，會唔會影響  
26 呢個全球定位系統嘅效率呢？

27 MR JAN KULIS：（經傳譯員）當然，我哋知道香港嘅環境係會有啲唔同嘅，所以係  
28 會有啲影響嘅，因為好多嘅高樓大廈，對於呢個定位嘅準確性係有啲影響嘅，  
29 而嗰個效率嗰方面，可能喺呢一個高度，以米數嚟到講，係會有一啲嘅錯誤  
30 嘅，比起一啲空曠嘅地方，但係我諗我哋嘅定位系統一般而言，對於客戶嚟  
31 講，都係可以接受，因為我哋都經過幾次嘅測試，同埋一啲精準嘅調校嘅。最  
32 近，我都係傾過呢一個問題，我哋亦都係進行過一啲嘅計算，令到我哋係可以  
33 去輸入嗰個位置、有關嘅數值，同埋如果個全球定位系統嘅訊號消失咗嘅時候  
34 我哋可以做啲咩嘢嘅。

35 陳政龍先生：（經傳譯員）你覺得有幾常見就係話全球嘅呢一啲嘅商業車隊佢哋係去

1 配置或者去採用唔同嘅一啲嘅速度嘅界限，就係當一架車進入一個較低限速嘅  
2 地方嘅時候，佢哋有幾經常使用呢？

3 MR JAN KULIS：（經傳譯員）根據我哋嘅經驗，佢並唔係咁廣泛被使用嘅，嗰啲營  
4 運商佢哋係會喺較高速嘅時候使用，巴士或者係貨車咁樣樣，佢哋都係唔想有  
5 一個太複雜嘅系統嘅，對於司機嚟講，可能會係太複雜。

6 羅先生：（經傳譯員）如果呢個系統係可以去訂定喺唔同嘅地方有唔同嘅限速嘅，就  
7 會係更加複雜㗎喇，你首先要去界限嗰個地方同埋嗰個界線，呢一個嘅簡單嘅  
8 介面就唔可以去處理唔同地方嘅唔同速度嘅界限嘅，係咪？

9 MR JAN KULIS：（經傳譯員）喺呢一個介面嗰度，你係可以去訂定兩個速度嘅界限  
10 嘅，然後係需要界定嗰個喺下一個窗口嘅地方，呢度係冇顯示出嚟嘅，但係喺  
11 嗰個另外呢一個配置嘅窗口嗰度，你就會見到嗰啲嘅細節同埋有關嘅設定以及  
12 嗰啲嘅配置，亦都係有某啲地方係可以有唔同嘅配置嘅。

13 羅先生：（經傳譯員）所以呢個系統就唔係特登設計做呢樣嘢嘅，就係我哋見到呢個  
14 介面就有見到呢一個嘅功能？

15 MR JAN KULIS：（經傳譯員）係。

16 陳政龍先生：（經傳譯員）如果我有一個數碼地圖係可以顯示出唔同道路上面嘅唔同  
17 嘅限速嘅，我可唔可以去使用佢就去加上埋而家呢一個嘅系統，就去配置、訂  
18 定唔同嘅時速嘅限制，就係可以為唔同嘅巴士嘅制訂嘅，定話喺你個系統入面  
19 呢樣嘢係不可能嘅呢？

20 MR JAN KULIS：（經傳譯員）係可能嘅，當然我哋係會需要一啲嘅軟件，佢哋係可  
21 以將嗰啲檔案去到編制佢，亦都係可以同嗰個地圖嚟到對接，而喺我哋嘅配置  
22 入面，我哋就可以進行一啲檔案嘅改變嘅。

23 陳政龍先生：（經傳譯員）所以呢一個嘅系統嘅限制只係兩個速度，唔係多種速度？

24 MR JAN KULIS：（經傳譯員）係嘅，呢個係目前嘅應用嘅限制，但係好容易就可以  
25 將佢擴展，去加埋第二啲嘅限制嘅，呢個只不過係個軟件嘅改變嘅嘢，但係而  
26 家暫時係並不支援嘅，因為佢嗰個速度嗰個頻度係比較低嘅。

27 陳政龍先生：（經傳譯員）而家我哋係聚焦講下而家你哋係提供畀香港巴士嘅一啲嘅  
28 儀器，我咁樣講㗎唔㗎呢，就係話如果呢一啲嘅界限係多過一個以上係被跨越  
29 咗嘅，呢個系統就會即刻嗰啲聲音同埋喺視覺嗰度就係會畀一啲反饋係畀嗰個  
30 司機嘅，係咪？即係例如有啲嗰嗰聲咁樣？

31 MR JAN KULIS：（經傳譯員）係。

32 陳政龍先生：（經傳譯員）呢度我有興趣嘅就係除此之外，即係除咗去警告嗰個揸緊  
33 巴士嘅司機之外，呢一啲嘅界限值，即係你哋公司提供呢一啲嘅儀器有一啲嘅  
34 界限值，佢哋有冇一個嘅能力就係話可以自動咁樣樣去發出一啲嘅報告，就係

1 話如果有人跨越咗呢啲嘅界限值，就係可以通知嗰啲去監察緊嗰個司機行為嘅  
2 人就係話而家呢一啲嘅界限值已經係被超過咗？

3 MR JAN KULIS：（經傳譯員）係，呢一個系統係可以嘅。

4 陳政龍先生：（經傳譯員）即係話可以自動出一啲報告嘅，係咪呀？

5 MR JAN KULIS：（經傳譯員）係。

6 陳政龍先生：（經傳譯員）巴士公司係咪需要一啲額外嘅軟件應用，先至可以去使用  
7 呢一個嘅自動產生報告嘅程序呢？

8 MR JAN KULIS：（經傳譯員）而家係直接支援嘅，喺呢個反饋嘅系統嗰度，而呢個  
9 司機嘅反饋系統就唔係話淨係嗰個儀器本身，而係一系列嘅應用程式，其中一  
10 啲嘅應用程式就喺呢個巴士上面嘅儀器使用嘅，但係另一方面，就係喺嗰個伺  
11 服器嗰度嘅，所以係可以做得到嘅，所以例如喺呢度講到超速嘅問題，你都係  
12 可以見到。

13 陳政龍先生：（經傳譯員）所以就係話嗰個最終使用者，即係個巴士公司想點樣樣去  
14 使用嗰啲數據，即係佢點樣使用去收集啲數據，係咪？

15 MR JAN KULIS：（經傳譯員）係。

16 陳政龍先生：（經傳譯員）除咗呢一啲基本嘅界限值，我哋喺呢一張圖入面所見到嘅  
17 之外，呢個系統會唔會提供其他嘅界限值係同安全駕駛有關嘅呢？

18 MR JAN KULIS：（經傳譯員）並唔係喺呢個嘅應用程式嗰度，即係話呢個司機反饋  
19 系統，但係我哋有其他嘅應用程式，係我哋可以上載去呢一啲嘅盒嗰度嘅，我  
20 哋就可以去量度任何嘅參數，喺技術上，我哋係可以去閱讀嘅，亦都可以去分  
21 析，我哋就可以去監察呢一啲重要嘅參數，然後可以開始監察。

22 陳政龍先生：（經傳譯員）我而家想去問另一個題目，就係關於呢個數據嘅傳輸，即  
23 係由呢個黑盒收集咗啲數據之後嘅傳輸係去另外一個地方嘅。首先我就想你揭  
24 去第 69 頁，喺你嘅文件入面應該係喺第 5 段嗰度嘅，你如果去到正確啲一頁，  
25 喺嗰頁嘅下面應該有一個羅馬數目字嘅(ii)字，藍色啲啲答案就由你公司提供  
26 嘅，就係講到嗰個系統去每一秒鐘收集嘅數據，然後就將呢個數據傳輸去到某  
27 一個嘅 FDP 伺服器，每三十秒鐘一次。我第一個問題係呢一個嘅訂定，即係三  
28 十秒鐘傳輸數據一次嘅訂立，呢個係咪有得選擇嘅呢，定話係呢個你間公司嘅  
29 硬件嘅一個限制嚟嘅呢？

30 MR JAN KULIS：（經傳譯員）呢個係選擇嚟嘅。

31 陳政龍先生：（經傳譯員）如果個最終使用者係想嘅話，佢就可以去校正嗰個系統，  
32 將啲數據係每秒鐘都送去嗰個伺服器嘅，係咪呢？

33 MR JAN KULIS：（經傳譯員）例如其實我會認為係會有一啲技術上嘅限制嘅，因為

1 嗰個傳輸嘅方法，即係嗰啲檔案嘅傳輸等等，佢哋需要一啲時間去檢查同埋去  
2 建立一個嘅連繫，然後上載嗰啲檔案，我諗呢個 FDP 係有一啲科技上嘅限制  
3 嘅，需要兩到三秒嘅，...

4 陳政龍先生：（經傳譯員）所以係會稍遲嘅，...

5 MR JAN KULIS：（經傳譯員）...我諗最低嘅使用值係 FDP 嗰度係呢個傳輸係應該  
6 係五秒嘅。

7 陳政龍先生：（經傳譯員）即係講到呢一個數據傳輸嘅速度，呢一個就係我對你嘅問  
8 題嘅認知，係咪？即係話係有一啲嘅限制？

9 MR JAN KULIS：（經傳譯員）係。

10 陳政龍先生：（經傳譯員）如果呢一個數據係可以傳輸同埋被接收嘅，可能係每五秒  
11 鐘一次，你嘅公司有冇提供有關嘅技術呢，無論係硬件或者軟件去支援一個實  
12 時嘅監察，即係監察呢一啲黑盒所收集到嘅數據？

13 MR JAN KULIS：（經傳譯員）有嘅。

14 陳政龍先生：（經傳譯員）睇下咁樣講啱唔啱喇，你公司提供一個黑盒，佢收集數據  
15 嘅，呢個系統就可以傳輸呢啲數據，例如每五秒鐘一次，去到每一個嘅伺服器  
16 嗰度，而我作為一個主管，我就坐喺我嘅辦公室入面，我點樣樣去監察個司機  
17 呢，喺實時嗰方面，我係咪需要一啲額外嘅軟件，定話你嘅公司就可以提供呢  
18 一啲嘅軟件嘅呢？

19 MR JAN KULIS：（經傳譯員）我哋係其實有兩個選擇嘅，我哋可以提供我哋嘅軟件  
20 解決方案，呢一個就係包括 Openmatics 嘅入門嘅門戶同埋一啲其他嘅伺服器  
21 上面嘅嘢，係另外仲有一個嘅選擇嘅。有一啲嘅顧客佢哋就係想得到嗰啲數  
22 據，佢哋有自己嘅資訊科技系統去做嘅。

23 陳政龍先生：（經傳譯員）而喺九巴嗰方面，佢哋就將佢--即係佢哋淨係用你哋嘅呢  
24 一啲提供嘅儀器呢，定話佢哋有用其他公司所提供嘅一啲嘅實時監察呢？

25 MR JAN KULIS：（經傳譯員）九巴佢哋有自己嘅資訊科技系統嘅，佢哋就係會處理  
26 佢哋收集到嘅數據嘅，但係我哋如果想嘅話，都可以改變嘅。

27 陳政龍先生：（經傳譯員）根據你嘅經驗，有幾常見呢，喺全世界嚟到講，就係話講  
28 到呢一啲商用車隊嘅管理，啲公司佢哋係實時咁樣樣去監察佢哋嘅司機行為  
29 嘅，有幾常見嘅呢？

30 MR JAN KULIS：（經傳譯員）我諗而家係頗為常見嘅，因為都係有安全同埋經濟嘅  
31 原因，啲公司係想監察住佢哋嘅司機嘅，有一啲嘅公司喺某一啲嘅地方可能咁  
32 樣係同法例係有衝突嘅，因為係要保--但係有時要保障司機嘅安全，喺西歐嘅  
33 一啲國家有時係並不容易嘅，要推行呢一個嘅監察系統，但係仍然係有咁嘅需  
34 求。

1 陳政龍先生：（經傳譯員）我而家繼續，去講另一個嘅主題，你較早前提及過或者其  
2 實我都提及過，一個叫 Vivaldi 嘅儀器，亦都係由你公司所提供嘅，呢一個嘅  
3 儀器最初係幾時推出市場嘅呢？

4 MR JAN KULIS：（經傳譯員）我諗 2017 年底或者 2018 年頭，我唔係好肯定，但  
5 係比較新嘅一個硬件嚟嘅。

6 陳政龍先生：（經傳譯員）係咪比起莫札特同埋巴克嗰個係先進定抑或完全不同呢？

7 MR JAN KULIS：（經傳譯員）呢個係完全唔同嘅，呢個 Vivaldi 就係唔同嘅，係  
8 作為係客戶用嘅車輛嘅，呢個就唔係畀巴士嘅。

9 陳政龍先生：（經傳譯員）就係畀啲客戶車嘅，唔係大巴士？

10 MR JAN KULIS：（經傳譯員）可以係商用車。

11 陳政龍先生：（經傳譯員）如果係咁嘅話，我會繼續講其他嘅題目。下一項我想講  
12 嘅，想問嘅問題嘅就係係咪可以用軟件分析嚟到去製作一個報告，就睇下嗰個  
13 司機嘅行為係可接受定不可接受，即係講到佢係咪安全嗰方面。我想問下，你  
14 哋公司有冇提供嗰個軟件，係有咁嘅功能就去評估一下，即係當然係根據黑盒  
15 所收集嘅數據，而有咁嘅功能，就可以係做下評估同埋編製一個報告，就係界  
16 定嗰個司機嘅行為是否可以接受？

17 MR JAN KULIS：（經傳譯員）係，係可以有嘅，得。

18 陳政龍先生：（經傳譯員）你話得係點樣做嘅呢？譬如話我係一間巴士營運商，我嚟  
19 搵你，就話我想搵啲嘢就可以係編製一個報告，想知道某一個司機佢個表現  
20 嘅，你會講啲咩畀我聽，就話畀我聽點樣做法嘅呢？

21 MR JAN KULIS：（經傳譯員）咁樣我就會話畀你聽我哋有咁嘅責任就係畀嗰個--  
22 話畀你聽我哋有嗰個係司機反饋嗰個程式嘅，同埋一啲係入門嘅--入門戶，咁  
23 你就可以睇番我哋剛才睇過嗰啲參數，你亦都可以得到嗰啲資料嘅，最終你就  
24 係可以做你自己個分析嘅，譬如話邊一位司機係有最多嘅警告、有冇超速等  
25 等，呢個係一個方案；另外亦都可以係認為我哋係淨係收到司機嘅反饋嘅話唔  
26 夠，想要啲更加先進嘅話，我哋可以幫你設計一個新嘅解決方案嘅，我哋可以  
27 將嗰個駕駛嘅數據嗰啲參數就係輸入、記錄，如果你想係有更加集中咁睇其他  
28 嘅數據同其他參數，亦都可以嘅，亦都可以據此嚟到進行分析，咁睇下你想點  
29 樣嘅，如果你--究竟你係想搵嗰個最佳嘅司機㗎，定抑或你係想睇嗰個係負  
30 面嗰方面嘅限制嘅，所以都係可以做得到嘅。呢個亦都係要睇番你有啲咩嘢嘅  
31 選擇，我哋有更多嘅解決方案嘅

32 陳政龍先生：（經傳譯員）講到嗰個軟件嘅功能，講到嗰個硬件，硬件純粹就係嗰個  
33 黑盒就係收集數據嘅，係咪呀？換句話講，就係如果想做頭先嘅嘢唔需要買新  
34 嘅機件，都可以係收到一個報告，編製到一個報告，係關乎一個司機嘅表現  
35 嘅，㗎唔㗎呀？

1 MR JAN KULIS: (經傳譯員) 唔需要。譬如話你係客戶, 你有嗰個黑盒嘅數據, 你  
2 想有啲新嘅功能, 我哋可以幫你做嘅, 用番同樣嘅硬件都可以做到嘅, 我哋就  
3 畀啲新嘅軟件你就得喇。

4 陳政龍先生: (經傳譯員) 根據你嘅經驗, 我想問, 喺世界上嚟講, 講到係管理商業  
5 嘅車隊, 營運商有幾常見係會用呢啲軟件嚟到編製報告去睇住嗰啲司機嘅行  
6 為, 睇住佢嘅表現呢?

7 MR JAN KULIS: (經傳譯員) 根據我嘅經驗, 喺西歐嘅國家, 相當之普遍嘅。另一  
8 方面, 有其他嘅地方佢哋都盡量係簡單嘅, 譬如話只係有嗰個司機嘅反饋嘅系  
9 統嘅, 就係咁, 就比較負面嗰方面嘅, 即係只係有一個警示, 因為就係司機都  
10 需要明白佢哋係畀人哋監察啲乜嘢嘅, 如果你用一啲好複雜嘅功能嘅話, 你亦  
11 都需要就係要培訓嗰啲司機嘅, 所以嗰個情況係根據不同國家嘅需要, 有不同  
12 嘅。

13 陳政龍先生: (經傳譯員) 你就剛才講, 就話西歐係普遍, 係咪呀?

14 MR JAN KULIS: (經傳譯員) 係。

15 陳政龍先生: (經傳譯員) 好喇, 除咗係司機嘅報告...

16 主席: (經傳譯員) 或者你未落去第二個報告之前, 你就話西歐國家相當普遍, 咁樣  
17 樣我想問, 佢哋用啲乜嘢嘅界限嚟到去監察司機嘅表現呢? 即係如果好似話幫  
18 啲司機係評分、打分, 去評估一下究竟佢係好司機、唔好嘅司機定抑或一般嘅  
19 司機。

20 MR JAN KULIS: (經傳譯員) 我可以畀啲例子你嘅, 譬如話喺我哋德國嗰度係一啲  
21 貨運嘅公司, 佢哋就會有嗰啲基本嘅參數嘅, 譬如話車速、加速、減速, 但係  
22 除此之外, 佢哋都會睇下佢用嗰個腳掣、剎車掣定抑或少用, 佢哋亦都會睇個  
23 個幾時會用嗰個剎車掣, 會唔會話佢哋就好放肆咁樣樣嘅揸車嘅方式嘅, 所以  
24 亦都可以嚟到去睇下佢哋揸成點嘅。

25 主席: (經傳譯員) 換句話講, 最基本就睇到個超速、加速、減速嗰個就係基本嘅型  
26 號, 係咪呀?

27 MR JAN KULIS: (經傳譯員) 係, 同埋空轉, 即係如果你將個引擎空轉, 你都喺度  
28 係浪費金錢嘅, 呢個係嗰個基本嘅型號嘅。除此之外, 就睇下你用嗰個剎車掣  
29 有冇係錫住嚟用咁樣樣。

30 羅先生: (經傳譯員) 講到三十秒嗰樣嘢, 你就話每三十秒先至傳輸嗰個數據, 係咪  
31 逐秒咁樣樣將過去嗰三十秒嚟到去傳送或者將每逐秒逐秒將過去嗰九秒嚟到傳  
32 輸, 定抑或點呢?

33 MR JAN KULIS: (經傳譯員) 係逐秒逐秒。

34 羅先生: (經傳譯員) 換句話講, 你逐秒逐秒咁睇到過去嗰三十秒, 之前嗰三十秒?

1 MR JAN KULIS：（經傳譯員）係呀。

2 陳政龍先生：（經傳譯員）Kulis 先生，我轉去下一個項目，呢個就關乎就係自動  
3 咁樣記錄司機嘅行車同埋休息時間。

4 MR JAN KULIS：（經傳譯員）係。

5 陳政龍先生：（經傳譯員）我嘅理解就係你哋公司有咁樣嘅硬件同埋軟件，就係讓司  
6 機嘅駕駛時間就係自動咁樣數據化咁樣樣係記錄低嘅，啱唔啱呀？

7 MR JAN KULIS：（經傳譯員）係，講得清楚啲，即係莫札特同埋巴克嘅盒我哋都會  
8 記錄到佢個駕駛時間。我哋有歐洲嘅一啲規定嘅，呢個就符合歐洲嘅法律  
9 嘅，如果係根據佢個個要求嚟到，就可以有咁樣嘅紀錄嘅。

10 陳政龍先生：（經傳譯員）讓我睇下我嘅理解啱唔啱，你公司所提供嘅就係提供個  
11 軟件，讓大家可以記錄司機嘅駕駛時間，呢一個就係根據你哋係用莫札特或者  
12 係巴克盒嚟到收集到嘅數據嚟到作一個紀錄，啱唔啱？

13 MR JAN KULIS：（經傳譯員）係。

14 陳政龍先生：（經傳譯員）呢個軟件嘅程式係咪叫做 Digi Tacho Download，英  
15 文，定抑或唔同呀？

16 MR JAN KULIS：（經傳譯員）其實我哋有一個軟件嚟到將佢下載個數據嘅，呢個  
17 係要喺車嗰度裝咗先得嘅，喺歐洲係好廣泛應用嘅，呢一個係車速記錄儀嚟  
18 嘅。我哋就係強制就係要嘅，就避免就係要人手去下載嘅，因為唔需要人手咁  
19 去下載咁大個——龐大車隊嘅數據嘅。

20 陳政龍先生：（經傳譯員）另外仲有一個駕駛時間嘅流動應用程式，係咪一樣呢？

21 MR JAN KULIS：（經傳譯員）呢一個係較為先進嘅，亦都係同個電子行車紀錄儀  
22 就係連繫咗嘅，但係佢個範圍，你可以喺呢度見到，就係睇到佢剩番嘅駕駛  
23 時間，因為你會好快知道邊個司機就係要有人替佢，邊個仲可以繼續駕駛等  
24 等。

25 陳政龍先生：（經傳譯員）如果係香港，我哋冇咁樣嘅記錄儀，即係冇好似西歐佢  
26 哋個一種嘅行車記錄儀嘅。香港係咪可以用呢一啲嘅電子記錄儀嚟到去記錄低  
27 司機嘅駕駛時間，而佢個做法就係透過呢個莫札特盒同埋呢個係巴克盒呢？

28 MR JAN KULIS：（經傳譯員）係，一般嚟講係可以嘅，我哋只需要係知道個司機  
29 嘅身分同埋個係速度咁樣嘅資訊，我哋好容易就知道佢揸車揸咗幾耐，我哋  
30 就可以自己就係進行個量度，即係計算一下佢係揸咗幾耐。

31 陳政龍先生：（經傳譯員）我想問呢個喺世界上嘅應用有幾廣泛呢？即係講到話係電  
32 子咁樣係記錄低司機嘅駕駛時間，呢個係常見定不常見呢？

1 MR JAN KULIS: (經傳譯員) 我只可以講歐洲嗰度, 因為佢有法例嘅規定, 但係北  
2 美嗰方面或者南美嗰方面, 就佢哋而家仲喺度考慮緊要唔要呢一樣嘢嘅, 我諗  
3 亞洲同埋太平洋呢方面都應該係咁, 都仲係喺度研究當中。

4 陳政龍先生: (經傳譯員) 唔該。繼續落去, 剛才講咗駕駛時間, 下一個想同你討論  
5 嘅課題就係嗰個你公司所提供嘅嗰個剎車嘅系統, 我知道, 我哋見過係有兩  
6 種, 你哋公司嗰個網站話你哋提供嘅兩個系統嘅, 一個叫 intarders, 另一個  
7 叫做綜合剎車控制系統。首先我就想請你解釋一下係咩嘢嚟嘅? 另外喺商用嘅  
8 巴士, 特別喺香港雙層巴士, 用唔用得著呢? 或者先請你係逐項逐項解釋一  
9 下, 首先係 intarder, 係咩嘢嚟嘅呢?

10 MR JAN KULIS: (經傳譯員) Intarders 係一個額外嘅剎車系統, 呢一個係嗰個  
11 波箱嘅系統之一嚟嘅, 譬如話我知道香港亦都係有啲巴士係用嘅, 呢個係一般  
12 都係喺商用車嗰度用嘅一個剎車系統, 係一個額外嘅裝置, 躉喺嗰個波箱嗰  
13 度, 將佢有係嗰個剎車嘅能力嘅。

14 陳政龍先生: (經傳譯員) 等我睇下我理解唔唔, 呢一個裝置就係用嗰個引擎嚟到  
15 去將架車拖慢, 定抑或我完全搞錯咗?

16 MR JAN KULIS: (經傳譯員) 唔係, 嗰個剎車嘅系統係喺波箱嗰度做嘅。

17 主席: (經傳譯員) 換句話講, 就係將佢轉落嗰個低波啲, 係咪呀?

18 MR JAN KULIS: (經傳譯員) 唔係去低波啲, 而係用另一種嘅波箱傳動嚟到進行個  
19 剎車, 但係嗰個原則係咁樣樣。

20 陳政龍先生: (經傳譯員) 我想問 intarder 係咪可以事後咁樣裝番喺現有嘅車上  
21 面, 定抑或一定喺製造架車嘅時候已經係造埋呢?

22 MR JAN KULIS: (經傳譯員) 呢個就係自動波嗰度嘅, 如果你係用呢種嘅傳動方法  
23 嘅話, 就可以嘅, 如果話你話事後裝番, 唔係話部部都可以。

24 陳政龍先生: (經傳譯員) Intarder 點樣樣去加強嗰個巴士嘅安全駕駛呢? 係咪會  
25 喺某啲情況之下幫嗰個司機就係更好咁剎車, 係咪可以有助安全駕駛呢?

26 MR JAN KULIS: (經傳譯員) 等我睇一睇, 畀我幾秒等我係搵番嗰個資料。

27 主席: (經傳譯員) 好, 慢慢。

28 MR JAN KULIS: (經傳譯員) Intarder 最好嘅好處就係話喺高速啲嘅時候, 嗰個  
29 制動都係大啲, 我要查番啲圖, 就係話如果你靠 intarder 嚟到去剎車, 你  
30 就嗰個剎車嘅能力就喺高速嘅時候都係大啲嘅, 就算係低速啲都可以, 或者我  
31 遲啲可以將我哋正式嘅文件同埋啲圖係交界大家睇嘅。

32 主席: (經傳譯員) 係, 好, 唔該, 有呢啲資料都好有用嘅。

1 MR JAN KULIS：（經傳譯員）我可以有畀有關嘅電腦檔案你嘅。

2 主席：（經傳譯員）好，唔該。

3 陳政龍先生：（經傳譯員）講到 intarder 點樣係運作，你剛才就應承畀一啲資料  
4 我哋，關於嗰個司機反饋嘅流動應用程式，你話亦都可以幫呢個司機出番個報  
5 告，好似成績表咁嘅，你可唔可以亦都係提供啲資料呢？

6 MR JAN KULIS：（經傳譯員）我可以將嗰個手冊係交畀你嘅，嗰個係應用程式嘅手  
7 冊都可以畀你嘅。

8 陳政龍先生：（經傳譯員）好，唔該。我同你問過嗰個 intarder，我就想問下另一  
9 個系統就係綜合剎車控制系統，首先想問下呢個係咩嘢嚟嘅呢？同埋點樣樣係  
10 有助於呢個安全駕駛呢？

11 MR JAN KULIS：（經傳譯員）呢個綜合剎車系統，我仲未搵到嗰個資料嘅，對唔  
12 住，你要畀機會、畀時間我去搵到個資料嘅，因為我嘅專長唔係呢面嘅。

13 陳政龍先生：（經傳譯員）如果你可以之後就係畀番啲資料我哋，就會好感謝你嘅。

14 MR JAN KULIS：（經傳譯員）係，不過麻煩你要畀啲時間我嘅。

15 陳政龍先生：（經傳譯員）冇問題。主席先生，我想問嘅問題係咁多。

16 主席：（經傳譯員）陳先生，我哋知唔知道香港邊一間嘅專營巴士公司係有 ZF 所提  
17 供嘅裝置同埋係邊一種？

18 陳政龍先生：（經傳譯員）係，Kulis 先生，首先講到嗰個提供畀香港巴士營運商  
19 嘅裝置，想麻煩你睇番呢個第 65 頁，我哋嘅文件夾裏面嘅第 65 頁，即係你哋  
20 嘅陳述書嘅第 1 頁嘅。

21 MR JAN KULIS：（經傳譯員）係。

22 陳政龍先生：（經傳譯員）你或者起碼你公司就喺呢個陳述書嗰度咁樣講，就話你哋  
23 公司就係有一個供應合約，就係同呢個九巴同埋龍運係有呢個供應合約嘅，就  
24 係供應係黑盒，分別係莫札特盒同埋呢個巴克盒嘅。我想問，兩者都有提供畀  
25 九巴同埋龍運定抑或係點呢？定抑或係每一間公司所得到你哋嘅供稱嘅裝置係  
26 略有不同呢？

27 MR JAN KULIS：（經傳譯員）就我所知，其實佢哋都係有呢一啲嘅裝置嘅，但係我  
28 唔好肯定，因為基本上我都唔係呢方面知好多。

29 陳政龍先生：（經傳譯員）你自己會唔會搵到啲資料，就係話有啲咩嘢嘅設備或者裝  
30 置就已經提供畀九巴同埋龍運嘅呢？

31 MR JAN KULIS：（經傳譯員）你話嘅意思即係話我係邊一種嘅硬件？

1 陳政龍先生：Yes.

2 MR JAN KULIS：（經傳譯員）就我所知，我哋都係有提供呢一個莫札特同埋同埋巴  
3 克盒嘅，就係因為之後嘅就係巴克就係代替咗個莫札特嘅盒嘅。

4 陳政龍先生：（經傳譯員）我可唔可以再問一問，我哋嘅文件夾就係第 52 頁嘅，喺  
5 你嚟講，就係我睇番，就係我哋個委員會寫畀你公司，就係 2018 年 5 月 25 號  
6 嘅，裏面有好多嘅附件嘅，我就想特別睇下附件 2，或者你可以睇一睇個個屏  
7 幕。

8 MR JAN KULIS：（經傳譯員）係，可以，睇到。

9 陳政龍先生：（經傳譯員）呢度個屏幕講到就係講到冠忠呢間公司就係營運巴士嘅，  
10 你呢度所描述嘅，你知唔知道呢？

11 主席：（經傳譯員）陳大...

12 MR JAN KULIS：（經傳譯員）我之前就有睇過呢一版嘅，但係呢個係肯定就係冠忠  
13 巴士就係我哋嘅客戶嚟嘅，佢哋亦都係用緊呢一個嘅遙訊系統嘅--遠程通訊系  
14 統。

15 主席：（經傳譯員）如果我哋就咁睇膳本嘅時候，我哋就唔係好知道發生咩嘢事，不  
16 如或者你讀出嚟，好唔好呀，呢一段？

17 陳政龍先生：（經傳譯員）好呀。呢個就係關於冠忠巴士，呢個係佢哋嘅被提供嘅一  
18 啲嘅系統，喺呢個最後一--「我哋就係話有一個度身訂造嘅呢一個嘅應用系統  
19 就係代替嗰個黑盒嘅，我哋而家就係有收集好多唔同嘅資料，呢個  
20 Openmatics 就係已經係加入咗我哋嘅巴士到站嘅宣布系統，所以我哋啲嘅乘  
21 客就有更多更新嘅資料，我哋就可以係加強我哋嘅安全性同埋減省成本，我哋  
22 希望能夠好快就移去呢個 Openmatics 第 2 個平台，我哋嚟緊就會用更多關於  
23 Openmatics 嘅方案，我哋亦都係考慮緊用緊啲我哋嘅車廠嘅管理，用更多嘅  
24 車載嘅系統，尤其是當啲嘅車輛離開同埋駛入啲車廠嘅時候。」你可唔可以講  
25 一講冠忠嗰度，你係畀咗啲咩嘢系統佢哋呢？

26 MR JAN KULIS：（經傳譯員）我哋就係應該畀巴克盒佢哋嘅同埋一啲嘅硬件，同埋一  
27 啲電線等等，同埋一啲嘅軟件嘅。

28 許先生：（經傳譯員）證人其實佢係比較負責嗰個技術嗰方面，而喺商業嗰個生意嗰  
29 方面，其實佢未必係好能夠畀好多資料，陳大律師就要考慮下究竟應唔應該繼  
30 續問。

31 主席：（經傳譯員）我就唔係好明白嗰個技術同埋生意嗰方面有咩嘢分別，嗰個問題  
32 好簡單，就係話你就話你越嚟越--你會將佢係去做呢一個 Openmatics 第 2.0  
33 嘅平台，呢個咩嘢意思呢？

34 MR JAN KULIS：（經傳譯員）呢個會係新嘅平台，我哋會希望就有一個新嘅方案，

1 我哋之前個方案係五、六年之前嘅設計㗎喇，嗰啲嘅科技已經係一啲舊嘅科技  
2 㗎嘅，所以 2.0 嗰個方案就會有一啲新嘅伺服器嘅方案㗎嘅。

3 陳政龍先生：（經傳譯員）唔該晒。我睇下我有冇理解正確，如果係講緊硬件，係提  
4 供畀香港嘅巴士營運者嘅時候，你就係講緊巴克同埋莫札特盒，就係會收集資  
5 料嘅、數據嘅，嗰啲數據之後點樣用，係一個關於軟件，而唔係一個硬件嘅問  
6 題，係咪呀？

7 MR JAN KULIS：（經傳譯員）正確。

8 陳政龍先生：（經傳譯員）而你嘅公司亦都係有開發某一啲嘅軟件，就可以好好利  
9 用，就莫札特同埋巴克個盒所收集嘅數據嘅，係咪呢？

10 MR JAN KULIS：（經傳譯員）正確嘅。

11 陳政龍先生：（經傳譯員）你知唔知道你間公司係有冇提供一啲嘅軟件去分析數據，  
12 你嘅公司有冇提供嗰啲嘅軟件畀香港巴士公司？如果係，係邊一啲軟件係被提  
13 供嘅，你知唔知道？

14 MR JAN KULIS：（經傳譯員）我相信--就我所知，我哋就有提供軟件畀九巴嘅，  
15 但係我哋就而家就係同冠忠磋商緊就係開發一啲更好嘅方案去做一啲分析嘅，  
16 譬如話特別係關於司機嘅行為同埋其他嘅參數，例如話一啲其他嘅--冇話方  
17 面。

18 陳政龍先生：（經傳譯員）多謝，主席，我所問嘅就係咁多。

19 羅先生：（經傳譯員）呢度就係講 Openmatics 2.0 平台，呢個係一個硬件㗎，還  
20 是係軟件嘅應用程式呢？

21 MR JAN KULIS：（經傳譯員）呢一個係軟件嘅應用程式嘅平台㗎嘅，係喺伺服器嗰  
22 度嘅。

23 羅先生：（經傳譯員）所以呢個係一個軟件嘅平台，就會可以係幫你去分析一啲已經  
24 收集咗嘅數據，係作唔同用途嘅，係咪？

25 MR JAN KULIS：（經傳譯員）正確嘅。

26 主席：（經傳譯員）多謝 Mr Kulis，多謝你嘅幫助，呢個對我哋嚟講，都有好大  
27 嘅教育意義，我哋希望能夠將你啲資料就係好好咁嘅去利用，多謝你接受我哋  
28 嘅邀請去協助我哋嘅調查嘅工作嘅。

29 MR JAN KULIS：（經傳譯員）係，好，好，唔該晒。

30 許先生：主席，就係 ZF，我哋最後有一個嘅-- ZF，我就特別想係多謝呢個委員  
31 會，其實我哋幫手，我哋就會係自發性就會係幫助呢一個嘅委員會，我哋就係  
32 致力係能夠係改善香港嘅道路安全嘅，同埋世界嘅道路安全，我哋希望呢一個

1           Mr Kulis 提供嘅資料就會有幫助，我哋就會繼續同呢一個秘書處緊密合作嘅。  
2   主席：（經傳譯員）好多謝你剛才嘅陳述，多謝你就係承諾會繼續去幫助我哋嘅。Mr  
3           Kulis，多謝你嘅協助。我哋而家嘅程序就係完結，多謝晒，多謝。

4   MR JAN KULIS：（經傳譯員）唔該晒。

5

6   2018 年 7 月 14 日

7   下午 4 時 28 分聆訊押後

Monday, 16 July 2018

(9.07 am)

EVIDENCE FROM COMMUNITY FOR ROAD SAFETY REPRESENTATIVES:

MR KWONG TSE HIN, JULIAN AND DR KOU SIO KEI.

CHAIRMAN: Good morning.

This morning, we thank the representatives of the Community for Road Safety for responding to our invitation to assist the Committee with evidence, and I'm going to ask counsel, Ms Wong, to begin asking questions.

Examination by MS WONG

MS MAGGIE WONG: Thank you, Mr Kwong and Dr Kou for coming.

I will be asking questions as counsel on behalf of the Committee in relation to the safety-related measures for franchised bus service. May I start with some introduction about your organisation.

From your submission, if we look at the letter from Mr Kwong dated 28 March 2018 in the MISC-2-bundle, page 754.

This is a letter addressed to you dated 28 March 2018 inviting you to make submissions, and we can see at page 757, in the first paragraph in your reply to the letter you stated that:

"The Community for Road Safety is an organisation dedicated to road safety since 2004."

1           And your information, the information on the  
2           organisation is also set out in the TD-5 bundle at  
3           page 1699 to 1670. At the bottom it has set out the  
4           information including the background, the names, the  
5           posts held by different persons.

6           Can you confirm those persons listed there are the  
7           same as of to date. You may need to go over to the next  
8           page as well.

9   MR JULIAN KWONG: Yes. That is the case. Except that some  
10          of the members are not that active. I need to confirm  
11          their interest to be members anymore.

12   MS MAGGIE WONG: Yes. And Mr Kwong, you also provided your  
13          curriculum vitae --

14   CHAIRMAN: Before we get to that, can you give us some  
15          background about your committee, how long have you been  
16          in existence, how often do you meet? What is your  
17          purpose?

18   MR JULIAN KWONG: Yes. Chairman.

19          Well, the organisation is actually a small  
20          organisation. We are interested in road safety issues,  
21          and we want to have a group of people, actually a small  
22          group of people, and working together, and giving  
23          recommendations to government, and organising  
24          activities, for example organising forums, doing some  
25          campaigns, and that is it.

1           We are not a very -- we are not an organisation  
2           which are like a charity, or a major organisation, but  
3           we can -- we would sit together from time to time and  
4           also we communicate through e-mails.

5   CHAIRMAN:   What is your legal status?

6   MR JULIAN KWONG:   Legal status is a society, registered  
7           society.

8   CHAIRMAN:   When were you registered first?

9   MR JULIAN KWONG:   2004.

10   CHAIRMAN:   Thank you.

11           How often does the committee meet, if there is  
12           a pattern?

13   MR JULIAN KWONG:   We do not meet very often, we communicate  
14           more through e-mails.

15   CHAIRMAN:   So you circulate papers by e-mail?

16   MR JULIAN KWONG:   Yes.

17   CHAIRMAN:   Do you have a convener?

18   MR JULIAN KWONG:   We don't have a convener as such.   Sorry,  
19           do you mean a convener for --

20   CHAIRMAN:   Somebody who organises matters?

21   MR JULIAN KWONG:   Usually it is myself organising the  
22           matters.

23   CHAIRMAN:   And the composition of the committee, if that's  
24           the right word, how is that determined?   The range of  
25           skills that you bring to focus on the issues, how did  
26

1           you come about choosing that?

2       MR JULIAN KWONG: Chairman, well, the composition, we do not  
3           specifically select people who would contribute to our  
4           ideas, but basically people or friends of our committee  
5           members who are interested in this matter, and we  
6           welcome them, especially if they come from a diverse  
7           background in road and traffic. And therefore, you can  
8           see that our members usually consist of professionals,  
9           with interest, or a background in road traffic, or  
10          injuries.

11       CHAIRMAN: Can you just help us with a thumb sketch of the  
12          range of skills that your members have?

13       MR JULIAN KWONG: Yes. The skills we have up to date,  
14          include civil engineering, traffic engineering, drivers  
15          training, trauma surgeon, and also the landscape  
16          architect.

17       CHAIRMAN: That being relevant to road design?

18       MR JULIAN KWONG: I would say so.

19       CHAIRMAN: Yes. Now I interrupted counsel who was asking  
20          you to help us with your own CV.

21                Ms Wong.

22       MS MAGGIE WONG: Yes. If you look at MISC bundle 2,  
23          page 820-4, Mr Kwong, you set out your own curriculum  
24          vitae setting out your education, membership and road  
25          safety training and also the ongoing projects from 2008

26

1           until present.

2           If we could look at your education, it is set out  
3           there that you have a civil and environmental  
4           engineering degree, and then you also have a number --

5   CHAIRMAN: That's from the University of Newcastle?

6   MR JULIAN KWONG: That's true.

7   CHAIRMAN: When were you awarded that degree?

8   MR JULIAN KWONG: Chairman, the first degree in civil and  
9           environmental engineering was awarded in 1986.

10   CHAIRMAN: Thank you.

11   MS MAGGIE WONG: And then you have, a believe is that  
12           a master's degree studying fatal road traffic injuries  
13           at the Faculty of Medicine, University of Hong Kong.

14   MR JULIAN KWONG: Yes, that's true. That was awarded in  
15           2004.

16   MS MAGGIE WONG: 2004. And I can see that you also have  
17           a Highways England Approved Certificate of Competency In  
18           Road Safety Audit. Can you elaborate what is this road  
19           safety audit?

20   MR JULIAN KWONG: Yes, road safety audit is a procedure  
21           initiated in 1988 in the United Kingdom. And now it has  
22           become a very well adopted procedure in many countries.  
23           The idea is to have an independent audit team looking at  
24           the design of road projects. Traditionally the design  
25           of road projects will be the responsibility of

26

1 authorities and consultants, or designers, but with road  
2 safety audit, we conduct independent audit giving  
3 recommendations to the project clients, and also to the  
4 consultant.

5 For the Certificate of Competency, that is  
6 a certificate enabling me to be able to participate in  
7 highways projects for the Trans-European road network.  
8 That is projects funded by the EU and also projects in  
9 many other countries.

10 MS MAGGIE WONG: Yes.

11 CHAIRMAN: What is the process by which you obtained that  
12 certificate?

13 MR JULIAN KWONG: That certificate requires attendance of  
14 training, and also the requirement of evidence that  
15 I have participated in an adequate number of audits.

16 CHAIRMAN: So it is a combination of training and  
17 experience?

18 MR JULIAN KWONG: That's true.

19 CHAIRMAN: Where was the training conducted?

20 MR JULIAN KWONG: That training was conducted in London.

21 CHAIRMAN: At what institution?

22 MR JULIAN KWONG: That was awarded by a training company  
23 called TMS Consultancy.

24 CHAIRMAN: Is that an acronym for something? TMS?

25 MR JULIAN KWONG: I'm not aware of that. It is just TMS,  
26

1           and they give that certificate of competency of course  
2           with the accreditation of Highways England, and Highways  
3           England is the authority responsible for the highway  
4           network in the United Kingdom.

5   CHAIRMAN:   Thank you.

6           Yes, Ms Wong.

7   MS MAGGIE WONG:   We can see at the road safety training,  
8           there are four courses or four trainings that you have  
9           undertaken.   The first is road safety two-week training  
10          in France.   Was this course undertaken in France or Hong  
11          Kong?

12   MR JULIAN KWONG:   That course took place in Paris, France.

13   MS MAGGIE WONG:   When was that?

14   MR JULIAN KWONG:   That was in the year of 2009.

15   MS MAGGIE WONG:   The two-week training, can you briefly tell  
16          us what it entails.

17   MR JULIAN KWONG:   That training entailed all aspects of road  
18          safety, including policies in the European Union and  
19          also in France, that also include most of the subjects  
20          of road safety such as the highway safety on major  
21          highways, safety in urban areas, traffic calming, but  
22          also in road safety audit.

23   MS MAGGIE WONG:   Yes, and the second one is the Advanced  
24          Road Safety Engineering.   It is a five-day training in  
25          UK by TMS.   When was that?

1 MR JULIAN KWONG: That was in 2007.

2 MS MAGGIE WONG: Is that the course that you have taken for  
3 the Certificate of Competency In Road Safety Audit?

4 MR JULIAN KWONG: The history was that by year 2007  
5 I started attending courses in road safety engineering  
6 in order to be able to conduct road safety audit. And  
7 after I have attained adequate experience in road safety  
8 audit, in 2016 I attended the course to obtain the  
9 certificate of competency.

10 MS MAGGIE WONG: Yes. And the third one is the  
11 International Road Assessment Program training for five  
12 days. Who organised this programme?

13 MR JULIAN KWONG: The training was organised by iRAP, that  
14 is the International Road Assessment Program, which is  
15 a charity based in the United Kingdom, which is now very  
16 well known in the area of road safety throughout the  
17 world.

18 MS MAGGIE WONG: Lastly is the Road Safety Audit that you  
19 mentioned, training by TMS. When did you have that  
20 training?

21 MR JULIAN KWONG: That was the training in 2016 preceding  
22 the award of the Certificate of Competency. That is the  
23 same course.

24 MS MAGGIE WONG: Yes.

25 Mr Kwong, if you look further down, it set out the  
26

1 ongoing projects that you are now undertaking.

2 And one of them relates to review of potential  
3 roadside safety hazards in the Hong Kong road network,  
4 an investigation by the Highways Department. Can I take  
5 you to a document to see what this is about.

6 This is in bundle TD-5, page 1653.

7 If we look at (f), it set out -- it is a paper  
8 submitted by the Transport Department in May 2018  
9 attached to the Transport Department's letter dated  
10 28 May 2018. This view stated that:

11 "The TD and Highways Department have commissioned  
12 a consultancy study on 'review of potential roadside  
13 safety hazards in the Hong Kong road networks  
14 investigation' in mid May 2018 to identify roadside  
15 safety hazards of all public roads in the Territory in  
16 a thorough and systematic approach taking into account  
17 the latest overseas technology, through which suitable  
18 road safety enhancement measures would be formulated."

19 And the consultancy brief, and the scope coverage  
20 and objective of the study is at attachment VI, which we  
21 can find at page 1685.

22 If we look further down, it sets out the objective  
23 of this project.

24 Firstly, Mr Kwong, are you involved in this very  
25 project?

26

1 MR JULIAN KWONG: Yes. I have been involved since mid-May  
2 this year.

3 MS MAGGIE WONG: What is your role in this project?

4 MR JULIAN KWONG: My role is road safety team leader under  
5 the main consultant.

6 MS MAGGIE WONG: Under the main consultancy --

7 MR JULIAN KWONG: Which is AECOM.

8 CHAIRMAN: Sorry, the main consultancy is?

9 MR JULIAN KWONG: The main consultant for this project is  
10 AECOM.

11 CHAIRMAN: Thank you.

12 MS MAGGIE WONG: According to this agreement, if we look at  
13 2.3, one of the tasks to look at is:

14 "To minimise the risk of the existing roads, TD and  
15 [Highways Department] have been jointly conducting road  
16 safety check for identifying and rectifying potential  
17 roadside safety hazards on existing roads with speed  
18 limit 70 [kilometres an hour] or above."

19 So is the scope of the project limited to roads with  
20 a speed limit 70 kilometres per hour or above?

21 MR JULIAN KWONG: Yes.

22 Chairman, as regards to this project, due to the  
23 terms of my agreement with the main consultant, I am not  
24 able to comment on the project in this hearing.

25 MS MAGGIE WONG: Thank you.

26

1 Can you tell us, when is it likely that the review  
2 will be completed, or the expected completion date? Is  
3 there a fixed completion date for this review?

4 MR JULIAN KWONG: Chairman, this consultancy, similar to any  
5 work I'm doing, has a limited time. But regarding the  
6 exact programme, I think I'm not in a position to  
7 provide here.

8 CHAIRMAN: No doubt the Transport Department are, and we  
9 will ask them.

10 MR JULIAN KWONG: Thank you, Chairman.

11 MS MAGGIE WONG: Now, Mr Kwong, your Community for Road  
12 Safety organisation also has a website posting articles  
13 that your members have worked on from time to time  
14 regarding road safety; is that correct?

15 MR JULIAN KWONG: Yes. That's true.

16 MS MAGGIE WONG: Throughout the years, your organisation has  
17 written no less than 11 articles, I believe, to the  
18 government, setting out your views on various issues  
19 relating to road safety.

20 If I may take you to, just, for example, TD-5,  
21 page 1700.

22 CHAIRMAN: What are we being taken to?

23 MS MAGGIE WONG: This is a submission by the Transport  
24 Department in May 2018, annex 1, submitted in May 2018  
25 annexed to the Transport Department's letter dated  
26

1 28 May 2018.

2 It set out --

3 CHAIRMAN: Where is the letter dated 28 May?

4 MS MAGGIE WONG: The 28 May letter is in TD-1 bundle.

5 CHAIRMAN: Perhaps you could just describe the letter. Is  
6 the letter a letter to this Committee?

7 MS MAGGIE WONG: Yes. This is a letter from Transport  
8 Department to this committee, and it was a supplementary  
9 written submission. And the reference is at TD-1,  
10 page 361. The submission followed on from the oral  
11 hearings held on 7 and 8 May 2018.

12 CHAIRMAN: So you are taking us now to an annex to this  
13 submission and we find that at which page?

14 MS MAGGIE WONG: Page 1700.

15 CHAIRMAN: Of TD-5?

16 MS MAGGIE WONG: Yes.

17 CHAIRMAN: Thank you.

18 MS MAGGIE WONG: And if you look at paragraph 8, it set  
19 out -- I believe there is at least 11 submissions or  
20 comments that your organisation made to either the LegCo  
21 Panel on Transport or the government, voicing our your  
22 views or comments in relation to the public transport  
23 strategy study or the renewal of licence of KMB and  
24 Citybus. If we go over to page 1701 as well, it sets  
25 out the subjects and also the reference links in the  
26

1 LegCo.

2 Can you confirm that?

3 MR JULIAN KWONG: Yes.

4 MS MAGGIE WONG: Now --

5 CHAIRMAN: If you wish to follow this in paper form, the  
6 lever arch box files are behind you.

7 MR JULIAN KWONG: Okay.

8 CHAIRMAN: Then you can always look ahead or behind if you  
9 need to do that.

10 MR JULIAN KWONG: Thank you, Chairman.

11 MS MAGGIE WONG: In all these articles, I think earlier on  
12 you have been asked questions about the circulation of  
13 papers and the drafting of documents, and you informed  
14 us, normally it is by e-mail. I notice in all the  
15 submissions it was written relatively close to each  
16 other. For example the 2016, if you see on this page,  
17 on comments on the fire alarm system, and also in the  
18 same year, 14 April 2016, on the public transport  
19 strategy study, and also on 16 June 2016 on the renewal  
20 of licence for KMB and Citybus.

21 Now, in all the submissions, how would you  
22 circulate, or how would you draft the comments, or how  
23 would your members discuss about the issues and come up  
24 with the paper submitted to the Administration or the  
25 LegCo?

26

1 MR JULIAN KWONG: Yes. Usually for these papers, we would  
2 circulate to parties which we think are important. For  
3 example, we started off by sending the paper to  
4 government, to Transport and Housing Bureau, and later  
5 we started sending letters to the LegCo. But in terms  
6 of circulation, we are not systematic as such, in that  
7 we would not usually circulate to too many parties or to  
8 the media. It depends on whether the subject has been  
9 raised in LegCo or has been raised by government.

10 For the compilation of these papers usually that is  
11 myself. If any other members are interested they are  
12 welcome to participate.

13 In terms of the discussions, sometimes, admittedly,  
14 I have not been able to discuss with the other members  
15 in time, but say for the recent report, then we have  
16 been discussing the paper.

17 Sometimes the papers are discussed in advance but  
18 sometimes I can only afford to send to them afterwards  
19 for comments and if there are more comments and we can  
20 resolve them, then we can -- the idea is that we can  
21 supplement the information to the parties we were  
22 sending to.

23 MS MAGGIE WONG: Thank you.

24 Mr Kwong, you just mentioned the submission that you  
25 have submitted. I'll take you to this document first,

1 it is MISC-2-bundle, page 782.

2 This is a report on bus safety submitted by your  
3 organisation in April 2018, in reply to the Committee's  
4 request.

5 And your submission is separated into a summary of  
6 five points, and if we look at page 783, it sets out  
7 five topics: bus operation, safety risks, current  
8 efforts and concerns, and comparison with overseas  
9 practices, and lastly conclusion and recommendations.

10 So can you confirm this is a collective project of  
11 all the members of your organisation?

12 MR JULIAN KWONG: I would like to explain it like this. Due  
13 to the time constraint to prepare this document, it is  
14 actually me drafting the document, and for some  
15 particular issues I did consult one or two members.

16 But after the submission of this report,  
17 I circulated this report to all members for comments.  
18 In case they wished to make any additional suggestions  
19 or if they do not agree with some points, then I would  
20 still have a chance to supplement information to the  
21 Independent Review Committee.

22 MS MAGGIE WONG: Yes. Mr Kwong, if I may take you to your  
23 paper at page 785, it sets out the recommendation, in  
24 the first paragraph:

25 "The 'safe System' approach should be adopted to  
26

1 cover the interactions among vehicle factors, road  
2 factors, human factors and management."

3 So you identify four factors as essential to your  
4 safe system approach; is that correct?

5 MR JULIAN KWONG: Yes. That's true. In the document.

6 I would like to also add that of course the safe  
7 system would also cover policies, which in the report  
8 I have opted not to put in, for simplicity reasons.

9 MS MAGGIE WONG: Yes.

10 If we look at the first factor that you mentioned,  
11 it is the operational protocols and operating systems.

12 You stated:

13 "The most important measure is the formulation of  
14 new operational protocols for safe driving, and this  
15 protocol should cover speed, acceleration,  
16 deceleration."

17 And you set out two primary categories. First is  
18 the general protocol and the route-specific protocols.

19 Could you elaborate on what you meant by general  
20 protocol, as to what factors you would take into account  
21 in considering general protocols.

22 MR JULIAN KWONG: Yes. Without an insider knowledge of what  
23 at the moment the bus companies are doing with their  
24 rules for driving, among the drivers, we have been  
25 looking at the issues from the safe system approach,

26

1       that we think that the driving of bus would need more  
2       regulations or control, and I put it as general protocol  
3       here meaning that, for example, driving a bus on a busy  
4       urban street, what kind of behaviour, what kind of  
5       speeds should be adopted.

6             And also another example is, for example, driving  
7       along a highway, I mean what kind of speeds do we expect  
8       from the drivers, and that could be different from the  
9       legal speed limit. Because as a road engineer, I'm well  
10      aware that road designs are very much diversified, and  
11      we cannot rely entirely on speed limit or what we call  
12      design speeds. On urban streets, for example, there are  
13      always a lot of interactions between traffic and  
14      pedestrians, and therefore we need far more stringent  
15      control on speeds and also on acceleration and  
16      deceleration.

17            And that is what I meant by general protocols, that  
18      I'm not talking about a specific street, but any busy  
19      urban street.

20   MS MAGGIE WONG: Yes.

21            If we look for the moment at page 817, first, in  
22      this MISC-2 bundle. Page 817. If you look at the top,  
23      it sets out what you consider as the precise criteria to  
24      be further developed in considering general operational  
25      protocols. You have divided it into four criteria. The  
26

1 first is the urban areas; second is the high-speed road;  
2 third is the narrow, hilly roads; and lastly, the  
3 cyclists.

4 Now on the urban areas, you advocate a certain speed  
5 limit for urban streets as 40 kilometres per hour for  
6 urban streets in general. Then you advocate for busy  
7 urban streets 30 kilometres per hour maximum.

8 Can you tell us the logic behind this 40 kilometres  
9 per hour speed limit that you are advocating?

10 MR JULIAN KWONG: Yes. Bearing in mind that these criteria  
11 are recommendations at the moment, and subject to  
12 further investigation, the idea of having lower speed,  
13 lower speed than the legal speed limit on urban streets  
14 is based on the safety criteria, safety being the  
15 conflict between traffic and pedestrian, and also  
16 between one vehicle and another vehicle.

17 On urban streets, the major risks of conflict come  
18 from vehicle and pedestrians, and also vehicles at  
19 junctions.

20 Looking at the speeds, we need to take into account  
21 many criteria. For example, how quickly can a driver  
22 decelerate, that is to stop, in order to avoid an  
23 accident? We also need to look at the tolerance of  
24 a human being, for example an elderly person; what kind  
25 of speed can he still tolerate before sustaining serious  
26

1 injuries or fatalities?

2 These are very important considerations when we talk  
3 about speeds in an urban area.

4 And we looked at many overseas reports, and also the  
5 trend in many countries throughout the world, that on  
6 busy urban street there has been a trend to adopt lower  
7 speed limit, and for example 30 kilometres per hour in  
8 a dense, urban area.

9 Some countries adopt 40 kilometres per hour speed  
10 limit, some only 30, some both 30 and 40.

11 We also need to look at the --

12 CHAIRMAN: Which countries do have in mind?

13 MR JULIAN KWONG: Yes. Chairman. I would like to explain  
14 that in Europe, in European countries, starting from the  
15 Netherlands, for urban streets and residential streets,  
16 30 kilometres an hour; in Scandinavian countries, that  
17 is also the case. But in Norway, for example, and  
18 Denmark, in addition to 30 kilometres per hour they also  
19 have 40 kilometres per hour for the more major streets.  
20 In Australia it is quite common nowadays to have  
21 40 kilometres per hour, for example throughout the  
22 central business district of Sydney.

23 MS MAGGIE WONG: Mr Kwong --

24 CHAIRMAN: And the United Kingdom?

25 MR JULIAN KWONG: Yes, Chairman. In the United Kingdom they  
26

1 have been adopting the 20 miles per hour. That is  
2 equivalent to 32 kilometres per hour. But in the United  
3 Kingdom they do not have the equivalent of 40 kilometres  
4 per hour. The next step would be 30 miles per hour,  
5 equivalent to 48 kilometres per hour speed limit.

6 CHAIRMAN: And this is the subject of a paper, to which you  
7 referred, from the Department for Transport  
8 in January 2013, guiding local authorities about the  
9 applicability of such protocols?

10 MR JULIAN KWONG: Yes, Chairman. In 2013, and actually  
11 starting from 2011, we have been advocating this idea as  
12 recommendations.

13 CHAIRMAN: Yes, but I'm referring in particular to the UK  
14 Department of Transport's paper entitled "Setting Local  
15 Speed Limits". That is when it was formulated, and has  
16 been adopted in various cities, in particular in London,  
17 in multiple areas; am I correct?

18 MR JULIAN KWONG: Chairman, yes. In the United Kingdom  
19 actually the 20 miles per hour speed limit zone has  
20 a long history. Longer than 2013. But in 2013 the  
21 document which you mentioned entitled "Setting Local  
22 Speed Limit", has been updated. That document, as far  
23 as I understand, further confirmed the concept of  
24 adopting 20 miles per hour speed limit. Thank you.

25 CHAIRMAN: Thank you.

26

1 MS MAGGIE WONG: Mr Kwong, you mentioned earlier on about  
2 advocating this speed limit. If I may take you first to  
3 one of the articles --

4 CHAIRMAN: Before we do that. You are describing this as  
5 general protocols that are recommended. I'm looking at  
6 the top of page 817. Who do you envisage is responsible  
7 for recommending such protocols?

8 MR JULIAN KWONG: Chairman, during the compilation of this  
9 document we have not worked out in depth who should be  
10 responsible, but our recommendation is that there should  
11 be a general operation protocol, and that is not a legal  
12 speed limit, and that is a recommendation of having  
13 internal control by the bus company, or as imposed by  
14 government.

15 The idea is that changing speed limit takes time,  
16 and that requires the legal process, and also change of  
17 the way, how speed limits are defined in Hong Kong. But  
18 we think that changing the protocols or changing the  
19 driving rules within the bus company can be much faster.  
20 Thank you.

21 CHAIRMAN: We have received evidence that after the accident  
22 on the Tai Po Road on 10 February of 2018, by  
23 27 April 2018 the speed limit had been changed from  
24 70 kilometres an hour to 50 kilometres an hour. So in  
25 some circumstances it doesn't take all that much time.

1 MR JULIAN KWONG: Chairman, yes, you are right. I read from  
2 the news that for that section of Tai Po Road, the speed  
3 limit has been reduced.

4 As regards our proposal to have 30 kilometres per  
5 hour, or 40 kilometres per hour, that is the new concept  
6 where the speed limit is applied as a zone, what we call  
7 the speed limit zone, and that means that speed limit  
8 will be applied in a very wide area in the urban areas.

9 There are two issues here, the first one being that  
10 according to the current design manual, actually  
11 30 kilometres per hour speed limit is not encouraged.  
12 The second point is that probably the 40 kilometres per  
13 hour speed limit is not yet in the Road Traffic  
14 Ordinance, so we cannot apply that directly, but for  
15 this point I think I need to further verify.

16 CHAIRMAN: You are referring to the Guidelines on Speed  
17 Limits in volume 6 of the Transport Planning And Design  
18 Manual, are you not?

19 MR JULIAN KWONG: Yes.

20 CHAIRMAN: That's to be found at our bundle at 820-57, just  
21 to remind you. You have quoted there from the two  
22 clauses that are relevant to what you have just -- I'll  
23 just pause.

24 MR JULIAN KWONG: Chairman, sorry? TD-1?

25 CHAIRMAN: This is MISC-2 at page 820-57. Perhaps I can  
26

1 just quote what you have written:

2 "In Hong Kong, the standard urban speed limit is  
3 [50 kilometres per hour]. Guidelines on speed limits is  
4 given in volume 6 of the Transport Planning and Design  
5 Manual ... published by Transport Department.

6 Clause 6.4.2.5 of [that manual] states that  
7 'Generally, speed limits lower than 50 [kilometres an  
8 hour] are not recommended for public roads as they  
9 require a higher level of enforcement to ensure  
10 compliance, and it is doubtful that the lower speed  
11 limit imposed will contribute significantly to accident  
12 prevention'."

13 Now that last statement is challenged, is it not, by  
14 the modern approach to speed limits?

15 MR JULIAN KWONG: Chairman, yes, that is the case.

16 CHAIRMAN: What is the date at which this provision was  
17 formulated?

18 MR JULIAN KWONG: Chairman, you mean the TBDM?

19 CHAIRMAN: Yes, does it have its origins in the United  
20 Kingdom Transport Department's papers?

21 MR JULIAN KWONG: Chairman, yes. The origin is not from the  
22 2013 edition, as you mentioned, the document entitled  
23 "Setting Local Speed Limits", but there are some other  
24 references which that document refers to.

25 CHAIRMAN: Where do we find the first formulation of this  
26

1 proposition? Does this come from 1974, UK transport  
2 provisions?

3 MR JULIAN KWONG: I do not have the exact references here,  
4 but broadly speaking, many of the references I would say  
5 are outdated.

6 CHAIRMAN: Yes, thank you. Sorry for the diversion,  
7 Ms Wong.

8 MS MAGGIE WONG: Yes. One of the papers that you explained  
9 about this is we can see that at page 820-57.

10 This is a paper, I believe you presented at the  
11 second United Nations Global Road Safety Week on  
12 7 May 2013, advocating safer and attractive streets in  
13 Hong Kong with lower speed limits.

14 And if --

15 CHAIRMAN: Where do we see the reference to where it was  
16 presented?

17 MS MAGGIE WONG: If you look at page 820-25, it is at the  
18 bottom: "Second United Nations Global Road Safety Week".

19 CHAIRMAN: I see, the numbers are in the top right-hand  
20 corner. Yes.

21 MS MAGGIE WONG: Yes.

22 If you look at this paper, did you present this  
23 paper for the second United Nations Global Road Safety  
24 Week, Mr Kwong?

25 MR JULIAN KWONG: Yes.

26

1 MS MAGGIE WONG: If we look at some of the speed limits that  
2 you have been advocating, based on zones, that would be  
3 820-35. We can see that you have set out 20 speed  
4 limit, 30 and 40. And then divided into different  
5 zones, like new development areas, hospital, housing  
6 estate, tourist areas, residential districts and  
7 villages, it is not exhaustive, but in effect you have  
8 divided it based on zones, in determining which speed  
9 limit should be applicable; is that right?

10 MR JULIAN KWONG: The idea of this slide is a vision.  
11 Because I was advocating this idea. So it is a vision  
12 that what types of urban developments are we talking  
13 about, that these speed limit zones would be able to  
14 apply. And that doesn't mean that -- that is not the  
15 case at the moment.

16 The speed limit zone, I would like to just briefly  
17 explain. Traditionally, to adopt a speed limit we need  
18 to put a sign, a traffic sign stating the speed limit  
19 for every street. Unless it is 50 kilometres per hour.  
20 That is the default speed limit, we don't need to put  
21 any sign. So if it is not 50, if it is 30, then it  
22 means that we need to put a lot of signs in the urban  
23 areas. The idea to have a 30 kilometres per hour zone  
24 with the sign which I propose, that also needs to go  
25 through the legal process of defining this sign. And if  
26

1        we have this sign, meaning 30 kilometres per hour speed  
2        limit zone, then we will not need to put such sign on  
3        every street. We only need to put the sign at the  
4        entrance and the exit of the zone. That is very much  
5        the practice, for example in the Netherlands, France and  
6        the United Kingdom.

7        MS MAGGIE WONG: So the idea behind it is of course to  
8        promote safe driving, and if we can see an example at  
9        page 820-36, for 30 kilometre per hour zones you have  
10       explained why you promote this, basically it is  
11       applicable to crowded streets, one-way streets, and  
12       housing estates where people would frequent those areas.

13       If we look at 40km per hour on the next page, this  
14       is on dual carriageway or for primary distributors,  
15       where the roads are wider and people less frequently  
16       walk on those roads, and when we come to 50 kilometre  
17       per hour zone, 820-38, we can see in the fourth  
18       paragraph you are advocating -- it is where there are  
19       fewer pedestrians, more footbridges and good visibility.

20       And then, of course, when you advocate this, if we  
21       look at the next page, 820-39, the reason you suggest 20  
22       on this page is because all these areas are, first of  
23       all, the road condition is quite different, and it is  
24       narrower, and a lot of people walking around, with  
25       shopping districts, entertainment, village centre and  
26

1 open market. So these are the areas that you are  
2 promoting 20km per hour, is that the logic behind it?

3 MR JULIAN KWONG: Yes, that's true. The logic of these  
4 slides, they have been especially tailored to the  
5 situation in Hong Kong. For example, as I mentioned, a  
6 40 kilometre per hour speed limit is not adopted in all  
7 the advanced countries, but in Hong Kong, for the  
8 specific situations, I think that would be necessary.

9 I also wish to mention that for the shared surface,  
10 with 20 kilometres per hour, streets like this will only  
11 account for a small proportion in the urban areas.  
12 Usually in the core areas, say, in Causeway Bay, in  
13 Central, but the idea is usually most roads will be  
14 covered by 30, 40, or 50 kilometre per hour speed limit.

15 Thank you.

16 MS MAGGIE WONG: Yes.

17 And your study is also based on some statistics from  
18 the Department for Transport in France, if you look at  
19 820-46, it set out the probability of fatality for  
20 elderly pedestrians, and you stated you based this on  
21 the sources from the UK Department for Transport 2010,  
22 and Certu France 2006.

23 Can you explain a little bit as to this diagram,  
24 what it meant?

25 MR JULIAN KWONG: Yes. By the year 2010 the Department for  
26

1 Transport for the United Kingdom published a report  
2 summarising and reconfirming some of the previous  
3 studies on the risk of injuries, fatal injuries and  
4 serious injuries for different groups of pedestrians.  
5 I used the information from that document.

6 As for the information from France, I think that is  
7 just general, meaning that I would consider one second  
8 of reaction time and 7 metres per second squared of  
9 braking, deceleration. That is very much adopted in  
10 other documents as well.

11 Basically what this diagram shows is that if an  
12 elderly person is impacted by a small passenger car at  
13 30 kilometres per hour, he would have 4 per cent  
14 probability of being killed. But if the same person is  
15 collided by the same car at 70 kilometres per hour, then  
16 he would have 97 per cent probability of being killed.

17 The idea is that between 30 and 70, or even between  
18 30 and 60, the difference is very big.

19 And the relevance of reaction time, as I indicated  
20 here, is that when a driver sees a pedestrian coming out  
21 from a road, he needs at least one second before he  
22 starts to apply the brake. At 70 kilometres per hour  
23 speed, that one second already means almost 20 metres.  
24 So, during that 20 metres of distance, the driver has  
25 not even start braking.

26

1           So within that 20 metres, if an elderly comes into  
2           that position, he would almost certainly be killed.

3           To briefly summarise, this diagram shows that on the  
4           one hand, having lower speed will be less likely to  
5           result in fatalities: this is due to the tolerance of  
6           human beings.

7           The second point is that the higher the speed, the  
8           longer the time a driver needs to stop the vehicle  
9           completely; and also the time to react is very relevant.

10       MS MAGGIE WONG: Thank you.

11           Shall we go back to your report in April 2018,  
12           page 786, where we have touched upon the general  
13           protocol. Now it is about route-specific protocol.

14       CHAIRMAN: Before you get there, as far as matters generally  
15           are concerned, when I asked you who do you say is  
16           responsible for recommending protocols, you said that  
17           that hadn't been worked out as yet, but it wasn't  
18           something that was applicable to the legal speed limit,  
19           what you had in mind was that bus companies could do  
20           this, or this could be imposed on them by government.

21           Have I summarised you correctly?

22       MR JULIAN KWONG: Chairman, yes, that's true.

23       CHAIRMAN: So how do you envisage that the bus companies  
24           would go about -- because that is what we are tasked to  
25           recommend -- measures for bus safety, how would the bus  
26

1 companies go about recommending drivers drive at lower  
2 than the legal speed limit in particular areas?

3 MR JULIAN KWONG: The legal speed limit is the highest speed  
4 which a driver should adopt, but they are also required  
5 to adopt appropriate speed at any time, appropriate to  
6 the road conditions.

7 The proposal here is that I presume that the bus  
8 company can always produce guidelines for the drivers in  
9 respect of certain road conditions and what speeds they  
10 should adopt, and that can be in the form, say, of  
11 a document or in training, but as I said, the exact  
12 speed, whether it is 40, or 35, or 45, that also needs  
13 more investigation.

14 Monitoring is a different story. First of all, we  
15 need to have the rules. And then next, we can talk  
16 about monitoring. Thank you.

17 CHAIRMAN: So, for example, we have received some  
18 information about how certain black spots were  
19 identified by one of the bus companies where difficult  
20 bends are involved, and they have come up with a formula  
21 for the speed that should be adopted by drivers going  
22 around those bends. Is that what you have in mind, as  
23 a general indicator of how you might do it?

24 MR JULIAN KWONG: Chairman, yes, for the general protocols,  
25 then it is general. But what you just mentioned, that

26

1           can be, say, a particular bend, and that would be  
2           referred to the route-specific protocols which I stated  
3           in the document.

4   CHAIRMAN:   Yes, Ms Wong, you were moving to that.

5   MS MAGGIE WONG:   Yes, I'm moving on to that.

6           But following on the question from chairman, on this  
7           page at the top, you stated that the purpose here is to  
8           promote safer driving. That's the second paragraph  
9           after the second bullet. The second line:

10           "The purpose is to promote safer driving conforming  
11           to these protocols rather than being a tool to penalise  
12           drivers."

13           So your idea is to invite the operators to conform  
14           to these protocols, rather than being a tool to penalise  
15           driver; is that the logic behind it?

16   MR JULIAN KWONG:   Yes, that's true. In the compilation of  
17           this report we do not want to talk about too much on  
18           responsibility or anyone breaching any responsibility,  
19           and for drivers, we understand their difficulties. Our  
20           whole idea is to promote safe driving, so that everyone  
21           is safe, the management would be happy. So I put that  
22           point just to emphasise this. Thank you.

23   MS MAGGIE WONG:   Yes. How do you suggest that monitoring  
24           can be used to promote confirmation to these protocols  
25           or conforming to these protocols, rather than to

26

1           penalise? How do you suggest we can achieve that in the  
2           monitoring process?

3       MR JULIAN KWONG: I would like to say that the purpose of  
4           monitoring is to identify those drivers constantly  
5           breaking the rules, and also to identify those drivers  
6           who consistently break the rules in an excessive way.

7           I would presume that the second group of drivers  
8           would be the ones who contribute to the largest risk  
9           among all drivers.

10          So the idea is not to say if a driver breaks the  
11          rule just by a small extent, for example if we set the  
12          safe speed as 40 kilometres per hour, and then at some  
13          point say he went to 42 or 43, that is not the point --  
14          unless that location is particularly dangerous.

15          We need to identify drivers who consistently break  
16          the rules, and also those who break the rules in a very  
17          dangerous way and then to timely rectify their  
18          behaviour.

19          That, I think would be the whole idea. Thank you.

20       MS MAGGIE WONG: How would you suggest to achieve this, by  
21           identifying those who consistently break the rules  
22           dangerously?

23       MR JULIAN KWONG: Thank you. Traditionally I presume that  
24           there is -- it has been worked by, say, having  
25           plain-clothes inspectors to sit on a bus, or sometimes  
26

1           it depends on complaints, and they send inspectors. But  
2           that is not a very efficient way. As technology has  
3           advanced, I believe there can be better ways, and  
4           monitoring system based on black box, which can be  
5           automated, which can be real time, and that would be  
6           I think far more efficient. Thank you.

7   CHAIRMAN: This is technology that has been available for  
8           some years, is it not? The mystery riders and reacting  
9           to complaints is not unlike the system that first  
10          obtained when cars were driven, and a man walked in  
11          front of the car with a red flag. It is a very old  
12          system, is it not?

13   MR JULIAN KWONG: Chairman, yes. I agreed that we should  
14          now rely far more on advanced technology. For  
15          monitoring. Thank you.

16   CHAIRMAN: Now, in your report you put it this way, that:

17                "Monitoring will need to be based on advanced, real  
18                time and automated black box systems."

19                Would you like to speak to those three items?

20   MR JULIAN KWONG: Chairman, thank you. Well, first of all,  
21          I would like to declare that I'm not an expert in black  
22          box system, or in the advanced technology they are  
23          using. But I am purely --

24   CHAIRMAN: Was your attention drawn to the evidence we  
25          received on Saturday from an engineer from a black box  
26

1 manufacturer, ZF? Have you seen the transcript of that  
2 evidence?

3 MR JULIAN KWONG: Chairman, yes. I have scanned through the  
4 transcript.

5 CHAIRMAN: You have declared your lack of expertise in this  
6 matter, but what is it you had in mind, answering these  
7 three criteria: advanced, real time, automated?

8 MR JULIAN KWONG: Yes, Chairman. I have looked at the  
9 current status of these black boxes, well, what I meant  
10 was that I am not an expert in the technology and also  
11 in how the softwares can be developed. But I look at it  
12 in a way that what objectives we want to use this black  
13 box system, and on the understanding that they can  
14 collect a lot of information that would be of the  
15 greatest interest for us; namely acceleration,  
16 deceleration, tilting angle, speeds, et cetera.

17 So in this report actually, given the advanced  
18 functions of these technologies, we think that they can  
19 be adopted, and we also looked at some other operators  
20 which have started to use this for management of their  
21 traffic fleet.

22 So in the compilation of this report we think that  
23 it is fair to recommend an advanced, real time and  
24 automated system.

25 CHAIRMAN: What is the advantage of real time?  
26

1 MR JULIAN KWONG: Chairman, some behaviours, which are  
2 grossly inappropriate, need to be identified and  
3 regulated in a very timely manner. We cannot rely on,  
4 say, passengers making complaints, and then having  
5 inspectors to investigate, and then only making  
6 recommendations, say, after a few weeks.

7 That is the whole idea why I mentioned about the  
8 importance of real time monitoring.

9 CHAIRMAN: What is the advantage and significance of  
10 automated reports of this kind of inappropriate driving?

11 MR JULIAN KWONG: Chairman, in my opinion, such black box  
12 systems are likely to generate an enormous amount of  
13 data, and if we solely rely on manual identification, or  
14 processes which are not fully automated, I presume that  
15 would require a lot of manpower, to the extent that the  
16 process is not sustainable. Thank you.

17 CHAIRMAN: From the information that we received on  
18 Saturday, and you have read, this technology is  
19 available, is it not, automated reports of inappropriate  
20 driving?

21 MR JULIAN KWONG: Chairman, yes. That's true.

22 CHAIRMAN: And it is available on the devices that are  
23 currently on the buses.

24 MR JULIAN KWONG: Chairman, from my reading of the document,  
25 I presume yes.

26

1 CHAIRMAN: So the effect of this would be, if one was to put  
2 a threshold trigger, let's take a 50 kilometre an hour  
3 speed zone, if one was to put a trigger of 55, that's  
4 a 10 per cent over the limit, that would generate an  
5 automated real time alert of driver misbehaviour.

6 MR JULIAN KWONG: Chairman, yes, I read about this.

7 The question now I would consider is what criteria  
8 we should set, what are the thresholds, and then also  
9 about what control we are looking to. An alarm, or  
10 reminder is one possible control measure, but there  
11 could be others.

12 So the whole process of how we can use this black  
13 box, this technology, to the full extent, and also with  
14 respect to the risk of crashes and injuries, I think  
15 that would be a focus of any future investigation of  
16 using the technology. Thank you.

17 CHAIRMAN: Are you aware of any direction or mandate from  
18 the Transport Department to the franchised bus operators  
19 as to how they should use this technology to produce  
20 real time automated reports?

21 MR JULIAN KWONG: Chairman, I have not studied in detail  
22 with respect to the question you just asked.

23 CHAIRMAN: Have you seen it in any of the documents that  
24 discuss the renewal of franchises?

25 MR JULIAN KWONG: Chairman, I have not seen anything like  
26

1           this.

2       CHAIRMAN: You have made recommendations, have you not? And  
3           I think we are going to be coming to them in due course,  
4           about what should be included in franchise documents for  
5           renewal?

6       MR JULIAN KWONG: Yes, Chairman. We made recommendations,  
7           but those are more or less general recommendations on  
8           the directions.

9       CHAIRMAN: We will see how some of them are actually quite  
10          specific and resonate with what we have just been  
11          talking about.

12          Ms Wong, please resume the questioning.

13       MS MAGGIE WONG: Yes.

14          We'll come back to that topic, maybe we will finish  
15          this area first.

16          We are coming to the route-specific protocol. In  
17          your submission, you make reference to route-specific  
18          protocol. at page 786, in the second black bullet it  
19          addresses specific safety risk such as sections of the  
20          narrow hillside road lacking a safety barrier. And you  
21          elaborate this further at page 817. And you identify  
22          some examples at page 817, right above section 5.4, that  
23          you would like to formulate the route-specific  
24          operational protocol to address particular high risk  
25          conditions along specific road sections, including long

26

1 steep/exceptionally steep gradient road, sharp bends,  
2 risk of falling from heights where existing safety  
3 barrier is absent, risk of falling from heights on the  
4 basis of tested level of existing bridge and narrow road  
5 sections with poor visibility, and road sections with  
6 elevated risk of conflicts with pedestrians.

7 Those are the examples you have given. Are these  
8 the examples that is -- apart from the general  
9 operational protocol, those are more specifically  
10 directed at the specific roads or condition of the road  
11 concerned?

12 MR JULIAN KWONG: Yes. This paragraph explains our whole  
13 rationale, that compliance with the legal speed limit,  
14 although it is globally important, it is grossly  
15 inadequate to address the safety of individual sections,  
16 and we understand that certain road sections in Hong  
17 Kong, for example the historical hilly roads on Hong  
18 Kong Island, they are not designed for heavy bus usage,  
19 because they were built a very long time ago, and from  
20 my understanding, in my profession, I can tell you that  
21 for example there is no safety barriers, or the safety  
22 barriers are inadequate to stop a bus travelling at,  
23 say, 40 or 50 kilometres per hour.

24 For this reason, we need to pay particular attention  
25 to those identified road sections so that the bus  
26

1 company and the bus drivers are well aware of that, and  
2 those sections can be subject to special control, say  
3 a speed, for example, 30, 35 kilometres per hour.

4 Another example is that on a high-speed road,  
5 subject to higher speed limit, a public bus can go at  
6 70 kilometres per hour. However, not all high-speed  
7 roads have the same safety level. Say, for example,  
8 a particular flyover has the safety barriers not  
9 reaching the standards for stopping a bus to travel  
10 at -- to impact at 70 kilometres per hour. In that  
11 situation then we may need to impose on the bus drivers  
12 that they should go a bit slower, say, 60 kilometres per  
13 hour.

14 So the whole idea is actually to tie up the speed,  
15 and also other behaviour of bus operation, in  
16 conjunction with the road conditions based on  
17 engineering criteria and also injury criteria.

18 Thank you.

19 CHAIRMAN: But approaching this again, this is to impose  
20 controls on the bus drivers, although the legal limit  
21 permits them to drive at this speed, as you put it,  
22 that's grossly inadequate from a safety point of view,  
23 again, is this a control that is to be imposed by the  
24 bus companies?

25 MR JULIAN KWONG: I think in the compilation of this report  
26

1 as I mentioned, I did not specify who is going to impose  
2 that, but I presume that both bus companies and the  
3 government can work together to formulate these  
4 protocols, and for the bus company to implement.

5 Thank you.

6 MS MAGGIE WONG: But presumably identifying all these road  
7 sections that have those characteristics as you  
8 mentioned earlier on, would it not be easier if the  
9 government undertake that task? Because I was wondering  
10 if you would know, do you know the Transport Department  
11 actually keeps a digital map of the entire territory of  
12 Hong Kong. Are you aware of that?

13 MR JULIAN KWONG: Excuse me, you mentioned about Transport  
14 Department keeping --

15 MS MAGGIE WONG: A digital speed limit map for the entire  
16 territory in Hong Kong.

17 MR JULIAN KWONG: I am not sure whether there is a speed  
18 limit digital map, but in my opinion -- yes, sorry, in  
19 my opinion, the changes of speed limit in Hong Kong are  
20 not excessive, and it shouldn't be that difficult,  
21 because most of the roads are subject to a 50 kilometre  
22 per hour speed limit, and certain roads are subject to  
23 different speed limit, and I'm not sure whether they are  
24 already on digital maps.

25 MS MAGGIE WONG: If I may take you to one document. It is  
26

1 TD-1, page 368.

2 That's a letter from the Transport Department dated  
3 12 June 2018, in response to questions raised by the  
4 Committee requesting for digital maps on statutory speed  
5 limits. If you can read from the second paragraph of  
6 that letter, it states that:

7 " ... we enclose a map showing the whole territory  
8 of Hong Kong ... and another one with a larger scale  
9 showing the Hong Kong Island only with the roads of  
10 speed limits at 70km/h or above ...

11 For your information, the dataset of speed limits  
12 under the road networks managed by the Transport  
13 Department ... in the Geographical Information  
14 System ... format is already available for downloading  
15 from data.gov.hk ... of the Hong Kong SAR government.  
16 By using GIS software, members of the public, including  
17 the bus operators, can import the dataset of speed  
18 limits on to the base map dataset of the [Hong Kong]  
19 road network, which is available from Lands Department  
20 or alternatively online maps such as Google Map or Open  
21 Street Map, to prepare the digital speed limit map of  
22 roads in HK."

23 Over the page:

24 "The [Transport Department] has put forward the use  
25 of the above mentioned GIS datasets on speed control by  
26

1 the method of 'geo fencing' for consideration by the bus  
2 operators. It will be followed up in the Working Group  
3 on Enhancement of Safety of Franchised Buses."

4 So what is suggested in this letter is we have  
5 actually the utility of a digital map showing the speed  
6 limits, and if you can combine the digital map with the  
7 geofencing or the GPS system that the bus operators are  
8 working, then you can identify which routes may require  
9 special attention.

10 Do I understand that correctly from -- I believe  
11 based on your experience?

12 MR JULIAN KWONG: Okay. I would like to comment like this.

13 Yes, if such data is already available on digital  
14 maps, then it is very useful. Of course that would help  
15 a lot for the geofencing concept. But if we start from  
16 the basic concept, the idea is that we need to let  
17 drivers be aware of which particular sections of roads  
18 they need to slow down, or what speeds they should  
19 adopt, and even without advanced technologies we can do  
20 that already. We just tell them.

21 But the geofencing, of course, if it is digitised,  
22 then it can be tied up with a monitoring system to  
23 remind them. But such kind of system would be very  
24 useful in the long term, but in order to give immediate  
25 attention to the problem, I think we can start from the  
26

1           simplicity that we formulate locations for the most  
2           dangerous sections, and we can already inform the  
3           drivers and train the drivers.

4           Of course in the long term, that can be far more  
5           automated with the systems you just mentioned.

6   CHAIRMAN: That's the whole point of monitoring, is it not?

7           The easier monitoring is made, the more the drivers are  
8           disciplined into driving appropriately, particularly if  
9           monitoring is real time and automated? And with  
10          a digital map with speed limits, and where it is known  
11          where the bus is physically, latitude, longitude, it is  
12          possible to put in certain thresholds for driving in  
13          certain areas?

14   MR JULIAN KWONG: Chairman, yes. And I presume that would  
15          help a lot. But also we need to understand that perhaps  
16          drivers are under stress, and the whole idea is to help  
17          them, rather than putting a lot of constraints on them,  
18          and how we do that in the most rational way, I think we  
19          still need to look into the details.

20   CHAIRMAN: Are you aware of one of the bus operators in  
21          Singapore operates a score card for its drivers,  
22          deploying these kind of parameters that you have  
23          discussed: that is speeding, deceleration, acceleration,  
24          as examples, and the driver who drives his bus without  
25          exceeding speed, without braking harshly, without  
26

1 accelerating harshly, scored a good score, he is a green  
2 driver. Then you have the other driver who speeds  
3 regularly, brakes harshly, throws the passengers around  
4 when he accelerates away from the bus stop, and he is  
5 a red driver. And in order to help the drivers, you  
6 give the green driver a bonus.

7 It is a pretty simple system, isn't it?

8 MR JULIAN KWONG: Chairman, I agree. We need to encourage  
9 and to reward those drivers who are driving in a safe  
10 way. Thank you.

11 MS MAGGIE WONG: I believe in the UK that has been the  
12 system. Have you heard about the system called "Green  
13 Road" in UK? Have you heard about that?

14 MR JULIAN KWONG: Sorry, I have not heard about this.

15 CHAIRMAN: I think it is a software that was used both in  
16 the United Kingdom by Abellio on their franchise in  
17 London, and it is the same one used in Singapore, that  
18 I was just describing.

19 MR JULIAN KWONG: I see, thank you.

20 MS MAGGIE WONG: In short, the Green Road monitors the harsh  
21 braking, harsh acceleration, and excessive engine idle  
22 time. So the bus operators in England use this system  
23 on peer-to-peer assessments, and drivers are given  
24 different score cards, as the chairman stated, green,  
25 amber and red score cards, based on the number of events  
26

1           they obtain.

2           And drivers with amber and red scores receive  
3           further guidance and retraining. And the system is able  
4           to pinpoint the location of events so drivers can learn  
5           the hot spots, and this system is also used to reward  
6           drivers in the form of financial bonus for good driving  
7           scores.

8           So it is used as a way not only to penalise drivers,  
9           but also a national measure to measure who are the top  
10          drivers being awarded elite status who are then entered  
11          into local or national Driver of The Year competition.

12          So the way they go about it, instead of penalising  
13          them, they give them carrots, to reward them, to give  
14          them incentive to drive better and more safely.

15          Have you heard about this system using score cards  
16          to reward drivers rather than to penalise them?

17       MR JULIAN KWONG: Thank you. I have not heard about this,  
18          but it seems that this or similar system would be the  
19          way to go, provided that it is not too complicated, and  
20          sustainable. Thank you.

21       MS MAGGIE WONG: And we have gone through these protocols,  
22          and now may we go to the bus design as set out on  
23          page 786 of MISC-2 bundle.

24          You mentioned a number of safety features that you  
25          recommend as priority, and you set out six of them.

26

1           One of them is the safer bus front; second, safety  
2           seat belts; and using more protective pads; corrugated  
3           walls on stair ways in the bus interior; speedometer;  
4           improvement on driver's vision; and features to alert  
5           pedestrians staying away from a moving bus.

6           Can I ask something about this improvement to  
7           driver's vision, about improved mirrors and CCTV  
8           cameras. How do you suggest, or what equipment would  
9           you suggest in terms of improvement to driver's vision?

10       MR JULIAN KWONG: Yes. Large vehicles usually have a lot of  
11       problems for vision. For heavy vehicles, heavy goods  
12       vehicles, that is a big problem. For the buses we are  
13       using today, I presume that they are better, because  
14       there is a large window.

15           Nowadays, I presume many buses or most buses would  
16       have a CCTV camera monitoring the rear for reversing  
17       safety. But still, occasionally, we have severe  
18       pedestrian fatality cases. Apparently the bus driver  
19       failed to see a pedestrian crossing, just in front, or  
20       just on the side of the bus.

21           Now there are more CCTV cameras installed on buses,  
22       as far as I understand, but I notice that the CCTV  
23       monitor displays are positioned on the top above the bus  
24       driver, and I'm not too sure whether that location is  
25       the best for bus drivers to observe what is happening at  
26

1 the blind spots. I'm not going to say that it is not  
2 going to work satisfactorily, but I'm just suggesting  
3 that we should look at the CCTV cameras, the location of  
4 the monitor display, whether they really address all the  
5 blind spot problems.

6 But on the other hand, I learned from the Transport  
7 for London website that they are also looking at the  
8 visibility problems for bus drivers.

9 I just want to give you an example. For goods  
10 vehicles, there is big problems, because drivers cannot  
11 see a pedestrian directly in front of the vehicles due  
12 to blind spots, and traditionally drivers will rely on  
13 the side mirrors, so they need to look at the side  
14 before starting the vehicles. But that is not a very  
15 natural way of look and driving. And drivers may fail  
16 to look at the side mirrors.

17 The current move in some countries led by London in  
18 the United Kingdom is to encourage vehicle manufacturers  
19 to make the vehicle far more friendly for the drivers to  
20 see what is happening in the front, and also on the  
21 side, and they called it a direct vision initiative.  
22 And they are already driving changes.

23 For the buses, as I mentioned, they can be better,  
24 because compared to a heavy goods vehicle, the bus  
25 drivers usually sit at the lower position.

26

1 But gathering the information I collected, as  
2 I mentioned, I think there is still room to improve the  
3 direct vision for drivers. Thank you.

4 CHAIRMAN: Of a bus?

5 MR JULIAN KWONG: Sorry, for bus. For bus drivers.

6 CHAIRMAN: One of the problems with lorry drivers is the  
7 problem looking through the door, as it were, to see the  
8 cyclist right next to where the driver is; is that not  
9 one of the problems?

10 MR JULIAN KWONG: Chairman, yes. Yes, to see the cyclist,  
11 and also to see someone walking just in front of the  
12 vehicle.

13 CHAIRMAN: And it was the inability to change that  
14 requirement on vehicles that led Boris Johnson to  
15 determine that "If the EU could not allow me to put  
16 windows into truck doors, then I should be leaving the  
17 EU"; was it not?

18 MR JULIAN KWONG: Chairman, I'm not able to comment on this,  
19 thank you.

20 MS MAGGIE WONG: I think you gave us an example by one of  
21 your articles, I think it is dated 17 March 2018, "Road  
22 Safety at the [heart] of Workability". It is at  
23 page 820-78.

24 This is the first page of the article. If we go to  
25 page 820-82, this is an illustration of the "Direct  
26

1 Vision" initiative that you talked about earlier on.

2 Can you explain a little bit. What is meant by

3 "off-road HGV" and "Direct Vision HGV"?

4 MR JULIAN KWONG: Yes. Gathering from the information from  
5 the source I quoted here, heavy goods vehicles actually  
6 are designed for highways, for running on the highways.  
7 Meaning that there are few pedestrians, so the vehicles  
8 will travel without stopping a lot. I gather that is  
9 what is meant by "off-road". But in reality, in many  
10 parts of the world, including Hong Kong, we have such  
11 heavy vehicles running on virtually every street,  
12 including the very crowded residential streets, and  
13 central business districts, and that is where the  
14 problem comes in.

15 MS MAGGIE WONG: Yes. If we go back to your report earlier  
16 on page 786 where you mentioned all the six factors, one  
17 of them relates to features, the last one:

18 "Features to alert pedestrians staying away from  
19 a moving bus."

20 What features are we talking about?

21 MR JULIAN KWONG: Here in the report I did not specify the  
22 features, but in some countries, for example quoting the  
23 Transport for London, they are looking at new features  
24 including alarms or flashing lights.

25 MS MAGGIE WONG: So where would the alarm and flashing  
26

1 lights be placed?

2 MR JULIAN KWONG: I have not studied this in details, but  
3 I presume that they can be placed, say, around the blind  
4 spot areas of the bus, for example just on the side of  
5 the bus in the front, where pedestrians can be obscured  
6 by the vehicle body of the bus.

7 CHAIRMAN: Would this be a sensor that sounds an alarm when  
8 the pedestrian is picked up as being close to the  
9 vehicle?

10 MR JULIAN KWONG: Chairman, I think that is a possibility,  
11 but I presume that those features can be activated even  
12 without an accompanying sensor, so, say, as long as the  
13 bus is turning. So that needs investigation.

14 Thank you.

15 MS MAGGIE WONG: You mention also on this page about safety  
16 belts. Can I take to you page 805, where you elaborate  
17 on safety belts, in the section where you stated that:  
18 "seat belts are generally available at limited  
19 number ... of exposed seats."

20 And you have calculated 14 exposed seats in  
21 a double-decker bus. The bus driver, upper deck front  
22 seats, lower deck front seat facing the corridor on both  
23 upper and lower deck, and you stated that seat belts are  
24 deemed useful subject to detailed evaluation.

25 Are you aware that actually the new design of the  
26

1 buses nowadays, so far as the upper deck front seats are  
2 concerned, the new buses have already installed seat  
3 belts, the upper deck.

4 CHAIRMAN: At the front?

5 MS MAGGIE WONG: The front seats, upper deck front seats.

6 MR JULIAN KWONG: Upper deck front seats. Yes.

7 As mentioned in the report, I'm well aware that  
8 those seats on the upper deck front are already equipped  
9 with seat belts.

10 MS MAGGIE WONG: One of the matters that was discussed with  
11 the Transport Department was in relation to this topic.  
12 If we can go to TD-5, page 1688.

13 CHAIRMAN: What are we going to?

14 MS MAGGIE WONG: It is a document, annex 2 document prepared  
15 by the Transport Department in response to the  
16 Committee's enquiries, following the oral hearing.

17 The title of the paper is "Application of New  
18 Technologies in Franchised Bus Operation".

19 CHAIRMAN: Is this paper 8?

20 MS MAGGIE WONG: That's annex 2. That's an additional  
21 supplementary submission.

22 If we scroll it down, it mentioned something  
23 about -- 1693, I think.

24 Can we go back to 1691, paragraph 12. It is stated  
25 that:

26

1            "At the [Working Group] meeting held on 13 March ...  
2            the TD proposed and all FB operators agreed to install  
3            seat belts on all seats for new buses, whilst the  
4            feasibility of retrofitting seat belts on all seats on  
5            the existing buses is to be ... explored in the  
6            technical sub-working group."

7            So it appears from the discussion that there will be  
8            new seat belts installed on all seats for new buses in  
9            future. Are you aware of this?

10          MR JULIAN KWONG: I read from the documents of the previous  
11          hearings about this. So I'm aware of that.

12          CHAIRMAN: I think the overall context, it may be you have  
13          read this as well, would help. The Transport Department  
14          convened a working group to examine the application of  
15          what they called new technology, whether or not that's  
16          the right description, in March of 2018. And this was  
17          the subject of a paper -- I think I'm right in  
18          remembering paper 8; is that right?

19          MS MAGGIE WONG: Yes, that's paper 8.

20          CHAIRMAN: Where a whole range of different aspects of  
21          technology, but not black boxes or tachomatic devices  
22          was considered. And it is this group that has been  
23          meeting with bus operators, bus manufacturers, Transport  
24          Department, in the last three months, considering at  
25          this stage how these devices might be used. Are you  
26

1           aware of that?

2       MR JULIAN KWONG: Chairman, I'm aware of that committee, but  
3           I'm not aware of the detailed discussions.

4       CHAIRMAN: That's the context I wanted you to understand.  
5           So now seat belts.

6       MS MAGGIE WONG: If we may go to that paper, TD paper 8,  
7           that's in the TD-1 bundle page 94.

8           It is a paper by TD, Transport Department, setting  
9           out the feasibility and desirability of certain features  
10          for franchised buses, and at the bottom it states it set  
11          up a working group on bus safety following the Tai Po  
12          Road bus accident.

13          Over the page, 95:

14          "... the TD set up a working group ... with  
15          representatives from all FB companies and bus  
16          manufacturers in mid March 2018 to review the technical  
17          feasibility and desirability of installing some new  
18          safety devices ..."

19          And one of them is in relation to installation of  
20          seat belts for all passenger seats, that's at  
21          paragraph 5, from paragraph 5 to paragraph 9.

22          During the hearing, we heard some evidence that some  
23          bus operators commented that even if you install seat  
24          belts, most of the passengers are unwilling to put on  
25          their seat belts. How would you propose to assist the

26

1 public to understand this, and use it?

2 MR JULIAN KWONG: Yes, I understand that even with existing  
3 buses equipped with seat belts the usage is very, very  
4 low. That is a difficult question. We need to do it in  
5 a number of ways. I think requirement by law is  
6 certainly one possibility. And another one is that we  
7 need publicity. And the contents of the publicity would  
8 be really important. Because we are not just trying to  
9 impose something on the passengers. We need to explain  
10 to them and have them understand, have them understand  
11 the importance of having the seat belts fastened, not  
12 only to protect themselves, but say in case for those  
13 seats where there are passengers facing them, that if  
14 they are thrown forward they would injure other people,  
15 and even in a rollover, if they do not wear seat belts,  
16 they can also injure other people.

17 So how to translate this technical knowledge to  
18 public understanding, I think that is a real challenge,  
19 thank you.

20 CHAIRMAN: That was the formula adopted with seat belts in  
21 motor cars, was it not? To start with, it was  
22 voluntary, and nobody used them, and then eventually it  
23 was made compulsory, and everyone uses them now.

24 MR JULIAN KWONG: Chairman, yes, I agree. But I think we  
25 also need to look at the model of public light buses.

26

1 It is compulsory by law to have the seat belt fastened,  
2 but today I can see that the compliance rate by  
3 passengers is not very high. We certainly need far  
4 better ways, I think, to convince and also to require  
5 passengers to wear seat belts.

6 But how to do that, I'm not able to give very  
7 definite answer, thank you.

8 CHAIRMAN: It is illegal to park a vehicle on double yellow  
9 lines, but we know from walking around the streets of  
10 Hong Kong, that enforcement is the problem.

11 MR JULIAN KWONG: Yes, Chairman. Enforcement is an issue,  
12 but I'm also sympathetic with those charged with the  
13 responsibility for enforcement. Because in terms of  
14 road safety, every day, everywhere, there is so much  
15 violations in one way or another, including seat belts,  
16 and it is very difficult to have enforcement conducted  
17 all the time. Thank you.

18 CHAIRMAN: Perhaps some of the time would be beneficial.

19 MR JULIAN KWONG: Chairman, yes, I agree.

20 MS MAGGIE WONG: In this paper, it also mentioned other  
21 safety devices that have been touched upon in your  
22 paper, including, if we look at page 98 of TD-1, the use  
23 of technology on the safety devices of franchised buses.  
24 It mentioned electronic stability control and roll  
25 stability control, which is also mentioned in your paper  
26

1 at page 818, called the electronic stability programme.

2 Do you know --

3 CHAIRMAN: Before you move on, if you are moving to devices,  
4 in your piece on bus design, you mentioned at 786, in  
5 fact it is the first matter that you address, it is  
6 a safer bus front, and you give details of it.

7 What is it that is unsafe at the moment about the  
8 front of a bus, or relatively unsafe?

9 MR JULIAN KWONG: Yes, Chairman, the upper deck of a bus, at  
10 the front, there is very limited space, what we call the  
11 concept of crumple zone. Safety belts on the upper deck  
12 front seats are beneficial for certain types of  
13 incidents, for example a bus braking abruptly, or a bus  
14 colliding with a safety barrier, colliding with a small  
15 passenger car. But considering that the double-decker  
16 bus collides with a container vehicle in the front, or  
17 colliding with a bridge pier, then the upper deck front  
18 passengers, even if they are restrained by seat belts,  
19 they will suffer severe injuries.

20 And in this respect, maybe I also invite Dr Kou to  
21 supplement the information.

22 CHAIRMAN: Yes, Dr Kou.

23 DR KOU SIO KEI: Mr Chairman. So in an unrestrained or  
24 restrained passenger, if the occupant compartment  
25 collapses, say for example in the upper front part of  
26

1 the bus, it is the interior posterior type of  
2 compression that causes serious injuries to the occupant  
3 in the chest, which we have all the major organs inside,  
4 and also the abdomen and the pelvis, and we know that by  
5 this type of compression injuries, especially in the  
6 chest and pelvis, it would result in very severe and  
7 even fatal internal bleeding.

8 That's the reason why Mr Kwong noted that the upper  
9 front seats of a double-decker bus, the occupants  
10 sitting over there, whether they are restrained or  
11 unrestrained, they are at a higher risk. Thank you.

12 CHAIRMAN: It is right, is it not, from the photographs that  
13 I have seen and perhaps you have seen, that the front of  
14 the bus in the Tai Po Road accident on 10 February, that  
15 was severely damaged, was it not, the upper front of the  
16 bus?

17 If you have not seen the photographs, by all means  
18 say so.

19 MR JULIAN KWONG: Chairman. I have seen the photographs.

20 For that --

21 CHAIRMAN: Perhaps that's a different cause of damage.

22 MR JULIAN KWONG: I'm not always sure of the exact mechanism  
23 of that incident. When the bus rolls over, or topples,  
24 whether the buses topple directly onto the bus shelter,  
25 and it is the bus shelter structure intruding into the  
26

1 bus body that contributes to the high number of  
2 fatalities.

3 And that could be a reason, but I'm not always sure,  
4 until there's adequate evidence. As I mentioned in the  
5 report, we need to understand injury patterns and  
6 mechanisms. Because, say, if we are trying to introduce  
7 a particular measure, including seat belt, we need to  
8 understand that they can be very helpful for certain  
9 kinds of crash and injury mechanisms, but they may be  
10 not very useful for certain mechanisms. So that is the  
11 precise directions we are advocating, that we need to  
12 understand crashes and injuries in a much better way.

13 Thank you.

14 CHAIRMAN: Thank you.

15 MS MAGGIE WONG: And on this topic, Mr Kwong, and Dr Kou,  
16 may I refer you to your April 2018 paper at page 805, at  
17 the bottom. The topic on compartmentalisation, and also  
18 the rollover test to UNECE Regulation No. 66 at the  
19 bottom.

20 It referred to a:

21 "... widely accepted regulation requiring bus  
22 superstructures to have sufficient strength to maintain  
23 a defined volume of residual space integrity during and  
24 after a rollover test with the objective to promote  
25 passengers' survival."

1           Can you elaborate on this? Are you suggesting it is  
2           in fact a regulation requiring a bus manufacturer or  
3           operator to have a specific material used to ensure  
4           there is sufficient space/integrity? Maybe you can  
5           elaborate on that.

6       MR JULIAN KWONG: Okay. While admitting that I'm not an  
7           expert in vehicle design, I did try to study a number of  
8           documents related to bus superstructure design, and  
9           I came to understand that the rollover test to UNECE  
10          regulation No. 66, that is required for single-decker  
11          buses. The idea is that when a bus rolls over, it is  
12          very important that the superstructures does not deform  
13          excessively, otherwise the passengers inside will be  
14          compressed, and there is a real risk that they come into  
15          contact with the road because they are compressed during  
16          the rollover.

17          So they require that the superstructure remains more  
18          or less intact. But I also came to understand that this  
19          test applies to single-decker buses. There was  
20          a proposal in 2009 by an expert to the UNECE that  
21          double-decker buses should also be included.

22          I'm not sure whether the regulations have been  
23          updated, and I'm not sure whether double-decker buses  
24          have indeed been tested for rollover.

25          But I would like to add a point, that my  
26

1 understanding is that this rollover test is a simple  
2 rollover test, that means the bus toppling onto one  
3 side, without toppling onto objects like a bus shelter,  
4 a wall, a safety barrier, and railing, et cetera.

5 And secondly, the main emphasis is that the  
6 objective is to maintain the residual space integrity,  
7 passengers are subject to injuries in a number of ways  
8 when a bus rolls over. And this test will help a lot.  
9 But that is not the entire story. It cannot prevent all  
10 kinds of injuries.

11 In this sense maybe I would also like to see if  
12 Dr Kou has something to supplement.

13 DR KOU SIO KEI: In the case of a toppled double-decker, we  
14 need two things. One is that the superstructures  
15 remained intact, as Mr Kwong has mentioned. The second  
16 thing is we try to prevent the occupants inside the  
17 compartment to move excessively, either out of the  
18 window of the vehicle, or onto the other passengers  
19 inside the same compartment. Because if we know that if  
20 a person becomes unconscious but is still breathing, but  
21 then if there are two people of similar size on top of  
22 him or her, then he or she would very likely suffer from  
23 suffocation as a result of that external pressure by  
24 others.

25 That would be some of the points of consideration in  
26

1 cases of a toppling bus.

2 MS MAGGIE WONG: If we go back to the TD paper, TD-1,  
3 page 98, we were onto the electronic stability control  
4 and roll stability control system which is also  
5 mentioned in your paper at 786 as the electronic  
6 stability programme. Do you know much about this  
7 programme?

8 MR JULIAN KWONG: Again, I would like to say I am not an  
9 expert in vehicle design, but having read about the  
10 electronic stability control and the rationale, and also  
11 seeing that it is actually a mature technology,  
12 I consider in the report that it is something we would  
13 recommend, at least to be investigated in detail.

14 MS MAGGIE WONG: Yes, in fact the Transport Department has  
15 advocated this. If we look at page 100 in bundle TD-1,  
16 still in the same bundle, but in paragraph 15, same  
17 paper. If we look at paragraph 15 it stated:

18 "One of the bus manufacturers have advised that  
19 their new and existing buses have already been equipped  
20 with the [electronic stability control system]. As  
21 such, about 2.8 per cent of the [franchise buses] ... in  
22 Hong Kong procured from this manufacturer have been  
23 installed with the ESC."

24 That is the electronic stability control:

25 "The bus manufacturer further advised that one of  
26

1 the functions ... [is to use] electronic-controlled  
2 suspension for rollover protection ...

3 Based on the bus manufacturers' advice, their  
4 [electronic stability control] could already assist the  
5 vehicle back to track before the rollover situation  
6 begins. However, the bus manufacturers pointed out that  
7 even with the installation, a bus can still lose control  
8 due to inappropriate driving behaviour, eg aggressive  
9 driving. The bus would roll over if it is being driven  
10 off-road and the body angle is too high ... To improve  
11 bus safety, all FB operators agree to incorporate the  
12 requirement of installing ESC system ... for procurement  
13 of new buses."

14 That's the electronic stability programme. Do you  
15 know whether it has been widely used in UK, and in  
16 France, and in the programmes that you have undertaken?

17 MR JULIAN KWONG: I do not have information regarding the  
18 current extent of usage and for applications to public  
19 buses.

20 MS MAGGIE WONG: Yes. The other thing that you mentioned in  
21 your paper is the autonomous emergency braking system.  
22 That is in your paper at page 786. Can you elaborate on  
23 what this is.

24 MR JULIAN KWONG: For this paragraph, I mentioned that these  
25 features should be explored. Autonomous emergency  
26

1       braking system, as I understand, of course it is an  
2       intelligent system. When a vehicle detects that  
3       a collision is imminent, for example colliding with a  
4       pedestrian or colliding with a vehicle in front, then  
5       the system will be automatically activated to stop or to  
6       slow down the vehicles.

7           And I recommended this for a number of reasons.  
8       Rear-front collision is one of the most serious  
9       concerns. A bus rolling over, or falling down a cliff,  
10      of course that is a major concern, but rear-front  
11      collisions are more common, and that often happen on  
12      highways, often resulting in a lot of injuries, and the  
13      upper deck front passengers usually suffer severe  
14      injuries. Another one is pedestrian collision.

15           So on the understanding that some bus companies are  
16      already introducing such systems, whether definitely or  
17      as trials, I thought that that would be a good feature  
18      to be explored. Thank you.

19   MS MAGGIE WONG: And if we go back to the TD paper,  
20      page 102, that's TD-1, page 102, on speed display  
21      unit --

22   CHAIRMAN: Before we move on, what was the result of the  
23      consideration by the working group on adopting advanced  
24      technology as far as this is concerned?

25   MS MAGGIE WONG: I believe they have not touched on this  
26

1 subject. Can I go back to ...

2 CHAIRMAN: Is this addressed under the heading "Collision  
3 prevention" at page 103 of TD-1? There are two matters  
4 being dealt with there, one is keeping lanes, but the  
5 other seems to be dealing with what Mr Kwong has been  
6 calling front to tail of a collision.

7 So one is keeping you in a lane, and the other is  
8 avoiding a collision with a vehicle in front because you  
9 are too close, or the vehicle has stopped and you have  
10 not, and also with pedestrians.

11 MS MAGGIE WONG: Yes, that's correct. That's page 103 to  
12 104.

13 If we look at page 103 at the bottom, the last three  
14 lines, paragraph 24:

15 "When the bus gets too close to the vehicle in  
16 front, a signal (audible and/or visual) will alert the  
17 driver. Some systems offer collision warning with the  
18 brake support. If the driver does not react after the  
19 collision warning, the brake support function will  
20 activate the braking system to react quickly and hence  
21 the brakes will be applied. In the event of an imminent  
22 crash and the driver has not applied the brakes, some of  
23 the new systems that are available in the market would  
24 apply heavy braking automatically to help reduce the  
25 impact of the crash."

26

1           Then it sets out a photo show activation of the  
2           collision prevention system. The Transport Department  
3           is also mentioning the three bus manufacturers' reaction  
4           to this. It is at paragraph 26:

5           "All the three bus manufacturers advise that there  
6           are in-built or third-party lane keeping systems ...  
7           However, they have reservation in the installation of  
8           such device on the [franchise buses] as the traffic in  
9           Hong Kong is heavy and frequent lane changing is  
10          required ..."

11   CHAIRMAN: Isn't this dealing with a separate topic?

12   MS MAGGIE WONG: Yes.

13   CHAIRMAN: One is avoiding front-tail collision and the  
14           other is lane keeping. Is there any response to  
15           avoiding collisions?

16   MS MAGGIE WONG: I think it is at the last line:

17           "In sum, the FB operators do not consider that the  
18           installation of collision prevention and lane keeping  
19           devices are effective for enhancing the safe operation  
20           of FB services."

21   CHAIRMAN: Thank you.

22   MS MAGGIE WONG: So the FB operators, that's the franchised  
23           bus operators, seem to take a different view as to the  
24           efficiency of this prevention collision system. That's  
25           why I would like your experience in this. Because in  
26

1           your paper you did raise this as one of the devices that  
2           you consider of some use.

3           How would you respond to this?

4       MR JULIAN KWONG: Of course, the introduction of any new  
5       systems would need to be thoroughly discussed with the  
6       bus operators, and also to have the feedback from bus  
7       drivers.

8           It can create problems if we have too many systems  
9       causing distractions and difficulty of usage or any  
10       unwanted effects.

11          However, I recommend the study of collision  
12       prevention system, that is the autonomous braking  
13       system, is based on the prevalence of rear-front  
14       collisions, and the implications, and also that a number  
15       of operators overseas have introduced the system or are  
16       seriously having trials of the system. What I'm not  
17       sure from this paragraph is the rationale that the FB  
18       operators do not consider them effective.

19          Whether the discussion is just they do not want it,  
20       or they have some good justification of not doing that,  
21       or whether they are willing to at least conduct some  
22       trials, so I cannot comment on this due to the lack of  
23       information. Thank you.

24       CHAIRMAN: Well, to help you, it is my memory that we  
25       received some information from Citybus that they had

26

1 conducted a trial of such a system, and they had found  
2 it distracting, too many alarms going off, and so on.  
3 But perhaps that could be found after we take a break,  
4 and you can be taken to what that evidence was so that  
5 you can see what the rationalisation was.

6 If I could ask you to look that up, Ms Wong.

7 MS MAGGIE WONG: Yes.

8 CHAIRMAN: It is my memory it came in the oral evidence of  
9 Citybus. I know one of these devices is called  
10 Mobileye, but there may have been another device that  
11 was used by Citybus.

12 MS MAGGIE WONG: Yes.

13 CHAIRMAN: We are going to take a break of 20 minutes, and  
14 then we will resume with your evidence. Thank you.

15 (11.17 am)

16 (A short break)

17 (11.41 am)

18 MS MAGGIE WONG: Before the break, we were discussing about  
19 a number of issues. In response to the chairman's  
20 question about the evidence of one of the bus operators,  
21 Citybus, of this collision or lane keeping device, can  
22 we go to transcript bundle TSCP-1, at Day 4 of the oral  
23 session at page 49.

24 It should be TSCP-2 bundle, at pages 49 to 51.

25 The question by Mr Duncan, that's the counsel,  
26

1 leading counsel for the Committee, at line 19. Mr Chung  
2 is representing the Citybus in relation to technological  
3 device, and he asked Mr Chung:

4 " ... if I could then ask to you look at  
5 paragraph 26 [which is the paragraph we have looked at].  
6 It records the fact that 'the ... bus operators do not  
7 consider that the installation of collision prevention  
8 and lane-keeping devices are effective for enhancing the  
9 safe operation of franchised bus services', and  
10 I believe this for the reasons that you can see earlier  
11 in paragraph 26. Is that the case?

12 MR WILLIAM CHUNG: Correct.

13 MR DUNCAN: So do I understand correctly then that  
14 as far as the company is concerned, it is not proposing  
15 to pursue that possible device any further?

16 MR WILLIAM CHUNG: Let me first of all explain.  
17 Such a device, in the year 2014, our company did carry  
18 out a test of such devices. This is called Mobileye.  
19 Mobileye is a driving assisting device. At that time,  
20 it was mainly applied to private cars. What was  
21 involved was that they would use the visual aid to  
22 detect what is in front and then the system will carry  
23 out an analysis and then calculations would be made as  
24 to the distance between the subject vehicle and the  
25 preceding one and the following one, and then come up  
26

1 with an idea about the time of collision, then warning  
2 signals would be sent to the driver.

3 At the time we fitted this Mobileye on three of our  
4 buses, we carried out a trial scheme for four months.  
5 We made arrangements for representatives of different  
6 trade unions, that is bus captain representatives, as  
7 well as 50-plus bus captains to drive such buses, that  
8 is three of them, in their normal service, and after  
9 that they were asked to fill out a questionnaire for us,  
10 telling us what they think about this device called  
11 Mobileye.

12 So the findings were such that some of the alerts  
13 were not quite suitable for use on buses. Say, for  
14 example, when the bus pulls up at a bus bay, since it is  
15 detected that there are people in front of the bus, as  
16 you know there are passengers waiting at the bus stop,  
17 so when people are detected then there will be an audio  
18 signal. Well, in fact the driver hasn't yet  
19 straightened the bus and so a signal would also be sent.

20 Moreover, when the bus is stopped too close to the  
21 preceding bus, this will be a signal to be sent out in  
22 the case of when the traffic is slow. As a result, it  
23 means that the warning signals are emitted many times  
24 during a journey. 46 per cent of the bus captains told  
25 us in the questionnaire that there were too many warning  
26

1 signals and it was causing a nuisance to their driving,  
2 and as a result they ignored the signals, and then  
3 50 per cent of the drivers told us that the Mobileye  
4 didn't help in their safe driving.

5 So having considered the functions of this Mobileye  
6 and having taken into account the views of our bus  
7 captains, moreover there is a high cost involved in the  
8 installation, we as a result decided against following  
9 up on the idea.

10 So that's our experience. We shared our experience  
11 at the meeting."

12 So that's the transcript.

13 And if I may also take you to the report, that it is  
14 mentioned in the evidence. That is in CTB-3. Page 601.

15 That's the first page, that's the Mobileye trial  
16 result.

17 At page 603 it referred to the time when this trial  
18 was carried out: Background, second paragraph you can  
19 see it was carried out in 2014, and if you look down at  
20 paragraph 2, the second paragraph, Mobileye trial:

21 It was split into two phases, and the second  
22 paragraph:

23 "Questionnaires were sent to 13 union  
24 representatives and 54 bus captains who had driven the  
25 test buses to collect their feedbacks ..."

26

1           And then if we go to page 609, it is setting out the  
2           conclusion and recommendation. Paragraph 5:

3           "Bus captain's acceptance.

4           50 per cent of bus captains opined that the Mobileye  
5           was not helpful for driving safety and 44 per cent of  
6           bus captains opined that the alerts of the Mobileye  
7           caused usance to driving. The suitability and  
8           usefulness of the Mobileye is questionable. Hence it is  
9           not recommended to go ahead with the Mobileye."

10          Lastly, in the recent paper submitted by the  
11          Transport Department in May 2018 for completeness,  
12          that's at TD-5, page 1691 at paragraphs 12 to 13, you  
13          can see at paragraph 12, the fifth line from the bottom  
14          of paragraph 12 it mentioned:

15          "... the collision prevention lane keeping device  
16          ... were tabled for discussion at the [working group].  
17          It was agreed at the [working group] meeting that the  
18          feasibility and applicability of the ... on-bus devices  
19          would be further deliberated in the technical  
20          sub-working group."

21          And paragraph 13, I believe right in the middle. It  
22          stated that:

23          "... no final decisions have been made on the  
24          proposals of the new technology. It is expected that  
25          a report on the recommended safety-enhancement measures  
26

1           and facilities to be installed on buses will be released  
2           in June/July 2018."

3           So for completeness, no final decision has been  
4           made, but only Citybus has done a trial result, based on  
5           the 54 bus captains' experience.

6           Given the information in front of you, would you  
7           like to comment on the information, because in your  
8           report you recommended this autonomous braking system,  
9           emergency braking system, would you like to make further  
10          comments on this area?

11   CHAIRMAN: I think to be fair to Mr Kwong he recommended  
12          that it be tested, not that you gave a blank cheque that  
13          it was recommended to be used.

14   MR JULIAN KWONG: Chairman, yes. We have recommended that  
15          it is explored, and everything is subject to evidence  
16          and practicality.

17   CHAIRMAN: Am I right in remembering, Ms Wong, that Mobileye  
18          or Mobicon is in use with other bus companies elsewhere  
19          in the world? Is it not in use in London?

20   MS MAGGIE WONG: Yes, it was an equipment used I believe in  
21          England, in a study, and that is why it was proposed to  
22          be used in Hong Kong.

23   CHAIRMAN: But has it not been used more recently in London,  
24          subject to this 2014 test?

25   MS MAGGIE WONG: Yes. In a recent report. We will find out  
26

1 the relevant references for you in due course.

2 May I move on to another --

3 CHAIRMAN: One reason it may not be useful in Hong Kong is  
4 bus drivers drive centimetres away from the bus in front  
5 of them, particularly when they are slow moving, and no  
6 doubt that does cause irritating alarms, but presumably  
7 one can set a distance setting for the alarm going off,  
8 and if you are driving so close that a pedestrian can't  
9 even walk in front of the bus as the bus is stationary,  
10 it is not surprising there are lots of alarms.

11 MR JULIAN KWONG: Chairman, yes. I think we need to  
12 understand more about the threshold and criteria, and  
13 also this equipment will be advancing all the time, the  
14 technology, so I recognise that Citybus has done a very  
15 good trial, and they did a survey afterwards, and I have  
16 no comment on that, but the main reason we are  
17 recommending that such systems are explored is based on  
18 a need, the need being that we have rear-front  
19 collisions which are really serious, and then we also  
20 have the risk of collisions with pedestrians, and such  
21 systems, if they are matured enough, may be a very good  
22 measure to mitigate our problems.

23 But, of course, everything will be subject to  
24 trials, and also we need to prove that it really works.  
25 Thank you.

26

1 CHAIRMAN: Thank you.

2 MS MAGGIE WONG: Thank you. And before we move away from  
3 this TD paper, may I ask a few questions about some of  
4 the proposals suggested by the Transport Department.

5 One of them is the speed display unit, at page 102  
6 of TD-1. That's the paper 8 in relation to the new  
7 technology. At paragraph 21, the last line, it  
8 mentioned that the existing speed display unit installed  
9 on a public light bus may resemble the installation of  
10 the proposed device on a franchised bus is shown in  
11 figure 6. And then if we go over the page at  
12 paragraph 22, it sets out the response of the franchised  
13 bus operators, near the end of paragraph 22:

14 "In addition, the FB operators are concerned that  
15 SDU would create conflicts and arguments between the bus  
16 captain and passengers, and impose additional pressure  
17 on the bus captains which in turn would affect the  
18 safety for bus driving. The FB operators consider that  
19 the SDU is not conducive in enhancing bus safety."

20 We all know that the speed display unit has been  
21 installed in public light buses, but what would you say  
22 about the response made by franchised bus operators as  
23 to the efficiency of this unit in terms of enhancing bus  
24 safety?

25 MR JULIAN KWONG: Thank you. I understand the standpoint,  
26

1 but from our point of view it would be whether such  
2 installation would be really helpful to road safety.  
3 That would be our major concern.

4 May I just point out that in our report submission  
5 we did mention about the term "speedometer", but in our  
6 submission, we were talking about speedometer in digital  
7 display for the driver, as opposed to the current  
8 analogue display for the drivers.

9 That is important because we need to first make sure  
10 that drivers are aware of what speeds they are using.  
11 Sometimes they may not be deliberately exceeding the  
12 speed excessively. But current display, it seems that  
13 drivers would find it difficult to read the analogue  
14 display, because of the position, and also it is not  
15 digital. So that was our recommendation that there  
16 needs to be a fairly prominent digital display for the  
17 driver at the right position.

18 But then coming to the second point about  
19 speedometer installation for passengers. After we came  
20 to know about this proposal, I also had some thoughts.

21 For passengers to make complaint or to tell the  
22 drivers, I'm not too sure whether that will be an  
23 effective way. But one possible use of such speedometer  
24 display is to enhance inspectors. To quickly gather  
25 information where, whether bus drivers have been grossly  
26

1           violating speed limit, or the pre-defined protocols for  
2           speeds at different location or in general.

3           And that could be a possible benefit. But as  
4           I mentioned, relying on passengers to make complaints,  
5           from my experience, I'm not too sure whether that would  
6           be really effective, given the cost of installation.

7           So that needs to be -- I think it would be better  
8           always to study it in more details, maybe to have some  
9           trials. Thank you.

10          CHAIRMAN: When you say passengers' complaints are not too  
11           useful. Do you have in mind passengers complaining to  
12           the bus on the stop to the bus captain?

13          MR JULIAN KWONG: You mean according to my experience?

14          CHAIRMAN: No, when you say you don't think it would be too  
15           useful to enable passengers to complain, do you have in  
16           mind that the passengers might complain to the bus  
17           captain in real time on the spot?

18          MR JULIAN KWONG: Yes, Chairman. I would like to say that  
19           I would not make a conclusion now, but it is not easy to  
20           decide on that, because we have to look at the  
21           behaviour, and also to look at how it works in reality.  
22           Because most passengers I presume they do not care -- as  
23           long as the bus is not going as crazy speeds. They may  
24           not be aware that, say, for example, I mentioned that on  
25           busy urban street, going at 45 or 50 kilometres per hour  
26

1 is already dangerous. Passengers may be more interested  
2 in getting to their destination in time, and they may  
3 not be so sensitive to small variations in speed.

4 Of course if the bus driver is going at a grossly  
5 excessive speed, then that is a problem. That may help  
6 passengers talking to the bus drivers, and to stop his  
7 behaviour in time.

8 But that is also going to be difficult, because in  
9 that situation the driver would already know very well  
10 that he is going at much faster speed than his company,  
11 or the legal speed limit would permit: and the passenger  
12 talking to him directly whilst he is driving, that could  
13 be seen as an aggression.

14 So these issues could be complicated. So to  
15 conclude, I would like to say that if we concentrate on  
16 this usage of the speedometers, I am not yet sure  
17 whether that is going to contribute a lot to bus safety,  
18 but we can always investigate this issue in more detail,  
19 thank you.

20 CHAIRMAN: The Transport Department has a complaint  
21 telephone number, does it not?

22 MR JULIAN KWONG: Chairman, yes. I think --

23 CHAIRMAN: Have you examined the mechanism for this  
24 complaints? How one makes the complaints?

25 MR JULIAN KWONG: Chairman, as far as I understand, there  
26

1 are a number of channels.

2 CHAIRMAN: There is a form, isn't there?

3 MR JULIAN KWONG: There is a form and you can --

4 CHAIRMAN: Does that form have a box that says "bus  
5 excessive speed"?

6 MR JULIAN KWONG: Chairman, I'm not aware of that.

7 CHAIRMAN: I have looked at it, and I can't find it. But  
8 perhaps you might consider this scenario: if a passenger  
9 was concerned about the speed at which a bus was being  
10 driven -- and the manner, because speed by itself is not  
11 necessarily dangerous, is it?

12 MR JULIAN KWONG: Can you repeat?

13 CHAIRMAN: Speed by itself is not necessarily dangerous.

14 MR JULIAN KWONG: Yes, it is not only speed, it is the  
15 degree of conflict, and in what context.

16 CHAIRMAN: Yes. Well, since there is a complaint mechanism,  
17 would it not assist if the passenger on the bus would  
18 have his suspicions confirmed that the bus was actually  
19 going, say, 65 kilometres an hour and not 50 in a 50  
20 zone, and all the passenger has to do is use the iPhone  
21 that he is already using for other purposes, to take  
22 a photograph, and then he e-mails the photograph to the  
23 transport complaint unit, and then you have a photograph  
24 of the speed, and perhaps also where the bus was.

25 MR JULIAN KWONG: Chairman, that is a very good idea, and in  
26

1       that case I think there needs to be some thought on how  
2       we position that speedometer display, considering, for  
3       example, you take the picture, and together you take the  
4       picture of the road ahead, so that there can be a proof  
5       of where the bus is, and maybe the display also has the  
6       number of the bus, the registration plate, and also that  
7       that is positioned at a location where the bus drivers  
8       will not be able to see that the bus passenger is taking  
9       the photograph, to avoid any direct conflicts between  
10      the driver and the passenger.

11     CHAIRMAN: Thank you.

12     MS MAGGIE WONG: Mr Kwong, if I may take you to the last  
13       proposed device proposed by the Transport Department.  
14       It is the driver monitoring device at TD-1, page 105.  
15       Paragraph 27.

16             This was a device that was said to monitor driving  
17       performance and alert the driver if it detects a lack of  
18       attention or drowsiness, and if we jump a line:

19             "When the system detect potential unsafe behaviours,  
20       such as 'looking aside', 'dozing', 'drowsiness' or 'bad  
21       posture', the system will give visual warning and voice  
22       alert to the driver."

23             We go over the page:

24             "All three bus manufacturers have advised that these  
25       systems are third-party system and standalone ... It is  
26

1           technically feasible to monitor the bus captain's status  
2           but will also pose unnecessary nuisance to the bus  
3           captain when there is a false alarm. Two FB operators  
4           advise that they would install a similar system in four  
5           of their buses for a trial of 3 months tentatively  
6           starting from early May 2018. The TD, in collaboration  
7           with the FB operators concerned, will assess the  
8           effectiveness of the system upon completion of the  
9           trial."

10           First, Mr Kwong, have you heard about this driver  
11           monitoring device system before?

12       MR JULIAN KWONG: I am aware of such systems, but I have not  
13           gone into the details of such system. Fatigued driving,  
14           or inattention certainly is a possible factor for road  
15           crashes.

16           But again, whether such systems would be beneficial,  
17           then we need to look at whether such problems mentioned,  
18           back posture, inattention, et cetera -- really account  
19           for large proportions of our crashes for buses.

20           So I am open to that, but I cannot give too detailed  
21           comments at this stage, thank you.

22       CHAIRMAN: Is fatigue an issue, a risk, in Hong Kong  
23           franchised bus drivers? How do you assess that?

24       MR JULIAN KWONG: Chairman, I presume that fatigue will be  
25           related to the number of hours of driving, rest hours,  
26

1 but it would also depend on individuals. For one reason  
2 or the other, that he is tired. On this topic, in our  
3 report we have not devoted a lot of writing on that,  
4 because I have not studied this issue. Although in some  
5 other parts where I have been working, for long distance  
6 driving we need to care a lot about the possibility of  
7 fatigue driving. In Hong Kong I think we need to look  
8 at that. Because any system we are trying to introduce,  
9 that should be tied up with the real crashes we are  
10 facing, and also the risks we are facing. So I can only  
11 say this for the moment. Thank you.

12 CHAIRMAN: Are you aware of any attempt to study the risk  
13 factor of fatigue driving, in questionnaires? Any  
14 surveys? The examination of accidents? Are you aware  
15 of anything like that? Empirical data.

16 MR JULIAN KWONG: You mean in Hong Kong?

17 CHAIRMAN: Yes.

18 MR JULIAN KWONG: Chairman, I'm not aware of that.

19 MS MAGGIE WONG: Prior to the break, Mr Kwong, we are  
20 discussing about the structural strengths of the upper  
21 deck front of the buses, and the potential hazards to  
22 passengers sitting at the front of the vehicle, upper  
23 deck of the vehicle.

24 And I would like to show you a photo of the Tai Po  
25 accident which touched on this. May we pull up the  
26

1 photo. We can see a photo of the incident showing,  
2 I think the upper deck, the front portion has been  
3 completely damaged. And does this help you to explain  
4 your statement about having safer bus fronts as set out  
5 in paragraph 5.5 of your April report?

6 MR JULIAN KWONG: Looking at this picture, I would consider  
7 that to be a composite collision. There are many  
8 possibilities of crash scenarios. The simple one would  
9 be the bus colliding directly with an object, with a  
10 tall object like a container truck in the front,  
11 colliding with a bridge pier, colliding with a lighting  
12 column, colliding with a projected canopy of a building.  
13 But for this one it is probably a composite collision.  
14 Maybe the bus has collided with the bus shelter, which  
15 is high enough to damage the upper deck structure.  
16 Maybe it has also collided with a lighting column, but  
17 at the same time the bus also rolls over.

18 As I mentioned earlier, the bus could have rolled  
19 over directly onto the bus shelter, and in this process  
20 the bus shelter also contributed to the destruction of  
21 the bus front and also the side of the bus, or even  
22 directly intruded into the bus compartment, directly  
23 injuring the passengers inside.

24 But without further evidence, this is just  
25 speculation.

26

1 CHAIRMAN: We don't need to speculate. Others can tell us  
2 the result of their examinations.

3 MR JULIAN KWONG: Chairman, yes, hopefully. We consider  
4 that understanding crash mechanisms and also injury  
5 mechanisms is really important for the formulation of  
6 evidence-based strategies and measures. Thank you.

7 MS MAGGIE WONG: Yes. Mr Kwong, the Committee has made  
8 further enquiries after your submission in relation to  
9 some of the articles published on your website, because  
10 we are on this topic about transport data.

11 If we look at page 820-1, and if we scroll down,  
12 paragraph 8.

13 It is stated that in your web page there is  
14 a section called the "Traffic Speed Data". And you  
15 explained that you agreed to publish this on the  
16 Committee's website, but due to resources you state this  
17 task is intermittent and not systematic at the moment:

18 "We are doing it ourselves and in partnership with  
19 interested parties. Tonight, (11 July ...) we are  
20 meeting some interested group of young people to conduct  
21 new surveys."

22 And you have done, I believe, a few selected  
23 locations. TST, Sham Shui Po, Route Twisk, and then  
24 over the page, Lyttleton Road, and Tai Hang Road, and  
25 you stated that:

1            "In support of the Fourth United Nations Global Road  
2            Safety Week with the theme 'Save Lives Slow Down'  
3            in May 2017, CRS collaborated with a district councillor  
4            and a professional producer to produce a short movie to  
5            raise awareness. The target road site is Tai Hang Road.  
6            Below is a captured photo of the video. The speed of  
7            some vehicles was even well beyond 80km/h at night."

8            May I first of all ask, Mr Kwong, this is obviously  
9            a study you have done on your own initiative in  
10           collaboration with other interested parties, yes?

11        MR JULIAN KWONG: For this Tai Hang Road, yes, we are happy  
12           to collaborate with any parties interested in the topic.  
13           We make it non-profitable, politically we are neutral.  
14           So we just need people to collaborate because we are  
15           trying to bring the message out to increase the  
16           awareness within the society. And conducting speed  
17           limit is very time consuming, it is manual work. So  
18           that is why we have not been doing that systematically  
19           as we would like.

20        MS MAGGIE WONG: Yes. What equipment -- we have seen  
21           a photo here. Is that a laser gun that you use by your  
22           partners in detecting the speed limit of certain  
23           vehicles?

24        MR JULIAN KWONG: That's true, it is a laser gun with the  
25           model name Tru Speed, so that is a speed gun which I own

26

1           myself.

2       CHAIRMAN:   Who is the manufacturer?

3       MR JULIAN KWONG:   The manufacturer, as I understand, is  
4           Laser Technology.

5       CHAIRMAN:   Is this a device that is used by law enforcement  
6           organisations either here or elsewhere?

7       MR JULIAN KWONG:   Chairman, as I understand, that is  
8           correct, but it also depends on the model.

9       CHAIRMAN:   Is it used in Hong Kong?

10      MR JULIAN KWONG:   Chairman, yes.

11      CHAIRMAN:   What is the model that you were using?

12      MR JULIAN KWONG:   This model, as I mentioned, that would be  
13           the Tru Speed model.   The exact number I cannot  
14           remember, but I understand that this model has been used  
15           by the police as well.   There are some newer models  
16           which they are using.

17      CHAIRMAN:   How old is this model?

18      MR JULIAN KWONG:   Chairman, this model, I purchased probably  
19           in the year of 2011.

20      CHAIRMAN:   In this or in any other survey, have you  
21           deliberately sought to monitor the speed of franchised  
22           buses?

23      MR JULIAN KWONG:   Chairman, we have not conducted speed  
24           surveys specifically for franchised buses, although this  
25           is ideal, because if we look at bus safety, then I would

26

1           really want to look at the speed of buses specifically.

2           But I did conduct some casual speed check for buses from  
3           time to time.

4   CHAIRMAN: Did you choose particular locations to do this  
5           at?

6   MR JULIAN KWONG: Chairman, one location that I would like  
7           to quote is that some years ago, I went to Des Voeux  
8           Road Central, I looked at the -- because I wished to  
9           look at the speed of buses going from the direction from  
10          east to west, to see exactly what type of speeds they  
11          are using. And this section of Des Voeux Road Central  
12          is where many pedestrians cross the road without  
13          a pedestrian crossing. And the purpose of my doing this  
14          exercise was to see what speed a bus driver will use if  
15          they are trying to overtake a bus stopping at the bus  
16          stop.

17                The reason I am interested in this is that the  
18          stopped bus will obscure any pedestrian trying to cross  
19          in front. If the bus is going at excessive speed it is  
20          not going to be able to stop in time, and I compared  
21          some guidelines, for example, from Canada, there is  
22          a recommendation or a rule saying that if the bus, the  
23          transit bus has to overtake a stopped bus or a stopped  
24          vehicle, then it should not go beyond the speed of  
25          30 kilometres per hour.

26

1           And that was a very casual exercise for me, but then  
2           at that time the highest speed I noted was 49 kilometres  
3           per hour. But admittedly, I did not check too many  
4           buses. I only check five or six buses.

5           Recently I also did some speed check, because  
6           a newspaper reporter invited me to do a filming, an  
7           interview on Des Voeux Road Central. So again, I used  
8           the speed gun to have a casual check of the buses going  
9           by, and on that occasion many buses will go in the  
10          range of 30 to 35 kilometres per hour. That is the  
11          buses going freely, they are not obstructed by anything.

12          One bus, the highest speed I recorded was  
13          42 kilometres per hour.

14          The rationale of my doing this is not to prove that  
15          buses are going at excessive speed. Another main  
16          purpose is to see what speeds the sensible drivers will  
17          be using.

18          So from my point of view, 30 to 35 kilometres per  
19          hour is sensible. Thank you.

20   MS MAGGIE WONG: Mr Kwong, thank you for sharing this with  
21          us.

22          About this radar gun, have you maintained it from  
23          time to time when you use it, or is it in good  
24          maintenance?

25   MR JULIAN KWONG: Yes. That is in good maintenance. I have  
26

1 to do calibration from time to time. From my  
2 understanding, laser guns -- I mean this one is a laser  
3 gun as opposed to a radar gun, normally it does not  
4 require calibration all the time, but for accuracy  
5 purpose I need to do two tests. If I pass these two  
6 tests then normally there shouldn't be any particular  
7 problems.

8 I would usually do these tests from time to time.  
9 Thank you.

10 CHAIRMAN: What is the margin of error of this device,  
11 according to the manufacturers?

12 MR JULIAN KWONG: Chairman, I do not have the exact figures,  
13 but my understanding is that laser guns are very  
14 accurate. That means the error would be well within the  
15 need as far as our purpose is concerned.

16 CHAIRMAN: Can you put a figure on that?

17 MR JULIAN KWONG: I would presume that would be 1 to  
18 2 per cent, at most 3 per cent.

19 CHAIRMAN: Thank you.

20 MS MAGGIE WONG: Apart from the locations that you have  
21 identified in the document at pages 820-1 and 820-2 of  
22 MISC-2 bundle, have you in collaboration with the other  
23 interested parties considered exploring other locations  
24 as well?

25 MR JULIAN KWONG: I would like to give you an example.  
26

1           We were referred to by a social worker in Tsuen Wan,  
2           that residents were concerned about the safety of  
3           a zebra crossing near their village. They considered  
4           the traffic speed too high. And at that time I have  
5           some free time, so I agreed that we collaborated to do  
6           a speed survey at Route Twisk in Tsuen Wan, around the  
7           zebra crossing.

8           The way it worked is I trained the villagers up to  
9           use the speed gun correctly, and then they conducted the  
10          surveys by themselves.

11          In the end, for that exercise, they conducted the  
12          survey for 800 vehicles.

13          Normally, at any single location in order to produce  
14          a speed distribution graph we need at least 100  
15          vehicles.

16   MS MAGGIE WONG: Do you have a report of that Route Twisk  
17          data, the speed data report?

18   MR JULIAN KWONG: Yes. That report, I think I have supplied  
19          to you. I would like to declare that because of some  
20          difficulties of transforming the report from simplified  
21          Chinese to traditional Chinese font, and the report  
22          I replied to you is in simplified font, but that is  
23          still the one I handed into them. Thank you.

24   MS MAGGIE WONG: Thank you.

25          If I may go back to your report, and continue with  
26

1 the third area, which is the road design. That's also  
2 at page 786 of this bundle, MISC-2 bundle, the road  
3 design.

4 And you suggested also a number of suggestions, six  
5 in total, about the road design and traffic management  
6 that are crucial for bus safety. The first is adequate  
7 safety barriers; second is the elimination of sloping  
8 end terminals or similar features at high risk sites;  
9 third is the widening of blind bends on certain old  
10 roads; fourth, reduce speed limit in urban areas; fifth,  
11 safe crossing facilities; and lastly, better protection  
12 of waiting passengers at bus stops on major busy roads.

13 Can we go to safety barrier first. I think you  
14 elaborated on that at page 808. In this section you  
15 referred to this as important to contain an errant  
16 vehicle from colliding with roadside hazardous objects  
17 falling off the slope.

18 And you use the Tuen Mun bus crash report in 2003,  
19 and you make reference to a parapet. And I'm going to  
20 refer you to that Tuen Mun report. If we may go to  
21 bundle SEC-1, page 1 is the first page, and then if we  
22 go to paragraph 16 and 17 at page 10 to 11: if we look  
23 first at paragraph 15, it states that:

24 "Parapets are protective devices designed to reduce  
25 the severity of an accident. They provide a passive  
26

1 line of defence and are not the cause or a contributory  
2 factor of an accident.

3 16. After examining local and international  
4 standards, the panel considers that the existing parapet  
5 design ... adopted by the Highways Department ... are  
6 generally in line with the international practices."

7 Then if you jump a few lines:

8 "However, there is room for enhancement at critical  
9 locations where penetration of the vehicular parapet may  
10 result in catastrophic consequences. The panel  
11 advocates a total safety management approach ..."

12 And if we go to paragraph 17, it mentioned something  
13 about:

14 "... a strong parapet designed to a high containment  
15 level may stop a heavy vehicle in the desired manner,  
16 but may cause considerable damage to a small  
17 vehicle ..."

18 And then if we jump a few lines:

19 "For enhancement of parapet design in the long term,  
20 the panel recommends that the [Highways Department]  
21 expand the range of containment levels, in particular at  
22 the high end, and review the parapet height ... The  
23 panel also recommends that [Highways Department]  
24 continue to monitor the development of multiple  
25 containment parapet overseas ..."

26

1           If we go to page 109, at paragraph 9.38 it sets out  
2           the figures mentioned there for a double-decker bus, the  
3           simulation result for a double-decker bus for a speed of  
4           60 kilometres an hour, the angle of impact is  
5           10 degrees.

6           I believe you stated these figures in your report at  
7           page 808, MISC-2 bundle. In this section at paragraph 3  
8           you stated that:

9           "Some viaducts are not yet equipped with L3 safety  
10          barrier. According to the Tuen Mun Road report ... the  
11          earlier generation of 'P2' has been verified by  
12          simulation to contain a bus at 60km/h at 10 degrees.  
13          The significance of such knowledge is to set  
14          route-specific operational protocols for bus operation.  
15          As an example, where P2 parapets are used, the speed of  
16          buses will be limited to 60km/h and travel on the left  
17          lane. This will ensure that an errant bus will not  
18          exceed the performance of the parapet."

19          Can you explain this. So if a bus is driving at  
20          70 kilometres per hour, does it mean this parapet is not  
21          going to work?

22   MR JULIAN KWONG: Okay. Thank you. Chairman, first of all  
23          I would like to declare that I myself, as put forward  
24          right in the beginning of this session, I am involved in  
25          this project at the moment for government. But what I'm  
26

1 going to say, actually relates to what I have been  
2 raising all the time since probably at least 10 years  
3 ago. So I'm not going to touch on anything related to  
4 the project I'm working on. But anything I'm going to  
5 quote, I have the knowledge independent of the project  
6 I'm working on.

7 So to answer your question, the idea here is to set  
8 protocols or rules for bus driving, we need to  
9 understand the capacity of our road design, for example  
10 in relation to the capacity of the safety barriers. For  
11 this particular case, it is just an example, if the bus  
12 is going at 70 kilometres per hour, at the same impact  
13 angle, that I think according to the report would be  
14 20 degrees. The report said that it has been tested,  
15 but only by computer simulation, at 60 kilometres per  
16 hour and 20 degrees. So I would like to see that there  
17 is an increased risk that the bus will overcome the  
18 barrier.

19 But of course we need to understand that these tests  
20 are often based on a particular speed, particular angle  
21 of collision, and also a particular weight of the bus.  
22 It depends on the number of passengers inside.

23 So it means that in the case I quoted, it is not  
24 certain that there could be a chance of the bus  
25 overcoming the parapet.

26

1 I believe that if there is more information about  
2 different parapets, and safety barriers on different  
3 roads, that would provide a very good indication and  
4 good data for the government or the bus operators to  
5 formulate better route-specific protocols for their  
6 drivers. Thank you.

7 MS MAGGIE WONG: And on page 808 you identify eight roads  
8 where there are no safety barriers at all. That's  
9 Repulse Bay Road, Tai Tam Road, Peak Road, Stubbs Road,  
10 Pokfulam Road, Tai Po Road, Clear Water Bay Road, Keung  
11 Shan Road.

12 Of course I'm not going to the consultancy brief  
13 report, but have these matters been raised by you with  
14 the Transport Department before the consultancy brief,  
15 or is this the first time you raised this, in this  
16 report?

17 MR JULIAN KWONG: Chairman, these issues and what is stated  
18 in this report have been raised for a number of years,  
19 and also compilation of this report was prior to my  
20 involvement in the consultancy study you just mentioned.

21 CHAIRMAN: With whom did you raise these concerns?

22 MR JULIAN KWONG: Chairman, usually we would raise the  
23 concern to relevant government departments, such as  
24 Highways Department, Transport Department. I have  
25 forgotten whether I did raise it, say, to the Bureau.

26

1 CHAIRMAN: What response, if any, did you get? We are  
2 looking at a road with what looks like a stone wall on  
3 a steep slope. What response did you get when you said,  
4 "Why isn't there a safety barrier here?"

5 MR JULIAN KWONG: Chairman, I have forgotten the exact reply  
6 I got, but I presume that they understood, and I can  
7 remember that there was an interest in that, and that  
8 they have done something about that, but then of course  
9 the problem is very extensive. And I have to keep on  
10 repeating the same message to these departments.

11 So it is an ongoing issue. My only interest is  
12 whether something has been improved. So I do not know  
13 exactly what is going on inside government, but I only  
14 make the comments out of what I see at the site.

15 CHAIRMAN: And that's why it is ongoing? Because you see  
16 the same thing, year after year?

17 MR JULIAN KWONG: Chairman, yes. That's true.

18 But of course there may have been local improvements  
19 for some particular sites, but this is one site, the  
20 pictures show one site which I would consider to be  
21 highly risky. Thank you.

22 MS MAGGIE WONG: May I just show one specific example of the  
23 Tai Po Road section where -- as we have stated earlier,  
24 the Tai Po accident happened in February and the  
25 Transport Department was able to reduce the speed limit,  
26

1 make changes to the road traffic signs, and on the road  
2 markings within two months.

3 And if I can show you the Tai Po District Council  
4 paper, in TD-1, page 354.

5 CHAIRMAN: What's the date of this report?

6 MS MAGGIE WONG: The date of this report is 9 April 2018.

7 CHAIRMAN: This is the Transport Department paper provided  
8 to the Tai Po District Council for their meeting?

9 MS MAGGIE WONG: Yes, for their meeting.

10 And we can see this paper, first of all, set out the  
11 review of the speed limit, and then right in the middle,  
12 they suggested at the subject road section the traffic  
13 signs and road markings are set along the road to remind  
14 motorists to take heed of road condition by adding  
15 warning traffic signs, reduce speed now, bend to right  
16 ahead, and some chevrons showing the deviation of route  
17 to right.

18 If we go over the page, 360-2 at paragraph 4(c). It  
19 referred to this section of the road -- the current  
20 speed limit is 70km per hour, and stated there are  
21 developments, et cetera, and if we go over the page,  
22 they recommend that the speed limit be lowered to 50km  
23 per hour, and then if we go down this page, there are  
24 other improvement measures over the page, suggesting  
25 about certain improvements, and if we look at some of  
26

1 the photos concerning some of these measures that have  
2 been implemented, as of to date, we see photo 13, we see  
3 the first "ahead" sign, photo 14, we see another "ahead"  
4 sign, photo 15, speed limit changed to 50km per hour,  
5 and then the marking on the road. And then photo 16,  
6 the first "Reduce speed now" sign, and then photo 17,  
7 the second speed sign, and then we can also see nine  
8 chevrons. And then photo 18, showing the location of  
9 the chevrons.

10 So the point that I would like to ask you is, if the  
11 Transport Department wants to do something, they can,  
12 because within two months they were able to achieve  
13 this.

14 What is your view about all these improvements given  
15 your study on this Tai Po Road that you mentioned? Do  
16 you think all these measures are enough, or sufficient,  
17 or have you explored this?

18 CHAIRMAN: As I understand it, Mr Kwong, you are working on  
19 this particular section of road; am I right?

20 MR JULIAN KWONG: Chairman, the project, the consultancy  
21 study I'm working on, that covers roads in Hong Kong, so  
22 I'm not working on these particular improvement works,  
23 and I have not studied it in detail.

24 CHAIRMAN: So you don't have any problem in answering  
25 whatever the question was?

26

1 MR JULIAN KWONG: Chairman, no problem.

2 CHAIRMAN: Perhaps you would reformulate the question.

3 MS MAGGIE WONG: Mr Kwong, we have heard some complaints --  
4 not really complaints, but some of the other concerns  
5 expressed by the Tai Po District Council last Saturday,  
6 commenting that there are certain improvements that  
7 could be done for the latter part of this road section,  
8 and if we can pull up the map, if we can see that this  
9 road, the brown, or the brown/orange colour section is  
10 the section where the speed limit has been reduced from  
11 70km per hour to 50km per hour, and one of the matters  
12 they raised in this section is they said that when you  
13 change the speed limit from 70 to 50km per hour, around  
14 the location of number 15 to 17, you are in effect going  
15 slightly uphill -- sorry, it is from 13 to 14, you are  
16 in effect still going 70km per hour. So if you change  
17 the limit at that point of 15, that is reduced to 50km  
18 per hour, in effect it is difficult.

19 Some of the comments made are because you are going  
20 uphill and you obviously have to increase your gear to  
21 go uphill, and then when you immediately go down your  
22 bus may not be able to immediately shift or reduce the  
23 speed to 50km per hour.

24 CHAIRMAN: Perhaps we could see a photograph of where the  
25 new speed limit sign is.

26

1 MS MAGGIE WONG: Yes. Maybe we can pull out 15.

2 CHAIRMAN: Perhaps we could go back to show the photograph  
3 before, so one is coming up an incline towards the crest  
4 of the hill, and then at the crest that is the view  
5 looking down towards what is the downhill, and then the  
6 bend where the chevrons are -- and the complaint was?

7 MS MAGGIE WONG: The complaint was that if your speed is  
8 maintained at 70km per hour and then you change to 50km  
9 per hour, your vehicle would still be travelling at  
10 a speed that is higher than 50km per hour.

11 So one of the suggestions they made is whether you  
12 can pull it -- like, I think, if I understand correctly,  
13 is pull it a little bit down before you move up the  
14 hill, so that you could reduce the speed before you  
15 reach the top of the incline.

16 I think that's one of the suggestions made by the  
17 Tai Po District Council.

18 I wonder if you have any views on this.

19 MR JULIAN KWONG: Chairman, largely speaking it is a bit  
20 difficult for me to give solid comments on these kinds  
21 of improvement schemes. But I would to say that one  
22 important concept of highway design is to make the road  
23 as self-explaining as possible, so that we can keep the  
24 number of signs and markings to a minimum.

25 The reason is that the excessive use of warning  
26

1 signs can defeat the whole purpose of the signing  
2 system. But whether the signs here would be excessive,  
3 I'm not going to give comment.

4 CHAIRMAN: Perhaps we can have a look at them again. We  
5 have two warning signs before you get to the crest of  
6 the hill. Can we see that.

7 So ahead there is a 50 kilometres zone; ahead there  
8 is a 50 kilometres zone, and then we get to the crest of  
9 the hill, and we are now downhill. What is the problem  
10 about braking in those circumstances?

11 MR JULIAN KWONG: Chairman, I think from 70 to 50 is not  
12 a big problem for braking, but whether drivers -- our  
13 main interest would be whether drivers will really  
14 conform to the speed limit. They need a solid reason.  
15 If they can see the danger by themselves they are far  
16 more willing to slow down their vehicles.

17 For these types of roads, personally I would  
18 consider that perhaps a good compromise would be to have  
19 a speed limit of 60 kilometres per hour. However, we  
20 also have the thought that we do not wish to complicate  
21 the signing system too much, and that is one reason why  
22 I think the best choice which can be 60 kilometres per  
23 hour has not been adopted in Hong Kong.

24 And I have a bit diverged from the discussions, but  
25 my main emphasis would be that we want to keep drivers  
26

1 willing to drive at a speed which is safe. And speed  
2 limit of course is a tool which has legal status. We  
3 need to monitor the speed of the drivers, and to verify  
4 if the comments, say, from the district council, are  
5 valid.

6 What we are going to do, for example, is to conduct  
7 speed surveys of the vehicles to see if they truly  
8 conform to the speed limit signs. Because we want to  
9 help the drivers. We are not trying to impose something  
10 which they cannot easily comply with. Thank you.

11 CHAIRMAN: So what you are saying, perhaps, is demonstrated  
12 by the photos we have just seen. If you want the  
13 drivers to understand why there has been a change in  
14 speed limit, and by changing the speed limit after you  
15 have gone over the top of the hill, it shows you why  
16 there is a change in speed limit, because ahead of you  
17 is an array of chevrons and a bend, down an increased  
18 gradient. Isn't that consistent with accommodating the  
19 driver's understanding of why there has been a change?

20 MR JULIAN KWONG: Chairman, your observation, I think, is  
21 correct. Basically the whole idea is that any signs or  
22 any speed limit, they should appear to the driver to be  
23 consistent with an imminent hazard or change of road  
24 conditions. Thank you.

25 CHAIRMAN: Ms Wong.

26

1 MS MAGGIE WONG: Another suggestion the Tai Po District  
2 Council made is adding speed bumps or adding speed humps  
3 on the road beneath. Because they considered that by  
4 doing that you would have palpable sensation that you  
5 would have to slow down, more effective than a road sign  
6 or road markings. What would you say to that?

7 MR JULIAN KWONG: Okay, Chairman. Speed humps come in all  
8 kinds of shapes, and some are more aggressive, and some  
9 are more gentle, but usually the adoption of speed humps  
10 on a highway has to be very carefully validated.

11 The main concern is that if drivers are going too  
12 fast and they are not aware of the presence of the speed  
13 hump, then they may brake abruptly or lose control.  
14 Usually speed humps have to be introduced in conjunction  
15 with speed reduction measures on the approach. And as  
16 I mentioned earlier, drivers have to see a reason why  
17 they have to slow down. Usually, according to my  
18 experience, for using speed humps on main highways, we  
19 have to especially create a zone of speed reduction  
20 prior to introducing the speed hump so that drivers'  
21 speeds would have slowed down, most of the drivers will  
22 have slowed down to not more than 50 kilometres per hour  
23 and ideally 40 kilometres per hour. Thank you.

24 MS MAGGIE WONG: Yes, and another topic I would like to  
25 explore with you is ISO 39001, the Road Traffic Safety

26

1 Management System referred to in your report, at the top  
2 of page 786.

3 In the third paragraph you stated that:

4 "It is highly recommended that ISO 39001 'Road  
5 Traffic Safety Management System' will be made  
6 a requirement for franchised bus operators."

7 First, this ISO 39001, can you tell us whether it is  
8 widely used throughout the world?

9 MR JULIAN KWONG: Chairman, okay. Let me explain this. The  
10 ISO 39001 was introduced in 2012. At this moment, about  
11 500 enterprises have adopted the ISO. Not every  
12 country. Certain countries are more enthusiastic, for  
13 example the United Kingdom, Sweden, Japan, et cetera.

14 So this is the fact at the moment.

15 In Hong Kong, as far as I understand, there have  
16 been no certification. We would recommend that this ISO  
17 is explored, because at the moment nobody has been using  
18 it, but the interesting point of this ISO is that it has  
19 been developed by top experts, and the World Bank and  
20 the World Health Organisation are supporting it, and it  
21 is based on the safe system approach.

22 I would like to emphasise that this ISO standard is  
23 not a technical standard. I would say that it is  
24 a high-level framework, encouraging high-level  
25 management to work towards no serious injuries and  
26

1 fatalities in road safety, as far as they can control or  
2 influence. And so that is very visionary.

3 The standard does not specify a particular technical  
4 system, it doesn't specify the particular monitoring  
5 system or how to achieve that exactly. So the standard  
6 itself is not adequate. It also needs to be  
7 complimented with technical systems. And that is quite  
8 agreeable.

9 Of course this standard is new to Hong Kong, and  
10 compared to other ISO standards worldwide, the number of  
11 certified enterprises is admittedly not as numerous.  
12 But looking at the standard, and the way it is shaped,  
13 and I have the standard here, I would like to say that  
14 the important point of this standard is its more  
15 visionary and progressive approach, encouraging the  
16 enterprises to proactively be engaged in reducing risk  
17 and reducing road accidents to the end of having no  
18 serious injuries and fatalities as the long-term aim.  
19 Thank you.

20 CHAIRMAN: Can you just help us with this. You say that it  
21 has been adopted by about 500 enterprises.

22 MR JULIAN KWONG: Yes.

23 CHAIRMAN: Are we to understand the adoption has been done  
24 by companies in various countries as opposed to the  
25 regulatory authority requiring it to be adopted?  
26

1 MR JULIAN KWONG: Chairman, in that case, I would like to  
2 quote from the ISO standard. My understanding is that  
3 it is targeted at any enterprises or companies which  
4 have to deal with road transport, whether that is  
5 a public transport operator, a logistics company, or any  
6 company having a vehicle fleet, a taxi company, a public  
7 light bus company.

8 But from my understanding, in the text, in reading  
9 the text of this document, that can also apply to  
10 regulatory authorities. But I am not too sure that at  
11 this moment whether in reality throughout the world,  
12 whether regulating authorities or similar have adopted  
13 this standard.

14 CHAIRMAN: Are you aware of any bus companies in United  
15 Kingdom, Sweden or Japan, the countries you mentioned,  
16 that have adopted this standard?

17 MR JULIAN KWONG: Chairman, I'm not aware of a particular  
18 name or company, but from some of the information  
19 I gathered, that in Japan, probably there are a few  
20 companies, but not a lot, engaged in public transport.  
21 But I think that needs to be validated. Thank you.

22 CHAIRMAN: Thank you.

23 MS MAGGIE WONG: We see from some of the documentation that  
24 KMB has been adopting an ISO standard 9001. If I may  
25 just refer you to a document. KMB-3, page 676. It is  
26

1 a 2011 annual report.

2 If we look at the left column, 1999, the section on  
3 1999:

4 "KMB became the first public bus company in Hong  
5 Kong to receive ISO 9001:1994 certification on  
6 a corporate-wide basis for its quality management  
7 systems. In fact, KMB is the fourth organisation in  
8 Hong Kong to achieve such corporate-wide certification."

9 Can you tell us what is the difference between this  
10 ISO 9001 standard and the 39001?

11 MR JULIAN KWONG: Thank you. Chairman, while I'm not an  
12 expert in management systems, my understanding is that  
13 the ISO 39001 has been specifically written to address  
14 road traffic safety in the perspective of the safe  
15 system approach, which is being advocated by the World  
16 Health Organisation, by United Nations, and by a number  
17 of advanced countries, very serious with road safety.  
18 So this standard is specifically written to address road  
19 traffic safety as far as the organisation or enterprises  
20 can control or can influence. Thank you.

21 MS MAGGIE WONG: Mr Kwong, I'm going to another topic. It  
22 is about your submissions made in relation to the  
23 renewal of the licence, or your comments made in  
24 relation to the renewal of the licence --

25 CHAIRMAN: By "the licence" you mean the franchise?  
26

1 MS MAGGIE WONG: The franchise, and on the new franchise for  
2 bus network for Kowloon Motor Bus, it is your submission  
3 on 16 June 2016 at SEC-2, page 777.

4 Now, Mr Kwong, that's a document in Chinese and  
5 I believe the whole report was written in English.

6 May I read just the first paragraph to explain --

7 CHAIRMAN: So this begins at 775?

8 MS MAGGIE WONG: Yes.

9 CHAIRMAN: Where the purpose is stated to be to provide  
10 insight to further improve the performance of Citybus  
11 Ltd and New Lantau Bus under the new franchises, and  
12 reference is made to the consultation document.

13 MS MAGGIE WONG: Yes.

14 CHAIRMAN: What is the date of this document?

15 MS MAGGIE WONG: The date is 16 June 2016.

16 CHAIRMAN: Thank you.

17 MS MAGGIE WONG: In your first paragraph you reacted to  
18 a public consultation, and submitted a document  
19 commenting on the Administration Paper on New Franchise  
20 for Bus Network of KMB, report on the public  
21 consultation on the new franchise.

22 And in the second paragraph you -- I think it is not  
23 a complaint, but you made an observation that the  
24 administration paper only consists of a short paragraph  
25 on safety, with two simplified points, namely to monitor  
26

1 bus captains' driving behaviour more closely and to  
2 improve safety facilities on buses. But then you  
3 mentioned that these clearly fail to reflect the much  
4 broader issues that you raised.

5 Can you elaborate on what you meant by the much  
6 broader issues you raised?

7 CHAIRMAN: Which paragraph and which page are you reading  
8 from?

9 MS MAGGIE WONG: I'm reading from 778, second paragraph.

10 CHAIRMAN: But before we get there, but at some stage, if  
11 not now, ought not we deal with the consultation  
12 document, and what it is that Mr Kwong had to say about  
13 its emphasis? I'm looking at the second paragraph of  
14 775. Maybe you are going to come back to it.

15 MS MAGGIE WONG: Yes, I will come to it now.

16 To put it in context, maybe if I refer you to the  
17 letter from the Transport and Housing Bureau to the  
18 LegCo.

19 CHAIRMAN: Is this the consultation paper?

20 MS MAGGIE WONG: Yes. Shall we go to the TD-3 bundle.

21 Pages 661 to 768. This was dated, I think it is the  
22 third LegCo paper to update the LegCo on the position of  
23 franchise renewal as of February 2012.

24 And then this is later followed by a brief stating  
25 that the decision of the Chief Executive in April 2012

26

1           was adopted.

2           But if we look at this LegCo brief, just to give the  
3           background before the 2016 paper, the introduction  
4           stated that (a):

5           "A new franchise ... conferring upon New World First  
6           Bus ... the right to continue operation of its bus  
7           network ... from 2013 July to 0400 hours on  
8           1 July 2023 ..."

9           And then:

10          "A new franchise ... conferring upon Long Win  
11          Bus ... from 2013 to 2023."

12          Then rolling down, a new franchise for Citybus also  
13          from the same period, May 2013 to May 2023.

14          Then if we look over, if we roll down, it sets out  
15          all the conditions, and the assessment criteria at  
16          paragraph 4:

17          "To assess whether NWFB, LW and Citybus ... have  
18          been providing proper and efficient public bus services,  
19          the Transport Department has been conducting regular  
20          reviews of ... [a number of factors] through passenger  
21          satisfaction surveys, site surveys, vehicle inspections,  
22          examination of regular returns and public feedback."

23          Then it simply stated that in light of the  
24          assessment given in paragraphs 5 to 8 below, we consider  
25          that they have fulfilled the criteria, and the service  
26

1 performance in the NWFB include the accidents and the  
2 average of lost trips scheduled as against the scheduled  
3 buses.

4 If we turn over the page, the Long Win Bus and  
5 Citybus also calculated by the annual average number of  
6 complaints per million passengers, or the number of bus  
7 accidents per million vehicle-km as a basis to calculate  
8 whether the accident rate has been normal or within  
9 range or acceptable level.

10 And I believe you have written a few papers on this  
11 as well.

12 If I may take you to --

13 CHAIRMAN: May I just enquire this. To what is the document  
14 at MISC-2 page 775 a response? To which paper?

15 MS MAGGIE WONG: MISC-2 is in relation to another paper, but  
16 because that paper also referred to Citybus, so I have  
17 to put this document in context, because it also  
18 referred to the Citybus comments on the Citybus paper.

19 CHAIRMAN: Well, this document is dated -- 775, as I read  
20 the date in numbers by Mr Kwong's name --  
21 16 September 2014.

22 Just a moment, let's put it up on the screen.

23 The question I'm asking is, to which paper is  
24 Mr Kwong responding?

25 MS MAGGIE WONG: He is not responding to this one. This  
26

1 paper is responding to a document at page 784.

2 CHAIRMAN: 784 is part of the April 2018 report, is it not?

3 MS MAGGIE WONG: Yes. That's the 17 June 2016 LegCo report  
4 on the updated background brief on the franchise of KMB.  
5 784.

6 CHAIRMAN: Of which bundle?

7 MS MAGGIE WONG: Of SEC-2 bundle.

8 CHAIRMAN: That was the bit that was missing.

9 MS MAGGIE WONG: I'm sorry, Mr Kwong, can you also --  
10 I think --

11 CHAIRMAN: Just a moment. Are we perhaps at cross purposes?

12 MS MAGGIE WONG: Yes.

13 CHAIRMAN: Page 784 of SEC-2 addresses KMB and its  
14 franchise. Page 775 of MISC-2 is addressing Citybus.

15 MS MAGGIE WONG: I think I might have referred to the wrong  
16 document. The chronology is a bit -- I went wrong on  
17 this.

18 Maybe I should refer to this document first. It is  
19 SEC-2 bundle, at page 748. It is the consultation  
20 paper. The paper is in January 2016. If we go --

21 CHAIRMAN: Just a moment, please.

22 MS MAGGIE WONG: Yes.

23 CHAIRMAN: Yes.

24 MS MAGGIE WONG: If we go to page 748, and it is for the new  
25 franchise for bus network of the new Kowloon Bus  
26

1 Company. And at 754, paragraph 16 --

2 CHAIRMAN: Before you move on. 748 is the discussion paper  
3 for the -- the government is informing LegCo that it  
4 plans to engage with KMB to discuss the granting of  
5 a new 10-year franchise for its bus network on the  
6 expiry of the existing franchise.

7 MS MAGGIE WONG: Yes.

8 CHAIRMAN: Is that right?

9 MS MAGGIE WONG: Correct.

10 CHAIRMAN: And at paragraph 4, the -- it is stated -- is  
11 this a document from the Transport Department?  
12 Transport and Housing Bureau and the Transport  
13 Department. Paragraph 4 of this document states this:

14 "The Government's key consideration in granting  
15 a bus franchise is whether an operator is capable of  
16 providing a proper and efficient public bus service."

17 Now, Mr Kwong, that is something you take issue  
18 with, is it not, in the report that we looked at some  
19 time earlier?

20 MR JULIAN KWONG: Chairman, I remember that at that time  
21 government was inviting the public to give their opinion  
22 on the new franchises for KMB and separately for Citybus  
23 and New Lantao Bus.

24 CHAIRMAN: But the sentence I have just read out is  
25 a sentence that recurs in these proposal documents by

26

1 government, whether or not it is KMB or Citybus.

2 So the issue you were taking in MISC-2 at 775 is  
3 this:

4 "The consultation by government states that ..."

5 You then quote what I have just read out:

6 "The Government's key consideration in granting or  
7 extending a bus franchise is whether a grantee is  
8 capable of providing a proper and efficient bus  
9 service."

10 Then your observation:

11 "We are concerned that other important values,  
12 notably road safety ..."

13 The first one you put down:

14 "... quality of service, environmental friendliness,  
15 and social responsibility, are not mentioned."

16 That's your first response, is it not, to the way in  
17 which Government consults on renewal of a franchise.

18 MR JULIAN KWONG: Chairman, yes. Because we didn't see the  
19 word "safety", we were not sure whether the word  
20 "safety" has been embedded into the word "proper". We  
21 didn't know. But in any case, from what I interpreted  
22 from the document, at that time we were concerned that  
23 safety may not be a major issue to address, which is why  
24 we compiled a number of comments for them to consider.  
25 Thank you.

26

1 CHAIRMAN: And of course there were the different  
2 franchises, on the one hand, if you like, the Citybus  
3 group, and then on the other hand the KMB group.

4 So Ms Wong, which one are we going to?

5 MS MAGGIE WONG: Shall we go to KMB first now that we are on  
6 this document, and I found -- I apologise for that,  
7 Mr Kwong. I found your Citybus submission in relation  
8 to that, but we'll come to that later. Now that we are  
9 on KMB we will deal with KMB first.

10 If we may go to KMB's submission where you respond  
11 to the administration paper in MISC-2 page 770.

12 The first matter is at 770, below the paragraph:

13 "Road Safety is of Paramount Importance".

14 And you mention that in clause 6(c) of the  
15 consultation document:

16 "... [it] indicates that KMB's accident rate was  
17 2.95 accidents per million vehicle-km which is lower  
18 than 4.16 of the overall industry performance. While  
19 this indicate better overall performance of KMB, we  
20 consider it grossly inadequate to look at a single  
21 parameter ie accident rate ... to conclude on KMB's  
22 safety performance. Due to the scale of its operation,  
23 KMB accounts for more than half of the bus-related  
24 casualties. This justifies a major effort to further  
25 bring down the casualty toll.

26

1           It will be necessary to analyse the number and rates  
2           of KMB buses involved in fatal and serious accidents,  
3           pedestrian accidents, multi-casualty accident ... from  
4           a much wider perspective. It is also important to  
5           identify and address any major safety risks involving  
6           KMB's operation."

7           Now the observation you made is it is not fair, if  
8           I put it correctly, to simply look at the accident  
9           rates, because it is just a single parameter. You have  
10          to look at the broader picture. Is that what you are  
11          suggesting here, first?

12       MR JULIAN KWONG: Chairman, yes. This is the case. And  
13          I have demonstrated this in our report, the report on  
14          bus safety we submitted to the review committee.

15          I have compiled some tables in this report, and  
16          I have expanded to using other rates, for example crash  
17          involvement rate per million passenger trips, for  
18          example pedestrian injury rates per vehicle-kilometre,  
19          number of serious injuries per million  
20          vehicle-kilometres, number of fatalities per  
21          vehicle-kilometre or per passenger trip. So the whole  
22          idea is if we want to understand the current pictures of  
23          road safety we need to look at multiple parameters.

24          And that is the whole idea. Thank you.

25       MS MAGGIE WONG: In this report, I think if I would like to  
26

1 go to a few recommendations that you made. The first is  
2 page 772 --

3 CHAIRMAN: Before you get to that. You expand on why it is  
4 necessary to look at multiple parameters, do you not?  
5 When, for example, you look at rear-front and junction  
6 collisions?

7 Perhaps, Ms Wong, would you be kind enough to read  
8 that out?

9 MS MAGGIE WONG: Yes. You stated:

10 "Given the prevalence of bus routes using high-speed  
11 roads and expressways, KMB buses are particularly  
12 susceptible to rear-front collisions involving multiple  
13 casualties. During the three-year period 2011 to 2013,  
14 there were over 40 multi-casualty crashes each with 5 or  
15 more casualties involving KMB buses. Historically,  
16 a single event with more than 100 casualties has been  
17 recorded. Such collisions could lead to very severe  
18 casualties, especially for passengers taking up certain  
19 seats, eg upper floor front row. Furthermore, these  
20 events often put enormous strain on the emergency and  
21 medical service. Nevertheless, such events would only  
22 be classified as a single accident and therefore their  
23 severity cannot be reflected in the accident rate.  
24 In July 2015 alone, there were at least three  
25 multi-casualty collisions involving KMB buses resulting

26

1 in 45 casualties."

2 CHAIRMAN: And that is one of the reasons, is it, Mr Kwong,  
3 why you say you must look at multiple parameters?

4 MR JULIAN KWONG: Chairman, yes. That's true.

5 MS MAGGIE WONG: You made a few recommendations. The first  
6 one is at page 772. You stated that:

7 "We recommend that past accident data and potential  
8 safety risks of bus operation are studied in detail,  
9 with a view to identifying opportunities for  
10 improvements under the new franchises. Government  
11 should take the lead to emphasise the importance of road  
12 safety of bus operation. The franchise requirements  
13 should incorporate these aspects in addition to proper  
14 and efficient service. Consideration could be given to  
15 rewarding the bus companies for achieving pre-defined  
16 goals, such as reduction of certain accident types by  
17 20 per cent per year."

18 This first point is that it reinforces that you  
19 shouldn't look at one accident data, but look at whether  
20 it involved multiple casualties as you mentioned in  
21 relation to the rear-front and junction collision; is  
22 that correct?

23 MR JULIAN KWONG: Chairman, that is correct.

24 In the way I work, I always like to understand  
25 issues in a more comprehensive way. Because that is  
26

1 critical. It is critical to, first of all, understand  
2 the overall picture, and secondly, that is crucial to  
3 the formulation of strategies and measures. And in this  
4 respect, I wrote those recommendations including  
5 mentioning something like rewarding bus companies --  
6 that is just a suggestion -- the reason being that in  
7 all these letters, or submissions to government, or  
8 LegCo, we wish to encourage those responsible or  
9 involved in bus operation. We are not trying to make  
10 everything negative. We need to encourage the people  
11 working in it, we need to motivate them. That would be  
12 far more sustainable. Thank you.

13 CHAIRMAN: How do you envisage that a bus company might be  
14 rewarded for reaching a pre-defined target?

15 MR JULIAN KWONG: Chairman, that is only a suggestion. We  
16 have not gone into the details of the mechanism for  
17 rewarding. But the whole idea is that we need to  
18 encourage bus companies and encourage bus drivers for  
19 a good reason.

20 CHAIRMAN: Do you have in mind a financial reward, or some  
21 other kind of reward? Good Citizen of Hong Kong, or  
22 something like that. Or money? What do you have in  
23 mind?

24 MR JULIAN KWONG: Anything which is reasonable and which  
25 works I think can be considered. Thank you.

26

1 CHAIRMAN: The opposite of reward is penalty. Do you  
2 consider that that would be appropriate. If you fail to  
3 reach a pre-defined target, for example, accident rate?

4 MR JULIAN KWONG: Chairman, penalty is also a possibility  
5 for sure. But I would also like to emphasise that we  
6 understand that not every accident is the responsibility  
7 of the driver or of the bus company. An accident may be  
8 due to third party, or that may be due to a combination  
9 of causes which several parties to have bear the  
10 responsibility for. So penalties can be useful in  
11 certain circumstances, but whether it is fair I think we  
12 still need to look at it seriously. Thank you.

13 CHAIRMAN: Are you aware that in Singapore the Land  
14 Transport Authority has a penalty accident rate  
15 provision in the franchises they grant?

16 MR JULIAN KWONG: I'm not aware of that.

17 MS MAGGIE WONG: If we go on in the middle paragraph, you  
18 make reference to the safety performance of bus  
19 companies, as to the modern approach to be introduced,  
20 how to assess the safety management performance.

21 And you make two recommendations in this section.  
22 It is first to introduce or encourage the bus company  
23 under the new franchise agreement to adopt a more  
24 advanced system towards the ISO 39001 standard.

25 And second, the government is to collaborate with  
26

1 bus companies to study bus accidents and risks in detail  
2 with a view of setting targets of accident reduction.

3 I believe this is not the first time you mentioned  
4 this 39001 standard to the government, but in relation  
5 to the new franchise to KMB you specifically raised this  
6 with the Transport Department to incorporate this  
7 requirement to the franchise. Can you confirm that?

8 MR JULIAN KWONG: Yes. But I think this is not the first  
9 time we mentioned about the ISO standard. What I have  
10 been trying to do is to encourage them at least to look  
11 at it and to study whether that should be adopted.  
12 Bearing in mind that, say, if they have an equivalent  
13 system then maybe that is fine. But the main reason is  
14 that the standard is based on the safe system approach  
15 which is the latest thinking in many advanced countries,  
16 and also that it is progressive. It looks at the  
17 ultimate elimination of serious injuries and fatalities.  
18 Thank you.

19 MS MAGGIE WONG: And the third one is in relation to the  
20 black box. And if we go down to the bottom, bus safety,  
21 driving standard, if I read the whole section:

22 "It would be fair to say that many public bus  
23 drivers are professionals and are performing reasonably  
24 well. However, this does not necessarily imply that  
25 risks have been minimised ... a certain proportion of  
26

1 bus drivers do behave aggressively and dangerously,  
2 contributing to undue risks. Clause 8(d) of the  
3 consultation document states that KMB has completed  
4 retrofit of speed limiters and black box ..."

5 But then you commented this line:

6 "There is vast potential of using black box in buses  
7 but it is not clear how these are being used."

8 And then over the page you stated that:

9 "We wish to point out that the urban speed limit of  
10 50km cannot be taken as the golden rule."

11 And the weight of the bus. And then there came the  
12 recommendations:

13 "Incorporate into franchise requirement the need to  
14 set up a comprehensive standard and driver monitoring  
15 system using the installed black boxes. Monitoring  
16 systems should be automated with streamlined procedures  
17 to educate and retrain drivers."

18 You stated a number of key monitoring controls. One  
19 of them include acceleration and deceleration  
20 characteristics. And you refer to a British Columbia  
21 Transit Infrastructure Design Guidelines.

22 Can you first of all explain this? What is meant by  
23 acceleration and deceleration characteristic, making  
24 reference to this British Columbia Transit  
25 Infrastructure Design Guidelines?

26

1 MR JULIAN KWONG: Chairman, a driver abruptly accelerating  
2 or abruptly decelerating, can cause passengers to lose  
3 balance. And another problem is some drivers similarly  
4 accelerating or decelerating in a very unpredictable  
5 way, and that is something we wish to control.

6 In the design of, say, the MTR trains, there are  
7 certain parameters for train acceleration so that  
8 passengers inside will not be so easily destabilised or  
9 lose balance. In bus operation there is the problem  
10 because theoretically a bus driver can accelerate or  
11 decelerate very rapidly, and the idea here is that we  
12 need to control that in a reasonable way.

13 Normally, I would say that there is no need to  
14 accelerate or decelerate excessively, but of course in  
15 an emergency situation, maybe the bus drivers have to  
16 decelerate very rapidly. And that is also related to  
17 the recommendation on speeds. If bus drivers are  
18 allowed to go at higher speed, then there is more  
19 likelihood that he has to decelerate very rapidly,  
20 because there are many unforeseeable conflicts, say, on  
21 the urban streets. And looking at the guidelines from  
22 British Colombia, there are certain objective values  
23 which they recommend transit buses should accelerate or  
24 decelerate at. Thank you.

25 CHAIRMAN: Before you move on, Ms Wong, let me ask Mr Kwong  
26

1           this.

2           At the outset you say this under the heading  
3           "Recommendations", page 773. You have recommended that  
4           there be incorporated into the franchise requirement the  
5           need to set up a comprehensive standard and driver  
6           monitoring system using the installed black boxes.

7           What did you mean by "a comprehensive standard"?

8       MR JULIAN KWONG: Chairman, I would presume that what  
9           I meant by comprehensive standard in the text means the  
10          protocol. That is what type of speed, what degree of  
11          acceleration or deceleration bus drivers should adopt,  
12          whether that is general or route-specific. Thank you.

13       CHAIRMAN: And that should be a comprehensive standard, but  
14          it also should be incorporated into the monitoring  
15          system. You set the standard, and this is what you  
16          monitor?

17       MR JULIAN KWONG: Chairman, yes, that is the case.

18       CHAIRMAN: For argument's sake, the standard might be set at  
19          0.2G for decelerating or accelerating. That might be  
20          set lower, but that's the idea, is it not?

21       MR JULIAN KWONG: Chairman, yes. We need to set the  
22          standard first, based on evidence base, based on the  
23          safety problems we are facing and the risk, and then we  
24          use the monitoring system to enforce it.

25          But to what degree we enforce, that is another  
26

1 question. Whether just occasional violations already  
2 trigger disciplinary action, that is not covered. That  
3 needs further study. Thank you.

4 CHAIRMAN: And this resonates with what you were saying  
5 earlier, it should be done real time, and it should be  
6 automated.

7 MR JULIAN KWONG: Chairman, the more automation, the more  
8 features of real time notification of course is good.  
9 But at that time when I wrote this recommendation  
10 I think the first step would be, first of all, we need  
11 protocols, and the second point is that we need better  
12 monitoring. I did not go further into the precise  
13 wordings.

14 CHAIRMAN: But your primary recommendation was that it  
15 should find a place in the franchise requirement?

16 MR JULIAN KWONG: Chairman. Yes. This is exactly our  
17 recommendation.

18 CHAIRMAN: Did it find a place?

19 MR JULIAN KWONG: Chairman, as far as I understand, probably  
20 not.

21 CHAIRMAN: We can investigate that on another occasion.

22 But I think we have used up our time today.

23 MS MAGGIE WONG: Yes.

24 CHAIRMAN: One of our members has engagements that take him  
25 elsewhere, so we are unable to carry on sitting.

26

1           As I understand it, Mr Kwong, Dr Kou, one or both of  
2           you will be available tomorrow morning, have I got that  
3           right?

4       MR JULIAN KWONG: Tomorrow morning it will be only me.

5           Dr Kou has some other engagement.

6       CHAIRMAN: Very well. In that case, we ought to thank  
7           Dr Kou for coming today to help us give evidence on  
8           behalf of the Community for Road Safety, and we will  
9           welcome you back tomorrow morning.

10           Can somebody remind me what time we are sitting?

11       MS MAGGIE WONG: 10 o'clock.

12       CHAIRMAN: We tried today to get in as much as we could and  
13           sitting as early as we did and as late as we did, and it  
14           has been most helpful, so we will adjourn now, and we  
15           will resume tomorrow at 10 o'clock, Mr Kwong.

16           Thank you.

17       MR JULIAN KWONG: Thank you, Chairman.

18       DR KOU SIO KEI: Thank you, Chairman.

19       (1.33 pm)

20                       (The hearing adjourned to 10.00 am  
21                       on Tuesday, 17 July 2018)

1 2018 年 7 月 16 日

2 上午 9 時 07 分恢復聆訊

3 出席人士： 鄭子憲先生，道路安全研究小組主席（道路安全研究小組）

4 高兆祺先生，道路安全研究小組成員（道路安全研究小組）

5

6 主席：（經傳譯員）各位，早晨。今朝早上，我哋感謝道路安全研究小組嘅成員佢哋  
7 應邀今日上嚟協助我哋委員會佢哋係會係作證㗎。咁我哋會請代表大律師，黃  
8 佩琪大律師就係幫我哋提問嘅。

9 黃女士：（經傳譯員）鄭先生、高醫生，感謝你哋今日出席，我今朝早就係代表檢討  
10 委員會就係以律師嘅身分呢就同大家係研究一下專營巴士嘅安全事宜嘅。首先，  
11 我想作一個係簡介，就介紹一下你哋嘅組織，從你哋嘅陳述書喇，咁如果  
12 睇番鄭先生 2018 年 3 月 28 號係嗰日所交上嚟嘅陳述書，我哋睇到你哋貴會嘅  
13 簡介㗎，係 754 個頁㗎。其實呢度係一封係寄畀你哋嘅信，咁日期係 2018 年  
14 嘅 3 月 28 號，就係邀請你哋係提交陳述書㗎。

15 喺 757 頁嗰度，喺第 1 頁，喺你個個回應嗰度喇，你就係講出咗你哋道路安  
16 全研究小組就係一個組織，就自從 2004 年開始係成立，係一個就係關注道路安  
17 全嘅一個組織，而你哋組織嘅資料亦都喺 TD-5 嗰個文件夾嗰度㗎，大家可以喺  
18 1699 至到 1670 呢兩頁嗰度見到㗎，係 TD-5 嗰個文件夾，1699 頁至到係跟住  
19 嗰版㗎，喺下面嗰度。嗰度就係列出你哋嘅資料㗎，包括嗰個背景喇、唔同成員  
20 佢哋會裏面嘅職位，你可唔可以確認一下呢度所列出嘅成員嘅名字喇--或者你需  
21 要睇埋跟住嗰版嘅，係咪今日都係有呢一啲成員喺貴會嗰度？

22 鄭子憲先生：（經傳譯員）係㗎，㗎㗎，除咗有部分嘅成員就唔係話咁活躍㗎，佢有  
23 一啲就係唔再係成員喇。

24 黃女士：（經傳譯員）鄭先生，你亦都係將你嘅履歷交過畀我哋。

25 主席：（經傳譯員）係，未落去前，係咪可以講講你哋個組織嘅背景呢？成立咗幾  
26 耐、你哋幾頻密見面一次，同埋個目的係乜呢？

27 鄭子憲先生：（經傳譯員）係，好，主席，我哋嘅組織係一個好細嘅組織，我哋嘅興  
28 趣係在於道路安全，我哋希望有一班人，其實係一細班人嚟嘅，我哋想一齊做  
29 嘢，我哋希望向政府進言，希望係組織一啲活動，譬如話組織一啲論壇、推廣  
30 一啲運動，就係咁樣樣喇。我哋唔係一個善慈組織，亦都唔係一個大型嘅組  
31 織，不過我哋會時不時走埋一齊，我哋亦都會係透過電郵係互相通訊。

32 主席：（經傳譯員）咁你個個喺法律上面個定位係點呢？

33 鄭子憲先生：（經傳譯員）我哋係一個組織，一個註冊嘅社團組織。

- 1 主席：（經傳譯員）幾時係成立㗎？
- 2 鄭子憲先生：（經傳譯員）2004 年。
- 3 主席：（經傳譯員）好，唔該。咁請問你哋係有冇有一個開會見面嘅模式？
- 4 鄭子憲先生：（經傳譯員）我哋唔係經常見面嘅，較多就係以電郵嚟到聯絡。
- 5 主席：（經傳譯員）咁你哋會透過電郵嚟到傳閱文件，係嘛？
- 6 鄭子憲先生：（經傳譯員）係。
- 7 主席：（經傳譯員）我想問你有冇有一個召集人嘅呢？
- 8 鄭子憲先生：（經傳譯員）我哋冇咁樣樣話有一個召集人嘅。對唔住，你嘅意思係咪
- 9 話...
- 10 主席：（經傳譯員）會唔會有人就係負責係組織個會務咁？
- 11 鄭子憲先生：（經傳譯員）一般嚟講都係我去進行呢啲組織嘅工作。
- 12 主席：（經傳譯員）咁你哋嘅成員係點樣介定嘅呢？咁你哋都想聚焦睇啲有關嘅事宜
- 13 吓嘛，咁你哋係以乜嘢準則嚟到揀選啲成員嘅呢？
- 14 鄭子憲先生：（經傳譯員）主席先生，講到嗰個成員，我哋有話係特別揀選邊一啲人
- 15 嚟到係提供意見㗎，我哋自己成員嘅朋友如果佢哋對呢啲都有興趣，我哋都歡
- 16 迎佢哋加入嘅，特別係如果佢哋嚟自不同嘅背景，譬如話對於道路、交通都有
- 17 興趣，有咁嘅興趣嘅話都歡迎㗎。所以你見到我哋嘅成員一般都係專業人士
- 18 喇，佢哋係對道路、道路交通、創傷呢一啲係有咁嘅背景嘅。
- 19 主席：（經傳譯員）可唔可以係你講述一下你哋嘅成員有邊一方面嘅專長或技能吓？
- 20 鄭子憲先生：（經傳譯員）好，我哋有土木工程嘅人士喇、交通工程喇、駕駛訓練、
- 21 創傷外科嘅醫生，亦都有園景設計師或者園景建築師。
- 22 主席：（經傳譯員）呢個係涉及道路安全，係咪？即係同道路安全有關喇，係嘛？
- 23 鄭子憲先生：（經傳譯員）我都係有咁嘅睇法嘅。
- 24 主席：（經傳譯員）對唔住，我剛才就係打斷咗黃律師係問緊你嗰個問題，佢就問你
- 25 嗰個履歷。
- 26 黃女士：（經傳譯員）係，或者請你睇番呢一個雜項嘅文件夾喇，就係 820-4 個頁
- 27 嘅。鄭生，你就係將你自己嘅履歷就列咗出嚟㗎，你講吓畀我哋聽你有咩嘢教
- 28 育嘅背景喇、你喺邊啲會嗰度有會員嘅身分喇，同埋由 08 年到而家係進行過啲
- 29 乜嘢嘅工作或者做過啲咩嘢嘅項目㗎。睇番你嘅教育背景喇，見到你就係有一
- 30 個土木及環境工程嘅學士學位喇，呢個就係紐卡素大學得到嘅學位，...

- 1 主席：（經傳譯員）係幾時取得呢個學位呢？
- 2 鄭子憲先生：（經傳譯員）呢一個土木及環境工程嘅學士學位我喺 1986 年係取得  
3 嘅。
- 4 主席：（經傳譯員）好，唔該。
- 5 黃女士：（經傳譯員）跟住我相信係一個碩士課程，係嘛？你就係專注研究係致命交  
6 通意外，咁就喺港大嘅醫學院嗰度取得呢個碩士嘅學位嘅？
- 7 鄭子憲先生：（經傳譯員）係，㗎，2004 年係取得㗎。
- 8 黃女士：（經傳譯員）係，04 年。我見到你亦都係喺呢一個英國路政方面係有一個  
9 證書，就關乎就係道路安全審核嘅，係咩嘢嚟嘅呢？
- 10 鄭子憲先生：（經傳譯員）道路安全審核係 1988 年英國開始做㗎，而家就已經係廣  
11 泛係喺各國應用嘅。嗰個概念係點呢，就希望有一個獨立嘅審計或者審核，就  
12 睇睇一啲道路工程嘅項目，傳統嚟講，道路嘅設計嘅項目都會係政府當局去做  
13 同埋係由顧問、設計者去做。但係呢度講到道路安全嘅審核，我哋係獨立咁去  
14 做嘅，我哋亦都會提供一啲意見，係讓我哋嘅項目嘅客戶同埋嗰啲顧問係聽到  
15 我哋嘅意見嘅。呢度有一個能力證明書，咁呢個就係話有咗呢張證書就讓我可  
16 以係參加一啲喺歐洲當佢哋係做道路網嘅呢方面嘅工作，咁呢個就係歐盟同埋  
17 好多國家都有推行呢個工作㗎。
- 18 主席：（經傳譯員）咁你靠個咩嘢途徑、咩嘢程序係得到呢一個證書嘅呢？
- 19 鄭子憲先生：（經傳譯員）嗰個證書係需要出席一啲訓練，係要接受培訓，亦都要有  
20 證據證明就係話我係有參與足夠嘅項目嘅審計工作嘅。
- 21 主席：（經傳譯員）即係話培訓加上經驗，係咪呀？
- 22 鄭子憲先生：（經傳譯員）㗎。
- 23 主席：（經傳譯員）咁嗰個培訓喺邊度進行？
- 24 鄭子憲先生：（經傳譯員）培訓就係喺倫敦嗰度做嘅。
- 25 主席：（經傳譯員）係邊一間院校？
- 26 鄭子憲先生：（經傳譯員）TMS 顧問公司就係有關嘅培訓嘅團體喇。
- 27 主席：（經傳譯員）TMS 係乜嘢嘅簡稱嚟嘅呢？
- 28 鄭子憲先生：（經傳譯員）對唔住，我唔知道 TMS 代表乜嘢，只係知道叫做 TMS。  
29 佢哋就係會頒授呢一個證書嘅，咁就係由英國嘅路政署就係批准㗎，咁佢就負責  
30 英國嘅道路網絡嘅。
- 31 主席：（經傳譯員）好，唔該。黃律師。

1 黃女士：（經傳譯員）我哋落去睇喇，道路安全培訓，見到你係參加咗四個培訓嘅課  
2 程嘅，第一個就係法國嘅為期兩週嘅道路安全嘅培訓，咁地方係喺法國定係香  
3 港？

4 鄭子憲先生：（經傳譯員） 嗰個課程就係法國巴黎嗰度上堂㗎。

5 黃女士：（經傳譯員）係幾時嘅事？

6 鄭子憲先生：（經傳譯員）係喺 2009 年。

7 黃女士：（經傳譯員）嗰個兩週嘅培訓，可唔可以簡單咁講講就係涉及啲咩嘢內容？

8 鄭子憲先生：（經傳譯員）道路安全嘅方方面面，包括政策，歐盟嘅交通政策喇、法  
9 國嘅交通安全政策喇，亦都涵蓋咗道路安全嘅大部分嘅課程嘅，譬如話係主要  
10 嘅高速公路、市區道路、舒暢交通等等，亦都係同交通安全審核有關嘅。

11 黃女士：（經傳譯員）咁第二個訓練就係五日嘅訓練喇，係英國嘅高級嘅道路工程  
12 嘅，呢個係 TMS 提供，係咩嘢㗎？幾時發生㗎？

13 鄭子憲先生：（經傳譯員）2007 年係上嘅。

14 黃女士：（經傳譯員）呢個係咪頭先你講你嗰個能力證書，即係道路審核所進行嘅訓  
15 練？

16 鄭子憲先生：（經傳譯員）2007 年我就開始上堂，即係道路安全--道路工程嘅訓練  
17 課程，以便你能夠進行呢個道路安全嘅審計、審核嘅。咁 2016 年我就參加咗呢  
18 個課程㗎到攞到呢個咁樣嘅能力嘅證書。

19 黃女士：（經傳譯員）就三個就係國際道路評估訓練課程，係五日嘅，邊個組織者？邊  
20 個安排呢個訓練嘅呢？

21 鄭子憲先生：（經傳譯員）呢個訓練係由 iRAP 國際道路評核計劃機構呢個組織，呢  
22 個係英國嘅慈善機構㗎嘅，而家都係好--响道路安全--全世界嚟講，响道路安  
23 全方面都係好知名機構㗎嘅。

24 黃女士：（經傳譯員）最後一個，頭先你講過個道路安全嘅審核嘅訓練喇，呢個係由  
25 TMS 呢間機構提供嘅，其實係幾時進行訓練㗎？

26 鄭子憲先生：（經傳譯員）呢個訓練係 2016 年嘅訓練㗎嘅，就係响嗰個能力證書發  
27 嘅之前，即係都係同一個課程㗎嘅。

28 黃女士：（經傳譯員）鄭先生，响下面睇到有講過你而家參與嘅一啲進行中嘅項目，  
29 其中一個就係審核香港道路網絡嘅潛在嘅路邊安全隱患嘅，咁呢個係由路政署  
30 就係負責嘅，我想睇番去第五個文件夾 1651 頁，睇下 (f) 呢度呢一段，呢度有  
31 講過呢個咁嘅顧問，呢份係一份文件嘅，係由運輸署 2018 年 5 月係嗰個運--  
32 係一封信嘅附件㗎嘅，2018 年 5 月 28 號，咁你話就路政署就係進行咗呢個顧

1 問研究，嚟到睇下香港道路網絡有啲咩嘢潛在路邊嘅安全隱患嘅，呢個係一  
2 個調查嚟嘅，時間係 2018 年 5 月，嚟到睇睇究竟所有新界嘅--即係嚟香港境  
3 內所有路邊嘅安全隱患、公共道路嘅安全隱患，同埋要透過一個有系統嘅方法  
4 嚟到考慮最新嘅科技、有啲咩嘢改善嘅措施可以係制定嘅。

5 有關嗰個顧問研究嘅範圍、目的，都係响第--即係附件四嘅，頁數就係  
6 1685 頁。我哋再望過下面嘅一段，你有講番呢個研究嘅項目嘅目的嘅，鄭先  
7 生，你有冇係參與呢一個咁嘅研究㗎？

8 鄭子憲先生：（經傳譯員）係有嘅，我係自從今年 5 月中開始就參與㗎。

9 黃女士：（經傳譯員）咁你係參與嘅時候係咩嘢角色呢？

10 鄭子憲先生：（經傳譯員）我嘅角色就係一個道路安全嘅一個領導人，呢個係一個大  
11 嘅顧問研究之下，係由 AECOM 進行嘅研究--顧問研究之下嘅...

12 主席：（經傳譯員）嗰個名係點？

13 鄭子憲先生：（經傳譯員）最主要嘅顧問，主要顧問 AECOM，即係串出嚟就係 A-E-  
14 C-O-M。

15 黃女士：（經傳譯員）下一頁--唔好意思，係同一頁嚟嘅，2.3 呢一段，其中一個  
16 要做嘅事就係減少現有道路嘅危險--嘅風險，運輸署同埋路政署就係聯合進行  
17 一個道路安全嘅檢查，以便搵出或者係改正番、修正番現有嘅道路，而嗰啲道  
18 路嘅嗰個速度限制係 70 公里或以上嘅帶來嘅一啲道路安全嘅隱患嘅。即係話呢  
19 度係講明係嗰啲道路係要嗰個安全速度限制係要 70 公里或者以上嘅，係咪？

20 鄭子憲先生：（經傳譯員）主席，關於呢個研究項目，根據我同個總顧問艾康（譯  
21 音）--艾--奕康（譯音）嘅合同，我就唔能夠喺呢個聽證會呢度就提出呢方面  
22 嘅意見嘅。

23 黃女士：（經傳譯員）可唔可以話畀我哋聽，幾時可能--即係呢個研究幾時可能會完  
24 呢？你哋預計--或者係咪有一個固定咗嘅完成研究嘅日期嘅呢？

25 鄭子憲先生：（經傳譯員）主席，呢個顧問研究同我所做嘅其他工作一樣㗎，都係時  
26 間係有個限度嘅，但係關於實際上有幾多時間，我就--唔好意思，我有辦法畀  
27 到講法㗎。

28 主席：（經傳譯員）運輸署會嚟嘅，我哋會問佢嘅。

29 黃女士：（經傳譯員）鄭生，你都係有一個網頁㗎，你擺咗啲文章上去嘅，你啲會員  
30 就不時就會係就住道路安全小組提出你哋嘅睇法嘅？

31 鄭子憲先生：（經傳譯員）係。

32 黃女士：（經傳譯員）你哋--我諗相信都已經交咗唔少於十一篇文章畀政府嘅，就講

1 清楚你哋對於道路安全嘅各種嘅睇法嘅，或者我可唔可以舉個例，舉個例喇，  
2 即係譬如話 TD-5 呢個文件夾裏面嘅 1705。

3 主席：（經傳譯員）係咩嘢--關於咩嘢嘢？

4 黃女士：（經傳譯員）呢個關於嗰個運輸署提交嘅文件嘅，2018 年 5 月提交嘅，即  
5 係附件一，佢哋係响嗰一封信嘅附件就係夾咗㗎，佢哋係--嗰封信嘅日子就係  
6 2018 年 5 月 28 號嘅。

7 主席：（經傳譯員）呢封 5 月 28 號嘅文件--嘅信係响邊度㗎嘢？

8 黃女士：（經傳譯員）5 月 28 號嘅呢封信可以响 TD-1 呢份文件裏面--呢份文件夾  
9 裏面。

10 主席：（經傳譯員）或者你可唔可以講一講呢封信，呢封信係畀我哋呢個委員會㗎？

11 黃女士：（經傳譯員）係，呢個係運輸署寫畀檢討委員會嘅，咁裏面係有一個--其實  
12 一個附加嘅陳詞㗎嘅，咁裏面有一啲附件嘅，呢個係嗰個 5 月 7 號、8 號之後  
13 嗰個研訊之後提交嘅。

14 主席：（經傳譯員）咁而家係講緊呢個係運輸署嘅文件嘅一個附件，係嘛？邊一頁？

15 黃女士：（經傳譯員）1700 頁。

16 主席：（經傳譯員）即係 TD-5 文件夾 1700 頁？

17 黃女士：（經傳譯員）係。你睇番第 8 段，佢哋係列出咗十一份文件或者係你哋提出  
18 嘅十一份嘅意見，一係就係交咗畀運輸--立法會嘅運輸事務委員會或者係政  
19 府，即係話提供你哋嘅意見，而意見係有關公共嘅交通嘅研究嘅策略或者係嗰  
20 個九巴嘅牌照或者城巴牌照嘅續期。大家亦都可以睇埋第 1701 頁，呢度有講清  
21 楚你哋嗰個意見嗰個題目同埋有關個立法會文件嘅參考。係，睇唔睇到？

22 鄭子憲先生：（經傳譯員）係，睇到。

23 主席：（經傳譯員）你可唔可以用文件嘅形式或者你使唔使睇番後面嗰啲印出嚟嘅文  
24 件㗎？嗰啲文件夾响你後面嗰度。

25 鄭子憲先生：（經傳譯員）係，多謝你。

26 黃女士：（經傳譯員）响呢啲咁嘅文章，之前問過呢啲問題嘅，即係話呢啲文件點樣  
27 傳閱、邊個負責草擬文件，你就話畀我哋聽一般係用電郵嘅，我見到呢啲咁樣  
28 嘅意見書裏面，似乎佢嘅時間都好接近，譬如話 2016 年，你可以見到呢一頁，  
29 又有啲意見係關於嗰個火警鐘。2016 年 4 月 14 號，呢個有一個係關於公共運  
30 輸策略研究嘅。跟住有一個講九巴嘅，佢哋嘅九巴個牌--專營權要係續期嘅等  
31 等。咁呢啲咁樣嘅或者係意見書，你係點樣草擬㗎？點樣係傳閱畀委員呢？咁  
32 嗰啲會員係點樣提供意見，等你哋可以寫好呢個交界立法會或者係政府嘅意見

1 書嘅呢？

2 鄭子憲先生：（經傳譯員）係，一般呢啲咁嘅文件，我哋會傳閱畀我哋覺得重要嘅當  
3 事人喇，譬如話我哋先首先將文件交界政府或者係運房局，咁之後我哋又再有  
4 交文件畀立法會。咁至於我哋傳閱文件方面，我哋就唔係真係好有規--即係好  
5 有制度嘅，我哋通常唔會畀太多人嘅，亦都唔會去交界媒體嘅，我哋睇下究竟  
6 立法會有冇係討論過有關課題，或者政府有冇提出咁嘅課題喇。至於話呢啲咁  
7 嘅文件係點樣草擬，通常就係我有份做喇，咁如果其他嘅會員係有興趣，都係  
8 歡迎佢哋參與嘅。至於討論方面，有時候我要承認嘅，我係有辦法同其他會員  
9 係响當時討論嘅，但係最近啲報告我哋都有係討論嘅，好多時係事前討論，  
10 但係有陣時只能夠俾事後先送畀佢，睇下有咩嘢意見，如果有好多嘅--更多嘅  
11 意見，而我哋解決到，咁我哋嘅做法就係話會將啲個附帶嘅意見就係再交界有  
12 關嘅各方面嘅。

13 黃女士：（經傳譯員）多謝你，鄭先生。你話你交界啲意見書、文件，你睇睇呢份  
14 係响個雜項二，782 個一頁。呢個係關於巴士安全嘅報告嘅，你哋喺 2018 年 4  
15 月提交嘅，呢個係回應委員會嘅要求嘅。你提交嘅文件係有五個--有五個重點  
16 嘅總結嘅--摘要嘅。架巴士嘅營運、安全隱患、而家嘅做法同埋同海外嘅做法  
17 嘅比較，同埋最後一個結論同埋建議嘅。而家可唔可以話畀--證實呢個係你哋  
18 委員嘅集體嘅一個成果嚟嘅，集體編寫嘅成果？

19 鄭子憲先生：（經傳譯員）由於啲個時間有限喇，其實係由我草擬文件嘅，有特別嘅  
20 課題，我的確係有諮詢一、兩個委員嘅--一、兩個成員嘅。咁交咗呢個報告之  
21 後，我就將呢個報告就交界所有我哋嘅成員，睇下佢哋咩嘢意見喇，睇下佢哋  
22 需唔需要冇啲額外嘅建議、睇法，或者佢有啲--有冇啲論點佢唔同意，咁我就  
23 有機會--可以有個機會可以再向呢個獨立檢討委員會再提交啲附加意見。

24 黃女士：（經傳譯員）鄭先生，請睇 785 頁，係你呢份文件嘅，呢度係個建議嘅部  
25 分。呢度係第一個--建議嘅第 1 段，應該係安全系統嘅做法，嚟到係照顧唔同  
26 因素嘅交雜喇，係汽車、道路、人管理，咁呢度你有講咗四個重要嘅因素喇，  
27 即係關於安全四個重要因素，啱唔啱？

28 鄭子憲先生：（經傳譯員）係嘅，係嘅，喺我份文件係咁寫嘅。或者我就補充，當然  
29 喇，安全系統嘅呢個模式亦都要照顧埋--要包括埋政策嘅。但係我就選擇--為  
30 咗係即係簡化，我就冇擺落去喇，冇寫落去。

31 黃女士：（經傳譯員）你睇番第一個因素，呢個就係啲個運作嘅規則、規條同埋監察  
32 系統嘅，你話呢個係需要一個新--關於安全--有需要就制定一個新嘅安全嘅駕  
33 駛嘅操作方面嘅規定嘅，咁呢度有講明喇，係有速度等等，呢個係一個一般嘅  
34 規則同埋有啲關於個別路線嘅規則嘅，可唔可以係解釋一下？譬如話一般嘅規  
35 則係咩嘢意思？咁你有冇--你會响呢一方面考慮咩嘢因素嘅呢，一般嘅規則？

36 鄭子憲先生：（經傳譯員）我如果冇--唔知道究竟巴士公司而家其實佢哋做緊啲咩  
37 嘢，譬如話司機駕駛嘅時候應該遵循啲乜嘢嘅規則，我係有內部嘅消息嘅，我

1 咁係從一個安全系統嘅角度嚟睇呢個問題嘅，我哋覺得駕駛巴士嘅工作係需要  
2 多啲嘅控制呀、管控嘅。我就呢個擺响個--我叫做一般規則喇，即係意思駕駛  
3 巴士，响市區繁忙嘅道路駕駛巴士，應該係咩嘢行為或者係速度應該係點樣  
4 樣，行為應該係點樣樣。另一個例子就係你响公路度駕駛，咁速度應該係點、  
5 我哋預期巴士司機應該係咩嘢速度，呢個同嗰個法定嘅道路嘅限速係唔同嘅。  
6 我作為一個道路工程師，我知道道路嘅設計係各種各樣都有嘅，好多元化嘅。  
7 我哋唔能夠完全依靠嗰啲道路速度嘅限制或者係設計方面嘅速度嘅限制嘅。如  
8 果係市區道路，呢度有好多所謂交通同行人之間嘅一啲互動嘅情況嘅，咁所以  
9 我哋需要要有更加嚴謹嘅速度嘅管制嘅，同埋關於加速或減速方面嘅監控嘅，  
10 即係呢個就係我所講嘅一般嘅規則，我就唔係講緊某一條街嘅規則嘅，而係所  
11 有繁忙嘅市區道路。

12 黃女士：（經傳譯員）好喇，我哋睇番 817 頁吖，呢個係雜項二呢個文件夾，817  
13 頁，响頂個度。你認為係一啲設計嘅準則嘅，要考慮呢個一般營運嘅規則嘅，  
14 呢度分開四個準則嘅，第一個就係市區地區；第二，高速嘅道路；第三，就係  
15 比較窄嘅山路；最後就係嗰個單車駕駛者嘅。喺市區道路你就建議有一個某  
16 一個嘅車速限制，就係最高係每小時 40 公里，咁你亦都話喺一啲繁忙嘅市區道路  
17 就係時速 30，最高。咁你可唔可以解釋一下呢個 40 同埋 30 呢兩個嘅時速限制  
18 係點解你會有咁樣嘅意見呢？

19 鄭子憲先生：（經傳譯員）記住，呢兩個準則其實係建議嚟嘅，仲要進一步再研究。  
20 一個較低嘅時速限制即係比起法定嘅時速限制較低，其實都係因為安全嘅考  
21 慮，安全就係因為行人同埋車嗰個嘅互動，仲有車之間嘅互動。喺市區道路最  
22 主要嘅衝突係來自行人同汽車，同埋汽車喺十字路口。咁所以我哋要睇番唔同  
23 嘅因素，譬如話司機減速，可以有幾快令到唔會撞車呢？同埋亦都要考慮人嘅  
24 忍耐度，譬如話一個老人家，佢係被撞倒整親嘅時候，嗰個車嘅時速最高可以  
25 係幾多而呢個人係唔會受到傷害或者死亡呢？咁我哋亦都要睇番海外嘅報告  
26 喇、世界一啲嘅趨勢喇。一啲較繁忙嘅市區道路，其實有個趨勢就係採納較低  
27 嘅時速限制，譬如話每小時 30 公里，呢個講緊嘅係一啲比較密集嘅市區，有啲  
28 地方可能就會係採納 40 喇，有啲就係 30，有啲地方就係同時有 30 同埋 40 嘅  
29 時速限制嘅。

30 主席：（經傳譯員）咩嘢國家，你心目中諗緊係？

31 鄭子憲先生：（經傳譯員）我想解釋一下，喺歐洲，歐洲國家，由荷蘭開始，市區道  
32 路同埋住它區就係時速 30 公里，喺一啲嘅北歐國家喇，譬如話丹麥、挪威，除  
33 咗係時速 30 公里之外喇，佢哋亦都有採納時速 40 公里。後者就係用一啲比較  
34 主要嘅道路，澳洲而家好常見嘅就係每小時 40 公里，譬如話喺中央商業區，悉  
35 尼嘅中央商業區就會見到呢個情況。

36 黃女士：（經傳譯員）鄭生...

37 主席：（經傳譯員）英國呢？

1 鄭子憲先生：（經傳譯員）英國就採納呢個嘅係每公里 20 里㗎，即係大約每小時時  
2 速 32，喺英國，佢哋冇每小時 40 㗎，因為再上就係呢一個嘅 30 英里嘅，呢個  
3 就係等如大約 48 公里。

4 主席：（經傳譯員）呢個就係你考慮到呢一個嘅 13 年 1 月英國道路當局講番就係所  
5 適用嘅規則呢方面嘅資訊㗎，係嘛？

6 鄭子憲先生：（經傳譯員）喺 2013 年，係㗎，2013 年。喺由 2011 年開始，我哋  
7 一直提倡呢一樣嘢，呢個係我哋建議㗎㗎。

8 主席：（經傳譯員）但係我提及嘅就係英國道路局--交通局有一份嘅文件就話係制定  
9 當地嘅時速限制，咁喺唔同嘅城市都有採納，尤其喺倫敦，唔同嘅地方都有咁  
10 做㗎，係嘛？

11 鄭子憲先生：（經傳譯員）主席，係，喺英國就係每小時 20 英里，呢個嘅區域其實  
12 已經歷史悠久㗎，喺 2013 年之前已經有㗎喇，喺 2013 年嘅時候，你提及過嘅  
13 呢份文件，即係話訂定當地車速係其實已經係講咗話關於--咁係有更新嘅，咁  
14 當時以我理解，其實就係確定咗話採納 20 英里作為時速限制呢一個概念。

15 黃女士：（經傳譯員）鄭生，你就提及--之前你講過，提倡訂定車速限制，我想請你  
16 睇其中一份嘅文件，...

17 主席：（經傳譯員）未講啲樣嘢之前，你形容就話一個一般嘅規則--睇番個頂部，  
18 817 頁，你其實預期係由邊個負責去建議呢一個咁樣嘅規則？

19 鄭子憲先生：（經傳譯員）主席，喺制定呢份文件嘅時候，我哋冇深入去釐清究竟邊  
20 個負責，我哋建議係應該有一個一般嘅操作規則，呢個唔係法定嘅時速限制，  
21 呢個係一個建議，就係話內部監控，係九巴公司內部嘅監控或者由政府向佢哋  
22 施加嘅監控條件。咁但係改變時速限制需要時間，亦都係需要經過法定程序，  
23 同時涉及係香港點樣去訂定、點樣去解釋呢個時速限制㗎，咁但係如果係公司-  
24 -即係巴士公司自己內部改變就比較容易。

25 主席：（經傳譯員）我哋喺關於呢一個嘅係 2 月 10 號，18 年嘅巴士意外嘅時候，  
26 咁其實我哋就知道喺 4 月 27 號嗰個路段嘅時速限制已經由 70 減到去 50 㗎喇，  
27 咁所以其實可以見到需時都唔係太耐。

28 鄭子憲先生：（經傳譯員）係，你啱嘅，我喺新聞得知關於大埔公路嘅嗰一個路段時  
29 段限制已經改變，咁我哋建議係時速 30 或者 40，呢個係一個新嘅概念，就話  
30 係以呢一個嘅區域，即係一個時速限制區域咁樣去制定。即係話呢個時速限制  
31 係適用於喺市區嘅道路比較大嘅範圍。咁呢個其實係有兩點，一，根據現行嘅  
32 設計手冊，其實時速 30 公里係不被鼓勵；第二，時速 40 公里並未係《道路交  
33 通條例》嘅其中一部分，所以呢一個我要再進一步印證。

34 主席：（經傳譯員）你提及嘅就係呢個車速限制嘅部分喇，咁係呢個第 6 章，係《道  
35 路交通條例》設計方面㗎，咁可以喺 820-57 頁嗰度搵到㗎。你就引用咗其中

1 兩部分，就同你頭先所講嘅有關。

2 鄭子憲先生：（經傳譯員）應該係運輸署文件一號？

3 主席：（經傳譯員）應該係雜項文件嘅二，係 820-57 頁。或者我係引用番你頭先所  
4 講嘅，就係話香港嘅市區道路係時速 50 哩，有呢一方面嘅指引，其實就係運輸  
5 署嘅交通設計同埋交通規劃設計手冊嘅第 6 章裏面搵到嘅，其中一項係  
6 6.4.2.5 喇，就係話呢一個嘅係建議喺公共道路係嗰個嘅時速限制如果低過 50  
7 公里就唔建議㗎，因為咁樣就係需要加強執法㗎，咁對於再進一步調低嗰個道  
8 路限制嘅話，可能係就未必對防止交通意外有太大嘅影響㗎。咁但係呢一最嘅  
9 嗰句你就質疑喇，係咪呢？

10 鄭子憲先生：（經傳譯員）冇錯。

11 主席：（經傳譯員）咁有關呢一部分，呢一個嘅規則係幾時制定㗎？

12 鄭子憲先生：（經傳譯員）你所講嘅就係交通規則設計手冊？

13 主席：（經傳譯員）係，咁呢個係會唔會同英國嗰個嘅文件有關呢？

14 鄭子憲先生：（經傳譯員）其實呢個來自邊度喇，唔係來自 2017 年嘅版本㗎，即係  
15 唔係來自 2013 年訂定當地時速限制嘅文件㗎，咁但係仲有其他--呢份文件有  
16 提及過其他地方㗎。

17 主席：（經傳譯員）咁但係我哋可以喺邊度搵到咁樣嘅說法？係咪來自 1974 年呢一  
18 個嘅英國運事局嘅文件？

19 鄭子憲先生：（經傳譯員）我就唔肯定，咁但係你其實有好多參考資料㗎，好多都已  
20 經係過時。

21 主席：（經傳譯員）唔該晒。唔好意思，我岔開咗，黃律師。

22 黃女士：（經傳譯員）其中一份你解釋過嘅文件，我哋可以喺 820-57 頁嗰度見到  
23 嘅。呢個其實係--呢一個嘅係第二屆--2017 年第二屆聯合國嘅國際道路交通  
24 安全日嗰度提及過嘅。

25 主席：（經傳譯員）咁我喺邊度可以見得到係邊度提過？

26 黃女士：（經傳譯員）咁喺呢個 820-25 頁底部嗰度見到嘅，就係第二屆嘅國際道路  
27 交通安全週。820-25。

28 主席：（經傳譯員）係，我見到㗎，我見到嘅，喺角落頭。

29 黃女士：（經傳譯員）睇番呢一份嘅文件喇，呢個係咪你係交界呢一個第二屆嘅聯合  
30 國道路交通安全--國際道路交通安全週嘅呢？

31 鄭子憲先生：（經傳譯員）係。

1 黃女士：（經傳譯員）如果睇番其中你提倡嘅一啲以地區嚟計嘅時速限制，呢個就係  
2 820-35 頁。可以見到有 20、30 同埋 40 呢三個區域，譬如話新發展區、住宅  
3 區、遊客區、醫院、鄉村等等，其實你就將佢用唔同嘅區域區分，即係話唔同  
4 嘅區域就應該適用唔同嘅時速限制，係嘛？

5 鄭子憲先生：（經傳譯員）呢份文件其實係我哋嘅願景，我提倡呢一樣嘢，呢個係我  
6 嘅願景，即係話市區發展係唔同嘅區域用唔同嘅車速限制，但不代表目前情況  
7 係咁。時速限制區域我想簡單解釋一下，傳統嚟講，要採納一個時速限制，我  
8 哋需要整個--即係每條街都要有一個嘅車速限制標意誌，譬如話係時速 50 公  
9 里，如果係時速 50 公里，咁就唔使擺喇，咁但係如果係 30，就需要擺好多呢  
10 一個嘅時速限制標誌喺市區喇。咁我想講話如果係時速限制 30 區域，即係根據  
11 我嘅建議，其實都要經過法律程序去界定呢個標誌，如果有呢個標誌就係話譬  
12 如時速 30 公里嘅區域，喺呢一個區域裏面就唔需要每條街都擺個時速限制標  
13 誌，只需要喺進入呢個區域同埋離開區域嘅時候整個標誌，呢樣嘢喺荷蘭、法  
14 國、英國都有咁做。

15 黃女士：（經傳譯員）即係話係要推動安全駕駛，例子可以係 820-36 可以見到喇，  
16 譬如話 30 區域你已經解釋咗點解你推動呢樣嘢喇，因為就你係適用於一啲嘅單  
17 程路、雙程路、好多人嘅地方、密集嘅地方。如果睇番 40，時速 40 公里嘅區  
18 域，跟住個頁喇，就係一啲嘅雙程道路同埋係一啲主要嘅交通幹道，即係話比  
19 較少人行嘅地方。去到時速 50 公里區域喇，就係-38 呢一頁可以見到，就適用  
20 於--即係你個四段，就係比較少行人嘅地方，多啲行人天橋同埋視野比較清晰  
21 嘅地方，即係唔會有阻礙嘅地方。再跟住個頁喇，-39，你建議時速係 20 適用  
22 於呢個區域，因為首先呢啲嘅道路好唔同喇，比較窄同埋好多行人，係一個購  
23 物區、娛樂區、一啲嘅露天市場或者係鄉村中心，所以你就建議時速係 20 公里  
24 喇，呢個就係你嘅理據，係嘛？

25 鄭子憲先生：（經傳譯員）係，呢啲嘅理據其實就係特登為香港情況而訂定嘅，譬如  
26 我所講，40 公里嘅區域唔係喺所有嘅已發展國家用㗎，咁但係香港喺一啲特定  
27 嘅情況係需要咁做。我亦都想一提，關於一啲嘅係 20 公里區域，即係人車都會  
28 用嘅街係比較會佔少嘅部分嘅地方，通常係一啲中心嘅地方、核心地方，譬如  
29 話銅鑼灣、中環，但係大部分嘅道路都係車速 30、40 或者 50 嘅，唔該。

30 黃女士：（經傳譯員）你嘅研究亦都係基於一啲統計，即係署方嘅統計，就係呢個法  
31 國嘅運輸部嘅，請你睇番一個嘅 820-46 頁，睇番個個年長行人致命嘅或然率  
32 嘅，咁呢個係來自英國嘅交通部 2010 年同埋法國嘅研究--法國嘅數據，2006  
33 嘅。你可唔可以解釋一下你嘅意思係乜嘢？

34 鄭子憲先生：（經傳譯員）好，唔該。2010 年嘅時候，當時就係英國嘅交通當局發  
35 表咗一份報告，總結咗亦都再次引證咗佢哋之前所做嘅一啲研究，呢個就關乎  
36 致命或者係嚴重嘅受傷嘅可能性，即係話喺不同嘅行人組群裏面佢哋個個或然  
37 率嘅。喺關於法國方面嘅資料比較一般性喇，我咩嘢意思呢？就話譬如我哋睇  
38 下一秒個反應時間，同埋係需要幾多時間嚟到去剎掣，呢個喺好多文件個度

1 都回應用呢一個假設嘅，即係話係要 7 公尺嘅時間。

2 我哋就睇下喇，如果一部細嘅乘客車，咁而開車嘅速度係 30 公里，咁個  
3 或然率如果係致命交通意外嘅話，或然率係百分之四喇。咁如果佢係如果行人--  
4 係同一部車，但係佢行緊 40 公里嘅話，咁樣就唔同喇。咁最後如果佢係 70 公里  
5 嘅話，咁個或然率就去到百分之九十七。咁個就睇下 30 同 70 又或者 30 同  
6 60 公里，你都可以見到個分別係好大嘅。個反應時間，我呢度已經顯示咗出  
7 嚟喇。當一個司機見到有行人喺馬路度行出嚟，佢需要起碼有一秒鐘嘅時間作出  
8 反應，佢要一秒然後先至可以踩落個剎車掣個度。

9 咁如果係 30 公里嘅話都已經差唔多有二十--如果 40 公里嘅話，佢已經係  
10 20 公尺喇，即係話喺個 20 公尺嘅時間裏面，如果個行人就係出現嘅話，就差  
11 唔多好肯定係會被撞死嘅。咁換句話講，若果係個車速低啲嘅話，就應該就有  
12 咁大可能會引致一個致命嘅交通意外，呢個就係講及人個個--係限制人個能力  
13 嘅問題嘅。車速越高，咁司機需要更長嘅時間先至能夠將部車完全停得低，而且  
14 亦都需要係睇埋個反應嘅時間。

15 黃女士：（經傳譯員）好，唔該晒。咁或者係講番你係 18 年 4 月嗰份陳述書喇，係  
16 786 頁嘅，咁我哋剛才提及個一般嘅規定，我哋而家可唔可以講埋路線呢？

17 主席：（經傳譯員）或者我再講番轉頭喇，講番一般嘅事宜，當我問你，你認為邊一  
18 個應該負責係建議有啲乜嘢嘅規則，你話就仲未係諗通㗎，咁佢係如果講到係  
19 法定嘅車速限制，咁究竟係巴士公司去做㗎，定抑或係政府係實施嘅一個強制  
20 規定呢？咁你話巴士公司可以做㗎，係嘛？咁講啱唔啱？

21 鄭子憲先生：（經傳譯員）㗎㗎。

22 主席：（經傳譯員）咁你覺得巴士公司會點樣做呢？我哋要建議點樣去提高巴士嘅安  
23 全，咁巴士公司方面應該係點樣樣去建議啲司機就係喺某一啲特定嘅地方唔好  
24 係揸車揸到去個法定嘅最高個時速呢？

25 鄭子憲先生：（經傳譯員）法例上面嘅時速限制就係個法定嘅要求，咁司機就要睇  
26 住嘅，不過其實司機亦都係有咁嘅責任，任何時候，揸車嘅時候應該係以適當  
27 嘅行車速度去行車，即係因應當時個環境嘅。我哋呢個建議係點呢？我假設  
28 巴士公司其實任何時候都可以係制定一啲指引話畀啲司機聽，喺啲乜嘢嘅道路  
29 情況之下就應該係以乜嘢嘅車速去行車。咁佢可以係用文件、可以以培訓咁嘅  
30 形式去推行嘅。至於話具體係 40 定 35，定抑或 45 公里，咁呢一方面係需要進  
31 一步嘅調查先可以制定嘅，監察就係另一回事喇。首先我哋要有啲規則喺度  
32 先，下一步然後先可以講個監察嘅，唔該。

33 主席：（經傳譯員）好，譬如話我哋有一啲資訊就知道就係其中一間巴士公司就係有  
34 一啲交通黑點嘅，咁亦都係有一啲彎位比較急嘅，咁佢係咪可以就係話畀啲司  
35 機聽，就喺啲咁嘅彎位行車嘅時候就應該係行咩嘢車速，你大概意思係咪  
36 咁？

1 鄭子憲先生：（經傳譯員）係，以一般嘅規則嚟講，呢個係一般嘅，但係剛才提及嘅  
2 就係譬如話可能某一個特定嘅具體嘅一個路彎喇，咁樣就係去到路線--特定路  
3 線嘅規則喇。我喺文件嗰度都有提過㗎。

4 主席：（經傳譯員）黃律師，你係咪諗住係去問嗰方面嘅問題？

5 黃女士：（經傳譯員）係，主席，因應你問嘅問題。你喺呢頁嗰個頁頭嗰度，你就話  
6 嗰個係喺第二點嘅第 2 段第二行嗰度，你就係話就係希望推廣更安全嘅行車，  
7 呢個係一個規則，就唔係一個懲罰司機嘅工具，換句話講，你係希望請巴士營  
8 運商係可以遵守有關嘅規則，就唔係話用呢一個工具嚟到去懲罰嗰啲巴士司機  
9 㗎，你嗰個邏輯係咪咁？

10 鄭子憲先生：（經傳譯員）係，㗎㗎。我喺寫呢份報告嘅時候，我哋唔係話想講太多  
11 嗰個責任嘅問題，又唔係講話邊一個係違反咗嗰個--冇盡佢嗰個責任㗎，其實  
12 我哋嗰個整體嘅概念都係推廣交通安全，希望大家都係行車安全喇，大家都開  
13 心㗎，我係好想強調呢一點㗎。好，唔該。

14 黃女士：（經傳譯員）好喇，咁你又有咩嘢建議？即係如何去監察？點樣利用監察嚟  
15 到去推廣大家都遵守呢一個嘅規則，而唔係用佢嚟到去懲罰啲人？你認為喺監  
16 察嘅過程裏面係可以點樣做？

17 鄭子憲先生：（經傳譯員）我想話監察嗰個目的就係要搵出邊一啲司機係經常都違反  
18 嗰個規則㗎，亦都想搵出係邊一啲司機佢係經常係嚴重咁樣違反咗嗰啲規則  
19 㗎。第二類嘅司機，我認為就係呢一類嘅司機就係帶嚟極大嘅風險嘅。換句話  
20 講，我哋唔係話譬如話有個司機只不過係稍微係超速咗嗰個時速限制，違反咗  
21 個規則，譬如話我哋定咗每小時 40 公里，咁喺某一個時候佢就搵到 42、43，  
22 就唔係話呢樣嘢有問題，除非嗰個地點係特別危險嘅。我哋要搵出邊一啲司機  
23 呢？就搵嗰啲就係經常違反規則嘅司機，同埋佢違反得嚟嗰個程度非常之嚴重  
24 㗎，咁如果我哋可以及時搵出佢哋，亦都及時咁樣樣係糾正佢哋嘅行為，咁就  
25 最好喇，呢個就係我嗰個概念。

26 黃女士：（經傳譯員）你認為--你話要搵出邊一啲人係經常好危險咁樣樣去違反啲規  
27 則嘅，咁點樣去可以達至你嘅目的？

28 鄭子憲先生：（經傳譯員）我諗傳統嚟講佢哋就搵便衣嘅人員就上車嗰度去監察喇，  
29 有時亦都係靠收到投訴之後就搵稽查去查喇，咁但係我覺得呢一個唔係好有效  
30 嘅，其實科技亦都好先進㗎喇，我相信有更好嘅方法去做㗎。有一個監察嘅制  
31 度、一個監察嘅系統，如果係以黑盒為本嘅話，係可以自動化，實時。咁樣樣  
32 就更加係有效率喇，唔該。

33 主席：（經傳譯員）呢個科技其實都好多年㗎喇嘛，係嘛？其實另外你講及呢一個神  
34 秘乘客嘅計劃，以及就係根據投訴去做嘢。譬如話呢一個係一個好舊--歷史好  
35 耐嘅制度㗎喇，譬如有個人行出去就係翕一支紅旗？

1 鄭子憲先生：（經傳譯員）主席，係，不過我認為今時今日應該更加倚靠一啲先進嘅  
2 科技去進行監察。

3 主席：（經傳譯員）你喺報告嗰度咁講㗎，監察應該係根--係應該係以一啲先進嘅、  
4 實時嘅自動化嘅黑盒系統為本嘅，可唔可以講一講？

5 鄭子憲先生：（經傳譯員）主席，首先我就想講--我就想申報，我喺黑盒系統方面我  
6 唔係一個專家，講到佢咁而家所用嘅先進嘅科技我都唔係專家。

7 主席：（經傳譯員）星期六我哋係做咗聆訊㗎，我哋有一位黑盒製造商 ZF 嘅代表就  
8 係作證嘅，你有冇係去睇過我哋嗰個紀錄本？

9 鄭子憲先生：（經傳譯員）有，我都有攞過下嘅。

10 主席：（經傳譯員）你剛才就話你喺呢方面就有一啲專業嘅知識，咁但係你可唔可以  
11 都答一答呢三點？即係話先進嘅、實時嘅、自動化嘅。

12 鄭子憲先生：（經傳譯員）係，主席。我睇過呢一啲黑盒而家嗰個情況，當我講過我  
13 喺呢方面唔係專家嘅時候，我話我喺科技同埋喺嗰個軟件點樣係開發我唔係專  
14 家，不過我哋可以睇睇我哋用呢啲黑盒嘅系統係想達至啲乜嘢目標。我嘅理解  
15 就係呢啲黑盒就可以收集好多嘅訊息嘅，對呢方面我就最感興趣㗎，譬如話知  
16 道佢加速、減速、傾側嘅角度、車速等等。喺呢個報告裏面，由於呢啲科技有  
17 好先進嘅功能，我認為係可以應用呢個系統嘅，而且有一啲營運商佢哋已經用  
18 咗黑盒嚟到去管理自己嘅車隊，咁所以我寫呢份報告嘅時候，我覺得如果我推  
19 薦--我建議話用一啲先進、實時同埋自動化嘅系統，應該都係公道嘅。

20 主席：（經傳譯員）你所講嘅「實時」係咩嘢意思？係有咩嘢好處？

21 鄭子憲先生：（經傳譯員）主席先生，有一啲行動係極為不當嘅，係需要係適時咁樣  
22 樣去發現同埋糾正嘅，我哋唔能夠話靠乘客嚟投訴，咁然後就係派人去調查，  
23 咁然後就係幾個星期之後先作出糾正，咁係唔得嘅，所以我就建議就係話要明  
24 白實明監察嘅重要性，唔該。

25 主席：（經傳譯員）咁你話自動化，自動咁樣編製呢一啲嘅報告係有乜嘢好處同埋重  
26 要性喺邊度？

27 鄭子憲先生：（經傳譯員）主席先生，根據我嘅經驗，黑盒系統係可以產生大量嘅數  
28 據嘅，如果我哋單單係靠人手去搵出嗰個問題，又或者有關嘅程序唔係完全自  
29 動化嘅話，我相信涉及嘅人手資源好大概嘅，咁樣做亦都唔能夠持久，唔能夠持  
30 續㗎。

31 主席：（經傳譯員）我哋喺星期六收到嘅資訊，咁而你亦都睇過㗎，咁其實就係呢一  
32 啲嘅功能而家都有㗎㗎，即係話自動化嘅監察？

33 鄭子憲先生：（經傳譯員）係。

1 主席：（經傳譯員）亦都係而家車上嘅裝置係冇㗎，係嘛？

2 鄭子憲先生：（經傳譯員）我睇過文件就話係嘅。

3 主席：（經傳譯員）咁即係話你就係要界定嗰個界限喇，譬如 50 喇，咁然後你就將  
4 佢係話 55 就會係一個臨界點喇，咁就係超過咗百分之十佢就會即刻自動、實時  
5 咁樣樣係警示嗰個司機喇，係嘛？

6 鄭子憲先生：（經傳譯員）係，主席，我有睇過㗎，我都睇到呢點㗎。我而家呢度諗  
7 嘅就係話究竟應該個準則定喺邊度，係邊一個先至係嗰個門檻，係用邊個界限  
8 去促發嗰個警示嘅，或者嗰個警示或者個提示係其中一個控制嘅辦法。至於話  
9 我哋點樣用一個黑盒嘅科技去善用、盡用佢，同埋點樣樣去應付呢一個碰撞同  
10 埋受傷，我諗應該會喺日後我哋進行調查呢一個科技嘅時候嘅重點㗎。

11 主席：（經傳譯員）咁你知唔知道運輸署有冇係強制嗰啲巴士公司係點樣用呢啲科技  
12 去有一啲實時同埋自動編製報告呢一個程序？

13 鄭子憲先生：（經傳譯員）主席先生，我有詳細咁去睇過--關於你問嘅問題，我有詳  
14 細研究過。

15 主席：（經傳譯員）有冇一啲文件就係講到佢哋新嘅專營權嘅時候，裏面有冇提及呢  
16 一個建議？

17 鄭子憲先生：（經傳譯員）主席先生，我有，我有睇過有啲呢方面嘅建議㗎。

18 主席：（經傳譯員）我諗你自己係有作出建議㗎，我諗遲啲我哋會睇到㗎，我諗你曾  
19 經作出呢個建議，就話係續約嗰個--專營權續約嘅時候應該包括啲乜嘢嘢。

20 鄭子憲先生：（經傳譯員）係，主席先生，我哋有作出建議，但係嗰啲基本上係一個  
21 方向性嘅比較一般嘅建議嘅。

22 主席：（經傳譯員）但係我又睇過一啲比較係具體嘅建議嘅，亦都同我哋剛剛探討個  
23 問題好有關嘅。黃律師，你係咪--你繼續喇。

24 黃女士：（經傳譯員）係，主席先生，我哋稍後會返番嚟呢個課題嘅，或者先讓我係  
25 完成手頭上呢一個問題先喇。我而家講到係嗰啲路線為本嘅規則㗎，你嘅陳述  
26 書亦都有呢方面嘅建議嘅，786 頁第二點嘅，咁你講到就話香港就係有啲好窄  
27 嘅山路喇，就有足夠嘅安全嘅防護欄--防撞欄嘅。你就係 817 頁，喺 5.4 嗰段  
28 上面剛剛就係--嗰度就係有提及一啲建議嘅，你話希望就係就個別嘅路線就係  
29 制定一啲操作嘅規則嘅，譬如話佢哋有啲好高風險嘅路況喇，譬如話長命斜  
30 喇、特別陡斜嘅坡道喇、急彎喇，就係會埋去嘅時候--入彎嘅時候好容易係超  
31 速喇，又或者係可能係有呢一個安全防撞欄或者係好唔夠，又驚會跌落去，喺  
32 高處跌落去，又或者就係佢係嗰個現有嗰個橋嗰個防護欄就係唔夠喇、路面好  
33 窄、視線唔好，又或者係會有路人或者係翻車嘅人士嘅。咁我想問下喇，你講  
34 到話有特別嘅路--路線方面，唔同嘅路線應該有特別嘅規則嘅，或者唔同嘅路

1 況應該有唔同嘅規則，你可唔可以講清楚一啲呢？

2 鄭子憲先生：（經傳譯員）係，呢一度就係講及我哋個理念嘅，雖然整體嚟講係符  
3 合法定嘅速度係重要，但係都仲要講講個別路段嘅安全嘅。我知道香港有啲路  
4 段，譬如比較--香港島啲比較傳統--起嘅山上嘅路，佢哋設計唔係畀巴士用  
5 嘅，因為起嘅時候好耐喇，咁據我嘅理解，即係喺我本人嘅專業，我可以話畀  
6 你聽，譬如話佢有防護欄嘅，或者防護欄係唔能夠防止巴--即係一個巴士，譬  
7 如話佢嘅速度係每小時 40、50 公里，佢係保護唔到嘅。咁我哋要特別留意呢  
8 啲，我哋搵到出嚟嘅一啲咁樣嘅路段，咁巴士公司--巴士嘅司機係要好清楚係  
9 有咁樣嘅路段，咁呢啲路段應該有一個特定嘅一啲管控嘅、控制嘅，譬如話速  
10 度係每小時 30、35 公里。

11 另一個例子就係响一個高速公路，咁佢個限速係高啲嘅，咁公共巴士又可以  
12 係去到每小時 70 公里嘅速度嘅，但係唔係所有高速公路都個安全水準都係一樣  
13 嘅--安全水平一樣嘅，譬如某一個天橋，佢嘅防護欄就唔足以就達到一個標準嚟  
14 到防護巴士用 70 公里嘅速度撞上去嘅情況嘅。咁响咁嘅情況，我哋可能需要  
15 個巴士司機慢一啲，譬如話係每小時 60 公里，個速度要低啲，咁個意思就係話  
16 要處理速度同埋巴士司機嘅一啲行為嘅問題，就我哋要照顧道路狀況，基於即係  
17 一啲工程嘅準則或者係引致受傷嘅情況嘅準則嚟到係施加管制。

18 主席：（經傳譯員）呢個係為咗管制巴士司機嘅行為，即係話法例上准佢有某個速  
19 度，咁但係咁樣係唔夠嘅，譬如話安全考慮唔夠嘅時候，咁呢個管控應該係由  
20 巴士公司實施㗎，㗎唔㗎？

21 鄭子憲先生：（經傳譯員）我哋做呢個報告，正如我所講，我就有指明係邊一個做呢  
22 件事，咁我假設巴士公司同埋政府可以合作制定有關嘅準則、規定，等個巴士  
23 公司係實施嘅。

24 黃女士：（經傳譯員）我假設即係辨識呢啲咁樣嘅路段，有啲咁樣嘅特徵嘅路段喇，  
25 頭先你都提過又係咩嘢特徵喇，咁會唔會係如果你政府做係咪容易啲？我就係  
26 諗緊運輸署係咪有一個--你知唔知道有一個--成個香港有個電子嘅地圖嘅一個  
27 資料㗎，你知唔知有呢件咁嘅事？

28 鄭子憲先生：（經傳譯員）唔好意思，你係講緊係運輸署係有一個...

29 黃女士：（經傳譯員）哦，佢有一個係數字方面嘅係--道路速度嘅係一個係--好似  
30 地圖，全港嘅道路嘅速度限速嘅地圖資料嘅。

31 鄭子憲先生：（經傳譯員）我就唔知道有一個咁樣關於係道路速度嘅地圖嘅，因為香  
32 港就唔係成日改嘅，即係個速度唔係成日改嘅，大部分嘅路就係限速係每小  
33 時 50 公里喇，有某啲路係有唔同嘅限速嘅。我就唔知呢啲資料已經係用一個電  
34 子地圖嘅方式係保存喇。

35 黃女士：（經傳譯員）睇番運輸署嘅 368 頁，呢個係由運輸署 2018 年 6 月 12 號寫

1 嚟嘅，佢係回應我哋委員會提出嘅問題，要求有一個關於係法定限速嘅電子地  
2 圖嘅資訊嘅，呢度你睇番呢個信件嘅第 2 段，呢度有講嘅，第 2 段。我哋而家  
3 係附交一個地圖，就係全港嘅，另一個係一個關於香港島嘅，淨係涉及 70 公里  
4 或者以上限速嘅道路嘅，畀你參考。咁佢就話--我哋想通--話畀你聽呢個有關  
5 嘅數據，即係關於限速嘅數據係由運輸署保存嘅，用一個 GIS，就即係話係地  
6 理嘅資訊系統嚟到係保存嘅，係可以响嗰個 data.gov.hk 即係呢個咁嘅網站  
7 係下載嘅，咁呢個就可以用呢個軟件令到將嗰個速度限制就係覆蓋响地政署嘅  
8 一個地圖嘅，或者亦都可以用一個係 Google 地圖或者係其他地圖軟件嚟到係  
9 使用，就知道個路段嘅限速嘅情況。

10 而家我哋--運輸署係建議使用以上嘅地理嘅資訊系統嘅數據庫嚟到畀--交界  
11 --要求巴士考慮使用呢個咁樣嘅數據庫或者地圖嚟到係畀巴士公司嘅，呢個係一  
12 個地圖圍欄嘅方法嘅。咁你覺得巴士營運者係咪--如果係用咁嘅方法，你就會知  
13 道係响邊啲地方係話--或者邊一個組別嘅路段係可以係要特別處理㗎？呢個--我  
14 嘅理解，根據你嘅經驗，係咪適合？

15 鄭子憲先生：（經傳譯員）或者我有個咁嘅睇法、意見喇，如果已經係用電子地圖嘅  
16 方式，有咗咁嘅資料，咁係好有用嘅。呢個地--當然，呢個所謂地理圍欄嘅概  
17 念係好有用嘅。但係我哋一定要等司機知道邊一啲路段係需要減速，佢哋或者  
18 應該用咩嘢速度行駛，就算有一啲先進嘅科技，我哋而家都做到㗎喇，可以話  
19 畀佢哋聽㗎喇。但係呢個地理圍欄當然係一個數字式喇，可以同嗰個監控系統  
20 係結合起㗎喇，嚟到提醒佢哋，咁樣嘅系統喺長遠嚟講會好有用處嘅。但係為  
21 咗能夠即時處理有問題，我哋應該可以用一個簡單嘅方法開始嘅，先係講清楚  
22 比較危險--最危險嘅位置，我哋應該可以話畀司機聽，就提供訓練，當然  
23 喇，長遠可以比較自動化，用自動化系統，即係好似你講嗰啲系統。

24 主席：（經傳譯員）咁當然喇，如果我哋監察--你做得--監察做得好，咁佢哋就--  
25 司機嘅行為就應該做得更加好喇，咁特別係實時喇，如果有一個係電子地圖，  
26 咁又係速度限制，咁你都知道個司機喺邊度喇，咁你都比較容易監察，係咪  
27 呀？

28 鄭子憲先生：（經傳譯員）我相信咁樣好有幫助嘅，但係我覺得司機都有啲壓力嘅，  
29 我哋其實想係幫助司機，而唔係要施加好多唔同嘅限制，點樣用最理智嘅方法  
30 嚟到做呢啲嘅事，都需要係考慮細節嘅。

31 主席：（經傳譯員）你知唔知道其中一間巴士--星加坡嘅巴士公司佢有一個係積分嘅  
32 卡㗎，即係個司機嘅行為係有個積分卡㗎，譬如話講緊佢嘅速度或者係減速、  
33 加速，如果係司機有話突然加速、突然減速，佢就會攞到啲高分，咁呢個所謂  
34 嘅--佢就係一個所謂綠色積分嘅司機嘅。如果你一個司機就係經常忽然加速、  
35 忽然減速，咁將嗰個司機好似就拋出車站外面喇，咁佢就係一個紅色積分嘅司  
36 機喇，咁如果幫佢哋，佢哋就畀一個綠色積分司機，司機有獎金嘅。

37 鄭子憲先生：（經傳譯員）係，我同意嘅，司機如果安全駕駛，應該係得到獎勵嘅，

1 要得到鼓勵嘅。

2 黃女士：（經傳譯員）英國佢哋就係咁嘅制度，有冇聽過呢個英國呢個叫做綠色道路  
3 嘅呢個措施，有冇聽過？

4 鄭子憲先生：（經傳譯員）唔好意思，我未聽過。

5 主席：（經傳譯員）呢個係一個軟件嚟嘅，响英國倫敦嘅一個專營商--亦都係星加坡  
6 都有用嘅，我頭先都描述過係點樣做嘅。

7 鄭子憲先生：（經傳譯員）多謝。

8 黃女士：（經傳譯員）呢個綠色道路嘅監察，即係話睇下有冇咩突然加速、突然減  
9 速，或者係經常令到引擎空轉好長時間嘅，咁响英國嘅巴士就係話佢哋有一個  
10 係同偕之間--即係司機之間嚟到係監察嘅，咁佢哋有所謂嘅積分表喇，有唔同  
11 嘅顏色嘅，綠色嘅、黃色嘅、紅色嘅，就視乎佢哋究竟有幾多積分喇，或者有  
12 幾多--發生過幾多事故喇。咁就視乎佢--如果係黃色、紅色就要額外訓練嘅，  
13 咁呢個系統就容許司機知道有咩乜嘢係一啲所謂重要嘅地點喇，咁亦都係如果  
14 係佢哋嘅積分良好，係可以有獎金嘅。咁就唔係淨係罰巴士嘅，亦都係一個全  
15 國使用一個嘅監察系統，睇下邊個係個最好嘅--即係優質嘅司機，咁佢有個全  
16 國嘅每年嘅最佳司機競爭嘅。即係話唔係淨係罰嘅，即係都有獎嘅，即係有個  
17 誘因，等佢哋可以即係駕駛態度更加好、更加安全。你有冇聽過呢個用一個積  
18 分卡嘅制度嚟到係獎勵司機，而唔係罰佢哋嘅？

19 鄭子憲先生：（經傳譯員）我未聽過呢個制度嘅，但係我相信一個類似嘅制度都係一  
20 個出路嚟嘅，只要唔好太複雜，或者係要能夠持續嘅。

21 黃女士：（經傳譯員）我哋頭先講過有關嘅規則，或者可唔可以講講 786 頁嘅巴士  
22 設計嘅？呢個係响另一個文件夾，係雜項二嘅。呢度有講過一啲安全嘅特徵  
23 喇，你建議係作為優先處理嘅，呢度其實有六個特徵嘅，第一個就係前部要比  
24 較安全喇；第二就安全帶；就係使用更多係保護嘅軟墊；嗰個樓梯用一啲--牆  
25 裏面有凹凸坑紋；亦都係要提警示有冇路人响個巴士嘅某個範圍度出現；同埋  
26 改善司機嘅視野，譬如話係鏡同埋閉路電視。你嘅建議係--或者使用乜嘢儀  
27 器、設備嚟到去改善司機嘅視線、視野？

28 鄭子憲先生：（經傳譯員）大嘅車通常好多視野方面嘅問題嚟嘅，重型嘅貨車嚟講，  
29 呢個係一個大嘅問題嘅。今日我哋用嘅巴士，我相信佢哋就比較好啲嘅，因為  
30 個窗係比較大啲嘅。而家我相信大部分巴士都有閉路電視去監察車後嘅，即係  
31 等佢倒車嘅時候安全啲，但係有陣時偶然都係有啲嚴重嘅係涉及路人死亡嘅重  
32 大事故嘅，似乎嗰個巴士司機係睇唔到有人响後面、喺前面或者係車嘅側邊過  
33 路。而家响巴士，就係照我--據我了解，更多有裝閉路電視嘅。咁嗰個監察器  
34 係响上方嘅，即係巴士司機嘅上方嘅，我就唔知道究竟啲咁樣嘅位置對於巴士  
35 司機係咪最適合，即係最能夠幫佢哋睇番有關嘅盲點嘅。我就唔打算講話咁樣  
36 係唔能夠令人滿意咁樣運作嘅，我只係話建議應該要睇睇呢個咁樣嘅閉路電視

1 嘅攝影機，同埋嗰個監察嘅監視器係咪能夠處理晒所有盲點引起嘅問題。

2 另一方面，我從倫敦嘅運輸當局嘅網頁嗰度知道，佢哋都係有喺度研究緊巴  
3 士司機嘅視野問題嘅，視線問題。有個例子就係貨車有個大嘅問題，因為巴士司  
4 機如果有行人响佢前面直接行過，由於個盲點係睇唔到嘅，一般嚟講，個司機就  
5 會利用個側鏡嘅，即係未開車之前睇番側邊嘅鏡嘅，咁但係呢個唔係一個司機好  
6 自然嘅行為，有時佢係做唔到嘅，即係佢冇睇到嗰個側鏡嘅。

7 而家有啲國家，由倫敦作為一個帶頭人喇，英國倫敦就帶頭做一樣嘢嘅，就  
8 要求汽車嘅製造廠，即係要啲設計係更加方便司機睇到前面或者側邊係發生咩嘢  
9 事，呢個叫做直接視線嘅--直接嘅視野嘅一個要求嘅，咁對於巴士嚟講，咁即係  
10 同貨車比較喇，巴士司機坐嘅位置比較低一啲嘅。從我收集到嘅資料，我相信仲  
11 係有改善嘅空間嘅，即係等司機有個直接嘅視...

12 主席：（經傳譯員）哦，你係講巴士司機？

13 鄭子憲先生：（經傳譯員）係，巴士司機，係。

14 主席：（經傳譯員）貨車司機嗰個問題就係話佢要睇--要响門嗰邊先見到係咪有一個  
15 騎單車嘅人經過，呢個係咪其中一個問題？

16 鄭子憲先生：（經傳譯員）係㗎，你要見到人踩單車或者係就直接响佢前面--車前面  
17 行過都係問題。

18 主席：（經傳譯員）咁要改變呢樣嘢，我哋要--你係咪要求--或者 Boris  
19 Johnson 話--我唔--佢話你就--「歐盟唔准我將一啲巴士嘅窗就裝响貨車度，  
20 咁所以我要離開歐盟」。

21 鄭子憲先生：（經傳譯員）我唔知道有咁樣嘅情形。

22 黃女士：（經傳譯員）我就想舉一個例子，就來自你嘅文章㗎，咁就係呢一嘅 18 年  
23 3 月 17 號，關於道路安全就係呢一個嘅好難係--即係行人好難就暢道通行呢一  
24 樣嘢嘅，頁數係 821-78。

25 主席：（經傳譯員）乜嘢？

26 黃女士：（經傳譯員）78。呢個係第 1 頁，我哋睇番 820-82。呢個顯示到就係話直  
27 視嘅問題，即係嗰個直視措施，你頭先講過嘅，直接可以睇到嗰樣嘢，可唔可  
28 以解釋一下喇，就係話呢一個嘅道路外嘅重型--HGV 或者呢一個嘅直視 HGV？

29 鄭子憲先生：（經傳譯員）從我搜集嘅資料可以睇到，重型貨車 HGV 其實設計係喺  
30 公路上用㗎，意思即係話會比較少啲行人，車可以一路行，唔需要成日停，呢  
31 個就係講話呢一個道路以外嘅情況，咁但係喺香港，有好多街道都有好多行  
32 人，包括係一啲行人密集嘅地方、中央商業區，呢個就係問題。

33 黃女士：（經傳譯員）睇番之前嗰頁喇，就係 786 頁，就係嗰六個因素，其中一個

1 就係講話有關於行人嘅一個嘅特徵喇，就係話行人係可以得到警示，遠離行走  
2 嘅車輛，你意思係指咩嘢？

3 鄭子憲先生：（經傳譯員）喺報告裏面，我有特登--我有即係特定講明個特徵嘅。  
4 喺某啲國家，譬如倫敦運輸局，佢哋研究緊一啲新嘅做法，包括警示器或者一  
5 啲閃燈。

6 黃女士：（經傳譯員）呢個警示器同埋閃燈會擺喺邊呀？

7 鄭子憲先生：（經傳譯員）我有詳細研究，但係我估計可以安裝喺一啲盲點地方，即  
8 係巴士盲點、盲區。譬如喺車身近前，行人好多時喺呢啲地方就會因為車身阻  
9 擋，司機睇唔到佢哋嘅。

10 主席：（經傳譯員）咁呢個會唔會係一個感應器話畀--即係觸動咗之後就會係有警  
11 示，就話畀人聽話係有人喺車嗰度行過？

12 鄭子憲先生：（經傳譯員）呢個其實係有可能嘅，不過我預期呢啲嘅功能唔需要感應  
13 器都可以做到㗎，即係嗰架巴士轉緊彎嘅時候就會知㗎喇。

14 黃女士：（經傳譯員）呢一頁你亦都講過話安全帶，可唔可以睇番 805 頁，你喺呢  
15 一頁上面就有進一步解釋嘅，係安全帶方面。喺呢一部分你就話喇，一般嚟  
16 講，即係安全帶只係喺某部分冇遮擋嘅座位先至有㗎喇，咁即係譬如話十至十  
17 四個喇，就係雙層巴士按--司機喇、上層有四個喇，另外就下層嘅前面喇，就  
18 係面對住走廊嘅，咁同埋就另外就係下層嘅向前啲座位，咁你就話呢啲其實  
19 就係要再進一步研究下先知道佢哋係咪有用。而家嘅巴士設計，有關於上層前  
20 座嘅新巴士已經裝有安全帶㗎喇，...

21 主席：（經傳譯員）講緊係上層，前面？

22 黃女士：（經傳譯員）係，上層前座。

23 鄭子憲先生：（經傳譯員）上層前座，係。喺報告裏面有講，我知道呢啲座位喺上層  
24 前座已經裝有安全帶。

25 黃女士：（經傳譯員）其中運輸署研究嘅一個事項，就係有關於呢個議題嘅，可以睇  
26 番運輸署五號文件，168-8。

27 主席：（經傳譯員）咩嘢㗎喇？

28 黃女士：（經傳譯員）呢份文件係附件二，由運輸署撰寫㗎，有關於委員會喺口頭證  
29 供之後所做嘅文件嘅，關於使用--關於喺專營巴士使用新技術。

30 主席：（經傳譯員）呢個係邊度㗎？

31 黃女士：（經傳譯員）係附件二，呢個第-8 頁嗰度嘅，係一啲補充資料。如果我哋  
32 睇落去，就提及過就應該就係呢一個嘅 1693 頁嘅。可唔可以睇番 1689 頁？另

1 外 16--睇番 1691 頁第 12 段喇，上面就話喇，運輸署嚟工作小組，3 月 13 號  
2 嘅時候，署方建議同埋所有嘅專營巴士經營者都同意話新嘅巴士所有座位都要  
3 有安全帶嘅，咁而現有巴士嘅座位如果要安裝番安全帶就需要再進一步研究  
4 㗎。咁似乎喺呢一個討論裏面，就會係新嘅巴士嚟將來所有座位都會有安全  
5 帶，你知唔知呢樣嘢？

6 鄭子憲先生：（經傳譯員）我從文件，喺之前嘅聆訊裏面喇，呢方面我都睇到，所以  
7 我知嘅。

8 主席：（經傳譯員）整體嚟講，即係你可能都有睇過喇，我講埋畀你聽上文下理，署  
9 方就開咗一個工作小組會議去睇，話使用新技術嘅討論嘅，我唔知咁樣講啱唔  
10 啱喇，咁但係喺呢一個 18 年 3 月嘅時候就傾過嘅，呢個就係文件所講嘅嗰個會  
11 議，呢個係第八，文件八，係嘛？

12 黃女士：（經傳譯員）係。

13 主席：（經傳譯員）裏面就係提及過一系列嘅技術㗎，咁就有考慮黑盒，即係或者行  
14 車紀錄儀㗎，咁呢個就係同運輸署專營巴士經營商同埋呢一個嘅製造商係討論  
15 過㗎？

16 鄭子憲先生：（經傳譯員）係，我知道有一個咁樣嘅委員會，但係我就唔知道討論詳  
17 情。

18 主席：（經傳譯員）呢個係我想講畀你聽個背景資料㗎嘅，係關於安全帶。

19 黃女士：（經傳譯員）想睇番運輸署文件八號，咁就係呢一個嘅第 94 頁，裏面就--  
20 呢份文件係運輸署嘅文件㗎喇，上面就講咗話喇，就係一啲專營巴士嘅一啲  
21 措施、一啲儀器嗰個嘅使用嘅可行性同埋可取性嘅，即係喺大埔意外之後嘅  
22 事。咁睇番喇，其中一段就講喇，95 頁裏面就話係同呢一個 3 月，經營商同埋  
23 製造商係傾過就係--討論番有關於使用一啲新嘅安全設備嘅，咁曾經就係睇過  
24 有關於話所有嘅乘客座位要加裝安全帶，呢個喺第 5 段可以見到。由第 5 段開  
25 始可以一路去到第 9 段。喺聆訊嘅時候，我哋聽到證供，話有啲經營者講過話  
26 就算裝咗安全帶，大部分嘅乘客都唔願意戴安全帶嘅，咁你建議點樣可以幫助  
27 公眾理解呢樣嘢，鼓勵佢哋使用安全帶呢？

28 鄭子憲先生：（經傳譯員）我理解現有巴士就算有裝安全帶，使用率都係好低，呢個  
29 係一個好棘手嘅問題，我哋需要用唔同嘅方法去處理。我認為法例規定係其中  
30 一樣可以用嘅措施，另外就係宣傳。咁措施--即係宣傳個內容係好重要，因為  
31 唔單只係要令乘客知道呢樣嘢，亦都需要同佢哋解釋，令佢哋明白戴安全帶嘅  
32 重要性。戴安全帶唔單只係保護到佢哋自己，如果你坐嘅位置有另外嘅乘客對  
33 住你喇，如果佢哋拋出嚟嘅話就會傷到你或者你會傷害到對方。點樣將呢啲技  
34 術性嘅資料真係令公眾知道，其實係有難度。

35 主席：（經傳譯員）咁其實可以跟番同一個做法喇，就好似其他汽車咁喇，開始嘅時

1 候係自願性，冇人做，跟住法例規定硬性要做喇，而家所有人上車都會戴安全  
2 帶？

3 鄭子憲先生：（經傳譯員）係，主席，我同意。但係同時亦都要睇番公眾小型巴士，  
4 其實法例規定硬性係需要戴安全帶嘅，但係我今日可以見到乘客真係去符合法  
5 例規定有做嘅係好低，所以有其他更好嘅方法說服公眾，要佢哋戴安全帶，但  
6 係點做到，我就畀唔到一個好肯定嘅答案。

7 主席：（經傳譯員）正如好似話雙黃線唔可以泊車，咁但係我哋見到喇，其實喺香港  
8 行就見到喇，法律執行係一個問題。

9 鄭子憲先生：（經傳譯員）冇錯，執行法例係另外一個嘅問題，我其實係同情執法機  
10 構或者部門，因為睇番道路安全，無時無刻，喺任何嘅地方都會見到有好多唔  
11 同嘅人犯唔同嘅法例，包括安全帶，所以如果係淨倚賴執法係好難㗎。

12 主席：（經傳譯員）咁其實--但係有時--即係做得到都會有好處--有益處，係咪？

13 鄭子憲先生：（經傳譯員）係，我同意。

14 黃女士：（經傳譯員）喺呢份文件裏面，亦都有講過其他嘅安全設備嘅，睇番第 98  
15 頁喇，就係喺專營巴士上使用安全設施，咁呢一啲嘅電子穩定控制系統喇、傾  
16 側穩定控制系統喇。同時，喺你文件裏面，818 頁都有見到類似嘅建議嘅，就  
17 係電子穩定控制系統，...

18 鄭子憲先生：（經傳譯員）喺未講設備之前喇，有關於巴士設計嗰部分你提過，喺  
19 786 頁，其實呢個就係你第一樣講嘅，就係話呢一個巴士前面係令佢設計得更  
20 加安全，目前喺巴士前方有咩嘢唔安全嘅地方呢，即係比較唔安全喇？

21 鄭子憲先生：（經傳譯員）上層，巴士上層前方係空間好少，呢個就係嗰個嘅撞擊吸  
22 收力區。巴士上層前座有安全帶，其實係對於某啲情況係有用㗎，譬如當巴士  
23 突然冇車，或者撞向防撞欄或者係同一啲比較細嘅汽車撞埋，但係雙層巴士如  
24 果係追撞貨車、貨櫃車或者撞橋墩，上層前方嘅乘客就算有戴安全帶都會受重  
25 傷。呢方面我或者有請高醫生作進一步嘅解釋。

26 高兆祺先生：主席，如果--即係就算有冇戴安全帶都好喇，如果嗰個車廂係被壓扁，  
27 譬如話係呢一個巴士嘅上層前方，其實就係內部如果有足夠空間係承受呢一個  
28 車廂壓縮嘅話，就會壓到個乘客，令到乘客會內傷。咁通常我哋見到嘅就會係  
29 呢一個盤盆骨、胸腔係會有受到呢啲嘅傷害嘅，如果個撞擊力吸收區係唔受  
30 的話。所以鄭生提及到就話巴士上層前座嘅乘客有冇戴安全帶都好，佢哋其實受  
31 嘅風險係較高嘅。

32 主席：（經傳譯員）咁從我哋睇到嘅相，大埔交通意外，即係 2 月 10 號嗰宗嘅交通  
33 意外喇，係巴士嘅前方係嚴重損毀㗎，係嘛？你有睇過啲相嘅話，可以出聲。

34 鄭子憲先生：（經傳譯員）我有睇過啲相。

1 主席：（經傳譯員）可能呢個係另外一個即係損毀嘅原因。

2 鄭子憲先生：（經傳譯員）其實對於嗰一次意外，實際係因為咩嘢原因我就唔知㗎，  
3 究竟係巴士翻側，直接翻側砸咗落去巴士站上蓋，定係話巴士站上蓋嘅建築物  
4 插咗入去巴士車身，因而令到傷亡人數較高，呢個我其實就唔係好肯定㗎，要  
5 等到有一啲嘅確實證據先知。咁但係正如喺報告裏面所講，我理解到呢啲傷勢  
6 嘅——傷勢喇，咁同埋嗰個嘅機制，咁但係我哋可以就引入一啲特定嘅措施，包  
7 括安全帶，咁我哋其實要明白對於某啲嘅安全措施可能係有個特定嘅機制，喺  
8 某個特定嘅情況先至會有用㗎，咁所以我哋係需要先理解，要進一步理解係撞  
9 擊同埋呢一個傷勢嗰個關係先至知㗎。

10 黃女士：（經傳譯員）鄭先生同埋高醫生講到呢一點，我就係想睇番第 805 頁，即  
11 係話你哋 2018 年 4 月嘅陳述書，底下嗰度講到話係將佢分區，咁同埋嗰個翻側  
12 嘅測試，呢一個就係聯合國嘅規則，2006 年嘅規則㗎。你就係話嗰個規則就係  
13 好多地方都採用咗喇，要求巴士嘅架構就有足夠嘅強度㗎到就係進行咗呢個翻  
14 側測試之後，佢嗰個剩餘嘅空間都仲係有去到某一個標準嘅，要確保乘客唔會  
15 係死亡㗎。你意思係咪話我哋應該引入呢一個規則，要求巴士製造商或者巴士  
16 營運商係要用某一啲物料㗎到去製造嗰架巴士，㗎到確保就係喺相撞之後仲係  
17 有足夠嘅剩餘空間，個空間唔會被擠壓呢，可唔可以解釋一下？

18 鄭子憲先生：（經傳譯員）我唔係巴士設計嘅專家，我嘗試去研究一啲文件，有幾份  
19 文件都係關乎巴士嘅上層結構㗎，我知道就係聯合國佢 2006 年嘅 UNECE 66  
20 嗰個規則就係講及嗰個翻側嘅測試就係用呢個單層巴士嘅，咁個概念係點呢？  
21 就係當架巴士就係翻側嘅時候，至為重要嘅就係佢嗰個結構就唔會就係嚴重變  
22 形，否則嘅話，坐喺車上嘅乘客就會被壓扁嘅，咁好容易就佢哋就會係因為喺  
23 翻側嘅時候就係個空間收窄喇，佢哋就會撞落個路面嗰度。咁係要求佢哋個空  
24 間係唔會被擠壓嘅。

25 但係我知道嗰個測試係應用於單層巴士嗰度㗎，其實喺 2009 年嘅時候，曾  
26 經有一位專家，係聯合國嘅專家都係有建議，就話應該包括埋雙層巴士嘅。我唔  
27 肯定究竟而家嗰啲規則更新咗未，我亦都唔肯定雙層巴士究竟有冇做過呢啲翻側  
28 嘅測試嘅。但係我嘅理解就係呢個翻側嘅測試係一個簡單嘅翻側測試，換句話  
29 講，就係巴士向一側就係跌落去喇，就唔係講話係會首先跌落嗰個巴士站上蓋或  
30 者係跌落一堵牆，又或者係跌落個安全防撞欄嗰度嘅。另一點就係話嗰個重點係  
31 在於嗰個測試嗰個目標就係話希望係確保剩餘空間依然係保存到㗎。

32 乘客，如果佢哋架巴士係翻側嘅話，佢會受不同程度嘅傷勢嘅，做呢個測試  
33 都係有助，不過亦都唔係就係靠咁就得喇，因為係會有各種不同形式嘅受傷㗎，  
34 所以或者呢方面想問下高醫生，唔知有冇嘢補充㗎。

35 高兆祺先生：如果雙層巴士係翻側嘅話，有兩樣嘢要睇，第一就係佢個上層架構係唔係  
36 好似鄭生所講咁樣係保持冇變形喇；第二，我哋要確保車上嘅乘客會唔會就係  
37 移動得好利害，即係會唔會喺窗外拋咗出去呢，又會唔會就係衝咗去砸落去第

1 二啲乘客身上㗎。因為如果一個人佢係昏迷，但係仲係有呼吸，咁佢如果佢身  
2 上有兩、三個第二啲乘客砸住佢嘅話，其實佢可能就係因為人哋其他乘客嘅  
3 重量壓住佢，令到佢係窒息㗎。所以我哋要考慮嘅亦都要考慮埋呢一點，即係  
4 話萬一有一架巴士係翻側嘅時候。

5 黃女士：（經傳譯員）好，唔該。或者等我哋再睇番運輸署嘅文件 TD-1 98 頁，我  
6 哋就係講到係電子穩定控制系統同埋傾側穩定控制系統㗎，我諗你自己份文件  
7 就係喺 786 頁嗰度亦都有係講過㗎。對於呢一啲嘅系統，你知得多唔多？

8 鄭子憲先生：（經傳譯員）再一次我想講喇，喺車輛設計方面我唔係專家，不過我係  
9 有睇過呢啲電子穩定控制系統嘅資料嘅，我明白佢個個理念喇，咁同埋呢一個  
10 科技亦都已經相當成熟嘅。我認為--我喺報告嗰度我就認為我哋係會建議係起  
11 碼去詳細啲睇一睇呢一個控制系統㗎。

12 黃女士：（經傳譯員）係，實質上運輸署亦都有提倡使用呢一個系統嘅，或者大家睇  
13 一睇呢個第 100 頁㗎。

14 主席：（經傳譯員）邊一個文件夾呢？

15 黃女士：（經傳譯員）TD-1，我仲係喺同一個文件夾，不過就係想請你睇第 15 段。  
16 我哋睇睇第 15 段㗎，嗰度就話其中一位係巴士製造商咁有咁嘅建議，就係話佢  
17 哋新嘅現存嘅巴士都已經係有呢個電子穩定控制系統㗎。咁香港嘅專營巴士大  
18 概百分之 2.8 就係又喺呢一個製造商採購嘅，就已經有埋呢個電子穩定控制系  
19 統喇。製造商亦都再進一步講，佢哋個電子穩定控制系統其中一個功能就係  
20 傾側穩定控制系統，就係用電子控制嘅懸掛系統嚟到保障呢個翻側嘅，以免翻  
21 例㗎。佢就話佢--不過就係話縱使就係有咁樣嘅裝置，係其實如果嗰架巴士駕  
22 駛不當，譬如話放肆咁樣駕駛，都依然係難免係翻側㗎，個巴士依然就會係因  
23 為佢離開路面--脫離路面同埋嗰個角度--車身角度太高都會翻側嘅，咁所以就  
24 唔能--而呢度就係話所有嘅運營商就係同意係有裝埋呢一個系統㗎，即係當佢  
25 哋買新車嘅時候。我想問下喇，英國、法國，你話進行話一啲項目研究㗎嘛，  
26 你知唔知佢哋嗰方面嘅情況係點呢？有冇呢一個電子穩定控制系統？

27 鄭子憲先生：（經傳譯員）我呢方面有資料，我知道佢哋用得幾廣泛，我亦都唔知  
28 道佢哋有冇喺公共巴士嗰度用。

29 黃女士：（經傳譯員）你喺文件裏面亦都有講過，話自動嘅剎車系統，你文件嘅第  
30 786 頁，786 頁你嘅文件嗰度你有提過㗎。你可唔可以進一步闡釋一下？

31 鄭子憲先生：（經傳譯員）呢一段裏面我就提過話應該係進一度研究呢一個系統㗎，  
32 自動緊急剎車系統，當然照我嘅理解係一個智能嘅系統喇，如果係偵測到係好  
33 快就要相撞喇，譬如話同行人相撞或者就係同前車相撞，咁部車就會自動啟動  
34 咗嗰個系統，就係將車停低或者慢低落嚟㗎。我建議要睇下呢一個研究，因為  
35 前後相撞係我哋認為最嚴重嘅事項，最需要關注㗎。另外，巴士翻側同埋巴士  
36 喺懸崖嗰度跌落去，當然亦都係要關注喇，不過前後相撞係較常見，亦都往往

1 喺高速公路嗰度發生，亦都往往引致多人傷亡，而上層嘅乘客往往亦都係受嚴  
2 重嘅創傷嘅。所以我嘅理解係話有啲巴士公司已經係引入咗呢一啲嘅系統㗎  
3 喇。或者係肯定咁去做，或者係作為一個試驗咁去做。我認為呢個係一個好好  
4 嘅一種功能係需要去進一步研究嘅。

5 黃女士：（經傳譯員）或者我哋又睇番運輸署嗰份文件喇，係 102 頁，TD-1 嘅 102  
6 頁，呢個就講車速顯示器。

7 主席：（經傳譯員）我哋未繼續落去之前，我想問下工作小組--有一個工作小組就像  
8 睇下嗰個採納先進科技嘅，佢哋嗰個結論係點？

9 黃女士：（經傳譯員）我相信佢哋未睇呢一個議題嘅。

10 主席：（經傳譯員）我想問避免相撞，喺 103 頁底下嗰度係有冇提及呢件事？嗰度  
11 就有兩件事情嘅，一個就講保持嗰個行車線，另一樣就係關於--好似鄭生所講  
12 喇，即係頭尾相撞嗰樣嘢嘅，一個就係要保持你架車喺嗰個行車線度，另一個  
13 就係避免你同前面係太近又或者前車停車你又唔停，咁你又撞埋落去又或者係  
14 撞到行人。

15 黃女士：（經傳譯員）係，㗎，103 至到 104 頁。或者我哋睇呢個 103 頁喇，底下  
16 嗰度，當架巴士就係太貼前車--第 24 段，當架巴士係同前車太貼嘅時候，就會  
17 有一個訊號，係聲音同埋影像嘅，就會有個訊號提醒嗰個司機。有啲系統就會  
18 有埋嗰個剎車嘅支援嘅，咁若果佢唔係--喺嗰個警告嘅之後都唔作回應，嗰個  
19 剎車支援功能就會係啟動嗰個剎車系統㗎到係儘快回應喇，因此嗰個就會踩嗰  
20 個腳掣㗎喇。咁若果係就嚟要撞車喇，咁佢又冇去踏個腳掣嘅話，有啲新嘅系  
21 統就會就係大力咁樣係自動剎車㗎到去避免--㗎到係等嗰個撞擊力係減弱嘅。

22 我哋亦都知道嗰三家巴士製造商對呢一個睇法係有咩嘢建議嘅，第 26 段，  
23 佢哋三間製造商都話其實亦有啲已經係有嘅，或者係第三方嘅保持行車線嘅系  
24 統，新車、現有嘅車都可以有嘅，不過佢哋有保留嘅，因為香港嘅交通繁忙喇，  
25 咁而且經常就會係換線嘅。

26 主席：（經傳譯員）我哋而家係咪講緊另一個題目？一個就講頭尾相撞，一個就係轉  
27 換行車線或者唔轉換行車線，我想問下喇，佢哋究竟嘅睇法係點呢？

28 黃女士：（經傳譯員）係喺最後嗰段嗰後嗰句嘅，有一啲係--嗰個巴士營運商就唔認  
29 為係安裝咗呢個碰撞避免裝置或者係保持行車線裝置係有效咁樣樣，令到佢哋  
30 嘅服務更加安全。似乎佢哋就係個睇法係唔同嘅，對於話呢一啲係避免碰撞嘅  
31 系統係咪真係有效、有用，佢哋嘅睇法係唔同嘅。我就想問下你嘅意見喇，因  
32 為喺你自己嗰份文件嗰度，你又提出呢一個建議嘅，你就覺得有咁樣嘅系統  
33 就會係有助嘅，咁想問你而家嗰個回應係點喇？

34 鄭子憲先生：（經傳譯員）當然，引入任何一種新嘅系統首先都需要係用巴士營運商  
35 係有一個透澈嘅討論，而且亦都要有巴士司機嘅回饋先至可以做嘅。亦都有可

1 能就係話太多系統嘅話，就係分散咗佢嘅注意力，又或者因為係好難用，或者  
2 有其他唔想要有嘅作用而係帶嚟唔好處嘅。講到呢一個自動嘅緊急剎車系統，  
3 呢個建議就係由於我哋真係有好多前後嘅碰撞以及佢引致嘅問題，而且好多海  
4 外嘅營運商亦都已經引入咗呢套系統，又或者好認真咁樣樣去考慮係進行呢個  
5 試驗。呢度呢一段我唔係太肯定係咪話營運商認為佢係冇乜用、冇乜效，究竟  
6 係嗰個討論嘅結果係就話佢哋唔想要㗎，定抑或佢哋有一個良好嘅理據，就係  
7 覺得唔好用，又或者--定抑或係佢哋起碼都想進行一下一個試驗計劃呢？由於  
8 呢度資料不足，我就好難作回應㗎。

9 主席：（經傳譯員）我幫下你手喇，我喺城巴度有啲資訊嘅，佢哋話就係進行過一個  
10 試驗嘅計劃嘅，佢哋就發現呢一個就係太多警號就發出嘅話，就會好分心㗎。  
11 或者我哋休息之後係可以再係話畀你聽有邊個部分就可以睇一睇嘅。或者黃律  
12 師，喺城巴嘅口述證供嗰度其實係有提過㗎。佢哋係有一啲系統就係可以或者  
13 參考番，咁之後你可以係再回應喇。我哋大家都休息一下喇，你休息下，我哋  
14 又休息一下，休息二十分鐘，唔該。

15  
16 上午 11 時 16 分聆訊押後

17  
18 上午 11 時 41 分恢復聆訊

19 出席人士如前。

20  
21 主席：（經傳譯員）黃律師，唔該晒。

22 黃女士：（經傳譯員）喺我哋小休之前，講緊關於一系列嘅事項㗎。主席問咗問題關  
23 於其中一家巴士營運公司城巴嘅問題，就係話即係呢一個係車輛呢，係保持行道  
24 嘅設施。咁請大家睇番呢一個嘅 TSCP-1 號 49 頁嘅，咁呢個係當時嗰個嘅聽證  
25 會謄本㗎㗎。應該呢就係 TSCP 文件 49 至到呢 51 頁。

26 咁鄧樂勤資深大律師代表委員會問問題，第 19 項。鍾先生係代表城巴有關  
27 於一啲嘅技術設備，佢就話--我請你睇番 26 段，呢一段呢就係我哋睇過嘅。上  
28 面紀錄話巴士營運商呢係冇考慮到防撞同埋呢係將汽車保持行車線嘅設施係考慮  
29 安裝，呢樣嘢其實係會提升巴士操作安全。咁係呢樣嘢喺 26 段喇，佢話「你係  
30 咪睇過呢？」佢話「係。」跟住鄧樂勤律師就話喇「咁我嘅理解，咁講啱唔啱  
31 呢？即係有關於公司嚟睇，係冇準備考慮安裝呢啲設備㗎。」

32 咁鍾先生就話等我首先解釋喇，係呢一啲嘅設施喺 2014 年嘅時候，公司當  
33 時真係有進行測試㗎，呢個呢其實係叫做神眼。神眼係一個係協助駕駛嘅設備㗎  
34 㗎。當時呢主要適用於私家車，其實呢就係會利用視覺嘅幫助，去感應前面有啲

1 乜嘢，跟住系統就會進行分析，然後呢計算係汽車同埋前面個物件嘅距離，  
2 同埋後面嘅距離，然後再計下幾耐時間就會相撞，然後發出一個嘅警號畀駕  
3 駛者。咁我哋其實就係其中三架巴士安裝咗神眼，進行測試咗四個月，咁亦都安  
4 排唔同嘅職工會，即係巴士車長代表，同埋係另外五十多位巴士車長係去駕駛呢  
5 啲嘅巴士，咁同埋呢就係呢個正常嘅服務時間就進行，咁跟住就會叫佢填番問  
6 卷，畀番意見我哋。咁我哋最後發現呢，其實呢啲設施就唔係咁適用㗎，譬如話  
7 如果係車進入呢一個巴士停車處嘅時候，咁咪感應到前面有人，因為你都知道巴  
8 士站係有人等車㗎喇，咁所以跟住就會響聲㗎。

9 但係其實當時嘅巴士車長都未拉直架車，咁所以就會有警號。咁如果架巴士  
10 係停得好近前面架巴士嘅話呢，咁其實呢就會係——即係話呢如果交通係行得慢  
11 嘅時候，又會響警號㗎，意思即係話呢，成日都會響警號。咁有四成六嘅巴士司  
12 機同我哋講，就話咁樣成日響警號，其實就會係滋擾，所以最後佢哋就唔理呢個  
13 警號㗎，而有五成嘅巴士司機就話畀我哋聽，神眼係有幫助到佢哋安全駕駛。咁  
14 所以睇番呢個神眼嘅功能，同埋巴士車長嘅意見，仲有就係話安裝價錢非常之  
15 貴，所以我哋就決定唔再跟進，呢個係我哋嘅經驗，咁我哋喺會議上面亦都有講  
16 到呢樣嘢。

17 咁想請你睇番嗰份報告，報告就係證供裏有提到。就係呢一個城巴文件 3  
18 號，係 601 頁。呢個首頁就係神睇嘅試用結果，601 頁。603 頁提及到進行測  
19 試嘅時間，背景第 2 段可以見到㗎，喺 2014 年嘅時候進行試用。睇番第 2 段，  
20 第 2 段，「神眼試用」咁就係分開兩期。咁第 2 段㗎，問卷就係發出咗畀 13 個  
21 員工表同埋係 54 位有駕駛呢一架試驗車嘅巴士車長去收集佢哋意見。跟住繼續  
22 睇番 609 頁。寫出咗呢一個試用結論同埋建議嘅，第 5 段。接受率方面㗎，五  
23 成嘅車長，意見就話神眼係有幫助到提升駕駛安全，四成四嘅巴士車長意見就  
24 話，神眼警號就會係造成滋擾，咁所以呢對於呢一個成效係存疑，所以決定就唔  
25 會再進跟使用神眼。

26 咁喺最近嘅一份文件，由運輸署喺 5 月，今年 5 月呢就係提交畀我哋嘅文件  
27 係 TD 運輸署嘅 5 號文件 1691 頁，咁呢一個第 12、13 段可以見到，13 段呢仍  
28 然有提及。由 12 段嘅尾數上第 5 行就話，呢一個防撞同埋呢保持行車線嘅設  
29 施，咁其實就係諗呢個工作小組佢有睇過，工作小組嘅意見就係話，喺呢啲車上  
30 嘅設施可行性同埋適用性，咁其實就要進一步再研究。

31 13 段中間就話係有一個嘅係最後嘅決定，即係關於使用新技術方面，我哋  
32 預計係呢一啲提升安全措施同埋設備，安裝喺車上面嘅結果應該喺 2018 年 6、  
33 7 月就會發布，咁所以為咗完整起見，就咁講番畀你聽，係有一個最後嘅決  
34 㗎，只有城巴係有進行過測試，咁係測試呢就係根據 54 位有駕駛呢一架巴士嘅  
35 意見。咁睇番喇，你面前嘅資料，咁你係對於呢即係有關於呢一個嘅自動煞車系  
36 統喇，同埋呢一個緊急嘅系統，你嘅意見係咩嘢？

37 主席：（經傳譯員）鄭生，你嘅意見係唔係話係要試用，而唔係直接話喇，你建議使  
38 用。

1 鄭子憲先生：（經傳譯員）主席，我哋建議進一步研究所有嘢都要睇番個證據同埋  
2 實用性。

3 主席：（經傳譯員）我咁樣講啱唔啱呢，我有冇記錯，阿黃律師。神眼或者有關嘅呢  
4 一個諗遙距嘅溝通系統，係咪淨係香港呢？倫敦有冇用呀？

5 黃女士：（經傳譯員）我相信喺英格蘭喇，係喺一個研究裏面有試過，所以就有建議  
6 喺香港使用。

7 主席：（經傳譯員）咁最近喺倫敦係咪有用過，即係呢個 2014 測試之後。

8 黃女士：（經傳譯員）係，係一個最近嘅報告有，我就會搵番有關嘅參考號碼畀你。  
9 或者我想再...

10 主席：（經傳譯員）香港唔適用其中一個原因，就係巴士司機，其實就係同前車嘅巴  
11 士距離呢係非常之近嘅，尤其就係即係行緊車嘅時候，所以就會成日響聲囉。  
12 咁其實可以再調查個同前車嘅距離，如果你同前車行得咁近嘅話，咁行人都  
13 過唔到嘞，咁尤其就喺呢一個停緊車嘅時候，咁當然就成日會響喇。

14 鄭子憲先生：（經傳譯員）主席，我哋冇錯，係需要理解多一啲個準備，基準，呢  
15 啲設施呢個技術會不停改進，我明白城巴有做咗一個好好嘅測試，之後亦都有  
16 做調查，咁呢方面我有任何嘅意見。我哋建議呢啲嘅系統係需要進一步研究，  
17 係基於有需要，因為一啲嘅前後撞車，係好嚴重㗎，咁同埋呢係對於行人有風  
18 險，咁如果呢啲系統係夠成嘅熟話呢，係可以解決到我哋嘅問題，但係當然所  
19 有事都係取決於試用，同理要證明到真係有效。

20 主席： Thank you.

21 黃女士：（經傳譯員）唔該。我哋未講另外一樣嘢之前呢，我想問你幾個問題，就係  
22 一啲運輸署嘅建議，其中一個呢就係車速顯示器。就係呢一個運輸署文件 1 號  
23 102 頁，就係 8 號文件㗎嘅，即係關於新技術嘅 8 號文件。21 段最後一行喇，  
24 就提及到話現有行車車速顯示器喇就係喺呢一個嘅小巴上面有加，咁其實就係  
25 第 6 圖，圖 6 號個度顯示到。

26 跟住睇番第 22 段喇，上面就講咗專營巴士經營者嘅意見，喺廿二段最後個  
27 部分。咁就話有關於呢一個嘅加裝顯示器喇，咁其實佢哋就話會因裝呢個顯示器  
28 呢，會引起乘客同埋司機個個嘅衝突同埋爭拗嘅，咁所以呢令到巴士司機呢會有  
29 更大嘅壓力，安裝呢一啲嘅設備，其實對於提升巴士安全未必有用㗎。咁我哋知  
30 道小巴其實已經安裝咗呢個車速顯示器，所以對於專營巴經營商呢，佢哋對於呢  
31 方面嘅意見，即係話關於使用呢個設施提供巴士安全有咩嘢意見呀你？

32 鄭子憲先生：（經傳譯員）我理解佢哋嘅立場，但係就我哋嚟講，就係要睇下安裝呢  
33 啲儀器係咪真係提升到安全。我想指出喺報告裏面曾經有提過呢個速度儀嘅，  
34 速度計，咁其實就係用呢一個數字顯示畀司機睇，而唔係話呢一個諗模擬嘅形  
35 式去顯示畀司機睇，因為我哋要確保司機知道自己揸緊幾快。有啲車長，可能

1 唔自覺就揸快咗，但係而家我哋覺得如果係而家呢個模擬制式呢，司機係好難  
2 睇得到自己揸緊行得幾快，因為唔係數碼化，所以呢方面我哋認為呢如果可以  
3 將速度計喺一個適當個位置用數碼顯示形式出嚟，就話比較好。咁有關於將車  
4 速顯示畀乘客睇呢，我哋當知道有咁樣嘅建議之後，其實我有諗過，乘客投訴  
5 要話畀司機聽，話佢太快呢，其實我覺得咁樣做就唔係太有效，車速顯示器其  
6 中一個用法，其實就係幫助稽查員好快知道呢個巴士司機係咪嚴重超速，或者  
7 超過咗既定嘅車速限制，呢個係有好處嘅，不過正如我頭先所講，如果依賴乘  
8 客去投訴，就我經驗嚟講，對於係咪真係有效喇，我就有懷疑，因為要睇番安  
9 裝其實係有成本，所以我哋需要進一步研究，可能要再試行一下先知，當你話  
10 嘞，乘客投訴就唔係咁有用嘞。

11 主席：（經傳譯員）咁你嘅意思係咪指呢，即係乘客當場向司機投訴呀？

12 鄭子憲先生：（經傳譯員）主席，你意思指我嘅經驗呀？

13 主席：（經傳譯員）唔係，頭先你話你覺得呢，用乘客投訴唔係咁有用，你當時諗嘅  
14 係咪話，乘客即時同當場向司機投訴佢揸得太快？

15 鄭子憲先生：（經傳譯員）我唔會而家作出結論，要決定係唔容易，因為我哋要睇番  
16 司機嘅行為，同埋實際操作係點，因為好多嘅乘客呢，我假設佢哋都唔理，只  
17 要巴士唔係揸到瘋狂地快，佢哋都未必會留意到譬如一啲好繁忙嘅市區道理，  
18 可能行緊 45、50 公里已經好危險，但係乘客可能只係有興趣要準時到達，對於  
19 一啲車速細微嘅變化呢，佢哋唔係咁有興趣知嘅，咁當然喇如果司機係揸得嚴  
20 重地快，就係問題嘞。如果係喺咁嘅情況，乘客同司機講聲，等佢唔好再揸得  
21 咁快，係有用嘅，不過如果係咁嘅情況底下，其實司機本身都知道自己揸得係  
22 太快，即係快過佢哋公司或者法例規定嘅限速，如果乘客喺揸緊嘅時候，乘客  
23 喺司機揸緊車嘅時候呢，咁樣同佢講可能就會引致有衝突，咁樣會令件事複雜  
24 化，所以我想講嘅就係話，如果我哋集中番即係速度顯示器喺呢一方面嘅使  
25 用，我就覺得對於提升巴士安全就唔係咁肯定嘞，咁但係不過要詳細再研究。

26 主席：（經傳譯員）運輸署有一個投訴嘅熱線號碼，係咪呢？

27 鄭子憲先生：（經傳譯員）主席先生，係呀。

28 主席：（經傳譯員）你有冇研究過嗰個機制，即係點樣樣係可以進行投訴？

29 鄭子憲先生：（經傳譯員）主席先生，照我所知，其實有多個途。

30 主席：（經傳譯員）係呀，有個表格呀，係咪呀？

31 鄭子憲先生：（經傳譯員）係喇，有個表格喇。

32 主席：（經傳譯員）嗰個表格有冇一個格仔，就係話係巴士超速行駛？

33 鄭子憲先生：（經傳譯員）主席先生，我唔知。

1 主席：（經傳譯員）好，其實我自己睇啲份表，就搵唔到有咁嘅格仔嘅，或者你哋可  
2 以考慮下咁嘅情景，有一個乘客就係擔心就係司機嘅車速，亦都係擔心佢個  
3 行為。因為車速本身有陣時都未必一定係危險㗎，係咪咩？

4 鄭子憲先生：（經傳譯員）對唔住，主席先生。

5 主席：（經傳譯員）單單車速本身並不一定係就係危險嘅，係咪咩？

6 鄭子憲先生：（經傳譯員）係呀，主席先生，係唔單單係車速，而係個衝突嘅程  
7 度，同埋睇下佢個情況。

8 主席：（經傳譯員）由於已經係有一個投訴嘅機制，如果車上嘅乘客佢懷疑架車就係  
9 行到 65，就唔係喺個 50 公里個區度行 50，如果佢有懷疑嘅話，咁個  
10 乘客譬如話佢已經用緊個 iPhone 喇，就係佢可以即時影張相，然後將佢用電  
11 郵發送畀運輸署，咁呢或者係投訴嘅熱，咁你就有張係影到個車速，咁咪得  
12 囉。

13 鄭子憲先生：（經傳譯員）主席先生，我諗都好主意㗎㗎，咁係亦都要睇下究竟將一  
14 個將係車速顯示器放置喺邊一個位置。你要考慮到你影相，你要影埋呢前面條  
15 路，你先至可以證明到架巴士個位置喺邊，個顯示器或者要有埋巴士嘅路線  
16 號碼，巴士個車牌號，同埋佢個位置。如果睇唔到嘅話，就可能會司機同顧  
17 客之間就有正面衝突，司機又要睇唔到個乘客喺度影緊相先得，如果唔係有  
18 衝突。

19 主席： Thank you.

20 黃女士：（經傳譯員）鄭先生，我想請你睇埋呢係運輸署所探討過另一個裝置。咁呢  
21 就係睇 TD-1，105 頁，第 27 段，就關乎呢個司機監察裝置。呢個裝置呢就話  
22 呢係愛嚟監察司機嘅表現，咁如果見到佢注意不足嘅話，又或者佢昏昏欲睡  
23 呢，就會係警示個司機，咁譬如話見到佢有一啲可能係諗不安全嘅行為，譬  
24 如話佢望側邊，瞌眼瞓，昏昏欲睡，姿勢唔好呀，咁你就會畀一啲係聲音，同  
25 埋影像警告佢。

26 你跟住睇後個版嘞，3 間嘅巴士製造商就話，佢哋呢啲係第三方嘅系統，  
27 而且係獨立於巴士系統，喺技術上呢就可行嘅，就可以監察車長個情況，咁但  
28 係如果係虛報嘅話，誤報嘅話呢，就會有不必要咁干擾到個司機。咁另外呢係兩  
29 間營運商，就話佢哋呢啲佢哋 4 部巴士個度呢，做過 3 個月嘅係試驗，咁呢就  
30 應該會喺 2018 年 5 月初嘅時候開始去做，運輸署呢就會同營商呢就係一齊合  
31 作，就睇睇呢個系統呢係有冇有效嘅，即係話喺試驗完咗之後，睇下有冇有效嘅。鄭  
32 生，你有冇聽過呢啲係司機監察系統呢？

33 鄭子憲先生：（經傳譯員）我係知悉有呢啲系統嘅，不過呢我有研究個詳情。譬如  
34 話司機疲勞，或者係注意力不足，呢啲都係可能引致交通意外嘅成因，不過再  
35 講一次，究竟呢啲系統係咪有助，我哋要睇番剛才所提及嘅問題，譬話姿勢不

1 好，注意力不足等等，係咪真係引致我哋香港巴士碰撞以外嘅主要成因，我而  
2 家持開放態度，我仲係注意呢聽下大家詳細嘅意見。

3 主席：（經傳譯員）講到疲勞，如果係一個風險嘅因素，我想問嘞，你認為唔認為係  
4 司機疲勞係香港巴士以外嘅主要成因呢？

5 鄭子憲先生：（經傳譯員）疲勞，就會視乎呢就係駕駛時數，休息時數，亦都係視乎  
6 個別人士佢可能有種種原因，引致有咁嘅問題，而令到佢好疲倦。關乎呢個課  
7 題呢，我哋喺我個報告嗰度篇幅並唔係好長，我有寫好多，因為我有研究呢一  
8 個課題，雖然我做嘢嘅工作嘅其他環節，譬如話係揸呢個長程車，我哋都當然  
9 係要關注呢一個司機疲勞嘅問題。喺香港呢我哋都要睇，因為如果你引入任何  
10 嘅系統，都應該係要睇番我哋喺現實生活裏面，究竟有邊一類嘅係撞車嘅意  
11 外，同埋我哋面對嘅係邊一類嘅風險，我諗目前我講嘅就係咁多。

12 主席：（經傳譯員）你知唔知道有冇人係打算呢就去研究一下，係呢個司機疲勞呢個  
13 風險因素呢？有冇人做過研究，有冇人做過呢個問卷調查呢？知唔知呢，有冇  
14 呢啲嘅係實證呢？

15 鄭子憲先生：（經傳譯員）你講喺香港呀？

16 主席：（經傳譯員）係。

17 鄭子憲先生：（經傳譯員）主席先生，我唔知有咁樣嘅工作做緊。

18 黃女士：（經傳譯員）小休之前，鄭先生，我哋呢就喺度講緊就係巴士上層車頭部分  
19 嗰個結構，同埋呢對於坐喺上層前排嘅乘客佢嘅潛在風險，我呢度呢係想係將  
20 大埔巴士意外嘅一張照片畀你睇，請大家將佢打番出嚟。呢張相你可以見到當  
21 時嘅事件，你見到呢係上層車頭全部係毀壞，睇番呢張相，幫唔幫到你去講及  
22 話車頭應該更加穩固？你呢就係喺 4 月份交嗰份談陳述書，有一個部分係咁  
23 講。

24 鄭子憲先生：（經傳譯員）睇番呢張相，我諗呢一個碰撞喇，其實呢當然一架車撞車  
25 嘅時候，可能有不同嘅情況，可能有一部車就係撞一個高嘅物件，譬如話前面  
26 嘅貨櫃車撞埋去橋躉，又或者係同燈柱相撞，係同突出嚟嘅簷篷相撞，係即係  
27 建築物突出嚟簷篷撞埋去喇，但係呢度呢一個個案呢，我諗係一個綜合嘅因素  
28 造成嘅撞車，可能架巴士係撞咗落嗰個巴士站上蓋，嗰個上蓋就個高度就係高  
29 度呢係撞爛咗佢嗰個車頭上層嘅結構，又或者佢撞咗埋去條燈柱，但同時亦都  
30 係架巴士係有翻側。正如我所講，架巴士可能係直接呢翻側跌落去個巴士站上  
31 蓋度，喺呢個過程，巴士站上蓋本身亦都係破壞咗，撞爛咗巴士個車側嘅車  
32 身，車頭，或者甚至乎係直接呢係撞擊呢係巴士車箱嘅內籠，直接呢係撞到，  
33 係傷害到啲乘客，不過我只能夠作一個揣測。

34 主席：（經傳譯員）我哋唔需要喺度揣測，其他人可以喺佢哋進行調查之後話畀我哋  
35 聽，佢個結果係點樣樣。

1 鄭子憲先生：（經傳譯員）係嘅，主席先生。我諗我哋要明白嗰個碰撞嘅基理，亦都  
2 要明白嗰個受傷基理，咁樣先至可以讓我哋以實證為本，咁樣去制定一啲策  
3 略同埋措施，好，唔該。

4 黃女士：（經傳譯員）鄭先生，委員會--你畀咗陳述書之後呢，我哋再向你問過一啲  
5 問題，問及呢你喺網上所披露發表嘅一啲文章。820-1 嗰頁，第 8 段，或者我  
6 哋將佢掃落去下面，第 8 段，嗰度呢就咁講，你喺你個網頁嗰度係有一個部分  
7 就係講及，交通車速數據，你話呢你同意呢就係畀我哋呢係登上呢個網站嗰  
8 度，不過你話由於嗰個資源嘅問題，而你呢一個工作呢就唔係有系統嘅，只不  
9 過係間中做嘅，同埋你哋自己係有相關嘅人士就去做，你話「今晚」，即係 7  
10 月 11 日號，你就會見面呢就會進行新嘅調查，你話呢就會去做尖沙咀、深水  
11 埗、係全錦公路、禮頓道同埋大坑道。咁你呢就係話為咗支援或者支持聯合國  
12 全球交通安全周第 4 次咁嘅工作，咁而就係話拯救生命慢車，呢個 2017 年 5  
13 月嘅，你話呢你哋就同一個區議員同埋一個係專業製作人呢，就係做咗一段短  
14 片嚟到係提升大家嘅意識。咁嗰度就係大坑道，嗰度就係見到好多車呢，甚至  
15 乎夜晚係個車速係超過咗 80 公里。我想問，當然你呢一個係一個研究，係你自  
16 己自發咁樣去做，你呢就去同其他有興趣嘅人士一齊去做，係咪呀？

17 鄭子憲先生：（經傳譯員）講到呢個大坑道呢一個工作，係。我哋係樂意呢同任何同  
18 呢個課題有興趣嘅人士合作，協助嘅，我哋呢就係唔係盈利嘅，唔賺錢嘅，喺  
19 政治上我哋亦都係中立，我哋只係需要有人幫我哋手一齊去做，因為呢我哋好  
20 希望將嗰個信息呢係傳揚出去，希望呢係社會裏面都提高呢一個意識嘅。我哋  
21 睇呢啲車速呢，其實係人手嘅工作，係好花資源嘅，所以呢我哋唔能夠好有系  
22 統咁樣去做，我哋想做得更多，不過做唔到咁多。

23 黃女士：（經傳譯員）呢度睇到一張相，我想問係咪鐳射槍，係咪你所用嘅鐳射槍  
24 呢？嚟到係去睇睇嗰啲車，去偵查嗰啲車嘅係車速呢，係咪呀？

25 鄭子憲先生：（經傳譯員）係呀，“Tru Speed”就係嗰個牌子 T-R-U Speed 就  
26 係嗰個牌子名，係鐳射槍，咁呢個係車速嘅鐳槍，係我自己擁有。

27 主席：（經傳譯員）製造商係邊間？

28 鄭子憲先生：（經傳譯員）我諗係 Laser Technology。

29 主席：（經傳譯員）我想問，執法機構係咪都係用呢一啲工具呢，本港嘅，外海嘅係  
30 咪都用？

31 鄭子憲先生：（經傳譯員）我理解都係㗎，咁亦都不過視乎嗰個型號。

32 主席：（經傳譯員）香港係咪都用？

33 鄭子憲先生：（經傳譯員）主席先生，係嘅。

34 主席：（經傳譯員）你用嗰個型號係邊一種型號呀？

1 鄭子憲先生：（經傳譯員）呢個就係型號叫 Tur Speed，但係個型號個號碼係咩嘢  
2 呢，我就記唔得準確，我嘅記憶呢就係呢一個型號呢，警方都有用，有一啲新  
3 嘅型號警方都有用。

4 主席：（經傳譯員）你呢個型號有幾新呀？

5 鄭子憲先生：（經傳譯員）主席先生，我買嘅時候，應該係 2011 年。

6 主席：（經傳譯員）喺呢個調查或者喺其他嘅調查嗰度，想問下，你有冇係特登去睇  
7 下監察一下專營巴士佢哋嘅車速呢？

8 鄭子憲先生：（經傳譯員）主席先生，我哋有專門為專營巴士係進行車速嘅調查，雖  
9 然呢個係好應該去做，因為我哋關注呢個交通安全，我哋都應該係專門去睇一  
10 啲專營巴士嘅車速。我都耐唔中係會隨時都有去研究過，去睇過佢哋嘅車速。

11 主席：（經傳譯員）你有冇揀一啲特別嘅地點去做呢？

12 鄭子憲先生：（經傳譯員）主席先生，有個地點我想講嘅呢，就係幾年之前我去德輔  
13 道中，因為我想去睇巴士嘅車速，我想知道呢由東向西行嘅巴士車速，我想知道  
14 佢哋係行乜嘢車速，呢一段嘅德輔道中呢，就係好多行人呢係過馬路，就唔  
15 喺行人過路線嗰度，就直接喺嗰度過馬路嗰一個路段，咁而我做呢一個工作  
16 呢，我做呢個調查呢，就係想去睇下，究竟一個巴士司機若果見到巴士站有架  
17 巴士停咗喺度，而佢要越過呢部巴士嘅時候，個司機會行咩嘢車速，其實嗰個  
18 停咗喺度嘅巴士，就會係遮擋咗想過馬路嘅行人，如果有架巴士係高速過去嘅  
19 話，或者超速咁行過嘅話呢，根本就唔能夠及時係停到車。

20 我有一啲加拿大嘅指引，嗰度佢哋有咁嘅建議，或者佢有個咁嘅規則，就  
21 係咁講，如果佢哋嘅公共巴士係要超越一部停咗喺度嘅巴士，又或者停咗喺度嘅  
22 車輛嘅話，佢哋係唔能夠呢行駛呢係快過 30 公里，我只係隨意咁去睇過一下嗰  
23 個情況，但當時見到嗰個最高嘅車速呢，就係 49，每小姐 49 公里。當然我必  
24 須承認，我有係調查咗好多部巴士，譬如話我當時只係睇咗五、六部巴士。

25 但係主席先生，最近我都係做過一啲車速嘅偵查，因為有一份報章嘅記  
26 者，係邀請我去接受佢嘅訪問，喺德輔道中嗰度拍條片，我再用呢一個係鐳射槍  
27 呢，就係隨意咁樣去睇一睇德輔道中所路過嘅巴士，佢嗰個車速㗎，見到呢好多  
28 巴士呢行到 30、35，每小時 30、35 公里，呢啲呢就係有任何嘢阻礙佢哋，係  
29 自由行車嘅情況，有一架車呢就見到呢紀錄到呢就係每小時 42 公里。我點解佢  
30 咁做呢，即係嗰個係最嗰個車速，我咁做唔係想話係話啲車係超速行駛，其實另  
31 一個主要目的，就係想講，究竟巴士司機應該行幾多先至㗎，對我嚟講 30 至到  
32 35 呢，都係一個係理智嘅一個決定㗎，唔該。

33 黃女士：（經傳譯員）鄭生，多謝你同我哋提供咁多意見，關於呢個鐳射槍呢個速度  
34 計呢，你有冇不時咁樣係進行維護，即係係咪有人做好嗰個維修維護？

35 鄭子憲先生：（經傳譯員）係，呢個係維修同嗰個保養都好，不時都仲會做一啲校

1 正。呢個係鐳射槍嚟嘅，即係唔係一個雷達嘅設備嚟嘅，正常就唔要成日校正  
2 嘅，咁但係為咗要保持個準確度呢，我會做兩個測試，如果兩個測試都通過，  
3 即係正常，咁就應該唔會有咩嘢特大嘅問題。我就會不時咁樣做個測試。

4 主席：（經傳譯員）呢個誤差嘅幅度係幾呢？根據個製造商所顯示，嗰個誤差率係幾  
5 多呢？

6 鄭子憲先生：（經傳譯員）我有嗰個實際嗰個數字嘅，就我知道鐳射係好準。咁即係  
7 話個誤差呢係會係响某一個幅度。係會對我哋要達到目的嚟講呢，係個誤差係  
8 絕對係响我哋要求個範圍裏面嘅。

9 主席：（經傳譯員）可唔可以講一個數呢？

10 鄭子憲先生：（經傳譯員）我假設大概係百分之一至二，最多最多都係百分之三。

11 主席： Thank you.

12 黃女士：（經傳譯員）除咗個地點，你搵到响某一响地點，文件 820-1、820-2 呢  
13 個係嗰個雜項 2 嘅文件夾所講嘅之外呢，你有冇同其他合作嘅各方嘅人士考慮  
14 探討有冇其他嘅位置你哋可以去做測試呢？

15 鄭子憲先生：（經傳譯員）或者我想畀一個例子，有個社工就喺荃灣，社工就轉介一  
16 個市民嘅意見，佢就比較關心佢屋邨附近一個斑馬線嘅安全情況，佢覺得嗰度  
17 個車速太高，咁我就同意做一個測速度，呢個荃錦公路，响嗰個斑馬線過嗰附  
18 近嘅地點做嗰個速度嘅測試調查，我就訓練咗嗰個邨民，用正確方法使用呢個  
19 鐳射槍速度計，咁佢哋就自己去調查嗰個車速，咁最後呢佢哋就測試咗 800 架  
20 車嘅速度，通常喺某一個位置呢，如果你係要有一個係速度分布圖呢，我哋起  
21 碼要有 100 架車嘅速度。

22 黃女士：（經傳譯員）你有冇報告，有冇呢方面嘅報告呢？即係呢個全荃錦公路嘅速  
23 度數據同埋報告响唔响度呢？

24 鄭子憲先生：（經傳譯員）個報告呢我諗我已經交咗出嚟畀你哋，我想聲明。因為將  
25 簡體轉做繁體字有啲問題，咁所以我就只係提供咗簡體字嘅報告。呢個亦都係  
26 我交咗出嚟畀佢哋嘅報告嚟嘅。

27 黃女士：（經傳譯員）去番呢個雜項，或者你個報告，講緊第 3 部分，就係嗰個道理  
28 設計，呢個都係 786 頁，雜項 2 文件夾，關於道路設計。你有幾個建議，諗總  
29 共 6 個建係關於係道路設計，交通管理，呢個對於巴士安全你覺得係好重要，  
30 事關重要。第一，就有個足夠係安全嘅保護欄，同埋減少嗰個係斜路尾嘅一响  
31 係斜台嘅石壘，咁就減少市區裏面嘅速度，同埋安全嘅過程設施，巴士站附  
32 近，同埋對於等候嘅乘客提供更好嘅保障。

33 你响 827 頁亦都有一個係--807 頁都有一個諗更進一步嘅闡述，808 頁都  
34 係，你就提過係重要嘅，即係防止出事嘅車輛係會同路邊嘅一响製成危險嘅物件

1 係相撞，或者係响嗰個斜坡度跌落去，你就提過一啲矮牆。我相信睇番個屯門  
2 個報告 SEC-2 呢一個文件夾，第 1 頁，咁跟住去到 16 段，係 10 至 11 頁，先  
3 睇第 16 段。或者係第 15 開始，呢啲矮牆一啲安全保障措施，防止發生意外嘅  
4 時候，會有啲係嚴重嘅程度，佢哋一個係即係個被動式嘅防護設施嚟嘅，就唔會  
5 係引致交通意外嗰個因素嚟嘅。

6 咁呀研究過國際同埋本地嘅標準呢，個委員會覺得而家路政署嘅標準呢，  
7 都係同國際嘅做法一致，不過我哋响睇落幾行，呢度响啲關鍵嘅位置呢，有改善  
8 嘅空間。因為呢段嗰度如果係撞咗入去嗰個底牆裏面呢，可能會引致啲致命嘅後  
9 果，咁佢就要求有個係採取一個全面嘅管理嘅策略嘅。

10 咁好嘞跟住 17 段嘞，如果一個堅固嘅設計呢，就可以停止--可以令到重  
11 型車輛係根據設計，根據我哋想要嘅方法呢去停低，但係對於個小型車輛呢，可  
12 能會製造嚴重嘅係損害嘅，咁所以呢個委會建議呢，為咗改善呢個設計呢，佢建  
13 議路政署係研究嗰個所謂佢哋係喺邊笪地方停止嗰個撞離嘅車輛，特別係個响高  
14 端嘅地方呢，係睇下個高度係點樣設計，考慮到係好多係雙層巴士。

15 第 109，第 9.38 段，呢度有啲數字嘅，就係撞擊，如果係雙層巴士，有  
16 一個係模擬嘅係意外呢，如果係意外嗰個速度呢 60 公里嘅，咁嗰個撞擊嘅角度  
17 係 10 度嘅，我相信呢個報告你有提過呢個嘅，你話 808 你個雜項 2 個文件夾  
18 提過，喺呢一段係第 3 段。你就話有啲高架道路呢係有一啲 L-3，即係第 3 層  
19 嘅安全屏障嘅，呢度有話嗰度 60 公里 10 度嘅嚟到撞嘅一個模擬，我哋知道呢  
20 啲嘢就係個重要性呢，就係話我要有一啲係特定路線嘅運作嘅規則，咁所以有巴  
21 士嘅速度可能需要限制响 60 公里嘅，同埋要响左線，咁就會令到嗰啲揸得唔好  
22 嘅巴士呢就唔會係超過呢個矮牆所能夠達到嘅效果。你可唔可以講講呢個設計方  
23 面係應該要點樣考慮？

24 鄭子憲先生：（經傳譯員）我就要先聲明，我本人正如我响今次個聽證會講清楚，我  
25 係涉及一個研究項目，呢個政府個研究項目嘅，咁呀呢個同我一路都係談所講  
26 嘅，我諗都同十年前開始，我一路都係咁講嘅，我就唔會講任何關於我而家從  
27 事嗰個研究項目嘅，不過我係响呢個研究計劃之外呢，我係有一方面嘅知識  
28 嘅。咁回答番你個問題，呢度所講嘅意念呢，就係要制定一啲係駕駛巴士嘅規  
29 則，响咁做嘅時候呢，我哋要明白，我哋嘅道路設計嘅一個所謂嘅用容嘅能  
30 力，譬如話嗰啲係安全圍欄，佢哋有啲咩嘢作用，作用去到邊個程度。如果巴  
31 士係嘅速度係每小時 70 公里，咁同一個撞擊嘅角度，根據個報告，即係 20  
32 度。

33 報告就話曾經做過測試，不過只係用一個電腦模擬嘅，即係佢曾經做過模  
34 擬，就係談速度係 60 公里，角度係 10 度嘅，咁就變咗嗰個巴士可能會撞穿咗  
35 個圍欄，但係呢啲咁樣嘅測試呢，好多時候呢根據某一個速度，某一個撞擊嘅角  
36 度，同埋某一個車輛嘅重量嚟到係做根據，亦都視乎有幾多乘客裏面應該個重量  
37 就。正如我所引述，咁樣係唔確定嘅。咁可能嗰個巴士可能會撞爛嗰個矮牆。咁  
38 應該有多啲資訊關於唔同嘅矮牆，唔同嘅圍欄响唔同嘅道路嘅情況，咁呢個就可

1 以提供一個好好嘅指引，等政府同埋巴士公司制定一啲特定路線嘅駕駛嘅規距，  
2 呢個係為巴士司機提供嘅一啲規則嘅。

3 黃女士：（經傳譯員）呢度提及 808，你提過有 8 條路，係冇安全嘅圍欄嘅，淺水灣  
4 道、大潭道、山頂道、司徒拔道、薄扶林道、大埔道、清水灣道同埋羌山路。  
5 當然喇我唔係講會提及你嗰個研顧問個報告嘅。即係話你响嗰個顧問研究發出  
6 個指示之後，之前有冇同運輸署提過呢啲路呢？

7 鄭子憲先生：（經傳譯員）响呢個報告提個情況，其實都講咗好多，好幾年㗎嘞，咁  
8 同埋呢個報告編撰呢，係早過你頭先所講嗰個係顧問研究嘅時間嘅。

9 主席：（經傳譯員）你同邊個提你呢方面嘅關注呀？

10 鄭子憲先生：（經傳譯員）主席，通常呢我哋提出關注呢，我哋會係向有關嘅政府部  
11 門提出，譬如話路政署，運輸署，我就唔記得咗有冇同嗰個局方提出。

12 主席：（經傳譯員）你有冇攞到咩嘢回應呀？我哋睇到一條路，即係好似一個石牆，  
13 又斜嘅路，咁政府有咩嘢回應呀，點解嗰度有一個圍欄嘅呢？

14 鄭子憲先生：（經傳譯員）主席，我唔係好記得佢哋實際上具體點樣回應，我假設佢  
15 哋明白係咩嘢事，我就記得佢哋都對呢件事有興趣知，做過一啲係諗研究嘅，  
16 不過呢個問題係廣泛嘅問題，我就要係不斷重複同樣個，即係向嗰啲部門重複  
17 我同樣嘅知悉，呢個問題係一個持續嘅問題，我所關注嘅地方呢，就係冇冇改  
18 進到？我其實唔知道政府內部現在做咩嘢呢，咁我淨係睇住基於我所見到嘅，  
19 就係現場睇到，我提出我意見。

20 主席：（經傳譯員）呢個都係我想做嘅，咁多年都係一樣。你係咪都係話咁多年都係  
21 見番同樣嘅情況？

22 鄭子憲先生：（經傳譯員）係嘅，不過有啲特別嘅地點呢，可能有啲改進嘅，呢個相  
23 片呢，我就覺得比較風險比高嘅。

24 黃女士：（經傳譯員）我想或者係請你睇一睇大埔道呢個某一個路段嘅，作為例子  
25 嘅，我哋提過大埔嘅意外係 2 月發生嘅，咁運輸署呢就即係減嗰個速度，就限  
26 制速度，同埋將嗰個路嘅標誌改變咗，道路嗰個地下嘅標示都改咗，兩個月內  
27 就做咗嘞。咁我想你睇一睇，呢份係大埔區議會文件，係 354 頁，TD-1，354  
28 頁。

29 主席：（經傳譯員）咩嘢日期呀？

30 黃女士：（經傳譯員）2018 年 4 月 9 號。

31 主席：（經傳譯員）呢個係運輸署提供畀大埔區議會嘅文件呀，係為區議會會議提供  
32 嘅。

33 黃女士：（經傳譯員）你可以睇到，首先呢就話檢討過嗰個速度限制，中間佢就話有

1 關嘅道理呢，嗰個標誌同埋標記呢，就係要提醒--就擺咗响度就提醒司機，即  
2 係現在減速，前面有向右嘅彎，前面有個急彎向右等等，同埋要叫佢慢，咁呢  
3 個諗 360-2，第 4(c) 段。呢度有講呢個路段而家嘅速度限制呢，就每小時 70  
4 公里，咁呀話有啲係新嘅發展項目，佢哋就建議將個速度呢就減到每小時 50 公  
5 里。

6 跟住其他呢有其他嘅改善措施。下一頁，呢度建議有啲改善嘅措施嘅，我  
7 哋睇番一啲係相片，就睇一睇佢哋點樣實施有關嘅改善，第 13 張相，相片  
8 13，你見到前面幾多公里，咁呢度有個前面幾多公里，呢度有個就速度變咗做  
9 50 公里嘞，地下有個標記。第 16 張相叫開始減速嘅標示嘞。第 17 有第 2 個開  
10 始減速嘅道路標誌，咁呢個有 9 個嗰啲係箭嘴標示。18 亦都有顯示嗰個方向，  
11 個箭嘴個展示方向，即係我意思呢，就係運輸署如果想做呢，係可以做到嘞，响  
12 呢個個案呢，佢兩個月內就做完嘞，咁所以你覺得呢啲咁嘅改善，同埋你都研究  
13 過大埔道，你覺得呢啲咁嘅措施做得夠唔夠呢？足唔足夠呢？有冇研究過呢？

14 主席：（經傳譯員）鄭先生，你而家做緊關於呢個路段嘅一啲嘢，啱唔啱？

15 鄭子憲先生：（經傳譯員）呢個顧問嘅研究呢，即係嗰個項目，我參加嘅呢個項目，  
16 係涵蓋香港一啲道路嘅，我就唔係涉及响呢一條路段嘅改善措施。

17 主席：（經傳譯員）所以你回答問題應該冇問題，係嘛？

18 鄭子憲先生：（經傳譯員）冇嘅。

19 主席：（經傳譯員）可唔可以請你再重新組織下你個問題呀？

20 黃女士：（經傳譯員）我哋就聽到一啲投訴喇，未必真係投訴，係大埔區議會提出嘅  
21 關注，咁係星期六嘅時候講㗎，佢哋嘅意見就話係可以做一啲改善，係就於呢  
22 一個路段嘅尾部，咁可以睇番個地圖。呢條路啡色，就係車速由 70 公里減到  
23 50 公里嗰一段路㗎㗎，其中佢哋提出嘅一個議題就係話，當改車速限制由 70  
24 減到 50 公里嘅時候，即係大約係呢一個嘅號碼 15 至到 17 嗰一段，其實就係  
25 上緊斜㗎--唔好意思，係 13、14，其實行緊 70 公里，如果時速限制喺 15 呢  
26 個位置改變，由 70 減到 50 公里的話，其實係好難㗎。

27 其中一啲嘅意見就話因為上緊斜，咁好多時你就要係行高啲嘅波，先至可以  
28 做到㗎。咁但係你又要減速嘅話，你好難就係轉波。

29 主席：（經傳譯員）或者睇番新嘅車速限制標誌喺邊度見到，畀啲相我哋睇下。

30 黃女士：（經傳譯員）15 號相。

31 主席：（經傳譯員）或者向番之後，係之前嗰段路段，上緊斜，向呢一個山頂，跟住  
32 去到山頂再向下望，跟住就係有個彎位，有啲箭咀嘅標誌㗎。嗰個投訴係咩嘢  
33 呀？

34 黃女士：（經傳譯員）投訴就係話，如果保持車速 70 公里的話，然後將車速改到

1           50 公里，架車其實行緊嘅車速喇係會高過 50 公里㗎。

2           所以佢哋其中一個建議就係話，如果我有理解錯的話，就係將佢拉落啲，未  
3           上斜之前，可以係未上到頂最高嗰段嗰個點，就要要求你將個車速減低，呢個係  
4           大埔區議會嘅建議。

5           對於呢方面，你有冇任何意見呀？

6    鄭子憲先生：（經傳譯員）主席，大致上嚟講，要我畀一啲確實嘅建議係好難㗎，但  
7           係有一個好重要關於公路設計嘅概念就係，道路設計要唔使解釋人哋都明，咁所  
8           以就可以將標誌同埋標記減到最低。

9           如果用太多嘅警示，可能係會將呢一個嘅道路標記系統嗰個作用減低，咁但  
10          係我好難即係確實咁講畀你聽。

11   主席：（經傳譯員）咁或者再睇一睇喇，有兩個嘅警示路牌先至上到山頂㗎。

12          呢度前面 50 公里，呢個又係嘞，前面 50 公里，跟住去到山頂，跟住就落  
13          斜。咁喺呢一個咁嘅情況之下，剎車有咩嘢問題呀？

14   鄭子憲先生：（經傳譯員）主席，由 70 去到 50 公里，唔係好大嘅問題嘅，喺剎車  
15          方面，但係我哋要注意嘅就係司機係咪真係會跟從呢一個嘅限制喇，如果佢哋見  
16          到有危險，佢哋係好願意慢車。

17          咁喺呢一類型嘅道路，我個人意見係話，一個較好嘅做法就係將佢減低到車  
18          速 60 公里，但係我哋亦都諗過，唔想將道路標示系統變得太複雜，咁所以較好  
19          嘅做法，即係 60 公里所--因為呢個原因冇採納。

20          但係咁樣講就可能係扯開咗少少嘞，但係我想強調，我哋係要連到司機願意  
21          以安全車速行駛，當然車速限制係法例規定喇，因為有一個法定嘅要求。咁但係  
22          我哋需要監察司機嘅車速，先至可以知道區議會所講係咪有根據㗎，咁我哋要做  
23          嘅就係做一啲汽車車速嘅調查，睇下佢哋係咪真係跟番標記所示嘅車速限制行  
24          駛，唔可以施加一啲佢哋容易跟循嘅要求㗎嘛。

25   主席：（經傳譯員）頭先睇到嘅相㗎嘞，咁如果要司機知道明白係改車速限制嘞，咁  
26          喺過咗山頂之後，咁就係先至改善嘅話，佢就會明白嘞，因為有一個彎，咁同埋  
27          係當時係落緊斜，咁同埋係見到有啲箭咀嘅標示嘅，咁呢個就唔係即係其實話令  
28          到司機明白點解要改車速限制，令佢哋明白嗎？

29   鄭子憲先生：（經傳譯員）主席，你嘅觀察係正確㗎。咁但係其實任何嘅道路標誌同  
30          埋時速，其實對個司機嚟講，係要同佢哋所見到嗰個危險相乎先得㗎。

31   主席： Ms Wong.

32   黃女士：（經傳譯員）大埔區議會另外一個意見就係加一啲嘅限速壘，但係如果咁樣  
33          做嘅話，如果你揸得太快，你就會--即係架車就會拋，所以你好自然就會慢番

1 車嘞。對於呢方面，你有咩嘢嘅意見呀？

2 鄭子憲先生：（經傳譯員）限速壘其實有好多唔同嘅種類嘅，有啲就即係嗰個--有啲  
3 就溫和啲，有啲就會嗰個效果就會大啲。咁喺公路上面，如果要加限速壘嘅話，  
4 就一定要好強嘅理據，因為如果行車車速好快嘅話，而司機又唔知道有限速壘，  
5 可能就會失控，或者突然間要剎車。

6 通常限速壘係要聯同一啲限速嘅其他措施一同使用呀。正如我之前所講，司  
7 機係要見到有理由要慢車，將架車速減慢先至得。

8 根據我嘅經驗，如果使用限--喺公路上用限速壘的話，用減速壘的話，我哋  
9 就要特別去設計一個區域，係要將個車速減慢，先至可以有呢一個嘅減速壘，等  
10 司機知道慢番車，慢到唔會超過 50 公里，最好就係 40 公里，先至過呢一個減  
11 速壘㗎。

12 黃女士：（經傳譯員）另外我想同你講嘅就係，ISO 39001 就係呢個道路交通管理  
13 系統呀。

14 另外就係呢一個，睇番就係 786 頁頂部，第三段呀，你就話：

15 「ISO 39001 道路交通安全管理系統，將佢變成專營巴士經營者嘅一個要求  
16 係最好嘅做法。」

17 呢個國際標準組織 ISO 39001，你可唔可以同我哋講下，係咪喺世界各地都  
18 有廣泛使用呀？

19 鄭子憲先生：（經傳譯員）首先等我解釋，ISO 39001 係 2012 年引入㗎，目前大  
20 概有五百個機構係採納咗呢個標準，唔係每一個國家都有，有啲嘅國家就比較熱  
21 心喇，譬如英國、瑞典、日本等等，呢個係目前嘅情況。

22 喺香港嚟計，以我所理解，係有一個呢方面嘅認證。我哋建議進一步研究呢  
23 一個國際標準組織嘅標準，因為目前香港有人用。但係對於呢個標準，其實係由  
24 一啲頂尖嘅專家研究出嚟㗎，係世界銀行、世界衛生組織都支持，覺得係一個安  
25 全系統嘅做法。

26 我想講，呢個標準唔係一個技術標準㗎嘅，係一個高階嘅框架，鼓勵高層盡  
27 力做到道路安全冇傷亡，即係就於佢哋嘅能力可以做到，呢個其實係一個願景㗎  
28 㗎。

29 呢個系統有講出一套嘅技術，系統，監察系統，或者點樣做得到，呢個標準  
30 其實本身係不足，需要有其他嘅技術系統輔助。

31 當然，呢個系統對於香港嚟講係新嘅，比起其他嘅世界各地嘅國際標準組織  
32 嘅標準，認證機構為數不多。睇番標準同埋嗰個標準嘅模式，我呢度有個標準喺  
33 度嘅，我想講就係呢一個標準嘅重要性就係，比較前尖同埋有遠--係一個遠景㗎  
34 㗎，鼓勵機構企業喇，係主動參與減低風險同埋減低交通意外，做到係有嚴重受

1 傷，亦都有人死亡。

2 主席：（經傳譯員）可唔可以講下嘞，你話有大概五百個企業係採納㗎。

3 鄭子憲先生：Yes.

4 主席：（經傳譯員）我想講係咪一啲公司呀，即係唔同國家嘅公司，而唔係一啲嘅監  
5 管機構要求企業咁做？

6 鄭子憲先生：（經傳譯員）我想引用，引番呢一個標準，呢個 ISO 嘅標準。以我所  
7 理解，係佢哋嘅目標，就係任何嘅公司或者企業，呢啲公司、企業就係同道路交  
8 通有關㗎，無論係一啲嘅公共交通經營者、物流公司，或者任何有車隊嘅公司，  
9 譬如話的士公司、小巴公司。

10 我根據呢啲文件嘅理解㗎，呢個其實亦都適用於監管機構㗎。但係我就目前  
11 嚟講，唔係咁肯定世界上，喺現實嚟睇，監管機構或者類似嘅機構有冇採納呢個  
12 標準。

13 主席：（經傳譯員）咁你知唔知道有冇任何嘅巴士公司，譬如話瑞典、日本、英國，  
14 你提過嘅國家有冇採納呢個標準呀？

15 鄭子憲先生：（經傳譯員）主席，我就唔知道即係某一間公司唔知道佢哋嘅名，但係  
16 從我收集到嘅資料，我就知道喺日本好可能有幾間公司，為數唔多，呢啲公司都  
17 係同公共交通有關嘅，不過呢個我要再印證一下，唔該。

18 主席：Thank you.

19 黃女士：（經傳譯員）喺一啲嘅文件裏面，我哋就見到公巴有採納 ISO 9001㗎。想  
20 請你睇番九巴文件 3 號，767（原文照錄）頁，係一個 2011 年嘅年報。

21 睇番左邊個欄呀，1999 年：

22 「九巴成為香港第一間巴士公司，係得到 ISO 9001:1994 年嘅認證，呢個  
23 係全公司適用㗎，關於質素管理系統方面嘅。咁其實九巴係世界--喺香港係第  
24 四間公司，得到呢一個全公司嘅人嘅人嘅認證㗎。」

25 咁呢個嘅 ISO 9001 同 39001 有乜嘢嘅分別呀？

26 鄭子憲先生：（經傳譯員）對於管理系統，我唔係專家，我嘅理解 ISO 39001 其實  
27 係特登寫嚟改善道路交通安全㗎，咁就係從一個嘅安全系統角度去睇㗎，呢個係  
28 世衛㗎、聯合國同埋好多已發展國家推薦嘅，咁佢哋啲國家，或者機構，全部對  
29 於道路安全係好嚴肅咁去睇㗎。

30 咁呢一套嘅標準其實特登係寫嚟係畀一啲公司或者一啲嘅機構係去採納，等  
31 佢哋可以有一個正面嘅影响。

32 黃女士：（經傳譯員）咁我就想請你--我就睇番另--睇另外一個嘅項目，就係有關

1 於九巴嗰個經營專營權續約嘅呢方面嘅事項嘅。我想問你嘅意見...

2 主席： By "the licence" you mean the franchise?

3 黃女士：（經傳譯員）...咁就係 16--呢個係 16 年 6 月 16 號嘅，咁係 777 頁呀。

4 呢份文件係中文㗎，整個報告其實就係英文寫嘅，我知道。

5 或者首先就係睇...

6 主席：（經傳譯員）呢份係咪 775 開始㗎？

7 黃女士： Yes.

8 主席：（經傳譯員）呢個其實就係話係想畀一個意見，係對於新嘅專營權嗰個嘅意見  
9 㗎，咁同埋係就於一個公眾諮詢文件所畀出嘅意見。

10 黃女士： Yes.

11 主席：（經傳譯員）呢份文件嘅號碼係幾多呀？

12 黃女士：（經傳譯員）6 月 16 號，係 2016 年㗎。

13 主席： Thank you.

14 黃女士：（經傳譯員）喺第一段，你就話係有一個公眾諮詢喇，你就入咗一份嘅意見  
15 書，呢個係就於九巴嘅新專營權事宜，咁呢一個嘅諮詢報告結果，你提供嘅文  
16 件。

17 第二段，呢個其實就唔係投訴㗎嘅，咁就話政府嘅文件只係包含一小段關於  
18 安全，就有兩個簡述，分別係更嚴格監察巴士車長的駕駛行為，同埋改善車箱內  
19 的安全措施。

20 但係你就提過嘞，呢個其實係有確實反映呢一啲嘅涵蓋嘅觀點，你可唔可以  
21 再詳細解釋一下，就係涵蓋嘅觀點呀？

22 主席：（經傳譯員）對唔住，係係邊一頁嗰度讀？同埋邊一段呢？

23 黃女士：（經傳譯員）778 頁，第二段。

24 主席：（經傳譯員）我哋未去到嗰度之前，我諗遲下，即係唔係而家，或者我哋都應  
25 該睇番嗰份諮詢文件，就問下。我知道第二段嗰度，鄭先生就話係嗰份諮詢文件  
26 個重點係喺邊一度㗎㗎。

27 黃女士：（經傳譯員）係，或者我想請你睇番嗰封信，咁就係房運局係寫畀立法會嘅  
28 嗰封信。

29 主席：（經傳譯員）呢個係咪就嗰份嘅諮詢文件呀？

1 黃女士：（經傳譯員）係。不如咁喇，我哋睇睇 TD-3 嗰個文件夾，661 至到 768  
2 頁，TD 運輸署嘅文件夾，661 至到 768 頁。

3 我諗呢個係第三份嘅立法會文件，就係話畀立法會知，究竟最新嘅情況係點  
4 嘅，咁就係講到係 2012 年嘅 2 月嘅情況，之後亦都有講及係行政--特首會同行  
5 政會議嗰個係決定㗎。

6 或者我哋先睇一睇呢一份係立法會文件，咁然後我哋先至去睇嗰份 2016 年  
7 嘅文件。嗰個引言嗰度就話，第一，就係：

8 「係有新嘅專營權，亦都係有附加嘅條件就係，向一個新巴就係批一個專營  
9 權，去經營呢一個專營巴士服務喇，就係喺 13 年嘅 7 月 1 號至到 2023 年嘅 7  
10 月 1 號。

11 咁又跟住就係話：

12 「係批專營權係畀龍運巴士。」個(b)段。

13 (c)嗰段就係城巴嘞，咁就係 13 年嘅 5 月 1 號至到 23 年 5 月 1 號嘅專營  
14 權。

15 跟住睇後面嗰版，或者落去下啲，嗰度就列出嗰個係條款喇，以及就係嗰個  
16 評估嘅係基制嘅。嗰度就係話要評估一下，究竟新巴同埋龍運，以及城巴，有冇  
17 提供一個適當有效率嘅服務，咁運輸署就係經常就係檢討佢哋嘅表現嘅，透過幾  
18 個方法，第一就係乘客滿意度調查喇，現場調查喇，係檢查車輛喇，檢驗車輛  
19 喇，同埋睇番公眾嘅反應㗎。

20 有鑑於係五至八段，喺下面五至八段嘅嗰個評估嘅結果喇，而見到佢哋已經  
21 係滿意嗰個表現嘅。

22 咁又睇番新巴嘅表現，包括埋嗰個係意外率喇，失--脫班率喇，即係話同定  
23 咗嗰個時間表比例一下個脫班率等等喇，咁龍運嗰度，亦都睇番佢哋每年有幾多  
24 個係投訴，即係以每百萬個係乘客有幾多宗嘅投訴喇，咁同埋就係每一百萬行車  
25 公里嘅巴士意外嘅平均數字喇，就睇下佢係咪正常㗎，喺嗰個幅度範圍之內定抑  
26 或係超咗--係超出咗嗰個範圍嘅。

27 我仲想請你睇...

28 主席：（經傳譯員）我就想問下嘞，問呢一樣嘢，十項文件二，775，嗰個係一個回  
29 應㗎？係跟進邊份文件嘅一個回應呢？

30 黃女士：（經傳譯員）嗰份文件亦都係講呢個城巴嘅，所以我就要講番呢份係咩嘢文  
31 件㗎，因為呢度係有講番，回應番城巴嗰份文件嘅。

32 主席：（經傳譯員）咁呢度係 775 頁喇，咁我睇番嗰個日期，咁嗰度就話 2016 嘅  
33 6--係 9 月 16 號㗎，775 頁，就係 2014 嘅 9 月 16 號。我或者將佢打番出嚟

1 先。

2 我問就係問，究竟阿鄺生佢係回應邊一份文件㗎，然後就寫咗呢一度呀？

3 黃女士：（經傳譯員）佢唔係回應緊呢一份文件㗎。呢份文件就係回應 784 頁嗰份  
4 文件嘅。

5 主席：（經傳譯員）784 係 2018 年 4 月文件嘅一部分㗎㗎，係咪呀？

6 黃女士：（經傳譯員）2016 年 6 月 17 號會議，係 784。

7 主席：（經傳譯員）邊一個文件夾？

8 黃女士：（經傳譯員）SEC-2。

9 主席： That was the bit that was missing.

10 黃女士：（經傳譯員）784。

11 主席：（經傳譯員）等等。

12 黃女士：（經傳譯員）對唔住，鄺先生。

13 主席：（經傳譯員）等等先。

14 黃女士： Yes.

15 主席：（經傳譯員）我哋而家 SEC-2，784 頁就係講九巴㗎，雜項嘅 775 就講城巴  
16 㗎。

17 黃女士：（經傳譯員）可能我就係講咗份唔啱嘅文件㗎，我諗嗰個時序我可能搞錯咗  
18 㗎。

19 或者我應該首先睇嘅睇呢一份呀，就係 SEC-2 個文件夾，748 頁，嗰個就係  
20 諮詢文件㗎，文件就係 2016 年嘅 1 月嘅文件㗎。

21 主席：（經傳譯員）或者麻煩你等一等，等一等。

22 黃女士： Yes.

23 主席：（經傳譯員）係。

24 黃女士：（經傳譯員）呢頁係 748，講及係嗰個新嘅專營權，就係講九巴嘅巴士服務  
25 網絡。754 頁，第十六段...

26 主席：（經傳譯員）你未落去之前，748 頁就係一份討論文件㗎㗎，政府就係告知立  
27 法會，就話打算就係同係九巴係商討就係就佢嘅巴士服務網絡，就係批出一個係  
28 十年嘅專營期，因為現有嗰個係專營權就係就嚟係屆滿㗎。

1 黃女士： Yes.

2 主席： Is that right?

3 黃女士： Correct.

4 主席：（經傳譯員）喺第四段嗰度，嗰度就係話航運局同埋運輸署——第四段咁樣講  
5 嘅，就話：

6 「政府最主要嘅考慮係咩嘢呢，如果要批出個專營權，就係話要睇下個營運  
7 商係咪可以提供一個適當有效率嘅公共巴士服務。」

8 鄭先生，我諗呢個就係你關注點嘞，即係話我哋較早時候所睇嗰份報告，你  
9 提出你嘅關注點就係在此，係咪呀？

10 鄭子憲先生：（經傳譯員）主席先生，我仲記得當時政府就邀請公眾人士係表達意  
11 見，對於九巴新嘅專營權同埋之後城巴以及再大嶼山巴士佢哋嘅新專營權，係邀  
12 請公眾表達意見嘅。

13 主席：（經傳譯員）我哋剛才嗰度所讀出嘅，其實亦都政府成日重複一句說話嘅，無  
14 論九巴呢個係，城巴都係重複嗰句嘅。

15 而你係有其他意見嘅呢，喺雜項嗰度 775 嗰度有講嘞，你就話政府嘅諮詢文  
16 件就咁樣樣嘅。

17 而你咁嘅睇法，你話政府嗰個係批出個係新嘅巴士專營權嘅時候，就純粹只  
18 係睇究竟嗰個係專營權公司，係咪可以提供到適當而有效率嘅服務。

19 而你就話你嗰個係睇法就話，有其他重要嘅事項，譬如話交通安全、道路安  
20 全，以及係環保嘅，係企業嘅社會責任等等，都係有提到嘅。

21 我諗你首先就作出個咁嘅回應，你認為政府喺諮詢係經營權續約嘅時候，政  
22 府嘅呢方面係不足。

23 鄭子憲先生：（經傳譯員）係呀，因為我哋根本睇唔到「安全」嗰兩隻字，我哋係好  
24 想確保就呢樣係照顧到，我哋唔知道究竟當政府講話適當服務嘅時候，係咪已經  
25 包含咗安全嘅。因為當時我哋所睇嘅文件，我關心嘅地方就係話，安全會唔會就  
26 已經係作為一個重要嘅事項，係照顧到呢，我就擔心嘅點，所以我就提出我嘅睇  
27 法，就希望佢哋去考慮。

28 主席：（經傳譯員）當然喇，呢度有唔同嘅專營權喇，一個就係城巴嗰個集團喇，另  
29 外就有九巴嗰個係專營權喇。咁黃律師，究竟係邊度呢？

30 黃女士：（經傳譯員）我哋先講九巴，我哋而家喺呢一份文件嗰度。我要致歉呀，鄭  
31 先生，我已經睇到你係講及城巴嘅嗰個意見書嘞，我哋遲啲會講你對城巴所表達  
32 嘅意見。而家既然講開九巴，就講番九巴先。

1 或者我哋先睇九巴嘅陳述書喇，而你就係有回應過政府嘅諮詢文件嘅，喺呢  
2 個 720 頁嘅度嘅--對唔住，係 770 頁。

3 咁喺嗰度就話係：

4 「道路安全係至為重要㗎」。

5 喺嗰度就提及就係嗰份文件嘅 6(c) 嗰一個條：

6 「嗰度就係顯示九巴嘅意外率，就係每百萬行車公里就有 2.95 宗交通意  
7 外，呢個就係低於係整個行業嘅 4.16。」

8 呢個一方面就顯示九巴嗰個表現較佳喇，但係我哋就認為，如果只係單睇一  
9 個參數，就係十分之不足㗎，唔能夠單睇嗰個每百萬行車公里嘅意外率，就話九  
10 巴嘅安全表現係點樣樣，由於佢嘅運作嘅規模，咁九巴就係佔咗係超過一半同  
11 巴士有關嘅傷亡數字㗎。

12 所以就係因而就要係更加盡力咁樣去減低嗰個傷亡數字㗎，要分析嗰個係意  
13 外率喇，個數字喇，即係如果佢哋係涉及呢個嚴重同埋係致命嘅意外、涉及行人  
14 嘅意外、多人傷亡意外等等，應該從更廣嘅角度去睇㗎。你意思係咪話如果單單  
15 淨係睇一個意外率，咁就唔公道㗎？因為呢個係一個單一參數，你認為要睇呢個  
16 比較全面先至得㗎，你係咪咁嘅意思呀？

17 鄭子憲先生：（經傳譯員）係呀，主席先生，的而且確係咁。其實我哋喺報告嗰度，  
18 亦都已經係寫咗出嚟㗎，我哋交畀你哋嗰個報告裏面，就係有呢一方面嘅分析  
19 㗎。

20 我哋亦都係有一啲表--我覺得應該睇埋其他嘅百分比，其他嘅數字嘅。譬如  
21 話每一百萬乘客人次嘅意外率喇，每百萬行車公里嘅行人嘅係涉及意外率喇，以  
22 及就每百萬行車公里嘅嚴重意外數字喇，每百萬行車公里嘅致命意外喇等等㗎。  
23 所以我哋如果要理解目前嗰個安全嘅情況，我哋要睇多個參數㗎。

24 即係我概念就係咁樣樣㗎，唔該。

25 黃女士：（經傳譯員）喺呢個報告嗰度，其實我就想睇一睇你所作嘅數個建議，772  
26 頁。

27 主席：（經傳譯員）喺你未落去之前，你可唔可以再解釋一下，點解係要用多項嘅參  
28 數呢？譬如話你有講過，前後碰撞同埋喺路口嘅碰撞，諗黃律師，可唔可以將佢  
29 讀出嚟呢？

30 黃女士：（經傳譯員）前後相撞同埋路口碰撞，呢個由於好多巴士路線都係用呢個高  
31 速公路喇、快速公路喇，九巴就特別容易就係涉及喺前後碰撞，而裏面亦都會引  
32 致多人傷亡㗎。

33 喺 2011 至到 2013 年嗰個三年期間，當時係有超過四十宗嘅係撞車事件，

1 係涉及多人傷亡，裏面係有五個或者多於五人係傷亡嘅，而係涉及九巴嘅巴士  
2 㗎。

3 咁而歷史上，係有試過單一宗事件有超過一百人傷亡㗎。咁樣嘅碰撞就會  
4 引致就係好多人嚴重受傷，特別就係如果坐某啲位嘅乘客，呢個上層前排。此  
5 外，就係亦都對我哋嘅係醫療系統，係急症室就造成好大嘅壓力。呢啲事件就只  
6 係會歸類成為一個單一宗嘅意外，所以佢嘅嚴重性就唔能夠單睇意外率就睇到佢  
7 幾嚴重。

8 喺 2015 年 7 月，單單嗰個月就起碼有三宗係相撞嘅事件，係涉及九巴嘅巴  
9 士係有多人傷亡，裏面其實總共有四十五人就係受傷或者死亡㗎。

10 主席：（經傳譯員）鄭生，你就話要睇多個參數，你可唔可以解釋一下，係咪就係因  
11 為考慮埋呢一段文字所講㗎？

12 鄭子憲先生：（經傳譯員）係。

13 黃女士：（經傳譯員）你有幾個建議㗎，首先就係睇 772 頁。你就講過就話：

14 「過去嘅係意外率同埋就係一啲潛在嘅安全風險，就係要係詳加研究，睇出  
15 有咩嘢機會，喺邊度可以進行改善嘅，即係透過新嘅專營權。政府應該帶頭去重  
16 視係巴士運作嘅道路安全。喺專營權嗰度，亦都應該包括埋呢一點，就唔係淨係  
17 睇適當同埋有效率嘅服務。亦都應該要睇下，譬如話預先定咗一啲目標，巴士公  
18 司係做到嘅話，就應該係得到獎勵，譬如話將某一類嘅意外嘅數字每年減少百分  
19 之二十。」

20 咁你呢度係咪就係話，唔應該淨係睇一類嘅交通意外嘅數字，而係要睇埋就  
21 係咪涉及多人傷亡，係咪呀？因為你頭先就講及頭尾相撞嘅時候，都有講及呢一  
22 點，多人傷亡嘅意外事件。

23 鄭子憲先生：（經傳譯員）係呀，主席先生，㗎。

24 我做嘅時候，我總係希望分析一件事，理解一件事嘅時候，都係好全面，  
25 好全盤咁去睇㗎。首先，至為重要嘅，你係以整局嘅全局去咁睇喇。另外，到你  
26 要制訂一啲策略同埋措施嘅時候，咁嘅角度就更加係緊要㗎。

27 我係因此寫低咗一啲建議喇，我亦都包括係一啲建議，譬如話獎勵一啲巴士  
28 公司喇，當然呢個只係其中一個嘅建議，點解呢，因為喺呢一啲寫畀政府、寫畀  
29 立法會嘅文件同埋信件裏面，我哋都希望鼓勵嗰啲負責嘅涉及嘅係人士，係想鼓  
30 勵佢哋，我哋唔想樣樣都好負面，好消極㗎，我哋想鼓勵行裏面嘅人士，我哋想  
31 係畀啲動力佢哋，係推動佢哋嘅。

32 主席：（經傳譯員）你有冇諗下，如果巴士公司能夠達到嗰個目標，點樣獎勵佢哋  
33 呢？

34 鄭子憲先生：（經傳譯員）嗰個只係一個建議嘅，我哋未曾睇過有關嘅詳細嘅細節，

1 或者係獎勵嘅基制嘅，不過個意念就係需要鼓勵巴士公司，鼓勵巴士司機，要有  
2 個理由就獎勵佢。

3 主席：（經傳譯員）你有冇諗過係一啲財務呀定係點呢？又或者好市民獎，或者係錢  
4 方面，呢啲獎勵係有冇諗過係咩嘢呢？

5 鄭子憲先生：（經傳譯員）主席，合理嘅或者係行得通嘅，都我覺得都應該加以考慮  
6 嘅，多謝。

7 主席：（經傳譯員）獎勵嘅相反就係懲處喇、懲罰喇，你覺得如果佢哋未能夠達到預  
8 定嘅目標，係咪應該都有懲罰嘅呢？譬如話意外率唔達標。

9 鄭子憲先生：（經傳譯員）主席，當然喇，懲罰都係一個考慮嘅可能性嚟嘅，但係我  
10 哋要明白，唔係所有意外都係司機嘅錯，或者係巴士司機--或者巴士公司嘅  
11 錯，意外可能係因為第三者引起嘅，或者係一啲唔同嘅成因，或者係有唔止一方  
12 面，有幾方面係需要負責嘅。懲罰喺某一啲情況下有用嘅，不過係咪公平呢，就  
13 都仲要係驗證--即係仔細考慮。

14 主席：（經傳譯員）你知唔知道新加坡，佢嘅交通嘅當局，佢哋有個睇交通意外嚟到  
15 考慮佢哋個專營權嘅？

16 鄭子憲先生：（經傳譯員）我唔知道呢方面嘅情況。

17 黃女士：（經傳譯員）個個中間個一段，你係提到巴士公司嘅安全表現嘅，同埋要有一  
18 個現代嘅條辦--制度呀，現代方式呀，應該引入嘅，咁點樣監--咁樣嚟到監  
19 察佢哋嘅表現嘅。

20 你提過就係引入一啲措施，係根據個新嘅專營權嘅安排，鼓勵佢哋係引入一  
21 啲新嘅安全管理措施，即係符合呢個 ISO 39001 嘅標準嘅。

22 咁就係巴士應該同--巴士公司應該--政府應該同巴士公司合作，嚟到去研究  
23 巴士意外，同埋涉及嘅詳細嘅風險嘅，以便係設一啲目標嘅，關於減少意外嘅目  
24 標嘅。

25 呢個你唔係第一次提嚟嘞，ISO 39001 嘅標準喇，不過呢個特別今次就住  
26 九巴，你係同運輸署就話提出，希望專營權合約裏面，係要引入呢個標準嘅，係  
27 咪你第一次呢，你可唔可以證實呢樣嘢？

28 鄭子憲先生：（經傳譯員）我相信唔係第一次提 ISO 39001 嘅--ISO 標準嘅。我就  
29 其實鼓勵佢哋起碼都要研究下，睇一睇究竟係咪應該採納呢個標準嘅。但係要--  
30 如果佢哋--即係我哋都留意到，可能都有個相約嘅標準嘞，都已經係可以嘅。

31 但係呢個就係根據一個安全系統嘅模式嘅，同埋照顧到先進國家所採納嘅最  
32 新嘅一啲概念嘅，同埋係一個--係有個向前望嘅，即係點樣減少個安全意外呀，  
33 同埋死亡受傷嘅比率嘅。

1 黃女士：（經傳譯員）呢個關於嗰個係黑盒喇，去到呢頁嘅底，安全嘅駕駛巴士嘅標  
2 準嘅。我睇到，你係話：

3 「好多嘅巴士公司都係好專業嘅，同埋表現都係良好嘅，但係呢個唔等於話  
4 佢哋已經係將個風險減到最低喇，同埋有部分嘅巴士公司，佢哋表現係比較係進  
5 取同埋危險嘅。」

6 咁就呢度個檢討文件--諮詢文件就話：

7 「即係佢哋已經係加咗個係黑盒同埋個限速器嘅。」

8 咁你就話：

9 「响巴士度使用黑盒仲有好大嘅潛質嘅，但係我哋就唔知道究竟呢啲黑盒而  
10 家係點樣運用嘅。」

11 咁就呢度咁講，你話就係：

12 「我哋唔可以將呢個市區嘅巴士嘅限速 50 公里作為一個黃金標準嘅。」

13 所以你有啲建議嘅：

14 「即係將响嗰個係專營權嘅要求，係需要有一個全面嘅標準同埋就監察個司  
15 機系統嘅，使用一啲安裝嘅黑盒可以做到呢樣嘢。監察系統應該係自動化，嚟到  
16 係令到個程序係順暢，同埋可以教育同埋重新訓練啲司機嘅。」

17 特別嘅仲關鍵嘅標--監察嘅措施就係第一，加速同埋減速嘅行動嘅特點嘅，  
18 咁你需要一啲嘅--你有講過係英屬哥倫比亞嗰個係指引嘅。

19 你可唔可以講講，有啲咩嘢特質呀，你特別提到呢個英屬哥倫比亞嘅指引？

20 鄭子憲先生：（經傳譯員）如果佢係好急速，即係好急速咁樣加速，好急速咁樣減  
21 速，就令到乘客可能會失去平衡嘅。有啲司機亦都係可能係加速、減速，响個即  
22 係大家意料唔到嘅情況之下加速、減速，咁我哋想有啲管制㗎。

23 譬如話地鐵嘅車箱，佢哋係有訓練佢哋點樣加速嘅，有啲參數嘅，咁就令到  
24 個地鐵乘客唔會咁容易失去平衡嘅。巴士方面就有一個問題，因為理論上，巴士  
25 司機係可以好快速咁樣又加速又減速嘅，但係我哋就要係用一個--管制呢啲行  
26 為，就係响個合理範圍。

27 一般嚟講，其實係冇需要加速--即係過份加速、過份減速都唔需要嘅，咁當  
28 然喇，如果係緊急，咁司機可能要好快速咁樣係減速或者剎車嘅。呢個亦都係同  
29 佢哋--同嗰個關於巴士速度嘅建議有關嘅，如果巴士司機可以高速啲嚟到係駕  
30 駛，咁就個--佢會有個大概可能性係需要係快速咁樣加速或者係減速嘅，因為  
31 有啲係未能夠預計嘅，一啲响繁忙嘅道路上，有啲衝突嘅情景嘅。

32 如果係响英屬哥倫比亞嗰個交通嘅設計嘅指引，佢哋啲係--佢哋有一啲所

1 謂嘅數值嘅，即係話究竟嗰啲巴士係點樣加速、減速。

2 主席：（經傳譯員）未曾繼續之前，我想問下鄭先生，一開始嘅時候，你响個建議  
3 773 嗰度你係咁講嘅，我哋呢個建議，呢個係擺入嗰個係專營權合約嘅，即係成  
4 --設立一個全面嘅標準嘅，同埋監察司機嘅系統，就運用嘅呢就係裝置黑盒  
5 嘅。你所謂嘅「全面標準」嘅意思係咩嘢呢？

6 鄭子憲先生：（經傳譯員）主席，我假設我所講嘅「全面標準」，其實係講緊頭先嗰  
7 啲各種規則，即係速度係點樣，加速、減速嘅速率係幾多，司機應該係咁樣喇，  
8 同埋一般嘅規則係點樣樣，關於個別路線嘅標準係應該點樣樣。

9 主席：（經傳譯員）呢個係應該係--呢個標準就係擺响嗰個監察嘅系統嘞，係咪呀？

10 鄭子憲先生：Chairman, yes, that is the case.

11 主席：（經傳譯員）係為咗免--即係我哋可以辯論一下喇，譬如話 0.2G 加速、減  
12 速，係咪可以咁樣--係咪咁嘅意思呢？

13 鄭子憲先生：（經傳譯員）係，我哋要設立咗個標準先，基於證據--基於我哋面對嘅  
14 安全同埋風險，跟住利用呢個監察系統去作為一個執行喇。

15 咁同埋究竟執行到咩嘢程度呢，即係譬如話--咁係另一個問題嘞。即係會唔  
16 會話偶然違反，就有係紀律嘅行動，呢個就有--呢度有講到嘅。

17 主席：（經傳譯員）呢個就同你頭先所講嘅都係一樣喇，應該係實時進行喇，同埋自  
18 動化嘅。

19 鄭子憲先生：（經傳譯員）主席，越自動化，或者越係實時嘅監察，就更好嘅。咁當  
20 我寫呢個建議嘅時候，我覺得第一步就係，一定要有啲一套規矩喇，另外，需要  
21 有更好嘅監察嘅。我就有再進一步係--當時有再進一步睇下究竟應該用啲咩嘢  
22 字眼嘅。

23 主席：（經傳譯員）咁你嘅意思即係話，响個專營權協議，應該有某一個位置畀佢  
24 㗎，係咪呀？

25 鄭子憲先生：（經傳譯員）係，係，呢個係我哋嘅建議嘅。

26 主席：（經傳譯員）有冇呢？有冇擺到落去呢？

27 鄭子憲先生：（經傳譯員）主席，照我所知，都應該有。

28 主席：（經傳譯員）我哋可以調查一下嘅，响另外一個場合做喇。咁我呢度--但係今  
29 日嘅時間就大概係咁多嘞。

30 黃女士：Yes.

31 主席：（經傳譯員）我哋有位委員，佢有其他嘅事要處理嘅，咁我哋唔能夠繼續落去

1 嘞。

2 我了解，鄭先生、顧醫生（高醫生？），聽日係晏晝，係咪呀，可以再繼  
3 續？啊，聽日上晝。

4 鄭子憲先生：（經傳譯員）係，聽日上晝嘅，淨係我嘅啫。顧醫生（高醫生？）有其  
5 他嘅事。

6 主席：（經傳譯員）好嘞，多謝顧醫生（高醫生？），多謝你代表呢個道路研究小  
7 組。聽日幾點鐘開始呀？

8 黃女士：（經傳譯員）十點鐘。

9 主席：（經傳譯員）我哋今日儘量做多啲，咁儘量做好，同埋儘量做多啲，咁我哋而  
10 家就暫時休會，我哋聽朝十點鐘復會，多謝你。

11 鄭子憲先生： Thank you, Chairman.

12 高兆祺先生： Thank you, Chairman.

13

EVIDENCE FROM COMMUNITY FOR ROAD SAFETY REPRESENTATIVE:

MR KWONG TSE HIN, JULIAN (continued)

(10.00 am)

CHAIRMAN: Good morning.

Mr Kwong, I will ask Ms Wong to resume her questioning on behalf of the Committee.

EXAMINATION BY MS WONG (continued)

MS MAGGIE WONG: Yes. Thank you, Mr Kwong, for coming today.

Yesterday we were on documents concerning the KMB renewal of licence documentation. We are going to continue with this exercise.

If I may refer you back to the document, MISC-2. Page 770. It is your submission in response to the public consultation, dated 16 June 2016. We were on page 773 yesterday.

At the section on recommendations, the first bullet, about incorporating into franchise requirement the requirement to set up a comprehensive standard and driver monitoring system using the installed black boxes.

And can I ask, why do you propose including this as a requirement in the franchise agreement?

MR JULIAN KWONG: Chairman, at that time I thought the

1 renewal of the franchise would be a very good  
2 opportunity for the introduction of any new ideas, and  
3 that is why we had made an effort to make as many  
4 suggestions as possible in as far as they are reasonably  
5 feasible. Thank you.

6 MS MAGGIE WONG: The point of this is that if it is included  
7 in the agreement there can be some sort of mechanism to  
8 monitor their compliance. Is that the logic behind the  
9 suggestion?

10 MR JULIAN KWONG: Chairman, yes. I think so. That would  
11 also represent -- I would it see as progress. Certainly  
12 the bus companies and the government has been making an  
13 effort to make bus operation in Hong Kong safe, and we  
14 are appreciative of that. But we are not satisfied at  
15 any point as long as there are injuries, especially  
16 serious injuries and fatalities. So we are always  
17 trying to push something which we see as major progress.  
18 Thank you.

19 MS MAGGIE WONG: You suggested in the second bullet, "Key  
20 monitoring controls". Who would you suggest this  
21 monitoring be done by? Done by whom?

22 MR JULIAN KWONG: Similar to an operation like this, usually  
23 I would assume that would be the bus companies  
24 initiating the monitoring system, but the government  
25 acting as a regulatory body.

26

1 MS MAGGIE WONG: Yes. And you made quite a number of  
2 suggestions there. We have gone through the  
3 acceleration and deceleration characteristics yesterday,  
4 and you make other suggestions concerning speeding  
5 through risky hilly roads, and you suggest certain km  
6 per hour. Are you suggesting this suggestion be put  
7 into the franchise agreement, or it was simply  
8 a suggestion that the government should keep control  
9 about all these roads?

10 MR JULIAN KWONG: Chairman, about this specific  
11 recommendation, that is the principle, that if we  
12 identify certain road sections with exceptional risk,  
13 which I would call critical sections, then the logical  
14 way would be to specify certain speed, whether it is 25,  
15 30, or 40, through these sections, and make these known  
16 to drivers, and because we want to control the safety of  
17 these critical sections.

18 In this recommendation I did not specify which  
19 sections, but I am trying to introduce this concept,  
20 that they cannot just follow the legal speed limit when  
21 we are talking about these critical sections. Thank  
22 you.

23 CHAIRMAN: Who should identify the critical sections?

24 MR JULIAN KWONG: Chairman, I think that should be  
25 identified probably between government and the bus  
26

1 companies, and also with the help of experts. Thank  
2 you.

3 MS MAGGIE WONG: And the third suggestion --

4 CHAIRMAN: Sorry. How would this be then regulated by  
5 government, if the bus companies identified particular  
6 sections of road, they told government, government  
7 agreed, and how would this be then monitored and, more  
8 importantly, how would it then be regulated?

9 MR JULIAN KWONG: Chairman, I think, without going into  
10 a sophisticated monitoring system, if we are trying to  
11 go back to the basics, that would be, first, issue a  
12 notice to drivers riding on a particular route which  
13 critical sections they should pay particular attention  
14 to and what speed they are using. And secondly, they  
15 can have their inspectorate to check it, to check  
16 drivers from time to time, but of course we are trying  
17 to introduce a more sophisticated monitoring system that  
18 would be based on the black box data, and then  
19 preferably integrated with the GPS so that drivers  
20 grossly exceeding the said requirements will be  
21 identified automatically and in time.

22 CHAIRMAN: So the monitoring, rather than using an  
23 inspectorate, which is an old-fashioned way of doing it,  
24 is it not, would be done by real-time automated reports?

25 MR JULIAN KWONG: Chairman, yes. That would be recommended.

26

1 As far as the technology permits.

2 CHAIRMAN: That's what you had in mind with these  
3 recommendations?

4 MR JULIAN KWONG: Chairman, yes. That is the case.

5 MS MAGGIE WONG: In the third bullet you made the  
6 recommendation:

7 "Through systematic and targeted safety training,  
8 drivers, should be trained to understand typical  
9 accidents scenarios and specific risks."

10 Who would you suggest to carry out this  
11 recommendation?

12 MR JULIAN KWONG: Chairman, this is a general  
13 recommendation. Of course that would need the  
14 initiative of government, and possibly inviting experts  
15 to join, and organisations such as ours would always be  
16 happy to assist government. For this particular point,  
17 my original thinking is that drivers may not be entirely  
18 aware of what accidents may happen. As I explained  
19 yesterday, it is not reasonable -- I mean, at this  
20 moment, that drivers know what the capacity of the  
21 safety barrier is, or that they understand what speed an  
22 elderly pedestrian can tolerate without having serious  
23 injuries or fatalities, but we can always translate such  
24 information or such knowledge into a simple way, and to  
25 make drivers far more aware, so that they know why and

26

1           how they can behave better. Thank you.

2       MS MAGGIE WONG: At 4.4 you set out a vehicle performance,  
3           using the Canadian Transit Handbook, with certain  
4           guidelines or thresholds set out. Can you explain why  
5           you used the Canadian Transit Handbook in the first  
6           place, suggesting desirable rates for standard bus and  
7           articulated bus?

8       MR JULIAN KWONG: Chairman, this is one of the handbooks  
9           which I obtained with the information of interest to me.  
10          As I mentioned, abrupt acceleration and deceleration  
11          could be a major factor contributing to the large number  
12          of passengers losing balance inside the bus. We also  
13          know that the design of the metro, of the MTR, has also  
14          some parameters relating to acceleration and  
15          deceleration, in order that passengers will not easily  
16          lose balance. So that is the same case for buses.

17          And I see that these parameters are quite  
18          reasonable. You may want to refer to the deceleration  
19          for emergency condition, as I mentioned. It is  
20          specified as 2.7 metres per second squared. As you can  
21          see, that is much smaller than the 7 metres per second  
22          squared I mentioned yesterday for emergency braking of  
23          a passenger car.

24          The dilemma we are facing is that if a bus driver  
25          has to apply the brake in an emergency, in order not to

26

1 knock down a pedestrian, he has to decide that very  
2 quickly. And whether he would rather have the  
3 passengers losing balance, or to protect the pedestrian  
4 from being knocked down.

5 And I think that overall, worldwide, acceleration  
6 rate and deceleration rates have been accepted as an  
7 important parameter for safety for bus operation.

8 Thank you.

9 CHAIRMAN: What are the parameters set in the MTR for  
10 acceleration and deceleration?

11 MR JULIAN KWONG: Normally, Chairman, that would be in the  
12 order of 1.15 metres per second squared. There may be  
13 some deviation.

14 CHAIRMAN: Thank you.

15 MS MAGGIE WONG: And may I just refer you -- because you  
16 talked about this deceleration and acceleration rates.  
17 Can I take you to BM-1 bundle, page 66.

18 CHAIRMAN: What are we going to?

19 MS MAGGIE WONG: This is the submission of the black box  
20 manufacturer ZF, the screen capture showing the  
21 acceleration and deceleration rates. I will just ask if  
22 Mr Kwong can comment on one of the matters. It is the  
23 deceleration rate at 2.3 as stated in this screen  
24 capture.

25 Can you comment on this figure, given the suggested  
26

1 rate in the Canadian code is 2.7.

2 MR JULIAN KWONG: Chairman, in this regard I have not  
3 studied this in detail, but as you can see, the value of  
4 2.3 is higher than, I think, 1.1 for the Canadian  
5 Transit Handbook for normal deceleration. I think the  
6 exact value has to be determined on the basis of the  
7 realistic operation in Hong Kong. Whether in Hong Kong  
8 for one reason or the other we would accept a higher  
9 deceleration rate, I have not studied this in detail.  
10 But what I can say is that, in general, on urban streets  
11 if the running speeds of buses is not as high, I mean  
12 that we are having bus operation at moderate speed, then  
13 there will be far less requirements for drivers to  
14 decelerate at excessive rate. Thank you.

15 CHAIRMAN: The requirement that the Transport Department  
16 stipulated for tachograph capabilities in the 2003  
17 requirement was that it be capable of measuring 0.2G.  
18 Is that not correct?

19 MR JULIAN KWONG: 0.2G would be equivalent to 1.96 metres  
20 per second squared.

21 CHAIRMAN: So what is the significance of the fact that the  
22 Transport Department required the machine to be capable  
23 of measuring that level of deceleration?

24 MR JULIAN KWONG: Chairman, sorry, do you mean that  
25 Transport Department have the requirement that the  
26

1 mechanism in the bus can measure to the accuracy of  
2 0.2 or --

3 CHAIRMAN: Perhaps I can ask Ms Wong to put it on up the  
4 screen. It is the requirement from 1983 that buses be  
5 fitted with a tachograph with various capabilities, new  
6 buses by 1 July 2004.

7 MS MAGGIE WONG: That would be TD-5, page 1598.

8 If you look at paragraph 3:

9 "The software for analysing on-board or downloaded  
10 data should be capable of reporting the following:

11 (a) Accident Report -- vehicle speed profile at time  
12 interval of 1 second for the 3 minutes period preceding  
13 detection of a 0.2G deceleration."

14 MR JULIAN KWONG: I see, Chairman. I think this clause  
15 considers that if the bus is decelerating at 0.2G, that  
16 means equivalent to 1.96 metres per second squared, then  
17 it would be an event justifying an accident report.

18 CHAIRMAN: This would be harsh braking, would it not?

19 MR JULIAN KWONG: I would say so.

20 CHAIRMAN: So the parameter that you were taken to,  
21 2.3 metres per second squared, is more than 10 per cent  
22 higher than this requirement.

23 MR JULIAN KWONG: Chairman, from what I read from the  
24 document, that would be the case.

25 But I think -- it would be good if we can have more  
26

1 evidence, and especially based on events involving  
2 passengers losing balance, and then we can, say, compare  
3 the deceleration rate at that time, and then if we can  
4 collect this data in future, then we could fine-tune the  
5 values in a more evidence-based -- with more evidence of  
6 what the parameters should be. Thank you.

7 CHAIRMAN: But we can get a pretty good rough idea if the  
8 MTR stipulate 1.15. 2.3 is a lot more than 1.15, is it  
9 not?

10 MR JULIAN KWONG: Chairman, I presume that would be the  
11 case. But also on the understanding that bus operation  
12 is less predictable, but still I agree that we need to  
13 have deceleration rates closer to what the MTR is using,  
14 although it may not be entirely realistic in emergency  
15 situation. Thank you.

16 MS MAGGIE WONG: Thank you. The other matters of course are  
17 the bus safety and the bus fleets. At page 773 at the  
18 bottom to page 774, you made some recommendation there  
19 in particular the first one about -- 774, at the top:

20 "Upper deck front seats -- in the absence of any  
21 reasonable deformation zone, front row bus passengers  
22 could be crushed despite the use of safety belts. This  
23 is particularly important with the number of KMB buses  
24 using high-speed roads."

25 And also seat belts, bus door safety, et cetera.

26

1           And you made a recommendation to ask for these  
2           suggestions to be incorporated into the franchise  
3           agreement, to be studied and improved with timetable.

4           Again, who would you suggest initiates this task to  
5           incorporate these suggestions into the franchise  
6           agreement?

7   MR JULIAN KWONG:   Chairman, again, we would assume that in  
8           the franchise requirement government to specify or to  
9           regulate.   Government can also study these issues and  
10          impose on the bus companies to have a timetable for  
11          improvement.

12          Of course it would also be the responsibility for  
13          the bus companies to conduct such studies in conjunction  
14          with the bus manufacturers, and what I was suggesting  
15          here, of course, we are advocating a far more proactive  
16          approach, that both government and the bus companies are  
17          interested in these matters, and they would see that  
18          they have the responsibility to look at these issues and  
19          to make improvements in a very proactive way.

20          Thank you.

21   CHAIRMAN:   Just anticipating the questions you will be asked  
22          later, you say that what you were looking for is that  
23          the bus companies and the Transport Department act in  
24          a very proactive way.   Do they do so?

25   MR JULIAN KWONG:   Chairman, to be fair, they are proactive  
26

1 in some issues, but for those issues we consider very  
2 important, I would say that they are not proactive  
3 enough. Chairman, I would say in some cases they would  
4 be quite reactive. And we do not wish to see that  
5 certain issues are handled in a reactive way, especially  
6 for those incidents involving serious injuries and  
7 fatalities. Thank you.

8 CHAIRMAN: By that you mean, presumably, reacting to  
9 a catastrophic event, but only after the event.

10 Reactive not proactive. Is that your point?

11 MR JULIAN KWONG: Chairman, yes. I would like to add to  
12 that point that it is not uncommon, not only in Hong  
13 Kong, that progress is made after major accidents or  
14 catastrophe. From my point of view, if the catastrophe  
15 or accident cannot be reasonably predicted, then it may  
16 be fair. However, if there is already ample evidence,  
17 or ample number of accidents happening, or there have  
18 been historic accidents, or theoretically the risk is  
19 very high, then we should not act in a reactive way, but  
20 we need to be far more proactive. Thank you.

21 MS MAGGIE WONG: Based on your report, you have highlighted  
22 the issues, obviously, that you consider there is ample  
23 evidence in which you make these suggestions. Is that  
24 correct?

25 MR JULIAN KWONG: Chairman, I presume that the counsel  
26

1       refers to those items I mentioned. I would say yes,  
2       there is already ample evidence. Of course when we talk  
3       about evidence, there can be a number of levels. There  
4       would be surface evidence. There could be evidence  
5       according to our knowledge, from accident data, or from  
6       news reports. And the highest level, of course, the  
7       evidence will be academic evidence, that is published  
8       conclusions and results in journal papers.

9       As far as the evidence I am talking about here, that  
10      would be at the level that to our knowledge, from news  
11      reports, from basic accident data, that, and also from  
12      the theoretical point, I think the evidence is clear  
13      enough.

14     MS MAGGIE WONG: If I may just go through the last  
15      suggestion, is your mentioning about bus safety, bus  
16      stops. In this paragraph you mentioned that waiting  
17      passengers at certain roads are left exposed to heavy  
18      and fast-moving vehicles. And you suggested or  
19      recommended here to incorporate into the franchise  
20      agreement that bus companies will collaborate with  
21      government to reduce the risk for waiting passengers at  
22      bus stops.

23      Now, how would you suggest a bus company to  
24      collaborate with the government to reduce this risk for  
25      waiting passengers?

1 MR JULIAN KWONG: Yes, Chairman. Bus stop safety is  
2 a problem worldwide, I would say, not only in Hong Kong.  
3 Admittedly, many countries, including the advanced  
4 countries, have not been paying adequate attention to  
5 the issue.

6 We have bus stops located along high-speed roads,  
7 major roads, such as this, the one in this photograph,  
8 on Lung Cheung Road, with a speed limit of 70 kilometres  
9 per hour, on Gloucester Road, and on other major roads.

10 In theory, if we have a large group of passengers  
11 waiting at the bus stop and we have such fast moving  
12 vehicles running alongside, there is always the risk of  
13 an errant vehicle crashing onto the roadside and they  
14 will be trapped by the bus stop shelter, and that can  
15 lead to severe injuries.

16 Only a few countries have paid attention to this  
17 particular problem and acted seriously. One of the  
18 countries is Singapore. They have introduced measures,  
19 but whether that measure is effective or is really  
20 working well, then I still need to further confirm.

21 However, theoretically we need protection for the  
22 waiting passengers. The bus company has been  
23 responsible for introducing these bus shelters, and they  
24 do get revenues from that, with the advertisements they  
25 place on the shelter. And government is responsible for  
26

1 the road. So naturally, I would imagine that the bus  
2 company should collaborate with the government and to  
3 examine the design of bus shelters, and whether there is  
4 the need to have ancillary facilities, or equipment to  
5 better protect bus passengers.

6 Admittedly it is not easy, because at the same time  
7 we need to have bus passengers being able to get into  
8 the bus and to alight, but at the same time we need to  
9 have measures protecting them, so we cannot put  
10 a continuous barriers at these bus stops. Thank you.

11 CHAIRMAN: No, but presumably you can construct barriers  
12 that have gaps in them so that people can alight and  
13 board buses?

14 MR JULIAN KWONG: Chairman, yes. Although we cannot have  
15 a continuous safety barrier, there may be possibility to  
16 have safety barriers aligned in a certain angle, or else  
17 there is the possibility to install what we call  
18 bollards. In Singapore, the solution is to have  
19 bollards at these bus stops, and they have installed  
20 these at several thousands of bus stops.

21 However, I would like to point out one thing is that  
22 normally for highways design, we need to also protect  
23 the occupants of the errant vehicles. That means any  
24 safety barriers designed in such a way should not incur  
25 severe injuries to the occupants.

26

1           If we have discrete sections of safety barriers then  
2           the terminal or the ending point of the barriers could  
3           become a hazard. The second point is that bollards need  
4           to be what we call energy-absorbing. If we just put  
5           a steel post or a very heavy concrete post, it is  
6           certainly good for the waiting passengers, because it  
7           will certainly stop the car. But at the same time the  
8           occupants of the errant vehicles will probably suffer  
9           severe injuries.

10          To conclude, I think there are solutions.

11          Ultimately, we may be able to work out solutions which  
12          achieve the best balance of this dilemma. Thank you.

13   CHAIRMAN: In the road works being done on the Tai Po Road  
14          accident scene, is there not a barrier being created to  
15          protect passengers waiting at that bus stop?

16   MR JULIAN KWONG: Chairman, sorry, do you mean the remedial  
17          works which have been carried out there?

18   CHAIRMAN: Yes, aren't they creating a barrier to protect  
19          the passengers?

20   MR JULIAN KWONG: Chairman, I see what you mean. There is  
21          another solution what we call the protected bus stop.  
22          That means the bus stop is shifted away from the road,  
23          and the main road is separated from the bus stop with  
24          the traffic island.

25          That is a good solution, and that has been  
26

1 introduced on the other direction of Lung Cheung Road,  
2 and also for the bus-to-bus interchange on Tuen Mun  
3 Road. But this solution requires lots of space as well.

4 So in the end, the starting point will be a review  
5 of different types of bus stops, and also to look at  
6 different types of roads and speed, and then probably we  
7 need to have different solutions, including engineering  
8 solutions and non-engineering solutions. Thank you.

9 MS MAGGIE WONG: The bollards that you mentioned in  
10 Singapore, do you know who is responsible for installing  
11 these bollards, the government or the operators?

12 MR JULIAN KWONG: In Singapore that would be the Land  
13 Transport Authority, and I have studied some of the  
14 design, and they specifically mentioned that in 1998  
15 there was a severe accident involving a vehicle crashing  
16 onto the bus stop, and then some more happened  
17 thereafter, and they started to introduce these  
18 bollards. I'm very interested actually to further  
19 obtain information from them regarding the precise  
20 design of these bollards.

21 But at the same time in Australia there is the  
22 bollard called the energy-absorbing bollard, which is  
23 designed for stopping an errant vehicle at up to  
24 60 kilometres per hour. Not a bus, not a heavy vehicle,  
25 but just a passenger car. But the bollard also moves  
26

1 a bit, so that the occupant of the vehicles will not be  
2 excessively injured. This product is quite unique, so  
3 I have been doing some search in other countries. So it  
4 appears that it is the only one available in the market.

5 I would also like to point out that at the  
6 University of New South Wales, one of the professors  
7 also shares this idea. He suggested there should be  
8 more research on the usage of bollards at bus stops, and  
9 also in urban areas where we cannot put a continuous  
10 barrier, because people may need to get out to the road.

11 I have not discussed with this professor, but  
12 I think he shares the same idea, and he thinks that that  
13 should be the way to go. Thank you.

14 MS MAGGIE WONG: Now, Mr Kwong, this is the submission that  
15 you submitted in relation to the KMB in June 2016.

16 Afterwards, the LegCo did make some discussion. I'm  
17 going to take you to some of the papers in the LegCo.  
18 The first one is in June 2016, 17 June 2016, SEC-2,  
19 page 784.

20 This is an updated background brief on the franchise  
21 for the bus network of the Kowloon Motor Bus. It  
22 started at page 784.

23 If I may briefly summarise what this paper is about.  
24 It is a paper providing information on the franchise for  
25 KMB and it summarises major views and concerns expressed  
26

1 by LegCo members in the past discussions. And if I may  
2 take you to paragraph 12 with the heading "Enhancing  
3 standard of bus service", and it made reference to:

4 " ... the Fifth LegCo, members raised concern over  
5 the performance of franchised bus service at the panel  
6 meetings, special financing committee meetings as well  
7 as the council meetings. They urged the Administration  
8 to take the opportunity of franchise renewal to require  
9 service improvement by bus companies, including  
10 provision of real-time bus service information to  
11 passengers, provision of priority seats and barrier-free  
12 facilities, improvements in bus lost trips as well as  
13 bus service frequencies during peak periods."

14 It made reference to the real-time bus service  
15 information. I believe at this time they have not had  
16 this real-time bus information yet. But can you tell us  
17 what this idea is about?

18 MR JULIAN KWONG: Chairman, I believe it is referring to  
19 displaying, say, the time of arrival for the next bus,  
20 I mean how many minutes before the arrival of the next  
21 bus or the bus after, that can also be related to the  
22 use of the mobile phones to obtain information about the  
23 arrival of the next bus, and I think this would be the  
24 main idea.

25 CHAIRMAN: So there are two ways of communicating the  
26

1 information. One would be a display panel at a bus stop  
2 or a terminus, and another would be by accessing an app  
3 on your mobile phone?

4 MR JULIAN KWONG: Chairman, yes.

5 CHAIRMAN: And this system had been introduced some years  
6 earlier had it not? Step by step?

7 MR JULIAN KWONG: Chairman, I think so.

8 CHAIRMAN: By KMB?

9 MR JULIAN KWONG: Chairman, yes. But also by other  
10 companies as well.

11 CHAIRMAN: Yes.

12 MS MAGGIE WONG: If we go on to paragraph 17 it stated that:

13 "Furthermore, an additional clause had been included  
14 in the three franchises ... NWFB, [Long Win] and Citybus  
15 (Franchise 2), commencing in mid-2013 to empower  
16 [Transport Department] to require bus companies to  
17 enhance safety facilities and design."

18 It made a few examples here. Can you see that?

19 CHAIRMAN: Can you give us the examples, please?

20 MS MAGGIE WONG: I think the examples are simply referred  
21 to, in the next sentence:

22 "This included purchasing new buses with  
23 barrier-free and elderly-friendly design."

24 And it was suggested in the last sentence:

25 "The Administration would incorporate a similar  
26

1 provision to promote barrier-free facilities in the  
2 other three bus [companies] ..."

3 Now Mr Kwong, even though there is such a clause in  
4 the franchise agreement it appears there has not been  
5 any improvement on the black box design or requirements  
6 in terms of the black box.

7 CHAIRMAN: Before you get involved in that. A barrier-free  
8 entry is not a safety feature, is it? Is that not  
9 simply a service facility?

10 MR JULIAN KWONG: Chairman, the barrier-free facility is --  
11 well, that is both for convenience and safety, of  
12 course. Anything inside the bus can be unsafe. So  
13 I would have wished to see explicit description of other  
14 safety facilities. So I hope that has answered your  
15 question?

16 CHAIRMAN: How is a barrier-free entrance a safety facility?

17 MR JULIAN KWONG: I would presume that for someone who needs  
18 more space to enter the bus, the barrier-free facilities  
19 would mean probably not to have a handrail on the way,  
20 say, at the entrance, so that it is wide enough for  
21 example for wheelchairs, or for people with other  
22 particular needs, to have adequate space to enter the  
23 bus.

24 So it is not very explicit, but that is, I presume,  
25 both for convenience and safety.

26

1 But I'm looking of course to a focused description  
2 of safety facilities which is not existing here.

3 MS MAGGIE WONG: Yes, and if I may take you to a document  
4 showing what clauses or what specific clauses have been  
5 asked to be included in the new franchise in relation to  
6 KMB --

7 CHAIRMAN: Before you get to that, in paragraph 10 of this  
8 paper, there is reference to a discussion that had taken  
9 place in 15 January 2016 about the franchise network; do  
10 you see that?

11 MR JULIAN KWONG: Yes; I'm reading it.

12 CHAIRMAN: Ms Wong, do we have the minutes of that meeting?

13 MS MAGGIE WONG: We only have a letter from THB stating the  
14 follow-up actions of the meeting on 15 January, but not  
15 the actual minutes.

16 CHAIRMAN: The minutes appear to have been signed off on  
17 26 August, and they refer to 15 January.

18 MS MAGGIE WONG: Perhaps if we may refer to the SEC-2  
19 bundle, page 990. This is a document from the Transport  
20 and Housing Bureau dated 9 March 2016 to the LegCo,  
21 setting out what happened at the meeting on  
22 15 January 2016.

23 CHAIRMAN: I'm holding a copy of the minutes. May I ask  
24 that these be given to you?

25 I'm told that we can show it as a soft copy on the  
26

1 screen.

2 MS MAGGIE WONG: I apologise for that, it should be in the  
3 SEC-2 bundle, page 967, it is a new document.

4 CHAIRMAN: Yes, that's the document I have in mind.

5 MS MAGGIE WONG: That's the minutes of meeting on  
6 15 January. If you may turn to internal page 5.

7 CHAIRMAN: I think if we go to paragraph 13, you can see the  
8 tenor of the purpose of this real-time bus service  
9 information. It is, as becomes clear reading it,  
10 a service facility, no doubt to meet the requests of  
11 passengers that they get better information of how long  
12 they are going to have to wait in the rain before the  
13 bus arrives. That seems to have been the driving force  
14 behind this development.

15 Perhaps you would like to have a look at the  
16 minutes, Mr Kwong.

17 MR JULIAN KWONG: Okay.

18 Chairman, yes, I have read it. Do you want me to  
19 comment?

20 CHAIRMAN: Yes.

21 MR JULIAN KWONG: To me, real-time arrival information  
22 system is always desirable because it will reduce  
23 frustration for passengers, and actually it is providing  
24 a good service so that passengers can decide whether to  
25 wait for the next bus, or for example to access a bus

26

1 stop, whether they have enough time, et cetera.

2 I think that also has something to do with safety,  
3 but not directly. Certainly I welcome that. I have no  
4 particular comment on this. Thank you.

5 CHAIRMAN: What does it have to do with safety, knowing when  
6 the bus is going to arrive?

7 MR JULIAN KWONG: Chairman, as I mentioned, I would believe  
8 that if a passenger knows when the bus is going to  
9 arrive, they will be less stressed. If a passenger does  
10 not know when the bus is going to arrive, he will be  
11 less relaxed, and there may be more frustration, and he  
12 or she may try to stand very close to the bus stop, to  
13 the curb, in order to see whether the bus is coming.

14 So overall, I would say that it is not a direct  
15 safety measure. There may be benefits in terms of  
16 safety, but of course I do not have any references to  
17 prove this point. Thank you.

18 CHAIRMAN: Of course, one of the consequences of having to  
19 provide this information was to provide information to  
20 bus companies about where their buses were, and what  
21 speeds they were going at. Is that not a consequence?

22 MR JULIAN KWONG: Do you mean that this system can be used  
23 in conjunction with a system for locating the bus, and  
24 also for checking the speed of the buses?

25 CHAIRMAN: In order to come up with information about ETA,  
26

1           you need to know where the bus is, and you need to know  
2           what speed it is doing, don't you?

3       MR JULIAN KWONG: Chairman, yes.

4       CHAIRMAN: So by a side wind, it produced access to other  
5           information that might be used for another purpose.

6       MR JULIAN KWONG: Chairman, yes. I would presume that often  
7           we should try to utilise the information for multiple  
8           purposes, including safety and also level of service.

9       CHAIRMAN: No doubt Ms Wong will explore with you how this  
10          alternative multiple purpose was pursued or not pursued.

11      MR JULIAN KWONG: Thank you, Chairman.

12      MS MAGGIE WONG: We have seen the minutes about this  
13          real-time information. May I take you to the document  
14          itself now, because we have raised the question what has  
15          been asked to be included in the franchise agreement,  
16          and how the government perceives this facility.

17          May I take you to the TD-3-bundle.

18      CHAIRMAN: What are we going to?

19      MS MAGGIE WONG: It is a LegCo document. It actually starts  
20          at 496, but the pages I'm going to is at 542. It is  
21          a LegCo brief on new franchise for KMB dated  
22          28 March 2017. It set out the clause and  
23          service-related commitment to be added to the newly  
24          granted licence. It is the annex C to this paper.

25          This is the LegCo paper suggesting the clauses and

26

1 service-related commitments to the most recently granted  
2 franchises placed before the LegCo. If we see the first  
3 paragraph:

4 "KMB will fully take on board the clauses and  
5 commitments adopted in the two most recently granted  
6 franchises in 2015 (ie the franchises for Citybus ...  
7 and New Lantau Bus ... details of which are set out  
8 below ..."

9 So the first is the bus service. So the emphasis is  
10 on bus service, and then the first paragraph:

11 "The new franchise will empower the Commissioner to  
12 require KMB to provide facilities and installation for  
13 enhancement of bus safety, and provide a barrier-free  
14 and elderly-friendly travel environment. Specific  
15 initiatives are as follows ..."

16 The first is service quality. So I believe the  
17 clause speaks for itself, it is about service quality.

18 And the barrier-free and friendly features for the  
19 bus design, that's the subparagraph (i), and also the  
20 bus stop announcement system, and paragraph (ii) is:

21 "providing facilities ... to ... enhance safety,  
22 such as facilities and installation that can reduce  
23 potential fire hazards on all new buses."

24 So the emphasis is on the fire hazards.

25 And paragraph (iii) is on:  
26

1 "Allowing foldable bicycles which ... will not  
2 cause ... hazard to other passengers ..."

3 Again a service facility.

4 (iv) is about providing passenger seating  
5 facilities.

6 And then over the page it's about passenger  
7 information:

8 "the new franchise will enhance the regulatory power  
9 of the Commissioner over the type, form and manner of  
10 information to be provided by KMB to passengers to  
11 ensure provision of suitable service information to  
12 passengers through better means ..."

13 (ii) Providing real-time bus arrival information  
14 through website and smartphone application, and  
15 installing display panels at suitable bus stops ... for  
16 disseminating such information."

17 Now these two paragraphs are, again, about service,  
18 providing passenger information, and even in provision  
19 of passenger information you can see the Commissioner is  
20 exerting its regulatory power as to what to convey to  
21 passengers.

22 So even from the agreement perspective, this is not  
23 about safety, this is about providing sufficient  
24 information to passengers, it is about service.

25 And the next one is the enhancement of government  
26

1 regulation. The first one is about publishing the  
2 service pledge, the time frame for responding to  
3 complaints, and also the achievement rates of passenger  
4 service pledge.

5 The second about is the financial, strengthen  
6 control or regulation over the financial and accounting  
7 arrangements of KMB.

8 The third is about conducting open tendering  
9 requiring KMB to reluctant open tendering for all  
10 material procurement contracts.

11 Lastly, it is about the improvement in environmental  
12 performance, in terms of the air quality, low-emission  
13 buses, et cetera.

14 Now in all these new clauses there was nothing, or  
15 there was no clause whatsoever about the enhancement of  
16 the black box requirements or black box capability in  
17 all these clauses. Do you agree?

18 MR JULIAN KWONG: Chairman, yes, I agree.

19 CHAIRMAN: In fact there is only one mention of a safety  
20 issue, and that is in relation to fire prevention.

21 MR JULIAN KWONG: Chairman, yes. Related to fire hazards  
22 and also it mentioned that the new franchise will  
23 empower the Commissioner to require KMB to provide  
24 facilities and installation for enhancement of bus  
25 safety, but this clause does not explain what these  
26

1 facilities are.

2 CHAIRMAN: The reference to fire hazard is a requirement to  
3 isolate the engine, is it not, that had been provided  
4 earlier for Citybus? There had been engine fires, and  
5 this was a way of reducing the risk from engine fires.

6 MR JULIAN KWONG: Chairman, I have not studied this. That  
7 could be the case, but my interpretation is that when we  
8 talk about fire in a bus, we also need to consider the  
9 speed of evacuation of bus passengers, and there may be  
10 other possibility of having a fire, although it is a bit  
11 remote, say, for example, a bus colliding with  
12 a dangerous goods vehicle, with combustible materials.

13 So the whole subject of fire hazards, I think it can  
14 be very wide, and of course it is a specialised subject.  
15 But certainly this is of interest to us as well as  
16 a potential safety risk. Thank you.

17 MS MAGGIE WONG: Mr Kwong, I know I am a bit out of sequence  
18 now, because I have taken you to the clauses that the  
19 government proposed to KMB, or requiring KMB to include.  
20 But I wanted to show you back a document as to what the  
21 government knows or rather what the government set out  
22 as to the public concerns, and whether it is properly  
23 reflected in the clauses themselves, and if I may take  
24 you back to the LegCo file, it is the SEC-2, page 799.

25 It is a document, a LegCo paper on the new franchise  
26

1 of KMB, in June 2016. It is the first page. The first  
2 page, the first paragraph set out what the paper is  
3 about:

4 "The government invited the public to offer views on  
5 the requirements of the new franchise for the bus  
6 network of The [KMB] ... This paper briefs members on  
7 the views received."

8 Now the public expressed a lot of views, and we can  
9 see at paragraph 4:

10 "A total of 135 submissions were received during  
11 public consultation. 27 of them were from [District  
12 Councils], different political parties, individual  
13 members of ..."

14 I'm sorry, it is page 799, paragraph 4.

15 CHAIRMAN: Thank you.

16 MS MAGGIE WONG: "A total of 135 submissions were received  
17 during public consultation. 27 of them were from  
18 [District Councils], different political parties,  
19 individual members of the [LegCo] and [District  
20 Council], as well as various groups. The remaining 108  
21 submissions were from individual members of the public."

22 And they set out in five categories what the  
23 comments are about, and summarised them in the annex.

24 I'm going to take you to the annex starting at  
25 page 802.

26

1 Over the page, in paragraph 4, there is a section on  
2 bus safety. And there are two suggestions, one is to  
3 monitor bus captains' driving behaviour more closely.  
4 Second, to improve safety facilities on buses, such as  
5 by installation of additional horizontal bars and  
6 stronger materials to build the bus body.

7 It appears both suggestions are not reflected in the  
8 franchise agreement clauses that we have just seen.

9 MR JULIAN KWONG: Chairman, I think this clause number 4,  
10 yes, I did read it at that time, and I would consider  
11 the two points very vague, which certainly did not  
12 reflect our concern, which I would consider to be more  
13 sophisticated. Thank you.

14 MS MAGGIE WONG: I think we have finished the KMB. And if  
15 I may just go back a little bit to the Citybus, for  
16 franchise 1 and franchise 2.

17 I think you have made submissions on Citybus for  
18 franchise 1 only. Because in the document you provided  
19 us I can only locate one submission in relation to  
20 Citybus on 16 September 2014. Is that correct?

21 That's in the MISC-2- bundle, at page 775.

22 MR JULIAN KWONG: Chairman. Yes. This was a submission  
23 made in 2014. So this was the first time we tried to  
24 make suggestions to government, taking the opportunity  
25 for the renewal of franchise of bus companies.

26

1 MS MAGGIE WONG: If I may --

2 CHAIRMAN: Give me a moment, please, while I locate the  
3 document.

4 MS MAGGIE WONG: Page 775.

5 CHAIRMAN: Yes.

6 MS MAGGIE WONG: This submission is in response to the  
7 public consultation paper by the government. And if we  
8 look at this document, at the second paragraph:

9 "The consultation document by government states that  
10 'the government's key consideration in granting or  
11 extending a bus franchise is whether a grantee is  
12 capable of providing a proper and efficient bus  
13 service'. We are concerned that other important values,  
14 notably road safety, quality of service, environmental  
15 friendliness and social responsibility, are not  
16 mentioned."

17 So you are responding first to the consultation  
18 document by the government, and second, you raise  
19 concern that the road safety and other issues are not  
20 clearly expressed in the consultation document such that  
21 you are not sure whether they gave sufficient importance  
22 to this issues; correct?

23 MR JULIAN KWONG: Yes, Chairman, that is the case. Because  
24 we interpreted the text in the government document as it  
25 was. So it didn't give any reference to safety. So we

26

1           have to raise it. But of course they can explain it.  
2           If they indeed consider that the word "proper" already  
3           covers safety, and they can explain that, I mean we will  
4           be happy to accept that. Thank you.

5       MS MAGGIE WONG: And on that page, paragraph 5, you  
6           mentioned that:

7                 "It is understandable that bus companies do not have  
8           sufficient incentives for many important initiatives.  
9           As stated in clause 17, this could be due to high  
10          operating costs and competitions. Yet it will not be  
11          acceptable to tolerate certain problems, in particular  
12          safety issues. In this respect government should not  
13          preclude providing more incentives through subsidies and  
14          partnership programmes."

15                I wanted to explore this paragraph with you. You  
16          made specific reference to safety issues that bus  
17          companies appear to lack sufficient incentives. And you  
18          suggest providing more incentive through subsidy and  
19          partnership programme.

20                So what suggestions are you making? What exactly  
21          are you suggesting here?

22       MR JULIAN KWONG: Chairman, in this clause I pointed out  
23          that safety is of paramount importance. It should not  
24          be sacrificed for reasons of, say, financial reasons,  
25          and I could see that the bus companies have been running

26

1 on a commercial basis, and they do not receive any  
2 financial subsidies, except for the elderly concession  
3 fare scheme in recent years. That is just an idea  
4 which -- and as I said, government should not preclude.  
5 I have not come to the point that government should, or  
6 what types of subsidies they should provide, but in  
7 general I'm looking into financial subsidies. But, of  
8 course, that means we are suggesting that this issue  
9 should be explored. But we have not studied this in  
10 more details. Thank you.

11 CHAIRMAN: What kind of incentives did you have in mind  
12 related to safety issues?

13 MR JULIAN KWONG: Chairman, I think there are many  
14 possibilities. For example, to understand what safety  
15 measures and what safety strategies we should introduce,  
16 we need to have quality data, and studies conducted. As  
17 I explained yesterday, we need to study these in  
18 details: historic crashes, injury mechanisms. And then  
19 also to work with the bus manufacturers, to tell them  
20 what kind of safety problems we are having.

21 Bus manufacturers have been producing buses  
22 according to standards. For example the European  
23 standards, the UN standards. They may not know what  
24 problems we are facing in Hong Kong.

25 So in order to change the design of a bus, we need  
26

1 research, the buses can cost more and so this would be  
2 areas, for example, where the government can perhaps  
3 help to finance, even for a certain -- may not be full  
4 subsidy, maybe in partnership, so government finance  
5 part of it, maybe the bus company also shared it. Thank  
6 you.

7 CHAIRMAN: But for what kind of safety provision?

8 MR JULIAN KWONG: Chairman, okay, for research into, say,  
9 the problem of the bus front, as I mentioned.

10 The bus front at the moment does satisfy European  
11 standards, or the UN standards, or there is no standard.  
12 But as I pointed out, there are safety issues.

13 So if we want to initiate a programme to redesign  
14 the bus front in cooperation with the bus manufacturers,  
15 then who would bear the cost? Because the bus would  
16 cost more, would be more expensive, and to do the  
17 research, it also would incur the cost. So that would  
18 be an example.

19 CHAIRMAN: The buses in Hong Kong are all made, are they  
20 not, by European manufacturers?

21 MR JULIAN KWONG: Chairman, yes. To my --

22 CHAIRMAN: Franchised buses.

23 MR JULIAN KWONG: To my understanding, yes. There are  
24 probably two dominant manufacturers, European, but based  
25 in the United Kingdom.

1 CHAIRMAN: Alexander Dennis, MAN, and Volvo; are those bus  
2 manufacturers?

3 MR JULIAN KWONG: Chairman, to my understanding, that is  
4 true.

5 CHAIRMAN: And the buses are designed to EU standards.

6 MR JULIAN KWONG: Chairman, to my understanding, yes, and  
7 also the UNECE, United Nations.

8 CHAIRMAN: Is there any other safety incentive that you  
9 suggest consideration ought to be given to government  
10 subsidising?

11 MR JULIAN KWONG: Chairman, for example concerning bus  
12 stops, as I mentioned, okay, bus stop -- at the moment  
13 they are subsidised by the bus companies, of course with  
14 revenues coming from the advertisement. And other  
15 changes to the bus interiors, et cetera. I cannot think  
16 about any more, but there should be many more which  
17 I think would be necessary. The ultimate idea is that  
18 we do not want the bus companies to be under  
19 unreasonable financial pressure because we want them to  
20 be able to make a profit, and to be happy, so that is  
21 the idea.

22 But I cannot provide more information at this stage.

23 CHAIRMAN: Well, perhaps there is one area you could help us  
24 with. The representatives of Citybus spoke about the  
25 proposals, considerations that seat belts be fitted for  
26

1           everybody. Their observation was, "Nobody will use  
2           them. If you are going to require us to install them,  
3           then government should subsidise them." Do you have  
4           anything to say about that?

5       MR JULIAN KWONG: Chairman, without going into details of  
6           this issue, I have read about the response from Citybus,  
7           I mentioned yesterday that we need to look at every  
8           safety provision in a scientific way, whether the  
9           measure does address the important safety issues we are  
10          facing, and seat belt certainly is an issue.

11           It is not incorrect what Citybus said, that  
12          passengers may not use them. If passengers do not use  
13          them it is not very satisfactory.

14           There are other measures we have discussed  
15          yesterday, such as the electronic stability control, and  
16          there are many other measures. However, every measure,  
17          if they are applied to every bus, it will cost. We need  
18          to select those measures which can help us to reduce the  
19          safety problem, especially those causing serious  
20          injuries and fatalities.

21           So the safety belt is certainly a possibility. But  
22          I have not studied the real financial implication. So  
23          I cannot comment on whether we are looking to devoting  
24          all the resources to seat belts. I would say that we  
25          should look at all the measures as a whole, and we need  
26

1 to carefully compare the different measures as regards  
2 the merits and the drawbacks, and ultimately the  
3 effectiveness. Thank you.

4 MS MAGGIE WONG: Thank you. And in this paper on page 775  
5 at the bottom, with the heading "Road Safety is of  
6 Paramount Importance", you made reference to certain  
7 statistics of Citybus at clause 6(c), and you made this  
8 observation that the government:

9 "... appears to quickly attempt to justify the  
10 figures by stating that 'This is mainly because most  
11 routes ... by Citybus ... are plying relatively [busy]  
12 road sections in the urban area. It is thus more  
13 [likely] for accidents to happen. Notwithstanding, most  
14 of the accidents are mild in nature. They involved, for  
15 example, injuries arising from passengers losing balance  
16 inside the bus compartment or on the stairway, rather  
17 than collision with other vehicles'."

18 And you state:

19 "We do not concur with this paragraph given the  
20 paramount importance of bus safety. In fact, the  
21 consultation document has not included breakdowns,  
22 analysis and trends of accidents involving the bus  
23 companies to substantiate the statement. We consider it  
24 necessary for the document to first provide figures on  
25 the number of buses involved in fatal and serious  
26

1 accidents, pedestrian accidents, multi-casualty  
2 accidents etc. Thereafter, risk factors should be  
3 discussed and feasible solutions ... and safety  
4 improvements under the new franchise."

5 So you expressed here that again what you have  
6 expressed similarly in the KMB, that you shouldn't look  
7 at one single parameter, but instead the consultation  
8 paper should provide more information on how the figures  
9 or the accident rates were arrived at; is that the point  
10 you were driving at?

11 MR JULIAN KWONG: Chairman, yes. This is exactly the point.

12 Because from the consultation document, it is obvious  
13 that it is far too simple. In my way of working, we  
14 need to look at historic accidents, and to learn from  
15 them. We also need to look at risk. Sometimes, for  
16 major risk, for example the bus falling off a cliff,  
17 these kinds of accidents do not happen all the time, but  
18 if it does happen, then the result can be catastrophic.  
19 So both historic accidents and risk we need to look at.  
20 But obviously the consultation document is far below my  
21 expectation. Thank you.

22 MS MAGGIE WONG: In fact, you made a suggestion at page 776,  
23 the recommendation section.

24 You stated there:

25 "We recommend that past accident data and potential  
26

1 safety risks of bus operation are further verified and  
2 studied in detail, with a view of identifying  
3 opportunities for improvements under the new  
4 franchises."

5 And you stated at the end:

6 "Consideration should be given to rewarding the bus  
7 companies for achieving pre-defined goals, such as  
8 reduction of certain accident types by 20 per cent per  
9 year."

10 And can I invite you to elaborate on this rewarding  
11 scheme that you are advocating?

12 MR JULIAN KWONG: Chairman, I think we discussed this point  
13 yesterday. It is a crude recommendation, but the whole  
14 idea is that we do not always talk about penalties, we  
15 also need to motivate and encourage bus companies and  
16 drivers to work together to achieve better safety.

17 As regards, for example, the reduction of certain  
18 accident types by certain percentage, I think this is  
19 also in line with the ISO 39001 philosophy I quoted  
20 yesterday, that we are looking to sustainable  
21 improvements of bus safety. In many of the discussions  
22 that I followed, it seems that the society, or  
23 government appears to be happy so long as the bus  
24 accident rates remain stable. For me that is not  
25 adequate. We want to look at sustainable improvements,  
26

1 especially in line with the safe system, and also the  
2 current trend globally from UN, from WHO, that we are  
3 targeting at no serious injuries or fatalities, rather  
4 than having the figure stable, and we are satisfied.

5 MS MAGGIE WONG: If I may summarise what you have stated in  
6 this paper, at pages 777 and 778, you made similar  
7 suggestions as you have in the KMB submissions in terms  
8 of the bus safety standard, the bus safety bus fleets  
9 and also the bus stop, as well as the ISO 39001  
10 standard. Can you confirm that?

11 First is page 777 at the top, recommendation on the  
12 ISO 39001 standard.

13 In terms of bus safety, in the middle, you made  
14 similar recommendation about comprehensive standard and  
15 driver monitoring system using modern technologies,  
16 including in-vehicle GPS and black boxes to be  
17 incorporated into franchise agreements.

18 And also page 778, the bus fleet bus safety  
19 suggestions which are similar to what we have seen in  
20 the KMB.

21 MR JULIAN KWONG: So Chairman, does the counsel want me to  
22 confirm these recommendations?

23 MS MAGGIE WONG: Yes.

24 MR JULIAN KWONG: Okay, Chairman, yes. These  
25 recommendations remain valid. As for the ISO 39001, as  
26

1 I mentioned yesterday, it is relatively new. For me  
2 that is certainly something to explore. My standpoint  
3 is always that we cannot impose something, and insist  
4 that something must be the right way to go. I would  
5 suggest that relevant parties, including government and  
6 bus companies explore this possibility, and whether this  
7 ISO would acceptable to them, whether they can implement  
8 them, or whether they would suggest equivalent standards  
9 which are in line with the same principles.

10 Where I see the value of this ISO is that it is set  
11 in a way that we give prominent attention to road safety  
12 management system involving the very high level, we look  
13 at sustainable improvements towards zero serious  
14 injuries and fatalities. It advocates plan, do, check,  
15 act cycle in line with other ISO standards.

16 But I understand there are many certification  
17 systems which companies nowadays have to follow, and  
18 sometimes I can understand some enterprises would  
19 consider that having a lot of certification, they to  
20 devote a lot of manpower, and ultimately we recommended  
21 this standard because we want to see a good result in  
22 terms of road safety.

23 We are not trying to advocate something which  
24 increases the workload, and perhaps it perhaps doesn't  
25 have an evident effect.

26

1           To conclude, I think these are all recommendations,  
2           but whether in the end that is practical, then I would  
3           invite the authorities and the bus companies to look at  
4           every recommendation in detail. Thank you.

5   MS MAGGIE WONG: We have seen this response to the public  
6           consultation. I'm going to take you to the SEC-2  
7           bundle.

8   CHAIRMAN: Before you do that, may I just ask you to revisit  
9           what is at page 776, your recommendation about  
10          considering rewarding bus companies for achieving  
11          pre-defined goals.

12          You went on to say that, understandably, there ought  
13          to be incentives for bus drivers, as well as bus  
14          companies.

15   MR JULIAN KWONG: Yes.

16   CHAIRMAN: We have received evidence that KMB and Citybus  
17          reached an agreement with the trade unions with this  
18          result, that as of 1 March, the bonuses that they  
19          allowed for, amongst other purposes, safety  
20          achievements, were amalgamated with what was called  
21          basic salary. So the bonuses became the salary.

22          If it be the case that that means that drivers no  
23          longer have a safety bonus incentive, what, if any,  
24          comment do you have to make about that?

25   MR JULIAN KWONG: Chairman, I am not in a position to  
26

1 comment on this.

2 In any case, whether this is an explicit bonus, or  
3 whether that is a penalty, after all, we want to see  
4 drivers voluntarily and happily seeing that it is their  
5 responsibility to drive in a safe way, and also  
6 according to the safety criteria we are advocating.  
7 That is a more complicated question as regard to the  
8 exact mechanism of how to reward them -- I can only say  
9 that that needs some study into whether we do achieve  
10 the results or not.

11 CHAIRMAN: As I understand what you were saying, is it is  
12 worth looking at incentivising bus companies but also  
13 incentivising drivers. If that has been removed, the  
14 bonus side of it has gone, is that a good or a bad  
15 thing? That's a simple enough question, isn't it?

16 MR JULIAN KWONG: Okay, Chairman. This is the first time  
17 I learned about this. Let me have a think.

18 CHAIRMAN: Well, let me suggest that we take the morning  
19 break now, and you can come back to us in 20 minutes.

20 Is it a good or bad thing, to remove from drivers  
21 the incentive of a bonus for driving safely.

22 20 minutes.

23 MR JULIAN KWONG: Thank you, Chairman.

24 (11.29 am)

25 (A short break)

26

1 (11.49 am)

2 CHAIRMAN: So, Mr Kwong, is it a good or a bad idea to  
3 incentivise bus drivers?

4 MR JULIAN KWONG: Chairman, first of all I would like to say  
5 this is a good idea.

6 Secondly, I would like to point out that the reward  
7 will also need to be in other form, for example the  
8 status of bus drivers, and we certainly need to increase  
9 the status of bus drivers, because they are doing a very  
10 good job of providing service for our population, and  
11 day by day and year by year.

12 The last point I would like to make is that any  
13 rewarding scheme will need to be carefully worked out.  
14 For example, if we just reward drivers for having no  
15 accidents, say for the past month or past year, then is  
16 it the best way? Having no accidents could be due to  
17 luck, or having an accident may not be due to his fault,  
18 it may be due to somebody's fault.

19 So whether the reward should be based on, say,  
20 driving most of the time, conforming to the company's --  
21 to the safety criteria we have been advocating, that  
22 would be a possible direction. Thank you.

23 CHAIRMAN: Ms Wong, do we have access to the material  
24 relating to, is it GreenRoad?

25 MS MAGGIE WONG: Yes, we can pull that up on screen. Thank  
26

1           you.

2           Mr Kwong, this is an article from the Straits Times  
3           that we extracted. And we can see, first of all, the  
4           title is "Tracker helps bus drivers to better their  
5           performance". I think it is a Singapore system, and if  
6           we roll it down, it is:

7           "The Tower Transit bus driver ... showing how his  
8           driving performance can be tracked and collated on  
9           a mobile phone app, which he can then review.  
10          A colour-coded panel in the bus will flash red, amber or  
11          green, according the driver's driving patterns."

12          So that's what we have discussed yesterday about  
13          a system where you can use a driver's app or driving  
14          habit to monitor the driving habit of a particular  
15          driver.

16          This is also based on the data extracted from the  
17          black box to analyse the data.

18          If we look at the article itself:

19          "The ... Anglo-Australian operator Tower Transit was  
20          prone to jerky stops and seat-sliding corning. His  
21          safety demerit score on the company's GreenRoad  
22          vehicle-tracking system was 165 last October -- more  
23          than eight times above the recommended 20."

24          And the system helps drivers -- not only for the  
25          company to monitor the driver's behaviour, but also

26

1 informs the driver as to how they behave by looking  
2 at -- each of them have their own mobile device.

3 So what do you say to this system?

4 MR JULIAN KWONG: Chairman, I think this system would be  
5 a good reference, but exactly how we do it, then of  
6 course that needs further examination. But I think the  
7 whole idea is that we -- the system is trying to  
8 encourage drivers, and also to make them feel that they  
9 are good professionals, and then if they have been  
10 driving in a safe way, then they would be very well  
11 respected professionals.

12 I think I have no -- well, I am positive about it,  
13 but just that we should explore this in more details.

14 Thank you.

15 MS MAGGIE WONG: Just for the record, we can see in the  
16 middle paragraph it started with the Tower Transit:

17 "Tower Transit said the GreenRoad telematics system  
18 had made the drivers smoother and safer on the road.  
19 Between last July and May this year ..."

20 Actually they have carried on this service for about  
21 a year:

22 " ... the system -- which tracks how a vehicle is  
23 driven in real time via GPS and sensors -- has  
24 significantly improved safety scores."

25 So it is not simply a one-off incident, they have  
26

1       been doing this constantly, so that when I showed you  
2       the article I thought I should let you know about this.

3             The company has 750 drivers, for the record.

4             And may I go back to your submission on Citybus, at  
5       MISC-2, page 779.

6             We have been through this, but I just wanted to  
7       alert you to what you have submitted earlier on. It is  
8       the passenger information. And one of the things you  
9       suggested in Citybus in that paragraph, "Passengers  
10      Information", is that most passengers would be content  
11     if they know the timetable of their buses.

12            And jump to the next paragraph:

13            "Notwithstanding the above progress, bus passenger  
14      information ... is not consistently provided."

15            Then you asked that there be more commitment to  
16      develop a modern integrated system:

17            "The lack of a modern real-time information system,  
18      at least for more major bus facilities, is far below the  
19      expectation for Hong Kong as an international city."

20            And you recommended that:

21            "Government negotiates with the franchisee  
22      a programme to initiate pilot projects and to develop  
23      a modern bus passenger information system."

24            So actually, the real-time bus information is part  
25      of the thing that you are advocating in relation to the  
26

1 Citybus, which at that time has not been fully  
2 implemented.

3 And if we may look at your submission on what is the  
4 government's attitude towards the public views. And if  
5 I may take you to SEC-2 bundle, page 655.

6 It is a paper, public consultation paper on  
7 requirements of new franchises.

8 This paper was issued in December 2014, setting out  
9 the outcome of the public consultation on requirements  
10 of new franchises, in relation to Citybus franchise 1.

11 And at the bottom, paragraph 3, we see the public  
12 consultation was between 25 June and 16 September 2014.  
13 And the Transport Department invited views from the 18  
14 district councils, the traffic and transport committees  
15 of the 18 district councils. Five district councils  
16 commented at their meetings. And over the page at  
17 paragraphs 4:

18 "A total of 47 submissions were received during  
19 public consultation. 18 of them were from political  
20 parties ... remaining 29 ... were from individuals."

21 They commented on three topics: service quality,  
22 fare concessions and government regulation.

23 And paragraph 5, the annex set out the major  
24 comments.

25 If we go to 657. Paragraph 3, it made suggestion on  
26

1 bus safety. And one of the suggestions is:

2 "to introduce monitoring mechanism to strengthen  
3 monitoring on the driving attitude of bus captains ...  
4 ... to improve on-board safety facilities ...  
5 ... to improve the management on ... safety  
6 equipment."

7 That's the major view expressed from the public  
8 consultation.

9 If we go to the minutes of the meeting, that is in  
10 SEC-2-bundle at page 93 -- sorry, before I go to that,  
11 there is another LegCo paper. It is at page 700.

12 This is also a paper on the background brief.  
13 Summarising the major views and concerns. And if I may  
14 just take you to paragraph 16, page 703. The heading is  
15 called:

16 "Driving safety of buses of NLB".

17 That is in reply in paragraph 15:

18 "In reply to a question raised by a member at the  
19 council meeting of 29 April 2015 regarding the driving  
20 safety of buses of NLB [that's the New Lantau Bus]  
21 subsequent to an accident happened in early  
22 April 2015 ..."

23 And if you see at the bottom of the footnote this is  
24 an accident where the NLB bus nearly fell off the hill  
25 on its way from Tung Chung to Tai O. It was suspected  
26

1           that there was a failure of the braking system.

2           " ... the Secretary for Transport and Housing ...  
3           said that all newly-recruited bus captains ... would  
4           receive training for three to five days ... and  
5           familiarise themselves with the bus ... routes ..."

6           And if we go to the next paragraph, it is the  
7           Secretary for Transport and Housing stating that:

8           " ... NLB had installed an electronic tachograph  
9           (commonly known as 'black box') on its whole fleet to  
10          record the operational data of vehicles to help monitor  
11          the bus captains' behaviour and investigate accidents."

12          So this paper is also touching on this black box  
13          requirement, as you can see from the Secretary for  
14          Transport and Housing's response.

15          And if we now go to the minutes of meeting on  
16          17 July 2015, that's at page 937 of the SEC-2-bundle.

17          That's a minutes of meeting on 17 July. If we go to  
18          page 943, if you read from paragraphs 11 to 16, the  
19          focus is on the provision of service of real-time bus  
20          arrival information, and not so much on the bus safety  
21          or other issues explored in the public views.

22          Can you see that? If you take your time to read  
23          that.

24       MR JULIAN KWONG: Okay.

25       MS MAGGIE WONG: Can you confirm that it is all about the  
26

1 real-time provision of service of the real-time  
2 information to the passenger, and not on the topic about  
3 monitoring of drivers' behaviour as reflected in the  
4 public views.

5 MR JULIAN KWONG: Yes, Chairman, I have been reading it on  
6 the screen.

7 MS MAGGIE WONG: Have you finished reading?

8 MR JULIAN KWONG: Yes, Chairman.

9 MS MAGGIE WONG: Can you confirm the statement that I made,  
10 that it is all about provision of real-time information,  
11 nothing about the bus safety monitoring of drivers'  
12 behaviour, in that regard?

13 MR JULIAN KWONG: Chairman, yes, from what I have been  
14 reading, this text is mostly related to the real-time  
15 information system.

16 MS MAGGIE WONG: Yes.

17 CHAIRMAN: That's nothing to do with monitoring driver  
18 behaviour, is it?

19 MR JULIAN KWONG: Chairman, no. I cannot see any.

20 MS MAGGIE WONG: Finally, if we go to the LegCo brief  
21 setting out the terms and conditions of the new  
22 franchise for Citybus, it is in TD-3 bundle, page 570.

23 This is a LegCo brief setting out the new franchise  
24 conditions of the Citybus and New Lantau Bus, and if we  
25 go to page 572 --

26

1 CHAIRMAN: What is the date of this document?

2 MS MAGGIE WONG: The date is 22 September 2015.

3 CHAIRMAN: Thank you.

4 MS MAGGIE WONG: And if we go to page 572, paragraph 5, it  
5 makes reference, first, to Citybus, the service  
6 performance, and over the page, NLB. And then at page  
7 574, the public opinion on bus service.

8 Down at paragraph 8 it sets out the new franchise  
9 conditions and commitments. Page 574, paragraph 8.

10 First, we see "Incorporating Franchise Conditions  
11 and Commitments of the Most Recently Granted  
12 Franchises".

13 And at the bottom:

14 "The government has secured the agreement of  
15 Citybus ... and NLB to accept fully the franchise  
16 conditions and service/facility commitments in the most  
17 recently granted franchises ..."

18 And in the section or paragraph 9 it sets out the  
19 new franchise conditions and commitments.

20 And it boils down to three. First, provision of  
21 real-time bus arrival information; second, fare  
22 concessions; and third, enhancement of regulation on bus  
23 service.

24 Paragraph 10 deals with the provision of real-time  
25 bus arrival information, but there is nothing there  
26

1 about bus safety issues.

2 If you take your time to read that.

3 MR JULIAN KWONG: Yes, Chairman, I cannot see anything  
4 referring to safety here.

5 MS MAGGIE WONG: The third condition is the enhancement of  
6 regulation of bus services at paragraph 15, page 577.  
7 Again, there is nothing there about bus safety issues,  
8 or monitoring of driving behaviour.

9 MR JULIAN KWONG: Chairman, yes, that's true.

10 MS MAGGIE WONG: Mr Kwong, if I may refer lastly, this is  
11 the last topic I'm going to take you to, to your  
12 document on 12 December 2014. That's in the MISC-2  
13 bundle, page 780.

14 This is a letter that you wrote to the Secretary for  
15 Transport And Housing commenting on the scope of the  
16 public transport strategy study. Page 780, at the  
17 bottom.

18 You stated there, first of all, about the safety  
19 performance and risk of public transport based on  
20 published accident statistics.

21 And at the bottom you mentioned that:

22 "... the PTSS [that's the Public Transport Strategy  
23 Study] should examine all opportunities afresh to  
24 improve safety and quality of service."

25 You quoted some examples, and one of them is:

26

1 "Black box and GPS driver monitoring system ..."

2 You stated that there should be:

3 " ... systematic monitoring of driving parameters  
4 such as speed, acceleration, braking etc to reduce the  
5 risk of all types of accidents. Such system would be  
6 operated in conjunction with new protocols eg speed  
7 restriction on high risk road sections and urban  
8 streets, gentler acceleration/deceleration values etc."

9 You were advocating there amongst other suggestions  
10 about improvement on the black box and GPS driving  
11 monitoring system?

12 MR JULIAN KWONG: Yes, Chairman. That is basically  
13 consistent with what we have been recommending in many  
14 of the papers we have been submitting to government or  
15 LegCo.

16 MS MAGGIE WONG: Thank you.

17 Chairman, I have completed my questioning. Unless  
18 I can assist further.

19 CHAIRMAN: Yes, there is one matter.

20 We have a letter, do we not, that Citybus put in, in  
21 which they were asked to confirm their commitment in  
22 relation to this franchise. Can you bring that up on  
23 the screen?

24 MS MAGGIE WONG: Yes.

25 I believe that's CTB-3 bundle.

26

1 CHAIRMAN: Thank you.

2 MS MAGGIE WONG: Page 582 to 585.

3 CHAIRMAN: Yes, that's what I had in mind.

4 MS MAGGIE WONG: If you see this, this is a letter from the  
5 Transport Department to Citybus concerning its  
6 commitment to provide real-time bus information. If you  
7 take your time to read this document, from page 582 to  
8 583.

9 MR JULIAN KWONG: Yes.

10 Yes.

11 MS MAGGIE WONG: So this letter made no reference whatsoever  
12 to the monitoring of drivers' attitude or the  
13 improvement on the black box requirement, or the GPS  
14 driving monitoring as you proposed eight months ago,  
15 more than eight months ago.

16 MR JULIAN KWONG: Chairman, I would like to note that, for  
17 example, in clause (b)(1) the term "safety enhancement  
18 features for new buses", that may be relevant.

19 CHAIRMAN: Sorry, clause what?

20 MR JULIAN KWONG: (b)(1), it is the top paragraph you are  
21 reading on the screen.

22 CHAIRMAN: Clause 7?

23 MR JULIAN KWONG: Clause 7 of the new franchise. The point  
24 number (1), that has the words "safety enhancement  
25 features". So ...

26

1 CHAIRMAN: Set out in annex 2. Do we have annex 2?

2 MS MAGGIE WONG: I believe that's the document we earlier --  
3 it is not in this bundle, or we have not been provided,  
4 but if we cross-reference to the earlier document, in  
5 TD-3. Page 614. TD-3, page 614. That's clause 7,  
6 provision of the facilities.

7 CHAIRMAN: Don't we have annex 3?

8 MS MAGGIE WONG: Not in this bundle, we have not been  
9 provided with annex 2 or annex 3. It is just the  
10 letter, and also page 586, the undertaking letter by  
11 Citybus.

12 But if we can cross-reference this clause with the  
13 TD bundle, we can find the relevant clause.

14 If we cross-reference to TD-3 bundle at 614.

15 CHAIRMAN: Yes.

16 MS MAGGIE WONG: And also 652, together.

17 Clause 7 is the provision of the facility.

18 Page 652, under clause 7, it sets out:

19 "The new sub-clause (1) empowers the Commissioner to  
20 require the grantee to acquire, provide, adopt, maintain  
21 or modify facilities, installation, fixtures ... on its  
22 buses to enhance safety ... including provision of  
23 barrier free facilities for the elderly and persons with  
24 disability."

25 So based on what we see, Mr Kwong, it has nothing to  
26

1 do with the driving monitoring behaviour.

2 MR JULIAN KWONG: Chairman, I would like to say, these  
3 clauses are not precise enough. As far as our comments  
4 were made, so it is not something exactly coinciding  
5 with our expectations. Although we understand that  
6 normally in such a public consultation there are many  
7 submissions, and ours is only one of those. Thank you.

8 MS MAGGIE WONG: That complete --

9 CHAIRMAN: Do we not have a similar letter from KMB where  
10 one has to see what was the commitment that isn't  
11 articulated in the franchise agreement, one has to look  
12 at the letter that is not a public document that passes  
13 between the bus company and the Transport Department?

14 Yes, it is on the screen now. This is what I had in  
15 mind. Can we scroll down to "Enhanced safety features".  
16 It is item (iii).

17 Is that at KMB volume 9?

18 MS MAGGIE WONG: Yes, that's the extract of the Transport  
19 Department's letter to KMB dated 10 March 2017.

20 Now, in relation to this, we can see that the KMB  
21 stated that under the enhanced safety features it  
22 simply -- at the bottom, (iii), electronic data  
23 processing device, and also the speed limiter, amongst  
24 other things.

25 So, in effect, electronic data processing device is  
26

1 a black box. But apart from stating there the  
2 installation of this device, there is nothing specific  
3 about what information should be contained in this  
4 device, to monitor the driver's behaviour?

5 MR JULIAN KWONG: Chairman, yes. These features quoted in  
6 the document, of course I appreciate them, they may be  
7 very relevant, and --

8 CHAIRMAN: They could be anything, couldn't they? Because  
9 we are not told what the enhanced feature is?

10 MR JULIAN KWONG: Chairman, yes. Everything can affect bus  
11 safety, but some are more important than the others, and  
12 I think this probably has not addressed some of our more  
13 major concerns.

14 CHAIRMAN: You were asking that there be real-time,  
15 automated monitoring of driving behaviour. And all we  
16 are told here is that an enhanced safety feature which  
17 this company has committed to is in respect of  
18 electronic data processing device, but utterly bereft of  
19 any stipulation whatsoever.

20 MR JULIAN KWONG: Chairman, that is true. That is lacking  
21 the reference for a monitoring system in conjunction  
22 with the development of safety criteria for bus driving.  
23 Thank you.

24 MS MAGGIE WONG: Thank you.

25 CHAIRMAN: You have concluded your questions?  
26

1 MS MAGGIE WONG: I have concluded my questions.

2 QUESTIONS FROM THE COMMITTEE

3 MEMBER AUYEUNG: Thank you, Mr Kwong, for coming yesterday  
4 and today to give us a lot of opinions.

5 I have do have two questions to seek your insight  
6 further.

7 The first one is regarding the Hong Kong different  
8 types of roads. As you can imagine, driving in New  
9 Territories is very different driving from driving on  
10 Kowloon side, or even the Hong Kong Island side. My  
11 question to you is, do you support further regulation or  
12 more clear-cut criteria to determine the type of buses  
13 to be driven on different types of road condition?

14 MR JULIAN KWONG: Thank you, Mr Auyeung. Certainly,  
15 different roads will have different safety implications  
16 on bus driving. And I believe at this moment already  
17 there have been some considerations on which types of  
18 buses, the size, and also sometimes the features to be  
19 incorporated into these buses for using a particular  
20 road.

21 For example, as I understand, new buses using roads  
22 on Hong Kong Island, with the risk of having tree trunks  
23 causing damage or injuries, now they have metal bars,  
24 like a tree guard. On expressway, only on certain  
25 roads, an expressway, is it permitted to use the larger  
26

1 size of the buses which can carry 148 passengers.

2 However, I think your question is showing a good  
3 direction, that perhaps we should look closer into this  
4 issue. Not only that we are looking to the type of  
5 buses in terms of size, capacity, and especially the  
6 length, we also need to look at it far closer. For  
7 example, I mentioned that rear-front collision is one of  
8 our major concerns, especially on high-speed road,  
9 because the upper deck front seat passengers cannot be  
10 protected by the seat belt alone if the bus collides  
11 with a container vehicle, for example.

12 So it seems that there needs to be much more  
13 elaborate thoughts on what types of buses should be  
14 allowed for certain routes, which is tied up with the  
15 risks we identified, both the theoretical risks and also  
16 the historic happenings.

17 Do I answer your question adequately?

18 MEMBER AUYEUNG: Yes, following similar thought, Mr Kwong,  
19 my second question is regarding comments you made  
20 earlier, that on narrow and hilly roads in Hong Kong,  
21 your recommendation was to reduce the driving speed, and  
22 also create more safety barrier. Would installing  
23 cameras produce similar results, in your thinking?

24 MR JULIAN KWONG: Do you mean cameras --

25 MEMBER AUYEUNG: To sort of deter drivers from  
26

1 over-speeding, or even catching people for driving over  
2 the speed limit?

3 MR JULIAN KWONG: Theoretically, that is a possibility.

4 I mean we are actually looking to a very simple  
5 objective. We want bus drivers to be particularly  
6 careful when they are passing through these critical  
7 sections of the road, because we cannot afford any bus,  
8 say, from falling off the cliff. To that aim, I think  
9 a camera can be a suitable measure, but bearing in mind  
10 that with current technologies, we can do it in a more  
11 efficient way.

12 So I think that would be my answer.

13 MEMBER AU YEUNG: Thank you.

14 Thank you, Chairman.

15 MEMBER LO: Thank you. We learned a lot from you in these  
16 two days. You covered a lot of ground: bus design, road  
17 design, management and monitoring systems, and many  
18 deserve further investigation.

19 I'm just wondering in your mind, can you identify  
20 one or two items which is a low hanging fruit, if you  
21 will, that the evidence is clear, and which is also  
22 appropriate for Hong Kong. So what are these one or two  
23 things, that are very clear we should do it ASAP?

24 MR JULIAN KWONG: Thank you, Professor. There are a number  
25 of areas which I have expressed I think clearly in all  
26

1           these documents.

2           The most imminent danger, as I see, would be the  
3           critical sections: some sections say along Peak Road, to  
4           give you an example. A cliff of 20 to 30 metres high,  
5           and we have so many buses going to The Peak nowadays,  
6           and also coaches, school buses, minibuses.

7           I mentioned yesterday that certainly we need to have  
8           a safety barrier. But we also understand that many of  
9           these roads are historic roads, and there needs to be  
10          funding, adequate investment. The immediate measures  
11          would be to raise the awareness of drivers and to set up  
12          the controls we mentioned.

13          The second issue I would like to point out, as I did  
14          already, is to reduce the risk of rear-front collisions  
15          on highways.

16          That can also be done immediately, by raising the  
17          awareness of drivers. And especially to identify those  
18          drivers who have a habit to follow the vehicle in front  
19          too closely, especially if their bus route is on  
20          a high-speed road, including expressway or other rural  
21          roads.

22          And I think that can help to reduce the risk.  
23          Because we know that these would be the accidents  
24          usually resulting in multiple casualties.

25          Other measures, other type of accidents, let me have  
26

1 a quick look.

2 CHAIRMAN: Take your time.

3 MR JULIAN KWONG: Yes. Okay.

4 Can I refer to my submission which is in bundle  
5 MISC-2. It is actually my submission report on bus  
6 safety, page 784, because this would remind me of the  
7 accidents I am trying to refer to.

8 Okay, the first one, passenger losing balance, is  
9 most frequent.

10 Raising the awareness of drivers, that could be  
11 implemented fairly quickly, I would suppose. We cannot  
12 reduce all the risk, but at least we can reduce it  
13 reasonably.

14 The second one, collision with pedestrians.

15 So again, we have talked about regulating the speed  
16 of buses in urban areas, particularly targeting drivers  
17 who are habitually going at grossly inappropriate speed.

18 The last one, I think the Committee would be  
19 particularly interested is, in rollover. I would like  
20 to point out that there are many scenarios of rollovers.  
21 And I would like to draw your attention, in the same  
22 document but to page 796. So these are all rollovers.

23 Rollovers can be due to a number of causes: driving  
24 the bus too fast around a bend is only one of the  
25 causes. Another cause, of course, is dropping off  
26

1 a cliff, that is clear enough. But there is another  
2 situation that a bus rises up the sloping end terminal  
3 of a safety barrier, and that already accounted for  
4 a number of bus rollover accidents in the past.

5 According to this table, the accident happening on  
6 14 January 2017, the Citybus rolled over on Lei Yue Mun  
7 Road at Lam Tin, the casualty, yes, it's correct, one  
8 fatal and 19 casualties, and the bus actually was  
9 launched by the sloping end of the safety barrier.

10 You can see that there is another situation, similar  
11 accident, in 2003, 17 October. On West Kowloon Highway.  
12 Again, that is related to the sloping end terminal.

13 And again, you can see on 12 June 2015, yes, this  
14 one again launched by the end terminal of the safety  
15 barrier, but there was no passenger, nobody injured, and  
16 few people realised this.

17 So end terminals, we need to look at this issue.  
18 And especially on a highway. Because sometimes a bus  
19 driver driving too close to the roadside, and  
20 accidentally the bus went up these terminals, and it can  
21 lead to rollover. So this is another issue which we  
22 need to pay attention to fairly quickly. Thank you.

23 CHAIRMAN: Mr Kwong, if there are any other final matters  
24 that you want to address, please do so now, otherwise we  
25 will thank you for your evidence.

26

1 MR JULIAN KWONG: Thank you, Chairman.

2 Actually, in the past two days I think what I need  
3 to express has been expressed.

4 I would just like to clarify some of my opinions in  
5 order that the concept and the idea is clear.

6 The first one relates to what I mean by highway, and  
7 what I mean by the urban road network.

8 Also in terms of Chinese, highway is (Chinese  
9 spoken), and urban street network, I would call it  
10 (Chinese spoken). We talk about having lower speed  
11 limit, and mostly we have been talking about the urban  
12 street network, or urban road networks, because we are  
13 talking about 30 kilometre per hour or 40 kilometre per  
14 hour speed limit.

15 I want to make it clear that yesterday I did not  
16 imply that highways should be subjected to such speed  
17 limit normally. Highways are roads linking urban areas,  
18 so usually there is a higher expectation.

19 The second point I would like to raise is that speed  
20 limits have to be reasonable and be consistent with what  
21 drivers expect, and what they perceive the environment.

22 So it is a very sensitive issue. And I do not wish  
23 to give the impression that whenever we find a problem  
24 then immediately we turn down the speed limit to a value  
25 which may become not quite reasonable.

26

1 CHAIRMAN: Perhaps in that context you might like to explain  
2 the 85th percentile approach to a speed limit.

3 MR JULIAN KWONG: Chairman, thank you.

4 We have a number of concepts in traffic engineering  
5 pertaining to speed. The main idea is that the speed of  
6 vehicles is not a single value. Usually we have to  
7 determine the speed profiles. That means, say, we look  
8 at 100 vehicles, and we would obtain the value we call  
9 it 85th percentile speed. For example, if the value is  
10 48 kilometres per hour, the meaning is that 85 per cent  
11 of the vehicles are going at or below 48 kilometres per  
12 hour. And at the same time, 15 per cent of the vehicles  
13 go at a speed higher than 48 kilometres per hour.

14 But I would also like to say that 85th percentile  
15 speed is not the only value we are looking at.  
16 According to the document which the chairman quoted  
17 yesterday, the document entitled "Setting Local Speed  
18 Limit, 2013", issued by the Department for Transport of  
19 the United Kingdom.

20 In this document actually they are advocating the  
21 use of average speed. Average speed is clear, meaning  
22 that, say, we have all the 100 vehicles counted, and we  
23 have the average of the speed. So they are not using  
24 85th percentile speed anymore to determine speed. They  
25 are now actually using average speed.

1           The idea is the average speed probably reflects what  
2           the majority of sensible drivers wish to travel at, the  
3           speed which they want to travel at.

4           The significance is that if we use 85th percentile  
5           speed, then it may not be in favour of, say,  
6           pedestrians. If we use average speed, that can be  
7           a better solution.

8           Up to now I presume that in Hong Kong we have not  
9           been discussing this very important point enough. It  
10          will have a major implication of how we should set speed  
11          limits.

12       CHAIRMAN: Can you give us the reference to where average  
13          speed is addressed in this document?

14       MR JULIAN KWONG: Thank you, Chairman. Can I first get the  
15          bundle.

16       CHAIRMAN: Can you help us which document you are looking  
17          at?

18       MS MAGGIE WONG: I think it is SEC-3, page 1003.

19       MR JULIAN KWONG: Chairman, may I draw your attention to  
20          page 1014.

21       CHAIRMAN: Yes.

22       MR JULIAN KWONG: Clause 35.

23       CHAIRMAN: Perhaps you would be kind enough to read out the  
24          relevant part.

25       MR JULIAN KWONG: Yes, Chairman. It states that:

26

1 "Mean speed and 85th percentile speed ... are the  
2 most commonly used measures of actual traffic speed.  
3 Traffic authorities should continue to routinely collect  
4 and assess both, but mean speeds should be used as the  
5 basis for determining local speed limits."

6 CHAIRMAN: Perhaps you would read on at 36.

7 MR JULIAN KWONG: Yes:

8 "For the majority of roads there is a consistent  
9 relationship between mean speed and 85th percentile  
10 speed. Where this is not the case, it will usually  
11 indicate that drivers have difficulty in deciding the  
12 appropriate speed for the road, suggesting that a better  
13 match between road design and speed limit is required.  
14 It may be necessary to consider additional measures to  
15 reduce the larger than normal difference between mean  
16 and 85th percentile speeds or to bring the speed  
17 distribution more in line with typical distributions.  
18 The aim for local speed limits should be to align the  
19 speed limit to the conditions of the road and road  
20 environment."

21 CHAIRMAN: Thank you.

22 MR JULIAN KWONG: Chairman, should I continue?

23 CHAIRMAN: Yes, please do.

24 MR JULIAN KWONG: Thank you. As you can see, speed limits,  
25 it has a lot of considerations based on sound traffic  
26

1        engineering considerations. I do not wish to go into  
2        too much into this, but just to point out that this  
3        document would be a particular reference if we want to  
4        explore this subject in more detail.

5            And after that, I would just like to clarify a few  
6        other points.

7            The first one refers to speed humps. I would like  
8        to quote the Chinese name. I would consider speed humps  
9        to be (Chinese spoken).

10           Another name is (Chinese spoken). The meaning of  
11        this is that speed hump is a physical measure, that it  
12        protrudes above the ground. And we have other concepts,  
13        like rumble strips, or transverse markings. And these  
14        would be more or less visual -- for the markings, they  
15        are more or less visual measures. That means the  
16        drivers will not actually experience the uncomfortable  
17        feeling if they go at too high a speed over a speed  
18        hump.

19           I note that in some of the reporting that the speed  
20        hump was translated as (Chinese spoken). So that is in  
21        relation to my answer to the counsel yesterday, whether  
22        there should be a speed hump on Tai Po Road, and I was  
23        more on the conservative side yesterday, because  
24        I sensed that you were referring to having a physical  
25        measure above the ground, which can be 12 centimetres  
26

1 high. That would be a (Chinese spoken), or a (Chinese  
2 spoken), in Chinese. A speed hump.

3 But of course I am open to any ideas. I would like  
4 to clarify that according to my experience on main  
5 highways, usually we do not provide a speed hump as  
6 a physical, as such. Because if a vehicle approaches it  
7 too fast, then there is safety concern.

8 But sometimes we do provide speed humps on a main  
9 road, subject to certain conditions. Usually we would  
10 first convert the main road, the main highway into  
11 a special section. Because the main road is passing  
12 through a village or residential district. So I only  
13 want to clarify that I do not want to dismiss  
14 a proposal, say, by a district councillor, in  
15 a simplified way in this meeting. I'm open to any  
16 ideas. But just that there needs to be study in detail.

17 Just two more points.

18 Red light speed cameras can be a possibility in  
19 future to enhance road safety in Hong Kong.

20 In Hong Kong in the urban areas we have a lot of red  
21 light cameras. These cameras can only determine if  
22 a car jumps a red light. But imagine if the car passes  
23 through the signallised junction on Nathan Road, passes  
24 through a green light at 80 kilometres per hour. These  
25 cameras cannot enforce the law, because they only catch  
26

1 the drivers who jump the red light.

2 In countries like Australia, they have combined the  
3 function of the red light camera with the speed camera.  
4 So the same camera will catch drivers who either jump  
5 a red light, or who is adopting excessive speeds.

6 If the driver jumps a red light and at the same time  
7 the excessive speeds, he will get two tickets. In  
8 Australia this technology is called red light speed  
9 camera.

10 And I understand that the supplier of these red  
11 light cameras in Hong Kong, they already can have the  
12 speed enforcement function incorporated into the same  
13 cameras. Of course subject to further study, I think  
14 that would be a very good solution, in addition to any  
15 lower speed limit we propose, to enhance the safety of  
16 urban streets in Hong Kong.

17 The last point I would like to clarify refers to the  
18 bundle MISC-2. Page 808.

19 Referring to this photograph, Chairman was very  
20 interested in this, because we have always been  
21 discussing about the possibility of vehicles or a bus  
22 falling off the cliff. And yesterday, I have expressed  
23 the point. We have been raising these questions for  
24 a long time, sometimes letters, but sometimes we just  
25 post it on our website without notifying anybody. And  
26

1 I also raised it through the district council.

2 I believe that government has paid attention to this  
3 issue and over the years, there are many similar issues  
4 on our roads with safety problems. Some have higher  
5 priorities, and some have lower priorities, and I would  
6 like to acknowledge that government has been paying  
7 attention to many of these issue, especially on bridges.  
8 Because after the accident on Tuen Mun Road, many of our  
9 bridges have been --

10 CHAIRMAN: You are referring to 2003?

11 MR JULIAN KWONG: Yes, Chairman.

12 That is the continuous programme. I would just like  
13 to acknowledge that since then, and over a long time,  
14 our bridges, which is also another source of potential  
15 catastrophe, have been equipped with safety barriers of  
16 adequate protection.

17 And also we discussed that there is a new  
18 consultancy by government on road safety hazard. And  
19 our organisation is aware of this consultancy, and it  
20 appears it is exactly this consultancy which is going to  
21 address this particular problem.

22 The last point I would like to make is that probably  
23 many of these problems are on existing historic roads,  
24 and certainly that needs adequate funding for  
25 improvements, rather than using the funding for regular  
26

1 maintenance or small-scale works.

2 Certainly, I think we would be in a position to  
3 continue addressing these issues and to draw the  
4 attention to stakeholders and government.

5 Thank you very much.

6 CHAIRMAN: If I may say so, Mr Kwong, you have timed your  
7 conclusion perfectly. But we thank you for your  
8 evidence, we will now adjourn these proceedings, and  
9 resume at 2.30, when we will receive the evidence of  
10 Mr Alok Jain.

11 MS MAGGIE WONG: Yes, thank you.

12 CHAIRMAN: Thank you very much for all the time you spent  
13 assisting the Committee in providing your evidence.

14 Thank you.

15 MR JULIAN KWONG: Chairman, thank you very much, it is  
16 a pleasure, and also thank you to the counsel and all  
17 the supporting staff and the members. Thank you.

18 CHAIRMAN: Thank you. 2.30 pm.

19 (1.00 pm)

20 (The luncheon adjournment)

21 (2.30 pm)

22 EVIDENCE FROM FORMER KMB EMPLOYEE: MR ALOK JAIN

23 CHAIRMAN: Good afternoon.

24 MR JAIN: Very good afternoon.

25 CHAIRMAN: Thank you, Mr Jain, for accepting our invitation  
26

1 to attend to give evidence to assist this Committee in  
2 its considerations of the factors relevant to our making  
3 recommendations to enhance bus safety.

4 I'm going to ask Ms Wong to begin asking you  
5 questions.

6 MR JAIN: Thank you, Mr Chairman.

7 Examination by MS WONG

8 MS MAGGIE WONG: Good afternoon, Mr Jain. Thank you for  
9 coming. I'm counsel acting on behalf of the Committee,  
10 I'll be asking some questions in relation to the safety  
11 features of franchised buses.

12 May we start off with some introduction.

13 Mr Jain, you have made two submissions in response  
14 to the letters from the Committee to you. The first  
15 submission you made is dated 25 May 2018. That is in  
16 bundle FE-1, page 39.

17 The second submission, we can find that also in the  
18 same bundle, at page 44, dated 18 June 2018. I'll be  
19 asking questions based on the two submissions that you  
20 have made.

21 If I may set out your background, first, Mr Jain,  
22 you have provided us with a curriculum vitae, and the  
23 curriculum, or the CV, can be found at page 46-1, bundle  
24 FE-1.

25 Mr Jain, you are currently the managing director of  
26

1 Trans-consult Asia, a management consulting firm,  
2 specialising in traffic and transport advisory, new  
3 technology, data analytics and clean fuel technologies.

4 Is that correct?

5 MR JAIN: That's correct, counsel.

6 MS MAGGIE WONG: I believe you have worked in the MTR  
7 Corporation in Hong Kong, or the KCR Corporation for  
8 12 years.

9 MR JAIN: That's correct, counsel.

10 CHAIRMAN: Can we have the time period, please.

11 MR JAIN: I joined them in 1997 and I left them in 2008.

12 MS MAGGIE WONG: If I may take you to your CV at page 46-5,  
13 it set out, I believe, the period and the work -- and  
14 your position at the time you worked for MTRC and the  
15 Kowloon Canton Railway Corporation. It is stated there  
16 as 2006 to 2008, as general manager, marketing,  
17 transport division, correct?

18 MR JAIN: That's correct.

19 MS MAGGIE WONG: Over the page, 46-6, you mentioned  
20 something about the development of a real-time passenger  
21 information display system.

22 CHAIRMAN: Before we get to that, can we establish Mr Jain's  
23 academic qualifications.

24 MS MAGGIE WONG: Yes.

25 Mr Jain, can we go to your academic qualifications  
26

1 at page 46-8.

2 MR JAIN: Should be in the back, actually.

3 MS MAGGIE WONG: 46-8. It is right in the middle. Academic  
4 qualifications and professional training.

5 Mr Jain, I believe you obtained a bachelor of  
6 engineering, civil engineering, from Indian Institute of  
7 Technology in India.

8 MR JAIN: That's correct.

9 MS MAGGIE WONG: Then in 1994, I believe you obtained  
10 a master's programme, also on transportation engineering  
11 from Asian Institute of Technology, Thailand.

12 MR JAIN: That's correct.

13 MS MAGGIE WONG: In 2005 you have taken an integrated  
14 management course for senior executives, in the Richard  
15 Ivey School of Business.

16 MR JAIN: Correct.

17 MS MAGGIE WONG: Those are the academic qualifications you  
18 have done. I believe you are also a member of the UITP.

19 MR JAIN: That's correct.

20 MS MAGGIE WONG: Can you explain a little bit about this  
21 organisation?

22 MR JAIN: Sir, UITP is actually a French acronym for  
23 International Association of Public Transport. It is  
24 based out of Brussels and it has close to 1,000 members,  
25 over 100 countries, and in Hong Kong MTRC, and KMB --

26

1 KMB used to be a member, I'm not aware if they are still  
2 a member, but MTR is a member of UITP.

3 MS MAGGIE WONG: If we may go back to the page where we  
4 talked about the MTR Corporation, where you referred to  
5 the development of a real-time passenger information  
6 display system. 46-6. Right above the year 2004 to  
7 2006, there is a paragraph stating that you led the  
8 conceptualisation to the implementation of a real-time  
9 broadcasting system which was winner in best networking  
10 category and best lifestyle category.

11 That section. Is it in relation to the development  
12 of that system for the MTRC?

13 MR JAIN: This was KCRC at that time, yes. And this was  
14 known as Newslane Express.

15 CHAIRMAN: What information did the system deliver?

16 MR JAIN: Sir, this was basically in-train on-board  
17 television screens which provided infotainment which  
18 included programming, news, as well as passenger  
19 information.

20 CHAIRMAN: What kind of passenger information did it  
21 provide?

22 MR JAIN: On a normal operational day it would provide what  
23 is the next station, and some educational messages  
24 about, you know, watch for the platform gaps, stay away  
25 from the doors, and things like that. During non-normal  
26

1 operations days, when we had an incident, this means was  
2 also utilised for directing passengers in the right  
3 direction.

4 MS MAGGIE WONG: That was in 2006 to 2008?

5 MR JAIN: That was when I was heading the marketing  
6 department.

7 MS MAGGIE WONG: And then if we go to page 46-3 you were  
8 the --

9 CHAIRMAN: 46-3? Thank you.

10 MS MAGGIE WONG: You were employed as --

11 CHAIRMAN: Ms Wong, I'm not sure if it is your microphone or  
12 the angle you are at the microphone, but the sound is  
13 muffled when it comes from your direction.

14 Can it be moved around? Is it volume sensitive?

15 MS MAGGIE WONG: Maybe I'll raise my voice. Is that better?

16 CHAIRMAN: Yes.

17 MS MAGGIE WONG: Mr Jain, if you look at page 46-3, it  
18 relates to your employment at Kowloon Motor Bus, and you  
19 were employed as the head of planning and development  
20 between June 2013 to December 2015.

21 MR JAIN: That's correct.

22 MS MAGGIE WONG: Then you were promoted to be the deputy  
23 operations director between January 2016 and  
24 December 2016.

25 MR JAIN: That's correct.

26

1 MS MAGGIE WONG: In your CV I believe you also stated that  
2 you spearheaded research and development work on  
3 implementation of technology, data analysis, and SMART  
4 mobility.

5 CHAIRMAN: Where do we see that?

6 MS MAGGIE WONG: I think it is --

7 MR JAIN: Those are the areas I'm working on -- I mean,  
8 I these days work on.

9 MS MAGGIE WONG: Maybe I'll find the reference in due  
10 course.

11 But you were also Associate Professor in  
12 institutions in Hong Kong.

13 MR JAIN: Assistant Professor, yes.

14 CHAIRMAN: Professor of what?

15 MR JAIN: I have been teaching in Urban Planning Department  
16 in Hong Kong University.

17 CHAIRMAN: Over what period?

18 MR JAIN: I started teaching in 2004, and I still do some  
19 part-time subjects. Guest lectureship.

20 CHAIRMAN: What is the ambit of what you teach?

21 MR JAIN: Public transport operations and planning,  
22 primarily.

23 MS MAGGIE WONG: You set out your academic engagements at  
24 page 46-8 at the bottom, stating that you are part-time  
25 Assistant Professor, Department of Urban Planning, Hong  
26

1 Kong University, from January 2007, to present.

2 MR JAIN: That's what I just mentioned.

3 MS MAGGIE WONG: The earlier reference, Mr Chairman, is at  
4 page 46-1. At paragraph 2. The last line:

5 "He spearheaded the R&D work on the implementation  
6 of new technology, data analytics and SMART mobility."

7 CHAIRMAN: Before you move on, what is "SMART mobility"?

8 MR JAIN: Primarily use of technology in transport  
9 operations.

10 CHAIRMAN: Is this in the period 2013 to 2016?

11 MR JAIN: That's correct. Primarily up to 2015. Yes.

12 MS MAGGIE WONG: Can you explain a little bit more on the  
13 use of technology in transport operations? What does it  
14 cover?

15 MR JAIN: So I was involved in the early discussions for  
16 real-time operation management system, the telematics,  
17 I also led a contract, which never completed, which was  
18 about putting this data analytics platform within KMB.  
19 SAP was our consultant at that time, and we were putting  
20 the whole data into one platform, creating a data  
21 warehouse and data extraction system.

22 MS MAGGIE WONG: Yes. I believe you are currently  
23 a consultant for the Land Transport Authority or  
24 undertaking consultancy studies for the Singapore Land  
25 Transport Authority; is that correct?

26

1 MR JAIN: I have not been directly engaged by Land Transport  
2 Authority but I'm working with a consulting firm  
3 advising LTA.

4 MS MAGGIE WONG: Yes, and what is the scope of the advice?

5 MR JAIN: I'm bound by confidentiality rules there,  
6 unfortunately. But it relates to public transport  
7 operation and management.

8 MS MAGGIE WONG: It relates to public transport operation?

9 MR JAIN: Yes.

10 MS MAGGIE WONG: And Mr Jain, may I now go to your  
11 submissions. Your first submission dated in May 2018,  
12 dated 25 May 2018, in FE-1, page 39.

13 Mr Jain, in your first submission at paragraph 2 --  
14 you started at page 39 explaining your involvement in  
15 KMB as head of planning and development department, and  
16 the scope of your work. I can see that it includes  
17 "technological applications in relation to our  
18 activities and data management".

19 That would include the telematics and real-time  
20 monitoring system you referred to.

21 MR JAIN: Not precisely. Telematics and real-time  
22 operations management system had two aspects, one was  
23 the hardware part of the services -- three aspects,  
24 hardware part, software part and the data handling part.  
25 And I was primarily involved from the data handling  
26

1 perspective.

2 CHAIRMAN: What was the hardware? What was that?

3 MR JAIN: The hardware was supplied by Openmatics. This was  
4 a telematics device which was being installed on the  
5 buses. And then at the back end, the ROM system, which  
6 was the software aspects of data extraction from this  
7 telematics device, and putting that into a real-time  
8 operations management system, and the third part was how  
9 to analyse this data and then extract intelligence and  
10 knowledge out of it.

11 CHAIRMAN: Let's deal with them one at a time.

12 Hardware, Openmatics, what was the equipment? Take  
13 it slowly.

14 MR JAIN: Well, it is commonly referred to as a black box in  
15 common parlance. This is --

16 CHAIRMAN: What was its technical name?

17 MR JAIN: It is a CAN bus system which is something, as far  
18 as I understand, which sits on the engine, connects to  
19 the engine, collects all the operational information  
20 about the bus, vehicle performance.

21 CHAIRMAN: What kind of data?

22 MR JAIN: It has speed-related information, acceleration,  
23 deceleration, braking, tilting, fuel consumption,  
24 location.

25 CHAIRMAN: What was the name of the model?

26

1 MR JAIN: I can't recall the name of the model.

2 CHAIRMAN: Software. What was the software?

3 MR JAIN: The software at that time, the intent was to  
4 develop it in house and it was termed as real-time  
5 operations management system. ROM for short.

6 CHAIRMAN: How was it to work?

7 MR JAIN: So telematics device was supposed to transmit data  
8 on a near real-time basis to back end OCC, operation  
9 control centre, and this ROM system was supposed to  
10 translate this data into understandable or  
11 comprehensible format, and then there was a platform for  
12 data analytics which will then allow us to analyse all  
13 this data and create, put it into our planning  
14 parameters when we were doing the bus route planning,  
15 scheduling, rostering, and all those things.

16 CHAIRMAN: Where was the operation control centre?

17 MR JAIN: The intent was to incorporate it into Lai Chi Kok  
18 Centre.

19 CHAIRMAN: How was the data to be transferred from the  
20 telematics to the operation control centre?

21 MR JAIN: It was over a GSM network using the mobile  
22 technology basically, 3G technology.

23 CHAIRMAN: That's the system that mobile telephones used?

24 MR JAIN: That's correct, yes.

25 CHAIRMAN: So that is the software side of things. And then  
26

1 finally, what was to be the data analysis?

2 MR JAIN: So until then, a lot of data in KMB was residing  
3 in silos in individual departments. They were  
4 collecting -- for example, engineering information was  
5 available in engineering, operational information was  
6 available in the operations department, and they were  
7 all in different systems. The plan was to put this all  
8 into a single data warehouse and create a single version  
9 of truth.

10 CHAIRMAN: What use was to be made of the data contained in  
11 this single data warehouse?

12 MR JAIN: So there were three stages. The first stage was  
13 to establish the static, what is real, what is happening  
14 on ground. The second stage was to put into some level  
15 of modeling, where we could use it for planning  
16 purposes, in short term. And the third objective,  
17 eventually, was to take it into a predictive level,  
18 where we could apply statistical tools and do some  
19 forward projections.

20 CHAIRMAN: What use was to be made of the first step, the  
21 real time?

22 MR JAIN: That was primarily for management information  
23 purposes, as well as for any investigations, reporting,  
24 so on and so forth.

25 CHAIRMAN: Investigations into what?

26

1 MR JAIN: For example we used to receive a lot of passenger  
2 complaints about services, we could go back and look  
3 into the data and verify that information.

4 CHAIRMAN: So if the complaint had been made that the bus  
5 had been driven at an excessive speed and braked  
6 harshly, could that be investigated by analysing the  
7 data that had been put into this single data warehouse?

8 MR JAIN: Potentially, yes.

9 CHAIRMAN: That's a response to a complaint. Was there any  
10 plan to use the data proactively?

11 MR JAIN: So the second stage was where we went into  
12 real-time operations management system, because once we  
13 built the data models on the historic data we could  
14 translate the similar level of information and analyse  
15 on a real-time basis, and the idea was of course to  
16 monitor the whole operation on a real-time basis using  
17 what we normally call an exception management, where  
18 anything that goes beyond the threshold of normal  
19 operation you start to actively manage it.

20 CHAIRMAN: How was it envisaged, if it was, that this  
21 approach could address the manner in which a bus was  
22 doing driven?

23 MR JAIN: For example, if any bus that was being driven  
24 beyond the parameters that were set as normal operation,  
25 then it would raise an alert, and normally the  
26

1 companies, or examples that I have seen around the  
2 world, they use this green, amber, red approach. So  
3 green is normal operation, anything that goes on the  
4 outlines of threshold boundaries it starts to raise the  
5 alert as an amber, and then of course once it crosses,  
6 it is a red alert. So at that time some intervention is  
7 necessary.

8 CHAIRMAN: Was it envisaged that this alert raised by  
9 a parameter being breached would occur real-time?

10 MR JAIN: The intent certainly at that time was that.

11 CHAIRMAN: When did discussions about the use of telematics  
12 in this way first begin in which you were involved?

13 MR JAIN: The discussion regarding this started most likely  
14 before I joined. But when I joined the company in 2013  
15 in my early part of the involvement we were already  
16 discussing this. So I can't remember the exact date  
17 when it started.

18 CHAIRMAN: Who was involved in such discussions?

19 MR JAIN: At that time -- the senior management was  
20 involved, my immediate superior was the transport  
21 development director, he was involved. IT department  
22 was involved, operation department was involved.

23 It was done across the company, multiple departments  
24 were involved into that discussion.

25 CHAIRMAN: Thank you, Ms Wong.

26

1 MS MAGGIE WONG: You said a lot of people were involved.

2 Can you give us an estimate of how many people?

3 MR JAIN: I think every different meeting had different  
4 number of people. It is not like a constant, but as  
5 I said, the departmental representations were -- these  
6 were the key departments who were involved in these  
7 discussions. There were quite a few, sizeable amount.  
8 Sometimes it used to be, depending on the issue, it  
9 could have been three or four people, or it could have  
10 been 20 people.

11 MS MAGGIE WONG: In any event, as you said in evidence, it  
12 was intended that the Lai Chi Kok Centre to put in all  
13 this data to be analysed by different departments'  
14 personnel; is that the idea?

15 MR JAIN: The idea was Lai Chi Kok would be the real-time  
16 operation management centre, the operation control  
17 centre, the data analysis was not necessarily at Lai Chi  
18 Kok Centre, it would be company wide.

19 MS MAGGIE WONG: So it is simply a centre to keep the  
20 information, or do you mean the real-time monitoring  
21 would be carried out in the Lai Chi Kok Centre?

22 MR JAIN: Yes, real-time to be carried out at Lai Chi Kok --  
23 so this was more of screens and visualisations of where  
24 the buses are on a real-time basis, and of course data  
25 is processed through different servers and different  
26

1 processes within the organisations so data was meant to  
2 be available to a lot more people within the company.

3 MS MAGGIE WONG: If I can go to page 40, FE-1 bundle,  
4 paragraph 2. You mentioned in paragraph 2(a) about this  
5 real-time operational management system. And in (a) you  
6 mentioned you were:

7 "... involved in many meetings and discussions about  
8 the technical specifications, features, technology  
9 selection and so on in relation to ROM right after I  
10 joined the company."

11 But you were not involved in discussions related to  
12 funding, tendering and project management.

13 MR JAIN: Correct.

14 MS MAGGIE WONG: Is it the case that throughout the time you  
15 joined the company until the time you left, you were  
16 involved in this ROM project?

17 MR JAIN: I wouldn't say until the time I left, but during  
18 that period when it was being discussed as a part of  
19 implementation process, yes, I was involved in the  
20 project very actively.

21 MS MAGGIE WONG: And I notice in (i) of that paragraph (a)  
22 you stated that the primary reasons to implement the  
23 project were to improve safety through real-time alerts  
24 and feedbacks to bus captains.

25 The feedbacks to bus captains, can you tell us  
26

1           whether it is intended to be real-time feedback or a  
2           reactive feedback to bus captains after the complaint  
3           has been received.

4       MR JAIN:   There were two things that happened.   The idea was  
5           to develop a two-way communication system between the  
6           bus itself and the operation control centre, and the bus  
7           drivers were supposed to have what we call a DDU, driver  
8           display unit, and through this DDU there are two ways to  
9           intervene with a driver.   One is done at the bus level  
10          where the bus, you can pre-programme the parameters that  
11          bus -- any time transcends, it creates an alert for the  
12          driver.

13                The second level of alert could be triggered by  
14           somebody sitting in the operation control centre.   Let's  
15           say, for example, if a bus is running too fast, but  
16           still within the speed limit, and the on-board device  
17           does not detect any anomaly.   However, at the OCC,  
18           a supervisor detects that on a particular section the  
19           bus driver, probably because of weather conditions or  
20           because of any accident or road conditions, they should  
21           be driving slower, then a supervisor can technically  
22           intervene and alert the driver or remind the driver to  
23           go slow in that section.

24                So there are two levels of interventions that can be  
25           done.

1 CHAIRMAN: On the second intervention, that is the  
2 supervisor in the OCC, how would he communicate his  
3 intervention to the driver?

4 MR JAIN: So we had many options being discussed at the  
5 time. We were talking about just a display system. The  
6 second was we were also talking about an audio system.

7 CHAIRMAN: So there were two possibilities. One was through  
8 the display system or otherwise by audio?

9 MR JAIN: Well, display was almost there, and audio was  
10 considered as an additional possibility.

11 CHAIRMAN: Was audio going to be by radio or by some other  
12 means?

13 MR JAIN: Primarily by radio, or even 3G communication. We  
14 had not gone that far, I think, at that time.

15 MS MAGGIE WONG: You mentioned there were many meetings or  
16 discussions about this ROM features. Can you recall if  
17 there are minutes or documents recording what was  
18 discussed?

19 MR JAIN: There were a lot of presentations, if I recall,  
20 and there were e-mails post meeting summarising what was  
21 discussed, the key agenda, or key tasks to be done by  
22 respective people. But as formal minutes, as we know  
23 them, I cannot recall if they were prepared.

24 MS MAGGIE WONG: Yes.

25 CHAIRMAN: These presentations of which you say there were  
26

1           lots, were they in writing?

2       MR JAIN:   These were PowerPoint presentations.

3       CHAIRMAN:   On computers?

4       MR JAIN:   Yes.

5       CHAIRMAN:   Not on paper.

6       MR JAIN:   Primarily on computer, PowerPoint presentations.

7       CHAIRMAN:   Who made the presentations?

8       MR JAIN:   Sometimes IT department, sometimes operations  
9           department.

10      MS MAGGIE WONG:   Can you tell us who in the operations  
11           department would be responsible for compiling these  
12           presentations or materials?

13      MR JAIN:   Who in the operations?

14      MS MAGGIE WONG:   Or --

15      CHAIRMAN:   If you can't remember say so, but if you do, tell  
16           us.

17      MR JAIN:   There was a dedicated team of people in operations  
18           who were working on this.   They left the company.  
19           I can't recall the name immediately.   But there was  
20           a central team in the operations department, traffic  
21           department, which was looking at it.

22      MS MAGGIE WONG:   It is called the traffic department?

23      MR JAIN:   It was called the traffic section.

24      MS MAGGIE WONG:   Traffic section in the operations  
25           department?

26

1 MR JAIN: Yes.

2 MS MAGGIE WONG: You mentioned in paragraph (b) in line 3:

3 " ... the telematics data was still available even  
4 after the scrapping of the project, there was some level  
5 of monitoring but the real value of ROM system was  
6 'real-time' and that capability was sacrificed."

7 Now I would like to ask you this. What do you mean  
8 by "some level of monitoring" here?

9 CHAIRMAN: Before we get to it not being implemented, can  
10 you tell us how it came about that all this planning  
11 stopped? What happened?

12 MR JAIN: I was not involved in those discussions about  
13 scrapping this. But I do understand that ROM, because  
14 it was being developed in-house, it was running behind  
15 schedule.

16 CHAIRMAN: Yes.

17 MR JAIN: And that had caused some level of -- I'm looking  
18 for the right word -- some level of frustration within  
19 the company why we are not keeping up to the schedule,  
20 and then it was later announced that we are not going  
21 ahead with it anymore.

22 CHAIRMAN: Was this technology in any way linked to anything  
23 else that was being developed or used on the buses at  
24 that time?

25 MR JAIN: We were talking about a number of things that  
26

1           could happen on the buses. We were talking about having  
2           real-time transmission of fare collection information.  
3           We were talking about automatic people counters on board  
4           the buses, we ran some trials with some university  
5           professors on WiFi detection. Ultimately the idea was  
6           we could detect how many people were on board the bus,  
7           where they were on the bus, and then we could provide  
8           this information in advance to the passengers, so they  
9           knew whether they could get on the bus, or whether they  
10          can get a seat on the bus or not.

11   CHAIRMAN: Was there a system developed perhaps prior to  
12           when you arrived, of giving estimated time of arrival of  
13           buses?

14   MR JAIN: That capability was developed during my time.  
15           Actually the trial was launched in, if I recall  
16           correctly, 2014, last quarter, and then eventually it  
17           was rolled out in early 2015.

18   CHAIRMAN: And the equipment that was necessary to develop  
19           that system, was it in any way relevant to the ROM  
20           system?

21   MR JAIN: It is actually the same equipment.

22   CHAIRMAN: Yes. So it was another use of the data that was  
23           obtained?

24   MR JAIN: Correct.

25   MS MAGGIE WONG: Can you recall who announced or who  
26

1 conveyed the decision that the project would be  
2 scrapped?

3 MR JAIN: Nobody announced, as such. But when we knew, as  
4 I said in my letter, when Lai Chi Kok, the OCC, the  
5 facility was converted into office space, then it was  
6 kind of -- the message was clear. There was no formal  
7 announcement as such.

8 MS MAGGIE WONG: Okay.

9 MR JAIN: I cannot recall any formal announcement.

10 MS MAGGIE WONG: Thank you. About this real-time system,  
11 was it part of the function to monitor the driver's  
12 behaviour in their performance?

13 MR JAIN: Among other things, yes.

14 MS MAGGIE WONG: The reason I mentioned this is you  
15 mentioned GreenRoad, about different scorecard system.  
16 When you were thinking about this ROM system, or in your  
17 discussions, was this one of the ideas that your company  
18 at that time initially wanted to implement?

19 MR JAIN: That was certainly one of the intents.

20 Sir, in fact, when I mentioned improved fuel  
21 efficiency, this was directly linked to what we call  
22 eco-driving, green driving. There were a number of  
23 names you could call it, it is the same thing.

24 The idea was you could somehow nudge the drivers to  
25 drive in a better way on the road by creating some kind  
26

1 of a system where we could give them the feedback about  
2 how they are driving and whether they are outliers or  
3 whether they are falling within the normal pattern, or  
4 whether it's good behaviour or bad behaviour, and you  
5 could nudge their behaviour in a specific way without  
6 penalising them, and that would eventually yield some  
7 kind of fuel efficiency, because fuel efficiency is  
8 directly linked to acceleration and deceleration.

9 MS MAGGIE WONG: Yes. You mentioned about penalising them.  
10 What about rewarding them?

11 MR JAIN: At that time we didn't really go into details of  
12 this. The idea was not to penalise, that was certainly  
13 clear. And that was the kind of conversations we were  
14 having, but we were trying to generate the data how we  
15 were going to reward or whether we want to monitor.  
16 Those mechanisms we had not gotten around to.

17 MS MAGGIE WONG: Yes, but that idea was certainly conveyed  
18 during one of the meetings?

19 MR JAIN: Yes, we discussed those ideas, we discussed  
20 actually many possibilities at that time.

21 MS MAGGIE WONG: Yes --

22 CHAIRMAN: Did you discuss what parameters to stipulate?

23 MR JAIN: Basically we were looking at London as one of the  
24 examples at that time, and the way London does it is  
25 they basically look at all the -- they call it  
26

1 incidents, and anything that goes into the outliers of  
2 those thresholds, which is behavioural response such as  
3 acceleration, deceleration, braking, tilting, then the  
4 driver would get an incident on their record. And the  
5 less incidents they had, the better performance it would  
6 be considered for the driver.

7 CHAIRMAN: But did you consider stipulating excessive speeds  
8 at a certain level, or excessive braking or acceleration  
9 at certain levels? Did you condescend to that detail?

10 MR JAIN: We didn't put in the numbers, but we were trying  
11 to do a bit of statistical analysis, and at that time it  
12 was still being debated what kind of threshold or  
13 parameters or standard deviations we needed to look at.

14 Some discussions that did happen was about whether  
15 we should have a general blanket rule around the whole  
16 network, or whether we should define them on  
17 a route-specific, road-specific manner. Again, we were  
18 having those kinds of discussions.

19 MS MAGGIE WONG: You mentioned about route-specific manner.  
20 How do you pick the routes?

21 MR JAIN: Every route has different characteristics, whether  
22 they pass through traffic junctions, whether they pass  
23 through TST urban area, whether they are on highways, so  
24 the behavioural responses are different on different  
25 type of routes. So there are more chances for a driver  
26

1 to brake hard on a stop-and-go kind of environment where  
2 they are pulling in and out of lay-bys quite often and  
3 they have to watch out for other traffic, whereas on  
4 a highway those incidents are much less.

5 We were discussing at that time what is the best  
6 equitable way to define these parameters which could  
7 meet the expectations of the management as well as  
8 deliver real value in the end without upsetting the  
9 drivers.

10 MS MAGGIE WONG: May I go back to your paragraph (b) about  
11 there being some level of monitoring even after  
12 scrapping the project. What level of monitoring are we  
13 referring to?

14 MR JAIN: As I understand, telematics data are still being  
15 used but they are being used most as a post-event, or T  
16 plus 1, on the next day, or after the event has  
17 occurred.

18 MS MAGGIE WONG: So reactive rather than proactive?

19 MR JAIN: You can say that.

20 MS MAGGIE WONG: It also mentioned that the real value of  
21 the system is real time but that capability was  
22 sacrificed. So is what you are talking about reactive  
23 to the complaint rather than proactive --

24 MR JAIN: Yes.

25 MS MAGGIE WONG: -- in that sense?

26

1 MR JAIN: So data is available real time, but nobody is  
2 analysing this data in real time or reacting to this  
3 data in real time or quasi real time.

4 MS MAGGIE WONG: Yes.

5 MR JAIN: It is the kind of -- whether you can have  
6 a 20-second response or a 24-hour response.

7 MS MAGGIE WONG: In paragraph 3, starting from line 2, you  
8 refer to:

9 "Even at the time when KMB was drawing up the plans,  
10 we were drawing heavily on the experiences from Seoul,  
11 Singapore, London ..."

12 And just on this, what experiences are you drawing  
13 from these countries?

14 MR JAIN: So just before I joined, I understand that KMB  
15 senior management went on a study tour and they visited  
16 all these cities, they looked at the systems, and when  
17 we were designing -- we were having these meetings, we  
18 were extensively talking about what Seoul is doing, what  
19 London is doing, the best practices, and how we can  
20 adopt this best practices to bring to Hong Kong.

21 MS MAGGIE WONG: Can you quote an example? Like what  
22 experience are you deriving from Seoul or Singapore?

23 MR JAIN: For example, Seoul had done this central traffic  
24 management centre, TMC, and that was something that  
25 was -- our idea of doing at the OCC level, operation  
26

1 control centre level. Transport for London were  
2 actively managing their drivers' behaviour using  
3 telematics advice. That was something we wanted to  
4 bring over. So we were looking at different examples  
5 and how they could translate for our environment.

6 MS MAGGIE WONG: Yes. And when you discussed or when you  
7 had all these meetings, can you recall if it involved  
8 any participation of the Transport Department? Or did  
9 you relay the message that you are planning to do this  
10 with the Transport Department?

11 MR JAIN: I cannot recall exactly whether Transport  
12 Department was involved in any of this discussions, but  
13 I do feel that they were aware of what we were planning  
14 to do, because we made in those days a lot of public  
15 presentations to various chambers of commerces and all  
16 that, and we were talking about the future direction of  
17 KMB on how technology is going to transform the company.

18 MS MAGGIE WONG: You made a lot of public presentations?

19 MR JAIN: Me as well as other senior management of the  
20 company made on lot of presentations and we talked about  
21 these things.

22 MS MAGGIE WONG: "These things" is the ROM system?

23 MR JAIN: ROM was one of them. Estimated time of arrival,  
24 we were talking about, which was all centred around  
25 telematics device.

26

1 MS MAGGIE WONG: So in all these public presentations, you  
2 are saying some Transport Department people were  
3 present?

4 MR JAIN: I can't answer that authoritatively, but I would  
5 say this was public knowledge in a way, because we were  
6 not really trying to keep it under closed doors, so we  
7 were making public presentations.

8 CHAIRMAN: What you are saying was this was being  
9 disseminated widely and you would expect Transport  
10 Department might have heard about it?

11 MR JAIN: Correct.

12 MS MAGGIE WONG: Before I move on, because you made some  
13 references to this centralised management system, can  
14 I take to you a document. It is SEC-2 bundle. It is  
15 page 822.

16 CHAIRMAN: Ms Wong, I'm going to ask that we take a short  
17 adjournment, I would like to see if we can address the  
18 sound system, because we are getting a very muffled  
19 sound from Ms Wong, I see Mr Jain has the same  
20 difficulty. It may be the location of the speaker or we  
21 may need to swap the microphone.

22 May I ask that we address it and take five minutes.  
23 Feel free to leave the room if you want to, Mr Jain, but  
24 we will take five minutes. Thank you.

25 (3.15 pm)

26

1 (A short break)

2 (3.22 pm)

3 MS MAGGIE WONG: Mr Jain, I'm going to refer you to the  
4 Information Note by the LegCo. It is "Franchised Bus  
5 Services in Seoul and Singapore", and it is in the SEC-2  
6 bundle at page 822. It starts at page 822.

7 If we go to page 823, that's the start of the Seoul  
8 system. And over the page at page 825, paragraph 2.8 --

9 CHAIRMAN: Before we get there, what is the date of this  
10 document?

11 MS MAGGIE WONG: This document was made between 2014 and  
12 2015, although it does not actually bear a date. It is  
13 a research paper done by the LegCo Secretariat. But you  
14 can see the IN05/14-15.

15 MR JAIN: At the back it is dated 3 February 2015.

16 CHAIRMAN: Thank you very much.

17 Yes.

18 MS MAGGIE WONG: If we look at page 825 it talks about the  
19 establishment of the bus management system at 2.8:

20 "To coordinate bus services on a comprehensive and  
21 system-wide basis, the Seoul Metropolitan Government has  
22 established a new bus management system ... using  
23 advanced intelligent transport system technology ... GPS  
24 terminals installed in every bus allow a central bus  
25 control centre to monitor all bus locations and speeds,

26

1       adjust the number of buses travelling on any given  
2       route, communicate with bus drivers, and provide  
3       real-time information to passengers waiting at bus stops  
4       or checking bus schedules on the Internet."

5           Mr Jain, is this the system that you were referring  
6       to earlier on?

7       MR JAIN: It was a similar system, but if I may correct some  
8       of the things here. GPS terminals can't on their own  
9       allow all those things that are mentioned here.

10           GPS is just a location-based system.

11       MS MAGGIE WONG: Yes.

12       MR JAIN: So it has to be more than GPS, which usually is  
13       telematics. So I'm not sure whether they are referring  
14       to telematics there, but ...

15       CHAIRMAN: So GPS tells you where you are?

16       MR JAIN: Just the location.

17       CHAIRMAN: Then you need telematics to tell you speed or  
18       deceleration, acceleration?

19       MR JAIN: That's correct. The actual vehicle-related  
20       performance comes from an on-board device which is  
21       usually a telematics system. And telematics systems  
22       range from very simple type of devices to complex  
23       devices. Openmatics, the one that we are referring to  
24       here is quite a sophisticated one. But you can get  
25       a much simpler cheaper version of that device which can  
26

1           just give you basic information about the vehicles.

2           There are a lot of those available in the market too.

3   CHAIRMAN: Does the Openmatics model Mozart mean anything to  
4           you? Openmatics model, telematics, called Mozart?

5   MR JAIN: The only Mozart I know relates to music. I have  
6           not heard of that, Chairman.

7   CHAIRMAN: What about Bach? He is also a musician. Does  
8           that mean anything to you in terms of Openmatics?

9   MR JAIN: No. At that time we only referred to as  
10          Openmatics or telematics.

11   CHAIRMAN: Have you been invited to read the evidence that  
12          we received from the ZF engineer?

13   MR JAIN: I received it, Chairman, but that was late at  
14          night yesterday, and I didn't get much time to go  
15          through that.

16   CHAIRMAN: We have been told about two models that they  
17          produce, in the wrong chronological order. The first  
18          one was called Mozart, and then the second one was  
19          called Bach. In musical terms that is the wrong way  
20          around, isn't it?

21   MR JAIN: I can think of quite analogy to those things. The  
22          data they produced looked a lot like musical notes!

23   CHAIRMAN: Yes, Ms Wong.

24   MS MAGGIE WONG: Mr Jain, since we are on this Mozart and  
25          Bach business, can we go to BM-1, page 64.

26

1           This is a letter by a law firm acting for ZF, and  
2           Openmatics, to this Committee. It is a submission. The  
3           submission starts --

4   CHAIRMAN: Just give Mr Jain a moment so that the document  
5           can be put before him in paper form.

6   MS MAGGIE WONG: Mr Jain, if you would turn to page 65.

7           This is a reply by Openmatics to the questions raised by  
8           this Committee, and black is the question, the answers  
9           in blue are the answers provided by ZF and Openmatics.

10           If you look at the second paragraph it made  
11           reference to the fact that:

12           "Openmatics entered into a supply contract to  
13           deliver telematics systems, dated 16th of April 2013  
14           with Kowloon Bus Company ... and Long Win Bus ..."

15           So we can see the date there is April 2013.

16           I believe that's prior to the time you arrived.

17   MR JAIN: That's right. I joined in June 2013.

18   MS MAGGIE WONG: Yes, and they continue by stating that:

19           "Openmatics starting offering telematics services by  
20           using the first black box system called the 'Mozart  
21           Box'. Later on ... replaced ... by a successor platform  
22           black box called the 'Bach Box'. However, clients can  
23           use both systems in parallel as KMB does."

24           Mr Jain, I know you don't know much about the name  
25           of the black box system, but have you seen, during the  
26

1 time in one of your discussions, one of the black boxes?

2 Was that shown to you? The actual physical black box?

3 Was that shown to you?

4 MR JAIN: I can't recall, no.

5 MS MAGGIE WONG: Yes. So would it help if I showed you the  
6 photo? Would it remind you --

7 MR JAIN: But having said, I have seen black boxes. I have  
8 seen the device.

9 MS MAGGIE WONG: Yes.

10 MR JAIN: Not exactly by Openmatics in KMB context, but I've  
11 seen the device.

12 MS MAGGIE WONG: You have seen one, yes. And if we go to  
13 the next page at 66, it made reference to a driver  
14 feedback system, and the thresholds set by KMB for that  
15 vehicle, and it set out certain acceleration rates,  
16 deceleration rates and tilting angle and certain  
17 configuration of speed and speeding areas.

18 Do you know much about thresholds in this telematics  
19 system, Mr Jain, or setting up of thresholds?

20 MR JAIN: Well, one thing that stands out to me is tilting  
21 angle here.

22 MS MAGGIE WONG: Yes, why?

23 MR JAIN: That it is an outlier.

24 CHAIRMAN: The bus is already falling down, isn't it?

25 MR JAIN: That's right. 44 degrees is beyond control.

26

1 CHAIRMAN: So it is intended not to give any alarm?

2 MR JAIN: Possibly.

3 CHAIRMAN: You set a position that is beyond purpose.

4 MR JAIN: That's correct, yes.

5 MS MAGGIE WONG: What about the deceleration rates?

6 MR JAIN: Is this a global parameter or is this route  
7 specific?

8 CHAIRMAN: I think we are to assume it is global.

9 MR JAIN: I would assume that 2.3 in a sloping situation  
10 would be considered acceptable because that is sometimes  
11 needed in Hong Kong. On a flat road possibly this would  
12 be too much.

13 MS MAGGIE WONG: Thank you. And if we go to page 68, right  
14 above paragraph 4, there is a reference to the  
15 Openmatics -- what the Openmatics system installed at  
16 KMB can identify. It states that it can identify  
17 records of speeding recorded every second and stored  
18 together with the related GPS data. Malpractice of  
19 harsh braking --

20 MR JAIN: I'm sorry, I cannot locate where you are reading.

21 MS MAGGIE WONG: Page 68 -- I'm sorry about that, Mr Jain,  
22 the blue section, if you see the third paragraph:

23 "The Openmatics telematics system installed at  
24 KMB ..."

25 Do you see that?

26

1 MR JAIN: Yes, I have read it.

2 MS MAGGIE WONG: Thank you. It says:

3 " ... can identify:

4 Records of speeding; recorded every second and  
5 stored together with the related GPS data;

6 'malpractice' of harsh braking;

7 Abrupt acceleration;

8 The corresponding bus registration numbers with the  
9 assistance of other systems

10 The Openmatics telematics system installed at KMB  
11 cannot identify:

12 Route numbers of certain buses.

13 The data are collected as defined by the system.

14 Every second, the system collects the defined data and  
15 sends that data every 30 seconds -- if connected to  
16 Wi-Fi or to ... the defined FDP server. The information  
17 is also stored locally on the telemetry unit (black box)  
18 for 30 days."

19 I would like to ask a few questions about this  
20 system installed at KMB being able to identify the four  
21 matters.

22 Are these the four matters that in one of your  
23 discussions that you have explored as part of your  
24 real-time monitoring of the drivers' behaviour?

25 MR JAIN: As far as I understand, the telematics device

26

1 gives you the speeding -- not speeding data, but the  
2 speed data.

3 Also it gives you the braking performance, which you  
4 can define as harsh or non-harsh. But what you define  
5 them as are configurable parameters, whereas the data  
6 generated are the exact data from the device that are  
7 performance-related data.

8 Similarly, acceleration is given by them, but what  
9 is abrupt or what is non-abrupt are configurable  
10 parameters.

11 This is my understanding of their device.

12 CHAIRMAN: Yes, and we have seen that illustrated on  
13 a previous page where we see the data parameters that  
14 have been put into the machine, including that  
15 non-performing tilt angle.

16 MS MAGGIE WONG: So the clients can choose the parameters?

17 MR JAIN: So technically, these parameters can be  
18 route-specific, can be location-specific, and also you  
19 can design your thresholds based on specificity of  
20 a particular route or a particular road section, rather  
21 than having a global parameter.

22 MS MAGGIE WONG: Yes.

23 CHAIRMAN: Yes, so you could define your threshold depending  
24 on where the bus is?

25 MR JAIN: Correct.

26

1 CHAIRMAN: In other words, you know where its latitude and  
2 longitude is, you know that puts it in a 50-kilometre  
3 per hour zone, and you put a threshold at whatever you  
4 might decide, perhaps 55, but when it goes into a 70  
5 zone, you put another value, 75, perhaps.

6 MR JAIN: Absolutely, Chairman.

7 MS MAGGIE WONG: So in all these meetings you were  
8 discussing about these parameters and the capability of  
9 what the black box can do?

10 MR JAIN: That's correct, yes. What we were discussing at  
11 that time is how best to utilise this information to  
12 improve safety and improve the operation the  
13 performance.

14 CHAIRMAN: As you said, this had a monetary incentive  
15 because if you drive in a better fashion, you don't  
16 indulge in unnecessary acceleration, you don't brake,  
17 you come to a stop gently, then you use less fuel.

18 MR JAIN: Absolutely, Chairman.

19 MS MAGGIE WONG: And the second matter I would like to ask  
20 is this 30 seconds. According to this information, the  
21 data can be collected every second, but in here, the  
22 system only collects data every 30 seconds.

23 So this is also --

24 CHAIRMAN: No, it transmits data every 30 seconds.

25 MR JAIN: But that is also a configurable parameter. You  
26

1           can have a constant stream of data, or you can do every  
2           10 seconds, every 30 seconds, or you can even not have  
3           that transmitted.

4   CHAIRMAN: Yes, that was the effect of Mr Kulis' evidence,  
5           which you have yet to read. But that was what he said,  
6           that you can configure this as you can the other things.

7   MS MAGGIE WONG: That's what you earlier said, that's the  
8           benefit of the real-time capability that was sacrificed.

9           If I may go back to your submissions at FE-1,  
10          page 40. And we were on to these countries that your  
11          company at that time was deriving experiences from.

12          You also made reference to New Zealand, the  
13          GreenRoad.com where reference was made to bus companies  
14          having the advantages or benefit of the system and, in  
15          particular, halving of incidents of poor driving  
16          behaviour. And it also states that the accidents from  
17          collisions fell by half, while accidents caused by bus  
18          drivers plunged by 70 per cent.

19          At that time was this matter or this GreenRoad  
20          system discussed in one of the group meetings?

21   MR JAIN: Not exactly. This information is something that  
22          came to my knowledge only I think last year.

23   MS MAGGIE WONG: Last year?

24   MR JAIN: And I have quoted it here.

25   MS MAGGIE WONG: If I may show you an article about  
26

1 GreenRoad.

2 It is the article dated 12 July 2012, making  
3 reference to GreenRoad as "a leader in driver  
4 performance and safety management".

5 And in the second paragraph it states that:

6 "GreenRoad has already --"

7 CHAIRMAN: What is the date of this document?

8 MS MAGGIE WONG: 12 July 2012.

9 CHAIRMAN: Thank you.

10 MS MAGGIE WONG: In the second paragraph it states:
